Chairman's Statement 主席報告

On behalf of the board (the "Board") of directors (the "Directors") of Man Shun Group (Holdings) Limited (the "Company"), I am pleased to present the annual report of the Company and its subsidiaries (collectively, the "Group") for the year ended 31 December 2020.

本人謹代表萬順集團(控股)有限公司(「本公司」) 董事(「董事」)會(「董事會」), 欣然提呈本公司及 其附屬公司(統稱「本集團」)截至二零二零年十二 月三十一日止年度的年度報告。

For the year ended 31 December 2020, the Group recorded a revenue of approximately HK\$127,588,000, which was a year-on-year increase of 11.4% compared to approximately HK\$114,489,000 recorded in the previous financial year. The loss attributable to the equity shareholders of the Company was approximately HK\$8,464,000 (2019: profit of approximately HK\$1,007,000).

截至二零二零年十二月三十一日止年度,本集團錄得收入約127,588,000港元,較上一財政年度錄得之約114,489,000港元同比增加11.4%。本公司權益股東應佔虧損約8,464,000港元(二零一九年:溢利約1,007,000港元)。

The great impact of the novel coronavirus and the macroeconomic uncertainty had a material negative impact on the Group's business. Construction delays and economic slowdown caused pressure on the Group's operations and tendering for new projects. Meanwhile, a large project of the Group was adversely affected by a previous event of significant subsidence and gave rise to delays in construction progress, leading to dramatic increase in resumption costs and significant impact on results.

新型冠狀病毒所帶來的重大影響、宏觀經濟不明 朗等因素對本集團的業務造成重大不良影響,工 程延誤、經濟放緩為本集團的營運及投標新項目 造成壓力。同時,本集團的一項大型項目因先前 的大幅沉降事件而受到不利影響及導致施工進度 延誤,令復工成本大幅增加並嚴重影響業績。

In spite of recent negative factors, the Group will continue to develop and actively explore potential development opportunities, including positively exploring the China market, in order to enhance the Group's future profitability and scale. As an electrical and mechanical engineering service provider of heating, ventilation and air-conditioning system that has rooted in Hong Kong for more than 20 years, the Group will continue to strive to maximize returns for shareholders.

儘管受到近期眾多不利因素影響,惟本集團仍將不斷發展並積極發掘潛在的發展機會,包括積極開拓中國市場,藉此提升本集團未來的盈利能力及規模。作為扎根於香港越20年的暖氣、通風及空調系統機電工程服務供應商,本集團將繼續努力為股東創造最大回報。

The Group will continue to step up its financial and licensing management, internal control and corporate governance. Moreover, the Group will continue to improve the management of business plans and budgets and enhance its capabilities in executing plans and controlling budgets, strengthen its human resources and focus on training talents so as to further raise its management standards which will in return deliver stable and sustainable development to the Group.

本集團將持續加強財務及牌照管理、內部監控、 企業管治,繼續完善其經營計畫管理和預算管理、 提升其執行計劃及控制預算的能力並持續加強其 人力資源並專注培訓人才,以進一步提升其管理 水準,使本集團能穩定、持續發展。

The Group's gross profit margin decreased from approximately 20.6% for the year ended 31 December 2019 to approximately 8.0% for the year ended 31 December 2020. Management Discussion and Analysis 管理層討論及分析

Total comprehensive income attributable to equity shareholders of the Company

For the year ended 31 December 2020, the Group's loss and total comprehensive income attributable to equity shareholders of the Company was approximately HK\$8,464,000 (2019: profit and total comprehensive income of approximately HK\$1,007,000). The decrease in financial results was primarily attributable to additional costs incurred for a substantial project situated nearby the Tai Wai mass transit station (the "Tai Wai Project"). The construction progress of the Tai Wai Project was adversely affected and caused delay due to the substantial subsidence event previously. The resumption of the Tai Wai Project required more labour forces, subcontracting services, monitoring and testing measures to carry on the construction progress which led to the significant decrease in the Group's financial results for the year ended 31 December 2020.

Dividend

The Board does not recommend the payment of a final dividend for the year ended 31 December 2020 (2019: Nil).

Trade and other receivables

Trade receivables decreased by approximately HK\$5,013,000 from approximately HK\$33,241,000 as at 31 December 2019 to approximately HK\$28,228,000 as at 31 December 2020. As at 31 December 2019, the trade receivables balance included a payment certificate of approximately HK\$18,000,000 issued near the end of the financial year which contributed to a larger trade receivable balance when compared with that as at 31 December 2020.

Retention receivables increased by approximately HK\$5,031,000 from approximately HK\$19,409,000 as at 31 December 2019 to approximately HK\$24,440,000 as at 31 December 2020. The increase in retention receivables was in line with the progress of the projects.

Other receivables decreased by approximately HK\$61,000 from approximately HK\$690,000 as at 31 December 2019 to approximately HK\$629,000 as at 31 December 2020.

Trade and other payables

Trade payables decreased by approximately HK\$1,706,000 from approximately HK\$7,741,000 as at 31 December 2019 to approximately HK\$6,035,000 as at 31 December 2020. The decrease was mainly due to the Group made substantial payment to the subcontractors and vendors near the end of 2020.

本公司權益股東應佔全面收益總額

截至二零二零年十二月三十一日止年度,本公司權益股東應佔本集團虧損及年內全面收益約8,464,000港元(二零一九年:溢利及全面收益總額約1,007,000港元)。財務業績下降主要歸因於位於大圍地鐵站附近的大型項目(「大圍項目」)招致的額外費用。由於之前的大幅沉降事件,大大圍項目的施工進度受到不利影響,造成延誤。大大圍項目復工需要更多的勞動力、分包服務、監督和測試措施來推動施工進度,導致本集團截至二零年十二月三十一日止年度的財務業績大幅下降。

股息

董事會不建議派付截至二零二零年十二月三十一 日止年度的末期股息(二零一九年:無)。

貿易及其他應收款項

於二零二零年十二月三十一日,貿易應收款項由 二零一九年十二月三十一日約33,241,000港元下 降約5,013,000港元至約28,228,000港元。於二零 一九年十二月三十一日,貿易應收款項結餘包括 於臨近財政年度結束時發行的約18,000,000港元 糧款證書,因此與二零二零年十二月三十一日相 比,應收貿易款項結餘較高。

於二零二零年十二月三十一日,應收保留金由二零一九年十二月三十一日約19,409,000港元增加約5,031,000港元至約24,440,000港元。該應收保留金增加與項目進度一致。

於二零二零年十二月三十一日,其他應收款項由二零一九年十二月三十一日約690,000港元減少約61,000港元至約629,000港元。

貿易及其他應付款項

於二零二零年十二月三十一日,貿易應付款項由 二零一九年十二月三十一日約7,741,000港元減少 約1,706,000港元至約6,035,000港元。該減少主要 由於本集團於臨近二零二零年末時支付大額款項 予分包商及供應商。

The Group recorded revenue from the provision of air-conditioning installation services in Hong Kong totaling HK\$128 million for the year ended 31 December 2020. 截至二零二零年十二月三十一日止年度, 貴集團於香港錄得來自提供空調安裝服務的收入合共為128,000,000港元。

Contract revenue is recognised progressively over time using the cost-to-cost method based on the contract costs to date as a percentage of total forecast costs. Contract costs are recognised when work is performed, together with any provisions for expected contract losses. 合約收入乃使用成本比例法,按迄今為止合約成本佔總預期成本的百分比隨時間逐漸確認。合約成本於進行工程時連同預期合約虧損的任何撥備確認。

The recognition of revenue and profit therefore relies on management's estimate of the final outcome of each contract, which involves the exercise of significant management judgement, particularly in forecasting the costs to complete a contract, in valuing contract variations, claims and liquidated and ascertained damages, in estimating the amount of expected losses and in assessing the ability of the Group to deliver services according to the agreed timetable.

因此,確認收入及溢利依賴管理層估計各項合約的最終結果,當中涉及作出重大管理判斷,特別是預測合約完成成本、對合約變動、索償及算定賠償作出估值、估計預期虧損金額,以及評估 貴集團根據協定時間表提供服務的能力。

We identified contract accounting estimates as a key audit matter because the estimation of the total contract revenue and total costs to complete contracts is inherently subjective and requires significant management judgement and estimation and because errors in forecast of contract revenue and contract costs could result in a material variance in the amount of profit or loss recognised from contracts to date and, therefore, in current period. 我們將合約會計估計釐定為關鍵審核事項,原因為估計總合約收入及合約完成總成本本身具有主觀性,且須要作出重大的管理層判斷及估計,以及由於錯誤預測合約收入及合約成本可能會導致迄今為止以至於當前期間內就合約確認的損益金額出現重大差異。

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

Independent Auditor's Report 獨立核數師報告

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- 識別及評估由於欺詐或錯誤而導致綜合財務 報表存在重大錯誤陳述的風險,設計及執行 審核程序以應對該等風險,並取得充足適當 的審核憑證,作為我們意見的基礎。由於欺 詐可能涉及串謀、偽造、蓄意遺漏、虚假陳 述,或凌駕於內部監控之上,因此未能發現 因欺詐而導致重大錯誤陳述的風險高於未能 發現因錯誤而導致重大錯誤陳述的風險。

- 評價董事所採用會計政策的恰當性及作出會 計估計和相關披露的合理性。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2 SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs") which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange. Significant accounting policies adopted by the Group are set out below.

2 重大會計政策

(a) 合規聲明

香港會計師公會已頒佈多項香港財務報告準則的修訂,其於本集團目前會計期間首次生效或可供提早採納。附註2(c)載列因初次應用與本集團有關,並已反映於本期及過往會計期間財務報表的新訂與經修訂準則而產生的會計政策變動資料。

(Expressed in Hong Kong dollars unless otherwise indicated) (除另有註明外,均以港元列示)

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(b) Basis of preparation of the financial statements

These financial statements are presented in Hong Kong dollars, rounded to the nearest thousand. The measurement basis used in the preparation of the financial statements is the historical cost basis.

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in Note 3.

(c) Changes in accounting policies

The Group has applied the following amendments to HKFRSs issued by the HKICPA to these financial statements for the current accounting period:

- Amendments to HKFRS 3, Definition of a Business
- Amendments to HKAS 1, Definition of Material

None of the developments have had a material effect on how the Group's result and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

(d) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is included in these financial statements from the date that control commences until the date that control ceases. Intragroup balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing these financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset.

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment losses (see Note 2(g)(ii)).

(e) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses (see Note 2(g)(ii)).

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual value, if any, using the straight line method over their estimated useful lives as follows:

Leasehold improvements
 Shorter of 5
 years or
 unexpired

Leasehold buildings Shorter of 5 years or over

the lease terms

terms of lease

Furniture and fixtures5 years

Computer and office equipment Shorter of 5 years or over the lease

terms

Motor vehicles4 years

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

報廢或出售物業、機器及設備項目產生的盈虧乃釐定為出售所得款項淨額 與該項目賬面值兩者間的差額,並於報廢或出售日期於損益內確認。

折舊乃採用直線法按物業、機器及設備項目的估計剩餘可使用年期計算, 以撇銷其成本並扣除其估計剩餘價值 (如有),詳情如下:

一 租賃物業裝修 5年或租約

未屆滿年期 (以較短者 為準)

一 租賃建築物 5年或租約

未屆滿年期 (以較短者 為準)

一 電腦及辦公室設備 5年或租約 年期(以較

一 汽車 4年

倘物業、機器及設備項目不同部分可 使用年期不同,則將該項目的成本或 估值合理分配至各部分,並獨立計算 折舊。資產的可使用年期及其剩餘價 值(如有)會每年檢討。

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(f) Leased assets

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

(f) 租賃資產

本集團會於合約初始生效時評估該合約是否屬租賃或包含租賃。倘合約為 換取代價而給予在一段時間內控制可 識別資產使用的權利,則該合約屬租 賃或包含租賃。倘客戶有權主導可 別的資產的使用及從該使用中獲取幾 乎所有的經濟收益,則表示控制權已 轉讓。

於租賃開始日期,本集團確認使用權資產和租賃負債,惟租賃期為12個月或更短的短期租賃和低價值資產的租賃除外。當本集團就低價值資產訂立租賃時,本集團按每項租賃情況決定是否將租賃資本化。與該等不作資本化租賃相關的租賃付款在租賃期內按系統基準確認為開支。

當將租賃資本化時,租賃負債最步按 租賃期內應付租賃付款的現值確認利 並使用租賃中隱含的利率或(倘該利率 不可直接釐定)使用相關的遞增借款 事貼現。初步確認後,租賃負債實 對成本計量,而利息開支則採用數 對成本計算。不取決於某一指對實 對 率的可變租賃付款不包括在租 對問於 對 對 對 對 對 的 計量,因此於其產生的會計期間於 損益中支銷。

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(f) Leased assets (continued)

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see Notes 2(e) and 2(g)(ii)).

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification.

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

2 重大會計政策(續)

(f) 租賃資產(續)

於租賃資本化時確認的使用權資產初步按成本計量,包括租賃負債的付款。包括租賃負債的付款。可租赁付款,以及產生的任何初步資產的成本亦包括拆除及移除相關資產或該資產所在地再開資產或該資產所在地其更用的出於任何收取的租賃優惠。種及減值虧損列賬(見附註2(e)及2(g)(ii))。

當租賃範圍發生變化,或者租賃合同中原先沒有規定的租賃對價(「**租賃變更**」)沒有做作為單獨的租賃核算時,也要重新計量租賃負債。在此情況下,租賃負債根據修改後的租賃付款額和租賃期,使用修改生效日的修訂貼現率重新計量。

在綜合財務狀況表中,長期租賃負債 的即期部分按報告期後十二個月內應 結算的合約付款的現值釐定。

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Credit losses and impairment of assets

(i) Credit losses from financial instruments and contract assets

The Group recognises a loss allowance for expected credit losses ("**ECLs**") on the following items:

- financial assets measured at amortised cost (including cash and cash equivalents and trade and other receivables); and
- contract assets as defined in HKFRS 15 (see Note 2(h)).

Financial assets measured at fair value are not subject to the ECL assessment.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The expected cash shortfalls of fixed-rate financial assets such as trade and other receivables and contract assets are discounted using the effective interest rate determined at initial recognition or an approximation thereof where the effect of discounting is material.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECLs, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

(g) 信貸虧損及資產減值

(i) 金融工具信貸虧損及合約資產

本集團就下列項目的預期信貸虧損(「預期信貸虧損」)確認虧損撥備:

- 一 按攤銷成本計量的金融資 產(包括現金及現金等價物 以及貿易及其他應收款 項);及
- 一 香港財務報告準則第15號 所界定的合約資產(見附註 2(h))。

按公平值計量的金融資產毋須進 行預期信貸虧損評估。

預期信貸虧損計量

預期信貸虧損為信貸虧損概率加權估計。信貸虧損按所有預期現金差額(即根據合約應付本集團的現金流量與本集團預期收取的現金流量之間的差額)的現值計量。

倘貼現影響重大,則固定利率金融資產(例如貿易及其他應收款項以及合約資產)的預期現金差額採用按初始確認時釐定的實際利率或其概約利率貼現。

估計預期信貸虧損時所考慮的最 長期間為本集團所面臨信貸風險 的最長合約期間。

在計量預期信貸虧損時,本集團會考慮在毋需付出過多成本及努力下即可獲得的合理可靠的資料,當中包括有關過去事件、當前狀況及未來經濟狀況預測的資料。

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

- (g) Credit losses and impairment of assets (continued)
 - (i) Credit losses from financial instruments and contract assets (continued)
 Measurement of ECLs (continued)
 ECLs are measured on either of the following bases:
 - 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and
 - lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.

Loss allowances for trade receivables and contract assets are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments, the Group recognises a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Credit losses and impairment of assets (continued)

(i) Credit losses from financial instruments and contract assets (continued)

Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is 90 days past due. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Credit losses and impairment of assets (continued)

(i) Credit losses from financial instruments and contract assets (continued)

Significant increases in credit risk (continued)
Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt securities that are measured at FVOCI (recycling), for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve (recycling).

Basis of calculation of interest income

Interest income recognised in accordance with Note 2(p)(ii) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset.

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Significant increases in credit risk (continued) Evidence that a financial asset is credit-impaired includes the following observable events:

- it becoming probable that the borrower will enter into bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; or
- the disappearance of an active market for a security because of financial difficulties of the issuer.

Write-off policy

The gross carrying amount of a financial asset or contract asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Credit losses and impairment of assets (continued)

(ii) Impairment of other assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that property, plant and equipment including right-of-use assets may be impaired or an impairment loss previously recognised no longer exists or may have decreased.

If any such indication exists, the asset's recoverable amount is estimated

Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

(ii) Impairment of other assets (continued)

Reversals of impairment losses

An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

(h) Contract assets and contract liabilities

A contract asset is recognised when the Group recognises revenue (see Note 2(p)) before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for ECLs in accordance with the policy set out in Note 2(g)(i) and are reclassified to receivables when the right to the consideration has become unconditional (see Note 2(i)).

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue (see Note 2(p)). A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised (see Note 2(i)).

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method (see Note 2(p)(ii)).

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(i) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset (see Note 2(h)).

Receivables are stated at amortised cost using the effective interest method less allowance for credit losses (see Note 2(g)(i)).

(j) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated cash flow statement. Cash and cash equivalents are assessed for ECLs in accordance with the policy set out in Note 2(g)(i).

(k) Interest-bearing borrowings

Interest-bearing borrowings are measured initially at fair value less transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with the Group's accounting policy for borrowing costs (see Note 2(q)).

(I) Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

(m) Employee benefits

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

(n) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

(m) 僱員福利

薪金、年度花紅、有薪年假、定額供款退休計劃供款及非貨幣利益的成本乃於僱員提供相關服務的年度內累計。 倘延期支付或清償且影響重大,則該等款項將以其現值列賬。

(n) 所得税

年內所得稅包括即期稅項以及遞延稅 項資產及負債的變動。即期稅項以及 遞延稅項資產及負債的變動於損益確 認,惟倘涉及於其他全面收益或直接 於權益確認的項目則作別論,於此情 況下,相關稅項金額分別於其他全面 收益或直接於權益確認。

即期税項為按年內應課税收入以報告期末已頒佈或實際已頒佈的税率計算的預期應付税項,並就過往年度的應付稅項作出任何調整。

遞延税項資產及負債分別來自可扣稅 及應課税暫時差額,即資產及負債為 財務報告目的呈列的賬面值與其稅基 的差額。遞延稅項資產亦來自未動用 稅項虧損及未動用稅項抵免。

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(n) Income tax (continued)

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enabled at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

(n) Income tax (continued)

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

(o) Provisions, contingent liabilities and onerous contracts

(i) Provisions and contingent liabilities

Provisions are recognised when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

(o) Provisions, contingent liabilities and onerous contracts (continued)

(i) Provisions and contingent liabilities (continued)

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(ii) Onerous contracts

An onerous contract exists when the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. Provisions for onerous contracts are measured at the present value of the lower of the expected cost of terminating the contract and the net cost of continuing with the contract.

(p) Revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer. The Group recognises revenue when it transfers control over a product or service to a customer. "Control" refers to the customer's ability to direct the use of and obtain substantially all of the remaining benefits from an asset.

(i) Contract revenue

Revenue of services transferred over time is recognised progressively based on the contract costs incurred to date as a percentage of total forecast costs to depict the transfer of control of the services to the customer. The Group recognises revenue over time only if it can reasonably measure its progress toward complete satisfaction of the performance obligation. However, if the Group cannot reasonably measure the outcome but expects to recover the costs incurred in satisfying the performance obligation, then it recognises revenue to the extent of the costs incurred.

Any unconditional rights to consideration are presented separately as "Trade receivables".

(ii) Interest income

Interest income is recognised as it accrues using the effective interest method.

(iii) Government grants

Government grants are recognised in the statement of financial position initially when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as income in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are deducted from the carrying amount of the asset and consequently are effectively recognised in profit or loss over the useful life of the asset by way of reduced depreciation expense.

(q) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(s) Segment reporting

Operating segments, and the amounts of each segment item reported in these financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

3 ACCOUNTING JUDGEMENTS AND ESTIMATES

Estimation uncertainty

The key assumption concerning the future and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

(a) Loss allowances on trade receivables, retention receivables and contract assets

For trade receivables, retention receivables and contract assets, the Group applies the simplified approach to provide for ECL as prescribed by HKFRS 9, which requires the use of the lifetime ECL allowance for all trade receivables. The loss allowance for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the loss allowance calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of reporting period. Management reassesses the loss allowance at each reporting date.

3 ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Estimation uncertainty (continued)

(b) Revenue recognition

As explained in Note 2(p), revenue and profit recognition on a project is dependent on management's estimation of the progress of the satisfaction of performance obligations of a construction contract over time, measured by actual contract costs incurred to date to estimate total contract costs for the contract. Based on the Group's recent experience and the nature of the construction activity undertaken by the Group, the Group reviews and revises the estimates of contract revenue. contract costs and variation order, prepared for each construction contract as the contract progresses. Budgeted construction costs are prepared by management on the basis of quotations from time to time provided by the major subcontractors, suppliers and vendors involved and the experience of management. In order to keep the budget accurate and up-to-date, management conducts periodic reviews of the budgeted construction costs and revises the budgeted construction costs as appropriate.

Significant judgement is required in estimating the contract revenue, contract costs and variation work which may have an impact on percentage of completion of the construction contracts and the corresponding profit taken. In addition, actual outcome in terms of total revenue or costs may be higher or lower than estimation at the end of the reporting period, which would affect the revenue and profit recognised in future years as an adjustments to the amounts recorded to date.

No provision for Hong Kong Profits Tax has been made as the Company and its subsidiaries in Hong Kong have either sustained losses for tax purpose or their unused tax losses were sufficient to cover their estimated assessable profits for the year ended 31 December 2020.

The provision for Hong Kong Profits Tax for the year ended 31 December 2019 was calculated at 16.5% of the estimated assessable profits for the year, except for one subsidiary of the Group which is a qualifying corporation under the two-tiered Profits Tax rate regime. For this subsidiary, the first \$2 million of assessable profits was taxed at 8.25% and the remaining assessable profits were taxed at 16.5%.

The provision for Hong Kong Profits Tax for the year ended 31 December 2019 was taken into account a reduction granted by the Hong Kong SAR Government of 75% of the tax payable for the year of assessment 2018-19 subject to a maximum reduction of \$20,000 for each business.

由於截至二零二零年十二月三十一日 止年度並無應課税溢利,且已結轉的 累計虧損已與應課税溢利抵銷,故並 無就香港利得稅作出撥備。

截至二零一九年十二月三十一日止年度香港利得稅撥備乃根據年內估計應課稅溢利的16.5%計算,但集團一間附屬公司為兩級利得稅稅率制度下的合資格法團除外。就該附屬公司而言,首2,000,000元的應課稅溢利以8.25%的稅率徵稅,其餘應課稅溢利以16.5%的稅率徵稅。

截至二零一九年十二月三十一日止年 度香港利得税撥備亦計及香港特別行 政區政府於二零一八至一九年課税年 度應繳税款的75%減免,每項業務最 高減免20,000元。

Typical payment terms which impact on the amount of contract assets recognised are as follows:

對已確認合約資產金額構成影響的一般付款條款如下:

Installation contracts

The Group's installation contracts include payment schedules which require stage payments over the installation period once milestones are reached. These payment schedules prevent the build-up of significant contract assets. The Group typically agrees to a retention period ranging from 12-month period to 24-month period for 5% to 10% of the contract value. This amount is included in the retention receivables until the end of the retention period as the Group's entitlement to this final payment is conditional on the Group's work satisfactorily passing inspection. When the retention period is due and the right to the retention is unconditional, this amount is included in the trade receivables.

The amount of revenue reversed during the year from performance obligations satisfied (or partially satisfied) in previous periods is \$8,713,000 (2019: \$764,000 recognised as revenue), mainly due to the changes in estimate of construction costs of certain projects.

As at 31 December 2020, retentions held by customer for contract work was approximately \$\$24,440,000 (2019: \$19,409,000) and have been included in trade and other receivables (see note 13).

安裝合約

本集團安裝合約包括於安裝期間要求分期付款的付款日程(一旦進程達標)。此等付款日程防止積聚重大合約資產產生數有為期12個月至24個月的的合約。由於本集團收取此最終付款的合保留期。由於本集團收取此最終付款的方,實工程完滿通過檢測後方,有實際工程完滿通過檢測後方,直至保留期結束為止。倘保留期屆滿一收取保留金的權利成為無條件,則此金額計入貿易應收款項。

年內就過往期間已履行(或部分履行)的履約責任撥回的收入金額為8,713,000元(二零一九年:764,000元),主要由於若干項目建設成本的估計變動所致。

於二零二零年十二月三十一日,客戶所持合約工程保留金約24,440,000元 (二零一九年:19,409,000元)已計入貿 易及其他應收款項(見附註13)。

21 FINANCIAL RISK MANAGEMENT AND FAIR VALUES

Exposure to credit, liquidity and interest rate and foreign currency risks arises in the normal course of the Group's business. The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

(a) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group's credit risk is primarily attributable to bank deposits and trade and other receivables and contract assets. The Group has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis.

The Group does not provide any guarantee which would expose the Group to credit risk.

Bank deposits

Cash is deposited with financial institutions with sound credit ratings and the Group has exposure limit to any single financial institution. Given their high credit ratings, management does not expect any of these financial institutions and counterparties will fail to meet their obligations.

Trade and other receivables and contract assets

The Group has significant concentration of credit risk in a few customers. In view of their good payment record and long-established relationships with the Group, management does not consider the Group's credit risk to be significant. At the end of the reporting period, 26% (2019: 54%) and 89% (2019: 98%) of the total trade receivables and contract assets was due from the Group's largest customer and the five largest customers respectively.

21 財務風險管理及公平值

本集團於日常業務過程中承受信貸、流動資金以及利率及外幣風險。本集團承受該等風險及本集團用以管理該等風險的財務風險管理政策及常規載於下文。

(a) 信貸風險

信貸風險指交易對手違反其合約責任 令本集團招致財務損失的風險。本集 團的信貸風險主要來自銀行存款、貿 易及其他應收款項以及合約資產。本 集團已實施信貸政策,並持續監控該 等信貸風險。

本集團並無提供任何擔保致使本集團面臨信貸風險。

銀行存款

現金存款乃存放於信貸良好的金融機構,而本集團亦對任何單一金融機構設置額度。鑒於該等金融機構擁有高信貸評級,管理層預期該等金融機構及交易對手概不會無法履行責任。

貿易及其他應收款項以及合約資產

本集團因少數客戶擁有重大信貸集中 風險。鑒於彼等的還款記錄良好並與 本集團建立長期關係,管理層認為, 本集團所承受的信貸風險並不重大。 於報告期末,貿易應收款項及合約資 產總額中分別26%(二零一九年:54%) 及89%(二零一九年:98%)為應收本 集團最大客戶款項及五大客戶的款項。

(Expressed in Hong Kong dollars unless otherwise indicated) (除另有註明外,均以港元列示)

21 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (continued)

(a) Credit risk (continued)

Trade and other receivables and contract assets (continued)

Individual credit evaluations are performed as part of the acceptance procedures for new construction contracts. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are due within 30 to 45 days from the date of payment certificate. Normally, the Group does not obtain collateral from customers.

The Group measures loss allowances for trade receivables, retention receivables and contract assets at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

During the year ended 31 December 2020, the management identified the credit risk of retention receivables associated with certain customers has increased significantly since initial recognition and performed reassessment on the ECLs of these customers. As a result, loss allowance of \$733,000 (2019: Nil) has been provided for the retention receivables due from these customers and fully written off as uncollectible. Other than that, the Group recognised loss allowance of \$306,000 on the trade receivables (2019: \$44,000) at an amount equal to lifetime ECLs, which is calculated using a provision matrix.

21 財務風險管理及公平值(續)

(a) 信貸風險(續) 貿易及其他應收款項以及合約資產(續)

本集團會進行個別信貸評核作為新建築合約接納程序一部分。此等評核集中於客戶過往支付到期款項的記錄及現時的付款能力,並考慮客戶的特定資料及客戶經營所在經濟環境的情況。貿易應收款項自糧款證書日期起計30至45日內到期。本集團一般不會向客戶收取抵押品。

本集團的貿易應收款項、應收保留金 及合約資產的虧損撥備按相當於永久 預期信貸虧損的金額計量,其乃按撥 備矩陣計算。由於本集團的過往信貸 虧損經驗並無顯示不同客戶分部會有 重大不同虧損模式,故基於逾期狀態 的虧損撥備不再於本集團不同客戶基 礎之間進一步區分。

於截至二零二零年十二月三十一日止年度,管理層識別與若干客戶相關的應收保留金信貸風險自初始確認期期之一。 一大幅增加,並對該等客戶的應收明立 受虧損進行重新評估。因此,是虧損進行重新評估。因此,是虧損進行重新評估。因此,是虧損之。 一九年:零)並作, 一、之款項悉數撇銷。除此之射損為 無法收回之款項悉數撇銷。除此之射損為 無法收回之款項悉數撇銷。除此之射損為 無法收回之款項悉數撇銷。除此之則損 金額(採用撥備矩陣計算)確認應收 易賬款之虧損撥備306,000元(二零 一九年:44,000元)。

(Expressed in Hong Kong dollars unless otherwise indicated) (除另有註明外,均以港元列示)

21 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (continued)

(a) Credit risk (continued)

Trade and other receivables and contract assets (continued)

Expected loss rates are based on actual loss experience over the past 3 years. These rates are adjusted to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables. Having considered those factors, the Group considered that there is no significant loss allowance recognised in accordance with HKFRS 9 as at 31 December 2020, and no expected credit loss rate has therefore been disclosed.

(b) Liquidity risk

Individual operating subsidiaries within the Group are responsible for their own cash management, including the raising of loans to cover expected cash demands. The Group's policy is to regularly monitor its liquidity requirements, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

The following tables show the remaining contractual maturities as at 31 December 2020 of the Group's financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at 31 December 2020) and the earliest date the Group can be required to pay.

For bank loans subject to repayment on demand clause which can be exercised at the bank's sole discretion, the maturity analysis shows the cash outflow based on expected repayment dates with reference to the schedule of repayments set out in the banking facilities letters and, separately, the impact to the timing of the cash outflow if the lenders were to invoke unconditional rights to call the loans with immediate effect.

(a) 信貸風險(續) 貿易及其他應收款項以及合約資產(續)

(b) 流動資金風險

本集團旗下的個別營運附屬公司負責 其自身的現金管理,包括籌集貸款應 對預期現金需求。本集團的政策為定 期監控流動資金需要,以確保維持足 夠現金儲備及來自主要金融機構的充 足承諾融資額度,從而滿足短期及長 期的流動資金需要。

下表載列本集團金融負債於二零二零年十二月三十一日的餘下合約到期日,此乃根據合約未貼現現金流量(包括按合約利率(如屬浮息,則根據於二零二零年十二月三十一日的即期利率)計算的利息付款)及本集團可被要求償還的最早日期而得出。

關於本集團的銀行貸款,如包括銀行能按其意願要求償還貸款的條款,以下到期日分析顯示了基於預期還款款日期的現金流出,並參考了銀行融資。中規定的還款時間表,並分別顯示了如果貸款人援引無條件權利催收貸款並立即生效對現金流出時間的影響。

21 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (continued)

(c) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's interest rate risk arises primarily from bank borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk. The Group's interest rate profile as monitored by management is set out in (i) below.

(i) Interest rate profile

The following table details the interest rate profile of the Group's borrowings at the end of the reporting period.

(c) 利率風險

利率風險指金融工具的公平值或未來 現金流量因市場利率變動而產生波動 的風險。本集團的利率風險主要源於 銀行借貸。按浮動利率授出的借貸令 本集團承受現金流量利率風險。管理 層所監控的本集團利率概況載於下文 (i)。

(i) 利率概況

下表詳列本集團借貸於報告期末的利率概況。

21 FINANCIAL RISK MANAGEMENT AND FAIR VALUES (continued)

(c) Interest rate risk (continued)

ii) Sensitivity analysis

At 31 December 2020, it is estimated that a general increase/decrease of 100 basis points in interest rates, with all other variables held constant, would have increased/decreased the Group's loss after tax by \$nil (2019: decrease of profit by \$11,200).

The sensitivity analysis above indicates the instantaneous change in the Group's profit after tax that would arise assuming that the change in interest rates had occurred at the end of the reporting period in respect of the exposure to cash flow interest rate risk arising from floating rate non-derivative instruments held by the Group at the end of the reporting period. The impact on the Group's profit after tax is estimated as an annualised impact on interest expense or income of such changes in interest rates. The analysis is performed on the same basis during the year ended 31 December 2019.

(d) Foreign currency risk

The Group has no significant exposure to foreign currency risk as all of the Group's transactions are denominated in Hong Kong dollar.

(e) Fair value measurement

The carrying amounts of the Group's financial assets and liabilities carried at amortised cost are not materially different from their fair values at the end of the reporting period.

(c) 利率風險(續)

(ii) 敏感度分析

於二零二零年十二月三十一日,估計利率整體上升/下降100個基點,而所有其他變數維持不變,本集團除稅後虧損將分別增加/減少約零元(二零一九年:溢利減少11,200元)。

以上敏感度分析顯示本集團除税 後溢利在假設利率變動於報告期 末已發生的情況下所產生的即時 隻動。就本集團因持有浮息金 生工具於報告期末承受的現金 利率風險而言,對本集團除税 對本人數等利率變動 利息收支的整年影響作估十二 析乃按截至二零一九年十二月 三十一日止年度的相同基準 行。

(d) 外幣風險

本集團並無面臨重大外幣風險,原因 為本集團所有交易均以港元計值。

(e) 公平值計量

本集團按攤銷成本列賬的金融資產及 負債的賬面值與該等資產及負債於報 告期末的公平值之間並無重大差額。
