CHAIRMAN'S STATEMENT

Dear Shareholders,

I am pleased to report that the Group recorded consolidated profit attributable to shareholders of HK\$239 million for the year ended 31 December 2019. Earnings per share was HK\$0.18. The Board of Directors has recommended a final dividend of HK21.0 cents per share. Together with the interim dividend of HK6.0 cents per share, total dividends for the year will be HK27.0 cents per share, same as 2018.

2019 was a year with challenges, with the overall Hong Kong economy, residential property market and hotel sectors all weakening since June, impacted by intensified Sino-US trade war and local social activities. During the first half of 2019, the Group successfully captured the solid demand from first-time home buyers to launch two "Upper Gold Coast series" residential projects, The Carmel in January and OMA OMA in June. In October, despite the accelerating social turmoil, we launched the remaining house units of The Carmel receiving good response. As at 31 December 2019, around 89% and 71% of units (in terms of number) were presold for The Carmel and OMA OMA respectively. In January 2020, The Carmel was completed with handover to buyers commencing. We will record related revenue and profit in 2020. Meanwhile, our luxury developments in Kau To Shan, Le Cap and La Vetta, continued to record sales transactions and handover of the remaining units, albeit at a slower pace in 2019.

In terms of our property investments in Hong Kong and London, we continue to make stable and recurring returns. In Hong Kong, Landmark East, our flagship Grade A twin office towers in Kwun Tong, maintained a high occupancy rate despite competition from new supply in Kowloon East. Shui Hing Centre, our industrial building in Kowloon Bay, not only recorded high occupancy, but also obtained the waiver approval for revitalization into office space. Waterfront Suites, the new luxurious leasing residence in Hong Kong East, commenced leasing in April 2019 and attracted senior executive tenants from Hong Kong East and Kowloon East.

In London, the Group continued to improve the occupancy of our Grade A commercial properties, and together with the rental income from the newly acquired and fully-let Grade-A office tower at 30 Gresham Street, generated steadily growing recurring income to compensate the rental loss from the sale of W Square and Winner Godown Building.

Foundation work of our comprehensive development of Gage Street/Graham Street in Central progressed as scheduled. This project, consisting of a Grade A office tower, a hotel, retail units and open public spaces, is set to transform the old urban district in prime central business and entertainment district years to come.

Lanson Place, our hospitality investment and management brand, has continued to expand its presence in Asia through its entry into the Philippines. The Group signed up a 10-year management contract to operate a brand new hotel and serviced residence project at the heart of SM Mall of Asia in Pasay, Manila. The project is scheduled for completion in 2022, offering 250 hotel rooms and 150 serviced suites.

The COVID-19 outbreak in January 2020 has disrupted supply chains and business activities, delaying our construction and sale programs. Primary residential property sales, especially luxury property, further slowed down affecting our sale progress on Kau To Shan. The weakened hospitality industry suffered further from global travel restrictions, with the slump in tourist arrivals resulting in a drastic occupancy drop and operating loss of Lanson Place Hotel in Hong Kong.

During this challenging operating environment, the Group focused on delivering quality products and services to our customers to reinforce our market positioning and customer loyalty. We also continue to carry out proactive asset management to enhance our portfolio value, while improving efficiency and productivity. Management will diligently monitor the impact of the prevailing pandemic on our business performance and cash flow. Inevitably, such impact will be a critical factor to consider when recommending the dividend payment in the coming year.

Throughout the past few years, the Group has strengthened its balance sheet, diversified and expanded its funding sources and investment portfolio. Relying on our solid financial position and sustainable recurrent income, we will be able to manage the economic challenges ahead with confidence, and to stay proactive in looking out for investment opportunities in a prudent manner.

Taking this opportunity, I would like to express my gratitude and appreciation to my fellow Board members for contributing their invaluable knowledge and insights to the Group, and to all shareholders, business partners and colleagues for their continued support during this challenging period.

Cheng Wai Chee, Christopher

BUSINESS REVIEW

For the year ended 31 December 2019, the Group's revenue was HK\$830 million compared with HK\$885 million in 2018. Consolidated profit for the year was HK\$305 million, a decrease of HK\$1,075 million compared with HK\$1,380 million in 2018. The decrease was mainly attributable to (i) a one-off disposal gain on W Square of HK\$693 million in 2018, (ii) a decrease in fair value gain on investment properties and financial instruments including joint ventures of HK\$433 million (HK\$191 million loss in 2019 as compared to HK\$242 million gain in 2018), offset by (iii) HK\$56 million higher profit from the property development segment.

The fair value loss on investment properties and financial instruments including joint venture of HK\$191 million in 2019, is mainly from valuation loss on Lanson Place Hotel in Hong Kong due to the impact of social activities since June 2019 pulling down hotel rooms demand and revenue.

Consolidated profit attributable to shareholders was HK\$239 million, a decrease of HK\$1,073 million compared with HK\$1,312 million in 2018.

Core consolidated profit attributable to shareholders, excluding one-off gains and change in fair value on investment properties and financial instruments including joint ventures, was HK\$424 million, an increase of HK\$88 million, compared with HK\$336 million in 2018.

Earnings per share attributable to shareholders was HK\$0.18 compared with HK\$0.97 in 2018.

Property Development

The property development segment revenue was HK\$26 million in 2019 compared with HK\$32 million in 2018. Segment profit before taxation was HK\$15 million compared with segment loss before taxation of HK\$34 million in 2018, as a result of more sold units of joint venture projects (Le Cap and La Vetta) handed over to buyers in 2019.

Since June 2019, social activities in Hong Kong have generally slowed down the primary residential property market, in particular, the high-end property market.

Wholly-owned projects

The Carmel, a low-density residential site in Siu Sau, Tai Lam, Tuen Mun, provides a saleable area of approximately 147,000 square feet for 178 residential units. Pre-sale was launched in January 2019. Occupation permit and certificate of compliance was obtained in June and December 2019 respectively. As at 31 December 2019, around 89% (in terms of number) of the residential units were sold, including most of the typical apartment units and some of the houses. The project was completed in January 2020 and handover to buyers has commenced. Up to date of this report, around 86% (in terms of number) were handed over with related revenue and profit to be recognised in 2020.

OMA OMA, a medium-density residential site on So Kwun Wat Road, So Kwun Wat, Tuen Mun, provides a saleable area of approximately 234,000 square feet for 466 residential apartment units. Pre-sale consent was obtained in June 2019 and pre-sale was launched in end-June. Superstructure work is underway and the project is scheduled for completion in 2021. As at 31 December 2019, around 71% (in terms of number) of the residential units were sold. Related revenue and profit of the pre-sold units will be recognised upon handover to buyers prior to the project's material date that falls in June 2021.

Majority-owned project

The Group has a 70% interest in the site adjacent to The Carmel in Siu Sau, Tai Lam, Tuen Mun, a medium-density residential site, that offers a gross floor area of approximately 294,000 square feet. Pre-sale consent was obtained in March 2020. Foundation work and site formation work are in progress. The project is scheduled for completion in 2022.

Joint venture projects

The Group has a 15% interest in Providence Bay, Providence Peak and The Graces, respectively. All the three projects are located at Pak Shek Kok, Tai Po. As at 31 December 2019, all residential units of Providence Bay, Providence Peak and The Graces were sold.

The Group has a 50% interest in Homantin Hillside, located in Hung Hom. The project has a saleable area of approximately 128,000 square feet for 173 residential units. As at 31 December 2019, all the residential units were sold. The Group is the lead project manager and lead sales and marketing manager for this project.

The Group has a 35% interest in two low-density residential projects, Le Cap and La Vetta. Both of them are located in Kau To, Shatin, offering a saleable area of approximately 460,000 square feet altogether. In 2019, around 3% and 18% (in terms of number) of the residential units of Le Cap and La Vetta were sold, respectively. Cumulatively, as at 31 December 2019, around 28% and 27% (in terms of number) of the residential units of Le Cap and La Vetta were sold, respectively. Around 15% and 24% (in terms of number) of Le Cap and La Vetta's residential units were handed over to buyers, respectively, with related revenue recognised in 2019. The Group is the joint project manager and lead sales and marketing manager for both projects.

The Group has a 50% interest in a commercial complex site in Central, through the tender for Site C of the Gage Street/Graham Street project as put up by the Urban Renewal Authority. Advantageously located in the heart of the bustling Central financial hub, the site provides a gross floor area of up to 433,500 square feet to be developed into a Grade A office tower, a hotel, retail shops, as well as public open space with green facilities for the neighbourhood. The Group is the lead project manager and lead leasing manager for this project. Foundation work is in progress.

Property Investment and Management

After the completion of the disposals of Winner Godown Building and W Square in the first half of 2018, the property investment and management segment revenue reduced slightly to HK\$626 million in 2019, compared with HK\$674 million in 2018. Segment profit before taxation (including fair value changes) was HK\$460 million, compared with HK\$1,407 million in 2018. Excluding (i) fair value gain in investment properties and financial instruments, including joint ventures (2019 was HK\$3 million; 2018 was HK\$253 million), (ii) a one-off disposal gain on W Square of HK\$693 million in 2018 and (iii) rental income from the properties disposed in 2018, segment profit before taxation was HK\$457 million, compared with HK\$430 million in 2018. The increase was mainly attributable to leasing profit from 30 Gresham Street, London, which was acquired in December 2018.

As at 31 December 2019, the Group's portfolio of investment properties, mainly Grade A office buildings, has a total area of approximately 1,886,000 square feet with an aggregate attributable fair market valuation of around HK\$20,600 million. The portfolio encompasses 1,525,000 square feet in Hong Kong, 295,000 square feet in London and 6,200 square metre in Beijing.

MANAGEMENT DISCUSSION AND ANALYSIS

Wholly-owned properties in Hong Kong

Landmark East is the Group's flagship property located in Kowloon East. This property is a Grade A office complex comprising twin towers of 36 floors and 34 floors respectively with a total gross floor area of approximately 1,338,000 square feet and 454 car parking spaces. As at 31 December 2019, the property achieved an occupancy of approximately 93%.

Shui Hing Centre is an industrial building in Kowloon Bay, with a gross floor area of approximately 187,000 square feet. As at 31 December 2019, the property achieved an occupancy of approximately 97%. In November 2019, a waiver for revitalization of the building has been obtained.

Wholly-owned properties in London, the United Kingdom

The commercial property located at Savile Row/Vigo Street, West End, has a net internal area of approximately 14,000 square feet of Grade A office and retail space.

The high-end commercial property located on Brook Street, West End, offers easy access to the upcoming Bond Street Station of London Crossrail and has a net internal area of approximately 19,000 square feet of Grade A office and retail space.

The commercial property located at Berkeley Square, West End, has a net internal area of approximately 7,900 square feet of Grade A office space.

As at 31 December 2019, the above three wholly-owned properties achieved an average occupancy of approximately 99%.

Joint venture properties in London, the United Kingdom

The Group has a 25% interest in a commercial property located on Fleet Place, the City. The property has a net internal area of approximately 192,000 square feet of Grade A office and retail space.

The Group has a 33% interest in a commercial property located at Cavendish Square, West End. The property has a net internal area of approximately 13,000 square feet of Grade A office space. The refurbishment and expansion works were completed in September 2018 and leasing was launched in December 2018.

The Group has a 50% interest in a commercial property located at 30 Gresham Street, City of London, which was acquired in December 2018. The property has a net internal area of approximately 404,000 square feet of Grade A office, retail space and ancillary accommodation, with 48 car parking spaces.

As at 31 December 2019, the above three joint venture properties achieved an average occupancy of approximately 96%.

Wholly-owned property in Beijing, China

The Group has 33 residential units at Central Park, Beijing with a gross floor area of approximately 6,200 square metre. As at 31 December 2019, approximately 91% of the units (in terms of number) were leased.

Hospitality Investment and Management

The hospitality investment and management segment revenue was HK\$122 million in 2019 compared with HK\$144 million in 2018. Segment loss before taxation (including fair value changes) was HK\$232 million in 2019, a decrease of HK\$352 million compared with profit before taxation of HK\$120 million in 2018. Excluding fair value changes in investment properties and financial instruments, including joint ventures (2019 was fair value loss of HK\$219 million; 2018 was fair value gain of HK\$85 million), segment loss before taxation was HK\$13 million in 2019, compared with profit before taxation of HK\$35 million in 2018.

The wholly-owned Lanson Place Hotel in Hong Kong suffered from the social activities since June 2019 and COVID-19 outbreak since January 2020, resulting in a drastic drop in both occupancy and average room rates. The situation has worsened after the global spread of COVID-19 in late February 2020.

Waterfront Suites, our wholly-owned prime harbour-front furnished residence in Sai Wan Ho, was opened in April 2019 for leasing, and occupancy continued to build up although the pace has slowed down due to local social activities and COVID-19 outbreak.

The Group has a 50% interest in Lanson Place Bukit Ceylon Serviced Residences in Kuala Lumpur, which recorded a stable occupancy in 2019 but also suffered from COVID-19 outbreak starting January 2020.

In May 2019, we entered into a 10-year management contract to manage a brand new hotel and serviced residence of approximately 400 units at the heart of SM Mall of Asia in Manila, Philippines. This project is targeted for completion by 2022. Marking Lanson Place's first property in the Philippines, the project is also the Group's 13th managed property in the Asia Pacific region.

Lanson Place Hospitality Management and the properties under the brand continue to gain good recognition from travelers. In Hong Kong, the newly-opened Waterfront Suites obtained the "Best Seaview Serviced Apartment" at the Squarefoot Best of the Best Awards 2019, while Lanson Place Hotel was named "Hong Kong's Leading Boutique Hotel 2019" at the World Travel Awards 2019. In Malaysia, Lanson Place Bukit Ceylon Serviced Residences continue to shine in the industry by taking home the "Malaysia's Leading Serviced Apartments" three years in a row at the World Travel Awards. In Singapore, Winsland Serviced Suites by Lanson Place also obtained their first award since its reopening in 2018 – "Best Serviced Apartment Company – Silver winner" at the HR Vendors of the Year 2019 Awards.

Others

This segment represents investing activities and central management and administrative expenses. Segment revenue was HK\$55 million in 2019, compared with HK\$34 million in 2018. The increase was mainly attributable to interest income from debt securities.

Segment profit before taxation (including fair value changes) was HK\$132 million in 2019 compared with a segment loss of HK\$61 million in 2018, which was mainly attributable to the fair value gain of HK\$18 million from the Group's investment in Suntec REIT, which is listed on the Singapore Exchange, reflected a rise in market price of the units in Suntec REIT as compared to the unit market price at 31 December 2018. In 2018, a fair value loss of HK\$103 million was recorded, mainly reflected a drop in market price of the unit as compared to the unit price at 31 December 2017.

Excluding fair value changes in financial instruments (2019 was fair value gain of HK\$27 million; 2018 was fair value loss of HK\$103 million), segment profit before taxation was HK\$105 million in 2019, an increase of HK\$63 million compared with HK\$42 million in 2018, which was mainly due to an increase in interest income from debt securities and in bank interest income from time deposit placements during the year.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Liquidity and Financial Resources

The Group's net assets totalled HK\$28,624 million as at 31 December 2019 (2018: HK\$28,722 million). The decrease of HK\$98 million is mainly resulted from the profit for the year of HK\$305 million, offset by the distribution of the 2018 final dividend and 2019 interim dividend of HK\$365

million and distribution to holders of perpetual capital securities of HK\$65 million.

As at 31 December 2019, the Group's bank and other borrowings totalled HK\$4,681 million (2018: HK\$5,035 million). The maturity profile of the Group's bank and other borrowings is set out below:

	31 December 2019		31 December 2018	
	HK\$ million	%	HK\$ million	%
Repayable:				
Within one year	147	3%	1,295	26%
Between one and two years	1,261	27%	110	2%
Between two and five years	3,086	66%	3,339	66%
After five years	187	4%	291	6%
	4,681	100%	5,035	100%

As at 31 December 2019, the Group's net borrowings (total bank and other borrowings less bank balances and cash) were HK\$2,941 million (2018: HK\$2,161 million), representing 10.3% of the Group's net assets (2018: 7.5%). Interest for the Group's bank borrowings is mainly on a floating rate basis while interest for the Group's bonds is

on a fixed rate basis. The Group will closely monitor the exposure to interest rate fluctuations and, if appropriate, hedge by interest rate swap contracts to the extent desirable.

The Group's bank balances and cash as well as unutilised revolving loan facilities are set out as follows:

	31 December 2019 HK\$ million	31 December 2018 HK\$ million
Bank balances and cash	1,740	2,874
Unutilised revolving loan facilities	2,300	2,423
	4,040	5,297

Foreign Currencies

The Group principally operates in Hong Kong, and as a result, has immaterial exposure to exchange rate fluctuations. The Group conducts its business mainly in Hong Kong dollars, and to a lesser extent Renminbi, UK pounds, Singapore dollars and Malaysia Ringgits. For transactions in foreign currencies, the Group will closely monitor the exposure and, if appropriate, hedge by local currency financing and other financial instruments to the extent desirable. In particular, exposure to investments in foreign operations in the United Kingdom is substantially covered by local currency financing and forward exchange contracts.

Contingent Liabilities

As at 31 December 2019, the Group had contingent liabilities of HK\$7,155 million (2018: HK\$8,081 million) in respect of guarantees given by the Company for banking facilities granted to certain joint ventures. The guarantees were given severally and in proportion to the Group's equity interests in the joint ventures.

Pledge of Assets

As at 31 December 2019, the Group's advances to joint ventures of HK\$3,158 million (2018: HK\$3,635 million) were subordinated to the loan facilities of joint ventures and assigned. The shares in these joint ventures beneficially owned by the Group are pledged to the financial institutions.

As at 31 December 2019, several of the Group's investment properties and properties for sale with carrying values of HK\$3,728 million and HK\$2,947 million, respectively, were pledged to secure credit facilities for the Group.

PROSPECTS

For 2020, Hong Kong economy, property market, and hospitality industry will be clouded by the prevailing severe coronavirus epidemic, on-going local social activities, weakening world economy, as well as lingering uncertainty over the second stage of the Sino-US trade talks. These uncertainties will undoubtedly undermine our business performance in the near term.

For our residential development, we believe that the local housing demand, especially from first time home buyer for small unit, will continue to be solid given the unresolved property supply shortage in Hong Kong, latest government easing policies on home mortgage, and trending down of the already low interest rate. We will dedicate our efforts to complete our existing projects on schedule and put on the market our third "Upper Gold Coast series" project as soon as it is ready in 2020. This project adjacent to The Carmel will provide around 500 medium-density small-to-medium size units suitable for young homebuyers.

Our investment properties in Hong Kong and London form a strong foundation of our balance sheet and will continue to provide a sustainable stream of steady recurring income and cash flow for the Group. We expect coming lease renewal and rental rate for Landmark East in Hong Kong will be under pressure amidst a downturn economy. Although, we believe our London properties will benefit from the easing concerns over Brexit issues in terms of occupancy and rental growth, the outlook will be clouded by the fallouts of the epidemic, we will focus to provide high quality management services, enhance tenant profile, and adopt asset management initiatives to streamline our operation for further improvement in efficiency and effectiveness.

MANAGEMENT DISCUSSION AND ANALYSIS

Our hotel operations will inevitably continue to suffer operating loss until the coronavirus spread is under control and global travel returns to normal level. Given that our investments in hotel properties are relatively small, we believe the impact on the Group's overall performance will be manageable.

Throughout the past few years, the Group has strengthened its balance sheet, diversified and expanded its funding sources and investment portfolio. Relying on our solid financial position and sustainable recurrent income, we will be able to manage the economic challenges ahead with confidence, and to stay proactive in looking out for investment opportunities in a prudent manner.

KEY RISKS AND UNCERTAINTIES

The Group's business, financial conditions or results of operations are affected by a number of key risks and uncertainties outlined below. There may be other risks or uncertainties, including those which are not known to the Group or which the Group currently deems to be immaterial but may affect the Group in future.

Business Risks

Property development

A majority of the Group's assets are located in, and a majority of the Group's revenue is derived from Hong Kong. As a result, the general state of Hong Kong and the property market, the interest rate changes and the political and legal situations in Hong Kong may have a significant impact on the Group's operating results and financial condition.

The Group's activities on its development properties are also subject to various laws and regulations of Hong Kong. Developing properties, refurbishment and other re-development projects require government permits. The government may introduce property cooling measures from time to time which may have a significant impact on the property market and may adversely affect the Group's property sales performance and financial condition.

Property investment and hospitality business

Financial performance may be materially and adversely affected in the event of a decline in rental or occupancy levels, or difficulties in securing lease renewals or obtaining new tenants. The Group cannot be assured that existing tenants will renew their leases upon expiration or that the Group will be able to find replacement tenants at rental rates equal to or above the current rental rates for tenancies.

CORPORATE SOCIAL RESPONSIBILITY

Employees

As at 31 December 2019, the Group had approximately 470 employees. The Group offers comprehensive remuneration and benefit packages to our employees, which are structured according to prevailing salary levels in the market, individual merit and performance. The Group has a mandatory provident fund scheme and an occupational retirement scheme to provide retirement benefits to all employees in Hong Kong.

Employees, including directors, are eligible for the Company's share option plan where the shares options are generally exercisable by phases within ten years.

Communities

The Group takes pride in being an outstanding member of the communities in which it operates. As such, the Group has introduced a number of initiatives under its Corporate Social Responsibility mission and shall continue to seek innovative and meaningful ways to engage its employees and associates in building stronger and more vibrant communities in which it operates.

The Group's 2019 activities covered the followings:

- Recycle Bag recycling programme
- Red Packet Collection for Re-use
- SPCA Visit
- Blood Donation Day
- Elderly Home Visit
- Heifer Race to Feed
- TWGHs Flag Day
- Orbis Mid-Autumn Charity Sales

Environment

This year the Group continued to sign up as a member of "Friends of the Earth". As an Earth Partner, we are committed to supporting and contributing to environment protection by going "Green" at the workplace.

Compliance with Laws and Regulations

The Group is committed to complying with all relevant rules and regulations issued by the Government of the Hong Kong Special Administrative Region in relation to construction of properties, sales of properties, property management and employees, etc. The Group also holds relevant required licences for the provision of hospitality services. Relevant employees are trained to any changes in the applicable laws, rules and regulations from time to time.

Relationship with Suppliers

The selection of major suppliers or contractors is conducted through tendering process in all the Group's segments. The Internal Audit Department of the Group regularly reviews the procurement and tendering procedures to ensure that the processes are conducted in an open and fair manner.

Relationship with Customers

For our residential development projects, the Group has comprehensive hand-over procedures to ensure delivery of quality products to our customers.

For our commercial and residential estate management and hospitality management, the Group obtains regular feedback from customers in order to enhance quality of services.

OTHERS

In respect of Code Provision C.1.4 of Corporate Governance Code under Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, discussion and analysis of the Group's performance during the year and corporate strategies are set out in "Chairman's Statement" on pages 10 and 11 and "Management Discussion and Analysis" on pages 12 to 19.

Each of Winshine, Seniharta, DNP and Kualiti Gold (collectively the “WT Associates”) is an associate (as defined in the Listing Rules) of WTHL.

WTHL is a substantial shareholder of the Company and also an associate of Messrs. Cheng Wai Chee, Christopher, Cheng Wai Sun, Edward and Cheng Man Piu, Francis under Chapter 14A of the Listing Rules as it is a 30%-controlled company held indirectly by the trustee of a trust of which these directors are beneficiaries. Therefore, the transactions with the relevant WT Associates contemplated under the 2009 Operating Agreements, 2009 Licence Agreements, 2019 Operating Agreements and 2019 Licence Agreements constitute continuing connected transactions for the Company under Chapter 14A of the Listing Rules.

The total fees of HK\$1.7 million received by the LP Group Companies under the 2009 Operating Agreements and the 2009 Licence Agreements for the year ended 31 December 2019 is within the annual cap of HK\$9.3 million for 2019 as set out in the Company’s announcement dated 8 January 2009.

The total fees of HK\$3.0 million received by the LP Group Companies under the 2019 Operating Agreements and 2019 Licence Agreements for the year ended 31 December 2019 is within the annual cap of HK\$4.6 million for 2019 as set out in the Company’s announcement dated 7 January 2019.

DIRECTORS' REPORT

- (iii) On 11 May 2017, Begin Land Limited (“Begin Land”), a subsidiary of the Company, accepted the offer made by Wing Tai Corporation Limited (“WTC”) in relation to the leasing of the premises located at Suites 1502-5, 15th Floor, AXA Tower, Landmark East, 100 How Ming Street, Kwun Tong, Kowloon, Hong Kong for a fixed term of three years commencing from 16 May 2017 and ending on 15 May 2020 (both days inclusive) (the “Offer”).

As WTC is a substantial shareholder of the Company and hence a connected person of the Company, the transactions contemplated under the Offer constituted continuing connected transactions for the Company under Chapter 14A of the Listing Rules.

The consideration received by Begin Land from WTC under the Offer for the year ended 31 December 2019 totaled HK\$5.4 million which is within the 2019 annual cap of HK\$6.1 million as set out in the Company’s announcement dated 11 May 2017.

2. Annual Review of Continuing Connected Transactions

The independent non-executive directors of the Company have reviewed and confirmed that the aforesaid continuing connected transactions for the year ended 31 December 2019 have been entered into:

- (a) in the ordinary and usual course of business of the Group;
- (b) on normal commercial terms or better; and
- (c) according to the agreements governing such transactions on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

The Company’s auditor was engaged to report on the Group’s continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) “Assurance Engagements Other Than Audits or Reviews of Historical Financial Information” and with reference to Practice Note 740 “Auditor’s Letter on Continuing Connected Transactions under the Hong Kong Listing Rules” issued by the Hong Kong Institute of Certified Public Accountants.

The auditor has reviewed these transactions, disclosed by the Group on pages 35 to 38 of this annual report, pursuant to Rule 14A.56 of the Listing Rules, and confirmed to the Board of Directors of the Company that nothing has come to their attention that causes them to believe: that they have not been approved by the Board of Directors of the Company; that they were not, in all material respects, in accordance with the pricing policies of the Group if the transactions involve the provision of goods or services by the Group; that they were not entered into, in all material respects, in accordance with the relevant agreements governing the transactions; and that they have exceeded the relevant annual caps.

MANAGEMENT CONTRACT

No contract for the management and administration of the whole or any substantial part of any business of the Company was entered into or existed during the year.

MAJOR CUSTOMERS AND SUPPLIERS

The percentage of sales attributable to the Group's five largest customers was less than 30% of the Group's total sales for the year.

The percentage of purchases attributable to the Group's five largest suppliers accounted for approximately 70.4% of the Group's total purchases and the percentage of purchases attributable to the Group's largest supplier was approximately 54.1% of the Group's total purchases for the year.

None of the Directors, their close associates or any shareholder of the Company (which to the knowledge of the Directors own more than 5% of the Company's issued share capital) had an interest in the share capital of any of the Group's five largest suppliers during the year.

DISCLOSURE PURSUANT TO RULE 13.20 OF THE LISTING RULES

As at 31 December 2019, the aggregate amount due to the Group and guarantee for loan facilities given by the Company on behalf of Southwater Investments Limited and its subsidiary (the "Southwater Group") exceeded 8% under the assets ratio as defined under Rule 14.07(1) of the Listing Rules.

Details of the amounts to the Southwater Group as at 31 December 2019 were as follows:

Name of Entity	Group's % of attributable equity interest therein	Amount of guarantee for loan facilities given by the Company (Note 1) HK\$'M	Amount and loans due to the Group (Note 2) HK\$'M	Total HK\$'M
Southwater Group	50%	3,450	2,006	5,456

Notes:

1. All the loan facilities are secured by (among others) guarantees given by the Company and CSI Properties Limited ("CSI") on a several and proportional basis. All loan facilities carry interest at normal commercial rate agreed after negotiations on an arm's length basis with the lending bank concerned. The final maturity date of the loan facilities is the earlier of (a) 21 November 2023 or (b) 6 months after the issuance of the occupation permit in respect of the development situated at the land parcel known as Inland Lot No. 9065 and located at Gage Street/Graham Street, Central, Hong Kong.
2. The amount due from the Southwater Group is (i) unsecured, (ii) carrying interest at rates agreed by the Group and CSI from time to time and (iii) without fixed repayment dates.

DIRECTORS' REPORT

Hong Kong, 27 March 2020

CORPORATE GOVERNANCE REPORT

The Company is committed to achieving and maintaining high standards of corporate governance and has established policies and procedures for compliance with regulatory requirements, including the requirements under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”).

CORPORATE GOVERNANCE PRACTICES

The Company has applied the principles and complied with all the applicable code provisions of the Corporate Governance Code contained in Appendix 14 to the Listing Rules (the “CG Code”) during the financial year ended 31 December 2019.

CODES FOR DEALING IN THE COMPANY’S SECURITIES

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) set out in Appendix 10 to the Listing Rules as its code of conduct for securities transactions by directors of the Company.

The Company has made specific enquiry of all directors regarding any non-compliance with the Model Code during the year ended 31 December 2019, and received confirmations from all directors that they had fully complied therewith throughout the year.

The Company has also adopted a code for dealing in the Company’s securities by relevant employees, who are likely to be in possession of unpublished price-sensitive information in relation to the securities of the Company, on no less exacting terms than the Model Code.

BOARD OF DIRECTORS

As at the date of this report, the Board comprises five executive directors (namely Cheng Wai Chee, Christopher, Cheng Wai Sun, Edward, Cheng Man Piu, Francis, Chow Wai Wai, John and Ng Kar Wai, Kenneth), four non-executive directors (namely Kwok Ping Luen, Raymond (Kwok Ho Lai, Edward as his alternate), Hong Pak Cheung, William, Ng Tak Wai, Frederick and Chen Chou Mei Mei, Vivien) and five independent non-executive directors (namely Simon Murray, Yeung Kit Shing, Jackson, Haider Hatam Tyebjee Barma, Cheng Hoi Chuen, Vincent and Lam Kin Fung, Jeffrey). Biographies of all directors are set out on pages 20 to 23 of this annual report.

Cheng Wai Chee, Christopher, Cheng Wai Sun, Edward and Cheng Man Piu, Francis are brothers. Chow Wai Wai, John is a cousin of Chen Chou Mei Mei, Vivien. Kwok Ping Luen, Raymond is the father of Kwok Ho Lai, Edward. Save as disclosed above, there are no financial, business, family or other material/relevant relationships among members of the Board.

The Company has arranged Directors’ and Officers’ liability Insurance for the directors and officers of the Company.

Chairman and Chief Executive

Cheng Wai Chee, Christopher is the Chairman and Cheng Wai Sun, Edward is the Deputy Chairman and Chief Executive. While the Chairman of the Board is responsible for providing leadership for the Board, ensuring that all directors are properly briefed on issues arising at Board meetings and receive complete, reliable and timely information, the Chief Executive is responsible for the day-to-day management of the business of the Company and its subsidiaries (the “Group”).

CORPORATE GOVERNANCE REPORT

Retirement by Rotation and Specific Term of Office

The non-executive directors (including independent non-executive directors) were appointed for a fixed term of three years and all directors of the Company are subject to retirement by rotation at the annual general meetings of the Company in accordance with the Bye-laws of the Company and/or code provision A.4.2 of the CG Code.

Independent Non-Executive Directors

The Company has received annual confirmations from all independent non-executive directors that, save as disclosed in this annual report, they did not have any business or financial interest with the Group and were independent as at 31 December 2019 in accordance with Rule 3.13 of the Listing Rules. The Company considers that all the existing independent non-executive directors of the Company are independent.

Functions and Responsibilities of the Board

The Board is accountable to the shareholders for leading the Group in a responsible and effective manner. Directors of the Company are collectively and individually responsible to the shareholders for the manner in which the affairs of the Group are managed and for promoting the success of the Group by directing and supervising its affairs.

The functions and responsibilities reserved to the Board and the functions and responsibilities delegated to management are as follows:

- (i) the Board shall approve the yearly budgets of the Group;
- (ii) the Board shall monitor the operating and financial performance of the Group;

The following directors have been the members of the Nomination Committee since its establishment:

Cheng Hoi Chuen, Vincent (*Committee Chairman*)
Cheng Wai Chee, Christopher
Cheng Wai Sun, Edward
Yeung Kit Shing, Jackson
Haider Hatam Tyebjee Barma

The Nomination Committee met once in 2019. The attendance record of each member for the Nomination Committee meeting is set out in the table under the section headed "Attendance at Meetings" of this report.

The works performed by the Nomination Committee during 2019 include the following:

- (a) review of the structure, size and composition of the Board;
- (b) review of the independence of the independent non-executive directors;
- (c) making recommendations on the re-election of directors at the 2019 annual general meeting;
- (d) review of the measurable objectives set for implementing the Board Diversity Policy and approval of the disclosure of the review in the Corporate Governance Report; and
- (e) review of and making recommendation on the revised Board Nomination Policy.

Board Nomination Policy

A summary of the Board Nomination Policy adopted on 29 August 2013 and amended on 27 March 2019 by the Board is shown below.

(A) Appointment of Directors

1. Selection Criteria

When considering matters related to nomination, the members of the Nomination Committee should pay due regard to the following matters:

- a) the skills, knowledge and experience required to discharge competently the Board's duties having regard to the Company's performance, financial position and strategic direction;
- b) the skills, knowledge and experience represented on the Board and whether these skills, knowledge and experience are sufficient to meet the needs of the Company;
- c) succession planning issues or strategies for the ongoing effective performance of the Board as a whole;
- d) diversity of the Board; and
- e) compliance with the Company's bye-laws, applicable laws, rules and regulations from time to time.

CORPORATE GOVERNANCE REPORT

2. *Nomination Procedures*

In identifying and recommending candidate(s) for the Board's consideration:

- a) the Nomination Committee is to identify the areas of skills, experience, profession and personal attributes that the Board expects and requires from a new Board member who will assist the Board in carrying out its duties to achieve the corporate objectives;
- b) the Nomination Committee is to identify potential candidates, possibly with the assistance from external agencies and/or advisors;
- c) the Company Secretary is to provide the Nomination Committee with (i) the biographical details of each of the candidates; (ii) details of each of the candidates' relationship with the Company and/or directors of the Company (if any); (iii) skills and experience of each of the candidates; (iv) other directorships held by each of the candidates; (v) other positions held by each of the candidates which involve significant time commitment; and (vi) any other particulars required by law for any candidate for appointment to the Board;
- d) the Nomination Committee is to evaluate the character, skills, knowledge, experience and other relevant information of a candidate and to ascertain by means of interviews or other ways as to whether he/she is fit and proper for becoming a member of the Board with reference to the criteria set out in the Listing Rules;
- e) in case the candidate is proposed to be appointed as an independent non-executive director of the Company (the "INED Candidate"), the Nomination Committee is (i) to assess the independence of the INED Candidate with reference to the criteria set out in Rule 3.13 of the Listing Rules, and (ii) to consider whether the INED Candidate will be able to devote sufficient time to the Board in the event that the INED Candidate will be holding seventh (or more) listed company directorship;
- f) the Nomination Committee is to nominate one or more qualified candidates to the Board for consideration;
- g) the Board is to agree on a preferred candidate;
- h) the Chairman of the Board is to approach the preferred candidate to canvass interest, availability and terms of appointment; and

(B) Re-appointment of Directors

At each annual general meeting of the Company, certain directors of the Company will be subject to retirement (by rotation or otherwise) and certain director(s) of the Company will be subject to re-election in accordance with the requirements of the Company's bye-laws and CG Code. The retiring directors may offer themselves for re-election.

The Nomination Committee shall consider the suitability of each of the directors offering them for re-election and subject to re-election as aforesaid (the "Re-electing Directors") for re-election in the light of the Board Nomination Policy and the Board Diversity Policy of the Company and make its recommendations therefor to the Board for consideration provided that, for each of the Re-electing Director who is an independent non-executive director, the Nomination Committee shall also, assess his/her independence before making such recommendation(s).

The Board shall consider the suitability of each Re-electing Director for re-election in the light of the Nomination Committee's recommendation, the Board Nomination Policy and the Board Diversity Policy and make its recommendations therefor to the shareholders for consideration and approval.

Board Diversity Policy

A summary of the Board Diversity Policy adopted by the Board on 29 August 2013 is shown below.

The Company recognizes that a diverse Board will enhance the performance of the Company and that an increasing diversity at the Board level is inductive to the attainment of the Company's strategic objectives and the Company's sustainable development. Hence the purpose of the Board Diversity Policy aims to achieve diversity on the Board (including but not limited to the aspects of genders, age, cultural and educational backgrounds, ethnicities, professional experience, skills, knowledge and length of service).

Measurable Objectives

The Nomination Committee agreed the measurable objectives shown below for implementing the Board Diversity Policy.

Gender

Striving for gender diversity and gender neutrality with the objective of increasing female representation on the Board, subject to availability and identification of candidates with appropriate skills and experience.

Age

Striving for age diversity and age neutrality with the objective of increasing representation of the younger age group on the Board, subject to availability and identification of candidates with appropriate skills and experience.

Independence

- (i) Maintaining a balanced composition of executive, non-executive and independent non-executive directors ("INED").
- (ii) Complying with the relevant requirements of the Listing Rules.

CORPORATE GOVERNANCE REPORT

Professional Qualifications

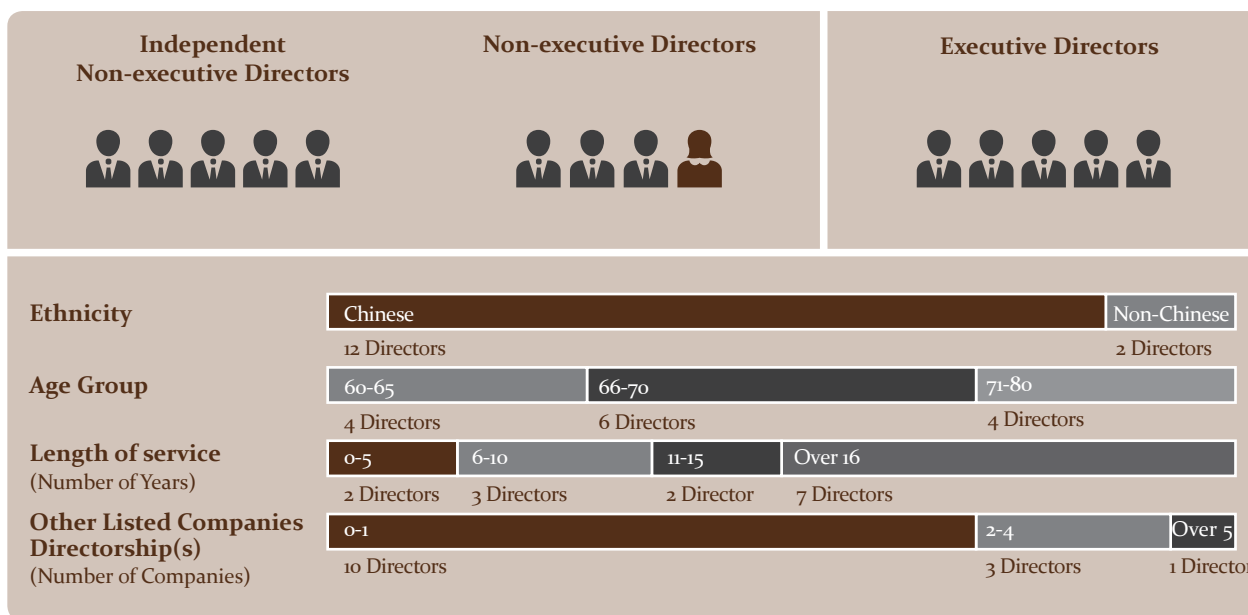

- (i) Maintaining the Board with Directors with balanced professional qualifications.
- (ii) Complying with the Listing Rules requirements that at least one INED must have professional qualifications or accounting or related financial management expertise as provided under Rule 3.19(1) of the Listing Rules.

Area of Experience

Maintaining the Board with Directors with balanced experiences from various industries in order to widen the views of the Board and assist in setting up and developing the strategies of the Group.

The Nomination Committee has reviewed and will review the measurable objectives concerning independence, professional qualifications and area of experience of Directors on an annual basis in order to assess the composition of the Board.

It is considered that the Board is sufficiently diversified. As at the date of this report, the diversity of the Board is summarized as follows:

For more details, please refer to the Directors and Senior Management Profile on pages 20 to 23 of this annual report.

AUDIT COMMITTEE

CORPORATE GOVERNANCE REPORT

RISK MANAGEMENT AND INTERNAL CONTROLS

Responsibility of the Board

The Board acknowledges that it is responsible for the Group's risk management and internal control systems and reviewing their effectiveness. The Audit Committee is tasked to assist the Board in doing so. These systems are designed to manage, rather than eliminate, the risk of failure to achieve business objectives, and can only provide reasonable but not absolute assurance against material misstatements or losses.

The Group's risk management and internal control systems are in place and were functioning effectively and adequately during the year under review.

Risk Management

The Group adopts an integrated bottom-up and top-down risk review process to enable:-

- (1) comprehensive identification and prioritisation of all material risks throughout the Group in the light of the Group's strategic objectives;
- (2) escalation of the material risks to the right managerial levels;
- (3) effective risk dialogues among the management teams; and
- (4) proper oversight of risk mitigation efforts.

Management's regular meetings are held to identify major and significant risks relating to operations, finance and compliance. Management carries out risk monitoring assessment regularly for the major and significant risks and develops effective control activities to mitigate the risks. The Group's risk management system is closely linked to its internal control system. Key controls associated with the key risks of the Group are identified and tested in order to assess their effectiveness.

Internal Controls

The Group's internal audit department is responsible for providing independent assurance that the Group's risk management and internal control processes are operating effectively. The head of the internal audit department reports to the Audit Committee on a regular basis. The Audit Committee reviews and approves the annual internal audit plan which is practically linked to the Group's significant areas of operations. The audit plan is prepared under a risk based approach and covers the Group's significant areas of operations. The audit plan is reviewed on an annual basis.

The scope of the works of the Group's internal audit department covers all material controls including financial, operational and compliance controls as well as risk management policies and procedures. Major operational, financial, compliance and risk management controls of the Group are continuously reviewed aiming to cover all major business units and operations of the Group on a rotational basis. Internal audit findings and recommendations are presented at the Audit Committee meetings. The implementation of the agreed recommendations is to be followed up on a regular basis.

Policies and procedures have been established to safeguard the Group's assets against any possible unauthorized use or disposition and to ensure the proper maintenance of accounting records for the provision of reliable financial information for internal use and for publication in compliance with all applicable laws, rules and regulations.

The Company regulates the handling and dissemination of inside information according to the Inside Information Policy adopted by the Board on 22 March 2013. This policy provides that inside information is to be kept confidential until the disclosure thereof is made and that the dissemination of such information shall be made efficiently and consistently.

A Whistleblowing Policy was formulated on 28 March 2012 to encourage employees to raise concerns in confidence about misconducts, malpractice or impropriety relating to the Group. The purpose of formulating this policy is to increase the awareness of maintaining internal corporate justice and regard this as a kind of internal control mechanism. In accordance with this policy, employees are provided with reporting channels and guidance on whistleblowing. During the year, there were no reports received from employees under this policy.

Assessment and review by the Board

The Board assesses the effectiveness of the risk management and internal control systems regularly with the assistance of the Audit Committee and in the light of the reviews performed by the senior management as well as both of the internal and external auditors. The risk management and internal control systems are designed to identify, evaluate and manage significant risks faced by the Group on an on-going basis.

For the financial year ended 31 December 2019, the Board with the assistance of the Audit Committee conducted a review of the effectiveness of the Group's risk management and internal control systems in the light of the reports of the Group's internal audit department and the confirmation from the management on the effectiveness of these systems of the Group. The Board considers that these systems are operating effectively and adequately in all material aspects.

AUDITORS' REMUNERATION

The remuneration in respect of audit and non-audit services provided by auditors of the Group for the financial year ended 31 December 2019 are HK\$4,744,000 (2018: HK\$4,641,000) and HK\$1,360,000 (2018: HK\$892,000) respectively.

The remuneration in respect of significant non-audit services in 2019 includes the following:

DIVIDEND POLICY

On 10 December 2018, the Board adopted a dividend policy to make sustainable returns to shareholders of the Company by, among others, dividend payments (whether in cash with or without an option to receive scrip or vice versa).

Before determining any payment of dividend or, as the case may be, making recommendation of any dividend payment for the approval of the shareholders of the Company, the Board will review the financial performance, business environment, investment needs, liquidity position and forecast cash flow positions of the Group as well as the dividend yields of listed shares of the Company's peer group. It is the Company's policy to link dividend payments with the above factors. Dividend pay-out ratio will therefore vary from year to year.

The Company will normally pay an interim dividend and a year-end dividend in each financial year. The Board determines the interim dividend and recommends the year-end dividend for the approval of the shareholders of the Company.

The Board shall review this policy as the circumstances so warrant.

COMPANY SECRETARY

Chung Siu Wah, Henry, the Company Secretary is responsible for facilitating the Board process, as well as communications among Board members, communications with shareholders and management. During the year, Chung Siu Wah, Henry undertook more than 15 hours of professional training to update his skills and knowledge.

FINANCIAL REPORTING

The directors of the Company acknowledged that they are responsible for the preparation of the financial statements which give a true and fair view and are prepared in accordance with appropriate accounting policies selected and applied consistently. The statement of the auditor of the Group relating to their reporting responsibilities on the financial statements of the Group and the Company is set out in the Independent Auditor's Report on pages 58 to 61 of this annual report.

CONSTITUTIONAL DOCUMENTS

There was no change to the Company's Memorandum of Association and Bye-laws during the financial year 2019. A copy of the latest consolidated version of the Memorandum of Association and Bye-laws is posted on the websites of the Company under the Corporate Governance Section and the Stock Exchange.

CORPORATE COMMUNICATION

On 28 March 2012, the Board adopted a shareholders' Communication Policy reflecting mostly the current practices of the Company for communications with its shareholders. Such policy aims at providing the shareholders and potential investors with ready and timely access to balanced and understandable information of the Company. This policy will be reviewed regularly to ensure its effectiveness and compliance with the prevailing regulatory and other requirements.

The annual general meeting provides a forum for the shareholders to exchange views with the Board. The Chairman of the Board, Chairman of Audit Committee, Chairman of the Remuneration Committee and Chairman of the Nomination Committee will be available to answer the shareholders' questions at the meeting.

CORPORATE GOVERNANCE REPORT

An explanation of the detailed procedures of conducting a poll will be provided to the shareholders at the commencement of the annual general meeting, to ensure that the shareholders attending such meeting are familiar with such procedures.

All the publications of the Company, including annual reports, interim reports, circulars, notices of general meetings, results of the poll of general meetings are available on the Stock Exchange's website at www.hkexnews.hk.

The Company's website at www.wingtaiproperties.com offers timely access to investors regarding the Company's financial, corporate and other information.

SHAREHOLDERS' RIGHTS

Procedures for Shareholders to Convene a Special General Meeting ("SGM")

Pursuant to the Company's bye-laws and the Companies Act 1981 of Bermuda (the "Companies Act"), registered shareholders holding not less than one-tenth (10%) of the paid-up capital of the Company carrying the right of voting at general meetings of the Company (the "SGM Requisitionists") may deposit a written request to convene a SGM at the registered office of the Company (the "Registered Office"), which is presently situated at Victoria Place, 5th Floor, 31 Victoria Street, Hamilton HM10, Bermuda. The SGM Requisitionists must state in their request(s) the objects of the SGM and such request(s) must be signed by all the SGM Requisitionists and may consist of several documents in like form, each signed by one or more of the SGM Requisitionists.

The Share Registrars will verify the SGM Requisitionists' particulars stated in the SGM Requisitionists' request. Promptly after the receipt of confirmation from the Share Registrars that the SGM Requisitionists' request is in order, the Company Secretary will arrange with the Board to convene a SGM by serving sufficient notice to all the registered shareholders in accordance with all the relevant statutory and regulatory requirements. On the contrary, if the SGM Requisitionists' request is verified not in order, the SGM Requisitionists will be advised of the outcome and a SGM will not be convened as requested.

The SGM Requisitionists, or any of them holding more than one-half of the total voting rights held by all of them, may themselves convene a SGM if the Board does not proceed duly to convene a SGM within twenty-one (21) days of the deposit of the SGM Requisitionists' request, provided that any SGM so convened is held within three (3) months from the date of the original SGM Requisitionists' request. A SGM so convened by the SGM Requisitionists shall be convened in the same manner, as nearly as possible, as that in which meetings are to be convened by the Board.

Procedures for Shareholders to Put Forward Proposals at a General Meeting

Pursuant to the Companies Act, either any number of the registered shareholders holding not less than one-twentieth (5%) of the paid-up capital of the Company carrying the right of voting at general meetings of the Company (the "Requisitionists"), or not less than 100 of such registered shareholders, may request the Company in writing to (a) give to the shareholders entitled to receive notice of the next general meeting notice of any resolution which may properly be moved and is intended to be moved at that meeting; and (b) circulate to the shareholders entitled to receive notice of the next general meeting any statement of not more than 1,000 words with respect to the matter referred to in any proposed resolution or the business to be dealt with at that meeting.

The requisition signed by all the Requisitionists may consist of several documents in like form, each signed by one or more of the Requisitionists; and such requisition must be deposited at the Registered Office with a sum reasonably sufficient to meet the Company's relevant expenses, not less than six weeks before the meeting in case of a requisition requiring notice of a resolution or not less than one week before the meeting in the case of any other requisition. Provided that if an AGM is called for a date six weeks or less after the requisition has been deposited, the requisition though not deposited within the time required shall be deemed to have been properly deposited for the purposes thereof.

Procedures for Shareholders to Propose a Person for Election as a Director

The procedures for proposing a person for election as a director are at the Company's website at www.wingtaiproperties.com under the Corporate Governance Section.

Procedures for Directing Shareholders' Enquiries to the Board

Shareholders may at any time send their enquiries and concerns to the Board in writing through the Company Secretary, whose contact details are as follows:

27th Floor, AIA Kowloon Tower,
Landmark East, 100 How Ming Street,
Kwun Tong, Kowloon, Hong Kong
Fax: (852) 2351 8404

Shareholders may also make enquiries with the Board at the general meetings of the Company.

TO THE SHAREHOLDERS OF WING TAI PROPERTIES LIMITED*(incorporated in Bermuda with limited liability)***OPINION****What we have audited**

The consolidated financial statements of Wing Tai Properties Limited (the "Company") and its subsidiaries (the "Group") set out on pages 62 to 145, which comprise the consolidated balance sheet as at 31 December 2019, the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2019, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matter identified in our audit is related to valuation of investment properties.

Key Audit Matter

Valuation of investment properties

Refer to notes 5(a) and 16 to the consolidated financial statements

The Group's investment property portfolio is mainly comprised of commercial, industrial and serviced apartments and others in Hong Kong, the People's Republic of China and the United Kingdom. As at 31 December 2019, the Group's investment properties were stated at fair value of HK\$20,427.3M, with a revaluation loss of HK\$126.4M recorded in the consolidated income statement. Independent external valuers have been engaged to perform valuation of the investment properties. The valuation of these investment properties requires significant judgement and estimates by management and the valuers. It is inherently subjective due to, among other factors, the individual nature of each property, its location and the expected future rentals for that particular property.

The fair values were mainly derived using the income capitalisation method. In determining a property's valuation, valuers took into account property-specific information such as current tenancy agreements and rental income. They applied assumptions for capitalisation rates and estimated market rent which were influenced by prevailing market yields and comparable market transactions, to arrive at the final valuation. The existence of significant estimation uncertainty, coupled with the fact that only a small percentage difference in individual property valuations, when aggregated, could result in a material misstatement, warrants specific audit focus in this area.

How our audit addressed the Key Audit Matter

Our procedures in relation to management's valuation of investment properties include:

- Evaluating the independent professional valuer's competence, capabilities and objectivity;
- Discussing the valuations and the key assumptions with the valuers;
- Assessing the methodologies used and the appropriateness of the key assumptions, including:
 - (a) capitalisation rates, by comparing to an estimated range of expected yields, determined via reference to published market rental yield; and
 - (b) estimated market rent by comparing to the recent leasing transactions of comparable properties.

Where assumptions were outside the expected range or otherwise unusual, and/or valuations showed unexpected movements, we undertook further investigations and, when necessary, requested for further evidences to support the assumptions used; and

- Checking, on a sample basis, over the property information, such as rental income schedule covering the rental information and lease period, used by the valuers in the valuation, to the underlying lease agreements in order to satisfy ourselves of the accuracy and reasonableness of the property information used by the valuers.

We found the assumptions made by management in relation to the valuation of investment properties were supported by available evidence.

INDEPENDENT AUDITOR'S REPORT

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with Section 90 of the Companies Act 1981 of Bermuda and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Cheng Kam Fung.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

1. GENERAL INFORMATION

Wing Tai Properties Limited (the “Company”) is a limited liability company incorporated in Bermuda and its shares are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The address of its registered office is Victoria Place, 5th Floor, 31 Victoria Street, Hamilton HM 10, Bermuda.

The Company is an investment holding company. Its principal subsidiaries are engaged in property development, property investment and management and hospitality investment and management. The Company and its subsidiaries are hereinafter collectively referred to as the Group.

The Group’s joint ventures and associates are principally engaged in property investment, property development and hospitality investment.

These consolidated financial statements are presented in millions of Hong Kong dollars (HK\$’M), unless otherwise stated. These consolidated financial statements have been approved for issue by the Board of Directors on 27 March 2020.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. The policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

The consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRS”) and requirements of the Hong Kong Companies Ordinance (Cap. 622). They have been prepared under the historical cost convention, as modified by the revaluation of investment properties, financial investments at fair value through profit or loss, financial liabilities at fair value through profit or loss and derivative financial instruments, which are carried at fair value.

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in Note 5.

(i) *New standards, revised standards, amendments and improvements to standards and interpretations effective for the current accounting period beginning on 1 January 2019 and relevant to the Group*

Amendments to HKAS 19	Plan amendment, curtailment or settlement
Amendments to HKAS 28	Long-term interests in associates and joint ventures
Amendments to HKFRS 9	Prepayment features with negative compensation
Annual improvements	Annual improvements 2015–2017 cycle
HKFRS 16	Leases
HK(IFRIC) – Interpretation 23	Uncertainty over income tax treatments

The adoption of the above new or revised standards, amendments and improvements to standards and interpretations of HKFRS did not have any significant impact to the consolidated financial statements in the current and prior years. The impact from adoption of HKFRS 16 is disclosed in note 3 below.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(a) Basis of preparation (Continued)

(ii) *New standards, revised standards, amendments and improvements to standards relevant to the Group that are not yet effective in 2019 and have not been early adopted by the Group*

The Group has not early adopted the following new standards, revised standards, amendments and improvements to standards that have been issued but are not yet effective for the year ended 31 December 2019:

		Effective for annual periods beginning on or after
Amendments to HKAS 1 and HKAS 8	Definition of material	1 January 2020
Amendments to HKFRS 3	Definition of a business	1 January 2020
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	Interest rate benchmark reform	1 January 2020
Conceptual framework for financial reporting 2018	Revised conceptual framework for financial reporting	1 January 2020
HKFRS 17	Insurance contracts	1 January 2021
Amendments to HKFRS 10 and HKAS 28	Sale or contribution of assets between an investor and its associate or joint venture	To be determined

The Group is in the process of making an assessment of the impact of these new standards, revised standards, amendments and improvements to standards and is not yet in a position to state whether they would have a significant impact on the Group's results and financial position.

(b) Principles of consolidation and equity accounting

(i) *Subsidiaries*

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group (refer to Note 2(c)).

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated balance sheet respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Principles of consolidation and equity accounting (Continued)

(ii) *Associates*

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iv) below), after initially being recognised at cost.

(iii) *Joint arrangements*

Under HKFRS 11 Joint Arrangements investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Group has assessed the nature of its joint arrangements and determined them to be joint ventures. Interests in joint ventures are accounted for using the equity method (see (iv) below), after initially being recognised at cost in the consolidated balance sheet.

(iv) *Equity method*

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity-accounted investments is tested for impairment in accordance with the policy described in Note 2(k).

(v) *Changes in ownership interests*

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of the Group.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred, liabilities incurred to the former owners of the acquired business, equity interests issued by the Group, fair value of any asset or liability resulting from a contingent consideration arrangement, and fair value of any pre-existing equity interest in the subsidiary.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the consideration transferred, amount of any non-controlling interest in the acquired entity, and acquisition-date fair value of any previous equity interest in the acquired entity over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised directly in profit or loss as a bargain purchase. Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions. Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in profit or loss.

(d) Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

(e) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Executive Directors who are responsible for allocating resources and assessing performance of the operating segments. The identification of operating segments is set out in Note 7.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Foreign currency translation

(i) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Hong Kong dollar (HK\$), which is the Company's functional and the Company's and the Group's presentation currency.

(ii) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

Foreign exchange gains and losses that relate to borrowings are presented in the consolidated income statement, within finance costs. All other foreign exchange gains and losses are presented in the consolidated income statement on a net basis within other income or other expenses.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equities classified as fair value through other comprehensive income are recognised in other comprehensive income.

(iii) *Group companies*

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- income and expenses for each income statement and statement of comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Foreign currency translation (Continued)

(iv) *Disposal of foreign operation and partial disposal*

On the disposal of a foreign operation (that is, a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, a disposal involving loss of joint control over a joint venture that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the currency translation differences accumulated in equity in respect of that operation attributable to the shareholders of the Company are reclassified to profit or loss.

In the case of a partial disposal that does not result in the Group losing control over a subsidiary that includes a foreign operation, the proportionate share of accumulated currency translations differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (that is, reductions in the Group's ownership interest in associates or joint ventures that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange difference is reclassified to profit or loss.

(g) Other properties, plant and equipment

Land and buildings comprise offices occupied by the Group. Leasehold land classified as finance lease and all other properties, plant and equipment are stated at historical cost less depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance costs are charged to the consolidated income statement during the reporting period in which they are incurred.

Increases in the carrying amounts arising on revaluation of land and buildings are recognised, net of tax, in other comprehensive income and accumulated in reserves in shareholders' equity. To the extent that the increase reverses a decrease previously recognised in profit or loss, the increase is first recognised in profit or loss. Decreases that reverse previous increases of the same asset are first recognised in other comprehensive income to the extent of the remaining surplus attributable to the asset; all other decreases are charged to profit or loss. Each year, the difference between depreciation based on the revalued carrying amount of the asset charged to profit or loss and depreciation based on the asset's original cost, net of tax, is reclassified from the property, plant and equipment revaluation surplus to retained earnings.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(g) Other properties, plant and equipment (Continued)

Freehold land with unlimited useful life is not depreciated. Leasehold land classified as finance lease commences amortisation from the time when the land interest becomes available for its intended use. Amortisation on leasehold land classified as finance lease and depreciation of other properties, plant and equipment, other than construction in progress is calculated using the straight-line method to allocate the cost to their residual values over their estimated useful lives at the following annual rates calculated from the acquisition cost:

Leasehold land classified as finance lease	Shorter of remaining lease term or useful life
Buildings	2% – 4%
Furniture, fixtures and equipment	10% – 33 1/3%
Vehicles	20% – 33 1/3%
Plant and machinery	5% – 10%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains or losses arising on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the consolidated income statement. When revalued assets are sold, it is group policy to transfer any amounts included in other reserves in respect of assets to retained earnings.

(h) Investment properties

Investment properties, principally comprising leasehold land and office buildings, are held for long-term rental yields and are not occupied by the Group. It also includes properties that are being constructed or developed for future use as investment properties. Land held under operating leases are accounted for as investment properties when the rest of the definition of an investment property is met. In such cases, the operating leases concerned are accounted for as if they were finance leases. Investment property is initially measured at cost, including related transaction costs. After initial recognition at cost, investment properties are carried at fair value, representing open market value determined at each reporting date by external valuers.

Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If the information is not available, the Group uses alternative valuation methods such as recent prices on less active markets, income capitalisation valuation techniques or discounted cash flow projections. Changes in fair values are recorded in the consolidated income statement as part of a valuation gain or loss.

Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed in the consolidated income statement during the reporting period in which they are incurred.

If any investment property becomes owner-occupied, it is reclassified as other property, plant and equipment, and its fair value at the date of reclassification becomes its cost for accounting purpose. Property that is being constructed or developed for future use as investment property is classified as investment property and is carried at fair value. Where fair value is not reliably determinable, such investment property under construction is measured at cost until its fair value becomes reliably determinable.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Properties for sale

Properties for sale comprising properties for/under development and completed properties held for sale are stated at the lower of cost and net realisable value. Development cost of properties comprises cost of land use rights, construction costs and borrowing costs incurred during the construction period. Upon completion, the properties under development are transferred to completed properties held for sale.

Net realisable value takes into account the price ultimately expected to be realised, less applicable variable selling expenses and the anticipated costs to completion.

Properties for sale are classified as current assets unless the construction period of the relevant property development project is expected to be completed beyond normal operating cycle.

(j) Assets classified as held for sale

Assets classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are stated at the lower of carrying amount and fair value less costs to sell if their carrying amount is to be recovered principally through a sale transaction rather than through continuing use. Investment properties classified as assets held for sale are stated at fair value at the end of the reporting period.

(k) Impairment of investments in subsidiaries, joint ventures, associates and non-financial assets

Investments in subsidiaries, joint ventures, associates and other non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable; in addition, other non-financial assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

Impairment testing of the investments in subsidiaries, joint ventures or associates is required upon receiving dividends from these investments if the dividend exceeds the total comprehensive income of the subsidiary, joint venture or associate in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(I) Financial investments, mortgage loan receivables and other financial assets

Classification

The Group classifies its financial investments, mortgage loan receivables and other financial assets either those to be measured subsequently at fair value (either through other comprehensive income (“OCI”), or through profit or loss), or those to be measured at amortised cost. The classification depends on the entity’s business model for managing the financial investments, mortgage loan receivables and other financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (“FVOCI”).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Recognition and derecognition

Regular way purchases and sales of financial investments, mortgage loan receivables and other financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial investments, mortgage loan receivables and other financial assets are derecognised when the rights to receive cash flows from the financial investments, mortgage loan receivables and other financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

Measurement

At initial recognition, the Group measures a financial investment, mortgage loan receivables and other financial asset at its fair value plus, in the case of financial investments, mortgage loan receivables and other financial assets not at fair value through profit or loss (“FVPL”), transaction costs that are directly attributable to the acquisition of the financial investments, mortgage loan receivables and other financial assets. Transaction costs of financial investments, mortgage loan receivables and other financial assets carried at FVPL are expensed in profit or loss.

(i) Debt instruments

Subsequent measurement of debt instruments depends on the Group’s business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial investments, mortgage loan receivables and other financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses), together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the consolidated income statement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(l) Financial investments, mortgage loan receivables and other financial assets (Continued)

Measurement (Continued)

(i) Debt instruments (Continued)

- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial investments, mortgage loan receivables and other financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit or loss. When the financial investment and other financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial investments, mortgage loan receivables and other financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in the consolidated income statement.
- FVPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss in the period in which it arises.

(ii) Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as revenue when the Group's right to receive payments is established.

Changes in the fair value of financial investments, mortgage loan receivables and other financial assets at FVPL are recognised in other gains/(losses) in the consolidated income statement as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Impairment

The Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet when the Group currently has a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The Group has also entered into arrangements that do not meet the criteria for offsetting but still allow for the related amounts to be set off in certain circumstances, such as bankruptcy or the termination of a contract.

(n) Financial guarantee contracts

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of:

- the amount determined in accordance with the expected credit loss model under HKFRS 9 Financial Instruments and
- the amount initially recognised less, where appropriate, the cumulative amount of income recognised in accordance with the principles of HKFRS 15 Revenue from Contracts with Customers.

The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

(o) Derivatives and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as either:

- (i) hedges of a particular risk associated with a recognised asset or liability or a highly probable forecast transactions (cash flow hedge); or
- (ii) hedges of a net investment in a foreign operation (net investment hedge).

At the inception of the hedging, the Group documents the economic, relationship between hedging instruments and hedged items, including whether changes in the cash flows of the hedging instruments are expected to offset changes in the cash flows of hedges items. The Group documents its risk management objective and strategy for undertaking its hedge transactions.

The fair values of derivative financial instruments designated in hedge relationships are disclosed in Note 25. Movements in the hedging reserve in shareholders' equity are shown in the consolidated statement of comprehensive income. The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months, and as a current asset or liability when the remaining maturity of the hedged item is less than 12 months. Trading derivatives are classified as a current asset or liability.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(o) Derivatives and hedging activities (Continued)

(i) *Cash flow hedge that quantify for hedge accounting*

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated in hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in the income statement.

When option contracts are used to hedge forecast transactions, the Group designates only the intrinsic value of the options as the hedging instrument.

Gains or losses relating to the effective portion of the change in intrinsic value of the options are recognised in the cash flow hedge reserve within equity. The changes in the time value of the options that relate to the hedged item ('aligned time value') are recognised within OCI in the costs of hedging reserve within equity.

When forward contracts are used to hedge forecast transactions, the Group generally designates only the change in fair value of the forward contract related to the spot component as the hedging instrument. Gains or losses relating to the effective portion of the change in the spot component of the forward contracts are recognised in the cash flow hedge reserve within equity. The change in the forward element of the contract that relates to the hedged item ('aligned forward element') is recognised within OCI in the costs of hedging reserve within equity. In some cases, the entity may designate the full change in fair value of the forward contract (including forward points) as the hedging instrument. In such cases, the gains or losses relating to the effective portion of the change in fair value of the entire forward contract are recognised in the cash flow hedge reserve within equity.

Amounts accumulated in equity are reclassified in the periods when the hedged item affects profit or loss, as follows:

- Where the hedged item subsequently results in the recognition of a non-financial asset (such as inventory), both the deferred hedging gains and losses and the deferred time value of the option contracts or deferred forward points, if any, are included within the initial cost of the asset. The deferred amounts are ultimately recognised in profit or loss as the hedged item affects profit or loss (for example through cost of sales).
- The gain or loss relating to the effective portion of the interest rate swaps hedging variable rate borrowings is recognised in profit or loss within finance cost at the same time as the interest expense on the hedged borrowings.

When a hedging instrument expires, or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative deferred gain or loss and deferred costs of hedging in equity at that time remains in equity until the forecast transaction occurs, resulting in the recognition of a non-financial asset such as inventory. When the forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred costs of hedging that were reported in equity are immediately reclassified to profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(o) Derivatives and hedging activities (Continued)

(ii) *Net investment hedge*

Any gain or loss on the hedging instrument relating to the effective portion of the hedge is recognised in other comprehensive income and accumulated in translation reserve. The gain or loss relating to the ineffective portion is recognised in the income statement.

Gains and losses accumulated in translation reserve are reclassified in the income statement when the foreign operation is partially disposed of or sold.

(iii) *Derivatives that do not qualify for hedge accounting*

Certain derivative instruments do not qualify for hedge accounting. They are classified as current or non-current assets or liabilities according to the settlement dates of the derivative instruments. Changes in the fair value of these derivative instruments are recognised in the income statement.

(p) Trade and other receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

The Group measures the loss allowance using a lifetime expected loss for trade receivables and contract assets. To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Group has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets. The expected loss rates are based on the historical observed default rates adjusted for forward-looking estimates.

Impairment on other receivables is measured as either 12-month expected credit losses or lifetime expected credit losses, depending on whether there has been a significant increase in credit risk since initial recognition. Impairment losses on trade and other receivables are recognised within operating profit. Trade and other receivables are written off (either partially or in full) when there is no reasonable expectation of recovery.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) Contract assets and contract liabilities

Upon entering into a contract with a customer, the Group obtains rights to receive consideration from the customer and assumes performance obligations to transfer goods or provide services to the customer.

The combination of those rights and performance obligations gives rise to a net contract asset or a net contract liability depending on the relationship between the remaining rights and the performance obligations. The contract is an asset and recognised as contract assets if the cumulative revenue recognised in the consolidated income statement exceeds cumulative payments made by customers. Conversely, the contract is a liability and recognised as contract liabilities if the cumulative payments made by customers exceeds the revenue recognised in the consolidated income statement.

Contract assets are assessed for impairment under the same approach adopted for impairment assessment of financial assets carried at amortised cost. Contract liabilities are recognised as revenue when the Group transfers the goods or services to the customers and therefore satisfies its performance obligation.

The incremental costs of obtaining a contract with a customer are capitalised and presented as contract related assets, if the Group expects to recover those costs, and are subsequently amortised on a systematic basis that is consistent with the transfer to the customers of the goods or services to which the assets relate. The Group recognises an impairment loss in the consolidated income statement to the extent that the carrying amount of the contract related assets recognised exceeds the remaining amounts of consideration that the Group expects to receive less the costs that directly relate to those goods or services and have not been recognised as expenses.

The Group measures the loss allowance using a lifetime expected loss for contract assets. To measure the expected credit losses, contract assets have been grouped based on shared credit risk characteristics and the days past due. The contract assets have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Group has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets. The expected loss rates are based on the historical observed default rates adjusted for forward-looking estimates.

(r) Cash and cash equivalents

For the purpose of presentation in the consolidated cash flow statement, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(s) Share capital

Ordinary shares are classified as share capital. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(t) Perpetual capital securities

Perpetual capital securities have no fixed maturity and are redeemable at the Group's option. The securities are accounted for as part of equity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(u) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(v) Borrowings

Borrowings (including the fixed rate bonds as disclosed in Note 31) are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

(w) Other financial liabilities

The Group classifies and measures its financial liabilities in accordance with the purpose for which the financial liabilities are incurred and managed. The management classifies financial liabilities at fair value through profit or loss if they are managed and their performance measured on fair value basis. A financial liability is derecognised from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

Financial liabilities at fair value through profit or loss include other long-term liability disclosed in Note 34. They are initially recognised at fair value and transaction costs are expensed off immediately. Realised or unrealised gains or losses on financial liabilities are charged to the income statement in the period in which they arise. The fair value is estimated by discounting the estimated future contractual cash flows at the current market discount rate which considers the Group's credit risk. Where applicable, a pricing adjustment is applied to arrive at the fair value.

(x) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets, are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are expensed in the period in which they are incurred.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(y) Current and deferred taxation

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

(i) *Current income tax*

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the company and its subsidiaries, joint ventures and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(ii) *Deferred income tax*

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

The deferred tax liability in relation to investment property that is measured at fair value is determined assuming the property will be recovered entirely through sale.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(z) Employee benefits

(i) *Employee leave entitlements*

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the balance sheet date. Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) *Termination benefits*

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits at the earlier of the following dates: (a) when the Group can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of HKAS 37 and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to their present value.

(iii) *Bonus plans*

The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

(iv) *Retirement benefits cost*

Payments to the Group's defined contribution retirement schemes and the Mandatory Provident Fund Scheme are charged as expenses as they fall due. The Group has no legal or constructive obligations to pay further contributions for post-retirement benefits beyond its fixed contributions.

(v) *Share-based payments*

The Group operates two equity-settled, share-based compensation plans, under which the entity receives services from employees as consideration for equity instruments (options and incentive shares) of the Group. The fair value of the employee services received in exchange for the grant of the options and incentive shares is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options and incentive shares granted, excluding the impact of any non-market vesting conditions (for example, profitability and sales growth targets).

Non-market vesting conditions are included in assumptions about the number of options and incentive shares that are expected to vest. The total amount expensed is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At each balance sheet date, the Group revises its estimates of the number of options and incentive shares that are expected to vest. It recognises the impact of the revision of original estimates, if any, in the income statement, with a corresponding adjustment to employee share-based compensation reserve.

When the options and incentive shares are exercised (Note 37), the Company issues new shares. The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options and incentive shares are exercised.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(aa) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

(bb) Revenue recognition

Revenue represents sale of properties, rental income, project and property management income, dividend income and interest income from financial investments and other financial assets. Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. Revenue is shown net of value-added tax and discounts and after eliminating sales within the Group. Revenue is recognised as follows:

- (i) Revenue from pre-sale of properties under development is recognised when or as the control of the asset is transferred to the customer. Depending on the terms of the contract and laws that apply to the contract, control of the properties under development may transfer over time or at a point in time. If properties have no alternative use to the Group contractually and the Group has an enforceable right to payment for performance completed to date, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the completed property.

The timing of revenue recognition for sale of completed properties would be recognised when the underlying property is legally or physically transferred to the customer under the control transfer model.

The Group currently offers different payment schemes to customers, the transaction price and the amount of revenue for the sale of property would be adjusted when significant financial component exists in that contract.

Certain costs incurred for obtaining a pre-sale property contract would be eligible for capitalisation under HKFRS 15 and match with revenue recognition pattern of related contract.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(bb) Revenue recognition (Continued)

- (ii) Rental income from investment property is recognised on a straight-line basis over the lease term.
- (iii) Project and property management income is recognised when the services are rendered.
- (iv) Dividends are received from financial investments and other financial assets measured at FVPL and at FVOCI. Dividends are recognised when the right to receive payment is established.
- (v) Interest income is recognised by applying the effective interest rate to the gross carrying amount of financial investments, mortgage loan receivables and other financial assets except for financial investments, mortgage loan receivables and other financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial investments, mortgage loan receivables and other financial asset (after deduction of the loss allowance). Interest income from financial investments, mortgage loan receivables and other financial assets at FVPL is included in the net fair value gains/(losses) on these assets.

(cc) Finance income

Finance income is earned from financial investments and other financial assets that are held for cash management purposes. Any other interest income is included in other income.

(dd) Leases

(i) *Group as the lessee to operating leases*

Until 31 December 2018, leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the lease term.

From 1 January 2019, the Group has changed its accounting policy for leases where the Group is the lessee. Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(dd) Leases (Continued)

(i) *Group as the lessee to operating leases (Continued)*

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Group under residual value guarantees
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group use recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the amount of the initial measurement of lease liability, any lease payments made at or before the commencement date less any lease incentives received, any initial direct costs, and restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life. While the Group revalues its land and buildings that are presented within property, plant and equipment, it has chosen not to do so for the right-of-use buildings held by the Group.

Payments associated with short-term leases of equipment and vehicles and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT equipment and small items of office furniture.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(dd) Leases (Continued)

(ii) *Group as the lessor to operating leases*

When assets are leased out under an operating lease, the assets are included in the balance sheet based on the nature of the asset. Lease income is recognised on a straight-line basis over the lease term.

Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income.

The respective leased assets are included in the balance sheet based on their nature. The Group did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

(ee) Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability, other than that assumed in a business combination, is not recognised but is disclosed in the notes to the financial statements. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognised as a provision.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain events not wholly within the control of the Group.

A contingent asset is not recognised but is disclosed in the notes to the financial statements when an inflow of economic benefits is probable. When inflow is virtually certain, an asset is recognised.

(ff) Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's and the Company's financial statements in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

3. CHANGES IN ACCOUNTING POLICIES

This note discloses the new accounting policies that have been applied from adoption of HKFRS 16 Leases from 1 January 2019.

The Group adopted HKFRS 16 using modified retrospective approach and has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The adoption did not have any significant impact to the Group's consolidated financial statements in the current and prior years.

In applying HKFRS 16 for the first time, the Group has used the following practical expedients permitted by the standard:

- The accounting for operating leases with a remaining lease term of less than 12 months as at 1 January 2019 as short-term leases;
- The exclusion of initial direct costs for the measurement of the right-of-use asset at the date of initial applications; and
- The use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

The Group has also elected not to reassess whether a contract is, or contains a lease at the date of initial application. Instead, for contracts entered into before the transition date the Group relied on its assessment made applying HKAS 17 and HK(IFRIC) – Interpretation 4 Determining whether an Arrangement contains a Lease.

The Group did not need to make any adjustments to the accounting for assets held as lessor under operating leases as a result of the adoption of HKFRS 16.

4. FINANCIAL RISK MANAGEMENT

(a) Financial risk factors

The Group's activities expose it to a variety of financial risks: market risks (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group uses derivative financial instruments to hedge certain risk exposures.

(i) *Foreign exchange risk*

The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to UK pounds, Renminbi and Singapore dollars. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.

The Group uses a combination of cross currency swap contracts and forward exchange contracts to hedge its exposure to foreign currency risk.

The intrinsic value of cross currency swap contracts and forward exchange contracts is determined with reference to the relevant spot market exchange rate. The differential between the contracted strike rate and the discounted spot market exchange rate is defined as the time value. It is discounted, where material.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

4. FINANCIAL RISK MANAGEMENT (Continued)

(a) Financial risk factors (Continued)

(i) Foreign exchange risk (Continued)

The Group has certain investments in foreign operations in UK, whose net assets are exposed to foreign currency translation risk. Currency exposure arising from the net assets of the Group's foreign operations is managed primarily through borrowings, forward exchange contracts and cross currency swap contracts denominated in UK pounds.

At 31 December 2019, the Group has certain financial investments and other financial assets denominated in United States dollar. Under the Linked Exchange Rate System in Hong Kong, Hong Kong dollar is pegged to the United States dollar, management therefore considers that there are no significant foreign exchange risk with respect to the United States dollar.

At 31 December 2019, if HK dollars had weakened/strengthened by 5% against Renminbi with all other variables held constant, equity would have been HK\$14.0M (2018: HK\$13.7M) higher/lower, mainly as a result of foreign exchange gains/losses on translation of Renminbi-denominated operations.

The Group has entered into cross currency swap contracts to hedge against foreign exchange exposure arising from fixed rate bonds denominated in Singapore dollars. The fixed rate bonds are fully swapped into Hong Kong dollar so as to eliminate foreign exchange fluctuation from Singapore dollar when interest payments and principal repayment of the fixed rate bonds are made in future. The Group has also entered cross currency swap contracts against perpetual capital securities in Singapore dollars.

At 31 December 2019, if HK dollars had weakened/strengthened by 5% against Singapore dollars with all other variables held constant, post-tax profit for the year would have been HK\$86.7M (2018: HK\$85.3M) higher/lower, mainly as a result of foreign exchange gains/losses on translation of Singapore dollar-denominated financial investments at FVPL and portion of changes in the fair value of cross currency swap contracts for perpetual capital securities in Singapore dollars not qualified for hedge accounting respectively.

(ii) Interest rate risk

As the Group has no significant interest-bearing assets (other than bank deposits and amounts due from joint ventures), the Group's income and operating cash flows are substantially independent of changes in market interest rates.

The Group is exposed to changes in interest rates due to its bank borrowings which are disclosed in Note 31 below. Borrowings at variable rates expose the Group to cash flow interest rate risk. Borrowings at fixed rates expose to the Group to fair value interest rate risk. The Group manages its interest rate exposure based on interest rate level and outlook as well as potential impact on the Group's financial position arising from volatility. Interest rate swap contract is the hedging instrument most commonly used by the Group to manage the interest rate exposure.

(a) Financial risk factors (Continued)

(ii) Interest rate risk (Continued)

If interest rates on borrowings had been 50 basis points higher/lower with all other variables held constant, the post-tax profit for the year would have been HK\$5.0M (2018: HK\$4.8M) lower/higher and capitalised interest on “properties for sale” would have been HK\$7.9M (2018: HK\$9.9M) higher/lower, mainly as a result of higher/lower interest expenses on floating rate borrowings.

In addition, if interest rates had been 50 basis points higher/lower with all other variables held constant, the post-tax profit for the year would have been HK\$11.7M (2018: HK\$13.0M) higher or HK\$12.0M (2018: HK\$13.5M) lower, mainly as a result of gain/loss relating to the portion of changes in the fair value of interest rate swap contracts not qualified for hedge accounting.

(iii) Price risk

The Group is exposed to equity securities and debt investments price risk because certain financial assets of the Group are classified in the consolidated balance sheet as financial investments at fair value through profit or loss. The Group is not exposed to commodity price risk.

At 31 December 2019, if market value of the Group’s listed financial investments at fair value through profit or loss had increased/decreased by 10% (2018: 10%), with all other variables held constant, post-tax profit for the year would have been HK\$65.1M (2018: HK\$63.9M) higher/lower. The sensitivity analysis has been determined based on a reasonable expectation of possible valuation volatility over the next 12 months.

(iv) Credit risk

The Group’s credit risks are primarily attributable to the Group’s cash at banks, contractual cash flows of financial investments carried at amortised cost and at fair value through profit or loss, trade receivables from sale of properties and rent receivables from tenants, loans to joint ventures and associates.

The Group has limited its credit exposure by ensuring the Group’s cash deposits are placed with reputable banks and financial institutions with high credit rating.

The Group’s debt investments carried at amortised cost and at fair value through profit or loss are considered to be low risk investments. The credit ratings of the investments are monitored for credit deterioration.

In respect of credit exposures to customers for sale of properties, the Group normally receives deposits or progress payments from individual customers prior to the completion of sale transactions. If a customer defaults on the payment of the sale of properties, the Group is able to forfeit the customer’s deposit and re-sell the property to another customer. Therefore, the Group’s credit risk is significantly reduced. For rent receivables from tenants, credit checks are part of the normal leasing process. The Group normally receives deposits for leases to tenants. Regular review is carried out and stringent monitoring procedures are in place to deal with overdue debts. At each balance sheet date, the Group reviews the recoverable amount of each individual trade receivables to ensure that adequate provisions for impairment are made for irrecoverable amounts, if any. The Group has no significant concentrations of credit risk on trade receivables.

In respect of credit exposures on loans to joint ventures and associates, the Group would closely monitor the financial positions including the net assets backing of these related companies. The exposure of these credit risks are monitored on an ongoing basis.

(a) Financial risk factors (Continued)

(v) Liquidity risk

Cash flow forecasting is performed in the operating entities of the Group. The Group monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets and, if applicable external regulatory or legal requirements.

Surplus cash held by the operating entities over and above balance required for working capital management are transferred to the Corporate and managed by the Group Treasury Department, which invests surplus cash in time deposits, money market deposits and marketable securities, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient head-room as determined by the above-mentioned forecasts.

The table below analyses the Group's non-derivative financial liabilities and net-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. Derivative financial liabilities are included in the analysis if their contractual maturities are essential for an understanding of the timing of the cash flows. The amounts disclosed in the tables are the contractual undiscounted cash flows and may not reconcile to the amounts in the balance sheet.

These amounts are financial guarantees from the Group to its joint ventures representing the hypothetical payments should the guarantees be crystallised, however based on the operating results of the joint ventures, the Group does not expect them to be crystallised.

4. FINANCIAL RISK MANAGEMENT (Continued)

(b) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net borrowings divided by total equity which is the Group's capital. Net borrowings are calculated as bank and other borrowings less bank balances and cash.

The gearing ratios at 31 December 2019 and 2018 were as follows:

	2019 HK\$'M	2018 HK\$'M
Bank and other borrowings	4,681.4	5,034.5
Less: Bank balances and cash	(1,740.0)	(2,873.6)
Net borrowings	2,941.4	2,160.9
Total equity	28,623.5	28,721.9
Gearing ratio	10.3%	7.5%

(c) Fair value estimation

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

4. FINANCIAL RISK MANAGEMENT (Continued)

(c) Fair value estimation (Continued)

(i) *Financial instruments in Level 1:*

Listed securities and debt investments are stated at market prices. The quoted market price used for financial assets held by the Group is the bid price at the end of the reporting period. They are included in Level 1.

(ii) *Financial instruments in Level 2:*

Unlisted fund investments are stated at fair values which are estimated using other prices observed in recent transactions or valuation techniques when the market price is not readily available.

The fair value of forward exchange contracts and cross currency swap contracts is determined using forward exchange rates at the balance sheet date, with the resulting value discounted back to present value.

The fair value of interest rate swap contracts is calculated as the present value of the estimated future cash flows based on observable yield curves.

If all significant inputs required to estimate the fair value of an instrument are observable, the instrument is included in Level 2. If one or more of significant inputs is not based on observable market data, the instrument is included in Level 3.

(iii) *Financial instruments in Level 3:*

Other long-term liability represents provisions of liabilities in relation to indemnifying a third party against the cost of winding up the pension scheme of the disposed business in 2012.

Valuation processes of the Group

The Group engaged Barnett Waddingham, an independent valuer, to value its long-term liability. Discussion of valuation processes and results are held between the Group's management and valuer at least once every six months, in line with the Group's interim and annual reporting dates. At each reporting date the Group's management:

- verifies all major inputs to the independent valuation report;
- assesses the liability valuation movements when compared to the prior period valuation report;
- holds discussions with the independent valuer.

The fair value of the long-term liability is determined using a solvency valuation model and the significant unobservable inputs used in the fair value measurement are the forecast price inflation and investment return. The fair value measurement of the liability is positively correlated to the forecast price inflation and negatively correlated to the forecast investment return. As at 31 December 2019, it is estimated that with all other variables held constant, an increase in both the above unobservable inputs by 0.1% (2018: 0.1%) would have increased the Group's profit by HK\$0.5M (2018: HK\$0.8M).

The movements during the year in the balance of these Level 3 fair value measurements are as follows:

	Other long-term liability	
	2019	2018
	HK\$'M	HK\$'M
Opening balance	(48.7)	(57.7)
Group's contributions	2.0	0.9
Fair value gain recognised in the consolidated income statement (Note 15)	4.8	8.1
Closing balance	(41.9)	(48.7)

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Fair value of investment properties

The Group's investment properties are revalued at the balance sheet date on the open market value basis by independent professional valuers. Such valuations were based on certain assumptions, which are subject to uncertainty and might materially differ from the actual results. In making the judgement on whether such valuations and assumptions made by the valuers are reasonable, the Group considers information from comparable current prices in an active market for similar properties, capitalisation rates, terminal yield, rental income from current leases and assumptions about rental from future leases and the reversionary income potential and uses assumptions that are mainly based on market conditions existing at each balance sheet date. The main assumptions have been disclosed in Note 16.

(b) Fair value of derivative financial instruments

If information on current or recent prices of derivative financial instruments is not available, the fair values of derivative financial instruments are determined using valuation techniques (including discounted cash flow model or price/earnings multiple model). The Group uses assumptions that are mainly based on market conditions existing at each balance sheet date.

(c) Fair value of financial liabilities at fair value through profit or loss classified under other long-term liability

If information on current or recent prices of financial liabilities at fair value through profit or loss is not available, the fair values of financial liabilities at fair value through profit or loss are determined using valuation techniques (including discounted cash flow model). The Group uses assumptions that are mainly based on market conditions existing at each balance sheet date. The main assumptions have been disclosed in Note 34.

(d) Impairment of financial investments, mortgage loan receivables and other financial assets

The loss allowances for financial investments, mortgage loan receivables and other financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

(e) Net realisable values of properties for sale

The Group assesses the carrying amounts of properties for sale according to their recoverable amounts based on the realisability of these properties, taking into account estimated costs to completion based on past experience, committed contracts and estimated net sales/rental value based on prevailing market conditions. Provision is made when events or changes in circumstances indicate that the carrying amounts may not be realised. The assessment requires the use of judgement and estimates.

5. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

(f) Impairment of assets (mainly investments in joint ventures and associates)

The Group tests whether the investments in joint ventures and associates have suffered any impairment, in accordance with the accounting policy stated in Note 2(k). The recoverable amount of the investment is the higher of the asset's fair value less costs to sell and value-in-use. These calculations require the use of estimates.

(g) Taxation

The Group is subject to income taxes, capital gains tax, land appreciation tax and withholding tax in several jurisdictions as applicable. There are certain transactions and calculations for which the ultimate tax determination may be uncertain. The Group recognises liabilities for anticipated tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred tax provisions in the financial period in which such determination is made.

The Group has used presumption that the carrying amount of all investment properties except for certain PRC investment properties using fair value model will be recovered through sale. Accordingly, no provision for deferred tax is made on revaluation of investment properties if there is no capital gains tax. The PRC investment properties would be recovered through use which is held within a business model to hold for rental, provision for deferred tax is made on revaluation of investment properties using income tax rate.

Recognition of deferred tax asset, which principally relates to tax losses of certain subsidiaries, depends on the management's expectation of future taxable profit that will be available against which the tax losses can be utilised. The outcome of their actual utilisation may be different.

(h) Accrual of construction costs

It usually takes more than a year after completion of the relevant constructions to finalise and agree with the contractors on overall construction costs (including initial contract sum, variation orders, liquidation damages, if any) for property development. The Group has accrued for construction costs based on the latest information available and directors' best estimate on the likely outcome of negotiation with contractors. If the final construction costs differ from the accruals made, there will be effects on the results of the Group in the year in which construction costs are concluded.

6. REVENUE

Revenue represents the amounts received and receivable from third parties net of value-added tax and discounts in connection with the following activities:

	2019	2018
	HK\$'M	HK\$'M
Sale of properties and project management income	21.8	31.0
Rental income and property management income	749.1	819.7

7. SEGMENT INFORMATION

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by Executive Directors in order to allocate resources to the segment and to assess its performance.

Segment information are analysed on the basis of the Group's operating divisions. They are (i) Property Development, (ii) Property Investment and Management, (iii) Hospitality Investment and Management and (iv) Others. Others mainly represent investing activities and corporate activities including central management and administrative function.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

12. TAXATION

Hong Kong profits tax has been calculated at 16.5% (2018: 16.5%) on the estimated assessable profit for the year. Taxation on overseas profits has been calculated on the estimated assessable profit for the year at the rates of taxation prevailing in the countries in which the Group operates.

The amount of taxation charged/(credited) to the consolidated income statement represents:

	2019 HK\$'M	2018 HK\$'M
Current taxation		
– Current tax on profits for the year	52.8	62.4
– Over-provision in prior years	(0.1)	(21.3)
	52.7	41.1
Deferred taxation (Note 32)		
– Change in fair value of investment properties	15.8	3.4
– Temporary differences on tax depreciation	14.1	14.9
– Recognition of tax losses	(15.7)	(8.5)
– Other temporary differences	2.8	1.4
– Under-provision in prior year	–	0.5
	17.0	11.7
Income tax expenses	69.7	52.8

The tax on the Group's profit before taxation differs from the theoretical amount that would arise using the profits tax rate of Hong Kong, where majority of the Group's operations were carried out, as follows:

	2019 HK\$'M	2018 HK\$'M
Profit before taxation	374.7	1,432.3
Tax calculated at Hong Kong profits tax rate of 16.5% (2018: 16.5%)	61.8	236.3
Expenses not deductible for tax purpose	50.2	43.0
Income not subject to tax	(40.7)	(202.7)
Net increase in unrecognised tax losses and other temporary differences	49.4	16.5
Utilisation of tax losses not previously recognised	(28.9)	(3.7)
Effect of different tax rates of subsidiaries operating in other jurisdictions	4.0	0.8
Over-provision in prior years	(0.1)	(20.8)
Tax effect of share of results of joint ventures	(32.0)	(19.1)
Tax effect of share of results of associates	(0.4)	(0.9)
Net PRC land appreciation tax and other taxes on change in fair value of investment properties (Note)	6.4	3.4
Taxation for the year	69.7	52.8

Note:

PRC land appreciation tax ("LAT") is provided at progressive rates ranging from 30% to 60% (2018: 30% to 60%) on the appreciation of land value, being the proceeds of sale of properties less deductible expenditures including costs of land use rights and property development expenditures.

There was no tax charge in relation to components of other comprehensive income during the year (2018: Nil).

13. EARNINGS PER SHARE

(a) Basic

Basic earnings per share is calculated by dividing the profit attributable to shareholders of the Company by the weighted average number of ordinary shares in issue during the year.

	2019	2018
Profit attributable to shareholders of the Company (expressed in HK\$'M)	238.9	1,312.4
Weighted average number of ordinary shares in issue	1,352,408,895	1,349,034,977
Basic earnings per share	HK\$0.18	HK\$0.97

(b) Diluted

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares at the beginning of the year. The Company has share options and incentive shares outstanding during the year which are dilutive potential ordinary shares. Calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average daily market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding share options and incentive shares.

	2019	2018
Profit attributable to shareholders of the Company (expressed in HK\$'M)	238.9	1,312.4
Weighted average number of ordinary shares in issue	1,352,408,895	1,349,034,977
Effect of dilutive potential shares issuable under the Company's share option plan and share incentive scheme	2,283,733	1,682,959
Weighted average number of shares for the purpose of calculating diluted earnings per share	1,354,692,628	1,350,717,936
Diluted earnings per share	HK\$0.18	HK\$0.97

14. DIVIDENDS

	2019 HK\$'M	2018 HK\$'M
Interim dividend paid on 4 October 2019 of HK6.0 cents (2018: HK6.0 cents) per ordinary share	81.2	80.9
Proposed final dividend of HK21.0 cents (2018: HK21.0 cents) per ordinary share	284.5	284.1
	365.7	365.0

The final dividend is not accounted for as a dividend payable in these financial statements until it has been approved at the forthcoming annual general meeting of the Company.

Freehold properties outside Hong Kong	702.8	679.2
	20,427.3	20,459.4

(a) Valuation processes of the Group

The Group measures its investment properties at fair value. The fair value of the Group's investment properties at 31 December 2019 and 2018 has been determined on the basis of valuations carried out by independent valuers not related to the Group. The Group engaged Savills Valuation and Professional Services Limited, Jones Lang LaSalle Limited, Cushman & Wakefield, Knight Frank Petty Limited and B.I. Appraisals Limited to value its investment properties. Discussion of valuation processes and results are held between the Group's management and valuers at least once every six months, in line with the Group's interim and annual reporting dates. At each reporting date the Group's management:

- verifies all major inputs to the independent valuation report;
- assesses property valuations movements when compared to the prior period valuation report;
- holds discussions with the independent valuers.

Changes in Level 3 fair values are also analysed at each reporting date during the bi-annual valuations discussions date between the Group's management.

16. INVESTMENT PROPERTIES (Continued)

(b) Fair value hierarchy

Fair value measurements using significant unobservable inputs (Level 3)

Investment properties within Level 3 fair value hierarchy represent commercial properties, industrial properties and serviced apartments and others where fair values were generally derived using the income capitalisation method. This valuation method is based on the capitalisation of the net income and reversionary income potential by adopting appropriate capitalisation rates, which are derived from analysis of sale transactions and valuers' interpretation of prevailing investor requirements or expectations. The prevailing market rents adopted in the valuation have reference to valuers' view of recent lettings, within the subject properties and other comparable properties. As at 31 December 2019 and 2018, all investment properties are under Level 3 measurement.

Movements of investment properties under Level 3 measurements:

	Commercial properties HK\$'M	Industrial properties HK\$'M	Serviced apartments and others HK\$'M	Total HK\$'M
At 1 January 2019	16,432.0	956.9	3,070.5	20,459.4
Change in fair value	41.2	3.0	(170.6)	(126.4)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2019

16. INVESTMENT PROPERTIES (Continued)

(b) Fair value hierarchy (Continued)

Fair value measurements using significant unobservable inputs (Level 3) (Continued)

Significant inputs used to determine fair value of investment properties at 31 December 2019 and 2018:

	Range of significant unobservable inputs		
	Valuation method	Monthly market rents HK\$/sq.ft.	Capitalisation rate %
At 31 December 2019			
Commercial properties	Income capitalisation	31 to 76	3.3 to 4.1
Industrial property	Income capitalisation	13	3.2
Serviced apartments and others	Income capitalisation	22 to 96	2.3 to 4.0
At 31 December 2018			
Commercial properties	Income capitalisation	31 to 77	3.3 to 4.1
Industrial property	Income capitalisation	13	3.2
Serviced apartments and others	Income capitalisation	22 to 111	2.2 to 3.7

Market rents are estimated based on valuers' view of recent lettings, within the subject properties and other comparable properties. The higher the rents, the higher the fair value.

Capitalisation rates are estimated by valuers based on the risk profile of the properties being valued. The lower the rates, the higher the fair value.

(c) Leasing arrangements

The investment properties are leased to tenants under operating leases.

Minimum lease payments receivable on leases of investment properties are set out in note 39. None of the leases include significant variable rentals.

At 31 December 2018	206.1	124.9	(21.3)	4.7	314.4

At 31 December 2019, the Group has unused tax losses and other temporary differences of approximately HK\$1,307.2M (2018: HK\$1,369.1M) available for offset against future profits. Deferred tax asset has been recognised in respect of HK\$228.5M (2018: HK\$126.1M) of such unused tax losses for which the realisation of the related tax benefit through the future taxable profits is probable. No deferred tax asset has been recognised in respect of the remaining tax losses and other temporary differences of HK\$1,078.7M (2018: HK\$1,243.0M) due to the unpredictability of future profit streams of some of the subsidiaries. Included in unrecognised tax losses are losses of HK\$15.1M (2018: HK\$19.4M) that will expire in the next five years. Other losses may be carried forward indefinitely.

At 31 December 2019 and 2018, there was no significant unrecognised deferred tax liability for taxes that would be payable on the unremitted earnings of the Group's subsidiaries as the Group has no liability to additional tax should such amounts be remitted.

Deferred taxation at the balance sheet date is mainly expected to be realised or settled after more than 12 months.

33. CASH FLOW INFORMATION

Reconciliation of liabilities arising from financing activities

The table below details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. 34. OTHER LONG-TERM LIABILITY

Other long-term liability represents provision for liabilities in relation to indemnifying the purchaser against the cost of winding up the pension scheme of Gieves & Hawkes Group in the disposal of Gieves & Hawkes Group in 2012. The amount is measured at fair value and the key assumptions include investment return of 1.0% (2018: 1.5%), price inflation of 3.1% (2018: 3.4%), pension increases of 2.6% to 3.7% (2018: 2.9% to 3.8%) and a number of demographic assumptions have been used in the fair value estimates. There is unconditional right to defer payment for more than 12 months.

36. PERPETUAL CAPITAL SECURITIES

Under the US\$1 billion Medium Term Note Programme, Wing Tai Properties (Finance) Limited, a wholly-owned subsidiary of the Group, issued S\$260 million 4.35% unrated senior guaranteed perpetual capital securities (the "Securities") which are listed on Singapore Exchange Securities Trading Limited in 2017.

The Group accounted for the Securities as equity instruments pursuant to HKFRS issued by the HKICPA for the purposes of the Group's consolidated financial statements.

37. SHARE OPTION PLAN AND SHARE INCENTIVE SCHEME

- (a) On 27 October 2015, the Company adopted a Share Option Plan ("Share Option Plan"), under which, the Board of Directors of the Company (the "Board") or a duly authorised committee thereof (the "Committee"), may in its absolute discretion, grant options to any eligible participants to subscribe for shares of the Company.

In accordance with the requirements of the Listing Rules, a summary of the Share Option Plan is set out below:

i) Purpose

The purpose of the Share Option Plan is to facilitate the grant of options over shares by the Company to persons selected at the discretion of the Board in order to incentivise and retain such persons.

ii) Participants

The Board or the Committee may determine at its sole discretion, on a general or case-by-case basis, a person is eligible to be granted an option if he is a director, employee, officer, consultant, former director, former employee, former officer or former consultant of any member of the Group.

iii) Total number of shares available for issue

As at the date of this annual report, the total number of shares available for issue in respect of which options may be granted under the Share Option Plan is 117,820,502, representing approximately 8.7% of the shares in issue as at that date.

37. SHARE OPTION PLAN AND SHARE INCENTIVE SCHEME (Continued)

(a) (Continued)

In accordance with the requirements of the Listing Rules, a summary of the Share Option Plan is set out below:
(Continued)

iv) Maximum entitlement of each participant

Subject always to the Listing Rules, the total number of shares issued and to be issued upon exercise of share options granted and to be granted to each participant (including both exercised and outstanding share options) in any 12-month period must not exceed 1% of the shares in issue.

v) Period within which the shares must be taken up

Any options granted but not exercised within the exercise period should be cancelled. The exercise period in relation to an option is the period which starts on the vesting date and ends on the day before the tenth anniversary of the date of grant unless the Board or the Committee sets a shorter period at the time of grant.

vi) Minimum period for which an option must be held before it can be exercised

The Share Option Plan does not specify a minimum period for which an option must be held before it can be exercised unless the Board or the Committee specifies a minimum period at the time of grant.

vii) Offer and acceptance

Options granted must be accepted within 28 days from the date of grant. A consideration of HK\$1 is payable on acceptance of the grant of options.

viii) Basis of determining the exercise price

The exercise price for an option shall be at least the higher of: (i) the closing price of the shares of the Company as stated in the daily quotation sheet of the Stock Exchange on the date of grant; and (ii) the average closing price of the shares of the Company as stated in the daily quotation sheet of the Stock Exchange for the five trading days immediately preceding the date of grant.

ix) Remaining life

The Share Option Plan will expire on 26 October 2025.

The Share Option Plan shall be valid and effective for a period of 10 years commencing from its date of adoption. The Company will provide subscription money to the option holders in the event that they exercise their share options when the closing market price of the Company's shares on the exercise day is equal to or higher than the exercise price of share options concerned.

37. SHARE OPTION PLAN AND SHARE INCENTIVE SCHEME (Continued)

(b) Fair values of share options granted

The fair values of share options granted during the year ended 31 December 2019 are determined using the Binominal Model (the "Model"). Key assumptions of the Model are as follows:

Risk-free rate	2.0%
Expected dividend yield	5.0%
Expected volatility of the market price of the Company's shares	31.9%
Expected life	10 years from the date of grant
Estimated fair value per share option	HK\$0.87

The Model requires the input of subjective assumptions, including the volatility of share price. Because changes in subjective assumptions can materially affect the fair value estimate, in the directors' opinion, the existing model does not necessarily provide a reliable single measure of the fair value of share options.

- (c) Under a Share Incentive Scheme approved by shareholders of the Company on 17 June 2005 ("Share Incentive Scheme"), the Board of Directors of the Company or a duly authorised committee thereof had made offers of awards to selected employees (including executive directors of the Company) of the Group ("Eligible Employees") to subscribe in cash at par for shares of the Company. The Company will provide to the Eligible Employees the funds required to subscribe for the shares issued under the Share Incentive Scheme.

The Share Incentive Scheme expired on 16 June 2015 and no further incentive shares can be granted under the Share Incentive Scheme but the provisions of the Share Incentive Scheme remain in full force and effect in all other respects in relation to the incentive shares granted. All outstanding incentive shares granted and yet to be vested and exercised shall remain valid. As at the date of this report, the maximum number of shares of the Company which may be issued pursuant to the Share Incentive Scheme shall be 212,000 representing approximately 0.02% of the issued share capital of the Company.

During the year, details of the outstanding incentive shares awarded pursuant to the Share Incentive Scheme are as follows:

	Date of award	Number of incentive shares		
		As at 1.1.2019	Vested and exercised during the year	As at 31.12.2019
Director				
NG Kar Wai, Kenneth	15.6.2015	954,000	(424,000)	530,000
Total		954,000	(424,000)	530,000

The incentive shares awarded are subject to a vesting scale of 25%, 25% and 50% starting respectively from the first anniversary, the second anniversary and the third anniversary of the date of award. All the incentive shares awarded shall be valid for ten years until the day before the tenth anniversary of the date of award.

During the year ended 31 December 2019, no incentive shares (2018: Nil) were awarded and 424,000 (2018:1,433,000) incentive shares were vested and exercised.

The weighted average closing price of the shares immediately before the dates on which incentive shares were exercised HK\$5.80 (2018: HK\$5.44).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

38. RESERVES

Movements in the reserves of the Group are disclosed in the consolidated statement of changes in equity.

Nature and purpose of reserves

(a) Share premium

The application of the share premium account is governed by Section 40 of the Companies Act 1981 of Bermuda.

(b) Hedging reserve

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of hedging instruments used in cash flow hedges pending subsequent recognition of the hedged cash flow in accordance with the accounting policy adopted for cash flow hedges in Note 2(o).

(c) Employee share-based compensation reserve

The employee share-based compensation reserve comprises the cumulative value of employee services received for the grant of share options and incentive shares, which is transferred to share premium upon exercise of share options and incentive shares.

(d) Other property revaluation reserve

Other property revaluation reserve has been set up and is dealt with in accordance with the accounting policies adopted for land and buildings held for own use in Note 2(g).

(e) Translation reserve

The translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations. The reserve is dealt with in accordance with the accounting policies set out in Note 2(f).

(f) Contributed surplus

The balance of contributed surplus of the Group arose as a result of gains on bargain purchases rising from changes in ownership interests in subsidiaries that do not result in a change of control, which is dealt with in accordance with the accounting policy in Note 2(b).

39. LEASES

As lessor
