MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

We specialize in the mining of gold and the processing of ore into concentrates containing gold and other minerals for subsequent sale. Real Gold Mining Limited (the "Company") and its subsidiaries (together the "Group") have two gold mines in the Chifeng Municipality, Inner Mongolia, namely, Shirengou Gold Mine and Nantaizi Gold Mine which are adjacent to each other and form one operating segment of the Group. The mining permit and the safety production permit for Shirengou Gold Mine are valid until August 2020 and February 2021, respectively. The mining permit, the exploration permit and the safety production permit for Nantaizi Gold Mine are valid until November 2019, June 2020 and February 2021, respectively. Production at Shirengou Gold Mine and Nantaizi Gold Mine has been suspended since mid 2016.

Luotuochang Gold Mine, another gold mine of the Group which is also located in the Chifeng Municipality, Inner Mongolia, was in operation until the former Board decided in July 2014 to suspend the mining activities there. The mining permit and the safety production permit for Luotuochang Gold Mine are valid until January 2020 and December 2020, respectively.

For the year ended 31 December 2016, the revenue, cost of sales and gross loss was information in the possession of former management of the Group and as the operations, mining and exploration activities have been suspended, no further relevant activities previously under the former management continue following the current management took control of the Group. The current Board took control of the management of the Group in late 2016. There is limited information and documents available to the current Board for the preparation of the 2016 financial information of the Group.

UPDATE ON THE ACTIVITIES AT THE OTHER GOLD MINES OF THE GROUP

As at the date of this annual report, the Group also owns Gaotaizi Gold Mine in Inner Mongolia and Yandan Gold Mine and two other smaller gold mines in Guangxi. None of these mines are currently in production.

The mining permit and safety production permit for Gaotaizi Gold Mine expired in February 2019 and March 2019, respectively and the Group has filed an application for the renewal of each of such permit in January 2019.

For the gold mines in Guangxi, the exploration permit for Yandan Gold Mine is valid until November 2020. The Group is in the process of renewing the exploration permit for each of Bayan Gold Mine and Yunpanshan Gold Mine which expired in January 2019. The Group has suspended its exploration activities at these gold mines.

IMPORTANT EVENTS AFTER THE YEAR ENDED 31 DECEMBER 2016

For details of the important events affecting the Group which have occurred since the end of the Reporting Period, please refer to the paragraphs headed "The status of China Guangfa Bank Accounts of the Group" and "The status of changes of legal representatives of subsidiaries in the PRC" in the annual results announcement of the Company for the year ended 31 December 2017 published on 2 August 2019.

Resources

Inner Mongolia Gold Mines

In April 2019, SRK Consulting China Limited ("SRK") completed a technical review of four gold mines, namely Shirengou, Nantaizi, Luotuochang and Gaotaizi (the "Four Projects"). The results and recommendations from SRK's report indicate that there is limited potential for the Four Projects since much of the resources has been depleted. If the Company decides not to conduct further exploration works, then the Four Projects should be "given up" and any processing plants to be divested/ transferred.

The Company commissioned Roma Oil and Mining Associates ("ROMA") Limited in June 2019 to complete a second opinion report for three of the four gold projects, namely Shirengou, Nantaizi and Luotuochang (the "Three Projects"), located near Chifeng City, Inner Mongolia Autonomous Region, China. The resultant recommendations of ROMA are similar to that of SRK's.

ROMA conducted a site visit of the Three Projects in June 2019. For the Three Projects inspected, the only underground visit was at Shirengou. Although mineralization had been observed and evident, most of the ore zones had been depleted. Nantaizi and Luotuochang had nearly all of their reserves mined.

It is noted that the process plants for the Three Projects are still in sound condition. ROMA believes there are some value for the Three Projects' fixed assets, such as the process plant, generators and its related equipment. Under the JORC (2012) Code, a mineral resource should have reasonable prospects of eventual economic extraction. Considering the limited geological evidence of further gold mineralization, the possible high mining costs (open-pit and underground) and the low potential for economic extraction of the Three Projects in Inner Mongolia, ROMA is of the opinion that the Three Projects are not economically viable, since all of the resources had been depleted. ROMA recommends the Company to divest the Three Projects.

Guangxi Gold Mines

The Company commissioned ROMA to conduct a technical due diligence review on the exploration works in terms of drill hole conditions, core conditions, geology, licensing and management's competence at three exploration sites located within Baise City, Guangxi Province, Southwestern China. The exploration permit of each of the three projects, namely Yandan, Bayan and Yunpanshan has expired in November 2018, January 2019 and January 2019, respectively. The Company has applied for renewal of these permits. All projects are not under any exploration or mining works currently. The Company holds 100% of the exploration rights to these three projects. The rights cover a total area of approximately 11.54 km^2.

ROMA conducted a site visit of the Guangxi projects in June 2019. Exploration work had been suspended for more than five years in the project areas, and drill hole collars and cores were not in good condition. Under the JORC (2012) Code, a mineral resource should have reasonable prospects of eventual economic extraction. Considering the limited geological evidence of economic mineralization, the possible high mining costs (open-pit and underground) and the low potential for economic extraction of the three projects in Guangxi, ROMA is of the opinion that the three projects are not economically viable. ROMA recommends the Company to divest the three projects.

PROSPECTS

In view of the current situation of the Group, in particular the status of the mines owned by the Group, the Company is committed to identify suitable acquisition targets with sufficient level of operations or have assets of sufficient value to meet the requirements for continued listing of the shares under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

By leveraging on the experience of our management in mining operations and strong connections in the industry, we are confident that we can identify suitable acquisition targets in due course which can meet our requirements as well as the requirements of the regulators for the purpose of seeking resumption of trading in our shares so as to maximize the interests of both the Company and its shareholders as a whole.

We are committed to strengthening the corporate governance of the Group, and leading the Company out of current difficulties and creating value for shareholders of the Company as a whole.

FINANCIAL REVIEW

For the year ended 31 December 2016, the revenue, cost of sales and gross loss was information in the possession of former management of the Group and as the operations, mining and exploration activities had been suspended, no further relevant activities previously under the former management continue following the current management took control of the Group. The current Board took control of the management of the Group in late 2016. There is limited information and documents available to the current Board for the preparation of the 2016 financial statements of the Group and the following review was made on this basis.

Revenue

The revenue of the Group decreased from approximately RMB384.6 million for the year ended 31 December 2015 to approximately RMB232.8 million for the year ended 31 December 2016. When the current Board took control of the management of the Group in late 2016, the operations, mining and exploration activities had been suspended.

Cost of sales

Cost of sales was approximately RMB262.3 million for the year ended 31 December 2016, decreased from approximately RMB396.0 million for the same period in 2015, mainly owing to the suspension of the mining activities at Shirengou Gold Mine and Nantaizi Gold Mine. Cost of sales primarily included cost of raw materials consumed, subcontracting fees, auxiliary material costs, electricity costs, environmental protection fees and production safety fees. For the year ended 31 December 2016, our cost of sales accounted for approximately 112.7% of our total revenue, increased from approximately 102.9% for the same period in 2015, owing to the significant decrease in revenue.

Gross loss and gross margin

As a result of the foregoing, gross loss was approximately RMB29.5 million (2015: RMB11.3 million) and gross margin was approximately -12.7% (2015: -2.9%) for the year ended 31 December 2016.

The government subsidies were in the form of a benefit from tax concession granted to us by the People's Republic of China ("PRC") government to encourage the development of the gold industry. The decrease in government subsidies was due to the decrease in revenue. Exchange difference arose primarily from the translation and the settlement of monetary items such as bank balances, which were denominated in currencies other than Renminbi ("RMB"). Exchange gain increased because of the appreciation of Hong Kong dollars ("HKD") against RMB in 2016.

Administrative expenses increased from approximately RMB52.6 million for the year ended 31 December 2015 to approximately RMB76.1 million for the year ended 31 December 2016.

More impairment losses were recognized in 2016 than in 2015 as there were more such investments made in 2016. Written off of other receivables is established when the Group was unable to collect all amounts due according to the original terms of receivables.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICES

The Company acknowledges the need for and importance of corporate governance as one of the key elements in enhancing value for shareholders of the Company. The Company is committed to improving its corporate governance practices in compliance with regulatory requirements. The Company has adopted the Corporate Governance Code as set out in Appendix 14 of the Listing Rules ("CG Code") to regulate the corporate governance issues of the Group. The Board has reviewed the Company's corporate governance practices for the year ended 31 December 2016 (the "Reporting Period"), and has formed the opinion that the Company, throughout the Reporting Period, has complied with the code provisions ("Code Provisions") as set out in the CG Code except for the deviations set out below.

Code Provision A.1.3

Code Provision A.1.3 of the CG Code requires that notice of at least 14 days should be given of a regular board meeting to give all directors an opportunity to attend. During the Reporting Period, certain regular Board meetings were convened with less than 14 days' notice in order to discuss certain urgent businesses in a timely manner and the shorter notice period was consented to by the directors each time. Notwithstanding the aforesaid, the Board will use its best endeavor to comply with Code Provision A.1.3 of the CG Code in the future.

As per the latest improved corporate governance practice of the Company, since August 2019, notice of regular board meetings has been dispatched to all directors at least 14 days before the meeting. For other Board and committee meetings, reasonable notice is generally given. Board papers together with all appropriate, complete and reliable information are sent to all directors at least 3 days (or any other agreed date) before each board meeting or committee meeting to keep directors apprised of the latest developments and financial position of the Company and to enable them to make informed decisions.

Code Provision A.5.1

Code Provision A.5.1 of the CG Code provides that issuers should establish a nomination committee which is chaired by the chairman of the board or an independent non-executive director and comprises a majority of independent non-executive directors.

Prior to the annual general meeting held on 30 June 2016 (the "2016 AGM"), the Nomination and Remuneration Committee of the Company comprised Mr. Zhao Enguang, Mr. Li Xiaoping and Mr. Yang Yicheng, the then independent non-executive directors of the Company. As each of Mr. Zhao Enguang, Mr. Li Xiaoping and Mr. Yang Yicheng were not re-elected at the 2016 AGM, each of them ceased to be a director of the Company and a member of the Nomination and Remuneration Committee of the Company at the conclusion of the 2016 AGM. Therefore, there were no member on the Nomination and Remuneration Committee of the Company from the conclusion of the 2016 AGM till the appointment of new independent non-executive directors of the Company and members to the Nomination and Remuneration Committee of the Company with effect from 30 September 2016, constituting a deviation from Code Provision A.5.1 of the CG Code.

Code Provision C.1.2

Code provision C.1.2 of the CG Code provides that management should provide all members of the board with monthly updates giving a balanced and understandable assessment of the issuer's performance, position and prospects in sufficient details to enable the board as a whole and each director to discharge their duties under Rule 3.08 and Chapter 13 of the Listing Rules. During the Reporting Period, management did not provide the board with monthly updates required under Code Provision C.1.2 of the CG Code. The Board notes that activities of the Group, both mining and exploration activities, have been suspended and the Group has not been conducting any operational or business activities. The Board has been updated regularly in relation to the status of the mines and corporate activities and announcements are made by the Company regularly to inform the market. As such, the management did not provide updates to the full Board on a monthly basis.

   We draw attention to note 2 to the consolidated financial statements which mentions that the Group incurred a loss attributable to owners of the Company of approximately RMB715,561,000 for the year ended 31 December 2016 and there are certain issues on Guangfa bank accounts of the Group concerning approximately RMB470,479,000. 1. GENERAL INFORMATION

The Company was incorporated in the Cayman Islands as an exempted company with limited liability. The address of the registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands. The address of the principal place of business in Hong Kong is Units 3601-3, 36/F, AIA Tower, 183 Electric Road, North Point. On 5 November 2018, the Company moved to Unit 502, 5/F., Bank of America Tower, 12 Harcourt Road, Central, Hong Kong. The Company's shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") and have been suspended for trading since 27 May 2011.

The Company is an investment holding company. Its subsidiaries are principally engaged in exploration, mining and processing of gold ore and sale of concentrates in the People's Republic of China (the "PRC").

The consolidated financial statements have been presented in Renminbi ("RMB"), which is also the functional currency of the Company and its principal subsidiaries.

2. GOING CONCERN BASIS

The Group incurred a loss attributable to owners of the Company of approximately RMB715,561,000 for the year ended 31 December 2016 and there are certain issues on Guangfa bank accounts of the Group described in Note 23 concerning approximately RMB470,479,000. These conditions indicate the existence of a material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern. Therefore, the Group may be unable to realize its assets and discharge its liabilities in the normal course of business.

These consolidated financial statements have been prepared on a going concern basis, the validity of which depends upon the financial support of the shareholder, at a level sufficient to finance the working capital requirements of the Group. The shareholder has agreed to provide adequate funds for the Group to meet its liabilities as they fall due. The directors are therefore of the opinion that it is appropriate to prepare the consolidated financial statements on a going concern basis. Should the Group be unable to continue as a going concern, adjustments would have to be made to the consolidated financial statements to adjust the value of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets and liabilities as current assets and liabilities respectively.

3. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS

In the current year, the Group has adopted all the new and revised standards, amendments and interpretations (hereinafter collectively referred to as "new and revised IFRSs") that are relevant to its operations and effective for its accounting year beginning on 1 January 2016. The adoption of these new and revised IFRSs did not result in significant changes to the Group's accounting policies, presentation of the Group's consolidated financial statements and amounts reported for the current year and prior years.

The Group has not applied the new and revised IFRSs that have been issued but are not yet effective. The Group has already commenced an assessment of the impact of these new and revised IFRSs but is not yet in a position to state whether these new and revised IFRSs would have a material impact on its results of operations and financial position.

4. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared on the historical cost basis and in accordance with International Financial Reporting Standards ("IFRSs"). In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the "Listing Rules") and by the Hong Kong Companies Ordinance.

The preparation of consolidated financial statements in conformity with IFRSs requires the use of certain key assumptions and estimates. It also requires the directors to exercise their judgements in the process of applying the accounting policies. The areas where assumptions and estimates are significant to these consolidated financial statements are disclosed in Note 5 to these consolidated financial statements.

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below.

Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties, to determine whether it has control. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill relating to that subsidiary and any related accumulated foreign currency translation reserve.

Intragroup transactions, balances and unrealized profits are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Non-controlling interests are presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The consolidated financial statements are presented in RMB, which is the Company's functional and presentation currency.

(b) Transactions and balances in each entity's financial statements

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognized in profit or loss.

Non-monetary items that are measured at fair values in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(c) Translation on consolidation

The results and financial position of all the Group entities that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

(i) Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;

(ii) Income and expenses for each statement of profit or loss and other comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and

(iii) All resulting exchange differences are recognized in the foreign currency translation reserve.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities and of borrowings are recognized in the foreign currency translation reserve. When a foreign operation is sold, such exchange differences are recognized in consolidated profit or loss as part of the gain or loss on disposal.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognized in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The principal annual rates are as follows:

Buildings	5%–12.5%
Plant and machinery	10%
Furniture, fixtures and equipment	20%
Motor vehicles	20%

Depreciation of mining structures is calculated using the Units of Production ("UOP") method to write off the cost of the assets proportionately to the extraction of the proved and probable mineral reserves.

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognized in profit or loss.

Construction in progress represents mining structures in the course of construction, and is stated at cost less any impairment losses. Depreciation begins when the relevant assets are available for use.

Stripping costs

Stripping costs incurred in the development of a mine before production commences are capitalized as part of the cost of constructing the mine and subsequently amortized over the life of the mine on a UOP basis.

Stripping costs incurred subsequently during the production phase of its operation are deferred for those operations where this is the most appropriate basis for matching the cost against the related economic benefits and the effect is material. This is generally the case where there are fluctuations in stripping costs over the life of the mine. The amount of stripping costs deferred is based on the strip ratio obtained by dividing the tonnage of waste mined by the quantity of minerals contained in the ore. Stripping costs incurred in the period are deferred to the extent that the current period ratio exceeds the life of the mine strip ratio. Such deferred costs are then charged to profit or loss to the extent that, in subsequent periods, the current period ratio falls short of the life of mine ratio. The life of mine ratio is based on economically recoverable reserves of the mine. Changes are accounted for prospectively, from the date of the change.

Deferred stripping costs are included as part of "Mining structures". These form part of the total investment in the relevant cash generating units, which are reviewed for impairment if events or changes of circumstances indicate that the carrying value may not be recoverable.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Mining rights

Mining rights are stated at cost less accumulated amortization and any impairment losses. Mining rights include the cost of acquiring mining licenses, exploration and evaluation costs transferred from exploration rights and assets upon determination that an exploration property is capable of commercial production, and the cost of acquiring interests in the mining reserves of existing mining properties. The mining rights are amortized over the estimated useful lives of the mines, in accordance with the production plans of the entities concerned and the proved and probable reserves of the mines using the UOP method. Mining rights are written off to profit or loss if the mining property is abandoned.

Exploration and evaluation assets

Exploration and evaluation assets are recognized at cost on initial recognition. Subsequent to initial recognition, exploration and evaluation assets are stated at cost less any identified impairment loss.

Exploration and evaluation assets include the cost of exploration rights and the expenditures incurred in the search for mineral resources as well as the determination of the technical feasibility and commercial viability of extracting those resources. Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. An impairment loss is recognized in profit and loss.

When the technical feasibility and commercial viability of extracting a mineral resource become demonstrable and the mining rights is obtained, the carrying amounts of the recognized exploration and evaluation assets are reclassified as mining rights.

Leases

Operating leases

The Group as lessee

Leases that do not substantially transfer to the Group all the risks and rewards of ownership of assets are accounted for as operating leases. Lease payments (net of any incentives received from the lessor) are recognized as an expense on a straight-line basis over the lease term.

The Group as lessor

Leases that do not substantially transfer to the lessees all the risks and rewards of ownership of assets are accounted for as operating leases. Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease.

Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted average basis. The cost of finished goods and work in progress comprises raw materials, direct labour and an appropriate proportion of all production overhead expenditure, and where appropriate, subcontracting charges. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognized in the consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Financial assets are derecognized when the contractual rights to receive cash flows from the assets expire; the Group transfers substantially all the risks and rewards of ownership of the assets; or the Group neither transfers nor retains substantially all the risks and rewards of ownership of the assets but has not retained control on the assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and the cumulative gain or loss that had been recognized in other comprehensive income is recognized in profit or loss.

Financial liabilities are derecognized when the obligation specified in the relevant contract is discharged, cancelled or expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in profit or loss.

Trade and other receivables

Trade and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less allowance for impairment. An allowance for impairment of trade and other receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables. The amount of the allowance is the difference between the carrying amount of the receivables and the present value of estimated future cash flows, discounted at the effective interest rate computed at initial recognition. The amount of the allowance is recognized in profit or loss.

Impairment losses are reversed in subsequent periods and recognized in profit or loss when an increase in the recoverable amount of the receivables can be related objectively to an event occurring after the impairment was recognized, subject to the restriction that the carrying amount of the receivables at the date the impairment is reversed shall not exceed what the amortised cost would have been had the impairment not been recognized.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents represent cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term highly liquid investments which are readily convertible into known amounts of cash and subject to an insignificant risk of change in value. Bank overdrafts which are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents.

Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under IFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred, and subsequently measured at amortized cost using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the Reporting Period.

Trade and other payables

Trade and other payables are stated initially at their fair value and subsequently measured at amortized cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and is recognized when it is probable that the economic benefits will flow to the Group and the amount of revenue can be measured reliably.

(a) Revenues from the sales of goods are recognized on the transfer of significant risks and rewards of ownership, which generally coincides with the time when the goods are delivered and the title has passed to the customers.

(b) Interest income is recognized on a time-proportion basis using the effective interest method.

Employee benefits

(a) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the Reporting Period.

Employee entitlements to sick leave and maternity leave are not recognized until the time of leave.

(b) Pension obligations

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme ("MPF Scheme") in Hong Kong under the Hong Kong Mandatory Provident Fund Schemes Ordinance, for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Employee benefits (Continued)

(b) Pension obligations (Continued)

The Group also participates in a defined contribution retirement scheme organized by the government in the PRC. The Group is required to contribute a specific percentage of the payroll of its employees to the retirement scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the retirement scheme. No forfeited contributions may be used by the employers to reduce the existing level of contributions.

(c) Termination benefits

Termination benefits are recognized at the earlier of the dates when the Group can no longer withdraw the offer of those benefits and when the Group recognizes restructuring costs and involves the payment of termination benefits.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalized as part of the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

Share-based payments

The Group issues equity-settled share-based payments to certain employees (including directors). Equity-settled share-based payments are measured at the fair value (excluding the effect of non market-based vesting conditions) of the equity instruments at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non market-based vesting conditions.

Government grants

A government grant is recognized when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants relating to income are deferred and recognized in profit or loss over the period to match them with the costs they are intended to compensate.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognized in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the Reporting Period.

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized, based on tax rates that have been enacted or substantively enacted by the end of the Reporting Period. Deferred tax is recognized in profit or loss, except when it relates to items recognized in other comprehensive income or directly in equity, in which case the deferred tax is also recognized in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the Reporting Period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Related parties

A related party is a person or entity that is related to the Group.

(a) A person or a close member of that person's family is related to the Group if that person:

(i) has control or joint control over the Group;

(ii) has significant influence over the Group; or

(iii) is a member of the key management personnel of the Company or of a parent of the Company.

(b) An entity is related to the Group (reporting entity) if any of the following conditions applies:

(i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).

(ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).

(iii) Both entities are joint ventures of the same third party.

(iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

(v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employers are also related to the Group.

(vi) The entity is controlled or jointly controlled by a person identified in (a).

(vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

(viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Company or to a parent of the Company.

Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purpose of allocating resources to, and assessing the performance of the Group's various lines of business in different geographical locations.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Segment reporting (Continued)

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of productions processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

Impairment of assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets except deferred tax assets, inventories and receivables to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of any impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or cash generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash generating unit is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset or cash generating unit in prior years. A reversal of an impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Provisions and contingent liabilities

Provisions are recognized for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Provision for restoration cost

The Group is required to incur costs for restoration of the land after the underground sites have been mined. Provision for restoration cost is recognized when the Group has a present obligation as a result of past event, and it is probable that the Group will be required to settle that obligation. Provision is measured in accordance with the relevant rules and regulations applicable in the different provinces of the PRC at the end of the Reporting Period, and is discounted to their present value where the effect is material.

Restoration cost is provided in the period in which the obligation is identified and is capitalized to the costs of mining structures. This cost is charged to profit or loss through depreciation of the assets, which are depreciated using the UOP method based on the actual production volume over the estimated total proved and probable reserves of the ore mines.

Events after the Reporting Period

Events after the Reporting Period that provide additional information about the Group's position at the end of the Reporting Period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the consolidated financial statements. Events after the Reporting Period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES

Critical judgements in applying accounting policies

In the process of applying the accounting policies, the directors have made the following judgements that have the most significant effect on the amounts recognized in the consolidated financial statements.

Going concern basis

These consolidated financial statements have been prepared on a going concern basis, the validity of which depends upon the financial support of the shareholder at a level sufficient to finance the working capital requirements of the Group. Details are explained in Note 2 to consolidated financial statements.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the Reporting Period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

5. CRITICAL JUDGEMENTS AND KEY ESTIMATES (Continued)

Key sources of estimation uncertainty (Continued)

(a) *Property, plant and equipment and depreciation*

The Group determines the estimated useful lives, residual values and related depreciation charges for the Group's property, plant and equipment. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment of similar nature and functions. The Group will revise the depreciation charge where useful lives and residual values are different to those previously estimated, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold.

(b) *Income taxes*

Significant estimates are required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

(c) *Impairment of receivables, deposits and prepayments*

Impairment of receivables, deposits, and prepayments is made based on an assessment of the recoverability of receivables, deposits and prepayments. The assessment of impairment of receivables, deposits and prepayments involves the use of estimates and judgments. An estimate for doubtful debts is made when collection of the full amount is no longer probable, as supported by objective evidence using available contemporary and historical information to evaluate the exposure. Bad debts are written off as incurred. Where the actual outcome or expectation in the future is different from the original estimates, such differences will affect the carrying amount of receivables, deposits and prepayments and thus the impairment loss in the period in which such estimate is changed.

(d) *Mine reserves*

Mining rights and mining structures are amortized or depreciated over the estimated useful lives of the mines in accordance with the production plans of the entities concerned and the mineral resources and reserves of the mines using the UOP method.

The process of estimating the quantities of the Group's gold reserve and resources is inherently imprecise and represent only approximate amounts because of the subjective judgements involved in developing such information based on available geological, geophysical, engineering and economic data. These estimates may change substantially as additional data from ongoing development activities and production performance becomes available and as economic conditions impacting mineral prices and costs change. Changes in reported reserves and resources estimated can impact the carrying value of intangible asset.

(e) *Exploration and evaluation assets*

Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest the carrying amount may exceed its recoverable amount. The directors of the Company exercise their judgment in estimating recoverable amount which requires the Group to estimate the total reserves of the ore mines. These estimates may change substantially as additional data from ongoing development activities and production performance becomes available. If the quantities of reserves are different from current estimates, it will result in significant changes of the recoverable amount. Where the recoverable amount is less than expected, a material impairment loss may arise.

6. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's activities expose it to a variety of financial risks: foreign currency risk, credit risk, liquidity risk and interest rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

(a) Foreign currency risk

The Group has foreign currency transactions which expose the Group to market risk arising from changes in foreign exchange rates. During the year ended 31 December 2016, the Group had bank and cash balances that are denominated in foreign currencies which exposed the Group to foreign currency risks.

The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

At 31 December 2016, if the RMB had weakened 5% per cent against HKD with all other variables held constant, consolidated loss (2015: profit) after tax for the year would have been approximately RMB32,699,000 (2015: RMB40,463,000) lower , arising mainly as a result of the foreign exchange gain on bank and cash balances denominated in HKD. If the RMB had strengthened 5% per cent against the HKD with all other variables held constant, consolidated loss (2015: profit) after tax for the year would have been approximately RMB32,699,000 (2015: RMB40,463,000) higher (2015: higher) , arising mainly as a result of the foreign exchange loss on bank and cash balances denominated in HKD.

(b) Credit risk

The carrying amount of the bank and cash balances and trade and other receivables included in the consolidated statement of financial position represents the Group's maximum exposure to credit risk in relation to the Group's financial assets.

The Group has no significant concentrations of credit risk.

The credit risk on bank and cash balances is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

It has policies in place to ensure that sales are made to customers with an appropriate credit history.

The Group's credit risk is primarily attributable to its trade and other receivables. In order to minimize credit risk, the directors review the recoverable amount of each individual debt regularly to ensure that adequate impairment losses are recognized for irrecoverable debts. In this regard, the directors consider that the Group's credit risk is significantly reduced.

6. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(c) Liquidity risk

The Group monitors its exposure to a shortage of funds by considering the maturity of both its financial liabilities and financial assets and projected cash flows from operations.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of its own funding sources.

All of the Group's financial liabilities are due within one year.

(d) Interest rate risk

As the Group has no significant interest-bearing assets and liabilities, the Group's operating cash flows are substantially independent of changes in market interest rates.

7. SEGMENT INFORMATION

The Group has 3 mines in Nantaizi, Shirengou and Luotuochang in Inner Mongolia, the PRC. The Group is organized based on the locations of its ore processing plants. The ore processing plant located at Nantaizi processes ore from the mines in Nantaizi and Shirengou. The ore processing plant located at Luotuochang only processes ore from the mine in Luotuochang. For management reporting purpose, the Group's executive directors, who are the chief operating decision maker ("CODM") reviewed the financial information of each ore processing plant for the purpose of resources allocation and performance evaluation. Hence, the processing activities at each of the ore processing plants in Nantaizi and Luotuochang represented as an operating segment.

The Group acquired certain subsidiaries engaged in exploration activities in Inner Mongolia and Guangxi, the PRC. The CODM also reviewed financial information of each subsidiary separately. Because all these subsidiaries carry out exploration activities, they are aggregated as one reportable segment of exploration of gold mines.

The Group's reportable segments are set out as follows:

(i) Ore processing plant in Nantaizi — the mining and ore processing activities in respect of the mines in Nantaizi and Shirengou;

(ii) Ore processing plant in Luotuochang — the mining and ore processing activities in respect of the mine in Luotuochang;

(iii) Exploration of gold mines — the exploration activities in various places.

The Company made a request to the Huizhou Public Security Bureau for the formal document directing a freezing of Fubon's shares and Huizhou Public Security Bureau requested the Company to provide certain information to assist with its investigation. The freezing of all of the shares of Fubon is likely to impact the progress of effecting changes of legal representative and directors of Fubon and its subsidiary, namely Chifeng Fuqiao Mining Co., Ltd ("Fuqiao").

Refer to the announcement of the Company on 29 April 2019, the Company continues to take steps to effect changes of the legal representatives of two subsidiaries, namely, Fubon and Fuqiao. The Company has been informed by the Huizhou Police that the Huizhou Police has passed all relevant materials relating to the investigation of Mr. Wu Ruilin, the Company's former controlling shareholder, to the Intermediary People's Court of Huizhou ("Huizhou Court") as requested by the Huizhou Court. Subsequently, the Company has submitted the written application to the Huizhou Court for the discharge of the frozen Fubon shares. According to the Huizhou Court, a trial of first instance with respect to Mr. Wu Ruilin's case was held but no judgement has been issued yet, and the Huizhou Court will only attend to the discharge after the issue of a judgement. 23. BANK AND CASH BALANCES (Continued)

On 23 May 2017, the board of directors ("Directors") of the Company announces that on or around 16 March 2017, the Company received bank statements from China Guangfa Bank (Huizhou Branch) ("Guangfa Bank") for the Company's bank accounts maintained at such bank for the month ended 30 November 2016 ("November Bank Statement") and for the month ended 31 December 2016 ("December Bank Statement"). Consistent with the Company's internal records, the November Bank Statement showed that the Company had, inter alia, fixed deposits of HKD200,000,000 ("Fixed Deposits") held with Guangfa Bank. However, such Fixed Deposit was not shown in the December Bank Statement. The Directors made internal enquiries and confirmed that the Company had not authorized or procured the drawing of the Fixed Deposit from its bank accounts during December 2016. Therefore, the Directors considered that it was possible that Guangfa Bank might have made an error in the December Bank Statement. The Company made enquiries with Guangfa Bank about the said error but to no avail. The Company therefore sought assistance from its legal advisors in the PRC who demanded Guangfa Bank to explain the status of the Fixed Deposit.

In addition, according to the Group's accounting records, one of the subsidiaries of the Group, Rich Vision Holdings Limited ("Rich Vision") has fixed deposits of HKD317,000,000 held with Guangfa Bank ("Rich Vision Fixed Deposits"). Through its PRC legal advisors, the Company also demanded Guangfa Bank to confirm the status of Rich Vision Fixed Deposits. Up to 23 May 2017, Guangfa Bank has not provided the Company or its PRC legal advisors with any information about the Company's Fixed Deposit or the Rich Vision Fixed Deposits.

On 6 June 2017, the Company issued a letter of complaint to the China Banking Regulatory Commission ("CBRC") against Guangfa Bank in respect of the suspension of operations of bank accounts of the Company and Rich Vision, the Fixed Deposit of the Company and the Rich Vision Fixed Deposits. On 23 August 2017, the Company received a notice from the Huizhou branch of CBRC, which confirms that investigation is underway and provides the following updates: (1) The CBRC is extending the investigations for 30 more days beyond the 60 days as originally intended as a result of the complexity of the matters of complaint; and (2) the CBRC will provide the Company with a written report of its findings upon completion of the investigations.

Refer to the announcement of the Company on 6 December 2017, in response to the letter of complaint issued by the Company to the CBRC against Guangfa Bank in respect of the suspension of operations of bank accounts of the Company and Rich Vision, the CBRC has provided an update only in respect of the Fixed Deposits of the Company. The CBRC stated that it found no wrongdoing on the part of Guangfa Bank but there is an allegation that the Fixed Deposits had been pledged to Guangfa Bank to secure loans taken out by a group of companies controlled by Mr. Wu Ruilin (the Company's former controlling shareholder). No further details have been provided by the CBRC. The Company has not seen a copy of the alleged pledge agreement(s) and is not aware of its/their terms or the obligations the pledge(s) is/are alleged to secure but is of the view that they could not have been properly authorized by the Company or any other Group company. Further, the Company has not received any independent confirmation from Guangfa Bank that it claims to have a pledge over the Fixed Deposits. The Company has no knowledge of the existence of any such pledge arrangements.

23. BANK AND CASH BALANCES (Continued)

Refer to the announcement of the Company on 2 March 2018, after consulting its PRC legal advisers, the Company has decided to commence civil proceedings against Guangfa Bank for infringement of rights and reinstatement of accounts, and the Company is working with its PRC legal advisers to commence such proceedings. The Company has been advised by its PRC legal advisers that if criminal proceedings are commenced against the responsible personnel of Guangfa Bank, the Company may as a victim commence consequential civil proceedings against Guangfa Bank and its responsible personnel. The Company has also communicated with the Huizhou Police and was informed that the Huizhou Police was not responsible for freezing or sealing any fixed deposits from the accounts of the Company and Rich Vision.

Refer to the announcement of the Company on 29 March 2018, upon advice by its PRC legal advisers, the Group has submitted two civil writs of action against Guangfa Bank in respect of the Fixed Deposits and Rich Vision Fixed Deposits respectively at the People's Court of Yuexiu District in Guangzhou (the "Yuexiu Court"). The Yuexiu Court suggested the Group should commence civil proceedings against Guangfa Bank for reinstatement of accounts only. However, as the Group is unable to confirm the authenticity of any alleged pledge agreement(s) submitted by Guangfa Bank to the CBRC asserting the existence or validity of any pledge over the Fixed Deposits and Rich Vision Fixed Deposits with Guangfa Bank, the Group commenced civil proceedings against Guangfa Bank for infringement of rights as one of its causes of action. As at 29 March 2018, the Yuexiu Court has formally put on its records the Group's civil action in respect of the Fixed Deposits and Rich Vision Fixed Deposits.

Refer to the announcement of the Company on 12 June 2018, in relation to the two civil actions commenced by the Group against Guangfa Bank at the Yuexiu Court, Guangfa Bank filed an application to challenge jurisdiction, which was dismissed by the Yuexiu Court (the "Dismissal Ruling"). Guangfa Bank then indicated that it intends to appeal the Dismissal Ruling when the Dismissal Ruling was served on Guangfa Bank.

Refer to the announcement of the Company on 29 April 2019, the hearing was held by the Yuexiu Court in respect of each of the two civil actions commenced by the Group against Guangfa Bank, but no ruling was made by the court which required further evidence to be submitted. It is expected that another hearing for these two actions will be held by Yuexiu Court in due course.

As at 31 December 2016, the total bank balance in Guangfa Bank accounts was approximately RMB470,479,000.
