VOLUNTARY ANNOUNCEMENT
ENTERED INTO A STRATEGIC COOPERATIVE AGREEMENT WITH
360 ENTERPRISE SECURITY

This announcement is made on a voluntary basis by Sinosoft Technology Group Limited (the "**Company**", together with its subsidiaries, the "**Group**").

The board of directors (the "**Board**") of the Company is pleased to announce that the Group has entered into a strategic cooperative agreement (the "**Cooperative Agreement**") with 360 Enterprise Security Technology (Beijing) Group Co., Ltd. ("**360 Enterprise Security**"), to jointly propel the information security market for judicial administration and social governance related industries in different provinces across the country, as well as to establish information security prevention and control system for relevant departments.

Pursuant to the Cooperative Agreement, both parties will leverage on their advantages and technology resources to carry out comprehensive and in-depth cooperation in different forms, including project cooperation, technology cooperation, product integration, and capital operation etc., first in judicial administration and social governance related area, and may extend to other suitable business area. Both parties have initially set various cooperation directions, including:

1) The Group's China Legal Network product series and internal operation systems for judicial administration and social governance related business will integrate with 360 Skyeye big data security analytic system, to enhance the protection for networks and systems, as well as to strengthen data security. Both parties will also combine their market resources and jointly promote the products.

2) Jointly establish the big data application research centre for the judicial industry to provide big data analytics and security service for Internet of Things, and propel the judicial industry information security standard established by using big data technology, to help develop the judicial network nationwide as a "clean net", which is free from attack by virus and malicious opinions.

360 Enterprise Security is a leading enterprise network security company, focusing on providing enterprise network security technologies, products, and services for government, military, corporates, education, and financial institutions. Combining with the Group's years of experience and competitive advantages accumulated by providing application software and big data analytics for judicial administration and social governance related industries, both parties will strive to offer the best network security service in the relevant area, and provide management system integrating services such as network ecosystem analysis, public opinion analysis and public opinion guidance for judicial administration and social governance related departments across the country.

The Board believes that the cooperation with 360 Enterprise Security will further strengthen the Group's serviceability and leading role in judicial administration and social governance related industries, so as to facilitate the Group to capture more opportunities in the relevant market.
