CHAIRMAN'S STATEMENT

RESULT

I am pleased to report that the Group's consolidated profit for 2017 was HK\$517.5 million, an increase of HK\$135.0 million or 35.3% as compared to HK\$382.5 million for 2016. Earnings per share were HK\$1.75 (2016: HK\$1.3), a rise of 34.6% over last year. The consolidated profit for 2017 included fair value gains on investment properties (net of the relevant deferred tax in the United States) of HK\$417.9 million (2016: HK\$316.2 million) and a write back of deferred tax of HK\$55.7 million due to the change in tax rate in the US.

Excluding the effect of the fair value gains on investment properties (net of the relevant deferred tax in the United States) and the write back of the deferred tax, the Group's underlying profit for 2017 was approximately HK\$43.9 million. As discussed last year, the corresponding figure for 2016 included a write back of tax provisions upon the clearance of the Hong Kong profits tax position of a subsidiary. After excluding this one off item, the adjusted underlying profit for last year was approximately HK\$40.2 million. When comparing to this adjusted underlying profit for last year, the underlying profit for 2017 increased HK\$3.7 million or 9.2%, the increment was attributed to the increase in rental income from Gateway ts. Upon the completion of the renovation of Gateway ts, there will be further growth in rental income in coming year.

The revenues of the Group for 2017 was HK\$283.6 million, increased HK\$7.6 million or 2.8% as compared to HK\$276.0 million for 2016.

As at 31st December 2017, the investment properties of the Group were revalued at HK\$7,566.7 million (2016: HK\$6,918.1 million). Total equity amounted to HK\$7,375.9 million (2016: HK\$6,905.9 million).

DIVIDEND

The directors have resolved to recommend a final dividend of HK8 cents (2016: HK6 cents) per ordinary share.

PROSPECTS

The Group's major properties at Tsing Yi Hong Kong and the USA are under major renovation in 2017, the vacancy on average was higher and so affecting the gross rental income for 2017. As the renovations in these properties were almost completed by end of 2017, the vacancy of these properties will fall and there will be a significant growth in the Group's gross rental income in the coming year.

In the coming year, the interest rate may likely increase by half to one percent, and the interest expenses of the Group will therefore increase accordingly. Upgrading and renovation of the other properties of the Group will continue in the coming years in order to keep the properties up to current standard so as to improve the future rental income.

The hotel and office combo development at Wong Chuk Hang will complete in early 2019 and it is expected that there will be rental contribution in mid-2019 onward.

The recent launching of tax reform and various policies in the USA will likely affect the economy there and the economic outlook of the USA is optimistic. However, the US government has advocated tightening policies against China trade recently, which may cause China to impose counter actions.

PROSPECTS (Continued)

The economic outlook of Hong Kong is cautiously optimistic. Hong Kong and the Southeast Asia are likely to benefit from China's One Belt and One Road policy. Although it may take years and some difficulties may encounter in the initial stages, the effect of the policy will take times to mature and with a far-reaching impact.

The Group will, as in the past, maintain a prudent policy to minimize exposure to risks and endeavor to maintain a healthy business growth.

In closing, I wish to thank my fellow directors for their valuable guidance and to all staff members for their dedication and hard work.

William Ma Ching Wai

Chairman

Hong Kong, 23rd March 2018

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

In Hong Kong, the gross rental income for the year ended 31st December 2017 was HK\$195.2 million, an increase of HK\$6.2 million or 3.3% as compared to last year. The increase in gross rental income was attributable to the increase in rental income from Gateway ts as renovation of certain floor areas has been completed by the third quarter of 2017 and were then occupied. It is expected that following the substantial completion of the renovation at Gateway ts by end of 2017, the vacated floors will be leased out and the gross rental income will increase significantly in the coming year.

The hotel room charge income of Hotel LBP for the year ended 31st December 2017 was HK\$16.0 million, increased HK\$0.6 million or 3.9% over last year. The occupancy rate for 2017 was stable at about 96% on average. The profit generated from the hotel operation for the year ended 31st December 2017 was HK\$1.7 million, increased HK\$0.7 million or 70% over last year due to the decrease in operating cost. The occupancy of Hotel LBP will remain steady in the coming year.

The catering income for the year ended 31st December 2017 was HK\$2.6 million, increased HK\$0.8 million or 44.4% as compared to last year. The increment was attributable to the catering income generated from the new factory canteen which has been in full operation since May 2017. The catering operating loss for the year ended 31st December 2017 was HK\$4.6 million, an increase of HK\$2.9 million over last year due to the increase in operating cost of the new factory canteen. Following the closure of Gees in January 2018, the operating loss from catering will be alleviated in coming year.

In the USA, the gross rental income from Montgomery Plaza for the year ended 31st December 2017 was HK\$55.7 million, a decrease of HK\$0.2 million or 0.4% as compared to last year. The office spaces occupancy rate of Montgomery Plaza was 94% by the year end of 2017 due to the undergoing of major renovation work, the weighted average office rent per square feet per annum was US\$57.4. It is expected that the occupancy will increase upon the completion of the major renovation in 2018.

FINANCIAL RESOURCES

During the year, the Group's total bank borrowings increased by HK\$326.0 million to HK\$1,464.3 million (2016: HK\$1,138.3 million). The total equity increased by HK\$470.0 million to HK\$7,375.9 million (2016: HK\$6,905.9 million) and the long term bank loans outstanding as at 31st December 2017 was HK\$1,118.3 million (2016: HK\$962.3 million). The debt to equity ratio was 19.9% (2016: 16.5%).

There are sufficient committed banking facilities available for the Group's current funding needs and future business requirements. The Group's financial position remains healthy. There are no exposure to foreign exchange risk as the bank borrowings are in either Hong Kong or US dollars and the repayment of principal and interest will be made by the respective lending currency.

The Group has adopted and maintained the policy of reliance on short-term finances which is more economical because of lower interest rate. In light of the low debt ratio and long term harmonious relationship with our bankers, the Group considers that this policy will continue to be used to lower the operation cost and the current policy will not impose any liquidity risks.

CAPITAL STRUCTURE OF THE GROUP

The capital structure of the Group had not changed materially from the last annual report. The Group's borrowings are primarily denominated in Hong Kong and US dollars. The Group therefore has no significant exposure to foreign exchange fluctuation.

The maturity of the Group's long term bank loans is as follows:

| | <u>2017</u> | <u>2016</u> |
|-------------------------------|------------------|----------------|
| | HK\$'000 | HK\$'000 |
| - within one year | 384,133 | 19,842 |
| - in the second year | 334,572 | 496,278 |
| - in the third to fifth years | 399,638 | 446,143 |
| | <u>1,118,343</u> | <u>962,263</u> |

The Group's bank borrowings of HK\$1,329.3 million (2016: HK\$1,088.3 million) are secured by certain properties with an aggregate carrying amount of HK\$5,734.6 million (2016: HK\$5,107.2 million) and the rental income thereon.

DETAILS OF NUMBER AND REMUNERATION OF EMPLOYEES

Located at 2nd floor, 9th floor, 10th floor, 11th floor and 14th floor of Tai Sang Bank Building

Term: 15th April 2014 to 14th April 2017

Rental: HK\$320,000 per month exclusive of rate and service charges

TSB is an associate of Kam Chan & Co (with Kam Chan & Co indirectly interested in more than 30% of its total number of issued shares) and is therefore a connected person of the Company under Rule 14A of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (the “Listing Rules”). Accordingly, the Previous Tenancy Agreement constitutes a continuing connected transaction of the Company for the purpose of the Listing Rules. As set out in the announcement of the Company dated 7th April 2014, the annual cap for the aggregate amount payable under the tenancy agreement in respect of the office premises for the period from 1st January 2017 to 14th April 2017 is HK\$1,400,000. The amount paid by the Company to TSB under the Previous Tenancy Agreement for the period from 1st January 2017 to 14th April 2017 was HK\$937,049.

On 10th April 2017, a new tenancy agreement (“the New Tenancy Agreement”) was entered into between TSB as landlord and the Company as tenant for the renewal of the Previous Tenancy Agreement of the office premises:

Located at 2nd floor, 9th floor, 10th floor, 11th floor and 14th floor of Tai Sang Bank Building

Term: 15th April 2017 to 14th April 2019

Rental: HK\$330,000 per month exclusive of rate and service charges

As set out in the announcement of the Company dated 10th April 2017, the annual cap for the aggregate amount payable under the Previous Tenancy Agreement and the New Tenancy Agreement in respect of the office premises for the year ended 31st December 2017 is HK\$3,900,000. The aggregate amount paid by the Company to TSB under these tenancy agreements for the year ended 31st December 2017 was HK\$3,803,484.

The independent non-executive directors of the Company have reviewed the above continuing connected transactions and confirmed that these transactions have been entered into:

- (i) on normal commercial terms;
- (ii) in the ordinary and usual course of business of the Group; and
- (iii) in accordance with the relevant agreements governing them and on terms that are fair and reasonable in the interests of the shareholders of the Company as a whole.

The Company’s auditor was engaged to report on the above Group’s continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 “Assurance Engagements Other Than Audits or Reviews of Historical Financial Information” and with reference to Practice Note 740 “Auditor’s Letter on Continuing Connected Transactions under the Hong Kong Listing Rules” issued by the Hong Kong Institute of Certified Public Accountants. The auditor has issued a unmodified report containing the findings and conclusions in respect of the above continuing connected transactions disclosed by the Group in accordance with paragraph 14A of the Listing Rule. A copy of the auditor’s letter has been provided by the Company to the Stock Exchange.

BOARD OF DIRECTORS (Continued)

Role of the Board

The Board has reserved for its decision or consideration matters covering mainly the Group's overall strategy, annual operating budget, annual and interim results, recommendations on directors' appointment or re-appointment, material contracts and transactions as well as other significant policies and financial matters. The Board has delegated the day-to-day businesses of the Company to the management who works under the leadership and supervision of the Executive Committee of the Board.

The Executive Committee of the Board, comprises the Chairman and Chief Executive, Deputy Chairman, two Managing Directors and one executive director. The Executive Committee meets regularly to review and discuss the performance of the Group, current plans and long term opportunities, and any other issues of immediate concern.

The non-executive directors (a majority of whom are independent) provided the Company with a wide range of expertise and a balance of skills and brought independent judgment on issues of strategic direction, development, performance and risk management through their contribution at board meetings and committee meetings.

Corporate Governance Functions

The Board is responsible for performing the corporate governance duties including:

- (a) to develop and review the Company's policies and practices on corporate governance;
- (b) to review and monitor the training and continuous professional development of directors and senior management;
- (c) to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;
- (d) to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees and directors; and
- (e) to review the Company's compliance with Appendix 14 to the Listing Rules (Corporate Governance Code and Corporate Governance Report).

Board Meetings

Board meetings are held at least 4 times a year and involve the active participation, either in person or through other electronic means of communication, of a majority of directors. At least 14 days' notice of the board meetings is given to all directors, and all directors are given an opportunity to include matters for discussion in the agenda. An agenda and accompanying board papers are sent in full to all directors at least 4 days before the intended date of a full board meeting. They also have access to the advice and service of the Company Secretary, who assists the Chairman in preparing the agenda for meetings, is responsible for providing directors with board papers and related materials and ensures that board procedures, and all applicable laws, rules and regulations are followed.

According to the current Board practice, if a substantial shareholder or a director has a conflict of interest in a matter to be considered by the Board which the Board has determined to be material, the matter will be dealt with by the Board at a duly convened Board meeting.

The articles of association of the Company ("Articles of Association") also stipulate that save for the exceptions as provided therein, a director shall abstain from voting and not be counted in the quorum at meetings for approving any contract or arrangement in which such director or any of his/her associates have a material interest.

BOARD OF DIRECTORS (Continued)

Directors' Training

Each newly appointed director is provided with necessary induction and information to ensure that he/she has a proper understanding of the Company's operations and businesses as well as his/her responsibilities under relevant statutes, laws, rules and regulations. The Company Secretary also provides directors with updates on latest development and changes in the Listing Rules and other relevant legal and regulatory requirements from time to time.

All directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skills. CHAIRMAN AND CHIEF EXECUTIVE

The code provision A.2.1 of the CG Code stipulates that the positions of the chairman and chief executive should be held by separate individuals as to maintain an effective segregation of duties.

Mr. William Ma Ching Wai, the Chairman of the Board of Directors was appointed the Chief Executive of the Company on 15th June 2017, since then Mr. William Ma Ching Wai holds both positions as the Chairman and Chief Executive of the Company. This is a deviation from the code provision with respect to the roles of chairman and chief executive to be performed by different individuals.

The Board believes that vesting the roles of both Chairman and Chief Executive on the same individual will enable the Company to have a stable and consistent leadership and also facilitate the planning and execution of the Company's strategy.

NON-EXECUTIVE DIRECTORS

All non-executive directors have entered into letters of appointment with the Company for a specific term of three years. All non-executive directors are also subject to retirement from office by rotation and re-election at the annual general meeting once every three years in accordance with the Articles of Association.

Serving more than 9 years could be relevant to the determination of a non-executive director's independence. If an independent non-executive director serves more than 9 years, his further appointment will be subject to a separate resolution to be approved by shareholders.

BOARD COMMITTEES

The Board has established various committees, including Audit Committee, Remuneration Committee and Nomination Committee, each of which has its specific written terms of reference. Copies of minutes of all meetings and resolutions of the committees, which are kept by the Company Secretary, are circulated to all Board members. The committees are required to report back to the Board on their decision and recommendations where appropriate. All the Board committees are empowered by the Board under their own terms of reference which have been posted on website of the Company and the Stock Exchange.

Audit Committee

Members:

| | |

The Nomination Committee of the Company was established in March 2012. The terms of reference of the Nomination Committee setting out its authority, duties and responsibilities are available on the websites of the Company and the Stock Exchange.

The Nomination Committee is responsible to review the structure, size and composition of the Board and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy. It shall identify individuals suitably qualified to become board members and select or make recommendations to the Board on the selection of individuals nominated for directorships, and assess the independence of independent non-executive directors in accordance with Rule 3.13 of the Listing Rules.

During the year, the Nomination Committee held 1 meeting. The Nomination Committee reviewed the structure and composition of the Board, recommended the re-election of the retiring directors and assessed the independence of all the INEDs.

The Nomination Committee is also responsible to review the Board Diversity Policy, when appropriate to ensure the effectiveness of the Board Diversity Policy and will discuss any revisions that may be required to be considered and approved by the Board.

BOARD COMMITTEES (Continued)

Board Diversity Policy

The Company recognises the importance and the benefit of having a diverse Board that fits its own business model and specific needs in order to achieve its corporate goals and strategies. A number of factors, including but not limited to age, gender, cultural and educational background, professional experience, skill and knowledge, will be considered in determining the optimum composition of the Board so as to contribute to the achievement of the Company's corporate goals and strategic objectives. The Company also sees diversity at the Board level as an essential element in maintaining a competitive advantage. The Company does not discriminate on the grounds of race, gender, disability, age, religions or any other factor.

The Company aims to ensure that Board appointments will be made on the basis of a range of diversity factors, including those set out above. Selection of candidates to join the Board will be, in part, dependent on the pool of available candidates with the necessary skills, knowledge and experience. The ultimate decision will be based on merit and the contribution the chosen candidate will bring to the Board, having regard for the benefits of diversity on the Board.

4. The Audit Committee supports the Board in reviewing the risk management and internal control systems to ensure effective controls are in place. The risk management and internal control functions regularly report the audit assessment and make recommendations to the Audit Committee.

RISK MANAGEMENT AND INTERNAL CONTROL (Continued)

During the year of 2017, the internal audit function performed two semi-annual risk-based audits to review and assess the effectiveness of the Company's internal controls. The reviews covered the functions over financial, operation and compliance with emphasis on property rental and project procurement systems, to assure that risk management and internal control measures are adequate and effective.

Two Audit Committee meetings were held in year 2017 to review the risk management and internal control systems. Both systems are confirmed effective and adequate. Frequency and extent of communication of monitoring results to the Board is adequate. The Board conducted on-going review of the effectiveness of both systems of the Group and considered that both systems in place are effective. No significant control failure was identified. Besides, the resources, staff qualifications and experience, training programmes and budget of accounting, internal audit and financial reporting functions were reviewed and assured adequate.

HANDLING AND DISSEMINATION OF INSIDE INFORMATION

For the purpose of handling and disseminating inside information in accordance with the Listing Rules and the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong), the Group has taken various procedures and measures, including arousing the awareness to preserve confidentiality of inside information within the Group, sending blackout period and securities dealing restrictions notification to the relevant directors and employees regularly, disseminating information to specified persons on a need-to-know basis and regarding closely to the "Guidelines on Disclosure of Inside Information" issued by the Securities and Futures Commission in June 2012.

INDEPENDENT AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF TAI SANG LAND DEVELOPMENT LIMITED (incorporated in Hong Kong with limited liability)

Opinion

What we have audited

The consolidated financial statements of Tai Sang Land Development Limited (the "Company") and its subsidiaries (the "Group") set out on pages 31 to 80, which comprise:

- the consolidated statement of financial position as at 31st December 2017;
- the consolidated statement of profit or loss for the year then ended;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of cash flows for the year then ended;
- the consolidated statement of changes in equity for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31st December 2017, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matter

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current period. The matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Key audit matter identified in our audit is summarised as follows:

- Valuation of investment properties

Key Audit Matter**How our audit addressed the Key Audit Matter**

Valuation of investment properties

Refer to notes 2(f), 4(a)(i) and 7 to the consolidated financial statements

The amount of the investment properties in the consolidated statement of financial position was HK\$7,567 million and the fair value gain of investment properties for the year was HK\$391 million. The Group's investment properties and its changes in valuation are significant to the statement of financial position and statement of profit or loss respectively.

The valuations were carried out by third party valuers to perform validation of all the investment properties in order to support management's estimate.

The valuation of completed properties were based on the income capitalisation method and direct comparison method which depend on certain key assumptions that require significant management estimate and judgement, including market rents and capitalisation rates. The valuation of properties under development was based on the residual method which depends on key assumptions including the gross development value of the project upon completion (estimated using a direct comparison method) less estimated development costs and developer's profit.

The existence of significant estimation uncertainty, coupled with the fact that only a small percentage difference in individual property valuations, when aggregated, could result in a material misstatement, warrants specific audit focus in this area.

Experience of valuers and relevance of their work

We assessed the valuers' qualifications and expertise and read their terms of engagement with the Group to determine whether they have the experience and whether there were any matters that might have affected their objectivity or may have imposed scope limitations upon their work.

Data provided to the valuers

For completed investment properties, we performed testing on a sample basis on the data provided by the Group to the valuers from which the valuation was based upon. This data included key terms of lease agreements, rental income schedules and vacant information which we agreed to appropriate supporting documentation. For properties under development, we agreed on a sample basis that the planned schemes being valued were consistent with the actual planned development. For the budgeted costs provided by the Group to the valuers, we agreed them on a sample basis to the construction contracts and the supporting documentation.

Assumptions and estimates used by the valuers

We attended meetings with the valuers in which the valuation approaches and the key assumptions therein were discussed. The assumptions used varied across the portfolio depending on the age, nature and location of each property and they included market rents, capitalisation rates, gross development value, estimated development costs and allowance for developer's profit for properties in similar location and condition. In each of these areas, and on a sample basis, we compared the estimates and assumptions used by the valuers against the published industry benchmarks and comparable market transactions, and our experience in this sector.

We considered that the assumptions used in the valuations were supportable in light of available and comparable market evidence.

Other Information

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors and the Audit Committee for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The audit committee is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with Section 405 of the Hong Kong Companies Ordinance and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Yam Kwok Damien Chow.

NOTES TO THE FINANCIAL STATEMENTS

1 GENERAL INFORMATION

Tai Sang Land Development Limited (the “Company”) and its subsidiaries (collectively the “Group”) are principally engaged in property investment, property rental, property development, estate management and agency, hotel operation and catering operation.

The Company is a limited liability company incorporated in Hong Kong. The Company’s shares are listed on The Stock Exchange of Hong Kong Limited.

These consolidated financial statements are presented in Hong Kong dollar (HK\$), unless otherwise stated. These consolidated financial statements have been approved for issue by the board of directors on 23rd March 2018.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) and requirements of the Hong Kong Companies Ordinance. The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of investment properties and available-for-sale financial assets at fair value.

The Group had net current liabilities of HK\$672,560,103 as at 31st December 2017. The current liabilities mainly included short term bank loans of HK\$345,991,250 and current portion of long term bank loans of HK\$384,132,849. Based on the Group’s history of refinancing, its available banking facilities and its assets backing, the directors consider that the Group will be able to obtain sufficient financial resources so as to enable it to operate and meet its liabilities as and when they fall due. The directors believe that the Group will continue as a going concern and consequently prepared the consolidated financial statements on a going concern basis.

The preparation of consolidated financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in note 4.

Changes in accounting policy and disclosures

(i) New and amended standards adopted by the Group

The following new standards and amendments to standards are relevant and mandatory to the Group for the first time for the financial year beginning on or after 1st January 2017:

| | |
|---------------------|--|
| HKAS 7 (Amendment) | Statement of Cash Flows |
| HKAS 12 (Amendment) | Recognition of Deferred Tax Assets for Unrealised Losses |

The adoption of these revised standards did not result in substantial changes to the accounting policies of the Group.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(a) Basis of preparation (Continued)

Changes in accounting policy and disclosures (Continued)

- (ii) The following new standards and amendments to standards are relevant and mandatory to the Group for accounting period beginning on or after 1st January 2018 and have not been early adopted by the Group:

| | | Effective for accounting year beginning on or after |
|--------------------------------|---|--|
| Annual Improvements Project | Annual Improvements 2014-2016 Cycle | 1st January 2018 |
| HKAS 40 (Amendment) | Transfers of Investment Property | 1st January 2018 |
| HKFRS 9 | Financial Instruments | 1st January 2018 |
| HKFRS 15 | Revenue from Contracts with Customers | 1st January 2018 |
| HKFRS 16 | Leases | 1st January 2019 |
| HK(IFRIC) – Int 23 | Uncertainty over Income Tax Treatments | 1st January 2019 |

The Group has already commenced an assessment of the impact of adopting the above new and amended standards. The Group is not yet in position to state whether they will have a significant impact on the Group's results of operations and financial position. The Group will adopt the above new and amended standards when they become effective.

(b) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31st December 2017.

A subsidiary is an entity (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Business combination

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owner of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of the acquiree's identifiable net assets.

2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

(b) Consolidation (Continued)

Business combination (Continued)

Acquisition related costs are expensed as incurred. The excess of the consideration transferred and the fair value of non-controlling interest over the net assets acquired and liabilities assumed is recorded as goodwill. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognised in the statement of profit or loss.

In the Company's statement of financial position, investments in subsidiaries are accounted for at cost less impairment. Cost is adjusted to reflect changes in consideration arising from contingent consideration amendments. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

(c) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors of the Company that makes strategic decisions.

(d) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Hong Kong dollar (HK\$), which is the Company's functional and Group's presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of profit or loss.

(iii) Group companies

The results and financial positions of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each statement of profit or loss are translated at average exchange rates; and
- all resulting exchange differences are recognised in other comprehensive income.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Foreign currency translation (Continued)

(iii) Group companies (Continued)

On consolidation, exchange differences arising from the translation of the net investment in foreign entities are taken to other comprehensive income. When a foreign operation is sold, such exchange differences are recognised in the consolidated statement of profit or loss as part of the gain or loss on sale.

On the disposal of a foreign operation (that is, a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the equity holding of the Company are reclassified to the consolidated statement of profit or loss.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

(e) Property, plant and equipment

(i) Leasehold land classified under finance lease and freehold land

Leasehold land classified as finance lease are stated at cost less accumulated depreciation and impairment losses. Freehold land is stated at cost less accumulated impairment losses. No depreciation is provided for freehold land.

Depreciation of leasehold land classified as finance lease commences depreciation from the time when the land interest becomes available for its intended use. The depreciation is calculated using the straight-line basis over the remaining period of the leases or their estimated useful life of 20 years.

(ii) Buildings

Buildings are stated at cost less accumulated depreciation and impairment losses.

Depreciation of buildings is provided to write off the cost less impairment losses and residual value on a straight-line basis over 15 to 40 years.

(iii) Property under development

Property under development are interest in land and building on which construction work has not been completed. Property under development is carried at cost which includes land cost, development and construction expenditure and other direct costs attributable to the development less any impairment losses.

(iv) Plant and equipment

Plant and equipment, comprising plant and machinery, furniture and equipment and motor vehicles, are stated at cost less accumulated depreciation and impairment losses.

Depreciation of plant and equipment is calculated using straight-line method to allocate cost to their residual values over their estimated useful lives of 3 to 10 years.

2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

(e) Property, plant and equipment (Continued)

(v) Leasehold improvement

Leasehold improvement is stated at cost less accumulated depreciation and impairment losses.

Depreciation of leasehold improvement is calculated using straight-line method to allocate cost to their residual value over the shorter of the lease term or estimated useful lives of 5 years.

(vi) Subsequent costs, residual value, useful lives and disposal

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged in the statement of profit or loss during the financial period in which they are incurred.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the statement of profit or loss.

(f) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the group companies, is classified as investment property. Investment property also includes property that is being constructed or developed for future use as investment property.

Investment property comprises freehold land, leasehold land and buildings. Land held under operating leases is classified and accounted for as investment property when the rest of the definition of investment property is met. The operating lease is accounted for as if it was a finance lease.

Investment property is measured initially at its cost, including related transaction costs. After initial recognition, investment property is carried at fair value. Fair value is based on valuations carried out by external valuers. Changes in fair value are recognised in the statement of profit or loss. The fair value of an investment property reflects, among other things, rental income from current leases and assumptions about rental income from future leases in the light of current market conditions.

Property that is being constructed or developed as investment property is carried at fair value. Where fair value is not reliably determinable, such investment property under construction is measured at cost until either its fair value becomes reliably determinable or construction is completed (whichever is earlier).

Subsequent expenditure is included to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed in the statement of profit or loss during the financial period in which they are incurred.

2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

(f) Investment properties (Continued)

If an investment property becomes owner-occupied, it is reclassified as property, plant and equipment, and its fair value at the date of reclassification becomes its cost for accounting purposes.

(g) Impairment of non-financial assets and investments in subsidiaries

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units). Assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

Impairment testing of the investments in subsidiaries is required upon receiving dividends from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

(h) Financial assets

The Group classifies its financial assets in the following two categories: loans and receivables and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition.

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money, goods or services directly to a debtor with no intention of trading the receivable. They are included in non-current assets when the maturities are greater than 12 months after the reporting period.

(ii) Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investments mature or management intends to dispose them within 12 months from the end of reporting period.

Available-for-sale financial assets are subsequently carried at fair value. Unrealised gains and losses arising from changes in the fair value of available-for-sale financial assets are recognised in other comprehensive income. When securities classified as available-for-sale financial assets are sold or impaired, the accumulated fair value adjustments are included in the statement of profit or loss as gains or losses from investments.

The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the Group establishes fair value by using valuation techniques which refer to observable market data and are commonly used by market participants.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Impairment of financial assets

(i) Assets carried at amortised cost

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the statement of profit or loss. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the statement of profit or loss.

(ii) Available-for-sale financial assets

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired.

For debt securities, if any such evidence exists the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in the statement of profit or loss – is removed from equity and recognised in statement of profit or loss. If, in a subsequent period, the fair value of a debt instrument classified as available for sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in statement of profit or loss, the impairment loss is reversed through the statement of profit or loss.

For equity investments, a significant or prolonged decline in the fair value of the security below its cost is also evidence that the assets are impaired. If any such evidence exists the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in statement of profit or loss – is removed from equity and recognised in statement of profit or loss. Impairment losses recognised in the statement of profit or loss on equity instruments are not reversed through the statement of profit or loss.

2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

(j) Properties for sale

Properties for sale are stated at the lower of cost and net realisable value. Cost comprises development expenditure and other associated expenditures, including interest capitalised. Net realisable value is determined on the basis of anticipated sales proceeds less estimated selling expenses.

(k) Inventories

Inventories are stated at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

(l) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

(m) Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts.

(n) Trade and other payables

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. Trade and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

(o) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as finance costs.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(p) Current and deferred income tax

The tax expense for the year comprises current and deferred income tax. Tax is recognised in the statement of profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(i) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of reporting period in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(ii) Deferred income tax

Inside basis differences

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or a liability in a transaction (other than a business combination) that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

(iii) Offsetting

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the financial statements. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognised as a provision.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain events not wholly within the control of the Group.

Contingent assets are not recognised but are disclosed in the notes to the financial statements when an inflow of economic benefits is probable. When inflow is virtually certain, an asset is recognised.

(r) Revenue and income recognition

The Group recognises income on the following bases:

(i) Rental income

Rental income is recognised on a straight-line basis over the terms of the lease agreements.

(ii) Agency commission and management fees

Agency commission and management fees are recognised when services are rendered.

(iii) Dividend income

Dividend income is recognised when the right to receive payment is established.

(iv) Income on sale of investments

Income on sale of investments is recognised when the title to the investments is passed to the purchaser.

(v) Income on sale of properties

Income on sale of properties is recognised on the transfer of risks and rewards of ownership.

(vi) Income from hotel operations

Income from hotel operations is recognised when services are rendered.

(vii) Sales of food and beverages

Sales of food and beverages are recognised at the point of sale to customers.

2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

(r) Revenue and income recognition (Continued)

(viii) Interest income

Interest income is recognised on a time proportion basis using the effective interest method.

(s) Retirement benefit obligations

The Group's contributions to the defined contribution retirement schemes are available to all employees in Hong Kong and the United States of America ("US"). The assets of the schemes are held separately from those of the Group in independently administered funds.

The US subsidiaries, which participate in the US government benefit schemes, are required to contribute to the schemes for the retirement benefits of eligible employees. The government authorities are responsible for the entire benefit obligations payable to the retired employees. The only obligation of the Group with respect to the schemes is to pay the ongoing contributions required by the schemes.

The Group's contributions to the aforesaid defined contribution retirement schemes are calculated either based on certain percentages of the applicable payroll costs or fixed sums that are determined with reference to salary scale as stipulated under the requirements of the respective territories and are charged to the statement of profit or loss as incurred.

Employee entitlements to long service payments are recognised when they accrue to employees. A provision is made for the estimated liability for long service payments as a result of services rendered by employees up to the end of reporting period. The provision for long service payments is included as liabilities in the financial statements.

(t) Borrowings and borrowing costs

Borrowings are recognised initially at fair value, net of transaction costs incurred. Transaction costs are incremental costs that are directly attributable to the issue of a financial liability, including fees and commissions paid to agents, advisers, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the statement of profit or loss over the period of the borrowings using the effective interest method.

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in the statement of profit or loss in the period in which they are incurred.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(u) Financial guarantee contracts

Financial guarantee contracts are contracts that require the issuer (i.e. the guarantor) to make specified payments to reimburse the beneficiary of the guarantee (the "holder") for a loss the holder incurred because a specified debtor failed to make payment when due in accordance with the terms of a debt instrument.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(u) Financial guarantee contracts (Continued)

Financial guarantee contracts are initially recognised at their fair value, and subsequently measured at the higher of (i) the amount initially recognised less accumulated amortisation; and (ii) the amount required to be settled by the guarantor in respect of the financial guarantee contracts at the end of reporting period.

Financial guarantee liabilities are derecognised from the statement of financial position when, and only when, the obligation specified in the contract is discharged or cancelled or expired.

(v) Operating leases

Leases where substantially all the risks and rewards of ownership are remained with the lessors are classified as operating leases.

(i) Leases – where the Group is the lessor

Where the Group leases out assets under operating leases, the assets are included in the statement of financial position according to their nature. Revenue arising from operating leases is recognised in accordance with the Group's revenue recognition policies, as set out in note 2(r)(i) above.

(ii) Leases – where the Group is the lessee

Payments made under operating leases (net of any incentives received from the lessor) are charged to the statement of profit or loss on a straight-line basis over the lease periods.

(w) Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's and the Company's financial statements in the period in which the dividends are approved by the Company's shareholders or board of directors, where appropriate.

3 FINANCIAL RISK MANAGEMENT

(a) Financial risk factors

The Group's activities expose it to a variety of financial risks, including foreign exchange risk, credit risk, liquidity risk, interest rate risk and price risk.

(i) Foreign exchange risk

The Group operates in the US and Hong Kong and is primarily exposed to foreign exchange risk arising from US dollar ("US\$"). The foreign exchange risk exposure is considered to be minimal to the Group because Hong Kong dollar is pegged to US dollar.

(ii) Credit risk

Credit risk arises from the carrying amount of cash and cash equivalents and debtors. The maximum exposure to credit risk at the reporting date is limited because the Group regularly performs risk control assessment on the credit quality of the debtors. Furthermore, the Group only places cash deposits into licensed banks with no history of defaults. The Group has no significant concentrations of credit risk with any counterparty.

3 FINANCIAL RISK MANAGEMENT (Continued)

(a) Financial risk factors (Continued)

(ii) Credit risk (Continued)

In respect of the credit risk arises from the guarantees to banks for credit facilities granted to the subsidiaries, taking into account the financial position of the subsidiaries and the other collaterals pledged to the banks, the risk is considered insignificant.

(iii) Liquidity risk

The Group adopts a prudent liquidity risk management and maintains sufficient cash on hand and the availability of funding through an adequate amount of committed credit facilities.

At 31st December 2017, the Group's net current liabilities amounted to HK\$672,560,103 (2016: HK\$145,411,423). Based on the Group's history of refinancing, the directors consider that the Group will be able to refinance its existing short term bank loans and obtain sufficient financial resources so as to satisfy its working capital requirements, provision for payments of liabilities as and when they fall due and its future capital commitments. Management also reviewed the compliance of loan covenants as at 31st December 2017 and no non-compliance of covenants was noted. The directors has been closely monitored the expected liquidity requirements to ensure the maintenance of sufficient reserves of cash and adequate committed lines of funding.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the end of reporting period to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Except for bank borrowings, balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

2017

| | Within one year | In the second year | In the third to fifth years |
|---------------------------|--------------------|-----------------------|--------------------------------|
| | HK\$ | HK\$ | HK\$ |
| Rental and other deposits | 86,920,835 | - | - |
| Creditors and accruals | 49,935,641 | - | - |

| | 371,114,909 | 528,461,505 | 465,195,588 |

3 FINANCIAL RISK MANAGEMENT (Continued)

(a) Financial risk factors (Continued)

(iv) Interest rate risk

The Group is primarily exposed to interest rate risk arising from bank borrowings. The Group's policy is to maintain all its bank borrowings in floating rate instruments except when management's objectives are to limit the impact of interest rate changes on earnings and cash flows and to lower overall borrowings. The Group will attempt to refinance by fixed rate borrowings at a lower rate if and when available.

At 31st December 2017, if interest rates on bank borrowings had been 10 basis points higher/lower with all other variables held constant, profit after income tax for the year would have been decreased/increased by HK\$1,244,000 (2016: HK\$972,000) before taking account of interest capitalisation, mainly as a result of higher/lower interest expense on floating rate borrowings.

(v) Price risk

The Group is exposed to equity securities price risk for the Group's available-for-sale financial assets. The performance of the Group's investments is closely monitored, together with an assessment of their relevance to the Group's long term strategic plans.

At 31st December 2017, if the fair value of the equity securities had been 10% higher with all other variances held constant, the investment revaluation reserve would have been increased by HK\$3,476,000 (2016: HK\$5,137,000). If the fair value of equity securities had been 10% lower with all other variables held constant, the profit after income tax for the year and investment revaluation reserve would have been decreased by HK\$800,000 and HK\$2,676,000 (2016: HK\$1,744,000 and HK\$3,393,000) respectively.

(b) Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares or sell assets to reduce debt.

The Group monitors capital on the basis of the debt (total borrowings) to equity (total equity) ratio. The debt to equity ratio is 19.9% (2016: 16.5%) as at 31st December 2017.

(c) Fair value estimation

Financial instruments that are measured in the consolidated statement of financial position at fair value required disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

3 FINANCIAL RISK MANAGEMENT (Continued)

(c) Fair value estimation (Continued)

The following table presents the Group's financial assets that are measured at fair value at 31st December 2017 and 2016.

| | Level 1 | Level 2 | Level 3 |
|-------------------------------------|------------|---------|------------|
| | HK\$ | HK\$ | HK\$ |
| 2017 | | | |
| Available-for-sale financial assets | 23,759,579 | – | 11,000,000 |
| 2016 | | | |
| Available-for-sale financial assets | 40,373,507 | – | 11,000,000 |

Movement on the available-for-sale financial assets at level 3 is as follows:

| | 2017 | 2016 |
|----------------------------------|------------|------------|
| | HK\$ | HK\$ |
| At 1st January and 31st December | 11,000,000 | 11,000,000 |

(d) Offsetting financial assets and financial liabilities

There are no financial assets and financial liabilities subject to offsetting, enforceable master netting arrangements and similar agreements for both years ended 31st December 2017 and 2016.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENT

Estimates and judgment used in preparing the financial statements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

(a) Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities with the next financial year are discussed below:

(i) Investment properties

The fair values of investment properties are determined by independent valuers on an open market basis with reference to comparable market transactions. In making the judgment, the Group considers information from a variety of sources including:

- current prices in an active market for properties of different nature, condition or location (or subject to different lease or other contracts), adjusted to reflect those differences;
- recent prices of similar properties in less active markets, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices; and
- discounted cash flow projections based on reliable estimates of future cash flows, derived from the terms of any existing lease and other contracts, and (where possible) from external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.

If information on current or recent prices of investment properties is not available, the fair values of investment properties are determined using discounted cash flow valuation techniques. The Group uses assumptions that are mainly based on market conditions existing at each end of reporting period.

The principal assumptions underlying management's estimation of fair value are those related to: the receipt of contractual rentals, expected future market rentals, maintenance requirements and appropriate discount rates. These valuations are regularly compared to actual market yield data, actual transactions by the Group and those reported by the market. The valuations are reviewed semi-annually by external valuers.

Should the capitalisation rates or market rates differ by 10%, the fair value gain would be reduced or increased by HK\$687,946,000 or HK\$840,823,000 (2016: HK\$703,472,000 or HK\$769,483,000) respectively and the deferred income tax charge thereon would be reduced or increased by HK\$21,633,000 or HK\$26,440,000 (2016: HK\$32,234,000 or HK\$38,175,000) respectively.

4 **CRITICAL ACCOUNTING ESTIMATES AND JUDGMENT (Continued)**

(a) Critical accounting estimates and assumptions (Continued)

(ii) Fair value of available-for-sale financial assets

The fair value of investments which are not traded in an active market is determined by using valuation techniques (including discounted cash flow model or price/earnings multiple model). The Group uses its judgment to select a variety of methods and make assumptions of fair value and discounted rate that are mainly based on market conditions existing at each end of reporting period.

(iii) Useful lives and residual values of property, plant and equipment

Management determines the estimated useful lives and residual values for the Group's property, plant and equipment. The Group will revise the depreciation charge where useful lives and residual values are different from previous estimates, or will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold.

Should the useful lives of the property, plant and equipment be different by 10% from management's estimates, the depreciation expense would be reduced or increased by HK\$1,378,000 or HK\$1,597,000 (2016: HK\$1,716,000 or HK\$1,810,000) respectively in the current year.

Should the residual values of the property, plant and equipment be different by 10% from management's estimates, the depreciation expense would be reduced or increased by HK\$1,254,000 (2016: HK\$1,293,000) respectively in the current year.

(b) Critical judgment in applying the Group's accounting policies

(i) Impairment of available-for-sale investments

The Group follows guidance of HKAS 39 to determine when an available-for-sale equity investment is impaired. This determination requires significant judgment. In making this judgment, the Group evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost; and the financial health of and short-term business outlook for the investee, including factors such as industry and sector performance, changes in technology and operational and financing cash flow.

(ii) Income tax

The Group is subject to taxes in Hong Kong and the US. Significant judgment is required in determining the provision for the taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for potential tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current tax and deferred tax provisions in the period in which such determination is made.

5 REVENUES AND SEGMENT INFORMATION

(a) Revenues recognised during the year are as follows:

| | 2017 | 2016 |
|---------------------------|--------------------|--------------------|
| | HK\$ | HK\$ |
| Revenues | | |
| Property rental | | |

| Catering operations | 2,630,023 | 1,803,709 |
| | <u>283,630,266</u> | <u>276,032,539</u> |

Property rental and property related services revenue above included amounts of HK\$1,521,136 (2016: HK\$2,187,943) and HK\$492,361 (2016: HK\$391,180) from related companies and persons respectively based on prices and terms as agreed by parties involved.

(b) Operating lease arrangement

The Group leases out investment properties and properties for sale under lease terms generally in the range of one to ten years.

At 31st December 2017, the future aggregate minimum lease receivables under non-cancellable operating leases are as follows:

| | 2017 | 2016 |
|---|--------------------|--------------------|
| | HK\$ | HK\$ |
| Not later than one year | 233,795,000 | 199,578,000 |
| Later than one year but not later than five years | 420,061,000 | 355,811,000 |

| | <u>954,073,000</u> | <u>883,361,000</u> |

(c) The chief operating decision-maker has been identified as the executive directors of the Company. The board of directors reviews the Group's internal reporting in order to assess performance and allocate resources. Management has determined the operating segments based on these reports. The board of directors considers the business from a geographic perspective and has identified the operating segments of the Group in Hong Kong and North America.

The board of directors assesses the performance of the operating segments based on their underlying profit, which is measured by profit after income tax excluding fair value changes on investment properties (net of deferred income tax in the United States), and their segment assets and segment liabilities which is measured in a manner consistent with that in the financial statements.

There are no sales between the operating segments.

Valuation processes

The Group measures its investment properties at fair value. As at 31st December 2017, the fair value of the investment properties of the Group in Hong Kong were revalued by A A Property Services Limited and the Group's North America investment property was revalued by Martorana Bohegian & Company. They are independent qualified valuers not related to the Group, who hold recognised relevant professional qualifications and have recent experience in the locations and segments of the investment properties valued. For all investment properties, their current use equates to the best use.

The Group assigns a team to review the valuations performed by the independent valuers for financial reporting purposes. This team reports directly to the senior management and the audit committee. Discussions of valuation processes and results are held between the management and valuers at least once every six months, in line with the Group's interim and annual reporting dates.

At each financial year end, the assigned team:

- Verifies all major inputs to the independent valuation reports;
- Assess property valuations movements when compared to the prior year valuation reports; and
- Holds discussions with the independent valuers.

7 INVESTMENT PROPERTIES (Continued)

Valuation techniques

For completed properties, the income capitalisation method and direct comparison method were used. For income capitalisation method, the valuers apply assumptions for capitalisation rates and notional income, which are influenced by the prevailing market yields and comparable market transactions, as well as discount rate, to arrive at the final valuation. For direct comparison method, the valuers apply assumption for the current prices in an active market, which are influenced by the different nature, condition or location, to arrive at the final valuation.

For properties under development, the residual method is used, whereby the valuation is derived from the gross development value of the project upon completion (estimated using a direct comparison method) less estimated development costs and allowance for developer's profit.

There were no changes to the valuation techniques during the year.

Significant unobservable inputs used to determine fair value

The valuation determined using the direct comparison method by A A Property Services Limited, sales price of comparable properties in close proximity and adjusted for differences in key attributes such as property size and location. The most significant unobservable input into this valuation method is the price adjustment per square foot.

Capitalisation rates are estimated by A A Property Services Limited and Martorana Bohegian & Company based on the risk profile of the properties being valued in Hong Kong and North America respectively. The higher the rates, the lower the fair value. At 31st December 2017, capitalisation rates ranged from 2.0% to 4.5% (2016: 2.0% to 4.5%) and 5% (2016: 4.5%) are used in the income capitalisation method for completed properties in Hong Kong and North America respectively and capitalisation rate of 5% (2016: 5%) is used in the residual value method for investment property under development in Hong Kong.

Notes:

- (a) The Group's investment property located in the US with a net book value of HK\$797,456,400 (2016: HK\$801,996,000) together with the freehold land and building located in the US have been pledged to a financial institution to secure a credit facility of the Group in the US (note 6(a)).

Certain of the Group's investment properties located in Hong Kong with an aggregate net book value of HK\$4,257,000,000 (2016: HK\$3,713,000,000) have been pledged to financial institutions to secure credit facilities of the Group in Hong Kong totalling HK\$1,090,000,000 (2016: HK\$899,200,000) of which HK\$847,000,000 (2016: HK\$661,965,208) were utilised as at 31st December 2017.

- (b) Addition during the year included an amount of HK\$2,403,754 (2016: HK\$1,568,593) (note 21) being interest expenses with an effective interest rate per annum at the end of reporting period in the range of 3.19% to 3.37% (2016: 2.81% to 3.01%) capitalised for the improvement works of the investment property.

The tax on the Group's profit before income tax differs from the theoretical amount that would arise using the taxation rate of Hong Kong where the Company operates and the difference is set out as follows:

| | 2017 | 2016 |
|---|-------------------|---------------------|
| | HK\$ | HK\$ |
| Profit before income tax | 442,950,416 | 410,890,652 |

| Over provision in prior years | 299,504 | 10,443,967 |
| Others | 3,220,164 | (6,234,663) |
| Income tax credit/(expense) | <u>74,542,847</u> | <u>(28,370,375)</u> |

There was no income tax relating to components of other comprehensive income for the year ended 31st December 2017 and 2016.

23 EARNINGS PER SHARE

The calculation of basic earnings per share is based on profit attributable to owners of the Company of HK\$502,055,056 (2016: HK\$373,606,922) and on 287,669,676 (2016: 287,669,676) ordinary shares in issue during the year.

As there are no dilutive potential ordinary shares as at 31st December 2017 and 2016, the diluted earnings per share is equal to the basic earnings per share.

24 DIVIDENDS

The interim dividends paid in 2017 and 2016 were HK\$23,013,574 (HK8 cents per share) and HK\$28,766,968 (HK10 cents per share) respectively. At a meeting held on 23rd March 2018, the directors proposed a final dividend of HK8 cents per ordinary share. This proposed dividend is not reflected as a dividend payable in the consolidated financial statements, but will be reflected as an appropriation of retained profits for the year ending 31st December 2018 upon the approval by the Company's shareholders.

| | 2017 | 2016 |
|--|-------------------|-------------------|
| | HK\$ | HK\$ |
