Chairman's Statement 主席報告

I would like to present to the shareholders the audited consolidated results of Hong Kong Finance Investment Holding Group Limited (the "Company") together with its subsidiaries (the "Group") for the year ended 31 December 2019.

We are pleased to see that, despite the unstable global economy and the downturn of the Chinese economy due to multiple factors, in particular the Sino-US trade friction, the Group's property development segment posted a strong segment profit growth during the year. However, changes in the macro environment created a sluggish business climate and dampened market sentiment, adding uncertainties to the Group.

In 2020, the Group commenced a new page in diversifying the Group's business. On 17 April 2020, the Group entered into an exclusive operating agreement (the "Agreement") with the Kikori District Development Authority of Papua New Guinea (the "District Authority"). Pursuant to the Agreement, the District Authority has granted an exclusive operating right to HKFB for conducting continuous and effective sand mining and export business in the waters and rivers of the Kikori Delta in the Gulf of Papua (the "Kikori Delta"). The Company considers that the exclusive operating rights for conducting continuous and effective sand port and terminal facility construction and operation in the Kikori Delta shall place HKFB at an immensely more advantageous position for developing such business.

Looking forward, the Group will continue to explore other business opportunities to diversify and enhance its product range in order to capture new opportunities. We believe that the Group will achieve better results and hence optimize return for shareholders.

I would like to express my gratitude to all shareholders, customers, suppliers and business partners for supporting the Group over the years and contributing to the Group's healthy development. In appreciation of your support, we will remain committed to moving our business forward to achieve even greater success in the future.

For and on behalf of the Board **Dr. Hui Chi Ming,** G.B.S., J.P. *Chairman* 13 May 2020 本人謹向股東公佈香港金融投資控股集團有限公 司(「本公司」)連同其附屬公司(「本集團」)截至 二零一九年十二月三十一日止年度之經審核綜合 業績。

我們欣喜看到,儘管全球經濟不穩定及中國經濟 受多重因素影響(尤其是中美貿易摩擦)而下滑, 年內本集團物業開發分類仍錄得強勁分類利潤增 長。然而,宏觀環境變化造成商業氣氛低迷及市 場情緒受挫,為本集團帶來不明朗因素。

二零二零年,本集團開啟了業務多元化之新 篇章。於二零二零年四月十七日,本集團與巴 布亞新畿內亞基科里區發展局(Kikori District Development Authority of Papua New Guinea) (「地區當局」)訂立獨家經營協議(「該協議」)。 根據該協議,地區當局已授予香港金控商業獨家 於巴布亞灣基科里三角洲(「基科里三角洲」)之 海域及河流持續有效進行沙石開採及出口業務經 營權。本公司認為於基科里三角洲持續有效進行 沙石開採及出口業務和港口碼頭設施建設及經營 之獨家經營權將使香港金控商業處於更為有利之 地位以發展有關業務。

展望未來,本集團將繼續開拓其他商機,多元化 發展及擴大其產品範圍,以把握新機遇。我們相 信,本集團將取得更佳業績,從而為股東帶來最 豐厚回報。

本人謹此向多年來支持本集團並為本集團健康 發展作出貢獻之全體股東、客戶、供應商及業務 夥伴致謝。為感謝 閣下支持,我們將繼續推動 業務發展,於日後取得更大成功。

代表董事會 **許智銘博士** G.B.S., J.P. *主席* 二零二零年五月十三日

RESULTS

For the year ended 31 December 2019, the Group's revenue amounted to approximately HK\$538.0 million, compared to approximately HK\$942.5 million for 2018, representing a decrease of approximately HK\$404.5 million. The decrease was mainly attributable to the decrease in the sales of electronic products during the year.

The profit attributable to the owners of the Company substantially increased to HK\$677.7 million, an increase of HK\$517.7 million from the profit of HK\$160.0 million recorded for the year ended 31 December 2018. The increase was primarily due to the increase of the fair value of investment properties of approximately HK\$1,011.7 million (2018: HK\$289.0 million).

BUSINESS REVIEW

Investment property

Zhanjiang

The Group owns the land use rights of five land parcels located in Donghai Dao, Zhanjiang Economic and Technological Development Zone, Zhangjiang City, Guangdong Province, the People's Republic of China ("PRC") with total site area and total planned gross floor area of approximately 266,000 sq.m. and 1.3 million sq.m. respectively (the "Smart City Project"). The lands are divided into two portions: the portion held for sale (non-commercial portion) and the portion held for investment purpose (including the commercial portion and the car parking spaces).

業績

截至二零一九年十二月三十一日止年度,本集團 之收益約為538,000,000港元,而二零一八年則約 為942,500,000港元,減少約404,500,000港元。該 減少乃主要歸因於年內電子產品銷售減少。

本公司擁有人應佔溢利大幅增加至677,700,000 港元,較截至二零一八年十二月三十一日止年度 錄得之溢利160,000,000港元增加517,700,000港 元。該增加乃主要由於投資物業之公平值增加約 1,011,700,000港元(二零一八年:289,000,000港 元)所致。

業務回顧

投資物業

湛江

本集團擁有位於中華人民共和國(「中國」)廣東 省湛江市湛江經濟技術開發區東海島之五幅土地 之土地使用權,而該等土地之總佔地面積及規劃 總建築面積分別為約266,000平方米及1,300,000 平方米(「智慧城項目」)。該等土地分為兩個部 分:持作出售部分(非商業部分)及持作投資部分 (包括商業部分及車位)。

According to the valuation report issued by a recognised valuer at the end of the year, the gross development value and the value of the lands of the Smart City Project were approximately RMB10.9 billion and RMB5 billion respectively. The lands of the Smart City Project had been valued approximately RMB1.9 billion higher than the value of the lands of the Smart City Project at 31 December 2018. The portion of lands at approximately RMB3.4 billion will be used for residential purpose which are classified as properties for sale and another portion of lands at approximately RMB1.6 billion will be used for commercial building development purpose which are classified as investment properties in the consolidated statement of financial position as at 31 December 2019. Therefore, the fair value gain of approximately RMB931 million of the investment properties were recognised in the consolidated statement of profit or loss and other comprehensive income for the year ended 31 December 2019.

With the commencement of the operation/construction of largescaled projects in Donghai Dao such as the steel industrial projects, refinery and petrochemical projects, Donghai hospital project, Donghai secondary school project etc., it is expected that there are great demands for quality residential property. BASF had also commenced its construction of fine chemical industry base in Donghai Dao, with a total investment of US\$10 billion. BASF's chemical industry base plan has a very positive impact on the Group's property development project in Zhanjiang. 根據認可估值師於年末出具之估值報告,智慧城 項目該等土地之總開發價值及土地價值分別約為 人民幣109億元及人民幣50億元。於二零一八年 十二月三十一日,智慧城項目該等土地之估值約 為人民幣19億元,高於智慧城項目該等土地之估 值。該等土地的一部分約人民幣34億元將用作住 宅用途,並分類為待售物業,及該等土地的另一 部分約人民幣16億元將用作商業樓宇開發用途, 並於二零一九年十二月三十一日之綜合財務狀況 表內分類為投資物業。因此,投資物業之公平值 收益約人民幣931,000,000元已於截至二零一九 年十二月三十一日止年度之綜合損益及其他全面 收益表內確認。

隨著東海島大型項目(如鋼鐵工業項目、精煉及 石化項目、東海醫院項目、東海中學項目等)開始 營運/施工,預期對優質住宅物業之需求龐大。 德國巴斯夫亦已開始在東海島建設一個精細化工 基地,投資總額達100億美元。該巴斯夫的化工基 地計劃對本集團在湛江的地產發展項目有非常積 極正面的影響。

The Lands are located at the central business district of Donghai Dao, being a part of Zhanjiang Economic and Technological Development Zone ("ZETDZ") established in 1984 with the approval of the State Council and combined with Zhanjiang Donghai Dao Economic Development Test Zone in 2009 with a total area of 469 square kilometer. ZETDZ comprises three zones, including the established zone located in the center of Zhanjiang City and the industrial zone and the tourist zone of Donghai Dao. According to "Zhanjiang City Master Plan (2011-2020)" approved by the State Council in June 2017, Donghai Dao is one of the seven key strategic development areas of Zhanjiang City. Donghai Dao is aiming to develop into a modern city favourable for industrial, commercial as well as residential with six major functional areas, namely steel industry zone, petrochemical zone, hi-tech industrial zone, modern manufacturing zone, central business district and tourism and leisure zone. Central business district, being one of the major functional areas, is located at the center of Donghai Dao and an aggregate of 500 acres of land of which has been planned for hotel, residential and commercial integrated projects.

The rental income recorded by this Beijing property was approximately HK\$9.0 million (2018: HK\$20 million) for the year ended 31 December 2019. 該等土地位於東海島之中心商業區,而東海島為 經國務院批准於一九八四年成立之湛江經濟技 術開發區(「湛江經濟技術開發區」)之其中一部 份,並於二零零九年與湛江東海島經濟開發試驗 區合併,總面積為469平方公里。湛江經濟技術 開發區由三個片區組成,包括位於湛江市中心之 老城區以及東海島工業區及旅遊區。根據國務院 於二零一七年六月批准之「湛江市城市總體規劃 (2011-2020)」,東海島為湛江市七個主要戰略性 開發區之一。東海島旨在開發為有利於工業、商 業及住宅之現代化城市,具備六個主要功能區, 即鋼鐵工業區、石化區、高新技術工業區、現代化 製造區、中心商業區以及旅遊和休閒區。中心商 業區為其中一個主要功能區,位於東海島中心, 其合共500英畝之土地已規劃開發為酒店、住宅 及商業一體化項目。

Financial Business

The revenue of financial business of the Group generated from securities, futures and options broking business, underwriting commission, advisory for financial management business and interest income from securities margin loan portfolio. The performance during the past year suffered loss mainly attributing to the risk aversion of investor in the extreme volatile and uncertain trading environment. In the fiscal 2019, the market experienced wide trading range of about 5,000 points. The investors remained highly sensitive to the development of social unrest in Hong Kong, the interest rate trend, and the Sino-America trade negotiation and confrontation. In the second half, the market witnessed some monetary easing policies in both China and USA. The global equity markets started to rebound in early December on the news of reaching a partial agreement on the Sino-USA trade deal. Hang Sang Index rebound headed upward across the year end. Nonetheless, the market was soon overshadowed by the worries of global economic slowdown on the widespreading of the coronavirus outside China especially in Korea, Iran and Italy and the sudden outbreak of oil price war. Dow Jones slid more than 20% points in few days triggering panic sell off in Asia and Europe in the end of February of 2020. Despite the surprised emergency Fed cut of interest rate by half percentage and 1% consecutively coupled with massive US\$700 billion quantitative easing program in early March, the investors remained bearish and liquidation of assets was decisive. Both equity and economic outlook look gloomy in period ahead.

Trading Business

The Group owns 60% interest in Shenzhen Qianhai Jiameijing Industrial Company Limited (深圳市前海嘉美靜實業有限公司) which principally engages in the business of trading, importing and exporting of electronic products. The trading business recorded revenue of approximately HK\$508.8 million (2018: HK\$896.1 million).

金融業務

本集團金融業務的收益產生於證券、期貨及期權 經紀業務、包銷佣金、財務管理業務諮詢及證券 保證金貸款組合的利息收入。去年錄得虧損主要 歸因於投資者在極其動盪及不明朗的貿易環境 下規避風險。於二零一九財年,市場經歷約5.000 點的重大波幅。投資者仍對香港社會動盪發展、 利率走勢、中美貿易磋商及衝突高度敏感。下半 年,中美兩國推行若干貨幣寬鬆政策。於中美達 成部分貿易協定後,全球股市於十二月初開始回 升,而恒生指數於年底反彈。然而,中國境外(尤 其韓國、伊朗及意大利)暴發新型冠狀病毒及突 發原油價格戰,市場不久被全球經濟放緩的憂慮 籠罩。於二零二零年二月底,道瓊斯指數於數日 內下跌逾20%,引發亞歐市場出現恐慌性拋售。 儘管三月初美聯儲意外緊急降息50個基點並再度 緊急降息100個基點,且加推7,000億美元的大規 模量化寬鬆計劃,投資者仍對市場持悲觀態度並 果斷進行資產變現。股市及經濟前景於未來一段 時間內不容樂觀。

貿易業務

本集團於深圳市前海嘉美靜實業有限公司擁有 60%權益,該公司主要從事貿易以及電子產品進 出口業務。貿易業務錄得收益約508,800,000港元 (二零一八年:896,100,000港元)。

Oil and gas and mineral mining business

The Group owns 100% of the exploration, exploitation and operation rights as well as the profit sharing right of Madagascar Oilfield Block 2101 which is an onshore site with total area of 10,400 square kilometers in the northern part of Madagascar. Pursuant to the exploration, exploitation and oil and gas production sharing contract and depending on the rate of liquid petroleum production of Madagascar Oilfield Block 2101, the Group will share the remaining petroleum profit after government royalty and recovery of petroleum costs according to the sharing ratios in the range of 40% to 72.5% as set out in the profit sharing right.

The Group owns 65% interest in the rights granted under the Licence 253 in respect of Kenya Mine 253, an area of approximately 1,056 square kilometers situated in Kitui District Eastern Province, Kenya, and the Licence 341 in respect of Kenya Mine 341, an area of approximately 417 square kilometers situated in Nandi County, Kenya. Pursuant to the Licence 253 and relevant provisions of the Mining Act of Kenya, the Group is authorized to prospect, explore and mine industrial minerals (including but not limited to copper) in Kenya Mine 253. The Group was also granted the Licence 341 for prospecting and exploration of gold, iron ore and non-precious minerals in Kenya Mine 341.

油氣及採礦業務

本集團全資擁有馬國2101油田勘探開採經營權及約定分成權益。馬國2101油田位於馬達加斯加境內北部陸上,總面積為10,400平方公里。根據勘探開採和油氣產品生產分成合約及視乎馬國2101油田之液化石油產量,本集團將按約定分成權益所載分成比例(介乎40%至72.5%)分享扣除政府徵税及鑽取石油成本後之餘下石油溢利。

本集團於肯尼亞第253號礦場相關第253號許可 證及肯尼亞第341號礦場相關第341號許可證項 下所授出權利中擁有65%權益。肯尼亞第253號礦 場佔地約1,056平方公里,位於肯尼亞東部省庫 裡亞地區(Kitui District Eastern Province),而肯尼 亞第341號礦場佔地約417平方公里,位於肯尼亞 Nandi County。根據第253號許可證及肯尼亞採 礦法令相關條文,本集團獲授權於肯尼亞第253 號礦場勘探及開採工業礦物,包括但不限於銅。 本集團亦獲授第341號許可證,可於肯尼亞第341 號礦場勘探黃金、鐵礦及非貴重礦物。

PROSPECT

2020 is a year of challenge for the property industry in China, At the beginning of 2020, following the epidemic outbreak of Coronavirus Disease 2019 (the "COVID-19 outbreak") spread from Wuhan, the whole country has united together to fight against the epidemic. The Group has responded quickly with comprehensive arrangements and collaborated with regional offices, subsidiaries and joint ventures, to stand in the frontline of epidemic prevention and control. However, the industry would also be exposed to a new opportunity of transformation and upgrade into a modern industry in pursuit of high-quality property development. The Company believes it will enjoy more development opportunities after such a challenging time. The Group will continue to expand its business into property development and investment alongside its existing trading, energyrelated and financial services businesses. Especially, the new property development business in Maoming, China. It will be the growth factor of the Group in the years to come. The Group's enlarging and strengthening property development business will benefit the Company's future business development beyond the energyrelated sector and is in the best interests of the Company and the Shareholders as a whole.

FINANCIAL REVIEW

Revenue

During the financial year, the total revenue for the Group was approximately HK\$538.0 million, representing a decrease of approximately HK\$404.5 million as compared with HK\$942.5 million in 2018. This was mainly due to the decrease in sale of electronic products during the year.

前景

二零二零年是中國房地產行業面臨挑戰的一年。 於二零二零年初,二零一九新型冠狀病毒肺炎疫 情(「COVID-19疫情」)自武漢開始蔓延後,全國 上下齊心協力抗擊該疫情。本集團迅速採取應對 措施,作出全面安排並與地區辦事處、附屬公司 及合營企業合作,站在疫情防控第一線。然而, 該行業亦面臨轉型及升級至追求優質物業開發的 現代產業的新機遇。本公司相信,於度過該艱難 時期後,其將享有更多發展機遇。本集團將繼續 尋求於現有貿易、能源相關及金融服務業務基礎 上拓展其業務至物業開發及投資。尤其是中國茂 名市的新物業開發業務。該業務將成為本集團未 來的盈利增長點。本集團不斷擴大及加強的物業 開發業務,將有利於本公司日後將業務發展至能 源相關行業以外的行業,並符合本公司及股東的 整體最佳利益。

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with Section 90 of Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- 了解與審核相關的內部監控,以設計在有 關情況下屬適當的審核程序,但目的並非 對 貴集團內部監控的有效性發表意見。
 - 評估董事所採用會計政策的適當性及作出 會計估計及相關披露的合理性。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended 31 December 2019 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Yip Kai Yin with Practising Certificate number P05131.

The Group has applied HKFRS 16 for the first time in the current year. HKFRS 16 superseded HKAS 17 Leases ("HKAS 17"), and the related interpretations.

Definition of a lease

The Group has elected the practical expedient to apply HKFRS 16 to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 Determining whether an Arrangement contains a Lease and not apply this standard to contracts that were not previously identified as containing a lease. Therefore, the Group has not reassessed contracts which already existed prior to the date of initial application.

For contracts entered into or modified on or after 1 January 2019, the Group applies the definition of a lease in accordance with the requirements set out in HKFRS 16 in assessing whether a contract contains a lease.

As a lessee

The Group has applied HKFRS 16 retrospectively with the cumulative effect recognised at the date of initial application, 1 January 2019.

香港財務報告準則第16號租賃

本集團已於本年度首次應用香港財務報告 準則第16號。香港財務報告準則第16號取代 香港會計準則第17號租賃(「香港會計準則 第17號」)及相關詮釋。

租賃定義

本集團已選擇可行權宜方法,就先前應用香 港會計準則第17號及香港(國際財務報告 詮釋委員會)一詮釋第4號釐定安排是否包 括租賃識別為租賃的合約應用香港財務報 告準則第16號,而並無對先前並未識別為包 括租賃的合約應用該準則。因此,本集團並 無重新評估於首次應用日期前已存在的合 約。

就於二零一九年一月一日或之後訂立或修 改的合約而言,本集團於評估合約是否包含 租賃時根據香港財務報告準則第16號所載 的規定應用租賃的定義。

作為承租人

本集團已追溯應用香港財務報告準則第16號,累計影響於首次應用日期二零一九年一 月一日確認。

As a lessee (Continued)

When applying the modified retrospective approach under HKFRS 16 at transition, the Group applied the following practical expedients to leases previously classified as operating leases under HKAS 17, on lease-by-lease basis, to the extent relevant to the respective lease contracts:

- relied on the assessment of whether leases are onerous by applying HKAS 37 Provisions, Contingent Liabilities and Contingent Assets as an alternative of impairment review;
- elected not to recognise right-of-use assets and lease liabilities for leases with lease term ends within 12 months of the date of initial application; and
- used hindsight based on facts and circumstances as at date of initial application in determining the lease term for the Group's leases with extension and termination options.

於過渡期間根據香港財務報告準則第16號 應用經修訂追溯法時,本集團按逐項租賃 基準就先前根據香港會計準則第17號分類 為經營租賃的租賃應用以下可行權宜方法 (倘與相關租賃合約有關):

- i) 倚賴透過應用香港會計準則第37號撥 備、或然負債及或然資產作為減值審 核之替代方案,評估租賃是否繁苛;
- ii) 選擇不就租期於首次應用日期起計12 個月內結束的租賃確認使用權資產及 租賃負債;及

In accordance with the transitional provisions in HKFRS 16, the Group is not required to make any adjustment on transition for leases in which the Group is a lessor but account for these leases in accordance with HKFRS 16 from the date of initial application and comparative information has not been restated.

In addition to the above new and amendments to HKFRSs, a revised Conceptual Framework for Financial Reporting was issued in 2018. Its consequential amendments, the Amendments to References to the Conceptual Framework in HKFRS Standards, will be effective for annual periods beginning on or after 1 January 2020.

Except for the new and amendments to HKFRSs mentioned below, the directors of the Company consider that the application of all new and amendments to HKFRSs and HKASs is unlikely to have a material impact on the Group's financial position and performance as well as disclosure in foreseeable future.

Amendments to HKFRS 3 Definition of a Business

The amendments:

- add an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The election on whether to apply the optional concentration test is available on transaction-by-transaction basis;
- clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs; and
- narrow the definitions of a business and of outputs by focusing on goods and services provided to customers and by removing the reference to an ability to reduce costs.

- 闡明交易要被視為一項業務,被收購 之一組活動及資產需至少包括可對創 造產出能力有重大貢獻之投入及重大 過程;及

Amendments to HKFRS 3 Definition of a Business (Continued)

The amendments are applied prospectively to all business combinations and asset acquisitions for which the acquisition date is on or after the first annual reporting period beginning on or after 1 January 2020, with early application permitted.

Amendments to HKAS 1 and HKAS 8 Definition of Material

The amendments provide refinements to the definition of material by including additional guidance and explanations in making materiality judgments. In particular, the amendments:

- include the concept of "obscuring" material information in which the effect is similar to omitting or misstating the information;
- replace threshold for materiality influencing users from "could influence" to "could reasonably be expected to influence"; and
- include the use of the phrase "primary users" rather than simply referring to "users" which was considered too broad when deciding what information to disclose in the financial statements.

The amendments also align the definition across all HKFRSs and will be mandatorily effective for the Group's annual period beginning on 1 January 2020. The application of the amendments is not expected to have significant impact on the financial position and performance of the Group but may affect the presentation and disclosures in the consolidated financial statements. 應用新訂及經修訂香港財務報告準 則(「香港財務報告準則」)(續)

香港會計準則第1號及香港會計準則第8號 (修訂)重大性之定義

該等修訂透過載入作出重大判斷時的額外 指引及解釋,對重大性之定義進行修訂。尤 其是有關修訂:

- 包含「掩蓋」重要資料的概念,其與遺 漏或誤報資料有類似效果;
- 就影響使用者重要性的範圍以「可合 理預期影響」取代「可影響」;及
- 包含使用詞組「主要使用者」,而非僅 指「使用者」,於決定於財務報表披 露何等資料時,該用語被視為過於廣 義。

該等修訂與各香港財務報告準則的定義一 致,並將在本集團於二零二零年一月一日開 始的年度期間強制生效。預期應用該等修訂 不會對本集團的財務狀況及表現造成重大 影響,惟可能影響於綜合財務報表中的呈列 及披露。

The New Framework:

- reintroduces the terms stewardship and prudence;
- introduces a new asset definition that focuses on rights and a new liability definition that is likely to be broader than the definition it replaces, but does not change the distinction between a liability and an equity instrument;
- discusses historical cost and current value measures, and provides additional guidance on how to select a measurement basis for a particular asset or liability;
- states that the primary measure of financial performance is profit or loss, and that only in exceptional circumstances other comprehensive income will be used and only for income or expenses that arise from a change in the current value of an asset or liability; and
- discusses uncertainty, derecognition, unit of account, the reporting entity and combined financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSS"), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASS") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the disclosure requirements of the Hong Kong Companies Ordinance. The consolidated financial statements also comply with the applicable disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

The consolidated financial statements have been prepared under historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2, leasing transactions that are accounted for in accordance with HKFRS 16 (Since 1 January 2019) or HKAS 17 (before application of HKFRS 16) Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 or value in use in HKAS 36.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

3. 主要會計政策

綜合財務報表乃根據香港會計師公會(「香 港會計師公會」)頒佈之所有適用香港財務 報告準則(「香港財務報告準則」,包括所有 適用個別香港財務報告準則、香港會計準則 (「香港會計準則」)及詮釋)及香港公司條 例之披露規定編製。綜合財務報表亦符合香 港聯合交易所有限公司證券上市規則(「上 市規則」)之適用披露規定。

綜合財務報表已按歷史成本法編製。歷史成 本一般按為換取資產而付出之代價之公平 值計算。

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

For financial instruments and investment properties which are transferred at fair value and a valuation technique that unobservable inputs is to be used to measure fair value in subsequent periods, the valuation technique is calibrated so that the results of the valuation technique equals the transaction price.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

此外,就財務報告而言,公平值計量根據公 平值計量輸入數據之可觀察程度及公平值 計量輸入數據對其整體之重要性分類為第 一級、第二級或第三級,詳情如下:

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the noncontrolling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation (Continued)

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest; and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKFRS 9, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Revenue from contracts with customers

Under HKFRS 15, the Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

客戶合約之收入

根據香港財務報告準則第15號,於(或當) 本集團於完成履約責任時,即當特定之履約 責任涉及之貨品或服務之「控制權」轉移至 客戶時確認收益。

履約責任指一項明確貨品或服務(或一批 貨品或服務)或一系列大致相同之明確貨品 或服務。

倘符合以下其中一項條件,控制權隨時間轉 移,收益則可參考完成相關履約責任之進度 而按時間確認:

- 客戶於本集團履約時同時收取及享用 本集團履約所提供之利益;
- 於履約時,本集團之履約創建或增強
 客戶控制之資產;或
- 本集團之履約並未能創建對本集團具 有替代用途之資產,而本集團有強制 執行權收取至今已履約之款項。

Revenue from contracts with customers *(Continued)*

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to a contract are accounted for and presented on a net basis.

Details of the Group's performance obligations for revenue for contracts with customers resulting from application of HKFRS 15 are set out in note 7.

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in production or supply of goods or services, or for administrative purposes. Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of fixed assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of fixed assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation (including properties under construction for such purposes).

Effective from 1 January 2019, investment properties also include lease properties which are being recognised as right-ofuse asset upon application of HKFRS 16 and subleased by the Group under operating lease.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values, adjusted to exclude any prepaid or accrued operating lease income. Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

Construction costs incurred for investment properties under construction are capitalised as part of the carrying amount of investment properties under construction.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. Effective from 1 January 2019, a leased properties which is recognised as a right-of-use asset upon application of HKFRS 16 is derecognised if the Group as immediate lessor classifies the sublease as a finance lease. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the item is derecognised.

Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for trading rights is recognised on a straight-line basis over their estimated useful lives. The estimated useful lives and amortisation method are reviewed at the end of each reporting period, with the effective of any changes in estimate being accounted for on a prospective basis.

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination are recognised separately from goodwill and are initially recognised at their fair value at the acquisition date (which is regarded as their cost). Subsequent to initial recognition, intangible assets acquired in a business combination with finite useful lives are reported at costs less accumulated amortisation and any accumulated impairment losses on the same basis as intangible assets that are acquired separately. Alternatively, intangible assets acquired in a business combination with indefinite useful lives are carried at cost less any subsequent accumulated impairment losses (see the accounting policy in respect of impairment losses on tangible and intangible assets below).

Intangible assets are derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are measured at the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss in the period when the assets are derecognised.

Impairment losses on property, plant and equipment, right-of-use assets and intangible asset

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, rightof-use assets and intangible asset with finite useful lives to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of property, plant and equipment, rightof-use assets and intangible asset are estimated individually, when it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In addition, the Group assesses whether there is indication that corporate assets may be impaired. If such indication exists, corporate assets are also allocated to individual cashgenerating units, when a reasonable and consistent basis of allocation can be identified, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash generating unit) for which the estimates of future cash flows have not been adjusted.

物業、廠房及設備、使用權資產及無 形資產之減值虧損

本集團於報告期終日審閱有限可使用年期 之物業、廠房及設備、使用權資產及無形資 產之賬面值,釐定該等資產有否任何減值虧 損跡象。倘有任何跡象顯示減值,將估計有 關資產之可收回金額以釐定減值虧損(如 有)程度。

物業、廠房及設備、使用權資產及無形資產 之可收回金額將予以個別估計,當不能個別 估計可收回金額時,本集團估計有關資產所 屬現金產生單位之可收回金額。

此外,本集團對是否有跡象顯示公司資產可 能出現減值進行評估。倘有有關跡象顯示減 值,當能夠確定一個合理及一致分配基礎 時,公司資產亦會被分配至個別現金產生單 位,否則被分配至可被確定合理及一致分配 基礎之最小現金產生單位組別。

可收回金額為公平值減出售成本與使用價 值之較高者。評估使用價值時,估計未來現 金流量會以可反映現行市場對貨幣時間價 值之評估及並未調整估計未來現金流量之 資產(或現金產生單位)之特定風險之除税 前折現率折現至現值。

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment losses on property, plant and equipment, right-of-use assets and intangible asset (Continued)

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cashgenerating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable) or, its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cashgenerating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cashgenerating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss. 3. 主要會計政策(續)

物業、廠房及設備、使用權資產及無 形資產之減值虧損(*續)*

倘資產(或現金產生單位)之可收回金額估 計低於其賬面值,則資產(或現金產生單 位)之賬面值乃扣減至其可收回金額。就未 能按合理及一致基礎分配至現金產生單位 之公司資產或部分公司資產而言,本集團會 比較現金產生單位組別之賬面值(包括已 分配至該現金產生單位組別之公司資產或 部分公司資產之賬面值)與該現金產生單位 組別之可收回金額。於分配減值虧損時,減 值虧損首先會分配以減低任何商譽(倘適 用)之賬面值,其後按該單位或現金產生單 位組別各資產之賬面值按比例分配至其他 資產。資產賬面值不會減少至低於其公平值 減出售成本(如可計量)或其使用價值(如 可釐定)及零之中之最高值。已另行分配至 資產之減值虧損金額按比例分配至該單位 或現金產生單位組別之其他資產。減值虧損 即時於損益中確認。

倘減值虧損於其後撥回,則資產(或現金產 生單位或現金產生單位組別)之賬面值會增 至經修訂估計可收回金額,惟增加之賬面值 不會超過以往年度並未就該資產(或現金 產生單位或現金產生單位組別)確認任何減 值虧損而應釐定之賬面值。減值虧損回撥即 時於損益中確認。

Properties for sale

Properties for sale which are intended to be sold upon completion of development and properties for sale are classified as current assets. Except for the leasehold land element which is measured at cost model in accordance with the accounting policies of right-of-use assets upon the application of HKFRS 16, properties for sale are carried at the lower of cost and net realisable value. Cost is determined on a specific identification basis including allocation of the related development expenditure incurred and where appropriate, borrowing costs capitalised. Net realisable value represents the estimated selling price for the properties less estimated cost to completion and costs necessary to make the sales.

Properties for sale are transferred to properties for sale upon completion.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from the amount as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Taxation (Continued)

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation (Continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-ofuse assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 Income Taxes requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to rightof-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption.

税項(續)

遞延税項資產之賬面值於各報告期終日作 檢討,按不再可能有足夠應課税溢利用以抵 銷全部或部分資產為限作出調減。

遞延税項資產及負債按預期於清償負債或 變現資產之期間適用之税率計量,並根據截 至報告期終日前已頒佈或大致已頒佈之税 率(及税法)計算。

遞延税項負債及資產之計量反映本集團預 期於報告期終日時收回或結算其資產及負 債賬面值之方式所引起税務結果。

就計量本集團對租賃交易確認使用權資產 及相關租賃負債之遞延税項而言,本集團首 先釐定減税是否歸屬於使用權資產或租賃 負債。

就税項扣減歸屬於租賃負債之租賃交易而 言,本集團將香港會計準則第12號所得税規 定分別應用於使用權資產及租賃負債。由於 應用初步確認豁免,有關使用權資產及租賃 負債之暫時差額並未於初步確認時於租期 內確認。

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the year, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of currency translation reserve (attributed to non-controlling interest as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

Leases

Upon the adoption of HKFRS 16 on 1 January 2019

Definition of a lease (upon application of HKFRS 16 in accordance with transitions in note 2)

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception or modification date. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee (upon application of HKFRS 16 in accordance with transitions in note 2)

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components, including contract for acquisition of ownership interests of a property which includes both leasehold land and non-lease building components, unless such allocation cannot be made reliably.

The Group as a lessee (upon application of HKFRS 16 in accordance with transitions in note 2) (Continued)

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases of leasehold properties that have a lease term of 12 months or less from the commencement date and do not contain a purchase option.

Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

Right-of-use assets

Except for short-term leases, the Group recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received; and
- any initial direct costs incurred by the Group.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Leases (Continued)

Right-of-use assets (Continued)

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term is depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Taxation

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-ofuse assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 Income Taxes requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to rightof-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment;

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables and contract assets. The ECL on these assets are assessed individually for debtors with significant balances and/or collectively using a provision matrix with appropriate groupings.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless there has been a significant increase in credit risk since initial recognition, in which case, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition. 3. 主要會計政策(續)

	(i)	Significant increase in credit risk		(i)	信貸風險大幅增加	
		In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.			於評估自初始確認後信貸風險是否顯 著增加時,本集團將於報告日期金融 工具發生之違約風險與初始確認日起 金融工具發生之違約風險進行比較。 在進行該評估時,本集團會考慮合理 且可支持之定量及定性資料,包括無 需付出不必要之成本或努力而可得之 歷史經驗及前瞻性資料。	

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;

具體而言,在評估信貸風險有否顯著 增加時,會考慮以下資料:

- 金融工具之外部(如有)或內部
 信貸評級之實際或預期顯著惡
 化;
- 外部市場信貸風險指標之顯著惡化,如信貸利差大幅增加,債務人之信貸違約掉期價格;
- 財務或經濟狀況之現有或預測不
 利變動,預期將導致債務人履行
 其債務責任之能力大幅下降;

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Financial instruments (Continued) Financial assets (Continued) Impairment of financial assets (Continued) (i) Significant increase in credit risk (Continued) (i) an actual or expected significant deterioration in the operating results of the debtor;

 an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the aforegoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) it has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of "investment grade" as per globally understood definitions.

- (i) 信貸風險大幅增加(*續*)
 - 債務人經營業績之實際或預期重 大惡化;
 - 債務人監管、經濟或技術環境之 實際或預期重大不利變動,導致 債務人履行其債務責任之能力大 幅下降。

不論上述評估之結果如何,本集團認為,當合約付款逾期超過30日,則自 初始確認以來信貸風險已顯著增加, 除非本集團有合理且可支持之資料證 明並非如此。

儘管如此,但本集團假設倘債務工具 在報告日期被確定為具有較低信貸風 險,則債務工具自初始確認以來之信 貸風險並未顯著增加。倘出現下列情 形,則債務工具會被釐定為信貸風險 較低:i)其違約風險較低;ii)借款人於 短期履行合約現金流量責任之能力強 大;及iii)經濟及業務狀況之長期不利 變動可能但不一定會削弱借款人履行 合約現金流量責任之能力。本集團認 為,倘債務工具內部或外部信貸評級 為按公認定義之「投資級」,則有關金 融資產之信貸風險低。

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate. (ii) 違約之定義

就內部信貸風險管理而言,本集團認 為,倘內部生成之或自外部資源獲得 之資料顯示債務人不大可能向其債權 人(包括本集團)悉數付款(不考慮本 集團持有之任何抵押品),則發生違約 事件。

無論上述情形如何,本集團認為,倘金 融資產逾期超過90天,則發生違約事件,除非本集團有能説明更寬鬆之違 約標準更為合適之合理可靠資料,則 作別論。

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. 當有資料顯示交易對手方有嚴重財務 困難及並無實際可收回預期,例如, 當交易對手方被清算或已進入破產程 序時,或倘為應收賬款,該等金額逾 期超過兩年時(以較早發生者為準), 本集團會將該金融資產撤銷。經考慮 法律意見(如適當)後,已撇銷之金融 資產仍可根據本集團之收回程序實施 強制執行。撇銷構成終止確認事項。 任何後續收回均於損益中確認。

(v) Measurement and recognition of ECL (Continued)

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of accounts receivable where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities at FVTPL (Continued)

A financial liability other than a financial liability held for trading or contingent consideration of an acquirer in a business combination may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and HKFRS 9 permits the entire combined contract to be designated as at FVTPL.

For financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. For financial liabilities that contain embedded derivatives, such as convertible bonds, the changes in fair value of the embedded derivatives are excluded in determining the amount to be presented in other comprehensive income. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are not subsequently reclassified to profit or loss; instead, they are transferred to accumulated losses upon derecognition of the financial liability.

Offsetting a financial asset and a financial liability

A financial asset and a financial liability are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the recognised amounts; and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the directors of the Group have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Measurement of ECL

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Selecting appropriate models and assumptions for the measurement of ECL; and
- Establishing the relative probability weightings of forwardlooking scenarios.

於應用會計政策時之重大判斷

以下為本集團董事在應用實體會計政策過 程中作出之關鍵判斷(涉及估計者(見下 文)除外),以及其對綜合財務報表已確認 之金額具有最重大之影響。

計量預期信貸虧損

在應用計量預期信貸虧損之會計規定時, 須作出多項重大判斷,如:

- 釐定信貸風險大幅增加之準則;
- 選擇計量預期信貸虧損之合適模型及
 假設;及
- 設立前瞻性情景之相關加權數。

Measurement of ECL (Continued)

Significant increase in credit risk

ECL of different financial assets is measured by the Group on either a 12-month or lifetime basis depending on whether they are in Stage 1, 2 or 3 as defined in note 6. A financial asset moves to Stage 2 when its credit risk has increased significantly since initial recognition, and it comes to Stage 3 when it is credit-impaired (but it is not purchased original credit impaired). In assessing whether the credit risk of a financial asset has significantly increased, the Group takes into account qualitative and quantitative reasonable and supportable forward-looking information with significant judgements involved.

Models and assumptions used

The Group uses various models and assumptions in estimating ECL. Judgement is applied in identifying the appropriate model for each type of financial assets, as well as the assumptions used in these models. Please refer to note 6 for more details on ECL.

Key sources of estimation uncertainty

The following are key assumptions concerning the future, and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period. **4. 關鍵會計判斷及估計不確定因素** 之主要來源(續)

信貸風險大幅增加

不同金融資產之預期信貸虧損由本集團按 12個月或全期基準計量,具體取決於其是否 處於附註6所界定之第1、第2或第3階段。倘 一項金融資產自初步確認以來其信貸風險 大幅增加,則其會轉入第2階段,倘其出現 信貸減值(惟不屬於購入源生已發生信貸 減值之資產)時,則其會轉入第3階段。在評 估金融資產之信貸風險是否大幅增加時,本 集團會考慮在定性及定量方面屬合理及可 支持之前瞻性資料,並會作出重大判斷。

所使用之模型及假設

本集團在估計預期信貸虧損時,會使用多種 模型及假設。在確定每種金融資產之適當模 型以及在該等模型中所使用之假設時,會作 出判斷。有關預期信貸虧損之更多詳情,請 參閱附註6。

Measurement of ECL

Impairment assessment under ECL for trade and other receivables (except for cash clients and margin clients)

The Group uses a provision matrix to calculate ECL for the trade receivables (except for cash clients and margin clients) that result from transactions within the scope of HKFRS 15. The provision rates are based on debtor's aging as groupings of various debtors that have similar loss patterns. The provision matrix is based on the Group's historical default rates taking into consideration forward-looking information that is reasonable and supportable and available without undue costs and effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information is considered. In addition, accounts receivable with significant balances and credit impaired are assessed for ECL individually.

The provision of ECL is sensitive to changes in estimates. The information about the ECL is disclosed in note 6.

The impairment assessment under ECL for financial assets at amortised cost (including cash clients, margin clients, statutory deposits, other receivables and deposits, and bank balances) is an area that requires the use of models and assumptions about future economic conditions and the credit risk of the respective financial instrument. **4. 關鍵會計判斷及估計不確定因素** 之主要來源(續)

本集團採用撥備矩陣計算因在香港財務報 告準則第15號範圍內之交易所產生之應收 賬款(現金客戶及保證金客戶除外)之預期 信貸虧損。撥備率乃基於具有類似虧損模式 之多種應收賬款組別中應收賬款之賬齡釐 定。撥備矩陣乃按本集團之歷史違約率釐 定,經考慮無需付出不必要之成本或努力便 可得之合理及可支持之前瞻性資料。於各報 告日期,會重新評估歷史觀察到之違約率, 並考慮前瞻性資料之變動情況。此外,具有 重大結存及出現信貸減值之應收賬款將就 預期信貸虧損作出單獨評估。

(i) Inputs, assumptions and estimation techniques

ECL is the discounted product of expected future cash flows by using the Probability of Default ("PD"), Loss Given Default ("LGD") and Exposure at Default ("EAD"), of which PD and LGD are estimates based on significant management judgement. For credit-impaired financial assets, the management perform individual assessment for each client by considering various factors, including the realisable value of securities or collaterals from clients and their guarantors which are held by the Group and subsequent settlement and additional collaterals received.

(ii) Forward-looking information

In measuring ECL in accordance with HKFRS 9, it should consider forward-looking information. The calculation of ECL incorporates forward-looking information through the use of publicly available economic data and forecasts based on assumptions and management judgement to reflect the qualitative factors and through the use of multiple probability weighted scenarios.

Details of the impairment assessment of financial assets at amortised cost is disclosed in note 11.

Valuation of investment property

Investment properties are stated at fair value based on the valuation performed by the independent professional valuer. The valuers have determined the fair value based on a method of valuation which involves certain estimates. In relying on the valuation report prepared by the valuers, management has reviewed the valuation including the assumptions and estimates adopted.

5. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the equity balance. The capital structure of the Group consists of equity attributable to owners of the Company, comprising issued share capital, accumulated losses and other reserves.

The Directors review the capital structure on a continuous basis. As part of this review, the Directors consider the cost of capital and the risks associated with capital. The Group will balance its overall capital structure through the payment of dividends, issuance of new shares as well as the issuance of new debts or the redemption of existing debts. The Group's overall strategy remains unchanged from prior year.

Certain group entities are regulated by the Hong Kong Securities and Futures Commission and are required to comply with the financial resources requirements according to the Hong Kong Securities and Futures (Financial Resources) Rules (the "SF(FR)R"). The Group's regulated entities are subject to minimum paid-up share capital requirements and liquid capital requirements under the SF(FR)R. Management closely monitors, on a daily basis, the liquid capital level of these entities to ensure compliance with the minimum liquid capital requirements under the SF(FR)R. The Group's regulated entities have complied with the capital requirements imposed by the SF(FR)R throughout both years. **4. 關鍵會計判斷及估計不確定因素** 之主要來源(續)

Offsetting of financial assets and financial liabilities

- are offset in the Group's statement of financial position; or
- are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments, irrespective of whether they are offset in the Group's statement of financial position.

Under the agreement of continuous net settlement made between the Group and Hong Kong Securities Clearing Company Limited ("HKSCC"), and brokers, the Group has a legally enforceable right to set off the money obligation receivable and payable with HKSCC and brokers on the same settlement date and the Group intends to set off on a net basis.

Except for balances which are due to be settled on the same date which are being offset, amounts due from/to HKSCC, brokers and cash clients that are not to be settled on the same date financial collateral including securities received by the Group, deposit placed with HKSCC and brokers do not meet the criteria for offsetting in the statement of financial position since the right of set-off of the recognised amounts is only enforceable following an event of default. 6. 金融工具(*續*)

Currency risk

As the Group's monetary assets and monetary liabilities are mainly in functional currency of respective group entities, the currency risk resulting from daily operations is considered not significant. The Group currently does not have a foreign currency hedging policy. However, management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate pledged fixed deposits, loan receivables, corporate bonds and borrowings. The Group is also exposed to cash flow interest rate risk in relation to variable-rate of bank balances, loans to securities margin clients and amount due to Directors. The Group currently does not have interest rate hedging policy. However, management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise. 貨幣風險

由於本集團之貨幣資產及貨幣負債主要以 各集團實體之功能貨幣計值,故日常營運產 生之貨幣風險並不重大。本集團目前尚無外 幣對沖政策。然而,管理層會監察外幣匯兑 風險,並在需要時考慮對沖重大的外幣風 險。

利率風險

本集團的公平值利率風險與定息已抵押定 期存款、應收貸款、公司債券及借貸有關。 本集團亦因銀行結存、證券保證金融資客戶 貸款及應付董事款項等浮息而面對現金流 利率風險。本集團現時並無利率對沖政策。 然而,管理層會監察利率風險,並在需要時 考慮對沖重大的利率風險。本集團之現金流 利率風險主要集中於本集團借予證券保證 金客戶之浮息貸款及應付董事款項之香港 最優惠利率之改變。

	The sensitivity analysis below has been determined based on the exposure to interest rates for variable-rate loans to securities margin clients and amount due to a Director mentioned above at the end of the reporting period. The analysis is prepared assuming the amounts of assets and liabilities recorded at the end of the reporting period were outstanding for the whole year. A 50 basis point (2018: 50 basis point) increase or decrease represents management's assessment of the reasonably possible change in interest rates		以下的敏感度分析乃按照報告期終日上述 借予證券保證金客戶之浮息貸款及應付一 名董事款項之利率釐定。此分析根據假設 於報告期終日錄得之資產及負債額於整年 存在而編製。增減50基點(二零一八年:50 基點)即管理層對利率可能之合理變動之評 估。

If interest rates had been 50 basis point (2018: 50 basis point) higher/lower and all other variables were held constant, the Group's loss for the year ended 31 December 2019 would increase/decrease by approximately HK\$350,000 (2018: HK\$360,000).

The effect on bank balances has not been taken into account in preparing the sensitivity analysis because the effect involved is not significant.

Other price risk

The Group is exposed to equity price risk through its investments in equity securities measured at FVTOCI. For equity securities measured at FVTOCI quoted in the Stock Exchange, the management manages this exposure by closely monitoring the risk. The Group will consider hedging the risk exposure should the need arise.

由於所涉影響不大,故編製敏感度分析時, 並無計及銀行結存所受影響。

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk exposures are primarily attributable to accounts receivable, loan receivables, other receivables and deposits, pledged fixed deposit, bank balances. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets, except that the credit risks associated with loans to securities margin clients included in accounts receivable and loan receivables of HK\$72,361,000 and HK\$1,992,000 is mitigated because they are secured over properties or listed securities.

The Group performed impairment assessment for financial assets under ECL model. Information about the Group's credit risk management, maximum credit risk exposures and the related impairment assessment, if applicable, are summarised as below:

In order to minimise the credit risk, management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures over the customers to ensure that follow-up action is taken to recover overdue debts for securities cash clients, securities margin clients and advising on corporate finance. In addition, the Group reviews the recoverable amount of each individual debt at the end of each reporting period to ensure that adequate allowances are made for irrecoverable amounts. In addition, the Group performs impairment assessment under ECL model upon application of HKFRS 9 on accounts balances individually or based on provision matrix. In this regard, the directors of the Group consider that the credit risk is significantly reduced.

Accounts receivable from cash clients arising from the business of dealing in securities

As described in more details in note 29, the credit risk on cash clients arising from the business of dealing in securities are managed through daily monitoring of the outstanding exposures from individual clients and realisable values of individual client's securities. The Group has concentration of credit risk to five largest cash clients' exposure representing 31% (2018: 39%) of the total cash clients as at 31 December 2019. The balances due from the five largest cash clients were approximately HK\$2,203,000 (2018: HK\$4,167,000). Apart from the exposures to five largest cash clients' exposure mentioned above, the directors of the Group consider that the concentration of credit risk is limited due to the customer base being large and unrelated.

Accounts receivable arising from loan to securities margin clients

As described in more detail in note 29, the credit risk on loan to securities margin clients is managed through daily monitoring of the outstanding exposures from individual clients, margin values and realisable values of individual client's securities. The Group has concentration of credit risk to ten largest securities margin clients' exposure representing 83% (2018: 83%) of the total loans to margin clients as at 31 December 2019. The balances due from the ten largest securities margin clients were approximately HK\$60,150,000 (2018: HK\$56,620,000) as at 31 December 2019, of which the amount is secured by clients' securities with an aggregate fair value of HK\$150,834,000 (2018: HK\$142,209,000) as at 31 December 2019. In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits and credit approvals.

Loan receivables

As described in more details in note 27, the credit risk on loan receivables is managed through regular analysis of the ability of borrowers to meet interest and principal repayment obligations and by changing the lending limits where appropriate. Exposure to credit risk is also managed by obtaining collateral. The credit risk of accounts receivable from HKFECC & HKSCC is considered as not material taking into account the good market reputations and high credit ratings of the counterparties.

Pledged bank deposit/Bank balances

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by authorised credit-rating agencies.

Other receivables and deposits

For other receivables and deposits, the directors of the Company make periodic individual assessment on the recoverability of other receivables and deposits based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The directors of the Company believe that there are no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12m ECL. The Group assessed the loss allowance for these other receivables and deposits on 12-month ECL basis. In determining the ECL, the Group has taken into account the historical default experience and forward-looking information as appropriate. There had been no significant increase in credit risk since initial recognition. The Group has considered the consistently low historical default rate in connection with payments and concluded that credit risk inherent in the Group's outstanding balances is insignificant.

(3) For accounts receivable arising from business of properties investment, the Group has applied the general approach in HKFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the expected credit losses on these items by using a provision matrix, grouped by past due status.

The estimated loss rates are estimated based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort. During the both years, no impairment allowance on accounts receivable are provided based on the provision matrix assessed individually as the amounts involved are immaterial.

(4) The credit risk on bank balances (including segregated and general accounts) are limited because the counterparties are with high credit ratings assigned by international credit rating agencies. Majority of bank balances are deposited in reputable large commercial banks with credit rating of Aa3 or above issued by Moody's.

Impairment assessment policies

The Group's policy requires the review of individual outstanding amounts at least monthly or more regularly depending on individual circumstances or market condition.

Upon adoption of HKFRS 9, the risk management department is responsible in developing and maintaining the processes for measuring ECL, the impairment requirements under HKFRS 9. The ECL are assessed by the Group on annual basis. The Group applies simplified approach to measure ECL on accounts receivable (except for margin clients); and general approach to measure ECL on accounts receivable for margin client and other financial assets accounted for at amortised cost. Under the simplified approach, the Group measures the loss allowance at an amount equal to lifetime ECL. Under the general approach, financial assets migrate through the following three stages based on the change in credit risk since initial recognition: Stage 1: 12-month ECL, Stage 2: Lifetime ECL – not credit-impaired and Stage 3: Lifetime ECL – credit-impaired.

Definition of Stage 1, Stage 2 and Stage 3 are as below:

- Stage 1: Exposures where there has not been a significant increase in credit risk since initial recognition and that are not credit-impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognised.
- Stage 2: Exposures where there has been a significant increase in credit risk since initial recognition but are not credit-impaired, a lifetime ECL (i.e. reflecting the remaining lifetime of the financial asset) is recognised.

於採納香港財務報告準則第9號後,風險管 理部門負責制定及維持根據香港財務報告 準則第9號項下之減值要求計量預期信貸虧 損之程序。本集團會每年對預期信貸虧損 作出評估。本集團採用簡化方法計量應收 賬款(保證金客戶除外)之預期信貸虧損; 及按攤銷成本列賬之其他金融資產。根據 化方法,本集團以等於全期預期信貸虧損 之金額計量虧損撥備。根據一般方法,金融 資產乃根據自初步確認以來信貸風險之變 動情況,通過以下三個階段進行轉撥:第1 階段:12個月預期信貸虧損;第2階段:全期 預期信貸虧損一未出現信貸減損;及第3階 段:全期預期信貸虧損一已出現信貸減值。

第1階段、第2階段及第3階段界定如下:

- 第1階段:就首次確認起信貸風險未大幅增加,且產生後未信貸減值之風險而言,確認與未來12個月內發生違約事件之概率相關之全期預期 信貸虧損部分。
- 第2階段:就首次確認起信貸風險已大幅增加,但未出現信貸減值之風險而言,確認全期預期信貸虧損(即反映金融資產之餘下期限)。

Credit risk and impairment assessment (Continued)

Impairment assessment policies (Continued)

Stage 3: Exposures are assessed as credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. For exposures that have become creditimpaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount.

For such financial assets classified as Stages 1 and 2, the management assesses loss allowances using the risk parameter modelling approach that incorporates key parameters, including PD, LGD and EAD. For credit-impaired financial assets classified as Stage 3, the management assesses the credit loss allowances by estimating the future cash flows expected to arise from the financial assets.

The measurement of ECL adopted by the management involves judgements, assumptions and estimations as follows:

- Determination of the criteria for significant increase in credit risk;
- Selection of the appropriate models and assumptions; or
- Establishment of relative probability weightings for forward-looking scenarios.

第3階段: 當發生一項或多項事件,對資產 之估計未來現金流量具有負面影 響時,則風險評估為已出現信貸 減值。就已出現信貸減值之風險 而言,透過對攤銷成本(扣除撥 備)(而非總賬面值)應用實際 利率而確認全期預期信貸虧損並 計算利息收入。

就分類為第1及第2階段之金融資產而言, 管理層使用風險參數建模方法評估虧損撥 備,該方法包含違約概率、違約損失率及違 約風險敞口等關鍵參數。就分類為第3階段 之已出現信貸減值之金融資產而言,管理層 通過估計預期從金融資產產生之未來現金 流量來評估信貸虧損準備。

管理層所採用之預期信貸虧損計量涉及如 下判斷、假設及估計:

- 釐定信貸風險大幅增加之準則;
- 選擇適當之模型及假設;或
- 設立前瞻性情景之相關加權數。

Measurement of ECL

The ECL are measured on either a 12-month or Lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired.

PD represents an estimate of the likelihood of default of a borrower on its financial obligation over a given horizon, i.e. over the next 12 months or over the remaining lifetime. For margin clients, the Group determines PD by the internal credit ratings. For other financial assets at amortised cost, the external credit ratings and related PD are taken into consideration.

LGD represents an estimate of the loss on default. For margin clients, LGD is determined based on factors including the realisation value of collateral and the estimated volatility. For other financial assets at amortised cost, LGD is determined based on assessed publicly available information from creditrating agencies.

EAD represents the amounts expected to be owed at the time of default over the next 12 months or over the remaining lifetime.

Assessment of significant increase in credit risk

When determining whether the risk of default has increased significantly since initial recognition, the Group considers both quantitative and qualitative information and analysis based on the Group's historical experience and credit risk assessment, including forward-looking information. Margin clients use the number of days past due and loan-to-collateral value ("LTV") to determine significant increase in credit risk. Other financial assets use number of days past due as determinant of credit risk. Credit risk is deemed to have increased significantly if the credit rating has significantly deteriorated at the reporting date relative to the credit rating at the date of initial recognition.

計量預期信貸虧損

視乎自首次確認起是否發生信貸風險大幅 增加或資產是否被視為信貸減值,預期信貸 虧損按12個月或全期基準計量。

違約概率指借款人於既定範圍內(即未來 12個月或餘下存續期內)在財務責任方面之 違約可能性之估計。就保證金客戶而言,本 集團按內部信貸評級確定違約概率。就按攤 銷成本計量之其他金融資產而言,則會考慮 外部信貸評級及相關違約概率。

違約損失率指對違約損失之估計。就保證金 客戶而言,違約損失率乃根據抵押品之變現 價值及估計波幅等因素釐定。就按攤銷成本 計量之其他金融資產而言,違約損失率乃根 據信貸評級機構所評估之公開可獲得資料 釐定。

違約風險敞口指預期於未來12個月或餘下 存續期內在違約時所欠付之金額。

對信貸風險大幅增加之評估

於釐定自初步確認以來違約風險是否大幅 增加時,本集團會根據其歷史經驗及信貸風 險評估(包括前瞻性資料)同時考慮定量及 定性資料及分析。保證金客戶使用逾期天數 及貸款與抵押品價值比率(「貸款與抵押品 價值比率」)來確定信貸風險之大幅增加。 其他金融資產使用逾期天數作為信貸風險 之決定因素。倘信貸評級於報告日期相對於 初步確認日期之信貸評級明顯惡化,則會視 為信貸風險大幅增加。

Forward looking information

The estimation of credit loss under all stages is taking into consideration of forward looking information. The Group identifies the key economic driver impacting credit risk and ECL to be the growth rate of domestic GDP. The Group applied the probability weighted scenarios for incorporating the forward looking information. The growth rate of domestic GDP has been used in determining the probability-weighting of each of the optimistic scenario, base case scenario and pessimistic scenario. These probability-weighted ECLs are determined by running each scenario through the relevant ECL model and multiplying it by the appropriate scenario weighting.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. Management monitors the utilisation of borrowings and ensures compliance with loan covenants.

The Group's liquidity position is monitored on a daily basis by management and is reviewed monthly by the Directors. The following table details the Group's remaining contractual maturity for its financial liabilities based on the agreed repayment terms. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

The following table details the Group's remaining contractual maturity for its financial liabilities as at 31 December 2019, the amount of HK\$665,766,000 (2018: HK\$859,553,000). The table has been drawn up to reflect the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. The interest payments are computed using contractual rates or, if variable, based on the prevailing interest rate at the end of each reporting period.

Fair values

Fair value of financial assets and financial liabilities that are not measured at fair value

The fair values of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis. The Directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their fair values.

Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.
