Chairman's Statement

In 2017, the property policy of the Government continued to be guided by the concept that "houses are for residence and not for speculation". With this overarching guideline, different policies have been implemented in different cities. Some progress has been seen as the growth of the average prices of new properties in hundred of cities continued to decline as compared with the previous periods and the prices appeared to be stabilising. The markets of major cities have become increasingly steady as the Government austerity policy was further tightened, while the spending power remained strong in third- and fourth-tier cities with a less restrictive policy implementation, which boosted the area sold nationwide. We believe that the control measures can lead the property prices back to a reasonable level, balance related supply and demand and regulate transactions in an orderly manner in the property market. We also believe that the confidence of home buyers and protection of consumer rights will be enhanced. For industry players, effective operating guidelines on compliance with the national policy are also provided.

Despite new restrictive policy measures were launched frequently in 2017, by leveraging insight gained after more than two decades of experience, Hopefluent managed to seize available opportunities and attain growth. We integrated and further developed the businesses across various sectors through execution of innovative strategies. We are also resolved to keep abreast of market dynamics and operate the business prudently and proactively.

Turnover of Hopefluent reached HK\$4,672 million in 2017, representing an increase of 18% from HK\$3,966 million in 2016. Profit attributable to owners of the Company increased by 11% from HK\$302 million to HK\$337 million.

Internet Drives Traditional Property Real Estate Agency Service Business to New Heights

We have succeeded in integrating the Internet with the Group's traditional businesses. Through building online new media service platforms such as iHouseKing (www.ihk.cn), Hopefluent Real Properties, He Ji Mai Lou and HFmoney (www.hfmoney.com) and integrating them with its marketing channels, we achieved synergies by optimising the information distribution of all the Group's businesses, thereby enabling customers to obtain the most comprehensive market information and the Internet promotion information at their convenience anytime and anywhere. This improved access to information significantly increased the efficiency of both purchase and sales transactions, in turn boosted the profit from the primary property real estate agency service business and further enhanced the Group's diverse services and integrated competitive strength. In 2017, our turnover from the primary property real estate agency service business reached a record high at HK\$2,929 million, a year-on-year increase of 18%. Outstanding results for the year were achieved in major cities including Guangzhou, Foshan, Dongguan, Hefei and Jinan, with a total of more than 1,000 property projects in these cities, and laid a solid foundation to the good result for the year.

Fu Wai Chung
Chairman

Accelerated Expansion of the Presence of Secondary Property Real Estate Agency Services Business

While the competition of the secondary property real estate agency service industry has been intensifying, the Group has spared no effort to expand its business. It has continued its focus on providing professional property sales and leasing services to the public through its quality service teams and expanded the presence of this business with its brand exposure and reputation for reliability. In 2017, the turnover from the secondary property real estate agency services business amounted to HK\$1,075 million, a year-on-year increase of 14%. The Group has also increased the number of branches to approximately 438, providing agency services in relation to the lease and sale of residential properties, shops and offices. The Pearl River Delta region has continued to be the core business region for the Group generating revenue whereas other cities have been the focus of expansion for this business.

Financial Services Business a New Highlight of Growth

The Chinese Government has escalated its supervision over the financial services sector to ensure the security of related services, so that financial technology can benefit all citizens of the country under effective regulation. Hopefluent continues to conduct its business in line with national policy to operate business in strict compliance with the law and in line with standards to safeguard the users of its financial services. We appreciate that urban families have different needs including consumer spending, community services, wealth management, family financial management and more, thus the Group has focused on the consumption and financial needs of those families and has steadfastly provided comprehensive value-added financial services to address these needs. In August 2017, the Group has joined hands with Ping An Bank to launch a banking custody system, with the aim to facilitate the healthy development of the consumer financial services segment in order to promote the development of inclusive finance and to provide better services in return to the trust of users. In 2017, the Group's financial services business recorded a satisfactory year-on-year increase of revenue of 30% with a turnover of HK\$146 million. The Group will further expedite the development of its financial services business in the future.

Ongoing Optimisation of Property Management Business

The Group optimised all segments of its comprehensive property management services portfolio and provided customised management services for its properties to suit the unique characteristics of each property. These efforts have been widely appreciated by its customers. To date, the Group has provided property management services for 300 residential, office and commercial properties in Guangzhou, Shanghai, Tianjin and Wuhan with a total gross floor area under management of 30 million square metres. The property management business continued to be one of the growth drivers of the Group in 2017 and contributed a turnover of HK\$522 million, a year-on-year increase of 21%.

Conclusion

While maintaining the current competitive advantages in its four core businesses, Hopefluent has also endeavoured to facilitate the development of all businesses to maximise synergies, so as to reinforce the Group's leadership position as an integrated property services operator in China.

The Chinese Government's increasingly stricter supervisory policy is an important factor for maintaining a sound and healthy society as well as the orderly development of the market, while ultimately presenting brilliant prospects for the long-term development of the nation. Furthermore, the Group has a high degree of concern over the high-profile Guangdong-Hong Kong-Macau Greater Bay Area cross-city state project and Guangzhou being the origin and base of Hopefluent, is also a key city in the strategic initiative. The Group is looking forward to the large-scale infrastructure projects to begin operation soon and the future development of smart industries to further drive the booming industrial development and economic growth within the area, which will in turn benefit the growth of its primary and secondary property real estate agency services businesses. At the same time, the Group has joined forces with Poly Real Estate Group Co., Ltd. (保利房地產(集團)股份有限公司) ("Poly Real Estate") (SHA: 600048) based in China to form a proposed joint venture including their respective primary and secondary real estate agency services businesses with the aim to benefit from strategic synergies. As Poly Real Estate is a renowned brand in most of the cities in China, the Group hopes through the combined advantages to optimise the allocation of its resources and thereby advance Hopefluent's business in strides.

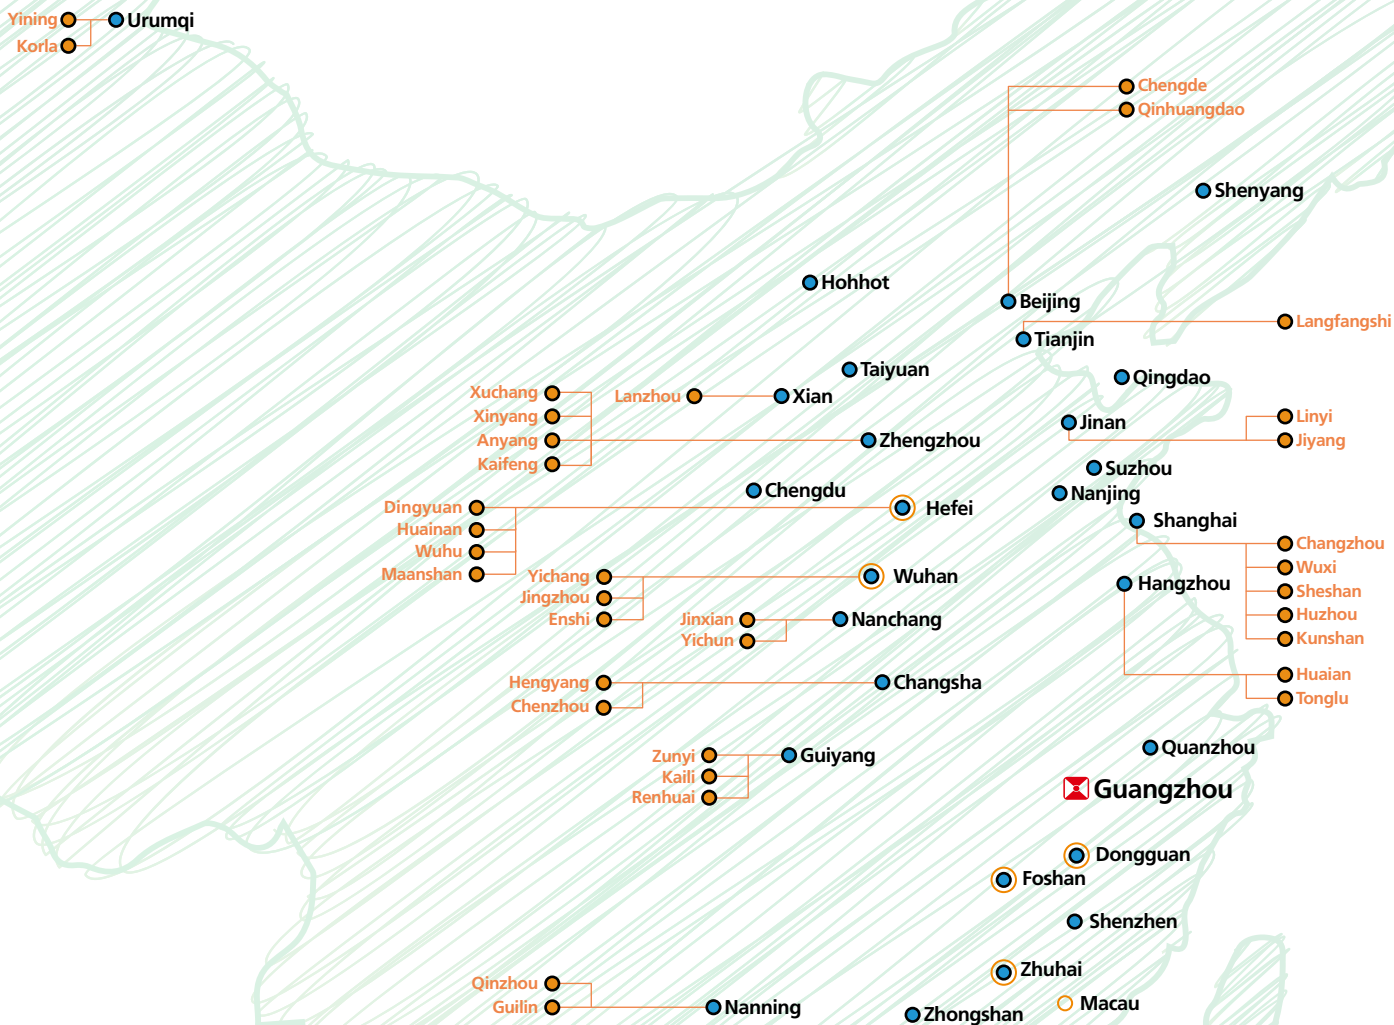

With the positive influence of a number of national policies and driven by the development of different strategic initiatives and infrastructural projects, Hopefluent is confident that the Group's businesses will continue to show strong progress. With its extensive experience and trustworthy reputation in the industry over the past years, its solid relationship with its business partners through continuous cooperation and its strong confidence and enthusiasm in the prospects of the industry, we believe the Group can achieve further successes in all business segments. Furthermore we will strive our utmost to create the greatest value for customers and generate the best returns for shareholders.

On behalf of the Group and the Board, I would like to thank all of our employees for their selfless dedication and diligence as their every effort has contributed to today's brilliant achievements of the Group. I would also like to express my sincere gratitude to all our shareholders, business partners, customers and investors for their support and trust over the years, which is the driving force to motivate the Group to raise our business to new heights in the future.

By Order of the Board
Fu Wai Chung
Chairman

He holds a bachelor's degree in laws from the University of Bristol in England and a diploma in Chinese laws from the China Law Society. He has acquired over 15 years of experience in corporate advisory on mergers and acquisitions, initial public offerings and loan syndication.

Management Discussion and Analysis

BUSINESS REVIEW

I. Market Review for Full Year of 2017

The Chinese Government has strengthened its austerity policies for the property market in 2017. The policy focus has shifted from “reduction of inventory” last year to “deleveraging and repression of speculation” and the austerity policies nationwide were further tightened. Meanwhile, the Government has further continued the deleveraging process in the real estate finance sector and implemented a strict restriction on lending, with the aim of preventing excessive flow of capital into the property market. In the second half of the year, the Government quickly started the development of a rental housing programme. The trends and changes in 2017 are all in line with the basic policy objective of “houses are for residence, not for speculation”. This reflected that the property market in China is on a steady path of progress to an optimally healthy performance and a mature level.

The property market in China has entered into a year of reform. The Group, as an industry leader, endeavoured to move its business forward by turning the challenges into opportunities for progress. Consequently, it further expanded its market share during the year and reported steady growth in all business segments, thus clearly demonstrating that Hopefluent is truly a favoured and trusted quality property real estate agency brand for consumers.

II. Overall Business Review

During the year under review, based on a solid business foundation, extensive industry experience and sensitive market sense coupled with its flexible strategic management model, the Group has reported satisfactory growth in its overall business amidst the rapid-changing economic development and property industry landscape. The integrated property services and innovative value-added services such as the financial services and Internet businesses have seen a steady and orderly development. The Group has realised that maintaining its current position and even standing out itself amidst intensified market competition requires flexible and timely adjustments to its strategy. These adjustments have enabled it to seize the development opportunities in the industry, keep up closely with the fast pace of economic development and manage to encounter the industry landscape.

For the year ended 31st December, 2017, the Group recorded a turnover of HK\$4,672 million, approximately 18% higher than last year (2016: HK\$3,966 million). Profit attributable to shareholders increased by approximately 11% year-on-year to HK\$337 million (2016: HK\$302 million). Basic earnings per share were HK50.4 cents (2016: HK45.2 cents).

The primary and secondary property real estate agency service businesses of the Group registered a turnover of HK\$2,929 million and HK\$1,075 million respectively, accounting for 63% and 23% of its total turnover. The turnover from the financial services business was HK\$146 million, accounting for 3% of the total turnover. The remaining 11% or HK\$522 million was derived from property management business and other businesses. By geographical location, Guangzhou business accounted for about 49% of the Group’s total turnover, while around 51% came from businesses outside Guangzhou. Total new home sales for 2017 amounted to approximately HK\$360 billion, from handling around 300,000 new home sales transactions. Total gross floor area sold was about 30 million square meters.

1. **Synergies in Primary Property Real Estate Agency Services Business and Internet Business Boosts Selling Price and Sales Volume**  合富輝煌房地產  iHouseKing.com

Resting on its solid market leadership, professional and quality services team and market insights, the Group's turnover from the primary property real estate agency service business reached HK\$2,929 million (2016: HK\$2,478 million) as at 31st December, 2017, an increase of approximately 18%, despite the challenging business environment. Expanding market share through actively building a nationwide business presence has always been the key development strategy of the Group's primary property real estate agency service business. Currently, its business network covers more than 150 cities in China and the Group is the agent of more than 1,000 projects. Significant growth was shown in the business performance of core cities of its operation such as Guangzhou, Foshan, Dongguan, Hefei and Jinan. The Group flexibly allocated its sales teams of primary and secondary property real estate agency businesses in the past year to accelerate the business development in the second- and third-tier cities and such efforts have brought remarkable result.

To further realise its diversification strategy and optimise the process of the entire property real estate agency service business, the Group has continuously designed and promoted a range of Internet products, including computer and mobile apps such as iHouseKing (房王網) (www.ihk.cn), He Ji Mai Lou (合記買樓) and HFmoney (合富金融) (www.hfmoney.com), which have received high praise from customers. This success demonstrates that these Internet products not only have effectively satisfied customers but have also positively reinforced Hopefluent's brand image as an innovative industry leader.

2. **Secondary Property Real Estate Agency Services Business Accelerated Expansion of Business Scale with a Remarkable Performance**  合富置業

The secondary property real estate agency service business has achieved an outstanding performance in the year. Turnover increased by about 14% to approximately HK\$1,075 million as compared with the corresponding period last year (2016: HK\$943 million) from managing around 69,000 secondary property transactions (2016: 64,000). This arm's core competitiveness is its quality and reliable services and nationwide business network, which enables the Group to sail against the current and perform brilliantly even as the Government has repeatedly implemented increasingly restrictive policies on the property market.

3. **Financial Services are the Group's Growth Highlight and Gained Customer Acceptance**  HFmoney.com | 合富金融

In 2017, the Government has tightened regulation of the financial sector, however, the Group believes that further regulation and standardisation is principally designed to optimise loan structure and reduce credit risk, and subsequently strengthen confidence of services users in operators, which would in the long run help to achieve healthy development of the overall financial industry. This segment of the Group's business mainly provides inclusive and consumer financial services for urban residents including salaried staff and self-employed people with capital demand, so as to satisfy the diverse needs spanning consumer spending, community service, wealth management, family financial management, etc. It also provides professional and trustworthy investment services with a low threshold for different customers with idle funds, and offers asset allocation services and wealth management consulting services for high net worth and high income individuals. Therefore, this arm has huge room for development in the future.

The financial services platform launched nearly two-and-a-half years ago has brought steady contributions to the Group's overall revenue and has become its growth highlight. As at 31st December, 2017, the total transaction value of its financial services reached HK\$3.7 billion and turnover was approximately HK\$146 million (2016: HK\$113 million). Capitalising on its quality and reliable services and strong reputation of the Group, it has earned the trust of customers and major renowned financial institutions and partners, and has laid a solid foundation for satisfactory growth of this segment. The Group's financial services segment has a well-defined positioning, namely small amounts, diverse targets, short cycles and controllable risk. The features of these premium products have made its financial services a preferred choice for a wide customer base.

Management Discussion and Analysis

4. *Property Management Services Achieved Stable Growth and Built Strong Brand and Reputation*

The property management business grew in a stable pace during the year. Turnover from this segment totaled approximately HK\$522 million, which was 21% higher than the approximately HK\$432 million in 2016. The Group's quality, professional and reliable services have made a favourable impression on customers, thus building a solid trustworthy relationship with them. For years, the Group has provided property management services to over 300 residential, office and commercial properties in Guangzhou, Shanghai, Tianjin and Wuhan with a total gross floor area exceeding 30 million square metres.

III. **Prospects for 2018**

Looking into 2018, the overall China economy is expected to be stable. The macro-control policy on domestic property market and ongoing tight credit environment will create a certain degree of resistance and challenges for the future development of the property industry. In order to cope, the property market will optimise its structure, enabling it to make great strides and more strongly develop as the prevailing control policy continues for the foreseeable future.

As such, to better and fully seize the huge business opportunities emerging from industry consolidation, Hopefluent has decided to sign a framework agreement with Poly Real Estate Group Co., Ltd. (保利房地產(集團)股份有限公司) ("Poly Real Estate") (SHA: 600048) based in China to form a proposed joint venture including their respective primary and secondary real estate agency services businesses. Capitalising on the rich industry experience of both parties, top national qualifications for primary property development and precise product positioning and sales strategy, the Group believes that this cooperation can strengthen the reputation, recognition and reach of its brand, thus enhancing its competitive edge in various cities and provinces. With a broader business scope, it can continue generating stable income and growth, as it advances steadily towards its goal of becoming the largest real estate agency brand in China.

In addition, the Guangdong-Hong Kong-Macau Greater Bay Area, one of the Group's business focuses, is a recently launched regional cross-city strategic initiative. More details of the development plan for this area are to be unveiled soon. The objective of the initiative is to more effectively consolidate the resources within the area. Towards this end, the opening of the Hong Kong-Zhuhai-Macau Bridge is pending, which will facilitate Guangdong Province, Hong Kong and Macau to further complement each other's advantages and achieve all-win development. Therefore, the Group will strive to optimise its business flow, reserve sufficient resources to create strong synergies among different segments, and actively capture the available growth opportunities to open an exciting new chapter in its development history.

AUDIT COMMITTEE

The Audit Committee of the Company, comprising the three existing independent non-executive directors, has reviewed the audited financial statements for the year ended 31st December, 2017.

LIQUIDITY AND FINANCIAL RESOURCES

As at 31st December, 2017, the Group maintained a sound financial position where the cash and bank deposits and current ratio, as a ratio of current assets to current liabilities, were approximately HK\$1,331.3 million (31st December, 2016: HK\$1,677.3 million) and 2.95 (31st December, 2016: 2.92) respectively. Total borrowings amounted to approximately HK\$864 million which are secured bank loan, other borrowings and collateralised borrowings on loan receivables (31st December, 2016: approximately HK\$251 million which are collateralised borrowings on loan receivables). The Group's gearing ratio, which was computed by dividing the total borrowings by total assets, was approximately 19.6% (31st December, 2016: 7.13%). The Group's borrowings are denominated in Renminbi. The Group had no material contingent liabilities as at 31st December, 2017.

PLEDGE OF ASSETS

As at 31st December, 2017, the Group pledged its investment properties and leasehold land and buildings with an aggregate amount of approximately HK\$63 million to banks to secure bank borrowings of the Group.

FOREIGN EXCHANGE EXPOSURE

Most of the Group's business transactions were denominated in either Hong Kong dollars or Renminbi. As such, the Group had no significant exposure to foreign exchange fluctuations.

EMPLOYEES

As at 31st December, 2017, the Group had approximately 22,000 full time employees. Around 8 staff were based in Hong Kong and the rest were employed in China. Employees are regarded as the greatest and valuable assets of the Group. Competitive remuneration packages are structured to commensurate with individual job duties, qualification, performance and years of experience.

ENVIRONMENTAL POLICY

The Group is committed to building an environmental friendly working environment that conserves natural resources. The Group strives to minimize the environmental impact by saving electricity and water and encouraging recycle of office supplies.

CAPITAL STRUCTURE

As at 31st December, 2017, the total number of shares (the "Shares") of HK\$0.01 each in the capital of the Company in issue was 667,998,808.

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

The board of directors of the Company (the “Board”) and the management of the Company and its subsidiaries (the “Group”) are committed to establishing good corporate governance practices and procedures. The maintenance of high standard of business ethics and corporate governance practices have always been one of the Group’s goals. The Company believes that good corporate governance provides a framework that is essential for effective management, successful business growth and a healthy corporate culture, thereby leading to the enhancement of shareholders’ value.

The Board has adopted the Corporate Governance Code (the “CG Code”) as set out in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”). Continuous efforts are made to review and enhance the Group’s risk management and internal controls and procedures in light of changes in regulations and developments in best practices. To us, maintaining high standards of corporate governance practices is not just complying with the provisions but also the intent of the regulations to enhance corporate performance and accountability.

The Board is pleased to report compliance with the code provisions of the CG Code for the year ended 31st December, 2017, except where otherwise stated.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 to the Listing Rules (the “Model Code”) as its own code of conduct regarding securities transactions by directors. Having made specific enquiry with all directors, the directors confirmed that they all had complied with the required standard set out in the Model Code throughout the year except that Mr. Mo Tianquan has dealt in the shares of the Company from September 2017 to October 2017 without notifying the Chairman nor the board of directors before his dealings. He has been reminded to comply with the Model Code before any dealings in the future.

BOARD OF DIRECTORS

The Board comprises:

Executive Directors	:	Mr. FU Wai Chung (<i>Chairman</i>) Ms. NG Wan Ms. FU Man Mr. LO Yat Fung
Non-executive Director	:	Mr. MO Tianquan
Independent Non-executive Directors	:	Mr. LAM King Pui Mr. NG Keung Mrs. WONG LAW Kwai Wah, Karen

Each independent non-executive director has given an annual confirmation of his/her independence to the Company, and the Company considers them to be independent under Rule 3.13 of the Listing Rules.

BOARD OF DIRECTORS (Continued)

During the financial year ended 31st December, 2017, four Board meetings and one annual general meeting (“2017 AGM”) were held and the attendance of each director is set out as follows:

Name of director	Number of meetings attended in the year ended 31st December, 2017	
	Board meetings	2017 AGM
Mr. FU Wai Chung	4/4	1/1
Ms. NG Wan	3/4	1/1
Ms. FU Man	4/4	1/1
Mr. LO Yat Fung	4/4	1/1
Mr. LAM King Pui	4/4	1/1
Mr. NG Keung	3/4	1/1
Mrs. WONG LAW Kwai Wah, Karen	4/4	1/1
Mr. MO Tianquan	0/4	0/1

RESPONSIBILITIES OF THE BOARD

The Board is responsible for leadership and control of the Group and be collectively responsible for promoting the success of the Group by directing and supervising the Group’s affairs. The Board focuses on formulating the Group’s long-term objectives and overall strategies; authorising the development plan and budget; determining and approving financing options; monitoring financial and operating performance; reviewing the effectiveness of the risk management and internal control systems; supervising and managing management’s performance of the Group; and setting the Group’s values and standards. The Board delegates the day-to-day management, administration and operation of the Group to management. The delegated functions are reviewed by the Board periodically to ensure that they accommodate the needs of the Group.

CORPORATE GOVERNANCE FUNCTIONS

No corporate governance committee has been established and the Board is responsible for performing the corporate governance functions such as developing and reviewing the Company’s policies, practices on corporate governance, training and continuous professional development of directors and senior management, ensuring the Company’s policies and practices are in compliance with legal and regulatory requirements, etc.

The Board held meetings from time to time whenever necessary. At least 14 days notice of regular Board meetings is given to all directors and they can include matters for discussion in the agenda as they think fit. The agenda accompanying Board papers are sent to all directors at least 3 days before the date of every Board meeting in order to allow sufficient time for the directors to review the documents.

Minutes of every Board meeting are circulated to all directors for their perusal and comments. Minutes are open for inspection at any reasonable time on reasonable notice by any director. The Board also ensures that it is supplied in a timely manner with the agenda and all necessary information in a form and of a quality appropriate to enable it to discharge its duties.

Every Board member has full access to the advice and services of the company secretary with a view to ensuring that Board procedures, and all applicable rules and regulations are followed and they are also entitled to have full access to Board papers and related materials so that they are able to make an informed decision and to discharge their duties and responsibilities.

Corporate Governance Report

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Mr. Fu Wai Chung ("Mr. Fu") is the chairman of the Company and co-founder of the Company. Mr. Fu has extensive experience in the industry which is beneficial and of great value to the overall development of the Company.

The Company has no such title as the chief executive officer and therefore the daily operation and management of the Company is monitored by the executive directors as well as the senior management.

The Board is of the view that although there is no chief executive officer, the balance of power and authority is ensured by the operation of the Board, which comprises experienced individuals and meets from time to time to discuss issues affecting operation of the Company.

The Board also believes that the current structure is conducive to strong and consistent leadership, enabling the Company to make and implement decisions promptly and efficiently.

Ms. Ng Wan is the wife of Mr. Fu and Ms. Fu Man is the sister of Mr. Fu.

APPOINTMENT AND RE-ELECTION OF DIRECTORS

Each executive director is appointed for an initial term which is renewable automatically each year. All independent non-executive directors are currently appointed for a specific term up to 31st December, 2020 which may be extended as each director and the Company may agree in writing. The term of appointment of the non-executive director is 3 years commencing from 1st April, 2015 and thereafter may be extended for such period as the Company and he agrees in writing. However, their appointments are subject to retirement by rotation and re-election at the annual general meetings of the Company in accordance with the provision of the Articles of Association of the Company (the "Articles of Association").

The Articles of Association of the Company provides that at each annual general meeting, one-third of the directors for the time being shall retire from office by rotation and that every director shall be subject to retirement by rotation at least once every 3 years.

PROFESSIONAL DEVELOPMENT

To assist directors' continuing professional development, the Company recommends directors to attend relevant seminars to develop and refresh their knowledge and skills. All directors also participate in continuous professional development programmes such as external seminars organised by qualified professionals, to develop and refresh their knowledge and skills in relation to their contribution to the Board. A record of the training received by the respective directors are kept and updated by the Company.

The individual training record of each director received for the year ended 31st December, 2017 is summarized below:

	Attending seminar(s)/ forum(s)/programme(s)/ conference(s) relevant to the business or directors' duties
Mr. FU Wai Chung	✓
Ms. NG Wan	✓
Ms. FU Man	✓
Mr. LO Yat Fung	✓
Mr. LAM King Pui	✓
Mr. NG Keung	✓
Mrs. WONG LAW Kwai Wah, Karen	✓
Mr. MO Tianquan	✓

PROFESSIONAL DEVELOPMENT (Continued)

Mr. Fu Wai Chung, Ms. Ng Wan, Ms. Fu Man and Mr. Lo Yat Fung, being executive Directors, and Mr. Mo Tianquan, being non-executive Director, have attended various seminars and meetings to develop and refresh their knowledge so as to ensure that their contribution to the Board remains informed and relevant. Mr. Lam King Pui, Mr. Ng Keung and Mrs. Wong Law Kwai Wah, Karen, being independent non-executive Directors, have participated in continuous professional development programs provided by, among others, the Estate Agents Authority and the Hong Kong Institute of Certified Public Accountants. All the directors also understand the importance of continuous professional development and are committed to participating any suitable training to develop and refresh their knowledge and skills.

AUDIT COMMITTEE

The audit committee of the Company (the "Audit Committee") comprises the three existing independent non-executive directors, who have reviewed the financial statements for the year ended 31st December, 2017. Mr. Lam King Pui, the chairman of the Audit Committee, has professional qualifications and in-depth experience in accounting and related financial management expertise. No member of the Audit Committee is a member of the former or existing auditor of the Company. The terms of reference of the Audit Committee are available at the Company's website and on the website of The Stock Exchange of Hong Kong Limited.

According to the existing terms of reference of the Audit Committee, its major roles and functions are, amongst others, to consider the appointment of the external auditors, the audit fee, and any questions of resignation or dismissal of the external auditors; to review the half-year and annual financial statements before submission to the Board; to monitor the quality of risk management and internal control and to consider major findings of internal investigations and management's response.

Four meetings were held for the year ended 31st December, 2017. The attendance of each member is set out as follows:

Name of members of Audit Committee	Number of meetings attended in the financial year ended 31st December, 2017
Mr. LAM King Pui	4/4
Mr. NG Keung	3/4
Mrs. WONG LAW Kwai Wah, Karen	4/4

At the meetings held during the year, in performing its duties in accordance with its terms of reference, the work performed by the Audit Committee included:

- (a) review and supervise the financial reporting process and risk management and internal control systems of the Company and its subsidiaries;
- (b) make recommendation to the Board, for the approval by shareholders, of the re-appointment of Messrs. Deloitte Touche Tohmatsu as the external Auditor and approval of their remuneration;
- (c) review the financial statements for the relevant periods; and
- (d) discuss business development of the Group.

Corporate Governance Report

REMUNERATION COMMITTEE

The remuneration committee of the Company (the “Remuneration Committee”) comprises the three existing independent non-executive directors and Mr. Lam King Pui is the chairman of the Remuneration Committee. The terms of reference of the Remuneration Committee are available at the Company’s website and on the website of The Stock Exchange of Hong Kong Limited.

The roles and functions of the Remuneration Committee include consulting the chairman of the Board about their remuneration proposals for other executive directors, making recommendation to the Board on the Company’s remuneration policy and structure for all directors’ and senior management and the Remuneration Committee has adopted the approach under B.1.2(c)(ii) of the code provisions to make recommendations to the Board on the remuneration packages of individual executive directors and senior management.

The Group’s human resources department assists the Remuneration Committee by providing relevant remuneration data and market conditions for the Committee’s consideration. The remuneration of executive directors and senior management is determined with reference to the Company’s performance and profitability, as well as remuneration benchmarks in the industry and the prevailing market conditions.

One meeting was held during the year ended 31st December, 2017. During the meeting, remuneration policies of the directors have been discussed and no change has been proposed to the remuneration policies. No director or any of his associates was involved in deciding his own remuneration.

The attendance of each member is set out as follows:

Name of members of Remuneration Committee	Number of meetings attended in the financial year ended 31st December, 2017
Mr. LAM King Pui	1/1
Mr. NG Keung	1/1
Mrs. WONG LAW Kwai Wah, Karen	1/1

A share option scheme has been adopted in the annual general meeting held on 6th June, 2014. Details of this share option scheme are set out in a circular dated 29th April, 2014.

The emolument payable to directors depends on their respective contractual terms under the service contracts and the appointment letters, and as recommended by the Remuneration Committee. Details of the directors’ emolument are set out in note 11 to the consolidated financial statements.

NOMINATION COMMITTEE

The nomination committee of the Company (the "Nomination Committee") was established on 22nd March, 2012 comprising Mr. Fu Wai Chung, Mr. Lo Yat Fung and the existing three independent non-executive directors. Mr. Lam King Pui is currently the chairman of the Nomination Committee. The terms of reference of the Nomination Committee are available at the Company's website and on the website of The Stock Exchange of Hong Kong Limited.

According to the terms of reference of the Nomination Committee, its major roles and functions are as follows:

- to review the structure, size and composition (including the skills, knowledge and experience) of the Board at least annually and to make recommendations on any proposed changes to the Board to complement the Company's corporate strategy;
- to identify individuals suitably qualified to become Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships of the Company;
- to assess the independence of independent non-executive directors of the Company; and
- to make recommendations to the Board on the appointment or re-appointment of directors of the Company and succession planning for directors, in particular the chairman and the chief executive of the Company.

In considering the nomination of new directors, the Board will take into account the qualification, ability, working experience, leadership and professional ethics of the candidates, especially their experience in the property real estate agency and consultancy services and/or other professional areas.

One meeting was held during the year ended 31st December, 2017. No change has been proposed to the structure, size and composition of the Board during the meeting and the Committee had also confirmed the independence of independent non-executive directors who would be retired and offer themselves for re-election at 2017 AGM and the diversity of the Board.

The attendance of each member is set out as follows:

Name of members of Nomination Committee	Number of meetings attended in the financial year ended 31st December, 2017
Mr. FU Wai Chung	1/1
Mr. LO Yat Fung	1/1
Mr. LAM King Pui	1/1
Mr. NG Keung	1/1
Mrs. WONG LAW Kwai Wah, Karen	1/1

Corporate Governance Report

BOARD DIVERSITY POLICY

The Board has adopted a board diversity policy effective on 1st September, 2014 which sets out the approach to achieve a sustainable and balanced development of the Company and also to enhance the quality of performance of the Company.

The Company seeks to achieve board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. All board appointments will be based on meritocracy, and candidates will be considered against objective criteria, having due regard for the benefits of diversity on the Board.

Selection of candidates will be based on a range of diversity perspectives as stated in the above. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

As at the date of this report, the Board comprises 8 directors. Three of them are women. Three of the directors are independent non-executive directors and independent of management, thereby promoting critical review and control of the management process. The Board is also characterised by significant diversity, whether considered in terms of gender, professional background and skills.

ACCOUNTABILITY AND AUDIT

Financial Reporting

The management provides such explanation and information to the Board and reports regularly to the Board on financial position and prospects of the business of the Company so as to enable the Board to make an informed assessment of the financial and other information put before the Board for approval.

The directors acknowledge their responsibilities (as set out in the Independent Auditor's Report) for preparing the financial statements of the Group that give a true and fair view of the state of affairs of the Group. The Board was not aware of any material uncertainties relating to events or conditions that might cast significant doubt upon the Group's ability to continue as a going concern and the Board has prepared the financial statements on a going concern basis. The responsibility of the external auditor is to form an independent opinion, based on their audit, on those consolidated financial statements prepared by the Board and to report their opinion solely to the shareholders of the Company, as a body, and for no other purpose. A statement by auditor about their reporting responsibility is set out in the Independent Auditor's Report.

Risk Management and Internal Control Systems

The Board is responsible for the risk management and internal control systems of the Company and reviewing their effectiveness. The Board oversees the overall risk management of the Group and endeavours to identify, control impact of the identified risks and facilitate implementation of coordinated mitigating measures. The risks have been disclosed in the report of the directors of this annual report. The risk management and internal control systems of the Company are designed to manage rather than eliminate the risk of failures to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

Each department of the Company would choose certain material risk events in its field every year and assess and grade the possibility of occurrence and influence of risk events to determine the scope of material risk of the year together with the management of the Company. Each functional department prepares counteractions to deal with material risks in its field and report the execution situation regularly.

The Company has maintained an internal control department ("ICD") established in 2006 which performs an internal audit function and reported directly to the Board. The function of the ICD audit team is to ensure the branches operation and practices are complied with the Group's policies and procedures. The team has reviewed and checked the sales performance reports and cash flow of each branch rotationally. The management of the Company has established a set of structure, standards and procedures in areas of operational, financial and risk controls for safeguarding assets against unauthorized use or disposition; for maintaining proper accounting records; and for ensuring the reliability of financial information to achieve a satisfactory level of assurance against the likelihood of the occurrence of fraud and errors.

ACCOUNTABILITY AND AUDIT (Continued)

Risk Management and Internal Control Systems (Continued)

The Board reviews the risk management and internal controls annually. The Board has conducted a review of, and is satisfied with the effectiveness of the risk management and internal control systems and the internal audit function for the year ended 31st December, 2017.

With respect to the monitoring and disclosure of inside information, the Company has formulated its guidelines, with an aim to ensure that the insiders abide by the confidentiality requirement and fulfill the disclosure obligation of the inside information.

Auditors' Remuneration

During the financial year ended 31st December, 2017, the fees paid to the Company's auditors is set out as follows:

Services rendered	Fees paid/payable HK\$
Audit services	3,585,000
Non-audit services	215,000
	<hr/>
	3,800,000

The non-audit services are review of documents related to the Company's annual results.

COMPANY SECRETARY

The Company has engaged Mr. Lo Hang Fong, a solicitor practising in Hong Kong, as its company secretary and Mr. Lo Yat Fung, an executive director of the Company, is the person whom the company secretary can contact. The biographical details of Mr. Lo Hang Fong are set out under the section headed "Biographical Details of Directors & Senior Management".

According to Rule 3.29 of the Listing Rules, Mr. Lo Hang Fong has taken no less than 15 hours of relevant professional training during the financial year ended 31st December, 2017.

SHAREHOLDERS' RIGHTS

The general meetings of the Company provide an opportunity for communication between the shareholders and the Board. An annual general meeting of the Company shall be held in each year and at the place as may be determined by the Board. Each general meeting, other than an annual general meeting, shall be called an extraordinary general meeting ("EGM").

— Right to convene extraordinary general meeting

Any one or more members holding at the date of the deposit of the requisition not less than one-tenth of the paid-up capital of the Company carrying the right of voting at general meetings of the Company, shall at all times have the right, by written requisition sent to the Company's business office as set out in the manner below, to require an EGM to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two (2) months after the deposit of such requisition.

The written requisition must state the purposes of the meeting, signed by the requisitionist(s) and deposit it to the Board or the company secretary of the Company at the Company's place of business in Hong Kong at Room 3611, 36th Floor, Shun Tak Centre West Tower, 200 Connaught Road Central, Hong Kong and such may consist of several documents in like form, each signed by one or more requisitionists.

Corporate Governance Report

SHAREHOLDERS' RIGHTS (Continued)

— Right to convene extraordinary general meeting (Continued)

The request will be verified with the Company's branch share registrars in Hong Kong and upon their confirmation that the request is proper and in order, the company secretary of the Company will ask the Board to convene an EGM by serving sufficient notice in accordance with the statutory requirements to all the registered members. On the contrary, if the request has been verified is not in order, the shareholders will be advised of this outcome and accordingly, an EGM will not be convened as requested. If within twenty-one days from the date of the deposit of the requisition the Board fails to proceed to convene such meeting, the requisitionist(s), may convene a meeting in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed by the Company to the requisitionist(s).

The notice period to be given to all the registered members for consideration of the proposal raised by the requisitionist(s) concerned at the EGM varies according to the nature of the proposal, as follows:

- At least 14 clear days' notice in writing (and not less than 10 business days) if the proposal constitutes an ordinary resolution of the Company;
- At least 21 clear days' notice in writing (and not less than 20 business days) if calling for an annual general meeting or the proposal constitutes a special resolution of the Company in EGM.

— Right to put enquiries to the Board

Shareholders have the right to put enquiries to the Board. All enquiries shall be in writing and sent by post to the place of business of the Company in Hong Kong or by e-mail to info@hopefluent.com.hk for the attention of the Board or company secretary.

— Right to put forward proposals at general meetings

There are no provisions allowing shareholders to propose new resolutions at the general meetings under the Cayman Islands Companies Law (2011 Revision). However, shareholders are requested to follow Article 58 of the Company's Articles of Association for including a resolution at an EGM. The requirements and procedures are set out above. Pursuant to Article 88 of the Company's Articles of Association, no person, other than a director retiring at a meeting, shall, unless recommended by the directors for election, be eligible for appointment as a director at any general meeting unless a Notice signed by a Member (other than the person to be proposed) duly qualified to attend and vote at the meeting for which such notice is given of his intention to propose such person for election and also a notice signed by the person to be proposed of his willingness to be elected shall have been lodged at the head office or at the registration office provided that the minimum length of the period, during which such notice(s) are given, shall be at least seven (7) days and that (if the notices are submitted after the dispatch of the notice of the general meeting appointed for such election) the period for lodgment of such Notice(s) shall commence on the day after the dispatch of the notice of the general meeting appointed for such election and end no later than seven (7) days prior to the date of such general meeting.

The written notice must state that person's biographical details as required by Rule 13.51(2) of the Listing Rules. The procedures for shareholders of the Company to propose a person for election as director is posted on the Company's website.

INVESTOR RELATIONS

The Company has established a range of communication channels between itself and its shareholders, investors and other stakeholders. These include the annual general meeting, the annual and interim reports, notices, announcements and circulars and the Company's website at www.hopefluent.com.

During the year ended 31st December, 2017, there had been no significant change in the Company's constitutional documents.

Directors' Report

The directors present their annual report and the audited consolidated financial statements for the year ended 31st December, 2017.

PRINCIPAL ACTIVITIES

The Company acts as an investment holding company. The activities of its principal subsidiaries are set out in note 42 to the consolidated financial statements.

RESULTS AND APPROPRIATIONS

The results of the Group for the year ended 31st December, 2017 are set out in the consolidated statement of profit or loss and other comprehensive income on page 44.

An interim dividend of HK4.5 cents (2016: HK3 cents) per share amounting to HK\$30,060,000 (2016: HK\$20,040,000) in aggregate was paid to the shareholders during the year. The directors now recommend the payment of a final dividend of HK9.5 cents (2016: HK9 cents) per share (the "Proposed Final Dividend") to the shareholders on the register of members on 6th July, 2018 (Friday).

The Proposed Final Dividend will be subject to shareholders' approval at the Company's forthcoming annual general meeting (the "2018 AGM"). The Proposed Final Dividend will be distributed on or about 26th July, 2018 (Thursday) to the shareholders whose names appear on the register of members of the Company on 6th July, 2018 (Friday) ("the Record Date for Dividend").

BUSINESS REVIEW

The business review of the Group for the year ended 31st December, 2017 is set out in the sections headed "Chairman's Statement" and "Management Discussion and Analysis" on pages 6 and 12 respectively of this Annual Report.

RELATIONSHIP WITH STAKEHOLDERS

The Group recognizes that employees, customers and business partners are keys to its sustainable development. The Group is committed to establishing a close and caring relationship with its employees, providing quality services to its customers and enhancing cooperation with its business partners.

The Company provides a fair and safe workplace and competitive remuneration and benefits and career development opportunities based on their merits and performance. The Group also puts ongoing efforts to provide trainings and development resources to the employees so that they can keep abreast of the latest development of the market and the industry and, at the same time, improve their performance and self-fulfillment in their positions.

The Group understands that it is important to maintain good relationship with customers and provide property information that satisfy needs and requirements of the customers. The Group enhances the relationship by continuous interaction with customers to gain insight on the changing market demand for the property so that the Group can respond proactively.

The Group is also dedicated to develop good relationship with developers as long-term business partners to ensure stability of the Group's business.

Directors' Report

POSSIBLE RISKS AND UNCERTAINTIES FACING THE COMPANY

The Group's financial conditions, results of operations, businesses and prospects may be affected by a number of risks and uncertainties. The following are the key risks and uncertainties identified by the Group. There may be other risks and uncertainties which are not known to the Group or which may not be material now but could turn out to be material in the future.

Business Risk

The results of operations and prospects of the Group are subject, to a significant degree, to economic, political and legal developments in the PRC. The economy of the PRC differs from the economies of most developed countries in many respects, including the extent of government involvement, the level of development, the growth rate, and government control of foreign exchange. The Group cannot predict whether changes in the PRC's political, economic and social conditions, laws, regulations and policies will have any material adverse effect on the current or future business, results of operation or financial condition of the Group.

Financial Risk

The financial risk management of the Group are set out in note 40b to the consolidated financial statements.

CLOSURE OF REGISTER OF MEMBERS

The register of members of the Company will be closed during the following periods:

- (i) from 19th June, 2018 (Tuesday) to 22nd June, 2018 (Friday), both days inclusive, for the purpose of ascertaining shareholders' entitlement to attend and vote at the 2018 Annual General Meeting. In order to be eligible to attend and vote at the 2018 Annual General Meeting, all transfer documents accompanied by the relevant share certificates must be lodged for registration with the Company's branch share registrars in Hong Kong, Tricor Investor Services Limited, at Level 22, Hopewell Centre, 183 Queen's Road East, Hong Kong for registration no later than 4:30 p.m. on 15th June, 2018 (Friday); and
- (ii) from 5th July, 2018 (Thursday) to 6th July, 2018 (Friday), both days inclusive, for the purpose of ascertaining shareholders' entitlement to the Proposed Final Dividend. In order to establish entitlements to the Proposed Final Dividend, all transfer documents accompanied by the relevant share certificates must be lodged for registration with the Company's branch share registrars in Hong Kong, Tricor Investor Services Limited, at Level 22, Hopewell Centre, 183 Queen's Road East, Hong Kong for registration no later than 4:30 p.m. on 4th July, 2018 (Wednesday).

During the periods mentioned in sub-paragraphs (i) and (ii) above, no transfers of shares will be registered.

INVESTMENT PROPERTIES

During the year, the Group revalued all of its investment properties as at 31st December, 2017. The surplus arising on the revaluation amounted to HK\$1,733,000 and has been recognised in the consolidated statement of profit or loss and other comprehensive income. Details of the movements in the investment properties of the Group during the year are set out in note 15 to the consolidated financial statements.

PROPERTY, PLANT AND EQUIPMENT

During the year, the Group spent capital expenditure of HK\$96,501,000 on additions of property, plant and equipment, mostly for the expansion of property agency services throughout the PRC.

Details of the movements in the property, plant and equipment of the Group during the year are set out in note 16 to the consolidated financial statements.

SHARE CAPITAL

Details of movements in the share capital of the Company during the year are set out in note 29 to the consolidated financial statements.

DISTRIBUTABLE RESERVES OF THE COMPANY

The Company's reserves available for distribution to shareholders as at 31st December, 2017 comprised the share premium, contributed surplus reserve and accumulated losses of approximately HK\$649 million.

Under the Companies Law (Revised) Chapter 22 of the Cayman Islands, the share premium of the Company is available for paying distributions or dividends to shareholders subject to the provisions of its Memorandum and Articles of Association and provided that immediately following the distribution of dividend the Company is able to pay its debts as they fall due in the ordinary course of business. In accordance with the Company's Article of Association, dividends shall be distributed out of the retained profits or other reserves, including the share premium account, of the Company.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SHARES

The Company has not redeemed any of its shares, and neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed shares during the year ended 31st December, 2017.

BOARD OF DIRECTORS

The directors of the Company during the year and up to the date of this report were:

Executive directors

Mr. Fu Wai Chung (*Chairman*)

Ms. Ng Wan

Ms. Fu Man

Mr. Lo Yat Fung

Non-executive director

Mr. Mo Tianquan

Independent non-executive directors

Mr. Lam King Pui

Mr. Ng Keung

Mrs. Wong Law Kwai Wah, Karen

In accordance with the provisions of the Company's Articles of Association, Messrs. Ng Wan, Mo Tianquan and Wong Law Kwai Wah, Karen retire by rotation and being eligible, offer themselves for re-election.

The term of office of each independent non-executive director is the period from the date of appointment up to his/her retirement by rotation as required by the provisions of the Company's Articles of Association.

Directors' Report

DIRECTORS' SERVICE CONTRACTS

Each of the executive directors of the Company has entered into a service contract with the Company for a duration of three years commencing from 1st April, 2004 and will continue thereafter until terminated by either party giving to the other not less than three months' advance written notice of termination.

Other than as disclosed above, none of the directors of the Company proposed for re-election at the forthcoming annual general meeting has a service contract with the Company or any of its subsidiaries which is not determinable by the employing company within one year without payment of compensation (other than statutory compensation).

Notes:

1. Mr. Fu's interests include 174,184,799 shares held through Fu's Family Limited, 26,984,334 shares held by himself and 6,176,334 shares held by his spouse, Ms. Ng Wan, who is also a director of the Company. The remaining 47,718,000 shares are registered in the name of China-net Holding Ltd. which is wholly-owned by Mr. Fu.
2. These shares are held by Fang Holdings Limited (formerly known as SouFun Holdings Limited) as registered holder of shares. Caldstone Enterprises Limited, Seletar Limited and Serangoon Limited are trustees. Next Decade Investments Limited and Media Partner Technology Limited are controlling shareholders of Fang Holdings Limited (formerly known as SouFun Holdings Limited). Mr. Mo Tianquan is the founder of the trust who is deemed to be interested in these shares.

Other than as disclosed above, the Company had not been notified of any other relevant interests or short positions in the issued share capital of the Company as at 31st December, 2017.

APPOINTMENT OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received, from each of the independent non-executive directors, an annual confirmation of his/her independence pursuant to Rule 3.13 of the Rules Governing the Listing of Securities on the Stock Exchange. The Company considers all of the independent non-executive directors as independent.

EMOLUMENT POLICY

The Group remunerates its employees based on their performance, experience and prevailing market rate. Other employee benefits included insurance and medical cover, subsidised training programme as well as share option scheme.

The determination of emoluments of the directors of the Company had taken into consideration of their expertise and job specifications.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's articles of association or the laws of Cayman Islands, which would oblige the Company to offer new shares on a pro-rata basis to existing shareholders.

MAJOR CUSTOMERS

The aggregate turnover attributable to the Group's five largest customers were less than 30% of total turnover.

None of the directors, their associates or any shareholders of the Company which, to the knowledge of the directors, owned more than 5% of the Company's issued share capital, had any interest in any of the five largest customers of the Group.

ENVIRONMENTAL POLICY

The Group is committed to building an environmental friendly working environment that conserves natural resources. The Group strives to minimize the environmental impact by saving electricity and water and encouraging recycle of office supplies.

COMPLIANCE WITH RELEVANT LAWS AND REGULATIONS

During the financial year, as far as the Company is aware, there was no material breach of or non-compliance with applicable laws and regulations by our Group that has a significant impact on the business and operations of our Group.

SUFFICIENCY OF PUBLIC FLOAT

The Company has maintained a sufficient public float throughout the year ended 31st December, 2017. Based on information that is publicly available to the Company and within the knowledge of the directors, the percentage of the ordinary shares in public hands exceeds 25% as at 28th March, 2018.

AUDITOR

A resolution will be submitted to the annual general meeting to re-appoint Messrs. Deloitte Touche Tohmatsu as auditor of the Company.

On behalf of the Board

Fu Wai Chung

Environmental, Social and Governance Report

The Board of Directors (the “Board”) of the Company are pleased to present this report in accordance with the Environmental, Social and Governance Reporting Guide (the “ESG Guide”) as set out in Appendix 27 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

This report covers the financial year ended 31st December, 2017 and describes how the Company fulfills the “comply or explain” provisions of the ESG Guide. This report covers the Company and all of its subsidiaries and branches in the People’s Republic of China (“PRC”) and Hong Kong (the “Group”).

MANAGEMENT APPROACH, STRATEGY, PRIORITIES AND OBJECTIVES

The Board is responsible for the environmental and social governance strategy to ensure that the relevant environmental and social policies are in place. The Board also believes that the success of the Group is not only based on the performance of its operations and activities, but is also based upon its responsibility and commitment towards the environment, employees, suppliers, customers, and the community. The Group has adopted various policies in the environmental and social aspects in order to support the Group’s sustainability growth.

The Group manages its operations and businesses in an environmentally and socially responsible manner and this report sets out the summary of how the Group implements its environmental and social policies during the year ended 31st December, 2017. The management of the Company has confirmed to the Board about the effectiveness of the environmental and social policies, and this report has been reviewed and approved by the Board.

ENVIRONMENTAL

Emissions

The Group is engaged in the businesses of provision of real estate agency service, property management services, mortgage referral services, advertising, marketing services, financial services and investment holding.

The Group’s direct environment impact is immaterial as we are in the service industry and primarily an office based company with low energy, power and water consumption. Therefore, the operations of the Group does not have significant impact to the environment and does not generate significant air and greenhouse gas (“GHG”) emissions, discharges into water and land and hazardous and non-hazardous waste.

Therefore, during the year ended 31st December, 2017, the Group and its office did not generate significant emissions, water pollutants and hazardous wastes during the operation, except for GHG emissions and non-hazardous waste.

The non-hazardous wastes generated by the Group’s operations mainly consist of paper, toner cartridges and ink cartridges. During the year ended 31st December, 2017, the consumption volume generated by the Group is shown as below:

Non-hazardous waste category	Quantity	Unit	Intensity — kg per employee
Paper	52.8	Tonnes	2.6
Toner cartridge	3,650	Pieces	0.2
Ink cartridge	13,740	Pieces	0.7

The Group’s workplace effluents and wastes are limited which are attributed to the operation of the Company’s offices and property real estate agency service branches. Workplace wastes are treated by the property management companies maintaining the Group’s offices and branches. Our GHG emissions are indirect, principally resulting from electricity consumed at the Company’s offices and branches as well as from business travel by some employees.

ENVIRONMENTAL (Continued)

Emissions (Continued)

Owing to its business nature, the main air emissions of the Group are the GHG emissions, arising from the use of electricity in the office and branch operations. The total GHG emissions for the year was about 96.9 tonnes in carbon dioxide equivalent.

GHG Performance Summary	Quantity	Unit	Intensity — kg per employee
Direct GHG emission — petrol consumption	533.9	Tonnes	26.7
Indirect GHG emission — electricity consumption	1,068.5	Tonnes	53.4
Other indirect GHG emission — paper and water consumption	4.0	Tonnes	0.2
Total GHG emission	1,606.4	Tonnes	80.3

Nevertheless, the Group is committed to the principles of waste management for the proper handling and disposal of all wastes from our business activities. The Group also takes steps to closely monitor and manage the environmental effect of the operations.

It is the Group's objective to reduce energy consumption and carbon emissions. The Group adopts green practices into its operation. For example, at the Group's offices and branches, the indoor temperature and the running time of air-conditioning system are controlled to reduce energy consumption and carbon emissions.

The Group does not produce hazardous wastes in its business activities.

Use of Resources

Since the Company's operation is office based, the energy, power and water utilisation of the Group is relatively low. Resources such as electricity and water are mainly consumed by its offices and branches. The Group is committed to building an environmental friendly working environment that conserves natural resources. The Group strives to minimise the environmental impact by saving electricity and water, encouraging recycle of office supplies, and using environmental friendly equipments and tools in the marketing events of the property promotion project.

The water consumption of the Group is minimal, and much of the water consumption is for basic cleaning, sanitation and daily domestic uses in the office and branches. We also promote water conservation awareness to the employees, and inspect water supply facilities to reduce water wastage.

Concerning the use of energy and office electricity control, the Group requires employees to make sure that all lights, computers, office equipment, and other electronic appliances are switched off after office hour or when they are not utilized. Furthermore, when we purchase office equipment and electronic appliances, we take into great consideration about the energy consumption efficiency of the office equipment and electronic appliances.

For office consumables consumption management, the Group encourages its employees to handle documents electronically. Concerning the reduction of use of papers, we require the employee to assess the necessity of printing, and adopt the practice of double-sided printing and reusing single-sided printed papers. In addition, internet-meeting practices through video conference or telephone conference, instead of face-to-face meetings, are encouraged to avoid unnecessary travel. We also encourage recycle of office supplies.

Environmental, Social and Governance Report

ENVIRONMENTAL (Continued)

Use of Resources (Continued)

During the financial year, the Group's use of major resources and energy is as follows:

Gasoline

During the financial year, the Group consumed gasoline of vehicles of 217.5 tonnes, which was mainly used for the daily consumption by the office vehicles of the Company.

Electricity

During the financial year, the electricity consumption of the Group was 1,526,400 kWh, which was standard consumption for the daily operation of the Company.

Use of Water

During the financial year, the water consumption of the Group was 15,000 tonnes. The water consumption is classified as daily consumed water.

Paper

During the financial year, the Company procured a total of 52.8 tonnes of paper, which was mainly for general office purposes.

Resource Consumption	Amount (Approximate)	Unit	Intensity — kg/kWh per employee
Gasoline	217.5	Tonnes	10.9
Electricity	1,526,400	kWh	76.3
Water	15,000	Tonnes	750
Paper	52.8	Tonnes	2.6

Since the Group operates in the provision of service industry, other than the above major resource consumption categories, there is no other category of resource consumption that needs to be disclosed in accordance with relevant laws and regulations. The Group strictly follows the environmental laws and regulations in the PRC, and there has been no material environmental problem during the year.

In addition, due to the nature of business, the Group did not have physical products for sale and therefore did not involve any use of packaging materials. Therefore, such disclosure is not applicable to the Group.

The Group has complied with relevant environmental laws and regulations, including but not limited to Environmental Protection Law of the PRC, Water Pollution Prevention and Control Law of the PRC, Law of the PRC on Prevention and Control of Air Pollution and Environmental Protection Law of Solid Waste Pollution of the PRC. During the year ended 31st December, 2017, the Group was not aware of any material non-compliance with laws and regulations relating to the air and GHG emissions, discharges into water and land, and generation of hazardous and non-hazardous waste that would have a significant impact on the Group.

The Environment and Natural Resources

Although the Group's environment impact and the use of natural resources is minimal, the Group still aims to work towards environmental best practice during the activities and operations of the Group in order to minimise any environmental impact.

We also promote environmental awareness among the employees to achieve environmental sustainability. We also assess the environmental risks of our operation and activities from time to time.

SOCIAL

Employment and Labour Practices

Employment

The Group always regards the employees as its most important asset. The Group from time to time reviews its policies relating to compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, anti-discrimination, and other benefits and welfare of the employees.

The Company recruits and promotes employees on an open and fair basis without regard to age, nationality, race, religion, sexual orientation, marital status, pregnancy, disability and political beliefs. The Company enters employment contracts with all employees of the Company in the PRC and Hong Kong. The Company also has employee handbook to set out employment policies of the Company.

Competitive remuneration packages are structured to commensurate with individual's job duties, qualification, performance and years of experience. The level of compensation of the employees is reviewed regularly based on the employees' performance and market standard. The Group rewards and recognises the good performance of the employees by providing a competitive remuneration package, performance bonus and share option scheme.

The Group also provides various employee benefits to the employees, such as insurance, medical cover, and subsidised training programme.

We also encourage employees at all levels to express their views and make suggestions to the Company in order to achieve a good and fair working environment.

The Group's practices and policies strictly comply with relevant laws, regulations, and other administrative rules and measures applicable in the PRC and Hong Kong relating to recruitment, labour relations, remuneration, welfare, rights and entitlement of employees.

We also comply with the social security laws and regulations in the PRC and the Mandatory Provident Fund Schemes Ordinance in Hong Kong. The Group paid social insurances and mandatory provident fund contribution for all the staff in accordance with the legal requirements.

Health and Safety

The Group concerns employees' health and occupational safety. We work hard to provide a safe, healthy and hygienic working environment for employees. We comply with the laws and regulations on occupational health and safety in the PRC and Hong Kong. During the year ended 31st December, 2017, the Group did not encounter any major accidents during the operation.

Environmental, Social and Governance Report

SOCIAL (Continued)

Employment and Labour Practices (Continued)

Development and Training

In order to better serve and realize the needs of the customers, the Company provides training to the employees to improve the work quality and performance of the employees.

The Group has a comprehensive employee training management system. To encourage employee development, the Company provides human resource trainings, including new graduates training, customized training seminars, to help the employees to be equipped with the knowledge and relevant skills, in particularly in the areas of real estate industry, and marketing skills.

A training scheme known as “星青年” has been launched for 6 years which recruits graduates and provides thorough training including headquarter’s training, on-site sale and marketing training, one-to-one mentor and trainee training.

The senior employees will act as mentors to the new or junior employees. This arrangement not only can provide guidance and on-the-job training to the new and junior employees, but also enhance the communication and team spirit among all levels of the Company.

Apart from providing trainings, workshops, seminars and conferences according to the needs of the employees, the Company also from time to time provides updated information about the real estate industry and the relevant laws and regulations to the employees which would affect their responsibilities and duties. We believe that providing training to the employees is beneficial to both the personal growth and development of the employees and the sustainability of the Company’s business.

Labour Standards

The Company tolerates neither recruitment of child nor forced labor and has complied with the Labor Contract law of the PRC and the employment law in Hong Kong.

During the recruitment process, the Company checks and verifies the documentation proofs of the job applicant’s identity, academic qualifications and working experience. The Group is committed to labor protection, and provides the employees with reasonable remuneration and various welfare. The Group enters employment contract with each of its employee in accordance with relevant laws and regulations in the PRC and Hong Kong in order to protect the rights of the employees.

Operating Practices

Supply Chain Management

The Group values the good relationship and effective communication with the suppliers.

While selecting the suppliers, the Company considers and assesses the background, qualification, expertise, past experience, financial status, professionalism, business ethics, integrity, and environmental and social responsibility of the suppliers. The Group manages the supply chain in a socially and environmentally responsible manner. The Group also chooses suppliers that meet the Group’s corporate, environmental and social responsibility requirements.

During the cooperation with the suppliers, the Company has built up continuous communication with suppliers. The Group discusses with the suppliers about the routine operation, strategic cooperation and how to make improvement.

The Group is always improving the supplier management system through continuous quality control, supervision, and assessment. The Company will review the performance of the existing suppliers and may source alternative suppliers if necessary.

SOCIAL (Continued)

Operating Practices (Continued)

Product Responsibility

The Group aims to provide services to its customers by the highest possible standard. The Group has established relevant policies which cover service quality, intellectual property, advertising and privacy.

Regarding service quality, the Company confirms the property information and details with customers to make sure that the property meets the customers' requirements. The Company also actively provides valued-added services to the customers such as mortgage referral and loan financing services. If there is any complaint from customers, the Company immediately assess the complaint, conducts an internal investigation, and finds the solution to settle the problem. The Group has close connection with customers and provides sufficient channels of communication between the customers and the Company.

The Company encourages all employees to protect the "HOPEFLUENT" brand. Employees and developers are encouraged to report any suspected intellectual property rights infringement. The Company will take corresponding anti-infringement actions.

The Company strictly complies with the advertising law of the PRC and Hong Kong. The Group requires that employees of sales department must provide customers with accurate and true information on property being promoted.

Regarding privacy and confidentiality protection, the Company employees are obligated to retain in confidence all information obtained in connection with their employment, including, but not limited to, trade secrets, know-how, client's information and personal data, supplier information and other proprietary and confidential information. We also maintain security systems to prevent the unauthorized access of confidential information.

During the year ended 31st December, 2017, the Group complies with relevant laws governing the confidentiality of data and intellectual property, including but not limited to Hong Kong Intellectual Property Law, Patent Law of the PRC, Trademark Law of the PRC and Copyright Law of the PRC.

Anti-corruption

We do not tolerate bribery, extortion, fraud and money laundering. The Group complies with the Prevention of Bribery Ordinance in Hong Kong and relevant legislation on anti-corruption and anti-bribery in the PRC. The Group has code of conduct and strongly prohibits corruption, and bribery behaviour of the employees. In the cases of conflict of interest or suspected bribery, the employees must declare the conflict of interest and report the matters to the Group's management. Employees are strictly prohibited to use business opportunities, power or personal position for personal interest or benefit.

Community

Community Investment

The Group always makes contribution to the communities and society in order to create a harmonious, beautiful and peaceful community.

The Group will also actively encourages employees to take part in volunteering activities to contribute to our society and environment. The Group is the president unit of Guangzhou Service Association for the Handicapped. Besides, the Group's Hopefluent Volunteer Team has been established by the staff members from various functions and departments of the Group (including those from its subsidiaries) on a voluntary basis. Now, there are about 120 members in the team. They are committed to care for the elderly, women, children and other vulnerable groups by organizing different activities, such as "staff mutual funds", "caring veterans", "clothing donation" and "love to Qingyuan".

In addition, the Group also concerns about its staff. It advocates green and healthy lifestyle as well as organizes different staff activities regularly, such as yuga, badminton, basketball, football, running and other sports club, the annual spring athletic meet, run for fun and so on. General managers of different branches participate in marathon competitions in Guangzhou, Shenzhen, Hefei, Nanjing, Chengdu and other places, to spread the idea of healthy life and work cultures.

德勤

TO THE SHAREHOLDERS OF HOPEFLUENT GROUP HOLDINGS LIMITED

合富輝煌集團控股有限公司

(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Hopefluent Group Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 44 to 99, which comprise the consolidated statement of financial position as at 31st December, 2017, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31st December, 2017, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

KEY AUDIT MATTERS (Continued)

Key audit matter	How our audit addressed the key audit matter
<p><i>Recoverability of accounts receivables</i></p> <p>We identified the recoverability of accounts receivables as a key audit matter due to the significance of the balance to the consolidated financial statements as a whole, combined with the significant degree of judgements made by the management in assessing the impairment of accounts receivables and determining the allowance for doubtful debts.</p> <p>As at 31st December, 2017, the carrying amount of accounts receivables was HK\$1,259 million, net of allowance for doubtful debts of HK\$62 million as disclosed in note 21 to the consolidated financial statements, representing 35% of the current assets of the Group.</p> <p>As disclosed in note 4 to the consolidated financial statements, the amount of allowance for doubtful debts was measured as the difference between the carrying amounts of accounts receivables and the estimated future cash flows by considering the credit history including default or delay in payments, settlement records, subsequent settlements and aging analysis of the accounts receivables.</p>	<p>Our procedures in relation to the recoverability of accounts receivables included:</p> <ul style="list-style-type: none">• Obtaining an understanding on how the allowance for doubtful debts is estimated by the management and assessing the management's process in determining the estimated future cash flows of accounts receivables;• Discussing with the management and obtaining a list of accounts receivables with relevant small amount of settlement, during the year or subsequent to the end of the reporting period identified by the management and their assessment on the recoverability of accounts receivables;• Checking the aging analysis and subsequent settlement of the accounts receivables, on a sample basis, to the source documents including invoices and bank statements;• Assessing the reasonableness of allowance for doubtful debts for accounts receivables with reference to the credit history including default or delay in payments, settlement records, subsequent settlements and aging analysis of the accounts receivables, on a sample basis; and• Evaluating the historical accuracy of the management's assessment of impairment for accounts receivables on a sample basis by examining the actual write-offs, the reversals of previous recorded allowance and new allowances recorded in the current year in respect of accounts receivables at the end of the previous financial year.

KEY AUDIT MATTERS (Continued)

Key audit matter	How our audit addressed the key audit matter
<p><i>Recoverability of loan receivables</i></p> <p>We identified the recoverability of loan receivables as a key audit matter due to the significance of the balance to the consolidated financial statements as a whole, combined with the significant degree of judgements made by the management in assessing the impairment of loan receivables and determining the allowance on loan receivables.</p> <p>As at 31st December, 2017, the carrying amount of loan receivables was HK\$1,125 million, net of allowance on loan receivables of HK\$9 million as disclosed in note 19 to the consolidated financial statements, representing 25% of the total assets of the Group. As at 31st December, 2017, the carrying amounts of loan receivables of HK\$408 million were receivable in more than one year. The loans were unsecured and bear fixed interests ranging from 4% to 19% per annum.</p> <p>The Group might expose to a risk of recoverability problem from individuals with lower creditability. As disclosed in note 4 to the consolidated financial statements, the amounts of allowance on loan receivables was measured as the difference between their carrying amounts and the estimated future cash flows by considering the credit history including each individual's personal credit rating reports, delay in payments, interest settlement records, subsequent settlements and aging analysis of the loan receivables.</p>	<p>Our procedures in relation to the recoverability of loan receivables included:</p> <ul style="list-style-type: none">• Obtaining an understanding on how the allowance on loan receivables is estimated by the management and assessing the management's process in determining the estimated future cash flows of loan receivables;• Checking the aging analysis, on a sample basis, against repayment terms set out on loan agreements and subsequent settlements of the loan receivables, on a sample basis, to the source documents, including bank statements;• Identifying any loan receivables with delay in payments during the year from the register of loan receivables and evaluating the management's assessment of the recoverability of each of these loan receivables with reference to the status of each of these individual borrowers and the Group's debt collection actions;• Assessing the reasonableness of allowance on loan receivables with reference to the credit history including individual's personal credit rating reports, delay in payments, interest settlement records, subsequent settlements and aging analysis of the loan receivables; and• Evaluating the historical accuracy of the management's assessment of impairment for loan receivables, on a sample basis, by examining the actual write-offs, the reversals of previous recorded allowance and new allowances recorded in the current year in respect of loan receivables at the end of the previous financial year.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Li Man Kei.

Notes:

(a) Special reserve

The special reserve of the Group includes (i) an amount of HK\$5,760,000 (2016: HK\$5,760,000) representing the difference between the nominal value of the share capital issued by the Company and the nominal value of the share capital of the subsidiaries acquired pursuant to the group reorganisation in 2004; (ii) an amount of HK\$13,135,000 (2016: HK\$13,135,000) representing the equity-settled share-based payment expenses; (iii) an amount of HK\$7,670,000 (2016: HK\$7,670,000) representing the consideration received from the deemed disposal of equity interests in Asia Asset Real Estate Services (Guangzhou) Co., Ltd. (formerly known as Asia Asset Property Services (Guangzhou) Co., Ltd.) ("Asia Asset (Guangzhou)") without loss of control during the year ended 31st December, 2016; and (iv) an amount of HK\$10,420,000 (2016: nil) representing the difference between the consideration paid in acquisition of additional interests in subsidiaries from the non-controlling shareholders and the adjustment to the non-controlling interests in subsidiaries net with the translation reserve and retained profits during the year ended 31st December, 2017.

(b) Statutory surplus reserve

As stipulated by the relevant laws and regulations of the People's Republic of China (the "PRC"), the Group's subsidiaries in the PRC shall set aside 10% of their profit after taxation for the statutory surplus reserve until the statutory surplus reserve reaches 50% of the registered capital of the respective subsidiaries. The reserve can only be used, upon approval by the board of directors of the PRC subsidiaries and by the relevant authority, to offset accumulated losses or increase capital.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

1. GENERAL

The Company is a limited liability company incorporated in the Cayman Islands and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The addresses of the registered office and principal place of business of the Company are disclosed in the "Corporate Information" section to the annual report.

The consolidated financial statements are presented in Hong Kong dollars while the functional currency of the Company is Renminbi ("RMB"). The directors selected Hong Kong dollars as the presentation currency because the shares of the Company are listed on the Stock Exchange.

The Company is an investment holding company. Particulars of the principal activities of its subsidiaries are set out in note 42.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

Amendments to HKFRSs that are mandatorily effective for the current year

The Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") for the first time in the current year:

Amendments to HKAS 7	Disclosure Initiative
Amendments to HKAS 12	Recognition of Deferred Tax Assets for Unrealised Losses
Amendments to HKFRS 12	As part of the Annual Improvements to HKFRSs 2014–2016 Cycle

Except as described below, the application of the amendments to HKFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Amendments to HKAS 7 Disclosure Initiative

The Group has applied these amendments for the first time in the current year. The amendments require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both cash and non-cash changes. In addition, the amendments also require disclosures on changes in financial assets if cash flows from those financial assets were, or future cash flows will be, included in cash flows from financing activities.

Specifically, the amendments require the following to be disclosed: (i) changes from financing cash flows; (ii) changes arising from obtaining or losing control of subsidiaries or other businesses; (iii) the effect of changes in foreign exchange rates; (iv) changes in fair values; and (v) other changes.

A reconciliation between the opening and closing balances of these items is provided in note 33. Consistent with the transition provisions of the amendments, The Group has not disclosed comparative information for the prior year. Apart from the additional disclosure in note 33, the application of these amendments has had no impact on the Group's consolidated financial statements.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

New and revised HKFRSs in issue but not yet effective

The Group has not early applied the following new and revised HKFRSs that have been issued but are not yet effective:

HKFRS 9	Financial Instruments ¹
HKFRS 15	Revenue from Contracts with Customers and the related Amendments ¹
HKFRS 16	Leases ²
HKFRS 17	Insurance Contracts ⁴
HK(IFRIC)-Int 22	Foreign Currency Transactions and Advance Consideration ¹
HK(IFRIC)-Int 23	Uncertainty over Income Tax Treatments ²
Amendments to HKFRS 2	Classification and Measurement of Share-based Payment Transactions ¹
Amendments to HKFRS 4	Applying HKFRS 9 Financial Instruments with HKFRS 4 Insurance Contracts ¹
Amendments to HKFRS 9	Prepayment Features with Negative Compensation ²
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures ²

Amendments to HKAS 40	Transfers of Investment Property ¹
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015–2017 Cycle ²

¹ Effective for annual periods beginning on or after 1st January, 2018

² Effective for annual periods beginning on or after 1st January, 2019

³ Effective for annual periods beginning on or after a date to be determined

⁴ Effective for annual periods beginning on or after 1st January, 2021

HKFRS 9 Financial Instruments

HKFRS 9 introduces new requirements for the classification and measurement of financial assets, financial liabilities, general hedge accounting and impairment requirements for financial assets.

Key requirements of HKFRS 9 which are relevant to the Group:

- all recognised financial assets that are within the scope of HKFRS 9 are required to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are generally measured at fair value through other comprehensive income. All other financial assets are measured at their fair value at the end of subsequent accounting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.
- in relation to the impairment of financial assets, HKFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under HKAS 39 *Financial Instruments Recognition and Measurement*. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

HKFRS 9 Financial Instruments (Continued)

Based on the Group’s financial instruments and risk management policies as at 31st December, 2017, the directors of the company (the “Directors”) anticipate the following potential impact on initial application of HKFRS 9:

Classification and measurement

Debt instruments classified as loans and receivables carried at amortised cost as disclosed in note 19: these are held within a business model whose objective is to collect the contractual cash flows that are solely payments of principal and interest on the principal outstanding. Accordingly, these financial assets will continue to be subsequently measured at amortised cost upon the application of HKFRS 9.

All other financial assets and financial liabilities will continue to be measured on the same bases as are currently measured under HKAS 39.

Impairment

In general, the directors of the Company anticipate that the application of the expected credit loss model of HKFRS 9 will result in earlier provision of credit losses which are not yet incurred in relation to the Group’s financial assets measured at amortised costs and other items that subject to the impairment provisions upon application of HKFRS 9 by the Group.

Based on the assessment by the directors of the Company, if the expected credit loss model were to be applied by the Group, the accumulated amount of impairment loss to be recognised by the Group as at 1st January, 2018 would be increased as compared to the accumulated amount recognised under HKAS 39 mainly attributable to expected credit losses provision on accounts receivables and loan receivables. Such further impairment recognised under expected credit loss model would reduce the opening retained profits at 1st January, 2018.

HKFRS 15 Revenue from Contracts with Customers

HKFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. HKFRS 15 will supersede the current revenue recognition guidance including HKAS 18 *Revenue*, HKAS 11 *Construction Contracts* and the related Interpretations when it becomes effective.

The core principle of HKFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under HKFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in HKFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by HKFRS 15.

In 2016, the HKICPA issued Clarifications to HKFRS 15 in relation to the identification of performance obligations, principal versus agent considerations, as well as licensing application guidance.

The Directors anticipate that the application of HKFRS 15 in the future may result in more disclosures. However, the Directors do not anticipate that the application of HKFRS 15 will have a material impact on the timing and amounts of revenue recognised in the respective reporting periods.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

HKFRS 16 Leases

HKFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. HKFRS 16 will supersede HKAS 17 *Leases* and the related interpretations when it becomes effective.

HKFRS 16 distinguishes leases and service contracts on the basis of whether an identified asset is controlled by a customer. Distinctions of operating leases and finance leases are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees, except for short-term leases and leases of low value assets.

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modification, amongst others. For the classification of cash flows, the Group currently presents lease payments as operating cash flows. Upon application of HKFRS 16, lease payments in relation to lease liability will be allocated into a principal and an interest portion which will be presented as financing cash flows by the Group.

In contrast to lessee accounting, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17, and continues to require a lessor to classify a lease either as an operating lease or a finance lease.

Furthermore, extensive disclosures are required by HKFRS 16.

As at 31st December, 2017, the Group as lessee has non-cancellable operating lease commitments of HK\$607,019,000 as disclosed in note 35. A preliminary assessment indicates that these arrangements will meet the definition of a lease under HKFRS 16, and hence the Group will recognise a right-of-use asset and a corresponding liability in respect of all these leases unless they qualify for low value or short-term leases upon the application of HKFRS 16.

In addition, the Group currently considers refundable rental deposits paid of HK\$36,463,000 and refundable rental deposits received of HK\$821,000 as rights and obligations under leases to which HKAS 17 applies. Based on the definition of lease payments under HKFRS 16, such deposits are not payments relating to the right to use the underlying assets, accordingly, the carrying amounts of such deposits may be adjusted to amortised cost and such adjustments are considered as additional lease payments. Adjustments to refundable rental deposits paid would be included in the carrying amount of right-of-use assets. Adjustments to refundable rental deposits received would be considered as advance lease payments.

Furthermore, the application of new requirements may result in changes in measurement, presentation and disclosure as indicated above.

Other than that, the Directors anticipate that the application of other new and revised HKFRSs will have no material impact on the consolidated financial statements of the Group.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules") and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for investment properties and held for trading investments that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods or services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 *Share-based Payment*, leasing transactions that are within the scope of HKAS 17 *Leases*, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 *Inventories* or value in use in HKAS 36 *Impairment of Assets*.

A fair-value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation (Continued)

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries, including re-attribution of relevant reserves between the Group and the non-controlling interests according to the Group's and the non-controlling interests' proportionate interests. Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKAS 39 or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 *Income Taxes* and HKAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 *Share-based Payment* at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of cash-generating units).

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal (or any of the cash-generating unit within group of cash-generating units in which the Group monitors goodwill).

The Group's policy for goodwill arising on the acquisition of a joint venture is described below.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment in a joint venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of the joint venture are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of joint venture used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, investment in a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the joint venture. Changes in net assets of the joint venture other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of a joint venture equals or exceeds its interest in that joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that joint venture.

An investment in a joint venture is accounted for using the equity method from the date on which the investee becomes a joint venture. On acquisition of the investment in a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 *Impairment of Assets* as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

Impairment losses on tangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment losses on tangible assets (Continued)

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in unit. The carrying amount of an asset is not reduced below the highest of its fair value less cost of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to other assets of the unit. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for services provided in the normal course of business, net of business tax and other taxes.

Revenue is recognised when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the Group and when specific criteria have been met for each of the Group's activities, as described below.

Agency commission is recognised when a buyer and seller execute a legally binding sale agreement and when the relevant agreement becomes unconditional and irrevocable.

Marketing, development and planning consultancy and property management services income is recognised when the services are provided.

Interest income is accrued on a time apportionment basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Rental income, including rental invoiced in advance from properties let under operating leases, is recognised on a straight-line basis over the period of the relevant leases.

Dividend income from investments is recognised when the shareholder's right to receive payment has been established.

Equity-settled share-based payment transactions

The fair value of services received determined by reference to the fair value of share options/shares granted at the grant date is recognised as an expense in full at the grant date when the share options/shares granted vest immediately, with a corresponding increase in equity (share options reserve).

When the share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to retained profits.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Non-current assets held for sale

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving disposal of an investment, or a portion of an investment, in an associate or joint venture, the investment or the portion of the investment that will be disposed of is classified as held for sale when the criteria described above are met, and the Group discontinues the use of the equity method in relation to the portion that is classified as held for sale from the time when the investment (or a portion of the investment) is classified as held for sale.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

Property, plant and equipment

Property, plant and equipment including leasehold land and buildings held for use in the supply of services or for administrative purposes are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values. All of the Group's property interests held under operating leases to earn rentals or for capital appreciation purposes are accounted for as investment properties and are measured using the fair value model. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the property is derecognised.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

The Group as lessee

Operating lease payments are recognised as expenses on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Leasehold land and building

When the Group makes payments for a property interest which includes both leasehold land and building elements, the Group assesses the classification of each element separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire property is classified as an operating lease. Specifically, the entire consideration (including any lump-sum upfront payments) are allocated between the leasehold land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element at initial recognition.

To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid lease payments" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis except for those that are classified and accounted for as investment properties under the fair value model. When the lease payments cannot be allocated reliably between the land and building elements, the entire property is generally classified as if the leasehold land is under finance lease and accounted for as property, plant and equipment.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of the translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

Retirement benefit costs

Payments to state-managed retirement benefit schemes and the Mandatory Provident Fund Scheme (the “MPF Scheme”) are recognised as expenses when employees have rendered service entitling them to the contributions.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on the taxable profit for the year. Taxable profit differs from ‘profit before tax’ as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group’s liability for current tax is calculated using the tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation (Continued)

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

The Group's financial assets are comprising of loans and receivables and financial assets at FVTPL. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including accounts receivables, loan receivables, other receivables, amount due from a joint venture and bank balances and cash) are measured at amortised cost using the effective interest method, less any identified impairment (see accounting policy on impairment on financial assets below).

Interest income is recognised by applying the effective interest rate, except for short-term receivables where the recognition of interest would be immaterial.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Financial assets at FVTPL

Financial assets at FVTPL represent financial assets held for trading.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial assets at FVTPL are measured at fair value, with changes in fair value arising from remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial assets and is included in the other gains and losses line item. Fair value is determined in the manner described in note 40c.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the financial assets have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest and principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

Objective evidence of impairment for a portfolio of accounts receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period ranging from 30 to 120 days and observable changes in national or local economic conditions that correlate with default on receivables. Objective evidence of impairment for a portfolio of loan receivables could include adverse changes in the payment status of borrowers that affect the borrowers of the Group.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of accounts receivables and loan receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When an accounts receivable or loan receivable, is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial liabilities and equity instruments

Financial liabilities and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the group entity after deducting all of its liabilities. Equity instruments issued by the group entity are recognised at the proceeds received, net of direct issue costs.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Financial liabilities at amortised cost

Financial liabilities (including payables and bank and other borrowings) are subsequently measured at amortised cost, using the effective interest method.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimated impairment of accounts receivables and loan receivables

The management of Group determined the carrying amount of accounts receivables by considering the credit history including default or delay in payments, settlement records, subsequent settlement and aging analysis of the accounts receivables. The amount of the allowance for doubtful debts is measured as the difference between the asset's carrying amount and the estimated future cash flows based on the above consideration. Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31st December, 2017, the carrying amount of accounts receivables was HK\$1,259,339,000 (net of allowance for doubtful debts of HK\$62,376,000) (2016: carrying amount of HK\$992,423,000 (net of allowance for doubtful debts of HK\$45,014,000)).

The management of the Group determined the carrying amount of loan receivables by considering the credit history including each individual's personal credit rating reports, delay in payments, interest settlement records, subsequent settlements and aging analysis of the loan receivables. The amount of the allowance for loan receivables is measured as the difference between the asset's carrying amount and the estimated future cash flows based on the above consideration. Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31st December, 2017, the carrying amount of loan receivables was HK\$1,124,704,000 (net of allowances for doubtful debts of HK\$8,521,000) (2016: HK\$386,724,000 (net of allowances for doubtful debts of HK\$3,395,000)).

Estimated useful lives of property, plant and equipment

Management estimates the useful lives of various categories of property, plant and equipment according to the group's experiences over the usage of property, plant and equipment and also by reference to the relevant industrial norm. If the actual useful lives of property, plant and equipment is less than the original estimated useful lives due to changes in commercial and technological environment, such difference will impact the depreciation charge for the remaining period. As at 31st December, 2017, the carrying amount of property, plant and equipment of the Group amounted to HK\$246,306,000 (2016: HK\$187,799,000).

Estimated impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the recoverable amount of the cash-generating units to which goodwill has been allocated which is higher of the value in use or fair value less cost of disposal. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating units and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected or change in facts and circumstances which results in downward revision of future cash, a material impairment loss/further impairment loss may arise. As at 31st December, 2017, the carrying amount of goodwill was HK\$15,403,000 (2016: HK\$14,370,000). Details of the recoverable amount calculation are disclosed in note 17.

Fair value measurements and valuation processes

Some of the Group's assets are measured at fair value for financial reporting purposes.

In estimating the fair value of an asset, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party qualified valuers to perform the valuation.

The Group uses valuation techniques that include inputs that are not based on observable market data to estimate the fair value of investment properties and certain types of financial instruments. Notes 15 and 40c provide detailed information about the valuation techniques, inputs and key assumptions used in the determination of the fair value of various assets and liabilities.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Critical judgements in applying accounting policies

Deferred taxation on investment properties

For the purposes of measuring deferred tax liabilities or deferred tax assets arising from investment properties that are measured using the fair value model, the directors have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are not held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale. Therefore, in measuring the Group's deferred taxation on investment properties, the directors have determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is not rebutted. As a result, the Group has recognised the deferred taxes on changes in fair value of investment properties as the Group is subject to land appreciation tax ("LAT") on disposal of its investment properties.

5. TURNOVER

Turnover represents agency commission in respect of real estate agency services and financial agency services, property management services income and interest income from loan receivables net of business tax and other taxes. An analysis of the Group's revenue for the year is as follows:

	2017 HK\$'000	2016 HK\$'000
Agency commission	4,053,243	3,536,099
Property management services income	524,339	441,491
Interest income from loan receivables	122,335	55,460
	4,699,917	4,033,050
Less: Business tax and other taxes	(28,122)	(67,280)
	4,671,795	3,965,770

6. SEGMENT INFORMATION

Information reported to the executive directors of the Company, being the chief operating decision maker, for the purposes of resource allocation and assessment of segment performance focuses on types of services provided.

The Group is organised into four business divisions including primary property real estate agency services, secondary property real estate agency services, financial services and property management services which form the Group's four operating segments.

Primary property real estate agency is the provision of first hand real estate services to property developers. Secondary property real estate agency is the provision of secondary real estate services. Financial services is the provision of mortgage referral and loan financing services to individuals or companies. Property management is the provision of building management services to property owners and residents.

6. SEGMENT INFORMATION (Continued)

The following is an analysis of the Group's revenue and results by operating and reportable segment.

For the year ended 31st December, 2017

	Primary property real estate agency HK\$'000	Secondary property real estate agency HK\$'000	Financial services HK\$'000	Property management HK\$'000	Total HK\$'000
Segment revenue	2,928,414	1,075,266	146,227	521,888	4,671,795
Segment profit	386,299	71,960	71,671	67,750	597,680
Other income					24,889
Central administrative costs					(62,536)
Other gains and losses					(28,358)
Loss on disposal of investment properties					(3,701)
Share of profit of a joint venture					4
Increase in fair value of investment properties					1,733
Finance costs					(38,480)
Profit before tax					491,231

For the year ended 31st December, 2016

	Primary property real estate agency HK\$'000	Secondary property real estate agency HK\$'000	Financial services HK\$'000	Property management HK\$'000	Total HK\$'000
Segment revenue	2,477,740	943,224	112,816	431,990	3,965,770
Segment profit	332,019	61,298	62,592	56,173	512,082
Other income					17,103
Central administrative costs					(50,092)
Share of loss of a joint venture					(426)
Increase in fair value of investment properties					1,419
Finance costs					(15,169)
Profit before tax					464,917

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 3. Total segment revenue represents the Group's consolidated turnover as set out in the consolidated statement of profit or loss and other comprehensive income. Segment profit represents the profit earned by each segment without allocation of other income, central administrative costs including directors' emoluments, other gains and losses, loss on disposal of investment properties, share of profit/loss of a joint venture, change in fair value of investment properties and finance costs. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and performance assessment.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

6. SEGMENT INFORMATION (Continued)

Segment assets and liabilities

As the Group's segment assets and liabilities are not regularly reviewed by the chief operating decision maker, the measure of total assets and liabilities for each operating segment is therefore not presented.

Other segment information 2017

	Primary property real estate agency HK\$'000	Secondary property real estate agency HK\$'000	Financial services HK\$'000	Property management HK\$'000	Unallocated HK\$'000	Total HK\$'000
Additions to non-current assets	54,779	47,408	647	29,794	455	133,083
Depreciation of property, plant and equipment	13,038	30,626	1,447	2,999	542	48,652
Allowances on accounts receivables	–	13,878	–	–	–	13,878
Provision of allowances on loan receivables	–	–	4,796	–	–	4,796
Loss (gain) on disposal of property, plant and equipment	1,003	116	7	(77)	–	1,049

2016

	Primary property real estate agency HK\$'000	Secondary property real estate agency HK\$'000	Financial services HK\$'000	Property management HK\$'000	Unallocated HK\$'000	Total HK\$'000
Additions to non-current assets	17,138	49,104	714	653	–	67,609
Depreciation of property, plant and equipment	19,528	29,532	349	1,199	807	51,415
Allowances on accounts receivables	–	12,748	–	–	–	12,748
Provision of allowances on loan receivables	–	–	123	–	–	123
(Gain) loss on disposal of property, plant and equipment	(106)	43	30	414	(110)	271

Geographical information

The Group's businesses are located in Hong Kong and other parts of the PRC. Majority of the Group's primary property real estate agency, secondary property real estate agency, financial services and property management businesses are located in the PRC. The Group's revenue is all derived from customers located in the PRC.

At the end of each reporting period, substantially all of the non-current assets are located in the PRC.

Information about major customers

There was no revenue from any customer that contributes over 10% of total revenue of the Group for both years.

7. OTHER INCOME

	2017 HK\$'000	2016 HK\$'000
Rental income, net of negligible outgoings	6,014	3,852
Other services income	4,740	5,164
Bank interest income	14,135	7,766
Dividend income	–	321
	24,889	17,103

8. FINANCE COSTS

	2017 HK\$'000	2016 HK\$'000
Interests on:		
Bank borrowings	2,628	–
Other borrowings	35,852	15,169
	38,480	15,169

9. INCOME TAX EXPENSE

	2017 HK\$'000	2016 HK\$'000
Current tax:		
PRC Enterprises Income Tax ("EIT")	136,622	138,554
Withholding income tax on distributed profits of PRC subsidiaries	9,618	–
Deferred tax (note 30)	2,956	7,679
	149,196	146,233

Under the Law of the PRC on EIT and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% from 1st January, 2008 onwards. Taxation arising from other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

Certain of the Group's subsidiaries operating in the PRC are required to pay the PRC income tax on a deemed profit basis at a predetermined tax rate of 2.5% (2016: 2.5%) on turnover during the current year. The predetermined tax rate is agreed and determined between each PRC subsidiary and respective tax bureau of local government and is subject to annual review and renewal.

Under Australian tax law, the tax rate used for the year is 30% (2016: N/A) on taxable profits on Australian incorporated entities. No tax provision has been made in the consolidated financial statements as there is no assessable profit arises in Australia for both years.

PRC withholding income tax of 10% shall be levied on the dividends declared by the companies established in the PRC to their foreign investors out of their profits earned after 1st January, 2008.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

9. INCOME TAX EXPENSE (Continued)

No provision for Hong Kong Profits Tax has been made in both years in the consolidated financial statements as the Group has no assessable profits in Hong Kong for both years.

The income tax expense for the year can be reconciled to the profit before tax per the consolidated statement of profit or loss and other comprehensive income as follows:

	2017 HK\$'000	2016 HK\$'000
Profit before tax	491,231	464,917
Tax at the applicable rate of 25%	122,808	116,229
Tax effect of share of (profit) loss of a joint venture	(1)	107
Tax effect of expenses not deductible for tax purpose	11,791	12,581
Tax effect of income not taxable for tax purpose	(693)	(254)
Effect of tax charged at predetermined tax rate on turnover entitled by certain subsidiaries operating in the PRC	(7,696)	(3)
Tax effect of tax loss not recognised	16,948	15,190
Utilisation of tax loss previously not recognised	(4,758)	(1,342)
Effect of LAT	1,179	3,725
PRC withholding income tax	9,618	–
Income tax expense for the year	149,196	146,233

Details of deferred tax are set out in note 30.

10. PROFIT FOR THE YEAR

	2017 HK\$'000	2016 HK\$'000
Profit for the year has been arrived at after charging (crediting):		
Directors' remuneration, including retirement benefits scheme contributions (note 11)	12,002	9,763
Other staff costs	2,406,619	2,219,121
Share-based payments expenses (note 32)	–	13,135
Other retirement benefits scheme contributions	194,094	143,479
Total staff costs	2,612,715	2,385,498
Auditor's remuneration	4,408	4,544
Depreciation of property, plant and equipment	48,652	51,415
Allowances on accounts receivables (included in other gains and losses)	13,878	12,748
Provision of allowances on loan receivables (included in other gains and losses)	4,796	123
Loss on disposal of property, plant and equipment (included in other gains and losses)	1,049	271
Loss on fair value changes of held for trading investments (included in other gains and losses)	548	2,289
Loss (gain) on disposal of held for trading investments (included in other gains and losses)	8,087	(10,853)

11. DIRECTORS' EMOLUMENTS

The emoluments paid or payable to the directors for both years, disclosed pursuant to the applicable Listing Rules and Hong Kong Companies Ordinance is as follows:

For the year ended 31st December, 2017

	Executive Directors				Independent Non-executive Directors			Non-executive Director	Total HK\$'000
	Mr. Fu Wai Chung HK\$'000	Ms. Ng Wan HK\$'000	Ms. Fu Man HK\$'000	Mr. Lo Yat Fung HK\$'000	Mr. Ng Keung HK\$'000	Mr. Lam King Pui HK\$'000	Mrs. Wong Law Kwai Wah, Karen HK\$'000	Mr. Mo Tianquan HK\$'000	
Fees	-	-	-	-	120	228	300	-	648
Salaries and other benefits	3,120	2,895	2,245	3,040	-	-	-	-	11,300
Retirement benefits scheme contributions	-	18	18	18	-	-	-	-	54
Total emoluments	3,120	2,913	2,263	3,058	120	228	300	-	12,002

For the year ended 31st December, 2016

	Executive Directors				Independent Non-executive Directors			Non-executive Director	Total HK\$'000
	Mr. Fu Wai Chung HK\$'000	Ms. Ng Wan HK\$'000	Ms. Fu Man HK\$'000	Mr. Lo Yat Fung HK\$'000	Mr. Ng Keung HK\$'000	Mr. Lam King Pui HK\$'000	Mrs. Wong Law Kwai Wah, Karen HK\$'000	Mr. Mo Tianquan HK\$'000	
Fees	-	-	-	-	96	188	260	-	544
Salaries and other benefits	2,512	2,331	1,912	2,410	-	-	-	-	9,165
Retirement benefits scheme contributions	-	18	18	18	-	-	-	-	54
Total emoluments	2,512	2,349	1,930	2,428	96	188	260	-	9,763

The executive directors' emoluments shown above were for their services in connection with the management of the affairs of the Company and the Group, the non-executive director's emolument shown above was for his service as director of the Company and the independent non-executive directors' emoluments shown above were for their services as directors of the Company.

The Group also provided rent-free accommodation to Mr. Fu Wai Chung for the years ended 31st December, 2017 and 2016. The estimated monetary value of the rental involved, amounted to HK\$840,000 (2016: HK\$840,000).

For both 2017 and 2016, no emoluments were paid by the Group to any of the directors as an inducement to join or upon joining the Group or as compensation for loss of office. No directors waived any emoluments for both 2017 and 2016.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

12. EMPLOYEES' EMOLUMENTS

Of the five individuals with the highest emoluments in the Group, four (2016: four) were directors of the Company, whose emoluments are included in note 11 above. The emoluments of the remaining individual was as follows:

	2017 HK\$'000	2016 HK\$'000
Salaries and other benefits	1,345	729
Retirement benefits contributions	1,410	783
	2,755	1,512

13. DIVIDENDS

	2017 HK\$'000	2016 HK\$'000
Dividends recognised as distribution and paid during the year:		
2017 Interim — HK4.5 cents per share (2016: 2016 Interim — HK3 cents per share)	30,060	20,040
2016 Final — HK9 cents per share (2016: 2015 Final — HK5.5 cents per share)	60,120	36,740
	90,180	56,780

Subsequent to the end of reporting period, the final dividend of HK9.5 cents per share in respect of the year ended 31st December, 2017 (2016: final dividend of HK9 cents per share in respect of the year ended 31st December, 2016), in an aggregate amount of HK\$63,460,000 (2016: HK\$60,120,000), has been proposed by the directors and is subject to approval by the shareholders in the forthcoming annual general meeting.

The final dividend proposed after the end of the reporting period has not been recognised as liabilities in these consolidated financial statements.

14. EARNINGS PER SHARE

The calculation of the basic and diluted earnings per share attributable to the owners of the Company is based on the following data:

Earnings

	2017 HK\$'000	2016 HK\$'000
Earnings for the purpose of calculating basic earnings per share (profit for the year attributable to owners of the Company)	336,794	302,207

14. EARNINGS PER SHARE (Continued)

Number of shares

	2017 '000	2016 '000
Number of ordinary shares for the purpose of basic earnings per share	667,999	667,999

There are no potential dilutive shares in issue during the year ended 31st December, 2017.

The computation of diluted earnings per share for the year ended 31st December, 2016 does not assume the exercise of share options outstanding for the year ended 31st December, 2016 since the exercise price of those share options was higher than average market price of the shares during the year.

15. INVESTMENT PROPERTIES

	HK\$'000
FAIR VALUE	
At 1st January, 2016	69,787
Exchange adjustments	(3,899)
Net increase in fair value recognised in profit or loss	1,419
At 31st December, 2016	67,307
Exchange adjustments	4,836
Additions	36,582
Net increase in fair value recognised in profit or loss	1,733
Disposals	(16,398)
At 31st December, 2017	94,060

	2017 HK\$'000	2016 HK\$'000
Unrealised gain on property revaluation included in profit or loss (included in change in fair value of investment properties)	1,733	1,419

The investment properties of the Group are held under medium term land use rights in the PRC.

All of the Group's property interests held under operating leases to earn rentals or for capital appreciation purpose are measured using the fair value model and are classified and accounted for as investment properties.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

15. INVESTMENT PROPERTIES (Continued)

The fair values of the Group's investment properties at 31st December, 2017 and 2016 have been arrived at on the basis of a valuation carried out on that date by BMI Appraisals Limited, an independent qualified valuer not connected to the Group. BMI Appraisals Limited is a member of the Institute of Valuers. The fair value was determined based on the direct comparison approach, where assuming sales in their existing states with the benefit of vacant possession and by making reference to market evidence of transaction prices for similar properties in the same locations and conditions. There has been no change from the valuation technique used in prior year.

In estimating the fair value of the properties, the highest and best use of the properties is their current use.

One of the key inputs used in valuing the investment properties was the market price per square meter using direct market comparables and taking into account of the differences between the investment properties and the comparables in terms of age, time, location, floor level and other relevant factors, ranging from RMB10,774 to RMB64,942 (2016: ranging from RMB9,382 to RMB64,921) per square meter. An increase in the market price per square meter will result in a same level increase in fair value of the investment properties, and vice versa.

The Group's investment properties are the commercial property units located in PRC and are at Level 3 of the fair value hierarchy as at 31st December, 2017 and 2016.

There were no transfers into or out of Level 3 during the year.

16. PROPERTY, PLANT AND EQUIPMENT

Provided for the year	1,207	32,847	8,511	6,087	48,652
Disposals	–	–	(17,973)	(8,900)	(26,873)
At 31st December, 2017	18,113	403,069	70,671	35,646	527,499
CARRYING VALUES					
At 31st December, 2017	36,511	95,066	83,517	31,212	246,306
At 31st December, 2016	35,210	64,965	70,298	17,326	187,799

The above items of property, plant and equipment are depreciated on a straight-line basis at the following rates per annum:

Leasehold land and buildings	Over the term of the leases or 40 years, whichever is shorter
Leasehold improvements	Over the term of the leases or 5 years, whichever is shorter
Office equipment, furnitures and fixtures	20%
Motor vehicles	20%

The leasehold land and buildings of the Group are held under medium term land use rights in the PRC.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

17. GOODWILL

	HK\$'000
COST	
At 1st January, 2016	15,220
Exchange adjustments	(850)
At 31st December, 2016	14,370
Exchange adjustments	1,033
At 31st December, 2017	15,403

For the purposes of impairment testing, goodwill as detailed above has been allocated to the subsidiaries as individual cash-generating units (CGUs) from which goodwill arose. The carrying amount of goodwill as at 31st December, 2017 allocated to these units are as follows:

	2017 HK\$'000	2016 HK\$'000
Provision of property management services in the PRC ("Unit A")	2,924	2,728
Provision of primary real estate agency services in the PRC ("Unit B")	12,479	11,642
	15,403	14,370

As at 31st December, 2017, management of the Group determines that there is no impairment of any of its CGUs containing goodwill.

The recoverable amount of the CGUs has been determined based on a value in use calculations. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period, and a discount rate of 13.03% and 16.81% (2016: 11.60% and 16.21%) for Unit A and Unit B, respectively. The set of cash flows beyond five-year period are extrapolated using a decelerating growth rate from 10% to 5% (2016: a decelerating growth rate of 10% to 5%), as determined by management. Other key assumptions for the value in use calculations relate to the estimation of cash inflows/outflows which include budgeted building management fees and commission income of Unit A and Unit B respectively and respective profit margin, such estimation is based on unit's past performance and management's expectations for the market development. Management believes that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of the CGUs to exceed the aggregate recoverable amount.

18. INTEREST IN A JOINT VENTURE

	2017 HK\$'000	2016 HK\$'000
Cost of unlisted investment in a joint venture	611	24,201
Share of post-acquisition losses and other comprehensive expenses	-	(426)
Exchange adjustments	-	(1,340)
	611	22,435

During the year ended 31st December, 2017, the Group invested in and held 51% of equity interest in Guangzhou Hopefluent GaoYi Innovative Investment Co., Limited (“Hopefluent GaoYi”). The interest in Hopefluent GaoYi was accounted for as a joint venture under HKFRS 11 as pursuant to the memorandum of association, all of the strategic financial and operating decisions must be approved by joint venture partners with unanimous consent.

During the year ended 31st December, 2016, the Group acquired 45% equity interest in Shanghai Kepler Investment Funds Management Co., Ltd (“Shanghai Kepler”). The interest in Shanghai Kepler was accounted for as a joint venture under HKFRS 11 as pursuant to the shareholders’ agreement, all of the strategic financial and operating decisions must be approved by all of the joint venture partners with unanimous consent. During the year ended 31st December, 2017, the Group entered into an equity transfer agreement with another shareholder of Shanghai Kepler for disposal of the Group’s entire equity interest in Shanghai Kepler. As at 31st December, 2017, the Group’s interest in Shanghai Kepler is classified as assets held for sale. For details of the transaction, please refer to note 26 to the consolidated financial statements.

As at 31st December, 2017 and 2016, the Group had interest in the following joint venture:

Name of entity	Form of entity	Place of registration	Place of operation	Class of shares held	Proportion of registered capital held by the Group		Proportion of voting rights held by the Group		Principal activity
					2017	2016	2017	2016	
Hopefluent GaoYi	Establishment	The PRC	The PRC	Registered	51%	-	51%	-	Property management
Shanghai Kepler	Establishment	The PRC	The PRC	Registered	45%	45%	50%	50%	Investment management and consultancy service

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

18. INTEREST IN A JOINT VENTURE (Continued)

Summarised financial information of a joint venture

Summarised financial information in respect of the Group's joint venture is set out below. The summarised financial information below represents amounts shown in the joint venture's financial statements.

The joint venture is accounted for using the equity method in these consolidated financial statements.

	Hopefluent GaoYi 2017 HK\$'000	Shanghai Kepler 2016 HK\$'000
Non-current assets	1,223	1,198
Current assets	11,856	31,519
Current liabilities	(11,881)	(1,266)
Loss and total comprehensive expense for the year	-	(947)

Reconciliation of the above summarised financial information to the carrying amount of the interest in the joint venture recognised in the consolidated financial statements:

	2017 HK\$'000	2016 HK\$'000
Net assets attributable to the owners of joint venture	1,198	31,451
Proportion of the Group's ownership interest in attributable to the owners of joint venture	51%	45%
Goodwill	-	14,153
Effect of fair value adjustments at acquisition	-	8,390
		(108)
Carrying amount of the Group's interest in attributable to the owners of joint venture	611	22,435

19. LOAN RECEIVABLES

At 31st December, 2017, loan receivables of HK\$1,124,704,000 (2016: HK\$386,724,000) are unsecured and bear fixed interests ranging from 4% to 19% (2016: 4% to 24%) per annum. The carrying amounts of HK\$408,243,000 (2016: HK\$142,700,000) are classified as non-current loan receivables and are recoverable by instalments within two to three years. During the year, HK\$122,335,000 (2016: HK\$55,460,000) of interest income was recognised from the loan receivables.

The loan receivables are guaranteed by independent property owners or entities. Included in the loan receivables, an amount of HK\$179,000,000 (2016: Nil) are secured by properties. The details of the assessment of the creditability of the individuals or entities are set out in note 40b.

Movement in the allowance on loan receivables

	2017 HK\$'000	2016 HK\$'000
At 1st January	3,395	3,466
Exchange realignment	330	(194)
Provision of allowance on loan receivables	4,796	123
At 31st December	8,521	3,395

20. TRANSFERS OF FINANCIAL ASSETS

The following were the Group's financial assets as at 31st December, 2017 that were transferred to financial institutions by selling loan receivables on a full recourse basis. As the Group has not transferred the significant risks and rewards relating to these receivables, it continues to recognise the full carrying amount of the receivables and has recognised the cash received on the transfer as a secured borrowing (note 28). These financial assets are carried at amortised cost in the consolidated statement of financial position.

As at 31st December, 2017

	Loan receivables sold to financial institutions with full recourse	
	2017 HK\$'000	2016 HK\$'000
Carrying amount of transferred assets	127,643	199,560
Carrying amount of associated liabilities	(143,133)	(251,469)

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

21. ACCOUNTS RECEIVABLES

The Group allows an average credit period ranging from 30 to 120 days to its customers. The aged analysis of accounts receivables net of allowance for doubtful debts presented based on the invoice date at the end of the reporting period is as follows:

	2017 HK\$'000	2016 HK\$'000
Accounts receivables		
0–30 days	635,399	519,784
31–60 days	202,359	157,151
61–90 days	128,790	116,958
91–120 days	115,116	63,208
121–180 days	177,675	135,322
	1,259,339	992,423

Included in the Group's accounts receivables balance are debtors with aggregate carrying amount of HK\$177,675,000 (2016: HK\$135,322,000) which are past due as at the reporting date for which the Group has not provided for impairment loss because management is of the opinion that the fundamental credit quality of these customers has not deteriorated.

Before accepting any new customer, the Group assesses the potential customer's credit quality. The credit quality is reviewed periodically. Majority of the accounts receivables that are neither past due nor impaired have no default payment history. The Group does not hold any collateral over these balances.

Aging of accounts receivables which are past due but not impaired

	2017 HK\$'000	2016 HK\$'000
121–150 days	103,052	74,814
151–180 days	74,623	60,508
	177,675	135,322

Movement in the allowance for doubtful debts

	2017 HK\$'000	2016 HK\$'000
At 1st January	45,014	34,176
Exchange realignment	3,484	(1,910)
Allowances recognised on receivables	13,878	12,748
At 31st December	62,376	45,014

22. OTHER RECEIVABLES AND PREPAYMENTS

	2017 HK\$'000	2016 HK\$'000
Prepayments for property marketing projects	72,569	40,702
Rental deposits	36,463	27,346
Security deposits paid to property developers	79,968	9,425
Advances to staffs	7,078	6,807
Other receivables and deposits	61,157	39,599
	257,235	123,879

23. AMOUNT DUE FROM A JOINT VENTURE

The amount is non-trade nature, unsecured, interest-free and repayable on demand. In the opinion of the directors of the Company, the amount is expected to be recovered within twelve months from the end of the reporting period.

24. HELD FOR TRADING INVESTMENTS

	2017 HK\$'000	2016 HK\$'000
Listed securities:		
— Equity securities issued in the PRC	6,849	3,735
— Equity securities listed in Hong Kong	—	2,512
	6,849	6,247

25. BANK BALANCES AND CASH

Bank balances and cash comprises cash held by the Group and short-term bank deposits that are interest-bearing at market interest rate ranging from 0.01% to 4.5% (2016: 0.01% to 5.60%) and have original maturity of three months or less.

The Group's bank balances and cash that are not denominated in the functional currencies of the respective entities are as follows:

	2017 HK\$'000	2016 HK\$'000
HK\$	6,179	7,979

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

26. ASSETS CLASSIFIED AS HELD FOR SALE

The Group entered into an equity transfer agreement with another shareholder (the "Purchaser") of Shanghai Kepler, an entity in which the Group held 45% equity interest and classified as interest in a joint venture, on 10th November, 2017 for the disposal of the Group's entire equity interest in Shanghai Kepler to him (the "Disposal"). The consideration of the Disposal is RMB26,000,000 (approximately HK\$31,140,000) and according to the agreement, the consideration is to be settled by instalments, RMB23,000,000 (approximately HK\$27,545,000) is to be settled on or before 30th June, 2018 while remaining balance of RMB3,000,000 (approximately HK\$3,595,000) is to be settled before 31st December, 2018. As stipulated in the agreement, the 45% equity interest will be transferred to the Purchaser upon receipt of first instalment payment.

No dividend is expected to be distributed by Shanghai Kepler up to the date of the Disposal and the Disposal is expected to be completed within twelve months from the end of the current reporting period. Upon completion of the Disposal, it is estimated that the proceeds of the Disposal would not be less than the carrying amount of the assets. No impairment loss has been recognised on the assets which were classified as assets held for sale during the year.

27. PAYABLES AND ACCRUALS

	2017 HK\$'000	2016 HK\$'000
Receipts in advance (note)	182,309	279,376
Accrued other taxation	42,124	47,553
Accrued operating expenses	109,941	113,025
Deposits received on behalf of property developers	51,820	67,416
Temporary receipts from customers	17,479	25,894
Accrued staffs costs	79,021	84,657
Other payables and accruals	36,628	41,438
	519,322	659,359

Note: The receipts in advance mainly represent receipts in advance from potential property purchasers.

28. BANK AND OTHER BORROWINGS

	2017 HK\$'000	2016 HK\$'000
Secured bank borrowing	113,784	–
Other borrowings	606,788	–
Collateralised borrowings on loan receivables (note 20)	143,133	251,469
	863,705	251,469
The maturity of the bank and other borrowings is analysed as follows:		
Within 1 year	589,454	251,469
Between 1 and 2 years	270,120	–
Between 2 and 5 years	4,131	–
	863,705	251,469
Less: amounts due within 1 year shown under current liabilities	(589,454)	(251,469)
Amounts due after 1 year shown under non-current liabilities	274,251	–

As at 31st December, 2017, bank borrowing of the Group was secured by certain of the Group's investment properties and leasehold land and buildings. Details of pledge of assets are set out in note 34.

The Group's bank and other borrowings carry interest at both variable and fixed rates and effective interest rates on the Group's borrowings are as follows:

	2017 HK\$'000	2016 HK\$'000
Effective interest rate:		
Variable-rate bank borrowings of 6.2% (2016: nil)	47,904	–
Fixed-rate bank borrowings of 5.2% (2016: nil)	65,880	–
Fixed-rate other borrowings range from 7.5%–13% (2016: 6%–10.5%)	749,921	251,469
	863,705	251,469

As at 31st December, 2017 and 2016, the Group's borrowings are all denominated in RMB.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

29. SHARE CAPITAL

	Number of shares	Nominal amounts HK\$'000
Ordinary shares of HK\$0.01 each		
Authorised:		
At 1st January, 2016, 31st December, 2016 and 2017	8,000,000,000	80,000
Issued and fully paid:		
At 1st January, 2016, 31st December, 2016 and 2017	667,998,808	6,680

30. DEFERRED TAX LIABILITIES

The following are the major deferred tax liabilities recognised and movements thereon during the current and prior years:

	Revenue recognised for accounting purpose but not for tax purpose HK\$'000	Fair value of investment properties HK\$'000	Accelerated tax depreciation HK\$'000	Total HK\$'000
At 1st January, 2016	21,680	12,360	17,111	51,151
Exchange adjustments	(1,312)	(802)	(958)	(3,072)
Charge to profit or loss (note 9)	3,599	4,015	65	7,679
At 31st December, 2016	23,967	15,573	16,218	55,758
Exchange adjustments	1,781	1,023	1,256	4,060
Charge (credit) to profit or loss (note 9)	3,257	(5,369)	5,068	2,956
At 31st December, 2017	29,005	11,227	22,542	62,774

30. DEFERRED TAX LIABILITIES (Continued)

At 31st December, 2017, the Group's PRC subsidiaries had unused tax losses of HK\$106,724,000 (2016: HK\$79,114,000) not recognised available for offset against future profits. An analysis of the expiry dates of the tax losses is as follows:

	2017 HK\$'000	2016 HK\$'000
2017	–	2,991
2018	2,693	2,693
2019	2,680	2,706
2020	18,875	26,642
2021	35,833	44,082
2022	46,643	–
	106,724	79,114

In addition, the Group (other than its subsidiaries in the PRC) had unused tax losses of HK\$109,152,000 (2016: HK\$88,002,000) available for offset against future profits. Such unrecognised tax losses may be carried forward indefinitely.

No deferred tax asset has been recognised in respect of such tax losses due to the unpredictability of future profit streams.

Under the EIT Law of PRC, withholding tax is imposed on dividends declared in respect of profits earned by PRC subsidiaries from 1st January, 2008 onwards. Deferred taxation has not been provided for in the consolidated financial statements in respect of the temporary differences attributable to accumulated profits of the PRC subsidiaries amounting to HK\$2,316,181,000 (2016: HK\$1,923,588,000) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

31. ACQUISITION OF PARTIAL INTERESTS IN SUBSIDIARIES FROM NON-CONTROLLING INTERESTS

During the year ended 31st December, 2017, the Group acquired 10% equity interest in Asia Asset Property (China) Limited ("Asia Asset") with a cash consideration of HK\$2,114,000, from a non-controlling shareholder of Asia Asset, then Asia Asset became a wholly-owned subsidiary of the Group. For the difference of HK\$20,067,000 between the consideration and the carrying amount of the attributable non-controlling interest, HK\$10,420,000 was credited to special reserve, HK\$2,962,000 was debited to the translation reserve and HK\$12,609,000 was credited to retained profits.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

32. DEEMED DISPOSAL OF PARTIAL INTERESTS IN SUBSIDIARIES

In January 2016, Asia Asset, the controlling shareholder of Asia Asset (Guangzhou), a 90% indirectly-owned subsidiary of the Group, transferred its 14.5% equity interest of Asia Asset (Guangzhou) to 廣州盈隆資訊科技有限公司 (“廣州盈隆”), 廣州盈峰資訊科技有限公司 (“廣州盈峰”) and 上海亦留資訊科技有限公司 (“上海亦留”) at HK\$2,751,000, HK\$2,237,000 and HK\$2,682,000 respectively. The equity interest of Asia Asset (Guangzhou) held by the Group was then diluted to 76.95%, in which the Group continuously has control over Asia Asset (Guangzhou) and its subsidiaries after dilution. The consideration received from this deemed disposal amounting to HK\$7,670,000 was credited to special reserve and the non-controlling interests amounting to HK\$9,003,000 which is measured by reference to proportionate shares of the 13.05% net assets of Asia Asset (Guangzhou) and its subsidiaries was recognised at the date of deemed disposal.

The shareholders of both 廣州盈隆 and 廣州盈峰 are the employees of the Group while the shareholder of 上海亦留 is the consultant of the Group. There is no vesting condition and those shares being transferred are vested immediately. These equity instruments had been granted at the acquisition date and were measured in accordance with HKFRS 2 *Share-based Payment* with fair value of HK\$13,135,000. The fair value of services received is determined at the date of equity transferred which was expensed to profit or loss with a corresponding increase in equity (special reserve).

This fair value has been determined using cash flow projections based on financial budgets approved by management covering a five-year period, and a discount rate of 14.68%. The set of cash flows beyond five-year period are extrapolated using a decelerating growth rate from 10% to 5%, as determined by management. Other key assumptions for the cash flow projections relate to the estimation of cash inflows/outflows which include budgeted building management fees and respective profit margin, such estimation is based on its past performance and management's expectations for the market development. No expected dividends were incorporated into the measurement of fair value.

33. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

The table below details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or the future cash flows will be, classified in the Group's consolidated statement of cash flows from financing activities.

	Bank and other borrowings HK\$'000	Dividend Payables HK\$'000	Total HK\$'000
At 1st January, 2017	251,469	–	251,469
Financing cash flows	545,096	(90,180)	454,916
Foreign exchange	28,660	–	28,660
Finance costs incurred during the year	38,480	–	38,480
Dividends to shareholders of the Company	–	90,180	90,180
At 31st December, 2017	863,705	–	863,705

34. PLEDGE OF ASSETS

The Group had pledged the following assets for banking facilities granted to the Group:

	2017 HK\$'000	2016 HK\$'000
Investment properties	41,126	–
Leasehold land and buildings	21,582	–
	62,708	–

35. OPERATING LEASES

The Group as lessee

The Group made minimum lease payments under operating leases in respect of office premises and shops of HK\$207,150,000 (2016: HK\$174,292,000).

At the end of the reporting period, the Group had commitments for future minimum lease payments under non-cancellable operating leases which fall due as follows:

	2017 HK\$'000	2016 HK\$'000
Within one year	181,180	149,904
In the second to fifth year inclusive	374,723	298,238
Over five years	51,116	25,548
	607,019	473,690

Operating lease payments represent rentals payable by the Group for certain of its office premises and shops. Leases are negotiated and rentals are fixed for lease terms of one to ten years (2016: one to ten years).

The Group as lessor

Property rental income, net of negligible outgoings, earned during the year was HK\$6,014,000 (2016: HK\$3,852,000). All of the investment properties held have committed tenants for the next one to eight years (2016: one to nine years).

At the end of the reporting period, the Group had contracted with tenants for the following future minimum lease payments:

	2017 HK\$'000	2016 HK\$'000
Within one year	3,616	4,543
In the second to fifth year inclusive	7,253	10,967
Over five years	–	230
	10,869	15,740

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

36. SHARE OPTIONS SCHEME

The Company's share option scheme (the "Old Scheme"), was adopted pursuant to a resolution passed on 24th June, 2004 for the primary purpose of providing incentives or rewards to directors, eligible employees and advisors and consultants of the Group for their contributions to the Group. The Old Scheme became effective upon the listing of the Company's shares on the Stock Exchange on 15th July, 2004 and expired on 23rd June, 2014. The Company's new share option scheme (the "New Scheme"), was adopted pursuant to a resolution passed in an annual general meeting on 6th June, 2014. Under the New Scheme, the board of directors of the Company (the "Board") may grant options to eligible employees, including directors of the Company and its subsidiaries, to subscribe for shares in the Company. The New Scheme, unless otherwise cancelled or amended, will remain in force for 10 years from the date of its adoption on 6th June, 2014.

The offer of the grant of share options may be accepted within 28 days from the date of the offer, at a consideration of HK\$1, payable by the grantee upon the acceptance of the offer. The options may be exercised at any time within the period commencing from the date of grant of the option and expiring on the date following 10 years from the date of acceptance of the grant of the options. Unless otherwise determined by the executive directors, the New Scheme does not require a minimum period for which the options must be held or a performance target which must be achieved before the options can be exercised.

The subscription price of the share options is determinable by the directors, but shall be the highest of (i) the closing price of the shares as stated in the Stock Exchange's daily quotation sheet on the date of grant, which must be a business day; (ii) the average closing price of the shares as stated in the Stock Exchange's daily quotation sheet for the five business days immediately preceding the date of grant; and (iii) the nominal value of a share of the Company.

Pursuant to the New Scheme, the maximum number of shares in the Company in respect of which options may be granted when aggregated with any other share option scheme of the Company must not exceed 10% of the issued share capital of the Company as at the date of adoption of the New Scheme (i.e. 52,370,190 shares). Subject to the issue of a circular and the approval of the shareholders of the Company in general meeting and/or such other requirements prescribed under the Listing Rules from time to time, the Board may refresh the limit at any time to 10% of the total number of shares in issue as at the date of approval by the shareholders of the Company in general meeting. Notwithstanding the foregoing, the shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the New Scheme and any other share option schemes of the Company at any time shall not exceed 30% of the shares in issue from time to time.

No option may be granted to any person if the total number of shares of the Company already issued and issuable to him under all the options granted to him in any 12-month period up to and including the date of grant exceeding 1% of total number of shares in issue as at the date of grant. Any further grant of options in excess of this 1% limit shall be subject to the issue of a circular by the Company and the approval of the shareholders in general meeting. Such participant and his associate (as defined in the Listing Rules) have to abstain from voting and/or comply with other requirements prescribed under the Listing Rules from time to time. Options granted to substantial shareholders or independent non-executive directors in excess of 0.1% of the Company's shares in issue and with a value in excess of HK\$5 million within any 12-month period must be approved in advance by the Company's shareholders.

The outstanding share options granted under the Old Scheme shall continue to be valid and exercisable.

36. SHARE OPTIONS SCHEME (Continued)

The following table disclose movements of the Company's share options under the Old Scheme held by directors and employees during the year, all the options have vesting date of 2nd July, 2013, exercisable period from 15th July, 2013 to 31st December, 2016 and exercise price of HK\$2.55 per share:

Directors	Outstanding at 1st January, 2016	Granted during the year	Lapsed during the year	Exercised during the year	Outstanding at 31st December, 2016 and 2017
Ms. FU Man	3,984,000	-	(3,984,000)	-	-
Mr. LO Yat Fung	3,920,000	-	(3,920,000)	-	-
Mr. LAM King Pui	296,000	-	(296,000)	-	-
Directors in aggregate	8,200,000	-	(8,200,000)	-	-
Employees in aggregate	2,856,000	-	(2,856,000)	-	-
Total	11,056,000	-	(11,056,000)	-	-
Exercisable at the end of the year					-
Weighted average exercise price	HK\$2.55	N/A	HK\$2.55	N/A	N/A

No options were granted during the years ended 31st December, 2017 and 2016.

37. RETIREMENT BENEFITS SCHEMES

The Group operates a MPF Scheme for all qualifying employees in Hong Kong. MPF Scheme is a defined contribution scheme in accordance with the principle of Mandatory Provident Fund Scheme Ordinance. The Group contributes 5% of relevant payroll costs which limited to HK\$18,000 (2016: HK\$18,000) per annum of each individual employee to the Scheme, where contribution is matched by employees. Any forfeited contributions in respect of unvested benefits of staff leavers will be used to reduce the Group's contributions. The assets of the schemes are held separately from those of the Group, in funds under the control of trustees.

The employees of the Group's subsidiaries in the PRC are members of a state-managed retirement benefits scheme operated by the government of the PRC. The subsidiaries are required to contribute a specified percentage of payroll costs to the retirement benefits scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefits scheme is to make the specified contributions.

The contributions paid and payable to the schemes by the Group in respect of the year which were charged to profit or loss amounted to HK\$194,148,000 (2016: HK\$143,533,000).

38. RELATED PARTY DISCLOSURES

Compensation of key management personnel

The remuneration of key management during the year is as follows:

	2017 HK\$'000	2016 HK\$'000
Fees, salaries and other benefits	13,284	10,438
Retirement benefits scheme contributions	63	54
	13,347	10,492

The remuneration of key management including directors and key executives is determined by the remuneration committee having regard to the performance of individuals and market trends.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

39. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debts, which includes the bank and other borrowings as disclosed in note 28, net of cash and cash equivalents disclosed in note 25, and equity attributable to owners of the Company, comprising issued share capital, reserves and retained profits.

The directors of the Company review the capital structure periodically. As part of this review, the directors consider the cost of capital and the risks associated with the capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends and new share issues as well as the issue of new debts or the redemption of existing debts.

40. FINANCIAL INSTRUMENTS

40a. Categories of financial instruments

	2017 HK\$'000	2016 HK\$'000
Financial assets		
Loans and receivables (including cash and cash equivalents)	3,904,906	3,125,565
Held for trading investments	6,849	6,247
Financial liabilities		
Amortised cost	915,525	313,721

40b. Financial risk management objectives and policies

The Group's major financial instruments include accounts receivables, amount due from a joint venture, loan receivables, other receivables, held for trading investments, bank balances and cash, payables and bank and other borrowings. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Currency risk

Several subsidiaries of the Company have foreign currency assets, including bank balances and cash, which expose the Group to foreign currency risk.

The carrying amounts of the Group's foreign currency denominated monetary assets at the reporting date are as follows:

	Assets	
	2017 HK\$'000	2016 HK\$'000
HK\$	6,179	7,979

The Group currently does not have a foreign exchange hedging policy. However, the management of the group monitors foreign exchange exposure and will consider hedging significant foreign exchange exposure should the need arise.

40. FINANCIAL INSTRUMENTS (Continued)

40b. Financial risk management objectives and policies (Continued)

Market risk (Continued)

Currency risk (Continued)

Sensitivity analysis

The Group is mainly exposed to the currency risk of Hong Kong dollar ("HK\$").

The following table details the Group's sensitivity to a 5% (2016: 5%) increase/decrease in HK\$ against RMB. 5% (2016: 5%) is the sensitivity rate used which represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the reporting period for a 5% (2016: 5%) change in foreign currency rates. A positive number below indicates an increase in post-tax profit where HK\$ strengthen 5% (2016: 5%) against RMB. For a 5% (2016: 5%) weakening of HK\$ against RMB, there would be an equal and opposite impact on the profit and the balance would be negative.

	HK\$ Impact	
	2017 HK\$'000	2016 HK\$'000
Profit or loss	232	299

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to loan receivables, amount due from a joint venture, fixed-rate bank borrowings and fixed-rate other borrowings.

The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank balances because these balances carry interest at prevailing rates and they are of short maturity. The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank borrowings.

The Group currently does not have any interest rate hedging policy in relation to fair value interest rate risk and cash flow interest rate risk. The directors monitor the Group's exposure on ongoing basis and will consider hedging the interest rate should the need arises.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for bank deposits, variable-rate bank balances and variable-rate bank borrowings. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period were outstanding for the whole year. A 25 basis points (2016: 25 basis points) increase or decrease is used which represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 25 basis points (2016: 25 basis points) higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31st December, 2017 would have increased/decreased by HK\$2,155,000 (2016: increase/decrease by HK\$2,958,000).

In the management's opinion, the sensitivity analysis is unrepresentative of the inherent interest rate risk as the year end exposure does not reflect the exposure during the year.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

40. FINANCIAL INSTRUMENTS (Continued)

40b. Financial risk management objectives and policies (Continued)

Market risk (Continued)

Other price risk

The Group is exposed to equity price risk through its investments in listed equity securities. The management manages this exposure by closely monitoring the price fluctuation of the investment. As at 31st December, 2017, the Group's equity price risk is mainly concentrated on the equity instruments operating in different industry sectors listed on the Stock Exchange and Shanghai Stock Exchange.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to equity price risks at the reporting date.

If the prices of the equity instrument had been 5% (2016: 5%) higher/lower and all other variables were held constant for the year ended 31st December, 2017, the Group's post-tax profit for the year would have increased/decreased by HK\$257,000 (2016: HK\$234,000) as a result of the changes in fair value of held for trading investments.

In management's opinion, the sensitivity analysis is unrepresentative of the inherent price risk as the year end exposure does not reflect the exposure during the year.

Credit risk

As at 31st December, 2017, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

The Group's concentration of credit risk by geographical locations is mainly in the PRC, which accounted for 100% (2016: 100%) of the total loan receivables, accounts receivables and amount due from a joint venture as at 31st December, 2017. The Group also has concentration of credit risk as 6.5% (2016: 6.6%) and 2.6% (2016: 2.2%) of the total accounts receivables was due from the Group's five largest customers and largest customer, respectively, whom are within the property development business segment with good reputation and satisfactory repayment history. The Group also has concentration of credit risk as 29.7% (2016: 6.8%) and 7.4% (2016: 1.4%) of the total loan receivables were due from the Group's five largest customers and largest customer, respectively.

For the amount due from a joint venture as disclosed in note 23, the management of the Group closely monitors the financial position and repayment status of the joint venture, and considers that the credit risk is limited.

Other than concentration of credit risk on loan receivables, accounts receivables and amount due from a joint venture, the Group does not have any other significant concentration of credit risk.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. With respect to the microcredit business, the Group has delegated a team responsible for determination of credit limits and credit approvals. The team monitors customers' repayment ability and requests the customers to provide guarantees. In addition, the Group reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

40. FINANCIAL INSTRUMENTS (Continued)

40b. Financial risk management objectives and policies (Continued)

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank borrowings.

In addition to the Group's own capital and earnings to finance the Group's operations, the Group relies on bank and other borrowings as additional source of liquidity. As at 31st December, 2017, the Group has bank borrowings of HK\$113,784,000 (2016: nil) and other borrowings of HK\$749,921,000 (2016: HK\$251,469,000). Furthermore, as at 31st December, 2017, the Group has unutilised bank facilities of RMB40,000,000 (approximately HK\$47,904,000) (2016: Nil).

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.

Liquidity risk tables

	Weighted average interest rate %	On demand or less than 1 month HK\$'000	1-3 months HK\$'000	3 months to 1 year HK\$'000	1-3 years HK\$'000	Total undiscounted cash flows HK\$'000	Carrying amount at 31.12.2017 HK\$'000

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

40. FINANCIAL INSTRUMENTS (Continued)

40c. Fair value measurements of financial instruments

The fair values of financial assets and financial liabilities are determined as follows:

- the fair values of financial assets and financial liabilities (excluding held for trading investments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.
- the fair values of held for trading investments are determined with reference to quoted market bid prices.

The directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their corresponding fair values.

Held for trading investment is measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets are determined (in particular, the valuation technique(s) and input(s) used).

Financial asset	Fair value as at 31st December, 2017 HK\$'000	Fair value as at 31st December, 2016 HK\$'000	Fair value hierarchy	Valuation technique(s) and key input(s)
Listed equity securities classified as held for trading investments	6,849	6,247	Level 1	Quoted bid prices in an active market

There is no transfer between level 1 and 2 in both years.

41. EVENT AFTER THE REPORTING PERIOD

On 29th January, 2018, the Company entered into a framework agreement (the "Framework Agreement") with Poly Real Estate Group Co., Ltd. ("Poly Real Estate") in relation to a proposed joint venture between the Company and Poly Real Estate for their respective primary and secondary real estate agency service businesses. Each of the Group and a wholly-owned subsidiary of Poly Real Estate will transfer its entire primary and secondary real estate agency service businesses to a joint venture company which is expected to be owned as to 55–60% by the Group and as to 40–45% by Poly Real Estate (or its wholly-owned subsidiary). The final shareholding structure of the joint venture company will be subject to further negotiations between the parties. Up to date of approving the issue of the consolidated financial statements, the transaction has not been completed.

For further details please refer to the announcement of the Company dated 29th January, 2018.

42. PARTICULARS OF PRINCIPAL SUBSIDIARIES OF THE COMPANY

(a) Details of the Group's principal subsidiaries at the end of the reporting period are set out as below:

Name of subsidiary	Place of incorporation/ registration	Class of share held	Nominal value of issued share capital/ registered capital	Attributable effective equity interest held by the Company (note a)		Principal activities	Place of operation

42. PARTICULARS OF PRINCIPAL SUBSIDIARIES OF THE COMPANY (Continued)

(a) Details of the Group's principal subsidiaries at the end of the reporting period are set out as below: (Continued)

Notes:

- (a) The Company directly holds the equity interest in Hopefluent (BVI) Limited. All other interests shown above are indirectly held by the Company.
- (b) The companies are sino-foreign equity joint ventures with limited liability.
- (c) The companies are limited liability companies.
- (d) In the PRC, it does not explicitly permit foreign-invested companies to operate a microcredit business in the PRC. Accordingly, the Group restructured a wholly-owned subsidiary, Guangzhou Wanjia Financial Services Limited ("Guangzhou Wanjia") which was established in the PRC during the year ended 31st December, 2013. After restructuring, the Group held 92% equity interest in Guangzhou Wanjia. The remaining 8% was held by two individuals who are independent to the Group. Besides, the Group also established an entity, Guangzhou Hopefluent Microcredit Business Limited ("Guangzhou Hopefluent Microcredit", formerly known as Guangzhou Bao Lai Microcredit Business Limited), which the Group held 45% (2016: 30%) equity interest with remaining 55% (2016: 70%) held by three (2016: four) individuals who are independent to the Group ("Registered Shareholders"). In order to satisfy the relevant PRC laws and regulations relating to the business, Guangzhou Wanjia, Guangzhou Hopefluent Microcredit and the Registered Shareholders have entered into a series of contractual arrangements ("Structural Contracts").

Under these Structural Contracts, the Group is able to effectively control, recognise and receive substantially all the economic benefit of the business and operations of Guangzhou Hopefluent Microcredit. In summary, the Structural Contracts enable the Group to obtain, through Guangzhou Wanjia with, among other things:

- an exclusive right to acquire, directly or through one or more nominees, from each of the owners of Guangzhou Hopefluent Microcredit, at a consideration based on the contribution to the registered capital of Guangzhou Hopefluent Microcredit as permitted under the applicable laws; and
- the right to control the management and financial and operating policies of Guangzhou Hopefluent Microcredit.

As a result, Guangzhou Hopefluent Microcredit is accounted for as a subsidiary and its financial statements have also been consolidated by the Group.

During the year ended 31st December, 2014, 8% of equity interests of Guangzhou Wanjia held by the two individuals were transferred to the Group at an aggregate consideration of RMB16,000,000 (equivalent to HK\$20,050,000). During the year ended 31st December, 2017, 15% of equity interests of Guangzhou Hopefluent Microcredit held by one individual was transferred to the Group under the restructuring arrangement as set out above. These equity transfers did not change the contractual arrangements set out above between Guangzhou Wanjia, Guangzhou Hopefluent Microcredit and the Registered Shareholders. As a result, the Group continues to account for Guangzhou Hopefluent Microcredit as a subsidiary and the effective equity interests in Guangzhou Hopefluent Microcredit change from 92% to 100%.

- (e) During the year ended 31st December, 2017, the Group has acquired the remaining 10% equity interests in Asia Asset. Asia Asset (Guangzhou) is 85.5% held by Asia Asset, which was 90% held by Sino Estate Holdings Limited, a wholly-owned subsidiary of the Group, before the acquisition. Subsequent to this acquisition, the effective shareholding in Asia Asset (Guangzhou) held by the Group has increased from 76.95% to 85.5%.
- (f) The companies are newly set up in 2017 and registered in Australia with limited liability.
- (g) Hopefluent Realty is 75% held by Hopefluent Australia, which is 60% held by the Group. The effective shareholding in Hopefluent Realty held by the Group is thus 45%.

The above table lists the subsidiaries of the Group as at 31st December, 2017 and 2016 which, in the opinion of the directors, principally affected the results or assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2017

42. PARTICULARS OF PRINCIPAL SUBSIDIARIES OF THE COMPANY (Continued)

(b) Details of non-wholly owned subsidiaries that have material non-controlling interests

The table below shows details of non-wholly owned subsidiaries of the Group that have material non-controlling interests:

Name of subsidiaries	Place of incorporation and principal place of business	Proportion of ownership of issued ordinary share capital/ registered capital held by non-controlling interests		Profit allocated to non-controlling interests		Accumulated non-controlling interests	
		2017	2016	2017	2016	2017	2016
		%	%	HK\$'000	HK\$'000	HK\$'000	HK\$'000
