Chairman's Statement

On behalf of the board (the "Board") of directors (the "Directors") of Shanghai Fudan-Zhangjiang Bio-Pharmaceutical Co., Ltd. (the "Company"), I present the annual report of the Company together with its subsidiaries (collectively as the "Group") for the year ended 31 December 2017 for consideration by the shareholders.

DEVELOPMENT CONCEPTS AND OBJECTIVE

With the ultimate goal to stay as an innovator and a leader in the bio-pharmaceutical industry, the Group has committed to exploring unmet needs and deficiencies of clinical and patients treatment as well as developing novel and more effective treatments/medicines, so as to realize our mission that "The More We Explore, the Healthier Human Beings Will Be".

This year is an eventful year of the Group. The fluctuation of the stock price confused a majority of shareholders and investors of the Company. As a pharmaceutical enterprise based on drug research and development, from the perspective of long-term development strategy of the Group, we always insist on choosing the projects to meet the unmet needs and deficiencies of clinical and patients treatment. It does not mean that we are paying no attention to the economic interests of the Group when we implemented the project strategy that not fully guided by commercial interests. Instead, we believe that an R&D company without real clinical research is not able to exist for a long time. It was established for the opportunities and shall die for them as well. The drugs that can effectively solve the needs of the patients will eventually reflect their real economic value in the market and gain their commercial interests they deserve. As such, a good project should be worth pushing forward and waiting for a long time. Take the Company's new photodynamic drug, FuMeiDa, as an example, it is the only one approved medicine for the treatment of Port Wine Stain in the world. The launch of this drug means the millions of patients can get rid of pain caused by the defect of head and face and regain confidence on social integration. In addition, it is an affirmation of our research and development strategy. The effectiveness of FuMeiDa has been demonstrated in the market currently which help not only improve the drug awareness and acceptance by doctors and patients, but also receive much attention in the world. We believe that after 17 years of efforts and wait, FuMeiDa will bring great benefits to the Company while reflects the Company's value in the future.

On the other hand, the strategy we stick to brings great difficulties and challenges to ourselves. Hard work may not be fully transformed into future result and benefits. During the year under review, we faced with difficulties in the progress of the

projects. The phase II clinical study of Duteroporphyrin (多替泊芬) for the treatment of hilarcholangiocarcinoma progressed slowly due to the limited choice of eligible patients. The clinical study of high bio-activity recombinant human TNF receptor (重組親和力TNF受體) progressed dilatory caused by immunogenicity problem. These examples illustrate two key points, the first one is that research and development of drugs is extremely complex and the final result cannot be predicted; and the second one shows how valuable and rare the successful innovation drugs are. Today, the investment value of excellent enterprises in pharmaceutical industry is gradually emerging. We believe those companies developing innovative drugs for meeting clinical needs will reflect their reasonable value in the future market.

For the aspect of the Company's operation, with the gradual implementation of the "two invoice" system, the original model of sales agency was unable to proceed. The terminal sales volume in year 2017 of LIBOd® has not met the Company's expectation. After cautious consideration, combined with the Group's decision of focusing on oncology drugs development and the closer communication needs with oncologists, we decided to terminate the agency agreement ahead of time, and establish a new sales and marketing team of oncology drugs. The termination of the Sole Agency Agreement led to a decline in the sales revenue of the Group this year. But we think the marketing and sales function of oncology drugs is an important and indispensable part of the Group's commercialization system. It is necessary to establish a sales and marketing team of oncology drugs at present. In the long run, we believe that the changes and adjustments we have made during the year under review will be beneficial to the future of the Group.

RESEARCH STRATEGY, REVIEW AND PROSPECTS

During the year under review, our R&D platforms, namely, genetic engineering, photodynamic-tech and nanotech, has laid solid foundation for our drug development direction. The Group has committed to developing new clinical indications to tackle selected drugs and developing new medicines and innovative treatments to tackle selected diseases. At the same time, the Group has explored and developed in the fields of molecular targeting, immunotherapy and other fields in order to have a new research and development direction.

During the year under review, with an overall consideration of research resources, risks and cycles, the Group has focused drug development on tumors, skin and self-immunological diseases, reducing the number of innovative drugs, expanding and strengthening the number and progress of commercialized drugs.

- **The projects for innovative research**
  Such as the research on a new antibody cross-linking drug (ADC) for the treatment of tumors; the research for the treatment of CIN, the research on anti-tumor immunity rejection factors in Wnt signaling pathway; the research on drugs to decrease the recurrence rate of bladder cancer; the research on drugs for autoimmune diseases; the research on

drugs for the treatment of moderate and severe acne; the research on drugs for Parkinson treatment and the research on drugs for bone marrow transplantation, etc. This kind of projects focus on the diseases with unmet needs and the deficiency of clinical and patients treatment. It needs to be further explored due to their uncertainties although they are of great importance in the areas of science and clinical treatment.

- **The projects for commercialization purpose**
  Including international registration of listed products, such as the international registration of Doxorubicin Hydrochloride Liposome and the international registration of Hemoporfin; the commercialization of those high-end reagents which broke through technical hurdles such as Nanoparticle Albumin-bound Paclitaxel; those drugs which broke through patent limitation such as new generic drugs for the indication of biliary cirrhosis as well as other innovative or generic solid modified-release drugs and those drugs which planned to submit the clinical trial application such as a photodynamic drug for the treatment of brain gliomas. This kind of projects is of specific importance in clinical treatment and has completed the research on technology. Continuously pushing the clinical research and commercialization is the main purpose in our current stage which will expand the number of drugs as well as the production scale and make contribution to the revenue and profit of the Group in short or mid-terms.

Insisting on the research of innovative drugs and strengthening the commercialization development of drugs fully embody the concept of the Group "stand on solid ground and look up at the starry sky". We know that modern medical procedure is implemented jointly by clinicians who perform disease diagnosis based on big data and researchers who continuously explore pathogenesis and innovative therapy or drugs. A real pharmaceutical company should take the responsibility of new drugs development which is the mission of the Company and the significance of its existence. As an R&D company which emphasizes on the research from needs of clinical treatment, our choices face challenges but we never give up. And we also realize that the commercialization of drugs is the basis for the growth of the Company. Only by constantly expanding the Company's product group and maintaining the growth of profits can we expand the Company's scale and make it stable, laying the foundation for further research and development and long-term healthy development of the Group.

In addition, we will try our best to avoid involving in trouble of homoplasy as a result of selecting projects by the use of Chinese method from the drugs or targets which were well-developed overseas. We believe that time will tell, our efforts will be worthwhile both in the areas of clinical treatments for patients and the payback for investors.

GENETIC TECHNICAL PLATFORM

We will pay constant attention to the ability on building genetic technical platform. We realized that gene technology in terms of signaling pathways control, suppress or strengthen the protein activity, will become the core technology in the area of new drugs development, especially when the research bases on the most fundamental and specific causes and molecular mechanism of diseases. We keep a close eye on hotspots of existing antibody drugs research. We need to find our own direction as the basis of projects selection which means the areas with clinical requirement but lacking effective treatments, with definite positions in scientific theory and unique technology. Our antibody technology could have helped us copy antibody drugs almost the same as the originator drugs successfully. Severe consistency of drug development we are pursuing can help drugs launch for sale earlier and can transfer to the capability of antibody-drugs development. Our crosslinking technology of antibody has been used in the pre-clinical study of new drug CD30-MMAE, which would be the foundation for further development of other ADC drugs of the Group. In addition, we have exploring and researching on vaccines for immunotherapy and treatments for tumor. At the same time, we began to conduct researches on finding starting point of immunotherapy for

cancers in Wnt signaling pathway. To keep the balance of development and meet the requirements of therapy in China, the Group will continue in making effort on pushing the projects which have entered into clinical trial. We will try to realize the commercialization of protein drugs as early as we can.

The progresses of the projects on genetic technical platform are summarized as follows:

The clinical trial approval for high bio-activity recombinant human TNF receptor (重組親和力TNF受體) for the treatment of arthritis has been obtained in May 2014, and the project has completed clinical trial phase I. The drug is mainly used to treat self-immunological diseases, such as arthritis.

The antibody-drug conjugate drugs have shown obvious advantages on tumor treatment in clinical trials, which is much better than the effect of the conventional antibody plus chemotherapy drugs. In order to follow the development trend in bio-pharmaceutical area, CD30-MMAE for the treatment of tumors has completed pre-clinical study and applied for the clinical trial approval during the year under review. The project was elected in the 4th list of the 12th five-year Key New Drugs Creation for Key Science and Technology project and obtained national financial aid.

Two other antibody-drug conjugate for mammary cancer and gastric cancer has entered into pre-clinical conceptual validation.

Avastin bio-similar drug for the treatment of tumor has completed pre-clinical study and obtained clinical trial approval. The Company will carry out clinical trial according to the competitive situation of the target market and the Company's practical research strategy.

Due to no therapeutic advantage and obvious side effects were found in the results of clinical studies in other same drugs, the research on Anti-sclerostin mab (骨硬化蛋白抗體) for the treatment of osteoporosis terminated during the year under review.

PHOTODYNAMIC TECHNICAL PLATFORM

The Group has been expanding the drugs development based on photodynamic technical platform. Photodynamic drugs will become the most important product pipeline of the Group. We will continue to exert its feature of "one drug, several indications" and becoming a new scalpel for clinical treatment so that according to the treatment principle of photodynamic drugs, we will design special therapy for some precancerous lesions which cannot be treated or intervened for the moment. The Group is commencing further research on molecular mechanism and their mode of action in order to discover new photodynamic compound to improve the efficacy and overcome the defects. At the same time, exploration of the mechanism for treatment of anti host cells in bone marrow transplantation with photodynamic therapy is under progress. Meanwhile, the Group is looking forward to cooperating with photodynamic companies overseas to develop specific drugs or research on specific indications. We also have planned to apply for the international registrations for the launched drugs, which will lay a foundation for the commercialization development of the Group. We believe that photodynamic drugs will become the first choice for the treatment of certain diseases based on the initial set up of photodynamic software and hardware repository and the Group's R&D experiences on photodynamic drugs over a long period of time. We have the confidence to become the global leader in photodynamic drugs development area and are willing to make contributions to make photodynamic drugs be used more widely.

The progresses of the projects on photodynamic technical platform are summarized as follows:

As the first commercialization project of the Group, the therapy of Aminolevulinic Acid Hydrochloride combined with photodynamic technology (艾拉®, brand name of the first product) obtained positive market response after it was launched for sale. To expand the application to new indications of this drug is one of the key R&D projects of the Group.

Several years after it was launched to the market, ALA (艾拉®), the first photodynamic drug for the treatment of condyloma acuminate in the world, has become the preferred choice in this area. The therapy of ALA combined with photodynamic technology initiated by the Company was recorded in the 8th edition of Dermatovenercology (published in March 2013) and relevant clinical treatment guidance.

Aminolevulinic Acid Hydrochloride used for the treatment of CIN infected by HPV ("CIN") has entered into clinical trial phase II. Currently the cause of the disease is known but there is no effective intervention or therapy for it. Our product will be the first therapy of precancerous lesion. We tried to complete the selection and improvement of therapy in clinical trial study and spent a lot of time and effort in designing therapeutic regimen and optimizing operating process as well which lead to delay of the research process.

Aminolevulinic Acid Hydrochloride used for the treatment of moderate and severe acne has obtained the clinical trial approval during the year under review, and will start clinical trial phase I soon.

Aminolevulinic Acid Hydrochloride used for the adjunctive therapy of brain gliomas has completed pre-clinical study, and will start to apply the clinical trial approval soon.

New indications with Aminolevulinic Acid Hydrochloride for basal cell carcinoma entered into pre-clinical study.

FuMeiDa (the brand name of Hemoporfin), the first photodynamic drug for the treatment of Port Wine Stain ("PWS") in the world, is a new drug with new drug target, new compound and new indication. During the year under review, FuMeiDa has been launched to the market officially. PWS is the most common congenital vascular malformation characterized by ectatic capillaries in the papillary layer of the dermis. The visible manifestation of this disorder is often considered a disfigurement. The lesions tend to become darker and thicker with time and rarely fade away for life. PWS occurs in anywhere on the body and particularly in face and neck and is reported about 0.3~0.4% incidence of infants worldwide. Before age 40, over 65% of patients without treatment will face the situation of thicken and modular lesions cause great emotional depression. After injection into the blood, Hemoporfin spreads quickly to the surrounding tissues and tends to distribute specifically in vascular endothelial cells. It would selectively damage the photosensitizer-rich vascular endothelium by the use of laser or LEDs with certain wavelength. The dilated and abnormal capillaries in the lesions of patients will be cleared by photodynamic reaction and further effects of coagulation system. PWS had no good treatment before. As one of the second generation photosensitizer, compared with traditional therapies, Hemoporfin is featured by stable chemical structure, lower

photosensitization, rapider metabolism, shorter light-avoidance period requirement, more uniform to treat, higher cure rate, lower incidence of scar formation and lower recurrence rate. The excellent efficacy of the drug in the market and the high cure rate compared to the traditional laser treatment rejoice the clinicians and researchers. During the year under review, the Group has started clinical trial phase IV after the launch of FuMeiDa. The international registration of this drug will also be officially launched in the near future.

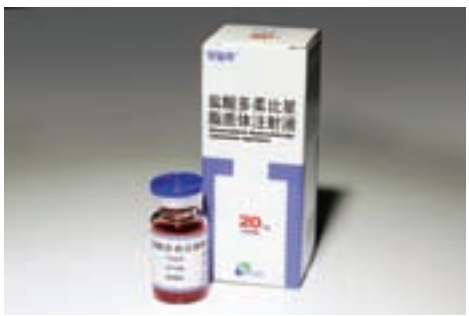
The R&D projects of Aminolevulinic Acid Hydrochloride used for the treatment of CIN infected by HPV and clinical trial phase IV of Hemoporfin after launching for sale were elected as "R&D project of key variety of photodynamic creative drugs" of the 12th five-year Key New Drugs Creation for Key Science and Technology project and obtained national financial aid.

Duteroporphyrin (多替泊芬) for the treatment of tumors has entered into the clinical trial phase II. The treatment of hilarcholangiocarcinoma proceed slowly due to the difficulty on seeking eligible patients who meet the criteria.

NANO TECHNICAL PLATFORM

The Group will further develop new drugs based on the platform of preparation technology of nano drugs including intravenous lipid-based nano drugs etc. The Group firmly believes that new agents will improve the drug's efficacy and reduce the associated risk. Furthermore we will consider to cooperate with third-party research institutions or companies by taking advantage of the strengths in production which will speed up the ability and the progress of commercialization for the Group.

The progresses of the projects on nano technical platform are summarized as follows:



LIBOd® (里葆多®) for the treatment of tumors, was launched to market in August 2009. The drug is a new doxorubicin formula which adopts the advanced stealth liposomal encapsulation technology and has passive targeting characteristics. It is a new generation of replacement for anthracycline drugs. In oncology, it has the advantages of enhancing efficacy and remarkably lowering the effects of cardiac toxicity, myelosuppression and hair-loss. LIBOd® is used for the treatment of AIDS-relating Kaposi's sarcoma, breast cancer and ovarian cancer. Registration for the drug is being carried out in the U.S. taking into account the tremendous market capacity of breast cancer by the Group. After the clinical trial being recognized by U.S. Food and Drug Administration ("FDA"), the Company will be required to further obtain the verification of good quality management system of our production plant by FDA before the drug can be launched to the market.

Vincristine sulphate liposome (LVCR) for the treatment of malignant tumors has completed clinical trial phase I. The Group cautiously decided to transfer this project to an independent third party pharmaceutical company based on the consideration of its future prospect, production conditions and payback period, etc. During the year under review, the transfer agreement is in the execution stage.

Nanoparticle Albumin-bound Paclitaxel (紫杉醇白蛋白納米粒) for the treatment of tumors, has entered into pre-clinical study. The reform of existing production line for this project has been completed and will apply the clinical trial approval soon.

DIAGNOSIS TECHNOLOGY PLATFORM

During the year under review, the Group keeps increasing investments on diagnosis technique and reagent research, and planned to push the "rapid, quantitative detection system" as starting point of entering into clinical medical market to develop the molecular diagnostic technique based on the technology of adapter body as technical reserves. This platform will focus on the specialized market of grassroots medical, obstetrics and neonatal unit, which can become the significant component of the industry layout of the Group in the area of diagnosis technology.

After the integration of vitro diagnostic reagents platform, the Group clarified the establishment of food-origined contaminants screening system as our direction of development in the area of clinical detecting besides keeping exploring the existing dairy tests market. The Group will provide solutions for rapid screening, timely intervention and source control after focusing on food-origined contaminants such as antibiotics and mycotoxins in the early stage of human being. During the year under review, several kinds of screening reagents for food-origined antibiotics and their matching testing instruments have been applied for registration and are estimated to launch for sale in the second half of 2018.

Furthermore as our medium and long-term development direction, the Group stays focusing on the area of molecular diagnostic and mass spectrometric analysis techniques. The Group will continue to establish cooperation with several research institutions at home and abroad and develop various types of diagnostic reagents of clinical medicine and food safety inspection products and expand application scope of related products and technology gradually.

THE EXPLORATION AND DEVELOPMENT OF NEW RESEARCH DIRECTION

With the rapid development of technology in the field of treatment, the development pattern of the pharmaceutical industry has been profoundly changed by the new treatment methods and therapeutic concepts represented by molecular targeting and immunotherapy. The development trend of precision medical treatment has been established. Under the new historical conditions, how to stick to our Group's development concept and balance between grasping the trend and adhering to uniqueness is the opportunity and challenge for the Group. During the year under review, the Group has conducted an exploratory study of three research and development directions:

Small molecular targeting drugs: In the area of established autoimmune disease, me-better products with therapeutic advantage are sought. During the year under review, the Group has received a JAK1 selective inhibitor project from the third party research institute and is currently conducting a pre-clinical conceptual verification study.

Individualized tumor vaccine: During the year under review, the Group noticed the breakthrough in clinical treatment and great potential of personalized tumor vaccine, and conducted in-depth research and exploration in this direction. The Group will continue to maintain the attention in this direction and seek cooperation opportunity with foreign research institutions for a suitable entry point of the Group.

Special oral solid preparation: Oral solid preparation is the most basic form of preparation, and special oral preparation should also be one of the long-term development goals of the Group. During the year under review, obeticholic acid for hepatobiliary disease has completed pre-clinical study and will start the consistency evaluation study and apply for drug registration as soon as possible. Cooperation with the third party research institutions in drug development of Parkinson syndrome entered into pre-clinical conceptual verification.

By the end of the year 2017, the major drugs under R&D of the Group are summarized as follows:

Technical platform	Project name	Indications	Progress
Genetic engineering	rhTNFR(m):Fc (High bio-activity recombinant human TNF receptor 2-Fc fusion protein mutant (高活性重組人腫瘤壞死因子受體突變體-Fc融合蛋白)	Arthritis	Clinical trial phase I
	PTH (重組人甲狀旁腺激素)	Osteoporosis	Clinical trial phase I completed
	CD30-MMAE	Tumors	The clinical trial application has been submitted
	Antibody-drug conjugates	Tumors	Pre-clinical conceptual validation
	Avastin	Tumors	The clinical trial approval has been obtained
	Anti-sclerostin mab (骨硬化蛋白抗體)	Osteoporosis	Terminated
Photodynamic technology	Hemoporfin (海姆泊芬)	Port Wine Stain	Clinical trial phase IV
	Deuteroporphyrin (多替泊芬)	Tumors	Clinical trial phase II
	Aminolevulinic acid	Cervical diseases infected by HPV	Clinical trial phase II
	Aminolevulinic acid	Acne	Clinical trial phase I
	Aminolevulinic acid	Brain gliomas	Pre-clinical study completed
	Aminolevulinic acid	Basal cell carcinoma	Pre-clinical study
Nano technology	Doxorubicin liposome (鹽酸多柔比星脂質體)	Tumors	Under process of registration in USA
	Vincristine sulphate liposome (LVCR)	Tumors	Clinical trial phase I completed, transferred to a third party pharmaceutical company
	Nanoparticle Albumin-bound Paclitaxel (紫杉醇白蛋白納米粒)	Tumors	Pre-clinical study
New R&D direction	Obeticholic acid	Hepatobiliary disease	Pre-clinical study completed
	JAK1 inhibitor	Autoimmune diseases	Pre-clinical conceptual validation
	Special oral preparation	Parkinson syndrome	Pre-clinical conceptual validation

In February 2011, the Company entered into the strategic cooperation agreement with Shanghai Pharmaceuticals Holding Co., Ltd. ("Shanghai Pharmaceuticals") for innovative pharmaceuticals research and development. Both parties will jointly share the risks of, and cooperate on, the research, development and commercialization of the relevant potential pharmaceuticals owned by the Group which are currently at various research stages. This agreement was renewed in 2013 and the term of the renewed agreement is three years ending at 31 December 2016. On 10 May 2017, the Company entered into the renewal agreement with Shanghai Pharmaceuticals, which extends the term of this agreement for a period of three years with effect from 1 January 2017 to 31 December 2019. During the year 2017, the agreement was enforced as stipulated and R&D work was performed in order. The transfer of Vincristine sulphate liposome was decided based on the negotiation with Shanghai Pharmaceuticals.

In a word, we are still exploring and hope our efforts can provide useful help for the treatment of the patients and bring value to the investors. Although facing significant risks and challenges, we still believe our R&D strategy and result will be beneficial to the Company's sustainable development in medium and long term.

COMMERCIALIZATION STRATEGY, REVIEW AND PROSPECTS

During the year under review, the Group has committed to implementing the commercialization strategy of launching self-developed innovative drugs in the market. Meanwhile, we will expand generic drugs group gradually to fill the capacity in view of factual operation needs.

To make full use of the advantages accumulated in skin management field these years, the Group began to involve itself in the industry of skin beauty chain clinics nationwide and made investment to establish Derma Clinic Investment Co., Ltd.*(德美診聯醫療投資管理有限公司) ("Derma Clinic") in August 2015. We think Derma Clinic can enrich the Group's industrial chain layout and expand the core technology and sole products to end customers, which is in line with the development regularity of industry chain in the future. In addition, the operation of Derma Clinic will refine the commercialization concept of photodynamic products and transfer the Group to a resource integrator in photodynamic technology market from a products and technology provider, which can further raise our brand and capital value obviously. On the other hand, in terms of photodynamic drugs of the Company, Derma Clinic would change the operation mode of selling drugs only through hospitals and increase distribution channels, thus creating opportunities for setting up O2O integrated operation mode in the future.

During the year under review, product sales revenue of the Group decreased by 21% compared with that of last year. ALA (艾拉®) which is indicated for the treatment of dermal HPV infectious disease and proliferative disease and LIBOd® which is indicated for the treatment of tumor are two major products of the Group, and together contributed 92% of the sales revenue of medical products by the Group.

ALA (艾拉®) was launched in the market in 2007. As the first photodynamic drug in China, ALA can selectively spread and accumulate in condyloma acuminatum cells, and kill them together with specific wavelength light and energy, which does not result in adverse effects on surrounding normal tissues at the same time. Due to the feature of this therapy, ALA also has effects on the treatment of subclinical infection and latent infection. Compared with traditional therapy, the therapy of ALA combined with photodynamic technology, filled in the blanks in the treatment of urethral orifice condyloma acuminate. In addition, our therapy has the advantages such as better tolerance of patient, higher safety, non-scar, and much lower adverse reaction rate and recurrence rate comparing with previous average level. ALA has become one of the largest consumed skin-sure drugs now. During the year under review, sales volume and revenue of ALA increased by 18% respectively compared with that of last year due to sales strategy adjustments based on market trends. The sales volume of ALA grew steadily.

LIBOd® (里葆多®) for the treatment of tumors, was launched for sale in August 2009 and it has brought favorable market response and reputation. It becomes the only Doxorubicin Hydrochloride Liposome Injection that successfully won the bid for an admitted product for insured critical illness in Zhejiang Province, which has a positive meaning for increasing its market share and sales volume. The Company renewed the sole agency agreement ("Sole Agency Agreement") with NT Pharma (Jiangsu) Co., Ltd. ("NT Pharma") in March 2015 and granted it the exclusive distribution rights of LIBOd®. During the year under review, with the gradual implementation of the "two invoice" system, and affected by the change of national policies and the industry environment, the terminal sales volume in year 2017 of LIBOd® has not met the Company's expectation. Therefore, the Company and NT Pharma reached the agreement to terminate the Sole Agency Agreement on 15 December 2017. At the same time, the Company established a new sales and marketing team of oncology drugs which would be responsible for the sales and promotion of LIBOd® nationwide from 1 January 2018. For more details, please refer to the announcement of the Company dated 15 December 2017. The changes mentioned above led to a sharp decline in the sales volume of LIBOd® during the year under review. Its sales revenue for the year 2017 decreased by 58% compared with that of last year. The Company believes that the new sales and marketing team of oncology drugs will bring a positive impact on the market shares of LIBOd®, and lay a solid foundation for the sales and promotion of more oncology drugs in the future. It is expected that LIBOd® will still be one of the Company's major products in the future.

FuMeiDa (复 美 达®, the brand name of Hemoporfin), the first photodynamic drug for the treatment of Port Wine Stain in the world, is a new drug with new drug target, new compound and new indication. During the year under review, FuMeiDa has been launched in the market officially. We have designed a new sales mode for FuMeiDa, with the integration of treatment and sales, which includes the Company's Wechat subscription, chain clinics of the Group, designated hospitals and direct distribution systems provided by pharmaceutical companies. During the year under review, FuMeiDa has been sold in many hospitals throughout the country with well postoperative feedback. The Group is combining case feedback as soon as possible to optimize the key steps in the process of treatment in order to form a standardized treatment plan.

For the past years, as the first product group, diagnostic reagents in clinical treatment contribute stable sales revenue to the Group. With intensive competitions in diagnostic technology industry, the advantages of this product group became weaker and weaker and there are few good reserve projects. In order to further strengthen diagnostics business unit and integrate in existing vitro diagnostic reagents platform, the Group invested to set up the subsidiary, Shanghai Tracing Bio-technology Co., Ltd. ("Tracing Bio-technology") jointly with a third party investor in 2012 and the new company covers all sectors including R&D, production and sales of the diagnostic reagents. In addition, during the year of 2015, the Group completed a series of jobs on structure restructuring and resource integration of this platform so that we can improve the competitiveness of diagnostic products and develop more and more new products.

During the year under review, the Group continues to regard academic promotion as our primary marketing method. The Wechat communication platform for photodynamic technology that the Company established serves as a network service system integrated with academic exchanging among dermatology clinician, sharing of clinical case and standard practice video, Q&A platform between doctors and patients, etc. In addition, we plan to take advantage of these doctor resources on the platform to develop a new sale mode to solve some frequent problems in current marketing environment and some frequent difficulties for patients in hospital. We believe this kind of investment will have positive significance for products promotion, brand awareness and the Company's recognition as well.

During the year under review, three new clinics invested and set up by Derma Clinic in Beijing, Chongqing and Changsha etc., have completed the registration and filing procedures with the relevant authorities regarding the establishment. By the end of year 2017, eight clinics have been open for public and another one is planned to be opened for business in 2018.

During the year under review, all the product lines for existing products in sale of the Group passed GMP Certification of China Food and Drug Administration. Our objective is to set up the product lines which can meet international standard so that our products could be sold worldwide. The management has considered to apply the GMP certification of FDA to two product lines in Shanghai and Taizhou. In the future, the timetable will be made according to specific commercialization projects.

The subsidiary of the Company, Taizhou Fudan-Zhangjiang Pharmaceutical Co., Ltd ("Taizhou Pharmaceutical") has constructed two production lines for the material and injection of Hemoporfin. To make the two production lines at full capacity before further new self-developed innovative drugs obtaining production approval, the Group will choose several generic drugs which can be produced with Hemoporfin on the same production line and planned to submit the application of registration. The work of technology research of these generic drugs has been completed and the registration will be applied for according to the production plan of the production line. The registration application of Parecoxib Sodium (帕瑞昔布鈉) for analgesia has been delivered during the year under review. More investments on production lines will be made in Taizhou in the next few years so as to make Taizhou Pharmaceutical become the centralized production base of the Group.

The Group has successfully accomplished the transformation from purely R&D to equally stress on both R&D and commercialization with a complete system featuring organic combination of R&D, product manufacturing and marketing. The Group is moving toward a virtuous stage of development.

By the end of the year 2017, the commercialized projects of the Group are summarized as follows:

Technical platform	Project name	Indications	Launching time
Photodynamic technique	ALA	Condyloma acuminate	2007
	FuMeiDa	Port wine stain	2017
Nano technique	LIBOd®	Tumors	2009
Diagnosis and Inspection	Antenatal screening diagnostic reagent, analysis software and equipment including Beixi®, Beiyou	Down's syndrome	Launched already
	Several food safety inspection projects	Food safety inspection	Launched already

INTELLECTUAL PROPERTY RIGHTS

The Group has been actively protecting its intellectual property rights on its innovative medicines and research achievements. During the year under review, the Group applied for 3 invention patents, and has been granted 1 invention patents domestically. By the end of the year 2017, the Group has cumulatively applied for 72 invention patents, and has been granted 42 invention patents.

GRANTS AND AWARDS

The Group has always been improving its ability of new drugs development in light of the industrial policies of China. During the year under review, the Group obtained the following grants and awards from governments at all levels for a number of R&D and commercialization projects:

Key New Drugs Creation "R&D of Key Variety of Photodynamic Creative Drugs" obtained financial aid of the 12th five-year National Special Grant for Key Science and Technology Project. During the year under review, the Company has received RMB 2,191,500 from Shanghai.

During the year under review, a subsidiary of the Company, Taizhou Pharmaceutical received one-time award for the launch of Hemoporfin, as a state first class new medicine, from Hi-tech Park amounting to RMB 10,000,000.

ACKNOWLEDGEMENT

Lastly, I would like to take this opportunity to express my gratitude to the shareholders and business partners of the Group for all their unreserved support and encouragement. I would also like to express my most sincere thanks to all the Directors, Supervisors and all the staff of the Group for their dedication and contribution.

Wang Hai Bo
Chairman

Shanghai, the PRC
23 March 2018

Management Discussion and Analysis

FINANCIAL REVIEW

The following discussion and analysis of the Group's financial and operational position should be read in conjunction with and with reference to the consolidated financial statements of the Group and the related notes to the consolidated financial statements.

With the gradual implementation of the "two invoice" system, and affected by the change of national policies and the industry environment, NT Pharma was unable to implement the Sole Agency Agreement for LIBOd® and gradually reduced the purchase quantity. As the terminal sales volume in year 2017 of LIBOd® has not met the Company's expectation, the Company and NT Pharma reached the agreement to terminate the Sole Agency Agreement. The changes mentioned above led to sales volume of LIBOd® decline sharply as well as corresponding reduction in revenue and net profit of the Group.

REVENUE

The consolidated revenue of the Group for the year 2017 amounted to approximately RMB 497,694,000, comparing to approximately RMB 621,870,000 for the year 2016, representing a decrease of 20%. The major products of the Group, ALA(艾拉®, 鹽酸氨酮戊酸散, ALA) and LIBOd®(里葆多®, 鹽酸多柔比星脂質體, Doxorubicin liposome), have contributed significant revenue to the Group, representing 61% and 29% of the total revenue of the Group, respectively.

The total revenue for the year 2017 mainly came from the sale of medical products. The main source of total revenue for the year 2017 was nearly the same as that for the year of 2016.

Revenue from sale of medical products

The major products of the Group are ALA and FuMeiDa (复美达®, the brand name of Hemoporfin (海姆泊芬)) from photodynamic platform, LIBOd® from Nano-drug platform and various kinds of diagnostic reagents from diagnosis technology platform. The Company had entered into the Sole Agency Agreement with NT Pharma and granted it the exclusive distribution rights of LIBOd®. The work of sales and distribution of LIBOd® to end customers nationwide is conducted by the sales team of NT Pharma. The above agreement was terminated with effect from 31 December 2017. The work of sales and distribution of the rest of the products is taken by the sales team of the Group.

Revenue of the Group from the sale of medical products for the year 2017 was RMB 490,125,000 (representing 98.48% of the total revenue), decreased by 21% from that of year 2016 which was RMB 620,033,000. The sales of ALA, one of the major products of the Group, was continuously improving and its sales revenue increased by approximately 18% from that of the same period in 2016. FuMeiDa, the newly listed product, also contributed about 6% of the total revenue to the Group during the year under review. In additional, the Company terminated the Sole Agency Agreement with NT Pharma, which led to a sharp decline in the sales volume of LIBOd® during the year under review and a decrease in the sales revenue by 58% as compared with that of year 2016.

COST OF SALES

For the year 2017, cost of sales of the Group was RMB 54,791,000, while the corresponding figure for the year 2016 was RMB 46,512,000. The ratio of cost of sales to revenue from sale of products increased to 11% from the level of 7% for last year, and the gross profit margin declined accordingly, which is mainly because the new product of the Group was launched in the market and gross profit margin for the initial single product was low, further affecting the whole gross profit level.

OPERATING PROFIT

For the year 2017, operating profit of the Group was approximately RMB 76,001,000 comparing to the operating profit of RMB 155,117,000 for the year 2016, representing a decrease of 51%.

Expenditure and other income presented before operating profit are as follows:

- Other income

  Other income for the year 2017 was RMB 53,812,000, compared with RMB 61,772,000 for the year 2016, representing a decrease of 13%. Other income for the year 2017 includes the income from Shanghai Pharmaceuticals, a shareholder of the Company, for the strategic cooperation on innovative pharmaceutical research and development amounting to approximately RMB 12,898,000 compared with approximately RMB 17,122,000 for the year 2016. In addition, due to the renewal of fiscal policy approved by the local government, part of 2017 government grants was postponed to be paid in 2018. Therefore, the related income granted by government decreased during the year under review amounting to RMB 24,886,000, compared with approximately RMB 33,020,000 for the year 2016.

- Research and development ("R&D") costs

  The Group adopts a conservative and prudent capitalization policy for R&D projects. Only the expenses incurred on those projects which were evaluated to be feasible in technology with clear objective, controllable risks and probable future economic benefits can be capitalized. Therefore, most of R&D costs of the Group were recognised as expenses as incurred. With the development of R&D projects and the establishment of new projects, R&D costs of the Group for the year 2017 were RMB 110,426,000, compared with RMB 95,046,000 for the year 2016, representing an increase of 16%. The ratio of R&D costs to revenue for the year 2017 was 22% (2016: 15%).

- Distribution and marketing costs

  Distribution and marketing costs for the year 2017 were approximately RMB 253,003,000 compared with approximately RMB 349,838,000 for the year 2016, representing a decrease of 28%. The decrease in distribution and marketing costs was in line with the decrease in revenue for sale of products. The ratio of distribution and marketing costs to revenue for sale of products was 51% (2016: 56%).

- Administrative expenses

  Administrative expenses for the year 2017 were RMB 54,509,000, compared with RMB 36,485,000 for the year 2016, representing an increase of 49%. The increase in administrative expenses was mainly due to the increases of operating costs such as payroll, the administrative expenses of clinics in operation and the one-time establishment fee for the newly established clinics of Derma Clinic during the year under review.

- Other operating expenses

  Other operating expenses for the year 2017 were approximately RMB 2,776,000 compared with approximately RMB 644,000 for the year 2016, representing an increase of 331%. The increase in the other operating expenses is mainly due to the losses increment on disposals of fixed assets in 2017.

FINANCE COSTS

For the year 2017, finance costs of the Group were approximately RMB 5,505,000 compared with approximately RMB 4,279,000 for the year 2016, representing an increase of 29%. It is mainly due to increase of interest rate of borrowings by the Group during the year under review.

INCOME TAX

Effective from 1 January 2008, the Group except for Fernovelty (Hong Kong) Holding Co., Ltd. ("Fernovelty Holding") is required to determine and pay the corporate income tax in accordance with the Corporate Income Tax Law of the People's Republic of China (the "CIT Law") as approved by the National People's Congress on 16 March 2007. The Company and Tracing Bio-technology were recognised as high-tech enterprises, and their applicable tax rates are both 15% in 2017. The applicable tax rates of the rest Mainland China subsidiaries are 25% in 2017.

The Hong Kong subsidiary, Fernovelty Holding, was incorporated in 2016 in Hong Kong and is subject to profits tax rate of 16.5%. Since it did not have estimated assessable profit for the year 2017, Hong Kong profits tax has not been provided.

As at 31 December 2017, the applicable tax rate and tax policy of the Group remained unchanged.

PROFIT FOR THE YEAR

The profit of the Group for the year 2017 was approximately RMB 60,159,000, comparing with that of approximately RMB 130,008,000 for the year 2016, representing a decrease of approximately 54%.

PROFIT ATTRIBUTABLE TO SHAREHOLDERS OF THE COMPANY

The profit attributable to shareholders of the Company of approximately RMB 75,287,000 was recorded in the consolidated financial statements for the year 2017, compared with that of approximately RMB 138,708,000 for the year 2016, representing a decrease of 46%.

The profit attributable to shareholders of the Company of RMB 92,275,000 was recorded in the financial statements of the Company for the year 2017, compared with that of approximately RMB 145,476,000 for the year 2016, representing a decrease of 37%.

SIGNIFICANT INVESTMENTS

The Board approved the Company to establish a subsidiary named Derma Clinic with independent third parties, including Zhong He Hou De Investment Management Co., Ltd.* (中和厚德投資管理有限公司) ("Zhong He Hou De") in Shanghai, China on 12 December 2014. The Company received the approval and completed the registration and filing procedures with the relevant authorities regarding the establishment of Derma Clinic on 4 August 2015. Derma Clinic will make investment to establish and operate nationwide skin beauty chain clinics, by taking advantage of the brand effect and market share of the Company in the skin beauty field of medical market. Derma Clinic's registered capital is RMB 50,000,000. As at 31 December 2017, the Company has paid RMB 20,016,000 and the rest part of the capital contribution of RMB 5,004,000 will be paid pursuant to the investment agreement and prospective actual situation. Details of this transaction were set out in the announcements issued by the Company on 12 December 2014 and 4 August 2015.

During the year under review, Fernovelty Holding, a subsidiary of the Company, entered into the subscription agreement with an American biopharmaceutical company, Adgero Biopharmaceuticals Holdings, Inc. ("Adgero") to purchase ordinary shares and warrants with a total consideration of USD 2,000,000 (equivalent to approximately RMB 13,775,000). Adgero mainly focuses on research and development of photodynamic therapy drugs. During the year under review, the registration and filing procedures with the relevant authorities regarding this transaction have been completed and the Group has fully paid the consideration amounting to RMB 13,775,000 which is accounted for as available-for-sale financial assets. The Group holds 400,000 ordinary shares of Adgero, which account for approximately 7.4% of the total issued share capital of Adgero. After the completion of the investment, the Group will take advantage of Adgero's overseas photodynamic platform to address the research and registration procedure for photodynamic products in the United States of America and more strategic cooperation between Adgero and the Group will be considered in the future.

The Board approved the Company to enter into the cooperation framework agreement with Shanghai BVCF Healthcare Investment Management Company Limited ("Shanghai BVCF") in respect of the subscription for the shares of Yiwu BVCF Investment Management Partnership (Limited Partnership) ("BVCF Fund") on 14 November 2017. According to the cooperation framework agreement, the BVCF Fund was set up by Shanghai BVCF, with a size of approximately RMB 300,000,000, of which the Company subscribed for RMB 60,000,000, accounting for 20% of the fund size. If the size of the fund is reduced, the subscription amount of the Company will be decreased proportionately. If the total amount of the fund is less than RMB 200,000,000 (including the part that shall be subscribed by the Company according to the cooperation framework agreement), it shall be deemed that the establishment of the BVCF Fund is unsuccessful, and BVCF Fund shall refund all the amounts which the Company has paid. As at 31 December 2017, the Company has not paid for the subscription amount.

Saved as disclosed above, the Group had no other significant investment during the year 2017.

MATERIAL ACQUISITIONS OR DISPOSALS OF SUBSIDIARIES AND ASSOCIATED COMPANIES

During the year ended 31 December 2017, the Group did not have any material acquisition or disposal of subsidiaries and associated companies.

CONTINGENT LIABILITIES

As at 31 December 2017, the Directors were not aware of any material contingent liabilities.

CHARGE ON ASSETS

As at 31 December 2017, seven intellectual properties of the Group were pledged as security of bank borrowings. These intellectual properties do not have any carrying value in the Group's financial statements for the year ended 31 December 2017.

Saved as disclosed above, there were no other charges on the Group's assets as at 31 December 2017.

BANK BORROWINGS

As at 31 December 2017, the outstanding amount of the loans of the Group was RMB 140,000,000, which includes:

On 9 March 2017, the unsecured bank borrowing of RMB 40,000,000 was taken by the Company, bore a floating interest rate per annum (As at 31 December 2017: 3.915%). The borrowing was due for repayment on 9 March 2018.

On 1 August 2017, the unsecured bank borrowing of RMB 60,000,000 was taken by the Company, bore a floating interest rate per annum (As at 31 December 2017: 4.35%). The borrowing was due for repayment on 1 August 2018.

On 21 November 2017, the secured bank borrowing of RMB 40,000,000 was taken by the Company, bore a fixed interest rate at 4.35% per annum. The borrowing was due for repayment on 20 November 2018.

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

Taizhou Pharmaceutical, the subsidiary of the Company, has the plan to construct a new production plant to meet future production needs. At present, it is still in the plan.

On 15 December 2017, the Board approved the Company to establish a new subsidiary, Shanghai Baosu Pharmaceutical Technology Co., Ltd.* (上海葆溯醫藥科技有限公司, "Baosu Pharmaceutical"), which would be responsible for the sales and promotion of LIBOd® nationwide from 1 January 2018. Baosu Pharmaceutical's registered capital is RMB 20,000,000, and the Company holds 55% equity interest in it. The Company received the approval and completed the registration and filing procedures with the relevant authorities on 28 February 2018. As at 31 December 2017, the Company has not pay any contribution.

Saved as disclosed above, the Group had no other material capital expenditure plan for the moment.

LIQUIDITY AND FINANCIAL RESOURCES

The Group generally finances its operations and investing activities with internally generated financial resources, proceeds from the listing of the Company's shares on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"), proceeds from the share placing, grants from the municipal government authorities and commercial loans.

As at 31 December 2017, the Group had cash and cash equivalents of approximately RMB 471,687,000.

Being consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including bank borrowings and loans from government authorities) less cash and cash equivalents. Total capital is calculated as total equity, as shown in the consolidated balance sheet, plus net debt. As at 31 December 2017 and 2016, cash and cash equivalents is much more than total balance of bank loans of the Group, therefore, the gearing ratio is not applicable.

The Group adopts a conservative treasury policy in cash and financial management. To achieve better risk control and to minimize the finance costs, the Group's treasury activities are centralized. The Group's liquidity and financing arrangements are reviewed regularly.

FOREIGN EXCHANGE EXPOSURE

The Group mainly operates in the domestic market. Except for the Hong Kong dollar proceeds from the placing of shares, the operating results and the financial position of the Group will not be substantially affected by the movement in exchange rates.

EMPLOYEES AND SALARIES

As at 31 December 2017, the Group had a total of 650 employees, as compared to 605 employees as at 31 December 2016. Staff costs including Directors' remuneration for the year 2017 were RMB 115,734,000, compared with RMB 98,992,000 for the year 2016. The salaries and benefits of employees provided by the Group are kept at a competitive level and employees are rewarded on a performance related basis within the general framework of the Group's salary and bonus system which is reviewed annually. A wide range of benefits, including statutory social welfare plans, are also provided to employees by the Group.

Details of the remuneration policies are set out in the "Remuneration Committee" section of the "Corporate Governance Report".

USE OF PROCEEDS

On 4 February 2013, the Company completed a placing of 142,000,000 H shares with a par value of RMB0.10 each at a price of HKD 1.70. The amount of net proceeds from the placing was approximately HKD 233,909,000 (equivalent to approximately RMB 185,575,000) (after deducting all applicable costs and expenses, including commissions, legal fees and levies). The net proceeds were applied in the planned projects described in the circular of the Company dated 14 May 2012 and the announcement of the Company dated 16 January 2013.

Particulars of the proceeds from the placing were used as follows:

	Budget RMB'000	Total amount that has been utilized as of 31 December 2017 RMB'000
Pharmaceutical R&D projects		
– the clinical study project regarding using ALA for the treatment of cervical intraepithelial neoplasia	**20,000**	18,348
– the pre-clinical study and clinical study project regarding using ALA for the treatment of brain glioma	**10,000**	10,000
– the pre-clinical and clinical study project of paclitaxel albumin nanoparticles	**20,000**	20,000
– the pre-clinical and clinical study project of CD30-MMAE	**30,000**	30,000
To repay the debts of the Company	**20,000**	20,000
For the working capital of the Company	**85,575**	85,575
Total	**185,575**	183,923

OTHER MATTERS

Proposed Issue of A Shares

All resolutions proposed at the extraordinary general meeting of the Company, the class meeting of holders of H Shares of the Company and the class meeting of holders of Domestic Shares of the Company all held on 11 August 2015 were duly passed, which included the resolutions of proposed issue of not more than 27,000,000 A Shares of the Company with a nominal value of RMB0.10 each ("Issue of A Shares"), the proposal on authorization to the Board to deal with matters relating to the Issue of A Shares and the proposed amendments to the articles of association of the Company.

At the annual general meeting of the Company, the class meeting of holders of H Shares of the Company and the class meeting of holders of Domestic Shares of the Company on 13 May 2016 and 9 June 2017, the resolution of proposed extension of the validity period of the resolution in respect of the proposed Issue of A shares as well as the resolution of proposed extension of the authorization period to the Board to deal with matters relating to the Issue of A Shares were considered and approved.

Shanghai Fudan Asset Management Co., Ltd. is the only state-owned shareholder of the Company at current stage and the Company is required to apply to its competent authority-in-charge for the registration and relevant matters of property rights of state-owned assets in accordance with the provisions in relation to the state-owned assets management. The Company has filed relevant materials and has received certain parts of comments from the competent authority-in-charge on the materials previously submitted. At current stage, the Company is actively organizing and supplementing relevant materials in order to receive relevant approval from the competent authority-in-charge as soon as possible. After obtaining the abovementioned approval, the Company will proceed with the relevant procedures to file its application to CSRC with respect to the Issue of A Shares and to have it's A Shares listed on the Shanghai Stock Exchange.

The Issue of A Shares will be subject to, among other things, the approvals by the China Securities Regulatory Committee and Shanghai Stock Exchange. Details of the proposed Issue of A Shares are set out in the Company's announcements dated 29 May 2015, and circulars dated 24 June 2015, 13 April 2016 and 29 March 2017.

Report of the Directors

The Board is pleased to present the directors' report for the year 2017 and the audited consolidated financial statements of the Group for the year ended 31 December 2017.

ACTIVITIES REVIEW

The Group is principally engaged in R&D and commercialization of innovative drugs.

On R&D, the Group is committed to developing five R&D platforms, including genetic technical platform, photodynamic platform, nano technical platform, diagnosis technology platform and exploration and development of new research and development direction. As at the end of the report period, the Group had about 20 major R&D projects and over 30 corresponding proposed indications or specifications. Given that R&D on innovative drugs faces significant risks and challenges, the Group adopts more prudent and conservative capitalization policy on R&D expenses and will try to make the medium and long-term plans of R&D in view of actual financial position.

On commercialization, the major products of the Company are ALA on photodynamic platform, LIBOd® on nano technical platform and all kinds of diagnostic reagents on diagnosis technology platform. FuMeiDa, which is indicated for the treatment of Port Wine Stain, launched to the market in 2017 officially.

In addition, the Company established a subsidiary named Derma Clinic with third parties in 2015. It will make investment to establish and operate nationwide skin beauty chain clinics, by taking advantage of the brand effect and market share of the Company in the skin beauty field of medical market.

The Group's revenue for the year 2017 was principally generated from the sale of medical products.

The Group only operates a single business segment in 2016 and 2017 and hence no segment information is presented.

MAJOR CUSTOMERS AND SUPPLIERS

During the year under review, the percentages of the major customers and suppliers in the Group's total sales and purchases are as follows:

	Percentage in the Group's total	
	Sales	**Purchases**
Largest customer	23.39%	
Total of the five largest customers	50.03%	
Largest supplier		12.90%
Total of the five largest suppliers		43.48%

The Company entered into the "Sole Agency Agreement" with NT Pharma and granted it the exclusive distribution rights of LIBOd® in February 2011. So NT Pharma is the largest customer of the Group. NT Pharma is a wholly-owned subsidiary of China NT Pharma Group Company Limited, a company listed on the Main Board of the Stock Exchange (Stock Code: 01011). Risks associated with the customer and countermeasures, please refer to "Principal Risks and Uncertainties" in this annual report.

Shanghai Pharmaceuticals, a substantial shareholder of the Company, is a key customer of the Company. The connected transactions with Shanghai Pharmaceuticals have been approved at the Board meeting of the Company. Save for this, none of the Directors, their respective associates or any shareholder of the Company who or which to the knowledge of the Directors owns more than 5% of the issued share capital of the Company has any beneficial interest in any of the Group's five largest customers or suppliers.

PRINCIPAL RISKS AND UNCERTAINTIES

The principal risks faced by the Group are R&D risks of innovative drugs, promotion risks of innovative drugs, the risks caused by single sales channel of LIBOd® and price cut down risks of drugs, etc.

There are many uncertainties during the R&D of innovative drugs with large investment and long research period. Once the project after many years of research ultimately attributed to failure, there is a big negative impact on the Company. The Company will continue to improve project management from the beginning of the project with fully demonstration to reduce the risk from the source. In addition, we will perform assessment during the research process in a timely manner to reduce the risk of each stage. And the Group adopts a conservative and prudent capitalization policy for R&D projects. Only the expenses incurred on those projects which were evaluated to be feasible in technology with clear objective, controllable risks and probable future economic benefits can be capitalized. Therefore, most of R&D costs were recognised as expenses as incurred. The success of the final project or not, will not have a greater impact on the current financial statements.

After the success of research and launch into the market, it needs time for innovative drugs to develop the market to achieve their sales expectations. It's uncertain to set the length of the process or to judge if achieve the desired state. The Company will promote new products in a positive and scientific manner, in order to let professionals and patients to have dependence with full understanding of the product as well as avoiding all other risks caused by informal means.

Entering into the Sole Agency Agreement, LIBOd® adopts the sales method of exclusive distribution. From the point of view of the Company, its sales channel is single and the dealer's sales status will directly and completely affect this product's sales performance. During the year under review, affected by the change of national policies and the industry environment, the terminal sales volume in year 2017 of LIBOd® has not met the Company's expectation. Therefore, the Company and NT Pharma terminated the Sole Agency Agreement on 15 December 2017. The changes mentioned above led to a obvious decline in the sales volume of LIBOd® during the year under review.

There are lots of factors which will likely affect the Company's sales revenue and sales profit such as the release of the drug sales regulations, the gradual implementation of the "two-invoice" system and the new "B2V" policy came into force, As our drugs are not included in the national essential drug list, it is impossible to make a substantial price reduction under the current policy. On the other hand, the Company will try to avoid the price drop due to other reasons.

The principal uncertainty is regulatory policy. In recent years, the domestic drug regulatory policy has undergone major changes. It is uncertain about further reform action. The Company will actively adapt to the new regulatory policy of the industry and improve the corresponding management of our R&D projects, which reduce the impacts of regulatory changes as lower as possible.

RESULTS

The results of the Group for the year ended 31 December 2017 are set out in the consolidated statement of comprehensive income and related explanatory notes to the consolidated financial statements.

An analysis on the Company's annual results of 2017 using financial key performance indicators are set out in the section headed "Management Discussion and Analysis" of the annual report.

DIVIDENDS

The resolution in relation to the distribution of a final dividend of RMB0.03 per share (tax inclusive) for the year ended 31 December 2017 has been considered and approved at the meeting of the Board held on 23 March 2018, totalling approximately RMB 27,690,000. If the profit distribution plan is approved by the shareholders by way of an ordinary resolution at the 2017 annual general meeting to be held on Friday, 8 June 2018, the final dividend is expected to be distributed on Friday, 10 August 2018 to all shareholders whose names appear on the register of the Company on Friday, 22 June 2018. To determine the identity of the shareholders entitled to receive the final dividend, the register of holders of H Shares of the Company will be closed from Friday, 15 June 2018 to Friday, 22 June 2018 (both days inclusive) during which no transfer of H Shares will be registered. In order to qualify for entitlement to the proposed final dividend, all transfers of H Shares accompanied by the relevant share certificates and transfer forms must be lodged with the Company's Hong Kong Share Registrar, Computershare Hong Kong Investor Services Limited at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Hong Kong for registration not later than 4:30 p.m. on Thursday, 14 June 2018. Final dividend for holders of Domestic Shares will be declared and calculated in RMB, and paid in RMB whereas final dividend for holders of H Shares will be declared and calculated in RMB, and paid in Hong Kong dollars. The exchange rate shall be determined by the average selling rates promulgated by People's Bank of China within one week before the date of declaration of the dividend. In case of any change to the expected payment date or the period during which the register of holders of H Shares will be closed, further announcement(s) will be published by the Company in due course in respect of such changes.

Pursuant to CIT Law and its implementing regulations, the tax rate of the corporate income tax applicable to the income of non-resident enterprise deriving from the PRC is 10%. For this purpose, any H shares registered under the name of non-individual enterprise, including the H shares registered under the name of HKSCC Nominees Limited, other nominees or trustees, or other organizations or entities, shall be deemed as shares held by non-resident enterprise shareholders as defined under the CIT Law. The Company will distribute the final dividend to non-resident enterprise shareholders subject to a deduction of 10% corporate income tax withheld and paid by the Company on their behalf.

Pursuant to the Notice on the Issues on Levy of Individual Income Tax after the Abolishment of GuoShui Fa [1993] No. 045 Document issued by the State Administration of Tax on 28 June 2011, the dividend to be distributed by the PRC non-foreign invested enterprises which has issued shares in Hong Kong to the overseas resident individual shareholders, is subject to the individual income tax with a tax rate of 10% in general. However, the tax rates for respective overseas resident individual shareholders may vary depending on the relevant tax agreements between the countries of their residence and Mainland China. Thus, 10% individual income tax will be withheld from the final dividend payable to any individual shareholders whose names appear on the register of members of H Shares of the Company on 22 June 2018, unless otherwise stated in the relevant taxation regulations, taxation agreements or the notice.

The Company will have no liability in respect of any claims arising from any delay in, or inaccurate determination of the status of the shareholders or any disputes over the mechanism of withholding.

SHARE CAPITAL

Investco Hong Kong Limited	H Shares	17,061,000 (L)	Investment manager	Corporate	5.02%	1.85%

Note: The letter "L" stands for long position.

CONNECTED TRANSACTIONS

For the year ended 31 December 2017, the continuing connected transactions of the Group are set out as follows:

Sales and Distribution Agreement with Shanghai Pharmaceutical Co., Ltd.

In order to leverage the established and extensive sales and distribution network of Shanghai Pharmaceuticals, a substantial shareholder of the Company, the Company has been engaging Shanghai Pharmaceutical Co., Ltd.* (上藥控股有限公司, formerly known as Shanghai Pharmaceutical Distribution Co., Ltd.* (上海醫藥分銷控股有限公司)), as its distribution agent since 10 August 2010 when the Company entered into the original sales and distribution agreement (the "Original Sales and Distribution Agreement") with Shanghai Pharmaceutical Co., Ltd., a wholly-owned subsidiary of Shanghai Pharmaceuticals. The Board approved the Company to enter into the sales and distribution agreement (the "Sales and Distribution Agreement") with Shanghai Pharmaceutical Co., Ltd. on 18 March 2016 for renewing the Original Sales and Distribution Agreement entered into between the Company and Shanghai Pharmaceutical Co., Ltd. dated 19 March 2013. For more details, please refer to the announcements of the Company dated 18 March 2016 and 21 March 2016. The annual caps for the continuing connected transactions contemplated under the Sales and Distribution Agreement for the three years ending 31 December 2018 are approximately RMB 20,000,000, RMB 22,000,000 and RMB 24,000,000, respectively. Shanghai Pharmaceutical Co., Ltd. is a wholly-owned subsidiary of Shanghai Pharmaceuticals, which is a substantial shareholder of the Company. Shanghai Pharmaceutical Co., Ltd. is therefore a connected person of the Company under the Listing Rules. The transactions under the Sales and Distribution Agreement will be carried out on a continuing or recurring basis in the ordinary and usual course of business of the Company and therefore, constitute continuing connected transactions of the Company under the Listing Rules. Since the applicable percentage ratios for the highest proposed annual cap for each of the three years ending 31 December 2018 for the transactions under the Sales and Distribution Agreement are more than 0.1% but less than 5%, the transactions are subject to the reporting, announcement and annual review requirements but exempt from the independent shareholders' approval requirement under Chapter 14A of the Listing Rules. During the year 2017, the product sales revenue to Shanghai Pharmaceutical Co., Ltd. was RMB 13,037,000, which did not exceed the annual cap which was approved at the Board meeting held on 18 March 2016.

Strategic Cooperation Agreement for Innovative Pharmaceuticals R&D with Shanghai Pharmaceuticals

In February 2011, the Company entered into the original strategic cooperation agreement for innovative pharmaceuticals R&D (the "Original Strategic Cooperation Agreement") with Shanghai Pharmaceuticals, a substantial shareholder of the Company, with the expiration date of 31 December 2013. Both parties would jointly share the risks of, and cooperate on, the research, development and commercialization of the relevant potential pharmaceuticals owned by the Group which are currently at various research stages. To renew the transactions contemplated under the Original Strategic Cooperation Agreement, the Company entered into the strategic cooperation agreement for innovative pharmaceuticals R&D (the "Strategic Cooperation Agreement") with Shanghai Pharmaceuticals on 19 March 2013, with the expiration date of 31 December 2016. On 18 March 2016, the Company entered into the supplemental agreement with Shanghai Pharmaceuticals to revise the annual cap for 2016 under the Strategic Cooperation Agreement from RMB 20,000,000 to RMB 34,000,000, which was approved at the annual general meeting held on 13 May 2016. For more details, please refer to the announcements of the Company dated 23 February 2011, 19 March 2013, 18 March 2016 and the circulars of the Company dated 8 April 2011, 12 April 2013 and 13 April 2016. On 10 May 2017, the Company and Shanghai Pharmaceuticals entered into the renewal agreement, which extends the term of the Strategic Cooperation Agreement for a period of three years with effect from 1 January 2017 to 31 December 2019. For more details, please refer to the announcement of the Company dated 10 May 2017. The annual caps for the continuing connected transactions contemplated under the Strategic Cooperation Agreement (as renewed by the renewal agreement) for the three years ending 31 December 2019 are approximately RMB 28,000,000, RMB 28,000,000 and RMB 28,000,000, respectively. Shanghai Pharmaceuticals is a promoter and substantial shareholder of the Company and therefore, is a connected person of the Company under the Listing Rules. The transactions under the Strategic Cooperation Agreement (as renewed by the renewal agreement) will be carried out on a continuing or recurring basis in the ordinary and usual course of business of the Company and therefore, constitute continuing connected transactions of the Company under the Listing Rules. Since the highest applicable percentage ratio for the proposed annual cap for each of the three years ending 31 December 2019 for the continuing connected transactions under the Strategic Cooperation Agreement (as renewed by the renewal agreement) exceeds 0.1% but is less than 5%, such transactions are subject to the reporting and announcement requirements, but are exempt from the independent shareholders' approval requirements under Chapter 14A of the Listing Rules. During the year 2017, the Group received an amount of RMB 13,609,400 from Shanghai Pharmaceuticals for cooperation and development, the nature of the transaction was in the context of the framework agreement and the amount did not exceed the annual cap which was approved at the Board meeting.

The above continuing connected transactions are closely monitored by the Company's Internal Audit and Control Department. The Audit Committee and Independent Non-executive Directors have reviewed the above mentioned continuing connected transactions along with the report of external auditors and confirmed that the transactions have been entered into:

(1) in accordance with the Group's pricing policies;

(2) in the ordinary and usual course of business of the Group;

(3) on normal commercial terms or better; and

(4) according to the agreement governing them on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

The Company's auditor was engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants. The auditor has issued its unqualified letter containing its findings and conclusions in respect of the continuing connected transactions in accordance with Rule 14A.56 of the Listing Rules. A copy of the auditor's letter has been provided by the Company to the Stock Exchange on 23 March 2018.

Details of material related party transactions undertaken in the ordinary and usual course of business are set out in note 38 to the consolidated financial statements. None of the related party transactions constitutes a connected transaction that should be disclosed, except for the above continuing connected transactions, in respect of which the disclosure requirements in accordance with Chapter 14A of the Listing Rules have been complied with.

SECURITIES TRANSACTIONS BY DIRECTORS

Refer to "Directors' Securities Transactions" section of the "Corporate Governance Report" for more details.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES

Neither the Company nor its subsidiaries purchased, sold or redeemed any of the Company's listed securities during the year ended 31 December 2017.

PRE-EMPTIVE RIGHTS

There is no provision for the pre-emptive rights in the Articles of Association or under the laws of the PRC being the jurisdiction in which the Company was incorporated, which would oblige the Company to offer new shares on a pro-rata basis to its existing shareholders.

AUDIT COMMITTEE

The Audit Committee is responsible for reviewing the financial reporting, internal controls and corporate governance issues and making relevant recommendations to the Board. The Audit Committee comprises two Independent Non-executive Directors and one Non-executive Director who are Mr. Lam Yiu Kin, Mr. Xu Qing and Mr. Shen Bo. Mr. Lam Yiu Kin was appointed as the chairman of the Audit Committee.

The Audit Committee reviews the accounting principles and practices adopted by the Group as well as the internal controls to check whether they comply with the Listing Rules, and reviews issues regarding auditing, internal controls, risk management and financial reporting. The Audit Committee reviewed the Group's annual results and financial statements for year 2017 before proposing to the Board for approval.

For more details, refer to "Report of the Audit Committee" and "Audit Committee" section of the "Corporate Governance Report".

AUDITOR

The financial statements have been audited by PricewaterhouseCoopers. The Company has not changed the auditor during the last three years.

INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

Pursuant to the Listing Rules, each of the Independent Non-executive Directors of the Company has confirmed with the Company their independence. The Company has received such confirmations from the Independent Non-executive Directors and has confirmed the independence of Independent Non-executive Directors.

ENVIRONMENTAL POLICIES AND PERFORMANCE

The discussion on the Company's environmental policies and performance during the year under review are set out in the section headed "Social Responsibility" of the "Corporate Governance Report" and "Environment, Social and Governance Report".

RISK MANAGEMENT AND INTERNAL CONTROL

During the year under review, the Board was responsible for evaluating and determining the nature and extent of the risks the Company wants to take in achieving its strategic objectives, and ensuring that the Company establishes and maintains appropriate and effective risk management and internal control systems. Meanwhile, the Board oversees the management in the design, implementation and monitoring of the risk management and internal control systems, and the management has provided a confirmation to the Board on the effectiveness of these systems. The Audit Committee of the Board oversaw the Company's risk management and internal control systems on an ongoing basis and conducted a review of the effectiveness of the Group's risk management and internal control systems during the year under review. The review covered all material controls, including financial, operational and compliance controls. The Board's review ensured the adequacy of resources, staff qualifications and experience, training programs and budget of the Company's accounting, internal audit and financial reporting functions.

COMPLIANCE WITH THE RELEVANT LAWS AND REGULATIONS

During the year under review, the Company has complied with the relevant laws and regulation that have a significant impact on the Company, including but not limited to *Pharmaceutical Administration Law of the People's Republic of China* and its implementation regulations, *Measures for the Supervision over and Administration of Pharmaceutical Production, Law of the People's Republic of China on the Protection of the Rights and Interests of Consumers, Trademark Law of the People's Republic of China, Patent Law of the People's Republic of China* and its rules for implementation, etc. Details of the relevant laws and regulations on environment and society with which the Company has complied during the year under review are set out in the "Environment, Social and Governance Report".

By Order of the Board
Wang Hai Bo
Chairman

Shanghai, the PRC
23 March 2018

As at the date of this report, the Board comprises:

Mr. Wang Hai Bo *(Executive Director)*
Mr. Su Yong *(Executive Director)*
Mr. Zhao Da Jun *(Executive Director)*
Mr. Shen Bo *(Non-executive Director)*
Ms. Yu Xiao Yang *(Non-executive Director)*
Mr. Zhou Zhong Hui *(Independent Non-executive Director)*
Mr. Lam Yiu Kin *(Independent Non-executive Director)*
Mr. Xu Qing *(Independent Non-executive Director)*
Mr. Yang Chun Bao *(Independent Non-executive Director)*

Report of the Supervisory Committee

To the Shareholders:

The supervisory committee of Shanghai Fudan-Zhangjiang Bio-Pharmaceutical Co., Ltd. (the "Supervisory Committee") has performed its duties for the year 2017 in accordance with the relevant provisions and requirements of the Company Law and the Articles of Association, and the Supervisors have attended all on-site board meetings. They reviewed the Group's financial statements and gave advice and recommendations on the issues which were reflected in the Group's operations and management.

The Supervisory Committee duly supervised the Directors and senior management's compliance with the laws and regulations as well as the Articles of Association, in carrying out their duties, and the legal procedures on the change of directorship. The Supervisory Committee held the opinion that there was no violation of the PRC laws and regulations or the Articles of Association by the Directors and managers during the year 2017.

The Supervisory Committee was of the view that the resolutions passed in all board meetings for the year 2017 had been made with a view to protecting the Group's interests. No insider dealings, or anything which was prejudicial to the interests of the Group, or loss of Group's assets was acknowledged. The auditors' reports issued by PricewaterhouseCoopers and PricewaterhouseCoopers Zhong Tian LLP are true and objective. The Group's financial statements have accurately reflected the Group's financial position.

The Supervisory Committee is satisfied with the achievement and progress of each task of the Group in 2017 and has great confidence in the future of the Group.

SUPERVISORY COMMITTEE

Mr. Zhou Xi *(Chairman)*
Mr. Wang Luo Chun
Mr. Liu Xiao Long
Mr. Huang Jian
Ms. Yu Dai Qing

Shanghai, the PRC
23 March 2018

Report of the Audit Committee

The Audit Committee is comprised of two Independent Non-executive Directors (Mr. Lam Yiu Kin and Mr. Xu Qing) and one Non-executive Director (Mr. Shen Bo). Mr. Lam Yiu Kin, Independent Non-executive Director, was appointed as the chairman of the Audit Committee. Mr. Lam Yiu Kin is a fellow member of the Association of Chartered Certified Accountants (ACCA), the Institute of Chartered Accountants in England & Wales (ICAEW), the Institute of Chartered Accountants in Australia and New Zealand (ICAA), and Hong Kong Institute of Certified Public Accountants (HKICPA). Mr. Shen Bo is a master of professional accounting and he was the chief financial officer of a listed company in pharmaceuticals industry. He is currently an executive director, a vice president and the chief financial officer of Shanghai Pharmaceuticals Holding Co., Ltd. Mr. Xu Qing is currently a professor of Tongji Unversity Medical School, doctor-postgraduate supervisor, deputy director of the Oncology Department and Tumor Institute, and director, chief physician of Medical Oncology Department of the Tenth People's Hospital affiliated to Tongji University. And he is director of Medical Oncology Department of Shanghai Dermatology Hospital affiliated to Tongji University. All of them have extensive experience in accounting, industry, and financial management.

The Audit Committee assists the Directors in discharging their duties through independent reviews and supervision of financial reporting, together with the Group's effective internal control and in appointing external auditors. The Audit Committee reviews issues involving the accounting principles and practice principles adopted by the Group, including studying audit functions, financial reporting, risk management and internal control, participating in the formulation of the corporate governance policy of the Group, and participating in the disclosure compliance in the corporate governance report of the group, etc. If necessary, the Audit Committee will also invite external auditors, the general manager and senior management to attend meetings. The Principles of the Audit Committee which were passed by the Board of the Company specifically laid down the terms of reference of the Audit Committee and elaborated its role and the power as conferred to the Audit Committee by the Board.

The Audit Committee has sufficient resources to carry out its duties. The Audit Committee is accountable to the Board, and the minutes of its meetings should be submitted to the Board for reference.

A summary of the work performed by the Audit Committee in 2017 is as follows:

1) Review the financial reports for the year ended 31 December 2016 and for the half year ended 30 June 2017, respectively;

2) Review connected transactions of the Group during the year 2016;

3) Supervise the Group's financial reporting system and internal control procedures;

4) Review the external audit arrangements and related explanations;

5) Review and approve the audit fees for 2017;

6) Discuss the risk management and internal control systems with the management on a regular basis to ensure that the management has performed its duty to have effective systems.

Report of the Audit Committee

The Audit Committee meeting held on 23 March 2018 reviewed the Company's 2017 consolidated financial statements together with the Company's external auditors, including a review of the accounting principles and practice principles adopted by the Group. Based on the results of the review and after discussion with the management and the auditors, the Audit Committee agreed with the accounting treatments adopted by the Group, and has made efforts to ensure that the financial information disclosed in the consolidated financial statements complies with relevant requirements of the applicable accounting principles and the Listing Rules. Accordingly, the Audit Committee proposed that the Board approved the annual results announcement and the consolidated financial statements for the year ended 31 December 2017, and the Audit Committee proposed that the Board considered the re-appointment of PricewaterhouseCoopers and PricewaterhouseCoopers Zhong Tian LLP as the international and the statutory auditors of the Group, respectively, for the year 2018.

The Audit Committee held four meetings in 2017.

Report of the Remuneration Committee

The Remuneration Committee is comprised of 3 Independent Non-executive Directors, who are Mr. Zhou Zhong Hui, Mr. Lam Yiu Kin, and Mr. Yang Chun Bao. Mr. Zhou Zhong Hui is the Chairman of the Committee.

The terms of reference for the Remuneration Committee is: to make recommendations to the Board on the Company's remuneration policy and structure for all Directors, supervisors and senior management and on the establishment of a formal and transparent procedure for developing such policy remuneration; to formulate the remuneration management policy and remuneration packages scheme of individual Executive Directors and senior management and make recommendations to the Board; such remuneration packages include benefits in kind, pension rights and compensation payments (including any compensation payable for loss or termination of their office or appointment), and make recommendations to the Board of the remuneration of Non-executive Directors and supervisors; in formulating the remuneration policies and standards, the Remuneration Committee should consider factors such as salaries paid by comparable companies, time commitment and responsibilities of the Directors, supervisors and senior management, employment conditions elsewhere in the Group and desirability of performance-based remuneration; to review and approve the remuneration packages of the management by reference to corporate goals and objectives resolved by the Board from time to time; to review and approve the compensation payable to Executive Directors and senior management in connection with any loss or termination of their office or appointment to ensure that such compensation is determined in accordance with relevant contractual terms and that such compensation is otherwise fair and not excessive for the Company; to review and approve compensation arrangements relating to dismissal or removal of directors and supervisors for misconduct to ensure that such arrangements are determined in accordance with relevant contractual terms and that any compensation payment is otherwise reasonable and appropriate; to ensure that no Director or supervisor or any of their associates is involved in deciding his/her own remuneration; to research the share incentive plan of the Company and put forward proposals; requirements in relation to the scope of work for the Remuneration Committee under the Listing Rules of other places where the Company's securities are listed (as amended from time to time).

The Principles of the Remuneration Committee which were passed by the Board specifically laid down the terms of reference of the Remuneration Committee and elaborated its role and the power as conferred to the Remuneration Committee by the Board. The Remuneration Committee has sufficient resources to carry out its duties. If necessary, it also makes references to the opinions of external human resources advisers in respect of human resources management and remuneration policies. After each meeting, the Remuneration Committee reports to the Board. The Remuneration Committee is accountable to the Board, and the minutes of its meetings should be submitted to the Board for reference.

Report of the Remuneration Committee

A summary of the work performed by the Remuneration Committee in 2017 is as follows:

1) Review the remuneration scheme for the Directors and Supervisors for the year 2016;

2) Formulate the remuneration scheme for the Directors and Supervisors for 2017.

The Remuneration Committee held one meeting in 2017.

Remuneration Committee

Mr. Zhou Zhong Hui *(Chairman)*
Mr. Lam Yiu Kin
Mr. Yang Chun Bao

Report of the Nomination Committee

The Nomination Committee is comprised of 3 members, who are Mr. Wang Hai Bo (Chairman, Chairman of Board of Directors), Mr. Zhou Zhong Hui (Independent Non-executive Director), and Mr. Xu Qing (Independent Non-executive Director).

The Board of the Company set up the Nomination Committee in April 2012 and approved the Principles of the Nomination Committee which stipulated the terms of reference for the Nomination Committee and elaborated its role and the authority delegated to it by the Board. The Nomination Committee is provided with sufficient resources to perform its duties. The Nomination Committee is accountable to the Board and its meeting minutes should be submitted to the Board for reference.

The Nomination Committee is responsible for reviewing the structure, size and composition (including the skills, knowledge and experience) of the Board and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy; examining the candidates of directors and chief executive and the candidates of deputy chief executive, finance officer, general legal counsel, chief economist, assistant to chief executive and secretary of Board and put forward examination opinions and appointment recommendations; assessing the independence of Independent Non-executive Directors; making recommendations to the Board on the appointment or re-appointment of directors and succession planning for directors, in particular the chairman and the chief-executive; researching the standard, procedure and method of selection of directors, chief executive and other senior management of the Company and to put forward proposals to the Board; and other authority delegated to the Nomination Committee by the Board and matters assigned by the Board.

A summary of the work performed by the Nomination Committee in 2017 is as follows:

1) Review and propose the candidates of Independent Non-executive Directors;

2) Review and propose the candidates of shareholder supervisors;

3) Review and propose the candidates of Independent Non-executive Directors;

4) Assess the independence of Independent Non-executive Directors;

5) Report to the Board the composition of the Board members and monitor the implementation of the policy on board diversity.

The Nomination Committee held two meetings in 2017.

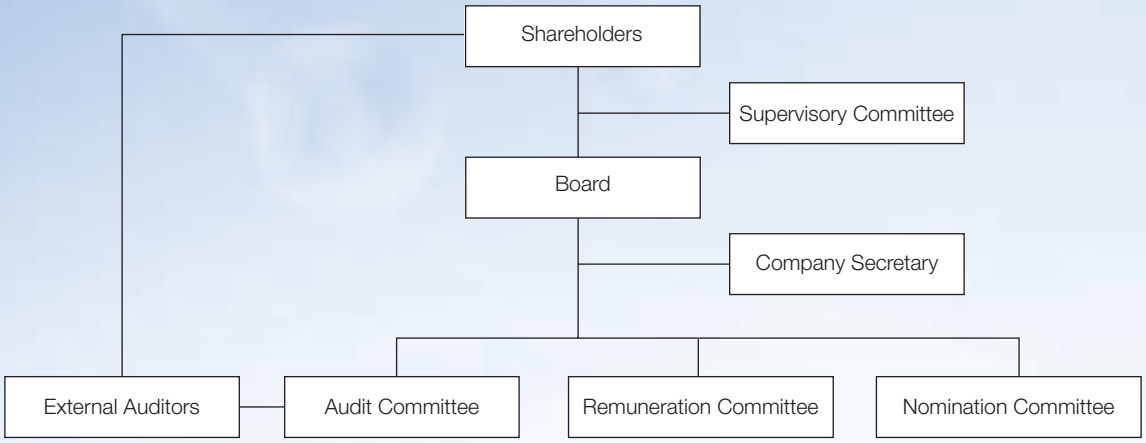
Corporate Governance Report

CORPORATE GOVERNANCE PRACTICE

The Company's corporate governance structure is as follows:



The Company's Corporate Governance Code includes but is not limited to the following documents:

a) Articles of Association;

b) Principles of the Audit Committee;

c) Principles of the Remuneration Committee;

d) Principles of the Nomination Committee;

e) Principles regarding transactions in the Company's securities;

f) Regulations for information disclosure;

g) Regulations for internal control management;

h) Daily management documents of the Company.

The Board has reviewed the documents relating to corporate governance policies adopted by the Company and considered that it had complied with most of the principles and codes set out in the Corporate Governance Code (the "Code") contained in Appendix 14 of the Listing Rules. In some aspects, the codes of corporate governance adopted by the Company are even stricter than the provisions as set out in the Code. Details are set out as follows:

Major aspect which is stricter than the provisions as set out in the Code:

– Two-thirds of the members of the audit committee of the Company (the "Audit Committee") are Independent Non-executive Directors.

Major aspects which deviate from the provisions as set out in the Code:

– The positions of the chairman and the general manager rest on the same person. Although the Articles of Association contains specific requirements on the responsibilities of the chairman and the general manager (chief executive), such being the responsibilities of managing the operation of the Board and managing the daily operation of the Company, respectively, the two positions are still taken by one person. Considering that the scale of the Company is relatively small with its businesses mainly focused in the areas of research, production and sales of innovative drugs, and for the sake of management efficiency, the Board takes the view that the positions of chairman and chief executive being taken by one person is beneficial for the Company's development at the present stage. Along with the development of the Company, the Board will consider to segregate duties of the chairman and the chief executive.

BOARD

The Company is governed by the Board which is responsible for leadership and control of the Company. The Directors are collectively responsible for promoting the success of the Company by directing and supervising the Company's affairs.

DIRECTORS

Currently, the Board comprises the Chairman, two other Executive Directors, two Non-executive Directors and four Independent Non-executive Directors. Except for Mr. Yang Chun Bao who joined the Board as an Independent Non-executive Director and Ms. Ke Ying who resigned from the Board as a Non-executive Director on 9 June 2017, all the other Directors were re-elected as Directors on 9 June 2017.

Particulars of the Directors are set out in the section headed "Profiles of Directors, Supervisors and Senior management" of the annual report. Members of the Board and their appointments are as follows:

Directors	Time of first appointment	Date of recent re-appointment	Term
Executive Directors			
Wang Hai Bo *(Chairman)*	11 November 1996	9 June 2017	Three years
Su Yong	20 January 2002	9 June 2017	Three years
Zhao Da Jun	20 January 2002	9 June 2017	Three years
Non-executive Directors			
Ke Ying (Resigned on 9 June 2017)	27 May 2011	30 May 2014	–
Shen Bo	29 June 2012	9 June 2017	Three years
Yu Xiao Yang	30 May 2013	9 June 2017	Three years
Independent Non-executive Directors			
Zhou Zhong Hui	30 May 2013	9 June 2017	Three years
Lam Yiu Kin	9 October 2013	9 June 2017	Three years
Xu Qing	29 May 2015	9 June 2017	Three years
Yang Chun Bao (Appointed on 9 June 2017)	9 June 2017	–	Three years

The Company's Independent Non-executive Directors have a wide range of skills and experience. They are able to provide adequate checks and balances for safeguarding the interests of shareholders and the Company as a whole. The Board considers that they can make independent judgments effectively in compliance with the guidelines for assessment of independence under Rule 3.13 of the Listing Rules. All the Directors have the terms of office for no more than three years, and can be nominated for re-election at the annual general meeting.

Powers of the Board

The Board reviews the performance of the operating divisions against their proposed budgets and business targets on a regular basis, and also exercises a number of reserved powers pursuant to the Articles of Association, including:

1) Responsible for convening shareholders general meetings, and presenting reports at the meetings;

2) Implementing the resolutions of the general meetings;

3) Determining the operation plans and investment plans of the Company;

4) Formulating annual financial budget plans and final accounting plans of the Company;

5) Formulating profit distribution plans and loss compensation plans of the Company;

6) Setting up liability and financial policies of the Company, plans for the increase or reduction of the Company's registered capital and plans for the issuance of the Company's bonds;

7) Formulating material acquisition or disposal plans of the Company, and the Company's merger, demerger and dissolution plans;

8) Determining deployments of the Company's internal management;

9) Appointing or removing the Company's managers, and appointing or removing the Company's vice general managers, financial controller, Board secretary in accordance with the nomination of the general manager, and deciding on their remunerations;

10) Setting the basic management policies of the Company;

11) Formulating the amendment plans to the Articles of Association;

12) Deciding other material affairs and administrative affairs of the Company other than those to be resolved at the general meeting pursuant to the Company Law and the Articles of Association, and signing other important agreements.

The Board is responsible for leadership and control of the Group as well as promoting the success of the Group by directing and supervising the Group's affairs. The Board focuses on formulating the Group's overall strategies, authorizing the development plan and budget; monitoring financial and operating performance; reviewing the effectiveness of the internal control system; supervising and managing management's performance of the Group; and setting the Group's values and standards. The Board delegates the day-to-day management, administration and operation of the Group to management. The Board is responsible for the completeness of financial information and the effectiveness of the Group's internal controls system and risk management processes. The Board is also responsible for preparing financial accounts of the Company. Achievement of the Company's business objectives and the daily management of business are delegated to the general manager (chief executive). The Board regularly reviews the duties of the general manager and the powers delegated to the general manager, so as to ensure the appropriateness of such arrangements.

Powers of the Management

Pursuant to the Articles of Association, the management (ie: one general manager, with a certain number of deputy general managers, one financial controller who will assist the general manager in his work) shall be accountable to the board of directors and exercise the following functions and powers:

1) to be in charge of the Company's production, operation and management and to organize the implementation of the resolutions of the board of directors;

2) to organize the implementation of the Company's annual business plan and investment plan;

3) to draft plans for the establishment of the Company's internal management structure;

4) to draft the Company's basic management system;

5) to formulate basic rules and regulations of the Company;

6) to propose the appointment or dismissal of the Company's deputy general managers and the financial controller;

7) to appoint and dismiss management personnel other than those required to be appointed or dismissed by the board of directors;

8) other functions and powers conferred by these Articles of Association and the board of directors.

Chairman and the General Manager

Although the Articles of Association contains specific requirements on the responsibilities of the chairman and the general manager (chief executive), such being the responsibilities of managing the operation of the Board and managing the daily operation of the Company, respectively, the two positions are still taken by one person. Considering that the scale of the Company is relatively small, with its businesses mainly focused in the areas of research, production and sales of innovative drugs, and for the sake of management efficiency, the Board takes the view that the positions of chairman and chief executive being taken by one person is beneficial for the Company's development at the present stage. Along with the development of the Company, the Board will consider to segregate duties of the Chairman and the chief executive.

Board Diversity

The Board has adopted a board diversity policy which became effective on 9 October 2013. The Company seeks to achieve board diversity through consideration of a number of factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. All board appointments will be based on meritocracy, and candidates will be considered against objective criteria, having due regard for the benefits of diversity on the Board.

Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural background and educational background, ethnicity, professional experience, skills, knowledge and length of service. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

As at the date of this report, the Board comprises nine Directors. One of them is a woman and one of them resides in Hong Kong. Four of them are Independent Non-executive Directors and are able to promote a critical review and control of the management process. The composition of the Board is diversified in terms of gender, nationality, professional background and skills.

Board Meetings

The Chairman is responsible for the leadership of the Board and ensuring the Board to perform its duties effectively. The Chairman is also responsible for setting agenda for the Board meetings and considering matters which are proposed by other Directors for inclusion in the agenda. The agenda and accompanying board documents are circulated where possible at least three days prior to the Board or committee meeting. The Chairman is also responsible for making sure that all Directors are properly briefed on issues which will be discussed at board meetings. The Chairman ensures that the Directors can receive accurate, timely and clear information. Directors are encouraged to update their skills, knowledge and familiarity with the Group through their ongoing participation at board and committee meetings, and through meeting key people in the divisions.

All Directors have access to the services of the Company Secretary who regularly updates the Board on governance and regulatory matters. Any Director, wishing to do so in the furtherance of his or her duties, may take independent professional advice through the Chairman at the Company's expense. The availability of professional advice extends to all Committees.

Minutes of board meetings are taken by the Company Secretary and, together with any supporting board documents, are available to all board members. Board meetings are structured to encourage open discussion and frank debate among the Directors, such that the Non-executive Directors can put forward effective queries to each Executive Director effectively. The Independent Non-executive Directors meet privately to discuss matters which are associated with their specific responsibilities when necessary.

In furtherance of good corporate governance, the Board has established three sub-committees: an Audit Committee, a Remuneration Committee and a Nomination Committee. All of them have terms of reference which accord with the principles set out in the Code. The Company Secretary takes minutes of the meetings of these committees and the work of these committees is reported to the Board.

The Board held five meetings during 2017, four of which were on-site, and the other one was held by way of communication. The attendance of individual directors at the board meetings is set out in the table below.

Members of the Board	Required number of attendance for the year	Attendance in person	Attendance by way of communication	Attendance by proxy	Absence	Attendance rate
Executive Directors						
Wang Hai Bo *(Chairman)*	5	4	1	0	0	100%
Su Yong	4	3	1	1	0	75%
Zhao Da Jun	5	4	1	0	0	100%
Non-executive Directors						
Ke Ying (Resigned on 9 June 2017)	1	1	0	0	0	100%
Shen Bo	4	3	1	1	0	75%
Yu Xiao Yang	4	3	1	1	0	75%
Independent Non-executive Directors						
Zhou Zhong Hui	5	4	1	0	0	100%
Lam Yiu Kin	5	4	1	0	0	100%
Xu Qing	5	4	1	0	0	100%
Yang Chun Bao (Appointed on 9 June 2017)	4	3	1	1	0	75%

Note: Attendance by proxy is not be counted as attendance rate.

The table below sets out the time and major agenda of Board meetings in 2017:

Time of Board meetings	Major agenda
Regular Board meetings	
16 March 2017	Reviewed the annual report of 2016; Considered the distribution of dividend; Considered the re-appointment of the auditors; Considered the 2017 remuneration plans for Directors and Supervisors; Determined the time for annual general meeting.
9 June 2017	Reviewed the members and chairman of the committees under the sixth session of the Board; Reviewed the original senior management of the Company; Reviewed the first quarterly results of 2017.
4 August 2017	Reviewed the interim results of 2017.
14 November 2017	Reviewed the third quarterly results of 2017; Reviewed the fund subscription for the investment in the field of early drug development.
Extraordinary Board meeting	
15 December 2017	Reviewed the proposal to establish a new subsidiary for the sales and promotion of oncology drugs.

Directors' Training

The Company provides introduction and information to newly appointed directors on their legal and other responsibilities as directors and their functions. In addition, the Company invites legal adviser to answer the questions about the above documents and the questions raised by the newly appointed directors.

During the year under review, all directors participated in the continuing education program to develop and update their knowledge and skills. The Company secretary arranged on-site training once, and sent the documents such as industry frontier information, Director's responsibilities to the directors for reference by e-mail twice during the year under review. The attendance of the training was as follows:

Members of the Board	Attendance/ Times of trainings	Attendance rate
Wang Hai Bo *(Chairman)*	3/3	100%
Su Yong	3/3	100%
Zhao Da Jun	3/3	100%
Ke Ying (Resigned on 9 June 2017)	1/1	100%
Shen Bo	3/3	100%
Yu Xiao Yang	3/3	100%
Zhou Zhong Hui	3/3	100%
Lam Yiu Kin	3/3	100%
Xu Qing	3/3	100%
Yang Chun Bao (Appointed on 9 June 2017)	2/2	100%

The Company has kept training record to assist the Directors to record the training sessions they participated in. The attendance record above does not include any external training which the Directors participated in by themselves.

Directors' and Supervisors' Interests

All Directors disclose to the Board on their first appointment their interests as a director or otherwise in other companies or organizations and such declarations of interests are updated annually (if any). When the Board considers any proposal or transaction in which a Director has a conflict of interest, the Director declares his interest and is required to abstain from voting, and withdraw from the meetings as appropriate. The Company will seek confirmation from Directors in every financial report period in respect of any transactions of the Company or its subsidiaries which are related to Directors or their associates (if any). It is also applicable to the Supervisors.

The Group has not entered into any transactions agreement or contract of significance in which the Group's Directors or Supervisors have direct or indirect material interests during any time in 2017.

Directors' and Supervisors' Service Contracts

All the Directors and Supervisors have entered into service contracts with the Company, which are renewable upon expiry, subject to re-election at the general meeting. The terms of the service contracts are approved by the Remuneration Committee. The company did not sign any relevant unexpired service contract which is not terminable within a year without payment of any compensation (other than statutory compensation).

Rights of Directors, Chief Executive and Supervisors in Purchasing Shares or Debentures

None of the Directors, chief executive or Supervisors or their spouse or children under age of 18 years has been authorized by the Company or any subsidiary any right to purchase shares or debentures in the Company or any other body corporate, or have exercised such rights within the year 2017.

Interests of Directors, Chief Executive and Supervisors in the Shares of the Company

Refer to the section headed "Directors, Supervisors and Chief Executive's Interests in Shares of the Company" in the "Report of the Directors".

SUPERVISORY COMMITTEE

Currently, the Supervisory Committee comprises the Chairman (Shareholder representative Supervisor), two other Employee representative Supervisors, and two Independent Supervisors. Except for Ms. Zhang Man Juan and Mr. Guo Yi Cheng who resigned from the Supervisory Committee as Employee representative Supervisor and Independent Supervisor respectively on 9 June 2017, Ms. Yu Dai Qing and Mr. Huang Jian who joined the Supervisory Committee as Employee representative Supervisor and Independent Supervisor respectively on 9 June 2017, all the other Supervisors were re-elected as Supervisors on 9 June 2017.

Particulars of the Supervisors are set out in the section headed "Profiles of Directors, Supervisors and Senior management" of the annual report. Members of the Supervisory Committee and their appointments are as follows:

Supervisors	Time of initial appointment	Date of latest re-appointment	Term
Shareholder representative Supervisor			
Zhou Xi *(Chairman)*	29 May 2015	9 June 2017	3 years
Employee representative Supervisor			
Zhang Man Juan (Resigned on 9 June 2017)	24 June 2005	30 May 2014	–
Wang Luo Chun	22 February 2016	9 June 2017	3 years
Yu Dai Qing (Appointed on 9 June 2017)	9 June 2017	–	3 years
Independent Supervisor			
Guo Yi Cheng (Resigned on 9 June 2017)	23 May 2008	30 May 2014	–
Liu Xiao Long	13 May 2016	9 June 2017	3 years
Huang Jian (Appointed on 9 June 2017)	9 June 2017	–	3 years

The Supervisory Committee held four meetings during 2017, the attendance of which was as follows:

Members of the Supervisory Committee	Attendance in person/ Times of meetings	Attendance rate
Zhou Xi *(Chairman)*	3/4	75%
Zhang Man Juan (Resigned on 9 June 2017)	1/1	100%
Wang Luo Chun	4/4	100%
Yu Dai Qing (Appointed on 9 June 2017)	3/3	100%
Guo Yi Cheng (Resigned on 9 June 2017)	1/1	100%
Liu Xiao Long	4/4	100%
Huang Jian (Appointed on 9 June 2017)	3/3	100%

The Supervisory Committee takes the view that the financial statements presented by the Company give a true and fair view of the state of affairs, profit and cash flows of the Group.

DIRECTORS' SECURITIES TRANSACTIONS

The amended "Code of transactions in the Company's securities", which was passed on 11 August 2009 by the Board meeting of the Company, has the terms no less strict than the required standard of dealings set out in the Model Code for Securities Transactions by Directors of Listed Issuers under Appendix 10 of the Listing Rules. Directors and relevant employees shall comply with this code. A copy of the code is sent to each Director upon his appointment and thereafter, a notification not to deal in the securities of the Company until after the half-year results have been published would be sent to the Directors 30 days before the date of every Board meeting on which the half-year results are supposed to be approved, and 60 days before the date of the Board meeting on which the annual results are supposed to be approved.

Under this code, the Directors are required to notify the Chairman and receive a dated written acknowledgement before dealing in the securities and derivatives of the Company and, in the case of the Chairman himself, he must notify the delegated directors and receive a dated written acknowledgement before any dealing.

Supervisors' securities transactions should comply with the regulations for the Directors. All the relevant employees, if any, having any price-sensitive information of the Group which is not yet disclosed should also comply with the regulations for the Directors.

All Directors, Supervisors and relevant employees have complied with the relevant requirements in 2017. The previous year has not found the Directors, the Supervisors and the relevant employees violating the above regulations.

RISK MANAGEMENT AND INTERNAL CONTROL

The responsibilities of the Board of the Company include the establishment of complete risk management and internal control and its effective implementation. During the year under review, the Board was responsible for evaluating and determining the nature and extent of the risks the Group wants to take in achieving its strategic objectives, and ensuring that the Group establishes and maintains appropriate and effective risk management and internal control systems. Meanwhile, the Board oversees the management in the design, implementation and monitoring of the risk management and internal control systems, and the management has provided a confirmation to the Board on the effectiveness of these systems. The Audit Committee of the Board oversaw the Group's risk management and internal control systems on an ongoing basis and conducted a review of the effectiveness of the Group's risk management and internal control systems during the year under review. The review covered all material controls, including financial, operational and compliance controls and ensured the adequacy of resources, staff qualifications and experience, training programs and budget of the Group's accounting, internal audit and financial reporting functions. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and the Company can only provide reasonable and not absolute assurance against material misstatement or loss.

In February 2011, the Company established the Internal Audit and Control Department of the Company (the "IACD") to enhance its internal control system and guarantee the effectiveness of the Group in respect of financial, operational, compliance and risk management. The IACD reports important points in risk identification to the Audit Committee on a quarterly basis and elaborates on corresponding measures and subsequent improvements. During the year under review, the IACD made self-check four times in the Audit Committee meetings focusing on risk management and risk identification and the Audit Committee summarized and reported the results to the Board. Furthermore, the IACD discussed risk management and internal control systems with the Audit Committee and reviewed the effectiveness of the risk management and internal control systems. In addition, the Company employed third party agency to provide counseling to form the risks list and risks base which can suggest some solution to for risks identification, analysis, assessment, alert and treatment in order to help the IACD perform more effective risk identification and internal control.

The Company's Audit Committee and the Board have reviewed the effectiveness of the risk management and internal control systems of the Group during the year 2017 and the Board considers the current risk management and internal control systems of the Group are effective and adequate. The Company will further enhance the Group's risk management and internal control systems pursuant to the requirements of the Listing Rules on internal control, to ensure that the Group's financial, operational, compliance and risk management are under effective control during the process of its continuing development, and to protect the interests of shareholders.

The Company formulated several rules focusing on risk management and internal control including the "Regulations for Information Disclosure" and the "Regulations for Internal Control Management". Pursuant to these regulations, the main procedures for the delivery, review and disclosure of inside information are as follow:

1) Relevant responsible persons who obtain the information which might be disclosed, are required to review the faithfulness, accuracy and completeness of the information;

2) The main responsible persons or their designated special responsible staff shall deliver relevant information to the Company Secretary, and shall take confidential measures;

3) The Company Secretary shall review according to relevant requirements and determine whether to approve their disclosure applications; and

4) Make the information disclosure to the public in accordance with the stipulated procedures.

During the year under review, the Company fulfilled its information disclosure obligation strictly. The Company announced the important information which needs to be disclosed in order to ensure its faithfulness, accuracy, completeness and timeliness and ensure investors can obtain information publicly disclosed through the open, fair and equitable method.

Corporate Governance Measures to Manage Potential Conflicts of Interests

Since the Non-Competition Undertaking was entered into by Shanghai Pharmaceuticals in 2000, the Company has been adopting certain corporate governance measures to ensure compliance of the Non-Competition Undertaking by Shanghai Pharmaceuticals. The existing corporate governance measures require the Company to regularly communicate with Shanghai Pharmaceuticals and monitor the business activities of Shanghai Pharmaceuticals.

The Company has enhanced the effectiveness of its previous corporate governance measures by modifying the measures as follows:

- The Independent Non-executive Directors will review, on an annual basis, the compliance with the Non-Competition Undertaking by Shanghai Pharmaceuticals;

- Shanghai Pharmaceuticals will provide the necessary information for the annual review by the Independent Non-executive Directors in relation to the compliance and enforcement of the Non-Competition Undertaking; and

- The Company will disclose, with basis, decisions on matters reviewed by the Independent Non-executive Directors relating to the compliance and enforcement of the Non-Competition Undertaking in its annual reports.

AUDIT COMMITTEE

The Audit Committee is responsible for reviewing the financial report, internal control and corporate governance issues and making relevant recommendations to the Board. The Audit Committee is comprised of two Independent Non-executive Directors (Mr. Lam Yiu Kin and Mr. Xu Qing) and one Non-executive Director (Mr. Shen Bo), and is chaired by Mr. Lam Yiu Kin. Mr. Lam Yiu Kin is a fellow member of the Association of Chartered Certified Accountants (ACCA), the Institute of Chartered Accountants in England & Wales (ICAEW), the Institute of Chartered Accountants in Australia and New Zealand (ICAA), and Hong Kong Institute of Certified Public Accountants (HKICPA). Mr. Shen Bo is a master of professional accounting and he was the chief financial officer of a listed company in pharmaceuticals industry. He is currently an executive director, a vice president and the chief financial officer of Shanghai Pharmaceuticals Holding Co., Ltd. Mr. Xu Qing is currently a professor of Tongji Unversity Medical School, doctor-postgraduate supervisor, deputy director of the Oncology Department and Tumor Institute, and director, chief physician of Medical Oncology Department of the Tenth People's Hospital affiliated to Tongji University. And he is director of Medical Oncology Department of Shanghai Dermatology Hospital affiliated to Tongji University. All of them have extensive experience in accounting, industry, and financial management.

The Company has formulated specific "Principles of the Audit Committee" as a guideline for the Audit Committee in dealing with various matters. The updated Principles of the Audit Committee were passed by the Board of Directors on 30 December 2015.

The Audit Committee met four times in 2017. Senior management and/or external auditors were invited to attend each meeting. In 2017, the Audit Committee has reviewed reports of external auditors, the accounting principles and practices adopted by the Group, internal controls to check whether they comply with the Listing Rules and reviewed issues regarding auditing, internal controls, risk management and financial reporting. The Audit Committee made discussions on the Group's 2017 interim results and 2016 annual results before proposing to the Board for approval. The Audit Committee has discussed the appointment of external auditors and the audit fees, and has made proposals to the Board in respect of such matters.

Attendance of meetings of the Audit Committee in 2017:

Audit Committee	Attendance in person/ Times of meetings	Attendance rate
Lam Yiu Kin *(chairman)*	4/4	100%
Shen Bo	4/4	100%
Xu Qing	4/4	100%

Connected transactions

The Audit Committee has reviewed the connected transactions. For the year ended 31 December 2017, the connected transactions have been approved by the Board meeting, but were exempted from compliance with the approval of independent shareholders.

External auditors

The Company appointed PricewaterhouseCoopers and PricewaterhouseCoopers Zhong Tian LLP as the Company's international and statutory auditors respectively in 2017. The Company has not changed the auditors in the past three years. The fees on the audit services, non-audit services and related expenses of the Group for the year and the previous year are set out as follows:

Auditors	**Audit fees and non-audit fees in 2017**	Audit fees and non-audit fees in 2016
PricewaterhouseCoopers	**RMB 1,103,000**	RMB 1,153,000
PricewaterhouseCoopers Zhong Tian LLP	**RMB 1,000,000**	RMB 950,000
PricewaterhouseCoopers Consultants (Shenzhen) Limited	**–**	RMB 255,000
PricewaterhouseCoopers Business Consulting (Shanghai) Co. Limited	**RMB 100,000**	RMB 94,000
Other auditor	**RMB 130,000**	RMB 127,000

Details of the audit fees and non-audit fees are set out as follows:

	Fees in 2017	Fees in 2016
Audit fees		
Annual statutory audit	**RMB 2,095,000**	RMB 2,095,000
Other audit	**RMB 130,000**	RMB 127,000
Non-audit fees		
Overseas investments financial due diligence	**–**	RMB 255,000
Environmental, Social and Governance ("ESG") Report	**RMB 100,000**	RMB 94,000
Counting services at annual general meeting and extraordinary general meeting	**RMB 8,000**	RMB 8,000

The Group has formulated the policy of appointment of auditors to provide non-audit services. The policy included the rules to ensure the independence of external auditors.

REMUNERATION COMMITTEE

The Remuneration Committee is responsible for formulating the Group's remuneration policy, recommending and approving the remuneration of all the Directors and senior executives, including the annual allocation of share options under the share option scheme (if feasible). The Remuneration Committee reviews the existing remuneration policy annually, and makes proposals to the Board for changes to the remuneration policy and system. If necessary, it also makes references to the opinions of external human resources advisers in respect of human resources management and remuneration policies. After each meeting, the Remuneration Committee reports to the Board.

Salaries of various level staff of the Group have been determined by reference to those of the comparable companies, especially companies located in Shanghai and Zhangjiang Hi-tech Park which have direct comparability. In order to retain the expertise for the Company's successful operation, salary level of the Company has to be competitive, which normally comprises three parts, namely fixed portion, unfixed portion and statutory benefits. The fixed portion is the basic salary, which is mainly determined by reference to the level of salaries of similar type of works in comparable companies. Individual salaries may be different due to the difference in position, performance, skills and experience. Certain adjustments may be made each year to the basic salaries based on the performance of the Company's business, market competition and inflation. In addition to the fixed portion, bonus may also be released to the relevant people as an incentive to their performance and to enhance their loyalty to the Company. The Company also provides other benefits such as free lunch and transportation allowances. Under the relevant laws and regulations of China, the Company is required to pay statutory benefits such as retirement insurance funds, common reserve funds, medical insurance and unemployment insurance funds for the staff.

The Board established the Remuneration Committee, and stipulated the "Principles of the Remuneration Committee" with specific terms of reference of the Remuneration Committee. The Remuneration Committee is comprised of 3 members, who are Mr. Zhou Zhong Hui (Chairman, Independent Non-executive Director), Mr. Lam Yiu Kin (Independent Non-executive Director) and Mr. Yang Chun Bao (Independent Non-executive Director). The updated Principles of the Remuneration Committee were passed by the board on 30 May 2014.

The Remuneration Committee held one meeting during 2017 (held on 16 March 2017), the attendance of which was as follows:

Remuneration Committee	Attendance in person/ Times of meetings	Attendance rate
Zhou Zhong Hui *(chairman)*	1/1	100%
Lam Yiu Kin	1/1	100%
Xu Qing (Resigned on 9 June 2017)	1/1	100%
Yang Chun Bao (Appointed on 9 June 2017)	–	–

Pursuant to the principles above, recommended by the Remuneration Committee and approved by the Board and general meeting, the remuneration of the Directors and senior management of the Group have been modified during the year 2017. Refer to note 38 and note 44 to the consolidated financial statements for the emoluments of Directors and senior management for 2017.

Remuneration Policy for Executive Directors

The primary goal of the remuneration policy on executive remuneration packages is to enable the Company to motivate and retain Executive Directors by linking their compensation with performance as measured against corporate objectives. Under the policy, a director is not allowed to approve his own remuneration.

The principal elements of the Company's executive remuneration package include basic salary, discretionary bonus, share option (if appropriate), and statutory benefits. In determining guidelines for each compensating element, the Remuneration Committee refers to remuneration surveys conducted by independent external consultants on companies operating in similar businesses.

Basic salaries

Basic salaries are determined mainly by reference to the salary levels of comparable companies. There are some adjustments to the basic salaries for each year based on the Company's business performance, market competition, and inflation. The Remuneration Committee reviews the remunerations for Directors annually, under which circumstance that the Directors concerned should abstain.

Discretionary bonus

The computation of discretionary bonus is based on measurable performance contributions of business units headed by the respective Executive Directors.

Statutory benefits

Under the relevant laws and regulations of China, the Company is required to pay statutory benefits such as retirement insurance funds, common reserve funds, medical insurance and unemployment insurance funds. The ratios of such benefits to the salaries are also subject to adjustments pursuant to relevant regulations.

During the year under review, none of the Executive Directors of the Company charged any Director's fee.

Remuneration for Non-executive Directors

The remuneration of Non-executive Directors is subject to annual assessment and recommendation by the Remuneration Committee for shareholders' approval at the annual general meeting. Reimbursement is allowed for out-of-pocket expenses incurred in connection with the performance of their duties including attendance at the Company meetings.

The Company has only paid remuneration to the Independent Non-executive Directors, and has not paid any statutory benefit to the Non-executive Directors.

NOMINATION COMMITTEE

The Nomination Committee is responsible for reviewing the structure, size and composition (including the skills, knowledge and experience) of the Board and making recommendations on any proposed changes to the Board to complement the Company's corporate strategy; examining the candidates of Directors and chief executive and the candidates of deputy chief executive, finance officer, general legal counsel, chief economist, assistant to chief executive and secretary of Board and putting forward examination opinions and appointment recommendations; assessing the independence of Independent Non-executive Directors; making recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors, in particular the chairman and the chief executive; researching the standard, procedure and method of selection of Directors, chief executive and other senior management of the Company and putting forward proposals to the Board; and other authority delegated to the Committee by the Board and matters assigned by the Board.

The Board of the Company established the Nomination Committee in April 2012 and approved the "Principles of the Nomination Committee" which stipulated the terms of reference for the Nomination Committee. The updated "Principles of the Nomination Committee" were passed by the Board on 30 May 2014. The Nomination Committee is comprised of 3 members, who are Mr. Wang Hai Bo (Chairman, Chairman of Board of Directors), Mr. Zhou Zhong Hui (Independent Non-executive Director) and Mr. Xu Qing (Independent Non-executive Director).

The Nomination Committee held two meetings during 2017, the attendance of which was as follows:

Members of the Nomination Committee	Attendance in person/ Times of meetings	Attendance Rate
Wang Hai Bo *(chairman)*	2/2	100%
Zhou Zhong Hui	2/2	100%
Xu Qing	2/2	100%

Pursuant to the Code Provision A.5.6 under Appendix 14 of the Listing Rules, the Nomination Committee should be with due regard for the benefits of diversity in Board members, to identify individuals who are suitably qualified to become Board members and to select or to make recommendations to the Board on the selection of individuals nominated for directorships; the candidates for directorship will be selected taken into account a wide range of factors, including but not limited to, gender, age, cultural and educational background, races, professional experience, skills, knowledge and service term.

COMPANY SECRETARY

The primary responsibility of the company secretary of the Company is to ensure good information exchange between board members, and investors with the Company as well. In addition, the company secretary should be responsible for the compliance with the policies and procedures of the board of directors as well as all applicable regulations. During the year 2017, the Company Secretary has completed over 15 hours training provide by the professional agents.

RIGHTS OF INVESTORS

Shareholders requisitioning the convening of extraordinary general meetings of shareholders or class meetings shall abide by the following procedures:

(1) Two or more shareholders holding in aggregate 10% or more of the shares carrying the right to vote at the meeting sought to be held shall sign a written requisition in one or more counterparts in the same form and contents, requiring the board of directors to convene a shareholders' extraordinary general meeting or a class meeting thereof and stating the matters to be considered at the meeting. The board of directors shall as soon as possible after receipt of the requisition proceeds to convene a shareholders' extraordinary general meeting or a class meeting thereof.

The amount of shareholdings of the requisitioning shareholders referred to in the preceding paragraph shall be calculated as at the date of the deposit of the requisition.

(2) If the board of directors fails to issue a notice of such a meeting within 30 days from the date of receipt of the requisition, the requisitioning shareholders may themselves convene such a meeting within 4 months of the receipt of the requisition by the board of directors. In so convening a meeting, the requisitioning shareholders should adopt a procedure as similar as possible as that of shareholders' general meetings to be convened by the board of directors.

All reasonable expenses incurred in connection with a meeting convened by any shareholders themselves by reason of the failure of the board of directors to convene a meeting pursuant to a requisition shall be borne by the Company and shall be set off against sums owed by the Company to the directors in default.

The Company is committed to fair disclosure and comprehensive, transparent reporting. The Chairman is ultimately responsible for ensuring that there is effective communication with investors and that the Board understands the views of shareholders. The Chairman therefore makes himself available to meet shareholders for this purpose. On a day-to-day basis the Board's primary contact with shareholders is through the Company Secretary. In addition, the Company Secretary may respond to the various enquiries of shareholders, and provide relevant information.

When the Company convenes a shareholders' annual general meeting, shareholders holding 5% or more of the total voting shares of the Company shall have the right to propose new motions in writing, and the Company shall place those matters in the proposed motions within the scope of the functions and powers of the shareholders' general meeting on the agenda.

RELATIONSHIP WITH INVESTORS

In recent years, the Company has attracted much higher attention from the capital markets. Investors at home and abroad addressed invitations to the Company through various means, including on-site surveys, telephone surveys, and invitations to participate in investment strategy forums. Based on the principles of communicating actively and information disclosure, the Company enhanced the efforts on the reception of investors to improve our market image. The Company has received visits of more than 150 analysts and representatives from investment institutions and individual investors focusing on the domestic and foreign medical industries.

As at 31 December 2017, the public float of the Company has increased to 29.19%. Based on information that is publicly available to the Company and within the knowledge of the Directors as at the latest practicable date prior to the issue of this annual report, the Directors believe that the Company has at all times during the year ended 31 December 2017 maintained the relevant applicable minimum percentage of listed securities as prescribed by Rule 8.08(1)(a) of the Listing Rules.

For the year 2017, there is no change on the Articles of Association of the Company.

All the issues should be individually raised by resolutions and voted by poll at the annual general meeting. The Company's lawyers are required to attend the meeting and witness the results of voting, and issue their legal opinion.

In 2017, the Company has held an annual general meeting, details of which are as follows:

Time	10:00 a.m., 9 June 2017
Location	No. 308 Cailun Road, Zhangjiang Hi-tech Park, Shanghai, the PRC
Nature	Shareholders annual general meeting
Way of voting	Poll
Major issues	General matters of the annual general meeting; To consider and approve the proposed profit distribution plan for the year ended 31 December 2016 and the final dividend distribution plan for the year ended 31 December 2016, and to authorize the Board to distribute such final dividend to its Shareholders;

To consider and approve re-election and election of the candidates as the directors of the sixth session of the Board;

To consider and approve the re-election of the candidates as the supervisors of the sixth session of the Supervisory Committee;

To consider and approve the extension of the validity period of the resolution in respect of the proposed issue of not more than 27,000,000 A shares with a nominal value of RMB 0.10 each (the "Issue of A Shares"), which will be listed on the Shanghai Stock Exchange. The valid period of the resolution on the Issue of A Shares is 12 months from the date of the Shareholders' approvals at the AGM and the Class Meetings;

To consider and approve the extension of the authorization period to the Board to deal with matters relating to the Issue of A Shares. The term of the extended authorization, if the proposed extension to the authorization period is approved by the Shareholders at the AGM and the Class Meetings, shall be a period of 12 months from the date of the Shareholders' approvals at the AGM and the Class Meetings;

To consider and approve the granting of a general mandate to the Board to issue the shares of the Company.

In 2017, the Company has held one class meeting of holders of H Shares, details of which are as follows:

Time	11:00 a.m., 9 June 2017
Location	No. 308 Cailun Road, Zhangjiang Hi-tech Park, Shanghai, the PRC
Nature	Class meeting of holders of H Shares
Way of voting	Poll
Major issues	To consider and approve the extension of the validity period of the resolution in respect of the proposed Issue of not more than 27,000,000 A Shares with a nominal value of RMB 0.10 each (the "Issue of A Shares"), which will be listed on the Shanghai Stock Exchange. The valid period of the resolution on the Issue of A Shares is 12 months from the date of the Shareholders' approvals at the AGM and the Class Meetings; To consider and approve the extension of the authorization period to the Board to deal with matters relating to the Issue of A Shares. The term of the extended authorization, if the proposed extension to the authorization period is approved by the Shareholders at the AGM and the Class Meetings, shall be a period of 12 months from the date of the Shareholders' approvals at the AGM and the Class Meetings.

In 2017, the Company has held one class meeting of holders of Domestic Shares, details of which are as follows:

Time	11:30 a.m., 9 June 2017
Location	No. 308 Cailun Road, Zhangjiang Hi-tech Park, Shanghai, the PRC
Nature	Class meeting of holders of Domestic Shares
Way of voting	Poll
Major issues	To consider and approve the extension of the validity period of the resolution in respect of the proposed Issue of not more than 27,000,000 A Shares with a nominal value of RMB 0.10 each (the "Issue of A Shares"), which will be listed on the Shanghai Stock Exchange. The valid period of the resolution on the Issue of A Shares is 12 months from the date of the Shareholders' approvals at the AGM and the Class Meetings; To consider and approve the extension of the authorization period to the Board to deal with matters relating to the Issue of A Shares. The term of the extended authorization, if the proposed extension to the authorization period is approved by the Shareholders at the AGM and the Class Meetings, shall be a period of 12 months from the date of the Shareholders' approvals at the AGM and the Class Meetings.

The attendance of individual directors at the general meeting during the year 2017 is set out in the table below:

Member of the Board	Attendance in person/ Times of meetings	Attendance rate
Executive Director		
Wang Hai Bo *(chariman)*	1/1	100%
Su Yong	1/1	100%
Zhao Da Jun	1/1	100%
Non-executive Director		
Ke Ying (Resigned on 9 June 2017)	1/1	100%
Shen Bo	1/1	100%
Yu Xiao Yang	1/1	100%
Independent Non-executive Director		
Zhou Zhong Hui	1/1	100%
Lam Yiu Kin	1/1	100%
Xu Qing	1/1	100%
Yang Chun Bao (Appointed on 9 June 2017)	–	–

Arrangements for the dates of the annual results in 2017, the interim results in 2018 and the annual general meeting are as follows:

Items	Proposed time
Announcement of 2017 results	23 March 2018
Annual general meeting	8 June 2018
Announcement of 2018 interim results	Around 17 August 2018

SOCIAL RESPONSIBILITY

Environment and Society

As a listed company, the Company has been active to fulfill its social responsibilities, focus on environmental protection for many years. We take into account this responsibility as an important factor in all aspect. This means that we not only focus on the production, but also focus on all the other aspect ranging from procurement to administration. The Group will adopt the best practice measures as far as possible and reasonable. The relevant functional departments will consider the environmental management by assessing the policy, strategies, objectives, implementation and measurement method in terms of the pollution of water, air, noise and the other wastes.

During the year under review, the Group has always followed the environment policy, strictly complied with national laws and regulations and emission standards. The Group has been inspected many times by relevant government institutions on sewage discharge during the year and no violation of laws, regulations has been found. In addition, the Company also appointed a third party professional institution to assess the environmental indicators including noise, air and water regularly. Our objective is to control environment risks effectively and ensure the pollutant can reach the standard of discharge.

Details please refer to "Environmental, Social and Governance Report".

Social public welfare

During the year under review, the Group officially launched a public welfare assistance program named "Looking for the kiss of Angle" to provide port wine stain patients from poor areas a preferential policy, one Yuan purchasing Hemoporfin, to aim at reducing the financial burden of patients, improve the quality of their life and help them get better treatment. By the end of 2017, multiple patients have been benefited with the value of donated drugs exceeds RMB 800,000.

In order to support the development of Shanghai charity, the Company made donations to Shanghai Spring Teenagers Development Center ("Spring") on "Spring Dream Plan" project by Shanghai charity fund Pudong branch. The plan aimed at helping students develop multiple thinking, sound mind and exploring ability.

During the year under review, the Company prepared ESG report pursuant to Appendix 27 "Environmental, Social and Governance Reporting Guide" of the Listing Rules.

By order of the Board
Xue Yan
Company Secretary

Shanghai, the PRC
23 March 2018

Environmental, Social and Governance Report

ABOUT THIS REPORT

Shanghai Fudan-Zhangjiang Bio-Pharmaceutical Co., Ltd. ("the Company") hereby issues the 2017 Environmental, Social and Governance Report of the Company and its subsidiaries (collectively "the Group"), to demonstrate the Group's philosophy and practice for sustainable development and social responsibility to all the stakeholders from both environmental and social areas.

REPORTING SCOPE

The report covers the main businesses of the Group, including diagnostic reagent production and drug research during the period from 1 January 2017 to 31 December 2017. The environmental key performance indicators disclosed in the report cover Shanghai Fudan-Zhangjiang Bio-Pharmaceutical Co., Ltd. ("Shanghai FDZJ"), Taizhou Fudan-Zhangjiang Pharmaceutical Co., Ltd. ("Taizhou FDZJ") and Shanghai Tracing Bio-technology Co., Ltd. ("Shanghai Tracing") during the reporting period.

REFERENCE

This report is presented in accordance with the Environmental, Social and Governance Reporting Guide (the "ESG Guide") in Appendix 27 to the Main Board Listing Rules published by Hong Kong Stock Exchanges and Clearing Limited (HKEx).

REPORT AVAILABILITY

This report is available in an electronic version which can be viewed on the website of the Company (http://www.fd-zj.com) and on the website of HKEx (http://www.hkexnews.hk).

ESG MANAGEMENT

The Group insists on pharmaceutical innovating with core concept of owning full intellectual property right. The Group respects basic human values for not only clients but also employees. The Group pursues its social meaning and emphasizes its contributions and responsibilities to environment and society. In accordance with the sustainable ESG management policy, the Group committed to providing employees with a safe and healthy working environment, as well as scientific and practical training plans. The Group is also committed to establishing an environmental-friendly supply chain and positive industry environment, and providing safe and healthy products for customers.

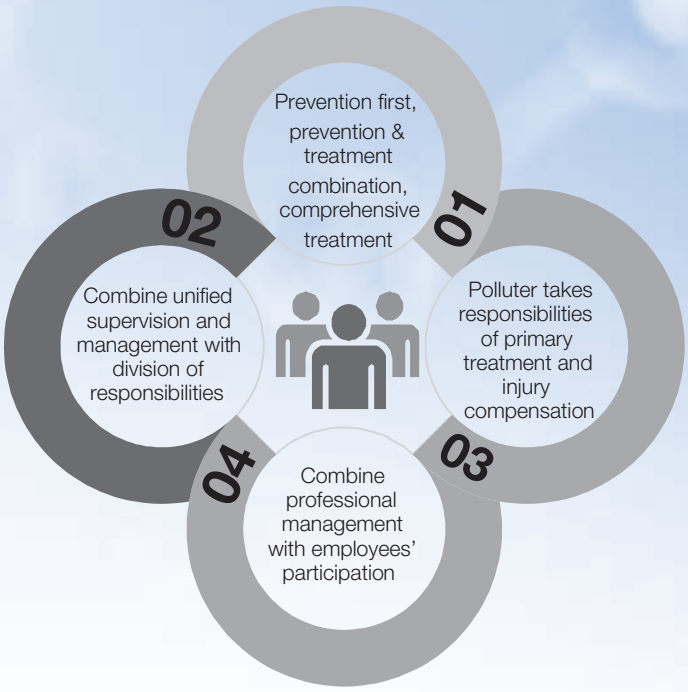
The Board of the Company strongly supports the Group's commitments to fulfill its corporate social responsibility, and has full responsibility for the Group's ESG strategy and reporting. The Board is also responsible for evaluating and determining the Group's ESG-related risk, and ensuring that appropriate and effective ESG risk management and internal control systems are in place. Management provides a confirmation to the Board on the effectiveness of these systems.

The Group has always been convinced that effective participation and ongoing support of stakeholders play an important role for the Group's long-term success. The Group has established a stakeholder communication mechanism, giving different groups of stakeholders an access to give their opinions, comments and suggestions for the Group's sustainable performance and its future development strategy. The Group's stakeholders are from different backgrounds, including consumers, employees, shareholders, suppliers, government and regulatory agencies, non-governmental organizations and local communities, whose opinions and suggestions are also the focus of this report.

The Group has adopted appropriate policies and procedures to evaluate and improve the functions of risk management and internal control. The Board is responsible for the deliberation of the design, implementation and supervision of the risk management and internal control systems. For detailed information, please refer to the Corporate Governance Report.

A. ENVIRONMENTAL

Emphasizing both on economic benefit and environmental protection, the Group makes great efforts to develop a long-term mechanism of environmental protection and energy saving to build a resource-saving and environment-friendly enterprise, by the guide of scientific development concept.



Emphasizing on environmental protection, the Group has established environmental protection management system to protect and improve environment, prevent pollution, protect health and make environmental protection coordinate with economic and social development. In accordance with the Group's Environmental Protection Management Regulation, the Group's environmental protection management network is composed of environmental protection management leading group and department heads. The management network is led by environmental protection management leading group which is headed by general manager. Based on actual situation, the Group published member list of environmental protection management leading group in formal document at the beginning of every year.

A1 Emissions

The Group pays much attention to environmental protection and persists in the policy of "prevention first, prevention & treatment combination, comprehensive treatment". In accordance with *Environmental Protection Law of the People's Republic of China, Atmospheric Pollution Prevention and Control Law of the People's Republic of China, Water Pollution Prevention and Control Law of the People's Republic of China, Regulations of Shanghai on Environmental Protection* and other relevant laws and regulations, the Group developed Environmental Protection Management Regulations which is based on the Group's actual situation. Strictly complying with Environmental Protection Management Regulation, the Group continuously improves design, uses clean energy and resources, adopts advanced technologies and equipment, improves management and comprehensive utilization in production, by which pollutions are reduced from the source, resources are used more efficiently, generations and emissions of pollutants in productions and services are reduced or avoided, hazards to human health and environment are reduced or eliminated.

❖ *Wastewater treatment*

Industrial effluents and domestic sewages from diagnostic reagent production and drug research consist of most of the wastewater in the Group. *Environmental Pollution Prevention Regulations* and *Standard Operation Regulation of Effluent Comprehensive Treatment Equipment* are developed to strictly control effluent emissions and comprehensively treat the effluents. The sewages are discharged into the municipal sewer system after being treated and reaching the discharge standards.

Following effluent regulations, the Group adopts primary treatment to effluents which cannot be directly discharged. Effluents are discharged in accordance with national standards, local standards and bio-pharmaceutical emission standards. The Group invites qualified institution to regularly monitor effluents and air emissions. Emissions in Shanghai FDZJ are tested in accordance with the *Discharge Standard of Pollutants for Bio-pharmaceutical Industry*, and were monitored by local government irregularly. After bio aeration treatment, industrial effluents produced by Taizhou FDZJ are discharged into the municipal sewer systems in accordance with third-level discharge standard of *Integrated Wastewater Discharge Standard*. During the reporting period, the Group's types of emissions and respective emissions data are showed as below:

A1.1 Types of Emissions	Emission Data	Unit
Wastewater	31,951.30	ton
COD	1,818.11	kg
Suspended Solid	562.41	kg
N-NH3	148.48	kg
Methanol	17.87	kg
Formaldehyde	1.49	kg
Total chlorine	1.81	kg
Animal and vegetable oil	1.19	kg
Acetonitrile	0.39	kg

❖ *Air emissions treatment*

Exhaust air and dust from diagnostic reagent production and drug research consist of most of the air emission in the Group. Exhaust air should be controlled and the air emissions and dust concentrations should not exceed requirements of *Industrial Air Emissions Standard of Shanghai. Standard Operation Procedures of Air Emission Treatment Equipment* was developed to regulate and control operation of air treatment equipment to make the air emissions reach relevant standard. (The exhaust gas monitoring equipment is used to ensure the emissions meet relevant standards, and could not exactly measure the exhaust gas emissions data, so the air emissions data is not disclosed in this reporting period to ensure the strictness and accuracy of the data.)

The Group strengthens equipment inspection, monitors water quality in absorption cell and regularly or irregularly changes absorption liquid in the cell according to production and operation situation. The Group communicates with relevant department in the process of equipment failure or maintenance to prevent harmful and untreated exhaust air discharged to the atmosphere.

❖ *Greenhouse Gas*

Energy indirect greenhouse gas emissions (scope two) are mainly resulting from electricity consumed of production equipment and in workplaces of the Group. Direct greenhouse gas emissions (scope one) are resulting from natural gas used by boiler, naphtha and diesel oil used by vehicles and small number of fire extinguishers. The Group makes efforts to reduce greenhouse gas emissions by improve energy efficiency. Detail measures are showed in section A2 Use of Resources. During the reporting period, the Group's greenhouse gas emissions in total and intensity are showed as below:

A1.2 Greenhouse Gas	Data	Unit
Direct Greenhouse Gas Emissions	1,054	tCO_2e
Energy indirect Greenhouse Gas Emissions	7,429	tCO_2e
Greenhouse gas emissions in Total	8,482	tCO_2e
Greenhouse gas emissions in intensity	17	tCO_2e/million RMB revenue

❖ *Waste management*

Industrial hazardous and non-hazardous wastes produced during drug research and production consist of most of the wastes in the Group. The Group requires departments to fill in the *Application Form for Industrial Waste Treatment* which included material name, packing specification, chemical property, component, content, amount, waste form and waste reason in accordance with *Environmental Protection Law of the People's Republic of China, Law of the People's Republic of China on the Prevention and Control of Environment Pollution Caused by Solid Wastes, Regulations of Shanghai on the Prevention and Control of Pollution by Hazardous Wastes* and other relevant laws and regulations and the Group's *Regulations on Treatment and Management of Industrial Wastes, Regulations on Management of Wastes*. The form is checked and archived by dedicated management personnel after approved and signed by leader of competent authority. Wastes are stored in specified waste storage tank or treated in neutralization pond accompanied by dedicated management personnel. For industrial wastes, the Group manages them strictly and requires waste liquid to be stored in sealed or corrosion-resistant container and solid wastes to be stored in tough packing materials.

For special industrial hazardous wastes, names of them are labelled on the packing materials and the component of the wastes are provided before treatment, as required by the Group. According to principles of collective treatment and zero pollution for hazardous wastes and solid wastes, hazardous industrial wastes are treated by professional institutions which have *Shanghai Hazardous Wastes Disposal Permit* and hazardous treatment qualification certificate, and non-hazardous wastes were collected and treated by sanitation department, entrusted by the Group. Besides, the Group has registered *Solid Waste Management Information System* in Shanghai and Taizhou to monitor the treatment of hazardous wastes and general solid wastes.

During the reporting period, the total hazardous and non-hazardous wastes produced and intensity are showed as below:

A1.3 Hazardous Waste	Emission Data	Unit
Organic Waste Liquid	38.917	ton
Waste Alkali	3.300	ton
Waste Acid	3.185	ton
Waste Silica Gel	0.898	ton
Waste Reagent Bottles	0.318	ton
Waste Reagent	0.097	ton
Hazardous Solid Waste	0.046	ton
Total	46.760	ton
Intensity	0.195	ton/million RMB revenue

A1.4 Non-Hazardous Waste	Emission Data	Unit
Domestic Garbage	34.01	ton
Intensity	0.068	ton/million RMB revenue

❖ *Emergency*

If sudden environmental pollution accident occurs, the Group will communicate with functional department and actively take rehabilitation measures to prevent the situation from getting worse. The causes of pollution will be analyzed and relevant corrective measures will be developed and implemented. The final report will be submitted to the Group's leaders and relevant functional department.

A2 Use of Resources

The resources used by the Group are principally attributed to electricity, water, natural gas, and naphtha and diesel oil consumed in production. In accordance with *Law of the People's Republic of China on Conserving Energy* and other national, local, industrial policies, laws and standards on conserving energy, the Group has developed *Management Procedure of Energy and Resources* to effectively and reasonably use energy and resource, improve usage efficiency, reduce waste and implement the principles of saving energy, reducing consumption, reducing pollution, and improving efficiency.

Case: Energy-Saving Reconstruction of Water Chillers

In 2017, Taizhou FDZJ reconstructed the water chillers and made two of them operate in network, by which electricity could be saved 758,552KWh on average per year. Besides, Taizhou FDZJ adopted temperature control, and the control temperature of HVAC system was set to be 23±2°C in summer and 21±2°C in winter, which could further increases energy efficiency.

The Group continuously improves energy management system, sets energy-saving target and tasks, and improves the energy efficiency indicators and motivates departments to save energy by promoting energy-saving performance management.

- According to amount of energy consumed for every unit of economic output calculated by actual energy consumption and economic output of the previous year in every department, the Group develops reduction percentage as energy-saving target for every department.

- In accordance with *Management Procedure of Energy and Resources*, every department heads should develop energy-saving target for their department according to the Group's energy-saving target, actual energy consumption of previous year and annual production plan.

- Manufacturing department develops consumption reduction amount in normal production for the whole year according to manufacturing resources consumed for every unit product in the first half year. Environmental requirements should be made to meet relevant standards of environmental management system. Equipment purchase should meet the requirement of saving energy and resources.

- Requirements of saving energy and resources should be made in construction projects and assessment should be implemented at the same time of pre-construction, mid-construction and acceptance.

- Departments of using production resources should improve usage of raw materials, take measures to reduce reject rate, gradually reduce resources used for unit product, perform statistics and analysis on resources loss, and make solutions and its agenda and responsible person.

- Heads of every department supervise and examine energy and resource saving of their department under the Group's supervision. Responsible persons for examination should make their regular statistics on energy and resources consumption of examined department. Reason analysis should be conduct for the projects which did not complete energy-saving plan. Relevant measures should be made and the implementation of the measures should be supervised and examined.

The Group seasonally adjusts the high electricity consumption equipment such as air conditioner in clean plant to reduce load. After energy-saving reconstruction, warm water generated in heat source of water equipment, such as heat exchange of cooling water in distilled water machine and pure steam generator, was used as boiler makeup water. This could recycle boiler water, reduce cooling water discharge, preheat boiler feed water, reduce boiler heat consumption, save energy and reduce emissions.

During the reporting period, the energy consumption by type in total and intensity of the Group are showed as below:

A2.1 Direct/Indirect Energy by type	Data	Unit
Diesel	0.12	MWh
Gasoline	88.33	MWh
Natural Gas	5,161.05	MWh
Total Direct Energy	5,249.50	MWh
Electricity	10,559.41	MWh
Total Indirect Energy	10,559.41	MWh
Energy consumption in total	15,808.92	MWh
Energy consumption in intensity	31.76	MWh/Million RMB Revenue

During the reporting period, the water consumption in total and intensity of the Group are showed as below:

A2.2 Water Consumption in total and Intensity	Consumption	Unit
Water consumption	59,201	ton
Water consumption in intensity	119	ton/Million RMB Revenue

During the reporting period, the packaging material used by the Group is showed as below:

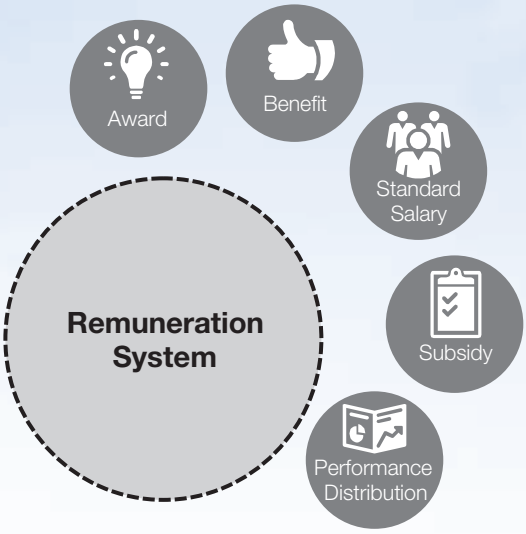
A2.5 Packaging Materials	Total Weight	Unit
Packaging Boxes	28.04	ton
Bottles	5.73	ton
Rubber Stoppers	1.35	ton
Aluminum-plastic Covers	0.50	ton
ELISA Plate	0.39	ton
Labels	0.12	ton
Other Packaging Materials	7.61	ton
Total	43.75	ton

A3 the Environment and Natural Resources

The resources used by the Group are principally attributed to electricity, water, natural gas, and naphtha and diesel oil consumed in operation which were showed in section A2 Use of Resources. The Group does not use a lot of other environment and natural resources, so this aspect does not applicable.

B. SOCIAL

The Group implements management culture of human orientation to create harmonious and win-win labor relation. The Group is convinced that maintaining a good relationship with the employees is one of the keys to the success of the Group. Each employee is a valuable resource and wealth to the Group and the Group fully respects each employee and creates a harmonious working atmosphere for them.



B1 Employment

In accordance with *Labor Law of the People's Republic of China, Labor Contract Law of the People's Republic of China* and relevant laws and regulations, the Group has adopted *Employee Handbook, Labor Management Policy, Employee Evaluation Policy, Employee Compensation Management Policy, Attendance Management Policy*, and *Evaluation Policy for Department Manager* and other normative documents for the benefit of its employees.

- *Recruitment and Dismissal*

  The Group has formulated *Labor Management Policy* and required every department to make recruitment plan conforming to the principle of capable, efficient and putting quality than quantity. The Group recruits talents through open recruitment and employee referral according to the principle of compete openly and select the best. The Group selects employees by work attitude, applicable ability, knowledge, experience, potential and teamwork, without regard to gender, age, race, skin color and national origin. All employees of the Group in the PRC are entitled to an employment contract according to relevant laws and regulations at the start of their employment. The Group has formulated standard examination and approval procedures of resignation and dismissal and standard procedures of work handover to meet requirements of *Labor Contract Law of the People's Republic of China*.

- *Compensation and Benefits*

  The Group has continuously improved compensation and benefits system and formulated *Employee Handbook, Labor Management Policy, Employee Compensation System* to provide reasonable treatment for employee.

  The Group provides competitive remuneration and continuously improves remuneration management and incentive system by fair and reasonable remuneration management and incentive system. Also, the Group implements classified job subsidy system. The job subsidy levels are determined according to position responsibility and different knowledge, experience and ability requirements for different positions. The remuneration consists of standard salary, subsidy, benefit, performance distribution and award.

In accordance with national regulations, the Group contributes to various public funds for each employee, including a public pension fund, a public housing fund, a medical insurance fund, an unemployment insurance fund, labor union expenditure, education expenditure, benefit expenditure and other commercial insurance and subsidies beside mandated benefits.

- *Communication and Democracy*

The Group encourages employees to keep equal dialogue between same levels or between higher and lower levels to build harmonious relationship and communication and make efficient and cooperative work atmosphere.

Direct supervisor, department manager or administration personnel department helps employees on work satisfaction promotion, labor security, occupational psychology guidance and complaint treatment. If any employee has problem that could not solve or complaint and rationalization suggestion, he/she could communicate with one of the direct supervisor, department manager and administration personnel department. Administration personnel department takes charge of collecting rationalization suggestion on the Group's development and management from employees and ensure accurate delivery.

- *Holidays and Working Hours*

To ensure employees have rights of work, rest and vacations and perform labor obligations, the Group has formulated *Employee Handbook, Attendance Management Policy* and other normative documents in accordance with *Labor Law of the People's Republic of China, Labor Contract Law of the People's Republic of China, Employment Promotion Law of the People's Republic of China, Employ Regulations* and relevant laws and regulations. The Group effectively implements national working hour regulations at the same time of implementing attendance management. The Group's employees work on a standard 8 hours per day and 5 days per week. Employees are entitled to overtime pay if they obtain prior approval from their manager.

According to *Employee Handbook*, the Group provides employees paid days off from work for national public holidays, maternity leave, compassionate leave, medical treatment period and sick leave, personal leave and injury leave. Employees working for more than one year could have paid annual leave and marriage leave.

- *Anti-discrimination*

In strict compliance with national and local regulations, every department, organization and personnel of the Group allows no biases against any employee based on race, gender, skin color, age, family background, tradition, religion, physical quality, national origin and other personal characteristics, so as to ensure that employees are treated fairly in every aspects such as recruitment, duty performing, remuneration, training, promotion and compensation.

- *Care for employees*

  The Group pays close attention to various demand of employees and organized meaningful events, with an aim to share a warm family feeling among employees. The Group also holds the annual meeting every year to summarize and recognise the employee's work. The Group organized various group activities and a 3-5 days department-wide outing according to actual situation. Every department has team building expenditure and every employee has tour expenditure every year. Besides the Group provides donations and help to employees who have difficulties due to illness.

B2 Health and safety

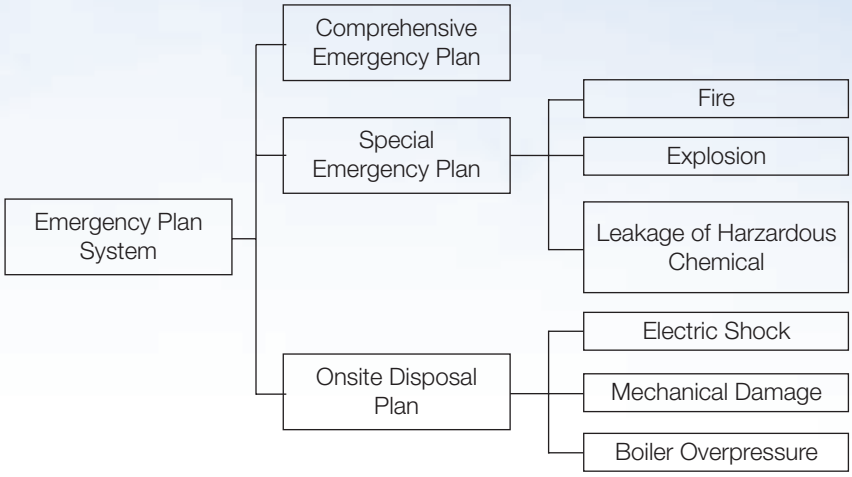
The Group makes efforts to safeguard employees' occupational health and safety, provide safe working environment and equipment, and implement safe working behavior. *Emergency Plan for Work Safety Accident, Laboratory Safety Management Policy, Pressure Vessel Management Policy, Management Policy for Production Safety Education and Training, Production Safety Inspection Management Policy, Management Policy for Safety Utilization of Electricity, Construction Safety Contract for Contractor, Fire Safety Management Policy, Equipment Accident Management Policy, Management Policy for Safety Certificate of High Altitude Operation* and other regulations and procedures have been formulated to define clear responsibility, prevent accident, manage normal operation, ensure safety of employees and equipment as well as property, and fulfill the Group's commitment to protecting environment, occupational health and safety.

- *Health Examination*

  The Group provides health examination for employees once per year, which includes entry examination and on-the-job examination under Good Manufacturing Practices ("GMP") as well as entry, on-the-job and exit examinations to prevent employees from occupational diseases.

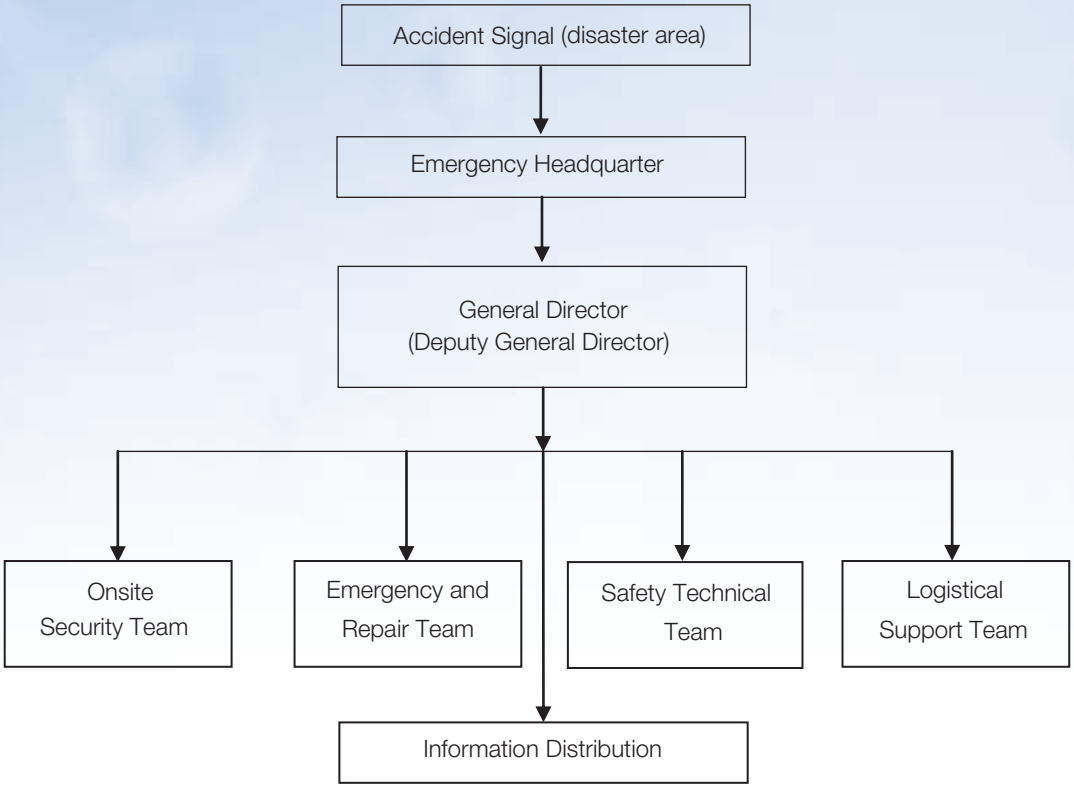
- *Emergency Management for Safety Accident*

In accordance with *Work Safety Law of the People's Republic of China, National Emergency Plan for Work Safety Accident, Guidelines for Enterprises to Develop Emergency Response Plan for Work Place Accidents, Implementing Rules of Measures for the Administration of Emergency Plans for Work Safety Accidents of Shanghai, Work Safety Regulations of Shanghai* and other laws and regulations, conforming to the principle of reporting in time, responding rapidly and human oriented, the Group has formulated *Emergency Plan for Work Safety Accidents* to protect employees' life safety, reduce property loss and implement emergency rescue rapidly, efficiently and orderly after accident.



After risk assessment on hazardous source, the Group has identified major hazardous element and work place, and formulated emergency plan system.

To strengthen organization and management of emergency activities, the Group has established emergency headquarter showed as below:



- *Fire and Explosion Prevention*

Conforming to the principle of prevention first and human oriented, the Group has developed *Fire Special Emergency Plan for Work Safety Accident, Explosion Special Emergency Plan for Work Safety Accident, Emergency Plan for Fire Explosion and Chemical Accident, Hot Work Management Policy* and other regulations to treat and control accident rapidly and orderly, prevent pollution, protect production safety and employee life safety, and reduce loss and damage to minimum when chemical, fire and explosion accident happens.

Conforming to policy of safety first, prevention first and comprehensive treatment, the Group combines accident emergency with prevention work, and enhances management to hazardous sources to do good accident prevention, prediction, warning and forecast. The Group has prepared emergency supplies such as fire pump station, fire hydrant, fire hammer, alarm button, fire telephone, voice-activated alarm, fire sprinkler, smoke detector, fire equipment, manual fire alarm button and evacuation and location map etc. Supplies and equipment was checked once every month to make employees could use nearest emergency supplies in case of emergency accident.

- *Hazardous Chemicals Management*

To standardize management regulations for hazardous chemicals and protect life safety, production safety and property safety, the Group formulated *Management Regulations for Toxic Inflammable and Explosive Hazardous Materials* to regulate purchase, acceptance, entering, storage, distribution and usage of toxic inflammable and explosive hazardous materials, and treatment and emergency treatment of wastes.

For daily management of hazardous chemicals, the regulation required that: toxic and hazardous chemicals should be managed by special personnel; management personnel should attend professional training in chemicals and fire protection; hazardous materials should be stored by category according to minimum safety storage amount, and passageway between stacking should have enough safety distance; dedicated place holding chemicals should have relevant safety measures such as ventilation, anti-explosion, fire protection, lightning protection, extinguishment and sunblock according to materials' type and property; hazardous chemicals, which easily burn, explode and produce toxic gas in case of fire or moist, should not be stored in place which is open, humid, low-lying and easy to collect water.

The Group destroyed hazardous chemicals in accordance with *Environmental Protection Law of the People's Republic of China, Law of the People's Republic of China on the Prevention and Control of Environment Pollution Caused by Solid Wastes*, *Regulations of Shanghai on the Prevention and Control of Pollution by Hazardous Wastes* and other relevant laws and regulations.

The Group developed standard operation procedure of *Safety Protection for Doxorubicin Hydrochloride Operation* and required that:

– Storage of doxorubicin hydrochloride should be locked. Doxorubicin hydrochloride wastes should be discard after innocent treatment or treated by qualified institutions.

– Anyone who uses doxorubicin hydrochloride should be trained before use it.

– Doxorubicin hydrochloride should be avoided to touch skin and eyes.

– Proper safety protection equipment is provided in places where dust is produced.

- *Production Safety Education and Training*

  According to *Emergency Plan for Work Safety Accidents*, conforming to policy of safety first, prevention first and comprehensive treatment, the Group regularly organizes trainings and emergency exercises to strengthen employees' safety awareness and emergency ability. Accident reasons and rescue experience was summarized and propaganda and educations of them were well done. The safety production leading group takes charge of propaganda of laws, regulations, prevention of production safety accident, risk avoidance, disaster avoidance, and common sense of self-rescue and mutual-rescue to all employees.

  The Group developed *Management Policy for Production Safety Education and Training* to ensure safe production and strengthen safety awareness education. The Group organized safety education and trainings on three levels, including company level (level 1), workshop or department level (level 2), section or group level (level 3). Employees should take relevant trainings before taking up the posts.

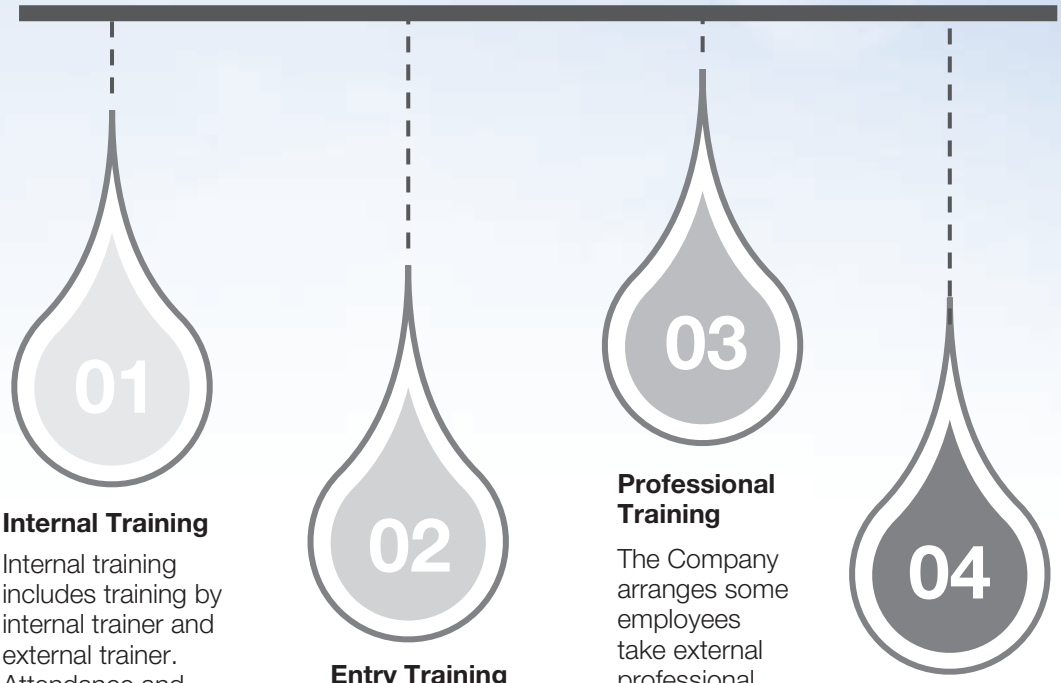
  The safety production leading group irregularly organize safety education and trainings. The pressure vessel operator, electrician, high matches electrician, metering personnel, driver and other special operation personnel should take technical training and get certificates from competent authority before taking special operation, or they are not allowed to work by themselves.

- *Occupational Hazard Factors Testing*

  The Group entrusts qualified inspection and testing institution with inspection and testing on occupational hazard equipment, protection equipment and personal protection equipment. Occupational hazard factors testing report is provided by the institution.

B3 Development and Training

The Group respects talents and uses sound regulations to select talents and excite employees' potential. In accordance with *Employee Handbook*, the Group provided various type of trainings according to work and employees' career need. *Management Policy for Education and Training* was formulated to regulate trainings an continuing education, develop and promote employees' professional skill, and develop employees' and company's benefits at the same time.



Internal Training

Internal training includes training by internal trainer and external trainer. Attendance and training record should be made and archived.

Entry Training

Administration personnel department organizes entry training in one week within the employee join the company.

Professional Training

The Company arranges some employees take external professional trainings according to technical and business development demand.

Work License Training

Work license training and continuing education training should be taken according to work demand.

In 2017, the Group arranged relevant employees to participate in a safety operation training, safety training for hazardous chemicals operators, and special equipment operation training, which were organized by Shanghai Safety Production Association. The employees' operational abilities were well improved.

Moreover, in order to promote employees' interpersonal communication and teamwork, the Group has founded teamwork training fund to provide expenditure for every department, and developed *Regulations of Use of Teamwork Training Fund* to specify fund limit and use.

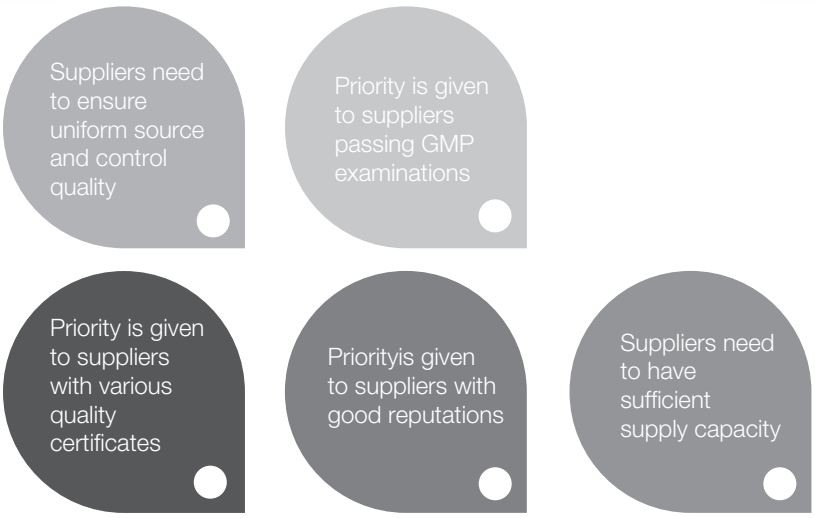
B4 Labor Standard

In accordance with the *Labor Law of the People's Republic of China, Labor Contract law of the People's Republic of China, Provisions on the Prohibition of Using Child Labor* and other laws and regulations, the Group prevented using child labor and forced labor. According to *Labor and Personnel Regulations*, all new employees' identification card should be checked before they entry the Group to ensure their age meets requirements of laws and regulations. Besides, according to *Attendance Regulations*, if employee have to work overtime, he/she should apply to department manager and get the manager's approval. In the reporting period, the Group did not use child labor and forced labor.

B5 Supply Chain Management

Supplier management is one of the most important parts of quality management for medical company. Stability, safety and effectivity of product quality is directly influenced by the selection of suppliers. The Group formulated *Supplier Management Policy* to regulate the operational procedures of evaluation and approval for material suppliers, and clarify the suppliers' qualification, selection principle, quality evaluation methods, evaluation standard, and approval procedure for material supplier.

In the procedure of selecting suppliers, the Group requires the suppliers should have relevant qualification certificates, and preliminarily selects suppliers as below principles:



The Group conducts risk assessment for suppliers and assesses and control suppliers based on assessment result. Quality management department conducts nominal audit and on-site audit based for material suppliers on the result of risk assessment:

- Nominal Audit: Quality management department evaluates supplier by information from completed supplier questionnaires.

- On-site Audit: Quality management department organizes related department (Logistics department and manufacturing department) to set up audit team. The audit covers personnel institutions, facilities and equipment, material management, production process and management, and equipment, instruments and documents management of quality control laboratory. The audit verifies authenticity of qualification certificates and testing reports of suppliers, and check if they have testing condition.

The Group conducts continuous testing to effectiveness of approved suppliers, including annual review and regular audit. Annual review includes testing result of quality testing, quality complaints and unqualified management records etc., by which the risk of supplier is further assessed. The Group will increase audit frequency, change nominal audit to on-site audit or immediate audit in the circumstances that supplier have quality issues, production condition, technology, quality standard, inspection methods and other significant factors influencing quality have great change, or the quality management think it is necessary.

In order to ensure that the suppliers of the Group have reduced environmental pollution in the production and storage process, and complied with relevant requirements of social responsibility, the Group formulated *Regulations on Environmental and Social Responsibility of Suppliers*, and raises strict requirements of environmental responsibility to suppliers. For instance, it is required that the pollutant discharged by suppliers should comply with relevant standards, and priority selection should be given to environmental-friendly and energy-saving technologies. During storage and transportation process, the suppliers should ensure that the discharge meets relevant standards and the process is safe. Dripping or leakage of chemical components is severely prohibited. In addition, for the suppliers' social responsibility, the Group requires all suppliers to prevent child and forced labor, ensure employees' health and safety, and strictly fulfill the responsibilities to their product.

The Group formulated the *Supplier Questionnaire* for the evaluation of the suppliers' quality system and to determine whether the products provided are compliant with legal regulations. In addition, the questionnaire is set up to investigate and manage relevant qualifications of the suppliers, and to investigate the EHS management situation of those suppliers, requiring them to strengthen environmental and social risk management.

The Group formulated *Materials Purchase Management* to regulate management and procedure of material purchase and control rationality and normalization of purchasing process. Besides, the Group developed *Regulations on Anti-Commercial Bribery* to guide stakeholders including suppliers to follow the law, resist corruptions and fulfill social responsibilities.

B6 Product Responsibility

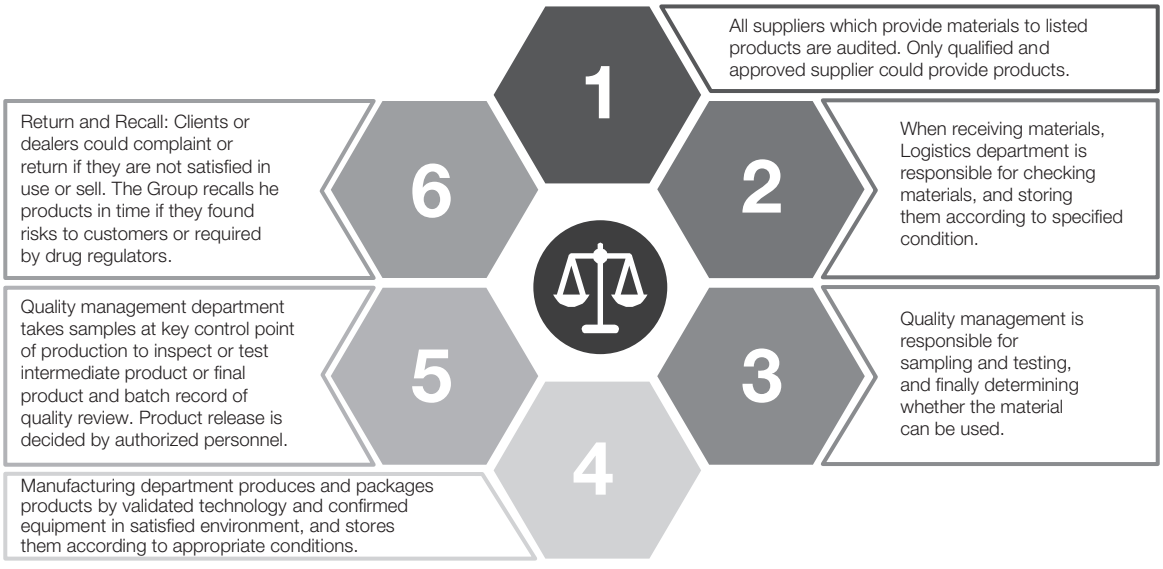
With the Group tenet of More Exploring More Healthy, the Group constantly develop new drugs on multiple research and development platforms. In accordance with *Pharmaceutical Administration Law of the People's Republic of China, Regulations for Implementation of the Drug Administration Law of the People's Republic of China, Product Quality Law of the People's Republic of China, Regulations for Pharmaceutical Production, Regulations for Reporting and Monitoring Drug Adverse Reaction* and other laws and regulations, the Group takes measures to ensure quality and safety, and protect consumers' rights.

1 Quality Management

In the production process, the Group strictly controls product quality to win the market. The Group follows requirements of GMP to control quality.

Chinese Good Manufacturing Practices for Pharmaceutical Products ("GMP")

To provide the best quality products for clients, the Group developed complete quality management system according to GMP and principle of quality management. The system which covers all the factors affecting medicine quality is developed to minimize risks such as pollution, cross contamination, confusion and errors in drug production. The Group developed complete GMP documents system including personnel, equipment, material, production, testing, quality assurance and post-marketing surveillance etc. to manage and operate every part. The Group established quality risk management procedure which is applied to whole quality management, including supplier management, corrective and preventive measures, quality complaint, validation, production management, laboratory management, intermediate control and change control etc. The Group specified the product realization process and responsibilities of every department, showed as below:



The Group implements internal audit regularly to confirm whether the quality management system meet the current drug production quality management regulations and ensure the quality management system is implemented and maintained effectively.

Material and Product Inspection Management

According to *Chinese Good Manufacturing Practices for Pharmaceutical Products and Chinese Pharmacopoeia*, the Group formulated *Material and Product Inspection* management procedures, to regulate inspection basis, requirements and result processing operation procedure for materials and products such as raw materials, packaging materials, intermediate products and final products. Packaging materials standard includes sampling inspection and the physical and chemical inspection. Inner packaging materials standard usually includes microbiological inspection.

Sampling inspection can be finished on-site and physical and chemical inspection and microbiological sampling should be finished in laboratory. The inspection should use inspection methods in quality standard or annex of the standard. Inspection in laboratory and record should comply with GMP management regulations and relevant requirements in *General Notice of Chinese Pharmacopoeia*. Inspection report should be prepared after inspection and quality certificate should be issued for products to ensure quality of materials and products.

The Group developed *Materials and Products Destruction Management* according to *Chinese Good Manufacturing Practices for Pharmaceutical Products* to regulate materials and products destruction procedure and control destruction process.

GMP Certificates

The small volume parenternal solutions (antineoplastic drugs), bulk drug (Aminolevulinic Acid Hydrochloric and Hemoporfin) and powders have got GMP certificates from state food and drug administration.

2 Advertising and Labeling Management

The Group manages labeling and advertising by laws to protect consumers' rights and maintain brand image. The Group conforms to requirements of *Advertisements Law of the People's Republic of China, Regulations on Management of Medical Advertising, Drug Administration Law of the People's Republic of China, Provisions for Drug Advertisement Examination, Good Manufacturing Practices (2010 revision)* and other laws and regulations. The Group formulated *Design and Change of Packing Materials* to manage design and change of packaging materials used for new products or additional existing products to make the product package conform to characteristic of products, demand of market, technical conditions and provisions of national laws and regulations.

Design draft of label, manual and package should include product specifications, packaging specifications, size requirements, material requirements, appearance requirements, packaging safety requirements and other specific contents which are reviewed by marketing department, manufacturing department, logistics department, quality management department and quality authorized personnel.

3 *Consumer Services*

Upholding the principle of honest, the Group tries best to provide accurate consumption information, protect consumer's right to know, and provide reliable services for consumers. In accordance with *Law of the People's Republic of China on the Protection of Consumer Rights and Interests* and other laws and regulations, the Group developed *Product Complaint* management procedure to regulate procedure of complaint registration, evaluation, investigation and treatment and measures for complaint of possible product defects. Quality problems from consumers should be solved immediately and effectively to improve consumers' satisfaction.

According to the *Product Complaint* management regulations, any department or personnel receiving customers' complaints should forward them to sales department and quality management department. Quality management department take charge of organizing investigation and treatment of customers' complaints related to product quality, approving relevant corrective and preventive actions plan, assisting sales department to reply to customers and reporting to competent authorities if necessary. Sales department assists quality management department to investigate complaint, provides and implements sales measures, communicates with customers and answers the complaint.

Customers could complain by oral, telephone, mail, fax, visiting or other form. The Group regularly reviews complaints, and usually reviews and analyzes trend of product complaint in product quality review.

The Group pays attention to medical safety of patients and monitoring and reporting of adverse drug reactions. In accordance with *Regulations on Reporting and Monitoring of Adverse Drug Reactions*, the Group developed relevant management regulations on reporting and monitoring of adverse drug reactions, established procedure of reporting and monitoring of adverse drug reactions, actively monitored adverse reactions and reported to national adverse reaction monitoring center.

The Group effectively protects customers' privacy by regarding their information as the Group's secret, keeping it secure through proper measures, and accessing to authorized personnel only.

B7 Anti-corruption

The Group continuously strengthens internal control and supervision mechanism, upholds integrity management, and strictly conforms to rules of fair competition. According to *Employee Handbook* and *Regulations on Anti-Commercial Bribery*, the Group requires the employees to be honest and self-disciplined, comply with regulations on anti-commercial bribery in *Anti-Unfair Competition Law of the People's Republic of China and Criminal Law of the People's Republic of China*, and management regulations on honesty and self-discipline, follow principle of law-abiding, honest, fair and scientific, resolutely refused to commercial bribery, bribery and other improper business practices. The Group will report personnel suspected of crimes to relevant department.

Administration personnel department arranges new employees to study regulations on anti-commercial bribery, records the training and requires each new employees to sign on the record. Internal audit and control department is responsible for supervision of commercial bribery, implementing and training related to relevant national laws regulations, policies, and the Group's regulations on commercial bribery, supervision and management of personnel on important position, and changing and updating the Group's relevant regulations according to national laws and regulations and the Group's actual situation to promote anti-corruption and anti-commercial bribery in business.

When the Group provides medical procurement services to medical and health institutions according regulations of *Notice of National Health and Family Planning Commission General Office on Relevant Work of Implementation of Commercial Bribery Bad Record in Medical Procurement Area*, it signs integrity pharmaceutical products procurement contract for medical and health institution when sign the purchase contract, and signs integrity service commitment according to requirements of local laws and regulations committing no bribery and fraud in whole process to further strengthen the construction of medical and health industry culture, standardize pharmaceutical sales to medical institutions, and create fair and honest marketing environment.

B8 Community Investment

At the same time of creating value for shareholders and creating wealth for customers, the Group actively devotes itself to public services, pays attention to vulnerable groups and difficult people, fulfills social responsibilities, and promotes harmonious development of community, company and regional economy. The Group established *Management Regulations of Charity and Public Benefit Activities* to regulate community investment activities.

Case: Chunhe Dream Plan

Chunhe Dream Plan is a public benefit project launched and operated by Shanghai Chunhe Youth Development Center paying attention to training of scientific literacy and innovative thinking and the project fund is donated from the society. Based on understanding and agreeing with Chunhe Dream Plan and charitable purpose, the Group signed Donation Agreement of Public Benefit Project and donated to Shanghai Chunhe Youth Development Center through Shanghai Charity Foundation Pudong Branch, which is used to support "Chunhe Dream Plan".

In 2017, Chunhe group, under sponsorship of the Group, paid a visit to Yata Ethical Middle School in Ceheng County, Qianxinan Prefecture, Guizhou Province to provide activities such as basic training and curriculum exchange, helping to create a satisfying and scientific educational environment for mountainous students.

Profiles of Directors, Supervisors and Senior Management

DIRECTORS

Executive Directors

Wang Hai Bo, aged 57, was appointed as an Executive Director in November 1996. He is also the chairman of the Board and general manager of the Company. He is also the chairman of board of directors of Taizhou Fudan-Zhangjiang Pharmaceutical Co., Ltd. and Shanghai Ba Dian Medicine Co., Ltd. ("Ba Dian") as well as the director of Fernovelty Holding, which are the subsidiaries of the Company. He founded the Company in November 1996. He was an associate professor at Fudan University from May 1995 to June 1996. He has published numerous articles, earning him awards such as the State Star Fire Grade III Award (國家星火三等獎), Education Committee Grade II Award (教委二等獎) and Technology Advancement Award of the Shanghai Municipality (上海市科技進步獎). He graduated from Fudan University with a bachelor's degree in Biology in July 1983 and master's degree in Biology in July 1986. He was the former chief technology officer of Zhejiang Shenghua Biok Biology Co., Ltd., a company listed on the Shanghai Stock Exchange (Shanghai Stock Code: 600226).

Su Yong, aged 53, was appointed as an Executive Director in January 2002. He is also the deputy general manager of the Company as well as the director of Ba Dian. He joined the Company in April 1997. He has been working in the field of genetic engineering for over twenty years. He was the chief engineer of Hangzhou Jiuyuan Gene Engineering Co., Ltd. from January 1994 to April 1997, during which he was responsible for managing the genetic engineering department. He graduated from Northwest Normal University with a bachelor's degree in Biology Science in July 1985, from Fudan University with a master's degree in Biochemistry in July 1993, and from Zhejiang University with a Ph.D. in Oncology in June 2000.

Zhao Da Jun, aged 47, was appointed as an Executive Director in January 2002. He is also the deputy general manager and an authorized representative of the Company. At the same time, he is the chairman of the board of directors of Shanghai Tracing Bio-technology Co., Ltd., and the director of Ba Dian which are the subsidiaries of the Company. He is a cofounder of the Company. He was a teaching assistant at the Law School of Fudan University from August 1995 to October 1996. He was awarded the National Education Committee on Technology Advancement Grade II Award (國家教委科技進步二等獎) in 1997. He graduated from Fudan University with a bachelor's degree in Biology in July 1992, a master's degree in Biology in July 1995, and from University of Hong Kong with a master's degree in Business Administration in November 2001.

Non-executive Directors

Shen Bo, aged 45, was appointed as a Non-executive Director in June 2012. He is a non-practicing member of certified public accountant of the People's Republic of China. He is an executive director, vice president and the chief financial officer of Shanghai Pharmaceuticals, and concurrently appointed as executive director of China International Pharmaceutical (Holding) Corporation Limited, chairman and legal representative of Shanghai Harvest Pharmaceutical Co., Ltd., chairman of SPH Changzhou Pharmaceutical Co., Ltd. He used to be the deputy manager of the financial department of Shanghai Jinling Co., Ltd. from 1996 to 2000, the chief financial officer of Shanghai Jinling Tai Ke IT Development Co., Ltd. from May 2000 to January 2001, general manager of finance department of Shanghai Industrial United Holdings Co., Ltd. from January 2006 to November 2006, chief financial officer of Shanghai Industrial Pharmaceutical Investment Co., Ltd. from November 2006 to March 2010. He graduated from the Shanghai Institute of Construction Materials Industry with a bachelor's degree in Economics in July 1996, and from Chinese University of Hong Kong with a Master of Professional Accounting in December 2007.

Yu Xiao Yang, aged 61, was appointed as a Non-executive Director in May 2013. She has over 20 years of banking and investment experience. She is a founding partner of China New Enterprise Investment and was a founder of Victoria Capital Limited, a corporate finance advisory firm in 1998, and served as its managing partner. She was among the first mainland Chinese to embark on a professional career with major international financial institutions. She served at Paris Bank in Geneva, Dresdner Bank in Frankfurt, London and New York from 1980 to 1985, and Salomon Brothers from 1987 to 1991, working in the areas of mergers and acquisitions and corporate finance. She graduated from International Management Institute (Geneva), predecessor of International Institute for Management Development, with a master's degree in Business Administration in May 1982.

Independent Non-executive Directors

Zhou Zhong Hui, aged 70, was appointed as an Independent Non-executive Director on 30 May 2013. He is a council member of the China Association of Chief Financial Officers, and a member of the Advisory Committee of the China Appraisal Society. He used to be the chief accountant of the China Securities Regulatory Commission from 2007 to 2011, a partner, the general manager and chief accountant of PricewaterhouseCoopers Zhong Tian CPAs Limited Company from 1992 to 2007 and a professor of Shanghai University of Finance and Economics from 1989 to 1998. He has been an independent non-executive director of Shanghai Oriental Pearl Media Co., Ltd. (Formerly known as BesTV New Media Co., Ltd., a company listed on the Shanghai Stock Exchange (Shanghai Stock Code: 600637)) since 23 December 2011 and resigned on 4 June 2015. He has been an independent non-executive director of China Pacific Insurance (Group) Co., Ltd., a company listed on the Shanghai Stock Exchange (Shanghai Stock Code: 601601) and the Stock Exchange (Stock Code: 02601) since 31 May 2013. He has been an independent non-executive director of Juneyao Airlines Co., Ltd., a company listed on the Shanghai Stock Exchange (Shanghai Stock Code: 603885) since 29 June 2014. He has been an independent director of S.F. Holding Co., Ltd., a company listed on the Shenzhen Stock Exchange (formerly known as Maanshan Dingtai Rare Earth & New Materials Co., Ltd., Shenzhen Stock Code: 002352) since 28 December 2016. He has been an independent non-executive director of COSCO SHIPPING Holdings Co. Ltd., a company listed on the Shanghai Stock Exchange and the Main Board of the Stock Exchange (formerly known as China COSCO Holdings Co., Ltd., Shanghai Stock Code: 601919, Stock Code: 01919) since 25 May 2017. He graduated from Shanghai University of Finance and Economics with a master's degree in Economics in November 1983, and a Ph.D. in Economics in January 1993.

Lam Yiu Kin, aged 63, was appointed as an Independent Non-executive Director on 9 October 2013. He is a fellow member of the Association of Chartered Certified Accountants (ACCA), the Institute of Chartered Accountants in England & Wales (ICAEW), the Institute of Chartered Accountants of Australia and New Zealand (ICAA), and Hong Kong Institute of Certified Public Accountants (HKICPA). He graduated from Hong Kong Polytechnic University with a higher diploma in June 1975 and he was awarded the honorary fellow of Hong Kong Polytechnic University in November 2002. He has been an independent non-executive director of Kate China Holdings Limited, a company listed on the Growth Enterprise Market of Stock Exchange (Stock Code: 8125) since 30 June 2014 and resigned on 17 September 2015. He has been an independent non-executive director of Mason Group Holdings Limited (Original: Mason Financial Holdings Limited), a company listed on the Main Board of the Stock Exchange (Stock Code: 0273) since 1 August 2015 and resigned on 24 May 2017. He has been an independent non-executive director of Vital Mobile Holdings Limited, a company listed on the Main Board of

the Stock Exchange (Stock Code: 6133) since 19 September 2014. He has been an independent non-executive director of Spring Asset Management Limited, which is the manager of Spring Real Estate Investment Trust which units are listed on the Main Board of the Stock Exchange (Stock Code: 1426) since 12 January 2015. He has been an independent non-executive director of Global Digital Creations Holdings Limited, a company listed on the Growth Enterprise Market of the Stock Exchange (Stock Code: 8271) since 27 July 2015. He has been an independent non-executive director of Mason Financial Holdings Limited, a company listed on the Main Board of the Stock Exchange (Stock Code: 0273) since 1 August 2015. He has been an independent non-executive director of Shougang Concord Century Holdings Limited, a company listed on the Main Board of the Stock Exchange (Stock Code: 0103) since 1 August 2015. He has been an independent non-executive director of COSCO Shipping Ports Limited, a company listed on the Main Board of the Stock Exchange (Stock Code: 1199) since 14 August 2015. He has been an independent non-executive director of Nine Dragons Paper (Holdings) Limited, a company listed on the Main Board of the Stock Exchange (Stock Code: 2689) since 3 March 2016. And he has been an independent non-executive director of WWPKG Holdings Company Limited, a company listed on the Growth Enterprise Market of the Stock Exchange (Stock Code: 8069) since 16 December 2016. He has been appointed as an independent non-executive director of CITIC Telecom International Holdings Limited, a company listed on the Main Board of the Stock Exchange (Stock Code: 1883) since 1 June 2017. And he has been appointed as an independent non-executive director of Bestway Global Holding Inc., a company listed on the Main Board of the Stock Exchange (Stock Code: 3358) since 18 October 2017.

Xu Qing, aged 53, was appointed as an Independent Non-executive Director on 29 May 2015. Mr. Xu was appointed as an independent Supervisor in May 2008. He is currently a professor of Tongji Unversity Medical School, doctor-postgraduate supervisor, deputy director of the Oncology Department and Tumor Institute, and director, chief physician of Medical Oncology Department of the Tenth People's Hospital affiliated to Tongji University. And he is director of Medical Oncology Department of Shanghai Dermatology Hospital affiliated to Tongji University. He used to serve as a deputy director, a deputy chief physician, and a deputy professor of the Medical Oncology Department of Chang Zheng Hospital of The Second Military Medical University. He has been engaged in the fundamental and clinical research on tumor for a long time. He has published over 100 articles in medical journals both domestic and abroad. He did his postdoctoral research in the H.Lee. Moffitt Cancer Center of University of South Florida as a visiting scholar. He graduated from The Second Military Medical University in August 1989 with a bachelor's degree of medicine. He obtained a doctor's degree of internal medicine in August 1997.

Yang Chun Bao, aged 48, is a senior partner of Dentons Law Firm Shanghai Office. He was a practice lawyer successively in Shanghai Zhongjian Law Firm and Shanghai Haworth&Lexon Law Firm from 1995 to 2015. And he served as an in-house counsel in Southeast Branch of CMST Shanghai from 1992 to 1995. Mr. Yang is off-campus post-graduate supervisor of East China University of Political Science & Law and panel mediator with mediation center of CCPIT and CCOIC. He graduated from Fudan University with L.L.B in July 1992 and received J.M of East China University of Political Science and Law in June 2001 and L.L.M of University of Sydney Technology in May 2001.

SUPERVISORS

Zhou Xi, aged 44, was appointed as a shareholder representative Supervisor on 29 May 2015. He is the general manager of Shanghai Fudan Asset Management Co., Ltd.（上海復旦資產經營有限公司）. He used to be the deputy secretary of youth communist league committee of Fudan University, assistant to director of the Enterprise Incubation and Equity Management Office of Fudan University, deputy director of Jiangwan campus construction office of Fudan University, vice dean of School of Computer Science and Software School of Fudan University. He graduated from Fudan University in 1996 with a bachelor's degree of science. He obtained a master's degree of science in 2002 and a doctor's degree of science in 2012.

Wang Luochun, aged 48, was appointed as an employee representative Supervisor on 22 February 2016. He is the manager of biopharmaceutical drug research and development department of the Company. He joined the Company in March 1997 and has been engaged in the research and development for biopharmaceutical drugs. He graduated from Fudan University with a bachelor's degree in Biology in July 1992.

Liu Xiao Long, aged 60, was appointed as an independent Supervisor in May 2016. He is the chairman of the board and the chief executive officer of Jiuyou Capital Co., Ltd. (上海久有股權投資基金管理有限公司). He worked as the general manager of Shanghai Wai Gao Qiao Free Trade Zone New Development Co., Ltd. (上海市外高橋保税區新發展有限公司), the chairman of the board of Shanghai Zhangjiang Hi-Tech Park Development Co., Ltd.(上海張江高科技園區開發股份有限公司) (a company listed on the Shanghai Stock Exchange whose stock code is 600895) and the deputy director of Shanghai Zhangjiang Hi-Tech Park management committee. He was also a member of the standing committee of Shanghai Association for Science and Technology. He graduated from Shanghai Jiao Tong University mechatronics branch campus with a bachelor's degree.

Huang Jian, aged 48, is a Professor and Doctoral supervisor in Shanghai Jiao Tong University School of Medicine and reviewer of National Natural Science Foundation of China. He used to be a postdoctoral fellow in Institute of Shanghai Biochemistry and Cell Biology Chinese academy of Sciences and Karolinska Institute Stockholm Sweden. He works on Molecular Oncology with more than 30 published papers and several national, provincial and ministerial grants. He graduated from Fudan University with a bachelor's degree in 1992, a master's degree in 1995 and a Ph.D. in science in 1999.

Yu Daiqing, aged 46, is the quality director of the Company. She joined the Company in November 2001, and was successively engaged in quality research and analysis of new drug development, quality research and examination of pharmaceutical manufacturing, establishment of quality management system and daily operation management relating to pharmaceutical manufacturing. She graduated from Shandong University with a bachelor's degree in Chemistry in July 1995 and a master's degree in Analytical Chemistry in July 1998.

SENIOR MANAGEMENT

Li Jun, aged 49, is a cofounder of the Company. He is a deputy general manager of the Company. He has been responsible for several research projects of the Natural Science Fund, and has published numerous articles. He is a certified pharmacist. He was a teaching assistant and lecturer at Fudan University from August 1993 to November 1996, during which he also served as deputy chief technology officer of Zhejiang Shenghua Biok Biology Co. Ltd. and was involved in the research and manufacture of three new drugs. He graduated from Fudan University with a master's degree in Biology in July 1993. Mr. Li Jun has not held any directorships in listed public companies in the past three years.

Yang Xiao Lin, aged 55, joined the Company in January 2006. He is a deputy general manager of the Company. He is also the chairman of board of directors of Derma Clinic, which is the subsidiaries of the Company. He has participated in and been in charge of several merger and acquisition projects for pharmaceutical companies. He has also been responsible for marketing and selling prescribed and OTC medicine in many sectors, and has obtained good results. He used to be the marketing director of Fosun Pharmaceutical Group from December 2001 to January 2005, and the general manager of Zhejiang Kanglaite Pharmaceutical Co., Ltd. from January 2005 to January 2006. He graduated from Chinese Academy of Social Sciences with an MBA degree in 1999. Mr. Yang Xiao Lin has not held any directorships in listed public companies in the past three years.

Gan Yi Min, aged 55, joined the Company in 2010. He is a deputy general manager of the Company. He is also the directors and general manager of Taizhou Fudan-Zhangjiang Pharmaceutical Co., Ltd., which is the subsidiaries of the Company. He used to be the general manager of Haini Pharmaceutical Co., Ltd. (Shanghai) from 2003 to 2009, responsible for completion of construction of production workshops, laboratories and workstations, recruitment of staff and managers, and establishing a performance evaluation system. He was the production manager of Xi'an Janssen Pharmaceutical Co., Ltd. from 1995 to 2003, responsible for organizing and implementing a number of medium and large technological transformation projects. He obtained a bachelor's degree in Industrial Automation from Xi'an Technology University in December 1990, an MBA from Xi'an Jiaotong University in December 2001, an EMBA from Antwerp University (Belgium) in October 2002, and a master's degree in Pharma Engineering from Beijing Chemical Engineering University in December 2006. Mr. Gan Yi Min has not held any directorships in listed public companies in the past three years.

COMPANY SECRETARY

Xue Yan, aged 36, was appointed as company secretary in August 2010. She is also the Chief Financial Officer and an authorized representative of the Company. She is also the director of Derma Clinic and Fernovelty Holding, which are the subsidiaries of the Company. She is a member of the Hong Kong Institute of Certified Public Accountants (HKICPA), a fellow of the Association of Chartered Certified Accountants (ACCA), and a member of the Chinese Institute of Certified Public Accountants (CICPA). She is qualified as an international certified internal auditor. She has extensive professional experience in accounting as well as experience in corporate compliance. She graduated from Shanghai University of Finance & Economics with a bachelor's degree in International Accounting in 2004. Ms. Xue Yan has not held any directorships in listed public companies in the past three years.

Independent Auditor's Report

羅兵咸永道

To the Shareholders of
Shanghai Fudan-Zhangjiang Bio-Pharmaceutical Co., Ltd.
(a joint stock company incorporated in the People's Republic of China with limited liability)

OPINION

What we have audited

The consolidated financial statements of Shanghai Fudan-Zhangjiang Bio-Pharmaceutical Co., Ltd. (the "Company") and its subsidiaries (together, the "Group") set out on pages 104 to 174, which comprise:

- the consolidated statement of comprehensive income for the year ended 31 December 2017;
- the consolidated balance sheet as at 31 December 2017;
- the consolidated statement of cash flows for the year ended 31 December 2017;
- the consolidated statement of changes in equity for the year ended 31 December 2017; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2017, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

PricewaterhouseCoopers, 22/F Prince's Building, Central, Hong Kong

羅兵咸永道

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of this report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

pwc 羅兵咸永道

KEY AUDIT MATTERS (continued)

The following key audit matter is identified in our audit:

Key Audit Matter	How our audit addressed the Key Audit Matter
Capitalisation of development costs *Refer to notes 2.26, 3(b)(iii) and 18 to the consolidated financial statements.* As part of its principal activities, the Group researches and develops various bio-pharmaceutical know-how and medical techniques for future commercialisation. The Group incurred total research and development expenditure of RMB 115.87 million during the year ended 31 December 2017; of which RMB 110.43 million was expensed whereas RMB 5.44 million was capitalised in accordance with the accounting policy set out in note 2.26. We focused on this area mainly due to the size of the research and development expenditure incurred, a portion of which being capitalised and the fact that there is judgement involved in assessing whether the criteria set out in the accounting standards for capitalisation of development costs for each individual project have been met, particularly: • The technical feasibility of the project; and • The likelihood of the project delivering sufficient future economic benefits.	We obtained a detail listing of all individual research and development projects with expenditure incurred and amounts capitalised in the year, reconciled to the general ledger and agreed sample items to supporting evidence. For projects with amounts capitalised during the year, we challenged management's assessment as to why they considered those amounts were development costs to be capitalised in nature, in particular on technical feasibility and future economic benefits of the projects. We assessed the appropriateness of management's judgement on technical feasibility by reference to relevant available approval, certificate or registration from/with government authorities, technical milestone reports or the Group's past history of successful development projects. For management's judgement on future profitability, we challenged key assumptions used. We corroborated the key assumptions of market scale, market share, gross profit and challenged whether these were appropriate in light of historical experiences, relevant market studies or other similar products. We also evaluated the sensitivity analysis around the key assumptions used in the forecast to ascertain the extent of change in those assumptions that would have negative impacts on the future profitability. We found that management's accounting for capitalisation of development costs was properly supported by the available audit evidences.

pwc 羅兵咸永道

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the Company's 2017 Annual Report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The audit committee is responsible for overseeing the Group's financial reporting process.

pwc 羅兵咸永道

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

pwc 羅兵咸永道

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with the audit committee all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Esmond S.C. Kwan.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2017

1 BACKGROUND INFORMATION

Shanghai Fudan-Zhangjiang Bio-Pharmaceutical Co., Ltd. (the "Company") was established in the People's Republic of China ("PRC") on 11 November 1996 as a limited liability company with an initial registered capital of RMB 5,295,000.

Pursuant to a series of capital injections on 10 November 1997, 11 May 2000 and 12 September 2000 from the existing or the then shareholders of the Company and the capitalisation of reserves of the Company on 11 December 1997 and 20 October 2000, the registered capital of the Company was increased from RMB 5,295,000 to RMB 53,000,000.

On 8 November 2000, the Company was transformed into a joint stock company with limited liability.

On 20 January 2002, all of the shares of the Company, being 53,000,000 ordinary shares with a par value of RMB 1.00 each, were subdivided into 530,000,000 ordinary shares ("Domestic Shares") with a par value of RMB 0.10 each.

On 13 August 2002, the trading of the newly issued 198,000,000 ordinary shares ("H Shares") of RMB 0.10 each of the Company commenced on the Growth Enterprise Market ("GEM") of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"), including 18,000,000 H Shares converted from Domestic Shares. Therefore, the share capital of the Company was increased to RMB 71,000,000.

On 4 February 2013, the Company completed a placing of 142,000,000 H Shares with a par value of RMB 0.10 each at a price of HKD 1.70, and the share capital of the Company was increased to RMB 85,200,000.

On 29 June 2012, the Company adopted a restricted share scheme. Pursuant to the scheme, the Company granted a total of 71,000,000 Domestic Shares as restricted shares to directors, senior management, mid-level management and key research staff of the Group on 24 June 2013 and 21 October 2013 at a price of RMB 0.51 with a par value of RMB 0.10 each. Upon completion of the grants, the share capital of the Company was increased to RMB 92,300,000.

On 16 December 2013, the Company transferred its H Shares listing from GEM to the Main Board of the Stock Exchange.

As at 31 December 2017, the Company had direct interests of 65%, 69.77%, 84.68%, 50.04% and 100% in five subsidiaries, namely Shanghai Ba Dian Medicine Co., Ltd. ("Ba Dian"), Taizhou Fudan-Zhangjiang Pharmaceutical Co., Ltd. ("Taizhou Pharmaceutical"), Shanghai Tracing Bio-technology Co., Ltd. ("Tracing Bio-technology"), Derma Clinic Investment Co., Ltd. ("Derma Clinic") and Fernovelty (Hong Kong) Holding Co., Ltd. ("Fernovelty Holding"), respectively.

The Company and its subsidiaries (together, the "Group") are principally engaged in the research, development and selling of self-developed bio-pharmaceutical know-how, carrying out contracted research for customers, manufacturing and selling of medical products and providing other medical services in the PRC.

The address of the Company's registered office is 308 Cailun Road, Zhangjiang Hi-Tech Park, Pudong, Shanghai, PRC.

These consolidated financial statements are presented in Renminbi ("RMB"), unless otherwise stated.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of the consolidated financial statements are set out below. These policies have been consistently applied to both years presented, unless otherwise stated.

2.1 Basis of preparation

The consolidated financial statements of the Company have been prepared in accordance with all applicable International Financial Reporting Standards ("IFRSs"). The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets, which are carried at fair value.

The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 3.

Changes in accounting policies and disclosures:

(a) New amendments of IFRSs adopted by the Group

The following new amendments of IFRSs are relevant to the Group's operations and are mandatory for the first time for the Group's financial year beginning on 1 January 2017.

IFRS 12 (Amendments)	Amendments to "Disclosure of Interests in Other Entities" on clarifying that the disclosure requirements of the standard are applicable to interests in entities classified as held for sale except for summarised financial information
IAS 12 (Amendments)	Amendments to "Income Taxes" on how to account for deferred tax assets related to debt instruments measured at fair value
IAS 7 (Amendments)	Amendments to "Statement of Cash Flows" regarding additional disclosure on changes in liabilities arising from financing activities, see note 36(ii)

The adoption of the above new amendments of IFRSs starting from 1 January 2017 did not have any significant impact on the consolidated financial statements of the Group.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.1 Basis of preparation (continued)

(b) New standards, amendments and interpretations of IFRSs not yet adopted

The following new standards, amendments and interpretations of IFRSs which are relevant to the Group's operations have been issued but are not yet effective and have not been early adopted by the Group. The Group is still in the process of assessing the impacts on adoption of these new standards, amendments and interpretations and is yet to conclude whether or not it will result in substantial changes to the consolidated financial statements of the Group.

IFRS 2 (Amendments)	Amendments to "Share-based Payment" regarding classification and measurement of share-based payment transactions
IFRS 4 (Amendments)	Amendments to "Insurance Contracts" on applying IFRS 9 "Financial Instruments" with IFRS 4 "Insurance Contracts"
ÍFRS 1 (Amendments)	Amendments to "First-time Adoption of IFRSs" is part of the annual improvements to IFRSs 2014-2016 cycle. This deletes the short-term exemptions covering transition provisions of IFRS 7, IAS 19, and IFRS 10
IAS 28 (Amendments)	Amendments to "Investments in Associates and Joint Ventures" on allowing venture capital organisations, mutual funds, unit trusts and similar entities to elect measuring their investments in associates or joint ventures at fair value through profit or loss (FVTPL)
IAS 40 (Amendments)	Amendments to "Investment Property" on clarifing that to transfer to, or from, investment properties there must be a change in use
IFRS 10 and IAS 28 (Amendments)	Amendments to "Consolidated Financial Statements" and "Investments in Associates and Joint Ventures" regarding sale or contribution of assets between an investor and its associate or joint venture
IFRS 9(i)	"Financial Instruments"
IFRS 15(ii)	"Revenue from Contracts with Customers"
IFRS 16(iii)	"Leases"
IFRIC 22	"Foreign Currency Transactions and Advance Consideration"
IFRIC 23	"Uncertainty over Income Tax Treatments"

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.1 Basis of preparation (continued)

(b) New standards, amendments and interpretations of IFRSs not yet adopted (continued)

(i) IFRS 9 "Financial Instruments"

Nature of change

IFRS 9 "Financial Instruments" addresses the classification, measurement and derecognition of financial assets and financial liabilities, introduces new rules for hedge accounting and a new impairment model for financial assets.

Impact

The Group does not expect the new guidance to have significant impact on the classification and measurement of its financial assets as the Group does not have:

- Debt instrument that are classified as available-for-sale financial assets;
- Debt instrument classified as held-to-maturity and measured at amortised cost;
- Equity investment measured at fair value through profit or loss.

The Group has reviewed its financial assets and liabilities and is expecting the following impact from the adoption of the new standard on 1 January 2018:

There will be no impact on the Group's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and the Group does not have any such liabilities. The derecognition rules have been transferred from IAS 39 "Financial Instruments: Recognition and Measurement" and have not been changed.

The new hedge accounting rules will align the accounting for hedging instruments more closely with the Group's risk management practices. As a general rule, more hedge relationships might be eligible for hedge accounting, as the standard introduces a more principles-based approach. The Group does not have any hedge instrument. Therefore, the Group does not expect any impact on the new hedge accounting rules.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.1 Basis of preparation (continued)

(b) New standards, amendments and interpretations of IFRSs not yet adopted (continued)

(i) IFRS 9 "Financial Instruments" (continued)

Impact (continued)

The new impairment model requires the recognition of impairment provisions based on expected credit losses rather than only incurred credit losses as is the case under IAS 39. It applies to financial assets classified at amortised cost, debt instruments measured at fair value through other comprehensive income, contract assets under IFRS 15 "Revenue from Contracts with Customers", lease receivables, loan commitments and certain financial guarantee contracts. Based on the assessments undertaken to date, the Group does not expect material change to the loss allowance for trade debtors.

The new standard also introduces expanded disclosure requirements and changes in presentation. These are expected to change the nature and extent of the Group's disclosures about its financial instruments particularly in the year of the adoption of the new standard.

Date of adoption by Group

Must be applied for financial years commencing on or after 1 January 2018. The Group will apply the new rules retrospectively from 1 January 2018, with the practical expedients permitted under the standard. Comparative figures for 2017 will not be restated.

(ii) IFRS 15 "Revenues from Contracts with Customers"

Nature of change

The International Accounting Standards Board issued IFRS 15 as a new standard for the recognition of revenue to replace IAS 18 which covers contracts for goods and services and IAS 11 which covers construction contracts and the related literature.

The new standard is based on the principle that revenue is recognised when control of a good or service transfers to a customer.

The standard permits either a full retrospective or a modified retrospective approach for the adoption.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.1 Basis of preparation (continued)

(b) New standards, amendments and interpretations of IFRSs not yet adopted (continued)

(ii) IFRS 15 "Revenues from Contracts with Customers" (continued)

Impact

When applying IFRS 15, revenue shall be recognised by applying following steps:

- identify the contract with customer;
- identify the performance obligations in the contract;
- determine the transaction price;
- allocate the transaction price to the performance obligations in the contracts;
- recognise revenue when (or as) the entity satisfies a performance obligation.

The Group is engaged in providing medical products and service business. The Group did not introduce any customer loyalty programme which is likely to be affected by the new IFRS 15.

Management has assessed the effects of applying the new standard on the Group's financial statements and has identified the following areas that will be affected:

- rights of return – IFRS 15 requires separate presentation on the balance sheet of the right to recover the goods from the customer and the refund obligation. Due to the large size and low value of the Group's products, the historical goods return rate is very low. The financial impact of applying new IFRS 15 is not material.

Date of adoption by Group

Mandatory for financial years commencing on or after 1 January 2018. The Group will adopt the new standard from 1 January 2018. The Group intends to adopt the standard using the modified retrospective approach which means that the cumulative impact of the adoption (if any) will be recognised in retained earnings as of 1 January 2018 and that comparatives will not be restated.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.1 Basis of preparation (continued)

(b) New standards, amendments and interpretations of IFRSs not yet adopted (continued)

(iii) IFRS 16 "Leases"

Nature of change

IFRS 16 was issued in January 2016. It will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

The accounting for lessors will not significantly change.

Impact

The standard will affect primarily the accounting for the Group's operating leases. As at 31 December 2017, the Group has non-cancellable operating lease commitments of RMB 48,353,000.

However, the Group has not yet assessed what other adjustments, if any, are necessary for example because of the change in the definition of the lease term and the different treatment of variable lease payments and of extension and termination options. It is therefore not yet possible to estimate the amount of right-of-use assets and lease liabilities that will have to be recognised on adoption of the new standard and how this may affect the Group's profit or loss and classification of cash flows going forward.

Date of adoption by Group

The standard is mandatory for first interim periods within annual reporting periods beginning on or after 1 January 2019. At this stage, the Group does not intend to adopt the standard before its effective date. The Group intends to apply the simplified transition approach and will not restate comparative amounts for the year prior to first adoption.

The Group is assessing the full impact of the new standards, new interpretations and amendments to standards and interpretations. According to the preliminary assessment, other than the assessment results of IFRS 9, IFRS 15 and IFRS 16 stated above which may give rise to some impact, none of these is expected to have a significant effect on the consolidated financial statements of the Group.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Subsidiaries

2.2.1 Consolidation

A subsidiary is an entity (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

(a) Business combinations

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis. Non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are measured at either fair value or the present ownership interests' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by IFRS.

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognised in profit or loss.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with IAS 39 in profit or loss. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 Subsidiaries (continued)

2.2.1 Consolidation (continued)

(a) Business combinations (continued)

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the consolidated statement of comprehensive income (Note 2.8).

Intra-group transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

(b) Disposal of subsidiaries

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

2.2.2 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

Impairment testing is also carried out according to Note 2.10.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.3 Transaction with non-controlling interests

The Group applies a policy of treating transactions with non-controlling interests as transactions with equity owners of the Group. For capital contribution by non-controlling interests to a subsidiary which does not result in the change of control, the difference between the capital contributed and the relevant share of the carrying value of net assets of the subsidiary is recorded in capital accumulation reserve.

2.4 Associates

An associate is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of post-acquisition profit or loss is recognised in the consolidated statement of comprehensive income, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group determines at each balance sheet date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to "share of profit of investments accounted for using equity method" in the consolidated statement of comprehensive income.

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognised in the Group's financial statements only to the extent of unrelated investor's interests in the associates. Unrealised losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Gain or losses on dilution of equity interest in associates are recognised in the consolidated statement of comprehensive income.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors that make strategic decisions.

2.6 Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Renminbi ("RMB"), which is the Company's functional and the Group's presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of comprehensive income.

Foreign exchange gains and losses that relate to cash and cash equivalents are presented in the consolidated statement of comprehensive income within "Finance costs".

(iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

(a) assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;

(b) income and expenses for each statement of profit or loss are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and

(c) all resulting currency translation differences are recognised in other comprehensive income.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.7 Property, plant and equipment

Property, plant and equipment include plant and machinery, furniture, fixtures and computer equipment and motor vehicles and are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the consolidated statement of comprehensive income during the financial period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Plant and machinery	5 to 20 years
Furniture, fixtures and computer equipment	5 to 8 years
Motor vehicles	5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.10).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the consolidated statement of comprehensive income.

Construction-in-progress represents properties under construction and is stated at cost less impairment. This includes cost of construction, plant and equipment and other direct costs. Construction-in-progress is not depreciated until such time as the assets are completed and are ready for operational use.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.8 Goodwill

Goodwill arises on the acquisition of subsidiaries represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identified net assets acquired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs"), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGUs containing the goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

2.9 Intangible assets

Expenditure to acquire technical know-how is capitalised and amortised using the straight-line method over its estimated useful life, ranging from 5 years to 10 years. Where an indication of impairment exists, the carrying amount of the acquired technical know-how is assessed and written down immediately to its recoverable amount.

Separately acquired licences are shown at historical cost. Licences acquired in a business combination are recognised at fair value at the acquisition date. Licences have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of licences over their estimated useful lives.

2.10 Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each balance sheet date.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.11 Financial assets

2.11.1 Classification

The Group classifies its financial assets in the following category: loans and receivables and available for sale. The classification depends on the purposes for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for the amounts that are settled or expected to be settled more than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's loans and receivables comprise "Trade receivables", "Other receivables", "Amounts due from related parties", "Restricted Cash" and "Cash and cash equivalents" in the balance sheet (Notes 2.14 and 2.15).

(ii) Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the end of the reporting period.

2.11.2 Recognition and measurement

Regular way purchases and sales of financial assets are recognised on the trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Available-for-sale financial assets are subsequently carried at fair value. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Changes in the fair value of monetary and non-monetary securities and financial investment products classified as available for sale are recognised in other comprehensive income.

When securities and financial investment products classified as available-for-sale are sold or impaired, the accumulated fair value adjustments recognised in equity are included in the consolidated statement of comprehensive income as "gains and losses from available-for-sale investments".

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.11 Financial assets (continued)

2.11.2 Recognition and measurement (continued)

Interest on available-for-sale securities and financial investment products calculated using the effective interest method is recognised in the consolidated statement of comprehensive income as part of other income. Dividends on available-for-sale equity instruments are recognised in the consolidated statement of comprehensive income as part of other income when the Group's right to receive payments is established.

2.12 Impairment of financial assets

Assets carried at amortised cost

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the consolidated statement of comprehensive income. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the consolidated statement of comprehensive income.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.12 Impairment of financial assets (continued)

Assets classified as available-for-sale

If there is objective evidence of impairment for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss – is removed from equity and recognised in profit or loss.

Impairment losses on equity instruments that were recognised in profit or loss are not reversed through profit or loss in a subsequent period.

If the fair value of a debt instrument classified as available-for-sale increases in a subsequent period and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through profit or loss.

2.13 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined by the weighted average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing cost. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

2.14 Trade and other receivables

Trade receivables are amounts due from customers for medical products, exclusive rights and technology transfer in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for impairment.

2.15 Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash and bank balances, and other short-term highly liquid investments with original maturities of three months or less.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.16 Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.17 Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.18 Deferred revenue

Deferred revenue includes:

(i) the proportion of contract revenues received from technology transfer that is related to future performance and the proportion of income relating to the unexpired period of the government grants and exclusive rights of products granted to customers, and

(ii) the proportion of payments that is related to the expenditures to be incurred on future research and development.

For recognition of deferred revenue, refer to Notes 2.19 and 2.25.

2.19 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to past expenses are recognised directly in the consolidated statement of comprehensive income.

Government grants relating to future costs are deferred and recognised in the consolidated statement of comprehensive income over the period necessary to match them with the costs they are intended to compensate.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.19 Government grants (continued)

Government grants relating to assets are included in non-current liabilities as "Deferred revenue" and are credited to the consolidated statement of comprehensive income on a straight-line basis over the expected useful lives of the related assets.

The recognition period of government grants are reviewed, and adjusted if appropriate, at the end of each reporting period.

2.20 Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the consolidated statement of comprehensive income over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

2.21 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the consolidated statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.21 Current and deferred income tax (continued)

(b) Deferred income tax

Inside basis differences

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Also, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Outside basis differences

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries and associates, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Generally the Group is unable to control the reversal of the temporary difference for associates. Only when there is an agreement in place that gives the Group the ability to control the reversal of the temporary difference in the foreseeable future, deferred tax liability in relation to taxable temporary differences arising from the associate's undistributed profits is not recognised.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries and associates only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

(c) Offsetting

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.22 Employee benefit expenses

The Group entities in Mainland China participate in defined contribution retirement benefit plans organised by relevant government authorities for its employees in Mainland China and contribute to these plans based on certain percentage of the salaries of the employees on a monthly basis, up to a maximum fixed monetary amount, as stipulated by the relevant government authorities. The government authorities undertake to assume the retirement benefit obligations payable to all existing and future retired employees under these plans.

The Group has no further obligation for post-retirement benefits beyond the contributions made.

The contributions are recognised as employee benefit expense when they are due.

2.23 Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.24 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.25 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods supplied, stated net of discounts returns and value added taxes. The Group recognises revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the Group's activities, as described below. The Group bases its estimates of return on historical results, taking into consideration the type of customers, the type of transactions and the specifics of each arrangement.

(i) Sales of medical products are recognised on the transfer of risks and rewards of ownership, which generally coincides with the time when the goods are delivered to customers and the title has passed. Sales are shown net of sales taxes and discounts, and after eliminating sales within the Group.

(ii) Contract revenues from technology transfer are recognised over the fixed term of the contract or, where appropriate, as the related costs are incurred. Milestone payments in connection with research and development or commercialisation agreements are recognised when they are earned in accordance with the applicable performance requirements and contractual terms. Payments received that are related to future performance are deferred and recorded as revenues as they are earned over the specified future performance periods.

Subject to the terms as stated in the technology transfer agreements and the buyers' success in commercialisation of the technology being transferred, the Group may receive additional royalty income or profit sharing income in the future. The royalty income or sharing of profit are recognised when the right to receive the income is established.

(iii) Service income is recognised when the services have been rendered and it is probable that the economic benefits will flow to the Group and the relevant fees can be measured reliably.

(iv) Payments received under innovative pharmaceuticals research and development agreement are recognised as other income when the services are rendered, by reference to stage of completion of the specific performance requirements according to the contractual terms. Milestone payments in connection with research and development or commercialisation agreements are recognised when they are earned in accordance with the applicable performance requirements and contractual terms. Payments received that are related to future performance are deferred and recorded as revenues as they are earned over the specified future performance periods.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.25 Revenue recognition (continued)

(v) Royalty income received from exclusive rights of products granted to customers are recognised over the period of the rights granted.

(vi) Other revenues earned by the Group are recognised on the following bases:

Interest income – on a time-proportion basis using the effective interest method.

Dividend income – when the shareholder's right to receive payment is established.

2.26 Research and development

Research expenditure is recognised as an expense as incurred.

Costs incurred on development projects relating to the design and testing of the products for sales by the Group are recognised as deferred development costs when it is probable that the product will be a success considering its commercial and technological feasibility, and only if the cost can be measured reliably. Development costs that have been capitalised are amortised from the commencement of the commercial production of the product on a straight-line basis over the period of its expected benefit. The amortisation periods adopted do not exceed five years or the remaining life of the patent for the new drug.

Costs incurred on development projects with an intention of outright sales as technology transfer are recognised as deferred development costs when it is probable that the project will be a success considering its commercial and technological feasibility, and only if the cost can be measured reliably. Upon entering into sales contracts, development costs that have been capitalised are transferred to contracted work-in-progress and recognised as costs of sales in accordance with the performance requirements and contractual terms as stated in the contracts.

Where an indication of impairment exists, the carrying amount of the deferred development costs is assessed and written down immediately to its recoverable amount.

Other development expenditures are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.27 Leases

Leasehold land payments are up-front payments made to acquire long-term interests in the usage of land in the PRC. These payments are stated at cost and are amortised on a straight-line basis over the period of the lease.

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the consolidated statement of comprehensive income on a straight-line basis over the period of the lease.

2.28 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Company's and the Group's financial statements in the period in which the dividends are approved by the Company's shareholders.

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

(a) Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) Estimated impairment of goodwill

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in Note 2.8. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of estimates (Note 16).

(ii) Useful lives of property, plant and equipment

The Group's management determines the estimated useful lives for its property, plant and equipment. This estimate is based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. It could change significantly as a result of technical innovations and competitor actions in response to severe industry cycles. If the useful lives for property, plant and equipment had been 10% longer/shorter with all other variables held constant, profit before income tax would have been RMB 4,016,000 higher/lower.

Management will increase the depreciation charge where useful lives are less than previously estimated lives, or will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold.

(iii) Impairment of receivables

The Group's management determines the provision for impairment of trade and other receivables. This estimate is based on the credit history of its customers and the current market condition. Management reassess the provision on each of the end of the reporting period. If the provision for impairment of trade and other receivables rate had been 10% higher/lower with all other variables held constant, profit before income tax would have been RMB 41,000 lower/higher.

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

(b) Critical judgements in applying the Group's accounting policies

(i) Impairment of investments in subsidiaries and an associate

The Group follows the guidance of IAS 36 to determine when investments in subsidiaries and an associate are impaired. This determination requires significant judgement. In making this judgement, the Group evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost; and the financial health of and near-term business outlook for the investee, including factors such as industry and sector performance, changes in technology and operational and financing cash flow.

(ii) Deferred income tax assets

Recognition of deferred income tax assets depends on the management's expectation of future taxable profit that will be available against which the deferred income tax assets can be utilised. The outcome of their actual utilisation may be different.

(iii) Development costs

The Group's management determines the capitalisation of development costs based on their commercial and technological feasibility. It could change significantly as a result of technological innovations and the change of estimated profit projections.

Management will write off or write down deferred development costs when there are adverse changes in technological innovations or profit projections. Management assessed that there are no adverse changes that will cause deferred development costs as at 31 December 2017 to be written off or written down.

(iv) Government grants

When government grants are recognised, management determines whether they relate to past expenses, future costs or assets based on the nature of the grants and their purpose intended to compensate, and applies relevant accounting policies accordingly.

Government grants relating to costs are deferred, and management determines a proper calculation method and a relevant time period to recognise each of the grants in the consolidated statement of comprehensive income according to the intention of the grants and nature, duration and progression of the related projects so as to match the grants with costs they are intended to compensate. The calculation method and time period are reviewed and adjusted if appropriate, at the end of each reporting period.

4 REVENUE

The Group is principally engaged in the research, development and selling of self-developed bio-pharmaceutical know-how, manufacturing and selling of medical products and providing other medical services in the PRC. Revenue recognised during the year are as follows:

	2017 RMB'000	2016 RMB'000
Sales of medical products	**490,125**	620,033
Services income	**6,181**	1,136
Technology transfer revenue (note (a))	**–**	600
Others	**1,388**	101
	497,694	621,870

(a) On 15 July 2014, the Company entered into a technology transfer contract with a pharmaceutical company to transfer Amphotericin B Liposome for a total consideration of RMB 6,000,000, of which no amount was received in 2017 (2016: Nil). No revenue was recognised in 2017 (2016: RMB 600,000) as the Company did not complete any respective milestones of the transfer as specified in the contract in the year.

On 15 July 2014, the Company entered into a technology transfer contract with a pharmaceutical company to transfer Vincristine Sulphate Liposome ("LVCR") for a total consideration of RMB 16,800,000, of which no amount was received in 2017 (2016: Nil). LVCR is one of the four existing drug research projects the Group cooperated with Shanghai Pharmaceuticals Holding Co., Ltd. ("SPHCL"), a shareholder of the Company (Note 5 (a)). According to the cooperation agreement, the Group and SPHCL will share equally the future benefits generated from this project. No revenue was recognised in 2017 (2016: Nil) as the Company did not complete any respective milestone of the transfer as specified in the contract in the year.

5 OTHER INCOME

	2017 RMB'000	2016 RMB'000
Cooperation agreement with SPHCL (note (a))	**12,898**	17,122
Government grants	**24,886**	33,020
Gains on investments in financial products (note (b))	**12,205**	6,583
Interest income	**2,076**	3,773
Gains on disposal of property, plant and equipment	**782**	243
Others	**965**	1,031
	53,812	61,772

(a) On 23 February 2011, the Company and SPHCL signed an innovative drug research and development strategic cooperation agreement (the "Agreement") in relation to four of the existing drug research projects undertaken by the Group. The Agreement was renewed on 19 March 2013. According to the Agreement, SPHCL will pay 80% of the ongoing research and development ("R&D") expenses of these projects from 1 January 2011 (inclusive), and the Group and SPHCL will share equally the future benefits generated from the commercialization of these projects. In addition, SPHCL also agreed to pay 80% of the R&D expenses on these research projects prior to 1 January 2011 (the "Pre-2011 Costs") but the payments of the Pre-2011 Costs are subject to the completion of certain milestones between 2011 and 2017 as set out in the Agreement.

In 2017, the Company received total payments of RMB 13,609,000 (2016: RMB 19,256,000) from SPHCL under the Agreement, and RMB 12,898,000 (2016: RMB 17,122,000) was recognised as related service income.

(b) The gains represented the gains on investments in financial products upon maturity. The effective rate of return on investments in financial products is 2.80%-4.80% per annum as at 31 December 2017 (31 December 2016: 2.88%-4.80%).

6 EXPENSES BY NATURE

	2017 RMB'000	2016 RMB'000
Amortisation of leasehold land payments (Note 14)	**790**	792
Amortisation of intangible assets (Note 17)	**1,661**	1,186
Amortisation of deferred costs (included in 'Cost of sales') (Note 18)	**3,648**	739
Auditors' remuneration		
– Audit services	**2,225**	2,222
– Non-audit services	**108**	357
Accrual/(reversal) of provision for impairment of trade receivables (Note 25)	**284**	(1,164)
Provision for impairment of inventories (Note 23)	**66**	23
Provision for impairment of other receivables, deposits and prepayments	**–**	24
Provision for impairment of goodwill (Note 16)	**4,000**	–
Provision for impairment of deferred costs (Note 18)	**653**	–
Changes in inventories of finished goods and work in progress (Note 23)	**(6,443)**	(9,054)
Raw materials and consumables used	**29,206**	32,136
Depreciation of property, plant and equipment (Note 15)	**42,371**	37,441
Less: Amounts capitalised in deferred costs	**(2,215)**	(9,305)
	40,156	28,136
Losses on disposal of property, plant and equipment	**2,224**	260
Operating lease rentals in respect of land and buildings	**7,812**	1,848
Outsourced research and development costs	**29,803**	15,635
Employee benefit expenses (Note 8)	**115,734**	98,992
Less: Amounts capitalised in property, plant and equipment	**(642)**	(559)
Less: Amounts capitalised in deferred costs	**(1,025)**	(4,307)
	114,067	94,126
Marketing and sales promotion expenses	**191,484**	292,092
Post-marketing study expenses	**14,560**	24,074
Quality inspection expenses	**10,117**	8,013
Conference expenses	**558**	2,740
Others	**28,526**	34,340
Total cost of sales, research and development costs, distribution and marketing costs, administrative expenses and other expenses	**475,505**	528,525

7 FINANCE COSTS

	2017 RMB'000	2016 RMB'000
Interest expenses on bank borrowings	**6,079**	4,062
Net foreign exchange (gains)/losses on financing activities	**(574)**	217
	5,505	4,279

8 EMPLOYEE BENEFIT EXPENSES

	2017 RMB'000	2016 RMB'000
Wages and salaries	**90,326**	75,950
Housing subsidies	**6,140**	5,447
Social security costs	**6,382**	6,137
Retirement benefit costs (Note 9)	**12,886**	11,458
Employee benefit expenses including directors', supervisors' and senior managements' emoluments	**115,734**	98,992

(a) Five highest paid individuals

The five individuals whose emoluments were the highest in the Group for the year ended 31 December 2017 include three (2016: three) directors whose emoluments are reflected in the analysis shown in Note 44. The emoluments payable to the remaining two individuals for the year ended 31 December 2017 and 2016 are as follows:

	2017 RMB'000	2016 RMB'000
Basic salaries and allowances	**1,498**	1,498
Bonus	**1,260**	1,100
Retirement benefit costs	**98**	96
Social security costs	**88**	86
	2,944	2,780

8 EMPLOYEE BENEFIT EXPENSES (continued)

(a) Five highest paid individuals (continued)

The emoluments fell within the following bands:

	2017	2016
Emolument bands (in HK dollar)		
HKD 1,500,000 – HKD 2,000,000	**2**	2

9 RETIREMENT BENEFIT COSTS

The employees of the Group participate in a retirement benefit plan organised by the relevant government authorities whereby the Group is required to make monthly contributions to the plan at a rate of 19%-20% of the employees' total wages and salaries for the year, up to a maximum fixed monetary amount, as stipulated by the relevant government authorities. The Group has no obligation for the payment of retirement and other post-retirement benefits of employees other than the monthly contributions described above. Expenses incurred by the Group in connection with the retirement benefit plan were RMB 12,886,000 and RMB 11,458,000 for the years ended 31 December 2017 and 31 December 2016, respectively.

10 INCOME TAX EXPENSE

	2017 RMB'000	2016 RMB'000
Current income tax	**10,396**	20,577
Deferred income tax (Note 21)	**(59)**	253
	10,337	20,830

Effective from 1 January 2008 and except for Fernovelty Holding, the Company and its subsidiaries are required to determine and pay the corporate income tax in accordance with the Corporate Income Tax Law of the People's Republic of China (the "CIT Law") as approved by the National People's Congress on 16 March 2007. The Company and Tracing Bio-technology were recognised as high-tech enterprises, and the applicable tax rate of the Company and Tracing Bio-technology is 15% in 2017 (2016: 15%). The applicable tax rates of the other Mainland China subsidiaries are 25% in 2017 (2016: 25%).

Fernovelty Holding was incorporated in Hong Kong in October 2016 as a subsidiary of the Group and is subject to Hong Kong profits tax at the rate of 16.5% (2016: 16.5%). Since it did not have estimated assessable profit for the years ended 31 December 2017 and 2016, Hong Kong profits tax has not been provided.

10 INCOME TAX EXPENSE (continued)

The income tax on the Group's profit before income tax differs from the theoretical amount that would arise using the enacted tax rate in the PRC applicable to the Group as follows:

	2017 RMB'000	2016 RMB'000
Profit before income tax	**70,496**	150,838
Tax calculated at the applicable tax rate of 25%	**17,624**	37,710
Effect of tax rate reduction	**(9,282)**	(16,788)
Effect of change in tax rate	**–**	202
Tax losses not recognised as deferred tax assets	**12,851**	4,865
Utilisation of previously unrecognised tax losses	**(4,705)**	–
Deductible temporary differences not recognised as deferred tax assets	**4,125**	405
Additional deduction of research and development expenditures	**(8,025)**	(5,835)
Reversal of previously tax losses recognised as deferred tax assets	**246**	–
Expenses not deductible for income tax purposes	**767**	310
Differences of prior year income tax annual filing	**(752)**	1,008
Effect of eliminated unrealised profits on intra-group transactions	**(2,512)**	(1,047)
Tax charge	**10,337**	20,830

11 PROFIT ATTRIBUTABLE TO SHAREHOLDERS OF THE COMPANY

The profit attributable to shareholders of the Company is dealt with in the financial statements of the Company to the extent of RMB 92,274,000 (2016: RMB 145,476,000).

12 DIVIDEND

No interim dividend was declared by the Company in 2017 (2016: Nil).

On 23 March 2018, the Board of Directors recommends the payment of a final dividend of RMB 0.03 (2016: RMB 0.05) per ordinary share, totalling RMB 27,690,000 (2016: RMB 46,150,000) for the year ended 31 December 2017. The proposed final dividend in respect of the year ended 31 December 2017 is calculated based on the total number of shares in issue. The payment of the proposed final dividend is to be approved by the shareholders at the Company's forthcoming Annual General Meeting. The financial statements do not reflect this as dividend payable.

12 DIVIDEND (continued)

	2017 RMB'000	2016 RMB'000
Proposed final dividend of RMB 0.03 (2016: RMB 0.05) per ordinary share	**27,690**	46,150

13 EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the profit attributable to shareholders of the Company by the weighted average number of ordinary shares in issue during the year.

	2017	2016
Profit attributable to shareholders of the Company (RMB'000)	**75,287**	138,708
Weighted average number of ordinary shares in issue ('000)	**923,000**	923,000
Basic earnings per share (RMB)	**0.0816**	0.1503

There is no difference between the basic and diluted earnings per share for the years ended 31 December 2017 and 2016 as there were no dilutive potential ordinary shares during the years then ended.

14 LEASEHOLD LAND PAYMENTS

Leasehold land payments represent the land use rights granted by the PRC government authority on the use of land within the pre-approved lease period.

	2017 RMB'000	2016 RMB'000
Net book value at beginning of the year	**30,968**	31,760
Amortisation	**(790)**	(792)
Net book value at end of the year	**30,178**	30,968

The original lease terms of the land use rights of the Group held in the PRC are from 47 to 50 years, and the remaining lease periods are from 34 to 38 years.

15 PROPERTY, PLANT AND EQUIPMENT

	Plant and machinery RMB'000	Furniture, fixtures and computer equipment RMB'000	Motor vehicles RMB'000	Construction in progress RMB'000	Total RMB'000
Cost					
At 1 January 2016	393,320	7,284	3,397	56	404,057
Additions	41,502	800	–	2,974	45,276
Transfer upon completion	56	–	–	(56)	–
Disposals	(1,303)	(476)	(3)	–	(1,782)
At 31 December 2016	433,575	7,608	3,394	2,974	447,551
Acquisition of subsidiaries	893	51	–	–	944
Additions	42,450	2,388	5	9,584	54,427
Transfer upon completion	5,434	–	–	(5,434)	–
Disposals	(19,519)	(448)	–	–	(19,967)
At 31 December 2017	**462,833**	**9,599**	**3,399**	**7,124**	**482,955**
Accumulated depreciation					
At 1 January 2016	101,608	4,057	1,391	–	107,056
Charge for the year	35,912	1,322	207	–	37,441
Disposals	(840)	(336)	(3)	–	(1,179)
At 31 December 2016	136,680	5,043	1,595	–	143,318
Charge for the year	41,001	1,160	210	–	42,371
Disposals	(17,019)	(353)	–	–	(17,372)
At 31 December 2017	**160,662**	**5,850**	**1,805**	**–**	**168,317**
Net book value					
At 31 December 2017	**302,171**	**3,749**	**1,594**	**7,124**	**314,638**
At 31 December 2016	296,895	2,565	1,799	2,974	304,233

15 PROPERTY, PLANT AND EQUIPMENT (continued)

Depreciation of property, plant and equipment has been charged to the consolidated statement of comprehensive income and capitalised in the consolidated balance sheet as follows:

	2017 RMB'000	2016 RMB'000
Cost of sales	**16,157**	10,139
Research and development expenses	**11,364**	7,772
Distribution and marketing expenses	**7,402**	6,594
Administrative expenses	**5,233**	3,631
	40,156	28,136
Deferred costs	**2,215**	9,305
	42,371	37,441

16 GOODWILL

	2017 RMB'000
Cost	
At 31 December 2017 and 2016	**8,937**
Accumulated impairment	
At 31 December 2016	**–**
Impairment charge	**(4,000)**
At 31 December 2017	**(4,000)**
Net book value	
At 31 December 2016	**8,937**
At 31 December 2017	**4,937**

16 GOODWILL (continued)

The goodwill is monitored by the management at CGUs level as follows:

	2017 RMB'000	2016 RMB'000
Food diagnostic reagents	4,937	8,937

On 9 January 2015, the Company acquired 90% equity of Shanghai Youni Bio-tech Co., Ltd. ("Youni"), which were subsequently merged with and absorbed into Tracing Bio-technology on 30 September 2015. The goodwill of RMB 8,937,000 arose from a number of factors including expected synergies through combining a highly skilled workforce and obtaining greater production efficiencies through knowledge transfer; obtaining economies of scale by cost reductions from purchasing efficiencies, price reductions and greater volume rebates from suppliers; and unrecognised assets such as the workforce.

For the purposes of impairment test, goodwill has been allocated to the smallest individual of CGUs identified. The recoverable amount of a CGUs is determined based on value-in-use calculations. The calculation uses cash flow projections based on financial budget made by the Directors, with reference to the prevailing market conditions, covering certain future period ("Period"). Cash flows beyond the Period are extrapolated using the estimated growth rates stated below. The growth rate does not exceed the long-term average growth rate for the business in which the CGU operates.

The key assumptions used for value-in-use calculations in 2017 are as follows:

	Food diagnostic reagents
Sales growth rate	14%
Gross profit margin of different reagents	33%-97%
Pre-tax discount rate	16%
Growth rate to extrapolate cash flows beyond the budget period	2.5%

Based on management's assessment, RMB 4,000,000 is provided for impairment of goodwill as at 31 December 2017.

17 INTANGIBLE ASSETS

	Acquired technical know-how RMB'000	Acquired licence RMB'000	Total RMB'000
Cost			
At 1 January 2016	11,176	3,391	14,567
Additions	549	–	549
At 31 December 2016	11,725	3,391	15,116
Additions	5,852	–	5,852
At 31 December 2017	**17,577**	**3,391**	**20,968**
Accumulated amortisation			
At 1 January 2016	4,194	–	4,194
Charge for the year	1,060	126	1,186
At 31 December 2016	5,254	126	5,380
Charge for the year	1,535	126	1,661
At 31 December 2017	**6,789**	**252**	**7,041**
Net book value			
At 31 December 2017	**10,788**	**3,139**	**13,927**
At 31 December 2016	6,471	3,265	9,736

As at 31 December 2017 and 2016, the management did not identify any impairment indication of intangible assets.

18 DEFERRED COSTS

	Deferred development costs RMB'000	Deferred costs of exclusive rights RMB'000	Total RMB'000
Cost			
At 1 January 2016	44,050	1,315	45,365
Capitalisation of costs	16,849	–	16,849

19 SUBSIDIARIES (continued)

The English names of the subsidiaries are translation made by management of the Company as they do not have official English names.

The Group does not have any subsidiary with material non-controlling interests.

20 INVESTMENT IN AN ASSOCIATE

	2017 RMB'000	2016 RMB'000
Unlisted equity investments, original cost		
At beginning and end of the year	**7,200**	7,200
Accumulated share of results		
At beginning and end of the year	**(6,867)**	(6,867)
Impairment charge		
At beginning and end of the year	**(333)**	(333)
Net book value		
At end of the year	**–**	–

During the year, the Company held the following investment in an associate:

Name	Country and date of establishment	Registered capital	Attributable equity interest %	Principal activities and place of operation
Shanghai Lead Discovery Limited Company ("Lead Discovery")	PRC 27 November 2002	RMB 20,400,000	35	High throughput screening of new drugs, R&D of "me-too" and natural drug technologies in the PRC

This associate is unlisted and immaterial to the Group.

21 DEFERRED INCOME TAX ASSETS

	2017 RMB'000	2016 RMB'000
Deferred tax assets:		
– Deferred tax assets to be recovered after more than one year	**759**	18
– Deferred tax assets to be recovered within one year	**4,233**	4,915
	4,992	4,933

There is no deferred tax liabilities recognised as at 31 December 2017 (2016: Nil).

The movement in deferred income tax account is as follows:

	2017 RMB'000	2016 RMB'000
At beginning of the year	**4,933**	5,186
Credited/(charged) to income tax expense (Note 10)	**59**	(253)
At end of the year	**4,992**	4,933

A potential deferred income tax asset, which represents mainly certain temporary difference arising from unrealised profits on intra-group transactions, deductible temporary differences and tax losses carried forward, has not been recognised in the consolidated financial statements as, in the opinion of the Directors, it is uncertain that such asset will be realised in the foreseeable future. The unrealised profits, deductible temporary differences and tax losses not recognised by the Group amounted to RMB 191,159,000 and RMB 153,326,000 as at 31 December 2017 and 31 December 2016 respectively. The tax losses that are not recognised as deferred tax assets will expire in 5 years from the respective balance sheet date and are analysed as follows:

	2017 RMB'000	2016 RMB'000
Expire year		
2017	**–**	7,138
2018	**–**	15,262
2019	**1,255**	–
2020	**8,137**	10,158
2021	**27,348**	24,021
2022	**52,183**	–
	88,923	56,579

21 DEFERRED INCOME TAX ASSETS (continued)

The movement in deferred income tax assets during the year is as follows:

Deferred income tax assets (on gross basis)

	Accruals RMB'000	Provisions RMB'000	Tax losses RMB'000	Total RMB'000
At 1 January 2016	4,746	217	223	5,186
Charged to income tax expense	(77)	(199)	23	(253)
At 31 December 2016	4,669	18	246	4,933
(Charged)/credited to income tax expense	(436)	741	(246)	59
At 31 December 2017	**4,233**	**759**	**–**	**4,992**

22 AVAILABLE-FOR-SALE FINANCIAL ASSETS

Available-for-sale financial assets include the following classes of financial assets:

	2017 RMB'000	2016 RMB'000
Non-current assets		
Unlisted securities		
– Equity securities (a)	**13,775**	–

(a) During the year, Fernovelty Holding, a subsidiary of the Company, entered into the subscription agreement with an overseas biopharmaceutical company, Adgero Biopharmaceuticals Holdings, Inc. ("Adgero") to purchase ordinary shares and warrants with a total consideration of USD 2,000,000 (equivalent to approximately RMB 13,775,000). Adgero mainly focuses on research and development of photodynamic therapy drugs. During the year, the registration and filing procedures with the relevant authorities regarding this transaction has been completed and the Group had fully paid the consideration amounting to RMB 13,775,000 which is accounted for as available-for-sale financial assets. The Group holds 400,000 ordinary shares of Adgero, which currently account for approximately 7.4% of the total issued share capital of Adgero.

23 INVENTORIES

	2017 RMB'000	2016 RMB'000
Raw materials	**19,554**	10,330
Production supplies and consumables	**993**	656
Work in progress	**9,166**	2,870
Finished goods	**9,954**	9,807
	39,667	23,663

The cost of inventories recognised as expense and included in "Cost of sales" amounted to RMB 44,223,000 (2016: RMB 33,560,000).

As at 31 December 2017, the impairment provision for inventories was RMB 22,000 (2016: RMB 22,000). During the year, a provision of RMB 66,000 was made to inventories (2016: RMB 23,000) and a provision of RMB 66,000 was written off against the related inventory balances (2016: RMB 1,000).

24 FINANCIAL INSTRUMENTS BY CATEGORY

	Loans and receivables	
	2017 RMB'000	2016 RMB'000
Assets as per balance sheet		
Trade receivables, other receivables and deposits excluding non-financial assets	**176,346**	133,257
Amounts due from related parties	**3,215**	3,584
Available-for-sale financial assets	**13,775**	–
Cash and cash equivalents	**468,144**	511,284
Restricted cash	**3,543**	3,543
	665,023	651,668

24 FINANCIAL INSTRUMENTS BY CATEGORY (continued)

	Financial liabilities at amortised cost	
	2017	2016
	RMB'000	RMB'000
Liabilities as per balance sheet		
Borrowings	**140,000**	120,000
Trade payables, other payables and accruals excluding non-financial liabilities	**55,085**	41,980
Amount due to a related party	**3,690**	3,690
	198,775	165,670

25 TRADE RECEIVABLES

	2017	2016
	RMB'000	RMB'000
Accounts receivable (note (a))	**116,143**	77,419
Less: Provision for impairment	**(405)**	(121)
Accounts receivable – net	**115,738**	77,298
Notes receivable (note (b))	**55,078**	43,314
	170,816	120,612

As at 31 December 2017 and 2016, the fair value of the trade receivables approximated their carrying amounts, which are all denominated in RMB.

25 TRADE RECEIVABLES (continued)

(a) Accounts receivable are arisen from sales of products, with no interest charged. The credit period granted to customers is generally between 1 to 4 months. The ageing analysis of accounts receivable based on invoice date, before provision for impairment as at 31 December 2017 and 2016, are as follows:

	2017 RMB'000	2016 RMB'000
Accounts receivable – gross		
– Within credit terms	**95,301**	71,587
– Past due within 30 days	**14,504**	4,853
– Past due over 30 days and within 60 days	**5,190**	763
– Past due over 60 days and within 90 days	**19**	23
– Past due over 90 days and within one year	**1,041**	116
– Past due over one year	**88**	77
	116,143	77,419

As at 31 December 2017, accounts receivable of RMB 20,842,000 (2016: RMB 5,832,000) were impaired and adequately provided for. The amount of provision was RMB 405,000 (2016: RMB 121,000). As at 31 December 2017 and 2016, the accounts receivable ageing past due over one year were fully provided for.

Movements on the provision for impairment of accounts receivable are as follows:

	2017 RMB'000	2016 RMB'000
At beginning of the year	**121**	1,382
Accrual/(reversal) of provision for impairment of receivables	**284**	(1,164)
Receivables written off during the year as uncollectable	**–**	(97)
At end of the year	**405**	121

Amounts charged to the provision account are generally written off against the receivable balances when there is no expectation of recovering additional cash.

The maximum exposure to credit risk at the balance sheet date is the fair value of each class of receivables mentioned above. Accounts receivable are unsecured and interest free.

25 TRADE RECEIVABLES (continued)

(b) Notes receivable are arisen from sales of products, with no interest charged. They are all bank acceptance notes with maturities less than six months.

26 OTHER RECEIVABLES, DEPOSITS AND PREPAYMENTS

	2017 RMB'000	2016 RMB'000
Value-added tax recoverable	**7,186**	9,504
Prepayments	**9,805**	23,215
Advances to employees	**1,139**	3,534
Deposits	**2,506**	1,322
Others	**1,885**	7,788
	22,521	45,363

27 AMOUNTS DUE FROM RELATED PARTIES

The balances represent trade balances due from SPHCL and Shanghai Pharmaceutical Co., Ltd. ("SPCL"), formerly known as Shanghai Pharmaceutical Distribution Co., Ltd. ("SPDCL"), a subsidiary of SPHCL. The balances are unsecured, interest free and repayable on demand.

28 CASH AND BANK BALANCES

(i) Cash and cash equivalents

	2017 RMB'000	2016 RMB'000
Cash at bank and on hand	**468,144**	511,284
Cash and bank balances denominated in		
– RMB	**464,862**	493,920
– USD	**3,267**	17,343
– HKD	**15**	21
	468,144	511,284

The effective interest rate on cash placed with banks is 0.30%-3.10% per annum as at 31 December 2017 (31 December 2016: 0.35%-3.85%).

28 CASH AND BANK BALANCES (continued)

(ii) Restricted cash

In March 2015, Taizhou Pharmaceutical was prosecuted by a third party due to the delayed final payments of a machine. The reason of delayed final payments was due to the quality problems. RMB 3,543,000 of Taizhou Pharmaceutical were held at bank as guarantee for this pending litigation. As at 31 December 2017 and 2016, this litigation is still in progress and the management does not accrue provision due to minimal likelihood of compensation. In January 2018, the case was sentenced, Taizhou Pharmaceutical won the lawsuit. The third party has appealed against the verdict. As a result, RMB 3,543,000 restricted cash were released and another RMB 770,000 were held.

29 BORROWINGS

	2017 RMB'000	2016 RMB'000
Current		
Short-term bank borrowings, unsecured (note (a))	**100,000**	90,000
Short-term bank borrowing secured (note (b))	**40,000**	30,000
	140,000	120,000

(a) As at 31 December 2017, an unsecured short-term bank borrowing of RMB 40,000,000 was taken by the Company, bore a floating interest rate at 3.915% per annum and was due for repayment on 9 March 2018.

As at 31 December 2017, an unsecured short-term bank borrowing of RMB 60,000,000 was taken by the Company, bore a floating interest rate at 4.35% per annum and was due for repayment on 1 August 2018.

As at 31 December 2016, an unsecured short-term bank borrowing of RMB 60,000,000 was taken by the Company, bore a floating interest rate at 3.915% per annum and was repaid on 10 August 2017.

As at 31 December 2016, an unsecured short-term bank borrowing of RMB 30,000,000 was taken by the company, bore a floating interest rate at 3.915% per annum and was repaid on 19 December 2017.

29 BORROWINGS (continued)

(b) As at 31 December 2017, a secured short-term bank borrowing of RMB 40,000,000 was taken by the Company and bore a fixed interest rate at 4.35% per annum. The borrowing was mortgaged by the Company's 7 intellectual properties and was due for repayment on 20 November 2018. These intellectual properties do not have any carrying value in the Group's financial statements.

As at 31 December 2016, a secured short-term bank borrowing of RMB 30,000,000 was taken by the Company and bore a fixed interest rate at 4.14% per annum. The borrowing was mortgaged by the Company's 7 intellectual properties and was repaid on 24 October 2017. These intellectual properties do not have any carrying value in the Group's financial statements.

The fair value of current borrowing equals its carrying amount, as the impact of discounting is not significant.

The exposure of the Group's borrowings to interest-rate changes and the contractual repricing date or maturity date which is earlier are as follows:

	2017	2016
	RMB'000	RMB'000
Within three months	**100,000**	90,000

30 DEFERRED REVENUE

	2017 RMB'000	2016 RMB'000
Government grants	**18,713**	28,316
Technology transfer (Note 4(a))	**2,245**	2,245
	20,958	30,561

	13,323	16,097

	Government grants RMB'000	Technology transfer RMB'000	Total RMB'000
At 1 January 2016	34,277	2,845	37,122
Additions	5,431	–	5,431
Transfer to income	(11,392)	(600)	(11,992)
At 31 December 2016	28,316	2,245	30,561
Additions	15,283	–	15,283
Transfer to income	(24,886)	–	(24,886)
At 31 December 2017	**18,713**	**2,245**	**20,958**

31 TRADE PAYABLES

	2017 RMB'000	2016 RMB'000
Accounts payable (note (a))	**5,521**	4,398

As at 31 December 2017 and 2016, all trade payables of the Group were non-interest bearing, and their fair value approximated their carrying amounts due to their short maturities.

All the Group's trade payables are denominated in RMB.

31 TRADE PAYABLES (continued)

(a) As at 31 December 2017 and 2016, the ageing analysis of accounts payable based on invoice date are as follows:

	2017 RMB'000	2016 RMB'000
– Within 30 days	**4,310**	2,681
– 31 days to 60 days	**809**	839
– 61 days to 90 days	**243**	304
– Over 90 days but less than one year	**30**	225
– Over one year	**129**	349
	5,521	4,398

32 OTHER PAYABLES AND ACCRUALS

	2017 RMB'000	2016 RMB'000
Salary and staff welfare payables	**19,833**	17,582
Payables for marketing and sales promotion expenses	**15,808**	5,500
Payables for purchase of property, plant and equipment	**14,127**	11,830
Payables for value-added tax and other taxes	**10,119**	22,208
Payables for post-marketing study expenses	**8,405**	9,120
Advances from customers	**1,851**	1,037
Others	**11,224**	11,131
Total other payables and accruals	**81,367**	78,408

33 AMOUNT DUE TO A RELATED PARTY

The balance represents trade balance due to SPHCL, and is unsecured, interest free and repayable on demand.

34 SHARE CAPITAL

Authorised, issued and fully paid:

At 31 December 2017	412,293	46,150	322,042	(395)	780,090

(a) Capital accumulation reserve includes share premium arising from the issue of shares at a price in excess of their par value, the effect for transactions with non-controlling interests on changes in equity attributable to the shareholders of the Company. Costs related to the issue of shares are accounted for as a deduction of the capital accumulation reserve.

(b) Pursuant to the PRC regulations and the Company's Articles of Association, the Company is required to transfer 10% of its net profit, as determined under the PRC accounting regulations, to statutory common reserve fund until the fund aggregates to 50% of the Company's registered capital. The transfer to this reserve must be made before distribution of dividends to shareholders. The statutory common reserve fund shall only be used to make good previous years' losses, to expand the Company's production operations, or to increase the capital of the Company. Upon approval by a resolution of shareholders' general meeting, the Company may convert its statutory common reserve fund into share capital and issue bonus shares to existing shareholders in proportion to their original shareholdings or to increase the nominal value of each share currently held by them, provided that the balance of the reserve fund after such issue is not less than 25% of the registered capital. No further appropriation was made in 2017 as the balance of the reserve fund had reached 50% of the Company's registered capital.

(c) In accordance with the Company's Articles of Association, the Company declares dividends based on the lower of retained earnings as reported in accordance with the PRC accounting regulations and that reported in accordance with IFRS. According to the statutory financial statements prepared in accordance with the PRC accounting regulations and the financial statements prepared in accordance with IFRSs, the amount of distributable reserve was RMB 452,124,000 as at 31 December 2017 (2016: RMB 406,000,000) (Note 43).

36 NOTE TO THE CONSOLIDATED STATEMENT OF CASH FLOWS

(i) Reconciliation of profit before income tax to cash generated from operations

	2017 RMB'000	2016 RMB'000
Profit before income tax	**70,496**	150,838
Adjustments for:		
Amortisation of leasehold land payments (Note 14)	**790**	792

	2017 RMB'000	2016 RMB'000
Borrowings – repayable within one year	**140,000**	120,000

	Borrowings due within one year RMB'000
Total borrowings as at 31 December 2016	**120,000**
Net cash inflows	**20,000**
Foreign exchange adjustments	**–**
Other non-cash movements	**–**
Total borrowings as at 31 December 2017	**140,000**

37 BUSINESS COMBINATIONS

Business combinations occurred in 2017 were as follows:

Acquisition for 66% equity interest in Changsha Kuanhoutang Medical Management Co., Ltd. ("Kuanhoutang")

On 20 July 2017, Derma Clinic acquired 66% equity of Kuanhoutang, a company which provides general healthcare services, at a consideration of RMB 1. The acquisition is expected to help the Group further integrate the medical beauty clinics.

The following table summarises the consideration paid for Kuanhoutang and the recognised amounts of the assets acquired and liabilities assumed at the acquisition date.

37 BUSINESS COMBINATIONS (continued)

	20 July 2017 RMB'000
Purchase consideration	
– Cash paid	–
Recognised amounts of identifiable assets acquired and liabilities assumed	
Cash and cash equivalents	15
Property, plant and equipment	944
Inventories	46
Other receivables	583
Other payables and accruals	(1,566)
Total identifiable net assets	22
Gain arising from acquisition	22
Acquisition-related costs (included in administrative expenses in the consolidated statement of comprehensive income for the year ended 31 December 2017)	–
Outflow of cash to acquire business, net of cash acquired	
– cash consideration	–
– cash and cash equivalents in subsidiary acquired	15
Net cash inflow on acquisition	15

No business combination occurred in 2016.

38 RELATED PARTY TRANSACTIONS

The following is a summary of the significant transactions carried out between the Group and its related parties in the ordinary course of business during the years ended 31 December 2017 and 2016.

(i) Transactions

	2017 RMB'000	2016 RMB'000
With SPCL (formerly known as SPDCL):		
Sales of medical products	**13,037**	11,945
With SPHCL:		
Cash received under the Cooperation Agreement (Note 5(a))	**13,609**	21,256

Products are sold and services are provided based on the price lists in force and terms that would be available to third parties.

Basic salaries and allowances	**5,435**	5,422
Bonus	**3,870**	3,705
Retirement benefit and social security costs	**602**	585
	9,907	9,712

39 SEGMENT INFORMATION

The single operating segment is reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segment, has been identified as the executive directors that make strategic decisions.

In recent years, the Group has been focusing on the commercialization of its own drugs after research and development. The outcomes of the Group's research and development activities will be given preference to be used by the Group for its own commercialization. As a result of such strategic shift in business focus, the revenue generated from technology transfer is not significant. Accordingly, the management considers that the Group only operates a single business segment and hence no segment information is presented.

The Company and all its subsidiaries except Fernovelty Holding operate in Mainland China and the Group's revenue is principally derived in Mainland China.

Revenues of approximately RMB 116,430,000 (2016: RMB 284,929,000) are derived from a single external customer. These revenues are attributable to the sales of medical products.

40 COMMITMENTS

(i) Operating lease commitments

As at 31 December 2017 and 2016, the Group had future aggregate minimum lease payments due under non-cancellable operating leases in respect of properties as follows:

	2017	2016
	RMB'000	RMB'000
No later than 1 year	**7,824**	6,906
Later than 1 year and no later than 5 years	**25,800**	24,514
Later than 5 years	**14,729**	18,685
	48,353	50,105

40 COMMITMENTS (continued)

(ii) Capital expenditure commitments

Capital expenditure contracted for as at 31 December 2017 and 2016 but not yet incurred by the Group are as follows:

	2017 RMB'000	2016 RMB'000
Overseas investment (Note a)	–	13,874
Property, plant and equipment	4,154	9,757
	4,154	23,631

(a) On 23 December 2016, Fernovelty Holding entered into subscription agreement with an overseas biopharmaceutical company to purchase shares and warrants for a total consideration of USD 2,000,000 (RMB 13,874,000), which has been paid on 16 January 2017.

41 FINANCIAL RISK MANAGEMENT

(i) Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, cash flow and fair value interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Market risk

(1) Foreign exchange risk

The Group operates mainly in domestic market and is considered not to expose to any significant foreign exchange risks in the years ended 31 December 2017 and 31 December 2016.

41 FINANCIAL RISK MANAGEMENT (continued)

(i) Financial risk factors (continued)

(a) Market risk (continued)

(2) Cash flow and fair value interest rate risk

The Group's income and operating cash flows are substantially independent of changes in market interest rates. The Group has no significant interest-bearing assets and liabilities, except for cash placed with banks (Note 28) and bank borrowings (Note 29).

The Group's interest rate risk arises from bank borrowings. Bank borrowings obtained at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash placed with banks. Bank borrowings obtained at fixed rates expose the group to fair value interest rate risk. The interest rates and terms of repayment of the Group's borrowings are disclosed in Note 29.

Management does not anticipate significant impact to interest-bearing assets resulted from the changes in interest rates, because the interest rates of bank deposits are not expected to change significantly.

As at 31 December 2017, if interest rates on borrowings had been 10% higher/lower with all other variables held constant, profit before income tax for the year would have been RMB 493,000 (2016: 10%, RMB 352,000) lower/higher, mainly as a result of higher/lower interest expenses on floating rate borrowings.

(b) Credit risk

The carrying amount of cash at bank and on hand, restricted cash, trade receivables, amounts due from related parties and other receivables and deposits represent the Group's maximum exposure to credit risk in relation to financial assets.

The majority of deposits and cash were placed in the Big Four State-owned banks* and other listed banks without significant credit risk.

The Group performs ongoing credit evaluations of its customers' financial condition and generally does not require collateral on trade receivables.

*Big Four State-owned banks: Bank of China, Industrial and Commercial Bank of China, China Construction Bank and Agricultural Bank of China.

41 FINANCIAL RISK MANAGEMENT (continued)

(i) Financial risk factors (continued)

(c) Liquidity risk

Prudent liquidity risk management includes maintaining sufficient cash and cash equivalents, the ability to apply for credit facilities if necessary. The Group finances its working capital requirements through a combination of funds generated from operations, government grants and bank borrowings.

Management monitors rolling forecasts of the Group's liquidity reserve on the basis of expected cash flow.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years	Total
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
Group					
At 31 December 2017					
Bank borrowings	**143,359**	**–**	**–**	**–**	**143,359**
Trade and other payables	**58,775**	**–**	**–**	**–**	**58,775**
At 31 December 2016					
Bank borrowings	123,698	–	–	–	123,698
Trade and other payables	45,670	–	–	–	45,670

41 FINANCIAL RISK MANAGEMENT (continued)

(ii) Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including bank borrowings and loans from government authorities) less cash and cash equivalents and restricted cash. Total capital is calculated as "total equity", as shown in the consolidated balance sheet, plus net debt. As at 31 December 2017 and 2016, cash and cash equivalents is much more than total borrowings of the Group, therefore, the gearing ratio is not applicable.

(iii) Fair value estimation

The carrying amounts of the Group's cash and bank balances, restricted cash, trade receivables, amounts due from related parties, other receivables, deposits and prepayments, borrowings, trade payables, amount due to a related party and other payables and accruals approximate their fair values because of the short maturity of these instruments.

42 APPROVAL OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements were approved and authorised for issue by the Board of Directors of the Company on 23 March 2018.

43 BALANCE SHEET AND RESERVE MOVEMENTS OF THE COMPANY

Balance sheet of the Company
