CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board (the "Board") of directors (the "Directors") of SG Group Holdings Limited (the "Company", and together with its subsidiaries, the "Group"), I am pleased to present the annual report of the Group for the year ended 30 April 2020 (the "Year") to you.

BUSINESS OVERVIEW

The financial year 2020 is significant to the Group as the shares (the "Shares") of the Company were successfully transferred its listing from GEM to the main board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") (collectively, the "Main Board") on 20 March 2020 (the "Transfer of Listing"). The Directors believe that the Transfer of Listing will be able to attract new institutional investors and broaden the Company's investor base and increase trading liquidity for Shares, which is beneficial to the Company for its continued growth, financing flexibility and business developments.

During the reporting period, the Sino-US trade war (the "Trade War") has weighed on global economic sentiments and trading activities and caused downturn to the global economy. Despite of difficult trading environment, the Group was able to record an increase in its revenue to approximately HK\$257.3 million for the Year, representing an increase of approximately 25.9% as compared to approximately HK\$204.4 million for the year ended 30 April 2019. The increase in revenue of the Group was primarily attributable to the increase in sales generated from two major customers. The Group's total comprehensive income attributable to owners of the Company was decreased to approximately HK\$15.3 million for the Year from approximately HK\$17.6 million for the year ended 30 April 2019, representing a decrease of approximately HK\$2.3 million or 13.1%, which was mainly due to an increase in the recognition of foreign exchanges losses and the provision of impairment loss recognised on trade receivables. There was no significant change of credit risk exposure for the major customers of the Group. As a result of the increase in trade receivables of the major customers of the Group, the Group incurred a credit loss allowance against the trade receivables. If the non-recurring professional fee in relation to the Transfer of Listing of approximately HK\$6.4 million and HK\$5.9 million for the years ended 30 April 2020 and 2019 were excluded respectively, the Group's adjusted total comprehensive income attributable to owners of the Company for the Year would have been approximately HK\$21.7 million, representing a decrease of approximately HK\$1.8 million or 7.7%, as compared to the adjusted total comprehensive income attributable to owners of the Company for the year ended 30 April 2019.

PROSPECTS

The novel coronavirus COVID-19 pandemic ("COVID-19") worldwide since January 2020 caused unprecedented severe challenges and significant uncertainties to the Group's business operations. It is expected that there will be material adverse changes in the financial and operational conditions of the customers, and thus, the demands for the Group's products may drop significantly. The Directors will closely monitor the impacts of the COVID-19 on the Group's business operations and to take appropriate measures to adapt to the challenging environment including but not limited to cost control measures to reduce the adverse impacts on the Group's cash flow and financial resources.

Looking forward, the Group will continue to evaluate the current business strategies and explore suitable business and investment opportunities to create and nurture new profit growth drivers which in time will bring sustainable and stable development to the Group, and in return safeguard the interest of the shareholders of the Company.

NOTE OF APPRECIATION

On behalf of the Board, I would like to extend my sincere appreciation to the Group's management and staff for their commitment and dedication. I would also like to express my deep gratitude to all of our business partners, customers, suppliers and the Shareholders for their continuous support.

SG Group Holdings Limited
Choi King Ting, Charles

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is an apparel designing and sourcing service provider for branded fashion retailers and wholesalers. The revenue for the Year was derived from the supply of apparel products to online fashion retailers and fashion retailers and the provision of consultation services.

Supply of apparel products to branded fashion retailers and wholesalers

The Group's revenue from the segment increased by 27.5% to approximately HK\$254.9 million for the Year from approximately HK\$199.9 million for the year ended 30 April 2019. Such increases were mainly due to the sales generated from two major customers and the increase in quantity of sales orders from existing customers. The Group continuously strengthens its customized comprehensive apparel designing and sourcing services to the customers within a short lead time to secure existing customers and maintaining a growth in revenue.

Consultation services

The Group engaged its business in the provision of consultation services which generated revenue of approximately HK\$2.4 million during the Year as compared to approximately HK\$4.5 million for the year ended 30 April 2019, representing a decrease of approximately 46.7% due to the absence of a non-recurring factory audit from a customer during the Year. This segment mainly includes providing consultation services to apparel and footwear manufacturers by assisting them to comply with the corporate social responsibility standards requirements, providing fashion trend forecast analysis as well as design specification and introducing potential customers to them.

The Shares were successfully Transfer of Listing on 20 March 2020. The Directors consider that Main Board is a premier board on the Stock Exchange and the Transfer of Listing will be able to attract new institutional investors and broaden the Company's investor base and increase trading liquidity for Shares, which is beneficial to the Company for its continued growth, financing flexibility and business developments, and is in the overall interest of the Company as it will create a long-term value to its Shareholders as a whole. In addition, the Board also believes that the Transfer of Listing will (i) enhance the profile and promote market recognition of the Company amongst public investors, its existing and potential customers (such as large apparel brands and sourcing agents of apparel brands) which will, in turn, have a positive impact on its business developments and strengthen the confidence of its stakeholders; (ii) reinforce confidence of existing and potential customers and suppliers in the financial strength, corporate governance and credibility of the Group because in general, Main Board is perceived to be a more prestige status for listed companies and has more stringent requirements for listing as compared to GEM. This might be advantageous for the Group when negotiating contractual terms for its sales and purchases; and (iii) promote the corporate image of the Group, as such, it would be easier to retain and recruit experienced staff and to attract new customers.

FINANCIAL REVIEW

Revenue

The Group's revenue increased by 25.9% to approximately HK\$257.3 million for the Year from approximately HK\$204.4 million for the year ended 30 April 2019. Such an increase in the Group's revenue was mainly due to the increase in quantity of sales orders from existing customers.

MANAGEMENT DISCUSSION AND ANALYSIS

Cost of sales and services

The Group's cost of sales and services primarily consists of cost of goods sold and services provided and other direct costs. The cost of sales and services increased by 28.1% to approximately HK\$197.0 million for the Year as compared to HK\$153.8 million for the year ended 30 April 2019. The cost of sales and services increased along with the growth in revenue for the Year.

Gross profit and gross profit margin

The Group's gross profit increased to approximately HK\$60.3 million for the Year from approximately HK\$50.6 million for the year ended 30 April 2019, representing an increase of approximately 19.2%. The Group's gross profit margin was approximately 23.4% for the Year and approximately 24.8% for the year ended 30 April 2019. The decrease in gross profit margin was mainly due to competitive pricing offered by the Group to major customers in return received a greater portion of purchase orders from its customers, which diluted the effect of sales to other customers with higher gross profit margin by providing fabric supply by Group to two of its approved suppliers.

Other gains and losses

The Group recorded other net gains of approximately HK\$1.1 million for the Year, as compared to other losses of approximately HK\$2.7 million for the year ended 30 April 2019, representing the increase of approximately 140.7%. Such increase was mainly due to the Group recorded other gains on change in fair value of financial assets at fair value through profit or loss ("FVTPL") of approximately HK\$5.2 million, which was set off by the foreign exchange losses on depreciation of Great British Pound ("GBP") of approximately HK\$3.4 million.

Impairment loss of trade receivables, net of reversal

The Group recorded a provision for impairment loss recognised on trade receivables of approximately HK\$4.0 million for the Year from a reversal of impairment loss recognised on trade receivables of approximately HK\$1.4 million for the year ended 30 April 2019. There was no significant change of credit risk exposure for the major customers of the Group. As a result of the increase in trade receivables of the major customers of the Group and the Group had considered the macroeconomic impact of COVID-19 and took into account the forward-looking factor when assessing the expected credit loss on the trade receivables, the Group incurred a credit loss allowance against the trade receivables.

Administrative expenses

Administrative expenses primarily consist of employee benefit expenses, entertainment expenses, travelling expenses, depreciation of property and equipment and right-of-use assets, legal and professional fees and other miscellaneous general and administrative expenses. Administrative expenses increased to approximately HK\$15.9 million for the Year from approximately HK\$10.1 million for the year ended 30 April 2019, representing an increase of approximately 57.4%. The increase was mainly due to the increase of depreciation expenses and staff salaries for the Year.

Selling and distribution expenses

The Group's selling and distribution expenses increased to approximately HK\$16.7 million for the Year from approximately HK\$9.3 million for the year ended 30 April 2019, representing a increase of approximately 79.6%. The increase was mainly due to the increase in agency fee due to a US major customer and staff salaries for the Year.

Professional fee in relation to the Transfer of Listing

The Group recognised approximately HK\$6.4 million non-recurring professional fee in relation to the Transfer of Listing for the year ended 30 April 2020 whilst there was approximately HK\$5.9 million recognised for the year ended 30 April 2019, representing an increase of approximately 8.5%.

MANAGEMENT DISCUSSION AND ANALYSIS

Total comprehensive income attributable to owners of the Company

Total comprehensive income attributable to owners of the Company decreased to approximately HK\$15.3 million for the Year from approximately HK\$17.6 million for the year ended 30 April 2019, representing a decrease of approximately 13.1%. Such a decrease was mainly attributable to the increase of professional fee in relation to Transfer of Listing and the increase in foreign exchange losses as compared to the year ended 30 April 2019. If the non-recurring professional fee in relation to the Transfer of Listing of approximately HK\$6.4 million and HK\$5.9 million for the years ended 30 April 2020 and 2019 were excluded respectively, the Group's adjusted total comprehensive income attributable to owners of the Company for the Year would have been approximately HK\$21.7 million, representing a decrease of approximately HK\$1.8 million or 7.7%, as compared to the adjusted total comprehensive income attributable to owners of the Company for the year ended 30 April 2019.

Basic earnings per Share

The Company's basic earnings per Share for the Year was approximately HK\$0.50 (30 April 2019: HK\$0.57), representing a decrease of approximately HK\$0.07, or approximately 12.3%, which was in line with the profit for the year attributable to owners of the Company for the Year, as compared to that for the year ended 30 April 2019.

LIQUIDITY AND FINANCIAL RESOURCES

During the Year, the Group mainly financed its operations with its own working capital. As at 30 April 2020 and 2019, the Group had net current assets of approximately HK\$90.1 million and HK\$85.0 million, respectively, which include bank balances and cash of approximately HK\$35.1 million and HK\$44.2 million, respectively. The Group's current ratio (that is, current assets divided by current liabilities) increased from approximately 3.4 as at 30 April 2019 to approximately 3.8 as at 30 April 2020. Such an increase was mainly because the increase in trade and other receivables as at 30 April 2020.

Gearing ratio is calculated by dividing total debts by total equity as at the end of the reporting period. The total debts include obligations under finance lease and lease liabilities. The Group's gearing ratio was approximately 0.0186 as at 30 April 2020 (30 April 2019: 0.0003).

TREASURY POLICIES

The Group adopts prudent treasury policies. The Group's management performs an ongoing credit evaluation of the financial conditions of the customers in order to reduce the Group's exposure to credit risk. In addition to these ongoing credit evaluations, the Board closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and commitments can meet its funding requirements.

COMMITMENTS

As at 30 April 2020, the Group had capital commitments contracted for but not provided in the audited consolidated financial statements amounted to approximately HK\$1.7 million (30 April 2019: HK\$1.7 million). Such commitments related to capital expenditure in respect of renovation of a leasehold property and acquisition of intangible asset of the Group.

DIVIDEND

The Board does not recommend the payment of dividend for the year ended 30 April 2020 (30 April 2019: nil).

MANAGEMENT DISCUSSION AND ANALYSIS

MATERIAL ACQUISITIONS OR DISPOSALS OF SUBSIDIARIES AND AFFILIATED COMPANIES

The Group did not have any material acquisitions or disposals of subsidiaries and affiliated companies during the year ended 30 April 2020.

FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

Save as those disclosed in the prospectus dated 28 February 2017 for the listing of Shares of the Company on GEM of the Stock Exchange ("Prospectus"), the Group currently has no other plan for material investments and capital assets.

CONTINGENT LIABILITIES

The Group did not have material contingent liabilities as at 30 April 2020 and 2019.

FOREIGN EXCHANGE EXPOSURE

As at 30 April 2020 and 2019, the Group's exposure to currency risk primarily related to HK\$ and GBP. As HK\$ is pegged to the functional currency of the Group, US\$, the Group does not expect significant exchange rate risk from HK\$. The management of the Group strives to change invoicing currency of sales from GBP to US\$ to minimise exchange rate risk from fluctuations of GBP. The Group has set up a comprehensive foreign currency risk management policy that the Group may adopt to manage the risk it faces. The Group will review such policy from time to time. The Group currently does not undertake any foreign currency hedge.

PLEDGE OF ASSETS

As at 30 April 2020, the Group did not have any leased assets secured by the lessor's title under finance lease (30 April 2019: HK\$0.5 million).

EMPLOYEES AND REMUNERATION POLICIES

The total number of employees were 49 and 44 as at 30 April 2020 and 2019, respectively. The Group's employee benefit expenses mainly include salaries, wages, other staff benefits, contributions to retirement schemes. For the years ended 30 April 2020 and 2019, the Group's total employee benefit expenses (including Directors' emoluments) amounted to approximately HK\$12.2 million and HK\$7.0 million, respectively. Remuneration is determined with reference to market terms and the performance, qualification and experience of individual employee. In addition to basic salary, year-end bonuses would be discretionarily offered to those employees with outstanding performance.

MANAGEMENT DISCUSSION AND ANALYSIS

COMPLIANCE WITH LAWS AND REGULATIONS

The Group mainly carries out its businesses in Hong Kong and the People's Republic of China ("PRC"). To the best of the Directors' knowledge, information and belief, and having made all reasonable enquiries, the Group has complied with all relevant laws and regulations in Hong Kong and the PRC during the Year.

The Group also complies with the requirements under the Company Law (2013 Revision) of the Cayman Islands, the Rules Governing the Listings of Securities on the Stock Exchange (the "Listing Rules") and the Securities and Futures Ordinance, Chapter 571 of the laws of Hong Kong (the "SFO") for the disclosure of information and corporate governance.

ENVIRONMENTAL POLICY

The Group aims to protect the environment by minimising environmental adverse impacts in daily operations, such as energy saving and recycling of office resources. The Group will continue to seek for better environmental practices and promote the right environmental attitudes within the organisation. The Group has complied with all relevant laws and regulations regarding environmental protection, health and safety, workplace conditions and employment.

RELATIONSHIPS WITH STAKEHOLDERS

The Group recognises employees as one of the valuable assets of the Group and the Group strictly complies with the labour laws and regulations in Hong Kong and regularly reviews the existing staff benefits for improvement. Apart from the reasonable remuneration packages, the Group also offers other employee benefits, such as medical insurance.

The Group provides good quality services to the customers and maintains a good relationship with them. The Group keeps a database to directly communicate with recurring customers for developing a long-term business relationship.

The Group also maintains effective communication and develops a long term trust relationship with the suppliers. During the Year, there was no material dispute or disagreement between the Group and its suppliers.

MANAGEMENT DISCUSSION AND ANALYSIS

MANAGEMENT DISCUSSION AND ANALYSIS

USE OF PROCEEDS

The actual net proceeds from Listing on the GEM by way of share offer (the “Share Offer”) on 21 March 2017, after deducting commission and expenses borne by the Company in connection with the Share Offer, were approximately HK\$44.4 million (the “Actual Net Proceeds”), which were higher than the estimated figure as stated in the Prospectus. Thus, the Company plans to apply the Actual Net Proceeds on the same business strategic plans as stated in the Prospectus for the period from the Listing Date to 31 October 2020 (the “Period”) but with monetary adjustments to each business strategic plan on a pro-rata basis. The table below sets out an adjusted allocation and the actual use of the Actual Net Proceeds as at 30 April 2020:

| Business strategies as set out in the Prospectus | Adjusted allocation of the Actual Net Proceeds HK\$'000 | Actual usage of the Actual Net Proceeds as at 30 April 2020 HK\$'000 | Unutilised Actual Net Proceeds as at 30 April 2020 HK\$'000 |
|---|---|--|---|
| Further strengthening the relationships with our existing customers and developing relationships with new customers | 27,464 | 24,558 | 2,906 |
| Further strengthening our design and development capabilities to enhance our business model | 4,703 | 2,886 | 1,817 |
| Expanding the geographical base of the third-party suppliers and diversifying our supplier base | 5,191 | 4,461 | 730 |
| Enhancing our corporate image to attract customer attention | 2,662 | 235 | 2,427 |
| General working capital | 4,392 | 4,392 | – |
| Total | <u>44,412</u> | <u>36,532</u> | <u>7,880</u> |

Reference is made to the update on the use of proceeds on the Group’s 2019 interim report. As at 31 October 2019, the Group has utilised approximately HK\$33.8 million of the Actual Net Proceeds from the Share Offer.

FUTURE PROSPECTS

The Trade War has weighed on global economic sentiments and trading activities and caused downturn to the global economy. The Trade War tensions and disputes seems no sign to an end. Notwithstanding the Group’s customers do not have any preference for sourcing apparel products either from the PRC Approved Suppliers or the non-PRC Approved Suppliers, the Group has been implementing different strategies to mitigate such impact through (i) diversifying its import origins outside the PRC, such as Cambodia and Sri Lanka, and (ii) negotiating with its US customers to keep with the Free on Board (“FOB”) shipping terms.

MANAGEMENT DISCUSSION AND ANALYSIS

The COVID-19 pandemic has caused severe disruption to economic activities worldwide and caused significant uncertainties in the current business environment. Amid the challenges and uncertainties of the COVID-19 pandemic, it is expected that there will be material adverse changes in the financial and operational conditions of the customers, and thus, demands for the Group's products may drop significantly, which could adversely affect the operating results of the Group in the forthcoming year. The Board will continue to assess the impact of the COVID-19 pandemic on the Group's operations and financial performance and closely monitor the Group's exposure to the risks and uncertainties in connection therewith. The Group will take appropriate measures to adapt to the challenging environment when necessary including but not limited to cost control measures to reduce the operating costs of the Group.

Looking ahead, the Group will continue to strengthen its customized comprehensive apparel designing and sourcing services to cater the existing and potential customers' needs. The Group will actively promote its products in various ways including (i) display and promote sample products in showroom in Hong Kong and in the UK during customers' visits; and (ii) e-promotion via online platforms tailored for individual customers. The Directors believe that regular communications with the Group's customers allows the Group to better understand their needs and requirements, which in turn will strengthen the relationships between the Group and its customers.

The Directors will continue to review and evaluate the business objectives and strategies and make timely execution taking into account the business risks and market uncertainties. The Directors will also continue to explore suitable business and investment opportunities to create and nurture new profit growth drivers which in time will bring sustainable and stable development to the Group.

PRINCIPAL RISKS AND UNCERTAINTIES

There are certain other risks involved in the Group's current operations. In particular, the Group relies on several major customers and the Group does not enter into any long-term contracts with the customers and therefore they have no commitment to place future orders with the Group, which exposes the Group to the risk of uncertainty and potential volatility in the Group's revenue. The Group also faces business risks such as (i) customers' reliance on the Group's ability to respond to changes in end consumers' preference in a timely manner; (ii) if there is a significant decrease in the orders from our customers in the UK, the Group cannot guarantee that it would be able to make up the loss of sales from other markets; (iii) the Group operates in a competitive market and the intense competition it faces may lead to a decline in the Group's market share and lower profit margins; (iv) the Group is exposed to credit risk from our customers and the payments may not be collected from our customers in the future; (v) costs increase due to fluctuations in the price, availability and quality of raw materials which could affect the supplies of the Group; and (vi) some of our customers are sensitive to social responsibility and social compliance standards if our approved suppliers have or are perceived to have failed to comply with these standards, our reputation as a design and sourcing service provider could be adversely affected and customers may choose not to continue their business with us.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE

The Company's corporate governance code are based on the principles of the Corporate Governance Code (the "CG Code") as set out in Appendix 14 to the Listing Rules. The Company is committed to ensure a quality board and transparency and accountability to shareholders. The CG Code provision A.2.1 stipulates that the roles of chairman and chief executive should be separated and should not be performed by the same individual. Mr. Charles Choi is the chairman and chief executive officer of the Company, which constitutes a deviation from the code provision A.2.1.

Since Mr. Charles Choi has been operating and managing JC Fashion Group Limited (旺利多時裝集團有限公司), the main operating subsidiary of the Company since its incorporation, the Board believes that it is in the best interest of the Group to have Mr. Charles Choi taking up both roles for effective management and business development. Therefore, the Directors consider that the deviation from code provision A.2.1 of the CG Code is appropriate in such circumstance. The Directors also believe that a balance of power and authority is adequately ensured by the operations of the Board which comprises experienced and professional individuals including three independent non-executive Directors. The Board shall nevertheless review the structure from time to time in light of prevailing circumstances.

The Company complied with all code provisions in the CG Code during the year ended 30 April 2020, save for code provisions A.2.1.

The Board has reserved for its decision and consideration issues in relation to (i) formulating the strategic objectives of the Group; (ii) considering and deciding the Group's significant operational and financial matters, including but not limited to substantial mergers and acquisitions and disposals; (iii) overseeing the Group's corporate governance practices; (iv) ensuring a risk management control system in place; (v) directing and monitoring senior management in pursuit of the Group's strategic objectives; and (vi) determining the remuneration packages of all Directors and the Group's senior management, including benefits in kind, pension rights and compensation payments for loss or termination of their office or appointment. Implementation and execution of Board policies and strategies and the daily administrative matters are delegated to the respective Board committees and the management team of the Company.

The Board will conduct at least four regular Board meetings a year and additional meetings will be held or resolutions in writing signed by all Directors in lieu of a meeting will be arranged as and when required. If a substantial shareholder of the Company or a Director has a conflict of interest in a transaction which the Board determines to be material, it will be considered and dealt with by the Board at a duly convened Board meeting. Comprehensive information on matters to be discussed at the Board meeting will be supplied to the Directors in a timely manner to facilitate discussion and decision making.

COMPOSITION OF THE BOARD

At the date of this report, the Board comprises two executive Directors and three independent non-executive Directors, the name and office of each of the members of the Board and the Board committees of the Company are as follows:

Nomination Committee member

Mr. Choi King Ting, Charles (*Chairman*)
Mr. Yeung Chuen Chow, Thomas
Mr. Cüneyt Bülent Bilâloğlu

Pursuant to the articles of association of the Company (the “Articles”), all Directors were appointed for an initial term of three years. At each annual general meeting, one-third of the Directors for the time being (or, if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office by rotation, provided that every Director shall be subject to retirement by rotation at least once every three years.

The Board composition is regularly reviewed to ensure that it has a balance of skills and experience appropriate for the requirement of the business of the Group. A balanced composition of executive Directors and independent non-executive Directors is maintained to ensure independence and effective management. The Company has satisfied the relevant provision of the Listing Rules in having at least one of the independent non-executive Directors with appropriate professional qualifications or accounting or related financial management expertise. Save as the fact that Mr. Charles Choi is the younger half-brother of Mr. Benny Choi, there is no relationship among the members of the Board.

The appointment of Directors is recommended by the Nomination Committee and approved by the Board based on a formal written procedure and policy for the appointment of new Directors. When selecting potential candidates for the Directors, their skills, experience, expertise, devotion of time and non-conflicts of interests are the key factors.

The daily operation and management of the business of the Group, among other matters, the implementation of strategies, are delegated to the executive Directors. They report periodically to the Board on their work and business decisions.

All Directors have been fully consulted about any matters proposed for inclusion in the agenda for regular meetings. The chairman of the Board has delegated the responsibility for drawing up the agenda for each Board meeting to the company secretary of the Company (the “Company Secretary”).

With the assistance of the Company Secretary, the chairman of the Board seeks to ensure that all Directors are properly briefed on issues arising at the Board meetings and have received adequate and reliable information in a timely manner.

CORPORATE GOVERNANCE REPORT

Notices of at least 14 days are given to the Directors for regular meetings, while the Board papers are sent to the Directors not less than three days before the intended date of a Board or Board committee meeting. With respect to other meetings, the Directors are given as much notice as is reasonable and practicable in the circumstances. The Directors can attend meetings in person or through other means of electronic communication in accordance with the Articles. The Company Secretary ensures that the procedures and all applicable rules and regulations are complied with. Minutes of the Board meetings and meetings of the Board committees are kept by the Company Secretary and are available for inspection at any time on reasonable notice by any Director.

The Directors have full access to information of the Group and are able to obtain independent professional advice whenever they deem necessary. Memorandums are issued to the Directors from time to time to update them with legal and regulatory changes and matters of relevance to the Directors in the discharge of their duties.

Draft minutes are normally circulated to Directors or members of the relevant Board committees for comment within a reasonable time after each meeting.

Any material transaction, which involves a conflict of interests between a substantial shareholder or a Director and the Company, will be considered and dealt with by the Board at a duly convened Board meeting with the presence of the non-executive Directors and the independent non-executive Directors. Directors are abstained from voting and not to be counted in the quorum at meetings for approving transactions in which such Directors or any of their associates have a material interest.

The Company has received from each of the independent non-executive Directors an annual confirmation of their independence pursuant to Rule 3.13 of the Listing Rules. The Company considers that all of the independent non-executive Directors are independent.

Responsibilities

In the course of discharging their duties, the Directors act in good faith, with due diligence and care, and in the best interests of the Company and its shareholders. Their responsibilities include (i) regular board meetings focusing on business strategy, operational issues and financial performance; (ii) monitoring the quality, timeliness, relevance and reliability of internal and external reporting; (iii) monitoring and managing potential conflicts of interest of management, board members and shareholders, including misuse of corporate assets and abuse in connected transaction; and (iv) ensuring processes are in place to maintain the overall integrity of the Company, including financial statements, relationships with suppliers, customers and other stakeholders, and compliance with all laws and ethics.

Director's Responsibilities for the Consolidated Financial Statements

The Directors acknowledge their responsibilities for the preparation of the consolidated financial statements of the Group and ensure that the consolidated financial statements of the Group are in accordance with statutory requirements and applicable accounting standards. The Directors also ensure the timely publication of the consolidated financial statements of the Group. In preparing the accounts for the Year, the Directors have, among other things:

- selected suitable accounting policies and applied them consistently;
- approved adoption of all Hong Kong Financial Reporting Standards which are in conformity with the International Financial Reporting Standards; and
- made judgments and estimates that are prudent and reasonable; and have prepared the accounts on the going concern basis.

CORPORATE GOVERNANCE REPORT

The Directors confirm that, to the best of their knowledge, information and belief, and having made all reasonable enquiries, they are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Group's ability to continue as a going concern.

Board Diversity Policy

The Board has adopted a board diversity policy which sets out the Company's approach to ensuring adequate diversity in its board of directors.

The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance. It is recognised that a Board composed of appropriately qualified people with a broad range of experience relevant to the business is important to the effective corporate governance and sustained commercial success of the Company. The Board adopted a board diversity policy, a summary of which is set out below:

- Consideration and selection of candidates of the Board will be based on merit and contribution that the selected candidates will bring to the Board, which will include, but not limited to, a review of any candidate's integrity, character, industry or related and more general experience, expertise, qualifications, skills and knowledge. All candidates will be considered against objective criteria, with due regard for the benefits of Board diversity.
- Within the overriding emphasis on merit, it will be actively considered the diversity of background and opinion the candidates can bring with the appropriate background, experience, expertise, qualifications, skills and knowledge.
- Aims to achieve an appropriate level of diversity, having regard to a range of perspectives, including but not limited to gender, age, cultural and educational background, ethnicity and length of service.
- Consider the benefits of all aspects of board diversity including, but not limited to, those described above, in order to maintain an appropriate range and balance of background, experience, expertise, qualifications, skills and knowledge, as well as independence of the Board.
- Monitors the implementation of the board diversity policy and the achievement of the measurable objectives for achieving diversity under the policy.
- The Nomination Committee will review the Policy, on a regular basis to ensure its effectiveness. The Nomination Committee will discuss any revisions that may be required in light of changes in circumstances and applicable amendments to the regulatory requirements in force from time to time, and recommend any such revisions to the Board for consideration and approval.

As at the date of this report, the Board comprises five Directors. Three of the Directors are independent non-executive Directors and independent of management, thereby promoting critical review and control of the management process. The Board is also characterised by significant diversity, whether considered in terms of professional background and skills.

Delegation by the Board

The Board has established three committees, namely the Audit and Risk Management Committee, the Remuneration Committee and the Nomination Committee. Specific responsibilities of each committee are described below. All committees have defined terms of reference which are no less exacting than those set out in the CG Code.

CORPORATE GOVERNANCE REPORT

Audit and Risk Management Committee

The Audit and Risk Management Committee was established with written terms of reference in compliance with the CG Code on 21 February 2017 and amended on 27 December 2018 and 16 March 2020. The Audit and Risk Management Committee consists of three independent non-executive Directors, namely Mr. Lai Kwok Hung, Alex, serving as the chairman, Mr. Yeung Chuen Chow, Thomas and Mr. Cüneyt Bülent Bilâloğlu.

The primary responsibilities of the Audit and Risk Management Committee are to (i) oversee the Company's relationship with the external auditor; (ii) review the financial information of the Company; (iii) oversee the Company's financial reporting system, risk management and internal control systems; (iv) oversee the Company's corporate governance function; and (v) perform other duties assigned by the Board. All committee members possess appropriate professional qualifications or accounting or related financial management expertise as required by the Listing Rules.

Subsequent to 30 April 2020 and up to the date of this annual report, a meeting of the Audit and Risk Management Committee was held in which the members review and consider, inter alia, the audited financial statements of the Group for the year ended 30 April 2020 and the re-appointment of independent auditor of the Group. There was no disagreement between the Board and the Audit and Risk Management Committee on the selection and appointment of external auditors.

The Company's financial statements for the Year have been reviewed by the Audit and Risk Management Committee. The Audit and Risk Management Committee considered that the relevant financial statements have been prepared in compliance with the applicable accounting principles and requirements of the Stock Exchange and disclosures have been fully made.

Remuneration Committee

The Remuneration Committee was established with written terms of reference in compliance with the CG Code on 21 February 2017 and amended on 16 March 2020. The Remuneration Committee consists of two independent non-executive Directors, namely Mr. Yeung Chuen Chow, Thomas, serving as the chairman, and Mr. Cüneyt Bülent Bilâloğlu, and one executive Director, namely Mr. Charles Choi.

The primary duties of the Remuneration Committee are to make recommendations to the Board on the Company's policy and structure of all remuneration of Directors and senior management and the establishment of a formal and transparent procedure for developing a policy on such remuneration, assess the performance of executive Directors and approve the terms of executive Directors' service contracts. The Remuneration Committee has duly performed their duties during the year ended 30 April 2020.

The Remuneration Committee and the Board will review the terms of reference of the Remuneration Committee at least annually. The terms of reference of the Remuneration Committee are in line with the requirements of the Listing Rules.

According to the terms of reference of the Remuneration Committee, the Remuneration Committee will make recommendations to the Board about the remuneration of non-executive Directors. In determining the emoluments payable to the Directors, the Remuneration Committee takes into consideration factors such as salaries paid by comparable companies, time commitment, responsibilities and employment conditions elsewhere in the Group.

Subsequent to 30 April 2020 and up to the date of this annual report, a meeting of the Remuneration Committee was held.

CORPORATE GOVERNANCE REPORT

The discretionary bonus paid to the Directors and the five highest paid individuals for the Year were HK\$78,000 and HK\$78,000 respectively. Details of the directors' remuneration and five highest paid individuals for the Year as regarded to be disclosed pursuant to the CG Code are provided in note 11 to the consolidated financial statements.

During the Year, the remuneration of the senior management is listed below by band:

| | Number of individuals |
|--------------------------------|----------------------------------|
| HK\$ nil to HK\$1,000,000 | 4 |
| HK\$1,000,001 to HK\$1,500,000 | 1 |

Nomination Committee

The Nomination Committee was established with written terms of reference in compliance with the CG Code on 21 February 2017 and amended on 27 December 2018 and 16 March 2020. The Nomination Committee consists of two independent non-executive Directors, namely Mr. Yeung Chuen Chow, Thomas and Mr. Cüneyt Bülent Bilâloğlu, and one executive Director, namely Mr. Charles Choi, serving as the chairman.

The Nomination Committee is responsible for (i) reviewing the structure, size and composition (including the skills, knowledge and experience) of the Board, (ii) identifying individuals suitably qualified to become Board members, (iii) assessing the independence of the independent non-executive Directors; and (iv) making recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Director.

The Nomination Committee and the Board will review the terms of reference of the Nomination Committee at least annually. The terms of reference of the Nomination Committee are in line with the requirements of the Listing Rules.

Subsequent to 30 April 2020 and up to the date of this annual report, a meeting of the Nomination Committee was held in which the Nomination Committee members (i) reviewed and considered that the structure, size, diversity and composition of the Board are appropriate; (ii) assessed the independence of independent non-executive Directors; (iii) recommended the re-appointments of Directors, and (iv) recommended the aforesaid matters to the Board for approval.

The Nomination Committee will review the Board composition by considering the benefits of all aspects of diversity, including but not limited to those described under the heading of Board Diversity Policy in this report. The Board Diversity Policy shall be reviewed by the Nomination Committee, as appropriate, to ensure its effectiveness.

Nomination Policy

The Board adopted a nomination policy (the "Nomination Policy") on 27 December 2018. A summary of the Nomination Policy, together with the selection criteria and the nomination procedures made towards achieving those objectives are disclosed below:

CORPORATE GOVERNANCE REPORT

Summary of the Nomination Policy

The Nomination Policy provides the key selection criteria and general principles of the Nomination Committee in making any recommendation on the appointment and re-appointment of the Directors. It aims to ensure that the Board has a balance of skills, experience, knowledge and diversity of perspectives appropriate to the requirements of the Group's business.

Selection criteria

When making recommendation(s) regarding the appointment of any proposed candidate(s) for directorships to the Board or re-appointment of any existing member(s) of the Board, the Nomination Committee shall consider a number of criteria including but not limited to the followings:

- (a) Character and integrity;
- (b) Qualifications including professional qualifications, skills, knowledge and experience and diversity aspects under the Board Diversity Policy that are relevant to the Company's business and corporate strategy;
- (c) Measurable objectives adopted for achieving diversity on the Board;
- (d) Requirements of the Board to have independent directors in accordance with the Listings Rules and whether the candidate would be considered independent with reference to the independence guidelines set out in the Listing Rules;
- (e) Potential contributions he/she will bring to the Board in terms of qualifications, skills, experience, independence and gender diversity;
- (f) Willingness and ability to devote adequate time to discharge duties as a member of the Board and/or Board committee(s) of the Company; and
- (g) Other perspectives that are appropriate to the Company's business and succession plan and where applicable, may be adopted and/or amended by the Board and/or the Nomination Committee from time to time for nomination of directors and succession planning.

The appointment of any proposed candidate to the Board or re-appointment of any existing member(s) of the Board shall be made in accordance with the Articles and other applicable rules and regulations. The progress made towards achieving the objectives set out in the Nomination Policy will be disclosed periodically in the corporate governance report of the Company.

CORPORATE GOVERNANCE REPORT

Nomination procedures

The Nomination Committee will recommend to the Board for the appointment of a Director in accordance with the following procedures and process:

(a) Appointment of new director

- (i) The Nomination Committee and/or the Board may select candidates for directorship from various channels, including but not limited to internal promotion, re-designation, referral by other member of the management and external recruitment agents;
- (ii) The Nomination Committee and/or the Board should, upon receipt of the proposal on appointment of new director and the biographical information (or relevant details) of the candidate, evaluate such candidate based on the criteria as set out above to determine whether such candidate is qualified for directorship;
- (iii) The Nomination Committee should then recommend to the Board to appoint the appropriate candidate for directorship, as applicable;
- (iv) For any person that is nominated by a shareholder for election as a director at the general meeting of the Company, the Nomination Committee and/or the Board should evaluate such candidate based on the criteria as set out above to determine whether such candidate is qualified for directorship;

Where appropriate, the Nomination Committee and/or the Board should make recommendation to shareholders in respect of the proposed election of director at the general meeting.

(b) Re-election of Director at General Meeting

- (i) The Nomination Committee and/or the Board should review the overall contribution and service to the Company of the retiring director and the level of participation and performance on the Board;
- (ii) The Nomination Committee and/or the Board should also review and determine whether the retiring director continues to meet the criteria as set out above;
- (iii) The Nomination Committee and/or the Board should then make recommendation to shareholders in respect of the proposed re-election of director at the general meeting.

Where the Board proposes a resolution to elect or re-elect a candidate as director at the general meeting, the relevant information of the candidate will be disclosed in the circular to shareholders and/or explanatory statement accompanying the notice of the relevant general meeting in accordance with the Listing Rules and/or applicable laws and regulations.

CORPORATE GOVERNANCE REPORT

Review of Nomination Policy

The Nomination Committee will conduct regular reviews on the structure, size and composition of the Board and this Policy and where appropriate, make recommendations on changes to the Board to complement the Company's corporate strategy and business needs.

Attendance of meetings

During the Year, the attendance of each member of the board meetings, general meeting and the above committee meetings are recorded as below:

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding securities transactions by Directors on terms no less exacting than the required standard of dealings set out in Appendix 10 to Listing Rules (the "Model Code"). In response to the specific enquiry made by the Company of the Directors, all Directors have confirmed that they had complied with the required standard of dealings and the code of conduct regarding securities transactions by the Directors adopted by the Company throughout the year ended 30 April 2020.

Pursuant to B.13 of the Model Code, the Directors have also requested any employee of the Company or director or employee of subsidiary of the Company who, because of his/her office or employment in the Company or a subsidiary, is likely to possess inside information in relation to the securities of the Company, not to deal in securities of the Company when he/she would be prohibited from dealing by the Model Code as if he/she were a Director.

CONTINUOUS PROFESSIONAL DEVELOPMENT FOR DIRECTORS

Directors must keep abreast of their collective responsibilities. Before the Listing, each newly appointed Director received training from the legal advisor of the statutory and regulatory obligations of a director of a listed company in Hong Kong. The Directors are continually updated with business and market changes, and legal and regulatory developments to facilitate the discharge of their responsibilities through various Board meetings, resolutions, memoranda, Board papers, and updates on corporate governance practices and director's responsibilities under the Listing Rules, applicable laws and other relevant statutory requirements.

CORPORATE GOVERNANCE REPORT

Up to date of this report, the current Board members participated in the following training programs:

| Name of Directors | Types of training | |
|--|---|---|

DIRECTORS AND OFFICERS INSURANCE

Appropriate insurance covers on directors' and officers' liabilities have been in force to protect the directors and officers of the Group from their risk exposure arising from the business of the Group and, as at the date of this report, the Directors and officers of the Company are indemnified under a directors' and officers' liability insurance against any liability incurred by them in discharge of their duties while holding office as the Directors and officers of the Company. The Directors and officers of the Company shall not be indemnified where there is any fraud, breach of duty or breach of trust proven against them.

RISK MANAGEMENT AND INTERNAL CONTROLS

The Board acknowledges that it is responsible for monitoring the risk management and internal control systems of the Group on an ongoing basis and review their effectiveness. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable but not absolute assurance against material misstatement or loss.

During the Year, the Board, through the Audit and Risk Management Committee, conducted an annual review of both design and implementation effectiveness of the risk management and internal control systems of the Group, which covered all material controls including financial, operational and compliance controls. Such annual review was done with a view to ensuring that resources, staff qualifications and experience, training programmes and budget of the Group's accounting, internal audit and financial reporting functions are adequate. In this respect, the Audit and Risk Management Committee communicated any material issues to the Board.

CORPORATE GOVERNANCE REPORT

There is currently no internal audit function within the Group. The Directors have reviewed the need for an internal audit function and are of the view that in light of the size, nature and complexity of the business of the Group, it would be more cost effective to appoint external independent professionals to perform internal audit function for the Group in order to meet its needs.

During the Year, the Group appointed APEC RISK MANAGEMENT LIMITED (“ARML”) to:

- assist in identifying and assessing the risks of the Group through a series of workshops and interviews; and
- independently perform internal control review and assess effectiveness of the Group’s risk management and internal control systems.

The results of the independent review and assessment were reported to the Audit and Risk Management Committee and the Board. Moreover, improvements in internal control and risk management measures, as recommended by ARML, to enhance the risk management and internal control systems of the Group and to mitigate risks of the Group were adopted by the Board. Based on the findings and recommendations of ARML, as well as the comments of the Audit and Risk Management Committee, the Board considered the internal control and risk management systems are effective and adequate.

Enterprise Risk Management Framework

The Group established its enterprise risk management framework during the Year. While the Board has the overall responsibility to ensure that sound and effective internal controls are maintained, management is responsible for designing and implementing an internal control system to manage all kinds of risks faced by the Group.

Through the risk identification and assessment processes, risks are identified, assessed, prioritised and allocated treatments. The Group’s risk management framework follows the COSO Enterprise Risk Management—Integrated Framework, which allows the Board and management to manage the risks of the Group effectively. The Board receives regular reports through the Audit and Risk Management Committee that oversees risk management and internal audit functions of the Group.

Principal Risks

The Group’s financial condition, results of operations, businesses and prospects would be affected by a number of principal risks including currency risk, interest rate risk, credit risk and liquidity risk. Furthermore, there are certain other risks involved in the Group’s operations which are beyond its control. In particular, the Group relies on several major customers and the Group does not enter into any long term contracts with them and therefore they have no commitment to place future orders with the Group, which exposes the Group to the risk of uncertainty and potential volatility in the Group’s revenue. The Group also faces business risks such as (i) customers’ reliance on the Group’s ability to respond to changes in end customers’ preference in a timely manner; (ii) if there is a significant decrease in the orders from our customers in the UK, the Group cannot guarantee that it would be able to make up the loss of sales from other markets; (iii) the Group operates in a competitive market and the intense competition it faces may lead to a decline in the Group’s market share and lower profit margins; (iv) the Group is exposed to credit risk from our customers and the payments may not be collected from our customers in the future; (v) costs increase due to fluctuations in the price, availability and quality of raw materials which could affect the supplies of the Group; and (vi) some of our customers are sensitive to social responsibility and social compliance standards if our approved suppliers have or are perceived to have failed to comply with these standards, our reputation as a design and sourcing service provider could be adversely affected and customers may choose not to continue their business with us.

CORPORATE GOVERNANCE REPORT

Risk Control Mechanism

The Group adopts a “three-layer” corporate governance structure with (i) operational management and controls performed by operations management, (ii) coupled with risk management monitoring carried out by the finance team, and (iii) independent internal audit outsourced to and conducted by Baker Tilly. The Group maintains a risk register to keep track of all identified major risks of the Group. The risk register provides the Board, the Audit and Risk Management Committee and management with a profile of its major risks and records management’s action taken to mitigate the relevant risks. Each risk is evaluated at least annually based on its likelihood of occurrence and potential impact upon the Group. The risk register is updated at least annually by the management as the risk owners with addition of new risks and/or removal of existing risks, if applicable, after the annual risk evaluation has been performed. This review process can ensure that the Group proactively manages the risks faced so that all risk owners have access to the risk register and are aware of those risks in their area of responsibility and they can adopt follow-up actions in an efficient manner.

The Group’s risk management activities are performed by management on an ongoing basis. The Company has adopted risk management policy and procedures (the “Risk Management Policy”). The effectiveness of the Group’s risk management framework will be evaluated at least annually, and periodic management meeting is held to update the progress of risk monitoring efforts. The management is committed to ensure that risk management forms part of the daily business operation processes in order to align risk management with corporate goals in an effective manner.

The Company will continue to engage external independent professionals to review the Group’s system of internal controls and risk management annually in order to further enhance the Group’s internal control and risk management systems.

RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the consolidated financial statements of the Group and ensure that the preparation of the consolidated financial statements of the Group is in accordance with statutory requirements and applicable accounting standards.

AUDITOR’S REMUNERATION AND RESPONSIBILITIES

The Company has appointed Deloitte Touche Tohmatsu as the Auditor of the Group. For the Year, Deloitte Touche Tohmatsu received HK\$1,100,000 (2019: HK\$1,000,000) for audit services, HK\$300,000 (2019: HK\$630,000) for non-audit service in connection with Transfer of Listing of the Group, HK\$230,000 (2019: HK\$230,000) for non-audit services in connection with the Group’s interim review for the period ended 31 October 2019 and HK\$40,600 (2019: HK\$220,000) for tax advisory services provided respectively. The reporting responsibilities of Deloitte Touche Tohmatsu are set out in the Independent Auditor’s Reports on pages 59 to 64 of this report.

There was no disagreement between the Board and the Audit and Risk Management Committee on the selection and appointment of the external auditors during the Year.

CORPORATE GOVERNANCE REPORT

DIVIDEND POLICY

Under the Dividend Policy, the declaration and payment of dividends shall be determined by the Board and subject to all the applicable requirements under, including but not limited to, the Companies Law of the Cayman Islands and the articles of association of the Company.

The Company do not have any pre-determined dividend payout ratio. In deciding whether to propose a dividend and in determining an appropriate basis for dividend distribution, the Board will take into account, inter alia, the Group's results of operations, cashflows and financial condition, general business conditions and strategies, operating and capital requirements, future prospects, legal and tax considerations and other factors the Board deems appropriate. Our Directors will consider as to whether if there is any material adverse impact on our Group's financial and liquidity position arising out of the dividend payments. Dividends may be paid out by way of cash or by other means that our Group considers appropriate.

The Company will continually review the Dividend Policy from time to time. There is no guarantee that any particular amount of dividends will be distributed for any specific periods.

COMMUNICATIONS WITH SHAREHOLDERS AND INVESTORS

The Company considers that effective communication with its shareholders is essential for enhancing investor relations and investor understanding of the Group's business performance and strategies. The Company also recognises the importance of transparency and timely disclosure of corporate information, which will enable shareholders and investors to make the best investment decisions.

The disclosure of the Group's information in a reasonable and time manner by the Board is to facilitate the shareholders as well as the investors to have a better understanding of the business performance, operations and strategies of the Group.

Our website at www.jcfash.com allows the Company's potential and existing investors as well as the public to get access to and acquire the Company's up-to-date corporate and financial information.

Shareholders are provided with contact details of the Company, such as telephone hotline, email address and postal address, in order to enable them to make any query that they may have with respect to the Company. They can also send their enquiries to the Board through these means. The contact details of the Company are provided in this report, the "Corporate Information" section of this annual report and the Company's website.

The Board welcomes views of shareholders and encourages them to attend general meetings to raise any concerns that they may have with the Board or the management directly. Board members and appropriate senior staff of the Group are available at the meetings to answer any questions raised by shareholders.

CORPORATE GOVERNANCE REPORT

PROCEDURES FOR SHAREHOLDERS TO CONVENE AN EXTRAORDINARY GENERAL MEETING

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SUMMARY AND SCOPE OF REPORT

The Board of Directors of the Group is pleased to present the Environmental, Social and Governance Report (the “Report”) for the year ended 30 April 2020 (the “Reporting Year”). The Report is prepared based on the Environmental, Social and Governance Reporting Guide stated on Appendix 27 of the Listing Rules of the Stock Exchange. The Report summarises principal businesses of the Group in Hong Kong and the Mainland China.

The Group strives to foster sustainable development and undertake corporate responsibility. Therefore, while the Group actively develops and seeks opportunities, it also takes into consideration factors including environment, society and ethics so as to ensure the Group can achieve a balance between business development, social demand and environmental impacts. The Group also values major concerns of our stakeholders (including but not limited to customers, investors, shareholders, suppliers, employees and other organisations), aiming to maximise profits for shareholders while protecting interests of our stakeholders. The Group will maintain close communications with stakeholders on topics regarding environment and society as well as solutions to identify potential issues on sustainable development and to satisfy expectations and demands from various stakeholders.

In addition to enhancing our values of sustainable development, policies and core competency, the Group endeavors to provide quality services and maintain close contacts with customers, which enables the Group to gain a better understanding of their needs and preferences for us to offer customised value-added services. In the course of preparing the Report, the Group conducted thorough review and assessment towards our existing environmental and social policies the aim of achieving better performance in aspects of environment, social, corporate governance and operation in the future.

In order to achieve sustainable development, the Group has adopted the following strategies:

1. achieving environmental sustainability;
2. respecting human rights and community culture;
3. maintaining communications with stakeholders;
4. supporting employees and providing a friendly working environment;
5. sustaining local community development;
6. strengthening our commitment to customers.

The Report was approved by the board of directors on 30 July 2020.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENT

Overview

The Group acts as a supplier for apparel designing, sourcing services for branded fashion retailers and wholesalers and provides consultation services. Since the Group's business is not directly involved in textile manufacturing, existing and potential impact from the Group's principal business on the environment is insignificant. The Group recognises the importance of environmental protection to the long term success of the Group. Therefore, the Group's objective is to minimise the adverse effect to environment by applying various environmental protection measures to our operating activities. The Group has established an internal culture to encourage all of our staff to participate in energy conservation and environmental protection with a view to achieving energy conservation and emission reduction during our daily operations in order to ensure a balance between sustainable corporate development and environmental protection.

Compliance and Penalties

The Group has been in compliance with the laws and regulations that have a significant impact on it in relation to air and greenhouse gas ("GHG") emissions, discharges into water and land, and generation of hazardous and non-hazardous waste, including but not limited to the Environmental Protection Law of the People's Republic of China and Regulation on Urban Drainage and Sewage Treatment of the People's Republic of China in Mainland China as well as the Air Pollution Control Ordinance and Waste Disposal Ordinance in Hong Kong.

The Group was not aware of any non-compliance or penalties in respect of environmental laws and regulations during the Reporting Year.

Emissions

Currently, the Group does not have any related policies on air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste. However, the Group's business is not directly involved in textile manufacturing, therefore we have limited production of hazardous waste and waste water during our daily operations. We continue to strive to minimise the amount of non-hazardous waste produced from our daily operations.

As the Group has one electric car that does not utilise fuel which directly produces air pollutants, its emissions are relatively low. There is no substantial air pollutant emission in the ordinary course of operation. Therefore, no data was recorded in relation to air pollutants arising from fuel consumption or water pollutants during the Reporting Year.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

In respect of GHG emissions, the emissions directly attributable to businesses owned or controlled by the Group are relatively low. Indirect GHG emissions caused by the Group are primarily attributable to purchased electricity and business trips. The Group's purchased electricity leads to indirect GHG emissions in the course of electricity generation by the power company. In addition, as the Group considers the United Kingdom and Europe its major markets, employees would have to travel by air to provide customers with design and consultancy services, resulting in indirect GHG emissions due to aircraft fuel consumption. Statistics in respect of consumption of purchased electricity and GHG emissions arising from air travel in the course of operation during the Reporting Year are set out below:

| Type of GHG emissions | Equivalent CO ₂ emission (tonne) 2020 | Equivalent CO ₂ emission (tonne) 2019 |
|--|--|--|
| Scope 1 Direct emissions | N/A | N/A |
| Scope 2 Indirect emissions ² | 34.66 | 57.32 |
| Scope 3 Other indirect emissions | 8.89 | 7.80 |
| Total | 43.55 | 65.12 |
| Intensity (tonne/Revenue HK\$'000) | 0.00017 | 0.00032 |

Note:

The calculation of the greenhouse gas is based on the "Corporate Accounting and Reporting Standard" from greenhouse gas protocol.

Scope 1: Direct emissions from vehicles that are owned by the Group

Scope 2: Indirect emissions from the generation of purchased electricity consumed by the Group

Scope 3: Other indirect mission is not controlled by the Group which mainly included business trip by air travel

The Group promotes electricity preservation among employees to reduce electricity consumption and indirect GHG emissions. Electricity consumption mainly arises from daily operation of office for the on-going operation of air-conditioning system, lighting system, and electronic equipment in the office, etc. With a view to reducing electricity consumption, electronic equipment with lower electricity consumption is preferred during procurement; average room temperature shall be maintained within a required range; lighting equipment and electronic appliances are switched off during lunch hour and after work to reduce the electricity consumption by air-conditioning equipment. Furthermore, the Group is committed to decreasing the number of business trips. When dealing with simple enquiries from foreign customers, we prefer to provide design and consultancy services through video conference so as to lower the number of air travels.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Group produces minimal harmful waste in its daily operation. Thus, no data was recorded in relation to harmful waste during the Reporting Year. Furthermore, harmless waste produced by the Group mainly includes ordinary office waste, such as used stationery and paper. The Group advocates conservation and environmental protection and promotes recycling of reuseable items. It reminds employees to reduce harmless waste arising from daily work and avoid paper use by delivering digital file through e-mail. The Group adopts electronic communication software as its principal channel of contact during daily operation. All internal notice is issued through e-mail instead of printing. The Group also implements double-sided printing to utilise resources more efficiently. We opt for refillable types of office stationery as far as possible and avoid straight replacement of stationery items.

Statistics in respect of office waste paper generated in the course of operation during the Reporting Year set out below:

| | Amount (kg) 2020 | Amount (kg) 2019 |
|---------------------------------|-----------------------------------|---------------------|
| Non-hazardous waste | 347.50 | 860.00 |
| Intensity (kg/Revenue HK\$'000) | 0.0014 | 0.0042 |

USE OF RESOURCES

The Group places high priority on the efficient use of resources. The Group's business operations do not require much resources and our office staff only consume a limited amount of electricity and water. The Group strives to improve the efficient use of natural resources by adopting various practical measures to reduce the use of natural resources (thus in turn reduce emissions) as mentioned in section "Emissions" in this Report.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Statistics in respect of the consumption of purchased electricity in the course of our operation during the Reporting Year set out below:

| | Amount (kWh) | Amount (kWh) |
|----------------------------------|---------------------|--------------|
| | 2020 | 2019 |
| Electricity ² | 42,119.19 | 68,506.15 |
| Intensity (kWh/Revenue HK\$'000) | 0.16 | 0.34 |

We had not experienced any issue when sourcing suitable water. The current water supply is sufficient to meet our daily operation needs. Our water usage during usual course of operation was mainly for the daily consumption of office. For conservation of water resource, the Group urges its office staff to save water and make sure water taps are properly turned off and to avoid unnecessary waste of drinking water. Water consumption of each unit for the Reporting Year is set out below:

| | Amount (m³) | Amount (m ³) |
|--|-------------------------------|--------------------------|
| | 2020 | 2019 |
| Water ² | 358.25 | 1,621.85 |
| Intensity (m ³ /Revenue HK\$'000) | 0.0014 | 0.0079 |

In respect of packaging materials, as the Group's businesses do not involve direct weaving, manufacturing and packaging, packaging materials generated in the ordinary course of operation are limited. Therefore, no relevant data is recorded during the Reporting Year.

¹ The area includes all office locations in Hong Kong and Shenzhen.

² As the electricity charges and water charges of the Group's office premises in Shenzhen were included in the rent, the electricity consumption data in relation to purchased electricity/water consumption data is calculated based on the total electricity consumption/water consumption of the units multiplied by the area ratio of the office premises in Shenzhen. Since the electricity charges and water charges of the units in Hong Kong were included in the management fee, the landlord was unable to provide the relevant data in last year.

Environment and Natural Resources

The Group has always been committed to the principle of environment and natural resources protection in the course of operations, by undertaking not to cause significant effect to the environment and over-consumption of natural resources. The Group's environmental protection approach focuses on (i) recycling of reusable materials; (ii) reducing utilisation of non-reusable materials; and (iii) disposal of materials that are no longer reusable.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

SOCIETY

The Group builds close and trustworthy relationship with our staff through a people-oriented philosophy and innovative management. The Group attaches great importance to our staff and considers them as company's important assets. We provide a reasonable and satisfactory remuneration and benefit system to each employee. In addition, the Group has also offered the staff with safe and healthy working environment, related training for staff as well as building a working environment filled with cooperative and friendly staff.

Employment

The Group strictly abides by the labour laws and related regulations in Hong Kong and the Mainland China, including but not limited to the Employment Ordinance in Hong Kong and the Labour Law of the People's Republic of China and the Labour Contract Law of the People's Republic of China in the Mainland China and complies Staff Instructions and Policies and Procedures for Human Resources and Administration Department based on these regulations which includes information ranging from recruitment, promotion, remuneration, dismissal, working hours, holidays, equal opportunities, diversity, anti-discrimination to other employment packages and benefits. Staff Instructions is provided to all employees upon recruitment to ensure employees are aware of their duly rights and obligations. Employment contract that specifies the rights and obligations of both parties is also entered between the Group and each one of the new recruits for the sake of the mutual interests of parties.

The recruitment and promotion procedures of the Group is not biased based on factors such as age, gender, race, colour and religious belief. All applicants and employees are treated equally. We employ people by open recruitment and place individual competency as our major consideration. Meanwhile, the Group has zero tolerance towards any form of discrimination or harassment in the workplace. If any discriminational or harassing behaviour is found, we will take actions accordingly. We strive to create a stable, diverse, tolerating, harassment-free, discrimination-free and peaceful workplace and offer handsome salaries and benefits to attract and retain talents.

Employees are the most valuable assets of the Group. Therefore, the Group strives to provide a sound working environment for its employees. In order to enhance communication between employees and foster harmonious working atmosphere, the Group holds staff gatherings on a regular basis. In addition, the Group also encourages its employees to maintain work-life balance by actively planning additional staff activities, including badminton matches, hiking, festival celebrations and overseas trips.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Year, the Group strictly follows labour laws and relevant regulations of Hong Kong and the Mainland China.

HEALTH AND SAFETY

The business operations of the Group do not involve high-risk activities. Nevertheless, the Group attaches great importance to occupational safety, hygiene and health of our employees. The Group strictly complies with relevant regulations on occupational health and safety including but not limited to the Occupational Safety and Health Ordinance in Hong Kong, and makes all efforts to build a safe and comfortable working environment for our employees.

As employees often remain in a writing or computer-operating position for long periods of time during office hours, they may suffer from resulting muscle strains which affect mental state at work and reduce productivity due to wrong sitting postures. Hence, the Group urges employees to properly arrange their schedule at work and take regular naps as well as do stretching and relaxing exercises so as to mitigate fatigue. Moreover, in order to improve physical and mental health of employees, the Group regularly held discussions with employees on organising outdoor events and encourages active participation from employees.

As for insurance, in addition to employee compensation insurance, the Group also provides medical insurance and additional benefits.

During the Reporting Year, the Group did not record work-related injury or fatality of employees, nor any lost days due to work injury.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

DEVELOPMENT AND TRAINING

Nurturing talents is a key factor of the Group's advancement. The Group firmly believes that trainings help improve competency of staff and facilitate all-rounded personal development. Therefore, the Group spares no efforts in the aspects of development and training. For example, for employees who attend courses or participate in seminars related to their professions, the Group will bear relevant fees and expenses for development and training. The Group is always improving in-house training schemes, and provides related internal trainings, including sales techniques, methods for communication with clients and fashion sense, so as to enhance knowledge and skills of employees required for their positions. The Group also encourages employees to set up personal development goals and foster growth alongside the Group.

Meanwhile, the Group plans to arrange external trainings for employees with the aim of improving competency, work skills, expertise and performance of employees. It is also the Group's intention to provide specialised trainings on working functions according to employees' duties and responsibilities, which include human resource management, risk management, finance and audit, environmental protection, occupational health and safety.

Below is a detailed breakdown of the percentage of employees trained by gender and employment category during the Reporting Year for 2020 and 2019:

LABOUR STANDARDS

For the prevention of child labour and forced labour, the Group implements strict requirements for employee selection. Policies and procedures of the human resources and administration department set out points to note during our recruitment process. The Group conducts due investigation on applicants and verifies their personal information to ensure the legality of their employment and the absence of child labour or forced labour. The Group does not consider any under-aged applicants, as well as applicants who cannot provide relevant identification documents.

If any employment of child labour and forced labour were found by the management, we will terminate relevant labour contract with immediate effect and make investigation as well as take disciplinary action against responsible person.

During the Reporting Year, the Group did not record any incident of child labour or forced labour.

SUPPLY CHAIN MANAGEMENT

The Group exercises stringent control and management over the supply chain. Currently, we have set down policies and guidance in writing, namely the selection criteria for suppliers, and prudently select and continuously monitor approved suppliers. During the Reporting Year, the Group had a total of approximately 305 suppliers (2019: 109), of which 20 are from Hong Kong (2019: 25), 283 are from the Mainland China (2019: 83) and 2 are from Sri Lanka (2019: 1).

The Group puts great weight on product quality and compliance of approved suppliers. Our quality inspection department conducts on-site inspection at suppliers' factories and carries out quality control on products so as to ensure compliance of products with the Group's standards. Moreover, in order to ensure operations of suppliers comply with relevant ethics standards, e.g. health and safety, labour standards and environment protection, the Group will, upon request of our customers, engage firms specialising in the provision of verification, testing and certification to perform Sedex Members Ethical Trade Audit ("SMETA"). The Group will purchase from relevant specified suppliers only if our customers are satisfied with the audit results of such potential suppliers.

For approved suppliers who fail to comply with laws and regulations, product quality or safety requirement, the Group will demand rectification from them and take follow-up measures to inspect and ensure that rectification measures are duly performed by such approved suppliers. Upon completion of rectification by the suppliers, the Group will conduct reassessment and proceed to purchase from them only after actual improvements are witnessed.

In addition, we analyse and assess approved suppliers' experience, reputation, technology, financial strength, human resources, efficiency, quality control efficiency and code of ethics in the garment industry so as to select the most suitable approved suppliers.

PRODUCT RESPONSIBILITY

The Group has issued a set of written guidelines for testing and inspection of product quality known as “Policy and Procedures for the Quality Control Department” (質檢部政策及流程). As the Group is a design and procurement service provider, a product will be forwarded to an authorised supplier for mass production only after the Group received confirmation from our customer on the design, safety and health of the materials being used, sample pattern/format and labelling of the relevant product. The quality control department of the Group is responsible for the strict selection and oversight of the authorised suppliers. Inspectors will be sent to the facilities of the suppliers to conduct inspection on raw materials, work-in-progress and finished products on a sampling basis, so as to give assurance that the apparel products meet our standard and the requirements of our customers.

Generally speaking, the responsibility regarding product quality to be borne by the Group is limited to claims made by customers with regards to any defects in a product. Upon receiving a complaint or claim from a customer regarding any product defects, the Group will investigate and try to establish the reasons for such defects. If it is determined that a claim made by a customer is the fault of an authorised supplier, the Group may then file a claim against the subject authorised supplier and thereby passing the risk in product responsibility onto such authorised supplier.

During the Reporting Year, the Group did not conduct any product return exercises for safety or health reasons.

No advertisement is placed by the Group for our products in the course of our operations. In view of protecting the privacy and personal data of our customers, the Group has set forth the staff’s code which stipulates that an employee must not leak or make public any information from the Group whether during his/her employment or after termination of employment. Confidentiality agreement is also entered into by the Group and each of our authorised suppliers, pursuant to which an authorised supplier is required to keep information, such as data of customer and product design, in confidence and shall not disclose it to a third party without prior written consent of the Group.

During the Reporting Year, no complaints concerning leakage of customer’s information were received by the Group.

The Group has also put in place a mechanism to handle opinions and complaints. In case there are any comments from any customers, suppliers or any other stakeholders regarding the Group, comments may be filed directly to us, and they will be handled by the Group accordingly.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

PREVENTION OF BRIBERY, EXTORTION, FRAUD AND MONEY LAUNDERING

The Group is in compliance with the laws and regulations on prevention of bribery, extortion, fraud and money laundering in Hong Kong and the Mainland China, including but not limited to the Prevention of Bribery Ordinance (Cap 201 of the Laws of Hong Kong), the SFO and the Guideline on Anti-Money Laundering and Counter-Terrorist Financing issued by the Securities and Futures Commission in Hong Kong and Criminal Law of the People's Republic of China in the Mainland China. Employees of the Group are required to strictly observe and comply with the above laws and regulations to prevent any acts of bribery, extortion, fraud and money laundering from taking place.

For protection of the Group's interest, the Group has set forth in its staff's code the required conducts of our employees as well as policies on prevention of bribery, extortion, fraud and money laundering. For instance, when an employee receives a gift or red pocket from a supplier or any party associated with the Group, he/she shall report the case to the administration department immediately. Any gift or red pocket to employee with monetary value of over HK\$500 is strictly prohibited by the Group.

Furthermore, any complaints and accusations of non-compliance of the rules from employees can be reported directly to the personnel and administration department. In case the subject of such report is the personnel and administration department itself, the employee should directly report the case to the general manager. The Group will conduct an investigation into the case and will handle it in a fair and just manner.

During the Reporting Year, the Group was not involved in any litigations relating to matters of bribery, extortion, fraud or money laundering.

COMMUNITY INVESTMENT

The Group strives to support the development of community and extend our care to the socially-disadvantaged groups by committing to taking care and educating homeless children and other disadvantaged youth as well as to contribute to growth and development of the region. The Group recognises the moral principle of "what is taken from the people shall be used for the benefit of the people" and has been taking initiatives to give back to the society and share the fruit of our business operations with the community. The Group supports various charity activities, mainly through donations. The majority of our donations are made to all-round development of teenagers.

In last year, the Group made a donation in a total of approximately HK\$5,960 to Bosco Charity Association Limited (2020: Nil).

REPORT OF THE DIRECTORS

The Directors submit their report together with the audited consolidated financial statements of the Group for the Year.

PRINCIPAL ACTIVITIES

The Company acts as an investment holding company and provides corporate management services. The Group is principally engaged in supply of apparel products to online fashion retailers and fashion retailers and the provision of consultation services.

RESULTS AND DIVIDEND

Details of the audited consolidated results of the Group for the Year are set out in the consolidated statement of profit or loss and other comprehensive income on page 65 of this annual report.

The Board does not recommend the payment of a final dividend for the Year and propose that the profit for the Year be retained.

BUSINESS REVIEW

A discussion and analysis of the Group's performance during the Year, the key factors affecting its results and financial position, and the information on the compliance with laws and regulations, environmental policy and relationships with stakeholders are set out in the section headed "Management Discussion and Analysis" of this annual report. Furthermore, a fair review of, and an indication of likely future development in the Group's business are set out in the sections headed "Chairman's Statement" and "Management Discussion and Analysis" of this annual report. Save as disclosed in this annual report, since the end of the Year, no important event affecting the Group has occurred.

COMPLIANCE WITH LAWS AND REGULATIONS

The Group mainly carries out its businesses in Hong Kong. To the best of the Directors' knowledge, information and belief, and having made all reasonable enquiries, the Group has complied with all relevant laws and regulations in Hong Kong for the Year.

The Group also complies with the requirements under the Companies Law (2013 Revision) of the Cayman Islands, the Listing Rules and the SFO for the disclosure of information and corporate governance.

REPORT OF THE DIRECTORS

PRINCIPAL RISKS AND UNCERTAINTIES

The Group's financial condition, results of operations, businesses and prospects would be affected by a number of principal risks including currency risk, interest rate risk, credit risk and liquidity risk. The risk management policies and practices of the Group are shown in note 32 to the consolidated financial statements.

Furthermore, there are certain other risks involved in the Group's operations which are beyond its control. In particular, the Group relies on several major customers and the Group does not enter into any long term contracts with them and therefore they have no commitment to place future orders with the Group, which exposes the Group to the risk of uncertainty and potential volatility in the Group's revenue. The Group also faces business risks such as (i) customers' reliance on the Group's ability to respond to changes in end customers' preference in a timely manner; (ii) if there is a significant decrease in the orders from our customers in the UK, the Group cannot guarantee that it would be able to make up the loss of sales from other markets; (iii) the Group operates in a competitive market and the intense competition it faces may lead to a decline in the Group's market share and lower profit margins; (iv) the Group is exposed to credit risk from our customers and the payments may not be collected from our customers in the future; (v) costs increase due to fluctuations in the price, availability and quality of raw materials which could affect the supplies of the Group; and (vi) some of our customers are sensitive to social responsibility and social compliance standards if our approved suppliers have or are perceived to have failed to comply with these standards, our reputation as a design and sourcing service provider could be adversely affected and customers may choose not to continue their business with us.

Other risks facing by the Group are set out in the section headed "Risks relating to the business of the Group" of the announcement relating to the Transfer of Listing dated 11 March 2020 (the "Transfer Announcement").

REPORT OF THE DIRECTORS

Gross profit margin

The Group's gross profit increased to approximately HK\$60.3 million for the Year from approximately HK\$50.6 million for the year ended 30 April 2019, representing an increase of approximately 19.2%. The Group's gross profit margin was approximately 23.4% for the Year and approximately 24.8% for the year ended 30 April 2019. The decrease in gross profit margin was mainly due to competitive pricing offered by the Group to major customers in return received a greater portion of purchase orders from its customers, which diluted the effect of sales to other customers with higher gross profit margin by providing fabric supply by Group to two of its approved suppliers.

Net profit margin

For the year ended 30 April 2020, the Group's net profit margin was approximately 6.2%.

Return on equity

The Group's return on equity was approximately 12.2% and 16.1% for the year ended 30 April 2020 and 2019, respectively. This was mainly due to decrease in net profit and increase in total equity of approximately HK\$15.1 million, or 13.8% from approximately HK\$109.8 million as at 30 April 2019 to approximately HK\$124.9 million.

Return on assets

The Group's return on assets decreased from approximately 12.1% for the year ended 30 April 2019 to approximately 9.6% for the year ended 30 April 2020. This was mainly due to decrease in net profit due to (i) the increase of professional fee in relation to Transfer of Listing and (ii) the increase in foreign exchange losses as compared to the year ended 30 April 2019.

Current ratio

The Group's current ratio (that is, current assets divided by current liabilities) increased from approximately 3.4 as at 30 April 2019 to approximately 3.8 as at 30 April 2020. Such increase was mainly because the increase in trade and other payables as at 30 April 2020.

Gearing ratio

The Group's gearing ratio was approximately 0.0186 as at 30 April 2020 (30 April 2019: 0.0003).

(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of SG Group Holdings Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 65 to 133, which comprise the consolidated statement of financial position as at 30 April 2020, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 30 April 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSAs”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS (CONTINUED)

Key audit matter

Revenue recognition on supply of apparel products

We identified the recognition of revenue pertaining to the supply of apparel products to fashion retailers as a key audit matter due to the significance of the amount contributed to total revenue as disclosed in the consolidated statement of profit or loss and other comprehensive income. The judgement on the point of revenue recognition by the management is significant.

Revenue from the supply of apparel products is recognised when the customer obtains the control of the apparel products, being when the apparel products are delivered to the customers at the designated location and the control has passed to the customers. The accounting policy for revenue recognition is disclosed in note 3 to the consolidated financial statements.

The Group recognised revenue from the supply of apparel products of HK\$254,921,000 for the year ended 30 April 2020, which is disclosed in note 5 to the consolidated financial statements.

How our audit addressed the key audit matter

Our procedures in relation to revenue recognition on supply of apparel products included:

- Obtaining an understanding of the Group's revenue business process on supply of apparel products and the key controls over revenue recognition on supply of apparel products performed by the management;
- Testing the key controls over revenue recognition from contracts with customers on supply of apparel products;
- Sampling the contracts with customers on supply of apparel products and evaluating the content of the contracts with reference to Hong Kong Financial Reporting Standard 15 "Revenue from Contracts with Customers";
- Applying regression analysis technique to identify any unusual patterns of revenue on supply of apparel products for the year and, inquiring of management and evaluating the management's response to any unusual patterns identified pertaining to revenue on supply of apparel products identified;
- Agreeing the details of a sample of revenue transactions on supply of apparel products to the corresponding supporting documents such as invoices, bills of lading and acknowledgements of receipt;

KEY AUDIT MATTERS (CONTINUED)

Key audit matter

Impairment assessment of trade receivables

We identified impairment assessment of trade receivables as a key audit matter due to the significance of trade receivables to the Group's consolidated financial position and the involvement of subjective judgement and management estimates in evaluating the expected credit losses ("ECL") of the Group's trade receivables at the end of the reporting period.

As at 30 April 2020, the Group's net trade receivables amounting to approximately HK\$59,196,000 which represented approximately 37% of total assets of the Group.

As disclosed in note 4 to the consolidated financial statements, the management of the Group estimates the amount of lifetime ECL of trade receivables individually. The provision rates are based on external credit ratings considering the individual debtor's historical default rate, adjusted with considering forward-looking information that is reasonable and supportable available without undue costs or effort that are specific to each debtor.

As disclosed in note 32 to the consolidated financial statements, the Group had impairment loss of trade receivables, net of reversal, of approximately HK\$3,989,000 for the year ended 30 April 2020.

How our audit addressed the key audit matter

Our procedures in relation to impairment assessment of trade receivables included:

- Understanding key controls on how the management estimates the loss allowance for trade receivables;
- Testing the accuracy of information used by management in determining credit loss allowance, including trade receivables ageing analysis as at 30 April 2020, on a sample basis, by comparing individual items in the analysis with the relevant sales agreements, sales invoices and other supporting documents;
- Discussing with the management and assessing the reasonableness of the management's basis and judgement in determining credit loss allowance on trade receivables as at 30 April 2020, including their identification of credit impaired trade receivables and the basis of estimated loss rates applied in each individual (with reference to historical default rates and forward-looking information); and
- Evaluating the disclosures regarding the impairment assessment of trade receivables in note 32 to the consolidated financial statements.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Del Rosario, Faith Corazon.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 APRIL 2020

1. GENERAL

SG Group Holdings Limited (the “Company”) was incorporated and registered as an exempted company with limited liability in the Cayman Islands under the Companies Law, Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands on 8 October 2015. The ordinary shares of the Company was listed on GEM of The Stock Exchange of Hong Kong Limited in 2017. On 20 March 2020, the ordinary shares of the Company transferred and listed on the main board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

In the opinion of the directors, the immediate and ultimate holding company is JC Fashion International Group Limited which was incorporated in the British Virgin Islands (“BVI”). Its ultimate controlling party is Mr. Choi King Ting Charles (“Mr. Charles Choi”) who is also a director and the chief executive of the Company.

The registered office of the Company is situated at 4th Floor, Harbour Place, 103 South Church Street, P.O. Box 10240, Grand Cayman, KY1-1002, Cayman Islands.

The address of the head office and the principal place of business of the Company is Unit B, 9/F., Mai Wah Industrial Building, 1-7 Wah Sing Street, Kwai Chung, New Territories, Hong Kong. The Company is an investment holding company. The Company and its subsidiaries (collectively referred to as the “Group”) are principally engaged in the supply of apparel products with design and sourcing services to fashion retailers and the provision of consultation services.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”), which is different from the functional currency of the Company, being United States dollars (“US\$”). The directors of the Company consider that presenting the financial information in HK\$ is preferable as the principal place of business of the Company and its principal subsidiaries are in Hong Kong.

The COVID-19 pandemic has caused severe disruption to economic activities worldwide during the year and had further spread out after the year ended 30 April 2020 and caused significant uncertainties in the current business environment. The directors of the Company considered the COVID-19 had no material impact to the Group’s revenue and operation during the year ended 30 April 2020. The directors has assessed the impact of COVID-19 on the Group’s business operation subsequently after year end and given the inherent unpredictable nature and uncertainties of COVID-19 pandemic and its pervasive impact, there may be material adverse changes in the financial and operational conditions of the Group’s customers, which leads to the demands for the Group’s products drop significantly, resulting the Group’s business could be affected to a different extent in the future and the directors of the Company will closely monitor in this regard.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 APRIL 2020

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

New and amendments to HKFRSs that are mandatorily effective for the current year

The Group has applied the following new and amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time in the current year:

| | |
|-----------------------|--|
| HKFRS 16 | Leases |
| HK(IFRIC) – Int 23 | Uncertainty over Income Tax Treatments |
| Amendments to HKFRS 9 | Prepayment Features with Negative Compensation |
| Amendments to HKAS 19 | Plan Amendment, Curtailment or Settlement |
| Amendments to HKAS 28 | Long-term Interests in Associates and Joint Ventures |
| Amendments to HKFRSs | Annual Improvements to HKFRSs 2015-2017 Cycle |

Except as described below, the application of the new and amendments to HKFRSs in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

2.1 HKFRS 16 “Leases”

The Group has applied HKFRS 16 “Lease” (“HKFRS 16”) for the first time in the current year. HKFRS 16 superseded HKAS 17 “Leases” (“HKAS 17”), and the related interpretations.

Definition of a lease

The Group has elected the practical expedient to apply HKFRS 16 to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 “Determining whether an Arrangement contains a Lease” and not apply this standard to contracts that were not previously identified as containing a lease. Therefore, the Group has not reassessed contracts which already existed prior to the date of initial application.

For contracts entered into or modified on or after 1 May 2019, the Group applies the definition of a lease in accordance with the requirements set out in HKFRS 16 in assessing whether a contract contains a lease.

2.1 HKFRS 16 “Leases” (continued)

As a lessee

For leases previously classified as finance leases, the carrying amount of the right-of-use asset and the lease liability at the date of initial application is the carrying amount of the lease asset and lease liability immediately before that date measured applying HKAS 17. For those leases, the Group accounted for the right-of-use assets and the lease liabilities by applying HKFRS 16 from the date of initial application.

The Group has applied HKFRS 16 retrospectively with the cumulative effect recognised at the date of initial application, 1 May 2019. As at 1 May 2019, the Group recognised additional lease liabilities and right-of-use assets as at the date of initial application, at the carrying amounts as if HKFRS 16 had been applied since commencement dates, but discounted using the incremental borrowing rates of the relevant group entities by applying HKFRS 16.C8(b)(i) transition. Any difference at the date of initial application is recognised in the opening retained profits and comparative information has not been restated.

When applying the modified retrospective approach under HKFRS 16 at transition, the Group applied the following practical expedients to leases previously classified as operating leases under HKAS 17, on lease-by-lease basis, to the extent relevant to the respective lease contracts:

- i. relied on the assessment of whether leases are onerous by applying HKAS 37 “Provisions, Contingent Liabilities and Contingent Assets” as an alternative of impairment review;
- ii. elected not to recognise right-of-use assets and lease liabilities for leases with lease term ends within 12 months of the date of initial application; and
- iii. excluded initial direct costs from measuring the right-of-use assets at the date of initial application.

When recognising the lease liabilities for lease previously classified as operating lease, the Group has applied incremental borrowing rates of the relevant group entity at the date of initial application. The incremental borrowing rate applied by the relevant group entity is 7.00%.

New and Amendments to HKFRSs that are mandatorily effective for the current year (continued)

2.1 HKFRS 16 “Leases” (continued)

Notes:

- (a) In relation to assets previously under finance lease, the Group recategorised the carrying amounts of the relevant assets which were still under lease as at 1 May 2019 amounting to HK\$533,000 as right-of-use assets. In addition, the Group reclassified the obligation under a finance lease of HK\$30,000 to lease liabilities as current liabilities at 1 May 2019.
- (b) Before the application of HKFRS 16, the Group considered refundable rental deposits paid as rights and obligations under leases to which HKAS 17 applied under other receivables. Based on the definition of lease payments under HKFRS 16, such deposits are not payments relating to the right to use of the underlying assets and were adjusted to reflect the discounting effect at transition. Accordingly, HK\$25,000 was adjusted from rental deposit paid and to right-of-use assets.

For the purpose of reporting cash flows from operating activities under indirect method for the year ended 30 April 2020, movements in working capital have been computed based on opening consolidated statement of financial position as at 1 May 2019 as disclosed above.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

New and amendments to HKFRSs in issue but not yet effective

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

| | |
|--|--|
| HKFRS 17 | Insurance Contracts ¹ |
| Amendment to HKFRS 16 | Covid-19–Related Rent Concessions ⁶ |
| Amendments to HKFRS 3 | Definition of a Business ² |
| Amendments to HKFRS 3 | Reference to the Conceptual Framework ⁵ |
| Amendments to HKFRS 10 and HKAS 28 | Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³ |
| Amendments to HKAS 1 and HKAS 8 | Definition of Material ⁴ |
| Amendments to HKAS 16 | Property, Plant and Equipment – Proceeds before Intended Use ⁵ |
| Amendments to HKAS 37 | Onerous Contracts – Cost of Fulfilling a Contract ⁵ |
| Amendments to HKFRS 9, HKAS 39 and HKFRS 7 | Interest Rate Benchmark Reform ⁴ |
| Amendments to HKFRSs | Annual Improvements to HKFRSs 2018-2020 ⁵ |

¹ Effective for annual periods beginning on or after 1 January 2021

² Effective for business combinations and asset acquisitions for which the acquisition date is on or after the beginning of the first annual period beginning on or after 1 January 2020

³ Effective for annual periods beginning on or after a date to be determined

⁴ Effective for annual periods beginning on or after 1 January 2020

⁵ Effective for annual periods beginning on or after 1 January 2022

⁶ Effective for annual periods beginning on or after 1 June 2020

In addition to the above new and amendments to HKFRSs, a revised Conceptual Framework for Financial Reporting was issued in 2018. Its consequential amendments, “the Amendments to References to the Conceptual Framework in HKFRS Standards”, will be effective for annual periods beginning on or after 1 January 2020.

Amendments to HKFRS 3 “Definition of a Business”

The amendments:

- add an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The election on whether to apply the optional concentration test is available on transaction-by-transaction basis;
- clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs; and
- narrow the definitions of a business and of outputs by focusing on goods and services provided to customers and by removing the reference to an ability to reduce costs.

The Group will apply the amendments prospectively to all business combinations and asset acquisitions for which the acquisition date is on or after the annual reporting period beginning on or after 1 May 2020.

The optional concentration test and the amended definition of a business are not expected to have a significant impact to the Group.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (CONTINUED)

New and amendments to HKFRSs in issue but not yet effective (continued)

Amendments to HKAS 1 and HKAS 8 “Definition of Material”

The amendments provide refinements to the definition of material by including additional guidance and explanations in making materiality judgments. In particular, the amendments:

- include the concept of “obscuring” material information in which the effect is similar to omitting or misstating the information;
- replace threshold for materiality influencing users from “could influence” to “could reasonably be expected to influence”; and
- include the use of the phrase “primary users” rather than simply referring to “users” which was considered too broad when deciding what information to disclose in the financial statements.

The amendments also align the definition across all HKFRSs and will be mandatorily effective for the Group’s annual period beginning on 1 May 2020. The application of the amendments is not expected to have significant impact on the financial position and performance of the Group but may affect the presentation and disclosures in the consolidated financial statements.

Conceptual Framework for Financial Reporting 2018 (the “New Framework”) and the Amendments to References to the Conceptual Framework in HKFRS Standards

The New Framework:

- reintroduces the terms stewardship and prudence;
- introduces a new asset definition that focuses on rights and a new liability definition that is likely to be broader than the definition it replaces, but does not change the distinction between a liability and an equity instrument;
- discusses historical cost and current value measures, and provides additional guidance on how to select a measurement basis for a particular asset or liability;
- states that the primary measure of financial performance is profit or loss, and that only in exceptional circumstances other comprehensive income will be used and only for income or expenses that arise from a change in the current value of an asset or liability; and
- discusses uncertainty, derecognition, unit of account, the reporting entity and combined financial statements.

Consequential amendments have been made so that references in certain HKFRSs have been updated to the New Framework, whilst some HKFRSs are still referred to the previous versions of the framework. These amendments are effective for the Group’s annual period beginning on or after 1 May 2020. Other than specific standards which still refer to the previous versions of the framework, the Group will rely on the New Framework on its effective date in determining the accounting policies especially for transactions, events or conditions that are not otherwise dealt with under the accounting standards.

Except for the amendments to HKFRSs and New Framework mentioned above, the directors of the Company anticipate that the application of all other new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 APRIL 2020

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (“Listing Rules”) and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in the consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 “Share-based Payment”, leasing transactions that are accounted for in accordance with HKFRS 16 (since 1 May 2019) or HKAS 17 (before application of HKFRS 16), and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 “Inventories” or value in use in HKAS 36 “Impairment of Assets”.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 APRIL 2020

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of consolidation (continued)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Revenue arising from sales of apparel products is recognised at a point in time when the customer obtains the control of the goods has been transferred to the customer at the point of deliver to customer.

FOR THE YEAR ENDED 30 APRIL 2020

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue from contracts with customers (continued)

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation

Output method

The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

Principal versus agent

When another party is involved in providing goods or services to a customer, the Group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for those goods or services to be provided by the other party (i.e. the Group is an agent).

The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer.

The Group is an agent if its performance obligation is to arrange for the provision of the specified good or service by another party. In this case, the Group does not control the specified good or service provided by another party before that good or service is transferred to the customer. When the Group acts as an agent, it recognises revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified goods or services to be provided by the other party.

Property, plant and equipment

Property, plant and equipment held for use or for administrative purposes are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Construction in progress for administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property, plant and equipment (continued)

Ownership interests in leasehold land and building

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition.

To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as “right-of-use assets” (upon application of HKFRS 16) in the consolidated statement of financial position. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment, other than construction in progress, less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties include land held for undetermined future use, which is regarded as held for capital appreciation purpose.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are stated at cost less subsequent accumulated depreciation and any accumulated impairment losses. Depreciation is recognised so as to write off the cost of investment properties over their estimated useful lives and after taking into account of their estimated residual value, using the straight-line method.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

Borrowing costs

Borrowing costs which are not eligible for capitalisation to qualifying assets are recognised in profit or loss in the year in which they are incurred.

Leases

Definition of a lease (upon application of HKFRS 16 in accordance with transitions in note 2)

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee (upon application of HKFRS 16 in accordance with transitions in note 2)

Short-term leases

The Group applies the short-term lease recognition exemption to lease of property that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. Lease payments on short-term lease are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

When the Group obtains ownership of the underlying leased assets at the end of the lease term, upon exercising purchase options, the carrying amount of the relevant right-of-use asset is transferred to property, plant and equipment.

The Group presents right-of-use assets as separate line item on the consolidated statement of financial position.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (Continued)

The Group as a lessee (upon application of HKFRS 16 in accordance with transitions in note 2) (Continued)

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 “Financial Instruments” (“HKFRS 9”) and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (Continued)

The Group as a lessee (upon application of HKFRS 16 in accordance with transitions in note 2) (Continued)

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset.

The Group as a lessee (prior to 1 May 2019)

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs (see the accounting policy above).

Operating lease payments, including the cost of acquiring land held under operating leases, are recognised as an expense on a straight-line basis over the lease term.

Leases (Continued)

The Group as a lessor

Classification and measurement of leases

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under finance leases are recognised as receivables at commencement date at amounts equal to net investments in the leases, measured using the interest rate implicit in the respective leases. Initial direct costs (other than those incurred by manufacturer or dealer lessors) are included in the initial measurement of the net investments in the leases. Interest income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and such costs are recognised as an expense on a straight-line basis over the lease term except for investment properties measured under fair value model.

Refundable rental deposits

Refundable rental deposits received are accounted for under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments from lessees.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchange prevailing on the dates of transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items are recognised in profit or loss in the period in which they arise.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 APRIL 2020

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Foreign currencies (Continued)

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange reserve.

Exchange differences relating to the retranslation of the Group's net assets in US\$ to the Group's presentation currency (i.e. HK\$) are recognised directly in other comprehensive income and accumulated in exchange reserve. Such exchange differences accumulated in the exchange reserve are not reclassified to profit or loss subsequently.

Inventories

Inventories are stated at the lower of cost and net realisable value. Net realisable value represents the estimated selling price for inventories less all costs necessary to make the sale.

Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Impairment on property, plant and equipment, right-of-use assets and intangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets and intangible assets with finite useful lives to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of property, plant and equipment, right-of-use assets and intangible assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Impairment on property, plant and equipment, right-of-use assets and intangible assets (Continued)

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or fair value through other comprehensive income ("FVTOCI") as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

Classification and subsequent measurement of financial assets (Continued)

(ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial asset and is included in the "other gains and losses" line item.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss ("ECL") model on financial assets (including trade and other receivables and bank balances) which are subject to impairment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables without significant financing component. The ECL on these assets are assessed individually.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

(i) Significant increase in credit risk (Continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Impairment of financial assets (Continued)

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (e) the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition. For a lease receivable, the cash flows used for determining the ECL is consistent with the cash flows used in measuring the lease receivable in accordance with HKFRS 16 (since 1 May 2019) or HKAS 17 (prior to 1 May 2019).

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables where the corresponding adjustment is recognised through a loss allowance account.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (Continued)

Financial assets (Continued)

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the group entities are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

Financial liabilities at amortised cost

Financial liabilities, including trade and other payables are subsequently measured at amortised cost, using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Derivative financial instruments

Derivatives are initially recognised at fair value at the date when derivative contracts are entered into and are subsequently remeasured to their fair value at the end of the reporting period. The resulting gain or loss is recognised in profit or loss.

Retirement benefit costs

Payments to the Mandatory Provident Fund Scheme and government-managed retirement benefit schemes, which are defined contribution retirement benefit plans, are recognised as an expense when employees have rendered service entitling them to the contributions.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 APRIL 2020

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Taxation (Continued)

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 “Income Taxes” requirements to the leasing transaction as a whole. Temporary differences relating to right-of-use assets and lease liabilities are assessed on a net basis. Excess of depreciation on right-of-use assets over the lease payments for the principal portion of lease liabilities resulting in net deductible temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss.

4. CRITICAL ACCOUNTING JUDGEMENT AND KEY SOURCE OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period, or in the period of the revision and the future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgement, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Revenue recognition from sales of apparel products at a point in time

Under HKFRS 15, control of the asset is transferred over time when the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date. Significant judgment is required in determining whether the terms of the Group's contracts with customers in relation to apparel products create an enforceable right to payment for the Group. The Group has considered the relevant local laws that apply to those relevant contracts. Based on the assessment of the Group's management, the apparel products have alternative use which do not create an enforceable right to payment for the Group. Accordingly, the sales of apparel products are considered to be performance obligation satisfied at a point in time.

Key source of estimation uncertainty

The following is the key source of estimation uncertainty at the end of the reporting period that has a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year from the end of the reporting period.

Provision of ECL for trade receivables

The Group uses individual assessment to calculate ECL for the trade receivables. The provision rates are based on external credit ratings considering the individual debtor's historical default rate, adjusted after considering forward-looking information that is reasonable and supportable available without undue costs or effort that are specific to each debtor. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered.

The provision of ECL is sensitive to changes in estimates. As at 30 April 2020, the carrying amount of trade receivables is HK\$59,196,000 and net of impairment loss of HK\$3,167,000. The information about the ECL is disclosed in note 32.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5. REVENUE AND SEGMENT INFORMATION

Revenue represents revenue arising on supply of apparel products and provision of consultation services.

The Group determines its operating segments based on the reports reviewed by the executive directors, being the chief operating decision makers (the “CODM”), which are used to make strategic decisions for the purposes of resource allocation and assessment of segment performance. The Group mainly sells apparel products with designing and sourcing services to fast fashion clothing retailers and provides consultation services.

In the current year, the Group reorganised its internal reporting structure which resulted in changes to the composition of its reportable segments. The Group combined the online fashion retailers segment with fashion retailers segment. With more fashion retailers started to trade on the online platform, the CODM started to make strategic decision for all fashion retails as a whole. Prior year segment disclosure have been represented to conform with the current year’s presentation.

The details of the Group’s each reportable segment are as follows:

- | | | |
|------|----------------------------|---|
| (i) | Supply of Apparel Products | Supply of apparel products with designing and sourcing services to fashion retailers. |
| (ii) | Consultation Services | Income from provision of consultation services to the manufacturers which mainly include (a) assisting them to comply with corporate social responsibility standards requirements; (b) providing fashion trends forecast analysis; (c) design specification; and (d) introducing potential customers. |

These operating segments also represent the Group’s reportable segments. No operating segments identified by the CODM have been aggregated in arriving at the reportable segments of the Group.

Segment revenue and results (Continued)

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 3. Segment profit represents the profit earned by each segment without allocation of unallocated income and expenses mainly including certain depreciation on property, plant and equipment, depreciation on investment properties, change in fair value of derivatives and financial assets at FVTPL, general office expenses, professional fee in relation to transfer of listing, certain finance costs and net foreign exchange losses. This is consistent with the measure reported to the CODM of the Group for the purposes of resource allocation and performance assessment.

There were no inter-segment sales for both years.

Revenue from the supply apparel products is recognised at a point in time, when control of the goods has transferred, being when the goods have been shipped to the designated location (delivery) and the control has passed to the customers.

Revenue from consultation services is recognised over time using the output method. The customers simultaneously receive and consume the benefits when the service is provided throughout the period.

| | 3,739 | 5,922 |
| Deferred tax (credit) expense (note 25) | (162) | 306 |
| | 3,577 | 6,228 |

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

Accordingly, the Hong Kong Profits Tax is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million.

The PRC EIT is calculated based on the statutory rate of 25% of the assessable profit of subsidiaries established in the PRC, as determined in accordance with the relevant enterprise income law, implementation rules and notices in the PRC.

The UK Corporate Tax is calculated at 19% of the taxable profits of subsidiary established in the UK.

The lease was early terminated without any penalty after negotiation with the landlord during the year due to deferral of the expansion plan in the PRC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 APRIL 2020

16. RIGHT-OF-USE ASSETS (CONTINUED)

The Group leases various properties and motor vehicle for its operations. Lease contracts were entered into for fixed term of 2 to 10 years. Lease of motor vehicle was accounted for as financial leases during the year ended 30 April 2019 and carried interest at 3.16%. Lease terms were negotiated on an individual basis and contained a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

The Group regularly entered into short-term leases for properties. As at 30 April 2020, the amount of the portfolio of short-term leases is the short term lease payments as disclosed above.

Details of lease maturity analysis of lease liabilities are set out in notes 23 and 32.

Restrictions or covenants on leases

In addition, lease liabilities of HK\$2,327,000 are recognised with related right-of-use assets of HK\$2,139,000 as at 30 April 2020. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

17. INVESTMENT PROPERTIES (CONTINUED)

The above item of investment properties is depreciated on a straight-line basis at 2% or over lease term, whichever is shorter per annum.

A car park slot transferred from property, plant and equipment to investment properties in December 2019 because its use has changed to earn rental income.

The fair value of the investment properties (including land portion) at 30 April 2020, which has been determined by the directors of the Company by reference to recent market prices for similar properties approximated to the carrying amount of the investment properties.

In December 2019, the Group purchased a car park slot amounted to HK\$2,000,000 from an independent third party to earn rental income.

In estimating the fair value of the properties, the highest and best use of the property is its current use.

Details of the Group's investment properties and information about the fair value hierarchy and valuation technique are as follows:

| Description | Carrying value at April 30 | | Fair value at level 3 at April 30 | | Valuation technique | Major unobservable input |

| Receipt in advance for apparel products contracts | 94 | 632 |

As at 1 May 2018, contract liabilities amounted to HK\$72,000.

Contract liabilities are classified as current as they are expected to be settled within the Group's normal operating cycle. The balance of contract liabilities has decreased mainly due to the decrease in sales close to 30 April 2020.

Contract liabilities represent deposits received and receipt in advance from customers for apparel contracts. Contract liabilities as at the end of each reporting period are recognised as revenue in the subsequent year.

When the Group receives a deposit before the production activity commences, this gives rise to contract liabilities at the start of production until the revenue recognised when the customer obtains the control of the apparel products. The Group typically receives 30% deposit on acceptance of customers' order.

25. DEFERRED TAX ASSETS (LIABILITIES)

For the purpose of presentation in the consolidated statement of financial position, certain deferred tax assets and liabilities have been offset. The following is the analysis of the deferred tax balances for financial reporting purposes:

| | 2020 HK\$'000 | 2019 HK\$'000 |
|--------------------------|------------------|------------------|
| Deferred tax assets | 350 | 55 |
| Deferred tax liabilities | (133) | – |
| | 217 | 55 |

The following is the major deferred tax asset (liability) recognised and movements thereon during the current and prior years.

| | Tax losses HK\$'000 | Accelerated tax accounting depreciation HK\$'000 | ECL provision HK\$'000 | Total HK\$'000 |
|------------------------------------|------------------------|--|------------------------------|-------------------|
| At 1 May 2018 | 4 | (50) | 407 | 361 |
| Charged to profit or loss | (4) | (24) | (278) | (306) |
| At 30 April 2019 | – | (74) | 129 | 55 |
| Credit (charged) to profit or loss | 77 | (303) | 388 | 162 |
| At 30 April 2020 | 77 | (377) | 517 | 217 |

At the end of the reporting period, the Group has unused tax losses of HK\$2,148,000 (2019: HK\$1,497,000) available for offset against future profits. A deferred tax asset has been recognised in respect of HK\$309,000 (2019: nil) of such losses.

No deferred tax asset has been recognised in respect of the remaining HK\$1,839,000 (2019: HK\$1,497,000) due to the unpredictability of future profit streams. Included in unrecognised tax losses of HK\$1,841,000 may be carried forward indefinitely.

26. SHARE CAPITAL OF THE COMPANY

Details of movements of authorised and issued capital of the Company are as follows:

| | Number of shares | Share capital HK\$ |
|--|---------------------|--------------------------|
| Ordinary share of HK\$0.01 each | | |
| Authorised: | | |
| At 1 May 2018, 30 April 2019 and 30 April 2020 | 200,000,000 | 2,000,000 |
| Issued and fully paid: | | |
| At 1 May 2018, 30 April 2019 and 30 April 2020 | 32,000,000 | 320,000 |

There is no movement for both years.

27. OPERATING LEASES

The Group as lessee

At the end of the reporting period, the Group had commitments for future minimum lease payments under non-cancellable operating leases which fall due as follows:

| | 2019 HK\$'000 |
|--|------------------|
| Within one year | 370 |
| In the second to fifth years inclusive | 1,356 |
| More than five years | 1,102 |
| | <u>2,828</u> |

Operating lease payments represent rentals payable by the Group for its offices. These leases are negotiated for terms ranging from two to ten years with fixed monthly rental. None of the leases include any contingent rental.

The Group as lessor

All of the leasehold properties held for rental purposes have committed lessees for one year.

Minimum lease payments receivable on leases are as follows:

| | 2020 HK\$'000 |
|-----------------|------------------|
| Within one year | <u>54</u> |

| Capital expenditure contracted for but not provided in the consolidated financial statements: | | |
| – the acquisition of intangible assets | 947 | 500 |
| – the renovation of an owned property | 706 | 1,150 |
| | 1,653 | 1,650 |

29. PLEDGE OF ASSETS

At 30 April 2019, the Group's obligation under a finance lease (note 24) was secured by the lessor's title to the leased assets, which had a carrying amount of HK\$533,000.

30. RETIREMENT BENEFITS PLAN

The Group participates in the Mandatory Provident Fund Scheme (the "MPF Scheme") for all its qualifying employees in Hong Kong. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. The only obligation of the Group with respect to the MPF Scheme is to make the required contributions under the scheme. No forfeited contribution is available to reduce the contribution payable in the future years.

The Group contributes 5% (2019: 5%) of relevant payroll costs, capped at HK\$18,000 per month, to the MPF Scheme.

The employees employed in the PRC and the UK are members of the state-managed retirement benefits schemes operated by PRC and UK government. The PRC and UK subsidiaries are required to contribute a certain percentage of their basis payroll to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefits schemes is to make the required contribution under the schemes.

The total cost of HK\$1,050,000 (2019: HK\$612,000) charged to profit or loss represents contributions paid or payable to the above schemes by the Group at the rates specified in the rules of plans.

31. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to the shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of debt and equity attributable to the owners of the Company, comprising share capital and reserves.

The directors of the Company review the capital structure on a regular basis. As part of this review, the directors of the Company consider the cost and the risks associated with each class of capital. Based on recommendations of the directors of the Company, the Group will balance its overall capital structure through the payment of dividends, new share issues as well as the issue of new debt or the redemption of existing debt.

32. FINANCIAL INSTRUMENTS

Financial risk management objectives and policies

The Group's major financial instruments include trade and other receivables, bank balances and cash, trade and other payables and lease liabilities/obligation under a finance lease. Details of these financial instruments are disclosed in respective notes. The risks associated with certain of these financial instruments and the policies on how to mitigate these risks are set out below. The management of the Group manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to variable-rate bank balances due to the fluctuation of the prevailing market interest rate. The Group currently does not have a policy on hedging interest rate risk. However, the management of the Group monitors interest rate exposure and will consider hedging significant interest rate risk should the need arise.

Sensitivity analysis

No sensitivity analysis on interest rate risk on bank deposits is presented as the directors of the Company consider the sensitivity on interest rate risk on bank deposits is insignificant.

Foreign currency risk

The carrying amounts of the Group's monetary assets and monetary liabilities denominated in currencies other than the respective group entities' functional currencies at the end of the reporting period are as follows:

| | Assets | | Liabilities | |
|------|------------------|------------------|------------------|------------------|
| | 2020 HK\$'000 | 2019 HK\$'000 | 2020 HK\$'000 | 2019 HK\$'000 |
| HK\$ | 13,122 | 8,061 | 4,847 | 6,401 |
| GBP | 20,680 | 34,527 | 1,038 | 4 |
| RMB | 1,717 | – | – | – |
| EUR | 911 | – | – | – |

The directors of the Company consider that the exposure of HK\$ against US\$ is limited as HK\$ is pegged to US\$ and the Group has arranged forward contracts to limit the currency risk of GBP against US\$ to keep the net exposure to foreign currency risk to an acceptable level, and the exposure to other foreign currencies is not significant.

The sensitivity analysis below details the Group's sensitivity to 10% (2019: 10%) increase and decrease in the exchange rate of GBP against the functional currencies of the corresponding group entities. 10% is the sensitivity rate used which represents management's assessment of the reasonably possible change in foreign currency rate. A positive number indicates an increase in post-tax profit when GBP strengthen 10% (2019: 10%) against the functional currencies of the corresponding group entities. For a 10% weakening of GBP, there would be an equal but opposite impact on the post-tax profit.

| | 2020 HK\$'000 | 2019 HK\$'000 |
|-----|------------------|------------------|
| GBP | 1,640 | 2,886 |

In management's opinion, the sensitivity analysis is unrepresentative of the foreign exchange risk inherent in the financial assets and financial liabilities as the year end exposure does not reflect the exposure during the year.

Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment

The Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligations by the counterparties is arising from the carrying amount of respective recognised financial assets as stated in the consolidated statement of financial position of the Group.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for the determination of credit limits, credit approvals and other monitoring procedures over the customers to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

Trade receivables

As at 30 April 2020, the Group has concentration of credit risk as 47% (2019: 23%) and 82% (2019: 78%) of the total trade receivable was due from the Group's largest debtor and the top five largest debtors respectively. Taking into accounts the creditworthiness of the customers, the credit risk measures and the historical levels of default, the directors consider that such concentration of credit risk would not result in significant credit default exposure to the Group.

As part of the Group's credit risk management, the Group applied internal credit rating for its customers. The Group's trade receivables are assessed individually by reference to past default experience and current past due exposure of each of the debtor. The expected loss rate is ranged from 0.01% to 100% (2019: 0.1% to 55%).

The Group's internal credit risk grading assessment comprises the following categories:

| <u>Internal credit rating</u> | <u>Description</u> | <u>Trade receivables</u> |
|-------------------------------|---|------------------------------------|
| Good | The counterparty has a low risk of default and usually does not have any past-due amounts | Lifetime ECL — not credit-impaired |
| Low risk | Debtor frequently repays after due dates but usually settles in full | Lifetime ECL — not credit-impaired |
| Watch list | There have been significant increases in credit risk since initial recognition through information developed internally or external resources | Lifetime ECL — not credit-impaired |
| Loss | There is evidence indicating the asset is credit-impaired | Lifetime ECL — credit-impaired |
| Write-off | There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery | Amount is written off |

Trade receivables (Continued)

The table below details the credit risk exposures of the Group's trade receivables, which are subject to ECL assessment:

| 2020 | Internal credit rating | 12m or lifetime ECL | Gross carrying amount HK\$'000 |
|---|---------------------------|---|---|
| Financial assets at amortised cost | | | |
| Trade receivables | Good | Lifetime ECL (not credit- impaired) | 4,166 |
| | Low risk | Lifetime ECL (not credit- impaired) | 37,148 |
| | Watch list | Lifetime ECL (not credit- impaired) | 20,895 |
| | Loss | Lifetime ECL (credit- impaired) | 154 |
| 2019 | Internal credit rating | 12m or lifetime ECL | Gross carrying amount HK\$'000 |
| Financial assets at amortised cost | | | |
| Trade receivables | Low risk | Lifetime ECL (not credit- impaired) | 33,990 |
| | Watch list | Lifetime ECL (not credit- impaired) | 23,110 |

The estimated loss rates are estimated based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort. Such forward-looking information is used by the management of the Group to assess both the current as well as the forecast direction of conditions at the reporting date. The grouping is regularly reviewed by the management of the Group to ensure relevant information about specific debtors is updated.

| Exchange adjustments | – | (197) | (197) |
| As at 30 April 2020 | 154 | 3,013 | 3,167 |

The Group does not hold any collateral over these balances.

Other receivables

For other receivables amounted to HK\$285,000, in order to minimise the credit risk, directors continuously monitor the settlement status and the level of exposure to ensure that follow-up action is taken to recover overdue debts. In determining the 12m ECL for other receivables, the management of the Group has taken into account the historical default experience and forward-looking information, as appropriate. The Group has considered the consistently low historical default rate in connection with payments and forward-looking information and thus no loss allowance was recognised.

Bank balances

The credit risks on bank balances are limited because the counterparties are banks with high credit ratings ranged from A2 to Aa2 assigned by international credit-rating agencies.

Liquidity risk

Ultimate responsibility for liquidity risk management rests with the management of the Group, which has built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by arranging factoring arrangement to accelerate collection of receivables, maintaining adequate reserves and borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate at the end of the reporting period.

Fair value

The fair values of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flows analysis.

The directors of the Company consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values.
