VOLUNTARY ANNOUNCEMENT

TENDER AWARDED FOR THE ENGINEERING PROJECT OF MEISHAN SHUANGCHUANG CENTER PHASE II IN TIANFU NEW DISTRICT BY JIANGSU INTELLITRANS, A WHOLLY-OWNED SUBSIDIARY OF THE COMPANY

This voluntary announcement is made by Nanjing Sample Technology Company Limited (the “**Company**” or “**Nanjing Sample**”).

The board of directors (the “**Board**”) of the Company is pleased to announce that, on 23 November 2017, Jiangsu Intellitrans Company Limited (“**Jiangsu Intellitrans**”), a wholly-owned subsidiary of the Company, received the Tender Award Notice issued by Hebei Zhucheng Engineering and Tendering Consultation Co., Ltd. (河北築城工程招標諮詢有限公司). Jiangsu Intellitrans won the bidding for the electrical and mechanical integration project of Meishan Shuangchuang Center Phase II (Meishan Huawei Big Data Center) in Sichuan Tianfu New District (the “**Project**”), with a contract sum of RMB247 million.

BACKGROUND OF THE PROJECT

Meishan Huawei Big Data Center is located at the core area of the center group of Min Dong New Area, Meishan City, Sichuan Province, covering an area of about 96.84 mu. It integrates the application of big data, innovation of production, education and research, entrepreneurship incubation and personnel training. As a key construction project of Meishan City, Sichuan Province, Meishan Huawei Big Data Center invested RMB1 billion in the first phase of the Project and upon completion of the Project, it will be an important part of the Meishan Big Data Center. The Project mainly consists of jointly building a big data industrial park, jointly establishing a cloud computing data center, promoting the construction of a smart city and promoting the transformation of government informatization to the purchase of cloud services, build a big data platform to enhance the level of urban management and public services, build a

“**Internet + Create Guest**” platform and promote the development of urban innovation. Build intelligent support industries such as manufacturing service platform to help the transformation and upgrade of the industry in six areas. The Big Data Center will be positioned as double-live data center in Sichuan by Meishan City, and strive to become an important Internet node city in the Southwest.

The Project is one of the key regional big data center construction projects successfully completed by Nanjing Sample after the successful bidding of cloud computing big data industry pilot demonstration base in Sichuan Province in 2016, it is the second strong-strong cooperation between the Company and China’s Huawei in the cloud computing big data industry. The successful bid of the Project demonstrates the comprehensive service strength in cloud computing big data of Nanjing Sample, and will have a positive impact on the continue improvement of performance of the Company.
