Chairman's Statement

Chairman's Statement

Business Highlights For The Year Ended 31 March 2020

- » The Group has successfully entered into an agreement with an independent third party to dispose of the property holding company that holds the investment property in the United Kingdom (the "UK") for approximately GBP94.2 million (equivalent to approximately HK\$909.2 million). The transaction is expected to be completed around the end of August 2020 and the net cash proceeds to be received is approximately GBP45.6 million (equivalent to approximately HK\$440.0 million).
- » Pre-sale of The Esplanade in Tuen Mun, Hong Kong has commenced with satisfactory results, and the residential units have largely been pre-sold. Up to the date of this report, out of the total 371 residential units, 364 units have been pre-sold with only 7 units left. The aggregate sales value of those pre-sold residential units and 3 carparking spaces is about HK\$1,641.5 million. Approximately HK\$1,552.5 million sales deposits have been received up to the date hereof, and the remaining balance is expected to be received on or before completion of sales.

The construction works of The Esplanade have been completed. Occupation permit has been obtained in January 2020, and the Group is in the course of fulfilling the procedures to obtain the certificate of compliance. Handover of the units to end-buyers is targeted to be in the third quarter of 2020, and the Group can then recognize the sales as revenues in the financial statements accordingly.

- » The Group has replenished its land bank in Hong Kong with the completion of the acquisition of a property site at a consideration of about HK\$455.0 million in July 2019. The property has a site area of about 4,320 sq. ft. and has a developable GFA of about 39,767 sq. ft.. Negotiation is on-going with a few tenants for the delivery of vacant possession of the property. Hoarding and demolition plans have been submitted to the relevant authorities for approval.

Results Review

Up to the date hereof, the Group achieved contracted sales of property development in Hong Kong which have not yet recognized as revenues amounted to about HK\$1,641.5 million. For the year ended 31 March 2020, the Group's revenues decreased by 11.2% to HK\$177.5 million (2019: HK\$199.8 million) as affected by the downturn in macro-economy, and comprised the following:

- » rental and management fee income decreased by 6.9% to about HK\$66.2 million (2019: HK\$71.1 million), mainly due to the decrease in rental income recorded for the investment property in the UK when compared to the last corresponding year;
- » sales of development properties decreased by 40.6% to about HK\$42.4 million (2019: HK\$71.4 million) mainly due to the decrease in sales in Guangzhou, the People's Republic of China (the "PRC");
- » revenues from securities investment and trading increased by 6.1% to about HK\$45.5 million (2019: HK\$42.9 million), as a result of increase in the portfolio of bonds investment held by the Group comparing to the last corresponding year;
- » sales of cemetery assets in the PRC increased by 47.2% to about HK\$21.2 million (2019: HK\$14.4 million) mainly due to the increase in number of grave plots sold during the year; and
- » income from sales and trading business increased to about HK\$2.2 million (2019: Nil).

During the year under review, gross profit decreased slightly by 4.5% to HK\$133.1 million (2019: HK\$139.3 million) mainly as a result of the decrease in revenues. The overall gross profit margin increased from 70% to 75% which was mainly due to the higher profit margin generated from both sales of development properties and cemetery assets businesses. The gross profit margin for each revenue segment is as follows:

	3/2020	3/2019
Rental and management fee income	83%	84%
Sales of development properties in the PRC	46%	40%
Revenues from securities investment and trading	100%	100%
Sales of cemetery assets	60%	57%

Other income and net loss recorded a loss of about HK\$51.1 million for the current year (2019: net gain of HK\$4.7 million), which mainly comprised interest income, dividend income and the fair value loss of bonds investments. The decrease during the year was principally due to the significant increase in unrealized fair value loss of bonds investment as compared to that of the last corresponding year. A breakdown of other income and net loss is shown in note 7 to the consolidated financial statements of this report.

The Group recorded a loss on change in fair value of investment properties of HK\$25.8 million (2019: a gain of HK\$363.8 million), mainly due to the fair value loss recorded for the investment properties in the UK and in Guangzhou as a result of the decrease in property prices for these investment properties during the year. Share of result of a joint venture was HK\$11.0 million (2019: HK\$24.0 million), and the reduction was mainly due to absence of fair value gain as recorded in the last corresponding year.

On the costs side, selling and marketing expenses decreased by 27.5% to about HK\$27.2 million (2019: HK\$37.5 million) principally due to the decrease in marketing of The Esplanade in Tuen Mun, Hong Kong as compared to the last corresponding year. Administrative and other operating expenses decreased by 23.5% to about HK\$125.1 million (2019: HK\$163.6 million) as a result of general decrease in overhead and activities of the Group during the year under review.

Finance costs increased to HK\$74.0 million (2019: HK\$54.3 million) as a result of the increase in bank borrowings as well as the higher interest rates prevailing during the year. Share of loss of associated companies amounted to about HK\$1.1 million (2019: HK\$2.0 million). Taxation decreased to about HK\$29.8 million (2019: HK\$107.0 million) mainly due to the decrease in deferred taxation arising from the change in fair value of investment properties.

On the basis of the above, loss attributable to equity holders of the Company for the year ended 31 March 2020 amounted to HK\$192.4 million (2019: profit of HK\$167.8 million). Loss per share was 8.19 HK cents (2019: earnings per share was 7.15 HK cents).

Dividend

In order to maintain a stronger cash position under the current uncertain business environment, the board of Directors (the "Board") has resolved not to recommend the payment of a final dividend for the year ended 31 March 2020 (2019: 2.0 HK cents per share). No interim dividend (2019: 1.5 HK cents per share) was declared in respect of the current year.

Business Review

During the year under review, the property investment business of the Group is adversely affected by a drop in market value, as the macro-economic outlook and investment activities are put to a halt since the outbreak of Covid-19. Against this macro backdrop, the Group captured the disposal of the investment property in the UK which will enhance the cash position of the Group upon completion around the end of August 2020.

The Group also achieved satisfactory result for pre-sales of the property development in Hong Kong. Despite much volatility in the securities and bond market, the Group's securities and bond investment shall continue to provide steady and recurring income. The following is the summary of the Group's major business updates.

Chairman's Statement (continued)

A. Investment Properties

The Group holds the following portfolio of investment properties in the PRC, the UK and Malaysia for steady recurring rental income.

CHUANG'S MID-TOWN

Anshan, Liaoning

(100% owned)

Chuang's Mid-town consists of a 6-level commercial podium providing an aggregate gross floor area ("GFA") of about 29,600 sq. m.. Above the podium stands a twin tower (Block AB and C) with 27 and 33-storey respectively, offering a total GFA of about 62,700 sq. m.. Construction works have been completed and occupation will commence.

The Group had previously entered into an agreement to pre-lease the entire commercial podium to a furniture and home finishing retailer as anchor tenant for a period of 15 years. However, the tenant has unilaterally terminated this tenancy agreement. The tenant and its contractor issued legal proceedings against the wholly-owned subsidiary of the Group for the refund of the prepaid rent of RMB1 million and compensation of the renovation costs of RMB1.14 million incurred by the contractor, together with interests. Based on the advices of the Group's PRC lawyers, the tenancy agreement is legally enforceable and that the unilateral termination by the tenant is a wrongful act. In December 2019, the legal proceedings had been dismissed by court. Yet the tenant had then appealed the court decision and the Group is currently awaiting this appeal to be heard. Recently, the tenant commenced another legal proceedings against the wholly-owned subsidiary of the Group to unwind the tenancy agreement. The Group will take appropriate steps to protect our legal rights. Moreover, the Group will explore more marketing ideas on promotion and leasing of the commercial podium as well as the units of the twin tower.

On a completion basis, valuation of this project amounted to approximately RMB763.3 million (equivalent to approximately HK\$832.4 million), comprising RMB294.8 million for the commercial podium and RMB468.5 million for the twin tower. If aggregate rental income reaches RMB25 million per annum, it will generate a rental yield of 3.3% based on valuation.

HOTEL AND RESORT VILLAS

Xiamen, Fujian

(59.5% owned)

This hotel complex is developed by the Group, comprising a 6-storey hotel building with 100 guest-rooms (gross area of 9,780 sq. m.) and 30 villas (aggregate GFA of about 9,376 sq. m.) in Siming District, Xiamen. As at 31 March 2020, the properties were recorded based on valuation of RMB447.8 million (comprising RMB185.7 million for the hotel and RMB262.1 million for the 30 villas). The valuation attributable to the Group was about RMB266.4 million (equivalent to approximately HK\$290.5 million), whereas the total investment costs of the Group are about HK\$164 million. On the basis of the aggregate rental income of about RMB25.9 million per annum, the rental yield is approximately 5.8% based on valuation.

A. Investment Properties

HOTEL AND RESORT VILLAS

Xiamen, Fujian

(59.5% owned)

The hotel building and 30 villas are fully leased. The hotel building together with 3 villas are leased to 廈門名家鷺江酒店 and is operated as “鷺江•名家酒店” (Mega Lujiang Hotel). The remaining 27 villas are leased to independent third parties, of which 21 villas is operated as “亞朵S酒店” (Atour S Hotel). As affected by the significant decrease in tourists in Xiamen and coupled with the outbreak of Covid-19, the tenant of these 21 villas has met operational difficulty and failed to pay rents to the joint venture company since the last quarter of 2019. The Group has received rent concession requests by tenants including Mega Lujiang Hotel and Atour S Hotel. The Group is considering the rent concession requests by these tenants in light of the difficult operating environment of the tourism industry in Xiamen.

22 VILLAS AND COMMERCIAL PROPERTIES

CHUANG'S LE PAPILLON

Guangzhou, Guangdong

(100% owned)

Within the Group's property development in Guangzhou, the Group holds 22 villas (GFA of approximately 6,987 sq. m.). During the year, the Group has completed the disposal of two villas to the independent third parties. As at 31 March 2020, the remaining 20 villas were recorded at valuation of about RMB181.5 million (equivalent to approximately HK\$197.9 million). Among these 20 villas, the Group has entered into the sale and purchase agreements to further dispose of 4 villas, which is expected to be completed in the financial year ended 31 March 2021. The Group's strategy is to cash out on this investment. As such, the Group will adopt a flexible approach to sell/ or lease the remaining villas.

In addition, the Group also holds two commercial properties with total GFA of approximately 1,630 sq. m. in Guangzhou, of which one (with GFA of approximately 809 sq. m.) is leased to an independent third party and generates a steady rental income at rental yield of about 4.3% based on the valuation of RMB7.7 million (equivalent to approximately HK\$8.4 million). Another commercial property (with GFA of approximately 821 sq. m.) was recorded at valuation of RMB10.3 million (equivalent to approximately HK\$11.2 million) as at 31 March 2020.

COMMERCIAL PROPERTY

Shatian, Dongguan, Guangdong

(100% owned)

The Group holds a 4-storey commercial building in Shatian, Dongguan, providing a total GFA of about 4,167 sq. m. for commercial, retail and office usage. As at 31 March 2020, valuation of the property was RMB36.4 million (equivalent to approximately HK\$39.7 million). Two storeys are leased to 中國人壽東莞分公司 (China Life Dongguan branch) for office use. Marketing is in progress for leasing of the remaining units of the property.

A. Investment Properties

OFFICE PROPERTY

Fenchurch Street, London, UK

(100% owned)

10 Fenchurch Street is a freehold property in the City of London, the UK. It is an 11-storey commercial building providing 77,652 sq. ft. of office and retail usage. As at 31 March 2020, the property was recorded at valuation of GBP96.5 million (equivalent to approximately HK\$926.4 million).

As announced on 3 May 2020, the Group entered into a sale and purchase agreement to dispose of this investment property to an independent third party at a consideration of about GBP94.2 million (equivalent to approximately HK\$909.2 million), subject to adjustment. The disposal has been approved by the shareholders of the Company on 23 June 2020. Completion of the disposal is expected to be around the end of August 2020. This disposal will improve and strengthen the net cash position of the Group.

WISMA CHUANG

Jalan Sultan Ismail,
Kuala Lumpur, Malaysia

(100% owned)

Wisma Chuang is located within the prime city centre, situated right next to the landmark shopping complex, Pavilion KL, the heart of central business district and prestigious shopping area of Kuala Lumpur. It is built on a freehold land and is a 29-storey high rise office building having retail and office spaces of approximately 254,000 sq. ft. (on total net lettable area basis is approximately 195,000 sq. ft.) and 298 carparking spaces. As at 31 March 2020, the valuation of this property was MYR185.4 million (equivalent to approximately HK\$332.2 million), which represents an average value of approximately MYR951 (equivalent to approximately HK\$1,704) per sq. ft. of net lettable retail and office area.

Wisma Chuang is leased to multi tenants with an occupancy rate of approximately 70%, and annual rental income is approximately MYR7.1 million (equivalent to approximately HK\$13.2 million), representing a rental yield of approximately 3.8% based on valuation. During the year under review, the Group had carried out a lobby renovation work and certain building maintenance work with a view to improving the facilities for the tenants. Furthermore, the Group will continue to review the tenant mix of this property, and to consider further internal building upgrading work in order to further enhance its rental yield and occupancy rate.

Apart from the above investment properties, the Group will identify suitable opportunities to expand on investment properties portfolio to enhance the Group's recurring and steady income.

THE ESPLANADE

Yip Wong Road, Tuen Mun, New Territories, Hong Kong
(100% owned)

⌘ This photograph was taken on 19 June 2020 and had been edited and processed with computerized imaging techniques.

The Esplanade has a site area of about 26,135 sq. ft. and has a developable GFA of 117,089 sq. ft. for residential purpose and 25,813 sq. ft. for commercial purpose. It is located along the riverside recreation park, overlooking Tuen Mun River. Along the promenade right in front of the site, it is within leisure walking distance to the nearby landmark commercial mall. Construction works have been completed. Occupation permit has been obtained in January 2020. The Group is currently working in full speed to obtain the certificate of compliance. Upon obtaining the certificate of compliance, the Group will arrange handover of flats to end-buyers, which is expected to be in the third quarter of 2020.

The Esplanade comprises a two-storey commercial podium, a clubhouse, 47 carparking spaces and a 20-storey residential building, totalling 371 residential flats, which provides 233 studio, 97 one-bedroom, 39 two-bedrooms and 2 three-bedrooms. The estimated total sales proceeds of the residential properties will amount to about HK\$1,714.3 million.

Pre-sales of the residential properties were progressing satisfactorily. Up-to-date, a total of 364 residential units and 3 carparking spaces have been presold at aggregate amount of about HK\$1,641.5 million. These contracted sales will be recognized as revenues in the Group's financial statements when the properties are handed-over to end-buyers. Up to the date hereof, aggregate proceeds amounting to HK\$1,552.5 million have been received, and balance of HK\$89.0 million are expected to be received on or before completion of the sales. Marketing on the two-storey commercial properties with total GFA of 25,813 sq. ft. is in satisfactory progress.

B. Property Development

A PROPERTY DEVELOPMENT SITE

Hong Kong

(100% owned)

During the year under review, the Group had completed the acquisition of a property interests in Aberdeen at a consideration of about HK\$455.0 million. The property has a site area of about 4,320 sq. ft. and has a developable GFA of about 39,767 sq. ft.. The Group is in the progress of negotiating with a few remaining tenants for the delivery of vacant possession of the property. Hoarding and demolition plans have been submitted to the relevant authorities for approval.

CHUANG'S LE PAPILLON

Guangzhou, Guangdong

(100% owned)

Chuang's Le Papillon is an integrated residential and commercial community and its development is implemented by phases. The Group has completed the development of Phase I and II, having a total GFA of approximately 260,800 sq. m.. It comprises 34 high-rise residential towers with a total of 2,077 flats and 22 villas, commercial properties, club houses and 1,497 carparking spaces.

All residential flats of Phase I and II have been sold. During the year under review, 2 residential duplex and 156 carparks were sold. The Group will continue to market the remaining unsold 398 carparks of about RMB44.0 million (equivalent to approximately HK\$48.0 million).

For the remaining development (Phase III), the Group owns a land of over 92,000 sq. m. and its total plot ratio GFA was about 175,011 sq. m.. Land quota for development of about 123,362 sq. m. has been obtained and it is expected that the land quota of the remaining 51,649 sq. m. will be obtained soon.

The Group has commenced on the development of Phase III by stage. Stage 1 has a total GFA of 50,190 sq. m. for development of 6 blocks of residential building together with 5,775 sq. m. for a kindergarten and public utilities. Foundation works for the 6 blocks of residential properties are completed whereas the foundation works for the kindergarten and public utilities are currently in progress. Stage 2 with a total GFA of 29,623 sq. m. comprises 3 blocks of residential building and 14 blocks for duplex style villa. Foundation works as well as the construction of basement of Stage 2 are completed. Stage 3 with a total GFA of 89,423 sq. m. will comprise various blocks of residential building and commercial properties.

The prospects of the Phase III site are promising. The local government will launch a massive commercial development right opposite to the Group's Phase III site across the riverbank. The total planned land area is massive which will be developed for tourism, entertainment, exhibition, cultural and restaurants. This will be a driving force favourable to the Group's Phase III development. The Group is reviewing the master floor plans in order to optimize the flats size in accordance with the latest market condition.

B. Property Development

CHANGAN

Dongguan, Guangdong

(100% owned)

The Group owns a site area of about 20,000 sq. m. in city centre of Changan (長安), Dongguan, on which an industrial building with GFA of about 39,081 sq. m. was erected. The property is currently leased to an independent third party until 2023, at gross rental income of about RMB6.8 million per annum. As at 31 March 2020, the property was recorded at valuation of RMB223.4 million (equivalent to approximately HK\$243.6 million). On the basis of the annual rental income, the rental yield is approximately 3.0% based on valuation.

This site has been rezoned to "residential usage", and the location of this property in Changan is strategic to benefit from the Guangdong-Hong Kong-Macao Greater Bay Area. The Group will monitor the requisite procedures and strategize on the optimal timing for usage conversion application of the site. On the basis of 3.5 times plot ratio, the project will have a developable GFA of about 70,000 sq. m. and will be a prime land bank for future development. The Group will also consider disposal of the property when suitable opportunities arise.

CHUANG'S PLAZA

Anshan, Liaoning

(100% owned)

Adjacent to Chuang's Midtown, the Group acquired through government tender the second site located in the prime city centre of Tie Dong Qu (鐵東區) with a site area of about 39,449 sq. m.. As about 1,300 sq. m. of the land title has not yet been rectified by the government authorities with the local railway corporation, the Group suffered a reduction in land area that was occupied by the local railway corporation. In view of the weak economic prospects of Anshan, the Group will assess the possibilities to sell-back this site to the local authorities, or other remedies acceptable to the Group.

CHANGSHA

Hunan

(69% owned)

The Group owns an effective 69% interests in a property development project in Changsha and the total investment costs was about HK\$23.5 million (including shareholder's loan of about HK\$3.4 million) as at 31 March 2020. The Group has obtained a court ruling for winding up of the PRC project company. Process of the winding-up will be conducted in compliance with the PRC laws. As announced on 30 December 2019, the civil complaint by the minority shareholder of the PRC project company against the Company and an executive director of the Company shall be heard by the court in Hunan. Based on the legal advices, the complaint is not supported by sufficient facts and/or legal basis, and that the Company has sufficient grounds to vigorously contest the complaint. Further announcement(s) about the legal proceedings will be made by the Company as and when appropriate.

CHENGDU

Sichuan

(51% owned)

The Group holds a 51% development interest in a project in Wuhou District, Chengdu. As at 31 March 2020, the Group's total investment costs in this project was about RMB146.8 million (equivalent to approximately HK\$160.1 million). The Group has launched legal proceedings since May 2016, seeking for court ruling to unwind contracts of this joint development. As announced on 12 December 2019, the Group obtained the judgement in favour that various agreements relating to this joint venture project in Chengdu entered into between the Group and the PRC parties shall be rescinded. Also as announced on 31 December 2019, the Group had filed an appeal for the judgement payments to be raised. It is expected that the court of appeal will fix a hearing date shortly. Further announcement(s) about the legal proceedings will be made by the Company as and when appropriate.

As stated in previous financial statements, the Group acquired courtyard house in Beijing but the handling agent has failed to properly register title of the properties to the Group. Through legal proceedings, the Group had obtained court judgements in December 2019 for the registered owners to transfer the title to the designated nominee of the Group. Appeal of the court judgements have been lodged by the registered owners of the properties and the hearings of the appeal are in progress. The Group's original cost of investment in the properties was about RMB9.7 million (equivalent to approximately HK\$10.6 million).

FORTUNE WEALTH

Sihui, Guangdong

(86% owned)

The Fortune Wealth Memorial Park operates a cemetery in Sihui with a site area of approximately 518 mu agreed by the local government authorities. Development of the project is conducted by phases. Phase I of about 100 mu has been completed with 5,485 grave plots, one mausoleum providing 550 niches, as well as an administrative and customer service building. Development of the remaining 418 mu will be divided into Phase II to Phase V.

Based on the existing master layout plan of Phase II to Phase V, about 41,815 grave plots will be constructed covering land area of 268 mu whereas road access and greenbelts will cover 150 mu. For Phase II and Phase III, land use rights of approximately 143 mu had been obtained, which will accommodate a total of 22,569 grave plots. For Phase IV and

Phase V, land use rights of approximately 5.2 mu had been obtained and additional land quota of about 119.8 mu shall be required, for the construction of a total of 19,246 grave plots.

Fortune Wealth will follow-up with the local authorities for the grant of the remaining 119.8 mu land use rights. As at 31 March 2020, the cemetery assets (including non-controlling interests) were recorded based on the book cost of about RMB917.3 million (equivalent to approximately HK\$1,000.4 million).

Fortune Wealth has full license for sale not only in the PRC, but also includes overseas Chinese as well as residents of Hong Kong, Macau and Taiwan. As at 31 March 2020, about 3,465 grave plots and 535 niches were available for sale. Fortune Wealth will review its sales and marketing strategy and will take more proactive steps in its brand building and customer services.

C. Securities Investments

1. Investments in CNT Group Limited ("CNT") and CPM Group Limited ("CPM")

As at the date hereof, the Group owns about 19.45% interests in CNT and about 0.6% interests in CPM, both of them are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). CNT and its subsidiaries are principally engaged in the property business, and through its 75% owned subsidiary, CPM, is principally engaged in the manufacture and sale of paint products under its own brand names with focus on the PRC market.

With reference to the respective closing share prices of CNT and CPM as at 31 March 2020 of HK\$0.31 (31 March 2019: HK\$0.32) and HK\$0.45 (31 March 2019: HK\$0.50), the aggregate book value of the Group's investments in CNT and CPM is about HK\$117.6 million (31 March 2019: HK\$119.9 million). The change in book value is accounted for as "Reserve" in the financial statements.

As announced by the Company on 12 February 2019, the Court has directed for the substantive trial of the derivative action against certain directors of CNT to be re-fixed to 9 November 2020 to 11 December 2020. Further announcement(s) about this derivative action will be made by the Company as and when appropriate.

Greenland Holdings Corporation Limited	Property development, property investment, construction and hotel operation

The recent uncertain political and economic environment as well as the pandemic of Covid-19 had asserted downward pressure on the prices of the bonds held by the Group. These factors have offset the high interest income generated during the year. Unrealized fair value loss was recorded by the Group principally as a result of the significant drop in bond prices as at 31 March 2020 when compared to that of 31 March 2019, and nearly all the bonds held by the Group were traded below par as at 31 March 2020. In the event that the Group holds the bonds up to their respective maturity dates for redemption at par, the unrealized fair value loss would nearly be fully recovered. The Group will closely monitor the performance of the bonds portfolio in light of the monetary environment.

Financial Review

Net asset value

As at 31 March 2020, the net asset value attributable to equity holders of the Company amounted to HK\$3,769.7 million. Net asset value per share amounted to HK\$1.60, which is calculated based on the historical cost of the Group's land bank. During the year under review, apart from the loss attributable to equity holders of the Company of HK\$192.4 million, the net asset value was also adversely affected by the depreciation in Renminbi and GBP resulting in a reduction of about HK\$239.7 million in the exchange reserve.

Financial resources

As at 31 March 2020, the Group's cash, bank balances and investments held for trading amounted to HK\$1,461.5 million (31 March 2019: HK\$1,599.2 million). As at the same date, bank borrowings of the Group amounted to HK\$1,901.0 million (31 March 2019: HK\$2,081.3 million). Accordingly, the Group's net debt has changed to about HK\$439.5 million (31 March 2019: HK\$482.1 million) and the net debt to equity ratio has slightly increased to 11.7% (31 March 2019: 11.3%), expressed as a percentage of bank borrowings net of cash, bank balances and investments held for trading over net assets attributable to equity holders of the Company.

Approximately 83.5% of the Group's cash, bank balances and investments held for trading were in Hong Kong dollar and United States dollar, 13.0% were in Renminbi and the balance of 3.5% were in other currencies. Approximately 68.9% of the Group's bank borrowings were in Hong Kong dollar and United States dollar, 24.3% were in British Pound Sterling, and the remaining of 6.8% were in Malaysian Ringgit.

Based on the agreed scheduled repayment dates in the loan agreements and ignoring the effect of any repayment on demand clause, approximately 10.6% of the Group's bank borrowings were repayable within the first year, 52.6% were repayable within the second year and the balance of 36.8% were repayable within the third to fifth years.

Foreign exchange risk

As disclosed in the "Business Review" section of this report, besides Hong Kong, the Group also conducts its businesses in the PRC, Malaysia and the UK, with the income and the major cost items in those places being denominated in their local foreign currencies. Therefore, it is expected that any fluctuation of these foreign currencies' exchange rates would not have material effect on the operations of the Group. However, as the Group's consolidated financial statements are presented in Hong Kong dollar, the Group's financial position is subject to exchange exposure to these foreign currencies. The Group would closely monitor this risk exposure from time to time.

Prospects

The global political and economic uncertainty, coupled with the effect of the Covid-19 pandemic, continue to affect business prospects and confidence of investors. Despite many uncertain factors affecting the economy in the PRC, Hong Kong and globally, we believe the PRC will continue to promote structural economic transformation and maintain stable growth. Looking forward, with the PRC's huge market potential, the steady improvement of people's living standards as well as the continuous progress of urbanization, where core first and second tier cities continue to enjoy better economic fundamentals, local demands for properties are huge in view of net population inflow and improving purchase power of residents.

The Guangdong-Hong Kong-Macao Greater Bay Area and Belt and Road Initiative will be the growth drivers for the PRC and create business opportunities for Hong Kong. In addition, the financial position of the Group would be greatly enhanced following the completion of the disposal of the property in London in August 2020. Going forward, the Group will explore new development projects and investments properties to expand its scope of business and investment portfolio at an opportune time so as to enlarge its revenue base.

Staff

The Group puts emphasis on training and cultivating elite talent. We are committed to providing a dynamic and enthusiastic working atmosphere and increase hiring talents of all fields. As at 31 March 2020, the Group employed 151 staff. The Group provides its staff with other benefits including discretionary bonus, double pay, contributory provident fund, share options and medical insurance. Staff training is also provided as and when required.

Appreciation

On behalf of the Board, I would like to thank my fellow Directors and our dedicated staff for their hard work and contribution during the year.

Corporate Governance Report

Corporate Governance Report

Introduction

The Company is committed to achieving a high standard of corporate governance that properly protects and promotes the interests of its shareholders.

The Company has adopted the code provisions set out in the Corporate Governance Code (the "CG Code") as set out in Appendix 14 of the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

Report on corporate governance practices

(A) The Board

The board of Directors (the "Board") is responsible for overseeing the business and strategies of the Company and its subsidiaries (collectively as the "Group") with the objective of enhancing value for its shareholders.

A new Board diversity policy (the "Board Diversity Policy") and a nomination policy (the "Nomination Policy") have been approved by the Board with effect from 1 January 2019.

A summary of the Board Diversity Policy is extracted below:

The Company continuously seeks to enhance the effectiveness of its Board and to maintain high standards of corporate governance and recognizes and embraces the benefits of diversity in the boardroom. The Company recognizes and embraces the benefits of having a diverse Board to enhance the quality of its performance.

The Company endeavours to ensure that its Board has the appropriate balance of skills, experience and diversity of perspectives that are required to support the execution of its business strategy for sustainable and balanced development. In designing the Board's composition, Board diversity has been considered from a number of aspects, including but not limited to gender, age, cultural and educational background, professional experience and skills. All Board appointments will be based on meritocracy, and candidates will be considered against objective criteria, having due regard for the benefits of diversity on the Board.

Board selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, professional experience and skills. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

The Nomination Committee will report annually, in the Corporate Governance Report, on the Board's composition under diversified perspectives, and monitor the implementation of this Board Diversity Policy to ensure that recruitment and selection practices are appropriately structured so that a diverse range of candidates are considered.

The Nomination Committee will review this Board Diversity Policy, as appropriate, to ensure the effectiveness of this Board Diversity Policy. The Nomination Committee will discuss any revisions that may be required, and recommend any such revisions to the Board for consideration and approval.

Report on corporate governance practices (continued)

(A) The Board (continued)

A summary of the selection criteria and nomination procedures as set out in the Nomination Policy and adopted by the Nomination Committee is extracted below:

Selection Criteria

The factors listed below would be used as reference by the Nomination Committee in assessing the suitability of a proposed candidate.

- Reputation for integrity
- Accomplishment and experience in the industry which the Group operates
- Commitment in respect of available time and relevant interest
- Diversity in all its aspects, including but not limited to gender, age (18 years or above), cultural and educational background, professional experience and skills

These factors are for reference only, and not meant to be exhaustive and decisive. The Nomination Committee has the discretion to nominate any person, as it considers appropriate.

Nomination Procedures

The secretary of the Nomination Committee shall call a meeting of the Nomination Committee after receiving nominations of candidates from the management of the Company for consideration by the Nomination Committee by way of meeting or by way of resolution in writing of all members of the Nomination Committee.

- For filling a casual vacancy and/or as an addition to the Board, the Nomination Committee shall make recommendations for the Board's consideration and approval. For proposing candidates to stand for election at a general meeting, the Nomination Committee shall make nominations to the Board for its consideration and recommendation.
- Until the issue of the shareholder circular, the nominated persons shall not assume that they have been proposed by the Board to stand for election at the general meeting.
- In order to provide information of the candidates nominated by the Board to stand for election at a general meeting, a circular will be sent to shareholders. The names, brief biographies (including qualifications and relevant experience), independence, proposed remuneration and any other information, as required pursuant to the Listing Rules, applicable laws, rules and regulations, of the proposed candidates will be included in the circular to shareholders.

(v) Chairman and Chief Executive Officer

The roles of Chairman and Chief Executive Officer are separated. Currently, Mr. Albert Chuang is the Chairman and Mr. Edwin Chong, the Managing Director, is the Chief Executive Officer. Mr. Abraham Shek retired from the position of the Chairman on 29 April 2019. Mr. Edwin Chong was re-designated as the Managing Director on 29 April 2019.

(vi) Responsibilities of Directors

Each Director of the Company is required to keep abreast of his/her responsibilities as a Director of the Company and each Director is provided in a timely manner with appropriate information of the Group to enable him/her to make an informed decision and to discharge his/her duties and responsibilities as a Director of the Company. On appointment, new Directors will be given a comprehensive induction to the Group's business.

(vii) Directors' dealings in securities

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") contained in Appendix 10 of the Listing Rules. Having made specific enquiries of all Directors of the Company, the Company received confirmations from all Directors that they have complied with the required standard as set out in the Model Code.

(viii) Independence of Independent Non-Executive Directors

The Company has received, from each of the Independent Non-Executive Directors, an annual confirmation of his independence pursuant to Rule 3.13 of the Listing Rules. The Company considers all of the Independent Non-Executive Directors are independent.

(B) Remuneration of Directors and senior management

(i) Remuneration policy of Executive Directors and senior management

The Group's remuneration policy seeks to provide a fair market remuneration so as to attract, retain and motivate high quality staff. The Group will set levels of remuneration to ensure comparability and competitiveness with companies competing within a similar talent pool.

(ii) Fees paid to Non-Executive Directors

The former Chairman was appointed as the Honorary Chairman and, being an Independent Non-Executive Director, entitles to an annual fee of HK\$400,000. Each of the other Non-Executive Directors of the Company entitles to an annual fee of HK\$120,000. In determining such fee, the Board has taken into account the current market conditions. Such fee is also subject to shareholders' approval in annual general meetings.

(iii) Remuneration Committee

A Remuneration Committee was established by the Company with clear terms of reference and is responsible for making recommendations to the Board on the Company's policy and structure for all Directors' and senior management's remuneration and on the Company's establishment of a formal and transparent procedure for developing remuneration policy.

The Remuneration Committee comprises three Independent Non-Executive Directors, Mr. Abraham Shek, Mr. Andrew Fan and Dr. Eddy Li. The committee met once during the year to review the remuneration policy of the Group and the management's remuneration proposals with reference to the Board's corporate goals and objectives. The committee performs an advisory role to the Board with the Board retaining the final authority to approve the remuneration packages of Directors and senior management and the model (c)(ii) as stipulated in code provision B.1.2 of the CG Code was adopted.

The attendance record of each committee member is as follows:

(C) Accountability and audit

(i) Financial reporting

The Board acknowledges that it is its responsibility to prepare the consolidated financial statements and to present a balanced, clear and comprehensive assessment of the performance, position and prospects of the Group in the interim and annual reports of the Group.

The reporting responsibility of the Company's auditor on the consolidated financial statements of the Group is set out in the "Independent Auditor's Report" on pages 98 to 105 of this annual report.

(ii) Risk management and internal control

(a) Responsibilities of the Board and management

The Board acknowledges that it is responsible for maintaining an appropriate and effective risk management and internal control systems in the Group and reviewing the systems effectiveness to safeguard the Group's assets and shareholders' interests. These risk management and internal control systems can only reasonably, but do not absolutely ensure the non-occurrence of material misstatement, significant loss, error or fraud and they are designed to manage, rather than eliminate the risk of failure in the Group's operational systems to achieve its business objectives.

Management of the Company is responsible for designing, implementing and monitoring the risk management and internal control systems; and providing confirmation to the Audit Committee on the systems effectiveness through the completion of controls self-assessment on key business processes in the Group.

(b) Risk Management

To provide sound and effective risk management, the Board has established an enterprise risk management framework which includes the following key features:

o Risk Governance Structure

The Group's risk governance structure comprises of day-to-day operational management and control, risk and compliance oversight, and independent assurance. The Group has developed a risk management policy which outlines the principles and procedures for the Group to manage its risks and also clearly defines roles and responsibilities of each of the multiple layers of the structure, including the Board, the Audit Committee, department heads, staff at operational levels and the internal audit, in order to achieve the Group's strategic and operational goals and objectives.

Report on corporate governance practices (continued)

(C) Accountability and audit (continued)

(ii) Risk management and internal control (continued)

(b) Risk Management (continued)

o Risk Management Process

A robust risk management process is developed to identify, evaluate and manage significant risks. The risk management process includes the following elements:

- Risk identification – Identify the risks faced by the Group.
- Risk assessment and prioritization – Analyze the identified risks based on two dimensions: potential impact and likelihood of occurrence; prioritize key risks and confirm top risks.
- Risk treatment – Select an appropriate risk treatment and develop the relevant risk management strategies for identified key risks.
- Control activities – Controls must be designed, evaluated and implemented on the identified risks.
- Risk monitoring – Perform ongoing and periodic monitoring of risks to ensure the risk management strategies are operating effectively.
- Risk reporting – Consolidate the results from the risk assessment; establish detailed action plan; and report to management and the Audit Committee in a timely manner.

The Group maintains a risk register, which includes information of key enterprise-level risks, their potential consequences, likelihood, impact and overall risk rating. Risk owners will execute risk mitigation actions and respond to their assigned risks in the risk register based on the Board's risk tolerance. On an annual basis, the risks in the risk register are re-evaluated, with consideration of potential new or emerging risks. Also, depending on changes in circumstances and the external environment, risk tolerances and risk responses are adjusted accordingly.

(C) Accountability and audit (continued)

(ii) Risk management and internal control (continued)

(c) Internal Control

The Group has implemented an internal control system in accordance with an integrated internal control framework established by the COSO (Committee of Sponsoring Organizations of the Treadway Commission), which comprises five main features and principal components of internal control: the control environment, risk assessment, control activities, information and communication, and monitoring activities.

The Group has an Internal Audit Department which used a risk-based approach to derive an internal audit plan and it is approved by the Audit Committee on an annual basis to assess the adequacy, effectiveness, efficiency and reliability of internal control procedures over financial, operational and compliance activities of the Group. The results of the independent reviews together with the recommended remedial actions, in the form of internal audit reports, are submitted to the Audit Committee and management on a regular basis. Follow-up reviews are performed to ensure that all identified issues have been resolved satisfactorily.

The Head of the Internal Audit Department reports directly to the Audit Committee. During the year, the Internal Audit Department conducted reviews and reported the status of implementation of follow-up actions on control deficiencies. Relevant recommendations reported by the Internal Audit Department will be implemented by management to enhance the Group's internal control policies, procedures and practices, and to resolve material internal control deficiencies in a timely manner.

The Group has also developed an Inside Information Disclosure Policy and internal controls for the handling and dissemination of inside information to ensure consistent and timely disclosure, and fulfilment of the Group's disclosure obligations. The Group has also established and implemented procedures to guide its staff on how to report, escalate and handle inside information, and strictly prohibit them from any unauthorized use of inside information.

(d) Review of Systems Effectiveness

Through the Audit Committee, the Board had conducted an annual review of the effectiveness and adequacy of the risk management and internal control systems by reviewing the work performed by the Internal Audit Department and the controls self-assessment on key business processes performed by management for the year ended 31 March 2020. The review covered all material controls, including financial, operational and compliance controls, and risk management functions. The scope and quality of ongoing monitoring of risks and the internal control systems have been assessed. The changes in the nature and extent of significant risks faced by the Group and response plans have been evaluated. The Board considered that the risk management and internal control systems are functioning effectively and adequately.

(C) Accountability and audit (continued)

(ii) Risk management and internal control (continued)

(d) Review of Systems Effectiveness (continued)

During the review, the Board also assessed and was satisfied with the adequacy of the resources, staff qualification and experience, training programmes and budget of the Group's accounting, financial reporting and internal audit functions. Qualified personnel throughout the Group maintains and monitors these internal control procedures on an ongoing basis.

The Board is satisfied that the Group has fully complied with the code provisions C.2 on risk management and internal control set out in the CG Code as set forth in the Appendix 14 of the Listing Rules for the year ended 31 March 2020.

(iii) Audit Committee

An Audit Committee was established by the Company with clear terms of reference to review and supervise the financial reporting process, and the risk management and internal control of the Group. The Audit Committee comprises three Independent Non-Executive Directors, Mr. Abraham Shek, Mr. Andrew Fan and Dr. Eddy Li. The committee held four meetings during the year to discuss the relationship with the external auditor, to review the consolidated interim financial information for the six months ended 30 September 2019 and the consolidated annual financial statements for the year ended 31 March 2020 of the Group, and to evaluate the risk management and internal control systems of the Group.

The attendance record of each committee member is as follows:

Name	No. of meetings attended/held
Mr. Abraham Shek*	4/4
Mr. Andrew Fan	4/4
Dr. Eddy Li (appointed on 8 May 2019)	2/3

* *Chairman of the Audit Committee*

(iv) Auditor's remuneration

During the year, the remuneration paid or payable to the principal auditor, PricewaterhouseCoopers, is set out as follows:

Services rendered	HK\$'000
Audit and audit related services	2,040
Non-audit services	580
	2,620

(D) Delegation by the Board

(i) Board Committees

The Company has established four committees, namely Audit Committee, Nomination Committee, Remuneration Committee and Corporate Governance Committee (the "CG Committee"). These committees were formed with specific clear terms of reference which deal clearly with the committees' authorities and duties.

(ii) Management function

The Board has determined which matters are to be retained by the full Board sanction and which matters are to be delegated to the executive management. The executive management has been given clear terms of reference, in particular, circumstances where the executive management should report to and obtain prior approval from the Board. All delegations to executive management are reviewed periodically to ensure that they remain appropriate.

(E) Corporate Governance

The Board delegated the corporate governance functions to the CG Committee which was established with clear terms of reference and is responsible for developing and reviewing the Company's policies and practices on corporate governance. The CG Committee is also delegated the responsibility to review any potential inside information of the Group and to make recommendations to the Board for any disclosure requirement or actions required.

The CG Committee comprises three Executive Directors, Mr. Albert Chuang, Miss Ann Li and Mr. Edwin Chong. The committee met twice during the year to review the corporate governance matters of the Company to ensure that the Company has complied with the principles and applicable code provisions of the CG Code.

The attendance record of each committee member is as follows:

Name	No. of meetings attended/held
Mr. Albert Chuang*	2/2
Miss Ann Li	2/2
Mr. Edwin Chong	2/2

* Chairman of the CG Committee

(iii) Voting by poll

Pursuant to Rule 13.39(4) of the Listing Rules, votes of shareholders in all general meetings of the Company have been taken by poll and results of the poll have been announced in accordance with the procedures prescribed under Rule 13.39(5) of the Listing Rules.

(iv) Corporate documents available in websites of the Company and the Stock Exchange

The Company has placed on the websites of the Company and the Stock Exchange the announcements, circulars, annual/interim reports, notices of general meetings and other information of the Company as required by the Listing Rules.

(v) Shareholders' enquiries

Shareholders of the Company may direct their questions about their shareholdings to the Company's share registrar and all other questions to the Board.

(G) Shareholders' rights

(i) Convening a special general meeting

Pursuant to Bye-law no. 57 of the Company, shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the secretary of the Company, to require a special general meeting ("SGM") to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If within twenty-one (21) days of such deposit the Board fails to proceed to convene such meeting, the requisitionists, or any of them representing more than one half of the total voting rights of all of them, may themselves convene a meeting, but any meeting so convened shall not be held after the expiration of three months from the said date. The written requisition must state the purposes of the general meeting and is signed by the shareholder(s) concerned and may consist of several documents in like form, each signed by one or more of those shareholders.

If the requisition is in order, the secretary of the Company will ask the Board to convene a SGM by serving sufficient notice in accordance with the statutory requirements to all the shareholders. On the contrary, if the requisition is invalid, the shareholders concerned will be advised of this outcome and accordingly, a SGM will not be convened as requested.

Environmental, Social and Governance Report

About This Report

This Environmental, Social and Governance (“ESG”) report covers the Company and its subsidiaries (collectively as the “Group”) which are principally engaged in property development, investment and trading, hotel operation and management, development and operation of cemetery, sales of goods and merchandises, and securities investment and trading.

The Group is committed to the long-term sustainability of its businesses, which is one of the key focuses of the Group’s development and growth strategy, and is committed to developing initiatives that will merit value and positive impact for the betterment of its stakeholders and of the communities within which it operates and serves. From our on-going communications with them, we are aware that they consider our property development and investment businesses as more relevant for ESG reporting. Therefore, this report places emphasis on the ESG achievements and challenges as well as initiatives undertaken for the financial year ended 31 March 2020 in respect of the property development and investment businesses of the Group.

This ESG report is prepared in accordance with the ESG Reporting Guide under Appendix 27 of the Main Board Listing Rules issued by The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The preparation of this ESG report adopts the following four reporting principles stated in the ESG Reporting Guide:

Materiality	Senior management conducted materiality review of ESG topics to identify ESG issues material to our business operations and stakeholders.
Quantitative	Quantitative metrics are collected and regularly monitored to review the progress and evaluate the effectiveness of our ESG initiatives.
Balance	ESG accomplishments are highlighted while areas for improvement are also drawn attention to, providing an unbiased picture of our ESG performance.
Consistency	Consistent methodologies are adopted to provide meaningful comparison of our ESG performance overtime. Any changes in data compilation and scope are disclosed.

Approach to Sustainability

Beyond delivering quality products and service excellence, we strive to create long-term value for our key stakeholders by keeping close communication with them and operating in a sustainable and responsible manner. While sustainability is believed to be one of the keys for the Group’s development and growth strategy, we are committed to developing initiatives that will merit value and positive impact through our operations to our stakeholders. Through the implementation of ESG management systems and initiatives, we incorporate sustainability considerations in the way we grow and develop.

Approach to Sustainability (continued)

The Group recognizes the importance of establishing a robust governance structure to facilitate an effective management across our business operations, further ensuring compliance with applicable laws and regulations. To this end, the Group adopts a top-down approach to involve all levels of personnel in the Group in driving our sustainability visions into action. The board of Directors (the "Board") is responsible for overseeing the business and strategies of the Group, in which ESG-related risks are also assessed, to ensure important issues are dealt with according to their priorities. Day-to-day operations are managed by corresponding operation sites and departments according to the policies and management approaches set out by the Group. Senior management reviews and monitors the on-going ESG performance of the Group and reports to the Board to ensure effective ESG risk management and internal control system are in place.

Stakeholders Engagement

As we strive to create long-term value for our stakeholders, on-going communication with stakeholders is essential to understand their expectations and feedback, while identifying opportunities for continuous improvement. To maintain effective communication with our stakeholders and incorporate their feedback into our decision-making process, we conduct regular engagement exercises with different stakeholder groups through appropriate communication channels.

Material Topics on Environmental, Social and Governance

To effectively manage ESG issues and determine appropriate management approach, we identified and analyzed ESG topics that matter most to our stakeholders and our business operations through our on-going stakeholders engagement process. The list of material ESG topics is reviewed and approved by senior management in the reporting year to ensure the relevancy and materiality to the Group. The list of material topics is summarized below and addressed in detail in this report, which is organized into two sections, namely environmental and social. Nevertheless, the Group has been taking steps to enhance the process of collecting resource consumption data so that a more comprehensive picture of the Group's ESG performance can be provided.

Material ESG Topics	Relevance to the Group
Environmental	
Air and greenhouse gas emissions	Buildings account for a significant amount of cities' electricity consumption. As a responsible business, we recognize our role in ensuring our properties are energy efficient.
Social	
Employment and labour practices	Adopting fair and lawful labour practices are key to attracting and retaining top talents and safeguarding the rights and interests of our employees.
Health and safety	Occupational health and safety of workers are of significant importance to the Group's operations, in particular to property development projects.
Development and training	Training and developments enhance the skills and knowledge of employees which contribute significantly to the growth and success of the Group's business.
Supply chain management	The Group's diverse business operations require collaboration with contractors and a diverse range of suppliers. Stringent supply chain management is important to maintain product and service quality across the entire supply chain.
Product responsibility	Delivering quality products and services are essential to fulfil our priorities in customer health and safety, customer satisfaction and efficient operation.
Anti-corruption	Property investment and development businesses could be subject to high risk of corruption as per some stakeholders perceived. We consider compliance to corruption-related laws to manage such risks an important part of our operation.

Environmental, Social and Governance Report (continued)

Environmental

The Group is mindful of minimizing disturbance to the environment and use of natural resources. We have established environmental protection policies that include both emissions reduction and energy saving policies in order to achieve such an objective. The Group also has a procedure in place to ensure we have an up-to-date understanding of the environmental protection regulations set out by respective environmental protection bureaus of countries in which we operate.

The Group strictly adheres to all relevant environmental laws and regulations in Hong Kong and the People's Republic of China (the "PRC"), including Waste Disposal Ordinance (Cap. 354), Air Pollution Control Ordinance (Cap. 311), Water Pollution Control Ordinance (Cap. 358), Noise Control Ordinance (Cap. 400) of the laws of Hong Kong and the Environmental Protection Law of the PRC which cover regulations on controlling pollution to air, water and land during property development and construction stages. During the reporting year, the Group was not aware of any non-compliance with the environmental laws and regulations.

Emissions

Air and Greenhouse Gas ("GHG") Emissions

The Group is committed to promoting a green environment and being environmentally responsible. The Group has strict policies and procedures in place to achieve this. This includes:

- Developing and promoting the culture of an environmentally responsible company;
- Ensuring that environmental protection objectives and targets are achieved by providing adequate and appropriate resources; and
- Educating, training and encouraging employees to participate in environmental protection initiatives to cultivate a spirit of corporate social responsibility.

Air and GHG Emissions (continued)

During project planning, design and construction stages of the Group's property development projects, the Group makes reference to industry best practice in constructing green buildings wherever possible. The Group applies different sustainability considerations, such as, taken into account energy consumption and GHG emission impact, into different projects according to their locations and customers' requirements. For example, the following measures have been included in its projects:

- Seasonal wind direction is considered and applied in residential architecture design to improve natural ventilation;
- Tinted and/or insulating glass curtain walls are double glazed and made with low emissive glass to increase visibility and natural lighting which could save energy and/or reduce solar heat radiation;
- The oxide film of the surface area is used to minimize reflectivity of the glass;
- Natural, energy efficient and automatic control light systems are installed in its buildings to reduce energy needed for lighting and to reduce overall running cost; and
- The low temperature radiant floor heating systems are adopted in its projects which provide uniform cooling and heating, and are a cost effective way for its buildings to achieve a higher level of energy performance.

Moreover, during planning and design stages, the Group would ensure that its buildings can be seamlessly integrated into the neighbourhood and environment. The Group embeds its commitment to being environmentally responsible into its day-to-day business activities. For example, as part of the procurement process, the Group prioritizes the selection of greener or environmentally-friendly materials and products in order to minimize its carbon footprint. Some of the factors considered include:

- Use of materials and products with high reusability and proportion of recycled content;
- Business conduct which fosters the sustainable use of the earth's resources by minimizing waste and mitigating any adverse environmental impacts; and
- Use of "greener" alternatives and adoption of, or investment in, energy efficient practices and technologies.

Last but not least, the Group encourages employees to participate in environmental protection initiatives. For example, the Group tries to reduce energy use and GHG emissions by adopting energy efficient technologies and by switching off lights, computers and copying machines whenever they are not required after work.

Waste Management

For hazardous waste, we understand the importance of minimizing waste and mitigating any adverse environmental impacts; and recognize the benefits of doing so. Hence, we consider environmental responsibility throughout the procurement process. While paper and other office materials are our major non-hazardous waste sources, we implemented waste-reduction measures ranging from using double-sided printing, issuing memos in electronic form across offices; collecting and recycling used ink cartridges.

Use of Resources

The Group strives to drive sustainable business growth through effective and efficient utilization of the resources, including energy, water and other raw materials. This objective is made aware of across our management and staffs, and a number of “green office practices” have been implemented.

Eco-friendly measures are being introduced to a substantial portfolio of properties that the Group managed. Such measures include but is not limited to the reduction in the use of paper. Examples on how we reduce the use of paper include closely monitoring total amount of paper printed by every employee, enforcing the use of recycled paper and use of electronic memo across offices.

Social

Employment and Labour Practices

The Group is an equal opportunity employer, offering equal employment and advancement opportunities to all candidates and employees as well as implementing fair and consistent human resource policies and programmes in relation to recruitment, compensation and dismissal, promotion, working hours, resting periods, equal opportunity, diversity and anti-discrimination. We adhere to all applicable labour laws and regulations including the Employment Ordinance (Cap. 57) and anti-discrimination legislation of the laws of Hong Kong, the Labour Law and the Labour Contract Law of the PRC.

As of 31 March 2020, the Group had 112 employees in total under the reporting boundary, including 24 employees in Hong Kong, 74 in the PRC, and 14 in other regions. The Group believes that its human resource is the most valuable asset because it recognizes that it is the people that delivers business growth and success. The Group is committed to retaining and empowering talent through various measures. The Group believes that continued workforce satisfaction is critical in order to achieve sustained outstanding business outcomes. As a measure of this, the Group is passionately committed to providing a safe and healthy working environment for all employees and site staff.

Employment and Labour Practices (continued)

As part of its core strategy to create an open and harmonious workplace, the Group seeks to provide its employees with the most competitive compensation and benefits. These include:

- Entitlement to paid marriage leave and paid leaves beyond those required by the law including compassionate leave;
- Financial allowance for external training, as well as entitlement to training leave for eligible employees to pursue their learning and development;
- Depending on individual circumstances, employees are allowed to leave their workplace early to attend to personal matters;
- Early retirement schemes for eligible employees; and
- Other privileges, including birthday leave and discounts on accommodation at hotels of the Group.

To maintain a strong and diverse workforce, the Group continues to nurture its employees through its retention policy:

- Excellent culture: The Group advocates an open and trusting working relationship amongst its employees.
- Competitive package: The Group offers full-time employees compensation such as a discretionary bonus, double pay, contributory provident fund, share options and medical insurance to employees and their family members.
- Emotional care: The Group understands the importance of family values and culture and encourages celebration of international and national holidays and events such as Chinese New Year, Dragon Boat Festival, Mid-Autumn Festival and Christmas, and complement these festivities with gift packages to the staff, lunch gatherings and early leave.
- Employee referral programme: The Group uses various recruitment channels to attract and retain talents. It launched an employee referral programme to encourage its employees to refer talents to the Group to maintain its culture and would provide employee referral rewards for the successful cases.

Furthermore, the Group emphasizes in building employee engagement, striving to enrich both their work and personal lives. Various kinds of activities ranging from movie nights, yoga classes to bread-spread-making classes were regularly organized for employees for enjoyment and relaxation and promoting teambuilding and bonding. The Group dismisses employees and compensates them in accordance with the relevant laws and regulations including the Employees' Compensation Ordinance (Cap. 282) and Minimum Wage Ordinance (Cap. 608) of the laws of Hong Kong, and the Labour Law and the Labour Contract Law of the PRC.

Health and Safety

The Group is committed to providing a safe and secure workplace for employees, contractors and site staff across its entire operations. With its core business in property development, safety at construction sites is of utmost importance. We adhere to all applicable laws and regulations including the Occupational Safety and Health Ordinance (Cap. 509) of the laws of Hong Kong, the Labour Law of the PRC, Production Safety Law of the PRC and Law of the PRC on the Prevention and Control of Occupational Diseases.

To achieve this, the Group has adopted a number of health and safety initiatives and requirements, including:

- Fulfilment of all relevant and applicable legal obligations;
- Systematic framework for identifying and reviewing safety responsibilities;
- Management of the health and safety risks arising from work activities;
- Communication of relevant policies and procedures to employees and other stakeholders as appropriate;
- Adequate and sufficient personal protective equipment and tools required for the job;
- Adequate training and motivation of team members to observe health and safety preventive measures at workplace;
- Communication of applicable health and safety requirements to employees and contractors;
- Regular fire drills and emergency evacuation simulations in place to prepare employees for handling real emergencies;
- Health related books as gifts to employees to encourage office exercise;
- Corporate flu vaccination programme offered on a free of charge basis to employees to promote a safe and healthy workplace; and
- Continuous improvement of corporate policies, procedures, programmes and work performance.

During the outbreak of Covid-19, the Group has implemented additional measures to safeguard the health and safety of our employees, including:

- Implementation of work from home arrangements and flexible working hours;
- Purchase of multiple air purifiers to improve the workplace air quality;
- Additional recruitment of cleaning staff; and
- Provision of free and accessible epidemic prevention supplies including free surgical masks and alcohol-based hand sanitizers.

Development and Training

The Group believes that the development of employees and enhancement of their skills and knowledge will contribute significantly to the growth and success of the business. As such, the Group is committed to developing and implementing a number of comprehensive training programmes for its people. These programmes seek to advance the employees' professional development based on identified areas of growth, while ensuring that the credibility of the Group's workforce meets current business needs. The Group's commitment to this is demonstrated through the following programmes:

- On boarding programme — this programme seeks to enable employees, especially new hires to learn and understand about the mission, vision, values and service culture of the Group;
- Compliance programme — this programme is designed for all staff, such as anti-corruption training in order to avoid bribery, extortion and fraud activities;
- Operations and job skills programme — the aim of this programme is to develop employees to obtain the essential skills and competencies required for their jobs. In addition to participation in on-the-job training programmes, employees are also encouraged to attend external seminars and workshops to keep themselves on the cutting edge of the industry development; and
- Manager and leadership programme — this includes the accelerated development programme and leader programme, which assists employees in creating personal management plans to progress their careers and achieve higher levels of responsibility. For the directors of the Group, they are offered in various programmes for continuous development to constantly enhance their skills and knowledge in leading the Group. With an emphasis on developing the directors' understanding of their roles, functions and duties, their contribution to the Group can be assured to be informed and relevant.

Through these programmes, the Group ensures that all employees receive full support in their development and progress in the Group. These initiatives differentiate the Group from other competitive businesses to attract, retain, and prepare the workforce for greater personal and organizational success while achieving employee satisfaction and gratification.

Labour Standards

The Group is against and prohibits the employment of child and forced labour and strictly adheres with applicable laws and regulations. The human resources department of the Group would examine the identification documents of the applicants to make sure that they are qualified as lawful hiring.

Supply Chain Management

The Group has a diverse range of supply chain relationships. The Group recognizes the critical role supply chain management plays in running an efficient business operation and to provide quality services in accordance with the highest ethical, social and environmental standards. The Group is committed to being a responsible corporation to include a good management of its suppliers so as to maintain the high standard of products delivered to its customers.

The Group is committed to developing initiatives to manage environmental and social risks of the supply chain. This includes the implementation of strict standards and policies to select and provide services, adhering to and exceeding where practicable, all relevant legal obligations and codes of practice ensuring that, where possible:

- Minimal to nought adverse impact on the environment; and
- Prevention of pollution, reduction of waste production and efficient utilization of resources.

Embedded within its supplier selection process, the Group considers the following key aspects:

- The environmental values and commitments of suppliers;
- The environmental certification and memberships of suppliers;
- Supplier's compliance with international environmental laws and regulations; and
- Supplier's commitment to meeting the Group's environmental specifications.

The Group remains in close contact with its suppliers, monitoring their performance to ensure alignment with its commitments.

Product Responsibility

As part of the Group's operating practices, we employ group-wide quality assurance procedures to protect the health and safety of its employees, contractors and customers while providing high quality products and services.

These are strictly imposed across all business operations, employees and third parties under the Group. For example, to ensure high quality service delivery and performance, all new employees must undergo:

- Induction training which instils the mission and vision of the Group;
- Training in relation to proper product knowledge and customer service standards;
- Buddy training in order to identify areas for improvement of the new team member; and
- Refresher and additional training to develop in areas of improvement.

In light of Covid-19, we have carried out a wide array of measures at our properties to safeguard the health and safety of our employees and customers in Hong Kong and the PRC. These include:

- Conduct temperature checks at the entrance of buildings/offices/property sites;
- Provide alcohol-based hand sanitizers at the entrance of buildings/offices/property sites;
- Regularly clean and disinfect space at buildings/offices/property sites; and
- Demand building users and visitors to wear face masks and perform personal hand hygiene at our buildings/offices/property sites.

The Group commits to providing high quality products to customers. The Group keeps good relationships and maintains effective communication mechanisms with its customers. This is to ensure that the Group is well aware of all customers' requirements or feedbacks on a timely basis and provide high quality services to its customers.

The Group believes that providing accurate and complete information about its products and services is vital for customers to make informed decisions. To ensure compliance with the Residential Properties (First-hand Sales) Ordinance (Cap. 621) of the laws of Hong Kong and the Law of the PRC on Protection of Consumer Rights and Interests, products are required to be labelled and advertised with due care for the sake of customer interest.

The Group pays high attention to privacy, protecting the data of its customers, staff and potential recruits. All job applicants had agreed to the personal information collection statement, while the data the Group collected from all employees would not be released to any third party without the prior consent from the employees. All customers' and employees' data is protected by the Personal Data (Privacy) Ordinance in Hong Kong, whereas in the other countries the Group followed all relevant local and national regulations. Well-established procedures and training programmes are in place to guide employees on how to handle customer personal information.

Anti-Corruption

The Group embraces and enforces rules, regulations and procedures in accordance with the Group's code of business conduct to ensure that the business is conducted in full compliance with all applicable laws and regulations including the Prevention of Bribery Ordinance of Hong Kong (Cap. 201), Unfair Competition Law of the PRC and the Criminal Law of the PRC. In recognition of the importance of anti-corruption, a 'Code of Conduct', which includes strict standards and policies, are in place to prevent bribery, corruption, extortion, money laundering and fraud. These standards and practice expectations are imposed on all employees, contracted independent third parties, as well as the Group's business partners. Training on relevant laws and regulations is also provided to directors and senior management in an ongoing basis.

The Group has maintained a whistle-blowing system to allow whistle-blowers to disclose information in relation to any misconduct, malpractice or irregularity through a confidential reporting channel. All reported cases would be investigated in a fair and proper manner by the Audit Committee of the Company. The Audit Committee classifies the reported cases according to their nature and reports the cases directly to the Board on a regular basis.

Community

Community Investments

The Group advocates the philosophy of "what is taken from the community is to be used for the good of the community". It continuously aims to incorporate this idea as part of its business strategy in helping to meet the needs of society.

The Group brought back to the society through making donations in cash to different non-profit making organizations. During the reporting year, the Group had contributed charitable donations and sponsorships amounting to approximately HK\$2,004,000. This amount was used to sponsor organizations and institutions that support the needy.

Staff members are encouraged to play an active role in charity projects, organized either by the Group or other organizations. The Group is dedicated to fostering volunteerism as part of its corporate culture of giving back to the community. The Group supported the "Love Teeth Day" organized by The Community Chest of Hong Kong as Group event and helped to raise funds to support the needy.

On behalf of the Board of
Chuang's China Investments Limited

Chong Ka Fung
Managing Director

Hong Kong, 24 June 2020

Report of the Directors

Report of the Directors

The board of Directors (the “Board”) presents the report of the Directors together with the audited consolidated financial statements of the Company and its subsidiaries (collectively as the “Group”) for the year ended 31 March 2020.

Business review

The review of the business of the Group during the year including discussion of the principal risks and uncertainties facing the Group, particulars of important events affecting the Group that have occurred during and subsequent to the year ended 31 March 2020, and an indication of likely future developments in the Group’s business are provided in the Chairman’s Statement as set out on pages 2 to 33 of this report. Financial risks of the Group are shown in note 3 to the consolidated financial statements. The key financial and business performance indicators of the Group included revenues, gross profit, profit/loss attributable to equity holders of the Company, shareholders’ funds, net debt to equity ratio and segment information. Details of these indicators are provided in the Chairman’s Statement and Summary of Financial Information as set out on pages 2 to 33 and page 200 of this report respectively, and note 6 to the consolidated financial statements.

In addition, discussions on the Group’s environmental policies and performance and the key relationships with its employees, customers, suppliers and others that have significant impact on the Group are provided in the Environmental, Social and Governance Report as set out on pages 66 to 84 of this report.

Principal activities and geographical analysis of operations

The principal activity of the Company is investment holding and those of its principal subsidiaries are set out in note 42 to the consolidated financial statements.

Analysis of the performance of the Group for the year by business lines and geographical segments is set out in note 6 to the consolidated financial statements.

Results and appropriations

The consolidated results of the Group for the year are set out in the consolidated income statement on page 106.

In order to maintain a stronger cash position under the current uncertain business environment, the Board has resolved not to recommend the payment of a final dividend for the year ended 31 March 2020 (2019: 2.0 HK cents per share). No interim dividend (2019: 1.5 HK cents per share) was declared in respect of the current year.

Dividend policy

The Company strives for generating steady returns to the shareholders of the Company (the “Shareholders”). It is the policy of the Company, in considering the payment of dividends, to allow the Shareholders to participate in the Company’s profits whilst retaining adequate reserves for the Group’s future growth.

The dividend payout ratio shall be determined by the Board at its absolute discretion after taking into account of, among others, the following factors:

- the Group’s financial performance;
- retained earnings and distributable reserves of the Company and each of the subsidiaries of the Group;
- the Group’s working capital requirements, capital expenditure requirements and future expansion plans;
- the Group’s liquidity position;
- general economic environment; and
- other factors that the Board deems relevant.

Mr. Neville Charles Kotewall ("Mr. Neville Kotewall")	1,255,004	Note	0.05

Note: Such interests arose by attribution through his spouse, Mrs. Candy Kotewall Chuang Ka Wai.

Name of Director	Interests in CCIL		
	Number of shares	Capacity	Percentage of shareholding
Mr. Albert Chuang Ka Pun ("Mr. Albert Chuang")	1,299,678	Beneficial owner	0.08

Report of the Directors (continued)

Directors' interests and short positions in shares, underlying shares and debentures (continued)

Save as disclosed, during the year under review, none of the Directors and chief executive of the Company nor their spouses or children under 18 years of age were granted or had exercised any right to subscribe for any securities of the Company, its specified undertaking or any of its associated corporations.

Other than as disclosed herein, as at 31 March 2020, none of the Directors and chief executive of the Company had any interests or short positions in shares, underlying shares and debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) which had to be notified to the Company and the Stock Exchange pursuant to the provisions of Divisions 7 and 8 of Part XV of the SFO (including interests and short positions which they were taken or deemed to have under such provisions of the SFO) or which were required, pursuant to Section 352 of Part XV of the SFO, to be entered in the register referred to therein or which were required, pursuant to the Model Code, to be notified to the Company and the Stock Exchange.

Directors' service contracts

None of the Directors has any service contract with the Company or any of its subsidiaries not terminable by the employing company within one year without payment of compensation (other than statutory compensation).

Directors' material interests in transactions, arrangements and contracts that are significant in relation to the Group's business

Save as disclosed, no transactions, arrangements and contracts of significance in relation to the Group's business to which the Company, any of its holding companies or its subsidiaries and fellow subsidiaries was a party and in which a Director of the Company and the Director's connected party had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

Directors' interests in competing business

Pursuant to Rule 8.10 of the Listing Rules, the Company discloses that during the year ended 31 March 2020, Mr. Albert Chuang, Mr. Chong Ka Fung ("Mr. Edwin Chong") and Mr. Geoffrey Chuang Ka Kam ("Mr. Geoffrey Chuang") hold directorships in CCIL and hold equity interests and directorships in certain private companies. On 5 May 2020, Miss Ann Li Mee Sum ("Miss Ann Li") has also been appointed as a director of CCIL. The principal activities of CCIL include property development in Hong Kong and securities investment and trading, whereas the principal activities of the private companies include securities investment and trading. As the properties owned by CCIL are of different types and/or in different locations from those of the Group, and the compositions of the respective boards of directors of CCIL and the private companies are different from that of the Group, the Group operates its businesses independently of, and at arm's length from, the businesses of CCIL and the private companies.

Management contracts

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or existed during the year.

Substantial shareholders

Mrs. Chong Ho Pik Yu	1,426,074,923	Note 2	60.71

Note 1: Interests in 1,426,074,923 shares are owned by PSI. PSI is a wholly-owned subsidiary of CCIL. Mr. Alan Chuang is entitled to exercise or control the exercise of one third or more of the voting power in general meetings of CCIL through Evergain, a company beneficially owned by Mr. Alan Chuang. Mr. Albert Chuang, Mr. Edwin Chong and Mr. Geoffrey Chuang are directors of CCIL and Evergain, and Mr. Albert Chuang is also a director of PSI. On 5 May 2020, Miss Ann Li has also been appointed as a director of CCIL.

Note 2: Such interests arose by attribution through her spouse, Mr. Alan Chuang.

Save as disclosed above, as at 31 March 2020, there was no other person who was recorded in the register of the Company as having interests and short positions in the shares or underlying shares of the Company which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO or which was required, pursuant to Section 336 of Part XV of the SFO, to be entered in the register referred to therein.

Report of the Directors (continued)

Controlling shareholder's interests in contracts

Save as the transactions as disclosed in the section headed "Continuing Connected Transactions" below, there was no other contract of significance between the Company or any of its subsidiaries and the controlling shareholder or any of its subsidiaries at the balance sheet date or at any time during the year and up to the date of this report.

Purchase, sale or redemption of the Company's listed securities

The Company had not redeemed any of its shares during the year. Neither the Company nor any of its subsidiaries had purchased or sold any of the Company's listed shares during the year.

Major suppliers and customers

The aggregate purchases attributable to the largest supplier and five largest suppliers of the Group accounted for approximately 27% and 57% of the total purchases of the Group for the year respectively.

The aggregate revenues attributable to the largest customer and five largest customers of the Group accounted for approximately 10% and 32% of the total revenues of the Group for the year respectively.

None of the Directors, their associates, or any shareholder (which to the knowledge of the Directors owns more than 5% of the share capital of the Company) had any interest in the five largest suppliers and customers of the Group respectively.

Relationships with suppliers and customers

The Group establishes long-term cooperation relationships with reputable suppliers within the industries. The Group implements a series of procurement management systems and control procedures so as to select suppliers in a prudent manner.

The Group keeps good relationship and maintains effective communication mechanisms with its customers. This is to ensure that the Group is well aware of all customers' requirements or feedbacks on a timely basis and provides high quality services to its customers.

Compliance with the relevant laws and regulations

During the year under review, the Group had complied with all the relevant laws and regulations that have significant impacts on the businesses and operations of the Group. Details of retirement schemes of the Group are set out in note 9 to the consolidated financial statements.

Subsequent event

On 30 April 2020, an indirect wholly-owned subsidiary of the Group entered into a sale and purchase agreement with an independent third party to dispose of a property holding company which holds an investment property in the United Kingdom at a consideration of about GBP94.2 million (equivalent to approximately HK\$909.2 million) (subject to adjustment). Deposit of about GBP9.4 million (equivalent to approximately HK\$90.9 million) has been received in cash from the purchaser and is held by the Group's solicitors as stakeholder. The transaction was approved by the shareholders of the Company at its special general meeting held on 23 June 2020, and the transaction is expected to be completed around the end of August 2020.

Permitted indemnity provision

Under Bye-law no. 166(1) of the Company's Bye-laws, the Directors for the time being acting in relation to any of the affairs of the Company, shall be indemnified and secured harmless out of the assets and profits of the Company from and against all actions, costs, charges, losses, damages and expenses which they or any of them, their or any of their heirs, executors or administrators, shall or may incur or sustain by or by reason of any act done, concurred in or omitted in or about the execution of their duty, or supposed duty, in their respective offices or trusts, provided that this indemnity shall not extend to any matter in respect of any wilful negligence, wilful default, fraud or dishonesty which may attach to any of said persons. During the year under review, the Company had taken out and maintained an insurance in respect of the Directors' liabilities.

Report of the Directors (continued)

Share option scheme

Pursuant to the ordinary resolution passed in the annual general meeting of the Company held on 31 August 2012, a share option scheme (the "Scheme") has been adopted.

Summary of the Scheme is set out as follows:

1. Purpose: To give incentive to Directors, employees or business consultants of the Group and any other party as approved under the Scheme
2. Participants: Including, inter alia, Directors, employees or business consultants of the Group
3. Total number of shares available for issue under the Scheme and percentage of the issued share capital that it represents as at the date of the annual report: 152,332,870 shares are available for issue under the Scheme, representing approximately 6.49% of the issued share capital as at the date of this report
4. Maximum entitlement of each participant: 1% of the maximum aggregate number of shares that may be issued within 12 months pursuant to the Scheme
5. Period within which the shares must be taken up under an option: Not applicable. No share option has been granted since the date of adoption of the Scheme on 31 August 2012
6. Amount payable on acceptance of an option and the period within which payments shall be made: HK\$1.00 payable to the Company upon acceptance of the option which should be taken up within 28 days from the date of offer for option ("Offer Date") (which must be a trading day)
7. The basis of determining the exercise price: No less than the highest of (i) the closing price of the shares as stated in the Stock Exchange's daily quotation sheet on the Offer Date (which must be a trading day); (ii) the average closing price of the shares as stated in the Stock Exchange's daily quotation sheets for the five (5) trading days immediately preceding the Offer Date (which must be a trading day); and (iii) the nominal value of a share
8. The remaining life of the Scheme: Valid until 30 August 2022 unless otherwise terminated under the terms of the Scheme

Update on information of Directors pursuant to Rule 13.51B(1) of the Listing Rules

Save as disclosed in other sections of this annual report, other changes in the information of Directors during the year and up to the date of this report which are required to be disclosed pursuant to Rule 13.51B(1) of the Listing Rules are set out below:

- (a) Miss Ann Li was appointed as an executive director of CCIL on 5 May 2020.
- (b) Mr. Abraham Shek Lai Him retired as an independent non-executive director of Hop Hing Group Holdings Limited on 2 June 2020, the shares of which are listed on the Stock Exchange.
- (c) Mr. Andrew Fan Chun Wah resigned as an independent non-executive director of Sanbase Corporation Limited with effect from 1 January 2020, the shares of which are listed on the Stock Exchange.

Continuing connected transactions

- (a) On 19 January 2017, a joint venture of the Group ("Xiamen JV") as landlord entered into a tenancy agreement with Lujiang Hotel, a non-wholly-owned subsidiary of the joint venture partner of Xiamen JV, as tenant for the lease of a hotel for a term of nearly ten years from 24 March 2017 to 19 January 2027 with rental at RMB9 million per annum for years 1 to 5 and RMB10 million per annum for years 6 to 10. Details of the continuing connected transaction were announced by the Company on 19 January 2017. The tenancy agreement was subsequently assigned by Lujiang Hotel to its wholly-owned subsidiary, Xiamen Mingjia Lujiang Hotel Limited ("Mingjia Lujiang Hotel").

On 30 April 2018, Xiamen JV as landlord entered into another tenancy agreement with Mingjia Lujiang Hotel as tenant for the lease of the additional three villas situated right next to the hotel for a term of nearly 8.7 years from 1 May 2018 to 19 January 2027 (coterminous with the tenancy agreement of hotel) with rental at RMB159,348 per month for years 1 to 5 and RMB175,282.8 per month for year 6 onwards. Details of the transaction were announced by the Company on 30 April 2018.

- (b) On 7 May 2018, a wholly-owned subsidiary of the Company as tenant entered into a tenancy agreement with a wholly-owned subsidiary of CCIL as landlord for the lease of one basement floor at its investment property in Hong Kong for a term of two years from 7 May 2018 to 6 May 2020 with monthly rental of HK\$290,000. Details of the transaction were announced by the Company on 7 May 2018.

The Independent Non-Executive Directors have reviewed and confirmed that the above continuing connected transactions have been entered into in the ordinary and usual course of business of the Group, on normal commercial terms and in accordance with the relevant agreements governing such transactions on terms that are fair and reasonable and in the interests of the Company and its shareholders as a whole.

Report of the Directors (continued)

Continuing connected transactions (continued)

Pursuant to Rule 14A.56 of the Listing Rules, the auditor of the Company was engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants. The auditor has issued his unqualified letter containing his findings and conclusions in respect of the disclosed continuing connected transactions, confirming that (i) nothing has come to their attention that causes the auditor to believe that the disclosed continuing connected transactions have not been approved by the Board; (ii) nothing has come to their attention that causes the auditor to believe that the transactions were not entered into, in all material respects, in accordance with the relevant agreements governing such transactions; and (iii) with respect to the aggregate amounts of the disclosed continuing connected transactions, nothing has come to their attention that causes the auditor to believe that the amounts have exceeded the annual caps as disclosed in the announcements dated 30 April 2018 and 7 May 2018 respectively. A copy of the auditor's letter has been provided by the Company to the Stock Exchange.

Sufficiency of public float

Based on the information that is publicly available to the Company and within the knowledge of the Directors, the Company has maintained a sufficient public float of the Company's securities as required under the Listing Rules throughout the year ended 31 March 2020 and up to the date of this report.

To the Shareholders of
Chuang's China Investments Limited
(Incorporated in Bermuda with limited liability)

Opinion

What we have audited

The consolidated financial statements of Chuang's China Investments Limited (the "Company") and its subsidiaries (the "Group") set out on pages 106 to 197, which comprise:

- the consolidated balance sheet as at 31 March 2020;
- the consolidated income statement for the year then ended;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated cash flow statement for the year then ended;
- the consolidated statement of changes in equity for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are summarised as follows:

- Valuation of investment properties;
- Recoverability of properties for/under development and properties for sale; and
- Recoverability of cemetery assets.

Key Audit Matter

Valuation of investment properties

Refer to Notes 4(a), 16 and 21 to the consolidated financial statements

As at 31 March 2020, the investment properties held by the Group's subsidiaries were carried at fair value of HK\$2,608 million and the Group's proportionate share of fair value of investment properties was HK\$291 million in the interest in a joint venture. Net fair value changes in investment properties held by subsidiaries amounting to loss of HK\$26 million were recorded in the consolidated income statement and no fair value change in investment properties held by a joint venture was recorded during the year ended 31 March 2020. The Group's investment property portfolio comprises commercial and residential properties in the People's Republic of China, the United Kingdom and Malaysia.

How our audit addressed the Key Audit Matter

Our procedures in relation to the key assumptions used in management's valuation of investment properties held by the Group's subsidiaries and a joint venture included:

- Evaluating the independent valuers' competence, capabilities and objectivity.
- Obtaining the valuation reports and meeting with the independent valuers to discuss the valuation methodologies.

For completed investment properties,

- Checking the accuracy of the input data used by the independent valuers in the valuation of properties, on a sample basis, including rental rates and lease terms from existing tenancies, by agreeing them to underlying agreements with the tenants and management's records.
- Assessing the appropriateness of the key assumptions used in the valuation of properties by comparing published market yields for capitalization rates, prevailing market rents of leasing transactions of comparable properties and recent market transaction prices of properties with comparable conditions and locations, where appropriate.

Independent Auditor's Report (continued)

Key Audit Matters (continued)

Key Audit Matter

Valuation of investment properties (continued)

Management has engaged independent valuers to determine the valuation of the Group's investment properties held by the Group's subsidiaries and a joint venture as at 31 March 2020. There are significant judgments and estimates involved in the valuation which mainly include:

- Completed investment properties: The valuation was arrived at using the income capitalization method by considering the capitalized income derived from existing tenancies and the reversionary potential, including capitalization rates and prevailing market rents, of the properties, and wherever appropriate, the direct comparison method by reference to market evidence of recent transaction prices of comparable properties.
- Investment properties under development: The valuation was arrived using residual method by making reference to estimated selling prices as available in the relevant market. The estimated costs to complete the development and estimated developer's profit as at the date of valuation were also taken into account.

Due to the existence of significant judgments and estimates of the assumptions involved in the valuation of investment properties held by the Group's subsidiaries and a joint venture, we considered this a key audit matter.

How our audit addressed the Key Audit Matter

For investment properties under development,

- Assessing the reasonableness of key assumptions used in the valuation of properties by comparing:
 - estimated selling prices to recent market transaction prices of properties with comparable nature and locations;
 - estimated developer's profit to published market data of properties with comparable conditions and locations; and
 - estimated costs to complete, to the latest approved budgets on total construction costs and tested, on a sample basis, the construction costs to supporting documentation such as quantity surveyor reports and signed contracts.

We found the key assumptions used in management's valuation of investment properties were supported by the available evidence.

Key Audit Matters (continued)

Key Audit Matter

Recoverability of properties for/under development and properties for sale

Refer to Notes 4(c), 18 and 24 to the consolidated financial statements

The Group had HK\$137 million and HK\$2,162 million of properties for/under development and properties for sale respectively as at 31 March 2020.

Management assessed the recoverability of properties for/under development and properties for sale based on an estimation of the net realizable value of the underlying properties. This involves estimation of anticipated costs to completion based on existing plans (for properties for/under development) and expected future sales prices based on prevailing market conditions such as current market prices of properties with comparable conditions and locations or reference to the valuation reports from the independent valuers, if applicable.

If the actual net realizable values of the underlying stock of properties are significantly different from those values estimated as a result of changes in market condition and/or significant variation in the budgeted development costs, material reversal of or provision for impairment losses may result.

Due to the existence of significant estimation uncertainty and management judgment, we considered this a key audit matter.

How our audit addressed the Key Audit Matter

Our procedures in relation to management's assessment of recoverability of properties for/under development and properties for sale included:

- Testing the key controls around the property construction cycle with particular focus on, but not limited to, controls over cost budgeting and periodic review, sources of recoverability assessment data and calculation of provision for impairment loss.
- Evaluating the independent valuers' competence, capabilities and objectivity.
- Obtaining the valuation reports and meeting with the independent valuers to discuss the valuation methodologies for certain properties.
- Assessing the reasonableness of key assumptions and estimates in management's assessment, on a sample of properties selected, including:
 - expected future sales prices which we compared to contracted sales prices of the underlying properties or current market prices of properties with comparable conditions and locations, where applicable;
 - anticipated costs to completion which we compared to latest approved budgets on total construction costs and checked to supporting documentation such as quantity surveyor reports and signed contracts.

We found the key assumptions used in management's assessment of recoverability of properties for/under development and properties for sale were supported by the available evidence.

Independent Auditor's Report (continued)

Key Audit Matters (continued)

Key Audit Matter

Recoverability of cemetery assets

Refer to Notes 4(c) and 19 to the consolidated financial statements

The Group had HK\$276 million and HK\$724 million of cemetery assets classified as non-current assets and current assets respectively as at 31 March 2020.

Management assessed the recoverability of cemetery assets based on an estimation of the net realizable value by engaging independent valuer to determine the valuation of the cemetery assets as at 31 March 2020, which involves estimation of expected future sales prices based on prevailing market conditions such as current market prices of cemetery assets with comparable conditions and locations and estimation of anticipated costs to completion.

If the actual net realizable values of the underlying stock of cemetery assets are significantly different from those values estimated as a result of changes in market condition and/or significant variation in the budgeted development costs, material reversal of or provision for impairment losses may result.

Due to the existence of significant estimation uncertainty and management judgment involved in the assessment of the recoverability of the cemetery assets, we considered this a key audit matter.

How our audit addressed the Key Audit Matter

Our procedures in relation to management's assessment of the recoverability of the cemetery assets included:

- Testing the key controls around the construction cycle of cemetery assets with particular focus on, but not limited to, controls over sources of recoverability assessment data and calculation of provision for impairment loss.
- Evaluating the independent valuer's competence, capabilities and objectivity.
- Obtaining the valuation reports and meeting with the independent valuer to discuss the valuation methodologies.
- Assessing the reasonableness of key assumptions used in valuation including:
 - expected future sales prices which we compared to contracted sales prices/latest valuation of the underlying assets or current market prices of assets with comparable conditions and locations, where applicable;
 - anticipated costs to completion which we compared to latest approved budgets on total construction costs.

We found the key assumptions used in management's assessment of recoverability of cemetery assets were supported by the available evidence.

Other Information

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors and the Audit Committee for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The audit committee is responsible for overseeing the Group's financial reporting process.

Independent Auditor's Report (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with Section 90 of the Companies Act 1981 of Bermuda and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Tsang Nga Kwan.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2020

1. General information

Chuang's China Investments Limited (the "Company") is a limited liability company incorporated in Bermuda and listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The address of its registered office is Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda and its principal place of business in Hong Kong is 25th Floor, Alexandra House, 18 Chater Road, Central.

As at 31 March 2020, the Company was a 60.7% owned subsidiary of Profit Stability Investments Limited, a company incorporated in the British Virgin Islands and a wholly-owned subsidiary of Chuang's Consortium International Limited ("CCIL"), a limited liability company incorporated in Bermuda and listed on the Main Board of the Stock Exchange. The board of Directors (the "Board") regards CCIL as the ultimate holding company.

The principal activities of the Company and its subsidiaries (collectively as the "Group") are property development, investment and trading, hotel operation and management, development and operation of cemetery, sales of goods and merchandises (including art pieces), and securities investment and trading.

2. Summary of significant accounting policies

The significant accounting policies adopted for the preparation of the consolidated financial statements are set out below, which have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of investment properties, financial assets at fair value through other comprehensive income and financial assets at fair value through profit or loss at fair value, and in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants.

The preparation of the consolidated financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the accounting policies of the Group. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in note 4.

2. Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

(i) Effect of adopting new standard, amendments to standards and new interpretation

For the financial year ended 31 March 2020, the Group adopted the following new standard, amendments to standards and new interpretation that are effective for the accounting periods beginning on or after 1 April 2019 and relevant to the operations of the Group:

HKAS 19 (Amendment)	Employee Benefits – Plan Amendment, Curtailment or Settlement
HKAS 28 (Amendment)	Investments in Associates and Joint Ventures
HKFRS 9 (Amendment)	Prepayment Features with Negative Compensation
HKFRS 16	Leases
HKFRSs (Amendments)	Annual Improvements to HKFRSs 2015–2017 Cycle
HK(IFRIC)-Int 23	Uncertainty over Income Tax Treatments

The impact of the adoption of HKFRS 16 is disclosed in note 2(a)(iii) below. The other amendments to standards and new interpretation did not have significant impact on the Group's results and financial position nor any substantial changes in the Group's accounting policies and presentation of the consolidated financial statements.

(ii) New standard and amendments to standards that are not yet effective

The following new standard and amendments to standards have been published which are relevant to the Group's operations and are mandatory for the Group's accounting periods beginning on or after 1 April 2020, but have not yet been early adopted by the Group:

HKAS 1 and HKAS 8 (Amendments)	Definition of Material (effective from 1 January 2020)
HKAS 39, HKFRS 7 and HKFRS 9 (Amendments)	Hedge Accounting (effective from 1 January 2020)
HKFRS 3 (Amendment)	Definition of a Business (effective from 1 January 2020)
HKFRS 10 and HKAS 28 (Amendments)	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (no mandatory effective date)
HKFRS 16 (Amendment)	Covid-19 – Related Rent Concessions (effective from 1 June 2020)
HKFRS 17	Insurance Contracts (effective from 1 January 2021)
Conceptual Framework for Financial Reporting 2018	Revised Conceptual Framework for Financial Reporting (effective from 1 January 2020)

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

2. Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

(ii) New standard and amendments to standards that are not yet effective (continued)

The Group will adopt the above new standard and amendments to standards as and when they become effective. The Group has commenced a preliminary assessment of the likely impact of adopting the above new standard and amendments to standards, and expects the adoption will have no significant impact on the Group's results and financial position or any substantial changes in the Group's accounting policies and presentation of the consolidated financial statements. The Group will continue to assess the impact in more detail.

(iii) Changes in accounting policies

HKFRS 16 replaces HKAS 17 "Leases" and related interpretations where the distinction between operating and finance leases is removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognized on the balance sheet for all leases by lessees. The standard does not significantly change the accounting of lessors.

The Group has adopted HKFRS 16 from 1 April 2019, but has not restated the comparatives for the prior years, as permitted under the specific transitional provisions in the standard. The reclassifications and adjustments arising from the new leasing rules are therefore recognized in the opening consolidated balance sheet on 1 April 2019 and summarized as follows:

	As at 1 April 2019		
	As previously stated HK\$'000	Effects of the adoption HK\$'000	As restated HK\$'000
Right-of-use assets	–	5,566	5,566
Land use rights	1,721	(1,721)	–
Other non-current liabilities	36,726	326	37,052
Creditors and accruals	210,625	3,519	214,144

From 1 April 2019, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

2. Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

(iii) Changes in accounting policies (continued)

On adoption of HKFRS 16, the Group recognized lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of HKAS 17 'Leases'. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 April 2019, and were included in "Other non-current liabilities" and "Creditors and accruals".

Lease payments include fixed payments less any lease incentives receivable. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the consolidated income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

As a result, the total obligations under the operating lease commitments of HK\$4,460,000 disclosed at 31 March 2019, adjusted by the effect of discounting and exclusion of short-term leases and low-value asset leases, amounted to lease liabilities of HK\$3,845,000, recognized on 1 April 2019. The amount was split into current and non-current portions of HK\$3,519,000 and HK\$326,000 respectively.

The associated right-of-use assets were measured at the amount equal to the initial measurement of lease liabilities on a present value basis, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the consolidated balance sheet as at 31 March 2019. In addition, land use rights were reclassified to right-of-use assets. Together with this reclassification, right-of-use assets of HK\$5,566,000 were recognized in the consolidated balance sheet as of 1 April 2019. The right-of-use assets are depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Payments associated with short-term leases and leases of low-value assets are recognized on a straight-line basis as lease expenses in the consolidated income statement.

Cash payments for the settlement of lease liabilities are reclassified from operating activities to financing activities according to HKFRS 16 in the consolidated cash flow statement. In applying HKFRS 16 for the first time, the Group has accounted for operating leases with a remaining lease term of less than 12 months as at 1 April 2019 as short-term leases as permitted under the practical expedients in the standard.

There is no material impact on the Group's profit or loss due to the adoption of this new accounting standard.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

2. Summary of significant accounting policies (continued)

(b) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 March and include the share of post-acquisition results and reserves of its associated companies and joint ventures attributable to the Group.

Results attributable to subsidiaries, associated companies and joint ventures acquired or disposed of during the financial period are included in the consolidated income statement from the date of acquisition or up to the date of disposal as applicable.

The gain or loss on disposal of subsidiaries, associated companies or joint ventures is calculated by reference to the share of net assets at the date of disposal including the attributable amount of goodwill not yet written off.

(c) Subsidiaries

A subsidiary is an entity (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group and are de-consolidated from the date that control ceases.

Intra-group transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred assets. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

2. Summary of significant accounting policies (continued)

(c) Subsidiaries (continued)

(i) Business combinations

The Group uses the acquisition method of accounting to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognizes any non-controlling interest in the acquiree on an acquisition-by-acquisition basis. Non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are measured at either fair value or the present ownership interests' proportionate share in the recognized amounts of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at their acquisition date fair values, unless another measurement basis is required by HKFRS.

If the business combination is achieved in stages, the acquisition-date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such remeasurement are recognized in the consolidated income statement.

Any contingent consideration to be transferred by the Group is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with HKFRS 9 either in the consolidated income statement or as a change to other comprehensive income. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognized and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference (negative goodwill) is recognized directly in the consolidated income statement.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

2. Summary of significant accounting policies (continued)

(c) Subsidiaries (continued)

(ii) Disposal of subsidiaries

When the Group ceases to have control, any retained interest in the subsidiary is remeasured to its fair value at the date when control is lost, with the change in carrying amount recognized in the consolidated income statement. The fair value is the initial carrying amount for the purpose of subsequently accounting for the retained interest as an associated company, a joint venture or a financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities. This means that amounts previously recognized in other comprehensive income are reclassified to the consolidated income statement or transferred to another category of equity as specified/ permitted by applicable HKFRSs.

(iii) Separate financial statements

In the balance sheet of the Company, investments in subsidiaries are carried at cost less impairment losses. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

(d) Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in a loss of control are accounted for as equity transactions — that is, as transactions with the owners of the subsidiary in their capacity as owners. The difference between the fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

2. Summary of significant accounting policies (continued)

(e) Associated companies

An associated company is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights.

Investments in associated companies are accounted for under the equity method of accounting. Under the equity method, the investments are initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investments in associated companies include goodwill identified on acquisition. Upon the acquisition of the ownership interest in an associated company, any difference between the cost of the associated company and the Group's share of the net fair value of the associated company's identifiable assets and liabilities is accounted for as goodwill.

If the ownership interest in an associated company is reduced but significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income are reclassified to the consolidated income statement where appropriate.

The share of post-acquisition profits or losses of associated companies attributable to the Group is recognized in the consolidated income statement, and the share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the share of losses of the Group in an associated company equals or exceeds its interest in the associated company (which includes any long-term interests that, in substance, form part of the Group's net investment in the associated company), the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associated company.

The Group determines at each balance sheet date whether there is any objective evidence that the investment in associated company is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associated company and its carrying value and recognizes the amount adjacent to "share of results of associated companies" in the consolidated income statement.

Unrealized gains on transactions between the Group and its associated companies are eliminated to the extent of the interest in the associated companies held by the Group. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associated companies have been changed where necessary to ensure consistency with the accounting policies adopted by the Group. Dilution gains and losses arising from investments in associated companies are recognized in the consolidated income statement.

(f) Joint arrangements

Investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor, rather than the legal structures of the joint arrangements. The Group has assessed the nature of its joint arrangements and applied HKFRS 11 in preparing the consolidated financial statements.

Joint operation

A joint arrangement which does not involve the establishment of a separate entity but involves the joint control and ownership by the Group and other parties of assets contributed to, or acquired for the purpose of, the joint arrangement is accounted for as a joint operation. The Group's share of joint operation and any liabilities incurred jointly with other joint operation partners are recognized and classified according to the nature of the relevant items. Income from the sale or use of the Group's share of the output of joint operation is recognized when it is probable that the economic benefits associated with the transaction will flow to the Group, while the Group's share of expenses in respect of joint operation is recognized as incurred.

Joint venture

Under the equity method of accounting, interests in joint ventures are initially recognized at cost and adjusted thereafter to recognize the Group's share of the post-acquisition profits or losses and movements in other comprehensive income. The Group's investments in joint ventures include goodwill identified on acquisition. Upon the acquisition of the ownership interest in a joint venture, any difference between the cost of the joint venture and the Group's share of the net fair value of the joint venture's identifiable assets and liabilities is accounted for as goodwill. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group does not recognize further losses, unless it has incurred obligation or made payments on behalf of the joint venture.

Unrealized gains on transactions between the Group and its joint venture are eliminated to the extent of the interest in the joint venture held by the Group. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of joint venture have been changed where necessary to ensure consistency with the accounting policies adopted by the Group.

2. Summary of significant accounting policies (continued)

(g) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the share of the net identifiable assets of the acquired subsidiaries, associated companies or joint ventures attributable to the Group at the effective date of acquisition, and in respect of an increase in holding in a subsidiary, it is regarded as a transaction with non-controlling interest. The cost of an acquisition is measured at the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange.

Goodwill on acquisitions of subsidiaries is included in intangible assets while goodwill on acquisitions of associated companies or joint ventures is included in investments in associated companies or joint ventures respectively. If the cost of acquisition is less than the fair value of the net assets acquired, the difference is recognized directly in the consolidated income statement.

Goodwill is tested for impairment at least annually and whenever there is an indication for impairment, and is carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose has been identified according to operating segment.

Impairment testing of the investments in subsidiaries, associated companies and joint ventures is required upon receiving dividends from these investments if the dividend exceeds the total comprehensive income of the subsidiaries, associated companies and joint ventures in the period the dividend is declared or if the carrying amounts of the investments in the separate financial statements exceeds the carrying amounts in the consolidated financial statements of the investee's net assets including goodwill.

2. Summary of significant accounting policies (continued)

(h) Property, plant and equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the assets. Subsequent costs are included in the carrying amount of the asset or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the asset will flow to the Group and the cost of the asset can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance costs are expensed in the consolidated income statement during the financial period in which they are incurred.

Depreciation of property, plant and equipment is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives at the following annual rates:

Buildings	2% to 5%
Plant and machinery	10% to 20%
Furniture and fixtures	10% to 67%
Other assets	10% to 30%

The residual values and useful lives of the assets are reviewed, and adjusted if appropriate, at each balance sheet date. Where the estimated recoverable amounts have declined below their carrying amounts, the carrying amounts are written down to their estimated recoverable amounts.

Gain or loss on disposal is determined as the difference between the net sales proceeds and the carrying amount of the relevant assets, and is recognized in the consolidated income statement.

(i) Investment properties

Properties that are held for long-term rental yields or for capital appreciation or both, and that are not occupied by the Group, are classified as investment properties. Investment properties also include properties that are being constructed or developed for future use as investment properties.

Until 31 March 2019, investment properties comprised land held under operating leases and buildings held under finance leases. Land held under operating leases was classified and accounted for as investment properties when the rest of the definition of investment properties was met. The operating lease was accounted for as if it were a finance lease.

2. Summary of significant accounting policies (continued)

(i) Investment properties (continued)

From 1 April 2019, all leases that meet the definition of investment properties are classified as investment properties and measured at fair value.

Investment property is measured initially at its cost, including related transaction costs and borrowing costs. Borrowing costs incurred for the purpose of acquiring, constructing or producing a qualifying investment property are capitalized as part of its cost. Borrowing costs are capitalized while acquisition or construction is actively underway and will be ceased once the asset is substantially completed, or suspended if the development of the asset is suspended.

Investment property that is obtained through a lease is measured initially at the lease liability amount adjusted for any lease payments made at or before the commencement date (less any lease incentives received), and any initial direct costs incurred by the Group.

After initial recognition, investment property is carried at fair value. Fair value is based on valuations carried out by professional valuers who hold recognized and relevant professional qualifications and have recent experience in the location and category of the investment property being valued. These valuations form the basis of the carrying amounts in the consolidated financial statements. Investment property that is being redeveloped for continuing use as investment property or for which the market has become less active continues to be measured at fair value.

Fair value measurement on property under construction is only applied if the fair value is considered to be reliably measurable.

It may sometimes be difficult to determine reliably the fair value of the investment property under construction. In order to evaluate whether the fair value of an investment property under construction can be determined reliably, management considers the following factors, among others:

- The provisions of the construction contract
- The stage of completion
- Whether the project/property is standard (typical for the market) or non-standard
- The level of reliability of cash inflows after completion
- The development risk specific to the property
- Past experience with similar constructions
- Status of construction permits

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

2. Summary of significant accounting policies (continued)

(i) Investment properties (continued)

The fair value of investment property reflects, among other things, rental income from current leases and assumptions about rental income from future leases in the light of current market conditions. The fair value also reflects, on a similar basis, any cash outflows that could be expected in respect of the property. Some of those outflows are recognized as liabilities, including lease liabilities in respect of right-of-use assets classified as investment property; others, including contingent rent payments, are not recognized in the consolidated financial statements. The fair value of investment property also reflects the market values of comparable properties which have been recently transacted, adjusted for any qualitative differences that may affect the price such as location, floor area, quality and the finishes of the building and other related factors.

Subsequent expenditure is capitalized to the carrying amount of the property only when it is probable that future economic benefits associated with the property will flow to the Group and the cost can be measured reliably. All other repairs and maintenance costs are expensed in the consolidated income statement during the financial period in which they are incurred.

Changes in fair values of investment properties are recognized in the consolidated income statement. Investment property is derecognized either when it has been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal.

Investment properties under construction have been valued at the balance sheet date. All fair value gains or losses are recognized in the consolidated income statement as fair value gains or losses.

If an investment property becomes owner-occupied, it is reclassified as property, plant and equipment. Its fair value at the date of reclassification becomes its cost for subsequent accounting purposes.

Where an investment property undergoes a change in use, evidenced by commencement of development with a view to sale, the property is transferred to inventories. A property's deemed cost for subsequent accounting as inventories is its fair value at the date of change in use.

If an owner-occupied property becomes an investment property because its use has changed, any difference resulting from the carrying amount and the fair value of this property at the date of transfer is recognized in other comprehensive income as revaluation reserve of property, plant and equipment. However, if the fair value gives rise to a reversal of a previous impairment, this amount is recognized in the consolidated income statement. This revaluation reserve shall remain and be transferred to retained profits upon disposal of this property.

2. Summary of significant accounting policies (continued)

(i) Investment properties (continued)

If a property for/under development or a property for sale becomes an investment property when there is a change in use, any difference resulting from the fair value of the property at that date and its previous carrying amount is recognized in the consolidated income statement.

The investment properties are classified under non-current assets except for those properties which are expected to be disposed of within one year and are classified under current assets. Investment properties are reclassified as assets of disposal group held for sale when their carrying amount is to be recovered principally through a sale transaction and a sale is considered highly probable.

(j) Land use rights

Until 31 March 2019, land use rights represented non-refundable rental payments for lease of land. The up-front prepayments made for land use rights were amortized on a straight-line basis over the period of the lease or where there was impairment, the impairment was expensed in the consolidated income statement. The amortization of the land use rights was capitalized under the relevant assets when the properties on the lands were under construction. In all other cases, the amortization was recognized in the consolidated income statement. No amortization was provided for the land use rights recorded under properties for sale. For accounting policies of land use rights applied since 1 April 2019, please refer to note 2(y).

(k) Cemetery assets

Cost of cemetery assets comprises right-of-use assets and costs of development expenditures incurred for the grave plots and niches for cremation urns. Cemetery assets are classified as current assets unless the construction period of the relevant grave plots or niches for cremation urns is expected to complete beyond the normal operating cycle.

Grave plots and niches for cremation urns are stated at the lower of cost and net realizable value. Net realizable value represents the estimated selling price for cemetery assets less all estimated costs of completion and costs necessary to make the sale.

Notes to the Consolidated Financial Statements (continued)

2. Summary of significant accounting policies (continued)

(l) Properties for/under development

Properties for/under development are stated at the lower of cost and net realizable value. Costs include right-of-use assets, development and construction expenditures incurred and any borrowing costs capitalized and other direct costs attributable to the development. Net realizable value is determined on the basis of anticipated sales proceeds less estimated selling expenses and costs to complete.

Properties for/under development are classified as properties for sale under current assets unless the construction period of the relevant development project is expected to complete beyond the normal operating cycle.

(m) Properties for sale

Properties for sale which include properties under development (note 2(l)) and completed properties are classified under current assets and comprise right-of-use assets, development and construction expenditures, any borrowing costs capitalized and other direct costs attributable to the development. Properties for sale are carried at the lower of cost and net realizable value. Net realizable value is determined on the basis of anticipated sales proceeds less estimated selling expenses and costs to complete.

(n) Financial assets

(i) Classification

The Group classifies its financial assets in the measurement categories of those to be measured subsequently at fair value (either through other comprehensive income ("OCI") or through profit or loss) and those to be measured at amortized cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in OCI or profit or loss. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income ("FVOCI").

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

2. Summary of significant accounting policies (continued)

(n) Financial assets (continued)

(ii) Recognition and derecognition

Regular purchases and sales of financial assets are recognized on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss ("FVPL"), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in consolidated income statement.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in the consolidated income statement using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in consolidated income statement and presented in other income and net gains/losses together with foreign exchange gains and losses. Impairment losses, if material, are presented as separate line item in the consolidated income statement.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

2. Summary of significant accounting policies (continued)

(n) Financial assets (continued)

(iii) Measurement (continued)

Debt instruments (continued)

- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognized in consolidated income statement. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other income and net gains/losses. Interest income from these financial assets is included in other income and net gains/losses using the effective interest rate method. Foreign exchange gains and losses are presented in other income and net gains/losses and impairment losses, if material, are presented as separate line item in the consolidated income statement.
- FVPL: Assets that do not meet the criteria for amortized cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognized in consolidated income statement.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognized in consolidated income statement when the Group's right to receive payments is established.

2. Summary of significant accounting policies (continued)

(o) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses ("ECL") associated with its debt instruments carried at amortized cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade debtors, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

The Group's other financial assets carried at amortized cost include loans and receivables, other receivables, amounts due from associated companies and a joint venture. The impairment loss of other financial assets carried at amortized cost is measured based on twelve months expected credit loss. The twelve months expected credit loss is the portion of lifetime expected credit loss that results from default events on a financial instrument that are possible within twelve months after the reporting date. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime expected credit loss.

(p) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

(q) Inventories

Inventories, which mainly comprise merchandises and art pieces, are stated at the lower of cost and net realizable value. Cost is calculated on the specific identification basis. The cost of inventory includes expenditure that is directly attributable to the acquisition of the asset. Net realizable value is the estimated selling price in the ordinary course of business less applicable variable selling expenses.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

2. Summary of significant accounting policies (continued)

(r) Trade and other debtors

Trade and other debtors are amounts due from customers for properties and goods and merchandises sold or services performed in the ordinary course of business. If collection of trade and other debtors is expected within one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other debtors are recognized initially at the amount of consideration that is unconditional and subsequently measured at amortized cost using the effective interest method, less provision for impairment, as the Group holds the trade and other debtors with the objective to collect the contractual cash flows and those cash flows represent solely payments of principal and interest. The Group's impairment policies are set out in note 2(o). The carrying amount of trade and other debtors is reduced through the use of an allowance account and the amount of the provision is recognized in the consolidated income statement within administrative and other operating expenses. When a debtor is uncollectible, it is written off against the allowance account for trade and other debtors. Subsequent recoveries of amounts previously written off are credited in the consolidated income statement.

(s) Impairment of non-financial assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the fair value of an asset less costs to sell and value-in-use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each balance sheet date.

(t) Creditors and accruals

Creditors and accruals are obligations to pay for goods or merchandises or services that have been acquired in the ordinary course of business from suppliers. Creditors and accruals are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Creditors and accruals are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

2. Summary of significant accounting policies (continued)

(u) Provisions

Provisions are recognized when there is a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where a provision is expected to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. Restructuring provisions comprise lease termination penalties and employee termination payments. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

(v) Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Where any group company purchases the Company's equity share capital, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to owners of the Company. Where such ordinary shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to owners of the Company.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

2. Summary of significant accounting policies (continued)

(w) Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial liability, including fees and commissions to agents, advisers, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Borrowings are subsequently stated at amortized cost; any difference between the proceeds, net of transaction costs, and the redemption value is recognized in the consolidated income statement over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facilities will be drawn down. In this case, the fee is deferred until the drawdown occurs. To the extent there is no evidence that it is probable that some or all of the facilities will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the balance sheet date.

(x) Current and deferred taxation

The tax expenses for the year comprise current and deferred taxes. Tax is recognized in the consolidated income statement, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Group, its associated companies and joint ventures operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be payable to the tax authorities.

Deferred taxation is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred taxation liabilities are not recognized if they arise from the initial recognition of goodwill, the deferred taxation is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted at the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

2. Summary of significant accounting policies (continued)

(x) Current and deferred taxation (continued)

Deferred taxation assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Deferred taxation liabilities are provided on taxable temporary differences arising from investments in subsidiaries, associated companies and joint arrangements, except for deferred taxation liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred taxation assets are recognized on deductible temporary differences arising from investments in subsidiaries, associated companies and joint arrangements only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilized.

Deferred taxation assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred taxation assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(y) Leases

As explained in note 2(a)(iii) above, the Group has changed its accounting policy for leases where the Group is the lessee. The new policy and the impact of the change are described below and in note 2(a)(iii) respectively.

Until 31 March 2019, leases in which a significant portion of the risks and rewards of ownership were retained by the lessor were classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) were charged to the consolidated income statement on a straight-line basis over the period of the lease. When assets were leased out by the Group under an operating lease, the assets were included in the consolidated balance sheet based on the nature of the assets. Lease income from operating lease was recognized over the term of the lease on a straight-line basis.

From 1 April 2019, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of fixed payments (including in-substance fixed payments), less any lease incentives receivables.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

2. Summary of significant accounting policies (continued)

(y) Leases (continued)

The lease payments are discounted using the lessee's incremental borrowing rate.

Lease payments are allocated between the principal and finance cost. The finance cost is charged to the consolidated income statement over the lease period so as to produce a constant period rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability, and
- any lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

When right-of-use assets meet the definition of investment properties, they are presented in investment properties, and are initially measured at cost and subsequently measured at fair value, in accordance with the Group's accounting policy.

The Group also has interests in land use rights for use in its operations. Lump sum payments were made upfront to acquire these land interests from their previous registered owners or governments in the jurisdictions where the land is located. There are no ongoing payments to be made under the term of the land leases, other than insignificant lease renewal costs or payments based on rateable value set by the relevant government authorities. These payments are stated at cost and are amortized over the term of the lease which includes the renewal period if the lease can be renewed by the Group without significant cost.

Payments associated with short-term leases are recognized on a straight-line basis as an expense in the consolidated income statement. Short-term leases are leases with a lease term of twelve months or less.

Lease liabilities are classified as non-current liabilities unless payments are made within twelve months from the end of the reporting period.

2. Summary of significant accounting policies (continued)

(y) Leases (continued)

Rental income from operating leases where the Group is a lessor is recognized as income on a straight-line basis over the lease term (note 2(z)). Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognized as expense over the lease term on the same basis as rental income. The respective leased assets are included in the consolidated balance sheet based on their nature. The Group did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

(z) Revenue and income recognition

Revenue comprises the fair value of the consideration received or receivable for goods supplied, and is shown, net of value-added taxes, returns, rebates and discounts, allowances for credit and other revenue reducing factors.

Revenue is recognized when it is probable that future economic benefits will flow to the Group and specific criteria for each of the Group's activities as described below have been met. Estimates are based on historical results, taking into consideration the type of customers, the type of transactions and the specifics of each arrangement.

- (i) Revenue from sales of properties is recognized when or as the control of the asset is transferred to the customer. Depending on the terms of the contract and laws that apply to the contract, control of the properties under development may transfer over time or at a point in time. If properties have no alternative use to the Group contractually and the Group has an enforceable right to payment from the customers for performance completed to date, the Group satisfies the performance obligation over time and therefore, recognizes revenue over time in accordance with the input method for measuring progress. Otherwise, revenue is recognized at a point in time when the customer obtains control of the completed property.

For property development and sales contract for which the control of the property is transferred at a point in time, revenue is recognized when the customer obtains the physical possession or the legal title of the completed property and the Group has present right to payment and the collection of the consideration is probable.

In determining the transaction price, the Group adjusts the promised amount of consideration for the effect of a financing component if it is significant.

Contract acquisition costs incurred to obtain contracts are capitalized and amortized when the related revenue is recognized.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

2. Summary of significant accounting policies (continued)

(z) Revenue and income recognition (continued)

- (ii) Rental income, net of incentives given to lessees, is recognized on a straight-line basis over the period of the respective leases.
- (iii) Sales of cemetery assets are recognized when the control of the asset is transferred to the customer, which are when the customer obtains the physical possession or the legal title of the relevant cemetery assets and the Group has present right to payment and the collection of the consideration is probable.
- (iv) Sales of goods and merchandises are recognized when the control of the asset is transferred to the customer, which generally coincide with the time when goods and merchandises are delivered to the customers and legal title has been passed.
- (v) Gain or loss from securities investment and trading is recognized on the transaction date when the relevant sale and purchase contracts are entered into.
- (vi) Service and management fees are recognized when the services are rendered.
- (vii) Interest income is recognized on a time proportion basis, using the effective interest method, taking into account the principal amounts outstanding and the interest rates applicable.
- (viii) Dividend income is recognized when the right to receive payment is established.

(aa) Borrowing costs

Interest and related costs on borrowings attributable to the construction or acquisition of an asset that necessarily takes a substantial period of time to complete and prepare for its intended use or sale are capitalized as part of the cost of their assets. All other borrowing costs are charged to the consolidated income statement in the financial period in which they are incurred.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

2. Summary of significant accounting policies (continued)

(ab) Employee benefits

Contributions to defined contribution retirement schemes such as the Mandatory Provident Fund Scheme in Hong Kong and the respective government employee retirement benefit schemes in the People's Republic of China (the "PRC") and other countries are charged to the consolidated income statement in the financial period to which the contributions relate. The Group has no further payment obligations once the contributions have been paid. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

Employee entitlements to annual leaves are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the balance sheet date. Employee entitlements to sick and maternity leaves are not recognized until the time of leaves.

Provisions for bonus entitlements are recognized when the Group has a present legal or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made. Such bonuses are payable within twelve months from the balance sheet date.

(ac) Cash and cash equivalents

Cash and cash equivalents comprise cash and bank balances, deposits with banks and financial institutions with maturity within three months from the date of placement.

(ad) Translation of foreign currencies

Transactions included in the financial statements of each of the entities of the Group are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Hong Kong dollar, which is the functional and presentation currency of the Company.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the exchange rates ruling at the balance sheet date are recognized in the consolidated income statement.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

2. Summary of significant accounting policies (continued)

(ad) Translation of foreign currencies (continued)

The results and financial position of all the entities in the Group that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities for each balance sheet presented are translated at the rate of exchange ruling at the date of that balance sheet;
- (ii) income and expenses for each income statement are translated at average exchange rates unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions; and
- (iii) all resulting exchange differences are recognized in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the rate of exchange ruling at the balance sheet date. Exchange differences arising are recognized in other comprehensive income.

On the disposal of a foreign operation (that is, a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the equity holders of the Company are reclassified to the consolidated income statement.

In the case of a partial disposal that does not result in the Group losing control over a subsidiary that includes a foreign operation, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognized in the consolidated income statement.

(ae) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (the "CODM"). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Executive Directors and senior management.

(af) Dividend distribution

Dividend distribution to the shareholders of the Company is recognized as a liability in the consolidated financial statements in the financial period in which the dividends are approved by the Company's shareholders or Directors as applicable.

2. Summary of significant accounting policies (continued)

(ag) Financial guarantee liabilities

The Group provides financial guarantees to banks for mortgage loans made by the banks to certain purchasers of the Group's properties in the PRC.

Financial guarantees are recognized as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of (1) the amount determined in accordance with the expected credit loss model under HKFRS 9; and (2) the amount initially recognized less, where appropriate, the cumulative amount of income recognized in accordance with the principles of HKFRS 15.

The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

Where guarantees in relation to loans or other payables of associated companies or joint ventures are provided for no compensation, the fair values are accounted for as contributions and recognized as part of the cost of the investment.

3. Financial risk management

(a) Financial risk factors

The activities of the Group expose it to a variety of financial risks including credit risk, liquidity risk, cash flow and fair value interest rate risk, foreign exchange risk and price risk. The overall risk management programme of the Group focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Group.

Financial risk management is carried out by the finance department under policies approved by the Board. The Board provides principles for overall risk management, as well as written policies covering specific areas.

3. Financial risk management (continued)

(a) Financial risk factors (continued)

(i) Credit risk

The maximum exposure to credit risk is represented by the carrying amount of each financial assets (other than financial assets at fair value through other comprehensive income and financial assets at fair value through profit or loss) after deducting any impairment provision in the consolidated balance sheet. The Group's exposure to credit risk arising from debtors is set out in note 26.

Credit risk of the Group is primarily attributable to deposits with banks and financial institutions and non-current loans and receivables, as well as credit exposures to customers and other debtors. The Group has credit policies in place and exposures to these credit risks are monitored on an ongoing basis.

The Group applies the HKFRS 9 simplified approach in measuring expected credit losses which uses a lifetime expected loss allowance for all trade debtors.

To measure the expected credit losses, trade debtors are grouped based on shared credit risk characteristics and the days past due. The expected loss rates are based on the historical payment profiles and the corresponding historical credit losses. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors and industry trends affecting the ability of the debtors to settle the outstanding balance.

Management considered the credit risk of loans and receivables, other receivables, amounts due from an associated company and a joint venture is low, as counterparties have a strong capacity to meet their contractual cash flow obligations in the near term. The Group has assessed that the expected credit losses for these loans and receivables, other receivables and amount due from a joint venture were nil (2019: Nil, also including amount due from an associated company) under 12 months expected losses method and no provision was recognized (2019: Nil).

The Group manages its deposits with banks and financial institutions by monitoring credit ratings and only places deposits with banks and financial institutions with no history of defaults. As at 31 March 2020, the monies placed with banks and financial institutions in Hong Kong, the PRC and other countries amounted to approximately HK\$563 million (2019: HK\$787 million), HK\$136 million (2019: HK\$131 million) and HK\$5 million (2019: HK\$2 million), respectively.

3. Financial risk management (continued)

(a) Financial risk factors (continued)

(i) Credit risk (continued)

In respect of credit exposures to customers, the Group normally receives deposits or progress payments from customers prior to the completion of sales of properties or goods or merchandises transactions. Customers are assessed and rated individually based on the credit quality by taking into account their financial position, credit history and other factors. Rentals in respect of investment properties are payable in advance by tenants in accordance with the lease agreements. The Group has policies in place to ensure that rental deposits are required from tenants prior to commencement of leases. Loans and receivables are generally supported by the respective underlying assets.

In addition, the Group has other monitoring procedures to ensure that follow up action is taken to recover overdue debts. The Group reviews regularly the recoverable amount of each individual debtor to ensure that adequate impairment provision are made for irrecoverable amounts. The Group has no significant concentrations of credit risk as the receivables consist of a large number of customers.

In respect of the other debtors, amounts due from an associated company and a joint venture and loans and receivables, the Group monitors the recovery of the balances closely and ensures that adequate impairment provision has been made for the estimated irrecoverable amounts.

The Group has provided guarantees in respect of mortgage loans made by certain banks to certain purchasers of the Group's properties in the PRC. Since the Group is able to retain the purchasers' deposits and sell the properties to recover any amounts paid by the Group to the banks, the management considers that the Group's credit risk is minimal (see also note 37).

(ii) Liquidity risk

Liquidity risk is the risk that the Group is unable to meet its current obligations when they fall due. The Group measures and monitors its liquidity through the maintenance of prudent ratios regarding the liquidity structure of the overall assets, liabilities, loans and commitments of the Group. The Group has put in place a policy of obtaining long-term banking facilities to match its long-term investments in Hong Kong, the PRC and other countries. The Group also maintains a conservative level of liquid assets to ensure the availability of sufficient cash flows to meet any unexpected and material cash requirements in the ordinary course of business. In addition, as at 31 March 2020, the Group has standby banking facilities to provide contingent liquidity support which amounted to approximately HK\$241 million (2019: HK\$464 million). Details of the bank borrowings are disclosed in note 33.

(ii) Liquidity risk (continued)

The table below analyzes the Group's financial liabilities that will be settled in relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. Specifically, bank borrowings with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The amounts disclosed in the table are the contractual undiscounted cash flows including interest payment. It excludes the financial guarantees provided by the Group (note 37) as management considers the likely crystallization of the guarantees to be minimal.

3. Financial risk management (continued)

(a) Financial risk factors (continued)

(iii) Cash flow and fair value interest rate risk

Interest rate risk is the risk that the position of the Group may be adversely affected by the changes in market interest rate. The policy of the Group involves close monitoring of interest rate movements and replacing and entering into new banking facilities when favourable pricing opportunities arise.

The interest rate risk of the Group mainly arises from interest-bearing loans and receivables, bank deposits, bank borrowings, and bonds investments in the financial assets at fair value through profit or loss. Loans and receivables, bank deposits and bank borrowings issued at variable rates expose the Group to cash flow interest rate risk. Bonds investments at fixed rates expose the Group to fair value interest rate risk. The Group currently does not have any interest rate hedging policy in relation to interest rate risk. The Board monitors the Group's exposure on an ongoing basis and will consider hedging interest rate risk should the need arise.

As at 31 March 2020, in respect of cash flow interest rate risk, if interest rates had been 0.5% (2019: 0.5%) higher/lower with all other variables held constant, the pre-tax result of the Group would have decreased/increased by approximately HK\$4,346,000 (2019: HK\$3,708,000).

(iv) Foreign exchange risk

Foreign exchange risk arises on monetary assets and liabilities being denominated in a currency that is not the functional currency; differences resulting from the translation of financial statements into the presentation currency of the Group are not taken into consideration.

The Group mainly operates in Hong Kong, the PRC, the United Kingdom and Malaysia. The Group has no significant foreign exchange risk due to limited foreign currency transactions other than the functional currencies of the respective entities.

(v) Price risk

The Group is exposed to securities and bonds investments price risk because investments held by the Group are classified as financial assets at fair value through other comprehensive income and financial assets at fair value through profit or loss. Unrealized gains and losses arising from the change in the fair value of financial assets at fair value through other comprehensive income and financial assets at fair value through profit or loss are recognized in other comprehensive income and the consolidated income statement respectively. To manage its price risk arising from investments in securities and bonds investments, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

Notes to the Consolidated Financial Statements (continued)

3. Financial risk management (continued)

(a) Financial risk factors (continued)

(v) Price risk (continued)

The table below summarizes the impact of increase/decrease of the market price of the Group's publicly-traded investments by 5% (2019: 5%) with all other variables held constant:

	Impact on pre-tax result		Impact on investment revaluation reserve	
	2020 HK\$'000	2019 HK\$'000	2020 HK\$'000	2019 HK\$'000
5% change in market price	34,347	31,003	5,882	5,995

(b) Capital risk management

The objectives of the Group when managing capital are to safeguard the ability of the Group to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares or sell assets to reduce debt.

The Group monitors capital on the basis of the net debt to equity ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total bank borrowings (including short-term and long-term bank borrowings as shown in the consolidated balance sheet) less cash and bank balances and financial assets at fair value through profit or loss. Total capital represents shareholders' funds as shown in the consolidated balance sheet. The net debt to equity ratio as at 31 March 2020 is 11.7% (2019: 11.3%).

3. Financial risk management (continued)

(c) Fair value estimation

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Group is the current price within the bid-ask spread which is the most representative of the fair value in the given circumstances.

The fair values of long-term loans and receivables and bank borrowings are estimated using the expected future payments discounted at market interest rates. The carrying values of the long-term loans and receivables and bank borrowings approximate their fair values since they are floating interest rate loans and receivables and borrowings.

The carrying values less any estimated credit adjustments for financial assets and liabilities with a maturity of less than one year, including debtors and prepayments, cash and bank balances, creditors and accruals and current bank borrowings approximate their fair values.

The Group adopted the amendment to HKFRS 7 for financial instruments that are measured in the balance sheet at fair value. This requires disclosure of fair value measurements by level in the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3)

Total assets	739,958	71,306	811,264

3. Financial risk management (continued)

(c) Fair value estimation (continued)

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for these financial assets held by the Group, which are listed securities and bonds investments, is the current price within the bid-ask spread in stock market and bond market. These instruments are included in level 1 which comprise primarily investments classified as financial assets at fair value through other comprehensive income (listed securities) and financial assets at fair value through profit or loss (listed bonds).

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3 which comprises primarily unlisted investments classified as financial assets at fair value through other comprehensive income and financial assets at fair value through profit or loss.

Specific valuation techniques used to value financial instruments include:

- Quoted market prices or dealer quotes for similar instruments
- Other techniques, such as market approach and discounted cash flow analysis, are used to determine fair value for the remaining financial instruments

There was no transfer of financial assets among fair value hierarchy classifications for the years ended 31 March 2020 and 2019.

4. Critical accounting estimates and judgments

Estimates and judgments used in preparing the consolidated financial statements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The estimates and assumptions that may have a significant effect on the carrying values of assets and liabilities are discussed below:

(a) Estimate of fair value of investment properties

The valuation of investment properties is mainly performed in accordance with "The HKIS Valuation Standards 2017 Edition" published by the Hong Kong Institute of Surveyors and other international valuation standards. Details of the judgment and assumptions have been disclosed in note 16.

(b) Classification of investment properties

In making the judgment to determine whether a property qualifies as investment property, the Group considers whether the property (land or building) is held to earn rental or for capital appreciation rather than for use in the production or supply of goods and services or sale and the Group has the financing capability to hold the property for long-term strategic investment.

To transfer a property to an investment property, there must be a change in use. To conclude if a property has changed its use, management assesses whether the property meets the definition of investment property as aforementioned and the change must be supported by evidence.

In addition, in making the judgment to determine whether a completed investment property was qualified as asset of disposal group held for sale, the Group considered whether the sale transaction was highly probable (i.e. the sale should be expected to qualify for recognition as a completed sale within one year from the date of classification).

The Group considers each property separately in making its judgment.

(c) Recoverability of properties for/under development, properties for sale and cemetery assets

The Group assesses the carrying values of properties for/under development, properties for sale and cemetery assets according to their estimated recoverable amounts or net realizable values based on assessment of the realizability of these properties/assets, taking into account costs to completion based on past experience and net sales value based on prevailing market conditions. Provision for impairment is made when events or changes in circumstances indicate that the carrying values may not be realized. The assessment requires the use of judgment and estimates.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

4. Critical accounting estimates and judgments (continued)

(c) Recoverability of properties for/under development, properties for sale and cemetery assets (continued)

For recoverability assessment purpose, the valuation of certain properties for/under development, properties for sale and cemetery assets is mainly performed in accordance with "The HKIS Valuation Standards 2017 Edition" published by the Hong Kong Institute of Surveyors and other international valuation standards.

(d) Income taxes, land use taxes, land appreciation taxes and deferred taxes

The Group is subject to income taxes, land use taxes, land appreciation taxes and deferred taxes mainly in Hong Kong, the PRC and other countries. Significant judgment is required in determining the provision for taxation for each entity of the Group. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these estimates is different from the amounts that are initially recorded, such differences will impact the current and deferred taxation in the financial period in which such determination is made.

The Group has rebutted the presumption that the carrying amount of the investment properties located in the PRC measured at fair value will be recovered entirely through sale. These investment properties are held within a business model whose objective is to consume its economic benefit over time.

Deferred taxation assets relating to tax losses are recognized when management considers to be probable that future taxation profit will be available against which the tax losses can be utilized. The outcome of their actual utilization may be different.

6. Segment information

(a) Segment information by business lines

The CODM has been identified as the Executive Directors and senior management. The CODM reviews the Group's internal reporting in order to assess performance and allocate resources. Management has determined the operating segments based on these reports.

The CODM considers the business from a business perspective, including property development, investment and trading, development and operation of cemetery, sales of goods and merchandises, securities investment and trading and others (including hotel operation and management). The CODM assesses the performance of the operating segments based on the measure of segment result.

9. Employee retirement benefits

The Group participates in defined contribution schemes in Hong Kong for all eligible employees. Contributions to these schemes are calculated based on certain percentages of the applicable payroll costs or pre-determined fixed sums. The assets of the schemes are held separately from those of the Group in independently administered funds. Among these schemes, one scheme allows contributions to it to be reduced by contributions forfeited by those employees who leave that scheme prior to vesting fully in those contributions.

The Group participates in respective government retirement benefit schemes in the PRC and Malaysia pursuant to the relevant regulations whereby the Group is required to contribute to the schemes to fund the retirement benefits of the eligible employees. Contributions made to the schemes are calculated either based on certain percentages of the applicable payroll costs or fixed sums as stipulated under the requirements in the PRC and Malaysia. The governments of the respective countries are responsible for the entire retirement benefit obligations payable to the retired employees. The Group has no other obligations apart from making ongoing contributions under the schemes.

The retirement benefit costs represent the contributions by the Group to the above schemes.

Overseas profit tax	856	503
Deferred taxation (note 34)	5,113	80,970
	29,840	106,993

No provision for Hong Kong profits tax has been made as the Group has no estimated assessable profits for the year (2019: Nil). PRC corporate income tax and overseas profits tax have been calculated on the estimated assessable profits for the year at the rates of taxation prevailing in the PRC and the countries in which the Group operates respectively. PRC land appreciation tax is levied at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds of sales of properties less deductible expenditures including costs of land and development expenditures.

There was no taxation charge/credit of associated companies for the year ended 31 March 2020 (2019: Nil). In 2020, there was no taxation charge of the joint venture as it had sufficient tax losses brought forward to set off against the estimated assessable profits for the year (2019: Share of deferred taxation charge of HK\$2,651,000 was included in the consolidated income statement as "Share of result of a joint venture").

For the year ended 31 March 2020

12. Taxation (continued)

The taxation (credit)/charge of the (loss)/profit before taxation of the Group differs from the theoretical amount that would arise using the taxation rate of Hong Kong as follows:

	2020 HK\$'000	2019 HK\$'000
(Loss)/profit before taxation	(160,055)	274,505
Share of results of associated companies	1,139	1,999

	10,444	87,019
PRC land appreciation tax	19,396	19,974
Taxation charge	29,840	106,993

Note: This represented the effect of the increase in tax rate of the real property gains tax in Malaysia from 5% to 10% during the year ended 31 March 2019.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

13. Dividend

On 24 June 2020, the Board had resolved not to recommend the payment of a final dividend for the year ended 31 March 2020 (2019: 2.0 HK cents per share amounting to HK\$46,977,000). No interim dividend (2019: 1.5 HK cents per share amounting to HK\$35,233,000) was declared for the year ended 31 March 2020.

14. (Loss)/earnings per share

The calculation of the (loss)/earnings per share is based on the loss attributable to equity holders of HK\$192,355,000 (2019: profit attributable to equity holders of HK\$167,842,000) and the weighted average number of 2,348,835,316 (2019: 2,348,835,316) shares in issue during the year.

The diluted (loss)/earnings per share is equal to the basic (loss)/earnings per share since there are no dilutive potential shares in issue during the years.

16. Investment properties (continued)

(c) Valuation processes of the Group

The Group's investment properties were revalued at 31 March 2020 by independent professional valuers who hold recognized relevant professional qualifications and have recent experience in the locations and segments of the investment properties valued. For all investment properties, their current use equates to the highest and best use.

The Group's finance department and property department review the valuations performed by the independent valuers for financial reporting purposes and report directly to the senior management of the Group. Discussions of valuation processes and results are held between the management and valuers at least once every six months, in line with the Group's interim and annual reporting processes. The finance department and property department:

- verify all major inputs to the independent valuation reports;
- assess property valuation movements when compared to the prior period valuation reports; and
- hold discussions with the independent valuers.

(d) Valuation techniques

Fair value of completed properties in the PRC, the United Kingdom and Malaysia is generally derived using the income capitalization method and direct comparison method, wherever appropriate and for cross-checking. Income capitalization method is based on the capitalization of the net income and reversionary potential by adopting appropriate capitalization rates, which are derived from analysis of sale transactions and valuers' interpretation of prevailing investor requirements or expectations. The prevailing market rents adopted in the valuation have reference to recent lettings, within the subject properties and other comparable properties. Direct comparison method is based on comparing the property to be valued directly with other comparable properties, which have recently transacted. However, given the heterogeneous nature of real estate properties, appropriate adjustments are usually required to allow for any qualitative differences that may affect the price likely to be achieved by the property under consideration.

Fair value of properties under development in the PRC is generally derived using the residual method. This valuation method is essentially a mean of valuing the completed properties by reference to its development potential by deducting development costs to completion together with developer's profit and risk from the estimated capital value of the proposed development assuming completed as at the date of valuation.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

16. Investment properties (continued)

(d) Valuation techniques (continued)

There were no changes to the valuation techniques during the years, except for in 2019 a completed commercial property in the PRC, where there was a change of valuation technique from income capitalization method to direct comparison method to reflect the highest and best use of the property.

The Group's policy is to recognize transfers into and transfers out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer.

(e) Significant unobservable inputs used to determine fair value

Prevailing market rents are estimated based on valuers' view of recent lettings, within the subject properties and other comparable properties. The lower the rents, the lower the fair value. Capitalization rates are estimated by valuers based on the risk profile of the investment properties being valued. The higher the rates, the lower the fair value.

The following rental values and capitalization rates are used in the income capitalization method for the completed properties in respective locations:

	The PRC	United Kingdom	Malaysia
2020			
Rental value used for (HK\$/sq. m./month):			
Commercial properties	37–84	465	48–193
Residential properties	92	N/A	N/A
Capitalization rates used for:			
Commercial properties	3.0%–4.5%	4.3%	6.0%
Residential properties	2.0%	N/A	N/A
2019			
Rental value used for (HK\$/sq. m./month):			
Commercial properties	40–83	529	31–166
Residential properties	119	N/A	N/A
Capitalization rates used for:			
Commercial properties	3.5%–6.0%	4.0%	6.3%
Residential properties	2.0%	N/A	N/A

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

16. Investment properties (continued)

(e) Significant unobservable inputs used to determine fair value (continued)

As at 31 March 2020, if rental values and capitalization rates used had been 10% higher/lower from management's estimate respectively, with all other variables held constant, the carrying amount of investment properties would have been changed as follows:

	2020 HK\$'000
Carrying amount of investment properties increased/(decreased) if:	
– rental values used were 10% higher	51,496
– rental values used were 10% lower	(51,060)
Carrying amount of investment properties increased/(decreased) if:	
– capitalization rates used were 10% higher	(45,743)
– capitalization rates used were 10% lower	53,291

Estimated costs to completion, developer's profit and risk margins required are estimated by valuers based on market conditions at 31 March 2020 and 2019 respectively for investment properties under development in the PRC. The estimates are largely consistent with the budgets developed internally by the Group based on management's experience and knowledge of market conditions. The higher the costs and the margins, the lower the fair value.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

26. Debtors and prepayments (continued)

Trade debtors of the Group mainly represent the receivables from sales of properties and cemetery assets as well as rental income and management fees from investment properties. The aging analysis of the trade debtors of the Group is as follows:

	2020 HK\$'000	2019 HK\$'000
Below 30 days	2,826	2,863
31 to 60 days	–	121
61 to 90 days	298	143
Over 90 days	8,410	9,014
	11,534	12,141

The Group applies the HKFRS 9 simplified approach to measure expected credit losses which use a lifetime expected loss allowance for all trade debtors. Trade debtors are grouped based on shared credit risk characteristics and the days past due as follows:

	2020 HK\$'000	2019 HK\$'000
Over 90 days	8,410	9,014

The Group determines the provision for expected credit losses by grouping together trade debtors with similar credit risk characteristics and collectively assessing them for likelihood of recovery, taking into account prevailing economic conditions. For trade debtors relating to amounts which are long overdue with significant amounts or known insolvencies or non-response to collection activities, they are assessed individually for impairment allowance. As at 31 March 2020, trade debtors of HK\$462,000 (2019: Nil) were impaired.

Other debtors of the Group include receivables of HK\$556,000 (2019: HK\$48,000) from the current portion of the mortgage loans provided to the purchasers of the Group's properties in Hong Kong (note 23(b)).

As at 31 March 2020, prepayments of the Group include sales commissions of HK\$85,756,000 (2019: HK\$15,697,000) which represent costs incurred to obtain property sale contracts. The Group has capitalized the amounts which will be amortized when the related revenue is recognized.

Other deposits of the Group include net deposits of HK\$5,158,000 (2019: HK\$10,181,000) for acquisition of property projects, properties and right-of-use assets (2019: also including land use rights) after the accumulated provision for impairment of HK\$8,459,000 (2019: HK\$11,272,000) as at 31 March 2020.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

26. Debtors and prepayments (continued)

The maximum exposure to credit risk at the balance sheet date is the carrying value of each class of receivable mentioned above.

Debtors and prepayments are mainly denominated in Hong Kong dollar, Renminbi, British Pound Sterling ("GBP") and Malaysian Ringgit ("MYR"). The carrying values of debtors and prepayments approximate their fair values.

27. Financial assets at fair value through profit or loss

	2020 HK\$'000	2019 HK\$'000
Listed bonds	686,949	620,062
Unlisted investments	70,726	59,632
	757,675	679,694

- (a) Listed bonds are denominated in United States dollar, whereas the unlisted investments are denominated in Renminbi and United States dollar.
- (b) The unlisted investments represent the Group's interests in various companies with investments in various long-term projects.
- (c) Financial assets at fair value through profit or loss of HK\$80,351,000 (2019: HK\$60,600,000) have been pledged as securities for the borrowing facilities granted to the Group (note 33).

28. Cash and bank balances

	2020 HK\$'000	2019 HK\$'000
Cash at bank and in hand	192,227	470,047

	703,794	919,502

Cash and bank balances of HK\$123,014,000 (2019: HK\$298,429,000) are restricted and can only be used for the payments of construction costs of certain properties for sales, and the repayment of bank borrowings on these properties (if applicable).

The effective interest rates on short-term deposits range from 0.1% to 3.15% (2019: 0.125% to 3.05%) per annum and these deposits have maturities ranging from 1 to 366 days (2019: 1 to 93 days).

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

28. Cash and bank balances (continued)

Cash and bank balances are denominated in the following currencies:

	2020 HK\$'000	2019 HK\$'000
Hong Kong dollar	495,001	723,628
Renminbi	136,000	131,925

29. Creditors and accruals (continued)

- (b) Other creditors and accrued expenses of the Group include the construction cost payables and accruals of HK\$138,264,000 (2019: HK\$110,455,000) for the property and cemetery projects of the Group.
- (c) Amounts payable to non-controlling interests are unsecured, interest free and repayable on demand.
- (d) In accordance with the terms and conditions of the sale and purchase agreement of the acquisition of the cemetery, the Group has to indemnify the counterparty with the maximum amount of RMB6.8 million (equivalent to approximately HK\$7.4 million) (2019: RMB6.8 million, equivalent to approximately HK\$7.9 million) for certain PRC tax liabilities arising from the subsequent sales of certain properties by the counterparty for a period of three years from 8 March 2018. The transactions were announced by the Company on 22 January 2017 and 8 March 2018, and published in the circular on 8 March 2017. This provision represents the Group's estimated liabilities under this indemnity.
- (e) Creditors and accruals are mainly denominated in Hong Kong dollar, Renminbi, British Pound Sterling and Malaysian Ringgit. The carrying values of creditors and accruals approximate their fair values.

30. Sales deposits received

The Group receives payments from customers based on billing schedule as established in contracts. Payments are usually received in advance of the performance under the contracts.

Sales deposits of HK\$2,628,000 held as at 1 April 2019 and HK\$1,826,000 held as at 1 April 2018 were recognized as sales of properties for the years ended 31 March 2020 and 2019 respectively.

The aggregate amount of the transaction price allocated to the unsatisfied performance obligations resulting from property sales for contracts with an original expected duration of one year or more is as follows:

	2020 HK\$'000	2019 HK\$'000

33. Borrowings (continued)

The bank borrowings of the Group are secured by certain assets including investment properties, properties for sale and financial assets at fair value through profit or loss, with an aggregate carrying value of HK\$1,927,224,000 (2019: HK\$2,239,845,000). Bank borrowings of HK\$772,624,000 (2019: HK\$645,246,000) are also secured by the assignment of rental income from the investment properties and other properties of the Group. As at 31 March 2020, bank borrowings of HK\$852,975,000 (2019: HK\$1,181,336,000) are guaranteed by the Company, HK\$288,000,000 (2019: HK\$500,000,000) are guaranteed by CCIL, and HK\$760,000,000 (2019: HK\$400,000,000) are guaranteed by both the Company and CCIL.

The bank borrowings are repayable in the following periods based on the agreed scheduled repayment dates set out in the loan agreements:

	2020 HK\$'000	2019 HK\$'000
Within the first year	201,831	807,158
Within the second year	1,000,272	129,029
Within the third to fifth years	698,872	1,145,149
	1,900,975	2,081,336

The effective interest rates of the bank borrowings at the balance sheet date range from 1.58% to 4.57% (2019: 2.15% to 5.10%) per annum. The fair values of the bank borrowings, based on the cash flows discounted at the borrowing rates of 1.58% to 4.57% (2019: 2.15% to 5.10%) per annum, approximate their carrying values and are within level 2 of the fair value hierarchy. The exposure of the bank borrowings to interest rate changes and the contractual repricing dates are 6 months or less.

The bank borrowings are denominated in the following currencies:

	2020 HK\$'000	2019 HK\$'000
Hong Kong dollar	1,271,414	1,436,090
United States dollar	38,929	–

At 31 March 2020	(256,081)	(181,436)	(512)	(14,427)	–	(452,456)	8,264

Deferred taxation liabilities for the fair value gains represent the deferred taxation on the differences between the carrying values of the properties as included in the consolidated financial statements and the carrying values of these properties as included in the financial statements of the relevant subsidiaries. The values were based on the date of acquisition of those subsidiaries by the Group.

Deferred taxation liabilities have been provided in full on temporary differences under the liability method using the applicable tax rates prevailing in the countries in which the Group operates and are expected to be settled after more than twelve months from the balance sheet date.

Deferred taxation assets of HK\$208.9 million (2019: HK\$200.9 million) arising from unused tax losses of HK\$1,245.2 million (2019: HK\$1,185.0 million) have not been recognized in the consolidated financial statements. These tax losses either have no expiry dates or will expire within five years for those from the PRC.

Deferred taxation liabilities of HK\$6.1 million (2019: HK\$6.4 million) arising from withholding tax on the unremitted earnings of certain PRC subsidiaries have not been recognized in the consolidated financial statements as these earnings are expected to be reinvested.

Notes to the Consolidated Financial Statements (continued)

For the year ended 31 March 2020

35. Loans and payables with non-controlling interests

Loans and payables with non-controlling interests of the Group are unsecured, interest free and not repayable within the next twelve months from the balance sheet date. The balances are denominated in Hong Kong dollar, Renminbi and Euro (2019: Hong Kong dollar).

In the fifth year	8,820	20,223
After the fifth year	1,366	115,629
	122,071	302,173

The Group leases properties under various agreements which will be terminated between 2020 and 2027 (2019: 2019 and 2034).

37. Financial guarantees

	2020 HK\$'000	2019 HK\$'000
Guarantees for mortgage loans to purchasers of properties of the Group in the PRC (note)	32,428	71,626

Note: The financial guarantees provided by the Group represented the guarantees in respect of mortgage loans made by certain banks to certain purchasers of the Group's properties in the PRC. Pursuant to the terms of the guarantees, upon default in mortgage payments by these purchasers, the Group is responsible to repay the outstanding mortgage principals together with accrued interest and penalty owed by the defaulted purchasers to the banks and the Group is entitled to take over the legal title and possession of the related properties. Such guarantees will be terminated upon the earlier of (i) the issuance of the property ownership certificates which is generally available within six months to one year after the purchasers take possession of the relevant properties; or (ii) the satisfaction of mortgage loans by the purchasers of properties. Since the Group is able to retain the purchasers' deposits and sell the properties to recover any amounts paid by the Group to the banks, the estimated net amounts required to be settled by the Group and the fair value of the financial guarantees as calculated are not material and hence not recognized in the consolidated financial statements.
