# President's Message

#### Dear Shareholders,

On behalf of the Board of Directors (the "**Directors**" and the "**Board**", respectively) of ISDN Holdings Limited ("**ISDN**" or the "**Company**") and its subsidiaries (collectively, the "**Group**"), it is my pleasure to present to you our annual report for the financial year ended 31 December 2020 ("**FY2020**").

### **Financial Performance**

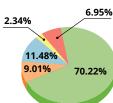

2020 began with the sudden outbreak of the coronavirus disease ("**COVID-19**") in the People's Republic of China ("**PRC**") which swept through the globe very quickly. The highly infectious virus forced PRC to impose lockdown measures to slow its spread and these led to the suspension of our operations and disrupted our work cycle. This unprecedented challenge demanded that we hold fast to our blueprint, with diversification and agility as core tenets to weather these uncertain headwinds.

With our PRC operations having been stalled for a good two months, we counted on diversification across industries, geographies, and our 10,000 customers base to help drive stability even in the depths of the crisis.

"

With stringent cost control measures, the growth in revenues led to a 114.8% growth in net profit to \$\$15.1 million for shareholders.

#### Revenue Breakdown for FY2020

ISDN Motion Control
 ISDN Software Business
 ISDN Precision Manufacturing
 ISDN Renewable Energy
 ISDN System Solution

We also remained agile to adapt to the new normal and stayed ahead of the curve. We started implementing business continuity plans and precautionary measures throughout our workplaces even as our key PRC operations resumed. Our employees' vigilance allowed us to minimise COVID-19 health impact on our business while optimising our operations throughout the year.

Our efforts from our staff and our business partners allowed us to thrive through the unparalleled challenges of 2020 and also provided us with opportunities to innovate and adapt to deliver very strong growth while expanding the future scalability ambitions of ISDN.

On the back of stellar demand from PRC and Asia Pacific region's increasing demand for industrial automation solutions following the coronavirus-related disruptions and uncertain Sino-US trade tensions and together with construction revenues from the mini-hydropower plants in Republic of Indonesia (the "**Indonesia**"), overall revenue rose 24.4% year-on-year ("**YoY**") to a record of S\$361.9 million.

With stringent cost control measures, the growth in revenues led to a 114.8% growth in net profit to S\$15.1 million for shareholders.

#### **Staying the Course**

Despite the turbulent start to 2020, ISDN persisted and remain focused on its strategic growth and we made great headway in several initiatives that started in 2019.

Firstly, we concluded our business reorganisation project to pool our strongest engineering proficiencies to deliver a full suite of end-to-end solutions linking software to hardware for the wider Industrial 4.0 opportunities globally and we now have five major vertical pillars -ISDN Software Business, ISDN Motion Control, ISDN Precision Manufacturing, ISDN System Solution, and ISDN Renewable Energy. ISDN Software Business is a critical part of our offerings that allows us to build strong bonding with our customers and suppliers.

ISDN Motion Control remains our major revenue driver, accounting for over 70.2% of FY2020's revenue, while ISDN System Solution, ISDN Precision Manufacturing, ISDN Renewable Energy, and ISDN Software Business accounted for 11.5%, 9.0%, 7.0%, and 2.3% of the Group's revenue respectively.

Secondly, in 2019, ISDN set up a joint laboratory with the Singapore Institute of Manufacturing Technology ("**SIMTech**"), a unit of the Agency for Science, Technology and Research ("**A\*STAR**"), to commercialise a laser-aided additive manufacturing ("**LAAM**") technology to help manufacturers fabricate free form metal parts. The joint lab promotes the adoption of 3D printing technologies in Singapore. ISDN's subsidiary Servo Dynamics has since integrated its first LAAM system, with more business opportunities underway.

Thirdly, our three newly established companies - ISDN Software Business Pte Ltd in Singapore, Air Vacuum Automation Vietnam Company Limited in Vietnam, and ISDN (Zhejiang) Precision Technology Co., Ltd in PRC are advancing well and we expect all three to contribute positively to our bottom line in 2021.

The new expansion forays in the Asia Pacific region that we started in 2020, however, were severely impacted by the lockdowns. Our newly wholly-owned company in the Philippines, for instance, did not make much advancement during the year.

Our mini-hydropower plant business in Indonesia also almost came to a standstill as the country battles with the coronavirus. We are working hard and expect to restart works to commission our power plants by July 2021.

### Launching into the disinfectant market as part of the diversification play

As part of our continued diversification efforts and commitment to do our part to help tame the spread of the coronavirus, we entered into a Joint Venture with German company, ERST Project GmbH ("ERST GmBH") at the peak of Singapore's pandemic fight. We have thus far clinched a flurry of deals to provide the water-based disinfectant Waterliq and antibacterial and antiviral coating solution Erstotizer at all high touchpoints in the premises of the Science Centre, Ministry of Foreign Affairs, Marina Bay Financial Centre, One Raffles Quay and more. We have also completed a pilot project with a major local public bus transport company SMRT.

More recently, Waterliq was also certified to be capable of eliminating a host of other enveloped and nonenveloped viruses that includes polio and the norovirus. This opens the doors for wider usage and we expect more traction in the business.

#### **Outlook for 2021**

The pandemic might have exacted a huge toll on businesses worldwide but it has also re-emphasised the importance of automation and robotics for supply chain resilience and for business leaders across industries to reassess, reconfigure and rebuild in more future-proof ways. These effects have accelerated digitalisation across many industries, building demand for industrial automation solutions. The factory automation and industrial controls market<sup>1</sup> is forecasted to grow at a compound annual growth rate ("CAGR") of 9.0% to reach US\$337.02 billion by 2026, according to Mordor Intelligence. Meticulous Research<sup>2</sup> also expects the global industrial automation market to expand from US\$164.2 billion in 2020 to US\$306.2 billion by 2027.

Additionally, the semiconductor and automation market is on track for a cyclical recovery, showing signs of a recovering market.

We enter 2021 with cautious optimism on the postpandemic economy.

As a dominant provider of niche solutions like motion control. industrial computing, and customised engineering solutions for a wide range of industries from manufacturing, medical, automation to energy, we believe that with the constant drive to move up the stack in automation technology, we will continue to benefit greatly from the accelerating trend.

By building capabilities to serve both hardware and software, we are moving up the value chain and growing alongside customers on their Industry 4.0 journey. Our strategic position remains robust where we continue to develop offerings that grow in relevance as customers gear towards more sophisticated automation.

Our diversification and growth initiatives are progressing well and are well poised for return on investment. Our new foray into the disinfectants business is a modest investment that has landed flagship customer prospects within the year. Our energy business in Indonesia is slated for business commercialisation in 2021.

Our continuing efforts in 2020 in building relationships with investors and the analyst community have been successful so far and we are pleased to see the deepening of trading liquidity in the ISDN stock. The average trading volume<sup>3</sup> grew approximately 300% YoY from 1.2 million in 2019 to 4.8 million in 2020. We also look forward to continuing to building support in the investment community on an ongoing basis.

### Acknowledgements

On behalf of the Board and Management, I would like to sincerely thank our business partners, customers, and employees for their undivided efforts, great persistence, and unwavering support through an unusual and challenging year.

With a continued focus on serving the large, multi-year journey of the Asian continent towards Industry 4.0, while remaining balanced and diversified, I am cautiously confident that through a steadfast commitment to our blueprint, we can take ISDN to its next wave of growth.

# Corporate Profile

We are an integrated engineering solution provider principally focusing on motion control, industrial computing and other specialised engineering solutions. 2017 marks the 30th anniversary since the inception of our Group. Over the years under the helmsmanship of Mr. Teo who is our President, Managing Director and Controlling Shareholder (the "Controlling Shareholder") with a Bachelor of Mechanical Engineering degree, we have developed from a local start-up supplier of servo motors to become a multi-national "one-stop-platform" engineering solution provider. Our success is primarily attributable to the relationship that we have built with our suppliers all these years, so that we are able to recommend and offer to our customers a variety of products as a solution to serve a wide range of engineering needs of our customers under one roof. In addition to our core motion control, industrial computing and other specialised engineering solutions businesses, we have diversified into renewable energy, primarily in developing hydropower plants in Indonesia.

Headquartered in Singapore, we operated through 82 subsidiaries with 74 sales offices all over the PRC, Hong Kong, Malaysia and a few other Asian countries including Vietnam, Thailand, Taiwan and Indonesia as at 31 December 2020. In the PRC, we own an industrial base with a gross floor area of approximately 40,657 sq.m in an industrial park in (江蘇省蘇州市吳江區) Wujiang district, Suzhou, Jiangsu province where we make a range of products such as hinges and locks, precision gearboxes and other industrial hardware for our other specialised engineering solutions divisions. As at 31 December 2020, we had 950 employees, approximately 32% of whom were sales and engineering staff dedicated to serving our customers' engineering needs in different offices.

The shares of the Company (the "**Shares**") have been listed on the Mainboard of the SGX-ST since 24 November 2005. Given the significance of our revenue source from the PRC, our Company successfully achieved a dual primary listing on the SEHK on 12 January 2017. The listing on the SEHK opened up another market for capital activities, expanded our investor base and has also increased our international profile.

We have developed from a local start-up supplier of servo motors to become a multi-national "one-stop-platform" engineering solution provider.

### ENGINEERING SOLUTIONS – MOTION CONTROL

As a motion control solution provider, in addition to distributing products, we also design, customise and assemble motion control systems which enable our customers to reduce costs and to better improve production efficiencies. Our motion control systems are typically used for factory automation in a broad range of industries.

### OTHER SPECIALISED ENGINEERING SOLUTIONS

Other than motion control solutions, we offer our expertise to provide engineered hardware for our customers, including standard modular construction components for use in industrial automation systems, and high-grade components such as industrial locks, fasteners, hinges as well as aluminium profiles and related accessories.

### INDUSTRIAL COMPUTING SOLUTIONS

As part of our suite of industrial engineering offerings, we also provide cost-efficient industrial computing solutions (such as "Wonderware") and custom builds of required structural hardwares (i.e industrial computers).

## **Executive Officers\***

#### **Mr. Lau Choon Guan** (劉俊源), aged 56, Vice President – sales (motion control) of our Group.

Mr. Lau is responsible for analyzing market demand, sales and marketing of our Group's products and executing business plans effectively. In September 1990, he was appointed as a foreman in Matsushita Electronics Components (S) Pte Ltd, which manufactures electrical components. In August 1991, he joined our Group as a sales engineer where he was in charge of sales and marketing before eventually being promoted to be a Vice President in our Group in November 2005. Given his years of experience with our Group, Mr. Lau is experienced in all areas of the motion control business. From 2014 to 2016, Mr. Lau was a committee member of the Smart Automation Technology Industry Group (formerly known as Automation Technology Industry Group, a division of the Singapore Manufacturing Federation). Mr. Lau obtained a Technician Diploma in Electrical Engineering from the Singapore Polytechnic in June 1985.

### Mr. Sim Leong Seang (沈龍祥), aged 62, Vice President – technical support (motion control) of our Group.

Mr. Sim joined our Group in April 1992 and is responsible for managing the pre and post product and application sales capabilities of our Group. Since joining our Group, Mr. Sim has contributed to the technical and applications capabilities of the technical department to meet the rapid development in the motion control technology market. He is also actively involved in the adoption of new software engineering tools and standards. Mr. Sim was a production supervisor with Hipak Industries Pte Ltd, a polythene bag production factory, where he was responsible for the efficient running of the production systems from June 1979. When Hipak Industries Pte Ltd was acquired by Lamipak Industries Pte Ltd, he was promoted to the post of superintendent in October 1981, where he was responsible for the efficient running of the expanded production facilities. Mr. Sim left Lamipak Industries Pte Ltd in February 1984 to pursue his studies and serve his national service thereafter. Mr. Sim obtained a Diploma in Electronics

Engineering from the French-Singapore Institute in March 1986.

#### **Mr. Cheng Hock Kiang** (鍾福強), aged 52, Vice President in sales (industrial computing, hardware) of our Group.

Mr. Cheng joined our Group as a sales engineer of Servo Dynamics in April 1997 and was subsequently employed as a business development manager of our subsidiary, Portwell, since January 1998. He is responsible for building and sustaining good relationships with our customers, overseeing the day-to-day operations of Portwell, and leading our sales team in developing new marketing strategies for our industrial computing systems. Mr. Cheng obtained a Diploma in Electronic Engineering from Ngee Ann Polytechnic Singapore in August 1988 and a Degree of Bachelor of Science with Second Class Honours (Upper) in Information and Communications Technology from SIM University in March 2010.

### **Mr. Wong Kwok Whye Peter**(黃國偉), aged 53, Vice President

Mr. Wong is responsible for developing the corporate growth strategies of Leaptron, and leads a team of engineering staff to support customers. Mr. Wong is also responsible for conducting trainings both to internal staff and customers, such as organizing workshops and training seminars. He has more than 20 years of experience in the area of marketing, sales, product development, technical support and training in the motion control industry. Mr. Wong joined our subsidiary, Servo Dynamics as an application manager in July 1996, where he was in charge of the development of the technical and training team for our "Wonderware" software program. Mr. Wong obtained a Master of Technology (Software Engineering) from the National University of Singapore in June 2009, a Degree of Bachelor of Engineering (Electrical) from the Nanyang Technological University in June 1995 and a Diploma in Electronic Engineering from Ngee Ann Polytechnic Singapore, where he was also awarded a Certificate of Merit for Outstanding Performance in the Electronic Engineering Course, in August 1989.

#### **Mr. Chow Ka Man** (周嘉文), aged 46, Vice President – Hong Kong operations

Mr. Chow joined our group as a sales manager of SD Hong Kong in February 1995, and has been a director of SD Hong Kong since December 1995. He is in charge of the day-to-day operations of SD Hong Kong and is responsible for the sales and service engineering of the motion control systems that we provide in Hong Kong. Mr. Chow obtained his Higher Certificate in Mechanical Engineering from the Hong Kong Polytechnic (now known as the Hong Kong Polytechnic University) in November 1994.

### **Ms. Ho Ting Wai Christine** (何霆蔚), aged 46, Chief Financial Officer

Ms. Ho joined our Group in June 2016 and she was responsible for the financial management, financial reporting and internal control functions of the Group. She was also involved in the coordination, preparation of financial information and investors relations activities such as attending road shows and conference in the preparation of listing of the Company's shares on the Main Board of SEHK in January 2017. Ms. Ho has been promoted to Chief Financial Officer of the Group and will be responsible for the Group's accounting, finance, compliance. internal control, taxation and other related matters. She has more than 15 years of experience in auditing, accounting and corporate finance in private and listed companies in Singapore. Prior to joining the Group, she was formerly a financial controller of Hysendal Enterprises Pte. Ltd. From 2011 to 2013, she was the group financial manager of Weiye Holdings Limited (delisted from SGX-ST since 24 August 2018), a company listed on the Mainboard of the SGX-ST and SEHK. In 2006, she joined KPMG LLP, Singapore as an audit senior associate, where she was eventually promoted to audit manager and she specialized in US GAAP, SOX and US GAAS. She graduated from the University of Essex in United Kingdom with firstclass Honours Degree in Accounting in 2000.

### **BUSINESS REVIEW**

The Group's total revenue rose 24.4% YoY from S\$291.0 million in the financial year ended 31 December 2019 ("**FY2019**") to S\$361.9 million in FY2020. This huge increase in revenue was backed by the PRC continued solid demand for its core industrial automation solutions, growing demand from Southeast Asia including Singapore, Malaysia, and Vietnam as well as recognised construction revenue for the mini-hydropower plants in Indonesia.

Gross profit grew 23.4% YoY to S\$95.6 million for FY2020 with gross profit margin dipping slightly from 26.6% to 26.4%. The gross profit margin would have been 27.8% if gross profit margins from the mini-hydropower plants were excluded.

Our business focus continues to be predominantly in the PRC, contributing approximately 67.6% in FY2020 (FY2019: 66.9%), with Singapore, Hong Kong, Malaysia as other major contributors to our revenue, accounting for 13.0%, 1.7% and 2.6% respectively for FY2020 (FY2019: 15.4%, 2.3% and 3.5% respectively). Contributions from Indonesia grew from 1.9% in FY2019 to 7.1% in FY2020.

By delivering effective industrial automation solutions to meet increasing demand spurred by the ongoing pandemic and the reconfiguration in the global industrial supply chain, the Group continues to benefit from the inevitable effects of the COVID-19 and the Washington-Beijing trade spat.

The Group's modest investment to enter the disinfectant market has reaped early fruits, clinching flagship deals within the first year. These deals include supplying disinfectants to the dormitories of Centurion Corporation and a pilot project with a local bus transport company.

The Group's energy business is also slated for commercialisation in FY2021.

#### **FUTURE PROSPECTS**

While the COVID-19 pandemic has upended the global economy, it has provided impetus for Asia's businesses to digitise and quicken their transition to Industry 4.0 automation. The benefits of industrial automation for businesses can include higher productivity, higher performance or precision in industrial output, and lower dependence on labour (and therefore lower risk impact from health pandemics). According to Mordor Intelligence<sup>1</sup>, the China Factory Automation and Industrial Controls Market is forecasted to grow at a compound annual growth rate of 9.8% to 2025. China's motion control market is also expected to grow at a steady pace between 2021 and 2026<sup>2</sup>, alongside increased demand for machine tools, robotics, and semiconductors with the support from strategies like "Made in China 2025".

In addition to Industry 4.0 adoption, the Group notes that the long-term strategic competition between China and the United States continues to erode bilateral trade between the two nations<sup>3</sup>, resulting in a significant reconfiguration of regional supply chains favouring Asiabased suppliers and, in particular, Southeast Asia as a relatively trade-neutral supply ecosystem<sup>4</sup>.

Given the twin market drivers of Industry 4.0 and geopolitical competition described above, the Group believes it remains well positioned to benefit from overall market growth in its core industrial automation market.

In addition to its core business, the Group has two growth investments in clean economy industries. ISDN's emerging disinfectant business addresses Asia's growing post-pandemic need for ecologically friendly commercial disinfectants. ISDN's hydropower business addresses the long-term shift towards clean energy in Asia.

### Revenue and Gross Profit Margin (cont'd)

The Group's revenue of S\$361.9 million for FY2020 was higher by approximately S\$70.9 million or 24.4% as compared to FY2019. This was attributable to the growing demand for the Group's core industrial automation solutions in Southeast Asia, including Singapore, Malaysia, and Vietnam, because Southeast Asia has derived benefits from the reconfiguring of global industrial supply chains. In addition, we recorded construction revenue of approximately S\$25.1 million from the construction of minihydropower plants in Indonesia.

Gross profit of S\$95.6 million was S\$18.1 million, or 23.4% higher in FY2020 as compared to FY2019. Overall, the gross profit margin declined slightly in FY2020 as compared to FY2019 by 0.2 percentage point from 26.6% to 26.4%. Excluding the gross profit arising from the construction of mini-hydropower plants under the service concession arrangements, the Group managed to maintain its gross profit margin at 27.8% in FY2020 which is higher than the corresponding period last year by 0.9 percentage point.

### Other operating income

Other operating income increased by S\$1.0 million, or 29.4% to S\$4.3 million for FY2020. The increase was mainly due to the increase in government grant of S\$0.6 million, increase in miscellaneous income of S\$0.4 million and increase in technical services income of S\$0.3 million; partially offset by decrease in commission income of S\$0.3 million.

### **Distribution costs**

Distribution costs decreased by S\$0.3 million, or 1.1% to S\$25.3 million for FY2020. The decrease was mainly due to decrease in sales and marketing expenses of S\$0.8 million and decrease in travelling

expenses of S\$0.8 million; partially offset by increase in staff and related costs of S\$1.3 million from higher staff commission to sales personnel which is in line with the increase in revenue.

### Net impairment losses on financial assets

Net impairment losses on financial assets increased by S\$4.2 million for FY2020. The increase was mainly due to the impairment loss for funding to investee companies. The Group has proceeded with arbitration against the investee companies in Singapore for recovery of debts from them and its guarantor. The arbitration is on-going and the outcome of this arbitration could not be anticipated fully as of the date of the full year results announcement. The Group continues to progress its case in arbitration towards a favourable recovery of amounts due. However, out of prudence it has reserved for the full receivable amount.

## The Group's revenue of S\$361.9 million for FY2020 was higher by approximately S\$70.9 million or 24.4% as compared to FY2019.

### Other operating expenses

Other operating expenses increased by S\$4.7 million to S\$6.0 million for FY2020. The increase was mainly due to higher net unrealised foreign exchange loss amounting to S\$2.4 million, an increase in bad debts written off of S\$0.4 million, an increase in inventories written off of S\$0.1 million, an increase in allowance for inventory obsolescence of S\$0.3 million, and a reserve of S\$1.5 million for legal compensation risk related to a previously announced litigation against our former General Manager (refer to the Group's announcement dated 29 October 2018, 12 November 2018, 1 February 2019 and 28 February 2019). The Group continues to progress its case towards a favourable settlement, however out of prudence it has reserved for the full amount of compensation risk.

### Finance costs

Finance costs decreased by S\$0.4 million or 17.7% for FY2020, which was mainly due to lower interest rate.

### **Income tax expense**

Income tax expense increased by S\$3.5 million, or 57.5% to S\$9.5 million, the increase was mainly due to higher taxable profits for FY2020.

### Property, plant and equipment

Property, plant and equipment increased by S\$17.6 million, or 40.1% as at 31 December 2020. The increase was mainly due to additional construction costs incurred of S\$12.7 million for the construction of hydropower plant in Indonesia, acquisition of a leasehold property in Singapore amounting to S\$5.0 million, purchase of plant and machinery of S\$1.6 million, purchase of motor vehicles of S\$0.7 million and recognition of right-of-use assets of S\$1.6 million. This was partially offset by the depreciation charge of S\$4.0 million.

The acquisition of leasehold property relates to the Group's strategic decision to consolidate the majority of its 7 Singapore offices into a single larger workspace to promote better synergies and efficiencies between Group companies.

17

Interests in associates increased by S\$0.1 million, or 2.3% as at 31 December 2020 mainly due to share of profit of associates of S\$1.0 million in FY2020; partially offset by disposal of interest in SPHP Co., Pte. Ltd. ("**SPHP**") amounting to S\$0.7 million and declaration of dividend from associates of S\$0.2 million.

#### Service concession receivables

Service concession receivables increased by S\$24.3 million, or 70.9% to S\$58.5 million as at 31 December 2020. This was mainly due to recognition of construction revenue of S\$25.1 million from the construction of mini-hydropower plants under the service concession arrangement; partially offset by the foreign exchange revaluation losses of S\$0.8 million. Service concessions receivables are classified as long-term contract assets which will be collected across the tenure of the various operational concessions in tandem with agreed power supply agreements.

### Inventories

Inventories increased by S\$2.5 million or 4.6% to S\$55.6 million as at 31 December 2020. This was primarily due to the growth of revenue in FY2020 as compared to FY2019.

### **Trade and other receivables**

Trade and other receivables decreased by S\$8.9 million or 7.9% to S\$103.0 million as at 31 December 2020, which was mainly due to decrease in advances to trade suppliers of S\$8.0 million, receipt of repayment of loan from SPHP of S\$3.5 million, repayment of loan from investee company of S\$1.6 million and decrease in sundry receivables of S\$2.5 million. This was partially offset by the allowance of S\$4.0 million for impairment funding to investee companies and for non-payment of the promissory note. There was an increase in trade receivables from third parties, related parties and notes receivable of S\$1.6 million arising from the increase in revenue.

#### **Trade and other payables**

Trade and other payables increased by S\$23.6 million or 38.8% to S\$84.4 million as at 31 December 2020. The increase was mainly due to increase in trade payables of S\$4.8 million arose from increase in trade purchase during the financial period, increase in accrual of construction cost relating to construction of mini-hydropower plants of S\$17.6 million, increase in accrued operating expenses of S\$1.4 million and dividend payables to non-controlling interests of S\$0.8 million. This was partly offset by the decrease in amounts due to non-controlling interests of S\$0.7 million and decrease in accrued staff costs of S\$0.4 million.

### **Contract liabilities**

The increase in contract liabilities of S\$8.1 million or 91.3% to S\$17.1 million was mainly due to advances received from customers for sales of goods largely from our China subsidiaries to mitigate credit risk exposure on sales. Contract liabilities are recognised as revenue when the performance obligation of transferring the goods is satisfied at a point in time.

### Bank borrowings (current and non-current)

Bank borrowings increased by S\$4.4 million or 16.2% to S\$31.7 million as at 31 December 2020. The increase was primarily due to proceeds of bank borrowings of S\$27.7 million offset by repayment of bank borrowings of S\$23.3 million.

### MATERIAL ACQUISITION AND DISPOSAL OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES AND FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

On 2 June 2020, an indirect wholly owned subsidiary of the Company had disposed of 330,000 ordinary shares representing 33% of the entire issued and paid-up share capital in SPHP. For more information, please refer to the Company's announcement entitled "Disposal of 33% of the entire issued and paid-up share capital of SPHP Co., Pte. Ltd." dated 3 June 2020.

On 1 December 2020, a wholly-owned subsidiary of the Company had incorporated a new wholly-owned indirect subsidiary, Servo Dynamics Philippines, Inc. with an issued and paid-up share capital of US\$210,000 for 100,000 ordinary shares. For more information, please refer to the Company's announcement entitled "Incorporation of a whollyowned indirect subsidiary" dated 8 December 2020. On 16 December 2020, a whollyowned subsidiary of the Company had subscribed for 16,543 ordinary shares in the share capital of Aenergy Holdings Company Limited. For more information, please refer Company's announcements to entitled "Discloseable Transaction - Subscription of shares in Aenergy Holdings Company Limited" and "Supplemental Announcement in relation to Discloseable Transaction Subscription of shares in Aenergy Company Holdings Limited" dated 16 December 2020 and 31 December 2020, respectively.

### LIQUIDITY AND FINANCIAL RESOURCES

During FY2020, the Group's working capital was financed by both internal resources and bank borrowings. As at 31 December 2020, cash and bank balances amounted to approximately S\$58.5 million, which increased by approximately 53.9% as compared to S\$38.0 million as at 31 December 2019. The quick ratio of the Group was approximately 1.3 times (31 December 2019: 1.6 times).

As at 31 December 2020, the Group has long and short-term bank borrowings of approximately \$\$31.7 million. Among the borrowings, the bank borrowings due within one year amounted to approximately \$\$22.1 million (31 December 2019: \$\$20.2 million) while the bank borrowings due after one year amounted to approximately \$\$9.6 million (31 December 2019: \$\$7.1 million).

As at 31 December 2020, the weighted average effective interest rates on bank borrowings is 4.76% (31 December 2019: 6.62%) per annum. The Group does not have fixed rate bank borrowings as at 31 December 2020 and 31

December 2019. Together with the obligation under finance leases of approximately S\$0.2 million (31 December 2019: S\$0.2 million), the Group's total borrowings amounted to S\$31.9 million (31 December 2019: S\$27.5 million).

### **GEARING RATIO**

During FY2020, the gearing ratio of the Group was about 18.8% (2019: 18.0%) which was calculated on the Group's total borrowing (including total borrowing and finance lease but excluding trade and other payables) to total shareholders' equity (excluding non-controlling interests).

The increase in gearing ratio was mainly due to the increase in bank borrowings.

### **TREASURY POLICIES**

The Group has adopted a prudent treasury policy and thus maintained a healthy liquidity position throughout FY2020. The Group strives to reduce credit risk by performing ongoing credit assessments and evaluations of the financial status of its customers. To manage liquidity risk, the Board closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and other commitments can meet its funding requirements from time to time. In the event of capital need, the Group may borrow funds from banks in the currency that coincident with the functional currency of the subsidiary as a natural hedge against foreign exchange fluctuation. During FY2020, the Group did not enter into any hedges in respect of the interest rate risk we are exposed to.

### FOREIGN EXCHANGE EXPOSURE

The Group's foreign currency transactions are mainly denominated in Renminbi ("**RMB**") and United States dollars ("**USD**"). The Group has currency exposure as certain sourced parts and components incurred in the Mainland China were denominated in RMB. Certain of the subsidiaries of the Company have their assets and liabilities denominated in RMB and other currencies. The Group is subject to foreign exchange rate risk arising from future commercial transactions and recognised assets and liabilities which are denominated in RMB.

During FY2020, the Group has entered into financial instruments to hedge its exposure to foreign currency risk. Details of the foreign exchange exposure are set out in Note 35 to the financial statements.

### **CAPITAL EXPENDITURES**

During FY2020, the Group's capital expenditure consists of additions to property, plant and equipment and construction in process amounting to approximately \$\$10,512,000 (2019: \$\$5,017,000).

### **EMPLOYEES AND REMUNERATION POLICIES**

As at 31 December 2020, there were 950 (2019: 881) employees in the Group. Staff remuneration packages are determined in consideration of market conditions and the performance of the individuals concerned, and are subject to review from time to time. The Group also provides other staff benefits including medical and life insurance.

The Company adopted ISDN Share Option Scheme 2016 ("**ISDN ESOS 2016**") and ISDN Performance Share Plan ("**ISDN PSP**") as incentives to the Directors and other eligible participants. The Group also provides and arranges on-the-job training for the employees.

#### SIGNIFICANT INVESTMENT HELD

Except for investments in subsidiaries and associates, the Group did not hold any significant investment in equity interest in any other company during FY2020.

### **RISK MANAGEMENT**

### **Contingent Liabilities**

The Group did not have any significant contingent liabilities or outstanding guarantees in respect of payment obligations to any third parties as at 31 December 2020.

#### **Charge on the Group's Assets**

As at 31 December 2020, the Group's cash and cash equivalents, net book value of property, plant and equipment and land use rights of approximately S\$2.9 million, S\$23.8 million and S\$1.2 million respectively (2019: S\$3.1 million, S\$18.6 million and S\$1.2 million) were pledged to banks to secure general banking facilities granted to the Group.

#### **PROPOSED FINAL DIVIDEND**

The Board have recommended the payment of a final dividend of 0.8 Singapore cents (equivalent to 4.67 Hong Kong cents) per ordinary share for FY2020. The proposed dividend payment is subject to approval by the Shareholders at the annual general meeting to be held on Friday, 30 April 2021 (the "**AGM**") at 9:30 a.m. (Singapore Time). Upon Shareholders' approval at the upcoming AGM, the proposed final dividend will be paid on or about 27 August 2021 to the Shareholders whose names shall appear on the register of members of the Company on Wednesday, 7 July 2021.

The Directors propose that the Shareholders be given the option to receive the final dividend in new shares in lieu of cash. The scrip dividend proposal is subject to: (1) the approval of the proposed final dividend at the AGM; and (2) SGX-ST and SEHK granting the listing of and permission to deal in the new shares to be issued pursuant to this proposal.

A circular containing details of the scrip dividend proposal will be despatched to the Shareholders together with the form of election for scrip dividend on or about Friday, 16 July 2021. It is expected that the final dividend warrants and share certificates for the scrip dividend will be despatched to the Shareholders on or about Friday, 27 August 2021.

The Board is committed to ensure that the highest standards of corporate governance are practiced throughout the Company and Group as a fundamental part of its responsibilities to protect and enhance shareholder value and the financial performance of the Group.

The Monetary Authority of Singapore ("**MAS**") issued the revised Code of Corporate Governance on 6 August 2018 (the "**2018 Code**") and the 2018 Code applies to annual reports covering financial years with effect from 1 January 2019. The Listing Manual of the Singapore Exchange Securities Trading Limited (the "**SGX-ST Listing Manual**") requires listed companies to describe in its annual report its corporate governance practices with specific reference to the principles and the provisions of the 2018 Code. The Company must comply with the principles of the 2018 Code. Where the Company's practices vary from any provisions of the 2018 Code, it must explicitly state, in its annual report, the provision from which it has varied, explain the reason for variation, and explain how the practices it had adopted are consistent with the intent of the relevant principle.

This report outlines the Company's corporate governance framework in place throughout FY2020 with specific references made to each of the principles and the accompanying provisions to each principle of the 2018 Code and the relevant Practice Guidance of the SGX-ST (the "**Practice Guidance**"). The Company has complied with the principles set out in the 2018 Code. Where there are deviations, appropriate explanations have been set out on how our practices are consistent with the aim and philosophy of the principle in question. This report also makes references to the Code of Corporate Governance implemented on 2 May 2012 (the "**2012 Code**") in relation to the relevant principles and accompanying guidelines that are still in force.

The Company's ordinary shares have been listed (the "**Listing**") on the Main Board of the SEHK since 12 January 2017. From the date of Listing, the Company is required to comply with, among others, the applicable code provisions of the Corporate Governance Code (the "**HK CG Code**") as set out in Appendix 14 to the SEHK Listing Rules. The Group has complied with the HK CG Code for the FY2020, except for the deviation from code provisions A.1.1 of the HK CG Code which are explained under the heading "Board Committees" below.

### **BOARD MATTERS**

### **Principle 1: Board's Conduct of its Affairs**

The company is headed by an effective Board which is collectively responsible and works with Management for the long-term success of the Company.

The primary functions of the Board are to provide entrepreneurial leadership for the Company and its subsidiaries, set the Group's values and standards and enhance and protect long-term returns and value for the Shareholders. Besides carrying out its statutory responsibilities, the Board oversees the formulation of the Group's long-term strategic objectives and directions, reviews and approves the Group's business and strategic plans and monitors the achievement of the Group's corporate objectives. It also reviews the performance of the management of the Group ("**Management**"), oversees the management of the Group's business affairs and conducts periodic reviews of the Group's financial performance and implementing policies relating to financial matters, which include risk management, internal controls, sustainability issues and compliance.

In accordance with C.1.3 of the HK CG Code, the Board, supported by the finance department, is responsible for the preparation of the financial statements of the Company and the Group. The Directors were not aware of any material uncertainties relating to events or conditions which may cast significant doubt upon the Group's ability to continue as a going concern.

All Directors must objectively make decisions in the interests of the Group as fiduciaries and hold the Management accountable for performance. The Board has put in place a code of conduct and ethics, set appropriate tone-from-the-top and desired organisational culture, and ensures proper accountability within the Company. Directors facing a conflict of interest will recuse themselves from discussions and decisions involving the issue of conflict.

The Directors of the Company are as follows:

### Newly appointed directors

The Board ensures that newly appointed Directors are familiar with their duties, obligations and the Group's businesses and corporate governance practices to facilitate the effective discharge of their duties. The Board does not provide training to new Directors on accounting, legal or industry-specific matters as it uses its best efforts to select new Directors who already possess such skills. Upon appointment, Directors will also be provided with formal letters, setting out their duties and obligations, including matters reserved for the Board's decision. Newly appointed Directors are given guidance and orientation (which includes management presentations) to allow the Directors to understand the Group's business operations, strategic directions and policies, corporate functions and corporate governance practices. Training will be provided to Directors who have no prior experience as a director of a listed company in the roles and responsibilities of a listed company Director.

### **Existing Directors**

The Directors are encouraged to attend seminars and receive training to improve themselves in the discharge of Directors' duties and responsibilities at the Company's expense. Changes to regulations and accounting standards are monitored closely by the Management. To keep pace with such regulatory changes, the Company provides opportunities for ongoing education and training on Board processes and best practices as well as updates on changes in legislation and financial reporting standards, regulations and provisions from the SGX-ST Listing Manual and the SEHK Listing Rules that affect the Company and/ or the Directors in discharging their duties. During FY2020, the Directors were provided updates and informative news of the 2018 Code and the Practice Guidance.

The shares of the Company have been dual listed on the SEHK for trading on 12 January 2017, and the Company is required to fully comply with the SEHK Listing Rules. In order to comply with Code Provision A.6.5 of the HK CG Code to the SEHK Listing Rules after the dual listing of the Company on the SEHK, the Company has arranged for sufficient training of continuous professional development to the Directors to develop and refresh their knowledge and skills in relation to the SEHK Listing Rules during FY2020. All the Directors have provided their training records for FY2020 to the Company.

According to the records maintained by the Company, the Directors received the following training regarding roles, function and duties of a director of a listed company or professional skills in compliance with the requirement of the HK CG Code on continuous professional development during FY2020:

### **Executive Directors**

Teo Cher Koon Kong Deyang

### **Non-executive Director**

Toh Hsiang-Wen Keith

### **Independent Non-executive Directors**

Lim Siang Kai (Chairman) Soh Beng Keng Tan Soon Liang

The Board's approval is required in matters such as major funding proposals, investment and divestment proposals, major acquisitions and disposals, corporate or financial restructuring, mergers and acquisitions, share issuance and dividends and major corporate policies on key areas of operations, the release of the Group's half-year and full year results and interested person transactions of a material nature. The Board also has guidelines setting forth clear directions to the Management on matters that must be approved by the Board. These guidelines have been clearly communicated to the Management in writing. Further, matters requiring the Board's approval are disclosed in the Annual Report.

### **Board Committees**

To assist the Board in the discharge of its responsibilities, the Board has established four (4) Board Committees, namely the Audit Committee (the "**AC**"), the Nominating Committee (the "**NC**"), the Remuneration Committee (the "**RC**") and the Risk Management Committee (the "**RMC**") (collectively, the "**Board Committees**"). These Board Committees function within clearly defined terms of reference (which sets out the compositions, authorities and duties of each committee) and operating procedures, which are reviewed on a regular basis.

The details of the Board Committees are set out below in the Corporate Governance Report:

- (i) Nominating Committee (Principle 4):
- (ii) Remuneration Committee (Principle 6);
- (iii) Audit Committee (Principle 10); and
- (iv) Risk Management Committee (Principle 9).

Directors with multiple board representations would ensure that sufficient time and attention are given to the affairs of the Company by actively participating in the Board meetings and Board Committee meetings. The NC would conduct an annual review on whether a Director with multiple Board representations adequately carried out his or her duties as a Director of the Company based on internal guidelines. More details are set out in the disclosure under Provision 4.5 of the 2018 Code below.

### **Board meetings**

Schedules for regular Board meetings are normally agreed with the Directors in advance. In addition to the above, notice of at least 14 days is given for a regular Board meeting. For other Board meetings, reasonable notice is generally given. The Board meets at least two (2) times a year to oversee the business affairs of the Group, and to approve, if applicable, any financial and business objectives and strategies. The schedule of all the regular Board and Board Committees meetings for the calendar year is usually given to all Directors well in advance in accordance with the terms of references of the respective Board Committees, the 2018 Code and the SEHK Listing Rules. Ad-hoc meetings will be held when circumstances require. The Company's Constitution also provides for telephone conference and video conference meetings.

During the year under review, the Company held two regular Board meetings instead of holding at least four regular Board meetings a year as required under the code provision A.1.1 of the HK CG Code. However, the two regular Board meetings have achieved active participation of Directors and all Directors had shown their high attendance rate of the two Board meetings during the year. The Board meetings were held to consider and approve, among other things, the annual results and interim results of the Group. The significant matters concerning the business activities and operation of the Group had been either duly reported, discussed and resolved at the two Board meetings or dealt with by the Board by way of written resolutions for expeditious commercial decisions-making purposes. The Management also provides quarterly updates on the financial and business operations of the Group to the Board. Nevertheless, the Board will use its best endeavors to hold four regular Board meetings during FY2021.

The draft agenda of each Board meeting is provided to all Directors together with the notice of each Board meeting. The Directors would then inform of any additional agenda that they would like to discuss at the Board meeting. Board papers together with all appropriate, complete and reliable information including materials relating to the transactions to be discussed in the Board meeting are provided to all Directors at least three (3) days before each Board meeting to enable them to make informed decisions at the Board meeting. The Board papers include minutes of the previous meetings to be tabled and confirmed at the Board meeting, financial results announcements, reports from the internal auditors and external auditors, reports from the Board Committees, and related materials, background or explanatory information relating to the matters to be raised at the Board meeting.

The Directors are regularly updated by the Management on the developments within the Group and are supplied with such other information so that they are equipped to participate fully at the Board meetings.

The Management has taken a pro-active approach of informing the Directors on a timely basis of important corporate actions to be taken by the Company and events that will affect the Company, even if such developments may not require the approval of the Board.

The Directors have separate and independent access to the Management, the joint company secretaries and external advisers (where necessary) at the Company's expense.

The appointment and removal of the joint company secretaries is a matter for the Board to decide as a whole. The joint company secretaries or his or her representative administers, attends and prepares minutes of the Board and Board Committee meetings and assists the Chairman of the Board, AC, NC, RC and RMC in ensuring proper procedures at such meetings are complied with so that the Board and the Board Committees function effectively.

### **Principle 2: Board Composition and Guidance**

The Board has an appropriate level of independence and diversity of thought and background in its composition to enable it to make decisions in the best interests of the company.

Tan Soon Liang	Independent Non-executive Director	18/08/2016	29/06/2020	Member	-	Chairman	Member

The Board comprises of the following Directors:

There has been no financial, business, family or other material relationship amongst the Directors.

The independence of each Director is reviewed annually by the NC, in accordance with Provision 2.1 of the 2018 Code and Rule 3.13 of the SEHK Listing Rules. The Board considers an "independent" Director as one who is independent in conduct, character and judgement, and has no relationship with the Company, its related companies, its substantial shareholders (a shareholder who has an interest or interests in not less than 5% of the total votes attached to all voting shares in the Company) or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the Director's independent business judgment in the best interests of the Company. No individual or small group of individuals is allowed to dominate the Board's decision-making.

In addition to the above, the Board and the NC also consider the new Rules 210(5)(d)(i) and (ii) of the SGX-ST Listing Manual, which took effect on 1 January 2019. Pursuant to Rules 210(5)(d)(i) and (ii) of the SGX-ST Listing Manual, the Board and the NC consider that a director is not independent under any of the following circumstances:

- (i) if he is employed by the Company or any of its related corporations for the current or any of the past three (3) financial years; and
- (ii) if he has an immediate family member who is employed or has been employed by the Company or any of its related corporations for the past three (3) financial years, and whose remuneration is determined by the RC.

Furthermore, the Board and the NC have considered the new Rule 210(5)(d)(iii) of the SGX-ST Listing Manual which comes into effect on 1 January 2022. Rule 210(5)(d)(iii) of the SGX-ST Listing Manual provides that a director is not independent if he has been a director for an aggregate period of more than nine (9) years (whether before or after listing) and whose continued appointment as an independent director has not been sought and approved in separate resolutions by (A) all shareholders; and (B) all shareholders, excluding shareholders who also serve as the directors or the chief executive officer of the company, and associates of such directors and chief executive officer.

Mr. Lim Siang Kai and Mr. Soh Beng Keng were appointed as Independent Non-executive Directors on 26 September 2005 and have served as Independent Non-executive Directors for more than 15 years. As such, Mr. Lim Siang Kai and Mr. Soh Beng Keng will not be independent as at 1 January 2022 unless their continued appointment as independent directors has been sought and approved in separate resolutions. The Company will be seeking and obtaining the necessary approvals from (A) all shareholders and (B) all shareholders excluding the Directors, Chairman, President and their associates at the forthcoming AGM to comply with Rule 210(5)(d)(iii) of the SGX-ST Listing Manual.

Given that Mr. Lim Siang Kai and Mr. Soh Beng Keng have served on the Board as Independent Nonexecutive Directors for more than nine (9) years, the question of whether each of them is independent was subject to more rigorous scrutiny in accordance with Guideline 2.4 of the 2012 Code and A.4.3 of the HK CG Code. The Board, in consultation with the NC considers Mr. Lim and Mr. Soh to be independent as each of them has continually demonstrated strong independence in character and judgment and contributed effectively by providing impartial and autonomous views, and which, coupled with their familiarity with the business of the Group, have proven themselves to be valuable members of the Board.

The Board notes that Mr. Lim Siang Kai and Mr. Soh Beng Keng have demonstrated strong independent character and judgement over the years in discharging their duties and responsibilities as Independent Non-executive Directors with the utmost commitment in upholding the interest of the non-controlling Shareholders. Mr. Lim Siang Kai and Mr. Soh Beng Keng have expressed individual viewpoints, debated issues, and objectively scrutinised and challenged Management. Mr. Lim Siang Kai and Mr. Soh Beng Keng have sought clarification as and when they deemed necessary, and have direct access to Management. As such, the Board believes that the continued appointment of Mr. Lim Siang Kai and Mr. Soh Beng Keng as Independent Non-executive Directors will contribute to the stability and diversity of the Board, notwithstanding their tenure on the Board.

The NC has also reviewed and determined that Mr. Tan Soon Liang is independent in accordance with the 2018 Code and the SEHK Listing Rules and is able to exercise independent judgement.

In addition, no individual or small group of individuals is allowed to dominate the Board's decision-making. The Company has received a written annual confirmation from each Independent Non-executive Director of his independence pursuant to Rule 3.13 of the SEHK Listing Rules. The Company considers all Independent Non-executive Directors to be independent in accordance with the independence guidelines set out in the SEHK Listing Rules, the SGX-ST Listing Manual and the 2018 Code. The Company does not have any alternate Directors on the Board and did not appoint any alternate Directors during FY2020. The Company will avoid the appointment of alternate Directors, unless for limited periods in exceptional cases such as when a Director has a medical emergency.

The Board has complied with the requirements of the 2012 Code and Rule 3.10A of the SEHK Listing Rules that requires at least one third of the Board to be comprised of Independent Non-executive Directors, and in accordance with Rule 3.10 of the SEHK Listing Rules that at least one of the Independent Non-executive Directors has appropriate professional qualifications or accounting or related financial management expertise. As at the date of this Corporate Governance Report, half of the Board is independent. The Chairman of the Board, Mr. Lim Siang Kai, is independent. The Independent Non-executive Directors chair all the Board Committees, which play a pivotal role in supporting the Board. Key information on the Directors can be found in the "Board of Directors" section of the annual report.

As at the date of this Corporate Governance Report, the Board comprises two (2) Executive Directors, one (1) Non-executive Director, and three (3) Independent Non-executive Directors. Presently, there is a good balance between the Executive Directors, Non-executive Director and Independent Non-executive Directors. The Non-Executive Directors make up a majority of the Board.

The Board, through the delegation of its authority to the NC, has used its best efforts to ensure that Directors appointed to the Board possess the relevant background, experience and knowledge in technology, business, finance and management skills critical to the Group's business to enable the Board to make sound and well-considered decisions. The NC would ensure that the Board comprises of Directors with competencies in areas which are relevant and valuable to the Group, such as accounting, corporate finance, business development, management, sales and strategic planning. In addition to the above factors, the Board would also take into consideration the appropriate balance and mix of skills, knowledge and experience and diversity of skills, age, experience, gender and education background to avoid groupthink and to foster constructive debate. The ultimate decision will be made upon the merits and contribution of the selected candidates.

The Company recognises and embraces the benefits of diversity of Board members. Therefore, the Company has established the Board Diversity Policy to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company's business. All Board appointments will continue to be made on a merit basis with due regard to the benefits of diversity of the Board members.

The Independent Non-executive Directors and the Non-executive Director constructively challenge and help to develop proposals on strategy, review the performance of the Management in meeting agreed goals and objectives and monitor the reporting of performance. To facilitate a more effective check on the Management, Independent Non-executive Directors and the Non-Executive Director have met once without the presence of the Management during FY2020. The chairman of such meetings provides feedback to the Board and/or Chairman as appropriate.

The Company complied with Code Provision A.1.8 of the HK CG Code by arranging appropriate insurance cover for Directors' and officers' liabilities in respect of legal actions against its Directors and senior management arising out of corporate activities.

### **Principle 3: Chairman and Chief Executive Officer**

There is a clear division of responsibilities between the leadership of the Board and Management and no one individual has unfettered powers of decision-making.

The Chairman and the Managing Director and President of the Group are separate persons. Mr. Lim Siang Kai is the Independent Non-executive Director and Chairman while Mr. Teo Cher Koon is the Managing Director and President. This ensures that there is an appropriate balance of power between the Chairman of the Board and the Managing Director and President, thereby allowing increased accountability and greater capacity of the Board for independent decision-making.

The Board has established and set out in writing the division of responsibilities between Mr. Lim Siang Kai (the Independent Non-Executive Director and Chairman) and Mr. Teo Cher Koon (the Managing Director and President).

Mr. Lim Siang Kai, the Independent Non-executive Director and Chairman, is consulted on the business of the Board and the Board Committees. Whereas the Group's strategic direction, formulation of policies and day-to-day operations of the Group are entrusted to the Managing Director and President, Mr. Teo Cher Koon. Mr. Teo Cher Koon is assisted by an experienced and qualified team of executive officers of the Group.

The Company does not have a lead independent director as (i) the Chairman is independent and (ii) the Chairman and the Managing Director and President of the Group are separate persons. The Chairman is available to shareholders where they have concerns and for which contact through the normal channels of communication with the Chairman or Management are inappropriate or inadequate.

### Principle 4: Board Membership

The Board has a formal and transparent process for the appointment and re-appointment of directors, taking into account the need for progressive renewal of the Board.

The Board has established a NC with terms of reference which clearly sets out the authorities and duties of the NC. The NC makes recommendations to the Board on relevant matters relating to the following:

- to review the succession plans of the directors, in particular for the appointment and/or replacement of the Chairman, the Managing Director and President and key management personnel, being persons having authority and responsibility for planning, directing and controlling the activities of the Company;
- (ii) the process and criteria for evaluation of the performance of the Board, its Board Committees and Directors;
- (iii) the review of training and professional development programmes for the Board and its Directors; and
- (iv) the appointment and re-appointment of Directors (including alternate Directors, if any).

### **Nominating Committee**

The NC comprises one (1) Executive Director and two (2) Independent Non-executive Directors, one (1) of whom is also the Chairman of the NC, namely:

Soh Beng Keng (Chairman)Independent Non-executive DirectorLim Siang Kai (Member)Independent Non-executive DirectorTeo Cher Koon (Member)Executive Director

During FY2020, the NC has, among other matters, (i) reviewed the structure, size and composition of the Board; (ii) assessed the independence of the Independent Non-Executive Directors; and (iii) recommended to the Board for consideration the reappointment of the retiring Directors at the forthcoming AGM.

### Nomination Policy

The NC has in place a selection and nomination process for the appointment of new Directors. For appointment of new Directors to the Board the NC would, in consultation with the Board, evaluate and determine the selection criteria with due consideration to the mix of skills, knowledge and experience of the existing Board. The NC does so by first evaluating the existing strengths and capabilities of the Board, before it proceeds to assess the likely future needs of the Board, and assesses whether this need can be fulfilled by the appointment of one (1) person and if not, then to consult the Board with respect to the appointment of two (2) persons.

The NC will then source through their network or engage external professional assistance for potential candidates and resumes for review, undertake background checks on the resumes received, narrow this list of resumes and finally to invite the shortlisted candidates to an interview. This interview may include a briefing of the duties required to ensure that there is no expectations gap, and to ensure that any new Director appointed has the ability and capacity to adequately carry out his duties as a Director of the Company, taking into consideration the number of listed company board representations he holds and other principal commitments he may have. The NC will take an open view in sourcing for candidates and does not solely rely on current Directors' recommendations or contacts, and is empowered to engage professional search firms. The NC will interview all potential candidates in frank and detailed meetings and make recommendations to the Board for approval.

The NC, in considering the re-appointment of any Director, had considered, *inter alia*, the attendance record at meetings of the Board and Board Committees, intensity of participation at meetings, and the quality of contributions to the development of strategy, the degree of preparedness, industry and business knowledge and experience each Director possesses which are crucial to the Group's business.

### Appointments, Re-election and Removal of Directors

The Board has the authority from time to time and at any time to appoint a person as a Director to fill a casual vacancy or as an addition to the Board. Any new Directors appointed during the year shall only hold office until the next AGM and they shall then be eligible for re-election but shall not be taken into account in determining the Directors who are to retire by rotation at that meeting.

Regulation 89 of the Company's Constitution requires one third of the Board, including the Managing Director to retire by rotation at every AGM. The Directors must present themselves for re-nomination and re-election at regular intervals of at least once every three (3) years.

Each Executive Director has entered into a service contract with the Company for a term of three (3) years, while each Non-executive Director and Independent Non-executive Director is engaged for three (3) years.

In accordance with Regulation 89 of the Company's Constitution, Mr. Kong Deyang and Mr. Lim Siang Kai (collectively, the "Retiring Directors"), shall retire at the forthcoming AGM. In addition, as disclosed under Principle 2 of this Corporate Governance Report, the Company will also be seeking and obtaining the necessary approvals for Mr. Lim Siang Kai and Mr. Soh Beng Keng's continued appointment as Independent Non-executive Directors pursuant to the new Rule 210(5)(d)(iii) of the SGX-ST Listing Manual.

The NC recommended that the Retiring Directors and Mr. Soh Beng Keng be nominated for re-election at the forthcoming AGM. In reviewing the nomination of the Retiring Directors and Mr. Soh Beng Keng, the NC considered their performance and contributions during the year, having regard not only to their attendance and participation at Board and Board Committee meetings but also the time and effort devoted to the Group's business and affairs.

The Board had accepted the NC's recommendation; and the Retiring Directors together with Mr. Soh Beng Keng, being eligible, will be offering themselves for re-election at the forthcoming AGM.

For good corporate governance, the Retiring Directors and Mr. Soh Beng Keng have abstained from voting at the relevant Board meeting on the respective resolutions in relation to their re-election as Directors.

Please refer to pages 51 to 57 of this Annual Report for the detailed information as required under Appendix 7.4.1 of the SGX-ST Listing Manual of the Retiring Directors and Mr. Soh Beng Keng who will be standing for re-election at the AGM.

### **Independence of a Director**

The NC reviews and affirms the independence of the Company's Independent Non-Executive Directors annually. Each Director is required to complete a Director's independence checklist on an annual basis to confirm his/her independence. The Director's independence checklist is drawn up based on the provisions provided in the 2018 Code and the SGX-ST Listing Manual and Rule 3.13 of the SEHK Listing Rules, and requires each Director to assess whether he/she considers himself/herself independent despite being involved in any of the relationships identified in the 2018 Code, the SGX-ST Listing Manual and Rule 3.13 of the SEHK Listing Rules. The NC then reviews the Director's independence checklist to determine whether each Director is independent.

The NC has reviewed the annual confirmation of independence of Mr. Lim Siang Kai, Mr. Soh Beng Keng and Mr. Tan Soon Liang for FY2020 and has confirmed that these Independent Directors are independent in accordance with the 2018 Code, the SGX-ST Listing Manual and Rule 3.13 of the SEHK Listing Rules and they do not have any relationships with the Company, its related corporations, its substantial shareholders or its officers which may affect their independence.

The NC has reviewed the structure, size and composition (including the skills, knowledge and experience) of the Board during the FY2020.

The NC determines annually in relation to whether the Director is independent in accordance with Rule 3.13 of the SEHK Listing Rules as well.

When a Director has multiple board representations, he or she ensures that sufficient time and attention is given to the affairs of each company. The Board does not prescribe a fixed number of listed company board representations for each Director because the main consideration in a Director's effectiveness is his performance as a Director of the Company, and not the number of board representations he has. All Directors are required to declare their board representations in other listed companies and other principal commitments. Please refer to the section entitled "Directorship" of this Annual Report for a list of the listed company directorships and principal commitments of each Director of the Company.

The NC ensures that new directors are aware of their duties and obligations. The NC also determines annually whether a Director with multiple board representations is able to and has been adequately carrying out his or her duties as a Director of the Company based on internal guidelines. The NC takes into account the results of the assessment of the effectiveness of each individual Director and the respective Directors' actual conduct on the Board in making the determination, and is satisfied that all the Directors have been able to and have adequately carried out their duties, notwithstanding their multiple board representations in other listed companies.

### **Company Secretaries**

The joint company secretaries of the Company (the "Joint Company Secretaries") are Ms. Gn Jong Yuh Gwendolyn ("Ms. Gn") and Ms. Tung Wing Yee Winnie ("Ms. Tung") during FY2020. Ms. Gn, a qualified advocate and solicitor in Singapore specialising in corporate finance, capital markets, corporate and commercial law as well as mergers and acquisitions, has been working as our Company Secretary since 2007. Ms. Tung, a fellow member of The Hong Kong Institute of Certified Public Accountants and a Certified Practising Accountant of the CPA Australia, was appointed as one of the Joint Company Secretaries with effect from 28 February 2020.

Since the Listing, Ms. Gn has been appointed as one of the Joint Company Secretaries. Ms. Cheng Lucy ("**Ms. Cheng**"), a senior corporate secretarial manager of Boardroom Corporate Services (HK) Limited, an associate member of both The Hong Kong Institute of Chartered Secretaries and The Chartered Governance Institute (formerly known as The Institute of Chartered Secretaries and Administrators) in the United Kingdom, was appointed as a Joint Company Secretary from 16 December 2018 to 28 February 2020. Ms. Cheng worked closely with Ms. Gn in the discharge of her duties as a Joint Company Secretary from 16 December 2018 until 11 January 2020 (the "Initial Period"). Subsequent to the expiry of the Initial Period, the SEHK agreed that Ms. Gn is qualified to act as the company secretary of the Company under the SEHK Listing Rules 3.28. Ms. Cheng resigned on 28 February 2020.

For FY2020, Ms. Tung and Ms. Gn has have undertaken not less than 15 hours of relevant professional training respectively in compliance with Rule 3.29 of the SEHK Listing Rules. Ms. Gn's professional and continuing training are in relation to Singapore laws. The primary person at the Company with whom the Joint Company Secretaries have been contacting in respect of company secretarial matters is Ms. Ho Ting Wai Christine.

The Joint Company Secretaries are responsible to keep minutes of all Board and Board Committee meetings. Draft minutes are normally circulated to Directors for comments within a reasonable time after each Board and Board Committee meeting and the final version is open for Directors' inspection.

According to the current Board practice, any material transaction, which involves a conflict of interest for a substantial shareholder or a Director, will be considered and dealt with by the Board at a duly convened Board meeting. The Company's Constitution contain provisions requiring Directors to abstain from voting and not to be counted in the quorum at Board meetings for approving transactions in which such Directors or any of their associates have a material interest.

### **Principle 5: Board Performance**

The Board undertakes a formal annual assessment of its effectiveness as a whole, and that each of its board committees and individual directors.

The Board has a process for assessing the effectiveness of the Board as a whole and its Board Committees, and for assessing the contribution of the individual Directors to the effectiveness of the Board.

The NC decides and recommends for the Board's approval a set of objective performance criteria and its evaluation in relation to the Board and Board Committees' performance as well as the contribution by the Chairman and each individual Director to the Board.

The objective performance criteria taken into consideration in the process of evaluation are as follows:

- (i) Timely guidance to the Management;
- (ii) Attendance at Board/Board Committee meetings;
- (iii) Participation at Board/ Board Committee meetings;
- (iv) Commitment to Board activities;
- (v) Board performance in discharging principle functions including enhancing long-term shareholder value;
- (vi) Board Committee performance;
- (vii) Independence of Independent Non-executive Directors;
- (viii) Appropriate complement of skill, experience and expertise on the Board;
- (ix) Return on assets / equity;
- (x) Return on investment; and
- (xi) Company's share price and performance over a five-year period.

A Board evaluation and individual Director evaluation is conducted annually whereby Directors complete a self assessment checklist based on various areas of assessment to assess their views on various aspects of Board performance. These areas include Board composition, information, process and accountability and the overall effectiveness of the Board. Factors considered include the suitability of the size of the Board for effective debate and decision-making, competency mix of Directors and regularity of meetings. The results of these checklists were considered by the NC. The NC Chairman acts on the results of the performance evaluation, and in consultation with the NC, will propose to the Board, where appropriate, for new members to be appointed to the Board or to seek the resignation of Directors.

The NC has assessed the overall performance of the current Board, Board Committees and each individual Director and is of the view that the performance of the Board as a whole, each Board Committee and each individual Director has been satisfactory and met its performance objectives for FY2020. No external facilitator was used in the evaluation process.

### **Remuneration Matters**

### **Principle 6: Procedures for Developing Remuneration Policies**

The Board has a formal and transparent procedure for developing policy on director and executive remuneration, and for fixing the remuneration packages of individual directors and key management personnel. No director is involved in deciding his or her own remuneration.

The role of the RC is to review and recommend remuneration policies and packages for Directors and key management personnel and to disseminate proper information on transparency and accountability to shareholders on issues of remuneration of the Executive Directors of the Group and employees related to the Executive Directors and controlling shareholders of the Group.

Their role covers all aspects of remuneration, including but not limited to Directors' fees, salaries, allowances, bonuses, options, long-term incentive schemes, including share schemes and benefitsin-kind. Recommendations are made in consultation with the Chairman of the Board and submitted for endorsement by the entire Board. No Director or any of his associates is involved in deciding his own remuneration.

Primary functions to be performed by the RC:

- (i) review and recommend to the Board, a formal and transparent framework of remuneration for the Board and key management personnel;
- (ii) review and recommend to the Board the specific remuneration packages for each Director as well as for the key management personnel;
- (iii) review the level of remuneration that are appropriate to attract, retain and motivate the Directors and key management personnel whilst linking rewards to group or corporate and individual performance;
- (iv) ensure adequate disclosure on Directors' remuneration;
- (v) review and administer the ISDN ESOS 2016 and ISDN PSP (collectively, the "Schemes") adopted by the Group and decides on the allocations and grants of options and/or share awards to eligible participants under the Schemes;
- (vi) review and approve the Company's obligations arising in the event of termination of the executive directors' and key management personnel's contracts of service, to ensure that such contracts of service contain fair and reasonable termination clauses which are not overly generous; and
- (vii) recommend to the Board any long-term incentive schemes which may be set up from time to time and does all acts necessary in connection therewith.

Pursuant to the Code Provision B.1.5 of the HK CG Code, the remuneration of the executive officers / senior management by band for the FY2020 is set out below:

	2020	2019	
	Number of individuals		
S\$0 to S\$100,000	-	-	
S\$100,001 to S\$200,000	2	1	
S\$200,001 to S\$300,000	3	4	
S\$300,001 to S\$400,000	-	-	
S\$400,001 to S\$500,000	1	1	
	6	6	

Details of the remuneration of each Director and the five (5) individuals with the highest emoluments in the Group for FY2020 are set out in Note 9 of the financial statements.

The RC comprises three (3) Independent Non-executive Directors, one (1) of whom is also the Chairman of the RC, namely:

Tan Soon Liang (Chairman)Independent Non-executive DirectorLim Siang Kai (Member)Independent Non-executive DirectorSoh Beng Keng (Member)Independent Non-executive Director

During FY2020, the RC's review covered all aspects of remuneration, including but not limited to termination terms, Directors' fees, salaries, allowances, bonuses, options, long-term incentive schemes, including share schemes and benefits-in-kind. Recommendations of remuneration packages for each director as well as for the key management personnel were made in consultation with the Chairman of the Board and submitted for endorsement by the entire Board. No Director or any of his associates was involved in deciding his own remuneration.

In setting the remuneration packages, the RC considers the remuneration and employment conditions within the industry. If necessary, the RC will seek expert advice inside and/or outside the Company on remuneration of all Directors. The expenses arising from external professional advice (if any) shall be borne by the Company. No remuneration consultants were engaged by the Company during FY2020.

### Principle 7: Level and Mix of Remuneration

The level and structure of remuneration of the Board and key management personnel are appropriate and proportionate to the sustained performance and value creation of the company, taking into account the strategic objectives of the company.

The Executive Directors, Mr. Teo Cher Koon and Mr. Kong Deyang have entered into separate service agreements with the Company which can be terminated by either party giving not less than six (6) months' notice to each other. There are no long-term incentive schemes for any of the Directors. The remuneration package of the Executive Directors and the key management personnel comprises a basic salary component and a variable component which is the bonus, based on the performance of the Group as a whole and their individual performance.

The Non-executive Director and Independent Non-executive Directors receive Directors' fees, in accordance with their level of contributions, taking into account factors such as responsibilities, effort and time spent for serving on the Board and Board Committees. The Company recognises the need to pay competitive fees to attract, motivate and retain Directors without being excessive to the extent that their independence might be compromised. The Directors' fees for FY2020 were recommended by the Board for approval at the last AGM of the Company.

The Company sets remuneration packages to ensure that it is competitive and sufficient to attract, retain and motivate Directors and executive officers of required experience and expertise to run the Group successfully.

#### **Principle 8: Disclosure on Remuneration**

The Company is transparent on its remuneration policies, level and mix of remuneration, the procedure for setting remuneration, and the relationships between remuneration, and the relationships between remuneration, performance and value creation.

#### Policy and criteria for setting remuneration

The Company's compensation structure for its Directors and key management personnel is directly linked to corporate and individual performance in terms of financial, non-financial performance and the creation of shareholder wealth. There is a fixed component of remuneration and a variable component which is directly linked to a Director's or key management personnel's performance and contribution in that financial year.

The Company does not have in place any termination, retirement and post-retirement benefits that may be granted to Directors, the Managing Director and President, and the top six (6) key management personnel (who are not Directors or the Managing Director and the President).

The Company will consider the use of contractual provisions to allow the Company to reclaim incentive components or remuneration from Executive Directors and key management personnel in exceptional circumstances of misstatement of financial results, or of misconduct resulting in financial loss to the Company.

The Directors and senior management met their respective performance conditions for FY2020 relating to their remuneration packages.

Details of the level and mix of the remuneration and fees paid to the Directors for FY2020 are set out below:

	Basic salary	Director fees	Bonus	Benefits- in-kind	Retirement benefit scheme contribution	share of options	Total
	%	%	%	%	%	%	%

Soh Beng Keng	-	100	-	-	-	-	100
Tan Soon Liang	-	100	-	-	-	-	100

Please refer to Note 9 of the financial statements for further details on the remuneration and fees paid to the Directors.

For FY2020, the Company identified six (6) key management personnel (who are not Directors or the President of the Company). The details of remuneration paid to the top six (6) key management personnel (who are not Directors or the President of the Company) for FY2020 is disclosed below:

			Directors	Other	
	Salary	Bonus	Fees <sup>(1)</sup>	Benefits	Total
	%	%	%	%	%
<u> S\$450,001 - S\$500,000</u>					
Lau Choon Guan	95	3	-	2	100
<u> S\$250,001 - S\$300,000</u>					
Ho Ting Wai Christine	76	24	-	-	100
<u> S\$200,000 - S\$250,000</u>					
Cheng Hock Kiang <sup>(1)</sup>	78	4	14	4	100

Chow Ka Man	92	-	-	8	100
<u> S\$100,000 - S\$150,000</u>					
Wong Kwok Whye Peter	94	-	-	6	100

Note:

(1) Mr. Cheng Hock Kiang received directors' fees in his capacity as a director of a subsidiary of the Company.

The aggregate amount of the total remuneration paid to the top six (6) key management personnel (who are not Directors) of the Company was S\$1,479,000 in FY2020. As far as the Company is aware, the remuneration of the key management personnel is in line with industry practices.

The Board has considered Provision 8.1 of the 2018 Code, and after careful deliberation, has decided that disclosure of details in excess of the above may be detrimental to its business interests, given the highly competitive industry conditions, where poaching has become commonplace. The Group, with its main operations currently in Singapore and the PRC, sees human capital as one of its key advantages over its competitors and, noting that the highly competitive industry which the Group operates in, believes that the disclosure of each Director's and key management personnel's remuneration above best preserves the business interests of the Group, and is sufficient to address the concerns of stakeholders in this area.

Details of the remuneration of the Directors and the five highest paid employees as required to be disclosed pursuant to Appendix 16.25 to the SEHK Listing Rules are set out in Note 9 of the financial statements.

No emoluments were paid by the Group to the five (5) highest paid individuals as an inducement to join or upon joining the Group or as compensation for loss of office during FY2020.

The following table shows a breakdown of the annual remuneration (in percentage terms) of an immediate family member of a Director whose remuneration exceeds S\$100,000 for FY2020:

	Directors Other				
	Salary	Bonus	Fees	Benefits	Total
	%	%	%	%	%
Thang Yee Chin <sup>(1)</sup>	80	14	-	6	100

#### Note:

(1) Ms. Thang Yee Chin is a director of twenty-four (24) subsidiaries of the Company and oversees the administrative function in these companies. She is the spouse of the Company's Managing Director and President, Mr. Teo Cher Koon. Her remuneration was between S\$300,001 to S\$350,000 for FY2020

Save for the above, there are no other employees who are substantial shareholders of the Company, or who are immediate family members of a Director or a substantial shareholder of the Company, and whose remuneration exceeded S\$100,000 in FY2020.

#### **ISDN Performance Share Plan**

The Company has implemented the ISDN PSP on 17 February 2012, which shall be valid and effective for a period of 10 years from the date of adoption until 16 February 2022. The amendments to the ISDN PSP were approved by Shareholders on 16 December 2016.

Please refer to the section entitled "*Directors' Statement*" of this Annual Report for salient information on the ISDN PSP. Further details are set out in the Company's circular dated 2 February 2012.

Since the implementation of the ISDN PSP, no awards have been granted to the Directors, controlling shareholders of the Company or associates of controlling shareholders of the Company, and no employee of the Group has received 5% or more of the total number of awards available under the ISDN PSP.

#### **ISDN Employee Share Option Scheme 2016**

The Company has implemented the ISDN ESOS on 22 April 2016, which shall be valid and effective for a period of 10 years from the date of adoption until 22 April 2026.

Please refer to the section entitled "*Directors' Statement*" of this Annual Report for salient information on the ISDN ESOS. Further details are set out in the Company's circular dated 7 April 2016.

Since the implementation of the ISDN ESOS, no share options have been granted to the Directors, controlling shareholders of the Company or associates of controlling shareholders of the Company, and no employee of the Group has received 5% or more of the total number of share options available under the ISDN ESOS.

#### ACCOUNTABILITY AND AUDIT

#### **Principle 9: Risk Management and Internal Controls**

The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interests of the company and its shareholders.

#### Risk and Management Committee

The Board recognises that the internal control system provides reasonable, but not absolute, assurance to the integrity and reliability of the financial information and to safeguard the accountability of the assets of the Group. The system of internal controls is designed to manage rather than eliminate the risk of failure to achieve business objectives.

The Board, with the oversight of the RMC which was formed on 19 December 2016, is responsible for determining the nature and extent of the significant risks which the Company is willing to take in achieving its strategic objectives and value creation. The RMC comprises three (3) Independent Non-executive Directors, namely:

Lim Siang Kai (Chairman)	Independent Non-executive Director
Soh Beng Keng (Member)	Independent Non-executive Director
Tan Soon Liang (Member)	Independent Non-executive Director

The RMC performs the following principal functions:

- (i) supervise the risk control condition in respect of market risks, credit risks, operational risks, liquidity risks, compliance risks, information technology risks and reputation risks;
- (ii) monitor and evaluate the Group's exposure to international sanction law risks on an ongoing basis and, in particular, prior to entering into any agreement or conducting any business dealings with new customers;
- (iii) consider, review and approve the risk management strategy, policies and guidelines of the Group;

- (iv) decide on the risk profile, risk level, tolerance and capacity and related resource allocation;
- (v) review the risk reporting records of the Group and material risk management updates and reports of material breaches of risk limits and to assess the adequacy of proposals;
- (vi) engage external legal advisers with the necessary expertise and experience in international sanction law, and the general managers of each respective country to assist them in evaluating and monitoring international sanction law risks in the Group's day-to-day operations; and
- (vii) monitor and approve the use of monies deposited in the designated account for the purpose of deposit and deployment of all funds raised through the SEHK.

The Board recognises the importance of sound internal controls and risk management practices to good corporate governance. The Board affirms its overall responsibility for the Group's systems of internal controls and risk management, and for reviewing the adequacy and integrity of those systems on an annual basis. The internal control and risk management functions are performed by the Group's key executives.

It should be noted that the Group's system of internal controls and risk management is designed to manage rather than to eliminate the risk not meeting the Group's business objectives. Such system of internal controls and risk management can only provide reasonable, not absolute, assurance against, *inter alia*, the occurrence of material errors, poor judgment in decision-making, human error losses, fraud or other irregularities. The Management reviews the Company's business and operational activities regularly to identify areas of significant business, operational and compliance risks, and employs a wide range of measures to control these risks, including financial, operational, compliance and information technology controls. Internal and external auditors conduct annual audits and highlight significant matters to the AC, the RMC and the Management.

The Management acts on the matters highlighted by the external and internal auditors to improve the internal controls of the Company. The Management has embedded the risk management process and internal controls into all business operating procedures, where it becomes ultimately the responsibility of all business and operational managers. All identified areas of risks are promptly addressed by the managers who swiftly determine and implement appropriate measures to control and mitigate against such risks. Targets are set to measure and monitor the performance of operations periodically, such as sales growth, profit margins, operating expenses, management of inventory, management of receivables and personnel attendance. The identified risks and the corresponding countervailing controls are regularly reviewed by the managers to ensure that they are up to date and effective. All significant matters are highlighted to the Board, the RMC and the AC for their review, and the Board monitors the adequacy and effectiveness of the internal controls and risk management policies.

The Board has also received assurance from:

- (i) the Managing Director and President, and Chief Financial Officer ("**CFO**") that the financial records have been properly maintained and the financial statements give a true and fair view of the Group's operations and finances; and
- (ii) the Managing Director and President, and other key management personnel who are responsible, that the Group's risk management systems and internal control systems are effective and adequate.

During FY2020, the RMC held one meeting to review the Group's risk management and internal control systems which covered all material controls, including financial, operational and compliance control as well as risk management functions. The RMC is satisfied with the effectiveness of the Group's risk management and internal control systems.

The AC has reviewed the Group's risk assessment, based on the audit reports and controls put in place by the Management, and have discussed with the internal auditors the effectiveness of the Group's internal controls. The AC is satisfied that the Group's internal controls are adequate and operating efficiently.

Based on the internal controls established and maintained by the Group, work performed by the external auditors and internal auditors, and reviews performed by the Management, the RMC, the AC and the Board, the Board and the AC are satisfied that the Group's internal controls (including financial, operational, compliance and information technology controls) and risk management systems were adequate and effective as at 31 December 2020.

#### Principle 10: Audit Committee

#### The Board has an Audit Committee which discharges its duties objectively.

The principal responsibility of the AC is to assist the Board in maintaining a high standard of corporate governance to safeguard the Company's assets and maintain adequate accounting records, with the overall objective of ensuring that the Management creates and maintains an effective control environment in the Group.

The AC is regulated by its written terms of reference which sets out the AC's authorities and duties. The primary functions performed by the AC are set out below:

- (i) reviewing significant financial reporting issues and judgements so as to ensure the integrity of the financial statements of the company and any announcements relating to the company's financial performance;
- (ii) reviewing the adequacy and effectiveness of the Company's internal controls and risk management systems at least annually;
- (iii) reviewing the assurance from the President and CFO on the financial records and financial statements;
- (iv) making recommendations to the Board on the proposals to the shareholders on the appointment and removal of external auditors; and the remuneration and terms of engagement of the external auditors;
- (v) reviewing the adequacy, effectiveness, independence, scope and results of the external audit and the Company's internal audit function;
- (vi) reviewing the policy and arrangements for concerns about possible improprieties in financial reporting or other matters to be safely raised, independently investigated and appropriately followed up on;

- (vii) review with the external auditors the audit plan, their evaluation of the system of internal accounting controls, their letter to the Management and the Management's response;
- (viii) review the financial statements of the Company and the consolidated financial statements of the Group before their submission to the Board;
- (ix) discuss with the external auditors any suspected fraud or irregularity, or suspected infringement of any relevant laws, rules or regulations;
- (x) review potential conflicts of interest (if any);
- (xi) review the independence of the internal and external auditors;
- (xii) review interested person transactions and continuing connected transactions;
- (xiii) review the internal control procedures and ensure co-operation given by the Management to the external auditors; and
- (xiv) undertake such other functions and duties as requested by the Board and as required by SGX-ST Listing Manual and the SEHK Listing Rules.

The Company has set out its whistle-blowing policy on its intranet. The Company's staff may, in confidence, raise concerns about possible improprieties in matters of financial reporting or other matters to the AC. As of the date of this Corporate Governance Report, there were no reports received through the whistle-blowing mechanism.

The AC has reviewed and is satisfied with the policies and arrangements (including investigation and followup action) for staff of the Group and any other persons who may, in confidence, raise concerns about possible improprieties in matters of financial reporting or other matters.

The AC has recommended to the Board that Messrs Moore Stephens LLP ("**Moore Stephens**") be nominated for reappointment as external auditors of the Group at the forthcoming AGM. The Company confirmed that Rule 13.88 of the SEHK Listing Rules had been complied with.

The AC assesses the independence of the external auditors annually. The aggregate amount of fees paid for the external auditors of the Group for FY2020 is disclosed under Note 8 of the financial statements. There were no non-audit fees paid or payable to the Company's auditors during FY2020. The AC has reviewed the audit services rendered by the external auditors for FY2020 as well as the fees paid, and is satisfied that the independence of the external auditors has not been impaired.

The Company confirms compliance with Rules 712 and 715 of the SGX-ST Listing Manual in relation to the appointment of auditing firms for the Group. Moore Stephens LLP has been appointed as the external auditors of the Company and its Singapore-incorporated subsidiaries and significant associated companies. Member firms of Moore Global Network Limited have been engaged for the audit of the Group's significant foreign-incorporated subsidiaries.

During the AC meeting to approve the results announcement and the financial statements of the Group for FY2020, the AC discussed with the external auditors on the identified key audit matters and reviewed how those key audit matters have been addressed by the external auditors in their auditor's report. Having considered these, the AC is satisfied on the bases, estimates and judgements exercised by Management in relation to those identified key audit matters.

The AC is kept updated annually or from time to time on any changes to the accounting and financial reporting standards by the external auditors.

The AC has the authority to investigate any matter within its terms of reference, gain full access to and cooperation by the Management, exercise full discretion to invite any Director or executive officer to attend its meetings, and gain reasonable access to resources to enable it to discharge its functions properly.

The AC comprises three (3) Independent Non-executive Directors, one (1) of whom is also the Chairman of the AC.

The members of the AC as at the date of this report are as follows:

Lim Siang Kai (Chairman)	Independent Non-executive Director
Soh Beng Keng (Member)	Independent Non-executive Director
Tan Soon Liang (Member)	Independent Non-executive Director

The Board ensures that the members of the AC are appropriately gualified to discharge their responsibilities. All three (3) AC members have recent and relevant accounting or related financial management expertise or experience.

The members of the AC sit on multiple boards and hence, have the necessary accounting and financial expertise to deal with the matters that come before them. They will attend courses and seminars to keep abreast of changes to accounting standards and other issues which may have a direct impact on financial statements, as and when necessary.

None of the AC members was a former partner or director of the Company's existing auditing firm or auditing corporation (a) within a period of two years commencing on the date of their ceasing to be a partner of the auditing firm or director of the auditing corporation; and in any case, (b) for as long as they have any financial interest in the auditing firm or auditing corporation.

#### **Internal Auditors**

The Board is cognisant of its responsibility to maintain a sound system of internal controls to safeguard the shareholders' investment and the Group's assets and business. The AC decides on the appointment, termination and remuneration of the head of the internal audit function.

For FY2020, the Company outsourced its internal audit function to Wensen Consulting Asia (S) Pte. Ltd. ("WCA"). WCA conducted an internal audit in FY2020 and reports directly to the AC and AC Chairman and administratively to the Managing Director and President. WCA has unfettered access to all the Company's documents, records, properties and personnel, including the AC, and has appropriate standing within the Company.

At the same time, the Company has continued with the practice whereby it tasked two (2) staff members with accounting backgrounds to carry out a financial review on the major operating subsidiaries of the Company and to submit timely analysis report to the Management for review.

For the financial year under review, the AC has reviewed the adequacy and effectiveness of the internal audit function performed by WCA and ensured that the internal audit function is independent, effective and adequately resourced. The AC has also reviewed the results of the internal audit performed by WCA. The Board, with the concurrence of the AC, is of the opinion that the risk management system and internal controls system, addressing the financial, operational, compliance and information technology controls risks faced by the Company, is adequate and effective to safeguard the interests of the shareholders. In line with the Board's commitment to maintain sound internal controls, the Board has continued to engage WCA to perform internal audit for the year ending 31 December 2021.

The AC will meet with the external auditors without the presence of the Management at least once a year to review to review the adequacy of audit arrangement, with emphasis on the scope and quality of their audit, the independence, objectivity and observations of the external auditors. There are also meetings between the AC and internal auditors without the presence of the Management.

### SHAREHOLDER RIGHTS AND ENGAGEMENT

#### Principle 11: Shareholder Rights and Conduct of General Meetings

The company treats all shareholders fairly and equitably in order to enable them to exercise shareholders' rights and have the opportunity to communicate their views on matters affecting the company. The company gives shareholders a balanced and understandable assessment of its performance, position and prospects.

The Company's corporate governance practices promote the fair and equitable treatment to all shareholders by placing strong emphasis on strengthening relationships with its shareholders and the investment community. The Company keeps all its shareholders and other stakeholders informed of its corporate activities, including changes in the Company or its business which could materially affect the price or value of its shares, on a timely basis.

To facilitate shareholders' ownership rights, the Company ensures that all material information is disclosed on a comprehensive, accurate and timely basis via SGXNET and the website of the SEHK, especially information pertaining to the Company's business development and financial performance which could have a material impact on the price or value of its shares, so as to enable shareholders to make informed decisions in respect of their investments in the Company.

Shareholders are informed of shareholders' meetings through notices contained in annual reports or circulars sent to all shareholders. These notices are also posted onto the SGXNET and the website of the SEHK.

In order to provide ample time for the shareholders to review, the notice of any general meeting, together with the relevant annual report or circular, is despatched to all shareholders before the scheduled general meeting date. Shareholders are invited to attend the general meetings to put forth any questions they may have on the motions to be debated and decided upon.

All shareholders are entitled to vote in accordance with the established voting rules and procedures. The Company conducted poll voting in accordance with the SGX-ST Listing Manual and the SEHK Listing Rules for all resolutions tabled at the general meetings. The Company relies on the advice of the independent scrutineers to determine the need for electronic voting, taking into consideration the logistics involved, costs, and number of shareholders, amongst other factors.

Pursuant to COVID-19 advisories issued by the relevant authorities in Singapore and the related safe distancing measures in Singapore, the AGM in FY2020 was held by way of electronic means and shareholders were not able to attend the AGM held in FY2020 in person. To enable shareholders to participate in and vote effectively at the AGM held by way of electronic means, the Company set out detailed information on the arrangements relating to attendance at the AGM, submission of questions in advance of the AGM, addressing of substantial and relevant questions prior to or at the AGM, and voting procedures for the AGM.

At general meetings of Shareholders, the Company tables separate resolutions on each substantially separate issue unless the issues are interdependent and linked so as to form one significant proposal. Where resolutions are "bundled", the Company explains the reasons and material implications in the notice of meeting. In this regard, the Company has complied with Provision 11.2 of the 2018 Code.

The Directors' attendance at the general meetings of the Company held in FY2020 are set out in the table below:

	Annual General Meeting	
Name of Director	No. of meetings held	No. of meetings attended
Teo Cher Koon	1	1
Kong Deyang	1	1
Toh Hsiang-Wen Keith	1	1
Lim Siang Kai	1	1
Soh Beng Keng	1	1
Tan Soon Liang	1	1

The Company's Constitution has been amended on 16 December 2016 to facilitate voting in absentia. If any shareholder who is not a relevant intermediary (as defined in the Companies Act) is unable to attend, he/ she is allowed to appoint up to two (2) proxies to vote on his/her behalf at the general meeting through proxy forms sent in advance as prescribed by the Company and in accordance with the requirements of the Companies Act and SEHK Listing Rules from time to time. A shareholder who is a relevant intermediary may appoint more than two (2) proxies to speak, attend and vote at general meetings.

Under the Company's Constitution, Directors may in general, whenever they think fit, convene extraordinary general meetings. Under Section 176 of the Companies Act, however, Directors must notwithstanding anything in the Company's Constitution, on the requisition of shareholders holding not less than 10% of the total paid-up capital of the Company at the date of the deposit of the requisition, immediately proceed to convene an extraordinary general meeting to be held as soon as practicable but in any case not later than two (2) months after receipt by the Company of the requisition. In addition to the said right of requisition, two (2) or more shareholders holding not less than 10% of the total number of issued shares of the Company (excluding treasury shares) may also call a general meeting of the Company.

In addition to the above, the Company meets with its institutional and retail investors at least once a year at the AGM to be held by electronic means where shareholders are invited and encouraged to express their views. Apart from announcements published via SGXNET and SEHK's website and the annual report, the Company keeps shareholders informed of corporate developments by way of press releases from time to time.

The Company publishes minutes of its general meetings of Shareholders on its corporate website as soon as practicable. The minutes record substantial and relevant comments and queries from Shareholders relating to the agenda of the general meeting, and responses from the Board and Management.

For the forthcoming AGM, minutes of the AGM, which will include substantial comments or queries from shareholders and responses from the Board and Management, will be published on SGXNET, the Company's corporate website and the website of the SEHK within one month after the AGM.

The Group has adopted a dividend policy that aims to provide Shareholders with a target annual dividend payout of 25% of the net profit attributable to Shareholders in any financial year, whether as interim and/or final dividends. The form, frequency and amount of dividends declared each year will take into consideration the Group's profit growth, cash position, positive cash flow generated from operations, projected capital requirements for business growth and other relevant factors as the Board may deem appropriate. For FY2020, the Company has declared a first and final tax-exempt (one-tier) dividend of 0.8 Singapore cents (equivalent to approximately 4.67 Hong Kong cents) per ordinary share.

#### Principle 12: Engagement with Shareholders

The company communicates regularly with its shareholders and facilitates the participation of shareholders during general meetings and other dialogues to allow shareholders to communicate their views on various matters affecting the company.

The shareholders are encouraged to attend the Company's general meetings to ensure a high level of accountability and to stay informed of the Company's strategies and growth plans. The Board welcomes questions from shareholders who wish to raise issues, either informally or formally before or during the general meetings.

The Company is committed to timely dissemination of information and proper transparency and disclosure of relevant information to SGX-ST and SEHK, shareholders, analysts, the public and its employees. Where there is inadvertent disclosure made to a selected group, the Company will make the same disclosure publicly to all others as soon as practicable.

Information is communicated to shareholders and the public through the following channels:

- (i) 21 clear days' or 20 clear business days' (whichever is longer) notice for any AGM and any extraordinary general meeting of the Company at which it is proposed to pass a special resolution or a resolution of which special notice has been given to the Company and 14 clear days' or 10 clear business days' (whichever is longer) notice for all other extraordinary general meetings of the Company. The Board strives to ensure that these reports include all relevant information on the Group, including current developments, strategic plans and disclosures required under the Companies Act, Singapore Financial Reporting Standards, SGX-ST Listing Manual the SEHK Listing Rules and other relevant statutory and regulatory requirements;
- (ii) Price sensitive announcement of interim and full year results released through SGXNET and the website of the SEHK;
- (iii) Disclosures on the SGXNET and the website of the SEHK;
- (iv) Press releases;
- (v) Press and analysts' briefings as may be appropriate; and
- (vi) The Group's website (www.isdnholdings.com) where shareholders and the public may access information on the Group.

The detailed voting results, including the total number of votes cast for or against each resolution tabled, will be announced immediately at the general meetings and via SGXNET and the website of the SEHK. Minutes of general meetings including the questions and answers and relevant comments raised at the meeting will be prepared and such minutes are published on the Company's corporate website as soon as practicable.

The Company has taken the following steps to solicit and understand the views of shareholders:

The Company has put in place dedicated investor relations support guided by an investor relations policy to help to disseminate material information in a timely and useful manner to shareholders, analysts, the media, and other investors and aims to raise awareness and understanding of the company's business amongst the investing public. The Company has a section on the Company's website at http:// www.isdnholdings.com/investorrelations.html to provide shareholders and prospective investors with information necessary to make well-informed investment decisions and to maintain a regular dialogue channel with shareholders to gather views, inputs and address shareholder's concerns.

In addition, shareholders and other stakeholders may send their enquires and concerns to the Board by addressing them to the Joint Company Secretaries by post to the principal place of business of the Company at No. 10 Kaki Bukit Road 1, #01-30 KB Industrial Building, Singapore 416175. The Joint Company Secretaries will forward the enquires or concerns to the Managing Director and President or Chairman of the Board committees or senior management, as appropriate, within their area of responsibilities for handling.

Shareholders are welcome to suggest proposals relating to the operations, strategy and/or management of the Group to be discussed at shareholders' meeting. Proposal shall be sent to the Board or the Joint Companies Secretaries by written requisition at No. 10 Kaki Bukit Road 1, #01-30 KB Industrial Building, Singapore 416175. Pursuant to the Company's Constitution, shareholders who wish to put forward a proposal should convene an extraordinary general meeting by following the procedures set out in "Shareholders Rights" above.

#### Principle 13: Engagement with Shareholders

The Board adopts an inclusive approach by considering and balancing the needs and interests of material stakeholders, as part of its overall responsibility to ensure that the best interests of the company are served.

The Company has arrangements in place to identify and engage with its material stakeholder groups and to manage its relationships with such groups.

The Company holds analysts' briefings of its half-yearly results and an analysts briefing of its full year results. The half-yearly financial results are published through the SGXNET and the website of the SEHK, via press releases and on the Company's corporate website, to ensure fair dissemination to shareholders. The date of release of the results is announced through SGXNET and the website of the SEHK. The Company also conducts analysts' briefings and investor roadshows to maintain regular dialogue with shareholders as well as to solicit and understand the views of shareholders.

The detailed investor relation calendar is set out in the table below:

### **Material Contracts**

No material contracts were entered into between the Company or any of its subsidiaries involving the interests of any Director or controlling shareholder, which are either subsisting at the end of FY2020 or, if not then subsisting, entered into since the end of the previous financial year except for related party transactions and Director's remuneration as disclosed in the financial statements.

#### Interested Person Transactions ("IPTs")

The Company has established procedures to ensure that all transactions with interested persons are reported on a timely manner to the AC and that the transactions are at arm's length basis. All IPTs are subject to review by the AC to ensure compliance with established procedures.

In order to ensure that the Company complies with Chapter 9 of the SGX-ST Listing Manual and Chapter 14A of the SEHK Listing Rules on IPTs, the AC meets two (2) times a year to review all IPTs of the Company. However, if the Company enters into an IPT, the AC ensures compliance with the relevant rules under Chapter 9 of the SGX-ST Listing Manual and Chapter 14A of the SEHK Listing Rules.

For FY2020, there was no general mandate obtained by the Company in relation to any IPT.

There were no significant IPTs entered between the Group and interested persons during FY2020.

### **Dealing in Company's Securities**

In compliance with the best practices on dealings in securities set out in Rule 1207(19) of the SGX-ST Listing Manual of the SGX-ST, the Company has adopted its own internal compliance code to provide guidance for the Company, Directors and all its officers in relation to their dealings in the Company's securities.

After 12 January 2017 being the date of the Listing, the Company also updated its policy with the requirements set out in the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 to the SEHK Listing Rules (the "**Model Code**"). The Company confirms that specific enquiry has been made of all the Directors and the Directors have confirmed that they have complied with the Model Code for FY2020.

Directors, officers and any other employees who have access to material price-sensitive information are prohibited from dealing in securities of the Company prior to the announcement of a matter that involves material unpublished price-sensitive information. Officers are advised not to deal in the Company's securities on short-term considerations.

Directors, officers and employees are also prohibited from dealing in the Company's securities during the period commencing 30 days before the announcement of the Company's half-yearly financial statements and 60 days before the announcement of the Company's full-year financial statements.

The Company reminds their officers that the law on insider dealing is applicable at all times, notwithstanding that their internal codes may provide certain window periods for them or their officers to deal in their securities.

The Group has complied with Rule 1207(19) of the SGX-ST Listing Manual and the Model Code.

#### **Use of Proceeds from Issues of Securities**

Use of net proceeds from the placement of 23,730,000 new ordinary shares in the capital of the Company at an issue price of S\$0.45 which was completed on 8 May 2013 (the "**Placement**").

The Board wishes to update the Shareholders on the Group's utilisation of net proceeds of approximately S\$10,415,000 (after deducting expenses of approximately S\$263,500) from the Placement, as set out below:

#### **Corporate Governance Functions**

Since the Company's completion of its dual primary listing exercise on the Main Board of the SEHK, the Board has been and is performing the corporate governance duties set out in Code Provision D.3.1 of the HK CG Code, which, among other things, are as follows:

- (i) to develop and review the Company's policies and practices on corporate governance and make recommendations to the Board;
- (ii) to review and monitor the training and continuous professional development of Directors and senior management of the Company;
- (iii) to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;
- (iv) to develop, review and monitor the code of conduct and compliance; and
- (v) to review the Company's compliance with the relevant laws and regulations and disclosure in the Corporate Governance Report.

#### **Inside Information**

With respect to the procedures and internal controls for the handling and dissemination of price sensitive information, the Company is aware of its obligations under Part XIVA of the SFO and the SEHK Listing Rules and has established the inside information/price-sensitive information disclosure policy with close regard to the "Guidelines on Disclosure of Inside Information" issued by the Securities and Futures Commission of Hong Kong.

Under the policy, the procedures and internal controls for the handling and dissemination of inside information are as follows:

- (a) the Company should announce the inside information immediately where it is necessary to avoid the establishment of a false market in the Company's securities or would be likely to materially affect the price or value of the Company's securities;
- (b) the Board shall take reasonable precautions for preserving the confidentiality of inside information and the relevant draft announcement (if applicable) before publication;
- (c) the Company should make the inside information announcement through the electronic publication systems operated by the SEHK, SGX-ST and the Company's website; and
- (d) the Group has established and implemented procedures for dealing with media speculation, market rumours and analysts' reports.

#### Changes in the Company's Constitutional Documents

During FY2020, there were no changes in the Company's constitutional documents.

The Company's Constitution was previously amended by special resolution at an extraordinary general meeting held on 30 April 2019. The amendments to the Constitution are set out in the circular of the Company dated 25 March 2019.

The Company's Constitution is available on the websites of the SGX-ST, SEHK and the website of the Company.

#### 18 **Share Options and Performance Share Plan**

The Company has the ISDN PSP. The ISDN PSP was approved and adopted by Shareholders on 17 February 2012 and as amended on 16 December 2016 to satisfy the requirements of the SEHK Listing Rules. The purpose of the ISDN PSP is to reward, retain and motivate employees, directors, controlling shareholders and their associates to perform excellently and to participate in the equity of the Company. The ISDN PSP allows the Company to award fully-paid Shares to deserving participants.

The ISDN PSP is administered by the RC, comprising the Independent Non-executive Directors Tan Soon Liang, Lim Siang Kai and Soh Beng Keng.

The following persons are eligible to participate in the ISDN PSP:

- (a) Group employees and Group executive directors;
- (b) Group non-executive director; and
- (c) Persons who qualify under (a) above and are also controlling shareholders or their associates shall not participate in the ISDN PSP unless their participation and the actual number of shares and terms of any awards to be granted to him, have been approved by independent Shareholders in general meeting in separate resolutions, provided always that it shall not be necessary to obtain the approval of independent Shareholders for the participation in the ISDN PSP if he is, at the relevant time already a participant.

Other salient information relating to the ISDN PSP is set out below:

(i) The total number of new Shares that may be issued pursuant to awards granted under the ISDN PSP, when added to the aggregate number of Shares that are issued or are issuable in respect of the ISDN ESOS 2016 and such other share-based incentive schemes of the Company, shall not exceed 15% (or such other percentage as may be prescribed or permitted from time to time by the SGX-ST or the SEHK, where applicable) of the total number of issued Shares on the day immediately preceding the date on which the award shall be granted, provide and subject to the rules of the ISDN PSP.

For the financial year ended 31 December 2020

#### **18** Share Options and Performance Share Plan (cont'd)

- (ii) Awards may only be vested and consequently any Shares comprised in such awards shall only be delivered upon the RC being satisfied that the participant has achieved the performance target(s) and that the vesting period (if any) has expired provided always that the RC shall have the absolute discretion to determine the extent to which the Shares under that award shall be released on the prescribed performance target(s) being satisfied (whether fully or partially) or exceeded, as the case may be, at the end of the prescribed performance period. No Shares under the award shall be released for the portion of the prescribed performance target(s) that is not satisfied by the participant at the end of the prescribed performance period.
- (iii) Awards represent the right of a participant to receive fully-paid Shares free of charge. A participant is entitled to receive fully-paid Shares free of charge subject to certain prescribed performance targets being met.
- (iv) The vesting periods of awards will be determined by the RC and may not be subject to such time restrictions before vesting.
- (v) The selection of a participant, the number of Shares which are the subject of each award to be granted to him, and the prescribed vesting period shall be determined at the absolute discretion of the RC, which shall take into account such criteria as it considers fit, including (but not limited to), in the case of a Group employee or a Group executive director, his rank, job performance, years of service and potential for future development, his contribution to the success and development of the Group and the extent of effort required to achieve the performance target(s) within the performance period and, in the case of a Group non-executive director, his board and board committee appointments and attendance, and his contribution to the success and development of the Group.
- (vi) An award shall be vested in a participant for as long as he has fulfilled his performance target(s) and the vesting period (if any) has not expired and notwithstanding a transfer of his employment within any company in the Group or any apportionment of performance target(s) within any company in the Group.

Maximum entitlement of each participant under the ISDN PSP:

The maximum entitlement of each participant under the ISDN PSP in any 12-month period up to and including the date of grant of the awards must not exceed 3% of the total number of Shares in issue.

The remaining life of the ISDN PSP:

The ISDN PSP shall be valid and effective for a period of 10 years from the date of adoption until 16 February 2022.

For the financial year ended 31 December 2020

### 18 Share Options and Performance Share Plan (cont'd)

Since the implementation of the ISDN PSP, no awards have been granted to the Directors, controlling shareholders of the Company or associates of controlling shareholders of the Company, and no employee of the Group has received 5% or more of the total number of awards under the ISDN PSP.

The ISDN ESOS 2016 was approved and adopted by Shareholders on 22 April 2016 and amended on 16 December 2016 to satisfy the requirements of the SEHK Listing Rules. The purpose of the ISDN ESOS 2016 is to complement the ISDN PSP in the Group's efforts to reward, retain and motivate participants to achieve better performance. The ISDN ESOS 2016 was not utilised in FY2020. The ISDN ESOS 2016 is primarily a share incentive scheme that provides an opportunity for participants who have contributed significantly to the growth and performance of the Group to participate in the equity of the Company. It recognises the fact that the services of such participants are important to the success and continued well-being of the Group.

The ISDN ESOS 2016 is administered by the RC, comprising the Independent Non-executive Directors Tan Soon Liang, Lim Siang Kai and Soh Beng Keng.

The following persons shall be eligible to participate in the ISDN ESOS 2016:

- (a) Group employees (including Group executive directors) and Group non-executive directors; and
- (b) Directors, non-executive directors and employees of any associated company (if and where applicable) subject to the Company having control over such associated company.

Other salient information relating to the ISDN ESOS 2016 is set out below:

- (i) The aggregate number of Shares over which share options (the "**Options**") may be granted on any date under the ISDN ESOS 2016 shall not exceed 15% of the total issued Shares (excluding treasury shares) on the day preceding the relevant date of grant.
- (ii) For such time as the Company is listed on the SEHK, the aggregate number of Shares which may be issued upon exercise of all Options to be granted under the ISDN ESOS 2016 and any other schemes adopted by the Company must not exceed 10% of the issued Shares.
- (iii) The number of Shares over which Options may be granted to a participant for subscription under the ISDN ESOS 2016 shall be determined at the absolute discretion of the RC, which shall take into consideration, where applicable, factors such as the participant's rank, job performance, years of service, contribution to the success of the Group, potential for future development of the participant and the extent of effort and resourcefulness required to achieve the service conditions and/or performance targets within the performance and/or service periods.
- (iv) The exercise price for each Share in respect of which an Option is exercisable shall be determined by the RC at its discretion, subject to the following restrictions: the exercise price must be at least the higher of (i) the closing price of the Shares as stated in the SEHK's or the SGX-ST's (whichever is higher) daily quotations sheet on the date of grant, which must be a market day; (ii) the average closing price of the Shares as stated in the SEHK's or the SGX-ST's daily quotations sheets for the five (5) consecutive market days immediately preceding the date of grant (whichever is higher); and the nominal value of the Shares (if any).
- (v) The fair value of employee services received in exchange for the grant of the Options would be recognised as a charge to the profit or loss over the vesting period of an Option with a corresponding credit to reserve account. The total amount of the charge over the vesting period is generally measured by reference to the fair value of each Option granted.

For the financial year ended 31 December 2020

#### **18** Share Options and Performance Share Plan (cont'd)

- (vi) Options granted with a discount under the ISDN ESOS 2016 are subject to a longer vesting period of two (2) years, as compared to a vesting period of one (1) year for those granted at the market price.
- (vii) The grant of Options shall be accepted within 30 days from the date of offer. Offers of Options made to grantees, if not accepted by the closing date, will automatically lapse and shall forthwith be deemed to be null and void and of no effect. Upon acceptance of the offer, the grantee must pay the Company a consideration of S\$1.00 or such amount as the RC may decide.
- (viii) Any performance targets attached to a grant of options must be achieved before the relevant participant may exercise such Options.

Maximum entitlement of each participant under the ISDN ESOS 2016:

The maximum entitlement of each participant under the ISDN ESOS 2016 in any 12-month period up to and including the date of grant of the Options must not exceed 1% of the total number of Shares in issue.

Options granted to a substantial shareholder or an independent non-executive Director, or any of their respective associates, would result in the total number of Shares issued or to be issued upon exercise of all options already granted and to be granted to such person in a 12-month period up to and including the date of such grant representing in aggregate over 0.1% of the issued share capital of our Company and having an aggregate value, based on the closing price of the Shares at the date of each grant, in excess of HK\$5,000,000, such further grant shall be approved by the shareholders in a general meeting.

The remaining life of the ISDN ESOS 2016:

The ISDN ESOS 2016 shall be valid and effective for a period of 10 years from the date of adoption until 22 April 2026. There were no Options granted or exercised or cancelled or lapsed and there was no outstanding shares pursuant to the ISDN ESOS 2016 in FY2020.

Since the implementation of the ISDN ESOS 2016, no Options have been granted to the Directors, controlling shareholders of the Company or associates of controlling shareholders of the Company, and no employee of the Group has received 5% or more of the total number of Options available under the ISDN ESOS 2016.

At the date of the annual report, the Company had 53,202,742 Options outstanding under the ISDN ESOS 2016, which represented approximately 12.22% of the Shares in issue.

### 19 Audit Committee

The AC comprises all independent non-executive Directors. The members of the AC are:

Lim Siang Kai (Chairman) Soh Beng Keng Tan Soon Liang

The duties of the AC, amongst other things, include:

- (a) Review the audit plans of the internal and external auditors of the Company, and review the internal auditors' evaluation of the adequacy of the Group's system of internal accounting controls and the assistance given by the Company's management to the external and internal auditors;
- (b) Review the interim and annual announcements of the financial results and the auditors' report on the annual consolidated financial statements of the Group before submission to the Board;
- (c) Review the effectiveness of the Group's material internal controls, including financial, operational and compliance controls and risk management via reviews carried out by the internal auditors;
- (d) Meet with the external auditors, other committees, and management in separate executive sessions to discuss any matters that these groups believe should be discussed privately with the AC;
- (e) Review legal and regulatory matters that may have a material impact on the consolidated financial statements, related compliance policies and programs and any reports received from regulators;
- (f) Review the cost effectiveness and the independence and objectivity of the external auditors;
- (g) Review the nature and extent of non-audit services provided by the external auditors;
- (h) Recommend to the Board the external auditors to be nominated, and reviews the scope and results of the audit;
- (i) Report actions and minutes of the AC to the Board with such recommendations as the AC considers appropriate;
- (j) Review interested person transactions in accordance with the requirements of the SGX-ST Listing Manual; and
- (k) Undertake such other functions and duties as may be agreed to by the AC and the Board.

The AC performs the functions specified by Section 201B of the Act, the SGX-ST Listing Manual and the Corporate Governance Code and assists the Board in the execution of its corporate governance responsibilities within its established terms of reference.

The AC having reviewed the external auditors' non-audit services, was of opinion that there were no non-audit services rendered that would affect the independence and objectivity of the external auditors.

For the financial year ended 31 December 2020

#### **19** Audit Committee (cont'd)

The AC has held 2 meetings since the last Directors' Statement with full attendance from all members. In performing its functions, the AC has also met with the Company's internal and external auditors, without the presence of the Company's management, at least once a year.

The Company confirms that Rules 712 and 715 of the SGX-ST Listing Manual have been complied with.

Further details regarding the AC are disclosed in the Report on Corporate Governance included in this annual report.

The AC has recommended to the Board the nomination of Moore Stephens LLP for their reappointment as independent auditor of the Company (the "**Independent Auditor**") at the forthcoming AGM.

The AC has reviewed, with the management and the Independent Auditor, the accounting principles and policies adopted by the Group, and discussed audited consolidated financial statements of the Group for the FY2020. The consolidated financial statements have been audited by the Independent Auditor.

### 3. Master supply agreement with Dirak Holding (cont'd)

**Pricing**: The prices charged by Dirak Holding are determined on an order-by-order basis with reference to the prevailing comparable market price after arm's length commercial negotiations between relevant parties from time to time, taking into account the following factors:

- (i) The historical transaction amount for the supply of Product A and Product B between the Group and the Dirak Group;
- (ii) For Product A, reference will be made to the quotations that the Group provided to its other independent customers that require similar products. Based on the prices provided to other independent customers, the Group will be able to ensure that the purchase price of Product A payable by the Dirak Group to the Group represents the prevailing market price and on normal commercial terms, and in any event on terms and prices no less favourable than those the Group offered to other independent third parties from time to time.
- (iii) For Product B, the Group will obtain quotation from at least two independent suppliers that supply similar products. Based on the fee quotations provided by other independent suppliers, the Group will be able to ensure that the purchase price of Product B payable by the Group to the Dirak Group represents the prevailing market price and on normal commercial terms, and in any event on terms and prices no less favourable than those available from other independent suppliers.

### Proposed annual caps and basis:

In respect of Product A, for the year ended 31 December 2020 and financial years ending 2021 and 2022, the total purchase price payable by the Dirak Group to the Group is not expected to exceed S\$8.0 million, S\$9.0 million and S\$10.0 million, respectively. In arriving at the annual caps for the sale of Product A, the Directors have taken into account (i) the expected changes in market price of Product A for the three years ending 31 December 2022; and (ii) the expected demand of Dirak Group for Product A for the three years ending 31 December 2022.

In respect of Product B, for the year ended 31 December 2020 and financial years ending 2021 and 2022, the total purchase price payable by the Group to the Dirak Group is not expected to exceed S\$1.2 million per annum. In arriving at the annual caps for the purchase of Product B, the Directors have taken into account (i) the costs incurred by the Group for the purchase of Product B for the nine months ended 30 September 2019; and (ii) the expected prices and the Group's demand for Product B for the three years ending 31 December 2022.

### Confirmation from Directors in relation to Continuing Connected Transactions

The Company's external auditor was engaged to report on the Group's Continuing Connected Transactions in accordance with Singapore Standard on Assurance Engagements 3000 (Revised) "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants. The external auditor has issued a letter containing the findings and conclusions in respect of the Continuing Connected Transactions disclosed by the Group in accordance with Rule 14A.56 of the **SEHK Listing Rules:** 

- Nothing has come to the external auditor's attention that causes the external auditor to believe that the disclosed Continuing Connected Transactions have not been approved by the Company's Board;
- For transactions involving the provision of goods or services by the Group, nothing has come to the external auditor's attention that causes the external auditor to believe that the disclosed Continuing Connected Transactions were not, in all material respects, in accordance with the pricing policies of the Group;

For the financial year ended 31 December 2020

### 24 Continuing Connected Transactions (cont'd)

### Continuing Connected Transactions exempt from circular, independent financial advice and shareholders' approval requirements (cont'd)

### 3. Master supply agreement with Dirak Holding (cont'd)

- Nothing has come to the external auditor's attention that causes the external auditor to believe that the disclosed Continuing Connected Transactions were not entered into, in all material respects, in accordance with the relevant agreements governing such transactions; and
- With respect to the aggregate amount of each of the Continuing Connected Transactions, nothing has come to the external auditor's attention that causes the external auditor to believe that the disclosed Continuing Connected Transactions have exceeded the annual cap as set by the Company.

### 4. Agreements with Maxon Motor and Dirak Holding

A copy of the external auditor's letter has been provided by the Company to the SEHK. In addition, all of the Continuing Connected Transactions disclosed herein constitute related party transactions set out in Note 34 to the consolidated financial statements. All other related party transactions as described in Note 34 to the consolidated financial statements do not fall under the definition of "Continuing Connected Transactions" or "connected transaction" under the SEHK Listing Rules.

The independent non-executive Directors of the Company have reviewed these transactions and confirmed that the Continuing Connected Transactions have been entered into:

- In the ordinary and usual course of business of the Group;
- On normal commercial terms or better; and
- According to the agreements governing them on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

The Company confirms that the Company has complied with the disclosure requirements under Chapter 14A of the SEHK Listing Rules in respect of the Continuing Connected Transactions set out above.

### 25 Related Party Transactions

The Group entered into certain transactions with its related parties during the FY2020.

Details of the related party transactions are set out in Note 34 to the consolidated financial statements. Except as disclosed above, none of the related party transactions constitute a connected transaction or Continuing Connected Transactions under the SEHK Listing Rules.

Notes:

1. Assetraise, which is beneficially owned by Mr. Teo and his spouse Ms. Thang, are the beneficial owner of 139,491,815 Shares. By virtue of the SFO, Mr. Teo and his spouse Ms. Thang, are deemed to be interested in these.

### **Directors' Statement**

For the financial year ended 31 December 2020

### 26 Substantial Shareholders' and Other Persons' Interests and Short Positions in Shares and Underlying Shares (cont'd)

2. These Shares were held by NTCP. NT Fund 2 is the owner of 100% of the shares of the NTCP and is therefore treated as having an interest. TF is a limited partner of NT Fund 2, with an investment amount of not less than one-third. TF is directly wholly owned by FF. FF is directly wholly owned by TH. Therefore, each of TF, FF and TH is deemed to be interested in the 37,125,074 Shares held by NTCP pursuant to SFO. For the avoidance of doubt, each of TF, FF and TH do not have a deemed interest in the 37,125,074 Shares held by NTCP under the SFA. NEG 2 is the general partner of NT Fund 2 and therefore NEG 2 is deemed to have an interest in the Shares. Mr. Loke is entitled to control not less than 20% of the votes attached to the voting shares in NEG 2, and therefore are deemed to be interested in all of the Shares held by NTCP.

Save as disclosed above, as at 31 December 2020, the Directors were not aware of any entities or persons (who were not a Director or the Chief Executive) who had an interest or short position in the Shares or underlying Shares which have been disclosed to the Company under the provisions to Divisions 2 and 3 of Part XV of the SFO, or which were recorded in the register required to be kept by the Company under Section 336 of the SFO.

### 27 Pre-Emptive Rights

There are no provisions for pre-emptive rights under the constitution of the Company or laws of the Singapore where the Company was incorporated.

### 28 Corporate Governance

The Company has complied with the principles and guidelines as set out in the code of Corporate Governance issued by the MAS on 6 August 2018 and the HK CG Code, where applicable. Please refer to the section headed "Corporate Governance Report" in this annual report.

### 29 Compliance with Singapore Listing Manual and Hong Kong Model Code for Securities Transaction

In compliance with Rules 1207(19) of the SGX-ST Listing Manual and the Model Code, the Company has adopted its own internal compliance code pursuant to the SGX-ST's and the Model Code's best practices on dealings in securities on terms no less exacting than the required standards of the Model Code and these are applicable to all its employees in relation to their dealings in the Company's securities. In furtherance, specific enquiry has been made of all the Directors and the Directors have confirmed that they have complied with the Model Code throughout the FY2020.

The Company and its employees are not allowed to deal in the Shares during the period commencing 30 days immediately before the announcement of the Company's half-yearly results, and 60 days immediately before the announcement of the Company's full year results, and ending on the date of the announcement of the relevant results.

The Directors, management and executives of the Group are also expected to observe relevant insider trading laws at all times, even when dealing in securities within permitted trading period or they are in possession of unpublished price-sensitive information of the Company and they are not to deal in the Company's securities on short-term considerations.

### **Directors' Statement**

For the financial year ended 31 December 2020

#### 30 **Major Customers and Suppliers**

For the FY2020, the Group sold less than 30% of its goods and services to its 5 largest customers.

For the FY2020, purchases attributable to the Group's largest supplier accounted for approximately 19.6% of the Group's total purchases and aggregate purchases attributable to the five largest suppliers of the Group accounted for approximately 49.9% of the Group's total purchases.

To the best knowledge of the Directors, none of the Directors, or their respective close associates, or shareholders owning more than 5% of the Company's issued share capital had any beneficial interests in any of the five largest customers or suppliers.

#### 31 **Tax Relief**

The Company is not aware of any relief from taxation available to the Shareholders by reason of their holding of the Shares.

If the Shareholders are unsure about the taxation implications of purchasing, holding, disposing of, dealing in, or exercising any rights in relation to, the Shares, they are advised to consult a professional in taxation.

#### 32 **Environmental Policies and Performance**

The Group is highly aware of the importance of environment protection and has implemented environmental protection measures and has also encouraged staff to be environmental friendly at work by consuming the electricity and paper according to actual needs, so as to reduce energy consumption and minimize unnecessary waste.

The Group continuously endeavours to promote environmental and social responsibility to employees and contribute to the community. The Group is always in compliance with all the relevant laws and regulations. As a social responsible enterprise, the Group should keep promoting and enhancing the relevant environmental and social sustainable development of the regions and community.

As required by the SGX-ST Listing Manual and the SEHK Listing Rules, the Company is required to report on environmental, social and governance issues (the "ESG Information") on an annual basis during the same period covered in the annual report. As the Company requires more time to prepare and compile the relevant ESG Information, the Company will publish the ESG Information separately and in any event no later than three (3) months after the publication of the annual report. The Company will notify the shareholders by way of announcement via SGXNET, the website of the SEHK and the Company's website at www.isdnholdings.com/investorrelations.html for the publication of the ESG Information in due course.

For the financial year ended 31 December 2020

#### 33 Donations

The Group made charitable donation of S\$6,000 (2019: S\$10,000) during the FY2020.

### 34 Directors' Interests in a Competing Business

During the FY2020 and up to the date of this statement, none of the Directors are considered to have any interests in a business which competes or is likely to compete, either directly or indirectly, with the business of the Group and have any other conflicts of interest, as required to be disclosed under the SEHK Listing Rules.

#### 35 Deed of Non-Competition

The Company has received the written confirmations from Mr. Teo and his spouse Ms. Thang, in respect of the compliance with the provisions of the deed of non-competition (the "**Deed of Non-competition**"), entered into between the controlling shareholders and the Company as set out in the section headed "Relationship with Controlling Shareholders - Non-Competition Undertaking" of the prospectus of the Company, during the FY2020 and up to the date of this annual report.

The independent non-executive Directors had reviewed and confirmed that the controlling shareholders have complied with the Deed of Non-competition and the Deed of Non-competition has been enforced by the Company in accordance with its terms during the FY2020 and up to the date of this annual report.

#### 36 Equity-Linked Agreement

Other than the ISDN PSP and ISDN ESOS 2016 disclosed above, no equity-linked agreements were entered into by the Company during the FY2020 or subsisted at the end of the FY2020, which required the Company to issue any of its Shares.

### 37 Sufficiency of Public Float

Upon dual listing of the Shares on the Main Board of the SEHK, the Company shall maintain a sufficient public float from the date of listing to the date of this annual report. Based on the information that is publicly available to the Company and to the knowledge of the Directors as at the latest practicable date prior to the issue of this annual report, the Company has maintained the prescribed minimum percentage of public float since 12 January 2017 (i.e. the date of dual listing) to the date of this annual report as required under the SEHK Listing Rules.

### **Report on the Audit of the Financial Statements**

### Opinion

We have audited the financial statements of ISDN Holdings Limited (the "**Company**") and its subsidiaries (collectively the "**Group**"), which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 December 2020, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the "**Act**") and Singapore Financial Reporting Standards (International) ("**SFRS(I)s**") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 December 2020 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the year ended on that date.

### **Basis for Opinion**

We conducted our audit in accordance with Singapore Standards on Auditing ("**SSAs**"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("**ACRA**") *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* ("**ACRA Code**") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

# **Independent Auditor's Report** To the Members of ISDN Holdings Limited (Incorporated in Singapore)

### Key Audit Matters (cont'd)

Key Audit Matter	How our audit addressed the key audit matter
Service concession arrangements	
We refer to Note 4(ii)(a), Note 5, Note 19 and Note 29 to the financial statements.	Our audit procedures, amongst others, included the following:
As at 31 December 2020, the Group has service concession receivables of S\$58.5 million arising from existing service concession arrangements entered into with local government authorities or agencies (the <b>"Grantor</b> ") in Indonesia to construct mini-hydropower plant projects. The Group has also recognised construction revenue of S\$25.1 million in relation to the service concession arrangements for the current financial year ended 31 December 2020. The Group applies SFRS(I) INT 12 <i>Service Concession Arrangements</i> in its recognition of the consideration received from the Grantor in exchange for the construction services as a financial asset for service concession arrangements within the scope of SFRS(I) INT 12. The accounting for service concession arrangements is complex and involves significant judgement, particularly in relation to the identification and application of the appropriate accounting treatment for the recording of revenue and associated assets under SFRS(I) INT 12. Construction revenue earned from these service concession arrangements is subject to substantial estimation uncertainty as construction revenue is measured based on the Group's estimation of the fair value of the service concession arceivables and the percentages of completion completed during the financial year. The determination of the fair values of the service concession agreements entail complex calculations and significant estimations required such as discount rates,	<ul> <li>Updated our understanding of the Group's process in assessing the applicability of SFRS(I) INT 12 and its process for measuring construction revenue and service concession receivables.</li> <li>Reviewed the associated agreements by reading the contractual terms of the service concession arrangements including any material changes to contractual terms to assess whether these agreements are appropriately identified as service concession arrangements within the scope of SFRS(I) INT 12.</li> <li>Discussed with management the status of the mini-hydropower plant projects and reviewed the estimation of the projects costs in relation to the progress of mini-hydropower plant projects.</li> <li>Inspected the underlying documentation to ascertain the actual costs incurred.</li> <li>Recomputed and compared the percentages of actual costs incurred over the total estimated cost of each mini-hydropower plant project against the percentage of completion.</li> <li>Reviewed and challenged management's estimation in determining the fair values of the service concession receivables including the discount rates, margins used, concession period, estimates of future cash flows and other factors used in the determination of the amortised cost of the financial asset and the related revenue recognised during the year.</li> </ul>
margin used, concession period, future cash flows and other factors used in the determination of the amortised cost of the financial asset and the corresponding revenue. Accordingly, we determined this as a key audit matter.	<ul> <li>Assessed the appropriateness of the related accounting entries made by management and reviewed the adequacy of the disclosure made relating to service concession arrangements in the financial statements.</li> </ul>

### Key Audit Matters (cont'd)

Key Audit Matter	How our audit addressed the key audit matter
Impairment of goodwill	
We refer to Note 4(ii)(b) and Note 15 to the financial statements.	Our audit procedures, amongst others, included the following:
As at 31 December 2020, the Group has goodwill that arose from various acquisitions with an aggregate carrying amount of \$\$12.2 million. The goodwill has been allocated to the relevant cash generating unit (" <b>CGU</b> ") as disclosed in Note 15 to the financial statements. As part of its annual impairment testing, management prepares value in use calculations (" <b>VIU</b> ") to arrive at the recoverable amount of each CGU. These VIUs are based on cash flow forecasts of the CGUs, the preparation of which requires management to exercise significant judgement in determining the assumptions and estimates relating to budgeted growth margin, revenue growth rate, terminal growth rate and discount rate of each CGU. Accordingly, we determined this as a key audit matter.	<ul> <li>Obtained an understanding of management's planned strategies on revenue growth and cost initiatives for these CGUs.</li> <li>Held discussion with senior financial management and evaluated management's assumptions applied in the cash flow forecasts taking into consideration our knowledge of the CGUs' operations, performance and industry benchmarks.</li> <li>Challenged and tested the robustness of the management's forecast by evaluating the appropriateness of the key inputs used in the discounted cash flow forecasts, such as growth rates and discount rates, to historical data, recent performance, and external market data.</li> <li>Checked the mathematical accuracy of the underlying calculations.</li> <li>Performed sensitivity testing of management's analysis of the recoverable amount of the CGUs based on changes to the key assumptions used in the cash flow forecasts in light of the increased estimation uncertainty in the market due to the Covid-19 pandemic.</li> <li>Reviewed the adequacy of the disclosure relating to impairment testing of goodwill in Note 15 to the financial statements.</li> </ul>

Key Audit Matter	How our audit addressed the key audit matter
Impairment of trade and other receivables	
We refer to Note 4(ii)(c) and (d), Note 19 and Note 35(a) to the financial statements.	Our audit procedures, amongst others, included the following:
As at 31 December 2020, the carrying amount of the Group's trade and other receivables, net of allowance for expected credit loss (" <b>ECL</b> ") of S\$8.3 million amounted to S\$103.0 million.	<ul> <li>Updated our understanding of the Group's processes and key controls relating to the monitoring of trade and other receivables and assessment of ECL.</li> </ul>
The collectability of trade and other receivables is a key element of the Group's working capital management, and is managed on an ongoing basis	<ul> <li>Reviewed and tested the aging of trade and other receivables.</li> </ul>
by management. The Group determines the ECL of trade and other receivables by making debtor- specific assessments of expected impairment loss for overdue receivables and using a provision matrix for remaining receivables that is based	<ul> <li>Reviewed and discussed with management on the reasonableness of significant judgements used by the management in assessing the recoverability of trade and other receivables.</li> </ul>
on the Group's historical observed default rates, customers' ability to pay and adjusted with forward-looking information.	<ul> <li>Challenged and tested the reasonableness of management's assumptions and inputs used to develop the provision matrix, through analyses of the aging profile of receivables, historical</li> </ul>

other receivables, including any expected credit loss, as at year end. Accordingly, we determined impairment of trade and other receivables as a key audit matter.	<ul> <li>Checked the subsequent receipts from major debtors after the year end and obtained documentary evidence, representation and explanations from management to assess the recoverability of long outstanding debts, where applicable.</li> </ul>
	<ul> <li>Reviewed the adequacy of the disclosures relating to allowance for impairment loss on trade and other receivables and credit risk in Note 19 and Note 35(a) to the financial statements, respectively.</li> </ul>

### **Other Information**

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Directors for the Financial Statements**

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I)s, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

To the Members of ISDN Holdings Limited (Incorporated in Singapore)

### Auditor's Responsibilities for the Audit of the Financial Statements (cont'd)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

To the Members of ISDN Holdings Limited (Incorporated in Singapore)

### **Report on Other Legal and Regulatory Requirements**

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Lao Mei Leng.

### 1 General

ISDN Holdings Limited is a public limited liability company incorporated and domiciled in Singapore and is dual listed on the Main Board of the SGX-ST and the Main Board of SEHK. The Company's registered office and principal place of business is at No. 10 Kaki Bukit Road 1, #01-30 KB Industrial Building, Singapore 416175.

The immediate and ultimate holding company is Assetraise Holdings Limited, a company incorporated in the British Virgin Islands. Assetraise Holdings Limited is beneficially owned entirely by Mr Teo Cher Koon, the Managing Director and President of the Company and his spouse, Ms Thang Yee Chin.

The Company's principal activities included the provision of technical consultancy, training services, and management services. The principal activities of its subsidiaries and associates are set out in Notes 16 and 17.

### 2 Adoption of New and Revised Singapore Financial Reporting Standards (International) ("SFRS(I)s")

### Adoption of New and Revised SFRS(I) issued which are effective

On 1 January 2020, the Group has adopted the following new or amended SFRS(I) and SFRS(I) Interpretations ("**SFRS(I) INTs**") that are mandatory for application for the financial year. Changes to the Group's accounting policies have been made as required, in accordance with the transitional provisions in the respective SFRS(I) and SFRS(I) INTs. The adoption of these new amendments SFRS(I) and SFRS(I) INTs did not results in substantial changes to the Group's accounting policies and had no material effect on the amounts reported for the current or prior financial years.

For the financial year ended 31 December 2020

### 2 Adoption of New and Revised Singapore Financial Reporting Standards (International) ("SFRS(I)s") (cont'd)

### Adoption of New and Revised SFRS(I) issued but not yet effective

At the date of authorisation of these financial statements, the following standards have been issued and are relevant to the Group and Company but not yet effective:

		Effective for annual financial periods beginning on or after
SFRS(I) 10 and SFRS(I) 1-28	Amendments to SFRS(I) 10 and SFRS(I) 1-28 Investments in Associates and Joint Ventures – Sale or contribution of assets between an investor and its associate or joint venture	Deferred indefinitely, early application is still permitted
Annual Improvements to SFRS(I) 2018-2020	SFRS(I) 9 Financial Instruments – Fee in the '10 per cent' test for derecognition	1 January 2022
Amendments to SFRS(I) 3	Amendments to SFRS(I) 3: Reference to the Conceptual Framework	1 January 2022
Amendments to SFRS(I) 1-16	Amendments to SFRS(I) 1-16: Property, Plant and Equipment – Proceeds before Intended Use	1 January 2022
Amendments to SFRS(I) 1-37	Amendment to SFRS(I) 1-37: Onerous Contracts – Cost of Fulfilling a Contract	1 January 2022
Amendments to SFRS(I) 1-1	Amendment to SFRS(I) 1-1: Classification of Liabilities as Current or Non-current	1 January 2023

The directors expect that the adoption of the standards above will have no material impact on the financial statements in the period of initial application.

### Early adoption of amendments to SFRS(I) 16 COVID-19 related rent concessions (lessee only)

The Group has elected to early adopt the amendments to SFRS(I) 16 which provided a practical expedient to simplify the accounting for lease concessions that meet all of the following criteria for a lessee to elect not to assess whether a rent concession is a lease modification:

- a) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- b) any reduction in lease payment affects only payment originally due on or before 30 June 2021; and
- c) there is no substantive change to other terms and conditions of the lease.

The Group has elected to apply this practical expedient to all rent concessions that meet the above conditions in SFRS(I) 16.46B and has not restated prior period figures. As a result of applying the practical expedient, rent concessions of S\$84,000 was recognised as negative variable lease payments (i.e. reduction in the rental expenses) in profit or loss during the year (Note 8).

### 3 Summary of Significant Accounting Policies

### (a) Basis of Preparation

The consolidated financial statements of the Group and the statement of financial position of the Company have been prepared in accordance with the SFRS(I)s as issued by Accounting Standards Council. These financial statements have been prepared under the historical cost convention, except as disclosed in the accounting policies below.

### (b) Group Accounting

### (i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above. When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally.

Goodwill on acquisitions of subsidiaries and businesses, represents the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition date fair value of any previous held equity interest in the acquiree over the fair value of the investee's identifiable net assets acquired. Goodwill on acquisitions of subsidiaries is initially measured at cost. Following initial recognition, goodwill is measured at cost less any accumulated impairment loss. Gains and losses on the disposal of subsidiaries, include the carrying amount of goodwill relating to the entity sold.

The Group applies the acquisition method to account for business combinations when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether an integrated set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create output. The Group has an option to apply a 'fair value concentration test' that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The concentration test can be applied on a transaction-by-transaction basis. The optional concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. If the test is met, the set of activities and assets is determined not to be a business and no further assessment is needed. If the test is not met, or if the Group elects not to apply the test, a detailed assessment must be performed applying the normal requirements in IFRS 3.

### 3 Summary of Significant Accounting Policies (cont'd)

### (b) Group Accounting (cont'd)

(i) Subsidiaries (cont'd)

The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets. Acquisition-related cost are expensed as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognised in profit or loss.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the income statement.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment indicator of the transferred assets. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

### 3 Summary of Significant Accounting Policies (cont'd)

### (b) Group Accounting (cont'd)

(i) Subsidiaries (cont'd)

When the Group loses control of a subsidiary, it:

- derecognises the assets (including any goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost;
- derecognises the carrying amount of any non-controlling interest (including any components of other comprehensive income attributable to them);
- recognises the fair value of the consideration received;
- recognises the fair value of any investment retained in the former subsidiary at its fair value;
- re-classifies the Group's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate; and
- recognises any resulting difference as a gain or loss in profit or loss.
- (ii) Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights.

Goodwill on acquisition of associates represents the excess of the cost of the acquisition over the Group's share of the fair value of the identifiable net assets acquired. Goodwill on associates is included in the carrying amount of the investments. Gains and losses on the disposal of associates include the carrying amounts of goodwill relating to the entity sold.

Investments in associates are accounted for using the equity method of accounting less impairment losses, if any. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition.

When the Group reduces its ownership interest in an associate, but the Group continues to apply the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

The Group's share of post-acquisition profit or loss is recognised in the income statement, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associate equal or exceeds its interest in the associate, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

For the financial year ended 31 December 2020

### 3 Summary of Significant Accounting Policies (cont'd)

### (b) Group Accounting (cont'd)

(ii) Associates (cont'd)

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in profit or loss.

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognised in the Group's financial statements only to the extent of unrelated investor's interests in the associates. Unrealised losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

(iii) Investments in subsidiaries and associates

Investments in subsidiaries and associates are carried at cost less accumulated impairment losses in the statement of financial position of the Company.

On disposal of investments in subsidiaries and associates, the difference between the net disposal proceeds and the carrying amount of the investments are recognised in profit or loss.

### (c) Foreign Currencies

(i) Functional and presentation currency

The individual financial statements of each entity in the Group are presented in the currency of the primary economic environment in which the entity operates (its functional currency).

For the purpose of the consolidated financial statements, the results and financial position of each entity in the Group are expressed in Singapore Dollar (**"S\$**"), which is the functional currency of the Company and the presentation currency for the consolidated financial statements. All values are rounded to the nearest thousand (S\$'000) except when otherwise indicated.

(ii) Transactions and balances

In preparing the financial statements of each individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Currency translation differences resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the reporting date are recognised in profit or loss. Monetary items include primarily financial assets (other than equity investments), contract assets and financial liabilities. However, in the consolidated financial statements, currency translation difference arising from borrowings in foreign currencies and other currency instruments designated and qualifying as net investment hedges and net investment in foreign operations, are recognised in the other comprehensive income and accumulated in the exchange translation reserve.

For the financial year ended 31 December 2020

### 3 Summary of Significant Accounting Policies (cont'd)

### (c) Foreign Currencies (cont'd)

(ii) Transactions and balances (cont'd)

When a foreign operation is disposed of or any loan forming part of the net investment of the foreign operation is repaid, a proportionate share of the accumulated currency translation differences is reclassified to profit or loss, as part of the gain or loss on disposal.

Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Nonmonetary items that are measured in term of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- exchange differences on transactions entered into in order to hedge certain foreign currency risks (refer to hedging accounting policies in Note 3 (i)); and
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on repayment of the net investment.
- (iii) Translation of Group entities' financial statements

The results and financial position of all the Group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing exchange rates at the reporting date;
- income and expenses are translated at average exchange rates (unless the average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transactions dates, in which the case income and expenses are translating using the exchange rates at the dates of the transactions); and
- all resulting currency translation differences are recognised in other comprehensive income and accumulated in the exchange translation reserve.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

For the financial year ended 31 December 2020

### 3 Summary of Significant Accounting Policies (cont'd)

### (c) Foreign Currencies (cont'd)

### (iii) Translation of Group entities' financial statements (cont'd)

In addition, in relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates that do not result in the Group losing significant influence), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Goodwill and fair value adjustments to identifiable assets acquired and liabilities assumed through acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

### (d) Property, Plant and Equipment

(i) Measurement

All items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

(ii) Subsequent expenditure

Subsequent expenditure related to property, plant and equipment that has already been recognised is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance expenses are recognised in profit or loss when incurred.

(iii) Depreciation

Depreciation is recognised so as to write off the cost of assets, less any residual value over their estimated useful lives, using the straight-line method as follows:

Leasehold properties	remaining lease period of 45 years to 50 years
Renovations	5 to 8 years
Motor vehicles	5 to 6 years
Plant and equipment	5 to 10 years
Furniture, fittings and office equipment	1 to 6 years

Freehold land has an unlimited useful life and therefore is not depreciated.

Construction-in-progress represents property, plant and equipment in the course of construction for production or for its own use purposes. Construction-in-progress consists of construction costs including other attributable direct cost and finance costs incurred during the period of construction.

For the financial year ended 31 December 2020

### 3 Summary of Significant Accounting Policies (cont'd)

### (d) **Property, Plant and Equipment** (cont'd)

### (iii) Depreciation (cont'd)

Construction-in-progress is classified to the appropriate category of property, plant and equipment when completed and ready for use. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

Assets held under leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant leases.

The carrying amounts of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year end, with the effect of any changes in estimate accounted for on a prospective basis. The effects of any revision are recognised in profit or loss when the changes arise.

### (iv) Disposal

Property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

### (e) Investment Properties

Investment properties which are properties held to earn rentals and/or for capital appreciation are initially recognised at cost, including transaction costs and subsequently carried at cost less accumulated depreciation and accumulated impairment losses. Depreciation is calculated on a straight-line method to write off the cost of the investment properties over their estimated remaining useful lives of 45 years to 50 years.

The residual value, useful life and depreciation method are reviewed at each financial year end, with the effects of any changes in estimate accounted for on a prospective basis. The effects of any revision are recognised in profit or loss when the changes arise.

Investment properties are subject to renovations or improvements at regular intervals. The cost of major renovations and improvements is capitalised and the carrying amounts of the replaced components are written off to profit or loss. The cost of maintenance, repairs and minor improvements is charged to profit or loss when incurred.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in profit or loss in the year of retirement or disposal.

For the financial year ended 31 December 2020

### 3 Summary of Significant Accounting Policies (cont'd)

### (f) Land Use Rights

Land use rights are stated at cost less accumulated amortisation and accumulated impairment losses. The land use rights are amortised on a straight-line method over the term of the land use rights. The amortisation period and method are reviewed at each financial year end, with the effect of any changes in estimate accounted for on a prospective basis. The effects of any revision are recognised in profit or loss when the changes arise.

### (g) Goodwill

Goodwill is tested for impairment annually and whenever there is indication that the goodwill may be impaired.

For the purpose of impairment testing of goodwill, goodwill is allocated, from the acquisition date, to each of the Group's CGU or groups of CGU, that are expected to benefit from synergies arising from the business combination.

An impairment loss is recognised when the carrying amount of a CGU, including the goodwill, exceeds the recoverable amount of the CGU. The recoverable amount of a CGU is the higher of the CGU's fair value less cost of disposal and value-in-use.

The total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU pro-rata on the basis of the carrying amount of each asset in the CGU.

An impairment loss on goodwill is recognised in profit or loss and is not reversed in a subsequent period.

Where goodwill forms part of a cash-generating unit and part of the operation within that cash generating unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation.

### (h) Government Grants

Grants from the government are recognised at their fair value when there is reasonable assurance that the grant will be received and the Company will comply with all the attached conditions.

Government grants receivable are recognised as income over the periods necessary to match them with the related costs which they are intended to compensate, on a systematic basis. Government grants relating to expenses are shown separately as other income.

Government grants relating to assets are deducted against the carrying amount of the assets.

For the financial year ended 31 December 2020

### 3 Summary of Significant Accounting Policies (cont'd)

### (i) Derivative Financial Instruments and Hedge Activities

### (i) Derivative financial instruments

The Group enters into a derivative financial instrument to manage its exposure to interest rate risk.

Derivatives are initially recognised at fair value at the date the derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event, the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

### (ii) Hedge accounting

The Group designates derivatives as hedging instruments in respect of interest rate risk on firm commitments as cash flow hedge. Note 35(b) sets out details of the fair value of the derivative instrument used for hedging purposes.

The Group's management strategies and hedge documentation are aligned with the requirements of SFRS(I) 9.

At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions.

Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in cash flows of the hedged item attributable to the hedged risk, which when the hedging relationships meet all of the following hedge effectiveness requirements:

- there is an economic relationship between the hedged item and the hedging instrument;
- the effect of credit risk does not dominate the value changes that result from that economic relationship; and
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of hedged item.

If a hedging relationship ceases to meet the hedge effectiveness requirement relating to the hedge ratio but the risk management objective for that designated hedging relationship remains the same, the Group adjusts the hedge ratio of the hedging relationship (i.e. rebalances the hedge) so that it meets the qualifying criteria again.

### Temporary relief – Hedges directly affected by interest rate benchmark reform

For the purpose of evaluating whether there is an economic relationship between the hedged item(s) and the hedging instrument(s), the Group applies the temporary relief offered in Amendments to SFRS(I) 7, SFRS(I) 9, and SFRS(I) 1-39 *Interest Rate Benchmark Reform*, to assume that the benchmark interest rate is not altered as a result of the interest rate benchmark reform.

For a cash flow hedge of a forecast transaction, the Group assumes that the benchmark interest rate will not be altered as a result of the interest rate benchmark reform for the purpose of assessing whether the forecast transaction in a discontinued cash flow hedge is still expected to occur, the Group assumes that the interest rate benchmark cash flows designated as a hedge will not be altered as a result of interest rate benchmark reform.

The Group will cease to apply this temporary relief when the uncertainty arising from the interest rate benchmark reform is no longer present, with respect to both the timing and the amount of interest rate benchmark-based cash flows, or when the hedging relationship is discontinued.

### (iii) Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, and is included in the other operating income.

Amounts previously recognised in other comprehensive income and accumulated in equity are reclassified to profit or loss in the periods when the hedged item is recognised in profit or loss, in the same line of the consolidated statement of comprehensive income as the recognised hedged item. However, when the forecast transaction that is hedged, results in the recognition of a non-financial asset (e.g. inventory) or a non-financial liability, the gains and losses previously recognised in other comprehensive income and accumulated in equity are transferred from equity and included in the initial measurement of the cost of the nonfinancial asset or non-financial liability. This transfer does not affect other comprehensive income. Furthermore, if the Group expects that some or all of the loss accumulated in other comprehensive income will not be recovered in the future, that amount is immediately reclassified to profit or loss.

The Group discontinues hedge accounting only when the hedging relationship (or a part thereof) ceases to meet the qualifying criteria (after rebalancing, if applicable). This includes instances when the hedging instrument expires or is sold, terminated or exercised. The discontinuation is accounted for prospectively.

Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

#### (j) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis.

Cost includes the actual cost of materials and incidentals in bringing the inventories into store and for manufactured inventories, the cost of work-in-progress and finished goods comprises raw materials, direct labour and related production overheads.

Net realisable value represents the estimated selling price in the ordinary course of business less all estimated costs of completion and costs necessary to make the sale. Allowance is made for slow-moving and obsolete items.

#### (k) Financial Assets

(i) Classification and Measurement

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value either through other comprehensive income ("**FVOCI**") or through profit or loss ("**FVPL**"), and
- those to be measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows. The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

#### Initial recognition

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Trade receivables are measured at the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amount collected on behalf of third party, if the trade receivables do not contain a significant financing component at initial recognition.

The Group recognises a financial asset arising from a service concession arrangement when it has an unconditional contractual right to receive cash from or at the direction of the grantor for the construction services provided, and the right to receive cash depends only on the passage of time. Such financial assets are measured at fair value on initial recognition and classified as financial assets measured at amortised cost.

(i) Classification and Measurement (cont'd)

#### Subsequent measurement

#### a) Debt instruments

Debt instruments mainly comprise of cash and bank balances, trade and other receivables and service concession receivables. Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

#### Amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt instrument that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. For debt instrument that is measured at amortised cost that is not part of a designated hedging relationship, exchange differences are recognised in profit or loss. Impairment losses are deducted from the gross carrying amount of these assets and are presented as separate line item in profit or loss.

Interest income is recognised in profit or loss and is included in the "other operating income" line item.

#### <u>FVOCI</u>

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses (debt instruments measured at FVOCI that are not part of a designated hedging relationship) which are recognised in profit or loss.

When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in "other income" using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in profit or loss.

#### <u>FVPL</u>

Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and presented net within other gains/(losses) in the period in which it arises. For debt investment that is measured at FVPL that are not part of a designated hedging relationship, exchange differences are recognised in profit or loss. Interest income from these financial assets is included in "other income" using the effective interest rate method.

(i) Classification and Measurement (cont'd)

#### Subsequent measurement (cont'd)

a) Debt instruments (cont'd)

#### <u>FVPL</u> (conťd)

In addition, debt instruments that meet either the amortised cost criteria or the FVOCI criteria may be designated as at FVPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Group has not designated any debt instruments as at FVPL.

#### (ii) Impairment

The Group assesses on a forward looking basis the ECLs associated with the following financial instruments:

- financial assets measured at amortised costs; and
- intra-group financial guarantee contracts.

Loss allowances of the Group are measured on either of the following bases:

- 12-month ECLs represents the ECLs that result from default events that are possible within the 12 months after the reporting date (or for a shorter period if the expected life of the instrument is less than 12 months); or
- Lifetime ECLs represents the ECLs that will result from all possible default events over the expected life of a financial instrument or contract asset.

The impairment methodology applied depends on whether there has been a significant increase in credit risk.

#### Simplified approach - Trade receivables

The Group applies the simplified approach to provide ECLs for all trade receivables (including service concession receivables) as permitted by SFRS(I) 9. The simplified approach requires expected lifetime losses to be recognised from initial recognition of the receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

#### 3 Summary of Significant Accounting Policies (cont'd)

#### (k) Financial Assets (cont'd)

(ii) Impairment (cont'd)

#### General approach - Other financial instruments and financial guarantee contracts ("FGC")

The Group applies the general approach to provide for ECLs on all other financial instruments and financial guarantee contracts, which requires the loss allowance to be measured at an amount equal to 12-month ECLs at initial recognition.

At each reporting date, the Group assesses whether the credit risk of a financial instrument has increased significantly since initial recognition. When credit risk has increased significantly since initial recognition, loss allowance is measured at an amount equal to lifetime ECLs.

In assessing whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information that is reasonable and supportable, including the Group's historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

If credit risk has not increased significantly since initial recognition or if the credit quality of the financial instruments improves such that there is no longer a significant increase in credit risk since initial recognition, loss allowance is measured at an amount equal to 12-month ECLs.

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The Company considers a FGC to be in default when the debtor of the loan is unlikely to pay its credit obligations to the creditor and the Company in full, without recourse by the Company to actions such as realising security (if any is held). The Company only applies a discount rate if, and to the extent that, the risks are not taken into account by adjusting the expected cash shortfalls.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

#### 3 Summary of Significant Accounting Policies (cont'd)

#### (k) Financial Assets (cont'd)

(ii) Impairment (cont'd)

#### Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. At each reporting date, the Group assesses whether financial assets are carried at amortised cost, and debt investments at FVOCI are credit impaired.

Evidence that a financial asset is credit-impaired includes the observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower or a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

#### Measurement of ECLs

ECLs are probability-weighted estimates of credit losses. Credit losses are measured at the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

#### Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

For the financial year ended 31 December 2020

#### 3 Summary of Significant Accounting Policies (cont'd)

#### (k) Financial Assets (cont'd)

(iii) Recognition and derecognition

Financial assets are recognised when, and only when the Group becomes party to the contractual provisions of the instruments. All regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset.

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVOCI, the cumulative gain or loss previously accumulated in the fair value adjustment reserve is reclassified to profit or loss. On derecognition of an investment in equity instrument, the difference between the carrying amount and sales proceed is recognised in profit or loss if there was no election made to recognise fair value changes in other comprehensive income. If the Group has elected on initial recognition to measure the equity instrument at FVOCI, the cumulative gain or loss previously accumulated in the fair value adjustment reserve is not reclassified to profit or loss, but is transferred to retained earnings.

Trade receivables that are factored out to banks and other financial institutions with recourse to the Group are not derecognised until the recourse period has expired and the risks and rewards of the receivables have been fully transferred. The corresponding cash received from the financial institutions is recorded as borrowings.

#### (I) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowings of funds.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

#### (m) Cash and Cash equivalents

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents include cash on hand, deposits with financial institutions which are subject to an insignificant risk of change in value, and bank overdrafts. Bank overdrafts are presented as current borrowings on the statements of financial position.

#### 3 Summary of Significant Accounting Policies (cont'd)

#### (n) Share Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against share capital account, net of any tax effects.

#### (o) **Provisions**

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

#### (p) Warrants Issue

Proceeds from the issuance of warrants, net of issue expenses, are credited to warrants reserve which is non-distributable. Warrants reserve is transferred to share capital upon the exercise of warrants and the warrants reserve in relation to the unexercised warrants at the expiry of the warrants will be transferred to retained earnings.

#### (q) Dividends to Company's Shareholders

Dividends to the Company's shareholders are recognised when the dividends are approved for payment.

#### (r) Financial Guarantees

The Company has issued corporate guarantee to banks for borrowings of its subsidiaries. These guarantees are financial guarantees as they require the Company to reimburse the bank if the subsidiaries fail to make principal or interest payments when due in accordance with the terms of their borrowings.

#### Financial guarantee in the separate financial statements

Financial guarantee contract is recognised as a financial liability at the time the guarantee is issued. Financial guarantees are measured initially at their fair values and, if not designated as "fair value through profit and loss", and do not arise from a transfer of a financial assets, are subsequently measured at the higher of:

- a. the amount of the loss allowance determined in accordance with ECL model under SFRS(I) 9; and
- b. the amount initially recognised less, where appropriate, cumulative amount of income recognised in accordance with the principles of SFRS(I) 15.

ECLs are probability-weighted estimate of credit losses. ECLs are measured for financial guarantees issued as the expected payment to reimburse the holder less any amounts that the Company expects to recover. Loss allowance for ECLs for financial guarantee issued are presented in the Company's statement of financial position as "bank borrowings'.

Intra-group transactions with regards to the financial guarantees are eliminated on consolidation.

For the financial year ended 31 December 2020

#### 3 Summary of Significant Accounting Policies (cont'd)

#### (s) Financial Liabilities

#### (i) Financial liabilities

The Group recognises a financial liability on its statements of financial position when, and only when, the entity becomes a party to the contractual provisions of the instrument.

Financial liabilities (including bank borrowings and trade and other payables) are initially measured at fair value plus, any directly attributable transaction costs, and are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integrated part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period to the amortised cost of a financial liability.

Bank borrowings are presented as current liabilities unless the Group has an unconditional right to defer settlement for at least 12 months after the reporting period.

(ii) Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

#### (t) Offsetting of Financial Assets and Financial Liabilities

Financial assets and financial liabilities are offset and the net amount is presented in the statement of financial position, when and only when, there is a currently enforceable legal right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

#### (u) Impairment of Non-Financial Assets other than Goodwill

Non-financial assets other than goodwill are tested for impairment whenever there is any indication that these assets may be impaired.

At the end of each reporting period, the Group reviews the carrying amounts of its nonfinancial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any), on an individual asset.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

For the financial year ended 31 December 2020

#### 3 Summary of Significant Accounting Policies (cont'd)

#### (u) Impairment of Non-Financial Assets other than Goodwill (cont'd)

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount.

The difference between the carrying amount and recoverable amount is recognised as an impairment loss in profit or loss.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cashgenerating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

#### (v) Revenue Recognition

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Group satisfies a performance obligation ("**PO**") by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A PO may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied PO.

(i) Goods and services sold

The Group supplies integrated engineering solutions which comprise motion control solutions, specialised engineering solutions and industrial computing solutions to various industries.

Revenue from sale of goods and services in the ordinary course of business is recognised when the control of the goods and services has transferred, being when the goods and services are delivered to the customer, the customer has full discretion over the manner of distribution and price to sell the goods, and there is no unfulfilled performance obligation that could affect the customer's acceptance of the goods. Delivery occurs when the goods have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has not have accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has the objective evidence that all criteria for acceptance have been satisfied. A receivable is recognised when the goods are delivered as this represents the point in time that the right to consideration is unconditional because only the passage of time is required before the payment is due.

For the financial year ended 31 December 2020

#### 3 Summary of Significant Accounting Policies (cont'd)

#### (v) Revenue Recognition (cont'd)

(i) Goods and services sold (cont'd)

Revenue is recognised at a point in time following the timing of satisfaction of the PO. If a PO is satisfied over time, revenue is recognised based on the percentage of completion reflecting the progress towards complete satisfaction of that PO.

Certain sales contracts of the Group grant customers the right to return the product during a stipulated grace period (up to one year) if the customers are dissatisfied with the product. Therefore, a refund liability and a right to the returned goods are recognised in relation to goods expected to be returned. Accumulated experience is used to estimate the numbers of returns at the time of sale at a portfolio level using the expected value method. Because the level of product returns has been consistent over previous years, it is highly probable that a significant reversal in the cumulative revenue recognised will not occur. The validity of the assumption and the estimated amount of returns are reassessed at each reporting date.

(ii) Service concession arrangements

Revenue related to construction services under a service concession arrangement is recognised over time. Operation or service revenue is recognised in the period in which the services are provided by the Group. If the service concession arrangement contains more than one performance obligation, then the consideration received is allocated with reference to the relative stand-alone selling prices of the services delivered.

(iii) Rendering of services

#### Technical service income

Technical service income is recognised when the service has been performed and rendered.

#### Property management income

The Group provides property management service to tenants of its leasehold properties and is recognised when the service has been performed and rendered.

#### Administrative income and commission income

Administrative income and commission income are recognised in the period in which the services have been performed and rendered.

For the financial year ended 31 December 2020

#### 3 Summary of Significant Accounting Policies (cont'd)

#### (w) Service Concession Arrangements

The Group has entered into various service concession arrangements with local government authorities or agencies (the "**Grantors**") to build and operate mini-hydropower plants with concession periods of 25 years from the commercial operating date and to transfer the plants to the Grantors at the end of the concession periods. Such concession arrangements fall within the scope of SFRS(I) INT 12 *Service Concession Arrangements*.

A financial asset (receivable under a service concession arrangement) is recognised to the extent that the Group has an unconditional right to receive cash or another financial asset from or at the direction of the Grantor for the construction services rendered and/or the consideration paid and payable by the Group for the right to manage and operate the infrastructure for public service. The Group has an unconditional right to receive cash if the Grantor contractually guarantees to pay the Group (a) specified or determinable amounts or (b) the shortfall, if any, between amounts received from users of the public service and specified or determinable amounts, even if the payment is contingent on the Group ensuring that the infrastructure meets specified requirements. The financial asset (receivable under a service concession arrangement) is accounted for in accordance with the policy set out for "Financial Assets" in Note 3(k) to the financial statements.

The Group recognises an intangible asset arising from a service concession arrangement when it has a right to charge for usage of the concession infrastructure but does not have any contractual rights under the concession agreements to receive a fixed and determinable amount of payments during the concession period. The intangible asset (operating concession) is stated at cost less accumulated amortisation and any accumulated impairment loss. Amortisation is provided on a straight-line basis over the operation phase of the concession periods.

If the Group is paid for the construction services partly by a financial asset and partly by an intangible asset, then each component of the consideration is accounted for separately and is recognised initially at the fair value of the consideration.

The Group currently does not have any intangible asset arising from its existing service concession arrangements.

#### (x) Employee Benefits

Employee benefits are recognised as an expense, unless the cost qualifies to be capitalised as an asset.

(i) Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid.

(ii) Employee leave entitlements

No provision has been made for employee annual leave entitlements as generally any unconsumed annual leave not utilised will be forfeited.

#### 3 Summary of Significant Accounting Policies (cont'd)

#### (y) Leases

(i) When the Group is the lessee

At the inception of the contract, the Group assesses if the contract contains a lease. A contract contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Reassessment is only required when the terms and conditions of the contract are changed.

The Group recognises right-of-use assets and lease liabilities at the date which the underlying assets become available for use. Right-of-use assets are measured at cost, which comprises the initial measurement of lease liabilities adjusted for any lease payments made at or before the commencement dates, plus any initial direct costs incurred and an estimate of restoration costs, less any lease incentives received. Any initial direct costs that would not have been incurred if the lease had not been obtained are added to the carrying amount of the right-of-use assets.

Right-of-use assets are subsequently depreciated using the straight-line method from the commencement dates to the earlier of the end of the useful lives of the right-of-use assets or the end of the lease terms. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use assets are periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the corresponding lease liabilities. The Group presents its right-of-use assets in "property, plant and equipment" in the statement of financial position.

The initial measurement of lease liabilities is measured at the present value of the lease payments discounted using the implicit rate in the lease, if the rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivables;
- Variable lease payments that are based on an index or rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under residual value guarantees;
- The exercise price of a purchase option if is reasonably certain to exercise the option; and
- Payment of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

For contracts that contain both lease and non-lease components, the Group allocates the consideration to each lease component on the basis of the relative stand-alone price of the lease and non-lease components. The Group has elected not to separate lease and non-lease components for property leases; instead, these are accounted for as one single lease component.

For the financial year ended 31 December 2020

### 3 Summary of Significant Accounting Policies (cont'd)

#### (y) Leases (cont'd)

(i) When the Group is a lessee (cont'd)

Lease liabilities are measured at amortised cost, and are remeasured when:

- There is a change in future lease payments arising from changes in an index or rate;
- There is a change in the Group's assessment of whether it will exercise lease extension and termination options;
- There is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- There is a modification to the lease term.

When lease liabilities are remeasured, corresponding adjustments are made against the rightof-use assets. If the carrying amounts of the right-of-use assets have been reduced to zero, the adjustments are recorded in profit or loss. The Group has elected not to recognise rightof-use assets and lease liabilities for short-term leases that have lease terms of 12 months or less, as well as leases of low value assets, except in the case of sub-lease arrangements. Lease payments relating to these leases are expensed to profit or loss on a straight-line basis over the lease term.

Variable lease payments that are based on an index or a rate are included in the measurement of the corresponding right-of-use assets and lease liabilities. Other variable lease payments are recognised in profit or loss when incurred.

#### Short-term lease and lease of low-value assets

The Group applies the short-term leases recognition exemption to its short-term leases (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payment on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

(ii) When the Group is a lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Income arising from these leases is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as the rental income.

Sub-lease arrangements where the Group acts as an intermediate lessor are classified as finance or operating lease with reference to the right-of-use asset arising from the head lease, rather than the underlying asset. Where the Group has applied the short-term exemptions to the head lease, then the sub-lease will be classified as an operating lease.

#### (z) Income Tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

(i) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(ii) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

#### 3 Summary of Significant Accounting Policies (cont'd)

#### (z) Income Tax (cont'd)

#### (ii) Deferred tax (cont'd)

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

The Group recognises a previously unrecognised deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, would be recognised subsequently if new information about facts and circumstances changed. The adjustment would either be treated as a reduction to goodwill (as long as it does not exceed goodwill) if it is incurred during the measurement period or in profit or loss.

For the purposes of measuring deferred tax liabilities and deferred tax assets for investment properties that are measured using fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefit embodied in the investment property over time, rather than through sale.

(iii) Current and deferred tax for the period

Current and deferred tax are recognised as income or an expense in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where the current and deferred tax arises from the initial accounting for a business combination, the tax effect is taken into account in the accounting for the business combination.

### 3 Summary of Significant Accounting Policies (cont'd)

#### (aa) Related Parties

A related party is defined as follows:

A related party is a person or entity that is related to the entity that is preparing its financial statements (referred to as the "**reporting entity**").

- a. A person or a close member of that person's family is related to a reporting entity if that person:
  - i. has control or joint control over the reporting entity;
  - ii. has significant influence over the reporting entity; or
  - iii. is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
- b. An entity is related to a reporting entity if any of the following conditions applies:
  - i. the entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
  - ii. one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
  - iii. both entities are joint ventures of the same third party;
  - iv. one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - v. the entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity;
  - vi. the entity is controlled or jointly controlled by a person identified in (a);
  - vii. a person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or
  - viii. the entity, or any member of a group of which it is a part, provides key management personnel services to the reporting entity or to the parent of the reporting entity.

#### (bb) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the management whose members are responsible for allocating resources and assessing performance of the operating segments.

#### 4 Critical Accounting Judgements and Key Sources of Estimation Uncertainty

In the application of the Group's accounting policies, which are described in Note 3, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

(i) Critical judgements in applying accounting policies

In the process of applying the Group's accounting policies, the application of judgements that are expected to have a significant effect on the amounts recognised in the financial statements are discussed below.

(a) Allowance for inventory obsolescence

Changes in market conditions and technology advances, and the corresponding effects on customer's demand levels and specification requirements, may result in excess, slow-moving or obsolete inventories that command selling prices below costs. At the end of each reporting period, the Group reviews the carrying amount of its inventories to ensure that they are stated at the lower of cost and net realisable value ("**NRV**"). Management uses judgement in the estimation of the NRV and allowance for inventory obsolescence, based on the best available facts and circumstances at the end of each reporting period. Inappropriate judgment in the estimates made could result in changes to the amount of the allowance for inventory obsolescence.

During the financial year, the Group recognised a net allowance for inventory obsolescence of S\$238,000 (2019: S\$10,000) (Notes 6 and 8). In addition, certain inventories which were determined to be obsolete and unusable amounting to S\$416,000 (2019: S\$277,000) (Note 8) were written off during the financial year.

The carrying amount of the Group's inventories and allowance for inventory obsolescence as at 31 December 2020 are set out in Note 18.

(ii) Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) Service concession arrangements

The Group recognises revenue relating to construction services over time under the service concession arrangements. The progress is measured based on the Group's efforts towards the satisfaction of performance obligation based on the costs incurred up to the date of the reporting period as a percentage of total estimated costs for each performance obligation in the contract.

For the financial year ended 31 December 2020

#### 4 Critical Accounting Judgements and Key Sources of Estimation Uncertainty (cont'd)

- (ii) Key sources of estimation uncertainty (cont'd)
  - (a) Service concession arrangements (cont'd)

The Group recognises the consideration received or receivable in exchange for the construction services as a financial receivable under a service concession arrangement. The consideration received or receivable shall be recognised initially at fair value.

The financial receivable under a service concession arrangement requires the Group to make an estimate of a number of factors, which include, *inter alia*, fair value of the construction services, expected future supply of electricity produced by the relevant mini-hydropower plant over its service concession period, future guaranteed receipts and unguaranteed receipts, and also to choose a suitable discount rate in order to calculate the present value of those cash flows. These estimates are determined by the Group's management based on their experience and assessment on current and future market conditions.

The information about the service concession arrangements is disclosed in Note 29. The carrying amount of the Group's service concession receivables as at 31 December 2020 is disclosed in Note 19.

(b) Impairment of goodwill

Goodwill is tested for impairment annually and whenever there is indication that the goodwill may be impaired. The recoverable amount of the CGU to which goodwill has been allocated is based on VIU calculation. VIU is based on cash flow forecast, the preparation of which requires management to use assumptions and estimates relating budgeted growth margin, revenue growth rate, terminal growth rate and discount rate of each CGU. Changes to the assumptions and estimates used could result in changes in the carrying amount of the goodwill.

The details of the estimation of VIU and the carrying amount of the goodwill as at 31 December 2020 are set out in Note 15.

(c) Allowance for impairment loss of trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on internal credit ratings for groupings of various customer segments that have similar loss patterns. The provision matrix is initially based on the Group's historical observed default rates in the recent past two years. The Group will calibrate the matrix to adjust historical credit loss experience with forward-looking information. At every reporting date, historical default rates are updated and changes in the forward-looking estimates are analysed. The assessment of the correlation between internal credit ratings, historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in the internal credit ratings of the customers. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

The information about the ECLs on the Group's trade receivables is disclosed in Note 35(a). The carrying amount of the Group's trade receivables as at 31 December 2020 is disclosed in Note 19.

For the financial year ended 31 December 2020

#### 4 Critical Accounting Judgements and Key Sources of Estimation Uncertainty (cont'd)

- (ii) Key sources of estimation uncertainty (cont'd)
  - (d) Allowance for impairment loss of other receivables

In determining the ECL, management has taken into account the historical default experience and the financial positions of the debtors, adjusted for factors that are specific to the debtor and general economic conditions of the industry in which the debtors operate, in estimating the probability of default of each of these financial assets occurring within their respective loss assessment time horizon, as well as the loss upon default in each case.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period in assessing the loss allowance for other receivables. The above assessment is after taking into account the current financial positions of the entities.

The Group's credit risk exposure for other receivables are set out in Note 35(a) to the financial statements. Accordingly, for the purpose of impairment assessment for other receivables, the loss allowance is measured at an amount equal to 12-month ECL as disclosed in Note 35(a) to the financial statements.

The carrying amounts of the Group's other receivables as at 31 December 2020 are disclosed in Note 19.

(e) Income taxes

The Group has exposures to income taxes in numerous jurisdictions. To determine the income tax liabilities, management is required to estimate the amount of capital allowances and the deductibility of certain expenses at each tax jurisdiction. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. Management also assessed the probabilities that deferred tax assets resulting from deductible temporary differences and unutilised tax losses, if any, can be utilised to offset future taxable income. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

The Group has recognised income tax expense of S\$9,496,000 (2019: S\$6,030,000) (Note 10) for the financial year ended 31 December 2020.

The carrying amounts of the Group's deferred tax assets and deferred tax liabilities as at 31 December 2020 are disclosed in Note 26.

For the financial year ended 31 December 2020

#### 5 Revenue and Contract Liabilities

#### (a) Disaggregation of revenue

The Group's revenue is disaggregated by the type of goods or services provided to customers, geographical markets, and timing of goods or services transferred.

Contract liabilities relate to the advances received for sales of goods. Contract liabilities are recognised as revenue when the performance obligation of transferring the goods is satisfied at a point in time. The increase in contract liabilities was mainly due to advances received from customers for sales of goods largely from China subsidiaries to mitigate credit risk exposure.

The corporate tax rate applicable to the Company and those entities of the Group incorporated in Singapore is 17% (2019: 17%). The corporate tax rate applicable to those entities of the Group incorporated in Malaysia is 24% (2019: 24%).

For the financial year ended 31 December 2020

#### **10 Income Tax** (cont'd)

In March 2018, the Hong Kong Government introduced a two-tiered profits tax rate regime by enacting the Inland Revenue (Amendment) (No. 3) Ordinance 2018 (the "**Ordinance**"). Under the two-tiered profits tax rate regime, the first Hong Kong Dollar 2 million of assessable profits of qualifying corporations is taxed at 8.25% and the remaining assessable profits at 16.5%. The Ordinance is effective from the year of assessment 2019-2020.

For those entities of the Group operating in the PRC, the PRC income tax is calculated at the applicable tax rate in accordance with the relevant laws and regulations in the PRC. On 16 March 2007, the Enterprise Income Tax Law (the "**new EIT Law**") was passed at the Fifth Session of the Tenth National People's Congress of the PRC, in which the income tax rate for both domestic and foreign-investment enterprise was unified at 25% effective from 1 January 2008 (Order of the President [2007] No. 63).

The remaining entities of the Group operating in jurisdictions other than the above have either no taxable income or are not material.

#### Unrecognised tax losses

As at 31 December 2020, the Group has unutilised tax losses of approximately S\$12.9 million (2019: S\$11.8 million) which can be carried forward and used to offset against future taxable income of those Group entities in which the tax losses arose, subject to the agreement of the tax authorities and compliance of the relevant provisions of the tax legislation of the respective jurisdictions in which they operate. Deferred tax asset arising from certain of these unutilised tax losses carried forward amounted to S\$12.9 million (2019: S\$11.8 million) has not been recognised in accordance with the Group's accounting policy stated in Note 3(z). The deferred tax asset not recognised is estimated to be S\$2.2 million (2019: S\$2.0 million).

The unutilised tax losses of Singapore entities of the Group have no expiry date, while the unutilised tax losses of the PRC entities of the Group expires 5 years from the year the tax losses arose. Unutilised tax losses of entities of the Group from other jurisdictions are not material.

#### Unrecognised temporary differences relating to investments in subsidiaries

According to a joint circular of the Ministry of Finance and the State Administration of Taxation, Cai Shui (2008) No.1, only the profits earned by a foreign-investment enterprise prior to 1 January 2008, when distributed to foreign investors, can be exempted from withholding tax. Whereas, dividends distributed of the profit generated thereafter, shall be subject to EIT at 10% (or at the concessionary rate of 5%, if applicable) and withheld by the PRC entity, pursuant to Articles 3 and 27 of the EIT Law and Article 91 of its Details Implementation Rules.

As at 31 December 2020, deferred tax liabilities of S\$541,000 (2019: S\$610,000) (Note 26) has been recognised for taxes that would be payable based on the applicable concessionary rate of 5% withholding tax on the expected distributable earnings of certain Group's subsidiaries in the PRC in the foreseeable future. No deferred tax has been recognised on the undistributed earnings of the remaining Group's subsidiaries in the PRC as management has determined that these earnings will not be distributable in the foreseeable future. Such temporary difference for which no deferred tax liability has been recognised aggregate to approximately S\$23.8 million (2019: S\$27.2 million). The deferred tax liability not recognised is estimated to be S\$1.2 million (2019: S\$1.4 million).

	2020	2019	
	Singapore cents per share	Singapore cents per share	
Basic earnings per share	3.51	1.68	
Fully diluted earnings per share	3.51	1.68	

#### Basic earnings per share

Basic earnings per share is calculated by dividing the net profit attributable to equity holders of the Company by the weighted average number of ordinary shares outstanding during the financial year.

The earnings and weighted average number of ordinary shares used in the calculation of basic earnings per share are as follows:

	Group		
	2020 S\$'000	2019 S\$'000	
Profit for the year attributable to equity holders of the Company	15,139	7,047	
Weighted average number of ordinary shares for the purposes of basic earnings per share	431,562,974	418,804,712	

#### Diluted earnings per share

For the purpose of calculating diluted earnings per share, profit attributable to equity holders of the Company and the weighted average number of ordinary shares outstanding are adjusted for the effects of all dilutive potential ordinary shares of the Company.

The Group has no dilution in its earnings per share as at 31 December 2020 and 2019.

#### Impairment testing of goodwill

The goodwill arising on consolidation relates to the excess of the cost of acquisitions over the fair value of the Group's share of the net identifiable assets acquired in the following subsidiaries (**"cash-generating units**" or **"CGUs**") under the respective operating segments as set out below.

	Gro	oup
	2020	2019
	S\$'000	S\$′000
Engineering Solutions – Motion Control		
- Servo Dynamics (Thailand) Co., Ltd (" <b>Servo Thailand</b> ")	75	75
- TDS Technology (S) Pte Ltd (" <b>TDS</b> ")	2,103	2,103
Other Specialised Engineering Solution		
- Dirak Asia	9,508	9,508
Others		
- Aenergy Holdings Company Limited (" <b>Aenergy</b> ")	541	541
	12,227	12,227

The Group assessed the recoverable amount of each CGU based on value in use calculations, which uses cash flow projections based on financial budgets approved by management covering a five-year period. A long-term growth rate into perpetuity has been determined as the lower of the nominal GDP rates for the countries in which the CGU operates. The growth rates used are based on the average historical growth rate of each CGU and past experience and with reference to the long-term average growth rates of the industries and markets in which the CGUs operate. The discount rate was a pre-tax measure based on the Group's weighted average cost of capital, adjusted for certain adjustment factors to reflect specific risks relating to the CGU. The pre-tax discount rates used, were estimated to reflect the then market assessments of the time value of money and the risks specific to the CGUs' pre-tax cash flows.

For the financial year ended 31 December 2020

#### 15 Goodwill (cont'd)

The key assumptions used in the estimation of value-in-use are set out below.

	Group		
	2020	2019	
Engineering Solutions – Motion Control			
Growth rates	0.0% to 5.0%	0.0% to 5.0%	
Perpetual growth rate	2.0%	1.5% to 3.4%	
Pre-tax discount rate	10.2% to 11.0%	9.8% to 12.2%	
Excess of recoverable amount over carrying amount	S\$648,000	S\$948,000	
Other Specialised Engineering Solution			
Growth rates	0.0% to 15.0%	0.0% to 15.0%	
Perpetual growth rate	5.0%	6.0%	
Pre-tax discount rate	14.9%	15.7%	
Excess of recoverable amount over carrying amount	S\$16,403,000	S\$11,939,000	
Others	Estimates base	ed on the mini-	
Revenue estimate	hydropower plant capacity of 4.6 and 10 megawatts		

Pre-tax discount tax	13.7%	14.1%
Excess of recoverable amount over carrying amount	S\$12,623,000	S\$14,110,000

#### Sensitivity analysis

Management believes that any reasonably possible change in the key assumptions i.e. growth rates and pre-tax discount rates, on which the recoverable amounts were based would not cause the carrying amounts of the major CGUs, namely TDS, Dirak Asia and Aenergy, (the sensitivity analysis excludes Servo Thailand since the goodwill is considered not to be significant) to exceed their recoverable amounts.

If the management's estimated growth rates and pre-tax discount rates applied to the discounted cash flows for the major CGUs are decreased and increased by 1% (2019: 1%), respectively, the relevant excess of recoverable amount over carrying amount would decrease to S\$443,000, S\$5,800,000 and S\$5,680,000 (2019: S\$392,000, S\$7,176,000 and S\$11,647,000) for engineering solutions – motion control, other specialised engineering solution and others CGU respectively, but will still be in excess of their carrying amounts of the respective CGUs.

#### 16 Subsidiaries

	Com	Company	
	2020	2019	
	S\$'000	S\$'000	
Non-current assets			
Unquoted equity shares, at cost	36,783	36,783	
Loans to subsidiaries	13,627	13,627

Amounts owing by subsidiaries	58,731	52,735	
Less: Allowance for impairment loss	(1,636)	(1,500)	
	57,095	51,235	

The loans to subsidiaries, which are quasi-equity loans, form part of the Company's net investment in the subsidiaries. The loans are unsecured and interest-free, and the settlement is neither planned nor likely to be settled in the foreseeable future. As the loans are, in substance, a part of the Company's net investment in the subsidiaries, they are accordingly stated at cost.

The Group has effective equity interest in certain subsidiaries of less than 50%. In assessing whether the Group has control over the entities where it holds less than a majority of voting rights, the Group has concluded that it holds the substantive rights to direct the entities' relevant activities (i.e. financing and operating activities) and/or there are strong operational barriers or incentives that would prevent (or deter) the other third parties from exercising their rights, and/or has majority of the board representatives. As the Group has determined to have control over these entities, they are accordingly accounted for as subsidiaries.

The movement in the allowance for impairment loss during the financial year is as follows:

	Company	
	2020	2019
	S\$'000	S\$'000
Current assets		
Amounts owing by subsidiaries		
At 1 January	1,500	1,500
Addition	136	-
At 31 December	1,636	1,500

The amounts owing by subsidiaries are non-trade in nature, unsecured, interest-free and repayable on demand in cash.

#### **16** Subsidiaries (cont'd)

#### (b) ERST Asia Pacific Pte. Ltd (formerly known as ISDN Myanmar Power Pte Ltd)

In 2020, a wholly-owned subsidiary, ERST Asia Pacific Pte. Ltd., ("**ERST APAC**") issued new ordinary share of 152,999 and 147,000 ordinary shares to ISDN Investments and ERST GmbH for S\$153,000 and S\$147,000 respectively. Subsequent to the share subscription, the Group's effective equity interest in ERST APAC has decreased from 100% to 51%.

#### (c) Zhuzhou Dirak Technology Co., Ltd

In 2020, an indirect subsidiary, Dirak Asia acquired the remaining 40.0% equity interest in Zhuzhou Dirak Technology Co., Ltd ("**Zhuzhou Dirak**") from Zhuzhou JunCheng Technologies Co., Ltd on 16 December 2020 at a consideration of RMB 848,000 (equivalent to S\$172,000). Following the completion of the subscription, Zhuzhou Dirak became a wholly-owned subsidiary of Dirak Asia. Accordingly, the Group's effective interest in Zhuzhou Dirak increased from 29.4% to 49.0%.

#### (d) IGB (HK) Company Ltd

In 2019, the Company's wholly-owned subsidiary, MCG had subscribed for 6,815 ordinary shares in IGB (HK) Company Ltd ("**IGB HK**") for an aggregate consideration of HK\$6,815. Following the completion of the subscription, the issued and paid-up share capital of IGB HK had increased from HK\$10,000 to HK\$16,815, the Group's effective equity interest in IGB HK had increased from approximately 51.0% to approximately 70.9%.

#### (e) ISDN Bantaeng Pte Ltd

In 2019, the Company's wholly-owned subsidiary, ISDN Investments acquired 40,004 ordinary shares, representing 19.5% of the issued and paid-up share capital of ISDN Bantaeng Pte. Ltd. ("**ISDN Bantaeng**") from Mr Aditya Christian, an independent third party for S\$1. Following the completion of the share transfer, the Group's shareholding interest in ISDN Bantaeng has increased from 80.5% to 100%. The change in the non-controlling interest arising from this acquisition is insignificant to the Group.

#### (f) Maxon Motor Taiwan Co., Ltd

The Group has a 50% ownership interest in Maxon Taiwan. The remaining 50% is held by a third party. In assessing whether the Group has control over Maxon Taiwan where it holds less than a majority of voting rights, the Group concluded that it holds the substantive rights to direct Maxon Taiwan's relevant activities and that there are strong operational barriers or incentives that would prevent (or deter) the other third party from exercising their rights. Accordingly, the Group accounted for Maxon Taiwan as a subsidiary in accordance with SFRS(I) 10 with effect from 1 January 2019.

	5,775	5,646	104	118

All of the above associates are accounted for using the equity method in these consolidated financial statements.

As at 31 December 2020, investment in associates includes goodwill of S\$154,000 (2019: S\$154,000).

During the financial year, the Group recognised dividend income of S\$134,000 (2019: S\$111,000) from its investments in associates. The dividend of S\$134,000 (2019: S\$111,000) has been received in cash.

Loans to associates represent quasi-equity loans, which form part of the Group's net investment in the associates. These loans to associates are unsecured and interest-free, and the settlement is neither planned nor likely to be settled in the foreseeable future. As the loans are, in substance, a part of the Group's net investment in the associate, they are accordingly stated at cost.

#### (a) SPHP Co., Pte. Ltd.

In 2019, the Group's wholly-owned indirect subsidiary, ISDN Energy Pte. Ltd. acquired 330,000 ordinary shares, representing 33% of the entire issued and paid-up share capital in SPHP for a consideration of US\$500,000 (equivalent to S\$685,000). SPHP has a wholly-owned subsidiary in Cambodia known as SPHP (Cambodia) Co., Ltd. ("SPHP Cambodia"). Following the completion of the acquisition, SPHP and SPHP Cambodia had become associated companies of the Group and ISDN Energy Pte. Ltd.

In 2020, ISDN Energy Pte. Ltd. disposed 200,000 ordinary shares, representing 20% of the entire issued and paid-up share capital in SPHP to SPHP for a cash consideration of US\$303,030 (equivalent to S\$429,000) and 130,000 ordinary shares representing 13% of the entire issued and paid-up share capital in SPHP to Asia Energy Power Co., Ltd. (**"Asia Energy"**), an independent third party for a cash consideration of US\$196,970 (equivalent to S\$279,000). Following the completion of the disposal, SPHP ceased to be an associated company of the Group. Consequently, an amount of S\$685,000 was transferred out from investment in associates and a gain on disposal of S\$23,000 had been recognised in profit or loss for the financial year ended 31 December 2020.

#### (b) Elementary Optomation (Suzhou) Co., Ltd.

JM Vistec System Pte Ltd ("**JM Vistec**"), an indirect associate, had on 17 March 2020, incorporated a wholly-owned subsidiary, Elementary Optomation (Suzhou) Co., Ltd. in the People's Republic of China. On 14 September 2020, JM Vistec contributed RMB1,000,000 (equivalent to S\$200,000) to the initial issued and paid-up capital of Elementary Optomation.

#### (c) C&I Renewable Limited

In 2019, ERST Asia Pacific Pte. Ltd., (formerly known as ISDN Myanmar Power Pte Ltd) a whollyowned subsidiary of the Group, entered into a sale and purchase agreement with Comtec Power Group Limited ("**Comtec Power**") to sell 3,003 ordinary shares representing 30% of the issued and paid-up share capital in C&I Renewable Limited to Comtec Power, an independent third party for RMB822,000 (equivalent to S\$159,000). Consequently, an amount of S\$144,000 was transferred out from investment in associates and a gain on disposal of S\$15,000 had been recognised in profit or loss for the financial year ended 31 December 2019.

(i) In prior years, ISDN Investments has provided the initial funding of US\$330,000 under an investment agreement entered into for the proposed acquisition of a certain equity interest in the investee company in Indonesia for its mining business. The funding is interest-bearing at 10% per annum.

In 2018, the parties terminated the investment agreement and the Group is in negotiation with the investee company for the balance of funding of US\$310,000 (equivalent to S\$412,000 as at 31 December 2020) to be repaid to ISDN Investments and collateralised by a third person's personal undertaking to guarantee for the repayment by the investee company. In the view of the possible credit losses, management has made allowance of impairment loss of S\$83,000 for FY2020.

(ii) In prior years, ISDN Resource provided a total funding of US\$2.9 million (equivalent to S\$3.9 million) under the mining operation agreements entered into with two investee companies in Indonesia to which ISDN Resource will provide financing and other management related services for the investee companies' mining business. This funding is secured by an unconditional personal guarantee of the shareholder of the investee companies.

The Group has proceeded with arbitration against the investee companies in Singapore. The arbitration is on-going and its outcome cannot be anticipated truly as end of financial year. Management has made full allowance for impairment in the current financial year.

- (iii) This was the prepaid capital investment funding via Aenergy to an investee company which holds a mini-hydropower plant project. This capital investment will be capitalised as part of the acquisition consideration for an 80% equity interest in the investee company once the power purchase agreement in relation to the mini-hydropower plant project is secured and signed. The amounts has been fully recovered during the current financial year.
- (d) The advances to associates and related parties are non-trade, unsecured, interest-free, and are repayable on demand in cash.

For the financial year ended 31 December 2020

#### **19** Trade and Other Receivables (cont'd)

- (e) The loans to associates are unsecured, interest-free, and repayable on demand.
- (f) In prior years, ISDN Investments issued a promissory note to an individual ("**Borrower**") amounting to US\$950,000 (equivalent to S\$1.3 million as at 31 December 2020), which is secured on 100% of shares in a company beneficially owned by the individual, interest-bearing at 6.5% per annum, and is repayable within the next twelve months from the date of the loan drawndown. The purpose of the loan was to explore for overseas investment opportunities for the Group. The Group extended the promissory note to 30 June 2020. In 2019, the Group elected not to proceed with this investment and the Borrower signed a repayment plan agreement and agreed to repay the amount due to ISDN Investments over 12 payments, starting from 30 September 2020. In late 2020, both parties have mutually agreed to extend the repayment plan because of its business difficulties.

In view of the possible credit losses, management has made an allowance of impairment loss for S\$500,000 during the current financial year.

- (g) Included in sundry debtors of the Group was an amount of S\$169,000 (2019: Nil) being government grant receivables.
- (h) Amount owing from non-controlling interests are non-trade, interest-free and repayable on demand in cash. The amounts are secured by shares pledged to Aenergy Holdings Company Limited.
- (i) In 2018, the Company entered into an interest rate cap to hedge against floating interest payments on a USD loan with a notional amount of US\$10.0 million (equivalent to S\$13.3 million) (Note 24). The fair value on the derivative is categorised as Level 2 under the fair value hierarchy disclosed in Note 35(b).

Loss allowance for trade receivables is measured at an amount equal to lifetime ECL as disclosed in the accounting policy Note 3(k)(ii). The Group's exposure to credit risks, and allowance for impairment loss on trade receivables (and other receivables), are disclosed in Note 35(a).

#### 20 Other Financial Assets (cont'd)

As per the Group's investment policy, the investment in equity instrument is not held for trading. Instead, it is held mainly for long-term strategic purposes. Accordingly, this investment is designated at FVOCI as management believes that recognising short-term fluctuations in the investment's FVPL would not be consistent with the Group's strategy of holding this investment for long-term purposes.

In the opinion of management, the investment in an unquoted equity security approximates its fair value as at 31 December 2020. Information of the fair value measurement is disclosed in Note 35(b).

#### 23 Reserves (cont'd)

Movements in reserves for the Group are set out in the consolidated statement of changes in equity.

- (a) The merger reserve arose from the difference between the nominal value of shares issued by the Company and the nominal value of shares of the subsidiaries acquired under the pooling-of-interest method of consolidation in 2005.
- (b) The exchange translation reserve is used to record foreign exchange differences arising from the translation of the financial statements of Group entities whose functional currencies are different from that of the Group's presentation currency.
- (c) Other reserves comprise of statutory reserve fund and cash flow hedging reserve.
  - (i) Statutory reserve fund

In accordance with the relevant laws and regulations of the PRC, the subsidiaries of the Group in the PRC should set aside a statutory reserve fund by way of appropriation of 10% of their profit after tax as reported in the PRC statutory financial statements each year.

The statutory reserve fund may be used to offset any accumulated losses or increase the registered capital of the subsidiaries, subject to approval from the relevant PRC authorities. The appropriation of the cumulative total of the statutory reserve fund is capped at 50% of the subsidiary's registered capital. The statutory reserve is not available for dividend distribution to shareholders.

#### 25 Leases Liabilities (cont'd)

#### Group as Lessee

#### (a) Nature of the Group's leasing activities

The Group has lease contracts for leasehold properties, including warehouse and office premises, and motor vehicles. The Group's obligations under these leases are secured by the lessor's title to the leased assets.

The Group also has certain leases with lease terms of 12 months or less and leases with low value. The Group applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

The Board of Directors of the Company recommends the payment of a tax-exempt (one-tier) final dividend of 0.8 Singapore cents (equivalent to 4.67 Hong Kong cents) per share in respect of the financial year ended 31 December 2020 to be approved by the shareholders of the Company at the forthcoming Annual General Meeting. These financial statements do not reflect this dividend payable, which will be accounted for in shareholders' equity as an appropriation of retained earnings in the financial year ending 31 December 2020, subject to the shareholders' approval at the Company's forthcoming Annual General Meeting.

#### Tax consequences of proposed dividends

The above-mentioned proposed dividends to the shareholders by the Company have no income tax consequences (2019: Nil).

#### 29 Service Concession Arrangements

The Group has a 67.1% interest in Aenergy subgroup, which is primarily involved in developing mini-hydropower plants projects in Indonesia. Aenergy, through its subsidiaries, entered into two long term service concession arrangements with PT PLN (Persero) (the "**Grantor**"), an Indonesia government-owned corporation to build and operate 2 mini-hydropower plants, namely PLTM Anggoci and PLTM Kandibata 1 (collectively the "**Power Plants**") in North Sumatra Province, Indonesia. The construction of the 2 power plants are expected to be completed and available for use in July 2021 and April 2022.

For the financial year ended 31 December 2020

#### 29 Service Concession Arrangements (cont'd)

Pursuant to the service concession arrangements, the Group has to develop (build, operate and transfer ("**BOT**"), including designing, planning, engineering, financing and constructing, testing and commissioning of, the Power Plants. The concession period is 25 years from the commercial operation date. The Group will be responsible for any maintenance services required during the concession period. Under the terms of the agreement, the Group agreed to distribute and sell all electricity produced by the Power Plants to the Grantor and the Grantor agreed to buy all the electricity generated by the Power Plants at the purchase prices determined in the relevant power purchase agreements. At the end of the concession period, the Power Plants become the property of the Grantor and the Group will have no further involvement in its operations or maintenance requirements.

The service concession agreements do not contain a renewal option. The rights of the Grantor to terminate the agreement include failure to perform any material obligation under the arrangement by the Group and in the event of a material breach in the terms of the agreement. The rights of the Group to terminate the agreement include failure of the Grantor to make payments under the agreement, a material breach in the terms of the agreement, and any changes in law that would render it impossible for the Group to fulfil its obligations/requirements under the agreement.

The amounts for the service concession arrangements are not yet due for payment and will be settled by revenue to be generated during the operation periods of the service concession arrangements. Amounts billed will be transferred to trade receivables (Note 19). No impairment loss was recognised by the Group at 31 December 2020 and 2019 in respect of the service concession receivables.

As at 31 December 2020, the Group has performance guarantees issued to the Grantor in relation to the development of mini-hydropower plants amounting to approximately S\$2.2 million (2019: S\$2.5 million).

For the financial year ended 31 December 2020

#### 30 Segment Information

The business of the Group is organised into the following business segments:

- Provision of Engineering Solutions Motion Control
- Other Specialised Engineering Solutions
- Industrial Computing Solutions

The accounting policies of the reportable segments are the same as the Group's accounting policies described in Note 3(bb). Segment results represent the profit earned by each segment without allocation of corporate expenses, rental income, share of profit/(loss) of associates, interest income, finance costs and income tax. Segment assets/liabilities are all operating assets/liabilities that are employed by a segment in its operating activities and are either directly attributable to the segment or can be allocated to the segment on a reasonable basis. This is the measure reported to management for the purposes of resource allocation and assessment of segment performance. Segment revenue includes transfer between operating segments. Such transfers are accounted for at competitive market prices charged to unaffiliated customers for similar goods. The transfers are eliminated on consolidation. No operating segments have been aggregated to form the reportable segments above.

#### 32 Provision of legal compensation cost

In October 2018, an indirect wholly owned subsidiary of the Group, Beijing Junyizhicheng Technology Developing Co., Ltd ("**SD Beijing**"), was served with a writ of summons filed by Mr Wang Yu (the "**Plaintiff**") in the Beijing Dongcheng People's Court (the "**BJ Court**") which the Plaintiff alleged, among other things, that the Plaintiff had extended a loan of RMB9.5 million to Mr Duan Hong Xing, an exemployee of SD Beijing (the "**Alleged Loan**") and SD Beijing stood as a guarantor for the Loan (the "**Alleged Guarantee**").

The Group is not involved in the Alleged Loan and did not provide the Alleged Guarantee. SD Beijing has appointed its legal counsel in the PRC and has filed certain applications to the BJ Court in dispute of the allegations made by the Plaintiff.

In FY2019, the Company carried out an investigation into transactions undertaken by SD Beijing and the findings from the said investigation had indicated there may have been, among others, misconduct or misappropriation of funds on the part of Mr Duan Hong Xing during his employment with SD Beijing. The amount involved was approximately RMB7.6 million (equivalent to S\$1.5 million) which was fully impaired in FY2018.

On 19 June 2020, SD Beijing received a judgement from the BJ Court that the Alleged Loan and Alleged Guarantee were invalid and not liable for due to the absent of Shareholders' Approval. However, the Plaintiff filed an appeal to Beijing City Second Intermediate People's Court (the "**BJ Intermediate Court**"). Unfortunately, BJ Intermediate Court awarded the case to Plaintiff on the ground that it was alleged negligence of duty by our ex-employee and SD Beijing was instructed to bear half of the alleged loan, inclusive of interest, amounting to RMB7.6 million (equivalent to S\$1.6 million) in December 2020. The Group continues to progress its case towards a favorable settlement. In view of the uncertainty, the management had fully accrued for the risk of legal compensation in the current financial year. The bank balances of RMB9.5 million (equivalent to S\$1.9 million) (2019: RMB9.5 million) was classified as restricted bank deposits (Note 21).

#### 35 Financial Instruments

#### (a) Financial Risk Management Objectives and Policies

The Group's activities expose it to foreign currency risk, interest rate risk, credit risk and liquidity risk. The Group's overall risk management strategy, which remains unchanged from prior year, seeks to minimise adverse effects from the unpredictability of financial markets on the Group's financial performance. The Board of Directors of the Company is responsible for setting the objectives and underlying principles of financial risk management for the Group. The Audit Committee provides independent oversight to the effectiveness of the risk management process.

The following sections provide details regarding the Group's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

#### Foreign currency risk

The Group is exposed to foreign currency risk on sales and purchases transaction, loans/funds to third parties/investees and bank borrowings that are denominated in a currency other than the respective functional currencies of the entities of the Group. The currencies giving rise to this risk are primarily RMB, USD, Swiss Franc ("**CHF**") and Euro.

To manage the foresaid foreign currency risk, the Group maintains a natural hedge, whenever possible, by depositing foreign currency proceeds from sales into foreign currency bank accounts which are primarily used for payments of purchases in the same currency denomination.

In addition, the Group adopts the use of forward currency contracts to mitigate the foreign currency risk where viable. Under the Group risk management policy, any hedging transaction amount up to S\$2.0 million in equivalent requires prior approval from the Managing Director of the Company. Any hedging transaction amount more than S\$2.0 million in equivalent requires prior approval from the Audit Committee. As at the statement of financial position date, the Group did not have any outstanding forward currency contracts.

In relation to its overseas investments in foreign subsidiaries whose net assets are exposed to currency translation risks and which are held for long term investment purposes, the differences arising from such translation are recorded under other comprehensive income and foreign currency translation reserve. These translation differences are reviewed and monitored on a regular basis.

### Foreign currency risk (cont'd)

If the following currencies strengthen by 5% (2019: 5%) against S\$ at the statement of financial position date, with all other variables being held constant, the effect arising from the net financial assets/(liabilities) position will be as follows:

	Gro	up
	2020	2019
	S\$'000	S\$'000
RMB	52	66
USD	1,628	1,642
CHF	(191)	(364)
EURO	8	21

A 5% strengthen of S\$ against the above currencies would have had the equal but opposite effect on the above currencies to the amounts shown above, with all other variables being held constant.

No disclosure for foreign currency risk has been made for the Company as it was considered not to be a significant risk. Financial assets and financial liabilities of the Company denominated in foreign currencies as at the statement of financial position date were not significant.

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rate. The Group's exposure to interest rates arises primarily from interest-earning financial assets and interest-bearing financial liabilities.

Interest-earning financial assets primarily relate to fixed deposits that are short term in nature and are not held for speculative purposes but are placed to have better yield returns than cash at banks. Management does not expect fixed deposit rates to fluctuate materially in the coming year from the current level and hence does not present the sensitivity analysis.

Interest-bearing financial liabilities mainly relate to bank borrowings. The Group manages its interest rate exposure by maintaining a prudent mix of fixed and floating rate borrowings. The Group actively reviews its debt portfolio, taking into account the investment holding period and the nature of its assets. This strategy allows it to capitalise on cheaper funding in a low interest rate environment and achieve a certain level of protection against rate hikes.

The Group's bank borrowings at variable rates on which effective hedges have not been entered into are denominated mainly in Singapore Dollars ("**SGD**"), RMB and USD. If the SGD, RMB and USD interest rates increase/decrease by 0.5% (2019: 0.5%) with all other variables being held constant, the Group's profit before tax will be approximately lower/higher by \$\$49,000, \$\$17,000 and \$\$90,000 respectively (2019: \$\$21,000, \$\$29,000 and \$\$77,000) as a result of higher/lower interest expenses on these bank borrowings.

### (a) Financial Risk Management Objectives and Policies (cont'd)

#### Interest rate risk (cont'd)

#### Interest rate cap arrangement

The Group/Company entered into an interest rate cap arrangement to hedge floating interest payments on a USD bank loan obtained in 2018.

The USD bank loan bears floating interest rate based on USD LIBOR plus 3% per annum. The interest cap rate is 3% per annum. In the event the USD LIBOR rate exceeds the interest cap rate, the Group/Company will receive the difference in monies from the bank, to be settled on a net basis on a half yearly basis.

The interest rate cap arrangement is for exchanging floating rate interest amount for fixed rate interest amount and is designated as a cash flow hedge in order to reduce the Group's cash flow exposure resulting from the variable interest rate on the said bank loan. The interest rate cap amounts and the interest rate payments on the bank loan occur simultaneously and the amount accumulated in equity is reclassified to profit or loss over the period that the floating rate interest payments on the bank loan affect profit or loss. No sensitivity analysis has been disclosed as the effect is considered not to be material.

#### <u>Credit risk</u>

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. For trade receivables, the Group adopts the policy of dealing only with customers with an appropriate credit history, and obtaining sufficient security where appropriate to mitigate credit risk. For other financial assets, the Group adopts the policy of dealing only with high credit quality counterparties.

Credit exposure to an individual counterparty is restricted by credit limits that are approved by the management based on an ongoing credit evaluation. The counterparty's payment profile and credit exposure are continuously monitored at the entity level and at the Group level by management.

The Group does not identify specific concentrations of credit risk with regards to trade receivables, as the amounts recognised in the statement of financial position resemble a large number of receivables from various customers. In addition, the Group has credit exposure from certain other receivables as disclosed in Note 19. Management believes that there is no significant change in the credit quality of these debtors, based on their knowledge of the debtors' businesses and its financial condition, as well as the on-going business dealings/ relationships with the debtors. As the Group does not hold any collateral, other than for those other receivables disclosed in Note 19, the maximum exposure to credit risk for each class of financial instruments is the carrying amount of that class of financial instruments presented on the statement of financial position.

#### Trade receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the Group's customer base, including the default risk associated with the industry and country in which customers operate, as these factors may have an influence on credit risk. Details of concentration of revenue are included in Note 30.

The Group has established credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, if they are available, financial statements, credit agency information and industry information and sale limits are established for each customer, which represents the maximum open amount. Customers failing to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment basis.

The Group has applied the simplified approach in SFRS(I) 9 to measure the loss allowance at lifetime ECL. The Group determined the expected credit losses on trade receivables by using a provision matrix, estimated based on the Group's past two years historical credit loss experience, including their credit characteristics, geographical location, and adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

The Group measures its credit risk on customers based on the Group's internal credit ratings. The internal credit ratings for customers are segmented by geographical region, age of customer relationship and past credit loss experience with the customers and also defined using qualitative and quantitative factors that are indicative of the risk of default. The Group's provision for loss allowance is based on the Group's past due as the Group's historical credit loss experience does not show significantly different loss patterns for different customers' credit rating by geographic region as shown in the table below.

### **Customer internal credit rating**

- A These customers are good pay masters with timely payment within the credit terms. Management is of the opinion that credit risk to these customers are relatively low/ minimal, therefore no provision is required.
- B Payment usually takes 1 to 3 months after credit terms. Payment is certain and with low risk of default.
- C Payment usually takes more than 3 months after credit terms. Payment is certain and risk of default are fair.
- D Customers that falls within this category are smaller establishments and with not and has a longer payment process. Risk of default is substandard.
- E Default is possible. Risk of credit impaired is high.

#### Service concession receivables

As disclosed in Notes 19 and 29, the Group has service concession receivables from service concession arrangements in relation to mini-hydropower plants in Indonesia. Management estimates the loss allowance on service concession receivables equal to lifetime ECL, taking into account credit quality of the Grantor and the future prospects of the relevant industry. There has been no change in estimation technique or significant assumptions made as at the reporting date in assessing the loss allowance for these service concession receivables. Accordingly, the Group measured the impairment loss allowance using lifetime ECL and determined that the ECL is insignificant.

#### Other receivables (cont'd)

In determining the ECL, management has taken into account the historical default experience and the financial position of the counterparties, adjusted for factors that are specific to the debtors and general economic conditions of the industry in which the debtors operate, in estimating the probability of default of each of these financial assets occurring within their respective loss assessment time horizon, as well as the loss upon default in each case.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period in measuring the loss allowance using 12-month ECL (other than those disclosed below) and the Group has determined the ECL is insignificant.

The following table shows the movement in relation to credit loss allowance for impairment of other receivables during the year:

	12-month ECL	
	2020	2019
	S\$'000	S\$'000
Group		
Balance as at 1 January	2,916	2,291
Impairment loss recognised in profit or loss*	4,515	625
Write back of allowance for impairment loss on other receivables	(80)	-
Translation adjustment	14	-
Balance as at 31 December	7,365	2,916

\* The impairment loss recognised relates to the estimated credit losses mainly on certain other receivables as disclosed in Note 19(c) and Note 19(f) as there has been a significant increase in credit risk since initial recognition (considered Under-performing under the Group's credit risk grading guidelines described below) as the Group are currently negotiating for a repayment plan with the relevant parties. The loss allowance for these receivables have been accordingly measured using lifetime ECL.

#### Cash and bank balances

Bank deposits are with reputable financial institutions with high credit-ratings assigned by international credit-rating agencies. Impairment on cash and cash equivalents has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties. The Group uses a similar approach for assessment of ECL for cash and cash equivalents those used for debt investments. The amount of the allowance on cash and cash equivalents was immaterial.

#### Amounts owing by subsidiaries and financial guarantees to subsidiaries

As at 31 December 2020, the Company has amounts owing by subsidiaries as disclosed in Note 16. The Company assessed the latest performance and financial position of the counterparties, adjusted for the future outlook of the industry and country in which the counterparties operate in, and concluded that there has been no significant increase in credit risk since the initial recognition of the amounts owing by subsidiaries. Accordingly, the Company measured the impairment loss allowance using 12-month ECL and determined that the ECL is insignificant.

The Company has issued financial guarantees to banks for borrowings of its subsidiaries (Note 33). These guarantees are subject to the impairment requirement under SFRS(I) 9. The Company has assessed that its subsidiaries have strong financial capacity to meet the contractual cash flow obligation in the near future and hence, does not expect significant credit losses arising from these guarantee.

### Credit risk grading guideline

The Group's dedicated risk management team management has established the Group's internal credit risk grading to the different exposures according to their degree of default risk. The internal credit risk grading which are used to report the Group's credit risk exposure to key management personnel for credit risk management purposes are as follows:

Categories	Description	Basis of recognition of expected credit loss
Performing	The counterparty has a low risk of default and does not have any past-due amounts.	12-month ECL
Under-performing	There has been a significant increase in credit risk since initial recognition.	Lifetime ECL (not credit-impaired)
Non-performing	There is evidence indicating that the asset is credit impaired.	Lifetime ECL (credit-impaired)
Write-off	There is evidence indicating that there is no reasonable expectation of recovery as the debtor is in severe financial difficulty.	Asset is written off

#### Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and financial liabilities. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of standby credit facilities. In the management of its liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

As at 31 December 2020, the Group maintains the following lines of credit:

- (i) S\$0.50 million of overdraft facilities;
- (ii) S\$2.00 million of foreign exchange contract hedging limit. Limit in excess of S\$5.88 million is determined at the discretion of some banks when entering into each contract;
- (iii) S\$54.05 million of other banking facilities (including letter of credit, trust receipt, banker's acceptance, export credit, bill of exchange, bank guarantee etc); and
- (iv) S\$30.32 million of term loan facilities;
- (v) S\$25.31 million of term loan under IE Singapore's Internationalisation Finance Scheme (IFS-TL).

The bank facilities set out above that are unutilised as at 31 December 2020 amounted to approximately S\$80.23 million (2019: S\$56.33 million).

#### (b) Fair Value

The Group categories fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- (i) quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date (Level 1);
- (ii) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- (iii) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For the financial year ended 31 December 2020

The following summarises the significant methods and assumptions used in estimating the fair values of the financial instruments of the Group.

Non-current financial assets and financial liabilities

The fair values of long-term bank borrowings approximate their carrying amounts as estimated by using discounted cash flow analysis based on current lending rates for similar types of lending and borrowing arrangements.

The fair values of service concession receivables approximate their carrying amounts as the effective interest rates used approximate market interest rates.

The fair value of finance leases approximate the present value of payments as disclosed in Note 31.

For the financial year ended 31 December 2020

### 35 Financial Instruments (cont'd)

(b) Fair Value (cont'd)

### Other financial assets and financial liabilities

The fair values of other financial assets and financial liabilities with a maturity of less than one year, which are primarily trade and other receivables, cash and bank balances, trade and other payables, and short-term bank borrowings are assumed to approximate their carrying amounts because of the short term period of maturity.

Other financial assets - equity investment measured at fair value through other comprehensive income

The investment in equity securities (Note 20) represents ordinary share subscribed in a private limited company that is not quoted on any market and does not have any comparable industry peer that is listed. The fair value of the equity investment is approximately its carrying amount based on management's assessment using the unobservable input (Level 3), i.e. the net assets of the investee entity. Management does not foresee any significant change in fair value of this equity investment.

### 36 Capital Management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maintain an optimal capital structure so as to maximise shareholders' value. The Group manages its capital structure, and makes adjustment to it, in the light of changes in economic conditions. In order to maintain or achieve an optimal capital structure, the Group may adjust the amount of dividend payment, return capital to shareholders, issue new shares, buy back issued shares, obtain new borrowings or sell assets to reduce borrowings. No changes were made in the objectives, policies or processes during the financial years ended 31 December 2020 and 2019.

As disclosed in Note 23, the Group's subsidiaries in the PRC are required to contribute to and maintain a non-distributable statutory reserve fund whose utilisation is subject to approval by the relevant PRC authorities. This externally imposed capital requirement has been complied with by the relevant subsidiaries for the financial years ended 31 December 2020 and 2019.

The Group monitors capital using a net debt-to-equity ratio, which is net debt divided by total equity. The Group includes within net debt, bank borrowings and leases liabilities, trade and other payables and contract liabilities, less cash and bank balances. Total equity includes equity attributable to the owners of the Company.

### AS SPECIAL BUSINESS

To consider and, if thought fit, to passing with or without modifications, the following ordinary resolutions:

### 11. GENERAL MANDATE TO ISSUE NEW SHARES

"That pursuant to Section 161 of the Companies Act, Cap. 50, of Singapore (the "**Act**"), the listing manual (the "**SGX-ST Listing Manual**") of the Singapore Exchange Securities Trading Limited (the "**SGX-ST**"), the Rules Governing the Listing of Securities (the "**Hong Kong Listing Rules**") on The Stock Exchange of Hong Kong Limited ("**SEHK**") and the constitution of the Company, authority be and is hereby given to the Directors of the Company to:

- (a) (i) allot and issue new shares in the capital of the Company ("**Shares**"), whether by way of rights, bonus or otherwise; and/or
  - (ii) make or grant offers, agreements or options (collectively "Instruments" and each, an "Instrument") that might or would require Shares to be allotted and issued, during the continuance of such authority or thereafter, including but not limited to the creation, allotment and issue of (as well as adjustments to) warrants, debentures or other instruments convertible into Shares,

at any time and upon such terms and conditions and for such purposes and to such persons as the Directors of the Company may, in their absolute discretion, deem fit; and

(b) allot and issue new Shares in pursuance of any Instrument made or granted by the Directors of the Company while this Resolution was in force (notwithstanding that such allotment and issue of Shares in pursuance of any Instrument may occur after the authority conferred by this Resolution may have ceased to be in force),

**PROVIDED ALWAYS THAT** subject to any applicable regulation as may be prescribed by the SGX-ST and the SEHK:

- (A) the aggregate number of Shares to be allotted and issued pursuant to this Resolution (including Shares to be allotted and issued in pursuance of Instruments made or granted pursuant to this Resolution) does not exceed 50% of the total number of issued Shares excluding treasury shares and subsidiary holdings in the capital of the Company (as calculated in accordance with sub-paragraph (B) below), of which the aggregate number of Shares to be allotted and issued other than on a pro rata basis to shareholders of the Company (including Shares to be allotted and issued in pursuance of Instruments made or granted pursuant to this Resolution) does not exceed 20% of the total number of issued Shares excluding treasury shares and subsidiary holdings in the capital of the Company (as calculated in accordance with sub-paragraph (B) below);
- (B) (subject to such manner of calculation as may be prescribed by the SGX-ST and the SEHK) for the purpose of determining the aggregate number of Shares that may be allotted and issued under sub-paragraph (A) above, the percentage of the total number of issued Shares excluding treasury shares and subsidiary holdings shall be based on the total number of issued Shares excluding treasury shares and subsidiary holdings in the capital of the Company at the time of the passing of this Resolution, after adjusting for:
  - (I) new Shares arising from the conversion or exercise of the Instruments or any convertible securities;
  - (II) new Shares arising from exercising share options or vesting of share awards, provided the options or awards were granted in compliance with the rules of the Listing Manual of the SGX-ST and the Hong Kong Listing Rules; and
  - (III) any subsequent bonus issue, consolidation or subdivision of Shares;

Any adjustments made in accordance with sub-paragraph (B)(I) and (B)(II) above shall only be made in respect of new Shares arising from convertible securities and Instruments which were issued and outstanding and/or subsisting at the time of the passing of this Resolution.

- (C) in exercising the authority conferred by this Resolution, the Company shall comply with the provisions of the Act, the SGX-ST Listing Manual (unless such compliance has been waived by the SGX-ST), the Hong Kong Listing Rules (unless such compliance has been waived by the SEHK) and the constitution of the Company; and
- (D) the authority conferred by this Resolution shall continue in force until the earlier of:
  - (I) the conclusion of the next annual general meeting of the Company;
  - (II) the date by which the next annual general meeting of the Company is required by law to be held; and
  - (III) the revocation or variation of the authority conferred by this Resolution by ordinary resolution passed by shareholders of the Company in general meeting."

### [Ordinary Resolution 11]

### 12. ANNUAL MANDATE TO ISSUE NEW SHARES UNDER THE ISDN PSP

"That subject to and conditional upon the passing of Ordinary Resolution 11 contained in this Notice of Annual General Meeting (the "**General Share Issue Mandate**") and the SGX-ST and the SEHK granting the listing of, and permission to deal in, such number of new Shares which may be allotted and issued under the performance share plan of the Company (the "**ISDN PSP**"):

- (a) the aggregate number of new Shares underlying all PSP Awards granted by the Directors of the Company pursuant to this Resolution (excluding PSP Awards that have lapsed or been cancelled in accordance with the rules of the ISDN PSP) shall not exceed 3% of the total number of issued Shares excluding treasury shares and subsidiary holdings in the capital of the Company as at the date of the passing of this Resolution;
- (b) authority be and is hereby given to the Directors of the Company to grant PSP Awards, allot and issue new Shares, procure the transfer of and otherwise deal with Shares under the ISDN PSP during the Relevant Period (as defined under sub-paragraph (c) below); and
- (c) for the purposes of this Resolution, "Relevant Period" means the period from the passing of this Resolution until the earlier of:
  - (i) the conclusion of the next annual general meeting of the Company;
  - (ii) the date by which the next annual general meeting of the Company is required by law to be held; and
  - (iii) the revocation or variation of the authority conferred by this Resolution by ordinary resolution passed by shareholders of the Company in general meeting.

For the avoidance of doubt, the aggregate number of new Shares issued under the General Share Issue Mandate and this Resolution shall not exceed 50% of the total number of issued Shares as at the date of the passing of the resolutions relating to the General Share Issue Mandate and this Resolution, of which the aggregate number of Shares to be allotted and issued other than on a pro rata basis to shareholders of the Company shall not exceed 20% of the total number of issued Shares as at the date of the passing of the resolutions relating to the General Share Issue Mandate and this Resolution."

### [Ordinary Resolution 12]

13. To transact any other business which may be properly transacted at the Annual General Meeting.

By Order of the Board ISDN HOLDINGS LIMITED Teo Cher Koon President and Managing Director

Singapore, 29 March 2021

### **Explanatory Notes:**

- (i) Mr. Kong Deyang, if re-elected as a Director of the Company, will remain as an Executive Director. Further information relating to Mr. Kong Deyang as required under Rule 720(6) of the SGX-ST Listing Manual may be found under Appendix II of the Company's circular dated 29 March 2021.
- (ii) Mr. Lim Siang Kai, if re-elected and appointed as a Director of the Company, will remain as an Independent Director, the Chairman of the Audit Committee and the Risk Management Committee, a member of the Nominating Committee and Remuneration Committee, and will be considered independent for the purposes of Rule 704(8) of the Listing Manual.

Further information relating to Mr. Lim Siang Kai as required under Rule 720(6) of the SGX-ST Listing Manual may be found under Appendix II of the Circular dated 29 March 2021.

Rule 210(5)(d)(iii) of the SGX-ST Listing Manual which will take effect from 1 January 2022 provides that the "continued appointment as independent director, after an aggregate period of more than 9 years on the board, must be sought and approved in separate resolutions by (A) all shareholders and (B) shareholders excluding directors, chief executive officer, and their associates".

Transitional Practice Note 3: Transitional Arrangements Regarding Code of Corporate Governance 2018 of the SGX-ST Listing Rules provides that, *inter alia*, an *"issuer must, prior to 1 January 2022, consider if a director will not be considered independent against the circumstances set out in Rule 210(5) (d)(iii) of the SGX-ST Listing Manual at any time on and from 1 January 2022. For example, if a person has been a director (whether independent, executive or non-executive) for an aggregate period of more than 9 years as at 1 January 2022, then he will not be independent as at 1 January 2022, unless his continued appointment as an independent director has been sought and approved in separate resolutions (as required in Rule 210(5)(d)(iii)) prior to 1 January 2022".* 

Mr. Lim Siang Kai who was first appointed as an Independent Director of the Company on 26 September 2005 will be appointed as a director for more than 9 years as at 1 January 2022. Accordingly, Mr. Lim Siang Kai's continued appointment as an independent director is subject to shareholders' approval pursuant to Rule 210(5)(d)(iii) of the SGX-ST Listing Manual.

(iii) Mr. Soh Beng Keng, if appointed as a Director of the Company, will remain as an Independent Director, the Chairman of the Nominating Committee and a member of the Audit Committee, Remuneration Committee and Risk Management Committee, and will be considered independent for the purposes of Rule 704(8) of the SGX-ST Listing Manual.

Further information relating to Mr. Soh Beng Keng as required under Rule 720(6) of the SGX-ST Listing Manual may be found under Appendix II of the Circular dated 29 March 2021.

Rule 210(5)(d)(iii) of the SGX-ST Listing Manual which will take effect from 1 January 2022 provides that the "continued appointment as independent director, after an aggregate period of more than 9 years on the board, must be sought and approved in separate resolutions by (A) all shareholders and (B) shareholders excluding directors, chief executive officer, and their associates".

Transitional Practice Note 3: Transitional Arrangements Regarding Code of Corporate Governance 2018 of the SGX-ST Listing Rules provides that, *inter alia*, an *"issuer must, prior to 1 January 2022, consider if a director will not be considered independent against the circumstances set out in Rule 210(5) (d)(iii) of the SGX-ST Listing Manual at any time on and from 1 January 2022. For example, if a person has been a director (whether independent, executive or non-executive) for an aggregate period of more than 9 years as at 1 January 2022, then he will not be independent as at 1 January 2022, unless his continued appointment as an independent director has been sought and approved in separate resolutions (as required in Rule 210(5)(d)(iii)) prior to 1 January 2022".* 

Mr. Soh Beng Keng who was first appointed as an Independent Director of the Company on 26 September 2005 will be appointed as a director for more than 9 years as at 1 January 2022. Accordingly, Mr. Soh Beng Keng's continued appointment as an independent director is subject to shareholders' approval in accordance with Rule 210(5)(d)(iii) of the SGX-ST Listing Manual.
