REPORT OF THE MANAGER TO THE UNITHOLDERS

Introduction

CSOP Bloomberg Barclays China Treasury + Policy Bank Bond Index ETF (the “Sub-Fund”) seeks to track the investment results of the Bloomberg Barclays China Treasury + Policy Bank Index (the “Index”). The Sub-Fund will invest directly in RMB denominated and settled fixed-rate bonds issued by the Ministry of Finance of the PRC, the China Development Bank, the Agricultural Development Bank of China or the Export-Import Bank of China and distributed within the PRC (the “Treasury Bonds and Policy Bank Bonds”) through the Manager’s status as a Renminbi qualified foreign institutional investor (“RQFII”), and/or via the initiative for mutual bond market access between Hong Kong and Mainland China (“Bond Connect”). Effective from 24 June 2019, the Sub-Fund has changed its underlying index from ChinaBond 5-year Treasury Bond Index to track the Bloomberg Barclays China Treasury + Policy Bank Index.

The Sub-Fund Performance

The CSOP Bloomberg Barclays China Treasury + Policy Bank Bond Index ETF seeks to provide investment results, before fees and expenses, which closely correspond to the performance of the Index. As at 31 December 2019, the dealing Net Asset Value (“NAV”) per unit of the Sub-Fund was RMB103.6859 and there were 1,630,000 units outstanding. The total asset under management was approximately RMB 169.01 million.

During the period from 1 January 2019 to 21 June 2019 (the last trading date before the change of index), the NAV of the Sub-Fund RMB counter (stock code 83199) performed 0.67% while the index performed 1.35%. During the period from 24 June 2019 to 31 December 2019, the NAV of the Sub-Fund RMB counter (stock code 83199) performed 2.03% while the index performed 2.89%. The difference in performance between the NAV of the Sub-Fund and the index is mainly attributed to fees and expenses. As at 31 December 2019, the duration of CSOP Bloomberg Barclays China Treasury + Policy Bank Bond Index ETF RMB counter (stock code 83199) was 5.56 while the index was 5.49.

Annual total return

*“Net distributable income” means the net investment income (i.e. dividend income and interest income net of fees and expenses) attributable to the relevant share class and may also include net realised gains (if any) based on unaudited management accounts. However, “net distributable income” does not include net unrealised gains.

Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares.

Exchange Liquidity

The trading value of the RMB counter (stock code: 83199) has an average daily turnover of RMB 0.23 million in December 2019. The trading value of the HKD counter (stock code: 03199) has an average daily turnover of HKD 0.30 million in December 2019.

STATEMENT OF RESPONSIBILITIES OF THE MANAGER AND THE TRUSTEE

MANAGER'S RESPONSIBILITIES

The Manager of the CSOP Bloomberg Barclays China Treasury + Policy Bank Bond Index ETF (Formerly known as CSOP China 5-Year Treasury Bond ETF) (the "Sub-Fund"), a sub-fund of CSOP ETF Series II, is required by the Code on Unit Trusts and Mutual Funds established by the Securities & Futures Commission of Hong Kong and the Trust Deed dated 20 January 2014, as amended, (the "Trust Deed") to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Sub-Fund at the end of the year and of the transactions for the year then ended. In preparing these financial statements the Manager is required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are prudent and reasonable; and
- prepare the financial statements on the basis that the Sub-Fund will continue in operation unless it is inappropriate to presume this.

The Manager is also required to manage the Sub-Fund in accordance with the Trust Deed and take reasonable steps for the prevention and detection of fraud and other irregularities.

CSOP ETF Series II (the "Trust") is an umbrella unit trust governed by its Trust Deed. As at 31 December 2019, the Trust has established two sub-funds, namely, CSOP Bloomberg Barclays China Treasury + Policy Bank Bond Index ETF (Formerly known as CSOP China 5-Year Treasury Bond ETF) and CSOP RMB Money Market ETF (Formerly known as CSOP China Ultra Short-Term Bond ETF). CSOP WTI Oil Annual Roll December Futures ER ETF was terminated on 8 October 2019.

TRUSTEE'S RESPONSIBILITIES

The Trustee of the Sub-Fund is required to:

- ensure that the Sub-Fund in all material respects is managed in accordance with the Trust Deed and that the investment and borrowing powers are complied with;
- satisfy itself that sufficient accounting and other records have been maintained;
- safeguard the property of the Sub-Fund and rights attaching thereto; and
- report to the unitholders for each annual accounting period should the Manager not managing the Sub-Fund in accordance to the Trust Deed.

Report on the Audit of the Financial Statements

Opinion

What we have audited

The financial statements of CSOP Bloomberg Barclays China Treasury + Policy Bank Bond Index ETF (Formerly known as CSOP China 5-Year Treasury Bond ETF) (the “Sub-Fund”), a sub-fund of CSOP ETF Series II, set out on pages 10 to 39, which comprise:

- the statement of financial position as at 31 December 2019;
- the statement of comprehensive income for the year then ended;
- the statement of changes in net assets attributable to unitholders for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Sub-Fund as at 31 December 2019, and of its financial transactions and its cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRSs”).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (“ISAs”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Sub-Fund in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters (Continued)

Key audit matter identified in our audit is summarised as follows:

Key Audit Matter	How our audit addressed the Key Audit Matter
<p><u>Existence and valuation of investments</u></p> <p>The Sub-Fund’s investments as at 31 December 2019 were mainly comprised of an investment fund and quoted debt securities of the Government and companies in the People’s Republic of China (“PRC”), valued at RMB2,010,200 and RMB163,966,858 respectively.</p> <p>We focused on the existence and valuation of the investments because the investments represented the principal element of the Sub-Fund’s net asset value.</p> <p>Refer to note 8 to the financial statements.</p>	<p>We tested the existence of the Sub-Fund’s holdings of investments by obtaining a direct confirmation from the custodian and checking the confirmation to the Sub-Fund’s records. Based on the procedures we performed, we found the Sub-Fund’s holdings of investments to be in agreement with the confirmation received.</p> <p>We tested the valuation of the Sub-Fund’s investments by comparing the pricing used by the manager of the Sub-Fund to the publicly available external pricing sources as at 31 December 2019. We found no material exceptions from our testing.</p>

Other Information

The trustee and the manager (the “Management”) of the Sub-Fund are responsible for the other information. The other information comprises all of the information included in the annual report other than the financial statements and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Management of the Sub-Fund is responsible for the preparation of the financial statements that give a true and fair view in accordance with IFRSs, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management of the Sub-Fund is responsible for assessing the Sub-Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Sub-Fund or to cease operations, or has no realistic alternative but to do so.

In addition, the Management of the Sub-Fund is required to ensure that the financial statements have been properly prepared in accordance with the relevant disclosure provisions of the Trust Deed dated 20 January 2014, as amended ("Trust Deed") and the Appendix E of the Code on Unit Trusts and Mutual Funds issued by the Hong Kong Securities and Futures Commission (the "SFC Code").

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. In addition, we are required to assess whether the financial statements of the Sub-Fund have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and the Appendix E of the SFC Code.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Fund to cease to continue as a going concern.

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Management, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Matters Under the Relevant Disclosure Provisions of the Trust Deed and the Appendix E of the SFC Code

In our opinion, the financial statements have been properly prepared, in all material respects, in accordance with the relevant disclosure provisions of the Trust Deed and the Appendix E of the SFC Code.

The engagement partner on the audit resulting in this independent auditor's report is Josephine W.T. Kwan.

NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION

CSOP ETF Series II (the “Trust”) is an umbrella unit trust governed by its trust deed dated 20 January 2014, as amended, (the “Trust Deed”) and authorised by the Securities and Futures Commission of Hong Kong (the “SFC”) pursuant to Section 104(1) of the Securities and Futures Ordinance. The terms of the Trust Deed are governed by the laws of Hong Kong. As at 31 December 2019, the Trust has two sub-funds which are CSOP Bloomberg Barclays China Treasury + Policy Bank Bond Index ETF (Formerly known as CSOP China 5-Year Treasury Bond ETF) (the “Sub-Fund”) and CSOP RMB Money Market ETF (Formerly known as CSOP China Ultra Short-Term Bond ETF). CSOP WTI Oil Annual Roll December Futures ER ETF was terminated on 8 October 2019. The date of inception of the Sub-Fund was 17 February 2014. The Sub-Fund is listed on The Stock Exchange of Hong Kong Limited.

The Manager and the Trustee of the Sub-Fund are CSOP Asset Management Limited (the “Manager”) and HSBC Institutional Trust Services (Asia) Limited (the “Trustee”) respectively.

With effect from 24 June 2019, the name of the Sub-Fund has been changed from CSOP China 5-Year Treasury Bond ETF to CSOP Bloomberg Barclays China Treasury + Policy Bank Bond Index ETF.

Change of underlying index

Prior to 24 June 2019, the Sub-Fund was designated to track the performance of the ChinaBond 5-year Treasury Bond Index (the “Previous Index”) which is compiled and published by China Central Depository & Clearing Co., Ltd. The Previous Index comprises fixed-rate interest bearing Treasury Bonds that has a term to maturity of over 4 years and less than 7 years. The Index operates under clearly defined rules published by the index provider and is a tradable index.

Effective from 24 June 2019, the Sub-Fund has changed its underlying index from ChinaBond 5-year Treasury Bond Index to Bloomberg Barclays China Treasury + Policy Bank Index. The Bloomberg Barclays China Treasury + Policy Bank Index (the “Index”) is compiled and published by Bloomberg Index Services Limited. The Index aims to reflect the performance of fixed rate onshore RMB-denominated Treasury Bonds and Policy Bank Bonds listed on the PRC inter-bank bond market. The Index operates under clearly defined rules published by the index provider and is a tradable index.

Effective from 24 June 2019, the investment objective of the Sub-Fund is to provide investment results that, before of deduction of fees and expenses, closely correspond to the performance of the underlying index, namely, Bloomberg Barclays China Treasury + Policy Bank Index. Prior to 24 June 2019, the investment objective of the Sub-Fund was to provide investment results that, before of fees and expenses, closely correspond to the performance of the underlying index, namely the ChinaBond 5-year Treasury Bond Index. In order to achieve the investment objective of the Sub-Fund, the Manager will continue adopt a representative sampling strategy. A representative sampling strategy involves investing in a representative sample of securities that collectively has an investment profile that reflects the profile of the index.

Under current regulations in the People’s Republic of China (“PRC”), foreign investors can invest in the domestic debt securities market through certain qualified foreign institutional investors that have obtained status as a Qualified Foreign Institutional Investor (“QFII”) or a Renminbi Qualified Foreign Institutional Investor (“RQFII”) from the China Securities Regulatory Commission (“CSRC”) and have been granted quota(s) by the State Administration of Foreign Exchange (“SAFE”) of the PRC to remit foreign freely convertible currencies (in the case of a QFII) and Chinese Renminbi (“RMB”) (in the case of a RQFII) into the PRC for the purpose of investing in the PRC’s domestic debt securities markets.

NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION (Continued)

The Sub-Fund obtains exposure to debt securities issued within the PRC through the RQFII quotas of the Manager. The Manager has obtained RQFII status in the PRC and the RQFII quotas have been granted on behalf of the Sub-Fund. To the extent that the Manager has, on behalf of the Sub-Fund, utilised its entire RQFII quota, the Manager may, subject to any applicable requirements, apply for an increase of the RQFII quota. On the other hand, the Manager actively manages the RQFII quota obtained and may impose limits on creation applications as it considers appropriate.

These financial statements are prepared for the Sub-Fund only. The financial statements for the other sub-fund of the Trust have been prepared separately.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

The financial statements of the Sub-Fund have been prepared in accordance with International Financial Reporting Standards (“IFRS”). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of investments at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the Trustee and the Manager (together the “Management”) to exercise their judgment in the process of applying the Sub-Fund’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

Standard and amendments to existing standards effective 1 January 2019

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2019 that have a material effect on the financial statements of the Sub-Fund.

New standards and amendments and interpretations effective after 1 January 2019 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2019, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Fund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Investments

(i) Classification

The Sub-Fund classifies its investments based on both the Sub-Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Sub-Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The contractual cash flows of the Sub-Fund's debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Sub-Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

(ii) Recognition/derecognition

Purchases and sales of investments are accounted for on the trade date basis - the date on which the Sub-Fund commits to purchase or sell the investments. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Fund has transferred substantially all risks and rewards of ownership.

(iii) Measurement

Investments are initially recognised at fair value. Transaction costs are expensed as incurred in the statement of comprehensive income.

Subsequent to initial recognition, all investments are measured at fair value. Realised and unrealised gains and losses on investments are recognised in the statement of comprehensive income in the year in which they arise.

(iv) Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. The Sub-Fund utilises the last traded market price for both listed financial assets and liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Management will determine the point within the bid-ask spread that is most representative of fair value.

The fair value of financial assets that are not traded in an active market (for example, over-the-counter derivatives) is determined by using broker quotes or valuation techniques.

(v) Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(vi) Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual agreements. A structured entity often has some or all of the following features or attributes; (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The Sub-Fund considers its investment in investment funds to be investment in unconsolidated structured entities. The investment funds are managed by the Manager who apply various investment strategies to accomplish the respective investment objectives of the investment funds. The investment funds finance their operations by issuing redeemable units which are puttable at the holder's option and entitles the holder to a proportional stake in the respective Sub-Fund's net assets. The Sub-Fund holds redeemable units in the investment funds.

The Sub-Fund's investments in unconsolidated structured entities are shown as financial assets at fair value through profit and loss. The change in fair value of investment funds is included in the statement of comprehensive income in "Net loss on investments and derivative financial instruments".

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

(d) Amounts due from participating dealers

Amounts due from participating dealers represent the subscription receivable from the participating dealers at the end of the reporting year. The amounts are non-interest bearing and repayable on demand.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Sub-Fund shall measure the loss allowance on amounts due from participating dealers at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Sub-Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the participating dealers, probability that the participating dealers will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by Management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Amounts due to participating dealers

Amounts due to participating dealers represent the redemption payable to the participating dealers at the end of the reporting year. The amounts are non-interest bearing and repayable on demand.

These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(f) Interest income

Interest income is recognised on a time-proportionate basis using the effective interest method.

(g) Distributions to unitholders

Distributions to unitholders are recognised in the statement of changes in net assets attributable to unitholders when they are approved by the Manager. Distributions to unitholders are recognised as distributions in the statement of changes in net assets attributable to unitholders.

(h) Other income/expense

Other income/expense mainly represents the difference between the proceeds received from/paid to participating dealers and cost of investment purchased/sold.

(i) Expenses

Expenses are accounted for on an accrual basis.

(j) Cash and cash equivalents

Cash and cash equivalents include cash in hand, cash at bank, demand deposits with original maturities of three months or less and bank overdrafts.

(k) Foreign currencies translation

Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Sub-Fund operates (the "functional currency"). The Sub-Fund invests in PRC bonds and the performance of the Sub-Fund is measured and reported to the unitholders in RMB. The Manager considers RMB as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are presented in RMB, which is the Sub-Fund's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the reporting date.

Foreign exchange gains and losses arising from translation are included in the statement of comprehensive income.

(k) Foreign currencies translation (Continued)

Transactions and balances (Continued)

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the statement of comprehensive income within “net gain on investments”.

(l) Redeemable units

The Sub-Fund issues redeemable units, which are redeemable at the holder’s option. These units represent puttable financial instruments of the Sub-Fund. The Sub-Fund classifies its puttable financial instruments as equity in accordance with IAS 32 (Amendment), “Financial instruments: Presentation” as those puttable financial instruments meet all the following criteria:

- the puttable financial instruments entitle the holder to a pro-rata share of net asset value;
- the puttable financial instruments are the most subordinated units in issue and unit features are identical;
- there are no contractual obligations to deliver cash or another financial asset; and
- the total expected cash flows from the puttable financial instrument over its life are based substantially on the profit or loss of the Sub-Fund.

Units are issued and redeemed at the holder’s option at prices based on the Sub-Fund’s net asset value per unit at the time of issue or redemption. The Sub-Fund’s net asset value per unit is calculated by dividing the net assets attributable to unitholders with the total number of outstanding units.

In accordance with the Prospectus of the Sub-Fund, investment positions are valued based on the last traded market price for the purpose of determining the net asset value per unit for subscriptions and redemptions of the Sub-Fund.

(m) Taxation

The Sub-Fund currently incurs withholding taxes imposed by PRC on investment income. Such income is recorded gross of withholding taxes in the statement of comprehensive income. Withholding taxes are included as taxation in the statement of comprehensive income.

Management will assess the surcharge for late payment of withholding income tax on interest income in accordance with IAS12, if any, and will make the relevant provision in the statement of financial position, if necessary.

Deferred income tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Taxation

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(n) Establishment costs

Establishment costs are recognised as an expense in the year in which they are incurred.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The Manager makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below.

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the fair value of the debt securities and the tax exposure which are dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

(a) Fair value of unlisted investments

The Sub-Fund holds a number of quoted debt securities that are valued by reference to broker quotes as at 31 December 2019 and 2018. In determining the fair value of such investments, the Management exercises judgement and estimates on the quantity and quality of pricing sources used. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. As such, broker quotes do not necessarily indicate the price at which the security could actually be traded as at 31 December 2019 and 31 December 2018. Actual transacted prices may differ from the quotes provided by the brokers. The Management considers that in the absence of any other reliable market sources, the broker quotes available to them reflect the best estimate of fair value.

(b) People's Republic of China ("PRC") tax provision

Under the general tax provision of PRC Corporate Income Tax Law ("PRC CIT Law"), the non-PRC residents with no place of effective management, establishment or place of business in the PRC may be subject to 10% PRC withholding income tax ("WIT") on the capital gain derived from disposal of securities, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

In addition, the non-PRC residents with interest income derived from the debt securities will be subject to 10% WIT. Pursuant to the PRC CIT Law, debt securities issuers in the PRC are obligated to withhold the 10% PRC WIT on interest income for those foreign debt securities holders. However, interest income derived from government bonds issued by the State Council's finance departments and/or local government bonds approved by the State Council is exempt from PRC WIT under the PRC CIT Law.

(b) People's Republic of China ("PRC") tax provision (Continued)

Furthermore, according to the notice Caishui [2016] No.36 ("Circular 36"), Value-Added Tax ("VAT") at 6% shall be levied on the difference between the selling and buying prices of those marketable securities starting from 1 May 2016. In addition, if VAT is applicable, local surtaxes including Urban Maintenance and Construction Tax (currently at the rate ranging from 1% to 7%), Education Surcharge (currently at the rate of 3%) and Local Education Surcharge (currently at the rate of 2%) are imposed based on the VAT liabilities (the "VAT related taxes"). The gains derived by QFIIs/RQFIIs and through the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect from trading of marketable securities (including A-shares and other PRC listed securities) are exempted from VAT in the PRC under Circular 36 and other prevailing VAT regulations. According to Caishui [2016] No. 70, gains derived by approved foreign investors from the trading of RMB denominated debt securities in the China Interbank Bond Market should be exempt from PRC VAT. There is no specific VAT rules on Bond Connect, by making reference to the above circular and other related prevailing tax regulations, it is anticipated that gains derived by foreign investors from the trading of PRC bonds through "Northbound Trading" should also not be subject to PRC VAT. In addition, deposit interest income and interest received from government bonds and local government bonds are also exempt from VAT.

Exemption of PRC WIT and VAT effective from 7 November 2018

On 7 November 2018, the Ministry of Finance and the PRC State Taxation Administration ("STA") jointly issued a notice Caishui [2018] No.108 ("Circular 108") which stipulates that foreign institutional investors are temporarily exempted from PRC WIT and VAT in respect of bond interest income received from 7 November 2018 to 6 November 2021.

The Sub-Fund did not make any provision on VAT from 1 May 2016 to 7 November 2018 as the Manager considers the potential PRC VAT exposure was immaterial. Refer to Page 23.

The Manager decides to change the tax provisioning policy of the Sub-Fund and cease to make provisions for PRC WIT and VAT (plus the VAT related taxes) on the interest income received from PRC non-government bonds from 7 November 2018 to 6 November 2021.

(i) Capital gains on PRC debt securities and investment funds ("PRC Investments")

During the years ended 31 December 2019 and 2018, the Sub-Fund invests in PRC debt securities in PRC through the RQFII program. The Manager considers that the enforcement of PRC tax on gains derived from the PRC Investments is uncertain as at the date of approval of these financial statements and has exercised its judgment when assessing whether the Sub-Fund may be liable for PRC taxation on its gains, the amount of potential liability and the probability of such tax being levied up to the reporting date. However, significant uncertainties exist and estimation of the Manager may substantially differ from the actual events.

NOTES TO THE FINANCIAL STATEMENTS

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

(b) People's Republic of China ("PRC") tax provision (Continued)

(i) Capital gains on PRC debt securities and investment funds ("PRC Investments") (Continued)

The Manager considered that the WIT policy for QFIIs'/RQFIIs' investment in debt securities has not been clarified in the "Notice on temporary exemption of Corporate Income Tax on capital gains derived from the transfer of equity investment assets such as PRC domestic stocks by QFII and RQFII" (the "Notice").

Based on the current verbal interpretation of the STA and the local PRC tax authorities, the authorities are of the view that capital gains derived by foreign investors from investment in PRC debt securities would not be treated as PRC-sourced income and thus would not be subject to PRC WIT. However, there are no written tax regulations issued by the PRC tax authorities to confirm this interpretation. As a matter of practice, such 10% PRC WIT on capital gains realised by non-PRC tax resident enterprises from the trading of these PRC debt securities has not been strictly enforced by the PRC tax authorities. The Manager has considered the applicability of the arrangement between the Mainland of China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion to the Sub-Fund and assessed that the probability of such tax being levied up to the approval date of the financial statements of the Sub-Fund is reasonably low. Based on all the aforementioned factors, the Manager has reassessed the provisioning approach and has continued not making PRC WIT provision on gains derived from the PRC debt securities of the Sub-Fund.

The Manager estimates the gross realised gains from 17 February 2014 (date of inception) to 31 December 2019 and gross unrealised gains of the Sub-Fund as at 31 December 2019 which could be exposed to PRC WIT at the rate of 10% to be RMB227,742,356 (from 17 February 2014 (date of inception) to 31 December 2018: RMB226,051,866) and RMB1,167,791 (As at 31 December 2018: RMB1,821,670) respectively. The estimated potential capital gain tax exposure arising from gross realised capital gain and gross unrealised capital gain would be RMB22,774,236 and RMB116,779 respectively which in aggregate represents 13.54% (As at 31 December 2018: RMB22,605,187 and RMB182,167 respectively which in aggregate represents 18.96%) of the net assets attributable to unitholders of the Sub-Fund as at 31 December 2019. The Manager considers that the PRC WIT on capital gains from PRC debt securities is still uncertain and has not made the provision on the gross realised capital gains and gross unrealised capital gains derived from PRC debt securities in the Sub-Fund as at 31 December 2019 and 2018.

The Manager has exercised its judgment when assessing whether the Sub-Fund may be liable for PRC taxation on its gains, the amount of potential liability and the probability of such tax being levied up to the reporting date. However, significant uncertainties exist and estimation of the Manager may substantially differ from the actual events.

NOTES TO THE FINANCIAL STATEMENTS

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

(b) People's Republic of China ("PRC") tax provision (Continued)

(ii) Interest income on bonds issued by PRC tax residents ("PRC Bonds")

The Management considers that the PRC WIT treatment on accrued interest of PRC non-government bonds holding by the Sub-Fund as at 31 December 2019 derived from 17 February 2014 (date of inception) to 6 November 2018 (prior to WIT exemption under Circular 108) and the enforcement of VAT and the VAT related taxes from 1 May 2016 to 6 November 2018 (prior to VAT exemption under Circular 108) is uncertain as at the date of approval of these financial statements. The Manager has exercised significant judgment in their assessment of the PRC withholding tax expense and the related tax provision.

PRC WIT

For the PRC bonds disposed of during the year, Management has not made provision on the accrued interest income of PRC bonds during the year and as at reporting date as they consider that:

- (i) the issuers of PRC bonds are required to withhold 10% WIT at the coupon payment date before distributing the interest income to the bond holder; and
- (ii) the PRC bonds purchased during the period from 1 May 2016 to 6 November 2018 were sold by the Manager before the coupon payment dates or the maturity dates of the PRC bonds.

PRC VAT and related taxes

As at 31 December 2019 and 31 December 2018, the Manager did not consider that the potential PRC VAT exposure arising from the Sub-fund's accumulated interest income received from PRC non-government bonds from 1 May 2016 to 6 November 2018 (prior to VAT exemption under Circular 108) to be material.

The Manager reviews the relevant PRC tax rules on the PRC debt securities from time to time. Any change in taxation imposed on RQFII is likely to have a subsequent impact on the required provision and accordingly the net assets attributable to unitholders of the Sub-Fund. When the STA issues clarifications, this might ultimately result in either an increase or a decrease in the amount provided. The Manager will always act in the best interest of unitholders and will continually assess the tax provision on an on-going basis.

4. NUMBER OF UNITS IN ISSUE AND NET ASSETS ATTRIBUTABLE TO UNITHOLDERS PER UNIT

The Sub-Fund's capital is represented by the units in the Sub-Fund, and shown as "net assets attributable to unitholders" in the statement of financial position. Subscriptions and redemptions of units during the year are shown in the statement of changes in net assets attributable to unitholders. In order to achieve the investment objectives, the Sub-Fund endeavors to invest its capital in accordance with the investment policies, whilst maintaining sufficient liquidity to meet redemption requests.

In accordance with the provisions of the Trust Deed dated 20 January 2014, as amended, and the Prospectus of the Sub-Fund, investments are stated at the last traded price on the valuation day for the purpose of determining net asset value per unit for subscriptions and redemptions and for various fee calculations.

As stated in Note 2(1), redeemable units of the Sub-Fund are classified as equity and they are carried at the price based on the Sub-Fund's net asset value per unit at the reporting date if the unitholder exercised the right to redeem the units in the Sub-Fund.

No provision for Hong Kong profits tax has been made for the Sub-Fund as it is authorised as a collective investment scheme under Section 104 of the Hong Kong Securities and Futures Ordinance and is therefore exempt from profits tax under Section 26A(1A) of the Hong Kong Inland Revenue Ordinance.

PRC withholding income tax

For the years ended 31 December 2019 and 2018, the Sub-Fund had invested in RMB denominated debt securities in PRC. Refer to Note 3 for details.

The taxation of the Sub-Fund for the years ended 31 December 2019 and 2018 represents:

	Year ended 31 December 2019 <i>RMB</i>	Year ended 31 December 2018 <i>RMB</i>
Withholding income tax on bank interest income	2,226	2,865
Taxation	<u>2,226</u>	<u>2,865</u>

7. TRANSACTIONS WITH THE TRUSTEE, MANAGER AND CONNECTED PERSONS

The following is a summary of significant related party transactions and transactions entered into during the year between the Sub-Fund and the Trustee, the Manager and the Connected Persons of the Manager. Connected Persons of the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the Securities and Futures Commission of Hong Kong (the “SFC Code”). All transactions entered into during the years ended 31 December 2019 and 2018 between the Sub-Fund and the Manager and its Connected Persons were carried out in the normal course of business and on normal commercial terms. To the best of the Manager’s knowledge, the Sub-Fund does not have any other transactions with the Connected Persons of the Manager except for those disclosed below.

(a) Management fee

The Sub-Fund employs a single management fee structure, with the Sub-Fund paying all of its fees, costs and expense to the Manager. The management fee is currently charged at the rate of 0.49% per annum of the net asset value of the Sub-Fund, accrued daily and calculated as at each dealing day and payable monthly in arrears.

Fees and expenses taken into account in determining the Sub-Fund’s management fee include, but are not limited to, the manager’s fee, the trustee’s fee, the custodian’s fee, the PRC custodian’s fee, the registrar’s fee, the service agent’s fee, the fees and expenses of the auditor, service agents, ordinary legal and out-of-pocket expenses incurred by the Trustee or the Manager, and the costs and expenses of licensing indices used in connection with the Sub-Fund. The Manager may also pay a distribution fee to any distributor or sub-distributor of the Sub-Fund out of the management fee. A distributor may re-allocate an amount of the distribution fee to the sub-distributors.

(b) Trustee fee and Registrar’s fee

The Trustee fee and Registrar’s fee are included in the management fee and the Manager will pay the fees of the Trustee and Registrar out of the management fee. Refer to Note 7(a).

Interest income amounted to RMB25,998 (2018: RMB39,147) was earned on bank balances placed with the connected persons of the Trustee for the year ended 31 December 2019.

8. FINANCIAL RISK MANAGEMENT

Effective from 24 June 2019, the objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely correspond to the performance of the Bloomberg Barclays China Treasury + Policy Bank Index. Prior to 24 June 2019, the investment objective of the Sub-Fund was to provide investment results that, before of fees and expenses, closely correspond to the performance of the underlying index, namely the ChinaBond 5-year Treasury Bond Index. Effective from 24 June 2019, the Sub-Fund has changed its underlying index from ChinaBond 5-year Treasury Bond Index to Bloomberg Barclays China Treasury + Policy Bank Index. The Sub-Fund's activities may expose it to a variety of risks including but not limited to: market risk (including market price risk, interest rate risk and currency risk), credit and counterparty risk and liquidity risk which are associated with the markets in which the Sub-Fund invests.

The following is a summary of the main risks and risk management policies.

(a) Market risk

(i) Market price risk

Market price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual instrument or factors affecting all instruments in the market.

8. FINANCIAL RISK MANAGEMENT (Continued)

(a) Market risk (Continued)

(i) Market price risk (Continued)

Prior to 24 June 2019, the Sub-Fund was designated to track the performance of the ChinaBond 5-year Treasury Bond Index. Effective from 24 June 2019, the Sub-Fund has changed its underlying index from ChinaBond 5-year Treasury Bond Index to Bloomberg Barclays China Treasury + Policy Bank Index, therefore the exposures to market risk in the Sub-Fund will be substantially the same as the tracked index in each of the relevant period. The Manager manages the Sub-Fund's exposures to market risk by ensuring that the key characteristics of the portfolio, such as security weight, are closely aligned with the characteristics of the tracked index.

As at 31 December 2019 and 2018, the Sub-Fund's investments were concentrated in the PRC bonds:

	2019		2018	
	Fair value RMB	% of net asset value	Fair value RMB	% of net asset value
Quoted debt securities:				
PRC Government bonds	88,044,697	52.10	91,737,810	76.34
Policy banks bonds	75,922,161	44.92	20,947,060	17.43
RMB denominated investment fund	2,010,200	1.19	-	-
	<u>165,977,058</u>	<u>98.21</u>	<u>112,684,870</u>	<u>93.77</u>

The Sub-Fund adopts representative sampling strategy and it held 15 out of 333 (31 December 2018: 6 out of 69) constituent investments comprising the Bloomberg Barclays China Treasury + Policy Bank Index. The Sub-Fund is therefore exposed to substantially the same market price risk as the Barclays China Treasury + Policy Bank Index (31 December 2018: ChinaBond 5-year Treasury Bond Index).

Sensitivity analysis in the event of a possible change in the index by 10% as estimated by the Manager

As at 31 December 2019, if the Bloomberg Barclays China Treasury + Policy Bank Index were to increase by 10% with all other variables held constant, this would increase the operating profit for the period by approximately RMB21,790,695. Conversely, if the Bloomberg Barclays China Treasury + Policy Bank Index were to decrease by 10%, this would decrease the operating profit for the year by an equal amount.

As at 31 December 2018, if the ChinaBond 5-year Treasury Bond Index were to increase by 10% with all other variables held constant, this would increase the operating profit for the year by approximately RMB76,637. Conversely, if the ChinaBond 5-year Treasury Bond Index were to decrease by 10% this would decrease the operating profit for the year by an equal amount.

8. FINANCIAL RISK MANAGEMENT (Continued)

(a) Market risk (Continued)

(ii) Interest rate risk

The Manager manages the Sub-Fund by ensuring that the Sub-Fund replicates the underlying index movements effectively based on market exposures as well as duration risk across the yield curve.

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flow.

As at 31 December 2019 and 2018, the Sub-Fund invests in fixed-income securities and is subject to interest rate risk. Interest rate risk is the risk that the value of the Sub-Fund's portfolio will decline because of rising interest rates. Interest rate risk is generally lower for shorter term fixed income investments and higher for longer term fixed income investments.

As the Sub-Fund invests in PRC bonds, the Sub-Fund is additionally subject to policy risk as changes in macro-economic policies in the PRC (including monetary policy and fiscal policy) may have an influence over the PRC's capital markets and affect the pricing of the bonds in the Sub-Fund's portfolio, which may in turn adversely affect the return of the Sub-Fund. Falling market interest rates can lead to a decline in income for the Sub-Fund.

The table below summarises the Sub-Fund's exposure to interest rate risks. It includes the Sub-Fund's assets and liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates.

As at 31 December 2019

At 31 December 2019, the Sub-Fund has bank balances of RMB118,753 (2018: RMB8,743,725). If the interest rates had been 10 basis points (2018: 10 basis points) higher or lower with all variables held constant, net assets attributable to unitholders would have been RMB119 (2018: RMB8,744) higher or lower as a result of higher or lower interest income.

The Manager and Trustee monitor the interest rate risks by quantifying (a) market exposure in percentage terms; and (b) exposure in duration terms by different countries. As at 31 December 2019, the Sub-Fund has invested in interest-bearing securities of RMB163,966,858 (2018: RMB112,684,870) and the portfolio weighted average modified duration of the Sub-Fund is 5.56 (2018: 4.46).

As at 31 December 2019 and 2018, should the relevant interest rates have lowered/risen by 100 basis points with all other variables remaining constant, the increase/decrease in net assets attributable to unitholders for the year would amount to approximately RMB9,116,557 (2018: RMB5,025,745), arising substantially from the increase/decrease in market values of debt securities.

NOTES TO THE FINANCIAL STATEMENTS

8. FINANCIAL RISK MANAGEMENT (Continued)

(a) Market risk (Continued)

(iii) Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Sub-Fund is not exposed to currency risk arising from balances and transactions in foreign currencies as the majority of its assets and liabilities are denominated in RMB, the Sub-Fund's functional and presentation currency. As a result, Management considers sensitivity analysis of currency risk is not necessary to be presented.

(b) Credit and counterparty risk

Credit and counterparty risk is the risk that an issuer or counterparty will be unable or unwilling to meet a commitment that it has entered into with the Sub-Fund.

The Sub-Fund limits its exposure to credit and counterparty risk by carrying out the majority of its investment transactions and contractual commitment activities with well-established broker-dealers, banks and regulated exchanges with high credit ratings.

All transactions in PRC bonds are settled or paid for upon delivery using approved and reputable brokers. In addition, the Sub-Fund places bank balances with reputable financial institutions. As such, the Manager does not consider the Sub-Fund to be exposed to significant credit and counterparty risk.

The main concentration to which the Sub-Fund is exposed arises from the Sub-Fund's investments in bond securities and an investment fund. The Sub-Fund does not have explicit restrictions on the minimum credit ratings of securities it may hold. The Manager will actively manage the portfolio of the Sub-Fund. In case of credit rating downgrading, the Manager will adjust the positions in the portfolio using its credit analysis and rating systems that are designed to manage credit risks.

The table below summarises the credit rating of the investment portfolio excluding the investment fund issued by credit rating agencies:

Portfolio by rating category of RMB denominated bonds:

As at 31 December 2019

Credit rating agency	Rating	RMB	% of NAV
S&P	A+	163,966,858	97.02

The investment fund held by the Sub-Fund of RMB2,010,200 (2018: Nil) as at 31 December 2019 is not subject to credit rating and do not have credit rating issued by local credit rating agencies. There is no indication to the Manager that the financial assets are impaired as at 31 December 2019.

(b) Credit and counterparty risk (Continued)

The Manager has assessed the credit quality of the RMB denominated bonds based on the nature of the issuers and the historical information about the issuers' default rates. The Sub-Fund is also exposed to credit and counterparty risk on its investments and bank balances.

The table below summarises the amount of investments and bank balances of the Sub-Fund placed with the counterparties together with the credit rating of the relevant counterparties as at 31 December 2019 and 2018.

The Sub-Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management consider both historical analysis and forward looking information in determining any expected credit loss. At 31 December 2019 and 2018, bank interest receivables, interest receivables on bonds and bank balances are held with counterparties with high credit ratings and are due to be settled within 1 month. Management consider the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Sub-Fund.

The maximum exposure to credit risk as at 31 December 2019 and 2018 is the carrying amount of the financial assets as shown on the statement of financial position.

(c) Liquidity risk

Liquidity risk is the risk that the Sub-Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Sub-Fund is exposed to daily redemptions of units in the Sub-Fund. The Sub-Fund invests the majority of its assets in securities that are traded in an active market which can be readily disposed of.

The table below analyses the Sub-Fund's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

NOTES TO THE FINANCIAL STATEMENTS

8. FINANCIAL RISK MANAGEMENT (Continued)

(c) Liquidity risk (Continued)

The Sub-Fund manages its liquidity risk by investing in debt securities and an investment fund that it expects to be able to liquidate within 7 days or less. The following table illustrates the expected liquidity of assets held:

	Less than 1 month <i>RMB</i>	1 to 12 months <i>RMB</i>	No stated maturity <i>RMB</i>	Total <i>RMB</i>

(d) Fair value estimation

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Sub-Fund can access at the measurement date (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes “observable” requires significant judgment by the Sub-Fund. The Sub-Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities. The Sub-Fund does not adjust the quoted price for these instruments. As at 31 December 2019 and 2018, the Sub-Fund did not hold any investments classified in level 1.

Financial instruments traded in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2, including PRC government bonds, policy banks bonds and an investment fund.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. As at 31 December 2019 and 2018, the Sub-Fund did not hold any investments classified in level 3.

For the years ended 31 December 2019 and 2018, there were no transfers between levels.

The assets and liabilities included in the statement of financial position, other than investments, are carried at amortised cost; their carrying value are approximation of fair value. There are no other assets and liabilities not carried at fair value but for which fair value is disclosed.

(e) Capital risk management

The Sub-Fund's capital is represented by the redeemable units outstanding. The Sub-Fund's objective is to provide investment results that correspond generally to the performance of the respective index. The Manager may:

- Redeem and issue new units on a daily basis in accordance with the constitutive documents of the Sub-Fund;

- Exercise discretion when determining the amount of distributions of the Sub-Fund to the unitholders; and
- Suspend the creation and redemption of units under certain circumstance as currently disclosed in the Prospectus of the Sub-Fund.

(f) Interest in other entities

The Sub-Fund's investments in an investment fund are subject to the terms and conditions of the respective investment fund's offering documentation and are susceptible to market price risk arising from uncertainties about future values of such investment fund. The Manager makes investment decisions after extensive due diligence of the underlying fund, its strategy and the overall quality of the underlying fund's manager.

As at 31 December 2019, the Sub-Fund invested in ICBC Credit Suisse RMB Cash Fund (2018: Nil). The right of the Sub-Fund to request redemption of its investments in ICBC Credit Suisse RMB Cash Fund is on a daily basis.

The Sub-Fund's exposure to investments in ICBC Credit Suisse RMB Cash Fund at fair value is disclosed in the following table. These investments are included in financial assets at fair value through profit or loss in the statement of financial position.

As at 31 December 2019

Strategy	Dealing net asset value of ICBC Credit Suisse RMB Cash Fund <i>RMB</i>	Investment fair value <i>RMB</i>	% of net asset value
3-month HIBOR tracking	23,890,840	2,010,200	1.19

The Sub-Fund's maximum exposure to loss from its interests in ICBC Credit Suisse RMB Cash Fund is equal to the total fair value of its investments in ICBC Credit Suisse RMB Cash Fund.

Once the Sub-Fund has disposed of its shares in ICBC Credit Suisse RMB Cash Fund, the Sub-Fund ceases to be exposed to any risk from ICBC Credit Suisse RMB Cash Fund.

As at 31 December 2019, there were no capital commitment obligations and no amounts due to ICBC Credit Suisse RMB Cash Fund for unsettled purchases.

During the year ended 31 December 2019, total net gain on investments in ICBC Credit Suisse RMB Cash Fund were RMB10,200 (2018: Nil).

(A SUB-FUND OF CSOP ETF SERIES II)**

NOTES TO THE FINANCIAL STATEMENTS

11. INVESTMENT LIMITATION AND PROHIBITIONS UNDER THE SFC CODE

The SFC Code allows the Sub-Fund to invest in constituent securities issued by a single issuer for more than 10% of the Sub-Fund's net asset value provided that the investment is limited to any constituent securities that each accounts for more than 10% of the weighting of the Index and the Sub-Fund's holding of any such constituent securities may not exceed their respective weightings in the Index (except as a result of changes in the composition of the Index and the excess is transitional and temporary in nature).

Pursuant to the SFC Code, it allows the Sub-Fund to invest up to 30% of Sub-Fund's total net asset value in Government and other public securities of the same issue. As at 31 December 2019 and 2018, the Sub-Fund invests in three (2018: five) government and other public securities that individually accounted for more than 10% but less than 30% of the net asset value of the Sub-Fund.

The Manager and the Trustee have confirmed that the Sub-Fund has complied with this limit during the years ended 31 December 2019 and 2018.

As at 31 December 2019

NOTES TO THE FINANCIAL STATEMENTS

11. INVESTMENT LIMITATION AND PROHIBITIONS UNDER THE SFC CODE (Continued)

During the year ended 31 December 2018, the ChinaBond 5-year Treasury Bond Index increased by 7.72% while the net asset value per unit of Sub-Fund increased by 2.76%.

During the year ended 31 December 2019, the Sub-Fund paid dividend of RMB3.60 (2018: RMB3.60) per unit, which represents 3.47% (2018: 3.44%) to the net asset value per unit as at 31 December 2019. For the details of dividend distribution, refer to Note 9.

12. SOFT COMMISSION ARRANGEMENT

The Manager confirms that there have been no soft commission arrangements existing during the year in relation to directing transactions of the Sub-Fund through a broker or dealer.

13. SEGMENT INFORMATION

The Manager makes the strategic resource allocations on behalf of the Sub-Fund and has determined the operating segments based on the reports reviewed which are used to make strategic decisions.

Prior to 24 June 2019, the Manager considered that the Sub-Fund had a single operating segment which was investing in fixed income investments. The objectives of the Sub-Fund were to track the performance of the ChinaBond 5-year Treasury Bond Index and invested in substantially the index constituents with security weight and industry weight that were closely aligned with the characteristics of the tracked index.

Effective from 24 June 2019, the Manager considers that the Sub-Fund has a single operating segment which is investing in fixed income investments. The objectives of the Sub-Fund are to track the performance of the Bloomberg Barclays China Treasury + Policy Bank Index and invest in substantially the index constituents with security weight and industry weight that are closely aligned with the characteristics of the tracked index.

The internal financial information used by the Manager for the Sub-Fund's assets, liabilities and performance is the same as that disclosed in the statement of financial position and statement of comprehensive income.

The Sub-Fund is domiciled in Hong Kong. The Sub-Fund's income is mainly derived from investments in PRC bonds including PRC government bonds and Policy bank bonds which constitute Bloomberg Barclays China Treasury + Policy Bank Index, the tracked index. Effective from 24 June 2019, the Sub-Fund has changed its underlying index from ChinaBond 5-year Treasury Bond Index to Bloomberg Barclays China Treasury + Policy Bank Index.

The Sub-Fund has no assets classified as non-current assets. As at 31 December 2019, the Sub-Fund has a diversified portfolio of investments including three (2018: five) investments each accounting for more than 10% of the Sub-Fund's net asset value.

14 SUBSEQUENT EVENTS

After the outbreak of Coronavirus Disease 2019 (“COVID-19”) in early 2020, the Manager, the Trustee and the Custodian have all deployed business continuity arrangements to minimise interruption to business. As of the date of issuance of these financial statements, the extent and duration of the impact of COVID-19 on global and local economies, financial markets, and sectors and specific positions in which the Sub-Fund invests are uncertain. The Manager and the Trustee are closely monitoring, and responding to, the development of COVID-19 as appropriate.

15. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Trustee and the Manager on 27 April 2020.
