FORWARD-LOOKING STATEMENTS

This prospectus supplement and the documents incorporated by reference include “forward-looking statements” within the meaning of the United States Private Securities Litigation Reform Act of 1995, including statements regarding expected future events, business prospects or financial results. The words “expect,” “anticipate,” “continue,” “estimate,” “objective,” “ongoing,” “may,” “will,” “project,” “should,” “believe,” “plans,” “intends” and similar expressions are intended to identify such forward-looking statements.

These forward-looking statements address, among others, such issues as:

- the amount and nature of future exploration, development and other capital expenditures;
- wells to be drilled or reworked;
- development projects;
- exploration prospects;
- estimates of proved oil and gas reserves;
- development and drilling potential;
- expansion and other development trends of the oil and gas industry;
- business strategy;
- production of oil and gas;
- development of undeveloped reserves;
- expansion and growth of our business and operations;
- oil and gas prices and demand;
- future earnings and cash flow; and
- our estimated financial information.

These statements are based on assumptions and analysis made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate under the circumstances. However, whether actual results and developments will meet our expectations and predictions depend on a number of risks and uncertainties which could cause our actual results, performance and financial condition to differ materially from our expectations, including those associated with fluctuations in crude oil and natural gas prices, our exploration or development activities, our capital expenditure requirements, our business strategy, whether the transactions entered into by us can complete on schedule pursuant to their terms and timetable or at all, the highly competitive nature of the oil and natural gas industry, our foreign operations, environmental liabilities and compliance requirements, and economic and political conditions in the PRC and overseas. For a description of these and other risks and uncertainties, see “Risk Factors” and other cautionary statements appearing in this prospectus supplement and the documents incorporated by reference.

Consequently, all of the forward-looking statements made in this prospectus supplement and the documents incorporated by reference are qualified by these cautionary statements. We cannot assure you that the results or developments anticipated by us will be realized or, even if substantially realized, that they will have the expected effect on us, our business or our operations.

SUMMARY

The following summary highlights information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus. It may not contain all of the information that you should consider before investing in the Notes. You should carefully read this entire prospectus supplement, as well as the accompanying prospectus and the documents incorporated by reference herein that are described under “Where You Can Find More Information About Us.”

Our Business

CNOOC Limited

We are an upstream company specializing in the exploration, development and production of oil and natural gas. We are the dominant oil and natural gas producer in offshore China and, in terms of reserves and production, we are also one of the largest independent oil and natural gas exploration and production companies in the world.

As of the end of 2017, we had net proved reserves of approximately 4.84 billion BOE including approximately 2.54 billion barrels of crude oil and 8,250 bcf of natural gas. In 2017, we had an average daily production of approximately 1,064,986 barrels of crude oil and approximately 1,300.6 mmcf of natural gas, representing a total net oil and gas production of 1.29 million BOE per day, including approximately 47,355 BOE per day under our equity method investees (except as otherwise stated, all amounts of reserve and production in this prospectus supplement include our interests in equity method investees).

Our total revenues were RMB171.4 billion, RMB146.5 billion and RMB186.4 billion in 2015, 2016 and 2017, respectively. Our profit for the year was RMB20.2 billion, RMB0.6 billion and RMB24.7 billion in 2015, 2016 and 2017, respectively.

We were incorporated with limited liability on August 20, 1999 in Hong Kong under the Hong Kong Companies Ordinance. The PRC government established CNOOC, our controlling shareholder, as a state-owned offshore petroleum company in 1982 under the Regulation of the PRC on the Exploitation of Offshore Petroleum Resources in Cooperation with Foreign Enterprises. CNOOC assumed certain responsibility for the administration and development of PRC offshore petroleum operations with foreign oil and gas companies. Prior to CNOOC's reorganization in 1999, CNOOC and its various affiliates performed both commercial and administrative functions relating to oil and natural gas exploration and development in offshore China. In 1999, CNOOC transferred all of its then current operational and commercial interests in its offshore petroleum business, including the related assets and liabilities, to us. As a result, we and our subsidiaries are the only vehicles through which CNOOC engages in oil and gas exploration, development, production and sales activities both in and outside the PRC.

Our registered office is located at 65th Floor, Bank of China Tower, One Garden Road, Central, Hong Kong, and our telephone number is +852 2213-2500. We maintain a website at www.cnooltd.com where general information about us is available. The contents of the website are not part of this prospectus supplement or the accompanying prospectus.

Morgan Securities LLC are underwriters in this offering and their affiliates may receive more than 5% of the net offering proceeds, a “conflict of interest” is deemed to exist under Rule 5121 of the Financial Industry Regulatory Authority (“FINRA”). Therefore, the offering will be made in compliance with such rule. See “Underwriting (Conflicts of Interest)—Conflicts of Interest.”

CERTAIN FINANCIAL DATA

Recent Developments

We achieved a total net production of 120.1 million barrels of oil equivalent (“BOE”) for the first quarter of 2018, representing an increase of 0.8% year-over-year.

For the first quarter of 2018, we made six new discoveries and drilled fifteen successful appraisal wells in offshore China.

Our unaudited oil and gas sales revenue reached approximately RMB42.54 billion for the first quarter of 2018, representing an increase of 10.8% year-over-year, mainly due to the significant increase in international oil prices. During the period, our average realized oil price increased by 23.0% year-over-year to US\$63.50 per barrel, which is in line with the international oil prices trend. Our average realized gas price was US\$6.47 per thousand cubic feet, representing an increase of 7.8% year-over-year, mainly due to the increased gas production of high price gas fields.

For the first quarter of 2018, our capital expenditure for exploration, development and production reached approximately RMB9.66 billion.

Non-GAAP Financial Measures

We use adjusted EBITDA to provide additional information regarding our operating performance. Adjusted EBITDA refers to our profit from operating activities before the following items: (i) depreciation, depletion and amortization and (ii) impairment and provision.

Adjusted EBITDA is not a standard measure under International Financial Reporting Standards (“IFRS”), Hong Kong Financial Reporting Standards (“HKFRS”) or generally accepted accounting principles in the United States (“U.S. GAAP”). As the oil and gas industry is capital intensive, capital expenditure requirements may have a significant impact on the operating revenues of companies with similar operating results. Therefore, we believe the investor community commonly uses this type of financial measure to assess the operating performance of companies in our market sector.

As a measure of our operating performance, we believe that the most directly comparable IFRS and HKFRS measure to adjusted EBITDA is profit from operating activities. We operate in a capital-intensive industry. We use adjusted EBITDA in addition to profit from operating activities because profit from operating activities includes certain accounting items associated with capital expenditures, such as depreciation, depletion and amortization and impairment and provision. These accounting items may vary between companies depending on the method of accounting adopted by the company. By minimizing differences in capital expenditures and the associated depreciation, amortization and impairment expenses, adjusted EBITDA provides further information regarding our operating performance and an additional measure for comparing our operating performance with other companies’ results. Funds depicted by this measure may not be available for debt service due to capital expenditure requirements and other commitments.

The following table reconciles our profit from operating activities under IFRS and HKFRS to our definition of adjusted EBITDA for the periods indicated:

	Year Ended December 31,			
	2015 (RMB)	2016 (RMB)	2017 (RMB)	2017 (US\$) ⁽¹⁾
Profit from operating activities	17,456	(2,412)	37,050	5,694
Adjustments for:				
Depreciation, depletion and amortization	73,439	68,907	61,257	9,415
Impairment and provision	2,746	12,171	9,130	1,403
ADJUSTED EBITDA	93,641	78,666	107,437	16,512

Note:

- (1) An exchange rate of US\$1 = RMB6.5063 has been used for the year ended December 31, 2017, where applicable. The usage of this exchange rate is for illustration only and does not constitute a representation that any amount has been, could have been or may be exchanged or converted at the above rate or at any other rate at all.

You should not consider our definition of adjusted EBITDA in isolation or construe it as an alternative to profit from operating activities or as an indicator of operating performance or any other standard measure under IFRS or HKFRS. Our definition of adjusted EBITDA does not account for depreciation, depletion and amortization and impairment and provision. Our adjusted EBITDA measure as described above may not be comparable to similarly titled measures used by other companies.

RISK FACTORS

In considering whether to purchase the Notes, you should carefully consider the risks described below in this prospectus supplement, in the accompanying prospectus and in the documents incorporated by reference in this prospectus supplement and the accompanying prospectus. If any of these risks actually occurs, our business, financial condition and results of operations could suffer, and you may lose all or part of your investment.

Risks Relating to the Notes and the Guarantees

The Issuer has no material assets and relies on us to make payment under the Notes

The Issuer was established specifically for the purpose of issuing indebtedness, including the Notes and will loan the proceeds from the issue of the Notes to us or to a company controlled by us. The Issuer does not and will not have any material assets other than amounts due to it from us in respect of such loan, and its ability to make payments under the Notes will depend on its receipt of timely payments from us in respect of such loan.

The Notes and the Guarantees are unsecured obligations

As the Notes and the Guarantees are unsecured obligations, the repayment of the Notes may be compromised if:

- we enter into bankruptcy, liquidation, reorganization or other winding-up proceedings;
- there is a default in payment under our future secured indebtedness or other unsecured indebtedness; or
- there is an acceleration of any of our indebtedness.

If any of these events were to occur, our assets may not be sufficient to make payments to the Issuer to pay amounts due on the Notes.

We may be unable to obtain and remit funds in foreign currencies

Our ability to satisfy our obligations to the Issuer or pursuant to the Guarantees depends in part upon the ability of our subsidiaries or affiliates in China to obtain and remit sufficient funds in foreign currencies to pay dividends to us and to repay intercompany loans. A significant portion of the revenues of our PRC subsidiaries are denominated in Renminbi. Our PRC subsidiaries must present certain documents to the State Administration of Foreign Exchange, its authorized branch or the designated foreign exchange bank, for approval before they can obtain and remit foreign currencies out of China (including, in the case of dividends, evidence that the relevant PRC taxes have been paid and, in the case of intercompany loans, evidence of the registration of the loan with the State Administration of Foreign Exchange).

Our credit ratings may not reflect all risks of your investments in the Notes

Our credit ratings are an assessment by rating agencies of our ability to pay our debts when due. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the Notes. These credit ratings may not reflect the potential impact of risks relating to the structure or marketing of the Notes. Agency ratings are not a recommendation to buy, sell or hold any security, and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating.

The insolvency laws of Hong Kong and other local insolvency laws may differ from those of other jurisdictions

Because we are incorporated under the laws of Hong Kong, any insolvency proceeding relating to us would likely involve Hong Kong insolvency laws, the procedural and substantive provisions of which may differ from comparable provisions of the local insolvency laws of jurisdictions with which you may be familiar.

A trading market for the Notes may not develop

The Notes are a new issue of securities for which there is currently no trading market. Application has been made to the HKSE for listing of, and permission to deal in, the Notes by way of debt issued to professional investors only. We and the Issuer have been advised that the underwriters intend to make a market in the Notes, but the underwriters are not obligated to do so and may discontinue such market-making activity at any time without notice. We cannot predict whether an active trading market for the Notes will develop or be sustained.

The Notes may initially be sold to a small number of investors; accordingly, a liquid trading market for the Notes may not develop. In addition, one or more of the initial investors may own a significant percentage of the Notes and may be able to exercise certain rights and powers on behalf of all holders of the Notes

The Notes may initially be sold to a small number of investors. Accordingly, a liquid trading market may not develop or be sustained, in which case you may not be able to resell your Notes at their fair market value or at all. In addition, one or more of the initial investors may purchase a significant percentage of the aggregate principal amount of the Notes in this offering. If such investor sells a material portion of the Notes at any one time, it could materially and adversely affect the trading price of the Notes. Furthermore, investors that hold a significant percentage of the Notes may be able to exercise certain rights and powers and may have significant influence on matters voted on by holders of the Notes. For example, holders of at least 25% in aggregate principal amount of the outstanding Notes may declare all the Notes to be immediately due and payable if certain types of events of default have occurred and are continuing. See also “Underwriting (Conflicts of Interest)—New Issue of Notes.”

Investment in the Notes may subject you to foreign exchange risks

The Notes are denominated and payable in U.S. dollars. If you measure your investment returns by reference to a currency other than U.S. dollars, an investment in the Notes entails foreign exchange related risks, including possible significant changes in the value of the U.S. dollar relative to the currency by reference to which you measure your investment returns, due to, among other things, economic, political and other factors over which we have no control. Depreciation of the U.S. dollar against such currency could cause a decrease in the effective yield of the Notes below their stated coupon rates and could result in a loss when the return on the Notes is translated into such currency. In addition, there may be tax consequences for you as a result of any foreign exchange gains resulting from any investment in the Notes.

Payments on the Notes may, and payments under the Guarantee will, be subject to PRC withholding tax and the Issuer may redeem each series of Notes in whole at a redemption price equal to 100% of the principal amount plus accrued and unpaid interest in the event it is required to pay additional amounts in respect of PRC withholding tax in excess of 10% because it is treated as a PRC “resident enterprise”

In the event the Issuer is treated as a PRC “resident enterprise” under the PRC Enterprise Income Tax Law, it may be required to withhold PRC tax on interest payable to non-resident holders of Notes. As of the date of this prospectus supplement, the Company is treated as a PRC “resident enterprise” and is required to withhold PRC tax on interest payable to non-resident holders of Notes with respect to the Notes pursuant to the Guarantees. If the Issuer is required to withhold PRC tax from interest payments, or the Company is required to withhold PRC tax from payments it makes pursuant to the Guarantees, the Issuer or the Company will, subject to certain exceptions, be required to pay such additional amounts as will result in receipt by a holder of Notes of such amounts as would have been received by the holder of Notes had no such withholding been required.

As described under “Description of Debt Securities and Guarantees—Optional Tax Redemption” in the accompanying prospectus, in the event the Company or the Issuer is required to pay additional amounts as a result of certain changes in, or certain changes to the official interpretation or application of, tax law (including any change or interpretation or application that results in it being required to withhold tax in excess of 10% on

interest payments as a result of the Issuer being treated as a PRC “resident enterprise” or on payments under the Guarantees), the Issuer may redeem each series of Notes in whole at a redemption price equal to 100% of the principal amount plus accrued and unpaid interest.

Non-resident holders of Notes may be subject to PRC taxes on disposition gains

If the Issuer is treated as a PRC “resident enterprise” under the Enterprise Income Tax Law and related implementation regulations in the future, any gain realized by non-resident enterprise holders of Notes from the disposition of the Notes may be regarded as derived from sources within the PRC and accordingly would be subject to 10% enterprise income tax, and any gain realized by non-resident individual holders of Notes from the disposition of the Notes may be regarded as derived from sources within the PRC and accordingly would be subject to 20% individual income tax. Applicable tax treaties may provide for lower tax rates.

Developments in other markets may adversely affect the market price of the Notes

The market price of the Notes may be adversely affected by declines in the international financial markets and world economic conditions. The market for Chinese securities is, to varying degrees, influenced by economic and market conditions in other markets, especially those in Asia. Although economic conditions are different in each country, investors’ reactions to developments in one country can affect the securities markets and the securities of issuers in other countries, including China. Since the subprime mortgage crisis in 2008, the international financial markets have experienced significant volatility. If similar developments occur in the international financial markets in the future, the market price of the Notes could be adversely affected.

USE OF PROCEEDS

The aggregate proceeds from this offering, after deducting underwriting commissions and estimated offering expenses payable by the Issuer and us, are estimated to be approximately US\$1,437.5 million.

The Issuer will loan the proceeds of this offering to us or a company controlled by us. The proceeds will be used in part to repay all or part of certain outstanding borrowings of our wholly-owned subsidiary Nexen Energy Capital Management U.S.A. Inc. Up to approximately US\$500 million, or approximately 35%, of the proceeds from this offering are expected to be used to repay the lenders that act as or are otherwise affiliated with certain underwriters of this offering. See “Underwriting (Conflicts of Interest).” The remaining proceeds from this offering, if any, will be used for general corporate purposes.

The foregoing represents our current intentions to use and allocate the proceeds of this offering based upon our present plans and business conditions. Our management, however, will have significant flexibility and discretion to apply the proceeds from the issuance of the Notes. If an unforeseen event occurs or business conditions change, we may use the proceeds from the issuance of the Notes differently than as described in this prospectus supplement.

In utilizing the proceeds from the issuance of the Notes, under PRC laws and regulations, we, as an offshore holding company, are permitted to provide funding to our PRC subsidiaries and consolidated affiliates only through loans or capital contributions and to other entities only through loans. Subject to satisfaction of applicable government registration and approval requirements, we may extend inter-company loans to our PRC subsidiaries and consolidated affiliates or make additional capital contributions to our PRC subsidiaries and consolidated affiliates to fund their capital expenditures or working capital. We cannot assure you that we will be able to obtain these government registrations or approvals on a timely basis, if at all.

DESCRIPTION OF THE NOTES AND GUARANTEES

The following description is only a summary of the material terms of the Notes and the Guarantees and does not purport to be complete. The Notes will be issued pursuant to an indenture dated as of May 5, 2015 (the “Indenture”) among the Issuer, the Company and The Bank of New York Mellon as trustee (the “trustee”), initial paying and transfer agent and initial registrar. A form of the Indenture has been filed as an exhibit to the registration statement of which this prospectus supplement and the accompanying prospectus form a part. A copy of the Notes, the Guarantees and the Indenture will also be available for inspection at the corporate trust office of the trustee. You may also request copies of the Indenture from us at our address set forth under “Where You Can Find More Information About Us” in this prospectus supplement. The holders of each series of the Notes will be bound by, and be deemed to have notice of, all the provisions of the Indenture. The following summary of certain provisions of the Notes, the Guarantees and the Indenture is subject to and qualified in its entirety by reference to the detailed provisions of the Notes, the Guarantees and the Indenture and to the Trust Indenture Act of 1939, as amended. Terms and expressions used in this section and not otherwise defined shall have the meanings given to such terms in the Notes and the Indenture. This summary supplements the description of the debt securities in the accompanying prospectus and, to the extent it is inconsistent, replaces the description in the accompanying prospectus.

General

The 2028 Notes will be issued by the Issuer in an initial aggregate principal amount of US\$1,000,000,000 and will mature on May 2, 2028, and the 2023 Notes will be issued by the Issuer in an initial aggregate principal amount of US\$450,000,000 and will mature on May 2, 2023, unless any of the 2028 Notes or the 2023 Notes are redeemed earlier pursuant to the respective terms thereof and of the Indenture. The 2028 Notes and the 2023 Notes are collectively referred to as the Notes.

The 2028 Notes will bear interest at the rate of 4.375% per annum, and the 2023 Notes will bear interest at the rate of 3.750% per annum. Interest on all series of Notes will accrue from May 2, 2018 or from and including the most recent Interest Payment Date (as defined below) to which interest has been paid or provided for, to and excluding the next Interest Payment Date or the maturity date, payable semi-annually in arrears on May 2 and November 2 in each year (each, an “Interest Payment Date”), commencing on November 2, 2018, to the persons in whose names the Notes are registered at the close of business (whether or not a Business Day) on April 17 and October 18, respectively (each an “Interest Record Date”) immediately preceding an Interest Payment Date. Interest shall be calculated on the basis of a 360-day year consisting of twelve 30-day months.

In any case where the date of maturity of the principal or interest on the Notes or the date fixed for redemption of the Notes is not a Business Day, then payment of principal or interest shall be made on the next succeeding Business Day, with the same force and effect as if made on the date of maturity or the date fixed for redemption, as the case may be, and no interest shall accrue for the period after such date. “Business Day” means a day in The City of New York, Hong Kong and the applicable place of payment other than a Saturday, Sunday or a day on which banking institutions are authorized or obligated by law or executive order to remain closed.

Notwithstanding the above, so long as the Global Note is held on behalf of Euroclear or Clearstream, each payment in respect of the Global Note will be made to the person shown as the holder in the Register at the close of business of the relevant clearing system on the Clearing System Business Day before the due date for such payments, where “Clearing System Business Day” means a weekday (Monday to Friday, inclusive) except December 25 and January 1.

The Notes shall be denominated in minimum principal amounts of US\$200,000 and in integral multiples of US\$1,000 in excess thereof.

The Notes will be the direct, unconditional, unsubordinated and unsecured obligations of the Issuer, and rank pari passu with all of its other unsecured and unsubordinated obligations (other than obligations preferred by

applicable law) and senior in priority of payment and in all other respects to all of its other Indebtedness that is designated as subordinate or junior in right of payment to the Notes.

The Notes are unconditionally guaranteed as to the payment of the principal and interest in respect thereof and all other amounts payable under the Notes by the Issuer as evidenced by the Guarantee set forth in the indenture. Each Guarantee is the direct, unconditional, unsubordinated and unsecured obligation of the Company and will rank pari passu with all of its other unsecured and unsubordinated obligations (other than obligations preferred by applicable law) and senior in priority of payment and in all other respects to all of its other Indebtedness that is designated as subordinate or junior in right of payment to the Guarantee.

The principal of, interest on, and all other amounts payable under, the Notes will be payable at the Issuer's office or agency (which initially will be the corporate trust office of The Bank of New York Mellon as paying agent, located at 101 Barclay Street, New York, NY 10286 United States of America), and the Notes may be exchanged or transferred at the Issuer's office or agency (which initially will be the office of The Bank of New York Mellon as registrar, located at 101 Barclay Street, New York, NY 10286 United States of America) or, in each case, at such other location or locations as the Issuer, in consultation with the trustee, may designate. The principal of and interest on the Notes will be made by wire transfer or otherwise in immediately available funds and payable in U.S. dollars or in such other coin or currency of the United States of America as of the time of payment is legal tender for the payment of public and private debts. Payments of interest and principal with respect to interests in the global notes will be credited to the respective accounts of the holders of such interests with DTC or its participants, including Euroclear and Clearstream, Luxembourg. See “—Notes; Delivery and Form.”

Further Issues

The 2028 Notes will be issued in an initial aggregate principal amount of US\$1,000,000,000 and the 2023 Notes will be issued in an initial aggregate principal amount of US\$450,000,000. The Company and the Issuer may, however, from time to time, without the consent of the holders of the Notes, create and issue pursuant to the Indenture, additional Notes of a series having the same terms and conditions under the Indenture as the previously outstanding Notes in all respects, except for issue date, issue price, and amount of the first payment of interest thereon. Additional Notes issued may be consolidated with and form a single series with the previously outstanding Notes of the relevant series; provided, however, that such additional Notes will not be issued under the same CUSIP, ISIN, Common Code or other identifying number as the outstanding Notes of that series unless such additional Notes are fungible with such outstanding Notes for U.S. federal income tax purposes.

Optional Redemption

Unless earlier redeemed in the limited circumstances set forth below, the 2028 Notes will mature on May 2, 2028 and the 2023 Notes will mature on May 2, 2023 at a price equal to 100% of the principal amount thereof. Except as set forth in the accompanying prospectus or below, the Notes are not redeemable at the Issuer's option.

The Company or the Issuer may, at the Company's or the Issuer's option, at any time and from time to time redeem, as applicable, any of the 2028 Notes or the 2023 Notes, in whole or in part, on not less than 30 nor more than 60 days' prior notice mailed to the holders of such Notes, with a copy provided to the trustee and the paying agent. The applicable Notes will be redeemable at a redemption price equal to the greater of (1) 100% of the principal amount of the applicable Notes to be redeemed and (2) the sum of the present values of the remaining scheduled payments of principal and interest on the applicable Notes to be redeemed (not including interest accrued to the date of redemption), discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 25 basis points in the case of the 2028 Notes or 20 basis points in the case of 2023 Notes, plus, in each case, accrued and unpaid interest on the applicable Notes to be redeemed, if any, to the date of redemption.

“Comparable Treasury Issue” means the United States Treasury security selected by an Independent Investment Banker that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the Notes to be redeemed. “Independent Investment Banker” means one of the Reference Treasury Dealers appointed by the Company.

“Comparable Treasury Price” means, with respect to any redemption date, (1) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest of such Reference Treasury Dealer Quotations, or (2) if the Company obtains fewer than three such Reference Treasury Dealer Quotations, the average of all quotations obtained.

“Reference Treasury Dealer” means each of any three investment banks of recognized standing that is a primary U.S. government securities dealer in the United States, selected by the Company in good faith.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Company, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Company by such Reference Treasury Dealer as of 5:00 p.m., New York City time, on the third Business Day preceding such date of redemption.

“Treasury Rate” means, with respect to any date of redemption, the rate per annum equal to the semi-annual equivalent yield to maturity (computed as of the third Business Day immediately preceding such redemption date) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such date of redemption.

Notification Regarding Acquisition of Notes by Related Persons

By acceptance of its Note or its interest in a Note, each holder or beneficial owner that is considered a “foreign person” that is a “related party” with respect to the Issuer or its shareholder under Section 59A(g) of the Internal Revenue Code of 1986, as amended (the “Code”) agrees to notify the Issuer of its status as such within 30 days of the acquisition of Notes or a beneficial interest therein (or if such holder or beneficial owner becomes a related party at a later date, within 30 days from such later date) so that Issuer or its shareholder can comply with their reporting requirements under Code section 6038A. Generally, a foreign person that is a related party for these purposes includes any non-U.S. person that is actually or constructively a 25% owner of the Issuer (by vote or value), a person related (within the meaning of Section 267(b) or Section 707(b)(1) of the Code) to the Issuer or a 25% owner thereof, or any person related to the Issuer within the meaning of Section 482 of the Code.

Notification to the Issuer shall be delivered, mailed or emailed to Nexen Energy ULC at 801 7th Ave SW, Calgary, AB, Canada T2P 3P7 or at Governance@nexencoold.com; Attention: Treasurer.

No Sinking Fund

The Notes will not be entitled to the benefit of any sinking fund.

Notes; Delivery and Form

The statements set forth herein include summaries of certain rules and operating procedures of DTC, Euroclear and Clearstream, Luxembourg which will affect transfers of interests in the global notes.

The Notes will be represented by one or more global notes, fully registered without interest coupons, which will be deposited with The Bank of New York Mellon, as custodian for DTC (in such capacity, the “Custodian”) and registered in the name of Cede & Co., as nominee of DTC, for the accounts of its participants, including Euroclear and Clearstream, Luxembourg.

The Notes will be issued in minimum denominations of US\$200,000 and in integral multiples of US\$1,000 in excess of that amount.

Investors may hold their interests in the global notes directly through DTC, Clearstream, Luxembourg or Euroclear, as the case may be, if they are participants in such systems, or indirectly through organizations which are participants in such systems. Clearstream, Luxembourg and Euroclear will hold interests in the global notes on behalf of their participants through customers' securities accounts in their respective names on the books of their respective depositaries, which are participants in DTC.

Transfers between participants in DTC (the "Participants") will be effected in the ordinary way in accordance with DTC rules. Transfers between participants in Clearstream, Luxembourg and Euroclear ("Clearstream Participants" and "Euroclear Participants," respectively) will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Persons who are not Participants may beneficially own interests in the global notes held by DTC only through Participants or Indirect Participants (as defined below) (including Euroclear and Clearstream, Luxembourg). So long as Cede & Co., as the nominee of DTC, is the registered owner of the global notes, Cede & Co., for all purposes, will be considered the sole holder of such Notes.

Payment of interest on and principal of the global notes will be made to Cede & Co., the nominee for DTC, as the registered owner of the global notes by wire transfer of immediately available funds. None of the Company, the Issuer, the trustee or paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the global notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interest.

The Issuer has been informed by DTC that, upon receipt of any payment of interest on or the redemption price of the global notes, DTC will credit Participants' accounts with payments in amounts proportionate to their respective beneficial interests in the global notes as shown on the records of DTC. Payments of interest on and principal of the Notes held through Clearstream, Luxembourg or Euroclear will be credited to the cash accounts of Clearstream Participants or Euroclear Participants, as the case may be, in accordance with the relevant system's rules and procedures. Payments by Participants to owners of beneficial interests in the global notes held through such Participants will be the responsibility of such Participants, as is the case with securities held by broker-dealers, either directly or through nominees, for the accounts of customers and registered in "street name."

Because DTC can only act on behalf of Participants, who in turn act on behalf of Indirect Participants and certain banks, the ability of a person having a beneficial interest in the global notes to pledge such interest to persons or entities that do not participate in the DTC system, or to otherwise take actions in respect of such interest, may be affected by the lack of a physical certificate. The laws of some states require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and such laws may impair the ability to own, transfer or pledge beneficial interests in the global notes.

So long as the Notes are represented by global notes and such global notes are held on behalf of DTC or any other clearing system, such clearing system or its nominee will be considered the sole holder of the Notes represented by the applicable global notes for all purposes under the indenture, including, without limitation, obtaining consents and waivers thereunder, and none of the Company, the Issuer or the trustee shall be affected by any notice to the contrary. None of the Company, the Issuer, the trustee or the registrar shall have any responsibility or obligation with respect to the accuracy of any records maintained by any clearing system or any Participant of such clearing system. The clearing systems will take actions on behalf of their Participants (and any such Participants will take actions on behalf of any Indirect Participants) in accordance with their standard procedures. To the extent that any clearing system acts upon the direction of the holders of the beneficial interests in the applicable global note and such beneficial holders give conflicting instructions, the applicable clearing system may take conflicting actions in accordance with such instructions.

DTC has advised the Issuer that it will take any action permitted to be taken by a holder of Notes (including, without limitation, the presentation of Notes for exchange) only at the direction of one or more Participants and only in respect of the principal amount of the Notes represented by the global note as to which such Participant or Participants have given such direction.

Clearstream, Luxembourg or Euroclear, as the case may be, will take any action permitted to be taken by a holder of Notes (including, without limitation, the presentation of Notes for exchange) on behalf of a Clearstream Participant or a Euroclear Participant only in accordance with its relevant rules and procedures and subject to its ability to effect such actions through DTC.

Although DTC, Clearstream, Luxembourg and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of interests in the global notes among Participants of DTC, Clearstream, Luxembourg and Euroclear, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the Company, the Issuer or the trustee will have any responsibility for the performance by DTC, Clearstream, Luxembourg and Euroclear, or their respective Participants or Indirect Participants, of their respective obligations under the rules and procedures governing their operations.

DTC is a limited purpose trust company organized under the laws of the State of New York, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the Uniform Commercial Code and a “Clearing Agency” registered pursuant to the provisions of Section 17A of the U.S. Securities Exchange Act of 1934. DTC was created to hold securities for its Participants and facilitate the clearance and settlement of securities transactions between Participants through electronic book-entry changes in accounts of its Participants, thereby eliminating the need for the physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and may include certain other organizations. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (“Indirect Participants”).

Euroclear and Clearstream, Luxembourg hold securities for participating organizations. They also facilitate the clearance and settlement of securities transactions between their respective Participants through electronic book-entry changes in the accounts of such Participants. Euroclear and Clearstream, Luxembourg provide various services to their Participants, including the safekeeping, administration, clearance, settlement, lending and borrowing of internationally traded securities. Euroclear and Clearstream, Luxembourg interface with domestic securities markets. Euroclear and Clearstream, Luxembourg participants are financial institutions such as underwriters, securities brokers and dealers, banks, trust companies and certain other organizations. Indirect access to Euroclear or Clearstream, Luxembourg is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Euroclear or Clearstream, Luxembourg Participant, either directly or indirectly.

The information in this section concerning DTC and DTC’s book-entry system, as well as information regarding Euroclear and Clearstream, Luxembourg, has been obtained from sources that we believe to be reliable, but neither we nor any underwriter takes responsibility for its accuracy or completeness. We assume no responsibility for the performance by DTC, Euroclear, Clearstream, Luxembourg or their respective Participants or Indirect Participants of their respective obligations, including obligations that they have under the rules and procedures that govern their operations.

Individual Notes

If DTC is at any time unwilling or unable to continue as depository and a successor depository is not appointed by the Issuer within 90 days or if there shall have occurred and be continuing an Event of Default (as described in the attached Prospectus) with respect to the Notes, the Issuer will issue individual Notes in certificated, fully registered form in exchange for the global notes. The holder of such individual Notes in certificated form may transfer or exchange such Notes by surrendering them at the office of the registrar.

TAXATION

The statements herein regarding taxation are based on the laws in force as of the date of this prospectus supplement and are subject to any changes in laws occurring after such date, which could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision of a prospective purchaser to acquire or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers are advised to consult their own tax advisors concerning the overall tax consequences of the purchase, ownership and disposition of the Notes.

The PRC

Pursuant to the Notice on Issued about the Determination of Chinese-Controlled Enterprises Registered Abroad as Resident Enterprises on the Basis of Actual Management (the “Notice”) issued by the State Administration of Taxation of the PRC (the “SAT”) on April 22, 2009, the Enterprise Income Tax Law and the Implementation Rules, which both took effect from January 1, 2008, enterprises established outside of the PRC whose “de facto management bodies” are located in the PRC are considered Chinese resident enterprises (“CREs”). According to a formal reply from the SAT in October 18, 2010, the Company is deemed as a CRE pursuant to the provisions of the Notice, the Enterprise Income Tax Law and the Implementation Rules. Accordingly, the Company is obliged to withhold PRC income tax of up to 10% on payments of interest under the Guarantees to non-PRC enterprise holders of Notes and of up to 20% on payments of interest to non-PRC individual holders of Notes. Applicable tax treaties may provide for lower rates.

As of the date of this prospectus supplement, the Issuer has not been informed by the SAT that it is deemed a CRE. If the Issuer is deemed to be a CRE for enterprise income tax purposes, among other things, the Issuer would be subject to the PRC enterprise income tax at the rate of 25% on its worldwide income. Furthermore, the Issuer would be obligated to withhold PRC income tax of up to 10% on payments of interest to non-PRC enterprise holders of Notes and of up to 20% on payments of interest to non-PRC individual holders of Notes. Under the terms of the Notes, if the Issuer is treated as a PRC resident enterprise by the SAT and is required to withhold tax on payments due under the Notes, it will, subject to certain exceptions, be required to pay such additional amounts as will result in receipt by each holder of Notes of such amounts as would have been received by such holder of Notes had no such withholding been required. See “Description of the Debt Securities and Guarantees—Additional Amounts” in the accompanying prospectus. In addition, if the Issuer is treated as a CRE, any gain realized by non-resident enterprise holders of Notes from the disposition of the Notes may be regarded as derived from sources within the PRC and accordingly would be subject to 10% enterprise income tax, and any gain realized by non-resident individual holders of Notes from the disposition of the Notes may be regarded as derived from sources within the PRC and accordingly would be subject to 20% individual income tax. Applicable tax treaties may provide for lower tax rates with respect to any PRC tax liability.

Hong Kong

The following summary contains a description of the principal tax laws of Hong Kong, as in effect on the date of this prospectus supplement, and is subject to any change in the tax laws of Hong Kong that may come into effect after such date (which may have retroactive effect).

No Hong Kong tax will be required to be withheld from payments of principal or interest on the Notes or payments by us in respect thereof under the Guarantee.

Interest on the Notes is not subject to Hong Kong profits tax, except where the interest is received by or accrued to a financial institution (as defined in the Inland Revenue Ordinance) through or from the carrying on by the financial institution of its business in Hong Kong.

Hong Kong profits tax is not chargeable in respect of capital gains from the sale of property such as the Notes. However, trading profits from the sale, disposal or redemption of the Notes by persons carrying on a trade, profession or business in Hong Kong where such profits are derived from or arise in Hong Kong from such, trade, profession or business are chargeable to profits tax currently at the rate of 16.5% on corporations and 15% on individuals. Profits from the sale of Notes affected on the HKSE will be considered to be derived from or arise in Hong Kong. Liability for Hong Kong profits tax would thus arise in respect of trading gains from the sale, disposal or redemption of the Notes realized by persons carrying on a business of trading or dealing in securities in Hong Kong.

No Hong Kong stamp duty is payable on the sale, purchase or other disposal of bonds or notes denominated otherwise than in the currency of Hong Kong, provided that the bonds or notes are not redeemable, and may not at the option of any person be redeemed, in the currency of Hong Kong. Therefore, a sale or purchase or other disposal of the Notes will not be subject to Hong Kong stamp duty.

U.S. Federal Income Taxation

The following are material U.S. federal income tax consequences to the U.S. Holders and Non-U.S. Holders described below of owning and disposing of Notes purchased in this offering at the “issue price,” which for each series of Notes will equal the first price at which a substantial amount of such Notes is sold to the public (not including bond houses, brokers or similar persons acting in the capacity of underwriters, placement agents or wholesalers), and held as capital assets for U.S. federal income tax purposes.

This discussion does not describe all of the tax consequences that may be relevant to you in light of your particular circumstances, including the possible effects of Section 451(b) of the Internal Revenue Code of 1986, as amended (the “Code”), alternative minimum tax and Medicare contribution tax consequences, and differing tax consequences that may apply if you are, for instance:

- a financial institution;
- a dealer or one of certain electing traders;
- holding Notes as part of a “straddle” or integrated transaction;
- a U.S. Holder (as defined below) whose functional currency is not the U.S. dollar;
- an entity treated as a partnership for U.S. federal income tax purposes;
- a tax-exempt entity; or
- a U.S. Holder holding the Notes in connection with a trade or business conducted outside the United States.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds the Notes, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. A partnership or a partner of a partnership holding the Notes should consult its own tax advisor.

This summary is based on the Code, administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations, as well as the income tax treaty between the United States and the PRC (the “Treaty”), all as of the date hereof, any of which may be repealed, revoked or modified (possibly with retroactive effect) so as to result in U.S. federal income tax consequences different from those discussed below. **Persons considering the purchase, ownership or disposition of Notes should consult their tax advisers concerning the application of the U.S. federal income tax laws to their particular situations, as well as any tax consequences arising under the laws of any state, local, or non-U.S. taxing jurisdiction.**

Tax consequences to U.S. Holders

This section applies only to a U.S. Holder of a Note. You are a U.S. Holder for purposes of this discussion if for U.S. federal income tax purposes you are a beneficial owner of a Note and are:

- a citizen or individual resident of the United States;
- a corporation or other entity taxable as a corporation, created or organized in or under the laws of the United States, any state therein or the District of Columbia; or
- an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

It is expected, and this discussion assumes, that the Notes of each series will be issued without “original issue discount” for U.S. federal income tax purposes. If, however, the principal amount of the Notes of any series exceeds their issue price by a specified *de minimis* amount or more, as determined under applicable Treasury Regulations, a U.S. Holder will be required to include that excess in income as original issue discount, as it accrues, in accordance with a constant-yield method based on a compounding of interest, before the receipt of cash attributable to this income.

Payments of interest. Stated interest paid on a Note will be taxable to you as ordinary interest income at the time it accrues or is received, in accordance with your method of accounting for U.S. federal income tax purposes. Interest (including payments by the Company under the Guarantee) will generally be treated as U.S.-source income for U.S. federal income tax purposes.

Sale or other taxable disposition of the Notes. You will generally recognize capital gain or loss upon the sale or other disposition of the Notes in an amount equal to the difference between the amount realized and your tax basis in the Notes. The amount realized will not include any amount attributable to accrued interest, which will be treated as described above under “—*Payments of interest.*” Your tax basis will generally equal your cost of the Notes. Gain or loss, if any, will be long-term capital gain or loss if at the time of sale or other disposition the Notes have been held for more than one year. The deductibility of capital losses is subject to limitations. Any gain or loss will generally be U.S.-source gain or loss for foreign tax credit purposes.

As described in “Taxation—The PRC,” gains from the disposition of Notes may be subject to PRC tax if the Issuer is considered to be a Chinese resident enterprise. If that were the case, your amount realized would include the gross amount of proceeds. Although gain realized on disposition of Notes would generally be characterized as U.S.-source income, if you are eligible for the benefits of the Treaty, you may be able to treat the gain as foreign-source gain for foreign tax credit purposes if the gain is subject to PRC tax. You should consult your tax adviser regarding the creditability of any PRC taxes on disposition of Notes.

Backup withholding and information reporting. You will be subject to information reporting requirements with respect to payments on the Notes and proceeds from a sale of the Notes if paid within the United States or through certain U.S.-related financial intermediaries, unless an exception applies. In addition, certain U.S. Holders may be subject to backup withholding in respect of those payments if you do not provide your taxpayer identification numbers and certify that you are not subject to backup withholding, or provide proof of an applicable exemption. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be refunded or credited against your U.S. federal income tax liability, provided that the required information is timely furnished to the Internal Revenue Service (the “IRS”).

Tax consequences to Non-U.S. Holders

This section applies only to a Non-U.S. Holder. You are a Non-U.S. Holder for purposes of this discussion if for U.S. federal income tax purposes you are a beneficial owner of a Note and are:

- a nonresident alien individual;

- a foreign corporation; or
- a foreign estate or trust.

You are not a Non-U.S. Holder for purposes of this discussion if you are a nonresident alien individual present in the United States for 183 days or more in the taxable year of disposition, or a former citizen or former resident of the United States, in either of which cases you should consult your tax adviser regarding the U.S. federal income tax consequences of owning and disposing of a Note.

Payments on the Notes. Subject to the discussions below under “Backup withholding and information reporting” and “FATCA,” payments of principal or interest to you on a Note will generally not be subject to U.S. federal income tax or withholding tax, provided that, in the case of interest:

- you do not own, actually or constructively (including through attribution as a result of being under common control with the Company), ten percent or more of the total combined voting power of all classes of stock of the Issuer or the Company entitled to vote;
- you are not a controlled foreign corporation related, directly or indirectly, to the Issuer through stock ownership;
- you certify on a properly executed IRS Form W-8BEN or IRS Form W-8BEN-E (as applicable), under penalties of perjury, that you are not a United States person; and
- the interest is not effectively connected with your conduct of a trade or business in the United States as described below.

If you cannot satisfy one of the first three requirements described above and interest on the Notes is not exempt from withholding because it is effectively connected with your conduct of a trade or business in the United States as described below, payments of interest on the Notes will be subject to withholding tax at a rate of 30%, or the rate specified by an applicable income tax treaty.

Sale or other taxable disposition of the Notes. You generally will not be subject to U.S. federal income or withholding tax on gain realized on a sale, redemption or other taxable disposition of the Notes, unless the gain is effectively connected with your conduct of a trade or business in the United States as described below, although any amounts attributable to accrued interest will be treated as described above under “—*Payments on the Notes.*”

Effectively connected income. If interest or gain from a Note is effectively connected with your conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment or fixed base maintained by you), you will generally be taxed in the same manner as a U.S. Holder. In this case, you will be required to provide a properly executed IRS Form W-8ECI in order to claim an exemption from withholding tax on interest. You should consult your tax adviser with respect to other U.S. tax consequences of owning and disposing of Notes, including the possible imposition of a branch profits tax at a rate of 30% (or a lower treaty rate) if you are a corporation.

Backup withholding and information reporting. Information returns will be filed with the IRS in connection with payments of interest on the Notes. Unless you comply with certification procedures to establish that you are not a United States person, information returns may also be filed with the IRS in connection with payment of the proceeds from a sale or other disposition of a Note, and you may be subject to backup withholding on payments on the Notes or on the proceeds from a sale or other disposition of the Notes. The certification of non-U.S. status on an IRS Form W-8BEN or IRS Form W-8BEN-E (as applicable) described above will satisfy the certification requirements necessary to avoid backup withholding as well. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to you will be allowed as a credit against your U.S. federal income tax liability and may entitle you to a refund, provided that the required information is timely furnished to the IRS.

FATCA

Legislation commonly referred to as “FATCA” generally imposes a withholding tax of 30% on payments to certain non-U.S. entities (including financial intermediaries) with respect to certain financial instruments, unless various U.S. information reporting and due diligence requirements have been satisfied. An intergovernmental agreement between the United States and the non-U.S. entity’s jurisdiction may modify these requirements.

Withholding under these rules (if applicable) applies to payments of interest on the Notes and, after December 31, 2018, to payments of gross proceeds of the sale, exchange or retirement of the Notes. You should consult your tax advisers regarding the potential application of FATCA to the Notes.

The underwriters reserve the right to withdraw, cancel or modify offers to investors and to reject orders in whole or in part. The underwriting agreement may be terminated by the underwriters in certain circumstances prior to the delivery of and payment for the Notes.

We and the Issuer have agreed to indemnify the underwriters against certain liabilities, including liabilities under the U.S. Securities Act of 1933, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

None of ICBC International Securities Limited nor its affiliates will procure purchasers to purchase Notes that may be offered or sold in the United States. ICBC International Securities Limited and its affiliates shall offer and sell Notes constituting part of their allotment solely outside the United States in accordance with Regulation S under the Securities Act.

New Issue of Notes

The Notes are a new issue of securities with no established trading market. Application has been made to the HKSE for listing of, and permission to deal in, the Notes by way of debt issue to professional investors only. We have been advised by the underwriters that they presently intend to make a market in the Notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the Notes. If an active trading market for the Notes does not develop, the market price and liquidity of the Notes may be adversely affected. If the Notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

In addition, in respect of the 2023 Notes, five institutional investors are each expected to purchase more than 5.0% of the aggregate principal amount of the 2023 Notes, including one investor who is expected to purchase 22.0%, at the initial public offering price and on the same terms as the other 2023 Notes are being offered. These five investors are expected in aggregate to initially hold approximately 67.6% of the aggregate principal amount of the 2023 Notes. Similarly, in respect of the 2028 Notes, six institutional investors are each expected to purchase more than 5.0% of the aggregate principal amount of the 2028 Notes, including one investor who is expected to purchase 38.0%, at the initial public offering price and on the same terms as the other 2028 Notes are being offered. These six investors are expected in aggregate to initially hold approximately 66.6% of the aggregate principal amount of the 2028 Notes. See “Risk Factors – Risks Relating to the Notes and the Guarantees – The Notes may initially be sold to a small number of investors; accordingly, a liquid trading market for the Notes may not develop. In addition, one or more of the initial investors may own a significant percentage of the Notes and may be able to exercise certain rights and powers on behalf of all holders of the Notes.” See also “– Other Relationships” below.

Settlement

We expect that delivery of the Notes will be made to investors on or about the closing date specified on the cover page of this prospectus supplement, which will be the fifth business day following the date of the pricing of the Notes (such settlement being referred to as “T+5”). Under Rule 15c6-1 under the U.S. Securities Exchange Act of 1934, trades in the secondary market are generally required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade Notes on the date of pricing or on the next succeeding business day will be required, by virtue of the fact that the Notes will initially settle in T+5, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the Notes who wish to trade the Notes prior to their date of delivery hereunder should consult their advisors.

No Sales of Similar Securities

We and the Issuer have each agreed that we will not, for a period of 30 days after the date of closing (which is expected to be the fifth business day following the date of this prospectus supplement), without first obtaining the prior written consent of the underwriters, offer, sell or contract to sell, or otherwise dispose of, directly or indirectly, or announce the offering of, any debt securities issued or guaranteed by us or the Issuer having a tenor of more than one year, except for the Notes sold to the underwriters pursuant to the underwriting agreement and any loans, including bilateral or syndicated loans or club deals. The underwriters in their sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

Short Positions and Stabilizing Transactions

In connection with the offering, each underwriter (or its affiliates) may purchase and sell the Notes in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing purchases. Short sales involve the sale by an underwriter of a greater principal amount of the Notes than they are required to purchase in the offering. An underwriter must close out any short position by purchasing the Notes in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the Notes in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions involve bids to purchase the Notes so long as the stabilizing bids do not exceed a specified maximum.

Similar to other purchase transactions, an underwriter's purchases to cover the syndicate short sales and stabilizing purchases may have the effect of raising or maintaining the market price of the Notes or preventing or retarding a decline in the market price of the Notes. As a result, the price of the Notes may be higher than the price that might otherwise exist in the open market.

None of us, the Issuer, or any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Notes. In addition, none of us, the Issuer, or any of the underwriters makes any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice at any time. No assurance can be given as to the liquidity of, or the trading market for, the Notes.

Notice to Prospective Investors in Singapore

This prospectus supplement and the accompanying prospectus have not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus supplement, the accompanying prospectus, and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Notes may not be circulated or distributed, nor may the Notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to compliance with conditions set forth in the SFA.

- where the transfer is by operation of law; or
- as specified in Section 276(7) of the SFA; or

Other Relationships

The underwriters and their affiliates have in the past engaged, and may in the future engage, in transactions with and perform services, including financial advisory and investment banking services, for us, the Issuer and our respective affiliates in the ordinary course of business, for which they received or will receive customary fees and expenses. We, the Issuer and our respective affiliates may enter into hedging or other derivative transactions as part of our risk management strategies with one or more of the underwriters, which may include transactions relating to our obligations under the Notes. Our and the Issuer' obligations under these transactions may be secured by cash or other collateral.

The underwriters or certain of their affiliates may purchase the Notes and be allocated the Notes for asset management and/or proprietary purposes but not with a view to distribution. In particular, affiliates of Bank of China Limited are in aggregate expected to purchase approximately 20.4% of the aggregate principal amount of the 2023 Notes and approximately 7.6% of the aggregate principal amount of the 2028 Notes for asset management and/or proprietary purposes and not with a view to distribution. See “– New Issue of Notes” above.

The underwriters or their respective affiliates may purchase the Notes for their own account and enter into transactions, including credit derivatives, such as asset swaps, repackaging and credit default swaps relating to the Notes and/or other securities of us, the Issuer or our respective subsidiaries or associates at the same time as the offer and sale of the Notes or in secondary market transactions. Such transactions would be carried out as bilateral trades with selected counterparties and separately from any existing sale or resale of the Notes to which this prospectus supplement relates (notwithstanding that such selected counterparties may also be purchasers of the Notes). Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Notes offered hereby. Any such short positions could adversely affect future trading prices of the Notes offered hereby. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Certain of the underwriters or their affiliates have a lending relationship with us. In connection with certain outstanding borrowings of our wholly-owned subsidiary Nexen Energy Capital Management U.S.A. Inc., Citibank, N.A., JPMorgan Chase Bank, N.A. and several other financial institutions acted as original lenders. The proceeds from this offering will be applied to pay a portion of our borrowings under these loan facilities, and as a result, the affiliates of Citigroup Global Markets Inc. and J.P. Morgan Securities LLC named above may receive a portion of the net proceeds from the sales of the Notes.

Conflicts of Interest

Because Citigroup Global Markets Inc. and J.P. Morgan Securities LLC are underwriters in this offering and their affiliates named above may receive more than 5% of the net proceeds from the sales of the Notes, a “conflict of interest” is deemed to exist under FINRA Rule 5121. Accordingly, this offering will be made in compliance with the applicable provisions of FINRA Rule 5121 and such underwriters will not sell any of the Notes to discretionary accounts without the specific written approval of the account holder.

LEGAL MATTERS

Certain legal matters with respect to the Notes and the Guarantees will be passed upon for us by Davis Polk & Wardwell LLP, New York, New York, as to matters of United States federal securities and New York State law, by Davis Polk & Wardwell, Hong Kong, as to matters of Hong Kong law, respectively. Certain legal matters with respect to the Notes and the Guarantees will be passed upon for the underwriters by Linklaters, as to matters of United States federal securities and New York State law, and by Jun He Law Offices Beijing, China, as to matters of PRC law.

Our business, financial condition, results of operations and prospects may have changed since those dates.

In this prospectus, unless otherwise indicated, references to “we,” “us,” “our” and the “Company” refer to CNOOC Limited, or CNOOC Limited and its subsidiaries, including CNOOC Finance (2015) U.S.A. LLC (the “Issuer”), as the context requires. References to “CNOOC” are to China National Offshore Oil Corporation and its subsidiaries (other than CNOOC Limited and its subsidiaries). References to “China” and the “PRC” refer to the People’s Republic of China and, solely for the purpose of this prospectus, exclude the Hong Kong Special Administrative Region, the Macau Special Administrative Region and Taiwan.

CNOOC LIMITED

We are an upstream company specializing in the exploration, development and production of oil and natural gas. We are the dominant oil and natural gas producer in offshore China and, in terms of reserves and production, we are also one of the largest independent oil and natural gas exploration and production companies in the world.

We were incorporated with limited liability on August 20, 1999 in Hong Kong under the Hong Kong Companies Ordinance. The PRC government established CNOOC, our controlling shareholder, as a state-owned offshore petroleum company in 1982 under the Regulation of the PRC on the Exploitation of Offshore Petroleum Resources in Cooperation with Foreign Enterprises. CNOOC assumed certain responsibility for the administration and development of PRC offshore petroleum operations with foreign oil and gas companies. Prior to CNOOC's reorganization in 1999, CNOOC and its various affiliates performed both commercial and administrative functions relating to oil and natural gas exploration and development in offshore China. In 1999, CNOOC transferred all of its then current operational and commercial interests in its offshore petroleum business, including the related assets and liabilities, to us. As a result, we and our subsidiaries are the only vehicles through which CNOOC engages in oil and gas exploration, development, production and sales activities both in and outside the PRC.

Our registered office is located at 65th Floor, Bank of China Tower, One Garden Road, Central, Hong Kong, and our telephone number is +852 2213-2500. We maintain a website at www.cnooltd.com where general information about us is available. The contents of the website are not part of this prospectus.

THE ISSUER

CNOOC Finance (2015) U.S.A. LLC is our indirect wholly-owned subsidiary and was formed as a limited liability company on March 23, 2015 in the State of Delaware. It has no material assets and will conduct no business except in connection with the issuance of debt securities and the advance of proceeds from such issuance to us or a company controlled by us. So long as the applicable series of debt securities are outstanding, CNOOC Finance (2015) U.S.A. LLC will limit its permitted activities as described under "Description of Debt Securities and Guarantees—Certain Covenants—Limitation on Issuer's Activities." Its registered office is located at the offices of its registered agent, Corporation Service Company, at 251 Little Falls Drive, Wilmington, Delaware, U.S.A. 19808. Its telephone number is 302-636-5400.

CNOOC Finance (2015) U.S.A. LLC is treated as a disregarded entity for U.S. federal income tax purposes.

RISK FACTORS

You should consider the specific risks described in our annual report on Form 20-F for the year ended December 31, 2017 under “Item 3. Key Information—Risk Factors,” the risks described under “Risk Factors” in the applicable prospectus supplement, and any risk factors set forth in our other filings with the SEC, pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, including our reports on Form 6-K, before making an investment decision. Each of the risks described in these documents could materially and adversely affect our business, financial condition, results of operations and prospects, and could result in a partial or complete loss of your investment. See “Where You Can Find More Information About Us.”

FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated by reference include “forward-looking statements” within the meaning of the United States Private Securities Litigation Reform Act of 1995, including statements regarding expected future events, business prospects or financial results. The words “expect,” “anticipate,” “continue,” “estimate,” “objective,” “ongoing,” “may,” “will,” “project,” “should,” “believe,” “plans,” “intends” and similar expressions are intended to identify such forward-looking statements.

These forward-looking statements address, among others, such issues as:

- the amount and nature of future exploration, development and other capital expenditures;
- wells to be drilled or reworked;
- development projects;
- exploration prospects;
- estimates of proved oil and gas reserves;
- development and drilling potential;
- expansion and other development trends of the oil and gas industry;
- business strategy;
- production of oil and gas;
- development of undeveloped reserves;
- expansion and growth of our business and operations;
- oil and gas prices and demand;
- future earnings and cash flow; and our estimated financial information.

These statements are based on assumptions and analysis made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate under the circumstances. However, whether actual results and developments will meet our expectations and predictions depend on a number of risks and uncertainties which could cause our actual results, performance and financial condition to differ materially from our expectations, including those associated with fluctuations in crude oil and natural gas prices, our exploration or development activities, our capital expenditure requirements, our business strategy, whether the transactions entered into by us can complete on schedule pursuant to their terms and timetable or at all, the highly competitive nature of the oil and natural gas industry, our foreign operations, environmental liabilities and compliance requirements, and economic and political conditions in the PRC and overseas. For a description of these and other risks and uncertainties, see “Risk Factors” and other cautionary statements appearing in this prospectus and the documents incorporated by reference.

Consequently, all of the forward-looking statements made in this prospectus and the documents incorporated by reference are qualified by these cautionary statements. We cannot assure that the results or developments anticipated by us will be realized or, even if substantially realized, that they will have the expected effect on us, our business or our operations.

USE OF PROCEEDS

Unless otherwise indicated in an accompanying prospectus supplement, the net proceeds from the sale of securities will be used for general corporate purposes.

DESCRIPTION OF DEBT SECURITIES AND GUARANTEES

We may from time to time offer in one or more series debt securities of the Issuer which would be fully and unconditionally guaranteed by the Company. The following is a description of certain general terms and provisions of the debt securities, the guarantees and an indenture (the “indenture”) entered into or to be entered into among the Issuer, the Company and The Bank of New York Mellon as trustee (the “trustee”), initial paying and transfer agent and initial registrar, the form of which has been filed as an exhibit to the registration statement of which this prospectus is a part.

This description is not complete and is subject to and qualified in its entirety by reference to all of the provisions of the indenture, including the definitions of specified terms used in the indenture, and to the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”). The particular terms of the debt securities to be offered by any prospectus supplement and the extent these general provisions may apply to such debt securities will be described in the applicable prospectus supplement. The terms of such debt securities will include those set forth in the indenture and any related documents and those made a part of the indenture by the Trust Indenture Act. You should read the description below, the applicable prospectus supplement and the provisions of the indenture and any related documents before investing in the debt securities.

Unless otherwise stated in a prospectus supplement, additional debt securities of a particular series may be issued without the consent of the holders of the debt securities of such series outstanding at the time of issuance. Any such additional debt securities, together with all other outstanding debt securities of that series, will constitute a single series of debt securities under the indenture. Such additional debt securities will have the same terms and conditions as the applicable series of debt securities in all respects (or in all respects except for the issue date, the issue price or the first payment of interest), and will vote together as one class on all matters with respect to such series of debt securities. No additional debt securities will be issued with the same CUSIP, ISIN or other identifying number as the debt securities of a series issued hereunder unless the additional debt securities are fungible with such outstanding debt securities for U.S. federal income tax purposes.

Form, Exchange and Transfer

The debt securities will be issued, unless otherwise indicated in the applicable prospectus supplement, in fully registered form without interest coupons and in minimum denominations of US\$2,000 and integral multiples of US\$1,000 in excess thereof.

The entity performing the role of maintaining the list of registered holders is called the “registrar.” It will also register transfers of the registered debt securities. You may exchange or transfer your registered debt securities at the office of the registrar. The registrar acts as the agent of the Issuer for registering debt securities in the names of holders and transferring registered debt securities. The Issuer may also arrange for additional registrars, and may change registrars. The Issuer may also choose to act as its own registrar.

You will not be required to pay a service charge for any registration of transfer or exchange of debt securities, but you may be required to pay any tax or other governmental charge associated with the registration of transfer or exchange. The registration of transfer or exchange of a registered debt security will only be made if you have duly endorsed the debt security or provided the registrar with a written instrument of transfer satisfactory in form to the registrar.

Guarantees

Under the indenture, the Company will irrevocably and unconditionally guarantee the due and punctual payment of the principal of and interest on, and all other amounts payable under (including any Additional Amounts payable in respect of), the debt securities when and as the same shall become due and payable, whether on the stated maturity, upon acceleration, by call for redemption or otherwise. The Company has (i) agreed that its obligations under the guarantees will be as if it were principal obligor and not merely surety, and will be enforceable irrespective of any invalidity, irregularity or unenforceability of the debt securities or the indenture (other than in respect of the guarantees) and (ii) waived its right to require the trustee to pursue or exhaust its legal or equitable remedies against the Issuer prior to exercising the trustee’s rights under the guarantees. The guarantees will not be discharged with respect to any debt security except by payment in full of the principal thereof, interest thereon and all other amounts payable thereunder (including any Additional Amounts payable in respect thereof). Moreover, if at any time any amount paid under a debt security is rescinded or must otherwise be restored, the rights of the holder of the debt security under the guarantee will be reinstated with respect to such payment as though such payment had not been made. All payments under the guarantees will be made in U.S. dollars.

Additional Amounts

All payments of principal and interest in respect of the debt securities of each series and/or the guarantees will be made free and clear of, and without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature (“Taxes”) imposed, levied, collected, withheld or assessed by or on behalf of the United States, Hong Kong, the PRC or any other jurisdiction in which the Issuer or the Company (or any successor to the Issuer or the Company) is resident for tax purposes, in each case including any political subdivision, territory or possession thereof, any authority therein having power to tax or any area subject to its jurisdiction, or any jurisdiction from or through which any payment is made by or on behalf of the Issuer or the Company (each, a “Relevant Taxing Jurisdiction”) unless such Taxes are required by law to be withheld or deducted. If any deduction or withholding for any present or future Taxes of the applicable Relevant Taxing Jurisdiction shall at any time be so required, the Issuer or the Company, as the case may be, shall pay such additional amounts (“Additional Amounts”) as will result (after deduction of such Taxes and any additional Taxes payable in respect of such Additional Amounts) in receipt by the holder of any debt security of such amounts as would have been received by such holder with respect to such security or the guarantee, as applicable, had no such withholding or deduction been required; provided, however, that no Additional Amounts shall be payable in respect of any debt security:

- (i) Where such Taxes would not have been imposed but for (a) the existence of any present or former connection (other than the mere holding of the debt security) between the holder (or between a fiduciary, settlor or beneficiary of the holder if such holder is an estate or a trust, or a person holding power over an estate or trust administered by a fiduciary holder or between a member or shareholder of such holder, if such holder is a partnership or corporation) or a beneficial owner of a debt security and the jurisdiction imposing such tax, assessment or other governmental charge, including, without limitation, such holder or a beneficial owner of a debt security (or such fiduciary, settlor, beneficiary, person holding a power over such holder or the member or shareholder of such holder) being or having or having been a citizen or resident thereof or being or having been engaged in a trade or business or present therein or having had a permanent establishment therein, or (b) such holder’s or beneficial owner’s past or present status as a personal holding company or private foundation or other tax-exempt organization with respect to the United States or as a corporation which accumulates earnings to avoid U.S. Federal income tax; or
- (ii) which is surrendered (where required to be surrendered) more than 30 days after the Relevant Date, except to the extent that the holder of it would have been entitled to such Additional Amounts on surrender of such Security for payment on the last day of such period of 30 days, where “Relevant Date” means whichever is the later of (A) the date on which such payment first becomes due and (B) if the full amount payable has not been received by the paying agent on or prior to such due date, the date on which, the full amount having been so received, notice to that effect shall have been given to the holders of the debt securities; or
- (iii) to a holder (or to a third party on behalf of a holder) who would have been able to avoid such withholding or deduction by duly presenting the debt security (where presentation is required) to another paying agent; or
- (iv) with respect to any Taxes imposed that would not have been imposed but for the holder or beneficial owner (a) being or having been a “10-percent shareholder” of the Issuer as defined in Sections 871(h)(3)(B) or 881(c)(3)(B) of the Internal Revenue Code of 1986, as amended (the “Code”), or any successor provisions; or (b) being a controlled foreign corporation related to the Issuer through stock ownership; or (c) being a bank receiving interest described in Section 881(c)(3)(A) of the Code; or
- (v) with respect to any Taxes that would not have been imposed but for the failure of the holder or beneficial owner to comply with any applicable certification, documentation, information, or reporting requirement concerning such holder’s or beneficial owner’s nationality, residence, identity or connection with a Relevant Taxing Jurisdiction (including, if the United States is the

Relevant Taxing Jurisdiction, the failure to comply with a request to fulfill the statement requirements of Sections 871(h)(2)(B)(ii) or 881(c)(2)(B)(ii) of the Code), if and to the extent that timely compliance with such requirement would have reduced or eliminated any withholding or deduction of such Taxes; or

- (vi) with respect to any withholding or deduction that is imposed or levied on a payment pursuant to European Council Directive 2003/48/EC (the “Savings Directive”) or any other directive implementing, replacing, amending or supplementing the Savings Directive or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- (vii) with respect to any estate, inheritance, gift, sale, transfer, personal property or similar tax, assessment or other similar governmental charge; or
- (viii) with respect to any such Taxes payable otherwise than by deduction or withholding from payments under or with respect to any debt security or the guarantee; or
- (ix) with respect to any tax, assessment, withholding or deduction required by Sections 1471 through 1474 of the Code (“FATCA”), any current or future U.S. Treasury Regulations or rulings promulgated thereunder, any intergovernmental agreement between the United States and any other jurisdiction to implement FATCA (an “IGA”), any law, regulation or other official guidance enacted in any jurisdiction implementing FATCA or an IGA, or any agreement with the U.S. Internal Revenue Service under or with respect to FATCA; or
- (x) any combination of taxes, duties, assessments or other governmental charges referred to in the preceding items (i) through (ix) above.

Additional Amounts will also not be paid with respect to any payment of the principal of or any interest on any debt security or under the guarantee to any holder of a debt security who is a fiduciary or partnership or other than the sole beneficial owner of such payment to the extent that payment would be required by the laws of the Relevant Taxing Jurisdiction to be included in the income of a beneficiary or settlor with respect to the fiduciary, a member of that partnership or a beneficial owner who would not have been entitled to the Additional Amounts had that beneficiary, settlor, member or beneficial owner been the holder of the debt securities.

Whenever there is mentioned, in any context, the payment of principal or interest in respect of any debt security or guarantee, such mention shall be deemed to include the payment of Additional Amounts provided for in the indenture to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof pursuant to the indenture.

Optional Tax Redemption

Each series of debt securities may be redeemed, at the option of the Issuer, in whole but not in part, upon notice as described below, at a redemption price equal to 100% of the principal amount thereof, together with accrued interest to, but not including, the date fixed for redemption and Additional Amounts, if any, if, as a result of any change in or amendment to the laws of a Relevant Taxing Jurisdiction with respect to the Company or such Issuer or any regulations or rulings promulgated thereunder, or any change in the official interpretation or official application of such laws, regulations or rulings, which change or amendment (i) in the case of the Company or the Issuer becomes effective on or after the date of the applicable prospectus supplement and (ii) in the case of any successor to the Company or the Issuer that is organized or tax resident in a jurisdiction that is not a Relevant Taxing Jurisdiction with respect to the Company or such Issuer as of the original issue date of the applicable series of debt securities becomes effective on or after the date such successor assumes the Company’s or the Issuer’s obligations, as applicable, under the debt securities and the indenture,

- (1) the Issuer is or would be required on the next succeeding due date for a payment with respect to the debt securities to pay Additional Amounts with respect to the debt securities as described above under “—Additional Amounts”; or

- (2) the Company is or would be unable, for reasons outside its control, on the next succeeding due date for a payment with respect to the debt securities to procure payment by the Issuer, and with respect to a payment due or to become due under the relevant guarantee or the indenture, as the case may be, the Company is or would be required on the next succeeding due date for a payment with respect to the debt securities to pay Additional Amounts as described above under “—Additional Amounts”; or
- (3) any payment to the Issuer by the Company or any of its wholly-owned subsidiaries to enable the Issuer to make payment of interest or Additional Amounts, if any, on the debt securities is or would be on the next succeeding due date for a payment with respect to the debt securities subject to withholding or deduction for taxes imposed by a Relevant Taxing Jurisdiction or any authority therein or thereof having power to tax,

and such obligation cannot be avoided by the use of reasonable measures available to the Company or the Issuer, as the case may be.

Notwithstanding anything to the contrary herein, the Company, the Issuer or any successor person may not redeem the debt securities in the case that Additional Amounts are payable in respect of PRC withholding tax at a rate of 10% or less solely as a result of the Company, the Issuer or a successor person being considered a PRC tax resident under the PRC Enterprise Income Tax Law.

Notice of redemption of the debt securities as provided above shall be given not less than 30 nor more than 60 calendar days prior to the date fixed for redemption. Notice having been given, the debt securities of such series shall become due and payable on the date fixed for redemption and will be paid at the redemption price, together with accrued interest to, but not including, the date fixed for redemption and any Additional Amounts, at the place or places of payment and in the manner specified in the notice. From and after the date fixed for redemption, if moneys for the redemption of such debt securities shall have been made available as provided in the indenture for redemption on the date fixed for redemption, the debt securities shall cease to bear interest, and the only right of the holders of the debt securities shall be to receive payment of the redemption price and interest accrued to, but not including, the date fixed for redemption.

Modification and Waiver

The indenture contains provisions permitting the Company, the Issuer and the trustee, without the consent of the holders of the applicable series of debt securities, to execute supplemental indentures for certain enumerated purposes, including any amendment solely to conform the indenture to the applicable prospectus supplement (as amended and supplemented) and, with the consent of the holders of not less than a majority in aggregate principal amount of the applicable series of debt securities then outstanding under the indenture, to change or modify in any manner the rights of the holders of the debt securities of the applicable series, provided that no such modification or amendment may, without the consent of the holder of each such debt security affected thereby, among other things:

- (i) change the stated maturity of the debt securities;
- (ii) reduce the principal amount of or payments of interest on any such debt security;
- (iii) change any obligation of the Company or the Issuer to pay Additional Amounts;
- (iv) change the currency or place of payment of the principal of or interest on such debt security;
- (v) impair the right to institute suit for the enforcement of any payment due on or with respect to any such debt security;
- (vi) reduce the above stated percentage of outstanding debt securities necessary to modify or amend the indenture;

- (vii) reduce the percentage of the aggregate principal amount of outstanding debt securities necessary for waiver of compliance with certain provisions of the indenture or for waiver of certain defaults;
- (viii) change, in any manner adverse to the interest of holders of the debt securities, the terms and provisions of the guarantees in respect of the due and punctual payment of principal of and interest on the debt securities;
- (ix) reduce the premium payable upon the redemption or repurchase of any debt security of such series or change the time at which any debt security of such series may be redeemed or required to be repurchased as described in the applicable prospectus supplement; or
- (x) modify such provisions with respect to modification and waiver.

The holders of not less than a majority in aggregate principal amount of the debt securities then outstanding of a series may, on behalf of holders of all the debt securities of that series, waive compliance by the Company or the Issuer with certain restrictive provisions of the indenture. The holders of not less than a majority in aggregate principal amount of the debt securities of a series may on behalf of all holders of debt securities waive any existing or past default under the indenture for the debt securities, except a continuing default in the payment of principal of, or interest on, any debt security then outstanding or in respect of a covenant or provision which under such indenture cannot be modified or amended without the consent of the holder of each debt security then outstanding affected thereby. Any such waivers will be conclusive and binding on all holders of the debt securities of a series, whether or not they have given consent to such waivers, and on all future holders of such debt securities, whether or not notation of such waivers is made upon such debt securities. Any instrument given by or on behalf of any holder of a debt security in connection with any consent to any such waiver will be irrevocable once given and will be conclusive and binding on all subsequent holders of such debt security.

Certain Covenants

Limitation on Liens

The indenture provides that the Company will not, and will not permit the Issuer or any Principal Subsidiary to, create, incur, assume or permit to exist any Lien upon any of its property or assets, now owned or hereafter acquired, to secure any Indebtedness of the Company, the Issuer or such Principal Subsidiary (or any guarantees or indemnity in respect thereof) without, in any such case, making effective provision whereby the debt securities and the guarantees will be secured either at least equally and ratably with such Indebtedness or by such other Lien as shall have been approved by the holders of the debt securities as provided in the indenture, for so long as such Indebtedness will be so secured, unless, after giving effect thereto, the aggregate outstanding principal amount of all such secured Indebtedness (including the Attributable Value of the Sale and Leaseback Transactions set forth below) entered into after the original issue date of the relevant series of debt securities does not exceed 50% of the Company's Adjusted Consolidated Net Worth.

The foregoing restriction will not apply to:

- (i) any Lien which is in existence prior to the original issue date of the debt securities and any replacement thereof created in connection with the refinancing (together with interest, fees and other charges attributable thereto) of the Indebtedness originally secured (but the principal amount secured by any such Lien may not be increased);
- (ii) any Lien arising or already arisen automatically by operation of law which is promptly discharged or disputed in good faith by appropriate proceedings; provided that any reserve or other appropriate provision required by IFRS IASB shall have been made therefor;
- (iii) any Lien over goods (or any documents relating thereto) arising either in favor of a bank issuing a form of documentary credit in connection with the purchase of such goods or by

way of retention of title by the supplier of such goods where such goods are supplied on credit, subject to such retention of title, and in both cases where such goods are acquired in the ordinary course of business;

- (iv) any right of set-off or combination of accounts arising in favor of any bank or financial institution as a result of the day-to-day operation of banking arrangements;
- (v) any Lien either over any asset acquired after the original issue date of the debt securities which is in existence at the time of such acquisition or in respect of the obligations of any Person which becomes a Subsidiary of the Company after the original issue date of the debt securities which is in existence at the date on which it becomes a Subsidiary of the Company and in both cases any replacement thereof created in connection with the refinancing (together with interest, fees and other charges attributable thereto) of the Indebtedness originally secured (but the principal amount secured by any such Lien may not be increased); provided that any such Lien was not incurred in anticipation of such acquisition or of such company becoming a Subsidiary of the Company;
- (vi) any Lien created on any property or asset acquired, leased or developed (including improved, constructed, altered or repaired) after the original issue date of the debt securities; provided, however, that (a) any such Lien shall be confined to the property or asset acquired, leased or developed (including improved, constructed, altered or repaired); (b) the principal amount of the debt encumbered by such Lien shall not exceed the cost of the acquisition or development of such property or asset or any improvement thereto (including any construction, repair or alteration) or thereon and (c) any such Lien shall be created concurrently with or within one year following the acquisition, lease or development (including construction, improvement, repair or alteration) of such property or asset;
- (vii) any Lien pursuant to any order of attachment, execution, enforcement, distraint or similar legal process arising in connection with court proceedings; provided that such process is effectively stayed, discharged or otherwise set aside within 30 days;
- (viii) any Lien created or outstanding in favor of the Company or any of the Company's Subsidiaries;
- (ix) any easement, right-of-way, zoning and similar restriction and other similar charge or encumbrance not interfering with the ordinary course of business of the Company and the Principal Subsidiaries of the Company;
- (x) any lease, sublease, license and sublicense granted to any third party and any Lien pursuant to farm-in and farm-out agreements, operating agreements, development agreements and any other agreements, which are customary in the oil and gas industry and in the ordinary course of the Company's business and any Principal Subsidiary;
- (xi) any Lien on any property or asset to secure all or part of the cost of exploration, drilling, development, production, gathering, processing, marketing of such property or asset or to secure Indebtedness incurred to provide funds for any such purpose;
- (xii) any Lien over any property or asset to secure Indebtedness incurred in connection with the construction, installation or financing of pollution control, abatement or remediation facilities;
- (xiii) any Lien arising in connection with industrial revenue, development or similar bonds or other indebtedness or means of project financing (not to exceed the value of the project financed and limited to the project financed);
- (xiv) any Lien in favor of any government or any subdivision thereof, securing the obligations of the Company or any of its Principal Subsidiaries under any contract or payment owed to such governmental entity pursuant to applicable laws, rules, regulations or statutes;

- (xv) any Lien over any property or asset securing Indebtedness of the Company or any of its Principal Subsidiaries guaranteed by any international finance agency, including the World Bank and the International Finance Corporation, or any subdivision, department or division thereof;
- (xvi) any right arising in connection with the sale or other transfer of crude oil, natural gas or other petroleum hydrocarbons in place for a period of time until, or in an amount such that, the transferee will realize therefrom a specified amount (however determined) of such crude oil, natural gas or other petroleum hydrocarbons or a specified amount of money, or the sale or other transfer of any other interest in property of the character commonly referred to as a production payment or overriding royalty;
- (xvii) any Lien created in connection with any sale/leaseback transaction, subject to the limitation set forth below under “—Certain Covenants—Limitation on Sale and Leaseback Transactions”;
- (xviii) any renewal or extension of any of the Liens described in the foregoing clauses which is limited to the original property or asset covered thereby; or
- (xix) any Lien in respect of Indebtedness of the Company or any of its Subsidiaries with respect to which the Company or such Subsidiary has paid money or deposited money or securities with a fiscal agent, trustee or depository to pay or discharge in full the obligations of the Company or such Subsidiary in respect thereof (other than the obligation that such money or securities so paid or deposited, and the proceeds therefrom, be sufficient to pay or discharge such obligations in full).

Limitation on Sale and Leaseback Transactions

The indenture provides that the Company shall not, and shall not cause or permit any Principal Subsidiary to, enter into any Sale and Leaseback Transaction with any Person (not including any Principal Subsidiary) for a period, including renewals, in excess of three years of any Principal Property which has been owned by the Company or a Principal Subsidiary for more than six months unless either:

- (i) the Company or such Principal Subsidiary would be permitted under the “—Certain Covenants—Limitation on Liens” covenant to create, incur or permit to exist a Lien on the Principal Property to secure Indebtedness (without equally and ratably securing the debt securities with such Indebtedness) at least equal in amount to the Attributable Value of the Sale and Leaseback Transactions; or
- (ii) the Company or such Principal Subsidiary, within 120 days after such sale or transfer, (x) applies, in the case of a sale or transfer for cash, an amount equal to the net proceeds thereof or, in the case of a sale or transfer otherwise than for cash, an amount equal to the fair market value of the Principal Property so leased (as determined in good faith by any two members of the Board of Directors of the Company or the Board of Directors of such Principal Subsidiary) to (A) the retirement of Indebtedness of the Company or such Principal Subsidiary ranking prior to or on parity with the debt securities, incurred or assumed by the Company or such Principal Subsidiary, which by its terms matures at, or is extendable or renewable at the option of the obligor to, a date more than 12 months after the date of incurring or assuming such Indebtedness; provided, however, that in connection with such application, the Company or such Principal Subsidiary will retire such Indebtedness and will cause the related commitment (if any) to be permanently reduced in an amount equal to the principal amount of such Indebtedness so voluntarily retired by the Company or such Principal Subsidiary; or (B) the purchase of other property which will constitute a Principal Property having a fair market value (as determined in good faith by any two members of the Board of Directors of the Company or the Board of Directors of such Principal Subsidiary) at

least equal to the fair market value of the Principal Property leased in such Sale and Leaseback Transaction; or (y) deposits, in the case of a sale or transfer for cash, an amount equal to the net proceeds thereof into an escrow account which is used solely for the purpose of providing for the obligations of the Company or such Principal Subsidiary under the Sale and Leaseback Transaction.

“Attributable Value” means, at the time of determination, the lesser of (i) the fair market value of the Principal Property subject to the Sale and Leaseback Transaction (as determined in good faith by any two members of the Board of Directors of the Company) and (ii) the present value (discounted at a rate equal to the rate of interest on the debt securities, compounded semi-annually) of the total amount of rent required to be paid under such lease during the remaining term thereof, including any period for which such lease has been extended. Such rental payments shall not include amounts payable by or on behalf of the lessee on account of maintenance and repairs, insurance, taxes, assessments, water rates and similar charges.

“Principal Property” means any real property owned at the original issue date of the debt securities or thereafter acquired by the Company or a Principal Subsidiary, the gross book value (including related land and improvements thereon and all machinery and equipment included therein) of which, on the date as of which the determination is being made, exceeds 15% of the Consolidated Total Assets of the Company.

“Sale and Leaseback Transaction” means any transaction or series of related transactions pursuant to which the Company or any Principal Subsidiary sells or transfers any Principal Property to any Person with the intention of taking back a lease of such Principal Property pursuant to which the rental payments are calculated to amortize the purchase price of such Principal Property substantially over the useful life thereof and such Principal Property is in fact so leased. For purposes of this definition, a Sale and Leaseback Transaction shall not include any transaction relating to farm-in and farm-out agreements, operating agreements, development agreements, and any other similar arrangements which are customary in the oil and gas industry or in the ordinary course of business of the Company and any Principal Subsidiary.

Consolidation, Merger and Sale of Assets

The indenture provides that neither the Company nor the Issuer may consolidate with or merge into any other Person in a transaction in which the Company or the Issuer, as the case may be, is not the surviving entity, or convey, transfer or lease its properties and assets substantially as an entirety to any Person unless:

- (i) any Person formed by such consolidation or into which the Company or the Issuer, as the case may be, is merged or to whom the Company or the Issuer, as the case may be, has conveyed, transferred or leased its properties and assets substantially as an entirety is a corporation, partnership, trust or other entity validly existing under the laws of the jurisdiction of its organization and such Person expressly assumes by an indenture supplemental to the indenture all the obligations of the Company or the Issuer under the indenture, the debt securities or the guarantees, as the case may be;
- (ii) immediately after giving effect to the transaction, no Event of Default, and no event which, after notice or lapse of time or both, would become an Event of Default, shall have occurred and be continuing;
- (iii) any such Person not organized and validly existing under the laws of (or any such Person resident for tax purposes in a jurisdiction other than) Hong Kong, the PRC or any successor jurisdiction (in the case of the Company) or the United States or any successor jurisdiction (in the case of the Issuer) shall expressly agree in a supplemental indenture that its jurisdiction of organization or tax residence (or any political subdivision, territory or possession thereof, any taxing authority therein or any area subject to its jurisdiction) will be added to the list of Relevant Taxing Jurisdictions; and

- (iv) if, as a result of the transaction, any property or asset of the Company or any of the Subsidiaries of the Company would become subject to a Lien that would not be permitted under “—Certain Covenants—Limitation on Liens” above, the Company, the Issuer or such successor Person takes such steps as shall be necessary to secure the debt securities at least equally and ratably with the Indebtedness secured by such Lien or by such other Lien as shall have been approved by holders of the debt securities pursuant to the indenture for so long as such Indebtedness will be secured.

Limitation on the Issuer’s Activities

For so long as the applicable series of debt securities are outstanding, the Issuer will conduct no business or any other activities other than the offering, sale or issuance of Indebtedness and the lending of the proceeds thereof to the Company or a company controlled by the Company and any other activities in connection therewith. Upon any merger of the Issuer into the Company or of the Company into the Issuer, this covenant will no longer apply.

In addition, the Company will maintain 100% of direct or indirect equity ownership of the Issuer during the period that any debt securities remain outstanding.

For so long as any debt securities are outstanding, neither the Issuer nor the Company will take any action to change the Issuer’s status from, or election to be, a disregarded entity for U.S. federal income tax purposes.

Events of Default

Each of the following shall constitute an “Event of Default” under the indenture for a series of debt securities:

- (i) failure to pay principal of any debt securities of that series within two Business Days after the date such amount is due and payable, upon optional redemption, acceleration or otherwise;
- (ii) failure to pay interest on any debt securities of that series within 30 days after the due date for such payment;
- (iii) failure to perform any other covenant or agreement of the Company or the Issuer in the indenture, and such failure continues for 60 days after there has been given, by registered or certified mail, to the Company or the Issuer, as the case may be, by the trustee or by the holders of at least 25% in aggregate principal amount of the debt securities of that series then outstanding (with a copy to the trustee) a written notice specifying such failure and requiring it to be remedied and stating that such notice is a “Notice of Default” under the indenture;
- (iv) the guarantees shall cease to be in full force or effect or the Company shall deny or disaffirm its obligations under the guarantees;
- (v) (a) failure to pay upon final maturity (after giving effect to the expiration of any applicable grace period therefor) the principal of any Indebtedness of the Company, the Issuer or any Principal Subsidiary, (b) acceleration of the maturity of any Indebtedness of the Company, the Issuer or any Principal Subsidiary following a default by the Company, the Issuer or such Principal Subsidiary, if such Indebtedness is not discharged, or such acceleration is not annulled, within ten days after receipt by the trustee of the written notice from the Company or the Issuer as provided in the indenture, or (c) failure to pay any amount payable by the Company, the Issuer or any Principal Subsidiary under any guarantee or indemnity in respect of any Indebtedness of any other Person if such obligation is not discharged or otherwise satisfied within ten days after receipt of written notice as provided in the indenture; provided, however, that no such event set forth in clause (a), (b) or (c) shall constitute an Event of

Default unless the aggregate outstanding Indebtedness to which all such events relate exceeds the greater of (x) US\$100,000,000 (or its equivalent in any other currency) and (y) 2% of the Shareholders' Equity of the Guarantor as determined under IFRS IASB; and

- (vi) certain events in bankruptcy, insolvency or reorganization in respect of the Company, the Issuer or any Principal Subsidiary as provided in the indenture.

If an Event of Default (other than an Event of Default described in clause (vi) above) with respect to the debt securities of that series shall occur and be continuing, either the trustee or the holders of at least 25% in aggregate principal amount of the debt securities of that series then outstanding by written notice as provided in the indenture may declare the unpaid principal amount of such debt securities and any accrued and unpaid interest thereon (and any Additional Amounts payable in respect thereof) to be due and payable immediately. If an Event of Default in clause (vi) above with respect to the debt securities of that series shall occur, the unpaid principal amount of all the debt securities of that series and any accrued and unpaid interest thereon (and any Additional Amounts payable in respect thereof) will automatically, and without any action by the trustee or any holder of debt securities of that series, become immediately due and payable. After any such acceleration but before a judgment or decree based on acceleration has been obtained, the holders of at least a majority in aggregate principal amount of the debt securities of that series then outstanding may, under certain circumstances, rescind and annul such acceleration if all Events of Default, other than the non-payment of accelerated principal, have been cured or waived as provided in the indenture. For information as to waiver of defaults, see "—Modification and Waiver." See also "—Notices" below.

Subject to the provisions of the indenture relating to the duties of the trustee, in case an Event of Default shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any of the holders of debt securities unless such holders shall have offered to the trustee pre-funding, security and/or indemnity satisfactory to the trustee. Subject to certain provisions, including those requiring pre-funding, security and/or indemnification of the trustee, the holders of a majority in principal amount of the debt securities of a series then outstanding will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities. However, the trustee may refuse to follow any direction that conflicts with applicable law or the relevant indenture, that may involve the trustee in personal liability or cause it to expend or risk its own funds or otherwise incur any financial liability in following such direction and may take any other action it deems proper that is not inconsistent with any such direction received from holders. No holder of any debt securities of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the indenture, the debt securities or the guarantees or for the appointment of a receiver or a trustee, or for any other remedy thereunder unless (i) such holder has previously given to the trustee written notice of a continuing Event of Default with respect to the debt securities of that series, (ii) the holders of at least 25% in aggregate principal amount of the debt securities of that series then outstanding have made written request, and such holder or holders have offered to the trustee pre-funding, security and/or indemnity satisfactory to the trustee, to institute such proceeding in the trustee's own name and (iii) the trustee has failed to institute such proceeding, and has not received from the holders of a majority in aggregate principal amount of the debt securities of that series then outstanding a direction inconsistent with such request, within 60 days after such notice, request and offer. However, such limitations do not apply to a suit instituted by a holder of a debt security for the enforcement of the right to receive payment of the principal of or interest on such debt security on or after the applicable due date specified in such debt security.

Neither the Company nor any of its Subsidiaries will, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any holder of any debt securities of any series for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the indenture or the debt securities of that series unless such consideration is offered to be paid or agreed to be paid to all holders of the debt securities of that series that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement.

The trustee need not do anything to ascertain whether any Event of Default has occurred or is continuing and will not be responsible to holders or any other person for any loss arising from any failure by it to do so, and the trustee may assume that no such event has occurred and that each of the Company and the Issuer is performing all of their respective obligations under the indenture and related debt securities and guarantee unless a responsible officer of the trustee has received written notice of the occurrence of such event or facts establishing that the Company or the Issuer, as the case may be, is not performing all of its obligations under the indenture and related debt securities and guarantee, as the case may be.

Defeasance

The indenture provides that, upon the conditions set forth therein, the Company and the Issuer may each be discharged from all their respective obligations with respect to debt securities of a series (except for certain obligations to exchange or register the transfer of debt securities, to replace stolen, lost or mutilated debt securities, to maintain paying agencies and to hold moneys for payment in trust) upon the deposit in trust for the benefit of the holders of such debt securities of money in U.S. dollars or U.S. Government Obligations (as defined in the indenture), or both, which, through the payment of principal and interest thereon in accordance with their terms, will provide money in an amount sufficient to pay the principal of and interest on the debt securities (and any Additional Amounts in respect thereof) in accordance with the terms of the indenture and the debt securities (“defeasance”). Such defeasance may occur only if, among other things, the Company and the Issuer have delivered to the trustee an opinion of independent legal counsel of recognized standing licensed to practice law in the United States to the effect that holders of the debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such defeasance had not occurred, which opinion of counsel must be based on a ruling received by the Company or the Issuer from the U.S. Internal Revenue Service, a published ruling of the U.S. Internal Revenue Service or other changes in applicable U.S. federal income tax law after the original issue date of the debt securities.

Prescription

Any moneys deposited with or paid to the trustee or any paying agent of the debt securities, or then held by the Issuer, in trust, for the payment of the principal of, premium (if any) or interest on (or any Additional Amount payable in respect of) any debt security and not applied but remaining unclaimed for two years after the date upon which such principal, premium (if any) or interest or any Additional Amount payable shall have become due and payable, shall, upon the written request of the Issuer or the Company be repaid to the Issuer or the Company, as the case may be, by the trustee or such paying agent or (if then held by the Issuer) be discharged from such trust, unless otherwise required by mandatory provisions of applicable escheat or abandoned or unclaimed property law, and the holder of such debt security shall, unless otherwise required by mandatory provisions of applicable escheat or abandoned or unclaimed property laws, thereafter look only to the Issuer or the Company for any payment which such holder may be entitled to collect, and all liability of the trustee or any paying agent of the debt securities with respect to such moneys shall thereupon cease.

Under New York law, any legal action upon the debt securities must be commenced within six years after the payment thereof is due. Thereafter, the debt securities will generally become unenforceable.

Concerning the Trustee

The Bank of New York Mellon will be the trustee under the indenture. The Corporate Trust Office of the trustee is currently located at 101 Barclay Street, New York, New York 10286, United States, Attention: Global Corporate Trust.

The indenture provides that the trustee, subject to the following sentence, undertakes to perform such duties and only such duties as are specifically set forth in the indenture. If an Event of Default has occurred and is

continuing, the trustee will use the same degree of care and skill in its exercise of the rights and powers vested in it by the indenture as a prudent person would exercise under the circumstances in the conduct of such person's own affairs. The indenture also provides that the trustee and any paying or other agent of the debt securities, in their individual or any other capacity, may become the owner or pledgee of debt securities with the same rights it would have if it were not the trustee or such agent and may otherwise deal with the Company and the Issuer and receive, collect, hold and retain collections from the Company and the Issuer with the same rights it would have if it were not the trustee or such agent; provided, however, that all moneys received by the trustee shall, until used or applied as provided in the indenture, be held in trust thereunder for the purposes for which they were received and need not be segregated from other funds except to the extent required by law.

The trustee will be under no obligation to exercise any rights or powers conferred under the indenture for the benefit of the holders unless such holders have offered to the trustee pre-funding, security and/or indemnity satisfactory to the trustee against any loss, liability or expense. In the exercise of its duties, the trustee shall not be responsible for the calculation or computation of any amount payable under the debt securities and the guarantees or the verification of any such calculations or computations or any verification of the accuracy or completeness of any certification, opinion or other documents submitted to it by the Company or the Issuer.

Indemnification for Judgment Currency Fluctuations

To the fullest extent permitted by law, the obligations of the Company or the Issuer to any holder of the applicable series of debt securities under the indenture, the debt securities or the guarantees, as the case may be, shall, notwithstanding any judgment in a currency (the "Judgment Currency") other than U.S. dollars (the "Agreement Currency"), be discharged only to the extent that on the day following receipt by such holder or the trustee, as the case may be, of any amount in the Judgment Currency, such holder or the trustee, as the case may be, may in accordance with normal banking procedures purchase the Agreement Currency with the Judgment Currency. If the amount of the Agreement Currency so purchased is less than the amount originally to be paid to such holder or the trustee, as the case may be, in the Agreement Currency, the Company and the Issuer agree, as a separate obligation and notwithstanding such judgment, to pay the difference and if the amount of the Agreement Currency so purchased exceeds the amount originally to be paid to such holder, such holder or the trustee, as the case may be, agrees to pay to or for the account of the Company or the Issuer, as the case may be, such excess; provided that such holder or the trustee, as the case may be, shall not have any obligation to pay any such excess as long as a default by the Company or the Issuer in its obligations under the indenture or the debt securities has occurred and is continuing, in which case such excess may be applied by such holder or the trustee, as the case may be, to such obligations.

Notices

Notices to holders of debt securities will be mailed to them (or the first named of joint holders) by first class mail (or, if first class mail is unavailable, by airmail) at their respective addresses in the register and will be deemed to have been given on the fourth Business Day after the date of mailing. So long as and to the extent that the debt securities are represented by global securities and such global securities are held by DTC, notices to owners of beneficial interests in the global securities may be given by delivery of the relevant notice to DTC for communication by it to entitled account holders.

Waiver of Immunity

To the extent that the Company or the Issuer has acquired or hereafter may acquire any immunity (sovereign or otherwise) from any legal action, suit or proceeding, from jurisdiction of any court or from set-off or any legal process (including any immunity from non-exclusive jurisdiction or from service of process or, except as provided below, from any execution to satisfy a final judgment or from attachment or in aid of such execution or otherwise) with respect to itself or any of its property, the Company and the Issuer each irrevocably waives, to the fullest extent permitted under applicable law, any such right of immunity or claim thereto which may now or

hereafter exist, and agrees not to assert any such right or claim in any action or proceeding against it arising out of or based on the debt securities, the guarantees or the indenture.

Governing Law and Consent to Jurisdiction

The debt securities, the guarantees and the indenture are governed by and will be construed in accordance with the laws of the State of New York.

The Company and the Issuer will each irrevocably submit to the non-exclusive jurisdiction of any state or United States federal court located in the Borough of Manhattan, the City of New York, New York (each a “New York Court”) in any suit, action or proceeding arising out of or relating to the indenture, the debt securities, the guarantees or any transaction contemplated thereby, and will irrevocably waive, to the fullest extent permitted by applicable law, any objection to the venue of any such suit, action or proceeding in any such New York Court and any claim of an inconvenient forum. The Company will appoint the Issuer as agent for service of process with respect of any such suit, action or proceeding.

ENFORCEABILITY OF CIVIL LIABILITIES

The Issuer is a limited liability company formed in and under the laws of the State Delaware, and we are a company incorporated with limited liability in Hong Kong. A substantial portion of our assets are located in China. In addition, substantially all of our directors and officers reside outside the United States (principally in the PRC or Hong Kong) and certain experts named in this prospectus also reside outside the United States. All or a substantial portion of the assets of such persons are or may be located outside the United States. As a result, it may not be possible for investors to effect service of process within the United States upon us or such persons to enforce against them judgments obtained in United States courts, including judgments predicated upon the civil liability provisions of the federal securities laws of the United States.

We have been advised by our Hong Kong counsel, Davis Polk & Wardwell, that there is doubt as to the enforceability in Hong Kong in original actions in Hong Kong or in actions for enforcement of judgments of United States courts, of civil liabilities predicated solely upon the U.S. federal or state securities laws.

In addition, there are uncertainties as to whether the courts of the PRC would (i) recognize or enforce the judgments of United States courts obtained against the Issuer or the Company, or their respective directors and officers, predicated upon the civil liability provision of the U.S. federal or state securities laws; or (ii) entertain original actions brought in the courts of the PRC against the Issuer or the Company or such persons predicated upon the U.S. federal or state securities laws.

LEGAL MATTERS

Certain legal matters with respect to the debt securities and the guarantees will be passed upon for us by Davis Polk & Wardwell LLP, New York, New York, as to matters of United States federal securities and New York State law, and by Davis Polk & Wardwell, Hong Kong, as to matters of Hong Kong law, respectively.
