Chairman's Statement

To Our Shareholders,

I am pleased to present to our shareholders the annual report of Matrix Holdings Limited (the "Company") and its subsidiaries (collectively the "Group") for the financial year ended 31st December, 2018.

For the year under review, the Group's consolidated revenue decreased by approximately HK\$80,343,000 or 5.6 % to approximately HK\$1,353,665,000 from approximately HK\$1,434,008,000 of last year. The profit attributable to the owners of the Company increased by approximately HK\$22,290,000 or 19.8% to HK\$134,960,000 from approximately HK\$112,670,000 of last year.

During the year under review, by developing new toy products for new brand licensees and developing high-end LED lighting products, the Group captured sales opportunities derived from existing customers for the new toy series developed and put into market last year, which contributed revenue to the Group. With its excellent product quality, the Group continued to amass recognition from toptier toy companies and thus was able to maintain a stable order stream. While the revenue from Original Equipment Manufacturing (OEM) business remained stable and the sales of lighting products in Europe increased, the sales of Original Design Manufacturing (ODM) business recorded a decrease due to change in demand for its product portfolio. As a result, the Group recorded a slight decrease in overall revenue.

As compared with last year, the Group recorded an increase in net profit, which was attributable to a decrease in labour costs resulting from enhanced management of production labour costs, a decrease in professional fees and a decrease in sales costs for the year.

Chairman's Statement

The Group remains committed to the proven strategy of focusing its resources and efforts to manage its established brands, while actively and prudently pursue strategic business opportunities for expanding its business scope, with a view to enhancing its profitability riding on the toy manufacturing as its core business and the expansion of lighting business. Meanwhile, the Group will also actively explore good merger and acquisition opportunities to acquire new business or asset that will bring additional value, synergistic effects and new income streams to the Group. In the meantime, the Group acquired the land use rights of five parcels of lands located at Lien Chieu District of Da Nang City, which are intended to be developed for property investment purpose.

Looking forward, the Company will continue to strive for better return for our shareholders, leveraging on

its core business of toy manufacturing and expansion of lighting business along with a sound financial position.

Lastly, I would like to express my sincere appreciation to all of our stakeholders, including shareholders, customers, business partners and suppliers, for their continuous support and trust in all aspects of the Group's activities. I would also like to express my gratitude to the management and the entire staff for their indispensable and enthusiastic contribution and commitment to the Group.

Cheng Yung Pun

Chairman Hong Kong, 21st March, 2019

RESULTS

As at 31st December, 2018, the Group's consolidated revenue decreased by approximately HK\$80,343,000 or 5.6% to approximately HK\$1,353,665,000 from approximately HK\$1,434,008,000 of the last year. The profit attributable to the owners of the Company increased by approximately HK\$22,290,000 or 19.8% to approximately HK\$134,960,000 from approximately HK\$112,670,000 of last year.

FINANCIAL REVIEW

Revenue

The year under review recorded a decrease in turnover by HK\$80,343,000 to HK\$1,353,665,000.

Gross profit

The Group's gross profit slightly decreased to approximately HK\$465,788,000 as at 31st December, 2018 due to the decrease in sales.

Distribution and selling costs

Distribution and selling costs increased to approximately HK\$152,950,000 as at 31st December, 2018. The increase in distribution and selling costs was mainly attributable to the increase in royalty expenses for the toys products.

Administrative expenses

Administrative expenses mainly consisted of office staff salaries, rent and rates of offices, depreciation of property, plant and equipment and other administrative expenses. The total expenses decreased was attributable to the one-time equity-settled share based expense incurred in 2017 and the decrease in salary and related expenses.

Finance costs and income tax

Finance costs of this year increased to approximately HK\$8,525,000 as compared to last year due to increase in the loan from third parties, and income tax credit of this year was HK\$1,874,000 as compared to last year due to the increase in deferred income tax assets.

Research and development cost

Research and development cost decreased by approximately HK\$3,254,000 or 12.0%, primarily due to the cost control for our toys business.

Trade and other receivables and prepayments

Trade and other receivables and prepayments decreased by approximately HK\$50,511,000 to approximately HK\$301,794,000 for this year as compared to last year, which was resulted from our product mix of terms of credit.

Trade and other payables and accruals

Trade and other payables and accruals decreased by approximately HK\$41,315,000 to approximately HK\$171,920,000 for this year as compared to last year, which was mainly due to the decrease in purchases and other payables and accruals.

Quick Ratio

During the year, the quick ratio was slightly lower than last year, but the liquidity still maintain at a healthy position.

Current Ratio

During the year, the current ratio was slightly lower than last year.

Financial position and cash flows review

The Group's cash flow position was healthy and the bank borrowing was maintained at a minimum level.

Liquidity and Financial Resources

As at 31st December, 2018, the Group had cash and cash equivalents of approximately HK\$294,066,000 (2017: HK\$74,284,000). As at 31st December, 2018, the Group obtained banking facilities in a total of approximately HK\$121,180,000 (2017: HK\$144,621,000) of which was supported by corporate guarantee and was secured with floating charge on certain assets of the Group.

As at 31st December, 2018, the Group had bank borrowings of approximately HK\$36,502,000 (2017: HK\$53,567,000).

The Group's gearing ratio, representing the total debt divided by total equity, increased to 27.0% (2017: 5.2%) due to the increase in loan from third parties during the year.

During the year, net cash generated from operating activities amounted to approximately HK\$159,052,000 (2017: HK\$76,241,000). The Group has maintained an adequate level of cash flows for its business operations and capital expenditures.

Capital Expenditure and Commitments

During the year, the Group acquired property, plant and equipment at a cost of approximately HK\$47,835,000 (2017: HK\$46,394,000) to further enhance and upgrade the production capacity. These capital expenditures were financed primarily by cash flow generated from operations.

Assets and Liabilities

As at 31st December, 2018, the Group had total assets of approximately HK\$1,562,530,000 (2017: HK\$1,307,086,000), total liabilities of approximately HK\$477,990,000 (2017: HK\$279,528,000) and equity attributable to owners of the Company of approximately HK\$1,084,180,000 (2017: HK\$1,020,347,000). The net assets of the Group increased by 5.5% to approximately HK\$1,084,540,000 as at 31st December, 2018 (2017: HK\$1,027,558,000).

SIGNIFICANT INVESTMENT AND ACQUISITION

There was no significant investment and acquisition for the year ended 31st December, 2018.

SIGNIFICANT DISPOSAL/IMPORTANT EVENT

There was no significant disposal/important corporate event for the year ended 31st December, 2018.

SUBSEQUENT EVENT

Pursuant to the term of the loan from third parties as set out in note 28 to the consolidated financial statements, the lenders are entitled to the option (the "Option") to obtain the right to purchase for the residential properties in its current state (the "Right to Purchase") so as to make good of the loan principal of RMB225,000,000 (equivalent to HK\$256,556,000) and the relevant accrued interest payable amounting to RMB7,040,000 (equivalent to HK\$8,027,000) in full. On 15th March, 2019, the lenders exercised the Option and the transfer of the Right to Purchase has been completed on the same date. Under the terms of the loan agreement, upon the exercise of the option, the lenders undertook not to pursue any outstanding loan amounts against the Group.

EXCHANGE RATE RISK

Several subsidiaries of the Company have foreign currency sales and purchases, which expose the Group to foreign currency risk. Certain bank balances, and trade and other receivables and prepayments, trade and other payable and accruals of the Group are denominated in foreign currencies. The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

BUSINESS REVIEW

The Group continued to fully leverage its core business, namely OEM business, to generate stable revenue and harness a solid foundation for its development. With its excellent product quality, competitive prices and timely delivery of quality products through its strong capacity, the Group continued to secure support from renowned international brands and customers and received orders from new licensees. This has contributed to the Group's revenue and alleviated the impact brought by the global economy challenges including, but not limited to, the increasing tariff measures caused by the ongoing US-China trade war, as well as the closedown of a toy retailer last year and customers in the North American market being more prudent on placing orders. The Group has adopted lean production approach with various effective cost control measures to implement stringent cost controls in product manufacturing process, streamline logistic management and minimize inventory level, and focused more on orders of products with a higher profit margin, which led to a slight improvement in gross profit margin. Due to a decrease in labour costs as a result of lower labour overtime payment, the gross profit margin increased. The aforesaid, coupled with a decrease in professional fees, offset the negative impact of bad debt provision arising from a toy retailer filing a voluntary petition to the bankruptcy court. As a result, the Group recorded an increase in profit.

Manufacturing operations

The Group maintains its main production base in Vietnam. It continued to invest in facilities to enhance production efficiency, adopted more effective methods and techniques to ensure product quality and safety and continued to upgrade its production facilities in order to meet the quality requirements of customers and latest regulations of local government. The Group also reorganised its plants, expanded warehouse areas and optimised supply chain processes, which effectively reduced its transportation costs and enhanced its growth potential. The Group now operates a total of four plants, the production facilities for lighting products have been moved to the upgraded Vietnam plant, which contributed to the cost control of the Group. The Group endeavours to localise its operations through investing additional costs to protect and maintain plant environment and provide continuous trainings for local employees and workers so as to enhance its production capacity and guality to maintain competitiveness.

Segment performance

The international business environment has been uncertain amid the rising tensions of the US-China trade war, which, coupled with the foreseen tightening of monetary policy and interest rate hikes by the US Fed, has curtailed global capital market performance. On the European side, the final outcome of Brexit remains uncertain, leading to corporates delaying long-term investment decisions and adopting more prudent business approaches. Despite such macroeconomic environment, the performance of OEM toy business remained relatively stable, as the Group provides more stable and diverse product mix mainly for clients with higher credit through its strong customer base comprising top-tier international toy companies worldwide. The Group continued to focus mainly on developing the US market and explore more business opportunities by introducing a wider variety of product categories. The management focused on R&D enhancement, product line expansion, distribution channel development and integration and continued to deploy the multi-brand and multi-product strategy to meet different customers' needs. So far, we have entered into partnerships with a few worldleading brands and streamlined our distribution networks by focusing more on large distributors with extensive networks. Overall speaking, there was a decrease in sales orders from mass-market retailers for ODM toy products, including outdoor game products of "Gazillion ® Bubbles", toy car products of "Tonka", girls roleplaying products and plush toy products. However, sales of the Group's OEM business remained stable during the period, and therefore, the Group's overall revenue reported only a slight decrease. Nevertheless, the Group has been actively producing new toy products and introducing sales programs for other new brands such as "DC Superfriends", "Space Racers", "Herodrive", "Sunny Bunnies", "Rainbow Butterfly Unicorn Kitty (RBUK)" and "Wonder Park".

The US

The US was still a major export market for the Group's toy products. Our turnover decreased by approximately HK\$96,637,000 or 7.7% to approximately HK\$1,151,698,000 this year from approximately HK\$1,248,335,000 last year.

In recent years, private consumption, the main engine of the US economy, has remained strong thanks to low unemployment and high wages. Meanwhile, rising energy prices, tame inflation and an improving housing market remain in place for stable economic performance which will benefit exports. Nevertheless, global trade tensions and emerging geopolitical tensions could pose challenges for the US in the years to come. During the year, China imposed tariffs on a range of US goods in response to similar US measures. The uncertainties in business conditions and outlooks created by the US-China trade war, along with the foreseen tightening of monetary policy and interest rate hikes by the US Fed, has curtailed global capital market performance. Moreover, affected by the shock waves arising from the closedown of one of our customers in the US during the year, retailers were becoming more cautious in placing orders. Nevertheless, the Group conducted its production operations in the Vietnam plant, so as to reduce the impact of tariff increase.

The sales of new products for brands of "Luna Petunia", "Wonder Park", "Herodrive" and "Sunny Bunnies" recorded an increase, which mitigated the impact of a decrease in sales orders of outdoor products of "Gazillion Bubbles", "Tonka" toy car products, girls role-playing products and plush toy products. Overall, the sales in the US market still recorded a decline. The Group would strive to maintain its authorised licensing business for major brands, enrich other product lines and retain existing distributors and clients, including Wal-Mart, Walgreens, Target and Amazon.

Canada

Our turnover in the Canadian market increased by approximately HK\$6,801,000 or 13.5% to HK\$57,085,000 this year from approximately HK\$50,284,000 last year.

Canada's healthy banking and financial system, plus continued growth in non-commodity export-related industries aided by a weaker Canadian dollar, has lent support to domestic business investment and consumer consumption. The Canadian economy is expected to strengthen in line with the stronger US economy as well as the end of the era of ultra-low interest rates and the stabilisation of commodity prices. However, the uncertainties stemming from North American Free Trade Agreement (NAFTA) renegotiation and the US's post quantitative easing policies and tax reform will likely cloud the country's growth ahead.

The sales of the Group's mass market retailers in respect of outdoor game products and girls role-playing products continued to increase, which partially offset the decrease in the sales of toy car products and plush toy products in ODM business. As a whole, the revenue generated from the Canadian market still recorded an increase. The Group will make efforts to maintain its existing distributors and clients, such as Wal-Mart, Toys "R" Us Canada and Costco Canada.

Europe

Our turnover in Europe increased by approximately HK\$9,190,000 or 10.2% to approximately HK\$99,344,000 this year from approximately HK\$90,154,000 last year.

So far, the EU economy has demonstrated resilience as it maintains the course of growth and job creation, thanks to a number of favourable factors such as acceleration in exports, a weaker euro, lower deflationary pressure and a continued support of accommodative monetary policy and fiscal stance of the European Central Bank. Overall, the EU economy expanded by a faster pace. This steady expansion was mainly driven by the falling unemployment rate in the EU during the year under review. Despite continued improvement in financing conditions, there are certain uncertainties related to Brexit, the post-election developments in some major Member States, as well as the uncertainty over future US external policies, plus the heightened geopolitical tensions and the lingering refugee problem. On the other hand, steady improvement in the labour market and rebound in asset prices have greatly encouraged domestic consumption in Netherlands. Spurred by the firming domestic demand and the stronger global economy, the Italian economy has returned to growth in recent years.

The Group continued to focus on sales of "Tonka" products and outdoor products of "Gazillion ® Bubbles". The increase of orders from customers in the UK, Croatia, Russia, Switzerland, Denmark, Ukraine, Spain, Romania, France, Spain and Portugal offset the decrease from those in Netherlands, Italy, Poland, Finland, Estonia and Ireland. Overall, our revenue in the European market recorded an increase. The Group will continue its efforts to maintain existing distributors and clients such as Argos, Tesco and Costco.

Mexico

Our turnover in Mexico increased by approximately HK\$155,000 or 3.1% to approximately HK\$5,151,000 this year from approximately HK\$4,996,000 last year.

While trade growth in Mexico remains strong, emerging risks stemming from NAFTA renegotiations and the pace of internal reforms may impact investment. Significant tightening of Mexico's fiscal and monetary policy in recent years has also weighed on domestic demand. But, the EU and Mexico reached an agreement on a new free trade deal, which marks a boon for Mexico. The deal will, for example, cut Mexican tariffs and will also allow Mexican companies to bid for government contracts in Europe.

However, overall, due to the increase in ODM product orders secured through the distribution office in Mexico, our total revenue in the Mexican market recorded an increase.

Australia and New Zealand

Our turnover in the Australia and New Zealand markets decreased by approximately HK\$980,000 or 3.8% to approximately HK\$24,856,000 this year from approximately HK\$25,836,000 last year.

Australia's economy appears to be slowing. However, the economy is expected to improve backed by a boost of public investment in infrastructure and tourism-related activities as the key growth drivers. The EU, Australia's second largest trade partner, has launched negotiations for a comprehensive trade agreement with Australia. Bilateral trade in goods between the two partners has risen steadily in recent years. New Zealand has an open trading regime and sound rule of law practices. The government aims to improve its business environment to attract more foreign investment.

The Group recorded a decrease in revenue in Australia and New Zealand with decreased sales of lighting products and decreased sales of plush toy products. Our overall market revenue in Australia and New Zealand recorded a decrease. The Group will continue its efforts to maintain its existing distributors and clients such as Big W, etc.

South America

Our turnover in South America markets increased by approximately HK\$838,000 or 10.9% to approximately HK\$8,550,000 this year from HK\$7,712,000 last year.

Benefitting from stable and consistent economic policies, a dollarised economy, and a government that consistently supports trade and open markets, Panama has been one of the fastest growing economies worldwide. Chile has been one of Latin America's fastest-growing economies. More inclusive fiscal management provides a solid base for growth.

Orders for "Tonka" toy car products and outdoor game products and girls role-playing products increased. Overall, the Group recorded an increase in our sales in Chile, Brazil, Paraguay, Trinidad and Belize, which offset the decrease in our sales in Panama, Costa Rica, Colombia, Bolivia, Peru, Honduras, Ecuador, Guatemala, Nicaragua and El Salvador. As a whole, our revenue in South American markets recorded an increase.

NUMBER OF EMPLOYEES AND REMUNERATION POLICIES

As at 31st December, 2018, the Group had a total of approximately 9,500 (2017: 14,000) employees in Hong Kong, Macau, the PRC, Vietnam, Australia, the US, Canada, Taiwan, Mexico and Europe. The Group provides its employees with competitive remuneration packages commensurate with the level of pay established by the market trend in comparable businesses. A share option scheme was adopted by the Group for selected participants (including full-time employees) as incentives or rewards for their contributions to the business and operation of the Group. A mandatory provident fund scheme and respective local retirement benefit schemes are also in place.

ENVIRONMENTAL PROTECTION

The Group believes that maintaining a healthy and harmonious relationship with its stakeholders and fulfilling its social responsibilities to the community is essential for building and preserving the value of the Group. Adhering to the principle of Reducing, Recycling and Reusing, the Group encourages green office practices such as double-sided printing and copying, setting up recycling bins, promoting using recycled paper and reducing energy consumption by switching off lightings and electrical appliances, and will consider implementing further eco-friendly measures and practices in the operation of the Group's business.

COMPLIANCE WITH LAWS AND REGULATIONS

Compliance procedures are in place to ensure adherence to applicable laws, rules and regulations in particular, those that have significant impact on the Group. The Board and internal audit function team delegated by the Board monitor the Group's policies and practices on compliance with legal and regulatory requirements and such policies are regularly reviewed. Any changes in the applicable laws, rules and regulations are brought to the attention of relevant employees and relevant operation units from time to time. In accordance with the requirements of the laws, regulations and related policies in Hong Kong, the PRC, Vietnam and other relevant jurisdictions, the Company provides and maintains statutory benefits for its staff, including but not limited to mandatory provident fund, basic medical insurance and labour insurance. All employees are entitled to statutory holidays. The Group has registered its products, domain name and trademarks in Hong Kong, the PRC and other relevant jurisdictions and takes all appropriate actions to protect and enforce its intellectual property rights.

RELATIONSHIP WITH EMPLOYEES, CUSTOMERS AND SUPPLIERS

The Group acknowledges that employees, customers and business partners are crucial to its sustainable growth. The Group is hence committed to building up close and caring relationship with its employees, provide exceptional service to its customers and enhance partnership with its business partners.

PROSPECT

With the US-China trade war and the multilateral trade wars among the US and its adjacent territories and some of the European countries, the global macro environment is expected to be subject to further fluctuations, which may impact the purchase orders placed by customers located in such territories. Going forward, as its clientele spans the globe, the Group will continue to constantly review its market and products profile and be more proactive in working in accordance with its customers' requests as well as structure of its customers, and explore business opportunities on products involving a potentially higher margin with existing customers or reliable potential new customers, in response to any changes in political and economic environments globally. Though the US-China trade war is exerting an influence on the global stage, the Group remains cautiously optimistic about the impact of relevant policies on the Group since our products are not included in the target of the trade dispute. In fact, the production base of the Group is located in Vietnam. Therefore, our business operations would not be materially affected.

In view of its leading position in the global toy industry, stable customer base and diversified manufacturing base located in Vietnam as well as healthy financial position, it is expected that the Group will be able to achieve the target of sustainable development in the long run. The Group has launched a number of new toy products under licensed brands, including a new line of "Tonka" toy cars, enriched its girls role-playing series of "Luna Petunia", and actively promoted other new products to other retailers. In addition, the Group has launched a range of innovative toy products with several renowned brands such as "Luna Petunia", "Wonder Park", "Herodrive" and "Sunny Bunnies". The Group has several related products under development that have good potential to create new revenue streams for the Group. The Group has been committed to the R&D of new high-end LED lighting products and relocated its production lines for new lighting products to Vietnam, which would potentially create new income sources for the Group.

On 9th January, 2019, an indirect wholly-owned subsidiary of the Company (as the transferee) entered into a master share transfer agreement with the transferors in respect of an acquisition, pursuant to which, the transferors conditionally agreed to sell and the transferee conditionally agreed to acquire the sale shares, being the entire equity interests in Javi, for a total cash consideration of VND561,400,000,000 (equivalent to approximately HK\$189,579,000) (subject to adjustment). The Group has a long history of running the manufacturing business in Da Nang, Vietnam and is familiar with the business environment of Da Nang. The acquisition is in line with the overall development strategy of the Group of actively identifying and exploring different investments and good merger and acquisition opportunities in order to acquire new business or asset that will bring additional value, synergistic effects and new income streams to the Group, with a view to broadening its asset and income bases. Javi has the land use rights to five parcels of lands located at Lien Chieu District of Da Nang City, and the Group intends to develop these lands for property investment purpose.

Looking ahead, the OEM business will remain as the growth driver for the Group in the near future, while the Group will also endeavour to maintain sales of toy car and outdoor game products and girls role-playing products. The Group will continue to pursue the ultimate goals of maintaining profitability and achieving cost efficiency. Leveraging on its established business foundation and good relationship with its renowned customers, the Group will actively explore opportunities so as to further boost business development whenever an adequate target emerges. Meanwhile, the Group will also continue to advance diversified development, in order to strengthen its leading position in the global toy industry and bring long-term returns to its shareholders. As such, we will closely monitor the Company's development strategy so as to maximise the return for our shareholders.

Biographies of Directors and Senior Management

EXECUTIVE DIRECTORS Mr. Cheng Yung Pun

Aged 67, was appointed Chairman of the Company in September 2000 and also the Chairman of the nomination committee of the Company. CHIEF EXECUTIVE OFFICER Mr. Chen Wei Qing

Aged 51, was appointed as Chief Executive Officer of the Company in May 2008. Mr. Chen is responsible for new product development and manufacturing operations of the Group. He has above 30 years' extensive experience in product development and manufacturing toys.

The board of directors (the "Board") of Matrix Holdings Limited (the "Company") has adopted the Company's corporate governance code (the "CG Code") and amended on 31st December, 2018 to reflect the requirements of Appendix 14 (the "HKEx Code") of the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). Continuous efforts are made to review, apply and enhance the Group's procedures in light of changes in regulations and developments in best practices. Following sustained development of the Company, the Board and its executive management will continue to monitor the governance policies to ensure that such policies meet the general rules and standards. The Board is pleased to report compliance with the CG Code under the HKEx Code during the year ended 31st December, 2018 except where otherwise stated in section "Report of the Directors".

A. DIRECTORS

1. The Board

The Board assumes responsibility for directing the Company and enhancing its value for shareholders in accordance with good corporate governance principles and has established relevant board committees to assist in discharging this responsibility.

The principal functions of the Board are to make decision on the strategic development of the Company; to oversee the management of the business and affairs of the Group; to supervise the management of the business and affairs with the objective of enhancing the Company and shareholders' value with the proper delegation of the power to the management of the Company and its subsidiaries for its day-to-day management and operation of the Group's businesses, implementation of the budgets and strategic plans and development of the organisation of the Company for implementing the Board's decision; to oversee and evaluate the conduct of the Group's businesses; to identify principal risks and ensure the implementation of appropriate measures and control systems; to review and approve important matters such as financial results and investments etc.; and to review the Company's policies and practices on corporate governance.

As at 31st December, 2018, at least one-third of the Company's board are Independent Nonexecutive Directors ("INED") of which the Board comprises six executive directors, namely Mr. Cheng Yung Pun (Chairman), Mr. Yu Sui Chuen, Mr. Cheng King Cheung, Mr. Tsang Chung Wa, Mr. Tse Kam Wah and Ms. Yip Hiu Har (appointment effective on 1st April, 2018) and four INEDs, namely Dr. Loke Yu alias Loke Hoi Lam, Mr. Mak Shiu Chung, Godfrey, Mr. Wan Hing Pui and Mr. Heng Victor Ja Wei, (collectively the "Directors"). The INEDs required under Rule 3.10(1) of the Listing Rules who represent one third of the Board and include three with appropriate professional qualifications and accounting and related financial expertise required under Rule 3.10(2) of the Listing Rules.

In accordance with the Bye-laws, the CG Code of the Company, every Director should be subject to retirement by rotation at least once every three years. All Directors appointed as an additional Director or to fill a casual vacancy should be subject to election by shareholders at the first annual general meeting after their appointment and that one-third of the Directors should be subject to retirement and re-election every year. Despite Non-executive Directors (including independent non-executive) are not appointed for a specific term as stipulated by the HKEx Code Also, it is a deviation from code provisions A.4.1 that none of the existing non-executive directors of the Company is appointed for a specific term. However, as all the non-executive directors of the Company (including independent non-executive) are subject to retirement provision under the Company's Bye-laws. The Company considers that sufficient measures have been taken to meet the intent of the relevant provision in the HKEx Code and CG Code and are no less exacting than those provisions as well, they are subject to retirement by rotation and re-election at the annual general meetings of the Company. As such, the Company considers that such provisions are sufficients of the HKEx Code.

The Directors who are subject to retirement and re-election at the 2019 Annual General Meeting are set out on page 51 of this Annual Report. The independence of the INED has been assessed in accordance with the applicable Listing Rules as each of the INED has provided an annual written confirmation of independence pursuant to the Listing Rules 3.13.

The Company considers that the INEDs continue to be independent in compliance with those independence criteria under the said rule and are capable to effectively exercise independent judgement up to and as at the date of this report.

The Directors' biographical details are listed in the section of "Biographies of Directors and Senior Management" in this report. Save as Mr. Cheng King Cheung is a son of Mr. Cheng Yung Pun and Mr. Heng Victor Ja Wei is a nephew-in-law of Dr Loke Yu alias Loke Hoi Lam, there is no financial, business, family or other material/relevant relationship between the Directors. The INEDs are expressly identified in all of the Company's publication such as circular, announcement or relevant corporate communications in which the names of Directors of the Company are disclosed. The Company considers that the Board has the necessary skills and experience appropriate for discharging their duties as Directors in the best interest of the Company and that the current board size as adequate for its present operations.

2. Chairman and Chief Executive Officer ("CEO")

The roles of the Chairman and the CEO of the Company are segregated and are not held by the same person and are governed by the Chairman Mandate and CEO Mandate (containing the minimum prescribed duties) and stated in the Company's own CG Code. The primary responsibility of the Chairman is to ensure smooth and effective functioning of the Board. His responsibilities are, inter alia, the leadership and effective running of the Board, ensuring that all key and appropriate issues are discussed by the Board in a timely and constructive manner and ensure that Directors receive adequate information, which must be complete and reliable, in a timely manner. The CEO is delegated with the authority and his principal responsibilities are, inter alia, running the Group's business, and implementation of the Group's strategy in achieving the overall commercial objectives. Currently, Mr. Cheng Yung Pun is the Chairman and Mr. Chen Wei Qing is the CEO of the Company.

3. Board Meetings and Access of Information

The Board conducts meeting on a regular basis and on an ad hoc basis, as required by business needs. The Bye-laws of the Company allow board meetings to be conducted by way of telephone or video conference. Members of the Board receive information before the meetings about developments in the Company's business.

During the year under review, the Board held eight board meetings (including some meetings held by video or telephone conference) in which Mr. Yu Sui Chuen had attended all board meetings; Dr. Loke Yu alias Loke Hoi Lam, Mr. Mak Shiu Chung, Godfrey and Mr. Heng Victor Ja Wei had attended seven board meetings; Mr. Cheng Yung Pun and Mr. Tse Kam Wah had attended six board meetings; Mr. Wan Hing Pui had attended four board meetings; Mr. Cheng King Cheung and Ms. Yip Hiu Har (appointed effective on 1st April, 2018) had attended two board meetings and Mr. Tsang Chung Wa had attended one board meetings.

In the said board meetings, sufficient fourteen-day notices for regular board meetings and notice in reasonable days for non-regular board meetings were given to all Directors. Board papers are circulated prior to board meetings in a timely manner in which sufficient information was supplied by the management to the Board to enable it to make informed decisions, which are made in the best interests of the Company.

All Directors have access to the advice and services of the company secretary and upon reasonable request, independent professional advice in appropriate circumstances at the Company's expense, if any.

4. Directors' Securities Transactions

The Company has adopted and amended from time to time its code for securities transactions by directors of listed issuers as the code of conduct governing directors' securities transactions in compliance with the recently amended Appendix 10 to the Listing Rules (the "Model Code").

All Directors of the Company during the year, following specific enquiry by the Company, have confirmed that they have complied with the required standard set out in the Company's own code and the amended Model Code throughout the year.

5. Directors' Continuous Training and Development Programme

Pursuant to the HKEx Code, all Directors should participate the continuous professional development to develop and refresh their knowledge and skills. This is to ensure that their contribution to the board remains informed and relevant. The Company has introduced the development programme for Directors. Each of the Directors keeps abreast of his/her responsibilities as a Director of the Company and of its conduct, and business activities and development. All Directors are updated from time to time with development in the laws and regulations applicable to the Company.

During the year ended 31st December, 2018, all Directors of the Company namely, Mr. Cheng Yung Pun, Mr. Yu Sui Chuen, Mr. Cheng King Cheung, Ms. Yip Hiu Har (appointment effective on 1st April, 2018), Mr. Tsang Chung Wa, Mr. Tse Kam Wah, Dr. Loke Yu alias Loke Hoi Lam, Mr. Mak Shiu Chung, Godfrey, Mr. Wan Hing Pui and Mr. Heng Victor Ja Wei received regular updates on the Group's business, operations and corporate governance matters. Materials on new or changes to salient laws and regulations applicable to the Group were provided to the Directors. They also attended regulatory update sessions on relevant topics. All Directors are requested to provide the Company with their respective training record pursuant to the CG Code.

B. DIRECTORS' REMUNERATION

1. Remuneration Committee ("RC")

The principal role and functions of RC include, inter alia, reviewing the Board on the remuneration policy and structure for the remuneration of Directors and senior management, the specific remuneration packages of all executive Directors and senior management, including benefits in kind, pension rights and compensation payment, including any compensation payable for loss or termination of their office or appointment, as well as to make recommendation to the Board as described under Code B.1.2(c)(ii) of the HKEx Code. The RC consults the Chairman and/or CEO about their proposal relating to the remuneration of other executive Directors and has access to professional advice where necessary. No Directors and executives can determine his own remuneration. The overriding objective of the remuneration policy is to ensure that the Company is able to attract, retain, and motivate a high-calibre team which is essential to the success of the Company. Detailed terms of reference of the RC are accessible on the website of the Company and the Hong Kong Exchanges and Clearing Limited ("HKEx").

Membership and attendance:

The RC comprises Dr. Loke Yu alias Loke Hoi Lam as chairman, Mr. Mak Shiu Chung, Godfrey, Mr. Wan Hing Pui and Mr. Heng Victor Ja Wei. For the year ended 31st December, 2018, all members of the RC except Mr. Wan had attended the RC meeting.

Work done during the year

- reviewed its remuneration policy for Directors and senior management; and
- reviewed the remuneration packages of executive Directors and senior management for the year 2018.

2. Level and Make-up of Remuneration

The Group's remuneration policy for executive Directors and senior management is linked to performance, service seniority and experience, which are reviewed from time to time to align with market/industry practices.

Details of the remuneration of the Directors for the year ended 31st December, 2018 are provided in note 10 to the Consolidated Financial Statements in this annual report.

C. DIRECTORS' NOMINATION

1. Nomination Committee ("NC")

The NC shall report back to the Board in writing on their decisions or recommendations within a reasonable time after such decisions or recommendations are made, unless there is legal or regulatory restriction on the Committee to do so. Its role and functions shall be the review of the structure, size and composition (including the skills, knowledge, experience) of the board at least annually and make recommendations on any proposed changes to the board to complement the Company's corporate strategy; identify individuals suitably gualified to become board members and select or make recommendations to the board on the selection of individuals nominated for directorships; assess the independence of INEDs; make recommendations to the board on the appointment or re-appointment of directors and succession planning for directors, in particular the chairman and the chief executive. Where vacancies on the Board exist or an additional Director is considered necessary, the chairman of the NC will identify suitable candidates and propose the appointment of such candidates to the Board for consideration and the NC will take into account the qualification, in particular any qualification as required in the Listing Rules, ability, working experience, leadership and professional ethics etc. of the candidates and approved if such appointment considered suitable. The NC also considers the existing human resources policy in recruitment of new senior staff, to certain circumstance, is applicable to nomination of a new Director. The overriding objective of the nomination policy is to ensure that the Company is able to nominate a right person to be director which is essential to the success of the Company. Detailed terms of reference of the NC are accessible on the website of the Company and the HKEx.

NC's principal role is to review the Board's size, structure and composition to ensure that the Board has and by reviewing the Board's size, structure and composition, the Board will also consider a balance of ages, talents expertise, skills, experience, independent, knowledge and gender appropriate according to the Company's Board Diversity Policy.

Membership and attendance:

The NC comprises Mr. Cheng Yung Pun as chairman, Dr. Loke Yu alias Loke Hoi Lam, Mr. Mak Shiu Chung, Godfrey, Mr. Wan Hing Pui and Mr. Heng Victor Ja Wei. For the year ended 31st December, 2018, all members (except the chairman and Mr. Wan) of NC had attended the meeting.

Work done during the year

- reviewed the structure, size and composition of the Board, and is of the view that there is an appropriate and diverse mix of skills and experience;
- reviewed the independence of INEDs of the Company and confirmed that all INEDs are considered independent;
- reviewed the profile and performance of Directors who will stand for re-election at Annual General meeting and confirmed that all those Directors are suitable to stand for re-election; and

- reviewed and assessed the composition of the Board;
- reviewed the existing Nomination Policy on i) whether it can and how to identify potential directors and which the selection process should be transparent and fair. The Company is encouraged to select from a broad range of candidates who are outside the Board's circle of contacts, and in accordance with the Company diversity policy; and ii) whether it sets out the procedure for the selection, appointment and reappointment of directors containing the selection criteria. This should include, but not limited to, considering the potential contributions a candidate can bring to the board in terms of qualifications skills, experience, independence and gender diversity or not.

2. Implementation of Board Diversity policy

- The policy concerning diversity of the board includes a mechanism on how NC oversees the conduct of the annual review of the effectiveness of the Board. In reviewing and assessing the composition of the Board, the NC will consider the benefits of all aspects of diversity, including without limitation, those described above, in order to maintain an appropriate range and balance of talents, skills, experience and background on the Board. In recommending candidates for appointment to the Board, the NC will consider candidates on merit against objective criteria and with due regard for the benefits of diversity on the Board. In overseeing the conduct of the annual review of the effectiveness of the Board, the NC will consider the balance of ages, talents, skills, experience, independence, knowledge and gender on the Board and the diversity representation of the Board.
- The NC will discuss and agree annually all measurable objectives for achieving diversity on the Board and recommended them to the Board for adoption. It will also review annually the progress on achieving those objectives. Such as, the Nomination Committee is encouraged to (a) be more transparency on the considerations for diversity, including gender, during the nomination process of directors if the Company is without a single woman on its board;(b) articulate the benefits of diversity, including gender diversity, and the importance of being able to attract, retain and motivate employees from the widest possible pool of available talent; (c) express the Nomination Committee or the Company's commitment to diversity at all levels, including gender, age, culture and educational background, or professional experience; (d) assess annually on each issuer's diversity profile including gender balance of the directors and senior management and their direct reports, and its progress in achieving its diversity objectives; (e) ensure that recruitment and selection practices at all levels (from the board downwards) are appropriately structured so that a diverse range of candidates are considered; and (f) state whether the Nomination Committee or the Company has identified and implemented programs that will assist in the development of a broader and more diverse pool of skilled and experienced employees and that, in time, their skills will prepare them for senior management and board positions. At any given time, the Board may seek to improve one or more aspects of its diversity and measure progress accordingly.

D. ACCOUNTABILITY AND AUDIT

1. Audit Committee ("AC")

The principal role and functions of the AC are, inter alia, to review the appointment of the external auditor on an annual basis including a review of the audit scope and approval of the audit fees; to ensure continuing auditor objectivity and to safeguard independence of the Company's auditors; to meet the external auditor to discuss issues and reservations (if any) arising from the interim review and final audit, and any matters the auditor suggests to discuss; to review the Group's internal control system; to review the annual and interim report and quarterly result (if any) prior to approval by the Board in accordance with the accounting policies and practices and relevant accounting standards, the Listing Rules and the legal requirements; to serve as a focal point for communication between other Directors and the external audit, and such other matters as the Board determines from time to time; to consider major findings of internal review and management's response and ensure proper arrangement in place for the fair and independent review of such concerns and appropriate follow up action; to devise a framework for the type and authorisation of non-audit services provided by the external auditor.

Detailed terms of reference of the AC are accessible on the website of the Company and the HKEx.

Three AC members are qualified accountants. None of the AC members are members of the former or existing auditor of the Company.

Membership and attendance:

The AC comprises Dr. Loke Yu alias Loke Hoi Lam as chairman, Mr. Mak Shiu Chung, Godfrey, Mr. Wan Hing Pui and Mr. Heng Victor Ja Wei. For the year ended 31st December, 2018, all members had attended the two meetings except Mr. Wan who attended one meeting only. The finance director and the group financial controller are normal attendees of the AC meetings. Where appropriate, representatives of the external auditors are invited to attend the AC meetings to present significant audit and accounting matters which they noted in the course of their audit.

Work done during the year

- carried out interim and final financial review;
- reviewed interim and annual reports before submission to the Board in accordance with the accounting policies and practices, relevant accounting standards, the Listing Rules and the legal requirements;
- reviewed the external auditor's engagement letter; to discuss issues during the audits of external auditor. The external auditor and the senior executives are invited to attend the meeting for annual financial statements;
- reviewed the nature and scope of external audit and approved the external audit fee;
- reviewed the interim financial report, interim results announcement, the annual accounts and the annual results announcement in accordance with the accounting policies and practices and relevant accounting standards, the Listing Rules and the legal requirements;
- reviewed continuing auditor objectivity and to safeguard independence of the Company's auditors;
- met the external auditor to discuss issues and reservations (if any) arising from the interim review and final audit, and any matters the auditor suggests to discuss;
- reviewed the Group's internal control system;
- served as a focal point for communication between other Directors and the external auditor in respect of the duties relating to financial and other reporting, internal controls, external audit, and such other matters as the Board determines from time to time;
- considered major findings of internal review and management's response and ensure proper arrangement in place for the fair and independent review of such concerns and appropriate follow up action;
- devised a framework for the type and authorisation of non-audit services provided by the external auditor.

2. Financial Reporting

The financial statements of the Company for the year ended 31st December, 2018 have been reviewed by the AC and audited by the external auditor, Messrs. Deloitte Touche Tohmatsu. The Directors acknowledge their responsibility for preparing the financial statements of the Group and presenting a balanced, clear and comprehensive assessment of the Group's performance and prospects. They are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern.

The Board approves the financial statements after taking into account specific accounting matters. The Board is satisfied that appropriate accounting policies have been used in preparing the financial statements, consistently applied and complied with the relevant accounting standards. Directors ensure the preparation of the financial statements of the Group is in accordance with statutory requirements and applicable accounting standards and also ensure the publication of the financial statements of the Group in a timely manner.

The Listing Rules require listed companies to prepare annual financial statements which shall provide a true and fair view of the state of affairs of the companies and of the results of their operations and cash flows.

The Board is responsible for ensuring the maintenance of proper accounting records of the Group. It has also acknowledged its responsibility for preparing the financial statements in a timely manner.

A statement of the auditor about their reporting responsibilities is included in the Independent Auditor's Report on pages 59 to 64 of this annual report.

3. Internal Control

The directors are responsible for maintaining and reviewing the effectiveness of the Group's internal controls including material financial, operational and compliance controls, risk management functions and particularly the adequacy of resources, staff qualifications and experience, training programs and budget of the Group's accounting and financial reporting function.

The Audit Committee has, at a regularly scheduled meeting throughout the year, received a report from Group Internal Audit on the results of their activities during the preceding period and reported to the Board, including any significant matters pertaining to the adequacy and effectiveness of internal controls including, but not limited to any indications of failings or material weaknesses in those controls.

The Board and Audit Committee accordingly have conducted a review of its risk management and internal control systems on (a) whether the Company has an internal audit function; (b) how often the risk management and internal control systems are reviewed; and (c) a statement that a review of the effectiveness of the risk management and internal control systems has been conducted and whether the Company considers them effective and adequate. They also reviewed the effectiveness of the system of internal control of the Group including the relevant financial, operational and compliance controls and risk management procedures and has delegated to the management the implementation of such systems of internal controls.

Appropriate control procedures have been designed to ensure that assets are safeguarded against improper use or disposal, relevant rules and regulations are adhered to and complied with, reliable financial and accounting records are maintained in accordance with relevant accounting standards and regulatory reporting requirements, and key risks that may impact on the Group's performance are appropriately identified and managed. Such procedures are designed to manage, rather than eliminate, the risk of failure to achieve business objectives. These procedures can only provide reasonable, and not absolute, assurance against material errors, losses and fraud.

Parties involved in internal control function: Chief audit executive

The Group's chief audit executive with accounting experience and qualification, serve the Board in the Group to overseeing the Group's financial reporting procedure internal controls and compliance with the accounting-related requirements under the Listing Rules. Notwithstanding, the Board considers the adequacy of resources, qualifications and experience of staff of the Company's accounting and financing reporting function and their training programmes and budget.

Internal audit function team

The directors have reviewed the need for an internal audit function and are of the view that in light of the size, nature and complexity of the business of the Group, it would be more cost effective to set up an inhouse internal audit function team to perform internal audit functions for the Group. As the Group uses internal resources to comply with internal audit function, an inhouse internal audit function team was set up in 2015. The Audit Committee has identified the main risks in the Group and that the internal audit function team designed an internal audit program and will emphasise on the review of the risks according to the Risk Management plan. Nevertheless, the directors will continue to review at least annually the need for an internal audit function.

The Internal Audit function team comprises three members. It reviews and monitors dealings of the Group to ensure that all dealings with these entities are conducted on an arm's-length basis.

The Internal Audit function team reviews significant aspects of risk management for the Group companies and makes recommendations to the Audit Committee and other committees (as the case may be) if necessary, including amongst other things, the appropriate mitigation. The Audit Committee of the Company has established and oversees a whistleblower policy and a set of comprehensive procedures whereby employees, customers, suppliers and other concerned parties have the right and the ability to report any actual or suspected occurrence of improper conduct involving the Company, and for such matters to be investigated and dealt with efficiently in an appropriate and transparent manner. The Chairman of the Audit Committee has designated the team leader of internal audit function team to receive on his behalf any such reports, to oversee the conduct of subsequent investigations, and to provide information, including recommendations, arising from any investigation to him for consideration by the Audit Committee. The Company has adopted policies and procedures for assessing and, where prudent, improving the effectiveness of its internal controls and risk management functions to personally certify that such matters are appropriate and functioning effectively in the belief that this will enhance the corporate governance of the Company.

The Group's internal audit function team provides independent assurance to the Board and executive management on the adequacy and effectiveness of internal controls for the Group. The team leader of internal audit function team reports directly to the Chairman of the Audit Committee under adoption of a risk-and-control-based audit approach. The annual work plan of Group Internal Audit covers major activities and processes of the Group's operations, businesses and service units. During 2018, the Group internal audit function team conducted selective reviews of the effectiveness of the Group's system of internal controls over business continuity plan, business succession plan, human resources management, IT control, risk analysis, materiality and control risk assessment including credit and collection risk, fair value estimation, reputation risk, capital management risk and client distribution risk. The Audit Committee and the Board were not aware of any areas of concern that would have a material impact on the Company's financial position or results of operations and considered the internal control systems to be generally effective and adequate including the adequacy of resources, staff qualifications and experience, training programs and budget of the Group's accounting and financial reporting function.

4. Auditors' Remuneration

During the year under review, the fees paid or payable to the auditor of the Company, Messrs. Deloitte Touche Tohmatsu, Hong Kong, were approximately HK\$2,217,000 and HK\$400,000 for statutory audit services rendered (including disbursement fees) and non-audit services rendered to the Group respectively.

Remuneration paid to other auditors for audit and non-audit services rendered to overseas subsidiaries was approximately HK\$2,590,000.

E. CORPORATE GOVERNANCE FUNCTIONS

The Board is responsible for performing the following corporate governance duties as required under the HKEx Code:

- to develop and review the Company's policies and practices on corporate governance;
- to review and monitor the training and continuous professional development of Directors and senior management;
- to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;
- to review and Company's compliance with the HKEx Code and disclosure in the Corporate Governance Report.

During the year, the Board considered the following corporate governance matters:

- reviewed the corporate governance duties under the HKEx Code; and
- review the compliance with the HKEx Code.

F. INVESTOR RELATIONS

1. Communication with investors

During the year under review, the Group has proactively enhanced its corporate transparency and communications with its shareholders and the potential investors through its mandatory interim and final reports. Through the timely distribution of press releases, the Group has also kept the public abreast of its latest developments.

During the year under review, there are no changes to the Company's bye-laws.

2. Annual General Meeting ("AGM")

The AGM provides a useful forum for shareholders to exchange views with the Board. The Chairman as well as chairman of the Committees and their members is pleased to answer shareholders' questions.

Separate resolutions are proposed at general meetings on each substantially separate issue, including the re-election of individual Directors particularly the INED – Mr. Mak Shiu Chung, Godfrey to be re-elected at the 2019 AGM, as he is being an INED for more than 9 years.

The circular to shareholders dispatched together with the annual report includes relevant details of proposed resolutions, including biographies of each candidates standing for re-election. In order to comply with the Listing Rules and CG Code as well, the forthcoming AGM will be held with voting by way of a poll and that all shareholders will be given a notice for 20 clear business day or 21 days (whichever is later). The results of the poll in general meetings from time to time will be published on website of the Company and HKEx.

All directors except Mr. Tsang Chung Wa and Mr. Cheng King Cheung and the independent nonexecutive director, Mr. Mak Shiu Chung, Godfrey, had attended the 2018 AGM of the Company held on 26th April, 2018.

3. Rights and Procedures for Shareholders to Convene Shareholders' Meetings, make enquiries and putting forward proposals at the Shareholders' Meetings

i) the procedures for the way in which shareholders can convene an extraordinary general meeting:

Pursuant to the Company's bye-laws, a special general meeting shall be convened on the written requisitionist of any 2 or more members holding at the date of the deposit of the requisition in aggregate not less than one-tenth of such of the paid up capital of the Company as at the date of the deposit carries the right of voting at general meetings of the Company. Such requisition must state the objects of the special general meeting and must be signed by the requisitionists and deposited at the office. If the Directors do not within 21 days from the date of the deposit of such requisition proceed duly to convene a special general meeting, the requisitionists themselves or any of them representing more than one half of the total voting rights of all of them may convene the special general meeting in the same manner, as nearly as possible, as that in which meetings may be convened by the Directors, and all reasonable expenses incurred by the requisitionists as a result of the failure of the Directors to convene such a meeting shall be reimbursed to them by the Company.

ii) Make Enquiries:

In accordance with the Company's Shareholders' Communication Policy, the Shareholders direct their questions about their shareholdings to the Company's Branch Share Registrar in Hong Kong, Tricor Secretaries Limited at Level 22, Hopewell Centre, 183 Queen's Road East, Hong Kong (the "Branch Share Registrar") or the Customer Service Hotline of the Branch Share Registrar at (852) 2980-1333 from 9:00 a.m. to 5:00 p.m. Monday to Friday (excluding Hong Kong public holidays) or by email at matrix1005-ecom@hk.tricorglobal.com.

Shareholders may at any time make a request for the Company's information to the extent such information is publicly available. Shareholders shall make a request to the Branch's Share Registrar for the designated email addresses and enquiry lines of the Company in order to enable them to make any query in respect of the Company.
Corporate Governance Report

iii) Put forward proposals:

Pursuant to the Company's bye-laws, notice in writing by any 2 or more shareholders entitled to attend and vote at the meeting holding at the date of the deposit of the notice in aggregate not less than one-tenth of such of the paid up capital of the Company (not being the person to be proposed) for which such notice is given of his intention to propose that person for election as a Director and notice in writing by that person of his willingness to be elected shall have been given to the Company at least 7 days before the date of the general meeting appointed for such election. The period for lodgment of the notice required under this Bye-Law shall commence no earlier than the day after the despatch of the notice of the general meeting appointed for such election and end no later than seven (7) days prior to the date of such general meeting.

iv) Dividend Policy

The Board may propose the payment of dividends, if any, with respect to the Company's shares on a per Share basis. Any dividend for a financial year shall be subject to shareholders' approval. Under the Company Law and the Company Bye-Laws, all of the Company's shareholders have equal rights to dividends and distributions. The declaration of dividends is subject to the discretion of the Board, which the Company expects will take into account one or more of the factors when considering the payment of dividends such as a) the Company's financial results or financial performance; b) the Company's shareholders' interests or needs; c) general business conditions and strategies or business prospects; d) the Company's immediate or anticipated capital requirements; e) contractual restrictions on the payment of dividends by the Company to the Company's shareholders or by the Company's subsidiaries to the Company; f) statutory and regulatory restrictions; g) possible effects on the Company creditworthiness; h) the amount of distributable profits available at the relevant time; and i) any other factors the Board may deem relevant.

SCOPE AND REPORTING PERIOD

1.1 Report Compilation Basis

This Report is prepared with reference to Environmental, Social and Governance ("ESG") Reporting Guide as described in Appendix 27 of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the "Stock Exchange") (the "Listing Rules").

1.2 Scope of Reporting

The Group is engaged in the toy manufacturing business for international brand customers and lighting products manufacturing directly to consumers or through sub-distributors on wholesale basis. This Report covers the relevant policies and performance of the said manufacturing businesses of the Group.

1.3 Reporting Period

The information published in this ESG report covers the period from 1st January, 2018 to 31st December, 2018.

1.4 Stakeholder Engagement and Materiality

In order to identify the most significant aspects for the Group to report on for this ESG report, key stakeholders including shareholders, employees and management have been invited to discuss and to review areas of attention which will help the business meets its potential growth and be prepared for future challenges.

2. ENVIRONMENTAL PERFORMANCE

The Group's manufacturing business is closely related to environmental protection and the usage of natural resources. The Group has established a set of management mechanisms and measures on environmental protection and natural resources conservation to help ensure the sustainable development and operation of the Group.

2.1 Emissions Policy and Compliance

The Group strives to have the efficiency in the usage of energy, water and materials and also complies with relevant local environmental regulations and local jurisdiction's general practices and aims at international standard, with an aim to reduce the use of natural resources and protect the environment. The actions taken are aligned with international standards. These include greenhouse gas emission inspections, reduction, classification and recycling of waste, and consultations on energy conservation and carbon reduction in factories with high energy consumption levels.

Total floor area coverage of the various factories in Vietnam of the Group was 122,722.2 m² (2017: 122,722.2 m²) and the Group accounts for the emissions from its factory operations in Vietnam mainly. Type of emissions from the production plant operations in Vietnam in the reporting year was mainly unleaded diesel oil, electricity, water, paper, hazardous waste and non-hazardous waste.

2.1.1 Types of Emissions

Carbon footprint generated from the manufacturing plants is disclosed in this ESG report. Carbon footprint is defined as the total amount of direct and indirect emissions of greenhouse gas (GHG) expressed in terms of equivalent amount of carbon dioxide (CO₂-eq) emission.

2.1.2 Greenhouse Gas Emissions

The total net GHG emission emitted by the Group's operation was 19,727.65 tonnes (2017: 22,013.34 tonnes) of carbon dioxide equivalent (tCO₂-eq). The source of the GHG emission was mainly from the consumption of electricity.

During the reporting year, the following table highlights the carbon footprint.

	2018	2017	2018	2017
Emission			Total	Total
Sources	Emission	Emission	Emission	Emission
	(in tonnes	(in tonnes	(in	(in
	of CO2e)	of CO ₂ e)	percentage)	percentage)
Unleaded Diesel Oil consumed by generator, forklift, boiler	40.75	44.23	0.29%	0.20%
Purchased Electricity	19,651.5	21,940.04	99.42%	99.68%
Water Consumption	35.4	29.07	0.29%	0.12%
Total:	19,727.65	22,013.34	100%	100%
	Sources Unleaded Diesel Oil consumed by generator, forklift, boiler Purchased Electricity Water Consumption	Emission SourcesEmission (in tonnes of CO2e)Unleaded Diesel Oil consumed by generator, forklift, boiler40.75Purchased Electricity19,651.5Water Consumption35.4	Emission SourcesEmission (in tonnes of CO2e)Emission (in tonnes of CO2e)Unleaded Diesel Oil consumed by generator, forklift, boiler40.7544.23Purchased Electricity19,651.521,940.04Water Consumption35.429.07	Emission SourcesEmission Emission (in tonnes of CO2e)Emission Emission (in tonnes of CO2e)Total Emission (in tonnes) of CO2e)Unleaded Diesel Oil consumed by generator, forklift, boiler40.7544.230.29%Purchased Electricity19,651.521,940.0499.42%Water Consumption35.429.070.29%

The major contributor of the GHG emission was from Scope 2: indirect emission, over 99.42% (2017: 99.68%) of the total emission. A further GHG emission analysis is made below:

Unit	2018	2017
Total Greenhouse Gas Emitted (a) tCO ₂ e	19,727.65	22,013.34
Total Floor Area Coverage (b) m ²	122,722.2	122,722.2
Total production weight (KG)	8,033,399	12,064,881
Annual Emission Intensity (c) = (a)/(b) $tCO2e/m^2$	0.161	0.179
Annual Greenhouse Gas emission Intensity (c) =		
(a)/(b) tCO ₂ e/KG	0.0025	0.0018
Total Removal by installing of		
LED equipment (e) tCO2e	12,043	12,010

2.1.3. Emission Prevention

In 2018, there was 19,727.65 tonnes (2017: 22,013.34 tonnes) of carbon dioxide equivalent greenhouse gases (mainly carbon dioxide, methane and nitrous oxide) emitted in total from the Group's operation in the reporting period. The annual emission intensity was 0.161 tC02e/m2 (2017: 0.179 tC02e/m²). Main factors of greenhouse gas emissions is energy; thus the Group was of the opinion that using and savings energy efficiently is a method to decrease GHG emissions amount by i) establishing energy management system in factory; ii) continuously replacing all normal light bulbs to be light-emitting diode ("LED" saving energy lighting; iii) installing roof of new facility made with transparent material to provide optimum natural illumination to avoid energy wastage; iv) window panes which are made in a way to provide the working environment with natural ventilation for better indoor air quality, as well as natural illumination to save energy which contributed to a total amount of 12,043 tonnes (2017: 12,010 tonnes) of carbon-dioxide equivalent greenhouse gases.

2.1.4 Non-hazardous waste, paper and hazardous waste

Non-Hazardous waste

Non-hazardous waste from the Group's operation includes living wastes, plastic, packaging material, carton paper, cloth, for factories' uses and sales and marketing purposes.

Hazardous waste

Hazardous waste was in a total of 16.000 kg (2017: 29.525 kg).

2.1.5 Use of paper and packaging material

A total of 0.67 tonnes (2017: 0.61 tonnes) has been used for daily office operations and advertising materials such as leaflet, catalogue, sales kit, part of them have been collected by licensed recycling company. Packaging materials such as plastic bottles and carton containers used for production were disposed in a total sum of 61.31 tonnes (2017: 86.25 tonnes).

2.1.6 Waste reduction

The Group continues to practice paper saving and waste reduction initiatives, such as default double-sided printing, reminder for staff to have environmentally friendly photocopying habit, and separated collection of waste paper, plastic, cloth etc. for effective recycling.

2.2. Use of Resources

2.2.1 Energy

Electricity

The electricity consumption by the Group was 34,093,434 kWh (2017: 34,825,468 kWh.).

The Group continues its commitment in installing and switching to energy-saving lighting fixtures for example the LED equipment and sourcing energy efficient equipment to ensure functioning in optimal conditions and efficiency. In addition, the Group participated in the Environmental Score-Card ("ESC"). The ESC was launched by the factories in compliance with local environmental regulations and customer requirement with a focus on raising awareness on light nuisance and energy wastage.

2.2.2 Unleaded Diesel Oil

A total of 14,800 liters of unleaded diesel oil (2017: 16,920 litres) was used contributing to 40.75 tonnes of carbon dioxide equivalent (2017: 44.23 tonnes) in the reporting period.

2.2.3 Water

Water consumption by the Group was 93,123 m³ (2017: 143,183 m³), with water intensity of 0.76m³/m² (2017: 1.17 m³/m²). Same as last year, only the operation factories and offices with total floor area coverage of 121,316.4m² (2017: 121,316.4 m²) were included in this section as water usage of our most offices in other regions has been counted in the management fee, thus their water usage data cannot be obtained.

Nevertheless, the Group actively promotes water efficient practices such as i) implementing a project in relation to install water meter to monitor water consumption amounts; and ii) periodic training for workers about saving and using water effectively in the factory; and iii) continue to implement the environmental management program, which reduces water wastage caused by human error and unintentional switching mistake.

2.3 The Environment and Natural Resources

For any possible incident that cause pollution to the environment, the Group has clarified the management responsibilities of each managerial post and taken measures to protect the local ecological environment and avoid the occurrence of environmental pollution and ecological damage on the affected sites as stipulated in COC and ESC. There is an emergency plan will be formulated once there is any accident of pollution. There is currently no significant impacts of activities on the environment and natural resources.

3. SOCIAL PERFORMANCE

3.1 Employment Policy and Compliance

Through the Group's many years of experience in the industry, the Group understands that its service quality and competitiveness are highly dependent on its employees; therefore, it offers competitive remuneration, promotional opportunity, compensation and benefit packages to attract and retains employees. The Group had a total number of around 9,500 staff in Hong Kong, Macau, the PRC, Vietnam etc. of which around 8,000 factory employees as of 31st December, 2018, in which 100% was working as full time staff.

During the reporting year, the employment distribution and annual turnover rate are as below:-

3.1.1 Total workforce by age group

Employee's Age Distribution

Age	18-25	26-35	36-45	46-55	above
2018					
Number of employees	1,900	2,700	2,200	800	10
2017					
Number of employees	8,800	3,600	600	100	10

EC and

3.1.2 Annual Turnover Rate

Annual Turnover Rate

					56 and
Age	18-25	26-35	36-45	46-55	above
2018					
Percentage of turnover	67.7%	26.1%	5.5%	0.7%	0.0%
0017					
2017					
Percentage of turnover	16.0%	20.0%	2.6%	0.5%	0.0%

Salaries are reviewed and adjusted based on performance appraisals and the market trend.

Employees in the Group are entitled to year-end bonus, mandatory provident fund, medical insurance, various types of paid leave in addition to annual leave, sick leave and maternity leave, etc.

The Group regularly reviews factory employee handbook which outlines the Group's key messages, policies, procedures, promotion channel, compensation and benefits, occupational health and safety and complaint.

3.2 Health and Safety Policy and Compliance

Due to the industrial business nature, recruitment and staff retention has continued to be a challenge in the reporting period. The Group commits to ensure safe and healthy working environment for factory employees and to inspire and strengthens workforce regardless of their age, gender and ethnical backgrounds. With the aging population being a long-term demographic trend, the Group still has a sustainable workforce in this perspective.

The Group regularly reviews the factory employees' health and safety procedure to safeguard factory employees' well-being. Briefing, training, news and tips are provided to factory employee to raise their awareness and to refresh their knowledge and practices on using plant equipment.

3.2.1 Occupational Health and Safety Data

The occupational health and safety data is as below:-

	2018	2017
Work related fatality	0	0
Work injury cases >3 days	36	49
Work injury cases <3 days	4	23
	ĺ.	

Occupational Health and Safety Data

	2018	2017
Lost days due to work injury	674	762
Total Labour working days	2,346,500	4,100,000

3.2.2 Safety Measures

Safety precautions alert are continued to be communicated though briefings and guidelines to promote and enhance safety awareness and practices. The management will continue their effort in strengthening the Group's occupational health and safety performance.

3.3 Development and Training

Comprehensive professional training are provided to factory employees. All newly hired factory employees are required by policy to attend factory employee orientation and to familiarise with the Group's purpose, vision and aspiration, mission, core values, business goals and overview and how factory employee plays a vital role in the business.

Training's topics range from knowledge of product manufacturing, equipment procedure and refreshing courses, to management skills were included. Total of training hours are as follows:-

2018	2017
8,000	13,000
4 hours/employee	21

The Group actively engages and motivates factory employees through various communication channels. The regular factory employee updated on staff promotion, and corporate news and activities. The Group also organised annual dinner and festival-related celebration and to provide enhanced communication channels between senior management and general staff. The Group believes having better transparent governance and investing efforts, factory employees, is the key to success of a sustainable business.

3.4 Labour Standard

3.4.1 Child and forced labour

No child nor forced labour in the Group's operations in the reporting period. It is in compliance with the employment law, Vietnam in terms of employment management. The recruitment process is strictly abided by the guidelines of the Group's personnel department. Every job applicant is required to fill in their information in a recruitment questionnaire, which is checked by personnel department to ensure information's accuracy. This also allows the Group to hire suitable candidate in accordance with the job requirements and candidates' expectations.

3.5 Supply Chain Management

A strict tendering process is also in place to provide a fair and transparent platform for securing the best supplier for procurement of all equipment, products and services. The request for tender is included in the annual budgeting process and prepared by responsible departments which abide by the Group's quality assurance policy management program. Additional information such as testing report is used to evaluate the suppliers in order to have the best selected providers. The Group also monitors the overall performance of selected suppliers by conducting vendor audits with documented reports to substantiate the selection and on-going cooperation.

3.5.1 Number of Suppliers by Geographical Region

The Group has a total of 650 service and product suppliers such as Hong Kong, the PRC, and Vietnam.

3.5.2 Suppliers' Engagement

The Group maintains good relationship with its suppliers to ensure service stability and product quality. Suppliers are assessed and selected based on rational and clear criteria including production process, quality management system, regulatory requirement compliancy, operating capacity, sample availability for testing, packaging, and procedure, price, delivery assurance to ensure the best value for money services or products are procured.

3.6 Product Responsibility

To provide top quality products to customers, the Group carefully sourced its products and equipment with standardised procurement procedure and policies. The Group's comprehensive procurement management systems help screening out undesirable products in the aspects of raw materials and ingredients selection, and quality management system in factories, etc.

3.6.1 Products and Service Related Complaints

The Group has always been keen to maintain its good brand quality. During the reporting period, there was no significant complaint in product quality and delivery.

3.6.2 Protecting Intellectual Property Rights

The Group owned and registered numerous patents, trademarks and domain names as they are important to its brand and corporate image. The Group has complied with the intellectual property (the "IP") rights regulations. As at the date of this ESG report, there was not any material infringement of the IP rights and the Group is confident that all reasonable measures have been taken to prevent any infringement of its own IP rights and the IP rights of third parties.

3.6.3 Quality Assurance Process

The Group is committed to provide innovative and high-quality products to customers and to ensure quality compliance. New equipment are procured to enhance their competitiveness. Considerable efforts are made on ensuring good quality products are provided.

3.6.4 Consumer Data Protection and Privacy Policies

The Group complies with the Personal Data Privacy Ordinance, all personal data collected from employees, customers and suppliers are kept confidential, the computers and servers are protected from access passwords. As stipulated in the Group's Code of Conduct on ethical policy, employees are instructed of their responsibility to ensure data is collected, used, maintained, managed, stored and handled properly and secured appropriately.

3.7 Anti-Corruption

The Group commits to manage all business without undue influence and has regarded honesty, integrity, and fairness as its core values. All directors and factory employees are required to strictly follow the Code of Conduct and Group's policy to prevent potential bribery, extortion and fraud.

3.7.1 Preventive Measures

The Group encourages whistleblowing whereas an employee or a third party could report any concern about suspected misconduct, malpractice or irregularity, and conflict of interest in strict confidence.

During the reporting period, communication was performed to ensure employees understand the Group's Code of Conduct and there were no related legal cases concluded against the Group.

3.8 Community Investment

This year marked our continuous effort on trade union movement in the society. The Group has been working closely with various stakeholders and community.

4. CONSIDERING THE FUTURE DIRECTION FROM THE GROUP

The Group will continue actively sourcing energy-saving appliances, equipment and materials with careful selection and review of suppliers and their origins. Opportunities to provide more training and development in terms of raising staff's awareness on environmental and social impacts from the business will also be considered. The review of resource use will be adapted to make the businesses more sustainable as well as having greater capability to attractive future talents.

The Directors of the Company have pleasure in presenting their annual report together with the audited consolidated financial statements of the Company for the year ended 31st December, 2018.

PRINCIPAL ACTIVITIES AND GEOGRAPHICAL ANALYSIS OF OPERATIONS

The principal activity of the Company is investment holding.

The principal activities of its subsidiaries are manufacturing and trading of toys and lighting products. The activities of its principal subsidiaries are set out in note 38 to the consolidated financial statements. An analysis of the Group's performance for the year by operating segment is set out in note 5 to the consolidated financial statements.

MAJOR CUSTOMERS AND SUPPLIERS

The five largest customers of the Group together accounted for approximately 80.0% of the Group's turnover, with the largest customer accounted for approximately 59.1%. The aggregate purchases attributable to the Group's five largest suppliers were approximately 33.4% of total purchases of the Group, with the largest supplier accounted for approximately 16.5%.

At no time during the year did any Director, any associate of a Director, or any shareholder, which to the knowledge of the Directors owned more than 5% of the Company's share capital, have any beneficial interests in these customers or suppliers.

RESULTS AND APPROPRIATIONS

The results of the Group for the year ended 31st December, 2018 are set out in the consolidated statement of profit or loss and other comprehensive income on page 65.

During the year, the Company has paid 2017 final dividend of HK5 cents per share and the Directors have declared 2018 interim dividend of HK5 cents per share. Both 2017 final dividend and 2018 interim dividend were paid by cash. The total cash dividend paid during the year was approximately HK\$75,620,000.

The Directors now recommend the payment of a final dividend of HK5 cents per share amounting to approximately HK\$37,810,000, to the shareholders on the register of members on 16th May, 2019 payable in cash. The remaining distribution reserves in the Company amounted to approximately HK\$456,748,000.

DIVIDEND POLICY

The Board may propose the payment of dividends, if any, with respect to the Company's shares on a per Share basis. Any dividend for a financial year shall be subject to shareholders' approval. Under the Company Law and the Company Bye-Laws, all of the Company's shareholders have equal rights to dividends and distributions. The declaration of dividends is subject to the discretion of the Board, which the Company expects will take into account one or more of the factors when considering the payment of dividends as stated in the Corporate Governance Report in this report.

SHARE ISSUED IN THE YEAR

Details of the shares issued in the year ended 31st December, 2018 are set out in note 21 to the consolidated financial statements.

PURCHASE, SALE OR REDEMPTION OF SECURITIES

During the year, neither the Company nor any of its subsidiaries purchased, redeemed or sold any of the listed shares of the Company.

DISTRIBUTION RESERVES

Distribution reserves of the Company at 31st December, 2018, calculated under the Companies Act 1981 of Bermuda (as amended), amounted to approximately HK\$494,558,000 (2017: HK\$350,829,000).

The contributed surplus of the Company represents the difference between the nominal amount of the share capital issued by the Company and the book value of the underlying consolidated net tangible assets of subsidiaries acquired as a result of a group reorganisation.

Under the Companies Act 1981 of Bermuda (as amended), the contributed surplus account of the Company is available for distribution. However, the Company cannot declare or pay a dividend, or make a distribution out of contributed surplus if:

- (a) it is, or would after the payment be, unable to pay its liabilities as they become due; or
- (b) the realisable value of its assets would thereby be less than the aggregate of its liabilities and its issued share capital and share premium accounts.

DEBENTURES/EQUITY LINKED AGREEMENTS

No debentures or equity linked agreements were issued during the year.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's Bye-laws and there was no restriction against such rights under the laws of Bermuda, which would oblige the Company to offer new shares on a prorata basis to existing shareholders.

MANAGEMENT CONTRACTS

During the year, no contracts concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or existed.

FIVE YEAR FINANCIAL SUMMARY

A summary of the results and of the assets and liabilities of the Group for the last five financial years is set out on page 158.

DIRECTORS

The Directors of the Company during the year and up to the date of this report are:

Executive Directors:

Cheng Yung Pun (Chairman) Cheng King Cheung Tsang Chung Wa Tse Kam Wah Yu Sui Chuen Yip Hiu Har (appointment effective on 1st April, 2018) Leung Hong Tai (resignation effective on 1st April. 2018)

Independent non-executive Directors:

Loke Yu alias Loke Hoi Lam Mak Shiu Chung, Godfrey Wan Hing Pui Heng Victor Ja Wei

OTHER INFORMATION OF DIRECTORS

In the last three years, Dr. Loke Yu alias Loke Hoi Lam, independent non-executive Director ("INED") of the Company, was appointed as INED of Forebase International Holdings Limited (a company listed on the Stock Exchange) with effect from 18th April, 2016, INED of Hang Sang (Siu Po) International Holding Company Limited (a company listed on the Stock Exchange) with effect from 17th May, 2016, INED of Hong Kong Resources Holdings Company Limited (a company listed on the Stock Exchange) with effect from 31st May 2017, INED of Zhenro Properties Group Limited with effect from 16th January, 2018, INED of TC Orient Lighting Holdings Limited with effect from 6th August, 2018 and INED of TradeGo FinTech Limited with effect on 29th August, 2018.

Dr. Loke resigned as INED of Mega Medical Technology Limited (formerly known as Wing Tai Investment Holdings Limited and Wing Lee Holdings Limited) (a company listed on the Stock Exchange) on 11th January, 2017, resigned as INED of Winfair Investment Company Limited (a company listed on the Stock Exchange) on 3rd April, 2018, resigned as INED of Shenzhou Space Park Group Limited (formerly known as China Household Holdings Limited) (a company listed on the Stock Exchange) on 6th August, 2018, resigned as INED of Scud Group Limited (a company listed on the Stock Exchange)on 27th September 2018, resigned as INED of China Beidahuang Industry Group Holdings Limited on 1st November, 2018 and resigned as company secretary of Minth Group Limited, a company listed on the Stock Exchange with effect from 8th February 2018.

In addition, in the last three years, Mr. Heng Victor Ja Wei, INED of the Company, was appointed as INED of SCUD Group Limited (a company listed on the Stock Exchange) with effect from 1st September, 2016 and as INED of Daohe Global Group Limited (a company listed on the Stock Exchange) with effect from 11th August, 2016; however, he has resigned on 11th January, 2017.

Save as disclosed above, there is no information required to be disclosed pursuant to the Rule 13.51(B)(1) of the Listing Rules.

(a) Directors' and chief executive's emoluments

The emoluments paid or payable to each of the eleven (2017: twelve) Directors and one (2017: one) chief executive are as follows:

DIRECTORS' SERVICE CONTRACTS

In accordance with clause 99 of the Bye-laws of the Company, Mr. Cheng King Cheung, Mr. Tsang Chung Wa, Mr. Mak Shiu Chung, Godfrey and Mr. Heng Victor Ja Wei, who have been longest in office since their last elections and will retire by rotation at the AGM.

The retiring have indicated that they will offer themselves to be eligible for re-election at the AGM. Separate resolution will be proposed at 2019 annual general meeting for the re-election of Mr. Mak Shiu Chung, Godfrey being INED for more than 9 years.

The term of office of each independent non-executive Director is the period up to his retirement by rotation in accordance with the Company's Bye-laws.

None of the Directors being proposed for re-election at the forthcoming annual general meeting has a service contract which is not determinable by the Company within one year without payment of compensation, other than statutory compensation.

The Company has received from each of the independent non-executive Directors, the annual confirmation of his independence pursuant to Rule 3.13 of the Listing Rules on the Stock Exchange. The Company considers all of the independent non-executive Directors are independent.

DIRECTORS'/CONTROLLING SHAREHOLDERS' MATERIAL INTERESTS IN TRANSACTIONS, ARRANGEMENTS AND CONTRACTS THAT ARE SIGNIFICANT IN RELATION TO THE COMPANY'S BUSINESS

Details of related party transactions during the year are set out in note 37 to the consolidated financial statements.

Save as disclosed above, no other transactions, arrangements and contracts of significance in relation to the Group's business to which the Company's subsidiaries, fellow subsidiaries or its parent company was a party and in which a director of the Company and directors' connected party had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

DIRECTORS' INTERESTS IN COMPETING BUSINESS

None of the Directors have any interests in competing business to the Group.

DIRECTORS' AND CHIEF EXECUTIVES' INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES OF THE COMPANY OR ANY SPECIFIED UNDERTAKING OF THE COMPANY OR ANY OTHER ASSOCIATED CORPORATION

As at 31st December, 2018, the interests and short positions of the Directors and chief executives and their respective associates in the shares, underlying shares and debentures of the Company and its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance ("SFO")) as recorded in the register maintained by the Company pursuant to Section 352 of the SFO, or which were otherwise required to be notified to the Company and the Stock Exchange, pursuant to the Model Code for Securities Transactions by Directors of the Listing Companies were as follows:

(a) Long Positions in Ordinary Shares of the Company Ordinary Shares of HK\$0.10 each of the Company

Name of Director/ chief executive officer		Personal Interests	Family Interests	Corporate Interests (Note)	Other Interests	Total	% of the issued share capital of the Company
Cheng Yung Pun (Director)	Long position	-	-	548,573,569	-	548,573,569	72.54%
Cheng King Cheung (Director)	Long position	2,052,000	-	-	-	2,052,000	0.27%
Tsang Chung Wa <i>(Director)</i>	Long position	4,108,251	-	-	-	4,108,251	0.54%
Tse Kam Wah (Director)	Long position	4,200,000	-	-	-	4,200,000	0.56%
Yu Sui Chuen <i>(Director)</i>	Long position	340,000	-	-	-	340,000	0.04%
Yip Hiu Har (<i>Director</i>) (appointment effective on 1st April, 2018)	Long position	200,000	-	_	_	200,000	0.03%
Chen Wei Qing (Chief Executive Officer)	Long position	3,980,000	-	-	-	3,980,000	0.53%

Note:

The shares are held by Smart Forest Limited ("Smart Forest"), a company incorporated in the British Virgin Islands. The entire issued share capital of Smart forest is wholly owned by Mr. Cheng Yung Pun.

DIRECTORS' AND CHIEF EXECUTIVES' INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES OF THE COMPANY OR ANY SPECIFIED UNDERTAKING OF THE COMPANY OR ANY OTHER ASSOCIATED CORPORATION (Continued)

(a) Long Positions in Ordinary Shares of the Company (Continued) Share Option

		Number	or underlying .		to the shut	c options

			(Note 1)					6th August 2020
	2017b	-	2,600,000	_	-	2,600,000	3.050	13th August 2017 to
			(Note 2)					13th August 2020
Total Employees		-	26,600,000	_	_	26,600,000		

Number of underlying shares attached to the share options

Notes:

- (1) The 24,000,000 underlying shares (representing approximately 3.17% of issued share capital of the Company) in respect of share options were granted on 8th May, 2017 pursuant to the Company's share option scheme.
- (2) The 2,600,000 underlying shares (representing approximately 0.34% of issued share capital of the Company) in respect of share options were granted on 15th May, 2017 pursuant to the Company's share option scheme.

The closing prices of the Company's shares on 8th May, 2017 and 15th May, 2017, the dates of grant of the options type of 2017a and 2017b were HK\$3.05 and HK\$2.95 respectively.

Details of specific category of share options are as follows:

Option Type	Date of grant	Vesting period	Exercise period	Exercise price
2017a	8th May, 2017	90 days	6th August 2017 to 6th August 2020	HK\$3.138
2017b	15th May, 2017	90 days	13th August 2017 to 13th August 2020	HK\$3.050

During the year ended 31st December, 2018, the options carry right to subscribe for a total of 26,600,000 shares had been granted on 8th May, 2017 and 15th May, 2017, respectively.

The fair value was calculated using the Binomial Option pricing model. The inputs into the model are as follows:

Option Type	2017a	2017b
Weighted average share price	HK\$3.050	HK\$2.950
Exercise price	HK\$3.138	HK\$3.050
Expected volatility	46.97%	46.57%
Expected life	3.2 years	3.2 years
Risk-free rate	0.94%	0.89%
Expected dividend yield	3.96%	3.97%

Expected volatility was determined by using the historical volatility of the Company's share price over the previous three years.

Because the Binomial Option pricing model requires the input of highly subjective assumptions, including the volatility of share price, changes in subjective input assumptions can materially affect the fair value estimate.

The fair value of services received under an equity-settled share-based payment arrangement is determined by reference to the fair value of share options granted at the grant date and is expensed on a straight-line basis over the vesting period, with a corresponding increase in equity (share options reserve). Details of the accounting policy for equity-settled shared-based payment transactions are set out in note 3 of the Group's financial statements.

Save as disclosed above, none of the Directors, chief executives nor their respective associates had any interests or short positions in any shares, underlying shares or debentures of the Company or any specified undertaking of the Company or any other associate corporation as at 31st December, 2018.

ARRANGEMENTS TO PURCHASE SHARES AND DEBENTURES

Other than as disclosed in the section "Directors and Chief Executives' Interests and Short Positions in Shares, Underlying shares and Debentures of the Company or any specified undertaking of the Company or any other associated corporation", at no time during the year was the Company, its holding company, or any of its subsidiaries or fellow subsidiaries, was a party to any arrangements to enable the directors of the Company and their associates to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

SUBSTANTIAL SHAREHOLDERS

As at 31st December, 2018, the register of substantial shareholders maintained by the Company pursuant to Section 336 of the SFO shows that the following shareholders had notified the Company of relevant interests and short positions in the issued share capital of the Company:

(a) Long Positions in Ordinary Shares of the Company Ordinary Shares of HK\$0.10 each of the Company

			Percentage of
		Number of	the issued
		issued ordinary	share capital of
Name of shareholder	Capacity	shares held	the Company

Note:

(1) Smart Forest, a company incorporated in the British Virgin Island which is wholly owned by Mr. Cheng Yung Pun, director of the Company.

Other than as disclosed above, the Company has not been notified of any other relevant interests or short positions in the issued share capital of the Company as at 31st December, 2018.

SHARE OPTION SCHEME

The key terms of the share option scheme of the Company adopted on 4th May, 2012 (the "2012 Share Option Scheme") are summarised herein below:

- (i) The purpose of the 2012 Share Option Scheme is to enable the Company to grant options to selected eligible participants as incentives and rewards for their contribution to the Company or its subsidiaries;
- (ii) The eligible participants of the 2012 Share Option Scheme include any full-time employees, executives or officers, directors of the Company or any of the subsidiaries and any suppliers, consultants, agents or advisers who have contributed to the Group;
- (iii) As at 31st December, 2018, the total number of shares available for issue of option under the 2012 Share Option Scheme was 45,264,731 shares (after the 2012 Share Option Scheme adopted on 2012 annual general meeting held on 4th May, 2012 and grant of share options), which representing 6.00% of the issued share capital of the Company;

- (iv) The maximum number of Shares which may be issued upon exercise of all options to be granted under the 2012 Share Option Scheme and any other share option scheme(s) of the Company must not exceed 10% of the Shares in issue ("2012 Scheme Limit") as at the date approving the adoption of 2012 Share Option Scheme in the 2012 AGM. Options lapsed in accordance with the terms of such share option scheme(s) will not be counted for the purpose of the 10% limit, unless approval from the Company's shareholders has been obtained for refreshing the 2012 Scheme Limit provided that such limit as refreshed shall not exceed 10% of the Shares in issue as at the date of such shareholders' approval. Notwithstanding the foregoing, the Shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the 2012 Share Option Scheme and any other share option scheme(s) of the Company at any time shall not exceed 30% of the Shares in issue from time to time. No options may be granted under any scheme(s) of the Company or any of its subsidiaries if this will result in the 30% limit being exceeded;
- (v) The maximum number of Shares which may be issued upon exercise of all options to be granted under the 2012 Share Option Scheme and any other share option scheme(s) of the Company (including both exercised and outstanding options) to each Eligible participant in any 12-month period up to the date of grant shall not exceed 1% of the Shares in issue as at the date of grant. Any further grant of options in excess of this 1% limit shall be subject to the issue of a circular by the Company and the approval of the Shareholders in general meeting with such eligible participant and his associates abstaining from voting. Any grant of options to a substantial Shareholder (as defined in the Listing Rules) of the Company or any the independent non-executive Director or their respective associates which result in the number of Shares issued and to be issued upon exercise of options already granted and to be granted (including options exercised, cancelled and outstanding) to such person under this Scheme and the other schemes in the 12-month period up to and including the date of offer of such grant (a) representing in aggregate over 0.1% of the Shares in issue on the date of offer; and (b) having an aggregate value, based on the closing price of the Shares as stated in the daily quotation sheets of the Stock Exchange on each date of offer, in excess of HK\$5 million, such further grant of options shall be subject to the approval of the Shareholders of the Company in general meeting on a poll at which all connected persons (as defined in the Listing Rules) of the Company shall abstain from voting in favour at such general meeting;
- (vi) There is no general requirement that an option must be held for any minimum share period before it can be exercised but the Board is empowered to impose at its discretion any such minimum period at the time of grant of any particular option. The period during which an option may be exercised will be determined by the Board at its absolute discretion, save that no option may be exercised more than 10 years after it has been granted. The Board has the discretion to require a particular grantee to achieve certain performance targets specified at the time of grant before any option granted under the 2012 Share Option Scheme can be exercised. There is no specific performance targets stipulated under the terms of the 2012 Share Option Scheme;
- (vii) An offer for the grant of options must be accepted within 28 days after the option is offered to the relevant Grantee. The amount payable to the Company on acceptance of the offer of the grant of an option is HK\$1.00 which is non-refundable;

- (viii) The subscription price payable upon exercising any particular option granted under the Scheme is determined based on a formula: P = N x Ep, where "P" is the subscription price; "N" is the number of shares to be subscribed; and "Ep" is the exercise price for a Share in respect of any particular option granted under the 2012 Share Option Scheme (which shall be payable upon exercise of the option) shall be such price as the Board in its absolute discretion shall determine, save that such price will not be less than the highest of (a) the closing price of the Shares as stated in the daily quotation sheets of the Stock Exchange on the date of offer, which must be a business day (and for this purpose shall be taken to be the date of the Board meeting at which the Board proposes to grant the options); (b) the average closing price of the Shares as stated in the daily quotation sheets Days immediately preceding the date of offer; and (c) the nominal value of a Share, and as adjusted pursuant to the clauses of the 2012 Share Option Scheme; and
- (ix) The life of the Scheme is until the tenth anniversary of the adoption date of the Scheme.

During the year under review, options which have been granted and carry rights to subscribe for 26,600,000 shares, representing 3.52% (31st December, 2017: 3.52%) of the shares in issue at that date, remain outstanding. As at 31st December, 2018 and as at the latest practicable date prior to the issue of the annual report, no options have been exercised, cancelled or lapsed (31st December, 2017: nil share).

The details of the share options were disclosed in the Section "Directors' and Chief Executives' Interests and Short Positions in Shares, Underlying Shares and Debentures of the Company or any specified undertaking of the Company or any other associated corporation".

EMOLUMENT POLICY

A Remuneration Committee is set up for reviewing the Group's emolument policy and structure for all remuneration of the directors and senior management of the Group, having regard to the Group's operating results, individual performance and comparable market statistics.

The Company has adopted a share option scheme as incentive to directors and eligible employees, details of the scheme is set out as "Share Option Scheme" above.

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE (THE "CG CODE")

The Board has adopted a new corporate governance code (the "CG Code") and amended it on 31st December, 2018, which is based on the principles set out in Appendix 14 (the "HKEx Code") to the Listing Rules on the Stock Exchange.

None of the directors of the Company is aware of information that would reasonably indicate the Company is not or was not for any part of the period under review, in compliance with the HKEx Code and CG Code except for the deviation from code provision A.4.1 that none of the existing non-executive directors of the Company is appointed for a specific term. However, as all the non-executive directors of the Company (including independent non-executive) are subject to retirement provision under the Company's Bye-laws, the Company considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are no less exacting than those in the HKEx Code and CG Code as well.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the Directors, it is confirmed that there is sufficient public float of at least 25% of the Company's issued shares at the latest practicable date prior to the issue of the annual report.

OTHER REQUIRED DISCLOSURE PURSUANT TO RULE 13.18 OF THE LISTING RULES

With regard to the facilities of up to an aggregate extent of HK\$70,000,000 granted to the three indirect whollyowned subsidiaries of the Company by a bank in Hong Kong (the "Bank-HK"), the Company has received three facility letters in which the terms and conditions of two of the facilities letters included, inter alia, a condition to the effect that Mr. Cheng Yung Pun (a controlling shareholder of the Company) should maintain not less than 51% of shareholding (whether directly or indirectly) of the Company. If a breach of the above condition that will constitute an event of default under the revised facilities, the Bank-HK will discuss for remedy actions including obtaining waiver for the breach or seeking for any viable solutions or alternatives. Nevertheless, the revised facilities will be uncommitted lines and the Bank-HK reserves the right to request repayment on demand.

AUDITOR

The financial statements have been audited by Deloitte Touche Tohmatsu who retire and, being eligible, offer themselves for re-appointment.

By order of the Board Cheng Yung Pun Chairman

Hong Kong, 21st March, 2019

Deloitte.

TO THE SHAREHOLDERS OF MATRIX HOLDINGS LIMITED

美力時集團有限公司 (incorporated in Bermuda with limited liability)

OPINION

We have audited the consolidated financial statements of Matrix Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 65 to 157, which comprise the consolidated statement of financial position as at 31st December, 2018, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31st December, 2018, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's "Code of Ethics for Professional Accountants" (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

Impairment of goodwill of distribution of toys

We identified impairment assessment of goodwill arising from acquisition of business in relation to distribution of toys in prior year as a key audit matter due to significant judgements and assumptions in determining the recoverable amount of cashgenerating units ("CGU") to which goodwill has been allocated.

As disclosed in notes 4 and 16 to the consolidated financial statements, as at 31st December, 2018, the Group had goodwill of HK\$96,822,000 relating to the acquisition of Funrise Holdings, LLC, Funrise, Inc. and Code 3 Collectibles LLC (together referred to as "Funrise Group") in 2007. Funrise Group is engaged mainly in the wholesale distribution and importation of toy and sales of accessories connected with its products ranges in the United States of America.

The management has performed annual impairment assessment on goodwill allocated to the CGU by assessing the recoverable amount which were determined based on the value in use calculation. In estimating the value in use of the CGUs, key assumptions used by the management included discount rate and future revenue growth.

How our audit addressed the key audit matter

Our procedures in relation to the impairment of goodwill of distribution of toys included:

- Evaluating the valuation methodology and assessing the reasonableness of key assumptions in relation to the management's impairment assessment;
- Evaluating the historical accuracy of cash flow forecast by comparing them to the actual result of this CGU in the current year;
- Assessing the key factors in determining the discount rate, including the Group's debt and equity ratio, return on investments and other risk factors, and comparing to discount rates adopted in similar industry for reasonableness; and
- Evaluating the reasonableness of and reperforming the sensitivity analysis provided by the management of the Group to assess the extent of impact on the value in use.

KEY AUDIT MATTERS (Continued)

Key audit matter

Impairment of other non-current assets

We identified impairment assessment of other non-current assets arising from disposal of a then indirectly wholly owned subsidiary in previous year as a key audit matter due to the involvement of significant judgements and assumptions in determining the recoverable amount.

As disclosed in notes 4 and 17 to the consolidated financial statements, as at 31st December, 2018, the Group had other non-current assets of HK\$186,000,000 which represented the fair value, at the date of the disposal of the right to receive the residential properties to be received in 2020 as part of the consideration from the disposal of an indirectly wholly owned subsidiary in July 2015. The carrying amount of the other non-current assets is subject to the recoverability assessment.

The right to receive the residential properties is related to a redevelopment project that transform certain industrial area into residential area. Significant management judgement was involved in assessing the recoverability of the other non-current assets based on the status of development of the redevelopment project and the latest market value of the residential properties upon completion.

How our audit addressed the key audit matter

Our procedures in relation to the impairment assessment of other non-current assets included:

- Evaluating the management's impairment assessment on the residential properties to be received by checking the progress of government approval on the change of land use rights from industrial purpose to residential purpose;
- Checking the project status report provided by the third party property developer; and
- Evaluating the management's valuation assessment on the residential properties to be received by comparing the projected market price with the latest market price of comparable residential properties in the area.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Wong Wang Hei.

For the year ended 31st December, 2018

1. GENERAL INFORMATION

Matrix Holdings Limited (the "Company") and its subsidiaries (together, the "Group") are principally engaged in the manufacturing and trading of toys and lighting products. The principal activities of the Company are investment holding and those of its principal subsidiaries are set out in Note 38.

The Company is an exempted limited liability company incorporated in Bermuda. The address of the registered office and principal place of business of the Company are disclosed in the corporate information of the annual report.

The Company has its primary listing on The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

These consolidated financial statements are presented in Hong Kong dollars ("HK\$"), unless otherwise stated.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

New and Amendments to HKFRSs that are mandatorily effective for the current year

The Group has applied the following new and amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") for the first time in the current year:

HKFRS 9	Financial Instruments
HKFRS 15	Revenue from Contracts with Customers and the related Amendments
HK(IFRIC) – Int 22	Foreign Currency Transactions and Advance Consideration
Amendments to HKFRS 2	Classification and Measurement of Share-based Payment Transactions
Amendments to HKFRS 4	Applying HKFRS 9 Financial Instruments with HKFRS 4 Insurance
	Contracts
Amendments to HKAS 28	As part of the Annual Improvements to HKFRSs 2014 – 2016 Cycle
Amendments to HKAS 40	Transfers of Investment Property

Except as described below, the application of the new and amendments to HKFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

For the year ended 31st December, 2018

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

2.1 HKFRS 15 "Revenue from Contracts with Customers"

The Group has applied HKFRS 15 for the first time in the current year. HKFRS 15 superseded HKAS 18 "Revenue", HKAS 11 "Construction Contracts" and the related interpretations.

The Group has applied HKFRS 15 retrospectively with the cumulative effect of initially applying this Standard recognised at the date of initial application, 1st January, 2018. Any difference at the date of initial application is recognised in the opening retained profits (or other components of equity, as appropriate) and comparative information has not been restated. Furthermore, in accordance with the transition provisions in HKFRS 15, the Group has elected to apply the Standard retrospectively only to contracts that are not completed at 1st January, 2018. Accordingly, certain comparative information may not be comparable as comparative information was prepared under HKAS 18 "Revenue" and HKAS 11 "Construction Contracts" and the related interpretations.

The Group recognises revenue from the manufacturing and trading of toys and lighting products. Revenue is generally recognised when control of the products has transferred, which is the point of time when the customer has the ability to direct the use of the products and obtain substantially all of the remaining benefits of the products, which also represented the point of time when goods delivered. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional, as only the passage of time is required before the payment is due.

Information about the Group's performance obligations and the accounting policies resulting from application of HKFRS 15 are disclosed in notes 5 and 3 respectively.

For the year ended 31st December, 2018

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

2.1 HKFRS 15 "Revenue from Contracts with Customers" (Continued) Summary of effects arising from initial application of HKFRS 15

The following adjustments were made to the amounts recognised in the consolidated statement of financial position at 1st January, 2018. Line items that were not affected by the changes have not been included.

	Carrying amounts previously			Carrying amounts under
		reported at		HKFRS 15 at
	31st December,			1st January,
	2017 Reclassification			2018*
	Note	HK\$'000	HK\$'000	HK\$'000

Note:

(a) As at 31st December, 2018, the adjustments relate to advances from customers of approximately HK\$3,664,000 in respect of sales contracts which are presented as contract liabilities upon the application of HKFRS 15.

For the year ended 31st December, 2018

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

2.2 HKFRS 9 "Financial Instruments"

In the current year, the Group has applied HKFRS 9 "Financial Instruments" and the related consequential amendments to other HKFRSs. HKFRS 9 introduces new requirements for 1) the classification and measurement of financial assets and financial liabilities, 2) expected credit losses ("ECL") for financial assets.

The Group has applied HKFRS 9 in accordance with the transition provisions set out in HKFRS 9, i.e. applied the classification and measurement requirements (including impairment under ECL model) retrospectively to instruments that have not been derecognised as at 1st January, 2018 (date of initial application) and has not applied the requirements to instruments that have already been derecognised as at 1st January, 2018. The difference between carrying amounts as at 31st December, 2017 and the carrying amounts as at 1st January, 2018 are recognised in the opening retained profits and other components of equity, without restating comparative information.

Accordingly, certain comparative information may not be comparable as comparative information was prepared under HKAS 39 "Financial Instruments: Recognition and Measurement".

Accounting policies resulting from application of HKFRS 9 are disclosed in note 3.

Summary of effects arising from initial application of HKFRS 9

The table below illustrates the classification and measurement of financial assets subject to ECL under HKFRS 9 and HKAS 39 at the date of initial application, 1st January, 2018.

		Financial assets at amortised cost (previously classified as	
		loans and	Retained
		receivables)	profits
	Note	HK\$'000	HK\$'000
Closing balance at 31st December, 2017			
– HKAS 39		287,510	765,334
Effect arising from initial application of HKFRS 9:			
Remeasurement			
Impairment under ECL model	(a)	(2,127)	(2,127)
Opening balance at 1st January, 2018		285,383	763,207

For the year ended 31st December, 2018

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

2.2 HKFRS 9 "Financial Instruments" (Continued)

Summary of effects arising from initial application of HKFRS 9 (Continued)

(a) Classification and measurement of financial assets

All financial assets continue to be measured on the same bases as were previously measured under HKAS 39. The application of HKFRS 9 in the current year has no material impact on the classification and measurement of financial assets.

(b) Impairment under ECL model

Except for those which had been determined as credit impaired under HKAS 39, trade receivables have been assessed individually with outstanding significant balances and collectively using a provision matrix for the remaining balances, which is grouped based on shared credit risk characteristics and the historical observed default rates adjusted for forward-looking estimates that is available without undue costs or effort.

Except for those which had been determined as credit impaired under HKAS 39, ECL for other financial assets at amortised cost, including other receivables and cash and cash equivalents, are assessed on 12-month ECL ("12m ECL") basis as there had been no significant increase in credit risk since initial recognition.

As at 1st January, 2018, additional credit loss allowance of HK\$2,127,000 has been recognised against retained profits. The additional loss allowance is charged against the respective trade receivables.

All loss allowances of trade receivables as at 31st December, 2017 reconciled to the opening loss allowances as at 1st January, 2018 are as follows:

	Trade receivables
	HK\$'000
At 31st December, 2017 – HKAS 39	8,047
Amounts remeasured through opening retained profits	2,127
At 1st January, 2018	10,174

For the year ended 31st December, 2018

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

2.3 Impacts on opening consolidated statement of financial position arising from the application of all new standards, amendments and interpretation

As a result of the changes in the Group's accounting policies above, the opening consolidated statement of financial position had to be restated. The following table show the adjustments recognised for each of the line items affected. Line items that were not affected by the changes have not been included.

	31st December, 2017 (Audited)	HKFRS 15	HKFRS 9	1st January, 2018 (Restated)
	HK\$'000	HK\$'000	HK\$'000	HK\$'000
Current Assets				
Trade receivables	287,510	-	(2,127)	285,383
Current Liabilities				
Trade and other payables				
and accruals	(213,235)	37,739	-	(175,496)
Contract liabilities		(37,739)	-	(37,739)
Capital and Reserves				
Retained profits	(765,334)	_	2,127	(763,207)

Note: For the purposes of reporting cash flows from operating activities under indirect method for the year ended 31st December, 2018, movements in working capital have been computed based on opening statement of financial position as at 1st January, 2018 as disclosed above.

For the year ended 31st December, 2018

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

New or revised standards and interpretations that have been issued but not yet effective

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

HKFRS 16	Leases ¹
HKFRS 17	Insurance Contracts ³
HK(IFRIC) – Int 23	Uncertainty over Income Tax Treatments ¹
Amendments to HKFRS 3	Definition of a Business ⁴
Amendments to HKFRS 9	Prepayment Features with Negative Compensation ¹
Amendments to HKFRS 10 and	Sale or Contribution of Assets between an Investor and
HKAS 28	its Associate or Joint Venture ²
Amendments to HKAS 1 and	Definition of Material ⁵
HKAS 8	
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement ¹
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures ¹
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015 – 2017 Cycle ¹

¹ Effective for annual periods beginning on or after 1st January, 2019

² Effective for annual periods beginning on or after a date to be determined

³ Effective for annual periods beginning on or after 1st January, 2021

⁴ Effective for business combinations and asset acquisitions for which the acquisition date is on or after the beginning of the first annual period beginning on or after 1st January, 2020

⁵ Effective for annual periods beginning on or after 1st January, 2020

Except for the new and amendments to HKFRSs mentioned below, the directors of the Company anticipate that the application of all other new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

HKFRS 16 "Leases"

HKFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. HKFRS 16 will supersede HKAS 17 "Leases" and the related interpretations when it becomes effective.

HKFRS 16 distinguishes lease and service contracts on the basis of whether an identified asset is controlled by a customer. In addition, HKFRS 16 requires sales and leaseback transactions to be determined based on the requirements of HKFRS 15 as to whether the transfer of the relevant asset should be accounted as a sale. HKFRS 16 also includes requirements relating to subleases and lease modifications.

For the year ended 31st December, 2018

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued) HKFRS 16 "Leases" (Continued)

Distinctions of operating leases and finance leases are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees, except for short-term leases and leases of low value assets.

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. For the classification of cash flows, the Group currently presents upfront prepaid lease payments as investing cash flows in relation to leasehold lands for owned use while other operating lease payments are presented as operating cash flows. Upon application of HKFRS 16, lease payments in relation to lease liability will be allocated into a principal and an interest portion which will be presented as financing cash flows by the Group.

Under HKAS 17, the Group has already recognised an asset and a related finance lease liability for finance lease arrangement and prepaid lease payments for leasehold lands where the Group is a lessee. The application of HKFRS 16 may result in potential changes in classification of these assets depending on whether the Group presents right-of-use assets separately or within the same line item at which the corresponding underlying assets would be presented if they were owned.

Other than certain requirements which are also applicable to lessor, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17, and continues to require a lessor to classify as an operating lease on a finance lease.

Furthermore, extensive disclosures are required by HKFRS 16.

As at 31st December, 2018, the Group has non-cancellable operating lease commitments of HK\$84,637,000 (2017: HK\$71,299,000) as disclosed in note 32. A preliminary assessment indicates that these arrangements will meet the definition of a lease. Upon application of HKFRS 16, the Group will recognise a right-of-use asset and a corresponding liability in respect of all these leases unless they qualify for low value or short-term leases.

For the year ended 31st December, 2018

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued) HKFRS 16 "Leases" (Continued)

In addition, the Group currently considers refundable rental deposits paid of HK\$4,210,000 (2017: HK\$3,670,000) as rights and obligations under leases to which HKAS 17 applies. Based on the definition of lease payments under HKFRS 16, such deposits are not payments relating to the right to use the underlying assets, accordingly, the carrying amounts of such deposits may be adjusted to amortised cost and such adjustments are considered as additional lease payments. Adjustments to refundable rental deposits paid would be considered as additional lease payments and included in the carrying amount of right-of-use assets.

The application of new requirements may result in changes in measurement, presentation and disclosure as indicated above. The Group intends to elect the practical expedient to apply HKFRS 16 to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 Determining whether an Arrangement contains a Lease and not apply this standard to contracts that were not previously identified as containing a lease applying HKAS 17 and HK(IFRIC)-Int 4. Therefore, the Group will not reassess whether the contracts are, or contain a lease which already existed prior to the date of initial application. Furthermore, the Group intends to elect the modified retrospective approach for the application of HKFRS 16 as lessee and will recognise the cumulative effect of initial application to opening retained profits without restating comparative information.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules") and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 "Share-based Payment", leasing transactions that are within the scope of HKAS 17 "Leases", and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 "Inventories" or value in use in HKAS 36 "Impairment of Assets".

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Basis of consolidation (Continued)

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-makers. The chief operating decision-makers, who are responsible for allocating resources and assessing performance of the operating segments, has been identified collectively as the executive directors of the Company (the "Executive Directors") who make strategic decisions.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Foreign currency translation Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in HK\$, which is the Company's functional and the Group's presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

All other foreign exchange gains or losses are presented in the profit or loss within 'other gains and losses'.

Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each profit or loss are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- all resulting currency translation differences are recognised in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Currency translation differences arising are recognised in other comprehensive income.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue from contracts with customers (upon application of HKFRS 15 in accordance with transitions in note 2)

Under HKFRS 15, the Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

Revenue recognition (prior to 1st January, 2018)

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods supplied, stated net of discounts, returns and value added taxes. The Group recognises revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity and when specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates of return on historical results, taking into consideration the type of customers, the type of transaction and the specifics of each arrangement.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Revenue recognition (prior to 1st January, 2018) (Continued)

Sales of goods are recognised when a Group entity has delivered products to the customer, the customer has accepted the products and collectability of related receivables is reasonably assured.

Interest income is recognised using the effective interest method.

Property, plant and equipment

Buildings comprise mainly factories and offices. Property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repair and maintenance are charged to the consolidated statement of profit or loss and other comprehensive income during the financial period in which they are incurred.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include professional fees. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Property, plant and equipment commence depreciation from the time the assets become available for their intended use. Depreciation is calculated using the straight-line method to allocate their cost to their residual values, where appropriate, over their estimated useful lives, as follows:

Buildings	25 – 50 years or over the lease term, if shorter
Leasehold improvements	10 years or over the lease term, if shorter
Plant and machinery	5 – 10 years
Moulds	3 – 10 years
Others	3 – 10 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each statement of financial position date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing net proceeds with carrying amount of the relevant assets and are included in the profit or loss.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Intangible assets Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired business at the date of acquisition. Goodwill on acquisition of business is included in intangible assets.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs"), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

Customer base

Definite-lived intangible assets including customer base are acquired in a business combination, recognised at its fair value at the acquisition date, and are being amortised over the estimated useful lives using the straight-line method. The estimated useful life of the customer base is 6 years.

Patents

Patents with definite useful lives are acquired from third parties and are recognised at costs less accumulated amortisation and any accumulated impairment losses. They are being amortised over the estimated useful lives using the straight-line method. The estimated useful lives of the patents are 7–18 years.

Trademark

Trademark with indefinite useful life is acquired from third parties and is recognised at cost less any accumulated impairment loss.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Intangible assets (Continued) *TV programs/TV programs under production*

TV programs represents certain costs in connection with the development, production and distribution of a children's animated television series which the original characters will be used in toys markets. TV programs are stated at cost less accumulated amortisation and any impairment losses. TV programs, less estimated residual value and accumulated impairment losses, are amortised based on the proportion of actual revenues earned during the year to total estimated projected revenues. Cost of TV programs, accounted for on a project-by-project basis, includes production costs, costs of services, direct labour costs, facilities and raw materials consumed in the creation of TV program.

TV programs under production include production costs, costs of services, direct labour costs, facilities and raw materials consumed in the creation of TV programs. Upon completion and release, the TV programs under production are reclassified as TV program products. TV programs under production are accounted for on a project-by-project basis and are stated at cost less any impairment losses.

An impairment loss is made if there has been a change in the estimates used to determine the recoverable amount and the carrying amount exceeds the recoverable amount.

Impairment of non-financial assets

Assets that have an indefinite useful life – for example, goodwill or intangible assets not ready to use – are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows. Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the first-infirst-out method. The cost of finished goods and work in progress comprises design costs, raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

Trade and other receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for impairment.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Other non-current assets

The other non-current assets is initially recognised at its fair value and subsequently carries at cost less impairment.

Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction from the proceeds.

Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

Borrowings costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Current and deferred income tax

The tax expense for the year comprises current and deferred tax. Tax is recognised in the profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Current income tax

The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the statement of financial position date in the countries where the Company's subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax

Inside basis differences

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Outside basis differences

Deferred income tax liabilities are provided on taxable temporary differences arising from investments in subsidiaries, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Only where there is an agreement in place that gives the Group the ability to control the reversal of the temporary difference not recognised.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilised.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Current and deferred income tax (Continued) Offsetting

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Employee benefits

Employee leave entitlements

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the statement of financial position date.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

Bonus plans

Provisions for bonus plans due wholly within 12 months after the end of the reporting period are recognised where contractually obliged or where there is a past practice that has created a constructive obligation.

Pension obligations

The Group maintains a number of defined contribution plans in the countries in which it operates. The assets of the retirement benefit are generally held in separate trustees-administered funds or insurance companies. The retirement plans are generally funded by payments from employees and by the Group.

A defined contribution plan is a pension plan under which the Group pays fixed contributions into a separate entity. The Group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

The Group pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Share-based compensations

The Group operates a share-based compensation plan, under which the entity receives services from employees as consideration for share options of the Group. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed is determined by reference to the fair value of the options granted, including any market performance conditions and excluding the impact of any service and non-market performance vesting conditions (for example, profitability, sales growth targets and years of service of employees).

Non-market performance and service conditions are included in assumptions about the number of options that are expected to vest. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied.

In addition, in some circumstances employees may provide services in advance of the grant date and therefore the grant date fair value is estimated for the purposes of recognising the expense during the period between service commencement period and grant date.

At the end of each reporting period, the Group revises its estimates of the number of options that are expected to vest based on the non-market performance and service conditions. It recognises the impact of the revision of original estimates, if any, in the profit or loss.

The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs (see the accounting policy above). Contingent rentals are recognised as expenses in the periods in which they are incurred.

Operating lease payments, including the cost of acquiring land held under operating leases, are recognised as an expense on a straight-line basis over the lease term. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis.

Dividend distributions

Dividend distributions to the Company's shareholders are recognised as a liability in the consolidated and the Company's statement of financial position in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Financial instruments (Continued)

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15 since 1st January, 2018. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets (upon application of HKFRS 9 in accordance with transitions in note 2)

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Financial instruments (Continued) Financial assets (Continued)

Classification and subsequent measurement of financial assets (upon application of HKFRS 9 in accordance with transitions in note 2) (Continued)

All other financial assets are subsequently measured at fair value through profit or loss, except that at the date of initial application/initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 "Business Combinations" applies.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit– impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

Impairment of financial assets (upon application HKFRS 9 with transitions in accordance with note 2)

The Group recognises a loss allowance for ECL on financial assets which are subject to impairment under HKFRS 9 (including trade receivables and other financial assets at amortised cost). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables. The ECL on trade receivables are assessed individually for debtors with significant balances and collectively using a provision matrix for the remaining balances based on its historical observed default rates which is adjusted for forward-looking estimates.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Financial instruments (Continued) Financial assets (Continued)

Impairment of financial assets (upon application HKFRS 9 with transitions in accordance with note 2) (Continued)

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Financial instruments (Continued) Financial assets (Continued)

Impairment of financial assets (upon application HKFRS 9 with transitions in accordance with note 2) (Continued)

(i) Significant increase in credit risk (Continued)

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Financial instruments (Continued) Financial assets (Continued)

Impairment of financial assets (upon application HKFRS 9 with transitions in accordance with note 2) (Continued)

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables where the corresponding adjustment is recognised through a loss allowance account.

Classification and subsequent measurement of financial assets (before application of HKFRS 9 on 1st January, 2018)

Financial assets are classified as loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Financial instruments (Continued) Financial assets (Continued)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including trade and other receivables and cash and cash equivalents) are measured at amortised cost using the effective interest method, less any impairment (see accounting policy on impairment of financial assets below).

Interest income is recognised by applying the effective interest rate, except for short term receivables where the recognition of interest would be immaterial.

Impairment of financial assets (before application of HKFRS 9 on 1st January, 2018)

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the financial assets have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial assets, such as trade receivables, assets are assessed for impairment on a collective basis even if they were assessed not to be impaired individually. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit periods, observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Financial instruments (Continued) Financial assets (Continued)

Impairment of financial assets (before application of HKFRS 9 on 1st January, 2018) (Continued)

The carrying amount of the financial assets is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group continues to recognises its retained interest in the asset and an associated liability for amounts it may have to pay.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

For the year ended 31st December, 2018

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Financial instruments (Continued) Financial liabilities and equity instruments (Continued)

Financial liabilities at amortised cost

Financial liabilities, including trade and other payables, bank borrowings, loan from third parties and obligations under finance leases, are subsequently measured at amortised cost, using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

Impairment of goodwill, trademark and other non-current assets

The Group tests annually whether goodwill and trademark with indefinite useful life has suffered any impairment (Note 16). Other non-financial assets including property, plant and equipment and other amortisable intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The recoverable amounts have been determined based on value-in-use calculations or fair value less costs of disposal. These calculations require the use of judgements and estimates.

Determining whether goodwill and trademark are impaired requires an estimation of the recoverable amount which is the higher of fair value less costs to sell and value in use of the CGUs to which goodwill and trademark have been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the CGU and a suitable discount rate in order to calculate present value. When the actual future cash flows are less than expected, a material impairment loss may arise. As at 31st December, 2018, the carrying amount of goodwill and trademark were HK\$101,096,000 (2017: HK\$101,340,000) and HK\$9,841,000 (2017: HK\$10,402,000) respectively. Details of the recoverable amount calculation disclosed in note 16.

TV programs under production are accounted for on a project-by-project basis and are stated at cost less any impairment losses. TV program products are stated at cost less accumulated amortisation and any impairment losses. TV program products, less estimated residual value and accumulated impairment losses, are amortised based on the proportion of actual revenues earned during the year to total estimated projected revenues. Additional amortisation/impairment is made if estimated projected revenues are adversely different from the previous estimation.

For the year ended 31st December, 2018

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued) Impairment of goodwill, trademark and other non-current assets (Continued)

These estimated projected revenues can change significantly due to a variety of factors. Based on information available on the actual results of TV programs, management reviews and revises the estimated projected revenues and related case flows at least at the end of each reporting period. Any change in revenue estimations may result in a change in the rate of amortisation and/or the impairment of the carrying amounts of the assets to their recoverable amounts. This could have a significant impact on the Group's financial performance. The carrying amount of TV programs under production was HK\$44,855,000 with no impairment loss recognised.

Management judgement is required in the area of asset impairment particularly in assessing: (i) whether an event has occurred that may indicate that the related asset values may not be recoverable; (ii) whether the carrying value of asset can be supported by the recoverable amount, being the higher of fair value less costs of disposal and net present value of future cash flows which are estimated based upon the continued use of the asset in the business; and (iii) the appropriate key assumptions to be applied in preparing cash flow projections including whether these cash flow projections are discounted using an appropriate rate. Changing the assumptions selected by management in assessing impairment, including the discount rates or the growth rate assumptions in the cash flow projections, could materially affect the net present value used in the impairment test and as a result affect the Group's financial condition and results of operations. If there is a significant adverse change in the projected performance and resulting future cash flow projections, it may be necessary to take an impairment charge to the consolidated profit or loss.

As further detailed in note 17, the Group's other non-current assets represented certain residential properties expected to be received in 2020 as part of the consideration from the disposal of a then indirectly wholly owned subsidiary in July 2015. The right to receive the residential properties is related to the redevelopment project to transform the industrial area into residential area and the delivery of the residential properties that will take place afterwards. The impairment assessment on the recoverability of the assets is based on the status of the development of the redevelopment project and the latest expected market value of the residential properties upon completion. Such assessment requires significant judgement. As at 31st December, 2018 and 2017, the carrying amount of other non-current assets was HK\$186,000,000 with no impairment loss recognised.

Useful lives, residual values and depreciation of property, plant and equipment

The Group's management determines the estimated useful lives, residual values and related depreciation for the Group's property, plant and equipment with reference to the estimated periods that the Group intends to derive future economic benefits from the use of these assets. Management will revise the depreciation charges where useful lives are different to previously estimated, or it will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold. Actual economic lives may differ from estimated useful lives and actual residual values may differ from estimated residual values. Periodic review could result in a change in depreciable lives and residual values and therefore depreciation expense in future periods. As at 31st December, 2018, the carrying amount of property, plant and equipment was HK\$171,255,000 (2017: HK\$177,984,000).

For the year ended 31st December, 2018

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued) Net realisable value of inventories

Net realisable value of inventories is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling expenses. These estimates are based on the current market condition and the historical experience of manufacturing and selling products of similar nature. It could change significantly as a result of changes in customer taste and competitor actions in response to severe industry cycle. Management reassesses these estimates at each statement of financial position date. As at 31st December, 2018, the carrying amount of inventories was HK\$349,776,000 (2017: HK\$328,472,000).

Current and deferred income taxes

The Group is subject to income taxes in Hong Kong, the People's Republic of China (the "PRC"), the United States, Vietnam and other jurisdictions. Judgement is required in determining the provision for income taxes in each of these jurisdictions. There are transactions and calculations during the ordinary course of business for which the ultimate tax determination is uncertain. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such as differences will impact the income tax and deferred income tax provisions in the period in which such determination is made.

Deferred income tax assets relating to temporary differences and tax losses are recognised when management considers it is probable that future taxable profits will be available to utilise against the temporary differences or tax losses. Where the expectations are different from the original estimate, such differences will impact the recognition of deferred income tax assets and liabilities and taxation charges in the period in which such estimates have been changed. As at 31st December, 2018, the carrying asset of deferred tax assets was HK\$24,578,000 (2017: HK\$13,891,000) and deferred tax liabilities was HK\$1,352,000 (2017: HK\$938,000).

Consolidation of a subsidiary

In October 1999, there was a court judgement in connection with a claim made by a trade creditor. The Group's legal ownership of an indirect wholly owned subsidiary of the Company may be affected by the court judgement. The directors of the Company, based on independent legal advice, are of the opinion that the aforesaid judgement will have no material impact on Group's control in the subsidiary. Accordingly, the subsidiary continues to be treated as an indirectly held subsidiary of the Company and this financial results of the subsidiary are included in the consolidated financial statements.

Impairment of financial assets

The loss allowance for financial assets are based on assumptions about risk of default and estimated loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's historical credit loss experience as well as forward looking estimates at the end of each reporting period. Details of the key assumptions and inputs used are disclosed in note 35.

For the year ended 31st December, 2018

5. REVENUE AND SEGMENT INFORMATION

Revenue represents the fair value of amounts received and receivable for goods sold by the Group to outside customers less discount, rebates, taxes and returns.

A. For the year ended 31st December, 2018

i. Disaggregation of revenue from contracts with customers

Sogmente	Toys	Lighting
Segments	HK\$'000	products HK\$'000
Types of goods		
Manufacturing and trading of toys	1,273,000	-
Manufacturing and trading of lighting products	_	80,665
Total	1,273,000	80,665
Timing of revenue recognition		
A point in time	1,273,000	80,665

The revenue disaggregated by geographic markets is detailed below.

ii Performance obligations for contracts with customers

The Group is engaged in the toy manufacturing business for international brand customers and lighting products manufacturing directly to consumers or through sub-distributors on wholesale and trade basis.

For sales of toys and lighting products to international brand customers and the wholesale market, revenue is recognised when control of the goods has transferred, being when the goods have been delivered to the customers' specific location. Performance obligations are satisfied at a point in time once control of the goods has been transferred to the customers and the customers have obtained control on the goods through their ability to direct other use of and obtain substantially all the benefits from the goods. Payment of the transaction price is due immediately at the point the customers purchase the goods.

Following the delivery, the customers have full discretion over the manner of distribution and price to sell the goods, have the primary responsibility when on selling the goods and bear the risks of obsolescence and loss in relation to the goods. The normal credit term is 14 to 90 days upon delivery.

For the year ended 31st December, 2018

5. **REVENUE AND SEGMENT INFORMATION (Continued)**

B. For the year ended 31st December, 2017

An analysis of the Group's revenue for the year is as follows:

	HK\$'000
Toys	1,362,940
Lighting products	71,068
	1,434,008

The chief operating decision-makers ("CODM") have been identified as the Executive Directors. Reportable segments are reported in a manner consistent with internal reports of the Group that are regularly reviewed by the CODM in order to assess performance and allocate resources. The CODM assess the performance of the reportable segments based on the profit and loss generated.

The Group's operating segments under HKFRS 8 are the United States, Europe, Mexico, Canada, South America, Australia and New Zealand and other locations based on the geographical location of customers.

The CODM assess the performance of the operating segments based on segment results. Finance income and costs, corporate income and expenses are not included in the results for each operating segment that is reviewed by the CODM. Other information provided to the CODM is measured in a manner consistent with that in the consolidated financial statements.

Assets of reportable segments exclude property, plant and equipment, intangible assets, deferred income tax assets and other corporate assets, all of which are managed on a central basis. Liabilities of reportable segments exclude current and deferred income tax liabilities, bank borrowings and other corporate liabilities. These are part of the reconciliation to total assets and liabilities of the consolidated statement of financial position.

The revenue from external parties, assets and liabilities, reported to the CODM is measured in a manner consistent with that in the consolidated statement of profit or loss and other comprehensive income and consolidated statement of financial position.

There are two main businesses of the Group, including toys and lighting business. CODM do not consider the lighting business as a separate segment for both years as it is not material to the Group.

For the year ended 31st December, 2018

5. REVENUE AND SEGMENT INFORMATION (Continued) Segment revenues and results

The following is an analysis of the Group's revenue and results by operating segment based on the geographic location of customers:

	The United States HK\$'000	Europe HK\$'000	Mexico HK\$'000	Canada HK\$'000	South America HK\$'000	Australia and New Zealand HK\$'000	Other locations HK\$'000 <i>(Note)</i>	Unallocated HK\$'000	Consolidated HK\$'000

For the year ended 31st December, 2018

5. REVENUE AND SEGMENT INFORMATION (Continued)

Segment revenues and results (Continued)

Segment profit (loss) represents the profit (loss) before income tax earned by each segment without allocation of certain income, other gains and losses, central administration costs and finance costs. This is the measure reported to the CODM, for the purposes of resource allocation and performance assessment.

Segments assets and liabilities

The following is an analysis of the Group's assets and liabilities by operating segment based on the geographical location of customers:

As at 31st December, 2018

	The United States HK\$'000	Europe HK\$'000	Mexico HK\$'000	Canada HK\$'000	South America HK\$'000	Australia and New Zealand HK\$'000	Other locations HK\$'000 <i>(Note)</i>	Consolidated HK\$'000
ASSETS Segment assets Property, plant and equipment Leasehold land and land use rights Unallocated and other corporate assets	485,127	50,029	3,177	34,896	5,227	17,634	112,336	708,426 171,255 11,873 670,976

Total liabilities								477,990

For the year ended 31st December, 2018

5. **REVENUE AND SEGMENT INFORMATION (Continued)** Segments assets and liabilities (Continued)

As at 31st December, 2017

	The United States HK\$'000	Europe HK\$'000	Mexico HK\$'000	Canada HK\$'000	South America HK\$'000	Australia and New Zealand HK\$'000	Other locations HK\$'000 <i>(Note)</i>	Consolidated HK\$'000
ASSETS Segment assets Property, plant and equipment Leasehold land and land use rights Unallocated and other corporate assets	539,277	46,195	1,775	21,045	2,833	10,934	96,697	718,756 177,984 12,354 397,992
Total assets								1,307,086
LIABILITIES Segment liabilities Unallocated and other corporate liabilities	91,017	26,670	332	3,340	512	1,816	10,109	133,796 145,732
Total liabilities								279,528

Note: Other locations include the PRC (including Hong Kong), Taiwan, Korea, Asia Pacific and others. These locations are considered by the CODM as one operating segment.

For the purposes of monitoring segment performances and allocating resources amongst segments, only inventories, trade receivables and certain other receivables are allocated to segment assets, and only trade payables and certain other payables and accruals are allocated to segment liabilities.

Other segment information

No analysis of capital expenditures is disclosed for both years as these items are neither included in segment assets nor segment results and are not reviewed by the CODM regularly.

For the year ended 31st December, 2018

5. REVENUE AND SEGMENT INFORMATION (Continued) Geographical information

The Group's operations are located in Hong Kong, Vietnam, the United States, the PRC, Europe and other countries.

The Group's information about its non-current assets by geographical location of the assets is detailed below:

	2018 HK\$'000	2017 HK\$'000
Hong Kong	2,443	1,493
Vietnam	167,064	137,562
The United States	10,219	12,778
The PRC	235,239	237,223
Europe	7,172	20,815
Other countries	3,847	4,446
	425,984	414,317

Note: Non-current assets excluded intangible assets and deferred tax assets.

Information about major customers

For the year ended 31st December, 2018, there are 2 customers (2017: 2 customers) in the United States with revenue amounted to HK\$799,869,000 (2017: HK\$799,978,000) and HK\$146,858,000 (2017: HK\$224,843,000), contributing to approximately 59.1% and 10.8% (2017: 55.8% and 15.7%), respectively, of the total revenue of the Group. There is no other single customer contributing over 10% of the total revenue of the Group.

For the year ended 31st December, 2018

6. OTHER INCOME

	2018 HK\$'000	2017 HK\$'000
Interest income on bank deposits	3,976	48
Sales of scrap materials and samples	56	94
Others	296	2,127
	4,328	2,269

7. OTHER GAINS AND LOSSES

	2018 HK\$'000	2017 HK\$'000
(Loss) gain on disposal of property, plant and equipment	(1,966)	994
Net exchange gain	4,876	5,921
Net measurement of loss allowance for trade receivables	(12,401)	(3,341)
	(9,491)	3,574

8. FINANCE COSTS

	2018 HK\$'000	2017 HK\$'000
Interests on:		
Bank borrowings	1,822	2,013
Loan from third parties	6,667	-
Finance leases	36	36
	8,525	2,049

For the year ended 31st December, 2018

9. PROFIT BEFORE INCOME TAX

	2018 HK\$'000	2017 HK\$'000
Profit before income tax has been arrived at after charging (crediting):		
Raw materials and consumables used	398,968	491,320
Changes in inventories of finished goods and work-in-progress	21,853	(50,357)
Employee benefit expense (Note 10)	409,742	539,341
Depreciation of property, plant and equipment (Note 14)	42,286	37,906
Operating lease expenses	25,499	26,279
Advertising costs	22,150	26,691
Auditor's remuneration		
– Audit services	3,650	3,941
 Non-audit services 	1,557	1,844
Amortisation of leasehold land and land use rights (Note 15)	481	483
Amortisation of intangible assets (included in cost of sales)		
(Note 16)	1,226	818
Royalty expenses	40,119	28,042
Freight charges	24,182	25,307
Litigation claim	-	15,592
Other expenses	222,029	183,713
	1,213,742	1,330,920
Representing:		
Cost of sales	887,877	964,724
Distribution and selling costs	152,950	138,719
Administrative and other expenses	148,946	200,254
Research and development costs	23,969	27,223
	1 010 740	1 220 000
	1,213,742	1,330,920

For the year ended 31st December, 2018

10. EMPLOYEE BENEFIT EXPENSE

Employee benefits expense, including directors' emoluments, represents:

	2018 HK\$'000	2017 HK\$'000
Wages, salaries and bonuses	392,744	500,534
Retirement benefits – defined contribution plans	6,085	5,128
Staff welfare	10,913	12,246
Share-based payments (note 29)	-	21,433
	409,742	539,341

Retirement benefits – defined contribution plans

The Group has arranged for its Hong Kong employees to join the Mandatory Provident Fund Scheme (the "MPF Scheme"), a defined contribution scheme managed by an independent trustee. Under the MPF Scheme, each of the Group and its Hong Kong employees makes monthly contributions to the scheme at 5% of the employees' earnings as defined under the Mandatory Provident Fund Ordinance. Both the Group's and the employees' contributions are subject to a cap of HK\$1,500 per month.

The Group has no further obligations for post-retirement benefits in relation to its Hong Kong employees beyond the contributions to the MPF Scheme.

The eligible employees of the subsidiaries in the PRC are members of pension schemes operated by the Chinese local government. The subsidiaries are required to contribute certain percentages of the relevant part of the payroll of these employees to the pension schemes to fund the benefits.

Eligible employees in Macau currently participate in a social security fund scheme operated by the local government. The contributions are fixed for domestic employees who meet certain eligibility requirements.

Eligible employees in Vietnam currently participate in a defined contribution pension scheme operated by the local municipal government. The calculation of contributions is based on certain percentage of the employees' payroll.

There are defined contribution retirement plans established in the United States for all domestic employees who meet certain eligibility requirements as to age and length of service.

During the year ended 31st December, 2018, the aggregate amount of the Group's contributions to the aforementioned pension schemes was approximately HK\$6,085,000 (2017: HK\$5,128,000). As at 31st December, 2018, the Group was not entitled to any forfeited contributions to reduce its future contributions (2017: nil).

For the year ended 31st December, 2018

10. EMPLOYEE BENEFIT EXPENSE (Continued)

Benefits and interests of directors (disclosures required by section 383 of the Hong Kong Companies Ordinance, Companies (Disclosure of information about benefits of directors) Regulation and Listing Rules)

Directors' emoluments comprise payments by the Group to the executive directors of the Company in connection with the management of the affairs of the Company and its subsidiaries. The non-executive directors' emolument and independent non-executive directors' emoluments shown above were mainly for their services as directors of the Company. The remuneration of each director and the chief executive for the year ended 31st December, 2018 is set out below:

			Employer's contribution to	
			a retirement	
Name	Fees	Salary	benefit scheme	Total
	HK\$'000	HK\$'000	HK\$'000	HK\$'000

10. EMPLOYEE BENEFIT EXPENSE (Continued)

Benefits and interests of directors (disclosures required by section 383 of the Hong Kong Companies Ordinance, Companies (Disclosure of information about benefits of directors) Regulation and Listing Rules) (Continued)

Directors' emoluments comprise payments by the Group to the executive directors of the Company in connection with the management of the affairs of the Company and its subsidiaries. The non-executive directors' emolument and independent non-executive directors' emoluments shown above were mainly for their services as directors of the Company. The remuneration of each director and the chief executive for the year ended 31st December, 2017 is set out below:

			Employer's contribution to a retirement	
Name	Fees	Salary	benefit scheme	Total
	HK\$'000	HK\$'000	HK\$'000	HK\$'000
Executive directors				
Cheng Yung Pun	-	1,118	-	1,118

For the year ended 31st December, 2018

10. EMPLOYEE BENEFIT EXPENSE (Continued)

Benefits and interests of directors (disclosures required by section 383 of the Hong Kong Companies Ordinance, Companies (Disclosure of information about benefits of directors) Regulation and Listing Rules) (Continued)

Notes:

- (i) Mr. Chen is the chief executive of the Group and his remuneration disclosed above represents those for services rendered by him as the chief executive.
- (ii) Mr. Arnold Edward Rubin and Ms. Cheng Wing See, Nathalie, resigned on 1st March, 2017 and 10th March, 2017, respectively. Mr. Arnold Edward Rubin received HK\$4,869,000 as director's termination benefit during the year ended 31st December, 2017.
- Mr. Leung Hong Tai has tendered to the Board his resignation as executive director of the Company in early March, 2018. His resignation was made effective from 1st April, 2018.
- (iv) Ms. Yip Hiu Har has been appointed as executive director of the Company effective from 1st April, 2018.
- (v) No director or chief executive waived or agreed to waive any emoluments during the years ended 31st December, 2017 and 2018.
- (vi) No directors' retirement benefits were paid during the years ended 31st December, 2017 and 2018.
- (vii) No directors' termination benefits were paid during the years ended 31st December 2018.
- (viii) No consideration was provided to third parties for making available directors' services during the years ended 31st December, 2017 and 2018.
- (ix) There were no loans, quasi-loans and other dealings entered into by the Company or its subsidiary undertaking as at 31st December, 2017 and 2018.
- (x) No significant transactions, arrangements and contracts in relation to the Group's business to which the Company was a party and in which a director of the Company had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

For the year ended 31st December, 2018

10. EMPLOYEE BENEFIT EXPENSE (Continued) Five highest paid individuals

The five individuals whose emoluments were the highest in the Group for the year include one (2017: one) director whose emoluments are reflected in the analysis shown above. The emoluments payable to the remaining four (2017: four) individuals during the year are as follows:

	2018 HK\$'000	2017 HK\$'000
Salaries and allowances	9,118	3,973
Contributions to retirement benefit schemes and MPF Scheme	356	15
Share-based payments	-	17,003
	9,474	20,991

The emoluments fell within the following bands:

	Number of	Number of individuals		
	2018	2017		
HK\$1,500,001 to HK\$2,000,000	1	_		
HK\$2,000,001 to HK\$2,500,000	2	-		
HK\$2,500,001 to HK\$3,000,000	1	-		
HK\$3,000,001 to HK\$3,500,000	-	1		
HK\$5,500,001 to HK\$6,000,000	-	2		
HK\$6,000,001 to HK\$6,500,000	-	1		
	4	4		

For both years, except for the termination benefit paid to a director as disclosed above, no emoluments were paid by the Group to the five highest paid individuals (including directors and employees) as an inducement to join or upon joining the Group or as a compensation for loss of office.

For the year ended 31st December, 2018

	2018 HK\$'000	2017 HK\$'000
Current tax:		
– Hong Kong	281	322
– Other jurisdictions	7,868	8,541
(Over)underprovisions in prior years:		
– Hong Kong	(321)	-
– Other jurisdictions	538	(2,505)
Deferred tax (Note 23)	(10,240)	(8,006)
	(1,874)	(1,648)

11. INCOME TAX CREDIT

Notes:

(i) On 21st March, 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28th March, 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

The directors of the Company considered the amount involved upon implementation of the two-tiered profits tax rates regime as insignificant to the consolidated financial statements. Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profit for both years.

Taxation on overseas profits has been calculated on the estimated assessable profit for the year at the rates of taxation prevailing in the countries in which the Group operates.

- (ii) Pursuant to the relevant Vietnam enterprise income tax rules and regulations, the applicable tax rates for subsidiaries operating in Vietnam range from 10% to 20% (2017: 10% to 20%) for the year.
- (iii) The United States enterprise income tax rate for subsidiaries operating in the United States of America is 21% (2017: 21%) for the year.

For the year ended 31st December, 2018

11. INCOME TAX CREDIT (Continued)

The tax on the Group's profit before income tax differs from the theoretical amount that would arise using the weighted average tax rate applicable to profits of the consolidated entities as follows:

Profit before income tax	2018 HK\$'000 126,235	2017
Tax calculated at the applicable domestic tax rate of respective companies (<i>Note</i>)	7,881	7,660
 Tax effects of: Income not taxable for tax purposes Expenses not deductible for tax purposes Profits which are exempted from tax or under tax concessions 	(251) 6,693 (28,896)	(272) 7,598 (24,904)
 Tax losses for which no deferred income tax assets have been recognised Under(over)provision in prior years 	18,034 217	12,233 (2,505)
Tax effects of change of tax rate in other jurisdictions Others	(5,552)	(2,505) 1,651 (3,109)
	(1,874)	(1,648)

Note: The weighted average applicable tax rate was 6.2% (2017: 7.2%). The fluctuation in the weighted average applicable tax rate arose mainly because of the change in the relative profitability of the companies within the Group.

12. DIVIDENDS

The total dividends paid in 2018 and 2017 were HK\$75,620,000 (HK10.0 cents per share) and HK\$86,964,000 (HK11.5 cents per share), respectively. A final dividend in respect of the year ended 31st December, 2018 of HK5 cents (2017: HK5 cents) per share, amounting to approximately HK\$37,810,000 (2017: HK\$37,810,000), is to be proposed at the forthcoming annual general meeting. These consolidated financial statements do not reflect this dividend payable as the final dividend was proposed after the date of consolidated statement of financial position and will be accounted for in equity as an appropriation of retained profits in the year ending 31st December, 2018 when approved at the forthcoming annual general meeting.

For the year ended 31st December, 2018

12. DIVIDENDS (Continued)

	2018 HK\$'000	2017 HK\$'000
Paid		
Interim dividend paid HK5 cents (2017: HK4.5 cents) per ordinary share	37,810	34,030
Proposed		
Final dividend proposed HK5 cents (2017: HK5 cents) per ordinary share	37,810	37,810

13. EARNINGS PER SHARE

Basic and diluted earnings per share are calculated by dividing the profit attributable to owners of the Company by the weighted average number of ordinary shares in issue during the year.

	2018 HK\$'000	2017 HK\$'000
Profit attributable to owners of the Company	134,960	112,670
	'000	'000
Weighted average number of ordinary shares in issue	756,203	756,203
	HK cents	HK cents
Basic and diluted earnings per share	18	15

The computation of diluted earnings per share for the year ended 31st December, 2018 and 2017 did not assume the exercise of the Company's share options because the exercise price of these share options was higher than the average market price of the shares for both 2018 and 2017.

For the year ended 31st December, 2018

14. PROPERTY, PLANT AND EQUIPMENT

	Buildings HK\$'000	Leasehold improvements HK\$'000	Plant and machinery HK\$'000	Moulds HK\$'000	Construction in progress HK\$'000	Others HK\$'000 <i>(note)</i>	Total HK\$'000

Net book amount	80,286	5,415	48,005	19,402	1,512	16,635	171,255

Note: Others mainly represent tooling equipments, containers and motor vehicles.

For the year ended 31st December, 2018

14. PROPERTY, PLANT AND EQUIPMENT (Continued)

Depreciation expense is analysed as follows:

	2018 HK\$'000	2017 HK\$'000
Cost of sales Administrative expenses	35,882 6,404	30,668 7,238
	42,286	37,906

As at 31st December, 2018, buildings of approximately HK\$26,146,000 (2017: HK\$27,200,000) were frozen by Zhuhai Intermediate Court and Zhongshan Intermediate Court, respectively, (the "Court") in relation to a legal claim lodged by a third party (the "Plaintiff") against a subsidiary of the Company for a breach of a distribution agreement. Pursuant to the court judgement, the subsidiary was liable to pay the Plaintiff an amount of approximately HK\$5,172,000. A full legal claim provision was made by the Group in prior years and HK\$4,472,000 was paid by the Group in 2011. Based on independent legal advice in prior years, the directors are of the opinion that the land and building being frozen by the Court will be released upon the settlement of all the legal claim and do not have material impact on the financial position and operations of the Group.

The net book amount of certain motor vehicles include an amount of approximately HK\$286,000 (2017: HK\$512,000) in respect of assets held under finance lease as at 31st December, 2018.

As at 31st December, 2017, the net book amount of certain machinery include an amount of approximately HK\$7,176,000 (2018: nil) in respect of assets held under finance lease. All obligation under finance lease payable for certain machinery was settled during the current year.

15. LEASEHOLD LAND AND LAND USE RIGHTS

The Group's interests in leasehold land and land use rights are analysed as follows:

	2018 HK\$'000	2017 HK\$'000
At 1st January Amortisation <i>(Note 9)</i>	12,354 (481)	12,837 (483)
At 31st December	11,873	12,354

For the year ended 31st December, 2018

Except for goodwill and trademark, the above intangible assets have definite useful lives. Such intangible assets are amortised on a straight-line basis over the following periods:

Customer base	6 years
Patents	7 to 18 years

The trademark acquired through a business combination in the year for the year ended 31st December, 2017 has a legal life of 10 years but is renewable every 10 years at a minimal cost. The directors of the Company are of the opinion that the Group would renew the trademark continuously and has the ability to do so. Various studies including product life cycle studies, market, competitive and environmental trends, and brand extension opportunities have been performed by the management of the Group, which supports that the trademark has no foreseeable limit to the period over which the trademarked products are expected to generate net cash flows for the Group.

For the year ended 31st December, 2018

16. INTANGIBLE ASSETS (Continued)

As a result, the trademark is considered by the management of the Group as having an indefinite useful life because it is expected to contribute to net cash inflows indefinitely. The trademark will not be amortised until its useful life is determined to be finite. Instead it will be tested for impairment annually and whenever there is an indication that it may be impaired.

TV programs under production represent the development, production and distribution of a children's animated television series which the Group embarked on a joint project with an entertainment company. In September 2018, the Group entered into an Asset Purchase Agreement with the entertainment company to buy out all its rights and assume all its liabilities within the project. TV programs under production are stated at cost less accumulated amortisation and identified impairment loss. Costs of the production comprise fees paid and payable under agreements, direct costs/expenses incurred during the production of the program. As at 31st December, 2018, the cost of TV programs under production with amount approximately HK\$44,855,000 was recognised and no amortisation as the production was in progress and no revenues were earned. TV programs under production are accounted for on a projectby-project basis and are stated at cost less any impairment losses. TV programs, less estimated residual value and accumulated impairment losses, are amortised based on the proportion of actual revenues earned during the year to total estimated projected revenues.

Impairment tests for goodwill of distribution of toys

Goodwill of HK\$96.822.000 (2017: HK\$96.822.000) is mainly allocated to the Group's cash-generating unit in the distribution of toys in the United States market related to the acquisition of Funrise Holdings, LLC, Funrise, Inc. and Code 3 Collectibles LLC (together referred to as "Funrise Group") in 2007 ("CGU A"). The Group performs impairment tests on goodwill annually, or more frequently if there is any indication that it may be impaired, by comparing the recoverable amount to the carrying amount as at the date of the consolidated statement of financial position.

The recoverable amount of the CGU A is determined based on a value in use calculation. The calculation uses cash flow projections based on financial budgets approved by the management covering a fiveyear period. Cash flows beyond the five-year period are extrapolated using a zero percent growth rate. The management determines budgeted gross margin based on past performance and their expectation of market development. The pre-tax discount rate applied to the cash flow projection is 15.0% (2017: 15.7%) and it reflects specific risks relating to the relevant operating unit. The sales growth rate applied to cash flow projection is ranged from 3% to 38% (2017: 3% to 22%). Based on the value in the calculation, there is no impairment loss on goodwill for the year ended 31st December, 2018 (2017: nil).

The recoverable amount calculated based on value in use exceeds carrying value of the CGU A. If the sales growth rate applied to the cash flow projection reduced to 3.0% for the year ending 31st December, 2020 and 2.5% for the years ending 31st December, 2021 and 2022, there would not be an impact on the carrying value of goodwill. If the estimated discount rate used in determining the recoverable amounts of CGU A had been 1% higher than the management's estimates as at 31st December, 2018, there would not be an impact on the carrying value of goodwill.

For the year ended 31st December, 2018

16. INTANGIBLE ASSETS (Continued)

Impairment test for goodwill and trademark of the lighting business

Goodwill of HK\$4,274,000 (2017: HK\$4,518,000) and trademark of HK\$9,841,000 (2017: HK\$10,402,000) are allocated to the Group's cash-generating unit in the design, manufacturing, marketing and distribution of energy efficient lighting products related to the acquisition of Fern-Howard Limited ("CGU B"). The Group performs impairment tests on goodwill and trademark annually, or more frequently if there is any indication that it may be impaired, by comparing the recoverable amount to the carrying amount as at the date of the consolidated statement of financial position.

The recoverable amount of the CGU B is determined based on a value in use calculation. The calculation uses cash flow projections based on financial budgets approved by the management covering a five-year period. Cash flows beyond the five-year period are extrapolated using a zero percent growth rate. The management determines budgeted gross margin based on past performance and their expectation of market development. The pre-tax discount rate applied to the cash flow projection is 11.7% (2017: 11.4%) and it reflects specific risks relating to the relevant operating unit. The sales growth rate applied to cash flow projection is ranged from 15% to 30% (2017: 10% to 45%). Based on the value in use calculation, there is no impairment loss on goodwill and trademark of the lighting business for the year ended 31st December, 2018.

Impairment tests for TV programs under production

During the year ended 31st December, 2018, the management of the Group considered the expected future income of certain TV programs under production could recover the respective carrying amounts and therefore, there is no impairment loss recognised as cost of sales.

17. OTHER NON-CURRENT ASSETS

On 2nd July, 2015, Shelcore Hong Kong Limited, an indirect wholly-owned subsidiary of the Group which mainly held the land and building in Shenzhen, was disposed of to Shenzhen Shouxi Property Investment Development Company Limited ("Shenzhen Shouxi"), an independent third party. Consideration for the disposal was RMB272,000,000 (approximately HK\$337,280,000), including RMB40,000,000 (approximately HK\$49,566,000) cash and RMB232,000,000 (approximately HK\$287,680,000) worth of residential properties to be delivered to the Group in 2020. Further details of the disposal were disclosed in the announcement and circular dated 18th June, 2015 and 24th July, 2015 respectively.

The management of the Company estimates that the fair value of the right to receive the residential properties is RMB150,000,000 (approximately HK\$186,000,000) at the date of the disposal with reference to the valuation performed by an independent valuer.

The right to receive the residential properties is classified as other non-current assets based on the fair value at the disposal date and subsequently carries at cost less impairment. No impairment loss is recognised for the years ended 31st December, 2018 and 2017.

For the year ended 31st December, 2018

18. INVENTORIES

	2018 HK\$'000	
Raw materials	145,136	145,685
Work in progress	34,744	40,626
Finished goods	169,896	142,161
	349,776	328,472

The cost of inventories is recognised as expense and included in "cost of sales" amounted to HK\$887,877,000 (2017: HK\$964,724,000).

19. DEPOSITS PAID, TRADE AND OTHER RECEIVABLES AND PREPAYMENTS

	2018	2017
	HK\$'000	HK\$'000

Deposits paid for purchase of property, plant and equipment	-	30,940
Deposits paid for purchase of patents	4,877	4,877
Rental and utilities deposits	4,768	5,772
	358,650	390,284
Less: Non-current deposits paid	(56,856)	(37,979)
	301,794	352,305

For the year ended 31st December, 2018

19. DEPOSITS PAID, TRADE AND OTHER RECEIVABLES AND PREPAYMENTS (Continued)

Note:

On 12th December, 2018, the Group entered into a memorandum of understanding with Nguyễn Chí Dững and four other Vietnamese individuals, which are independent third parties, to acquire the entire equity interests in Javi Investment Joint Stock Company ("Javi") at a cash consideration of VND561,400,000 (approximately equivalent to HK\$189,579,000). A 20% deposit of VND112,280,000,000 (approximately equivalent to HK\$37,916,000) has been paid as at year ended 31st December, 2018. For detail, please refer to the announcement date on 9th January, 2019. Subsequent to the end of the reporting period, the Group has further paid VND392,980,000,000 (approximately equivalent to HK\$132,705,000) to the shareholders of Javi.

The Group allows a credit period of 14 to 90 days to its trade customers. An ageing analysis of trade receivables based on invoice date at the end of the reporting period is as follows:

	2018 HK\$'000	2017 HK\$'000
0 – 60 days 61 – 90 days More than 90 days	167,170 37,709 36,699	234,335 45,649 7,526
	241,578	287,510

As of 31st December, 2018, trade receivables of HK\$202,482,000 (2017: HK\$253,905,000) were fully performing and not past due.

As at 31st December, 2018, included in the Group's trade receivables balance are debtors with aggregate carrying amount of HK\$39,096,000 which are past due as at the reporting date. Out of the past due balances, HK\$4,840,000 has been past due 90 days or more and is not considered as in default due to the management's historical experience on the settlement pattern or record from these debtors.

For the year ended 31st December, 2018

19. DEPOSITS PAID, TRADE AND OTHER RECEIVABLES AND PREPAYMENTS (Continued)

As of 31st December, 2017, trade receivables of HK\$33,605,000 were past due but not impaired. These related to a number of independent customers for whom there is no significant financial difficulty and based on past experience, the overdue amounts can be recovered. The ageing analysis of these trade receivables which are past due but not impaired based on invoice date at the end of the reporting date is as follows:

	2017
	HK\$'000
0 – 60 days	30,483
61 – 90 days	451
More than 90 days	2,671
	33,605

Before the application of HKFRS 9 on 1st January, 2018, the Group has policy regarding impairment losses on trade receivables which is based on the evaluation of collectability and ageing analysis of accounts and on management's judgement including the current creditworthiness and the past collection history of each customer.

As of 31st December, 2018, the Group has provided for impairment of HK\$22,028,000 (2017: HK\$8,047,000) on certain individually impaired trade receivables who have either been placed under liquidation or in severe financial difficulties.

Movements in the Group's provision for impairment of trade receivables are as follows:

	2017
	HK\$'000
At 1st January	5,113
Provision for impairment of trade receivables	3,341
Amount written-off as uncollectible	(419)
Exchange difference	12
At 31st December	8,047

For the year ended 31st December, 2018

19. DEPOSITS PAID, TRADE AND OTHER RECEIVABLES AND PREPAYMENTS (Continued)

Upon the application of HKFRS 9 on 1st January, 2018, the Group applies simplified approach on noncredit impaired trade receivables to provide for ECL prescribed by HKFRS 9 and assessed credit impaired balances individually. To measure the ECL, trade receivables are assessed individually for debtors with significant balance and collectively using a provision matrix for the remaining balances, which is grouped based on shared credit risk characteristics and the historical observed default rates adjusted for forwardlooking estimates that is available without undue costs or effort.

The other classes within trade and other receivables and prepayments do not contain impaired assets. The maximum exposure to credit risk at the reporting date is the carrying value of each class of receivable mentioned above. The Group does not hold any collateral as security.

Details of impairment assessment of trade and other receivables for the year ended 31st December, 2018 are asset out in note 35:

The carrying amounts of the Group's trade and other receivables and prepayments are denominated in the following currencies:

	2018 HK\$'000	2017 HK\$'000
	18,928	26,100
United States Dollars ("US\$")	215,550	295,998
Vietnamese Dong ("VND")	72,272	21,354
Other currencies	51,900	46,832
	358,650	390,284

For the year ended 31st December, 2018

	2018	2017
	НК\$'000	HK\$'000
Cash at banks and on hand	294,066	74,284
Denominated in:		
HK\$	11,122	16,580
US\$	269,734	45,822
Other currencies	13,210	11,882
	294,066	74,284

20. CASH AND CASH EQUIVALENTS

Cash at banks earns interest at floating rates based on daily bank deposit rates.

21. SHARE CAPITAL

	Number	Ordinary	
	of shares	shares	
	·000	HK\$'000	
At 1st January, 2017, 31st December, 2017 and 2018	756,203	75,620	

The total authorised number of ordinary shares is 1,000 million shares (2017: 1,000 million shares) with a par value of HK\$0.1 per share (2017: HK\$0.1 per share). All issued shares are fully paid.

None of the Company's subsidiaries purchased, sold or redeemed any of the Company's shares during the year.

22. RESERVES

Shareholders' contribution

The shareholders' contribution represented the deemed contribution arising from the loan from ultimate holding company which was non-current and interest-free.

For the year ended 31st December, 2018

23. DEFERRED INCOME TAX

Deferred income tax is calculated in full on temporary differences under the liability method using the applicable tax rates.

The following amounts, determined after appropriate offsetting, are shown in the consolidated statement of financial position:

	2018 HK\$'000	2017 HK\$'000
Deferred tax liabilities Deferred tax assets	1,352 (24,578)	938 (13,891)
	(23,226)	(12,953)

The movements in net deferred income tax (assets) liabilities are as follows:

	Accelerated tax depreciation HK\$'000	Tax losses HK\$'000	Allowance for doubtful debts HK\$'000	Others HK\$'000 <i>(Note)</i>	Total HK\$'000
At 1st January, 2017	(2,738)	(149)	(390)	(2,280)	(5,557)
Charge (credit) to profit or loss					
(Note 11)	607	(5,171)	(351)	(3,091)	(8,006)
Acquisitions of business (Note 30)	378	-	-	_	378
Exchange difference	232	_	-	_	232
At 31st December, 2017	(1,521)	(5,320)	(741)	(5,371)	(12,953)
Credit to profit or loss (Note 11)	(62)	(3,689)	(3,549)	(2,940)	(10,240)
Exchange difference	-		-	(33)	(33)
At 31st December, 2018	(1,583)	(9,009)	(4,290)	(8,344)	(23,226)

Note: The amount represents the temporary differences arising from deferred rent, accrued vacation and bonus in the subsidiaries operating in the United States.

Deferred income tax assets are recognised for tax losses carried forward to the extent that the realisation of the related tax benefit through future taxable profits is probable. As at 31st December, 2018, the Group had unrecognised tax losses of HK\$216,095,000 (2017: HK\$113,072,000) for which no deferred tax asset has been recognised due to unpredictability of future profit streams. Such tax losses may be carried forward against future taxable income.

For the year ended 31st December, 2018

24. OBLIGATIONS UNDER FINANCE LEASES

The Group has leased certain machinery and motor vehicles under finance leases in the prior year. During the year, the Group made a payment of HK\$2,813,000 for certain motor vehicles and early settlement for certain machinery under finance lease. The remaining balance is the obligations under finance lease payable for certain motor vehicles. The lease terms were ranged from two to three years. Interest rates underlying the obligations under finance leases were fixed at the range from 7% to 8% (2017: 6% to 9%) per annum.

	Minimum lease payments		Present value of minimum lease payments	
	2018 HK\$'000	2017 HK\$'000	2018 HK\$'000	2017 HK\$'000
Amounts payable under finance leases: Within one year In more than one year but	370	1,911	361	1,749
within two years In more than two years but	-	1,146	-	1,090
within five years	-	388	-	379
Less: Future finance charges	370 (9)	3,445 (227)	361 -	3,218 _

	3,664	37,739

26. CONTRACT LIABILITIES

* The amounts in this column are after the adjustments from the application of HKFRS 15.

The following table shows how much of the revenue recognised in the current year relates to carriedforward contract liabilities and how much relates to performance obligations that were satisfied in prior periods.

	Receipt in advances from
	customers
	HK\$'000
Revenue recognised that was included in the contract liability balance	
at the beginning of the year	37,739

27. BANK BORROWINGS

	201	8 2017
	НК\$'00	0 HK\$'000
Secured	36,50	2 53,567

At 31st December, 2018 and 2017, the Group's bank borrowings were repayable within one year. The carrying value of the bank borrowings approximated its fair value.

As at 31st December, 2018, the effective interest rate of the variable-rate bank borrowings was 4.2% (2017: 4.2%) per annum.

As at 31st December, 2018, a subsidiary of the Company provided floating charge on certain of its assets including property, plant and equipment, trade receivables and inventories which approximated to HK\$143,590,000 (2017: HK\$200,352,000) to a bank for banking facilities with credit limit of HK\$31,200,000 (2017: HK\$54,600,000) granted to it.

For the year ended 31st December, 2018

27. BANK BORROWINGS (Continued)

The carrying amounts of the bank borrowings are denominated in the following currencies:

	2018 HK\$'000	2017 HK\$'000
HK\$	-	10,790
US\$	20,280	27,300
British Pounds ("GBP")	16,222	15,477
	36,502	53,567

28. LOAN FROM THIRD PARTIES

During the year, an indirect wholly-owned subsidiary of the Company entered into a loan agreement with third parties in respect of a loan amounting to RMB225,000,000 (equivalent to HK\$256,556,000) for a term of one year. The loan is interest-bearing at 3% per annum, secured by the right to purchase of the other non-current assets as detailed in note 17. As of 31st December, 2018, amount of HK\$256,556,000 has been drawn by the Group and interest expense on the loan for the year is HK\$6,667,000.

29. SHARE OPTION SCHEME

On 4th May, 2012, the Company adopted a share option scheme (the "Option Scheme"). The Option Scheme will remain in force for a period of 10 years commencing on the date upon which such option is deemed to be granted and accepted. The purpose of the Option Scheme is to enable the Company to grant options to selected eligible participants as incentives and rewards for their contribution to the Company or its subsidiaries. Details are stated in "SHARE OPTION SCHEME" section of the annual report.

On 8th May, 2017 and 15th May, 2017, 24,000,000 and 2,600,000 share options were granted to the employees of the Group under the Option Scheme. Details are stated as below:

Option type	Date of grant	Vesting period	Exercise period	Exercise price
2017a	8th May, 2017	90 days	6th August, 2017 to 6th August 2020	HK\$3.138
2017b	15th May, 2017	90 days	13th August, 2017 to 13th August 2020	HK\$3.050

For the year ended 31st December, 2018

29. SHARE OPTION SCHEME (Continued)

The fair value was calculated using the Binominal Option Pricing Model. The inputs into the model are as follows:

	Optio	Option type	
	2017a	2017b	
	HK\$'000	HK\$'000	
Weighted average share price	HK\$3.050	HK\$2.950	
Exercise price	HK\$3.138	HK\$3.050	
Expected volatility (Note a)	46.97%	46.57%	
Exercise life	3.2 years	3.2 years	
Risk-free rate (Note b)	0.94%	0.89%	
Expected dividend yield	3.96%	3.97%	
Risk-free rate (Note b)	0.94%	0.89%	

Notes:

- (a) Expected volatility was determined based on the historical volatility of the Company's share price over the previous three years.
- (b) Risk-free rate was determined based on the yield of exchange fund notes of Hong Kong Monetary Authority.

The binomial option pricing model has been used to estimate the fair value of the share options. The variables and assumptions used in computing the fair value of the share options are based on the best assessment of the directors of the Company on the valuer's estimation. Changes in variables and assumptions may result in changes in the fair value of the share options.

The estimated fair value of the options granted were approximately HK\$19,432,000 and HK\$2,001,000 respectively. During the year ended 31st December, 2017, the Group recognised share-based payments of HK\$19,432,000 and HK\$2,001,000 respectively in profit or loss and the corresponding amount has been credited to the share option reserve. No liabilities were recognised due to share-based payment transactions.

For the year ended 31st December, 2018

30. ACQUISITIONS OF SUBSIDIARIES

(a) Acquisition of Fern-Howard Limited

On 16th January, 2017, the Group acquired a 65% interest in Fern-Howard Limited from an independent third party. The consideration of the transaction was HK\$25,121,000 and settled in cash. Fern-Howard Limited is principally engaged in the design, manufacture, marketing and distribution of energy efficient lighting products.

Consideration transferred

	HK\$'000
Cash	25,121

Acquisition-related costs amounting to HK\$1,108,000 have been excluded from the consideration transferred and have been recognised as administrative expenses during the year ended 31st December, 2017.

Fair value of assets acquired and liabilities assumed at the date of acquisition recognised by the Group:

	НК\$'000
Cash and cash equivalents	6,247
Trade and other receivables	16,779
Inventories	10,620
Property, plant and equipment	20,467
Intangible assets	9,302
Trade and other payables	(19,613)
Bank borrowings	(6,804)
Obligation under a finance lease	(4,188)
Deferred tax liabilities	(378)
	32,432

The receivables acquired (which principally comprised trade receivables) with a fair value of HK\$16,779,000 at the date of acquisition had gross contractual amounts of HK\$16,779,000. The best estimate at acquisition date of the contractual cash flows not expected to be collected amounted to nil.

For the year ended 31st December, 2018

30. ACQUISITIONS OF SUBSIDIARIES (Continued)

(a) Acquisition of Fern-Howard Limited (Continued) Goodwill arising on acquisition

	HK\$'000
Consideration transferred	25,121
Add: non-controlling interests (35% in Fern-Howard Limited)	11,351
Less: net assets acquired	(32,432)
Goodwill arising on acquisition	4,040

The goodwill arose on the acquisition was attributable to the benefits of expected synergies of lighting business that developed by the Group and Fern-Howard Limited, revenue and future market development of Fern-Howard Limited. These benefits were not recognised separately from goodwill because they did not meet the recognition criteria for identifiable intangible assets.

Non-controlling interests

The non-controlling interests (35%) in Fern-Howard Limited recognised at the acquisition date was measured by reference to the proportionate share of recognised amounts of net assets of Fern-Howard Limited and amounted to HK\$11,351,000.

Net cash outflow arising on acquisition

	HK\$'000
Bank balances and cash acquired	6,247
Cash consideration paid	(25,121)
	(18,874)

Impact of acquisition on the results of the Group

Included in the profit for the year ended 31st December, 2017 was a loss of HK\$11,829,000 attributable to the acquisition of Fern-Howard Limited. Revenue of Fern-Howard Limited included in the Group's revenue for the year ended 31st December, 2017 amounted to HK\$62,522,000.

For the year ended 31st December, 2018

30. ACQUISITIONS OF SUBSIDIARIES (Continued)

(b) Acquisition of 3LED Electronics Company Limited ("3LED")

On 5th April, 2017, the Group acquired a 100% interest in 3LED from independent third parties. The consideration of the transaction was HK\$1,438,000 and settled in cash. 3LED is principally engaged in the development of high-end LED products.

Consideration transferred

	HK\$'000
Cash	1,438

Assets acquired and liabilities assumed at the date of acquisition by the Group

	HK\$'000
Other receivables	4,166

Trade and other payables	(3,938)
Bank borrowing	(1,022)
	1.010
	1,813

Bargain purchase arising on acquisition

	HK\$'000
Consideration transferred	1,438
Less: net assets acquired (100%)	(1,813)
Gain on bargain purchase	(375)

Net cash outflow arising on acquisition

	HK\$'000
Cash consideration paid	(1,438)

For the year ended 31st December, 2018

30. ACQUISITIONS OF SUBSIDIARIES (Continued)

(b) Acquisition of 3LED Electronics Company Limited ("3LED") (Continued) Impact of acquisition on the results of the Group

Included in the profit for the year ended 31st December, 2017 was a loss of HK\$2,665,000 attributable from 3LED. No revenue contributed by 3LED for the year ended 31st December, 2017.

Had the acquisition of Fern-Howard Limited and 3LED been effected at the beginning of the prior year, the total amount of revenue of the Group for the year ended 31st December, 2017 would have been HK\$1,440,529,000, and the amount of the profit for the for the year ended 31st December, 2017 would have been HK\$106,709,000. The proforma information was for illustrative purposes only and was not necessarily an indication of revenue and results of operations of the Group that actually would have been achieved had the acquisition been completed at the beginning of the prior year, nor is it intended to be a projection of future results.

31. CONTINGENT LIABILITIES

The Group has held a number of licenses from Hasbro, Inc. and Hasbro International (together referred to as "Hasbro Group") to produce and distribute various products. During the year, Hasbro Group alleged that an audit of the Group's records established that the Group owed Hasbro Group US\$10,061,000, inclusive of purported unpaid royalties, marketing expenses, interest and audit fees.

Upon receipt of the audit findings of Hasbro Group and completion of own investigation, the Group determined that Hasbro Group, at best, was owed approximately US\$863,000, which was promptly paid. Hasbro Group disputed the Group's conclusion and issued a notice of termination of the remaining license agreement. The Group filed an action in the United States of America disputing Hasbro Group's interpretation of the license agreement, denying Hasbro Group's alleged right to terminate the license agreement, and alleged that Hasbro Group breached the license agreement by wrongfully attempting to terminate the license. Hasbro Group has filed a counterclaim, contending that the Group owes the amount alleged in the audit and the Group has violated Hasbro Group's intellectual property rights. Hasbro Group has agreed, without prejudice to any claim, to allow the Group to continue to perform pursuant to the license agreement until a court resolution, settlement or the termination of the license by its terms which will occur on 31st December, 2019. Both parties involved are currently engaged in an early mediation.

The Group has sought legal advices and intends to vigorously contest Hasbro Group's claim and as such no further provision is considered required to be made in the consolidated financial statements for the year ended 31st December, 2018 in respect of these matters.

For the year ended 31st December, 2018

32. OPERATING LEASE

The Group as lessee

	2018	2017
	HK\$'000	HK\$'000
Minimum lease payments paid under operating leases		
during the year	25,499	26,279

At the end of the reporting period, the Group had commitments for future minimum lease payments under non-cancellable operating leases which fall due as follows:

	2018 HK\$'000	2017 HK\$'000
No later than 1 year	21,488	17,323
Later than 1 year and no later than 5 years	26,483	16,816
Later than 5 years	36,666	37,160
	84,637	71,299

Operating lease payments represent rentals payable by the Group for its factory, office premises and showrooms. Leases are negotiated for a term of 8 to 50 years in respect of the factory premises and a term of 1 to 10 years for office premises, showrooms and retail shops. The rentals are fixed throughout the lease period.

33. CAPITAL COMMITMENTS

Capital expenditure contracted for at the end of the year but not yet incurred is as follows:

2018 HK\$'000	2017 HK\$'000
23,181 151,663	27,727
174,844	27,727
	HK\$'000 23,181 151,663

For the year ended 31st December, 2018

34. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that it will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of debts, which mainly include bank borrowings and loan from third parties as disclosed in Note 27 and Note 28 respectively and equity attributable to owners of the Company, comprising share capital disclosed in Note 21 and reserves.

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions. In order to maintain or adjust the capital structure, the Group may adjust the dividend payments to shareholders, return capital to shareholders, issue of new shares as well as the issue of new debts or the repayment of existing debts.

The Group also monitors capital on the basis of gearing ratio and the compliance of covenants of its borrowings. The gearing ratio is calculated as total debt divided by equity attributable to owners of the Company. Total debt is calculated as total borrowings (including bank borrowings and loan from third parties as shown in the consolidated statement of financial position). Equity attributable to owners of the Company is "total equity", as shown in the consolidated statement of financial position.

The Group's risk management committee reviews the capital structure on a semi-annual basis. As part of this review, the committee considers the cost of capital and the risks associated with each class of capital. The Group has a target gearing ratio of 20 - 30% determined as the proportion of net debt to equity. Based on the committee's recommendations, the Group expects to decrease its gearing ratio closer to 5% through the exercise of the option pursuant to the terms of the loan agreement and the transfer of the right to purchase for the residential properties.

For the year ended 31st December, 2018

34. CAPITAL RISK MANAGEMENT (Continued)

The gearing ratio at the end of the reporting period is as follows:

	2018 HK\$'000	2017 HK\$'000
Total debt	293,058	53,567
Total equity	1,084,540	1,027,558
Gearing ratio	27.02%	5.21%

The Group's strategy is to maintain a solid capital base to support the operations and development of its business in the long term.

35. FINANCIAL INSTRUMENTS

Financial risk management objectives and policies

The Group's major financial instruments include trade and other receivables, cash and cash equivalents, trade and other payables, bank borrowings and loan from third parties. Details of the financial instruments are disclosed in respective notes. The risk associated with these financial instruments include market risk (including foreign exchange risk, fair value interest rate risk and cash flow interest rate risk), credit risk and impairment assessment and liquidity risk. The policies on how to mitigate these risks are set out below. The management of the Group manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.
For the year ended 31st December, 2018

35. FINANCIAL INSTRUMENTS (Continued)

Financial risk management objectives and policies (Continued) Market risk

Foreign exchange risk

The Group operates internationally and is thus exposed to foreign exchange risk arising from various currency exposures, primarily with respect to US\$ and VND. Foreign exchange risk arises when future commercial transactions, recognised assets, liabilities and net investments in foreign operations are denominated in a currency that is not the entity's functional currency.

The Group manages its foreign exchange risk by performing regular reviews of the Group's net foreign exchange exposures. The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk. Currency exposure arising from the net assets of the Group's foreign operations is managed primarily through borrowings denominated in the relevant foreign currencies.

In the opinion of the directors, HK\$ is reasonably stable with respect to US\$ under the Linked Exchange Rate System, and accordingly, the Company does not have any significant foreign exchange risk in respect of transactions or balances as denominated in US\$. Accordingly, no sensitivity analysis is performed.

At 31st December, 2018, if VND has strengthened/weakened by 5% against HK\$, with all other variables held constant, profit for the year would have been approximately HK\$8,317,000 (2017: HK\$9,242,000) higher/lower mainly as a result of foreign exchange gains/losses on translation of VND denominated net monetary assets.

Cash flow and fair value interest rate risk

The Group's cash flow interest rate risk primarily relates to bank balances as at 31st December, 2018 and 2017 and bank borrowings as at 31st December, 2018. The Group's fair value interest rate risk primarily relates to the obligations under finance leases.

The Group has not used any interest rate hedging policy to mitigate its exposure associated with interest rate risk. However, the management of the Group monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

In the opinion of the management of the Group, the expected change in interest rate will not have significant impact on the interest income on bank balances, hence sensitivity analysis is not presented. In addition, the management of the Company considers the fair value interest rate risk related to obligations under finance leases is insignificant.

For the year ended 31st December, 2018

35. FINANCIAL INSTRUMENTS (Continued)

Financial risk management objectives and policies (Continued) Market risk (Continued)

Cash flow and fair value interest rate risk (Continued)

Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for variablerate bank borrowings. The analysis is prepared assuming the amount of outstanding balances at the end of the reporting period is outstanding for the whole year. A 50 basis points (2017: 100 basis points) increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates has been 50 basis points (2017: 100 basis points) higher/lower and all other variables were held constant, the Group's profit for the year ended 31st December, 2018 would decrease/increase by HK\$145,000 (2017: HK\$448,000).

In the management's opinion, the sensitivity analysis is unrepresentative of the interest rate risk as the year end exposure does not reflect the exposure during the year.

Credit risk and impairment assessment

As at 31st December, 2018, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge obligations by the counterparties as at the end of the reporting period are arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

Trade receivables arising from contracts with customers

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that followup action is taken to recover overdue debts. Before accepting any new customer, the Group uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Limits and scoring attributed to customers are reviewed regularly. In addition, the Group reviews the recoverable amount of each individual debt at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. Under HKAS 39, impairment losses are made for irrecoverable amounts. Upon the application of HKFRS 9 on 1st January, the Group applies simplified approach on non-credit impaired trade receivables to provide for ECL prescribed by HKFRS 9 and assessed credit impaired balances individually. To measure the ECL, except for those which has been determined as credit impaired of HK\$20,284,000, trade receivables of HK\$184,710,000 are assessed individually for debtors with significant balance by reference to past default experience and current past due exposure of the debtor, and an analysis of the debtor's current financial position and collectively using a provision matrix for the remaining balances of HK\$58,612,000, which is grouped based on shared credit risk characteristics and the historical observed default rates adjusted for forward-looking estimates that is available without undue costs or effort. As part of the Group's credit risk management, the Group applies internal credit rating for its customers.

For the year ended 31st December, 2018

35. FINANCIAL INSTRUMENTS (Continued) Financial risk management objectives and policies (Continued) Credit risk and impairment assessment (Continued)

Trade receivables arising from contracts with customers (Continued) The Group's internal credit risk grading assessment comprises the following categories:

Internal credit rating	Description	Trade receivables	Other financial assets/ other items
Low risk	The counterparty has a low risk of default and does not have any past-due amounts	Lifetime ECL – not credit-impaired	12-month ECL
Watch list	Debtor frequently repays after due dates but usually settle after due date	Lifetime ECL – not credit-impaired	12-month ECL
Doubtful	There has been significant increase in credit risk since initial recognition through information developed internally or external resources	Lifetime ECL – not credit-impaired	Lifetime ECL – not credit-impaired
Loss	There is evidence indicating the asset is credit-impaired	Lifetime ECL – credit-impaired	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off	Amount is written off

For the year ended 31st December, 2018

35. FINANCIAL INSTRUMENTS (Continued)

Financial risk management objectives and policies (Continued) Credit risk and impairment assessment (Continued)

Trade receivables arising from contracts with customers (Continued)

The table below details the credit risk exposures of the Group's financial assets, which are subject to ECL assessment:

2018	Note	Internal credit rating	12-month or lifetime ECL	Gross carrying amount HK\$'000
Financial assets at amortised cost				
Trade receivables – goods and services	19	Low risk (Note 1)	Lifetime ECL (not credit impaired and assessed individually) Lifetime ECL (not credit impaired and assessed by provision	184,710
		Loss	matrix) Credit-impaired	58,612 20,284

Note:

1. For trade receivables, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. Except for debtors with significant outstanding balances or credit-impaired, the Group determines the ECL on these items grouped by internal credit rating and past due status.

For the year ended 31st December, 2018

35. FINANCIAL INSTRUMENTS (Continued)

Financial risk management objectives and policies (Continued) Credit risk and impairment assessment (Continued)

Trade receivables arising from contracts with customers (Continued)

The estimated loss rates are estimated based on historical credit loss experience of the debtors and are adjusted for forward-looking information (for example, the economics growth rates which reflect the general economic conditions of the industry in which the debtors operate) that is available without undue cost or effort. Such forward-looking information is used by the management of the Group to assess both the current as well as the forecast direction of conditions at the reporting date. The internal credit rating categories are regularly reviewed by the management of the Group to ensure relevant information about specific debtors is updated.

During the year ended 31st December, 2018, the Group provided HK\$2,292,000 impairment allowance for trade receivables. Impairment allowance of HK\$1,263,000 and HK\$11,077,000 were made on debtors with significant balances and credit impaired debtors respectively.

The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the trade receivables are over two years past due, whichever occurs earlier.

The following table shows the movement in lifetime ECL that has been recognised for trade receivables under the simplified approach.

	Lifetime ECL (not credit- impaired) HK\$'000	Lifetime ECL (credit– impaired) HK\$'000	Total HK\$'000
As at 31st December, 2017 under HKAS 39	1,433	6,614	8,047
Adjustment upon application of HKFRS 9	1,445	682	2,127
As at 1st January, 2018 – As restated Changes due to financial instruments recognised as at 1st January:	2,878	7,296	10,174
 Impairment losses recognised 	2,292	11,077	13,369

– Write-offs	(540)	-	(540)
Exchange adjustments	(7)	_	(7)
As at 31st December, 2018	3,655	18,373	22,028

For the year ended 31st December, 2018

35. FINANCIAL INSTRUMENTS (Continued)

Financial risk management objectives and policies (Continued) Credit risk and impairment assessment (Continued)

Bank balances

The credit risk for bank balances as at 1st January, 2018 and 31st December, 2018 is considered as not material as such amount is placed in reputable banks with high credit ratings assigned by international credit-rating agencies. There has been no history of default in relation to these banks and thus the risk of default is regard as low. No loss allowance provision for bank balances was recognised upon application of HKFRS 9 as at 31st December, 2018.

Other than concentration of credit risk on liquid funds which are deposited with several reputable banks, the Group had concentration of credit risk on trade receivables as 27% (2017: 40%) of the total trade receivables were due from the Group's largest customers based in the United States and 81% (2017: 84%) of the total trade receivables were due from the Group's largest five customers, which were mainly based in the United States and Canada, as at 31st December, 2018.

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents and the availability of funding through an adequate amount of committed credit facilities.

The Group's primary cash requirements have been for the addition of and upgrade on property, plant and equipment, payment on related debts and payment for purchases and operating expenses. The Group finances its working capital requirements through a combination of internal resources and bank borrowings, as necessary.

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure it maintains sufficient cash and cash equivalents and has available funding through adequate amount of committed credit facilities to meet its working capital requirements.

For the year ended 31st December, 2018

35. FINANCIAL INSTRUMENTS (Continued)

Fair value estimation

The carrying amounts of the Group's financial assets, including cash and cash equivalents, trade and other receivables, the Group's financial liabilities, including trade and other payables, bank borrowings, loan from third parties and obligations under finance leases, approximate their fair values due to their short maturities.

The nominal values less any estimated credit adjustments for financial assets and liabilities with a maturity of less than one year are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

For the year ended 31st December, 2018

36. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

The table below details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Group's consolidated statement of cash flows as cash flows from financing activities.

40. SUBSEQUENT EVENTS

Pursuant to the term of the loan from third parties as disclosed in note 28, the lenders are entitled to the option (the "Option") to obtain the right to purchase for the residential properties in its current state (the "Right to Purchase") so as to make good of the loan principal of RMB225,000,000 (equivalent to HK\$256,556,000) and the relevant accrued interest payable amounting to RMB7,040,000 (equivalent to HK\$8,027,000) in full. On 15th March, 2019, the lenders exercised the Option and the transfer of the Right to Purchase has been completed on the same date. Under the terms of the loan agreement, upon the exercise of the option, the lenders undertook not to pursue any outstanding loan amounts against the Group.
