(1) Business Progress

Benefiting from the influence of the new development pattern of mutual promotion of "domestic major cycle as the mainstream, with domestic and international double cycle", in the third guarter of 2020, the Group's businesses shows a steady and progressive development trend. The Group achieved a total operating revenue of approximately RMB2,684,446,000 for the third guarter based on the PRC Accounting Standards, representing an increase of approximately 0.88% as compared to the corresponding period of last year. In particular, revenue from toll business amounted to approximately RMB2,185,162,000, representing an increase of approximately 3.47% year-on-year. In the first three guarters, the daily average traffic volume of Shanghai-Nanjing Expressway was 101,937 vehicles, decreasing by approximately 0.80% year-on-year, of which, the average daily traffic volume of passenger vehicles was 82,965 vehicles, increasing by approximately 0.06% yearon-year, while the average daily traffic volume of trucks was 18,971 vehicles, decreasing by approximately 4.39% year-on-year. The proportion of passenger vehicle traffic volume and truck traffic volume maintained relatively stable at approximately 81.39% and 18.61% respectively; the overall movements in traffic volumes of passenger vehicles and trucks of the other major road and bridge projects of the Group were basically consistent with that of Shanghai-Nanjing Expressway, and the overall situation was stable and improving.

In the third quarter, as affected by the decrease of oil price, revenue from the ancillary business of the Group amounted to approximately RMB350,037,000, representing a decrease of approximately 1.52% yearon-year. However, through proactive negotiations with the oil suppliers with an aim to improve the profit margin, in the third quarter, gross profit margin of oil products of the Company increased by approximately 7.41 percentage points year-on-year, accompanied by a year-on-year increase of approximately 6.53 percentage points in gross profit margin of ancillary services business, and the overall operating revenue from service areas recorded an increase. In terms of property business, the development and sales of the property projects progressed in an orderly manner in this guarter. As the scale of delivery of the property projects during the quarter was smaller as compared to the corresponding period of last year, carry-over revenue amounted to approximately RMB128,210,000, representing a year-on-year decrease of approximately 28.14%. Other businesses achieved revenue of approximately RMB21,037,000, representing an increase of approximately 37.83% year-on-year, mainly due to the year-on-year increases in revenue from entrusted operation and management services and factoring business revenue.

In accordance with the PRC Accounting Standards, the operating cost of the Group amounted to approximately RMB976,345,000 for the third quarter, representing a decrease of approximately 12.19% year-onyear; the operating profit amounted to approximately RMB1,839,684,000, representing an increase of approximately 10.94% year-on-year; and the net profit attributable to shareholders of the Company amounted to approximately RMB1,409,727,000, representing an increase of approximately 10.36% as compared to the corresponding period of last year.
