This announcement is to make clarification of the Announcement.

According to the latest audited accounts and management accounts of the Company, the Company’s asset values are far more than its liabilities. The management is currently taking steps to negotiate with the creditors for debt re-structuring and to dispose some of the assets of the Company, proceeds of which will be applied to set-off the debts.

There are seven projects affected by the financial difficulties which result in the suspension of their constructions or operations. However, the management is confident that the problem can be resolved by, firstly negotiating with the creditors to delay repayment and secondly negotiating with the financial institutions for further advancement of funds.

The management is of the view that the current financial difficulties encountered by the Company will not impose imminent impact on the Company’s business operations and continuity except that it is inevitable that the future revenue of the Company will be reduced as a result of the disposition of the Company’s assets. The management is not able to tell to what extent the Company’s assets are required to be disposed of in order to meet the repayment of the debts.
