Chairman's Statement 主席報告

Dear Valued Shareholders,

On behalf of the board of directors ("**Directors**") of S&P International Holding Limited ("**Company**" or "**S&P International**"), it is my pleasure to present to you the annual report of the Company and its subsidiaries (collectively, "**S&P Group**" or "**Group**") for the financial year ended 31 December 2018 ("**FY2018**").

The Group is engaged principally in manufacturing and distribution of coconut-based food products. Coconut products in both powder and milk form, are traditionally consumed as an ingredient for preparation of curry-based food, pastry, biscuits and desserts, particularly in the Asian countries. In some countries, coconut milk is consumed as a key component of people's dietary habits. Lately, coconut-based beverage has become increasingly popular over traditional carbonated beverages.

INDUSTRY OVERVIEW AND BUSINESS OUTLOOK

Consumption of coconut based food products is projected to keep expanding in the foreseeable future arising from increasing recognition of the nutritional benefits of coconut and related food products in most parts of the world.

A substantial part of the total global coconut production comes from the Asia Pacific region. In response to the growing potential of the crop, governments in the region (including Malaysia) have initiated programs and provided various incentives to encourage coconut planting and downstream processing activities. These industry developments augur well for the continuing growth and expansion of the Group's operations.

GROUP BUSINESS DIRECTION

We are committed to produce coconut products of the highest quality and continuously improve our work processes so as to be sensitive to the needs of our customers. In this regard, the management team places significant emphasis on research and development ("**R&D**") efforts as well as product innovation to cater to evolving consumer preferences.

尊敬的股東:

本人謹代表椰豐集團有限公司(「本公司」或 「椰豐」)董事(「董事」)會欣然向 閣下呈列 本公司及其附屬公司(統稱「椰豐集團」或 「本集團」)截至二零一八年十二月三十一日 止財政年度(「二零一八年財政年度」)之年 報。

本集團主要從事製造及分銷椰類食品。椰 類食品(包括椰粉及椰奶)通常用作配料, 製造咖哩食品、糕點、餅乾及甜點,尤其在 亞洲國家頗為流行。而在部分國家,椰奶是 人們的主要日常餐飲之一。最近,椰汁成為 較傳統碳酸飲料更加受歡迎的飲品。

行業概覽及業務展望

於可見未來,隨著全球大部分地區日益認 識到椰子及有關食品的營養價值,椰類食 品消耗量預期將不斷增加。

全球絕大部分椰子產自亞太地區。因應其 龐大增長潛力,該地區(包括馬來西亞)政 府制定計劃和提供各種獎勵,鼓勵椰子種 植及下游加工業務的發展。該等行業動態 預示著本集團業務將持續增長和擴張。

集團業務方針

我們致力生產最佳品質的椰類產品,持續 完善工作流程,快速把握客戶需求。為此, 管理團隊高度重視研究及發展(「研發」)工 作以及產品創新能力,以滿足不斷提升的 客戶偏好。

Chairman's Statement (continued) 主席報告(續)

In tandem with the positive outlook of the industry, S&P Group continues to execute its strategy aimed at enhancing capacity, capability and efficiency of its supply chain and distribution channel and widening its range of products. As part of the Group's long-term growth strategy to respond to the fast-growing domestic and export market, the Company undertook a plant upgrading and expansion project at its Perak Plant which is expected to be completed in the second half of 2019. In addition to coconut cream powder (CCP), the expanded plant would produce coconut milk and coconut water.

The Group is also committed to widen its distribution channels in fast rising consumption and under-represented countries progressively in the coming years. Presently, our products are exported to more than 40 countries worldwide. We believe that the export market will continue to be the main source of the Group's revenue growth.

As a responsible corporate citizen, we are committed to create value for the communities in which we operate in a sustainable and environmentally friendly manner. In this regard, we utilize renewable energy resources, including deployment of a biomass boiler (to replace fossil fuels), recycling and reuse of by-products.

In short, we believe, with the benefit of the plant upgrade and expansion, enhanced supply chain arrangement and management processes, and focused marketing strategies developed, the Group is well placed to grow and take advantage of the positive industry outlook in the foreseeable future.

FINANCIAL PERFORMANCE

FY2018 has been anything but a challenging year. The management team was pre-occupied very much by focused attention on two key areas. Firstly, the management of effects arising from unforeseen sudden depressed demand for coconut food products in certain Middle Eastern countries. This sudden drop in demand was caused by repatriation of a huge number of foreign labourers triggered by a change in labour regulations by Governments of these countries. Corrective actions to mitigate the impact of the depressed demand have been initiated and is now beginning to take effect. Next, the management team was also actively engaged in the Perak plant upgrading and expansion project. To manage the upgrading and expansion project and in preparation for commissioning of the upgraded plant, appropriate personnel have been brought on board.

結合行業的廣闊發展前景,椰豐集團繼續 執行其策略,努力提升其供應鏈及分銷渠 道的能力、實力及效率,同時豐富其產品範 圍。作為本集團應對國內外市場快速增長 的長期發展策略之一,本公司啟動霹靂工 廠的升級擴容項目,預期將於二零一九年 下半年完成。擴容後,工廠不僅生產椰漿 粉,還生產椰奶及椰汁。

未來數年,本集團亦致力在消費迅速增長 但其發展不足的國家積極擴闊分銷渠道。 目前,我們的產品出口全球40多個國家。我 們認為出口市場將繼續為本集團收益增長 的主要來源。

作為負責任的企業公民,我們致力持續經營及努力減少對環境的影響,為業務所涉 地區創造價值。為此,我們利用可再生能 源資源,包括配置生物質鍋爐(代替化石燃 料),回收利用副產品。

總之,我們認為,有賴於工廠的升級擴能、 供應鏈安排及管理流程的持續完善及已制 定市場營銷策略的貫徹執行,本集團可於 可見未來實現增長及把握良好行業前景。

財務表現

二零一八年財政年度是充滿挑戰的一年。 管理團隊主要圍繞兩個主要領域開展工 作。首先,管理若干中東國家對椰類食品需 求驟然下跌的影響。需求驟跌主要是由於 該等國家政府修改勞動法導致大量外來勞 工遣返所致。本集團已採取應對措施,減低 需求低迷的影響,目前已見成效。其次,管 理團隊亦積極參與霹靂工廠的升級擴容項 目。為管理升級擴容項目及籌備升級後工 廠的試運行,董事會已相應補充適當人選。

Chairman's Statement (continued) 主席報告(續)

The Group's revenue was approximately RM80.0 million for FY2018, representing a decrease of approximately 16.9%, or RM16.2 million, when compared with that for FY2017 of approximately RM96.2 million (as restated). The decrease in sales was largely attributed to a drop in sales volume of coconut related products caused by the unforeseen event as said above.

The Group's cost of sales decreased by approximately 16.7%, or RM10.8 million, from approximately RM65.0 million for FY2017 to approximately RM54.2 million for FY2018, in tandem with the decrease in the sales volume and a drop in the price of the Group's major raw materials, namely coconuts and white kernel. However, total gross profit for FY2018 decreased by approximately 17.3%, or RM5.4 million when compared with that for FY2017 in tandem with the decrease in revenue and the impact of additional overheads incurred in relation to implementation of the plant upgrade and expansion project.

Further explanation of our Group's financial performance of FY2018 is provided in the 'Management Discussion and Analysis' section of this annual report.

APPRECIATION

On behalf of my fellow Directors, I would thank all our staff in S&P Group, for their devotion and faithful commitment, for the Group's achievements in 2018, despite the abovesaid challenges.

I would also like to extend my gratitude to our valued customers, business associates and government bodies for their steadfast support. To our shareholders, we thank you for your confidence in S&P International. We shall commit ourselves to create sustainable shareholder value and solid financial performance in the years ahead. Last but not least, my heartfelt appreciation also goes to my fellow Directors for their guidance, advice and insight in steering the Group forward.

Mr. Tang Koon Fook Chairman and Executive Director Hong Kong, 29 March 2019 本集團二零一八年財政年度的收益約為 80.0百萬馬來西亞令吉,較截至二零一七年 財政年度的約96.2百萬馬來西亞令吉(重列) 減少約16.9%或16.2百萬馬來西亞令吉。銷 售額減少主要是由於上述不可預見事件導 致椰子相關產品的銷量下降所致。

本集團的銷售成本由二零一七年財政年度 的約65.0百萬馬來西亞令吉減少16.7%或 10.8百萬馬來西亞令吉至二零一八年財政 年度的54.2百萬馬來西亞令吉,與銷量下降 及本集團主要原材料(椰子及白椰肉)價格 下跌一致。然而,二零一八年財政年度的)價格 下跌一致。然而,二零一八年財政年度的毛 利總額較二零一七年財政年度減少約17.3% 或5.4百萬馬來西亞令吉,與收益減少一 致,而因實施工廠升級擴容項目導致額外 間接成本也是影響毛利的原因之一。

有關本集團於二零一八年財政年度財務表 現的進一步説明載於本年報「管理層討論及 分析」一節。

致謝

本人謹代表董事仝仁,感謝椰豐集團全體 員工克服重重困難,為本集團二零一八年 成就而努力貢獻及忠於職守。

本人亦想感謝我們寶貴客戶、業務聯繫人 及政府部門的堅定支持。就股東而言,感 謝 閣下對椰豐集團寄予的信心。未來我們 將努力締造可持續的股東價值及穩健的財 務表現。最後,本人亦衷心感謝董事仝仁為 推動本集團發展所提供的指引、意見及見 解。

Pre-production phase (packaging and raw materials)

24

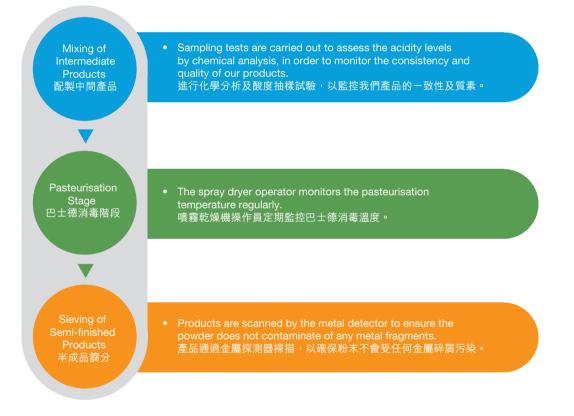

All incoming raw materials are gone through our quality assessment before use. Coconuts and white kernels are checked in respect of their weight, acidity level, physical appearance and odour. For other raw ingredients, they are checked based on their certificates or labels prepared by the suppliers to ensure that they match with the description of goods ordered, physical condition, moisture content and manufacturing date. For food packaging materials, swab tests and microbiological analysis will be conducted. If any products are found to be problematic, they would be managed separately.

Production phase (intermediate products)

生產前階段(包裝及原材料)

所有入庫原材料於使用前均通過我們的質 量評估。就椰子及白椰肉而言,我們會檢 查重量、酸度、外觀及氣味。就其他原料而 言,我們會根據供應商提供的化驗證書、標 簽進行檢查,以確保與所訂購產品一致,並 會檢查其物理狀況、含水量及製造日期。 就食品包裝材料而言,我們會進行拭子試 驗及微生物分析,如發現任何產品存在問 題,則會予以隔離。

生產階段(中間產品)

25

Environmental, Social and Governance Report (continued) 環境、社會及管治報告(續)

Post-production phase (finished products)

For finished products, a final comprehensive test will be conducted by our Quality Control Department. Random sampling checks and physicochemical analysis are carried out on various aspects, including acidity and moisture levels, density, solubility, carbohydrate, protein and fat content, and presence of ash. A final microbiological test is also carried out to examine any presence of bacteria and pathogens, such as E.coli, coliform, salmonella, yeast and mould.

Food packaging plays a vital role in preserving food throughout the distribution chain. For the packaging of our finished products, we use different kinds of packaging materials, including PE bag, Woven Bag, Kraft Paper, Carton Box and Aluminium Foil. We have approximately 230 types of packaging materials purchased from suppliers with good credentials. In order to ensure that the packaging materials are readily available and maintained at an ideal level, we keep track on all incoming and outgoing inventories.

生產後階段(製成品)

就製成品而言,質量控制部門將進行最終 全面測試,並就多個方面進行隨機抽樣檢 查及理化分析,包括酸度及含水量、密度、 溶解度、碳水化合物、蛋白質及脂肪含量 以及含灰量。同時亦會進行最後微生物測 試,檢查有否存在任何大腸桿菌、大腸菌、 沙門氏菌、酵母菌及黴菌等細菌和病原體。

食品包裝於整個分銷鏈中在保存食品方面 至關重要。就我們製成品的包裝而言,我們 使用不同種類的包裝材料,包括塑料袋、編 製袋、牛皮紙、紙箱及鋁箔。我們從有良好 資質的供應商採購約230種包裝材料。為維 持包裝材料隨時備用及理想的庫存量,我 們會跟蹤所有存貨的流入及流出。

ENVIRONMENT

Under the trend of low-carbon and energy-saving development, the Group is not aware of any non-compliance with relevant national laws and regulations related to environmental protection in Malaysia, including Environmental Quality (Industrial Effluent) Regulations, Environmental Quality (Clean Air) Regulations & Environmental Quality Act.

26

We incorporate the energy conservation and low-carbon concept into every aspect of our operation and continue to optimize use of resources. Facing the evolvement of regulatory requirement and the rising expectation of stakeholders on environmental issues, we had established a systematic and quantitative approach to manage our environmental emissions and resources.

We have appointed an independent registered energy service company to conduct an Energy Audit during the Reporting Period. In order to secure the improvement of energy management for the good energy saving investment, six energy conservation measures have been identified. They include:

Air leakage management on the Compressor;
 Maintenance and comprehensive cleaning on the Pump;
 Improvement on Sustainable Energy Management System;
 Comprehensive maintenance on the Chiller;
 Excess air improvement on the Boiler; and
 Resized and retrofit to High Efficiency Motor

All of these measures will be implemented by stages. We believe we will be able to reduce energy consumption by around 10% after implementing these energy conservation measures.

During the Reporting Period, we purchased water from municipal water supply and faced no difficulties in sourcing water.

環境

在低碳節能的發展趨勢下,本集團未發現 任何違反馬來西亞環境保護相關國家法律 及法規的情況,包括《環境質量(工業污水) 規例》、《環境質量(潔淨空氣)規例》及《環境 質量法》。。

我們將節能低碳理念融入我們營運的各個 環節,不斷優化資源使用。面對有關環境 事宜的監管規定的演變及利益相關者預期 日益增加,我們已建立一套系統化定量方 針,以管理環境排放物及資源。

於報告期間,我們已委任獨立註冊能源服 務公司進行能源審計。為改善能源管理以 實現良好的節能投資,我們已確定了六項 節能措施,包括:

- (1) 壓縮機的漏氣管理;
- (2) 泵的維護及全面清潔;
- (3) 改善可持續能源管理體系;
- (4) 冷凍機的全面維護;
- (5) 改善鍋爐空氣過剩;及
- (6) 高效引擎調整及改造

所有該等措施將分階段實施。我們相信,在 實施該等節能措施後,我們能夠將能耗降 低約10%。

於報告期間,我們向市政供水購水,在求取 水源方面沒有遇到任何困難。

Emission Management

The Group continues to step up efforts to control air emission and effluent discharge, so as to minimize pollution arisen during operation. In accordance with the Environmental Quality (Industrial Effluent) Regulation 2009, no party shall discharge effluent to water body beyond the designated condition. In order to perform close monitoring on the discharge level, we conduct effluent analysis twice a month, with the use of analysis parameters which include Chemical Oxygen Demand (COD), Biochemical Oxygen Demand (BOD) and pH.

The Group's main air and greenhouse gas emission is generated from the operation of biomass boiler, use of diesel forklift and purchased electricity. In this regard, we had adopted smoke density meters to monitor the air emission regularly. Moreover, we had entrusted a third party laboratory to conduct Isokinetic stack sampling and air emission monitoring regularly so as to comply with the requirements of the Environmental Quality (Clean Air) Regulations 2014.

To strengthen our monitoring process, we had installed a Continuous Emission Monitoring (CEM) System at our key emission exhaust. This system helps to monitor multiple gas species simultaneously and reduce the number of workforces for monitoring. If there is any abnormal result noted, an ERCMC meeting will be held immediately to identify and adopt the rectification measures as soon as practicable.

Waste Management

Our hazardous waste is mainly produced during the production process, including disposed containers, bags or equipment contaminated with chemicals, pesticides, mineral oil or scheduled wastes, which its hazardous waste code is SW409 as stated in the Environmental Quality (Scheduled Wastes) Regulations 2005. It is stored in an individual cabin which is separated from other non-hazardous wastes. All hazardous wastes are placed on pallet to avoid contact with the floor. A qualified third party is responsible for the collection and handling those hazardous wastes on a regular basis.

Industrial effluent is the primary waste generated from our production process at the Perak Plant. It is generated from our Clean-in-place (CIP) system, which discharges nitric and caustic acid, and generated from the process of cleaning our white kernels. We treat the industrial effluent with our on-site industrial effluent treatment plant carefully before discharge.

排放物管理

本集團繼續加大力度控制氣體排放及污水 排放,以盡量減少運營期間產生的污染。 根據《二零零九年環境質量(工業污水)規 例》,任何人不得將污水排放至超出指定狀 況的水體。為密切監測排放水平,我們使用 化學需氧量(COD)、生化需氧量(BOD)及酸鹼 度(pH)等分析參數,每個月進行兩次污水分 析。

本集團的主要空氣及溫室氣體排放來自 生物質鍋爐的運作、柴油叉車的使用及購 電。就此而言,我們使用煙霧密度測量器定 期監測氣體排放。此外,我們委託第三方實 驗室定期進行等速煙道採樣及氣體排放監 測,以遵守《二零一四年環境質量(潔淨空 氣)規例》的要求。

為加強我們的監督程序,我們於主要排氣 裝置上安裝連續排放監測系統。該系統有 助同時監測多種氣體,並減少監督人員數 量。如發現任何異常結果,將立即召開環境 監管合規監督委員會會議,以便在可行情 況下盡快確定並採取整改措施。

廢棄物管理

我們的有害廢棄物主要在生產過程中產 生,包括棄置容器、袋子、受化學品、農 藥、礦物油污染的設備或《二零零五年環境 質量(計劃內廢棄物)規例》所載有害廢棄物 代碼為SW409的廢棄物。有害廢棄物存放 在與其他無害廢棄物分開的獨立屋內。所 有有害廢棄物均放在托盤上,以避免與地 板接觸。合資格第三方負責定期收集及處 理該等有害廢棄物。

工業污水為霹靂工廠生產過程中產生的主 要廢棄物,產生自我們的就地清洗系統(該 系統排放含氮及腐蝕性酸性液體),以及在 清洗白椰肉過程中產生。在排放前,我們在 現場工業污水處理廠小心處理工業污水。

Residual ash is generated during the combustion of coconut shells, in the biomass boiler. The ash would be collected together with other general waste by a third party for disposal and recycling. To monitor the ash generation, a monitoring system has been installed as requested by the Department of Environment in Malaysia. Also, the biomass boiler is examined by the Department of Environment and the Department of Occupational Safety and Health in Malaysia every year.

30

Mitigation Measures

By formulating the system for energy utilization and implementing measures on energy conservation and emission reduction, the Group continues to improve energy efficiency and push forward low-carbon operation:

Energy-saving

- Give priority to cooling equipment with lower energy consumption and highly efficient electronic appliances
- Use natural light in office as far as possible
- Advocate the application of energy-saving lamps
- Use teleconference or email instead of overseas business trips
- Remind employees to turn off all air-conditioners and power supply during the non-office hours

Water conservation

- Give priority to water-saving equipment and products in the office area
- Promote the water saving idea to all staffs
- Place the poster with the reminder of "Conserve water" near the taps of each water supply system, such as canteen area, sinks, etc
- Install water-saving taps and sanitary fittings and properly design the water supply and drainage systems

椰子殼在生物質鍋爐燃燒時會產生殘灰, 殘灰連同其他一般廢棄物由第三方收集進 行處置及回收。為監測殘灰的產生,我們 按照馬來西亞環境部門的要求安裝監測系 統。此外,生物質鍋爐由馬來西亞環境部門 及職業安全及健康部門每年進行檢查。

減低措施

本集團通過制定能源使用制度及實施節能 減排措施,不斷提升能源效率,踐行低碳運 營:

節能

- 優先考慮低能耗的冷卻設備及高效能 電器
- 辦公室儘可能使用自然光
- 提倡使用節能燈
- 以電話會議或電子郵件代替海外商務
 差旅
- 提醒僱員在非辦公時間關閉所有空調
 及電源

節水

•

- 在辦公區域優先考慮節水設備及產品
- 向所有員工推廣節水理念
- 在餐廳、水池等各項供水系統的水龍 頭附近張貼「節約用水」的提示海報
- 安裝節水型水龍頭及衛生設施,妥善 設計供水及排水系統

Environmental, Social and Governance Report (continued) 環境、社會及管治報告(續)

Reduction of paper use

- Adopt electronic document filing system
- Promote the use of electronic communication means for announcement publishing, event reporting, recommendation solicitation and feedback
- Promote the reuse of file folders, envelopes and other stationery

Others

- Hold "Environmental Day" to share knowledge, tips and information on environment protection through fun games and video sharing
- Share tips on saving the environment to all employees by email on a monthly basis
- Encourage employees to bring their own cups and tableware, and avoid using disposable utensils or plastic containers

While highlighting management of energy conservation and emission reduction in operation, we strive to minimize wastes and extend the waste life cycle by implementing different waste reduction measures.

In order to reduce waste production, we pay great effort to fully utilize every single coconut. By adopting the waste-to-energy technology, we use biofuel as our main fuel instead of fossil fuel since 2013. We collect and burn the coconut shells and woodchips as bio-fuel for our biomass boiler to produce heat. With the introduction of biomass boiler and the combustion of coconut shells, we have reduced fuel costs to a great extent.

We are committed to advocating the green and low carbon concept to our stakeholders. Thus, we have initiated the awareness program on environmental policies at our HQ and the Perak Plant since last year. We share environmental policies and data analysis review at the billboard and entrance of our HQ and the Perak Plant. We also encourage our employees to participate in the training regarding environmental protection held by the Department of Environment in order to raise their environmental protection awareness. We strive to promote the public the low carbon, green, sustainability and other environmental protection concepts.

減少用紙

- 採用電子文件存檔系統
- 倡導利用電子通訊的方式進行通告發 佈、事項報告、建議徵收及反饋
- 提倡重複使用檔案夾、信封及其他文 具

其他

- 舉辦「環境日」,通過有趣的遊戲及視 頻分享,分享有關環保的知識、貼士 及資料
- 每月透過電子郵件與全體僱員分享有 關拯救環境的貼士
- 鼓勵僱員自備杯子及餐具,避免使用 一次性餐具或塑料餐具

在強調運營中的節能減排管理的同時,我們通過實施不同的減廢措施, 盡最大努力減少廢棄物,延長廢棄物 適用週期。

為減少廢棄物產生,我們力求全面利 用每一個椰子。我們採用廢棄物再生 能源技術,自二零一三年以來改用生 物燃料代替化石燃料作為主要燃料。 我們收集及燃燒椰殼及木屑作為產生 熱量的生物質鍋爐的生物燃料。隨著 生物質鍋爐的使用及燃燒椰子殼,我 們在很大程度上降低了燃料成本。

我們致力於向我們的利益相關者倡導 綠色低碳理念。因此,自去年以來, 我們已於總部及霹靂工廠啟動環境政 算認知計劃。我們在公告牌及總部及 霹靂工廠入口處分享環境政策及數 據分析概覽。我們亦鼓勵僱員參加由 環境部門舉辦的環保培訓,以提高 環保意識。我們致力於向公眾倡導 低 碳、綠色、可持續發展及其他環保理 念。

The Group also manufactures other food products such as non-dairy creamer and other traditional South-east Asian traditional food ingredients such as rice dumplings (ketupat) and toasted coconut paste (kerisik).

The Group is committed to delivering high quality and safe food products and services, meeting customers' expectations and complying with legal requirements, and continually improving customers' satisfaction and having a quality management team. In this regard, the Group has been accredited with various certifications in relation to quality management and food safety.

FINANCIAL REVIEW

The Group's revenue was approximately RM80.0 million for FY2018, representing a decrease of approximately 16.9%, or RM16.2 million, when compared with that for FY2017 of approximately RM96.2 million (as restated). The decrease in sales was largely attributed to a drop in sales volume of coconut related products, as discussed in the section below.

The Group's cost of sales decreased by approximately 16.7%, or RM10.8 million, from approximately RM65.0 million for FY2017 to approximately RM54.2 million for FY2018, which was in tandem with the decrease in the sales volume and a drop in the price of the Group's major raw materials, namely coconuts and white kernel. Total gross profit for FY2018 decreased by approximately 17.3%, or RM5.4 million when compared with that for FY2017 in tandem with the decrease in revenue.

Meanwhile, the gross profit margin of the Group remained stable for FY2018 at 32.3% (FY2017: 32.4%, as restated).

Revenue for such products for FY2018 was approximately RM78.7 million, representing a drop of approximately RM16.0 million as compared to that for FY2017 of approximately RM94.7 million (as restated). The decrease in revenue for coconut related products was attributed primarily due to the drop in sales volume from certain overseas markets resulting from the change in market conditions thereat.

50

Other revenue are mainly made up of sales of ketupat, freight charges to customers and sales of miscellaneous items. In FY2018, other revenue was approximately RM1.3 million, representing a marginal drop of RM0.2 million from RM1.5 million posted in FY2017.

Selling and distribution expenses

Administrative expenses

In FY2017, the Group's administrative expenses was RM20.0 million, which can be categorised into one-off Listing expenses of approximately RM13.2 million and recurring administrative expenses of approximately RM6.8 million. The Group's administrative expenses for FY2018 were approximately RM10.8 million, which represented an increase of approximately RM4.0 million over the recurring administrative expenses of FY2017. Such increase was due to an increase in staff and other related costs in line with the Group's factory and sales expansion plans.

椰子相關產品

本集團收益主要來自椰子相關產品。二零 一八年財政年度的該等產品收益為約78.7 百萬馬來西亞令吉,較二零一七年財政年 度的約94.7百萬馬來西亞令吉(經重列)減 少約16.0百萬馬來西亞令吉。椰子相關產品 收益減少乃主要歸因於市況變化導致若干 海外市場的銷量下降。

其他收益主要包括銷售馬來粽(ketupat)、向 客戶支付的貨運費及銷售其他項目。於二 零一八年財政年度,其他收益約為1.3百萬 馬來西亞令吉,較二零一七年財政年度的 1.5百萬馬來西亞令吉微跌0.2百萬馬來西亞 令吉。

Management Discussion and Analysis (continued) 管理層討論及分析(續)

Other expenses

The Group's other expenses for FY2018 were approximately RM2.6 million, which were mainly made up of net foreign exchange loss and an impairment loss on goodwill of approximately RM0.5 million. The net foreign exchange loss arose primarily from the fluctuation of RM against the United States Dollar ("**US\$**") during FY2018.

Net finance income/(costs)

In FY2018, the Group recorded net finance income of RM0.6 million, as compared to net finance costs of RM0.2 million in FY2017. This net income was primarily derived from interest earned on unutilised net proceeds received by the Company from the IPO exercise (the "**Net Proceeds**"), pending their deployment for the Group's expansion plans.

Income tax expense

The Group's income tax expense decreased by approximately 39.5%, or RM1.7 million from approximately RM4.3 million for FY2017 to approximately RM2.6 million for FY2018, which was primarily in line with a decrease in the taxable profit as the one-off Listing expenses in FY2017 was not tax deductible.

Profit Attributable to equity Shareholders

The Group recorded a profit attributable to equity shareholders of the Company (the "**Shareholders**") of approximately RM6.3 million for FY2018, as compared to a profit of approximately RM0.2 million in FY2017 (as restated). This was attributable mainly to the one-off and non-recurring Listing expenses of approximately RM13.2 million incurred during FY2017 but the profit in FY2018 was offset by the lower gross profit and higher administrative expenses in FY2018.

FUTURE PROSPECTS AND STRATEGIES

The Group intends to grow and expand in tandem with the growing coconut related products industry. Initiatives have been put in place to capitalise on the vibrant industry outlook. The areas on which the management team places emphasis are, amongst others, widening of the global distribution network and strengthening of the Group's product innovation and development capabilities, and talent development and management initiatives to ensure sustainable growth of the Group.

其他開支

本集團於二零一八年財政年度的其他開支 約為2.6百萬馬來西亞令吉,主要為外匯虧 損淨額及商譽減值虧損約0.5百萬馬來西亞 令吉。外匯虧損淨額主要產生自二零一八 年財政年度馬來西亞令吉兑美元(「美元」) 匯率波動。

財務收入/(成本)淨額

於二零一八年財政年度,本集團錄得財務 收入淨額0.6百萬馬來西亞令吉,而於二零 一七年財政年度則錄得財務成本淨額0.2百 萬馬來西亞令吉。此收入淨額主要為本公 司自首次公開發售獲取的未動用所得款項 淨額(「**所得款項淨額**」)賺取的利息,該等款 項有待用作本集團的擴張計劃。

所得税開支

本集團的所得税開支由二零一七年財政年度的約4.3百萬馬來西亞令吉減少約39.5% 或1.7百萬馬來西亞令吉至二零一八年財政 年度的約2.6百萬馬來西亞令吉,此乃主要 由於二零一七年財政年度不可扣税的一次 性上市開支導致應課税溢利減少所致。

權益股東應佔溢利

本集團於二零一八年財政年度錄得本公司 權益股東(「股東」)應佔溢利約6.3百萬馬來 西亞令吉,而二零一七年財政年度則錄得 溢利約0.2百萬馬來西亞令吉(經重列)。此 乃主要歸因於二零一七年財政年度產生的 一次性及非經常性上市開支約13.2百萬馬 來西亞令吉,惟二零一八年財政年度的溢 利被二零一八年財政年度的毛利減少及行 政開支增加所抵銷所致。

未來前景及策略

本集團擬跟隨不斷增長的椰子相關產品行 業而發展壯大,並已採取措施充分利用充 滿活力的行業前景。管理層重點關注的領 域包括擴大全球分銷網絡,增強本集團的 產品創新及研發能力以及人才發展及管理 力度,以確保本集團的可持續發展。

ENVIRONMENTAL POLICIES

Climate change could influence the food security and food supply chain in varying extent. Along the food supply chain, energy, water and other resources are consumed at every step to transport, prepare and package. In light of this, the Group has taken initiatives that facilitate adherence of our operations on the environment to relevant laws and regulations such as Environmental Quality (Industrial Effluent) Regulations 2009 in Malaysia. Additionally, evolving regulatory requirements and escalating stakeholders' expectations on environmental issues serve as the impetus for establishing a systematic and quantitative approach to manage the resources consumed and environmental emissions.

The Group has also dedicated its effort to review and monitor the Group's environmental, social and governance ("**ESG**") policies and practices to ensure compliance with the relevant legal and regulatory requirements as described in Appendix 27 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**" and the "**Listing Rules**", respectively).

PRINCIPAL RISKS AND UNCERTAINTIES

The Directors are aware that the Group's financial condition, results of operation, businesses and prospects may be affected by a number of risks and uncertainties. The key risks and uncertainties identified by the Group are set out as follows:

Price fluctuation in and shortage of raw materials and perishability of coconuts may materially and adversely affect business operations

The coconut-related food manufacturing industry depends on a sufficient supply of major raw materials, namely coconuts and white kernels, at commercially reasonably prices. If our suppliers for any particular raw material are unable or unwilling to meet our requirements, we could suffer shortages or significant cost increases. In addition, any shortage or disruption in our supply of coconuts and other raw materials could affect our performance and our ability to satisfy the purchase orders of our customers, which may adversely affect our profitability, results of operations and financial condition.

此外,本集團亦致力於以公平、負責及透明 的方式與其主要利益相關者進行合作及經 營其業務。

本集團於本年度的環境、社會及管治表現 詳情載於本年報第17至48頁的「環境、社會 及管治報告」。

主要風險及不確定因素

董事認為本集團的財務狀況、經營業績、業務及前景或會受到一系列風險及不確定因素的影響。本集團識別的主要風險及不確 定因素載列如下:

(i) 原材料價格波動及短缺以及 椰子的易腐性或會對業務營 運造成重大不利影響

椰子系列食品製造行業有賴按商業 合理價格充足供應主要原材料(即椰 子及白椰肉)。倘任何特定原材料(即 應商無法或不願滿足我們的需求,我 們可能會遭受短缺或成本大幅上漲。 此外,我們的椰子及其他原材料供應 有任何短缺或中斷,可能會影響我們 的業績及我們應付客戶採購訂單的能 力,或會對我們的盈利能力、經營業 績及財務狀況造成不利影響。

Coconut is a perishable raw material which may deteriorate due to delivery delays, or poor handling during transportation by suppliers or logistic partners. This may result in failures to operate production of coconut products, thereby damaging our business and/or reputation. If any raw materials or finished products are alleged or found to be spoiled, contaminated, tampered with, incorrectly labelled, unsafe or otherwise associated with food safety incidents, we could be subject to product liability claims, adverse publicity and regulatory investigation, intervention or penalties or product returns, any of which may result in decreased profitability as well as damage to our brands and reputation.

82

(ii) Our industry is subject to changes in legislative requirements and laws, national health and safety standards in Malaysia and the respective jurisdictions, where our products are sold

The coconut-related food manufacturing industry in Malaysia is subject to the local food safety laws and regulations. Please refer to "Regulatory overview" of the prospectus of the Company dated 29 June 2017 (the "Prospectus") for further details of the relevant food safety laws and regulations. Failure to meet the government requirements or any instance of contamination could occur in our operations or those of distributors or suppliers. This could result in fines, suspension of operations, loss of production permits, and in more extreme cases, criminal proceedings against our Group and our management. Moreover, negative publicity could be generated from false, unfounded or normal liability claims or limited recalls. Any of those failures or occurrences could negatively affect our business and financial performance. The Group is also subject to stringent legislative requirements and relevant laws in the jurisdictions where our products are being sold. Any changes in the foreign government's policies and measures that are unfavourable to the industry may have an adverse effect on our production process and also our sales and profitability.

(ii) 我們所處行業受馬來西亞及 產品銷售所在相關司法權區 的法律規定及法律、國家健 康及安全標準的變動所影響

馬來西亞的椰子系列食品製造行業受 當地食品安全法律及法規所規限。有 關相關食品安全法律及法規的進一步 詳情,請參閱本公司日期為二零一七 年六月二十九日的招股章程(「招股章 **程**」)「監管概覽」。我們、分銷商或供 應商的營運中可能會出現無法滿足政 府規定或受污染的情況。這或會導致 罰款、暫停營業、失去生產許可證, 更嚴重的是對本集團或管理層提出刑 事訴訟。此外,虚假、無事實依據或 普通的責任申索或有限的召回可能會 促成負面報導。出現任何該等情況或 事件均可能對我們的業務及財務表現 造成負面影響。本集團亦受產品銷售 所在司法權區的嚴格法律規定及相關 法律所規限。外國政府政策或措施出 現任何不利於行業的變動,可能會對 我們的生產程序及銷售及盈利能力造 成不利影響。

(iii) Risks of foreign currency fluctuations

We conduct all our operations in Malaysia and our functional currency is Ringgit Malaysia ("RM"). The sales to our customers abroad are mainly billed and settled in United States dollars ("US\$"), and sales to our customers located in Malaysia are billed and settled in RM. We source most of our packaging and raw materials locally, which are paid in RM, whereas our coconut milk products and some of our packaging and raw materials are sourced overseas and paid in US\$ (or other foreign currencies). There can be no assurance that the exchange rate of RM will remain stable against US\$ (or any other foreign currencies) in the future. Any significant movement of exchange rates of foreign currencies against RM may significantly affect our financial condition and results of operations. In addition, foreign exchange rate fluctuations in the currencies mentioned above may result in foreign exchange losses and hence, may have a material adverse effect on our financial condition and results of operations.

For other risks and uncertainties faced by the Group, please refer to the section headed "Risk Factors" in the Prospectus.

Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our auditors' report. Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements for the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of inventories

存貨之估值

Refer to Note 3(g) — Significant accounting policies: Inventories; Note 16 — Inventories. 請參閱附註3(g) — 重大會計政策:存貨;附註16 — 存貨。

The key audit matter	How the matter was addressed in our audit
關鍵審核事項	吾等在審核中的處理方法

The Group held inventories which comprises packaging and raw materials, unpacked finished goods and finished goods with an aggregate carrying amount of RM25,330,420 as at the end of the reporting period.

貴集團於報告期末持有之存貨包括包裝及原材料、未包 裝製成品及製成品,總賬面值為25,330,420馬來西亞令 吉。

The cost of inventories is calculated using the weighted average method. The primary raw materials is coconuts, which is a commodity, and its cost generally affected by markets factors, such as price fluctuations, market supply and demand, logistics and transportation costs. The cost of coconuts is adjusted with anticipated wastages and losses in the production process in order to derive the inventory standard costs. The inventory standard costs are affected by the extraction yield from the coconuts, which is dependent on the maturity and quality of the coconuts. As a result, the inventory standard costs used by the Group may be incorrect.

存貨成本使用加權平均法計算。主要原材料為椰子,其 為商品,成本通常受各種市場因素影響,如價格波動、 市場供應及需求、物流及運輸成本。椰子之成本乃經對 預期損耗及於生產過程中的損失進行調整,以達致存貨 標準成本。存貨標準成本受椰子提取率的影響,而提取 率取決於椰子之成熟度及質量。因此, 貴集團所使用 之存貨標準成本可能並不正確。

This assessment required significant judgement and estimation by the Group. Accordingly, we identified the valuation of inventories (other than packaging material) as a key audit matter.

此項評估須由 貴集團作出重大判斷及估計。因此,吾 等已將存貨之估值(包裝材料除外)識別為關鍵審核事 項。

關鍵審核事項

關鍵審核事項乃根據吾等之職業判斷,對 本年度綜合財務報表之審核最為重要之事 項。該等事項乃於吾等審核整體綜合財務 報表及就此出具意見時進行處理,及吾等 不會就該等事項提供單獨意見。

Information Other than the Consolidated Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the annual report and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the annual report and, in doing so, consider whether the annual report is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the annual report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Consolidated Financial Statements

The Directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards and the disclosure requirements of the Hong Kong Companies Ordinance. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Independent Auditors' Report (Continued) 獨立核數師報告(續)

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

104

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Group.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

核數師就審核綜合財務報表承擔 之責任

吾等的目標為合理確定整體綜合財務報表 是否不存在由於欺詐或錯誤而導致的重大 錯誤陳述,並發出載有吾等意見的核數 報告。合理保證屬高水平保證,但不能擔保 報告。合理保證屬高水平保證,但不能擔保 現存在的重大錯誤陳述。錯誤陳述可 將 就許或錯誤,倘個別或整體於合理預期情 況下可影響使用者根據綜合財務報表作出 的經濟決定時,則被視為重大錯誤陳述。

在根據國際審計準則進行審核之過程中, 吾等運用了職業判斷,保持了職業懷疑態 度。吾等亦:

- 識別和評估由於欺詐或錯誤而導致綜 合財務報表存在重大錯誤陳述之風 險,設計及執行審核程序以應對該等 風險,以及取得充足及適當之審核憑 證,作為吾等意見之基礎。由於欺詐 可能涉及串謀、偽造、蓄意遺漏、虚 假陳述,或凌駕於內部控制之上,因 此未能發現因欺詐而導致重大錯誤陳 述之風險較因錯誤而導致重大錯誤陳 述之風險為高。
- 了解與審核相關之內部控制,以設計 適當之審核程序,但非旨在對 貴集 團內部控制之有效性發表意見。
- 評價董事所採用會計政策之恰當性以 及作出會計估計及相關披露資料之合 理性。

Independent Auditors' Report (Continued) 獨立核數師報告(續)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements for the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our auditors' report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2. BASIS OF PREPARATION (Continued)

(a) Statement of compliance (Continued) IFRS 16, Leases

IFRS 16 replaces the guidance in IAS 17, Leases, IFRIC 4, Determining whether an Arrangement contains a Lease, SIC 15, Operating Leases — Incentives and SIC 27, Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

IFRS 16 introduces a single, on balance sheet lease accounting model for lessees. A lessee recognises a right-ofuse asset representing its right to use the underlying asset and a lease liability representing its obligations to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard which continues to be classified as finance or operating lease.

The Group has assessed that the new standard is not likely to have significant impact on how it recognises leases.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis.

(c) Functional and presentation currency

The Company and other investment holding subsidiaries incorporated in the Cayman Islands, the British Virgin Islands and Hong Kong have their functional currencies in Hong Kong Dollar ("HK\$") and subsidiaries established in Malaysia and Singapore have their functional currencies in Malaysian Ringgit ("RM") and Singapore Dollar ("SGD") respectively. As the Group mainly operates in Malaysia, RM is used as the presentation currency of the financial statements.

2. BASIS OF PREPARATION (Continued)

(d) Use of estimates and judgements

116

The preparation of the financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements other than as disclosed below:

Valuation of inventories

The cost of inventories is calculated using the weighted average method. The primary raw materials is coconuts, which is a commodity, and its cost generally affected by markets factors, such as price fluctuations, market supply and demand, logistics and transportation costs. The cost of coconuts is adjusted with anticipated wastages and losses in the production process in order to derive the inventory standard costs. The inventory standard costs are affected by the extraction yield from the coconuts, which is dependent on the maturity and quality of the coconuts. This assessment required significant judgement and estimation. The carrying amount of the inventories is disclosed in Note 16.

2. 編製基準(續)

(d) 估計及判斷的應用

按照國際財務報告準則編製財 務報表需要管理層作出判斷、估 計及假設,該等判斷、估計及假 設會影響會計政策應用以及所 呈報的資產、負債、收入及開支 金額。實際結果或有別於該等估 計。

估計及相關假設會持續予以檢 討。會計估計的修訂於修訂估計 的期間及未來受影響期間確認。

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to the periods presented in these financial statements and have been applied constantly by Group entities, unless otherwise stated.

Arising from the adoption of IFRS 15, *Revenue from Contracts with Customers and* IFRS 9, *Financial Instruments*, there are changes to the accounting policies of:

- (i) financial instruments;
- (ii) revenue recognition; and
- (iii) impairment losses of financial instruments

as compared to those adopted in previous financial statements. The impacts arising from the changes are disclosed in Note 30.

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities, including structured entities, controlled by the Company. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. Merger accounting is adopted for common control combinations (see below) in which all of the combining entities are ultimately controlled by the same controlling shareholders both before and after the business combination and that control is not transitory.

The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Potential voting rights are considered when assessing control only when such rights are substantive. The Group also considers it has de facto power over an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return.

3. 主要會計政策

118

(a) Basis of consolidation (Continued)

(i) Subsidiaries (Continued)

Investments in subsidiaries are measured in the Company's statement of financial position at cost less any impairment losses (see Note 3(j)(ii)). The cost of investment includes transaction costs.

(ii) Business combinations

Business combinations arising from transfers of interests in entities that are under the control of the shareholders that control the Group are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established; for this purpose comparatives are restated. The assets and liabilities acquired are recognised at the carrying amounts recognised from the controlling shareholders' perspective. All differences between the cost of acquisition (fair value of consideration paid) and the amounts at which the assets and liabilities are recorded have been recognised directly in equity as part of the other reserve.

Business combinations are accounted for using the acquisition method from the acquisition date, which is the date on which control is transferred to the Group.

3. 主要會計政策(續)

(i)

(a) 綜合入賬基準(續)

附屬公司(續) 於附屬公司的投資於本公 司的財務狀況表中按成本 減任何減值虧損(請參閲附 註3()(ii))計量。投資成本包 括交易成本。

(ii) 業務合併

業務合併自收購日期(即控 制權轉移予本集團之日)起 採用收購法入賬。

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

- (a) Basis of consolidation (Continued)
 - (ii) Business combinations (Continued) For new acquisitions, the Group measures the cost of goodwill at the acquisition date as:
 - the fair value of the consideration transferred; plus
 - the recognised amount of any non-controlling interest in the acquiree; plus
 - if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less
 - the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

For each business combination, the Group elects whether it measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets at the acquisition date.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

本集團就業務合併產生的 交易成本(與發行債券或股 本證券有關的交易成本除 外)於產生時列為開支。

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

120

(a) Basis of consolidation (Continued)

(iii) Non-controlling interest

Non-controlling interest at the end of the reporting period, being the equity in a subsidiary not attributable directly or indirectly to the equity holders of the Company, are presented in the consolidated statement of financial position and statement of changes in equity within equity, separately from equity attributable to the owners of the Company. Non-controlling interest in the results of the Group is presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of the profit or loss and the comprehensive income for the year between noncontrolling interest and owners of the Company.

Losses applicable to the non-controlling interest in a subsidiary are allocated to the non-controlling interest even if doing so causes the non-controlling interest to have a deficit balance.

(iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intragroup transactions, are eliminated in preparing the consolidated financial statements.

3. 主要會計政策(續)

- (a) 綜合入賬基準(續)
 - (iii) 非控股權益

附屬公司中非控股權益應 佔的虧損分配至非控股權 益,即便如此處理會導致非 控股權益出現虧絀結餘。

(iv) 综合入賬時抵銷的交 易

集團內公司間結餘及交易 以及集團內公司間交易產 生的任何未變現收益及開 支均於編製綜合財務報表 時予以抵銷。

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Goodwill

Goodwill arises on business combinations is measured at cost less any accumulated impairment losses. Goodwill is not amortised but is tested for impairment annually and whenever there is an indication that it may be impaired.

(c) Foreign currency

Transactions in foreign currencies are translated to the respective functional currencies of the entities comprising the Group at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies are not retranslated at the end of the reporting date, except for those that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

Foreign currency differences arising on retranslation are recognised in profit or loss.

The results of foreign operations are translated into RM at the exchange rates which approximate the foreign exchange rates ruling at the dates of transactions. Statement of financial position items, including goodwill arising on consolidations of foreign operations acquired, are translated into RM at the closing foreign exchange rates at the end of the reporting period. The resulting exchange differences are recognised in other comprehensive income and accumulated separately in equity in the translation reserve.

However, if the operation is a non-wholly owned subsidiary, then the relevant proportionate share of the exchange differences is allocated to the non-controlling interest.

On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to profit or loss when the profit or loss on disposal is recognised.

(c) Foreign currency (Continued)

In the consolidated financial statements, when settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation and are recognised in other comprehensive income, and are presented in the translation reserve within equity.

(d) Financial instruments

Unless specifically disclosed below, the Group generally applied the following accounting policies retrospectively. Nevertheless, as permitted by IFRS 9, *Financial Instruments*, the Group has elected not to restate the comparatives.

(i) Recognition and initial measurement

A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the Group becomes a party to the contractual provisions of the instrument.

Current financial year

A financial asset (unless it is a trade receivable without significant financing component) or a financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

Previous financial year

Financial instrument was recognised initially, at its fair value plus or minus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that were directly attributable to the acquisition or issue of the financial instrument.

(ii) Financial instrument categories and subsequent measurement

Financial assets

Current financial year

Categories of financial assets are determined on initial recognition and are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change of the business model.

Amortised cost

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The financial assets are not designated as fair value through profit or loss. Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Interest income is recognised by applying effective interest rate to the gross carrying amount except for credit impaired financial assets (see Note 3(j)(i)) where the effective interest rate is applied to the amortised cost.

All financial assets are subject to impairment assessment (see Note 3(j)(i)).

The financial liabilities were individually recognised on the trade date when the Group becomes a party to the contractual provisions of the instrument. The Group derecognises a financial liability or a part of it when its contractual obligations were discharged or cancelled, or expired.

The non-derivative financial liabilities were initially measured at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities were measured at amortised cost using the effective interest method.

(iii) Derecognition

A financial asset or part of it is derecognised when, and only when the contractual rights to the cash flows from the financial asset expire or transferred, or control of the asset is not retained or substantially all of the risks and rewards of ownership of the financial asset are transferred to another party. On derecognition of a financial asset, the difference between the carrying amount of the financial asset and the sum of consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

(e) Property, plant and equipment

(i) Recognition and measurement

Freehold land and property under construction are measured at cost less any accumulated impairment losses (see Note 3(j)(ii)). Other items of property, plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses (see Note 3(j)(ii)).

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. The cost of selfconstructed assets also includes the cost of materials and direct labour.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and is recognised in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised to profit or loss. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is based on the cost of an asset. Significant components of individual assets are assessed, and if a component has a useful life that is different from the remainder of that asset, then that component is depreciated separately.

Depreciation is recognised in profit or loss on a straightline basis over the estimated useful lives of each component of an item of property, plant and equipment from the date that they are available for use. Leased assets are depreciated over the lease term unless it is reasonably certain that the Group will obtain ownership by the end of the lease term, in which case they are depreciated over their useful lives.

Freehold land is not depreciated. Property, plant and equipment under construction are not depreciated until the assets are ready for their intended use.

The principal annual rates of depreciation are as follows:

Leasehold land	2%
Factory buildings and other buildings	
	3%–4%
Plant and machinery	7%–20%
Motor vehicles	20%
Furniture, fittings and equipment	
	10%–15%

Depreciation methods and useful lives are reviewed at end of the reporting period, and adjusted as appropriate.

(f) Leased assets

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

(i) Classification of assets leased to the Group

Assets that are held by the Group under leases which transfer to the Group substantially all the risks and rewards of ownership are classified as being held under finance leases. Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases.

(ii) Assets acquired under finance leases

Where the Group acquires the use of assets under finance leases, the amounts representing the fair value of the leased asset, or, if lower, the present value of the minimum lease payments, of such assets are recognised as property, plant and equipment and the corresponding liabilities, net of finance charges, are recorded as obligations under finance leases. Depreciation is provided at rates which write off the cost or valuation of the assets over the term of the relevant lease or, where it is likely the Group will obtain ownership of the asset, the life of the asset, as set out in Note 3(e)(iii). Impairment losses are accounted for in accordance with the accounting policy as set out in Note 3(j)(ii). Finance charges implicit in the lease payments are charged to profit or loss over the period of the leases so as to produce an approximately constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

(iii) Operating lease charges

Where the Group has the use of assets held under operating leases, payments made under the leases are charged to profit or loss in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made.

The cost of acquiring land held under an operating lease is amortised on a straight-line basis over the period of the lease term.

(g) Inventories

Inventories are measured at the lower of cost and net realisable value.

The cost of inventories is calculated using the weighted average and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of finished goods, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

(h) Contract assets and contract liabilities

A contract asset is recognised when the Group's right to consideration is conditional on something other than the passage of time. A contract asset is subject to impairment in accordance to IFRS 9, *Financial Instruments* (see Note 3 (j)(i)).

(i) Cash and cash equivalents

(j) Impairment

(i) Financial assets

Unless specifically disclosed below, the Group generally applied the following accounting policies retrospectively. Nevertheless, as permitted by IFRS 9, *Financial Instruments*, the Group elected not to restate the comparatives.

Current financial year

The Group recognises loss allowances for expected credit losses on financial assets measured at amortised cost. Expected credit losses are a probability-weighted estimate of credit losses.

The Group measures loss allowances at an amount equal to lifetime expected credit loss, except for debt securities that are determined to have low credit risk at the reporting date, cash and bank balance and other debt securities for which credit risk has not increased significantly since initial recognition, which are measured at 12-month expected credit loss. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit loss.

(i) Financial assets (Continued)

Current financial year (Continued)

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit loss, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information, where available.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of the asset, while 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within the 12 months after the reporting date. The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group is exposed to credit risk.

The Group estimates the expected credit losses on trade receivables using a provision matrix with reference to historical credit loss experience.

An impairment loss in respect of financial assets measured at amortised cost is recognised in profit or loss and the carrying amount of the asset is reduced through the use of an allowance account.

At each reporting date, the Group assesses whether financial assets carried at amortised cost are creditimpaired. A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

(j) Impairment (Continued)

(i) Financial assets (Continued)

Current financial year (Continued)

The gross carrying amount of a financial asset is written off (either partially or full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery amounts due.

Previous financial year

All financial assets (except for investments in subsidiaries) were assessed at each reporting date whether there was any objective evidence of impairment as a result of one or more events having an impact on the estimated future cash flows of the asset. Losses expected as a result of future events, no matter how likely, were not recognised.

An impairment loss in respect of loans and receivables was recognised in profit or loss and was measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The carrying amount of the asset was reduced through the use of an allowance account.

If, in a subsequent period, the amount of an impairment loss decrease and the decrease could be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss was reversed, to the extent that the asset's carrying amount did not exceed what the carrying amount would have been had the impairment not been recognised at the date the impairment was reversed. The amount of the reversal was recognised in profit or loss.

(j) Impairment (Continued)

(ii) Other assets

The carrying amounts of other assets (except for inventories and deferred tax assets) are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill, the recoverable amount is estimated each period at the same time.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units. The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to a cash-generating unit or a group of cash-generating units that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit exceeds its estimated recoverable amount.

(ii) Other assets (Continued)

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cashgenerating units are allocated first to reduce the carrying amount of any goodwill allocated to the cashgenerating unit (group of cash-generating units) and then to reduce the carrying amounts of the other assets in the cash-generating unit (groups of cash-generating units) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the financial year in which the reversals are recognised.

(t) Fair value measurements

Fair value of an asset or a liability, except for lease transactions, is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair value are categorised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: unobservable inputs for the asset or liability.

The Group recognises transfers between levels of the fair value hierarchy as of the date of the event or change in circumstances that caused the transfers.

Receivables that were neither past due nor impaired relate to a wide range of customers for whom there was no recent history of default.

(d) Credit risk

Credit risk is the risk of a financial loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group's exposure to credit risk arises principally from the individual characteristics of each customers. There are no significant changes as compared to prior periods.

Trade receivables

Risk management objectives, policies and processes for managing the risk

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit facilities.

At each reporting date, the Group assesses whether any of the trade receivables are credit impaired.

The gross carrying amounts of credit impaired trade receivables are written off (either partially or full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. Nevertheless, trade receivables that are written off could still be subject to enforcement activities.

There are no significant changes as compared to previous year.

Recognition and measurement of impairment losses

In managing credit risk of trade receivables, the Group manages its debtors and takes appropriate actions (including but not limited to legal actions) to recover long overdue balances. Generally, trade receivables will pay within 60 days. The Group's debt recovery process is as follows:

- (a) Above 90 days past due after credit term, the Group will start to initiate a structured debt recovery process which is monitored by the sales management team; and
- (b) Above 120 days past due, the Group will commence a legal proceeding against the customer.

The Group uses an allowance matrix to measure ECLs of all trade receivables. Consistent with the debt recovery process, invoices which are past due 90 days will be considered as credit impaired.

Loss rates are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency to 90 days past due.

Loss rates are based on actual credit loss experience over the past three years. The Group also considers differences between (a) economic conditions during the period over which the historic data has been collected, (b) current conditions and (c) the Group's view of economic conditions over the expected lives of the receivables. Nevertheless, the Group believes that these factors are immaterial for the purpose of impairment calculation for the year.

The Group assessed that there is no significant loss allowance recognised in accordance with IFRS 9 as at 31 December 2018.

The Group does not provide any guarantees which would expose the Group to credit risk.

貿易應收款項(續) 減值虧損的確認及計量 在管理貿易應收款項的信貸風險 時,本集團管理其債務人並採取 適當行動(包括但不限於法律訴 訟)以收回逾期未付餘額。一般 而言,貿易應收款項將於60天內 支付。本集團的債務收回程序如 下:

椰豐集團有限公司

- (a) 信貸期後逾期90天以上, 本集團將開始啟動結構性
 債務收回程序,由銷售管理
 團隊監控;及
- (b) 逾期120天以上,本集團將 對客戶展開法律訴訟。

本集團使用撥備矩陣計量所有貿易應收款項的預期信用損失。與 債務收回程序一致,逾期90天的 發票將被視為信貸減值。

損失率使用「滾轉率」方法根據應 收款項通過連續拖欠階段進展至 逾期90天的概率計算。

損失率基於過去三年的實際信用 損失經驗而定。本集團亦考慮(a) 收集歷史數據期間的經濟狀況; (b)現時狀況;及(c)本集團對應收 款項預期年期的經濟狀況的觀點 之間的差異。然而,本集團認為 該等因素對本年度的減值計算並 不重大。

本集團評估,於二零一八年十二 月三十一日,並無根據國際財務 報告準則第9號確認重大虧損撥 備。

本集團並無提供將使其面對信貸 風險的任何擔保。

As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the Company's statement of financial position.

Loans and advances provided are not secured by any collateral or supported by any other credit enhancements.

Recognition and measurement of impairment loss

Generally, the Company considers loans and advances to subsidiaries have low credit risk. The Company assumes that there is a significant increase in credit risk when a subsidiary's financial position deteriorates significantly. As the Company is able to determine the timing of payments of the subsidiaries' loans and advances when they are payable, the Company considers the loans and advances to be in default when the subsidiaries are not able to pay when demanded. The Company considers a subsidiary's loan or advance to be credit impaired when:

- The subsidiary is unlikely to repay its loan or advance to the Company in full;
- The subsidiary's loan or advance is overdue for more than 365 days; or
- The subsidiary is continuously loss making and is having a deficit shareholders' fund.

The Company determines the probability of default for these loans and advances individually using internal information available.

As at the end of the reporting period, the Company did not recognise any allowance for impairment losses.

30. SIGNIFICANT CHANGES IN ACCOUNTING 30. 會計政策的重大變動 POLICIES

During the year, the Group adopted IFRS 15, *Revenue from Contracts with Customers* and IFRS 9, *Financial Instruments* on its financial statements. IFRS 15 establishes a comprehensive framework for recognising revenue from contracts with customers. IFRS 15 will replace the existing revenue standard, IAS 18, *Revenue*, which covers revenue arising from sale of goods and rendering of services. Whereas, IFRS 9 replaces the guidance in IAS 39, *Financial Instruments: Recognition and Measurement* on the classification and measurement of financial assets and financial liabilities and impairment of financial assets.

The Group generally applied the requirements of these accounting standards retrospectively with practical expedients and transitional exemptions as allowed by the standards. Nevertheless, as permitted by IFRS 9, the Group has elected not to restate the comparatives.

30.1 Impacts on financial statements

The following tables summarise the impacts arising from the adoption of IFRS 15 and IFRS 9 on the Group's financial statements for the financial year ended 31 December 2017. Upon adoption of IFRS 15 and IFRS 9, there is no impact to the Group's financial statements as of 1 January 2017.

 Classification of financial assets and financial liabilities on the date of initial application of IFRS 9

IFRS 9 categorises financial assets into three principal classification categories: measured at amortised cost, at fair value through other comprehensive income ("FVOCI") and at fair value through profit or loss ("FVTPL"). These supersede IAS 39's categories of held-to-maturity investments, loans and receivables, available-for-sale financial assets and financial assets measured at fair value through profit or loss.

30.2 Accounting for financial instruments (Continued)

- Classification of financial assets and financial liabilities on the date of initial application of IFRS 9 (Continued)
 - (i) Reclassification from loans and receivables to amortised cost

Trade and other receivables that were classified as loans and receivables under IAS 39 are now reclassified at amortised cost.

c. Credit losses of financial assets on the date of initial application of IFRS 9

IFRS 9 also replaces the "incurred loss" model in IAS 39 with the ECLs model. The ECLs model requires an ongoing measurement of credit risk associated with a financial asset and therefore recognises ECLs earlier than under the "incurred loss" accounting model in IAS 39.

The Group applies the new ECLs model to financial assets measured at amortised cost (including cash and cash equivalents, and trade and other receivables).

There is no significant impact on the Group's financial position and financial result upon initial application at 1 January 2018.

本集團對以攤銷成本計量 的金融資產(包括現金及現 金等價物以及貿易及其他 應收款項)應用新預期信用 損失模式。

30.3 Accounting for revenue

The Group has elected to use the retrospective restatement method and comparative information has been restated in accordance with IFRS 15.

a. Transition

In the adoption of IFRS 15, the following practical expedients as permitted by the standard have been adopted:

- (a) for completed contracts, the Group does not restate contracts that:
 - (i) begin and end within the same annual reporting period; or
 - (ii) are completed contracts at the beginning of the earliest period presented.
- (b) for completed contracts that have variable consideration, the Group uses the transaction price at the date the contract was completed rather than estimating variable consideration amounts in the comparative reporting periods.

30.3 收益的會計處理

本集團已選擇使用回溯重列法, 並已根據國際財務報告準則第15 號重列比較資料。

椰豐集團有限公司 二零一八年年報

 - (i) 於同一年度報告 期間開始及終 止;或
 - (ii) 於所呈列的最早 期間期初為已完 成合約。
 - (b) 就擁有可變代價的已 完成合約而言,本集 團使用合約完成當日 的交易價格,而非估 計可資比較報告期間 的可變代價金額。

30. SIGNIFICANT CHANGES IN ACCOUNTING 30. 會計政策的重大變動 (續) POLICIES (Continued)

30.3 Accounting for revenue (Continued)

a. Transition (Continued)

- (c) for contracts that were modified before the beginning of the earliest period presented, the Group does not retrospectively restate the contract for those contract modifications. Instead, the Group reflects the aggregate effect of all of the modifications that occur before the beginning of the earliest period presented when:
 - (i) identifying the satisfied and unsatisfied performance obligations;
 - (ii) determining the transaction price; and
 - (iii) allocating the transaction price to the satisfied and unsatisfied performance obligations.
- (d) for comparatives, the Group does not disclose the amount of consideration allocated to the remaining performance obligations and an explanation of when the Group expects to recognise revenue.

The application of these practical expedients are not expected to have material impact to the Group.

30.3 收益的會計處理(續)

a. 過渡(續)

- (i) 確認已履行及未 履行的履約責 任;
