Chairman's Statement

On behalf of the Board of Directors (the "**Board**"), I am pleased to present the annual report of Jinhai International Group Holdings Limited (the "**Company**") and its subsidiary corporations (collectively, the "**Group**") for the financial year ended 31 December 2019 (the "**Year**" or "**FY2019**").

YEAR IN REVIEW

FY2019 was a bittersweet year for the Group as the global economy was laden with uncertainties arising from the US-China trade war and the industry continues to remain competitive. Against this backdrop, the Singapore economy was not spared with a real GDP growth rate of just 0.7% year-on-year as compared to 3.4% recorded a year ago. Notwithstanding these adverse factors, the construction sector in Singapore recorded a 2.6% year-on-year growth on the back of increased demand.

The Group posted a 9.4% increase in revenue to approximately S\$51.9 million for FY2019, driven mainly by an increase in construction demand and the charge-out rate of foreign workers under its manpower outsourcing segment. This has led to a significant improvement in profit before taxation for the Year under review.

LOOKING AHEAD

Several unprecedented events have dampened market sentiments as we enter into 2020. Besides geopolitical tensions and a weakening global economy, the emergence of the COVID-19 pandemic has become one of the biggest disruptors, creating uncertainty and placing global economic and social resilience to the test. The near-term outlook for the construction sector in Singapore is bleak as the lockdowns and travel restrictions implemented by other countries disrupted the supply chain, adversely affecting some construction projects. The degree of impact of the pandemic on the Group's business and financial performance cannot be determined now as the pandemic may persist for quite some time before it subsides. The Board is monitoring the situation closely and will keep shareholders informed of material developments as and when they arise.

A NOTE OF APPRECIATION

On behalf of the Board, I would like to express my heartfelt appreciation to our shareholders, customers, business associates, management and staff for the continuing and unwavering support through the years.

Chen Guobao

Chairman and Executive Director

Hong Kong, 30 March 2020

Management Discussion and Analysis

BUSINESS REVIEW AND OUTLOOK

The Group is a Singapore-based service provider and mainly provides manpower outsourcing and ancillary services to building and construction contractors in the Republic of Singapore ("**Singapore**"). To a lesser extent, the Group also provides dormitory services, IT services and construction ancillary services (which comprise warehousing services, cleaning services and building maintenance works) in Singapore. The Group commenced the business of providing manpower outsourcing services in Singapore in 2006.

For the Year under review, the Group recorded revenue of approximately S\$51.9 million, an increase of approximately 9.4% over the previous year, benefiting from the recovery in Singapore's construction demand in 2019. In addition, gross profit increased by approximately 39.3% to approximately S\$12.4 million in FY2019 from approximately S\$8.9 million in FY2018, while gross profit margin increased from approximately 18.7% in FY2018 to approximately 23.8% in FY2019.

In January 2020, the Building and Construction Authority of Singapore projected the total construction demand to range between S\$28 billion and S\$33 billion in 2020, of which public sector construction demand is expected to reach between S\$17.5 billion and S\$20.5 billion. This is about 60% of the projected demand for 2020. Public sector construction demand is expected to be spurred by major infrastructure projects, such as the Integrated Waste Management Facility, infrastructure works for Changi Airport Terminal 5, Jurong Region MRT Line and Cross Island MRT Line. Although this may potentially translate into greater business opportunities for the Group, we remain cautious and expect to face some headwinds in 2020 given the recent outbreak of the novel coronavirus (the "**Coronavirus**") which affected the demand for manpower for construction works due to construction projects schedule delays amidst disruption to construction materials supply. On the other hand, it is expected that the supply of manpower for construction works may be affected as a result of increased sick leave due to health advisories on medical leave of up to 5 days for workers with respiratory symptoms and unfounded fears of the Coronavirus. Under such circumstances, the Group has taken proactive steps to minimise any negative economic impact on its manpower outsourcing business in Singapore. The aforesaid impact which was beyond the control of the Group, may adversely affect the financial results of the Group for the six months ending 30 June 2020. The Board will continue to assess the impact of the Coronavirus on the Group's business operations and financial performance and closely monitor the Group's exposure to the risks and uncertainties in connection with the Coronavirus.

SIGNIFICANT EVENT

In May 2019, Full Fortune International Co., Ltd ("**Full Fortune**") agreed to acquire 632,500,000 shares of the Company, representing approximately 51.42% of the issued share capital of the Company as at the date of the joint announcement dated 31 May 2019 from the then shareholders of the Company at a total consideration of approximately HK\$257.1 million. The share acquisition was completed in May 2019 and Full Fortune has become the controlling shareholder of the Company. For details, please refer to the announcements of the Company dated 31 May 2019 and 19 July 2019, and the composite document of the Company dated 28 June 2019.

Management Discussion and Analysis

FINANCIAL REVIEW

Revenue

The Group's revenue increased from approximately S\$47.5 million for FY2018 to approximately S\$51.9 million for FY2019. The following table sets forth a breakdown of the revenue for FY2019 and FY2018 as indicated:

	FY2019	FY2018	Increased by
	S\$	S\$	S\$
Manpower outsourcing and ancillary services	44,677,377	41,249,556	3,427,821
Dormitory services	5,664,827	5,228,727	436,100
Construction ancillary services	901,535	451,760	449,775
IT services	655,500	527,220	128,280
	51,899,239	47,457,263	4,441,976

Revenue from manpower outsourcing and ancillary services increased from approximately S\$41.2 million in FY2018 to approximately S\$44.7 million in FY2019, representing an increase of approximately 8.3%. This was mainly due to increases in construction demand and the charge-out rate of foreign workers as the Singapore construction industry continued to recover in 2019.

Revenue from dormitory services increased from approximately S\$5.2 million in FY2018 to approximately S\$5.7 million in FY2019 mainly due to higher proportion of third-party tenants in FY2019. Given the occupancy rate of our dormitory, the current capacity of our dormitory is insufficient to capture further business opportunities. Whilst the Group is actively exploring a suitable dormitory for acquisition, the Board took a cautious approach by scouting for a property that is worth its value and would also withstand any possible downturn in the property market to ensure shareholders' value are adequately protected. The Group hopes it will locate a reasonably priced property that will suit its business needs, subject to the market conditions.

Revenue from construction ancillary services in FY2019 increased by approximately S\$0.45 million as compared to that in FY2018. This was mainly due to an increase in sales from warehousing services due to additional industrial space rented out.

The increase in revenue from IT services from approximately S\$0.53 million in FY2018 to approximately S\$0.66 million in FY2019 was mainly due to a one-off system upgrade project in 2019 and an increase in the number of maintenance and support days required by our sole IT customer.

Management Discussion and Analysis

Gross profit and gross profit margin

The Group's gross profit increased from approximately S\$8.9 million for FY2018 to approximately S\$12.4 million for FY2019, while gross profit margin rose from approximately 18.7% for FY2018 to approximately 23.8% for FY2019. Such increases were mainly due to higher revenue as discussed above, partially offset by an increase in costs of services from approximately S\$38.6 million in FY2018 to approximately S\$39.5 million in FY2019, primarily due to (i) the increase of S\$1.0 million in foreign workers' wages as more workers were retained and recruited on the back of higher construction demand in FY2019; and (ii) the adoption of IFRS 16 (Note 3) which resulted in higher depreciation charges.

Other income

Other income increased from approximately S\$1.2 million in FY2018 to approximately S\$1.4 million in FY2019 mainly due to deemed interest income of S\$0.55 million from receivables arising from the one-off profit sharing arrangement with Mines & Mineral Resources Co. Ltd. ("**Mines & Mineral**"), a third party counterparty in Myanmar, and the termination of convertible bonds issued by Mines & Mineral which was converted to a receivable in 2018. The increase was partially offset by a decrease of approximately S\$0.3 million in grants received under the Workforce Training and Upgrading Scheme in 2019 (as defined in Note 5).

Administrative expenses

Administrative expenses increased by approximately S\$0.4 million mainly due to (i) rental expense of office premises in Hong Kong for one year from July 2019; (ii) fees paid to professional parties for the provision of services relating to the unconditional mandatory cash offer by Guotai Junan Securities (Hong Kong) Limited for and on behalf of Full Fortune to acquire the issued shares of the Company (the "**Offer**") and the related costs incurred for the translation, typesetting and delivery of the composite document relating to the Offer; and (iii) salaries paid to directors appointed subsequent to the Offer.

Other gains and losses

Other gains increased by approximately S\$1.2 million in FY2019 mainly due to (i) gain on fair value movement of equity instruments designated at fair value through profit or loss of approximately S\$0.18 million; (ii) a decrease of approximately S\$0.6 million in impairment loss recognised on trade receivables; and (iii) no loss being recognised on financial assets measured at amortised cost in FY2019 as compared to approximately S\$0.55 million in FY2018. The increase was partially offset by (i) net foreign exchange loss of approximately S\$0.16 million as a result of the revaluation of bank balances denominated in Hong Kong dollar ("**HK\$**"), which depreciated against Singapore dollar ("**S\$**") in FY2019; and (ii) impairment loss on right-of-use assets and property, plant and equipment.

Management Discussion and Analysis

Finance costs

Finance costs increased by approximately S\$0.44 million due to interest expense on lease liabilities following the adoption of IFRS 16 (Note 3).

Income tax expense/credit

The Group recorded an income tax expense of approximately S\$0.77 million in FY2019 as compared to income tax credit of approximately S\$0.32 million in FY2018 mainly due to improvement in profit before taxation and the derecognition of deferred tax assets for unutilised tax losses from some of the subsidiaries.

Loss for the year

As a result of the above factors, the Group recorded a loss of approximately S\$0.69 million in FY2019 (FY2018: S\$3.54 million).

Loss per share

The basic loss per share was 0.06 Singapore cent (2018: 0.29 Singapore cent) and the calculation is based on the loss attributable to owners of the Company of approximately S\$0.69 million (2018: S\$3.54 million) and the weighted average number of 1,230,000,000 ordinary Shares in issue during the Year.

Diluted loss per share was the same as the basic loss per share because the Group had no dilutive potential Shares during FY2019 and FY2018.

DIVIDEND

The Board did not recommend distribution of any dividend to the shareholders of the Company (the "**Shareholders**") for FY2019 (FY2018: nil).

LIQUIDITY, FINANCIAL RESOURCES AND GEARING RATIO

Liquidity

The Group generally meets its working capital requirements from its internally generated funds and maintained a healthy financial position. Upon the Listing, the source of funds of the Group had been a combination of internally generated funds and net proceeds from the Listing.

Treasury policy

The Group has adopted a prudent financial management approach towards its treasury policy and thus maintained a healthy financial position throughout the Year. The Board closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities, and other commitments can meet its funding requirements all the time.

Management Discussion and Analysis

Use of proceeds from Listing

The net proceeds from the Listing were approximately HK\$82.6 million (equivalent to approximately S\$14.1 million) (after deducting underwriting fees and Listing expenses), out of which approximately S\$0.3 million was set aside for the acquisition of three new lorries in 2018.

The below table sets out the proposed applications of the net proceeds from the Listing Date to 31 December 2019:

Use of net proceeds as disclosed in the Prospectus (Note 1)	Amount of the net Proceeds for each intended usage HK\$' million	Amount of the utilised net proceeds as at 31 December 2019 HK\$' million	Total unutilised net proceeds as at 31 December 2019 HK\$' million	Expected timeline for the use of the unutilised net proceeds (Note 2)	
				for the year ending 31 December 2020 HK\$' million	for the six months ending 30 June 2021 HK\$' million
(1) For partly financing the acquisition of an additional foreign worker dormitory at an estimated consideration of HK\$162.0 million	77.1	Nil	77.1	Please refer to the paragraph headed "Expected timeline for use of the unutilised net proceeds" below.	
(2) For financing the acquisition of 10 additional lorries	5.5	1.8	3.7	1.7	2.0
Total	82.6	1.8	80.8		

Notes:

- Further details were set out in the section headed "Future Plans and Use of Proceeds" in the Prospectus.
- The expected timeline for utilising the remaining net proceeds is based on the best estimation of the future market conditions made by the Group. It will be subject to change based on the current and future development of market conditions.

Expected timeline for use of the unutilised net proceeds

As at 31 December 2019, the unutilised net proceeds of approximately HK\$80.8 million has been placed as deposits into licensed banks in Hong Kong. The unutilised net proceeds will be expected to be used according to the intentions previously disclosed in the Prospectus, with further details as elaborated below:

- As for the acquisition of an additional foreign worker dormitory, the unutilised portion amounted to approximately HK\$77.1 million as at 31 December 2019. Whilst the Company is actively exploring suitable dormitory for acquisition, the Board took a cautious approach by scouting for a property that is worth its value and would also withstand any possible downturn in the property market to ensure shareholders' value are adequately protected. The Company hopes it will locate a reasonably priced property over the next 12 months that will suit its business needs, subject to the market conditions at the material time.

Management Discussion and Analysis

- As for the acquisition of 10 additional lorries, the unutilised portion amounted to approximately HK\$3.7 million as at 31 December 2019. The Company also takes a cautious approach in acquiring additional lorries by taking into account of, amongst others, the estimated demand for foreign workers in Singapore and the utilisation rate of the lorries owned by the Company. The Company expects to utilise approximately HK\$1.7 million for financing the acquisition of 3 additional lorries by 31 December 2020 and the remaining of approximately HK\$2.0 million for financing the acquisition of 4 additional lorries by 30 June 2021.

Borrowings and gearing ratio

As at 31 December 2019, the Group had an aggregate of current and non-current lease liabilities of approximately S\$10.1 million as compared to finance lease obligations of approximately S\$0.3 million as at 31 December 2018. The increase was due to the recognition of lease liabilities arising from the adoption of IFRS 16 which became effective on 1 January 2019 (Note 3).

The Group's gearing ratio as at 31 December 2019 was approximately 41.7% (as at 31 December 2018: approximately 1.4%). Gearing ratio is calculated by dividing total borrowings (comprising lease liabilities and finance lease obligations) by total equity as at the end of the respective year and multiplied by 100%.

As at 31 December 2019, the Group had unutilised banking facilities of approximately S\$527,639 available for cash drawdown (as at 31 December 2018: S\$609,816).

Cash and cash equivalents

As at 31 December 2019, the Group had cash and cash equivalents of approximately S\$21.7 million, of which approximately 22.9% was denominated in S\$ and approximately 77.1% was denominated in HK\$ which were placed in major licensed banks in Singapore and Hong Kong, respectively. Cash and cash equivalents denominated in United States dollar ("US\$") were immaterial.

Foreign exchange exposure

The Group transacts mainly in S\$, which is the functional currency of all the entities in the Group. However, the Group retains a large portion of the proceeds from the Listing in HK\$ which contributed to an unrealised foreign exchange loss of approximately S\$0.14 million as HK\$ weakened against S\$ in FY2019.

Charges on the Group's assets and contingent liabilities

As at 31 December 2019, certain lease liabilities were secured by the charge over leased assets with an aggregate net book value of approximately S\$0.48 million (as at 31 December 2018: S\$0.36 million).

The Group did not have any material contingent liabilities as at 31 December 2019 and 2018.

Capital expenditures and capital commitments

The Group's capital expenditures principally consisted of expenditures on renovation of a newly rented dormitory, motor vehicles, computer and equipment, furniture and fittings. The Group recorded capital expenditures for the purchases of property, plant and equipment and additions to right-of-use assets in the amounts of approximately S\$0.93 million and S\$0.59 million for FY2019 and FY2018, respectively.

The Group did not have any capital commitments as at 31 December 2019 and 2018.

Management Discussion and Analysis

Significant investments held, material acquisitions and disposal of subsidiaries, associates and joint ventures

There were no significant investments held, material acquisitions and disposal of subsidiaries, associates and joint ventures for FY2019.

During the Year, the Group disposed a portion of its investment in quoted equity shares. The proceeds from the disposal were approximately S\$1.5 million.

Off-balance sheet transactions

As at 31 December 2019, the Group did not enter into any material off-balance sheet transaction.

EMPLOYEE AND REMUNERATION POLICY

As at 31 December 2019, the Group had 1,650 employees (as at 31 December 2018: 1,720), including foreign workers.

The Group determines employee salaries based on employee's qualifications, position and seniority. In order to attract and retain valuable employees, the Group reviews the performance of our employees, which will be taken into account in annual salary review and promotion appraisal. The Group has also adopted a sales incentive scheme, pursuant to which our sales managers are entitled to sales commission based on the number of hours of deployment in respect of any manpower outsourcing contracts obtained by them from customers.

The Group incurred workers and staff costs (including the Directors and chief executive's remuneration, and other staff's salaries, wages and other benefits) of approximately S\$24.0 million and S\$23.7 million for FY2019 and FY2018 respectively.

QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Interest rate risk

The Group is exposed to cash flow interest rate risk on the variable rates of interest earned on the bank balances. The Group is also exposed to fair value interest rate risk in relation to fixed-rate finance lease obligations.

The Group currently does not have an interest rate hedging policy. However, the management monitors interest rate risk exposure and will consider interest rate hedging should the need arise.

Foreign currency risk

The Group has certain bank balances, financial assets measured at fair value through profit or loss, trade receivables and payables denominated in US\$ and HK\$ other than the functional currency of respective group entities, which expose the Group to foreign currency risk.

The Group manages the risk by closely monitoring the movement of the foreign currency rate.

Management Discussion and Analysis

Credit risk

In order to minimise the credit risk, the Group has policies in place for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. Before accepting any new customer, the Group carries out a research on the credit risk of the customer, assesses the customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed when necessary.

In addition, the Group reviews the recoverable amount of each individual trade debt at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. The Group recognises a loss allowance for expected credit losses ("ECL") on trade and other receivables. The amount of ECL is updated at each reporting date to reflect changes in credit risk since the initial recognition of the respective financial instrument. In this regard, management of the Group considers that the Group's credit risk is significantly reduced.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

Fair value risk

The Group is exposed to fair value risk arising from financial assets and financial liabilities that are measured at fair value on a recurring and non-recurring basis.

Equity price risk

The Group is exposed to equity risks arising from equity instruments designated at fair value through profit or loss. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio.

Corporate Governance Report

The Company is committed to fulfilling its responsibilities to the Shareholders and protecting and enhancing Shareholders' value through good corporate governance.

The directors of the Company (the "**Directors**") recognise the importance of incorporating elements of good corporate governance in the management structure, internal control and risk management procedures of the Group so as to achieve effective accountability.

CORPORATE GOVERNANCE PRACTICES

The Company has adopted and, save for the deviation from code provisions A.1.8 and A.2.1 of the Corporate Governance Code (the "**CG Code**") as contained in Appendix 14 to the Rules Governing the Listing of Securities on the Stock Exchange (the "**Listing Rules**") as disclosed in this report, has complied with all applicable code provisions as set out in the CG Code during the year ended 31 December 2019 (the "**Year**") and the period thereafter up to the date of this annual report (collectively, the "**Period**").

SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transaction by Directors of Listed Issuers (the "**Model Code**") as contained in Appendix 10 to the Listing Rules as its own code of conduct governing the securities transactions by the Directors. In response to a specific enquiry made by the Company on each of the Directors, all Directors have confirmed that they had complied with the Model Code and its code of conduct regarding directors' securities transaction during the Year.

BOARD OF DIRECTORS

Responsibilities

The Board is primarily responsible for overseeing and supervising the management of the business affairs and the overall performance of the Group. The Board sets the Group's values and standards and ensures that the requisite financial and human resources support are in place for the Group to achieve its objectives. The functions performed by the Board include but are not limited to formulating the Group's business and investment plans and strategies, deciding all significant financial (including major capital expenditure) and operational issues, developing, monitoring and reviewing the Group's corporate governance practices and all other functions reserved to the Board under the Company's amended and restated articles of association (the "**Articles of Association**"). The Board has established Board committees and has delegated to these Board committees various responsibilities as set in their respective terms of reference. The Board may from time to time delegate certain functions to management of the Group (the "**Management**") if and when considered appropriate. The Management is mainly responsible for the execution of the business plans, strategies and policies adopted by the Board and other duties assigned to it from time to time.

The Directors have full access to information of the Group and are entitled to seek independent professional advice in appropriate circumstances at the Company's expense.

Corporate Governance Report

Composition

The Company is committed to holding the view that the Board should include a balanced composition of executive Directors, non-executive Directors (“**NEDs**”) and the independent non-executive Directors (“**INEDs**”) so that there is a strong independent element on the Board, which can effectively exercise independent judgement.

As at the date of this annual report, the Board comprises nine Directors:

Executive Directors

Mr. Chen Guobao (*Chairman*)
Mr. Wang Zhenfei (*Chief Executive Officer*)

Non-executive Directors

Mr. Yang Fu Kang (*Deputy Chairman*)

Corporate Governance Report

CHAIRMAN AND CHIEF EXECUTIVE

Code provision A.2.1 of the CG Code stipulates that the roles of chairman and chief executive should be separate and should not be performed by the same individual. During the period from 1 January to 19 July 2019, Mr. Kuah Ann Thia (“**Mr. Kuah**”) had held both positions. Mr. Kuah managed the Group’s business and overall financial and strategic planning since May 2006. This arrangement helped the Company to execute business strategies more efficiently in the ordinary business activities. The Directors during the period from 1 January to 19 July 2019 considered that there was a balance of power and authority such that no one individual had unfettered power of decision in consideration of the fact that the NED and INEDs represented over half of the Board members.

Mr. Chen Guobao was appointed as the executive director and chairman of the Company on 19 July 2019, while the job functions of chief executive are shared by each of the senior management of the Company. Thus, the Company has now complied with code provision A.2.1 of the CG Code.

Corporate Governance Report

Corporate Governance Functions

The Board is responsible for performing the corporate governance functions, which include:

- developing and reviewing the Company’s policies and practices on corporate governance;
- reviewing and monitoring the training and continuous professional development of the Directors and the Senior Management;
- reviewing and monitoring the Company’s policies and practices on compliance with legal and regulatory requirements;
- developing, reviewing and monitoring the code of conduct and compliance manual (if any) applicable to employees and the Directors; and
- reviewing the Company’s compliance with the CG Code and disclosure in this report.

During the Year, the Board reviewed the compliance with the CG Code and the disclosure in the annual report of the Company and monitored the training and continuous professional development of the Directors and the Senior Management.

APPOINTMENT AND RE-ELECTION OF DIRECTORS

The Company has adopted the nomination policy (“**Nomination Policy**”) setting out the principles which guide the Nomination Committee to identify and evaluate a candidate for nomination to the Board for appointment or Shareholders for election as a Director.

The Nomination Committee shall consider a number of factors in making nomination, including but not limited to the following:

- Skills, experience and professional expertise: The candidate should possess the skills, knowledge, experience and professional expertise which are relevant to the operations of the Group;
- Diversity: Candidates should be considered on merit and against objective criteria, with due regard to the diversity perspectives set out in the board diversity policy of the Company;
- Commitment: The candidate should be able to devote sufficient time to attend the board meetings and participate in induction, training and other board associated activities. In particular, if the proposed candidate will be nominated as an independent non-executive director and will be holding their seventh (or more) listed company directorship, the Nomination Committee should consider the reason given by the candidate for being able to devote sufficient time to the Board and committee meetings;
- Standing: The candidate must satisfy the Board and the Stock Exchange that they have the character, experience and integrity, and is able demonstrate a standard of competence commensurate with the relevant position as a Director; and
- Independence: The candidate to be nominated as an independent non-executive director must satisfy the independence criteria set out in Rule 3.13 of the Listing Rules. Where applicable, the totality of the candidate’s education, qualifications and experience shall also be evaluated to consider whether he or she has the appropriate professional qualifications or accounting or related financial management expertise for filling the office of an independent non-executive director.

Corporate Governance Report

If the Nomination Committee determines that an additional or replacement Director is required, the Nomination Committee may take such measures that it considers appropriate in connection with its identification and evaluation of a candidate. The Nomination Committee may propose to the Board a candidate recommended or offered for nomination by a shareholder of the Company as a nominee for election to the Board and the appointment or re-appointment of Directors and succession planning for Directors is subject to the approval of the Board. On making recommendation, the Nomination Committee may submit the candidate's personal profile and a proposal to the Board for consideration. In order for the proposal to be valid, it must clearly indicate the nominating intention and the candidate's consent to be nominated and the personal profile must be incorporated and/or accompanied by the full particulars of the candidate that are required under Rule 13.51(2) of the Listing Rules. If the candidate is proposed to be appointed as an independent non-executive director, his or her independence shall be assessed in accordance with the factors set out in Rule 3.13 of the Listing Rules, subject to any amendments as may be made by the Stock Exchange from time to time.

Each proposed new appointment, election or re-election of a Director shall be assessed and/or considered against the criteria and qualifications set out in the Nomination Policy by the Nomination Committee which shall recommend its views to the Board and/or the Shareholders for consideration and determination.

The Nomination Committee will monitor the implementation of the Nomination Policy. The Nomination Committee will from time to time review the Nomination Policy, as appropriate, to ensure the effectiveness of the policy.

Each of the executive Directors entered into a service agreement for his appointment with the Company on 19 July 2019 for an initial term of three years commencing from 19 July 2019. Each of the executive Directors is subject to retirement by rotation and re-election at the AGM in accordance with Articles of Association.

Each of the independent non-executive directors entered into a service agreement for his appointment with the Company for a term of three years commencing from 19 July 2019, and is subject to retirement by rotation and re-election at the AGM in accordance with Articles of Association.

Each of the non-executive Directors entered into service agreement for his appointment with the Company for a term of one year from 19 July 2019 and is subject to retirement by rotation and re-election at the AGM in accordance with Articles of Association.

According to Article 108(a) of the Articles of Association, at each AGM, one-third of the Directors for the time being, or if their number is not three or a multiple of three, then the number nearest to but not less than one-third, shall retire from office by rotation, provided that every Director (including those appointed for a specific term) shall be subject to retirement by rotation at least once every three years. A retiring Director shall be eligible for re-election. According to Article 108(b) of the Articles of Association, the Directors to retire by rotation shall include (so far as necessary to obtain the number required) any Director who wishes to retire and not to offer himself/herself for re-election. Any Director who has not been subject to retirement by rotation in the three years preceding the AGM shall retire by rotation at such AGM. Any further Directors so to retire shall be those who have been the longest in office since their last re-election or appointment and so that as between the persons who became or were last re-elected Directors on the same day, those to retire shall (unless they otherwise agree among themselves) be determined by lot.

According to Article 112 of the Articles of Association, the Company may from time to time in general meeting by ordinary resolution elect any person to be a Director either to fill a casual vacancy or as an additional Director. Any Director so appointed shall be subject to retirement by rotation.

Corporate Governance Report

According to Article 112 of the Article of the Association, the Board shall have power from time to time and at any time to appoint any person as a Director either to fill a casual vacancy or as an additional Director, but so that the number of Directors so appointed shall not exceed the maximum number determined from time to time by the Shareholders in a general meeting. Any Director appointed by the Board to fill a casual vacancy shall hold office only until the first general meeting of the Company after his/her appointment and be subject to re-election at such meeting. Any Director appointed by the Board as an addition to the existing Board shall hold office only until the next following AGM and shall then be eligible for re-election. Any Director appointed under the Articles of Association shall not be taken into account in determining the Directors or the number of Directors who are to retire by rotation at an AGM.

DIRECTORS' RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibilities for the preparation of the Consolidated Financial Statements that give a true and fair view of the financial position and the state of affairs of the Group for the Year in accordance with IFRS issued by IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

The Directors are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Group's ability to continue as a going concern.

RISK MANAGEMENT AND INTERNAL CONTROL

The Company has in place policies and procedures in relation to risk management and internal control. The Board is responsible for evaluating and determining the nature and extent of the risks that the Company is willing to take in achieving the Company's strategic objectives, and ensuring that the Company establishes and maintains appropriate and effective risk management and internal control systems. The Board oversees management in the design, implementation and monitoring of the risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable but not absolute assurance against material misstatement or loss.

Recently, the Board, through the Audit Committee, has conducted a review of the effectiveness of the risk management and internal control systems of the Group covering all material controls, including financial, operational and compliance controls functions. The Board considers that the Group's risk management and internal controls systems are adequate and effective.

As part of the annual statutory audit, the Company's external auditor obtained an understanding of internal controls relevant to the audit and designed audit procedures over the relevant controls, as appropriate. Any deficiencies in internal controls and recommendations for improvements are reported to the Audit Committee. The Audit Committee also reviews the effectiveness of the actions taken on the recommendations made by the external auditor in this respect, if any.

The Company has an internal audit function performed by an engaged external professional firm which primarily carries out the analysis and independent appraisal of the adequacy and effectiveness of the Company's risk management and internal control systems, and reports their findings to the Board on, at least, an annual basis.

Based on the internal and external auditors' recommendations, the actions taken by the Management, the on-going review and continuing efforts in enhancing internal controls and processes, the Board, with the concurrence of the Audit Committee, is of the opinion that the system of internal controls and risk management that had been maintained by the management throughout the Year was adequate and effectively met the needs of the Group in its current business environment, and addressed the financial, operational, compliance and information technology risks.

The Board expects that a review of the risk management and internal control systems will be performed annually.

DISCLOSURE OF INSIDE INFORMATION

The Group acknowledge its responsibilities under the Securities and Futures Ordinance, Chapter 571 of the laws of Hong Kong and the Listing Rules and overriding principle that inside information should be announced as soon as reasonably practicable when it is the subject of a decision. The procedures and internal controls for the handling and dissemination of inside information are as follows:

the Group conducts its affairs with close regard to the disclosure requirement under the Listing Rules as well as the "Guidelines on Disclosure of Inside Information" published by the Securities and Futures Commission of Hong Kong in June 2012;

the Group has implemented and disclosed its policy on fair disclosure by pursuing broad, non-exclusive distribution of information to the public through channels such as financial reporting, public announcements and the Company's website;

the Group has strictly prohibited unauthorised use of confidential of inside information; and

the Group has established and implemented procedures for responding to external enquiries about the Group's affairs, so that only the executive Directors and the chief financial officer of the Company (the "**Chief Financial Officer**") are authorised to communicate with parties outside the Group.

COMPANY SECRETARY

The Company has appointed Mr. Wong Man Yiu ("**Mr. Wong**") as the Company Secretary with effect from 1 November 2019. Mr. Wong possesses the necessary qualification and experience, and is capable of performing the functions of the company secretary.

SHAREHOLDERS' RIGHTS

Procedures for Shareholders to Convene an Extraordinary General Meeting (the "**EGM**")

Any one or more Shareholders holding at the date of deposit of the requisition not less than 10% of the paid-up capital of the Company having the right of voting at general meetings of the Company (the "**Eligible Shareholder(s)**") shall have the right, by written requisition to the Board or the Company Secretary for the purpose of requiring an EGM to be called by the Board for the transaction of any business specified in such requisition, including making proposals or moving resolution at the EGM.

Eligible Shareholders who wish to convene an EGM for the purpose of making proposals or moving a resolution at the EGM must deposit a written requisition (the "**Requisition**") signed by the Eligible Shareholder(s) concerned (the "**Requisitionist(s)**") at the principal place of business of the Company in Hong Kong (presently Room 2503, 25/F, Cosco Tower, 183 Queen's Road Central, Sheung Wan, Hong Kong) for attention of the Board or the Company Secretary.

The Requisition must state clearly the name(s) and the contact details of the Requisitionist(s) concerned, his/her/their shareholding in the Company, the reason(s) to convene an EGM and the proposed agenda.

The Company will check the Requisition and the identity and shareholding of the Requisitionist(s) will be verified with the Company's branch share registrar in Hong Kong. If the Requisition is found to be proper and in order, the Board will proceed to convene an EGM and/or include the proposal(s) made or the resolution(s) proposed by the Requisitionist(s) at the EGM within two months after the deposit of the Requisition. If within 21 days of the deposit of the Requisition, the Board fails to proceed to convene such EGM, the Requisitionist(s) himself/herself/themselves may do so in the same manner.

Corporate Governance Report

For including a resolution to propose a person for election as a Director at general meetings, the Shareholders are requested to follow the Articles of Association. A notice in writing of the intention to propose that person for election as a Director and notice in writing by that person of his willingness to be elected shall have been lodged at the Company's principal place of business in Hong Kong or at the Hong Kong branch share registrar and transfer office of the Company. The period for lodgement of the notices required under the Articles of Association will commence no earlier than the day after the dispatch of the notice of the general meeting appointed for such election and end no later than seven days prior to the date of such general meeting and the minimum length of the period during which such notices to the Company may be given will be at least seven days. The written notice must state that person's biographical details as required by Rule 13.51(2) of the Listing Rules. The procedures for the Shareholders to propose a person for election as a Director are posted on the Company's website.

Procedures for Shareholder to Send Enquiries to the Board

Shareholders may direct their enquiries about their shareholdings or their notification of change of correspondence address or their dividend/distribution instructions to the Company's branch share registrar in Hong Kong, Boardroom Share Registrars (HK) Limited at Room 2103B, 21/F, 148 Electric Road, North Point, Hong Kong.

Shareholder and the investment community may at any time make a request for the Company's information to the extent such information is publicly available. Shareholders may send their enquiries and concerns to the Board by post to the principal place of business of the Company in Hong Kong at Room 2503 Cosco Tower, 183 Queen's Road Central, Sheung Wan, Hong Kong or by email to info@jin-hai.com.hk for the attention of the Company Secretary.

COMMUNICATION WITH SHAREHOLDERS

The Shareholders communication policy aims to set out the provisions with the objective of ensuring that the Shareholders, both individual and institutional, and, in appropriate circumstances, the investment community (including the Company's potential investors as well as analysts reporting and analysing the Company's performance) at large, are provided with ready, equal and timely access to balanced and understandable information about the Company (including its financial performance, strategic goals and plans, material developments, governance and risks profile), in order to enable Shareholders to exercise their rights in an informed manner, and to allow Shareholders and the investment community to engage actively with the Company.

Information shall be communicated to Shareholders and the investment community mainly through the Company's financial reports (interim and annual reports), annual general meetings and other general meetings that may be convened, as well as by making available all the disclosures submitted to the Stock Exchange and its corporate communications and other corporate publications on the Company websites. Effective and timely dissemination of information to Shareholders and the investment community shall be ensured at all times.

CONSTITUTIONAL DOCUMENTS

There was no change in constitutional documents of the Company during the Year.

The amended and restated memorandum and articles of association of the Company are available on the respective websites of the Stock Exchange and the Company.

Report of the Directors

The Directors are pleased to present this Directors' report (the "**Directors' Report**") to the Shareholders together with the audited Consolidated Financial Statements.

Report of the Directors

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group is committed to promoting sustainable development, which is extremely important to create long term value for the Group's Shareholders, clients, employees, other stakeholders, as well as general public. The Company cares about the impact of its daily operation on environment and society. While conducting its business operation, it makes effort to meet the interests of all stakeholders, economy, environment, society and corporate governance and does its best to achieve a fine balance.

As the biggest contributor to the Group's carbon footprint is the indirect greenhouse gas emission from electricity consumption and fresh water is a precious resource in Singapore, the Group has established environmental management system that comprises measures and work procedures that are required to be followed by our employees, including but not limited to, internal policies on water and energy conservation.

In FY2019, there was no conviction of non-compliance with environmental laws and regulations. We will continue to ensure implementation of our policy on environmental management as mentioned above to avoid violation of applicable laws or regulations in respect of the environment.

Details of environmental, social and governance practices adopted by the Group is set out in the environmental, social and governance report on pages 45 to 57 of this annual report.

COMPLIANCE WITH LAWS AND REGULATIONS

The Group recognises the importance of compliance with regulatory requirements and the risk of non-compliance with such requirements. The Group has been allocating system and staff resources to ensure ongoing compliance with the rules and regulations.

The Group's operations are mainly carried out by the Company's subsidiaries in Singapore while the Company itself was incorporated in the Cayman Islands and its issued shares are listed on the Main Board of the Stock Exchange. Our establishment and operations accordingly shall comply with the relevant laws and regulations in Hong Kong, the Cayman Islands and Singapore.

During the Year, the Group has complied, to the best of our knowledge, with, in respect of employment of foreign workers, Employment Act (Chapter 91), Employment of Foreign Manpower Act (Chapter 91A), Immigration Act (Chapter 133); in respect of employees' benefits, Children Development Co-Savings Act (Chapter 38A) and Central Provident Fund Act (Cap. 36); in respect of workmen's compensation, Work Injury Compensation Act (Chapter 354); in respect of dormitory services, Building Control Act (Chapter 29), Control of Vectors and Pesticides Act (Chapter 59), Environmental Public Health Act (Chapter 95), the Fire Safety Act (Chapter 109A), the Planning Act (Chapter 232) and Foreign Employee Dormitories Act 2015 (No. 3 of 2015); and in respect of environmental protection, Environmental Public Health Act (Chapter 95) and other relevant laws and regulation on environmental protection.

Report of the Directors

During the Year, the Board was unaware of any non-compliance with relevant laws and regulations that have a significant impact on the business and operations of the Group.

RELATIONSHIPS WITH EMPLOYEES, CUSTOMERS AND SUPPLIERS

As at 31 December 2019, the Group had over 147 local staff and 1,503 foreign workers. The employees are remunerated according to their job scope and responsibilities, individual performance appraisals and the Group's performance. Other benefits available to eligible employees include provident fund, medical insurance scheme and long service awards.

The Group maintains a good relationship with its customers. We have a team of site coordinators in place to receive, analyse and study complaints and make recommendations on remedies with the aim of improving service quality.

The Group is in good relationship with its suppliers and conducts a fair and strict appraisal of its suppliers.

The Articles of Association provide that every Director is entitled to be indemnified out of the assets of the Company against all losses or liabilities (to the fullest extent permitted by the Companies Ordinance) which he may sustain or incur in or about the execution of the duties of his office or otherwise in relation thereto.

Report of the Directors

Since 12 February 2018, the Group has taken out and maintained directors' liability insurance throughout FY2018 and FY2019, which provides appropriate cover for legal actions brought against the Directors and directors of the subsidiaries of the Company. The level of the coverage is reviewed annually.

MAJOR CUSTOMERS AND SUPPLIERS

The percentage of revenue from rendering of services attributable to the Group's five largest customers combined was less than 30% of the total revenue of the Group for FY2019 and FY2018.

The top five suppliers of the Group accounted for approximately 63.5% (FY2018: 59.3%) of the Group's total purchases and the largest supplier of the Group accounted for 25.4% (FY2018: 22.2%) of the Group's total purchases for FY2019.

None of the Directors, their close associates, or any Shareholder, which to the knowledge of the Directors own more than 5% of the issued shares, has any interest in the Group's five largest customers and suppliers.

MANAGEMENT CONTRACTS

No contract concerning the management and administration of the whole or any substantial part of the businesses of the Group was entered into or existed during FY2019.

CONNECTED TRANSACTIONS

The Group has not entered into any related party transaction, connected transaction or continuing connected transaction for FY2019 which should be disclosed pursuant to the requirements of Chapter 14A of the Listing Rules. Details of related party transactions undertaken in the usual course of business are set out in the notes to the Consolidated Financial Statements. None of these related party transactions constitute a disclosable connected transaction as defined under the Listing Rules.

BANK BORROWINGS

As at 31 December 2019, the Group was in net cash position with no bank borrowings.

PRE-EMPTIVE RIGHTS

There is no provision for pre-emptive rights under the Articles of Association or under the laws of the Cayman Islands, being the jurisdiction in which the Company was incorporated.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the Directors, the Directors confirm that the Company has maintained a sufficient amount of public float for its issued shares as required under the Listing Rules throughout the Period.

Report of the Directors

SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code as its own code of conduct regarding Directors' securities transactions. Following a specific enquiry made by the Company on each of the Directors, all Directors have confirmed that they had complied with the required standards as set out in the Model Code and its own code of conduct throughout the Year. The Model Code also applies to other specified senior management of the Group.

EMOLUMENT POLICY OF THE GROUP

The emolument policy of the senior employees of the Group was tabled and recommended by the Remuneration Committee to the Board on the basis of the employees' merit, qualifications and competence.

The emoluments of the Directors are formulated and recommended by the Remuneration Committee to the Board, having regards to the Company's operating results, individual performance of the Directors and comparable market statistics.

CORPORATE GOVERNANCE

Details of the Company's corporate governance practices are set out in the "Corporate Governance Report" on pages 18 to 32 of this annual report.

DIVIDEND POLICY

The Company has adopted a dividend policy ("**Dividend Policy**") in recommending dividends, to allow the Shareholders to participate in the Company's profits and for the Company to retain adequate reserves for future growth. The Company considers stable and sustainable returns to the Shareholders to be its goal.

Subject to the approval of the Shareholders and the requirements of the relevant law, the Company shall pay annual dividends to the Shareholders if the Group is profitable, the environment in which the Group operates is stable and there is no significant investment or commitment made by the Group. The remaining net profits will be used for the Group's development and operations. The Board may from time to time pay to the Shareholders such interim dividends if they appear to be justifiable to the Directors in view of the profits of the Group. The Dividend Policy allows the Company to declare special dividends from time to time in addition to interim and/or final dividends.

In proposing any dividend payout, the Board shall also take into account, inter alia, the Group's actual and expected financial performance; the Group's expected working capital requirements and future expansion plans; the Group's debt to equity ratios and the debt level; any restrictions on payment of dividends that may be imposed by the Group's lenders; general economic conditions, business cycle of the Group's business and other internal and external factors that may have an impact on the business or financial performance and position of the Company; dividends received from the Company's subsidiaries and associates; the Shareholders' and investors' expectations and industry's norm; and any other conditions or factors that the Board deems relevant.

Report of the Directors

The Dividend Policy and the declaration and/or payment of future dividends under the Dividend Policy are subject to the Board's continuing determination that the Dividend Policy and the declaration and/or payment of dividends would be in the best interests of the Group and Shareholders. The Board endeavours to maintain a balance between meeting Shareholders' expectations and prudent capital management with a sustainable Dividend Policy.

Details of the approval and payment procedures have been set out in Articles 154-170 of the Articles of Association. The form, frequency and amount of dividend payment by the Company are subject to any restrictions under the laws of the Cayman Islands and the Articles of Association of the Company.

The Board reserves the right in its sole and absolute discretion to update, amend, modify and/or cancel the Dividend Policy at any time, and the Dividend Policy shall in no way constitute a legally binding commitment by the Company in respect of its future dividend and/or in no way oblige the Company to declare a dividend at any time or from time to time.

TAX RELIEF

The Company is not aware of any relief on taxation available to the Shareholders by reason of their holdings of the shares. If the Shareholders are unsure about the taxation implications of purchasing, holding, disposing of, dealing in or exercising of any rights in relation to the shares, they are advised to consult their professional advisers.

INDEPENDENT AUDITOR

By a written resolution of the Company passed on 23 April 2019, Foo Kon Tan LLP has been appointed as the auditor of the Company to fill the vacancy arising from the resignation of Deloitte & Touche LLP.

Details of the change of auditor are, among other things, set out in the Company's announcement dated 25 April 2019.

The Consolidated Financial Statements have been audited by Foo Kon Tan LLP, who will retire at the conclusion of the forthcoming 2020 AGM.

EVENTS AFTER THE YEAR

Save as disclosed in this annual report, the Directors confirm that no major event that affects the Group after 31 December 2019 and up to the date of this annual report.

On behalf of the Board

Chairman and Executive Director

Singapore, 30 March 2020

Environmental, Social and Governance Report

The Group is pleased to present our Environmental, Social and Governance (“**ESG**”) Report. This ESG Report summarises our ESG performance and challenges during the Year and demonstrates our ongoing commitment to improve our ESG performance as we progress on our sustainability journey.

The Group is committed to promoting sustainable development, which is extremely important to create long-term value for the Company’s Shareholders, clients, employees, other stakeholders, as well as the general public. The Group cares about the impact of its daily operations on environment and society. While conducting its business operations, it makes effort to meet the interests of all stakeholders, economy, environment, society and corporate governance and does its best to achieve a fine balance.

This ESG Report is compiled in accordance with the Environmental, Social and Governance Reporting Guide set out in Appendix 27 of the Listing Rules. The data and other information contained in this ESG Report was sourced from the Group’s internal documents and was collated from multiple business units across the Group.

ENVIRONMENTAL

Aspect A1: Emissions

As the principal business of the Group is providing manpower supply, there is minimal direct impact to the environment and we do not generate hazardous waste. Our business operation is subject to certain environmental requirements pursuant to the laws in Singapore, including primarily those in relation to water pollution of our self-operated dormitories and the cleanliness of our workplace under the Environmental Public Health Act.

The biggest contributor to the Group’s carbon footprint is the indirect greenhouse gas (“**GHG**”) emission from electricity consumption, which is mainly attributed to the use of lighting system, air-conditioning and office equipment.

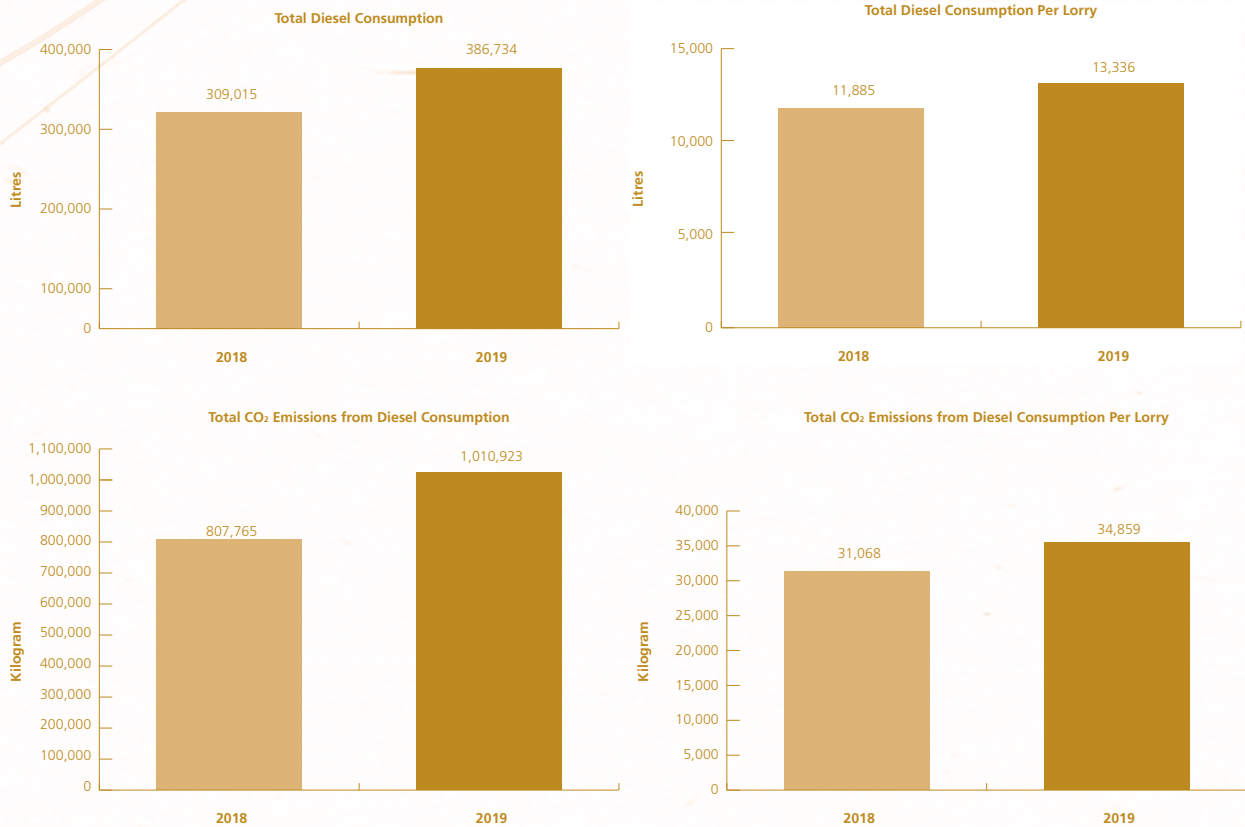

Recognising the impact of carbon and other GHG emissions on the global climate and the environment, the Group encourages the employees to turn off the lights, air-conditioners and electrical equipment when not in use and use energy-saving light bulbs such as light-emitting diode (“**LED**”) instead.

As our customers’ construction sites have grown, to cope with the increasing routes, the Group had purchased additional lorries in 2019 for our transport team to send our workers to the construction sites. The main source of air pollution from the Group’s business operation is vehicle exhaust gas during transportation.

Our lorries undergo regular maintenance and we instruct our drivers to switch off idling engines. To further reduce indirect greenhouse gas emission, we have handed out EZ link cards to our foreign workers and encourage them to take public transportation.

Environmental, Social and Governance Report

Our total diesel consumption and Carbon Dioxide (“CO₂”) emissions have increased to 386,734 litres and 1,010,923 kilograms in 2019, respectively. While diesel consumption and CO₂ emissions per lorry increased from 11,885 litres and 31,068 kilograms per lorry in 2018, respectively, to 13,336 litres and 34,859 kilograms per lorry in 2019, respectively. This was due mainly to increase in the number of lorries and transportation routes per lorry in 2019.

We do not generate hazardous waste and our non-hazardous waste at our dormitories are properly disposed.

During the Year, the Group was not aware of any material non-compliance with environmental laws and regulations relating to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous that would have a significant impact on the Group.

Environmental, Social and Governance Report

Aspect A2: Use of Resources

Water conservation

In Singapore, fresh water is a precious resource and we should try to protect water resources. As such, we have established an environmental management system that comprises measures and work procedures that are required to be followed by our employees, including but not limited to, internal policies on water and energy conservation.

To ensure our workers are committed to reducing water usage, we have placed reminders near our water taps to remind our foreign workers to turn the faucet to the off position while not in use. We have also installed water efficient fittings such as press taps and dual flush water cisterns at our dormitories.

The Group does not primarily engage in businesses which produce a large amount of industrial wastewater. Our wastewater mainly comes from the discharge of domestic wastewater from our dormitories.

We check our water consumption regularly and repair dripping faucets or hoses in a timely manner. There is no issue in sourcing water for dormitory purpose as Singapore has built a robust, diversified and sustainable water supply from four water sources known as the Four National Taps – (i) water from local catchment; (ii) imported water; (iii) high-grade reclaimed water known as NEWater; and (iv) desalinated water. In integrating the water system and maximising the efficiency of each of the Four National Taps, Singapore has overcome its lack of natural water resources to meet the needs of a growing nation (source: <https://www.pub.gov.sg/watersupply/fournationaltaps>).

Our water consumption at our dormitories (“SKA” – Sungei Kadut, “WD” – Woodlands and “21B” – 21B Senoko Loop) for the Year are as follows:

Environmental, Social and Governance Report

Our dormitory operating subsidiary, Nichefield Pte. Ltd. received an award from the Water Supply (Network) Department of Singapore’s National Water Agency for running the Woodlands Dormitory as a water efficient (basic) building in November 2016.

From 2018 to 2019, our water consumption has increased from 30,416 cubic metres to 37,664 cubic metres at SKA and 110,710 cubic metres to 118,473 cubic metres at WD. We have also rented a new dormitory at 21B in 4Q2018 and our operations at 21B has used up 43,739 cubic metres of water as compared to 3,799 cubic metres of water in 2018. The increase in water consumption is mainly due to the imposition of new housing standards by MOM in relation to cleanliness and housekeeping of the dormitories in order to improve the living conditions of the foreign workers, with effect from 1 April 2018. The rise in Singapore’s average temperature in 2019 has also led to a higher water usage.

Electricity Conservation

We have a policy whereby the last person to leave the office premise (“**HQ**”) has to switch off the lights and equipment in the office to help conserve electricity. We also encourage the use of energy saving light bulbs such as LED. These measures have helped us to save electricity usage from 58,849 KW/H in 2018 to 40,123 KW/H in 2019.

Despite that, our overall electricity consumption has increased by 433,560 KW/H in 2019 mainly due to a new dormitory rented in 4Q2018 at 21B to accommodate more foreign workers.

Energy Consumption by Location

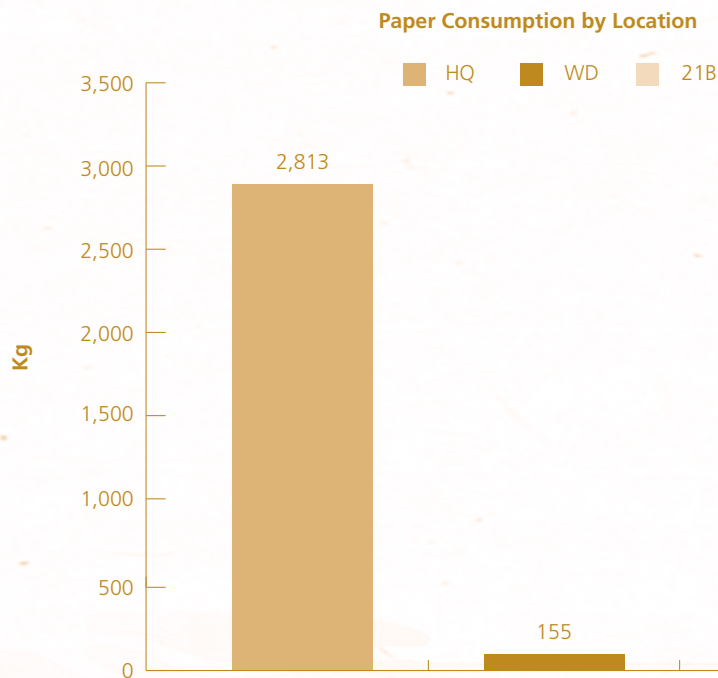

Environmental, Social and Governance Report

Paper conservation

The Group has adopted green office practices to reduce consumption and the impact on the environment. In order to reduce waste paper, we have developed the following measures:

- Reusing single-sided paper to minimise paper consumption, provided that the paper does not contain any confidential information;
- Deploying recycling bins to collect used paper products such as waste papers, posters, letters and envelopes;
- Saving paper by doing two-sided printing;
- Writing on both sides of the papers;
- Encouraging employees to bring their own cup and avoiding paper cups usage;
- Reusing stationeries such as file folders and envelopes; and
- Reusing packaging boxes.

Information on the packaging material used and intensity of the electricity, water and paper consumption (e.g. per unit of production volume, per facility) is not available as we are not in the manufacturing industry.

Environmental, Social and Governance Report

Aspect A3: The Environmental and Natural Resources

Although our business does not directly damage and affect the environment, we have put in place various ways to help reduce the emissions from our daily operation and save energy consumption with a goal to minimising the impact on the environment.

Save as disclosed in sections A1 and A2 above, the Group's operating activities have no significant impact on the environment and natural resources.

EMPLOYMENT AND LABOUR PRACTICES

Aspect B1: Employment

We embrace differences and recognise that diverse perspectives are important to our business success. As a responsible employer, the Group is committed to promoting equal opportunities and eliminating discrimination in all aspects of employment, training and career development. We promote equal opportunity with a strong emphasis on merit-based promotions. The Group is dedicated to developing a positive and harmonious workplace for employees, ensuring that every employee is treated equally and fairly, free from discrimination in respect of age, disability, religious belief, gender, sexual orientation, race, marital status, political belief and nationality, or any other category defined by law in all aspects of employment including recruitment, promotion, and opportunities for training, pay and benefits.

Firmly believing that human resources is one of the most valuable assets towards corporate success, we have put in place recruitment policies and a staff appraisal system. Internal employment and incentive processes are standardised and regulated by the management of the Group, and strictly executed by the Human Resources ("HR") department to attract and retain valuable talents.

As at 31 December 2019, we have employed over 147 local staff and 1,503 foreign workers. Our staff are remunerated according to their scope of employment and responsibilities. All our staff are based in Singapore. As at 31 December 2019, our local staff's turnover rate is 38% and our foreign workers' turnover rate is 31%.

Environmental, Social and Governance Report

All foreign workers are male while the breakdown of local employees are as follows:

For the Year, the Group had no violation record on relevant laws and regulations regarding employment that have significant impact on the Group.

Staff Handbook

All employees are given a staff handbook which they are required to adhere to. Our staff handbook details out the general terms and conditions of employment as well as certain employment procedures of our Group. It includes conditions of employment, holidays and leaves, employee benefits, performance appraisal and promotion, code of conduct and other matters such as disposal of confidential papers and energy conservation.

Environmental, Social and Governance Report

Performance Appraisal

Our transparent promotion practices take into account various factors such as business needs, increased scope of employment and responsibility, capability and contributions to the Group, as well as endorsements from the senior management.

The Group has a systematic and standardised appraisal system to evaluate employees' performances, assess their capabilities and determine whether they are in line with the Group's business development. It also provides a basis for promotion, salary increment and a communication platform for employees and management to set mutually acceptable and measurable performance standards, and career development opportunities.

Salaries are reviewed annually and discretionary bonuses are paid on periodic basis with reference to individual performance appraisals and the Group's performance.

Human Resources Policy

In line with our HR policy, our HR department is responsible for conducting our staff interview, probation, training, employee data maintenance, termination and resignation, performance evaluation and feedback mechanism, compensation, payroll, leave application and other HR matters.

Hiring of Foreign Workers

We are required to comply with the rules and regulation as stipulated by the MOM. Our current recruitment process provides equal opportunity in employment practices without discrimination in race and religion.

Dismissal

The Group ensures all employees are protected under the employment protection laws of Singapore. Our procedures generally include:

- Whenever an employee has handed in his or her resignation letter or being laid off, our HR executive or head of HR department will interview him or her to find out the reason of resignation;
- When we terminate an employment contract, the dismissed employee shall be given either his or her due notice or wages in lieu of notice, and the notice should not be served during his or her annual leave and maternity leave;
- An employee cannot be dismissed when she has been confirmed pregnant by a qualified medical doctor or have given notice of pregnancy to the Company; and
- An employee cannot be dismissed when he or she takes a paid medical leave.

Environmental, Social and Governance Report

Employee Welfare

The Group ensures all employees are entitled to be paid for annual leave, marriage leave, maternity leave and other statutory leaves and holidays in accordance with the law and safeguards employees' basic rights. Other benefits that are available to eligible employees include medical insurance scheme and long service awards.

In order to foster a harmonious working environment and encourage collaboration, we organised several company dinners, team building activities and a company trip during the Year.

Aspect B2: Health and Safety

Safety is integral to our business operations. The Group recognises the importance of a safe and healthy work environment as the cornerstone of a successful organisation and aims to ensure that the health and safety of our employees are well taken care of. As such, we have engaged third party service providers to perform pest control at our self-operated dormitories from time to time. We also place emphasis on occupational health and work safety and provide regular training on workplace health and safety to our employees.

We are committed to protecting the health and safety of the employees and the community, we require all employees to comply with all the relevant occupational health and safety regulations, and do our utmost to provide them with a safe and healthy working environment. This includes providing the employees with the necessary protective equipment and medical insurance.

Due to the nature of works at construction sites, risks of accidents or injuries to our deployed workers are inherent. We have established a safety management system with reference to the Occupational Health & Safety Assessment Series ("**OHSAS 18001**") standards. This provides a framework for monitoring and evaluating the implementation of our safety policies and measures, from planning to actual implementation in daily operations, in an effort to provide our employees with a safe and healthy working environment.

Since 2009, the occupational health and safety management systems put in place by our operating subsidiaries, KT&T Engineers and Constructors Pte. Ltd. and Tenshi Resources Pte. Ltd., have been certified to be in accordance with the requirements of the OHSAS 18001:2007 standards.

We encourage our employees to inform us of any health and safety issues in their workplace so that we can eliminate or reduce the risk and work together to alleviate any health and safety risks to a minimum.

During the Year, the Group was not aware of any material non-compliance with laws and regulations relating to occupational health and safety that have a significant impact on the Group.

Environmental, Social and Governance Report

Aspect B3: Development and Training

We believe that our employees and foreign workers should be equipped with skills needed to thrive in a rapidly evolving industry. Their development and training are instrumental to improve productivity and ensure sustainable growth of our Group.

Recognising that knowledge and skills of our employees are vital to the Group's continued business growth and success, it is the policy of the Group to encourage employees to attend appropriate courses to enhance their competence for performance improvement and career development. In view of this, the Group has organised workshops, seminars and training programmes that covered various aspects to improve employees' level of skills and knowledge and maximise their potential. They are also encouraged to enrol in job-related courses to enrich themselves.

In order to provide quality service to our customers, we constantly send our foreign workers to different types of training courses covering a wide range of areas such as inhouse rebar, carpentry and plastering training; coretrade for plumbing and pipe fittings; coretrade for precast concrete component erection; work-at-height; construction safety; rigger & signal; boom lift; tunnelling; confine space; and welder.

In FY 2019, we spent approximately S\$16,181 in staff training and S\$337,087 in foreign workers training.

Aspect B4: Labour Standards

The Group firmly adopts a zero-tolerance policy on child labour and forced labour and we do not employ any person below the age of eighteen years at our workplace. Our suppliers are expected to follow the same standard of labour practices when working with us.

No employee should be made to work against his/her will or work as bonded/forced labour, or subject to corporal punishment or coercion. Our HR department, recruitment department and our site coordinators are responsible for implementing this policy.

HR department, recruitment department and administrative department maintain the employment contracts and relevant documentation on the details of our employees and foreign workers.

During the Year, the Group was not aware of any material non-compliance with the laws and regulations regarding child and forced labour that have a significant impact on the Group.

OPERATING PRACTICES

Aspect B5: Supply Chain Management

All our suppliers are based in Singapore. In managing the environmental and social risks of our supply chain, we will perform assessments on all our suppliers before engaging them and maintain an approved vendor list. We will also monitor and assess our suppliers annually whereby those with poor performance will be removed from our approved vendor list.

Environmental, Social and Governance Report

New supplier assessment

Our new suppliers are assessed based on capability, past track records, achievements and results of financial due diligence.

Monitoring of suppliers and subcontractors

We evaluate and monitor our suppliers' performance based on (1) the quality of service; (2) the timeliness in completing the required service or delivering of goods; (3) responsiveness; and (4) compliance with relevant rules and regulations. Suppliers' unsatisfactory performance will lead to their removal from our approved vendor list.

Aspect B6: Product Responsibility

As our business nature does not involve any manufacturing process, product responsibility issues are not directly related to us. However, we are committed to offering superior quality services to our customers by satisfying their expectations and needs.

The quality control measures adopted by our Group in respect of our foreign workers include the following:

(i) Service quality

We conduct regular evaluation on our foreign workers' performance. Our team of site coordinators conducts routine inspection at the relevant work sites to ascertain our customers' satisfaction with the service quality of our deployed workers. Further, our sales managers will usually make follow-up telephone calls to our customers shortly after the deployment to obtain their feedbacks, and attend to the complaints received from our customers, if any. If our customers consider the performance of any deployed workers unsatisfactory, we will, pursuant to the relevant contract terms, arrange for appropriate replacement in the following work day after receiving their requests. We will determine whether we will terminate and/or renew the employments of our foreign workers upon their expiry based on the evaluation results.

(ii) Daily management

While our foreign workers are under the supervision and control of our customers during their deployment, we generally require our customers to give a series of undertakings to us regarding the management of our deployed workers. Further, in the employment contracts with our foreign workers, we typically require them to closely follow our in-house dormitory rules, report to work on time as required by us and accept our assignment of jobs at different work sites of our customers from time to time.

Environmental, Social and Governance Report

(iii) Trainings

We provide in-house trainings to our foreign workers on rebarring and other general construction works and arrange for some of them to attend external training courses on specialised construction works. We also provide briefings to our deployed workers on their service standard and work safety measures before the commencement of work.

(iv) Health and safety

Pursuant to the Workplace Safety and Health Act of Singapore, all our deployed workers will attend the safety induction course conducted by an onsite safety officer appointed by the main contractor of the work site on their first day of deployment. In addition, our site operations team will provide briefings to our deployed workers on their service standard and work safety measures before the commencement of work.

Data Protection

We respect customer data privacy and are committed to preventing customer data leakage or loss. Every employee must follow local regulations in relation to personal data privacy in order to safeguard customer data. Collected customer personal data is only accessible by an authorised personnel and those who would handle with care.

Intellectual Property Rights

The Group strives to protect its own Intellectual Property (“IP”) rights and respects third party IP rights according to all related applicable laws and regulations. We have registered our operating subsidiary, KT&T Engineers and Constructors Pte. Ltd.’s, logo in Singapore on 18 September 2017 and it will be up for renewal on 18 September 2027.

We will monitor and keep track of the validity of these trademarks and shall take the necessary action to protect our IP rights.

Advertising and labelling

As we are in the manpower outsourcing, dormitory and IT services industries, we do not produce any goods. Our advertising and labelling activities are mainly flyers which are distributed to new customers. Currently, we are reducing our hard copy flyers and switching to electronic forms.

During the Year, the Group was not aware of any material non-compliance with the laws and regulations relating to health and safety, advertising, labelling and privacy matters that would have a significant impact on the Group.

Environmental, Social and Governance Report

Aspect B7: Anti-corruption

The Group operates with a high standard of integrity and ethics. Employees are required to conduct themselves with integrity, in an ethical and proper manner, and in compliance with the applicable laws and regulations of the countries in which the Group operates, including anti-bribery laws.

The Group has implemented gift and entertainment policy and fraud investigation policy to minimise risks of fraud, corruption and bribery. All employees are required to become acquainted with and abide by these policies and procedures. Every employee is required to complete the form for declaration of conflict of interest annually.

We have the current procedures to ensure our foreign workers are not being extorted:

- 1) renew their permits based on their work performance, disciplinary issues and their acceptance. Renewal of work permit is done by HQ; and
- 2) put on posters on dormitories to inform foreign workers of their employment rights.

As we are not a financial institution and our businesses are mainly in Singapore, we do not have much cross border transactions. We do not have an anti-money laundering policy in place. However, all receipts of monies are matched to the customer invoices before banking in and all payments are matched to valid supplier invoices before processing payment.

We provide channels for our employees to report instances that they believe to be unethical or in breach of the Group's policies. The Group's whistleblowing policy allows employees to report suspicious cases in a confidential manner.

During the Year, the Group was not aware of any material breach of laws and regulations relating to bribery, extortion, fraud and money laundering that have a significant impact on the Group.

Aspect B8: Community Investment

The Group recognises the inextricable connection between its continuous success and community prosperity. As a responsible and constructive corporate citizen, the Group has continuously offered sponsorships to various charitable organisations. For the Year, we have contributed S\$100,500 to the following three charitable organisations and a temple in Thailand.

- Club Rainbow, an independent charity in Singapore which provides compassionate services to chronically ill children and their families;
- MINDS (Movement for Intellectually Disabled of Singapore), a non-governmental organisation catering to the needs of the Intellectually Disabled in Singapore.
- St Andrew's Autism Centre, a non-profit organisation in Singapore for the education, training and care of persons with autism and their families.

Independent Auditor's Report

To the Shareholders of Jinhai International Group Holdings Limited (formerly known as Kakiko Group Limited)

(Incorporated in the Cayman Islands with limited liability)

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Opinion

We have audited the consolidated financial statements of Jinhai International Group Holdings Limited (formerly known as Kakiko Group Limited) (the "**Company**") and its subsidiaries (collectively referred to as the "**Group**"), which comprise the consolidated statement of financial position as at 31 December 2019, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group are properly drawn up in accordance with International Financial Reporting Standards ("**IFRS**") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance so as to give a true and fair view of the consolidated financial position of the Group as at 31 December 2019 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("**ISAs**"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("**IESBA Code**"), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditor's Report

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment assessment of trade receivables (Note 17 to the financial statements)

Risk:

Expected credit losses ("**ECL**") to be recognised from initial recognition of the receivables. The Group determines the expected credit losses on trade receivables by using a provision matrix that is based on historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Due to the significance of trade receivables and the complexity involved in the ECL calculation, including the credit risks of customers and the timing and amount of realisation of debts, this was considered as a key audit matter.

Our response:

We assessed the reasonableness of the assumptions used in the ECL calculation taking into consideration historical credit loss data and adjustments for current market environment and forward-looking information.

We analysed the aging of trade receivables, requested trade receivables balance confirmations, and tested subsequent receipts of trade receivables post balance sheet date.

We assessed the recoverability of the trade receivables on a sample basis through our evaluation of management's assessment with reference to, amongst others, the credit profile of the customers, historical payment pattern of customers, publicly available information and latest correspondence with customers.

We reviewed the sufficiency of the disclosures in the financial statements.

Independent Auditor's Report

Key Audit Matters *(Continued)*

Assessment of impairment of property, plant and equipment (Note 13 to the financial statements)

Risk:

The valuation process involves significant judgement in determining the appropriate valuation methodology to be used, and in estimating the underlying assumptions to be applied. These estimates include adjustments made for differences between the subject properties and comparables.

Our response:

We evaluated the competence, qualification and objectivity of the management's valuer, obtained an understanding of the work of the management's valuer' and evaluated the appropriateness of work of the management's valuer as audit evidence for the relevant assertion.

We considered, via the auditor's expert, the valuation methodology used by management's valuer against those applied by other valuers for similar asset types. On the leasehold property, we corroborated the inputs used in the valuation including adjustments made for differences including locational and physical characteristics, and prevailing market conditions, between the subject property and comparables. With regards to plant and equipment, we corroborated the inputs such as the replacement cost and physical and economic obsolescence factors used in the valuation by comparing them against available industry data, taking into consideration comparability and market factors.

We also considered the adequacy of the disclosures in the financial statements.

Independent Auditor's Report

Key Audit Matters *(Continued)*

Assessment of impairment of right-of-use assets (Note 14 to the financial statements)

Risk:

The Group assessed the recoverable amount of right-of-use assets based on valuations. The computation of the recoverable amount of the right-of-use assets involved significant estimates and assumptions in determining an incremental borrowing rate from a market participant's perspective.

Our response:

We considered the valuation methodologies used by management and management's valuer. We examined the valuation assumptions with regards to the market conformity. We reviewed the mathematical correctness of fundamental calculation steps.

We evaluated the competence, capabilities and objectivity of the auditor's expert. Through our appointed auditor's expert, we assessed the appropriateness and reasonableness of the methodology, inputs and assumptions used or relied on by management, including determination of an incremental borrowing rate from a market participant's perspective related to computation of fair values of leases of leasehold land, dormitory cum warehouse premises and plant and equipment.

We also considered the adequacy of the disclosures in the financial statements.

Other Information

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and take appropriate actions in accordance with ISAs.

Independent Auditor's Report

Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS issued by IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

Independent Auditor's Report

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements *(Continued)*

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Toh Kim Teck.

2. BASIS OF PREPARATION

Significant accounting estimates and judgements

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“**IFRS**”) and requires the use of judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the financial year. Although these estimates are based on management’s best knowledge of current events and actions, actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The critical accounting estimates and assumptions used and areas involving a significant judgement are described below.

Judgements made in applying accounting policies

Income taxes

Significant judgement is involved in determining the Group’s provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for expected tax issue based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Key sources of estimation uncertainty

Recoverability of trade receivables

When measuring expected credit losses (“**ECL**”), the Group uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collaterals.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

2. BASIS OF PREPARATION *(Continued)*

Significant accounting estimates and judgements *(Continued)*

Key sources of estimation uncertainty *(Continued)*

Recoverability of trade receivables (Continued)

Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

The Group uses a provision matrix to calculate ECL for the trade receivables. The provision matrix is based on the Group's historical default rates taking into consideration reasonable and supportable forward-looking information that is available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered. In addition, trade receivables which are credit impaired are assessed for ECL individually.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables is disclosed in Note 17.

Recognition of deferred tax assets

The Group has recognised deferred tax assets of S\$172,100 (Note 16) as at 31 December 2019 (2018 – S\$589,900). Deferred tax assets are recognised for unused tax losses to the extent that it is probable that future taxable profit will be available against which the unused tax losses can be utilised. Management judgement is required to determine the amount of deferred tax assets that can be recognised based upon the likely level of future taxable profits together with future tax planning strategies and also subject to satisfying relevant tax legislations in the jurisdiction where the Group operates.

Determination of incremental borrowing rate for leases

On 1 January 2019, the Group applied the IFRS 16 *Leases* transition provisions and recognised a lease liability at the present value of the remaining lease payments using the Group's incremental borrowing rate for the underlying lease asset; and recognised a right-of-use asset, on a lease-by-lease basis at an amount equal to the lease liability. Management applied significant estimates and assumptions in determining the incremental borrowing rate, with key inputs to the computation comprising the term of the lease, nature and quality of the security, economic environment and credit spread. A 5% change in the incremental borrowing rate would not have significant effect on the fair value of the lease liabilities on initial adoption of IFRS 16.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(a). ADOPTION OF NEW AND REVISED IFRS FOR THE CURRENT FINANCIAL YEAR

On 1 January 2019, the Group adopted all the new and revised International Financial Reporting Standards (the “IFRSs”), IFRIC Interpretations (“IFRIC”) and amendments to IFRSs that are effective and relevant to its operations. The adoption of these new/revised IFRSs and IFRICs does not result in significant changes to the Group’s accounting policies and has no material effect on the amounts reported for the current or prior periods except as disclosed below:

Reference	Description	Effective date (Annual periods beginning on or after)
IFRS 16	Leases	1 January 2019
IFRIC 23	Uncertainty over Income Tax Treatments	1 January 2019

IFRS 16 Leases

IFRS 16 *Leases* supersedes IAS 17 *Leases*, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC-15 *Operating Leases – Incentives* and SIC-27 *Evaluating the Substance of Transactions involving the Legal Form of a Lease*, and pronounces new or amended requirements with respect to lease accounting. For lessee accounting, IFRS 16 introduces significant changes by removing the distinction between operating and finance lease and requiring the recognition of a right-of-use asset and a lease liability at commencement for all leases, except for short-term leases and leases of low-value assets when such recognition exemptions are adopted. For lessor accounting, the requirements have remained largely unchanged. The impact of the adoption of IFRS 16 on the Group’s financial statements are discussed below.

The date of initial application of IFRS 16 for the Group is 1 January 2019. The Group has elected to transition to IFRS 16 using the cumulative catch-up (or modified retrospective) approach which requires the Group to recognise the cumulative effect of initially applying IFRS 16 as an adjustment to the opening balance of retained earnings at the date of initial application, without restatement of comparatives under IAS 17.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(a). ADOPTION OF NEW AND REVISED IFRS FOR THE CURRENT FINANCIAL YEAR *(Continued)*

IFRS 16 Leases *(Continued)*

(a) Definition of a lease

The new definition of a lease under IFRS 16 mainly relates to the concept of 'control' that determines whether a contract contains a lease on the basis of whether the customer has the right to control the use of an identified asset for a period of time in exchange for consideration, which is in contrast to the concept of 'risks and rewards' under IAS 17.

The Group has elected to apply the practical expedient available on transition to IFRS 16 not to reassess whether a contract is, or contains, a lease. Accordingly, the superseded definition of a lease under IAS 17 continues to be applied to those leases entered into, or modified, before 1 January 2019, and the Group applies the new definition of a lease and related guidance set out in IFRS 16 only to those lease contracts entered into, or modified, on or after 1 January 2019. After the transition to IFRS 16, the Group shall reassess whether a contract is, or contains, a lease only if the terms and conditions of the contract are changed.

The new requirements for identifying a lease under IFRS 16 do not change significantly the scope of contracts that will meet the definition of a lease for the Group.

(b) Lessee accounting

(i) Former operating leases

Before the adoption of IFRS 16, the Group's non-cancellable operating lease payments in future reporting periods for a leasehold land, dormitory cum warehouse premises and certain plant and equipment, were not recognised as liabilities in the statement of financial position but were disclosed as commitments in the notes to the financial statements, and these lease payments were reported as rental expenses in profit or loss over the lease term on a straight-line basis and presented under operating activities in the statement of cash flows. Under IFRS 16, the Group recognises right-of-use assets and lease liabilities in the statement of financial position for these outstanding lease payments, reports depreciation of right-of-use assets and interest expense on lease liabilities in profit or loss, and presents these lease payments as principal repayment and interest paid separately under financing activities in the statement of cash flows.

Under IFRS 16, lease incentives are recognised as part of the measurement of the right-of-use assets and lease liabilities whereas under IAS 17, they resulted in the recognition of a lease incentive liability, amortised as a reduction of rental expenses on a straight-line basis.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(a). ADOPTION OF NEW AND REVISED IFRS FOR THE CURRENT FINANCIAL YEAR *(Continued)*

IFRS 16 Leases *(Continued)*

(b) Lessee accounting *(Continued)*

(i) Former operating leases *(Continued)*

The Group has elected, as a practical expedient of IFRS 16, not to separate non-lease components from lease components for all classes of underlying assets and instead account for each lease component and any associated non-lease components as a single lease component, except if the non-lease component is an embedded derivative according to IFRS 9 Financial Instruments.

For short-term leases and leases of low-value assets, the Group has elected for exemption under IFRS 16 from recognising their right-of-use assets and lease liabilities, and to report their lease expenses in profit or loss on a straight-line basis.

On 1 January 2019, the Group has applied the following IFRS 16 transition provisions under the cumulative catch-up approach for each lease, or each portfolio of leases with reasonably similar characteristics, formerly classified as operating lease under IAS 17:

- recognises a lease liability at the present value of the remaining lease payments using the lessee's incremental borrowing rate for the underlying lease asset; and
- recognises a right-of-use asset, on a lease-by-lease basis, at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the statement of financial position immediately before the date of initial application.

The Group has adopted the following IFRS 16 practical expedients when applying the cumulative catch-up transition approach to leases formerly classified as operating lease under IAS 17:

- elects not to recognise the right-of-use asset and lease liability for a lease with lease term ending within twelve months of the date of initial application;
- excludes initial direct costs from the measurement of the right-of-use asset at the date of initial application; and
- uses hindsight for determining the lease term when the contract contains options to extend or terminate the lease.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(a). ADOPTION OF NEW AND REVISED IFRS FOR THE CURRENT FINANCIAL YEAR *(Continued)*

IFRS 16 Leases *(Continued)*

(b) Lessee accounting *(Continued)*

(ii) Former finance leases

On 1 January 2019, with regards to the Group's leases of motor vehicles and office equipment that were formerly classified as finance lease under IAS 17, the carrying amounts of the leased assets (in property, plant and equipment) and obligations under finance lease immediately before the date of initial application become respectively the opening balance of the carrying amounts of right-of-use assets and lease liabilities under IFRS 16. Subsequently, the Group accounts for these right-of-use assets and lease liabilities in accordance with IFRS 16.

(c) Lessor accounting

The Group is the lessor

Investment property

The Group leases out dormitory bed spaces located at its investment property, including own property and right-of-use assets. The Group has classified these leases as operating leases.

The Group is not required to make any adjustments on transition to IFRS 16 for leases in which it acts as a lessor.

The Group as intermediate lessor of sublease

The Group acts as an intermediate lessor under arrangements whereby it subleases out a portion of its warehouse space to a third party for monthly lease payments. The sublease is classified as an operating lease by reference to the right-of-use asset arising from the head lease.

IFRIC 23 Uncertainty over Income Tax Treatments

The Group has adopted IFRIC 23 for the first time in the current year. IFRIC 23 sets out how to determine the accounting tax position when there is uncertainty over income tax treatments. The Interpretation requires the Group to:

- determine whether uncertain tax positions are assessed separately or as a group; and
- assess whether it is probable that a tax authority will accept an uncertain tax treatment used, or proposed to be used, by an entity in its income tax filings, as follows:
 - if yes, the Group should determine its accounting tax position consistently with the tax treatment used or planned to be used in its income tax filings; or
 - if no, the Group should reflect the effect of uncertainty in determining its accounting tax position using either the most likely amount or the expected value method.

There is no material impact to the Group's financial statements.

3(b). NEW AND REVISED IFRS STANDARDS ISSUED BUT NOT YET EFFECTIVE

At the date of authorisation of these financial statements, the Group has not adopted the new and revised IFRSs, IFRICs and amendments to IFRSs that have been issued but are not yet effective to them. Management anticipates that the adoption of these new and revised IFRSs pronouncements in future periods will not have a material impact on the Group's financial statements in the period of their initial applications.

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and companies controlled by the Company (its subsidiaries). Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Basis of consolidation *(Continued)*

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intra-group assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

In the Company's separate financial statements, investment in subsidiaries are stated at cost less allowance for any impairment losses on an individual subsidiary basis.

Merger accounting for business combination involving entities under common control (prior to 1 January 2018)

The consolidated financial statements incorporate the financial statements items of the combining entities or businesses in which the common control combination occurs as if they had been combined from the date when the combining entities or businesses first came under control of the controlling entity.

The net assets of the combining entities or businesses are combined using the existing book values from the controlling party's perspective. No amount is recognised in respect of goodwill or excess of acquirer's interest in the net fair value of acquiree's identifiable assets, liabilities and contingent liabilities over cost at the time of common control combination, to the extent of the continuation of the controlling party's interest.

The consolidated statement of profit or loss and other comprehensive income include the results of each of the combining entities or businesses from the earliest date presented or since the date when the combining entities or businesses first came under the common control, where is a shorter period, regardless of the date of the common control combination.

The comparative amounts in the consolidated financial statements are presented as if the businesses had been combined at the end of the previous reporting period or when they first came under common control, whichever is earlier.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation (Continued)

Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interest issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

At acquisition dates, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with IAS 12 *Income Taxes* and IAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with IFRS 2 *Share-Based Payments* at the acquisition date (see below); and
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

When the consideration transferred by the Group in a business combination includes contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Basis of consolidation *(Continued)*

Business combinations *(Continued)*

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Other contingent consideration is remeasured to fair value at subsequent reporting dates with changes in fair value recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. Depreciation on other items of property, plant and equipment is calculated using the straight-line method to allocate their depreciable amount over their estimated useful lives as follows:

Properties and related structures on leasehold land	Over the terms of lease of 3-12 years
Leasehold improvements	Shorter of 3 years or over the lease terms
Office equipment	3 years
Motor vehicles	5 years
Furniture and fittings	3 years
Computers	1 to 3 years

The cost of property, plant and equipment includes expenditure that is directly attributable to the acquisition of the items. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the asset.

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Property, plant and equipment and depreciation *(Continued)*

Subsequent expenditure relating to property, plant and equipment that have been recognised is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the standard of performance of the asset before the expenditure was made, will flow to the Group and the cost can be reliably measured. All other repair and maintenance expenses are recognised in profit or loss when incurred.

For acquisitions and disposals during the financial year, depreciation is provided from the month of acquisition and to the month before disposal respectively. Fully depreciated property, plant and equipment are retained in the books of accounts until they are no longer in use.

The gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amounts of the asset and is recognised in the income statement.

Depreciation methods, useful lives and residual values are reviewed, and adjusted as appropriate, at each reporting date as a change in estimates.

Investment properties

Investment properties are held for long-term rental yields and are not occupied by the Group.

Investment properties are stated at cost less subsequent accumulated depreciation and any accumulated impairment losses. Depreciation is recognised so as to write off the cost of investment properties less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Investment properties are subject to renovations or improvements at regular intervals. The cost of major renovations and improvements is capitalised as additions and the carrying amounts of the replaced components are written off to profit or loss. The cost of maintenance, repairs and minor improvement is charged to profit or loss when incurred.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. On disposal or retirement of an investment property, the difference between any disposal proceeds and the carrying amount is recognised in profit or loss.

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Financial instruments

Financial assets and financial liabilities are recognised on the statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

- **Financial assets**

Initial recognition and measurement

Financial assets are recognised when, only when the entity becomes party to the contractual provisions of the instruments.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of financial asset not at fair value through profit or loss, transaction costs. Trade receivables are measured at the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party if the trade receivables do not contain a significant financing component at initial recognition. Refer to the accounting policies in this section Revenue recognition.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income ("**OCI**"), it needs to give rise to cash flows that are solely payments of principal and interest ("**SPPI**") on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchase or sales of financial assets that required delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date that the Group commits to purchase or sell the asset.

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

- **Financial assets (Continued)**

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments).
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments).
- Financial assets designated as fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments).
- Financial assets at fair value through profit or loss.

Financial assets at amortised cost (debt instruments)

Financial assets that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the assets are derecognised or impaired, and through amortisation process.

Subsequent measurement of debt instruments depends on the Group's business model with the objective to hold financial assets in order to collect contractual cash flows and the contractual cash terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Group's financial assets at amortised cost includes trade receivables and contract assets.

Fair value through other comprehensive income (FVOCI)

Financial assets that are held for collection of contractual of cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Financial assets measured at FVOCI are subsequently measured at fair value. Any gains or losses from changes in fair value of the financial assets are recognised in other comprehensive income, except for impairment losses, foreign exchange gains and losses and interest calculated using the effective interest method are recognised in profit or loss and computed in the same manner as for financial assets measured at amortised cost. The cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment when the financial asset is de-recognised.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Financial instruments *(Continued)*

- **Financial assets** *(Continued)*

Subsequent measurement (Continued)

Financial assets designated as fair value through other comprehensive income (OCI) (equity instruments)

The Group subsequently measures all equity instruments at fair value. On initial recognition of an equity instrument that is not held for trading, the Group may irrevocably elect to present subsequent changes in fair value in OCI. The classification is determined on an instrument – by – instrument basis. Dividends from such investments are to be recognised in profit or loss when the Group's right to receive payments is established.

Changes in fair value of financial assets at FVOCI recognised in OCI are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVOCI are not subject to impairment assessment.

Financial assets at fair value through profit or loss

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at FVOCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch. A gain or loss on a debt instruments that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss statement in the period in which it arises. Interest income from these financial assets is included in the finance income.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes listed equity investment which the Group had not irrevocably elected to classify at FVOCI. Dividends on listed equity instruments are also recognised as other income in the statement of comprehensive income when the right of payment has been established.

Financial instruments *(Continued)*

- **Financial assets** *(Continued)*

Derecognition

A financial asset (or, where applicable, part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Contract balances *(Continued)*

Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e. only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from customer. If customer pays consideration before the Group transfers good or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Non-derivative financial liabilities

Initial recognition and measurement

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Directly attributable transaction costs are recognised in profit or loss as incurred.

Other financial liabilities are initially measured at fair value less directly attributable transaction costs.

Subsequent measurement

They are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss.

Derecognition

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses (“**ECL**”) on investments in debt instruments that are measured at amortised cost and contract assets. No impairment loss is recognised for investments in equity instruments. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables, contract assets and finance lease receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within twelve months after the reporting date.

(i) Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group’s debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group’s core operations, namely real estate, industrial construction and engineering materials.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Impairment of financial assets *(Continued)*

(i) Significant increase in credit risk *(Continued)*

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument (e.g. significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortised cost);
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor; and
- actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if (i) the financial instrument has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a financial asset to have low credit risk when it has an external (if any) or internal credit rating of "investment grade" as per globally understood definition.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Impairment of financial assets *(Continued)*

(ii) Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that the receivables which meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Impairment of financial assets *(Continued)*

(v) Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. For finance lease receivable, the cash flows used for determining the expected credit losses is consistent with the cash flows used in measuring the finance lease receivable in accordance with IFRS 16 *Leases*.

Where lifetime ECL is measured on a collective basis to cater for cases where evidence of significant increases in credit risk at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- nature of financial instruments (i.e. the Group's trade and other receivables, finance lease receivables and amounts due from customers are each assessed as a separate group, while loans to related parties are assessed for expected credit losses on an individual basis);
- past-due status;
- nature, size and industry of debtors;
- nature of collaterals for finance lease receivables; and
- external credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date.

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Share capital and premium

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account. Any excess of the proceeds received over the par value of the shares is recorded in share premium.

Earnings per share

The Group presents basic and diluted earnings per share data for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted-average number of ordinary shares outstanding during the year, adjusted for own shares held.

Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted-average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

Leases (from 1 January 2019)

The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of twelve months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Leases (from 1 January 2019) *(Continued)*

The Group as lessee *(Continued)*

Lease liability

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses the incremental borrowing rate specific to the lessee. The incremental borrowing rate is defined as the rate of interest that the lessee would have to pay to borrow over a similar term and with a similar security the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

Variable lease payments that are not based on an index or a rate are not included as part of the measurement and initial recognition of the lease liability. The Group shall recognise those lease payments in profit or loss in the periods that trigger those lease payments.

For all contracts that contain both lease and non-lease components, the Group has elected to not separate lease and non-lease components and account these as one single lease component.

The lease liabilities are presented as a separate line item in the statement of financial position.

The lease liability is subsequently measured at amortised cost, by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Leases (from 1 January 2019) *(Continued)*

The Group as lessee *(Continued)*

Lease liability (Continued)

The Group remeasures the lease liability (with a corresponding adjustment to the related right-of-use asset or to profit or loss if the carrying amount of the right-of-use asset has already been reduced to nil) whenever:

- the lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used); or
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Right-of-use asset

The right-of-use asset comprises the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under IAS 37. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Leases (from 1 January 2019) *(Continued)*

The Group as lessee *(Continued)*

Right-of-use asset (Continued)

Depreciation on right-of-use assets is calculated using the straight-line method to allocate their depreciable amounts over the shorter period of lease term and useful life of the underlying asset, as follows:

Leasehold land	Over lease term of 3 to 12 years
Dormitory cum warehouse premises	Over lease term of 3 years
Plant and equipment	3 years
Motor vehicles	5 years

If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line item in the statement of financial position.

A right-of-use asset which meets the definition of an investment property is presented within "investment properties" in the statement of financial position.

The Group applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

The Group as lessor

Generally, the accounting policies applicable to the Group as a lessor in the comparative period were not different from IFRS 16, except for the classification of the sublease entered into that resulted in a finance lease classification.

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Leases (from 1 January 2019) *(Continued)*

The Group as lessor *(Continued)*

At inception or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. If an arrangement contains lease and non-lease components, then the Group applies IFRS 15 to allocate the consideration in the contract.

The Group applies the derecognition and impairment requirements in IFRS 9 to the net investment in the lease. The Group further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

The Group recognises lease payments received from investment property under operating leases as income on a straight-line basis over the lease term within "revenue" in profit or loss. Rental income from subleased property is recognised within "other income" in profit or loss.

When the Group is an intermediate lessor, it accounts for the head lease and the sublease as two separate contracts. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

Leases (before 1 January 2019)

The Group as lessee

Operating lease

Leases where substantially all risks and rewards incidental to ownership are retained by the lessors are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessors) are recognised in profit or loss on a straight-line basis over the period of the lease. Contingent rents are recognised as an expense in profit or loss when incurred.

Finance lease

Leases where the Group assumes substantially all risks and rewards incidental to ownership of the leased assets are classified as finance leases.

The leased assets and the corresponding lease liabilities (net of finance charges) under finance leases are recognised on the statement of financial position as plant and equipment and borrowings respectively, at the inception of the leases based on the lower of the fair value of the leased assets and the present value of the minimum lease payments.

Each lease payment is apportioned between the interest expense and the reduction of the outstanding lease liability. The interest expense is recognised within "finance costs" in profit or loss on a basis that reflects a constant periodic rate of interest on the finance lease liability.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Leases (before 1 January 2019) *(Continued)*

The Group as lessor

Operating lease

Leases where the Group retains substantially all risks and rewards incidental to ownership are classified as operating leases. Rental income from operating leases (net of any incentives given to the lessees) is recognised in profit or loss on a straight-line basis over the lease term.

Initial direct costs incurred by the Group in negotiating and arranging operating leases are added to the carrying amount of the leased assets and recognised as an expense in profit or loss over the lease term on the same basis as the lease income. Contingent rents are recognised as income in profit or loss when earned.

Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Income taxes

Income tax expense represents the sum of the income tax currently payable and deferred income tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in countries where the Company and subsidiaries operate by the end of the reporting period.

Deferred tax is recognised on the differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Income taxes *(Continued)*

Deferred tax liabilities are recognised on taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed as at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. Except for investment properties measured using the fair value model, the measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax liabilities and deferred tax assets for investment properties that are measured using the fair value model the carrying amounts of such properties are presumed to be recovered through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model of the Group whose business objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. The Group has not rebutted the presumption that the carrying amount of the investment properties will be recovered entirely through sale.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised as an expense or income in profit or loss, except when they relate to items credited or debited outside profit or loss (either in other comprehensive income or directly in equity), in which case the tax is also recognised outside profit or loss (either in other comprehensive income or directly in equity, respectively), or where they arise from the initial accounting for a business combination. In the case of a business combination, the tax effect is taken into account in calculating goodwill or determining the excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over cost.

Employee benefits

Short-term employee benefits

Short-term benefit obligations, including accumulated compensated absences, are measured on an undiscounted basis and are expensed as the related service is provided. A provision is recognised for the amount expected to be paid under short-term cash bonuses if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided.

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an employee benefit expense in profit or loss in the periods during which related services are rendered by employees.

Key management personnel

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the entity. Directors and certain key executive officers are considered key management personnel.

Related parties

A related party is defined as follows:

- (a) A person or a close member of that person's family is related to the Group and the Company if that person:
 - (i) has control or joint control over the Company;
 - (ii) has significant influence over the Company; or
 - (iii) is a member of the key management personnel of the Group or Company or of a parent of the Company.

Related parties *(Continued)*

- (b) An entity is related to the Group and the Company if any of the following conditions applies:
- (i) the entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) both entities are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Company or to the parent of the Company.

Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, other than contract assets, subject to impairment are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit (CGU) is the greater of its value-in-use and its fair value less costs to sell. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows. As a result, some assets are tested individually for impairment and some are tested at CGU level.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Impairment of non-financial assets *(Continued)*

An impairment loss is recognised for the amount by which the asset's or CGU's carrying amount exceeds its recoverable amount. Any impairment loss is charged to the profit or loss unless it reverses a previous revaluation in which case it is charged to equity.

An impairment loss, is reversed if there has been a change in the estimates used to determine the recoverable amount or when there is an indication that the impairment loss recognised for the asset no longer exists or decrease.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Revenue recognition

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with IFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Revenue recognition *(Continued)*

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers control of a product or service to a customer.

(i) Provision of manpower outsourcing and ancillary services

The Group provides manpower outsourcing and ancillary services such as transportation and accommodation for workers outsourced to its customers. Revenue from such services are recognised as the performance obligation is satisfied over time. Revenue is recognised for these services based on the stage of completion of the contract as detailed below.

(ii) Provision of dormitory services

The Group rents dormitory bed spaces and provides ancillary services to occupants of the bed spaces. Revenue from such services are recognised as the performance obligation is satisfied over time. Revenue is recognised for these services based on the stage of completion of the contract as detailed below. Payment for the services is due prior to the commencement of the service period and therefore a contract liability is recognised.

(iii) Provision of IT services

Revenue from the provision of IT services is recognised as the performance obligation is satisfied over time. Revenue is recognised for these services based on the stage of completion of the contract as detailed below. Payment for the services is due prior to the commencement of the service period and therefore a contract liability is recognised.

(iv) Provision of construction ancillary services

Revenue from the provision of construction ancillary services is recognised as the performance obligation is satisfied over time. Revenue is recognised for these services based on the stage of completion of the contract as detailed below.

(v) Rental income

Rental income from sub-lease of right-of-use assets is recognised on a straight-line basis over the lease term.

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Revenue recognition *(Continued)*

Contracts with multiple performance obligations (including allocation of transaction price)

For contracts that contain more than one performance obligations, the Group allocates the transaction price to each performance obligation on a relative stand-alone selling price basis.

The stand-alone selling price of the distinct good or service underlying each performance obligation is determined at contract inception. It represents the price at which the Group would sell a promised good or service separately to a customer. If a stand-alone selling price is not directly observable, the Group estimates it using appropriate techniques such that the transaction price ultimately allocated to any performance obligation reflects the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised goods or services to the customer.

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation

The progress towards complete satisfaction of a performance obligation is measured based on input method, which is to recognise revenue on the basis of the Group's efforts or inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation, that best depict the Group's performance in transferring control of goods or services.

Functional currency transactions and translation

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("**functional currency**"). The financial statements of the Group are presented in Singapore dollars, which is also the functional currency of the Company.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency are recorded at the rate of exchange prevailing on the date of the transaction. As at each reporting date, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

3(c). SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Functional currency transactions and translation *(Continued)*

Exchange differences arising on the settlement of monetary items and on retranslation of monetary items are included in profit or loss for the period. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of nonmonetary items in respect of which gains and losses are recognised in other comprehensive income. For such nonmonetary items, any exchange component of that gain or loss is also recognised in other comprehensive income.

Exchange differences on foreign currency borrowings relating to assets under construction for future productive use, are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are expressed in Singapore dollar using exchange rates prevailing at the end of the reporting period. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in a separate component of equity under the header of currency translation reserve.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities (including monetary items that, in substance, form part of the net investment in foreign entities), and of borrowings and other currency instruments designated as hedges of such investments, are recognised in other comprehensive income and accumulated in a separate component of equity under the header of currency translation reserve.

Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenue and incur expenses, including revenue and expenses that relate to transactions with any of the Group's other components. The Group determines and presents operating segments based on information that is provided internally to the Executive Directors, who is the Group's chief operating decision maker. All operating segments' operating results are reviewed regularly by the Group's Executive Directors to make decision about resources to be allocated to the segments and assess its performance, and for which discrete financial information is available.

Notes to the Consolidated Financial Statements

4. REVENUE AND SEGMENT INFORMATION

Revenue represents the consideration specified in contracts with customers for the provision of manpower outsourcing and ancillary services, dormitory services, IT services and construction ancillary services, solely derived in Singapore during the year.

Information is reported to Executive Directors, being the chief operating decision maker of the Group (“**CODM**”), for the purposes of resource allocation and performance assessment. The accounting policies are the same as the Group’s accounting policies described in Note 3(c). The CODM reviews revenue by nature of services, i.e. provision of manpower outsourcing and ancillary services to contractors of construction projects, provision of dormitory services, provision of IT services and provision of construction ancillary services and profit for the year as a whole. No further detailed analysis of the Group’s results nor assets and liabilities is regularly provided to the CODM for review. Accordingly, only entity-wide disclosures on services, major customers and geographical information are presented in accordance with IFRS 8 *Operating Segments*.

An analysis of the Group’s revenue for the year is as follows:

	2019	2018
	S\$	S\$
<i>Revenue recognised over time:</i>		
Provision of manpower outsourcing and ancillary services	44,677,377	41,249,556
Provision of dormitory services	5,664,827	5,228,727
Provision of IT services	655,500	527,220
Provision of construction ancillary services	901,535	451,760
	51,899,239	47,457,263

As permitted under IFRS 15, the aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied (or partially satisfied) as of the end of the reporting period has not been disclosed as those performance obligations are part of customer contracts that have original expected duration of one year or less.

Major customers

There was no individual customer that contributed over 10% of total revenue of the Group during the financial years ended 31 December 2019 and 2018.

Geographical information

The Group principally operates in Singapore, which is also its place of domicile. All revenues are derived from Singapore and the Group’s property, plant and equipment are all located in Singapore.

Note A:

Government grants mainly include the Wages Credit Scheme (the “WCS”), the Workforce Training and Upgrading Scheme (“WTU”), and retrofitting grants.

During the financial years ended 31 December 2019 and 2018, respective grants of S\$129,811 and S\$116,220 under WCS were received. Under this scheme, the Government of Singapore provides assistance to Singapore-registered businesses by way of co-funding 20% of wage increases given to Singapore citizen employees earning a gross monthly wage of up to S\$4,000 and S\$5,000 for 2018 and 2019, respectively.

During the financial years ended 31 December 2019 and 2018, the Group received respective grants of S\$68,991 and S\$338,557 under the WTU which co-funds up to 90% of the costs of selected skills assessment and training courses to upgrade the skills of workforce in the build environment.

During the year ended 31 December 2018, the Group received retrofitting grants of S\$215,678 from the Ministry of Manpower of the Singapore Government to subsidise the costs incurred for retrofitting the Group’s investment property. Of the total grants received, S\$85,071 has been recognised in profit or loss for the year ended 31 December 2019 (2018 – S\$82,604). The remaining S\$48,003 is recognised as deferred income as at 31 December 2019 (Note 24).

The remaining balance of Government grants are incentives received upon fulfilling the conditions for compensation of expenses already incurred or as immediate financial support with no future related costs nor related to any assets.

Note B:

Included in the interest income is deemed interest of S\$550,978 (2018 – Nil) from receivables arising from the one-off profit sharing agreement with Mines & Mineral Resources Co. Ltd (“Mines & Mineral”), a third party counterparty in Myanmar, and the termination of convertible bonds issued by Mines & Mineral which was converted to a receivable in 2018.

15. INVESTMENT PROPERTY *(Continued)*

Details of the Group's investment property as at 31 December 2019 are as follows:

Property/ Location	Description/ Existing use	Gross floor area/ Land area	Tenure
State Land Lot 6275 PT MK13, Woodlands Lodge One, Singapore 757388	Right-of-use of land parcel for constructing and holding two 3-storey dormitory blocks.	10,000 sqm	3-years leasehold commenced 1 November 2018
Woodlands Industrial Park E4 on State Land Lot 6275 PT MK13, Woodlands Lodge One, Singapore 757388	Two 3-storey dormitory blocks and a single storey amenity/ administration block.	10,950 sqm (including commercial gross floor area of 150 sqm)	3-years leasehold commenced 1 November 2018

The above investment property is depreciated on a straight-line basis over 3 years.

The Group's property, erected on a leasehold land under operating lease (less than 10 years), is held to earn rentals.

Information about the fair value hierarchy as at end of the reporting period are as follows:

	Fair value Level 3 S\$
As at 31 December 2018	4,100,000
As at 31 December 2019	8,913,007

There was no transfer into or out of Level 3 during the years ended 31 December 2019 and 2018.

Investment properties are stated at cost less accumulated depreciation and accumulated impairment losses. The fair value of investment properties as determined by the directors, based on indicative open market value amounted to \$8,913,007 as at 31 December 2019 (31 December 2018 – \$4,100,000) as advised by the independent professional valuers.

The indicative market value is based on the income method which capitalises the net rent of the properties at a suitable rate of return. In estimating the fair value of the property, the highest and best use of the property is its current use.

The Group leases out dormitory bed spaces located at its investment property under operating leases. The duration of each contract typically ranges from six months to one year.

The Group's revenue from rental income derived from the investment property are disclosed in Note 8.

At the reporting date, the Group does not have rentals receivable under non-cancellable operating leases in relation to its provision of dormitory bed spaces.

16. DEFERRED TAXATION

Certain deferred tax assets and liabilities have been offset in accordance with the Group's accounting policy. The following is the analysis of the deferred tax balances (after offset) for statement of financial position purposes:

	2019	2018
	S\$	S\$
Deferred tax assets	172,100	589,900
Deferred tax liabilities	(92,100)	(90,400)
	80,000	499,500

The following are the major deferred tax assets and (liabilities) recognised by the Group and the movements thereon, during the current and prior reporting periods:

	Accelerated tax depreciation	Unutilised tax losses	Right-of-use assets	Total
	S\$	S\$	S\$	S\$
At 1 January 2018	(123,500)	–	–	(123,500)

Overprovision in prior years (Note 9)	4,900	–	–	4,900
At 31 December 2018	(171,700)	671,200	–	499,500
(Charged)/Credited to profit or loss during the year (Note 9)	(63,600)	14,200	44,200	(5,200)
Over/(Under) provision in prior years (Note 9)	80,100	(494,400)	–	(414,300)
At 31 December 2019	(155,200)	191,000	44,200	80,000

Subject to the agreement by the tax authorities, at the end of the reporting period, the Group has unutilised tax losses of S\$4,411,403 (2018 – S\$4,684,443) available for offset against future profits. A deferred tax asset has been recognised in respect of approximately S\$1,124,000 (2018 – S\$3,948,000) of such losses. No deferred tax asset has been recognised in respect of the remaining S\$3,287,000 (2018 – S\$736,000) due to the unpredictability of future profit streams.

Less: loss allowance	(2,230,605)	(2,156,619)
	6,435,012	7,546,044

The credit terms to customers range from 3 to 30 days from the invoice date for trade receivables.

The following is an analysis of trade receivables net of impairment loss allowance presented based on due date at the end of each reporting period:

	2019	2018
	S\$	S\$
Not due	2,727,601	2,849,290
1 to 30 days	3,234,757	3,709,169

61 days to 90 days	45,844	113,377
91 days to 180 days	40,100	66,248
181 days to 365 days	22,760	96,745
Over 365 days	(205)	48,104
	6,435,012	7,546,044

The Group does not charge interest or hold any collateral over these balances.

Before accepting any new customer, the Group has assessed the potential customer's credit quality and defined credit limit to each customer on individual basis. Limits attributed to customers are reviewed once a year.

Loss allowance for trade receivables is measured at an amount equal to lifetime expected credit losses ("ECL"). The ECL on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

A trade receivable is written off when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings. None of the trade receivables that have been written off is subject to enforcement activities.

17. TRADE RECEIVABLES (Continued)

There has been no change in the estimation technique or significant assumptions made during the current reporting period.

The following table details the risk profile of trade receivables from contracts with customers based on the Group's provision matrix. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the Group's different customer base.

26. LEASE LIABILITIES *(Continued)*

The Group as lessee

(a) Properties

The Group makes monthly lease payments for the use of a land parcel on which its commercial building, classified as an investment property, is erected. This leasehold land, which has been recognised as a right-of-use asset, is classified as an investment property given it is held solely for the purposes of holding the related investment property building (Note 15).

The Group also leases a dormitory cum warehouse premises for operation and storage purposes (Note 14). The lease runs for an initial period of 3 years.

There are no externally imposed covenants on these property lease arrangements.

(b) Plant and equipment and motor vehicles

The Group makes monthly lease payments for the right to use printers. The Group has acquired motor vehicles under hire purchase arrangements to render logistics support. These plant and equipment and motor vehicles are recognised as the Group's right-of-use assets (Note 14). The hire purchase agreements for motor vehicles prohibit the Group from subleasing them to third parties.

(c) Future cash outflows not capitalised in lease liabilities – Extension options

Certain leases provide for optional extension periods, for which the related lease payments have not been included in lease liabilities because the Group is not reasonably certain to exercise these extension options. The Group negotiates extension options to optimise operational flexibility in terms of managing the assets used in the Group's operations. The undiscounted potential future cash outflows for the lease payments during the extension period amount to approximately S\$6.2 million.

Notes to the Consolidated Financial Statements

26. LEASE LIABILITIES *(Continued)*

The Group as intermediate lessor of sublease

The Group acts as an intermediate lessor under arrangements whereby it subleases out a portion of its warehouse space to a third party for monthly lease payments. The sublease period does not form a major part of the remaining head lease terms and accordingly, the sublease is classified as operating lease.

Undiscounted lease payments from the sublease of the warehouse space to be received after the reporting date are as follows:

29. OPERATING LEASE COMMITMENTS

Where Group is the lessee

At 31 December 2019, the Group is committed to S\$215,497 for short-term leases.

As disclosed in Note 3(a), the Group adopted IFRS 16 on 1 January 2019. Lease payments have been recognised as right-of-use assets and lease liabilities on the statement of financial position as at 1 January 2019, except for short-term and low value leases.

At 31 December 2018, the Group was committed to making the following rental payments in respect of operating leases of offices, staff dormitories and office equipment with an original term of more than one year. The Group had outstanding commitments under non-cancellable operating leases, which fall due as follows:

	2018 S\$
Not later than one year	5,432,302
Later than one year but not later than five years	9,869,814
Later than five years	—
	<hr/> <u>15,302,116</u>

The leases had tenures ranging from three to twelve years and no contingent rent provision is included in the contracts.

Where Group is the lessor

On 1 January 2019, the Group adopted IFRS 16 and the undiscounted lease payments from the operating leases to be received in respect of warehouse space after 31 December 2019 are disclosed in Note 26.

At 31 December 2018, the Group did not have rentals receivable in respect of dormitory beds and warehouse space under non-cancellable operating leases.

30. RETIREMENT BENEFIT PLAN

As prescribed by the Central Provident Fund (“**CPF**”) Board of Singapore, the Group’s employees employed in Singapore who are Singapore Citizens or Permanent Residents are required to join the CPF scheme. For each of the financial periods ended 31 December 2019 and 2018, the Group contributes up to 17% of monthly salary with the cap of S\$102,000 per annum per employee.

The Group also operates a Mandatory Provident Fund Scheme (“**the MPF scheme**”) under the Hong Kong Mandatory Provident Fund Schemes Ordinance for employees employed under the jurisdiction of the Hong Kong Employment Ordinance and not previously covered by the defined benefit retirement plan. The MPF scheme is a defined contribution retirement plan administered by independent trustees. Under the MPF scheme, the employer and its employees are each required to make contributions to the plan at 5% of the employees’ relevant income, subject to a cap of monthly relevant income of HK\$30,000.

The total costs charged to profit or loss, amounting to S\$1,082,380 and S\$1,169,842 for the years ended 31 December 2019 and 2018 respectively, represent contributions paid to the retirement benefits scheme by the Group.

As at 31 December 2019 and 2018, contributions of S\$233,271 and S\$235,621 were due respectively but had not been paid. The amounts were paid subsequent to the end of the respective years.

34. FINANCIAL RISK MANAGEMENT

The Group's major financial instruments include trade receivables, other receivables and deposits, financial assets at fair value through profit or loss, cash and bank balances, trade and other payables, and lease liabilities. The risks associated with these financial instruments include credit risk, liquidity risk and market risks (interest rate risk, currency risk and equity price risk). Details of these financial instruments are disclosed in respective notes and the policies on how the Group mitigates these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

The carrying amounts of financial assets and financial liabilities at the reporting date by categories are as follows:

34. FINANCIAL RISK MANAGEMENT *(Continued)*

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the Group to incur a financial loss.

As at 31 December 2019, the Group's maximum exposure to credit risk without taking into account any collateral held or other credit enhancements, which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties arises from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

The Group's concentration of credit risk by geographical locations is mainly in Singapore, which accounted for 100% and 98.2% of the Group's financial assets as at 31 December 2019 and 31 December 2018 respectively.

In order to minimise the credit risk, the Group has policies in place for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. Before accepting any new customer, the Group carries out research on the credit risk of the new customer and assesses the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed when necessary.

In addition, the Group reviews the recoverable amount of each individual trade debt (including trade receivables and amounts due from related parties of trade nature) at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, management of the Group considers that the Group's credit risk is significantly reduced.

Approximately 22% of total trade and other receivables outstanding at 31 December 2019 (2018 – 17%) were due from top 5 customers which exposed the Group to concentration of credit risk.

Those 5 largest customers are with good creditworthiness based on historical settlement record. In order to minimise the concentration of credit risk, the management has delegated staff responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure follow-up action is taken to recover overdue debts. The management also performs periodic evaluations and customer visits to ensure the Group's exposure to bad debts is not significant and adequate impairment losses are made for irrecoverable amount.

Other than concentration of credit risk on bank deposits and balances placed in 5 reputable banks in which the counterparties are financially sound and on trade receivables from top 5 customers, the Group has no other significant concentration of credit risk on other receivables, with exposure spread over a number of counterparties.

In order to minimise credit risk, the management developed and maintained credit risk gradings to categorise exposures according to their degree of risk of default. The credit rating information based on publicly available financial information and the Group's own trading records to rate its major customers and other debtors. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

34. FINANCIAL RISK MANAGEMENT *(Continued)*

Credit risk *(Continued)*

The Group's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognising expected credit losses (ECL)
Performing	The counterparty has a low risk of default and does not have any past-due amounts.	12-month ECL
Doubtful	Amount is >30 days past due or there has been a significant increase in credit risk since initial recognition.	Lifetime ECL – not credit impaired
In default	Amount is >90 days past due or there is evidence indicating the asset is credit-impaired.	Lifetime ECL – credit impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery.	Amount is written off

Exposure to credit risk

The tables below detail the credit quality of the Group's financial assets and other items, as well as maximum exposure to credit risk by credit risk rating grades:

	Internal credit rating	12-month/ Lifetime ECL	Gross carrying amount S\$	Loss allowance S\$	Net carrying amount S\$
31 December 2019					
Trade receivables (Note 17)	(1)	Lifetime ECL	8,665,617	(2,230,605)	6,435,012
Other receivables and deposits (Note 18)*	Performing	12-month ECL	691,138	–	691,138
			9,356,755	(2,230,605)	7,126,150
31 December 2018					
Trade receivables (Note 17)	(1)	Lifetime ECL	9,702,663	(2,156,619)	7,546,044
Other receivables (Note 18)*	Performing	12-month ECL	2,314,596	–	2,314,596
Other receivables (Note 18)*	In default	Lifetime ECL	35,114	(35,114)	–
			12,052,373	(2,191,733)	9,860,640

* Prepayments, GST receivables and advances to suppliers are excluded.

34. FINANCIAL RISK MANAGEMENT *(Continued)*

Credit risk *(Continued)*

Exposure to credit risk *(Continued)*

- (1) For trade receivables, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the expected credit losses on these items by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions. Accordingly, the credit risk profile of these assets is presented based on their past due status in terms of the provision matrix. Note 17 includes further details on the loss allowance for these assets.

The Group estimates the loss allowance on contract assets at an amount equal to lifetime ECL, using a provision matrix, and by taking into account the historical default experience and the future prospects of the industry in which the debtor operates, adjusted for the forecast direction of conditions at the reporting date.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period in assessing the loss allowance for the contract assets. There are no contract assets past due at the reporting date.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates.

The Group is exposed to cash flow interest rate risk on the variable rate of interest earned on the bank balances which is not material to the financial statements, and hence no sensitivity analysis is prepared.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Currency risk arises when transactions are denominated in foreign currencies.

The Group has certain bank balances and trade receivables denominated in US\$ and HK\$ and certain trade payable denominated in US\$ other than the functional currency of respective group entities, which expose the Group to foreign currency risk.

The Group manages the risk by closely monitoring the movement of the foreign currency rates.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

34. FINANCIAL RISK MANAGEMENT *(Continued)*

Currency risk *(Continued)*

The carrying amounts of the Group's monetary assets and monetary liabilities denominated in foreign currencies against the functional currency of each respective group entities at the end of reporting period are as below:

	2019 S\$	2018 S\$
Assets		
– denominated in US\$	2,823	414,706
– denominated in HK\$	16,704,510	14,962,609
Liabilities		
– denominated in HK\$	–	18,162

If the US\$ strengthens/weakens by 10% against the functional currency of each group entity, the Group's loss (2018 – loss) for the year ended 31 December 2019 would decrease/increase by S\$282 (2018 – S\$41,471).

If the HK\$ strengthens/weakens by 10% against the functional currency of each group entity, the Group's loss (2018 – loss) for the year ended 31 December 2019 would decrease/increase by S\$1,670,451 (2018 – S\$1,494,445).

Equity price risk

The Group is exposed to equity risks arising from equity instruments measured at FVTPL. The Group diversifies its portfolio to manage its price risk arising from investments in equity securities.

If equity prices had been 10% higher/lower, the Group's loss (2018 – loss) for the year ended 31 December 2019 would decrease/increase by S\$8,240 (2018 – S\$142,554).

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value.

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. As at 31 December 2019, the Group had unutilised banking facilities of S\$527,639 (2018 – S\$609,816) available for cash drawdown.

Liquidity risk (Continued)

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities and obligations under finance leases. The table has been drawn up based on the undiscounted cash flows (including interest payments computed using contractual rates) of these liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows, where applicable.

35. FAIR VALUE MEASUREMENT

Definition of fair value

IFRSs define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1 : quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 : inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as is prices) or indirectly (i.e. derived from prices); and
- Level 3 : inputs for the asset or liability that are not based on observable market data.

The following table shows the levels within the hierarchy of financial assets and liabilities measured at fair value on a recurring basis:

	Level 1	Level 2	Level 3	Total
	S\$	S\$	S\$	S\$
31 December 2019				
Financial assets				
Quoted equity shares	82,400	–	–	82,400
31 December 2018				
Financial assets				
Quoted equity shares	1,425,543	–	–	1,425,543
Dual currency deposits	–	1,540,728	–	1,540,728

Fair value measurement of financial assets

Equity securities

The fair value of quoted equity securities classified as financial assets at fair value through profit or loss is determined by reference to their quoted closing bid price at the reporting date.

Other financial assets and liabilities

The carrying amounts of financial assets and liabilities with a maturity of less than one year, (trade and other receivables, trade and other payables) approximate their fair values because of the short period to maturity.

Notes to the Consolidated Financial Statements

For the financial year ended 31 December 2019

35. FAIR VALUE MEASUREMENT *(Continued)*

Fair value measurement of non-financial assets

Valuation technique and significant unobservable inputs

The following table shows the Group's valuation technique used in measuring the fair value of investment properties, as well as the significant unobservable inputs used.

Valuation technique	Inter-relationship between key unobservable inputs and fair value measurement	Significant unobservable inputs
Income method	Capitalisation rate was lower (higher).	Capitalisation rate: – 31 December 2019 – 7.5% – 31 December 2018 – 8.0%

36. CAPITAL MANAGEMENT

The Group manages its capital to ensure that it will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance.

The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of debt, which includes lease liabilities (2018 – obligations under finance leases), net of bank balances and cash and equity attributable to owners of the Group, comprising share capital, reserves and accumulated profits.

The management of the Group reviews the capital structure from time to time. As a part of this review, the management considers the cost of capital and the risks associated with each class of capital. Based on recommendations by the management, the Group will balance its overall capital structure through the payment of dividends, the issue of new shares and new debts.

37. SUBSEQUENT EVENTS

An outbreak of COVID-19 (Coronavirus Disease 2019) had been reported in China on 31 December 2019. At the date of these financial statements, while the outbreak has been most severe in Asia, it has spread to various regions around the world, including Australia, Europe, Middle East and the United States of America. The Group operates mainly in Singapore. While the full impact to the Group cannot be quantified reliably, the Group's performance subsequent to the balance sheet date is likely to be negatively impacted as a result of regional and global travel restrictions, quarantine and/or illness of employees, loss of customers, supply chain disruptions, and other forms of interruptions to business.

On 8 April 2020, the Group made an announcement that on 3 April 2020, the Ministry of Health of Singapore implemented "Additional Measures to Minimise Further Spread of COVID-19 Cases" which outlined enhanced safe distancing measures to reduce the risk of further local transmission of COVID-19. The measures include the closure of workplace premises. Other than essential services, business activities that cannot be conducted through telecommuting or other means from home shall be suspended from 7 April 2020 to 4 May 2020 (both dates inclusive) as a circuit breaker to curb further spread of the Coronavirus.

Notes:

- (1) The calculation of basic earnings per share is based on the profit attributable to owners of the Company and the weighted average number of ordinary shares in issue. For the financial year ended 31 December 2016, the weighted average number of ordinary shares is based on the assumption that 1,029,999,999 ordinary shares of the Company are in issue and issuable, comprising an aggregate of 999 ordinary shares in issue and 1,029,999,000 ordinary shares issuable upon capitalisation of share premium, as if the Reorganisation was effective on 1 January 2016. For the financial years ended 31 December 2017, 2018 and 2019, the weighted average number of ordinary shares is 1,071,095,890, 1,230,000,000 and 1,230,000,000, respectively. Diluted (loss)/earnings per share is the same as the basic (loss)/earnings per share as there are no potential dilutive ordinary shares during the years.
- (2) Net assets per share is calculated by dividing net assets by the number of ordinary shares in issue as at the respective year end. As at 31 December 2016, the number of ordinary shares in issue is based on the assumption that 1,029,999,999 ordinary shares of the Company are in issue and issuable, comprising an aggregate of 999 ordinary shares in issue and 1,029,999,000 ordinary shares issuable upon capitalisation of share premium, as if the Reorganisation was effective on 1 January 2016. As at 31 December 2017, 2018 and 2019, the number of ordinary shares in issue is 1,230,000,000 ordinary shares.
- (3) Gearing ratio is calculated by dividing total borrowings (finance lease obligations and lease liabilities) by total equity as at the end of the respective year.
