CHAIRMAN'S STATEMENT

I hereby present to the shareholders the annual report of Shenwan Hongyuan (H.K.) Limited (the "Company") and its subsidiaries (the "Group") for the year ended 31 December 2020.

RESULTS

For the year ended 31 December 2020, the Group recorded a profit before taxation of approximately HK\$209 million, representing an increase of 32% as compared with approximately HK\$158 million in 2019. Profit attributable to shareholders of approximately HK\$176 million, representing an increase of 29% as compared with approximately HK\$137 million in 2019. The turnover increased by 24% to approximately HK\$835 million (2019: HK\$676 million). The basic earnings per share in 2020 increased by 20% to HK11.25 cents as compared with HK9.37 cents in 2019.

DIVIDEND

The board of directors (the "Board") of the Company has resolved to recommend the payment of a final dividend of HK4 cents (2019: HK3 cents) per ordinary share in respect of 2020, to shareholders whose names appear on the register of members of the Company on 28 May 2021. The proposed dividend will be paid on or about 11 June 2021 subject to the approval of the shareholders at the forthcoming annual general meeting of the Company.

CHAIRMAN'S STATEMENT (Cont'd)

2020 MARKET REVIEW

From the perspective of global environment, one of the most important issues in 2020 has been the reshape of global economy under the impacts of COVID-19. On the one hand, global economy has been hit hard by COVID-19 pandemic whereas China was the first one among the major economies to recover from COVID-19 pandemic and the only one to achieve positive economic growth as a result of its effective infection prevention and control measures. On the other hand, central banks of the world have adopted aggressive-easing monetary policy successively in response to economic contraction, generating considerable momentum to global stock markets due to spilling of excess liquidity over in financial markets.

From the perspective of macro economy of Mainland China, following a drop of 6.8% in GDP growth recorded in the first quarter of 2020 under the impact of COVID-19 pandemic, China's economy returned to a growth track in the second quarter and achieved an annual economic growth rate of 2.3%, and its GDP topped RMB100 trillion for the first time. While global supply and demand was disrupted by COVID-19 pandemic, Mainland China has maintained rapid growth in net export which was the vital momentum for economic growth in 2020. In addition, the monetary policy and fiscal stimulus launched in response to COVID-19 pandemic have soared the number of public investment projects, whereas annual consumer spending was relatively weak. As seen in the trend pattern, various economic figures were moving back on the right track after being hit hard by COVID-19 pandemic in the first quarter of 2020.

Capital market in Mainland China increased considerably in 2020. In the first quarter of 2020, affected by the impacts of COVID-19 pandemic and the following turbulence in global financial market in March 2020, Shanghai Stock Exchange (SSE) Composite Index plunged to the bottom of 2020 in March and bounded back strongly afterwards, the overall average level moved upward evidently after July 2020, in particular the sectors of consumer goods and new energy.

Hong Kong market showed a strong structural performance in 2020. Hang Seng Index dropped by 3.4% for the year, while annual performance of the sectors of biotechnology, technology internet and consumer goods were outstanding. Southbound capital net inflow was HK\$672 billion, the record high level since the launch of the Stock Connect in 2014.

FUTURE PLANS & PROSPECTS

From the perspective of the global financial market environment, overseas monetary environment in 2021 may remain loose to bolster slow economic recovery. Progress of COVID-19 vaccination is vital to the pace of global economic recovery, and inconsistent progress of COVID-19 vaccination in each country may result in non-synchronized economic recovery. Also, the risk from potential rebound of US-dollar index shall not be neglected. As the valuation of global market in 2020 soared, recovery of corporate earnings may re-dominate the financial market in 2021.

In Mainland China, all economic figures get back on the right track after economic impact from COVID-19 pandemic and subsequent retaliatory rebound. Meanwhile, the stimulus policies launched at the early stage of COVID-19 pandemic may be gradually withdrawn in 2021. The performance of the A-share market in 2021 may highly hinge on corporate earnings, and whether performance growth catching up with the high valuation may become the focus of attention in the market afterwards.

CHAIRMAN'S STATEMENT (Cont'd)

FUTURE PLANS & PROSPECTS (Cont'd)

In Hong Kong, as an increasing number of new economy companies in China are listed in Hong Kong, the growth sectors will have increasing influence over the Hong Kong stock market. Southbound capital is expected to play a more important role in 2021, and asset pools of Hong Kong stocks favored by investors from Mainland China may continue to be the attention of the market as investment in Hong Kong stock market is open to more and more mutual funds, corporate pension schemes and subsidiaries of banks for wealth management in Mainland China. Additionally, cyclical sectors in Hong Kong stock market have performed well during the period of economic recovery, largely bolstering the performance of Hong Kong stock indexes in 2021.

In 2021, uncertainties about the COVID-19 pandemic remain, the Group will continue to closely monitor the development of the pandemic and promptly respond and adopt proactive development strategies to ensure stable growth of each of its business lines and further consolidate the performance of business transformation. 2021 marks the first year of the 14th Five-Year Plan, under the new "dual circulation" development pattern, the Group, as the most important business center and main execution platform for Shenwan Hongyuan Group's overseas and cross-border business based in Hong Kong, will integrate into the development of the Guangdong-Hong Kong-Macao Greater Bay Area (Greater Bay Area) and vigorously expand its cross-border business by fully leveraging the advantages and competitiveness of resources abroad. The Group will further optimise its asset-liability structure, improve its operation coordination capability, vigorously explore the integrated capital intermediary business towards institutional clients, optimise the wealth management business, strengthen product platform for asset management, leverage the resource advantages of domestic parent company, consolidate the competitive strategy of the "investment + investment bank", provide clients with integrated domestic and overseas corporate financial services, and strive to become an integrated financial services provider with international competitiveness.

During the year, Mr. Chen Xiaosheng resigned as Executive Director, Chairman of the Board, Chairman of the Nomination Committee and Chairman of the Executive Committee of the Company on 28 November 2020 as he required to devote more time to the business of Shenwan Hongyuan Securities Co., Ltd., a controlling and substantial shareholder of the Company. On behalf of the Board and all staff of the Group, I would like to express our heartfelt and tribute to Mr. Chen Xiaosheng for his contributions to the Group.

Fang Qingli Chairman

Hong Kong 19 March 2021

MANAGEMENT DISCUSSION & ANALYSIS

REVIEW OF OPERATIONS

In 2020, the Group continued to push forward its comprehensive business transformation strategy by enhancing professional level of each of its business lines and developing innovative business models, in an effort to facilitate coordination of its business lines and maximize the synergetic effects within the Group, as well as those with the parent company, so as to provide customers with all-inclusive integrated financial services. In spite of the impact of COVID-19 pandemic and fierce competition in the market, the Group has eagerly performed risk management well and optimized various management systems and infrastructures, made timely analysis on market changes and efficiently carried out prompt response measures, maintaining a stable development of its overall operation and achieving rapid growth in its performance.

In 2020, the total revenue of the Group increased by 24% year-on-year to HK\$835 million from HK\$676 million in 2019, which was mainly due to the substantial increase in the revenue generated from wealth management, institutional services and trading. Profit before taxation increased by 32% from HK\$158 million in 2019 to HK\$209 million. Profit attributable to shareholders increased by 29% from HK\$137 million in 2019 to HK\$176 million.

REVIEW OF OPERATIONS (Cont'd)

	2020		2019	
	HK\$'000	%	HK\$'000	%
Fee and commission income	304,444	36%	359,111	53%
Interest income	243,043	30%	151,119	22%
Net investment gains	287,830	34%	165,354	25%
	835,317	100%	675,584	100%

During the year under review, benefitting from the expansion in size of the trading portfolio of the fixed income trading business as well as the profitability of trading portfolio enhanced by well-established strategies, the Group recorded net investment gains of HK\$288 million, representing a year-on-year increase of 74%. Meanwhile, the scope of the financing and loans business has been expanded with additional interest income sources, leading to a year-on-year increase of 61% in interest income to HK\$243 million, whereas the fee and commission income dropped by 15% year-on-year to HK\$304 million, which was mainly attributable to the significant decrease in the fee and commission income of corporate finance business, as a result of the impact of COVID-19 pandemic.

The Wealth Management Business Line

The wealth management business line mainly provides a series of comprehensive financial services including securities, futures and options brokerage, the sale of financial products such as wealth management, over-the-counter, as well as securities margin financing to individual customers and non-professional institutional investors through a combination of online and offline methods.

	2020 HK\$′000	(Restated) 2019 HK\$'000	%
Fee and commission income Interest income Net investment gains	200,874 187,986 1,481	102,229 131,204 226	96% 43% 555%
	390,341	233,659	67%

In 2020, global economy saw challenges and obstacles brought about by COVID-19 pandemic, financial markets fluctuated unusually. Hong Kong stock market was buoyant owing to excess liquidity, improved macro-economic situation as a result of successful anti-pandemic efforts in Mainland China as well as initial public offering (IPO) of certain quality Chinese Concepts companies, and the average daily turnover of the Hong Kong stock market in 2020 was HK\$129.5 billion, representing an increase of 49% as compared with HK\$87.2 billion in 2019.

REVIEW OF OPERATIONS (Cont'd)

The Wealth Management Business Line (Cont'd)

The Group proactively responded to high volatility of the market resulting from COVID-19 pandemic during the year by adopting measures in full swing to ensure smooth business operation and grasping business opportunities from market focuses, further accelerating transformation of wealth management business and diversifying the portfolio and services of wealth management products, with an aim to elevate and enhance the professional service level of investment advisory, product management, marketing and promotion as well as customer services, and optimize the service system for mid-to-high end clients. Additionally, the Group has overcome the impacts of COVID-19 pandemic on its business expansion by improving online remote account opening channel and launching online marketing campaigns for wealth management, further strengthening its brand value and optimizing clients' experience, in an effort to satisfy clients' multi-layer demands for wealth management. During the year under review, revenue from wealth management business line increased significantly by 67% year-on-year to HK\$390 million, in which the fee and commission income increased by 96% year-on-year to HK\$201 million, and interest income increased by 43% to HK\$188 million.

The Group will continue to improve the construction of the wealth management platform by applying internet technology to update various trading platforms and facilities, and expand the service scope and enrich product lines to attract quality clients, with an aim to establish a professional system that offers high-net-worth clients integrated financial services. The Group will further enhance the flexibility of its margin financing business to meet different needs of various clients. By establishing a client demand-oriented service system, the Group aims to provide clients with comprehensive financial services to improve user experience and to expand integrated business by leveraging on the resources of its core clients, so as to further enhance the synergetic effects among its different business lines and promote business development.

Enterprise Finance Business Line

The enterprise finance business line consists of corporate finance business and investment business. Corporate finance business provides corporate clients with stock underwriting sponsor, bond underwriting and financial advisory services, while investment business mainly includes self-financing equity investment, debt investment and other investments.

	2020 HK\$'000	(Restated) 2019 HK\$'000	%
Fee and commission income Net investment gains	38,840 5,934	130,524 21,517	(70%) (72%)
	44,774	152,041	(71%)

REVIEW OF OPERATIONS (Cont'd)

Enterprise Finance Business Line (Cont'd)

In 2020, the sponsorship and underwriting business of the Group was affected by COVID-19 pandemic to a larger extent. However, such decrease in the sponsorship and underwriting business was offset by the strong growth in the debt capital market business benefitting from the abundant resources accumulation. During the year under review, the fee and commission income from the enterprise finance business line decreased by 70% year-on-year to HK\$38.84 million. In addition, the Group used its own funds to invest and recorded net investment gains of HK\$5.93 million.

Sponsorship and underwriting and financial advisory

During the year under review, a number of external factors postponed certain sponsorship projects of the Group or trimmed down the number of its sponsorship projects, resulting in a relatively considerable decrease in revenue from the business over 2019. However, the Group unwaveringly implemented its strategies on internationalization and domestic-overseas integration with the support of its parent company, forming a pool of sponsorship and underwriting projects with over 10 financial advisory projects newly launched and completed. The Group will actively increase reserves of sponsorship and underwriting projects and participate in more merger-and-acquisition related financial advisory projects. The Group will also strengthen collaboration with the domestic team of the parent company in order to increase the potential client coverage of corporate finance business.

Equity capital market

The equity capital market team continued to provide clients with comprehensive services during the year. The Group also actively deployed in selected key industries with increased quality of underwriting projects participated. The equity capital market team completed a total of 8 IPO underwriting projects during the year under review. The Group will further strengthen the construction of the equity capital market team and the underwriting placement network, and enhance the connection of client resources with domestic and overseas and internal business teams.

Debt capital market

Benefitting from the solid foundation laid in 2019, the Group completed a total of 23 bond issuance projects during the year under review, including 11 local government financing vehicles (LGFVs), 8 real estate projects and 4 industry-related projects which raised US\$2.091 billion, US\$1.743 billion and US\$0.52 billion for clients, respectively. To respond to the changing overseas market, the Group will vigorously explore overseas bond issuance projects for quality enterprises, such as large-scale government-controlled enterprises and state-owned conglomerates, attempting to expand its market share. In the meantime, the Group will continue to recruit talents to keep on expanding such important business, the debt capital market.

REVIEW OF OPERATIONS (Cont'd)

Institutional Services and Trading Business Line

The institutional services and trading business line mainly provides one-stop integrated financial services for institutional clients, such as brokerage and trading of global markets, sales and trading of fixed income bonds, currencies and commodities, research advisory, and investment and financing solutions. It also uses its own funds or acts as a counterparty to institutional clients to engage in the trading of fixed income bonds, currencies and commodities, equity and equity-linked securities, and provides sales, trading, hedging and over-the-counter derivative services to institutional clients.

	Fee	and

	52,517	104,961	55,057	19,915	280,415	143,611	387,989	268,487	45%

Global market was highly volatile in the first half of 2020, in particular March, due to the impacts of, among others, COVID-19 pandemic, and price of major risk assets in the world, such as stocks and credit debts, plummeted. Subsequently, performance of global major stock markets and China US-dollar bonds rebounded amid volatility. During the period from September to November 2020, instability in credit market of Mainland China adversely affected the performance of China US-dollar bonds, particularly high-yield bonds, to a certain extent, though the market headed back on upward track at the end of 2020. In the face of a volatile market, the Group continued to step up its efforts in the institutional services and trading business, including stock sales in secondary market, fixed income sales and trading and structured products, driving a revenue of HK\$388 million, representing an increase of 45% year-on-year.

In terms of the fixed income sales and trading business, the Group expanded its trading portfolio from approximately HK\$2.2 billion in the end of last year to approximately HK\$3.4 billion with a stable profit growth through prudent strategies and flexible hedging approaches during the year under review. Apart from the traditional credit bonds trading, the Group actively facilitates the sales of structured products, endeavoring to further expand its business scope to cover equity-linked derivatives and structured products in addition to the existing fixed income-linked products. In addition to the above products and business, the Group will also keenly promote the business of interest rate and foreign exchange derivatives.

REVIEW OF OPERATIONS (Cont'd)

Institutional Services and Trading Business Line (Cont'd)

In terms of stock sales and trading business, the Group has restructured the institutional sales team and put an advanced high-end trading system into full operation after the transition completed, and such system comprehensively improves the service quality for institutional clients from transaction stability, algorithmic trading and electronic transactions. In addition, the sales team of institutions has laid a solid foundation for the further development of overseas stock business by expanding service coverage of overseas market trading business. The Group will continue to seize the opportunity of international investors' capital inflows under the opening up of the A-share market and capture the opportunities arising from the secondary listing of the Chinese Concepts stocks on the Hong Kong stock market, so as to provide institutional clients with more diversified and richer equity trading services.

Asset Management Business Line

The asset management business line mainly provides public fund management, private fund management, investment advisory and entrusted discretionary managed account services.

	2020 HK\$'000	2019 HK\$′000	%
Fee and commission income	12,213	21,397	(43%)

Due to the changes in regulatory policies and the demand for Hong Kong asset management business of Chinese securities firms, coupled with the serious impact on the traditional Chinese cross-border asset management business brought by the cost advantage of foreign banks due to the decreasing Libor rate, the development of the cross-border asset management business was hindered to a certain extent. Moreover, the promulgation of some new policies and regulations, such as the forthcoming mutual recognition of bank wealth management, will also shake up the competitive landscape of the Hong Kong asset management sector. During the year under review, the Group repositioned its asset management business line to expedite optimization and business model transformation by eagerly exploring the development path of differentiation with unique features. In the second half of 2020, the Group made a breakthrough in cross-border and actively managed products and received positive market response on a number of innovative products newly launched, achieving significant growth in the size of assets under management.

The Group continued to proactively push forward the transformation into active management for the fixed income and quasi-fixed income sectors. Taking Hong Kong as a center of operation and leveraging on the development of the Greater Bay Area, the Group also actively knocked through various types of sales channel to expand the size of assets under management. The Group will seize the market opportunities, explore business potential, optimize operating mechanism, improve management efficiency and coordinate with other business lines, make good use of the advantages of cross-border business, and place an emphasis on developing actively managed products, so as to meet the needs of clients from different markets.

CAPITAL STRUCTURE

As at 31 December 2020, the total number of the issued ordinary shares was 1,561,138,689 shares and total equity attributable to ordinary equity holders was approximately HK\$4.04 billion (31 December 2019: HK\$3.92 billion).

LIQUIDITY, FINANCIAL RESOURCES AND GEARING RATIO

As at 31 December 2020, the Group had a cash holding of HK\$415 million (2019: HK\$938 million) and financial assets at fair value through profit or loss of HK\$3,618 million (2019: HK\$2,189 million). As at 31 December 2020, the Group's total unutilised banking facilities amounted to HK\$4,417 million (2019: HK\$3,523 million), of which HK\$4,417 million (2019: HK\$1,523 million) could be drawn down without the need of notice period or completion of condition precedent.

As at 31 December 2020, the Group had outstanding short-term bank borrowings amounting to HK\$4,272 million (2019: HK\$779 million). The liquidity ratio (current assets to current liabilities) and gearing ratio (borrowings to net asset value) as at 31 December 2020 were 125% (2019: 153%) and 106% (2019: 20%) respectively.

The Group has sufficient financial resources for its day to day operations as well as spare capacity to take advantage of any investment opportunities when they arise.

SIGNIFICANT INVESTMENT HELD, MATERIAL ACQUISITION AND DISPOSAL

During the year, the Group did not hold any significant investment and did not have any material acquisition or disposal.

CHARGES ON THE GROUP'S ASSET

No asset of the Group was subject to any charge as at 31 December 2020.

RISK MANAGEMENT

The Group has properly put in place credit management policies which cover the examination of the approval of clients' trading and credit limits, regular reviews of facilities granted, monitoring of credit exposures and the follow up of credit risks associated with overdue debts. The policies are reviewed and updated regularly.

The management closely monitors the market condition so that precautionary measures will be taken to eliminate any risk that the Group may encounter. As at 31 December 2020, the advances to customers were overdue accounts receivable from cash clients and margin financing.

As at 31 December 2020, the balance of overdue accounts receivable from cash clients and margin financing amounted to HK\$28 million (2019: HK\$32 million) and HK\$2,356 million (2019: HK\$873 million), respectively.

27% (2019: 25%) of margin financing was attributable to corporate customers with the rest attributable to individual customers.

EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATES AND ANY RELATED HEDGES

The Group's exposure to fluctuations in exchange rates arises from its dealings in overseas share markets. Such dealings are entered into on behalf of clients of the Group and accounted for a small portion of the Group's revenue. A material portion of such overseas transactions is denominated in United States dollars and Renminbi. The pegged exchange rate between United States dollars and Hong Kong dollars kept the Group's exchange risk exposure to a minimum and thus, no hedging was required. Exchange gains and/or losses are dealt with in the consolidated statement of profit or loss. The Group has endeavored to closely monitor its foreign currency positions and take measures when necessary.

CONTINGENT LIABILITIES

There were no material contingent liabilities as at 31 December 2020.

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

Except the future plans as disclosed in the paragraph of "Future Plan & Prospects" under the section headed Chairman's Statement, the Group had no other future plans for material investments or capital assets as at 31 December 2020.

EMPLOYEES

As at 31 December 2020, the total number of full-time employees was 269 (2019: 274). The total staff costs for the year amounted to approximately HK\$280 million (2019: HK\$250 million).

CORPORATE SOCIAL RESPONSIBILITY REPORT

In 2020, the Group adopted a series of environmental-friendly measures in the workplace and served the community through organising and participating in various charitable activities to demonstrate our commitment to corporate social responsibility.

The following disclosures are made pursuant to Appendix 27, Environmental, Social and Governance Reporting Guide, of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") covering the general disclosures and key performance indicators in respect of two environmental, social and governance subject areas: Environmental (Subject Area A) and Social (Subject Area B) of the Company for the period from 1 January 2020 to 31 December 2020.

ENVIRONMENTAL

Environmental Performance

In 2020, the Group committed to manage its operations in an efficient and sustainable manner, and we continually look for opportunities to improve our environmental performance by reducing our use of energy and other resources.

Environmental Impacts

As a financial services institution, our direct environmental impacts mainly resulted from the energy use and associated green house gas (GHG) of our offices and branches in Hong Kong region. Other key environmental impacts resulted from the use of company car, paper consumption and disposal of information technology (IT) equipment.

Greenhouse Gas Emissions Reduction and Energy Saving

Our Group generates GHG indirectly through electricity consumption to operate our facilities. We have committed to reduce our GHG emissions by improving our operational efficiency. In 2020, the direct GHG emissions generated by the Group's company car amounted to 4.94 tonnes of carbon dioxide¹ and indirect GHG emissions generated by the Group's electricity consumption and paper consumption (Hong Kong business) amounted to 691.78 tonnes of carbon dioxide¹.

Energy consumption accounts for a major part of the Group's GHG emissions. Various energy saving measures were implemented in 2020 to improve operational efficiency and to reduce energy consumption of the Group. Further to the energy saving measures of 2019, the Group continued to adopt high energy efficient office equipment in our workplaces.

Calculated on the basis of the "Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for buildings in Hong Kong", as drawn up by the Electrical and Mechanical Services Department and the Environmental Protection Department.

ENVIRONMENTAL (Cont'd)

Sustainable Paper Use

The Group continued to use paper that is independently certified as sourced from sustainably managed forests. In 2020, approximately 99% of the sustainably certified paper purchased by our Group was maintained. In addition, the Company continued to use the FSC (Forest Stewardship Council) certified printing paper for the production of its corporate communications, such as annual reports, interim reports, circulars, etc.

The Group continued to strive to reduce the use of paper by offering paperless billing options for customers and has continued to implement smart printing and photo-copying methods in our workplaces as well as arrangements with vendors to recycle used papers in Hong Kong.

In 2020, the Group was once again awarded the "Wastewise Certificate" designation by the Hong Kong Green Organisation Certification in recognition of our continuous effort to reduce the generation of office waste.

Managing IT Equipment

The use and disposal of IT equipment such as computers and servers is another focus of our operational sustainability efforts. IT hardware has a range of potential environmental impacts across its life cycle from production and use to eventual disposal. The Group has again committed to extend the lifespan of IT equipment by donating the unused equipment to non-profit making organisations. All IT equipment we recycled or donated has passed our strict data security tests.

Hazardous waste

No hazardous waste was generated in connection with the Group's business.

Plans for 2021

- To further reduce electricity consumption by implementing additional energy saving measures.
- To further recycle the used paper by encouraging the staff to collect the used paper.
- To continue to join charitable events, including donating books or clothes to charities for helping people in need as well as environmental purpose.

ENVIRONMENTAL (Cont'd)

Environmental Performance Summary¹

Emissions²

Indicators	2020	2019
Total GHG emissions ³ (Scope 1 and 2) (tonnes)	657.94	615.68
Total GHG emissions (Scope 1 and 2) per unit floor area (tonnes/m ²)	0.146	0.137
Total GHG emissions (Scope 1 and 2) per employee (tonnes/employee)	2.45	2.24
Total GHG emissions (Scope 1, 2 and 3) (tonnes)	696.72	649.57
Total GHG emissions (Scope 1, 2 and 3) per unit floor area (tonnes/m ²)	0.155	0.144
Total GHG emissions (Scope 1, 2 and 3) per employee (tonnes/employee)	2.59	2.36
Direct GHG emissions (Scope 1) (tonnes) Company car Indirect GHG emissions (Scope 2) (tonnes) Electricity	4.94 653	14.68
Indirect GHG emissions ⁴ (Scope 3) (tonnes) Paper consumption	38.78	33.89
GHG emissions avoided by recycling of paper (tonnes)	9.44	8.88

- 1. Unless otherwise specified, the environmental data covers the Group's operation in Hong Kong region only.
- 2. Due to the Group's business nature, the most significant airborne emissions are GHG emissions, arising mainly from the use of electricity and fuels derived from fossil fuels.
- 3. GHG emissions data is presented in carbon dioxide equivalent and was based on the reporting requirements of the "Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings (Commercial, Residential or Institutional Purposes)" issued by the EMSD and the EPD in Hong Kong.
- 4. The Group currently does not report on emission data relating to air travel. We plan to disclose this information in future reports.

ENVIRONMENTAL (Cont'd)

Environmental Performance Summary¹ (Cont'd)

Energy Consumption²

Indicators	2020	2019
Total energy consumption ³ (MWh)	955.8	925.8
Total energy consumption per floor area (MWh/m²)	0.21	0.21
Total energy consumption per employee (MWh/employee)	3.55	3.37
Direct energy consumption (MWh) Unleaded petrol	22.6	67.1
Indirect energy consumption (MWh) Electricity	933.2	858. <i>7</i>

Paper Consumption

Indicators	2020	2019
Total paper consumption ⁴ (tonnes)	8.08	8.07
Office paper	7.04	7.06
Paper for financial statement printing	1.04	1.01
FSC certified paper used (%)	99	98

Water Consumption

In Hong Kong, the Group operates in leased office premises in which both the water supply and discharge are solely controlled by the building management offices which considers the provision of water withdrawal and discharge data or sub-meter for individual occupant not feasible.

- 1. Unless otherwise specified, the environmental data covers the Group's operations in Hong Kong region only.
- 2. Energy consumption data is based on the amount of electricity and fuels consumed.
- 3. Energy consumption is calculated in megawatt-hours, or MWh.
- 4. Includes paper used for printing customer financial statements, proposals and office documents.

SOCIAL

Employment and Labour Practices

(a) Employment

The Group maintains policies for the recruitment, compensation, promotion and training of staff. Pay surveys are conducted periodically by independent consultants appointed by the Group to maintain the Group's competitiveness in the market. With reference to market conditions, the Group will formulate relevant and proper remuneration and incentive plans to attract and retain talent. The Group supports equal opportunities and recruits competent candidates globally.

The Group was awarded the "Family-Friendly Employers" designation by the Family Council in recognition of our value and continues to provide a pro-family culture and environment to our employees.

(b) Health and Safety

The Group is committed to providing a healthy and appropriate workplace for employees. We conducted an assessment on our offices with regard to the "Code of Practice for Working with Display Screen Equipment" in order to ensure compliance with the "Occupational Safety and Health (Display Screen Equipment) Regulations".

(c) Development and Training

Development and training is an ongoing process to ensure the continued enhancement of the skills and knowledge of employees. The Group has training policies and organises various training programmes to improve the skills of its employees and to increase the professionalism and efficiency of the Group. Employees are provided with on-the-job training throughout their employment with the Group. The Group also has policies for employee development. In compliance with the requirements of the Securities and Futures Commission of Hong Kong, the Group organised a total of 20 Continuous Professional Training seminars for all licensed staff members for the year ended 31 December 2020.

(d) Labour Standards

To maintain good employee relations, the Group is committed to providing a workplace free from discrimination and harassment in any form and to providing equal opportunities for all employees. All employees are made aware of the Group's employment policies and guidelines, which are in compliance with relevant laws and regulations. Staff regulations, employment terms and staff benefits can be accessed by all staff members in the Human Resources Manual put on the Group's intranet.

SOCIAL (Cont'd)

Operating Practices

(a) Supply Chain Management

The Group selects reliable vendors, agencies and third party financial institutions, collectively "suppliers", to support its business operations, and is committed as much as possible to conduct business only with suppliers that act in a socially responsible manner and within ethical expectations. The Group will take into account, among other things, reputation, track record of high corporate standards, expertise and capacity in the process of selecting the qualified supplier. In addition, appropriate management approvals is required to obtain before entering into any contract with a supplier. Such procedures aim at promoting operational efficiency, improving segregation of duties and making the best decision.

Moreover, in order to reduce the negative impacts on the environment and society, the Group will purchase and use more sustainable and efficient products and services. For example, we will procure the electrical appliances with higher energy efficiency and eco-friendly toner cartridges. Those suppliers with environmental certifications or caring company qualifications will win priority consideration.

(b) Product Responsibility

During the year, the Group was not aware of any incidents of non-compliance with relevant regulations and codes concerning advertising and privacy matter for the provision and use of the Group's products and services.

The Group has in place procedures relating to the services and products provided. To suit the client's needs, the financial services or products provided to clients are based on their financial background, trading experience and risk tolerance level after the "Know Your Clients" procedures and assessment processes were performed. We are committed to provide clear and balanced information to clients. Product features, terms and conditions, and any associated risks are clearly communicated to ensure clients can make an informed decision. Moreover, the Group has set standards for advertising and sales literature which require information contained in all advertising and sales literature must be factual and which prohibit the use of false, misleading or inaccurate statements in any form of communication.

In addition, the Group emphasises the importance of protecting the privacy of its clients and complies with the provisions of the Personal Data (Privacy) Ordinance in the collection, processing and use of client's personal data. Specific processes for the handling and protection of client data are set out in the relevant internal procedure manual. The Group will, where appropriate, include terms about the confidentiality of client data to avoid disclosure of client information and protect client privacy. During the year, the Group did not receive complaints from clients in relation to disclosure of information.

The Group has established policies to provide guidance to customer complaints handling procedures. At present, the Compliance Department is responsible for handling customer complaints.

SOCIAL (Cont'd)

Operating Practices (Cont'd)

(c) Anti-corruption

The Group maintains and effectively implements a comprehensive system of internal control and stringent policies, which include Compliance Manual and Employee Whistleblowing Procedures on Financial Reporting and Internal Control Improprieties, for anti-corruption and anti-fraud, and is committed to promoting integrity and preventing unethical behaviour. We encourage the reporting of suspected business irregularities by providing easily accessible channels specifically for this purpose.

When suspected wrongdoings are identified, such as breach of duty, abuse of power, receiving bribes, staff can report to the Chairman of Audit Committee or Head of Internal Audit for investigation and resolution. The Internal Audit Department will then carry out an investigation and verification, and report to the regulator or law enforcement authority when considered necessary.

Moreover, the Group has policy sets forth procedures for client's acceptance by conducting "Know Your Clients" procedures to understand the background and financial status of the clients. We will perform name searches to check whether a client is or is related to a politically exposed person who may present a higher bribery and corruption risk. Procedures are put in place to identify and mitigate the aforementioned risks. Clients will be refused of our services when considered to be suspicious.

The Group is committed to adhering to the highest ethical standards. During the year, no significant risks relating to corruption were identified. There were no confirmed incidents of corruption or public legal cases brought against the Group or its employees concerning corruption. The Group will continue to comply with ethical requirements and upholds its reputation to prevent corruption.

Community Investment

In terms of community involvement, the Group is committed to contributing to the community and fulfilling its corporate social responsibility undertakings. We support long-term community investment by establishing community partnerships and encouraging our employees to participate in volunteer services. In 2020, the Group continued its cooperation with the Chinese Young Men's Christian Association (YMCA) of Hong Kong during the COVID-19 epidemic, participated in various charitable and care activities, including donating face masks to the children from low-income families and applying antivirus coating spray for low-income subdivided unit households.

We hope not only to help people in need through our social activities, but also to cultivate in our employees the spirit of care and community contribution.

This year, the Group was once again awarded the "5 Years Plus Caring Company" designation by the Hong Kong Council of Social Service in recognition of our approach and continuous contribution to the community.

CORPORATE GOVERNANCE REPORT

To better the Company's transparency and accountability to the shareholders, the Company is, so far as practicable, committed to maintaining high standard of corporate governance. Save for the deviation from the Code Provision A.6.7 which is explained below, the Company has met all the code provisions stipulated in Appendix 14, Corporate Governance Code and Corporate Governance Report (the "Code"), of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") for the year ended 31 December 2020.

Code Provision A.6.7 specifies that independent non-executive directors and other non-executive directors should attend general meetings to gain and develop a balanced understanding of the views of shareholders. Due to other commitments at that relevant time, a non-executive director and an independent non-executive director of the Company were unable to attend the annual general meeting of the Company held on 22 May 2020.

CORPORATE GOVERNANCE PRINCIPLES AND SHENWAN HONGYUAN'S PRACTICES:

A.1 The Board of Directors

Principle: An issuer should be headed by an effective board which should assume responsibility for its leadership and control and be collectively responsible for promoting its success by directing and supervising its affairs. Directors should take decisions objectively in the best interests of the issuer.

The board should regularly review the contribution required from a director to perform his responsibilities to the issuer, and whether he is spending sufficient time performing them.

Four board meetings and one general meeting, being the annual general meeting held on 22 May 2020, were held by the Company in the financial year ended 31 December 2020. Attendance record of each individual director is as follows:

Name of Directors	Number of board meeting(s) attended/held	Number of general meeting(s) attended/held	
Executive Directors	'		
Chen Xiaosheng (Chairman)			
(resigned on 28 November 2020)	4/4	1/1	
Fang Qingli (Chairman)			
(appointed on 28 November 2020)	N/A	N/A	
Guo Chun (Deputy Chairman)	4/4	1/1	
Zhang Jian	4/4	0/1	
Wu Meng	4/4	1/1	
Qiu Yizhou (Chief Executive Officer)	4/4	1/1	
Non-executive Director			
Zhang Lei	3/4	0/1	
Independent Non-executive Directors			
Ng Wing Hang Patrick	4/4	1/1	
Kwok Lam Kwong Larry	4/4	1/1	
Chen Liqiang	4/4	0/1	

Drafts of the agenda were sent to directors for comments before the meetings were held. They could include matters in the agenda for board meetings.

Notice of at least 14 days were given of a regular board meeting to give all directors an opportunity to attend. For all other board meetings, reasonable notice was given.

Minutes of the board meetings, and meetings of the Audit Committee, the Remuneration Committee, the Nomination Committee and the Risk Committee are kept by the Company Secretary. Minutes of other board committees (as listed under D.2 Board Committees) are kept by the appointed Secretary of each committee. Such minutes are open for inspection during office hour by any director by giving at least 2 days' notice to the Company Secretary.

Minutes of the board meetings and meetings of board committees have recorded in sufficient detail the matters considered and decisions reached, including any concerns raised by directors or dissenting views expressed. Draft and final versions of minutes were sent to all directors for their comment and records respectively, normally within one month after the board meeting was held.

The Company established a policy for any director to seek independent professional advice in appropriate circumstances, at the Company's expenses. The director is required to submit a request in writing to the Chairman stating the grounds for seeking the independent professional advice. The Chairman shall either approve the director's request directly, or if thinks fit, convene a board meeting to resolve the matter.

If a substantial shareholder or a director has a conflict of interest in a matter to be considered by the Board which the Board has determined to be material, the matter shall be dealt with by a physical board meeting rather than a written resolution. Independent non-executive directors who, and whose close associates, have no material interest in the transaction should be present at that board meeting.

The Company has arranged appropriate insurance cover in respect of legal actions against its directors. The coverage and the amount insured under such policy are reviewed annually by the Company.

A.2 Chairman and Chief Executive

Principle: There are two key aspects of the management of every issuer — the management of the board and the day-to-day management of business. There should be a clear division of these responsibilities to ensure a balance of power and authority, so that power is not concentrated in any one individual.

To ensure a balance of power and authority, the role of Chairman is separate from that of Chief Executive Officer. Mr. Chen Xiaosheng acted as the Chairman until he resigned on 28 November 2020 and was succeeded by Mr. Fang Qingli since then. Mr. Guo Chun acts as Deputy Chairman and Mr. Qiu Yizhou acts as Chief Executive Officer.

The respective responsibilities of the Chairman, Deputy Chairman and Chief Executive Officer are clearly established. The Chairman is responsible for providing leadership for and the management of the Board, the Deputy Chairman is responsible to assist the Chairman in leading and managing the Board whilst the Chief Executive Officer is responsible for the day-to-day management of the Group's business including the implementation of significant strategies formulated by the Board.

The Chairman ensured that all directors were properly briefed on issues arising at board meetings.

The Chairman is responsible for ensuring that directors receive, in a timely manner, adequate information which must be accurate, clear, complete and reliable.

The Chairman ensured that the Board works effectively and performs its responsibilities, and that all key and appropriate issues are discussed by it in a timely manner. The Chief Executive Officer and Company Secretary assisted the Chairman in preparing agenda for each board meeting and all directors have been consulted about any matters proposed for inclusion in the agenda.

The Chairman ensured that the Board and the management of the Company are committed to the maintenance of good corporate governance practices and procedures.

Directors are encouraged to express their viewpoints to the Board's affairs and voice their concerns, if any, and are provided sufficient time for discussion of issues in the meetings and the Chairman directs discussions towards the emergence of a consensus view and then sum up discussions so that all directors understand what has been agreed.

During the financial year ended 31 December 2020, the Chairman held a meeting with the independent non-executive directors without the presence of other directors.

The Chairman ensured that appropriate steps are taken to provide effective communication with shareholders and that their views were communicated to the Board as a whole. The Board has established a shareholders communication policy which is available on the Company's website.

A.3 Board Composition

Principle: The board should have a balance of skills, experience and diversity of perspectives appropriate for the requirements of the issuer's business. It should ensure that changes to its composition can be managed without undue disruption. It should include a balanced composition of executive and non-executive directors (including independent non-executive directors) so that there is a strong independent element on the board, which can effectively exercise independent judgement. Non-executive directors should be of sufficient calibre and number for their views to carry weight.

During the financial year, the composition of the Board of the Company with their respective names and titles are set out below:

Executive Directors

Chen Xiaosheng (Chairman) (resigned on 28 November 2020)
Fang Qingli (Chairman) (appointed on 28 November 2020)
Guo Chun (Deputy Chairman)
Zhang Jian
Wu Meng
Qiu Yizhou (Chief Executive Officer)

Non-executive Director

Zhang Lei

Independent Non-executive Directors

Ng Wing Hang Patrick Kwok Lam Kwong Larry Chen Liqiang

All directors were expressly identified by categories of executive directors, non-executive directors and independent non-executive directors in all corporate communications that disclose the names of directors of the Company.

An updated list of the directors of the Company identifying their role and function and whether they are independent non-executive directors is maintained on the websites of the Hong Kong Exchanges and Clearing Limited ("HKEx") and the Company.

To the best knowledge of the directors, none of the directors has any financial, business, family or other material/relevant relationship with each other.

A.4 Appointments, Re-election and Removal of Directors

Principle: There should be a formal, considered and transparent procedure for the appointment of new directors. There should be plans in place for orderly succession for appointments. All directors should be subject to re-election at regular intervals. An issuer must explain the reasons for the resignation or removal of any director.

All directors (including non-executive directors and independent non-executive directors) are appointed for a specific term, subject to retirement by rotation at least once every three years.

According to the Articles of Association of the Company, at each annual general meeting, one-third of the Directors for the time being or, if their number is not three or a multiple of three, then number nearest to but not less than one-third, shall retire from office by rotation, provided that every director shall be subject to retirement by rotation at least once every three years. Further, any director newly appointed shall hold office only until the first general meeting of the Company after his appointment and shall then be eligible for re-election.

The Board can appoint new director(s) either to fill a casual vacancy or as an addition to the Board between general meetings. Nomination Committee will make recommendation to the Board on such matter (see A.5 below). The director so appointed, however, shall retire and eligible to be re-elected in the coming general meeting. In addition, shareholder can also propose a candidate for election as director at a general meeting in accordance with the Articles of Association of the Company. The nomination procedures by shareholders are published on the website of the Company. All successful candidates must possess the necessary skills, knowledge and experience which can help the Board to direct the Company's business. In addition, all candidates must be able to meet the criteria stipulated in Rules 3.08 and 3.09 of the Listing Rules. A candidate who is to be appointed as an independent non-executive director should also meet the independence criteria set out in Rule 3.13 of the Listing Rules. To further enhance accountability, any further appointment of an independent non-executive director who has served the Board for more than 9 years will be subject to a separate resolution to be approved by shareholders.

A.5 Nomination Committee

Principle: In carrying out its responsibilities, the nomination committee should give adequate consideration to the Principles under A.3 and A.4.

The Nomination Committee of the Company was established in March 2012. The functions of the Nomination Committee are mainly to review the structure, size and composition (including the skills, knowledge, experience and diversity of perspective) of the Board, to identify individuals suitably qualified to become board members and select or make recommendations to the Board on the selection of individuals nominated for directorships, to assess the independence of independent non-executive directors, to make recommendations to the Board on the appointment or re- appointment of directors and succession planning for directors as well as to monitor the implementation of the Board Diversity Policy and review the Board Diversity Policy, as appropriate. Details of terms of reference of the Nomination Committee are published on the websites of HKEx and the Company.

The Nomination Committee comprises the Chairman of the Company, Mr. Chen Xiaosheng until he resigned on 28 November 2020 and was succeeded by Mr. Fang Qingli since then, and three independent non-executive directors, namely Mr. Ng Wing Hang Patrick, Mr. Kwok Lam Kwong Larry and Mr. Chen Liqiang. Mr. Chen Xiaosheng acted as the chairman of the Nomination Committee until he resigned on 28 November 2020 and was succeeded by Mr. Fang Qingli since then.

The Nomination Committee held two meetings in the financial year ended 31 December 2020. The following is an attendance record of the meeting held by the Nomination Committee for the financial year:

Name of Committee Members	Number of meeting(s) attended/held
Chen Xiaosheng (Chairman) (resigned on 28 November 2020)	2/2
Fang Qingli (Chairman) (appointed on 28 November 2020)	N/A
Ng Wing Hang Patrick	2/2
Kwok Lam Kwong Larry	2/2
Chen Liqiang	2/2

During the financial year, the Nomination Committee reviewed the structure, size, composition and diversity of the Board; assessed the independence of each independent non-executive director; made recommendation to the Board on the re-election of the retiring directors at the 2020 annual general meeting; and considered and made recommendation to the Board on the appointment of Mr. Fang Qingli as Executive Director, Chairman of the Board, Chairman of the Nomination Committee and Chairman of the Executive Committee of the Company to succeed Mr. Chen Xiaosheng.

The Nomination Committee was provided with sufficient resources to perform its duties and it can seek independent professional advice at the Company's expense if necessary.

The Company adopted the Board Diversity Policy which sets out the approach to achieve diversity on the Board. When determining the composition of the Board, it will take into consideration a number of factors, including but not limited to, skills, knowledge, professional experience, gender, age, cultural and educational background, and other qualities of Directors. All Board appointments will be made on a merit basis and candidates will be considered against objective criteria, with due regard for the benefits of diversity on the Board. The Nomination Committee will monitor the implementation of the Board Diversity Policy and review the Board Diversity Policy, as appropriate, to ensure its effectiveness.

In addition, the Company also adopted the Director Nomination Policy which sets out the key selection criteria and procedures of the Nomination Committee in making any recommendations to the Board on the appointment or re-appointment of directors and succession planning of directors with a view to ensuring that the Board maintains a balance of skills, experience and diversity of perspective appropriate to the requirement of the Company's business. In assessing the suitability of a proposed candidate, the Nomination Committee will consider a number of factors which include the proposed candidate's integrity, skills, experience and diversity of perspective, time commitment, and independence. The Director Nomination Policy also lays down the following nomination procedures for (i) appointment of new or replacement Director; (ii) re-election of Director at general meeting; and (iii) nomination of new director by shareholders.

A.6 Responsibilities of Directors

Principle: Every director must always know his responsibilities as a director of an issuer and its conduct, business activities and development. Given the essential unitary nature of the board, non-executive directors have the same duties of care and skill and fiduciary duties as executive directors.

Every newly appointed director of the Company shall receive guidance materials from the Company Secretary upon his appointment so as to enable the director having a proper understanding of the Company's operations and business and to ensure him to be fully aware of his responsibilities under statue and common law, the Listing Rules, applicable legal and other regulatory requirements and the Company's business and governance policies. A director can also request the Company Secretary to arrange him to attend any relevant course and seminar.

The functions of non-executive directors have included the functions as specified in Code Provision A.6.2(a) to (d).

The Company adopted the Model Code for Securities Transactions by Directors of Listed Issuers ("Model Code") as set out in Appendix 10 of the Listing Rules as its own code of conduct for dealings in securities of the Company by the directors or relevant employees as defined in the Model Code. The Company made specific enquiry of all directors. According to their replies, all the directors complied with the requirements set out in the Model Code during the financial year ended 31 December 2020. The Company also complied with the other requirements stipulated in the Model Code.

Directors confirmed that they have complied with the Code Provision A.6.5 on directors' training. During the year, the directors have participated in continuous professional development by the following means to develop and refresh their knowledge and skills and provided a record of training to the Company.

Name of Directors	Training Received ^(Note)
Executive Directors	
Chen Xiaosheng (Chairman) (resigned on 28 November 2020)	_
Fang Qingli (Chairman) (appointed on 28 November 2020)	A, E
Guo Chun (Deputy Chairman)	Α
Zhang Jian	A, B
Wu Meng	A, B, E
Qiu Yizhou (Chief Executive Officer)	А
Non-Executive Director	
Zhang Lei	Α
Independent Non-Executive Directors	
Ng Wing Hang Patrick	Α
Kwok Lam Kwong Larry	А, В
Chen Liqiang	A, E

- Notes:
- A Attending classes and/or seminars and/or forums
- B Attending in-house briefings
- C Giving talks at classes and/or seminars and/or forums
- D Attending training relevant to the Company's business conducted by lawyers
- E Reading materials and/or participate in activities relevant to the Company's business or to the directors' duties and responsibilities

Each director is aware that he should give sufficient time and attention to the affairs of the Company. Upon reviewing (i) the annual confirmation of time commitment given by each director as well as the directorship and major commitments of each director held in public companies or organisations; and (ii) the attendance rate of each director on board meetings and committee meetings, it is satisfied that all directors have spent sufficient time in performing their responsibilities during the year.

A.7 Supply of and Access to Information

Principle: Directors should be provided in a timely manner with appropriate information in the form and quality to enable them to make an informed decision and perform their duties and responsibilities.

For regular board meetings, and as far as practicable in all other cases, an agenda and accompanying board papers were sent in full to all directors in a timely manner and at least 3 days before the intended date of a board meeting and board committee meeting.

As mentioned in D.1 below, there are matters reserved to be approved by the Board. Management is aware of the obligation to supply the Board and its committees with adequate information, in a timely manner, to enable it to make informed decisions. The information supplied must be complete and reliable. The Board and individual directors have separate and independent access to the Company's senior management.

All directors are entitled to have access to board papers, minutes and related materials.

B.1 The Level and Make-up of Remuneration and Disclosure

Principle: An issuer should disclose its directors' remuneration policy and other remuneration related matters. The procedure for setting policy on executive directors' remuneration and all directors' remuneration packages should be formal and transparent. Remuneration levels should be sufficient to attract and retain directors to run the issuer successfully without paying more than necessary. No director should be involved in deciding his own remuneration.

The Remuneration Committee of the Company was established in April 2005. The functions of the Remuneration Committee are mainly to review and make recommendations to the Board on the Company's policy and structure for all remunerations of directors and senior management. The terms of reference of the Remuneration Committee include the specific duties set out in Code Provision B.1.2(a) to (h), with appropriate modifications where necessary. The Remuneration Committee is delegated with responsibility to determine the remuneration packages of individual executive directors and senior management. Details of terms of reference of the Remuneration Committee are published on the HKEx's and Company's websites.

The Remuneration Committee presently consists of three independent non-executive directors, namely, Mr. Kwok Lam Kwong Larry, Mr. Ng Wing Hang Patrick and Mr. Chen Liqiang. Mr. Kwok Lam Kwong Larry acts as the chairman of the Remuneration Committee.

The Remuneration Committee held three meetings in the financial year ended 31 December 2020. The following is an attendance record of the meeting held by the Remuneration Committee for the financial year:

Name of Committee Members	Number of meeting(s) attended/held
Kwok Lam Kwong Larry (Chairman)	3/3
Ng Wing Hang Patrick	3/3
Chen Liqiang	3/3

During the financial year, the Remuneration Committee reviewed and considered the remuneration policy, packages and fringe benefits of the directors and senior management of the Group. In addition, the Remuneration Committee also reviewed the remuneration policies of the Group and compared with companies of similar scale as benchmark. Furthermore, the Committee made recommendations to the Board for the reward system of the Group, the remuneration of the executive directors of the Company and senior management of the Group and the salary increment of employees in 2020. None of the directors of the Company participated in the determination of the remuneration of their own. The Remuneration Committee was satisfied with the current remuneration policy and packages of the Group.

The Remuneration Committee shall consult the Chairman and/or Chief Executive Officer about their remuneration proposals for the directors. The Remuneration Committee shall have access to independent professional advice if necessary.

The Remuneration Committee was provided with sufficient resources to perform its duties.

For the financial year ended 31 December 2020, the remuneration of the members of the senior management by band is set out below:

Remuneration bands	Number of senior management*
Nil-HK\$3,000,000	1
HK\$3,000,001-HK\$5,000,000	1
HK\$5,000,001-HK\$7,000,000	1

^{*} The evaluation of the performance of the employees has not been completed. Thus, the amount of bonus has not yet been determined and the final amount will be disclosed in due course.

Details of the directors' remuneration and five highest paid employees for the financial year ended 31 December 2020 as required to be disclosed pursuant to Appendix 16 of the Listing Rules are provided in notes 8 and 9 to the financial statements.

C.1 Financial Reporting

Principle: The board should present a balanced, clear and comprehensible assessment of the issuer's performance, position and prospects.

Management provided sufficient explanation and information to the Board to enable it to make an informed assessment of financial and other information put before it for approval.

Management provided all members of the Board with monthly updates giving a balanced and understandable assessment of the Company's performance, position and prospects in sufficient detail to enable the Board as a whole and each director to discharge their duties under Rule 3.08 and Chapter 13 of the Listing Rules.

Directors have acknowledged their responsibility for preparing accounts of the Company.

A statement by the external auditors about their reporting responsibilities is included in the Independent Auditor's Report.

For the basis on which the Company generates or preserves value over the longer term and the strategy for delivery its objectives, please refer to Chairman's Statement and Management Discussion & Analysis respectively.

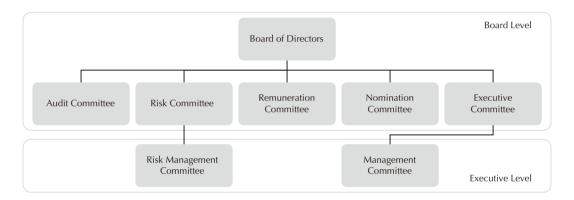

The Board presented a balanced, clear and understandable assessment of the Company in annual and interim reports and other financial disclosures required by the Listing Rules, and also for the reports to regulators and information disclosed under statutory requirements.

C.2 Risk Management and Internal Control

Principle: The board is responsible for evaluating and determining the nature and extent of the risks it is willing to take in achieving the issuer's strategic objectives, and ensuring that the issuer establishes and maintains appropriate and effective risk management and internal control systems. The board should oversee management in the design, implementation and monitoring of the risk management and internal control systems, and management should provide a confirmation to the board on the effectiveness of these systems.

(a) Group's Risk Governance Structure

The Group's risk governance structure is shown as follows:

(b) Three Lines of Defence Model

The Group has adopted a "three lines of defence" model to establish an effective risk management and internal control systems:

First line of defence — Risk management (All business departments)

Each of the Group's departments has the primary responsibility of managing its business risk, and serves as the first line of defence for the risk management and internal control systems. Its major risk management measures include:

- Implements the Group's established policies, procedures and guidelines, as well as laws, regulations and industry practices, ensuring proper controls are in place.
- Implements the "Employee Whistleblowing Procedures on Financial Reporting and Control Improprieties" to ensure employees are able to report any suspected wrongdoings or improprieties through appropriate and established procedures.

• Carried out internal control effectiveness evaluation in 2020 according to "The Guidelines for Self-Assessment on Internal Controls" established by the Group. "The Guidelines for Self-Assessment on Internal Controls" specifies the requirements or procedures for self-evaluation of internal controls. Each department is required to evaluate and rate its compliance with the established internal control policies and procedures in the "Report for Self-Assessment on Internal Controls". Where control weaknesses are identified, the responsible departments should formulate and implement appropriate remediation measures. According to the results of the internal control effectiveness evaluation performed in 2020, the overall performance of department's implementation of the Company's established internal control policies is satisfactory.

Second line of defence — Risk control (Middle and back office departments particularly including Risk Management, Compliance and Legal)

Middle and back office departments particularly including Risk Management, Compliance and Legal form the second line of defence for the risk management and internal control systems. These departments are independent of the business units and perform the following major risk control duties:

- Assist the management in formulating the Group's policies, procedures, guidelines, risk
 management principles and risk tolerance levels, and revise them in response to any
 changes in laws, regulations, industry practices or other internal and external factors.
- Provide advisory services, guidance and training for all staff on risk management.
- Assist in regulatory authorities' investigations and enquiries.
- Maintain the "Risk and Internal Control Monitoring Register", which covers Group's key risk areas, for identification of the key risks that affect business operations along with the relevant internal control activities and measures. The "Risk and Internal Control Monitoring Register" facilitates departmental ongoing assessment and compilation of risk- based internal audit plan.
- Maintain the comprehensive set of key risk indications with reporting thresholds which
 clearly defines the reporting mechanism. When a trigger event arises, the incident will be
 reported to the respective level of management according to the pre-defined threshold,
 and where appropriate, remedial actions will be taken. This facilitates departments'
 defining roles and responsibilities, and strengthening their controls and accountability.
- Reported twice in 2020 the risk management and internal controls related matters (except those related to financial controls and reporting, which are within the terms of reference of Audit Committee) to the Risk Committee, which in turn reported to the Board accordingly.

Third line of defence — Independent risk assurance (Internal Audit Department)

- Internal Audit Department serves as the third line of defence for the risk management and internal control systems. It conducts systemic review of the Group's risk management and internal control systems independently on a regular basis. The Internal Audit Department's role as the third line of defence is independent of the first and second lines of defence, and is responsible for monitoring their compliance with policies and procedures. The Head of Internal Audit Department reports directly to the Audit Committee at least semi-annually, and reports regularly to the Board through the Audit Committee.
- Internal Audit Department conducts independent review of the Group's structure and implementation of internal controls on a regular basis.
- Internal Audit Department reported twice in 2020 the risk management and internal controls related matters to the Audit Committee, which in turn reported to the Board accordingly.

(c) Audit Committee

The Audit Committee is delegated by the Board with the responsibilities to monitor the Group's overall management and effectiveness, and to advise the Board accordingly.

On behalf of the Board, the Audit Committee carries out regular review on business processes and operations, considers findings on major risk management and internal control related matters and the management's response to these findings. The Audit Committee also reviews financial controls and reporting related risk management and internal control systems of the Group with the management to ensure that the management has performed its duty to put in place an effective system.

In addition, the Audit Committee reviews and monitors the effectiveness of the function of the Internal Audit Department, ensures it is adequately resourced and has appropriate status within the Group. For the external auditor, the Audit Committee reviews and monitors the external auditor's independency and objectivity and the effectiveness of their audit in accordance with applicable standards. The Audit Committee also discusses the nature and scope of the audit and reporting obligations with the external auditor before the commencement of the audit. External auditor also reports their audit findings and the internal control matters identified during the audit to the Audit Committee. After a detailed review of the effectiveness of the Group's internal control systems, the Audit Committee will report their findings to the Board.

The Audit Committee is currently composed of three independent non-executive directors; it has held two meetings in the financial year ended 31 December 2020. List of the Audit Committee members and the attendance record of the meeting held by the Audit Committee are set out in C.3 below.

(d) Internal Audit Department

The Group has an independent Internal Audit Department to support the Board to monitor the Group's corporate governance compliance and to ensure a sound and effective internal control system is established. The Internal Audit Department independently evaluates and reviews departments' compliancy with the policies, procedures and guidelines of the Group, as well as the applicable rules and regulatory requirements.

In addition, the Internal Audit Department also carries out specific audits on particular areas as directed by the Audit Committee. During the audit, the Internal Audit Department will assess the suitability and effectiveness of the Group's current operational processes and internal control systems. If weaknesses are identified, the Internal Audit Department will provide recommendations to the relevant departments, monitor the remediation progress, and report to the Audit Committee on the key findings and the rectification status on a regular basis.

(e) Risk Committee

Risk Committee is delegated by the Board, responsible for reviewing the risk management and internal control systems (except those related to financial controls and reporting, which are within Audit Committee's scope), ensuring that management has discharged its duties, has effective systems in place, and reviewing the risk principles and risk tolerance levels as proposed by Risk Management Committee, etc. The detailed terms of reference of Risk Committee are published on the websites of the HKEx and the Company.

Risk Committee is currently composed of three independent non-executive directors and two executive directors: the independent non-executive directors are Mr. Ng Wing Hang Patrick, Mr. Kwok Lam Kwong Larry and Mr. Chen Liqiang; the executive directors are Mr. Guo Chun and Mr. Qiu Yizhou. Mr. Ng Wing Hang Patrick acts as the chairman of the Risk Committee.

The Risk Committee held three meetings in the financial year ended 31 December 2020. The following is an attendance record of the meeting held by the Risk Committee for the financial year:

Name of Committee Members	Number of meeting(s) attended/held
Ng Wing Hang Patrick (Chairman)	3/3
Guo Chun	3/3
Qiu Yizhou	3/3
Kwok Lam Kwong Larry	3/3
Chen Liqiang	3/3

A summary of the work performed by the Risk Committee during the financial year is listed below:

- (1) reviewed and recommended the Board's approval on the revision of the Group's risk limit table;
- (2) assessed the effectiveness of the Group' risk management and internal control systems (except those related to financial controls and reporting, which are within the terms of reference of Audit Committee); and
- (3) discharged its responsibilities related to risk management and internal control system, as delegated by the Board.

(f) Risk Management Committee

Risk Management Committee is established under Risk Committee to coordinate, facilitate and manage important executive matters and risk management activities.

Risk Management Committee's major responsibilities include formulation of risk strategies, risk management infrastructure and risk policies; planning for a comprehensive risk management system and implementation of risk governance activities; recommendation of risk tolerance levels to Risk Committee and the Board as well as implementation upon their approval, and review and approval of risk policies, risk limits and key risk indicators; and assessment of the impacts of and provision of guidance on risks and risk events reported to the Committee, etc.

(g) Risk Management Department

The Group has established a Risk Management Department, which is independent of business departments, for management of the overall risk governance, liquidity and funding risk, credit risk, market risk, and operational risk.

Risk Management Department formulates risk management basics, including the organisational structure, management framework, risk tolerance levels and related policies; provides business departments with guidance and assistance in identification, assessment, monitoring and reporting of risks arising from the usual course of business; and provides business departments with advisory services, including the risk assessments on new products, etc.

(h) Group's Key Risk and Management Measures

The Group upholds the philosophy of prudent operation, it strives to strengthen the existing businesses on one hand and continues to develop new businesses and new products on the other, so as to command trust from shareholders, clients, regulators, business partners, other investors, as well as all employees. Based on the subjective and objective conditions of the regulatory environment, financial resources, business environment, operating model, etc., the Group determines the Risk Tolerances of the six major risk categories in these areas which serves as the foundation of risk management.

(1) Compliance Risk and Legal Risk

Compliance Risk refers to the risk of the Group suffering from any financial or non-financial loss as a result of being advised, warned, reprimanded, fined, etc or even prosecuted by the government or any regulatory authority due to violating or breaching the laws, rules or industry practices ranging from business related areas to financial crime and general ordinances.

Legal risk refers to the risk of the Group suffering from any financial or non-financial loss as a result of being involved in a legal dispute or litigation, no matter whether or not it is triggered by a compliance risk event.

The regulated activities of the Group, including brokerage business, corporate finance business, asset management business and securities research business, has developed relevant compliance policies and procedures in accordance with applicable laws, regulations, industry practices (such as codes and guidelines). These include due diligence on clients, anti-money laundering checking, client suitability testing towards products, segregation of duties, as well as prevention of conflict of interest. All these are recorded in the Group's Compliance Manual and Operational Manual for relevant staff's adoption.

The Group has a Compliance Department and a Legal Department, which are independent of the business units. The Compliance Department is responsible for compliance risk management, and conducting compliance monitoring and review. The Legal Department is responsible for providing legal advisory services, drafting and examination of legal documents.

(2) Liquidity and Funding Risk

Liquidity risk refers to the risk of the Group suffering from any financial loss as a result of failure to or a higher funding cost to fulfil its financial obligations due to cash flow mismatch, despite the Group's healthy financial standing.

Funding risk refers to the risk of the Group suffering from limited and insufficient source of fund and funding amount to sustain the Group's business development.

Certain subsidiaries of the Group are subject to the local country's regulatory liquidity requirements. Currently, a monitoring system is in place to ensure the relevant licensed subsidiaries maintain adequate liquid capital to support their business commitments and comply with the relevant applicable Financial Resource Rules. Finance Department also closely monitors the Group's cash flow and the Group's assets and liabilities position. Moreover, Credit Control Department carries out regular review of the margin ratios of the pledged securities to ensure they have sufficient liquidity, thereby to manage liquidity risk.

(3) Credit Risk

Credit Risk refers to the risk of the Group suffering from any financial loss as a result of the debtor (including clients, guarantors or related parties), counterparties (including trading counterparties, brokers, banks and custodians) or asset issuers (including guarantors or related parties) failing to fulfil their obligations to repay, pay, settle, etc on time.

Business relating to credit should be run on the principle of risk diversification, dealt with creditworthy debtors, counterparties and asset issuers, and secured the Group's position with collateral or guarantee from the transactions as far as possible.

The Group has authorisation policies and procedures in place for stock financing, merger and acquisition financing, margin loan, client's or counterparty's credit and trading limits, as well as the margin ratios of stocks.

The Group's Credit Control Department is responsible for monitoring the positions of client's accounts (including the stock, futures and stock options) and the level of financing on a daily basis. Credit Control Department strictly enforces margin call and executes forced sale in accordance with the Group's established policies and procedures. When any breach of the Group's financing or credit policy is identified, the Credit Control Department will report it to the management immediately. In addition, the Credit Control Department conducts regular stress tests on client's repayment capability, so as to identify those client's accounts that may have margin deficits under volatile market conditions.

To avoid excessive concentration of credit risk, the Group has set limits on single client or counterparty credit exposure, stock and bond concentration risk.

(4) Market Risk

Market risk refers to the risk of the Group suffering from any financial loss as a result of adverse market movements of exchange rate, interest rate, price of financial instruments, etc. The Group's investment trading business should be run on the principle of risk diversification. Each of its portfolios, investments and transactions should be managed within the approved limits.

The Group has procedures and risk indicators in place to monitor the market exposure of the investment business regularly, ensuring the business is run within the Group's risk appetite.

(5) Operational Risk

Operational risk refers to the risk of the Group suffering from any financial or non-financial loss resulting from inadequacy or failure of internal processes, staff or systems, or from external events.

The Management Committee of the Group supervises the daily operations of the Group, and manages the risks according to the actual situation of the businesses. Operational Manuals once approved are published on the Group's intranet for relevant departments and staff's compliance and implementation. The existing business operating procedures and the risk management measures are reviewed and updated from time to time to ensure that they are consistent with the actual operations of the Group.

(6) Reputational Risk

Reputational Risk refers to the risk of the Group's suffering from any damage to its goodwill as a result of its operation, or external events, leading to negative comment from regulators, customers, partners and other investors. Such damage could be in the form of, for example, criticism from the media or drop in the stock price. Reputational risk events may stand alone or result from other risk events.

The Group strives to maintain its reputation and acts in the Group's long-term interest, and timely handle in accordance with the established requirements in case of a risk event.

The Group also formulates other documents and measures, such as risk policies and risk limits, in accordance with the above-mentioned Risk Tolerances, that serves as specific measures for the Group to manage risks.

(i) Handling and Dissemination of Inside Information

To ensure inside information of the Group is to be disclosed to the public in a timely manner in accordance with the Listing Rules, applicable laws and regulatory requirement, a framework has been established to set out the procedures and internal controls for the handling and dissemination of inside information. The framework and its effectiveness are subject to review on a regular basis according to established procedures.

(j) Review of Effectiveness of the Risk Management and Internal Control Systems

The Board acknowledges their responsibility to review the effectiveness of the risk management and internal control systems adopted. Such risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board reviews the effectiveness of the Group's risk management and internal control systems on an ongoing basis. Through the structure and measures mentioned above, the Board ensures that appropriate and effective risk management and internal control systems are in place. The Board has also reviewed the adequacy of resources, staff qualifications and experience, training programmes and budgets of the Group's compliance, risk management, accounting, internal audit and financial reporting functions. For the financial year ended 31 December 2020, the Risk Management Committee and the Internal Audit Department had submitted reports on the effectiveness of the Group's risk management and internal control systems to the Risk Committee and Audit Committee respectively.

C.3 Audit Committee

Principle: The board should establish formal and transparent arrangements to consider how it will apply financial reporting, risk management and internal control principles and maintain an appropriate relationship with the issuer's external auditors. The audit committee established under the Listing Rules should have clear terms of reference.

The Audit Committee was set up in 1999. The roles of the Audit Committee are mainly to ensure integrity of financial statements, to oversee financial reporting system, risk management and internal control procedures as well as to provide advice and recommendations to the Board. The details of the terms of reference of the Audit Committee are published on the websites of the HKEx and the Company.

The Audit Committee is currently composed of three independent non-executive directors, namely, Mr. Ng Wing Hang Patrick, Mr. Kwok Lam Kwong Larry and Mr. Chen Liqiang. Mr. Ng Wing Hang Patrick acts as the chairman of the Audit Committee.

The Audit Committee held two meetings in the financial year ended 31 December 2020. The following is an attendance record of the meeting held by the Audit Committee for the financial year:

Name of Committee Members	Number of meeting(s) attended/held
Ng Wing Hang Patrick (Chairman)	2/2
Kwok Lam Kwong Larry	2/2
Chen Ligiang	2/2

A summary of the work performed by the Audit Committee during the financial year is listed below:

- (1) reviewed the financial statements and the independent auditor's report before their submission to the Board;
- (2) reviewed the results of the audit on the Company's system of internal controls;
- (3) reviewed the results of the audit on the connected or continuing connected parties transactions;
- (4) nominated external auditors for re-appointments at the annual general meeting held in 2020, and considered the proposed remuneration and terms of engagement of external auditors;
- (5) assessed the effectiveness of the Group's risk management and internal control systems; and
- (6) performed corporate governance functions delegated by the Board.

The work and findings of the Audit Committee were reported to the Board. During the year, no issues brought to the attention of management and the Board were of sufficient importance to require disclosure in the Annual Report.

The Board agreed with the Audit Committee's proposal for the re-appointment of Messrs. KPMG as the Company's external auditors for 2021. The recommendation will be put forward for the approval of shareholders at the forthcoming annual general meeting.

Full minutes of Audit Committee meetings are kept by the Company Secretary. Draft and final versions of minutes of the meetings were sent to all committee members for their comment and records, normally within one month after the meeting.

No member of the Company's Audit Committee was a former partner of the Company's existing external auditors.

During the financial year ended 31 December 2020, the remuneration to the external auditors, Messrs. KPMG, was as below:

Nature of services	HK\$'000
Audit services	3,980
Tax advisory services	210

The Audit Committee was provided with sufficient resources, including the advice of external auditors and Internal Audit Department, to perform its duties.

The Audit Committee established an employee whistleblowing procedures on financial reporting and internal control improprieties of the Group. Under the employee whistleblowing procedures, the employees can report any concerns relating to the possible financial reporting improprieties to the chairman of Audit Committee.

D.1 Management Functions

Principle: An issuer should have a formal schedule of matters specifically reserved for board approval. The board should give clear directions to management on the matters that must be approved by it before decisions are made on the issuer's behalf.

The Board is responsible for formulating overall strategy, monitoring and controlling the performance of the Company whilst managing the Company's day-to-day business is the responsibility of the management.

When the Board delegates aspects of its management and administration functions to the management, it has given clear directions as to the management's powers, in particular, where management shall report back and obtain prior Board approval before making decisions or entering into any commitments on the Company's behalf.

Directors are clearly understood delegation arrangements in place. The Company has issued formal letter of appointment to each director (including non-executive director and independent non-executive director) setting out the key terms and conditions of the appointment.

Matters reserved to be approved by the Board include:

- (1) Appointment of directors;
- (2) Significant strategies and business plans of the Company;
- (3) Proposal for selection of external auditors;
- (4) Financial statements and budgets;
- (5) Substantial investments other than those arising in the ordinary course of Company's businesses; and
- (6) Formation of board committees.

D.2 Board Committees

Principle: Board committees should be formed with specific written terms of reference which deal clearly with their authority and duties.

Where board committees are established to deal with matters, the Board shall give them sufficiently clear terms of reference to enable them to perform their functions properly.

Apart from the Audit Committee (particulars are disclosed under C.3), Remuneration Committee (particulars are disclosed under B.1), Nomination Committee (particulars are disclosed under A.5) and Risk Committee (particulars are disclosed under C.2), the Board also established an Executive Committee and a Management Committee with specific terms of reference. The Executive Committee consists of all the executive directors and is responsible for formulating and reviewing the Company's important strategies on business and operations. The Management Committee consists of the Chief Executive Officer, deputy general manager(s), chief operating officer and assistant general manager(s). The Management Committee usually meets bi-weekly for making policy(ies) relating to the Company's day-to-day management and business. In addition, Risk Committee established a Risk Management Committee with specific terms of reference. Risk Management Committee consists of Chief Executive Officer, chief risk officer, chief operating officer, chief financial officer, director of compliance, and heads of the respective business segments. The Risk Management Committee usually meets quarterly and is responsible for co-ordinating, facilitating important business management related matters and risk management activities.

The Audit Committee, the Remuneration Committee, the Nomination Committee and the Risk Committee are required to report back to the Board on their decisions and recommendations. Material matters will be reported to the Board by the other board committees according to their respective terms of reference.

D.3 Corporate Governance Functions

The Board has delegated the responsibility for performing corporate governance functions to the Audit Committee, with the functions as specified in Code Provision D.3.1(a) to (e).

E.1 Effective Communication

Principle: The board should be responsible for maintaining an on-going dialogue with shareholders and in particular, use annual general meetings or other general meetings to communicate with them and encourage their participation.

At the annual general meeting held in 2020, a separate resolution was proposed by the Chairman for each substantially separate issue.

The annual general meeting held on 22 May 2020 was attended by the Chairman of the Board, the chairmen of the Audit Committee, Remuneration Committee, Nomination Committee and Risk Committee or members of the respective Committees, and the representative of the external auditor, Messrs. KPMG, to answer questions from the shareholders.

The Company arranges for the notice to shareholders to be sent for annual general meetings at least 20 clear business days before the meeting and to be sent at least 10 clear business days for all other general meetings.

The Board has established a shareholders communication policy and was published on the Company's website. The policy is subject to review on a regular basis to ensure its effectiveness.

Pursuant to the disclosure requirements under the Listing Rules and the Code, the Company is required to disclose the following information on shareholders' rights:

Set out below are procedures by which shareholders of the Company may (a) convene an extraordinary general meeting; (b) put enquiries to the Board; (c) put forward proposals at shareholders' meetings; and (d) propose a person for election as a director. These procedures are generally governed by the Articles of Association and applicable laws, rules and regulations, which prevail over what is stated below in case of inconsistencies.

(a) How shareholders can convene an extraordinary general meeting

Pursuant to Article 67 of the Articles of Association of the Company, extraordinary general meeting(s) shall be convened as provided by the Companies Ordinance.

Pursuant to the Companies Ordinance (Chapter 622 of the Laws of Hong Kong), shareholder(s) representing at least 5% of the total voting rights of all the shareholders having a right to vote at general meetings may request in writing to call an extraordinary general meeting.

The written request:

- (i) must state the general nature of the business to be dealt with at the meeting and may include the text of a resolution that may properly be moved and is intended to be moved at the meeting (in case if the resolution is to be proposed as a special resolution, the written request should include the text of the resolution and specify the intention to propose the resolution as a special resolution);
- (ii) must be signed by the requisitionist(s); and
- (iii) may either be deposited at the registered office of the Company at Level 19, 28 Hennessy Road, Hong Kong in hard copy form or sent in electronic form by email at co.sec@swhyhk.com.

The Board must call an extraordinary general meeting within 21 days after the date on which they become subject to the requirement and the extraordinary general meeting so called must be held on a date not more than 28 days after the date of the notice convening the extraordinary general meeting.

If the Board does not proceed to convene the extraordinary general meeting as aforesaid, the requisitionist(s), or any of them representing more than one half of the total voting rights of all of them, may themselves call an extraordinary general meeting, provided that any extraordinary general meeting so convened is held within 3 months after the date on which the Board becomes subject to the requirement to call an extraordinary general meeting. Any reasonable expenses incurred by the requisitionist(s) by reason of the failure of the Board duly to call an extraordinary general meeting must be reimbursed by the Company.

(b) The procedures by which enquiries may be put to the board and sufficient contact details to enable these enquiries to be properly directed

Shareholders and other stakeholders may send their enquiries and concerns to the Board by addressing them to Company Secretary, whose contacts are listed below:

Registered office: Level 19, 28 Hennessy Road, Hong Kong

Email: co.sec@swhyhk.com

(c) The procedures and sufficient contact details for putting forward proposals at shareholders' meetings

Any shareholder(s) satisfying the following conditions can request in writing to move a resolution at an annual general meeting:

- (i) shareholder(s) representing at least 2.5% of the total voting rights of all the shareholders who have a right to vote on the resolution at the annual general meetings to which the requests relate; or
- (ii) at least 50 shareholders who have a right to vote on the resolution at the annual general meeting to which the requests relate.

The written request:

- (i) must identify the resolution of which the notice is to be given;
- (ii) must be signed by the requisitionist(s); and
- (iii) may either be deposited at the registered office of the Company at Level 19, 28 Hennessy Road, Hong Kong in hard copy form or sent in electronic form by email at co.sec@swhyhk.com, not later than 6 weeks before the annual general meeting to which the requests relate; or if later, the time at which notice is given of that annual general meeting.
- (d) The procedures for shareholders to propose a person for election as a director

Pursuant to Article 108 of the Articles of Association of the Company, if a shareholder wish to propose a person other than a retiring director for election as a director at a general meeting, notice in writing of the intention to propose that person for election as a director and notice in writing by that person of his willingness to be elected shall have been given to the Company during a period of not less than seven days commencing no earlier than the day after the despatch of the notice of the meeting appointed for such election and ending no later than seven days prior to the date appointed for the meeting.

During the year, there were no significant changes in the Company's constitutional documents. The Articles of Association of the Company is available on the HKEx's and Company's websites.

E.2 Voting by Poll

Principle: The issuer should ensure that shareholders are familiar with the detailed procedures for conducting a poll.

Since the amendment of the Listing Rules with effect from 1 January 2009, all resolutions set out in the notice of general meetings of the Company have been conducted by poll.

To ensure that shareholders are familiar with the poll procedures at the annual general meeting held in 2020, the Chairman (through the Company Secretary) explained the detailed procedures of poll voting.

After the conclusion of the annual general meeting and extraordinary general meetings, the poll results were published on the website of HKEx at http://www.hkexnews.hk and the Company's website at http://www.swhyhk.com.

F. Company Secretary

Principle: The company secretary plays an important role in supporting the board by ensuring good information flow within the board and that board policy and procedures are followed. The company secretary is responsible for advising the board through the chairman and/or the chief executive on governance matters and should also facilitate induction and professional development of directors.

Mr. Wong Che Keung Leslie is the Chief Operating Officer and Company Secretary of the Group and has day-to-day knowledge of the Company's affairs. He reports to the Chairman and/or the Chief Executive Officer.

The appointment and removal of the Company Secretary is subject to the Board approval in accordance with the Articles of Association of the Company. Directors have access to the advice and services of the Company Secretary to ensure that board procedures, and all applicable rules and regulations, are followed.

Mr. Wong confirmed that he has taken no less than 15 hours of relevant professional training for the year ended 31 December 2020 in compliance with Rule 3.29 of the Listing Rules. The biographical details of Mr. Wong are set out on page 63 under the section headed Biographical Details of the Directors of the Company and the Senior Management of the Group.

REPORT OF THE DIRECTORS

The directors present their report and the audited financial statements for the year ended 31 December 2020.

PRINCIPAL ACTIVITIES

The principal activity of the Company is investment holding. Details of the principal activities of the principal subsidiaries are set out in note 1 to the financial statements. There were no significant changes in the nature of the Group's principal activities during the year.

RESULTS AND DIVIDENDS

The Group's profit for the year ended 31 December 2020 and the Group's financial position at that date are set out in the audited financial statements.

The Company's existing Dividend Policy allows its shareholders to participate in the Company's profits on one hand, while retaining adequate reserves for future business development on the other. In general, the dividend payout ratio should be in the range between 40% and 60% of the Group's consolidated net profit after tax for the then financial year. In addition, the Board may also declare special dividends in addition to such dividends as it considers appropriate.

The directors recommend the payment of a final dividend of HK4 cents per ordinary share in respect of 2020 to shareholders on the register of members on 28 May 2021.

BUSINESS REVIEW

The business review of the Group for the year ended 31 December 2020 is set out under the sections headed Chairman's Statement, Management Discussion & Analysis, Corporate Social Responsibility Report and Corporate Governance Report on pages 5 to 7, pages 8 to 15, pages 16 to 27 and pages 28 to 55 respectively of this annual report.

FIVE YEAR FINANCIAL SUMMARY

	4,036,040	3,916,691	2,205,483	2,160,894	2,088,643

The above summary does not form part of the audited financial statements.

TAX RELIEF AND EXEMPTION

The Company is not aware of any relief from taxation available to shareholders by reason of their holding of the Company's listed securities.

SHARE CAPITAL

There were no movements in the issued share capital of the Company during the year.

EQUITY-LINKED AGREEMENTS

No equity-linked agreements were entered into by the Company, or existed during the year.

PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES OF THE COMPANY

Neither the Company, nor any of its subsidiaries purchased, redeemed or sold any of the Company's listed securities during the year.

DISTRIBUTABLE RESERVES

At 31 December 2020, the Company's reserves available for distribution, calculated in accordance with the provisions of sections 291, 297 and 299 of the Hong Kong Companies Ordinance (Cap. 622), amounted to HK\$70,826,000 of which HK\$62,446,000 has been proposed as a final dividend for 2020.

CHARITABLE CONTRIBUTIONS

No charitable contribution was made by the Group during the year.

MAJOR CUSTOMERS AND SUPPLIERS

In the year under review, sales to the Group's five largest customers accounted for less than 30% of the total sales for the year.

None of the directors of the Company or any of their associates or any shareholders (which, to the best knowledge of the directors, own more than 5% of the Company's issued shares) had any beneficial interest in the Group's five largest customers.

The Group is a provider of financial services. In the opinion of the directors, it is therefore of no value to disclose details of the Group's suppliers.

DIRECTORS

The directors of the Company during the year were:

Executive directors:
Chen Xiaosheng (Chairman) (resigned on 28 November 2020)
Fang Qingli (Chairman) (appointed on 28 November 2020)
Guo Chun (Deputy Chairman)
Zhang Jian
Wu Meng
Qiu Yizhou (Chief Executive Officer)

Non-executive director:

Zhang Lei

Independent non-executive directors: Ng Wing Hang Patrick Kwok Lam Kwong Larry Chen Liqiang

In accordance with Articles 95 and 104(A) of the Company's Articles of Association and in compliance with Code Provision A.4.3 of the Corporate Governance Code set out in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"), Mr. Fang Qingli, Mr. Qiu Yizhou, Mr. Ng Wing Hang Patrick and Mr. Kwok Lam Kwong Larry will retire at the forthcoming annual general meeting and, being eligible, will offer themselves for re-election.

The Company has received annual confirmations of independence pursuant to Rule 3.13 of the Listing Rules from Mr. Ng Wing Hang Patrick, Mr. Kwok Lam Kwong Larry and Mr. Chen Liqiang and as at the date of this report, still considers them to be independent.

A list of names of all the directors who have served on the boards of the subsidiaries of the Company for the period from 1 January 2020 to the date of this report is available on the Company's website at www.swhyhk.com.

BIOGRAPHICAL DETAILS OF THE DIRECTORS OF THE COMPANY AND THE SENIOR MANAGEMENT OF THE GROUP

He has around 15 years' experience in securities business. Mr. Liang holds a Master's Degree in Finance from Nankai University, and is a Chartered Financial Analyst (CFA) and a Financial Risk Manager (FRM).

DIRECTORS' SERVICE CONTRACTS

No director proposed for re-election at the forthcoming annual general meeting has a service contract with the Company which is not determinable by the Company within one year without payment of compensation, other than statutory compensation.

DIRECTORS' REMUNERATION

The directors' fees are subject to shareholders' approval at general meetings. Other emoluments are determined by the Board of the Company with reference to directors' duties, responsibilities and performance and the results of the Group.

DIRECTORS' MATERIAL INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS

No director or a connected entity of a director had a significant beneficial interest, either directly or indirectly, in any transactions, arrangements or contracts of significance to the business of the Group to which the Company, or any of its holding companies, subsidiaries and fellow subsidiaries was a party during the year.

PERMITTED INDEMNITY PROVISION

The Articles of Association of the Company provides that every Director of the Company shall be entitled to be indemnified out of the assets of the Company against all losses or liabilities which he may sustain or incur in or about the execution of the duties of his office or otherwise in relation thereto.

The Company has taken out and maintained appropriate directors' liability insurance in respect of relevant legal actions against its directors.

DIRECTOR'S INTEREST IN SHARES

As at 31 December 2020, none of the directors and the chief executive of the Company was taken to be interested or deemed to have any interest or short position in the shares, underlying shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (the "SFO")) as recorded in the register required to be kept by the Company pursuant to Section 352 of the SFO, or as otherwise notified to the Company and The Stock Exchange of Hong Kong Limited (the "Stock Exchange") pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers as set out in the Appendix 10 of the Listing Rules.

DIRECTORS' RIGHTS TO ACQUIRE SHARES OR DEBENTURES

At no time during the year were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company granted to any director or their respective spouse or minor children, or were any such rights exercised by them; or was the Company, or any of its holding companies, subsidiaries or fellow subsidiaries a party to any arrangement to enable the directors to acquire such rights in any other body corporate.

SUBSTANTIAL SHAREHOLDERS' INTERESTS IN SHARES

As at 31 December 2020, the interests of substantial shareholders, other than directors or chief executive of the Company, who had interests or short positions of 5% or more of the issued shares or underlying shares of the Company as recorded in the register required to be kept by the Company pursuant to section 336 of the SFO, or as otherwise notified to the Company, were as follows:

Long positions in the ordinary shares of the Company

Name	Capacity and nature of interests	Number of ordinary shares interested (Note)	Percentage of the Company's issued shares
Shenwan Hongyuan Holdings (B.V.I.) Limited ("SWHYHBVI")	Directly beneficially owned	402,502,312(1)	25.78
Venture-Some Investments Limited ("VSI")	Through controlled corporation	402,502,312(1)	25.78
Shenwan Hongyuan (International) Holdings Limited	Through controlled corporation	402,502,312(1)	25.78
o .	Directly beneficially owned	768,306,257(2)	49.22
Shenwan Hongyuan Securities Co., Ltd.	Through controlled corporation	1,170,808,569(1)(2)	75.00
Shenwan Hongyuan Group Co., Ltd.	Through controlled corporation	1,170,808,569(1)(2)	75.00

Notes:

- (1) SWHYHBVI is held directly as to 60.82% by VSI. VSI is wholly-owned by Shenwan Hongyuan (International) Holdings Limited which is in turn a wholly-owned subsidiary of Shenwan Hongyuan Securities Co., Ltd.. Shenwan Hongyuan Securities Co., Ltd. is wholly-owned by Shenwan Hongyuan Group Co., Ltd.. Hence, VSI, Shenwan Hongyuan (International) Holdings Limited, Shenwan Hongyuan Securities Co., Ltd. and Shenwan Hongyuan Group Co., Ltd. are deemed to be interested in the same parcel of 402,502,312 shares held by SWHYHBVI under the SFO.
- (2) Shenwan Hongyuan (International) Holdings Limited also held directly 768,306,257 shares of the Company. Hence, Shenwan Hongyuan Securities Co., Ltd. and Shenwan Hongyuan Group Co., Ltd. are also deemed to be interested in the same parcel of 768,306,257 shares held by Shenwan Hongyuan (International) Holdings Limited under the SFO.

Save as disclosed above, as at 31 December 2020, the Company had not been notified of any person who had interests or short positions in the shares or underlying shares of the Company, which were required to be recorded in the register required to be kept by the Company pursuant to section 336 of the SFO.

CONNECTED TRANSACTIONS AND CONTINUING CONNECTED TRANSACTIONS

The connected transactions and continuing connected transactions of the Company and the Group during the year are disclosed in compliance with the requirements of Chapter 14A of the Listing Rules.

(a) Connected Transaction(s)

On 27 March 2020, First Million Holdings Ltd (a direct wholly-owned subsidiary of the Company) ("First Million") and Shenwan Hongyuan (International) Holdings Limited ("SWHY International") entered into the sale and purchase agreement (the "Sale and Purchase Agreement") pursuant to which First Million has conditionally agreed to sell, and SWHY International has conditionally agreed to acquire, 100% equity interest in Shenwan Hongyuan Singapore Private Limited (the "Target Company") at a consideration of HK\$28,000,000 (subject to adjustment (if any)).

Completion is conditional upon the fulfilment or waiver (as the case may be) of the conditions precedent. Upon completion, the Target Company will cease to be a subsidiary of the Company and the financial results of the Target Company will not be consolidated with the results of the Group.

As at the signing date of the Sale and Purchase Agreement, SWHY International directly and indirectly holds approximately 75% of the Company's issued shares and is the controlling shareholder of the Company. Therefore, SWHY International is regarded as a connected person of the Company, and the disposal constitutes a connected transaction of the Company under the Listing Rules. As all the applicable percentage ratios under Rule 14.07 of the Listing Rules in respect of the disposal are more than 0.1% but less than 5%, the disposal is only subject to the reporting and announcement requirements and is exempt from circular (including independent financial advice) and the independent shareholders' approval requirements pursuant to Rule 14A.76(2) of the Listing Rules.

Further details of the transaction are set out in the announcements of the Company dated 27 March 2020 and 9 September 2020 respectively.

(b) Continuing Connected Transaction(s)

The Independent Non-executive Directors of the Company have reviewed the continuing connected transactions as set out in note 33(a)(i-vii) to the financial statements and confirmed that these transactions were entered into (i) in the ordinary and usual course of business of the Group; (ii) on normal commercial terms or better; and (iii) in according to the agreements governing them on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

KPMG, the Company's auditors, were engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) Assurance Engagements Other than Audits or Reviews of Historical Financial Information and with reference to Practice Note 740 Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules issued by the Hong Kong Institute of Certified Public Accountants. KPMG have issued their unqualified letter containing their findings and conclusions in respect of the continuing connected transactions disclosed above by the Group in accordance with Rule 14A.56 of the Listing Rules. A copy of the auditors' letter will be provided by the Company to the Stock Exchange.

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the directors, at least 25% of the Company's total number of issued shares were held by the public as at the date of this report.

DIRECTORS' INTERESTS IN A COMPETING BUSINESS

During the year and up to the date of this report, the following directors are considered to have interests in businesses which compete or are likely to compete, either directly or indirectly, with the businesses of the Group, as defined in the Listing Rules, as set out below:

Mr. Fang Qingli (Executive Director and Chairman of the Board of the Company) is:

- a member of the executive committee and general manager of institutional clients division of Shenwan Hongyuan Securities Co., Ltd. which is involved in securities business; and
- a chairman and director of Shenwan Hongyuan (International) Holdings Limited, which is an investment holding company and through its wholly-owned subsidiary, Shenwan Hongyuan Singapore Private Limited, engages in securities brokerage business and fund management.

Mr. Guo Chun (Executive Director and Deputy Chairman of the Board of the Company) is a director of Shenwan Hongyuan Singapore Private Limited, a wholly-owned subsidiary of Shenwan Hongyuan (International) Holdings Limited, which is engaged in securities brokerage business and fund management.

Mr. Zhang Jian (Executive Director of the Company) is:

- an assistant to general manager of Shenwan Hongyuan Securities Co., Ltd. which is involved in securities business;
- an executive director of Shenwan Hongyuan Financing Services Co., Ltd. which is involved in securities underwriting, sponsoring and financial advisory businesses; and
- a director of Shenwan Hongyuan (International) Holdings Limited, which is an investment holding company and through its wholly-owned subsidiary, Shenwan Hongyuan Singapore Private Limited, engages in securities brokerage business and fund management.

DIRECTORS' INTERESTS IN A COMPETING BUSINESS (Cont'd)

Ms. Wu Meng (Executive Director of the Company) is:

- a general manager of the international business division of Shenwan Hongyuan Securities Co., Ltd. which is involved in securities business; and
- a general manager and director of Shenwan Hongyuan (International) Holdings Limited, which is an investment holding company and through its wholly-owned subsidiary, Shenwan Hongyuan Singapore Private Limited, engages in securities brokerage business and fund management.

Mr. Qiu Yizhou (Executive Director and Chief Executive Officer of the Company) is a director and chief executive officer of Shenwan Hongyuan Singapore Private Limited, a wholly-owned subsidiary of Shenwan Hongyuan (International) Holdings Limited, which is engaged in securities brokerage business and fund management.

Mr. Zhang Lei (Non-executive Director of the Company) is a director and responsible officer of SIIC Asset Management Company Limited which is involved in the provision of asset management services.

Any director(s) who is/are or deemed to be interested in any proposed transaction(s) will have his/their interest fully disclosed and will abstain from voting at the relevant resolution(s) in accordance with the applicable requirements of the Articles of Associations, the Group is capable of carrying on its businesses independently of, and at arm's length from, the businesses of such companies/entities.

AUDITORS

KPMG retire and a resolution for their reappointment as auditors of the Company will be proposed at the forthcoming annual general meeting.

ON BEHALF OF THE BOARD

Fang Qingli

Chairman

Hong Kong 19 March 2021

INDEPENDENT AUDITOR'S REPORT

Independent auditor's report to the members of Shenwan Hongyuan (H.K.) Limited (Incorporated in Hong Kong with limited liability)

Opinion

We have audited the consolidated financial statements of Shenwan Hongyuan (H.K.) Limited ("the Company") and its subsidiaries (together "the Group") set out on pages 76 to 164, which comprise the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2020 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities* for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* ("the Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements for the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT (Cont'd)

Assessment of the fair value of financial instruments

Refer to notes 2.5(b), 2.5(g)(iii), 18, 19, 25 and 36 to the consolidated financial statements.

The Key Audit Matter

As at 31 December 2020 the fair value of the Group's financial assets was HK\$6,306 million of which HK\$5,984 million and HK\$83 million were classified as level 2 and level 3 financial instruments respectively. The fair value of the Group's financial liabilities was HK\$1,392 million of which all were classified as level 2 financial instruments.

The valuation of the Group's financial instruments which are stated at their fair values is based on a combination of market data and valuation models which often require a considerable number of inputs. Many of these inputs are obtained from readily available data for liquid markets. Where such observable data is not readily available, estimates need to be developed which can involve significant judgement.

The Group employed various valuation methodology in valuing these certain level 2 and level 3 financial instruments, including the use of third party models and external valuation specialists, which involves significant judgement.

During the year, the tightened market liquidity and increased market volatility resulted in higher estimation uncertainty in management's assessment of the marketability and valuation of financial instruments held.

We identified assessment of the fair value of financial instruments as a key audit matter because of the degree of complexity involved in valuing certain financial instruments and because of the degree of judgement exercised by management in developing its own models and in determining the inputs used in the valuation models.

How the matter was addressed in our audit

Our audit procedures to assess the fair value of financial instruments included the following:

- assessing the design, implementation and operating effectiveness of key internal controls for financial instruments;
- evaluating the methodology adopted by management and assessing the reasonableness of the inputs and assumptions used by management in the valuations;
- engaging our internal valuation specialists to perform, on a sample basis, independent valuations of certain level 2 and level 3 financial instruments and comparing these valuations with the Group's valuations. Our independent valuations included developing models, obtaining inputs independently and verifying the inputs obtained independently; and
- assessing whether the disclosures in the consolidated financial statements appropriately reflected the Group's exposure to financial instrument valuation risk with reference to the requirements of the prevailing accounting standards.

INDEPENDENT AUDITOR'S REPORT (Cont'd)

Allowance for expected credit loss of unlisted debt securities

Refer to notes 2.5(h)(i), 19 to the consolidated financial statements.

The Key Audit Matter

Unlisted debt securities measured at amortised cost and at fair value through other comprehensive income amounted to HK\$1,548 million and HK\$304 million, representing 9.5% and 1.9% of the Group's total assets respectively.

The COVID-19 pandemic and China-US tension has led to additional challenges in assessing impairment provisions. The tightened market liquidity and increased market volatility resulted in higher estimation uncertainty in management's assessment and therefore more judgement is required.

The Group calculates the allowance for expected credit losses ("ECL") of unlisted debt securities using an ECL model. As at 31 December 2020, the ECL of stage 1 unlisted debt securities was HK\$25 million and there was no stage 2 and 3 unlisted debt securities.

The determination of loss allowances using the ECL model is subject to a number of key parameters and assumptions, including the identification of loss stages, estimates of probability of default, loss given default, exposures at default, discount rate, adjustments for forward-looking information and other adjustment factors. Management judgment is involved in the selection of those parameters and the application of the assumptions.

How the matter was addressed in our audit

Our audit procedures to assess ECL for financial assets measured at amortised cost and financial assets at fair value through other comprehensive income included the following:

- understanding and assessing the design, implementation and operating effectiveness of key internal controls of financial reporting over the calculation, approval and recording of allowance for ECL;
- assessing the reliability of the ECL model used by management in determining loss allowances with the assistance of our internal specialists, including assessing the appropriateness of the key parameters and assumptions in the ECL model, including the identification of loss stages, probability of default, loss given default, exposure at default, discount rate, adjustments for forward-looking information and other management adjustments;
- assessing the completeness and accuracy
 of data used for the key parameters in the
 ECL model. For key parameters derived from
 external data, we selected samples to inspect
 the accuracy of such data by comparing them
 with public resources.
- for key parameters involving judgement, critically assessing input parameters by seeking evidence from external sources. As part of these procedures, we challenged the reasons for modifications to estimates and input parameters compared with prior period and considered the consistency of judgement. We compared the economic factors used in the models with market information to assess whether they were aligned with market and economic development.

Allowance for expected credit loss of unlisted debt securities (Cont'd)

Refer to notes 2.5(h)(i), 19 to the consolidated financial statements.

The Key Audit Matter

How the matter was addressed in our audit

We identified the allowance for ECL of financial assets as a key audit matter because of the inherent uncertainty and management judgment involved.

Our audit procedures to assess ECL for financial assets measured at amortised cost and financial assets at fair value through other comprehensive income included the following:

- evaluating the validity of management's assessment on whether the credit risk of financial assets measured at amortised cost and financial assets at fair value through other comprehensive income has, or has not, increased significantly since initial recognition and whether the they are creditimpaired by selecting risk-based samples. We checked and compared the credit rating as at initial recognition and that at reporting date.
- recalculating the amount of credit loss allowance for 12 month and life time credit losses using the expected credit loss model based on the above parameters and assumptions for a sample of financial assets where the credit risk has, or has not, increased significantly since initial recognition, respectively.
- evaluating whether the disclosures on the provision of expected credit loss meet the disclosure requirements in the prevailing accounting standards.

Information other than the consolidated financial statements and our auditor's report thereon

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the consolidated financial statements

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Auditor's responsibilities for the audit of the consolidated financial statements (Cont'd)

 Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements.
 We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Fong Hoi Wan.

Incorporated in the British Virgin Islands

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length. The financial statements not audited by KPMG reflect total net assets and total profit before taxation constituting approximately 0.13% and 2.24% (2019: 1.13% and 2.32%) of consolidated totals.

2.1 STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs") (which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and requirements of the Hong Kong Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules"). A summary of the significant accounting policies adopted by the Group is set out in note 2.5.

The HKICPA has issued certain amendments HKFRSs that are first effective or available for early adoption for the current accounting period of the Group. Note 2.3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.2 BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The consolidated financial statements for the year ended 31 December 2020 comprise the Company and its subsidiaries.

The measurement basis used in the preparation of the financial statements is the historical cost basis except the following assets are stated at their fair value as explained in the accounting policies set out below.

- Financial assets at fair value through profit or loss (see note 2.5(g))
- Certain loans and advances to margin clients (see note 2.5(g))
- Advances to cash clients (see note 2.5(g))

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 3.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.3 CHANGES IN ACCOUNTING POLICY

The HKICPA has issued following amendments to HKFRSs that are first effective for the current accounting period of the Group:

- Amendments to HKFRS 3, Definition of a Business
- Amendment to HKFRS 16, Covid-19-Related Rent Concessions

Neither of these amendments to HKFRSs have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period. Impacts of the adoption of the amended HKFRSs are discussed below:

Amendments to HKFRS 3, Definition of a Business

The amendments clarify the definition of a business and provide further guidance on how to determine whether a transaction represents a business combination. In addition, the amendments introduce an optional "concentration test" that permits a simplified assessment of whether an acquired set of activities and assets is an asset rather than business acquisition, when substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

Amendment to HKFRS 16, Covid-19-Related Rent Concessions

The amendment provides a practical expedient that allows a lessee to by-pass the need to evaluate whether certain qualifying rent concessions occurring as a direct consequence of the COVID-19 pandemic ("COVID-19-related rent concessions") are lease modifications and, instead, account for those rent concessions as if they were not lease modifications.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.4 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2020

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments and a new standard, HKFRS 17, *Insurance contracts*, which are not yet effective for the year ended 31 December 2020 and which have not been adopted in these financial statements. These developments include the following which may be relevant to the Group.

	accounting periods beginning on or after
Amendments to HKFRS 3, Reference to the Conceptual Framework	1 January 2022
Amendments to HKAS 16, Property, Plant and Equipment: Proceeds before Intended Use	1 January 2022
Amendments to HKAS 37, Onerous Contracts – Cost of Fulfilling a Contract	1 January 2022
Annual Improvements to HKFRSs 2018-2020 Cycle	1 January 2022

The Group is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(a) Subsidiaries and non-controlling interests (Cont'd)

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the equity shareholders of the Company.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (see note 2.5(g)) or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 2.5(h)).

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(b) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy with reference to the observability and significance of the inputs that are used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs.

For assets and liabilities that are measured at fair value and recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation at the end of each reporting period.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(c) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
 - The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(d) Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings4%

Leasehold improvements
 Over the lease terms

Furniture, fixtures and equipment
 15%–33½%

Motor vehicles25%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the consolidated statement of profit or loss in the year the asset is derecognised is the difference between the net sale proceeds and the carrying amount of the relevant asset.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(e) Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash-generating unit level. Such intangible assets are not amortised. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether the indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is accounted for on a prospective basis.

Intangible assets, which consist of the Stock and Futures Exchange trading rights, being the eligibility rights to trade on or through The Stock Exchange of Hong Kong Limited and Hong Kong Futures Exchange Limited with indefinite useful lives, are tested for impairment annually either individually or at the cash-generating unit level. Such intangible assets are not amortised. The useful life of the Stock and Futures Exchange trading rights is reviewed annually to determine whether the indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is accounted for on a prospective basis.

(f) Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(f) Leases (Cont'd)

Where the contract contains lease component(s) and non-lease component(s), the Group has elected to separate non-lease components and accounts for each lease component.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see note 2.5(h)).

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(f) Leases (Cont'd)

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification.

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

(g) Financial assets and financial liabilities

(i) Recognition and initial measurement

The Group classifies its financial assets into the following measurement categories: amortised cost; fair value through other comprehensive income ("FVOCI"); and fair value through profit or loss ("FVPL"). When financial assets are recognised initially, they are measured at fair value plus transaction costs that are attributable to the acquisition of the financial assets, except in the case of financial assets recorded at fair value through profit or loss for which transaction costs are recognised directly in profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

All financial liabilities are recognised initially at its fair value net of directly attributable transaction costs.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(g) Financial assets and financial liabilities (Cont'd)

(ii) Classification

On initial recognition, a financial asset is classified as measured at: amortised cost, FVOCI or FVPL.

Financial asset measured at amortised cost or at FVOCI

A financial asset is measured at amortised cost if it has contractual terms that give rise to cash flows that are solely payments of principal and interest ("SPPI characteristics"). Principal is the fair value of the financial asset at initial recognition but this may change over the life of the instrument as amounts are repaid. Interest consists of consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period and for other basic lending risks and costs, as well as profit margin.

Whether financial assets are held at amortised cost or at FVOCI depend on the objectives of the business models under which the assets are held. A business model refers to how the Group manages financial assets to generate cash flows. The Group makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and its strategy for how those risks are managed;
- how managers of the business are compensated (e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected); and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realized.

Financial assets which have SPPI characteristics and that are held within a business model whose objective is to hold financial assets to collect contractual cash flows ("hold to collect") are recorded at amortised cost. Conversely, financial assets which have SPPI characteristics but are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets ("hold to collect and sell") are classified as held at FVOCI.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(g) Financial assets and financial liabilities (Cont'd)

(ii) Classification (Cont'd)

Assessment of whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin. In assessing whether the contractual cash flows are SPPI, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's claim to cash flows from specified assets; and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rate).

Financial asset measured at FVPL

Financial assets which are not held at amortised cost or not held at fair value through other comprehensive income are held at fair value through profit or loss. Financial assets and financial liabilities held at fair value through profit or loss are either mandatorily classified as fair value through profit or loss or irrevocably designated at fair value through profit or loss at initial recognition.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(g) Financial assets and financial liabilities (Cont'd)

(ii) Classification (Cont'd)

Financial asset measured at FVPL (Cont'd)

Financial assets and financial liabilities which are mandatorily held at fair value through profit or loss are split between two sub-categories as follows:

- Trading, including financial assets and liabilities held for trading, which are those
 acquired principally for the purpose of selling in the short term and derivatives.
- Non-trading mandatorily at fair value through profit or loss, including instruments (other than trading or derivatives) in a business which has a fair value business model, hybrid financial assets that contain one or more embedded derivatives, financial asset that would otherwise be measured at amortised cost or FVOCI but which do not have SPPI characteristics and equity instruments that have not been designated as held at FVOCI.

Financial assets and financial liabilities may be designated at fair value through profit or loss when the designation eliminates or significantly reduces measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities on a different basis.

Financial liabilities that are not financial guarantees or loan commitments and that are not classified as financial liabilities held at fair value through profit or loss are classified as financial liabilities held at amortised cost.

The Group's financial liabilities include accounts payable, other payables and certain accruals and interest-bearing bank borrowings. The Group classified its financial liabilities as subsequently measured at amortised cost.

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Group changes its business model for managing financial assets.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(g) Financial assets and financial liabilities (Cont'd)

(iii) Subsequent measurement

Financial assets and financial liabilities held at amortised cost are subsequently carried at amortised cost using the effective interest method.

Financial assets and liabilities mandatorily held at fair value through profit or loss and financial assets designated at fair value through profit or loss are subsequently carried at fair value, with gains and losses arising from changes in fair value recorded in revenue from other sources line in the statement of profit or loss unless the instrument is part of a cash flow hedging relationship. Contractual interest income on financial assets held at fair value through profit or loss is recognised as interest income in the statement of profit or loss.

(iv) Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss.

The Group enters into transactions whereby it transfers assets recognised on its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. In such cases, the transferred assets are not derecognised. Examples of such transactions are securities lending and sale-and-repurchase transactions.

In transactions in which the Group neither retains nor transfers substantially all of the risks and rewards of ownership of a financial asset and it retains control over the asset, the Group continues to recognise the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

The Group derecognises a financial liability when its contractual obligations are discharged or expired.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(h) Credit losses and impairment of assets

(i) Credit losses from financial assets measured at amortised cost and FVOCI

Expected credit losses ("ECLs") are determined for all financial instruments that are classified at amortised cost or at FVOCI, undrawn commitments and financial guarantees. Financial assets measured at FVPL are not subject to the ECL assessment. The Group recognises a loss allowances for ECL on accounts receivable, bank balances, obligation under repurchase agreements, except for advances to cash clients, which are measured at fair value through profit or loss.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

For undrawn loan commitments, expected cash shortfalls are measured as the difference between (i) the contractual cash flows that would be due to the Group if the holder of the loan commitment draws down on the loan and (ii) the cash flows that the Group expects to receive if the loan is drawn down.

The expected cash shortfalls are discounted using the following discount rates where the effect of discounting is material:

- fixed-rate financial assets: effective interest rate determined at initial recognition or an approximation thereof;
- variable-rate financial assets: current effective interest rate;
- lease receivables: discount rate used in the measurement of the lease receivable;
 and
- loan commitments: current risk-free rate adjusted for risks specific to the cash flows

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECLs, the Group takes into accounts reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(h) Credit losses and impairment of assets (Cont'd)

(i) Credit losses from financial assets measured at amortised cost and FVOCI (Cont'd)

Measurement of ECLs (Cont'd)

ECLs are measured on either of the following bases:

- 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and
- Lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.
- Stage 1 Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs.

Loss allowances for accounts receivable arising from corporate finance, advisory and other services are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments (including loan commitments issued), the Group recognises a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(h) Credit losses and impairment of assets (Cont'd)

(i) Credit losses from financial assets measured at amortised cost and FVOCI (Cont'd)

Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the debtor is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is past due over 90 days. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor;
 and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt securities that are measured at FVOCI and accumulated in the fair value reserve (recycling).

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(h) Credit losses and impairment of assets (Cont'd)

(i) Credit losses from financial assets measured at amortised cost and FVOCI (Cont'd)

Basis of calculation of interest income

Interest income recognised in accordance with note 2.5(p) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset.

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable events:

- significant financial difficulties of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the borrower will enter into bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; or
- the disappearance of an active market for a security because of financial difficulties of the issuer.

Write-off policy

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(h) Credit losses and impairment of assets (Cont'd)

(ii) Impairment of other non-current assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or, except in the case of goodwill, an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment, including right-of-use assets;
- intangible assets (other than goodwill); and
- investments in subsidiaries, in Company's statement of financial position.

If any such indication exists, the asset's recoverable amount is estimated. In addition, for intangible assets that are not yet available for use and intangible assets that have indefinite useful lives, the recoverable amount is estimated annually whether or not there is any indication of impairment.

Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (or group of units) and then, to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(h) Credit losses and impairment of assets (Cont'd)

(ii) Impairment of other non-current assets (Cont'd)

Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

(i) Contract assets and contract liabilities

A contract asset is recognised when the Group recognises revenue (see note 2.5(p)) before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for expected credit losses in accordance with the policy set out in note 2.5(h) and are reclassified to receivables when the right to the consideration has become unconditional.

A contract liability is recognised when the customer pays non-refundable consideration before the Group recognises the related revenue (see note 2.5(p)). A contract liability would also be recognised if the Group has an unconditional right to receive non-refundable consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis. When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(j) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

(k) Accounts and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset (see note 2.5(i)).

Receivables are stated at amortised cost using the effective interest method less allowance for credit losses (see note 2.5(h)).

(I) Cash and bank balances

For the purpose of the consolidated statement of cash flows, cash and bank balances comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and bank balances comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

Cash and cash equivalents are assessed for expected credit losses in accordance with the policy set out in note 2.5(h)(i).

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(m) Bank balances held on behalf of clients

The Group has classified clients' monies as bank balances held on behalf of clients under the current assets section of the consolidated statement of financial position and recognised a corresponding accounts payable to respective clients on grounds that the Group is liable for any loss or misappropriation of clients' monies. Bank balance held on behalf of clients are assessed for expected credit losses in accordance with the policy set out in note 2.5(h)(i).

(n) Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the consolidated statement of profit or loss.

(o) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(o) Income tax (Cont'd)

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(p) Revenue and other income

Income is classified by the Group as revenue when it arises from the provision of services.

Revenue is recognised when control over service is transferred to the customer at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties.

Where the contract contains a variable consideration, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the promised goods or services to a customer and includes in the transaction price some or all of the variable consideration estimated, such that revenue is only recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

Where the contract contains a financing component which provides a significant financing benefit to the customer for more than 12 months, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction with the customer, and interest income is accrued separately under the effective interest method. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. The Group takes advantage of the practical expedient of in paragraph 63 of HKFRS 15 and does not adjust the consideration for any effects of a significant financing component if the period of financing is 12 months or less.

Further details of the Group's revenue and other income recognition policies are as follows:

(a) Brokerage business income

Brokerage commission income is recognised on a trade date basis when the relevant transactions are executed. Handling and settlement fee income arising from brokerage business is recognised when the related services are rendered.

(b) Corporate finance business income

(i) Underwriting fee income

Underwriting fee income is recognised when the Group has fulfilled its obligations under the underwriting contract.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(p) Revenue and other income (Cont'd)

(b) Corporate finance business income (Cont'd)

(ii) Sponsorship fee income and financial and compliance advisory fee income

Depending on the nature and the contract terms, the income is recognised progressively over time using a method that depicts the Group's performance, or at a point in time when the advisory service is completed.

(c) Asset management fee income

Asset management fee income includes periodic management fees calculated based on assets under management and performance-based fees. The income is recognised progressively over time using a method that depicts the Group's performance, to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

(d) Interest income

Interest income is recognised as it accrues using the effective interest method. For financial assets measured at amortised cost or FVOCI (recycling) that are not creditimpaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of loss allowance) of the asset (see note 2.5(h)(i)).

(e) Dividend income

Dividend income from unlisted investments is recognised when the shareholder's right to receive payment is established.

Dividend income from listed investments is recognised when the share price of the investment goes ex-dividend.

(f) Investment income

Investment income, including realised fair value gains or losses on listed and unlisted investments trading, recognised on trade date and unrealised fair value gains or losses on changes in fair value recognised at the end of the reporting period.

(g) Other income

Other income is recognised on an accrual basis.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(q) Interest-bearing borrowings

Interest-bearing borrowings are measured initially at fair value less transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with the Group's accounting policy for borrowing costs.

(r) Employee benefits

(i) Short term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees.

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its employees. The Group also retains its previous retirement scheme (the "ORSO Scheme") registered under the Occupational Retirement Scheme Ordinance as a top-up benefit for its employees.

Contributions are made based on a percentage of the employees' relevant income or basic salaries, whichever is greater, and are charged to the consolidated statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme and the ORSO Scheme. For the ORSO Scheme, when the contribution exceeds the statutory maximum requirements, the excess contribution is credited as the employer's voluntary contribution to the ORSO Scheme. The employer's mandatory contributions to the MPF Scheme vest fully with the employees when contributed into the MPF Scheme. The employer's voluntary contributions to the ORSO Scheme vest with the employees according to the vesting scale of the ORSO Scheme. Forfeited contributions in respect of employees who leave the Group before their contributions fully vest are available to the Group to offset its future voluntary contributions.

The assets of the MPF Scheme and the ORSO Scheme are held separately from those of the Group in independently administered funds.

(ii) Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(s) Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the consolidated statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at ruling at the transaction dates. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

When the functional currencies of overseas subsidiaries are currencies other than the Hong Kong dollar, as at the end of the reporting period, the assets and liabilities of these entities are translated into Hong Kong dollars at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into Hong Kong dollars at the average exchange rates for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the consolidated statement of profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

(Expressed in Hong Kong dollars unless otherwise indicated)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(t) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

(Expressed in Hong Kong dollars unless otherwise indicated)

3 SIGNIFICANT JUDGEMENT AND ACCOUNTING ESTIMATES

The preparation of the Group's financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Measurement of ECL

Impairment assessment under ECL for financial assets at FVOCI and financial assets at amortised cost.

The impairment assessment under ECL is an area that requires the use of models and assumptions about future economic conditions and the credit risk of the respective financial instrument.

(i) Inputs, assumptions and estimation techniques

ECL is the discounted product of expected future cash flows by using the Probability of Default ("PD"), Loss Given Default ("LGD") and Exposure at Default ("EAD"), of which PD and LGD are estimates based on significant management judgement. For credit-impaired financial assets, the management considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

(ii) Forward-looking information

In measuring ECL in accordance with HKFRS 9, it should consider forward-looking information. The calculation of ECL incorporates forward-looking information through the use of publicly available economic data and forecasts based on assumptions and management judgement to reflect the qualitative factors and through the use of multiple probability weighted scenarios.

(Expressed in Hong Kong dollars unless otherwise indicated)

4 OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their services and has five reportable operating segments as disclosed in the below table.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/(loss), which is a measure of adjusted profit/(loss) before taxation.

Segment assets exclude deferred tax assets, tax recoverable and unlisted club debentures included in other assets as these assets are managed on a group basis.

Segment liabilities exclude deferred tax liabilities and tax payable as these liabilities are managed on a group basis.

Geographical information

The Group's operations are substantially located in Hong Kong and substantially all non-current assets of the Group are located in Hong Kong. Therefore, no further analysis of geographical information is presented.

Information about major customers

As the revenue from sales of goods or rendering of services attributable to the 5 largest customers combined is less than 30% of the Group's total revenue during the year, no information about major customers is presented in pursuant to Appendix 16.31 of Main Board Listing Rules.

(Expressed in Hong Kong dollars unless otherwise indicated)

5 REVENUE AND OTHER GAINS, NET

An analysis of revenue, which is also the Group's turnover and other gains, are as follows:

(b) Revenue expected to be recognised in the future arising from contracts with customers in existence at the reporting date

For corporate finance business contracts in existence as at 31 December 2020, the Group will recognise the expected revenue in future when the remaining performance obligations under the contracts are satisfied (see note 2.5(p)). The Group has applied the practical expedient in paragraph 121 of HKFRS 15, as the Group has a right to invoice, which corresponds directly to the value to the customer of the Group's performance completed to date.

(Expressed in Hong Kong dollars unless otherwise indicated)

6 OTHER EXPENSES

The Group's other expenses comprise the followings:

	2020 HK\$'000	2019 HK\$'000
System expenses and maintenance	40,360	32,047
General office expenses	11,731	4,502
Net charges for expected credit losses	11,723	14,719
Research expenses	9,700	10,000
Rent and rates	8,054	25,341

Clearing house and custody fee	2,792	3,511
Others	12,997	9,708
	125,740	133,826

(Expressed in Hong Kong dollars unless otherwise indicated)

7 PROFIT BEFORE TAXATION

The Group's profit before taxation is arrived at after charging/(crediting):

	2020 HK\$'000	2019 HK\$'000
Employee benefit expenses (including directors' emoluments — note 8):		
Salaries and other staff costs	268,317	240,703
Retirement benefit scheme contributions Less: Forfeited contributions	13,415 (1,685)	10,722 (1,481)
Net retirement benefit scheme contributions*	11,730	9,241
	280,047	249,944
Other expenses		
Interest expenses on loans and overdrafts wholly repayable within five years	93,238	22,398
Interest on lease liabilities Interest expense on financial liabilities at FVPL	2,073	1,208
Interest expense on obligation under repurchase agreement	2,792	7,128 -
Auditors' remuneration	3,980	2,080

^{*} At 31 December 2020, the Group had nil forfeited contributions (2019: HK\$Nil) which were included in prepayment, deposits and other receivables in the consolidated statement of financial position which is available to reduce its contributions to the retirement benefit schemes in future.

(Expressed in Hong Kong dollars unless otherwise indicated)

8 DIRECTORS' EMOLUMENTS

Directors' emoluments for the year, disclosed pursuant to the Listing Rules, section 383(1)(a), (b), (c) and (f) of the Hong Kong Companies Ordinance and Part 2 of the Companies (Disclosure of Information about Benefits of Directors) Regulation, is as follows:

	2020 HK\$'000	2019 HK\$'000 (Restated*)
Fees	540	540
Other emoluments: Salaries, allowances and benefits in kind Retirement benefit scheme contributions	6,078** -	9,560 –
	6,078	9,560
	6,618	10,100

^{*} The amount in 2019 was restated upon completion of evaluation of the performance of the Executive Directors in 2020.

(a) Independent non-executive directors

The fees paid to independent non-executive directors during the year were as follows:

	2020 HK\$'000	2019 HK\$'000
Ng Wing Hang Patrick	180	180
Kwok Lam Kwong Larry	180	180
Chen Liqiang	180	180
	540	540

There were no other emoluments payable to the independent non-executive directors during the year (2019: Nil).

^{**} The evaluation of the performance of the Executive Directors has not yet been completed. Thus, the amount of salaries, allowances and benefits in kind has not been determined and the final amount will be disclosed in due course.

(Expressed in Hong Kong dollars unless otherwise indicated)

8 DIRECTORS' EMOLUMENTS (Cont'd)

(b) Executive directors and non-executive directors

The emoluments paid to executive directors and non-executive director during the year was as follows:

	Fees HK\$′000	Salaries, allowances and benefits in kind HK\$'000	Retirement benefit scheme contributions HK\$'000	Total emoluments HK\$′000

^{**} The evaluation of the performance of the employees has not yet been completed. Thus, the amount of bonuses has not been determined and the final amount will be disclosed in due course.

(Expressed in Hong Kong dollars unless otherwise indicated)

10 INCOME TAX

(a) Taxation in the consolidated statement of profit or loss represents:

	2020 HK\$'000	2019 HK\$'000
Current tax — Hong Kong Profits Tax		
Provision for the year	33,427	20,969
Over-provision in respect of prior years	(1,825)	(19)
	31,602	20,950
Current tax — Elsewhere	733	1,004
Deferred tax (note 17)	999	(696)
	33,334	21,258

Hong Kong Profits Tax has been provided at the rate of 16.5% (2019: 16.5%) on the estimated assessable profits arising in Hong Kong during the year. Taxes on profits assessable elsewhere have been calculated at the appropriate current rates of tax prevailing in the jurisdictions in which the Group operates.

(b) Reconciliation between tax expense and accounting profit at applicable tax rates:

A reconciliation of the tax expense applicable to profit before taxation at the statutory rate for the jurisdiction in which the Company and the majority of its subsidiaries are domiciled to the tax expense for the year at the effective tax rate is as follows:

	2020 HK\$'000	2019 HK\$'000
Profit before taxation	208,960	157,921
Tax at the statutory tax rate of 16.5% (2019: 16.5%)	34,478	26,057
Over-provision in respect of prior years	(1,825)	(19)
Tax effect of non-taxable income	(53,231)	(16,743)
Tax effect of non-deductible expenses	36,587	8,098
Effect of different tax rates of companies operating in		
other jurisdictions	22	8
Tax effect of tax losses not recognised	19,546	6,683
Recognition of deferred tax assets on prior year tax losses	(7,879)	(5,355)
Others	5,636	2,529
Tax expense for the year at the Group's effective rate		
(2020: 16.0%; 2019: 13.5%)	33,334	21,258

(Expressed in Hong Kong dollars unless otherwise indicated)

11 DIVIDEND

(a) Dividends payable to equity shareholders of the Company attributable to the year

	2020	2019
	HK\$'000	HK\$'000
Final dividend proposed after the end of the reporting		
period of HK4 cents (2019: HK3 cents) per		
ordinary share	62,446	46,834

The final dividend proposed after the end of the reporting period has not been recognised as a liability at the end of the reporting period.

(b) Dividends payable to equity shareholders of the Company attributable to the previous financial year, approved and paid during the year

	2020 HK\$'000	2019 HK\$'000
Final dividend in respect of the previous financial year,		
approved and paid during the year, of HK3 cents (2019: HK2 cents) per ordinary share	46,834	31,223

12 EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE COMPANY

Basic earnings per share is calculated by dividing the profit for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares in issue during the year. The Group had no potentially dilutive ordinary shares in issue during those years. As at 31 December 2020, the total number of the issued ordinary shares was 1,561,138,689 shares (2019: 1,561,138,689 shares).

	2020	2019
Earnings		
Profit for the year attributable to ordinary equity holders		
of the Company (HK\$'000)	175,626	136,664
Number of shares		
Weighted average number of ordinary shares in issue		
(in thousands)	1,561,139	1,458,440
Earnings per share, basic and diluted (HK cents per share)	11.25	9.37

(Expressed in Hong Kong dollars unless otherwise indicated)

13 PROPERTY, PLANT AND EQUIPMENT

	Buildings HK\$'000	Leasehold improvements HK\$'000	Furniture, fixtures and equipment HK\$'000	Motor vehicles HK\$'000	Total HK\$'000

Disposals	766
•	
At 31 December 2020	(47,958)
Net book value:	
At 31 December 2020	38,119
At 31 December 2019	68,631

(Expressed in Hong Kong dollars unless otherwise indicated)

14 RIGHT-OF-USE ASSETS (Cont'd)

The analysis of expense items in relation to leases recognised in profit or loss is as follows:

	2020 HK\$'000	2019 HK\$'000
Depreciation charge of right-of-use assets by class of underlying asset:		
Other properties leased for own use	33,258	15,030
Plant, machinery and equipment	227	209
	33,485	15,239
Interest on lease liabilities (note 24(b))	2,073	1,208
Expense relating to short-term leases and other leases with		
remaining lease term ended on or before 31 December 2019	1,973	16,116
Expense relating to low-value assets	1,413	_

During the year, additions to right-of-use assets were HK\$3,666,000. This amount did not include the purchase of a leasehold property, and the remainder primarily related to the capitalised lease payments payable under new tenancy agreements.

Details of total cash outflow for leases, the maturity analysis of lease liabilities and the future cash outflows arising from leases that are not yet commenced are set out in notes 24(c), 29 and 32 respectively.

15 STOCK AND FUTURES EXCHANGE TRADING RIGHTS

	2020 HK\$'000	2019 HK\$'000
Cost and carrying amount as at 1 January and 31 December	4,212	4,212

16 OTHER ASSETS

	2020 HK\$'000	2019 HK\$'000
Deposits with exchanges and clearing houses	20,866	15,184
Unlisted club debentures	2,470	2,470
Other deposits and prepayments	7,251	19,471
	30,587	37,125

None of the above assets is either past due or impaired.

(Expressed in Hong Kong dollars unless otherwise indicated)

17 DEFERRED TAX

Deferred tax liabilities

The movements in deferred tax assets and liabilities during the year are as follows:

	Losses available for offsetting against future taxable profits HK\$'000	Deductible temporary differences HK\$'000	Credit loss allowance HK\$'000	Fair value movement of financial assets at FVOCI HK\$'000	Total HK\$'000
Deferred tax assets					
At 1 January 2019 Deferred tax (charged)/credited to the consolidated statement of profit	4,589	35	-	-	4,624
or loss during the year (note 10)	(1,331)	4	2,093	_	766
At 31 December 2019 and 1 January 2020 Deferred tax (charged)/credited to	3,258	39	2,093		5,390

Accelerated tax depreciation
HK\$'000

At 1 January 2019 Deferred tax charged to the consolidated statement of profit or	943
loss during the year (note 10)	70
At 31 December 2019 and 1 January 2020 Deferred tax credited to the consolidated statement of profit or	1,013
loss during the year (note 10)	(437)
At 31 December 2020	576

(Expressed in Hong Kong dollars unless otherwise indicated)

17 DEFERRED TAX (Cont'd)

Other than the losses available for offsetting against future taxable profits for which deferred tax assets are recognised as at 31 December 2020, the Group has unrecognised tax losses arising in Hong Kong of HK\$294,694,000 (2019: HK\$215,390,000), subject to agreement by the Inland Revenue Department, that are available indefinitely for offsetting against future taxable profits of the companies in which the losses arose. Deferred tax assets have not been recognised in respect of these losses as it is uncertain whether sufficient future taxable profits will be available from these group companies against which the tax losses can be utilised. At 31 December 2020, there was no significant unrecognised deferred tax liabilities (2019: Nil) for taxes that would be payable on the unremitted earnings of certain of the Group's subsidiaries.

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

20 ACCOUNTS RECEIVABLE

(a) Accounts receivable comprise:

	31 December 2020 HK\$'000	31 December 2019 HK\$'000
 (i) Measured at amortised cost: Accounts receivable arising from securities dealing — Cash Clients — Brokers and dealers — Clearing houses 	1,382,825 411,679 178,778	936,891 276,150 403,500
	1,973,282	1,616,541
Accounts receivable arising from corporate finance, advisory and other services — Corporate Clients	14,552	45,554
	14,552	45,554
Less: Expected credit losses (Stage 1) Less: Expected credit losses (Stage 3)	1,987,834 (806) -	1,662,095 (1,473) (1,096)
	1,987,028	1,659,526
(ii) Measured FVPL Accounts receivable arising from securities dealing		
 Advances to cash clients 	27,790	31,684
Total	2,014,818	1,691,210

(Expressed in Hong Kong dollars unless otherwise indicated)

20 ACCOUNTS RECEIVABLE (Cont'd)

(b) Ageing analysis of accounts receivable

An ageing analysis of accounts receivable from cash clients and advances to cash clients based on the trade date is as follows:

	2020	2019
	HK\$'000	HK\$'000
Within 1 month	1,400,079	950,578
1 to 2 months	4,100	8,929
2 to 3 months	246	2,238
Over 3 months	6,190	6,830
	1,410,615	968,575

The ageing of accounts receivable from clearing houses, brokers and dealers are within one month and are not past due. They represent (1) pending trades arising from business of dealing in securities, which are normally due within a few days after the trade date, (2) deposits at clearing houses arising from the business of dealing in securities, futures and options contracts and (3) cash and deposits balances at brokers and dealers.

The ageing of accounts receivable from corporate clients arising from corporate finance, advisory and other services are mostly within one month. As at 31 December 2020, balances of HK\$1,403,000 (2019: HK\$108,000) were over 3 months past due, balance of HK\$709,000 (2019: HK\$375,000) were 1 to 3 months past due, balance of HK\$70,000 (2019: HK\$nil) were less than 1 month past due, and balances of HK\$12,370,000 (2019: HK\$45,071,000) were not past due.

Save for the credit period allowed by the Group, the accounts receivable from cash clients shall be due on the settlement dates of the respective securities and futures contract transactions. In view of the fact that the Group's accounts receivable relate to a large number of diversified customers, there is no significant concentration of credit risk. Although the Group does not hold any collaterals or other credit enhancements over its accounts receivable from cash clients, the Group is allowed to dispose of the securities deposited by the customers with the Group to settle any overdue amounts. Advances to cash clients of HK\$27,790,000 (2019: HK\$31,684,000) bear interest at interest rates mainly with reference to the Hong Kong dollar prime rate (2019: with reference to the Hong Kong dollar prime rate). Advances to cash clients is covered by securities deposited with the Group of total market value HK\$2,384,689,000 (2019: HK\$1,702,267,000).

(Expressed in Hong Kong dollars unless otherwise indicated)

20 ACCOUNTS RECEIVABLE (Cont'd)

(b) Ageing analysis of accounts receivable (Cont'd)

The ageing analysis of the accounts receivable from cash clients and advances to cash clients that are not individually nor collectively considered to be impaired, i.e. based on the settlement date, is as follows:

	2020	2019
	HK\$'000	HK\$'000
Not past due	988,552	936,891
Less than 1 month past due	411,628	14,664
1 to 3 months past due	4,276	10,250
Over 3 months past due	6,159	6,770
	1,410,615	968,575

Receivables that were neither past due nor impaired relate to a large number of diversified customers for whom there was no recent history of default and are covered by securities deposited with the Group.

Receivables that were past due but not impaired relate to a large number of diversified cash clients. Based on past experience, the directors of the Company are of the opinion that no provision for impairment is necessary in respect of these balances as they are covered by securities deposited with the Group and there has not been a significant change in credit quality. The balances are therefore considered to be fully recoverable.

(Expressed in Hong Kong dollars unless otherwise indicated)

21 LOANS AND ADVANCES

	2020 HK\$'000	2019 HK\$′000
Loans and advances to customers: — at FVPL — at amortised cost	2,355,796 537,242	872,588 -
	2,893,038	872,588

Loan and advances represent loans and advances to margin clients amounted to HK\$2,355,796,000 (2019: HK\$872,588,000) which are stated at fair value at the reporting date, and IPO loan amounted to HK\$537,242,000 (2019: HK\$ Nil) which are stated at amortised cost.

Customers are required to provide collateral to the Group for the loans and advances granted. As at 31 December 2020, the total market value of the securities pledged by customers to the Group as collateral in respect of the above loans and advances to customers was HK\$9,849,838,000 (2019: HK\$4,881,646,000), of which a total market value of HK\$Nil (2019: HK\$ Nil) of such collateral was pledged with banks to secure the Group's utilised bank loans (note 28) and unutilised bank facilities as at 31 December 2020.

The Group is allowed to dispose of the collateral in settlement of the customers' obligation to maintain the agreed level of margin and any other liability of the customers due to the Group. The Group is allowed to deposit the collateral with an authorised institution as collateral for financial accommodation provided to the Group according to the applicable legislations and regulations.

In view of the fact that the Group's loans and advances relate to a large number of diversified customers, there is no significant concentration of credit risk. Loans and advances to margin clients of HK\$2,355,796,000 (2019: HK\$872,588,000) bear interest at interest rates mainly with reference to the Hong Kong dollar prime rate (2019: with reference to the Hong Kong dollar prime rate).

The Group's loans and advances to customers were repayable on demand at the end of the reporting period.

(Expressed in Hong Kong dollars unless otherwise indicated)

22 PREPAYMENTS, DEPOSITS AND OTHER RECEIVABLES

	2020 HK\$'000	2019 HK\$'000
Prepayments Deposits and other receivables	30,193 515,097	18,083 61,552
	545,290	79,635

None of the above assets is either past due or impaired. The financial assets included in the above balances relate to receivables for which there was no recent history of default.

23 BANK BALANCES HELD ON BEHALF OF CLIENTS

The Group maintains segregated trust accounts with authorized banks to hold clients' monies in accordance with the relevant legislation. The Group is allowed to retain some or all of the interest on the clients' monies. The Group is not allowed to use the clients' monies to settle its own obligations.

As at 31 December 2020, allowance for expected credit losses of HK\$335,000 was recognised (2019: HK\$335,000) for bank balances held on behalf of clients.

(Expressed in Hong Kong dollars unless otherwise indicated)

24 CASH AND BANK BALANCES AND OTHER CASH FLOW INFORMATION

(a) Cash and bank balances:

As at 31 December 2020, the cash and bank balances of the Group denominated in Renminbi ("RMB") amounted to HK\$47,597,000 (2019: HK\$22,768,000).

Cash at bank balances earn interest at floating rates based on daily bank deposit rates. Short-term time deposit is made for one week, and earns interest at the respective short-term time deposit rates. The cash and bank balances are deposited with creditworthy banks with no recent history of default.

(Expressed in Hong Kong dollars unless otherwise indicated)

33 RELATED PARTY TRANSACTIONS (Cont'd)

(a) Material related party transactions (Cont'd)

Notes:

- (i) The commission expenses paid to a wholly-owned subsidiary of the ultimate holding Company were calculated based on the prescribed percentage stated in the signed cooperation agreement for clients' transaction amount in Shenzhen and Shanghai B shares.
- (ii) The research fee paid to a subsidiary of the ultimate holding Company was charged at a fixed amount in accordance with the signed agreement with reference to actual cost incurred.
- (iii) The consultancy fee for supporting service in relation to PRC market paid to the subsidiaries of the ultimate holding Company was charged at a fixed amount in accordance with the signed agreement with reference to actual cost incurred.
- (iv) The consultancy fee for supporting service in relation to Hong Kong and overseas markets paid by a wholly-owned subsidiary of the ultimate holding Company was calculated based on a fixed percentage of the relevant commission earned by the wholly-owned subsidiary of the ultimate holding Company. The amount is included in the accounts receivable balance as at 31 December 2020 and is unsecured, interest-free and repayable on demand.
- (v) The consultancy fee for supporting services in connection with corporate finance business paid to the subsidiary of ultimate holding Company were charged at a fixed amount in accordance with the signed agreement with reference to actual cost incurred. The amount is included in the accounts payable balance as at 31 December 2020 and is unsecured, interest-free and repayable on demand.
- (vi) The principal-to-principal transactions between the Shenwan Hongyuan Group Co., Limited and the Group include, but are not limited to, trading of debt securities on the primary and secondary debt markets, trading of structured products including, but are not limited to, interest rate-linked notes, Over-The-Counter derivatives, equity-linked notes and total return swaps. All principal-to-principal transactions will be conducted between the Shenwan Hongyuan Group Co., Limited (via Shenwan Hongyuan Securities Co., Limited) and the Group on the basis that the Group has a back-to-back demand from its clients of the same transactions.
- (vii) Included in the accounts receivable balance as at 31 December 2020 was a receivable due from a wholly-owned subsidiary of the ultimate holding Company of HK\$27,052,000 (2019: HK\$5,139,000) arising from brokerage services relating to the PRC capital markets. This balance is unsecured, interest-free and repayable on the settlement date of the relevant transactions.
- (viii) Included in the other receivable balance as at 31 December 2020 was consultancy fee receivable due from a wholly-owned subsidiary of the ultimate holding Company of HK\$9,899,000 (2019: HK\$6,224,000) arising from supporting services relating to Hong Kong and overseas markets. This balance is unsecured, interest-free and repayable on the settlement date of the relevant transactions.
- (ix) Included in the accounts payable balance as at 31 December 2020 was a payable to a wholly-owned subsidiary of the ultimate holding Company of the Company of HK\$16,000 (2019: HK\$3,539,000) arising from brokerage services relating to the PRC capital markets. This balance is unsecured, interest-free and payable on the settlement date of the relevant transactions.

(Expressed in Hong Kong dollars unless otherwise indicated)

33 RELATED PARTY TRANSACTIONS (Cont'd)

(a) Material related party transactions (Cont'd)

Notes: (Cont'd)

- (x) Included in the other payables and accruals balance as at 31 December 2020 was a consultancy fee payable to a wholly-owned subsidiary of the ultimate holding Company of the Company of HK\$11,845,000 (2019: HK\$1,911,000) arising from supporting services for PRC market. This balance is unsecured, interest-free and payable on demand.
- (xi) Included in the corporate finance business revenue was an underwriting and sponsorship fee earned from the ultimate holding Company of HK\$nil (2019: HK\$66,479,000) arising from underwriting services for IPO project in Hong Kong market, which charged based on prescribed allocation arrangement stated in the signed underwriting agreements for underwriting and other relevant services.
- (xii) Included in the corporate finance business revenue was a placement brokerage fee earned from the ultimate holding Company of HK\$nil (2019: HK\$31,363,000) arising from placement services for IPO project in Hong Kong market, which was charged based on prescribed allocation arrangement stated in the agreed allocation agreements and a compliance advisory fee earned from the ultimate holding Company of HK\$600,000 (2019: HK\$408,000) arising from compliance advisory services for IPO project in Hong Kong market, which was charged at a fixed amount according to signed agreements.
- (xiii) Included in the accounts receivable as at 31 December 2020 was consultancy fee receivable due from the ultimate holding Company of HK\$nil (2019: HK\$31,363,000) arising from underwriting services for IPO project in Hong Kong market, which charged based on prescribed allocation arrangement stated in the signed underwriting agreements for underwriting and other relevant services.
- (xiv) Included in the accounts receivable as at 31 December 2020 was consultancy fee receivable due from the ultimate holding Company of HK\$108,000 (2019: HK\$108,000) arising from compliance advisory services for IPO project in Hong Kong market, which charged based on prescribed allocation arrangement stated in the signed underwriting agreements for underwriting and other relevant services.
- (xv) Included in the other gains/(losses) was the gain on disposal of a subsidiary of the Company from a wholly-owned subsidiary of the ultimate holding company of the Company of HK\$4,604,000 (2019: HK\$nil).
- (xvi) Included in the accounts receivable as at 31 December 2020 was receivable due from a wholly-owned subsidiary of the ultimate holding company of the Company of HK\$4,459,000 (2019: HK\$nil) arising from disposal of a subsidiary of the Company.
- (xvii) Included in the brokerage business revenue was a commission rebate paid to a subsidiary of the ultimate holding company of the Company of HK\$973,000 (2019: HK\$nil), which charged at fixed percentage of commission income based on the signed agreement.
- (xviii) Included in the accounts payable balance as at 31 December 2020 was the amount of segregated client money held on behalf of an intermediate holding company of the Company of HK\$2,205,000 (2019: HK\$10,667,000). This balance is unsecured, bears interest at the bank deposit rate and is payable on demand.

(Expressed in Hong Kong dollars unless otherwise indicated)

33 RELATED PARTY TRANSACTIONS (Cont'd)

(b) Compensation of key management personnel of the Group:

	2020 HK\$'000	2019 HK\$'000 (Restated*)
Short-term employee benefits Post-employment benefits	67,742** 3,475	55,025 2,131
	71,217	57,156

^{*} The compensations for key management personnel were restated as the bonus was revised upon completion of evaluation of performance of key management personnel.

Further details of directors' emoluments are included in note 8 to the financial statements.

The related party transactions in respect of items (a)(i-vi) above also constitute continuing connected transactions to be disclosed in annual report as defined in Chapter 14A of the Listing Rules.

^{**} The evaluation of the performance of the key management personnel has not yet been completed. Thus, the amount of short-term employee benefits not been determined and the final amount will be disclosed in due course.

(Expressed in Hong Kong dollars unless otherwise indicated)

35 OFFSETTING FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The Group currently has a legally enforceable right to set off the Continuous Net Settlement ("CNS") money obligations receivable and trade payables with Hong Kong Securities Clearing Company Limited ("HKSCC"), which are included in "accounts receivable" and "accounts payable" as presented in the consolidated statement of financial position, respectively. It intends to settle on a net basis as accounts receivable from or accounts payable to the Stock Exchange. The net amount of CNS money obligations receivable or payable with HKSCC and guarantee fund placed in HKSCC do not meet the criteria for offsetting against each other in the financial statements and the Group does not intend to settle the balances on a net basis.

36 FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

(a) Fair value hierarchy

The following tables present the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique (see note 2.5(b)).

The following tables illustrate the fair value measurement hierarchy of the Group's financial instruments:

	Fair value measurement using

			(15,873)

During the years ended 31 December 2020 and 2019, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3.

(b) Valuation techniques and inputs used in Level 2 fair value measurements

The Group measures Level 2 fair values using the following method and there is no change to the valuation technique:

Level 2 — Valuation techniques based on observable input. This category includes unlisted debt investments and unlisted investment funds valued using:

- Quoted market prices in active market for similar instruments;
- Quoted prices for similar instruments in market that are considered less than frequent; or
- Other valuation techniques where all significant inputs are directly or indirectly observable from market data

(Expressed in Hong Kong dollars unless otherwise indicated)

37 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's operating segments include brokerage business, corporate finance business, asset management business, financing and loans business, investment business and other business.

The main risks arising from the Group's normal course of business and its financial instruments are interest rate risk, foreign currency risk, credit risk, liquidity risk and price risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

Interest rate risk

The Group's borrowings from banks during the year are for the provision of financing and loans to customers. The bank borrowings bear interest at interest rates with reference to the HIBOR whereas loans to customers bear interest at interest rates with reference to the Hong Kong dollar prime rate. As the Hong Kong dollar prime rate basically changes in line with the HIBOR, the Group's exposure to the risk of changes in market interest rates is minimal.

The following table demonstrates the sensitivity to a reasonably possible change in Hong Kong dollar interest rate, with all other variables held constant, of the Group's profit before taxation (through the impact on floating rate borrowings, interest-bearing accounts receivable, cash and bank balances, financial assets at FVOCI and loans and advances) and the Group's equity.

	Increase/ (decrease) in basis points	Increase/ (decrease) in profit before taxation HK\$'000	Increase/ (decrease) in equity* HK\$'000
2020			
Hong Kong dollar Hong Kong dollar	25 (25)	159 (159)	759 (759)
2019			
Hong Kong dollar Hong Kong dollar	25 (25)	3,071 (3,071)	1,498 (1,498)

Excluding retained profits

(Expressed in Hong Kong dollars unless otherwise indicated)

37 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

Foreign currency risk

The Group's exposure to fluctuations in exchange rates arises from its dealings in overseas share markets. Such dealings are entered into on behalf of clients of the Group and accounted for a small portion of the Group's revenue. A material portion of such overseas transactions is denominated in United States dollars and RMB. The pegged exchange rate between United States dollars and Hong Kong dollars kept the Group's exchange risk exposure to a minimum and thus, no hedging was required. Exchange gains and/or losses are dealt with in the consolidated statement of profit or loss. The Group has endeavored to closely monitor its foreign currency positions and take necessary measures when the situations so justify. The Group's revenue denominated in currencies other than Hong Kong dollars and United States dollars constituted approximately 3% (2019: 3%) of the total revenue.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the RMB exchange rate, with all other variables held constant, of the Group's profit before taxation and the Group's equity.

	Increase/ (decrease) in RMB rate %	Increase/ (decrease) in profit before taxation HK\$'000	Increase in equity* HK\$'000
2020			
If the Hong Kong dollar weakens against the RMB	8	14,650	_
If the Hong Kong dollar strengthens against the RMB	(8)	(14,650)	_
2019			
If the Hong Kong dollar weakens against the RMB	8	4,846	_
If the Hong Kong dollar strengthens against the RMB	(8)	(4,846)	_

^{*} Excluding retained profits

(Expressed in Hong Kong dollars unless otherwise indicated)

37 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

Credit risk

The Group has put in place a well-established credit policy governing the granting of credit limit to customers. Customers are generally required to deposit their securities with the Group as collateral to their borrowings. The credit department is responsible for assisting the directors in formulating the credit policy of the Group, monitoring the credit risks of customers with reference to the realisable values of the collateral, managing the concentration of credit risk by customer and recommending measures to the directors for granting credit facilities which exceed the authority limit of the credit department. There are no significant concentrations of credit risk within the Group as it relates to a large number of diversified customers.

The credit risk of the Group's financial assets, which comprise cash and bank balances, bank balances held on behalf of clients, investments in debt securities, other assets, deposits and other receivables, loans and advances and accounts receivable, arises from default of the counterparties, with a maximum exposure equal to the carrying amounts of these instruments.

Further quantitative data in respect of the Group's exposure to credit risk arising from accounts receivable and loans and advances are disclosed in notes 20 and 21 to the financial statements, respectively.

(Expressed in Hong Kong dollars unless otherwise indicated)

37 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

Liquidity risk

There is a constant need of funding for the settlement of securities transactions and for the provision of financing and loans to the customers. The source of funding is either from the Group's own capital or borrowings from financial institutions, if necessary.

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both of its financial instruments and financial assets (e.g., accounts receivable) and projected cash flows from operations.

The Group's borrowings from banks during the year are for the provision of financing and loans to customers for their purchases and continuous holding of securities. The maturity of bank borrowings of the Group ranges from overnight to within one year, where the borrowings are either rolled over or repaid by the Group's own funding. In addition, for those clients who are unable to settle their settlement obligations or margin deficits, the Group may dispose of the securities collateral pledged by the customers to the Group. The Group always ensures that the securities collateral pledged by customers is able to be realised in the market within a reasonable period of time.

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted payments, is as follows:

	On demand HK\$'000	Less than 1 year HK\$'000	Over 1 year HK\$'000	Total HK\$′000
2020				
Accounts payable Financial liabilities included in	4,601,897*	1,657,719	-	6,259,616

	4,223,956	1,990,871	-	6,214,827

(Expressed in Hong Kong dollars unless otherwise indicated)

37 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

Liquidity risk (Cont'd)

- * Balance includes bank balances held on behalf of clients under the current asset section of the consolidated statement of financial position of HK\$4,756,813,000 (2019: HK\$3,193,340,000).
- Included in interest-bearing bank borrowings were certain of the Group's bank loans in the amount of HK\$4,271,923,000 (2019: HK\$778,900,000), of which the loan agreements contain repayment on demand clauses giving the banks the unconditional right to call in the loans at any time. Therefore, for the purpose of the above maturity profile, the amounts are classified as "on demand".

Had the banks not called in the loan, the scheduled repayment dates of interest-bearing bank borrowing were less than 1 year from the end of the reporting period (2019: less than 1 year from the end of the reporting period).

Price risk

Price risk is the risk that the fair values or future cash flows due to changes in market prices. The Group was exposed to price risk through its financial instruments at fair value through profit or loss (notes 18 and 25) and financial instruments at fair value through other comprehensive income (note 19) as at 31 December 2020.

The following table demonstrates the sensitivity to every 1% change in the fair values of the investments, with all other variables held constant and before any impact on tax, based on their carrying amounts at the end of the reporting period.

	Increase/ (decrease) in fair value %	Increase/ (decrease) in profit before taxation HK\$'000	Increase/ (decrease) in equity* HK\$'000
2020			
Unlisted investments: Financial assets at fair value through profit or loss:

^{*} Excluding retained profits

^{**} No disclosure for 2019 as there was no level 3 investment.

(Expressed in Hong Kong dollars unless otherwise indicated)

37 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. Certain subsidiaries of the Group are regulated by the Securities and Futures Commission (the "SFC") and are required to comply with certain minimum capital requirements according to the rules of the SFC. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2020 and 2019.

The Group monitors capital using a gearing ratio, which is interest-bearing bank borrowings divided by total equity. The gearing ratio is reviewed and assessed regularly by the board of directors. The gearing ratios as at the end of the reporting periods were as follows:

	2020	2019
	HK\$'000	HK\$'000
Interest-bearing bank borrowings	4,271,923	778,900
Total equity	4,038,666	3,919,317
Gearing ratio	105.8%	19.9%

The increase in gearing ratio was attributable to the increased interest-bearing bank borrowing as the Group's strategy is to expand its business including wealth management and institutional service and trading.
