Chairman's Statement 主席報告

CHAIRMAN'S STATEMENT

On behalf of the Board of Directors (the "Board") of Century Ginwa Retail Holdings Limited (the "Company"), I am pleased to present the audited results of the Company and its subsidiaries (the "Group") for the year ended 31 March 2020 ("the year").

BUSINESS REVIEW

Being disrupted by the novel coronavirus COVID-19 epidemic, China's gross domestic product ("GDP") at constant prices was RMB20.6504 trillion in the first quarter of 2020, representing a decrease of 6.8% over the same period of last year. Among which, the value-added by primary industries dropped by 9.6% to RMB1,018.6 billion; the value-added by secondary industries dropped 3.2% to RMB7,363.8 billion; and the valueadded by tertiary industries dropped by 5.2% to RMB12,268 billion. On a guarter-on-guarter basis, the GDP for the first quarter of 2020 declined by 9.8% quarter-on-quarter after adjusting for seasonal factors. In the first guarter of 2020, all the three major demands appeared to be in varying degrees of decline, thus leading to the negative economic growth. Of which, the final consumption expenditure drove the drop of GDP by 4.4 percentage points, while the per capita consumption expenditure of national residents declined by 12.5% in actual. Despite the great disruption and suppression on the consumption of residents by the epidemic, the potential demands of domestic consumption market remain enormous, with a stable and positive trend. In March, decline of retail sales of consumer goods narrowed by 4.7 percentage points as compared to that of January to February, which appears to be a recovering trend. In this regard, the PRC government has increased its spending on safeguarding people's livelihood including hygiene and health issues, thus pushing forward the resumption of production among various fields. Such initiatives have credited with an important role in stabilising domestic demands and unleashing the potential thereof.

BUSINESS REVIEW (continued)

Under the harsh business conditions, emerging industries have been vibrant and have fostered a new sustainable growth momentum, indicating their strong vitality and dynamics. The performance of emerging service industries, supported by modern information technology via the Internet, have been vibrant from January to February. The operating revenue from the Internet and related services, software and information technology services increased by 10.1% and 0.7% respectively over the same period last year. In the first guarter of 2020, the growth rate of online retail has been accelerating. The domestic online retail sales of in-kind goods increased by 5.9% over the same period of last year, representing a growth of 24.9 percentage points over the growth rate of consumer goods retail sales in the same period of last year. It accounted for 23.6% of the total retail sales of consumer goods, representing an increase of 5.4 percentage points over the same period of last year.

When facing the situation, various commercial enterprises in Xi'an City were stepping forward in the midst of adversity in 2019. Some of the enterprises have chosen to cease their operation due to the slump in their businesses. The Group is also confronted with the same situation. Despite the decrease in sales, the Group has thought of ways to realize its potential and has strived to move forward in sales performance while persisting in fine-quality positioning, insisting on exclusive service and adhering to distinctive operations.

In recent years, the Group has been gradually implementing the "One Store, One Positioning" strategy in line with the deployment of the Board and the management, so as to subdividing the customer base and retail market for determining the positioning of the stores of the Century Ginwa Xi'an Department Stores Business Sector, correspondingly making the positioning of the stores more comprehensible and clearer, thereby reducing the internal competition situation. In terms of management work, the Group continued to step up its efforts to reduce costs, to implement organizational streamlining, to establish a new flat management plan, to simplify the work process and to review the approval procedures according to its actual business development, with a view of improving work efficiency significantly.

業務回顧(續)

面對這一現狀,二零一九年度,西安市眾多的商業企業均在逆境中前行,其中不乏因業績驟減而選擇停止營業的企業。本集團同樣也面臨相同的局面,雖然銷售也有所減少,但本集團仍舊想方設法,挖掘潛力,在堅持精品定位、堅持尊享服務、堅持特色經營的同時,努力在銷售業績方面奮力前行。

近幾年來,本集團一直按照董事會、管理層的布署,細分顧客群體,細分零售市場,將「一店一定位」的設想逐步實施,確定世也金花西安百貨事業部各店定位的規劃,從而使各門店定位更加明確、清晰,從而降低內部競爭狀況。在管理工作方面,本集團根據實際業務開展情況,繼續加大力度壓縮客項成本,實施機構精減,確立扁平化管理方案,簡化工作流程,梳理簽批審核程序,工作時效性有了大幅提升。

BUSINESS REVIEW (continued)

The Group's business promotion department and the finance department proactively communicated with brands and suppliers for the reasonable rearrangement of repayment terms, and reached consensus with various partners. By building up confidence among brands and suppliers, the Group created a desirable situation in collaboration with all the interested parties and the Company.

Under the unfavorable situation that the profits of brick-and-mortar retail enterprises are declining, the management of the Company has opened new sources of income and has saved expense. While striving to reduce operating costs, the Company proactively communicated with the government departments in respect of fully utilizing various preferential policies issued by the government departments. The Company has sought various supports in terms of tax reduction and exemption, as well as human resources and social security contribution reduction, thus supporting its operation from a lateral support perspective.

In response to the outbreak of the novel coronavirus COVID-19 epidemic during the year, the Company has taken effective measures in a timely manner to increase the level of prevention and control. On the one hand, the Company has proactively raised anti-epidemic materials, such as face-masks and disinfectant solution, for protecting the health of employees. On the other hand, the Company has increased the frequency of sterilization of shopping malls, so as to create a safe shopping environment and ensure consumers' shopping safety, with a view of minimizing the impact of the epidemic.

Although the epidemic has led to great impact on the economy in the first quarter of 2020, the long-term positive trend of development will remain unchanged considering that China has a complete economic system, a solid economic foundation, a huge domestic market, a rich supply of labor, a relatively large capacity, and a relatively greater resilience, potential and space for economic development.

業務回顧(續)

本集團招商部門、財務部門積極與品牌商、 供應商進行溝通,合理安排返款期限,與各 類合作方取得共識,樹立品牌商、供應商的 信心,營造了各利益方與公司協同共進的 良好局面。

面對實體零售企業利潤下滑的不利局面, 本公司管理層開源節流,在努力降低運營 成本的同時,積極與政府管理部門溝通聯繫,充分利用政府部門頒佈的各項優惠政策,在税收減免、人力社保資金減免方面, 為本公司爭取更多的支持力度,從側面對 經營工作予以支持。

針 對 本 年 度 內 爆 發 的 新 型 冠 狀 病 毒 COVID-19疫情,本公司及時採取有效措施,加大防控力度,一方面積極籌措口罩、消毒液等防疫物資,保護員工身體健康,另一方面,增加商場消毒頻次,打造放心購物環境,保證消費者的購物安全。盡力將疫情帶來的影響,降低至最小限度。

儘管疫情對二零二零年一季度經濟產生了較大衝擊,但中國具有完備的經濟體系,堅實的經濟基礎,巨大的國內市場,豐富的勞動力供給,經濟發展的韌性、潛力和空間較大,長期向好的發展趨勢未發生改變。

FUTURE PLAN AND OUTLOOK

Looking ahead, due to the impact of numerous uncertainties in domestic and international economy (especially the novel coronavirus COVID-19 epidemic, which has not been completely solved), the current situation may not be greatly improved in the short term. However, leveraging the restart and revival of the national economy coupled with the positive guidance and stimulation of the government departments on the consumption capacity, we believe that the consumption capacity will be further released.

Favoured by the overall circumstances, the Company will also diversify its business for increasing its profit, further develop its brand agency business, introduce well-known domestic and foreign brands to enter the northwest market, so as to provide consumers with more quality choices and provide operational management services to the franchise stores. By reducing channels to directly provide goods to consumers, the pattern of profit distribution will be changed. With our strong brand strength, outstanding operating efficiency, good financial performance and loyal customer base, we believe the Company will maintain its leading position in the marketplace among the industry and generate better returns for our shareholders.

The Company will also adjust its strategy and formulate corresponding policies in a timely manner in the face of many unfavorable conditions.

In the aspect of existing business expansion, based on the successful practice and experience of the trendy department store and the supermarket business of the Group, we will continue to strive for the healthy growth of scale for coverage of second-and third-tier cities.

在現有業務拓展方面,基於本集團流行百 貨和超市業務上的成功實踐和經驗積累, 繼續爭取在二三線城市的覆蓋實現規模的 良性增長。

CONNECTED TRANSACTIONS

During the year ended 31 March 2020, the following transactions between certain connected parties (as defined in the Listing Rules) and the Group have been entered into and/or are ongoing for which relevant announcements and independent shareholders' approval, if necessary, had been made and obtained by the Company in accordance with Chapter 14A of the Listing Rules.

Continuing connected transactions

On 13 February 2015, the Company's three subsidiaries, as lessors, entered into tenancy agreements (the "Tenancy Agreements") with Xi'an Century Ginwa Epin Life Supermarket Company Limited ("Xi'an Epin"), as tenant, in respect of renting at Bell Tower Store, Hi-Tech Store and Nandajie Store for operations of supermarket business for a period of three years commencing from 16 February 2015, at annual rental of RMB5.6 million, RMB0.8 million and RMB0.3 million respectively. Xi'an Epin terminated the Tenancy Agreement for Nandajie Store in December 2015. Renting to Xi'an Epin for operation of supermarket business in the Group's department stores can enhance the product mix. As at the date of the Tenancy Agreements, Xi'an Epin was wholly-owned by Ginwa Investments, which was in turn beneficially owned as to 96% by Mr. Wu Yijian, an Executive Director and Chairman of the Company, and was therefore a connected person of the Company. The transactions under the Tenancy Agreements constituted continuing connected transactions for the Company.

Subsequent to the entering into of the Tenancy Agreements, Ginwa Investments transferred all its equity interests in Xi'an Epin to an independent third party of the Group. Following the aforesaid transfer, Xi'an Epin ceased to be a connected person of the Company under Chapter 14A of the Listing Rules. As a result of which, the Tenancy Agreements and the transactions contemplated thereunder ceased to constitute as continuing connected transactions for the Company pursuant to the Listing Rules.

Further details of the significant related party transactions undertaken in the normal course of business of the Group are provided under note 31 to the financial statements. None of these related party transactions constitutes a connected transaction or continuing connected transaction as defined under the Listing Rules that is required to be disclosed, except for those described above in the paragraphs headed "Continuing connected transactions", in respect of which the disclosure requirements in accordance with Chapter 14A of the Listing Rules have been complied with.

關連交易

截至二零二零年三月三十一日止年度,按上市規則第14A章的規定,若干關連人士(按上市規則定義)與本集團進行的下列交易經已訂立及/或持續進行,而本公司已根據上市規則的規定作出相關公告及獲得獨立股東批准(如需要)。

持續關連交易

於二零一五年二月十三日,本公司旗下之三 家附屬公司作為出租人,與承租人西安世紀 金花宜品生活用品有限公司(「西安宜品」) 就鐘樓百貨、高新百貨及南大街百貨內經 營超級市場訂立場地租賃協議(「場地租賃 協議」),自二零一五年二月十六日起計為 期三年,年租分別為人民幣5,600,000元、 人民幣800,000元及人民幣300,000元。西 安宜品於二零一五年十二月終止就南大街 百貨之場地租賃協議。本集團百貨商場向 西安宜品出租作超級市場營運可提升產品 組合。於場地租賃協議日期,西安宜品由金 花投資全資擁有,而金花投資由本公司之 執行董事兼主席吳一堅先生實益持有96% 權益,故西安宜品為本公司之關連人士。場 地租賃協議項下之交易構成本公司之持續 關連交易。

於訂立場地租賃協議後,金花投資已將其於西安宜品之全部股權轉讓予本集團之一名獨立第三方。於上述轉讓後,根據上市規則第14A章,西安宜品已不再為本公司之關連人士。因此,根據上市規則,場地租賃協議及其項下擬進行之交易不再構成本公司之持續關連交易。

該等重大關連人士交易的資料已於財務報表附註31中進一步披露,並均為本集團之正常業務。該等關連人士交易沒有構成根據上市規則須予披露的關連交易或持續關連交易,上述提及之「持續關連交易」的段落(此等交易已遵守根據上市規則第14A章的披露要求)除外。

CORPORATE GOVERNANCE PRACTICES

The Board is committed to upholding a high standard of corporate governance practices and business ethics in the firm belief that they are essential for maintaining and promoting investors' confidence and maximizing shareholders' returns.

The Board perpetually reviews its corporate governance practices, risk management and internal control policy and procedures from time to time in order to meet the rising expectations of stakeholders and comply with increasingly stringent regulatory requirements, and to fulfill its commitment to excellence in corporate governance.

The Board considers that the Company has complied throughout the year ended 31 March 2020 with the Corporate Governance Code (the "CG Code") as set out in Appendix 14 of the Listing Rules except for certain deviations. The corporate governance of the Company for the year ended 31 March 2020 is stated as follows:

CG Code Provision A.4.1 stipulates that non-executive directors should be appointed for a specific term, subject to re-election. None of the existing Independent Non-executive Directors of the Company is appointed for a specific term. However, all the directors (Executive, Non-executive and Independent Non-executive) are subject to retirement at least once every three years under Bye-Law 87(1) of the Bye-Laws of the Company. As such, the Company considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are no less exacting than those in the CG Code.

The Company has received from each of the Independent Non-executive Directors a written confirmation of independence pursuant to Rule 3.13 of the Listing Rules. The Company thus considers all the Independent Non-executive Directors are independent for the year ended 31 March 2020.

CG Code Provision E.1.2 stipulates that the chairman of the board should attend the annual general meeting. He should also invite the chairmen of the audit, remuneration and nomination committees to attend. The chairman of the Board and the chairman of the remuneration committee were not able to attend the annual general meeting of the Company held on 19 September 2019 due to other important business engagement. They had delegated the Vice Chairman of the Board to chair and be available to answer questions at the annual general meeting.

企業管治常規

董事會恪守維持高水平企業管治常規及商 業道德標準的承諾,並堅信此對保持及提 高投資者信心、增加股東回報攸關重要。

為了達成公司相關利益者不斷提升的期望、符合日趨嚴謹之規管要求,以及實踐董事會堅守優越企業管治之承諾,董事會不斷檢討其企業管治常規、風險管理及內部 監控政策與程序。

董事會認為本公司於截至二零二零年三月三十一日止年度一直遵守上市規則附錄14所載《企業管治守則》(「企業管治守則」)之規定,惟若干偏離情況除外。本公司於截至二零二零年三月三十一日止年度之企業管治詳情載列如下:

企業管治守則條文第A.4.1條訂明,非執行董事須以指定任期委任並膺選連任。本公司現任獨立非執行董事並非以指定任期委任。然而,根據本公司之公司細則第87(1)條,所有董事(包括執行、非執行及獨立非執行董事)須最少每三年輪值告退一次。因此,本公司認為已採取足夠措施確保本公司之企業管治常規不比企業管治守則所載之規定寬鬆。

本公司已接獲各獨立非執行董事根據上市規則第3.13條就彼等之獨立身份而發出之確認書。本公司認為全體獨立非執行董事於截至二零二零年三月三十一日止年度均屬獨立人士。

企業管治守則條文第E.1.2條訂明,董事會主席應出席股東週年大會,並邀請審核委員會、薪酬委員會及提名委員會的主席出席。董事會主席及薪酬委員會的主席因其他重要業務關係,未克出席本公司於二零一九年九月十九日舉行之股東週年大會,而他們已委派董事會副主席擔任股東週年大會主席及回答提問。

企業管治報告

CG Code Provision A.6.7 stipulates that independent non-executive directors and other non-executive directors should attend general meetings. During the year ended 31 March 2020, not all Independent Non-executive Directors and Non-executive Directors were able to attend the general meeting of the Company due to their other business commitments.

CG Code Provision A.2.1 stipulates that the roles of chairman and chief executive should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and chief executive should be clearly established and set out in writing. As stated in the announcement of the Company dated 31 October 2018, Mr. Kam Hou Yin, John, former executive director and chief executive officer of the Company, tendered his resignation with effect from 31 October 2018 and the Company has been searching for a suitable candidate to assume the vacancy followed by resignation of Mr. Kam Hou Yin, John. Several areas have been considered during the Board's reviews, which include but are not limited to (i) the changes in the nature and extent of significant risks since the last semi-annual review, and the Group's ability to respond to changes in its business and the external environment, and (ii) the scope and quality of management's ongoing monitoring of risks and of the internal control systems.

Management of Diesel, Gasoline and Natural Gas Consumption

Diesel and gasoline fuel-based vehicles are mainly used for guest pick-up, business trips and materials transportation. We analyze the monthly fuel consumption data to regulate our employees on the usage of vehicles. If abnormalities are found, the vehicle administrators are required to provide explanation. Drivers must plan the routes before using the vehicles and use the shortest route and the fastest way to reach the destination. We also require the driver to stop the engine to prevent engines idling; conduct regular repairs and maintenance to reduce extra fuel consumption and waste gas emissions due to part failure. Besides, we also promote and publicize the "low carbon travel" emissionreduction measures, encourage employees to use public transportations or the shared bikes within the urban area to reduce use of vehicles, thereby reducing emissions and greenhouse gas. We hope the employees could deliver the message of "Living Green" to their family and friends; and to motivate more people to build an ecological civilization together. During the reporting period, the Group consumed approximately 11,409.00 liters of diesel and approximately 8,815.00 liters of gasoline; due to the phase-out of diesel vehicles at the end of last year, the number of diesel vehicles has been reduced from 8 vehicles to 3 vehicles, resulting in a decrease of approximately 1,742.47 liters or 13.25% of diesel consumption from the previous year; and we purchased 2 gasoline vehicles for business needs, thereby increased the gasoline consumption by approximately 1,081.00 liters or 13.98% as compared with the previous year.

For the management of lighting system, the Engineering Property Center strictly controls the electricity consumption during renovation of new brands and the existing brands, controls the use of high-energy lighting, and at the same time, recommend the use of LED energysaving lighting. The brands have to control their electricity load, and turn off the lights when there is no one in the shops. The Engineering and Property Center conducts detailed inspection and acceptance procedures on different aspects, such as industrial art, fire prevention, safety, design, resources and energy consumption when the renovation is completed. These measures can effectively control the energy consumption of the brands in future operation. For the electricity management of existing brands and the public areas of the malls, other than continue to request the brands to use LED energy-saving lighting, we also adopt various electricity conservation measures, such as, we only switch on the monitoring lights and emergency lights during non-business hours; the brands must apply in writing and pay the extra electricity charges if they demand additional electricity during nonbusiness hours. We will not provide additional electricity if the brands or external units did not submit the application and pay the extra electricity charges. We implement regional lighting arrangements, and turn off unnecessary lights in some areas, thereby reducing the electricity usage on lighting in the malls.

Independent auditor's report to the shareholders of Century Ginwa Retail Holdings Limited

(Incorporated in Bermuda with limited liability)

OPINION

We have audited the consolidated financial statements of Century Ginwa Retail Holdings Limited (the "Company") and its subsidiaries (the "Group") set out on pages 119 to 264, which comprise the consolidated statement of financial position as at 31 March 2020, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2020 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code") together with any ethical requirements that are relevant to our audit of the consolidated financial statements in Bermuda, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Assessment of impairment of goodwill

商譽減值評估

Refer to Note 15 to the consolidated financial statements and the accounting policies in Note 2(f). 請參閱綜合財務報表附註15及附註2(f)的會計政策。

The Key Audit Matter 關鍵審核事項

As at 31 March 2020, goodwill, which arose from business acquisitions of department store and supermarket operations in prior years, amounted to RMB222.8 million and accounted for approximately 3.0% of the Group's total assets at that date. Impairment losses on goodwill of RMB470.6 million were recognised in the consolidated statement of profit or loss for the year ended 31 March 2020 (31 March 2019: RMB194.7 million).

於二零二零年三月三十一日,商譽(因過往年度進行百貨商場及超級市場業務之業務收購而產生)達人民幣222,800,000元,佔該日 貴集團的總資產約3.0%。於截至二零二零年三月三十一日止年度之綜合損益表內已確認商譽之減值虧損人民幣470,600,000元(二零一九年三月三十一日:人民幣194,700,000元)。

The financial performance of the Group's department store and supermarket operations, as a consequence of slow down in economic growth in the People's Republic of China (the "PRC"), as well as intense competition from surrounding shopping malls and online retail sales, has underperformed management's expectations when these businesses were acquired, which has increased the risk that goodwill related to these business acquisitions may be impaired.

由於中華人民共和國(「中國」)經濟增長放緩及來自周邊購物中心與網上零售的競爭加劇, 貴集團百貨商場及超級市場業務的財務表現低於管理層收購該等業務時的預期,增加了有關收購該等業務的商譽可能減值的風險。

Management performs impairment assessments of the relevant CGUs to which goodwill has been allocated at the end of each reporting period. Management compares the carrying amount of each CGU with its recoverable amount, which is determined by assessing the value-in-use based on discounted cash flow forecasts.

管理層已於各報告期末對獲分配商譽的相關現金產生單位進行減值評估。管理層將各現金產生單位的賬面值與其可收回金額比較,可收回金額乃透過基於貼現現金流預測評估使用價值而釐定。

How the matter was addressed in our audit 我們的審核中如何處理有關事項

Our audit procedures to assess impairment of goodwill included the following:

我們評估商譽減值的審核程序包括以下各項:

- assessing and challenging the Group's identification of cash-generating units ("CGUs") and the allocation of goodwill and other assets to those CGUs;
 - 評估及質疑 貴集團對現金產生單位(「現金產生單位」)的識別及向該等現金產生單位分配商譽及其他資產;
- assessing the reliability of management's cash flow forecasting process by comparing the previous year's forecasts with the current year's results, discussing significant variances with management and considering the effect of such variances on the current year's forecasts;
 - 透過將上一年度的預測與本年度業績比較, 評估管理層現金流預測過程的可靠性,與管理層討論重大偏差,並考慮該偏差對本年度 預測的影響;

KEY AUDIT MATTERS (continued)

Assessment of impairment of goodwill (continued) 商譽減值評估 (續)

The Key Audit Matter 關鍵審核事項

The preparation of discounted cash flow forecasts involves the exercise of significant management judgement, in particular in forecasting revenue growth and operating profit and in determining appropriate discount rates.

編製貼現現金流預測涉及管理層作出重大判斷,尤其是在預測收益增長及經營溢利以及釐定適當的貼現率時。

We identified the assessment of impairment of goodwill as a key audit matter because the carrying value of goodwill is material to the consolidated financial statements, and also because management's forecasts of the future cash flows involve certain critical judgements in respect of the assumptions made, which are inherently uncertain and could be subject to management bias.

我們認為商譽減值的評估是一項關鍵審核事項,原因是商譽的賬面值對綜合財務報表屬重大,且管理層對未來現金流預測涉及有關所作出假設的若干關鍵判斷,而該等判斷本質上是不確定的,可能受到管理層偏見的影響。

關鍵審核事項(續)

How the matter was addressed in our audit 我們的審核中如何處理有關事項

- obtaining management's sensitivity analysis and challenging the key assumptions to which the outcome of the impairment assessments was most sensitive, including forecast revenue and forecast profit margins, and considering if there was any indication of management bias in the selection of these assumptions; and
 - 獲取管理層的敏感度分析,質疑減值評估結果最敏感的關鍵假設(包括預測收益及預測利潤率),考慮是否有任何跡象顯示管理層在選擇該等假設時存在管理層偏見;及

The Group is engaged in the operation of department stores, a shopping mall and supermarkets in the PRC. 貴集團主要從事在中國經營百貨商場、購物中心及超級市場。

The Group's land and buildings held for own use and investment property are revalued at the end of each reporting period and are stated at their fair values.

貴集團持作自用之土地及樓宇以及投資物業於各報告期 末重估,按其公允值入賬。

As at 31 March 2020, land and buildings held for own use and an investment property with aggregate fair value of RMB4,109 million accounted for approximately 55.6% of the Group's total assets at that date. Valuation loss on an investment property of RMB28.7 million and surplus on revaluation of land and buildings held for own use of RMB9.4 million were recognised in the consolidated statement of profit or loss and other comprehensive income for the year ended 31 March 2020 (31 March 2019: valuation loss of RMBNil and surplus on revaluation of land and buildings held for own use of RMB18.7 million).

於二零二零年三月三十一日,總公允值為人民幣4,109,000,000元的持作自用之土地及樓宇以及投資物業佔該日 貴集團總資產約55.6%。截至二零二零年三月三十一日止年度,已於綜合損益及其他全面收益表確認投資物業之估值虧損人民幣28,700,000元及持作自用之土地及樓宇之重估盈餘人民幣9,400,000元(二零一九年三月三十一日:估值虧損人民幣零元以及持作自用之土地及樓宇之重估盈餘人民幣18,700,000元)。

The fair values of land and buildings held for own use and the investment property were assessed by the board of directors based on independent valuations prepared by an external property valuer using certain estimates, which included comparable market prices.

持作自用之土地及樓宇以及投資物業的公允值乃由董事會基於外部物業估值師使用若干估計(包括可資比較市場價格)編製的獨立估值而評估。

We identified the valuation of land and buildings held for own use and investment property as a key audit matter because of the significance of their value to the Group's total assets and also because determining their fair values involves a significant degree of judgement. 我們認為持作自用之土地及樓宇以及投資物業的估值為一項關鍵審核事項,原因是其價值對 貴集團總資產屬重大,且釐定其公允值涉及重大程度的判斷。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

作為按照香港審計準則進行審核的一部分,我們在整個審核期間作出專業判斷並保持專業懷疑。我們亦:

- 取得與審核相關的內部控制的理解, 以設計適當的審核程序,但目的並非 對 貴集團內部控制的有效性發表意 見。
- 評價董事所採用會計政策的適當性及 所作出會計估計的合理性。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content
 of the consolidated financial statements, including the
 disclosures, and whether the consolidated financial
 statements represent the underlying transactions and
 events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

(b) Basis of preparation of the financial statements

The consolidated financial statements for the year ended 31 March 2020 comprise the Group and the Group's interests in joint ventures.

The measurement basis used in the preparation of the financial statements is the historical cost basis except for investments in debt and equity securities (see Note 2(g)), land and buildings held for own use (see Note 2(h)) and investment property (see Note 2(i)) which are stated at their fair values.

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in Note 3.

(b) Basis of preparation of the financial statements (continued)

As at 31 March 2020, the Group had net current liabilities of RMB1,924,183,000 and incurred net loss of RMB1,312,590,000 during the year ended 31 March 2020. Notwithstanding the net current liabilities as at 31 March 2020, the directors of the Company do not consider that material uncertainties related to events or conditions exist which, individually or collectively, may cast significant doubt on the Group's ability to continue as a going concern. This is because:

- the Group has obtained financial support letter from its new substantial shareholder, Qujiang Cultural Financial International Investment Limited ("Qujiang Investment"), a subsidiary of a state-owned enterprise, after the end of the reporting period;
- Qujiang Investment has agreed to extend its short-term loans granted to the Group of RMB450,000,000 when they fall due;
- the Group has obtained short-term loans from Qujiang Investment of RMB306,000,000 after the end of the reporting period;
- the Group has unutilised facilities of RMB900,000,000 as at 31 March 2020 (see Note 23(e));
- based on a cash flow forecast of the Group for the twelve months ending 31 March 2021 prepared by the management, the Group would have adequate funds to meet its liabilities as and when they fall due for at least twelve months from the end of the reporting period.

Accordingly, the directors are of the opinion that it is appropriate to prepare the Group's financial statements for the year ended 31 March 2020 on a going concern basis.

(b) 財務報表編製基準(續)

於二零二零年三月三十一日,本 集團擁有流動負債淨額為人民幣 1,924,183,000元及截至二零二 零年三月三十一日止年度所產生 的淨虧損人民幣1,312,590,000 元。儘管於二零二零年三月 三十一日錄得流動負債淨額,本 公司董事認為, 並不存在個別或 整體可能會令本集團持續經營能 力造成重大疑慮的實踐或情況相 關的重大不確定性。此乃由於:

- 於報告期末後,本集團自 其新主要股東曲江文化金 融國際投資有限公司(「曲 江投資」),一間國有企業 之附屬公司,取得財務支 持函件;
- 曲江投資同意於到期時延 長授予本集團之短期貸款 人民幣450,000,000元;
- 於報告期末後,本集團已 自曲江投資取得短期貸款 人民幣306,000,000元;
- 於二零二零年三月三十一 日,本集團的未動用融資 為人民幣900,000,000元 (見附註23(e));
- 根據管理層編製的本集 團截至二零二一年三月 三十一日止十二個月的現 金流量預測,本集團將有 充足資金,以償還於報告 期末後至少十二個月到期 時的負債。

因此,董事認為,按持續經營基 準編製本集團截至二零二零年三 月三十一日止年度之財務報表乃 屬適當。

(c) Changes in accounting policies

The HKICPA has issued a new HKFRS, HKFRS 16, *Leases*, and a number of amendments to HKFRSs that are first effective for the current accounting period of the Group.

Except for HKFRS 16, *Leases*, none of the developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

HKFRS 16, Leases

HKFRS 16 replaces HKAS 17, Leases, and the related interpretations, HK(IFRIC)-Int 4, Determining whether an arrangement contains a lease, HK(SIC)-Int 15, Operating leases – incentives, and HK(SIC)-Int 27, Evaluating the substance of transactions involving the legal form of a lease. It introduces a single accounting model for lessees, which requires a lessee to recognise a right-of-use asset and a lease liability for all leases, except for leases that have a lease term of 12 months or less ("short-term leases") and leases of low-value assets. The lessor accounting requirements are brought forward from HKAS 17 substantially unchanged.

HKFRS 16 also introduces additional qualitative and quantitative disclosure requirements which aim to enable users of the financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of an entity.

2 會計政策變動(續)

(c) 會計政策變動

香港會計師公會已頒佈一項新訂香港財務報告準則,即香港財務報告準則第16號「租賃」,以及多項於本集團當前會計期間首次生效之香港財務報告準則之修訂。

除香港財務報告準則第16號「租賃」外,概無變動對所編製或呈列之本集團於本期間或過往期間之業績及財務狀況造成重大影響。本集團並無應用尚未於本會計期間生效之任何新訂準則或詮釋。

香港財務報告準則第**16**號「租賃」

香港財務報告準則第16號取代 香港會計準則第17號「租賃 | 及 相關詮釋,包括香港(國際財務 報告準則詮釋委員會)詮釋第4 號「釐定一項協議是否包含租 賃」、香港(常設詮釋委員會) 詮釋第15號「經營租賃:激勵措 施」及香港(常設詮釋委員會) 詮釋第27號「評估以法律形式體 現的租賃交易的實質」。新準則 為承租人引入單一的會計模型, 要求承租人就所有租賃確認使用 權資產及租賃負債,惟租賃期為 十二個月或更短的租賃(「短期 租賃」)以及低價值資產租賃除 外。出租人的會計處理繼續沿用 香港會計準則第17號的規定,相 關要求基本維持不變。

香港財務報告準則第16號亦引入額外定性及定量披露規定,旨在讓財務報表使用者評估租賃對實體財務狀況、財務表現及現金流量的影響。

SIGNIFICANT ACCOUNTING POLICIES 2 (continued)

(c) Changes in accounting policies (continued) **HKFRS 16, Leases** (continued)

The Group has initially applied HKFRS 16 as from 1 April 2019. The Group has elected to use the modified retrospective approach and has therefore recognised the cumulative effect of initial application as an adjustment to the opening balance of equity at 1 April 2019. Comparative information has not been restated and continues to be reported under HKAS 17.

Further details of the nature and effect of the changes to previous accounting policies and the transition options applied are set out below:

New definition of a lease a.

The change in the definition of a lease mainly relates to the concept of control. HKFRS 16 defines a lease on the basis of whether a customer controls the use of an identified asset for a period of time, which may be determined by a defined amount of use. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

The Group applies the new definition of a lease in HKFRS 16 only to contracts that were entered into or changed on or after 1 April 2019. For contracts entered into before 1 April 2019, the Group has used the transitional practical expedient to grandfather the previous assessment of which existing arrangements are or contain leases. Accordingly, contracts that were previously assessed as leases under HKAS 17 continue to be accounted for as leases under HKFRS 16 and contracts previously assessed as non-lease service arrangements continue to be accounted for as executory contracts.

(c) 會計政策變動(續) 香港財務報告準則第16號「租

本集團已於二零一九年四月一日 初始採用香港財務報告準則第 16號。本集團已選擇採用經修訂 追溯法,故已將初步應用的累計 影響確認為於二零一九年四月一 日的期初權益結餘調整。比較資 料未經重列,並繼續按照香港會 計準則第17號報告。

禍往會計政策變動的性質及影響 以及所採用的過渡方案的詳情載 列如下:

新租賃定義 a.

租賃定義的變化主要涉及 控制權的概念。香港財務 報告準則第16號根據客戶 是否在一段時間內控制被 識別資產的使用(可能依 據一定的使用量釐定)來對 租賃作出定義。若客戶不 但擁有主導被識別資產使 用的權利,還有權獲得使 用被識別資產所產生的幾 乎全部經濟利益,則資產 的控制權發生讓渡。

本集團僅對於二零一九年 四月一日或之後訂立或變 更的合同應用香港財務報 告準則第16號的新租賃定 義。就於二零一九年四月 一日前訂立的合約而言, 本集團已採用與過渡相關 的簡便實務操作方法,沿 用此前針對現有安排是否 為租賃或包含租賃的評估 結果。因此,此前根據香港 會計準則第17號被評估為 租賃的合約在香港財務報 告準則第16號下繼續作為 租賃進行會計處理,而此 前被評估為非租賃服務安 排的合約繼續作為待執行 合約進行會計處理。

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

- (c) Changes in accounting policies (continued)

 HKFRS 16, Leases (continued)
 - b. Lessee accounting and transitional impact

HKFRS 16 eliminates the requirement for a lessee to classify leases as either operating leases or finance leases, as was previously required by HKAS 17. Instead, the Group is required to capitalise all leases when it is the lessee, including leases previously classified as operating leases under HKAS 17, other than those short-term leases and leases of low-value assets. As far as the Group is concerned, these newly capitalised leases are primarily in relation to leasehold property, plant and equipment.

At the date of transition to HKFRS 16 (i.e. 1 April 2019), the Group determined the length of the remaining lease terms and measured the lease liabilities for the leases previously classified as operating leases at the present value of the remaining lease payments, discounted using the relevant incremental borrowing rates at 1 April 2019. The weighted average of the incremental borrowing rates used for determination of the present value of the remaining lease payments was 7%.

SIGNIFICANT ACCOUNTING POLICIES 2 (continued)

- (c) Changes in accounting policies (continued) **HKFRS 16, Leases** (continued)
 - Lessee accounting and transitional impact (continued)

To ease the transition to HKFRS 16, the Group applied the following recognition exemption and practical expedients at the date of initial application of HKFRS 16:

- the Group elected not to apply the requirements of HKFRS 16 in respect of the recognition of lease liabilities and right-of-use assets to leases for which the remaining lease term ends within 12 months from the date of initial application of HKFRS 16, i.e. where the lease term ends on or before 31 March 2020;
- when measuring the lease liabilities at the date of initial application of HKFRS 16, the Group applied a single discount rate to a portfolio of leases with reasonably similar characteristics (such as leases with a similar remaining lease term for a similar class of underlying asset in a similar economic environment); and
- (iii) when measuring the right-of-use assets at the date of initial application of HKFRS 16, the Group relied on the previous assessment for onerous contract provisions as at 31 March 2019 as an alternative to performing an impairment review.

為方便過渡至香港財務報 告準則第16號,本集團於 首次應用香港財務報告準 則第16號當日應用下列確 認豁免及實際權宜方法:

- 對於剩餘租期於首次 應用香港財務報告準 則第16號當日起計 十二個月內屆滿(即 租期於二零二零年三 月三十一日或之前屆 滿)的租賃,本集團 已選擇不就確認租賃 負債及使用權資產應 用香港財務報告準則 第16號的規定;
- (ii) 於計量首次應用香港 財務報告準則第16號 當日的租賃負債時, 本集團對具有合理相 若特徵的租賃組合 (如在相若經濟環境 下就相若類別的相關 資產而言具有相若剩 餘租期的租賃)應用 單一貼現率;及
- (iii) 於計量首次應用香港 財務報告準則第16 號當日的使用權資 產時,本集團倚靠先 前於二零一九年三月 三十一日就虧損合約 條文進行的評估作為 進行減值檢討的替代 方法。

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

- (c) Changes in accounting policies (continued)

 HKFRS 16, Leases (continued)
 - Impact on the financial result, segment results and cash flows of the Group After the initial recognition of right-of-use assets and lease liabilities as at 1 April 2019, the Group as a lessee is required to recognise interest expense accrued on the outstanding balance of the lease liability, and the depreciation of the right-of-use asset, instead of the previous policy of recognising rental expenses incurred under operating leases on a straight-line basis over the lease term. This results in a positive impact on the reported profit/(loss) from operations in the Group's consolidated statement of profit or loss, as compared to the results if HKAS 17 had been applied during the year.

In the cash flow statement, the Group as a lessee is required to split rentals paid under capitalised leases into their capital element and interest element. These elements are classified as financing cash outflows, similar to how leases previously classified as finance leases under HKAS 17 were treated, rather than as operating cash outflows, as was the case for operating leases under HKAS 17. Although total cash flows are unaffected, the adoption of HKFRS 16 therefore results in a significant change in presentation of cash flows within the cash flow statement.

The following tables give an indication of the estimated impact of the adoption of HKFRS 16 on the Group's financial result, segment results and cash flows for the year ended 31 March 2020, by adjusting the amounts reported under HKFRS 16 in these consolidated financial statements to compute estimates of the hypothetical amounts that would have been recognised under HKAS 17 if this superseded standard had continued to apply in 2020 instead of HKFRS 16, and by comparing these hypothetical amounts for 2020 with the actual 2019 corresponding amounts which were prepared under HKAS 17.

2 會計政策變動(續)

- (c) 會計政策變動(續) 香港財務報告準則第16號「租 賃」(續)
 - 對本集團財務業績、分部 業績及現金流量之影響 於二零一九年四月一日初 始確認使用權資產及租賃 負債後,本集團(作為承租 人)須確認租賃負債的未償 還餘額中產生的利息支出 以及使用權資產的折舊, 而非過往以直線法確認租 期內經營租賃產生的租賃 開支的政策。與倘於年內 應用香港會計準則第17號 所得的業績相比,此對本 集團綜合損益表中錄得的 經營溢利/(虧損)產生正 面影響。

於現金流量表中,本集團 (作為承租人)須將根據 撥充資本租賃所支付的租 賃分為本金部分及利息部 分。該等部分乃分類為融 資現金流出,類似於先前 根據香港會計準則第17號 將租賃分類為融資租賃的 方式,而非根據香港會計 準則第17號分類為經營租 賃的經營現金流出。儘管 現金流量總額不受影響, 採納香港財務報告準則第 16號導致現金流量表內現 金流量的呈列方式發生重 大變動。

下表或可顯示採納香港財 務報告準則第16號對本 集團截至二零二零年三月 三十一日止年度的財務業 績、分部業績及現金流量 產生的估計影響,方法為 該等綜合財務報表中根據 香港財務報告準則第16號 所呈報的金額與根據香港 會計準則第17號本應確認 的假設金額進行比較(倘 該被取代標準繼續適用於 二零二零年而非香港財務 報告準則第16號),以及將 該等二零二零年假設金額 與根據香港會計準則第17 號編製的二零一九年實際 相應金額進行比較。

Note 1: The "estimated amounts related to operating leases" is an estimate of the amounts of the cash flows in 2020 that relate to leases which would have been classified as operating leases, if HKAS 17 had still applied in 2020. This estimate assumes that there were no differences between rentals and cash flows and that all of the new leases entered into in 2020 would have been classified as operating leases under HKAS 17, if HKAS 17 had still applied in 2020. Any potential net tax effect is ignored.

Note 2: In this impact table these cash outflows are reclassified from financing to operating in order to compute hypothetical amounts of net cash generated from operating activities and net cash used in financing activities as if HKAS 17 still applied.

Lessor accounting

The accounting policies applicable to the Group as a lessor remain substantially unchanged from those under HKAS 17.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity interests in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those equity interests which would result in the Group as a whole having a contractual obligation in respect of those equity interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

附屬公司為本集團控制之實體。 倘本集團從其參與實體業務而受 到或有權享有可變回報並有能力 運用其對該實體之權力影響有能 回報,則本集團對該實體擁有控 制權。在評估本集團是否擁有權 力時,僅會考慮(本集團及其他 方所持有)實質性權力。

SIGNIFICANT ACCOUNTING POLICIES 2 (continued)

(d) Subsidiaries and non-controlling interests (continued)

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Noncontrolling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the period between noncontrolling interests and the equity shareholders of the Company.

Changes in the Group's equity interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire equity interests in that subsidiary, with a resulting gain or loss being recognised in the consolidated statement of profit or loss. Any equity interests retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see Note 2(I)), unless the investment is classified as held for sale.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) Joint ventures

A joint venture is an arrangement whereby the Group or Company and other parties contractually agree to share control of the arrangement, and have rights to the net assets of the arrangement.

An investment in a joint venture is accounted for in the consolidated financial statements under the equity method, unless it is classified as held for sale (or included in a disposal group that is classified as held for sale). Under the equity method, the investment is initially recorded at cost, adjusted for any excess of the Group's share of the acquisitiondate fair values of the investee's identifiable net assets over the cost of the investment (if any). Thereafter, the investment is adjusted for the post acquisition change in the Group's share of the investee's net assets and any impairment loss relating to the investment (see Notes 2(f) and 2(l)). Any acquisition-date excess over cost, the Group's share of the post-acquisition post-tax results of the investees and any impairment losses for the year are recognised in the consolidated statement of profit or loss, whereas the Group's share of the post-acquisition post-tax items of the investees' other comprehensive income is recognised in the consolidated statement of profit or loss and other comprehensive income.

When the Group's share of losses exceeds its interest in the joint venture, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For this purpose, the Group's interest is the carrying amount of the investment under the equity method together with the Group's long-term interests that in substance form part of the Group's net investment in the joint venture.

Unrealised profits and losses resulting from transactions between the Group and its joint venture are eliminated to the extent of the Group's interest in the investee, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

(e) 合營企業

合營企業為本集團或本公司及其 他人士按合約同意下分配控制權 及淨資產擁有權之安排。

於合營企業之投資按權益法列入 綜合財務報表,而有關投資獲分 類為持作出售(或計入獲分類為 持作出售之出售組別)則另作別 論。根據權益法,投資初步以成 本入賬,並就本集團佔該投資對 象可識別淨資產於收購日期之公 允值超出該項投資成本的數額 (如有)作出調整。其後,就本集 團分佔該投資對象淨資產於收購 後之變動及與該項投資有關之任 何減值虧損對該項投資作出調整 (見附註2(f)及2(I))。任何於收購 日期超逾成本之差額、本集團所 佔投資對象於收購後之除稅後業 績及年內任何減值虧損於綜合損 益表內確認,而本集團於收購後 所佔投資對象除稅後之其他全面 收益項目則於綜合損益及其他全 面收益表內確認。

本集團與其合營企業交易所產生 之未變現溢利及虧損,按本集團 所持投資對象之權益抵銷,惟倘 所轉讓資產之未變現虧損出現減 值跡象,則即時於損益中確認。

SIGNIFICANT ACCOUNTING POLICIES 2

(continued)

(e) Joint ventures (continued)

If an investment in a joint venture becomes an investment in an associate or vice versa, retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method.

In all other cases, when the Group ceases to have joint control over a joint venture, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when joint control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (see Note 2(g)).

In the Company's statement of financial position, investments in joint venture are stated at cost less impairment losses (see Note 2(I)), unless classified as held for sale (or included in a disposal group that is classified as held for sale).

Goodwill (f)

Goodwill represents the excess of:

- the aggregate of the fair value of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the Group's previously held equity interests in the acquiree; over
- (ii) the net fair value of the acquiree's identifiable assets and liabilities measured as at the acquisition date.

When (ii) is greater than (i), then this excess is recognised immediately in the consolidated statement of profit or loss as a gain on a bargain purchase.

Goodwill is stated at cost less accumulated impairment losses. Goodwill arising on a business combination is allocated to each cash-generating unit, or groups of cash-generating units, that is expected to benefit from the synergies of the combination and is tested annually for impairment (see Note 2(I)).

會計政策變動(續) 2

(e) 合營企業(續)

倘於合營企業之投資變為於聯營 公司之投資,則不會重新計量保 留權益。反之,該投資繼續根據 權益法入賬。

於所有其他情況下,當本集團不 再對合營企業有共同控制權時, 按出售有關投資對象之全部權益 列賬,由此產生之收益或虧損於 損益內確認。在喪失共同控制權 當日所保留有關前投資對象之權 益按公允值確認及此金額於初始 確認金融資產時視作公允值(見 附註2(g))。

於本公司之財務狀況表內,於合 營企業之投資按成本減減值虧損 列賬(見附註2(I)),除非分類為 持作出售(或計入獲分類為持作 出售之出售組別)則作別論。

(f) 商譽

商譽指:

- (i) 所轉讓代價之公允值、於 被收購方之任何非控股權 益之金額及本集團先前持 有被收購方權益之公允值 之總額;超過
- (ii) 於收購日期所計量之被收 購方之可識別資產及負債 之淨公允值。

倘(ii)高於(i),則此超出部份即時 於綜合損益表確認為議價購買收 益。

商譽是以成本減累計減值虧損列 賬。業務合併產生之商譽被分配 至預期可從合併之協同效益中獲 益之各現金產生單位或現金產生 單位之群組,並每年進行減值測 試(見附註2(I))。

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Investments in debt and equity securities

The Group's policies for investments in debt and equity securities, other than investments in subsidiaries, associate and joint venture, are as follows:

Investments in debt and equity securities are recognised/derecognised on the date the Group commits to purchase/sell the investment. The investments are initially stated at fair value plus directly attributable transaction costs, except for those investments measured at fair value through profit or loss (FVPL) for which transaction costs are recognised directly in profit or loss. These investments are subsequently accounted for as follows, depending on their classification.

(i) Investments other than equity investments

Non-equity investments held by the Group are classified into one of the following measurement categories:

- amortised cost, if the investment is held for the collection of contractual cash flows which represent solely payments of principal and interest. Interest income from the investment is calculated using the effective interest method (see Note 2(v)(vi)).
- fair value through other comprehensive income (FVOCI) - recycling, if the contractual cash flows of the investment comprise solely payments of principal and interest and the investment is held within a business model whose objective is achieved by both the collection of contractual cash flows and sale. Changes in fair value are recognised in other comprehensive income, except for the recognition in profit or loss of expected credit losses, interest income (calculated using the effective interest method) and foreign exchange gains and losses. When the investment is derecognised, the amount accumulated in other comprehensive income is recycled from equity to profit or loss.

(q) 債務及權益證券投資

本集團之債務及權益證券投資政策(於附屬公司、聯營公司及合營企業之投資除外)如下:

債務及權益證券投資於本集團承 諾購買/出售投資之日確認/終 止確認。相關投資初始按公允值 加直接應佔交易成本入賬,惟按 公允值計量且其變動計入損益的 投資除外,該等投資的交易成本 直接於損益確認。該等投資其後 視乎其分類按以下方式入賬。

(i) 權益投資以外的投資

本集團持有之非權益投資 乃按以下其中一種計量類 別進行分類:

- 如持有投資是為了收 取僅代表支付本金和 利息之合約現金流, 則按攤銷成本計量。 投資之利息收入乃按 實際利率法計算(見 附註2(v)(vi))。
- 如投資之合約現金流 僅包括支付本金及利 息,並且持有投資之 業務模式乃以收取合 約現金流及出售為目 標,則以按公允值計 量且其變動計入其他 全面收益(可劃轉) 計量。公允值之變動 於其他全面收益內 確認,惟預期信貸虧 損、利息收入(以實 際利率法計算)及匯 兑損益於損益中確認 除外。當終止確認投 資時,於其他全面收 益累計之金額則從權 益劃轉至損益。

fair value at profit or loss (FVPL) if the investment does not meet the criteria for being measured at amortised cost or FVOCI (recycling). Changes in the fair value of the investment (including interest) are recognised in profit or loss.

(ii) Equity investments

An investment in equity securities is classified as FVPL unless the equity investment is not held for trading purposes and on initial recognition of the investment the Group makes an election to designate the investment at FVOCI (non-recycling) such that subsequent changes in fair value are recognised in other comprehensive income. Such elections are made on an instrumentby-instrument basis, but may only be made if the investment meets the definition of equity from the issuer's perspective. Where such an election is made, the amount accumulated in other comprehensive income remains in the fair value reserve (non-recycling) until the investment is disposed of. At the time of disposal, the amount accumulated in the fair value reserve (non-recycling) is transferred to retained earnings. It is not recycled through profit or loss. Dividends from an investment in equity securities, irrespective of whether classified as at FVPL or FVOCI, are recognised in profit or loss as other income in accordance with the policy set out in Note 2(v)(v).

(ii) 權益投資

權益證券投資均會被分類 為按公允值計量且其變動 計入損益,除非該權益投 資並非持作買賣,且本集 團在初步確認投資時選擇 將投資指定為按公允值計 量且其變動計入其他全面 收益(不可劃轉),以致後 續公允值變動於其他全面 收益確認。該項選擇乃以 逐項工具之基礎上作出, 惟只有當投資符合發行人 角度下之權益定義時方可 作出。倘作出此選擇,則在 該項投資被出售前,於其 他全面收益中累計之金額 仍保留在公允值儲備(不 可劃轉)。在出售時,於公 允值儲備(不可劃轉)中 累計之金額會轉入保留盈 利,不會劃轉至損益。根據 附註2(v)(v)所載政策,來自 權益證券投資之股息,不 論是否分類為按公允值計 量且其變動計入損益或按 公允值計量且其變動計入 其他全面收益,均於損益 中確認為其他收入。

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Property, plant and equipment

Land and buildings held for own use are stated at their revalued amount, being their fair values at the date of the revaluation less any subsequent accumulated depreciation.

Revaluations are performed with sufficient regularity to ensure that the carrying amounts of these assets do not differ materially from that which would be determined using fair values at the end of the reporting period.

Changes arising on the revaluation of land and buildings held for own use are generally dealt with in other comprehensive income and are accumulated separately in equity in the property revaluation reserve. The only exceptions are as follows:

- when a deficit arises on revaluation, it will be charged to profit or loss to the extent that it exceeds the amount held in the reserve in respect of that same asset immediately prior to the revaluation; and
- when a surplus arises on revaluation, it will be credited to profit or loss to the extent that a deficit on revaluation in respect of that same asset had previously been charged to profit or loss.

Residential properties held for own use and other items of property, plant and equipment are stated at cost less accumulated depreciation and impairment losses (see Note 2(l)).

The cost of self-constructed items of property, plant and equipment includes the cost of materials, direct labour, the initial estimate, where relevant, of the costs of dismantling and removing the items and restoring the site on which they are located.

持作自用之土地及樓宇乃按其重估金額(即其於重估日期之公允值減任何其後累計折舊)列賬。

重估乃充分地定期進行,以確保該等資產賬面值不會與報告期末採用公允值所釐定者有重大出入。

- 倘在重估時產生虧絀,則 緊接於重估前在該項虧絀 超過儲備內列於同一資產 項下之數額之情況下,有 關虧絀之超出部份將會在 損益中扣除;及
- 倘在重估時產生盈餘,則 在有關同一資產之重估虧 絀以往在損益中扣除之情 況下,該筆盈餘將以曾扣 除之虧絀為限計入損益 中。

持作自用之住宅物業以及物業、 廠房及設備之其他項目按成本 減累計折舊及減值虧損(見附註 2(I))列賬。

物業、廠房及設備自建項目之成本包括材料及直接勞工、最初估計的相關拆除、移動以修復該項目所在處的成本。

(h) Property, plant and equipment (continued)

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal. Any related revaluation surplus is transferred from the property revaluation reserve to retained profits and is not reclassified to profit or loss.

Depreciation is calculated to write off the cost or valuation of items of property, plant and equipment, less their estimated residual values, using the straight line method over their estimated useful lives as follows:

折舊乃按物業、廠房及設備項目 之成本或估值減其估計剩餘價 值,以其估計使用年期採用直線 法撇銷如下:

Estimated useful lives 估計使用年期

Land and buildings held for own use carried at fair value	以公允值列賬之持作自用土地及 樓宇	20 – 50 years 20至50年
Residential properties held for own use carried at cost and leasehold improvements	按成本列賬之持作自用住宅物業 及租賃物業裝修	3 – 35 years 3至35年
Properties leased for own use	自用租賃物業	1 – 12 years 1至12年
Furniture, fixtures and equipment	傢俬、裝置及設備	3 – 28 years 3至28年
Motor vehicles	運輸工具	3 – 10 years 3至10年

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value are reviewed annually.

No depreciation is provided in respect of construction in progress until it is completed and ready for its intended use.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(i) Investment property

Investment property is land and/or building which is owned or held under a leasehold interest (see Note 2(k)) to earn rental income and/or for capital appreciation.

Investment property is stated at fair value, unless it is still in the course of construction or development at the end of the reporting period and its fair value cannot be reliably measured at that time. Any gain or loss arising from a change in fair value or from the retirement or disposal of an investment property is recognised in profit or loss. Rental income from investment property is accounted for as described in Note 2(v)(iii).

(j) Intangible assets (other than goodwill)

Intangible assets that are acquired by the Group are stated at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses (see Note 2(l)).

Intangible assets are not amortised while their useful lives are assessed to be indefinite. Any conclusion that the useful life of an intangible asset is indefinite is reviewed annually to determine whether events and circumstances continue to support the indefinite useful life assessment for that asset. If they do not, the change in the useful life assessment from indefinite to finite is accounted for prospectively from the date of change and is amortised on a straight-line basis over the assets' estimated useful lives.

(k) Leased assets

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

本集團收購之無形資產按成本減累計攤銷(倘估計使用年期為有期限)及減值虧損(見附註2(I))列賬。

本集團於合約初始評估有關合約 是否屬租賃或包含租賃。倘合約 為換取代價而給予於一段時間內 控制可識別資產使用的權利,則 該合約為租賃或包含租賃。若客 戶不但擁有主導被識別資產使用 的權利,還有權獲得使用被識別 資產所產生的幾乎全部經濟利 益,則資產的控制權發生讓渡。

- (k) Leased assets (continued)
 - As a lessee
 - (1) Policy applicable from 1 April 2019

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for shortterm leases and leases of low-value assets which, for the Group are primarily office furniture. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The rightof-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see Notes 2(h) and 2(l) (iii)), except for the right-of-use assets that meet the definition of investment property are carried at fair value in accordance with Note 2(i);

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

For these purposes, the inception of the lease was the time that the lease was first entered into by the Group, or taken over from the previous lessee.

Where the Group acquires the use of assets under finance leases, the amounts representing the fair value of the leased asset, or, if lower, the present value of the minimum lease payments, of such assets were recognised as property, plant and equipment and the corresponding liabilities, net of finance charges, were recorded as obligations under finance leases. Depreciation was provided at rates which write off the cost or valuation of the assets over the term of the relevant lease or, where it was likely the Group will obtain ownership of the asset, the life of the asset, as set out in Note 2(h). Impairment losses were accounted for in accordance with the accounting policy as set out in Note 2(I)(iii). Finance charges implicit in the lease payments were charged to profit or loss over the period of the leases so as to produce an approximately constant periodic rate of charge on the remaining balance of the obligations for each accounting period. Contingent rentals were charged to profit or loss in the accounting period in which they were incurred.

Where the Group has the use of assets held under operating leases, payments made under the leases are charged to profit or loss in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals are charged to profit or loss in the accounting period in which they are incurred.

(ii) As a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee. If this is not the case, the lease is classified as an operating lease.

When a contract contains lease and nonlease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. The rental income from operating leases is recognised in accordance with Note 2(v)(iii).

(ii) As a lessor (continued)

When the Group is an intermediate lessor, the sub-leases are classified as a finance lease or as an operating lease with reference to the right-of-use asset arising from the head lease. If the head lease is a short-term lease to which the Group applies the exemption described in Note 2(k)(i), then the Group classifies the sub-lease as an operating lease.

(I) Credit losses and impairment of assets

(i) Credit losses from financial instruments

The Group recognises a loss allowance for expected credit losses (ECLs) on the following items:

- financial assets measured at amortised cost (including cash and cash equivalents and trade and other receivables);
- debt securities measured at FVOCI (recycling)

Financial assets measured at fair value, including equity securities measured at FVPL and equity securities designated at FVOCI (non-recycling) are not subject to the ECL assessment.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The expected cash shortfalls are discounted using the following discount rates where the effect of discounting is material:

- fixed-rate financial assets and trade and other receivables: effective interest rate determined at initial recognition or an approximation thereof;
- variable-rate financial assets: current effective interest rate;

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECLs, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

ECLs are measured on either of the following bases:

- 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.

(I) Credit losses and impairment of assets (continued)

(i) Credit losses from financial instruments (continued)

Measurement of ECLs (continued)

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated using a provision matrix based on the historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments, the Group recognises a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is 90 days past due. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

Significant increases in credit risk (continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

- 債務人經營業績的實 際或預期顯著惡化;
- 科技、市場、經濟或 法律環境的目前或預 期變動對債務人履行 其對本集團責任的能 力有重大不利影響。

(I) Credit losses and impairment of assets (continued)

(i) Credit losses from financial instruments (continued)

Significant increases in credit risk (continued)

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt securities that are measured at FVOCI (recycling), for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve (recycling).

Basis of calculation of interest income

Interest income recognised in accordance with Note 2(v)(vi) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset.

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

SIGNIFICANT ACCOUNTING POLICIES 2 (continued)

(I) Credit losses and impairment of assets (continued)

(i) Credit losses from financial instruments (continued)

Basis of calculation of interest income (continued)

Evidence that a financial asset is creditimpaired includes the following observable events:

- significant financial difficulties of the debtor:
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the borrower will enter into bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; or
- the disappearance of an active market for a security because of financial difficulties of the issuer.

Write-off policy

The gross carrying amount of a financial asset or contract asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(I) Credit losses and impairment of assets (continued)

(ii) Credit losses from financial guarantees issued

Financial guarantees are contracts that require the issuer (i.e. the guarantor) to make specified payments to reimburse the beneficiary of the guarantee (the "holder") for a loss the holder incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Financial guarantees issued are initially recognised within "trade and other payables" at fair value, which is determined by reference to fees charged in an arm's length transaction for similar services, when such information is obtainable, or to interest rate differentials, by comparing the actual rates charged by lenders when the guarantee is made available with the estimated rates that lenders would have charged, had the guarantees not been available, where reliable estimates of such information can be made. Where consideration is received or receivable for the issuance of the guarantee, the consideration is recognised in accordance with the Group's policies applicable to that category of asset. Where no such consideration is received or receivable, an immediate expense is recognised in profit or loss.

Subsequent to initial recognition, the amount initially recognised as deferred income is amortised in profit or loss over the term of the guarantee as income from financial guarantees issued.

SIGNIFICANT ACCOUNTING POLICIES 2 (continued)

Credit losses and impairment of assets (continued)

(ii) Credit losses from financial guarantees **issued** (continued)

The Group monitors the risk that the specified debtor will default on the contract and recognises a provision when ECLs on the financial guarantees are determined to be higher than the amount carried in "trade and other payables" in respect of the guarantees (i.e. the amount initially recognised, less accumulated amortisation).

To determine ECLs, the Group considers changes in the risk of default of the specified debtor since the issuance of the guarantee. A 12-month ECL is measured unless the risk that the specified debtor will default has increased significantly since the guarantee is issued, in which case a lifetime ECL is measured. The same definition of default and the same assessment of significant increase in credit risk as described in Note 2(I)(i) apply.

As the Group is required to make payments only in the event of a default by the specified debtor in accordance with the terms of the instrument that is guaranteed, an ECL is estimated based on the expected payments to reimburse the holder for a credit loss that it incurs less any amount that the Group expects to receive from the holder of the guarantee, the specified debtor or any other party. The amount is then discounted using the current risk-free rate adjusted for risks specific to the cash flows.

SIGNIFICANT ACCOUNTING POLICIES 2 (continued)

Credit losses and impairment of assets (continued)

(iii) Impairment of other non-current assets (continued)

Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

計算可收回金額

資產之可收回金額為 其公允值減處置成本 及使用價值兩者中之 較高者。於評估使用 價值時,會使用除稅 前貼現率將估計未來 現金流量貼現至現 值。該貼現率反映市 場當時所評估之貨幣 時間價值和該資產之 獨有風險。倘個別資 產所產生之現金流入 基本上不能獨立於其 他資產所產生之現金 流入,則以獨立產生 現金流入之最小資產 組合(即現金產生單 位)來釐定可收回金 額。

確認減值虧損

資產或其所屬之現金 產生單位之賬面值高 於其可收回金額時, 則會於損益內確認減 值虧損。就現金產生 單位確認之減值虧損 會先分配用以削減 現金產生單位(或一 組單位)所獲分配任 何商譽之賬面值,隨 後則按比例削減單位 (或一組單位)內其他 資產之賬面值,惟資 產賬面值不可下調至 低於其獨立之公允值 減處置成本(如能計 量)或使用價值(如 能釐定)。

(I) Credit losses and impairment of assets (continued)

(iii) Impairment of other non-current assets (continued)

Reversals of impairment losses
 An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

(iv) Interim financial reporting and impairment

Under the Listing Rules, the Group is required to prepare an interim financial report in compliance with HKAS 34, *Interim financial reporting*, in respect of the first six months of the financial year. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year (see Notes 2(I)(i) and 2(I)(ii)).

Impairment losses recognised in an interim period in respect of goodwill are not reversed in a subsequent period. This is the case even if no loss, or a smaller loss, would have been recognised had the impairment been assessed only at the end of the financial year to which the interim period relates.

(m) Inventories

Inventories are carried at the lower of cost and net realisable value.

Cost is calculated using the first-in, first-out method and comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is determined by reference to the sales proceeds of items sold in the ordinary course of business subsequent to the financial year end date or to management estimates based on prevailing market conditions.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised.

The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the writedown or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

(n) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due.

Trade and other receivables are initially recognised at fair value and thereafter stated at amortised cost using the effective interest method, less allowance for credit losses (see Note 2(l)(i)), except where the receivables are interest-free loans made to related parties without any fixed repayment terms or the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less allowance for credit losses (see Note 2(I)(i)).

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs and, where applicable, the fair value of the embedded derivative financial instruments. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between the amount initially recognised and redemption value being recognised in profit or loss over the period of the borrowings, together with any interest and fees payable, using the effective interest method.

(t) Income tax (continued)

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(t) Income tax (continued)

Where investment property is carried at its fair value in accordance with the accounting policy set out in Note 2(i), the amount of deferred tax recognised is measured using the tax rates that would apply on sale of this asset at its carrying value at the reporting date unless the property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the property over time, rather than through sale. In all other cases, the amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

 in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or

(u) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group or the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or nonoccurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(z) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

The Group's revenue is substantially derived from retail customers in the PRC and the Group's operating assets are substantially located in the west region of the PRC. Accordingly, no segment analysis based on geographical location of the customers and assets is provided.

3 ACCOUNTING JUDGEMENTS AND ESTIMATES

Notes 12, 13, 15, 25 and 28 contain information about the assumptions and their risk factors relating to valuation of land and buildings held for own use, investment property, goodwill impairment, fair value of share options granted and financial assets and liabilities measured at fair value. Other key sources of estimation uncertainty are as follows:

(a) Expected credit losses of receivables

Expected credit losses are a probability-weighted estimate of credit losses (i.e. the present value of all cash shortfalls) over the expected life of receivables. Receivables are categorised by individual characteristics of each customer. The Group estimates the loss allowance at an amount equal to lifetime expected credit losses for receivables based on the ageing of overdue balances, repayment histories of individual debtors, debtor credit-worthiness, historical write-off experience, existing customer-specific and market conditions and forward-looking information.

3 ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

(a) Expected credit losses of receivables

(continued)

The Group considers the following indicators when assessing the credit risks, such as the changes in macroeconomic conditions, probabilities of default and internal or external credit ratings, or expected operating performance of the customer, etc. At every reporting date the historical observed default rates are updated and changes in the forward-looking information are analysed. Such assessment involves a significant degree of judgement by the management.

(b) Impairment of long-lived assets

If circumstances indicate that the carrying amount of a long-lived asset may not be recoverable, the asset may be considered "impaired", and an impairment loss may be recognised in accordance with accounting policy for impairment of longlived assets as described in Note 2(1). The carrying amounts of long-lived assets are reviewed periodically or when indications are identified in order to assess whether the recoverable amounts have declined below the carrying amounts. When such a decline has occurred, the carrying amount is reduced to recoverable amount. The recoverable amount is the greater of the fair value less costs of disposal and value in use. In determining the value in use, expected future cash flows generated by the asset are discounted to their present value, which requires significant judgement relating to the level of revenue and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of the recoverable amount, including estimates based on reasonable and supportable assumptions and projections of the level of revenue and amount of operating costs. Changes in these estimates could have a significant impact on the carrying value of the assets and could result in additional impairment charge or, except for goodwill, reversal of impairment in future periods.

3 會計判斷及估計(續)

(a) 應收款項的預期信貸虧損 (續)

本集團評估信貸風險時會考慮以下指標,如宏觀經濟狀況變動、 違約概率及內部或外部信貸評級,或客戶預期經營表現等。於 各報告日期,將更新歷史觀察違 約率及分析前瞻性資料。該等評估涉及管理層重大判斷。

(b) 耐用資產減值

倘有情況顯示無法收回耐用資 產之賬面值,有關資產可能視為 「減值」,並可能根據附註2(I)所 述有關耐用資產減值之會計政 策確認減值虧損。本集團定期或 當發現減值跡象時覆核耐用資 產之賬面值,藉以評估可收回金 額是否下跌至低於賬面值。倘出 現上述減值情況, 賬面值則會減 至可收回金額。可收回金額為公 允值減處置成本或使用價值兩 者中之較高者。在釐定使用價值 時,資產產生的預計未來現金流 量貼現至現值,當中須對相關收 入水平及經營成本金額作出重要 判斷。本集團在釐定與可收回金 額相若之合理數額時,使用全部 可輕易獲得資料,包括基於合理 及有支持力之假設之估計以及收 益與經營成本款額之預測水平。 有關估計之變動可對資產之賬面 值產生重大影響,並可於未來期 間引致額外減值開支或(商譽除 外)作出減值撥回。

3 ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

(c) Depreciation

Property, plant and equipment are depreciated on a straight-line basis over the estimated useful lives of the assets, after taking into account the estimated residual values. The management reviews the estimated useful lives and the residual values of the assets regularly in order to determine the amount of depreciation expense to be recorded during any reporting period. The determination of the useful lives and the residual values are based on historical experience with similar assets. The depreciation expense for future periods is adjusted if there are significant changes from previous estimates.

(d) Deferred tax

Deferred tax assets are recognised for unused tax losses and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deferred tax assets can be utilised. In determining the amount of deferred tax assets to be recognised, significant judgement is required relating to the timing and level of future taxable profits, after taking into account future tax planning strategies. The amount of deferred tax assets recognised at future dates are adjusted if there are significant changes from these estimates.

12 PROPERTY, PLANT AND EQUIPMENT

(continued)

Note: The Group has initially applied HKFRS 16 using the modified retrospective method and adjusted the opening balances at 1 April 2019 to recognise right-of-use assets relating to leases which were previously classified as operating leases under HKAS 17. See Note 2(c).

(a) Fair value measurement of land and buildings carried at fair value and investment property

(i) Fair value hierarchy

The following table presents the fair value of the Group's land and buildings and investment property measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs, i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs, i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs.

12 物業、廠房及設備(續)

附註:本集團已首次採用經修訂追溯法應 用香港財務報告準則第16號,並調 整於二零一九年四月一日的期初結 餘,以確認與先前根據香港會計準 則第17號分類為經營租賃的租賃有 關的使用權資產。見附註2(c)。

(a) 按公允值列賬之土地及樓宇及 投資物業之公允值計量

(i) 公允值層級

下表呈列於報告期末按經 常性基準計量之本集團之 土地及樓宇以及投資物業 之公允值,有關之公允值 採納三級分級制度(見香 港財務報告準則第13號 「公允值計量 | 之定義)分 類。將公允值計量分類之 等級乃參考如下估值方法 所用輸入數據之可觀察性 及重要性後釐定:

- 第一級估值:僅使用 第一級輸入數據(即 於計量日同類資產或 負債於活躍市場之未 經調整報價)計量之 公允值。
- 第二級估值:使用第 二級輸入數據(即未 能達到第一級之可觀 察輸入數據)且並未 使用重大不可觀察輸 入數據計量之公允 值。不可觀察輸入數 據為無市場數據提供 下之輸入數據。
- 第三級估值:使用重 大不可觀察輸入數據 計量之公允值。

During the year ended 31 March 2020, there was no transfer between Level 1 and Level 2, or transfer into or out of Level 3 (2019: no transfer). The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

All of the Group's land and buildings carried at fair value and investment property were revalued as at 31 March 2020. The valuations were carried out by an independent firm of surveyor, Roma Appraisals Limited, who have among their staff Fellows of the Hong Kong Institute of Surveyors with recent experience in the location and category of properties being valued. The Group's Financial Controller has discussion with the surveyors on the valuation assumptions and valuation results when the valuation is performed at each interim and annual reporting date.

The fair value of land and buildings carried at fair value and investment property located in the PRC is determined using market comparison approach by reference to recent sales price of comparable properties on a price per square meter basis in the relevant market. Comparable properties of similar size, characteristics and location are analysed and selected for each property in order to arrive at a fair comparison of their fair values. The fair value measurement is positively correlated to the average market unit sale rate.

Fair value adjustment of investment property is recognised in the line item "Valuation loss on an investment property" on the face of the consolidated statement of profit or loss.

Note: The Group has initially applied HKFRS 16 using the modified retrospective approach and adjusted the opening balances at 1 April 2019 to recognise right-of-use assets relating to leases which were previously classified as operating leases under HKAS 17. After initial recognition of right-of-use assets at 1 April 2019, the Group as a lessee is required to recognise the depreciation of right-of-use assets, instead of the previous policy of recognising rental expenses incurred under operating leases on a straight-line basis over the lease term. Under this approach, the comparative information is not restated. See Note 2(c).

附註:本集團已首次採用經修訂追 溯法應用香港財務報告準則 第16號,並調整於二零一九 年四月一日的期初結餘,以確 認與先前根據香港會計準則 第17號分類為經營租賃的租 賃有關的使用權資產。於二零 一九年四月一日初始確認使 用權資產後,本集團(作為承 租人)須確認使用權資產的折 舊,而非過往以直線法確認租 期內經營租賃產生的租賃開 支的政策。根據此方法,比較 資料並無重列。見附註2(c)。

15 GOODWILL (continued)

Impairment tests for cash-generating units containing goodwill and intangible assets with indefinite useful life (continued)

Notes:

During the year ended 31 March 2020, the financial performance of the Group's department store and supermarket operations, as a consequence of the slowing down of economic growth in the PRC as well as a consequence of the intense competition from surrounding shopping malls and online retail sales, has underperformed management's expectations. Management performed impairment assessments of the relevant cash-generating units to which goodwill and intangible assets have been allocated.

The recoverable amounts of the cash-generating units were determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management covering a five-year period. These cash flow projections adopted annual sales growth rates ranging from -15% to 2% (31 March 2019: from -21% to 2%), which are based on the Group's historical experience with these operations and adjusted for other factors that are specific to each cashgenerating unit. Cash flows beyond the five-year period are extrapolated using an estimated growth rate of 3% (31 March 2019: 3%). The cash flows are discounted using discount rate of 16% (31 March 2019: 15%). The discount rates used are pre-taxed and reflect specific risks relating to the respective cash-generating units.

附註:

截至二零二零年三月三十一日止年 度,由於中國經濟增長放緩以及周 邊購物商場及線上零售銷售激烈 競爭,本集團百貨商場及超級市場 業務的財務表現低於管理層預期。 管理層已對已獲分配商譽及無形資 產的相關現金產生單位進行減值評 估。

> 現金產生單位的可收回金額乃按使 用價值計算而釐定。有關計算乃使 用根據管理層批准的五年期間財務 預算為基準的現金流量預測。該等 現金流量預測乃根據本集團就該等 業務之歷史經驗採用年銷售增長 率為-15%至2%(二零一九年三月 三十一日:-21%至2%) 進行推算, 並就每一個現金產生單位特定之其 他因素調整。五年期間後的現金流 量使用估計增長率3%(二零一九年 三月三十一日:3%)進行推算。現 金流量採用貼現率16%(二零一九 年三月三十一日:15%)進行貼現。 所使用貼現率為除税前貼現率,反 映與各現金產生單位相關之特定風 險。

Impairment tests for cash-generating units containing goodwill and intangible assets with indefinite useful life (continued)

Notes: (continued)

(ii) As a result of the above impairment test, impairment losses on goodwill of approximately RMB470,605,000 were recognised in the consolidated statement of profit or loss for the current financial year, which relates to the cash-generating units of Ginwa Bell Tower acquired in August 2008 and GCX acquired in December 2010.

The key assumptions used in the value-in-use calculations for the above two cash-generating units are as follows:

15 商譽(續)

載有商譽之現金產生單位之減值測 試及具無期限可使用年期之無形資 產(續)

附註:(續)

(ii) 由於上述減值測試,商譽減值虧損 約人民幣470,605,000元於本財政年 度的綜合損益表確認,涉及於二零 零八年八月收購的金花鐘樓及於二 零一零年十二月收購的GCX的現金 產生單位。

上述現金產生單位的使用價值計算所使用的關鍵假設概述如下:

	Key assumptions	At 31 March 2020 於二零二零年	
	關鍵假設	三月三十一日	三月三十一日
Ginwa Bell Tower 金花鐘樓	Annual sales growth rate for the first five-year period 首五年期間的年銷售增長率	0% – 2%	-21% – 2%
	Annual sales growth rate beyond five-year period 五年期間後的年銷售增長率	3%	3%
	Discount rate 貼現率	16%	15%
GCX	Annual sales growth rate for the first five-year period 首五年期間的年銷售增長率	-15% – 2%	-16% – 2%
	Annual sales growth rate beyond five-year period 五年期間後的年銷售增長率	3%	3%
	Discount rate 貼現率	16%	15%

Any adverse change in the assumptions used in the calculation of recoverable amount of cash-generating units would result in further impairment losses.

計算現金產生單位的可收回金額時 所使用假設的任何不利變動將產生 進一步減值虧損。

(continued)

(e) Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for equity shareholders and benefits for other stakeholders, by pricing products and services commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The Group monitors its capital structure on the basis of an adjusted net debt-to-capital ratio. For this purpose, adjusted net debt is defined as total debt (which includes bank and other borrowings), plus unaccrued proposed dividends, less cash at bank on hand and short-term investments. Adjusted capital comprises all components of equity less unaccrued proposed dividends.

During the year, the Group's strategy was to maintain the adjusted net debt-to-capital ratio to an acceptable level. In order to improve the Group's capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares, raise new debt financing or sell assets to reduce debt.

(e) 資本管理

本集團管理資本主要旨在保障本 集團的持續經營能力,以便可透 過與風險水準對等地為產品及服 務定價及按合理成本取得融資而 繼續為股東帶來回報及為其他利 益相關者帶來利益。

本集團積極及定期檢討及管理其資本架構,在維持較高借貸水準而可能帶來較高股東回報與取得穩健資金狀況所帶來的裨益及保障之間作出平衡,並就經濟環境的轉變對資本架構進行調整。

本集團以經調整淨債項對資本比率為基準而監察其資本結構。就此而言,經調整淨債項乃界定為債項總額(其包括銀行及其他借貸)加未計擬派股息減銀行手頭現金以及短期投資。經調整資本包括所有權益部份減未計擬派股息。

於年內,本集團之策略為維持經調整淨債項對資本比率至可接受水準。為改善本集團之資本架構,本集團可調整支付予股東的股息金額、發行新股份、籌集新的債務融資或出售資產以減少債務。

28 FINANCIAL RISK MANAGEMENT AND FAIR **VALUES**

The Group is not exposed to significant currency risk as most of the transactions are denominated in the same currency as the functional currency of the operations in which they relate. Exposure to credit, liquidity and interest rate arises in the normal course of the Group's business. The Group is also exposed to equity price risk arising from its equity investment in another entity.

The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

28 財務風險管理及公允值

由於大部分交易以與相關經營的功 能貨幣相同的貨幣計值,本集團並無 面臨重大貨幣風險。於本集團之正常 業務過程中會產生信貸、流動資金及 利率風險。本集團亦面對權益價格風 險,其來自本集團於其他實體之權益 投資。

本集團所承受之該等風險及本集團用 以管理該等風險之財務風險管理政策 與慣例載述如下。

28 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (continued)

(a) Credit risk

The Group's credit risk is primarily attributable to trade and other receivables. Management has a credit policy in place, and the exposures to these credit risks are monitored on an ongoing basis.

Cash is deposited with financial institutions with acceptable credit quality. Management does not expect any of these financial institutions which fail to meet their obligations

Except for the financial guarantees given by the Group as set out in Note 30, the Group does not provide any other guarantees which would expose the Group or the Company to credit risk. The maximum exposure to credit risk in respect of these financial guarantees at the end of the reporting period is disclosed in Note 30.

Trade receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each debtor rather than the industry in which the debtors operate and therefore significant concentrations of credit risk primarily arise when the Group has significant exposure to individual debtors. At the end of the reporting period, 16% (2019: 9%) and 57% (2019: 49%) of the total trade receivables was due from the Group's largest debtor and the five largest debtors, respectively.

In respect of trade receivables, individual credit evaluations are performed on all debtors requiring credit over a certain amount. These evaluations focus on the debtor's past history of making payments when due and current ability to pay, and take into account information specific to the debtor as well as pertaining to the economic environment in which the debtor operates. Trade receivables are generally due within 3 months from the date of billing. Normally, the Group does not obtain collateral from debtors.

28 財務風險管理及公允值(續)

(a) 信貸風險

本集團之信貸風險主要由應收賬 款及其他應收款所產生。管理層 已制訂信貸政策,並持續監控須 承受的該等信貸風險。

現金存置於信貸質素可獲接納之 金融機構。管理層預期該等金融 機構概不會不履行其責任。

除附註30所載本集團提供之財務擔保外,本集團並無提供使本集團或本公司面臨信貸風險之任何其他擔保。於報告期末與該等財務擔保相關之最高信貸風險披露於附註30。

應收賬款

本集團承受之信貸風險主要受各債務人自身狀況之影響,而非債務人經營所在行業,因此重大集中信貸風險主要是當本集團須承受對個別債務人之重大風險時而產生。於報告期末,應收賬款總額之16%(二零一九年:49%)及57%(二零一九年:49%)乃分別來自本集團之最大債務人。

(a) Credit risk (continued)

Trade receivables (continued)

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. Trade receivables are mainly due from credit card centres owned by state-owned financial institutions in the PRC and tenants operating in the Group's department stores, shopping mall and supermarkets, and accordingly, the management of the Group considers the concentration and credit risks to be low. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

The following table provides information about the Group's exposure to credit risk and ECLs for trade receivables:

(a) Credit risk (continued)

Trade receivables (continued)

The following significant changes in the gross carrying amounts of trade receivables contributed to the increase in the loss allowance:

- origination of new trade receivables net of those settled resulted in an increase in loss allowance of RMBNil (2019: RMB149,000);
- increase in days past due not exceeding 3 months resulted in an increase in loss allowance of RMB162,000 (2019: RMB140.000); and
- a write-off of trade receivables with a gross carrying amount of RMB27,839,000 (2019: RMBNil) resulted in a decrease in loss allowance of RMB8,114,000 (2019: RMBNil).

Credit risk arising from other receivables from third parties

The Group measures loss allowance for other receivables at an amount equal to 12-month ECLs. ECLs on these financial assets are estimated based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

(b) Liquidity risk

Individual operating entities within the Group are responsible for the short-term investments of their cash surpluses, where the raising of financings are centrally managed by the head office of the Group to cover expected cash demands. The Group's policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

應收賬款(續)

應收賬款賬面總值之重大變動導 致虧損撥備增加:

- 產生新應收賬款(扣除已 償付金額)導致虧損撥備增 加人民幣零元(二零一九 年:人民幣149,000元);
- 逾期不超過三個月之天數 增加導致虧損撥備增加人 民幣162,000元(二零一九 年:人民幣140,000元); 及
- 撇銷總賬面值人民幣 27,839,000元(二零一九年:人民幣零元)之應收賬款導致虧損撥備減少人民幣8,114,000元(二零一九年:人民幣零元)。

來自第三方之其他應收款項產 生之信貸風險

本集團按相等於十二個月預期信貸虧損之金額計量其他應收款項之虧損撥備。該等金融資產之預期信貸虧損乃根據本集團之過往信貸虧損經驗估計,並根據債務人特有之因素進行調整,同時對報告日當前及預測之整體經濟狀況進行評估。

(b) 流動資金風險

本集團內個別經營實體負責彼等 現金盈餘之短期投資,而資金籌 集則由本集團總部集中管理以應 付預期現金需求。本集團之政策 為定期監察其流動資金需求及其 遵守借貸契諾之情況,以政保本 集團維持充足現金儲備以及獲主 要金融機構承諾提供足夠資金, 以應付短期及長期之流動資金需 求。

Note: The Group has initially applied HKFRS 16 using the modified retrospective approach and adjusted the opening balances at 1 April 2019 to recognise lease liabilities relating to leases which were previously classified as operating leases under HKAS 17. Other lease liabilities include amounts recognised at the date of transition to HKFRS 16 in respect of leases previously classified as operating leases under HKAS 17 and amounts relating to new leases entered into during the year. Under this approach, the comparative information is not restated. See Note 2(c).

28 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (continued)

(c) Interest rate risk (continued)

(ii) Sensitivity analysis

At 31 March 2020, it is estimated that a general increase/decrease of 100 basis points in interest rates, with all other variables held constant, would have decreased/increased the Group's profit after tax and retained profits by approximately RMB10,944,000 (2019: RMB13,797,000).

The sensitivity analysis above indicates the exposure to cash flow interest rate risk arising from floating rate borrowings held by the Group at the end of the reporting period, the impact of which on the Group's loss after tax and retained profits is estimated as an annualised impact on interest expense of such a change in interest rates. The analysis is performed on the same basis for the year ended 31 March 2019.

(d) Equity price risk

The Group is exposed to equity price changes arising from other financial assets (see Note 18).

The Group's investments in other financial assets are listed on the Shanghai Stock Exchange. The performance of these equity securities is regularly monitored.

At 31 March 2020, it is estimated that an increase/decrease of 10% in the relevant stock price with all other variables held constant, would have increased/decreased the Group's other comprehensive income by RMB15,504,000 (2019: RMB21,471,000).

28 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (continued)

(d) Equity price risk (continued)

The sensitivity analysis indicates the instantaneous change in the Group's other comprehensive income that would arise assuming that the changes in the stock price had occurred at the end of the reporting period and had been applied to re-measure this financial instrument held by the Group which exposes the Group to equity price risk at the end of the reporting period. It is also assumed that none of the Group's other financial assets would be considered impaired as a result of the decrease in the relevant stock price, and that all other variables remain constant. The analysis is performed on the same basis for the year ended 31 March 2019.

(e) Fair value measurement

(i) Financial assets and liabilities measured at fair value

Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs, i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs, i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.

The Group is the lessee in respect of a number of properties held under leases which were previously classified as operating leases under HKAS 17. The Group has initially applied HKFRS 16 using the modified retrospective approach.
