MANAGEMENT DISCUSSION AND ANALYSIS

MARKET OVERVIEW

“Let there be a careful attention to perform the funeral rites to parents, and let them be followed when long gone with the ceremonies of sacrifice – then the virtue of the people will resume its proper excellence” (“慎終追遠·民德歸厚矣”). The “funeral, burial and funeral rites” and the “filial piety culture” have been the essence of the traditional Chinese culture since ancient times. The immense population base in the PRC, the accelerating urbanisation and aging of population, the rising consumption power, and the increasing emotional demands and pursuit of quality in respect of funeral and burial services have laid a critical foundation for the growing development of funeral and burial industry in the PRC.

According to the industrial reports, since the 20th century, the PRC has gradually entered into an aging society with a year-on-year increase in deceased population, hence a rapid development of funeral and burial industry. According to the statistics of National Bureau of Statistics, in 2017, the number of deaths was approximately 9.86 million and the market size of the funeral and burial service industry was approximately RMB73.2 billion in the PRC. In the recent years, along with the funeral and burial reformation greatly promoted by the PRC, the increasing proportion of cremation, the change in traditional conception and the further implementation of national policies and measures in respect of the regulation of the funeral and burial market, the development of funeral and burial service industry was therefore substantially benefited. It is estimated that in 2025, the market size of the funeral and burial service industry in the PRC will exceed RMB150 billion. The prospects of the funeral and burial service industry is rather promising.

BUSINESS REVIEW

As one of the earliest funeral and burial service provider in the PRC, the Group has, as always, provided quality funeral and burial services with an unwavering heart, making every client feel respected and esteemed and allowing them to mourn and demonstrate their filial piety.

During the period under review, under the guidance of the Board, the Group kept consolidating and unearthing the brand value as always and continued to cultivate core projects internally while optimising the brand culture and realising the corporate and social value externally. In terms of performance, every project company under the Group achieved stable development with Zhejiang Anxian Yuan as the core. In addition, the Group strictly followed the national policies and the industrial reformation and proactively developed green and ecological funeral and burial, in order to promote a sustainable funeral and burial model.

In the future, the Group will continue to advocate and practice the management concept of “being people-oriented and rooted in culture with technology as a tool and service provision as the goal” to forge ahead with an unwavering faith and spare no effort in establishing a top-tier brand in the funeral and burial industry in the PRC.

2.2 NEW OR AMENDED HKFRSs ADOPTED BY THE GROUP

Except as described below, the accounting policies used in the unaudited condensed consolidated financial statements for the Period are the same as those followed in the preparation of the Group's annual financial statements for the year ended 31 March 2019. In the Period, the Group has applied for the first time the following new standards, amendments and interpretation issued by the HKICPA that are relevant for the preparation of the Group's unaudited condensed consolidated financial statements.

The HKICPA has issued a number of new or amended HKFRSs that are first effective and relevant to the current accounting period of the Group:

- HKFRS 16, Leases
- HK(IFRIC) – Int 23, Uncertainty over Income Tax Treatments
- Amendments to HKFRS 3, HKAS 12 and HKAS 23 included in Annual Improvements to HKFRSs 2015-2017 Cycle

Except for the adoption of HKFRS 16, the adoption of the new or amended HKFRSs have no material effect on these unaudited condensed consolidated financial statements for the Period. 2.2 NEW OR AMENDED HKFRSs ADOPTED BY THE GROUP (CONTINUED)

Adoption of HKFRS 16

(i) *Impact of the adoption of HKFRS 16*

HKFRS 16 brings significant changes in accounting treatment for lease accounting, primarily for accounting for lessees. It replaces HKAS 17 Leases (“HKAS 17”), HK(IFRIC) – Int 4 Determining whether an Arrangement contains a Lease, HK(SIC) – Int 15 Operating Leases – Incentives and HK(SIC) – Int 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. From a lessee’s perspective, almost all leases are recognised in the consolidated statement of financial position as right-of-use assets and lease liabilities, with the narrow exception to this principle for leases which the underlying assets are of low-value or are determined as short-term leases. From a lessor’s perspective, the accounting treatment is substantially unchanged from HKAS 17. For details of HKFRS 16 regarding its new definition of a lease, its impact on the Group’s accounting policies and the transition method adopted by the Group as allowed under HKFRS 16, please refer to section (ii) to (iv) of this note.

The Group has applied HKFRS 16 using the simplified transition approach and recognised all the cumulative effect of initially applying HKFRS 16 as an adjustment to the opening balance of retained profits at the date of initial application. The comparative information presented for the six months ended 30 September 2018 and for the year ended 31 March 2019 has not been restated and continues to be reported under HKAS 17 and related interpretations as allowed by the transition provision in HKFRS 16.

The following tables summarised the impact of transition to HKFRS 16 on the condensed consolidated statement of financial position as at 31 March 2019 to that as at 1 April 2019 as follows (increase/(decrease)):

	HK\$'000
Condensed consolidated statement of financial position as at 1 April 2019	
Right-of-use assets	3,901
Prepayments	(757)
Lease liabilities (non-current)	1,232
Lease liabilities (current)	1,912

2.2 NEW OR AMENDED HKFRSs ADOPTED BY THE GROUP (CONTINUED)

Adoption of HKFRS 16 (Continued)

(i) *Impact of the adoption of HKFRS 16 (Continued)*

The following reconciliation explains how the operating lease commitments disclosed applying HKAS 17 as at 31 March 2019 could be reconciled to the lease liabilities at the date of initial application recognised in the condensed consolidated statement of financial position as at 1 April 2019:

	HK\$'000
Reconciliation of operating lease commitment to lease liabilities	
Operating lease commitment as at 31 March 2019	4,321
Less: Short-term leases for which lease terms end within 31 March 2020	(946)
Less: Future interest expenses	(231)
	<hr/>
Total lease liabilities as at 1 April 2019	3,144

The weighted average lessee's incremental borrowing rate applied to lease liabilities recognised in the condensed consolidated statement of financial position as at 1 April 2019 is 4.60%.

(ii) *The new definition of a lease*

Under HKFRS 16, a lease is defined as a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration. A contract conveys the right to control the use of an identified asset for a period of time when the customer, throughout the period of use, has both: (a) the right to obtain substantially all of the economic benefits from use of the identified asset and (b) the right to direct the use of the identified asset.

For a contract that contains a lease component and one or more additional lease or non-lease components, a lessee shall allocate the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components, unless the lessee apply the practical expedient which allows the lessee to elect, by class of underlying asset, not to separate non-lease components from lease components, and instead account for each lease component and any associated non-lease components as a single lease component.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 September 2019

2.2 NEW OR AMENDED HKFRSs ADOPTED BY THE GROUP (CONTINUED)

Adoption of HKFRS 16 (Continued)

(iii) *Accounting as a lessee*

Under HKAS 17, a lessee has to classify a lease as an operating lease or a finance lease based on the extent to which risks and rewards incidental to ownership of a lease asset lie with the lessor or the lessee. If a lease is determined as an operating lease, the lessee would recognise the lease payments under the operating lease as an expense over the lease term. The asset under the lease would not be recognised in the consolidated statement of financial position of the lessee.

Under HKFRS 16, all leases (irrespective of they are operating leases or finance leases) are required to be capitalised in the consolidated statement of financial position as right-of-use assets and lease liabilities, but HKFRS 16 provides accounting policy choices for an entity to choose not to capitalise (i) leases which are short-term leases and/or (ii) leases for which the underlying asset is of low-value. The Group has elected not to recognise right-of-use assets and lease liabilities for leases for which at the commencement date have a lease term less than 12 months. The lease payments associated with those leases have been expensed on straight-line basis over the lease term.

The Group recognised a right-of-use asset and a lease liability at the commencement date of a lease.

Right-of-use asset

The right-of-use asset should be recognised at cost and would comprise: (i) the amount of the initial measurement of the lease liability (see below for the accounting policy to account for lease liability); (ii) any lease payments made at or before the commencement date, less any lease incentives received; (iii) any initial direct costs incurred by the lessee and (iv) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The Group measures the right-of-use assets applying a cost model. Under the cost model, the Group measures the right-to-use at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liability.

For leasehold land and buildings which is held for own use would continue to be accounted for under HKAS 16 and would be carried at cost less accumulated depreciation and any impairment losses. The adoption of HKFRS 16 therefore does not have any significant impact on these right-of-use assets. Other than the above right-of-use assets, the Group also has leased a number of office premises under tenancy agreements which the Group exercises its judgement and determines that it is a separate class of asset apart from the leasehold land and buildings which is held for own use. As a result, the right-of-use asset arising from the properties under tenancy agreements are carried at depreciated cost.

Lease liability

The lease liability should be recognised at the present value of the lease payments that are not paid at the date of commencement of the lease. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group shall use the Group's incremental borrowing rate.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 September 2019

2.2 NEW OR AMENDED HKFRSs ADOPTED BY THE GROUP (CONTINUED)

Adoption of HKFRS 16 (Continued)

(iii) *Accounting as a lessee (Continued)*

Lease liability (Continued)

The following payments for the right-to-use the underlying asset during the lease term that are not paid at the commencement date of the lease are considered to be lease payments: (i) fixed payments less any lease incentives receivable; (ii) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at commencement date; (iii) amounts expected to be payable by the lessee under residual value guarantees; (iv) the exercise price of a purchase option if the lessee is reasonably certain to exercise that option and (v) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

Subsequent to the commencement date, a lessee shall measure the lease liability by: (i) increasing the carrying amount to reflect interest on the lease liability; (ii) reducing the carrying amount to reflect the lease payments made; and (iii) remeasuring the carrying amount to reflect any reassessment or lease modifications, e.g., a change in future lease payments arising from change in an index or rate, a change in the lease term, a change in the in substance fixed lease payments or a change in assessment to purchase the underlying asset.

(iv) *Transition*

As mentioned above, the Group has applied HKFRS 16 using the simplified transition approach and recognised all the cumulative effect of initially applying HKFRS 16 as an adjustment to the opening balance of retained profits at the date of initial application (1 April 2019). The comparative information presented for the six months ended 30 September 2018 and for the year ended 31 March 2019 has not been restated and continues to be reported under HKAS 17 and related interpretations as allowed by the transition provision in HKFRS 16.

The Group has recognised the lease liabilities at the date of 1 April 2019 for leases previously classified as operating leases applying HKAS 17 and measured those lease liabilities at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate at 1 April 2019.

The Group has elected to recognise all the right-of-use assets at 1 April 2019 for leases previously classified operating leases under HKAS 17 as if HKFRS 16 had been applied since the commencement date, but discounted using the lessee's incremental borrowing rate at the date of initial application. For all these right-of-use assets, the Group has applied HKAS 36 Impairment of Assets at 1 April 2019 to assess if there was any impairment as on that date.

The Group has also applied the follow practical expedients: (i) applied a single discount rate to a portfolio of leases with reasonably similar characteristics; (ii) applied the exemption of not to recognise right-of-use assets and lease liabilities for leases with term that will end within 12 months of the date of initial application (1 April 2019) and accounted for those leases as short-term leases; (iii) exclude the initial direct costs from the measurement of the right-of-use asset at 1 April 2019.

In addition, the Group has also applied the practical expedients such that: (i) HKFRS 16 is applied to all of the Group's lease contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC) – Int 4 Determining whether an Arrangement contains a Lease; and (ii) not to apply HKFRS 16 to contracts that were not previously identified as containing a lease under HKAS 17 and HK(IFRIC) – Int 4.

¹ Effective for annual periods beginning on or after 1 January 2020

The Group has already commenced an assessment of the impact of adopting the above amendments to the existing standards to the Group.
