主席報告

Statement

I am pleased to present the annual results of DreamEast Group Limited (the "Company") and its subsidiaries (collectively the "Group") for the year ended 31 December 2019 (the "Year").

FINANCIAL RESULTS

During the Year, the Group recorded revenue of approximately HK\$120.0 million, representing a decrease of 24.9% from approximately HK\$159.8 million in 2018. The decrease in revenue mainly resulted from the decrease in rental income upon the completion of the disposal of a subsidiary in 2018. The Group recorded a net loss of HK\$201.2 million for the year ended 31 December 2019 as compared to a net profit of HK\$158.4 million for the year ended 31 December 2018. The loss was primarily attributable to a significant decrease in gain on fair value change of investment properties for the Group for the year ended 31 December 2019 as compared to the year ended 31 December 2018.

As at 31 December 2019, the Group recorded equity attributable to owners of the Company of approximately HK\$2,423.9 million, representing a decrease of approximately HK\$196.7 million as compared to HK\$2,620.6 million as at 31 December 2018.

Basic loss per share attributable to the owners of the Company for the Year amounted to HK\$0.6999 (2018: Basic earnings per share: HK\$0.6057).

In the course of business transformation and rapid development, the Company shall reserve sufficient capital for development of existing and new projects, hence the Board of the Company has resolved not to propose a final dividend for the Year (2018: Nil).

APPRECIATION

I would like to express my greatest appreciation to the entire staff of the Group for their hard work and efforts in the Year. I would also like to extend my gratitude to the investors, business partners, suppliers, local governments and shareholders of the Company for their support and confidence in the Group over the years, in particular their advice and help offered to the Company in the critical time of business transformation. I am highly confident that, with the existing strategic planning, the Group is well-positioned to overcome challenges and create value for customers, thereby generating significant shareholder value. I look forward to sharing with you our rapid developments in years to come.

Chairman

Hong Kong, 8 May 2020

本人欣然提呈夢東方集團有限公司(「本公司」)及其附屬公司(統稱「本集團」)截至2019年12月31日止年度(「本年度」)之業績。

財務業績

於本年度，本集團錄得收入約120.0百萬港元，較2018年約159.8百萬港元減少24.9%。該收入減少主要由於2018年完成出售一間附屬公司而產生的租金收入減少所致。截至2019年12月31日止之年度，本集團錄得虧損淨額201.2百萬港元，而截至2018年12月31日止之年度則錄得純利158.4百萬港元。該虧損主要歸因於本集團截至2019年12月31日止之年度的投資物業公允價值變動之收益較截至2018年12月31日止之年度大幅減少。

於2019年12月31日，本集團錄得本公司擁有人應佔權益約2,423.9百萬港元，較於2018年12月31日的2,620.6百萬港元減少約196.7百萬港元。

本年度本公司擁有人應佔每股基本虧損為0.6999港元(2018年：每股基本盈利：0.6057港元)。

由於本公司正處於業務轉型及快速發展期，應預留足夠資金用於發展現有及新項目，故本公司董事會已決定不派發本年度末期股息(2018年：無)。

鳴謝

本人謹此向本集團全體員工致謝，感激彼等於本年度的辛勤努力。本人亦向投資者、業務夥伴、供應商、各地方政府機構及本公司股東致謝，感激彼等多年來對本集團的支持和信任，尤其是在本公司業務轉型的關鍵時期給予的建議和幫助。本人十分有信心，在既定戰略規劃下，本集團已蓄勢待發，將砥礪前行，為客戶創造價值，從而締造巨大的股東價值。本人期望於未來數年與各位共同見證本集團的飛躍發展。

Management Discussion and Analysis

管理層討論及分析

BUSINESS REVIEW

In 2019, the global economic growth slowed down. In the face of the complex situation of rising risks and challenges at home and abroad, China's economy achieved generally stable growth while making further progress, and China's annual GDP exceeded RMB99 trillion, representing a year-on-year growth of 6.1%, which is in line with the projected target of 6% to 6.5%. According to the statistics from the Ministry of Culture and Tourism, in 2019, the tourism economy continued to maintain faster growth than GDP growth. The domestic tourism market and the outbound tourism market have grown steadily, and the inbound tourism market has a more stable foundation. During the year, the number of domestic tourists amounted to 6.006 billion, representing an increase of 8.4% from the same period last year; the total number of inbound and outbound tourists amounted to 300 million, representing a year-on-year growth of 3.1%; the total annual revenue from tourism amounted to RMB6.63 trillion, representing a year-on-year growth of 11%. The comprehensive contribution to GDP from the tourism industry was RMB10.94 trillion, representing 11.05% of the GDP. 28.25 million people are directly employed due to tourism and 79.87 million people are indirectly employed due to tourism, representing 10.31% of the total employed population in China.

業務回顧

2019年全球經濟增長放緩，面對國內外風險挑戰明顯上升的複雜局面，中國經濟總體平穩，穩中有進，中國全年國內生產總值超過99萬億元，同比增長6.1%，符合6%-6.5%的預期目標。根據文化和旅游部統計數據顯示，2019年，旅遊經濟繼續保持高於GDP增速的較快增長。國內旅遊市場和出境旅遊市場穩步增長，入境旅遊市場基礎更加穩固。全年，國內旅遊人數60.06億人次，比上年同期增長8.4%；入出境旅遊總人數3億人次，同比增長3.1%；全年實現旅遊總收入6.63萬億元，同比增長11%。旅遊業對GDP的綜合貢獻為10.94萬億元，佔GDP總量的11.05%。旅遊直接就業2,825萬人，旅遊直接和間接就業7,987萬人，佔全國就業總人口的10.31%。

NEW TYPES OF BUSINESS AND NEW OPPORTUNITIES

The integration of culture and tourism is undoubtedly an important issue in the development of tourism in recent years. In particular, the official establishment of the Ministry of Culture and Tourism marked the beginning of a new era of culture and tourism in China, and the cultural tourism industry is also recognized as a new blue ocean for the development of the tourism industry. The establishment of the Ministry of Culture and Tourism is a reflection of the government's emphasis on the culture and tourism market in recent years, indicating that "Culture + Tourism" will become an important driving force for domestic economic development, and will promote cultural tourism enterprises to increase the intensity of excavation in the cultural industry, inject more cultural connotation while creating tourism hardware projects, and create super tourism IPs to reconstruct the entire tourism industry system, so as to boost the overall upgrade of the cultural tourism industry and lead the development of the tourism economy into a virtuous circle. At the same time, the "Cultural Tourism +", a new type of business, also brings greater opportunities to the regional tourism industry.

According to the results of sample surveys on domestic tourism, in 2017, the number of domestic tourists in China exceeded 5 billion and reached 5.001 billion, representing a year-on-year growth of 12.8%. As of 2018, the number of domestic tourists in China reached 5.539 billion, representing a year-on-year growth of 10.8%. In 2019, the number of domestic tourists in China exceeded 6 billion. It is predicted that the number of domestic tourists in China will exceed 7 billion in 2021, and increase to approximately 8.547 billion in 2023, representing a CAGR of approximately 8.82% from 2019 to 2023.

新業態，新機遇

文旅融合無疑是近年來旅遊業發展中的重要議題，尤其是隨著文化和旅遊部正式掛牌，標誌著中國開啟文化和旅遊新時代，文旅產業也被公認為旅遊產業發展的新藍海。文化與旅遊部的組建，是政府對近年文化和旅遊市場重視的體現，預示著「文化+旅遊」將成為國內經濟發展的重要推動力量，並將推動文旅企業加大文化產業挖掘力度、在打造旅遊硬體項目的同時注入更多文化內涵、打造超級旅遊IP以重構旅遊全產業體系，從而助力文化旅游產業整體升級，引領旅遊經濟發展進入良性循環，同時「文化旅游+」的新業態也給地區旅遊業帶來更大的機遇。

根據國內旅遊抽樣調查結果，2017年我國國內旅遊人數增長至突破50億人次，達到50.01億人次，同比增長12.8%，截至2018年我國國內旅遊人數達到了55.39億人次，同比增長10.8%。2019年我國國內旅遊人數突破60億人次，預測2021年我國國內旅遊人數將突破70億人次，並預測在2023年我國國內旅遊人數將增長至85.47億人次左右，2019-2023年均複合增長率約為8.82%。

Due to nationals' strong demand for tourism, the cultural tourism industry has become one of the industries most worth investing. In the past three years, cultural tourism projects have been implemented frequently, and the enthusiasm of tourism enterprises for developing cultural tourism products have run high. A number of tourist towns, tourism properties and theme parks were built and have also attracted a lot of capital to rush in. For example, with the development of the "Parent-Child Economy", a number of parent-child parks have emerged in various places. In addition, many scenic spots also include parent-child parks as a necessary project for upgrading.

The Group adhered to the cultural entertainment industry as the core, closely followed social opportunities, and continued to promote the implementation of its strategy, focusing on project development in the three major metropolitan areas, including Greater Beijing, Greater Shanghai and Greater Shenzhen. During the period under review, the principal activities of the Group included the development and operation of cultural tourist resorts and theme parks under the brand of "DreamEast", property development and leasing businesses.

During the period under review, the DreamEast Shooting (Clay) Centre with a site area of approximately 103 mu in the Hengyang DreamEast Resort was completed, and held the clay shooting match of the thirteenth sports game of Hunan province and the Hunan "DreamEast Cup" Youth Shooting Championship (Clay Project) successfully. The DreamEast Jiashan won the title of "Most Popular Chinese Paradise for Tourists" under "2019 Asia Attractions • Golden Crown Award", and was included in major development plans such as "Zhejiang Province's '4 + 1' Major Project Construction Plan" and "Zhejiang Province's 'Five 100 Billion' Investment Project". DreamEast Future World and the China Association of Science and Technology launched the "China Mobile Science and Technology Museum" public welfare project, which attracted nearly 100,000 primary and middle school students and members of summer camp research and study groups to visit and experience, and received extremely considerable social and economic benefits.

國民旅遊消費需求旺盛，文旅產業成為最值得投資的產業之一。近三年，文旅項目頻頻落地，旅遊企業開發文旅產品熱情高漲。一批旅遊小鎮、旅遊地產、主題樂園等落地，也吸引了諸多資本爭相進駐。例如，伴隨著「親子經濟」的發展，各地湧現出一批親子樂園，此外，許多景區也將親子樂園作為升級改造的必備項目。

本集團堅持以文化娛樂產業為核心，緊隨社會機遇，繼續推進戰略落地，圍繞大北京、大上海、大深圳三大核心區域開展項目開發工作。回顧期內，本集團之主要業務包括開發與運營「夢東方」品牌之文化旅遊度假區及主題樂園、地產開發及租賃業務。

回顧期內，衡陽夢東方旅遊度假區內佔地面積約103畝的夢東方射擊（飛碟）中心已建設完成，並成功舉辦湖南省第十三屆運動會飛碟射擊比賽，以及湖南省「夢東方杯」青少年射擊錦標賽（飛碟項目）。夢東方夢幻嘉善榮獲「2019遊樂界•金冠獎」之「最受遊客喜愛中國樂園」，並被列入「浙江省「4+1」重大項目建設計劃」、「浙江省「五個千億」投資工程」等重大發展規劃中。夢東方未來世界聯合中國科學技術協會，推出「中國流動科技館」公益項目，吸引了全國近10萬中小學生及夏令營研學團前來參觀體驗，收到了極其可觀的社會效益和經濟效益。

The project is conveniently located and approximately 20 minutes’ drive from the downtown area. By taking High-Speed Rail, it takes around 40 minutes to Changsha, the capital city of Hunan Province, and nearly 2.5 hours to Shenzhen. Hunan was named by the most prestigious personal travel guide Lonely Planet as the Top 10 best value places in 2018, and was the only Asia tourist destination on the list.

衡陽夢東方旅遊度假區

衡陽夢東方旅遊度假區位於中國湖南省衡陽市，地處南嶽衡山之南，歷史悠久的人文景觀和美麗的自然景觀遍佈，是湖湘文化的重要發源地。項目交通便捷，距離市中心約20分鐘車程；高鐵前往湖南省省會長沙市約40分鐘，前往深圳約2.5小時。湖南被全球最權威的私人旅遊指南Lonely Planet（孤獨星球）評為2018十大最物有所值目的地，是亞洲唯一上榜的旅遊地。

The development of the Hengyang DreamEast Resort comprised of “Four Towns and Five Parks”, including the cultural town, the science and technology town, the forest town and the agricultural town as the Four Towns, and the DreamEast Adventure Park, the Fantasy Waterpark, the Pets Kingdom, the Agricultural Cultural Park and the International Sports Park as the Five Theme Parks. The project would facilitate the development of a new tourism landscape featuring “Mount Heng in the North and DreamEast in the South”. It has become a model of coordinated development across the primary, secondary and tertiary industry sectors and a benchmark of development characterized by industry and city integration, thereby presenting the world a city of Huxiang Culture.

衡陽夢東方旅遊度假區整體規劃為「四鎮五園」。其中，「四鎮」包括文化小鎮、科技小鎮、森林小鎮和農耕小鎮，同時在四個主題小鎮中，重點打造五大主題公園，包括夢東方探險樂園、奇幻水世界、寵物王國、農耕文化公園、國際體育公園。項目將形成「北有衡山、南有夢東方」的旅遊新格局，成為中國一二三產聯動、產城融合發展的國家樣板，獻給世界一座湖湘文化之城。

Management Discussion and Analysis

管理層討論及分析

In July 2017, the Group succeeded in the bid of a land parcel with a site area of approximately 330,000 square metres at a consideration of RMB131 million for the development of Phase 1 of the Hengyang DreamEast Resort. The Hengyang DreamEast Resort will be developed in phases. The Fantastic Hunan Town (夢裏故湘古鎮) in Phase 1 embraces Hunan's core academic culture, water transport culture and religious culture in the construction of an international cultural tourism town originated from Hunan culture boasting natural landscape, marvellous architecture and business prosperity. At present, the experience centre of the Hengyang DreamEast Resort is opened to the public. The design integrates Hunan-style elements, such as the horse-head wall, and brings out the project's essence to visitors by highlighting the atmosphere of Huxiang Culture. The DreamEast Shooting (Clay) Centre with a site area of approximately 103 mu in the Hengyang DreamEast Resort was completed, and held the clay shooting match of the thirteenth sports game of Hunan province and the Hunan "DreamEast Cup" Youth Shooting Championship (Clay Project) successfully. The shooting centre will be opened to tourists for shooting experience in the future as one of the entertainment activities.

於2017年7月，本集團以人民幣131百萬元成功競得面積約33萬平方米之土地，用於開發衡陽夢東方旅遊度假區項目一期。衡陽夢東方旅遊度假區將分多期建設，其中項目一期的夢裏故湘古鎮選取湖湘書院文化、水運文化、宗教文化三大核心文化，打造集自然景觀、人文建築、繁華商業於一體的源自湖湘文化的國際人文旅遊小鎮。目前，衡陽夢東方旅遊度假區體驗中心已對外開放，其設計融入馬頭牆等湖南當地特色元素，讓遊客置身湖湘文化中縱覽整個項目之精髓。衡陽夢東方旅遊度假區內佔地面積約103畝的夢東方射擊（飛碟）中心已建成完成，並成功舉辦湖南省第十三屆運動會飛碟射擊比賽，以及湖南省「夢東方杯」青少年射擊錦標賽（飛碟項目），未來亦將成為遊樂項目之一，開放予遊客進行射擊體驗。

The Hengyang DreamEast Resort has been included in the “Key Construction Projects in Hunan Province (湖南省重點建設項目)” as an “all-for-one tourism” project. It was highly recognized in the practice of differentiated regional tourism reform in Hengnan County, and was named “Hengyang Reform and Innovation Quality Project 2018 (2018年衡陽市改革創新優質項目)”. By virtue of the successful hosting of the clay shooting match of the thirteenth sports game of Hunan province, Hengyang DreamEast Resort won two awards, namely “Outstanding Contributor” and “Special Contributor”. The characteristic Huxiang-style buildings, and the vast and magnificent national AAA scenic spot Yumu Mountain reflect the epitome of Huxiang Culture in every detail, and have gradually become one of Internet celebrities’ favourite scenic spots in Hengyang due to their impressive style of Instagram.

In addition, the DreamEast Group ploughed deep in the cultural industry, marched towards the south of Hengyang, and created the Hengyang DreamEast Resort. It has not only presented the world a city of Huxiang Culture, but also never forgotten to practice social responsibility. In 2019, Hengyang DreamEast assisted retired soldiers and their families in employment, and was honoured as “Innovation Demonstration Base for the Employment and Entrepreneurship of Retired Soldiers in Hengyang”.

衡陽夢東方旅遊度假區作為「全域旅遊」項目，已被列為「湖南省重點建設項目」，在衡南縣差異化區域旅遊改革實踐中獲得高度認可，被評為「2018年衡陽市改革創新優質項目」。由於成功承辦了湖南省第十三屆運動會飛碟射擊比賽，衡陽夢東方旅遊度假區榮獲「突出貢獻單位」、「特別奉獻單位」兩大獎項。特色的湖湘風情建築、廣闊無垠的國家AAA級風景區雨母山等等處處都能看到湖湘人文的縮影，自帶ins風，已逐漸成為衡陽的網紅打卡勝地。

此外，深耕文化產業的夢東方集團，佈局衡陽之南，打造了衡陽夢東方旅遊度假區，不僅獻給世界一座湖湘文化之城，更是時刻不忘踐行社會責任。2019年衡陽夢東方助力退役軍人及家屬就業，榮獲「衡陽市退役軍人就業創業創新示範基地」。

The Beijing Fangshan “COMB+” Project is located between the Southwest 5th and 6th Ring Roads in Beijing, China and only 2 minutes’ walk from Suzhuang Station on Fangshan Line of the Beijing Subway. As of the end of 2019, the North and Central Zones of the project were completed and were sold and rented out. 北京房山超級蜂巢項目（「房山項目」）

北京房山超級蜂巢項目位於中國北京市西南五環、六環之間，由北京地鐵房山線蘇莊站步行2分鐘可達。項目之北區、中區、南區三塊土地為本集團於2014年7月以總代價約33億港元投得。項目總土地面積約14.7萬平方米，總建築面積約43.4萬平方米，規劃總樓面面積約32.2萬平方米。該項目是區域內首個大型綜合社區。

2017年下半年，北京市政府推出多項調控政策，使得當地之房地產市場熱度有所降溫，因此本集團做出相應調整。截止2019年底，項目北區、中區已竣工並出售及出租，出售面積約5.99萬平方米，出租面積約4.92萬平方米，入駐企業有中國平安、太平洋保險、海創人才（北京）國際創新中心等國際國內知名企業。目前南區持續建設中，2019年已有約176萬平方米達到結構封頂，南區剩餘6.8萬平方米將加快建設推進。未來管理層將緊貼市場走勢，適時調整銷售策略，期望以增加獲利空間，為股東帶來最大回報。

PROSPECTS

At the beginning of 2020, the global economy was hit hard by the new coronavirus pneumonia epidemic, and the global tourism industry also raised alarms. Preliminary estimates from the World Travel & Tourism Council indicate that the new coronavirus pneumonia epidemic will cause losses of at least US\$22 billion to the global tourism industry. China's tourism industry has also suffered heavy losses. According to the data from the National Bureau of Statistics, affected by SARS, China's total revenue from tourism in 2003 was RMB344.227 billion, representing a year-on-year decrease of 11.24%. Taking into account the year-on-year growth of 10% in 2002, SARS affected approximately 20% of revenue from tourism. With reference to the total scale of China's tourism industry in 2019, which is RMB6.63 trillion, the impact of the epidemic on the tourism industry may exceed RMB1 trillion.

The COVID-19 outbreak has brought about additional uncertainties in the Group's operating environment in China. As far as the Group's businesses are concerned, the outbreak has so far caused operational delays. The Group has put in place contingency measures to lower the impact from this outbreak. However, the situation remains fluid at this stage.

Against this background, many places in China have successively introduced policies to support and revitalize the development of the tourism industry. The policies supporting the development of the tourism industry have been simultaneously issued in many places across China to solve the widespread survival problems of enterprises and promote the rapid recovery of the tourism industry. Various places have continuously issued a series of related policies to support the stable operation of enterprises, strengthen financial support, reduce enterprises' operating costs, reduce, exempt and delay tax payments, and explore innovative technologies to support the tourism industry through difficult times.

展望

2020年伊始，全球經濟遭受新冠肺炎疫情的巨大衝擊，全球旅遊業亦拉響警報，來自世界旅遊及旅行理事會初步預估顯示，新冠肺炎疫情將導致全球旅遊業損失至少220億美元。中國旅遊業亦損失慘重。據國家統計局數據，2003年受非典影響，我國旅遊業總收入為3,442.27億元，同比下滑11.24%，若疊加2002年10%的同比增速，則非典影響旅遊業20%左右的營收。若以2019年全國旅遊業6.63萬億元的總規模為參考，此次疫情對旅遊業的影響或超萬億元。

新型冠狀病毒(COVID-19)爆發為本集團在中國的運營帶來了更多不確定因素。就本集團的業務而言，疫情至今已導致營運滯後。本集團已制定應變措施，以減輕疫情帶來的影響。然而，在此階段情況仍然充滿不確定性。

在此背景下，國內多地陸續吹響扶持、振興旅遊業發展政策暖風。全國範圍內多地同步出台支持旅遊業的發展政策，以解決企業普遍存在的生存問題，促進旅遊業儘快復蘇。各地持續出台支持企業穩定經營、強化財政金融扶持、降低企業運營成本、減免緩繳稅費、探索創新技術等一系列相關政策，支持旅遊業渡過難關。

The Group has resumed work gradually on the premise of ensuring the safety of employees and fulfilling social responsibilities and will adhere to the existing strategy, “all-IPs” concept and “new entertainment” principle. With the vision of “Share the Beauty of China with the World” and the mission of “Fill the World with Joy”, the Group will concentrate on tourist resorts, films and animations businesses in the three core areas, including Greater Beijing, Greater Shanghai and Greater Shenzhen. Also, with the progress and successive openings of the Hengyang DreamEast Resort, the DreamEast Jiashan and the DreamEast Xiake Island Ecological City, the Group will also focus on the operation, the cooperation and the creation and introduction of IPs to create classic projects and operating cases. This will make the Group stand out from the cultural entertainment tourism industry with promising potential, and become a first class offline entertainment platform in China.

The integration of culture and tourism brings a new content revolution. Due to the involvement of culture, the production, distribution, and consumption of the content of tourism will be subverted, and the content of culture can also create unique scene value and flow economy due to the integration of tourism. In addition, as the tide of technology continues to move forward, the related industries will change quietly and the tourism industry is no exception. Innovation will become an important force to promote the development of the industry. The Group will continue to explore and integrate technology into the development of the industry.

In the long run, DreamEast will develop into a cultural and entertainment conglomerate, so as to create stable and sustainable returns for shareholders. With the progress of project development, the Group’s cultural entertainment business will enter a positive development stage consisting of leasing, operation, ticket income and self-developed IPs, and will establish an ecosystem that centres on the cultural entertainment industry. In the future, DreamEast will inherit and innovate Chinese culture with its masterpieces, boost the profile of Chinese culture and connect the world with the culture.

2020 is the final year of the 13th Five-Year Plan. According to the “13th Five-Year Plan for the Development of the Tourism Industry (《「十三五」旅遊業發展規劃》)”, by 2020, the total scale of China’s tourism market will reach 6.7 billion person-times, total investment in tourism will reach RMB2 trillion, and total revenue from tourism will reach RMB7 trillion. In the year when the blueprint is turned into reality, China’s tourism will surely be shown to the world with a better development outlook.

本集團在保證員工安全、履行社會責任的大前提下逐步實現復工，將堅持既定戰略，堅持「全IP」理念和「新娛樂」概念，以「全球共享東方之美」為願景，以「讓世界充滿歡樂」為使命，聚焦旅遊度假區、影視動畫等領域，佈局大北京、大上海、大深圳三大核心區域。同時，隨著衡陽夢東方旅遊度假區、夢東方夢幻嘉善、夢東方霞客島生態城等項目的建設與陸續開放，本集團亦將在營運、合作、IP創作與引進等多方面著力，打造經典項目及營運案例，令本集團於潛力龐大的文化娛樂旅遊行業中脫穎而出，成為國內一流的線下娛樂平台。

文旅融合帶來的是一場新內容革命。旅遊的內容因文化的介入，其生產、分發、消費都將被顛覆，而文化的內容因旅遊的融入也可以創造獨特的場景價值和流量經濟。此外，隨著科技浪潮不斷向前發展，與其相關的各個行業必將隨之悄然發生改變，旅遊業也不例外，創新將成為推動行業發展的重要力量。本集團將繼續探索，將科技融入產業發展中。

長期而言，夢東方將建立一個龐大的文化娛樂綜合產業，為股東帶來穩定及持續的回報。隨著項目開發推進，本集團之文化娛樂業務將進入租賃、運營及門票收入以至發展自有IP等良性發展階段，構建以文化娛樂產業為核心的生態體系。未來，夢東方將通過優秀的作品傳承和創新中國文化，增強中國文化自信，並用文化連通世界。

2020年是「十三五」規劃的收官之年，根據《「十三五」旅遊業發展規劃》，2020年，我國旅遊市場總規模達到67億人次，旅遊投資總額2萬億元，旅遊業總收入達到7萬億元。在這將藍圖變為現實的一年，中國旅遊必定會以更好的發展面貌展現在世人眼前。

- 為車輛採購正規汽油，並每年進行檢驗，確保車輛達到相關排放標準；及
- 積極採取減少廢氣排放措施，相關措施將在本層面的「溫室氣體排放」一節中說明。

本公司致力於切合實際之範圍內維持高水平之企業管治，以強調高透明度、問責性及獨立性為原則。本公司董事會（「董事會」）相信優良之企業管治對本公司之成功及提升股東價值至為重要。

企業管治守則及企業管治報告

根據香港聯合交易所有限公司證券上市規則（「上市規則」）附錄十四所載之《企業管治守則》及《企業管治報告》（「企業管治守則」），董事會已審閱本公司之企業管治常規，並已採納多項經改進之程序，詳情載於本報告內。除下文解釋之若干已闡明原因之偏離行為外，於截至2019年12月31日止年度，本公司已應用企業管治守則之原則及一直遵守適用之守則條文。董事會將至少每年檢討現行之常規一次，並在其認為需要時作出適當更改。

於年內，獨立非執行董事為本公司及其附屬公司（統稱「本集團」）提供廣泛之專業知識及經驗。彼等積極參與董事會及委員會會議，對本集團之策略、表現及管理程序之事宜提供獨立判斷，並顧及本公司全體股東（「股東」）之利益。

Throughout the year and up to the date of this report, the Company has had 4 INEDs representing not less than one-third of the Board. At least one of the INEDs have the appropriate professional qualifications or accounting or related financial management expertise under Rule 3.10 of the Listing Rules. The Board has reserved for its decision or consideration matters covering mainly the Group's overall strategy, annual operating budget, annual and interim results, approval of Directors' appointment or re-appointment (based on the recommendations made by the Nomination Committee), material contracts and transactions, corporate governance as well as other significant policy and financial matters. The Board has delegated the day-to-day responsibility to the executive management. The respective functions of the Board and management of the Company have been formalised and set out in writing and will be reviewed by the Board from time to time to ensure that they are consistent with the existing rules and regulations.

Regular Board meetings each year are scheduled in advance to facilitate maximum attendance of Directors. At least 14 days' notice of a Board meeting is normally given to all Directors who are given an opportunity to include matters for discussion in the agenda. The company secretary of the Company ("Company Secretary") assists the Chairman in preparing the agenda for meetings and ensures that all applicable rules and regulations are complied with. The agenda and the accompanying Board papers are normally sent to all Directors at least 3 days before the intended date of a regular Board meeting (and so far as practicable for such other Board or Board committee meeting). Draft minutes of each Board meeting are circulated to all Directors for their comment before being tabled at the following Board meeting for approval. All minutes are kept by the Company Secretary and are open for inspection at any reasonable time on reasonable notice by any Director.

According to current Board practice, if a substantial Shareholder or a Director has a conflict of interest in a matter to be considered by the Board which the Board has determined to be material, the matter will be dealt with by the Board at a duly convened Board meeting. The Bye-laws of the Company ("Bye-Laws") also stipulate that save for the exceptions as provided therein, a Director shall abstain from voting on any board resolution and not be counted in the quorum at meetings for approving any contract or arrangement in which such Director or any of his associates has a material interest.

經董事會決定或考慮之事宜包括本集團整體策略、全年營運預算、全年及中期業績、董事委任或重新委任之批准(按提名委員會之建議)、重大合約及交易、企業管治,以及其他重大政策及財務等事宜。董事會已將日常職責委派予行政管理人員。董事會及本公司管理層之職能已分別確立並以書面列載,並不時由董事會作出檢討,以確保其職能與現行規則及規例一致。

董事會定期會議的舉行日期於每年預先編定,以便更多董事出席會議。舉行董事會會議一般會給予全體董事至少十四天之通知,以便彼等皆有機會提出商討事項並列入會議議程內。本公司的公司秘書(「公司秘書」)協助主席編製會議議程,以及確保已遵守所有適用規則及規例。議程及隨附之董事會會議文件一般在舉行董事會定期會議(及就可行情況下,亦適用於其他董事會或其轄下委員會會議)前至少三天呈送予全體董事。每份董事會會議記錄之初稿於提交下一次董事會會議審批前,先供全體董事傳閱並提出意見。所有會議記錄均由公司秘書保存,並供任何董事於發出合理通知時,於任何合理時間內查閱。

根據董事會現行慣例,倘主要股東或董事在董事會將予考慮之事項中存有董事會認為屬重大之利益衝突,則有關事項會於正式召開之董事會會議上處理。本公司的公司細則(「公司細則」)亦規定,除當中所述之例外情況外,董事須就批准該名董事或其任何聯繫人士擁有重大利益之任何合約或安排之會議上之任何董事會決議案放棄投票,彼亦不會被計算於該等會議之法定人數內。

Every Director is entitled to have access to Board papers and related materials and has access to the advice and services of the Company Secretary. The Board and each Director also have separate and independent access to the Company's senior management. Directors will be continuously updated on the major development of the Listing Rules and other applicable regulatory requirements to ensure compliance and upkeep of good corporate governance practices. In addition, a written procedure was established in June 2005 to enable the Directors, in discharge of their duties, to seek independent professional advice in appropriate circumstances at a reasonable cost to be borne by the Company.

DIRECTORS' LIABILITY INSURANCE AND INDEMNITY

The Company has purchased appropriate and sufficient liability insurance to indemnify its Directors and senior officers in respect of legal actions against the Directors and senior officers.

DIRECTORS' INDUCTION AND CONTINUOUS PROFESSIONAL DEVELOPMENT

Each newly appointed Director is provided with necessary induction and information to ensure that he/she has a proper understanding of the Company's operations and businesses as well as his/her responsibilities under statute and common law, the Listing Rules, legal and other regulatory requirements and the Company's business and governance policies. The Company also provides Directors with updates on latest development and changes in the statute and common law, the Listing Rules, legal and other regulatory requirements and the Company's business and governance policies from time to time. The Directors are also provided with regular updates on the Company's performance, position and prospects to enable the Board as a whole and each Director to discharge their duties.

每位董事均有權查閱董事會會議文件及相關資料，及可向公司秘書尋求意見及服務。董事會及各董事亦可個別及獨立地接觸本公司之高級行政人員。董事將獲持續提供上市規則及其他適用監管規定之最新重大發展之資料，以確保彼等遵守及秉持優秀企業管治常規。此外，書面程序已於2005年6月制定，讓各董事在履行職務時，可在適當之情況下尋求獨立專業意見，有關合理費用由本公司承擔。

董事的責任保險及彌償保證

公司已購買適當及充足的責任保險以就針對董事及高級人員的法律訴訟向董事及高級人員作出彌償保證。

董事入職及持續專業發展

所有新委任的董事均獲提供必要的入職培訓及資料，確保其對本公司的營運及業務以及其於法規及普通法、上市規則、法律及其他監管規定以及本公司的業務及管治政策下對彼等的責任有適當程度的了解。本公司亦不時為董事提供法規及普通法、上市規則、法律及其他監管規定以及本公司的業務及管治政策的最新發展及變動的更新資料。董事亦定期獲提供有關本公司表現、狀況及前景的最新資料，使董事會全體及各董事得以履行彼等的職責。

ROLES OF CHAIRMAN AND CHIEF EXECUTIVE

Code provision A.2.1 of CG Code stipulates that the roles of chairman and chief executive should be separate and should not be performed by the same individual. There has been a deviation from this code provision since the appointment of Mr. Zhou Zheng as the Chairman of the Board and the Chief Executive Officer of the Company with effect from 27 January 2014. The Board considers this arrangement to be appropriate for the Company in view of Mr. Zhou Zheng's extensive experience in the property development industry in the PRC and his in-depth knowledge of the Group's tourist resorts and property development operation and business. The Board believes that a balance of power and authority is adequately ensured by the operation of the Board which comprises experienced and high caliber individuals including 4 INEDs. Nevertheless, the Board will identify an appropriate person to take up the role of chief executive when necessary.

Mr. Zhou Zheng resigned as Chief Executive Officer on 2 January 2020, and remained as the company's executive director, chairman and authorized representative. Ms. Zhou Jin has been appointed as an executive director and chief executive officer of the Company on the same day.

主席與行政總裁之角色

企業管治守則之守則條文A.2.1訂明，主席與行政總裁的角色應有區分，並不應由一人同時兼任。自周政先生於2014年1月27日獲委任為本公司董事會主席及行政總裁以來，出現偏離該守則條文之情況。鑑於周政先生於中國物業發展行內經驗豐富，加上彼熟知本集團的旅遊度假區及物業發展運營及業務，董事會認為該安排對本公司而言屬合適。董事會相信，董事會由經驗豐富及高資歷人士（包括4名獨立非執行董事）組成，足以確保董事會運作之權力及權責平衡。

周政先生於2020年1月2日辭任行政總裁一職，留任本公司執行董事、主席及授權代表。周金女士已於同日獲委任為本公司執行董事兼行政總裁。

APPOINTMENT AND RE-ELECTION OF DIRECTORS

In June 2005, the Board established and adopted a written nomination procedure (“Nomination Procedure”) specifying the process and criteria for the selection and recommendation of candidates for directorship of the Company. The Chairman of the Board shall, based on those criteria as set out in the Nomination Procedure (such as appropriate experience, personal skills and time commitment, etc.), identify and recommend the proposed candidate to the Board for approval of an appointment. The existing Nomination Procedure has been included in the terms of reference of the Nomination Committee with effect from the establishment of the Nomination Committee on 20 March 2012.

All INEDs of the Company were appointed for a specific term of three years, but subject to the relevant provisions of the Bye-Laws or any other applicable laws whereby the Directors shall vacate or retire from their office but shall be eligible for re-election.

According to the Bye-Laws, at each annual general meeting of the Company (“AGM”), one-third of the Directors for the time being (or, if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office by rotation. Further, any Director appointed by the Board to fill a casual vacancy shall hold office only until the next following general meeting of the Company whilst for those appointed as an addition to the Board shall hold office until the next following AGM and in both cases, those Directors shall then be eligible for re-election at the relevant meeting. Every Director shall be subject to retirement by rotation at least once every three years.

董事的委任及重選

於2005年6月，董事會設立並採納一套以書面列載之提名程序（「提名程序」），具體列明本公司董事候選人之挑選及推薦的程序及準則。董事會主席應以提名程序所載之該等準則（如合適資歷、個人專長及投放時間等）作為基礎以物色及向董事會推薦建議人選以予批准委任。現行之提名程序自2012年3月20日成立提名委員會起已納入提名委員會之職權範圍內。

本公司所有獨立非執行董事均按特定任期三年獲委任，惟須根據公司細則之有關條文或任何其他適用法例之規定離任或退任，但可膺選連任。

根據公司細則，於本公司每屆股東週年大會（「股東週年大會」）上，三分之一當時在任之董事（或倘人數並非三之倍數，則最接近但不少於三分之一之數目）須輪值退任。此外，任何填補臨時空缺而獲董事會委任之董事僅可任職至本公司下屆股東大會為止，而獲委任為董事會新增之成員可任職至下屆股東週年大會為止，在該兩種情況下，該等董事應可於相關會議上膺選連任。每名董事須至少每三年輪值退任一次。

The procedures and arrangements for a Board meeting, as mentioned in the section headed “The Board” of this report, have been adopted for committee meetings so far as practicable.

NOMINATION COMMITTEE

The Nomination Committee was established on 20 March 2012 and is chaired by the Chairman of the Board and comprises a majority of INEDs. During the year and as at the date of publication of this report, the Nomination Committee was made up of 5 members, namely:

(Chairman of the Nomination Committee)

BOARD DIVERSITY POLICY

The Board has adopted a "Board Diversity Policy" in relation to the nomination and appointment of new Directors, which provides that the selection of Board candidates shall be based on a range of diversity perspectives with reference to the Company's business model and specific needs, including but not limited to gender, age, race, language, cultural background, educational background, industry experience and professional experience.

董事會成員多元化政策

董事會已就新任董事之提名及委任採納「董事會成員多元化政策」。當中載明，甄選董事會成員候選人將以一系列多元化範疇為基準，並參考本公司的業務模式和特定需求，包括但不限於性別、年齡、種族、語言、文化背景、教育背景、行業經驗和專業經驗。

上述衡量標準亦於提名委員會檢討董事會組成過程中予以考慮及採納。在就各董事的技能和經驗對本公司業務的適合性作出評估後，提名委員會確認，現有董事會架構合理，毋須作出調整。

REMUNERATION COMMITTEE

The Remuneration Committee has been established since September 1997.

During the year and as at the date of publication of this report, the Remuneration Committee comprised of:

Mr. Chen Guanglei
*(Chairman of the Remuneration Committee,
appointed on 20 December 2019)*

Mr. Li Chak Hung
*(Chairman of Remuneration Committee,
resigned on 20 December 2019)*

Dr. Meng Xiaosu
Mr. Yang Buting
Mr. Zhao Daxin

The Remuneration Committee is provided with sufficient resources to discharge its duties and has access to independent professional advice according to the Company's policy if considered necessary.

The major roles and functions of the Remuneration Committee are:

- (i) to make recommendation to the Board on the remuneration policy and packages of the Directors and, where appropriate, to consult the Chairman of the Board and/or the Chief Executive Officer about the Remuneration Committee's proposals relating to the remuneration of other EDs;
- (ii) to review and recommend EDs' remuneration proposals with reference to the Board's corporate goals and objectives;
- (iii) to review and recommend the compensation payable to EDs relating to any loss or termination of their office or appointment;
- (iv) to review and recommend compensation arrangements relating to dismissal or removal of Directors for misconduct; and
- (v) to ensure that no Director is involved in deciding his own remuneration.

薪酬委員會

薪酬委員會自1997年9月起成立。

年內及於本報告刊發日期，薪酬委員會包括：

陳廣壘先生
(薪酬委員會主席，於2019年12月20日委任)

李澤雄先生
(薪酬委員會主席，於2019年12月20日辭任)

孟曉蘇博士
楊步亭先生
趙大新先生

薪酬委員會獲提供充裕資源以履行其職務，並可按本公司之政策在有需要時尋求獨立專業意見。

薪酬委員會之主要角色及職能為：

- (i) 就董事之薪酬政策及待遇向董事會提出建議，及（倘適合）就有關其他執行董事薪酬之薪酬委員會提案諮詢董事會主席及／或行政總裁；
- (ii) 透過參照董事會的企業方針及目標，檢討並建議執行董事之薪酬方案；
- (iii) 檢討並建議向執行董事支付與任何喪失或終止其職務或委任有關之賠償；
- (iv) 檢討並建議因董事行為失當而解僱或罷免有關董事所涉及之賠償安排；及
- (v) 確保概無董事參與釐定其本身之薪酬。

The terms of reference of the Remuneration Committee of the Company are in compliance with the code provision B.1.2 of the CG Code, but with a deviation from the code provision that the Remuneration Committee shall make recommendations to the Board on the remuneration packages of the EDs only and not senior management (as opposed to EDs and senior management under the code provision). The reason for the above deviations are summarised as below:

- (i) the Board believes that the Remuneration Committee is not properly in a position to evaluate the performance of senior management and that this evaluation process is more effectively carried out by the EDs;
- (ii) a majority of Remuneration Committee members are INEDs who may not be industry skilled and come from differing professions and backgrounds and they are not involved in the daily operation of the Company. They may have little direct knowledge of industry practice and standard compensation packages. The Remuneration Committee is thus not in a position to properly determine the remuneration of the EDs;
- (iii) the EDs must be in a position to supervise and control senior management and thus must be able to control their compensation; and
- (iv) there is no reason for EDs to pay senior management more than industry standards and thus Shareholders will benefit by reducing costs in the fixing of such compensation packages.

The terms of reference of the Remuneration Committee are available on the websites of the Stock Exchange and the Company.

The Remuneration Committee shall meet at least once a year in accordance with its terms of reference. One Remuneration Committee meeting was held in 2019 and the attendance of each member is set out in the section headed "The Board" of this report.

本公司薪酬委員會之職權範圍乃遵照企業管治守則之守則條文B.1.2之規定，惟存在一項偏離守則條文事項－薪酬委員會僅會就執行董事（不包括高級行政人員）（而非守則條文所述之執行董事及高級行政人員）之薪酬待遇向董事會提出建議。理由概述如下：

- (i) 董事會認為薪酬委員會並不適宜評估高級行政人員之表現，而有關評估程序由執行董事執行將更為有效；
- (ii) 薪酬委員會之大部份成員均為獨立非執行董事，彼等來自不同行業、具有不同背景，或會對本公司經營之行業並不完全熟悉，且並無參與本公司之日常運作。彼等對業界慣例及薪酬待遇之標準亦可能無直接認識。故此，薪酬委員會並不適宜釐定執行董事之薪酬；
- (iii) 執行董事必須負責監管高級行政人員，因而須有權力管制彼等之薪酬；及
- (iv) 執行董事並無理由向高級行政人員支付高於業界標準之薪酬，而按此方法釐定薪酬待遇可減省支出，將有利於股東。

薪酬委員會之職權範圍已於聯交所及本公司網站內登載。

根據其職權範圍，薪酬委員會每年須至少舉行一次會議。於2019年薪酬委員會曾舉行一次會議，而各成員之出席情況載於本報告「董事會」一節內。

In addition to the Remuneration Committee meeting, the Remuneration Committee also dealt with matters by way of circulation during 2019. In 2019 and up to the date of this report, the Remuneration Committee performed the works as summarised below:

- (i) reviewed the existing policy and structure for the remuneration of the Directors;
- (ii) reviewed the performance of the EDs; and
- (iii) reviewed and recommended for the Board's approval the service fees of the Directors.

Each Director will be entitled to a Director's fee which is to be proposed for the Shareholders' approval at the AGM each year. Further remuneration payable to Directors (including any service fees of the INEDs) for their additional responsibilities and services will depend on their respective contractual terms under their employment contracts or service contracts as approved by the Board on the recommendation of the Remuneration Committee. Details of the Directors' remuneration are set out in note 12 to the consolidated financial statements.

AUDIT COMMITTEE

The Audit Committee has been established since September 1997. To retain independence and objectivity, the Audit Committee is chaired by an INED with appropriate professional qualifications or accounting or related financial management expertise.

During the year and as at the date of publication of this report, the Audit Committee was made up of 4 INEDs, namely:

- Mr. Chen Guanglei
*(Chairman of the Audit Committee,
appointed on 20 December 2019)*
- Mr. Li Chak Hung
*(Chairman of the Audit Committee,
resigned on 20 December 2019)*
- Dr. Meng Xiaosu
Mr. Yang Buting
Mr. Zhao Daxin

The Audit Committee is provided with sufficient resources to discharge its duties and has access to independent professional advice according to the Company's policy if considered necessary.

除舉行薪酬委員會會議外，薪酬委員會亦於2019年內透過傳閱文件方式處理事宜。於2019年內及截至本報告日期為止，薪酬委員會已履行之工作概述如下：

- (i) 檢討董事薪酬之現時政策及架構；
- (ii) 檢討執行董事之表現；及
- (iii) 檢討及建議董事會批准董事的服務酬金。

每名董事將有權收取董事袍金，該袍金每年於股東週年大會提呈予股東批准。應付予董事額外職責及服務之額外薪酬（包括獨立非執行董事之服務費）乃按彼等各自之僱用合約或服務合約內之條款，在薪酬委員會向董事會提出建議並獲批准後而釐定。董事薪酬之詳情載於合併財務報表附註12。

審核委員會

審核委員會自1997年9月起成立。為保持獨立性及客觀性，審核委員會由1名具備合適專業資格、會計或相關財務管理專業知識之獨立非執行董事擔任主席。

年內及於本報告刊發日期，審核委員會由4名獨立非執行董事組成，包括：

- 陳廣壘先生
(審核委員會主席，於2019年12月20日委任)
- 李澤雄先生
(審核委員會主席，於2019年12月20日辭任)
- 孟曉蘇博士
楊步亭先生
趙大新先生

審核委員會獲提供充裕資源以履行其職務，並可按本公司之政策在有需要時尋求獨立專業意見。

The major roles and functions of the Audit Committee are:

審核委員會之主要角色及職能為：

- | | |
|---|---|
| (i) to consider and make recommendations to the Board on the appointment, re-appointment and removal of the external auditor, and to approve the remuneration and terms of engagement of the external auditor, and any questions of its resignation or dismissal; | (i) 考慮並就外聘核數師之委任、重新委任及罷免向董事會提供建議，以及批准外聘核數師之薪酬及聘用條款，並處理任何有關外聘核數師辭任或辭退外聘核數師之問題； |
| (ii) to consider and discuss with the external auditor the nature and scope of each year's audit; | (ii) 考慮及與外聘核數師討論每年核數之性質及範疇； |
| (iii) to act as the key representative body for overseeing the Company's relations with the external auditor; | (iii) 作為主要代表監察本公司與外聘核數師的關係； |
| (iv) to review and monitor the external auditor's independence and objectivity; | (iv) 檢討及監察外聘核數師之獨立性及客觀性； |
| (v) to review the interim and annual consolidated financial statements before submission to the Board; | (v) 於中期及全年合併財務報表提交董事會前先行審閱； |
| (vi) to discuss any problems and reservation arising from the interim review and final audit, and any matters the external auditor may wish to discuss; | (vi) 商議就中期審閱及年終審核而產生之任何問題及保留事項，及外聘核數師擬商討之任何事宜； |
| (vii) to review the external auditor's management letters and management's response; | (vii) 審閱外聘核數師致管理層之函件及管理層之回應； |
| (viii) to review the Group's financial controls, internal control and risk management systems; | (viii) 檢討本集團之財務監控、內部監控及風險管理系統； |
| (ix) to review the internal audit plan, ensure co-ordination between the internal and external auditors, and ensure whether the internal audit function is adequately resourced and has appropriate standing within the Group; and | (ix) 審閱內部審計計劃，確保內部與外聘核數師之工作協調，及確保內部審計功能是否獲得足夠資源運作，且在本集團具有適當地位；及 |
| (x) to consider major investigations findings on risk management and internal control matters and management's response. | (x) 考慮關於風險管理及內部監控事宜之重要調查發現及管理層之回應。 |

The terms of reference of the Audit Committee are revised from time to time to comply with the code provision C.3.3 of the CG Code, but with deviations from the code provision of the audit committee's responsibility to:

- (i) implement policy on the engagement of the external auditors to supply non-audit services; and
- (ii) ensure the management has performed its duty to have effective risk management and internal control systems.

The Board considers that the Audit Committee shall recommend (as opposed to implement) the policy on the engagement of the external auditor to supply non-audit services for the following reasons:

- (i) it is proper and appropriate for the Board and its committees to develop policy and make appropriate recommendations;
- (ii) the proper and appropriate mechanism for implementation of such policy and recommendations is through the Executive Director and management; and
- (iii) INEDs are not in an effective position to implement policy and follow up the same on a day-to-day basis.

Further, the Board considers that the Audit Committee only possesses the effective ability to scrutinise (as opposed to ensure) whether management has performed its duty to have an effective internal control system. Where an internal audit function exists, the Audit Committee is not equipped to ensure that the same is in place as this would involve day-to-day supervision and the employment of permanent experts.

The terms of reference of the Audit Committee are available on the websites of the Stock Exchange and the Company.

審核委員會之職權範圍不時作出修訂，以遵守企業管治守則之守則條文C.3.3，惟存在與審核委員會職責相關之守則條文之偏離事項：

- (i) 執行委聘外聘核數師提供非核數服務之政策；及
- (ii) 確保管理層已履行其職責建立有效之風險管理及內部監控系統。

董事會認為審核委員會應就委聘外聘核數師提供非核數服務之政策作出建議（而非執行），理由如下：

- (i) 由董事會及其下設置之委員會制定政策及作出合適之建議乃屬恰當及合適；
- (ii) 由執行董事及管理層執行該政策及建議乃屬恰當及合適之機制；及
- (iii) 獨立非執行董事並不適宜執行日常之政策及跟進工作。

此外，董事會認為審核委員會僅具備有效能力監察（而非確保）管理層已履行其職責建立有效之內部監控系統。如設有內部審計功能，由於上述事宜涉及日常監督及僱用常任專業人員，因此審核委員會並無確保上述事宜得以執行之能力。

審核委員會之職權範圍已於聯交所及本公司網站內登載。

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current year. Key audit matters identified in our audit are summarised as follows:

Key audit matters 關鍵審計事項

Valuation of investment properties 投資物業之估值

We identified the valuation of investment properties as a key audit matter because the valuation process involves estimations, various assumptions and determination of key inputs, which are judgmental. Any changes to these inputs may have a significant impact on the fair value. Management determined the fair value of the Group's investment properties at 31 December 2019 with the assistance of an independent external valuer.

本所把投資物業的估值列為關鍵審計事項，因為估值過程涉及屬判斷性質的估計、多項假設及對關鍵輸入值的確定。該等輸入值之任何變動均可能會對公允價值造成重大影響。管理層在獨立外部評估師之協助下釐定 貴集團於2019年12月31日投資物業之公允價值。

Details of the investment properties and the related key estimation uncertainty are set out in notes 16 and 3, respectively, to the consolidated financial statements.

投資物業詳情及相關主要估計不確定性分別載於合併財務報表附註16及3。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 90 of the Companies Act 1981 of Bermuda, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

合理核證是高水平的核證，但不能保證按香港審計準則進行的審核在某一重大錯誤陳述存在時總能發現。錯誤陳述可因欺詐或錯誤產生，如果合理預期其單獨或匯總起來可影響合併財務報表使用者依賴該等合併財務報表作出的經濟決定時，則被視為重大錯誤陳述。

本所根據香港審計準則執行審計的工作之一，是在整個審計過程中運用專業判斷，保持專業懷疑。本所亦：

- 識別及評估由於欺詐或錯誤而導致合併財務報表存在重大錯誤陳述的風險，設計及執行審計程序以應對該等風險，以及獲取充足和適當的審計證據，作為本所意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述或凌駕內部控制的情況，因此未能發現因欺詐而導致的重大錯誤陳述的風險高於未能發現因錯誤而導致的重大錯誤陳述的風險。
- 了解與審計相關的內部控制，以設計適當的審計程序，惟並非旨在對貴集團內部控制的有效性發表意見。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS – continued

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

核數師對審計合併財務報表承擔的 責任 – 續

- 評估董事所採用會計政策的恰當性及作出會計估計和相關披露的合理性。
- 對董事採用持續經營會計基礎的恰當性作出結論。根據所獲取的審計證據，確定是否存在與事項或情況有關的重大不確定性，從而可能導致對貴集團的持續經營能力產生重大疑慮。如果本所認為存在重大不確定性，則有必要在核數師報告中提請使用者注意合併財務報表中的相關披露。假若有關的披露不足，則修訂本所的意見。本所的結論是基於核數師報告日止所取得的審計證據。然而，未來事項或情況可能導致貴集團不能持續經營。
- 評估合併財務報表的整體呈列方式、結構和內容，包括披露，以及合併財務報表是否公平反映相關交易和事項。
- 就貴集團內實體或業務活動的財務資料獲取充足及適當的審計證據，以便對合併財務報發表意見。本所負責集團審計的方向、監督及執行。本所為審計意見承擔全部責任。

本所與治理層就（其中包括）審計的計劃範圍、時間安排及重大審計發現溝通，該等發現包括本所在審計過程中識別的內部控制的任何重大缺陷。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS – continued

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Amendments to HKFRS 9: Prepayment Features with Negative Compensation

The amendments clarify that prepayable financial assets with negative compensation can be measured at amortised cost or at fair value through other comprehensive income instead of at FVPL if specified conditions are met.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

HKFRS 16: Leases

HKFRS 16 replaces HKAS 17 and related interpretations for annual periods beginning on or after 1 January 2019. It significantly changes, among others, the lessee accounting by replacing the dual-model under HKAS 17 with a single model which requires a lessee to recognise right-of-use assets and lease liabilities for the rights and obligations created by all leases with a term of more than 12 months, unless the underlying asset is of low value. For lessor accounting, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently. HKFRS 16 also requires enhanced disclosures to be provided by lessees and lessors.

採納該等修訂不會對合併財務報表造成任何重大影響。

香港財務報告準則第16號：租賃

香港財務報告準則第16號於2019年1月1日或之後開始的年度期間取代香港會計準則第17號及相關詮釋。此安排對承租人之會計處理方式造成重大變動（其中包括），以單一模式取代香港會計準則第17號所指定的雙重模式，規定除相關資產價值極低外，承租人須就因租期逾12個月的所有租賃而產生的權利及義務確認使用權資產及租賃負債。就出租人會計處理而言，香港財務報告準則第16號大致繼承了香港會計準則第17號有關出租人會計處理的規定。因此，出租人繼續將其租賃分類為經營租賃或融資租賃，並且對兩類租賃進行不同的會計處理。香港財務報告準則第16號亦規定承租人和出租人須提供更詳盡披露。

ADOPTION OF NEW/REVISED HKFRSs – continued

HKFRS 16: Leases – continued

In accordance with the transitional provisions, the Group has applied HKFRS 16 for the first time at 1 January 2019 (i.e. the date of initial application, the “DIA”) using the modified retrospective approach in which comparative information has not been restated. Instead, the Group recognised the cumulative effect of initially applying HKFRS 16 as an adjustment to the balance of accumulated profits or other component of equity, where appropriate, at the DIA.

The Group also elected to use the transition practical expedient not to reassess whether a contract was, or contained, a lease at the DIA and the Group applied HKFRS 16 only to contracts that were previously identified as leases applying HKAS 17 and to contracts entered into or changed on or after the DIA that are identified as leases applying HKFRS 16.

As lessee

Before the adoption of HKFRS 16, lease contracts were classified as operating or finance lease in accordance with the Group’s accounting policies applicable prior to the DIA.

Upon adoption of HKFRS 16, the Group accounted for the leases in accordance with the transition provisions of HKFRS 16 and the Group’s accounting policies applicable from the DIA.

香港財務報告準則第16號：租賃 – 續

根據過渡條文，本集團已於2019年1月1日（即初步應用日期）首次採用經修訂追溯法（未重列比較資料）應用香港財務報告準則第16號。相反，本集團於初步應用日期確認初步應用香港財務報告準則第16號的累積影響作為累計溢利或其他權益組成部分結餘的調整（如適用）。

本集團亦選擇於初步應用日期使用過渡實際權宜方法，而非重新評估合約是否屬於租賃或包含租賃，且本集團僅將香港財務報告準則第16號應用於先前被分類為採用香港會計準則第17號的租賃合約及被分類為採用香港財務報告準則第16號並於初步應用日期或之後訂立或更改的租賃合約。

作為承租人

於採納香港財務報告準則第16號前，租賃合約乃根據本集團於初步應用日期之前適用的會計政策分類為經營租賃或融資租賃。

採納香港財務報告準則第16號後，本集團根據香港財務報告準則第16號的過渡條文及於初步應用日期起適用的本集團會計政策對租賃進行會計處理。

HKFRS 16: Leases – continued

As lessee – leases previously classified as operating leases

The Group recognised right-of-use assets and lease liabilities for leases previously classified as operating leases at the DIA, except for leases for which the underlying asset is of low value, and the Group applied the following practical expedients on a lease-by-lease basis.

- (a) Applied a single discount rate to a portfolio of leases with reasonably similar characteristics.
- (b) Adjusted the right-of-use assets at the DIA by the provision for onerous leases recognised immediately before the DIA by applying HKAS 37, as an alternative to performing an impairment review at the DIA.
- (c) Did not recognise right-of-use assets and lease liabilities to leases for which the lease term ends within 12 months of the DIA.
- (d) Excluded initial direct costs from the measurement of the right-of-use assets at the DIA.
- (e) Used hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

對於先前分類為經營租賃的租賃，本集團於初步應用日期確認使用權資產及租賃負債，惟相關資產價值較低的租賃除外，且本集團按逐項租賃基準應用以下實際權宜方法。

- (a) 對具有合理相似特徵的租賃組合採用單一貼現率。
- (b) 於初步應用日期由透過採用香港會計準則第37號於緊接初步應用日期前確認的虧損性租賃撥備調整使用權資產，作為於初步應用日期進行減值評估的替代方法。
- (c) 概無對租期為初步應用日期的12個月內終止的租賃確認使用權資產及租賃負債。
- (d) 於初步應用日期計量使用權資產時不計入首次直接成本。
- (e) 倘合約包含延長或終止租賃的選擇權，則可使用事後判斷確定租期。

At the DIA, except for those that were previously or will be accounted for as investment property using the fair value model, right-of-use assets were, on a lease-by-lease basis, measured at either,

- (a) their carrying amount as if HKFRS 16 had been applied since the commencement date, but discounted using the lessee's incremental borrowing rate at the DIA; or
- (b) an amount equal to the lease liabilities, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised immediately before the DIA.

At the DIA, except for those that meet the definition of investment properties, right-of-use assets were presented as "right-of-use assets" on the consolidated statement of financial position. Besides, lease liabilities were shown separately on the consolidated statement of financial position. The following table summarises the impact of transition to HKFRS 16 on the consolidated statement of financial position of the Group at the DIA:

- (b) 等於租賃負債的金額，並根據與緊接初步應用日期之前確認的租賃有關的任何預付或應計租賃付款額進行調整。

As lessor

The Group is not required to make any adjustments on transition for leases in which it is a lessor and those leases are accounted for by applying HKFRS 16 from the DIA.

BASIS OF MEASUREMENT

The measurement basis used in the preparation of these consolidated financial statements is historical cost, except for investment properties, which are measured at fair value as explained in the accounting policies set out below.

BASIS OF CONSOLIDATION

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not they control an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

合併基準

合併財務報表包括本公司以及本公司及其附屬公司所控制實體之財務報表。取得控制權指本公司：

- 有權控制受投資方；
- 對參與受投資方業務所得浮動回報承擔風險或享有權利；及
- 有能力運用其權力以影響該等回報。

倘事實及情況表明上述所列之三項控制權因素中一項或多項發生變動，則本集團會重新評估其是否仍然控制受投資方。

2. PRINCIPAL ACCOUNTING POLICIES – continued

BASIS OF CONSOLIDATION – continued

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of subsidiaries acquired or disposed of during the year are included/excluded in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains/loses control of the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

CHANGES IN THE GROUP'S INTERESTS IN EXISTING SUBSIDIARIES

Changes in the Group's interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries, including re-attribution of relevant reserves between the Group and the non-controlling interests according to the Group's and the non-controlling interests' proportionate interests.

CHANGES IN THE GROUP'S INTERESTS IN EXISTING SUBSIDIARIES – continued

Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKFRS 9 or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

INVESTMENT IN A JOINT VENTURE

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of joint ventures are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, an investment in a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the joint venture. Changes in net assets of the joint venture other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of joint venture exceeds the Group's interest in that joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture.

合營企業屬一種共同安排，擁有該安排共同控制權之各方擁有分佔該共同安排淨資產之權利。共同控制權指按合約協定分享一項安排之控制權，並只在與業務相關決策需得到分享控制權之各方一致同意時存在。

合營企業之業績與資產及負債乃按權益會計法納入本合併財務報表內。根據權益法，於合營企業之投資初步乃按成本於合併財務狀況表確認，其後作出調整以確認本集團應佔該合營企業之損益及其他綜合收益。於該合營企業之資產淨值（損益及其他綜合收益除外）變動不入賬，除非該等變動導致本集團持有之擁有權權益變動。當本集團應佔合營企業之虧損超出其於該合營企業之權益（包括實質上構成本集團於該合營企業之投資淨額之一部分之任何長期權益），則本集團不再確認其應佔之進一步虧損。本集團僅會在其須於代表該合營企業承擔法律或推定責任，或代其支付款項之情況下，方會確認額外虧損。

INVESTMENT IN A JOINT VENTURE – continued

An investment in a joint venture is accounted for using the equity method from the date on which the investee becomes a joint venture. On acquisition of the investment in a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The Group assesses whether there is an objective evidence that the interest in a joint venture may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When the Group ceases to have joint control over a joint venture, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss.

INVESTMENT PROPERTIES

Investment properties are properties held to earn rentals and/or for capital appreciation (including properties under construction for such purposes).

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values using the fair value model. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the period in which they arise.

Construction costs incurred for investment properties under construction are capitalised as part of the carrying amount of the investment properties under construction.

The Group classifies a property from properties under development for sale and/or completed properties held for sale to investment property when there is evidence of a change in use of the property by inception of the operating lease agreements. Any difference between the fair value of the property at the date of transfer and its previous carrying amount is recognised in profit or loss.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the item is derecognised.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment including the buildings held for use in the production and/or supply of goods and/or services, or for administrative purpose (other than construction in progress as described below), are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Construction in progress is stated at cost, which comprises the cost of construction and borrowing costs, if applicable, less any identified impairment loss.

The cost of construction in progress will not be depreciated until they are completed and ready for intended use and are transferred to a specific category of property, plant and equipment when the construction is completed.

Depreciation is recognised so as to write off the cost of assets (other than construction in progress) less their residual values over their estimated useful lives, using the straight-line method, at the following rate per annum:

Buildings	Over the shorter of the lease terms or 5%
Leasehold improvements	Over the shorter of the lease terms or 15% to 33 $\frac{1}{3}$ %
Furniture, fixtures and office equipment	15% to 33 $\frac{1}{3}$ %
Computer equipment and software	20% to 33 $\frac{1}{3}$ %
Motor vehicles	20% to 33 $\frac{1}{3}$ %

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

Impairment of financial assets

The Group recognises a loss allowance for expected credit losses (“ECL”) on financial assets which are subject to impairment under HKFRS 9 (including trade receivables, lease receivables, other receivables and deposits, amounts due from related companies, bank balances and pledged bank deposits). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12 months ECL represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group recognises lifetime ECL for trade receivables and lease receivables. For all other instruments, the Group measures the loss allowance equal to 12 months ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

(i) Significant increase in credit risk

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if (i) it has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

For financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of a financial guarantee contracts, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over one year past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

(v) 預期信貸虧損的計量及確認

預期信貸虧損的計量為違約概率、違約損失率（即違約時的損失程度）及違約風險的函數。違約概率及違約損失率的評估乃依據經前瞻性資料調整後的歷史數據作出。預期信貸虧損之估計反映以發生相關違約風險之金額作為加權數值而釐定之無偏概率加權金額。

一般而言，預期信貸虧損為本集團根據合約應收的所有合約現金流量與本集團預計收取的所有現金流量之間的差額，並按初步確認時釐定的實際利率貼現。

For a financial guarantee contract, the Group is required to make payments only in the event of a default by the debtor in accordance with the terms of the instrument that is guaranteed. Accordingly, the expected losses is the present value of the expected payments to reimburse the holder for a credit loss that it incurs less any amounts that the Group expects to receive from the holder, the debtor or any other party.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

For a financial guarantee contract, the loss allowances are recognised at the higher of the amount of the loss allowance determined in accordance with HKFRS 9; and the amount initially recognised less, where appropriate, cumulative amount of income recognised over the guarantee period.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables, lease receivables, other receivables and amounts due from related parties where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities at amortised cost

Financial liabilities (including trade payables, other payables and accruals, amounts due to related companies, bank and other borrowings, lease liabilities and convertible bonds and bonds) are subsequently measured at amortised cost, using the effective interest method.

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument. Financial guarantee contract liabilities are measured initially at their fair values. It is subsequently measured at the higher of:

Convertible bonds

The component parts of the convertible bonds issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated by measuring the fair value of similar liability that does not have an associated equity component.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred from convertible bonds equity reserve to share premium. Where the conversion option remains unexercised at the maturity date of the convertible bonds, the balance recognised in equity will be transferred to retained profits. No gain or loss is recognised in profit or loss upon conversion or expiration of the conversion option.

REVENUE FROM CONTRACTS WITH CUSTOMERS WITHIN HKFRS 15

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

REVENUE FROM CONTRACTS WITH CUSTOMERS WITHIN HKFRS 15 – continued

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

The Group recognises revenue from the following major sources or operations which arise from contracts with customers:

- Sales of properties
- Tourism park operations and other services

Timing of revenue recognition

Sales of properties

Taking into consideration of the relevant contract terms, the legal environment and relevant legal precedent, the Group concluded that the Group does not have an enforceable right to payment prior to transfer of the relevant properties to customers. Revenue from sales of properties is therefore recognised at a point in time when the completed property is transferred to customers, being at the point that the customer obtains the control of the completed property and the Group has present right to payment and collection of the consideration is probable.

Tourism park operations and other services

Revenue from tourism park operations including entrance fee, food and beverage for which the control of services or goods is transferred at a point in time, revenue is recognised when the related services or goods have been rendered to customers.

Existence of significant financing component

In determining the transaction price, the Group adjusts the promised amount of consideration for the effects of the time value of money if the timing of payments agreed (either explicitly or implicitly) provides the customer or the Group with a significant benefit of financing the transfer of goods or services to the customer. In those circumstances, the contract contains a significant financing component. A significant financing component may exist regardless of whether the promise of financing is explicitly stated in the contract or implied by the payment terms agreed to by the parties to the contract.

Existence of significant financing component – continued

For contracts where the period between payment and transfer of the associated goods or services is less than one year, the Group applies the practical expedient of not adjusting the transaction price for any significant financing component.

For advance payments received from customers before the transfer of the associated goods or services in which the Group adjusts for the promised amount of consideration for a significant financing component, the Group applies a discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. The relevant interest expenses during the period between the advance payments were received and the transfer of the associated goods and services are accounted for on the same basis as other borrowing costs.

Incremental costs of obtaining a contract

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained.

The Group recognises such costs as an asset if it expects to recover these costs. The asset so recognised is subsequently amortised to profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the assets relate.

The Group applies the practical expedient of expensing all incremental costs to obtain a contract if these costs would otherwise have been fully amortised to profit or loss within one year.

IMPAIRMENT OF OTHER ASSETS

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets and investment in joint ventures to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of tangible assets are estimated individually, when it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount.

有形資產之可收回金額單獨估計，當無法單獨估計可收回金額時，本集團便會估計資產所屬現金產生單位之可收回金額。倘可識別合理及一貫之分配基準，企業資產亦會被分配至個別之現金產生單位，否則會被分配至可識別合理及一貫之分配基準之最小現金產生單位組別。

可收回金額為公允價值減出售成本與使用價值之較高者。於評估使用價值時，估計未來現金流量使用除稅前折現率（反映市場現時對貨幣時間價值之評估及與未調整估計未來現金流量之資產（或現金產生單位）之特定風險）折現至其現值。

倘資產（或現金產生單位）之可收回金額估計少於其賬面值，則該資產（或現金產生單位）之賬面值削減至其可收回金額。

IMPAIRMENT OF OTHER ASSETS – continued

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

PROVISIONS

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Applicable from 1 January 2019

The Group assesses whether a contract is, or contains, a lease at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As lessee

The Group applies the recognition exemption to short-term leases and low-value asset leases. Lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

The Group accounts for each lease component within a lease contract as a lease separately. The Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component.

Amounts payable by the Group that do not give rise to a separate component are considered to be part of the total consideration that is allocated to the separately identified components of the contract.

The Group recognises a right-of-use asset and a lease liability at the commencement date of the lease.

The right-of-use asset is initially measured at cost, which comprises:

- (a) the amount of the initial measurement of the lease liability;
- (b) any lease payments made at or before the commencement date, less any lease incentives received;
- (c) any initial direct costs incurred by the Group; and
- (d) an estimate of costs to be incurred by the Group in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Subsequently, the right-of-use asset is measured at cost less any accumulated depreciation and any accumulated impairment losses and adjusted for any remeasurement of the lease liability. Depreciation is provided on a straight-line basis over the shorter of the lease term and the estimated useful lives of the right-of-use asset (i.e. 1 to 2 years for land and buildings and 40 years for leasehold lands).

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date of the contract.

隨後，使用權資產按成本減任何累計折舊及任何累計減值虧損計量，並就租賃負債的任何重新計量作出調整。於租期及使用權資產之估計可使用年期之較短者（即土地及樓宇一至兩年以及租賃土地的40年）按直線法計提折舊。

The lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- (a) fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- (b) variable lease payments that depend on an index or a rate;
- (c) amounts expected to be payable under residual value guarantees;
- (d) exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- (e) payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate the lease.

The lease payments are discounted using the interest rate implicit in the lease, or where it is not readily determinable, the incremental borrowing rate of the lessee.

Subsequently, the lease liability is measured by increasing the carrying amount to reflect interest on the lease liability and by reducing the carrying amount to reflect the lease payments made.

The lease liability is remeasured using a revised discount rate when there are changes to the lease payments arising from a change in the lease term or the reassessment of whether the Group will be reasonably certain to exercise a purchase option.

The lease liability is remeasured by using the original discount rate when there is a change in the residual value guarantee, the in-substance fixed lease payments or the future lease payments resulting from a change in an index or a rate (other than floating interest rate). In case of a change in future lease payments resulting from a change in floating interest rates, the Group remeasures the lease liability using a revised discount rate.

The Group recognises the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset. If the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the remeasurement in profit or loss.

A lease modification is accounted for as a separate lease if:

- (a) the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- (b) the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

當租期出現變動而產生租賃付款變動或重新評估本集團是否將合理確定行使購買選擇權時，租賃負債使用經修訂貼現率進行重新計量。

租賃負債於指數或利率（浮動利率除外）變動導致剩餘價值擔保、實物固定租賃付款或未來租賃付款發生變化時，使用原折現率重新計量。倘浮動利率變動導致未來租賃付款有所變動，則本集團使用經修訂折現率重新計量租賃負債。

本集團將租賃負債之重新計量金額確認為對使用權資產之調整。倘使用權資產賬面值減少至零且於租賃負債計量進一步調減，本集團將於損益中確認任何重新計量之剩餘金額。

倘出現以下情況，租賃修改則作為單獨租賃入賬：

- (a) 該修改透過增加一項或以上相關資產之使用權利而擴大租賃範圍；及

- (c) the Group remeasures the lease liability by discounting the revised lease payments using a revised discount rate over the revised lease term.
- (d) for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease and recognising any gain or loss relating to the partial or full termination of the lease in profit or loss.

As lessor

The Group classifies each of its leases as either a finance lease or an operating lease at the inception date of the lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset. All other leases are classified as operating leases.

The Group accounts for each lease component within a lease contract as a lease separately from non-lease components of the contract. The Group allocates the consideration in the contract to each lease component on a relative stand-alone price basis.

Rental income under operating leases is recognised when the assets are let out, on straight-line basis over the lease term.

Applicable before 1 January 2019

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

As lessor

Rental income from operating leases is recognised in the profit or loss on a straight-line basis over the term of the relevant lease.

Leasehold land and building

When the Group makes payments for a property interest which includes both leasehold land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire property is accounted as an operating leases. Specially, the entire consideration (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at initial recognition.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as “prepaid lease payments” in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis except for those that are classified and accounted for as investment properties under the fair value model. When the lease payments cannot be allocated reliably between the leasehold land and building elements, the entire property is generally classified as if the leasehold land is under finance lease. From 1 January 2019, those payments are accounted for as right-of-use assets.

倘租賃付款能可靠分配，則以經營租賃入賬之租賃土地權益於合併財務狀況表中呈列為「預付租賃款項」，並於租期內以直線法攤銷，惟根據公允價值模式分類並入賬為投資物業者除外。當租賃款項無法可靠地在租賃土地及樓宇部分之間分配時，整項物業一般將視該租賃土地為融資租賃作歸類。自2019年1月1日起，該等付款作為使用權資產入賬。

2. PRINCIPAL ACCOUNTING POLICIES – continued FOREIGN CURRENCIES

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the group entities are translated into the presentation currency of the Group (i.e. HK\$) at the rate of exchange prevailing at the end of the reporting period, and their income and expenses are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange translation reserve. Exchange differences arising from translation of a foreign operation to the functional currency of the Company (i.e. RMB) are recognised in profit or loss in the period in which the foreign operation is disposed of whilst exchange differences relating to translation from RMB to the presentation currency of the Group are transferred directly to retained profits. On disposal of a group entity that is not a foreign operation, the exchange differences accumulated in equity relating to the translation of assets and liabilities of that group entity into presentation currency of the Group are transferred directly to retained profits.

TAXATION

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from the profit before tax as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

稅項

所得稅開支為現行應繳稅項及遞延稅項之總額。

現行應繳稅項根據年度應課稅溢利計算。應課稅溢利與合併損益及其他綜合收益表內呈報之除稅前溢利兩者存在差異乃由於前者並無計入其他年度之應課稅或可扣減收支項目，亦無計入毋須課稅或不獲扣減之項目所致。本集團之現行稅項負債乃按已於報告期末頒佈或大致頒佈之稅率計算。

遞延稅項乃為合併財務報表內資產及負債賬面值與計算應課稅溢利所用相應稅基間之暫時性差異而確認。遞延稅項負債一般就所有應課稅之暫時性差異予以確認，而遞延稅項資產則就可扣減之暫時性差異，按可能會出現可用以抵銷該等可扣減之暫時性差異之應課稅溢利而予以確認。若於一項交易中，因初步確認（非業務合併）其他資產與負債而引致之暫時性差異既不影響應課稅溢利亦不影響會計溢利，則有關資產及負債不予確認。

2. PRINCIPAL ACCOUNTING POLICIES – continued

TAXATION – continued

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and interest in a joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interest are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

遞延稅項資產之賬面值乃於報告期末進行檢討，並在不再可能有足夠應課稅溢利恢復全部或部分資產價值時作調減。

遞延稅項資產及負債乃按預期於償還負債或變現資產期間適用之稅率計量。所根據之稅率（及稅法）乃於報告期末已頒佈或大致頒佈。

2. PRINCIPAL ACCOUNTING POLICIES – continued

TAXATION – continued

For the purpose of measuring deferred tax liabilities for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly to equity, in which case the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

SHARE-BASED PAYMENTS

Equity-settled share-based payment transactions

Share options granted to employees

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share options reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share options reserve.

When the share options are exercised, the amount previously recognised in share option reserves will be transferred to share capital (nominal value) and share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share option reserves will be transferred to retained profits.

RETIREMENT BENEFIT COSTS

Payments to defined contribution retirement benefits schemes, including state-managed retirement benefits schemes in the PRC and the Mandatory Provident Fund Scheme, are recognised as an expense when employees have rendered service entitling them to the contributions.

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 2, the Directors are required to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY – continued

CRITICAL JUDGEMENT IN APPLYING ACCOUNTING POLICIES

The following are the critical judgements, apart from those involving estimations, that management has made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Deferred taxation on investment properties

For the purposes of assessing deferred tax arising from investment properties measured at fair value, the Directors have reviewed the Group's investment property portfolios and concluded that such properties are held under a business model whose objective is to consume substantially all the economic benefits embodied in the properties over time through generating rental income. Therefore, in assessing the Group's deferred taxation on investment properties, the Directors have determined the presumption that the investment properties recovered through sale is rebutted.

KEY SOURCES OF ESTIMATION UNCERTAINTY

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

於應用會計政策時所作之關鍵判斷

除涉及估計之判斷外，以下為管理層於應用本集團會計政策過程中所作出對在合併財務報表中確認的金額具最重大影響之關鍵判斷。

投資物業之遞延稅項

就評估採用公允價值模式計量的投資物業所產生的遞延稅項而言，董事已覆核本集團之投資物業組合，斷定本集團的投資物業以一個商業模式所持有，而此模式的目標為透過租金收入隨時間使用該等物業所包含的絕大部分經濟利益。因此，在釐定本集團投資物業之遞延稅項時，董事已確定透過銷售收回投資物業之假設已被推翻。

估計不確定性因素之主要來源

以下為有關未來之主要假設，及於報告期末之其他估計不確定性因素之主要來源，其具有導致下一個財政年度之資產及負債賬面值須作出重大調整之重大風險。

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY – continued

KEY SOURCES OF ESTIMATION UNCERTAINTY – continued

Fair values of investment properties

Investment properties were stated at fair value with reference to valuation performed by an independent external valuer. In assessing the fair values, the independent external valuer has applied valuation techniques including certain assumptions and estimates of market condition. The Directors reviewed the valuation performed by the independent external valuer and use their estimation to determine whether the valuation techniques applied are appropriate to the circumstances of the Group. Changes in assumptions could result in changes in fair values of the Group's investment properties and the corresponding gain or loss on fair values recognised in profit or loss. Detailed inputs and estimates applied for valuation disclosed in Note 16 to the consolidated financial statements.

The carrying amount of investment properties as at 31 December 2019 was approximately HK\$2,567,861,000 (2018: approximately HK\$5,512,086,000). More details are set out in note 16.

Estimated net realisable value on properties under development for sale

In assessing whether allowances should be made for the Group's properties under development for sale as disclosed in note 18, the Group takes into consideration the current market environment and the net realisable value, the estimated market value (i.e. the estimated selling price less estimated selling expenses) less estimated costs to completion of the properties. An allowance is provided if the estimated net realisable value is less than the carrying amount. Where the actual condition is different from the original estimate, such difference will impact the carrying amount of the Group's properties under development for sale.

3. 關鍵會計判斷及估計不確定性因素之主要來源 – 續

估計不確定性因素之主要來源 – 續

投資物業之公允價值

投資物業參考獨立外部評估師進行之估值按公允價值列賬。在評估公允價值時，獨立外部評估師已採用涉及對若干市況進行假設及估計之估值技術。董事審閱獨立外部評估師進行之估值並使用其估計釐定所用之估值技術就本集團之情況而言是否適當。該等假設之變動可能會導致本集團投資物業之公允價值出現變動，並於損益內確認相應之公允價值盈虧。就估值應用的詳盡輸入數據及估計於合併財務報表附註16披露。

於2019年12月31日，投資物業之賬面值約為2,567,861,000港元（2018年：約5,512,086,000港元）。有關詳情載於附註16。

發展中待售物業之估計可變現淨值

在評估是否應就本集團之發展中待售物業（見附註18之披露）作出撥備時，本集團會考慮目前市場環境及可變現淨值（按估計市值（即估計售價減估計銷售開支）減估計物業竣工成本計算）。倘估計可變現淨值低於賬面值，便會計提撥備。倘實際情況與原估計不同，有關差異將影響本集團發展中待售物業之賬面值。

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY – continued

KEY SOURCES OF ESTIMATION UNCERTAINTY – continued

Deferred tax assets

At the end of the reporting period, no deferred tax asset has been recognised on the tax losses from the PRC and Hong Kong subsidiaries as disclosed in note 27 of approximately HK\$332,314,000 and HK\$335,652,000 respectively (2018: HK\$289,283,000 and HK\$227,173,000 respectively) due to unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future. In cases there are changes in facts and circumstances which result in revision of future taxable profits estimation, a material recognition of deferred tax assets may arise, which would be recognised in profit or loss for the period in which such recognition takes place.

3. 關鍵會計判斷及估計不確定性 因素之主要來源 – 續

估計不確定性因素之主要來源 – 續

遞延稅項資產

於報告期末，由於無法預測未來溢利流，故並無就附註27所披露來自中國及香港附屬公司的稅項虧損分別約332,314,000港元及335,652,000港元（2018年：分別為289,283,000港元及227,173,000港元）確認遞延稅項資產。遞延稅項資產能否變現主要取決於未來是否有足夠的未來溢利或應課稅暫時差異。如事實及情況變化導致未來應課稅溢利估計的修訂，則可能導致產生大量遞延稅項資產，其將於作出確認期間在損益中確認。

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY – continued

KEY SOURCES OF ESTIMATION UNCERTAINTY – continued

Land appreciation tax (“LAT”)

Certain subsidiaries of the Group are subject to LAT in the PRC. However, the implementation of the tax varies amongst different tax jurisdictions in various cities of the PRC and certain projects of the Group have not finalised their LAT calculations with the local tax authorities in the PRC.

Accordingly, significant judgement is required in determining the amount of land appreciation and its related income tax provision. The Group recognised the land appreciation tax based on management’s best estimates. The final tax outcome could be different from the amounts that were initially recorded, and these differences will impact the income tax expense and the related income tax provisions in the period in which such tax is finalised with local tax authorities.

3. 關鍵會計判斷及估計不確定性 因素之主要來源 – 續

估計不確定性因素之主要來源 – 續

土地增值稅（「土地增值稅」）

本集團若干附屬公司須繳納中國土地增值稅。然而，中國各個城市的不同徵稅區的稅項徵收有所差異，而本集團的若干項目尚未與中國的地方稅務部門最終確定土地增值稅之計算。

因此，於釐定土地增值金額及其相關所得稅撥備時須作出重大判斷。本集團基於管理層之最佳估計確認土地增值稅。最終的稅項結果或會不同於初始列賬之金額，而該等差異將影響與地方稅務部門確定該等稅項之期間內之所得稅開支及有關所得稅撥備。

16. INVESTMENT PROPERTIES – continued

Fair values of the investment properties under development as at 31 December 2019 and 2018 were derived using the multiple valuation techniques, including residual approach and comparison approach. Under the residual approach, the independent external valuer made reference to strata units comparable as available in the market to arrive the capital value of the property as if the proposed development were completed and also took into consideration the development cost already spent and to be spent to reflect the quality of the completed development. Residual approach also involved an estimation of the capital value of a proposed development with reference to its development potential by deducting costs and developer's profit from its estimated completed development cost. Comparison approach consisted of comparisons based on prices on price realised or current asking prices of comparable properties. Comparable properties of similar size, character and location are selected and analysed.

In measuring the fair value of the properties, the highest and best use of the properties is their current use.

The following table gives information about how the fair values of these investment properties are determined (in particular, the valuation techniques and inputs used), as well as the fair value hierarchy into which the fair value measurements are categorized based on the degree to which the inputs to the fair value measurements is observable.

16. 投資物業 – 續

發展中投資物業於2019年及2018年12月31日之公允價值採用多重估值技術(包括剩餘價值法及直接比較法)釐定。根據剩餘價值法,獨立外部估值師參考市場上可用的可比較地層單位以達至物業資本價值,猶如擬定發展已完成,亦計及已支出及將支出的發展成本,以反映已竣工發展的質量。剩餘價值法亦涉及參考擬定發展的潛力以估計資本價值,方式為從估計已竣工發展成本中扣除成本及開發商溢利。比較法由基於已變現價格或可比較物業的現行賣出價的比較組成。選擇及分析規模、特徵及位置類似的可比較物業。

於計量物業之公允價值時,物業的最高及最佳用途為現時用途。

下表載列有關釐定該等投資物業公允價值之方法之資料(特別是所採用之估值技術及輸入數據),以及根據公允價值計量之輸入數據的可觀察程度將公允價值計量分類之公允價值層級。

In estimating the fair value of the Group's investment properties, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages independent external valuer to perform the valuation of the Group's investment properties. The Group will first consider and adopt Level 2 inputs where inputs can be derived from observable quoted prices in the active market. When Level 2 inputs are not available, the Group will adopt valuation techniques that include Level 3 inputs. The valuation techniques have been calibrated so that at initial recognition, the result of the valuation techniques is reconciled to the transaction price. Where there is a material change in the fair value of the assets, the causes of the fluctuations will be reported to the Directors.

During the year ended 31 December 2019, there were no transfers of fair value measurement between Level 1 and Level 2 and no transfers into and out of Level 3.

As mentioned above, the holders of the Bonds I, the Bonds II and the Convertible Bonds I agreed to extend the maturity for 1 year with effective from 1 July 2019. As a result, the outstanding amounts of the Bonds I and the Bonds II at 30 June 2019 were remeasured at amortised costs by applying effective interest rates (5.56% – 5.59%) after netting off the extension costs of HK\$8,550,000. On the other hand, the liability and equity components of the old Convertible Bonds I amounted to approximately HK\$21,949,000 and HK\$68,000 were derecognised respectively on 30 June 2019 with the liability and equity components of the extended Convertible Bonds I amounted to approximately HK\$23,057,000 and HK\$583,000 recognised respectively on 1 July 2019 with the difference of approximately HK\$1,623,000 together with extension cost of HK\$360,000 recognised to profit or loss.

The estimate of fair value of the extended Convertible Bonds I was calculated by the independent external valuer using binomial option pricing model. The significant assumptions and inputs used in computing the fair value are based on the management's best estimate. The fair value of the extended Convertible Bonds I is subject to the fundamental limitations of the model and the uncertainties of those significant assumptions and inputs. Note: In the opinion of the Directors, the fair values of the financial guarantee contracts of the Group are insignificant at initial recognition, taking into consideration the possibility of default by the relevant buyers and, in case of default in payments, the net realisable value of the related properties can recover the repayment of the outstanding mortgage principals together with the accrued interest and penalty. The Group measures loss allowance equal to 12-month ECL in accordance with HKFRS 9, and when there has been a significant increase in credit risk, the Group recognises lifetime ECL. No provision has been made in these consolidated financial statements for these guarantees.

附註：董事認為，本集團的財務擔保合約公允價值於初步確認時並不重大，乃考慮到相關買方拖欠款項的可能性，以及倘若買家拖欠款項，有關物業的可變現淨值亦足以抵償未償還按揭本金的還款，連同應計利息及罰款。本集團根據香港財務報告準則第9號按相等於12個月預期信貸虧損的金額計量虧損撥備，且倘信貸風險大幅增加，本集團確認全期預期信貸虧損。概無於本合併財務報表內就該等擔保作出撥備。

36. FINANCIAL INSTRUMENTS – continued**(B) FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES – continued****Market risk****(i) Currency risk**

Foreign currency risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. With the majority of the Group's businesses transacted in RMB and HK\$, the aforesaid currencies are determined as the functional currencies of the Company and some subsidiaries respectively.

The Company and its subsidiaries have foreign currency in bank deposits, amounts due from/to related parties/subsidiaries, prepayments and other receivables, other payables and bonds, which expose them to foreign currency risk.

The net carrying amounts of the Group's and inter-company foreign currency denominated monetary assets (liabilities) at the end of the reporting period are as follows:

		2019	2018
		2019年	2018年
		HK\$'000	HK\$'000

RMB	人民幣	(55,735)	(79,890)
HK\$	港元	(622,859)	(671,658)

In addition, amounts due from certain subsidiaries that are considered as part of the Group's net investment in foreign operations and are denominated in HK\$, at the end of the reporting period, amounted to approximately HK\$383,959,000 (2018: HK\$383,959,000).

Sensitivity analysis

The Group is mainly exposed to RMB and HK\$. The following table details the Group's sensitivity to a 5% (2018: 5%) increase and decrease in certain functional currencies against the relevant foreign currencies. 5% (2018: 5%) is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rate. The sensitivity analysis includes only outstanding foreign currency denominated monetary items, and adjusts their translation at the end of the reporting period for a 5% (2018: 5%) change in foreign currency rate. A positive number below indicates a decrease in loss or an increase in profit for the year where functional currencies strengthen 5% (2018: 5%) against the relevant foreign currencies. For a 5% (2018: 5%) weakening of functional currencies against the relevant foreign currencies, there would be an equal and opposite impact on the profit and loss for the year.

(ii) Fair value and cash flow interest rate risk

The Group is exposed to cash flow interest rate risk due to the fluctuation of the prevailing market interest rate on bank deposits and bank borrowings carried at prevailing market interest rates based on or by reference to the interest rates promulgated by the People's Bank of China. Fixed rate bank and other borrowings and convertible bonds and bonds expose the Group to fair value interest rate risk. During the year, the Group did not hedge its fair value and cash flow interest rate risk. Interest rate risk is managed by the management on an ongoing basis with the primary objective of limiting the extent to which net interest expense could be affected by adverse movements in interest rates.

The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of the interest rate of variable-rate bank deposits and bank and other borrowings. The sensitivity analysis below has been determined based on the exposure to interest rates for bank deposits and bank and other borrowings at the end of the reporting period. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period were outstanding for the whole year. A 50 basis points (2018: 50 basis points) increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the effect from possible change in interest rates.

(ii) 公允價值及現金流量利率風險

由於銀行存款及銀行借貸按現行市場利率計息，而現行市場利率乃根據或參考中國人民銀行頒佈的利率計算，因此本集團就銀行存款及銀行借貸現行市場利率波動而承受現金流量利率風險。定息銀行及其他借貸及可換股債券及債券使本集團承受公允價值利率風險。年內，本集團並無對沖其公允價值及現金流量利率風險。管理層持續管理利率風險，首要目標是限制利率之不利變動可能對淨利息開支構成之影響。

本集團之現金流量利率風險主要集中於浮息銀行存款以及銀行及其他借貸之利率波動。下文之敏感度分析乃根據報告期末銀行存款以及銀行及其他借貸之利率風險釐定。編製分析時所作之假設為，於報告期末未償付之金融工具金額於整個年度均未償付。上升或下降50個基點(2018年：50個基點)為向主要管理人員內部報告利率風險所用敏感度比率，並代表管理層對利率可能變動之影響之評估。

If the interest rates had been 50 basis points (2018: 50 basis points) higher or lower and all other variables were held constant, the Group's loss (2018: profit) for the year would increase/decrease by approximately HK\$11,903,000 (2018: decrease/increase by HK\$12,907,000).

Credit risk and impairment assessment

At the end of each of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the management of the Group has monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group performs impairment assessment under ECL model on each individual trade and other receivables at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts.

信貸風險及減值評估

於各報告期末, 本集團面對的最大信貸風險(因對手方未能履行責任而導致本集團出現財務虧損)源自合併財務狀況表所載各項已確認金融資產之賬面值。

為減低信貸風險, 本集團之管理層已有監管程序, 確保採取跟進行動收回逾期債務。此外, 本集團會於報告期末根據預期信貸虧損模式對各項個別貿易及其他應收款項進行減值評估, 確保就無法收回之款項計提足夠減值虧損。

The Group does not have significant concentration of credit risk with exposure spread over a number of counter parties and customers.

Based on the ECL assessment, the credit exposures for all the financial assets (including trade and other receivables and deposits, amount due from related companies, pledged bank deposits and bank balances), which are subject to ECL assessment, are considered as low risk because the counterparties have a low risk of default and does not have material past due amounts. During the year, no loss allowance for these amounts was recognised for the Group (2018: approximately HK\$6,000) (Note 19).

Liquidity risk analysis

The following table details the Group's contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group is required to pay. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates. In addition, the following table details the Group's liquidity analysis for its derivative financial instruments.

The table includes both interest and principal cash flows. To the extent that interest flows are floating rates, the undiscounted amount is derived from the interest rate at the end of the reporting period.
