CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the Board, I am pleased to present the audited annual results of the Group for the year ended 31 December 2019.

COMPANY OVERVIEW

Established in the 1980s, the Group has nearly 30 years of experience in the fitting-out and construction industry in Macau. The Group mainly provides services of (i) fitting-out works as an integrated fitting-out contractor; (ii) construction works as a main contractor; and (iii) repair and maintenance works in Macau.

The fitting-out projects undertaken by the Group can be broadly divided into three categories by type of customers, namely (i) hotels and casinos; (ii) retail shops and restaurants; and (iii) others. The construction projects undertaken can be broadly classified into two categories, namely (i) general construction and (ii) heritage conservation. In addition, the Group also provides repair and maintenance services for properties in Macau, either on an ad-hoc basis or regularly over a fixed period.

The Group's competitive strengths in various aspects, which set the Group apart from its competitors and enable the Group to continue its growth and enhance its profitability, comprise its (i) well-established reputation with proven track record; (ii) established business relationships with some of the Group's major customers; (iii) stable pool of suppliers and subcontractors; (iv) experienced management team, which possesses extensive industry knowledge; and (v) well-established management system.

In late October 2019, the Group established new business on restaurant operations, aiming at exploring new income for the Group. It ran a Japanese cuisine restaurant in Taipa, Macau.

BUSINESS REVIEW

During the year ended 31 December 2019, the Group completed 32 projects and was awarded 38 projects. The Group's revenue increased by approximately 51.3% from approximately MOP173.7 million for the year ended 31 December 2018 to approximately MOP262.9 million for the year ended 31 December 2019. For the year ended 31 December 2019, the Group recorded profit after tax of approximately MOP6.4 million, representing an increase of over 1.8 times over the previous financial year.

MARKET REVIEW

Various uncertainties of the global economy in the first half of 2019 – slowdown of economic growth in China, tension of the Sino-US trade war, etc continued in the second half of the year. Affected by this, the economy of Macau has entered into a recession, which has led to the shrinkage of the market for fitting-out works in Macau. In addition, the Group's customers are mainly from major gaming companies. However, they will soon renew their licenses. Since the renewal of licenses is still pending, this has made them conservative in investment of alteration works, this lead to reduced the number of projects for gaming companies. Furthermore, the second half of the year coincided with the change of the government officials of the Macau Special Administrative Region. Significant changes in the leadership and structure of government departments resulted in longer time for review and approval of certain government and private construction and engineering plans than expected. All of the above factors have led to a reduction in the overall construction volume in Macau and a relative decrease in the number of construction projects undertaken by the Group. Despite the negative impact on the construction market in Macau, the Group will continue to actively expand its business in other Southeast Asian countries in order to consolidate and enhance the Group's competitiveness in the construction industry. The Group expects to set up branches and undertake new projects in other Southeast Asian countries in 2020.

CHAIRMAN'S STATEMENT

OUTLOOK

The Guangdong-Hong Kong-Macau Greater Bay Area (the "Greater Bay Area") is an unprecedented development opportunity. The construction of the Greater Bay Area is in full swing. At present, the Hengqin Free Trade Zone has an increasing demand for construction and engineering projects. To this end, in December 2019, the Regulations for the Recognition of Practising Qualifications for Hong Kong and Macau construction and related engineering consultation enterprises and professionals in the Zhuhai Hengqin New Area (《珠海經濟特區橫琴新區港澳建築及相關工程諮詢企業資質和專業人士執業資格認可規定》) was launched, which allows licensed construction companies in Hong Kong and Macau to waive qualification restrictions and bid for engineering projects in Hengqin. This regulation not only promotes the integration of the Greater Bay Area, but also favors the promotion of diversified development of Macau's economy and brings important business opportunities to the Group at the same time. The Group will surely seize every opportunity brought by the Hengqin project and compete positively with the construction companies in Mainland China so as to contribute to the development of the Greater Bay Area. The Group firmly believes that this can strengthen our development in the construction industry. In the future, the Group will also develop upstream and downstream businesses and look for more cooperation partners and business opportunities to enhance the Group's competitiveness and strengths.

APPRECIATION

On behalf of the Board, I would like to take this opportunity to express my sincere appreciation to our Shareholders, business partners and other professional parties for their continuous support. I would also like to thank our management team and employees for their exceptional effort and valuable contribution during this year. We look forward to continuing this success moving forward.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

On 10 February 2017 (the "Listing Date"), the Company's shares (the "Shares") were listed on the Main Board of the Stock Exchange when 100,000,000 Shares were offered for subscription at HK\$1.15 each.

Business review

The Group provides services of (i) fitting-out works as an integrated fitting-out contractor; (ii) construction works as a main contractor; (iii) repair and maintenance services in Macau and Hong Kong; and (iv) food catering services through a restaurant in Macau. During the year ended 31 December 2019, all of the Group's revenue was derived in Macau and Hong Kong. The Group undertook projects from both private and public sectors and ran a restaurant in Macau.

The Group's customers primarily include (i) hotel and casino developers and owners, international retailers and restaurant owners for fitting-out works; (ii) land owners and the Macau Government for construction works; and (iii) operators of hotels and casinos, retail shops and restaurants for repair and maintenance works.

The Group's revenue comprised (a) fitting-out works; (b) construction works; (c) repair and maintenance services and (d) income from restaurant operations. During the year ended 31 December 2019, the total value for the new fitting-out projects awarded to the Group, representing the aggregate awarded contract sum, amounted to approximately MOP264.3 million as compared to the year ended 31 December 2018 of approximately MOP153.7 million. As at 31 December 2019, the Group had an aggregate value of backlog for fitting-out projects and construction projects of approximately MOP52.6 million as compared to approximately MOP33.4 million as at 31 December 2018. Income from restaurant operations in Macau was started late in October 2019. It is a new business for the year ended 31 December 2019.

Financial review

The following table sets forth a breakdown of the Group's revenue during the years ended 31 December 2019 and 2018 by business segments:

	Year ended 31 December			
	2019		2018	
	MOP'000	%	MOP'000	%
Fitting-out works	225,013	85.6	166,992	96.1
Construction works	30,922	11.8	3,931	2.3
Repair and maintenance services	5,703	2.2	2,817	1.6
Income from restaurant operations	1,232	0.4	-	-
Total	262,870	100.0	173,740	100.0

MANAGEMENT DISCUSSION AND ANALYSIS

During the year ended 31 December 2019, the Group's revenue increased by approximately MOP89.1 million or 51.3%. The increase was mainly attributable to the increase in revenue from fitting-out works by approximately MOP58.0 million or 34.7% and increase in revenue from construction works by approximately MOP27.0 million or over 6.9 times.

The Group's fitting-out projects can be broadly divided into three categories by type of customers, namely (i) hotel and casino; (ii) retail shops and restaurants; and (iii) others, such as the Macau Government. The following table sets forth a breakdown of the Group's revenue attributable to fitting-out works during the years ended 31 December 2019 and 2018 by type of customers:

	Year ended 31 December			
	2019		2018	
	MOP'000	%	MOP'000	%
Hotel and casino	17,323	7.7	37,950	22.7
Retail shops and restaurants	149,258	66.3	79,983	47.9
Others	58,432	26.0	49,059	29.4
Total	225,013	100.0	166,992	100.0

The increase in fitting-out works revenue during the year ended 31 December 2019 was mainly attributable to the increase in revenue from retail shops and restaurants and others by approximately MOP69.3 million or 86.6% and approximately MOP9.4 million or 19.1%, respectively. The overall increase in fitting-out works revenue was mainly due to more active business negotiation with customers in the fitting-out industry in Macau and Hong Kong. Fitting-out works revenue from other customers increase was again due to more active business negotiation with customers.

The increase in revenue of construction works was mainly attributable to the increase in revenue derived from general construction of approximately MOP27.0 million or over 6.9 times as compared to the previous year.

MANAGEMENT DISCUSSION AND ANALYSIS

Gross profit

The following table sets forth a breakdown of the Group's gross profit and gross profit margin during the years ended 31 December 2019 and 2018 by business segments:

	Year ended 31 December			
	2019		2018	
	Gross profit MOP'000	Gross profit margin %	Gross profit MOP'000	Gross profit margin %
Fitting-out works	42,639	18.9	37,836	22.6
Construction works	(88)	(0.3)	(577)	(14.7)
Repair and maintenance services	2,457	43.8	1,565	55.6
Income from restaurant operations	326	26.5	N/A	N/A
Total/overall	45,334	17.2	38,824	22.3

During the year ended 31 December 2019, the Group's gross profit increased by approximately MOP6.5 million or approximately 16.8% from approximately MOP38.8 million for the year ended 31 December 2018 to approximately MOP45.3 million for the year ended 31 December 2019. The increase in gross profit was mainly due to the increase in fitting-out works projects and construction works projects.

The Group's gross profit margin decreased from approximately 22.3% for the year ended 31 December 2018 to approximately 17.2% for the year ended 31 December 2019. The gross profit margin decrease was due to general decrease in gross profit margin. Gross loss of construction works was due to low gross profit margin and contract works cost finally confirmed.

Other income, gains and losses, net

The Group's other income and gains increased by approximately MOP1.3 million or 67.8% from approximately MOP2.0 million for the year ended 31 December 2018 to approximately MOP3.3 million for the year ended 31 December 2019. Such increase was due to increase in fair value of investment properties.

Administrative expenses

The Group's administrative expenses increased by approximately MOP3.6 million or 10.5% from approximately MOP34.4 million for the year ended 31 December 2018 to approximately MOP38.0 million for the year ended 31 December 2019. Such increase was mainly due to new business established on restaurant operations and partly due to general increase in administrative expenses.

MANAGEMENT DISCUSSION AND ANALYSIS

Finance costs

The Group's finance costs decreased by approximately MOP0.3 million or 13.6% from approximately MOP2.5 million for the year ended 31 December 2018 to approximately MOP2.1 million for the year ended 31 December 2019. Such decrease was attributable to the absence of bank overdrafts during the year ended 31 December 2019.

Income tax expense

The Group's income tax expense increased from approximately MOP1.5 million for the year ended 31 December 2018 to approximately MOP2.1 million for the year ended 31 December 2019. The Group's effective tax rate decreased from approximately 40.0% for the year ended 31 December 2018 to approximately 24.3% for the year ended 31 December 2019. The decrease was in line with the actual tax rates.

Profit and total comprehensive income for the year attributable to owners of the Company

As a result of the above, the Group's profit for the year attributable to owners of the Company increased by approximately MOP4.1 million or over 1.8 times from approximately MOP2.3 million for the year ended 31 December 2018 to approximately MOP6.4 million for the year ended 31 December 2019.

Basic earnings per share

The Company's basic earnings per share for the year ended 31 December 2019 was MOP1.6 cents (2018: MOP0.6 cents), representing an increase of MOP1.0 cents or over 1.7 times which is in line with the profit for the year attributable to owners of the Company when compared to the year ended 31 December 2018.

Final dividend

The Board proposed payment of a final dividend of HK1.125 cents (equivalent to MOP1.16 cents) per Share for the year ended 31 December 2019 to Shareholders whose names appear on the register of members of the Company at the close of business on Thursday, 2 July 2020, subject to the approval by the Shareholders at the forthcoming AGM (2018: Nil).

MANAGEMENT DISCUSSION AND ANALYSIS

CORPORATE FINANCE AND RISK MANAGEMENT

Liquidity and financial resources and capital structure

The management and control of the Group's financial, capital management and external financing functions are centralised at its headquarter in Macau. The Group adheres to the principle of prudent financial management to minimise financial and operational risks. The Group mainly relies upon internally generated funds and bank borrowings to finance its operations and expansion.

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the operations of the Group, and mitigate the effects of fluctuations in cash flows. The management of the Group believes that the Group has sufficient working capital for its future operational requirement.

As at 31 December 2019, the Group's current assets exceeded its current liabilities by MOP113,794,000 (2018: MOP110,411,000).

As at 31 December 2019, the Group had bank balances and cash of MOP57.9 million (2018: MOP51.9 million).

As at 31 December 2019, the Group had an aggregate of pledged bank deposits of MOP3.6 million (2018: MOP3.6 million) that were used to secure banking facilities.

As at 31 December 2019, bank and other borrowings amounted to MOP54.8 million (2018: MOP61.7 million) of which MOP4.0 million, MOP4.1 million, MOP13.0 million and MOP33.7 million (2018: MOP6.8 million, MOP3.8 million, MOP12.2 million and MOP38.9 million) will mature within one year, one year to two years, two years to five years and more than five years, respectively.

The interest-bearing bank borrowings amounting to MOP39,457,000 as at 31 December 2019 (2018: MOP45,379,000), carry interest at the range of 2.25% to 2.65% below the prevailing best lending rate quoted by the bank in Macau (the "Prime Rate") (2018: 2.25% to 2.65% below the Prime Rate) per annum. The remaining interest-bearing bank borrowing amounting to MOP15,334,000 as at 31 December 2019 (2018: MOP16,315,000) carries interests at three months Hong Kong Interbank Offered Rate (HIBOR) plus 2.3% (2018: 2.3%) per annum. The effective interest rates on the borrowings as at 31 December 2019 (which are also equal to contracted interest rate) range from 2.6% to 4.5% (2018: 2.7% to 4.4%).

The Group's borrowings are denominated in both MOP and HK\$. These bank borrowings are under banking facilities for drawing loans and issuing performance bonds. The banking facilities are secured by the legal charge over the office buildings held by the Group (included in property, plant and equipment and investment properties), pledged bank deposits and promissory notes endorsed by Lai Si and Well Team which were guaranteed by the Company.

MANAGEMENT DISCUSSION AND ANALYSIS

The Group continued to maintain a healthy liquidity position. As at 31 December 2019, the Group's current assets and current liabilities were MOP217.3 million (2018: MOP216.7 million) and MOP103.5 million (2018: MOP106.3 million), respectively. The Group's current ratio increased to 2.1 (2018: 2.0). There is no material fluctuation. The Group has maintained sufficient liquid assets to finance its operations.

Gearing ratio calculated by dividing total debts (including bank and other borrowings and lease liabilities) with total equity was 0.30 as at 31 December 2019 (2018: 0.28). The increase in gearing ratio was primarily due to increase in lease liabilities.

As at 31 December 2019, the share capital and equity attributable to owners of the Company amounted to MOP4,120,000 and MOP224.1 million, respectively (2018: MOP4,120,000 and MOP217.7 million, respectively).

Charge on the Group's assets

As at 31 December 2019, land and building, investment properties and bank deposits were pledged to secure certain borrowings granted to the Group amounted to MOP82.0 million, MOP28.1 million and MOP3.6 million (2018: MOP82.3 million, MOP26.8 million and MOP3.6 million), respectively.

Contingent liabilities and operating lease and capital commitments

Sin Fong Garden Building

In October 2012, one of the supporting pillars of the residential building called "Sin Fong Garden Building" collapsed due to the loss of stability. Such collapse was accused to be caused by the dismantlement and construction of the foundation work undertaken in an adjacent new residential building project, of which Lai Si was one of the contractors. As a result, in September 2015, several flat owners of Sin Fong Garden Building filed a lawsuit against several defendants including Lai Si, seeking for a compensation for the loss of property, in a total sum of approximately HK\$49.0 million, to be borne jointly by the defendants. However, according to the report issued by the team of technical advisors and experts engaged by the Macau Government to study the causes of the incident, the collapse of Sin Fong Garden Building was caused by the substandard supporting pillars of Sin Fong Garden Building, instead of the dismantlement and foundation work undertaken in the adjacent new residential building.

MANAGEMENT DISCUSSION AND ANALYSIS

In October 2015, the Macau Government has further filed a lawsuit against several defendants including Lai Si, seeking for a compensation for the costs incurred by the Macau Government for (i) measures it had taken to prevent Sin Fong Garden Building from being collapsed; (ii) ensuring the safety of citizens and adjacent buildings; and (iii) the technical advisors and experts it had hired to study the causes of the incident, in a total sum of approximately MOP12.8 million, to be borne jointly by the defendants.

Up to the date of this report, the proceedings are scheduled for the trial hearings. Trial hearings for the lawsuit filed by the Macau Government have been started during the year, which was still in progress at the end of the reporting period, while the date for another lawsuit filed by several flat owners of Sin Fong Garden Building is yet to be confirmed. After consulting the legal advisers of the Company as to Macau Laws, the Directors are of the opinion that it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation and hence no provision is made to the consolidated financial information. The Controlling Shareholders have undertaken to indemnify the Group against all losses and liabilities arising from the above proceedings.

Dispute on payment with a subcontractor

As at 31 December 2019, a subsidiary of the Group was a defendant in a lawsuit brought by a subcontractor of two of the Group's fitting-out projects on a total settlement dispute amount of MOP4.6 million. The Directors, based on the advice from the Group's legal counsel, believe that the subsidiary has a valid defense against the lawsuit and, accordingly, have not provided for any claim arising from the litigation, other than the related legal and other costs.

Up to the date of this report, the proceedings are scheduled for the trial hearings. Trial hearing for one of the fitting-out projects has been scheduled in January 2020 which is still in progress at the date of issuing this report. After consulting the Group's lawyer, the Directors of the Company are of the opinion that it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation and hence no provision is made to the consolidated financial statements.

As at 31 December 2019, the Group did not have any capital commitments (2018: Nil).

MANAGEMENT DISCUSSION AND ANALYSIS

Exposure to fluctuations in exchange rates and interest rates and corresponding hedging arrangements

The Group entities collect most of the revenue and incur most of the expenditures in their respective functional currencies. The Group is exposed to currency risk primarily through purchase of raw materials and sales proceeds received from customers that are denominated in a currency other than the Group entities' functional currency. The currencies giving rise to this risk are primarily HK\$ and RMB. The Directors consider that the Group's exposure to foreign currency exchange risk is insignificant as the majority of the Group's transactions are denominated in the functional currency of each individual group entity.

The Group currently does not have a foreign currency hedging policy. However, the management of the Company monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

Interest rate risk

The Group's cash flow interest rate risk relates primarily to variable-rate bank balances, bank overdrafts and bank borrowings. The Group currently does not have an interest rate hedging policy. However, the management monitors interest rate exposure and will consider other necessary actions when significant interest rate exposure is anticipated.

Credit exposure

At the end of each reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties and financial guarantees arisen from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade receivable and other receivable at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts.

The policy of allowances for doubtful debts of the Group is based on the evaluation and estimation of collectability and ageing analysis of the outstanding debts. Specific allowance is only made for receivables that are unlikely to be collected and is recognised on the difference between the estimated future cash flows expected to receive, discounted using the original effective interest rate and the carrying value. If the financial conditions of customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional allowance may be required. The management closely monitors the subsequent settlement of the counterparties.

MANAGEMENT DISCUSSION AND ANALYSIS

In addition to the above, in year 2018, upon the implementation of HKFRS 9, the Group has engaged professional valuer service on the collectibility of the overall account receivables portfolio. The professional valuer takes forward looking approach in assessing credit risk (expected credit losses). Provision for expected credit losses on account receivable was made accordingly.

In this regard, the management of the Group considers that credit risk is well taken care and addressed.

The Group is exposed to concentration of credit risk as at 31 December 2019 on trade receivables and contract assets from the Group's five major customers amounting to approximately MOP21.0 million (2018: MOP45.8 million) and accounted for approximately 14.6% (2018: 31.0%) of the Group's total trade receivables and contract assets. The major customers of the Group are certain reputable organisations. The management of the Group considers that the credit risk is limited in this regard.

The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies. Liquid funds are also under the scope of review by the professional valuer as in account receivables.

EVENTS AFTER THE REPORTING PERIOD

The outbreak of the COVID-19 since January 2020 causes drastic slowdown of the worldwide economy. Management will make use of our competitive edge and develop more strategies to cope with the situation. It is hard to estimate the impact fairly on our business at the date of this report. However, we had made a voluntary announcement on 28 February 2020 for award of renovation contract with contract sum expected to be approximately MOP 122 million from a 4-star hotel at Taipa, Macau. We believe this awarded contract will lead to potential opportunities on renovation works for hotel suites in Macau and neighbourhood cities (includes cities in the Greater Bay Area).

EMPLOYEES AND REMUNERATION POLICIES

As at 31 December 2019, the total number of full-time employees of the Group was 184 (2018: 163).

The Group remunerates its employees based on their performance, experience and the prevailing industry practice. The Group may pay a discretionary bonus to its employees based on individual performance in recognition of their contribution and hard work.

The Group's gross staff costs from operations (including the directors' emoluments) was MOP50.4 million for the year ended 31 December 2019 (2018: MOP42.1 million).

The Company adopted a share option scheme (the "Share Option Scheme") so that the Company may grant options to the eligible participants as incentives or rewards for their contribution to the Group. Since the listing of the Shares, no share option had been granted under the Share Option Scheme.

MANAGEMENT DISCUSSION AND ANALYSIS

USE OF PROCEEDS FROM THE SHARE OFFER

The Shares have been listed and traded on the Main Board of the Stock Exchange since 10 February 2017.

The net proceeds from the Share Offer amounted to approximately HK\$89.8 million (equivalent to approximately MOP92.5 million) (after deducting underwriting fees and commissions and all related expenses). Such net proceeds are intended to be applied in accordance with the proposed application as disclosed in the Prospectus.

Net proceeds from the Share Offer

	Net proceeds (HK\$ million)		
	Available	Utilised	Unutilised
Finance fitting-out projects in Macau	49.4	34.4	15.0
Finance construction projects in Macau	17.9	15.9	2.0
Finance the start-up costs of fitting-out business in Hong Kong	9.0	9.0	-
Hire additional staff for the Group's business operation	4.5	4.5	-
General working capital	9.0	9.0	-
	89.8	72.8	17.0

As at 31 December 2019, the unutilised net proceeds from the Share Offer were deposited in the bank accounts of the Group.

PROSPECTS AND STRATEGIES

Taking an overview of 2019, the global economy continually slowed down, some large-scale gaming companies in Macau will renew their licenses, government and private renovation and construction projects were postponed in succession, and large scale social movement took place in Hong Kong in the second half of the year, all of which have overshadowed the prospects of the market of fitting-out works in Macau and Hong Kong. However, the Group continues to leverage its sound reputation and competitive edge to undertake ongoing fitting-out and construction projects for its existing customers.

MANAGEMENT DISCUSSION AND ANALYSIS

In response to the poor performance in the market, the Group will step up its efforts to expand its fitting-out business and its market coverage. In addition, the Group will also strengthen its financial capabilities, further consolidate its market position and achieve business growth. As part of the plan to expand revenue base and achieve long-term growth, the Group is now developing and exploring the business opportunities in the up and down stream and has established a company specialising in electrical and mechanical engineering, so as to achieve a diversified operation, aiming to enhance its corporate value and boost shareholders' returns in the long run. As at the date of this annual report, no formal agreement was signed.

In the long term, the Group is optimistic about the future development of the Greater Bay Area, which is one of the ambitious development policies in China. This policy aims at facilitating the economic integration between Guangdong Province and the two Special Administrative Regions, promoting cooperation between the three regions and encouraging more investment projects and commercial activities to take place in the Greater Bay Area. These may provide driving force for the property market, which in turn promote the development in fitting-out and construction market. Driven by the development policy of the Greater Bay Area, Zhuhai Hengqin launched a new regulation in December 2019 enabling constructors from Hong Kong and Macau to directly practise and engage in project construction in the local area after having completed the legal record filing procedures. For the Group, this regulation is not only a significant business opportunity, but also a chance to expand the market scope of its business.

While based in Macau, the Group also keeps an eye on Asia. Currently the development of our Hong Kong branch gradually matures and has won a certain level of recognition locally. In the future, the Group will continue to seek to gain its foothold in the fitting-out market of other Southeast Asian countries, so as to give rise to the sustainable growth of the Group's revenue. Despite the fact that there are uncertainties in the fitting-out and construction market in Hong Kong and Macau, the management remains cautiously optimistic about the Group's prospects, and is now ready to make full use of the Greater Bay Area development policy to expand the Group's market into Mainland China.

The Chairman provides leadership and is responsible for the effective functioning and leadership of the Board as well as overall management of the Group corporate strategies planning. The Chief Executive Officer focuses on the overall management of the Group's business development and marketing matters.

CORPORATE GOVERNANCE REPORT

Independent Non-executive Directors

During the year ended 31 December 2019, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three Independent Non-executive Directors representing more than one-third of the Board with one of whom possessing appropriate professional qualifications or accounting or related financial management expertise.

The Company has received written annual confirmation from each of the Independent Non-executive Directors in respect of his/her independence in accordance with the independence guidelines set out in Rule 3.13 of the Listing Rules. The Company is of the view that all Independent Non-executive Directors are independent.

Appointment and Re-election of Directors

The Independent Non-executive Directors of the Company are appointed for a specific term of one year, subject to renewal after the expiry of the then current term.

The Company's Articles of Association provides that all Directors appointed by the Board to fill a causal vacancy shall be subject to re-election by shareholders at the first general meeting after appointment.

Under the Articles of Association of the Company, at each annual general meeting, one-third of the Directors for the time being, or if their number is not three of a multiple of three, the number nearest to but not less than one-third shall retire from office by rotation provided that every Director (including those appointed for a specific term) shall be subject to retirement by rotation at least once every three years. The retiring Directors shall be eligible for re-election.

Responsibilities, Accountabilities and Contributions of the Board and Management

The Board should assume responsibility for leadership and control of the Company; and is collectively responsible for directing and supervising the Company's affairs.

The Board directly, and indirectly through its committees, leads and provides direction to management by laying down strategies and overseeing their implementation, monitors the Group's operational and financial performance, and ensures that sound internal control and risk management systems are in place.

CORPORATE GOVERNANCE REPORT

Responsibilities, Accountabilities and Contributions of the Board and Management

(Continued)

All Directors, including Independent Non-executive Directors, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective functioning. The Independent Non-executive Directors are responsible for ensuring a high standard of regulatory reporting of the Company and providing a balance in the Board for bringing effective independent judgement on corporate actions and operations.

All Directors have full and timely access to all the information of the Company and may, upon request, seek independent professional advice in appropriate circumstances, at the Company's expenses for discharging their duties to the Company.

The Directors shall disclose to the Company details of other offices held by them.

The Board reserves for its decision all major matters relating to policy matters, strategies and budgets, internal control and risk management, material transactions (in particular those that may involve conflict of interests), financial information, appointment of directors and other significant operational matters of the Company. Responsibilities relating to implementing decisions of the Board, directing and co-ordinating the daily operation and management of the Company are delegated to the management under the supervision of Mr. Lai Meng San, the Chief Executive Director (for the Group's business development and marketing matters) and Ms. Lai Ieng Wai (for the Group's business operation), both are executive Directors.

The Company has arranged appropriate insurance coverage on Directors' and officers' liabilities in respect of any legal actions taken against Directors and senior management arising out of corporate activities. The insurance coverage would be reviewed on an annual basis.

Continuous Professional Development of Directors

Directors shall keep abreast of regulatory developments and changes in order to effectively perform their responsibilities and to ensure that their contribution to the Board remains informed and relevant.

Every newly appointed Director shall receive a formal and comprehensive induction on the first occasion of his/her appointment to ensure appropriate understanding of the business and operations of the Company and full awareness of Director's responsibilities and obligations under the Listing Rules and relevant statutory requirements.

Directors are encouraged to participate in appropriate continuous professional development to develop and refresh their knowledge and skills. Internally-facilitated briefings for Directors would be arranged and reading material on relevant topics would be provided to Directors where appropriate.

All Directors are encouraged to attend relevant training courses at the Company's expenses.

CORPORATE GOVERNANCE REPORT

BOARD COMMITTEES

The Board has established three committees, namely, the Audit Committee, Remuneration Committee and Nomination Committee, for overseeing particular aspects of the Company's affairs. All Board committees of the Company are established with specific written terms of reference which deal clearly with their authority and duties. The terms of reference of the Audit Committee, Remuneration Committee and Nomination Committee are posted on the Company's website and the Stock Exchange's website and are available to shareholders upon request.

The majority of the members of each Board committee are Independent Non-executive Directors and the list of the chairman and members of each Board committee is set out under "Corporate Information" on page 1 of this annual report.

Audit Committee

The Audit Committee consists of three Independent Non-executive Directors, namely Mr. Chan Chun Sing, Mr. Chan Lok Chun and Ms. Lam Mei Fong. Mr. Chan Chun Sing is the chairman of the Audit Committee.

The terms of reference of the Audit Committee are of no less exacting terms than those set out in the CG Code. The main duties of the Audit Committee are to assist the Board in reviewing the financial information and overseeing the Group's financial reporting system, risk management and internal control systems, reviewing and monitoring the effectiveness of the internal audit function, scope of audit and making recommendation to the Board on the appointment of external auditor, and reviewing the arrangements for employees of the Company to raise concerns about possible improprieties in financial reporting, internal control or other matters of the Company.

The Audit Committee held two meetings in the year ended 31 December 2019, to review the interim and annual financial results and reports and significant issues on the financial reporting, operational and compliance controls, the effectiveness of the risk management and internal control systems and internal audit function, re-appointment of external auditor and their relevant scope of works, connected transactions and arrangements for employees to raise concerns about possible improprieties.

The Audit Committee also met the external auditor twice without the presence of the Executive Directors.

CORPORATE GOVERNANCE REPORT

Remuneration Committee

The Remuneration Committee consists of five members, namely Mr. Lai Ieng Man, Mr. Lai Meng San, Mr. Chan Chun Sing, Mr. Chan Iok Chun and Ms. Lam Mei Fong. Ms. Lam Mei Fong is the chairman of the Remuneration Committee.

The terms of reference of the Remuneration Committee are of no less exacting terms than those set out in the CG Code. The primary functions of the Remuneration Committee include reviewing and making recommendations to the Board on the remuneration packages of individual executive Directors and senior management, the remuneration policy and structure for all Directors and senior management; and establishing transparent procedures for developing such remuneration policy and structure to ensure that no Director or any of his/her associates (as defined in the Listing Rules) is involved in deciding his/her own remuneration.

The Remuneration Committee met once during the year to review and make recommendation to the Board on the remuneration policy and the remuneration packages of the executive Directors.

Pursuant to code provision B.1.5 of the CG Code, details of the remuneration of the senior management (other than Directors) by band for the year ended 31 December 2019 are as follows:

	Number of employee(s)
HK\$1,000,001 to HK\$1,500,000 (equivalent to MOP1,030,001 to MOP1,545,000)	2

* Details of the remuneration of the senior management by band are set out in note 9 in the Notes to the Audited Financial Statements for the year ended 31 December 2019.

The Remuneration Committee also made recommendations to the Board on the renewal of appointment and remuneration package of an Independent Non-executive Director during the year.

Nomination Committee

The Nomination Committee consists of five members, namely Mr. Lai Ieng Man, Ms. Lai Ieng Wai, Mr. Chan Chun Sing, Mr. Chan Iok Chun and Ms. Lam Mei Fong. Mr. Lai Ieng Man is the chairman of the Nomination Committee.

The terms of reference of the Nomination Committee are of no less exacting terms than those set out in the CG Code.

The principal duties of the Nomination Committee include reviewing the Board composition, making recommendations to the Board on the selection of individuals nominated for directorship, making recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors, and assessing the independence of Independent Non-executive Directors.

CORPORATE GOVERNANCE REPORT

Nomination Committee (Continued)

In assessing the Board composition, the Nomination Committee would take into account various aspects as well as factors concerning Board diversity as set out in the Company's Board Diversity Policy. The Nomination Committee will discuss any revisions which may be required, and recommend any such revisions to the Board for consideration and approval.

In identifying and selecting suitable candidates for directorships, the Nomination Committee would consider the candidate's character, qualifications, experience, independence and other relevant criteria necessary to complement the corporate strategy and achieve Board diversity, where appropriate, before making recommendation to the Board.

The Nomination Committee met once to review the structure, size and composition of the Board and the independence of the Independent Non-executive Directors and to consider the qualifications of the retiring directors standing for election at the Annual General Meeting. The Nomination Committee considered an appropriate balance of diversity perspectives of the Board is maintained and has not set any measurable objective implementing the Board diversity policy.

Board Diversity Policy

The Company has adopted a Board Diversity Policy which sets out the approach to achieve diversity of the Board. The Company recognizes and embraces the benefits of having a diverse Board and sees increasing diversity at the Board level as an essential element in maintaining the Company's competitive advantage.

Pursuant to the Board Diversity Policy, the Nomination Committee will disclose annually, in the corporate governance report, on the Board's composition under diversified perspectives (including gender, age, cultural and educational background, or professional experience), and monitor the implementation of the Board Diversity Policy. In relation to reviewing and assessing the Board composition, the Nomination Committee is committed to diversity at all levels and will consider a number of aspects, including but not limited to gender, age, cultural and educational background or professional qualifications.

The Company aims to maintain an appropriate balance of diversity perspectives that are relevant to the Company's business growth and is also committed to ensuring that recruitment and selection practices at all levels (from the Board downwards) are appropriately structured so that a diverse range of candidates are considered.

At present, the Nomination Committee considered that the Board is sufficiently diverse and the Board has not set any measurable objectives.

CORPORATE GOVERNANCE REPORT

Corporate Governance Functions

The Board is responsible for performing the functions set out in the code provision D.3.1 of the CG Code.

During the year, the Board had reviewed the Company's corporate governance policies and practices, training and continuous professional development of directors and senior management, the Company's policies and practices on compliance with legal and regulatory requirements, the compliance of the Model Code and the Securities Dealing Code, and the Company's compliance with the CG Code and disclosure in this Corporate Governance Report.

RISK MANAGEMENT AND INTERNAL CONTROLS

The Board has the responsibility to maintain effective risk management and internal control systems in order to safeguard the Group's assets and investments and the shareholders' interest and conducts a review on an annual basis. During the year under review, the Board had conducted review of the effectiveness and adequacy of the risk management and internal control systems of the Company in aspects of the Group's financial, operational, compliance controls and risk management functions through the effort of the Audit Committee. During the year under review, the Company engaged an external independent consultant to conduct a review on the internal control system of the Group. The Board has the overall responsibility to maintain the adequacy of resources, staff qualifications and experience, training programs and budget of the Company's accounting and financial reporting function and the Board had reached the conclusion that the Group's risk management and internal control systems were in place and effective and adequate.

MAIN FEATURES OF THE RISK MANAGEMENT AND INTERNAL CONTROL SYSTEMS

The Group's risk governance structure and the main responsibilities of each level of the structure are summarized below:

The Board is responsible to determine the business strategies and objectives of the Group, and evaluate and determine the nature and extent of risks it is willing to take in achieving the Group's strategic objectives; ensures that the Group establishes and maintains appropriate and effective risk management and internal control systems; and oversees management in the design, implementation and monitoring of the risk management and internal control systems.

The Audit Committee is responsible for assisting the Board to perform its responsibilities of risk management and internal control systems; overseeing the Group's risk management and internal control systems on an ongoing basis; reviewing the effectiveness of the Group's risk management and internal control systems at least annually, and such review should cover all material controls including financial, operational and compliance control; ensures the adequacy of resources, staff qualifications and experience, training programmes and budget of the Group's accounting, internal audit and financial reporting functions; and considers major findings on risk management and internal control matters, and reports and makes recommendations to the Board.

CORPORATE GOVERNANCE REPORT

MAIN FEATURES OF THE RISK MANAGEMENT AND INTERNAL CONTROL SYSTEMS (Continued)

Senior management of the Group designs, implements and maintains appropriate and effective risk management and internal control systems; identifies, evaluates and manages the risk that may potentially impact the major processes of the operations; monitors risk and takes measures to mitigate risk in day-to-day operations; gives prompt responses to and follow up the findings on risk management and internal control matters raised by the independent external consultant and provides confirmation to the Board and the Audit Committee on the effectiveness of the risk management and internal control systems.

The external independent consultant reviews the adequacy and effectiveness of the Group's risk management and internal control systems; and reports to the Audit Committee the findings of the review and makes recommendations to the Board and management to improve the material systems deficiencies or control weaknesses identified.

RISK MANAGEMENT PROCESS

In addition to the Board's oversight responsibilities, the Company has developed a risk management process to identify, evaluate and manage significant risks and to resolve material internal control defects. Senior management of the Group is responsible for the annual risk reporting process. Independent external consultant meets with various members of the senior management to review and assess risks and discuss solutions to address material internal control defects, including any changes relevant to a given year. Risks are compiled, ratings are assigned and mitigation plans are documented. The risk assessment is reviewed by certain members of the senior management and presented to the Audit Committee and the Board for their review.

Risks are evaluated by the Board and the Group's senior management based on (i) the severity of the impact of the risk on the Company's financial results; and (ii) the probability that the risk will occur.

Based on the risk evaluation, the Company will manage the risks as follows:

- Risk elimination - the Group's senior management may identify and implement certain changes or controls that in effect eliminate the risk entirely.
- Risk mitigation - the Group's senior management may implement a risk mitigation plan designed to reduce the likelihood, velocity or severity of the risk to an acceptable level.
- Risk retention - the Group's senior management may decide that the risk rating is low enough that the risk is acceptable for the Company and that no action is required. The risk would continue to be monitored as part of the risk management program to ensure the level of risk does not increase to an unacceptable level.

CORPORATE GOVERNANCE REPORT

INSIDE INFORMATION DISCLOSURE POLICY

The Company adopted an “Inside Information Disclosure Policy” which sets out the procedures for the handling and dissemination of inside information with a view to preventing uneven, inadvertent or selective dissemination of inside information and ensuring shareholders and the public are provided with full, accurate and timely information about the activities and the financial condition of the Group. The Inside Information Disclosure Policy covers the following:

- setting out the processes for identifying, assessing and escalating potential inside information to the Board;
- setting out the responsibilities of officers in preserving the confidentiality of inside information, escalating upwards any such potential information and cascading down the message and responsibilities to relevant staff; and
- identifying who are the Company’s authorised spokespersons and their responsibilities for communications with stakeholders of the Company.

In addition, the Company has communicated to all relevant staff regarding the implementation of the “Inside Information Disclosure Policy”. The Board considers that the Company’s existing measures are effective and appropriate compliance mechanisms to safeguard the Company and its officers in discharging their disclosure obligations in respect of inside information.

DIRECTORS’ RESPONSIBILITY IN RESPECT OF THE FINANCIAL STATEMENTS

REPORT OF THE DIRECTORS

BUSINESS REVIEW (Continued)

Relationships with key stakeholders

(a) Employees

Employees are regarded as important and valuable assets of the Group. The objective of the Group's human resource management is to reward and recognise performing staff by providing a competitive remuneration package and implementing a sound performance appraisal system with appropriate incentives, and to promote career development and progression by appropriate training and providing opportunities within the Group for career advancement.

(b) Customers

The Group's principal customers are property developers, hotel owners and main contractors in Macau and/or Hong Kong. The Group provides professional and quality services in fitting-out business whilst maintaining long term profitability, business and asset growth.

For restaurant operations in Macau, the Group is exploring new business, aiming at achieving new source of income.

(c) Subcontractors and Suppliers

We firmly believe that our subcontractors and suppliers are equally important in cost control and increasing our bargaining power on procurement of materials, which further secures our competitive position when bidding for tenders. We proactively communicate with our subcontractors and suppliers to ensure they are committed to delivering high-quality and sustainable products and services. Unless the customers require us to engage subcontractors and suppliers nominated by them, we will select subcontractors and suppliers from our pre-qualified lists of subcontractors and suppliers. In addition, during the continuance of the contracts with our subcontractors, we will supply them with our internal guidelines on safety and environmental issues and require them to follow. We effectively implement the subcontractors assessment process by conducting regular site visit, evaluation on the performance of contract and other measures, to ensure the performance of our subcontractors.

For restaurant operations in Macau, we actively look for suppliers to achieve stable supply of good quality food at competitive price.

SHARE OPTION SCHEME

The Company has adopted a share option scheme (the "Share Option Scheme") pursuant to the written resolutions of the sole Shareholder passed on 18 January 2017. The Share Option Scheme is a share incentive scheme and is established to recognise and acknowledge the contributions the Eligible Participants (as defined below) have had or may have made to the Group. The Share Option Scheme will provide the Eligible Participants an opportunity to have a personal stake in the Company with the view to achieving the following objectives: (i) motivating the Eligible Participants to optimise their performance efficiency for the benefit of the Group; and (ii) attracting and retaining or otherwise maintaining on-going business relationships with the Eligible Participants whose contributions are or will be beneficial to the long-term growth of the Group.

Pursuant to the Share Option Scheme, the Directors may, at their absolute discretion, offer to grant an option to subscribe for the Shares subject to such conditions (including, without limitation, any minimum period for which an option must be held before it can be exercised and/or any performance targets which must be achieved before an option can be exercised) as they may think fit, to the following persons (the "Eligible Participants"): (a) any full-time or part-time employees, executives or officers of the Company; (b) any director (including executive, non-executive and independent non-executive directors) of the Company or any of its subsidiaries; (c) any advisers, consultants, suppliers, customers and agents to the Company or any of its subsidiaries; and (d) such other persons who, in the sole opinion of the Directors, will contribute or have contributed to the Group.

An option shall have been accepted by an Eligible Participant within 21 days from the date of the offer of grant of the option. A consideration of HK\$1.00 is payable on acceptance of the offer of grant of an option.

REPORT OF THE DIRECTORS

SHARE OPTION SCHEME (Continued)

The maximum number of Shares which may be issued upon exercise of all options (excluding, for this purpose, options which have lapsed in accordance with the terms of the Share Option Scheme and any other share option scheme of the Company) to be granted under the Share Option Scheme and any other share option scheme of the Company must not in aggregate exceed 40,000,000 Shares, being 10% of the shares in issue as at the Listing Date. No share options had been granted by the Company under the Share Option Scheme up to the date of this report. Therefore, the number of Shares available for issue is 40,000,000 Shares, being approximately 10% of the Shares in issue as at the date of this report.

The total number of Shares issued and which may fall to be issued upon exercise of the options granted under the Share Option Scheme and any other share option scheme of the Company (including both exercised and outstanding options) to each participant in any 12-month period shall not exceed 1% of the issued share capital of the Company for the time being. Any further grant of options in excess of the 1% limit shall be subject to shareholders' approval in general meeting with such participant and his associates abstaining from voting.

The subscription price per Share under the Share Option Scheme shall be a price determined by the Directors, but shall not be lower than the highest of (a) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet on the date of offer for the grant, which must be a trading day; (b) the average closing price of the Shares as stated in the Stock Exchange's daily quotations sheets for the five trading days immediately preceding the date of grant; and (c) the nominal value of a Share.

Unless there is an early termination of the Share Option Scheme pursuant to the rules of the Share Option Scheme, the Share Option Scheme will remain in force for a period of 10 years after the date on which the Share Option Scheme is adopted. The period during which an option may be exercised will be determined by the Directors in their absolute discretion, save that no option shall be exercised later than 10 years from the date of grant.

No share option had been granted under the Share Option Scheme since the Listing Date.

CONTRACT OF SIGNIFICANCE

For particulars of the contracts of significance between the Group and the Controlling Shareholders or their respective subsidiaries or the contracts of significance for the provision of services to the Group by the Controlling Shareholders or their respective subsidiaries, please see "Connected Transactions" and note 32 to the consolidated financial statements.

The proposed construction annual caps are: year ended 31 December 2017: MOP 20 million; year ended 31 December 2018: MOP 20 million and year ended 31 December 2019: MOP 7 million.

Save as disclosed above, during the year ended 31 December 2019, the Group had not conducted the aforesaid non-exempt continuing connected transaction. Chapter 14A of the Listing Rules has been complied with.

REPORT OF THE DIRECTORS

CONNECTED TRANSACTIONS (Continued)

Details of material related party transactions undertaken in the usual course of business of the Group are set out in note 32 to the consolidated financial statements. Save for those connected transactions disclosed above, these transactions did not fall under the definition of connected transactions or continuing connected transactions as defined in Chapter 14A of the Listing Rules.

Note:

1. Combo Restaurant is owned as to 30% by Ms. Cheong Weng Si, being one of the executive Directors, and 70% by Independent Third Parties. In December 2019, Ms. Cheong ceased to have any holdings in Combo Restaurant.

The independent non-executive Directors have reviewed and confirmed that the above non-exempt continuing connected transaction has been entered into:

- (i) in the ordinary and usual course of business of the Group;
- (ii) on normal commercial terms or better; and
- (iii) according to the agreements governing them on terms that are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

Ernst & Young, the Company's auditor, was engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) Assurance Engagements Other than Audits or Reviews of Historical Financial Information and with reference to Practice Note 740 Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules issued by the Hong Kong Institute of Certified Public Accountants. Ernst & Young has issued its unmodified letter containing the findings and conclusions in respect of the continuing connected transactions disclosed above by the Group in accordance with Rule 14A.56 of the Listing Rules. A copy of the auditor's letter has been provided by the Company to the Stock Exchange.

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the directors, at least 25% of the Company's total number of issued shares were held by the public as at the date of this report.

DIRECTORS' INTERESTS IN A COMPETING BUSINESS

For the period from the Listing Date and up to the date of this report, none of the Directors or the Controlling Shareholders and their respective close associates had any interests in any business, apart from the business of the Group, which competes or likely to compete (either directly or indirectly) with the business of the Group.

REPORT OF THE DIRECTORS

NON-COMPETITION UNDERTAKING BY CONTROLLING SHAREHOLDERS

The Controlling Shareholders had entered into a deed of non-competition in favour of the Company (for itself and as trustee for each of its subsidiaries from time to time) on 18 January 2017 (the “Deed of Non-Competition”), details of which are set out in section headed “Relationship with the Controlling Shareholders - Deed of Non-Competition” in the Prospectus. The Controlling Shareholders confirmed their compliance with all the undertakings provided under the Deed of Non-Competition. The independent non-executive Directors had reviewed and confirmed that there are no matters required to be deliberated by them in relation to the compliance with and enforcement of the Deed of Non-Competition and considered that the terms of the Deed of Non-Competition have been complied with by the Controlling Shareholders.

OPINION

We have audited the consolidated financial statements of Lai Si Enterprise Holding Limited (the “Company”) and its subsidiaries (the “Group”) set out on pages 56 to 134, which comprise the consolidated statement of financial position as at 31 December 2019, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2019, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor’s responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA’s *Code of Ethics for Professional Accountants* (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor’s responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

KEY AUDIT MATTERS (Continued)

Key audit matter

Contract revenue and costs of fitting-out, alteration and addition works and construction works

We identified contract revenue and costs of (i) fitting-out, alteration and addition works and (ii) construction works as a key audit matter due to significant management judgement involved in estimating contract revenue and contract costs.

The Group recognised contract revenue and costs of (i) fitting-out, alteration and addition works and (ii) construction works using the input method, which was to recognise revenue based on the proportion of actual costs incurred relative to the estimated total costs in fulfilling the relevant performance obligations.

As set out in note 3 to the consolidated financial statements, the Group estimated total contract revenue of fitting-out, alteration and addition works and construction works in accordance with the terms set out in the relevant contracts, or in case of variation orders, based on terms of architect's instructions or other form of agreements or other correspondences and management's experience. The Group estimated total contract costs of fitting-out, alteration and addition works and construction works, which mainly comprised costs for interior decorative materials, labour costs and subcontracting fees. These costs were based on quotations from time to time provided by the major subcontractors/suppliers/vendors and the experience of the management of the Group, which involved management's best estimates and judgements. The actual outcome of the contract in terms of its total revenue and costs may be different from the estimates and this would affect the revenue and profit to be recognised.

Related disclosures are included in notes 3 and 5 to the consolidated financial statements.

How our audit addressed the key audit matter

We performed the following procedures in relation to the contract revenue and costs of (i) fitting-out, alteration and addition works and (ii) construction works:

- Obtained an understanding of and evaluated the Group's process and controls over the costs incurred on the contract works;
- Performed budget analysis for material projects selected by reviewing the scope of deliverables and services required in the contract;
- Discussed with project managers to evaluate the estimated total contract costs and inspected the budget by matching against contracts and/or latest cost quotations provided by major subcontractors/suppliers/vendors, on a sample basis;
- Tested on a sample basis the actual costs incurred on contract works during the reporting period by checking the Group's internal progress reports as well as the inspection reports, invoices or other documents issued by the subcontractors/suppliers/vendors; and
- Checked to the contracts and variation orders, architect's instructions or other form of agreements or other correspondence for the contract revenue recognised.

KEY AUDIT MATTERS (Continued)

Key audit matter

Impairment losses of trade receivables and contract assets

We identified impairment losses of trade receivables and contract assets as a key audit matter due to significant judgements and assumptions applied in assessing the impairment losses pursuant to HKFRS 9.

As set out in note 3 to the consolidated financial statements, the Group applied the simplified approach in calculating expected credit losses ("ECLs") under HKFRS 9 for trade receivables and contract assets by engaging a professional valuer in assessing the credit risk of the overall receivable portfolio. The professional valuer applied various elements in assessing the ECLs, which involved forward-looking information available to the Group, and historical credit loss experience.

Related disclosures are included in notes 3, 5, 15 and 16 to the consolidated financial statements.

How our audit addressed the key audit matter

We performed the following procedures to assess the impairment losses of trade receivables and contract assets under the ECL model:

- Assessed the historical credit loss and forward-looking parameters used by the professional valuer;
- Assessed the independence, competency and objectivity of the professional valuer;
- Tested the ageing of trade receivables and contract assets as at the end of the reporting period on a sample basis;
- Checked the mathematical accuracy of the calculation of the ECLs;
- Checked bank advice for the payments received subsequent to the end of the reporting period; and
- Assessed the adequacy of the Group's disclosures regarding impairment losses of trade receivables and contract assets.

OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Bao King To, Raymond.

Notes:

- (a) In accordance with Article 377 of the Commercial Code of the Macau Special Administrative Region, the subsidiaries registered in Macau are required to transfer part of their profits of each accounting period of not less than 25% to legal reserve, until the amount reaches half of the respective share capital. This reserve is not distributable to the respective shareholders.
- (b) Other reserve represents the fair value adjustments recognised in equity as deemed distribution to the Controlling Shareholders (as defined in the Group's 2017 Annual Report) for advances to certain related parties in which the Controlling Shareholders have joint control or control.
- (c) Merger reserve represented the difference between the aggregate share capital of Lai Sai (HK), Lai Si and Well Team (as defined in Note 1) amounting to MOP85,000 (which were transferred from the Controlling Shareholders to LSHKHL, LSMAHL and WTMAHL pursuant to the reorganisation as defined and set out in Note 1) and the aggregate cash consideration of MOP30.
- (d) The asset revaluation reserve, net of tax, arose from a change in use from an owner-occupied property to an investment property carried at fair value in the prior year.
- * These reserve accounts comprise the consolidated reserves of MOP219,954,000 (2018: MOP213,569,000) in the consolidated statement of financial position.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties which have been measured at fair value. These financial statements are presented in Macau patacas (“MOP”) and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended 31 December 2019. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Group. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

2.1 BASIS OF PREPARATION (Continued)

Basis of consolidation (Continued)

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following new and revised HKFRSs for the first time for the current year's financial statements.

Amendments to HKFRS 9	<i>Prepayment Features with Negative Compensation</i>
HKFRS 16	<i>Leases</i>
Amendments to HKAS 19	<i>Plan Amendment, Curtailment or Settlement</i>
Amendments to HKAS 28	<i>Long-term Interests in Associates and Joint Ventures</i>
HK(IFRIC)-Int 23	<i>Uncertainty over Income Tax Treatments</i>
<i>Annual Improvements to HKFRSs 2015-2017 Cycle</i>	Amendments to HKFRS 3, HKFRS 11, HKAS 12 and HKAS 23

Except for the amendments to HKFRS 9, HKAS 19 and HKAS 28, and *Annual Improvements to HKFRSs 2015-2017 Cycle*, which are not relevant to the preparation of the Group's financial statements, the nature and the impact of the new and revised HKFRSs are described below:

- (a) HKFRS 16 replaces HKAS 17 *Leases*, HK(IFRIC)-Int 4 *Determining whether an Arrangement contains a Lease*, HK(SIC)-Int 15 *Operating Leases – Incentives* and HK(SIC)-Int 27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model to recognise and measure right-of-use assets and lease liabilities, except for certain recognition exemptions. Lessor accounting under HKFRS 16 is substantially unchanged from HKAS 17. Lessors continue to classify leases as either operating or finance leases using similar principles as in HKAS 17.

HKFRS 16 did not have any significant impact on leases where the Group is the lessor.

The Group has adopted HKFRS 16 using the modified retrospective method with the date of initial application of 1 January 2019. Under this method, the standard has been applied retrospectively with the cumulative effect of initial adoption recognised as an adjustment to the opening balance of retained profits at 1 January 2019, and the comparative information for 2018 was not restated and continued to be reported under HKAS 17 and related interpretations.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(a) (Continued)

New definition of a lease

Under HKFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from use of the identified asset and the right to direct the use of the identified asset. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 at the date of initial application. Contracts that were not identified as leases under HKAS 17 and HK(IFRIC)-Int 4 were not reassessed. Therefore, the definition of a lease under HKFRS 16 has been applied only to contracts entered into or changed on or after 1 January 2019.

As a lessee - Leases previously classified as operating leases

Nature of the effect of adoption of HKFRS 16

The Group has lease contracts for various items of property, machinery and other equipment. As a lessee, the Group previously classified leases as either finance leases or operating leases based on the assessment of whether the lease transferred substantially all the rewards and risks of ownership of assets to the Group. Under HKFRS 16, the Group applies a single approach to recognise and measure right-of-use assets and lease liabilities for all leases, except for two elective exemptions for leases of low-value assets (elected on a lease-by-lease basis) and leases with a lease term of 12 months or less ("short-term leases") (elected by class of underlying asset). Instead of recognising rental expenses under operating leases on a straight-line basis over the lease term commencing from 1 January 2019, the Group recognises depreciation (and impairment, if any) of the right-of-use assets and interest accrued on the outstanding lease liabilities (as finance costs).

Impact on transition

Lease liabilities at 1 January 2019 were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at 1 January 2019. The right-of-use assets were measured at the amount of the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised in the statement of financial position immediately before 1 January 2019.

All these assets were assessed for any impairment based on HKAS 36 on that date. The Group elected to present the right-of-use assets separately in the statement of financial position.

For the leasehold land and buildings (that were held to earn rental income and/or for capital appreciation) previously included in investment properties and measured at fair value, the Group has continued to include them as investment properties at 1 January 2019. They continue to be measured at fair value applying HKAS 40.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(a) (Continued)

As a lessee - Leases previously classified as operating leases (Continued)

Impact on transition (Continued)

The Group has used the following elective practical expedients when applying HKFRS 16 at 1 January 2019:

- Applying the short-term lease exemptions to leases with a lease term that ends within 12 months from the date of initial application
- Using hindsight in determining the lease term where the contract contains options to extend/terminate the lease

Financial impact at 1 January 2019

The impact arising from the adoption of HKFRS 16 at 1 January 2019 was as follows:

	Increase MOP'000
Assets	
Increase in right-of-use assets	477
Increase in total assets	477
Liabilities	
Increase in lease liabilities	477
Increase in total liabilities	477

(a) (Continued)

The lease liabilities as at 1 January 2019 reconciled to the operating lease commitments as at 31 December 2018 are as follows:

	MOP'000
Operating lease commitments as at 31 December 2018	757
Less: Commitments relating to short-term leases and those leases with a remaining lease term ended on or before 31 December 2019	(265)
	492
Weighted average incremental borrowing rate as at 1 January 2019	3.19%
	477
Lease liabilities as at 1 January 2019	477

(b) HK(IFRIC)-Int 23 addresses the accounting for income taxes (current and deferred) when tax treatments involve uncertainty that affects the application of HKAS 12 (often referred to as "uncertain tax positions"). The interpretation does not apply to taxes or levies outside the scope of HKAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The interpretation specifically addresses (i) whether an entity considers uncertain tax treatments separately; (ii) the assumptions an entity makes about the examination of tax treatments by taxation authorities; (iii) how an entity determines taxable profits or tax losses, tax bases, unused tax losses, unused tax credits and tax rates; and (iv) how an entity considers changes in facts and circumstances. The Group has assessed that the interpretation did not have any impact on the financial position or performance of the Group.

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following revised HKFRSs, that have been issued but are not yet effective, in these financial statements.

Amendments to HKFRS 3	<i>Definition of a Business</i> ¹
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	<i>Interest Rate Benchmark Reform</i> ¹
Amendments to HKFRS 10 and HKAS 28 (2011)	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i> ³
HKFRS 17	<i>Insurance Contracts</i> ²
Amendments to HKAS 1 and HKAS 8	<i>Definition of Material</i> ¹

¹ Effective for annual periods beginning on or after 1 January 2020

² Effective for annual periods beginning on or after 1 January 2021

³ No mandatory effective date yet determined but available for adoption

Further information about those HKFRSs that are expected to be applicable to the Group is described below.

Amendments to HKFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group expects to adopt the amendments prospectively from 1 January 2020. Since the amendments apply prospectively to transactions or other events that occur on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

Amendments to HKFRS 9, HKAS 39 and HKFRS 7 address the effects of interbank offered rate reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments are effective for annual periods beginning on or after 1 January 2020. Early application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(Continued)*

Amendments to HKFRS 10 and HKAS 28 (2011) address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to HKFRS 10 and HKAS 28 (2011) was removed by the HKICPA in January 2016 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to HKAS 1 and HKAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. The Group expects to adopt the amendments prospectively from 1 January 2020. The amendments are not expected to have any significant impact on the Group's financial statements.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fair value measurement

The Group measures its investment properties at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value measurement (Continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 - based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 - based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than contract assets, deferred tax assets, financial assets and investment properties), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Changes in the values of property, plant and equipment are dealt with as movements in the asset revaluation reserve. If the total of this reserve is insufficient to cover a deficit, on an individual asset basis, the excess of the deficit is charged to profit or loss. Any subsequent revaluation surplus is credited to profit or loss to the extent of the deficit previously charged. An annual transfer from the asset revaluation reserve to retained profits is made for the difference between the depreciation based on the revalued carrying amount of an asset and the depreciation based on the asset's original cost. On disposal of a revalued asset, the relevant portion of the asset revaluation reserve realised in respect of previous valuations is transferred to retained profits as a movement in reserves.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life and land is not depreciated. The principal annual rates used for this purpose are as follows:

Building	50 years
Leasehold improvements	Over the shorter of the lease terms and 33%
Plant and machinery	20%
Furniture, fixtures and equipment	20% to 25%
Motor vehicles	20%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment properties

Investment properties are interests in land and buildings (including the leasehold property held as a right-of-use asset (2018: leasehold property under an operating lease) which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in profit or loss in the year of the retirement or disposal.

If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Property, plant and equipment and depreciation" up to the date of change in use, and any difference at that date between the carrying amount and the fair value of the property is accounted for as a revaluation in accordance with the policy stated under "Property, plant and equipment and depreciation" above.

Leases (applicable from 1 January 2019)

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Properties	2 to 6 years

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases (applicable from 1 January 2019) (Continued)

Group as a lessee (Continued)

(a) Right-of-use assets (Continued)

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value. Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases (applicable from 1 January 2019) (Continued)

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the consolidated statement of profit or loss and other comprehensive income due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, are accounted for as finance leases.

Leases (applicable before 1 January 2019)

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases, including prepaid land lease payments under finance leases, are included in property, plant and equipment, and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to profit or loss so as to provide a constant periodic rate of charge over the lease terms.

Assets acquired through hire purchase contracts of a financing nature are accounted for as finance leases, but are depreciated over their estimated useful lives.

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under the operating leases are credited to profit or loss on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to profit or loss on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the consolidated statement of profit or loss and other comprehensive income when the asset is derecognised, modified or impaired.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets (Continued)

General approach (Continued)

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 365 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Simplified approach

For trade receivables and contract assets that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, an amount due to the ultimate holding company, interest-bearing bank borrowings and lease liabilities.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial liabilities (Continued)

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the consolidated statement of profit or loss and other comprehensive income when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the consolidated statement of profit or loss and other comprehensive income.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the consolidated statement of profit or loss and other comprehensive income.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Cash and bank balances

For the purpose of the consolidated statement of cash flows, cash and bank balances comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and bank balances (Continued)

For the purpose of the consolidated statement of financial position, cash and bank balances comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the consolidated statement of profit or loss and other comprehensive income.

The Group provides for warranties in relation to the sale of certain industrial products and the provision of construction services for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are recognised based on sales volume and past experience of the level of repairs and returns, discounted to their present values as appropriate.

Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income tax (Continued)

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

(a) Fitting-out, alteration and addition works and construction works

Revenue from fitting-out, alteration and addition works and construction works is recognised over time, using an input method to measure progress towards complete satisfaction of the service, because the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced. The input method recognises revenue based on the proportion of the actual costs incurred relative to the estimated total costs for satisfaction of the services.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue recognition (Continued)

Revenue from contracts with customers (Continued)

(a) (Continued)

Claims to customers are amounts that the Group seeks to collect from the customers as reimbursement of costs and margins for scope of works not included in the original construction contract. Claims are accounted for as variable consideration and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The Group uses the most likely amount method to estimate the amounts of claims because this method best predicts the amount of variable consideration to which the Group will be entitled.

(b) Repair and maintenance services

Revenue from the provision of repair and maintenance services is recognised when the repair and maintenance services are rendered, which are generally completed within a short period of time.

(c) Restaurant operations

Revenue from restaurant operations is recognised at the point in time when catering services are rendered to customers.

Revenue from other sources

Rental income is recognised on a time proportion basis over the lease terms.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment assessment, details of which are included in the accounting policies for impairment of financial assets.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

Contract costs

Other than the costs which are capitalised as inventories, property, plant and equipment and intangible assets, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- (a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- (b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- (c) The costs are expected to be recovered.

The capitalised contract costs are amortised and charged to profit or loss on a systematic basis that is consistent with the pattern of the revenue to which the asset related is recognised. Other contract costs are expensed as incurred.

Employee benefits

Pension scheme

Payments to the Mandatory Provident Fund Scheme (the "MPF Scheme") in Hong Kong and the Social Security Fund Contribution in Macau are recognised as expenses when employees have rendered services entitling them to the contributions.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries and annual leave) after deducting any amount already paid.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

Foreign currencies

These financial statements are presented in Macau patacas, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Revenue from contracts with customers

The Group applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

- (i) Determining the timing of satisfaction of fitting-out, alteration and addition works and construction works

The Group concluded that revenue for fitting-out, alteration and addition works and construction works is to be recognised over time because the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.

The Group determined that the input method is the best method in measuring the progress of the fitting-out, alteration and addition works and construction works because there is a direct relationship between the Group's input (i.e., direct materials, the costs of subcontracting and direct labour incurred) and the transfer of services to the customer. The Group recognises revenue based on the proportion of the actual costs incurred relative to the estimated total costs for satisfaction of the services.

- (ii) Determining the method to estimate variable consideration and assessing the constraint for construction services

The Group seeks to collect claims from the customers as reimbursement of costs and margins for scope of works not included in the original construction contract, which give rise to variable consideration. The Group determined that the most likely amount method is the appropriate method to use in estimating the variable consideration for claims in fitting-out, alteration and addition works and construction works, given there are only two possible outcomes of the contract that the Group either achieves the claims or does not.

Before including any amount of variable consideration in the transaction price, the Group considers whether the amount of variable consideration is constrained. The Group determined that the estimates of variable consideration are not constrained based on its historical experience, current negotiations with customers, profitability of the head contracts of the customers and the current economic conditions.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Contract revenue and costs of fitting-out, alteration and addition works and construction works

The Group estimates total contract revenue in accordance with the terms set out in the relevant contracts, or in case of variation order, based on terms of architect's instructions or other form of agreements or other correspondence and the management's experience. The Group estimates total contract costs of fitting-out, alteration and addition works and construction works, which mainly comprise costs for interior decorative materials, labour costs and subcontracting fees, based on quotations from time to time provided by the major subcontractors/suppliers/vendors and the experience of the management of the Group, which involves management's best estimates and judgements. The actual outcome of the contract in terms of its total revenue and costs may be higher or lower than the estimates and this would affect the revenue and profit recognised. If the price of interior decorative materials or the wages of labour or the subcontracting fees varies significantly in the coming months from the budgets, the contract profit for each of the individual projects will differ significantly from the estimated contract profit. If estimated costs exceed contract revenue, a contract loss will be recognised.

Provision for expected credit losses on trade receivables and contract assets

The Group uses a provision matrix under the simplified approach to calculate ECLs for trade receivables and contract assets by engaging a professional valuer.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables and contract assets is disclosed in note 15 and note 16 to the financial statements, respectively.

NOTES TO FINANCIAL STATEMENTS

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty (Continued)

Estimation of fair value of investment properties

In the absence of current prices in an active market for similar properties, the Group considers information based on the recent prices of similar properties on less active markets, with adjustments to reflect any changes in economic conditions since the dates of the transactions that occurred at those prices.

The carrying amount of investment properties at 31 December 2019 was MOP28,119,000. Further details, including the key assumptions used for fair value measurement and a sensitivity analysis, are given in note 14 to the financial statements.

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their services and has four reportable operating segments as follows:

- (a) fitting-out, alteration and addition works segment engages in fitting-out works as an integrated fitting-out contractor;
- (b) construction works segment engages in construction works, with the Group acting as the main contractor;
- (c) repair and maintenance segment provides repair and maintenance services on an ad-hoc basis; and
- (d) restaurant operations segment provides catering services (commenced during the year).

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment's operating results, which is a measure of adjusted profit/loss before tax. The adjusted profit/loss before tax is measured consistently with the Group's profit before tax except that other income, gains and losses, net, non-lease-related finance costs and corporate expenses are excluded from such measurement. No analysis of segment asset and segment liability is presented as management does not regularly review such information for the purposes of resource allocation and performance assessment. Therefore, only segment revenue and segment results are presented.

(ii) Performance obligations

Information about the Group's performance obligations is summarised below:

Fitting-out, alteration and addition works and construction works

The performance obligation is satisfied over time as services are rendered and payment is generally due within 30 days from the date of billing. A certain percentage of payment is retained by customers until the end of the retention period as the Group's entitlement to the final payment is conditional on the satisfaction of the service quality by the customers over a certain period as stipulated in the contracts.

Repair and maintenance services

The performance obligation is satisfied when the services are rendered which is generally completed within a short period of time. Payment is generally due within 30 days from the date of billing.

Restaurant operations

The performance obligation is satisfied when the services are rendered on a daily basis.

The Group's investment properties are all situated in Macau and they were revalued on 31 December 2019 based on valuations performed by Peak Vision Appraisals Limited, independent professionally qualified valuers, at HK\$27,300,000 (equivalent to MOP28,119,000). Each year, the Company's directors decide to appoint which external valuer to be responsible for the external valuations of the Group's properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Company's directors have discussions with the valuer on the valuation assumptions and valuation results twice a year when the valuation is performed for interim and annual financial reporting.

The investment properties are leased to third parties under operating leases, further summary details of which are included in note 17 to the financial statements.

At 31 December 2019, the Group's investment properties with a carrying value of MOP28,119,000 (2018: MOP26,780,000) were pledged to secure general banking facilities granted to the Group (note 23).

Further particulars of the Group's investment properties are included on page 135 of the annual report.

14. INVESTMENT PROPERTIES (Continued)

Fair value hierarchy (Continued)

Below is a summary of the valuation technique used and the key input to the valuation of investment properties:

	Valuation technique	Significant unobservable input	Value	
			2019 MOP'000	2018 MOP'000
Industrial properties	Income capitalisation method	Estimated monthly rental income, taking into account the average monthly rental of MOP60,526 (2018: MOP60,000) with capitalisation rate of 2.50% (2018: 2.69%)	28,119	26,780

Income capitalisation method:

The income capitalisation method is based on the capitalisation of the fully leased, current passing rental income and potential reversionary income of the property with reference to estimated market rent at appropriate investment yield to arrive at the value. The rental value and capitalisation rate to be adopted for the valuation are derived from analysis of market transactions and adjusted to take into account the market expectation from property investors to reflect factors specific to the investment properties.

Relationship of unobservable inputs to fair value:

A significant increase (decrease) in the estimated monthly rental income used would result in a significant increase (decrease) in the fair value of the investment properties. While, a significant increase (decrease) in the capitalisation rate would result in a significant (decrease) increase in the fair value of the investment properties.

Trade receivables	42,945	54,428
Impairment	(1,397)	(1,373)
	41,548	53,055

The Group allows an average credit period of 30 days to its customers. Before accepting any new customer, the Group assesses the potential customer's credit quality and defines credit limits by customers. Recoverability of existing customers is reviewed by the Group regularly.

Included in the Group's trade receivables is an amount due from the Group's related parties of MOP14,172,000 (2018: MOP14,600,000), which is repayable on credit terms similar to those offered to the major customers of the Group.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

	2019 MOP'000	2018 MOP'000
Within 1 month	6,334	29,645

15. TRADE RECEIVABLES (Continued)

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., customer type and rating). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

Impairment	(380)	(165)	(132)
	101,980	94,733	71,553

Contract assets are initially recognised for revenue earned from the provision of related fitting-out, alteration and addition works and construction works as the receipt of consideration is conditional on successful completion of the works. Included in contract assets for fitting-out, alteration and addition works and construction works are retention receivables. Upon completion of the work and acceptance by the customer, the amounts recognised as contract assets are reclassified to trade receivables. The increase in contract assets in 2019 and 2018 was the result of the increase in ongoing fitting-out, alteration and addition works and construction works at the end of each of the years. In addition, the payment schedules of certain amount of contract assets are under negotiation with the customers. During the year ended 31 December 2019, MOP215,000 (2018: MOP33,000) was recognised as an allowance for expected credit losses on contract assets. The Group's trading terms and credit policy with customers are disclosed in note 15 to the financial statements.

The expected timing of recovery or settlement for contract assets as at 31 December is as follows:

	2019 MOP'000	2018 MOP'000
Within one year	101,980	94,733

The movements in the loss allowance for impairment of contract assets are as follows:

	2019 MOP'000	2018 MOP'000

16. CONTRACT ASSETS (Continued)

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates for the measurement of the expected credit losses of the contract assets are based on those of the trade receivables as the contract assets and the trade receivables are from the same customer bases. The provision rates of contract assets are based on days past due of trade receivables for groupings of various customer segments with similar loss patterns (i.e., by customer type and rating). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure on the Group's contract assets using a provision matrix:

	2019	2018
Expected credit loss rate	0.37%	0.17%
Gross carrying amount (MOP'000)	102,360	94,898
Expected credit loss (MOP'000)	380	165

As at 31 December 2019, included in the Group's contract assets were amounts due from the Group's related party of MOP696,000 (2018: MOP15,000).

17. LEASES

The Group as a lessee

The Group has entered into leases for properties used in its operations. Leases of properties generally have lease terms between 2 and 6 years. Generally, the Group is restricted from assigning and subleasing the leased assets outside the Group. The lease contracts include termination options, which are further discussed below.

Interest on lease liabilities	339
Depreciation of right-of-use assets	2,092
Expense relating to short-term leases with remaining lease terms ended on or before 31 December 2019 (included in administrative expenses)	261
Total amount recognised in profit or loss	2,692

(d) The total cash outflow for leases and future cash outflows relating to leases that have not yet commenced are disclosed in notes 28(c) and 34, respectively, to the financial statements.

The Group as a lessor

The Group leases its investment properties (note 14) consisting of four industrial property units in Macau under operating lease arrangements and one floor of its building. The terms of the leases generally require the tenants to pay security deposits and provide for periodic rent adjustments according to the then prevailing market conditions. Rental income recognised by the Group during the year was MOP956,000 (2018: MOP733,000), details of which are included in note 5 to the financial statements.

At 31 December 2019, the undiscounted lease payments receivable by the Group in future periods under non-cancellable operating leases with its tenants are as follows:

	2019 MOP'000	2018 MOP'000
Within one year	896	889
After one year but within two years	322	963

	MOP'000	MOP'000
Prepayments and deposits	11,083	12,671
Other receivables	474	42
	11,557	12,713

The financial assets included in the above balances relate to receivables for which there was no recent history of default and past due amounts. As at 31 December 2019 and 2018, the loss allowance was assessed to be minimal.

19. CASH AND BANK BALANCES AND PLEDGED DEPOSITS

Cash and bank balances comprise cash on hand and bank balances. Except for the interest-free bank balances amounting to MOP22,000 as at 31 December 2019 (2018: MOP131,000), the remaining balances carry interest at prevailing market interest rates which were ranging from 0.0001% to 0.01% per annum as at 31 December 2019 and 2018.

Pledged bank deposits represent deposits amounting to MOP3,600,000 (2018: MOP3,600,000) pledged to a bank to secure performance bonds granted to the Group. As at 31 December 2019, the pledged bank deposits carried a fixed interest rate of 1.0% (2018: 0.01%) per annum.

Bank balances include bank deposits with original maturity over three months amounting to MOP35,530,000 as at 31 December 2019 (2018: Nil).

The Group's cash and bank balances that are denominated in currencies other than the functional currency of the relevant group entities are set out below:

20. TRADE PAYABLES

An ageing analysis of the trade payables as at the end of the reporting period, based on the invoice date, is as follows:

	2019 MOP'000	2018 MOP'000
Within 1 month	10,964	13,066
1 to 2 months	2,728	1,592
2 to 3 months	2,313	1,395
Over 3 months	9,935	11,389
	25,940	27,442

Included in the trade payables are trade payables of MOP60,000 (2018: MOP75,000) due to a related party which are repayable within 90 days, which represents credit terms similar to those offered by the related party to their major customers.

The trade payables are non-interest-bearing and are normally settled on 60-day terms. As at 31 December 2019, retention payables included in trade payables amounted to MOP3,341,000 (2018: MOP4,541,000) which are interest-free and payable at the end of the defects liability period of individual contracts within 1 year from the completion date of the respective projects.

21. CONTRACT LIABILITIES

Details of contract liabilities are as follows:

	31 December 2019 MOP'000	31 December 2018 MOP'000	1 January 2018 MOP'000
<i>Short-term advances received from customers</i>			
Fitting-out, alteration and addition works	3,363	4,373	1,627
Construction works	82	-	-
Repair and maintenance services	-	5	5
Total contract liabilities	3,445	4,378	1,632

Contract liabilities include short-term advances received to carry out fitting-out, alteration and addition works, construction works and repair and maintenance services. The decrease in contract liabilities in 2019 was mainly due to the provision of services to customers during the year. While the increase in contract liabilities in 2018 was mainly due to the increase in short-term advances received from customers in relation to the provision of fitting-out, alteration and addition works at the end of the year.

23. INTEREST-BEARING BANK BORROWINGS (Continued)

The Group's borrowings are denominated in both MOP and HK\$. These bank borrowings are under banking facilities for drawing loans and issuing performance bonds. As at 31 December 2019 and 2018, the banking facilities are secured by the legal charge over the office buildings held by the Group (included in property, plant and equipment and investment properties as disclosed in notes 13 and 14, respectively), pledged bank deposits as disclosed in note 19 and promissory notes endorsed by Lai Si and Well Team which were guaranteed by the Company.

Share options

Details of the Company's share option scheme and the share options issued under the scheme are included in note 26 to the financial statements.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

26. SHARE OPTION SCHEME

The Company has adopted a share option scheme (the "Share Option Scheme") on 18 January 2017 to enable the Company to grant share options to eligible persons so as to recognise and acknowledge the contributions they have or may have made to the Group. Since the listing of the shares, no share option had been granted under the Share Option Scheme.

Pursuant to the Share Option Scheme, the directors may, at their absolute discretion, offer to grant an option to subscribe for the shares subject to such conditions (including, without limitation, any minimum period for which an option must be held before it can be exercised and/or any performance targets which must be achieved before an option can be exercised) as they may think fit, to directors, the following persons (the "Eligible Participants"): (a) any full-time or part-time employees, executives or officers of the Company; (b) any director (including executive, non-executive and independent non-executive directors) of the Company or any of its subsidiaries; (c) any advisers, consultants, suppliers, customers and agents to the Company or any of its subsidiaries; and (d) such other persons who, in the sole opinion of the Directors, will contribute or have contributed to the Group.

An option shall have been accepted by an Eligible Participant within 21 days from the date of the offer of grant of the option. A consideration of HK\$1.00 is payable on acceptance of the offer of grant of an option.

The maximum number of shares which may be issued upon exercise of all options (excluding, for this purpose, options which have lapsed in accordance with the terms of the Share Option Scheme and any other share option scheme of the Company) to be granted under the Share Option Scheme and any other share option scheme of the Company must not in aggregate exceed 40,000,000 Shares, being 10% of the shares in issue as at the Listing Date. No share options had been granted by the Company under the Share Option Scheme up to the date of this report. Therefore, the number of shares available for issue is 40,000,000 shares, being approximately 10% of the shares in issue as at the date of this report.

The total number of shares issued and which may fall to be issued upon exercise of the options granted under the Share Option Scheme and any other share option scheme of the Company (including both exercised and outstanding options) to each participant in any 12-month period shall not exceed 1% of the issued share capital of the Company for the time being. Any further grant of options in excess of the 1% limit shall be subject to shareholders' approval in a general meeting with such participant and his associates abstaining from voting.

The subscription price per share under the Share Option Scheme shall be a price determined by the directors, but shall not be lower than the highest of (a) the closing price of the shares as stated in the Stock Exchange's daily quotations sheet on the date of offer for the grant, which must be a trading day; (b) the average of the closing prices of the shares as stated in the Stock Exchange's daily quotations sheets for the five trading days immediately preceding the date of grant; and (c) the nominal value of a share.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

26. SHARE OPTION SCHEME (Continued)

Unless there is an early termination of the Share Option Scheme pursuant to the rules of the Share Option Scheme, the Share Option Scheme will remain in force for a period of 10 years after the date on which the Share Option Scheme is adopted. The period during which an option may be exercised will be determined by the Directors in their absolute discretion, save that no option shall be exercised later than 10 years from the date of grant.

No share option had been granted under the Share Option Scheme during the years ended 31 December 2019 and 2018.

27. RESERVES

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity on page 59 of the financial statements.

29. CONTINGENT LIABILITIES

(a) Sin Fong Garden Building

In October 2012, one of the supporting pillars of the residential building called "Sin Fong Garden Building" collapsed due to the loss of stability. Such collapse was accused to be caused by the dismantlement and construction of the foundation work undertaken in an adjacent new residential building project, of which Lai Si was one of the contractors. As a result, in September 2015, several flat owners of Sin Fong Garden Building filed a lawsuit against several defendants including Lai Si, seeking for a compensation for the loss of property, in a total sum of approximately HK\$48,950,000, to be borne jointly by the defendants. However, according to the report issued by the team of technical advisers and experts engaged by the Macau Government to study the causes of the incident, the collapse of pillar of Sin Fong Garden Building was caused by the substandard supporting pillars of Sin Fong Garden Building, instead of the dismantlement and foundation work undertaken in the adjacent new residential building.

In October 2015, the Macau Government has filed a lawsuit against several defendants including Lai Si, seeking a compensation for the costs incurred by the Macau Government for (i) measures it had taken to prevent Sin Fong Garden Building from being collapsed; (ii) ensuring the safety of citizens and adjacent buildings; and (iii) the fees to technical advisers and experts it had hired to study the causes of the incident, in a total sum of approximately MOP12,806,000, to be borne jointly by the defendants.

Up to the date of approval of these financial statements, the proceedings are scheduled for the trial hearings. Trial hearings for the lawsuit filed by the Macau Government have been started during the year, which were still in progress at the end of the reporting period, whereas the first hearing date for another lawsuit filed by several flat owners of Sin Fong Garden Building is yet to be confirmed. After consulting the Group's lawyer, the directors of the Company are of the opinion that it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation and hence no provision is made in the financial statements. The Controlling Shareholders have undertaken to indemnify the Group against all losses and liabilities arising from the above proceedings.

29. CONTINGENT LIABILITIES (Continued)

(b) Dispute on payment with a subcontractor

As at 31 December 2019 and 2018, a subsidiary of the Group was a defendant in a lawsuit brought by a subcontractor of two of the Group's fitting-out projects on a total settlement dispute amount of MOP4.6 million. The directors, based on the advice from the Group's legal counsel, believe that the subsidiary has a valid defence against the lawsuit and, accordingly, have not provided for any claim arising from the litigation, other than the related legal and other costs.

Up to the date of approval of these financial statements, the proceedings were scheduled for the trial hearings. Trial hearing for one of the fitting-out projects has been scheduled in January 2020 which is still in progress at the date of issuing these financial statements, while the first hearing date of another fitting-out project is yet to be confirmed. After consulting the Group's lawyer, the directors of the Company are of the opinion that it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation and hence no provision is made in the financial statements.

30. PLEDGE OF ASSETS

Details of the Group's assets pledged for the Group's bank loans are included in note 23 to the financial statements.

31. OPERATING LEASE COMMITMENTS AS AT 31 DECEMBER 2018

The Group leased certain of its office properties, carparks and warehouses under operating lease arrangements. Leases for properties are negotiated for terms ranging from one to two years.

At 31 December 2018, the Group had total future minimum lease payments under non-cancellable operating leases falling due as follows:

	2018 MOP'000
Within one year	757

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

34. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's financial instruments include trade and other receivables, amount(s) due from a director/ the ultimate holding company, pledged bank deposits, cash and bank balances, trade and other payables, an amount due to a related party, bank overdrafts and bank borrowings. Details of these financial instruments are disclosed in the respective notes. The risks associated with these financial instruments include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Foreign currency risk

The group entities collect most of the revenue and incur most of the expenditures in their respective functional currencies. The Group is exposed to currency risk primarily through purchase of raw materials and sales proceeds received from customers that are denominated in a currency other than the group entities' functional currency. The currencies giving rise to this risk are primarily HK\$ and RMB. The directors of the Company consider that the Group's exposure to foreign currency exchange risk is insignificant as the majority of the Group's transactions are denominated in the functional currency of each individual group entity.

The Group currently does not have a foreign currency hedging policy. However, the management of the Group monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities at the end of the reporting period are as follows:

	Assets		Liabilities	
	2019 MOP'000	2018 MOP'000	2019 MOP'000	2018 MOP'000
HK\$ against MOP	78,991	90,396	17,751	12,620
RMB against MOP	1,591	288	1,731	1,793

Sensitivity analysis

As the exchange rate of HK\$/MOP is relatively stable, the Group does not expect any significant foreign currency exposure arising from the fluctuation of the HK\$/MOP exchange rate. As a result, the directors of the Company consider that the sensitivity of the Group's exposure towards the change in exchange rate between HK\$/MOP is minimal.

The following table details the Group's sensitivity to a 5% increase and decrease in RMB against MOP. 5% represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis of the Group's exposure to foreign currency risk at the end of the reporting period has been determined based on the change taking place at the beginning of the year and held constant throughout the year.

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

34. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)**Foreign currency risk** (Continued)**Sensitivity analysis** (Continued)

A positive number below indicates an increase in post-tax profit for the current year where a 5% weakening of RMB against MOP. For a 5% strengthening of RMB against MOP, there would be an equal and opposite impact on the post-tax profit for the year as set out below:

	Increase in post-tax profit	
	2019 MOP'000	2018 MOP'000
RMB against MOP	6	66

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure did not reflect the exposure during the year.

Interest rate risk

The Group's cash flow interest rate risk relates primarily to variable-rate bank balances, bank overdrafts and bank borrowings (see note 19 for details of bank balances, pledged bank deposits and bank overdrafts and note 23 for details of bank borrowings). The Group currently does not have an interest rate hedging policy. However, management monitors interest rate exposure and will consider other necessary actions when significant interest rate exposure is anticipated.

The Group's exposure to interest rates on financial liabilities is detailed in the liquidity risk management section of this note.

The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of HIBOR and the Prime Rate arising from the Group's bank borrowings and bank overdrafts.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for non-derivative financial instruments at the end of the reporting period. For variable-rate bank overdrafts and bank borrowings, the analysis is prepared assuming bank overdrafts and bank borrowings outstanding at the end of the reporting period were outstanding for the whole year.

A 50 basis points increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. If interest rates on variable-rate bank overdrafts and bank borrowings had been 50 basis points higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31 December 2019 would have decreased/increased by approximately MOP241,000 (2018: MOP271,000).

NOTES TO FINANCIAL STATEMENTS

31 DECEMBER 2019

34. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Interest rate risk (Continued)

Sensitivity analysis (Continued)

No sensitivity analysis has been prepared for the exposure to interest rate risk on the Group's bank balances as the directors of the Company consider that the exposure is minimal.

Credit risk

At the end of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amounts of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the management of the Group reviews the recoverable amount of each individual material trade receivable and other receivable at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The policy of impairment on financial assets of the Group is based on the evaluation and estimation of collectability and ageing analysis of the outstanding balances as well as incorporation of forward-looking information. Specific allowance is only made for receivables that are unlikely to be collected and is recognised on the difference between the estimated future cash flows expected to receive discounted using the original effective interest rate and the carrying value. If the financial conditions of customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional allowance may be required. Management closely monitors the subsequent settlement of the counterparties. In this regard, the directors of the Company consider that the credit risk is significantly reduced.

In order to minimise the credit risk, the management of the Group reviews the recoverable amount of each individual material debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the management of the Group considers that the Group's credit risk is significantly reduced.

With respect to credit risk arising from amounts due from a director, ultimate holding company and related parties, the Group's exposure to credit risk arising from default of the counterparties is limited as the counterparties have good reputation and/or a good history of repayment and the Group does not expect to incur a significant loss for uncollected amounts due from these counterparties.

The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

* For trade receivables and contract assets to which the Group applies the simplified approach for impairment, information based on the provision matrix is disclosed in notes 15 and 16 to the financial statements, respectively.

** The credit quality of the financial assets included in prepayments, other receivables and other assets and amounts due from a director/the ultimate holding company is considered to be "normal" as they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition. Otherwise, the credit quality of the financial assets is considered to be "doubtful".

The Group is exposed to concentration of credit risk as at 31 December 2019 on trade receivables and contract assets from the Group's five major customers amounting to MOP20,956,000 (2018: MOP45,771,000) which accounted for 15% (2018: 31%) of the Group's total trade receivables and contract assets.

Further quantitative data in respect of the Group's exposure to credit risk arising from trade receivables and contract assets are disclosed in notes 15 and 16 to the financial statements, respectively.

34. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)**Liquidity risk**

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management of the Group believes that the Group will have sufficient working capital for its future operational requirement.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The maturity dates for non-derivative financial liabilities are based on the agreed repayment dates.

The table includes both interest and principal cash flows. To the extent that interest cash flows are on floating rate, the undiscounted amount is derived from contractual interest rate curve at the end of each reporting period.

34. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Liquidity risk (Continued)

Note:

Bank borrowings with a repayment on demand clause are included in the “On demand or less than 3 months” time band in the above maturity analysis. As at 31 December 2019, the aggregate carrying amount of these bank borrowings was MOP54,791,000 (2018: MOP61,694,000). Taking into account the Group’s financial position, the management of the Group does not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The management of the Group believes that such bank borrowings will be repaid in accordance with the scheduled repayment dates set out in the loan agreements. At that time, the aggregate principal and interest cash outflows (estimated based on the interest rate at the end of the reporting period) are set out below.

	Weighted average interest rate %	Less than 3 months MOP'000	3 to less than 12 months MOP'000	1 year to 5 years MOP'000	Over 5 years MOP'000	Total undiscounted cash flows MOP'000	Total carrying amount MOP'000
31 December 2019	3.12	993	3,070	17,617	34,770	56,450	54,791
31 December 2018	3.19	3,966	2,883	16,538	40,140	63,527	61,694

Fair value

The fair values of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis, with the most significant input being the discount rate that reflects the credit risk of counterparties.

The directors of the Company consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their fair values due to the short maturities of these instruments.

Capital management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to the shareholders through the optimisation of the debt and equity balance. The Group’s overall strategy remains unchanged from prior years.

The capital structure of the Group consists of net debt, which includes bank borrowings disclosed in note 23, net of cash and cash equivalents and equity attributable to the owners of the Company comprises issued share capital, legal reserve and accumulated profits.

The directors of the Company review the capital structure on a continuous basis. As part of this review, the directors of the Company consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors of the Company, the Group will balance its overall capital structure through payment of dividends, issue of new shares as well as issue of new debts or redemption of existing debts.

37. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current year's presentation as the directors of the Company consider that the new presentation is more relevant and appropriate to the financial statements.

38. EVENT AFTER THE REPORTING PERIOD

Since January 2020, the novel coronavirus (the "COVID-19") has started to spread throughout China and other parts of the world. In order to prevent the spread of the COVID-19, certain travel restrictions to Macau and Hong Kong have been imposed by the Macau and Hong Kong Governments. Because of the restrictions on transportation, some existing projects are suspended due to lack of materials supply. Given the uncertainty around the extent and timing of the potential future spread or mitigation of the COVID-19 and around the imposition or relaxation of protective measures, the Company cannot at this stage reasonably estimate its financial impact after the reporting period.

39. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the board of directors on 24 March 2020.
