Management Discussion and Analysis

Overview

Business and Financial Overview

The financial year end date of the Company has been changed from September 30 to December 31 in order to align with the Company's financial year end date with its principal operating subsidiaries incorporated in the People's Republic of China ("PRC"). Such change is made in response to the increase in number of Company's subsidiaries incorporated in the PRC during the recent years. Accordingly, the current financial period covers a period of fifteen months from October 1, 2015 to December 31, 2016 which may not be entirely comparable with last year's results which cover a period of twelve months.

The Group is an aluminium products manufacturer based in Guangdong Province, the PRC, with a large and diverse portfolio of high quality products. We manufacture three categories of products: (i) Electronics Parts, (ii) Construction and Industrial Products and (iii) Branded OPLV Products.

The total operating revenue of the Group for the fifteen months period from October 1, 2015 to December 31, 2016 ("**Period Under Review**") was HK\$2,236 million (year ended September 30, 2015: HK\$1,822 million), representing an increase of 23% as compared with the year ended September 30, 2015. The Group's overall gross profit margin dropped from 20% for the year ended September 30, 2015 to 14% for the Period Under Review; Net loss after tax attributable to shareholders had significantly reduced from HK\$337 million for the year ended September 30, 2015 to HK\$232 million for the Period Under Review. The reduction in net loss were due to (i) increase in the sales orders for Electronics Parts leading to improved sales performance; (ii) absence of or reduction in certain one-off adjustments (including the write-off of the investment accounted for using the equity method and the amount due from the investment accounted for using the equity method); and (iii) significant reduction in the write-off of trade receivables from former Australian Customers of the Group for the Period Under Review.

Comparing the Period Under Review with the year ended September 30, 2015, revenue from the Electronics Parts segment, Construction and Industrial Products segment and Branded OPLV Products segment has increased by 44%, 3% and 16% respectively.

Revenue contributions by the respective segments for the fifteen months ended December 31, 2016 and year ended September 30, 2015 are presented below:

	Revenue for the		The percentage of total

Management Discussion and Analysis

Electronics Parts

The Electronics Parts segment contributed approximately HK\$1,141 million to the total revenue of the Group, representing an increase of 44% as compared with HK\$793 million for the year ended September 30, 2015 due to an increase in sales order from a major customer. Gross profit margin decreased to 16% for the Period Under Review as compared with 22% for year ended September 30, 2015.

Construction and Industrial Products

The revenue and gross profit margin of the Construction and Industrial Products segment were HK\$805 million (year ended September 30, 2015: HK\$780 million) and 14% (year ended September 30, 2015: 18%) respectively for the Period Under Review. There was a 2% increase in sales in Hong Kong but a drop of 35% in the sales to Australia. The increasing prices of aluminium and other raw materials, have hindered the export sales to Australian customers.

Branded OPLV Products

The Group had continued the Branded OPLV Products market in Mainland China by engaging new distributors for selling Branded OPLV Products. Sales increased from HK\$249 million for the year ended September 30, 2015 to HK\$290 million for the Period Under Review. The gross profit margin of Branded OPLV Products decreased from 16% for the year ended September 30, 2015 to 3% for the Period Under Review. Facing the fierce competition in the door and windows market, along with the low gross profit margin and high marketing costs, the Branded OPLV Products segment continued to be a loss-making operation in the Period Under Review.

In order to prevent further loss to the Group, the management of the Company has decided to dispose this loss-making operation for better allocation of the Group's resources.

On December 28, 2017, the Group entered into a conditional sales and purchase agreement to dispose of its entire equity interest in OPLV (Nanyang) Doors and Windows Systems Co., Ltd and OPLV Architectural Design Pty Ltd. Details of the disposal of the Branded OPLV products segment are set out in the section "Events after the reporting period" in the notes to the consolidated financial statements of this annual report and the announcement of the Company dated December 28, 2017.

Cost of sales

With the significant increase in sales, cost of sales increased by 33% from HK\$1,460 million for the year ended September 30, 2015 to HK\$1,935 million for the Period Under Review. This was in line with the increase in sales from HK\$1,822 million for the year ended September 30, 2015 to HK\$2,236 million for the Period Under Review.

Gross profit

Despite the decrease of gross profit from HK\$362 million for the year ended September 30, 2015 to HK\$301 million for the Period Under Review, our gross profit margin has dropped from 20% for the year ended September 30, 2015 to 14% for the Period Under Review. The Group has been actively seeking ways to reduce sales of lower gross profit margin products to achieve a higher overall gross profit margin for this fiscal period. Yet, the persisting unfavorable macro factors, including the volatility in each of the market the Group operates and the uncertainty over the economic condition in China, had dampened consumer sentiment and reduced the demand of the Group's products.

Distribution and selling expenses

Distribution and selling expenses increased by 66% from HK\$86 million for the year ended September 30, 2015 to HK\$142 million for the Period Under Review. The increase was in line with the increase in sales, which led to a significant increase in the transportation and travelling expenses.

Administrative expenses

Administrative expenses dropped by 35% from HK\$523 million for the year ended September 30, 2015 to HK\$340 million for the Period Under Review. The decrease was due to the absence of one-off adjustments including the provision for impairment on prepayment to a supplier for purchase of raw materials, the write-off of investment amounted for using the equity method and the amount due from the investment amounted for using the equity method, and significant reduction in the write-off of trade receivables from the Group's former customers in the Period Under Review.

Other income

Other income comprised net sales of scrapped materials which was HK\$16 million for the Period Under Review.

Management Discussion and Analysis

Other losses – net

Other losses decreased from a HK\$62 million loss for the year ended September 30, 2015 to a HK\$17 million loss for the Period Under Review. The decrease was mainly due to the relatively stable exchange rate of AUD against HKD during the Period Under Review as compared to during the year ended September 30, 2015 which the Group had incurred significant exchange losses.

Finance income

Finance income mainly comprised interest income which amounted to approximately HK\$3 million for the Period Under Review compared to HK\$1 million for the year ended September 30, 2015.

Finance costs

Finance costs amounted to approximately HK\$29 million for Period Under Review compared to HK\$16 million for the year ended September 30, 2015.

Income tax expense

Our income tax changed from income tax expense of HK\$23 million for the year ended September 30, 2015 to HK\$38 million for the Period Under Review.

Currency translation differences in other comprehensive income

Currency translation differences amounted to approximately HK\$86 million for the Period Under Review, which was mainly attributable to the weakening of RMB against the HKD.

Management Discussion and Analysis

Prospects/Future Business Development

To utilize the opportunities arising from global integration and the “Belt and Road” initiative, the Group has steadily expanded its overseas sales network. We have established subsidiaries in different countries like UK and Singapore and continued to expand our footprint in various regions, laying a solid foundation for the Group’s future business development.

Although sales of Electronics Parts for Period Under Review declined, customers in this segment are expected to bring in a higher profit margin to the Group than other segments. The Group will continue to develop opportunities in the Electronics Parts business by widening its customer base, developing new products and further strengthening relationship with major customers. Ongoing efforts to develop new products based on market demand are progressing, and our R&D department is striving to achieve these goals. Recently, the Group has passed the requirements of the International Automotive Task Force on IATF16949:2016 and the Group will now be able to accept sales orders for the manufacturing of different aluminium alloy automobile parts and components.

As disclosed in the announcement of the Company dated October 1, 2013, the Company plans to relocate its current production facilities in Zengcheng, Guangdong Province to Nanyang City in Henan Province, the PRC and establish a new aluminium alloy production base there. With the new Nanyang facility, the Group can better integrate its existing production facilities and expand its production capacity to meet the growing demand for high quality products.

Phase 1 of the Group’s integrated manufacturing facility for aluminium alloy products in Nanyang begun production on October 23, 2015. Details of the construction and commencement of the production of the Nanyang production facility are set out in the announcements of the Company dated April 8, 2015, October 23, 2015 and November 17, 2015.

On April 10, 2015, PanAsia Aluminium (Hong Kong) Limited (“**PAHK**”), a wholly-owned subsidiary of the Company, entered into an investment agreement with the Jimsar County Government by establishing and investing in a new wholly owned subsidiary with an estimated aggregate capital of at least RMB200 million (equivalent to approximately HK\$254 million) at Xinjiang to produce high-end aluminium rods and aluminium rolled products (“**Xinjiang Project**”). On December 18, 2015, the Group entered into an agreement with Jimsar Bureau of Land and Resources 吉木薩爾縣國土資源局 (“**JBLR**”) by purchasing a piece of land in that region with a consideration of approximately RMB3.6 million (equivalent to approximately HK\$4.4 million), which was waived by the JBLR.

Aluminium ingots are the principal raw material for the Group’s production process. The process of smelting the aluminium ingots and turning them into aluminium rods is costly. The establishment of a production base in Jimsar of Xinjiang will enable the Group to produce aluminium rods more efficiently and will provide a more stable source of supply of raw material to the Group.

Details of the investment agreement for the Xinjiang Project are set out in the announcement of the Company dated April 13, 2015.

On December 28, 2017, the Group entered into a conditional sales and purchase agreement to dispose of its entire equity interest in OPLV (Nanyang) Doors and Windows Systems Co., Ltd and OPLV Architectural Design Pty Ltd. Details of the disposal of the Branded OPLV Products segment are set out in the section “Events after the reporting period” in the notes to the consolidated financial statements of this annual report and the announcement of the Company dated December 28, 2017. The Group’s financial position is expected to be substantially enhanced from the disposal of these loss making subsidiaries.

Liquidity and Financial Resources

The Group principally finances its operations through a combination of shareholders’ equity, internally generated cash flow and borrowings. As at December 31, 2016 the Group had HK\$35.2 million cash and cash equivalents (September 30, 2015: HK\$41.3 million), and no fixed bank deposits (September 30, 2015: HK\$8.6 million), HK\$64.5 million pledged bank deposits (September 30, 2015: HK\$154.6 million), interest-bearing borrowings of HK\$559.5 million denominated in Renminbi (“**RMB**”) (September 30, 2015: HK\$404.8 million denominated in RMB and USD) and obligation under finance leases of HK\$24.0 million denominated in RMB and HKD (September 30, 2015: HK\$1.8 million denominated in HKD).

Management Discussion and Analysis

Charges on Asset

HK\$260.4 million (September 30, 2015: HK\$8.5 million) of land use rights, HK\$29.8 million (September 30, 2015: HK\$21.1 million) of buildings, HK\$82.3 million (September 30, 2015: HK\$nil) of plant and machinery and HK\$198.4 million (September 30, 2015: HK\$162.5 million) of trade receivables of the Group were pledged as security for the Group's borrowings.

Capital Structure

As at December 31, 2016 and September 30, 2015, the Company's issued share capital was HK\$120,000,000, divided into 1,200,000,000 shares of HK\$0.1 each.

Foreign Exchange and Other Risk

We continued to receive AUD and USD from our sales to major customers during the Period Under Review, while most of the Group's purchases of raw materials were settled in RMB. As RMB is not a freely convertible currency, any fluctuation in exchange rate of HKD against RMB may have impact on the Group's results. We hedged AUD exchange risk against HKD during the Period Under Review. We purchased plain foreign-exchange forward contracts to hedge the Group's exposure to foreign-exchange risk and did not enter into any high-risk derivative instrument contracts during the Period Under Review.

Management Discussion and Analysis

The Group is exposed to commodity price risk because aluminium ingots are the major raw materials of the Group's products. Any change in aluminium price could affect the Group's financial performance. During the Period Under Review, the Group has entered into future contracts traded on the Shanghai Futures Exchange in order to mitigate the risk arising from fluctuations in aluminium price.

Significant Investment, Material Acquisition and Disposal

On April 8, 2015, PanAsia Aluminium (China) Co., Ltd. ("PAAL") entered into a construction contract with 河南冠亞建築工程有限責任公司 ("Contractor") by constructing and building three CNC workshops of the Group's production facility at Nanyang, with a total consideration of approximately RMB56.9 million (equivalent to approximately HK\$71.9 million). On November 17, 2015, PAAL further entered into another construction contract with the Contractor by constructing and building a workshop at the Group's production facility at Nanyang, with a total consideration of approximately RMB46.6 million (equivalent to approximately HK\$57.6 million). For details, please refer to the announcements of the Company dated April 8, 2015 and November 17, 2015.

On December 18, 2015, the Group entered into an agreement with JBLR by purchasing a piece of land in that region at a consideration of approximately RMB3.6 million (equivalent to approximately HK\$4.4 million), which was waived by the JBLR. Details of the investment agreement for the Xinjiang Project are set out in the announcement of the Company dated April 13, 2015. During the Period Under Review, a subsidiary of the Company, 吉木薩爾宏睿鋁業有限公司, entered into contracts with several construction contractors and suppliers for construction of production facilities and acquisition of equipment for production of high-end aluminium rods and aluminium rolled products. Total consideration of the relevant contracts amounted to approximately RMB118.7 million (equivalent to approximately HK\$133.2 million).

Capital Commitments

Capital commitments contracted by the Group but not yet provided for in the consolidated financial statements as at December 31, 2016 amounted to approximately HK\$219 million (September 30, 2015: approximately HK\$180 million), which was mainly related to the acquisition of machineries in the PRC.

Contingent Liabilities

As at December 31, 2016, the Group had no contingent liabilities (September 30, 2015: Nil).

Employee Information and Remuneration Policies

As at December 31, 2016 the Group employed approximately 4,700 staff (September 30, 2015: 3,900). The Group's remuneration package is determined with reference to the experience and qualifications of the individual employee and general market conditions. The Group also ensures that all employees are provided with adequate training and continued professional opportunities according to their needs. During the Period Under Review, the Group incurred staff costs (including Directors' emoluments) of HK\$476 million (year ended September 30, 2015: HK\$261 million).

Detail of the principal activities of the Company's principal subsidiaries are set out in Note 16 to the consolidated financial statements. The Company's shares were listed on the main board of the Exchange on February 5, 2013 ("**Listing Date**"). Trading in the Company's shares has been suspended since December 17, 2014.

Business Review and Performance

The business review for the Company during the Period Under Review is set out in the section of Management Discussion and Analysis of this report on pages 5 to 10.

Environmental performance

The Company is committed to building its own brand by way of sustainable development. The Company is very concerned about the environmental impact of emissions generated from operations and is committed to the implementation of environmental protection measures. With the implementation of the "Emission and Control Procedure for Waste Water, Exhaust Gas and Noise Pollution" by Nanyang Plant, impacts on the environment are reduced as waste water, exhaust gas and noise generated during the process of operation are put under control.

Apart from it, the Company also developed the "Control Procedures for the Disposal of Hazardous Wastes" for the control of environmental pollution resulted from disposed wastes", "Control System for Energy Saving and Emission Reduction" according to relevant laws and regulations of the PRC in respect of energy saving, and "Control Procedures for Non-compliance of Environmental Safety", which differentiates different types of environmental safety incidents, and clearly defines the management process. The Company strives to explore the business models of sustainable development, integrate environmental management and social care into its business decisions.

For details, please refer to the Environmental, Social and Governance Report 2016.

Compliance with laws and regulations

The Company recognizes the importance of compliance with regulatory requirements and the risk of non-compliance with relevant requirements could lead to adverse impact on business operation and financial position of the Company.

The Company's operations are mainly carried out by the Company's subsidiaries in Hong Kong and the PRC while the Company itself was incorporated in Cayman Islands and listed on the Exchange in Hong Kong. Our establishment and operations accordingly shall comply with relevant laws and regulations in Hong Kong, Cayman Islands and the PRC. The Board as a whole is responsible to ensure the Company is in compliance with relevant laws and regulations that have a significant impact on the Company.

Directors' Report

During the course of the business operations, the Company shall comply with different laws and regulations, including, but not limited to, i) laws regarding employee recruitment and benefits, such as the "Labor Law of the PRC", the "Labor Contract Law of the PRC", and the "Rulings of Implementing the Labor Contract Law of the PRC"; and ii) the PRC national and local laws and regulations with respect to environmental protection, including the Environmental Protection Law of the PRC. For the fifteen months ended December 31, 2016, the Company was in strict compliance with these said laws and regulations.

Key relationships with stakeholders

1. Employees

Human resources are the most valuable asset of the Company. Developing and retaining talents are vital to our success. The Company is committed to providing our employees with a safe, pleasant and healthy working environment. The Company rewards and recognizes employees by competitive remuneration package and implements a key performance index performance evaluation program with appropriate incentives, and promote career development by providing opportunities for career advancement to employees. In addition, each department of the Company is responsible for determining its training needs for employees and workers in its department and any suggested applicable training courses either arranged internally or by external service providers shall be submitted to the senior management of the Company for approval. Knowledge, skills and capacities of employees are vital to continuous improvement, business growth and success of the Company. The Company strives to ensure that all employees can fulfill as well as enhance the relevant job qualifications in terms of education, training, technical and work experience.

2. Suppliers

We have developed long term relationships with various vendors and we ensure that they share our value and commitment to quality, ethics and environment. We carefully select our suppliers and require them to satisfy certain assessment criteria including track record, experience, financial strength, reputation, ability to produce high-quality products, quality control effectiveness and environmental issues.

3. Distributors and customers

We sell our products to distributors and customers. We require our distributors and customers to comply with the relevant laws and regulations, credit policy, as well as our sales and marketing policies, including but not limited to selling price, promotional activities and use of our ordering system. We also monitor the financial condition as well as repayment capability and timeliness of our distributors and customers, and sales performance of them.

Principal risks and uncertainties

The Company is exposed to various risks and uncertainties which was also disclosed in Note 3 to the Consolidated Financial Statements of this Report. The effects of such risks may vary over time. The following table sets forth material risks classified by the Company and the relevant alleviating measures for each material risk for the management of such risks.

Business Risk

Most of the Company's revenue was generated from customers in the PRC and Australia. Should there be any material adverse change in the political, economic, legal or social conditions in the PRC and the Company is unable to divert sales to other markets outside of the PRC, the turnover, profitability and prospects may be adversely affected. In order to alleviate such risk, the Company will put efforts to expand overseas market and increase the proportion of overseas sales. During the Period Under Review, we have export sales to Australia, Hong Kong and North America, etc. The Company will also continue to review competitive edges of the Company in the industry and market trend.

Directors' Report

The Company's production activities of aluminium profiles rely on, among other things, sufficient and uninterrupted supply of aluminium ingots, being our principal raw materials. The Company procures such principal raw materials from several major suppliers and has only partially entered into long-term purchase contracts with our major suppliers of aluminium ingots for flexibility in purchasing aluminium ingots at competitive prices at various times from domestic as well as foreign suppliers. In order to alleviate such risk, the Company will conduct investigation and assessment on suppliers periodically to ensure stable supply source of raw materials.

Financial risks

Delinquent payments of customers who were granted credit terms by the Company will increase the Company's exposure to financial risks and have impacts on financial performance and operating cash flows of the Company. In order to alleviate such risk, the Company will review accounts receivables due from all customers on a regular basis and control over the amounts and ageing. The Company will also manage and maintain strict control internally and put extra efforts to collect overdue trade receivables on a timely basis.

Results and Distribution

No interim dividend was declared for the six months ended March 31, 2016 and twelve months ended September 30, 2016 (six months ended March 31, 2015: Nil) and the Current Board does not recommend payment of a final dividend in respect of the Period Under Review (year ended September 30, 2015: Nil).

There is no arrangement pursuant to which a shareholder of the Company ("**Shareholder**") has waived or agreed to waive any dividends.

The results of the Group for the Period Under Review are set out in the consolidated statement of comprehensive income on pages 47 to 48.

Financial Statements

The statements of the results, assets and liabilities of the Group for the last five financial years/period are set out on page 124 of this report. This summary does not form part of the audited consolidated financial statements to the Group.

Reserves

Movements in the reserves of the Group during the Period Under Review are set out on page 51.

Distributable Reserves

Under the Companies Law of the Cayman Islands, the share premium of the Company is available for distribution of dividends to the Shareholders subject to the provisions of the Company's articles of association ("**Articles of Association**"). With the sanction of an ordinary resolution, dividends may be declared and paid out of share premium account of any other fund or account which can be authorized for this purpose. As at December 31, 2016, the Company had distributable reserves of approximately HK\$167 million (September 30, 2015: approximately HK\$478 million).

Share Capital

Changes in share capital of the Company for the Period Under Review and as at that date are set out in Note 23 to the consolidated financial statements.

Directors' Report

Pre-emptive Rights

There is no provision for pre-emptive rights under the Articles of Association or the laws of the Cayman Islands, which would oblige the Company to offer new shares to existing Shareholders on a pro-rata basis.

Share Option Scheme

On January 18, 2013, the Company adopted a share option scheme ("**Share Option Scheme**") whereby the Board can grant options for the subscription of our shares to the employees, managerial staff and senior employees and those other persons that the Board considers that they will contribute or have contributed to the Group (the "**Participants**") as described in the Share Option Scheme in order to serve as compliment and to reciprocate their contribution to the Group. The maximum number of shares that can be issued according to the Share Option Scheme is 120,000,000 shares which is equivalent to 10% of the issued capital of the Company after completion of the global offering ("**Global Offering**", as defined in the prospectus dated January 23, 2013 ("**Prospectus**"). The number of options that may be granted pursuant to the terms of the Share Option Scheme shall not exceed 10% of the issued shares immediately after the completion of the Global Offering. Unless otherwise approved by the Shareholders in general meeting, the number of shares that may be granted to any one Participant under the options shall not exceed 1% within any 12-month period (other than those granted to the substantial shareholders (as defined in the Listing Rules), or the total number of shares that may be granted under the options to the independent non-executive Directors or any of their respective connected persons shall not exceed 0.1% of the shares in issue of the Company from time to time. There is no minimum period that the options must be held before they become exercisable, and the options granted shall be exercised within the period decided by the Board, however no options shall be exercised 10 years after they have been granted. The exercise price of the option shall be the higher of (a) the closing price of the shares on the daily quotation sheet of the Exchange on the date of grant; (b) the average closing price of the shares on the daily quotation sheet of the Exchange for the five business days immediately preceding the date of grant; and (c) nominal value of the share.

Each grantee shall pay a consideration of HK\$1.00 at the time the option is granted. The Share Option Scheme shall take effect from the date it is adopted and shall remain effective within a period of 10 years from that date.

Since the Share Option Scheme was adopted, no options have been granted.

Share Award Scheme

The former board of directors of the Company ("**Former Board**") approved the adoption of the share award scheme ("**Share Award Scheme**") of the Company on March 3, 2014 ("**Adoption Date**").

Who May Join

Employee(s) are selected by the Board pursuant to the scheme rules for participation in the Share Award Scheme ("**Selected Employee(s)**").

The Purpose and Objective of the Share Award Scheme

The purposes of the Share Award Scheme are to recognize the contributions by Selected Employees and to give incentives thereto in order to retain them for the continual operation and development of the Group as part of talent retention program of the Group, and to attract suitable personnel for further development of the Group.

Operation of the Share Award Scheme

Bank of Communications Trustee Limited has been appointed as the trustee of the Share Award Scheme ("**Trustee**"). Pursuant to the scheme rules and the trust deed entered into with the Trustee, the Trustee shall purchase from the market or subscribe for the relevant number of Shares awarded out of the Company's resources and shall transfer the relevant Shares to that Selected Employee at no cost in accordance with the scheme rules.

Directors' Report

The Share Award Scheme came into effect on March 3, 2014, and shall terminate on the earlier of (i) the tenth (10) anniversary date of the Adoption Date; or (ii) such date of early termination as determined by the Board.

During the Period Under Review, no Shares were purchased by the Trustee on the market for the purpose of the Share Award Scheme.

No Shares were granted to Employees during the Period Under Review, details of which are set out in Note 24 to the consolidated financial statement.

Major Suppliers and Customers

During the Period Under Review, aggregate sales attributable to the Group's five largest customers comprised approximately 53% of the Group's total sales and the sales attributable to the Group's largest customer were approximately 42% of the Group's total sales. The aggregate purchases during the Period Under Review attributable to the Group's five largest suppliers were approximately 40% of the Group's cost of sales and the purchases attributable to the Group's largest supplier were approximately 22% of the Group's cost of sales.

Based on the confirmations received from certain Directors who were in their positions during the Period Under Review and to the best knowledge of the Company, none of the Directors, nor any of their associates or any Shareholders (which, to the knowledge of the Directors, own more than 5% of the Company's issued share capital) had any interest in the five largest customers and suppliers of the Group.

Bank Borrowings

Particulars of bank borrowings of the Group as at December 31, 2016 are set out in Note 28 to the consolidated financial statements.

There have been changes in the Former Board of the Company after the Period Under Review (details of which are stated in the section "**Subsequent Events after the Reporting Period**").

This Report is prepared on the basis of information available to the Current Board.

Directors' Service Contracts

Pursuant to Article 83(3) of the Articles, any Director appointed by the Board to fill a casual vacancy shall hold office until the first general meeting after his or her appointment and be subject to re-election at such meeting and any Director appointed by the Board as an addition to the existing Board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election.

In accordance with Article 84 of the Articles, at each annual general meeting one-third of the Directors for the time being (or, if their number is not a multiple of three (3), the number nearest to but not less than one-third) shall retire from office by rotation and being eligible, offer themselves for re-election at each annual general meeting, provided that every Director shall be subject to retirement at an annual general meeting at least once every three years.

Directors' Report

Ms. Shao Liyu and Mr. Wong Kwok Wai Eddy have each entered into a service contract with the Company for a term of 3 years with effect from February 1, 2016 and March 2, 2018 respectively.

Mr. Cosimo Borrelli and Ms. Chi Lai Man Jocelyn have each entered into a letter of appointment with the Company for an initial term of 3 years with effect from May 27, 2016.

Mr. Mar Selwyn, Mr. Leung Ka Tin and Dr. Cheung Wah Keung have each entered into a letter of appointment with the Company for a term of one year with effect from February 8, 2018, February 24, 2018 and March 22, 2018 respectively.

During the Period Under Review, none of the Directors proposed for re-election at the forthcoming annual general meeting has a service contract with the Company which is not determinable by the Company within one year without payment of compensation (other than statutory compensation).

Permitted Indemnity Provision

Pursuant to the Company's Articles of Association, subject to the relevant statutes, every Director shall be indemnified out of the assets of the Company against all costs, charges, expenses, losses and liabilities which he/she may sustain or incur in or about the execution of his/her office or which may attach thereto.

Directors' Interests in Transactions, Arrangements and Contracts of Significance

To the best knowledge of the Company and with the information available to the Company, there was no transaction, arrangement and contract of significance in relation to the Group's business to which the Company or any of its subsidiaries, holding companies or fellow subsidiaries was a party and in which a Director had a material interest, whether directly or indirectly, and subsisted at the end of the Period Under Review or at any time during the Period Under Review save as disclosed under Note 31 to the consolidated financial statements.

Directors' Rights to Purchase Shares or Debentures

Save as disclosed under the headings "Share Option Scheme" and "Share Award Scheme", at no time during the Period Under Review were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company granted to any Director or their respective spouse or minor children, or were any such rights exercised by them; or was the Company, its holding company, or any of its subsidiaries or fellow subsidiaries a party to any arrangement to enable the Directors to acquire such rights in any other body corporate.

Management Contracts

During the Period Under Review, the Group appointed Borrelli Walsh Limited ("**Borrelli Walsh**") to provide interim professional services for a fee of HK\$840,000 (the "**First Contract**") and to prepare the Company's 2017 budget and associated cash flow forecasts for a fee of HK\$750,000 (the "**Second Contract**"). The First Contract is subject to monthly renewal without a fixed term but can be terminated by the Company or Borrelli Walsh in writing and the Second Contract has expired. Mr. Cosimo Borrelli, the non-executive Director and non-executive chairman of the Company and Ms. Chi Lai Man Jocelyn, the non-executive Director, are interested in the First Contract and the Second Contract to the extent that Mr. Cosimo Borrelli is a managing director and shareholder interested in over 25% of the shares of Borrelli Walsh; and Ms. Chi Lai Man Jocelyn is a director and shareholder interested in less than 10% of the shares of Borrelli Walsh. Both of them have abstained from voting in respect of the relevant Board resolutions to approve the First Contract and the Second Contract.

To the best knowledge of the Company and with the information available to the Company, saved as disclosed above, no contracts, other than a contract of service with any Director or any person engaged in the full-time employment of the Company, concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or existed during the Period Under Review.

Directors' Report

Litigation

(i) **Winding up petitions against two Australia customers, namely Australia Customer A and Australia Customer B**

On July 20, 2015, the Group filed a claim with a court in Australia and issued winding up petitions against Australia Customer A and Australia Customer B, both were customers of the Group during the year ended September 30, 2014. Australia Customer A and Australia Customer B entered into voluntary administration on August 10, 2015. Australia Customer B was agreed to be wound up while the winding up hearing in respect of Australia Customer A was adjourned to allow for the voluntary administration of Australia Customer A to proceed. The liquidation process was on going during the Period Under Review and the Group had recovered significant receivables subsequent to the fifteen months ended December 31, 2016. Write-off on trade receivables due by Australia Customer A and Australia Customer B of approximately HKD2,822,000 was made during the Period Under Review. Details in relation to the write-off are set out in Note 19 to the consolidated financial statements of this annual report.

(ii) **Litigation with an aluminium ingot supplier ("Supplier A")**

In May 2015, a claim was lodged by the Group against Supplier A through legal proceedings in the PRC to recover the outstanding balances paid to Supplier A since the Group had not received all its purchases of aluminium ingots from the Supplier A. On December 29, 2016, the claim was ruled in favor of the Group. Subsequently, the Group entered into a settlement arrangement with Supplier A whereby Supplier A (or Supplier A's shareholder) to pay HK\$6,866,000 and dispose of the 8,885,000 shares in the Company held by Supplier A's shareholder to the Company or designated person as instructed by the Company. HK\$6,866,000 (using the then exchange rate) was received by the Group from Supplier A's shareholder in August 2017. However, management of the Company ("**Management**") considered it is impracticable that the 8,885,000 shares in the Company held by Supplier A's shareholder to be disposed of in view of the suspension of trading of shares of the Company and therefore it is impossible to estimate the fair value of those shares to be disposed of at this stage. The Group has made all necessary impairment provision in the years ended September 30, 2014 and 2015 and thus made no impairment provision for the undelivered aluminium ingots in-transit for the Period Under Review.

Save as disclosed above, no member of the Group was engaged in any litigation or arbitration of material importance and there was no litigation or claim of material importance known to the Directors to be pending or threatened against any member of the Group.

Directors' Report

As disclosed by the Company dated December 19, 2014, the Company has set up a First Independent Committee comprising two independent non-executive directors of the Company, Mr. Tsang Wah Kwong (as chairman of the committee) and Mr. Cheung Chun Sing Horatio, to supervise and oversee an investigation on certain matters ("**Investigation**").

As disclosed by the Company on March 17, 2015, the First Independent Committee had engaged an independent legal adviser and appointed an independent professional adviser ("**IPA**") to perform the Investigation.

Following the departure of Mr. Cheung Chun Sing Horatio on October 1, 2015, Mr. Tsang Wah Kwong became the sole member of the Independent Committee. The Independent Committee was dissolved on January 8, 2016 after noting the departure of the sole member of the committee, Mr. Tsang Wah Kwong with effect from January 18, 2016.

The Company received a report on Investigation from the IPA on January 18, 2016.

The Independent Committee was re-formed on February 11, 2016 when Mr. Choi Tze Kit Sammy, an independent non-executive Director was appointed to follow up any outstanding matters of the Investigation and engaging the IPA to carry out further investigation and related work. On March 21, 2016, Mr. Lam Kwok Fai Osmond and Mr. Tang Warren Louis were appointed as independent non-executive Directors, and became members of the Independent Committee. Subsequently, there were following changes in the members of the Independent Committee:

Mr. Mar Selwyn (appointed on February 8, 2017)
Mr. Chan Kai Nang (appointed on February 24, 2017 and retired on January 24, 2018)
Mr. Leung Ka Tin (appointed on February 24, 2017)
Mr. Choi Tze Kit Sammy (appointed on February 11, 2016 and ceased on February 11, 2017)
Mr. Lam Kwok Fai Osmond (appointed on March 21, 2016 and ceased on March 21, 2017)
Mr. Tang Warren Louis (appointed on March 21, 2016 and ceased on March 21, 2017)

The IPA finalised and issued the investigation report to the Independent Committee on the findings of the Investigation on August 30, 2017 and based on which, the Independent Committee, with the assistance of its legal adviser, has since completed the report of the Independent Committee setting out the key findings of the Investigation and its recommendations presented to the Board on September 1, 2017.

The findings of the Investigation are set out by the announcement of the Company dated October 6, 2017 and the related finding and the Management's assessments are set out from Annual Report 2014 and 2015.

In May 2017, the Company engaged Crowe Horwath (HK) Corporate Consultancy Ltd. ("**Internal Control Advisor**") as an internal control consultant for reviewing and revising the Company internal policies and procedures which the Company adopted on July 20, 2017. The Internal Control Advisor has identified a number of internal control deficiencies in the Group and the Group has reviewed those findings and taken necessary action to address the internal control deficiencies. The findings of the Internal Control Advisor have been announced in the announcement of the Company dated October 16, 2017.

Directors' Report

- (c) On December 28, 2017, the Company (through its wholly-owned subsidiaries) as the vendors, the purchasers, which are companies beneficially owned by Ms. Shao Liyu ("**Ms. Shao**"), and Ms Shao entered into the agreement, pursuant to which the vendors conditionally agreed to sell and the purchasers conditionally agreed to purchase the shares of OPLV (Nanyang) Doors and Windows Systems Co., Ltd ("**OPNY**") and OPLV Architectural Design Pty Ltd ("**OPAD**"). The vendors shall also procure the accounts receivable to be transferred or assigned to the purchasers, all at an aggregate consideration of RMB20 million.

On the same date, the Company, the purchasers, OPNY and OPAD entered into the management service agreement, pursuant to which the Company shall provide administrative and management support to purchasers and their subsidiaries/affiliates for one (1) year at a fee of HK\$200,000 per month.

Contemporaneously, the Company and Lumy House Limited, one of the purchasers, entered into a framework agreement, pursuant to which Lumy House Limited shall engage the Company and/or its subsidiaries as the OPNY and OPAD and its subsidiaries' (collectively, "**OPLV Group**") manufacturer and supplier for the OPLV Group's business.

On May 14, 2018, the parties to the agreements agreed to extend the long stop date to October 28, 2018 since additional time is required to prepare and finalise the circular to the Shareholders in relation to the disposal.

Upon completion of the disposal, the Group will cease to have any interest in the OPLV Group and its financial results will no longer be consolidated into the Company's consolidated financial statements.

Details of the above transactions are set out in the announcements of the Company dated December 28, 2017 and May 14, 2017.

Audit Committee

The Company has an audit committee ("**Audit Committee**") which was established in compliance with Rule 3.21 of the Listing Rules for the purpose of reviewing and providing supervision over the Group's financial reporting process and internal controls. The Audit Committee comprises three members who are the independent non-executive Directors, namely Mr. Mar Selwyn, Mr. Leung Ka Tin and Dr. Cheung Wah Keung.

The Audit Committee and the Management have reviewed the accounting principles and practices adopted by the Group, as well as the audited consolidated financial statements for the Period Under Review and has recommended their adoption to the Board.

Auditors

The consolidated financial statements for the years ended September 30, 2014 and September 30, 2015 were audited by PricewaterhouseCoopers.

On 24 January 2018 at the conclusion of the adjourned annual general meeting of the Company, the term of office of PricewaterhouseCoopers expired and BDO Limited was appointed as the new auditor of the Company. BDO Limited will hold office until the conclusion of the next annual general meeting of the Company.

The consolidated financial statements for the Period Under Review have been audited by BDO Limited.

Corporate Governance Report

Change in the Management of the Company

There have been changes in the management team of the Company subsequent to the financial year end:

Compositions

Directors during the Period Under Review:

Executive Directors

Ms. Shao Liyu (formerly known as Ms. Shao Lidan) (Chairlady and CEO)

Mr. Zhu Hong Tao

Mr. Ma Yu Yan

Non-Executive Directors

Mr. Cosimo Borrelli (appointed on May 27, 2016)

Ms. Chi Lai Man Jocelyn (appointed on May 27, 2016)

Independent Non-executive Directors

Mr. Tsang Wah Kwong (ceased on January 18, 2016)

Mr. Tsang Ming Chit Stanley (ceased on February 11, 2016)

Mr. Ching Yu Lung (appointed on October 1, 2015 and resigned on February 28, 2016)

Mr. Choi Tze Kit Sammy (appointed on February 11, 2016)

Mr. Lam Kwok Fai Osmond (appointed on March 21, 2016)

Mr. Tang Warren Louis (appointed on March 21, 2016)

Under Rule 3.10(1) of the Listing Rules in relation to listed issuer which must have at least three independent non-executive directors and Rule 3.21 that the audit committee of the Company must have three members. Subsequent to the resignation of Mr. Tsang Wah Kwong, Mr. Tsang Ming Chit Stanley and Mr. Ching Yu Lung with effect from January 18, 2016, February 11, 2016 and February 28, 2016 respectively, the number of independent non-executive Directors and audit committee members had fallen below the minimum number required under Rules 3.10(1) and 3.21 of the Listing Rules. On March 21, 2016, the Company appointed Mr. Lam Kwok Fai Osmond and Mr. Tang Warren Louis as independent non-executive Directors and audit committee members of the Company. Hence, the requirements under Rules 3.10(1) and 3.21 of the Listing Rules were fulfilled since then.

All non-executive Directors were appointed with specific terms referred in their respective contracts and are subject to retirement and rotation requirements under the Articles of Association of the Company.

Changes subsequent to the fifteen months ended December 31, 2016

- Ms. Shao Liyu (ceased as the chairlady of the Company on November 9, 2017)
- Mr. Ma Yu Yan (ceased as an executive Director on May 9, 2017)
- Mr. Choi Tze Kit Sammy (ceased as an independent non-executive Director on February 11, 2017)
- Mr. Lam Kwok Fai Osmond (ceased as an independent non-executive Director on March 21, 2017)
- Mr. Tang Warren Louis (ceased as an independent non-executive Director on March 21, 2017)
- Mr. Cosimo Borrelli (appointed as the Non-executive Chairman of the Company on November 9, 2017)
- Mr. Mar Selwyn (appointed as an independent non-executive Director on February 8, 2017)

Corporate Governance Report

- Mr. Chan Kai Nang (appointed as an independent non-executive Director on February 24, 2017 and retired on January 24, 2018)
- Mr. Leung Ka Tin (appointed as an independent non-executive Director on February 24, 2017)
- Mr. Chan Kai Lun Allan (appointed as an executive Director on March 27, 2017 and resigned on May 11, 2018)
- Mr. Zhu Hongtao (retired as an executive Director on January 24, 2018)
- Mr. Wong Kwok Wai Eddy (appointed as an executive Director on March 2, 2018)
- Dr. Cheung Wah Keung (appointed as an independent non-executive Director on March 22, 2018)

Accordingly, the Current Board as of the date of this report comprises seven members: Ms. Shao Liyu, Mr. Wong Kwok Wai Eddy, Mr. Cosimo Borrelli, Ms. Chi Lai Man Jocelyn, Mr. Mar Selwyn, Mr. Leung Ka Tin and Dr. Cheung Wah Keung.

Corporate Governance Practices

Given the majority of directors of the Current Board were not the Board members in the Period Under Review, the Current Board, with the best information available, is able to confirm that the Company had the following deviations from the Code on Corporate Governance Practice (“**CG Code**”) set out in Appendix 14 of the Listing Rules.

Chairman and Chief Executive Officer

Under code provision A.2.1 of the CG Code, the roles of the chairlady and CEO should be separated and should not be performed by the same individual.

During the period between April 22, 2015 and November 8, 2017, Ms. Shao Liyu was the chairlady and also the CEO of the Company responsible for overseeing the operations of the Group. As the development of the Group during the period required the active involvement of Ms. Shao Liyu, her in-depth knowledge and experience in the industry and her familiarity with the operations of the Group, the then Board considered that it was appropriate for Ms. Shao Liyu to serve both positions at the time following the resignation of Ms. Ng Bonnie Po Ling and Mr. Liu Hoi Keung as Joint CEO on April 22, 2015. Ms. Shao Liyu, the then chairlady, was appointed as CEO on April 22, 2015. The then Board considered that the non-separation of these two roles would not impair the balance of power as all major decisions were made in consultation with members of the Board. Nevertheless, the Company has continued to review its operation and made arrangement to meet the requirement of code provision A.2.1 to Appendix 14 of the Listing Rules where necessary. On November 9, 2017, the Board appointed Mr. Cosimo Borrelli as the Non-Executive Chairman of the Board and Ms. Shao Liyu resigned as the chairlady of the Board (as announced on November 10, 2017). From then on, the roles of the chairman and CEO are separated.

Audit Committee

Under code provision C.3 of the CG Code, the audit committee must meet, at least twice a year, with the issuer’s auditors, and meet with the auditor, at least annually, in the absence of management, to discuss matters relating to its audit fees, any issues arising from the audit and any other matters the auditor may wish to raise.

During the Period Under Review, no audit committee meeting was held with the auditor. In order to fully address the issues raised by the predecessor auditor during the course of its audit, an independent committee (“**Independent Committee**”), comprising independent non-executive Directors, was established to supervise and oversee the investigations conducted by an Independent Professional Advisor who was appointed to investigate into matters raised by the predecessor auditor. The duties of the audit committee were therefore discharged through the Independent Committee.

Corporate Governance Report

Financial Reporting

Furthermore, subsequent to the Period Under Review, and as announced on December 19, 2014, the Company has, upon the recommendation of the then auditor, resolved to appoint the IPA to investigate into matters raised by the auditor ("**Issues**"), including, but not limited to, (1) the transactions with a contractor for the construction of the Group's new manufacturing facility in Nanyang, the PRC; (2) the discrepancies found on certain of the Group's inventory receipt records in relation to the Group's raw materials procurement; (3) the relationship between the Group and certain Australia customers; and (4) details and supporting documents on certain expenses. The former Board has established an independent committee, comprising the independent non-executive Directors, to supervise and oversee the investigation of the Issues. As the investigation on the Issues was only concluded in August 2017, the interim results and annual results of the Company for the Period Under Review are deferred until the date of this Report. Accordingly, the Company was not able to timely comply with the financial reporting provisions under rules 13.49(1) and 13.49(6) of the Listing Rules in (i) announcing the annual/interim results for the fifteen months ended December 31, 2016 and year ended December 31, 2017; (ii) publishing the related interim and annual report for the aforesaid years; and (iii) complying with the Code Provision C.1.

The Company did not hold its annual general meetings in 2016 and 2017 while an annual general meeting of the Company and its adjournment have been held on January 10, 2018 and January 24, 2018 to approve the audited consolidated financial statements for the year ended September 30, 2014. The Board will convene an annual general meeting in the near future to approve the audited consolidated financial statements for the year ended September 30, 2015, for the fifteen months ended December 31, 2016 and for the year ended December 31, 2017.

For more details, please refer to the Company's announcements dated January 10, 2018 and January 24, 2018.

The Board of Directors

Responsibilities

The Board is responsible for overseeing the overall development of the Company's business with the objective of enhancing value of the Shareholders including setting and approving the Company's strategic implementation, considering substantial investments, reviewing the Group's financial performance and developing and reviewing the Group's policies and practices on corporate governance.

The Company has arranged for appropriate insurance cover for Directors' and officers' liabilities in respect of legal actions against its Directors and senior management arising out of corporate activities.

Independence Confirmation

The Company has received annual confirmations from each of the independent non-executive Directors as to their independence pursuant to Rule 3.13 of the Listing Rules, while to the best knowledge of the Company and with the information available to the Company, the Company considered all the independent non-executive Directors to be independent.

Appointment and Re-election of Directors

In accordance with the Articles of Association, all Directors are subject to retirement by rotation at least once every three years and any new Director appointed by the Board to fill a causal vacancy or as an addition to the Board shall submit himself/herself for re-election by Shareholders at the first general meeting after appointment.

Corporate Governance Report

Directors' Training

The Company has arranged induction training for newly appointed Directors. All Directors are encouraged to participate in continuous professional development trainings to develop and refresh their knowledge and skills.

Directors' Securities Transaction

The Company has adopted the Model Code as its code of conduct for dealings in securities of the Company by the Directors. The Company, based on the best information available, all former Directors holding office as at 31 December 2016 had complied with the Model Code provisions during the Period Under Review.

Relationship with Directors

During the Period Under Review and up to the date of this report, Mr. Cosimo Borrelli is a managing director and shareholder interested in over 25% of the shares of Borrelli Walsh; and Ms. Chi Lai Man Jocelyn is a director and shareholder interested in less than 10% of the shares of Borrelli Walsh.

Mr. Cosimo Borrelli and Ms. Chi Lai Man Jocelyn are also authorized representatives of the directors of Easy Star Holdings Limited, which is interested in 75% of the issued shares of the Company as at the date hereof. Easy Star Holdings Limited is wholly-owned by Marina Star Limited, which is in turn wholly-owned by HSBC International Trustee Limited as trustee for The Pan Family Trust. The Pan Family Trust was a discretionary trust established by Mr. Marcus Pan, the former spouse of Ms. Shao Liyu, an executive Director and the chief executive officer of the Company, as settlor and one of the beneficiaries include Ms. Shao Liyu.

Term of Appointment of the Non-Executive Director and Independent Non-Executive Directors

During the Period Under Review, the non-executive Directors and independent non-executive Directors were appointed for a term of 3 years and 1 year respectively and subject to retirement by rotation and re-election in accordance with the Articles of Association.

Corporate Governance Report

Board practices and conduct of meetings

Delegation by the Board

The Board undertakes the responsibility for decision making in major matters of the Company, with the day-to-day management delegated to the CEO and senior management. Each Director is normally able to seek independent professional advice in appropriate circumstances at the Company's expense, upon making request to the Board, for discharge of their duties.

Board Committees

The Board has established three standing committees, namely, the Nomination Committee, Remuneration Committee and Audit Committee, for overseeing particular aspects of the Company's affairs. All Board committees of the Company are established with defined written terms of reference which are available to Shareholders on the Company's website.

Nomination Committee

During the Period Under Review, the majority members of the Nomination Committee were independent non-executive Directors, with Ms. Shao Liyu (formerly known as Ms. Shao Lidan) as the chairlady of the Nomination Committee. The members of the Nomination Committee for the Period Under Review were:

Ms. Shao Liyu (formerly known as Ms. Shao Lidan) (Chairlady)
 Mr. Tsang Wah Kwong (ceased on January 18, 2016)
 Mr. Tsang Ming Chit Stanley (ceased on February 11, 2016)
 Mr. Ching Yu Lung (appointed on October 1, 2015 and resigned on February 28, 2016)
 Mr. Choi Tze Kit Sammy (appointed on February 11, 2016)
 Mr. Lam Kwok Fai Osmond (appointed on March 21, 2016)
 Mr. Tang Warren Louis (appointed on March 21, 2016)

During the Period Under Review, the Nomination Committee was primarily responsible:

- to review the structure, size and composition (including the skills, knowledge and experience) of the Board on a regular basis and make recommendations to the Board regarding any proposed changes;
- to identify individuals suitably qualified to become Board members and select or make recommendations to the Board on selection of individuals nominated for directorships;
- to assess the independence of independent non-executive Directors, having regard to the requirements under the applicable laws, rules and regulations;
- to make recommendations to the Board on relevant matters relating to the appointment or re-appointment of Directors and succession planning for Directors and, in particular, the chairman and the chief executive officer of the Company;
- to review the policy on Board diversity ("**Board Diversity Policy**") and any measurable objectives for implementing such Board Diversity Policy as may be adopted by the Board from time to time and to review the progress on achieving the objectives; and
- to make disclosure of its review results in the annual report of the Company annually.

The Board has adopted a board diversity policy which sets out the approach to achieve diversity on the Board. Accordingly, selection of candidates to the Board is based on a range of measurable objectives, including but not limited to gender, age, cultural and educational background, professional experience and qualifications, skills, knowledge and length of service, having due regard to the Company's own business model and specific needs from time to time. With the existing Board members coming from a variety of business and professional background, the Company considers that the Board possesses a balance of skills, experience, expertise and diversity of perspectives appropriate to the requirements of the Company's business.

Corporate Governance Report

During the Period Under Review, the Nomination Committee held 1 meeting and passed 1 written resolution for nominating or considering the candidacies of potential board members and committee member. The individual attendance record of the Directors at the meeting of Nomination Committee is set out in the paragraph headed “**Attendance Records of Former Board and Committee Meetings**” of this Corporate Governance Report.

Remuneration Committee

During the Period Under Review, the majority of members of the Remuneration Committee were independent non-executive Directors, with Mr. Lam Kwok Fai Osmond acted as the chairman of the Remuneration Committee with effect from March 21, 2016 in place of Mr. Tsang Ming Chit Stanley (resigned on February 11, 2016). The members of the Remuneration Committee were:

Mr. Lam Kwok Fai Osmond (Chairman) (appointed on March 21, 2016)
Mr. Tsang Ming Chit Stanley (Chairman) (appointed as chairman on October 1, 2015 and ceased on February 11, 2016)
Ms. Shao Liyu (formerly known as Ms. Shao Lidan)
Mr. Tsang Wah Kwong (ceased on January 18, 2016)
Mr. Ching Yu Lung (appointed on October 1, 2015 and resigned on February 28, 2016)
Mr. Choi Tze Kit Sammy (appointed on February 11, 2016)
Mr. Tang Warren Louis (appointed on March 21, 2016)

During the Period Under Review, the Remuneration Committee was primarily responsible:

- to make recommendations to the Board on the Company’s policy and structure for all remunerations of Directors and senior management and on the establishment of formal and transparent procedures for developing policies on all such remunerations;
- to make recommendations to the Board on the remuneration packages of individual executive Directors and senior management;
- to review and approve performance-based remunerations by reference to corporate goals and objectives resolved by the Board from time to time;
- to make recommendations to the Board on the remuneration of non-executive Directors;
- to consider salaries paid by comparable companies, time commitment and responsibilities and employment conditions elsewhere in the Group;
- to review and approve compensation payable to executive Directors and senior management members of the Company in connection with any loss or termination of their office or appointment to ensure that such compensation is determined in accordance with relevant contractual terms and that such compensation is fair and not excessive for the Company;
- to review and approve compensation arrangements relating to dismissal or removal of Directors for misconduct to ensure that such arrangements are determined in accordance with relevant contractual terms and that any compensation payment is reasonable and appropriate; and
- to ensure that no Director or any of his/her associates is involved in deciding his/her own remuneration.

During the Period Under Review, the Remuneration Committee held 2 meetings and passed 3 resolutions for reviewing the remuneration package and bonus for Directors and salary for senior management. The individual attendance record of the Directors at the meeting of Remuneration Committee is set out in the paragraph headed “**Attendance Records of Former Board and Committee Meetings**” of this Corporate Governance Report.

Corporate Governance Report

Audit Committee

During the Period Under Review, the Audit Committee comprised all independent non-executive Directors, with Mr. Choi Tze Kit Sammy acted as the chairman of the Audit Committee with effect from February 11, 2016 in place of Mr. Ching Yu Lung (resigned on February 11, 2016) who was appointed subsequent to the resignation of Mr. Tsang Wah Kwong on January 18, 2016. The members of Audit Committee during the Period Under Review were:

- Mr. Choi Tze Kit Sammy (Chairman) (appointed on February 11, 2016)
- Mr. Ching Yu Lung (Chairman) (appointed as member on October 1, 2015 and chairman on January 18, 2016 and resigned as chairman on February 11, 2016 and member on February 28, 2016)
- Mr. Tsang Wah Kwong (Chairman) (ceased on January 18, 2016)
- Mr. Tsang Ming Chit Stanley (ceased on February 11, 2016)
- Mr. Lam Kwok Fai Osmond (appointed on March 21, 2016)
- Mr. Tang Warren Louis (appointed on March 21, 2016)

During the Period Under Review, the Audit Committee was primarily responsible:

- to make recommendations to the Board on the appointment, re-appointment and removal of the external auditor, and to approve the remuneration and terms of engagement of the external auditor, and any questions of resignation or dismissal of that external auditor;
- to review and monitor the external auditor's independence and objectivity and the effectiveness of the audit process in accordance with applicable standards;
- to develop and implement policy on the engagement of an external auditor to supply non-audit services;
- to monitor integrity of financial statements of the Company and the Company's annual report and accounts and half-year reports and to review significant financial reporting judgments contained in them;
- to review the Company's financial controls, internal control and risk management systems annually;
- to discuss with management the system of internal control and ensure that management has discharged its duty to have an effective internal control system;
- to consider major investigation findings on internal control matters as delegated by the Board or on its own initiative and management's response to these findings;
- to review the Group's financial and accounting policies and practices; and
- to review the external auditor's management letter, any material queries raised by the auditor to the management in respect of the accounting records, financial accounts or systems of control and management's response, and to ensure that the Board provides a timely response to the issues raised.

Based on the record available to the Current Board, during the Period Under Review, the Audit Committee held one meeting for considering and reviewing the internal audit function and internal audit plan. The individual attendance record of the Directors at the meeting of Audit Committee is set out in the paragraph headed **"Attendance Records of Former Board and Committee Meetings"** of this Corporate Governance Report.

As disclosed in sub-section headed "Financial Reporting" above, the review of the financial results for the six months ended March 31, 2016, the financial results for the twelve months ended September 30, 2016 and the financial results for the fifteen months ended December 31, 2016 by the Current Audit Committee was deferred until May 25, 2018 at Audit Committee meeting.

Corporate governance functions

During the Period Under Review, the Board was responsible for determining the policy for the corporate governance of the Company, performing the corporate governance duties and review of the Company's compliance with the CG Code.

For the Period Under Review, apart from the meetings of the Former Board, Nomination Committee and Remuneration Committee, consent/approval from the Former Board and Former Board committees had also been obtained by written resolutions on a number of matters.

Annual Report and Financial Statements

All Directors acknowledge their responsibilities to prepare financial statements for the Period Under Review which give a true and fair view of the state of affairs of the Group and in presenting the interim and annual financial statements, and announcements to the shareholders of the Company. The Directors aim to present a balanced and understandable assessment of the Group's position and prospects of the financial statements of the Group.

The statements of the external auditor of the Company, BDO Limited, about their reporting responsibilities on the financial statements of the Group are set out in the Independent Auditor's Report on pages 37 to 46 of this report.

Risk Management and Internal Control

The Board is responsible for maintaining an adequate system of internal controls within the Group and for reviewing their effectiveness. The system of internal controls is designed to facilitate effective and efficient operations, to safeguard assets and to ensure the quality of internal and external reporting and compliance with applicable laws and regulations. It is also designed to provide reasonable, but not absolute, assurance that material misstatement or loss can be avoided, and to manage and minimize risks of failure in operation systems. The Company is committed to implementing a stricter and more regulated internal control procedures in the new financial year.

Qualified Opinion

We have audited the consolidated financial statements of PanAsialum Holdings Company Limited (the "Company") and its subsidiaries (together the "Group") set out on pages 47 to 123, which comprise the consolidated statement of financial position as at December 31, 2016, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the period from October 1, 2015 to December 31, 2016 (the "Period"), and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, except for the possible effects of the matters described in the "Basis for Qualified Opinion" section of our report, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at December 31, 2016, and of its consolidated financial performance and its consolidated cash flows for the Period in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Qualified Opinion

(1) Prepayments to a supplier

As set out in Note 2.1.3(A) to the consolidated financial statements, the Group recognised an impairment provision of RMB25,999,000 (equivalent to HK\$33,014,000) against the prepayments made to Supplier A as at September 30, 2014. During the year ended September 30, 2015, the Group continued to make prepayments to Supplier A totalling RMB12,696,000 (equivalent to HK\$16,043,000) for the purchase of aluminium ingots; however no aluminium ingots were subsequently delivered to the Group by Supplier A in relation to the prepayments made during the year ended September 30, 2015 and therefore the Group recognised an impairment provision of RMB38,695,000 (equivalent to HK\$49,057,000) against the prepayments made to Supplier A as at September 30, 2015. The prepayments to Supplier A after impairment provision, amounted to RMB5,430,000 as at September 30, 2015 and December 31, 2016 (equivalent to December 31, 2016: HK\$6,094,000; September 30, 2015: HK\$6,866,000) were subsequently recovered through the legal proceedings against Supplier A as described in Note 2.1.3(A). During the Period, no further payment to Supplier A was recorded by the Group and there was no subsequent further provision or reversal of provision recognised.

Management was unable to provide us with satisfactory evidence about the background of Supplier A, as well as the business rationale and commercial substance of the prepayments made to Supplier A. We did not obtain direct confirmation reply from Supplier A to confirm any prepayment made to it during the Period as well as the outstanding prepayment balances to Supplier A as at December 31, 2016. Notwithstanding our requests to management, we were also unable to interview with Supplier A to ascertain the amounts and nature of the prepayments made to Supplier A.

As such, we were not able to obtain sufficient appropriate audit evidence to ascertain the nature, occurrence, accuracy, completeness and presentation of the gross prepayments in the amount of HK\$55,151,000 made to Supplier A as at December 31, 2016 (September 30, 2015: HK\$55,923,000), and the related accumulated impairment provision amounted to HK\$49,057,000 as at December 31, 2016 (September 30, 2015: HK\$49,057,000) and any recognition of impairment provision for the Period (for the year ended September 30, 2015: HK\$16,043,000). There were no alternative audit procedures that we could perform to satisfy ourselves as to the above-mentioned matters. Consequently, we were unable to determine whether any adjustment to these amounts was necessary.

Independent Auditor's Report

Basis for Qualified Opinion *(Continued)*

(1) Prepayments to a supplier *(Continued)*

Audit opinion on the consolidated financial statements for the year ended September 30, 2015 was also modified on the same basis as mentioned above regarding nature, occurrence, accuracy, completeness and presentation of the total prepayments made to Supplier A of RMB12,696,000 (equivalent to HK\$16,043,000) during the year ended September 30, 2015 and whether the impairment charge of RMB12,696,000 (equivalent to HK\$16,043,000) recognised during the year ended September 30, 2015 and the net prepayment balance to suppliers of HK\$25,297,000 as at the same date were fairly stated, which were included in "Prepayments, deposits and other receivables" as detailed in Note 19 to the consolidated financial statements. Any adjustments to the prepayments and any impairment provision to be recognised as at September 30, 2015 and December 31, 2016 would have a consequential impact on the Group's net assets as at September 30, 2015 and December 31, 2016 and the Group's financial performance for the Period. Our opinion on the Period's consolidated financial statements is also modified because of the possible effects of the adjustments to prepayments and any impairment provision to be recognised for the year ended September 30, 2015 on the comparability of the Group's financial performance for the year ended September 30, 2015 and the Period.

(2) Receivables from, and possible relationship with, certain customers

An investigation was performed by an independent professional advisor and was completed in August 2017 (the "Investigation"). The Investigation and other documents revealed the findings regarding the transactions, amounts and possible relationships between the Group and certain customers. A customer in Australia together with its subsidiaries and affiliates (collectively the "Australia Customers") was one of the Group's largest customers in prior years. Due to a group restructuring of the Australia Customers, two new companies were incorporated in Australia in April 2014 ("Australia Customer A" and "Australia Customer B"). In May 2014, Australia Customer A agreed to assume, from the Australia Customers, the payment obligations of the trade payables to the Group totalling HK\$319,503,000. Since May 2014, Australia Customer B had begun to act as an import agent for Australia Customer A.

Meanwhile, the Group started recording sales to another new customer ("Customer C") during the year ended September 30, 2014.

As set out in Note 2.1.3(B) to the consolidated financial statements, the Investigation revealed possible connections between certain relatives of the former chairman of the Company with Australia Customer A and Australia Customer B. There were also possible connections between some of the Australia Customers and Supplier A. In addition, there was evidence indicating that certain goods sold to Customer C were resold to Australia Customer B.

Furthermore, Australia Customer A and Australia Customer B delayed in settlement and the outstanding trade receivables from them became long overdue as at September 30, 2014. Customer C had delayed its settlement which the Group had continuously demanded for settlement but in vain. After taking into account the subsequent collections and balances recovered from the relevant legal actions as set out in Note 2.1.3(B) to the consolidated financial statements, total outstanding trade receivables of HK\$100,102,000 from Australia Customer A, Australia Customer B and Customer C were written off during the year ended September 30, 2014.

During the year ended September 30, 2015, while there were no recorded sales to Australia Customer A, the Group continued to record sales to Australia Customer B and Customer C of HK\$241,902,000 and HK\$36,352,000, respectively. The trade receivable balances (before the write-off in the year ended September 30, 2015) outstanding from Australia Customer B and Customer C were HK\$225,398,000 and HK\$32,797,000, respectively as at September 30, 2015.

(2) Receivables from, and possible relationship with, certain customers *(Continued)*

Furthermore, Australia Customer B delayed in settlement and the outstanding trade receivables from it became long overdue as at September 30, 2015. Customer C had delayed its settlement which the Group had continuously demand for settlement but in vain. After taking into account the subsequent collections and balances recovered from the relevant legal actions as set out in Note 2.1.3(B) to the consolidated financial statements, total trade receivables from Australia Customer B and Customer C of HK\$137,806,000 and HK\$36,352,000, respectively, in relation to the sales executed during the year ended September 30, 2015, had been written off in the same year.

During the Period, no further sales to Australia Customer A, Australia Customer B and Customer C were recorded by the Group. After taking into account the subsequent collections and balances recovered from the relevant legal actions as set out in Note 2.1.3(B) to the consolidated financial statements, total trade receivables from Australia Customer A and Australia Customer B of HK\$2,822,000 had been fully written off in the Period.

Management was not able to provide us with sufficient information and explanations about the background of Australia Customer A and Australia Customer B as well as their relationship with the Australia Customers, and the business rationale to accept the assignment of trade receivables of HK\$319,503,000 from the Australia Customers to Australia Customer A (which was newly incorporated in April 2014). Notwithstanding our requests to management, we were also unable to obtain satisfactory explanations and adequate evidence from management to ascertain the relationship, if any, between the Group and Australia Customer A and Australia Customer B, and between Customer C and Australia Customer B and/or Australia Customer A (and therefore the relationship of Customer C, if any, with the Group), nor were we able to interview the relevant counterparties identified in the Investigation. We were also unable to obtain the satisfactory confirmation replies from Australia Customer A, Australia Customer B and Customer C to confirm the trade receivable balances with them as at December 31, 2016.

Management was also not able to provide us with adequate evidence to support the rationale of recognising the write-off of trade receivables from Australia Customer B and Customer C during the year ended September 30, 2015 and the Period and as at December 31, 2016, and of the impairment assessment of the outstanding trade receivables from Customer C.

Because of the above scope limitations, we are not able to obtain sufficient appropriate audit evidence to satisfy ourselves as to:

- (i) whether the Group had any related party relationships with the Australia Customers, Australia Customer A, Australia Customer B and Customer C, and thus the accuracy and completeness of the disclosures of related party balances and transactions in the Group's consolidated financial statements as at December 31, 2016 and for the Period; and
- (ii) whether the total write-off amounts of trade receivables from Australia Customer A, Australia Customer B and Customer C of HK\$277,082,000 recognised up to December 31, 2016 were fairly stated; and whether these write-offs were recognised in the proper accounting periods.

Independent Auditor's Report

Basis for Qualified Opinion *(Continued)*

(2) Receivables from, and possible relationship with, certain customers *(Continued)*

Consequently, we were not able to determine whether any adjustment to these amounts and disclosures was necessary.

Audit opinion on the consolidated financial statements for the year ended September 30, 2015 was also modified on the same basis as mentioned above regarding (a) whether the Group had any related party relationships with the Australia Customers, Australia Customer A, Australia Customer B and Customer C, and thus the accuracy and completeness of the disclosures of related party balances and transactions; and (b) whether the write-off of trade receivables from Australia Customer B and Customer C totalling HK\$174,158,000 recognised during the year ended September 30, 2015 and the total write-off amounts of trade receivables from Australia Customer A, Australia Customer B and Customer C recognised up to September 30, 2015 of HK\$274,260,000 were fairly stated, which were included in "Trade and bills receivables" as detailed in Note 19 to the consolidated financial statements and whether those write-offs were recognised in the proper accounting periods. Any adjustments to the trade receivables and any write-offs to be recognised or reversed as at September 30, 2015 and December 31, 2016 would have a consequential impact on the Group's net assets as at September 30, 2015 and December 31, 2016 and the Group's financial performance for the Period.

Our opinion on the Period's consolidated financial statements is also modified because of the possible effects of the above matters on the comparability of the Group's financial performance for the year ended September 30, 2015 and the Period.

(3) Investment in and advances to, and possible relationship with, an associated company

As set out in Note 2.1.3(C) to the consolidated financial statements, the Group had in August 2014 invested an amount of HK\$17,524,000 to acquire a 45% equity interest in Leading Sense Limited ("Leading Sense"), which was accounted for as an associated company of the Group. As at September 30, 2015, the Group recorded an outstanding advance of HK\$44,841,000 (before write-offs) to Leading Sense and its subsidiaries (the "Leading Sense Group").

Based on the findings of a legal adviser of the Company, possible connection between one of the registered shareholders of Leading Sense and the former chairman of the Company was identified.

Management was not able to obtain the financial information of the Leading Sense Group as no financial information was prepared by the Leading Sense Group, nor were they able to contact the other shareholders or management of the Leading Sense Group since January 2015. Based on management's impairment assessment, the Group had fully written off its remaining carrying value of investment in an associated company of HK\$5,893,000 and amounts due from an associated company of HK\$44,841,000 during the year ended September 30, 2015. No material subsequent reversal of write-off was recognised for the Period.

Independent Auditor's Report

Basis for Qualified Opinion *(Continued)*

(3) Investment in and advances to, and possible relationship with, an associated company *(Continued)*

Management was not able to provide us with the details of the background of Leading Sense's shareholders as well as the business rationale and commercial substance of the advances to the Leading Sense Group. No satisfactory confirmation reply was obtained by us from Leading Sense in relation to the outstanding advance balance. Notwithstanding our requests to management, we were also not able to obtain satisfactory explanations and adequate evidence from management to ascertain whether there are other relationships between the Leading Sense Group and the Group, nor were we able to interview with the relevant counterparties in relation to the investment in Leading Sense. Management was also unable to provide us with satisfactory explanations and adequate information to support their impairment assessment of the investment and advance balances, together with the basis and rationale of recognising the write-off during the year ended September 30, 2015 and their basis for assessing the carrying amounts of the investment and advances balance as at December 31, 2016. Notwithstanding our requests to management, we were also not able to obtain the latest financial information of the Leading Sense Group for the year ended September 30, 2015 and the Period nor were we able to get access to the financial records and interview with the management of the Leading Sense Group. We were therefore not able to ascertain whether there should be any share of results from the Leading Sense Group or any reversal of write-off to be recognised by the Group for the Period, which would have consequential impacts on the Group's investment in and advances to the Leading Sense Group as at December 31, 2016.

Because of the above scope limitations, we are not able to obtain sufficient appropriate audit evidence to satisfy ourselves as to:

- (i) the business rationale and the commercial substance of the advances to the Leading Sense Group;
- (ii) the existence or occurrence, accuracy and completeness of the Group's advances to the Leading Sense Group;
- (iii) whether the effects of these transactions had been properly accounted for, classified and disclosed, including whether the write-off of the investment and amounts due from an associated company totalling HK\$50,734,000 as at December 31, 2016 were fairly stated; and
- (iv) whether the investment in an associated company of HK\$Nil and the share of its results of HK\$Nil were fairly stated in the Group's consolidated financial statements as at December 31, 2016 and for the Period.

Consequently, we were not able to determine whether any adjustment to these amounts and disclosures was necessary.

Independent Auditor's Report

Basis for Qualified Opinion *(Continued)*

(3) Investment in and advances to, and possible relationship with, an associated company *(Continued)*

Audit opinion on the consolidated financial statements for the year ended September 30, 2015 regarding the above matters (i) to (iv) was also modified on the same basis as mentioned above on the carrying value of the investment in and advances to the Leading Sense Group of HK\$Nil as at September 30, 2015, which were included in "Investments accounted for using the equity method" and the amount due therefrom as detailed in Notes 16(b) and 20(ii) to the consolidated financial statements, respectively. Any adjustments to the related investments, advances, transactions and any write-offs to be recognised in relation to the Leading Sense Group as at September 30, 2015 and December 31, 2016 would have a consequential impact on the Group's net assets as at September 30, 2015 and December 31, 2016 and the Group's financial performance for the Period.

Audit opinion on the consolidated financial statements for the year ended September 30, 2015 regarding whether the write-off of the investment and amounts due from an associate company totalling HK\$50,734,000 recognised and the related cash flows presentation during the year ended September 30, 2015; and whether the investment in an associated company of HK\$Nil and the share of its loss of HK\$9,493,000 were fairly stated in the Group's consolidated financial statements as at September 30, 2015 and for the year then ended was modified on the same basis as mentioned above. Our opinion on the Period's consolidated financial statements is also modified because of the possible effects of this matter on the comparability of the Group's financial performance and the related cash flows presentation for the year ended September 30, 2015 and the Period.

(4) Transactions conducted through personal bank account and cash transactions

During the year ended September 30, 2015, the current board of directors of the Company (the "Current Board") identified certain records setting out certain transactions that were conducted either through a personal bank account opened in the name of the spouse of an employee of the Group or in cash. These transactions were not previously accounted for or recorded in the Group's consolidated financial statements for the year ended September 30, 2015.

The transaction records indicated that there were proceeds from sales of scraps, which were then used for payments of salaries to employees of the Group or expense reimbursements to certain employees of the Group, including the chief executive officer and an executive director of the Company. The transaction records indicated the total proceeds from sales of scraps amounted to HK\$8,199,000 and the total payment of expenses amounted to HK\$7,848,000 for the year ended September 30, 2015.

The Current Board considered these transactions were attributable to the Group, and therefore total other income of HK\$8,199,000 and administrative expenses of HK\$7,848,000 were recorded in the Group's consolidated statement of comprehensive income for the year ended September 30, 2015.

Due to the inability to obtain sufficient appropriate audit evidence regarding the above transactions and the related tax impacts, if any, audit opinion on the consolidated financial statements for the year ended September 30, 2015 was modified accordingly. Our opinion on the Period's consolidated financial statements is also modified because of the possible effects of the above-mentioned matter on the comparability of the Group's financial performance and the related cash flows presentation for the year ended September 30, 2015 and the Period.

Independent Auditor's Report

Basis for Qualified Opinion *(Continued)*

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the HKICPA's "Code of Ethics for Professional Accountants" (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Other Information in the Annual Report

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. As described in the "Basis for Qualified Opinion" section above, we were not able to obtain sufficient appropriate evidence about (1) prepayments to a supplier; (2) receivables from, and possible relationship with, certain customers; and (3) investment in and advances to, and possible relationship with, an associated company. Accordingly we are unable to conclude whether or not the other information is materially misstated with respect to these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters. In addition to the matters described in the "Basis for Qualified Opinion" section of our report, we have determined the matter described below to be the key audit matter to be communicated in our report.

Transactions conducted through an entrusted personal bank account and cash transactions

The Current Board identified records setting out transactions taken place during the Period that were conducted either through an entrusted personal bank account opened in the name of the spouse of an employee of the Group or in cash. These transactions were recorded in the Group's consolidated financial statements.

These transaction records indicated that there were proceeds mainly from sales of scraps, which were then mainly used for payments of salaries to employees of the Group or expense reimbursements to certain employees of the Group, including the chief executive officer and an executive director of the Company.

Independent Auditor's Report

Key Audit Matters (Continued)

Transactions conducted through an entrusted personal bank account and cash transactions (Continued)

The Current Board considered these transactions were attributable to the Group, and therefore other income, distribution and selling expenses and administrative expenses were recorded in the Group's consolidated statement of comprehensive income for the Period; and other receivables and cash were recorded in the Group's consolidated statement of financial position as at December 31, 2016.

The above practice poses challenge to us for our audit. Therefore we consider this as a key audit matter.

Our response:

Our audit procedures included, amongst others, the following:

- (1) Checking to the supporting documents including bank statements of the entrusted personal bank account directly issued by the bank, the Group's transaction records and approvals on the transactions, and delivery documents;
- (2) Performing analytical procedures on the reasonableness of the scrap sales with reference to the Group's production records, market information of other companies in the industry and the average price of scraps;
- (3) Conducting interviews with the owner of the entrusted personal bank account and related responsible personnel of the Group;
- (4) Enquiring the management and performing data imaging on the Group's relevant personnel's electronic records by our own information technology specialist on completeness of personal bank account and the transactions;
- (5) Obtaining entrust agreement and legal opinion from the Company's legal counsel on legality and enforceability of use of the entrusted personal bank account, and considering the appropriateness with the assistance of our own legal specialist; and
- (6) Evaluating the competence, capabilities, objectivity and appropriateness of the work of the Company's legal counsel.

Other Matter

The consolidated financial statements of the Group for the year ended September 30, 2015 were audited by another auditor who disclaimed their audit opinion on those statements on January 19, 2018.

Directors' Responsibilities for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of these consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditor's Report

Directors' Responsibilities for the Consolidated Financial Statements *(Continued)*

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibilities in this regard.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Independent Auditor's Report

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements *(Continued)*

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes to the Consolidated Financial Statements

1 General information

PanAsialum Holdings Company Limited (the “**Company**”) and its subsidiaries (together the “**Group**”) are principally engaged in the manufacturing and trading of aluminium products. The Company is an investment holding company. The Company was incorporated and registered as an exempted company with limited liability in the Cayman Islands on October 7, 2005 under the Companies Law, Cap.22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands.

The Company’s shares have been listed on the main board of The Stock Exchange of Hong Kong Limited (the “**Exchange**”) since February 5, 2013.

These consolidated financial statements are presented in Hong Kong Dollar (“**HK\$**” or “**HKD**”), unless otherwise stated. These consolidated financial statements have been approved for issue by the Board of Directors (the “**Board**”) on May 31, 2018.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of the consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

2.1 Basis of preparation

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“**HKFRS**”) issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”), and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Exchange. The consolidated financial statements have been prepared under the historical cost convention, as modified by derivative financial instruments at fair value through profit or loss.

The preparation of the consolidated financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4.

The directors of the Company (the “**Directors**”) have given careful consideration to the going concern status of the Group in light of the fact that (i) the Group incurred a loss attributable to owners of the Company of approximately HK\$232 million for the fifteen months ended December 31, 2016, (ii) the Group’s current liabilities exceeded its current assets by approximately HK\$157 million as at December 31, 2016 and (iii) the Group had cash and cash equivalents of approximately HK\$35 million against the Group’s total borrowings (comprising borrowings and obligations under financial leases) amounted to approximately HK\$579 million, which will be due within twelve months after December 31, 2016. The Directors have evaluated the Group’s current undrawn facilities and renewable borrowings and are confident that the Group is able to meet its financial obligations when they become due and payable. In order to improve liquidity, the management has been closely monitoring and managing the Group’s cash position and conducts on-going negotiations with financial institutions to ensure that the existing facilities will be successfully renewed and additional banking facilities are obtained when necessary to meet the Group’s working capital requirements.

The Directors have assessed the situation and had taken the following measures to improve its liquidity position:

- (i) as at December 31, 2016 and 2017, the Group has undrawn facilities of HK\$524 million (Note 28) and HK\$606 million respectively;
- (ii) during the year ended December 31, 2017, the Group successfully obtained new borrowings of approximately HK\$174 million from financial institutions in the People’s Republic of China (the “**PRC**”) that are repayable after December 31, 2017;

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies *(Continued)*

2.1 Basis of preparation *(Continued)*

- (iii) the Group has been negotiating with its lenders for the renewal or extension of its current borrowings as necessary when they fall due in the forthcoming twelve months. During the year ended December 31, 2017, HK\$281 million of its current borrowings as at December 31, 2016 were successfully renewed or extended to a repayment date after December 31, 2017; and
- (iv) the Group has been discussing with financial institutions with the view to convert or consolidate the Group's short term borrowings into term loans or syndicate term loans.

The Directors are of the opinion that, taking into account the successful implementation of measures of the Group as described above, the uncertainty will not have significant impact to the Group and the Group will have sufficient working capital to meet its cashflow requirements in the next twelve months. Accordingly, these consolidated financial statements have been prepared on a going concern basis.

Should the going concern basis be determined to be not appropriate, adjustments would have to be made to write down the carrying amounts of the Group's assets to their net realisable values, to provide for any further liabilities which might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in these consolidated financial statements.

2.1.1 *Changes in accounting policy and disclosure*

(a) *New, revised or amended standards and interpretation adopted by the Group*

In the current period, the Group has applied a number of amendments to HKFRSs issued by the HKICPA. The application of the amendments to HKFRS in the current period has had no material impact on the Group's financial performance and positions for the fifteen months ended December 31, 2016 and prior years and/or on the disclosures set out in these consolidated financial statements.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

2.1.1 Changes in accounting policy and disclosure (Continued)

(b) New and amendments to standards, interpretations and improvements not yet adopted (Continued)

The Group estimates that the adoption of the above new standards and amendments to the existing standards in future periods is not expected to result in substantial changes to the Group's accounting policies, except the following set out below:

Amendments to HKAS 7, 'Disclosure Initiative'

The amendments introduce an additional disclosure that will enable users of financial statements to evaluate changes in liabilities arising from financing activities. The adoption of the amendments to HKAS 7 only affects the presentation of the consolidated statements of cash flows.

HKFRS 9, 'Financial instruments'

The new standard addresses the classification, measurement and derecognition of financial assets and financial liabilities, introduces new rules for hedge accounting and a new impairment model for financial assets.

The Group does not expect the new guidance to have a significant impact on the classification and measurement of its financial assets.

There will be no impact on the Group's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and the Group does not have any such liabilities. The derecognition rules have been transferred from HKAS 39 'Financial instruments: recognition and measurement' and have not been changed.

The new impairment model requires the recognition of impairment provisions based on expected credit losses ("ECL") rather than only incurred credit losses as is the case under HKAS 39. It applies to financial assets classified at amortized cost, debt instruments measured at fair value through other comprehensive income, contract assets under HKFRS 15 'Revenue from contracts with customers', lease receivables, loan commitments and certain financial guarantee contracts. While the Group has not yet undertaken a detailed assessment of how its impairment provisions would be affected by the new model, it may result in an earlier recognition of credit losses.

The new standard also introduces expanded disclosure requirements and changes in presentation. These are expected to change the nature and extent of the Group's disclosures about its financial instruments particularly in the year of the adoption of the new standard.

HKFRS 9 must be applied for financial years commencing on or after January 1, 2018. Based on the transitional provisions in the completed HKFRS 9, early adoption in phases was only permitted for annual reporting periods beginning before February 1, 2015. After that date, the new rules must be adopted in their entirety. The Group does not intend to adopt HKFRS 9 before its mandatory date.

HKFRS 15, 'Revenue from contracts with customers'

The HKICPA has issued a new standard for the recognition of revenue. This will replace HKAS 18 which covers contracts for goods and services and HKAS 11 which covers construction contracts. The new standard is based on the principle that revenue is recognized when control of a good or service transfers to a customer. The standard permits either a full retrospective or a modified retrospective approach for the adoption.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

2.1.1 Changes in accounting policy and disclosure (Continued)

(b) New and amendments to standards, interpretations and improvements not yet adopted (Continued)

HKFRS 15, 'Revenue from contracts with customers' (Continued)

Management is currently assessing the effects of applying the new standard on the Group's financial statements and has identified the following areas that are likely to be affected:

- Revenue from service – the application of HKFRS 15 may result in the identification of separate performance obligations which could affect the timing of the recognition of revenue.
- Accounting for certain costs incurred in fulfilling a contract – certain costs which are currently expensed may need to be recognized as an asset under HKFRS 15.
- Rights of return – HKFRS 15 requires separate presentation on the balance sheet of the right to recover the goods from the customer and the refund obligation.

At this stage, the Group is not able to estimate the impact of the new rules on the Group's financial statements. The Group will make more detailed assessments of the impact over the next twelve months.

HKFRS 15 is mandatory for financial years commencing on or after January 1, 2018. At this stage, the Group does not intend to adopt the standard before its effective date.

HKFRS 16, 'Leases'

HKFRS 16 will result in almost all leases being recognized on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognized. The only exceptions are short-term and low-value leases.

The accounting for lessors will not significantly change.

The standard will affect primarily the accounting for the Group's operating leases. As at the reporting date, the Group has non-cancellable operating lease commitments of HK\$21,395,000 (Note 30(b)). However, the Group has not yet determined to what extent these commitments will result in the recognition of an asset and a liability for future payments and how this will affect the Group's performance and classification of cash flows.

Some of the commitments may be covered by the exception for short-term and low-value leases and some commitments may relate to arrangements that will not qualify as leases under HKFRS 16.

The new standard is mandatory for financial years commencing on or after January 1, 2019. At this stage, the Group does not intend to adopt the standard before its effective date.

There are no other HKFRSs or HK(IFRIC) interpretations that are not yet effective and expected to have a material impact on the Group.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

2.1.2 Change of year end date and additional financial information

On September 30, 2016, the Board resolved to change the financial year end date of the Company from September 30 to December 31 to align it with the financial year end date of the Company's principal operating subsidiaries established in the PRC which accounts are statutorily required to be prepared with a financial year end date of December 31. Accordingly, the current financial period covers a fifteen-month period from October 1, 2015 to December 31, 2016 with the comparative financial period from October 1, 2014 to September 30, 2015 and therefore may not be comparable with figures shown for the current period.

2.1.3 Prior years investigation

In 2014, the then board of directors of the Company (the "**Former Board**") was informed by its predecessor auditor of certain findings during the course of the audit of the consolidated financial statements for the year ended September 30, 2014. As a result, the Former Board established an independent committee which had engaged an independent professional adviser to perform an investigation (the "**Investigation**") on (i) discrepancies in aluminium ingots receipt and consumption records and recoverability of prepayments to certain suppliers; (ii) transactions with a contractor for the construction of the Group's new manufacturing facility in Nanyang city, the PRC; (iii) recoverability of receivables from, and possible relationship with, certain customers; and (iv) certain transactions conducted through personal bank accounts. The Investigation was completed in August 2017. Moreover, the Company also engaged a legal adviser to identify any possible relationship between the Group and an associated company.

The Investigation had a number of limitations in respect of the nature and extent of the procedures conducted. During the course of the preparation of the consolidated financial statements of the Company for the fifteen months ended December 31, 2016, the Board had taken into account the following findings of the Investigation, considered the relevant information and supporting evidence available and had used their best effort to estimate the relevant financial impact of the matters identified in the Investigation. The Board considered it appropriate to make certain accounting treatments in the Company's consolidated financial statements for the fifteen months ended December 31, 2016 in respect of the following matters which are relevant to these consolidated financial statements.

(A) Prepayments to a supplier

In the normal course of business, the Group prepays its suppliers for purchase of aluminium ingots, including prepayments made to a major supplier ("**Supplier A**"), which was one of the largest aluminium ingots vendors of the Group since August 2013. As described in section (B) below, there were possible connections between Supplier A and certain Australian customers of the Group. During the year ended September 30, 2014 and as at that date, the Group made an impairment provision of RMB25,999,000 (equivalent to HK\$33,014,000) against the prepayments made to Supplier A after considering the subsequent cash collections and deliveries of aluminium ingots.

During the year ended September 30, 2015, the Group continued to make prepayments to Supplier A totalling RMB12,696,000 (equivalent to HK\$16,043,000) for the purchase of aluminium ingots. The Group had continuously followed up with the Supplier A for subsequent delivery of aluminium ingots. However, no aluminium ingots were subsequently delivered to the Group by Supplier A in relation to the prepayments made during the year ended September 30, 2015. In this connection, a claim was lodged by the Group against Supplier A through legal proceedings in the PRC to recover certain outstanding balances paid to Supplier A. On December 29, 2016, the PRC court ruled in favour of the Group and the Group had recovered a cash settlement of RMB5,430,000 (equivalent to HK\$6,094,000) according to a settlement agreement with settlement agreement was signed by a shareholder of Supplier A dated August 8, 2017.

After taking into account of the amount of RMB5,430,000 recovered through the legal proceedings in the PRC against Supplier A, the Board considered that it is unlikely to recover the remaining outstanding amounts of RMB12,696,000 (equivalent to HK\$16,043,000). Hence, a further impairment provision of RMB12,696,000 (equivalent to HK\$16,043,000) had been made and included in the administrative expenses during the year ended September 30, 2015 (Note 19). During the fifteen months ended December 31, 2016, no further payment was made to Supplier A and there was no subsequent further provision or reversal of provision recognized. The prepayments to Supplier A after impairment provision, amounted to RMB5,430,000 as at September 30, 2015 and December 31, 2016 (equivalent to December 31, 2016: HK\$6,094,000; September 30, 2015: HK\$6,866,000), after netting of impairment provision of HK\$49,057,000 as at September 30, 2015 and December 31, 2016.

(B) Receivables from, and possible relationship with, certain customers

A customer in Australia together with its subsidiaries and affiliates (collectively the "**Australia Customers**") was one of the Group's largest customers in prior years. Due to a group restructuring of the Australia Customers, two new companies were incorporated in Australia in April 2014 ("**Australia Customer A**" and "**Australia Customer B**"). In May 2014, Australia Customer A agreed to assume, from the Australia Customers, the payment obligations of the trade payables to the Group totalling HK\$319,503,000. Since May 2014, Australia Customer B had begun to act as an import agent for Australia Customer A.

2.1 Basis of preparation *(Continued)*

2.1.3 Prior years investigation *(Continued)*

(B) Receivables from, and possible relationship with, certain customers *(Continued)*

Based on the findings of the Investigation, the sister of the former chairman of the Company held 70% of the shareholding of Australia Customer A and was a director of Australia Customer A during the period from July 11, 2014 to November 20, 2014. She was also the deputy financial controller of a PRC subsidiary of the Company since late October 2014, but resigned from such position in November 2014. Moreover, the address of the sole shareholder of Australia Customer B appeared to be the same as that stated on a copy of the personal identity card of a relative of the former chairman of the Company. The Investigation further identified potential connections between some of the Australia Customers and Supplier A which shared common shareholders' names and addresses since August 30, 2013. Despite the above, the Board did not consider the Australia Customers, Australia Customer A and Australia Customer B as related parties of the Group, as the Group did not have significant influence over them and there was also no evidence indicating that the sister of the former chairman of the Company held her shares in Australia Customer A on his behalf.

The Group stopped trading directly with Australia Customer A in July 2014 and continued the trading business with Australia Customer B until March 2015. Although the Group had continuously demanded for settlement, both Australia Customer A and Australia Customer B delayed in settlement and the outstanding trade receivables became long overdue. The Group also noticed a downside business impact on Australia Customer A and Australia Customer B following the significant increase in anti-dumping duty imposed on foreign imports from Mainland China to Australia in February 2015. In view of the above, the Group filed a claim with a court in Australia and issued winding up petitions against Australia Customer A and Australia Customer B in July 2015. During the year ended September 30, 2014, the Group has written off total outstanding trade receivables of HK\$69,306,000 and HK\$15,056,000 due from Australia Customer A and Australia Customer B respectively after taking into account the subsequent collections and balances recovered from the winding up petitions against them.

During the year ended September 30, 2015, while there were no sales to Australia Customer A, sales to Australia Customer B amounted to HK\$241,902,000. During the year ended September 30, 2015, after taking into account the subsequent collections and balances recovered from the winding up petitions against them, the Group recognized a further write-off to administrative expenses of the outstanding trade receivables of HK\$137,806,000 due from Australia Customer B in relation to the sales executed in the same year (Note 19).

2.1 Basis of preparation (Continued)

2.1.3 Prior years investigation (Continued)

(B) Receivables from, and possible relationship with, certain customers (Continued)

During the year ended September 30, 2014, there were also sales to another new customer in Australia ("**Customer C**"), which was incorporated in the British Virgin Islands (the "**BVI**"), by the Group. Based on the information in the winding up petitions against Australia Customer B, certain goods sold to Customer C were resold to Australia Customer B. During the year ended September 30, 2014, the Group had written off the outstanding trade receivables of HK\$15,740,000 due from Customer C. During the year ended September 30, 2015, the Group recognized revenue of HK\$36,352,000 for sales to Customer C. However, Customer C had delayed its settlement. The Group had continuously demanded Customer C for settlement but in vain. The Group had therefore recognized an additional write-off of the outstanding trade receivables from Customer C of HK\$36,352,000 to administrative expenses during the year ended September 30, 2015 (Note 19).

During the fifteen months ended December 31, 2016, no further sales to Australia Customer A, Australia Customer B and Customer C were recorded by the Group. After taking into account the subsequent collections and balances recovered from the relevant legal actions, total trade receivables from Australia Customer A and Australia Customer B of HK\$2,822,000 had been fully written off for the fifteen months ended December 31, 2016 (Note 19).

(C) Investment in and advances to, and possible relationship with, an associated company
In August 2014, the Group invested an amount of HK\$17,524,000 to acquire a 45% equity interest in Leading Sense Limited ("**Leading Sense**"), which was principally engaged in manufacturing and trading of mobile phones (the "**Mobile Business**"). Leading Sense was accounted for as an associated company.

As at September 30, 2015 and December 31, 2016, the Group had an outstanding advance of HK\$44,841,000 (before write-offs) to Leading Sense and its subsidiaries (the "**Leading Sense Group**").

According to the findings of a legal adviser of the Company, one of the registered shareholders of Leading Sense might have a possible connection with the former chairman of the Company. Despite this, the Board did not consider such person and Leading Sense as related parties of the Group, as the Group did not have significant influence over them before the subscription of the issued share capital of Leading Sense in August 2014.

Upon the acquisition in August 2014, management of the Company was provided with, on a monthly basis, the management accounts of the Leading Sense Group which had been unavailable since January 2015. In addition, the other shareholders or the management of the Leading Sense Group ceased to be contactable since January 2015. Based on the latest available management accounts for the three months ended December 31, 2014 of the Leading Sense Group, management estimated that the Group's attributable share of loss of the Leading Sense Group to be HK\$9,493,000, which had been recorded as share of loss of an associated company during the year ended September 30, 2015.

2.1.3 Prior years investigation (Continued)

- (C) Investment in and advances to, and possible relationship with, an associated company (Continued)

As the management of the Company was unable to obtain further financial information from the Leading Sense Group and in view of the financial position of the Leading Sense Group based on the latest available management accounts as well as the discontinuation of the Mobile Business in 2015, the Board resolved to fully write off the investment in an associated company of HK\$5,893,000 and the amount due from an associated company totalling HK\$44,841,000. The total amounts written off were charged to administrative expenses in the Company's consolidated financial statements for the year ended September 30, 2015 (Notes 16(b) and 20(ii)). No material subsequent reversal of write-off was recognized for the fifteen months ended December 31, 2016.

2.2 Subsidiaries

2.2.1 Consolidation

A subsidiary is an entity (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

- (a) Business combinations

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

The Group recognizes any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognized amounts of acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition-date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognized in profit or loss.

Any contingent consideration to be transferred by the Group is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with HKAS 39 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies *(Continued)*

2.2 Subsidiaries *(Continued)*

2.2.1 Consolidation *(Continued)*

(a) Business combinations *(Continued)*

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognized and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognized directly in the consolidated statement of comprehensive income.

Intra-group transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

(b) Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

(c) Disposal of subsidiaries

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognized in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associated company, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

2.2.2 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving dividends from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2.3 Investments accounted for using the equity method

An associated company is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Under HKFRS 11 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Group has joint ventures only.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies *(Continued)*

2.3 Investments accounted for using the equity method *(Continued)*

Investments in an associated company and a joint venture are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investments in an associated company and a joint venture include goodwill identified on acquisition. Upon the acquisition of the ownership interest in an associated company and a joint venture, any difference between the cost of the associated company or a joint venture and the Group's share of the net fair value of the associated company's or the joint venture's identifiable assets and liabilities is accounted for as goodwill.

The Group's share of post-acquisition profit or loss is recognized in the consolidated income statement, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of results in the investment equals or exceeds its interest in the investment, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the investment.

The Group determines at each reporting date whether there is any objective evidence that the investment is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the investment and its carrying amount and recognizes the amount adjacent to "Share of results of investments accounted for using the equity method" in the consolidated statement of comprehensive income.

Impairment testing of the investment is required upon receiving dividends from this investment if the dividend exceeds the total comprehensive income of the investment in the period the dividend is declared or if the carrying amount of the investment in the Company's separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

Profits and losses resulting from upstream and downstream transactions between the Group and its associated company or a joint venture are recognized in the Group's consolidated financial statements only to the extent of unrelated investor's interests in the associated company or a joint venture. Unrealized losses are eliminated unless the transaction provides evidence of an impairment of the assets transferred. Accounting policies of the investment have been changed where necessary to ensure consistency with the policies adopted by the Group.

Gains and losses on dilution arising in investments accounted for using the equity method are recognized in the consolidated statement of comprehensive income.

2.4 Structured entity

The Group controls a structured entity, the trust constituted by the trust deed, which is set up solely for the purpose of purchasing, administering and holding the Company shares for an employees' share award scheme. As the Group has the power to direct the relevant activities of the trust and it has the ability to use its power over the trust to affect its exposure to returns, the assets and liabilities of trust are included in the consolidated statement of financial position and the Company shares held by the trust are presented as a deduction in equity as shares held for Share Award Scheme.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies *(Continued)*

2.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board that makes strategic decisions.

2.6 Foreign currency translation

(a) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which each entity operates (the "**functional currency**"). The consolidated financial statements are presented in HKD, which is the Company's functional and the Company's and the Group's presentation currency.

(b) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of comprehensive income.

Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognized in profit or loss as part of the fair value gain or loss.

(c) *Group companies*

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the end of the reporting date;
- income and expenses for each statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognized in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognized in other comprehensive income.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies (Continued)

2.7 Land use rights

Land use rights are stated at cost less accumulated amortization and impairment losses. Cost mainly represents consideration paid for the rights to use the land from the date the respective rights were granted. Amortization of land use rights is calculated on a straight-line basis over the period of the rights, i.e. 50 years.

2.8 Property, plant and equipment

Property, plant and equipment are stated at historical cost less depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the consolidated statement of comprehensive income during the financial period in which they are incurred.

Depreciation of property, plant and equipment is calculated using straight-line method to allocate their costs, less their estimated residual value, if any, over their estimated useful lives, as follows:

Buildings	20 years
Plant and machinery	3 – 10 years
Office equipment	3 – 5 years
Furniture and fixtures	5 years
Motor vehicles	4 – 10 years

Construction-in-progress, which includes direct expenditures for construction of buildings, is stated at cost. Capitalized costs include costs incurred during the construction phase which directly relates to the asset under construction. Once all the activities necessary to prepare an asset to be available for its intended use are substantially completed, the construction-in-progress is transferred to property, plant and equipment. No depreciation is provided in respect of construction-in-progress.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized in the consolidated statement of comprehensive income.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies *(Continued)*

2.9 Intangible assets

Trademarks and patents

Separately acquired trademarks and patents are shown at historical cost. Trademarks and patents acquired in a business combination are recognized at fair value at the acquisition date. Trademarks and patents have a finite useful life and are carried at cost less accumulated amortization. Amortization is calculated using the straight-line method to allocate the cost of trademarks and patents over their estimated useful lives of 10 years.

2.10 Impairment of non-financial assets

Assets that have an indefinite useful life – for example, goodwill – are not subject to amortization and are tested annually for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

2.11 Financial assets

2.11.1 Classification

The Group classifies its financial assets as loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of the Group's financial assets at initial recognition.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for the amounts that are settled or expected to be settled more than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's loans and receivables comprise "**trade and bills receivables**", "**deposits and other receivables**", "**due from a related company**", "**due from the investments accounted for using the equity method**", "**pledged bank deposits**", "**fixed bank deposits**" and "**cash and cash equivalents**" in the consolidated statement of financial position.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies (Continued)

2.11 Financial assets (Continued)

2.11.2 Recognition and measurement

Regular way of purchases and sales of financial assets are recognized on trade-date – the date on which the Group commits to purchase or sell the asset. Investments are initially recognized at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Loans and receivables are subsequently carried at amortized cost using effective interest method.

2.12 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

2.13 Impairment of financial assets carried at amortized cost

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a “**loss event**”) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset’s original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognized in the consolidated statement of comprehensive income. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument’s fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor’s credit rating), the reversal of the previously recognized impairment loss is recognized in consolidated statement of comprehensive income.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies *(Continued)*

2.14 Derivative financial instruments

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. The Group's derivative financial instruments do not qualify for hedge accounting. Changes in the fair value of these derivative instruments are recognized immediately in the consolidated statement of comprehensive income.

2.15 Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (based on normal operating capacity) but excludes borrowing costs. Net realizable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

2.16 Trade and other receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

A provision for impairment of trade and other receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments are considered indicators that the receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of a provision account and the loss is recognized in the consolidated statement of comprehensive income. When a receivable is uncollectible, it is written off against the provision account for receivables. Subsequent recoveries of amounts previously written off are credited in the consolidated statement of comprehensive income.

2.17 Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash in hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less, excluding pledged deposits.

2.18 Share capital

Ordinary shares are classified as equity.

Incremental costs, net of tax, directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.19 Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the consolidated statement of comprehensive income over the period of the borrowings using the effective interest method.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies (Continued)

2.19 Borrowings (Continued)

Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a pre-payment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

2.20 Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

2.21 Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

2.22 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognized in the consolidated statement of comprehensive income, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case the tax is also recognized in other comprehensive income or directly in equity, respectively.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies *(Continued)*

2.22 Current and deferred income tax *(Continued)*

(a) *Current income tax*

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b) *Deferred income tax*

Inside basis difference

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Outside basis difference

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, associated company and joint arrangement except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognized on deductible temporary differences arising from investments in subsidiaries, associated company and joint arrangement only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilized.

(c) *Offsetting*

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2 Summary of significant accounting policies (Continued)

2.23 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods supplied, stated net of discounts, returns and value added taxes. The Group recognizes revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the Group's activities, as described below. The Group bases its estimates of return on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Revenue is recognized as follows:

- (a) sales of goods (including mold and samples) are recognized on the transfer of risks and rewards of ownership of the products, which generally coincides with the time when the goods are delivered to customers and the title is passed.
- (b) income from processing services is recognized when the services are rendered.
- (c) interest income is recognized on a time-proportion basis using the effective interest method.
- (d) dividend income is recognized when the right to receive payment is established.

2.24 Employee benefits

(a) *Employee leave entitlements*

Employee entitlements to annual leave and long service leave are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of each reporting period.

Employee entitlements to sick leave and maternity leave are not recognized until the time of leave.

(b) *Pension obligations*

The Group participates in defined contribution schemes which are available to eligible employees, the assets of which are held in separate trustee administered funds. The Group's contributions to the defined contribution retirement schemes are expensed as incurred. The Group has no further obligation once the contributions have been paid.

The Group also participates in the employee social security plan (the "Plan") as required by the regulations in the PRC. The Group is required to make welfare contributions to the Plan which is based on a certain percentage of the employees' relevant income.

(c) *Bonus plans*

The Group recognizes a liability and an expense for bonus plans that takes into consideration the profit attributable to the Company's shareholders after certain adjustments. The Group recognizes a provision where contractually obliges or where there is a past practice that has created a constructive obligation.

Notes to the Consolidated Financial Statements

2 Summary of significant accounting policies *(Continued)*

2.24 Employee benefits *(Continued)*

(d) *Equity-settled share-based payment transactions*

The Group operates a share award scheme, under which the entity receives services from employees as consideration for equity instruments of the Group and the share awards were granted under the share award scheme to employees as part of their compensation package.

The amount to be expensed as share-based compensation expenses is determined by reference to the fair value of the award shares granted, taking into account all non-vesting conditions associated with the grants. The total expense is recognized over the relevant vesting periods (or on the grant date if the shares vest immediately), with a corresponding credit to an employee share-based compensation reserve under equity.

Upon vesting and transfer to the awardees, the related costs of the shares are credited to shares held for share award scheme, and the related fair value of the shares are debited to employee share-based compensation reserve. The difference between the cost and the fair value of the shares is credited to share premium if the fair value is higher than the cost or debited against retained earnings if the fair value is less than the cost.

2.25 Leases

(a) *Operating leases*

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss for the period on a straight-line basis over the period of the lease.

(b) *Finance leases*

The Group leases certain property, plant and equipment. Leases of property, plant and equipment where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments.

Each lease payment is allocated between the liability and finance charges. The corresponding rental obligations, net of finance charges, are included in current and non-current liabilities. The interest element of the finance costs is charged to the consolidated statement of comprehensive income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

3 Financial risk management

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and commodity price risk), credit risk and liquidity risk. The Group is not exposed to material equity price risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance. The Group's management regularly monitors the exposures and implements timely and effective policies to mitigate potential risks. Risk management is carried out by the group treasury department under policies approved by the Board. Financial risks are identified and evaluated in different units with close cooperation with the group treasury. Based on the policies, the Group can also use derivative financial instruments to hedge certain risk exposures.

3 Financial risk management (Continued)

3.1 Financial risk factors (Continued)

(a) Market risk

(i) Foreign exchange risk

The Group mainly operates in Hong Kong, Macao and the PRC and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the United States Dollar ("USD"), Renminbi ("RMB"), and Australian Dollar ("AUD"). Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities.

The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. The results of net foreign exchange difference arise from relevant foreign currencies denominated trade and other receivables, cash and bank deposits, other payables and current accounts with group companies. The Group's exposure to different currencies is disclosed in the following table:

	2016 Increase/ (decrease) on loss for the period HK\$'000	2015 Increase/ (decrease) on loss for the year HK\$'000
For companies with HKD as their functional currency:		
AUD weakens against HKD by 10%	–	7
AUD strengthens against HKD by 10%	–	(7)
RMB weakens against HKD by 10%	700	–
RMB strengthens against HKD by 10%	(700)	–
For companies with RMB as their functional currency:		
USD weakens against RMB by 10%	(428)	5,379
USD strengthens against RMB by 10%	428	(5,379)
For companies with USD as their functional currency:		
AUD weakens against USD by 10%	(1,275)	9,845

(a) Market risk (Continued)

(ii) Commodity price risk on aluminium

The Group is exposed to commodity price risk because aluminium ingots are the major raw materials of the Group's products. A change in prices of aluminium could affect the Group's financial performance. The Group entered into future contracts traded on the Shanghai Futures Exchange in order to mitigate the risk arising from fluctuation in aluminium price.

The Group recognized a total loss on derivative financial instruments of HK\$12,614,000 during the fifteen months ended December 31, 2016 (year ended September 30, 2015: HK\$25,752,000). As at December 31, 2016, the Group did not hold any future contracts. As at September 30, 2015, the Group held future contracts which would become mature in between November 2015 and February 2016. Management considered the fluctuation on the commodity price of aluminium does not have a significant impact on the Group's earnings and cash flows in the long run.

The outstanding balances of future contracts entered as at September 30, 2015 are disclosed in Note 21.

The following commodity price sensitivity is calculated based on the outstanding aluminium future contracts of the Group as at December 31, 2016 and September 30, 2015, assuming 10% shift of the future contract price is as follows:

	Fifteen months ended December 31, 2016 HK\$'000	Year ended September 30, 2015 HK\$'000
Loss decreases as future contract price increases	–	14,576

A 10% decrease in future contract prices of aluminium would have had the equal but opposite effect on the above aluminium future contracts to the amounts shown above, on the basis that all other variables remain constant.

3 Financial risk management (Continued)

3.1 Financial risk factors (Continued)

(b) Credit risk

Credit risk arises from cash and cash equivalents and deposits with banks, as well as credit exposures to customers, including outstanding receivables and committed transactions. For credit risk in respect of cash and cash equivalents with banks, the Group manages this risk by placing cash and cash equivalents and deposits with major local banks and state-owned banks in the PRC with good credit standing.

For credit risk in respect of trade receivables from customers, the Group has policies in place to ensure that sales are made to reputable and credit-worthy customers with an appropriate financial strength and credit history. It also has other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews regularly the recoverable amount of trade receivables to ensure that adequate impairment losses are made for irrecoverable amounts. For each individually significant trade receivable, the assessment is made on an individual basis.

The credit risk is characterized by having high concentration of business with several customers. The Group's one (year ended September 30, 2015: three) key group of trade debtor accounted for 55% of its total gross trade receivables as at December 31, 2016 (September 30, 2015: 78%) as below.

	2016	2015
PRC Customer A	55%	38%
Australia Customer A	1%	6%
Australia Customer B	2%	34%

As at December 31, 2016 and September 30, 2015, PRC Customer A represents a group of major customers with long-term reputation.

The Group maintains frequent communications with these customers to ensure relevant transactions are running effectively and smoothly and balances are reconciled. Management believes that the credit risk related to these customers is not significant in respect of the net trade receivables.

Settlements from PRC Customer A and others are closely monitored on an ongoing basis by management of the Group to ensure any overdue debts are identified and follow-up action is taken to recover the overdue debts.

3.1 Financial risk factors (Continued)

(c) Liquidity risk

Prudent liquidity risk management includes maintaining sufficient cash and the availability of an adequate amount of credit facilities.

Management monitors rolling forecasts of the Group's liquidity reserve (comprises undrawn borrowing facility and cash and cash equivalents) on the basis of expected cash flows, further details of which are set out in Note 2.1.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining years at the reporting date to the contractual maturity dates. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	Carrying amount HK\$'000	Total contractual undiscounted cash flow HK\$'000	Less than 1 year HK\$'000	Between 1 and 2 years HK\$'000	Between 2 and 5 years HK\$'000

Obligations under finance leases	1,765	1,908	545	819	544

3.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated based on total borrowings and obligations under finance leases divided by total equity multiplied by 100%.

The gearing ratios of the Group as at December 31, 2016 and September 30, 2015 were as follows:

	December 31, 2016 HK\$'000	September 30, 2015 HK\$'000
Total borrowings	583,571	406,583
Total equity	1,109,476	1,425,464
Gearing ratio	52.6%	28.5%

The increase in the gearing ratio as at December 31, 2016 was the result of loss and increase in total borrowings during the fifteen months ended December 31, 2016.

3.3 Fair value estimation

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1 – Quoted market prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 – Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The following table presents the Group's assets and liabilities that are measured at fair value at September 30, 2015 by level of the inputs to valuation techniques used to measure fair value.

The Group did not hold any assets and liabilities that are measured at fair value at December 31, 2016.

Notes to the Consolidated Financial Statements

3 Financial risk management (Continued)

3.3 Fair value estimation (Continued)

At September 30, 2015

	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000	Total HK\$'000
Assets				
Foreign exchange forward contracts	–	19,442	–	19,442
Liabilities				
Aluminium futures contracts	(4,180)	–	–	(4,180)

The carrying amounts of the Group's financial assets and liabilities approximate their fair values due to their short maturity.

There were no transfers between levels 1 and 2 during the period/year.

(a) *Financial instruments in level 1*

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1. Instruments included in level 1 comprise primarily aluminium future contracts classified as trading securities.

(b) *Financial instruments in level 2*

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Notes to the Consolidated Financial Statements

4 Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Save as disclosed in Note 2.1, the estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Income taxes

The Group is subject to income taxes in numerous jurisdictions. Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current income tax and deferred tax provision in the period in which such determination is made.

(b) Provision for impairment of receivables

Management determines the provision for impairment of trade receivables. This amount of impairment is based on the credit history of its customers and the current market condition. Management reassesses the provision at each reporting date.

Significant judgment is exercised on the assessment of the collectability of trade receivables from each customer. In making the judgment, management considers a wide range of factors such as results of follow-up procedures performed by sales personnel, customer payment trends including subsequent payments and customers' financial positions. If the financial conditions of the customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

The carrying amount and impairment of trade receivables are disclosed in Note 19.

(c) Identification of functional currencies

The functional currency for each entity in the Group is the currency of the primary economic environment in which it operates. Determination of functional currency involves significant judgment. The Group reconsiders the functional currency of its entities if there is a change in the underlying transactions, events and conditions which determine their primary economic environment.

Notes to the Consolidated Financial Statements

4 Critical accounting estimates and judgments *(Continued)*

(d) Estimated useful lives and impairment of property, plant and equipment

Management estimates useful lives of the property, plant and equipment by reference to the Group's business model, its assets management policy, the industry practice, expected usage of the assets, expected repair and maintenance, the technical or commercial obsolescence arising from changes or improvements in the market. Residual values of the property, plant and equipment are determined based on prevailing market values for equivalent aged assets taking into account the condition of the relevant assets and other economic considerations. Depreciation would be significantly affected by the useful lives and residual values of the property, plant and equipment as estimated by management.

The Group's major operating assets represent property, plant and equipment. Management performs review for impairment of the property, plant and equipment whenever events or changes in circumstances indicate that the carrying amounts of these assets may not be recoverable.

Management considered there was no impairment indicator of remaining property, plant and equipment and construction in progress as at December 31, 2016 as these assets were used for profitable projects, and there is a strong demand of these property, plant and equipment in the second hand market (September 30, 2015: Same).

5 Revenue and Segment information

The chief operating decision-maker has been identified as the Board. The Board reviews the Group's internal reporting in order to assess performance and allocate resources. The Board has determined the operating segments based on these reports.

The Board considers the business from both product and geographical perspectives. The Board regularly reviews the consolidated financial statements from both product and geographical perspectives to assess performance and make resources allocation decisions. The operating segments are determined to be based on products. Management assesses the performance of the operating segments based on a measure of gross profit.

The Group derives its revenue from three product segments, namely the electronics parts, branded OPLV products and construction and industrial products which are operating in five geographical areas, namely The PRC (excluding Hong Kong), Australia, North America, Hong Kong and others.

The description of each reportable product segment is as follows:

Reportable product segment	Type of products
Electronics parts	Aluminium parts for consumer electronics products, examples include heat sinks and chassis for computers
Construction and industrial products	Products sold for construction and industrial use, examples include window and door frames, curtain walls, guardrails, body parts for transportation, mechanical and electrical equipment and consumer durable goods
Branded OPLV products	Door and window frames systems marketed under "OPLV" brand and sold through distributors

7 Employee benefit expenses (including directors' emoluments) and five highest paid individuals *(Continued)*

Five highest paid individuals

For the fifteen months ended December 31, 2016, the five individuals whose emoluments were the highest in the Group include 3 directors (year ended September 30, 2015: 3), whose emoluments are reflected in the analysis presented in Note 34. The emoluments paid to the remaining 2 (year ended September 30, 2015: 2) individuals are as follows:

	Fifteen months ended December 31, 2016 HK\$'000	Year ended September 30, 2015 HK\$'000
Salaries and allowances	7,046	6,261
Pension	153	68
	7,199	6,329

The emoluments of these remaining individuals fell within the following emolument bands:

	Fifteen months ended December 31, 2016 HK\$'000	Year ended September 30, 2015 HK\$'000
HK\$1,500,001 to HK\$2,000,000	–	1

11 Income tax expense

Hong Kong profits tax has been provided for at the rate of 16.5% on the estimated assessable profits for the fifteen months ended December 31, 2016 (year ended September 30, 2015: Same).

The Group's operations in the PRC are subject to the PRC corporate income tax. No PRC corporate income tax has been provided as the Group has no estimated assessable profit for the fifteen months ended December 31, 2016 (year ended September 30, 2015: Same). The standard PRC corporate income tax rate was 25% for the fifteen months ended December 31, 2016 (year ended September 30, 2015: Same).

Pursuant to Article 12 of Decree-Law No. 58/99/M issued by the Macao Government, OPAL (defined in Note 16(a)) is exempted from Macao Complementary Tax during the fifteen months ended December 31, 2016 (year ended September 30, 2015: Same).

Notes to the Consolidated Financial Statements

11 Income tax expense (Continued)

The tax on the Group's loss before income tax differs from the theoretical amount that would arise using the weighted average tax rate applicable to results of the companies comprising the Group as follows:

	Fifteen months ended December 31, 2016 HK\$'000	Year ended September 30, 2015 HK\$'000
Loss before income tax	(195,676)	(313,692)
Tax calculated at Hong Kong profits tax rate of 16.5%	(32,287)	(51,759)
Income not subject to tax	(735)	(458)
Expenses not deductible for tax purposes	35,412	8,271
Effect of different tax rates of subsidiaries operating in other jurisdictions	(12,772)	33,229
Tax losses for which no deferred income tax asset was recognized	26,506	18,681
Share of results of investments accounted for using equity method	1,840	–
Utilization of tax losses previously not recognized	(9,091)	–
Under-provision in respect of prior years	28,032	–
Other temporary differences not recognized	1,118	15,021
Income tax expense	38,023	22,985

As at December 31, 2016, the Group had unused tax losses arising in Hong Kong of HK\$123,869,000 (September 30, 2015: HK\$83,883,000) and the PRC of approximate HK\$213,712,000 (September 30, 2015: HK\$230,523,000) which are available for offset against future taxable profits of the Group in which the losses arose for an indefinite period and a period of five years respectively. Deferred tax assets have not been recognized in respect of these losses as they have arisen in the group companies that have been loss-making for some years.

As at December 31, 2016, the subsidiaries have no unremitted earnings with deferred income tax liability arising thereon. Management is of the view that unremitted earnings are intended for re-investment in the PRC and there is no current plan for distribution (September 30, 2015: Same).

On March 27, 2013, the Hong Kong Inland Revenue Department ("IRD") issued protective estimated assessments for the years of assessment 2006/07 to 2011/12 to the Company and certain of its subsidiaries, demanding profits tax payments. Notices of objection have been lodged and the IRD has granted unconditional holdover orders in respect of certain protective estimated assessments and the profits tax payments demanded.

Notes to the Consolidated Financial Statements

11 Income tax expense *(Continued)*

It is the management's understanding that the protective estimated assessments were merely issued to keep the relevant assessment years open in view of the statutory time-bar, and the case is in the information collection stage. Management is of the view that the tax position taken by the Company and the relevant subsidiaries are supported by sustainable facts and technical grounds. Management is however also of the view that, as at the date of this report, the under-provision in respect of prior years is approximate HK\$28,032,000 based on the best estimate of the Group with reference to the currently available information. However, there is no reliable basis for estimating, and providing for the corresponding penalty and interest, if any.

12 Loss per share

(a) Basic

Basic loss per share is calculated by dividing the loss for the period/year attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the period/year.

	Fifteen months ended December 31, 2016	Year ended September 30, 2015
Loss attributable to equity holders of the Company (HK\$'000)	(232,001)	(336,677)
Weighted average number of ordinary shares in issue less shares held for share award scheme (thousands)	1,199,405	1,199,405

(b) Diluted

Diluted loss per share is of the same amount as the basic loss per share as there were no potential dilutive ordinary shares outstanding as at December 31, 2016 (September 30, 2015: same).

13 Dividends

No dividend has been paid or declared by the Company during the fifteen months ended December 31, 2016 (year ended September 30, 2015: Nil).

Note:

On October 1, 2013, the Group entered into an investment agreement with the Wolong District Government, pursuant to which the Group conditionally agreed to invest an aggregate sum of RMB3,000 million (equivalent to approximately HK\$3,780 million) in the Nanyang City, for the establishment of an aluminium alloy production base.

Pursuant to the investment agreement, the Group won the bids and acquired the land use rights of eight parcels of land located in the Nanyang City for a cash consideration of RMB197 million (equivalent to HK\$250 million). The remaining balances represent those directly attributable costs including tax and other professional fees. Furthermore, the Group agreed to invest an aggregate sum of RMB2,890,590,000 (equivalent to approximately HK\$3,655,273,000) in the Nanyang City (Note 30(a)).

On April 10, 2015, the Group entered into an investment agreement with the Jimsar County Government by establishing and investing in a new wholly-owned subsidiary with an estimated aggregate capital of at least RMB200 million (equivalent to approximately HK\$254 million) at Xinjiang to produce high-end aluminium rods and aluminium rolled products. On December 18, 2015, the Group entered into an agreement with 吉木薩爾縣國土資源局 ("JBLR") by purchasing the land with consideration of approximately RMB3.6 million (equivalent to approximately HK\$4.4 million) which was waived by the JBLR.

During the fifteen months ended December 31, 2016, amortization of HK\$1,009,000 is included in 'administrative expenses' of the consolidated statement of comprehensive income.

For the purpose of impairment testing, intangible assets are allocated to a cash-generating unit ("CGU"), reportable product segment of Branded OPLV products.

The recoverable amounts of the CGU has been determined from value-in-use calculations based on cash flow projections from formally approved budgets covering a five-year period with a discount rate of 19.5%. The discount rate used is pre-tax and reflects specific risks relating to the CGU. The compound revenue growth rate was 8.7% per annum within the five-year period based on past experience, which does not exceed the long-term growth rate of this business in which the CGU operates. During the fifteen months ended 31 December 2016, the carrying amount has been reduced to its recoverable amount of HK\$Nil and an impairment loss on intangible assets of HK\$19,741,000 was recognized in administrative expenses of the consolidated statement of comprehensive income due to the unfavourable change in market condition.

(b) Investments accounted for using the equity method

On August 28, 2014, PanAsia Enterprises Group Limited ("**PanAsia Enterprises**"), a wholly-owned subsidiary of the Company, entered into the subscription agreement pursuant to which PanAsia Enterprises agreed to subscribe for the shares of Leading Sense, a company incorporated in the BVI, which represented 45% issued share capital of Leading Sense. The consideration for the subscription was HK\$17,524,000.

Leading Sense has issued share capital consisting solely of ordinary shares, with 2,000 ordinary shares of US\$1 each.

Leading Sense is an investment holding company. The Leading Sense Group is principally engaged in the development, production and trading of smart phones, electronics products and related parts and components.

Write-off of investment in associate and amounts due from the Leading Sense Group of HK\$5,893,000 and HK\$44,841,000 respectively, had been charged to the administrative expenses for the year ended September 30, 2015. Included in the balance is the net book value of the Group's investment in and advances to the Leading Sense Group of HK\$Nil as at September 30, 2015 and December 31, 2016.

Set out below are the other principal investments accounted for using the equity method of the Group as at December 31, 2016. The investments accounted for using the equity method as listed below have share capital consisting solely of ordinary shares, which are held indirectly by the Group; the country of incorporation or registration is also their principal place of business.

At end of period/year	16,107	–

The Group's associates and joint ventures are not individually material.

During the fifteen months ended December 31, 2016, certain investments accounted for using the equity method are continuously loss-making or subsequently disposed of. The aggregate recoverable amount of these investments is measured with reference to their future cash flows or subsequent selling price where applicable at approximate HK\$6,974,000. Since the recoverable amounts of certain investments accounted for using the equity method are estimated to be less than their aggregate carrying amount of HK\$20,939,000, the carrying amounts of such investments are reduced to their recoverable amounts through recognition of an impairment loss of HK\$13,965,000 and included in administrative expenses.

(c) Controlled structured entity

The Group controls a structured entity which operates in Hong Kong, particulars of which are as follows:

Structured entity	Principal activities
Employees' share award scheme (Employee share trust)	Purchases, administers and holds the Company shares for the share award scheme for the benefit of the Group's eligible employees

As the employee share trust is set up solely for the purpose of purchasing, administering and holding Company's shares for the share award scheme, the Company has the power to direct the relevant activities of the employee share trust and it has the ability to use its power over the employee share trust to affect its exposure to returns. Therefore, the assets and liabilities of employee share trust are included in the consolidated and company statements of financial position and the Company's shares it held are presented as a deduction in equity as shares held for share award scheme.

Notes to the Consolidated Financial Statements

25 Reserves

The amounts of the Group's reserves and the movements therein for the year ended September 30, 2015 and the fifteen months ended December 31, 2016 are presented in the consolidated statement of changes in equity.

The statutory reserves are set up by the Group's subsidiaries, namely PanAsia Aluminium (China) Co., Ltd. ("**PACL**") and OPAL, by way of appropriation from the profit for the year in accordance with the relevant laws and regulations in the PRC and in Macao.

In the PRC, PACL is required to allocate at least 10% of its net profit for each voting period as reported in its PRC statutory accounts to the statutory reserves until such reserve reaches 50% of registered capital. The reserve is designated for statutory surplus reserve fund and an enterprise expansion fund which are non-distributable. The statutory surplus reserve fund can be used to make up its prior years' losses, if any, and can be applied in conversion into capital by means of capitalization issue. The enterprise expansion fund can be used for expanding the capital base of PACL, by means of capitalization issue.

In Macao, the Macao Commercial Code#377 requires that OPAL should set aside a minimum of 25% of OPAL's profit for each voting period to the statutory reserves until the balance of the reserve reaches a level equivalent to 50% of the capital of OPAL. The reserve is non-distributable.

During the fifteen months ended December 31, 2016, there were no appropriations to the statutory reserves (year ended September 30, 2015: Nil).

32 Events after the reporting period

Save as disclosed in the consolidated financial statements, the following events took place subsequently to December 31, 2016:

(a) Disposal of OPLV entities

On December 28, 2017, the Company (through its wholly-owned subsidiaries) as the vendors, the purchasers, which are companies beneficially owned by Ms Shao, a Director of the Company, and Ms Shao entered into the agreement, pursuant to which the vendors conditionally agreed to sell and the purchasers conditionally agreed to purchase all the shares of OPLV (Nanyang) Doors and Windows Systems Co., Ltd and OPLV Architectural Design Pty Ltd. The vendors shall also procure the accounts receivable to be transferred or assigned to the purchasers. The consideration was estimated to be at an aggregate of RMB20 million. Upon completion of the disposal, the Group will cease to have any interest in the above entities and their subsidiaries and their financial results will no longer be consolidated into the Company's consolidated financial statements. As at the date of this report, the transaction has yet to be completed.

(b) Potential disposal of land use rights in Zengcheng

As disclosed in the announcement of the Company dated October 1, 2013, the Company has planned to relocate its current production facilities in Zengcheng in Guangdong Province to Nanyang City in Henan Province.

In late February 2018, the Guangzhou Urban Renewal Bureau announced that the Zengcheng land where the Group's Zengcheng factory situated fell under the Zengcheng city's redevelopment scheme. Subject to formal documentation converting the usage of land from industrial use to commercial and residential use, the Group's Zengcheng production plant moved out from the existing site and there would be further discussion and negotiation with relevant government authorities. The Group considered that it would likely be benefitted from the potential improvement in value of the Zengcheng land.

As at the date of this report, the transaction has yet to be completed.
