#### **Overview**

#### **Business and Financial Overview**

The Group is an aluminium products manufacturer based in Guangdong Province, the People's Republic of China ("PRC"), with a large and diverse portfolio of high quality products. We currently manufacture three categories of products: (i) Electronics Parts, (ii) Construction and Industrial Products and (iii) Branded OPLV Products.

The total operating revenue of the Group for the year ended September 30, 2015 ("Year Under Review") was HK\$1,822 million (2014: HK\$2,827 million), representing a decrease of 35% as compared with the year ended September 30, 2014. The Group's overall gross profit margin stayed at 20% for the Year Under Review and was the same as the year ended September 30, 2014; and the net profit after tax attributable to shareholders has turned from net profit into a net loss position of HK\$337 million (2014: Net profit after tax HK\$2.6 million). The major reasons for the net loss were (i) reduction in the sales orders for Electronics parts and Construction and industrial products from major customers of the Group leading to an excess production capacity; ii) certain one-off adjustments including the write-off of investment in associate and the amount due from the associated company and the write off of trade receivables from Australian Customers; and (iii) the weak performance of the Australian Dollars ("AUD") in the Year Under Review.

Comparing the Year Under Review with the year ended September 30, 2014, revenue from the Electronics Parts segment, that from the Construction and Industrial Products segment and that from the Branded OPLV Products segment has dropped by 45%, 25% and 25% respectively.

Revenue contributions by respective segments for the years ended September 30, 2015 and 2014 are presented below:

|  | Revenue for the year<br>ended September 30 |                        | The percentage of total revenue for the year ended September 30 |        |

#### **Electronics Parts**

The Electronics Parts segment contributed approximately HK\$793 million to the total revenue of the Group, representing a decrease of 44% as compared with HK\$1,453 million for the year ended September 30, 2014 due to a decline in sales order from a major customer. Therefore, there was a slight decrease of gross profit margin from 25% to 22%.

#### **Construction and Industrial Products**

The revenue and gross profit margin of the Construction and Industrial Products segment are HK\$780 million (2014: HK\$1,041 million) and 18% (2014: 16%) respectively for the Year Under Review. There was a 33% increase in sales from customer in Hong Kong but a drop of 42% in the sales to Australia. As the selling price to the Australian market is in AUD, the continual weakening of AUD in 2015, together with increasing prices of aluminum and other raw materials, have hindered the export sales to Australian customers.

#### **Branded OPLV Products**

The Group has continued the Branded OPLV Products market in Mainland China by engaging new distributors for selling Branded OPLV Products. Sales declined from HK\$333 million in the year ended September 30, 2014 to HK\$249 million for the Year Under Review. The gross profit margin of Branded OPLV Products increased from 10% for the year ended September 30, 2014 to 16% for the Year Under Review. Facing the fierce competition in the door and windows market, along with the low gross profit margin and high marketing costs, the Branded OPLV Products segment continued to be loss-making operation in this fiscal year.

In order to enlarge the market shares, the Group (i) will continue to explore new customers especially in the Electronics parts segment in order to lessen the reliance on top customers; (ii) promote new products to Australian customers specifically those new products which are not subject to anti-dumping duties and; (iii) continue to look for other measures and opportunities that may minimize the impact of fluctuation of foreign currency to the Group's performance.

#### Cost of sales

With the significant drop in sales, cost of sales decreased by 36% from HK\$2,273 million for the year ended 30 September 2014 to HK\$1,460 million for the Year Under Review. This is in line with the decrease in sales from HK\$2,827 million for the year ended September 30, 2014 to HK\$1,822 million for the Year Under Review.

#### Gross profit

Despite of the drop of gross profit from HK\$554 million for the year ended September 30, 2014 to HK\$362 million for the Year Under Review, our gross profit margin remained at 20% for current and last fiscal years. Decline in sales of lower gross profit margin products and replaced with higher priced products have resulted the Company securing the gross profit margin for this fiscal year. Persisting unfavorable macro factors, including the volatility in each of the market we operate; the depreciation of AUD against our reporting currency which affected the selling price and the profit of the Group's export sales to Australia; and the uncertainty over the economic condition in China, have dampened consumer sentiment and reduced the demand of our products. While the strategy and action plans highlighted above to minimize the impact on the Group's profitability are being executed, it will take some time to adjust all the necessary measures.

#### Distribution and selling expenses

Distribution and selling expenses decreased by 32% from HK\$125 million for the year ended September 30, 2014 to HK\$86 million for the Year Under Review. The decrease was in line with the drop in sales, which led to a significant decrease in the transportation expenses and travelling expense.

#### Administrative expenses

Administrative expenses rose by 8% from HK\$484 million for the year ended September 30, 2014 to HK\$523 million for the Year Under Review. The increase was mainly due to one-off adjustments including the provision for impairment on prepayment to a supplier for purchase of raw materials, the write-off of investment in associate and the amount due from the associate company, and the write off of trade receivables of HK\$241 million arose from the transaction with the Group's former supplier and customer which are set out in note 2.1.1 of the Company's consolidated financial statement in the annual report.

#### Other income

Other income comprised sales of scrapped materials which was HK\$19 million for the Year Under Review.

#### Other losses – net

Other losses increased from a HK\$44 million loss for the year ended September 30, 2014 to a HK\$62 million loss for the Year Under Review. The increase was mainly due to the exchange losses arising from the devaluation of AUD against HKD as the Group had significant amount of accounts receivable due from Australia customers.

#### Finance income

Finance income mainly comprised interest income which was HK\$1 million for the Year Under Review compared to HK\$3 million in last fiscal year.

#### Finance costs

Net finance costs remained at HK\$15 million for current and last fiscal years.

#### Income tax expense

Our income tax changed from income tax expense of HK\$28 million for the year ended September 30, 2014 to HK\$23 million for the Year Under Review.

#### Currency translation differences

Currency translation differences was around HK\$31 million for the Year Under Review, which was mainly attributable to the weakening of AUD against the HKD.

#### **Prospects**

Sales of Electronics Parts continued to pick up with new products and new customers being developed. The Group will continue to strengthen its research and development capability to develop more new products with high quality to meet the market demand.

The Group will continue to look for opportunities to develop new customer base and new markets other than Hong Kong and Macau.

As disclosed in the announcement of the Company dated October 1 2013, the Company planned to relocate its current production facilities in Zengcheng in Guangdong Province to Nanyang City in Henan Province, the PRC and establish a new aluminium alloy production base there. With the new Nanyang facility, the Group can integrate better its existing production facilities and expand its production capacity further to meet the growing demand of high quality products.

Phase 1 of the Group's integrated manufacturing facility for aluminium alloy products in Nanyang begun production on October 23, 2015.

Details of the construction and commencement of the production of the Nanyang production facility are set out in the announcements of the Company dated April 8, 2015, October 23, 2015 and November 17, 2015.

On April 10, 2015, PanAsia Aluminium (Hong Kong) Limited ("PAHK"), a wholly-owned subsidiary of the Company, entered into an investment agreement with the Jimsar County Government by establishing and investing in a new wholly owned subsidiary with an estimated aggregate capital of at least RMB200 million (equivalent to approximately HK\$254 million) at Xinjiang to produce high-end aluminium rods and aluminium rolled products ("Xinjiang Project"). On December 18, 2015, the Group entered into an agreement with Jimsar Bureau of Land and Resources 吉木薩爾縣國土資源局("JBLR") by purchasing a piece of land in that region as consideration of approximately RMB3.6 million (equivalent to approximately HK\$4.4 million), which was waived by the JBLR.

Aluminium ingots are the principal raw material for the Group's production process. The Company smelts the aluminium ingots and turns them into aluminium rods which incurs high cost and wastage. The establishment of a production base in Jimsar of Xinjiang would enable the Group to produce aluminium rods by skipping the ingot smelting process and save production costs and time. It is also expected to provide a more stable source of supply of raw material to the Group.

Details of the investment agreement for the Xinjiang Project are set out in the announcement of the Company dated April 13, 2015.

The Group has entered into a conditional sales and purchase agreement to dispose of its equity of OPLV (Nanyang) Doors and Windows Systems Co., Ltd and OPLV Architectural Design Pty Ltd subsequent to the year-end date of the Year Under Review. Details of the disposal of the OPLV are set out in the section "Events after the reporting period" in the notes to the consolidated financial statements of this annual report and the announcement of the Company dated December 28, 2017.

#### **Liquidity and Financial Resources**

The Group principally finances its operations through a combination of shareholders' equity, internally generated cash flow and borrowings. As at September 30, 2015 the Group had HK\$41.3 million cash and cash equivalents (2014: HK\$387.1 million) and had HK\$8.6 million fixed bank deposits (2014: nil), HK\$154.6 million pledged bank deposits (2014: nil), interest-bearing borrowings of HK\$404.8 million denominated in Renminbi ("**RMB**") and United States Dollars ("**USD**") (2014: HK\$480 million denominated in RMB and USD) and obligation under finance leases of HK\$1.8 million denominated in HKD (2014: HK\$7.7 million denominated in HKD).

#### **Charges on Asset**

HK\$8.5 million (2014: HK\$9.0 million) of land use rights, HK\$21.1 million (2014: HK\$24.5 million) of buildings and HK\$162.5 million (2014: HK\$162.4 million) of trade receivables of the Group were pledged as security for the Group's bank borrowings.

#### **Capital Structure**

As at September 30, 2015 and September 30, 2014, the Company's issued share capital was HK\$120,000,000, divided into 1,200,000,000 shares of HK\$0.1 each.

#### Foreign Exchange and Other Risk

We continued to receive AUD and USD from our sales to major customers during the Year Under Review, while most of the Group's purchases of raw materials were settled in RMB. As RMB is not a freely convertible currency, any fluctuation in exchange rate of HKD against RMB may have impact on the Group's results. We hedged AUD exchange risk against HKD during the Year Under Review. We purchased plain foreign-exchange forward contracts to hedge the Group's exposure to foreign-exchange risk and did not enter into any high-risk derivative instrument contracts during the Year Under Review.

The Group is exposed to commodity price risk because aluminium ingots are the major raw materials of the Group's products. Any change in price of aluminium could affect the Group's financial performance. The Group has entered into future contracts traded on the Shanghai Futures Exchange in order to mitigate the risk arising from fluctuation in aluminium price.

#### Significant Investment, Material Acquisition and Disposal

During the financial year ended September 30, 2014, PanAsia Aluminium (China) Co., Ltd ("PACL") entered into an agreement with a supplier for acquisition of equipment and machinery for an aggregate consideration of RMB145.3 million. On February 2, 2015, a supplemental agreement was entered into with the supplier to amend the total consideration for the acquisitions from RMB145.3 million (equivalent to approximately HK\$183.5 million) to RMB85.3 million (equivalent to approximately HK\$106.7 million). Details of the acquisition of equipment are set out in the announcements of the Company dated July 3, 2014 and February 12, 2015.

On April 8, 2015, PACL entered into a construction contract with 河南冠亞建築工程有限責任公司 (the "**Contractor**") by constructing and building three CNC workshops of the Group's production facility at Nanyang, with total consideration of approximately RMB56.9 million (equivalent to approximately HK\$71.9 million). On November 17, 2015, PACL further entered into another construction contract with the Contractor by constructing and building a workshop at the Group's production facility at Nanyang, with total consideration of approximately RMB46.6 million (equivalent to approximately HK\$57.6 million). For details, please refer to the announcements of the Company dated April 8, 2015 and November 17, 2015.

On April 10, 2015, PAHK entered into an investment agreement in respect of the Xinjiang Project. According to the investment agreement, the Group would purchase land of approximately 200 mu (畝) (approximately 133,000 square meters) Xinjiang Project and the land would be developed in two phases within 16 months. On December 18, 2015, the Group entered into an agreement with JBLR by purchasing a piece of land in that region as consideration of approximately RMB3.6 million (equivalent to approximately HK\$4.4 million), which was waived by the JBLR. Details of the investment agreement for the Xinjiang Project are set out in the announcement of the Company dated April 13, 2015.

#### **Capital Commitments**

Capital commitments contracted by the Group but not yet provided for in the consolidated financial statements as at September 30, 2015 were approximately HK\$180 million (2014: HK\$163 million), which was mainly related to the acquisition of machineries in the PRC.

#### **Contingent Liabilities**

As at September 30, 2015, the Group had no contingent liabilities (2014: Nil).

#### **Employee Information and Remuneration Policies**

As at September 30, 2015, the Group employed approximately 3,900 staff (2014: 4,700). The Group's remuneration package is determined with reference to the experience and qualifications of the individual employee and general market conditions. The Group also ensures that all employees are provided with adequate training and continued professional opportunities according to their needs. During the Year Under Review, the Group incurred staff costs (including Directors' emoluments) of HK\$261 million (2014: HK\$287 million).

#### Investigation

As disclosed in the annual report of 2014, the auditor of the Company has identified certain matters ("Matters") during the course of its audit of the consolidated financial statements of the Company for the year ended September 30, 2014 and an investigation on the Matters ("Investigation") by an independent professional advisor ("IPA") was launched. The Investigation was completed on August 30, 2017. Details of the key findings of the Investigation are set out in the announcement of the Company dated October 6, 2017.

The Company's management ("Management") has acted in compliance with and fully co-operated with the IPA during the Investigation. All information has been provided to the IPA with regards to the Investigation to the extent that such information existed and was available; interviews were arranged for the IPA to the extent that those arrangements were possible.

Findings of the Investigation and relevant steps taken

The findings of the Investigation that concluded on August 30, 2017 and the relevant steps taken which are relevant to the year ended September 30, 2015 are summarized below:

#### 1. Inventory – Aluminium Ingots

As disclosed in the annual report 2014, the Group had prepaid RMB31.6 million (equivalent to approximately HK\$40 million) to a new major supplier ("**Supplier A**"), which was one of the largest aluminium ingots vendors of the Group since August 2013. The Group also had aluminium ingots in-transit of RMB15.8 million (equivalent to approximately HK\$20 million) to be received from Supplier A as at the same date.

In May 2015, a claim was lodged by the Group against Supplier A through legal proceedings to recover the outstanding balances paid to Supplier A since the Group had not received all its purchases of aluminium ingots from the Supplier A. On December 29, 2016, the claim was ruled in favor of the Group. Subsequently, the Group entered into a settlement arrangement with Supplier A whereby Supplier A (or **Supplier A's shareholder**) to pay HK\$6,866,000 and dispose of the 8,885,000 shares in the Company held by Supplier A's shareholder to the Company or designated person as instructed by the Company. HK\$6,866,000 was received by the Group from Supplier A's shareholder in August 2017. However, the Management considered it is impracticable that the 8,885,000 shares in the Company held by Supplier A's Shareholder could be disposed of in view of the suspension of trading of shares of the Company and it is unlikely to estimate the fair value of the shares to be disposed of at this stage. Accordingly, the impairment provision amounted to RMB13 million (equivalent to HK\$16 million) has been included in the administrative expenses during the Year Under Review (see Note 19). The Management is of the view that such impairment is not substantial to cause material adverse change to the Company's business and financial condition.

In view of the above, the Management has implemented measures to enhance the internal control to prevent similar incident from happening in future. There are now independent review procedures adopted by the factory, operations management department and finance department. For example, the smelting production line will conduct physical count of the aluminium ingots on a monthly basis. Personnel from the smelting production line will provide its records for the operations management department to maintain. The operations management department will in turn provide the finance department with all documents supporting the receipt of aluminium ingots for the finance department to review. There are also procedures for reviewing the output rate of production of aluminium bars. The operations management department would review the same every month and prepare reports on monthly consumption analysis for aluminium ingots and aluminium scraps consumed. The Management will then review such reports. If the reports indicate that the output rate and the monthly consumption is out of the norm, the operations management department will investigate and report to the Management who will take any necessary steps to deal with any irregularity.

### 2. Relationship with Australia Customer A (and Certain Customers in Australia) The Group had total trade receivable balances of approximately HK\$297 million due from its major Au

The Group had total trade receivable balances of approximately HK\$297 million due from its major Australia Customers, namely, Australia Customer A, Australia Customer B and Customer C as at September 30, 2015.

As disclosed in the annual report 2014, the Management is aware that Pan Manqing ("Ms. Pan"), sister of Marcus Pan ("Mr. Pan"), the former chairman of the Company, held 70% of the shareholding of Australia Customer A, a customer of the Group during the Year Under Review, from July 11, 2014 to November 20, 2014. As such, the Management is of the view that Ms. Pan was an associate of a connected person and Australia Customer A also became a connected person of the Group. There is no evidence indicating that Ms. Pan was holding Australia Customer A on behalf of the Mr. Pan.

The current board of directors of the Company comprising Ms. Shao Liyu, Mr. Zhu Hongtao, Mr. Chan Kai Lun Allan, Mr. Cosimo Borrelli, Ms. Chi Lai Man Jocelyn, Mr. Mar Selwyn, Mr. Chan Kai Nang and Mr. Leung Ka Tin ("**Current Board**") did not consider Australia Customer A and Australia Customer B as related parties of the Group, as the Group did not have significant influence over them. Therefore, sales to Australia Customer A and Australia Customer B are exempted from the disclosure requirements under Hong Kong Accounting Standards 24 "Related Party Transactions".

The Management was not aware of any evidence indicating that Australia Customer B and Customer C were connected persons or related parties, as respectively defined in the Listing Rules and Hong Kong Financial Reporting Standards.

As a result of the claims and winding up proceedings filed by the Group against Australia Customer A and Australia Customer B, both companies were placed into voluntary administration ("**Liquidation**") in August 2015. Up to the date of this report, the Group has collected and recovered from the Liquidation process a total amount of approximately AUD25 million (equivalent to approximately HK\$139 million) from Australia Customer A and Australia Customer B. No recovery has been made from Customer C. A write off of approximately HK\$174.1 million was made as at September 30, 2015. As of the date of this report, the Liquidation is still in progress.

#### 3. Mobile business (Sponsorship of a concert)

During the year ended September 30, 2014, the Group invested HK\$17.5 million in Leading Sense and its subsidiaries ("Leading Sense Group"), which were engaged in manufacturing and trading of mobile phones ("Mobile Business"). In addition, the Group has also purchased certain inventories and properties, plants and equipment and provided manpower to support the production of the Mobile Business. These advances had been recorded by the Group as amount due from an associated company. The Company has obtained a legal advice that the investment in the Leading Sense Group was not a connected transaction of the Group under Chapter 14A of the Listing Rules.

As disclosed in the annual report 2014, since January 2015, no management financial statements of the Leading Sense Group were submitted to the Group and the Management was not able to contact the other shareholders of the Leading Sense Group or the accountant of the Leading Sense Group. In light of the circumstances, the Management ceased funding to the Mobile Business so as to avoid further losses to be incurred.

In accordance with HKAS 36, discontinuation of the Mobile Business is an indicator of impairment of the investments in the Leading Sense Group and the properties, plants and equipment purchased.

As a result the investment in an associated company of HK\$5,893,000 and amount due from an associated company of HK\$44,841,000, after taking into account the subsequent settlement received from Leading Sense Group, had been written off and charged to the administrative expenses for the year ended September 30, 2015.

#### **Pre-emptive Rights**

There is no provision for pre-emptive rights under the Articles of Association or the laws of Cayman Islands, which would oblige the Company to offer new shares to existing Shareholders on a pro-rata basis.

#### **Share Option Scheme**

On January 18, 2013, the Company adopted a share option scheme ("Share Option Scheme") whereby the Board can grant options for the subscription of our shares to the employees, managerial staff and senior employees and those other persons that the Board considers that they will contribute or have contributed to the Group (the "Participants") as described in the Share Option Scheme in order to serve as compliment and to reciprocate their contribution to the Group. The maximum number of shares that can be issued according to the Share Option Scheme is 120,000,000 shares which is equivalent to 10% of the issued capital of the Company after completion of the global offering ("Global Offering", as defined in the prospectus dated January 23, 2013 (the "Prospectus"). The number of options that may be granted pursuant to the terms of the Share Option Scheme shall not exceed 10% of the issued shares immediately after the completion of the Global Offering. Unless otherwise approved by the Shareholders in general meeting, the number of shares that may be granted to any one Participant under the options shall not exceed 1% within any 12-month period (other than those granted to the substantial shareholders (as defined in the Listing Rules), or the total number of shares that may be granted under the options to the independent non-executive Directors or any of their respective connected persons shall not exceed 0.1% of the shares in issue of the Company from time to time. There is no minimum period that the options must be held before they become exercisable, and the options granted shall be exercised within the period decided by the Board, however no options shall be exercised 10 years after they have been granted. The exercise price of the option shall be the higher of (a) the closing price of the shares on the daily quotation sheet of the Stock Exchange on the date of grant; (b) the average closing price of the shares on the daily quotation sheet of the Stock Exchange for the five business days immediately preceding the date of grant; and (c) nominal value of the share.

Each grantee shall pay a consideration of HK\$1.00 at the time the option is granted. The Share Option Scheme shall take effect from the date it is adopted and shall remain effective within a period of 10 years from that date.

Since the Share Option Scheme was adopted, no options have been granted.

#### **Share Award Scheme**

The former board of directors of the Company (the "Former Board") approved the adoption of the share award scheme ("Share Award Scheme") of the Company on March 3, 2014 (the "Adoption Date").

#### Who May Join

Employee(s) are selected by the Board pursuant to the scheme rules for participation in the Share Award Scheme (the "Selected Employee(s)").

#### The Purpose and Objective of the Share Award Scheme

The purposes of the Share Award Scheme are to recognize the contributions by Selected Employees and to give incentives thereto in order to retain them for the continual operation and development of the Group as part of talent retention program of the Group, and to attract suitable personnel for further development of the Group.

#### Operation of the Share Award Scheme

Bank of Communications Trustee Limited has been appointed as the trustee of the Share Award Scheme (the "**Trustee**"). Pursuant to the scheme rules and the trust deed entered into with the Trustee, the Trustee shall purchase from the market or subscribe for the relevant number of Shares awarded out of the Company's resources and shall transfer the relevant Shares to that Selected Employee at no cost in accordance with the scheme rules.

The Share Award Scheme came into effect on March 3, 2014, and shall terminate on the earlier of (i) the tenth (10) anniversary date of the Adoption Date; or (ii) such date of early termination as determined by the Board.

During the Year Under Review, no Shares were purchased by the Trustee on the market for the purpose of the Share Award Scheme.

#### Material acquisitions and investments

During the financial year ended September 30, 2014, PanAsia Aluminium (China) Co., Ltd ("PACL") entered into an agreement with a supplier for acquisition of equipment and machinery for an aggregate consideration of RMB145.3 million. On February 2, 2015, a supplemental agreement was entered into with the supplier to amend the total consideration for the acquisitions from RMB145.3 million (equivalent to approximately HK\$183.5 million) to RMB85.3 million (equivalent to approximately HK\$106.7 million). Details of the acquisition of equipment are set out in the announcements of the Company dated July 3, 2014 and February 12, 2015.

On April 8, 2015, PACL entered into a construction contract with 河南冠亞建築工程有限責任公司 (the "**Contractor**") by constructing and building three CNC workshops of the Group's production facility at Nanyang, with total consideration of approximately RMB56.9 million (equivalent to approximately HK\$71.9 million). On November 17, 2015, PACL further entered into another construction contract with the Contractor by constructing and building a workshop at the Group's production facility at Nanyang, with total consideration of approximately RMB46.6 million (equivalent to approximately HK\$57.6 million). For details, please refer to the announcements of the Company dated April 8, 2015 and November 17, 2015.

On April 10, 2015, PAHK entered into an investment agreement in respect of the Xinjiang Project. According to the investment agreement, the Group would purchase land of approximately 200 mu (畝) (approximately 133,000 square meters) Xinjiang Project and the land would be developed in two phases within 16 months. On December 18, 2015, the Group entered into an agreement with JBLR by purchasing a piece of land in that region as consideration of approximately RMB3.6 million (equivalent to approximately HK\$4.4 million), which was waived by the JBLR. Details of the investment agreement for the Xinjiang Project are set out in the announcement of the Company dated April 13, 2015.

#### **Connected Transactions**

#### Overview

Following the listing of the shares of the Company on the Stock Exchange on the Listing Date, the transactions between the Group and certain connected persons of the Group became continuing connected transactions. The Company has applied for and the Stock Exchange has granted a waiver from, among others, strict compliance with the announcement requirements in respect of certain continuing connected transactions of the Group are as follows:

Continuing connected transactions subject to the reporting and announcement requirements but exempt from the independent Shareholders' approval requirement

Purchase of packaging materials from Zhongxing Packaging
PACL has been purchasing plastic cling wrap from Foshan Nanhai Dali Zhongxing Paper and Plastic Packaging
Products Factory ("Zhongxing Packaging") as part of the Group's ordinary and usual course of business
in its production requirements. Zhongxing Packaging is principally engaged in the manufacturing of plastic
packaging materials. As Zhongxing Packaging was owned by Ms. Kuang Shunming, an aunt of Mr. Marcus
Pan, Zhongxing Packaging was an associate of Mr. Marcus Pan, who was our chairman until December 15,
2014. Transactions between Zhongxing Packaging and PACL constitute continuing connected transactions of
the Company.

On January 18, 2013, PACL entered into a master agreement with Zhongxing Packaging (the "Zhongxing Master Agreement") pursuant to which PACL agreed to purchase packaging materials from Zhongxing Packaging for a term of three years subject to an annual cap not exceeding HK\$3.3 million, HK\$3.7 million and HK\$4.3 million for each of the years ending September 30, 2013, 2014 and 2015, respectively. The annual caps were determined with reference to (i) the historical amount of purchases from Zhongxing Packaging; and (ii) the projected increase in demand for packaging materials. The annual caps for the years ending September 30, 2013, 2014 and 2015 were based on a 15% increment from the immediate preceding year as we expected our annual sales to grow by at least 15% annually, and our demand for packaging materials would generally increase at a similar rate as our sales. The packaging materials purchased from Zhongxing Packaging would be based on prevailing market rates and on normal commercial terms. The increases in the annual caps for each of the three years ending September 30, 2015 were based on the historical transaction amounts and the expected growth in the demand of packaging materials by PACL.

During the Year Under Review, the amount of packaging materials that the Group purchased from Zhongxing Packaging amounted to HK\$2.1 million, which was within the annual cap of HK\$4.3 million set under the Zhongxing Master Agreement.

(ii) Supply of products to Rongjin Curtain Wall

PACL has been supplying aluminium products to Guangzhou Rongjin Curtain Wall Co., Ltd. ("Rongjin Curtain Wall") for curtain wall projects undertaken by Rongjin Curtain Wall as part of the ordinary and usual course of business of the Group. Rongjin Curtain Wall is principally engaged in the assembly, fabrication and installation of window systems. As Rongjin Curtain Wall is owned 25% by Mr. Pan Xieguang, the father of Mr. Marcus Pan, 45% by Mr. Pan Gaolin, the brother-in-law of Mr. Marcus Pan, and 30% by Ms. Kuang Shunyou, the mother of Mr. Marcus Pan, Rongjin Curtain Wall is an associate of Mr. Marcus Pan, who was our chairman until December 15, 2014. Transactions between Rongjin Curtain Wall and PACL constituted continuing connected transactions of the Company.

On January 18, 2013, PACL entered into a master agreement with Rongjin Curtain Wall (the "Rongjin Master Agreement") pursuant to which PACL agreed to supply aluminium products to Rongjin Curtain Wall for a term of three years subject to an annual cap not exceeding HK\$33.5 million, HK\$35.2 million and HK\$37.0 million for each of the years ending September 30, 2013, 2014 and 2015, respectively. The annual caps were determined with reference to (i) the historical amount of supplies to Rongjin Curtain Wall; and (ii) the projected increase in demand from Rongjin Curtain Wall for aluminium products. The annual caps for the years ending September 30, 2013, 2014 and 2015 were based on a 5% increment from the immediate preceding year, which was based on the anticipated increase in demand for aluminium products from Rongjin Curtain Wall for the three years ending September 30, 2013, 2014 and 2015. The products to be supplied to Rongjin Curtain Wall would be based on prevailing market rates and on normal commercial terms. The increases in the annual caps for the three years ending September 30, 2015 were based on the historical transaction amounts and the expected growth in the supply of aluminium products to Rongjin Curtain Wall.

During the Year Under Review, the amount of aluminium products sold by the Group to Rongjin Curtain Wall amounted to HK\$7.0 million, which was within the annual cap of HK\$37.0 million set under the Rongjin Master Agreement.

#### **Confirmations**

The independent non-executive Directors have reviewed the continuing connected transactions entered into by the Company for (i) purchases of packaging materials from Zhongxing packaging; and (ii) supplies of products to Rongjin Curtain Wall, and confirmed that the transactions were entered into:

- 1. in the ordinary and usual course of business of the Group;
- 2. under normal commercial terms or not less favorable terms that the Group received from or provided services to an independent third party or obtained goods from an independent third party; and
- 3. in accordance with the agreements related to the above continuous connected transactions, the terms of which were fair and reasonable and for the overall benefit and interests of the Shareholders as a whole.

Based on the work performed, the auditor of the Company has issued a report of its factual findings to the Current Board confirming that the aforesaid continuing connected transactions:

- 1. nothing has come to auditor's attention that causes them to believe that the aforesaid continuing connected transactions have not been approved by the Board;
- 2. for transactions involving the provision of goods or services by the Group, nothing has come to auditor's attention that causes them to believe that the transactions were not, in all material respects, in accordance with the pricing policies of the Group;
- 3. nothing has come to auditor's attention that causes them to believe that the transactions were not entered into, in all material respects, in accordance with the relevant agreements governing such transactions; and
- 4. with respect to the aggregate amount of each of the aforesaid continuing connected transactions, nothing has come to auditor's attention that causes them to believe that the aforesaid continuing connected transactions have exceeded the annual cap as set by the Company.

#### **Employee and Remuneration Policies**

As of September 30, 2015, the Group had an aggregate of approximately 3,900 full-time employees. The Group recruited and promoted individual persons according to their strength and development potential. The Group determined the remuneration packages of all employees (including the Directors) with reference to corporate performance, individual performance and current market salary scale. The Group also operated the mandatory provident fund scheme for its Hong Kong staff and participates in the employee social security plan as required by the regulations in the PRC.

#### **Use of Proceeds from Initial Public Offering**

In February 2013, the Group completed its Listing and raised net proceeds of HK\$1,105 million. As at September 30, 2015, the Company had used HK\$1,105 million (or 100%) from such proceeds.

The table below sets out the Company's planned use of the net proceeds at the time of Listing, the planned use of the net proceeds adjusted on October 1, 2013, its use of such net proceeds during the Year Under Review and the balance of net proceeds as at September 30, 2015:

|   | Planned use of<br>proceeds at the<br>time of Listing<br>(HK\$ million) | Planned use<br>of proceeds<br>revised on<br>October 1, 2013<br>(HK\$ million) | Amount of net<br>proceeds utilized<br>as at<br>September 30,<br>2014<br>(HKS million) | Amount of net<br>proceeds utilized<br>during the Year<br>Under Review<br>(HK\$ million) | Balance of net<br>proceeds as at<br>September 30,<br>2015<br>(HK\$ million) |

#### **Taxation**

Shareholders are urged to consult their tax advisers regarding the PRC, Hong Kong and other tax consequences of owing and disposing of the Company's shares.

#### **Compliance with Regulation**

It was noted that the Company might have breached certain rules and regulations during the Year Under Review, details of which are set out in the heading "Investigation" of this report on pages 11 to 12.

#### Litigation

- (i) Winding up petitions against Australia Customer A and Australia Customer B

  On July 20, 2015, the Group filed a claim with a court in Australia and issued winding up petitions against Australia Customer A and Australia Customer B, both were customers of the Group during the year ended September 30, 2014. Australia Customer A and Australia Customer B entered into voluntary administration on August 10, 2015. Australia Customer B was agreed to be wound up while the winding up hearing in respect of Australia Customer A was adjourned to allow for the voluntary administration of Australia Customer A to proceed. Write-off on trade receivables due by Australia Customer B of approximately HK\$137,806,000 was made during the year ended September 30, 2015. Details in relation to the write-off are set out in Note 19 to the consolidated financial statements of this annual report.
- (ii) Litigation with an aluminium ingot supplier

  In May 2015, a claim was lodged by the Group against Supplier A through legal proceedings to recover the outstanding balances paid to Supplier A since the Group had not received all its purchases of aluminium ingots from the Supplier A. On December 29, 2016, the claim was ruled in favor of the Group. Subsequently, the Group entered into a settlement arrangement with Supplier A whereby Supplier A (or Supplier A shareholder) to pay HK\$6,866,000 and dispose of the 8,885,000 shares in the Company held by Supplier A's shareholder to the Company or designated person as instructed by the Company. HK\$6,866,000 was received by the Group from Supplier A's shareholder in August 2017. However, management considered it is impracticable that the 8,885,000 shares in the Company held by Supplier A's Shareholder could be disposed of in view of the suspension of trading of shares of the Company and it is unlikely to estimate the fair value of the shares to be disposed of at this stage. Accordingly, the Group had made an impairment provision against the outstanding prepayment which had been charged to administrative expenses for the Year Under Review.

In addition, the Group had aluminium ingots in-transit of HK\$20,175,000 purchased from Supplier A of which only HK\$2,458,000 had been delivered to the Group subsequent to the year ended September 30, 2014 but before the filing of claim in May 2015. The Group made an impairment provision for the undelivered aluminium ingots in-transit of HK\$17,654,000, recorded in administrative expenses for the year ended September 30, 2014, and made no impairment provision for the undelivered aluminium ingots in-transit for the Year Under Review.

#### **Subsequent Events after the Reporting Period**

(c) Conditions for the Company's Resumption for Trading. Trading in the Shares has been suspended since December 17, 2014:

As disclosed in the Company's announcement dated March 17, 2015, the Stock Exchange has imposed the following conditions for the resumption of trading in the shares of the Company:

- (a) the Company conducted an appropriate investigation on the issues raised by the auditor of the Company during the course of their audit of the results of the Company for the Year Under Review, disclosed the findings and took any remedial actions;
- (b) the Company published all outstanding financial results and addressed any audit qualifications;
- (c) the Company demonstrated that it had put in place adequate financial reporting procedures and internal control systems to meet obligations under the Listing Rules; and
- (d) the Company informed the market of all material information.

As disclosed by the Company dated December 19, 2014, the Company has set up a First Independent Committee comprising two independent non-executive directors of the Company, Mr. Tsang Wah Kwong (as chairman of the committee) and Mr. Cheung Chun Sing Horatio, to supervise and oversee the Investigation.

As disclosed by the Company on March 17, 2015, the First Independent Committee had engaged an independent legal adviser and appointed IPA to perform the Investigation.

Following the departure of Mr. Cheung Chun Sing Horatio on October 1, 2015, Mr. Tsang Wah Kwong became the sole member of the Independent Committee. The Independent Committee was dissolved on January 8, 2016 after noting the departure of the sole member of the committee, Mr. Tsang Wah Kwong with effect from January 18, 2016.

The Company received a report on Investigation from the IPA on January 18, 2016.

The Independent Committee was re-formed on February 11, 2016 when Mr. Choi Tze Kit Sammy, an independent non-executive Director was appointed to follow up any outstanding matters of the Investigation and engaging the IPA to carry out further investigation and related work. On March 21, 2016, Mr. Lam Kwok Fai Osmond and Mr. Tang Warren Louis were appointed as independent non-executive Directors, and became members of the Independent Committee. Subsequently, there were following changes in the members of the Independent Committee:

- Mr. Mar Selwyn (appointed on February 8, 2017)
- Mr. Chan Kai Nang (appointed on February 24, 2017)
- Mr. Leung Ka Tin (appointed on February 24, 2017)
- Mr. Choi Tze Kit Sammy (appointed on February 11, 2016 and ceased on February 11, 2017)
- Mr. Lam Kwok Fai Osmond (appointed on March 21, 2016 and ceased on March 21, 2017)
- Mr. Tang Warren Louis (appointed on March 21, 2016 and ceased on March 21, 2017)

The IPA finalised and issued the investigation report to the Independent Committee on the findings of the Investigation on August 30, 2017 and based on which, the Independent Committee, with the assistance of its legal adviser, has since completed the report of the Independent Committee setting out the key findings of the Investigation and its recommendations presented to the Current Board on September 1, 2017.

The findings of the Investigation are set out by the announcement of the Company dated October 6, 2017 and the related finding and the management's assessments are set out from pages 11 to 12 of this report.

In May 2017, the Company engaged Crowe Horwath (HK) Corporate Consultancy Ltd. ("Internal Control Advisor") as an internal control consultant for reviewing and revising the Company internal policies and procedures which the Company adopted on July 20, 2017. The Internal Control Advisor has identified a number of internal control deficiencies in the Group and the Group has reviewed those findings and taken necessary action to address the internal control deficiencies. The findings of the Internal Control Advisor have been announced in the announcement of the Company dated October 16, 2017.

(d) On December 28, 2017, the Company (through its wholly-owned subsidiaries) as the vendors, the purchasers, which are companies beneficially owned by Ms. Shao Liyu ("Ms. Shao"), and Ms Shao entered into the agreement, pursuant to which the vendors conditionally agreed to sell and the purchasers conditionally agreed to purchase the shares of OPLV (Nanyang) Doors and Windows Systems Co., Ltd ("OPNY") and OPLV Architectural Design Pty Ltd ("OPAD"). The vendors shall also procure the accounts receivable to be transferred or assigned to the purchasers, all at an aggregate consideration of RMB20 million.

On the same date, the Company, the purchasers, OPNY and OPAD entered into the management service agreement, pursuant to which the Company shall provide administrative and management support to purchasers and their subsidiaries/affiliates for one (1) year at a fee of HK\$200,000 per month.

Contemporaneously, the Company and Lumy House Limited, one of the purchasers, entered into the framework agreement, pursuant to which Lumy House Limited shall engage the Company and/or its subsidiaries as the OPNY and OPAD and its subsidiaries' (collectively, "OPLV Group") manufacturer and supplier for the OPLV Group's business.

Upon Completion, the Group will cease to have any interest in the OPLV Group and its financial results will no longer be consolidated into the Company's consolidated financial statements.

Details of the above transactions are set out in the announcement of the Company dated December 28, 2017.

#### **Audit Committee**

The Company has an audit committee (the "Audit Committee") which was established in compliance with Rule 3.21 of the Listing Rules for the purpose of reviewing and providing supervision over the Group's financial reporting process and internal controls.

The Audit Committee and the Management have reviewed the accounting principles and practices adopted by the Group, as well as the audited consolidated financial statements for the Year Under Review and has recommended their adoption to the Board.

#### **Auditors**

PricewaterhouseCoopers were engaged to audit the consolidated financial statements for the Year Under Review, whose term of office will expire at the conclusion of the forthcoming adjourned annual general meeting to be held on January 24, 2018.

A resolution will be submitted to the forthcoming adjourned annual general meeting to seek Shareholders' approval on the appointment of BDO Limited as the new auditor of the Company with effect from the conclusion of the forthcoming adjourned annual general meeting and until the conclusion of the next annual general meeting and to audit the consolidated financial statements of the Company for the fifteen months ended December 31, 2016 and for the year ended December 31, 2017 subject to the board of Directors' approval on the remuneration of such auditor.

- Mr. Chan Kai Lun Allan (appointed as an executive Director on March 27, 2017)

Accordingly, the Current Board as of the date of this report comprises eight members: Ms. Shao Liyu, Mr. Zhu Hongtao, Mr. Chan Kai Lun Allan, Mr. Cosimo Borrelli, Ms. Chi Lai Man Jocelyn, Mr. Mar Selwyn, Mr. Chan Kai Nang and Mr. Leung Ka Tin.

#### **Corporate Governance Practices**

Given the majority of directors of the Current Board were not the Board members in the Year Under Review, the Current Board, with the best information available, is able to confirm that the Company had the following deviations from the Code on Corporate Governance Practice ("**CG Code**") set out in Appendix 14 of the Listing Rules.

#### **Chairman and Chief Executive Officer**

Under code provision A.2.1 of the CG Code, the roles of the chairlady and CEO should be separated and should not be performed by the same individual.

During the period between April 22, 2015 and November 8, 2017, Ms. Shao Liyu was the chairlady and also the CEO of the Company responsible for overseeing the operations of the Group. As the development of the Group during this period required the active involvement of Ms. Shao Liyu, her in-depth knowledge and experience in the industry and her familiarity with the operations of the Group, the then Board considered that it was appropriate for Ms. Shao Liyu to serve both positions at the time. Therefore, following the resignation of Ms. Ng Bonnie Po Ling and Mr. Liu Hoi Keung as Joint CEO on April 22, 2015, Ms. Shao Liyu, the then chairlady, was appointed as CEO on April 22, 2015. The then Board considered that the non-separation of these two roles would not impair the balance of power as all major decisions were made in consultation with members of the Board. Nevertheless, the Company has continued to review its operation and made arrangement to meet the requirement of code provision A.2.1 to Appendix 14 of the Listing Rules where necessary. On November 9, 2017, the Board appointed Mr. Cosimo Borrelli as the Non-Executive Chairman of the Board and Ms. Shao Liyu resigned as the chairlady of the Board (as announced on November 10, 2017). From then on, the roles of the chairman and CEO are separated.

#### **Audit Committee**

Under code provision C.3 of the CG Code, the audit committee must meet, at least twice a year, with the issuer's auditors, and meet with the auditor, at least annually, in the absence of management, to discuss matters relating to its audit fees, any issues arising from the audit and any other matters the auditor may wish to raise. However, no Audit Committee meeting was held during the Year Under Review.

#### **Financial Reporting**

Furthermore, subsequent to the year ended September 30, 2014, and as announced on December 19, 2014, the Company has, upon the recommendation of the auditor, resolved to appoint the independent professional adviser ("IPA") to investigate into matters raised by the Auditor ("Issues"), including but are not limited to, (1) the transactions with a contractor for the construction of the Group's new manufacturing facility in Nanyang, the PRC; (2) the discrepancies found on certain of the Group's inventory receipt records in relation to the Group's raw materials procurement; (3) the relationship between the Group and certain Australia customers; and (4) details and supporting documents on certain expenses. The former Board has established an independent committee, comprising the independent non-executive Directors, to supervise and oversee the investigation of the Issues. As the investigation on the Issues was only concluded in August 2017, the interim results and annual results of the Company for the Year Under Review is deferred until the date of this Report. Accordingly, the Company was not able to timely comply with the financial reporting provisions under rules 13.49(1) and 13.49(6) of the Listing Rules in (i) announcing the annual/interim results for year ended September 30, 2015, and 15 months ended December 31, 2016 and the interim results for the six months ended June 30, 2017; (ii) publishing the related interim and annual report for the aforesaid years; and (iii) complying with the Code Provision C.1. The Company has not held its annual general meeting since 2015 for the approval of annual results for the aforesaid years.

#### The Board of Directors

#### Responsibilities

The Board is responsible for overseeing the overall development of the Company's business with the objective of enhancing value of shareholders of the Company ("**Shareholders**") including setting and approving the Company's strategic implementation, considering substantial investments, reviewing the Group's financial performance and developing and reviewing the Group's policies and practices on corporate governance.

The Company has arranged for appropriate insurance cover for Directors' and officers' liabilities in respect of legal actions against its Directors and senior management arising out of corporate activities.

#### Appointment and Re-election of Directors

In accordance with the Articles of Association, all Directors are subject to retirement by rotation at least once every three years and any new Director appointed by the Board to fill a causal vacancy or as an addition to the Board shall submit himself/herself for re-election by Shareholders at the first general meeting after appointment. Accordingly, Ms. Shao Liyu, Mr. Zhu Hongtao, Mr. Chan Kai Lun Allan, Mr. Mar Selwyn, Mr. Chan Kai Nang and Mr. Leung Ka Tin will retire at the conclusion of the forthcoming adjourned annual general meeting of the Company which will be held on January 24, 2018 (the "Adjourned AGM"). Ms. Shao Liyu, Mr. Chan Kai Lun Allan, Mr. Mar Selwyn and Mr. Leung Ka Tin, being eligible, have offered themselves for re-election at the Adjourned AGM while Mr. Zhu Hongtao and Mr. Chan Kai Nang have decided not to stand for re-election.

#### **Directors' Training**

The Company has arranged induction training for newly appointed Directors. All Directors are encouraged to participate in continuous professional development trainings to develop and refresh their knowledge and skills.

The individual training record of each Directors who confirmed they had received trainings for the Year Under Review is summarized as follows:

|           | Type of continuous |

#### **Directors' Securities Transaction**

The Company has adopted the Model Code as its code of conduct for dealings in securities of the Company by the Directors. The Company, based on the best information available, all former Directors holding office as at September 30, 2015 had complied with the Model Code provisions during the Year Under Review.

#### **Relationship with Directors**

During the Year Under Review, Mr. Marcus Pan, the former executive Director and Chairman (both offices ceased on December 15, 2014) and CEO (ceased on October 1, 2014) was the spouse of Ms. Shao Liyu, an executive Director and CEO and former chairlady of the Company (ceased on November 9, 2017).

As set out in the announcement of the Company dated December 5, 2014, Ms. Shao Liyu and Mr. Marcus Pan were involved in matrimonial proceedings in Hong Kong and there were certain disagreements and disputes between them regarding their personal affairs.

**Term of Appointment of the Non-Executive Director and Independent Non-Executive Directors**During the year ended September 30, 2015, except Mr. Liu Hoi Keung who had not entered into any service agreement with the Company with respect to his re-designation as a non-executive Director with effect from July 17, 2015, the non-executive Director and independent non-executive Directors were appointed for a term of 1 year and 3 years respectively and subject to retirement by rotation and re-election in accordance with the Articles of Association.

#### Board practices and conduct of meetings

#### **Delegation by the Board**

The Board undertakes the responsibility for decision making in major matters of the Company, with the day-to-day management delegated to the CEO and senior management. Each Director is normally able to seek independent professional advice in appropriate circumstances at the Company's expense, upon making request to the Board, for discharge of their duties.

<sup>\*</sup> Mr. Liu Hoi Keung was re-designated from an independent non-executive Director to an executive Director on October 1, 2014 and re-designated from an executive Director to non-executive Director on July 17, 2015

#### **Board Committees**

The Board has established three standing committees, namely, the Nomination Committee, Remuneration Committee and Audit Committee, for overseeing particular aspects of the Company's affairs. All Board committees of the Company are established with defined written terms of reference which are available to Shareholders on the Company's website.

#### **Nomination Committee**

During the Year Under Review, the majority members of the Nomination Committee were independent non-executive Directors, with Ms. Shao Liyu (formerly known as Ms. Shao Lidan) appointed as the chairlady of the Nomination Committee with effect from December 16, 2014 in place of Mr. Marcus Pan (resigned on December 15, 2014). The members of the Nomination Committee for the Year Under Review were:

Ms. Shao Liyu (Chairlady) (formerly known as Ms. Shao Lidan) (appointed as chairlady of the nomination committee on December 16, 2014)

Mr. Tsang Wah Kwong

Mr. Tsang Ming Chit Stanley (appointed on February 11, 2015)

Mr. Cheung Chun Sing Horatio (appointed on October 1, 2014)

Mr. Marcus Pan (Chairman) (resigned on December 15, 2014)

Mr. Chan Nim Leung Leon (resigned on December 4, 2014)

During the Year Under Review, the Nomination Committee was primarily responsible:

- to review the structure, size and composition (including the skills, knowledge and experience) of the Board on a regular basis and make recommendations to the Board regarding any proposed changes;
- to identify individuals suitably qualified to become Board members and select or make recommendations to the Board on selection of individuals nominated for directorships;
- to assess the independence of independent non-executive Directors, having regard to the requirements under the applicable laws, rules and regulations;
- to make recommendations to the Board on relevant matters relating to the appointment or re-appointment of Directors and succession planning for Directors and, in particular, the chairman and the chief executive officer of the Company;
- to review the policy on Board diversity (the "Board Diversity Policy") and any measurable objectives for implementing such Board Diversity Policy as may be adopted by the Board from time to time and to review the progress on achieving the objectives; and
- to make disclosure of its review results in the annual report of the Company annually.

During the Year Under Review, the Nomination Committee held 3 meetings for nominating or considering the candidacies of potential board members. The individual attendance record of the Directors at the meeting of Nomination Committee is set out in the paragraph headed "Attendance Records of Former Board and Committee Meetings" of this Corporate Governance Report.

## **Remuneration Committee**

During the Year Under Review, the majority of members of the Remuneration Committee were independent non-executive Directors, with Mr. Cheung Chun Sing Horatio acted as the chairman of the Remuneration Committee with effect from January 1, 2015 in place of Mr. Chan Nim Leung Leon (resigned on December 4, 2014). The members of the Remuneration Committee were:

Mr. Cheung Chun Sing Horatio (Chairman)

(appointed as member on October 1, 2014 and appointed as chairman on January 1, 2015)

Ms. Shao Liyu (formerly known as Ms. Shao Lidan) (appointed on December 16, 2014)

Mr. Tsang Ming Chit Stanley (appointed on February 11, 2015)

Mr. Tsang Wah Kwong

Mr. Chan Nim Leung Leon (Chairman) (resigned on December 4, 2014)

Mr. Marcus Pan (resigned on December 15, 2014)

During the Year Under Review, the Remuneration Committee was primarily responsible:

- to make recommendations to the Board on the Company's policy and structure for all remunerations of Directors and senior management and on the establishment of formal and transparent procedures for developing policies on all such remunerations;
- to make recommendations to the Board on the remuneration packages of individual executive Directors and senior management;
- to review and approve performance-based remunerations by reference to corporate goals and objectives resolved by the Board from time to time;
- to make recommendations to the Board on the remuneration of non-executive Directors;
- to consider salaries paid by comparable companies, time commitment and responsibilities and employment conditions elsewhere in the Group;
- to review and approve compensation payable to executive Directors and senior management members of the Company in connection with any loss or termination of their office or appointment to ensure that such compensation is determined in accordance with relevant contractual terms and that such compensation is fair and not excessive for the Company;
- to review and approve compensation arrangements relating to dismissal or removal of Directors for misconduct to ensure that such arrangements are determined in accordance with relevant contractual terms and that any compensation payment is reasonable and appropriate; and
- to ensure that no Director or any of his/her associates is involved in deciding his/her own remuneration.

During the Year Under Review, the Remuneration Committee held 4 meetings for reviewing the remuneration package and bonus for Directors. The individual attendance record of the Directors at the meeting of Remuneration Committee is set out in the paragraph headed "Attendance Records of Former Board and Committee Meetings" of this Corporate Governance Report.

#### **Audit Committee**

During the Year Under Review, the Audit Committee comprised all independent non-executive Directors, with Mr. Tsang Wah Kwong acted as the chairman of the Audit Committee. The members of Audit Committee during the Year Under Review were:

Mr. Tsang Wah Kwong (Chairman)

Mr. Cheung Chun Sing Horatio (appointed on October 1, 2014)

Mr. Tsang Ming Chit Stanley (appointed on February 11, 2015)

Mr. Chan Nim Leung Leon (resigned on December 4, 2014)

During the Year Under Review, the Audit Committee was primarily responsible:

- to make recommendations to the Board on the appointment, re-appointment and removal of the external auditor, and to approve the remuneration and terms of engagement of the external auditor, and any questions of resignation or dismissal of that external auditor;
- to review and monitor the external auditor's independence and objectivity and the effectiveness of the audit process in accordance with applicable standards;
- to develop and implement policy on the engagement of an external auditor to supply non-audit services;
- to monitor integrity of financial statements of the Company and the Company's annual report and accounts and half-year reports and to review significant financial reporting judgments contained in them;
- to review the Company's financial controls, internal control and risk management systems annually;
- to discuss with management the system of internal control and ensure that management has discharged its duty to have an effective internal control system;
- to consider major investigation findings on internal control matters as delegated by the Board or on its own initiative and management's response to these findings;
- to review the Group's financial and accounting policies and practices; and
- to review the external auditor's management letter, any material queries raised by the auditor to the management in respect of the accounting records, financial accounts or systems of control and management's response, and to ensure that the Board provides a timely response to the issues raised.

Based on the record available to the Current Board, during the Year Under Review, the Audit Committee did not hold any meetings.

As disclosed in sub-section headed "Financial Reporting" above, the review of the financial results for the six months ended March 31, 2015 and the financial results for the year ended September 30, 2015 by the Current Audit Committee was deferred until January 5, 2018 at Audit Committee meeting.

## **Corporate governance functions**

During the Year Under Review, the Board was responsible for determining the policy for the corporate governance of the Company, performing the corporate governance duties and review of the Company's compliance with the CG Code.

## **Attendance Records of Former Board and Committee Meetings**

The attendance records of each Director at the Former Board, Nomination Committee, Remuneration Committee and Audit Committee meetings for the Year Under Review are set out below:

For the Year Under Review, apart from the meetings of the Former Board, Nomination Committee and Remuneration Committee, consent/approval from the Former Board and Former Board committees had also been obtained by written resolutions on a number of matters.

#### **Risk Management and Internal Control**

The Board is responsible for maintaining an adequate system of internal controls within the Group and for reviewing their effectiveness. The system of internal controls is designed to facilitate effective and efficient operations, to safeguard assets and to ensure the quality of internal and external reporting and compliance with applicable laws and regulations. It is also designed to provide reasonable, but not absolute, assurance that material misstatement or loss can be avoided, and to manage and minimize risks of failure in operation systems. The Company is committed to implementing a stricter and more regulated internal control procedures in the new financial year.

## **Shareholders' Rights**

## Convening an extraordinary general meeting by Shareholders

Procedures for Shareholders to convene an extraordinary general meeting (including making proposals/moving a resolution at the extraordinary general meeting)

Any one or more Shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company (the "Eligible Shareholder(s)") shall at all times have the right, by written requisition to the Board or the Company Secretary, to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition, including making proposals or moving a resolution at an extraordinary general meeting. Eligible Shareholders who wish to convene an extraordinary general meeting for the purpose of making proposals or moving a resolution at an extraordinary general meeting must deposit a written requisition (the "Requisition") signed by the Eligible Shareholder(s) concerned to the principal place of business of the Company in Hong Kong. The Requisition must state clearly the name of the Eligible Shareholder(s) concerned, his/her/their shareholding in the Company, the reason(s) to convene an extraordinary general meeting, the agenda proposed to be included, the details of the business(es) proposed to be transacted in the extraordinary general meeting, signed by the Eligible Shareholder(s) concerned. If within 21 days of the deposit of the Requisition, the Board has not advised the Eligible Shareholders of any outcome to the contrary and fails to proceed to convene an extraordinary general meeting, the Eligible Shareholder(s) himself/herself/themselves may do so in accordance with the Articles of Associations, and all reasonable expenses incurred by the Eligible Shareholder(s) concerned as a result of the failure of the Board shall be reimbursed to the Eligible Shareholder(s) concerned by the Company.

## **Investors Relations**

During the Year Under Review, there was no change in the Company's constitutional documents.

#### Communication with Shareholders and Making Enquiry to the Board

The Company has updated its status to Shareholders from time to time through announcements and information as appeared on the website of the Company.

Shareholders of the Company may send their enquiries and concerns to the Board by addressing them to the principal place of business of the Company in Hong Kong by post or email to ir@palum.com.

The Company will hold an extraordinary general meeting to approve the financial results for the Year Under Review as soon as practicable within 2018. The notice of extraordinary general meeting will be sent to Shareholders at least 20 clear business days before the extraordinary general meeting.

#### TO THE SHAREHOLDERS OF PANASIALUM HOLDINGS COMPANY LIMITED

(incorporated in Cayman Islands with limited liability)

We were engaged to audit the consolidated financial statements of PanAsialum Holdings Company Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 46 to 119, which comprise the consolidated statement of financial position as at September 30, 2015, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

## **Directors' Responsibility for the Consolidated Financial Statements**

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

## **Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Except for the inability to obtain sufficient appropriate audit evidence as explained below, we conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement. Because of the matters described in the Basis for Disclaimer of Opinion paragraphs, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

## **Basis for Disclaimer of Opinion**

## Scope Limitations Relating to Findings of the Investigation

As a result of the matters identified in the independent investigation (the "Investigation") conducted by an independent professional adviser as described in Note 2.1.1 to the consolidated financial statements, we had planned to conduct extended procedures in the audit of the Company's consolidated financial statements as at and for the year ended September 30, 2014 (the "2014 Audit"), but had encountered various limitations in the 2014 Audit.

The Group has taken into account of the findings of the Investigation when it prepared the consolidated financial statements as at and for the year ended September 30, 2015. Due to the findings of the Investigation and taken into consideration of the scope limitations encountered in the 2014 Audit, we have continued to plan to conduct extended procedures in the audit of the Company's consolidated financial statements as at and for the year ended September 30, 2015. However, the scope limitations encountered in the 2014 Audit remained unresolved, and there were also other limitations, as outlined below.

## (1) Recoverability of prepayments to a supplier

As described in Note 2.1.1(A) to the consolidated financial statements, the Group recognised an impairment provision of RMB25,999,000 (equivalent to HK\$33,014,000) against the prepayments made to Supplier A as at September 30, 2014. During the year ended September 30, 2015, the Group continued to make prepayments to Supplier A totalling RMB12,696,000 (equivalent to HK\$16,043,000) for the purchase of aluminium ingots; however, no aluminium ingots were subsequently delivered to the Group by Supplier A in relation to the prepayments made during the year ended September 30, 2015. After taking into account the amount of RMB5,430,000 (equivalent to HK\$6,866,000) recovered through the legal proceedings against Supplier A as described in Note 2.1.1(A), the Group had made a further impairment provision of RMB12,696,000 (equivalent to HK\$16,043,000) during the year ended September 30, 2015.

Management was unable to provide us with satisfactory evidence about the background of Supplier A, as well as the business rationale and commercial substance of the prepayments made to Supplier A. We were unable to obtain the confirmation reply from Supplier A to confirm the amounts of aluminium ingots purchase from it during the year ended September 30, 2015 as well as the outstanding prepayment balances to Supplier A as at the same date. We were also unable to interview with Supplier A to ascertain the amounts and nature of the prepayments made to Supplier A.

As such, we were unable to obtain sufficient and appropriate documentary evidence to ascertain the nature, occurrence, accuracy, completeness and presentation of the total prepayments made to Supplier A of RMB12,696,000 (equivalent to HK\$16,043,000) during the year ended September 30, 2015. There were also no alternative audit procedures that we could perform to satisfy ourselves as to whether the impairment charge of RMB12,696,000 (equivalent to HK\$16,043,000) recognised during the year ended September 30, 2015 and the net prepayment balance to suppliers of HK\$25,297,000 as at the same date were fairly stated. Consequently, we were unable to determine whether any adjustment to these amounts was necessary.

(2) Recoverability of receivables from, and possible relationship with, certain customers in Australia

A customer in Australia together with its subsidiaries and affiliates (collectively the "Australia Customers")
was one of the Group's largest customers. Due to a group restructuring of the Australia Customers, two new
companies were incorporated in Australia in April 2014 ("Australia Customer A" and "Australia Customer
B"). In May 2014, Australia Customer A agreed to assume, from the Australia Customers, the payment
obligations of the trade payables to the Group totalling HK\$319,503,000. Since May 2014, Australia Customer
B had begun to act as an import agent for Australia Customer A.

Meanwhile, the Group started making sales to another new customer ("**Customer C**") during the year ended September 30, 2014.

As described in Note 2.1.1(B) to the consolidated financial statements, the Investigation revealed possible connections between certain relatives of the former chairman of the Company with Australia Customer A and Australia Customer B. There were also possible connections between some of the Australia Customers and Supplier A. In addition, there was evidence indicating that certain goods sold to Customer C were resold to Australia Customer B.

Furthermore, Australia Customer A and Australia Customer B delayed in settlement and the outstanding trade receivables from them became long overdue as at September 30, 2014. Customer C had delayed its settlement which the Group had continuously demanded for settlement but in vain. After taking into account the subsequent collections and balances recovered from the relevant legal actions described in Note 2.1.1(B) to the consolidated financial statements, total outstanding trade receivables of HK\$100,102,000 from Australia Customer A, Australia Customer B and Customer C were written off during the year ended September 30, 2014.

During the year ended September 30, 2015, while there were no sales to Australia Customer A, the Group continued to record sales to Australia Customer B and Customer C of HK\$241,902,000 and HK\$36,352,000, respectively. The trade receivable balances (before the current year write-off) outstanding from Australia Customer B and Customer C were HK\$225,398,000 and HK\$32,797,000, respectively as at September 30, 2015.

Furthermore, Australia Customer B delayed in settlement and the outstanding trade receivables from it became long overdue as at September 30, 2015. Customer C had delayed its settlement which the Group had continuously demand for settlement but in vain. After taking into account the subsequent collections and balances recovered from the relevant legal actions described in Note 2.1.1(B) to the consolidated financial statements, total trade receivables from Australia Customer B and Customer C of HK\$137,806,000 and HK\$36,352,000, respectively, in relation to the sales executed during the year ended September 30, 2015, had been written off in the same year.

Management was not able to provide us with sufficient information and explanations about the background of Australia Customer A and Australia Customer B as well as their relationship with the Australia Customers, and the business rationale to accept the assignment of trade receivables of HK\$319,503,000 from the Australia Customers to Australia Customer A (which was newly incorporated in April 2014). We were also unable to obtain satisfactory explanations and adequate evidence from management to ascertain the relationship, if any, between the Group and Australia Customer A and Australia Customer B, and between Customer C and Australia Customer B and/or Australia Customer A (and thus the relationship of Customer C, if any, with the Group), nor were we able to interview the relevant counterparties identified in the Investigation. We were also unable to obtain the satisfactory confirmation replies from Australia Customer A, Australia Customer B and Customer C to confirm the trade receivable balances with them as at September 30, 2015.

Management was also not able to provide us with adequate documentary evidence to support the rationale of recognising the write-off of trade receivables from Australia Customer B and Customer C totalling HK\$174,158,000 during the year ended September 30, 2015, and of the impairment assessment of the outstanding trade receivables from Customer C.

Because of the above scope limitations, there were no alternative audit procedures that we could perform to satisfy ourselves as to:

- (i) whether the Group had any related party relationships with the Australia Customers, Australia Customer A, Australia Customer B and Customer C, and thus the accuracy and completeness of the disclosures of related party balances and transactions in the Company's consolidated financial statements as at and for the year ended September 30, 2015; and
- (ii) whether the write-off of trade receivables from Australia Customer B and Customer C totalling HK\$174,158,000 recognised during the year ended September 30, 2015 and the total write-off amounts of trade receivables from Australia Customer A, Australia Customer B and Customer C of HK\$274,260,000 recognised up to September 30, 2015 were fairly stated; and whether these write-offs were recognised in the proper accounting periods.

Consequently, we were unable to determine whether any adjustment to these amounts and disclosures was necessary.

(3) Impairment of investment in and advances to, and possible relationship with, an associated company
As described in Note 2.1.1(C) to the consolidated financial statements, the Group had in August 2014 invested
an amount of HK\$17,524,000 to acquire a 45% equity interest in Leading Sense Limited ("Leading Sense"),
which was accounted for as an associated company. As at September 30, 2015, the Group had an outstanding
advance of HK\$44,841,000 (before write-offs) to Leading Sense and its subsidiaries (the "Leading Sense
Group").

Based on the findings of a legal adviser of the Company, possible connection between one of the registered shareholders of Leading Sense and the former chairman of the Company was identified.

Management was not able to obtain the financial information of Leading Sense Group nor were they able to contact the other shareholders or management of Leading Sense Group since January 2015. Based on management's collectability assessment, the Group had written off its investment in an associate company of HK\$5,893,000 and amounts due from an associated company of HK\$44,841,000 during the year ended September 30, 2015.

Management was not able to provide us with the details of the background of Leading Sense's shareholders as well as the business rationale and commercial substance of the advances to the Leading Sense Group. No satisfactory confirmation reply was obtained by us from Leading Sense in relation to the outstanding advance balance. We were also unable to obtain satisfactory explanations and adequate evidence from management to ascertain whether there are other relationships between Leading Sense Group and the Group, nor were we able to interview with the relevant counterparties in relation to the investment in Leading Sense. Management was also unable to provide us with satisfactory explanations and adequate information to support their impairment assessment of the investment and advance balances, together with the basis and rationale of recognising the write-off during the year ended September 30, 2015. We were also unable to obtain the latest financial information of Leading Sense Group for the year ended September 30, 2015 nor were we able to get access to the financial records and interview with the management of the Leading Sense Group. We were thus unable to ascertain the share of loss and share of net assets from Leading Sense Group recognised by the Group as at and during the year ended September 30, 2015.

Because of the above scope limitations, there were no alternative audit procedures that we could perform to satisfy ourselves as to:

- (i) the business rationale and the commercial substance of the advances to the Leading Sense Group;
- (ii) the existence/occurrence, accuracy and completeness of the Group's advances to Leading Sense Group;
- (iii) whether the effects of these transactions had been properly accounted for, classified and disclosed, including whether the write off of the investment and amounts due from an associate company totalling HK\$50,734,000 together with the related cash flows presentation for the year ended September 30, 2015 were fairy stated and whether such write-offs were recognised in the proper accounting periods;
- (iv) whether the investment in an associated company of HK\$nil and the share of its loss of HK\$9,493,000 were fairly stated in the Company's consolidated financial statements as at and for the year ended September 30, 2015; and

(v) whether the Group had any related party relationships with Leading Sense Group before its investment in August 2014, and thus the accuracy and completeness of the disclosures of related party balances or transactions in the Company's consolidated financial statements as at and for the year ended September 30, 2015.

Consequently, we were unable to determine whether any adjustment to these amounts and disclosures was necessary.

(4) Off-book transactions conducted through personal bank account and off-book cash transactions

As described in Note 2.1.1(D), during the year ended September 30, 2015, the current board of directors of the Company (the "Current Board") identified certain records setting out certain off-book transactions taken place during the period from January 2015 to June 2017 that were conducted either through a personal bank account opened in the name of the spouse of an employee of the Group or in cash. These off-book transactions were not previously accounted for or recorded in the Company's consolidated financial statements.

These off-book transaction records indicated that there were proceeds from sales of scraps, which were then used for payments of salaries to employees of the Group or expense reimbursements to certain employees of the Group, including the chief executive officer and an executive director of the Company. The total proceeds from sales of scraps amounted to HK\$8,199,000 and the total payment of expenses amounted to HK\$7,848,000 for the year ended September 30, 2015.

The Current Board considered these off-book transactions were attributable to the Group, and therefore total other income of HK\$8,199,000 and administrative expenses of HK\$7,848,000 were recorded in the Company's consolidated statement of comprehensive income for the year ended September 30, 2015; and other receivables of HK\$251,000 and cash of HK\$100,000 were recorded in the Company's consolidated statement of financial position as at September 30, 2015.

Management did not maintain adequate and full underlying supporting and documentary evidence for these off-book transactions. We were also not able to obtain satisfactory and adequate underlying supporting evidence from the relevant bank for these off-book transactions as shown in the bank statements. Despite making our requests through management, we were unable to obtain certain of the confirmation replies from nor were we able to arrange interviews with certain of the counterparties involved in these off-book transactions. We were also not able to obtain sufficient evidence to assess whether there are other off-book transactions not recorded by the Group.

Because of the above scope limitations, there were no alternative audit procedures that we could perform to satisfy ourselves as to:

- (i) the occurrence, accuracy, valuation, rights and obligations, existence and completeness of the off-book transactions and balances; and the related tax impacts, if any; and
- (ii) whether the information and documents provided to us for the purpose of our audit were complete and accurate in all material respects, and whether the Company's consolidated financial statements and the notes to the consolidated financial statements as at and for the year ended September 30, 2015 are free from material misstatements.

## **Disclaimer of Opinion**

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the consolidated financial statements and as to whether consolidated financial statements have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

## 1 General information

PanAsialum Holdings Company Limited (the "Company") and its subsidiaries (together the "Group") are principally engaged in the manufacturing and trading of aluminium products. The Company is an investment holding company. The Company was incorporated and registered as an exempted company with limited liability in the Cayman Islands on October 7, 2005 under the Companies Law, Cap.22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands.

The Company has been listed on the main board of The Stock Exchange of Hong Kong Limited (the "**HKSE**") since February 5, 2013.

These consolidated financial statements are presented in Hong Kong Dollar "**HK\$**" or "**HKD**", unless otherwise stated. These consolidated financial statements have been approved for issue by the Board of Directors on January 19, 2018.

## 2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of the consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### 2.1 Basis of preparation

The consolidated financial statements of the Company have been prepared in accordance with Hong Kong Financial Reporting Standards ("**HKFRS**"). The consolidated financial statements have been prepared under the historical cost convention, as modified by derivative financial instruments at fair value through profit or loss.

The preparation of the consolidated financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4.

#### 2.1.1 Investigation

In 2014, the then former board of directors of the Company (the "Former Board") was informed by its auditor of certain findings during the course of their audit of the Company's consolidated financial statements for the year ended September 30, 2014. As a result, the Former Board established an independent committee which had engaged an independent professional adviser to perform an investigation (the "Investigation") on the following matters (i) discrepancies in aluminium ingots receipt and consumption records and recoverability of prepayments to certain suppliers; (ii) transactions with a contractor for the construction of the Group's new manufacturing facility in Nanyang city, the People's Republic of China (the "PRC"); (iii) recoverability of receivables from, and possible relationship with, certain customers in Australia; and (iv) certain transactions conducted through personal bank accounts. The Investigation was completed in August 2017. Moreover, the Company also engaged a legal adviser to identify any possible relationship between the Group and an associated company.

## **2** Summary of significant accounting policies (Continued)

## **2.1** Basis of preparation (Continued)

#### 2.1.1 Investigation (Continued)

The Investigation had a number of limitations in respect of the nature and extent of the procedures conducted. During the course of the preparation of the consolidated financial statements of the Company for the year ended September 30, 2015, the current board of directors of the Company (the "Current Board") had taken into account the following findings of the Investigation, considered the relevant information and supporting evidence available; and had used their best effort to estimate the relevant financial impact of the matters identified in the Investigation. The Current Board considered it appropriate to make certain adjustments to the Company's consolidated financial statements for the year ended September 30, 2015 in respect of the following matters:

## (A) Recoverability of prepayments to a supplier

In the normal course of business, the Group prepays its suppliers for purchase of aluminium ingots, including prepayments made to a major supplier ("**Supplier A**"), which was one of the largest aluminium ingots vendor of the Group since August 2013. As described in section (B) below, there were possible connections between Supplier A and certain of the Group's customers in Australia. During the year ended September 30, 2014, the Group made an impairment provision of RMB25,999,000 (equivalent to HK\$33,014,000) against the prepayments made to Supplier A after considering the subsequent cash collections and deliveries of aluminium ingots. As at September 30, 2014, the Group had net outstanding prepayments of RMB21,486,000 (equivalent to HK\$27,170,000) to Supplier A.

During the year ended September 30, 2015, the Group continued to make prepayments to Supplier A totalling RMB12,696,000 (equivalent to HK\$16,043,000) for the purchase of aluminium ingots. The Group had continuously followed up with the Supplier A for subsequent delivery of aluminium ingots. However, no aluminium ingots were subsequently delivered to the Group by Supplier A in relation to the prepayments made during the year ended September 30, 2015. In this connection, a claim was lodged by the Group in May 2015 against Supplier A through legal proceedings in the PRC to recover certain outstanding balances paid to Supplier A. On December 29, 2016, the PRC court ruled in favour of the Group which had recovered a cash settlement of RMB5,430,000 (equivalent to HK\$6,866,000).

After taking into account the amount of RMB5,430,000 (equivalent to HK\$6,866,000) recovered through the legal proceedings against Supplier A, the Current Board considered that it is unlikely to recover the remaining outstanding amounts of RMB12,696,000 (equivalent to HK\$16,043,000). Hence, a further impairment provision of RMB12,696,000 (equivalent to HK\$16,043,000) had been made and included in the administrative expenses during the year ended September 30, 2015 (see Note 19). As at September 30, 2015, the net outstanding prepayments made to Supplier A was RMB5,430,000 (equivalent to HK\$6,866,000) (2014: RMB21,486,000 (equivalent to HK\$27,170,000)), after netting off the total impairment provision of RMB38,695,000 (equivalent to HK\$49,057,000) (2014: RMB25,999,000 (equivalent to HK\$33,014,000)).

## **2** Summary of significant accounting policies (Continued)

- 2.1 Basis of preparation (Continued)
  - 2.1.1 Investigation (Continued)
    - (B) Recoverability of receivables from, and possible relationship with, certain customers in Australia

A customer in Australia together with its subsidiaries and affiliates (collectively the "Australia Customers") was one of the Group's largest customers. Due to a group restructuring of the Australia Customers, two new companies were incorporated in Australia in April 2014 ("Australia Customer A" and "Australia Customer B"). In May 2014, Australia Customer A agreed to assume, from the Australia Customers, the payment obligations of the trade payables to the Group totalling HK\$319,503,000. Since May 2014, Australia Customer B had begun to act as an import agent for Australia Customer A.

Based on the findings of the Investigation, the sister of the former chairman of the Company held 70% of the shareholding of Australia Customer A and was a director of Australia Customer A during the period from July 11, 2014 to November 20, 2014. She was the deputy financial controller of a PRC subsidiary of the Company since late October 2014, but resigned from such position in November 2014. Moreover, the address of the sole shareholder of Australia Customer B appeared to be the same as that stated on a copy of the personal identity card of a relative of the former chairman of the Company. The Investigation further identified potential connections between some of the Australia Customers and Supplier A which shared common shareholders' names and addresses since August 30, 2013. Despite the above, the Current Board did not consider the Australia Customers, Australia Customer A and Australia Customer B as related parties of the Group, as the Group did not have significant influence over them and there was also no evidence indicating that the sister of the former chairman of the Company held her shares in Australia Customer A on his behalf.

The Group stopped trading directly with Australia Customer A in July 2014 and continued the trading business with Australia Customer B until March 2015. Although the Group had continuously demanded for settlement, both Australia Customer A and Australia Customer B delayed in settlement and the outstanding trade receivables became long overdue. The Group also noticed a downside business impact on Australia Customer A and Australia Customer B following the significant increase in anti-dumping duty imposed on foreign imports from Mainland China to Australia in February 2015. In view of the above, the Group filed a claim with a court in Australia and issued winding up petitions against Australia Customer A and Australia Customer B in July 2015. During the year ended September 30, 2014, the Group has written off total outstanding trade receivables of HK\$69,306,000 and HK\$15,056,000 due from Australia Customer A and Australia Customer B, respectively after taking into account the subsequent collections and balances recovered from the winding up petitions against them. As at September 30, 2014, the Group had net trade receivables of HK\$154,954,000 and HK\$141,730,000 due from Australia Customer A and Australia Customer B respectively.

During the year ended September 30, 2015, while there were no sales to Australia Customer A, sales to Australia Customer B amounted to HK\$241,902,000. During the year ended September 30, 2015, after taking into account the subsequent collections and balances recovered from the winding up petitions against them, the Group recognized a further write-off to administrative expenses of the outstanding trade receivables of HK\$137,806,000 due from Australia Customer B in relation to the sales executed in the same year (see Note 19).

# (B) Recoverability of receivables from, and possible relationship with, certain customers in Australia (Continued)

During the year ended September 30, 2014, the Group also made sales to another new customer in Australia ("**Customer C**"), which was incorporated in the British Virgin Islands. Based on the information in the winding up petitions against Australia Customer B, certain goods sold to Customer C were resold to Australia Customer B. During the year ended September 30, 2014, the Group had written off the outstanding trade receivables of HK\$15,740,000 due from Customer C. As at September 30, 2014, the Group had net outstanding trade receivables of HK\$20,386,000 due from Customer C.

During the year ended September 30, 2015, the Group recognized revenue of HK\$36,352,000 for sales to Customer C. However, Customer C had delayed its settlement, and the Group had continuously demanded Customer C for settlement but in vain. The Group had therefore recognized an additional write-off of the outstanding trade receivables from Customer C of HK\$36,352,000 to administrative expenses during the year ended September 30, 2015 (see Note 19).

# (C) Impairment of investment in and advances to, and possible relationship with, an associated company

In August 2014, the Group invested an amount of HK\$17,524,000 to acquire a 45% equity interest in Leading Sense Limited ("Leading Sense"), which was principally engaged in manufacturing and trading of mobile phones (the "Mobile Business"). Leading Sense was accounted for as an associated company.

As at September 30, 2014, the Group had an outstanding advance of HK\$26,807,000 to Leading Sense and its subsidiaries (the "**Leading Sense Group**"). During the year ended September 30, 2015, the Group had made further advances to Leading Sense Group and the total amounts due from Leading Sense Group amounted to HK\$44,841,000 as at September 30, 2015.

According to the findings of a legal adviser of the Company, one of the registered shareholders of Leading Sense might have a possible connection with the former chairman of the Company. Despite this, the Current Board did not consider such person and Leading Sense as related parties of the Group, as the Group did not have significant influence over them before the subscription of the issued share capital of Leading Sense in August 2014.

Upon the acquisition in August 2014, management of the Company was provided with, on a monthly basis, the management accounts of Leading Sense Group which had been unavailable since January 2015. In addition, the other shareholders or the management of Leading Sense Group ceased to be contactable since January 2015. Based on the latest management accounts for the three months ended December 31, 2014 of Leading Sense Group available, management estimated the Group's attributable share of loss of Leading Sense Group to be HK\$9,493,000, which had been recorded as share of loss from an associated company during the year ended September 30, 2015.

- 2.1 Basis of preparation (Continued)

# (C) Impairment of investment in and advances to, and possible relationship with, an associated company (Continued)

As the management of the Company was unable to obtain further financial information and in view of the financial position of Leading Sense Group as well as the discontinuation of the Mobile Business in 2015, the Current Board decided to write off the investment in an associated company of HK\$5,893,000 and the amount due from an associated company totalling HK\$44,841,000. The total amounts written off were charged to administrative expenses in the Company's consolidated financial statements for the year ended September 30, 2015 (see Note 16(b)).

# (D) Off-book transactions conducted through personal bank account and off-book cash transactions

During the year ended September 30, 2015, the Current Board identified certain records (the "Off-book Transaction Records") setting out certain transactions taken place during the period from January 2015 to June 2017. The Off-book Transactions Records recorded certain transactions conducted through a personal bank account opened in the name of the spouse of an employee of the Group (the "Personal Bank Account"), together with the details of certain cash transactions conducted (collectively referred to as "Off-book Transactions").

The Personal Bank Account was opened in January 2015 and was closed in June 2017. The Off-book Transaction Records and the Personal Bank Account were operated and controlled by an employee in the finance department of PanAsia Aluminium (China) Co., Ltd. The Off-Book Transaction Records indicated that there were proceeds from sales of scraps which were either received in cash or deposited into the Personal Bank Account. The proceeds were then used for payments of salaries to employees of the Group or expense reimbursements to certain employees of the Group, including the chief executive officer and an executive director of the Company.

While the bank statement of the Personal Bank Account was provided by the bank, the relevant underlying supporting was not available. The reimbursements to employees of the Group were only evidenced by internal payment application forms without any underlying supporting or documentary evidence.

Based on the Off-book Transaction Records, the total proceeds from sales of scraps amounted to HK\$8,199,000 and the total payments of expenses amounted to HK\$7,848,000 for the year ended September 30, 2015.

The Current Board considered these Off-book Transactions were attributable to the Group and therefore should be included in the Company's consolidated financial statements for the year ended September 30, 2015. As a result, total other income of HK\$8,199,000 and administrative expenses of HK\$7,848,000 were adjusted and recorded in the Company's consolidated statement of comprehensive income for the year ended September 30, 2015. In addition, other receivables of HK\$251,000 and cash of HK\$100,000 were adjusted and recorded in the Company's consolidated statement of financial position as at September 30, 2015.

Annual improvements project

(a) New, revised or amended standards and interpretation adopted by the Group

The following new, revised or amended standards and interpretation have been adopted by the Group for the first time for the financial year beginning on or after October 1, 2014:

Amendment to HKAS 19 (2011) Defined benefit plans: employee contributions Amendment to HKAS 32 Offsetting financial assets and financial liabilities Amendment to HKAS 36 Recoverable amount disclosures for non-financial assets Amendment to HKAS 39 Novation of derivatives and continuation of hedge accounting Amendment to HKFRS 10, Investment entities HKFRS 12 and HKAS 27 (2011)HK(IFRIC) - Int 21 Levies Annual improvements project Annual improvements 2010-2012 cycle

The adoption of the above new, revised or amended standards and interpretation did not result in substantial changes to the accounting policies of the Group and had no material impact on the preparation of the Group's consolidated financial statements.

Annual improvements 2011-2013 cycle

The Group estimates that the adoption of the above new standards and amendments to the existing standards in future periods is not expected to result in substantial changes to the Group's accounting policies, except the following set out below:

## HKFRS 9, 'Financial instruments'

The new standard addresses the classification, measurement and derecognition of financial assets and financial liabilities, introduces new rules for hedge accounting and a new impairment model for financial assets.

The Group does not expect the new guidance to have a significant impact on the classification and measurement of its financial assets.

There will be no impact on the Group's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and the Group does not have any such liabilities. The derecognition rules have been transferred from HKAS 39 'Financial instruments: recognition and measurement' and have not been changed.

## 2 Summary of significant accounting policies (Continued)

- **2.1** Basis of preparation (Continued)
  - 2.1.2 Changes in accounting policy and disclosure (Continued)
    - (b) New and amendments to standards, interpretations and improvements not yet adopted (Continued)

HKFRS 9, 'Financial instruments' (Continued)

The new impairment model requires the recognition of impairment provisions based on expected credit losses ("**ECL**") rather than only incurred credit losses as is the case under HKAS 39. It applies to financial assets classified at amortized cost, debt instruments measured at fair value through other comprehensive income, contract assets under HKFRS 15 'Revenue from contracts with customers', lease receivables, loan commitments and certain financial guarantee contracts. While the Group has not yet undertaken a detailed assessment of how its impairment provisions would be affected by the new model, it may result in an earlier recognition of credit losses.

The new standard also introduces expanded disclosure requirements and changes in presentation. These are expected to change the nature and extent of the Group's disclosures about its financial instruments particularly in the year of the adoption of the new standard.

HKFRS 9 must be applied for financial years commencing on or after January 1, 2018. Based on the transitional provisions in the completed HKFRS 9, early adoption in phases was only permitted for annual reporting periods beginning before February 1, 2015. After that date, the new rules must be adopted in their entirety. The Group does not intend to adopt HKFRS 9 before its mandatory date.

HKFRS 15, 'Revenue from contracts with customers'

The HKICPA has issued a new standard for the recognition of revenue. This will replace HKAS 18 which covers contracts for goods and services and HKAS 11 which covers construction contracts. The new standard is based on the principle that revenue is recognized when control of a good or service transfers to a customer. The standard permits either a full retrospective or a modified retrospective approach for the adoption.

Management is currently assessing the effects of applying the new standard on the Group's financial statements and has identified the following areas that are likely to be affected:

- Revenue from service the application of HKFRS 15 may result in the identification
  of separate performance obligations which could affect the timing of the
  recognition of revenue.
- Accounting for certain costs incurred in fulfilling a contract certain costs which are currently expensed may need to be recognized as an asset under HKFRS 15.
- Rights of return HKFRS 15 requires separate presentation on the balance sheet of the right to recover the goods from the customer and the refund obligation.

At this stage, the Group is not able to estimate the impact of the new rules on the Group's financial statements. The Group will make more detailed assessments of the impact over the next twelve months.

## 2 Summary of significant accounting policies (Continued)

## 2.1 Basis of preparation (Continued)

- 2.1.2 Changes in accounting policy and disclosure (Continued)
  - (b) New and amendments to standards, interpretations and improvements not yet adopted (Continued)

HKFRS 15, 'Revenue from contracts with customers' (Continued)

HKFRS 15 is mandatory for financial years commencing on or after January 1, 2018. At this stage, the Group does not intend to adopt the standard before its effective date.

HKFRS 16, 'Leases'

HKFRS 16 will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognized. The only exceptions are short-term and low-value leases.

The accounting for lessors will not significantly change.

The standard will affect primarily the accounting for Group's operating leases. As at the reporting date, the Group has non-cancellable operating lease commitments of HK\$14,669,000 see Note 30(b). However, the Group has not yet determined to what extent these commitments will result in the recognition of an asset and a liability for future payments and how this will affect the Group's profit and classification of cash flows.

Some of the commitments may be covered by the exception for short-term and low value leases and some commitments may relate to arrangements that will not qualify as leases under HKFRS 16.

The new standard is mandatory for financial years commencing on or after January 1, 2019. At this stage, the Group does not intend to adopt the standard before its effective date.

There are no other HKFRSs or HK(IFRIC) interpretations that are not yet effective and expected to have a material impact on the Group.

#### 2.2 Subsidiaries

#### 2.2.1 Consolidation

A subsidiary is an entity (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

## 2 Summary of significant accounting policies (Continued)

- **2.2** Subsidiaries (Continued)
  - 2.2.1 Consolidation (Continued)
    - (a) Business combinations

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognizes any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognized amounts of acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognized in profit or loss.

Any contingent consideration to be transferred by the Group is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with HKAS 39 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognized and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognized directly in the consolidated statement of comprehensive income.

Intra-group transactions, balances and unrealized gains on transactions between Group companies are eliminated. Unrealized losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

## 2 Summary of significant accounting policies (Continued)

## 2.2 Subsidiaries (Continued)

#### 2.2.1 Consolidation (Continued)

Changes in ownership interests in subsidiaries without change of control Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

There have been no transactions with non-controlling interests during the year ended September 30, 2015.

#### (c) Disposal of subsidiaries

When the Group ceases to have control, any retained interest in the entity is remeasured to its fair value at the date when control is lost, with the change in carrying amount recognized in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associated company, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

#### 2.2.2 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving dividends from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

#### 2.3 Associated company

An associated company is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investment in an associated company is accounted for using the equity method of accounting. Under the equity method, the investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investment in an associated company includes goodwill identified on acquisition. Upon the acquisition of the ownership interest in an associated company, any difference between the cost of the associated company and the Group's share of the net fair value of the associated company identifiable assets and liabilities is accounted for as goodwill.

If the ownership interest in an associated company is reduced but significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income is reclassified to profit or loss where appropriate.

## **2 Summary of significant accounting policies** (Continued)

## 2.3 Associated company (Continued)

The Group's share of post-acquisition profit or loss is recognized in the consolidated income statement, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associated company equals or exceeds its interest in the associated company, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associated company.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associated company is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associated company and its carrying amount and recognizes the amount adjacent to "Share of loss of an associated company" in the consolidated statement of comprehensive income.

Impairment testing of the investment in the associated company is required upon receiving dividends from this investment if the dividend exceeds the total comprehensive income of the associated company in the period the dividend is declared or if the carrying amount of the investment in the Company's separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

Profits and losses resulting from upstream and downstream transactions between the Group and its associated company are recognized in the Group's consolidated financial statements only to the extent of unrelated investor's interests in the associated company. Unrealized losses are eliminated unless the transaction provides evidence of an impairment of the assets transferred. Accounting policies of associated companies have been changed where necessary to ensure consistency with the policies adopted by the Group.

Gains and losses on dilution arising in investments in associated companies are recognized in the consolidated statement of comprehensive income.

#### 2.4 Structured entity

The Group controls a structured entity, the trust constituted by the trust deed, which is set up solely for the purpose of purchasing, administering and holding the Company shares for an employees' share award scheme. As the Group has the power to direct the relevant activities of the trust and it has the ability to use its power over the trust to affect its exposure to returns, the assets and liabilities of trust are included in the consolidated statement of financial position and the Company shares held by the trust are presented as a deduction in equity as shares held for Share Award Scheme.

## 2.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors (the "Board") that makes strategic decisions.

## 2 Summary of significant accounting policies (Continued)

## 2.6 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which each entity operates (the "functional currency"). The consolidated financial statements are presented in HKD, which is the Company's functional and the Company's and the Group's presentation currency.

#### (b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of comprehensive income within "other losses – net".

Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognized in profit or loss as part of the fair value gain or loss.

## (c) Group companies

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the end of the reporting date;
- income and expenses for each statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognized in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognized in other comprehensive income.

## 2.7 Land use rights

Land use rights are stated at cost less accumulated amortization and impairment losses. Cost mainly represents consideration paid for the rights to use the land from the date the respective rights were granted. Amortization of land use rights is calculated on a straight-line basis over the period of the rights, i.e. 50 years.

## 2.8 Property, plant and equipment

Property, plant and equipment are stated at historical cost less depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

## **2 Summary of significant accounting policies** (Continued)

## 2.8 Property, plant and equipment (Continued)

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the consolidated statement of comprehensive income during the financial period in which they are incurred.

Depreciation of property, plant and equipment is calculated using straight-line method to allocate their costs, less their estimated residual value, if any, over their estimated useful lives, as follows:

Buildings20 yearsPlant and machinery5 – 10 yearsOffice equipment3 – 5 yearsFurniture and fixtures5 yearsMotor vehicles4 – 10 years

Construction-in-progress, which includes direct expenditures for construction of buildings, is stated at cost. Capitalized costs include costs incurred during the construction phase which directly relates to the asset under construction. Once all the activities necessary to prepare an asset to be available for its intended use are substantially completed, the construction-in-progress is transferred to property, plant and equipment. No depreciation is provided in respect of construction-in-progress.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized in the consolidated statement of comprehensive income.

#### 2.9 Impairment of non-financial assets

Assets that have an indefinite useful life – for example, goodwill – are not subject to amortization and are tested annually for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

## 2.10 Financial assets

#### 2.10.1 Classification

The Group classifies its financial assets into the following categories: at fair value through profit or loss and loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of the Group's financial assets at initial recognition.

## **2** Summary of significant accounting policies (Continued)

#### 2.10 Financial assets (Continued)

2.10.1 Classification (Continued)

Financial assets at fair value through profit or loss
Financial assets at fair value through profit or loss are financial assets held for trading.

A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are also categorized as held for trading unless they are designed as hedges. Assets in this category are classified as current assets if expected to be settled within 12 months; otherwise, they are classified as non-current. In this category, the Group has only some derivatives.

#### (b) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for the amounts that are settled or expected to be settled more than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's loans and receivables comprise "trade and bills receivables", "deposits and other receivables", "due from a related company", "pledged bank deposits", "fixed bank deposits" and "cash and cash equivalents" in the consolidated statement of financial position.

#### 2.10.2 Recognition and measurement

Regular way of purchases and sales of financial assets are recognized on trade-date – the date on which the Group commits to purchase or sell the asset. Investments are initially recognized at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognized at fair value, and transaction costs are expensed in profit or loss. Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Loans and receivables are subsequently carried at amortized cost using effective interest method.

Gains or losses arising from changes in the fair value of the "financial assets at fair value through profit or loss" category are presented in the consolidated statement of comprehensive income within "other losses – net" in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognized in the consolidated statement of comprehensive income as part of other income when the Group's right to receive payments is established.

## 2.11 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

## **2 Summary of significant accounting policies** (Continued)

## 2.12 Impairment of financial assets carried at amortized cost

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognized in the consolidated statement of comprehensive income. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the reversal of the previously recognized impairment loss is recognized in consolidated statement of comprehensive income.

## 2.13 Derivative financial instruments

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. The Group's derivative financial instruments do not qualify for hedge accounting. Changes in the fair value of these derivative instruments are recognized immediately in the consolidated statement of comprehensive income within "other losses – net".

## 2.14 Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (based on normal operating capacity) but excludes borrowing costs. Net realizable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

## 2.15 Trade and other receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

## 2 Summary of significant accounting policies (Continued)

#### **2.15** Trade and other receivables (Continued)

A provision for impairment of trade and other receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments are considered indicators that the receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of a provision account and the loss is recognized in the consolidated statement of comprehensive income within "administrative expenses". When a receivable is uncollectible, it is written off against the provision account for receivables. Subsequent recoveries of amounts previously written off are credited against "administrative expenses" in the consolidated statement of comprehensive income.

## 2.16 Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash in hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less, excluding pledged deposits.

## 2.17 Share capital

Ordinary shares are classified as equity.

Incremental costs, net of tax, directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

#### 2.18 Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the consolidated statement of comprehensive income within "finance costs" over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a pre-payment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

## **2** Summary of significant accounting policies (Continued)

#### 2.19 Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

## 2.20 Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

## 2.21 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognized in the consolidated statement of comprehensive income, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case the tax is also recognized in other comprehensive income or directly in equity, respectively.

## (a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

## (b) Deferred income tax

Inside basis difference

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

## 2 Summary of significant accounting policies (Continued)

#### 2.21 Current and deferred income tax (Continued)

(b) Deferred income tax (Continued)

Inside basis difference (Continued)

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

#### Outside basis difference

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, associated company/joint arrangement except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognized on deductible temporary differences arising from investments in subsidiaries, associated company/joint arrangement only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilized.

#### (c) Offsetting

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

#### 2.22 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods supplied, stated net of discounts, returns and value added taxes. The Group recognizes revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the Group's activities, as described below. The Group bases its estimates of return on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Revenue is recognized as follows:

- (a) sales of goods (including mold and samples) are recognized on the transfer of risks and rewards of ownership of the products, which generally coincides with the time when the goods are delivered to customers and the title is passed.
- (b) income from processing services is recognized when the services are rendered.
- (c) interest income is recognized on a time-proportion basis using the effective interest method.
- (d) dividend income is recognized when the right to receive payment is established.

## **2 Summary of significant accounting policies** (Continued)

#### 2.23 Employee benefits

(a) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of each reporting period.

Employee entitlements to sick leave and maternity leave are not recognized until the time of leave.

#### (b) Pension obligations

The Group participates in defined contribution schemes which are available to eligible employees, the assets of which are held in separate trustee administered funds. The Group's contributions to the defined contribution retirement schemes are expensed as incurred. The Group has no further obligation once the contributions have been paid.

The Group also participates in the employee social security plan (the "Plan") as required by the regulations in the People's Republic of China (the "PRC"). The Group is required to make welfare contributions to the Plan which is based on a certain percentage of the employees' relevant income.

#### (c) Bonus plans

The Group recognizes a liability and an expense for bonus plans that takes into consideration the profit attributable to the Company's shareholders after certain adjustments. The Group recognizes a provision where contractually obliges or where there is a past practice that has created a constructive obligation.

#### (d) Equity-settled share-based payment transactions

The Group operates an share award scheme, under which the entity receives services from employees as consideration for equity instruments of the Group and the share awards were granted under the share award scheme to employees as part of their compensation package.

The amount to be expensed as share-based compensation expenses is determined by reference to the fair value of the award shares granted, taking into account all non-vesting conditions associated with the grants. The total expense is recognized over the relevant vesting periods (or on the grant date if the shares vest immediately), with a corresponding credit to an employee share-based compensation reserve under equity.

Upon vesting and transfer to the awardees, the related costs of the shares are credited to shares held for share award scheme, and the related fair value of the shares are debited to employee share-based compensation reserve. The difference between the cost and the fair value of the shares is credited to share premium if the fair value is higher than the cost or debited against retained earnings if the fair value is less than the cost.

## 2 Summary of significant accounting policies (Continued)

#### 2.24 Leases

#### (a) Operating leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss for the period on a straight-line basis over the period of the lease.

#### (b) Finance leases

The Group leases certain property, plant and equipment. Leases of property, plant and equipment where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments.

Each lease payment is allocated between the liability and finance charges. The corresponding rental obligations, net of finance charges, are included in current and non-current liabilities. The interest element of the finance cost is charged to the consolidated statement of comprehensive income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

## 3 Financial risk management

#### 3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, commodity price risk and cash flow interest rate risk), credit risk and liquidity risk. The Group is not exposed to material equity price risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance. The Group's management regularly monitors the exposures and implements timely and effective policies to mitigate potential risks. Risk management is carried out by the group treasury department under policies approved by the Board. Financial risks are identified and evaluated in different units with close cooperation with the group treasury. Based on the policies, the Group can use also derivative financial instruments to hedge certain risk exposures.

#### (a) Market risk

#### (i) Foreign exchange risk

The Group mainly operates in Hong Kong, Macao and the PRC and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the United States Dollar ("**USD**"), Renminbi ("**RMB**"), and Australian Dollar ("**AUD**"). Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities.

The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. Currency exposure arising from the net assets of the Group's foreign operations is managed primarily through borrowings denominated in the relevant foreign currencies. The Group's exposure to different currencies is disclosed in relevant notes.

For companies with HKD as their functional currency

As HKD is pegged to USD, the Directors consider the foreign exchange risk exposure with respect to USD is not significant for the group companies which have HKD as functional currency.

As of September 30, 2015, if AUD had weakened/strengthened by 10% against HKD with all other variables held constant, post-tax loss for the year ended September 30, 2015 would have been approximately HK\$7,000 higher/lower (2014: Post-tax profit HK\$1,693,000 lower/higher), mainly as a result of net foreign exchange difference on translation of AUD denominated cash and bank deposits, other receivables, derivative financial instruments as well as the current accounts with group companies.

As at September 30, 2015, there were no significant assets and liabilities denominated in RMB, and hence there was no significant foreign currency risk with respect to RMB to group companies which have HKD as functional currency (2014: Same).

For companies with RMB as their functional currency

As at September 30, 2015, if USD had weakened/strengthened by 10% against RMB with all other variables held constant, post-tax loss for the year ended September 30, 2015 would have been HK\$5,379,000 higher/lower (2014: Post-tax profit HK\$11,948,000 lower/higher), mainly as a result of net foreign exchange difference on translation of USD-denominated receivables.

As at September 30, 2015, there were no significant assets and liabilities denominated in HKD/AUD, and hence there was no significant foreign currency risk with respect to HKD/AUD to group companies which have RMB as functional currency (2014: Same).

For companies with USD as their functional currency

As at September 30, 2015, if AUD had weakened/strengthened by 10% against USD with all other variables held constant, post-tax loss for the year ended September 30, 2015 would have been HK\$9,845,000 higher/lower (2014: Post-tax profit HK\$36,275,000 lower/higher), mainly as a result of the foreign exchange losses/gains on translation of AUD-denominated receivables which are partially offset by the fair value changes on foreign exchange forward contracts.

As at September 30, 2015, there were no significant assets and liabilities denominated in HKD/RMB, and hence there was no significant foreign currency risk with respect to HKD/RMB to group companies which have USD as functional currency (2014: Same).

### 3 Financial risk management (Continued)

- 3.1 Financial risk factors (Continued)
  - (a) Market risk (Continued)
    - (ii) Commodity price risk on aluminium

The Group is exposed to commodity price risk because aluminium ingots are the major raw materials of the Group's products. A change in prices of aluminium could affect the Group's financial performance. The Group has entered into future contracts traded on the Shanghai Futures Exchange in order to mitigate the risk arising from fluctuation in aluminium price.

The Group recognized a total loss on derivative financial instruments of HK\$25,752,000 during the year ended September 30, 2015 (2014: HK\$13,061,000). As at September 30, 2015, the Group held future contracts which will become mature in between November 2015 and February 2016 (2014: In between November 2014 and March 2015). Management considers the fluctuation on the commodity price of aluminium does not have a significant impact on the Group's earnings and cash flows in the long run.

The outstanding balances of future contracts entered as at September 30, 2015 are disclosed in Note 21.

The following commodity price sensitivity is calculated based on the outstanding aluminium future contracts of the Group as at September 30, 2015, assuming 10% shift of the future contract price is as follows:

|  | 2015<br>HK\$′000 | 2014<br>HK\$′000 |
|--|------------------|------------------|
| Loss decreases or profit increases as future contract price increase | 14,576           | 24,980           |

A 10% decrease in future contract prices of aluminium would have had the equal but opposite effect on the above aluminium future contracts to the amounts shown above, on the basis that all other variables remain constant.

#### (iii) Interest rate risk

The Group's interest-rate risk arises from variable rate pledged bank deposits, cash and cash equivalents and borrowings. Borrowings issued at floating rate expose the Group to cash flow interest-rate risk. The Group has not hedged its cash flow interest rate risk. The Group does not have any significant assets or liabilities which would expose it to fair value interest rate risk.

As at September 30, 2015, if interest rates on variable rate pledged bank deposits, cash and cash equivalents and borrowings had been 25 basis points higher/lower with all other variables held constant, post-tax loss for the year ended September 30, 2015 would have been HK\$501,000 higher/lower, mainly as a result of higher/lower interest expense on borrowings (2014: Post-tax profit would have been HK\$175,000 lower/higher, mainly as a result of higher/lower interest expense on borrowings).

### 3 Financial risk management (Continued)

#### 3.1 Financial risk factors (Continued)

(b) Credit risk

Credit risk arises from cash and cash equivalents and deposits with banks, as well as credit exposures to customers, including outstanding receivables and committed transactions. For credit risk in respect of cash and cash equivalents with banks, the Group manages this risk by placing cash and cash equivalents and deposits with major local banks and state-owned banks in the PRC with good credit standing.

For credit risk in respect of trade receivables from customers, the Group has policies in place to ensure that sales are made to reputable and credit-worthy customers with an appropriate financial strength and credit history. It also has other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews regularly the recoverable amount of trade receivables to ensure that adequate impairment losses are made for irrecoverable amounts. For each individually significant trade receivable, the assessment is made on an individual basis.

The credit risk is characterized by having high concentration of business with several reputable customers. The Group's three (2014: three) largest group of trade debtors accounted for 78% of its total gross trade receivables as at September 30, 2015 (2014: 89%) as below.

|                      | 2015 | 2014 |
|----------------------|------|------|
|                      |      |      |
| PRC Customer A       | 38%  | 50%  |
| Australia Customer A | 6%   | 23%  |
| Australia Customer B | 34%  | 16%  |

As at September 30, 2015 and 2014, PRC Customer A represents a group of major customers with long-term reputation.

In May 2014, the Group signed deeds of novation and assignment with Australia Customer A and the Australia Customers, which represents the subsidiaries that the Group disposed of in May 2009 and December 2009, pursuant to which Australia Customer A had agreed to assume the obligations to repay the indebtedness due to the Group in place of the Australia Customers. In July 2015, Opal (Macao Commercial Offshore) Limited ("**OPAL**"), a wholly owned subsidiary of the Company, issued filed a claim and winding up petitions against Australia Customer A and Australia Customer B. The details of the litigation was disclosed in Note 2.1.1(B).

The Group maintains frequent communications with these customers to ensure relevant transactions are running effectively and smoothly and balances are reconciled. Management believes that the credit risk related to these customers is not significant after the write-off of trade receivables.

Settlements from PRC Customer A and others are closely monitored on an ongoing basis by management of the Group to ensure any overdue debts are identified and follow-up action is taken to recover the overdue debts.

(c) Liquidity risk

Prudent liquidity risk management includes maintaining sufficient cash and the availability of an adequate amount of credit facilities.

Management monitors rolling forecasts of the Group's liquidity reserve (comprises undrawn borrowing facility and cash and cash equivalents) on the basis of expected cash flows.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining years at the reporting date to the contractual maturity dates. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

### 3 Financial risk management (Continued)

### 3.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated based on total borrowings and obligations under finance leases divided by total equity multiplied by 100%.

The gearing ratios of the Group as at September 30, 2015 and 2014 were as follows:

|  | 2015<br>HK\$'000     | 2014<br>HK\$'000     |
|--|----------------------|----------------------|
| Total borrowings ( <i>Notes 26 and 28</i> ) Total equity | 406,583<br>1,425,464 | 487,644<br>1,792,832 |
| Gearing ratio  | 28.5%                | 27.2%                |

The increase in the gearing ratio as at September 30, 2015 was the result of loss which had been offset by repayment of borrowings during the year ended September 30, 2015.

#### 3.3 Fair value estimation

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1 Quoted market prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The following table presents the Group's assets and liabilities that are measured at fair value at September 30, 2015 and 2014 by level of the inputs to valuation techniques used to measure fair value.

| Assets Aluminium futures contracts | 4,144    | _        | _        | 4,144    |

The carrying amounts of the Group's financial assets and liabilities approximate their fair values due to their short maturity.

There were no transfers between levels 1 and 2 during the year.

### (a) Financial instruments in level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1. Instruments included in level 1 comprise primarily aluminium future contracts classified as trading securities.

#### (b) Financial instruments in level 2

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

### 4 Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Save as disclosed in Note 2.1.1, the estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

#### (a) Income taxes

The Group is subject to income taxes in numerous jurisdictions. Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current income tax and deferred tax provision in the period in which such determination is made.

### (b) Provision for impairment of receivables

Management determines the provision for impairment of trade receivables. This amount of impairment is based on the credit history of its customers and the current market condition. Management reassesses the provision at each reporting date.

Significant judgment is exercised on the assessment of the collectability of trade receivables from each customer. In making the judgment, management considers a wide range of factors such as results of follow-up procedures performed by sales personnel, customer payment trends including subsequent payments and customers' financial positions. If the financial conditions of the customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

The carrying amount and impairment of trade receivables are disclosed in Note 19.

### (c) Fair value of derivatives

The fair value of derivatives is determined by using valuation techniques. The Group uses its judgement to select an appropriate valuation method and makes assumptions that are mainly based on market conditions existing at the end of the reporting period. Changes in assumptions can materially affect the fair value estimate of the financial instruments. Information on the fair values of derivative financial instruments is disclosed in Note 3.3.

### (d) Identification of functional currencies

The functional currency for each entity in the Group is the currency of the primary economic environment in which it operates. Determination of functional currency involves significant judgment. The Group reconsiders the functional currency of its entities if there is a change in the underlying transactions, events and conditions which determine their primary economic environment.

### 4 Critical accounting estimates and judgments (Continued)

### (e) Estimated useful lives and impairment of property, plant and equipment

Management estimates useful lives of the property, plant and equipment by reference to the Group's business model, its assets management policy, the industry practice, expected usage of the assets, expected repair and maintenance, the technical or commercial obsolescence arising from changes or improvements in the market. Residual values of the property, plant and equipment are determined based on prevailing market values for equivalent aged assets taking into account the condition of the relevant assets and other economic considerations. Depreciation expense would be significantly affected by the useful lives and residual values of the property, plant and equipment as estimated by management.

The Group's major operating assets represent property, plant and equipment. Management performs review for impairment of the property, plant and equipment whenever events or changes in circumstances indicate that the carrying amounts of these assets may not be recoverable.

Management considered there was no impairment indicator of remaining property, plant and equipment and construction in progress as at September 30, 2015 as these assets were used for profitable projects, and there is a strong demand of these property, plant and equipment in the second hand market (2014: Same).

### 5 Segment information

The chief operating decision-maker has been identified as the Board. The Board reviews the Group's internal reporting in order to assess performance and allocate resources. The Board has determined the operating segments based on these reports.

The Board considers the business from both product and geographical perspectives. The Board regularly reviews the consolidated financial statements from both product and geographical perspectives to assess performance and make resources allocation decisions. The operating segments are determined to be based on products. Management assesses the performance of the operating segments based on a measure of gross profit.

The Group derives its revenue from three product segments, namely the electronics parts, branded OPLV products and construction and industrial products which are operating in five geographical areas, namely The PRC (excluding Hong Kong), Australia, North America, Hong Kong and others.

The description of each reportable product segment is as follows:

| Reportable product segment           | Type of products   |
|--------------------------------------|--|
| Electronics parts                    | Aluminium parts for consumer electronics products, examples include heat sinks and chassis for computers   |
| Branded OPLV products                | Door and window frames systems marketed under " <b>OPLV</b> " brand and sold through distributors  |
| Construction and industrial products | Products sold for construction and industrial use, examples include window and door frames, curtain walls, guardrails, body parts for transportation, mechanical and electrical equipment and consumer durable goods |

### 11 Income tax expense

Hong Kong profits tax has been provided for at the rate of 16.5% on the estimated assessable profits for the year ended September 30, 2015 (2014: Same).

The Group's operations in the PRC are subject to the PRC corporate income tax. No PRC corporate income tax has been provided as the Group has no estimated assessable profit for the year ended September 30, 2015 (2014: Same). The standard PRC corporate income tax rate was 25% for the year ended September 30, 2015 (2014: Same).

Pursuant to Article 12 of Decree-Law No. 58/99/M issued by the Macao Government, OPAL is exempted from Macao Complementary Tax during the year ended September 30, 2015 (2014: Same).

As at September 30, 2015, the Group had unrecognized tax losses of approximately HK\$314,406,000 (2014: HK\$266,090,000) to carry forward against future taxable income. The tax losses will expire as follows:

|                                  | 2015<br>HK\$'000 | 2014<br>HK\$'000 |

As at September 30, 2015, the subsidiary has no unremitted earning and no deferred income tax liability arising thereon. Management is of the view that unremitted earnings are intended for re-investment in the PRC and there is no current plan for distribution (2014: Same).

On March 27, 2013, the Hong Kong Inland Revenue Department ("**IRD**") issued protective estimated assessments for the year of assessment 2006/07 to the Company and certain of its subsidiaries, demanding profits tax payments. Notices of objection have been lodged and the IRD has granted unconditional holdover orders in respect of the profits tax payments demanded.

### 11 Income tax expense (Continued)

It is management's understanding that the protective estimated assessments were merely issued to keep the 2006/07 assessment year open in view of the statutory time-bar, and the case is in the information collection stage. Management is of the view that the tax position taken by the Company and the relevant subsidiaries are supported by sustainable facts and technical grounds, and management will vigorously defend such tax position taken. Management is also of the view that, as at the date of this report, there is no reliable basis for estimating, and providing for any potential tax liabilities, and the corresponding penalty and interest, if any.

### 12 (Loss)/earnings per share

### (a) Basic

Basic (loss)/earnings per share is calculated by dividing the (loss)/profit for the year attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the year.

|   | 2015      | 2014      |
|---|-----------|-----------|
| (Loss)/profit attributable to equity holders of the Company   |           |           |

| Basic (loss)/earnings per share (HK cents)  | (28.1)    | 0.2       |

### (b) Diluted

Diluted (loss)/earnings per share is calculated by adjusting the weighted average number of ordinary shares in issue during the year (excluding the ordinary shares held for share award scheme) with the weighted average number of ordinary shares deemed to be issued assuming the dilutive impact on the shares under the share award scheme.

|   | 2015      | 2014      |

Amortization expense has been charged to "administrative expenses" in the consolidated statement of comprehensive income.

#### Note:

On October 1, 2013, the Group entered into an investment agreement with the Wolong District Government, pursuant to which the Group conditionally agreed to invest an aggregate sum of RMB3,000 million (equivalent to approximately HK\$3,780 million) in the Nanyang City, for the establishment of an aluminium alloy production base.

Pursuant to the investment agreement, the Group won the bids and acquired the land use rights of eight parcels of land located in the Nanyang City for a cash consideration of RMB197 million (equivalent to HK\$250 million). The remaining balances represent those directly attributable costs including tax and other professional fees. Furthermore, the Group agreed to invest an aggregate sum of RMB2,890,590,000 (equivalent to approximately HK\$3,655,273,000) in the Nanyang City (Note 30(a)).

### (c) Controlled structured entity

The Group controls a structured entity which operates in Hong Kong, particulars of which are as follows:

| Structured entity  | Principal activities   |
|--|--|
| Employees' share award<br>scheme (Employee<br>share trust) | Purchases, administers and holds the Company shares for the share award scheme for the benefit of the Group's eligible employees |

As the employee share trust is set up solely for the purpose of purchasing, administering and holding Company's shares for the share award scheme, the Company has the power to direct the relevant activities of the employee share trust and it has the ability to use its power over the employee share trust to affect its exposure to returns. Therefore, the assets and liabilities of employee share trust are included in the consolidated and company statements of financial position and the Company's shares it held are presented as a deduction in equity as shares held for share award scheme.

### **25** Reserves (Continued)

Notes:

The statutory reserves are set up by the Group's subsidiaries, namely PanAsia Aluminium (China) Co., Ltd. ("PACL") and OPAL, by way of appropriation from the profit for the year in accordance with the relevant laws and regulations in the People's Republic of China (the "PRC") and in Macao.

In the PRC, PACL is required to allocate at least 10% of its net profit for each voting period as reported in its PRC statutory accounts to the statutory reserves until such reserve reaches 50% of registered capital. The reserve is designated for statutory surplus reserve fund and an enterprise expansion fund which are non-distributable. The statutory surplus reserve fund can be used to make up its prior years' losses, if any, and can be applied in conversion into capital by means of capitalization issue. The enterprise expansion fund can be used for expanding the capital base of PACL, by means of capitalization issue.

In Macao, the Macao Commercial Code#377 requires that OPAL should set aside a minimum of 25% of OPAL's profit for each voting period to the statutory reserves until the balance of the reserve reaches a level equivalent to 50% of the capital of OPAL. The reserve is non-distributable.

During the year ended September 30, 2015, there were no appropriations to the statutory reserves (2014: Nil).

|  |          |          |
|  | 404,818  | 479,919  |

As at September 30, 2015, the effective interest rate of the interest-bearing borrowings was 3.64% per annum (2014: 3.80% per annum).

As at September 30, 2015, the scheduled repayment dates of the Group's bank borrowings, as set out in the loan agreements were as follows:

|               | 2015     | 2014     |
|---------------|----------|----------|
|               | HK\$'000 | HK\$'000 |

Other than the collateralized borrowings of a financial institution and bills payables, the Group's borrowings carry interest at floating rates.

The carrying amounts of all borrowings are carried at amortized cost and approximate their fair values.

#### **28** Borrowings (Continued)

The carrying amounts of the borrowings are denominated in the following currencies:

|     | 2015     | 2014     |
|-----|----------|----------|
|     | HK\$'000 | HK\$'000 |
| RMB | 258,536  | 333,803  |
| USD | 146,282  | 146,116  |
|     |          |          |
|     | 404,818  | 479,919  |

As at September 30, 2015, the Group had the following undrawn borrowing facilities:

|   | 2015<br>HK\$'000 | 2014<br>HK\$'000 |
|---|------------------|------------------|
| Floating rate  – expiring within one year | 9,718            | 9,884            |

The facilities expiring within one year are annual facilities subject to review at various dates during the year ending September 30, 2016.

During the year ended September 30, 2015, the Group's banking facilities were secured by the following:

- (i) pledge of all assets of the companies now comprising the Group with a bank as a continuing security for banking facilities granted to the companies now comprising the Group (2014: Same);
- (ii) guarantees of the Company during the year ended September 30, 2015 (2014: Same);
- (iii) legally notarized livranca (i.e. a promissory note) for HK\$156 million signed by a subsidiary of the Group, OPAL, together with a letter of authority to insert the maturity date at bank's option as at September 30, 2015 (2014: HK\$156 million); and
- (iv) pledge of the Group's bank deposits of HK\$147,998,000 for bills payables (2014: Nil).

All of the banking facilities are subject to the fulfillment of covenants relating to certain of the group companies' statement of financial position ratios, as are commonly found in lending arrangements with financial institutions. If the group companies were to breach the covenants, the drawn down facilities would become repayable on demand.

During the year ended September 30, 2015, none of the covenants relating to drawn down facilities had been breached (2014: Same).

### 32 Events after the reporting period

Save as disclosed in the consolidated financial statements, the following events took place subsequently to September 30, 2015:

#### (a) Construction in Nanyang, PRC

On November 17, 2015, PACL entered into a construction contract with the 河南冠亞建築工程有限責任公司 by constructing and building a workshop at the Group's production facility at Nanyang, with total consideration of RMB46,641,000 (equivalent to approximately HK\$57,602,000).

#### (b) Investment in Xinjiang

On December 18, 2015, the Group entered into an agreement with 吉木薩爾縣國土資源局("**JBLR**") by purchasing the land with consideration of approximately RMB3,592,000, which was waived by the JBLR.

#### (c) Change of the financial year end date

On September 30, 2016, the Board approved that the financial year end date of the Company will be changed from September 30, to December 31. Accordingly, the financial period will cover a period of fifteen months from October 1, 2015 to December 31, 2016.

The Board does not foresee any material financial implications for the Group as a result of the change of the financial year end date nor is there any other matter of significance that should be brought to the attention of the shareholders of the Company.

#### (d) Disposal of OPLV

On December 28, 2017, the Company (through its wholly-owned subsidiaries) as the vendors, the purchasers, which are companies beneficially owned by Ms Shao, and Ms Shao entered into the agreement, pursuant to which the vendors conditionally agreed to sell and the purchasers conditionally agreed to purchase the shares of OPLV (Nanyang) Doors and Windows Systems Co., Ltd and OPLV Architectural Design Pty Ltd. The vendors shall also procure the accounts receivable to be transferred or assigned to the purchasers. The consideration was estimated to be at an aggregate of RMB20 million. Upon completion, the Group will cease to have any interest in the above entities and their subsidiaries and its financial results will no longer be consolidated into the Company's consolidated financial statements.
