CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the Board, I am pleased to present the annual report of the Company for the year ended 31 December 2020.

In 2020, the outbreak of Coronavirus Disease 2019 ("COVID-19" or the "pandemic") struck a heavy blow on the global economy. While many countries imposed strict public health and lockdown measures, manufacturing activities were largely suspended and lives of general public came to a grinding halt. In China, effective steps were taken to contain the pandemic, which resulted in accelerated industrial activities since the second half of the year. Nevertheless, the nation recorded its lowest economic growth in four decades.

While these public health developments were unprecedented, continued market consolidation and structural reform within the tobacco industry added uncertainties to the market. As our customers took a conservative approach towards placing orders, peers sacrificed margins to secure new tenders amid intensified competition. Aggravated by temporary business suspension and consistently hefty operating costs, the Group was brought under greater pressure on its profitability and its financial performance was inevitably affected during the reporting year. On a positive note, its new trading goods business managed to achieve notable growth leveraging the Group's advanced technological know-how, which facilitated stable increase in total revenue. Despite that such growth failed to offset the decline in its principal cigarette packaging business, the Group remains confident in the promising market potential of the new segment that is expected to become a growth driver for future profits.

Soon after lockdowns were lifted in Hubei Province in early April 2020, the Group's production facilities resumed normal operation quickly and the Group spared no efforts in catching up delayed productions and orders. In spite of the stern market conditions, the Group continued to direct efforts and resources towards exploring new opportunities. Apart from tendering for potential projects, the Group continued to strengthen its already close partnerships with existing clients, enabling it to enter into sales agreements and processing agreements with several cigarette production companies in relation to the provision of processing services for paper cigarette packages.

Looking ahead, the management expects that China's economy will see a sustained post-pandemic rebound as boosted by a strong recovery in consumer demand, thus leading to a stronger revival of the tobacco industry. Notwithstanding, the uptick in COVID-19 cases in the country and continued structural reform of the tobacco industry may bring further challenges to the Group's operations. Mindful of the headwinds, the Group will observe closely the market dynamics and remain fluid to the evolving conditions in order to devise effective business strategies while exploring business opportunities ahead.

Tremendous efforts have been placed on building a strong business foundation internally. The Group has implemented various measures to improve efficiency and safeguard profitability, including introducing manufacturing automation, streamlining its production lines through acquiring new machinery and formulating relevant staff training programs. The Group has also put focus on the designs of cigarette packages through upgrading its technologies and production plants so as to bolster its market position.

As a veteran of the cigarette packaging industry, Jia Yao will remain resilient and capitalize on its competitive strengths in advanced technology as well as its ability to introduce patented designs and customized products to satisfy its growing customers' expectation. Furthermore, the Group strives to become a preferred strategic partner in the cigarette packaging industry, and will continue to adjust its product mix to middle to high-end cigarette packaging market. The Group will direct its attention to leading cigarette brands that possess high growth potential, and continue to seize new business opportunities in other areas including but not limited to international trading services and innovative cigarette products. Complemented by its sound business fundamentals and healthy financial position, the management believes that the Group is well on track to business turnaround in the years to come.

I would like to express my sincere gratitude for the continuous support of all our shareholders, investors, business partners and customers, and also to our management team and employees for their valuable contribution during the hard times. As always, Jia Yao will remain cautious on costs and continue to adopt prudent approach in its growth strategies with the aim of creating long-term values for our shareholders.

YANG Yoong An
Chairman of the Board and Executive Director

Hong Kong, 25 March 2021

MANAGEMENT DISCUSSION AND ANALYSIS

Market Review

During the reporting year, the outbreak of Coronavirus Disease 2019 ("Covid-19" or the "pandemic") brought upon unprecedented challenges and triggered downturn in economic development across the globe. The International Monetary Fund (IMF) predicted a global contraction of 3.5% in 2020, the biggest peacetime decline since the Great Depression. In China, despite industrial production accelerated in the second half of the year, the economy of the country grew only at 2.3% annually, the slowest pace in more than four decades.

The pandemic outbreak in the first quarter of 2020 brought China's industrial activities to a halt. With strict lockdown and public health measures imposed by the Chinese government, tobacco production was suspended during this period, leading to a year-on-year decrease of 10.9% in the total output value of tobacco. Although the industry picked up as the pandemic spread was largely contained within China since the second half of the year, the structural reform and "Healthy China 2030" initiative promulgated by the Chinese government continued to hinder the growth of the industry. Figures from the National Bureau of Statistics showed that the volume of China's tobacco production from January to November 2020 increased slightly by 1.5% to 2,262.13 billion sticks as compared to the corresponding period of 2019. As the intensified competition of cigarette packaging project tenders and ongoing market consolidation within the industry posed challenges to all industry players, as well as negative impact to the Group's performance.

To navigate this challenging time, Jia Yao continued to draw on its expertise and experience to concentrate its resources on seizing business opportunities and doubled its efforts in cost control.

Business Review

The Group is principally engaged in the design, printing and distribution of paper cigarette packages in China and to a lesser extent, social product paper packages in China. Hubei Golden Three Gorges Printing Industry Co., Ltd.* (湖北金三峽印務有限公司) ("Hubei Golden Three Gorges"), the Group's primary subsidiary, has been established in China for over 20 years. The Group provides paper cigarette packaging services for key cigarette brands designated by the State Tobacco Monopoly Administration of China ("STMA"). The Group has also diversified its business to social product paper packages such as medicine, wine, food and other consumer goods by leveraging its extensive experience and know-how in the cigarette packaging industry.

Sales and Distribution

Regarding the paper cigarette packaging segment, the Group believes that its solid and stable business relationship with customers is vital for excelling within the cigarette packages industry. As of 31 December 2020, the Group's clients included major provincial tobacco industrial companies and non-provincial tobacco companies under China Tobacco Industry Development Center* (中國煙草實業發展中心), their operations span across China with production centers located in Hubei, Sichuan, Yunnan, and other provinces.

Product Development and Design

The Group will continue to invest in machinery and equipment to upgrade its production plants and ensure the productivity is up to international standards. The management strives to pursue cutting-edge technology in order to reduce production costs while maintaining or even improving product quality.

The Group attaches high importance to product design and technology development, striving to enhance its technological competitiveness by leveraging its design and development capabilities, and continuing to commit resources to the upgrading of product research and development capabilities. During the period under review, the Group carried out regulated operation in strict compliance with the ISO9000 quality system standards. Equipped with state-of-the-art and comprehensive inspection equipment and devices, the Group has formulated a complete institutional system that covers every single process for its products in terms of the flow, standards, record and appraisal for the quality management of imported materials, processes as well as inspection of finished products and product delivery, which in turn assures the continuous enhancement of product quality.

Technology Development and Quality Control

Regarding quality control, the Group pursues perfection, professionalization and standardization by paying close attention to managing and controlling product quality. During the year under review, the Group was engaged in regulated operations in strict compliance with ISO9000 quality system standards. Equipped with state-of-the-art and comprehensive inspection equipment and devices, the Group has formulated a complete institutional system that covers the whole process of production, ensuring continuous enhancement of product quality.

In addition, the Group's product quality and safety control laboratory was accredited by China National Accreditation Service for Conformity Assessment in 2018. Meanwhile, the Group has also refined its quality and surveying management system and obtained accreditation for its G7 printing technology. The Group is resolved to enhance its product quality in response to the demand of customers.

Cost Control

Facing the rising prices of paper packaging raw materials, the Group has adopted effective measures to minimize the impact of fluctuations in their prices. In particular, the Group has negotiated with the top-ranking suppliers each year on the volume of supplies and guaranteed swift payment in exchange for a fixed price for paper materials.

Meanwhile, the Group has also conducted internal evaluation to improve production procedures and materials usage, in hopes of raising production efficiency and shortening product cycle. Ultimately, these measures have allowed the Group to control the production cost per unit.

Financial Review

Revenue

For the year ended 31 December 2020, the revenue of the Group was approximately RMB576.2 million, representing a decrease of approximately 0.9% over the same period in 2019, among which revenue from paper cigarette packages segment, social product paper packages segment and trading goods segment accounted for approximately 85.4%, 1.0% and 13.6%, respectively. Due to the pandemic outbreak in China and the factory has been stopped operation at most of the time in the first quarter of the year, the Group's sales from paper cigarette packages segment decreased by approximately 10.3% to RMB492.2 million and social product paper packages segment decreased by approximately 58.3% to RMB5.5 million. The Group kept expanding its trading goods segment and the Group's sales from trading goods segment increased by approximately 308.7% to RMB78.6 million.

The following table sets forth the breakdown of the Group's revenue for the year ended 31 December 2020:

	For the year ended 31 December		
	2020	2019	Change (%)
	RMB'000	RMB'000	(approximate)
Paper cigarette packages segment	**492,158**	548,847	-10.3%
Social product paper packages segment	**5,501**	13,180	-58.3%
Trading goods segment	**78,585**	19,230	+308.7%

Gross Profit

The Group's gross profit decreased by approximately 41.5% from approximately RMB126.0 million for the year ended 31 December 2019 to approximately RMB73.7 million for the year ended 31 December 2020. The Group's gross profit margin decreased by approximately 8.9% from approximately 21.7% to approximately 12.8% as compared with the same period in 2019. The decrease in gross profit margin was primarily due to the decrease of sales from the most profitable business of paper cigarette packages of the Group by approximately 10.3% during pandemic outbreak in China in the first quarter of the year and decrease in average product price to major customers in Yunnan, Henan and Heilongjiang markets during the period under review.

Distribution Costs

For the year ended 31 December 2020, distribution costs comprise: (i) delivery expenses for transportation of our products to customers; (ii) staff costs and benefits relating to our Group's sales and marketing personnel; (iii) expenses incurred in customer hospitality activities during our normal course of business; (iv) travelling expenses of our staff incurred for sales and distribution activities; (v) administrative expenses; and (vi) other selling and distribution related expenses. The Group's distribution costs decreased by approximately 9.5% from approximately RMB41.3 million for the year ended 31 December 2019 to approximately RMB37.4 million for the year ended 31 December 2020. The decrease of distribution costs was mainly due to the decrease of marketing and business travelling expenses during the pandemic outbreak in China in the first quarter of the year.

Administrative Expenses

For the year ended 31 December 2020, administrative expenses consist of (i) staff costs and benefits relating to our Group's administrative personnel; (ii) travelling expenses of administrative staff; (iii) depreciation expenses arising from daily operation; (iv) entertainment expenses of administrative staff; (v) research and development expenses; (vi) office expenses; (vii) regulatory expenses; and (viii) other expenses incurred in relation to our administrative operations. The expenses decreased by approximately 9.9% from approximately RMB65.8 million for the year ended 31 December 2019 to approximately RMB59.3 million for the year ended 31 December 2020. The decrease of administrative expenses was mainly due to the decrease of research and development costs and staff costs during the pandemic outbreak in China in the first quarter of the year.

Other Income

Other income mainly consists non-recurring government grant. The Group's other income increased by approximately RMB0.1 million to approximately RMB3.2 million during the year.

Other Losses

For the year ended 31 December 2020, other losses was mainly consist of loss on disposal of raw materials. The Group's other losses decreased by approximately RMB5.3 million to approximately RMB4.5 million during the year. The decrease of other losses mainly due to the recognition of change in fair value of financial liability at fair value through profit or loss for the year ended 31 December 2019 (31 December 2020: nil).

Finance Costs (net)

For the year ended 31 December 2020, net finance costs primarily consist of interest income on bank deposits, interest payments on interest-bearing obligations and bank charges. The net finance costs increased by approximately 63.8% from approximately RMB2.2 million for the year ended 31 December 2019 to approximately RMB3.6 million for the year ended 31 December 2020. The increase of net finance costs was mainly due to the increase of interest expenses of bank borrowings during the period under review.

Income Tax Expense

The Group's income tax expense decreased by approximately 65.4% from approximately RMB2.4 million for the year ended 31 December 2019 to approximately RMB0.8 million for the year ended 31 December 2020. The decrease was mainly due to the increase of net loss incurred by a PRC subsidiary during the period under review.

Loss Attributable to Owners of the Company

As a result of the foregoing, the Group's loss attributable to owners of the Company was approximately RMB26.2 million for the year ended 31 December 2020 as compared to the profit attributable to owners of the Company of approximately RMB4.2 million for the year ended 31 December 2019.

Trade and Other Receivables

Trade and other receivables decreased by approximately 25.7% from approximately RMB153.4 million as at 31 December 2019 to approximately RMB114.0 million as at 31 December 2020. The decrease was mainly attributable to the decrease of trade receivables from approximately RMB133.2 million as at 31 December 2019 to approximately RMB93.8 million as at 31 December 2020.

Trade and Other Payables

Trade and other payables decreased by approximately 21.4% from approximately RMB325.5 million as at 31 December 2019 to approximately RMB255.7 million as at 31 December 2020. The decrease was mainly attributable to the decrease of trade payables from approximately RMB137.7 million as at 31 December 2019 to approximately RMB102.3 million as at 31 December 2020 and decrease of notes payable from approximately RMB168.0 million as at 31 December 2019 to approximately RMB135.0 million as at 31 December 2020.

Liquidity and Financial Resources

The Group recorded net current assets of approximately RMB56.9 million as at 31 December 2020, compared with net current assets of approximately RMB78.1 million as at 31 December 2019. The Group maintained a healthy liquidity position during the year ended 31 December 2020. The Group's operations were principally financed by internal resources and interest-bearing borrowings during the year.

As at 31 December 2020, the Group's cash and cash equivalents, which were held mainly in Renminbi and Hong Kong dollars, were approximately RMB70.2 million, compared with approximately RMB75.9 million as at 31 December 2019.

Borrowings and Gearing Ratio

The Group's interest-bearing borrowings was approximately RMB110.0 million as at 31 December 2020 (as at 31 December 2019: approximately RMB55.0 million). The increase was mainly due to the new bank borrowings in order to improve the liquidity of the Group after the pandemic. The Group's interest-bearing borrowings were mainly denominated in Renminbi. The Group's interest-bearing borrowings was repayable within 1 year. This ratio is calculated as net debt divided by total capital. The gearing ratios are as follows:

	As at 31 December	
	2020	2019
	RMB'000	RMB'000
Total borrowings	**110,000**	55,000
Less: cash and cash equivalents	**(70,182)**	(75,899)
Net debt	**39,818**	(20,899)
Total equity	**229,420**	259,770
Total capital	**269,238**	238,871
Gearing ratio (%)	**15%**	Not applicable

It is the policy of the Group to adopt a consistently prudent financial management strategy. Sufficient liquidity is maintained with appropriate levels of borrowings to meet the funding requirements of the Group's investments and operations.

Capital Expenditure

During the year ended 31 December 2020, the Group's total capital expenditure amounted to approximately RMB7.2 million (2019: approximately RMB9.0 million), which was mainly used in purchase of machineries.

Treasury Policies

The Group adopted a prudent strategy towards the treasury and funding policies, and attached high importance to the risk control and transactions directly related to the Group's principal business. Funds, primarily denominated in Renminbi and Hong Kong dollars, are normally placed with banks in short or medium term deposits for working capital of the Group.

Assets pledged as security

The carrying amounts of assets pledged as security for notes payable and borrowings are as follows:

	2020 RMB'000	2019 RMB'000
Land use rights	18,856	5,343
Property, plant and equipment	61,078	19,410
Trade receivables	46,302	73,311
Restricted cash	94,000	84,300
	220,236	182,364

Significant Investments, Material Acquisitions and Disposals of Subsidiaries and Associated Companies

There are no significant investments, material acquisition and disposal of subsidiaries, associates and joint ventures by the Group for the year ended 31 December 2020 (2019: nil).

Contingent Liabilities

As at 31 December 2020, the Group did not have any significant contingent liabilities (as at 31 December 2019: nil).

Foreign Exchange Risks

The Group's transactions were mainly conducted in RMB, the functional currency of the Group, and the major receivables and payables are denominated in RMB. The Group's exposure to foreign currency risk related primarily to certain bank balances and cash, other receivables and other payables maintained in Hong Kong Dollars. The Group did not use derivative financial instruments to hedge against the volatility associated with foreign currency transactions and other financial assets and liabilities arising in the ordinary course of business during the year ended 31 December 2020.

Human Resources and Remuneration

As at 31 December 2020, the Group employed 550 employees (as compared with 570 employees as at 31 December 2019) with total staff cost of approximately RMB52.5 million incurred for the year ended 31 December 2020 (as compared with approximately RMB69.6 million for the year ended 31 December 2019). The Group's remuneration packages are generally structured with reference to market terms and individual merits.

Adequacy of Public Float

Based on the information that is publicly available to the Company and within the knowledge of the Directors as at the date of this annual report, the Group maintained adequate public float throughout the year ended 31 December 2020.

Future Outlook

Although the economic fallout of COVID-19 outbreak dragged on the growth of China in 2020, IMF projected that China's economy would expand by 7.9% in 2021. China is expected to witness a continued pick up thanks to the accelerated production and scaled-up financial relief and fiscal support by central authorities.

Following the approval of the first domestically developed COVID-19 vaccine by the Chinese government as well as their strong containment efforts in mitigating the impact of the pandemic, the Group is cautiously optimistic in the prospects of the nation's economy and the tobacco industry. The Group expects that the tobacco industry will embrace a sustainable growth in the years to come, provided that there will be no major rebound in COVID-19 cases.

Subsequent to the lifting of lockdown measures in Hubei Province since April 2020, the Group has fully resumed its operation and its productivity has climbed back to pre-COVID-19 levels now. As part of its continued endeavors to boost operational efficiency, the Group will divert more resources to replenish advanced machineries and implement new automation solutions which enable it to catch up on delayed orders and better cater for new orders from successful tendering.

Meanwhile, designs of cigarette package have become crucial for cigarette brands to attract consumers and boost sales, especially given the Chinese government's efforts in reducing cigarette consumption in the country. Targeting the middle to high-end cigarette packaging market, which is believed to become a major source of revenue for the Group in the long run, the Group has stepped up its efforts in shifting its product mix. As the Group aspires to seize market share, it will continue to engage effective development strategies and explore new market opportunities within the cigarette packaging industry. The Group will also expand the market reach of its international trading services by tapping markets with high potential, particularly Guangxi market where the Group aims at becoming an approved paper cigarette package supplier.

Vigilant of the potential volatility, the Group will remain cautious and keep abreast of the latest pandemic development. The Group will spare no efforts in controlling costs and maintaining cash level, while streamlining work processes in order to increase its operational efficiency. Riding on its proven track record, technology know-how, expertise as well as its close tie with clients, the management team believes that the Group will continue to build on its competitive strengths and create long-term returns for shareholders.

As at the date of this annual report, the Nomination Committee consists of two independent non-executive Directors, namely Mr. Zeng Shiquan and Mr. Gong Jinjun, and one executive Director, Mr. Yang Yoong An (as Chairman). The primary functions of the nomination committee are, inter alia, to review the structure, size and composition (including the skills, knowledge and experience) of the Board at least annually and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy, to identify individuals suitably qualified to become Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships, to assess the independence of independent non-executive Directors, and to make recommendations to the Board on the appointment or re-appointment of Directors in particular the chairman and the chief executive officer and succession planning for Directors.

During the year ended 31 December 2020, one meeting was held by the Nomination Committee. The attendance record of each member of the Nomination Committee is set out below:

Name of Director	Attendance/ Number of Nomination Committee meeting(s)
Mr. Yang Yoong An	1/1
Mr. Zeng Shiquan	1/1
Mr. Gong Jinjun	1/1

There had been no disagreement between the Board and the Nomination Committee during the year ended 31 December 2020. During the year ended 31 December 2020, the Nomination Committee mainly performed works including:

— identified suitable candidates for directorships and made recommendations to the Board;

— assessed the independence of independent non-executive Directors;

— made recommendations to the Board on the appointment or re-appointment of Directors; and

— reviewed and assessed the implementation of the diversity policy of the Company.

Board Diversity Policy

The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance and hence the purpose of the Board Diversity Policy aims to build and maintain a Board with a diversity of directors, in terms of skills, experience, knowledge, expertise, culture, independence, age and gender. These differences will be taken into account in determining the optimum composition of the Board. The Nomination Committee will discuss the measurable objectives for implementing diversity on the Board from time to time and recommend them to the Board for adoption. The Nomination Committee will report annually on the composition of the Board under diversified perspectives, and monitor the implementation of this policy to ensure the effectiveness of this policy. It will also discuss any revisions that may be required, and recommend any such revisions to the Board for consideration and approval.

Nomination Policy

The objectives of the Policy are to provide formal, clear and transparent procedures, process and criteria for the Nomination Committee to nominate and recommend a suitable candidate to the Board of the Company either to fill a causal vacancy or as an addition to the Board; or stand for election by shareholders at the general meetings of the Company and to ensure the Board has a balance of skill, experience and diversity of perspectives appropriate to the requirements of the Company's businesses.

The Board is responsible for approving the Policy and any subsequent changes proposed to be made thereto. Nomination Committee is responsible for monitoring and reviewing the Policy and recommend any changes thereto to the Board for its adoption as and when necessary in order to ensure that the Policy remains relevant to the Company's needs and reflects both current regulatory requirements and good corporate governance practice. The ultimate responsibility for selection and appointment of directors rests with the Board.

Nomination Committee and the Board may consider the following factors, which are neither exhaustive nor decisive, when assessing the suitability of a proposed candidate: (1) personal ethics, reputation and integrity; (2) professional qualifications, skills, knowledge and experience that are relevant to the Company's businesses and corporate development and strategy; (3) willingness and ability to devote adequate time to discharge the duties as a director and to make required commitments; (4) the "Board Diversity Policy" adopted by the Company for achieving diversity on the Board with reference to the Company's business model and specific needs, including but not limited to gender, age, educational background and work–profile; and (5) applicable legal and regulatory requirements.

For filling a causal vacancy or appointing an additional director to the Board in accordance with the Articles of Association of the Company, Nomination Committee shall make recommendation for the Board's consideration and approval. For proposing candidates to stand for election at a general meeting, Nomination Committee shall make recommendation to the Board for consideration and approval. Shareholder(s) may nominate a candidate to stand for election as a director at a general meeting. The nomination proposal should include the candidate's biographical information and other information as required to be disclosed under the Listing Rules and the candidate's signed written consent to be appointed as a director and to the publication of his/her personal data on any documents or the relevant websites for the purpose of or in relation to their standing for election as a director. If considered necessary, Nomination Committee may request the candidate to provide additional information and documents. Nomination Committee shall consider the nomination proposal, evaluate such candidate based on the selection criteria and review the structure, size and diversity of the Board to determine whether such candidate is suitable for recommending to the Board. A circular with the candidate information such as the name, brief biography (including qualifications and relevant experience), proposed remuneration, independence and any other information, as required pursuant to the applicable laws, rules and regulations will be provided to shareholders before the general meeting and within the prescribed period as required under Listing Rules. The Board shall have the final decision on all matters relating to the recommendation of a candidate to stand for election at a general meeting.

Dividend Policy

This policy aims to provide shareholders of the Company with stable dividends and sets out the guidelines for the Board of the Company to determine whether dividends are to be declared and paid, and the level of dividend to be paid to the shareholders of the Company.

It is the policy of the Company to allow its shareholders to participate in the Company's profits whilst to retain adequate reserves for future growth. Normally, the Company pays dividends twice a year, which are the interim dividend and final dividend. The Board may declare special dividends in addition to such dividends as it considers appropriate.

In determining the frequency, amount and form of any dividend in any financial year/period, the Board shall consider the following factors: (1) the actual and expected financial results of the Company and its subsidiaries (the "Group"); (2) economic conditions and other internal or external factors that may have an impact on the business or financial performance and position of the Group; (3) the Group's business strategies, including future cash commitments and investment needs to sustain the long — term growth aspect of the business; (4) the current and future operations, liquidity position and capital requirements of the Group; and (5) any other factors that the Board deems appropriate. The dividend payout ratio will vary from year to year. There is no assurance that dividends will be paid in any particular amount for any given period.

Directors' Responsibility for the Financial Statements

The Directors are responsible for the preparation of the financial statements which give a true and fair view of the state of affairs of the Group, in accordance with accounting principles generally accepted in Hong Kong. The statement by the auditor of the Company about their responsibilities for the financial statements is set out in the independent auditor's report contained in this annual report.

We are always committed to building a relationship with our employees based on mutual respect. In strict compliance with the requirement of the Labour Law, the Group employs individuals of above 18 years of age with valid identity document issued by the public security department. Recruitment process of subsidiaries of the Group is based on a fair, open and voluntary manner. Each subsidiary enters into legal labour contracts and prohibits forced labour. We have put in place stringent and comprehensive assessment process for recruitment and the human resource department will ensure the accuracy of personal particulars provided by the candidates. Meanwhile, candidates shall display their identity document at the interview for actual age verification and background research.

The Group closely adheres to the standard of constant workload and does not force overtime work directly or indirectly. Other than special situations specified in the law, overtime work may be arranged after negotiation with the labour union and employees based on production and operation requirements, though overtime work for each day mostly does not exceed one hour. Where our employees are required to work overtime due to exceptional reasons, without prejudice to the physical well-being of the employees, the maximum hours allowed for overtime work should be 3 hours per day and 36 hours per month. Regular inspection on all operation units would also be conducted by the Group to ensure that none of child labour or forced labour are in existence within the Group.

For the reporting period, the Group was not aware of any situations which were in violation of any laws and regulations against child labour or forced labour.

Occupational Health and Safety

The Group manages the hygiene and safety of its plants in accordance with the relevant laws and regulations of occupational health and safety. It also holds safe production and fire safety training on a regular basis, in order to raise the safety awareness of its employees. The Group provides its employees in the PRC with labor protection supplies such as gloves, masks and work uniforms, etc., so as to ensure the safety and health of the employees. Should the employees suffer from any illness or debilitating condition or are considered by the Group to be in need of health protection based on their health inspection results, the Group will limit their job duties, redesignate their post temporarily, applying treatment and other health care measures.

No severe industrial accidents were recorded by the Group during 2020 and the Group was in compliance with the relevant laws and regulations that have a significant impact on the Company to a material respect.

Staff Development and Training

Human resources are one of the important assets of the Group. The Group actively expands the horizon for the personal development of its employees and provides various types of training for its employees, including a wide range of staff development training and senior management and personnel training. Through education and training, the Group can enable its employees to enhance their personal accomplishments, strengthen their working skills and reinforce the team performance. Moreover, employees can grow with the Group by bolstering their own values on the basis of their personal interest and expertise.

At the beginning of each calendar year, the Group draws up educational training plans in accordance with the Group's training needs. Each department is responsible for determining its training needs for staff in its department and designing a unique training plan, which shall be submitted to the senior management of the Group for approval. The Group ensures that members of staff who are under the comprehensive management system can fulfill the relevant requirements in terms of education, training, technical and work experience.

Training activities provided to staff include:

(1) New employees orientation;

(2) Technical training for existing employees or internally transferred employees; and

(3) Enrolment in externally organized classes in relation to management knowledge and important position professional training.

Promotions are made in accordance with the needs from the Group's business development and the employees' competence. Vacancies of the Group's internal management positions will be filled up internally by promoting the most qualified employees within the Group according to its policies and practices in practicable situations. In accordance with the requirements of the positions, the Group will select candidates for the vacancies internally from the employees within the Group via public means. Where feasible, the vacancies and job duties will be filled up by the internal employees within the Group, thus offering the employees with the opportunities for promotion and enhancing the efficiency of the Group.

Communication with Staff

Recognising the indispensable importance of the communication with its employees, the Group encourages its employees to share their ideas with the Group, or raise questions or make suggestions to the Group. With the availability of a wide array of communication channels, the Group offers its employees access to the latest information of the Group through a number of means such as the Group's website, internal forums, company newspaper and instant messaging.

The Group has set aside reserved funds for activities. During the year ended 31 December 2020, the Group hosted a series of activities for its employees, including a diverse range of activities such as outing, sport competition, ball game, banquet etc. These events helped employees to relieve stress, and served to exemplify the Group's corporate culture of the spirit of solidarity and cohesion among its employees. Staff restaurant are available within the Group's production plants.

Environmental Protection

The Group understands and has always been aware of the increasing awareness of environmental protection from both the government and the customers and therefore pays close attention to ensure that operations comply with the environmental protection laws and regulations in the PRC. The Group's operations comply with the environmental protection laws and regulations in the PRC, including the PRC Law on the Prevention and Treatment of Solid Waste Pollution (中華人民共和國固體廢物污染環境防治法) and Law of the People's Republic of China on the Promotion of Clean Production (中華人民共和國清潔生產促進法). The Directors are also of the view that our production process does not generate hazardous wastes that will cause any significant adverse impact on the environment. The Group also endeavours to implement more cost-effective and environmentally friendly printing technology and to comply with the environmental protection laws and regulation. During the year ended 31 December 2020, the Group has complied with the relevant laws and regulations relating to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous wastes that have a significant impact on the Company in all material respects.

The Group has taken the following steps in relation to environmental protection:

(1) The production staff will ensure that the pollutant emissions during each production procedure will comply with the requirements of the PRC environmental regulations, such as measures have been taken to ensure that industrial wastes and by-products produced as a result of the operations are properly disposed of in order to minimise adverse effects to the environment;

(2) The Group also arranges professional industrial wastage processor to collect pollutants produced by the Group during our operations, which primarily include waste paper and ink; and

(3) The Group endeavours to procure raw materials that are environmentally friendly.

Supply Chain Management

The Group's relationships with its suppliers are stable and the Group did not experience any major difficulty in obtaining adequate supplies of raw materials and components to meet its production requirements in the past. The Group usually select suppliers based on the quality of raw materials supplied, pricing, production capacity, marketing history and quality assurance system to ensure we procure raw and auxiliary materials of good quality, as an initial step towards ensuring the high quality of the products. The Group has a set of internal manual on procurement standards of raw materials. When raw materials are delivered to factories, quality control staff selects samples and inspects raw materials with regard to their condition such as the surface quality of paper, the colour of the aluminium foil and ink and the VOC levels. They also review the quality testing reports provided by our suppliers. Raw materials that do not meet the requirements set by us are returned to the relevant suppliers.

The Group communicates and verifies product specifications and requirements with customers before manufacture to ensure pre-production effectiveness. The Group also conducts pre-production technical testing to set the standard known by manufacturing personnel before mass manufacture.

Quality Control on Products

The directors believe that delivery of quality products to customers according to the agreed production plan and delivery schedule is crucial to the Group's development and success. Any defects in products may lead to customers returning the products to us and claiming compensation, and may result in financial loss and damage to the brand image and reputation. To maintain the competitiveness of products, we have adopted and maintained an effective quality control system covering all the major production stages from the procurement of raw materials to delivery of the products to customers. The Group has also obtained certification of quality management system of ISO9001.

The Group has compiled a set of internal manual on standards for testing of product quality and these are implemented in each stage of the production process. In the pre-press stage, quality control staff inspects the samples before delivering them to the customers. From the press stage to the post-press stage, workers carry out self-check of work in progress, such as the colour and surface effects after different printing procedures and the quality of paper edges after die-cutting procedures. We also assign specific staff to conduct random inspection to identify possible defects. Staff is required to record the conditions of the work in progress.

In addition to visual inspection, the quality control staff uses monitoring machinery to examine the quality of finished goods, such as the coloring and positioning of artwork and the amount of VOC levels, before delivering the products to customers. Defective work in progress or finished goods found during the production process will be recorded and be disposed of by the quality control staff.

The Group's engineering department is responsible for conducting management, examination and maintenance of machinery and equipment with professional technology from time to time in order to ensure their proper functioning and safe operations, thus enhancing productivity and product quality. The Group has a set of internal guidelines on the maintenance of equipment. We plan the production schedule by taking into account, amongst other factors, the required routine maintenance so as to minimise any material impact on the Group's operation and financial performance. During the year, the Group carried out periodic inspection of machinery and equipment. The Group also conducts regular maintenance during holiday periods in factories. The time slots of maintenance are not fixed and are adjusted depending on the production plans of the Group.

The Group provides training to production staff from time to time in order to update them on production techniques and the latest technology. The Group will also update the production staff in relation to any quality issues arising either from our inspection during our production process and/or feedback from our customers. With a view to increase the incentive of each of the production staff to produce quality products and actively participate in quality control, we have established an internal award-and- punishment system. The Group's staff manual sets out a scale and the basis upon which the workers will be awarded for making contribution to quality control or penalised for making substantial mistakes.

During the year ended 31 December 2020, the operations of the Group have complied with the relevant laws and regulations regarding health and safety of products and services, advertising, labelling and privacy matters in all material respects.

Anti-corruption

In the staff handbook, one of the most important rules that the Group requires all members of staff to observe is that they must maintain honesty, refuse corruption, refuse to accept kickbacks, and they must not misappropriate the Group's funds and properties, must not abuse power for own interests, and that all gifts received must be handed to the Company. Employees could whistle-blow to the supervisor for the suspected bribery, extortion, fraud and money laundering issues. Once discovered, it will be reported to police for prosecution. There was no any legal case regarding corrupt practices brought against the Group or its employees during the year ended 31 December 2020. During the year ended 31 December 2020, the Group has complied with the relevant laws and regulations that have a significant impact on the Company relating to bribery, extortion, fraud and money laundering in all material respects.

Community Involvement

In the course of our corporate development, the Group has been committed to giving back to the society with enthusiasm in social welfare. We have internal management measures in place with clear principle for the participation of social welfare activities and charity. It specifies the scope, type and beneficiary of social welfare activities and charity, and sets out requirements on donation reason, donation target, donation channel, donation method, donation responsible person, property composition and amount of donation as well as relevant procedures of receiving the donated properties.

The selling prices of paper cigarette packages are fixed under the agreements with the relevant State-owned Tobacco Companies Customers (which are, in general, within or determined with reference to, the price ranges specified in the relevant tender documents and for new products are determined with reference to the prices offered by the Group, which are in turn determined with reference to, inter alia, its costs of production).

(B) Purchase of paper by the Group from connected persons

The following are the suppliers of the Group which are our connected persons and the transactions with during the year ended 31 December 2020:

1. Zhuhai Huafeng Paper Company Limited (珠海華豐紙業有限公司) ("Zhuhai Huafeng"); and

2. Zhuhai Hongta Ren Heng Packages Holdings Co., Ltd. (珠海紅塔仁恒包裝股份有限公司) ("Hongta Ren Heng").

One of the State-owned Tobacco Companies Customers, China Tobacco Yunnan, designated two suppliers to supply paper to the Group as its cigarette package manufacturer:

(1) the Group entered into a paper purchase contract with Zhuhai Huafeng dated 23 March 2020 for the supply of paper for a sub-brand of China Tobacco Yunnan in which the purchase by the Group was not be more than RMB4,500,000 for the year ended 31 December 2020. Hongta Tobacco (Group) Co., Ltd. ("Hongta Group") being a wholly-owned subsidiary of China Tobacco Yunnan, owns approximately 32.5% interest in Zhuhai Huafeng. Hence, Zhuhai Huafeng is a connected person of the Company under the Listing Rules. The selling prices of paper are fixed under the paper purchase contract.

(2) the Group entered into a paper purchase contract with Hongta Ren Heng dated 23 March 2020 for the supply of paper for a sub-brand of China Tobacco Yunnan in which the purchase by the Group was not be more than RMB14,000,000 for the year ended 31 December 2020. Hongta Group, being a wholly-owned subsidiary of China Tobacco Yunnan, owns approximately 32.5% interest in Hongta Ren Heng. Hence, Hongta Ren Heng is a connected person of the Company under the Listing Rules. The selling prices of paper are fixed under the paper purchase contract.

To the best of the knowledge, information and belief of the Directors having made all reasonable enquiries, as at the date of this annual report, Zhuhai Huafeng is a wholly owned subsidiary of Hongta Ren Heng Packaging. State Council of the People's Republic of China ("State Council") holds 100% equity interest in CNTC. CNTC holds 100% equity interest in China Tobacco Yunnan, which indirectly holds 32.5% shareholding in Hongta Ren Heng Packaging. The State Council indirectly controls another 41.97% shareholding in Hongta Ren Heng Packaging through a separate line of entities, resulting in the State Council indirectly controlling an aggregate of 74.47% shareholding in Hongta Ren Heng Packaging. Therefore, each of Zhuhai Huafeng and Hongta Ren Heng Packaging is a connected person of the Company. Zhuhai Huafeng and Hongta Ren Heng Packaging are principally engaged in the production and sale of paper.

The shareholding structure of Hongta Ren Heng Packaging and Zhuhai Huafeng are extremely complicated. To the best of the knowledge, information and belief of the Directors having made all reasonable enquiries, one foreign entity known as Yanlord Industries Pte Ltd. holds 13.93% shareholding in Hongta Ren Heng Packaging and another foreign entity known as Dragon State International Limited holds 11.60% shareholding in Hongta Ren Heng Packaging. Since no information is available as to the incorporation place of these two foreign entities, the Company is unable to provide further meaningful information to the shareholders. To the best of the knowledge, information and belief of the Directors having made all reasonable enquiries, such other ultimate beneficial owners are not connected persons (as defined under the Listing Rules) of the Group. For details, please refer to the announcement of the Company dated 21 January 2021.

A table summarizing the details of the transactions during the year ended 31 December 2020 is below:

		Aggregate amount of the transaction during the year ended 31 December 2020 RMB (approximately)	Relevant annual cap for the year ended 31 December 2020 RMB (approximately)	Date of announcement
(1)	Purchase of paper from Zhuhai Huafeng	–	4,500,000	23 March 2020
(2)	Purchase of paper from Hongta Ren Heng	1,343,000	14,000,000	23 March 2020

(C) Compensation of Key Management personnel

The transactions under the compensation of key management personnel in Note 31 were provided under the service contracts of relevant management and thus were all fully exempted pursuant to Chapter 14A of the Listing Rules.

The material related party transactions are set out in Note 30 to the consolidated financial statements in this annual report.

Save as disclosed above in this report, there were no other material transactions which would constitute connected transactions or continuing connected transactions between the Group and its connected persons (as defined under the Listing Rules) which are not fully exempted from shareholders' approval, annual review and all disclosure requirements under the Listing Rules during the year ended 31 December 2020. The Company has complied with the disclosure requirements in accordance with Chapter 14A of the Listing Rules during the year ended to 31 December 2020.

INDEPENDENT AUDITOR'S REPORT

pwc

羅兵咸永道

To the Shareholders of Jia Yao Holdings Limited
(incorporated in the Cayman Islands with limited liability)

Opinion

What we have audited

The consolidated financial statements of Jia Yao Holdings Limited (the "Company") and its subsidiaries (the "Group") set out on pages 55 to 105, which comprise:

- the consolidated balance sheet as at 31 December 2020;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter identified in our audit is related to revenue recognition.

Key Audit Matter	How our audit addressed the Key Audit Matter
Revenue recognition	
Refer to Note 2.21 and Note 5 to the Group's consolidated financial statements. During the year ended 31 December 2020, the Group has recognised revenue from sales and trading of goods amounted to RMB576 million. Revenue for the sales and trading of goods is recognised when the Group transfers the control of goods to the customer and no longer reserved any right to continue to manage and implement effective control which often associated with the ownership of the goods, and costs incurred or to be incurred can be measured reliably. We identified revenue recognition as a key audit matter due to the volume of revenue transactions is significant, thus significant efforts were devoted in this area.	We understood, evaluated and validated management's key controls in respect of the Group's sales transactions from sales contract, customer order, goods delivery, sales recording, reconciliation of cash receipts and customer's records through to subsequent settlement of trade receivables. We conducted testing of revenue recorded covering different customers, using sampling techniques, by examining the relevant supporting documents including sales contract, customer orders, goods delivery notes and customer's receipt records. In addition, we confirmed customers' balances and transactions on a sample basis, by considering the amount, nature and characteristics of those customers. Furthermore, we tested sales transactions that took place shortly before and after the balance sheet date, by reconciling recognised revenue with customers' receipt records, to assess whether revenue was recognised in the correct reporting periods. Based on the work performed, we found the Group's revenue from sales and trading of goods being tested were recognised in a manner consistent with the Group's revenue recognition accounting policy.

Other Information

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors and the Audit Committee for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Ho Chiu Yin, Ivan.

1 General information

The Company was incorporated as an exempted company with limited liability in the Cayman Islands under the Companies Law of the Cayman Islands on 5 August 2013.

The Company and its subsidiaries (together, the "Group") are engaged in the design, printing and sales of paper cigarette packages and social product paper packages in Hubei Province, the People's Republic of China (the "PRC") and trading goods including mainboard of cell phones.

The Company's registered office is located at Second Floor, Century Yard, Cricket Square, P.O. Box 902, Grand Cayman KY1-1103, Cayman Islands, and the address of the principal place of business is No.6 Qingdao Road, Dongshan Economic Developing District, Yichang, Hubei Province, the PRC.

The Company's ordinary shares were listed on the main board of The Stock Exchange of Hong Kong Limited on 27 June 2014.

The consolidated financial statements are presented in Renminbi ("RMB"), unless otherwise stated.

These consolidated financial statements were approved for issue by the board of directors (the "Board") of the Company on 25 March 2021.

2 Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

(i) Compliance with HKFRS and HKCO

Compliance with Hong Kong Financial Reporting Standards ("HKFRSs") and Hong Kong Companies Ordinance (Cap. 622)

The consolidated financial statements of the Group have been prepared in accordance with HKFRSs and the disclosure requirements of the Cap. 622.

(ii) Historical cost convention

The consolidated financial statements have been prepared under the historical cost convention, except for the revaluation of financial liabilities, which are measured at fair value.

2 Summary of significant accounting policies *(Continued)*

2.1 Basis of preparation *(Continued)*

(iii) Amended standards adopted by the Group

The Group has applied the following amendments for the first time for their annual reporting period commencing 1 January 2020:

- Amendments to HKAS 1 and HKAS 8 "Definition of material"
- Amendments to HKFRS 3 "Definition of a business"
- Revised Conceptual Framework for Financial Reporting
- Amendments to HKFRS 9 , HKAS 39 and HKFRS 7 "Interest Rate Benchmark Reform"

The amendments listed above did not have material impact on the consolidated financial statements of the Group.

(iv) New standards and amendments to standards relevant to the Group have been issued but are not effective

The following new standards and amendments to standards have been published that are not mandatory for 31 December 2020 reporting period and have not been early adopted by the Group:

		Effective for annual periods beginning on or after
HKAS 39, HKFRS 4, HKFRS 7, HKFRS 9 and HKFRS 16 (Amendment)	Interest Rate Benchmark Reform — Phase 2	1 January 2021

Annual Improvements to HKFRSs 2018 — 2020	Improvements to HKFRSs	1 January 2022
Accounting Guideline 5 (Amendment)	Revised Accounting Guideline 5 Merger	1 January 2022
HKFRS 3, HKAS 16 and HKAS 37 (Amendment)	Narrow-scope amendments	1 January 2022
HKAS 1 (Amendment)	Classification of Liabilities as Current or Non-current	1 January 2023
HKFRS 17	Insurance Contracts	1 January 2023
HKFRS 17 (Amendment)	Amendments to HKFRS 17	1 January 2023
Hong Kong Interpretation 5 (2020)	Presentation of Financial Statements — Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause	1 January 2023
HKFRS 10 and HKAS 28 (Amendment)	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined

These standards are not expected to have material impact on the Group.

2 Summary of significant accounting policies *(Continued)*

2.2 Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of comprehensive income, consolidated balance sheet and consolidated statement of changes in equity respectively.

2.3 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the year the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2.4 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

2.5 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Renminbi (RMB), which is the Group's presentation currency.

2 Summary of significant accounting policies *(Continued)*

2.5 Foreign currency translation

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

Foreign exchange gains and losses that relate to borrowings are presented in the consolidated statement of comprehensive income, within finance costs. All other foreign exchange gains and losses are presented in the consolidated statement of comprehensive income on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equities classified as fair value through other comprehensive income are recognised in other comprehensive income.

(c) Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;

- income and expenses for each consolidated statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and

- all resulting currency translation differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

2 Summary of significant accounting policies *(Continued)*

2.6 Property, plant and equipment

All property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives or, in the case of leasehold improvements and certain leased plant and equipment, the shorter lease term as follows:

• Buildings	40 years
• Machinery	10-15 years
• Vehicles	3-5 years
• Furniture, fittings and equipment	5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss. When revalued assets are sold, it is Group policy to transfer any amounts included in other reserves in respect of those assets to retained earnings.

2 Summary of significant accounting policies *(Continued)*

2.7 Investment properties

Investment properties, principally freehold office buildings, and lands are held for long-term rental yields or for capital appreciation or both and are not occupied by the Group. Investment property is initially measured at cost, including related transaction costs and where applicable borrowing costs. The Group adopts the cost model for subsequent measurement for investment properties.

Depreciation or amortisation is calculated using the straight-line method to allocate their cost or revalued amounts, net of their residual values, over their estimated useful lives as follows:

• Land use rights	50 years
• Buildings	40 years
• Machinery	10-15 years
• Furniture, fittings and equipment	5 years

The Group transferred a property to investment property when, and only when, there is a change in use. A change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use.

2.8 Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2 Summary of significant accounting policies *(Continued)*

2.9 Investments and other financial assets

(a) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income (OCI), or through profit or loss), and

- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

(b) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

(c) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

2 Summary of significant accounting policies *(Continued)*

2.9 Investments and other financial assets *(Continued)*

(c) Measurement (Continued)

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other losses, together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the consolidated statement of comprehensive income.

- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other losses. Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other losses and impairment expenses are presented as separate line item in the consolidated statement of comprehensive income.

- FVPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and presented net within other losses in the period in which it arises.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in other losses in the consolidated statement of comprehensive income as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

2 Summary of significant accounting policies *(Continued)*

2.9 Investments and other financial assets *(Continued)*

(d) Impairment

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables, see Note 2.12 for further details.

2.10 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where the Group currently has a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The Group has also entered into arrangements that do not meet the criteria for offsetting but still allow for the related amounts to be set off in certain circumstances, such as bankruptcy or the termination of a contract.

2.11 Inventories

Raw materials and stores, work in progress and finished goods are stated at the lower of cost and net realisable value. Cost comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Costs are assigned to individual items of inventory on the basis of weighted average costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

2.12 Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Trade receivables are generally due for settlement within one year and therefore are all classified as current. The carrying amount of trade receivables is presented after net of the expected credit losses.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method. See Note 17 for further information about the Group's accounting for trade receivables and Note 2.9(d) for a description of the Group's impairment policy.

2 Summary of significant accounting policies *(Continued)*

2.13 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

2.14 Share capital

Ordinary shares and non-redeemable participating preference shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.15 Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

2.16 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Preference shares, which are mandatorily redeemable on a specific date, are classified as liabilities. The dividends on these preference shares are recognised in profit or loss as finance costs.

Borrowings are removed from the consolidated balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

2 Summary of significant accounting policies *(Continued)*

2.17 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

2.18 Current and deferred income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

2 Summary of significant accounting policies *(Continued)*

2.18 Current and deferred income tax *(Continued)*

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the Company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.19 Employee benefits

(a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and accumulating sick leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the consolidated balance sheet.

(b) Pension obligations

The Group entities in mainland China participate in defined contribution retirement benefit plans organised by relevant government authorities for its employees in mainland China and contribute to these plans based on certain percentage of the salaries of the employees on a monthly basis, up to a maximum fixed monetary amount, as stipulated by the relevant government authorities. The government authorities undertake to assume the retirement benefit obligations payable to all existing and future retired employees under these plans and the Group has no further obligation for post-retirement benefits beyond the contributions made. The contributions to these plans are recognised as employee benefit expenses when incurred.

2 Summary of significant accounting policies *(Continued)*

2.20 Provisions

Provisions for legal claims, service warranties and make good obligations are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

2.21 Revenue recognition

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods underlying the particular performance obligation is transferred to customers. Control of the goods is transferred at a point in time.

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods supplied, stated net of discounts returns and value added taxes.

Sales and trading of goods

Revenue for sales and trading of goods is recognised when the Group transfers the control of goods to the customer and no longer reserves any right to continue to manage and implement effective control which often associated with the ownership of the goods, and costs incurred or to be incurred can be measured reliably. The revenue for the sales and trading of goods is recognised on prices received or receivable from the customer according to the contract or agreement. As receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

2.22 Interest income

Interest income is recognised using the effective interest method. When a receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognised using the original effective interest rate.

2 Summary of significant accounting policies *(Continued)*

2.23 Leases

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the group.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Group under residual value guarantees
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing, and
- makes adjustments specific to the lease, for example, term, country, currency and security.

2 Summary of significant accounting policies *(Continued)*

2.23 Leases *(Continued)*

The group is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the consolidated balance sheet based on their nature. The Group did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

2.24 Dividends distribution

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

2.25 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

3 Financial risk management

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, fair value and cash flow interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group currently does not use any derivative financial instruments to hedge certain risk exposures.

3.1 Financial risk factors

(a) Market risk

(i) Foreign exchange risk

The Group mainly operates in the PRC with most of the transactions denominated and settled in RMB. However, the Group has also certain bank deposits, trade and other receivables, trade and other payables that are denominated in currencies other than RMB (majority in Hong Kong dollars ("HKD"), and United States dollars ("USD")).

Management will monitor closely the foreign exchange risk exposure and will consider hedging significant foreign currency exposure should the need arise.

As at 31 December 2020, if RMB had strengthened/weakened by 5% against the USD and HKD, the Group's loss before income tax for the year would have been higher/lower by approximately RMB260,000, mainly as a result of foreign exchange gains/losses arising from the translation of USD-denominated and HKD-denominated cash and cash equivalents, receivables, convertible notes and payables balances.

(ii) Cash flow and fair value interest rate risk

The Group's income and operating cash flows are substantially independent of changes in market interest rates, as the Group has no significant interest-bearing assets and liabilities other than its bank deposits and borrowings. Bank deposits and borrowings at fixed rates expose the Group to fair value interest-rate risk. The Group has not hedged its cash flow and fair value interest rate risk. Details of the Group's bank deposits and borrowings have been disclosed in Note 19 and Note 25 respectively.

(b) Credit risk

Credit risk arises from restricted cash, cash and cash equivalents and trade and other receivables. The carrying amounts or the undiscounted nominal amounts, where applicable, of each class of these financial assets represent the Group's maximum exposure to credit risk in relation to the corresponding class of financial assets.

For deposits with banks and financial institutions (including restricted cash and cash and cash equivalents), the Group has limited its credit exposure by restricting their selection of banks and financial institutions on reputable international banks, major financial institutions in the PRC and PRC listed banks or state-owned banks.

3 Financial risk management *(Continued)*

3.1 Financial risk factors *(Continued)*

(b) Credit risk (continued)

For customers, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monetary procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

Notes receivable are mostly to be settled by reputable banks or state-owned banks and therefore the management considers that they will not expose the Group to any significant credit risk.

The group applies the HKFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables and contract assets.

To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The group has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The group has identified the GDP and the unemployment rate of the countries in which it sells its goods and services to be the most relevant factors, and accordingly adjusts the historical loss rates based on expected changes in these factors.

(c) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities, discounting bank acceptance notes to banks and the ability to close out market positions. The Group's objective is to maintain adequate committed credit lines to ensure sufficient and flexible funding is available to the Group.

The amounts disclosed in the table are the contractual undiscounted cash flows.

Borrowings	56,507	–	–	56,507
	369,392	2,219	124	371,735

3.2 Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital based on the gearing ratio. This ratio is calculated as net debt divided by total capital. Details of net debt is disclosed in Note 29(c). Total capital is calculated as "equity" as shown in the consolidated balance sheets plus total debt.

The gearing ratios are as follows:

	As at 31 December 2020 RMB'000	As at 31 December 2019 RMB'000
Total borrowings	**110,000**	55,000

3.3 Fair value estimation

The carrying amount of the Group's financial assets (including trade and other receivables, cash and cash equivalents, restricted cash and time deposits) and short term liabilities (including trade and other payables and short term borrowings) are assumed to approximate their fair values due to their short-term maturities. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

4 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

Income taxes

Judgement is required in determining the amount of the provision for taxation and timing of payment of the related taxations, the tax rate that would be applicable when related temporary difference that gives rise to deferred income tax are recycled for those group entities currently entitling preferential tax ratel, and super deduction research and development expenses when calculate the income tax. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Deferred income tax assets relating to certain temporary differences and tax losses are recognised when management considers it is likely that future taxable profits will be available against which the temporary differences or tax losses can be utilised. When the expectations are different from the original estimates, such differences will impact the recognition of deferred income tax assets and income tax charges in the period in which such estimates have been changed.

5 Segment information

(a) Description of segments and principal activities

The Group manages its businesses by divisions. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management, being the chief operation decision maker, for the purposes of resource allocation and performance assessment, the Group's reportable and operating segments are as follows:

— Paper cigarette packages — design, printing and sale of paper cigarette packages

— Social product paper packages — design, printing and sale of social product paper packages (e.g. packages for alcohol, medicines and food)

— Trading goods — trade sales of goods including mainboards of cell phones

(b) Segment revenue

Sales between segments are carried out at arm's length and are eliminated on consolidation. The revenue from external parties is measured in the same way as in the consolidated statement of comprehensive income.

The segment results for the year ended 31 December 2020:

	Year ended 31 December 2020
