On behalf of Life Healthcare Group Limited (the "Company"), I present to the shareholders the results of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 March 2020.

OVERVIEW

The Group is primarily a provider of genetic testing and health data analysis services. Through its non-invasive tumor genetic testing technology and professional team, the Group is committed to the promotion and application of genetic testing in clinical medicine and related healthcare services, with the broader aim of becoming the provider of a full range of services and solutions for medical and health administration. The Group has its networks across mainland China, and has one research and development centre in Beijing and one production and testing centre in Guangzhou.

Since October 2019, the Group has changed its business strategy with a view to expand sales in a cost efficient manner and replaced its own marketing task force with third party agents to procure end users. Currently, there are four agents covering sales in 31 provinces in the PRC.

To further reduce costs, the Group has entrusted a professional service provider to perform the data extraction work. Based on the data extracted, the Group's technicians will perform the cancer detection genetic testing and analysis and generate the genetic testing reports for end users.

To complement the Group's mature early cancer detection by genetic testing business, the Company now also offers p-hydroxyphenylalanine (對羥基苯丙氨酸) test on the patient's urine using chemical colorimetric method to early detect cancer tumors. This chemical testing method can early detect different types of cancer such as gastric cancer, esophageal cancer, and pancreatic cancer.

The p-hydroxyphenylalanine urine test is convenient for users to use and know the result of the test immediately and cheaper and can be widely promoted in the society.

BUSINESS REVIEW

Healthcare products and services business

Over the years, the Group has built up its experience in the operation of and understanding in the business environment of the healthcare industry in PRC. Amongst the principal businesses of the Group, the healthcare business became the largest contributor to the Group's revenue in last year. Throughout last year, the Group continually strengthened the healthcare services in genetic testing and health data analysis.

截至二零二零年三月三十一日止年度,本集團錄得毛利約12,103,000港元(截至二零一九年三月三十一日止年度:約35,503,000港元)。本集團之整體毛利率為18.97%(截至二零一九年三月三十一日止年度:55.92%)。截至二零二零年及二零一九年三月三十一日止年度,本集團之整體毛利主要源自健康服務分部及借貸分部。

業務回顧

健康產品及服務業務

多年來,本集團對於中國健康行業營商環境中經營業務已累積一定經驗及認識。 於本集團芸芸主要業務中,健康業務於 去年成為本集團貢獻最多收益之業務。 於過去一年,本集團不斷加強有關基因 檢測及健康數據分析之健康服務。

The Group currently owns one research and development centre in Beijing, which organises and performs core technologies research and exploitations, and one production and testing centre in Guangzhou, which has Practice License of Medical Institution* (醫療機構執業許可證) and thus can provide services to the clients nationwide. The Group has centralized its core research capabilities under this structure with an aim to improve its productivity and provision of services.

Money lending business

The Group currently has a money lender license in Hong Kong under the Money Lenders Ordinance (Chapter 163 of the Laws of Hong Kong) for developing its money lending business to generate regular and long-term sustainable income for the Group. The gross profit margin generated from the money lending business has been the highest amongst the principal businesses of the Group for the past 4 financial years ended 31 March 2020 owing to its low cost of funding.

During the year ended 31 March 2020, interest income from the money lending business was HK\$5.74 million (year ended 31 March 2019: HK\$14.90 million), representing a decrease of approximately 61.48% as compared with the corresponding period last year. The decrease in interest income from the money lending business was owing to the downsize of the loan portfolio. Gross profit rate was 100% for the current year since the source of funding was primarily from the internal resources of the Group and thus no cost of finance was required under money lending business. In view of the prevailing market conditions especially COVID-19 epidemic, the Group is very cautious in granting new loans in the year ahead.

本集團目前於北京擁有一間專責統籌及 進行核心技術之研究與開發之研發中心, 以及於廣州擁有一間持有醫療機構執業 許可證之生產檢測中心,故可為全國各 地客戶提供服務。本集團根據此架構集 中統籌其核心研究能力,務求提升其生 產力及改善所提供服務。

借貸業務

本集團現時於香港持有根據香港法例第 163章放債人條例頒發的放債人牌照,以 發展借貸業務,為本集團產生穩定及長 期可持續收入。截至二零二零年三月三十 一日止過去四個財政年度,借貸業務所 得毛利率為本集團主要業務當中最高, 此乃由於其資金成本低。

截至二零二零年三月三十一日止年度,借貸業務利息收入為5,744,000港元(截至二零一九年三月三十一日止年度:14,898,000港元),較去年同期減少約61.48%。借貸業務利息收入減少乃由於貸款組合規模縮小。於本年度之毛利率為100%,原因為資金來源主要來自本集團內部資制,的時別是新型冠狀病毒疫情,本集團於未來一年批出新貸款時尤其謹慎。

PROSPECTS

Healthcare products and services business

The Group's genetic testing business, urine chemical testing business and medical and health products and services business are complimentary to each other and create synergy for the Group's healthcare businesses as a whole. The customers and business partners of these businesses are local governments, national institutions and organizations, hospitals and doctors and other overlapping customers, the Company can expand its sales network and cross-sell products in all its businesses, thereby achieving economies of scale and increase in revenue. Besides, the Company can obtain different information from these customers which are useful in the age of "big data". For example, the Company can analyze their demand and consumption behavior, and their potential demand for existing and new healthcare products to be launched by the Company. This will help the Company plan the development of its businesses and the appropriate marketing strategy to increase revenues.

With the improvement of quality of life and the raising of health awareness in the PRC and all around the world, the directors of the Company are of the view that its healthcare products and services businesses have great prospects and will bring return to the Company and its shareholders as a whole.

Money lending business

Competition in this business remains intensive. Moreover, compliance with rules and regulations is increasingly demanding. To cope with the keen market competition, the Group focuses on existing customers and leverages on them and their business associates for referral of new customers. For compliance with rules and regulations and to manage the credit risk, the Group will closely monitor and strengthen the internal control system of money lending business in order to achieve such purposes. In view of the prevailing market conditions especially COVID-19 epidemic, the Group is very cautious in granting new loans in the year ahead.

THE COMPANY AND THE AUDIT COMMITTEE'S VIEW ON THE QUALIFIED OPINION OF THE INDEPENDENT AUDITOR'S REPORT

I. Interest in an associate

The Company considered a 30% owned company, Guangzhou Manrui Biotech Company Limited ("Manrui Biotech"), which specialises in the research and development of genetic testing technologies in particular non-invasive cancer screening and diagnosis, as an important component for the Group to generate revenue to the healthcare business segment. Therefore, the Company treated Manrui Biotech as part of the genetic and laboratory testing cash generating unit ("CGU"), and estimated the recoverable amount of this CGU in total using the valuation method with reference to the cashflow of the Group's healthcare segment revenue. ZHONGHUI is of the view that the Group's valuation method could not reflect the performance and value of Manrui Biotech because Manrui Biotech is only an associated company, instead of a subsidiary, of the Group that the aforesaid Group's valuation method is not applicable. On the other hand, Manrui Biotech did not generate any revenue from the Group for use of its technologies that valuation method based on Manrui Biotech's own cashflows is not feasible as well.

本公司及審核委員會對獨立核數師報告內保留意見之意見

I. 於一家聯營公司之權益

本公司認為,廣州漫瑞牛物信息技 術有限公司(「漫瑞生物」,一間本集 團擁有30%權益之公司,專門從事 研發基因檢測技術,尤其是無創腫 瘤篩查及診斷)乃本集團之重要組成 部分,以產生健康業務分部收益。 因此,本公司將漫瑞生物視為基因 及實驗室檢測現金產生單位(「現金 產生單位」)之一部分,並使用估值 方法及參考本集團健康分部收益現 金流量,估計此現金產生單位總可 收回金額。中匯認為,本集團之估 值方法無法反映漫瑞生物之業績及 價值,原因是漫瑞生物只屬本集團 之聯營公司,並非附屬公司,故上 述本集團之估值方法並不適用。另 一方面,漫瑞生物並無因使用其技 術而從本集團產生任何收益,故基 於漫瑞生物本身現金流量之估值方 法亦不可行。

The Company continued to use the Group's valuation method on Manrui Biotech to estimate the recoverable amount of the CGU and thus the Group's investment in Manrui Biotech for the year ended 31 March 2019. After making such assessments based on independent valuation report, the management was of the view that an impairment loss of approximately HK\$17.5 million was made for the CGU and thus the Group's investment in Manrui Biotech for the year ended 31 March 2019.

The options available to the Group to resolve Zhonghui's qualification on the Group's investment in Manrui Biotech are as follows:

- I. To negotiate with Manrui Biotech to increase the Group's shareholdings in Manrui Biotech to over 50% and use the aforesaid Group's valuation on Manrui Biotech when Manrui Biotech becomes a subsidiary of the Group;
- 2. To sell the Group's investment in Manrui Biotech when alternative technologies are available at commercial terms acceptable to the Group;
- 3. To cancel the exclusive arrangement or allow Manrui Biotech with prior written approval of the Group to solicit customers in the market in order to generate patent income for preparing Manrui Biotech's valuation based on the present value of its own cash flows; and
- 4. To negotiate with Manrui Biotech for entering into a patent agreement pursuant to which the Group will pay the patent cost to Manrui Biotech so that the valuation based on Manrui Biotech's present value of its own cash flows can be used.

為解决中匯對本集團於漫瑞生物之 投資的意見,本集團可採用的選擇 如下:

- I. 與漫瑞生物協商將本集團對 漫瑞生物的股權增至50%以上 並於漫瑞生物成為本集團附 屬公司時使用上述本集團對 漫瑞生物的估值;
- 於獲得替代技術時按本集團可接受的商業條款出售本集團於漫瑞生物的投資;
- 3. 取消獨家安排或在經本集團 事先書面批准的情況下允許漫 瑞生物於市場招攬客戶以就 基於漫瑞生物自有現金流量 的現值編製其估值賺取專利 收入:及
- 4. 與漫瑞生物協商訂立專利協 議,本集團將向漫瑞生物支付 專利費以便可使用基於漫瑞 生物自有現金流量現值的估 值。

These options could not be materialised because the Group could not reach an agreement with Manrui Biotech to increase the Group's shareholdings in Manrui Biotech to over 50% nor cancel the exclusive arrangement nor enter into a patent agreement. Moreover, the Group could not sell its investment in Manrui Biotech because alternative technologies were not available to the Group.

In order to resolve this qualification, the Group has discussed with the auditor to engage an independent valuer to provide the fair value of Manrui Biotech less cost of disposal. The independent valuation amount is HK\$20,000,000 based on the assumptions of, inter alia, a royalty rate of 5% which is commonly used in the market. However, the auditor was unable to obtain sufficient satisfactory evidence to verify the financial information and assumptions adopted in the valuation to reflect the economic performance of Manrui Biotech's technologies. As a result, the auditor keeps the qualification. The Group intends to reach a mutually agreed basis and assumptions of the valuation with the auditor in next year before performing an independent valuation on the Group's investment in Manrui Biotech in order to resolve the qualification.

The audit committee of the Company (the "Audit Committee") noted Zhonghui's qualification on the Group's investment in Manrui Biotech. The Audit Committee considered Manrui Biotech's technologies have economic value. However, it is difficult to determine the value of Manrui Biotech by performing a valuation based on the present value of the future cashflows of Manrui Biotech. As a result, ZHONGHUI has to qualify the Group's investment in Manrui Biotech for lack of sufficient audit evidence for the year ended 31 March 2019.

由於本集團未能與漫瑞生物達成協 議將本集團所持漫瑞生物的股權增 至50%以上或取消獨家安排或訂實 專利協議,故該等選擇未能落實 此外,由於本集團無法獲得替代 術,故本集團未能出售其於漫瑞生 物的投資。

According to Hong Kong Accounting Standard 36 ("HKAS 36"), the carrying amount of the Group's investment in Manrui Biotech should be carried at the higher of value in use and fair value less cost of disposal. The Company has engaged a valuer to do the valuation on the Group's investment in Manrui Biotech for the year ended 31 March 2020. Based on the valuation report, the fair value of the Group's investment in Manrui Biotech is HK\$20,000,000 as at 31 March 2020. Accordingly, an impairment loss of approximately HK\$7.3 million was made for the year ended 31 March 2020.

The Audit Committee is of the view that the carrying value of the Group's investment in Manrui Biotech at HK\$20,000,000 as at 31 March 2020 is fair and reasonable in accordance with HKAS 36 and based on an independent valuation report.

The Audit Committee agrees the management to reach a mutual agreement with the auditor on the basis and assumptions of the valuation in next year in order to remove the qualification.

The auditor agrees to the proposed actions of the management to reach a mutual agreement on the basis and assumptions of the valuation, to resolve the qualification in next year.

2. Prepayment

The prepayment relates to the accounting treatment of share options granted to certain consultants. The Company granted the share options to the consultants for their services to assist the Company to expand the healthcare market and to introduce business and financing opportunities to the Group that such services could bring future economic benefit to the Company's healthcare business segment. The management has conducted regular review on the consultants' work and communication with the consultants were conducted regularly.

審核委員會認為,於二零二零年三月三十一日,本集團於漫瑞生物之投資賬面價值為20,000,000港元乃屬公平及合理,符合香港會計準則第36號及獨立估值報告。

審核委員會同意管理層根據下年的 估值基礎和假設與核數師達成共識,以取消該保留意見。

核數師同意管理層下年就估值基礎 和假設達成共識以解决保留意見的 建議行動。

2. 預付款項

To resolve the audit qualification on the prepayment, the management will (i) strengthen the communications with the consultants, especially the communication in written form, so that the Company can provide more details about the services provided by the consultants; and (ii) enhance the management of the consulting services provided by the consultants in the future, regularly review the performance of the consultants and assess the value of theirs services to the Group by the designated person in business department and financing department.

The Group has obtained written reports from the consultants this year. Although some work/services provided by the consultants for the year ended 31 March 2020 can be quantified into economic benefits to the Group, ZHONGHUI is of the view that it is not sufficient to remove the qualification on prepayment as the unexpired period of time for the share options is 7 years. ZHONGHUI is lack of sufficient information to ascertain the economic benefits from the consultants' work/services for the next 7 years to justify the accounting treatment of recognizing the share options as prepayment. Therefore, this qualification cannot be resolved by quantifying the economic benefits of the services/ work done of the consultants for the year ended 31 March 2020. Instead, the Group has to provide sufficient evidence of the economic benefits of the services/work done of the consultants to the auditor for the next 7 years. The Group will follow this recommendation or fully impair the carrying amount of the prepayment in the sum of approximately HK\$15.9 million in next year in order to resolve this qualification.

The Audit Committee concurs to the intention of the Company to grant the share options to the consultants with an aim to obtain their work done/services for the benefit of the business of the Group. The Audit Committee noted the reports for the work done/services provided by the consultants this year. The Audit Committee concurs to the management's proposed further actions and advises the management to resolve the audit qualification by providing verifiable work done/services provided by the consultants that bring economic benefit to the Group for the unexpired period of time for the share options in order to support the accounting treatment of recognizing the share options as prepayment, failing which the management should provide full impairment on the prepayment in order to resolve this qualification.

截至二零二零年三月三十一日止年 度,儘管顧問所提供部分工作/服 務可量化為本集團之經濟利益,但 中匯認為,由於購股權之未到期時 間為七年,尚不足以取消預付款項 保留意見。中匯缺乏充足之資料以 確定未來七年顧問工作/服務之經 濟利益,從而將購股權確認為預付 款項之會計處理。本集團本年度已 取得顧問的書面報告。因此此保留 意見無法透過量化顧問截至二零二 零年三月三十一日止年度所提供服 務/執行工作的經濟利益而得出。 相反,本集團須提供充分證明顧問 於未來7年向核數師提供服務/執 行工作經濟利益的證據。本集團將 採納此推薦建議或全額就下年預 付款項的賬面值總額計提減值約 15,900,000港元,以解决此保留意 見,。

The auditor agrees to the proposed actions of the management to resolve the qualification in next year.

3. Investment at fair value through profit or loss

The Company entered into the Subscription Agreement with the Fund Manager, Shenzhen City William Financial Holding Limited, to subscribe for an aggregate amount of HK\$20 million of the Fund Units. On 24 April 2019, the Company announced that the Board noticed that the controlling shareholder of the holding company of the Fund Manager, Mr. Zhang Wei, has been arrested by the PRC authorities and investigation is in progress. The Company tried to contact the Fund Manager but in vain.

The Company had conducted a site visit to the Fund Manager's office in April 2019, and noted that it was no longer in operation. Redemption notice email and official notice had also been sent to the Fund Manager. At present, the Company is still unable to contact the Fund Manager, nor receive any response of the redemption matter from the Fund Manager. The Company has engaged a PRC law firm to follow up on the redemption of the Fund and obtained a legal analysis memo from the PRC law firm in 2019. The legal analysis memo advised that considering the then situation of the Fund Manager and legal procedures to be followed, there is an uncertainty whether the Company can recover all or part of the investment principal and investment income. In view of the significant uncertainty on the recoverability of the Fund, the management considered the fair value of the investment to be zero and it would be appropriate for the Group to make full impairment of approximately HK\$20,862,000 on such investment for the year ended 31 March 2019. The management will continue to try to liaise with the Fund Manager for the redemption of the Fund and take other remedial actions in recovering the Investment and protect the interests of the Company. The Audit Committee is of the view that it is prudent to make full impairment on the investment in the Fund.

為解决此保留意見,核數師同意管理層解決下年保留意見的建議行動。

3. 透過損益按公平值列賬之投資

本公司與基金經理深圳市威廉金融控股有限公司訂立認購協議,以認購總額為20,000,000港元之基金位。於二零一九年四月二十四日,本公司宣佈,董事會得悉基金經理理及司之控股股東張偉先生被中國當局拘捕,現正進行調查。本公司曾嘗試聯繫基金經理但不果。

於二零一九年四月,本公司實地視 察基金經理之辦公室,並得悉該公 司不再營運。同時亦已向基金經理 發出贖回通知電郵及公函。目前, 本公司仍無法聯繫基金經理,亦未 曾接獲基金經理對贖回事項之任何 回應。於二零一九年,本公司已委 聘中國律師事務所跟進贖回基金一 事,並自該中國律師事務所取得法 律分析備忘。法律分析備忘建議, 考慮到基金經理當時的實際情況及 後續可採取之法律程序,無法確 認本公司能否收回全部或部分投資 本金及投資收入。鑑於基金之可收 回性存在重大不確定性,管理層認 為,有關投資之公平值為零,且本 集團於截至二零一九年三月三十一 日止年度就有關投資作出全面減值 約20,862,000港元屬適當。管理層 將繼續嘗試聯繫基金經理以贖回基 金,並採取其他補救措施以收回該 投資及保障本公司利益。審核委員 會認為,就於基金之投資作出全面 減值屬審慎做法。

The Company has engaged a PRC law firm this year and according to its legal opinion, there is significant uncertainty and may have difficulty whether the Company can recover all or part of the investment principal and investment income. ZHONGHUI's qualification no longer exists as at 31 March 2020. However, the qualification in last year remains because this is a non-adjusting past event. To conclude, there will not be any qualification in this regard in next year to which the auditor agrees.

The Group has obtained a legal opinion from a PRC law firm, King & Wood Mallesons ("KWM") on the VIE Agreements according to the Company Law of the PRC (the "Company Law"), the Contract Law of the PRC (the "Contract Law") and other PRC laws, administrative regulations, administrative rules. KWM has provided its legal opinion that the signing each of the VIE Agreements is not illegal and each VIE agreement and its confirmation letter is not in breach of or in default under any PRC laws, and that each of the VIE Agreements is legally valid and enforceable. KWM has indicated that it cannot be precluded that the relevant foreign investment and health authorities' understanding of the relevant laws and regulations may different from its above legal opinions.

Life Healthcare has been accounted a 100% owned subsidiary of the Group for in the condensed consolidated financial statements of the Group, on the basis that the Group has effective control over Life Healthcare and the right to receive substantially all of Life Healthcare's economic benefits. The Board has determined that due to each of the VIE Agreements, which KWM has advised are legally valid and enforceable, Beijing Lianhe has existing rights and ability to direct the relevant activities of Life Healthcare, ie the activities that significantly affect Life Healthcare's returns. Further, Beijing Lianhe has exposure, or rights, to variable returns from its involvement with Life Healthcare as under the Exclusive Cooperation Agreement entered into between Beijing Lianhe and Life Healthcare, Life Healthcare shall pay a monthly consulting and service fee equal to the amount of Life Healthcare's monthly total income after deducting the expenses and costs directly incurred thereby. The control activities carried out by Beijing Lianhe, and how well it controls and manages the activities and operations of Life Healthcare, will directly affect the amount of its returns.

The Board is of the view that healthcare services especially the genetic testing and health data analysis services market in PRC is expected a new but growing field. Healthcare products and services segment recorded revenue and assets of approximately HK\$58.06 million and HK\$59.06 million respectively in the year ended 31 March 2020 and has become the most important business segment of the Group.

本集團已根據中國公司法(「公司法」)及中國合同法(「合同法」)及其他中國法律、行政規定及行政法規就VIE協議向一家中國規定及行政法規就VIE協議向一家中國法律意見。金杜表示簽定每一份VIE協議人其確認函議之一,每一以IE協議及其確認函議之一,由於有關法律,故此每一VIE協議定法不能排除相關外商投資及衛生主並法律意以有關法律法規做出與金杜上述法律意見不一致的理解。

蓮和醫療於本集團之簡明綜合財務報表 入賬列作本集團全資附屬公司,並以本 集團擁有蓮和醫療之實際控制權及有權 收取蓮和醫療絕大部分經濟利益之假設 為依據。由於訂立VIE協議,而金杜表示 每一協議在法律上屬有效及可予執行, 故董事會確認北京蓮和擁有現有權利及 能力對蓮和醫療之相關行動(對蓮和醫療 之回報構成重大影響之行動)作出指示。 此外,北京蓮和已承擔或有權取得根據 北京蓮和與蓮和醫療所訂立獨家合作協 議參與蓮和醫療業務所產生可變回報, 蓮和醫療須支付每月顧問及服務費,金 額相等於蓮和醫療每月總收入扣除由此 直接產生之開支及成本。北京蓮和所進 行控制活動及其如何妥善控制及管理蓮 和醫療之業務及營運將直接影響其回報 金額。

董事會認為,預期健康業務(特別是中國基因檢測及健康數據分析服務市場)屬新興但增長之領域。截至二零二零年三月三十一日止年度,健康產品及服務分部分別錄得收益及資產約58,061,000港元及59,059,000港元,並成為本集團最重要之業務分部。

Major risks associated with the Contractual Arrangements are summarized as follows: although KWM had expressed the view that the entering of each of the Contractual Arrangements is not in contravention of the relevant PRC laws and regulations, uncertainties however do exist regarding the interpretation and application of the PRC laws and regulations. If the PRC government determines that the Contractual Arrangements do not comply with the applicable laws and regulations of the PRC or issues further guidelines that impose stricter foreign ownership requirements in the Relevant Business, the Group's Relevant Business may be adversely affected. If that happens, the Company will seek other forms of contractual arrangements if then available to carry out the Relevant Business.

The Company has implemented the following internal control measures to safeguard its assets held through the Contractual Arrangements: (i) the officers of the Company in charge of Life Healthcare will regularly review the relevant parties' compliance with the Contractual Arrangements and other related matters, monitor the development of the Relevant Business and will report regularly to the Board; (ii) professional parties will be engaged to assist the Board to handle any specific issues arising from the Contractual Arrangements; (iii) the Company has controlled the board of directors of Beijing Lianhe, Life Healthcare and its subsidiaries; (iv) the auditors of the Company will be engaged to provide for the annual confirmations in compliance with Paragraph 16(c) of the Guidance Letter; and (v) Life Healthcare will prepare and provide monthly management accounts and key operating data to the Company.

During the year ended 31 March 2020, none of the VIE Agreements mentioned above has been unwound as none of the restrictions that led to the adoption of structured contracts has been removed.

風險及不確定性

本公司已識別本集團業務所面對之主要 風險及不確定性,包括經濟風險、經營風 險、監管風險及財務風險。本集團之業 務、未來經營業績及前景可能會因該等 風險及不確定性而受到重大不利影響。

The following highlights the principal risks and uncertainties of the Group and it is not meant to be exhaustive. There may be other risks and uncertainties which are not known to the Group or which may not be material now but turn out to be material in the future.

Economic Risks

- A severe or prolonged downturn of the global or PRC economy.
- Negative effect on our operational, financing or investing activities due to fluctuations in inflation, fluctuations in interest rates and other measures relating to financial policies in PRC.

Increase in interest rates may have an adverse effect on the money lending business of the Group as it will increase the cost of funding of the borrowers and lower the profit margin of their businesses which in turn will adversely affect their repayment ability of the loans advanced by the Group. The situation may be worsened in case of a slowdown in the economic growth of the global or PRC economy due to, for example, the COVID-19 epidemic. The Group will continue to review its loan portfolio and trade and other receivables on a regular basis in order to take appropriate actions on a timely basis.

Operational Risks

 Failure to compete in the competitive environment which the Group operates in or to keep up with technological developments.

Healthcare services business has the characteristics of high technological standard and rapid changes in the development. Failure to catch up with the technological development may adversely affect the healthcare services business of the Group. The Group will pay close attention to relevant technology developments and respond to possible technological changes in a timely manner.

 Failure to recruit and retain sufficient qualified staff with relevant experience and expertise in healthcare services business.

Due to the fierce competition of talents in the healthcare industry recently, the Group's operation may be affected adversely if the Group has an insufficient talent pool. A shortage of professional technicians will affect the progress and quality of the R&D projects, thus the Group's operation. Therefore, if the Group fails to retain suitable talents, the turnover rate

下文扼要列示本集團所面對之主要風險 及不確定性,惟並非全面列示。其可能 存在本集團未知或現時未必重大但未來 變得重大之其他風險及不確定性。

經濟風險

- 一 全球或中國經濟嚴重或持續低迷。
- 通脹、利率波動及其他與中國金融 政策有關之措施對經營、財務或投 資活動造成之負面影響。

經營風險

一 未能在本集團經營所在之競爭環境中有效競爭或追上科技發展。

健康服務業務之發展不但具高技術標準, 且日新月異,若未能迎合有關技術發展, 或會對本集團之健康服務業務構成不利 影響。本集團將密切關注有關技術發展, 及時應對可能出現的技術變革。

未能招聘及留聘足夠具備健康服務業務相關經驗及專長之合資格員工。

由於現時健康服務行業的人才競爭激烈,如集團出現人才儲備不足,或會對集團的營運造成負面影響。專業技術人員出現短缺將會影響研發項目進度和質量,從而影響集團的營運。因此,若集團未

being above the acceptable level may affect the long-term development of the Group. In view of the above, the Group will properly reduce the corresponding risks by stepping up its effort in recruitment, enhancing the professionalism of technicians and establishing the Group's reputation as an employer in the human resources market under the premise of taking certain risks.

Regulatory Risks

- Failure to adhere to laws, regulations and rules, or to obtain or maintain all applicable permits and approvals.
- Adverse effects arising from change in laws and regulations affecting our businesses.

The Group needs to obtain the relevant licence(s) in order to carry out its healthcare services business in PRC. If the Group fails to renew the relevant licence(s) or comply with the rules and regulations of the governing authorities, the operations of its healthcare service business will be adversely affected. In order to avoid this from happening, the Group pays close attention to changes in rules and regulations relating to licencing and changes in policy of the governing authorities.

 Adverse effects arising from change in laws and regulations affecting the legality and enforceability of each of the VIE agreements.

PRC laws haven't expressly stipulated the legality of the VIE agreement between foreign-invested companies and Chinese-funded companies which carry out items forbidden for foreign investment with China. The PRC laws still leave uncertainty as to whether foreign investors' controlling PRC onshore variable interest entities via contractual arrangements will be recognized as "foreign investment" and thus be subject to the restrictions/ prohibitions on foreign investments. So we cannot assure you that each of the VIE agreements between Beijing Lianhe and Life Healthcare can be continuously deemed as legal and enforceable by the governing authorities in the future. If the VIE agreements are deemed as illegal, the Group will fail to exercise effective control over Life Healthcare and receive substantially all of the economic benefits of Life Healthcare. Besides, the operation of its genetic testing service within China will be adversely effected.

能挽留合適的人才,流失率超過可接受水平或會影響團長遠的發展。有鑒於此,集團會在承擔一定風險的前提下,通過加強招聘力度、提高技術人員的專業性、以及建立集團於人力資源市場的僱主品牌,以適當降低對應之風險。

監管風險

- 未有效遵守法律、法例及規定或取得或維持所有適用許可及批准。
- 影響業務之法律及法例出現變動而 造成之不利影響。

本集團需要取得相關許可證以於中國進行健康服務業務。倘本集團未能續新相關許可證或遵守監管機構之規則及規例,則會對其健康服務業務之營運構成不利影響。為免發生有關事宜,本集團會密切留意與發牌相關規則及規例之變動,以及監管機構之政策變動。

影響VIE協議合法性及可執行性之 法律及法例出現變動而造成之不利 影響。

Financial Risks

 Details of financial risks are set out in Note 5 to the consolidated financial statements.

KEY AUDIT MATTERS

Key audit matter is a matter that, in our professional judgement, was of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. In addition to the matters described in the Basis for Qualified Opinion section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Loan receivables and loan interest receivables

Refer to Note 22 to the consolidated financial statements.

The Group tested the amounts of loan receivables and loan interest receivables for impairment. This impairment test is significant to our audit because the aggregate balance of loan receivables and loan interest receivables of approximately HK\$19,556,000 as at 31 March 2020 is material to the consolidated financial statements. In addition, the Group's impairment test involves application of judgement and is based on assumptions and estimates.

Our audit procedures included, among others:

- Assessing the Group's procedures on granting credit limits and credit periods to borrowers;
- Assessing the Group's relationship and transaction history with borrowers;
- Evaluating the Group's impairment assessment;
- Assessing the aging of the debts;
- Checking subsequent settlements from borrowers;
- Assessing the value of collateral for the debts;
- Assessing the credit worthiness of borrowers; and
- Assessing the disclosure of the Group's exposure to credit risk in the consolidated financial statements.

關鍵審計事項

關鍵審計事項乃根據我們的專業判斷,要本期間綜合財務報表的專項。該事項乃於我們審核整體結為財務報表及就此出具意見時進行見見,所我們不會就該事項提供單獨意見人。 「保留意見基準」一節所述事項外,須於已確定以下事項為關鍵審計事項,須於我們的報告中傳達。

應收貸款及應收貸款利息

茲提述綜合財務報表附註22。

貴集團對應收貸款及應收貸款利息金額 進行減值測試。該減值測試對我們的審 核而言屬重大,原因是二零二零年三月三 十一日應收貸款及應收貸款利息總額約 19,556,000港元對綜合財務報表而言屬重 大。此外, 貴集團的減值測試涉及應 用判斷,並以假設及估計為基礎。

我們的審計程序包括(其中包括):

- 一 評估 貴集團有關向借款人授予信 貸限額及信貸期的程序;
- 一 評估 貴集團與借款人的關係和交易歷史;
- 一 評價 貴集團的減值評估;
- 一 評估債務賬齡;
- 一 檢查借款人的後續結算;
- 一 評估債務抵押品的價值;
- 一 評估借款人的信譽;及
- 一 評估 貴集團於綜合財務報表中對 所面臨信貸風險的披露。

Independent Auditor's Report 獨立核數師報告

We consider that the Group's impairment test for loan receivables and loan interest receivables are supported by the available evidence.

我們認為, 貴集團應收貸款及應收貸款利息的減值測試獲可得憑證支持。

Trade and other receivables

Refer to Note 23 to the consolidated financial statements.

The Group tested the amounts of trade and other receivables for impairment. This impairment test is significant to our audit because the aggregate balance of trade and other receivables of approximately HK\$58,314,000 as at 31 March 2020 is material to the consolidated financial statements. In addition, the Group's impairment test involves application of judgement and is based on assumptions and estimates.

Our audit procedures included, among others:

- Assessing the Group's procedures on granting credit limits and credit periods to customers and debtors;
- Assessing the Group's relationship and transaction history with customers and debtors:
- Evaluating the Group's impairment assessment;
- Assessing the aging of the debts;
- Checking subsequent settlements from customers and debtors;
- Checking the repayment schedules of customers and debtors;
- Assessing the credit worthiness of customers and debtors; and
- Assessing the disclosure of the Group's exposure to credit risk in the consolidated financial statements.

應收貿易及其他應收款項

茲提述綜合財務報表附註23。

貴集團對應收貿易及其他應收款項進行減值測試。該減值測試對我們的審核而言屬重大,原因是二零二零年三月三十一日應收貿易及其他應收款項總額約58,314,000港元對綜合財務報表而言屬重大。此外, 貴集團的減值測試涉及應用判斷,並以假設及估計為基礎。

我們的審計程序包括(其中包括):

- 評估 貴集團有關向客戶及債務人 授予信貸限額及信貸期的程序;
- 一 評估 貴集團與客戶及債務人的關係和交易歷史;

- 一 評估客戶及債務人的信譽;及
- 評估 貴集團於綜合財務報表中對 所面臨信貸風險的披露。

Independent Auditor's Report

獨立核數師報告

We consider that the Group's impairment test for trade and other receivables is supported by the available evidence.

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises all the information in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. As described in the Basis for Qualified Opinion section above, we were unable to obtain sufficient appropriate evidence about the interest in an associate, prepayment and investment at fair value through profit or loss. Accordingly, we are unable to conclude whether or not the other information is materially misstated with respect to those matters.

RESPONSIBILITIES OF DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

我們認為, 貴集團應收貿易及其他應 收款項的減值測試獲可得憑證支持。

倘若我們基於已執行的工作認為其他資料出現重大錯誤陳述,我們須報告該事實。誠如上文保留意見基準一節所述,我們無法就於一家聯營公司之權益、預付款項及透過損益按公平值列賬之投資 獲得足夠適當憑證。因此,我們無法就 其他資料是否在有關事宜上存在重大錯 誤陳述得出結論。

董事就綜合財務報表須承擔的責任

董事須負責根據香港會計師公會頒佈的《香港財務報告準則》及香港《公司條例》須予披露的要求擬備真實而中肯的綜合財務報表,並對其認為為使綜合財務報表的擬備不存在由於欺詐或錯誤而導致的重大錯誤陳述所需的內部控制負責。

Independent Auditor's Report 獨立核數師報告

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

A further description of our responsibilities for the audit of the consolidated financial statements is located at the HKICPA's website at: http://www.hkicpa.org.hk/en/standards-and-regulations/standards/auditing-

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

In the current year, the Group has adopted all the new and revised Hong Kong Financial Reporting Standards (the "HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") that are relevant to its operations and effective for its accounting year beginning on I April 2019. HKFRSs comprise Hong Kong Financial Reporting Standards (the "HKFRS"), Hong Kong Accounting Standards (the "HKAS") and Interpretations. The adoption of these new and revised HKFRSs did not result in significant changes to the Group's accounting policies, presentation of the Group's consolidated financial statements and amounts reported for the current year and prior years except as stated below.

HKFRS 16 "Leases"

The impact of the adoption of HKFRS 16 "Leases" ("HKFRS 16") on the Group's financial information and the new accounting policies that have been applied from 1 April 2019, where they are different to those applied in prior periods.

The Group has adopted HKFRS 16 retrospectively from 1 April 2019, but has not restated comparatives for the 31 March 2019 reporting period, as permitted under the specific transitional provisions in the standard. The reclassifications and the adjustments arising from the new leasing rules are therefore recognised in the opening statement of financial position on 1 April 2019.

本集團已自二零一九年四月一日追溯採納香港財務報告準則第16號,惟在該準則之特定過渡條文允許下,並無重列二零一九年三月三十一日報告期之比較數字。因此,因新租賃規則而產生之重新分類與調整只於二零一九年四月一日之年初財務狀況表確認。

APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (Continued) HKFRS 16 "Leases" (Continued)

Adjustments recognised on adoption of HKFRS 16

On adoption of HKFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as "operating leases" under the principles of HKAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 April 2019.

The Group has also elected not to reassess whether a contract is, or contains a lease at the date of initial application. Instead, for contracts entered into before the transition date, the Group relied on its assessment made applying HKAS 17 and HKFRIC 4 Determining whether an arrangement contains a Lease.

As a lessee, the Group's leases are mainly rentals of offices. The right-of-use assets were measured at the amount equal to the lease liability and there were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application. HKFRS 16 has been applied and resulted in changes in consolidated amounts reported in the consolidated financial statements as follows:

香港財務報告準則第16號「租賃」 (續)

採納香港財務報告準則第16號確認 的調整

於採納香港財務報告準則第16號時,本集團就以往根據香港會計準則第17號租賃之原則分類為「經營租賃」之租賃確認租賃負債。該等負債按以承租人於二零一九年四月一日之遞增借款利率貼現之餘下租賃款項現值計量。

本集團亦已選擇不重新評估合約在 首次應用日期是否為或包含租賃。 相反,對於在過渡日期之前訂立的 合約,本集團依據其應用香港會 準則第17號及香港財務報告詮釋 員會詮釋第4號釐定安排是否包含 租賃作出的評估。

作為承租人,本集團之租賃主要租赁主要租赁。使用權資產在按無關之租賃主要租赁。 負債相等之金額計量,且並無任實 繁重租賃合約,以致須於調整 日期對使用權資產作出調整。 日期對使用權資產作出經應用 財務報告準則第16號已經應用 引起綜合財務報表呈報的綜合 的變更如下:

APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (Continued) HKFRS 16 "Leases" (Continued)

Adjustments recognised on adoption of HKFRS 16 (Continued)

The operating lease commitments disclosed as at 31 March 2019 were HK\$40,115,000, while the lease liabilities recognised as at 1 April 2019 were HK\$33,428,000 of which HK\$5,262,000 were current lease liabilities and HK\$28,166,000 were non-current lease liabilities.

The differences between the operating lease commitments discounted using the lessee's incremental borrowing rate of 4.75% and the total lease liabilities recognised in the consolidated statement of financial position at the date of initial application of HKFRS 16 comprised the exclusion of short-term leases recognised on a straight-line basis as expenses.

The Group has not applied the new HKFRSs that have been issued but are not yet effective. The application of these new HKFRSs will not have material impact on the consolidated financial statements of the Group.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

These consolidated financial statements have been prepared under the historical cost convention, as modified by the investments which are carried at their fair values.

香港財務報告準則第16號「租賃」 (續)

採納香港財務報告準則第16號確認 的調整(續)

於二零一九年三月三十一日披露之經營租賃承擔為40,115,000港元,而於二零一九年四月一日確認之租賃負債為33,428,000港元,其中5,262,000港元為流動租賃負債,28,166,000港元為非流動租賃負債。

採用承租人的遞增借款利率4.75% 折現的經營租賃承擔與於初步應用 香港財務報告準則第16號日期在綜 合財務狀況表中確認的租賃負債總 額之間的差異包括排除按直線法確 認為開支的短期租賃。

本集團並未應用已頒佈但尚未生效 的新訂香港財務報告準則。應用該 等新訂香港財務報告準則不會對本 集團的綜合財務報表造成重大影 響。

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

The preparation of consolidated financial statements in conformity with HKFRSs requires the use of certain key assumptions and estimates. It also requires the directors to exercise their judgements in the process of applying the accounting policies. The areas involving critical judgements and areas where assumptions and estimates are significant to these consolidated financial statements, are disclosed in note 4.

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below.

Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 March. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties, to determine whether it has control. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

3. 主要會計政策(續)

編製符合香港財務報告準則之綜合 財務報表須採用主要假設及估計, 亦要求董事在應用會計政策過程中 作出判斷。涉及重大判斷之範疇及 對此等綜合財務報表有重大影響之 假設及估計之範疇於附註4中披露。

編製此等綜合財務報表所應用之主 要會計政策載列如下。

綜合賬目

在評估控制權時,本集團考慮其潛在投票權以及其他方的潛在投票權,以判定其是否擁有控制權。僅當潛在投票權的持有人有實際能力行使該權力時,該潛在投票權方獲考慮。

附屬公司自其控制權轉移予本集團 當日起綜合入賬,並於控制權終止 當日取消綜合入賬。

For the year ended 31 March 2020 截至二零二零年三月三十一日止年度

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Consolidation (Continued)

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill relating to that subsidiary and any related accumulated translation reserve.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to the Company. Non-controlling interests are presented in the consolidated statement of financial position and consolidated statement of changes in equity within equity. Non-controlling interests are presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of profit or loss and total comprehensive income for the year between the non-controlling shareholders and owners of the Company.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling shareholders even if this results in the non-controlling interests having a deficit balance.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions (i.e. transactions with owners in their capacity as owners). The carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

3. 主要會計政策(續)

綜合賬目(續)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combination and goodwill

The acquisition method is used to account for the acquisition of a subsidiary in a business combination. The cost of acquisition is measured at the acquisition-date fair value of the assets given, equity instruments issued, liabilities incurred and contingent consideration. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received. Identifiable assets and liabilities of the subsidiary in the acquisition are measured at their acquisition-date fair values.

The excess of the cost of acquisition over the Company's share of the net fair value of the subsidiary's identifiable assets and liabilities is recorded as goodwill. Any excess of the Company's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss as a gain on bargain purchase which is attributed to the Company.

In a business combination achieved in stages, the previously held equity interest in the subsidiary is remeasured at its acquisition-date fair value and the resulting gain or loss is recognised in consolidated profit or loss. The fair value is added to the cost of acquisition to calculate the goodwill.

If the changes in the value of the previously held equity interest in the subsidiary were recognised in other comprehensive income (for example, equity investments at fair value through other comprehensive income), the amount that was recognised in other comprehensive income is recognised on the same basis as would be required if the previously held equity interest were disposed of.

3. 主要會計政策(續) 業務合併及商譽

收購成本超出本公司應佔附屬公司 可識別資產及負債之公平淨值之 差額乃列作商譽。本公司應佔可識 別資產及負債之公平淨值超出收 購成本之差額乃於綜合損益內確 認為本公司應佔之議價購買收益。

對於分段進行之業務合併,先前已 持有之附屬公司之股權乃按其於收 購日期之公平值重新計量,而由此 產生之損益於綜合損益內確認。公 平值會加入至收購成本以計算商 譽。

倘先前已持有之附屬公司之股權之 價值變動已於其他全面收益內確認 (例如透過其他全面收益按公平值 列賬的股本投資),則於其他全面收 益確認之金額乃按在先前已持有之 股權被出售的情況下所須之相同基 準確認。

For the year ended 31 March 2020 截至二零二零年三月三十一日止年度

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combination and goodwill (Continued)

Goodwill is tested annually for impairment or more frequently if events or changes in circumstances indicate that it might be impaired. Goodwill is measured at cost less accumulated impairment losses. The method of measuring impairment losses of goodwill is the same as that of other assets as stated in the accounting policy (II) below. Impairment losses of goodwill are recognised in consolidated profit or loss and are not subsequently reversed. Goodwill is allocated to cash-generating units that are expected to benefit from the synergies of the acquisition for the purpose of impairment testing.

The non-controlling interests in the subsidiary are initially measured at the non-controlling shareholders' proportionate share of the net fair value of the subsidiary's identifiable assets and liabilities at the acquisition date.

Associates

Associates are entities over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of an entity but is not control or joint control over those policies. The existence and effect of potential voting rights that are currently exercisable or convertible, including potential voting rights held by other entities, are considered when assessing whether the Group has significant influence. In assessing whether a potential voting right contributes to significant influence, the holder's intention and financial ability to exercise or convert that right is not considered.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Associates (Continued)

Investment in an associate is accounted for in the consolidated financial statements by the equity method and is initially recognised at cost. Identifiable assets and liabilities of the associate in an acquisition are measured at their fair values at the acquisition date. The excess of the cost of acquisition over the Group's share of the net fair value of the associate's identifiable assets and liabilities is recorded as goodwill. The goodwill is included in the carrying amount of the investment and is tested for impairment together with the investment at the end of each reporting period when there is objective evidence that the investment is impaired. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss.

The Group's share of an associate's post-acquisition profits or losses is recognised in consolidated profit or loss, and its share of the post-acquisition movements in reserves is recognised in the consolidated reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The gain or loss on the disposal of an associate that results in a loss of significant influence represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that associate and (ii) the Group's share of the net assets of that associate plus any remaining goodwill relating to that associate and any related accumulated translation reserve. If an investment in an associate becomes an investment in a joint venture, the Group continues to apply the equity method and does not remeasure the retained interest.

Associates (Continued)

Unrealised profits on transactions between the Group and its associates are eliminated to the extent of the Group's interests in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in HK\$, which is the Group's presentation currency.

(b) Transactions and balances in each entity's financial statements

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary items that are measured at fair values in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

Foreign currency translation (Continued)

(c) Translation on consolidation

The results and financial position of all the group entities that have a functional currency different from the Group's presentation currency are translated into the Group's presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates);
 and
- All resulting exchange differences are recognised in the translation reserve.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities and of borrowings are recognised in the translation reserve. When a foreign operation is sold, such exchange differences are recognised in profit or loss as part of the gain or loss on disposal.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment loss.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their costs less their residual values over the estimated useful lives on a straight-line basis. The principal useful lives are as follows:

the term of lease or 7 years

Furniture fixtures and equipment 3–7 years

Motor vehicles 3–10 years

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

The Group as lessee

Leases are recognised as right-of-use assets and corresponding lease liabilities when the leased assets are available for use by the Group. Right-of-use assets are stated at cost less accumulated depreciation and impairment losses. Depreciation of right-of-use assets is calculated at rates to write off their cost over the shorter of the asset's useful life and the lease term on a straight-line basis. The principal annual rates are as follows:

Land and buildings

35.3%-50%

Right-of-use assets are measured at cost comprising the amount of the initial measurement of the lease liabilities, lease payments prepaid, initial direct costs and the restoration costs. Lease liabilities include the net present value of the lease payments discounted using the interest rate implicit in the lease if that rate can be determined, or otherwise the Group's incremental borrowing rate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the lease liability.

Payments associated with short-term leases and leases of low-value assets are recognised as expenses in profit or loss on a straight-line basis over the lease terms. Short-term leases are leases with an initial lease term of 12 months or less. Low-value assets are assets of value below US\$5,000.

Research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred. An internally generated intangible asset arising from the Group's healthcare service development is recognised only if all of the following conditions are met:

- An asset is created that can be identified (such as software and new processes);
- It is probable that the asset created will generate future economic benefits; and
- The development cost of the asset can be measured reliably.

Internally generated intangible assets are stated at cost less accumulated amortisation and impairment losses. Where no internally generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average method. The cost of finished goods and work in progress comprises raw materials, direct labour and an appropriate proportion of all production overhead expenditure, and where appropriate, subcontracting charges. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Financial assets are derecognised when the contractual rights to receive cash flows from the assets expire; the Group transfers substantially all the risks and rewards of ownership of the assets; or the Group neither transfers nor retains substantially all the risks and rewards of ownership of the assets but has not retained control on the assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid is recognised in profit or loss.

Financial assets

Financial assets are recognised and derecognised on a trade date basis where the purchase or sale of an asset is under a contract whose terms require delivery of the asset within the timeframe established by the market concerned, and are initially recognised at fair value, plus directly attributable transaction costs except in the case of investments at fair value through profit or loss. Transaction costs directly attributable to the acquisition of investments at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets of the Group are classified under the following categories:

- Financial assets at amortised cost;
- Equity investments at fair value through other comprehensive income; and
- Investments at fair value through profit or loss.

(i) Financial assets at amortised cost

Financial assets (including trade and other receivables) are classified under this category if they satisfy both of the following conditions:

- the assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

They are subsequently measured at amortised cost using the effective interest method less loss allowance for expected credit losses.

(ii) Equity investments at fair value through other comprehensive income

On initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments that are not held for trading as at fair value through other comprehensive income.

Equity investments at fair value through other comprehensive income are subsequently measured at fair value with gains and losses arising from changes in fair values recognised in other comprehensive income and accumulated in the equity investment revaluation reserve. On derecognition of an investment, the cumulative gains or losses previously accumulated in the equity investment revaluation reserve are not reclassified to profit or loss.

Dividends on these investments are recognised in profit or loss, unless the dividends clearly represent a recovery of part of the cost of the investment.

(iii) Investment at fair value through profit or loss

Financial assets are classified under this category if they do not meet the conditions to be measured at amortised cost and the conditions of debt investment at fair value through other comprehensive income unless the Group designates an equity investment that is not held for trading as at fair value through other comprehensive income on initial recognition.

Investment at fair value through profit or loss are subsequently measured at fair value with any gains or losses arising from changes in fair values recognised in profit or loss. The fair value gains or losses recognised in profit or loss are net of any interest income and dividend income. Interest income and dividend income are recognised in profit or loss.

Loss allowances for expected credit losses

The Group recognises loss allowances for expected credit losses on financial assets at amortised cost. Expected credit losses are the weighted average of credit losses with the respective risks of a default occurring as the weights.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loss allowances for expected credit losses (Continued)

At the end of each reporting period, the Group measures the loss allowance for a financial instrument at an amount equal to the expected credit losses that result from all possible default events over the expected life of that financial instrument ("lifetime expected credit losses") for trade receivables, or if the credit risk on that financial instrument has increased significantly since initial recognition.

If, at the end of the reporting period, the credit risk on a financial instrument (other than trade receivables) has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to the portion of lifetime expected credit losses that represents the expected credit losses that result from default events on that financial instrument that are possible within 12 months after the reporting period.

The amount of expected credit losses or reversal to adjust the loss allowance at the end of the reporting period to the required amount is recognised in profit or loss as an impairment gain or loss.

Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents represent cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term highly liquid investments which are readily convertible into known amounts of cash and subject to an insignificant risk of change in value. Bank overdrafts which are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents.

預期信貸虧損之虧損撥備(續)

於各報告期末,本集團計量財務工具的虧損撥備,金額等於該財務工具預計年期內所有可能違約事件所產生應收貿易款項的預期信貸虧損(「全期預期信貸虧損」),或自初步確認後該財務工具的信貸風險大幅增加。

倘於報告期末,財務工具(應收貿易款項除外)的信貸風險自初步確認後並無大幅增加,本集團會按相等於反映該財務工具可能於報告期後 12個月內發生的違約事件所引致預期信貸虧損的全期預期信貸虧損部分的金額,計量該財務工具之虧損撥備。

Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under HKFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Revenue from contracts with customers

Revenue is measured based on the consideration specified in a contract with a customer with reference to the customary business practices and excludes amounts collected on behalf of third parties. For a contract where the period between the payment by the customer and the transfer of the promised product or service exceeds one year, the consideration is adjusted for the effect of a significant financing component.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue from contracts with customers (Continued)

The Group recognises revenue when it satisfies a performance obligation by transferring control over a product or service to a customer. Depending on the terms of a contract and the laws that apply to that contract, a performance obligation can be satisfied over time or at a point in time. A performance obligation is satisfied over time if:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance;
- the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If a performance obligation is satisfied over time, revenue is recognised by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the product or service.

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the at the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(b) Pension obligations

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged in profit or loss represents contributions payable by the Group to the funds.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Share-based payments

The Group issues equity-settled share-based payments to certain directors, employees and consultants.

Equity-settled share-based payments to directors and employees are measured at the fair value (excluding the effect of non market-based vesting conditions) of the equity instruments at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non market-based vesting conditions.

Equity-settled share-based payments to consultants are measured at the fair value of the services rendered or if the fair value of the services rendered cannot be reliably measured, at the fair value of the equity instruments granted. The fair value is measured at the date the Group receives the services and is recognised as an expense.

Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation (Continued)

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation (Continued)

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Segment reporting

Operating segments and the amounts of each segment item reported in the financial statements are identified from the financial information provided regularly to the Group's most senior executive management for the purpose of allocating resources and assessing the performance of the Group's various lines of business.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of productions processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

For the year ended 31 March 2020 截至二零二零年三月三十一日止年度

3. SIGNIFICANT ACCOUNTING POLICIES (Continued) Impairment of assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets except investments, inventories and receivables, to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of any impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

For the year ended 31 March 2020 截至二零二零年三月三十一日止年度

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

4. CRITICAL JUDGEMENTS AND KEY ESTIMATES

Critical judgements in applying accounting policies

In the process of applying the accounting policies, the directors have made the following judgements that have the most significant effect on the amounts recognised in the consolidated financial statements

(a) Control over a subsidiary

Notwithstanding the lack of equity ownership in 蓮和(北京) 醫療科技有限公司 (Life Healthcare (Beijing) Co., Ltd.*) ("Life Healthcare"), the Group is able to exercise control over Life Healthcare and its subsidiaries ("Life Healthcare Group") through a series of agreements with all of its ultimate shareholders (the "Structural Agreements").

The directors of the Company assessed whether or not the Group has control over Life Healthcare based on whether the Group has the practical ability to direct the relevant activities of Life Healthcare unilaterally. In making their judgement, the directors of the Company considered the Group's rights through the Structural Agreements, and concluded that the Group has sufficiently dominant voting interest to direct the relevant activities of Life Healthcare and therefore the Group has control over Life Healthcare.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

4. 重要判斷及主要估計 應用會計政策之關鍵判斷

於應用會計政策時,董事作出以下 對綜合財務報表確認金額具最大影 響之判斷。

(a) 對一家附屬公司之控制權

儘管未能取得蓮和(北京)醫療科技有限公司(「蓮和醫療」)之股本擁有權,本集團能透過與其全體最終股東所訂立之一系列協議(「結構協議」)控制蓮和醫療及其附屬公司(「蓮和醫療集團」)。

4. CRITICAL JUDGEMENTS AND KEY ESTIMATES (Continued)

Key sources of estimation uncertainty (Continued)

(a) Impairment loss of trade and other receivables

The Group makes impairment loss of trade and other receivables based on assessments of the recoverability of the trade and other receivables, including the current creditworthiness and the past collection history of each debtor. Impairments arise where events or changes in circumstances indicate that the balances may not be collectible. The identification of bad and doubtful debts requires the use of judgement and estimates. Where the actual result is different from the original estimate, such difference will impact the carrying value of the trade and other receivables and doubtful debt expenses in the year in which such estimate has been changed.

(b) Impairment loss of loan receivables and loan interest receivables

When there is objective evidence of impairment loss of loan receivables and loan interest receivables, the Group takes into consideration the estimation of future cash flows of respective loan receivables and loan interest receivables, including subsequent settlement of loans and guarantee held. A considerable amount of judgement is required in assessing the ultimate realisation of loan receivables from these customers, if applicable, including the current creditworthiness and the past collection history of each customer. The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). Where the actual future cash flows are less than expected, a material impairment loss may arise.

4. 重要判斷及主要估計(續) 估計不明朗因素之主要來源(續)

4. CRITICAL JUDGEMENTS AND KEY ESTIMATES (Continued) Key sources of estimation uncertainty (Continued)

(c) Impairment loss of interest in an associate

Interest in an associate is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Value-in-use calculations are used for assessing the recoverable amount of these interests. These calculations require use of judgements and estimates.

Management judgement is required for assessing impairment particularly in assessing: (i) whether an event has occurred that may indicate that the related carrying value of interests may not be recoverable; and (ii) whether the carrying value of the interests can be supported by the recoverable amount. Changing the estimations used by management in assessing impairment could materially affect the recoverable amount used in the impairment test and as a result affect the Group's consolidated financial position and consolidated results of operations.

4. CRITICAL JUDGEMENTS AND KEY ESTIMATES (Continued)

Key sources of estimation uncertainty (Continued)

(d) Property, plant and equipment and depreciation

The Group determines the estimated useful lives, residual values and related depreciation charges for the Group's property, plant and equipment. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment of similar nature and functions. The Group will revise the depreciation charge where useful lives and residual values are different to those previously estimated, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold.

(e) Income taxes

The Group is subject to income taxes in several jurisdictions. Significant estimates are required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

5. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign currency risk, interest rate risk, credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Foreign currency risk

The Group has minimal exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in the functional currencies of the Group's entities. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

(b) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to loan receivables which carried at fixed rates.

The Group is exposed to cash flow interest rate risk in relation to variable-rate bank balances.

The Group currently does not have interest rate hedging policy. However, the management will consider hedging significant interest rate exposure should the need arise.

In the opinion of the management of the Group, the expected change in interest rate will not have significant impact on the interest income on bank balances, hence sensitivity analysis is not presented.

5. 財務風險管理

本集團之業務須承受各種財務風險:外幣風險、利率風險、信貸風險及流動資金風險。本集團之整體風險管理項目集中於金融市場無法預測之特性,以及尋求盡量減少對本集團財務表現可能造成之不利影響。

(a) 外幣風險

(b) 利率風險

本集團承受定息應收貸款之 公平值利率風險。

本集團承受浮息銀行結餘之 現金流量利率風險。

本集團目前並無利率對沖政 策。然而,管理層將於有需要 時考慮對沖重大利率風險。

本集團管理層認為,利率之預期變動將不會對銀行結餘之 利息收入造成重大影響,因 此並無呈列敏感度分析。

For the year ended 31 March 2020 截至二零二零年三月三十一日止年度

5. FINANCIAL RISK MANAGEMENT (Continued)

(c) Credit risk

The carrying amount of the cash and bank balances, trade and other receivables, loan receivables and loan interest receivables included in the consolidated statement of financial position represents the Group's maximum exposure to credit risk in relation to the Group's financial assets.

As at 31 March 2020, the Group had certain concentration of credit risk as approximately 76% and 99% of the Group's trade receivables were due from the Group's largest customer and the five largest customers. As at 31 March 2019, the Group has no significant concentrations of credit risk.

The credit risk on cash and bank balances is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

The Group considers whether there has been a significant increase in credit risk of financial assets on an ongoing basis throughout each reporting period by comparing the risk of a default occurring as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. Especially the following information is used:

 actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations;

5. 財務風險管理(續)

(c) 信貸風險

財務狀況表所載現金及銀行結餘、應收貿易及其他應收款項、應收貸款及應收貸款 利息之賬面值指本集團就其 財務資產所面臨最大信貸風 險。

於二零二零年三月三十一日, 由於本集團約76%及99%的 收貿易款項為本集團最大 戶及五大客戶的欠款,因此 集團存在一定的信貸風險 中情況。於二零一九年三月 十一日,本集團並無重大信貸 風險集中情況。

現金及銀行結餘的信貸風險 有限,原因是交易對方乃獲國 際信貸評級機構給予高度信 貸評級之銀行。

本集團比較財務資產於報告 日期之違約風險與於初始確 認日期之違約風險,以評估財 務資產之信貸風險有否於 報告期內按持續基準大后 加。本集團亦考慮所得合理 及有理據支持之前瞻性資料。 尤其使用以下資料:

一 預期導致對借款人履行 責任之能力出現重大變 動之業務、財務或經濟 狀況之實際或預期重大 不利影響;

For the year ended 31 March 2020 截至二零二零年三月三十一日止年度

5. FINANCIAL RISK MANAGEMENT (Continued)

(c) Credit risk (Continued)

- actual or expected significant changes in the operating results of the borrower;
- significant increases in credit risk on other financial instruments of the same borrower;
- significant changes in the value of the collateral or in the quality of guarantees or credit enhancements; and
- significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of borrowers.

A significant increase in credit risk is presumed if a debtor is more than 30 days past due in making a contractual payment. A default on a financial asset is when the counterparty fails to make contractual payments within 60 days of when they fall due.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. The Group normally categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than 360 days past due. Where loans or receivables have been written off, the Group, if practicable and economical, continues to engage in enforcement activity to attempt to recover the receivable due.

5. 財務風險管理(續)

(c) 信貸風險(*續*)

- 一借款人經營業績之實際 或預期重大變動;
- 一 同一借款人之其他財務 工具之信貸風險大幅增加;
- 抵押品價值或擔保或信 貸提升措施之質素出現 重大變動:及
- 一 借款人預期表現及行為 之重大變動,包括借款 人之付款狀況變動。

倘涉及合約付款之債務人逾期超過30日,則假定信貸風險大幅增加。當交易對手無法於合約付款到期時於60日內支付款項,則財務資產出現違約。

5. FINANCIAL RISK MANAGEMENT (Continued)

(c) Credit risk (Continued)

The Group uses two categories for non-trade loan receivables which reflect their credit risk and how the loan loss provision is determined for each of the categories. In calculating the expected credit loss rates, the Group considers historical loss rates for each category and adjusts for forward looking data.

履約	違約風險低及還款能力強	I2個月預期虧損
Non-performing	Significant increase in credit risk	Lifetime expected losses
違約	信貸風險顯著增加	全期預期虧損

(d) Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

(d) 流動資金風險
