# CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of China Display Optoelectronics Technology Holdings Limited, I hereby present to you the annual report of the Group for the year ended 31 December 2020.

## **FACING UPHILL BATTLE TO CATCH UP AND SURPASS**

2020 was clouded by the COVID-19 pandemic, which has heavily impacted the semiconductor display industry as well as the global economy. In the first half of the year, the productivity along the supply chain was delayed and the consumer sentiment was consistently weak, which led to decreases in smartphones sales and shipment volume and fluctuations of the price of display panels. Yet as the pandemic eased in China in the second half of the year, a glimmer of light appeared in the industry with retail electronic consumption gradually resuming worldwide, while the online shopping boomed and domestic brick-and-mortar stores reopened. In the gradually stabilized industry environment, the Group is committed to research and development of the semiconductor display-related technology and materials, so as to provide technological services for the global first-tier brands and to maintain the Group's market position.

For products, the market demand for the mid- to low-end smartphones has increased, pushing the demand for A-Si LCD products, which has a high cost-performance ratio, and driving up the proportion of the Group's A-Si LCD products. In addition, the pandemic has boosted the demand for remote work and learning, which has driven up the sales of laptop and learning tablet products of the Group.

## **ADJUST PRODUCT MIX TO CAPTURE BUSINESS OPPORTUNITIES IN THE PANDEMIC**

In terms of research and development, the Group has carefully considered the situation and continued to expand its product types horizontally. Meanwhile, the Group has also paid attention to the market of smart-home and wearable display modules to grasp the growing demand for remote office and education caused by the pandemic. The increase in unit price of the smart-home and learning tablet display modules has contributed to the increase in overall average selling price of the Group year-on-year.

As a qualified supplier of global top mobile phone brands including Samsung, Huawei, Xiaomi, OPPO, vivo and Transsion, the Group was committed to fulfilling the demands of such first-tier customers, maximizing the efficiency and cementing the customer base. In 2020, driven by orders from first-tier brand customers, the Group's sales volume reached 112 million units, up by 1.4% year-on-year. As the majority of the sales volume of the Group was contributed by its processing service which has a lower overall unit price as compared to sales of LCD modules of the Group, this led to a decrease in the overall revenue. The Group recorded a revenue of RMB4,353 million, down by 20.2% year-on-year. During the Review Period, the sales volume of the processing business accounted for 63% of the total sales volume with a revenue of RMB862 million, representing a year-on-year growth of 69.7%. The Group's profit attributable to owners of the parent was RMB25 million.

## **SOLIDIFY THE OPERATIONAL BASE TO SEIZE THE OPPORTUNITY OF THE TIMES**

Looking ahead, according to the forecast by Gartner, a world-leading research company, the combination of availability of new products, delayed smartphone replacements and the availability of lower end 5G smartphones are poised to drive a significant uptick in user demand in 2021. The researcher projects a year-on-year increase of 11.4% in the global smartphones shipment over 2020.

The Group will enhance its core competitiveness and reinforce its partnerships with first-tier brand customers. The Group will focus on the semiconductor display business, continue to deploy its effort on the markets of 5G and Internet of Things, and seize the opportunities arising from industrial adjustment and reshuffle so as to accommodate the requirements of 5G mobile phones. In addition, it will continue to broaden its product range such as laptops and tablets, so as to cater the expected market demand in the coming year. On the other hand, the Group will actively allocate resources to the markets of smart-home and wearable display modules to seize the great opportunity therein and horizontally expand the Group's business.

# CHAIRMAN'S STATEMENT

Despite the COVID-19 pandemic in the first half of 2020 affecting the Group's production and operation, the market demand for mobile phone has rebounded and the productivity of the Group's production base located in Wuhan has returned to normal seasonal levels as the domestic pandemic eased due to effective prevention and control. In the second half of 2020, the Group achieved a turnaround as compared to the first half of 2020. In the long run, the Group remains cautiously optimistic about the development prospects of the display module business. It is confident that the Group will further enhance its strengths in technology and economies of scale by improving the industry value chain, so as to increase its competitiveness. The Group will strive to strike a balance between sustaining the sales growth and steady development.

Last but not least, I would like to express my sincere gratitude to the shareholders, business partners and all employees for their long-term support throughout this challenging year. The Group will work unremittingly to drive our business forward and create the best returns for shareholders.

# MANAGEMENT DISCUSSION AND ANALYSIS

TCL Building in Hong Kong

## INDUSTRY REVIEW

In 2020, the world economy was impacted by the COVID-19 pandemic. The productivity along the supply chain was delayed and the consumer sentiment remained weak, which affected the sales of smartphones globally. According to the 2020 international smartphone shipment report by the global market research institution IDC (International Data Corporation), the global smartphone shipment volume for 2020 decreased by 5.9% year-on-year to approximately 1,292 million units. The global market analyst firm Canals also disclosed that 330 million units of smartphone were shipped from Mainland China in 2020, marking a year-on-year decline of 11%. Huawei (including Honor), OPPO, vivo and Xiaomi remained the four major domestic smartphone manufacturers, whose combined domestic market share exceeded 80% in 2020. In the second half of 2020, following the gradual recovery of the economy and retail consumption, companies worldwide actively developed online sales and gradually reopened their brick-and-mortar stores. Meanwhile, various major manufacturers started to launch 5G products. According to the data issued by the China Academy of Information and Communications Technology, the cumulative domestic shipment volume of 5G phones in 2020 has reached 163 million units, accounting for 52.9% of total mobile phone shipments in China.

For products, the pandemic has boosted the demand for remote work and learning, which drove up the sales volume of laptops and learning tablets. Due to weak consumer sentiment, manufacturers have launched lower-priced products to cater to the market needs, stimulating the demand for products using the more cost-effective amorphous silicon liquid-crystal display ("A-Si LCD").

## BUSINESS REVIEW

For the year ended 31 December 2020 (the “Review Period”), China Display Optoelectronics Technology Holdings Limited (the “Company”) and together with its subsidiaries (the “Group”), achieved a total sales volume of 112 million units, representing a year-on-year increase of 1.4%.

During the Review Period, the sales volume of the processing products reached 71 million units, representing a year-on-year increase of 51.5% and accounting for 63% of the Group’s total sales volume, and contributed a revenue of RMB862 million, representing a year-on-year growth of 69.7%. As processing products accounted for the majority of the sales volume of the Group and only processing fee was charged for these products, the Group recorded a lower average unit price as compared to 2019. As a result, the total revenue has decreased to RMB4,353 million, representing a year-on-year decrease of 20.2%. Since the Group has launched the processing business in the second half of 2019, the sales volume and revenue of the non-processing products have recorded a decrease, of which the sales volume of laminated LCD module products was 39 million units with the corresponding revenue decreasing by 22.2% year-on year to RMB3,293 million; whereas the sales volume of non-laminated LCD module products was 2 million units with the corresponding revenue decreasing by 72.4% year-on-year to RMB198 million. The Group continued to widen its product range, driving its overall average selling price (excluding processing products) during the Review Period to increase by 8.7% year-on-year to RMB83.9 which is attributable to the higher unit price of smart-home and learning tablet display modules.

Despite the COVID-19 pandemic in the first half of 2020 affecting the Group’s production and operation, the market demand for mobile phone has rebounded and the productivity of the Group’s production base in Wuhan has returned to normal seasonal levels as the pandemic was gradually contained domestically. For the full year of 2020, the Group’s gross profit was RMB220 million, the gross profit margin was 5.0%, representing an increase of 0.1 percentage points year-on-year. During the Review Period, the Group has made a turnaround with profits attributable to owners of the parent reaching RMB25 million.

# MANAGEMENT DISCUSSION AND ANALYSIS

## OPTIMISING PRODUCT STRUCTURE AND INCREASING CORE COMPETITIVENESS

As a qualified supplier for the top global mobile phone brands, the Group not only fulfilled the demand of the first tier brands, but also actively broadened its product range during the Review Period. Having seized the explosive growth in market demand for tablets, learning tablets and laptops, the sales volume of tablet and learning tablet display modules increased by 192% year-on-year to 4.6 million units during the Review Period. Since the launch of production in the fourth quarter of 2019, the sales volume of laptop display modules in the Review Period was 1.0 million units, representing a year-on-year growth of 8 times.

During the Review Period, the overall demand for A-Si LCD products remained stable, with the global annual shipment volume of panels maintaining at approximately 1.75 billion units. Noted for its excellent cost-performance ratio, the sales volume of the products using A-Si LCD panels has increased by 141% year-on-year. As the majority of medium sized products adopted A-Si LCD panels, the average selling price of A-Si products has recorded an increase of 11% year-on-year, thereby driving the revenue proportion from 19.5% for the same period last year to 65.2% for the Review Period.

## CONSTRUCTION OF SMART FACTORY TO EXPAND PRODUCTION CAPACITY

During the Review Period, the Group has officially launched the project of small and medium-sized liquid crystal module, in order to build a smart factory for the new TID (Touch In Display) module, step up the Group's research and development capability and production technology, and enhance the production scale. The factory construction project is located in Chenjiang, Huizhou, China with a planned total construction area of over 100,000 square metres. Apart from relocating the existing 20 production lines for mobile phone display modules and 2 production lines for medium-sized display modules to the new smart factory, the Group has also planned to expand its production capacities for wearable and medium-sized display modules in order to capture the growing demand in the market. The project is expected to be completed and commence production in 2022.

## OUTLOOK

Looking ahead, while there remains uncertainties in the external economic environment, there is still a glimmer of light for the global mobile phone industry. According to the forecast by the research organization, Canalys, the global shipment of smartphones in 2021 is expected to increase by nearly 10% year-on-year, as mobile phone manufacturers are making an effort to launch new products, actively promoting online sales and resuming operation of brick-and-mortar stores.

The Group will strive to maximize its production efficiency and effectiveness, keep fulfilling the orders of first-tier customers and strengthen its customer base. Furthermore, the Group will step up the research and development for 5G related products, enhance and preserve the advanced display technology including in-display fingerprints technology, so as to accommodate the requirements of 5G mobile phones and to build a solid operational base for the "era of new infrastructure".

Because of the pandemic, the demand for remote work and learning has increased tremendously, boosting the market demand for laptops and tablets. Such strong demand is very likely to continue in 2021. The latest IDC report forecasts that the smart devices will become scenario-based in the future. It is expected that in 2021, around 8% of smart devices will be modeled for educational use, while more than 20% of smart devices will be related to smart-home. In view of this, the Group will actively allocate resources to the markets of smart-home and wearable display modules to seize the great opportunity therein and horizontally expand the Group's business.

In the long run, the Group remains cautiously optimistic about the development prospects of the display module business. It is confident that it will further enhance its strengths in technology and economies of scale by improving the industry value chain, so as to increase its competitiveness. The Group will strive to face various challenges while sustaining the sales growth and steady development, as well as to create greater value for the Group and its shareholders.

The Group is committed to striking a balance among trades, assets and liabilities that are denominated in foreign currencies to achieve a natural hedging effect. The Group also used forward currency contracts to reduce the foreign currency exposures. In addition, pursuant to the principle of prudent financial management, the Group has not conducted or engaged in any high-risk derivative transactions during the Review Period.

# MANAGEMENT DISCUSSION AND ANALYSIS

## Significant Investments Held

There were no significant investment held by the Group as at 31 December 2020.

## Material Acquisitions and Disposals

The Group did not undertake any other significant acquisition or disposal of subsidiaries, associates, joint ventures or assets during the Review Period.

## FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

Save as disclosed in this annual report, at 31 December 2020, the Group did not have any concrete plans for material investments or capital assets for the year 2021.

## EMPLOYEES AND REMUNERATION POLICIES

As at 31 December 2020, the Group had a total of 7,197 employees. During the Review Period, the total staff costs amounted to RMB584 million. The Group has reviewed the remuneration policy by reference to the existing legislations, market conditions, as well as the performances of employees and the Company. In order to align the interests of staff with those of shareholders, share options and restricted shares would be granted to relevant grantees, including employees of the Group, under the Company's Share Option Scheme and Share Award Scheme respectively. Share options carrying rights to subscribe for a total of 36,107,986 shares of the Company ("Shares") remained outstanding as at 31 December 2020.

## ENVIRONMENTAL POLICY AND COMPLIANCE

The Group is devoted to achieve environmental sustainability and incorporates its philosophy of corporate social responsibility into daily operations. The Group operates its manufacturing facilities in compliance with all applicable local environmental regulations.

The Group also encourages its employees to protect the environment. To promote environmental awareness among employees, new staff shall attend induction training on energy saving. During the Review Period, the Group improved its management efficiency and implemented various energy saving measures, which effectively reduced the use of resources and further created a safe and healthy workplace and living environment for its staff.

The Group continues to optimise its strategy to shoulder its corporate environmental, social and ethical responsibility and improve corporate governance, in an effort to create greater value for all of the Group's stakeholders including shareholders, customers and employees as well as the communities where it operates.

The Environmental, Social and Governance Report of the Company for the year ended 31 December 2020 prepared in accordance with Appendix 27 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules") will be published separately pursuant to the requirements under Appendix 27 to the Listing Rules.

# MANAGEMENT DISCUSSION AND ANALYSIS

## CUSTOMERS AND SUPPLIERS

The Group recognises that maintaining good and stable relationship with customers and business partners is the key for the sustainable development of the Group. Therefore, the Group keeps good partnership with its major customers and suppliers. During the year, the Group's largest customer and the top five customers contributed approximately 37% and 91% (for the year ended 31 December 2019: 45% and 82%) to the revenue of the Group, respectively. Those customers have been cooperating with the Group for 1-12 years. The Group's largest supplier and the top five suppliers accounted for approximately 11% and 43% (for the year ended 31 December 2019: 21% and 43%) of the purchases of the Group, respectively. Those suppliers have been cooperating with the Group for 1-8 years.

### Major customers

The Group's major customers, including Samsung, Huawei, Xiaomi, OPPO, vivo and Transsion, are all from consumer mobile device industry, which is characterised by its cycles of integration and emergence of new brands. Any loss of or changes in market position of any of these customers may materially and adversely affect the business, financial condition and operating results of the Group. In light of this, the Group adopts the following strategies to reduce the risk from reliance on one single customer. On one hand, the Group strengthens the relationship with its existing customers. One of the major customers is a subsidiary of TCL Technology Group Corporation (formerly known as TCL Corporation, "TCL Technology"), the ultimate controlling shareholder of the Company, which has established solid partnership with the Group over the years. The other major customers also make relatively stable contribution to the revenue of the Group. On the other hand, the Group endeavours to expand business and acquire new customers by improving its product mix and integrating industry chain.

The Group's trading terms with its customers are mainly on credit, except for certain customers, where payment in advance is normally required. The credit period generally ranges from 30 to 90 days, depending on the size and credibility of the customers. Each customer has its own specific credit limit. The Group also maintains credit insurance for trade receivables from customers.

### Suppliers

There are numerous suppliers providing materials required for the Group's production and other businesses operations. However, the Group can only rely on a limited number of suppliers for certain materials which are exclusively manufactured by such suppliers. Failure of suppliers to timely deliver adequate production materials may disrupt the Group's production process, and hence adversely affect the business and financial performance of the Group. The Group therefore adopts multiple sourcing policy and strategic inventory management to ensure sufficient supply of materials for production.

# CORPORATE GOVERNANCE REPORT

## INTRODUCTION

The board (“Board”) of directors (“Directors”) of the Company aims to achieve a high standard of corporate governance and business ethics in pursuing its mission of becoming the leader in the LCD module industry. The Group’s ultimate goal is to maximise values for its shareholders and customers, and to provide opportunities for employees.

The Company has adopted a corporate governance code prepared based on the code provisions (the “Code Provisions”) of the corporate governance code and corporate governance report (the “CG Code”) as set out in Appendix 14 to the Listing Rules from time to time as the guidelines for corporate governance of the Company, and has taken steps to comply with the CG Code wherever appropriate.

## CORPORATE GOVERNANCE PRACTICES

During the year ended 31 December 2020, the Company has complied with the Code Provisions as set out in Appendix 14 to the Listing Rules except for the following deviations:

**Under Code Provision E.1.2, the chairman of the board should attend the annual general meeting. He should also invite the chairmen of the audit, remuneration, nomination and any other committees (as appropriate) to attend. The chairman of the independent board committee (if any) should also be available to answer questions at any general meeting to approve a connected transaction or any other transaction that requires independent shareholders’ approval.**

Due to pre-arranged business commitments which must be attended to by him, Mr. LIAO Qian, being the chairman of the Board and Nomination Committee and an executive Director, was not present at the annual general meeting of the Company held on 23 June 2020. However, Ms. HSU Wai Man Helen, being the chairlady of the Audit Committee and an independent non-executive Director, and Mr. XU Yan, being the chairman of the Remuneration Committee and an independent non-executive Director, were present at the said annual general meeting to maintain an ongoing dialogue and communicate with the shareholders and encourage their participation.

**Under Code Provision F.1.1, the company secretary should be an employee of the issuer and have day-to-day knowledge of the issuer’s affairs.**

The company secretary of the Company, Ms. CHEUNG Bo Man (“Ms. CHEUNG”), being a practising solicitor in Hong Kong and a partner of the Company’s legal advisor, Messrs. Cheung Tong & Rosa Solicitors (“CTR”), is not an employee of the Company.

During the year ended 31 December 2020, the Company has assigned Ms. Clara SIU, the Vice Director of Finance and Investor Relations Department of the Company as the contact person with Ms. CHEUNG to ensure that information in relation to the performance, financial position and other major developments of the Group are speedily delivered to Ms. CHEUNG through the contact person assigned, to enable the company secretary to get hold of the Group’s development promptly without material delay. With CTR’s respective expertise and experience, the Company is confident that having Ms. CHEUNG as its company secretary is beneficial to the Group’s compliance with the relevant board procedures, applicable laws, rules and regulations.

Save as disclosed above, none of the Directors is aware of any information which would reasonably indicate that the Company had not, throughout the year ended 31 December 2020, fully complied with the Code Provisions set out in the CG Code.

# CORPORATE GOVERNANCE REPORT

## COMPLIANCE WITH DEED OF NON-COMPETITION

The Company has received the respective confirmations signed by (i) TCL Technology Group Corporation, (ii) T.C.L. Industries Holdings (H.K.) Limited on 3 February 2021, and (iii) Taibang Investment Limited, Ketai Investment Limited, Litai Investment Limited, Taigang Investment Limited, Liyuan Holdings Limited, Gaosheng Holdings Limited, Zhuoxian Investment Limited, Jinyuan Investment Limited, Taihua Investment Limited and Shengmao Holdings Limited (collectively, the “BVI Companies”) (together with TCL Technology Group Corporation and T.C.L. Industries Holdings (H.K.) Limited, collectively the “Covenantors”) on 4 February 2021 (collectively, the “Confirmations”) confirming that for the year ended 31 December 2020 and up to the date of signing the Confirmations by the relevant Covenantor, save for holding direct or indirect interest in the Company and Wuhan China Display Optoelectronics Technology Company Limited (“Wuhan CDOT”), which is owned as to 70% by CDOT Huizhou and 30% by Wuhan CSOT, each of the Covenantors has fully complied with the deed of non-competitions respectively executed by the Covenantors in favour of the Group on 17 April 2015 (the “Deed of Non-Competition”) and, in particular, each of them and their respective close associates have not, directly or indirectly, carried on or engaged or interested in the research and development, manufacturing, sales and distribution of LCD modules for use in mobile phones, which is from time to time carried on or engaged or interested in by the Group.

The independent non-executive Directors have reviewed the Confirmations and all of them are satisfied that the Deed of Non-Competition have been complied with during the year ended 31 December 2020.

## DIRECTORS

### The Board

The Board, led by the chairman, steers the Company’s business direction. It is responsible for maintaining good corporate governance, formulating the Company’s long-term strategies, setting business development goals, assessing results of management policies, monitoring the management’s performance and ensuring effective implementation of risk management measures on a regular basis.

The Directors meet regularly to review the Group’s financial and operational performance and to discuss and formulate future development plans. Regular Board meetings are attended by a majority of the directors in person or through other electronic means of communication.

The work completed by the Board during 2020 as part of its corporate governance function included the following:

Mr. OUYANG Hongping (Chief Executive Officer)

Mr. WEN Xianzhen

Mr. ZHANG Feng (*appointed on 4 March 2021*)

Mr. ZHAO Jun (*resigned on 4 March 2021*)

## Independent Non-Executive Directors

Ms. HSU Wai Man Helen

Mr. LI Yang

Mr. XU Yan

An updated list of the Company's Directors by category identifying their role and function is at all times available on the websites of the Company and the Stock Exchange. The list specifies whether the Director is an independent non-executive director and expresses the respective roles and functions of each Director.

The Company identifies the independent non-executive Directors in all corporate communications which disclose the names of Directors.

Details of the biographies of the Directors are given under the section "Directors and Senior Management" of this annual report on pages 13 to 16.

There are no relationships (including financial, business, family or other material or relevant relationships) among members of the Board.

The independent non-executive Directors play an important role on the Board. Accounting for more than one-third of the Board members, they are experienced professionals in their respective fields. They are responsible for ensuring that the Board maintains high standards of financial and other mandatory reporting as well as providing adequate checks and balances for safeguarding the interest of shareholders of the Company and the Group as a whole. In the year ended 31 December 2020, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive directors with at least one of them possessing appropriate professional qualifications on accounting or related financial management expertise. The number of independent non-executive Directors has at all material times represented at least one-third of the Board.

# CORPORATE GOVERNANCE REPORT

## Number of meetings attended/eligible to attend during the year ended 31 December 2020

During the year ended 31 December 2020, the Board held 4 regular meetings and 4 additional meetings. The Company held 2 general meetings during the year ended 31 December 2020.

Attendance of individual Directors at the Board meetings and general meetings in 2020 is as follows:

	Regular Board Meetings	Additional Board Meetings concerning Special Matters requiring the Board's Decisions	General Meetings
<b>Non-Executive Director</b>			
Mr. LIAO Qian (Chairman)	1/4	2/4	1/2
<b>Executive Directors</b>			
Mr. OUYANG Hongping	4/4	4/4	2/2
Mr. WEN Xianzhen	4/4	4/4	2/2
Mr. ZHAO Jun	2/4	4/4	0/2
<b>Independent Non-Executive Directors</b>			
Ms. HSU Wai Man Helen	3/4	4/4	2/2
Mr. LI Yang	4/4	4/4	2/2
Mr. XU Yan	4/4	4/4	2/2

Notice of regular Board meetings are served to all Directors at least 14 days before the meeting while reasonable notice is generally given for other Board meetings.

Agenda and Board papers together with all appropriate, complete and reliable information are sent to all Directors in a timely manner, and at least 3 days before the intended date of each Board or Board committee meeting, except agreed otherwise among the Board members, to ensure that they had sufficient time to review the board papers, be adequately prepared for the meeting, to keep the Directors apprised of the latest developments and financial position of the Group and to enable them to include additional matter in the agenda and to make informed decisions.

The Board and each Director, upon reasonable request, have access to independent professional advice to assist them in performing their duties to the Company, at the Company's expense. When needed and upon making request to the Board, Directors may obtain independent professional advice at the Company's expense in carrying out their duties.

Minutes of all Board meetings and meetings of the Audit Committee, Remuneration Committee and Nomination Committee are kept by the company secretary. All of the above minutes record the discussions and decisions reached as well as the matters considered by the relevant members in sufficient details, including any concern raised by Directors or dissenting views expressed. Any director may inspect the minutes at any reasonable time on reasonable notice.

# CORPORATE GOVERNANCE REPORT

Draft minutes are normally circulated to Directors or members of the relevant committee for comment within a reasonable time after each meeting and the final version of the minutes is sent to all relevant Directors or committee members for their record.

According to the current Board practice, any transaction, which involves a conflict of interests between a substantial shareholder or a Director on the one part and the Company on the other part, will be considered and dealt with by the Board at a duly convened Board meeting with the presence of the independent non-executive Directors who have no material interest in the said transaction. The relevant Directors shall abstain from voting and not be counted in the quorum at meetings for approving transactions in which such Directors or any of their associates have a material interest.

The Company has maintained appropriate insurance cover in respect of legal action against its Directors and officers arising out of corporate activities.

## **Chairman and CEO**

The Company fully supported the division of responsibility between the Chairman of the Board and the CEO (being the chief executive of the Company) to ensure a balance of power and authority. The position of the Chairman was held by Mr. LIAO Qian during the year ended 31 December 2020 while the position of the CEO was held by Mr. OUYANG Hongping.

This ensures a clear distinction between the Chairman's duty to manage the Board and the CEO's duty to oversee the overall internal operation of the Company.

## **Appointments, re-election and removal of members of the Board**

Under bye-law 84 of the bye-laws of the Company ("Bye-Laws"), at each annual general meeting ("AGM"), one-third of the Directors for the time being shall retire from office by rotation and every director shall be subject to retirement by rotation at least once every 3 years while those retiring directors shall be eligible for re-election. Any Director who has not been subject to retirement by rotation in the 3 years preceding the AGM shall retire by rotation at such AGM.

## **Independent Non-Executive Directors**

Pursuant to Rule 3.13 of the Listing Rules, the Company has received a written annual confirmation from each independent non-executive Director of his/her independence (including their immediate family members) to the Company. The Company has assessed the independence and considers all of the independent non-executive Directors to be independent based on the independence criteria in accordance with the requirements in the Listing Rules, their non-involvement in the daily operation and management of the Group and the absence of any relationship which will interfere with the exercise of their independent judgement.

The Company confirms that the year of service of all the independent non-executive Directors is less than 9 years.

## **Non-Executive Directors**

Under the Code Provision A.4.1, non-executive directors should be appointed for a specific term, subject to re-election.

Each of the non-executive Directors namely Mr. LIAO Qian and the three independent non-executive Directors namely Ms. HSU Wai Man Helen, Mr. XU Yan and Mr. LI Yang, has been appointed for a specific term subject to re-election in accordance with Code Provision A.4.1. Ms. HSU Wai Man, Helen and Mr. LI Yang were re-elected to hold office until the conclusion of the annual general meeting of the Company in 2022, whilst Mr. LIAO Qian and Mr. XU Yan were re-elected to hold office until the conclusion of the annual general meeting of the Company in 2023.

# CORPORATE GOVERNANCE REPORT

## Nomination of Directors

On 25 June 2015, the Board has established the Nomination Committee to provide a framework and set the standards for the appointment of Directors of high calibre and with the capacity and ability to lead the Company towards achieving sustainable development. It considers matters regarding the nomination and/or appointment or re-appointment of Director(s).

Details of the Nomination Committee are set out in the sub-section headed "Nomination Committee" below.

## Responsibilities of Directors

If any new Director is appointed, the officers of the Company, with assistance from the Company's external legal advisor as to Hong Kong law, will work closely with the newly appointed Director(s) both immediately before and after his/her appointment to acquaint the newly appointed Director(s) with the duties and responsibilities as a Director of the Company and the business operation of the Company.

A package compiled and reviewed by the Company's legal advisor as to Hong Kong law setting out such duties and responsibilities of a director under the Listing Rules, Hong Kong Companies Ordinance (Cap. 622) and other related law and relevant regulatory requirements of Hong Kong is provided to each newly appointed Director. The officers of the Company would also provide each newly appointed Director with a package which includes information relating to the operations and business of the Group. The Directors are updated with the latest developments in laws, rules and regulations relating to the duties and responsibilities of directors from time to time. Guidelines for directors issued by the Companies Registry of Hong Kong have been forwarded to each Director for his/her information and easy reference.

The Board views that the non-executive Directors are well-aware of their functions and have been actively performing their roles including but not limited to exercising their independent judgement at Board meetings, taking the lead where potential conflicts of interest arise, scrutinizing the Company's performance and providing constructive and informed advice on the business strategy, policy, performance and management of the Company. They regularly review the financial information, monitor the operational performance of the Company and serve on the Audit Committee, Remuneration Committee and Nomination Committee.

The Directors have disclosed to the Company at the time of their appointment, and in a timely manner for any change, the number and nature of offices they held in public companies or organisations and other significant commitments and appointments. They have also informed the Company of the identity of other public companies or organisations they serve and the time involved in these public companies or organisations.

All Directors have devoted their time and attention to the affairs of the Company with their hands-on knowledge and expertise in the areas and operation in which he/she is charged with. The contribution made by the Directors to the affairs of the Company is measured in terms of time as well as quality of the attention and the ability of the Directors with reference to his/her necessary knowledge and expertise. The satisfactory attendance of Board meetings, general meetings and Board committee meetings indicates the constant participation of all Directors, including executive, non-executive and independent non-executive Directors and ensures the better understanding of the views of shareholders of the Company by all Directors. The extent of participation and contribution by the Directors should be viewed both quantitatively and qualitatively.

To fulfil their duties properly, where they consider it necessary to obtain additional information other than that is provided by the management, the Directors would make inquiries during the Board meetings and Board committee meetings. The queries raised by Directors have received prompt and full response by the management.

# CORPORATE GOVERNANCE REPORT

## Induction and Continuous Professional Development

The Directors are continually updated with legal and regulatory developments, and business and market changes to facilitate the discharge of their responsibilities through various Board meetings, resolutions, memos and Board papers. According to the records maintained by the Company, the Directors received the following training with an emphasis on the roles, functions and duties of a director of a listed company in compliance with the requirement of the CG Code on continuous professional development for the year ended 31 December 2020:

## Securities Transactions guidelines

The Board has adopted a code of conduct regarding Directors' securities transactions on terms no less exacting than the required standard as set out in the Model Code for Securities Transactions by Directors of Listed Issuers ("Model Code") in Appendix 10 to the Listing Rules.

Specific enquiries have been made with all Directors and all of them have confirmed that for the year ended 31 December 2020, they have complied with the required standard set out in the Model Code and the Company's code of conduct regarding Directors' securities transactions.

The Directors' interests in Shares as at 31 December 2020 are set out on page 42 of this annual report.

The Board has also established written guidelines on no less exacting terms than the Model Code for the relevant employee, including any employee or a Director or employee of a subsidiary or holding company who, because of his office or employment, is likely to be in possession of inside information in relation to the Company or its securities, in respect of their dealings in the Company's securities.

## DELEGATION BY THE BOARD

### Management Functions

The Board has adopted a set of consolidated memorandum setting out principles of delegation and matters reserved for the Board's approval. The Board is responsible for approving matters in relation to, among others, corporate and capital structure, corporate strategy, significant policies affecting the Company as a whole, annual business plan and budgets, key financial matters and communication with key stakeholders. The Board delegates its powers and authorities to the executive Directors and management for, among others, implementing day-to-day operations and business strategies.

The Board also delegates its powers and authorities from time to time to the Board committees in order to ensure the operational efficiency and specific issues are being handled by relevant expertise. All Board committees are provided with accurate and sufficient information in a timely manner so as to enable the Board committees to make informed decisions for the benefit of the Company and provide sufficient resources for them to discharge their duties.

### Board Committees

For the year ended 31 December 2020, the Board had 3 Board committees, namely the Remuneration Committee, the Audit Committee and the Nomination Committee, all with specific terms of reference, to oversee particular aspects of the Group's affairs.

Attendance of the relevant members of the Board committee at the meetings of the respective Board committees for the year ended 31 December 2020 is as follows:

	Audit Committee Meetings	Remuneration Committee Meetings	Nomination Committee Meetings

### Nomination Committee

The Nomination Committee is currently chaired by Mr. LIAO Qian, a non-executive Director, with Mr. OUYANG Hongping, an executive Director, Ms. HSU Wai Man Helen, Mr. XU Yan and Mr. LI Yang, being independent non-executive Directors, as the other members. The majority of the members are independent non-executive Directors. The Nomination Committee held 1 meeting during the year ended 31 December 2020.

The Nomination Committee is governed by its terms of reference, which are closely aligned with the relevant Code Provisions requirements and are available on both the Company's website at <http://www.cdoth8.com> and the Stock Exchange's website at <http://www.hkex.com.hk>.

# CORPORATE GOVERNANCE REPORT

The main duties of the Nomination Committee include the followings:

- review and supervise the structure, size, composition and diversity of the Board;
- identify qualified individuals to become members of the Board;
- assess the independence of the Independent Non-Executive Directors;
- make recommendations to the Board on the appointment, re-appointment and succession of Directors, and any proposed change to the composition of the Board to implement the Company's corporate strategy;
- review the board diversity policy of the Company ("Board Diversity Policy"); and
- review the sufficiency of time commitment of Directors to perform their responsibilities.

The work performed by the Nomination Committee for the year ended 31 December 2020 included:

- reviewing the current Board structure, diversity and composition;
- assessing the independence of the independent non-executive Directors; and
- discussing and considering the Board composition during the said period and Board succession plan.

The Company has adopted a nomination policy ("Nomination Policy") on 28 December 2018 (effective on 1 January 2019) which sets out the following procedures for nomination of Directors:

1. When there is a vacancy in the Board, the Nomination Committee evaluates the balance of skills, knowledge and experience of the Board, and identifies any special requirements for the vacancy (e.g. independence status in the case of an independent non-executive Director).
2. The Nomination Committee will consider the role and capabilities required for the particular vacancy.
3. The Nomination Committee will identify candidates through personal contacts or recommendations by Board members, senior management, business partners or investors, and will to the extent possible select from a broad range of candidates who are outside the Board's circle of contacts in accordance with the Company's Board Diversity Policy.

## Board Diversity Policy

The Company has adopted the Board Diversity Policy which sets out its approach to achieve and maintain diversity on the Board in order to enhance the effectiveness of the Board.

The Company recognises the benefits of Board diversity and endeavours to ensure that the Board has the appropriate balance and level of skills, experience and perspectives required to support the execution of its business strategies. The Company seeks to achieve Board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The Company will also take into consideration factors based on its own business model and specific needs from time to time in determining the optimal composition of the Board. All Board appointments and succession will be based on meritocracy, and candidates will be considered against objective criteria, having due regard for the benefits of diversity on the Board.

# CORPORATE GOVERNANCE REPORT

The Board has set measurable objectives (in terms of gender, skills and experience) to implement the Board Diversity Policy and has reviewed such objects from time to time to ensure their appropriateness and ascertain the progress made towards achieving those objectives. The Nomination Committee will review the Board Diversity Policy, as and when appropriate, to ensure its continued effectiveness from time to time.

The Nomination Committee considers that the current composition of the Board is diversified after taking into account its own business model and specific needs, both in terms of professional background and skills.

## Remuneration Committee

The Remuneration Committee is chaired by Mr. XU Yan, an independent non-executive Director. It currently consists of 5 members, including Mr. XU Yan, Mr. LIAO Qian, Mr. OUYANG Hongping, Ms. HSU Wai Man Helen and Mr. LI Yang, the majority of whom are independent non-executive Directors.

The Remuneration Committee is governed by its terms of reference, which are made available on the Company's website at <http://www.cdoth8.com> and the Stock Exchange's website at <http://www.hkex.com.hk>.

The Remuneration Committee was established pursuant to Rule 3.25 of the Listing Rules. It meets from time to time to make recommendations to the Board on the Company's policy and structure for remuneration of all Directors and senior management, and on the establishment of a formal and transparent procedure for developing a policy on such remuneration. The Remuneration Committee also reviews and approves the management's remuneration proposals with reference to corporate goals and objectives resolved by the Board from time to time, and exercise the delegated powers of the Board to determine the remuneration packages of all executive directors and senior management.

For the year ended 31 December 2020, the Remuneration Committee held 1 meeting and accomplished the following:

## Emolument Policy and Long-Term Incentive Plan

The Group provides a competitive remuneration package to its Directors to attract and retain talents. A large portion of the package for executive Directors is linked to their performance, which in turn is aligned with the interests of the shareholders, so as to provide an incentive for the executive Directors to achieve the best performance for the Group. Part of the remuneration of executive Directors may comprise of a long-term incentive plan which includes share options and restricted shares. The emoluments payable to the Directors are determined with reference to their duties and responsibilities with the Company and the market rate for the positions.

The purpose of the long-term incentive plan of the Group is to reward outstanding performance measured by achieved targets, which is closely linked with the performance of the Group. The benefit or award granted under the plan will only be vested over a period of time so as to provide an incentive for the executives or employees to consistently perform at a high standard and bring about long-term benefits to the Group.

The non-executive Directors' compensation relates to their time commitment and responsibilities. They receive fees which comprise the following components:

- directors' fee; and
- share options which are awarded subject to the discretion of the Board.

The fees and any other reimbursement or emolument payable to the Directors are set out in note 8 to the financial statements.

## Dividend Policy

Pursuant to the dividend policy of the Company, in considering whether to declare any dividend, the Board would consider factors in all aspects whether on the operating results, cash flow, financial condition and capital requirements of the Group and the interests of the shareholders of the Company, including but not limited to:

- the Company's actual and expected financial performance;
- retained earnings and distributable reserves of the Company and each of the members of the Group;
- the level of the Group's debts to equity ratio, return on equity and the relevant financial covenants;
- any restrictions on payment of dividends that may be imposed by the Group's lenders;
- the Group's expected working capital requirements and future expansion plans;
- general economic conditions, business cycle of the Group's business and other internal or external factors that may have an impact on the business or financial performance and position of the Company; and
- any other factors that the Board deem appropriate.

# CORPORATE GOVERNANCE REPORT

If the Group records a profit and the Board, having considered factors of all aspects (including but not limited to those factors set out in above), is satisfied that the declaration and distribution of dividends does not affect the Group's normal operations, and subject to compliance with any restrictions under the Companies Act of Bermuda and the Bye-Laws:

- the Company may declare and distribute dividends to the shareholders of the Company;
- the Company will take priority to distributing dividends in cash and shares its profits with the Shareholders;
- yet, any such declaration and payment of dividends shall remain to be determined at the sole discretion of the Board.

## **Audit Committee**

The Audit Committee is accountable to the Board and assists the Board in meeting its responsibilities in ensuring an effective and adequate system being in place for internal controls and for fulfilling the Group's external financial reporting obligations and compliance with other legal and regulatory requirements. The Audit Committee also reviews and monitors the scope and effectiveness of the work of external auditors.

The Audit Committee currently comprises 3 members, namely Ms. HSU Wai Man Helen, Mr. XU Yan and Mr. LI Yang, all of whom are independent non-executive Directors. Ms. HSU Wai Man Helen is the chairlady of the Audit Committee.

The Audit Committee usually meets at least 2 times a year to review the Company's interim and annual results and the integrity of the Group's financial statements. In addition, in order to review and monitor the effectiveness of the audit process in accordance with applicable standards, the Audit Committee will meet with the external auditors of the Company before the commencement of the annual audit to discuss the nature and scope of audit and reporting obligations of the Company.

The Audit Committee is governed by its terms of reference, which are made available on the Company's website at <http://www.cdoh8.com> and the Stock Exchange's website at <http://www.hkex.com.hk>.

# CORPORATE GOVERNANCE REPORT

For the year ended 31 December 2020, the Audit Committee held 2 meetings and the work performed by the Audit Committee included considering the following matters:

- the completeness and accuracy of the 2019 annual report and the 2020 interim financial statements;
- the Group's compliance with statutory and regulatory requirements;
- developments in accounting standards and their effect on the Group;
- the effectiveness of the risk management and internal control systems of the Group;
- the internal control reports submitted by the internal control team of the Company;
- the audit fees payable to external auditors, the scope and timetable of the audit for year 2020; and
- review of the continuing connected transactions of the Group.

The Audit Committee has been advised that it may seek independent professional advice at the expense of the Company wherever necessary. The Audit Committee is also supported by the members of the internal audit team of the Company.

The Audit Committee recommended to the Board, which the Board agreed and accepted, that subject to shareholders' approval at the forthcoming annual general meeting, Messrs. Ernst & Young be re-appointed as the Company's external auditor for 2021.

## ACCOUNTABILITY AND AUDIT

### Financial Reporting

The Board aims to present a balanced, clear and understandable assessment in annual and interim reports, inside information announcements and other financial disclosures required under the Listing Rules and other regulatory requirements.

The Directors have acknowledged their responsibility for the preparation of the accounts for each financial period which should give a true and fair view of the state of affairs, the results and cash flows of the Group for that period.

The statement by the auditor of the Company regarding its reporting responsibilities on the financial statements of the Group is set out in the "Independent Auditor's Report" on pages 50 to 53.

The Directors, having made appropriate and reasonable enquiries, consider that the Group has adequate resources to continue in operational existence for the foreseeable future and hence decide that it is appropriate to prepare the financial statements set out on pages 54 to 125 on a going concern basis. The Board is not aware of any material uncertainties relating to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

The basis on which the Company generates or preserves value over the longer term and the strategy for delivering its objectives are explained in the "Management Discussion and Analysis" set out in pages 6 to 12 in this annual report.

The management provides the Board with sufficient explanation and information, such as the Group's major business activities and key financial information, to enable the Board to make an informed assessment of the financial information and position of the Company put before the Board for approval.

The management also provides all Directors with monthly updates giving them a balanced and understandable assessment of the Company's performance, financial position and prospects in sufficient detail to enable the Board as a whole and each director to discharge their duties under Rule 3.08 and Chapter 13 of Listing Rules.

# CORPORATE GOVERNANCE REPORT

## Internal Control and Risk Management Systems

The Board is responsible for ensuring that an appropriate and effective internal control and risk management system are established and maintained within the Group. Whilst the risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss, the directors acknowledge their responsibility to establish, maintain and review from time to time the effectiveness of the Group's internal control and risk management systems. The Company establishes an annual risk management and internal control plan every year. Every year, staff at the relevant departments are requested by the Company's internal control task force to conduct a self-evaluation on risk management and internal control, to allow the Company to identify any deficiencies in its internal control practices and to identify, evaluate and manage significant risks (if any). Results of the risk management and internal control evaluation are reported to the management and independent directors by email on a quarterly basis, and are submitted to the Board half-yearly for the preparation of risk management and internal control report. Being a subsidiary of TCL Technology Group Corporation, the Company's risk management and internal control systems are annually reviewed by Da Hua Certified Public Accountants, the external auditor engaged by TCL Technology Group Corporation, to determine their effectiveness. The Board, through the Audit Committee, have reviewed the effectiveness of all material aspects of the internal control and risk management systems of the Group, including the adequacy of resources, staff qualifications and experience, training programmes and budget of the Company's accounting, internal audit and financial reporting function and concluded that the risk management and internal control systems were adequate and effective during the year ended 31 December 2020.

The Group has adopted a set of internal control policies and procedures to ensure proper maintenance of accounting records and reliability of financial reporting, and to ensure compliance with relevant legislation and regulations.

The Company exercises audit control over its business activities by developing corporate mechanisms, management measures and operating guidelines, and creating segregated posts. In addition, internal control investigations are regularly conducted by the Company's internal control task force. The Company's risk management and internal control systems are regularly reviewed by external audit firms (quality control organisations and auditors).

Certain executive Directors and senior management have been delegated with respective level of authorities and have specific responsibility for monitoring the performance of business operating units. Annual budgets of the Group and quarterly financial reports have been provided to the Board.

Each year, the Audit Committee of the Company reviews the findings made by the external auditors in respect of issues encountered by them in the preparation of the audit report, which often covers issues relating to internal control. The Audit Committee also reviews the internal control report submitted by the Company's internal audit team. The Audit Committee will then review the actions performed or the plans to be carried out by the management in addressing the issues. The issues identified and the corresponding remedial plans and recommendations are then submitted to the Board for consideration.

The Company has adopted its own Information Disclosure Guideline (approved by the Board on 19 June 2015) which, among others, sets out the procedures and internal controls for handling and dissemination of inside information. The Company has established the Disclosure Executive Committee which has been authorised by the Board to coordinate and organise disclosure of the inside information of the Company.

### Internal Audit Functions:

The Company's internal audit team independently reviewed the effectiveness of the Company's risk management and internal control systems, including the financial, operational and compliance aspects of the Company's key business activities. The head of the Company's internal audit team reports to the Audit Committee, and submits regular reports for its review in accordance with the approved review and audit mechanisms. The department submits a detailed report at least once a year to the Board for its review and monitors the effectiveness risk management and the of internal control systems of the Group.

The Audit Committee had reviewed and was satisfied with the adequacy of the resources, staff qualifications and experience, training programmes and budget of the Group's internal audit function.

# CORPORATE GOVERNANCE REPORT

## Connected Transactions:

The Company is committed to ensuring compliance with regulatory requirements under the Listing Rules, applicable laws and regulations in relation to connected transactions. Accordingly, the Company had implemented various internal control mechanisms to capture and monitor connected transactions to ensure that connected transactions are conducted under normal commercial terms or better and on terms that are fair and reasonable and properly disclosed and (if necessary) approved by the Shareholders in accordance with Listing Rules. The relevant connected persons will be required to abstain from voting in the relevant general meetings. Details of the connected transactions of the Company during the year are set out in the Report of the Directors at pages 46 to 47.

## Auditors' Remuneration

For the year under review, the remuneration paid for services provided by the auditor is approximately as follows:

Statutory audit services	HK\$1,400,000
Non-audit services (including agreed-upon procedures on interim financial statements)	HK\$350,000

## COMPANY SECRETARY

The position of company secretary is held by Ms. CHEUNG Bo Man, a practising solicitor of Hong Kong, who is not an employee of the Company. During the year ended 31 December 2020, the Company has assigned Ms. Clara SIU, the Vice Director of Finance and Investor Relations of the Company as the contact person with the company secretary. The company secretary is responsible to the Board and reports to the Board Chairman from time to time. All Directors have access to the advice and services of the company secretary to ensure that Board procedures, and all applicable laws, rules and regulations are followed and complied with.

Ms. CHEUNG is required to take no less than 15 hours of relevant professional training during the year 2020. She has fulfilled such requirement during the year under review.

## COMMUNICATIONS WITH SHAREHOLDERS AND INVESTORS

The Group recognises the importance of the principles of timeliness, fairness and transparency regarding information disclosure, and ensures that the information disclosure is in compliance with the Listing Rules and other regulatory requirements. The Group also highly value investor feedback and comments for establishing operational strategies to facilitate the Group's growth and sustainable development and to enhance shareholder value.

The objectives of our investor relations programs are to promote effective communication with the investment community through various channels to enhance their knowledge and understanding of the Group's development and strategies. The investor relations team conducts in-depth discussion on the Group's latest developments and future business plans with institutional investors and analysts through different channels, including investor meetings, conference calls, non-deal roadshows and factory visits. During the Review Period, the Group had arranged non-deal road shows and investor conferences in Hong Kong, and Shenzhen in which research analysts and institutional investors attended with favourable response.

The general meetings of the Company provide the best opportunity for communication between the Board and the Shareholders.

The Chairman of the Board and chairman of the Remuneration Committee, Nomination Committee and the Audit Committee or, in their absence, other members of the respective committees and, where applicable, the members of the independent Board committee, are available to answer questions at the Shareholders' meetings. Representatives of the Company's external auditor, Ernst & Young also attended the annual general meeting held on 23 June 2020 to answer questions in relation to the audit process, the preparation and contents of the auditors' report, the relevant accounting policies and auditor independence.

All published information, including all the statutory announcements and press releases, is promptly posted on the Company's website at <http://www.cdoth8.com>. For inquiries and suggestions, please send an email to [ir.cdot@tcl.com](mailto:ir.cdot@tcl.com) or [cdot@cornerstonescom.com](mailto:cdot@cornerstonescom.com), or directly by raising questions at the general meeting of the Company.

# CORPORATE GOVERNANCE REPORT

## Voting by Poll

The chairman of the meeting would explain the voting procedure and answer any questions from the Shareholders regarding voting by poll at the general meetings. The poll results of the general meetings were published on the websites of the Stock Exchange and the Company respectively on the same day after the relevant general meetings were held.

## Shareholders' Rights to Convene a Special General Meeting

Under bye-law 58 of the Bye-Laws, shareholders at the date of deposit of the requisition holding not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to require a special general meeting to be called by the Board for the transaction of any business specified in such requisition. If within 21 days of such deposit the Board fails to proceed to convene such meeting the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

## Communication with Shareholders and Procedures for Putting Forward Proposals at General Meetings

A shareholders' communication policy was formulated and adopted by the Company (effective on 25 June 2015) in order to ensure the shareholders are provided with ready, equal and timely access to balanced information about the Company. The Board has taken appropriate steps to provide effective communication with Shareholders.

All published information, including all the statutory announcements and press releases, is promptly posted on the Company's website at <http://www.cdoth8.com>.

Shareholders can submit enquiries to the Board or the management by sending emails to [ir.cdot@tcl.com](mailto:ir.cdot@tcl.com) or [cdot@cornerstonescom.com](mailto:cdot@cornerstonescom.com) or directly by raising questions at the general meetings of the Company. The Company's dedicated investor relations team takes a proactive approach to communicate with existing and potential investors in a timely manner by making regular face-to-face meetings and conference calls with investors.

Pursuant to the Bermuda Companies Act 1981 (as amended from time to time), either any number of the registered shareholders of the Company holding not less than one-twentieth (5%) of the paid-up capital of the Company carrying the right of voting at general meetings of the Company, or not less than 100 of such registered shareholders, can request the Company in writing to (a) give to shareholders entitled to receive notice of the next annual general meeting notice of such resolution; and (b) circulate to shareholders entitled to receive notice of any general meeting any statement of not more than 1,000 words with respect to the matter referred to in such proposed resolution or the business to be dealt with at that meeting.

# HUMAN RESOURCES AND SOCIAL RESPONSIBILITY

## HUMAN RESOURCES

In 2020, the Group embraced its business approach of “progressive revolution and solid foundation”. It launched a series of human resources management practices, which serve as a direct and effective support for the Group’s strategy implementation, organisational performance improvement and staff development.

### Basic Information on Human Resources

As at 31 December 2020, the Group had a total of 7,107 employees. The male-to-female ratio was 1.8:1. The overall turnover rate was 7.6%.

### Employees by Geographic Region as of 31 December 2020:

China	7,105
Hong Kong	2

### Employees by Age as of 31 December 2020:

Employees aged 18 to 30	4,944
Employees aged above 30	2,163

### Key Efforts on Human Resources

To align with its development strategies, the Group took a range of proactive and corresponding measures to improve its staff appraisal and incentives, recruitment, training and development, strategic communication and morale:

- The Group’s remuneration philosophy is “ability-oriented, performance-oriented and value-contribution-oriented”. The Group has developed a set of tactics to realise its strategic objectives, together with a complementary appraisal and incentive mechanism, which further strengthens results orientation.
- In light of the development of the industry and the changing competition landscape, cultivating and selecting talents for future promotion have become top priorities for the Group’s development. The Group values the development of employees and is committed to providing special and professional development channels for employees. In 2020, the Company recruited a total of 29 college graduates, and launched the Young Eagle Power Camp, an important training project of TCL Technology Group, as an important part of the cultivation process for them. During the cultivation period, young eagles will receive a series of systematic training of the Company, thus laying a solid foundation for their work and life in the Company.
- The Group has established the following “professional development channels” to cultivate and promote talents

To cultivate and promote talents, the Group has planned career development channels for all positions from two aspects: technology and management. To improve the management requirements for skills certification, the Group has established new assessment standards for induction, relegation and promotion in the Management Standards for Skills Level Certification. In 2020, more than 400 people in the Group obtained level certification.

# HUMAN RESOURCES AND SOCIAL RESPONSIBILITY

## – Training

An enterprise is undoubtedly a university for its employees and their growth is inextricably related to the training of the enterprise. During the Review Period, the Group sponsored 21 employees to participate in external professional and public courses in Huizhou, in addition to providing various internal professional training for employees. The Group also engaged external professional trainer to Huizhou to conduct five training sessions. Training topics covered four areas, namely safety, quality, professional management/skills, and general studies. A total of 346 employees attended these training sessions, with cumulative hours of training exceeding 2,480 hours. Expert's training enables technical managers to become more professional and capable.

The Group believes that these trainings will develop the individual potential of managers, increase team vitality, cohesion and creativity, give knowledge to middle managerial staff on modern business management, and inspire them to fully use their creativity to drive corporate efficiency.

- In 2020, the Group engaged external professional instructors to provide employees with “FMEA” (Failure Mode and Effect Analysis) training and project coaching. “FMEA” is a systematic activity involving conducting analysis on subsystems and parts to manufacture products and all manufacturing procedures, and discovering all potential ineffective modes and analyzing their possible consequences to take necessary measures in advance for the purpose of improving product quality and reliability. In 2020, a total of 21 technicians from various departments participated in the systematic training and initiated the “FMEA” project. The Group will keep tracking the project, one of the annual key trainings, to ensure its implementation, thus by generating practical results for the Group's lean improvement.
- In December 2020, the first phase of the “Rock-solid Plan” was completed: the Rock-solid Plan is a systematic training project specifically designed for on-site management personnel. It employed three methods, including “face-to-face study”, “outbound training”, and “visits to benchmark companies”, to enable trainees to assimilate technical knowledge and master management tools and methodologies, thereby ensuring greater stability of sites and facilitating the business development of the organization. In over a year, 32 on-site management personnel completed all training items including theoretical courses, visits to benchmark companies for learning, thesis defense, and outdoor challenge events. The completion of the “Rock-solid Plan” marks the beginning of a new stage for the Group's on-site management.

## **SOCIAL RESPONSIBILITY**

In 2020, the Group diligently fulfilled its corporate social responsibilities and complied with relevant laws and regulations without being subject to any litigation in relation to social responsibilities.

On the one hand, the Group provides healthy and safe working and living environments for employees; on the other hand, it organizes a wide variety of leisure-time activities, such as yoga, swimming, badminton, basketball, and fun sports meetings. Moreover, the Group attaches great importance to the mental health of employees, engaging professional senior psychological counselors to give online and offline lectures that were attended by near 100 employees, who remarked that these lectures were beneficial. In addition, since September 2019, the Group has collaborated with a brand customer to establish the “Employee Learning Club”, which offered 60 online courses on occupational health training to grassroots employees of the Company. These courses were attended by over 26,158 employees accumulatively, enhancing the capability of employees and receiving high commendation from customers.

# HUMAN RESOURCES AND SOCIAL RESPONSIBILITY

## School-Enterprise Cooperation

The Group has launched a range of “Eagle Series” and “P Series” training schemes through campus recruitment, building a pool of qualified technical talents for the Company’s development. In 2020, the Group extended the collaboration with Beijing Normal University, Zhuhai, and progressively accelerated the cooperation with tertiary institutions.

In addition to the “Young Eagle Project” designed for fresh college graduates, the Group also continued to focus on higher and secondary vocational institutions. During the Review Period, the Group established school-enterprise cooperation with higher vocational institutions such as Jiangxi University of Science and Technology School of Electrical Engineering and Automation and Zhoukou Vocational and Technical College, and established school-enterprise cooperation on industry-education integration with secondary vocational institutions such as Zhengzhou Technical School of Mechanical and Electrical Industry and Guigang Vocational and Technical Education Center. It implemented the “Technician/Skilled Worker Development Plan” to develop mid-level and grassroots professional talents to enhance the grassroots talent pool of the Company. It offered opportunities for more excellent graduate interns to join the Group and become future management trainees of the Company.

## Environmental Protection

In order to better fulfill its social responsibilities, the Group has successively established multiple systems including environmental management, toxic and hazardous substance management, occupational health and safety management, social responsibility management, energy management, and greenhouse gas management.

In 2020, the Group carried out energy-saving improvement projects for air-conditioning equipment and cleaning equipment, reducing greenhouse gas emissions. In terms of wastewater management, the Group used pure water for circular cleaning to reduce the amount of wastewater and harmful ingredients. In 2020, no violation of laws and regulations was identified in internal and external environmental inspections.

## Social Welfare Activities

The Group voluntarily assumes its social responsibilities. During the Review Period, the Group organized a number of voluntary service activities, including tree planting, voluntary blood donation, visits to the elderly, and funding for poor orphans and disabled children. In Huizhou, volunteer teams assisted local schools in conducting voluntary public welfare activities such as lectures on Mental Health Education and consultations at youth counselling stations. In Wuhan, employees actively participated in social donation activities during the epidemic.

# REPORT OF THE DIRECTORS

Discussions on non-financial performance including human resources management initiatives and the Group's environmental policies and performance are disclosed in the section headed "Human Resources and Social Responsibility" of this annual report. The above discussions form part of this Report of the Directors.

Further discussion and analysis of these activities as required by Schedule 5 to the Hong Kong Companies Ordinance, including a fair review of the business of the Group, discussion and analysis of the Group's performance during the year using key financial performance indicators, an account of the Group's key relationships with its stakeholders, particulars of important events affecting the Group that have occurred since the end of the financial year, if any, and the material factors underlying its results and financial position, and an indication of the likely future development in the business of the Group, is set out under sections headed "Chairman's Statement" and "Management Discussion and Analysis" on pages 4 to 12 of this annual report. Those discussions form part of this Report of the Directors.

## COMPLIANCE WITH LAWS AND REGULATIONS

The Group has complied with regulations related to occupational safety, including but not limited to the Fire Prevention Law of the People's Republic of China, the Production Safety Law of the People's Republic of China and the Law of the People's Republic of China on the Prevention and Control of Occupation Diseases. The Group maintains the occupational safety of employees mainly by the following methods: weekly inspection of safety production risks including risks of fire, piling up of hazardous materials and electricity; regular disinfection of workplace and arranging professional medical institutions for physical examination for employees; accelerating the automatization of factories and assigning dangerous operation to machines to prevent employees from being injured.

The Group has also complied with regulations related to production materials and emission, including but not limited to the Environmental Protection Law of the People's Republic of China. The Group carries out supervision mainly by the following methods: regular commissioning of professional institutions to implement indicator monitoring on pollution discharge so as to meet the national standard; reasonable storage and isolation of dangerous materials; strict selection of suppliers and materials that meet the registration, evaluation, authorisation & restriction of chemicals ("REACH") standards and restriction of hazardous substances ("RoHS") standards of the European Union are given priority.

As at 31 December 2020 and up to the date of this report, the Board was unaware of any non-compliance with the relevant laws and regulations which had a significant impact on the Company.

# REPORT OF THE DIRECTORS

## SIGNIFICANT RISKS AND UNCERTAINTIES

Some significant risk and uncertainties affecting the Group are outlined below. They are not exhaustive and there may be other additional risks and uncertainties which are now unknown or immaterial to the Group but could become material in future.

### Novel coronavirus disease 2019 pandemic

In 2020, the novel coronavirus disease outbreak spread worldwide, while the World Health Organization (“WHO”) has already increased the global risk assessment of the spread and impact to “very high”. During the first half of 2020, affected by the epidemic, certain raw material supplies experienced a short-term shortage due to factors including suppliers’ postponed resumption of work and logistic delays. The Group has actively negotiated with strategic suppliers and logistics partners to find suitable solutions to reduce risks. Due to the very uncertain global economic prospects, the customers adjusted production and operation strategies in a timely manner based on changes in the epidemic and the market, thus the production and operation of production lines of the Group were affected in the first half of 2020.

However, as the COVID-19 pandemic has ushered in a new norm globally since the second half of 2020, consumers around the world have shifted their normal spending from items including travel, dining out, and general leisure to items like consumer electronics. The global smartphone market is expected to return to growth in 2021, while the Group remains cautiously optimistic about the long-term development prospects of the display module business.

### Market competition

Substantially all of the Group’s revenue are attributable to the revenue from smartphone display modules for the consumer mobile device market. Therefore, the general state of the global economy, market condition and consumers’ behaviour may have significant impact on the operating results and financial condition of the Group. The global market for the Group’s products and services is highly competitive and is subject to ever-changing technological advancements, market development, changes in customer needs, evolving industry standards, and frequent product launches and upgrades.

To minimise the risks stated above, the Group continues its efforts on research and development to broaden its product range and technology platforms and enhance its product competitiveness, which enable the Group to extend its reach to different end products so as to diversify its source of revenue and profit, and in turn reduce its dependency on one single type of product. In addition, the Group continues to strengthen its customer relationship and refine its sales strategy, in order to maintain robust profitability of the Group.

### Foreign Exchange Risks

The Group reports its results in Renminbi but the Group’s business and operations is facing the international market. Consequently, the Group is exposed to potential adverse impact of currency fluctuations on translation of the accounts. Although the Group actively manages its currency exposures, depreciation or fluctuation of the currencies in which the Group conducts its operations relative to the Renminbi could have a material adverse effect on the Group’s financial condition and operational results.

The Group is committed to striking a balance among trades, assets and liabilities that are denominated in foreign currencies to achieve a natural hedging effect. The Group enters into various forward currency contracts from time to time to manage its exchange rate exposure. In addition, pursuant to the principle of prudent financial management, the Group has not conducted or engaged in any high-risk derivative transactions.

As regards the risks concerning the Group’s customers and suppliers, please refer to the paragraph headed “Customers and Suppliers” under Management Discussion and Analysis on page 12, which discussions form part of this Report of the Directors.

# REPORT OF THE DIRECTORS

## DIRECTORS' RIGHTS TO ACQUIRE SHARES OR DEBENTURES

Save as disclosed under the heading "Directors' and chief executives' interests and short positions in shares, underlying shares and debentures", the Share Option Scheme as disclosed under the heading "Share Option Scheme", and the Share Award Scheme as disclosed under the heading "Share Award Scheme" in this annual report, at no time during the year ended 31 December 2020 were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company granted to any Director or his/her spouse or children under 18 years of age, or were any such rights exercised by them; nor was the Company, or any of its subsidiaries, holding companies or fellow subsidiaries a party to any arrangement to enable the directors to acquire such rights in the Company or any other body corporate.

## SHARE OPTION SCHEME

By way of a resolution of the shareholders of the Company passed on the further special general meeting of the Company on 11 March 2015, the Company adopted the Share Option Scheme with effect from the resumption of trading in the Company's shares on the Stock Exchange on 25 June 2015, the purpose of which is to recognise and motivate the contribution of the eligible participants and to provide incentives and help the Group in retaining its existing employees and recruiting additional employees and to provide them with a direct economic interest in attaining the long term business objectives of the Group.

The major terms of the Share Option Scheme, in conjunction with the requirements of Chapter 17 of the Listing Rules, are set out in note 28 to the financial statements in this annual report. As at 31 December 2020, the total number of Shares available for issue in respect thereof was 172,149,980 shares, representing approximately 8.14% of the then issued shares of the Company.

The Directors have estimated the values of the share options granted, calculated using the binomial option pricing model as at the date of grant of the share options as set out in note 28 to the financial statements in this annual report, which are subject to certain fundamental limitations, due to the subjective nature of and uncertainty relating to a number of assumptions of the expected future performance input to the model, and certain inherent limitations of the model itself.

As at 31 December 2020, total number of Shares of the Company that could be issued upon exercise of (i) all outstanding share options and; (ii) all share options that could be granted under the then available scheme mandate limit was 208,257,966 Shares, which represented about 9.85% of the issued share capital of the Company as at 31 December 2020.

Movements of the share options under the Share Option Scheme during the year ended 31 December 2020 are as follows:

# INDEPENDENT AUDITOR'S REPORT

## To the shareholders of China Display Optoelectronics Technology Holdings Limited

(Incorporated in Bermuda with limited liability)

### OPINION

We have audited the consolidated financial statements of China Display Optoelectronics Technology Holdings Limited (the "Company") and its subsidiaries (the "Group") set out on pages 54 to 125, which comprise the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

# INDEPENDENT AUDITOR'S REPORT

## KEY AUDIT MATTERS (Continued)

Key audit matter	How our audit addressed the key audit matter
<b><i>Inventories provision</i></b>	
<p>The Group is principally engaged in the research and development, manufacture, sale and distribution of liquid crystal display (“LCD”) modules. The Group’s inventories are subject to the significant risk of obsolescence accompanying with the rapid technology development of the LCD module industry. Significant management judgement is accordingly involved when determining the extent of write-down of inventories to net realisable value. Management is required to estimate the respective future selling prices and selling costs to determine if any provision should be made or should be reversed.</p> <p>Details of the inventory provision are disclosed in note 3 and note 6 to the consolidated financial statements.</p>	<p>We assessed the process and methods used by management to make provision for obsolete inventories. Our assessment included evaluating management’s inventory ageing profiles, selecting samples covering each ageing period of the ageing reports and checking the original goods receipt notes and invoices.</p> <p>We evaluated the inventory’s net realisable value, on a sample basis, by comparing the forecast selling price and estimated costs to completion to existing contracts and recent market prices. Furthermore, we considered the subsequent sales trend analysis and assessed management’s sales plan.</p> <p>We reviewed and assessed the adequacy and appropriateness of the related disclosures in the consolidated financial statements.</p>

## OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor’s report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group’s financial reporting process.

# INDEPENDENT AUDITOR'S REPORT

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, in accordance with section 90 of the Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

# INDEPENDENT AUDITOR'S REPORT

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is M.L. Chau.

They have been prepared under the historical cost convention, except for derivative financial instruments which have been measured at fair value. These financial statements are presented in Renminbi (“RMB”) and all values are rounded to the nearest thousand except when otherwise indicated.

As at 31 December 2020, the Group had total current liabilities in excess of total current assets of RMB152,276,000. The Group’s ability to repay its debts when they fall due relies on its future operating cash flows and its ability to renew the bank loans.

In view of the above, the Board has carefully assessed the Group’s liquidity position having taken into account (i) the revolving bank facilities of RMB1,304,000,000 which will not expire until 31 December 2021, and (ii) the Company’s intermediate holding company, TCL China Star Optoelectronics Technology Co., Ltd. agreeing to provide financial support to the Group to meet in full its financial obligations for at least the next 12 months from the date of approval of the Company’s financial statements.

On the basis of the above considerations, the Board believed that the Group can satisfy its financial obligations in the foreseeable future and accordingly, the consolidated financial statements have been prepared on a going concern basis.

### Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “Group”) for the year ended 31 December 2020. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same year as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

# NOTES TO FINANCIAL STATEMENTS

## 2.1 BASIS OF PREPARATION (Continued)

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interests and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

## 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the *Conceptual Framework for Financial Reporting 2018* and the following revised HKFRSs for the first time for the current year's financial statements.

Amendments to HKFRS 3	<i>Definition of a Business</i>
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	<i>Interest Rate Benchmark Reform</i>
Amendment to HKFRS 16	<i>Covid-19-Related Rent Concessions (early adopted)</i>
Amendments to HKAS 1 and HKAS 8	<i>Definition of Material</i>

The nature and the impact of the *Conceptual Framework for Financial Reporting 2018* and the revised HKFRSs are described below:

- (a) *Conceptual Framework for Financial Reporting 2018* (the "Conceptual Framework") sets out a comprehensive set of concepts for financial reporting and standard setting, and provides guidance for preparers of financial statements in developing consistent accounting policies and assistance to all parties to understand and interpret the standards. The Conceptual Framework includes new chapters on measurement and reporting financial performance, new guidance on the derecognition of assets and liabilities, and updated definitions and recognition criteria for assets and liabilities. It also clarifies the roles of stewardship, prudence and measurement uncertainty in financial reporting. The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The Conceptual Framework did not have any significant impact on the financial position and performance of the Group.
- (b) Amendments to HKFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group has applied the amendments prospectively to transactions or other events that occurred on or after 1 January 2020. The amendments did not have any impact on the financial position and performance of the Group.
- (c) Amendments to HKFRS 9, HKAS 39 and HKFRS 7 address issues affecting financial reporting in the period before the replacement of an existing interest rate benchmark with an alternative risk-free rate ("RFR"). The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the introduction of the alternative RFR. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments did not have any impact on the financial position and performance of the Group as the Group does not have any interest rate hedging relationships.

## 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

- (d) Amendment to HKFRS 16 provides a practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the covid-19 pandemic. The practical expedient applies only to rent concessions occurring as a direct consequence of the pandemic and only if (i) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change; (ii) any reduction in lease payments affects only payments originally due on or before 30 June 2021; and (iii) there is no substantive change to other terms and conditions of the lease. The amendment is effective for annual periods beginning on or after 1 June 2020 with earlier application permitted and shall be applied retrospectively.

During the year ended 31 December 2020, certain monthly lease payments for the leases of the Group's plant and machinery have been reduced or waived by the lessors upon reducing the scale of production as a result of the pandemic and there are no other changes to the terms of the leases. The Group has early adopted the amendment on 1 January 2020 and elected not to apply lease modification accounting for all rent concessions granted by the lessors as a result of the pandemic during the year ended 31 December 2020. Accordingly, a reduction in the lease payments arising from the rent concessions of RMB19,000 has been accounted for as a variable lease payment by derecognising part of the lease liabilities and crediting to profit or loss for the year ended 31 December 2020.

- (e) Amendments to HKAS 1 and HKAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information, or both. The amendments did not have any significant impact on the financial position and performance of the Group.

## 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these financial statements.

Amendments to HKFRS 3	<i>Reference to the Conceptual Framework<sup>2</sup></i>
Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16	<i>Interest Rate Benchmark Reform – Phase 2<sup>1</sup></i>
Amendments to HKFRS 10 and HKAS 28 (2011)	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture<sup>4</sup></i>
HKFRS 17	<i>Insurance Contracts<sup>3</sup></i>
Amendments to HKFRS 17	<i>Insurance Contracts<sup>3, 6</sup></i>
Amendments to HKAS 1	<i>Classification of Liabilities as Current or Non-current<sup>3, 5</sup></i>
Amendments to HKAS 16	<i>Property, Plant and Equipment: Proceeds before Intended Use<sup>2</sup></i>
Amendments to HKAS 37	<i>Onerous Contracts – Cost of Fulfilling a Contract<sup>2</sup></i>
<i>Annual Improvements to HKFRSs 2018-2020</i>	Amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41 <sup>2</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2021

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2022

<sup>3</sup> Effective for annual periods beginning on or after 1 January 2023

<sup>4</sup> No mandatory effective date yet determined but available for adoption

<sup>5</sup> As a consequence of the amendments to HKAS 1, Hong Kong Interpretation 5 Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause was revised in October 2020 to align the corresponding wording with no change in conclusion

<sup>6</sup> As a consequence of the amendments to HKFRS 17 issued in October 2020, HKFRS 4 was amended to extend the temporary exemption that permits insurers to apply HKAS 39 rather than HKFRS 9 for annual periods beginning before 1 January 2023

# NOTES TO FINANCIAL STATEMENTS

31 December 2020

## 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

Further information about those HKFRSs that are expected to be applicable to the Group is described below.

Amendments to HKFRS 3 are intended to replace a reference to the previous *Framework for the Preparation and Presentation of Financial Statements* with a reference to the Conceptual Framework for Financial Reporting issued in June 2018 without significantly changing its requirements. The amendments also add to HKFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of HKAS 37 or HK(IFRIC)-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying HKFRS 3 should refer to HKAS 37 or HK(IFRIC)-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group expects to adopt the amendments prospectively from 1 January 2022. Since the amendments apply prospectively to business combinations for which the acquisition date is on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 address issues not dealt with in the previous amendments which affect financial reporting when an existing interest rate benchmark is replaced with an alternative RFR. The Phase 2 amendments provide a practical expedient to allow the effective interest rate to be updated without adjusting the carrying amount when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities, if the change is a direct consequence of the interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis immediately preceding the change. In addition, the amendments permit changes required by the interest rate benchmark reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of HKFRS 9 to measure and recognise hedge ineffectiveness. The amendments also provide a temporary relief to entities from having to meet the separately identifiable requirement when an RFR is designated as a risk component. The relief allows an entity, upon designation of the hedge, to assume that the separately identifiable requirement is met, provided the entity reasonably expects the RFR risk component to become separately identifiable within the next 24 months. Furthermore, the amendments require an entity to disclose additional information to enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy. The amendments are effective for annual periods beginning on or after 1 January 2021 and shall be applied retrospectively, but entities are not required to restate the comparative information. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKFRS 10 and HKAS 28 (2011) address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to HKFRS 10 and HKAS 28 (2011) was removed by the HKICPA in January 2016 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to HKAS 1 clarify the requirements for classifying liabilities as current or non-current. The amendments specify that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The amendments also clarify the situations that are considered a settlement of a liability. The amendments are effective for annual periods beginning on or after 1 January 2023 and shall be applied retrospectively. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

## 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied retrospectively only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 37 clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied to contracts for which an entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments. Earlier application is permitted. Any cumulative effect of initially applying the amendments shall be recognised as an adjustment to the opening equity at the date of initial application without restating the comparative information. The amendments are not expected to have any significant impact on the Group's financial statements.

*Annual Improvements to HKFRSs 2018-2020* sets out amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41. Details of the amendments that are expected to be applicable to the Group are as follows:

- HKFRS 9 *Financial Instruments*: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendment is effective for annual periods beginning on or after 1 January 2022. Earlier application is permitted. The amendment is not expected to have a significant impact on the Group's financial statements.
- HKFRS 16 *Leases*: removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying HKFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying HKFRS 16.

# NOTES TO FINANCIAL STATEMENTS

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted by the Group in arriving at these financial statements set out in this report are set out below:

### Fair value measurement

The Group measures its derivative financial instruments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

### Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, deferred tax assets and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Impairment of non-financial assets (Continued)

An assessment is made at the end of each year as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, however not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

### Related parties

A party is considered to be related to the Group if:

(a) the party is a person or a close member of that person's family and that person

- (i) has control or joint control over the Group;
- (ii) has significant influence over the Group; or
- (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

(b) the party is an entity where any of the following conditions applies:

- (i) the entity and the Group are members of the same group;
- (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
- (iii) the entity and the Group are joint ventures of the same third party;
- (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
- (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
- (vi) the entity is controlled or jointly controlled by a person identified in (a);
- (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
- (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of that asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Plant and machinery	14%-32%
Office and other equipment	14%-32%
Leasehold improvements	19%-44%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the period the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents plant and machinery under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction for the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

### Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The useful lives of intangible assets are assessed to be finite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

### Computer software

The purchased computer software is stated at cost less any impairment losses and is amortised on the straight-line basis over its estimated useful life of 3 to 5 years.

### Research and development costs

All research costs are charged to the statement of profit or loss as incurred. Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that the asset will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

##### (a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Leasehold land	50 years
Plant and properties	2 to 3 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

##### (b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

The Group's lease liabilities are included in interest-bearing bank and other borrowings.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Leases (Continued)

#### Group as a lessee (Continued)

##### (c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value.

Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

### Investments and other financial assets

#### Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade and bills receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade and bills receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Investments and other financial assets (Continued)

#### Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

##### *Financial assets at amortised cost (debt instruments)*

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

##### *Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes derivative financial instruments which the Group had not irrevocably elected to classify at fair value through other comprehensive income.

#### Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Impairment of financial assets

The Group recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

#### General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Debt investments at fair value through other comprehensive income and financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

- Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

#### Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Financial liabilities

#### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as loans and other borrowings, financial liabilities at fair value through profit or loss and payables.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, other payables, derivative financial instruments, interest-bearing bank and other borrowings and bonds payable.

#### Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

##### *Financial liabilities at fair value through profit or loss*

Financial liabilities at fair value through profit or loss represent financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities designated upon initial recognition as at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. Gains or losses on liabilities designated at fair value through profit or loss are recognised in the statement of profit or loss, except for the gains or losses arising from the Group's own credit risk which are presented in other comprehensive income with no subsequent reclassification to the statement of profit or loss. The net fair value gain or loss recognised in the statement of profit or loss does not include any interest charged on these financial liabilities.

##### *Financial liabilities at amortised cost (loans and borrowings)*

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

### Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is currently an enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

### Derivative financial instruments

#### Initial recognition and subsequent measurement

The Group uses derivative financial instruments, such as forward currency contracts, to hedge its foreign currency risk and interest rate risk, respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Any gains or losses arising from changes in fair value of derivatives are taken directly to the statement of profit or loss.

### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

### Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits which are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, which are not restricted as to use.

### Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of each year of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in the statement of profit or loss.

The Group provides for warranties in relation to the sale of certain products for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are recognised based on past experience of the level of repairs and returns, discounted to their present values as appropriate.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of each year, taking into consideration interpretations and practices prevailing in the jurisdictions in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of each year between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each year and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each year and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of each year.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to the statement of profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to the statement of profit or loss by way of a reduced depreciation charge.

### Revenue recognition

#### Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

#### Sale of industrial products

Revenue from the sale of products is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the LCD module products.

#### Processing and manufacturing services

Revenue from processing and manufacturing service is recognised at the point in time when control of the product is transferred to the customer, generally on delivery of the LCD module products.

#### Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

### Contract costs

Other than the costs which are capitalised as inventories, property, plant and equipment and intangible assets, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- (a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- (b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- (c) The costs are expected to be recovered.

The capitalised contract costs are amortised and charged to the statement of profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates. Other contract costs are expensed as incurred.

### Share-based payments

The Company operates the Share Award Scheme and the Share Option Scheme (as defined in note 27 and note 28 to the financial statements, respectively) for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees for grants is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each year until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Share-based payments (Continued)

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

As disclosed in note 27 to the financial statements, the Group has engaged a trustee to administer the Share Award Scheme, where the trustee may purchase shares issued by the Company from the market as awards to the relevant participants. The consideration paid by the Company, including any directly attributable incremental costs, is presented as “shares held for the Share Award Scheme” and deducted from the Group’s equity.

### Other employee benefits

#### Pension schemes

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the “MPF Scheme”) under the Mandatory Provident Fund Schemes Ordinance for all of its employees in Hong Kong. Contributions are made based on a percentage of the employees’ basic salaries in accordance with the statutory limits prescribed by the Mandatory Provident Fund Schemes Ordinance and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group’s employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Group’s subsidiary which operates in Mainland China are required to participate in a central pension scheme operated by the local municipal government. This subsidiary is required to contribute a certain percentage of its payroll costs to the central pension scheme at the applicable rates based on the amounts stipulated by the local government organisations. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

#### Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Dividends

Dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the note 11 to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

### Foreign currencies

The functional currency of the Company is HKD and these financial statements are presented in RMB. Most of the turnover of the Group is contributed by the business in Mainland China and the presentation currency of RMB could provide users of the financial statements with more comparable information with other companies in similar industries. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the year. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain entities in the Group are currencies other than RMB. As at the end of the year, the assets and liabilities of these entities are translated into RMB at the exchange rates prevailing at the end of the year and their statements of profit or loss are translated into RMB at the weighted average exchange rates for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rates for the year.

## 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

### Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which has the most significant effect on the amounts recognised in these financial statements:

#### Tax

Determining income tax provisions requires the Group to make judgements on the future tax treatment of certain transactions. The Group evaluates tax implications of transactions in accordance with prevailing tax regulations and makes tax provisions accordingly.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilised. This requires significant judgement on the tax treatments of certain transactions and also assessment on the probability that adequate future taxable profits will be available for the deferred tax assets to be recovered.

The New PRC Corporate Income Tax Law, which became effective on 1 January 2008, states that the distribution of dividends by a foreign-invested enterprise established in Mainland China to its foreign investors in respect of its earnings, from 1 January 2008 or thereafter, shall be subject to withholding corporate income tax at an applicable rate of 5% or 10%. The Group evaluates the necessity of dividend distribution of its subsidiaries established in Mainland China out of profits earned after 1 January 2008 and makes decisions on such dividend distributions based on senior management's judgement. As at 31 December 2020, the aggregate unremitted earnings of RMB281,935,000 (31 December 2019: RMB248,850,000) of the Group's subsidiaries established in Mainland China that are subject to withholding taxes were considered to be not probable to distribute in the foreseeable future and accordingly, the related deferred tax liabilities of RMB14,097,000 as at 31 December 2020 (31 December 2019: RMB12,442,000) were not recognised. For details, please refer to note 25 to the financial statements.

### Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

#### Provision for expected credit losses on trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic products) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

## 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

### Estimation uncertainty (Continued)

#### Provision for expected credit losses on trade receivables (Continued)

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in note 17 to the financial statements.

#### Useful lives and residual values of property, plant and equipment

In determining the useful life and residual value of an item of property, plant and equipment, the Group has to consider various factors, such as technical or commercial obsolescence arising from changes or improvements in production, or from a change in the market demand for the product or service output of the asset, the expected usage of the asset, the expected physical wear and tear, the care and maintenance of the asset, and legal or similar limits on the use of the asset. The estimation of the useful life of the asset is based on the experience of the Group with similar assets that are used in a similar way. Additional depreciation is made if the estimated useful lives and/or the residual values of items of property, plant and equipment are different from the previous estimation. Useful lives and residual values are reviewed at each financial year end based on changes in circumstances. The carrying amounts of property, plant and equipment at 31 December 2020 and 31 December 2019 were RMB898,430,000 and RMB831,412,000, respectively. Further details are given in note 13 to the financial statements.

#### Provision against obsolete and slow-moving inventories

The Group reviews the condition of its inventories and makes a provision against obsolete and slow-moving inventory items which are identified as no longer suitable for sale or use. Management estimates the net realisable value for such inventories based primarily on the latest invoice prices and current market conditions. The Group carries out an inventory review at the end of each year and makes a provision against obsolete and slow-moving items. Management reassesses the estimation at the end of each year. The provision against obsolete and slow-moving inventories requires the use of judgements and estimates. Where the expectation is different from the original estimate, such difference will have an impact on the carrying value of inventories and the write-down of inventory amount in the year in which such estimates have been changed. During the year ended 31 December 2020, the amount of the reversal of write-down of the inventories recognised in the consolidated statement of profit or loss was RMB2,721,000 (31 December 2019: write-down of RMB1,660,000).

#### Provisions for product warranties

The Group generally accrue provisions on certain of its products, under which faulty products are returned for repair or replacement. The amount of provisions is estimated based on the sales volume and past experience of the level of the raw material costs incurred for the repair and return. The estimation basis is reviewed on an ongoing basis and revised where appropriate. As at 31 December 2020 and 31 December 2019, the carrying amounts of the provisions were RMB2,799,000 and RMB617,000, respectively.

## 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

### Estimation uncertainty (Continued)

#### Leases – Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in a lease, and therefore, it uses an incremental borrowing rate (“IBR”) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group “would have to pay”, which requires estimation when no observable rates are available or when it needs to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs when available and is required to make certain entity-specific estimates.

## 4. OPERATING SEGMENT INFORMATION

For management purposes, the Group operates in one business unit based on its products, and has one reportable operating segment being the display product segment which principally engages in the processing, manufacture and sale of LCD module products.

No operating segments have been aggregated to form the above reportable operating segment.

	<b>1,012,621</b>	1,862,040

The Group's trading terms with its customers are mainly on credit, except for certain customers, where payment in advance is normally required. The credit period is generally 30 to 90 days, depending on the size and credibility of the customers. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are reviewed regularly by senior management. The Group does not hold any collateral or other credit enhancements over its trade and bills receivables balances. Trade and bills receivables are non-interest-bearing.

Included in the Group's trade and bills receivables are amounts due from the Group's related parties of RMB630,959,000 (31 December 2019: RMB1,225,591,000), which are repayable on credit terms similar to those offered to the major customers of the Group.

An ageing analysis of the trade and bills receivables as at the end of the year, based on the invoice date and net of loss allowance, is as follows:

	2020 RMB'000	2019 RMB'000

## 17. TRADE AND BILLS RECEIVABLES (Continued)

The movements in the loss allowance for impairment of trade receivables are as follows:

	2020 RMB'000	2019 RMB'000
At beginning of year	1,301	11,934
Impairment losses, net	(115)	(2,600)
Amount written off as uncollectible	–	(8,033)
At end of year	1,186	1,301

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade and bills receivables are written off if past due for more than one year and are not subject to enforcement activity.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

### As at 31 December 2020

	Past due		Total
	Less than 6 months	Over 6 months	
Expected credit loss rate	0.14%	10.42%	0.15%
Gross carrying amount (RMB'000)	813,073	96	813,169
Expected credit losses (RMB'000)	1,176	10	1,186

### As at 31 December 2019

– US\$	<b>85,672</b>	34,863
Cash and cash equivalents	<b>416,730</b>	101,054

The RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. The bank balances are deposited with creditworthy banks with no recent history of default.

As at 31 December 2020, included in the Group's cash and bank balances were deposits of RMB393,581,000 (31 December 2019: RMB77,041,000), placed with TCL Finance Co., Ltd., a fellow subsidiary of the Company and a financial institution approved by the People's Bank of China. The interest rate for the deposits placed with TCL Finance Co., Ltd. was 0.35% (2019: 0.42%) per annum, being the savings rate offered by the People's Bank of China during the year. Further details of the interest income from the deposits in the related parties are set out in note 33 to the financial statements.

## 21. TRADE PAYABLES

An amount of RMB6,289,000 was transferred from the share option reserve to share premium account upon the exercise of the share options.)

## 27. SHARE AWARD SCHEME

On 17 March 2016 (the “Adoption Date”), the Board (for the purposes of the Share Award Scheme, defined below, also including such committee or such sub-committee or person(s) delegated with the power and authority by the board of directors of the Company to administer) resolved to adopt a restricted share award scheme (the “Share Award Scheme”) for the purpose of providing incentives to the participants under the Share Award Scheme. Pursuant to the terms of the Share Award Scheme, the Board may, from time to time, at its sole and absolute discretion, designate an award (“Award” and collectively “Awards”) to be made to a selected participant (“Selected Person” and collectively “Selected Persons”). Participants of the Share Award Scheme cover any employee, adviser, consultant, agent, contractor, client or supplier of any member of the Group and any employee or officer of any affiliated company whom the Board in its sole discretion considers may contribute or have contributed to the Group. Awards may be satisfied by (i) existing shares to be acquired by the trustee engaged by the Company for the purpose of administering the Share Award Scheme (the “Trustee”) from the market, or (ii) new shares to be allotted and issued to the Trustee by the Company (collectively “Awarded Shares”), in both case the costs of which will be borne by the Company, and will be held on trust by the Trustee for the Selected Persons until the end of each vesting period, subject to fulfilment of the vesting conditions (if any). The specific mandate for the issuance and allotment of new shares as Awarded Shares pursuant to the Share Award Scheme was approved by the shareholders of the Company at the special general meeting of the Company held on 11 May 2016 (the “Approval Date”). On 9 August 2017, the Share Award Scheme was amended by the Group, pursuant to which, the Board may accelerate the vesting of the unvested Awarded Shares for grantees on a date prior to the original vesting date and waive or alter any or all of the vesting conditions attached to such Awarded Shares.

Subject to the refreshment of the scheme limit and the adjustment in the event of consolidation or subdivision of shares, the Board shall not make any further award of Awarded Shares which will result in: (i) the aggregate number of the Awarded Shares granted under the Share Award Scheme exceeding 10% of the issued share capital of the Company as at the Adoption Date (i.e. 172,149,980 shares); and (ii) the aggregate number of the Shares held by public shareholders of the Company falling below the minimum percentage as prescribed under the Listing Rules. Unless otherwise approved by the shareholders of the Company, the aggregate number of new shares to be granted as Awarded Shares in each financial year shall not exceed 3% of the total number of issued shares of the Company as at the Approval Date (i.e. 51,644,994 shares) or the latest new approval date (i.e. latest date on which the relevant shareholders’ approval is obtained), as the case may be.

On 20 May 2016, the Company entered into a trust deed with BOCI-Prudential Trustee Limited whereby the company who appointed as Trustee.

On 17 March 2016, the Board resolved to conditionally grant Awards with new shares to certain grantees (the “Shares Grant A”) pursuant to the terms of the Share Award Scheme. This involves granting Awards in front of a total of 51,644,994 Awarded Shares being new shares to 97 Selected Persons. The Shares Grant A was subject to (i) the approval of the specific mandate for the issuance and allotment of new shares as Awarded Shares pursuant to the Share Award Scheme by the shareholders; and (ii) the approval by the listing committee of the Stock Exchange for the listing of, and permission to deal in, such new shares. The conditions were all fulfilled on 11 May 2016.

On 9 August 2017, the Board resolved to conditionally grant Awards in front of new shares to certain grantees (the “Shares Grant B”) pursuant to the terms of the Share Award Scheme. This involves conditionally granting Awards in front of a total of 44,813,829 Awarded Shares being new shares and 6,831,165 Awarded Shares being existing shares from the market to 145 Selected Persons, who are all employees, and 2 Selected Persons, who are all non-employees, respectively. Out of the 145 Selected Persons of the Shares Grant B, 4 are connected persons of the Company (the “Connected Grantees”) who are conditionally granted a total of 15,364,499 Awarded Shares being new Shares. The proposed Awards to such Connected Grantees constitute connected transactions and are therefore also subject to the approval by the independent shareholders, which has been obtained on 13 October 2017.

Unvested Awarded Shares do not confer rights on the holders to receive dividends or to vote at general meetings of the Company.

# NOTES TO FINANCIAL STATEMENTS

## 27. SHARE AWARD SCHEME (Continued)

Since the Adoption Date and up to 31 December 2020, 103,289,988 Shares in aggregate have been granted under the Share Award Scheme of the Company, of which 102,946,488 Shares had been vested, and 343,500 Shares had been forfeited.

During the year ended 31 December 2019, 1,710,704 shares of the originally vested Awarded Shares were returned by certain Selected Persons to the Company. Accordingly, an amount of RMB705,000 was charged to the Shares held for the Share Award Scheme.

During the reporting period, no Award Share has been granted, vested, cancelled, lapsed or deducted. Nor were there any outstanding Awards granted under the Share Award Scheme at the beginning and/or at the end of the reporting period.

## 28. SHARE OPTION SCHEME

The Company operates a share option scheme (the "Share Option Scheme") for the purpose of recognising and providing incentives and rewards to eligible participants who contribute to the success of the Group's operations, helping the Group in retaining its existing employees, recruiting additional employees and providing them with a direct economic interest in attaining the long-term business objectives of the Group. Eligible participants of the Share Option Scheme include employees of the Company or any of its subsidiaries (including any executive and non-executive director or proposed executive and non-executive director of the Company), adviser, consultant, agent, contractor, client or supplier of any member of the Group or any other person whom the Board in its sole discretion considers may contribute or have contributed to the Group. The Share Option Scheme became effective on 25 June 2015 and, unless otherwise terminated, will remain in force for 10 years from that date.

The total number of shares of the Company which may be issued upon exercise of all share options to be granted under the Share Option Scheme and any other schemes of the Company must not in aggregate exceed 10% of the shares of the Company in issue on the date of approval of each of the Share Option Scheme. The 10% limit may be refreshed with the approval by ordinary resolution of the shareholders. The maximum number of shares of the Company which may be issued upon exercise of all outstanding share options granted and yet to be exercised under the Share Option Scheme and any other schemes of the Company must not exceed 30% of the shares of the Company in issue from time to time. The maximum number of shares issued or to be issued upon exercise of share options granted to any one participant in a 12-month period shall not exceed 1% (or 0.1% for any substantive shareholder, independent non-executive director or other associates, see the paragraph below) of the issued shares of the Company.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time and with an aggregate value (based on the price of the Company's shares at the date of grant) in excess of HK\$5 million, within any 12-month period, are subject to shareholders' approval in advance in a general meeting.

The offer of a grant of share options may be accepted upon payment of a non-refundable nominal consideration of HK\$1.00 by each grantee. The Share Option Scheme does not specify any minimum holding period but the Board has the authority to determine the minimum period for which a share option in respect of some or all of the shares forming the subject of the share options must be held before it can be exercised. The exercise period of the share options granted is determinable by the directors, and commences on a specified date and ends on a date which is not later than ten years from the date of grant of the relevant share option.

# NOTES TO FINANCIAL STATEMENTS

31 December 2020

## 28. SHARE OPTION SCHEME (Continued)

The exercise price of a share option to subscribe for shares of the Company is determinable by the directors, but may not be less than the highest of (i) the closing price of the Company's shares on the Stock Exchange on the date of grant; (ii) the average closing price of the Company's shares on the Stock Exchange for the five trading days immediately preceding the date of grant; and (iii) the nominal value of the Company's shares.

Share options do not confer rights on the holders to receive dividends or to vote at general meetings of the Company.

The following share options were outstanding under the Share Option Scheme of the Company during the year:

	2020		2019	
	Weighted average exercise price HK\$ per share	Number of options '000	Weighted average exercise price HK\$ per share	Number of options '000
At 1 January	0.74	36,407	0.74	65,180
Exercised during the year	0.74	-	0.74	(27,399)
Forfeited during the year	0.74	(299)	0.74	(1,374)
At 31 December	0.74	36,108	0.74	36,407

The exercise price and exercise period of the share options outstanding at the end of 2020 are as follows:

### 31 December 2020

Date of grant	Number of options '000	Exercise price HK\$ per share	Exercise period
18 March 2016	36,108	0.74	18 December 2016 to 17 March 2022

The fair value of the share options granted during 2016 was RMB18,502,000 (HK\$0.28 each). During the year, 299,500 share options were forfeited, and the Group reversed the share option expense of RMB69,000 accordingly.

At the end of the reporting period, the Company had 36,107,986 share options outstanding under the Share Option Scheme which have not yet been exercised. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of 36,107,986 additional ordinary share of the Company and additional share capital of HK\$3,611,000 and share premium of HK\$23,109,000 (before issue expenses).

According to the scheme limit of the Share Option Scheme as refreshed at the annual general meeting held on 11 May 2016, the Company may further grant 172,149,980 share options, representing approximately 8.14% of the issued share capital of the Company as at 31 December 2020.

At the date of approval of these consolidated financial statements, the Company had 36,107,986 share options outstanding under the Share Option Scheme, which represented approximately 1.71% of the Company's shares in issue as at that date.

## 29. RESERVES

The amounts of the Group's reserves and the movements therein during the years ended 31 December 2020 and 2019 are presented in the consolidated statement of changes in equity on page 58 of the financial statements.

### Capital reserve

The capital reserve with the amount of RMB77,970,000 arose from the Reverse Takeover Transaction in 2015, the adjustment of CDOT Huizhou's legal capital to reflect the Company's legal capital, and the capital reserve with the amount of RMB290,000 arose from the contribution from a non-controlling shareholder.

### Statutory surplus reserve

In accordance with the PRC Company Law, the subsidiaries registered in the PRC are required to allocate 10% of its profit after tax to the statutory surplus reserve (the "SSR") until such reserve reaches 50% of its registered capital. Subject to certain restrictions set out in the PRC Company Law, part of the SSR may be converted to increase share capital of the subsidiaries registered in the PRC, provided that the remaining balance after the capitalisation is not less than 25% of the registered capital.

### Contributed surplus

Upon compliance with Section 4b(2) of the Companies Act 1981 of Bermuda, the annual general meeting had passed the resolution to cancel the amount standing to the credit of the share premium amount of RMB237,632,000 and to transfer the amount to the contributed surplus account in 2017. Adjustments have been made standing to the debit of the share premium account each time when the Company declared dividend since then.

## 35. FAIR VALUE MEASUREMENT

The carrying amounts and fair values of the Group's instruments, other than those with carrying amounts that reasonable approximate to fair values, are as follows:

	Carrying amounts		Fair values	
	2020	2019	2020	2019
	RMB'000	RMB'000	RMB'000	RMB'000
<b>Financial assets</b>				
Derivative financial instruments	836	624	836	624
<b>Financial liabilities</b>				
Other borrowings (other than lease liabilities)	24,000	24,000	22,012	22,176
Derivative financial instruments	831	491	831	491
	<b>24,831</b>	<b>24,491</b>	<b>22,843</b>	<b>22,667</b>

Management has assessed that the fair values of cash and cash equivalents, trade and bills receivables, trade payables, financial assets included in prepayments and other receivables, financial liabilities included in other payables and accruals, interest-bearing bank and other borrowings and bonds payable approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the finance director and the audit committee. At each reporting date, the finance department analyses the movements in the value of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the finance director. The valuation process and results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The Group enters into forward currency contracts with various counterparties. Derivative financial instruments are measured using valuation techniques similar to forward pricing and swap models, using present value calculations. The models incorporate various market observable inputs, including the credit quality of counterparties, foreign exchange spot and forward rates and interest rate curves. The carrying amounts of forward currency contracts are the same as their fair values.

The fair values of the other borrowings have been calculated by discounting the expected future cash flows using rates applicable for the instruments. The Group's own non-performance risk for the other borrowings as at 31 December 2020 was assessed to be insignificant.

## 36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise interest-bearing bank and other borrowings, bonds payable and cash and cash equivalents. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade and bills receivables and trade payables, which arise directly from its operations.

The main risks arising from the Group's financial instruments are foreign currency risk, market risk, credit risk and liquidity risk. The board of directors review and agree policies for managing each of these risks and they are summarised below.

### Foreign currency risk

The Group has transactional currency exposures. Such exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies. Approximately 24% (2019: 10%) of the Group's sales were denominated in currencies other than the functional currencies of the operating units making the sale, whilst approximately 9% (2019: 13%) of costs were denominated in currencies other than the units' functional currencies.

The following table demonstrates the sensitivity at the end of each year to a reasonably possible change in the US\$ exchange rate, with all other variables held constant, of the Group's profit before tax.

	Increase/ (decrease) in US\$ rate %	Increase/ (decrease) in profit before tax RMB'000
<b>31 December 2020</b>		
If RMB weakens against US\$	5	231
If RMB strengthens against US\$	(5)	(231)
<b>31 December 2019</b>		
If RMB weakens against US\$	5	4,765
If RMB strengthens against US\$	(5)	(4,765)

### Market risk

The Group's production process requires a significant amount of LCD, IC circuits and other materials, and the Group's success depends significantly on its ability to secure sufficient and constant supply of these principal raw materials for its production at acceptable price levels. LCD is the most significant raw material used in the Group's production. The Group does not have long-term, fixed-cost supply contracts of raw materials with its suppliers. Since many of the Group's sales are priced by reference to the market price at the time of a particular order, its exposure to the risk of changes in the price is reduced.

## 36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

### Credit risk

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

The credit risk of the Group's other financial assets, which mainly comprise cash and cash equivalents, financial assets included in prepayments and other receivables, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

Since the Group trades only with recognised and creditworthy third parties, there is no requirement for collateral. Concentrations of credit risk are managed by customer/counterparty, by geographical region and by industry sector. The Group had concentrations of credit risk as 82% (31 December 2019: 91%) of the Group's trade and bills receivables were due from the Group's five largest customers as at 31 December 2020.

Further quantitative data in respect of the Group's exposure to credit risk arising from trade receivables are disclosed in note 17 to the financial statements.

### Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December 2020. The amounts presented are gross carrying amounts for financial assets.

\* For trade receivables to which the Group applies the simplified approach for impairment, information based on the provision matrix is disclosed in note 17 to the financial statements.

\*\* The credit quality of the financial assets included in prepayments and other receivables is considered to be "normal" when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition. Otherwise, the credit quality of the financial assets is considered to be "doubtful".

## 36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

### Liquidity risk

The Group's policy is to maintain sufficient cash and cash equivalents and have available funding through capital contribution and financial support from related parties and bank borrowings.

The maturity profile of financial liabilities as at 31 December 2020, based on the contractual undiscounted payments, was as follows:

	Less than 1 year <i>RMB'000</i>	1 to 5 years <i>RMB'000</i>	Total <i>RMB'000</i>
<b>31 December 2020</b>

Bonds payable	8,959	–	8,959
	2,182,991	33,678	2,216,669

Taking into account the Group's financial position, the directors do not believe that it is probable that the bank will exercise its discretionary rights to demand immediate repayment. The directors believe that interest-bearing bank and other borrowings will be repaid in accordance with the scheduled repayment dates set out in the loan agreements.

## 36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

### Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2020 and 31 December 2019.

The Group monitors capital using a gearing ratio, which is net debt divided by capital plus net debt. Net debt is calculated as interest-bearing bank and other borrowings, trade payables, financial liabilities included in other payables and accruals, lease liabilities and bonds payable less cash and cash equivalents. Capital represents equity attributable to owners of the parent. The Group's policy is to keep the gearing ratio at a reasonable level. The gearing ratios at the end of the years are as follows:

	31 December 2020 RMB'000	31 December 2019 RMB'000
Trade payables	<b>1,391,274</b>	815,697
Other payables and accruals	<b>341,290</b>	340,019

Capital and net debt	<b>2,195,755</b>	2,728,987
Gearing ratio	<b>71%</b>	77%

## 37. TRANSFERS OF FINANCIAL ASSETS

### (a) Transferred financial assets that are not derecognised in their entity

As part of its normal business, the Group entered into trade receivable factoring arrangements and transferred certain trade receivables to banks for cash. In the opinion of the directors, the Group retained substantially all risks and rewards of the transferred trade receivables, and accordingly, it continued to recognise the full carrying amounts of the transferred trade receivables and the associated liabilities which were the collateralised bank advances. Subsequent to the transfer, the Group did not retain any rights on the use of the trade receivables, including the sale, transfer or pledge of the trade receivables to any other third parties.

At 31 December 2020, the Group discounted certain bills receivable to banks in exchange for cash (the “Discounted Bills”) with a carrying amount of RMB170,000,000 (31 December 2019: RMB1,272,222,000). In the opinion of the directors, the Group had retained the substantial risks and rewards, which include default risks relating to such Discounted Bills, and accordingly, it continued to recognise the full carrying amount of the Discounted Bills and the associated interest-bearing bank borrowings.

### (b) Transferred financial assets that are derecognised in their entity

The Group had endorsed certain bills receivable accepted by banks amounting to RMB9,235,000 to certain of its suppliers (the “Derecognised Bills”). The Derecognised Bills had a maturity of one to six months at the end of the reporting period. In accordance with the law of Negotiable Instruments in the PRC, the holders of the Derecognised Bills have a right of recourse against the Group if the PRC banks default (the “Continuing involvement”). In the opinion of the directors, the Group had transferred substantially all risks and rewards relating to the Derecognised Bills. Accordingly, it had derecognised the full carrying amounts of the Derecognised Bills and associated trade payables. The maximum exposure to loss from the Group’s Continuing Involvement in the Derecognised Bills and the undiscounted cash flows to repurchase these Derecognised Bills is equal to their carrying amounts. In opinion of the directors, the fair value of the Group’s Continuing Involvement in the Derecognised Bills is not significant.

During the year ended 31 December 2020, the Group had not recognised any gain or loss on the date of transfer of the Derecognised Bills. No gains or losses were recognised from the Continuing Involvement, both during the year or cumulatively.

The Company's contributed surplus represents the cancellation of the amount standing to the credit of the share premium and transferred to the contributed surplus account with effect from the resolution approved at the annual general meeting held on 22 June 2017. Pursuant to Bermuda company law, a company may make distributions to its members out of the contributed surplus in certain circumstances. Adjustments have been made standing to the debit of the share premium account each time when the Company declared dividend since then.

The share option reserve comprise the fair value of share options granted which are yet to be exercised, as further explained in the accounting policy for share-based payments in note 2.4 to the financial statements. The amount will be transferred to the share premium account when the related share options are vested and exercised.

## 40. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the board of directors on 5 March 2021.
