## NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION

### 1 GENERAL INFORMATION

Forward Fashion (International) Holdings Company Limited ("Company") was incorporated in the Cayman Islands on 16 May 2019. The address of the Company's registered office is Cricket Square, Hutchins Drive, PO Box 2681, Grand Cayman, KY1-1111, Cayman Islands.

The Company is an investment holding company and its subsidiaries ("Group") are principally engaged in the retail of fashion apparel of international brands ranging from established designer label brands, popular global brands to up-and-coming brands through our multi-brand and multi-store business model ("Business") in Mainland China, Macau, Hong Kong and Taiwan.

The ultimate holding company of the Company is Gold Star Fashion Limited, a company incorporated in the British Virgin Islands and is wholly-owned by Mr. Fan Wing Ting ("Mr. Fan"), the ultimate controlling shareholder ("Controlling Shareholder") of the Group.

The shares of the Company have been listed on the Main Board of The Stock Exchange of Hong Kong Limited ("Stock Exchange") since 13 January 2020.

This unaudited condensed consolidated financial information is presented in Hong Kong dollars ("HKD") and all values are rounded to the nearest thousand (HKD'000), unless otherwise stated.

This interim condensed consolidated financial information has been approved for issue by the Board of the Company on 28 August 2020.

### 2 BASIS OF PREPARATION

This unaudited condensed consolidated financial information for the six months ended 30 June 2020 has been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" issued by the International Accounting Standards Board ("IASB").

The condensed consolidated financial information does not include all the notes of the type normally included in an annual financial report. Accordingly, this condensed consolidated financial information should be read in conjunction with the annual report for the year ended 31 December 2019 and any public announcements made by the Company during the six-month ended 30 June 2020.

Since early 2020, the Group's business operations have been adversely affected by the outbreak of Coronavirus Disease 2019 ("COVID-19"), which resulted in significant decrease in commercial activities, lockdown and social distancing measures imposed by local government. The COVID-19 pandemic has led to temporary shut-down of stores, and the decrease in visitation to Macau, Hong Kong and Taiwan, all of which have created challenges for the business operations of retail stores.

During the six months ended 30 June 2020, the Group experienced significant decline in revenue and recorded a net loss of approximately HKD99,820,000.

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION (continued)****2 BASIS OF PREPARATION (continued)**

In view of these circumstances, the directors of the Company have given careful consideration to the future liquidity requirements and operating performance of the Group and its available sources of financing to assess whether the Group would have sufficient financial resources to fulfil its financial obligations to continue as a going concern. The directors of the Company have reviewed the Group's cash flow projections, which covers a period of not less than twelve months from 30 June 2020. The directors are of the opinion that, having taken into account the anticipated cashflows generated from the Group's operations, as well as the possible changes in its operating performance and possible impact of COVID-19 pandemic, the Group's internal financial resources, availability of existing bank facilities, the Group will have sufficient financial resources to meet its liabilities as and when they fall due in the coming twelve months from 30 June 2020. Accordingly, the directors consider that the Group will be able to continue as a going concern; and thus have prepared the condensed consolidated financial information on a going concern basis.

The preparation of condensed consolidated financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. In preparing these condensed consolidated financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial information for the year ended 31 December 2019 except for the adoption of new and amended standards as set out below.

**3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies applied are consistent with those of the 2019 Financial Statements, as described in those annual consolidated financial statements, except for the adoption of new and amended standards as set out below.

**3.1 *New and amended standards adopted by the Group***

The Group has applied the following standards and amendments for the first time for the current accounting period:

- (a) Definition of Material – amendments to IAS 1 and IAS 8
- (b) Definition of a Business – amendments to IFRS 3
- (c) Revised Conceptual Framework for Financial Reporting
- (d) COVID-19-Related Rent Concessions – Amendments to IFRS 16
- (e) Interest Rate Benchmark Reform – amendments to IFRS 9, IAS 39 and IFRS 7

## NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION (continued)

### 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 3.1 *New and amended standards adopted by the Group (continued)*

The Group has early adopted Amendment to IFRS 16 -Covid-19-Related Rent Concessions retrospectively from 1 January 2020. The amendment provides an optional practical expedient allowing lessees to elect not to assess whether a rent concession related to COVID-19 is a lease modification. Lessees adopting this election may account for qualifying rent concessions in the same way as they would if they were not lease modifications. The practical expedient only applies to rent concessions occurring as a direct consequence of the COVID-19 pandemic and only if all of the following conditions are met: (a) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change; (b) any reduction in lease payments affects only payments due on or before 30 June 2021; and (c) there is no substantive change to other terms and conditions of the lease.

The Group has applied the practical expedient to all qualifying COVID-19-related rent concessions. Rent concessions totalling HKD73,308,000 have been accounted for as negative variable lease payments and recognised in selling and marketing expenses in the statement of profit or loss for the six-month ended 30 June 2020, (see Note 8), with a corresponding adjustment to the lease liability. There is no impact on the opening balance of equity at 1 January 2020.

Other than the amendment to IFRS 16 -Covid-19-Related Rent Concessions, most of the amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future period.

#### 3.2 *Impact of standards issued but not yet applied by the entity*

Certain new accounting standards and interpretations have been published that are not mandatory for the six-month ended 30 June 2020 and have not been early adopted by the Group. These standards are not expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

### 4 FINANCIAL RISK MANAGEMENT

#### 4.1 *Financial risk factors*

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, fair value interest rate risk, cash flow interest rate risk), credit risk and liquidity risk.

The condensed consolidated financial information do not include all financial risk management information and disclosures required in the annual financial information, and should be read in conjunction with the Group's annual financial information as at 31 December 2019.

There have been no changes in the risk management policies since year end.

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION (continued)****4 FINANCIAL RISK MANAGEMENT (continued)**4.2 *Fair value estimation*

## (i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value in the financial information. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standards. An explanation of each level follows underneath the table.

<b>Recurring fair value measurements</b>	Level 3
<b>At 31 December 2019</b>	HKD'000

**Financial liabilities**

Financial liabilities at fair value through profit or loss	5,883
--	-------

<b>Recurring fair value measurements</b>	<b>Level 3</b>
<b>At 30 June 2020 (Unaudited)</b>	<b>HKD'000</b>

**Financial liabilities**

Financial liabilities at fair value through profit or loss	<b>4,604</b>
--	--------------

The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

## NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION (continued)

### 4 FINANCIAL RISK MANAGEMENT (continued)

#### 4.2 Fair value estimation (continued)

- (ii) Valuation techniques used to determine fair values  
Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices
- the Monte Carlo simulation
- discounted cash flow analysis

- (iii) Fair value measurements using significant unobservable inputs (level 3)  
The following table presents the changes in level 3 items for the six months ended 30 June 2019 and 2020:

	<b>Unaudited</b>	
	<b>Six months ended 30 June</b>	
	<b>2020</b>	2019
	<b>HKD'000</b>	HKD'000
At the beginning of the period	<b>5,883</b>	11,630
Change in fair value	<b>(1,279)</b>	(2,492)
At the end of the period	<b>4,604</b>	9,138
Total		
Net unrealised gains for the period	<b>(1,279)</b>	(2,492)

- (iv) Valuation processes  
The finance department of the Group includes a team that performs the valuations of non-property items required for financial reporting purposes, including level 3 fair values. This team reports directly to the chief financial officer (CFO). Discussions of valuation processes and results are held between the CFO and the valuation team at least once every year. External valuation experts will be involved when necessary.

## **NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION (continued)**

### **4 FINANCIAL RISK MANAGEMENT (continued)**

#### *4.2 Fair value estimation (continued)*

(iv) Valuation processes *(continued)*

The main level 3 inputs used by the Group are derived and evaluated as follows:

- Discount rates for financial assets and financial liabilities are determined using a capital asset pricing model to calculate a post-tax rate that reflects current market assessments of the time value of money and the risk specific to the asset or liability.
- Enterprise value (EV)/Earnings before interest, taxes, depreciation and amortisation (EBITDA) multiples are based on the information of comparable companies.
- Drift rates of EBITDA multiples are estimated based on the entity's knowledge of the business and how the current economic environment is likely to impact it.
- EBITDA multiples and EBITDA volatilities are based on the respective historical measures of comparable companies.

(v) Fair values of other financial instruments

The Group also has a number of financial instruments which are not measured at fair value in the balance sheet. For these instruments, the fair values are not materially different to their carrying amounts, since the interest receivable/payable is either close to current market rates or the instruments are short-term in nature.

### **5 SEGMENT INFORMATION**

The Group is principally engaged in the retailing and wholesale of luxury and fashion clothes and products in the Mainland China, Macau, Hong Kong and other places. The performance of the Group's retail stores is subject to seasonal fluctuations and certain holiday seasons.

The Group's business activities, for which discrete financial information are available, are regularly reviewed and evaluated by the chief operating decision maker ("CODM"). The CODM considers the business from geographic perspective and assesses the performance of the geographical segments mainly based on segment revenues and segment result. Assets and liabilities are regularly reviewed on a consolidated basis.

The revenues from external customers reported to CODM are measured as segment revenues, which are the revenues derived from customers of each segment.

Segment result is equal to revenue from external customers deducted by cost of sales and selling and marketing expenses from each segment.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL INFORMATION (continued)

5 SEGMENT INFORMATION (continued)

The segment information for the six months ended 30 June 2019 and 2020 are as follows:

Note:

- (a) In 2017, three subsidiaries of the Group signed store opening agreements with a shopping mall landlord, which states if the opening date of the eight stores to be opened occurs later than 31 July 2017 due to the landlord's reason, the landlord would compensate the Group according to an agreed calculation method. These eight stores were finally opened in February 2018 and the shopping mall landlord initially agreed to compensate the Group a total amount of Macanese pataca 9,906,000 (equivalent to HKD9,618,000) which is below the contract agreed compensation amount. After further negotiation, the landlord agree to raise the compensation but with additional conditions.

In April 2020, the Group and the shopping mall landlord came to a final agreement, increasing the compensation amount to HKD13,200,000, of which half shall be settled in cash and half shall be used to eliminate rental due to the shopping mall landlord. As at 30 June 2020, the Group has already received the compensation amount HKD6,600,000 in cash, and the remaining balance HKD1,995,000 booked in other receivable represents the amount to be used to eliminate rental due to the landlord.

Note:

In September 2017, claims were lodged against subsidiaries of the Group made by one shopping mall for violation of retail stores opening agreements. Unfavorable judgements were subsequently handed down against the subsidiaries in September 2018. However, after taking appropriate legal advice, the directors have decided to appeal against the decision. No payment has been made to the claimant pending outcome of the appeal. If upheld, payment of RMB1,705,000 (equivalent to HKD1,904,000) will be required. The recognised provision reflects the directors' best estimate of the most likely outcome.

In January 2020, the final judgement was handed down against subsidiaries of the Group. The judgement has been executed and payment has been made to the claimant in June 2020.

The chairman of the JV Company Board shall be held by one of the JV Company Directors who is appointed by Fortune Fashion.

Upon completion of the transaction, the JV Company will be principally engaged in the sales, trading, management, planning and development of branded skincare and cosmetic products under the brand name "SwissPro" in the Greater China and will become an indirect non-wholly owned subsidiary of the Company and the financial results and position of the JV Company will be consolidated into the Company's financial information.

## MANAGEMENT DISCUSSION AND ANALYSIS

### OVERVIEW

The Group principally engages in the retail of fashion apparel of international brands ranging from established designer label brands, popular global brands to up-and-coming brands in Mainland China, Macau, Hong Kong and Taiwan (collectively, "**Greater China**"). The Group adopts a multi-brand and multi-store business model. As at 30 June 2020, the Group operated (i) 213 self-operated retail stores in Greater China, of which 178 retail stores are mono-brand stores operated under the brand name of the merchandise to cater for the brand's target customers; and (ii) 35 retail stores are multi-brand stores that offer a broad assortment of the Group's selected fashion apparel and lifestyle merchandise from different international brands and the Group's own brands. As at 30 June 2020, the Group's brand portfolio had 125 brands, of which 122 brands are international brands owned by third-party brand owners or their master/authorised licensors and three are its own brands, namely, *UM*, *UM•IXOX* and *IXOX*.

The ongoing China-U.S. trade tension and the COVID-19 outbreak have severely affected the Group's revenue as the drop in tourist arrivals has substantially reduced consumer's spending. The Group's revenue for the six months ended 30 June 2020 is HKD367.5 million (2019: HKD768.2 million), a drop in revenue of 52.2% compared to that for the six months ended 30 June 2019.

The drop in revenue is mainly attributed to (i) the fall in Wholesale and Retail Trades industry GDP of Mainland China in the first half of 2020 by 8.1% year-over-year ("**yoy**"); (ii) the drop in tourist arrivals to Hong Kong in the first half of 2020 by 90% yoy; and (iii) the drop in tourist arrivals from Mainland China to Macau in the first half of 2020 by 83.9% yoy. The Group's Macau business in particular, has been at a standstill due to the drop in tourist arrivals. At present, non-Macau residents are still barred from entry into Macau dependent on their COVID-19 test results and this has significantly deterred visitors to Macau.

In the light of this tough business environment, the Group has been closely monitoring the market conditions and adjusted its business strategies and operations to minimize the negative impact, including proactive cost control measures on merchandise costs, rental expenses and staff costs to ensure that a healthy cashflow position is maintained.

### FINANCIAL REVIEW

#### *Revenue*

The Group's revenue decreased to HKD367.5 million for the six months ended 30 June 2020 (2019: HKD768.2 million) which was mainly due to the drop in the sales of the Group's self-operated retail stores in Mainland China and Macau. The revenue of HKD360.5 million generated from the Group's retail channels accounted for 98.1% of the total revenue for the first six months in 2020, or 51.0% lower than that for the six months ended 30 June 2019. Among the revenue generated from retail channels for the six months ended 30 June 2020, 99.1% was generated from the sales of the Group's self-operated retail stores and the rest was generated from online sales. The revenue generated from the Group's mono-brand retail stores decreased to HKD300.8 million for the six months ended 30 June 2020, representing a yoy decrease of 51.4%. The revenue generated from the Group's multi-brand retail stores decreased to HKD56.5 million for the six months ended 30 June 2020, representing a yoy decrease of 51.5%.

**MANAGEMENT DISCUSSION AND ANALYSIS** (continued)

Breakdown of revenue by sales channels:

	Six months ended 30 June 2020		Six months ended 30 June 2019		Change (%)

*Gross profit*

The Group's cost of sales consisted of cost of inventory sold for the fashion apparel and lifestyle products and the cost of store management rendered to the brand owners. The cost of sales decreased to HKD219.8 million for the six months ended 30 June 2020, or a yoy decrease of 37.1%. With the increasing percentage of cost of sales to revenue, the Group's gross profit for the six months ended 30 June 2020 decreased to HKD147.7 million, a drop of 64.8%, and its gross profit margin decreased to 40.2%, representing a 1,430 basis points decrease from that of 2019. The decrease in the Group's gross profit was mainly contributed by the decrease in the gross profit from Mainland China and Macau of HKD71.7 million and HKD183.6 million, respectively. The decrease in the gross profit margin was mainly attributable to the decrease in the gross profit margin of sales in Macau to 37.4% for the six months ended 30 June 2020, representing a 1,950 basis points decrease from that of the corresponding period in 2019 as a result of more discount offered.

## MANAGEMENT DISCUSSION AND ANALYSIS (continued)

### *Other income and other gains and losses, net*

The Group had other income of HKD4.0 million for the six months ended 30 June 2020 mainly comprising compensation for termination of lease contacts. The Group recorded net other losses of HKD4.6 million, compared with net other gains of HKD3.3 million for the six months ended 30 June 2019, mainly attributable to the exchange losses and net losses on disposal of property, plant and equipment.

### *Operating expenses*

Selling and marketing expenses decreased to HKD190.4 million for the six months ended 30 June 2020, or a 39.0% yoy drop, primarily as a result of (i) COVID-19 pandemic rent concessions received totaled HKD73.3 million; (ii) employee benefit expenses decreased by HKD33.2 million, or a yoy decrease of 35.8%, resulting from the decrease in the number of sales and marketing staff and the decrease in salary, sales commission and bonus payable to the staff; and (iii) operating lease expenses decreased by HKD10.6 million for the six months ended 30 June 2020, or a yoy decrease of 29.0%.

General and administrative expenses decreased to HKD50.5 million for the six months ended 30 June 2020, or a yoy drop of 10.0%, primarily due to the reduction in listing expenses of HKD8.8 million, or a yoy decrease of 94.8%.

### *Finance costs*

Net finance costs decreased to HKD10.7 million for the six months ended 30 June 2020, or a yoy drop of 31.1%.

### *Net Loss for the year*

Compared to the net profit of HKD31.3 million for the six months ended 30 June 2019, the Group recorded a net loss of HKD99.8 million for the six months ended 30 June 2020. The loss was attributable to the significant drop in sales revenue in the first half of 2020 as a result of the COVID-19 pandemic related impact described above.

## SEASONALITY

The Group's sales performance is subject to seasonal fluctuations and it normally generates higher revenue during winter season than summer season as winter apparel generally has a higher unit price than summer apparel. The Group records higher revenue in festive seasons such as Christmas and the month before Chinese New Year and the traditional peak season in Mainland China long holidays. Normally revenue recorded in the first half and the second half of the year are of equal weighting as they have similar festivals and holidays.

## FINANCIAL

### *Working capital structure*

The Group's net current assets amounted to HKD98.8 million as at 30 June 2020, representing an increase of HKD93.8 million from 31 December 2019. Such increase was primarily the result of a decrease in the amount due to related parties after the repayment of a HKD90.4 million loan from Mr. Fan.

## **MANAGEMENT DISCUSSION AND ANALYSIS** (continued)

### *Liquidity and financial management*

The Group strives to maintain a healthy financial position and liquidity for its normal operation, development needs and ad hoc events. As at 30 June 2020, the cash and cash equivalents were HKD244.4 million, representing an increase of HKD171.8 million comparing with that for 31 December 2019.

The Group's current ratio was 1.2 times as at 30 June 2020, compared to that of 1.0 times as at 31 December 2019. The increase in current ratio was mainly attributable to the decrease in the amount due to related parties. As at 30 June 2020, the Group had borrowings totaled HKD301.8 million (31 December 2019: HKD254.1 million). The details of the maturity profile of the borrowings are set out in Note 18 to the Condensed Consolidated Financial Information. The gearing ratio of the Group, which is calculated as net debt divided by total capital was 58% as at 30 June 2020 compared to that of 74% as at 31 December 2019.

### *Pledge of assets*

As at 30 June 2020, a building with net book value of HKD61.7 million, restricted cash of HKD21.0 million and the investments in life insurance contract of HKD31.8 million were pledged for a first mortgage, credit loans and credit facilities of bank borrowings, respectively.

## **CAPITAL COMMITMENT**

The Group had no material capital commitment contracted, but not provided for as at 30 June 2020 (31 December 2019: Nil).

## **CONTINGENT LIABILITIES**

The Group did not have any material contingent liabilities as at 30 June 2020 (31 December 2019: Nil).

## **FOREIGN EXCHANGE RISK MANAGEMENT**

Merchandise purchased by the Group is mainly denominated in Euros, United States Dollars (USD) and Renminbi (RMB) whereas the retail operation is mainly exposed to RMB, Macanese pataca (MOP), New Taiwan Dollars (TWD) and Hong Kong Dollars (HKD). As the Group did not expect foreign currency fluctuations to materially impact its operation, it did not hedge foreign exchange fluctuation by forward contracts. The Group managed foreign exchange risk by reviewing its net foreign exchange exposures regularly and endeavored to shrink these exposures through reviewing the exchange rates with the suppliers and the brand owners periodically.

## **OUTLOOK**

The outbreak of the COVID-19 pandemic occurred in Mainland China, Macau, Hong Kong, and others since January 2020 and later spread globally, which, from the Directors' point of view, has and would further hurt the apparel retail market in Greater China.

As disclosed in our 2019 annual report, the Group's business could be adversely affected by the COVID-19 pandemic and/or other adverse public health developments in Greater China. Such events could severely disrupt the Group's business operations by having a negative impact on consumer sentiment, the macro-economic condition as well as the financial conditions of the stock markets.

## MANAGEMENT DISCUSSION AND ANALYSIS (continued)

While the Group is facing the most challenging time in 2020 since its start of business in 2005, the Directors believe that the impact of the COVID-19 pandemic would eventually come to an end. Greater China, in particular, Mainland China, will embark upon major pump-priming offer more stimuli after the COVID-19 pandemic has ended whereby the Directors expect that the economy in the second half of this year can be recovered gradually. To preserve its strengths to meet the post-COVID-19 pandemic growth, the Group has adopted a series of cost control measures to minimize its expenses such as negotiating with landlords for rent reduction and suppliers for more discount/more favourable terms and voluntary temporary salaries reduction starting from Executive Directors and senior management of the Group.

The Group is committed to implementing the following strategies to cope with the temporary glooming retail environment in Greater China and ride on the opportunity of subsequent recovery:

- To adopt progressive marketing approach for loyal customers by offering attractive package and arrangement of visit time to avoid crowded shopping;
- To defer the introduction of new brands and opening of retail stores to the second half of 2020 or end of the COVID-19 pandemic, whichever is the earlier;
- To accelerate the implementation of the Centralised Retail Management System to enhance its operational efficiency; and
- To strengthen its digital marketing and online sales through existing e-shopping platform and group chat via social media.

### USE OF PROCEEDS

The shares of the Company ("**Shares**") were listed on the The Stock Exchange of Hong Kong Limited ("**Stock Exchange**") on 13 January 2020 ("**Listing Date**") and the net proceeds from the global offering of its Shares ("**Global Offering**") amounted to HKD140.0 million.

As of 30 June 2020, the Company has used approximately 8.8% of the proceeds from the Global Offering and the net proceeds have been utilised in line with those set out in the section headed "Future Plans and Use of Proceeds" in the prospectus of the Company dated 30 December 2019 ("**Prospectus**").

The following sets forth a summary of the utilisation of the net proceeds from the Global Offering as of 30 June 2020:

- approximately 6.57% was used for expanding our retail stores
- approximately 0.80% was used for upgrading our existing retail stores
- approximately 0.57% was used for exploring new brands
- approximately 0.28% was used for the set up and implementation of our Centralised Retail Management System
- approximately 0.57% was used for strengthening of our online sales

The Board does not recommend the declaration of an interim dividend for the six months ended 30 June 2020 (31 December 2019: HKD20,000,000).

### CORPORATE GOVERNANCE CODE

The Directors recognise the importance of incorporating elements of good corporate governance in the management structures and internal control procedures of the Company so as to achieve effective accountability.

The Company has adopted the code provisions of the Corporate Governance Code and Corporate Governance Report ("**CG Code**") as set out in Appendix 14 of the Listing Rules issued by Stock Exchange.

The Company has complied with the code provisions in the CG Code for the six months ended 30 June 2020. The Company is committed to the objective that the Board should include a balanced composition of Executive Directors and Independent Non-executive Directors so that there is a strong independent element on the Board which can effectively exercise independent judgement.

### AUDIT COMMITTEE

The Audit Committee has reviewed with management the accounting principles and practices adopted, discussed risk management and internal controls and financial reporting matters including a general review of the unaudited interim financial results for the six months ended 30 June 2020.

On behalf of the Board
