Chairman's Statement

Dear shareholders,

I am pleased to present herewith the 2019 Interim Report of the Company.

FINANCIAL RESULTS

For the six months ended 30th June, 2019, the Group achieved an unaudited consolidated profit attributable to shareholders of HK\$379.1 million, an increase of about 29% over the comparative profit of HK\$294.0 million attained for the same period in 2018.

During the half year under review, the core hotel business of the Group continued to operate steadily. Benefited by the recovery of the capital market within the period, the Group realised significant profits from the disposals of financial assets and recorded substantial fair value gains on the portfolio of financial assets held as at 30th June, 2019. Operating profit before depreciation, finance costs and tax amounted to HK\$910.0 million, which was substantially above the comparative amount of HK\$597.3 million in the first half of 2018. Depreciation charges for the period amounted to HK\$266.2 million (2018 – HK\$256.9 million), most of which were related to the Group's hotel properties, which though not having an impact on cash flow, have nonetheless impacted the Group's reported profit.

The Group has nine hotel properties operating in Hong Kong, which are all owned through Regal Real Estate Investment Trust, the listed subsidiary of the Company. With the exception of the iclub Wan Chai Hotel which is self-operated by Regal REIT, the five initial Regal Hotels and the three other iclub Hotels are leased by Regal REIT to a wholly owned subsidiary of the Group for hotel operations. In compliance with the prevailing accounting standards, all these hotel properties are stated in the Group's consolidated financial statements as property, plant and equipment and subject to depreciation charges. Consequently, their carrying values in the Group's consolidated financial statements are substantially below their market values. If all such hotel properties were to be stated at their independent professional valuations as at 30th June, 2019, the adjusted net asset value per share of the Company would amount to HK\$24.73, as compared to HK\$14.73 per share based on book net assets. Shareholders could refer to the paragraph headed "Assets Value" in the section headed "Management Discussion and Analysis" in this Interim Report on the information regarding the adjusted net asset value of the Company.

BUSINESS OVERVIEW

HOTELS

MARKET OVERVIEW

According to a recent research report by the World Bank Group, global growth has continued to soften in the first half of 2019. The outlook for global growth for the full year has been adjusted downward to 2.6 percent, 0.3 percentage point below previous forecasts, reflecting that international trade and investment was weaker than expected at the start of the year. During the period under review, China's economy expanded by 6.3% over the same period in 2018. However, weighed down by the softness in manufacturing output due to the escalated trade disputes with the United States, trade flows have been weak. Affected by this unfavourable external climate, Hong Kong's economy also slowed down in the first six months of 2019 and the overall performance across a wide spectrum of economic sectors recorded a visible decline. During this period, the Gross Domestic Product (GDP) in real terms of Hong Kong only increased by 0.5% year-on-year, which was much lower than the GDP growth rate of 4% for the same period last year.

Chairman's Statement (Cont'd)

For the period under review, total visitors to Hong Kong amounted to approximately 34.9 million, representing an increase of 13.9% year-on-year, of which 27.6 million were visitors from Mainland China, an increase of 16.4% year-on-year. Of the total arrivals, overnight visitors accounted for approximately 14.9 million, which posted an increase of 7.7% year-on-year. The number of visitors from other short-haul markets (excluding Mainland China and the Macau SAR) had a modest growth of 3.7% but those from the traditional long-haul markets were marginally below the level in the first six months last year. On the other hand, the number of visitors from Mainland China under the Individual Visit Scheme has seen a gradual decrease from over 3.6 million in January to just over 2.3 million in June this year.

Based on the information published by the Hong Kong Tourism Board, the average hotel room occupancy level for all the surveyed hotels under different categories in Hong Kong for the half year ended 30th June was down from 91% in 2018 to 90% in 2019, while the average achieved room rate also shrank by 0.2%, thus resulting in a reduction in the Revenue per Available Room (RevPAR) of 1.3% year-on-year.

HOTEL OWNERSHIP

The Group is developing through a wholly owned subsidiary a second hotel at the Hong Kong International Airport, proposed to be named as Regala Skycity Hotel, which will have over 1,200 guestrooms and suites. The construction works for this new hotel are progressing steadily and expected to be completed on schedule in late 2020.

The Group also owns a 186-room hotel in Barcelona, Spain, formerly known as the La Mola Hotel & Conference Centre. This hotel property has been leased to an independent third party since September 2017 and yielded satisfactory rental income during the period under review.

In April 2019, the Group entered into a sale and purchase agreement with an independent third party for the acquisition of the entire equity interests in a company that owns a freehold existing property located at a prime location in London, the United Kingdom. The existing property has 9 storeys with approximately 2,150 square metres and is intended to be renovated into a hotel with about 78 hotel rooms to be operated by the Group. Further detailed information on this transaction was contained in the joint announcement of the Company dated 10th April, 2019. The acquisition of this target company has since been completed at the end of April this year.

REGAL REAL ESTATE INVESTMENT TRUST

The Group held 74.6% of the outstanding units of Regal REIT as at 30th June, 2019 and Regal Portfolio Management Limited, a wholly owned subsidiary of the Company, acts as the REIT Manager.

For the six months ended 30th June, 2019, Regal REIT recorded an unaudited consolidated loss before distribution to unitholders of HK\$362.9 million, as compared to the profit of HK\$942.9 million for the corresponding period in 2018. The loss recorded for the interim period was principally attributable to the reduction of HK\$585.1 million in the fair value of Regal REIT's investment property portfolio, based on the market valuations appraised by its principal valuer as of 30th June, 2019, as compared to the last appraised value as of 31st December, 2018. While for the corresponding period last year, a fair value gain of HK\$716.0 million was recorded. If these fair value changes are excluded, the core operating profit before distribution to unitholders of Regal REIT for the interim period would amount to HK\$222.1 million, slightly below the HK\$226.9 million for the same period in 2018.

As mentioned above, Regal REIT now owns a total of nine operating hotels in Hong Kong, including the five initial Regal Hotels, namely, the Regal Airport Hotel, the Regal Hongkong Hotel, the Regal Kowloon Hotel, the Regal Oriental Hotel and the Regal Riverside Hotel; and four iclub Hotels, which are, respectively, the iclub Wan Chai Hotel, the iclub Sheung Wan Hotel, the iclub Fortress Hill Hotel and the iclub Ma Tau Wai Hotel. With the exception of the iclub Wan Chai Hotel, all the other hotels are under leases by Regal REIT to a wholly owned subsidiary of the Company for hotel operations. Details of the business performance of these eight hotels during the period under review are reported in the sub-section headed "Hotel Operations" below.

The iclub Wan Chai Hotel was the first iclub hotel in Hong Kong and has been self-operated by Regal REIT since 2011. During the interim period, it maintained an occupancy rate of 94.5%, which was 1.4 percentage points higher than the same period last year. However, as its average room rate decreased by 5.1%, its average RevPAR contracted by 3.8% year-on-year. The net property income from this property, including the lease rentals from the non-hotel portions, amounted to HK\$11.2 million for the interim period, which was 5.9% below the comparative amount last year.

HOTEL OPERATIONS

Favour Link International Limited, a wholly owned subsidiary of the Company, is the lessee operating the eight hotels under leases from Regal REIT.

During the first half of 2019, the business environment for the hospitality industry in Hong Kong was becoming more competitive and hotel operators were faced with increasing pressure on room rates, particularly towards the end of the second quarter. The combined average occupancy of the five initial Regal Hotels in Hong Kong, which operate as full-service hotels under the "Regal" brand name, during the interim period was 86.3%, as compared to 86.7% for the same period last year. Meanwhile, their combined average room rate decreased by 1.1%, with their combined RevPAR consequently dropping by 1.6% year-on-year. Aggregate net property income for the five hotels for the interim period amounted to HK\$378.4 million, which was 7.0% below the HK\$406.8 million attained for the same period in 2018 and also below the pro-rated prevailing aggregate base rent of HK\$388.0 million for the half year of 2019.

To meet different market demands, the "iclub" brand was developed by the Group as a separate line of hotels, which are typically positioned as upscale select-service hotels, with contemporary designs and stylish décors, and equipped with tech-savvy facilities.

During the interim period, the iclub Sheung Wan Hotel and the iclub Fortress Hill Hotel attained a combined average occupancy rate of 93.4%, an increase of 4.7 percentage points as compared to the level in the corresponding period in 2018. Although their combined average room rate decreased by 2.9%, their combined average RevPAR overall improved by 2.3% year-on-year. Net property income for these two iclub Hotels for the interim period amounted to HK\$22.5 million and HK\$19.8 million, respectively, which was in each case below the pro-rated base rents of HK\$23.0 million for the half year in 2019, as determined by an independent professional property valuer in accordance with the terms of the leases.

As for the iclub Ma Tau Wai Hotel, it was leased for an initial term of 5 years from September 2017 with escalating fixed rentals at an average yield of 4.5% per annum. Under the arrangement agreed with P&R Holdings Limited, the 50/50 joint venture with Paliburg Holdings Limited, any deficit of the rental expenses below the net property income from the business operation of the hotel will be reimbursed by P&R Holdings to the Group annually during the initial 5-year term of the lease. Average occupancy rate for this hotel for the interim period was 81.6%, 2.6 percentage points above the comparative figure in 2018, while the average room rate was virtually maintained at about the same level.

HOTEL MANAGEMENT

Regal Hotels International Limited, the wholly owned management arm of the Group, is the hotel manager managing all the five initial Regal Hotels and five iclub Hotels now operating in Hong Kong. The most recent addition to the portfolio is the iclub Mong Kok Hotel, a 288-room hotel developed and owned by P&R Holdings, which was soft opened in March 2019. Two other new hotels in Hong Kong, also to be managed by Regal Hotels International, are coming on stream. They are, respectively, the iclub Sheung Wan II Hotel, which is also owned and developed by P&R Holdings, to be completed in the second half of this year and the Regala Skycity Hotel, owned and developed by the Group, in late 2020.

In Mainland China, the Group is presently managing a total of eight operating Regal Hotels, including four in Shanghai, two in Dezhou, one in Xi'an and one in Foshan. Having managed the Regal International East Asia Hotel in Shanghai since its opening in 1998, the management agreement for this hotel will end at the end of this year. The Group is also managing one hotel in Zhengzhou which is operating under the iclub by Regal brand. Three other hotels to be managed by the Group are under development, which are separately located in Chengdu, Jiangmen and Kunshan.

The hotel manager will continue to step up its efforts to promote the "Regal", "iclub" and the latest "Regala" brand names and to strengthen the Group's marketing and reservation networks on the internet and other platforms.

PROPERTIES

The property market in Hong Kong was relatively stable in the early part of 2019, with the sale price and transaction volume of residential properties having generally increased, particularly in the primary market. However, due to the deteriorating external environment and the escalated social disturbance in the local community, market sentiment since the latter part of June this year has been seriously affected.

Mount Regalia in Kau To, Sha Tin is a major residential project developed by P&R Holdings. The project has a total gross floor area of about 349,500 square feet, comprising 24 garden houses and 136 apartment units together with car parks and club house facilities. Following the issue of the certificate of compliance for this development, the sale programme was recently commenced earlier this year. Up to this date, 1 garden house and 7 apartment units together with 9 car parks have been contracted to be sold. The average price secured under these contracted sales is very satisfactory and substantial profits will be realised when these property sales are duly completed with their respective purchasers.

During the recent years, the Group has also taken on, through its wholly owned subsidiaries, property development business as and when appropriate opportunities arose.

Apart from the hotel projects mentioned above, the Group is also undertaking a commercial/residential development located at Queen's Road West in Hong Kong and a rehabilitation and renovation project in Lisbon, Portugal.

Further detailed information on the Group's development projects and properties, as well as those undertaken by P&R Holdings are contained in the "Management Discussion and Analysis" section, which also included information about the Group's financial assets and other investments.

AIRCRAFT OWNERSHIP AND LEASING

In February 2019, the Group completed the disposal of the one remaining Embraer ERJ135 aircraft to an independent buyer. The disposal of all our Embraer aircraft has on the whole generated satisfactory profits. In June 2019, the Group executed agreements to extend the operating leases of two Airbus A321-211 with the existing lessee, which is a major British international airline operator, from 2020 to 2024. The extensions of these leases will provide steady rental income for the Group during the extended term.

At present, the Group owns a fleet of 3 passenger aircraft which are all on operating leases. The Group still holds a reasonably positive view in the long-term growth of the aviation industry and will continue to review new acquisitions if they could offer attractive returns.

OUTLOOK

Apart from the slowing global demand, the overall external environment is still overshadowed by many uncertainties, including the trade and other disputes between China and the United States, the situation on Brexit and the geopolitical tensions in different regions. These unfavourable external factors are already affecting Hong Kong's trade performance and overall economic growth.

The demonstrations and protests in Hong Kong since June this year have led to some social unrest in the local community and adverse publicity internationally. These recent events have also seriously affected the businesses of many different trades in Hong Kong, particularly, the tourism, retail and food and beverage business sectors. If this adverse situation is not well contained in time, the economy of Hong Kong may well further deteriorate.

The operating performances of the hotels owned by the Group in Hong Kong, during the month of July and in August to date, have been well below earlier forecasts. If the local hospitality market does not recover in the near term, it may have adverse impacts on their hotel incomes for the second half of this year.

Nevertheless, looking ahead, the directors of the REIT Manager still believe in the resilience of the economy of Hong Kong and the integrity of its operating systems and that Hong Kong will be able to overcome these challenges to remain an international business and tourism hub in the region. Regal REIT will continue to consider, though with added prudence, appropriate acquisition opportunities that can strengthen its hotel portfolio and enhance its earnings in the future.

A number of major development projects undertaken by P&R Holdings have recently been completed, including the We Go MALL in 2018, the iclub Mong Kok Hotel and most notably, the Mount Regalia this year. While the We Go MALL and the iclub Mong Kok Hotel are now generating recurring income, the gradual disposals of the houses and apartment units in Mount Regalia will contribute substantial cash flow and profits to P&R Holdings in due course.

Over the years, the Group has built a strong portfolio of quality assets and a solid financial foundation. It is well prepared to meet challenges and to progress forward against headwinds. Overall, the Directors of the Company remain cautiously optimistic of the future economic prospects of Hong Kong.

While the nine residential towers in the first and second stages of the Chengdu project have been completed, the superstructure works of the third stage of the development consisting of ten residential towers of total 1,555 units, about 4,100 square metres (44,100 square feet) of commercial accommodations and 1,941 car parking spaces are in steady progress. Presale of two residential towers consisting of 314 units in the third stage of the development was commenced in March 2019. Up to date, a total of 268 residential units have been contracted as sold, securing aggregate sales proceeds of approximately RMB334 million (equivalent to approximately HK\$365 million). The presale of another three residential towers consisting of 472 units has further been launched recently this August and the response is favourable.

The business remodeling works of the hotel have been completed and corresponding interior design works are progressing. The interior fitting-out works are scheduled to commence in early 2020 and the hotel is scheduled to open in phases from the end of 2020.

The updated scheme design of the remaining commercial components within the development, comprising a six-storey commercial complex of about 48,000 square metres (516,700 square feet) and five towers of office accommodations of about 90,500 square metres (974,100 square feet), have been approved by the local authority and the detailed design works have also commenced. The construction works are planned to be started in late 2019 and the associated presale programme is expected to be launched in late 2020.

Tianjin Project – Regal Renaissance

Located in the Hedong District in Tianjin, this project is a mixed use development comprising residential, commercial and office components with total gross floor area of about 145,000 square metres (1,561,000 square feet).

The sale of the commercial complex, comprising mainly shops of about 19,000 square metres (205,000 square feet), is continuing steadily and contracts for sale have been secured for some of the shop units. Certain parts of the commercial complex have in the meantime been leased out for rental income.

The superstructure works of the two office towers have resumed since June 2019. The presale of the office accommodations is planned to be launched in the second quarter of 2020.

Xinjiang Project

This is a re-forestation and land grant project for a land parcel with site area of about 7,600 mu in accordance with the relevant laws and policies in Urumqi, Xinjiang Uygur Autonomous Region. The Cosmopolitan group has re-forested an aggregate area of about 4,300 mu within the project site and in accordance with the relevant government policies of Urumqi, a parcel of land with an area of about 1,843 mu (equivalent to approximately 1,228,700 square metres) within the project site would be available for real estate development after the requisite inspection, land grant listing and tender procedures are completed.

The Cosmopolitan group continues to maintain the re-forested area and communicate with the relevant government authority to initiate appropriate measures to settle the disputes over certain portions of the land in the project site that have been illegally occupied. Based on the legal advice obtained, the legitimate interests of the Cosmopolitan group in this re-forestation and land grant contract remain valid and effective.

Logistics Business

Possible Investment in a Logistics Group

As previously disclosed, the Cosmopolitan group entered into certain deposit agreements and loan agreements in August and September 2018 with independent third parties for the possible investment by the Cosmopolitan group in a sizeable logistics services provider that is principally operating logistics and express delivery services and the development and operation of logistics parks in the PRC. The Cosmopolitan group has paid deposits to the vendor and the target investee group in a total amount of RMB170 million and also granted loans to the target investee group in an aggregate sum of RMB150 million due for repayment in November 2018. Together with the interest accrued on the loans, the total amount of such deposits and loans amounted to RMB360.7 million in the books of the Cosmopolitan group as at 30th June, 2019.

Due to the complex operating structure and the financial status of the target investee group, the negotiations on the final terms of the proposed investment by the Cosmopolitan group in the target investee group and certain of its selected businesses have not progressed as smoothly as initially envisaged. The Cosmopolitan group is still continuing its discussions with the vendor and the target investee group on the investment proposal and, in the meantime, is also conducting negotiations with a potential investor for its possible investment in these logistics businesses. Further announcement will be made as and when an investment proposal is finalised.

In the meantime, the deposits and the loan amounts (together with the interest accrued) continue to be secured primarily by equity pledges over certain PRC companies associated with the vendor, guarantees provided by the vendor and certain of his associates, and pledges over the receivables of the target investee group and certain associates of the vendor.

FINANCIAL ASSETS AND OTHER INVESTMENTS

The Group maintains a sizable investment portfolio comprising listed securities, investment funds, bonds as well as treasury and yield enhancement products. Benefited by the recovery of the capital market within the period, the Group realised significant profits from the disposals of financial assets and recorded substantial fair value gains on the portfolio of financial assets held as at 30th June, 2019. However, the capital market, particularly the equities market, has become more volatile since the half year end date, which could have impact on the performance of the Group's investment portfolio in the second half of 2019.

FINANCIAL REVIEW

ASSETS VALUE

The Group's hotel properties in Hong Kong owned by Regal REIT, with the exception of the iclub Sheung Wan Hotel, the iclub Fortress Hill Hotel and the iclub Ma Tau Wai Hotel, were stated in the financial statements at their fair values as at 23rd July, 2010 when Regal REIT became a subsidiary of the Group, plus subsequent capital additions and deducting accumulated depreciation. The market valuations of these hotel properties have since appreciated substantially but have not been reflected in the Group's financial statements. Moreover, the iclub Sheung Wan Hotel, the iclub Fortress Hill Hotel and the iclub Ma Tau Wai Hotel were stated in the Group's financial statements at their fair values at the time of acquisition net of the unrealised gain attributable to the Group and are also subject to depreciation. Funding and Treasury Policy

The Group adopts a prudent funding and treasury policy with regard to its overall business operations. Cash balances are mostly placed on bank deposits, and treasury and yield enhancement products are deployed when circumstances are considered to be appropriate.

The use of hedging instruments for interest rate purposes to cater to business and operational needs is kept under review by the Group's management from time to time. As the Hong Kong dollar is pegged to the US dollar, the exchange risks are considered to be insignificant and no currency hedging has been deployed. As regards the Group's overseas investments which are based in currencies other than US dollar and Hong Kong dollar, the Group will consider hedging part or all of the investment amounts into US dollar or Hong Kong dollar to contain the Group's exposure to currency fluctuation.

Notes to Condensed Consolidated Financial Statements

1. Accounting Policies

The condensed consolidated financial statements for the six months ended 30th June, 2019 have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 *Interim Financial Reporting* issued by the Hong Kong Institute of Certified Public Accountants. The condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group’s annual consolidated financial statements for the year ended 31st December, 2018. The accounting policies adopted in the preparation of the condensed consolidated financial statements are consistent with those followed in the preparation of the Group’s annual consolidated financial statements for the year ended 31st December, 2018, except for the adoption of the following new and revised Hong Kong Financial Reporting Standards (“HKFRSs”), which are effective for the Group’s annual periods beginning on or after 1st January, 2019.

Amendments to HKFRS 9	<i>Prepayment Features with Negative Compensation</i>
HKFRS 16	<i>Leases</i>
Amendments to HKAS 19	<i>Plan Amendment, Curtailment or Settlement</i>
Amendments to HKAS 28	<i>Long-term Interests in Associates and Joint Ventures</i>
HK(IFRIC)-Int 23	<i>Uncertainty over Income Tax Treatments</i>
<i>Annual Improvements 2015-2017 Cycle</i>	Amendments to HKFRS 3, HKFRS 11, HKAS 12 and HKAS 23

Other than as explained below regarding the impact of HKFRS 16 and Amendments to HKAS 28, the adoption of the above new and revised standards are not relevant to the preparation of the Group’s condensed consolidated financial statements.

The nature and impact of the new and revised HKFRSs are described below:

- (a) HKFRS 16 replaces HKAS 17 *Leases*, HK(IFRIC)-Int 4 *Determining whether an Arrangement contains a Lease*, HK(SIC)-Int 15 *Operating Leases - Incentives* and HK(SIC)-Int 27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model. Lessor accounting under HKFRS 16 is substantially unchanged from HKAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in HKAS 17. Therefore, HKFRS 16 did not have any financial impact on leases where the Group is the lessor.

The Group adopted HKFRS 16 using the modified retrospective method of adoption with the date of initial application of 1st January, 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initial adoption as an adjustment to the opening balance of retained profits at 1st January, 2019, and the comparative information for 2018 was not restated and continues to be reported under HKAS 17.

New definition of a lease

Under HKFRS 16, a contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from the use of the identified asset and the right to direct the use of the identified asset. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 at the date of initial application. Contracts that were not identified as leases under HKAS 17 and HK(IFRIC)-Int 4 were not reassessed. Therefore, the definition of a lease under HKFRS 16 has been applied only to contracts entered into or changed on or after 1st January, 2019.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease and non-lease component on the basis of their stand-alone prices.

As a lessee - Leases previously classified as operating leases

Nature of the effect of adoption of HKFRS 16

The Group has lease contracts for certain office, warehouse premises, staff quarters, shop units and office equipment. As a lessee, the Group previously classified leases as either finance leases or operating leases based on the assessment of whether the lease transferred substantially all the rewards and risks of ownership of assets to the Group. Under HKFRS 16, the Group applies a single approach to recognise and measure right-of-use assets and lease liabilities for all leases, except for two elective exemptions for leases of low value assets (elected on a lease by lease basis) and short-term leases (elected by class of underlying asset). The Group has elected not to recognise right-of-use assets and lease liabilities for (i) leases of low-value assets; and (ii) leases, that at the commencement date, have a lease term of 12 months or less. Instead, the Group recognises the lease payments associated with those leases as an expense on a straight-line basis over the lease term.

Impacts on transition

Lease liabilities at 1st January, 2019 were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at 1st January, 2019.

The right-of-use assets were measured at the amount of the lease liabilities, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised in the statement of financial position immediately before 1st January, 2019. All these assets were assessed for any impairment based on HKAS 36 on that date. The Group elected to present the right-of-use assets and lease liabilities separately in the statement of financial position.

For the leasehold land and buildings (that were held to earn rental income and/or for capital appreciation) previously included in investment properties and measured at fair value, the Group has continued to include them as investment properties at 1st January, 2019. They continue to be measured at fair value applying HKAS 40.

Notes to Condensed Consolidated Financial Statements (Cont'd)

The Group has used the following elective practical expedients when applying HKFRS 16 at 1st January, 2019:

- The use of a single discount rate to a portfolio of leases with reasonably similar characteristics
- Applied the short-term lease exemptions to leases with a lease term that ends within 12 months from the date of initial application
- Used hindsight in determining the lease term where the contract contains options to extend/terminate the lease

The impacts arising from the adoption of HKFRS 16 as at 1st January, 2019 are as follows:

	Increase (Unaudited)
	HK\$'million
Assets	
Right-of-use assets	34.1
Investment properties	8.3
Total assets	<u>42.4</u>
Liabilities	
Lease liabilities	<u>42.4</u>

The lease liabilities as at 1st January, 2019 reconciled to the operating lease commitments as at 31st December, 2018 is as follows:

	(Unaudited)
	HK\$'million
Operating lease commitments as at 31st December, 2018	28.3
Weighted average incremental borrowing rate as at 1st January, 2019	2.82%
Discounted operating lease commitments as at 1st January, 2019	27.5
Add: Payments for optional extension period not recognised as at 31st December, 2018	15.1
Less: Commitments relating to short-term leases and those leases with a remaining lease term ending on or before 31st December, 2019	<u>(0.2)</u>
Lease liabilities as at 1st January, 2019	<u>42.4</u>

Summary of new accounting policies

The accounting policy for leases as disclosed in the annual consolidated financial statements for the year ended 31st December, 2018 is replaced with the following new accounting policies upon adoption of HKFRS 16 from 1st January, 2019:

Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of the estimated useful life and the lease term. When a right-of-use asset meets the definition of investment property, it is included in investment properties. The corresponding right-of-use asset is initially measured at cost, and subsequently measured at fair value, in accordance with the Group's policy for 'investment properties'.

Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in future lease payments arising from change in an index or rate, a change in the lease term, a change in the in-substance fixed lease payments or a change in assessment to purchase the underlying asset.

As at 30th June, 2019	<u>33.8</u>	<u>0.6</u>	<u>34.4</u>	<u>7.9</u>	<u>41.8</u>

The Group recognised rental expenses from short-term leases of HK\$0.2 million and rental income from subleasing right-of-use assets of HK\$1.1 million for the six months ended 30th June, 2019.

- (b) Amendments to HKAS 28 clarify that the scope exclusion of HKFRS 9 only includes interests in an associate or joint venture to which the equity method is applied and does not include long-term interests that in substance form part of the net investment in the associate or joint venture, to which the equity method has not been applied. Therefore, an entity applies HKFRS 9, rather than HKAS 28, including the impairment requirements under HKFRS 9, in accounting for such long-term interests. HKAS 28 is then applied to the net investment, which includes the long-term interests, only in the context of recognising losses of an associate or joint venture and impairment of the net investment in the associate or joint venture. The Group assessed its business model for its long-term interests in associates and joint ventures upon adoption of the amendments on 1st January, 2019 and concluded that the long-term interests in associates and joint ventures continue to be measured at amortised cost in accordance with HKFRS 9. Accordingly, the amendments did not have any impact on the Group's condensed consolidated financial information.

2. Operating Segment Information

For management purposes, the Group is organised into business units based on their products and services and has six reportable operating segments as follows:

- (a) the hotel operation and management and hotel ownership segment engages in hotel operations and the provision of hotel management services, and the ownership in hotel properties for rental income;
- (b) the asset management segment engages in the provision of asset management services to Regal Real Estate Investment Trust ("Regal REIT");
- (c) the property development and investment segment includes investments in properties for sale and for rental income, and the provision of property agency and management services;
- (d) the financial assets investments segment engages in trading of financial assets at fair value through profit or loss and other financial assets investments;
- (e) the aircraft ownership and leasing segment engages in the aircraft ownership and leasing for rental and interest income; and
- (f) the others segment mainly comprises travel agency services, the sale of food products, operation and management of restaurants, operation of security storage lounge, the provision of housekeeping services and development and distribution of multimedia entertainment and digital educational content and multi-platform social games.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/(loss), which is a measure of adjusted profit/(loss) before tax. The adjusted profit/(loss) before tax is measured consistently with the Group's profit before tax except that certain interest income, finance costs, head office and corporate gains and expenses are excluded from such measurement.

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

The Directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with HKAS 34. Our responsibility is to express a conclusion on this interim financial information based on our review. Our report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* issued by the HKICPA. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with HKAS 34.
