CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board (the “**Board**”) of directors (the “**Directors**”) of LKS Holding Group Limited (the “**Company**”) and its subsidiaries (the Company together with its subsidiaries, the “**Group**”), I hereby present the annual report of the Group to you for the year ended 31 March 2020.

A NOTE OF APPRECIATION

On behalf of the Group, I wish to take this opportunity to express my gratitude to our shareholders, business partners and suppliers who trust and remain faithful to the Group. I would also like to express our sincere thanks to the management and staff of the Group for their diligence, commitment and contribution throughout the years.

REVIEW

The total revenue of the Group increased by approximately HK\$44.5 million or 17.7% from approximately HK\$251.4 million for the year ended 31 March 2019 to approximately HK\$295.9 million for the year ended 31 March 2020 which was driven by the increase in the number of sizable projects undertaken during the year.

Nevertheless, the Group's profit attributable to the shareholders decreased by approximately 93.8% from approximately HK\$16.1 million for the year ended 31 March 2019 to approximately HK\$1.0 million for the year ended 31 March 2020. Such decrease was mainly due to the decrease in gross profit during the year as a result of (i) the decrease in gross profit margin upon the adoption of a more competitive pricing strategy under the intense market competition; (ii) the delays in progress as a result of the outbreak of COVID-19; (iii) the substantial upfront costs incurred for certain projects; and (iv) the cost overrun of certain projects.

FORWARD

Looking forward, it is expected that the coming year will be full of uncertainties. The recent outbreak of COVID-19 has seriously and adversely affected businesses in Hong Kong, which in turn had a drastic effect on the Hong Kong economy. The business sentiment had been low, which has caused a decrease in the number of projects available for tender in the market, and the market competition therefore intensified. In order to minimise the impact of the outbreak of COVID-19, the Group will closely monitor its exposure to the risks and uncertainties in connection therewith. The Group will also adopt a prudent approach to implement its business strategies and remain cautious to cope with market volatility.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND OUTLOOK

The Group is a contractor capable of (i) interior fitting-out and renovation services; and (ii) alteration and addition (“**A&A**”) works for residential, industrial and commercial properties in Hong Kong. The Group has been running its business since 2005 and gained extensive experience and reputation in the industry. Ample Construction Company Limited (“**Ample Construction**”), the Company’s principal operating subsidiary for the contracting businesses, has been registered as a Registered General Building Contractor under the Building Authority since 2006 and is approved to carry out A&A works, including general building works and street works under the Buildings Ordinance. Ample Design Company Limited, the design department of the Group, provides interior design services to clients.

The fitting-out and renovation services mainly include interior fitting-out and renovation works for shops and offices in commercial and industrial properties and residential premises. For A&A works, the scope of works generally includes structural alterations, structural steel, signage works, building maintenance, refurbishment works and ground improvement.

The Group experienced a decrease in net profit for the year ended 31 March 2020 compared to the corresponding period last year. Such decrease was mainly attributable to (i) the decrease in gross profit margin as a result of the adoption of a more competitive pricing strategy in response to the intense market competition under the sluggish economy in Hong Kong; (ii) the delays in progress as a result of the outbreak of COVID-19; (iii) the substantial upfront costs incurred in the early stage for certain projects; and (iv) the cost overrun of certain projects.

Looking forward, it is expected that the coming year will be a challenging year under the recent outbreak of COVID-19 as it has already affected the economy as well as various industries in Hong Kong. Under the outbreak of COVID-19 epidemic, many fitting-out and A&A works were forced to halt. The epidemic made workers at the same site or unit work separately to prevent from getting infected or spreading the virus, which in turn has slowed down the work progress. While the industry was hard hit by the outbreak of COVID-19, contractors have adopted a more competitive project pricing strategy in tendering for projects and bare higher operating costs due to the project delays. In view of such business environment, the Group will remain cautious about the volatile and challenging economic development of Hong Kong in next year.

PRINCIPAL RISKS AND UNCERTAINTIES

The Group’s key risk exposures are summarised as follows:

- i) the Group’s contracts are not recurring in nature and its future business performance depends on its continuing success on project tendering.
- ii) the Group is exposed to disputes, claims or litigation that may affect its operations and financial positions.
- iii) the Group’s profit may be substantially reduced if there are adverse changes in its subcontracting and materials cost after the process of tendering.
- iv) the Group belongs to an industry that requires stable supply of labour in order to carry out its projects.

COMPLIANCE WITH LAWS AND REGULATIONS

To the best of the Directors’ knowledge, information and belief, having made all reasonable enquiries, the Group has complied in all material respects with relevant laws and regulations that have a significant impact on the business and operation of the Group. During the year ended 31 March 2020, there was no material breach or non-compliance with the applicable laws and regulations by the Group.

MANAGEMENT DISCUSSION AND ANALYSIS

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Board has overall responsibility for the Group's environmental, social and governance (“**ESG**”) strategy and reporting. The Board is responsible for the Group's ESG risk management and internal control systems to ensure that the ESG strategies and report requirements are met.

The Group's operations at work sites are subject to certain environmental requirements pursuant to the laws in Hong Kong, including primarily those in relation to air pollution control, noise control, water pollution control and waste disposal control.

The details of ESG performance of the Group are set out in the ESG Report, which can be viewed or downloaded from the websites of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) and the Company, no later than three months after the publication of the Company's annual report.

RELATIONSHIP WITH CUSTOMERS, SUPPLIERS, SUBCONTRACTORS AND EMPLOYEES

Customers

The Group's customers mainly include main contractors who contract all or part of the engineering works for building services systems to other subcontractors, such as the Group, and landlords or occasionally property developers (or its consultants). During the year, the Group solely served customers from the private sector in Hong Kong, and the Directors consider that the Group is not reliant on any single customer. The Group has established close business relationships with most of the top customers ranging from one year to over ten years which the Directors believe it has an implication that the Group is one of the selected subcontractors on such customers' approved lists of subcontractors and the Group has been invited to tender or quote from time to time.

Suppliers and Subcontractors

During the year, suppliers of goods and services to the Group were required on a regular basis to enable the Group to continue to carry on its business including (i) subcontractors engaged by the Group to perform the site works; (ii) material and equipment suppliers to supply materials and equipment used in the site work; and (iii) suppliers of other miscellaneous goods and services required for the Group's business operations.

The Group has maintained an internal list of approved subcontractors for each category of fitting-out and renovation and A&A works. While engaging subcontractors, the Group generally selects the most suitable subcontractor from the approved list based on their relevant skills and experience, subject to their availability and fee quotations.

The Group generally maintains multiple suppliers and subcontractors for products and services to avoid over-reliance on certain suppliers and subcontractors. The Group did not experience any material difficulties in sourcing materials from suppliers or assigning subcontractors during the year. The Group did not have any significant disputes with any of its top five suppliers and subcontractors during the year.

Employees

The Group recognises employees as valuable assets of the Group. During the year, the Group has complied with the applicable labour laws and regulations and regularly reviewed the existing staff benefits for improvement. The Group uses its best effort to attract and retain appropriate and suitable personnel to serve the Group. The objective of the Group's human resource management is to reward and recognise high performing employees by providing attractive remuneration package. The Group determines the salary of its employees mainly based on each employee's qualifications, relevant experience, position and seniority. The Group conducts annual review on salary raises, bonuses and promotions based on the performance of each employee.

The Directors consider that the Group has maintained good relationship with its employees. The Group has not experienced any strikes, work stoppages or labour disputes which affected its operations during the year. The Directors also consider that the relationship and co-operation between the management team and the employees have been good during the year.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

Revenue increased by approximately HK\$44.5 million or 17.7% from approximately HK\$251.4 million for the year ended 31 March 2019 to approximately HK\$295.9 million for the year ended 31 March 2020. Such increase was driven by the increase in number of sizeable projects undertaken during the year.

Direct Costs

Direct costs increased from approximately HK\$198.1 million for the year ended 31 March 2019 to approximately HK\$267.8 million for the year ended 31 March 2020, representing an increase of approximately HK\$69.7 million or 35.2%. Such increase was mainly due to the increase in project costs incurred for undertaking the contracting projects during the year.

Gross Profit

Gross profit of the Group decreased by approximately 47.3% from approximately HK\$53.3 million for the year ended 31 March 2019 to approximately HK\$28.1 million for the year ended 31 March 2020. Such decrease was mainly due to (i) the decrease in gross profit margin as a result of the adoption of a more competitive pricing strategy in response to the intense market competition under the sluggish economy in Hong Kong; (ii) the delays in progress as a result of the outbreak of COVID-19; (iii) the substantial upfront costs incurred in the early stage for certain projects; and (iv) the cost overrun of certain projects.

Impairment losses under expected credit loss model, net of reversal

The Group's impairment loss, net of reversal represents a provision for impairment loss allowance of trade and other receivables and contract assets. The Group's impairment loss under expected credit loss model, net of reversal decreased from approximately HK\$12.1 million for the year ended 31 March 2019 to approximately HK\$6.9 million for the year ended 31 March 2020 mainly as a result of the decrease in allowance of credit loss made on contract assets during the year.

Administrative and Other Operating Expenses

Administrative and other operating expenses of the Group decreased by approximately 11.6% from approximately HK\$19.8 million for the year ended 31 March 2019 to approximately HK\$17.5 million for the year ended 31 March 2020. Administrative and other operating expenses primarily consist of rental expenses, staff costs and professional fees. The administrative and other operating expense for the year ended 31 March 2019 was relatively higher as the Group has incurred the professional fees in relation to the transfer of listing from GEM to the Main Board of the Stock Exchange (the "Transfer of Listing") during the year ended 31 March 2019.

Finance Costs

Finance costs of the Group increased by approximately HK\$0.5 million from approximately HK\$0.7 million for the year ended 31 March 2019 to HK\$1.2 million for the year ended 31 March 2020. Finance costs for the years ended 31 March 2020 and 2019 mainly consisted of interest on bank borrowings and overdrafts. Such increase was mainly due to an increase in bank borrowings.

Income Tax Expense

Income tax expense for the Group decreased by approximately 66.7% from approximately HK\$4.8 million for the year ended 31 March 2019 to approximately HK\$1.6 million for the year ended 31 March 2020, which was mainly due to the decrease in the Group's profit during the year.

Profit and Total Comprehensive Income for the year attributable to owners of the Company

As a result of foregoing, profit and total comprehensive income for the year attributable to owners of the Company decreased by approximately 93.8% from approximately HK\$16.1 million for the year ended 31 March 2019 to approximately HK\$1.0 million for the year ended 31 March 2020.

MANAGEMENT DISCUSSION AND ANALYSIS

LIQUIDITY AND FINANCIAL RESOURCES

At 31 March 2020, the Group had total assets of approximately HK\$159.2 million (2019: approximately HK\$153.8 million), which is financed by total liabilities and shareholders' equity (comprising share capital and reserves) of approximately HK\$42.5 million (2019: approximately HK\$38.1 million) and approximately HK\$116.7 million (2019: approximately HK\$115.7 million), respectively.

The total interest-bearing borrowings of the Group at 31 March 2020 were approximately HK\$32.7 million (2019: approximately HK\$24.2 million), and current ratio at 31 March 2020 was approximately 3.6 times (2019: 3.8 times).

The bank balances of the Group at 31 March 2020 was approximately HK\$40.0 million (2019: approximately HK\$31.6 million).

Majority of the Group's borrowings and bank balances are denominated in Hong Kong Dollars and there was no significant exposure to foreign exchange rate fluctuations during the year.

GEARING RATIO

The gearing ratio of the Group at 31 March 2020 was approximately 28.4% (2019: approximately 20.9%), which was relatively stable as compared with that of last financial year.

The gearing ratio is calculated based on the total borrowings and lease liability divided by total equity at the respective reporting date.

TREASURY POLICY

The Group has adopted a prudent financial management approach towards its treasury policies and thus maintained a healthy liquidity position throughout the year. The Group strives to reduce exposure to credit risk by performing ongoing credit assessments and evaluations of the financial status of its customers. To manage liquidity risk, the Board closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and other commitments can meet its funding requirements from time to time.

CHARGE ON GROUP ASSETS

At 31 March 2020, the Group pledged bank deposits amounted to approximately HK\$6.0 million to a bank as collateral to secure banking facilities granted to the Group (2019: Nil).

At 31 March 2020, the Group pledged its life insurance policies to a bank of approximately HK\$3.0 million to secure the banking facilities granted to the Group (2019: approximately HK\$3.0 million).

Save for the above disclosed, the Group did not have any charges on its assets.

FOREIGN EXCHANGE EXPOSURE

All of the revenue-generating operations and borrowings of the Group are transacted in Hong Kong Dollars. For the year ended 31 March 2020, there was no significant exposure to foreign exchange rate fluctuations and the Group had not maintained any hedging policy against the foreign exchange risk. The management will consider suitable hedging instruments against significant currency exposure should the need arises.

CAPITAL STRUCTURE

The shares of the Company were successfully listed on GEM of the Stock Exchange on 12 January 2017 (the "Listing Date").

The Company successfully transferred the listing of its shares from GEM to the Main Board of the Stock Exchange on 9 May 2019. There has been no change in the capital structure of the Company since the Listing Date and up to date of this annual report. The capital of the Company only comprises of ordinary shares.

DIVIDEND POLICY

The Board has adopted a dividend policy (the "**Dividend Policy**") on 28 December 2018. Details of the Dividend Policy is disclosed as below.

The Dividend Policy aims to provide shareholders of the Company out of the Group's profit attributable to shareholders in any financial year, subject to the criteria set out below.

Such declaration and payment of dividends shall remain to be determined at the discretion of the Board and subject to all applicable requirements (including without limitation restrictions on dividend declaration and payment) under the Companies Ordinance (Cap. 622 of the Laws of Hong Kong) and the memorandum and articles of association of the Company.

In proposing any dividend payout, the Board shall also take into account, inter alia:–

- the Group's actual and expected financial performance;
- shareholders' interests;
- retained earnings and distributable reserves of the Company and each of the other members of the Group;
- the level of the Group's debts to equity ratio, return on equity and financial covenants to which the Group is subject;
- possible effects on the Group's creditworthiness;
- any restrictions on payment of dividends that may be imposed by the Group's lenders;
- the Group's expected working capital requirements and future expansion plans;
- liquidity position and future commitments at the time of declaration of dividend;
- taxation considerations;
- statutory and regulatory restrictions;
- general business conditions and strategies;
- general economic conditions, business cycle of the Group's business and other internal or external factors that may have an impact on the business or financial performance and position of the Company; and
- other factors that the Board deems appropriate.

DIRECTORS' REPORT

The Board may propose the payment of dividends, if any, with respect to the Company's shares on a per share basis.

In addition to cash, dividends may be distributed in the form of shares subject to and in accordance with the procedures set out in the Company's memorandum and articles of association.

Except for interim dividend, any dividends declared by the Company must be approved by an ordinary resolution of shareholders at the general meeting and must not exceed the amount recommended by the Board. The Board may from time to time pay to the shareholders such interim dividends as appear to the directors to be justified by the profits of the Company available for distribution.

The Company will continually review the Dividend Policy and reserves the right in its sole and absolute discretion to update, amend and/or modify the Dividend Policy at any time, and this Dividend Policy shall in no way constitute a legally binding commitment by the Company that dividends will be paid in any particular amount and/or in no way obligate the Company to declare a dividend at any time or from time to time.

In order to avoid any possible future competition between our Group and the Controlling Shareholder, Mr. Cheung, Heavenly White, Mr. Lam and Summer Unicorn (each a “**Covenantor**” and collectively the “**Covenantors**”) have entered into the deed of non-competition (the “**Deed of Non-competition**”) with the Company (for itself and for the benefit of each other member of the Group) on 23 December 2016. Pursuant to the Deed of Non-competition, each of the Covenantors has irrevocably and unconditionally undertaken to the Company (for itself and as trustee of its subsidiaries) that, during the year that the Deed of Non-competition remains effective, he/it shall not, and shall procure that his/its associates (other than any member of the Group) not to develop, acquire, invest in, participate in, carry on or be engaged, concerned or interested or otherwise be involved, whether directly or indirectly, in any business in competition with or likely to be in competition with the existing business activity of any member of the Group.

Each of the Covenantors further undertakes that if he/it or his/its associates other than any member of the Group is offered or becomes aware of any business opportunity which may compete with the business of the Group, he/it shall (and he/it shall procure his/its associates to) notify the Group in writing and the Group shall have a right of first refusal to take up such business opportunity. The Group shall, within 6 months after receipt of the written notice (or such longer period if the Group is required to complete any procedures as set out under the Listing Rules from time to time), notify the Covenantor(s) whether the Group will exercise the right of first refusal or not.

The Group shall only exercise the right of first refusal upon the approval of all the independent non-executive Directors (who do not have any interest in such opportunity). The relevant Covenantor(s) and the other conflicting Directors (if any) shall abstain from participating in and voting at and shall not be counted as quorum at all meetings of the Board where there is a conflict of interest or potential conflict of interest including but not limited to the relevant meeting of the independent non-executive Directors for consideration whether or not to exercise the right of first refusal.

Each of the covenants also gave certain non-competition undertakings under the Deed of Non-competition as set out in the paragraph headed “Relationship with the Controlling Shareholders – Deed of Non-Competition” in the Prospectus.

During the year, the Company had not received any information in writing from any of the Controlling Shareholders in respect of any new business opportunity which competed or might compete with the existing and future business of the Group which were offered to or came to the knowledge of the Controlling Shareholders or their associates (other than any member of the Group), and the Company has received an annual written confirmation from each Controlling Shareholder of the Company in respect of him/it and his/its associates in compliance with the Deed of Non-competition. The independent non-executive Directors have also reviewed and were satisfied that each of the Controlling Shareholders of the Company had complied with the Deed of Non-competition.

CORPORATE GOVERNANCE

Details of the Company’s corporate governance practices are set out in the Corporate Governance Report on pages 28 to 38 of this annual report.

EQUITY-LINKED AGREEMENTS

Save as disclosed in this annual report, there was no equity-linked agreement entered into by the Company during the year ended 31 March 2020.

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and to the best knowledge of the Directors, the Directors confirm that the Company maintained the public float as required under the Listing Rules during the year ended 31 March 2020 and up to the date of this annual report.

INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received from each of the independent non-executive Directors annual written confirmation of his/her independence pursuant to Rule 3.13 of the Listing Rules. The Company considers all the independent non-executive Directors to be independent.

INDEPENDENT AUDITORS

On 27 April 2020, HLB Hodgson Impey Cheng Limited resigned and Asian Alliance (HK) CPA Limited was appointed as the auditor of the Group. Details of the change of auditor were set out in the announcement of the Company dated 27 April 2020.

Save as disclosed above, there were no other changes in auditor of the Group during the past three years.

The consolidated financial statements of the Group for the year ended 31 March 2020 were audited by Asian Alliance (HK) CPA Limited. A resolution will be proposed at the forthcoming annual general meeting of the Company to re-appoint Asian Alliance (HK) CPA Limited as auditor of the Company.

ON BEHALF OF THE BOARD
LKS Holding Group Limited
Wong Wan Sze
Chairman and executive Director

Hong Kong, 26 June 2020

CORPORATE GOVERNANCE REPORT

INTRODUCTION

The Company is committed to achieving and maintaining high standards of corporate governance. The Board treats corporate governance as an integral part of business strategy, as good and effective corporate governance practices are fundamental to obtaining and maintaining the trust of the shareholders' and stakeholders' of the Company. By putting in place the right governance framework, the encouragement of accountability and transparency are the key to sustain the success of the Group and to promote the interests of its shareholders of the Company.

- the perspectives, skills and experience that the candidate can bring to the Board; and
- how the candidate can contribute to the diversity of the Board.

INDEPENDENT NON-EXECUTIVE DIRECTORS

The independent non-executive Directors play a significant role in the Board as they bring an impartial view on the Company's strategies, performance and control, as well as ensuring that the interests of all shareholders are taken into account. All independent non-executive Directors possess appropriate academic, professional qualifications or related financial management experience. None of the independent non-executive Directors held any other offices in the Company or any of its subsidiaries or is interested in any shares of the Company.

The Company has received from each independent non-executive Director an annual confirmation of his/her independence, and the Company considers such Directors to be independent in accordance with the criteria set out in Rule 3.13 of the Listing Rules.

APPOINTMENT AND RE-ELECTION OF DIRECTORS

Each of the executive Directors has renewed the service contract with the Company on 11 January 2020 and signed letters of appointment with each of independent non-executive Directors. The service contracts with the executive Directors and the letter of appointment with each of independent non-executive Directors are for a term of three years commencing from 12 January 2020. The service contracts and letters of appointment are subject to termination in accordance with their respective terms. The service contracts may be renewed in accordance with the memorandum and articles of association of the Company and the applicable Listing Rules.

According to the Article 108 of the memorandum and articles of association of the Company, one-third of the Directors for the time being shall retire from office by rotation at every annual general meeting of the Company, provided that every Director shall retire from office by rotation and are subject to re-election at annual general meeting at least once every three years. Article 112 of the memorandum and articles of association of the Company provides that any Directors who are appointed to fill casual vacancies shall hold office only until the next following general meeting after their appointment, and are subject to re-election by shareholders of the Company.

Each of Mr. Lam Shui Wah and Mr. Wu Wai Ki will retire from office at the forthcoming annual general meeting of the Company to be held on Friday, 4 September 2020. Mr. Lam Shui Wah and Mr. Wu Wai Ki, being eligible, will offer themselves for re-election.

At the forthcoming annual general meeting of the Company, separate ordinary resolutions will be put forward to the shareholders of the Company in relation to the proposed re-election of Mr. Lam Shui Wah, as an executive Director, and Mr. Wu Wai Ki as an independent non-executive Director.

CORPORATE GOVERNANCE REPORT

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Pursuant to the code provision A.2.1 of the CG Code, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual in order to balance the distribution of power.

Ms. Wong Wan Sze was the chairman of the Board throughout the year. Mr. Lam Shui Wah is the chief executive officer of the Company.

DIRECTORS' TRAINING AND PROFESSIONAL DEVELOPMENT

In compliance with the code provision A.6.5 of the CG Code, all Directors shall participate in continuous professional development to develop and refresh their knowledge and skills to ensure their contribution to the Board remains informed and relevant. The Group acknowledges the importance of adequate and ample continuing professional development for the Directors for a sound and effective internal control system and corporate governance. In this regard, the Group has always encouraged the Directors to attend relevant training courses to receive the latest news and knowledge regarding corporate governance.

During the year ended 31 March 2020, the Company has provided and all Directors have attended training courses on the updates of the Listing Rules concerning good corporate governance practices. The Company will, if necessary, provide timely and regular trainings to the Directors to ensure that they keep abreast with the current requirements under the Listing Rules.

BOARD COMMITTEES

The Board has established three Board committees, namely, the Remuneration Committee, the Nomination Committee and the Audit Committee, for overseeing particular aspects of the Company's affairs. All Board committees have been established with defined written terms of reference, which are posted on the website of the Stock Exchange at www.hkexnews.hk and the Company's website at www.lksholding.com. All the Board committees should report to the Board on their decisions or recommendations made.

The practices, procedures and arrangements in conducting meetings of Board committees follow in line with, so far as practicable, those of the Board meetings set out above.

All Board committees are provided with sufficient resources to perform their duties and, upon reasonable request, are able to seek independent professional advice in appropriate circumstance, at the Company's expense.

The Board is responsible for performing the corporate governance duties set out in the CG Code which included developing and reviewing the Company's policies and practices on corporate governance, training and continuous professional development of Directors, and reviewing the Company's compliance with the code provision in the CG Code and disclosures in this annual report.

Remuneration Committee

The Remuneration Committee was established on 23 December 2016. SHAREHOLDERS' RIGHT

As one of the measures to safeguard shareholders' interest and rights, separate resolutions are proposed at shareholders' meetings on each substantial issue, including the election of individual directors, for shareholders' consideration and voting. All resolutions put forward at shareholders' meetings will be voted by poll pursuant to the Listing Rules and the poll voting results will be posted on the website of the Stock Exchange and the Company's website after the relevant shareholders' meeting.

CORPORATE GOVERNANCE REPORT

Extraordinary general meeting may be convened by the Board on requisition of shareholders holding not less than one-tenth of the paid up capital of the Company or by such shareholders who made the requisition (the **"Requisitionists"**) (as the case may be) pursuant to Article 64 of the memorandum and articles of association of the Company. Such requisition must state the object of business to be transacted at the meeting and must be signed by the Requisitionists and deposited at the registered office of the Company or the Company's principal place of business in Hong Kong. Shareholders should follow the requirements and procedures as set out in such Article for convening an extraordinary general meeting. Shareholders may put forward proposals with general meeting of the Company by sending the same to the Company at the principal office of the Company in Hong Kong.

For putting forward any enquiries to the Board, shareholders may send written enquiries to the Company. Shareholders may send their enquiries or requests in respect of their rights to the Company's principal place of business in Hong Kong.

RISK MANAGEMENT AND INTERNAL CONTROL

The Directors acknowledge that they have overall responsibility for overseeing the Company's internal control, financial control and risk management system and shall monitor its effectiveness on an ongoing basis. A review of the effectiveness of the risk management and internal control systems has been conducted by the Board at least annually.

Aimed at providing reasonable assurance against material errors, losses or fraud, the Company has established a risk management procedures which comprised the following steps:

- Identify risks: Identify major and significant risks that could affect the achievement of goals of the Group;
- Risk assessment: Assess and evaluate the identified risk according to its likely impact and the likelihood of occurrence;
- Risk mitigation: Develop effective control activities to mitigate the risks.

Risk identification and assessment is performed or updated annually, and the results of risk assessment, evaluation and mitigation of each functions or operation are documented in the Risk Registry to communicate to the Board and management for reviews.

The Group's risk management and internal control systems are, however, designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

A review on the internal control systems of the Company, including financial, operational and compliance controls and risk management functions has been carried out by an independent consultancy company with staff in possession of relevant expertise to conduct an independent review.

The Audit Committee reviewed the internal control review report issued by the independent consultancy company and the Company's risk management and internal control systems in respect of the year ended 31 March 2020 and considered that they are effective and adequate. The Board assessed the effectiveness of internal control systems by considering the internal control review report and reviews performed by the Audit Committee and concurred the same.

Under code provision C.2.5 of the CG Code, the Group should have an internal audit function. The Company has no internal audit function because the Company has maintained an internal control system and its implementation has been considered effective by the Audit Committee and the Board. In addition, the Audit Committee has communicated with external auditor of the Company to understand if there is any material control deficiency. Nevertheless, the Company will review the need for one on an annual basis.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Recognition of contract revenue and costs

As disclosed in Note 5 to the consolidated financial statements, the Group recorded revenue from construction contracts of approximately HK\$295,885,000 for the year ended 31 March 2020.

Our audit procedures in relation to recognition of revenue and costs from construction contracts and contract assets included:

Contract revenue is recognised over time using the output method, based on direct measurements of the value of services delivered or work performed, which is established by reference to the construction works certified by the customers. Contract costs are recognised when work is performed.

– Assessing the design, implementation and operating effectiveness of key internal controls over the contract revenue and costs recognition processes;

The recognition of contract revenue and costs relies on management's estimate of the final outcome of each contract, which involves the exercise of significant management judgement, particularly in forecasting the costs to complete a contract, in valuing contract variations, claims and liquidated damages, in estimating the amount of expected losses and in assessing the ability of the Group to deliver services according to the agreed timetable.

– Discussing with the Group's management the performance of the major contracts in progress during the year and challenging the key estimates and assumptions adopted in the forecast of contract revenue and contract costs, including estimated costs to completion, the recognition of variation orders, the adequacy of contingency provisions and their assessment of potential liquidated damages for contracts which are behind schedule, by obtaining and assessing information in connection with the assumptions adopted, including contract agreements and subcontracts, confirmations from and correspondence with customers regarding contract variations and claims and by considering historical outcomes for similar contracts;

We identified contract revenue and costs as a key audit matter because the estimation of the total revenue and total costs to complete contracts is inherently subjective and requires significant management judgement and estimation and because errors in the forecast of contract revenue and contract costs could result in a material variance in the amount of profit or loss recognised from contracts to date and, therefore, in the current period.

– Selecting a sample of contracts and performing the following procedures for each contract selected:

– Inspecting the contract agreements with customers and subcontractors to identify key terms and conditions, including contracting parties, contract period, contract sum, scope of work, liquidated damages and evaluating whether these key terms and conditions had been appropriately reflected in the total estimated revenue and costs to complete under the forecasts of contract;

– Comparing the contract revenue recognised during the year with reference to the amounts as stated on the progress certificates issued by the customers;

Impairment assessment of trade receivables and contract assets

As disclosed in Notes 18 and 19 to the consolidated financial statements, as at 31 March 2020, the Group's gross trade receivables and contract assets amounted to approximately HK\$64,471,000 and HK\$55,392,000 and an allowance of credit losses of approximately HK\$11,516,000 and HK\$12,225,000 were included in the Group's consolidated statement of financial position.

Impairment losses on trade receivables and contract assets included in the Group's consolidated statement of profit or loss and other comprehensive income for the year ended 31 March 2020 amounted to HK\$2,622,000 and HK\$3,881,000 respectively

The allowance of credit loss of trade receivables and contract assets represents the management's best estimates of the end of the reporting period of expected credit losses under expected credit loss model as required by *Hong Kong Financial Reporting Standard 9: Financial Instruments*.

The measurement models of expected credit losses involves significant management judgement and assumptions, primarily including the following:

- selection of appropriate model and determination of relevant key measurement parameters, including probability of default, loss given default and exposure at default;
- criteria for determining whether or not there was a significant increase in credit risk or a default; and
- economic indicator for forward-looking measurement, and the application of economic scenarios and weightings.

We consider impairment assessment on trade receivables and contract assets as a key audit matter because of its significance to the consolidated financial statements and the significant estimates and judgment involved in determining the expected credit losses allowance.

How our audit addressed the key audit matter (Continued)

- Comparing items recorded as contract costs during the year with suppliers' contracts, goods receipt notes and other relevant underlying documentation;
- Performing site visits, on a sample basis, to observe the progress of individual contract and discussing with site personnel the status of each project and evaluating whether the project progress was consistent with the agreed timetable and the Group's financial accounting records; and
- Assessing the presentation and related disclosures in the consolidated financial statements with reference to the requirement of Hong Kong Financial Reporting Standard 15: Revenue from Contracts with Customers.

Our audit procedures in relation to impairment of trade receivables and contract assets included:

- Obtaining an understanding and evaluating the methodologies and assumptions used by the Group in assessing expected credit losses;
- Testing the accuracy of ageing analysis of the trade receivables;
- Assessing the appropriateness of the methodology regarding the provision matrix of allowance for expected credit losses;
- Challenging the information used to determine the expected credit losses by considering cash collection performance against historical trends and the level of credit loss changes over time; and
- Examining the key data inputs on a sample basis to assess their accuracy and completeness, and challenging the assumptions, including both historical and forward-looking information, used to determine the expected credit losses.

INDEPENDENT AUDITOR'S REPORT

OTHER MATTER

The consolidated financial statements of the Group for the year ended 31 March 2019, were audited by another auditor who expressed an unmodified opinion on those statements on 28 June 2019.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

INDEPENDENT AUDITOR'S REPORT

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

1. GENERAL INFORMATION

LKS Holding Group Limited (the “**Company**”) was incorporated in the Cayman Islands on 11 February 2016 as an exempted company with limited liability. The shares of the Company were successfully listed on GEM of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) on 12 January 2017.

The Company’s shares are currently listed on the Main Board of the Stock Exchange. Dealings in the shares on the Main Board commenced on 9 May 2019 pursuant to the approval granted by the Stock Exchange for the transfer of listing of the shares from the GEM to the Main Board of the Stock Exchange.

The addresses of the registered office and the principal place of business of the Company are Clifton House, 75 Fort Street, PO Box 1350, Grand Cayman KY1-1108, Cayman Islands and 21/F, Po Shau Centre, No. 115 How Ming Street, Kwun Tong, Kowloon, Hong Kong, respectively.

The Company is an investment holding company. The Company and its subsidiaries (collectively referred to as the “**Group**”) is principally engaged in the provision of interior fitting-out, renovation, alteration and addition works services and interior design services.

The consolidated financial statements are presented in Hong Kong dollars (“**HK\$**”), which is the same as the functional currency of the Company.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“**HKFRSs**”)

New and Amendments to HKFRSs that are mandatorily effective for the current year

The Group has applied the following new and amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) for the first time in the current year:

HKFRS 16	Leases
HK(IFRIC)-Interpretation (“ Int ”) 23	Uncertainty over Income Tax Treatments
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to Hong Kong Accounting Standard (“ HKAS ”) 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015-2017 Cycle

Except as described below, the application of the new and amendments to HKFRSs in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

New and Amendments to HKFRSs that are mandatorily effective for the current year (continued)

HKFRS 16 Leases

The Group has applied HKFRS 16 for the first time in the current year. HKFRS 16 superseded HKAS 17 *Leases* (“**HKAS 17**”), and the related interpretations.

Definition of a lease

The Group has elected the practical expedient to apply HKFRS 16 to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 *Determining whether an Arrangement contains a Lease* and not apply this standard to contracts that were not previously identified as containing a lease. Therefore, the Group has not reassessed contracts which already existed prior to the date of initial application.

For contracts entered into or modified on or after 1 April 2019, the Group applies the definition of a lease in accordance with the requirements set out in HKFRS 16 in assessing whether a contract contains a lease.

As a lessee

The Group has applied HKFRS 16 retrospectively with the cumulative effect recognised at the date of initial application, 1 April 2019.

As at 1 April 2019, the Group recognised additional lease liabilities and right-of-use assets at amounts equal to the related lease liabilities by applying HKFRS 16.C8(b)(ii) transition. Any difference at the date of initial application is recognised in the opening retained profits and comparative information has not been restated.

When recognising the lease liabilities for leases previously classified as operating leases, the Group has applied incremental borrowing rates of the relevant group entities at the date of initial application. The weighted average incremental borrowing rate applied is 3.63%.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

¹ Effective for annual periods beginning on or after 1 January 2021.

² Effective for business combinations and asset acquisitions for which the acquisition date is on or after the beginning of the first annual period beginning on or after 1 January 2020.

³ Effective for annual periods beginning on or after a date to be determined.

⁴ Effective for annual periods beginning on or after 1 January 2020.

⁵ Effective for annual periods beginning on or after 1 June 2020.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

New and amendments to HKFRSs in issue but not yet effective (continued)

In addition to the above new and amendments to HKFRSs, a revised Conceptual Framework for Financial Reporting was issued in 2018. Its consequential amendments, the *Amendments to References to the Conceptual Framework in HKFRS Standards*, will be effective for annual periods beginning on or after 1 January 2020.

Except for the new and amendments to HKFRSs mentioned below, the directors of the Company (the “**Directors**”) anticipate that the application of all other new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

Amendments to HKAS 1 and HKAS 8 Definition of Material

The amendments provide refinements to the definition of material by including additional guidance and explanations in making materiality judgments. In particular, the amendments:

- include the concept of “obscuring” material information in which the effect is similar to omitting or misstating the information;
- replace threshold for materiality influencing users from “could influence” to “could reasonably be expected to influence”; and
- include the use of the phrase “primary users” rather than simply referring to “users” which was considered too broad when deciding what information to disclose in the financial statements.

The amendments also align the definition across all HKFRSs and will be mandatorily effective for the Group’s annual period beginning on 1 April 2020. The application of the amendments is not expected to have significant impact on the financial position and performance of the Group but may affect the presentation and disclosures in the consolidated financial statements.

Conceptual Framework for Financial Reporting 2018 (the “New Framework”) and the Amendments to References to the Conceptual Framework in HKFRS Standards

The New Framework:

- reintroduces the terms stewardship and prudence;
- introduces a new asset definition that focuses on rights and a new liability definition that is likely to be broader than the definition it replaces, but does not change the distinction between a liability and an equity instrument;
- discusses historical cost and current value measures, and provides additional guidance on how to select a measurement basis for a particular asset or liability;
- states that the primary measure of financial performance is profit or loss, and that only in exceptional circumstances other comprehensive income will be used and only for income or expenses that arise from a change in the current value of an asset or liability; and
- discusses uncertainty, derecognition, unit of account, the reporting entity and combined financial statements.

Consequential amendments have been made so that references in certain HKFRSs have been updated to the New Framework, whilst some HKFRSs are still referred to the previous versions of the framework. These amendments are effective for annual periods beginning on or after 1 January 2020, with earlier application permitted. Other than specific standards which still refer to the previous versions of the framework, the Group will rely on the New Framework on its effective date in determining the accounting policies especially for transactions, events or conditions that are not otherwise dealt with under the accounting standards.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 *Share-based Payment*, leasing transactions that are accounted for in accordance with HKFRS 16 (since 1 April 2019) or HKAS 17 (before application of HKFRS 16), and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 *Inventories* or value in use in HKAS 36 *Impairment of Assets*.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of consolidation (continued)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Revenue from contracts with customers (continued)

A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation

Output method

The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

As a practical expedient, if the Group has a right to consideration in an amount that corresponds directly with the value of the Group's performance completed to date, the Group recognises revenue in the amount to which the Group has the right to invoice.

Leases

Definition of a lease (upon application of HKFRS 16 in accordance with transitions in Note 2)

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee (upon application of HKFRS 16 in accordance with transitions in Note 2)

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Non-lease components are separated from lease component on the basis of their relative stand-alone prices.

As a practical expedient, leases with similar characteristics are accounted on a portfolio basis when the Group reasonably expects that the effects on the consolidated financial statements would not differ materially from individual leases within the portfolio.

Leases (continued)

The Group as a lessee (upon application of HKFRS 16 in accordance with transitions in Note 2) (continued)

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 *Financial instruments* ("**HKFRS 9**") and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

Leases (continued)

The Group as a lessee (upon application of HKFRS 16 in accordance with transitions in Note 2) (continued)

Refundable rental deposits (continued)

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

The Group as a lessee (prior to 1 April 2019)

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

Retirement benefit costs

Payments to the Mandatory Provident Fund Scheme are recognised as an expense when employees have rendered service entitling them to the contributions.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transaction in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 *Income Taxes* requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Plant and equipment

Plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes. Plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Impairment on plant and equipment and right-of-use assets

At the end of the reporting period, the Group reviews the carrying amounts of its plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In addition, the Group assesses whether there is indication that corporate assets may be impaired. If such indication exists, corporate assets are also allocated to individual cash-generating units, when a reasonable and consistent basis of allocation can be identified, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2020

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment on plant and equipment and right-of-use asset (continued)

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or the cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss (“**FVTPL**”)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income (“**FVTOCI**”):

- the financial asset is held within a business model whose objective is achieved by both selling and collecting contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at the date of initial application of HKFRS 9/ initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 *Business Combinations* applies.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (continued)

Financial assets (continued)

Classification and subsequent measurement of financial assets (continued)

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost and debt instruments/receivables subsequently measured at FVTOCI. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

(ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial asset and is included in the "other income, other gains and losses, net" line item.

Impairment of financial assets and other items subject to impairment assessment under HKFRS 9

The Group performs impairment assessment under expected credit loss (“**ECL**”) model on financial assets (including trade receivables, other receivables, amounts due from related parties, bank balance, and other item (contract assets) which are subject to impairment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“**12m ECL**”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables and contract assets without significant financing component. The ECL on these assets are assessed individually for debtors with significant balances and/or collectively using a provision matrix with appropriate grouping based on same risk characteristics.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument’s external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor’s ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor’s ability to meet its debt obligations.

Impairment of financial assets and other items subject to impairment assessment under HKFRS 9 (continued)

(i) Significant increase in credit risk (continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 180 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Impairment of financial assets and other items subject to impairment assessment under HKFRS 9 (continued)

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Where ECL is measured on a collective basis or cater for cases where evidence at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments (i.e. the Group's trade receivable, contract assets, other receivables, amounts due from related parties and bank balances) are assessed as a separate group/assessed for ECL on an individual basis;
- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables and contract assets where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENT

In the application of the Group's accounting policies, which are described in Note 3, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENT (CONTINUED)

Construction contracts revenue recognition

The Group recognises its contract revenue over time by reference to the progress towards complete satisfaction of a performance obligation at the end of the reporting period, measured based on the surveys of work performed to date of the individual contract of construction works relative to total contract value. Because of the nature of the activity undertaken in construction contracts, the date at which the contract activity is entered into and the date when the activity is completed usually fall into different accounting period. The Group reviews and revises the estimates of contract revenue, contract costs and variation orders prepared for each construction contract as the contract progresses. Management regularly reviews the progress of the contracts and the corresponding costs of the contract revenue.

Provision of ECL for trade receivables and contract assets

Impairment loss on trade receivables and contract assets represent managements' best estimate of losses incurred at the reporting date under ECL models. Management assess whether the credit risk of trade receivables and contract assets have increased significantly since their initial recognition. The Group is required to exercise judgement in making assumptions and estimates when calculating impairment loss, including any observable data indicating that there is a measurable decrease in the estimated future cash flows from trade receivables and contract assets and historical loss experience on the basis of the relevant observable data that reflects current economic conditions.

The measurement of the ECL involves significant management judgments and assumptions, primarily including the selection of appropriate models and determination of relevant key measurement parameters, criteria for determining whether or not there was a significant increase in credit risk or a default was incurred, economic indicators for forward-looking measurement, and the application of economic scenarios and weightings, management consideration due to significant uncertain factors not covered in the models and the estimated future cash flows. The information about the ECL are disclosed in Note 35(b).

Provision for claims on construction works

When accounting for provision for claims on construction works and other items, the Group has taken internal and external advice in considering known claims and actions made by or against the Group. It carefully assesses the likelihood of success of a claim or actions. Surety bonds are set up for claims or actions against the Group on the basis of likely outcome, but no provisions are made for those which in the view of management are unlikely to succeed. Provision on possible obligations, if appropriate, are made based on management's best estimates and judgements. The information about the surety bond are disclosed in Note 31.

5. REVENUE AND SEGMENT INFORMATION

Information reported to the executive directors of the Company, being the chief operating decision maker (the “CODM”), for the purpose of resources allocation and performance assessment. During the year, the CODM assess the operating performance and allocates the resources of the Group as a whole as the Group is primarily engaged in the provision of interior fitting-out, renovation, alteration and addition works services and interior design services. Therefore, the Directors consider that the Group only has one operating segment.

The CODM reviews the overall results and financial position of the Group as a whole based on the same accounting policies of the Group as set out in Note 3 and no further analysis for segment information is presented.

Performance obligations for contracts with customers

The Group provides interior fitting-out, renovation, alteration and addition works services and interior design services to customers. Such services are recognised as a performance obligation satisfied over time as the Group creates or enhances an asset that the customer controls as the asset is created or enhanced. Revenue is recognised for these services based on the progress towards completion of the contract using output method. The Directors consider that output method would faithfully depict the Group's performance towards complete satisfaction of these performance obligations in these contracts under HKFRS 15.

A contract asset, net of contract liability related to the same contract, is recognised over the period in which the services are performed representing the Group's right to consideration for the services performed because the rights are conditioned on the Group's future performance in achieving specified specific milestones. The contract assets are transferred to trade receivables when the rights become unconditional. The Group typically transfer the contract assets to trade receivables when the approval of progress from the counterparty received.

Retention receivables, prior to expiration of defect liability period, are classified as contract assets, which range from 6 months to 1 year from the date of the practical completion of the performance obligation. The relevant amount of contract asset is reclassified to trade receivables when the defect liability period expires. The defect liability period serves as an assurance that the services performed comply with agreed-upon specifications and such assurance cannot be purchased separately.

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the “**Bill**”) which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2,000,000 of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2,000,000 will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

Accordingly, the Hong Kong Profits Tax of the qualifying group entity is calculated at 8.25% on the first HK\$2,000,000 of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2,000,000.

Depreciation charge	1,118
Total cash outflow for leases	1,123

For both years, the Group lease an office for its operation. Lease contract is entered into for fixed term of 3 years. Lease term is negotiated on an individual basis. In premise determining the lease term and assessing the length of the non-cancelled period, the Group applied the definition of a contract and determines the period for which the contract is enforceable.

17. DEPOSITS AND PREPAYMENTS FOR LIFE INSURANCE POLICIES

The Group entered into two life insurance policies with an insurance company to insure Mr. Cheung Ka Yan and Mr. Lam Shui Wah. Under the policies, Ample Construction Company Limited (“**Ample Construction**”), an indirect wholly-owned subsidiary of the Company, is the beneficiary and policy holder and the total insured sum are US\$2,000,000. Ample Construction is required to pay upfront deposits of approximately US\$333,000. Ample Construction can terminate the policies at any time and receive cash back based on the cash value of the policies at the date of withdrawal, which is determined by the upfront payments of approximately US\$333,000 plus accumulated interest earned and minus the accumulated insurance charge and policy expense charge. In addition, if withdrawal is made at any time during the first to the fifteenth policy year, as appropriate, a pre-determined specified amount of surrender charge would be imposed. The insurance company will pay Ample Construction a guaranteed interest of 4.0% per annum for the first ten years, followed by guaranteed interest rate of 3.0% or above per annum for the following years.

The Directors consider that the possibility of terminating the policy during the first to fifteenth policy year was low and the expected life of the life insurance policy remains unchanged since its initial recognition. At 31 March 2020, the deposits and prepayments for life insurance policies amounted to approximately HK\$3,044,000 (2019: approximately HK\$2,996,000). The deposits and prepayments for life insurance policies are denominated in US\$.

Other receivables, prepayments and deposits	15,901	13,115
Less: Allowance for credit losses	(417)	–
	68,439	84,394

As at 1 April 2018, trade receivables amounted to approximately HK\$46,890,000 (net of allowance for credit losses of approximately HK\$5,143,000).

The Group generally allows a credit period of 30 days to its customers. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are reviewed regularly by senior management.

The ageing analysis of trade receivables, presented based on the invoice date, at the end of the reporting period, is as follows:

	2020	2019
	HK\$'000	HK\$'000
0 – 30 days	19,994	50,801
31 – 60 days	567	9,569
61 – 90 days	5,102	1,666
91 – 180 days	21,236	7,065
Over 180 days	17,572	11,072
	64,471	80,173
Less: Allowance for credit losses	(11,516)	(8,894)
	52,955	71,279

As at 31 March 2020, included in the Group's trade receivables balance are debtors with aggregate carrying amount of approximately HK\$44,477,000 (2019: approximately HK\$29,372,000) which are past due as at the reporting date. Out of the past due balances, approximately HK\$16,952,000 (2019: approximately HK\$8,834,000) has been past due 180 days or more. The Directors considers credit risks have increased significantly and those past balances due more than 180 days are considered as credit-impaired.

Details of impairment assessment of trade and other receivables are set out in Note 35(b).

	43,167	28,312

As at 1 April 2018, contract assets amounted to approximately HK\$37,874,000.

Notes:

- (a) Retention receivables included in contract assets represent the Group's right to receive consideration for work performed and conditional on the satisfaction of the service quality by the customers over a certain period as stipulated in the contracts. The contract assets are transferred to the trade receivables when the rights become unconditional, which is typically at the expiry date of the period for the provision of assurance by the Group on the service quality of the construction work performed by the Group.
- (b) Unbilled revenue included in contract assets represents the Group's right to receive consideration for work completed but not yet billed because the rights are conditional upon the satisfaction by the customers on the construction work completed by the Group. The contract assets are transferred to trade receivables when the rights become unconditional, which is typically at the time when the Group obtains the certification of the completed construction work from the customers or when the Group entitled to issue invoices for the completed work to the customers.

The Group classifies these contract assets as current because the Group expects to realise them in its normal operating cycle. Details of impairment assessment of contract assets are set out in Note 35(b).

28. SHARE OPTION SCHEME

The Company has adopted a share option scheme ("**Scheme**") pursuant to a resolution passed on 23 December 2016. The purpose of the Scheme is to attract and retain the best available personnel, to provide additional incentive to employees (full time and part-time), directors, consultants, advisers, distributors, contractors, suppliers, agents, customers, business partners or service providers of the Group and to promote the success of the business of the Group.

Under the Scheme, the board of directors may, at their absolute discretion and subject to the terms of the Scheme, grant options to any employees (full-time or part-time), directors, consultants or advisors of the Group, or any substantial shareholders of the Group, or any distributors, contractors, suppliers, agents, customers, business partners or service providers of the Group, to subscribe for shares of the Company.

Under the Scheme, the maximum number of shares which may be issued upon exercise of all options to be granted under the Scheme and any other share option schemes of the Company must not in aggregate exceed 10% of the shares in issue upon the date of which the shares are listed and permitted to be dealt in the Stock Exchange. The 10% limit may be refreshed at any time by approval of the Company's shareholders provided that the total number of Company's shares which may be issued upon exercise of all options to be granted under the Scheme and any other share options schemes of the Company must not exceed 10% of the Company's shares in issue as at the date of approval of the refreshed limit. Subject to the approval of the Company's shareholders, the aggregate number of the Company's shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Scheme and any other schemes of the Company must not exceed 30% of the Company's shares in issue from time to time. No options may be granted under the Scheme or any other share options schemes of the Company if this will result in the limit being exceeded.

The total number of shares issued and to be issued upon exercise of the options granted to each participant (including both exercised and outstanding options) under the Scheme or any other share option schemes of the Company in any 12-month period up to date of grant shall not exceed 1% of the shares of the Company in issue. Where any further grant of options to a participant under the Scheme would result in the shares issued and to be issued upon exercise of all options granted and to be granted to such participant (including exercised, cancelled and outstanding options) in the 12-month period up to and including the date of such further grant representing in aggregate over 1% of the shares in issue, such further grant must be separately approved by shareholders of the Company in general meeting with such participant and his/her close associates abstaining from voting.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

28. SHARE OPTION SCHEME (CONTINUED)

Share options granted to a director, chief executive or substantial shareholder of the Company, or any of their respective associates must be approved by the independent non-executive directors of the Company (excluding any independent non-executive director who is the grantee). Where any share options granted to a substantial shareholder or an independent non-executive director of the Company, or any of their respective associates would result in the total number of shares issued and to be issued upon exercise of all options already granted and to be granted (including options exercised, cancelled and outstanding) under the Scheme and any other share option schemes of the Company to such person in any 12-month period up to and including the date of such grant representing in aggregate over 0.1% of the shares of the Company in issue and having an aggregate value in excess of HK\$5 million must be approved by the Company's shareholders at the general meeting of the Company, with voting to be taken by way of poll.

The offer of a grant of share options might be accepted in writing within 7 days from the date of the offer. An option may be exercised in accordance with the terms of the Scheme at any time during a period as the directors may determine which shall not exceed ten years from the date of grant subject to the provisions of early termination thereof. A nominal consideration of HK\$1 is payable on acceptance of the grant of an option with a remittance in favour of the Company within such time as may be specified in the offer (which shall not be later than 7 days from the date of the offer).

The subscription price shall be a price solely determined by the board of directors of the Company and notified to a participant and shall be at least the highest of: (i) the closing price of the Company's shares as stated in the Stock Exchange's daily quotations sheet on the offer date; (ii) the average closing prices of the Company's shares as stated in the Stock Exchange's daily quotations sheets for the 5 business days immediately preceding the date; and (iii) the nominal value of the Company's share on the offer date.

The Scheme shall be valid and effective for a period of ten years commencing on 23 December 2016 and expiring on the business day immediately preceding the 10th anniversary thereof, subject to early termination provisions contained in the Scheme.

There was no share option granted to eligible participants during the year ended 31 March 2020 (2019: Nil). There was no outstanding share option at 31 March 2020 (2019: Nil).

29. RETIREMENT BENEFIT SCHEME

The Group operates a Mandatory Provident Fund Scheme (the "**MPF Scheme**") established under the Mandatory Provident Fund Schemes Ordinance in Hong Kong. The assets of the MPF Scheme are held separately from those of the Group, in funds under the control of trustees.

The Group contributes monthly to the MPF Scheme at the lower of HK\$1,500 per month or 5% of relevant payroll costs for each employee, which contribution is matched by the employee.

The only obligation of the Group with respect of the MPF Scheme is to make the specified contributions. The total expenses recognised in the consolidated statement of profit or loss and other comprehensive income amounted to approximately HK\$757,000 (2019: approximately HK\$573,000) for the year ended 31 March 2020 and represent contributions paid or payable to the MPF Scheme by the Group at rates specified in the rules of the scheme.

As at 31 March 2020, contributions of approximately HK\$92,000 (2019: approximately HK\$93,000) due in respect of the year ended 31 March 2020 had not been paid over to the MPF Scheme. The amounts were paid subsequent to the end of the reporting period.

30. OPERATING LEASE COMMITMENT

At the end of the reporting period, the Group had commitments for future minimum lease payments under non-cancellable operating lease in respect of rented office premises which fall due as follows:

	2019 HK\$'000
Within one year	1,122
In the second to fifth years inclusive	409
	1,531

Operating lease relates to office premise with lease term of three years.

31. SURETY BONDS AND CONTINGENT LIABILITIES

Certain customers of construction contracts undertaken by the Group require Ample Construction to issue guarantees for the performance of contract works in the form of surety bonds of approximately HK\$9,260,000 (2019: approximately HK\$10,446,000) at 31 March 2020. The Company and Ample Construction have unconditionally and irrevocably agreed to indemnify to the insurance companies that issue such surety bonds for claims and losses the insurance companies may incur in respect of the bonds. The surety bonds will be released when the contracts are completed or substantially completed pursuant to the relevant contract.

At 31 March 2020, the Group paid a cash collateral of approximately HK\$2,081,000 (2019: approximately HK\$2,235,000) to an insurance company for the issuance of surety bonds and are included in other receivables, prepayments and deposits (Note 18).

The executive directors of the Company, Mr. Lam Shui Wah and Ms. Wong Wan Sze, have unconditionally and irrevocably agreed to indemnify to an insurance company for the issuance of surety bonds for claims and losses from that insurance company which may incur in respect of such surety bonds.

34. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debt, which includes borrowings, net of bank balances and cash and equity attributable to owners of the Company, comprising issued share capital and reserves.

The Directors review the capital structure on a regular basis by considering the cost of capital and the risks associated with the capital. In view of this, the Group manages its overall capital structure through the payment of dividends and the issue of new shares.

The net debt to equity ratio at the end of the reporting period is as follows:

	Notes	2020 HK\$'000	2019 HK\$'000
Debts	i	33,131	24,198
Less: Bank balances and cash	ii	(39,982)	(31,637)
Net debt		(6,851)	(7,439)
Equity	iii	116,699	115,656
Net debt-to-equity ratio		N/A	N/A

Notes:

- (i) Debts represent lease liability and borrowings as detailed in Note 24 and Note 25 respectively.
- (ii) Bank balances and cash as detailed in Note 22.
- (iii) Equity includes all capital and reserves attributable to owners of the Company.

(b) Financial risk management objectives and policies

The Group's major financial instruments include trade and other receivables, amounts due from related parties, financial assets at FVTPL, bank balances and cash, trade and other payables, lease liability and borrowings. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risks (currency risk, interest rate risk and price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management of the Group manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

Market risk

(i) Currency risk

The majority of the Group's transactions and balances at and for the years ended 31 March 2020 and 2019 were denominated in Hong Kong dollars. The Directors consider that the currency risk is not significant.

The Group currently does not have a foreign currency hedging policy. However, the management of the Group monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

In virtue of the exposure on foreign currency risk being minimal, the respective quantitative disclosures have not been prepared.

35. FINANCIAL INSTRUMENTS (CONTINUED)

(b) Financial risk management objectives and policies (continued)

Market risk (continued)

(ii) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate lease liabilities, as set out in Note 24. The Group is also exposed to cash flow interest rate risk in relation to its variable-rate bank balances and bank borrowings as detailed in Notes 22 and 25 respectively.

The Group currently does not have an interest rate hedging policy. However, the management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for non-derivative instruments at the end of the reporting period. For bank borrowings, the analysis is prepared assuming the amount of liabilities outstanding at the end of reporting period were outstanding for the whole period. A 50 basis points (2019: 50 basis points) increase or decrease is used which represents management's assessment of the reasonably possible change in interest rates. Bank balances are excluded from sensitivity analysis as the Directors consider that the exposure of cash flow interest risk arising from variable-rate bank balances is insignificant.

If interest rates on interest bearing borrowings has been 50 basis points (2019: 50 basis points) higher / lower and all of other variables were held constant, the profit after taxation for the year ended 31 March 2020 would decrease/increase by approximately HK\$137,000 (2019: approximately HK\$101,000). This is mainly attributable to the Group's exposure to interest rates on its variable-rate borrowings which are not hedge against their exposures to cash flow interest rate risk at the end of the reporting period.

(iii) Price risk

The Group is exposed to equity price risk through its investments in listed equity securities measured at FVTPL. For listed equity securities measured at FVTPL, quoted in the Stock Exchange, the management of the Group manages this exposure by closely monitoring the price movements and the changes in market conditions that may affect the value of these investments.

The Group currently does not have a policy on hedges of equity price risk. However, the management monitors equity price exposure and will consider hedging significant equity price exposure should the need arise.

In virtue of the exposure on equity price risk being minimal, the respective quantitative disclosures have not been prepared.

Credit risk and impairment assessment

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk exposure are primarily attributable to trade and other receivables, contract assets, amounts due from related parties and bank balances. The Group does not hold any collateral or other credit enhancements to cover its credit risk associated with its financial assets.

The Group performed impairment assessment for financial assets and other items under ECL model. Information about the Group's credit risk management, maximum credit risk exposures and the related impairment assessment, if applicable, are summarised as below:

Trade receivables and contract assets arising from contracts with customers

The Group has concentration of credit risk as 79.4% (2019: 73.3%) of the total trade receivables was due from the five largest customers.

In order to minimise the credit risk, the management has delegated staff responsible for credit approvals and ongoing monitoring procedures to ensure follow-up action is taken to recover overdue debts. The management also performs periodic evaluations and customer visits to ensure the Group's exposure to bad debts is not significant and adequate impairment losses are made for irrecoverable amount. In this regard, the Directors consider that the Group's credit risk is significantly reduced.

In addition, the Group performs impairment assessment under ECL model on trade balances individually or based on provision matrix. Except for items that are credit-impaired, which are assessed for impairment individually, the remaining trade receivables and contract assets are grouped under a provision matrix based on industry credit benchmarking studies on the industry-wide probability of default term structure over the expected life with forward looking adjustment. Impairment loss of approximately HK\$6,503,000 (2019: approximately HK\$12,095,000) was recognised during the year. Details of the quantitative disclosures are set out below in this note.

Other receivables and amounts due from related parties

The Directors make periodic individual assessment on the recoverability of other receivable and amounts due from related parties based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The Directors believe that there is no significant increase in credit risk of other receivables and amounts due from related parties since initial recognition and the Group provided impairment based on 12m ECL. Impairment loss of approximately HK\$417,000 (2019: Nil) was recognised during the year. Details of the quantitative disclosures are set out below in this note.

Bank balances

Credit risk on bank balances is limited because the counterparties are reputable banks with high credit ratings assigned by international credit-rating agencies. The Group assessed 12m ECL for bank balances by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. Based on the average loss rates, the 12m ECL on bank balances is considered to be insignificant.

The Group's internal credit risk grading assessment comprises the following categories:

Internal credit rating	Description	Trade receivables/ contract assets	Other financial assets
Low risk	The counterparty has a low risk of default and does not have any past-due amounts	Lifetime ECL – not credit-impaired	12m ECL
Watch list	Debtor frequently repays after due dates but usually settle in full	Lifetime ECL – not credit-impaired	12m ECL
Doubtful	There have been significant increases in credit risk since initial recognition through information developed internally or external resources	Lifetime ECL – not credit-impaired	Lifetime ECL – not credit-impaired
Loss	There is evidence indicating the asset is credit impaired	Lifetime ECL – credit-impaired	Lifetime ECL – credit-impaired
Write-off	There is evidence that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written-off	Amount is written-off

Note a: For the purpose of internal credit risk management, the Group use past due information to assess whether credit risk has increase significantly since initial recognition. No other receivables and amounts due from related parties were past due as at 31 March 2020 and 31 March 2019.

Note b: For trade receivables and contract assets, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. Except for credit-impaired balances, the Group determined the ECL on these item by using a provision matrix grouped by past due status.

Provision matrix for trade receivables and contract assets:

As part of the Group's credit risk management, the Group uses debtors' aging to assess the impairment for its customers because these customers consist of a large number of small customers with common risk characteristics that are representative of the customers' abilities to pay all amounts due in accordance with the contractual terms. The following table provides information about the exposure to credit risk for trade receivables and contract assets which are assessed based on provision matrix within lifetime ECL (not credit-impaired). Credit-impaired trade receivables and contract assets with gross carrying amounts of approximately HK\$16,952,000 and approximately HK\$13,123,000 respectively as at 31 March 2020 (2019: approximately HK\$8,834,000 and approximately HK\$9,714,000) were assessed individually.

Gross carrying amount:

	2020		2019	
	Average loss rate	Trade receivables HK\$'000	Average loss rate	Trade receivables HK\$'000
Current (not past due)	0.61%	10,139	1.4%	50,346

	Average loss rate	Contract assets HK\$'000	Average loss rate	Contract assets HK\$'000
Current (not past due)	0.64%	42,269	0.33%	26,942

The estimated loss rates are estimated based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort. The grouping is regularly reviewed by management to ensure relevant information about specific debtors is updated.

As at 31 March 2020, the Group provided approximately HK\$559,000 and approximately HK\$272,000 (2019: approximately HK\$1,385,000 and approximately HK\$88,000) impairment allowance for trade receivables and contract assets respectively, based on the provision matrix. Impairment allowance for credit impaired amounted to approximately HK\$10,957,000 and approximately HK\$11,952,000 (2019: approximately HK\$7,509,000 and approximately HK\$8,256,000) were made for trade receivables and contract assets respectively.

Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Directors, which has built an appropriate liquidity risk management framework to meet the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves and banking facilities.

At 31 March 2020, the Group has available unutilised bank overdraft, business card, and short-term and medium-term loan facilities with an aggregated amount of approximately HK\$9,381,000 (2019: approximately HK\$313,000).

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank loans with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment date.
