2. BASIS OF PREPARATION

These condensed consolidated interim financial statements have been prepared in accordance with Hong Kong Accounting Standard 34, Interim Financial Reporting ("HKAS 34"), issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the applicable disclosure provisions of Main Board Listing Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

These condensed consolidated interim financial statements have been prepared with the same accounting policies adopted in the 2019 annual financial statements, except for those that relate to new standards or interpretations effective for the first time for periods beginning on or after 1 January 2020. The adoption of new or amended Hong Kong Financial Reporting Standards ("HKFRSs") have no material effect on these condensed consolidated interim financial statements. Except for the early adoption of the amendment to HKFRS 16 Covid-19-Related Rent Concessions, the Group has not early adopted any new or amended HKFRSs that have been issued but not yet effective in the current accounting period.

The preparation of these condensed consolidated interim financial statements in compliance with HKAS 34 requires the use of certain judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates. The areas where significant judgements and estimates have been made in preparing these condensed consolidated interim financial statements and their effect are disclosed in note 5.

These condensed consolidated interim financial statements contain condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2019 annual financial statements. These condensed consolidated interim financial statements and notes do not include all of the information required for a complete set of financial statements prepared in accordance with HKFRSs and should be read in conjunction with the 2019 annual financial statements.

BASIS OF PREPARATION (Continued) 2.

The financial information relating to the year ended 31 December 2019 that is included in the condensed consolidated interim financial statements as comparative information does not constitute the Company's statutory annual consolidated financial statements for that year but is derived from those financial statements. Further information relating to these statutory financial statements required to be disclosed in accordance with section 436 of the Hong Kong Companies Ordinance (Cap. 622) (the "Companies Ordinance") is as follows:

The Company has delivered the financial statements for the year ended 31 December 2019 to Registrar of Companies in accordance with section 662(3) of, and Part 3 of Schedule 6 to, the Companies Ordinance.

The auditor's report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report; and did not contain a statement under section 406(2), 407(2) or (3) of the Companies Ordinance.

THE IMPACT OF COVID-19 IN THE REPORTING **PERIOD**

The outbreak of COVID-19 has developed rapidly in 2020 and significantly impacted entities and economic activities in varying scales globally. While there have had negative impacts to global economy and business environment, its impact on the enterprise cloud services which we operate has been rather modest during the reporting period. Management has assessed the impact of COVID-19 across the Group, and up to the date of this report, has not identified any areas that could have a material impact on the financial performance or position of the Group as at 30 June 2020.

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying group entity is taxed at 8.25%, and profits above HK\$2 million is taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

The directors considered the amount involved upon implementation of the two-tiered profits tax rates is insignificant to the condensed consolidated interim financial statements. No provision for Hong Kong profits tax has been made as the Group did not generate any assessable profits arising in Hong Kong for the six months ended 30 June 2020. Hong Kong profits tax is calculated at 16.5% of the estimated assessable profit for the six months ended 30 June 2019.

For the six months ended 30 June 2020, PRC EIT has been provided on the estimated assessable profits of subsidiaries operating in Mainland China at 25% (six months ended 30 June 2019: 25%), unless preferential rates are applicable in the cities where the subsidiaries are located.

於2018年3月21日,香港立法會通過2017年稅務(修訂)(第7號)條例草案(「條例草案」),引入兩級制利得稅率制度。條例草案於2018年3月28日簽署成為法律並於翌日刊登憲報。根據兩級制利得稅率制度,合資格集團實體首2百萬港元溢利將按8.25%之稅率徵稅,而超過2百萬港元之溢利則按16.5%之稅率徵稅。不符合兩級制利得稅率制度資格之集團實體之溢利將繼續按16.5%之劃一稅率徵稅。

董事認為,兩級制利得税率實施後所涉及之金額對簡明綜合中期財務報表而言並不重大。截至2020年6月30日止六個月,由於本集團並無在香港產生任何應課稅溢利,故並無就香港利得稅計提撥備。截至2019年6月30日止六個月,香港利得稅按估計應課稅溢利之16.5%計算。

截至2020年6月30日止六個月,除非附屬公司所在城市設有優惠税率,否則於中國大陸經營之附屬公司已就其估計應課税溢利按25%(截至2019年6月30日止六個月:25%)之税率作出中國企業所得稅撥備。

11. DIVIDEND

No dividend was paid and declared during the six months ended 30 June 2020 (six months ended 30 June 2019: nil).

12. EARNINGS/(LOSS) PER SHARE

The calculation of basic earnings/(loss) per share for the six months ended 30 June 2020 is based on the profit attributable to owners of the Company of approximately HK\$49,713,000 (six months ended 30 June 2019: loss of HK\$2,695,000) and on the weighted average number of approximately 19,914,505,000 ordinary shares in issue during the period after deducting the number of shares held by a custodian under the restricted share award scheme.

For the six months ended 30 June 2020, diluted earnings per share is equal to the basic earnings per share as the performance-based targets of the share awards does not meet as at period end date.

For the six months ended 30 June 2019, the computation of diluted loss per share does not assume the deemed vesting of share award as they would decrease the loss per share attributable to the owners of the Company and have anti-dilutive effect.

13. PROPERTY, PLANT AND EQUIPMENT

During the six months ended 30 June 2020, the Group acquired property, plant and equipment with total costs of approximately HK\$26,587,000 (six months ended 30 June 2019: HK\$6,921,000).

During the six months ended 30 June 2020, no property, plant and equipment (six months ended 30 June 2019: HK\$4,800,000) were written off by the Group.

As at 30 June 2020, certain buildings and right-of-use assets of the Group amounting to approximately HK\$12,745,000 (31 December 2019: HK\$13,220,000) were charged to secure bank borrowings.

截至2020年6月30日止六個月,由於於 期末日未能達成股份獎勵以績效為基礎 之目標,故每股攤薄盈利與每股基本盈 利相同。

截至2019年6月30日止六個月,每股攤 薄虧損的計算並無假設股份獎勵視作歸 屬,原因是有關假設將會減少本公司擁 有人應佔每股虧損以及具有反攤薄影響。

13. 物業、廠房及設備

截至2020年6月30日止六個月,本集團 以總成本約26,587,000港元(截至2019 年6月30日止六個月:6,921,000港元) 採購物業、廠房及設備。

In February 1993, a Group's associate borrowed a loan of US\$5 million from a Filipino bank namely Banco de Oro Unibank (formerly known as Equitable PCI Bank Inc. and then as Banco de Oro-EPCI Inc.) ("Banco Unibank"). The loan was secured by a guarantee executed by the Company, and by share mortgage of 74,889,892 shares of Acesite (Philippines) Hotel Corporation Inc.. Due to the claim made by the Group against Banco Unibank is still pending, the Group is not able to obtain any updated indebtedness information from Banco Unibank. Given the foregoing limitation, it is estimated that the outstanding balance of the total indebtedness owing to Banco Unibank was approximately US\$2,750,000 (equivalent to approximately HK\$21,313,000) (31 December 2019: US\$2,699,000 (equivalent to approximately HK\$21,024,000)) by reference to the unaudited financial statements of the associate as at 30 June 2020.

19. FAIR VALUE MEASUREMENTS

The following table presents financial assets and liabilities measured at fair value in the condensed consolidated statement of financial position in accordance with the fair value hierarchy. The hierarchy groups financial assets and liabilities into three levels based on the relative reliability of significant inputs used in measuring the fair value of these financial assets and liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted price (unadjusted) in active markets for identical assets and liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable of the asset and liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the financial asset or liability is categorised in its entirety is based on the lowest level of input that is significant to the fair value measurement.

Xinnet

During the reporting period, Xinnet continued to serve domestic medium, small and micro enterprises through online, direct sales and a nationwide agent channel system. In addition to business such as domain name management, public cloud laaS, mailbox, etc., it also continues to expand the enterprise market in the area of website building and corporate application services. It continues to enrich the product line in respect of public cloud products, adding products including Redis, RabbitMQ, cloud backup and big data in order to meet the needs of users for PaaS products. The scale of the information center continues to expand. In addition to the existing three regions of Northern China I, II, and Hong Kong, the scale of resources of the public cloud continues to increase by adding three regions in the Northern China, so as to meet the growing business needs. At the same time, in view of the weak technical capabilities and strong business needs of medium, small and micro enterprises, as the first domestic company to propose the concept of enterprise cloud service center, it reaches users with the most direct SaaS application, at the same time covering data products of basic cloud resource, which has become one of the few suppliers in China of overall cloud service product, which assists medium, small and micro enterprises to achieve digital transformation.

Prospects

The management of the Group considers that in recent years, enterprises in China have been undergoing a process of digital transformation, and the Epidemic will accelerate this process significantly. We believe that as a result of the Epidemic, there will be continuous and significant changes in the lifestyle and consumption habits of consumers. The variety and frequency of online shopping will increase significantly, orders from stores in the community can be placed online with the option of pick-up at the store and home delivery. It will continue to expand its service range and consumer groups. With the smart mobile devices becoming increasingly popular, online shopping will no longer be the privilege of the younger generation, and more elderly will join online shopping. As such, enterprises and retail stores will pay more attention to digital operation capabilities such as online display, online promotion, online transaction and customer relationship maintenance. Enterprises will have increasing needs of portal products that are more convenient, smart, multi-channel, and multi-scenario. Therefore, we will continue to improve our products including self-service website building, full network responsive portal and foreign trade portal, and provide clients with more timely and efficient services.

展望

本集團管理層認為,近幾年,中國企業在持續 經歷數字化轉型的進程, 而疫情將極大的加速 這一進程。我們認為,在疫情的持續影響下, 消費者的生活和消費習慣將會發生持續、深刻 的變化:在線購物的種類和頻次將會大大增 加,社區門店通過線上下單,到店自提,以及 配送到家等不斷擴大自己的服務半徑和消費人 群;智能移動設備的快速普及,使得網購也將 不再是年輕人的專利,更多的老年人也將加入 網購的行列。受此影響,企業和零售門店將會 更加重視線上展示、線上推廣、線上交易、客 戶關係維護等數字化經營能力。企業對於門戶 產品更便捷、更智能、多渠道,全場景的推廣 需求將會更加凸顯。因此我們將繼續完善我們 的自助建站、全網響應式門戶、外貿門戶等產 品,並為客戶提供更為及時和高效的服務。

Prospects (Continued)

Faced with the diversified consumption needs and online consumption habits of consumers, traditional retail enterprises are eager to transfer the existing loyal customers from offline to online, and to form an integrated online and offline business model. We noticed that in the process of online digital transformation of traditional retail enterprises, they face practical difficulties such as insufficient professional capabilities, limited capital investment, and lack of operating experience. We will strive to develop and strengthen our localized service capability in order to provide clients with faster, more professional and comprehensive operation services. We are aware that perfect SaaS products and efficient services require the support of new Internet technologies and platforms. Going forward, with an in-depth understanding of the business scenarios of clients in various industries, the Group will assist in the realization of digital transformation for clients in traditional industries based on cloud computing, the middle structure of business (業務中台) and SaaS tools, as well as better prepare for the challenges in the digitalization era and respond to the changes in consumer demands. The Group proactively seeks control measures to minimize the impact arising from risks and uncertainties as far as practicable, and considers using foreign exchange hedging instruments (if appropriate) from time to time, to minimize the risk exposure arising from changes in Renminbi exchange rates.
