Chairman's Statement

Dear Shareholders,

On behalf of the board of directors (the “**Board**”), I hereby present to the shareholders the final results of Vision Values Holdings Limited (the “**Company**”) and its subsidiaries, (collectively the “**Group**”) for the year ended 30 June 2020 (the “**Financial Year**”).

FINANCIAL RESULTS SUMMARY

- Revenue for the Financial Year was HK\$64.9 million (2019: HK\$54.0 million).
- Loss attributable to owners of the Company was HK\$108.3 million (2019: HK\$66.6 million).
- Basic loss per share attributable to owners of the Company was HK cents 2.76 (2019: HK cents 1.7).

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

1. Network Solutions and Project Services (“NSPS”)

The revenue achieved by NSPS during the Financial Year was HK\$18.2 million (2019: HK\$19.8 million). A slight decrease of 8% from last corresponding year. A breakdown of the revenue from NSPS was as follows:

- (i) Telecom solutions was HK\$1.6 million (2019: HK\$6.0 million);
- (ii) Enterprise solutions was HK\$1.4 million (2019: HK\$2.7 million);
- (iii) Project services was HK\$13.8 million (2019: HK\$9.8 million); and
- (iv) System maintenance was HK\$1.4 million (2019: HK\$1.3 million)

The segment result of NSPS dropped to HK\$3.1 million (2019: HK\$3.9 million) was mainly due to the change of product mix. Sales revenue from telecom solutions dropped significantly but project services recognized a 40.8% growth in revenue. Products from telecom solutions tend to generate higher gross profit margins while profit margins for project services are relatively thin.

Since COVID-19 pandemic starting from early 2020, both the global and the local economies are seriously affected. All the commercial activities, in particular retail segment, are subject to different degree of interruption. Under this backdrop, the business of telecom solutions and enterprise solutions were badly hit. Fortunately, the growth of revenue from project services counteracted the poor performance of other product segments. The main driver of the growth of business for project services was due to the receiving of various work orders from a Hong Kong telecom operator to upgrade its 4G base stations to support new 5G telecommunication requirements.

Chairman's Statement (Continued)

2. Property Investment

The policy of the Group's investment properties is holding to earn rentals and/or for capital appreciation. The management will review the Group's property portfolio from time to time in order to achieve this policy. The revenue for the Financial Year was HK\$6.6 million (2019: HK\$6.1 million). At the end of the Financial Year, all the investment properties were renting out except for the commercial building at 17/F., Henan Building, Wan Chai, Hong Kong.

3. Yacht Construction and Trading

During the Financial Year, the building team had carried out routine inspection and rectified certain cabling and wiring works in order to ensure the finished yacht would meet the highest safety standard. During the Financial Year, we faced unnecessary delay in construction due to the implementation of precautionary measures at shipyard to minimise the risk of contracting and spreading COVID-19. Based on our current work plan, the sea trial of the yacht will be carried out by the end of 2020 at the earliest.

4. Exploration and Evaluation of Mineral Resources

FVSP LLC ("**FVSP**"), a 51% owned indirect subsidiary, held an exploration license number 13593 (the "**Exploration License**") with gold and other mineral resources in Mongolia during the Financial Year. In accordance with our schedule, FVSP applied for a mining license in respect of certain portion of the Exploration License area in April 2020. The mining license was eventually granted by the Mongolian government in July 2020 for an initial period of 30 years.

The mining license with an area of approximately 7,120 hectares is located at Altai soum of Gobi-Altai aimag and named as Zoolon hard rock gold deposit. Based on the updated information, the estimated mineral resource in the main target area is approximately 7.2 tonnes of gold under category B (measured) and 4.8 tonnes of gold under category C (indicated). The resource estimation is under Mongolian official standard. The average grade is 0.81g/t gold equivalent. Apart from gold, the mineral resources (both B and C categories) also include:

- 195.1 tonnes of silver with average grade of 13.16g/t;
- 2,113.2 tonnes of copper with average grade of 142g/t;
- 11,386.4 tonnes of lead with average grade of 765g/t; and
- 28,016.5 tonnes of zinc with average grade of 1,881g/t.

5. Private Jet Management Services ("PJM")

At the end of the Financial Year, four private jets were under aircraft management contracts and one aircraft under ad hoc management. During the Financial Year, two ad hoc management contracts were terminated. The revenue for the Financial Year was HK\$40.1 million (2019: HK\$28.1 million). The sharp increase in revenue was due to two more aircrafts under management contracts when compared to last corresponding year. During the Financial Year, the business of PJM was also affected by the COVID-19 pandemic. The COVID-19 pandemic has had a significant negative impact on air travel due to travel restrictions in various countries and in turn causing a slump in demand among travelers. Accordingly, our handling income from trip related services for our fleet under management was also decreased.

FINANCIAL REVIEW

1. Results Analysis

Revenue

During the Financial Year, the Group's revenue increased to HK\$64.9 million (2019: HK\$54.0 million). Around 61.8% (2019: 52.0%) of the Group's revenue was generated from the private jet management services. The Group's another core business is NSPS and it contributed around 28.0% (2019: 36.7%) of the total revenue. The remaining revenue was generated from property investment.

Other losses, net

Other losses net against other gains were HK\$17.8 million (2019: HK\$55.9 million). At the end of the Financial Year, the management of the Group had assessed the net realizable value of the yacht under construction, taking the estimated costs to completion and the latest market prices less selling expenses into consideration. An independent valuer is appointed to carry out valuation and concluded that the assessed net realisable was below the carrying amount of the yacht under construction. Accordingly, an impairment of HK\$19.8 million (2019: nil) was made. In last financial year, three exploration licenses owned by the Group were either surrendered or returned to Mongolian government and the related impairment loss of HK\$56.6 million was recognized.

Fair value losses on investment properties

The fair values of the Group's investment properties at the end of the Financial Year were valued by an independent qualified valuer. The net decrease in carrying values consisted of (i) fair value loss on investment properties of HK\$40.2 million (2019: HK\$6.2 million) and (ii) loss on currency translation of HK\$1.3 million on our investment properties in China (2019: HK\$1.3 million). The COVID-19 outbreak has taken its toll on Hong Kong's economy. As market sentiment continues to weaken, the property market in particular the commercial sector is suffered from downward pressure.

Employee benefit expenses

The increase of employee benefit expenses was due to share-based payment expenses of HK\$21.4 million (2019: HK\$5.7 million) recognized in respect of share options granted on 25 March 2020.

Other expenses

The main components of other expenses are:

- (a) auditor's remuneration of HK\$1.4 million (2019: HK\$1.5 million);
- (b) legal and professional fee of HK\$3.1 million (2019: HK\$4.0 million); and
- (c) reimbursement of sharing of administrative services at cost basis of HK\$6.9 million (2019: HK\$6.2 million).

Finance costs

For the Financial Year, finance costs increased to HK\$1.4 million (2019: HK\$0.02 million). The increase in finance costs was mainly due to the increase in borrowings.

Chairman's Statement (Continued)

2. Liquidity and Financial Resources

The Group had a short-term revolving bank loan facility totaling HK\$38.0 million as at the end of the Financial Year (2019: HK\$38.0 million), all of which had been drawn and outstanding. The bank loan facility is secured by an office premise and two parking spaces under the Group's investment properties portfolio. The interest costs of the bank borrowings was charged at Hong Kong interbank offer rate ("HIBOR") plus 1.8% per annum. In addition, Mr. Lo Lin Shing, Simon ("Mr. Lo"), being the Chairman and Director of the Company has provided a revolving standby facility amounting to HK\$16.0 million by way of advances to the Group. The advances from Mr. Lo is unsecured, charged interest at HIBOR plus 3% per annum and repayable on or before 31 December 2021. As at 30 June 2020, advances from Mr. Lo amounted to HK\$8.7 million (2019: nil).

3. Gearing

As at 30 June 2020, the gearing ratio of the Group was 9.7% (2019: 1.1%) which was calculated based on the Group's total borrowings to total assets.

4. Foreign Exchange

The key operations of the Group are located in Hong Kong, China and Mongolia. The Group's assets and liabilities are mainly denominated in Hong Kong dollars, United States dollars and Renminbi. The Group does not establish a foreign currency hedging policy. However, management of the Group continues to monitor foreign exchange exposure and will consider hedging significant currency exposures should the need arise.

5. Contingent Liabilities

As at 30 June 2020, the Group did not have material contingent liabilities (2019: nil).

BUSINESS OUTLOOK AND DEVELOPMENT

The economic turmoil unleashed by the outbreak of COVID-19 is hurting local economies, regardless of income level. Economy will be rebounded only when the COVID-19 pandemic dies down. Presently, all our business segments are negatively impacted by the COVID-19 pandemic to a certain degree.

For NSPS, the total contract values on hand was approximately HK\$11.3 million as at 30 June 2020. Among this contract sum, HK\$8.7 million is belonged to the project services. Most of the business of project services are coming from a Hong Kong telecom operator. The installation contract with this telecom operator is going to expire in November 2020 and a new tender is underway. There is a high chance for NSPS to win this new tender. However, the business of NSPS will be significantly diminished if our bidding is flopped.

For the property investment segment, we try the best to support our tenants during the present difficult times. After the Financial Year, we have either offered rental concession or renewal of tenancy on shorter than normal term on a case-to-case basis. Being a responsible corporate citizen, we are pleased to offer these relief measures to support our communities even at the cost of decrease in revenue.

Following the grant of the gold mining license in Mongolia, the Group is assessing the best options available to develop our gold mine. Our geologist is going to team up with independent professional parties to work out a feasibility plan for Zoolon gold deposit. Our geologist has also identified other target locations within our gold mining license area which are worthwhile for further study. A new exploration program will be conducted in coming financial year.

The business of PJM will be flourished if there are more private jets under full management. The management of PJM will strive to expand the fleet under management but subject to the easing of worldwide lockdown restrictions.

Chairman's Statement (Continued)

APPRECIATION

On behalf of the Board, I would like to take this opportunity to express my sincere gratitude to all our management and colleagues for their valuable contribution to the Group. Moreover, I would also like to express appreciation to our valued shareholders, customers and business partners who have stood by the Group.

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

The Board recognises the importance of maintaining a high standard of corporate governance practices to protect and enhance the benefits of the shareholders. The Board and the management of the Company have collective responsibility to maintain the interest of the shareholders and the sustainable development of the Group. The Board also believes that good corporate governance practices can facilitate growth of a company under a healthy governance structure and strengthen the confidence of shareholders and investors.

During the Financial Year, the Company had applied the principles of and complied with the code provisions of the Corporate Governance Code (the “**CG Code**”) as set out in Appendix 14 to the Rules Governing the Listing of Securities (the “**Listing Rules**”) on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”), save for the following deviations:

- i. Code provision A.2.1 of the CG Code stipulates that the roles of chairman and chief executive officer (“**CEO**”) should be separate and should not be performed by the same individual.

Mr. Lo is the chairman of the Company and has also carried out the responsibility of CEO. Mr. Lo possesses the essential leadership skills to manage the Board and extensive knowledge in the business of the Group. The Board considers the present structure is more suitable for the Company because it can promote the efficient formulation and implementation of the Company’s strategies.

- ii. Under the code provision A.4.1 of the CG Code, non-executive directors should be appointed for a specific term and subject to re-election.

None of the existing Independent Non-executive Directors, is appointed for a specific term which constitutes a deviation from the code provision A.4.1 of the CG Code. However, they are subject to retirement by rotation in accordance with the provisions of the Company’s articles of association (the “**Articles**”). Therefore, the Company considers that sufficient measures have been taken to ensure that the Company’s corporate governance practices are no less exacting than those of the CG Code.

- iii. Code provisions A.5.1 to A.5.4 of the CG Code require a nomination committee to be set up, chaired by the chairman of the board or an independent non-executive director to review the structure, size and composition of the board at least annually to complement the issuer’s corporate strategy.

The Company has not set up a nomination committee as required. The Board considers that it should be the responsibility of the full Board to review these matters and make decisions from time to time. The Board has already set out the criteria for selection of a director under its internal policy. According to the Articles, any newly appointed Directors shall hold office only until the next annual general meeting (“**AGM**”) and shall then be eligible for re-election at that meeting. Furthermore, the Director re-election process participating by the shareholders in the AGM and the rights of shareholders to nominate a Director both ensure a right candidate to be selected to serve the Board effectively.

- iv. Code provision E.1.2 of the CG Code stipulates that the chairman of the board should attend the AGM of the Company.

Due to another business engagement, the chairman of the Board did not attend the 2019 AGM. An executive Director had chaired the 2019 AGM and answered shareholders’ questions. The AGM of the Company provides a channel for communication between the Board and the shareholders. The chairman of the Audit and Remuneration committees of the Company was also present and available to answer questions at the 2019 AGM.

Corporate Governance Report (Continued)

COMPLIANCE WITH MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted its own Code for Securities Transactions by the Directors (the “**Code**”), which are on terms no less exacting than those set out in the Model Code for Securities Transactions by Directors of Listed Issuers in Appendix 10 to the Listing Rules (the “**Model Code**”). The Code is sent to each Director on his/her initial appointment and from time to time when the same is amended or restated.

The Company has also established written guidelines on terms no less exacting than the Model Code (the “**Employees’ Guidelines**”) for securities transactions by relevant employees of the Group who are likely to be in possession of unpublished inside information of the Company. During the Financial Year, no incident of non-compliance with the Employees’ Guidelines by the employees was noted by the Company.

During the period of sixty days immediately preceding and including the publication date of the annual results or, if shorter, the period from the end of the relevant financial year up to and including the publication date of the annual results, all Directors and relevant employees are restricted to deal in the securities and derivatives of the Company until such results have been published.

During the period of thirty days immediately preceding and including the publication date of the half year results or, if shorter, the period from the end of the relevant financial quarterly or half year period up to and including the publication date of the half year results, all Directors and relevant employees are restricted to deal in the securities and derivatives of the Company until such results have been published.

The Company Secretary will send reminders prior to the commencement of such period to all Directors and relevant employees. Having made specific enquiry by the Company, all Directors have confirmed in writing that they have complied with the required standards set out in the Model Code and the Code throughout the Financial Year.

DIRECTORS AND OFFICERS LIABILITY INSURANCE

Good corporate governance and enterprise-wide risk management are essential for every business. The Company is convinced that corporate governance and Directors and Officers Liability Insurance (the “**D&O Insurance**”) complement each other. The Company has arranged appropriate D&O Insurance for the Directors and officers of the Group for indemnifying their liabilities arising from corporate activities. The D&O Insurance coverage is reviewed on an annual basis.

In designing the Board’s composition, Board diversity would be considered from a number of aspects, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. All Board appointments will be based on meritocracy, and candidates would be considered against objective criteria, having due regard for the benefits of diversity on the Board. The Board Diversity Policy has been published on the Company’s website. Besides, the Company has also adopted a Nomination Policy for recruitment of members of the Board.

The Board will review its composition regularly to ensure that it has a balance of expertise, skills and experience appropriate to the business and development of the Company. The shareholders may propose a candidate for election as a director and the procedures have been published on the website of the Company.

All Independent Non-executive Directors are financially independent from the Company and any of its subsidiaries. The Company has received written annual confirmation of independence from each Independent Non-executive Directors pursuant to Rule 3.13 of the Listing Rules. Accordingly, the Company considers all Independent Non-executive Directors to be independent.

Corporate Governance Report (Continued)

APPOINTMENT AND RE-ELECTION OF DIRECTORS

Potential new Directors are identified and considered for appointment by the Board. A Director appointed by the Board is subject to election by shareholders at the first AGM after his or her appointment, and all executive and non-executive Directors are subject to re-election by shareholders every three years. The general requirements for consideration include but not limited to his or her independence, availability, motivation, standing and business experience. The criteria have been set out in the Nomination Policy for Recruitment of Board Members, and published on the Company's website.

Potential new Board members are identified on the basis of skills and experience with reference to the Nomination Policy for recruitment of Board members and Board Diversity Policy adopted by the Company which, in the opinion of the Directors, will enable them to make a positive contribution to the performance of the Board. Full details of the Board during the Financial Year and up to the date of this report are provided in the section of this annual report headed Directors' Report.

RESPONSIBILITIES AND FUNCTIONS OF THE BOARD

The Board is responsible for formulating the strategic business development, reviewing and monitoring the business performance of the Group, as well as preparing and approving the consolidated financial statements. The Board is also responsible for developing and reviewing the Company's policies on corporate governance and making recommendations. The Board as a whole and the management of the Company shall ensure good corporate governance practices and procedures are followed.

The Directors, collectively and individually, are aware of their responsibilities to shareholders, for the manner in which the affairs of the Company are managed and operated. In the appropriate circumstances and as when necessary, Directors will consent to the seeking of independent professional advice at the Group's expense, ensuring that Board procedures, and all applicable rules and regulations, are followed.

The Board may delegate the management powers to the management of the Company. However, the delegation of power does not absolve the Directors from their responsibilities of exercising requisite skill, care and diligence in overseeing the performance of the Company. The Board can meet the management of the Company from time to time to discuss the operating issues of the Group. The Company has also issued formal appointment letters to all the Directors setting out the key terms and conditions of their respective appointments.

In order to enable the Directors to discharge their duties effectively, each Director has separate and independent access to members of the management to make enquiries or obtain necessary information. They may also seek advices and services from external experts and consultants at the Company's expense for the purpose of facilitating them to make an informed decision.

All the independent non-executive Directors, are not involved in daily management. The independent non-executive Directors also give independent views on the deliberations of the Board and ensure high standards of corporate governance and financial probity.

Corporate Governance Report (Continued)

The Board is also responsible for performing the following corporate governance duties:

- i. to develop and review the Company's policies on corporate governance and make recommendations;
- ii. to review and monitor the training and continuous professional development of the Directors and management;
- iii. to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;
- iv. to develop, review, and monitor the code of conduct of employees and Directors; and
- v. to review the Company's compliance with the code and disclosure in the Corporate Governance Report.

During the Financial Year, the Board:

- i. reviewed the performance of the Group and formulated business strategies of the Group;
- ii. reviewed and approved the annual and interim results of the Group;
- iii. reviewed the internal controls of the Group;
- iv. reviewed the corporate governance procedures;
- v. reviewed and proposed the general mandates to issue and repurchase shares of the Company at the AGM for the approval by the shareholders of the Company;
- vi. reviewed and approved the independent auditor's remuneration and recommended the re-appointment of Messrs. PricewaterhouseCoopers ("PwC") as the independent auditor of the Company respectively; and
- vii. reviewed and approved the inside information announcements.

During the Financial Year, the Board had not amended the Dividend Policy of the Company. Under the policy, the Board may propose payment of dividends for a financial year by taking into account the relevant factors when considering the proposal, and these factors include, among others, the actual and expected financial performances of the Group, retained earnings and distributable reserves, the level of the Group's debts, return on equity and the relevant financial covenants that may be imposed by the Group's lenders, the Group's expected working capital requirements and future capital expenditure plans, general economic conditions, internal and/or external factors that may have an impact on the business or financial performance of the Group, etc. The Dividend Policy has been published and posted on the Company's website.

Corporate Governance Report (Continued)

To the best knowledge of the Company, apart from the family relationship between Mr. Lo, Mr. Lo, Rex Cze Kei and Mr. Lo, Chris Cze Wai, there is no financial, business and family relationship among our Directors. All of them are free to exercise their independent judgments.

The Directors are aware of their commitments to the Company for contributing sufficient time and attentions to the management of the Company.

ACCOUNTABILITY AND AUDIT

The Directors acknowledge their responsibility for preparing the consolidated financial statements of each financial period, which give a true and fair view of the state of affairs of the Group and of the results and cash flow for that period. The Directors also ensure that the consolidated financial statements of the Group are prepared in accordance with the statutory requirements and applicable accounting policies.

The statement of the independent auditor of the Company about their reporting responsibilities on the consolidated financial statements is set out in the Independent Auditor's Report on pages 32 to 38.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board is responsible for the risk management and internal control systems of the Group so as to maintain sound and effective risk management and internal control to safeguard the shareholders' investment and the assets of the Group.

The Board has established an on-going process for identifying, evaluating and managing the significant risks faced by the Group. This process includes continuous updating of the risk management and internal control systems of the Group in response to the changing business environment and regulatory requirements. The Group identifies risks relevant to its operations and activities, and assesses these risks in relation to their likelihood and potential impacts. The Group's internal control system includes a well-defined management structure with clear lines of authority, which is designed to achieve business objectives, safeguard assets against unauthorized use or disposition, ensure proper maintenance of books and records for the provision of reliable financial information for internal use or publication, and ensure compliance with relevant legislations and regulations. Such systems are designed to manage, rather than eliminate the risk of failure to achieve business objectives, and aims to provide a reasonable, as opposed to an absolute assurance against material misstatement or loss. Besides, strict internal procedures and controls are implemented by the Group for the handling and dissemination of inside information.

The Board also conducts reviews of the risk management and internal control of the Group to ensure that the policies and procedures in place are adequate. The Board assesses the effectiveness of the Group's risk management and internal control systems which covers all material control, including financial, operational and compliance control and risk management functions.

During the Financial Year, the Group engaged a professional advisory firm to be its internal auditor (the "**Internal Auditor**"). The Internal Auditor is reported directly to the Audit Committee. The Internal Auditor adopts a risk-based approach and independently review and test the controls over various selected operations and activities and evaluates their adequacy, effectiveness and compliance on an annual or ad hoc basis. Internal audit findings and recommendations are reported to the Audit Committee. In addition, progress on audit recommendations implementation will be followed up on a regular basis and discussed with the Audit Committee.

Corporate Governance Report (Continued)

During annual review, the Audit Committee also considers the adequacy of resources, qualifications and experience of staff of the Group, and training programs and budgets of the Group's accounting, internal audit and financial reporting functions. Based on the results of evaluations and representations made by the Internal Auditor and the independent auditor for the Financial Year, the Audit Committee was satisfied that there was an ongoing process for identifying, evaluating and managing the significant risks faced by the Group that would threaten the achievement of its business objectives; and an appropriate, effective and adequate system of internal control and enterprise risk management had been in place during the Financial Year.

To enhance the effectiveness of the risk management and internal control, the Company Secretary will ensure the Board and the Board Committees are provided with timely information and sufficient resources to enable them to efficaciously discharge their duties.

DIRECTORS' TRAININGS AND CONTINUOUS PROFESSIONAL DEVELOPMENT

All Directors should participate in continuous professional development to develop and refresh their knowledge and skills in their roles as directors pursuant to code provision A.6.5 of the CG Code. The Company Secretary updates and provides written materials on the latest developments of applicable laws, corporate governance issues, rules and regulations to the Directors from time to time.

During the Financial Year, all the Directors, namely Mr. Lo, Mr. Ho Hau Chong, Norman, Ms. Yvette Ong, Mr. Lo, Rex Cze Kei, Mr. Lo, Chris Cze Wai, Mr. Tsui Hing Chuen, William JP, Mr. Lau Wai Piu and Mr. Lee Kee Wai, Frank, had participated in appropriate continuous professional development activities by ways of attending trainings and/or reading materials relating to the latest development of Listing Rules and other regulatory requirements relevant to the Group, general business or directors' duties and responsibilities, etc.

CHAIRMAN AND CHIEF EXECUTIVE

The Chairman leads the Board in the determination of strategies and in the achievement of objectives and ensures that all directors are properly briefed on issues arising at the Board meetings and receive adequate, complete and reliable information. The Chief Executive is delegated with the authority and responsible for running the Company's business, implementing the Company's strategies in achieving business objectives. Both the Chairman and the Chief Executive positions are currently held by Mr. Lo. The Board believes that the current governance structure, with a combined Chairman and Chief Executive and more than one-third of the Board is non-executive directors, provides an effective balance of power and authority for the management of the Company and its in the best interest of the Company at the present stage.

INDEPENDENT NON-EXECUTIVE DIRECTORS

None of the existing Independent Non-executive Directors is appointed for a specific term.

Corporate Governance Report (Continued)

BOARD COMMITTEES

The Board has established the Remuneration Committee and the Audit Committee, with specific terms of reference relating to their authorities and duties, which strengthen the Board's functions and enhance its expertise.

Each committee makes decisions on matters within its terms of reference and applicable limits of authority. The terms of reference as well as the structure and membership of each committee will be reviewed from time to time.

REMUNERATION COMMITTEE

The Remuneration Committee is chaired by Mr. Lau Wai Piu with Mr. Tsui Hing Chuen, William *JP* and Mr. Lee Kee Wai, Frank as members. The Company has also appointed an external consultant to review and compare the level of compensation paid to the Directors with the prevailing market rates and give recommendation, and to review and study the remuneration level of the senior management of the Company and give recommendation.

The main responsibilities of the Remuneration Committee include, but are not limited to, making recommendations to the Board on the Company's policy and structure for remuneration of all the Directors and senior management, reviewing and approving the special remuneration packages of all Executive Directors with reference to corporate goals and objectives resolved by the Board from time to time and by making recommendations to the Board on the remuneration packages of individual Executive Directors.

The terms of reference of the Remuneration Committee which was revised and adopted in March 2012 are in line with the requirements of the Listing Rules. Details of the terms of reference of the Remuneration Committee can be viewed on both the websites of the Stock Exchange and the Company.

During the Financial year, the Remuneration Committee:

- (i) reviewed and made recommendations on the remuneration policies; and
- (ii) reviewed the remuneration packages of the Directors and the senior management.

AUDIT COMMITTEE

The Audit Committee is chaired by Mr. Lau Wai Piu with Mr. Tsui Hing Chuen, William *JP*, and Mr. Lee Kee Wai, Frank as members. All members are Independent Non-executive Directors. The Chairman of the Audit Committee has the appropriate professional qualification, accounting and related financial management expertise as required by the Listing Rules.

The main responsibilities of the Audit Committee include, but are not limited to, reviewing the Company's current financial standing, considering the nature and scope of audit reports, and ensuring internal control and risk management systems operate in accordance with applicable standards and conventions.

COMMUNICATION WITH SHAREHOLDERS

The Company is committed to maintaining an ongoing communication with the shareholders and providing timely disclosure of information concerning the Group's material developments to the shareholders and investors.

Updated information about the announcements of the Group and the Company is posted on our website in a timely manner. The shareholders can communicate with the Company or the Board through the contact information provided on the website and in the general meetings of the Company.

The Company has complied with the Listing Rules regarding the requirements about voting by poll. An explanation will be provided by the chairman of a general meeting on the detailed procedures for conducting a poll. Specific enquiries by shareholders requiring the Board's attention can be sent in writing to the Company Secretary at the Company's principal place of business in Hong Kong.

SHAREHOLDERS' RIGHTS

The Company has only one class of shares. All shares have the same voting rights and entitlement to any dividend declared. The rights of our shareholders are set out in, among others, the Articles and the Companies Law of the Cayman Islands.

CONVENING A GENERAL MEETING

Pursuant to Article 72 of the Articles, general meetings shall be convened on the written requisition of any two or more shareholders of the Company or on the written requisition of any one shareholder which is a recognised clearing house, deposited at the principal place of business of the Company in Hong Kong for the attention of the Company Secretary, specifying the objects of the meeting and signed by the requisitionists, provided that such requisitionists hold as at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company which carries the right of voting at the general meetings of the Company.

If the Board does not within twenty-one days from the date of deposit of the requisition proceed duly to convene the meeting, the requisitionists themselves or any of them representing more than one-half of the total voting rights of all of them, may convene a general meeting in the same manner, as nearly as possible, as that in which meeting may be convened by the Board provided that any meeting so convened shall not be held after the expiration of three months from the date of deposit of the requisition, and all reasonable expenses incurred by the requisitionists as a result of the failure of the Board to convene the meeting shall be reimbursed to them by the Company.

PROPOSING FOR ELECTION AS A DIRECTOR

If a shareholder wishes to propose a person other than a retiring Director of the Company for election as a Director at any general meeting, he/she can deposit a written notice to that effect at the principal place of business of the Company for the attention of the Company Secretary.

In order for the Company to inform its shareholders of that proposal, the written notice must state the full name of the person proposed for election as a Director, include the person's biographical details as required by Rule 13.51(2) of the Listing Rules, and be signed by the shareholder concerned and that person indicating his/her willingness to be elected. The period for lodgment of such a written notice will commence no earlier than the day after the despatch of the notice and end no later than seven days prior to the date of any general meeting.

Save as disclosed above, at no time during the Financial Year was the Company or any of its subsidiaries a party to any other arrangements to enable the Directors or chief executive or any of their spouse or children under 18 years of age to acquire benefits by means of the acquisition of shares in or debentures of the Company, its subsidiaries or any other body corporate.

Directors' Report (Continued)

CONNECTED TRANSACTIONS

During the Financial Year, there were no connected transactions and continuing connected transactions which were required to be disclosed in accordance with the requirements of the Listing Rules.

None of the related party transactions as set out in Note 34 to the consolidated financial statements constituted a discloseable connected transaction under Chapter 14A of the Listing Rules.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the Financial Year, neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities.

TAX RELIEF AND EXEMPTION

The Company is not aware of any tax relief and exemption available to shareholders by reason of their holding of the Company's securities.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Articles and there was no restriction against such rights under the laws of Cayman Islands, which would oblige the Company to offer new shares on a pro-rata basis to existing shareholders.

EMOLUMENT POLICY

As at 30 June 2020, the Group had employed a total of 38 full-time employees (2019: 39). The emolument policy regarding the employees of the Group is based on their merit, qualifications and competence. The emoluments of the Directors are reviewed and determined by the Remuneration Committee, having regard to the Company's operating results, individual performance and comparable market statistics. No Director, or any of his/her associates involved in deciding his/her own remuneration.

The Company has adopted a share option scheme as incentive to Directors and eligible employees, and details of the scheme are set out in Note 28 to the consolidated financial statement and the Share Option Scheme on pages 27 to 29.

Directors' Report (Continued)

RETIREMENT BENEFITS SCHEME

Details of the retirement benefits scheme operated by the Group are set out in Note 3.14(a) to the consolidated financial statements.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the Directors, the Company maintained the prescribed public float under the Listing Rules throughout the Financial Year.

INDEPENDENT AUDITOR

The consolidated financial statements have been audited by PwC who retire and, being eligible, offer itself for re-appointment.

Independent Auditor's Report

羅兵咸永道

TO THE SHAREHOLDERS OF VISION VALUES HOLDINGS LIMITED

(incorporated in Cayman Islands with limited liability)

OPINION

WHAT WE HAVE AUDITED

The consolidated financial statements of Vision Values Holdings Limited (the “**Company**”) and its subsidiaries (the “**Group**”) set out on pages 39 to 104, which comprise:

- the consolidated statement of financial position as at 30 June 2020;
- the consolidated statement of profit or loss for the year then ended;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

OUR OPINION

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 30 June 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENCE

We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (“**the Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are summarised as follows:

- Fair values of investment properties
- Impairment of exploration and evaluation assets
- Impairment of work in progress in respect of yacht building segment

Key Audit Matter	How our audit addressed the Key Audit Matter
Fair values of investment properties	
<p>Refer to Note 5(a) and Note 18 to the consolidated financial statements.</p> <p>As at 30 June 2020, the carrying amount of the investment properties was HK\$301.1 million, which were stated at fair values. Fair value losses for investment properties of HK\$40.2 million were accounted for in the Group's consolidated statement of profit or loss for the year ended 30 June 2020.</p> <p>Fair values of the investment properties of the Group were supported by valuations performed by an independent external valuer and are derived using the direct comparison method. The valuations of investment properties were dependent on certain key assumptions that required significant management judgement, including price per square metre.</p> <p>We focused on this area since the carrying amounts of the investment properties are significant to the consolidated financial statements and determination of key valuation assumptions requires the use of significant judgement and estimates.</p>	<p>Our audit procedures in relation to management's assessment on the fair values of investment properties included:</p> <ul style="list-style-type: none">– Evaluated the competence, capability and objectivity of the independent external valuer by considering their qualification, experience in the locations and segment of the investment properties valuation;– Discussed with the external valuer and management to understand the valuation method and the key assumptions applied;– Assessed the appropriateness of the valuation method used based on our knowledge of the industry and the assistance from our in-house valuation specialist; and– Assessed the reasonableness of key assumptions applied by comparing to market and industry data, including comparable properties' market price. <p>Based on procedures described, we found that the valuation method used and key assumptions applied in the valuation to be supportable by available evidence.</p>

KEY AUDIT MATTERS (Continued)

Key Audit Matter	How our audit addressed the Key Audit Matter
<p>Impairment of exploration and evaluation assets</p> <p>Refer to Note 5(b) and Note 19 to the consolidated financial statements.</p> <p>As at 30 June 2020, the carrying amount of the exploration and evaluation assets of the Group was HK\$53.8 million. Exploration and evaluation assets were stated at cost less any accumulated impairment loss. No impairment loss on exploration and evaluation assets was recognised in consolidated statement of profit or loss for the year ended 30 June 2020.</p> <p>Management judgement was required to assess whether there is indication that the exploration and evaluation assets may be impaired. Areas of significant judgements involved in the management's assessments included evaluating the status of exploration licenses, the likely future commercial viability of the exploration and evaluation assets and the budget for the future development cost.</p> <p>We focused on this area due to the significant judgement involved in identifying the existence of any impairment indicator.</p>	<p>Our audit procedures in relation to management's assessment of impairment indicators of exploration and evaluation assets included:</p> <ul style="list-style-type: none">– Evaluated management's assessment on the status of exploration licenses by checking to the exploration licenses and discussed with management about the likelihood of renewal of the exploration rights upon expiry;– Evaluated the competency and capabilities of the management's internal mining expert and external experts, by assessing their qualifications and experience in the industry;– Interviewed the management's internal mining expert and understood the rationale in (i) determining the likely future commercial viability of the exploration and evaluation assets; and (ii) supporting management's intention to continue the exploration and evaluation activities, based on the findings from the technical reports prepared by the management's internal mining expert;– Corroborated certain key information included in the technical reports prepared by the management's internal mining expert with the relevant external experts' reports obtained by management. These reports include geophysical survey reports and laboratory reports for which the technical reports were based upon; and– Evaluated the effectiveness of the budgeting process for future development cost, and compared the exploration and evaluation costs incurred during the year to prior year management's approved budget to assess whether the cost incurred is budgeted or planned, and the reasonableness of the budget for the future development cost. <p>Based on the procedures described, we found that management's assessments on existence of impairment indicators for exploration and evaluation assets were supportable by available evidence.</p>

KEY AUDIT MATTERS (Continued)

Key Audit Matter	How our audit addressed the Key Audit Matter
<p>Impairment of work in progress in respect of yacht building segment</p> <p>Refer to Note 5(c), Note 8 and Note 22 to the consolidated financial statements.</p> <p>As at 30 June 2020, the Group's work in progress in respect of yacht building segment amounted to HK\$83.8 million, net of provision for impairment of HK\$19.8 million.</p> <p>The carrying amounts of work in progress in respect of yacht building segment were stated at the lower of cost and net realisable value. The management assessed the net realisable value of the work in progress in respect of yacht building segment, taking into account the costs to completion for the yacht building and the latest market prices less selling expenses based on the prevailing market conditions. The recoverable amount of the work in progress in respect of yacht building segment was supported by valuation performed by an independent external valuer and was derived using the market approach.</p> <p>During the year ended 30 June 2020, an impairment provision of HK\$19.8 million was recognised in consolidated statement of profit or loss.</p> <p>We focused on this area due to the significant judgement involved in determining the net realisable value of the work in progress in respect of yacht building segment.</p>	<p>Our audit procedures in relation to management's assessment of impairment of work in progress in respect of yacht building segment included:</p> <ul style="list-style-type: none">– Evaluated the competence, capability and objectivity of the independent external valuer by considering their qualification, experience in the locations and segment of the yacht valuation;– Assessed the appropriateness of the valuation method used based on our knowledge of the industry;– Assessed management's estimates on anticipated cost to completion with reference to approved budgets and historical costs incurred; and– Evaluated management's estimates on selling prices and selling expenses in determining the net realisable value based on prevailing market conditions by researching the selling prices and selling expenses of comparable yachts from public available resources; <p>Based on the procedures described, we found that management's judgements and estimates on the net realisable value of work in progress in respect of yacht building segment were supportable by available evidence.</p>

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

Independent Auditor's Report (Continued)

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Independent Auditor's Report (Continued)

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Cheung Kin Bong.

Notes to the Consolidated Financial Statements

1 GENERAL INFORMATION

Vision Values Holdings Limited (the “**Company**”) and its subsidiaries (together the “**Group**”) are principally engaged in the provision of network solutions and project services, property investment, yacht building in Hong Kong, minerals exploration in Mongolia and provision of private jet management services in Hong Kong.

The Company is a limited liability company incorporated in the Cayman Islands. The address of its principal place of business is Unit 902, 9/F., Shui Hing Centre, 13 Sheung Yuet Road, Kowloon Bay, Hong Kong.

The Company is listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”).

These consolidated financial statements are presented in Hong Kong dollars (“**HK\$**”), unless otherwise stated.

2 BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“**HKFRS**”) issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”). The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of investment properties, which are stated at fair value.

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.1 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

(a) New standards, amendments to standards and interpretations to existing standards adopted by the Group

The following amendments to standards are mandatory for the accounting period beginning on 1 July 2019 and relevant to the Group. The adoption of these amendments to standards has no material impact on the financial positions and results of the Group for the current and prior periods.

Amendments to Annual Improvements Project	Annual improvements 2015 – 2017 cycle
Amendments to HKFRS 9	Prepayment features with negative compensation
Amendments to HKAS 19	Plan amendment, curtailment or settlement
Amendments to HKAS 28	Long-term interests in associates and joint ventures
HKFRS 16	Leases
HK(IFRIC)-Int 23	Uncertainty over income tax treatments

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.1 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(a) **New standards, amendments to standards and interpretations to existing standards adopted by the Group (Continued)**

The Group changed its accounting policies for leases with effect from 1 July 2019 following the adoption of HKFRS 16 “Leases” (“HKFRS 16”) as disclosed in Note 3.1(c) below. All other amendments to standards and interpretation listed above do not have significant effect on the Group’s accounting policies.

(b) **New standards and amendments to standards that have been issued but are not effective**

The following new and amended standards and interpretations have been issued but are not effective for the financial year beginning on 1 July 2019 and have not been early adopted by the Group:

		Effective for annual periods beginning on or after
Amendments to HKFRS 3	Definition of a business	1 July 2020
Conceptual Framework for Financial Reporting 2018	Revised conceptual framework for financial reporting	1 July 2020
Amendments to HKAS 1 and HKAS 8	Definition of Material	1 July 2020
Amendments to HKAS 39, HKFRS 7 and HKFRS 9	Hedge accounting	1 July 2020
HKFRS 17	Insurance contracts	1 July 2021
Amendments to HKFRS 10 and HKAS 28	Sale or contribution of assets between an investor and its associate or joint venture	Note

Note: To be announced by HKICPA

None of the above new standards and amendments to standards is expected to have a material impact on the consolidated financial statements of the Group in the current or future reporting periods and on foreseeable future transactions.

(c) **Change in accounting policies**

The following explains the impact of the adoption of HKFRS 16 on the Group’s consolidated financial statements. As indicated in Note 3.1(a) above, the Group has adopted HKFRS 16 from 1 July 2019, but has not restated comparatives as permitted under the specific transition provisions in the standard. The reclassifications and the adjustments arising from the new leasing rules are therefore recognised in the opening balance sheet on 1 July 2019. The new accounting policies are disclosed in Note 3.18.

On adoption of HKFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as ‘operating leases’ under the principles of HKAS 17 “Leases”. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate as of 1 July 2019. The weighted average lessee’s incremental borrowing rate applied to the lease liabilities on 1 July 2019 was 4.2%.

3.1 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(c) Change in accounting policies (Continued)

(i) *Practical expedients applied*

In applying HKFRS 16 for the first time, the Group has used the following recognition exemptions and practical expedients permitted by the standard:

- applying a single discount rate to a portfolio of leases with reasonably similar characteristics;
- relying on previous assessments on whether leases are onerous;
- accounting for operating leases with a remaining lease term of less than 12 months as at 1 July 2019 as short-term leases;
- exempting operating leases for which the underlying assets are of low value;
- excluding initial direct costs for the measurement of the right-of-use asset at the date of initial application; and
- using hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

The Group has also elected not to reassess whether a contract is, or contains a lease at the date of initial application. Instead, for contracts entered into before the transition date the Group relied on its assessment made applying HKAS 17 and HK(IFRIC)-Int 4 “Determining whether an Arrangement contains a Lease”.

(ii) *Measurement of lease liabilities*

	HK\$'000
Operating lease commitments disclosed as at 30 June 2019	3,117
Discounted using the lessee's incremental borrowing rate at the date of initial application	3,017
Less: short-term leases not recognised as a liability	(388)
Lease liability recognized as at 1 July 2019	2,629
Of which are:	
– Current lease liabilities	1,555
– Non-current lease liabilities	1,074
	2,629

3.1 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(c) Change in accounting policies (Continued)

(iii) Measurement of right-of-use assets

The associated right-of-use assets for property leases were measured at the amount equal to the lease liabilities. There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application. Right-of-use assets recognised upon the date of initial application were measured at the amount equal to the lease liabilities.

The recognised right-of-use assets relate to the following types of assets:

	As at 30 June 2020 HK\$'000	As at 1 July 2019 HK\$'000
Office premises	1,089	2,629

(iv) Adjustments recognised on the adoption of HKFRS 16

Changes in accounting policies affected the following items in the consolidated balance sheet on 1 July 2019:

Consolidated balance sheet (extract)

	As at 30 June 2019 as originally presented HK\$'000	Effects of the adoption of HKFRS 16 HK\$'000	As at 1 July 2019 Restated HK\$'000
Non-current assets			
Right-of-use assets	–	2,629	2,629
Current liabilities			
Lease liabilities	–	(1,555)	(1,555)
Non-current liabilities			
Lease liabilities	–	(1,074)	(1,074)

(v) Lessor accounting

The Group did not need to make any adjustments to the accounting for assets held as lessor under operating leases as a result of the adoption of HKFRS 16.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.2 GROUP ACCOUNTING

(a) Consolidation

Subsidiaries are entities (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the aggregate fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the consolidated statement of profit or loss.

Intra-group transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

Notes to the Consolidated Financial Statements (Continued)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.2 GROUP ACCOUNTING (Continued)

(b) Separate financial statements

Investments in subsidiaries are stated at cost less impairment. Cost also includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

Loan to subsidiaries as a long term source of addition capital is treated as part of the investment cost.

Impairment testing of the investments in subsidiaries is required upon receiving dividends from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

(c) Goodwill

Goodwill arises on the acquisition of subsidiaries represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs"), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs to sell. Any impairment is recognised immediately as an expense and is not subsequently reversed.

Notes to the Consolidated Financial Statements (Continued)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.3 PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Property, plant and equipment are depreciated at rates sufficient to write off their cost less accumulated impairment losses over their estimated useful lives on a straight-line basis. The principal annual rates are as follows:

Building	Over the remaining term of lease or estimated remaining useful life
Computer equipment	20% – 33%
Furniture, fixtures and equipment	20% – 33%
Leasehold improvements	Shorter of the lease term or 20%
Motor vehicles	20% – 25%

Historical costs of property, plant and equipment include expenditures that are directly attributable to the acquisition of the assets. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are expensed in the statement of profit or loss during the financial period in which they are incurred.

The assets' useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 3.4).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within other income/(expense) in the consolidated statement of profit or loss.

If a property, plant and equipment becomes to earn rentals and/or for capital appreciation, it is reclassified as investment property. The property is fair valued at the date of transfer and any revaluation gain or loss, being the difference between fair value and the previous carrying amount, is accounted for as a revaluation surplus or deficit in other comprehensive income.

Notes to the Consolidated Financial Statements (Continued)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.4 IMPAIRMENT OF NON-FINANCIAL ASSETS (EXCLUDING EXPLORATION AND EVALUATION ASSETS)

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

3.5 EXPLORATION AND EVALUATION ASSETS

Exploration and evaluation assets are recognised at cost on initial recognition. Subsequent to initial recognition, exploration and evaluation assets are stated at cost less any accumulated impairment losses. Exploration and evaluation assets include the cost of mining and exploration rights and the expenditures incurred in the search for mineral resources as well as the determination of the technical feasibility and commercial viability of extracting those resources.

When the technical feasibility and commercial viability of extracting mineral resources become demonstrable, previously recognised exploration and evaluation assets are reclassified as mining structures and mineral properties under property, plant and equipment. These assets are assessed for impairment annually and before reclassification.

Exploration and evaluation assets shall be assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. Such circumstances, including but not limited to, are as follows:

- the period for which the Group has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the Group has decided to discontinue such activities in the specific area; or
- sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

An impairment loss is recognised in the consolidated statement of profit or loss whenever the carrying amount of an asset exceeds its recoverable amount.

Notes to the Consolidated Financial Statements (Continued)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.6 INVESTMENT PROPERTIES

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values. Gains or losses arising from changes in the fair value of the investment property are included in the consolidated statement of profit or loss for the period in which they arise.

If an investment property becomes owner-occupied, it is reclassified as property, plant and equipment, and its fair value at the date of reclassification becomes its cost for accounting purposes.

3.7 FINANCIAL ASSETS

(i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss; and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will be recorded in profit or loss. For investments in debt instruments, this will depend on the business model in which the investment is held.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the consolidated statement of comprehensive income.

Notes to the Consolidated Financial Statements (Continued)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.7 FINANCIAL ASSETS (Continued)

(iii) Measurement (Continued)

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are one measurement category into which the Group classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in the consolidated statement of comprehensive income when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

(iv) Impairment

The Group assesses on a forward looking basis the expected credit losses associated with its financial assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

3.8 OFFSETTING OF FINANCIAL INSTRUMENTS

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

3.9 INVENTORIES

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the first-in, first-out ("**FIFO**") method, except for the cost of the yacht, which is determined using specific identification method. The cost of finished goods and work in progress comprises raw material, direct labour and related overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

3.10 TRADE AND OTHER RECEIVABLES

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

Notes to the Consolidated Financial Statements (Continued)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.11 CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash in hands, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

3.12 PROVISIONS

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

3.13 SHARE CAPITAL

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

3.14 EMPLOYEE BENEFITS

(a) Retirement Benefits

For employees in Hong Kong, a mandatory provident fund scheme (“**MPF Scheme**”) has been established pursuant to the Hong Kong Mandatory Provident Fund Scheme Ordinance under which the Group’s Hong Kong eligible employees are compulsorily required to join the MPF scheme. Employer’s mandatory contributions are 100% vested in the employees as soon as they are paid to the MPF scheme.

Contributions made by the Group under the MPF Scheme are charged to the consolidated statement of profit or loss as they become payable in accordance with the rules of the scheme. The assets of the MPF Scheme are held separately from those of the Group and managed by independent professional fund managers.

The employees of the Group’s subsidiaries which operate in Mongolia are required to participate in the social insurance scheme operated by the local government. According to the “Social Insurance Law of Mongolia”, these subsidiaries have a duty to withhold 10% from employees’ salary or similar income and 13% as employers’ contribution. Employers’ contributions are charged to the consolidated statement of profit or loss as they become payable in accordance with the social insurance scheme.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.14 EMPLOYEE BENEFITS (Continued)

(b) Employee Leave Entitlements

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(c) Bonus

Provisions for bonus due wholly within twelve months after the end of the reporting period are recognised when the Group has a present legal or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

(d) Share-based Compensation

The Group operates a share-based compensation plan, under which the entity receives services from employees as consideration for equity instruments (options) of the Group. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed is determined by reference to the fair value of the options granted, excluding the impact of any service and non-market performance vesting conditions (for example, profitability and sales growth targets).

Non-market vesting conditions are included in assumptions about the number of options that are expected to vest. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied.

At the end of each reporting period, the entity revises its estimates of the number of options that are expected to vest based on the non-marketing performance and service conditions. It recognises the impact of the revision to original estimates, if any, in the consolidated statement of profit or loss, with a corresponding adjustment to equity.

When the options are exercised, the Company issues new shares, the proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

Notes to the Consolidated Financial Statements (Continued)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.15 CURRENT AND DEFERRED INCOME TAX

The tax expense for the period comprises current and deferred tax. Tax is recognised in the consolidated statement of profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(a) Current Income Tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company's subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Notes to the Consolidated Financial Statements (Continued)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.16 TRADE PAYABLES

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

3.17 REVENUE RECOGNITION

The Group is engaged in provision of network solutions and project services and private jet management services. Revenue from providing services is recognised in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognised based on the actual service provided using the percentage of completion method, because the customer receives and uses the benefits simultaneously. If circumstances arise that may change the original estimates of revenues, costs or extent of progress toward completion, estimates are revised. These revisions may result in increases or decreases in estimated revenues or costs and are reflected in the consolidated statement of profit and loss in the period in which the circumstances that give rise to the revision become known by management. If the contract includes a monthly fee, revenue is recognised in the amount to which the Group has a right to invoice. Customers are invoiced on a monthly basis and consideration is payable when invoiced.

A contract liability is recognised when a customer pays consideration, or is contractually required to pay consideration and the amount is already due, before the Group recognises the related revenue. The Group recognised its contract liabilities under other payables and accruals as receipt in advance from customers in the consolidated balance sheet.

Rental income derived from property investment is recognised on a straight-line basis over the terms of relevant leases.

Notes to the Consolidated Financial Statements (Continued)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.18 OPERATING LEASES

As explained in Note 3.1(a) above, the Group has changed its accounting policy for leases where the Group is the lessee. The new policy is described below and the impact of the change is disclosed in Note 3.1(c).

Until 30 June 2019, leases in which a significant portion of the risks and rewards of ownership were not transferred to the Group as lessee were classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) were charged to profit or loss on a straight-line basis over the period of the lease.

From 1 July 2019, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable (if any);
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

Notes to the Consolidated Financial Statements (Continued)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.18 OPERATING LEASES (Continued)

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received;
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing; and
- makes adjustments specific to the lease, such as term, country, currency and security.

The Group is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received (if any);
- any initial direct costs; and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases and leases of low-value assets are recognized on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise small items of office equipment.

Lease income from operating leases where the Group is a lessor is recognized in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognized as expenses over the lease term on the same basis as lease income. The respective leased assets are included in the consolidated balance sheet based on their nature. The Group did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

3.19 SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Executive Directors who make strategic decisions.

3.20 FOREIGN CURRENCY TRANSLATION

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "**functional currency**"). The consolidated financial statements are presented in HK dollars, which is the Company's functional and the Group's presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of profit or loss.

(c) Group companies

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses for each statement of profit or loss are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- All resulting exchange differences are recognised in other comprehensive income.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.20 FOREIGN CURRENCY TRANSLATION (Continued)

(d) Disposal of foreign operation and partial disposal

On the disposal of a foreign operation (that is, a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, a disposal involving loss of joint control over a joint venture that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the currency translation differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In the case of a partial disposal that does not result in the Group losing control over a subsidiary that includes a foreign operation, the proportionate share of accumulated currency translation differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (that is, reductions in the Group's ownership interest in associates or joint ventures that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange difference is reclassified to profit or loss.

3.21 DIVIDEND DISTRIBUTION

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's financial statements in the period in which the dividends are approved by the Company's shareholders for final dividend and Board of Directors for interim dividend.

4 FINANCIAL RISK MANAGEMENT

4.1 FINANCIAL RISK FACTORS

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, price risk, cash flow and fair value interest rate risk), credit risk, and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

Risk management is carried out by the senior management. Management manages and monitors these risk exposures to ensure appropriate measures are implemented on a timely and effective manner.

(a) Market Risk

(i) **Foreign Exchange Risk**

The Group operates in Hong Kong, Mainland China and Mongolia and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the United States Dollars ("**US\$**"), Chinese Renminbi ("**RMB**") and Mongolian Tugrik ("**MNT**"). Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in foreign operations.

The Group manages its foreign exchange risk by engaging in transactions mainly in HK\$, US\$, RMB and MNT to the extent possible. The Group manages its exposure through constant monitoring to minimize the amount of its foreign currencies exposures.

The Group is mainly exposed to the currencies of RMB and MNT against HK\$, the functional currency of relevant Group entities.

The foreign exchange risk on US\$ is insignificant as the HK\$ is pegged with the US\$.

The foreign exchange risk on RMB and MNT are insignificant as the Group does not have significant net assets denominated in RMB and MNT, respectively.

(ii) **Price Risk**

The Group is not exposed to significant price risk.

(iii) **Cash Flow and Fair Value Interest Rate Risk**

The Group's principal interest bearing assets are bank deposits and bank loans. The Group manages cash balances and deposits by comparing quotations from banks, with a view to selecting for the terms that are most favourable to the Group.

Notes to the Consolidated Financial Statements (Continued)

4 FINANCIAL RISK MANAGEMENT (Continued)

4.1 FINANCIAL RISK FACTORS (Continued)

(a) Market Risk (Continued)

(iii) Cash Flow and Fair Value Interest Rate Risk (Continued)

If the market interest rates for cash and bank balance and bank loans had been 50 basis points (2019: 50 basis points) higher/lower with all other variables held constant, the Group's loss for the year ended 30 June 2020 would have been approximately HK\$111,000 higher/lower (2019: HK\$106,000 lower/higher).

(b) Credit Risk

Credit risk is managed on a group basis. Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, as well as credit exposures to customers, including outstanding receivables and committed transactions.

At the balance sheet date, the Group has certain concentration of credit risk as 81% (2019: 72%) of the total cash and bank balances were placed with a reputable bank.

In order to minimise the credit risk, management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual debt at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the Directors of the Company consider that the Group's credit risk is significantly reduced.

The Group has concentration of credit risk. Top five customers constituted 61% of the Group's trade receivables as at 30 June 2020 (2019: 72%).

Collections of outstanding receivable balances are closely monitored on an ongoing basis to minimise such credit risk.

The maximum exposure to credit risk at the reporting date is the carrying amounts of aforementioned assets.

Impairment of trade receivables

The Group applies the HKFRS 9 simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, trade receivables has been grouped based on shared credit risk characteristics and trade receivables by due date.

The expected loss rates are based on the payment profiles of sales over a period of 12 months before 30 June 2020 and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

4 FINANCIAL RISK MANAGEMENT (Continued)

4.1 FINANCIAL RISK FACTORS (Continued)

(b) Credit Risk (Continued)

Impairment of trade receivables (Continued)

The Group assessed the loss allowance of trade receivables are immaterial.

Impairment losses on trade receivables is presented as provision for impairment of trade receivables within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

Impairment on other financial assets at amortised cost

The directors of the Group consider the probability of default upon initial recognition of asset and whether there has been significant increase in credit risk on an ongoing basis. To assess whether there is a significant increase in credit risk, the Group compares risk of a default occurring on the assets as at the reporting date with the risk of default as at the date of initial recognition. Especially the following indicators are incorporated:

- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the company's ability to meet its obligations;
- actual or expected significant changes in the operating results of the company; and
- significant changes in the expected performance and behavior of the company, including changes in the payment status of the third party.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. The Group categorises a receivable for write off when a debtor fails to make contractual payments/repayable demanded greater than 365 days past due. Where the receivables have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

Other financial assets at amortised cost include certain deposits and other receivables. These financial assets are considered to be low credit risk primarily because they had no history of default and the counterparties had a strong capacity to meet their contractual cash flow obligations in the near term. The Group has assessed that the expected credit losses for these receivables are immaterial under 12 months expected losses method. Thus, the loss allowance provision recognised for these balances is close to zero.

4.1 FINANCIAL RISK FACTORS (Continued)

(c) Liquidity Risk

Prudent liquidity risk management includes maintaining sufficient cash and cash equivalents, and the availability of funding from an adequate amount of available financing. Management maintains flexibility in funding by maintaining adequate amount of cash and cash equivalents.

The Group's policy to monitor current and expected liquidity requirements regularly to ensure it maintains sufficient cash and cash equivalents and has available funding through adequate amount of committed credit facilities to meet its working capital requirements.

The tables below analyse the Group's financial liabilities into relevant maturity groupings based on the remaining period at the consolidated balance sheet date to the contractual maturity date. The amounts disclosed in the tables are the contractual undiscounted cash flows.

4 FINANCIAL RISK MANAGEMENT (Continued)

4.2 CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that the entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balances. The Group's overall strategy remains unchanged from the prior year.

The capital structure of the Group consists of cash and cash equivalents and equity attributable to owners of the Group comprising share capital and reserves.

Management of the Group reviews the capital structure regularly, taking into account of the cost and risk associated. The Group will then balance its capital structure through the payment of dividends and new shares issues.

4.3 FAIR VALUE ESTIMATION

The carrying values of trade receivables, net of impairment provision, deposits and other receivables and payables are reasonable approximations of their fair values.

See Note 18 for disclosures of the investment properties that are measured at fair value.

5 CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are discussed below:

(a) FAIR VALUES OF INVESTMENT PROPERTIES

Investment properties are carried in the statement of financial position at fair value as determined based on professional valuation. In determining the fair values of the investment properties, the valuer uses assumptions and estimates that reflect, amongst other things, comparable market transactions. Judgment is required to determine the principal valuation assumptions to determine the fair value of the investment properties. Change in fair value of investment properties is recorded and presented separately in the consolidated statement of profit or loss.

Details of the judgement and assumptions have been disclosed in Note 18.

Notes to the Consolidated Financial Statements (Continued)

5 CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS (Continued)

(b) IMPAIRMENT OF EXPLORATION AND EVALUATION ASSETS

An entity shall assess at each reporting date whether there is an indication, based on either internal or external sources of information, that the carrying value of exploration and evaluation assets acquired may be impaired. If an indication is identified, the Group shall undertake an impairment assessment. This assessment will determine whether the exploration and evaluation assets are impaired which requires an estimation of the recoverable amount of the CGU to which the exploration and evaluation assets have been allocated, by value in use and fair value less costs to sell approaches. The assessment will estimate the future cash flows expected to arise from the CGU and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise. No impairment loss was recognised in the consolidated statement of profit or loss for the year ended 30 June 2020 (2019: HK\$56.6 million).

(c) WRITE-DOWN OF INVENTORIES TO NET REALISABLE VALUE

The Group writes down inventories to net realisable value based on an estimate of the realisability of inventories. Write-downs of inventories are recorded where events or changes in circumstances indicate that the balances may not be realised. The identification of write-downs requires the use of estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of inventories and write-downs of inventories in the periods in which such estimate has been changed.

(d) PROVISION OF CURRENT AND DEFERRED INCOME TAX

The Group is subject to income taxes in various jurisdictions. Judgment is required in determining the provision for income taxes in each of these jurisdictions. There are transactions and calculations during the ordinary course of business for which the ultimate tax determination is uncertain. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such difference will impact the income tax and deferred tax provisions in the period in which such determination is made.

Deferred income tax assets relating to certain temporary differences and tax losses are recognised when management considers it is probable that future taxable profits will be available against which the temporary differences or tax losses can be utilised. When the expectation is different from the original estimates, such differences will impact the recognition of deferred income tax assets and taxation charges in the period in which such estimates is changed.

(e) IMPAIRMENT OF GOODWILL

The Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policies stated in Note 3.2(c). The recoverable amounts of the CGUs have been determined based on value-in-use calculations. These calculations require the use of estimates. Adjustments will be made if the actual performance differs from the original estimates.

6 REVENUE

An analysis of the Group's revenue for the year recognised over time is as follows:

	2020 HK\$'000	2019 HK\$'000
Private jet management services income	40,074	28,065
Network solutions and project services fee	18,197	19,831
Rental income	6,624	6,124
	64,895	54,020

Revenue of HK\$5,872,000 was recognised for the year ended 30 June 2020 (2019: HK\$4,764,000) related to carried-forward contract liabilities that were satisfied in prior year.

7 SEGMENT INFORMATION

The Group's reportable operating segments are: (i) network solutions and project services; (ii) property investment; (iii) yacht building; (iv) minerals exploration and (v) private jet management services.

The chief operating decision maker has been identified as the Executive Directors. The Executive Directors review the Group's internal reporting in order to assess performance and allocate resources. The Executive Directors determined the operating segments based on these reports.

The Executive Directors assess the performance of operating segments based on a measure of segment results. This measurement basis is revenue less direct attributable expenses to revenue but excluding depreciation. Other information provided, except as described below, to the Directors is measured in a manner consistent with that in the consolidated financial statements.

Segment assets exclude other assets that are managed on a central basis.

There are no sales or other transactions between business segments.

Apart from the related party transactions in Note 34, no significant transactions, arrangements and contracts in relation to the Group's business to which the Company was a party and in which a director of the Company had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

(g) FIVE HIGHEST PAID INDIVIDUALS

Two of the Directors was included in the five highest paid individuals for the year ended 30 June 2020 (2019: Two). The emoluments payable to the remaining three (2019: three) individuals during the year were as follows:

	2020 HK\$'000	2019 HK\$'000
Salaries and allowances	7,451	6,948
Share-based payment	2,766	5,684
Pension costs – defined contribution plans	36	33
	10,253	12,665

The emoluments fell within the following bands:

	Number of individuals

13 INCOME TAX EXPENSE

Hong Kong profits tax has been provided at the rate of 16.5% (2019: 16.5%) on the estimated assessable profits for the year. Taxation on overseas profits has been calculated on the estimated assessable profits for the year at the rates of taxation prevailing in the countries in which the Group operates.

	2020 HK\$'000	2019 HK\$'000
Current tax		
– Hong Kong profits tax	425	107
Deferred tax		
– Origination of temporary differences (Note 25)	29	(18)
Total income tax expense	454	89

The tax on the Group's operating loss differs from the theoretical amount that would arise using the Hong Kong taxation rate, as follows:

	2020 HK\$'000	2019 HK\$'000
Loss before income tax	(109,735)	(97,071)
Calculated at a taxation rate of 16.5% (2019: 16.5%)	(18,106)	(16,017)
Effect of different taxation rates in other countries	55	67
Income not subject to tax	(705)	(129)
Expenses not deductible for tax purposes	18,102	15,160
Tax losses not recognised	1,108	1,008
Income tax expense	454	89

Notes to the Consolidated Financial Statements (Continued)

14 LOSS PER SHARE

(a) BASIC

Basic loss per share is calculated by dividing the loss attributable to owners of the company by the weighted average number of ordinary shares in issue during the year.

	2020	2019
Loss attributable to owners of the Company (HK\$'000)	(108,328)	(66,613)
Weighted average number of ordinary shares in issue (in thousands)	3,924,190	3,924,190
Basic loss per ordinary share (HK cents)	(2.76)	(1.70)

(b) DILUTED

The calculation of the diluted loss per share for the years ended 30 June 2020 and 2019 is based on the loss for the year attributable to equity holders of the Company, adjusted to assume exercise of all dilutive potential ordinary shares. The Company has one category of dilutive potential ordinary shares: share option. The weighted average number of ordinary shares used in the calculation is the weighted average number of the ordinary shares in issue during the year, as used in the basic loss per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of share option.

During the years ended 30 June 2020 and 2019, the share options granted by the Company were not assumed to be exercised as they would have anti-dilutive impact to the basic loss per share.

15 DIVIDEND

The directors did not recommend the payment of a final dividend for the year ended 30 June 2020 (2019: nil).

FAIR VALUE HIERARCHY

Under HKFRS 13 “Fair Value Measurement”, the fair value measurement should be illustrated based on the three-level fair value hierarchy and the classification is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date;
- Level 2 valuations: fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available; and
- Level 3 valuations: fair value measured using significant unobservable inputs.

The Group's investment properties were valued at 30 June 2020 by independent professionally qualified valuers, Eidea Professional Services Company Limited (2019: Roma Appraisals Limited), whom hold a recognised relevant professional qualification and have relevant experience in the locations and segments of the investment properties valued. In estimating the fair value of the properties, the highest and best use of the properties is their current use.

VALUATION TECHNIQUES

Fair value measurements using significant unobservable inputs

Fair values of the investment properties of the Group were supported by valuations performed by an independent external valuer and are generally derived using the direct comparison method (2019: same). The valuations of residential property and office unit in Beijing were dependent on certain key assumptions that required significant management judgement, including fair market price and age.

18 INVESTMENT PROPERTIES (Continued)

VALUATION TECHNIQUES (Continued)

Fair value measurements using significant unobservable inputs (Continued)

The ranges of unobservable input are similar between the residential properties and office unit (2019: residential properties and office unit). These significant unobservable inputs include:

	Fair value	Valuation technique	Unobservable inputs	Range of significant unobservable inputs (Note)	Relationship of unobservable inputs to fair value
Residential property – Beijing	HK\$25,850,000 (2019: HK\$24,282,000)	Direct comparison method	Price per square metre (RMB)	RMB72,537 to RMB77,143 (2019: RMB71,429 to RMB71,625)	The higher the market price, the higher the value

19 EXPLORATION AND EVALUATION ASSETS

The Group owns a mineral exploration license in western part of Mongolia. The additions to the exploration and evaluation assets represent the geological and geophysical costs, drilling and exploration expenses directly attributable to exploration activities.

	2020 HK\$'000	2019 HK\$'000
At beginning of the year	32,531	69,890
Additions	21,254	20,161

Disposal of subsidiaries (Note 31)	–	(49,709)
Impairment loss (Note)	–	(56,603)
At end of the year	53,785	32,531

Note: In November 2018, the management assessed the exploration results on two of the four existing exploration sites and concluded there was no economic justification for further investment. Accordingly, the Group returned two exploration licenses to the Mongolian Government.

In June 2019, the Group further assessed the latest exploration results and surrendered one exploration license to the Mongolian Government.

During the year ended 30 June 2019, the Group recognised an impairment of HK\$56.6 million in respect of returning two exploration licenses and surrendering one license to the Mongolian Government.

As at 30 June 2020, the Group held one exploration license. Subsequent to the year end, such exploration license had been replaced by a mining license, which was issued and granted for an initial period of 30 years.

Work in progress (Note)	83,846	84,077
Finished goods	264	224
	84,110	84,301

Note: As at 30 June 2020, the management has assessed the net realisable value of work in progress in respect of yacht building segment, taking the estimated costs to completion and the latest market prices less selling expenses into consideration. The management has engaged an independent valuer, Roma Appraisals Limited, to carry out valuation under market approach. The assessed net realisable value was below the carrying amounts of the work in progress in respect of yacht building segment. Accordingly, an impairment of HK\$19.8 million (Note 8) was recognised in consolidated statement of profit or loss for the year ended 30 June 2020.

The cost of inventories recognised as expense in the consolidated statement of profit or loss amounted to approximately HK\$2,912,000 (2019: HK\$7,043,000).

23 TRADE RECEIVABLES

	2020 HK\$'000	2019 HK\$'000
Trade receivables	5,814	10,280

The Group allows an average credit period of 30 to 60 days to its customers. The ageing analysis of trade receivables by invoice date is as follows:

	2020 HK\$'000	2019 HK\$'000
1 – 30 days	5,566	8,998
31 – 60 days	190	408
61 – 90 days	–	685
Over 90 days	58	189
	5,814	10,280

The Group applies the HKFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for trade receivables. Note 4.1(b) provides for details about the calculation of the allowance.

Notes to the Consolidated Financial Statements (Continued)

23 TRADE RECEIVABLES (Continued)

The carrying amounts of the Group's trade receivables are denominated in the following currencies:

	2020 HK\$'000	2019 HK\$'000
HK\$	4,738	8,553
US\$	1,076	1,645
EURO ("EUR")	–	82
	5,814	10,280

None of the trade receivables were impaired as at 30 June 2020 (2019: nil) and the carrying amounts of trade receivables approximate their fair values.

The maximum exposure to credit risk at the reporting date is the fair value of trade receivables mentioned above. The Group does not hold any collateral as security.

24 CASH AND BANK BALANCES

	2020 HK\$'000	2019 HK\$'000
Cash at bank and on hand	15,940	26,755

The cash and bank balances of certain subsidiaries of the Group as at 30 June 2020 included balances with banks in the Mainland China totalling approximately HK\$93,000 (2019: HK\$43,000) which were denominated in RMB and US\$. The remittance of these balances outside the Mainland China is subject to foreign exchange control rules and regulations of Mainland China.

At 30 June 2020	94	2,857	2,951

Deferred income tax assets are recognised for tax losses carried forward to the extent that the realisation of the related tax benefit through future taxable profits is probable. In this regard, the Group has estimated tax losses of approximately HK\$85,927,000 (2019: HK\$78,497,000) to carry forward against future taxation income. Other than the tax losses of approximately HK\$164,059 (2019: HK\$167,150) expiring within 5 years, the balance has no expiry date. These tax losses have not been recognised due to uncertainty of their future recoverability. As at 30 June 2020, the potential deferred tax losses which have not been recognised amounted to approximately HK\$12,180,000 (2019: HK\$11,398,000).

SHARE OPTION SCHEME

The share option scheme for the Group is valid and effective for a period of 10 years commencing on 23 November 2011 (the “Share Option Scheme”). The total number of shares issued and to be issued upon exercise of the options granted to each participant (including both exercised and outstanding options) in any 12-month period must not exceed 1% of the shares in issue from time to time unless separately approved by the shareholders in general meeting.

An option may be exercised in accordance with the terms of the scheme at any time during the period as the Board of Directors at their absolute discretion determine and in any event such period shall not be more than 10 years from the date upon which the offer of the option is made to the grantee. The Directors may, if consider appropriate, determine the minimum period for which an option must be held before it can be exercised.

Upon acceptance of the offer for an option, the grantee shall pay HK\$1.00 as consideration for the grant. The subscription price of a share in respect of any option granted shall be determined by the board of Directors at their absolute discretion but shall be at least the highest of (i) the closing price of the shares as stated in the Stock Exchange’s daily quotations sheet on the date of grant; (ii) the average closing price of the shares as stated in the Stock Exchange’s daily quotations sheets for the 5 business days immediately preceding the date of grant; and (iii) the nominal value of a share.

Movements in the number of share options outstanding under Share Option Scheme and their related weighted average exercise prices are as follows:
