CHAIRMAN'S STATEMENT

Looking back into the past year, for the purpose of strengthening safety management and meeting environmental protection standards, the Company coordinated and completed the trial running of the expansion of Shandong Taian Project and Jiangsu Shuyang Project respectively. The daily waste treatment capacity of Taian Project increased from 800 tonnes to 1,200 tonnes, while the daily waste treatment capacity of Shuyang Project increased from 600 tonnes to 1,200 tonnes. The Group's production and operation was running stably in general with the household waste treatment volume of the year achieved 3,490,000 tonnes, and on-grid electricity of 976 million kWh, generating a net profit of HK\$222 million to shareholders during the year. When excluding the one-off asset impairment, the annual growth rate reached 12%.

The Company will actively formulate plans for its medium and long-term development. Under the current situation where waste subsidies for solid waste treatment industry continue to drop and the pressure on environmental supervision continues to rise, the Group is planning the expansion works of Hunan Changde Project and Jiangsu Zhangjiagang Project to carry out technical innovations, and at the beginning of the year, it announced to invest and construct the Jining Yanzhou Project in Shandong Province to enhance its regional household waste treatment capacity, so as to facilitate the high-quality and harmonious development of the Company.

In facing both difficulties and challenges, the Company will boldly explore and innovate, set reasonable goals and strive to achieve prudently and pragmatically to establish "Beijing Enterprises Environment Group" as a solid waste brand under the relentless support of employees and make unremitting efforts to "become better and stronger".

On behalf of the Board, I would like to express my gratitude to all employees, shareholders and parties from different sectors for their support to the Group.

Ke Jian

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is engaged in the environmental protection business with solid waste treatment as its core business. Currently, the Group is investing and operating nine solid waste treatment projects in China, including eight household waste incineration power generation projects with total waste treatment capacity increased to 10,225 tonnes/day, and one hazardous and medical waste treatment project with waste treatment capacity of 35,000 tonnes/year.

Project Name	Region	Business Model	Waste treatment capacity
Household waste incineration power generation projects:			
Haidian Project (北京市海澱區循環經濟產業園再生能源發電廠項目)	Beijing	BOT	2,100 tonnes/day
Gaoantun Project (北京高安屯垃圾焚燒項目)	Beijing	BOT	1,600 tonnes/day
Ha'erbin Project (哈爾濱雙琦垃圾焚燒發電項目)	Heilongjiang	BOT	1,600 tonnes/day
Changde Project (常德市生活垃圾焚燒發電項目)	Hunan	BOT	1,400 tonnes/day
Taian Project (泰安生活垃圾焚燒發電項目)	Shandong	BOO	1,200 tonnes/day
Shuyang Project (江蘇省沭陽縣垃圾焚燒發電項目)	Jiangsu	BOT	1,200 tonnes/day
Zhangjiagang Project (張家港市生活垃圾焚燒發電廠項目)	Jiangsu	BOO	900 tonnes/day
Wenchang Project (文昌市生活垃圾焚燒發電廠項目)	Hainan	BOT	225 tonnes/day
Hazardous and medical waste treatment project:			
Hengxing Project (湖南省衡陽危險廢物處置中心項目)	Hunan	BOT	35,000 tonnes/year

The Haidian Project officially entered the commercial operation stage in August 2018. The Phase II technological improvement and expansion of Hunan Changde Project, Phase II expansion of Shandong Taian Project, and Phase II expansion of Jiangsu Shuyang Project are completed and put into production and are ready for commercial operation to improve the Group's household waste incineration power generation treatment capacity, laying the foundation for sustainable operating revenue. During the year, the Group invested approximately HK\$158 million in technological improvement and expansion works for its projects to encounter the new environmental and emission standards.

MANAGEMENT DISCUSSION AND ANALYSIS *(CONTINUED)*

Ha'erbin Project is currently the most far north waste incineration project in Mainland China. Its operating results were underperforming due to the extreme cold weather in winter and left-behind construction problems during the project construction period. The Group had made impairment of HK\$68 million on its certain assets during the year, meanwhile, actively explored the options for technological improvement to help turning losses into profits as soon as possible. Furthermore, the Group had also made impairment of HK\$46 million on certain assets for other solid waste treatment project during the year in order to upgrade the waste incineration technology and optimise the assets quality of the Group.

In 2019, total household waste treatment volume of the Group was 3,490,000 tonnes (average 9,562 tonnes/day), increased by 0.5% as compared with 3,473,600 tonnes of last year. Other waste treatment volume included medical and hazardous waste of 15,000 tonnes, leachate of 21,700 tonnes, sludge of 75,500 tonnes and newly developed business of food waste of 82,300 tonnes. During the year, total electricity generating volume was 1,190 million kWh, increased by 10.4% from 1,078 million kWh of last year. Total on-grid electricity volume was 976 million kWh, increased by 9.9% as compared with last year of 888 million kWh. Steam supply volume was 198,600 tonnes, increased by 5.8 times as compared with last year.

In 2019, due to the decrease in revenue from the construction work of household waste incineration power generation projects, total revenue from the solid waste treatment segment of the Group was HK\$1,104 million, down by 3.6% year-on-year, of which operating revenue was HK\$1,052 million, up by 14.3% year-on-year, revenue from construction work was HK\$52 million, down by 77.0% year-on-year. Gross profit was HK\$415 million, up by 14.5% year-on-year. EBITDA was HK\$457 million, down by 10.3% year-on-year. Net profit was HK\$236 million, down by 21.4% year-on-year. If deduction on the amount for the above assets impairment was made, adjusted EBITDA was HK\$571 million, up by 12.1% year-on-year. Net profit was HK\$322 million, up by 7.1% year-on-year.

During the year, 北京北發生態建設有限公司 (“Beifa Landscape”), a company acquired by the Group at the end of June 2018, recorded revenue from construction and consultancy works of HK\$280 million and net profit of HK\$29 million.

BUSINESS PROSPECT

While affected by the novel coronavirus pneumonia epidemic in the first quarter of 2020, the Group's household waste incineration projects in Mainland China still maintain their stable operation of waste treatment equipment and give priority to the treatment of relevant waste in the epidemic regions, making contributions to local epidemic prevention and control. However, revenue from waste treatment and sales of electricity were affected by reducing electricity generated from waste incineration due to the decrease in volume of wastes delivered to the plant, deteriorated quality of wastes and mandatory suspension of certain units of some projects. The treatment costs, employees' labour insurance and epidemic prevention costs have increased due to priority is given to the treatment of wastes associated with the epidemic, while the revenue from construction business has declined due to delayed resumption of work on the sites of solid waste and landscaping construction projects.

Facing the impact caused by the epidemic, the Group will improve equipment efficiency, reduce losses and cut furnace shutdown time in view of the condition of each project so as to reduce waste operating costs, while actively exploring revenue sources of solid wastes and carrying out businesses such as sludge and industrial solid waste incineration, with a view to increase the treatment capacity of solid wastes and electricity generated by wastes.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

The Group entered into a contract and established a joint venture in January 2020 to invest and construct the Jining Yanzhou Household Waste Incineration Power Generation PPP Project in Shandong Province, China, with a daily waste treatment capacity of 1,500 tonnes and a total investment of approximately HK\$900 million, which is scheduled to be put into operation in 2022. On the other hand, the Group is planning the expansion works of Hunan Changde Project and Jiangsu Zhangjiagang Project to further enhance the Group's regional household waste treatment capacity.

Beifa Landscape is a new sector for the Group in the environmental protection industry with the national urban landscape greenery level 1 qualifications. It passed the national ISO9001 quality management and ISO14001 environmental management certification, and is expected to provide the profit growth point for the Group continuously.

The Group will fully leverage its advantages in branding, resources and technologies, deepen efficiency management and control, and keep on seeking potential investment opportunities to strengthen the overall competitiveness and market position of the Group in the solid waste treatment industry.

FINANCIAL POSITION

Significant investing and financing activities

Except for the expansion construction and technical modifications on certain existing household waste treatment plants, the Group had made no material investment, acquisition and disposal of subsidiaries and associated companies during the year.

The Group's acquisition of 51% equity interest in Beifa Landscape has been completed by the end of June 2018. The net profit of Beifa Landscape for the year ended 31 December 2019 amounted to RMB25.14 million (equivalent to HK\$28.57 million), which has met the guaranteed profit of RMB25 million given by the vendors as stipulated under the share purchase agreement.

Total assets and liabilities

As at 31 December 2019, the Group had total assets and total liabilities amounted to HK\$8,940 million and HK\$5,829 million, respectively, decreased by HK\$97 million and HK\$252 million as compared with those as at 31 December 2018, respectively.

Property, plant and equipment

The increase in cost of the Group's property, plant and equipment by HK\$119 million was mainly attributable to the expansion construction work of Shandong Taian Project of HK\$91 million. Depreciation provided during the year was HK\$51 million (2018: HK\$49 million).

MANAGEMENT DISCUSSION AND ANALYSIS *(CONTINUED)*

Goodwill

The Group acquired certain companies relating to solid waste treatment projects in April 2014 and October 2016 and an aggregate goodwill of HK\$1,123 million arose from these acquisitions. The Company has appointed an independent professional valuer to assess the goodwill impairment testing as the end of the reporting period. The recoverable amounts of the relevant companies were determined based on their respective values in use, which were determined based on the future cash flows of the solid waste treatment business and discounted to the present values. The Company considered that the key assumptions adopted by the valuation were reasonably conservative and appropriate. As value-in-use value of the relevant companies exceeded their aggregate carrying amount of the relevant assets, the Company is reasonably considered that no impairment provision is necessary for the Group's goodwill as at 31 December 2019.

Right-of-use assets

The Group initially adopted HKFRS 16 effective from 1 January 2019 and right-of-use assets of HK\$76 million and lease liabilities (included in "other payables and accruals") of HK\$31 million are recognised as at the end of the reporting period.

Operating concessions

The Group's operating concessions are recognised from the six solid waste treatment plants operated under Build-Operate-Transfer ("BOT") arrangements. During the year, construction expenditure of HK\$54 million has been incurred, impairment for certain projects of HK\$114 million had been made, and HK\$102 million (2018: HK\$87 million) has been amortised in the statement of profit or loss.

Other intangible assets

The Group's other intangible assets mainly comprised the operating rights of the two household waste treatment plants operated under Build-Own-Operate ("BOO") arrangements. During the year, HK\$6 million (2018: HK\$6 million) has been amortised in the statement of profit or loss.

Receivables under service concession arrangements

The Group's receivables under service concession arrangements are recognised from the five household waste treatment plants operated under BOT arrangements with guaranteed waste treatment revenue, decreased by HK\$80 million during the year.

Inventories

The Group's inventories of HK\$40 million mainly represented coal and consumables for the solid waste treatment plants, increased by HK\$9 million from the end of last year.

Trade and bills receivables

The Group's trade and bills receivable increased by HK\$189 million to HK\$390 million, which mainly included the national subsidy of on-grid electricity of HK\$134 million from Beijing Haidian Project (which commenced commercial operation from August 2018) for the period from trial operation in early 2017 to the end of 2019 which has not yet settled. 68% of the total trade and bills receivables have not yet due for settlement and less than 5% of the total balances are overdue over 1 year.

MANAGEMENT DISCUSSION AND ANALYSIS *(CONTINUED)*

Prepayments, other receivables and other assets

The Group's total prepayments, other receivables and other assets increased by HK\$28 million to HK\$194 million, which mainly comprised prepayments of HK\$89 million, value added tax refund and other taxes recoverable of HK\$33 million, balances due from non-controlling equity holders of HK\$12 million, deposits and other receivables of HK\$60 million.

Bank and other borrowings

The Group's bank and other borrowings were all denominated in RMB. During the year, the Group repaid RMB132 million and further advanced for RMB166 million. As at the end of the reporting period, the Group has bank and other borrowings amounted to RMB878 million, of which RMB184 million from a commercial bank, RMB638 million from BG Finance and RMB56 million from other parties relating to the business of Beifa Landscape. The weighted average interest rate of the Group's bank and other borrowings was 4.8% per annum.

Convertible bonds

The Group's convertible bonds were issued to Idata with principal amount of HK\$2,202 million in October 2016 and has share conversion price of HK\$1.13, which are non-interest-bearing and will mature in October 2021. For accounting purpose, the outstanding convertible bonds were bifurcated into liability component of HK\$2,147 million and equity component of HK\$147 million as at the end of the reporting period.

Deferred income

The Group's deferred income of HK\$150 million represented PRC government grants and subsidies on solid waste treatment business, decreased by HK\$10 million from the end of last year.

Trade payables

The Group's trade payables increased by HK\$59 million to HK\$528 million during the year, of which HK\$146 million has not yet billed.

Other payables and accruals

During the year, the Group's total other payables and accruals decreased by HK\$341 million to HK\$1,692 million, which mainly comprised (i) an amount due to Idata of HK\$491 million (2018: HK\$791 million) and (ii) amounts due to fellow subsidiaries of RMB911 million (2018: RMB920 million), which are unsecured and non-interest-bearing.

Liquidity and financial resources

The Group adopts conservative treasury policies in cash management. As at 31 December 2019, the Group had cash and cash equivalents amounted to HK\$1,426 million (approximately 57% of which were denominated in Renminbi and 42% of which were denominated in Hong Kong dollars and United States dollars); bank and other borrowings amounted to RMB878 million; non-interest-bearing amounts due to Idata and certain fellow subsidiaries of the Company amounted to HK\$491 million and RMB911 million, respectively; and non-interest bearing convertible bonds issued to Idata in the principal amount of HK\$2,202 million (which will mature in October 2021).

MANAGEMENT DISCUSSION AND ANALYSIS *(CONTINUED)*

As at 31 December 2019, Beijing Enterprises Holdings Limited (“BEHL”), the intermediate holding company of the Company, has undertaken not to demand of the amounts due by the Group to Idata of HK\$491 million and its subsidiary of RMB800 million, until such time when the Group is in a position to repay without impairing its liquidity and financial position.

As at 31 December 2019, the Group’s current liabilities of HK\$2,483 million exceeded its current assets of HK\$2,305 million. In consideration of the stable cash recurring nature of solid waste treatment operations and the financial support of the holding company, the directors of the Company considered that the Group will be able to operate on a going concern basis and the Group has sufficient cash resources to finance its operations in the foreseeable future.

Key performance indicators

	2019	2018
Gross profit margin	35.0%	29.6%
Operating profit margin	23.1%	30.3%

Capital expenditure and commitment

During the year, the Group’s total capital expenditures amounted to HK\$196 million, of which HK\$158 million was spent on construction and modification of waste treatment plants and HK\$38 million was spent on purchase of other assets. As at 31 December 2019, the Group has capital commitment for service concession arrangements amounted to HK\$106 million.

Charges on the Group’s assets

As at 31 December 2019, save as (i) the Group’s land and buildings with a net carrying amount of HK\$45 million, the Group’s right-of-use assets of HK\$21 million and the Group’s trade receivables arising from the provision of solid waste treatment service with a net carrying amount of HK\$45 million are pledged for the Group’s bank loans, and (ii) the Group’s bank deposits of HK\$9 million are pledged as security deposits to the government authorities and a customer for the provision of construction and related services of solid waste treatment plants, the Group did not have any charges on the Group’s assets.

MANAGEMENT DISCUSSION AND ANALYSIS *(CONTINUED)*

Foreign exchange exposure

The Group's businesses are principally located in Mainland China and the majority of its transactions are conducted in Renminbi. As the financial statements of the Group are presented in Hong Kong dollars, which is the Company's functional and presentation currency, any fluctuation of exchanges rates would impact the Group's net asset value. During the year, the losses arising on settlement or translation of monetary items of HK\$0.7 million (2018: HK\$0.4 million) are taken to the statement of profit or loss and the comprehensive loss arising on translation of foreign operations of HK\$60 million (2018: HK\$163 million) are recognised in the exchange fluctuation reserve. Currently, the Group has not used derivative financial instruments to hedge against its foreign currency risk.

Contingent liabilities

The final acceptance of the construction of certain solid waste treatment plants have not been obtained from the relevant government authorities and the Group is still in the process of applying for certain permits in relation to its operation. According to the relevant PRC Law, the Group may be liable to administrative sanctions to be charged by the relevant government authorities due to the above matters. Nevertheless, the Company is of the view that the non-compliance incidents, individually and in aggregate, would have no material adverse impact on the operations and financial position of the Group.

Save as disclosed above, as at 31 December 2019, the Group did not have any significant contingent liabilities.

EMPLOYEES AND REMUNERATION POLICIES

As at 31 December 2019, the Group had 1,246 employees (2018: 1,171). Total staff cost for the year was HK\$235 million, increased by 22% as compared with HK\$192 million in last year. The Group's remuneration policy and package are periodically reviewed and generally structured by reference to market terms and individual performance. Discretionary bonuses are awarded to certain employees according to the assessment of individual performance.

No share option was granted, exercised or forfeited during the year. The Company has 37,620,000 share options outstanding as at 31 December 2019, which were granted on 21 June 2011 at an exercise price of HK\$1.25 per share and represented approximately 2.5% of the Company's ordinary shares in issue as at 31 December 2019.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICES

Save as disclosed below, the Company has complied with all the applicable code provisions (the “Code Provisions”) of the Corporate Governance Code as set out in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) for the year ended 31 December 2019.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) as set out in Appendix 10 of the Listing Rules for securities transactions by director(s) of the Company (the “Director(s)"). All Directors have confirmed that, following specific enquiry by the Company, they have complied with the required standard set out in the Model Code throughout the year ended 31 December 2019.

BOARD OF DIRECTORS

The board of Directors (the “Board”) is mainly accountable to the shareholders and is also in charge of the management, business, strategy, annual and interim results, risk management, major acquisitions, disposals and capital transactions and other major operation and financial aspects of the Group. Major corporate matters that are specifically delegated by the Board to the management include the preparation of annual and interim accounts for Board approval before public reporting, execution of business strategies and initiatives adopted by the Board, implementation of adequate systems of internal controls and risk management procedures, and compliance with relevant statutory requirements and rules and regulations.

The Board has adopted a board diversity policy. With the aim of enhancing Board effectiveness and corporate governance level as well as achieving our Group’s business objectives, the Company sees increasing diversity at the Board level as an essential element in supporting its sustainable development. In designing the Board’s composition, Board diversity has been considered from a number of aspects, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service, and any other factors that the Board may consider relevant and applicable from time to time. All Board appointments will be based on merit, and candidates will be considered against objective criteria, having due regard to the benefits of Board diversity.

During the reporting period, the Company has a solid slate of Directors with diverse perspectives, and varied educational background and professional qualifications. All of the Directors have accumulated experience in their respective field of expertise, and made use of their talent and experience to drive the industry so as to bring sustainable growth to the Company.

Following the retirement of Mr. E Meng on 3 January 2020, the Board currently comprises three executive Directors and five independent non-executive Directors. Details of backgrounds and qualifications of Directors are set out on pages 15 to 17. There is no relationship (including financial, business, family or other material/relevant relationship) between the Board members. All Directors have given sufficient time and attention to the affairs of the Group. Each executive Director has sufficient experience to hold the position so as to carry out his duties effectively and efficiently.

CORPORATE GOVERNANCE REPORT *(CONTINUED)*

BOARD OF DIRECTORS *(CONTINUED)*

During the year ended 31 December 2019, the Board has complied with Rules 3.10(1) and (2) of the Listing Rules which comprises three independent non-executive Directors, and has two independent non-executive Directors with appropriate financial management expertise. The independent non-executive Directors have appropriate and sufficient experience and qualification to carry out their duties so as to fully represent the interests of the shareholders. The Company has received annual confirmations of independence from each of the independent non-executive Directors and still considers them to be independent.

The Directors are regularly briefed and updated with written materials on the latest developments of the Listing Rules and other applicable regulatory requirements, to ensure compliance and enhance their awareness of good corporate governance practices. The Directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skills. The Company has arranged trainings for Directors in the form of seminar and provision of training materials.

According to the records maintained by the Company, the Directors received the training on disclosure requirements and principal directors' responsibilities under the Listing Rules in compliance with the Code Provisions on continuous professional development during the year ended 31 December 2019:

Name of Director	Position	Self-reading materials	Attended seminar
Mr. E Meng	Chairman and executive Director	✓	
Mr. Ke Jian	Vice Chairman and executive Director	✓	✓
Ms. Sha Ning	Executive Director	✓	✓

CORPORATE GOVERNANCE REPORT *(CONTINUED)*

BOARD OF DIRECTORS *(CONTINUED)*

Under Code Provision A.1.1, the board should meet regularly and board meetings should be held at least four times a year at approximately quarterly intervals. It is expected regular board meetings will normally involve the active participation of a majority of directors entitled to present. However, the Company considers it is more efficient to hold Board meetings to address emerging issues as appropriate. Sufficient measures have been taken to ensure that there is efficient communication among the Directors.

Under Code Provision A.2.7, the chairman should at least annually hold meetings with the non-executive directors (including independent non-executive directors) without the executive directors present. However, the Company considers it is more effective for non-executive Directors to voice their views by individual communication with the chairman of the Board (the “Chairman”).

Under Code Provision A.6.7, independent non-executive directors and other non-executive directors should also attend general meetings and develop a balanced understanding of the views of shareholders. However, the independent non-executive Directors were unable to attend the general meetings of the Company due to other business engagements.

Under Code Provision E.1.2, the chairman of the board should attend the annual general meeting. He should also invite the chairmen of the audit, remuneration and nomination committees to attend. However, the chairmen of the Board and its committees were unable to attend the annual general meeting due to other business engagements.

CHAIRMAN AND PRESIDENT

Following the retirement of Mr. E Meng as Chairman on 3 January 2020, Mr. Ke Jian assumes the positions of Chairman of the Board and Chief Executive Officer. This arrangement deviates from Code Provision A.2.1 which recommends that the roles of chairman and chief executive should be separate and should not be performed by the same individual. However, the Board considers that such arrangement can bring benefits to the Company’s business development and management at present, and will not impair the balance of power and authority between the Board and the management of the Company.

NON-EXECUTIVE DIRECTORS

None of the existing non-executive Directors is appointed for a specific term, which constitutes a deviation from Code Provision A.4.1 which stipulates non-executive directors should be appointed for a specific term, subject to re-election. However, in view of the fact that all non-executive Directors are subject to retirement by rotation in accordance with the Company’s articles of association, the Company considers that there are sufficient measures to ensure that the corporate governance standard of the Company is not less exacting than that of the Code Provision.

CORPORATE GOVERNANCE REPORT *(CONTINUED)*

CORPORATE GOVERNANCE FUNCTIONS

The Board is responsible for performing the corporate governance functions such as developing and reviewing the Company's policies, practices on corporate governance, training and continuous professional development of the Directors and senior management, the Company's policies and practices on compliance with legal and regulatory requirements, etc.

Every Board member has full access to the advice and services of the company secretary with a view to ensuring that Board procedures, and all applicable rules and regulations are followed and they are also entitled to have full access to Board papers and related materials so that they are able to make an informed decision and to discharge their duties and responsibilities.

BOARD COMMITTEES

Remuneration Committee

The Remuneration Committee was established with terms of reference in accordance with Rule 3.25 of the Listing Rules and Code Provision B.1. The current members of the Remuneration Committee comprise three independent non-executive Directors, namely Dr. Jin Lizuo (committee chairman), Dr. Huan Guocang and Dr. Wang Jianping and the Chairman, Mr. Ke Jian. The Remuneration Committee performs an advisory role to the Board, with the Board retaining the final authority to approve executive Directors' and senior management's remuneration.

The role and function of the Remuneration Committee include (i) to make recommendations to the Board on the Company's policy and structure for all remuneration of Directors and senior management remuneration and on the establishment of a formal and transparent procedure for developing remuneration policy; (ii) to review and approve the management's remuneration proposals with reference to the Board's corporate goals and objectives; (iii) to make recommendations to the Board on the remuneration packages of individual executive Directors and senior management; (iv) to make recommendations to the Board on the remuneration packages of non-executive Directors; (v) to consider salaries paid by comparable companies, time commitment and responsibilities and employment conditions elsewhere in the Group; (vi) to review and approve compensation payable to executive Directors and senior management for any loss or termination of office or appointment to ensure that it is consistent with relevant contractual terms and is otherwise fair and not excessive; (vii) to review and approve compensation arrangements relating to dismissal or removal of Directors for misconduct to ensure that they are consistent with contractual terms and are otherwise reasonable and appropriate; and (viii) to ensure that no Director or any of his associates is involved in deciding his own remuneration.

No meeting was held by the Remuneration Committee during the year under review and the remuneration packages of the Board members remains unchanged during the year. Details of remuneration of the Directors and the five highest paid employees are set out in notes 8 and 9 to the financial statements.

Nomination Procedures

- (a) If the Board determines that an additional or replacement Director is required, the Nomination Committee may take such measures that it considers appropriate in connection with its identification and evaluation of a candidate.
- (b) The Nomination Committee may propose to the Board a candidate recommended or offered for nomination by a Shareholder as a nominee for election to the Board.
- (c) Upon considering a candidate suitable for the position of Director, the Nomination Committee will hold a meeting and/or by way of written resolutions to, if thought fit, approve the recommendation to the Board for appointment.
- (d) On making recommendation, the Nomination Committee may submit the candidate's personal profile to the Board for consideration. The Board may appoint the candidate as Director to fill a casual vacancy or as an addition to the Board or recommend such candidate to Shareholders for election or re-election (where appropriate) at the general meeting.

No meeting was held by the Nomination Committee during the year under review and no appointment of new director was proposed during the year.

Audit Committee

The Audit Committee was established with written terms of reference in accordance with Rule 3.21 of the Listing Rules and Code Provision C.3. The current members of the Audit Committee comprise three independent non-executive Directors, namely Dr. Huan Guocang (committee chairman), Dr. Jin Lizuo and Dr. Wang Jianping.

The role and function of the Audit Committee include (i) maintenance of the relationship with the Company's auditor; (ii) review of the Company's financial information; and (iii) oversight of the Company's financial reporting system, risk management and internal control procedures.

The Audit Committee held two meetings during the year under review. The meeting has reviewed the interim and annual results, financial positions, risk management, internal control, impacts of the new accounting standards and management issues of the Group.

SUBSTANTIAL SHAREHOLDERS' INTERESTS AND SHORT POSITIONS IN SHARES AND UNDERLYING SHARES *(CONTINUED)*

Notes:

- (a) The interest disclosed includes the ordinary shares owned by Idata. Idata is a wholly-owned subsidiary of BEHL. Accordingly, BEHL is deemed to be interested in the ordinary shares owned by Idata.
- (b) The interests disclosed include the ordinary shares owned by BEHL and Idata. BEBVI and BEGCL are the immediate holding company and the ultimate holding company of BEHL, respectively. Accordingly, each of BEBVI and BEGCL is deemed to be interested in the ordinary shares owned by each of BEHL and Idata.
- (c) The interests disclosed include the ordinary shares owned by Cosmos. Cosmos is a wholly-owned subsidiary of Khazanah. Accordingly, Khazanah is deemed to be interested in the ordinary shares owned Cosmos.

Save as disclosed above, as at 31 December 2019, no person, other than the Directors and chief executive of the Company, whose interests are set out in the section "Directors' and Chief Executive's Interests and Short Positions in Shares and Underlying Shares" above, had registered an interest or a short position in the shares or underlying shares of the Company that was required to be recorded pursuant to section 336 of the SFO.

ENVIRONMENTAL POLICIES AND PERFORMANCE

During the year under review, the Group has invested in eight household waste incineration plants and one hazardous and medical waste treatment plant in the PRC. The household waste handled amounted to 3.49 million tonnes and on-grid electricity amounted to 976 million kWh. The Group continues to make every effort to ensure the emission and discharge standards and environment protection performance of the plants under construction and expansion and in operation.

COMPLIANCE WITH LAWS AND REGULATIONS

The solid waste treatment operations of the Group are subject to extensive environmental, safety and health laws and regulations promulgated by the PRC government. During the year under review, certain of the Group's waste treatment plants have not completed the filing for or applied for environmental protection completion acceptance within the prescribed time limit, and therefore they are not entitled to apply for subsequent general construction completion acceptance or licenses. The Directors are of the view that the non-compliance incidents, individually and in aggregate would have no material adverse impact on the operations and financial position of the Group.

Save as aforesaid, during the year under review, to the best of the knowledge of the Directors, the Group has complied in material respects with the relevant laws and regulations that have a significant impact on the business and operation of the Company.

REPORT OF THE DIRECTORS *(CONTINUED)*

RELATIONSHIP WITH STAKEHOLDERS

The Group is committed to operate in a sustainable manner while balancing the interest of its stakeholders including customers, suppliers and employees. The Group maintains good relationship and smooth communication channels with the municipal government authorities and regional electricity bureaus in Mainland China, which are major customers of the solid waste treatment operations of the Group. Any reported issues and recommendations will be followed up promptly with the aims of improving service quality in the future. The Group is in good relationships with its suppliers and conducts a fair and strict appraisal of its suppliers on a regular basis.

Being people-oriented, the Group continues to improve and regularly review and update its policies on staff benefits, training, occupational health and safety. The Group encourages and finances its employees to attend training courses in the fields of their job responsibilities. Work life balance is also emphasised. Regular sports and leisure events were organised to strengthen the bonding among employees.

CONTINUING CONNECTED TRANSACTIONS

During the year, the Company and the Group had the following continuing connected transactions, which are subject to the announcement, reporting and annual review requirements but exempt from the independent shareholders' approval requirement under Chapter 14A of the Listing Rules.

- (a) On 27 December 2017, the Company entered into a deposit services master agreement with Beijing Enterprises Group Finance Co., Ltd. ("BG Finance", a non-wholly-owned subsidiary of BEGCL), pursuant to which the Group may, in its ordinary and usual course of business, place and maintain deposits with BG Finance on normal commercial terms from time to time for three years from 1 January 2018 to 31 December 2020. The deposit interest rate will not be lower than (i) the benchmark interest rate prescribed by the People's Bank of China; (ii) the interest rates offered by commercial banks in Hong Kong and the PRC to the Group; and (iii) the interest rates offered by BG Finance to other members of BEGCL for the same type of deposits at the same period; and the cumulative daily outstanding deposits balance (in Hong Kong dollars equivalent) placed by the Group with BG Finance (including any interest accrued thereon) during the term of the deposit services master agreement will not exceed HK\$73,800,000. Further details of the transactions are set out in the announcement of the Company dated 27 December 2017 and note 40(a)(ii) to the financial statements. During the year ended 31 December 2019, the net interest income recognised in profit and loss amounted to HK\$312,000.
- (b) On 25 October 2018, the Company entered into a property escrow agreement with 北京北控宏創科技有限公司 ("Hong Chuang", an indirect wholly-owned subsidiary of BEHL), pursuant to which Hong Chuang will provide the escrow services for sub-leasing the Company's investment property known as Block 5 of Beikong Hong Chuang Technology Park in Beijing, the PRC for an escrow period of three years from 1 September 2018 to 31 August 2021 and at an annual rent of RMB2,575,987 (subject to annual adjustment, if necessary). Further details of the transaction are set out in the announcement of the Company dated 25 October 2018 and notes 13 and 40(a)(i) to the financial statements. During the year ended 31 December 2019, the rental income recognised in profit and loss amounted to HK\$2,927,000.

REPORT OF THE DIRECTORS *(CONTINUED)*

CONTINUING CONNECTED TRANSACTIONS *(CONTINUED)*

The independent non-executive Directors have reviewed the continuing connected transactions set out above and have confirmed that these continuing connected transactions were entered into (i) in the ordinary and usual course of business of the Group; (ii) on normal commercial terms or on terms no less favourable to the Group than terms available to or from independent third parties; and (iii) in accordance with the relevant agreements governing them on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

Ernst & Young, the Company's auditor, were engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) *Assurance Engagements Other Than Audits or Reviews of Historical Financial Information and with reference to Practice Note 740 Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules* issued by the Hong Kong Institute of Certified Public Accountants. Ernst & Young have issued their unqualified letter containing their findings and conclusions in respect of the continuing connected transactions disclosed above by the Group in accordance with Rule 14A.56 of the Listing Rules. A copy of the auditor's letter has been provided by the Company to the Stock Exchange.

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the Directors, at least 25% of the Company's total number of issued shares were held by the public as at the date of this report.

DIRECTORS' INTERESTS IN A COMPETING BUSINESS

During the year and up to the date of this report, the following Directors are considered to have interests in a business which competes or is likely to compete, either directly or indirectly, with the businesses of the Group, as defined in the Listing Rules, as set out below:

During the year, Mr. E Meng was an executive director and an executive vice president of BEHL and Mr. Ke Jian and Ms. Sha Ning are vice presidents of BEHL, which is also involved in the solid waste treatment business.

Notwithstanding the fact that the Company and BEHL are both engaged in the solid waste treatment business, the Company considers that there has not been competition between it and BEHL in view of the following factors:

- (a) clear geographical delineation among solid waste treatment projects;
- (b) no competition in relation to the supply of household waste and sale of electricity;
- (c) independent management team; and
- (d) a deed of non-competition has been provided by BEHL in favour of the Company in order to completely avoid any competition between the Company and BEHL.

REPORT OF THE DIRECTORS *(CONTINUED)*

DIRECTORS' INTERESTS IN A COMPETING BUSINESS *(CONTINUED)*

As the board of Directors of the Company is independent from the board of directors of BEHL and the above Directors do not control the board of the Company, the Group is capable of carrying on its businesses independently of, and at arm's length from, the business of BEHL.

EVENTS AFTER THE REPORTING PERIOD

Details of the significant events of the Group after the reporting period are set out in note 46 to the financial statements.

To the members of Beijing Enterprises Environment Group Limited

(Incorporated in Hong Kong with limited liability)

OPINION

We have audited the consolidated financial statements of Beijing Enterprises Environment Group Limited (the "Company") and its subsidiaries (the "Group") set out on pages 41 to 137, which comprise the consolidated statement of financial position as at 31 December 2019, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2019, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

BASIS OF OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT *(CONTINUED)*

KEY AUDIT MATTERS *(CONTINUED)*

Key audit matter

How our audit addressed the key audit matter

Goodwill impairment assessment

The Group acquired certain companies engaging in the solid waste treatment business in April 2014 and October 2016 and aggregate goodwill of approximately HK\$1.12 billion arose from these acquisitions.

The recoverable amount of the cash generating unit of the solid waste treatment business was determined based on its value in use, which was determined based on the future cash flows of the solid waste treatment business and discounted to the present values.

The assumptions and methodologies used by the Group, including the waste treatment fee received, selling prices and sales volumes of electricity, operating costs, capital expenditures, growth rates and discount rates, in the projected cash flows had significant effects on the determination of the recoverable amount of the cash generating unit of the solid waste treatment business.

We identified the goodwill impairment assessment as a key audit matter because of the significant balance of goodwill and the significant management judgement and estimation involved.

Related disclosures are included in notes 3 and 15 to the financial statements.

We involved our internal valuation specialists to assist us in evaluating the valuation models, assumptions and parameters used by the Group, giving particular attention to the estimated future revenues and results. Our procedures included testing the assumptions used in the cash flow forecast, assessing the accuracy of previous forecasts by comparing them with the current performance, and evaluating the growth and trading assumptions. We then assessed the disclosures on the impairment testing, specifically the key assumptions that had the most significant effect on the determination of the recoverable amount of the goodwill, such as the discount rates and growth rates.

INDEPENDENT AUDITOR'S REPORT *(CONTINUED)*

OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT *(CONTINUED)*

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(CONTINUED)*

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting that may cast significant doubt on the Group's ability to continue as a going concern and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

INDEPENDENT AUDITOR’S REPORT *(CONTINUED)*

AUDITOR’S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(CONTINUED)*

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor’s report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor’s report is Mr. Tsang Chiu Hang.

Registered as wholly-foreign-owned enterprises under PRC law

* Registered as Sino-foreign joint ventures under PRC law

All of the above principal subsidiaries are registered as limited liability companies under PRC law and are indirectly held by the Company. The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors of the Company, result in particulars of excessive length.

NOTES TO FINANCIAL STATEMENTS *(CONTINUED)*

31 December 2019

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), accounting principles generally accepted in Hong Kong and the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties which have been measured at fair value. These financial statements are presented in Hong Kong dollar (“HK\$”) and all values are rounded to the nearest thousand except when otherwise indicated.

In preparing the consolidated financial statements, the directors of the Company have given careful consideration to the future liquidity of the Group in light of the fact that its current liabilities exceeded its current assets as at 31 December 2019. Taking into account the Group’s internal resources and undertaking from its intermediate holding company not to demand repayment of the amounts due by the Group to its subsidiaries until such time when the Group is in a position to repay without impairing its liquidity and financial position, the directors of the Company considered that the Group will be able to operate on a going concern basis. Accordingly, the consolidated financial statements have been prepared on a going concern basis.

Basis of consolidation

The consolidated financial statements include the financial statements of the Group for the year ended 31 December 2019. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

31 December 2019

2.1 BASIS OF PREPARATION (CONTINUED)

Basis of consolidation (continued)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following new and revised HKFRSs for the first time for the current year's financial statements.

Amendments to HKFRS 9	<i>Prepayment Features with Negative Compensation</i>
HKFRS 16	<i>Leases</i>
Amendments to HKAS 19	<i>Plan Amendment, Curtailment or Settlement</i>
Amendments to HKAS 28	<i>Long-term Interests in Associates and Joint Ventures</i>
HK(IFRIC)-Int 23	<i>Uncertainty over Income Tax Treatments</i>
<i>Annual Improvements to HKFRSs 2015-2017 Cycle</i>	Amendments to HKFRS 3, HKFRS 11, HKAS 12 and HKAS 23

Except for the amendments to HKFRS 9 and HKAS 19, and *Annual Improvements to HKFRSs 2015-2017 Cycle*, which are not relevant to the preparation of the Group's financial statements, the nature and the impact of the new and revised HKFRSs are described below:

- (a) HKFRS 16 replaces HKAS 17 *Leases*, HK(IFRIC)-Int 4 *Determining whether an Arrangement contains a Lease*, HK(SIC)-Int 15 *Operating Leases – Incentives* and HK(SIC)-Int 27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model to recognise and measure right-of-use assets and lease liabilities, except for certain recognition exemptions. Lessor accounting under HKFRS 16 is substantially unchanged from HKAS 17. Lessors continue to classify leases as either operating or finance leases using similar principles as in HKAS 17. HKFRS 16 did not have any financial impact on leases where the Group is the lessor.

The Group has adopted HKFRS 16 using the modified retrospective method with the date of initial application of 1 January 2019. Under this method, the standard has been applied retrospectively and the comparative information for 2018 was not restated and continues to be reported under HKAS 17 and related interpretations.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(CONTINUED)*

(a) *(continued)*

New definition of a lease

Under HKFRS 16, a contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from use of the identified asset and the right to direct the use of the identified asset. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 at the date of initial application. Contracts that were not identified as leases under HKAS 17 and HK(IFRIC)-Int 4 were not reassessed. Therefore, the definition of a lease under HKFRS 16 has been applied only to contracts entered into or changed on or after 1 January 2019.

As a lessee – Leases previously classified as operating leases

Nature of the effect of adoption of HKFRS 16

The Group has lease contracts for various items of land and buildings, machinery, motor vehicles and other equipment. As a lessee, the Group previously classified leases as either finance leases or operating leases based on the assessment of whether the lease transferred substantially all the rewards and risks of ownership of assets to the Group. Under HKFRS 16, the Group applies a single approach to recognise and measure right-of-use assets and lease liabilities for all leases, except for two elective exemptions for leases of low value assets (elected on a lease by lease basis) and leases with a lease term of 12 months or less (“short-term leases”) (elected by class of underlying asset). Instead of recognising rental expenses under operating leases on a straight-line basis over the lease term commencing from 1 January 2019, the Group recognises depreciation (and impairment, if any) of the right-of-use assets and interest accrued on the outstanding lease liabilities (as finance costs).

Impacts on transition

Lease liabilities at 1 January 2019 were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at 1 January 2019 and included in other payables and accruals. The right-of-use assets were measured at the amount of the lease liabilities, adjusted by the amount of any prepaid or accrued lease payments relating to the leases recognised in the statement of financial position immediately before 1 January 2019.

All these assets were assessed for any impairment based on HKAS 36 on that date. The Group elected to present the right-of-use assets separately in the statement of financial position.

For the leasehold land and buildings (that were held to earn rental income and/or for capital appreciation) previously included in investment properties and measured at fair value, the Group has continued to include them as investment properties at 1 January 2019. They continue to be measured at fair value applying HKAS 40.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(CONTINUED)*

(a) *(continued)*

As a lessee – Leases previously classified as operating leases *(continued)*

Impacts on transition *(continued)*

The Group has used the following elective practical expedients when applying HKFRS 16 at 1 January 2019:

- Applied the short-term lease exemptions to leases with a lease term that ends within 12 months from the date of initial application
- Used hindsight in determining the lease term where the contract contains options to extend/terminate the lease
- Applied a single discount rate to a portfolio of leases with reasonably similar characteristics when measuring the lease liabilities at 1 January 2019

Financial impact at 1 January 2019

The impact arising from the adoption of HKFRS 16 at 1 January 2019 was as follows:

	Increase/ (decrease) HK\$'000
Assets	
Increase in right-of-use assets	93,319
Decrease in prepaid land lease payments	(49,122)
Decrease in prepayments, other receivables and other assets	(1,418)

<hr/>	
Increase in total liabilities	42,779
<hr/>	

NOTES TO FINANCIAL STATEMENTS *(CONTINUED)*

31 December 2019

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(CONTINUED)*

(a) *(continued)*

Financial impact at 1 January 2019 *(continued)*

The lease liabilities as at 1 January 2019 reconciled to the operating lease commitments as at 31 December 2018 are as follows:

	HK\$'000
Operating lease commitments as at 31 December 2018	37,759
Weighted average incremental borrowing rate as at 1 January 2019	5.39%
<hr/>	
Discounted operating lease commitments as at 1 January 2019	32,958
Add: Present value of lease payments for optional extension periods not recognised as at 31 December 2018	9,821
<hr/>	
Lease liabilities as at 1 January 2019	42,779

- (b) Amendments to HKAS 28 clarify that the scope exclusion of HKFRS 9 only includes interests in an associate or joint venture to which the equity method is applied and does not include long-term interests that in substance form part of the net investment in the associate or joint venture, to which the equity method has not been applied. Therefore, an entity applies HKFRS 9, rather than HKAS 28, including the impairment requirements under HKFRS 9, in accounting for such long-term interests. HKAS 28 is then applied to the net investment, which includes the long-term interests, only in the context of recognising losses of an associate or joint venture and impairment of the net investment in the associate or joint venture. The Group assessed its business model for its long-term interest in a joint venture upon adoption of the amendments on 1 January 2019 and concluded that the long-term interest in a joint venture continued to be measured at amortised cost in accordance with HKFRS 9. Accordingly, the amendments did not have any impact on the financial position or performance of the Group.
- (c) HK(IFRIC)-Int 23 addresses the accounting for income taxes (current and deferred) when tax treatments involve uncertainty that affects the application of HKAS 12 (often referred to as "uncertain tax positions"). The interpretation does not apply to taxes or levies outside the scope of HKAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The interpretation specifically addresses (i) whether an entity considers uncertain tax treatments separately; (ii) the assumptions an entity makes about the examination of tax treatments by taxation authorities; (iii) how an entity determines taxable profits or tax losses, tax bases, unused tax losses, unused tax credits and tax rates; and (iv) how an entity considers changes in facts and circumstances. Upon adoption of the interpretation, the Group considered whether it has any uncertain tax positions arising from the transfer pricing on its intergroup sales. Based on the Group's tax compliance and transfer pricing study, the Group determined that it is probable that its transfer pricing policy will be accepted by the tax authorities. Accordingly, the interpretation did not have any impact on the financial position or performance of the Group.

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these financial statements:

Amendments to HKFRS 3	<i>Definition of a Business</i> ¹
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	<i>Interest Rate Benchmark Reform</i> ¹
Amendments to HKFRS 10 and HKAS 28 (2011)	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i> ³
HKFRS 17	<i>Insurance Contracts</i> ²
Amendments to HKAS 1 and HKAS 8	<i>Definition of Material</i> ¹

¹ Effective for annual periods beginning on or after 1 January 2020

² Effective for annual periods beginning on or after 1 January 2021

³ No mandatory effective date yet determined but available for adoption

Further information about those HKFRSs that are expected to be applicable to the Group is described below:

- (a) Amendments to HKFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group expects to adopt the amendments prospectively from 1 January 2020. Since the amendments apply prospectively to transactions or other events that occur on or after the date of first application, the Group will not be affected by these amendments on the date of transition.
- (b) Amendments to HKFRS 9, HKAS 39 and HKFRS 7 address the effects of interbank offered rate reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments are effective for annual periods beginning on or after 1 January 2020. Early application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

NOTES TO FINANCIAL STATEMENTS *(CONTINUED)*

31 December 2019

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(CONTINUED)*

- (c) Amendments to HKFRS 10 and HKAS 28 (2011) address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to HKFRS 10 and HKAS 28 (2011) was removed by the HKICPA in January 2016 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.
- (d) Amendments to HKAS 1 and HKAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. The Group expects to adopt the amendments prospectively from 1 January 2020. The amendments are not expected to have any significant impact on the Group's financial statements.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments in associates and joint ventures

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in associates and joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any accumulated impairment losses. Adjustments are made to bring into line any dissimilar accounting policies that may exist.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Investments in associates and joint ventures *(continued)*

The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in the consolidated statement of profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the asset transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group's investments in associates or joint ventures.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation either at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Business combinations and goodwill *(continued)*

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

Fair value measurement

The Group measures its investment properties at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

NOTES TO FINANCIAL STATEMENTS *(CONTINUED)*

31 December 2019

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Fair value measurement *(continued)*

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, contract assets, deferred tax assets, financial assets and investment properties), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

NOTES TO FINANCIAL STATEMENTS *(CONTINUED)*

31 December 2019

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Impairment of non-financial assets *(continued)*

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has controls or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
 - (viii) the entity, or any member of the group of which it is a part, provides key management personnel service to the Group or to the parent of the Group.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings	3.2% to 3.8%
Leasehold improvements	Over the shorter of the lease terms and 20%
Plant and machinery	4.75% to 19%
Furniture, fixtures and office equipment	9.5% to 31.7%
Motor vehicles	7.9% to 19%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents property, plant and equipment under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Investment properties

Investment properties are interests in land and buildings (including the leasehold property held as a right-of-use asset (2018: leasehold property under an operating lease) which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in the statement of profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in the statement of profit or loss in the year of the retirement or disposal.

Service concession arrangements

Concession arrangements are recognised in accordance with HK(IFRIC)-Int 12 *Service Concession Arrangements*.

HK(IFRIC)-Int 12 is applicable to concession arrangements comprising a public service obligation and satisfying both of the following criteria:

- The concession grantor controls or regulates the services to be provided by the operator using the asset, the infrastructure, the beneficiaries of the services and the prices applied; and
- The grantor controls the significant residual interest in the infrastructure at the end of the term of the arrangement.

The accounting for service concession arrangements is as follows:

Consideration given by the grantor

A financial asset (receivable under a service concession arrangement) is recognised to the extent that (a) the Group has an unconditional right to receive cash or another financial asset from or at the direction of the grantor for the construction services rendered and/or the consideration paid and payable by the Group for the right to charge users of the public service; and (b) the grantor has little, if any, discretion to avoid payment, usually because the agreement is enforceable by law. The Group has an unconditional right to receive cash if the grantor contractually guarantees to pay the Group (a) specified or determinable amounts or (b) the shortfall, if any, between amounts received from users of the public service and specified or determinable amounts, even if the payment is contingent on the Group ensuring that the infrastructure meets the specified quality of efficiency requirements. The financial asset (receivable under a service concession arrangement) is accounted for in accordance with the policy set out for “Investments and other financial assets” below.

An intangible asset (operating concession) is recognised to the extent that the Group receives a right to charge users of the public service, which is not an unconditional right to receive cash because the amounts are contingent on the extent that the public uses the service. The intangible asset (operating concession) is accounted for in accordance with the policy set out for “Intangible assets (other than goodwill)” below.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Service concession arrangements (continued)

Consideration given by the grantor (continued)

If the Group is paid partly by a financial asset and partly by an intangible asset, in which case, each component of the consideration is accounted for separately and the consideration received or receivable for both components shall be recognised initially at the fair value of the consideration received or receivable.

Construction services

Revenue and costs relating to construction services are accounted for in accordance with the policy set out for “Construction contracts” below.

Operating services

Revenue relating to operating services are accounted for in accordance with the policy for “Revenue recognition” below. Costs for operating services are expensed in the period in which they are incurred.

Contractual obligations to restore the infrastructure to a specified level of serviceability

The Group has contractual obligations which it must fulfil as a condition of its licence, that is (a) to maintain the solid waste incineration plants it operates to a specified level of serviceability and/or (b) to restore the plants to a specified condition before they are handed over to the grantor at the end of the service concession arrangement. These contractual obligations to maintain or restore the solid waste incineration plants, except for upgrade elements, are recognised and measured in accordance with the policy set out for “Provisions” below.

Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end. The principal annual rates used for this purpose are as follows:

Operating concessions	3.3% to 5.5%
Operating rights	3.7% to 4.1%
Licences	4% to 6.7%
Computer software	10% to 20%

The Group entered into service concession agreements with government authorities and obtained the rights to operate solid waste incineration plants in the PRC. Where the service concession arrangement is on a Build-Operate-Transfer (“BOT”) basis, HK(IFRIC)-Int 12 applies and the non-guarantee receipt right to receive cash is accounted for as an “operating concession”. Where the service concession arrangement is on a Build-Operate-Own (“BOO”) basis, HK(IFRIC)-Int 12 does not apply and the fair value of the non-guarantee receipt right to receive cash acquired in a business combination is accounted for as a “operating right”. Amortisation of “operating concessions” and “operating rights” is provided on the straight-line basis over the respective periods of the operating concessions granted to the respective subsidiaries of the Group.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Intangible assets (other than goodwill) *(continued)*

Intangible assets with finite lives are subsequently assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

An intangible asset is derecognised on disposal or when no further economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the profit or loss in the period the intangible asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant intangible asset.

Operating leases (applicable from 1 January 2019)

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right of use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Land and building	2 to 5 years
Leasehold land	50 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Operating leases (applicable from 1 January 2019) *(continued)*

Group as a lessee *(continued)*

(b) Lease liabilities (continued)

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

The Group's lease liabilities are included in "Other payables and accruals".

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of building, machinery and equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value.

Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Group as a lessor

When the Group acts as lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Lease that transfer substantially all the risk and rewards incidental to ownership of an underlying assets to the lessee are accounted for as finance leases.

Operating leases (applicable before 1 January 2019)

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to the statement of profit or loss on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

NOTES TO FINANCIAL STATEMENTS *(CONTINUED)*

31 December 2019

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

NOTES TO FINANCIAL STATEMENTS *(CONTINUED)*

31 December 2019

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Impairment of financial assets *(continued)*

General approach *(continued)*

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 3 years past due. As some of the customers of the Group are enterprises directly or indirectly owned and/or controlled by the PRC government through its numerous authorities affiliates or other organisations and there was no history of default in prior years, the directors of the Company considered the default rate is minimal. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Debt investments at fair value through other comprehensive income and financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables and contract assets which apply the simplified approach as detailed below.

- Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified approach

For trade receivables and contract assets that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as loans and borrowings, which are recognised initially at fair value and net of directly attributable transaction costs.

Subsequent measurement

After initial recognition, loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are integral part of the effective interest rate. The effective interest rate amortisation is included in “Finance costs” in the statement of profit or loss.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Convertible bonds

Convertible bonds that can be converted to equity share capital at the option of the holder, where the number of shares that would be issued on conversion and the value of the consideration that would be received at that time do not vary, are accounted for as compound financial instruments which contain both a liability component and an equity component (conversion option).

The component of convertible bonds that exhibits characteristics of a liability is recognised as a liability in the statement of financial position, net of transaction costs. On issuance of convertible bonds, the fair value of the liability component is determined using a market rate for an equivalent non-convertible bond; and this amount is carried as a non-current liability or a current liability, as appropriate, on the amortised cost basis until extinguished on conversion or redemption. The remainder of the proceeds is allocated to the conversion option (the equity component) that is recognised and included in shareholders' equity, net of transaction costs. The carrying amount of the conversion option is not remeasured in subsequent years. In respect of the convertible bonds issued by the Company, the equity component is included in the Company's convertible bond equity reserve. Transaction costs are apportioned between the liability and equity components of the convertible bonds based on the allocation of proceeds to the liability and equity components when the instruments are first recognised.

Upon the exercise of the conversion option, the resulting shares issued are recorded by the Company as additional share capital.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Convertible bonds *(continued)*

When convertible bonds are redeemed, the carrying amount of the equity component is transferred to retained profits as a movement in reserves and any difference between the amount paid and the carrying amount of the liability component is recognised in profit or loss. Where the conversion option remains unexercised at the expiry date, any remaining balance of the equity component of the convertible bonds will be transferred to retained profits as a movement in reserves. No gain or loss is recognised in profit or loss upon conversion or expiration of the conversion option.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis and includes all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statements of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in "Finance costs" in the statement of profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, an associate and a joint venture, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

- where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, an associate and a joint venture, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Income tax *(continued)*

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue recognition (continued)

Revenue from contracts with customers (continued)

(a) *Waste and other treatments*

Revenue from waste treatment, leachate, sludge and other treatments is recognised at the point in time when the services are rendered.

(b) *Sales of electricity and steam*

Revenue from the sales of electricity and steam is recognised at the point in time when control of the asset is transferred to the customer, generally when the customer obtains the physical possession or the legal title of the electricity and/or steam and the Group has present right to payment and the collection of the consideration is probable.

(c) *Construction services*

Revenue from the provision of construction services is recognised over time, using an input method to measure progress towards complete satisfaction of the service, because the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced. The input method recognises revenue based on the proportion of the actual costs incurred relative to the estimated total costs for satisfaction of the construction and landscaping services.

Revenue from other construction services under a service concession arrangement is estimated on a cost plus basis with reference to a prevailing market rate of gross margin at the date of the agreement applicable to similar construction services rendered.

Revenue from other sources

Rental income is recognised on a time proportion basis over the lease terms.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment assessment, details of which are included in the accounting policies for impairment of financial assets.

NOTES TO FINANCIAL STATEMENTS *(CONTINUED)*

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

Contract costs

Other than the costs which are capitalised as inventories, property, plant and equipment and intangible assets, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- (a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- (b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- (c) The costs are expected to be recovered.

The capitalised contract costs are amortised and charged to the statement of profit or loss on a systematic basis that is consistent with the pattern of the revenue to which the asset related is recognised. Other contract costs are expensed as incurred.

Employee benefits

Share-based payments

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using the Black-Scholes-Merton option pricing model.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in the share option reserve, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

NOTES TO FINANCIAL STATEMENTS *(CONTINUED)*

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Employee benefits *(continued)*

Share-based payments *(continued)*

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options, if any, is reflected as additional share dilution in the computation of earnings per share.

Pension schemes

Certain companies within the Group have participated in a number of defined contribution retirement benefit schemes required by the respective local governments in which they operate for their employees. Contributions are made based on a certain percentage of the covered payroll and are charged to profit or loss as they become payable in accordance with the rules of the schemes. The assets of the schemes are held separately from those of the Group in independently administered funds. The Group's employer contributions vest fully with the employees when contributed into the schemes.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e. translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain overseas and Mainland China subsidiaries are currencies other than the Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into Hong Kong dollars at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into Hong Kong dollars at the weighted average exchange rates for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

Foreign currencies *(continued)*

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas and Mainland China subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas and Mainland China subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

The major judgements, estimates and assumptions that have the most significant effect on the amounts recognised in the financial statements and that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are set out below:

Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use or fair value less costs of disposal of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. For the Group's service concession arrangements, an assumption is also made on the possibility of renewal of the relevant operating rights upon expiry which enables the Group to generate income perpetually. The carrying amount of goodwill carried as an asset in the consolidated statement of financial position as at 31 December 2019 was HK\$1,122,551,000 (2018: HK\$1,122,551,000), details of which are set out in note 15 to the financial statements.

Percentage of completion of construction work

The Group recognises revenue for construction work according to the percentage of completion of the individual contracts of construction work. The Group's management estimates the percentage of completion of construction work based on the actual cost incurred over the total budgeted cost, where the corresponding contract revenue is also estimated by management. Because of the nature of the activity undertaken in construction, the date at which the activity is entered into and the date when the activity is completed usually fall into different accounting periods. The Group reviews and revises the estimates of both contract revenue and contract costs in the budget prepared for each construction contract as the contract progresses.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(CONTINUED)*

Useful lives and residual values of property, plant and equipment and intangible assets (other than goodwill)

The Group's management determines the useful lives, residual values and related depreciation/amortisation charges for the Group's property, plant and equipment and intangible assets. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment and intangible assets of similar nature and functions. It could change significantly as a result of technical innovations and competitor actions in response to severe industry cycles. Management will increase the depreciation/amortisation charges where useful lives or residual values are less than previously estimated, or it will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold. Actual economic lives may differ from estimated useful lives. Periodic review could result in a change in depreciable/amortisable lives of the Group's property, plant and equipment and intangible assets and therefore depreciation/amortisation in the future periods.

Impairment of property, plant and equipment and intangible assets (other than goodwill)

The carrying amounts of items of property, plant and equipment and intangible assets are reviewed for impairment when events or changes in circumstances indicate that the carrying amounts may not be recoverable in accordance with the accounting policy as disclosed in note 2.4 to the financial statements. The recoverable amount is the higher of its fair value less costs of disposal and value in use, and calculations of which involve the use of estimates. In estimating the recoverable amounts of assets, various assumptions, including future cash flows or compensation to be associated with the non-current assets and discount rates, are made. If future events do not correspond to such assumptions, the recoverable amounts will need to be revised, and this may have an impact on the Group's results of operations or financial position.

Current tax and deferred tax

The Group is subject to income taxes in Hong Kong, Mainland China and overseas jurisdictions. The Group carefully evaluates tax implications of transactions in accordance with prevailing tax regulations and makes tax provisions accordingly. However, judgement is required in determining the Group's provision for income taxes as there are many transactions and calculations of which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact on the income tax and deferred tax provision in the periods in which such determination is made.

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group's operating businesses are structured and managed separately according to the nature of their operations and the products and services they provide. Each of the Group's operating segments represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of the other operating segments.

During the year ended 31 December 2019, upon the development of the landscaping services business, it became a reportable operating segment. Particulars of the Group's reportable operating segments are summarised as follows:

- (a) the solid waste treatment segment comprises the construction and operation of waste incineration plants, waste treatment and the sale of electricity and steam generated from waste incineration;
- (b) the landscaping services segment comprises the construction, design, project survey and design and construction project management; and
- (c) the corporate and others segment comprises property investment and corporate income and expense items.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is measured consistently with the Group's profit for the year.

Segment assets and liabilities of each of the reportable operating segments are separately managed by each of the individual operating segments.

Geographical information

Geographical information is not presented since over 90% of the Group's revenue from external customers is generated in Mainland China and over 90% of the non-current assets (other than financial assets) of the Group are located in Mainland China. Accordingly, in the opinion of the directors of the Company, the presentation of geographical information would provide no additional useful information to the users of the financial statements.

Information about a major customer

During the year, the Group had transactions with an external customer which accounted for over 10% of the Group's total revenue. The revenue generated from sales to this customer is amounted to HK\$314,068,000 (2018: HK\$253,164,000).

(ii) Performance obligation

Information about the Group's performance obligations is summarised below:

(a) Waste and other treatments

The performance obligation of waste treatment, leachate, sludge and other treatments is satisfied at the point in time.

(b) Sales of electricity and steam

The performance obligation is satisfied when control of the asset is transferred to the customer, generally when the customer obtains the physical possession or the legal title of the electricity and/or steam and the Group has present right to payment and the collection of the consideration is probable.

(c) Construction services

The performance obligation is satisfied over time, using an input method to measure progress towards complete satisfaction of the service, because the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced. The input method recognises revenue based on the proportion of the actual costs incurred relative to the estimated total costs for satisfaction of the construction and landscaping services.

11. EARNINGS PER SHARE ATTRIBUTABLE TO MEMBERS OF THE COMPANY

The calculation of the basic earnings per share amounts is based on the profit for the year attributable to members of the Company, and the weighted average number of ordinary shares in issue during the year.

The calculation of the diluted earnings per share amount is based on the profit for the year attributable to members of the Company, adjusted to reflect the imputed interest on convertible bonds. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the year, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of all dilutive potential ordinary shares into ordinary shares.

The calculations of basic and diluted earnings per share amounts are based on:

- (a) At 31 December 2019, the land and building in relation to a solid waste incineration plant with a net carrying amount of HK\$45,322,000 (2018: HK\$48,687,000) were pledged to secure a bank loan granted to the Group (note 28(b)).
- (b) At 31 December 2019, the Group was in the process of applying for the change of registration of the title certificates with respect to the buildings of the plant of Beikong Zhangjiagang to which the Group's service concession arrangement relates. The directors of the Group are of the opinion that the Group is entitled to the lawful and valid occupation or use of the buildings and that the Group would not have any legal barriers in obtaining the title certificates.

Moreover, at 31 December 2019, the Group was in the process of applying for the completion of final acceptance of the construction of the plant of Beikong Zhangjiagang from the relevant government authorities. The directors of the Company are of the opinion that the Group expected to have no legal barriers in completing the final acceptance of the plant of Beikong Zhangjiagang or subject to any administrative sanctions and the Group is legitimated to operate the plant of Beikong Zhangjiagang.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

12. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Notes: (continued)

- (c) The Group's property, plant and equipment included the assets of a solid waste incineration plant (the "Existing Plant") of Beikong Zhangjiagang, which is operating under a BOO basis with an original concession period of 30 years up to 2038. During the year ended 31 December 2019, the Group has agreed with the local governmental authority to construct and operate a new plant (the "New Plant") on a BOT basis with a concession period of 30 years in order to replace the Existing Plant. The construction of the New Plant had not commenced as at 31 December 2019. According to the negotiation with the local government authorities, the residual value of the Existing Plant would be compensated by the local government. Thus, in the opinion of the directors, no impairment is considered necessary for the Existing Plant as at 31 December 2019.
- (d) The Group's property, plant and equipment also included the assets of a solid waste incineration plant of Taian Beikong (the "Taian Plant") under an operating concession arrangement on a BOO basis. During the year ended 31 December 2019, a portion of the assets of the Taian Plant are required for further modification in order to meet the new measures on environmental protection and emission imposed by the PRC government. According to the terms of the original service concession agreement, under such circumstance, the Group has the right to request for the increase in solid waste treatment fees from the local government for compensating the costs of modification to be borne by the Group. The Group is currently finalising the terms of the revised service concession agreement with the local government, and in the opinion of the directors, no impairment is considered necessary for the Taian Plant as at 31 December 2019.

13. INVESTMENT PROPERTY *(CONTINUED)*

On 31 August 2015, the Company entered into a property escrow agreement with Hong Chuang and pursuant to which Hong Chuang will provide the escrow services for sub-leasing the Hong Chuang Building for an escrow period of three years from 1 September 2015 to 31 August 2018 and at an annual rent of RMB2,575,987. The property escrow agreement has been renewed on 25 October 2018 to extend the escrow period for three years to 31 August 2021 at an annual rent of RMB2,575,987 (subject to annual adjustment, if necessary). Further details of the transaction are set out in the announcement of the Company dated 25 October 2018. During the year, the rental income recognised in profit and loss amounted to HK\$2,927,000 (2018: HK\$3,067,000). Despite that the Company is still in the process of applying for the change of registration of the title certificates with respect to the land use right and the Hong Chuang Building up to the date of approval of these financial statements, the directors of the Company are of the opinion that the title of the property had been transferred to the Company according to the property transfer agreement upon the effective date of the property escrow agreement and the Company is entitled to the lawful and valid occupation or use of the Hong Chuang Building and that the Company would not have any legal barriers in obtaining the title certificates.

Each year, the Group's management decides to appoint which external valuer to be responsible for the external valuation of the Group's investment property. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Group's management has discussion with the valuer on the valuation assumptions and valuation results annually when the valuation is performed for annual financial reporting purpose.

The Group's investment property is measured at fair value by applying the valuation approach as described above using inputs which are not based on observable market data (unobservable inputs) at the end of each reporting period and such measurement is classified as level 3 in the fair value hierarchy of HKFRS 13.

During the year, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3.

At 31 December 2019, the Hong Chuang Building was revalued based on a valuation performed by Cushman & Wakefield Limited, independent professionally qualified valuers, by using the direct comparison method. Under the direct comparison method, the capital value is with reference to comparable sale transactions as available in the relevant market. Comparable properties are analysed and carefully weighted against all the respective advantages and disadvantages of each property, including the location, quality, level, asking price adjustment, internal decoration, view and size in order to arrive at a fair comparison of capital value.

14. LEASES

The Group as a lessee

The Group has lease contracts for various items of land and buildings, machinery, motor vehicles and other equipment used in its operations. Lump sum payments were made upfront to acquire the leased land from the owners with lease periods of 50 years, and no ongoing payments will be made under the terms of these land leases. Leases of land and buildings generally have lease terms between 2 and 5 years. Machinery, motor vehicles and other equipment generally has lease terms of 12 months or less and/or is individually of low value. Generally, the Group is restricted from assigning and subleasing the leased assets outside the Group.

14. LEASES *(CONTINUED)*

The Group as a lessor

The Group leases its investment property consisting of a commercial property in Mainland China under operating lease arrangement. The term of the lease provides for periodic rent adjustments according to the then prevailing market conditions. Rental income recognised by the Group during the year was HK\$2,927,000 (2018: HK\$3,067,000), details of which are included in note 13 to the financial statements.

At 31 December 2019, the undiscounted lease payments receivable by the Group in future periods under non-cancellable operating leases with its tenants are as follows:

Impairment testing of goodwill

The carrying amount of the goodwill acquired through the acquisition of subsidiaries has been allocated to the solid waste treatment segment of the Group for impairment testing.

The recoverable amount of the cash generating unit of the solid waste treatment segment has been determined based on a value-in-use calculation using cash flow projections based on financial forecasts approved by senior management covering the service concession periods and based on the assumption that sizes of the operations remain constant perpetually. The discount rate applied to the cash flow projections was 9.6% (2018: 9.6%). The growth rate used to extrapolate the cash flows beyond the service concession periods was 3% (2018: 3%).

Based on the results of the impairment testing of goodwill, in the opinion of the directors of the Company, no impairment provision is considered necessary for the Group's goodwill as at 31 December 2019 (2018: Nil).

Assumptions were used in the value-in-use calculation of the solid waste treatment segment for 31 December 2019 and 31 December 2018. The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill:

Budgeted turnover – It is based on the projected solid waste treatment volume and the latest solid waste treatment and electricity selling prices up to the date of the forecast.

Budgeted gross margins – The basis used to determine the value assigned to the budgeted gross margins is the average gross margins achieved in the year immediately before the budget year, increased for expected efficiency improvements, and expected market development.

15. **GOODWILL** *(CONTINUED)*

Business environment – There have been no major changes in the existing political, legal and economic conditions in Mainland China. Under the service concession arrangements, the Group has been granted with priority for renewal of operating rights of its solid waste incineration plants. Given its performance record and its relationship with the grantors, the Group has key advantages over other operators. In addition, the high investment cost has also created an entry barrier for new competitors. Therefore, in the opinion of the directors of the Company, the operating rights of solid waste incineration plants shall be renewed upon expiry, and therefore, the size of the solid waste treatment operation is expected to remain constant perpetually, which enables the Group to generate income perpetually.

Discount rates – The discount rates used are after tax and reflect specific risks relating to the relevant business units. The pre-tax discount rate implied in the cash flow projections is 11.19% for the relevant business units (2018: 11.1%).

16. **SERVICE CONCESSION ARRANGEMENTS**

The Group has entered into service concession arrangements with governmental authorities in Mainland China on a BOT basis in respect of the construction and operation of solid waste incineration plants. These service concession arrangements involve the Group as an operator in (i) constructing the incineration plants (the “Facilities”) for those arrangements on a BOT basis; and (ii) operating and maintaining the Facilities at a specified level of serviceability on behalf of the relevant governmental authorities for periods ranging from 15 to 30 years (the “Service Concession Periods”), and the Group will be paid for its services over the Service Concession Periods at prices stipulated through a pricing mechanism. The Group is generally entitled to use all the property, plant and equipment of the Facilities, but the relevant governmental authorities as grantors retain the beneficial entitlement to any residual interest in the Facilities at the end of the term of the Service Concession Periods. Each of these service concession arrangements is governed by a contract and, where applicable, supplementary agreements entered into between the relevant subsidiaries and the relevant governmental authority in Mainland China that set out, inter alia, performance standards, mechanisms for adjusting prices for the services rendered by the Group, specific obligations levied on the Group to restore the Facilities to a specified level of serviceability at the end of the Service Concession Periods, and arrangements for arbitrating disputes.

16. SERVICE CONCESSION ARRANGEMENTS *(CONTINUED)*

Details of the major terms of the service concession arrangements are set out as follows:

Name of company as operator	Location	Name of grantor	Type of service concession arrangement	Practical processing capacity (tonnes/day)	Service concession period
Changde Zhonglian	Hunan	常德市環境衛生管理處	BOT	Phase I: 800 Phase II: 600	27 years from 2010 to 2037 Not yet finalised

Beikong Shuyang	Jiangsu	江蘇省沭陽縣人民政府	BOT	Phase I: 600 Phase II: 600	30 years from 2015 to 2045 30 years from 2018 to 2048
Beikong Wenchang	Hainan	海南省文昌市人民政府	BOT	225	15 years from 2012 to 2027
Hunan Hengxing	Hunan	湖南省環境保護廳	BOT	96	25 years from 2017 to 2042

Pursuant to the service concession agreements entered into by the Group, the Group is granted the rights to use the land and the property, plant and equipment of the Facilities, which are generally registered under the name of the relevant subsidiaries of the Group, during the Service Concession Periods, but the Group is generally required to return the property, plant and equipment to the grantors at a specified level of serviceability at the end of the respective Service Concession Periods under the BOT arrangements. At 31 December 2019, the Group was in the process of applying for the change of registration of the title certificates with respect to the land use right and the buildings of several Facilities to which the Group's service concession arrangements relate. The directors of the Company are of the opinion that the Group is entitled to the lawful and valid occupation or use of these buildings and land and that the Group would not have any legal barriers in obtaining the title certificates.

Moreover, the Group was in the process of applying for the completion of final acceptance and certain permits of the Facilities from the relevant government authorities up to the date of approval of the consolidated financial statements. The directors and the legal adviser of the Company are of the opinion that the Group is legitimated to operate the Facilities and that the Group expects to have no legal barriers which prevent it from obtaining the relevant permits and it is unlikely for the Group to incur any extra costs or administrative sanctions in respect of the matters.

16. SERVICE CONCESSION ARRANGEMENTS (CONTINUED)

As further explained in the accounting policy for “Service concession arrangements” set out in note 2.4 to the financial statements, the consideration paid by the Group for a service concession arrangement is accounted for as an intangible asset (operating concession) or a combination of an intangible asset and a financial asset (receivables under service concession arrangements), as appropriate.

Notes:

- (a) During the year ended 31 December 2019, a portion of the assets of the solid waste incineration plant of Changde Zhonglian will be phased out in advance in order to meet the new measures on environmental protection and emission imposed by the PRC government. According to the terms of the original service concession agreement and after negotiation with the local government authorities, the losses to be suffered by the Group relating to assets to be dismantled (the “Subject Assets”) will be borne by the Group, while the Group will be compensated by the local government for those assets that can be continued to be used in other phases of the same project (the “Retained Assets”). The Group is currently finalising the details of the compensation arrangement for the Retained Assets with the local government. In the opinion of the directors, no impairment is considered necessary for the Retained Assets, and an impairment of HK\$46 million had been recognised on the Subject Assets during the year ended 31 December 2019. The impairment amount represented the relative value of the Subject Assets included in the related assets of the project.
- (b) During the year ended 31 December 2019, the Group’s solid waste incineration plant of Ha’erbin Shuangqi, had been underperforming due to the extreme cold weather in winter and left-behind construction problems during the project construction period. This indicated that the related assets of the service concession arrangement, with net carrying amount of HK\$770 million as at 31 December 2019, might have been impaired. The management has appointed an independent professional valuer to estimate the recoverable amount of the related assets based on a value-in-use calculation using cash flow projections based on financial forecasts approved by senior management. The discount rate applied to the cash flow projections was 9.6%. Based on the results of the impairment assessment, the recoverable amount of the Ha’erbin project was estimated to be HK\$702 million, and an impairment of HK\$68 million has been recognised during the year ended 31 December 2019.

Receivables under service concession arrangements (continued)

Details of contract assets which are presented as operating concessions and receivables under service concession arrangements are as follows:

	31 December 2019 HK\$'000	31 December 2018 HK\$'000	1 January 2018 HK\$'000

Receivables under service concession arrangements	89,053	80,374	781,247
Total contract assets	232,597	518,276	1,631,289

Contract assets are initially recognised for revenue earned from the provision of construction services for the infrastructures during the period of construction under the service concession arrangements. Pursuant to the service concession agreements, the Group receives no payment from the grantors during the construction period and receives service fees when relevant provision of solid waste treatment services are rendered. The receivables under service concession arrangement (including the contract assets therein) are not yet due for payment and will be settled by service fees to be received during the operating periods of the service concession arrangements. Amounts billed will then be transferred to trade receivables (note 20). The decrease in contract assets in 2019 and 2018 was the result of the completion of a solid waste incineration plant of Changde Zhonglian and Beikong Lvhaiheng, respectively. The Group's trading terms and credit policy with customers are disclosed in note 20 to the financial statements.

Contract assets arising from:			
Construction services	42,430	–	–
Landscaping services	181,219	69,452	–
Total contract assets	223,649	69,452	–

Contract assets are initially recognised for revenue earned from the provision of construction and landscaping services as the receipt of consideration is conditional or successful completion of construction and landscaping. All contract assets as at 31 December are expected to be recovered or settled within one year. In addition to the acquisition of Beifa Landscape during the year ended 31 December 2018 (note 35), the increase in contract assets in 2019 and 2018 was the result of the increase in the ongoing provision of construction and landscaping services during the years. The Group's exposure to credit risk is insignificant and the directors of the Company are of the opinion that the ECL of the contract assets is minimal.

22. PREPAYMENTS, OTHER RECEIVABLES AND OTHER ASSETS

	Notes	2019 HK\$'000	2018 HK\$'000
Prepayments		89,377	39,173

25. SHARE OPTION SCHEME

The Company operates a share option scheme (the “Scheme”) for the purpose of (i) attracting and retaining the best quality personnel for the development of the Company’s business; (ii) providing incentives and rewards to eligible participants; and (iii) promoting the long term financial success of the Company by aligning the interests of grantees to shareholders. Eligible participants of the Scheme include (i) any person employed by the Company or a subsidiary of the Company and any person who is an officer or director (whether executive or non-executive) of the Company or any subsidiary of the Company; (ii) any non-executive director and any independent non-executive director, or officer of any member of the Group; and (iii) any consultant of any member of the Group. The Scheme became effective on 31 May 2011 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the number of ordinary shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period is limited to 1% of the ordinary shares of the Company in issue at any time. Any further grant of share options in excess of these limits is subject to shareholders’ approval in a general meeting.

Share options granted to a director or chief executive of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the ordinary shares of the Company in issue at any time or with an aggregate value (based on the price of the Company’s ordinary shares at the date of grant) in excess of HK\$5 million, within any 12-month period, are subject to shareholders’ approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 28 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors, and commences after the acceptance of the share options or a certain vesting period, if any, and ends on a date which is not later than ten years from the date on which the offer of the share options is granted.

The exercise price of share options is determinable by the directors, but may not be less than the higher of (i) the closing price of the Company’s shares on the Stock Exchange on the date of offer of the share options; and (ii) the average closing price of the Company’s shares on the Stock Exchange for the five trading days immediately preceding the date of offer.

NOTES TO FINANCIAL STATEMENTS *(CONTINUED)*

31 December 2019

25. SHARE OPTION SCHEME *(CONTINUED)*

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings. The share options are non-transferable and lapse when they expire or within three months from the date on which the grantee ceases to be an employee of the Group.

There was no movement in the share options granted under the Scheme during the years ended 31 December 2019 and 2018. At the end of the reporting period and the date of approval of these financial statements, the Company had 37,620,000 (2018: 37,620,000) share options outstanding under the Scheme, which represented approximately 2.5% of the Company's ordinary shares in issue at that date. The exercise price of the share options is HK\$1.25 per share, which is subject to adjustment in the case of rights or bonus issues, or other similar changes in the Company's share capital. The share options are exercisable during the period from 21 June 2011 to 20 June 2021. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of 37,620,000 additional ordinary shares of the Company and additional share capital of HK\$67,814,000 (before issue expenses).

26. RESERVES

- (a) The amounts of the Group's other reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity on page 45 of the financial statements.
- (b) The share option reserve comprises the fair value of share options vested which are yet to be exercised, as further explained in the accounting policy of share-based payments in note 2.4 to the financial statements. The amount will either be transferred to the share capital account when the related share options are exercised, or transferred to retained profits/accumulated losses should the related share options expire or be forfeited.
- (c) PRC reserve funds are reserves set aside in accordance with the PRC Companies Law or the Law of the PRC on Joint Ventures Using Chinese and Foreign Investment as applicable to the Group's PRC subsidiaries. None of the Group's PRC reserve funds as at 31 December 2019 was distributable in the form of cash dividends (2018: Nil).

27. CONVERTIBLE BONDS *(CONTINUED)*

Notes:

- (a) Pursuant to the subscription agreement dated 15 September 2011 (as amended by the supplemental agreements in relation thereto, collectively the “Subscription Agreements”) entered into between the Company, Idata as subscriber, and BEHL as guarantor, the Company issued convertible bonds (Batch 1 and Batch 2) to Idata, which had an initial conversion price of HK\$1.13 per ordinary share of the Company, originally bore interest at the rate of 1% per annum and matured on 28 February 2018. Further details of the Subscription Agreements are set out in the circular of the Company dated 21 December 2012.

In March 2016, Idata has agreed to unilaterally waive (i) the payment of paid interests accrued on the convertible bonds amounting to HK\$12,059,000 and to refund such interests in full to the Company; and (ii) all interest payable under the outstanding convertible bonds to be incurred up to their maturity date.

The convertible bonds were matured during the year ended 31 December 2018 and the principal amount outstanding had been reclassified to amount due to the immediate holding company (note 33).

- (b) On 31 October 2016, pursuant to the completion of the acquisition of certain equity interests in companies engaged in the solid waste treatment business from BEHL, the Company issued convertible bonds (Batch 3) in the principal amount of HK\$2,202,300,000 to Idata as consideration. The convertible bonds have an initial conversion price of HK\$1.13 per ordinary share of the Company, bear no interest and will mature on 31 October 2021. Further details of the acquisition are set out in the circular of the Company dated 24 June 2016.

The Company’s convertible bonds are bifurcated into liability and equity components for accounting purposes. The component of convertible bonds that exhibits characteristics of a liability is recognised as a liability in the consolidated statement of financial position, net of transaction costs. On issuance of convertible bonds, the fair value of the liability component is determined using a market rate for an equivalent non-convertible bond; and this amount is carried as a long term liability on the amortised cost basis until extinguished on conversion or redemption. The remainder of the proceeds is allocated to the conversion option that is recognised and included in shareholders’ equity, net of transaction costs. The carrying amount of the conversion option is not remeasured in subsequent years. Transaction costs are apportioned between the liability and equity components of the convertible bonds based on the allocation of proceeds to the liability and equity components when the instruments are first recognised.

28. BANK AND OTHER BORROWINGS (CONTINUED)

Notes: (continued)

- (c) The Group's other loans from a fellow subsidiary, BG Finance, bear interest at discounted floating lending rates of 94% to 100% of one to five years or above from the People's Bank of China and are repayable by instalments up to 2026. Included in other loans from BG Finance of HK\$410,000,000 (2018: HK\$468,037,000) are guaranteed by a fellow subsidiary of the Company.
- (d) The Group's other loans are repayable on demand and advanced from (i) a non-controlling equity holder of HK\$19,101,000 (2018: Nil), of which HK\$5,618,000 (2018: Nil) is interest free and HK\$13,483,000 (2018: Nil) bear interest at floating lending rates from the People's Bank of China; and (ii) third parties of HK\$43,876,000 (2018: HK\$25,913,000), of which HK\$15,337,000 (2018: HK\$10,160,000) are interest free and HK\$28,539,000 bear interest at floating lending rates from the People's Bank of China (2018: HK\$15,753,000 bear interest at floating deposit rates from the People's Bank of China and Industrial Bank).

29. PROVISION FOR MAJOR OVERHAULS

Pursuant to the service concession agreements entered into by the Group, the Group has contractual obligations to maintain the waste treatment and power generation plants it operates to a specified level of serviceability and/or to restore the plant to a specified condition before it is handed over to the grantors at the end of the service concession periods. These contractual obligations to maintain or restore the waste treatment and power generation plants, except for any upgrade element, are recognised and measured in accordance with HKAS 37, i.e., at the best estimate of the expenditure that would be required to settle the present obligation at the end of the reporting period. The future expenditure on these maintenance and restoration costs is collectively referred to as "major overhauls". The estimation basis is reviewed on an ongoing basis and revised where appropriate.

The movements in the provision for major overhauls of the waste treatment and power generation plants during the year are as follows:

30. DEFERRED INCOME

At 31 December 2019, deferred income of the Group represented government subsidies in respect of the Group's construction of the waste treatment and power generation plants in Mainland China. The subsidies are interest-free and not required to be repaid, and are recognised in profit or loss on the straight-line basis over the expected useful lives of the relevant assets.

31. DEFERRED TAX

An analysis of the net deferred tax assets/(liabilities) recognised in the statement of financial position is as follows:

	2019 HK\$'000	2018 HK\$'000
Deferred tax assets	7,684	17,748
Deferred tax liabilities	(238,638)	(263,818)
	(230,954)	(246,070)

The components of deferred tax assets and liabilities and the movements during the year are as follows:

Notes	Losses available for offsetting against future taxable profits HK\$'000	Fair value adjustments arising from acquisition of subsidiaries HK\$'000	Temporary differences related to service concession arrangements HK\$'000	Impairment provision HK\$'000	Provision for major overhauls HK\$'000	Net deferred tax assets/(liabilities) HK\$'000

At 31 December 2019	9,449	(56,202)	(213,162)	27,148	1,813	(230,954)

At 31 December 2019, deferred tax assets have not been recognised in respect of (i) unused tax losses arising in Hong Kong of approximately HK\$132,412,000 (2018: HK\$132,412,000) that are available indefinitely for offsetting against future taxable profits of the companies in which the losses arose; and (ii) unused tax losses arising in Mainland China of HK\$78,796,000 (2018: HK\$9,857,000) that will expire in one to five years for offsetting against future taxable profit, as they have been arisen in certain subsidiaries that have been loss-making for some time and it is not probable that taxable profits will be available against which such tax losses can be utilised.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

31 December 2019

31. DEFERRED TAX (CONTINUED)

Pursuant to the PRC Corporate Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rates are 5% or 10%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries and the joint venture established in Mainland China in respect of earnings generated from 1 January 2008.

At 31 December 2019, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Group's subsidiaries established in Mainland China (2018: Nil). In the opinion of the directors of the Company, it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised totalled approximately HK\$755,897,000 (2018: HK\$418,928,000) as at 31 December 2019.

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

32. TRADE PAYABLES

An ageing analysis of the Group's trade payables as at the end of the reporting period, based on the invoice date, is as follows:

	2019 HK\$'000	2018 HK\$'000
Billed:		
Less than 3 months	121,620	204,591
4 to 6 months	123,154	9,846
7 to 12 months	46,522	40,889
Over 1 year	90,527	6,572
	381,823	261,898
Unbilled	146,147	206,843
	527,970	468,741

Included in the Group's trade payables is an amount of HK\$59,517,000 (2018: HK\$72,886,000) due to a non-controlling equity holder. The balance arising from the transactions carried out in the ordinary course of business of the Group, and is unsecured, interest-free and repayable on credit terms similar to those offered by the non-controlling equity holder to its major customers.

The trade payables are non-interest-bearing and are normally settled within one to six months.

Current portion		(1,672,960)	(2,033,644)
Non-current portion		19,197	–

Notes:

- (a) Other payables are non-interest-bearing and have an average term of three to six months.
- (b) Details of contract liabilities are as follows:

	31 December 2019 HK\$'000	31 December 2018 HK\$'000	1 January 2018 HK\$'000
<i>Short-term advances received from customers in respect of:</i>			
Hazardous and medical waste treatment services	1,383	17,182	947
Construction and related services	3,556	27,217	2,218
Landscaping services	13,082	15,169	–
Others	77	1,645	20
Total contract liabilities	18,098	61,213	3,185

The decrease in contract liabilities in 2019 was mainly due to the decrease in short-term advances received from customers in relation to the provision of hazardous and medical waste treatment services and construction and related services during the year. The increase in contract liabilities in 2018 was mainly due to the acquisition of Beifa Landscape during the year ended 31 December 2018 (note 35), and the increase in short-term advances received from customers in relation to the provision of hazardous and medical waste treatment services and construction and related services during that year.

- (c) The balances with the immediate holding company, the fellow subsidiaries and a joint venture are unsecured, interest-free and repayable on demand. As at 31 December 2019, BEHL has undertaken not to demand repayment of the amounts due by the Group to Idata and a fellow subsidiary of the Company of HK\$1,389,876,000 (2018: HK\$1,704,242,000) until such time when the Group is in a position to repay without impairing its liquidity and financial position.

35. BUSINESS COMBINATION

On 8 March 2018, the Company entered into a share purchase agreement (the “Share Purchase Agreement”) with Mr. Du Qingjiang and Ms. Yang Lanhua (collectively the “Sellers”), pursuant to which the Company has conditionally agreed to acquire, and the Sellers have conditionally agreed to sell, a 51% equity interest in 北京鑫地園林集團有限公司 (subsequently renamed as 北京北發生態建設有限公司) (“Beifa Landscape”) at a cash consideration of RMB29,000,000 (equivalent to HK\$34,524,000) (the “Acquisition”). Beifa Landscape is principally engaged in landscaping construction, landscaping design, project survey and design and construction project management. Further details of the Acquisition are set out in the Company’s announcement dated 8 March 2018.

The fair value of the identifiable assets and liabilities of Beifa Landscape as at the date of acquisition were as follows:

	Notes	Fair value recognised on acquisition HK\$'000
Net assets acquired:		
Property, plant and equipment	12	5,620
Trade receivables		8,331
Contract assets		13,038
Prepayments, other receivables and other assets		83,722
Cash and cash equivalents		58,640
Trade payables		(4,138)
Other payables and accruals		(65,360)
Tax payables		(843)
Deferred tax liabilities	31	(1,881)

35. BUSINESS COMBINATION (CONTINUED)

An analysis of the cash flows in respect of the Acquisition was as follow:

	HK\$'000
Cash and cash equivalents acquired	58,640
Transaction costs of the Acquisition	(474)
<hr/>	
Net inflow of cash and cash equivalents included in cash flows from investing activities	58,166

Since the Acquisition, Beifa Landscape contributed HK\$124,409,000 to the Group's revenue and HK\$4,329,000 to the Group's profit for the year ended 31 December 2018.

Had the combination taken place at the beginning of the year ended 31 December 2018, the revenue of the Group and the profit of the Group for the year ended 31 December 2018 would have been HK\$1,371,740,000 and HK\$300,873,000, respectively.

The total cash outflow for leases included in the statement of cash flows is as follows:

	2019 HK\$'000
Within operating activities	9,719
Within financing activities	12,412
	22,131

37. CONTINGENT LIABILITIES

As disclosed in notes 12, 16 and 17 to the financial statements, the final acceptance of the construction of certain waste incineration plants have not been obtained from the relevant government authorities and the Group is still in the process of applying for certain permits in relation to its operation. According to the relevant PRC Law, the Group may be liable to administrative sanctions to be charged by the relevant government authorities due to the above matters. Nevertheless, the Company is of the view that the non-compliance incidents, individually and in aggregate, would have no material adverse impact on the operations and financial position of the Group.

Save as disclosed above, at 31 December 2019, the Group did not have any significant contingent liabilities.

38. PLEDGE OF ASSETS

Details of the Group's assets pledged for the Group's bank loan and the provision of construction and related services of solid waste treatment plants are included in notes 12, 14(b), 20(e), 23(d) and 28(b) to the financial statements.

BE SITA	Consultancy service fee	(iv)	–	1,276

[#] These transactions constitute continuing connected transactions that are subject to the announcement, reporting and annual review requirements but exempt from the independent shareholders' approval requirement under Chapter 14A of the Listing Rules.

Notes:

- (i) The rental income received from Hong Chuang in respect of the Hong Chuang Building was mutually agreed between the parties under the property escrow agreement dated 25 October 2018 and was determined with reference to the prevailing market rent generally applicable to similar properties in the market. Further details of the transaction are set out in the announcement of the Company dated 25 October 2018.
- (ii) The interest received from BG Finance was mutually agreed between the parties under the deposit services master agreement dated 27 December 2017, pursuant to which the Group may, in its ordinary and usual course of business, place and maintain deposits with BG Finance on normal commercial terms from time to time for the period from 1 January 2018 to 31 December 2020. The deposit rate will not be lower than (i) the benchmark interest rate prescribed by the People's Bank of China; (ii) the interest rates offered by commercial banks in Hong Kong and the PRC to the Group; and (iii) the interest rates offered by BG Finance to other members of BEGCL for the same type of deposits at the same period; and the cumulative daily outstanding deposit balance in Hong Kong dollars equivalent placed by the Group with BG Finance (including any interest accrued thereon) during the term of the agreement will not exceed HK\$73,800,000. Further details of the transactions are set out in the announcement of the Company dated 27 December 2017.
- (iii) The interest expenses were paid for loans obtained from BG Finance and the interest rates were mutually agreed with BG Finance, which will not be higher than the interest rates prescribed by the People's Bank of China at the same period.
- (iv) The consultancy service fee paid to BE SITA was based on terms and conditions mutually agreed between the parties.

Post-employment benefits	610	671
Total compensation paid to key management personnel	13,201	13,699

Further details of directors' emoluments are included in note 8 to the financial statements.

(d) Transactions with other state-owned entities in Mainland China

The Company is a state-owned enterprise of the PRC government and is subject to the control of the Beijing SASAC and the ultimate control of the PRC government. The Group operates in an economic environment predominated by enterprises directly or indirectly owned and/or controlled by the PRC government through its numerous authorities, affiliates or other organisations (collectively "Other SOEs"). During the year, the Group had transactions with Other SOEs including, but not limited to, bank deposits and borrowings and utilities consumptions. The directors consider that the transactions with the Other SOEs were activities in the ordinary course of the Group's businesses, and that the dealings of the Group have not been significantly or unduly affected by the fact that the Group and the Other SOEs are ultimately controlled or owned by the PRC government. The Group has also established pricing policies for products and services and such pricing policies do not depend on whether or not the customers are Other SOEs. Having due regard to the substance of the relationships, the directors are of the opinion that none of these transactions are material related party transactions that require separate disclosure.

41. FINANCIAL INSTRUMENTS BY CATEGORY

All financial assets and liabilities of the Group and the Company as at 31 December 2019 and 2018 were loans and receivables and financial liabilities stated at amortised cost, respectively.

42. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of financial assets and liabilities which are due to be received or settled within one year and the liability component of the convertible bonds are reasonable approximation of their respective fair values, and accordingly, no disclosure of the fair values of these financial instruments is made.

For other non-current financial assets and liabilities, in the opinion of the directors, since their carrying amounts are not significantly different from their respective fair values, no disclosure of the fair values of these financial instruments is made.

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise cash and cash equivalents, bank and other borrowings and convertible bonds. These financial instruments are used for the Group's working capital. The Group has various other financial assets and liabilities such as trade and bills receivables and trade payables, which arise directly from its operations.

It is, and has been throughout the year under review, the Group's policy that no trading in financial instruments shall be undertaken.

The main risks arising from the Group's financial instruments are (a) interest rate risk, (b) foreign currency risk, (c) credit risk and (d) liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(b) Foreign currency risk

The Group's businesses are mainly carried out by subsidiaries located in Mainland China and the majority of its transactions are conducted in RMB. The Group therefore has a minimal transactional currency exposure which arises from sales or purchases by an operating unit in currencies other than the unit's functional currency, and the net assets of the Group's investments in these Mainland China subsidiaries are exposed to foreign currency translational risk.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the RMB exchange rate, with all other variables held constant, of the Group's profit before tax and of the Group's equity resulted from the translation of the Group's foreign operations.

	Increase/ (decrease) in RMB rate %	Increase/ (decrease) in profit before tax HK\$'000	Increase/ (decrease) in equity HK\$'000
2019			
If HK\$ weakens against RMB	5	17,088	192,083

2018			
If HK\$ weakens against RMB	5	16,463	175,468
If HK\$ strengthens against RMB	(5)	(16,463)	(175,468)

(c) Credit risk

The Group trades only with recognised and creditworthy third parties and receivable balances are monitored on an ongoing basis, and therefore, the Group's exposure to bad debts is not significant.

Maximum exposure and year-end staging

The table below shows the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December. The amounts presented are gross carrying amounts for financial assets and the exposure to credit risk for the financial guarantee contracts.

(d) Liquidity risk

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial liabilities and financial assets (e.g., trade and bills receivables) and projected cash flows from operations.

The maturity profile of the Group's financial liabilities (other than receipts in advance and contract liabilities) as at 31 December 2019 and 2018, based on the contractual undiscounted payments, is as follows:

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(e) Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may issue new shares to increase share capital.

The Group monitors capital using the gearing ratio, which is calculated based on net debt and total equity. Net debt is calculated as total bank and other borrowings and convertible bonds (as shown in the consolidated statement of financial position) less cash and cash equivalents. The gearing ratios at 31 December 2019 and 2018 were as follows:

	2019 HK\$'000	2018 HK\$'000
Bank and other borrowings	986,927	963,824
Convertible bonds	2,147,168	2,117,717

46. EVENTS AFTER THE REPORTING PERIOD

The Group entered into a contract and established a joint venture in January 2020 to invest and construct the Jining Yanzhou Household Waste Incineration Power Generation PPP Project in Shandong Province, China, with a daily waste treatment capacity of 1,500 tonnes and a total investment of approximately HK\$900 million, which is scheduled to be put into operation in 2022.

At present, the impact of the novel coronavirus pneumonia epidemic outbreak to the macro-economic conditions as a whole is still uncertain, thus the financial impact on the Group could not be estimated as at the date of approval of these financial statements. The Group will pay close attention to its development and perform further assessment on its impact and take relevant measures.

47. COMPARATIVE AMOUNTS

Certain comparative amounts have been restated in the preparation of the financial information as a result of the change in reportable segments due to the development of the landscaping services business.

As further explained in note 2.2(a) to the financial statements, the Group adopted HKFRS 16 on 1 January 2019 using the modified retrospective approach. Under this approach, the comparative amounts in the financial statements were not restated and continued to be reported under the requirements of the previous standard, HKAS 17, and related interpretations.

48. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the board of directors on 31 March 2020.
