Chairman of Board of Directors

Chairman's Statement

2020 marked an exceptional year. In the face of the unexpected COVID-19 pandemic and the complicated external environment, the Bank coordinated its precautionary measures and business operation in line with the national and regulatory policies. With greater financial efforts made to support three rurals, micro-, small- and medium-sized enterprises and people's livelihood, the Bank was able to ensure its quality development and fulfilled its goals by the end of the 13th Five-Year Plan.

In the past year, despite the tough challenges, we adhered to our mission while combating the pandemic with the efforts of the entire Bank. Our ten precautionary measures and donations were proven effective in supporting the prevention and control of the pandemic as well as the resumption of operation and production of enterprises. In the pursuit of our market positioning, we maintained our core principles by exerting substantial efforts in support of three rurals and micro-, small- and medium-sized enterprises. We also carried out targeted financial poverty alleviation initiatives to align with the development of the real economy and different regions. We transformed and improved our business operation progressively and consolidated our competitiveness by deepening the promotion of social financing, adjusting and optimizing our operational structure and enhancing our risk prevention and control. We adhered to win-win cooperation and interaction between various parties. By promoting the construction of various cooperation platforms and integrating resources, our service capabilities have been strengthened. We also persisted on cultivating our business culture and enterprise spirit under the leadership of the Chinese communist party, and strengthening our talent pool and facilitating our organic growth.

During 2020, we operated our business in a cautious and prudent manner and recorded unexpected performance in this extraordinary year. According to the financial statements prepared under the IFRS, as at the end of 2020, the Group's total assets amounted to RMB200,363 million, total deposits from customers amounted to RMB149,763 million, total loans and advances to customers amounted to RMB130,077 million, and net profit reached RMB1,200 million. During the year, the Bank's effort on business evolution and contribution to economic and social development had been widely recognized by various sectors of the society. We had obtained numbers of awards, including the "Leading Domestic Enterprise in Covid-19 Pandemic Control (全國抗擊新冠肺炎疫情先進企業)", the "Leading Enterprise of Targeted Poverty Alleviation under Program of 10,000 Enterprises Supporting 10,000 Villages (「萬企幫萬村」精準扶貧行動先進企業)" and the "Outstanding Contribution Award for Supporting Local Economic Development (支持地方經濟發展特別貢獻獎)".

The Bank's fruitful achievements were largely attributable to the trust and confidence of customers and investors, the support and guidance of the government and regulatory authorities as well as the dedication and hard work of all employees. On behalf of the Board, I would like to express our sincere gratitude to all parties.

2021 is the beginning of the 14th Five-Year Plan and the critical point of the Bank's high quality business growth. In this historical year, we will adhere to the guidance of Xi Jinping's Thought on Socialism with Chinese Characteristics for a New Era by introducing new ideas, focusing on new targets, grasping new opportunities and serving emerging industries. In order to celebrate the 100th anniversary of the establishment of the Chinese communist party, we strive to establish ourselves as a modernized and well-branded first-class rural commercial bank by introducing the philosophy of the "Dual-cycle" domestic and international economic development plan in our business operation and promoting the formation of the "Four-in-one" system including "three rural financial, community financial, cooperate platform and public welfare and charity".

President

President's Statement

In 2020, in the face of severe and complicated economic and financial situations and tough challenges brought by the pandemic, the management of the Bank duly executed the resolutions adopted by the Board and were voluntarily under the supervision of the Board of Supervisors. Through taking initiatives in pandemic prevention, maintaining stable growth, structural adjustment and risk control, the Group successfully maintained stable growth in an orderly manner.

The foundation of development has further consolidated. According to the financial statements prepared under the IFRS, as at the end of 2020, the Bank's total assets amounted to RMB143,071 million, total deposits from customers amounted to RMB99,376 million, total loans and advances to customers amounted to RMB92,521 million, and net profit reached RMB1,098 million. Adherence to traditional values has resulted in significant achievements. The Bank further increased credit extension and optimized the provision of loans. In particular, upon the outbreak of the pandemic, the Bank put great efforts in accomplishing the tasks of "six stabilities" and "six guarantees". Financial resources were preferentially allocated to support the resumption of work and production of various industries and help business entities to tide over difficulties in order to achieve mutual development with the local economy. The operation structure has further optimised. Asset and liability structure has further optimized and transformation momentum has further enhanced. The Bank launched the compliance tasks, which has resulted in the continuous improvement on comprehensive risk management and satisfactory performance on the compliance of all regulatory indicators. Endogenous driving forces have further strengthened. The Bank accelerated the development of human resources and enhanced team building comprehensively. The Bank has become one of the first pilot organisations in China using application software verification for mobile banking customers and was recognized as "Excellent Technology Innovative Rural Financial Institution in China" (全國農村金融優秀科技創新機構). Technological support of the Bank has further strengthened. The Bank has also promoted the development of cooperation platform to further expand the scope and depth of cooperation. Effective fulfilment of social responsibilities has achieved. The Bank spared no efforts on the prevention and control of pandemic and donated money and resources amounting to over RMB9.50 million in aggregate. The Bank developed the "Exclusive Financial Product for Medical Professionals in Hubei" (援鄂醫護人員專屬金融產品) as a tribute to the medical professionals fighting at the frontline. The Bank has invested financial resources in targeted poverty alleviation and promoted consumption poverty alleviation, charity poverty alleviation, poverty alleviation with intelligence and cultural poverty alleviation to contribute financially in combating poverty.

Our achievements would be impossible without solid support of shareholders, investors and various sectors of the society, scientific decision-making of the Board, effective supervision of the Board of Supervisors, and effort and contribution of cadres and employees. On behalf of management, I would like to express my sincerest gratitude towards them.

2021 embarks on the commencement of the 14th Five-Year Plan and a crucial year for the development of "Four in One Mechanism" of the Bank from a new starting line. The management will duly execute decisions and plans of the Board. With serving the real economy as its main responsibility, the Bank will focus on enhancing its quality and efficiency on the premise of compliant operation and will further implement system reform and operation transformation through management improvement and talent development in order to facilitate quality development and enter a new milestone.

Mr. Liang Xiangmin

President

Chapter 4 Management Discussion and Analysis

4.1 Environment and Outlook

Looking forward to 2021, COVID-19 pandemic will bring a turbulent change to the whole world. Economic and trading environments will be subject to great uncertainties and global governance will still encounter considerable difficulties. Nonetheless, with the rollout of vaccination program, the global economy is expected to restart with difficulties and enter a period with “restorative growth”.

2021 marks the first year of the “Fourteenth Five-Year Plan (十四五規劃)” of China as well as the new initiative of building a modern socialist China in all aspects. Despite various challenges faced by the domestic economy, under the new dual circulation development strategy that focuses on the domestic economic cycle with international economic cycle as extension and supplement, China will implement more proactive fiscal policies with enhanced quality, efficiency and sustainability, and prudent, flexible and reasonable monetary policies. The Chinese economy will see a strong recovery driven by the new round of green transformation, innovation, quality enhancement and upgrading, expansion of domestic demand and economic reformation and opening-up. In addition, the ongoing financial reform will provide small-and-medium-sized banks with multiple channels for replenishing capital. The rank of Jilin among all provinces across China in terms of economic development has moved up. The “Third Five-Year Strategy (三個五戰略)” has been fully implemented, pursuant to which the development of three regions, namely the Central Jilin, the Eastern Jilin and the Western Jilin, has been coordinated and the industry development pattern of “one dome, six double-pillars (一主六雙)” has been formulated. The National Urban-rural Integration Pilot Zone (國家城鄉融合發展試驗區) has been established in Changji junction region and the rural revitalization strategy has been in full swing. Grasping the opportunities brought by the above factors, rural commercial banks will gain huge local advantages to grow further and have a solid foundation for high-quality development.

With the implementation of the “Fourteenth Five-Year Plan (十四五規劃)”, a new era will begin. Looking forward, the Bank will closely follow national policies and focus on regional development in pursuit of stable growth. The Bank will focus on providing services to entities and strive to enhance its quality and effectiveness. The Bank will also continue to construct the “Four in One Mechanism (四位一體)” which integrates finance for “three rurals, community finance, cooperation platform and charity works”. The Bank aims to foster high-quality development through focusing on its principal business, restructuring its business while providing services to entities, preventing and controlling risks while operating prudently and adapting itself in the new development pattern of “dual circulation”.

Chapter 4 Management Discussion and Analysis

4.2 Development Strategies

The Group's strategic goal is to position itself as a professional financial services provider with unique values and strong competitive abilities in order to build a first-class modern rural commercial bank in the PRC with strong brand value. To achieve its goal, the Group plans to: (i) reinforce advantages in banking services for the "three rurals (三農)" and Small and Medium Enterprises (the "SMEs"); (ii) exploit the growth potential of personal financial services to promote the growth of its retail banking business; (iii) develop emerging businesses to promote the transformation of the growth model; (iv) further strengthen the Group's risk management and internal control; and (v) recruit, train, retain and motivate high-quality talent.

4.3 Overall Business Review

In 2020, in the face of severe and complicated economic and financial situations and tough challenges brought by the pandemic, the Group strictly followed all regulatory requirements. Through taking initiatives in pandemic prevention, maintaining stable growth, structural adjustment and risk control, the Group successfully maintained stable growth in an orderly manner.

The Group recorded a total operating income of RMB5,546.8 million in 2020, representing an increase of 4.4% as compared to RMB5,311.4 million in 2019. The Group's net profit increased by 0.3% from RMB1,195.7 million in 2019 to RMB1,199.7 million in 2020.

As of December 31, 2020, the Group's total assets amounted to RMB200,363.3 million, representing a year-on-year increase of 15.6%; total loans and advances to customers amounted to RMB130,076.5 million, representing a year-on-year increase of 35.3%; the non-performing loan ratio amounted to 1.63%, representing a year-on-year decrease of 0.05 percentage point; total deposits from customers amounted to RMB149,763.2 million, representing a year-on-year increase of 21.9%.

Chapter 4 Management Discussion and Analysis

In 2020, the Group's profit before tax was RMB1,541.1 million, representing a year-on-year increase of 2.5%; profit for the year was RMB1,199.7 million, representing a year-on-year increase of 0.3%. It was mainly due to the increase in net interest income following to the increase in the interest-earning assets and the structural adjustment of the Group, which was partially offset by the decrease in net fee and commission income and net trading gains and the increase in impairment losses on assets.

(i) Net interest income

Net interest income was the largest component of the Group's operating income, representing 78.4% and 91.9% of operating income in 2019 and 2020, respectively. The table below sets forth the interest income, interest expense and net interest income for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,			Change in percentage (%)

Notes:

- (1) Investment securities and other financial assets include the financial assets at fair value through other comprehensive income and financial assets at amortized cost.
- (2) Primarily consist of statutory deposit reserves, surplus deposit reserves and fiscal deposit reserves.
- (3) Primarily consist of tier-two capital bonds, subordinated fixed rate bonds and interbank certificates.
- (4) Represents the difference between the average yield on total interest-earning assets and the average cost of total interest-bearing liabilities.
- (5) Calculated by dividing net interest income by the average balance of interest-earning assets (based on the daily average of the interest-earning assets).

Chapter 4 Management Discussion and Analysis

The table below sets forth the changes in the Group's interest income and interest expense attributable to changes in volume and interest rate for the periods indicated. Changes in volume are measured by changes in the average balance, and changes in interest rate are measured by changes in the average interest rates. Changes caused by both volume and interest rate have been allocated to changes in volume.

Chapter 4 Management Discussion and Analysis

(ii) Interest income

The table below sets forth the principal components of interest income for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,			
	2020	% of	2019	% of
	Amount	total	Amount	total
Loans and advances to customers	8,273.5	79.8	6,489.1	74.4
Investment securities and other financial assets	1,469.8	14.2	1,465.6	16.8

Deposits with banks and other financial institutions	154.9	1.5	410.5	4.7
Deposits with the central bank	186.6	1.8	195.5	2.3
Placements with banks and other financial institutions	97.8	0.9	89.1	1.0
Total	10,371.1	100.0	8,722.5	100.0

The Group's interest income increased by 18.9% from RMB8,722.5 million in 2019 to RMB10,371.1 million in 2020, primarily due to the increase in the average balance of interest-earning assets from RMB151,292.5 million in 2019 to RMB185,115.2 million in 2020, which was partially offset by the decrease in the average yield of such assets from 5.77% in 2019 to 5.60% in 2020. The increase in the average balance of interest-earning assets was primarily due to the increases in the average balances of loans and advances to customers, investment securities and other financial assets, financial assets held under resale agreements, deposits with the central bank and placements with banks and other financial institutions, which was partially offset by the decrease in the average balance of deposits with banks and other financial institutions. The decrease in the average yield on interest-earning assets was primarily due to the decreases in the average yields on loans and advances to customers, investment securities and other financial assets, financial assets held under resale agreements, deposits with banks and other financial institutions, deposits with the central bank and placement with bank and other financial institutions.

(A) Interest income from loans and advances to customers

Interest income from loans and advances to customers represented 74.4% and 79.8% of the Group's total interest income in 2019 and 2020, respectively.

Chapter 4 Management Discussion and Analysis

The table below sets forth the average balance, interest income and average yield on loans and advances to customers by product for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,					
	2020			2019		
	Average balance	Interest income	Average yield (%)	Average balance	Interest income	Average yield (%)

— Loan	90,967.6	6,418.1	7.06	62,261.1	4,749.2	7.63
— Finance leases loan	2,131.4	124.4	5.84	1,905.9	134.9	7.08
Retail loans	22,987.3	1,692.5	7.36	22,112.9	1,596.8	7.22
Discounted bills	1,465.7	38.5	2.63	275.4	8.2	2.98
Total loans and advances to customers	117,552.0	8,273.5	7.04	86,555.3	6,489.1	7.50

Being the largest component of the Group's interest income, the interest income from loans and advances to customers increased by 27.5% from RMB6,489.1 million in 2019 to RMB8,273.5 million in 2020, which was mainly due to the increase in the average balance of loans and advances to customers by 35.8% from RMB86,555.3 million to RMB117,552.0 million in 2020, which was partially offset by the decrease in the average yield, such assets from 7.50% in 2019 to 7.04% in 2020. The increase in the average balance of such assets was primarily due to the increase in loans by the Group to support the development of real economy and facilitate the resumption of operation and production of enterprises affected by the pandemic. The decrease in the average yield on such assets was primarily due to the decrease of financing cost in real economy and the implementation of tasks of "six stability" and "six guarantees" by reducing the fees and interest rate of loans with an aim to support the development of real economy and the impact of the decrease in loan prime rate (LPR).

(B) Interest income from investment securities and other financial assets

Interest income from investment securities and other financial assets increased by 0.3% from RMB1,465.6 million in 2019 to RMB1,469.8 million in 2020, primarily due to an increase in the average balance of investment securities and other financial assets from RMB29,040.9 million in 2019 to RMB32,762.2 million in 2020, which was partially offset by a decrease in the average yield on such assets from 5.05% in 2019 to 4.49% in 2020. The increase in the average balance of such assets was primarily due to the increase in income as a result of the reasonable increase in the investment in debt securities by the Group based on the trend of capital market in order to enhance the efficiency of fund use while maintaining strict risk control. The decrease in the average yield on such assets was primarily due to the decrease in market interest rate.

Chapter 4 Management Discussion and Analysis

(C) Interest income from financial assets held under resale agreements

Interest income from financial assets held under resale agreements increased by 159.3% from RMB72.7 million in 2019 to RMB188.5 million in 2020, primarily due to an increase in the average balance of the financial assets held under resale agreements, from RMB2,438.1 million in 2019 to RMB7,300.8 million in 2020, which was partially offset by the decrease in the average yield on such assets from 2.98% in 2019 to 2.58% in 2020. The increase in the average balance of such assets was primarily attributable to the adjustment of the scale of such assets in order to balance the yield and liquidity requirement of the Group. The decrease in the average yield on such assets was primarily due to the decrease in market interest rate.

(D) Interest income from deposits with banks and other financial institutions

Interest income from deposits with banks and other financial institutions decreased by 62.3% from RMB410.5 million in 2019 to RMB154.9 million in 2020, primarily due to the decrease in the average balance of deposits with banks and other financial institutions from RMB16,986.6 in 2019 to RMB10,586.8 in 2020, and the decrease in the average yield on such assets from 2.42% in 2019 to 1.46% in 2020. The decrease in the average balance of such assets was primarily due to the reasonable adjustment of interbank assets structure according to the business needs of the Group by withdrawing certain deposits with banks and other financial institutions on due. The decrease in the average yield on such assets was primarily due to the decrease in market interest rate.

(E) Interest income from deposits with the central bank

Interest income from deposits with the central bank decreased by 4.6% from RMB195.5 million in 2019 to RMB186.6 million in 2020, primarily due to the decrease in the average yield on deposits with the central bank from 1.38% in 2019 to 1.30% in 2020, which was partially offset by the increase in the average balance of such assets from RMB14,175.9 million in 2019 to RMB14,335.3 million in 2020. The increase in average balance of such assets was primarily due to the increase in the total deposits of the Group. The decrease in the average yield on such assets was primarily due to the reduction of reserve ratio for excess deposits of financial institutions by the central bank.

Chapter 4 Management Discussion and Analysis

(iii) Interest expenses

The table below sets forth the principal components of the Group's interest expenses for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,

(A) Interest expenses on deposits from customers

The table below sets forth the average balance, interest expense and average cost for the components of deposits from customers for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,			2019		
	2020					
	Average balance	Interest expense	Average yield (%)	Average balance	Interest expense	Average yield (%)

Subtotal	98,085.1	2,811.5	2.87	73,118.5	2,202.9	3.01
Total deposits from customers	138,741.3	3,969.0	2.86	114,525.7	3,248.5	2.84

Interest expenses on deposits from customers increased by 22.2% from RMB3,248.5 million in 2019 to RMB3,969.0 million in 2020, primarily due to an increase in the average balance of deposits from customers from RMB114,525.7 million in 2019 to RMB138,741.3 million in 2020 as well as an increase in the average cost of such liabilities from 2.84% in 2019 to 2.86% in 2020. The increase in average balance of such liabilities was primarily due to the increase in total deposits attributable to the Group's efforts in targeted marketing, upgrade and transformation of outlets and expansion of customer base. The increase in the average cost of such liabilities was primarily due to the more intensified market competition.

Chapter 4 Management Discussion and Analysis

(B) Interest expenses on financial assets sold under repurchase agreements

Interest expenses on financial assets sold under repurchase agreements decreased by 30.6% from RMB159.0 million in 2019 to RMB110.3 million in 2020, primarily due to a decrease in the average balance of financial assets sold under repurchase agreements from RMB6,954.5 million in 2019 to RMB5,777.1 million in 2020, as well as a decrease in the average cost of such liabilities from 2.29% in 2019 to 1.91% in 2020. The decrease in the average cost of such liabilities was primarily due to the decrease in market interest rate. The decrease in the average balance of such liabilities was mainly the result of the timely adjustment of liabilities structure of the Group according to its actual business condition and the needs of liquidity management.

(C) Interest expenses on deposits from banks and other financial institutions

Interest expenses on deposits from banks and other financial institutions increased by 100.2% from RMB197.7 million in 2019 to RMB395.8 million in 2020, mainly due to an increase in the average balance of the deposits from banks and other financial institutions from RMB7,087.0 million in 2019 to RMB10,471.9 million in 2020, and an increase in the average cost of such liabilities from 2.79% in 2019 to 3.78% in 2020. The increase in the average balance of such liabilities was primarily due to the moderate increase in funds from banks as the Group adjusted its liabilities structure reasonably based on its actual business needs. The increase in the average cost of such liabilities was primarily due to the maturity structure of the relevant deposits and the fluctuation in market interest rate.

(D) Interest expenses on debt securities issued

Interest expenses on debt securities issued decreased by 43.1% from RMB796.4 million in 2019 to RMB452.9 million in 2020, mainly due to the decrease in the average balance of the debt securities issued from RMB17,386.1 million in 2019 to RMB10,762.8 million in 2020, and the decrease in the average cost of such liabilities from 4.58% in 2019 to 4.21% in 2020. The decrease in the average balance of such liabilities was primarily due to the higher amount of interbank certificates of the Group due as compared with the newly issued interbank certificates. The decrease in the average cost of such liabilities was mainly due to the lower interest rate of interbank certificates issued during the year.

Chapter 4 Management Discussion and Analysis

(iv) Net interest spread and net interest margin

Net interest spread is the difference between the average yield on total interest-earning assets and the average cost of total interest-bearing liabilities. Net interest margin is the ratio of net interest income to the average balance of interest-earning assets.

Net interest margin in 2020 was 2.75%, which remained stable as compared with 2019, net interest spread decreased by 0.16 percentage point from 2.74% in 2019 to 2.58% in 2020, primarily due to a decrease in the Group's average yield on interest-earning assets by 0.17 percentage point from 5.77% in 2019 to 5.60% in 2020. which was primarily due to (i) the decrease in the average yield on loans and advances to customers when compared with the corresponding period of last year as the Group reduced the fees and interest rate of loans to certain enterprises affected by the pandemic and proactively lowered the financing cost for the real economy and the Group was affected by the decrease in loan prime rate (LPR); (ii) the decrease in the average yield on treasury operations as affected by the fluctuation in market price; (iii) the decrease in the average yield on the deposits with the central bank as the central bank lowered the reserve ratio for excess deposits of financial institutions.

Chapter 4 Management Discussion and Analysis

(v) Non-interest income

(A) Net fee and commission income

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,			
	2020	2019	Change in amount	Change in Percentage (%)

Others ⁽¹⁾	0.6	4.3	(3.7)	(86.0)
Subtotal	268.9	349.0	(80.1)	(23.0)
Fee and commission expense	(38.3)	(32.5)	(5.8)	17.8
Net fee and commission income	230.6	316.5	(85.9)	(27.1)

Note:

- (1) Primarily consists of fee income from loan business, fee and commission of guarantees and commitments and income from safe deposit box business.

Net fee and commission income decreased by 27.1% from RMB316.5 million in 2019 to RMB230.6 million in 2020, primarily due to the decrease in advisory fees, agency services fees, bank card service fees and other fees, which was partially offset by the increase in syndicated loan service fees, settlement and clearing fees and wealth management service fees.

Advisory fees income amounted to RMB137.4 million in 2020, representing a decrease of RMB89.8 million, or 39.5%, as compared to 2019, mainly due to the decrease in advisory services of the Group as affected by the decreased market demands.

Syndicated loan service fees income amounted to RMB59.5 million in 2020, representing an increase of RMB0.3 million, or 0.5%, as compared to 2019, which remained stable as compared with the corresponding period last year.

Chapter 4 Management Discussion and Analysis

Settlement and clearing fees income amounted to RMB29.4 million in 2020, representing an increase of RMB3.9 million, or 15.3%, as compared to 2019, mainly due to increase in the transaction volume of settlement business.

Agency service fees income amounted to RMB18.5 million in 2020, representing a decrease of RMB8.6 million, or 31.7%, as compared to 2019, mainly due to decrease in the transaction volume of agency business.

Wealth management service fees income amounted to RMB19.5 million in 2020, representing an increase of RMB17.9 million, or 1,118.8%, as compared to 2019, mainly due to the increase in the issue size of non-principal guaranteed wealth management products.

Bank card service fees income amounted to RMB4.0 million in 2020, representing a decrease of RMB0.1 million, or 2.4%, as compared to 2019, mainly due to the decrease in the transaction volume of bank cards.

Fee and commission expenses mainly included fees paid to third parties for settlement, clearing and agency services. Fee and commission expenses increased by 17.8% from RMB32.5 million in 2019 to RMB38.3 million in 2020, mainly due to the increase in the transaction volume of settlement business.

(B) Net gains arising from investment securities

Net gains arising from investment securities included net gains from selling investment securities and other financial assets and revaluation gains resulting from the reclassification from other consolidated income to profits or losses upon the disposal of assets.

Net gains arising from investment securities increased by 119.9% from RMB21.1 million in 2019 to RMB46.4 million in 2020. The increase was mainly due to the increase in gains arising from the disposal of investment assets such as debt securities in a timely manner as the Group enhanced market analysis and grasped appropriate opportunities.

Chapter 4 Management Discussion and Analysis

(C) Dividend income

Dividend income decreased by 8.2% from RMB64.7 million in 2019 to RMB59.4 million in 2020. The decrease was mainly due to the reduction in the actual dividend distribution of invested institutions such as non-controlling rural commercial banks.

(D) Net trading gains

Net trading gains primarily include gains and interest income from selling, and the fair value changes of, debt securities held for trading and wealth management products issued by other financial institutions. Net trading gains decreased by 75.4% from RMB609.8 million in 2019 to RMB149.8 million in 2020, mainly due to the decrease in financial assets at fair value through profit or loss held by the Group, resulting in a decrease in interest income and fair value.

(E) Net exchange gains/(losses)

Net exchange gains mainly included net gains arising out of foreign exchange settlement and foreign exchange transactions. Net exchange gains increased by 78.9% from RMB5.7 million in 2019 to RMB10.2 million in 2020, mainly due to increase in the trading gains from foreign exchange and the fluctuation in foreign currency exchange rate.

(F) Other operating (expense) income, net

Other operating (expense) income, net mainly included government subsidies and non-recurring income such as insurance claim, net of non-recurring expenses such as charitable donation. Other operating (expense) income, net decreased by 112.1% from RMB90.7 million in 2019 to RMB(11.0) million in 2020, which was mainly due to the decrease in non-recurring income and increase in charitable donation expenses during the period.

(vi) Operating expenses

Operating expenses decreased by 1.6% from RMB2,787.4 million in 2019 to RMB2,743.7 million in 2020. The decrease was primarily due to the decrease in staff costs and general management and administrative expenses, which was partially offset by the increase in properties and equipment expenses and tax and surcharges.

Chapter 4 Management Discussion and Analysis

The table below sets forth the principal components of operating expenses for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,			Change in Percentage (%)
	2020	2019	Change in amount	
Staff cost	1,592.1	1,648.9	(56.8)	(3.4)
Property and equipment expenses	641.8	587.3	54.5	9.3
General management and administrative expenses	426.3	476.9	(50.6)	(10.6)
Tax and surcharges	83.5	74.3	9.2	12.4
Total	2,743.7	2,787.4	(43.7)	(1.6)

(A) Staff costs

The table below sets forth the components of staff costs for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,			Change in Percentage (%)
	2020	2019	Change in amount	
Salaries and bonuses	1,218.5	1,149.0	69.5	6.0
Social insurance	143.4	292.5	(149.1)	(51.0)
Staff welfares	106.2	93.1	13.1	14.1
Housing allowances	99.5	87.9	11.6	13.2
Labor union and staff education expenses	24.5	26.4	(1.9)	(7.2)
Total staff costs	1,592.1	1,648.9	(56.8)	(3.4)

Staff costs decreased by 3.4% from RMB1,648.9 million in 2019 to RMB1,592.1 million in 2020. The decrease in staff costs was primarily due to the decrease in social insurance premium paid by the Group as a result of a short-term concession of social insurance under the preferential policies during the pandemic period, which was partially offset by the increase in salaries and bonuses, staff welfares and housing allowances, paid to staff.

Chapter 4 Management Discussion and Analysis

(B) Property and equipment expenses

Property and equipment expenses increased by 9.3% from RMB587.3 million in 2019 to RMB641.8 million in 2020. The increase in property and equipment expenses was mainly due to the increase in depreciation on properties owned by newly established outlets and depreciation on right-of-use assets for leased properties of the Group.

(C) General management and administrative expenses

General management and administrative expenses mainly included business promotion fees, transportation fee in relation to the delivery of cash and repair expenses. General management and administrative expenses decreased by 10.6% from RMB476.9 million in 2019 to RMB426.3 million in 2020. The decrease in general management and administrative expenses was primarily due to the more effective control of costs and expenses as a result of the Group's efforts in further improving costs and budget management with more refined management of expenditure.

(D) Tax and surcharges

Tax and surcharges increased by 12.4% from RMB74.3 million in 2019 to RMB83.5 million in 2020. The increase in tax and surcharges were primarily due to the increase in tax surcharge as a result of the increase in value-added tax paid during the year over the previous year as well as the increase in deed taxes actually paid by the Group.

Chapter 4 Management Discussion and Analysis

(vii) Impairment losses on assets

The table below sets forth the principal components of impairment losses on assets for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,			
	2020	2019	Change in amount	Change in Percentage (%)
Loans and advances to customers	863.6	602.5	261.1	43.3
Debt securities financial assets at fair value through other comprehensive income	(5.9)	4.9	(10.8)	(220.4)
Financial investments at amortized cost	358.9	470.3	(111.4)	(23.7)
Deposits with banks and other financial institutions	(0.4)	(5.6)	5.2	(92.9)
Placements with banks and other financial institutions	(0.2)	(1.1)	0.9	(81.8)

Provision for credit commitments and financial guarantees	43.1	(0.0)	43.1	100.0
Total	1,306.6	1,088.1	218.5	20.1

Impairment losses on assets increased by 20.1% from RMB1,088.1 million in 2019 to RMB1,306.6 million in 2020. The increase in impairment losses on assets was mainly due to the increase in provisions for impairment loss of assets along with the growth in loans and advances to customers in order to strengthen its risk resistance ability under the principle of prudence and stability and upon taking account into the uncertain factors including changes in external economic conditions.

Chapter 4 Management Discussion and Analysis

(viii) Income tax expense

Income tax expense increased by 10.9% from RMB307.8 million in 2019 to RMB341.4 million in 2020. The effective tax rate in 2020 and 2019 was 22.2% and 20.5%, respectively. The increase in income tax expense was due to the increases in profit before tax and effective tax rates. The higher effective tax rate in 2020 was mainly due to the decrease in the percentage of non-taxable income (including dividend income, interest income from investment of treasury bonds and local government debt securities and interest income from small loans to agricultural households).

(b) Analysis of the Consolidated Statement of Financial Position

(i) Assets

As of December 31, 2020 and 2019, the Group's total assets amounted to RMB200,363.3 million and RMB173,275.5 million, respectively. Major components of total assets include (i) loans and advances to customers; (ii) investment securities and other financial assets; (iii) deposits with banks and other financial institutions; (iv) cash and deposits with the central bank; (v) financial assets held under resale agreements; and (vi) placements with banks and other financial institutions. Discounted bills	—	—	—	—
Total loans and advances to customers	130,076.5	100.0	96,104.0	100.0

Loans and advances to customers are the largest component of total assets. The Group offers a variety of loan products, substantially all of which are denominated in Renminbi. Loans and advances to customers, net of provision for impairment losses, represented 63.2% and 53.9% of total assets as of December 31, 2020 and 2019, respectively.

Chapter 4 Management Discussion and Analysis

The Group's corporate loans increased by 44.2% from RMB73,270.2 million as of December 31, 2019 to RMB105,631.2 million as of December 31, 2020, primarily due to the increase in loans in order to fully support the prevention and control of the pandemic and resumption of operation and production of enterprises and to provide assistance to the development of medium, small and micro enterprises through further enriching the financial services, extend the service coverage and increase in the scale of credit.

The Group's retail loans mainly comprise of personal business loans, personal consumption loans and residential and commercial mortgage loans. The Group's retail loans increased by 7.1% from RMB22,833.8 million as of December 31, 2019 to RMB24,445.3 million as of December 31, 2020, primarily due to the increase in loans as a result of the Group's enhanced credit support for the three rurals and individual industrial and commercial households in order to promote poverty alleviation and rural revitalization and fulfillment of increasing reasonable demands from individual customers for residential and commercial mortgages.

Loans by Collateral

Collateralized loans, pledged loans and guaranteed loans in the aggregate represented 98.0% and 96.5% of total loans and advances to customers as of December 31, 2020 and 2019, respectively. If a loan is secured by more than one form of collateral, the classification is based on the primary form of collateral. The table below sets forth loans and advances to customers by the type of collateral as of the dates indicated.

(Expressed in millions of RMB, unless otherwise stated)	As of December 31, 2020		As of December 31, 2019	
	Amount	% of total	Amount	% of total
Collateralized loans	54,773.1	42.1	38,545.9	40.1

Total loans and advances to customers	130,076.5	100.0	96,104.0	100.0

Chapter 4 Management Discussion and Analysis

Collateralized loans and pledged loans are the largest component of total loans and advances to customers. Collateralized loans and pledged loans as a percentage of total loans and advances to customers were 50.8% as of December 31, 2019 and 50.9% as of December 31, 2020, respectively.

The Group has adopted more stringent credit assessment criteria for extending guaranteed loans. Corporate loans are generally guaranteed by listed companies or guarantee companies. The Bank and each subsidiary consider the size, credit history and risk-resistance level of a guarantee company to decide whether or not to accept its guarantees. Guaranteed loans as a percentage of total loans and advances to customers was 45.7% as of December 31, 2019 and 47.1% as of December 31, 2020, respectively.

The Bank and each subsidiary extend unsecured loans to customers with relatively high credit ratings based on their internal credit risk rating system. As of December 31, 2019 and 2020, unsecured loans represented 3.5% and 2.0% of total loans and advances to customers, respectively.

Movements of provision for impairment losses on loans and advances to customers

Some village and township banks also engage in money market transactions and invest in debt securities.

Chapter 4 Management Discussion and Analysis

In 2010, the Bank established a village and township bank management department to help village and township banks to establish strategic development plans, provide research, technology and human resource support and supervise their risk management. In addition, the Group and other banks in China have formed a strategic development alliance for village and township banks headquartered in Tianjin Municipality to promote information exchange and resource sharing among village and township banks in China. The Bank has also established five service centers in Jilin, Tianjin, Anhui and Guangdong to support the Bank's village and township bank operations.

(f) Operation and Safety of IT Systems

In 2020, the Bank improved its information technology ("IT") system through five aspects, namely enhancing technological governance, supporting business development, consolidation of infrastructure, protecting information security and strengthening talent development, in order to promote digital transformation of the Bank and provide comprehensive and effective support for the innovative development of various businesses.

1. Continuous enhancement of technological governance

In compliance with regulatory requirements and according to the needs of operation and management, the Bank gradually optimized its organizational structure, clarified job duties and established a comprehensive IT management system in order to promote information technology work stably. The Bank formulated the Fintech Development Plan (2020–2022) (金融科技發展規劃(2020–2022年)), which sets forth the objectives, principles, main tasks, implementation plans and protective measures in relation to the fintech development of the Bank in the next three years. The Bank formulated strategies to promote digital transformation, accelerated the application and integration of fintech into financial products and services and strengthened risk control and decision-making ability. Recognizing the importance of the protection of intellectual properties, the Bank submitted applications for its scientific and technology achievements. In 2020, the Bank was granted 15 computer software copyrights by National Copyright Administration.

Chapter 4 Management Discussion and Analysis

2. Supporting the business development

In order to promote and encourage the integration of finance and technology and coordinate its business development, the Bank further promoted digital, online and smart financial products and services. In 2020, the Bank successfully passed the acceptance check of the first phase of pilot program of customer-end mobile application software for financial business. The Bank launched loan products to extend loans to rural households for purchasing agricultural machinery, in order to specifically solve difficulties entities encountered in the course of their production and operation. The Bank fostered its innovation in financial business model and was awarded “Fourth Session of Excellent Innovative Services of Small and Medium Rural Financial Institution”(第四屆農村中小金融機構服務創新優秀案例). Capitalizing on scientific and technological achievements, the Bank transformed and innovated its financial products, operation model and business processes, in order to improve its operating efficiency and service quality. At the 2020 Investment Summit hosted by Caillan Press, the Bank was awarded “Outstanding Fintech Case for the Year” (年度金融科技傑出案例). In the “Tenth Session of China Rural Financial Brand Value List” selection, the Bank was recognized as “Excellent Technology Innovative Rural Financial Institution in China”(全國農村金融優秀科技創新機構).

3. Consolidation of infrastructure

In 2020, the server rooms of the information center of the Bank maintained satisfactory operation. The usability of basic environment of server rooms reached 100%. Through strategically using well-developed commercial products and customizing scenarios, transforming IPv6 and setting up SDN network, the Bank was able to develop cloud-based platform for computing resources, storage resources and network resources, meeting the resource integration and flexible scaling requirements. The Bank obtained the ISO22301 system certification and further optimized its operation and maintenance system. Through establishing operation and maintenance integration platform and integrating configuration management, monitoring management, process platform and other functions, the Bank managed its IT operation and maintenance and business continuity with standardized and systematic approaches. The Bank established and continuously optimized its risk management mechanism with focus on risk prevention, in order to provide effective IT services and ensure business continuity.

Chapter 4 Management Discussion and Analysis

4. Sound protection of information security

Through upgrading security structure, refining system standards and raising awareness on security, the Bank established and optimized the information security protection mechanism. A big data intelligent security platform has been established to integrate various types of alarm log such as internet devices, security devices and host devices and analyze security data collected through big data method. The Bank was able to analyze the trend and issue early warning in advance, analyze situation through multi-dimensional approaches and track the source precisely afterwards. The Bank obtained ISO27001 system certificate and refined four IT systems such as Administrative Measures on Network Environment of Internet of Outlet (網點生產內網網絡環境管理規定) to further optimize management and process of internal control on technology. In 2020, the Bank carried out six inspection and audit tasks covering organizational structure of IT, key infrastructure, information security, information system, business continuity and management of risks in relation to outsourcing business. The Bank organized 12 emergency drills, including network exit link load equipment, TSM backup system, power system of server room and core database switching, in order to improve capabilities to cope with contingency. The Bank organized science and technology week, network safety week and network safety law publicity campaign so as to effectively raise awareness on information security through publicizing laws, regulations and policies regarding network safety and spreading relevant knowledge.

5. Strengthening technological talents development

As a member of the Financial Technology Committee of the Asian Financial Cooperation Association, the Bank has put great efforts in developing fintech and promoting digital transformation of small-and-medium sized banks during post-pandemic period and established an exchange and cooperation platform for fintech. With an aim to analyze the development trend and scenario application of fintech, the Bank participated in key research projects for 2020 organized by Jilin Provincial Finance Association. The Bank enriched the courses of online “internet college” and organized network safety skills and IT security verification training programs and participated in similar programs organized by well-known companies and research organizations. In 2020, one of our employees passed the international Certified Information System Security Professional (CISSP) certification exam and one of our employees passed Senior Information System Project Manager certification exam and six of our employees passed the Certified Financial Security Professional (CFSP) certification exam.

Chapter 4 Management Discussion and Analysis

4.5 Risk Management

(a) Risk Management of the Bank

The Bank is committed to building a comprehensive risk management system to eliminate the impact of various uncertainties on the Bank's strategy and business objectives. The Bank's comprehensive risk management has a hierarchical structure. As the highest decision-making body of the risk management structure, the Board is responsible for establishing and maintaining an effective comprehensive risk management system. The Bank has established a sound risk management system. Risk management procedures are adopted at all managerial levels and good risk management culture is cultivated to achieve the objectives of risk management. The comprehensive risk management of the Bank covers all major risks, including the credit, market, operating, liquidity, reputational, legal and compliance, IT, anti-money laundering and terrorist financing risks.

(i) Credit risk management

Credit risk is the risk of loss related to failure by a debtor or counterparty to meet its contractual obligations or to changes in their credit ratings. The Bank's credit risks arise mainly from corporate loans, personal loans and treasury operations.

The Bank's credit risk management organization includes its president and risk management committee, credit approval committees and its risk management, front desk business, internal audit department and persons-in-charge of branches and sub-branches.

The Bank prepares annual credit approval plans, credit limit plans and credit policies based on national and regional economic development plans, financial market conditions, austerity requirements, its asset and liability structure and deposit and loan growth trends.

The Bank uses the following mechanisms to manage credit risks:

- Customer screening mechanism — The Bank determines the target customers based on its market positioning and screen credit customers based on its credit policies.

Chapter 4 Management Discussion and Analysis

- Credit exit mechanism — The Bank regularly reassesses its outstanding credit risk based on customer, industry and market conditions. The Bank reassesses the credit rating for short-term loans if there are interest payment defaults. The Bank reassesses the credit rating for medium and long-term loans annually. The Bank also adopts measures to manage potential credit risk, including increasing the frequency of post-disbursement examination, requesting additional collateral or guarantees, and ceasing to extend new loans. The Bank determines whether or not to exit a credit based on the severity of adverse changes in the borrower’s circumstances, such as its (i) financial condition; (ii) substantial shareholders; (iii) key managers and technicians; (iv) customers quality; (v) payment ability; and (vi) business environment.
- Risk alert mechanism — The Bank continually monitors outstanding credit and overall credit quality. The Bank carries out standardized management of risk alerts through the use of the post-disbursement management function of its credit system and promptly provides advice to deal with the issue.
- Non-performing asset disposal mechanism — The Bank has established an accountability mechanism for the disposal of non-performing assets.

The Bank has established a system to manage the provision of corporate and personal loans. As part of this system, the Bank has taken measures to improve credit risk management, including risk identification and monitoring policies and dividing responsibilities among its credit investigation, approval and execution departments. The Bank also sets departmental authorization limits and monitors the use of loans.

In 2020, the Bank seriously complied with the national financial policies and industrial policies and strictly implemented the regulatory requirements. Adhering to the principles of “comprehensive, forward-looking and proactive” management of credit risk, the Bank continued to refine its credit risk management system, optimize the credit risk management procedures and strengthened the centralized management of credit risk. Credit risk management standards have been further improved. Firstly, since the outbreak of COVID-19 pandemic, the Bank duly followed the spirit of various policies supporting the prevention and control of the pandemic promulgated by the government authorities at different levels and implemented a number of effective measures, such as the launch of green channel, fee reduction, and deferred repayment of principals and interests, to support the resumption of operation and production of enterprises and help them to overcome the difficulties. Secondly, fundamental work of credit risk management was enhanced and the credit risk management system was revised and modified timely to improve the adaptability and effectiveness.

Chapter 4 Management Discussion and Analysis

Thirdly, categorized management and monitoring and early alerts of risks were adopted in order to proactively identify and timely mitigate credit risks. Fourthly, the Bank focused on its principal business to support the development of the real economy. The Bank adjusted its credit policy and determined its credit approval plan accordingly to further refine the credit structure. Fifthly, the Bank reinforced the rating management and implemented stringent approval procedures for customers to ensure the quality of new loans. Sixthly, the Bank continued to monitor and analyse significant risk and strictly complied with the prevention and control requirement of significant risks for various businesses. Through effective identification, measurement and monitoring, significant risks were prevented and controlled.

(ii) Market risk management

Market risk is the risk of loss in on- and off-balance sheet positions arising from fluctuations in market prices due to changes in interest rates, exchange rates and other market factors. The Bank is exposed to market risk primarily through its banking and trading business portfolios. The market risks associated with the banking business portfolio of the Bank include interest rate risk and exchange rate risk. The primary market risks associated with the Bank's trading business portfolio are fluctuations in the market value of trading positions, which are affected by movements in observable market variables, such as interest and exchange rates. The principal objective of the Bank's market risk management is to limit potential market losses to acceptable levels based on its risk appetite while seeking to maximize risk adjusted returns.

The Bank's organizational structure of market risk management includes its front, middle and back offices. The Board of the Bank assumes ultimate responsibility for management of market risk. The Bank's senior management implements market risk management strategies and policies approved by its Board. The Bank's business departments implement market risk management measures in their daily operations.

In 2020, in the face of the global economic and financial situations and complicated and ever-changing market conditions, the Bank enhanced analysis and judgment of market changes and proactively responded to the effect of interest rate marketization on its business. Effective measures were taken to enhance the market risk management capabilities of the Bank. Firstly, market risks were measured based on sensitive analysis, duration, value at risk (VaR) and other tools. Identification, evaluation and prevention of market risks were further strengthened. Secondly, the Bank strictly managed market risk limits and continued to monitor transaction limits, stop-loss limits and risk limits. The Bank also provided early warning and took effective measures for potential risks. Thirdly, based on the results of its regular stress tests, market risk management strategies and methods were adjusted in a timely manner to further enhance the market risk management level.

Chapter 4 Management Discussion and Analysis

(A) Interest rate risk management

Interest rate risk is the risk of economic loss to commercial banks due to adverse changes in interest rates. Based on a variety of sources, interest rate risk can be categorized into re-pricing risk, yield curve risk, benchmark risk and optionality risk. The interest rate risk of the Bank mainly includes re-pricing risk (also known as maturity mismatch risk), which is due to the difference between the maturity dates of assets, liabilities and off-balance sheet positions of the Bank (for fixed interest rate) and the re-pricing period (for floating interest rate). The overall goal of the interest rate risk management of the Bank is to follow the principles of sound risk preference and to ensure the adverse impacts of changes in interest rates on revenue and value of the Bank are controllable.

The Bank has established a governance structure compatible with its interest rate risk management, which comprised the Board and its Risk Management Committee, the senior management and its Asset and Liability Management Committee, departments at the front and middle offices, branches and subsidiaries. Such governance structure is also under the supervision of the Board of Supervisors and subject to audit by the audit department. The senior management is responsible for the specific management of the interest rate risk of the Bank, while the Asset and Liability Management Committee performs relevant functions as authorized by senior management, including the formulation, evaluation, supervision and implementation of interest rate risk preferences and interest rate risk management strategies, policies and procedures. Each management level has clear division of work, ensuring that the interest rate risk management can be carried out independently and effectively with sufficient resources.

In 2020, the Bank further improved the internal funds transfer pricing (FTP) system and the loan rate pricing model (RPM) to strengthen the interest rate pricing management mechanism and incorporate LPR into the FTP system. Operation strategy and business development direction were modified based on the price leverage for more effective allocation of resources and structures. Prevention and control of interest rate risk was further enhanced. Based on the statistics of repricing deadlines of its rate-sensitive assets and liabilities, the Bank adopted specific interest rate shock scenarios to analyze the impact of interest rate fluctuation on its economic values, to measure the potential banking book interest rate risk and to maintain the banking book interest rate risk within its acceptable range. In the future, the Bank will further enhance the efficiency of asset allocation and strengthen debt and pricing management capabilities. The Bank will also optimize risk management mechanism regarding banking book interest rate, to improve risk monitoring and early warning and minimize the impact of interest risks on the business of the Bank, whereby maintaining balance between income, risk and capital.

Chapter 4 Management Discussion and Analysis

Notes:

- (1) Primarily includes property and equipment, goodwill, other receivables and prepayments, deferred tax assets, repossessed assets, interests in associates and right-of-use assets.
- (2) Primarily includes accrued staff costs, taxes payable and lease liabilities.

The Group uses sensitivity analysis to measure the impact of changes in interest rates on its net profit or loss and equity. The table below sets forth the results of the Group's interest rate sensitivity analysis based on its assets and liabilities as of the dates indicated.

(Expressed in millions of RMB, unless otherwise stated)	As of December 31,			
	2020		2019	
	Changes in net profit	Changes in equity	Changes in net profit	Changes in equity
Increase by 100 basis points	(194.5)	(200.1)	(150.6)	(279.1)
Decrease by 100 basis points	194.5	200.1	150.6	279.1

The sensitivity analysis above is based on a static interest rate risk profile of the assets and liabilities. This analysis measures only the impact of changes in interest rates within one year, showing how annualized net profit or loss and equity would have been affected by the repricing of the assets and liabilities within a year. The sensitivity analysis is based on the following assumptions:

- Interest rate movements at the end of each fiscal year apply to non-derivative financial instruments;
- At the end of each fiscal year, an interest rate movement of 100 basis points is based on the assumption of interest rates movement over the next 12 months;
- There is a parallel shift in the yield curve with the changes in interest rates;
- There are no other changes to the assets and liabilities portfolio;
- Other variables (including exchange rates) remain unchanged; and
- The analysis does not take into account the effect of risk management measures taken by the management.

Chapter 4 Management Discussion and Analysis

Due to the adoption of the aforementioned assumptions, the actual changes in the net profit or loss and equity caused by an increase or decrease in interest rates might vary from the estimated results of this sensitivity analysis.

(B) Exchange rate risk management

Exchange rate risk is the risk of loss to on- and off-balance sheet businesses of the Bank due to adverse changes in exchange rate. The exchange rate risk of the Bank is mainly due to mismatches in the currency denominations of its assets and liabilities and the term structure of foreign exchange transactions. The Bank manages exchange rate risk by reasonable matching the sources and uses of funds. The Bank mainly uses foreign exchange exposure analysis and sensitivity analysis to measure exchange rate risk. It also seeks to minimize the management cost of exchange rate risk and impact of exchange rate fluctuations and to maintain exchange rate risk within a acceptable range by managing risk exposure limits and choosing appropriate transaction currency.

The Bank regulates transactions that have high exchange rate risks and monitor foreign exchange positions on a real-time basis. The Bank promptly closes positions from major transactions and revalues non-monetary balance sheet items daily to enhance the management of foreign exchange assets and liabilities. The Bank has continued to strengthen its exchange rate risk management, ensured the reasonable use of foreign exchange funds and duly considered the effect of exchange rate changes on revenue for the current period to further improve its risk management of foreign exchange exposure. The Bank studied the effect of changes in the main factors of market risk on revenue and economic value to proactively regulate potential systematic risks. The exchange rate risk management level of the Bank can be extensively improved.

(iii) Operational risk management

Operational risk refers to the risk of loss caused by incomplete corporate governance structure, defective internal control procedures, failures of employees and IT systems or external events. Operational risk events include risk of internal and external fraud, risk relating to customers, products and operations and risk of errors and malfunctions of IT systems.

Chapter 4 Management Discussion and Analysis

The Board of the Bank is ultimately responsible for operational risk management and reviewing operational risk policies. The Bank's senior management is responsible for coordinating daily operational risk management. The Bank's legal compliance department leads the management of operational risks and is responsible for the daily monitoring, identification, evaluation and control of operational risks and reporting to senior management. The risk management department, all business departments, branches and sub-branches are integral to the Bank's operational risk management framework. The Bank manages and controls operational risks through reporting, balancing authority and supervision systems.

In 2020, the Bank further optimized its operational risk management system and adopted effective risk prevention measures, in order to improve its operational risk prevention and control. Firstly, the Bank continued to carry out assessment after adopting system and revised rules and regulations on a timely manner. Through optimizing its business operation process and refined its risk prevention and control measures, the Bank further solidated its foundation for operational risk management. Secondly, the Bank further improved the case risk prevention and control to maintain high attention of case prevention. A solid line of defense for case risk management has been set up to eliminate potential risks in time and effectively mitigate case risks. Thirdly, the Bank put great efforts in monitoring and inspection. Through carrying out special inspection and systematic off-site inspection, the Bank monitored its employees in key position, all key business segments and key business procedures and rectified any deficiencies on a timely manner, whereby eliminating potential risks. Fourthly, the Bank enhanced the training to all employees, developed the concept of compliance operation and cultivated the professional ethics of employees to raise the awareness of employees on risks and improve its risk prevention and control. Through establishing operational risk management culture, the Bank prevented risks arising from the operation of employees. Fifthly, the Bank strictly implemented the requirements for pandemic prevention and control during the pandemic prevention period. In order to ensure the stable business operation, the Bank strengthened its business continuity management.

Chapter 4 Management Discussion and Analysis

(iv) Liquidity risk

(A) Liquidity risk management

Liquidity risk refers to the risk of failure to secure sufficient funds to fulfil payment obligations at reasonable cost and in a timely manner. Liquidity risk is largely affected by external factors such as domestic and international financial conditions, macroeconomic policies, changes in financial markets and competitive strengths of the banking industry. Liquidity risk is also affected by internal factors such as the balance and maturity profile of assets and liabilities, the stability of deposits and ability to obtain financing. The Bank's liquidity risk management aims to establish and continuously improve the strategy, policy and procedure of liquidity risk management system and to specify the organization structure and responsibilities of the relevant functional departments so as to effectively identify, measure, monitor and control liquidity risks. The objective of liquidity risk management is to maintain the balance of safety, liquidity and efficiency of its operation.

The Bank has established an effective liquidity management framework and decision-making system and related procedures. The Board of the Bank is ultimately responsible for liquidity risk management, determined the policy, strategy and procedure of liquidity risk management and limit of liquidity risk according to its risk appetite. The Board will review regular reports on the major and potential changes of the Bank's liquidity risks. The assets and liabilities management committee under the senior management is responsible for the implementation of the strategies and policies and procedures of liquidity risk management. The accounting department is responsible for the daily liquidity risk management and to cooperate with the inter-bank market and other function departments to orderly and efficiently manage the liquidity risk management system.

The Bank continued to improve its liquidity risk management measures, tools and approaches. The ability to measure, identify and forecast liquidity risks was further enhanced through asset and liability management, liquidity risk indicative limits and maturity management to strengthen the liquidity risk management system. In addition, the Bank further improved the management of cash flow and reserve of assets with high quality and explored more sources of funding. The Bank properly increased its assets and adjusted the assets and liabilities structure for better prevention and management of liquidity risks in accordance with the exposure, satisfactory requirements of liquidity risk indicators, capital adequacy and changes in market conditions.

Chapter 4 Management Discussion and Analysis

In 2020, adhering to the principles of sound and prudent operation, the Bank focused on the forward-looking and proactive management of liquidity and further optimized its asset and liability structure. The Bank was able to control and prevent the pandemic while managing liquidity risk effectively, thus the liquidity of the Bank remained overall stable. Firstly, the Bank strictly implemented liquidity risk management policies and appetite. Based on the adjustment on monetary policies and operation structure as well as other changes in internal and external conditions, the Bank maintained the balance between security, liquidity and efficiency. Secondly, the Bank continuously refined its liquidity risk management system and procedures. The Bank flexibly adjusted its liquidity risk management strategies, further improved its liquidity risk management measures and established a dynamic liquidity coordination mechanism to further strengthen its liquidity risk management capabilities. Thirdly, the Bank further enhanced the liquidity risk monitoring management and the analysis of risk early warning. Through closely monitoring risk indicators and limit and accurately identifying, assessing and calculating liquidity risks, the Bank was able to detect risks in a timely manner and implement initiatives in risk prevention and control and mitigation in advance. The Bank focused on the daily liquidity management to ensure reasonable and sufficient reserves through accurate calculations, timely monitoring and reasonable adjustment and control of excess reserves and settlement funds. Fourthly, the Bank conducted regular liquidity stress test. The reasonable and appropriate stress scenarios and stress test parameters fully demonstrated the cash flow gap and sufficiency of provisions after mitigating risks. Emergencies plan was formulated based on the liquidity gap to manage liquidity risks within controllable level. Fifthly, the Bank reasonably adjusted its asset and liability structure to reduce the risks in relation to maturity mismatch. The Bank adjusted its credit asset structure through providing supports to micro-, small- and medium-sized enterprises and three rurals. The Bank purchased treasury bonds and financial bonds when appropriate to increase the reserve of high-quality current assets. Practical measures were taken to increase core deposits and the proportion of core liabilities, so as to ensure stable liquidity.

(B) Liquidity risk analysis

The Group funds its loan and investment portfolios principally through deposits from customers. Deposits from customers have been, and the Bank believes that it will continue to be, a stable source of funding. Deposits from customers with remaining maturities of less than one year represented 60.4% and 74.4% of the total deposits from customers as of December 31, 2020 and 2019, respectively.

Chapter 4 Management Discussion and Analysis

(v) Reputational risk management

Reputational risk is the risk of negative evaluation of the Bank by stakeholders resulting from the Bank's operations, management, other activities or external events. The Bank's reputational risk management aims to identify, monitor, manage and mitigate reputational risk through the establishment of a proactive, reasonable and efficient reputational risk management mechanism. These efforts allow the Bank to establish and maintain a positive image for its sustainable, steady and rapid development.

The Board of the Bank bears ultimate responsibility for reputational risk management. The Risk Management Committee is responsible for providing opinions for the Board to make decisions on reputational risk management. It is also responsible for the control, management, monitoring and evaluation of the Bank's reputational risk management. The senior management is responsible for taking the lead in the reputational risk management of the Bank and implementing the reputational risk management strategies and policies formulated by the Board. The senior management is also responsible for approving systems, methods, operational procedures and handling plans of reputational events related to reputational risk management to ensure smooth and effective operation of the reputational risk management system.

In 2020, the Bank strictly complied with regulatory requirements and revised and optimized the Administrative Measures on Reputational Risk (《聲譽風險管理辦法》), the Implementation Rules of Public Relations Management (《輿情管理工作實施細則》) and the Implementation Rules on Emergency Reporting (《突發事件信息報告工作實施細則》), which set out clear division of duties of relevant departments and measures on identifying, monitoring, assessing, controlling, managing and evaluating reputational risks, so as to establish a well-coordinated, effective and rapid-response mechanism. The Bank also optimized response plan for various kinds of contingency and established early warning mechanism and procedures, assigned tasks for handling contingencies and set up reporting channels in order to strengthen the capability for, and level of, coping with contingency. Through establishing a mechanism for regular inspection and monitoring on public relations, the Bank was able to identify reputational risk promptly. Meanwhile, the Bank established the awareness of preventing reputation risk, improved service quality and level, maintained the balance between compliance operation and customer development appropriately and placed great emphasis on the protection of rights and interests of financial customers. The Bank formulated clear measures on handling complaints from customers and set a deadline for resolving such complaints in order to make prompt response to reasonable requests from customers. As the Bank spread financial knowledge through multiple online and offline channels, its customers clearly understood the Banks' financial products and services and chose suitable products and services. The misunderstandings and disputes caused by information asymmetry were therefore prevented. The Bank put great efforts in publicizing anti-counterfeiting,

anti-illegal fund-raising and anti-fraud, so as to improve the ability of the public to identify risks and raise the public awareness. The above measures facilitated us to create stable and harmonious business environment and establish a good social image.

(vi) Legal and compliance risk management

Legal and compliance risk refers to the risk of legal sanctions, regulatory penalties, significant financial losses and reputational harm resulting from the failure to comply with laws and regulations. The Bank's legal and compliance risk management aims to establish an effective and comprehensive compliance risk management structure, specify the obligation of risk management, promote the culture of compliance, improve the comprehensive risk management system so as to ensure the compliance of operation.

The Bank prioritizes legal and compliance risk management in the development of its corporate culture as well as its comprehensive risk management system in order to establish a top-down compliance risk management system. In 2020, adhering to the principle of achieving growth in compliance with the regulations, the Bank prioritized internal control and further improved the effectiveness of its compliance management. Firstly, the Bank launched a three-year "compliance task". Through five key tasks of "organization structure, system and mechanism, early warning monitoring, assessment accountability and culture cultivation" in 15 aspects to form a working mechanism of "organization and promotion, interaction between top and bottom, horizontal linkage and joint management" to effectively solve the shortcomings of the Bank in the management of structure, processes, personnel and systems, and gradually establish a compliant incident prevention system for all businesses and personnel. The Bank also implemented the supervision and inspection mechanism. The Bank also attached high importance to enhancing the inspection and supervision of system implementation with focus on strengthening the constraints and execution. Pursuant to the requirements and planning of the regulatory authorities to prevent financial risks, the Bank carried out activities such as case risk investigation, special inspection and rectification of unlawful fund-raising, the promotion month for prevention of unlawful fund-raising and case warning education activities in 2020. Through investigation and rectification as well as promotion and education, the compliance management of the Bank was further enhanced, further consolidating the foundation for serving the real economy.

Chapter 4 Management Discussion and Analysis

(vii) IT risk management

IT risk refers to the operational, reputational, legal and other risks arising from the use of information technologies due to natural factors, human factors, technical constraints, management defects and other factors. The Bank's IT risk management aims to identify, measure, monitor and control IT risk through the development of effective systems. In doing so, the Bank seeks to ensure its safe and stable operation and promote business innovation through the application of advanced information technology. Through expanding the application of IT, the Group aims to strengthen its core competitiveness and sustainable development ability.

The Bank has an IT committee responsible for overseeing and guiding its IT activities. IT risks are included to the comprehensive risk management system of the Bank. The IT department is responsible for the implementation of specific risk management measures, plans and proposals. In 2020, the Bank strengthened the real-time monitoring and control of IT risks through optimizing its IT system and network prevention and control system and strengthening business continuity management. The Bank also established a comprehensive IT risk management mechanism covering all periods and aspects. Firstly, the Bank optimized its IT system. The Bank formulated the Fintech Development Plan (2020–2022) (《金融科技發展規劃(2020–2022年)》) and further enhanced network safety management. The Bank improved the capabilities to cope with material network threats, disasters and contingency through establishing a comprehensive network safety technical protection system covering all business process. Chapter 5 Report of the Board of Directors

V. Profits and Dividend

The Group's revenue for the year ended December 31, 2020 and the Group's financial position as of the same date are set out in the consolidated financial statements of this annual report.

The declaration of a dividend is subject to the discretion of the Board, which will take into account the following factors when considering the payment of a dividend: (a) the financial results of the Group; (b) the cash flow situation and future cash requirements of the Group; (c) the general business conditions and strategies of the Group; (d) the statutory and regulatory restrictions; and (e) any other factors the Board may deem relevant. Given the fluctuating nature of earnings or loss of the Group, the Board does not recommend setting a target dividend payout ratio, or maintaining a consistent dividend payment over time. There can be no assurance that a dividend will be proposed or declared in any specific period. The Board will review the dividend policy from time to time.

The Board has recommended a payment of final dividend of RMB658,985,918.25 in total (tax inclusive) for the year ended December 31, 2020. Based on the number of Shares on the record date for dividend distribution, the Bank will distribute a cash dividend of RMB0.15 (tax inclusive) for each share. If the profit distribution proposal for 2020 is approved by Shareholders at the 2020 annual general meeting of the Bank to be held on June 18, 2021, the distribution date of the final dividend for 2020 will be on or before Friday, August 13, 2021. If there is any change in the expected distribution date, further announcements will be made.

The final dividend for 2020 shall be distributed to holders of Domestic Shares and H Shares whose names appeared on the share register of the Bank at the close of business on Wednesday, June 30, 2021. To determine the identity of the Shareholders entitled to receive the final dividend, the Bank's H Share register will be closed from Friday, June 25, 2021 to Wednesday, June 30, 2021 (both days inclusive), during which period no transfer of H Shares will be registered. In order to be entitled to the final dividend for 2020, the Shareholders are required to deposit all share certificates together with the transfer documents with the H Share registrar of the Bank, Computershare Hong Kong Investor Services Limited at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong no later than 4:30 p.m. on Thursday, June 24, 2021.

The proposed dividends payable are denominated in Renminbi, and will be paid to holders of Domestic Shares in Renminbi and holders of H Shares in HK dollars. Calculation of the exchange rate for dividends payable in HK dollars will be based on the central parity rate of the average exchange rate of Renminbi to HK dollars as announced by the PBOC on the five working days preceding the date of declaration of the dividend at the 2020 annual general meeting of the Bank (June 18, 2021, inclusive).

Cash dividends as percentage of profit for the year (%)	54.9	63.0	60.6

VI. Plan of Capital Reserve Capitalization

The Board proposed to issue new Shares by way of capitalization of capital reserve to the holders of Domestic Shares and H Shares whose names appear on the share register of the Bank at the close of business on Wednesday, June 30, 2021 on the basis of 5 new Shares for every 100 existing Shares held by the Shareholders (the “Proposed Capitalization Issue”). Based on the 4,393,239,455 Shares of the Bank in issue as at December 31, 2020, the total number of new Shares to be issued by way of capitalization of capital reserve would be 219,661,972 Shares, including 177,822,097 Shares to be issued to holders of Domestic Shares and 41,839,875 Shares to be issued to holders of H Shares. Upon completion of the Proposed Capitalization Issue, the total number of Shares in issue of the Bank will be 4,612,901,427 Shares, including 3,734,264,052 Domestic Shares and 878,637,375 H Shares.

Fractional Domestic Shares arising from the Proposed Capitalization Issue will be aggregated and one new share will be issued to each of the holders of Domestic Shares in descending order based on the decimal number of their fractional Domestic Shares, until the actual number of Domestic Shares issued equals the total number of Domestic Shares issued under the Proposed Capitalization Issue. If the number of holders of Domestic Shares with the same decimal number of fractional Domestic Shares exceeds the remaining Shares, such remaining Shares shall be randomly allotted by computer, which shall be conclusively evidenced by the results announced by China Securities Depository and Clearing Co., Ltd. The H Shares under the Proposed Capitalization Issue shall be issued on a pro rata basis and any fractional Shares will be rounded down to the nearest whole number. Fractional H Shares will not be issued and allotted, but will be aggregated and sold for the benefit of the Bank. The Proposed Capitalization Issue shall be subject to the approval by way of special resolution at the annual general meeting, the Domestic Share class meeting and the H Share class meeting, the approval of the Hong Kong Stock Exchange for the listing and trading of H Shares to be issued under the Proposed Capitalization Issue and the approval of the CBIRC. The Bank shall also comply with the relevant legal procedures and regulations according to the Company Law of the PRC.

The Board also proposed to change its registered capital and amend its Articles of Association to reflect the change in registered capital as a result of the Proposed Capitalization Issue. The change in the registered capital and amendments to the Articles of Association of the Bank shall be subject to the approval of the annual general meeting by way of special resolution.

Chapter 5 Report of the Board of Directors

The circular containing, among other things, detailed arrangements regarding the Proposed Capitalization Issue (including, but not limited to, the timing, book close and the arrangements for fractional Shares and overseas Shareholders) together with the notices of the 2020 annual general meeting and the first H Share Class Meeting of 2021 has been despatched to the holders of H Shares of the Bank in due course.

VII. 2020 Annual General Meeting and the First H Share Class Meeting of 2021 and Book Closure Date

The 2020 annual general meeting and the first H Share Class Meeting of 2021 will be held on Friday, June 18, 2021. In order to determine the holders of H Shares who are eligible to attend the 2020 annual general meeting and/or the first H Share Class Meeting of 2021, the H share register of the Bank will be closed from Wednesday, May 19, 2021 to Friday, June 18, 2021 (both days inclusive), during which period no transfer of H Shares will be registered.

In order to qualify for attending the 2020 annual general meeting and/or the first H Share Class Meeting of 2021, share certificates accompanied by transfer documents must be lodged with the Bank's H Share registrar, Computershare Hong Kong Investor Services Limited at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong no later than 4:30 p.m. on Tuesday, May 18, 2021. Holders of H Shares of the Bank whose names appear on the register of members of the Bank on Thursday, June 17, 2021 are entitled to attend the 2020 annual general meeting and/or the first H Share Class Meeting of 2021.

A Shareholder or his/her proxy should present proof of identity when attending the 2020 annual general meeting and/or the first H Share Class Meeting of 2021. If a Shareholder is a legal person, its legal representative or other person authorized by the board of directors or other governing body of such Shareholder may attend the 2020 annual general meeting and/or the first H Share Class Meeting of 2021 by providing a copy of the resolution of the board of directors or other governing body of such Shareholder appointing such person to attend the meeting(s).

XXI. Arrangements to Purchase Shares or Debentures

At no time during the Reporting Period and up to the Latest Practicable Date was the Bank or any of its subsidiaries or fellow subsidiaries, a party to any arrangements to enable the Directors and Supervisors (including their spouses and children under the age of 18) of the Bank to acquire benefits by means of the acquisition of shares in, or debentures of, the Bank or any other body corporate.

XXII. Interests of Directors and Supervisors in Material Transactions, Arrangements or Contracts and Service Contracts

Saved as disclosed in this annual report, none of the Directors or Supervisors (or their connected entities) had any material interest, whether directly or indirectly, in any transaction, arrangement or contract of significance of the Bank or its subsidiaries subsisting during or at the end of the Reporting Period. None of the Directors and Supervisors has entered into a service contract with the Bank that cannot be terminated by the Bank or its subsidiaries within one year without payment of compensation (other than statutory compensation).

XXIII. Management Contract

Save for the service contracts entered into with the Directors, Supervisors and senior management members of the Bank, the Bank has not entered into any other contract with any individual, company or body corporate in relation to the management or administration of the whole or any substantial part of any business of the Bank.

XXIV. Interests of Directors and Supervisors in Competing Businesses

None of the Directors and Supervisors has any interest in a business that competes, or is likely to compete, either directly or indirectly, with the business of the Bank under Rule 8.10(2) of the Hong Kong Listing Rules.

XXV. Corporate Governance

The Bank is committed to maintaining a high level of corporate governance. Details of the Group's corporate governance are set out in the section headed "Corporate Governance Report" of this annual report.

XXVI. Connected Transactions

Pursuant to Chapter 14A of the Hong Kong Listing Rules, transactions between the Bank and its connected persons (as defined in the Hong Kong Listing Rules) will constitute connected transactions of the Bank. However, such connected transactions can be exempted from compliance with relevant reporting, annual review, announcement and independent shareholder approval requirements under Chapter 14A of the Hong Kong Listing Rules. The Bank has reviewed all the connected transactions and confirmed that it has complied with the disclosure requirement under Chapter 14A of the Hong Kong Listing Rules.

Chapter 5 Report of the Board of Directors

The definition of connected persons under Chapter 14A of the Hong Kong Listing Rules is different from the definition of related parties under International Accounting Standard 24 “Related Party Disclosures”, and its interpretations by the International Accounting Standards Board. The details of the related party transactions conducted by the Bank in the ordinary and usual course of business are set out in note 49 to the consolidated financial statements of this annual report. The related party transactions set out in note 49 to the consolidated financial statements of this annual report also constitute connected transactions as defined in the Hong Kong Listing Rules, but none of them constitute a disclosable connected transaction as required by the Hong Kong Listing Rules.

XXVII. Remuneration Policies for Directors, Supervisors and Senior Management Members

Under the guidance of the relevant policies of the PRC, the Bank endeavors to improve its performance evaluation system for Directors, Supervisors and senior management members.

The remuneration system for the Directors, Supervisors and senior management members of the Bank adheres to the principle of unifying their responsibilities, authorities and interests, combing incentives and restraints and focusing on both short-term and long-term incentives. The Bank insists on conducting remuneration system reform complementary with the relevant reform and promoting the marketization, monetization and standardization of the income allocation of the Group’s senior management.

The Bank offers its executive Directors, employee representative Supervisors and senior management members, who are also the Bank’s employees, compensation in the form of salaries, bonuses, social insurances, housing provident fund plans and other benefits. The independent non-executive Directors and external Supervisors receive compensation based on their responsibilities. Please refer to note 12 to the consolidated financial statements in this annual report for the details of the remuneration of the Directors and Supervisors.

The Bank strictly adheres to relevant regulatory provisions when making remuneration payments. The Bank assesses senior management personnel and offers remuneration to them based on the results of the assessment.

XXVIII. Public Float

During the initial public offering of the Bank’s H Shares, the Bank has applied to the Hong Kong Stock Exchange to ask the Hong Kong Stock Exchange to exercise its discretion to waive the requirement under Rule 8.08(1)(d) of the Hong Kong Listing Rules, and the Hong Kong Stock Exchange has granted the Bank a waiver from strict compliance with the requirements under Rule 8.08(1)(a) of

Chapter 5 Report of the Board of Directors

the Hong Kong Listing Rules. According to the waiver granted by the Hong Kong Stock Exchange, the minimum public float of the Bank will be the highest of:

- (1) 16.9% of the Bank's total issued share capital;
- (2) such percentage of H Shares to be held by the public immediately after the completion of the global offering (assuming the over-allotment option has not been exercised); and
- (3) such percentage of H Shares to be held by the public immediately after the completion of the global offering (assuming the over-allotment option has been exercised).

Immediately after the issue and allotment by the Bank and the sale by the selling shareholders of the over-allotment Shares due to full exercise of the over-allotment option, the number of H Shares in public hands represents 19.05% of the total issued share capital of the Bank, which satisfies the minimum percentage prescribed in the conditions imposed in the waiver granted by the Hong Kong Stock Exchange from strict compliance with Rule 8.08(1)(a) of the Hong Kong Listing Rules.

Based on the publicly available information and as far as the Directors were aware, as of the Latest Practicable Date, the public float of H Shares of the Bank was 19.05%, which was in compliance with the requirement specified in the waiver granted by the Hong Kong Stock Exchange.

XXIX. Tax Relief

(1) Withholding and Payment of Enterprise Income Tax for Non-resident Enterprise Shareholders

Pursuant to the Enterprise Income Tax Law of the People's Republic of China (《中華人民共和國企業所得稅法》) and its implementation rules and the relevant regulations, the Bank has the obligation to withhold and pay enterprise income tax at a tax rate of 10% on behalf of the non-resident enterprise Shareholders whose names appear on the H Share register in the distribution of final dividend for 2020. As any Shares registered in the name of non-individual Shareholders, including HKSCC Nominees Limited, other nominees, trustees or other organisations and groups, will be treated as being held by non-resident enterprise Shareholders, the dividends received shall be subject to the withholding of enterprise income tax.

Upon receipt of such dividends, a non-resident enterprise Shareholder may apply to the competent tax authorities for relevant treatment under the tax treaties (arrangements) in person or through a proxy or a withholding agent, and provide evidence in support of its status as a beneficial owner as defined in the tax treaties (arrangements). Upon verification by the competent tax authorities, the difference between the tax levied and the amount of tax payable as calculated at the tax rate under the tax treaties (arrangements) will be refunded.

Chapter 5 Report of the Board of Directors

(2) Withholding and Payment of Individual Income Tax for Individual Overseas Resident Shareholders

According to the Individual Income Tax Law of the People's Republic of China (《中華人民共和國個人所得稅法》) and its implementation rules and the Announcement of the State Administration of Taxation on Promulgating the Administrative Measures for Tax Convention Treatment for Non-resident Taxpayers (Announcement of the State Administration of Taxation 2015 No. 60) (《國家稅務總局關於發佈〈非居民納稅人享受稅收協定待遇管理辦法〉的公告》 (國家稅務總局公告2015年第60號)) (the "Tax Convention Announcement"), the Bank has the obligation to withhold and pay individual income tax on behalf of the individual Shareholders whose names appear on the H Share register ("Individual H Shareholder(s)") in the distribution of final dividend for 2020. However, Individual H Shareholders are entitled to the relevant favourable tax treatments pursuant to the provisions in the tax treaties between the countries (regions) in which they are domiciled and the PRC, and the tax arrangements between the PRC and Hong Kong (or Macau). As such, the Bank will withhold and pay individual income tax on behalf of the Individual H Shareholders in accordance with the following arrangements:

- for Individual H Shareholders receiving dividends who are Hong Kong or Macau residents or citizens from countries (regions) that have entered into a tax treaty with the PRC stipulating a tax rate of 10%, the Bank will withhold and pay individual income tax at the rate of 10% in the distribution of final dividend;
- for Individual H Shareholders receiving dividends who are residents from countries (regions) that have entered into a tax treaty with the PRC stipulating a tax rate of less than 10%, the Bank will withhold and pay individual income tax at the rate of 10% in the distribution of final dividend. If relevant Individual H Shareholders would like to apply for a refund of the excess amount of tax withheld and paid, the Bank will handle, on their behalf, the applications for tax preferential treatments under relevant tax treaties according to the Tax Convention Announcement. Qualified Shareholders shall submit in time a letter of entrustment and all application materials as required under the Tax Convention Announcement to the Bank's H Share registrar, Computershare Hong Kong Investor Services Limited. The Bank will then submit the above documents to competent tax authorities and, after their examination and approval, the Bank will assist in refunding the excess amount of tax withheld and paid;
- for Individual H Shareholders receiving dividends who are residents from countries (regions) that have entered into a tax treaty with the PRC stipulating a tax rate of more than 10% but less than 20%, the Bank will withhold and pay individual income tax at the effective tax rate stipulated in the relevant tax treaty in the distribution of final dividend;

Chapter 5 Report of the Board of Directors

- for Individual H Shareholders receiving dividends who are residents from countries (regions) that have entered into a tax treaty with the PRC stipulating a tax rate of 20% or without tax treaties with the PRC or under other circumstances, the Bank will withhold and pay the individual income tax at the rate of 20% in the distribution of final dividend.

Under the current practice of the Hong Kong Inland Revenue Department, no tax is payable in Hong Kong in respect of dividends paid by the Bank. Shareholders of the Bank are taxed and/or entitle to enjoy tax relief in accordance with the aforementioned regulations.

XXX. Auditors

ShineWing Certified Public Accountants LLP was engaged by the Bank as the auditor for the PRC GAAP financial statements of the Bank for 2020. Chapter 8 Directors, Supervisors, Senior Management, Employees and Organisations

In addition to full-time employees, as of December 31, 2020, the Group also had 173 contract staff from third-party human resources agencies. These contract staff are not the Group's employees. Instead, they have entered into employment contracts with third-party human resources agencies. They generally serve in non-key positions, such as bank tellers and customer service officers. The Bank and the subsidiaries make advance payments to the third-party agencies, which then pay salaries to and make social security contributions for contract staff.

(II) Employee Remuneration

The Group conducts performance evaluations of employees annually to provide feedback on performance. Compensation for full-time employees of the Group typically consists of a base salary and a discretionary bonus. The Group determines employee discretionary bonuses at the end of each year based on employee performance and its results of operations.

The Group's full-time employees participate in various employee benefit plans, such as pension insurance, medical insurance, work related injury insurance, unemployment insurance, maternity insurance, housing funds and corporate annuity funds. In addition, the Group provides supplementary medical insurance to its employees.

According to the relevant regulations, the premiums and welfare benefit contributions borne by the Group are calculated regularly on a certain percentage of the remuneration cost and paid to the relevant labor and social welfare authorities. The Group cannot withdraw or utilize its fund contribution made to the defined contribution plans under any circumstance.

(III) Employee Training Program

The Group focuses on employee career development and provide training programs tailored to employees in different business lines. The Bank has built a specific team of internal trainers. The Bank also collaborates with PRC institutions of higher education to recruit and train employees. For example, the Bank has established a training center to enhance employee professional skills. The Bank emphasizes internal employee training. Through internal selection in various ways, the Bank trains outstanding management personnel and provides employees with opportunities to enhance professional knowledge and develop professional skills.

(IV) Labor Union

The Bank and each subsidiary have a labor union established in accordance with PRC laws and regulations. The Bank believes that the Bank and each subsidiary have maintained a good working relationship with its employees. As of the Latest Practicable Date, none of the Bank nor any of the Group's subsidiaries had experienced any labor strikes or other labor disturbances that materially affected the Group's operations or public image.

Chapter 9 Corporate Governance Report

I. Corporate Governance Structure

The following chart sets forth the Bank's principal organisational and management structure as of the Latest Practicable Date:

Chapter 9 Corporate Governance Report

II. Corporate Governance

Overview

The Bank believes that maintaining high standards of corporate governance mechanisms and high quality corporate governance is one of the key factors to improve its core competitiveness and to build a modern rural commercial bank. Therefore, the Bank focuses on high quality of corporate governance, abides by the best domestic and international corporate governance practice, to ensure the rights and interests of Shareholders and improve the value of the Bank.

The Bank has established a modern corporate governance structure in line with the requirements of its Articles of Association, PRC laws and regulations and the Hong Kong Listing Rules. The Board of Directors is accountable to the Shareholders as a whole and is responsible for, among others, determining the Group's business development strategies, business plans and investment proposals, appointing or removing senior management, and deciding matters such as internal management structure. The Board of Directors has established committees to perform specified functions, namely the Strategy and Development Committee, the Related-party Transactions Control Committee, the Remuneration Committee, the Nomination Committee, the Risk Management Committee, the Audit Committee, the Consumer Rights Protection Committee and the Three Rurals Financial Services Committee. The Board of Supervisors is accountable to the Shareholders as a whole and has the responsibility and power to supervise the Directors and senior management and oversee the Group's financial activities, risk management and internal control.

The Bank has incorporated the Code of Corporate Governance and the Guidelines on Corporate Governance of Commercial Banks issued by the CBIRC (the "Guidelines") into the Bank's governance structure and polices. The Code of Corporate Governance and the Guidelines are well reflected in the Articles of Association and the rules of procedure for the Shareholders' general meeting, meetings the Board of Directors and the committees under the Board of Directors. The Bank's Shareholders' general meeting, the Board of Directors and the Board of Supervisors perform their respective duties and form good corporate governance structure. The Bank closely monitors its operation to ensure it complies with the relevant requirements under applicable laws, regulations, codes, guidelines and the Bank's internal policies.

During the Reporting Period, the Bank has fully complied with all code provisions contained in the Code of Corporate Governance. The Directors are not aware of any information which indicates any non-compliance of the Bank with the code provisions contained in the Code of Corporate Governance. The Bank has also strictly complied with the provisions regarding management of inside information required by applicable laws and regulations and the Hong Kong Listing Rules.

The Bank will review its corporate governance and strengthen management constantly to ensure compliance with the Code of Corporate Governance and the Guidelines and meet the higher expectations from its Shareholders and potential investors.

Chapter 9 Corporate Governance Report

The Director Nomination Policy and the Board Diversity Policy

The Bank understands and believes that the diversity of the members of the Board of Directors could improve the performance of the Bank. It is critical to have a diversified Board of Directors for the Bank to achieve sustainable development and its strategies and maintain good corporate governance. In respect of appointing the Directors, the Bank will consider their qualifications, skills and experience, and also the diversity of the members in various aspects, including but not limited to gender, age, cultural and educational background, region, professional experience, skills, knowledge, service term and any other factors that the Board may consider relevant and applicable from time to time towards achieving a diverse Board of Directors.

The Nomination Committee of the Board is responsible for reviewing the structure, number of members, and composition (including the skills, knowledge and experience) of the Board of Directors. The Nomination Committee makes recommendations to the Board of Directors relating to the size and composition of the Board of Directors based on the Bank's strategic plans, business operations, asset scale and shareholding structure. The Nomination Committee also discusses and reviews the selection standard, the nomination and appointment process, and makes recommendations to the Board of Directors.

The Board Diversity Policy shall be complied with when the Nomination Committee makes recommendations on the candidates. The Nomination Committee is responsible for monitoring the implementation of the diversity policy and reviewing the policy regularly to ensure its effectiveness. The Nomination Committee will discuss any amendments to the diversity policy and make recommendations to the Board of Directors for approval.

To ensure the effective implementation of the Board diversity policy, the following measurable objectives have been established:

The Board shall ensure that there is no gender limitation in selecting Directors;

At least one third, and no less than three in total, of the Board members are independent non-executive Directors;

Board members shall possess knowledge and skills in different areas; and

At least one Board member is a professional in finance or accounting.

Chapter 9 Corporate Governance Report

Members of the fourth session of the Board have extensive experience in legal compliance, financial reporting and auditing, strategic management and risk prevention and control, innovative financing and three rural financial services. The diversified composition of members of the fourth session of the Board is as follows:

Sex		Age		
Male	Female	40–49	50–59	60 or above
12 persons	1 person	2 persons	8 persons	3 persons

Position			Tenure		
Executive Directors	Non-executive Directors	Independent non-executive Directors	Up to 5 years	6–10 years	More than 10 years
3 persons	5 persons	5 persons	9 persons	3 persons	1 person

The Nomination Committee of the Board and the Board consider that the Board members have generally achieved diversity in different aspects.

- Ms. Zhang Qihua (independent non-executive Director)
- Mr. Chung Wing Yin (independent non-executive Director)

Chapter 9 Corporate Governance Report

- Mr. Yang Jinguan (independent non-executive Director)

The number of Directors and the composition of the Board of Directors are in compliance with applicable laws and regulations. The decision making, authorization and voting procedures strictly follow the relevant rules and regulations of regulatory authorities and the Articles of Association. During the Reporting Period, the Board of Directors discharged its duties diligently, carefully reviewed all matters that were significant to the Bank's future development, improved the Board operation mechanism, strengthened the corporate governance framework, implemented organisational changes, facilitated prudent decision making, ensured operational stability and protected the interests of the Bank and its Shareholders.

(II) Appointment, re-election and removal of Directors

According to the Articles of Association, Directors shall be elected or removed from office by Shareholders at a Shareholders' general meeting. The term of office of a Director shall be three years, and a Director may be re-elected and re-appointed upon expiry of their term of office. Subject to the relevant laws and administrative regulations, a Director whose term of office has not expired may be removed by Shareholders' ordinary resolution at a Shareholders' general meeting, without prejudice to any claim which may be instituted under any contract.

The term of service of non-executive Directors and independent non-executive Directors shall be the same as that of other Directors and they may be re-elected and re-appointed upon the expiration of their terms of office, provided that such term of office of independent non-executive Directors shall not be more than six years on an accumulative basis.

The Directors' appointment, re-election and removal procedures of the Bank are set forth in the Articles of Association. The Nomination Committee is responsible for discussing and reviewing the qualification and experience of each candidate for Director and recommending the suitable candidates to the Board of Directors. After the approval from the Board of Directors, the selected candidates will be recommended for further approval by the Shareholders at a general meeting. As a banking institution regulated by the CBIRC, the qualification of a candidate for the Bank's Directors shall also be approved by the CBIRC.

(III) Relationships among Directors, Supervisors and senior management members

The Directors, Supervisors and senior management members of the Bank are not related to one another in respect of financial business, family or other material/relevant relationships.

Chapter 9 Corporate Governance Report

(IV) Changes of Directors

For changes of Directors, please refer to the section headed “Directors, Supervisors, Senior Management, Employees and Organisations – II. Changes in Directors, Supervisors and Senior Management Members” of this annual report.

(V) Operation of the Board of Directors

According to the Articles of Association, the Board of Directors shall convene at least four meetings per year and at least one meeting per quarter. The meetings of the Board of Directors are divided into regular meetings and extraordinary meetings. The regular meetings of the Board of Directors are convened by the chairman and a notice in writing shall be delivered to all Directors and Supervisors 14 days prior to the date of convening the meeting. The notice of extraordinary meeting of the Board of Directors shall be dispatched to the Directors five business days prior to the date of convening the meeting. In emergency circumstances where an extraordinary meeting of the Board of Directors is required to be convened as soon as possible, the notice of meeting may be issued through telephone or other verbal means, but the convener shall give an explanation at the meeting. The meetings (including video conference) of the Board of Directors generally conduct voting by way of a show of hands and voting by registered ballot.

Provided that sufficient protection is ensured for the expression of opinions by Directors, the Directors may pass resolutions at an extraordinary meeting of the Board of Directors by communication voting and the resolutions shall be signed by the participating Directors. The conditions and procedures of communication voting are provided in the Articles of Association and the Rules of Procedure for Meetings of the Board of Directors.

The Board of Directors shall record the decisions on matters considered at the meetings in the minutes of meetings and the participating Directors and the recorder of minutes shall sign on such minutes. Directors attending the meeting are entitled to request an explanation on record to be made in respect of their verbal comments in the meetings.

The relevant senior management members are invited to attend meetings of the Board of Directors from time to time to provide explanations and answer queries from the Directors. In the meetings of the Board of Directors, the Directors may express their opinions freely, and important decisions should be made after detailed discussions. If any Director has a conflict of interest in a matter to be considered by the Board of Directors, the relevant Director shall abstain from the discussion of and voting on the relevant resolution, and such Director shall not be counted as quorum in voting for that particular resolution.

Chapter 9 Corporate Governance Report

The Board of Directors has established an office as its operating arm, which is responsible for preparation of general meetings, meetings of the Board of Directors and meetings of Board committees, information disclosure and other daily matters.

(VI) Powers of the Board of Directors

The Board of Directors exercises the following powers:

- (1) to convene general meetings and report its work to the general meetings;
- (2) to implement the resolutions approved by the Shareholders at general meetings;
- (3) to decide on the business plans and investment plans of the Bank;

Chapter 9 Corporate Governance Report

- (12) to appoint or remove the president of the Bank and the secretary to the Board of Directors; and based on the nomination by the president of the Bank, to appoint or remove the deputy presidents and senior officers (such as the persons in charge of finance, credit and audit) of the Bank and other persons whom the Board of Directors believes should be appointed or removed by the Board of Directors and to determine their remunerations and rewards and penalties;
- (13) to formulate the basic management system of the Bank (including but not limited to human resources, finance and remuneration) and internal control policies;
- (14) to formulate any amendment proposals to the Articles of Association, the rules of procedure for general meetings and meetings of the Board of Directors;
- (15) to formulate the information disclosure system of the Bank and to manage information disclosure of the Bank;
- (16) to propose the appointment or removal of the Bank's auditors to the general meeting;
- (17) to receive the work report and examine the work of the president of the Bank;
- (18) to prepare the operation and development strategy and capital planning of the Bank and monitor the implementation of such strategy; and
- (19) other duties and powers as provided in the laws, rules and regulations and the Articles of Association or conferred by the general meetings.

(VII) Responsibilities of Directors

During the Reporting Period, all the Directors are prudent, earnest, and diligent to exercise their rights granted by the Bank and domestic and overseas regulatory authorities. The Directors have spent adequate time and effort to deal with the Bank's affairs, ensuring the compliance of the Bank's operation with laws, regulations and the requirements of national economic policies. The Directors have treated all the Shareholders equally, informed themselves of the status of the Bank's business operation and management in a timely manner, and performed other diligence obligations required by laws, administrative regulations, departmental rules and the Articles of Association.

The independent non-executive Directors make full use of their respective professional expertise to provide professional and independent advice on the corporate governance, operation and management of the Bank.

Chapter 9 Corporate Governance Report

The Bank also pays attention to the ongoing training of Directors, to make sure they have proper understanding of the operation and business of the Bank and the duties and responsibilities authorized by the relevant laws and regulatory requirements and the Articles of Association. The Bank has purchased the director liability insurance for all Directors.

(VIII) Responsibilities assumed by the Directors in the preparation of financial statements

The Directors have acknowledged their responsibilities in the preparation of financial statements of the Bank for the year ended December 31, 2020. The Directors are responsible for reviewing and confirming the financial statements for each accounting period to ensure that the financial statements truly and fairly reflect the financial conditions, operating results and cash flows of the Bank. In preparing the consolidated financial statements of the Bank for the year ended December 31, 2020, the Directors have adopted appropriate accounting policies which have been applied consistently, and prudent and reasonable judgments have been made. The Directors were not aware of any material uncertainty or circumstances that might have significant effect on the ability of sustainable operation of the Bank.

(IX) Meetings of the Board of Directors

Chapter 9 Corporate Governance Report

(X) Independent Non-executive Directors

The Board of Directors consists of five independent non-executive Directors and the qualification, number and proportion are in accordance with the regulations of the CBIRC, the China Securities Regulatory Commission and the Hong Kong Listing Rules. The five independent non-executive Directors are not involved in any conflict with the independence issue described in Rule 3.13 of the Hong Kong Listing Rules. The Bank has received from each of the independent non-executive Directors the annual confirmation in respect of his independence. Therefore, the Bank confirms that all the independent non-executive Directors have complied with the provisions of the Hong Kong Listing Rules in respect of independence.

The independent non-executive Directors represent the majority of the Bank's Strategy and Development Committee, Audit Committee, Related-party Transactions Control Committee, Risk Management Committee, Nomination Committee and Remuneration Committee. They also serve as the chairman of the Audit Committee, Related-party Transactions Control Committee, Nomination Committee and Remuneration Committee.

The independent non-executive Directors kept in touch with the Bank's management through various means such as attending meetings. They earnestly participated in meetings of the Board of Directors and the Board committees and actively provided their opinions and emphasized the interests of minority Shareholders of the Bank. The independent non-executive Directors have fully discharged their responsibilities.

(XI) Continuing professional development plan for Directors

All newly appointed Directors have been provided with comprehensive relevant materials at the first time when they were nominated to ensure they have proper understanding of the operation and business of the Bank and fully understand the duties and responsibilities of Directors under the Hong Kong Listing Rules and the applicable laws and regulations.

The Bank has encouraged all Directors to participate in continuing professional development to develop and refresh their knowledge and skills. The Bank will provide briefings on the latest development of the Hong Kong Listing Rules and other applicable regulatory requirements to the Directors from time to time to ensure that the Directors are aware of the latest regulatory development.

Remuneration bands	Number of Persons
RMB1.5 million–RMB1.7 million	3
More than RMB1.7 million	1

VII. Chairman of the Board and the President

The roles and duties of the chairman of the Board of Directors and the president of the Bank are assumed by different persons, with their respective responsibilities clearly delineated and in compliance with the requirements under the Hong Kong Listing Rules.

Chapter 9 Corporate Governance Report

Mr. Gao Bing, an executive Director, is the chairman of the Board of Directors, who is responsible for the overall strategic planning and management of the Board of Directors to ensure that the Board of Directors operates efficiently and that all Directors are aware of the current issues so as to discuss any issues in a timely and effectively manner. To assist the Board of Directors to discuss all important or other related matters, the chairman of the Board of Directors works with the Bank's senior management to ensure that all Directors promptly receive appropriate, complete and reliable information for their consideration and review.

Mr. Liang Xiangmin is the president of the Bank, who is responsible for business operations, implementing the Bank's strategies and carrying out the business plans. The president of the Bank, being nominated by the chairman of the Board of Directors and appointed by the Board of Directors, reports to the Board of Directors and performs his duties and responsibilities in accordance with the Articles of Association and within the authorization by the Board of Directors.

VIII. Securities Transactions by Directors, Supervisors and Senior Management

The Bank has adopted, in respect of securities transactions by Directors, Supervisors and senior management members, a code of conduct on terms no less exacting than the required standards set out in the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 to the Hong Kong Listing Rules.

Having made specific enquiries to all Directors, Supervisors and members of the senior management of the Bank, the Bank confirmed that they had complied with the Model Code during the Reporting Period.

IX. External Auditors and Remuneration of Auditors

The Group engaged ShineWing Certified Public Accountants LLP and SHINEWING (HK) CPA Limited as its domestic and international auditors for 2020, respectively. The fees as agreed to be paid by the Group for the audit of the financial statements for the year ended December 31, 2020 are RMB3.16 million, and for the non-audit service (i.e. interim review) are RMB1.928 million.

The Audit Committee of the Board of Directors is of the view that ShineWing Certified Public Accountants LLP and SHINEWING (HK) CPA Limited could properly complete various tasks as required by the Bank, stick to the principles of independence, objectiveness and impartiality and comply with the applicable account principles and ethical requirements for accountants, and conduct the audit work in a prudent and flexible manner. The responsibility statement in respect of the financial report made by SHINEWING (HK) CPA Limited is included in the financial report set out in this annual report. The Bank has continued to appoint ShineWing Certified Public Accountants LLP as its domestic external auditor in the past three years. During the Reporting Period, there was no occasion where the Board of Directors did not agree with the opinions of the Audit Committee on the selection and appointment of external auditors.

Chapter 9 Corporate Governance Report

X. Joint Company Secretaries

Mr. Yuan Chunyu, an executive Director and the secretary to the Board of Directors, and Mr. Lau Kwok Yin, a senior manager of SWCS Corporate Services Group (Hong Kong) Limited, are the current joint company secretaries of the Bank. The key contact person between Mr. Lau Kwok Yin and the Bank is Mr. Yuan Chunyu.

During the Reporting Period, the joint company secretaries have complied with the requirements of Rule 3.29 of the Hong Kong Listing Rules.

XI. Communication with Shareholders

The Bank places great importance on its Shareholders' opinions and suggestions and has enhanced understanding and interaction with the Shareholders through a wide range of channels such as the general meetings, reception for visitors, on-site visits and telephone consultations.

XII. Information Disclosure

The Board of Directors and senior management of the Bank place great importance on information disclosure. They rely on good corporate governance and internal controls to provide timely, accurate and fair information for the investors. During the Reporting Period and up to the Latest Practicable Date, no insider dealing was identified.

In accordance with the requirements of the “Measures for the Information Disclosure of Commercial Banks” and the “Notice on Standardizing the Contents of Annual Reports of Joint Stock Commercial Banks”, the Bank continuously improves the timeliness, accuracy and completeness of information disclosure.

The Bank has also formulated the Measures for Information Disclosure, which provide for the basic principles of information disclosure, including the principles of disclosure of the Bank's prospectus, offering circulars, listing documents, regular reports and interim reports. The Board of Directors is primarily responsible for the information disclosure of the Bank and the chairman is the primary person-in-charge of the information disclosure of the Bank.

Chapter 9 Corporate Governance Report

XIII. Procedures and Regulatory Measures related to Inside Information

The Bank places great importance on insider information management. In order to strengthen relevant confidentiality, maintain fairness with regard to information disclosure and protect the legitimate interest of investors, the Bank has formulated the Measures for Information Disclosure and the Measures for Registration of Insiders and Management of Confidential Information pursuant to applicable laws, regulations, the Hong Kong Listing Rules and other regulatory requirements.

The Bank's Measures for Information Disclosure and the Measures for Registration of Insiders and Management of Confidential Information provide for the scope of inside information and the definition of insiders possessing inside information, detailed requirements on the management of insiders and inside information, confidentiality of such information and sanction measures for divulgence of inside information.

XIV. Amendment to the Articles of Association

The Bank amended the relevant articles of the Articles of Association in relation to its registered capital and share structure to reflect such changes to be made following the completion of the capitalization issue. Such amendments were approved by the Shareholders at the annual general meeting of 2019 held on June 18, 2020.

The capitalization issue was completed on August 14, 2020. The above amendments were approved by the CBIRC Jilin Bureau on August 18, 2020 and became effective from the same date. For details of the amendments, investors may refer to the circular of the Bank dated April 27, 2020 posted on the website of the Bank (www.jtnsh.com) and the designated website of the Hong Kong Stock Exchange (www.hkexnews.hk).

Chapter 9 Corporate Governance Report

XV. Rights of Shareholders

(I) Convening of extraordinary general meeting at the request of Shareholders

The Shareholders of the Bank who individually or jointly hold more than 10% of the total voting Shares of the Bank (the “Relevant Shareholders”) may request the Board of Directors in writing to convene an extraordinary general meeting (the shareholding percentage shall be calculated based on the shareholding of the Relevant Shareholders on the date when such written request is made). The Board of Directors shall hold an extraordinary general meeting within two months from the date when the Relevant Shareholders make such request.

Where the Relevant Shareholders propose to the Board to convene an extraordinary general meeting, the topic to be considered at the meeting and the proposals with complete contents shall be submitted to the Board in writing. The Relevant Shareholders shall ensure the proposals are in compliance with the provisions of laws, rules and regulations, and the Articles of Association.

For the purpose of any proposal submitted in writing by the Relevant Shareholders to convene a general meeting, the Board shall decide whether to convene such meeting in accordance with laws, rules and regulations, and the Articles of Association. The decision of the Board shall be given to the Relevant Shareholders within 15 days upon receipt of such written proposal.

Where the Board agrees to convene an extraordinary general meeting, a notice of the general meeting shall be given and the consent of the Relevant Shareholders shall be obtained in respect of any changes to the original proposals stated in such notice. After the notice is given, the Board shall neither propose any new proposals nor change or postpone the time for convening the general meeting without the consent of the Relevant Shareholders.

Chapter 9 Corporate Governance Report

Where the Board does not agree to convene an extraordinary general meeting or does not respond within 15 days upon receipt of the request, the Relevant Shareholders shall have the right to propose to the Board of Supervisors to convene an extraordinary general meeting and make such proposal in writing to the Board of Supervisors. Where the Board of Supervisors agrees to convene an extraordinary general meeting, a notice of the general meeting shall be given within five days upon receipt of such request and the consent of the Relevant Shareholders shall be obtained in respect of any changes to the original proposal stated in such notice.

Where the Board of Supervisors does not give a notice of the general meeting, the Board of Supervisors shall be deemed not to agree to convene and preside over the general meeting. The Shareholders holding more than 10% of the Shares for consecutive 90 days individually or in aggregate may convene and preside over a general meeting.

Where the Shareholders convene and preside over a general meeting due to the failure on the part of the Board to hold such meeting as required, any reasonable expenses incurred shall be borne by the Bank and deducted from any amount due from the Bank to the Directors in default.

(II) Proposing resolutions at Shareholders' general meetings

When the Bank convenes a general meeting, the Board, the Board of Supervisors and the Shareholders individually or jointly holding more than 3% of the voting Shares of the Bank are entitled to propose new proposals to the general meeting in writing. The Bank shall include in the agenda of the meeting any matters in the proposals that fall within the scope of powers of the general meeting.

The Shareholders who individually or jointly hold more than 3% of the total voting Shares of the Bank may nominate candidates for Directors and Supervisors to the Board of Directors and the Board of Supervisors, respectively, but the number of candidates must be in compliance with the provisions of the Articles of Association and shall not be more than the number of Directors and Supervisors to be elected and appointed.

The Shareholders who individually or jointly hold more than 1% of the total voting Shares of the Bank may nominate candidates for independent non-executive Directors to the Board of Directors and such independent non-executive Directors shall be elected at the general meeting. A Shareholder who has nominated a candidate for Director shall not nominate any candidate for independent non-executive Director and the same Shareholder can only nominate one candidate for independent non-executive Director. No Shareholder can concurrently nominate a candidate for independent non-executive Director and a candidate for non-employee Supervisor.

Chapter 9 Corporate Governance Report

The Shareholders who individually or jointly hold more than 1% of the total voting Shares of the Bank may nominate candidates for non-employee Supervisors.

(III) Making inquiries to the Board of Directors

The Shareholders of the Bank are entitled to supervise the business activities of the Bank, and make recommendations or inquiries to the Board of Directors.

(IV) Inspection rights of the Shareholders

The Shareholders are entitled to access to the following information in accordance with applicable laws, regulations, departmental rules, normative documents, the relevant requirements of the securities regulatory authorities of the place where the Bank's Shares are listed and the Articles of Association, including:

1. a copy of the Articles of Association upon the payment of cost;
2. a copy of the following documents after a reasonable fee has been paid:
 - a. all parts of the register of members of the Bank;
 - b. the personal information of Directors, Supervisors, president and senior management of the Bank;
 - c. status of the share capital of the Bank;
 - d. reports on the aggregate par value, number, and highest and lowest prices of each class of Shares in relation to any repurchase by the Bank of its own Shares since the last financial year, as well as all the expenses paid by the Bank in relation to such repurchases;
 - e. minutes of the general meeting;
 - f. special resolutions of the Bank;

Chapter 9 Corporate Governance Report

- g. the latest audited financial statements and the reports of the Board, auditors and the Board of Supervisors; and
- h. any annual report of the Bank that has been submitted to the State Administration for Industry & Commerce of China or other competent authorities for filing.

In accordance with the requirements of Hong Kong Listing Rules, the Bank shall make the documents referred to in items (a), (c), (d), (e), (f), (g) and (h) available for free inspection by the public and Shareholders of H Shares at the address of the Bank in Hong Kong, of which the documents referred to in item (f) shall be available for inspection by Shareholders only.

Copies of minutes of the meetings will be available for inspection by the Shareholders free of charge during the office hours of the Bank. If any Shareholder makes a request to obtain a copy of the relevant minutes from the Bank, the Bank shall send a copy of the requested minutes within seven days upon the receipt of a reasonable fee. The Bank may refuse to provide any documents if such documents or the copies thereof requested involve any business secrets and/or include inside information of the Bank.

Where a Shareholder of the Bank requests to review the relevant information above, such Shareholder shall provide written document to prove that he possesses any Shares of the Bank and the Bank shall make available such information required by the Shareholder after the identity of such Shareholder has been proved.

Chapter 10 Risk Management, Internal Control and Internal Audit

I. Overview

The Group emphasizes prudent business management and believes that effective risk management and internal control are critical to its sustainable business growth:

- The Bank has established a comprehensive risk management system covering its front, middle and back offices and all business procedures to monitor, evaluate and manage the risk exposure of its business activities. The Group has adopted different risk management strategies based on the risk characteristics of different industries. In particular, for sensitive industries such as real estate, the Group has adopted more stringent management measures and optimized its credit structure to lower concentration risks.
- As a separate legal entity, each subsidiary has established risk management and internal control systems in accordance with applicable regulatory requirements.

The Bank actively participates in formulating the risk management policies and strategies of the subsidiaries through the nomination of representatives to serve on their respective board of directors. The Bank also assists each subsidiary in formulating and reforming its risk management measures and processes, and supervises and monitors the implementation of the risk management measures and processes by sending or designating risk management personnel to each subsidiary or through the management department of village and township banks.

The risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable but not absolute assurance against material misstatement or loss.

Chapter 10 Risk Management, Internal Control and Internal Audit

II. Risk Management and Internal Control of the Bank

(I) Organisational System

As of the Latest Practicable Date, the organisational structure of the Bank's risk management was as follows:

Chapter 10 Risk Management, Internal Control and Internal Audit

Board of Directors and special committees of the Board of Directors

The Board of Directors is ultimately responsible for risk management and internal control of the Bank. Related-party Transactions Control Committee

The Bank's Related-party Transactions Control Committee is primarily responsible for (i) identifying related parties and monitoring and reviewing significant connected transactions; (ii) establishing, updating and overseeing the implementation of rules for connected transactions; and (iii) submitting regular reports on connected transactions to the Board of Directors.

Chapter 10 Risk Management, Internal Control and Internal Audit

During the Reporting Period, through the strengthening of bottom line thinking and in pursuit of synchronized improvement in business scale, quality and efficiency, the Bank promoted comprehensive risk management to ensure steady growth. In addition to license management and classified management, the Bank also implemented risk pre-warning and reporting system to constantly regulate its operation and management activities. Furthermore, it strengthened the inspection of key business lines to prevent and mitigate various risk exposures. Employee education and training programs were conducted, which effectively enhanced the competence of staff and their awareness of internal control and compliance. The supervisory functions of the business management departments, legal and compliance department and audit department in internal control were improved, which set up a supervision and inspection system covering all levels of institutions, different products and business procedures.

According to the regulatory requirements, the Board of Directors of the Bank conducts self-evaluation on the effectiveness of risk management and internal control on an annual basis. During the Reporting Period, the Bank maintained effective and adequate risk management and internal control in all material respects, and the Board of Directors was not aware of any significant or material defects in risk management and internal control.

Board of Supervisors and its Supervisory Committee

The Board of Supervisors monitors the compliance of the Board of Directors and senior management of the Bank with laws, regulations and internal policies related to risk management. It also examines and supervises the financial activities and internal control of the Bank. Additionally, the Board of Supervisors conducts departure audits on executive Directors and senior management.

The Supervisory Committee of the Board of Supervisors draws up supervisory plans for financial activities and conducts related inspections. It also oversees the implementation of the Bank's operating philosophy and development strategies. Additionally, the Supervisory Committee monitors and inspects the Bank's operational decisions, risk management and internal control while performing other duties as authorized by the Board of Supervisors.

Senior management and its special committees

Senior management implements risk management policies, strategies, plans and any policies determined by the Board of Directors and coordinates risk management activities. With the assistance of other senior management personnel, the Bank's president is ultimately responsible for risk management at the senior management level and reports directly to the Board of Directors.

Chapter 10 Risk Management, Internal Control and Internal Audit

The Bank has established six special committees with risk management functions, namely the Risk Management and Control Committee, Credit Approval Committee, IT Committee, Assets and Liabilities Management Committee, Financial Management Committee and Non-performing Asset Disposal Committee. These committees work together to organize, coordinate and review measures for risk management and their implementation.

Risk Management and Control Committee

The Bank's Risk Management and Control Committee is primarily responsible for (i) monitoring the daily risk management and internal control activities of the Bank; (ii) regularly assessing overall risk status of the Bank; and (iii) making recommendations for the improvement of risk management and internal control.

Credit Approval Committee

The Bank's Credit Approval Committee is mainly responsible for (i) reviewing and approving extension of credits; (ii) providing market knowledge for authorized approval officers; and (iii) ensuring the appropriate check and balance of approval rights exercised by authorized approval officers. The Credit Approval Committee reviews any credit business that exceeds the approval authority of vice presidents.

IT Committee

The Bank's IT Committee is responsible for (i) reviewing the IT development plans of the Bank; (ii) reviewing and coordinating work plans for IT development; (iii) evaluating information technology management standards, data standards and information management specifications; (iv) reviewing approvals and system requirements for bank-wide informatization development projects; (v) coordinating the development, testing and maintenance of IT systems; and (vi) reviewing the development plans and policies for information safety management system.

Assets and Liabilities Management Committee

The Bank's Assets and Liabilities Management Committee is primarily responsible for (i) centralized management of the size, structure and proportion of the Bank's asset and liability businesses; (ii) making appropriate adjustments to risk asset management plans in accordance with the Bank's business development strategies; and (iii) evaluating the Bank's internal and external pricing policies and strategies, pricing management mechanism and liquidity management system.

Chapter 10 Risk Management, Internal Control and Internal Audit

Financial Management Committee

The Bank's Financial Management Committee is responsible for (i) monitoring the implementation of the national policies and regulations; (ii) overseeing the accuracy, timeliness, truthfulness and completeness of financial information; (iii) evaluating the Bank's financial condition and operating performance; (iv) reviewing the financial inspections of the Bank by external institutions and preparing appropriate remediation plans; and (v) reviewing fixed asset purchases, construction and leasing as well as the feasibility of other bulk purchase plans.

Non-performing Asset Disposal Committee

The Bank's Non-performing Asset Disposal Committee is mainly responsible for: (i) assessing the compliance and feasibility of non-performing asset disposal proposal; (ii) conducting examining and risk assessment on the authenticity and necessity of disposal of non-performing asset; and (iii) being the Bank's approving and decision making authority of non-performing asset disposal.

Risk Management Department

A number of the Bank's business departments, such as the Risk Management Department, the Legal Compliance Department, the Corporate Finance Department and the Retail Finance Department, are also involved in the Bank's daily risk management.

(II) Risk Management System

1. Authorization management system

The Bank has established the Measures for Authorization Management to grant the annual basic authorization for the operation, finance, human resources and other affairs of the general and ordinary business within its statutory scope of business. The Bank may also grant a temporary special authorization for any businesses that exceed the scope of basic authorization, special financing business and new businesses. While the Bank's headquarters grants an authorization directly to specific personnel, such authorized personnel may delegate authority to other personnel within their scope of authority after proper approvals or reporting have been made.

The Bank grants and properly adjusts authorizations to different authorized personnel in accordance with their operational management performance, management role and employment status. The businesses and other affairs that are beyond the scope of authorization of the relevant personnel shall be reported to and obtained approval from the higher level pursuant to the Measures for Authorization Management.

Chapter 10 Risk Management, Internal Control and Internal Audit

2. Credit management system

The credit management system of the Bank has the following features:

- **Credit management for all credit customers:** in accordance with the CBIRC's requirements, the Bank determines the credit limit for each customer primarily based on factors such as (a) the operational and financial condition and repayment history of borrowers, (b) the intended purpose of loans, and (c) the collateral or guarantees for loans.
- **Strengthening uniform credit management for group customers:** in order to identify and control concentration risks arising from group customers, the Bank does not extend credit to any group customer in excess of 15% of its regulatory capital. The Bank uniformly determines the overall credit limits for group customers to prevent parallel credit extension from multiple branches.
- **Separate systems for credit examination and approval:** the investigation, assessment and decision of the Bank's credit business are carried out by different departments and personnel.
- **Strengthening the management of credit business procedures:** the Bank has formulated specific administrative measures for each stage of credit extension.
- **Strengthening the management of the acceptance business:** the Bank has formulated specific administrative measures for its acceptance bill business, discounted bill business and other bill businesses to ensure that its acceptance business complies with applicable laws and regulations and to prevent the use of false trading information or the use of loan proceeds for security deposits.
- **Strengthening the management of loan classifications:** the Bank has established refined loan classification measures based on the loan risk classifications formulated by the CBIRC to precisely evaluate its credit risks.
- **Strengthening the management of corporate customers:** the Bank has formulated a sophisticated management system for credit ratings of corporate customers to evaluate credit risks for each type of corporate customers.

Chapter 10 Risk Management, Internal Control and Internal Audit

- **Strengthening the risk awareness of employees:** the Bank has formulated stringent punishment measures targeted on the non-compliance with regulations and disciplines by working staff, as well as the punishment measures for the issues identified in its internal audits to increase the initiative of all employees to strictly implement the policies and rules relevant to risk management.

(III) Management of Different Types of Risks

The Bank has paid close attention to the development trend and directional changes of various risks and continued to improve its comprehensive risk management system, which effectively enhances its risk management ability.

For details of the management of various risks including credit, market, operating, liquidity, reputational, legal and compliance, and information technology risks, and anti-money laundering management, please refer to the section headed “Management Discussion and Analysis — 4.5 Risk Management — (a) Risk Management of the Bank” of this annual report.

III. Risk Management and Internal Control of Subsidiaries

As a separate legal entity, each subsidiary of the Bank has established risk management and internal control systems, in accordance with applicable regulatory requirements. The Bank participates in formulating the risk management policies and strategies of each subsidiary through the Bank’s Board representatives. The Bank supervises and monitors the implementation of the risk management processes of its subsidiaries by sending or designating risk management personnel and through the management department of the Bank’s village and township banks.

(I) Organisational System

Each subsidiary has established a multi-layer risk management organisational system that primarily consists of (1) the Board of Directors that is ultimately responsible for risk management, (2) various special committees under the Board of Directors, which are responsible for proposing risk management strategies, policies and targets and reviewing accounting policies, financial reports and risk and compliance conditions, (3) the Board of Supervisors, which is primarily responsible for monitoring the compliance by the Board of Directors and senior management with risk management laws, regulations and internal policies, and (4) senior management and various special committees, which are responsible for implementing the risk management policies, strategies, plans and any policies determined by the Board of Directors and coordinating risk management activities.

Chapter 10 Risk Management, Internal Control and Internal Audit

(II) Management of Different Types of Risks

(I) Internal Audit of the Bank

For details regarding the internal audit of the Bank, please refer to the section headed “Management Discussion and Analysis — 4.5 Risk Management — (a) Risk Management of the Bank — (ix) Internal audit” of this annual report.

(II) Internal Audit of Subsidiaries

Each subsidiary has designated auditors who perform the functions of audit, supervision, assessment and consultation independently.

V. Regulation of the Bank’s Inside Information

The Bank attaches great importance to information disclosure and inside information management. In order to strengthen the inside information and confidentiality work, safeguard the fairness of information disclosure and protect the legitimate rights and interests of investors, the Bank has formulated the Measures for Information Disclosure (《信息披露制度》) and the Measures for Registration of Insiders and Confidentiality of Relevant Persons Possessing the Bank’s Inside Information (《内幕信息知情人登記管理及保密制度》) in accordance with the PRC Company Law, the PRC Securities Law, the Hong Kong Listing Rules, and other applicable laws, regulations and normative documents. The following aspects are clearly provided for in the Measures for Registration of Insiders and Confidentiality of Relevant Persons Possessing the Bank’s Inside Information, including the coverage of the information that involves the Bank’s operation and finance, or that may have significant impact on the market prices of the Bank’s Shares and that has not been publicly disclosed on the information disclosure media designated by securities regulatory authorities, and the scope of insiders. In addition, the Bank has specified in detail the management of insiders and confidential information and the penalties for violating the internal measures governing insiders and inside information.

Chapter 10 Risk Management, Internal Control and Internal Audit

In accordance with the Measures for Registration of Insiders and Confidentiality of Relevant Persons Possessing the Bank's Inside Information, the Office of the Board of Directors shall maintain a complete list of the persons that are involved in preparing, circulating, reviewing and disclosing the inside information of the Bank before such information is formally disclosed. The details of registration include the identities of insiders, number of their securities accounts, relationship between the insiders and the Bank, and timing and method of obtaining the inside information. The Office of the Board of Directors shall also conduct regular and ad hoc inspections of the securities transactions between the insiders and the Bank.

The Bank carries out information disclosure strictly according to regulatory requirements. In the Measures for Information Disclosure, the Bank has clearly defined the basic principles of information disclosure and the disclosure rules. 3. Appropriate Business Environment

The Group has further enhanced the mechanism and refined the system of internal control to manage risk factors within a controllable range and facilitate development with integrity and prudent operation.

3.1 Legal and Compliance Operation

The Bank has adopted a compliance risk management structure according to the compliance policy guidance confirmed by the Board of Directors and directly led by the compliance officer, and formed a compliance management system through the coordinated operation management between the Board of Directors, the Board of Supervisors, Senior Management, the Legal Compliance Department and other departments. The Bank has proactively promoted and performed compliance obligation in its daily operation, continuously enhanced employee management through system, education and supervision and constructed defensive lines for internal control management. Prevention of non-compliance incidents has enhanced effectively.

Strengthening of System Establishment

The Group has established a regular review mechanism for internal control system to promptly supplement and refine its business system and operational procedures. We regularly assess the internal control system to ensure its wide coverage and timeliness. The effectiveness of the system is regarded as an important task for the construction of integrity accountability system. A responsibility statement of integrity construction and case prevention has been signed by the management at all levels, which clearly defines their respective duties. All employees are required to sign the letters of compliance undertaking, which has enhanced case risk prevention and control. The Group has also implemented the authorization mechanism for operation and management, and adopted differentiated authorizations for relevant business functions, branches and key positions within the statutory business scope to strengthen internal supervision and prevent and control risks.

Chapter 11 Environmental, Social and Governance Report

Strengthening of Preventive Education

The Group strives to strengthen the philosophical education of employees through intensive training and daily learning to familiarize them with the bottom line of daily conduct, clarify prohibitions of business operation, and facilitate the establishment of compliant and disciplined culture and practices. We proactively conduct warning education to strengthen party cadres' party spirit and build ideological and moral standards, ensuring continuous alertness.

The Group has placed corruption risk prevention management as an important part of the party committee theory learning and anti-corruption education of party members. The Group has regularly held education activities and organized party cadres and employees to participate in anti-corruption trend presentations or lectures on corruption risk prevention management. Learning progress is regularly examined and reported, and is regarded as the major basis for the evaluation of the construction of the Party's clean and honest working style to ensure effective education results. Also, the Group has formulated the "Anti-corruption Education System for Management of All Levels" (《各級管理人員廉政談話教育制度》) to strengthen the education and supervision of management, restrain corruptive culture and prevent the occurrence of corruption. During the year, we held a series of anti-corruption lectures with the theme of "Observing Discipline by Case Study" to analyze and summarize cases regarding the violation of laws and disciplines, spirit of the Eight-point Decision of the Party (中央八項規定精神), the four undesirable work styles (隱形四風) and development of family tradition (家風建設). We provided anti-corruption education to employees in the form of case-based alerts, case-based analysis and case-based review to ensure effective learning and standardized regulations.

Strengthening of Supervision and Inspection

The Group has implemented strict assessment and supervision and enhanced inspection on key procedures and key personnel to monitor the compliance of employees in business operations and prevent case occurrence. The Group has also formulated the Anti-corruption Management System (《反舞弊管理制度》) to regulate the guidance and supervision of anti-corruption tasks, prevention and control of corruption, as well as the whistle-blowing, investigation and report of corruption cases. In order to enhance prevention and effectively restrain any immoral or unfaithful conduct, we have set up reporting channels for real-name or anonymous whistleblowing through hotline and email. If any staff is found to have engaged in any corruption behaviour upon investigation, the Group shall impose corresponding internal economic and administrative disciplinary penalties according to the rules. For those involving violation of criminal laws, they shall be handed over to the relevant judiciary authorities according to laws. During the Reporting Period, we had not discovered any lawsuit against the Group or its employees or any case of corruption, bribery, extortion, fraud and money laundering.

Chapter 11 Environmental, Social and Governance Report

Strengthening of Anti-Money Laundering Management

The Group has categorized anti-money laundering and anti-terrorism financing risk as compliance risk to carry out management under the comprehensive management system. According to relevant regulations and guidelines including the Anti-Money Laundering Law of the PRC (《中華人民共和國反洗錢法》), Guidelines for the Risk Management of Money Laundering and Terrorist Financing of Corporate Financial Institutions (《法人金融機構洗錢和恐怖融資風險管理指引》) and Administrative Measures for Reporting of High-value Transactions and Suspicious Transactions of Financial Institutions (《金融機構大額交易和可疑交易報告管理辦法》), the Group has formulated the Anti-money Laundering Management Measures (《反洗錢管理辦法》) to specify the structure and duties of anti-money laundering risk management, and monitor and manage anti-money laundering work of the Bank in accordance with the law. We have established the anti-money laundering steering group to ensure consistent implementation of anti-money laundering management decisions made by the regulatory authorities and the Bank. Duties and responsibilities of anti-money laundering are divided among all units. All operating units and business and operational departments form the first defensive line, which focuses on customer identification, customer due diligence, suspicious transactions identification and money laundering risk assessment on new businesses and new products. The second defensive line consists of the legal compliance department and finance and accounting department, which are responsible for analyzing and reporting suspicious and large-amount transactions, storing transaction data and classifying and adjusting risk level of customers. The third defensive line is the audit department which shall perform anti-money laundering supervision. With the solid defensive lines, we have further enhanced money laundering prevention and suppression to create favorable social atmosphere of anti-money laundering.

Chapter 11 Environmental, Social and Governance Report

3.2 Effective Risk Prevention

Risk management organization of the Group covers the Board of Directors, Board of Supervisors, Senior Management, the headquarters, and relevant departments of branches and sub-branches, and the management is responsible for implementing risk management strategies under the supervision of the Board of Directors. We have identified major risks including credit risks (including credit concentration risk), operational risks (including information technology risk and compliance risk (including anti-money laundering and anti-terrorism financing risk)), market risks, liquidity risks, interest rate risk on bank accounts, reputational risk and strategic risk. A comprehensive risk management system is established based on the five major principles below to strengthen our management.

(I) Compatibility	<ul style="list-style-type: none">• to inspect and evaluate the changes in internal and external operation management environment and competitive landscape• to adjust risk management policies, systems and procedures to ensure risk management conforming to the business development strategies of the Group
(II) Comprehensiveness	<ul style="list-style-type: none">• to establish comprehensive risk management covering all business lines of the Group• to cover all types of risks and impacts between different risks
(III) Independence	<ul style="list-style-type: none">• to define the scope of authority for each department, organization and risk management personnel of different levels• to implement management system that separates functions of front, middle and back offices
(IV) Effectiveness	<ul style="list-style-type: none">• to establish a risk management system that reflects the risk profile of the Group comprehensively, ensure such system can guide our business effectively and prevent and mitigate risks
(V) Cost effectiveness	<ul style="list-style-type: none">• to ensure efficiency and improve effectiveness while minimizing loss with sufficient cost upon due consideration of the relationship between cost and effectiveness

Chapter 11 Environmental, Social and Governance Report

According to the risk profile as well as the scale and pace of development of the Bank, the Board of Directors has established comprehensive risk management strategies, policies and procedures, determined appropriate risk endurance and risk appetite, and urged the senior management to identify, measure, monitor, control and timely deal with various risks effectively. To eliminate the impact of various uncertainties on the achievement of strategic objectives and operation targets, the Group has formulated the Provisional Guidelines for Comprehensive Risk Management (《全面風險管理暫行辦法》), the Provisional Guidelines for Risk Appetite Management (《風險偏好管理暫行辦法》), the Management Rules of Major Risk Identification and Assessment (《主要風險識別與評估管理辦法》), the Provisional Rules of Liquidity Risk Management (《流動性風險管理暫行辦法》), the Provisional Rules of Market Risk Management (《市場風險管理暫行辦法》), the Provisional Rules of Operational Risk Management (《操作風險管理暫行辦法》) and other major risk management measures in accordance with the People's Bank of China Law (《中國人民銀行法》), the Banking Supervision and Regulatory Law of the PRC (《中國人民共和國銀行業監督管理法》), the Commercial Banking Law of the PRC (《中國人民共和國商業銀行法》), Guidelines for Comprehensive Risk Management of Banking Financial Institutions (《銀行業金融機構全面風險管理指引》) and other laws, regulations and regulatory guidelines, so to ensure the risk management and control is in line with the business development pace of the Bank. In the future, we will continue to improve the composition of the Board of Directors, strengthen the supervision function of the Board of Supervisors, regulate the duty performance of senior management, identify risks and opportunities associated with the environment, society and governance, optimize our incentive and constraint mechanism and refine the risk management system.

3.3 Improving Service Quality

Protection of customers' rights

In order to further protect the rights of customers, we have formulated the Measures for the Protection of Consumer Rights (《消費者權益保護管理辦法》) based on relevant laws, regulations and normative documents including the Law of the PRC on the Protection of Consumer Rights and Interests (《中華人民共和國消費者權益保護法》), the Guiding Opinions of the General Office of the State Council on Strengthening the Protection of Financial Consumers' Rights (《國務院辦公廳關於加強金融消費者權益保護工作的指導意見》), the Guidelines on Consumer Rights Protection for the Banking Industry (《銀行業消費者權益保護工作指引》) and the Implementation Measures of the PBOC for Protecting Financial Consumers' Rights and Interests (《中國人民銀行金融消費者權益保護實施辦法》), stating detailed regulations on various aspects including organizational structure and duties, product and service management, complaints management and emergency response, promotion and training, supervision and evaluation, and report and disclosure of information.

Chapter 11 Environmental, Social and Governance Report

The Group promotes products in a responsible manner in strict compliance with the laws and regulations in relation to the advertisement and label of products and services, including the Advertising Law of the PRC (《中國人民共和國廣告法》) and the Regulations of Advertisement Management (《廣告管理條例》). We have also formulated the Categorized Review System for Publication of Information (《信息發佈分級審核機制》) to regulate the information disclosure and external promotion materials at different levels. All employees of the publicity department shall follow the requirement and no misleading contents and exaggerated propaganda methods shall be allowed.

In addition, to popularize the financial policies and protect consumers' interest and rights, we have regularly organized our key business personnel to conduct "point-to-point" and "face-to-face" financial knowledge promotion and education activities at rural area, communities, schools, shops and enterprises. We have focused on the promotion of financial knowledge, including credit policies and credit records, identification of counterfeit banknotes, prevention and tackling of illegal fundraising, payment and clearing channels, safety guidelines of digital banking and prevention of financial fraud through case study and issuing easy-to-understand, vivid and informative propaganda materials, so as to widely promote and expand the popularity of financial knowledge and financial policies. The Group protects financial consumers' rights through improving its services and rules, which has also effectively reduced customer complaints and improved their satisfactions.

Improving Customer Service

In 2020, in response to the pandemic effects, the Group scientifically planned and flexibly arranged the number and business hours of branches, and implemented various measures for pandemic prevention and control to ensure the stable operation of our fundamental financial services and facilities. Moreover, we offered convenient online channels and encouraged our customers to use electronic channels such as mobile banking and internet banking in order to avoid unnecessary travel, which has effectively protected the safety of our employees while ensuring uninterrupted financial services for customers. We also provided differentiated financial services for relevant pandemic control and prevention units to meet their demands for emergency services such as cash withdrawal and remittance.

We have formulated the Management Measures of Complaints from Consumers (《消費投訴管理辦法》) to regulate the complaint handling and management procedures, protect the legal rights of financial consumers and improve service quality and customers' satisfaction of the Group. The Consumer Rights Protection Department is primarily responsible for the management of complaint handling of the Bank, formulating relevant system, coordinating the daily work of complaint handling and cooperating with the Customer Service Center in accessing the work of complaint handling and formulating assessment rules.

Chapter 11 Environmental, Social and Governance Report

We have also established the Complaint Handling and Management Mechanism of the Customer Service Center (《客戶服務中心投訴處理管理機制》). The Customer Service Center collects customers' opinions through the 24-hour service center hotlines with automated and manual customer service and handles complaints promptly by providing the best solutions. After handling of complaints, the Customer Service Center consolidates the complaints handled and reasons thereof and receives evaluation and suggestion from customers for improvement of services and products, so as to further improve functions and streamline the processes, achieving standardization of the complaint handling procedures and enhancing the complaint handling service quality. During the year, we had received 17 complaints in relation to our products and services and all of them were properly addressed.

3.4 Enhanced Information Security

In order to protect the privacy of personal information of customers and maintain good reputation of corporate governance, we have formulated the Management Measures of Data Governance Platform (《數據治理平台管理辦法》), the Management Measures of Keys (《密鑰管理辦法》) and the Employee Handbook (《員工手冊》) to handle and protect customers' information according to the Banking Supervision Law of the PRC (《中華人民共和國銀行業監督管理法》), the Law of the PRC on Commercial Banks (《中華人民共和國商業銀行法》) and the Guidelines on IT Risk Management of Commercial Banks (《商業銀行資訊科技風險管理指引》). Employees must strictly adhere to confidentiality disciplines during their employment or after resignation. Information of customers and transaction records shall be kept properly to ensure that there is no violation of laws and regulations of customers' privacy during operation. The confidentiality agreements signed by customers shall protect their rights. If customers have reason to suspect that their information is disclosed or illegally used, they can report the issues through the IT service complaint mechanism.

IT risks are included to the comprehensive risk management system of the Group. The IT department is responsible for the implementation of specific risk management measures, plans and proposals. In order to ensure the safe, stable and efficient operation of our computer information system, the Group adopts a prevention-focused approach for computer security management. It has also formulated the Management Measures of Information Security (《信息安全辦法》), the Management Measures of Data Backup (《數據備份管理規定》) and the Implementation Rules of Network Operation Maintenance and Management (《網絡運行維護管理實施細則》), to regulate network security management, computer security and confidentiality management, security management of computer virus prevention, security management of third-party access and outsourced services, information reporting and disaster recovery, and security monitoring, examination, evaluation and audit. Operating units at all levels maintain daily secured operation of computer systems according to rules, and continuously refine system operation policies, log management policies, password and key management policies, and operational procedure security management policies. We regularly back up our systems. All backup media are kept properly by designated personnel in accordance with relevant regulations. Backup media of important business systems shall be kept in different locations. Business departments have formulated contingency plans for computer security protection of important business systems, in order to ensure continuous business operation.

Chapter 11 Environmental, Social and Governance Report

3.5 Better Procurement Management

During the year, the Group had 36 major suppliers from Changchun, Foshan, Hefei, Beijing, Hangzhou and Guangzhou. Its procurement includes goods and services such as office furniture and electronic equipment. We have formulated the Administrative Measures for Central Procurement (《集中採購管理辦法》) and established a Procurement Committee to regulate procurements in compliance with Law of the PRC on Tenders and Bids (《中華人民共和國招投標法》), the Government Procurement Law of the PRC (《中華人民共和國政府採購法》) and other relevant laws and regulations. Adhering to the principles of openness, fairness, justice, honesty, credit-worthiness and effectiveness, we adopt a practice where the functions of decision-making, procurement, usage and supervision are separated and have established an internal control mechanism that separates financial and administrative functions, as well as management and operation functions.

All procurement plans shall be formulated out based on the project background, budget, method and shall be reviewed and considered by the central procurement management committee. At least three suppliers fulfilling requirements, such as the capacity for such projects, good reputation and compliance operation, shall be invited for participating in the procurement process. The central procurement administrative panel shall select suppliers according to various requirements, such as procurement demand, quality, price, service, lower impact on the environment and performance of social responsibilities in their operation and shall submit a written evaluation report to the committee for consideration. In addition, we have also established a central procurement supervision committee which is responsible for supervising the evaluation of procurement and procurement practices from time to time and making recommendations for improvement.

3.6 Protection of Intellectual Property Rights

The Group values intellectual property rights. In strictly compliance with the Patent Law of the PRC (《中華人民共和國專利法》), the Trademark Law of the PRC (《中華人民共和國商標法》) and other relevant laws and regulations on the protection of intellectual property rights, the Group use genuine software in its daily operation and implement practices on purchasing, installing and using software, asset management, audit supervision and inspection. A leading group on promoting the usage of genuine software has been established to coordinate the promotion of the usage of genuine software and formulate relevant requirements and measures. The IT department responsible for daily installation, maintenance and ledger management of software in accordance with relevant regulations on software configuration and software ledge management and urges relevant department to rectify problems. During the Reporting Period, we were not aware of any illegal issues related to infringement of intellectual property rights.

Chapter 11 Environmental, Social and Governance Report

4. Talent Management

Our employees are the most valuable asset of the Group. We value our talents and strive for excellence with the teamwork and contribution of our employees. The Group upholds the principles of equal employment and has established a diversified talent team. We care about the needs of our employees and provide them with benefits and working environment that meet their needs, so as to strengthen the sense of belonging of our employees. Through establishing a scientific remuneration system, the Group further motivate its employees. The Group organizes a wide range of training programs for employees in different positions to provide employees with development opportunities and establish a team comprising loyal, energetic and high-quality talents.

4.1 Rights and Benefits of Employees

The Group strictly complies with the relevant laws and regulations including the Labour Law of the PRC (《中華人民共和國勞動法》) and the Provisions on the Prohibition of Child Labour (《禁止使用童工規定》) and the Administrative Measures for Employees (《員工管理辦法》) formulated by the Bank. The Bank undertakes that all rights and interests of employees in respect of recruitment, working hours and holidays, remuneration and benefits, promotion and resignation are respected and protected and undertakes that no employee is discriminated against due to his/her gender, age, religion and other factors. In recruiting employees, we verify candidates' information such as identity card, so as to ensure such candidates are older than minimum age for employment. During the Reporting Period, we were not aware of any illegal issues related to child labor or forced labor.

Based on the principles of open recruitment, fair competition and considering candidates on merit, we conduct open recruitment through various channels such as press media, talent market and graduates from colleges under close supervision of the Audit Department. The remuneration of our employees includes basic salaries and discretionary bonus. We conduct performance appraisals on employees on an annual basis and determine discretionary bonus at the end of each year based on their performance and operation results. The Group has established a scientific remuneration management system to increase employees' income and share the development results with employees based on the development, quality and working efficiency as well as other factors. All full-time employees are entitled to employee welfare and benefits including pension insurance, medical insurance, work-related injury insurance, unemployment insurance, maternity insurance, housing provident fund and enterprise annuity. In addition, we provide our employees with additional medical insurance to improve medical protection of existing employees and retired employees. We have set a working arrangement of eight-hour work day and 40-hour work week in average and reasonably arranged working and resting hours of employees according to regulations. For certain special professional positions, working hours of employees are counted on an aggregate basis and flexible working arrangement is adopted.

Chapter 11 Environmental, Social and Governance Report

With an aim to fully capitalize the skills of its employees, the Group carries out employee appraisal in respect of virtue, capabilities, diligence, performance and integrity for management promotion through democracy evaluation and communicating with employees, so as to select high-quality, dedicated and high caliber management with integrity. In addition, we have also formulated evaluation system to evaluate the goal achievement and daily management of branches in a fairly and just manner, so as to improve the management of the leader groups of branches.

In addition to the code of conduct for employees, the Employee Handbook (《員工手冊》) of the Group also specifies the types, applicable conditions and procedures of resignation. All employees are required to follow such requirements strictly to ensure that all resignation of employees are in compliance with relevant laws and regulations and to protect the interests and rights of employees and the Group. An employee who commits serious breach of discipline may be dismissed and the resignation and dismissal shall be handled in accordance with the required procedures.

4.2 Promoting Talent Development

The Group regards training as the best benefit to employees. Through organizing internal and external training programs, the Group improves the quality and capabilities of its employees in various aspects, so as to meet the demand for talents for high-quality development. In 2020, given the special requirement for pandemic prevention, we adjusted our training methods in a timely manner and expanded online learning resources through online college and other learning platforms. All employees were encouraged to attend training programs and achieved remarkable results. During the year, total headcount of employees trained under online and offline training programs reached 6,445.

The Group has established a training center to enhance the professional skills of employees. In accordance with the plan of “establishing education and training system for the whole bank”, the Group organized three training programs for new employees, including one online training program and two offline training programs, and the total headcount of employees trained under such programs reached 252.

- | | |
|-------------------------|---|
| Online network training | <ul style="list-style-type: none">• Program contents: four practical programs such as security, civilized service etiquette, career planning and ethics of bank staff |
| Offline training center | <ul style="list-style-type: none">• Phase one includes five fundamental programs such as career planning, ethics of bank staff, security, professional image and etiquette, and corporate culture• Phase two includes programs of abacus, small keyboard skills and cash counting skills |

In addition, we strengthened the learning platform of the online college by diversifying contents, enhancing appraisal and organizing activities during the year.

Chapter 11 Environmental, Social and Governance Report

Firstly, we enriched our scope of training with diversified topics. There were 412 new programs in total on the learning platform, including 27 new topics such as psychological and emotional management for the pandemic, popular science of pandemic prevention and control and smart transformation of banks empowered by fintech. Moreover, according to employees' need for online live programs, we announced the program information about 53 online open programs and 28 online live programs of AFCA Finance Academy. Program contents include analysis of economic development trends, special business programs, team building, marketing approaches and other aspects, offering on-demand learning to all employees for independent improvement. As of December 31, 2020, there were 5,965 programs in total on the learning platform.

Secondly, we enhanced appraisal and strengthened management. The Group designated the primary person-in-charge of each unit to organize its online learning. We included all departments and operating divisions of the headquarters in the scope of online learning appraisal to ensure full coverage of online learning. We also organized online training for education administrators of the online college in order to solve common problems of platform learning and master back-office operation methods. Moreover, we require each student to earn not less than 15 credits in each semester. Uniform online tests are held at the end of each semester and results are reported. In 2020, a total of 13,664 headcounts were appraised in the online college with an average pass rate of 98.52%.

Thirdly, we organized activities to motivate employees to learn. In order to promote learning, the Bank organized the Online Comprehensive Business Knowledge Competition of 2020, involving 31 professional department lines and three other lines such as operating entity counters, customer managers and comprehensive management. A total of 2,387 employees participated in the competition. 150 employees, and 9 branches and departments won awards, which further improved employees' learning and understanding of relevant knowledge, and enhanced acquisition and application of business knowledge. In addition, in order to stimulate employees' learning initiative, we organized a reward redemption activity for the academic year of 2019, involving 1,162 participants and 1,294 gifts in total.

4.3 Health and Safety of Employees

The Group strictly complies with relevant laws and regulations related to the protection of work health and safety of employees as stipulated in the Law of the PRC on the Prevention and Control of Occupational Diseases (《中華人民共和國職業病防治法》) and Regulation of Insurance for Labour Injury (《工傷保險條例》), in order to protect the health and safety of employees in terms of prevention and healthcare. During the Reporting Period, we had no work-related fatalities and the total number of lost days due to work injuries was 247 days.

Chapter 11 Environmental, Social and Governance Report

During the pandemic, the Group made reasonable arrangements for outlets. We procured pandemic prevention supplies from various sources, and thoroughly cleaned and sanitized all business sites, office areas, facilities, equipment and cash. Body temperature screening and sanitization were conducted for all employees and customers before entry. Mask disposal bins were also set up. We took good care of the health of every customer and employee. Based on actual circumstances, the Group adopted staggered shifts such as flexible working arrangements and working from home, with reasonable deployment of employees while ensuring uninterrupted operation of key departments and key positions. We maintained smooth communication and adopted remote working to complete tasks in a timely manner, which reduced gatherings. According to local pandemic prevention requirements, we promptly arranged nucleic acid tests for employees returning from foreign places on a mandatory basis, in order to achieve full protection and ensure safety.

Based on the Provisional Administrative Measures for Medical Examination of Employees (《員工健康體檢管理暫行辦法》), the Group provides free medical check-ups with health check reports to employees in order to let our employees understand their health condition. We also organize health and safety knowledge talks to help our employees to gain more health knowledge and develop health awareness, so as to prevent the occurrence of illness and injury. Other than statutory social insurance, we also provide additional medical insurance fund for our employees to expand their insurance coverage and reduce their medical expenses.

In addition, the Group cares about employees' health, advocates work-life balance and encourages our employees to relax during time off. Hence, we organize various cultural and sports activities regularly to let our employees relax during time off and enhance team cohesiveness and employees' sense of belongings to the Group. This year, we also participated in the "2020 Employees Table Tennis Competition of Changchun" and "2020 Employees Badminton Competition of Changchun" held by Changchun General Labour Union and Changchun Work Committee affiliated to the CPC, which had further stimulated the passion of our employees, enhanced their cohesion and hardworking spirit and facilitated communication between different units.

5. Green and Low Carbon Management

The Group assumes its obligations of protection of environment and resources and strictly complies with Air Pollution Prevention and Control Law of the PRC (《中華人民共和國大氣污染防治法》), Environmental Protection Law of the PRC (《中華人民共和國環境保護法》), Energy Conservation Law of the PRC (《中華人民共和國節約能源法》), Water Law of the PRC (《中華人民共和國水法》) and other relevant laws and regulations. During the Reporting Period, the Group did not have any material non-compliance in relation to the environment.

Chapter 11 Environmental, Social and Governance Report

5.1 Carbon Emission Control

Pursuant to the national strategy to combat climate change to reduce carbon emission, the Group has conducted greenhouse gas emission audit for 36 companies under the Group, including the Bank and 35 subsidiaries, in accordance with the Greenhouse Gas Protocol prepared by the World Resources Institute and the World Business Council for Sustainable Development and the ISO14064-1 formulated by the International Organisation for Standardization. In addition, a summary of the greenhouse gas emission was as follows:

GHG Emissions	Unit	2019*	2020
GHG Emissions			
Direct GHG emissions (Scope 1)	Tonnes of carbon dioxide equivalent (CO ₂ e)	974.97	810.26
Indirect GHG emissions (Scope 2)	Tonnes of CO ₂ e	11,467.37	9,470.00
Other indirect GHG emissions (Scope 3)	Tonnes of CO ₂ e	562.94	567.43
Total GHG emissions (Scope 1, 2 and 3)	Tonnes of CO ₂ e	13,005.28	10,838.46
GHG Emissions Intensity			
Per square meter (Scope 1, 2 and 3)	Tonnes of CO ₂ e/square meter	0.037	0.027
Per employee (Scope 1, 2 and 3)	Tonnes of CO ₂ e/employee	2.09	1.69

Scope 1: The direct GHG emissions generated from sources owned and controlled by the Group.

Scope 2: GHG emissions indirectly generated by electricity generation, heating and cooling or steam purchased by the Group.

Scope 3: Emissions include GHG emissions indirectly generated by sources that are not owned or directly controlled by the Group but related to the Group's business activities.

* 2019 data shown in this report may be slightly different to last year's report as they were rounded to 2 decimal places.

Upon the audit, our GHGs emissions could be classified as direct emissions (Scope 1) and indirect emissions (Scope 2 and 3). GHG emissions from various scopes include fuel consumed by fixed equipment and gasoline consumed by vehicles owned by us (Scope 1), electricity consumed during office hours (Scope 2), emissions from air travel of employees for business trips, waste production and paper consumption (Scope 3). During the Year, the Bank's total GHG emissions amounted to 10,838.46 tonnes of CO₂e representing a decrease of approximately 16% as compared to the previous year.

Chapter 11 Environmental, Social and Governance Report

In order to reduce GHG emissions and deal with climate changes, the Group has implemented the following specific measures in relation to different emissions sources:

Business vehicles	Boilers	Business trips
<ul style="list-style-type: none"> to perform regular inspection and maintenance for business vehicles application form should be submitted to Administrative Department before using business vehicles and to minimize the usage of business vehicles to ensure to no unnecessary running of engine to provide low-carbon driving training for drivers (e.g. avoid sudden acceleration) to encourage employees to use public transports 	<ul style="list-style-type: none"> all gas stoves are replaced with electronic heaters for heating 	<ul style="list-style-type: none"> direct flights are chosen for necessary business trips telephone and video conferences are adopted to replace unnecessary business trips

5.2 Advocating Green Operation

The operation and production of the Group mainly comprise office work. Therefore, the Group puts great efforts in applying concepts of low carbon and environmental protection into its operation and management, so as to create green office. Through formulating measures on energy saving and emission reduction to regulate employees' behavior, the Group realizes energy saving and environmental protection through reducing the consumption of resources and energy and waste disposal.

Chapter 11 Environmental, Social and Governance Report

Energy saving

In terms of lighting systems, we try to use daylighting as much as possible. We reduce the number of lamps in the place where the brightness is higher than required. Offices are divided into multiple different lighting zones and independently controllable lighting switches are installed. In order to maximize the energy efficiency of lighting fixtures and lamps by keeping them clean.

In terms of air-conditioning systems, we adopt central control and monitoring system or building management system. We set the minimum temperature to 25.5 degrees Celsius, and reasonably control the use of air-conditioning. Regular inspections, maintenance and cleaning are carried out to ensure the effectiveness of the air-conditioning systems. We use a variable refrigerant flow system to optimize the refrigerant flow, and install seals on the doors and windows to prevent the temperature-adjusted air from leaking and reduce the energy consumption of the air conditioning systems.

In terms of electronic equipment, we use energy-efficient electronic equipment and multi-function devices and reduce the use of independent printers. Printers are turned off completely during non-working hours by setting timers. Computers, electronic equipment, printers and other equipment will be turned off completely during non-working hours. We only purchase electronic equipment with energy efficiency labels.

Our total electricity consumption during the operation was 15,522.05 MWh for the year, representing an increase of approximately 3% as compared to last year. The increase was mainly due to the increase in the number of outlets during the year.

Total electricity consumption	Unit	2019*	2020
Total electricity consumption	MWh	14,991.08	15,522.05
Total electricity consumption intensity (per square meter)	MWh/square meter	0.043	0.039
Total electricity consumption intensity (per employee)	MWh/employee	2.41	2.42

* 2019 data shown in this report may be slightly different to last year's report as they were rounded to 2 decimal places.

Reducing water consumption

To prevent wastage of water resources, water saving slogans and notices are placed in prominent locations of water consumption to promote proper water consumption practice among employees. Sensor faucets and double flush toilets with excellent water-saving features are installed. Regular inspections and repairs are conducted to prevent water leakage. We test hidden water pipes and inspect water meter readings regularly. Water pipes would be repaired immediately once problems are identified in order to prevent water leakage. Domestic water is supplied by the public fresh water network in respective locations, and there is no problem in obtaining water sources.

Chapter 11 Environmental, Social and Governance Report

Our total water consumption in operation was 118,731.16 cubic meters for the year, representing an increase of approximately 4% compared to last year. The increase was mainly due to the increase in the number of outlets during the year.

Water consumption	Unit	2019*	2020
Total water consumption	Cubic meters	113,299.03	118,731.16
Total water consumption intensity (per square meter)	Cubic meters/square meter	0.32	0.30
Total water consumption intensity (per employee)	Cubic meters/employee	18.22	18.50

* 2019 data shown in this report may be slightly different to last year's report as they were rounded to 2 decimal places.

Paper saving

The Group puts great efforts in promoting paperless office. Placing a high priority on office informalization, the Bank has established an office automation system (OA system) which performs process management, centralized processing of office work, real-time processing of file data and other functions at the whole bank level to replace the usage of paper. In order to reduce the usage of paper and consumption of printing paper, we use electronic communication technology to transmit information as much as practicable. Notices are put at prominent positions next to photocopiers/printers to remind employees to use double-sided photocopying or use recycled paper. When printing internal documents is necessary, we use recycled paper or paper made of recycled materials and double-sided photocopying. In addition, the Group provides a variety of electronic service channels such as online banking, mobile banking and WeChat banking, so that customers can enjoy convenient and efficient finance and banking services and select electronic bills and electronic promotional materials instead of mailing bills and physical promotional materials to further reduce paper consumption.

Our paper consumption was 59.73 tonnes and the paper consumption per capita was 0.009 tonnes for the year, representing a decrease of approximately 13% compared to last year and demonstrating the effectiveness of paperless office.

Paper consumption	Unit	2019*	2020
Paper consumption	Tonnes	66.45	59.73
Paper consumption intensity	Tonnes/employee	0.011	0.009

* 2019 data shown in this report may be slightly different to last year's report as they were rounded to 2 decimal places.

Chapter 11 Environmental, Social and Governance Report

Waste management

In respect of non-hazardous waste, waste sorting bins are placed in our offices to encourage our staff to separate waste by type. Our staff are also encouraged to reuse envelope, binder, file card and other stationery. All waste papers, except for papers containing confidential information, are treated by paper recycling companies. When purchasing office supplies, we will estimate the consumption of supplies to avoid overstock.

In respect of hazardous waste, the Group disposes of electronic waste in accordance with the Administrative Regulations on Computer Equipment (《電腦物品管理規定》). We have established a scrapping approval team to review scrapping application and deal with waste in accordance with the requirements for scrapping management. In case of any computer malfunction, the team will prepare a test report based on the feasibility of repair or modification and estimated repair cost, so as to avoid excessive consumption of parts and generation of unnecessary waste during maintenance. If criteria of scrapping are fulfilled, the Information Technology Department and relevant departments will confirm the approval of scrapping. We also collect obsolete computers or other electronic waste through cooperation with electronic companies for recycling.

Our total amount of non-hazardous waste was 56.37 tonnes and the intensity was 0.009 tonnes per employee for the year, representing a decrease of approximately 13% compared to last year and demonstrating the effectiveness of waste reduction.

Non-hazardous waste	Unit	2019*	2020
Total non-hazardous waste	Tonnes	62.66	56.37
Total non-hazardous waste intensity (per employee)	Tonnes/employee	0.010	0.009

* 2019 data shown in this report may be slightly different to last year's report as they were rounded to 2 decimal places.

5.3 Developing Green Finance

Adhering to the Guiding Opinions on Building a Green Financial System (《關於構建綠色金融體系的指導意見》), Plan for the Green Credit Performance Evaluation of Banking Depository Financial Institutions (Trial) (《銀行業存款類金融機構綠色信貸業績評價方案(試行)》) and other guidelines issued by the People's Bank of China, the Group upholds the philosophy of green development and aims to position itself as an environmental-friendly "green bank" that saves energy through launching green credit or taking other initiatives.

Chapter 11 Environmental, Social and Governance Report

In compliance with the macro policies of national policies and based on its needs, the Group has raised its awareness on environmental and social risks and further optimized its standards on green credit to promote the “green” adjustment of the credit structure of industry and customers. In selecting enterprises and projects to which we provide credit supports, we follow the principles of “encouragements and discouragements” and taking performance on energy conservation and environmental protection of such enterprises and projects as an important basis for determining customer rating and lending criteria as well as credit management and divestment. On the one hand, we strictly comply with the requirements of policies on “reducing capacity, de-stocking, deleveraging, reducing cost and improving underdeveloped areas” and have implemented list management and quota management and formulated definite divestment plan for industries of high pollution and high energy consumption and industries with overcapacity. On the other hand, we tend to grant credit to green industries such as green manufacturing, eco-tourism and energy saving and environmental protection industries. We fully support the development of biomedicine, optoelectronic information, education and healthcare, cultural technology, rural tourism, rural e-commerce and other industries by fulfilling their capital needs.

Based on the characteristics of development and demand of green industries, the Group accelerates the innovation of products and credit model, so as to increase the supply of “green financial products”. We have set up a mechanism that is favorable to green finance and give priority to the approval of application of credit supporting green, low-carbon and circular economy under same conditions. Special channels for green credit have been established for determining lending criteria, project evaluation, loan approval, loan review based on actual situation to improve service efficiency. In addition, we formulated the Administrative Measures on Green Credit Statistics (《綠色信貸統計管理辦法》) to meet the requirements on identification and records of financial institutions and fulfill the lending criteria of green credit which related to the internal management assessment and the requirements of Special statistical Practice for Green Loans (《綠色貸款專項統計制度》).

Looking forward, the Group will closely follow the “Fourteenth Five-Year Plan” and strive for the goal of “carbon neutral” by strategically developing green finance. The Group will further optimize its green financial service system and expand the coverage of green financial services, so as to make utmost efforts to support the green development of economy and society and the building of ecological civilization.

Chapter 11 Environmental, Social and Governance Report

6. Fulfilling Social Responsibilities

The Group pays attention to its social responsibilities while pursuing sound development. During the year, in addition to supporting the pandemic control, the Group proactively adopted inclusive finance, promoted targeted poverty alleviation and conducted various charity activities in an effort to contribute to the community with practical actions.

6.1 Supporting Pandemic Control

Adhering to the national policy of pandemic control, the Group shouldered its major political responsibilities and launched 10 special measures and arranged credit lines in compliance with the policies issued by the regulatory authorities and governments at different levels in relation to financial support and resumption of work and production, in order to prioritize the support to SMEs affected by the pandemic for the resumption of work and production. To help SMEs tide over the difficulties, the Group also set up green channels, offered preferential interest rates and extended the repayment period of principals and interests.

The Group actively participated in the prevention and control of the pandemic, and provided convenient online service channels in order to provide uninterrupted financial services and protect the safety of our employees and branches. As a tribute to the medical professionals fighting at the frontline, we have developed an exclusive wealth management product, the “Exclusive Financial Product for Medical Professionals in Hubei”(援鄂醫護人員專屬金融產品). Meanwhile, the Group proactively organized donations, and made donations of over RMB950 million in cash or in kind during the year. Various units of the Group have set up volunteer teams, which had organized volunteering activities with over 1,100 participants and over 7,600 hours during the year. In December 2020, the Bank received the “Outstanding Enterprise in Fighting the COVID-19 Pandemic”(抗擊新冠肺炎疫情先進企業) award from the All-China Federation of Industry and Commerce (中華全國工商業聯合會).

Chapter 11 Environmental, Social and Governance Report

6.2 Adoption of Inclusive Finance

By refining service channels, enhancing service capabilities and optimizing financial environment, the Group has further promoted the development of inclusive finance. The Group has also organized financial knowledge promotion and education activities in order to protect the rights and interests of financial consumers and improve customers' satisfaction. The Group has conducted offline construction of rural service stations and set up ATM to effectively fill gaps in rural financial services. In respect of online services, we have extensively explored WeChat, mobile banking, online banking and other channels to meet different payment demands of urban and rural residents. Innovative applications such as "Medical Payment (銀醫通)" and education cloud payment platform were launched to enhance customers' experience. We have actively participated in the financial services of "New Rural Social Pension Insurance (新農保)" and "New Rural Cooperative Medical Insurance (新農合)". The Group has allocated more financial resources to serve the "three rurals" and the real economy through innovative mechanisms and product development. The Group has also reduced the financing cost of enterprises through standardized charges and fees, lowering the interest rate and loan renewal service without repayment of principal.

6.3 Supporting Targeted Poverty Alleviation

We have initially established Jilin Provincial Financial Poverty Alleviation Alliance (吉林省金融商會扶貧聯盟) and Rural Industrial Poverty Alleviation Alliance of Jiutai Commerce Association (九台商會農村產業扶貧聯盟), with over 50 enterprises participating, to effectively integrate resources, technology and information, effectively liaise with government departments, actively monitor pilot poverty villages, and build up a poverty alleviation mechanism through coordination among the government, enterprises and society. Enterprises in the poverty alleviation alliance and poverty villages in the province have set up 7 companies under our support. By developing the industry pattern of "Enterprises + poverty villages"(企業+貧困村集體), such companies carried out a number of poverty alleviation projects including establishing special plantation business, virgin soybean oil, rice packaging, leisure and sightseeing and garment sewing, creating over 300 job opportunities for poverty villagers and increasing the total income of the poverty villages by over RMB340 million.

We also develop innovative poverty alleviation products. We are the first to mortgage loans secured by farmers' housing property rights and mortgage loans secured by the rural collectively-owned construction land for operating purpose in Jilin Province. Based on the cooperation model of "government + bank + enterprise + cooperative + poor household", we have also developed "Jiutai Rural Commercial Bank Poverty Loan"(九商幫扶貸), a loan product designed for cooperatives, which assisted 339 poor households in 15 poverty villages in Jiutai to set up specialized rural cooperatives and granted loans for poverty alleviation of RMB16.95 million in total.

Chapter 11 Environmental, Social and Governance Report

We have carried out poverty alleviation through education. We provided motivation class with special training programs provided by Changchun Finance College, and raised RMB5.90 million to provide free occupational education to 115 students from poor families. The first 50 graduates have worked at the Bank, which have ended generational poverty.

We have also implemented poverty alleviation through talent cultivation. Cooperated with Jilin Agricultural University, a training class for potential “village cadres” was organized. 22 students received special training and were deployed to villages to support poverty alleviation. 51 personnel were sent to poor villages in total.

6.4 Charity Activities

The Group has set up “Jiutai Rural Commercial Bank Charity Fund”(九台農商銀行愛心基金) to organize donations in respect of poverty alleviation, education and medical assistance, care for elderly and disabled and helping people suffering from disasters and difficulties. All branches and sub-branches participated in the charity activities through donation in cash and in kinds and volunteering services. During the Reporting Period, in addition to the charity activities for pandemic control, the Group organized over 150 charity activities with a total investment of more than RMB4.5 million, over 1,600 participants, and over 11,500 beneficiaries. Furthermore, to improve the standard and enhance our ability in serving customers with special needs, we also organized “Vulnerable Groups Caring Month”(關愛特殊群體金融服務月) to show our care to vulnerable groups, including migrant workers, unemployed, disabled persons, elderlies, low-income people and residents in undeveloped areas through multi-channel promotions.

Opinion

We have audited the consolidated financial statements of Jilin Jiutai Rural Commercial Bank Corporation Limited (the “Bank”) and its subsidiaries (hereinafter collectively referred to as the “Group”) set out on pages 262 to 429, which comprise the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRSs”) issued by the International Accounting Standards Board (the “IASB”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (“ISAs”) issued by the International Auditing and Assurance Standards Board. Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (“IESBA Code”) and we have fulfilled our other ethical responsibilities in accordance with IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are summarised as follows:

- Basis of consolidation
- Impairment of loans and advances to customers
- Impairment of goodwill
- Outsourcing arrangements for information technology system

Basis of consolidation

Refer to note 57 to the consolidated financial statements and the accounting policies on page 274 to 276.

The key audit matter	How the matter was addressed in our audit
<p>The Bank operates its businesses through the Bank itself and through 35 subsidiaries as at 31 December 2020.</p> <p>As at 31 December 2020, the Bank controlled and consolidated 16 subsidiaries in which the Bank owned no more than 50% equity interest (the "non major subsidiaries"). To control these non major subsidiaries, the Bank held more than 50% of the voting rights in these non major subsidiaries through acting in concert agreements (the "AIC agreements") with certain minority shareholders of those subsidiaries. In particular, under these AIC agreements, these minority shareholders have agreed to align their votes with the Bank in respective shareholders' meeting of the subsidiaries.</p> <p>If these minority shareholders fail to abide by their agreements, or if the AIC agreements are terminated, the Bank may not be able to continue to control and consolidate the financial results of these non major subsidiaries.</p>	<p>Our procedures were designed to review the management's assessment, with reference to the legal advice on the validity of AIC agreements, of whether the Group control the non major subsidiaries and challenge the reasonableness of the methodologies used to assessment of control.</p> <p>We have discussed the indicators of possible loss of control with the management and, where such indicators were identified, assessing the management's view on control. Also, we have sought legal advice on the validity of AIC agreements.</p>

Impairment of loans and advances to customers

Refer to note 23 to the consolidated financial statements and the accounting policies on pages 287 to 294.

The key audit matter	How the matter was addressed in our audit
<p>Impairment allowances represent management's best estimate of the expected credit losses within the loan portfolios at the reporting date.</p> <p>They are assessed based on whether the credit risk has increased significantly since initial recognition and the Group's historical credit loss experience adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.</p> <p>The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information.</p> <p>Management estimations and judgements are required to determine whether there are significant increase in credit risk, the probability of default, loss given default and the expected future cash flows related to each loan within the loan portfolios.</p>	<p>Our procedures were designed to review the management assessment on the expected credit losses model and challenge the reasonableness of the methods and assumptions used to estimate the expected credit losses of loans and advances to customers.</p> <p>We have discussed the judgement in relation to the recognition of 12 months and life time expected credit losses of loan and advance under the 3 different stages and assessed the appropriateness of the modelling policy, assumptions and methodology used for material portfolios independently by reference to the accounting standards and market practices, and model calculations were tested through re-performance.</p> <p>We have challenged the assumptions, critical judgement and statistical models used by the management by assessing the reliability of the management's past estimates and future forecast, and taking into account the ageing at year end and whether any significant increase in credit risk of borrowers.</p>

Impairment of loans and advances to customers (Continued)

Refer to note 23 to the consolidated financial statements and the accounting policies on page 287 to 294.

The key audit matter	How the matter was addressed in our audit
<p>The audit was focused on impairment due to the materiality of the balances amounted to approximately RMB126,574,552,000 and the subjective nature of the judgement, estimation and calculation involved in the determination of the expected credit losses.</p>	<p>For the collectively assessed expected credit loss (“ECL”), we assessed the reasonableness of the Group’s ECL models, including the model input, model design, model performance for significant portfolios. We assessed the reasonableness of the Group’s criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a lifetime ECL basis and the qualitative assessment. We challenged whether historical experience is representative of current circumstances and of the recent losses incurred in the portfolios and assessed the reasonableness of forward-looking adjustments, including the economic variables and assumptions used in each of the economic scenarios and their probability weightings. Where changes had been made in model parameters and assumptions, we evaluated the appropriateness of such changes. We also assessed and tested the sensitivity of the credit loss provisions to changes in modelling assumptions.</p> <p>For a sample of exposures that was subject to an individual impairment assessment, we specifically reviewed the Group’s assumptions on the expected future cash flows, including the value of realisable collateral based on available market information. We also assessed the financial statement disclosures relating to the Group’s exposure to credit risk.</p>

Impairment of goodwill

Refer to note 29 to the consolidated financial statements and the accounting policies on page 279 to 280.

The key audit matter	How the matter was addressed in our audit
<p>As at 31 December 2020, the Group had goodwill of approximately RMB401,335,000 and no impairment was recognised.</p> <p>The impairment assessment relied on the calculation of a value in use for each of the cash-generating units (the "CGUs"). That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period with an average growth rate and pre-tax discount rate. Cash flows beyond the five-year period are extrapolated using an estimated annual growth rate. Management determined the budgeted gross margin based on past performance, its expectations on the market development, and a long-term growth rate of 3% which is based on the industry growth forecasts and does not exceed the long-term average growth rate for the business in the People's Republic of China. The discount rates used were the CGU's specific weighted average cost of capital, adjusted for the risks of the specific CGU.</p> <p>The estimation of future cash flows and the level to which they are discounted are inherently uncertain and requires significant judgement. The extent of judgement and the size of the goodwill resulted in impairment of goodwill being identified as an area of audit focus.</p>	<p>Our procedures were designed to obtain management's assessment and challenged the reasonableness of the selection of valuation model, adoption of key assumptions and input data. In particular, we have tested the future cash flow forecasts on whether they are agreed to the budgets approved by the directors of the Bank and compared the budgets with actual results available up to the report date. We have challenged the appropriateness of the assumptions, including the growth rates and gross margin, against latest market expectations.</p> <p>We have also challenged the discount rate employed in each calculation of value in use by reviewing its basis of calculation and comparing its input data to market sources.</p> <p>As any changes in these assumptions and input to valuation model may result in significant financial impact, we have tested management's sensitivity analysis in relation to the key inputs to the impairment assessment and performed our own sensitivity analysis which included changes in the growth rate, gross margin and discount rates employed.</p>

Outsourcing arrangements for information technology system

Refer to note 51(d) to the consolidated financial statements.

The key audit matter	How the matter was addressed in our audit
<p>The Group's information technology ("IT") system are critical to various aspects of its operations which are developed, operated and maintained by various IT service providers (the "IT outsourcing arrangements"). The Group entrusts those IT service providers to manage and maintain its database but has its own dedicated IT team to perform daily monitoring on those IT service providers for the operations and maintenance of the Group's IT system.</p> <p>If the Group cannot effectively monitor the services provided by the IT service providers, any problems of the IT system could have a material impact, among other aspects, on the Group's financial statements.</p>	<p>We involved our IT audit specialists in the course of audit. We carried out assessment, testings and review of the Group's controls over the IT outsourcing arrangements and the monitoring procedures executed by the Group on various IT service providers.</p> <p>We also assessed the reliability of the Group's IT system regarding the process in the preparation of the Group's financial statements.</p>

Information other than the Consolidated Financial Statements and Auditor's Report Thereon

The directors of the Bank are responsible for the other information. The other information comprises the all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors of the Bank and Those Charged with Governance for the Consolidated Financial Statements

The directors of the Bank are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors of the Bank determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Bank are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Bank either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion, solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibilities towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and, obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Bank.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Chui Yiu Cheong.

Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2020

1. GENERAL

The Bank, formerly known as Jiutai Rural Credit Cooperative Union, is a joint stock commercial bank established on 16 December 2008 with approval of the former China Banking Regulatory Commission (the “CBRC”) (YinFu 2008 No. 320) on 15 December 2008.

The Bank obtained its finance permit No. B1001H222010001 from the former CBRC Jilin Bureau. The Bank obtained its business license (Unified Social Credit Code: 912200001243547911) from Jilin Administration of Industry and Commerce. The legal representative is Gao Bing and the address of the registered office is No. 504 Xinhua Main Street, Jiutai District, Changchun, the People’s Republic of China (the “PRC”).

As at 31 December 2020, the Bank has established 3 branches and 80 sub-branches. The Bank has 35 subsidiaries. The principal activities of the Bank and its subsidiaries (collectively referred to as the “Group”) are the provision of corporate and retail deposits, loans and advances, payment and settlement services, as well as other banking services as approved by the China Banking and Insurance Regulatory Commission. The Group operates in mainland China.

On 12 January 2017, the Bank’s H shares were listed on the main board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (Stock code: 6122).

The consolidated financial statements are presented in Renminbi (“RMB”), which is also the functional currency of the Bank and its subsidiaries.

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”)

In the current year, the Group has applied, for the first time, the Amendments to References to the Conceptual Framework in IFRSs and the following amendments to IFRSs, which include related Interpretations, issued by the International Accounting Standards Board (the “IASB”) which are effective for the Group’s financial year beginning 1 January 2020.

Amendments to IFRS 3	Definition of a Business
Amendments to IAS 1 and IAS 8	Definition of Material
Amendments to IFRS 9, IAS 39 and IFRS 7	Interest Rate Benchmark Reform

Except as described below, the application of the Amendments to References to the Conceptual Framework in IFRSs and the amendments to IFRSs in the current year has had no material impact on the Group’s financial performance and position for the current and prior years and/ or on the disclosures set out in these consolidated financial statements.

Amendments to IFRS 3, Definition of a Business

The amendments clarify the definition of a business and provide further guidance on how to determine whether a transaction represents a business combination. In addition, the amendments introduce an optional “concentration test” that permits a simplified assessment of whether an acquired set of activities and assets is an asset rather than business acquisition, when substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

The Group has applied the amendments prospectively to transactions for which the acquisition date is on or after 1 January 2020. These amendments had no impact on the consolidated financial statements of the Group, but may impact future periods should the Group enter into any business combinations.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”) (Continued)

Amendments to IAS 1 and IAS 8, Definition of Material

The amendments provide a new definition of material that states “information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.” The amendments clarify that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users.

The application of these amendments in the current year had no impact on the consolidated financial statements.

Amendments to IFRS 7, IFRS 9 and IAS 39, Interest Rate Benchmark Reform

Amendments to IFRS 9, IAS 39 and IFRS 7 address the effects of interbank offered rate reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. These amendments had no impact on the consolidated financial statements of the Group as it does not have any interest rate hedge relationships.

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”) (Continued)

New and amendments to IFRSs issued but not yet effective

The Group has not early applied the following new and amendments to IFRSs that have been issued but are not yet effective:

IFRS 17	Insurance Contracts and related Amendments ⁵
Amendments to IFRS 3	Reference to Conceptual Framework ³
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ²
Amendments to IAS 1	Classification of Liabilities as Current or Non-current ⁵
Amendments to IAS 1 and IFRS Practice Statement 2	Disclosure of Accounting Policies ⁵
Amendments to IAS 16	Property, plant and Equipment: Proceeds before Intended Use ³
Amendments to IAS 37	Onerous Contracts — Cost of Fulfilling a Contract ³
Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16	Interest Rate Benchmark Reform — Phase 2 ¹
Amendment to IFRS 16	COVID-19-Related Rent Concessions ⁴
Amendment to IFRSs	Annual Improvements to IFRSs 2018–2020 cycle ³
Amendments to IAS 8	Definition of Accounting Estimates ⁵

¹ Effective for annual periods beginning on or after 1 January 2021.

² Effective for annual periods beginning on or after a date to be determined.

³ Effective for annual periods beginning on or after 1 January 2022.

⁴ Effective for annual periods beginning on or after 1 June 2020.

⁵ Effective for annual periods beginning on or after 1 January 2023.

The directors of the Bank anticipate that, the application of the new and amendments IFRSs will have no material impact on the results and the financial position of the Group.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with IFRSs issued by the IASB. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. Details of fair value measurement are explained in the accounting policies set out below.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporates the financial statements of the Bank and entities controlled by the Bank (i.e. its subsidiaries and structure entities). If a subsidiary prepares its financial statements using accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that subsidiary's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

Control is achieved where the Group has: (i) the power over the investee; (ii) exposure, or rights, to variable returns from its involvement with the investee; and (iii) the ability to use its power over the investee to affect the amount of the Group's returns. When the Group has less than a majority of the voting rights of an investee, power over the investee may be obtained through: (i) a contractual arrangement with other vote holders; (ii) rights arising from other contractual arrangements; (iii) the Group's voting rights and potential voting rights; or (iv) a combination of the above, based on all relevant facts and circumstances.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation (Continued)

The Bank reassess whether it controls an investee if facts and circumstances indicate that there are changes to one or more of these elements of control stated above.

When the Group is an investor of a fund in which the Group also acts as a fund manager, the Group will determine whether it is a principal or an agent for the purpose of assessing whether the Group controls the relevant fund.

An agent is a party primarily engaged to act on behalf and for the benefit of another party or parties (the principal(s)) and therefore does not control the investee when it exercises its decision-making authority. In determining whether the Group is an agent to the fund, the Group would assess:

- the scope of its decision-making authority over the investee;
- the rights held by other parties;
- the remuneration to which it is entitled in accordance with the remuneration agreements; and
- the decision maker's exposure to variability of returns from other interests that it holds in the investee.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

Income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income of subsidiaries are attributed to the owners of the Bank and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Bank and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation (Continued)

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Bank.

When the Group loses control of a subsidiary, it (i) derecognises the assets (including any goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost, (ii) derecognises the carrying amount of any non-controlling interests in the former subsidiary at the date when control is lost (including any components of other comprehensive income attributable to them), and (iii) recognises the aggregate of the fair value of the consideration received and the fair value of any retained interest, with any resulting difference being recognised as a gain or loss in profit or loss attributable to the Group. When assets and liabilities of the subsidiary are carried at revalued amounts or fair values and the related cumulative gain or loss has been recognised in other comprehensive income and accumulated in equity, the amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the related assets and liabilities (i.e. reclassified to profit or loss or transferred directly to retained earnings as specified by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 Financial Instruments or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations

Businesses combinations are accounted for by applying the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs incurred to effect a business combination are recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities arising from the assets acquired and liabilities assumed in the business combination are recognised and measured in accordance with IAS 12 *Income Taxes*;
- assets or liabilities related to the acquiree's employee benefit arrangements are recognised and measured in accordance with IAS 19 *Employee Benefits*;
- liabilities or equity instruments related to share-based payment transactions of the acquiree or the replacement of the acquiree's share-based payment transactions with the share-based payment transactions of the Group are measured in accordance with IFRS 2 *Share-based Payment* at the acquisition date (see the accounting policy below); and
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard.
- lease liabilities are measured at the present value of the remaining lease payments as if the acquired lease was a new lease at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are measured at an amount equal to the lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations (Continued)

Goodwill is measured as the excess of the aggregate of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the Group's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the aggregate of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a gain on bargain purchase.

Non-controlling interests, unless as required by another standards, are measured at acquisition-date fair value except for non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are measured either at fair value or at the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets on a transaction-by-transaction basis.

Investments in subsidiaries and associates

Investments in subsidiaries and associates are included in the Bank's statement of financial position at cost less accumulated impairment losses, if any.

Translation of foreign currencies

When the Group receives capital in foreign currencies from investors, the capital is translated to RMB at the spot exchange rate on the date of receipt. Other foreign currency transactions are, on initial recognition, translated to RMB at the spot exchange rates or the rates that approximate the spot exchange rates at the dates of transactions.

A spot exchange rate is quoted by The People's Bank of China (the "PBOC"), the State Administration of Foreign Exchange, or a cross rate determined based on quoted exchange rates. A rate that approximates the spot exchange rate is a rate determined by a systematic and rational method, normally the average exchange rate of the current period.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Translation of foreign currencies (Continued)

Monetary items denominated in foreign currencies are retranslated to RMB at the spot exchange rate at the end of each of the reporting period. The resulting exchange differences are recognised in profit or loss. Non-monetary items denominated in foreign currencies that are measured at historical cost are retranslated to RMB using the foreign exchange rate at the transaction date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated using the foreign exchange rate at the date the fair value is determined; the exchange differences are recognised in profit or loss, except for the exchange differences arising from the translation of non-monetary financial investments which are recognised in investment revaluation reserve.

Cash and cash equivalents

Cash and cash equivalents refer to short term highly liquid assets, which are readily convertible into known amounts of cash and subject to an insignificant risk of changes in value. Cash and cash equivalents comprise cash on hand, non-restricted balances with the central bank, short-term deposits and placements with banks and other financial institutions and financial assets held under resale agreements with original maturity of less than three months.

Goodwill

Goodwill arising from a business combination is carried at cost less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit (or groups of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the cash-generating unit (or groups of cash-generating units) is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro rata basis based on the carrying amount of each asset in the unit (or groups of cash-generating units). Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Goodwill (Continued)

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

The Group's policy for goodwill relating to an associate that included in the carrying amount of the investment is set out in "investments in associates" below.

Investments in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies.

The Group's investments in associates are accounted for in the consolidated financial statements using the equity method. Under the equity method, investments in associates are initially recognised at cost. The Group's share of the profit or loss and changes in the other comprehensive income of the associates are recognised in profit or loss and other comprehensive income respectively after the date of acquisition. If the Group's share of losses of an associate equals or exceeds its interest in the associate, which determined using the equity method together with any long-term interests that, in substance, form part of the Group's net investment in the associate, the Group discontinues recognising its share of further losses. Additional losses are provided for, and a liability is recognised, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

If an associate uses accounting policies other than those of the Group for like transactions and events in similar circumstances, adjustments are made to make the associate's accounting policies conform to those of the Group when the associate's financial statements are used by the Group in applying the equity method.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment, any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets and liabilities of the associate is recognised as goodwill and is included in the carrying amount of the investment.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments in associates (Continued)

Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognised in profit or loss in the period in which the investment is acquired.

After application of the equity method, including recognising the associate's losses (if any), the Group determines whether there is an objective evidence that the net investment in the associate is impaired. Goodwill that forms part of the carrying amount of an investment in an associate is not separately recognised. The entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the net investment in the associate. Any reversal of that impairment loss is recognised to the extent that the recoverable amount of the investment subsequently increases.

When the investment ceases to be an associate upon the Group losing significant influence over the associate, the Group discontinues to apply equity method and any retained interest is measured at fair value at that date which is regarded as its fair value on initial recognition as a financial asset in accordance with the applicable standard. Any difference between the fair value of any retained interest and any proceeds from disposing of a part interest in the associate and the carrying amount of the investment at the date the equity method was discontinued is recognised in profit or loss. Any amount previously recognised in other comprehensive income in relation to that investment is reclassified to profit or loss or retained earnings on the same basis as it would have been required if the investee had directly disposed of the related assets or liabilities.

Gains and losses resulting from transactions between the Group and its associate are recognised in consolidated financial statements only to the extent of unrelated investors' interests in the associate. The Group's share in the associate's gains or losses resulting from these transactions is eliminated.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (“FVTOCI”), and fair value through profit or loss (“FVTPL”).

The classification of financial assets at initial recognition depends on the financial asset’s contractual cash flow characteristics and the Group’s business model for managing them.

The business model refers to how the Bank manages its financial assets in order to generate cash flows. That is, the Bank’s business model determines whether cash flows will result from collecting contractual cash flows, selling financial assets or both. The Bank determines the business model for managing the financial assets according to the facts and based on the specific business objective for managing the financial assets determined by the Bank’s key management personnel.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Bank considers the contractual terms of the instrument. For the purposes of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition. ‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin. The Bank also assesses whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

For the Year Ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Financial assets at amortised cost (debt instruments)

The Group measures financial assets subsequently at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The business model refers to how the Bank manages its financial assets in order to generate cash flows. That is, the Bank's business model determines whether cash flows will result from collecting contractual cash flows, selling financial assets or both. The Bank determines the business model for managing the financial assets according to the facts and based on the specific business objective for managing the financial assets determined by the Bank's key management personnel.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Bank considers the contractual terms of the instrument. For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin. The Bank also assesses whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment.

(i) Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

Financial assets at amortised cost (debt instruments) (Continued)

(i) *Amortised cost and effective interest method (Continued)*

For financial assets other than purchased or originated credit impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit loss (“ECL”), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost and at FVTOCI. For financial assets other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit impaired financial instrument improves so that the financial asset is no longer credit impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset.

For purchased or originated credit-impaired financial assets, the Group recognises interest income by applying the credit-adjusted effective interest rate to the amortised cost of the financial asset from initial recognition. The calculation does not revert to the gross basis even if the credit risk of the financial asset subsequently improves so that the financial asset is no longer credit-impaired.

Interest income is recognised in profit or loss and is included in the “Net interest income” line item (Note 6).

Financial assets at FVTOCI (debt instruments)

The Group measures financial assets subsequently at FVTOCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Group's debt instruments classified as at FVTOCI includes investments in debt instruments. Fair value is determined in the manner described in note 52. Debt instruments are initially measured at fair value plus transaction costs. Subsequently, changes in the carrying amount of debt instruments as a result of foreign exchange gains and losses, impairment gains or losses, and interest income calculated using the effective interest method are recognised in profit or loss. The amounts that are recognised in profit or loss are the same as the amounts that would have been recognised in profit or loss if these debt instruments had been measured at amortised cost. All other changes in the carrying amount of these debt instruments are recognised in other comprehensive income ("OCI") and accumulated under the heading of investments revaluation reserve. When these debt instruments are derecognised, the cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss.

Equity instruments designated as at FVTOCI

On initial recognition, the Group may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination.

Equity instruments designated as at FVTOCI (Continued)

Investments in equity instruments as at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in OCI and accumulated in the investment revaluation reserve; and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will be transferred to retained earnings.

Dividends on these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "dividend income" line item in profit or loss.

Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI are measured at FVTPL. Specifically:

- Investments in equity instruments are classified as at FVTPL, unless the Group designates an equity investment that is neither held for trading nor a contingent consideration arising from a business combination as at FVTOCI on initial recognition.
- Debt instruments that do not meet the amortised cost criteria or the FVTOCI criteria are classified as at FVTPL. In addition, debt instruments that meet either the amortised cost criteria or the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The interest earned on the financial assets is included in the "Net trading gains" line item. Fair value is determined in the manner described in note 52.

Financial assets (Continued)

Financial assets at FVTPL (Continued)

In respect of the Group's equity instruments at FVTPL, the Group subsequently measures them at fair value, with fair value gains and losses recognised in "Net trading gains". Dividends from equity instruments continue to be recognised in profit or loss as dividend income when the Group's right to receive payments is established. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Impairment of financial assets

The Group recognises a loss allowance for ECL on financial assets which are subject to impairment under IFRS 9 (including loans and advances to customers, deposits with banks and other financial institutions, placements with banks and other financial institutions, financial assets held under resale agreements, financial assets measured at amortised cost, debt investments measured at FVTOCI, interest receivable, other receivables, credit commitments and financial guarantee contracts). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument (for stage 2 and stage 3). In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date (for stage 1). Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Impairment of financial assets (Continued)

Stage 1 is where credit risk has not increased significantly since initial recognition. For financial assets in stage 1, entities are required to recognise 12 month ECL and recognise interest income on a gross basis — this means that interest will be calculated on the gross carrying amount of the financial asset before adjusting for ECL.

Stage 2 is where credit risk has increased significantly since initial recognition. When a financial asset transfers to stage 2 entities are required to recognise lifetime ECL but interest income will continue to be recognised on a gross basis.

Stage 3 is where the financial asset is credit impaired. This is effectively the point at which there has been an incurred loss event. For financial assets in stage 3, entities will continue to recognise lifetime ECL but they will now recognise interest income on a net basis. This means that interest income will be calculated based on the gross carrying amount of the financial asset less ECL.

The Group measures the loss allowance equal to 12-month ECL, unless when there has a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's operations.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Impairment of financial assets (Continued)

Significant increase in credit risk (Continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Impairment of financial assets (Continued)

Significant increase in credit risk (Continued)

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) it has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definitions.

For credit commitments and financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of a loan commitment, the Group considers changes in the risk of a default occurring on the loan to which a loan commitment relates; for financial guarantee contracts, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Financial instruments (Continued)

Impairment of financial assets (Continued)

Definition of default (Continued)

The Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Group's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. For a lease receivable, the cash flows used for determining the expected credit losses is consistent with the cash flows used in measuring the lease receivable in accordance with IFRS 16 Leases.

For a financial guarantee contract, as the Group is required to make payments only in the event of a default by the debtor in accordance with the terms of the instrument that is guaranteed, the expected loss allowance is the expected payments to reimburse the holder for a credit loss that it incurs less any amounts that the Group expects to receive from the holder, the debtor or any other party.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

For deposits with banks and other financial institutions, placements with banks and other financial institutions, financial asset held under resale agreement and financial assets at amortised cost, the ECL is based on the 12-month ECL.

Measurement and recognition of ECL (Continued)

For undrawn credit commitments, the ECL is the present value of the difference between the contractual cash flows that are due to the Group if the holder of the credit commitments draws down the loan, and the cash flows that the Group expects to receive if the loan is drawn down.

For ECL on financial guarantee contracts or on credit commitments for which the effective interest rate cannot be determined, the Group will apply a discount rate that reflects the current market assessment of the time value of money and the risks that are specific to the cash flows but only if, and to the extent that, the risks are taken into account by adjusting the discount rate instead of adjusting the cash shortfalls being discounted.

For financial guarantee contracts and credit commitments, the loss allowances are recognised at the higher of the amount of the loss allowance determined in accordance with IFRS 9; and the amount initially recognised less, where appropriate, cumulative amount of income recognised over the guarantee period.

Except for investments in debt instruments that are measured at FVTOCI, credit commitments and financial guarantees contracts, the Group recognises an impairment gain or loss for all other financial instruments by adjusting their carrying amount where the corresponding adjustment is recognised through a loss allowance account. The Group recognised an impairment gain or loss in profit or loss for all financial instruments.

For investments in debt instruments that are measured at FVTOCI, the loss allowance is recognised in OCI and accumulated in the investment revaluation reserve without reducing the carrying amounts of these debt instruments.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss. In contrast, on derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not 1) contingent consideration of an acquirer in a business combination, 2) held-for-trading, or 3) designated as at FVTPL are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Loan commitments and financial guarantee contracts

Loan commitments and financial guarantee contract are contracts that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Loan commitments and financial guarantee contracts issued by a group entity are initially measured at their fair values and, if not designated as at FVTPL and do not arise from a transfer of a financial asset, are subsequently measured at the higher of:

- the amount of the loss allowance determined in accordance with IFRS 9; and
- the amount initially recognised less, where appropriate, cumulative amortisation recognised in accordance with the revenue recognition policies.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Fair value measurement

When measuring fair value for the purpose of impairment assessment, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

At the end of the reporting period, the Group determines whether transfer occur between levels of the fair value hierarchy for assets and liabilities which are measured at fair value on recurring basis by reviewing their respective fair value measurement.

Financial assets held under resale and repurchase agreements

Financial assets purchased under agreements to resell are reported not as purchases of the assets but as receivables and are carried in the consolidated statements of financial position at amortised cost.

Financial assets sold subject to a simultaneous agreement to repurchase these assets are retained in the consolidated statements of financial position and measured in accordance with their original measurement principles. The proceeds from the sale are reported as liabilities and are carried at amortised cost.

Interest earned on reverse repurchase agreements and interest incurred on repurchase agreements are recognised respectively as interest income and interest expense over the life of each agreement using the effective interest method.

Property and equipment

Property and equipment are assets held by the Group for operation and administration purposes with useful lives over one year. When the costs attributable to the land use rights cannot be reliably measured and separated from that of the building at inception, the costs are included in the cost of buildings and recorded in property and equipment.

Property and equipment including buildings and leasehold improvement for use in the supply of services, or for administrative purposes (other than construction in progress) are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Property and equipment (Continued)

Depreciation is recognised so as to write off their costs, other than construction in progress, less their residual values over their estimated useful lives, using straight-line method. The estimated useful lives, residual values and depreciation/amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Construction in progress is carried at cost, less any recognised impairment loss. Costs include professional fees. Such properties are classified to the appropriate categories when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

The estimated residual value rates and useful lives of each class of property and equipment, other than construction in progress, are as follows:

Classes	Estimated residual value rates	Useful lives
Premises	3%	20 years
Leasehold improvement	0%	Over the shorter of the economic useful lives and remaining lease terms
Office equipment	3%	3–10 years
Motor vehicles	3%	4 years

Useful lives, residual values and depreciation methods are reviewed at least at each year-end.

Leasing

Definition of a lease

Under IFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as lessee

For contracts entered into or modified on or after the date of initial application or arising from business combination, the Group assesses whether a contract is or contains a lease, at inception of the contract or modification date or acquisition date, as appropriate. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less from the commencement date and do not contain a purchase option) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Lease liabilities

At the commencement date, the Group measures lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;

Leasing (Continued)

The Group as lessee (Continued)

Lease liabilities (Continued)

Lease payments included in the measurement of the lease liability comprise: (Continued)

- the exercise price of purchase options if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate the lease.

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Lease liability is remeasured (and with a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Leasing (Continued)

The Group as lessee (Continued)

Right-of-use assets

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement date and any initial direct costs, less lease incentives received. Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, provision is recognised and measured under IAS 37 "Provision, Contingent Liabilities and Contingent Assets". The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. They are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The Group presents right-of-use assets as a separate line in the consolidated statement of financial position.

The Group applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

Lease modification

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

Leasing (Continued)

The Group as lessee (Continued)

Lease modification (Continued)

For a lease modification that is not accounted for a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group as lessor

The Group enters into lease agreements as a lessor with respect to some of its property. Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Impairment on tangible and intangible assets other than goodwill and financial assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Impairment on tangible and intangible assets other than goodwill and financial assets (Continued)

Intangible assets with indefinite useful lives are tested for impairment at least annually, and whenever there is an indication that they may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or the cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or the cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or the cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

Repossessed assets

Repossessed assets are physical assets or property rights obtained by the Group from debtors, warrantors or third parties following the enforcement of its creditor's rights. The repossessed assets are initially recognised at fair value, and are subsequently measured at the lower of the carrying value and net recoverable amount. If the recoverable amount is lower than the carrying value of the repossessed assets, the assets are written down to the recoverable amount.

Employee benefits

Salaries and allowances

Salaries and allowances are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Contributions to retirement benefits scheme

The Group participates in Central Provident Fund (“CPF”) Scheme for its employees in the PRC organised by the municipal governments of the relevant provinces. The Group also sets up annuity scheme for qualified employees. Annuity contributions are accrued based on a certain percentage of the participants’ total salary when employees have rendered service entitling them to the contributions. The contribution is recognised in profit or loss.

Other social welfare

Social welfare expenditure refers to payments for employees’ social welfare system established by the government of the PRC, including social pension insurance, health care insurance, housing funds and other social welfare contributions. The Group contributes on a regular basis to these funds based on certain percentage of the employees’ salaries and the contributions are recognised in profit or loss for the period when employees have rendered service entitling them to the contribution. The Group’s liabilities in respect of these funds are limited to the contribution payable in the reporting period.

Other long-term employee benefits

The Group’s net obligation in respect of long-term employee benefits other than pension plans is the amount of future benefit that employees have earned in respect of their services in the current and prior periods.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation (Continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on either (i) the same taxable entity; or (ii) different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 Income Taxes requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Fiduciary activities

The Group acts in a fiduciary activity as a manager, a custodian, or an agent for customers. Assets held by the Group and the related undertakings to return such assets to customers are recorded as off-balance sheet items as the risks and rewards of the assets reside with customers.

The Group enters into entrusted loan agreements with customers, whereby the customers provide funding (“entrusted funds”) to the Group, and the Group grants loans to third parties (“entrusted loans”) under instructions of the customers. As the Group does not assume the risks and rewards of the entrusted loans and the corresponding entrusted funds, the entrusted loans and funds are recorded as off-balance sheet items at their principal amount. No provision for impairment loss is made for entrusted loans.

Revenue recognition

Revenue is recognised to depict the transfer of promised goods and services to customers at an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services to a customer. Specifically, the Group uses a five-step approach to recognise revenue:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the Group satisfies a performance obligation.

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligations is transferred to customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same. For contracts that contain more than one performance obligation, the Group allocates the transaction price to each performance obligation on a relative stand-alone selling price basis.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Notes to the Consolidated Financial Statements (Continued)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue recognition (Continued)

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

Revenue is measured based on the consideration specified in a contract with a customer, excludes amounts collected on behalf of third parties, discounts and sales related taxes.

The Group's revenue mainly includes interest income and fee and commission income, among which fee and commission income will be within the scope of IFRS 15, while interest income is within the scope of IFRS 9.

The Group recognised revenue in respect of fee and commission income from the following major sources:

- Advisory services fees
- Settlement and clearing services fees
- Wealth management services fees
- Agency services fees
- Syndicated loan services fees
- Bank card services fees

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue recognition (Continued)

Provision of settlement and clearing services and agency services

The Group recognises settlement and clearing services fees and agency services fees at a point in time when the services are provided to customers.

Provision of advisory services fees, bank card services fees and wealth management services

The Group recognises the advisory services fees, bank card service fees and wealth management service fees overtime as the related services are transferred overtime. The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the services transferred to the customer to date relative to the remaining services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

Provision of syndicated loan services

Regarding to the syndicated loan service fees, those contracts contain two performance obligations, the syndicated loan service and loan management services. For the syndicated loan service, this fee is one-off and recognised when syndicated loans provided to customers. Hence, the revenue is recognised at a point of time. For loan management services, the fee depends on services transferred overtime according to contract terms. Hence, the revenue is recognised over-time. The Group allocates the transaction price to each performance obligations on a relative stand-alone fair value of these performance obligations. The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the services transferred to the customer to date relative to the remaining services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

The stand-alone selling price of the distinct service underlying each performance obligation is determined at contract inception. It represents the price at which the Group would sell a promised loan service separately to a customer. If a stand-alone selling price is not directly observable, the Group estimates it using appropriate techniques such that the transaction price ultimately allocated to any performance obligation reflects the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised services to the customer.

Expenses recognition

Interest expenses

Interest expenses from financial liabilities are accrued on a time proportion basis with reference to the amortised cost and the applicable effective interest rate.

Other expenses

Other expenses are recognised on an accrual basis.

Related parties

- (a) A person, or a close member of that person's family, is related to the Bank if that person:
- (i) has control or joint control over the Bank;
 - (ii) has significant influence over the Bank; or
 - (iii) is a member of the key management personnel of the Bank or the Bank's parent.
- (b) An entity is related to the Bank if any of the following conditions applies:
- (i) The entity and the Bank are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) Both entities are joint ventures of the same third party;
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Bank or an entity related to the Bank;

(b) An entity is related to the Bank if any of the following conditions applies: (Continued)

(vi) The entity is controlled or jointly controlled by a person identified in (a);

(vii) A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity);

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants (Continued)

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Dividends

Dividends are recognised as a liability and deducted from equity when they are approved by the Bank's shareholders in general meetings and declared. Interim dividends are deducted from equity when they are approved and declared, and no longer at the discretion of the Bank. Dividend for the year that is approved after the end of the reporting period is disclosed as a subsequent event.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3, the directors of the Bank are required to make judgements, estimates and assumptions about the amounts of assets, liabilities, revenue and expenses reported and disclosures made in the consolidated financial statements. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the directors of the Bank have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised and disclosures made in the consolidated financial statements.

Determination of consolidation scope

All facts and circumstances must be taken into consideration in the assessment of whether the Group, as an investor, controls the investee. The principle of control sets out the following three elements of control: (a) power over the investee; (b) exposure, or rights, to variable returns from involvement with the investee; and (c) the ability to use power over the investee to affect the amount of the investor's returns. The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Critical judgements in applying accounting policies (Continued)

Income taxes

Determining income tax provisions involves judgement on the future tax treatment of certain transactions. The Group carefully evaluates the tax implications of transactions and tax provisions are set up accordingly. The tax treatment of such transactions is reconsidered periodically to take into account all changes in tax legislation. Deferred tax assets are recognised for tax losses not yet used and temporary deductible differences. As those deferred tax assets can only be recognised to the extent that it is probable that future taxable profits will be available against which the unused tax credits can be utilised, management's judgement is required to assess the probability of future taxable profits. Management's assessment is constantly reviewed and additional deferred tax assets are recognised if it becomes probable that future taxable profits will allow the deferred tax assets to be recovered.

Determination of control over investees

Management applies its judgement to determine whether the control indicators indicate that the Group controls a non-principal guaranteed wealth management product and an asset management plan.

The Group acts as manager to a number of non-principal guaranteed investment products. Determining whether the Group controls such a structured entity usually focuses on the assessment of the aggregate economic interests of the Group in the entity (comprising any carried interests and expected management fees) and the decision-making authority of the entity. For all these structured entities managed by the Group, the Group's aggregate economic interest is in each case not significant and the decision makers establish, market and manage them according to restricted parameters as set out in the investment agreements as required by laws and regulations. As a result, the Group has concluded that it acts as agent as opposed to principal for the investors in all cases, and therefore has not consolidated these structured entities.

For further disclosure in respect of unconsolidated non-principal guaranteed investment products in which the Group has an interest or for which it is a sponsor, see Note 46(iii).

Critical judgements in applying accounting policies (Continued)

Classification of financial assets

When the Group determines the classification of financial assets, a number of significant judgements in the business model and the contractual cash flow characteristics of the financial assets are required. Factors considered by the Group in determining the business model for a group of financial assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated. When the Group assesses whether the contractual cash flows of the financial assets are consistent with basic lending arrangements, the main judgements are described as whether the principal amount may change over the life of the financial asset (for example, if there are repayments of principal); whether the interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin and cost, associated with holding the financial asset for a particular period of time.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key source of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Provision of ECL for all categories debt security of financial assets

The measurement of impairment losses under IFRS 9 across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty (Continued)

Provision of ECL for all categories debt security of financial assets (Continued)

The Group's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- The Group's internal credit grading model, which assigns probabilities of default to the individual grades
- The Group's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a lifetime ECL basis and the qualitative assessment
- The segmentation of financial assets based on risk characteristics of the customers and by product types when their ECL is assessed on a collective basis
- Development of ECL models, including the various formulas and the choice of inputs over determination of the period over which the entity is exposed to credit risk based on the behavioural life of the credit exposures, loss given default and collateral recovery of the credit exposures
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on probabilities of default, exposures at default and losses given default
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models

It has been the Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

Key sources of estimation uncertainty (Continued)

Provision of ECL for all categories of debt instruments financial assets

As at 31 December 2020, the carrying amounts of deposits with banks and other financial institutions, placements with banks and other financial institutions, financial assets held under resale agreements, interest receivables, loans and advances to customers, debt securities financial assets at fair value through other comprehensive income, financial assets measured at amortised cost were approximately RMB8,396,699,000, RMB729,253,000, RMB1,102,000,000, RMB874,287,000, RMB126,574,552,000, RMB2,372,719,000 and RMB24,772,682,000 respectively (2019: approximately RMB6,193,346,000, RMB1,814,046,000, RMB99,960,000, RMB939,845,000, RMB93,394,198,000, RMB6,525,603,000 and RMB23,008,859,000 respectively), net of impairment loss amounted approximately RMB1,265,000, RMB747,000, nil, nil, RMB3,501,919,000, RMB175,000 and RMB994,351,000 respectively (2019: approximately RMB1,690,000, RMB954,000, nil, nil, RMB2,709,763,000, RMB6,110,000 and RMB878,256,000 respectively).

The measurement of impairment losses under IFRS 9 across all categories of debt instruments financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances. Due to the unprecedented nature of the COVID-19 pandemic, its effect on the Group's debtors and their ability to meet their financial obligations to the Group is difficult to predict. Changes in these assumptions and estimates could materially affect the result of the assessment and it may be necessary to make additional impairment charge.

At each reporting date, the Bank assesses whether there has been a significant increase in credit risk for exposures since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Bank considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and also, forward-looking analysis.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty (Continued)

Fair value of financial instruments

There are no quoted prices from an active market for a number of financial instruments. The fair values for these financial instruments are established by using valuation techniques. These techniques include using recent arm's length market transactions by referring to the current fair value of similar instruments and discounted cash flow analysis. Valuation models established by the Group make maximum use of market input and rely as little as possible on the Group's specific data. However, it should be noted that some input, such as credit and counterparty risk, and risk correlations require management's estimates. The Group reviews the above estimations and assumptions periodically and makes adjustment if necessary.

Impairment of non-financial assets

Non-financial assets (ie. property and equipment, repossessed assets, long-term deferred expenses and right-of-use assets) are reviewed regularly to determine whether the carrying amount exceeds the recoverable amount of the assets. If any such indication exists, an impairment loss is provided.

Since the market price of an asset (the asset group) may not be obtained reliably, the fair value of the asset may not be estimated reliably. In assessing the present value of future cash flows, significant judgements are exercised over the asset's (or a cash-generating unit's) selling price, related operating expenses and discounting rate to calculate the present value. All relevant materials which can be obtained are used for estimation of the recoverable amount, including the estimation of the selling price and related operating expenses based on reasonable and supportable assumption.

As at 31 December 2020, the carrying amount of repossessed assets were approximately RMB528,610,000 (2019: approximately RMB357,637,000), net of accumulated impairment losses amounted approximately RMB25,335,000 (2019: approximately RMB19,440,000).

Depreciation

Property and equipment and right-of-use assets are depreciated using the straight-line method over their estimated useful lives after taking into account residual values. The estimated useful lives are regularly reviewed to determine the depreciation charged in each of the reporting period.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty (Continued)

Depreciation (Continued)

The estimated useful lives are determined based on historical experiences of similar assets and the estimated technical changes. If there is an indication that there has been a change in the factors used to determine the depreciation, the amount of depreciation will be revised.

As at 31 December 2020, the carrying amount of property and equipment and right-of-use assets were approximately RMB3,249,491,000 and RMB664,240,000 respectively (2019: approximately RMB3,986,902,000 and RMB791,493,000 respectively), net of accumulated impairment losses amounted nil and nil respectively (2019: nil and nil respectively).

Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

As at 31 December 2020, the carrying amount of goodwill is approximately RMB401,335,000 (2019: approximately RMB401,335,000). Details of the recoverable amount calculation are disclosed in Note 29.

Impairment of interests in associates

In determining whether the interests in associates are impaired, the directors of the Bank assesses the recoverable amount of the interests in associates which is the higher of its fair value less costs of disposal and its value in use. An impairment loss is made if the carrying amount of interests in associates exceeds its recoverable amount. In determining the recoverable amount of the interests in associates, the directors of the Bank require an estimation of the future cash flows expected to arise from the associates in order to determine the value in use of the interests in associates. When the actual future cash flows are less than expected, a material impairment loss may arise.

As at 31 December 2020, the carrying amount of interests in associates was approximately RMB1,005,130,000 (2019: approximately RMB1,588,632,000). No accumulated impairment losses were recognised for the year ended 31 December 2020 and 2019.

5. TAXATION

The Group's main applicable taxes and tax rates are as follows:

(a) Urban maintenance and construction tax

Urban maintenance and construction tax is calculated as 5%–7% of value added tax.

(b) Education surcharge

Education surcharge is calculated as 3% of business tax and value added tax.

(c) Local education surcharge

Local education surcharge is calculated as 2% of business tax and value added tax.

(d) Income tax

The income tax is calculated on taxable income. The statutory income tax rate is 25%.

(e) Value added tax

Pursuant to the “Circular regarding the Pilot Program on Comprehensive Implementation of Value Added Tax Reform” issued by the Ministry of Finance of the PRC (the “MOF”) and the State Administration of Taxation, the Group is required to pay value added tax instead of business tax from 1 May, 2016. Value added tax and related underlying value of the invoice for value added taxable income and expenses shall be stated and accounted for separately.

During the year ended 31 December 2020 and 2019, management of the Group determines that there are no impairments of any of its CGUs containing goodwill with indefinite useful lives.

The basis of the recoverable amounts of the above CGUs and their major underlying assumptions are summarised below:

Liaoyuan Rural Commercial Bank

The recoverable amounts of this unit have been determined on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period with an average growth rate of 13.5% (2019: 6%), and pre-tax discount rate of 13% (2019: 13%). Cash flows beyond the five-year period are extrapolated using an estimated annual growth rate. Management determined the budgeted gross margin based on past performance, its expectations on the market development, and a long-term growth rate of 3%, which is based on the industry growth forecasts and does not exceed the long-term average growth rate for the business in the country in which the CGU operates. The discount rates used are the CGU’s specific weighted average cost of capital, adjusted for the risks of the specific CGU.

Management believes that any reasonably possible change in any of these assumptions would not cause the carrying amounts of this CGU to exceed its recoverable amount.

Impairment testing on goodwill (Continued)

The basis of the recoverable amounts of the above CGUs and their major underlying assumptions are summarised below: (Continued)

Lingshui Huimin Village and Township Bank

The recoverable amounts of this unit have been determined on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period with an average growth rate of 6.5% (2019: 6%), and pre-tax discount rate of 13% (2019: 13%). Cash flows beyond the five-year period are extrapolated using an estimated annual growth rate. Management determined the budgeted gross margin based on past performance, its expectations on the market development, and a long-term growth rate of 3%, which is based on the industry growth forecasts and does not exceed the long-term average growth rate for the business in the country in which the CGU operates. Management believes that any reasonably possible change in any of these assumptions would not cause the carrying amounts of this CGU to exceed its recoverable amount.

Sanya Huimin Village and Township Bank

The recoverable amounts of this unit have been determined on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period with an average growth rate of 22.6% (2019: 36%), and pre-tax discount rate of 13% (2019: 13%). Cash flows beyond the five-year period are extrapolated using an estimated annual growth rate. Management determined the budgeted gross margin based on past performance, its expectations on the market development, and a long-term growth rate of 3%, which is based on the industry growth forecasts and does not exceed the long-term average growth rate for the business in the country in which the CGU operates. The basis of the recoverable amounts of the above CGUs and their major underlying assumptions are summarised below: (Continued)

Qingdao Jimo Huimin Village and Township Bank

The recoverable amounts of this unit have been determined on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period with an average growth rate of 19.1% (2019: 23%), and pre-tax discount rate of 13% (2019: 13%). Cash flows beyond the five-year period are extrapolated using an estimated annual growth rate. Management determined the budgeted gross margin based on past performance, its expectations on the market development, and a long-term growth rate of 3%, which is based on the industry growth forecasts and does not exceed the long-term average growth rate for the business in the country in which the CGU operates. Notes:

- (i) The Group made provision for impairment losses on loans and advances to customers and other assets. The provision for impairment losses was determined based on the expected recoverable amount of the relevant assets at the end of each of the reporting period. However, the amounts deductible for income tax purposes are calculated at 1% of the gross carrying amount of qualifying assets at the end of each of the reporting period, together with write-offs which fulfill specific criteria as set out in the Mainland China tax rules and are approved by the tax authorities.
- (ii) Net gains or losses on fair value changes of financial instruments are subject to tax when realised.
- (iii) At 31 December 2020, the Group has unused tax losses of approximately RMB246,260,000 (2019: approximately RMB249,162,000), available for offset against future profits. A deferred tax asset has been recognised in respect of such losses. Such tax losses can be carried forward for five years from the year in which the respective loss arose.

47. CAPITAL MANAGEMENT

The Group's capital management includes capital adequacy ratio management, capital financing management and economic capital management, of which the primary focus is on capital adequacy ratio management. The Group calculates the capital adequacy ratio in accordance with guidelines issued by the former CBRC. The capital of the Group is divided into core tier-one capital, other core tier-one capital and tier-two capital.

Capital adequacy ratio management is the key in capital management. The capital adequacy ratio reflects the soundness of the Group's operations and risk management capabilities. The main objective in capital adequacy ratio management is to set an optimal capital adequacy ratio that meets the regulatory requirements by benchmarking against the capital adequacy ratio level of leading peer banks with reference to its own business environment and conditions.

The Group considers its strategic development plans, business expansion plans and risk variables when conducting scenario analysis and stress testing and executing other measures to forecast, plan and manage its capital adequacy ratio.

The Group calculates its capital adequacy ratios in accordance with "Administrative Measures for the Capital of Commercial Banks (Provisional)" and other relevant regulations promulgated by the former CBRC.

The former CBRC requires commercial banks to meet the requirements of capital adequacy ratios by the end of 2018 in accordance with "Administrative Measures for the Capital of Commercial Banks (Provisional)". For non-systemically important banks, the minimum ratios for core tier-one capital adequacy ratio, tier-one capital adequacy ratio and capital adequacy ratio are 7.50%, 8.50% and 10.50%, respectively.

The on-balance sheet risk-weighted assets are measured using different risk weights, which are determined according to the credit, market and other risks associated with each asset and counterparty, taking into account any eligible collaterals or guarantees. Similar treatment is adopted for off-balance sheet exposure, with adjustments made to reflect the more contingent nature of any potential losses. Market risk-weighted assets are calculated using the standardised approach. Operational risk-weighted assets are calculated using basic indicator approach.

The capital adequacy ratios and related components of the Group illustrated below are computed based on the Group's statutory financial statements prepared in accordance with the generally accepted accounting principles in the PRC. During the years ended 31 December 2020 and 2019, the Group has complied with all its externally imposed capital requirements.

50. SEGMENT REPORTING

The Group manages its business by business lines and geographical areas. Consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group defines reporting segments based on the following operating segments:

Corporate banking

This segment represents the provision of a range of financial products and services to corporations and government agencies. These products and services include corporate loans and advances, deposit taking activities, agency services, consulting and advisory services, remittance and settlement services and guarantee services.

Retail banking

This segment represents the provision of a range of financial products and services to retail customers. These products and services include personal loans and deposit taking activities, bank card business, personal wealth management services and remittance services.

Treasury operations

This segment covers the Group's treasury operations. The treasury operations enters into inter-bank money market transactions, repurchases transactions and investments. It also trades in debt securities. The treasury segment also covers management of the Group's overall liquidity position, including the issuance of debts.

For the Year Ended 31 December 2020

50. SEGMENT REPORTING (Continued)

Others

These represent assets, liabilities, income and expenses which cannot directly attributable or cannot be allocated to a segment on a reasonable basis.

Measurement of segment assets and liabilities and of segment income, expenses and results is based on the Group's accounting policies.

Internal charges and transfer prices are determined with reference to market rates and have been reflected in the performance of each segment. Interest income and expense earned from third parties are referred to as "external net interest income/ (expense)". Net interest income and expense arising from internal charges and transfer pricing adjustments are referred to as "internal net interest (expense)/ income".

Segment income, expenses, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Segment income and expenses are determined before intra-group transactions are eliminated as part of the consolidation process. Segment capital expenditure is the total cost incurred during the reporting period to acquire property and equipment, land use rights and other long-term assets.

(b) Geographical information

The Group operates principally in Mainland China.

Non-current assets include property and equipments, long-term deferred expenses and right-of-use assets. In presenting of geographical information, non-current assets are allocated based on geographical location of the underlying assets. Operating income is allocated based on the locations of the subsidiaries which generate income. Geographical areas, as defined for management reporting purposes, are as follows:

- “Jilin Region” refers to the head quarter of the Bank and the 13 (2019: 13) subsidiaries of the Group.
- “Mainland China excluding Jilin Region” refers to the following areas serviced by the Bank and its subsidiaries: Anhui Province, Hebei Province, Hubei Province, Guangdong Province, Hainan Province, Heilongjiang Province, Shaanxi Province, Shandong Province and Tianjin City.

51. FINANCIAL RISK MANAGEMENT

The primary objectives of risk management of the Group are to maintain risk within acceptable parameters and satisfy the regulatory requirements.

The Group's risk management policies are designed and controls are set up to identify, analyse, monitor and report risks arising from normal operation. The Group regularly reviews its risk management policies and systems to address changes in markets, products and emerging best practices.

Details of the financial instruments are disclosed in respective notes to the consolidated financial statements. The risks associated with these financial instruments include credit risk, liquidity risk and market risk (i.e. interest rate risk and exchange rate risk).

(a) Credit risk

The Group monitors all financial assets that are subject to impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Group will measure the loss allowance based on lifetime ECL rather 12m ECL.

In order to minimise credit risk, the Group has tasked to develop and maintain the Group's credit risk grading to categorise exposures according to their degree of risk of default. The credit grading information is based on a range of data that is determined to be predictive of the risk of default and applying experienced credit judgment. The nature of the exposure and the type of counterparty are taken into account in the analysis. Credit risk grades are defined using qualitative and quantitative factors that are indicative of risk of default.

51. FINANCIAL RISK MANAGEMENT (Continued)

(a) Credit risk (Continued)

The five category classifications in which the Group classifies its loans and advances to customers and financial assets at amortised cost are set out below:

Category	Description	Basis for recognising ECL
Normal	Borrowers can honour the terms of their loans. There is no reason to doubt their ability to repay principal and interest in full on a timely basis.	12-month ECL
		Lifetime ECL — not credit impaired (Only if more than 30 days past due)
Special mention	Borrowers are able to repay their loans currently, although repayment may be adversely affected by specific factors.	Lifetime ECL — credit impaired (Only if more than 90 days past due and no reason to doubt their ability to repay principal and interest in full on a timely basis)
		Lifetime ECL — not credit impaired
Substandard	Borrowers' ability to repay their loans is in question and they cannot rely entirely on normal operational revenues to repay principal and interest. Losses may ensue even when collateral or guarantees are invoked.	Lifetime ECL — credit impaired (Only if more than 90 days past due and repayment may be adversely affected by specific factors)
		Lifetime ECL — credit impaired
Doubtful	Borrowers cannot repay principal and interest in full and significant losses will need to be recognised even when collateral or guarantees are invoked.	Lifetime ECL — credit impaired
Loss	Only a small portion or none of the principal and interest can be recovered after taking all possible measures and exhausting all legal remedies.	Lifetime ECL — credit impaired

51. FINANCIAL RISK MANAGEMENT (Continued)

(a) Credit risk (Continued)

The internal credit risk grades are designed and calibrated to reflect the risk of default as credit risk deteriorates. As the credit risk increases, the difference in risk of default between grades changes. Each exposure is allocated to a credit's risk grade at initial recognition, based on the available information about the counterparty. All exposures are monitored and the credit risk grade is updated to reflect current information. The Group uses credit risk grades as a primary input into the determination of the term structure of the probability of default ("PD") for exposures. The Group uses different criteria to determine whether credit risk has increased significantly per portfolio of assets. The criteria used are both quantitative changes in PDs as well as qualitative information that are indicative of risk of default.

Loan and advance to customers and financial asset at amortised cost

The Group has applied the general approach in IFRS 9 to measure ECL. The Group has assessed whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Group will measure the loss allowance based on lifetime rather than 12-month ECL.

Financial assets at FVTOCI

The Group has applied the general approach in IFRS 9 to measure ECL. The Group has assessed whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Group will measure the loss allowance based on lifetime rather than 12-month ECL.

51. FINANCIAL RISK MANAGEMENT (Continued)

(b) Market risk

Market risk is the risk of loss, in respect of the Group's activities, arising from adverse movements in market rates including interest rates, foreign exchange rates, commodity prices, stock prices and other prices.

The board of directors is ultimately responsible for monitoring the Group's market risk to ensure that the Group has effectively identified, measured and monitored all types of market risk. The Risk Management Committee monitors the market risk management process within the scope authorised by the board of directors, which include review and approval of market risk management strategies, policies and procedures. The Group is primarily exposed to market risk in its treasury operations. The board assumes ultimate responsibility for management of market risk. The senior management implements market risk management strategies and policies as approved by our board. The Group's business departments implement market risk management measures in their daily operations.

Sensitivity analysis is a technique which assesses the sensitivity of the Group's overall risk profile and its risk profile for each period with reference to the interest rate risks for different maturities.

Scenario analysis is a multi-factor analysis method which assesses the impact of multiple factors interacting simultaneously, taking into consideration of the probabilities of various scenarios.

Foreign currency gap analysis is a technique which estimates the impact of foreign exchange rate movements on the Group's current profit or loss. The foreign currency gap mainly arises from the currency mismatch in the Group's on/off-balance sheet items.

Sensitivity gap analysis is a technique which estimates the impact of interest rate movements on the Group's current profit or loss. It is used to work out the gap between future cash inflows and outflows by categorizing each of the Group's interest-bearing assets and interest-taking liabilities into different periods based on repricing dates.

The results of stress testing are assessed against a set of forward-looking scenarios using stress moves in market variables. The results are used to estimate the impact on profit or loss.

51. FINANCIAL RISK MANAGEMENT (Continued)

(b) Market risk (Continued)

Effective duration analysis is a technique which estimates the impact of interest rate movements by giving a weight to each period's exposure according to its sensitivity, calculating the weighted exposure, and summarising all periods' weighted exposures to estimate the non-linear impact of a change in interest rates on the Group's economic value.

Interest rate risk

The Group is primarily exposed to interest rate risk arising from repricing risk in its commercial banking business and the risk of treasury position.

Repricing risk

Repricing risk, which is also known as "maturity mismatch risk", is the most common form of interest rate risk. It is caused by the differences in timing between the maturities (related to fixed interest instruments) or repricing (related to floating interest instruments) of assets, liabilities and off-balance sheet items. The mismatch of repricing timing causes the Group's income or its inherent economic value to vary with the movement in interest rates.

The Finance Management Department is responsible for measuring, monitoring and managing interest rate risk. The Group regularly performs assessment on the interest rate repricing gap between the assets and liabilities that are sensitive to changes in interest rates and sensitivity analysis on the net interest income as a result of changes in interest rates. The primary objective of interest rate risk management is to minimise potential adverse effects on its net interest income or its inherent economic value caused by interest rate volatility.

Trading interest rate risk

Trading interest rate risk mainly arises from the treasury's investment portfolios. Interest rate risk is monitored using the effective duration analysis method. The Group employs other supplementary methods to measure its interest rate sensitivity, which is expressed as changes in the investment portfolios' fair value given a 100 basis points (1%) movement in the interest rates.

(i) ***The following tables indicate the assets and liabilities at 31 December 2020 and 2019 by the expected next repricing dates or by maturity dates, depending on which is earlier: (Continued)***

Notes:

- (i) As at 31 December 2020, for loans and advances to customers, the category “Less than three months” includes overdue amounts (net of provision for impairment losses) of approximately RMB2,693,408,000 (2019: approximately RMB1,762,141,000).
- (ii) Investments include financial assets at FVTPL, financial assets at FVTOCI, and financial assets measured at amortised cost.

(ii) ***Interest rate sensitivity analysis***

The Group uses sensitivity analysis to measure the impact of changes in interest rate on the Group’s net profit or loss and equity. As at 31 December 2020, assuming other variables remain unchanged, an increase in estimated interest rate of 100 basis points will cause the Group’s net profit to decrease approximately RMB194,254,000 (2019: decrease approximately RMB150,644,000), and the Group’s equity to decrease approximately RMB200,120,000 (2019: decrease approximately RMB279,053,000); a decrease in estimated interest rate of 100 basis points will cause the Group’s net profit to increase approximately RMB194,254,000 (2019: increase approximately RMB150,644,000), and the Group’s equity to increase approximately RMB200,120,000 (2019: increase approximately RMB279,053,000).

(b) Market risk (Continued)

Interest rate risk (Continued)

(ii) Interest rate sensitivity analysis (Continued)

The sensitivity analysis above is based on a static interest rate risk profile of the Group's assets and liabilities. This analysis measures only the impact of changes in interest rates, showing how annualised net profit or loss and equity would have been affected by repricing of the Group's assets and liabilities. The sensitivity analysis is based on the following assumptions:

- Interest rate movements at the end of each of the reporting period apply to non-derivative financial instruments of the Group;
- At the end of each of the reporting period, an interest rate movement of 100 basis points is based on the assumption of interest rates movement;
- There is a parallel shift in the yield curve with the changes in interest rates;
- There are no other changes to the assets and liabilities portfolio;
- Other variables (including exchange rates) remain unchanged; and
- The analysis does not take into account the effect of risk management measures taken by the management.

Due to the adoption of the aforementioned assumptions, the actual changes in the Group's net profit or loss and equity caused by an increase or decrease in interest rates might vary from the estimated results of this sensitivity analysis.

Foreign currency risk

The Group's foreign currency risk mainly arises from exchange rate fluctuation on its foreign exchange exposures. The Group manages foreign currency risk by matching its foreign currency denominated assets with corresponding liabilities in the same currencies and monitoring its foreign currency exposures on daily basis.

51. FINANCIAL RISK MANAGEMENT (Continued)

(c) Liquidity Risk

Liquidity risk is the risk that a commercial bank is unable to obtain funds on a timely basis or obtain funds at a reasonable cost to sustain its asset business or meet repayment obligations. This risk exists even if a bank's solvency remains strong. In accordance with liquidity policies, the Group monitors the future cash flows and maintains an appropriate level of highly liquid assets.

The Asset and Liability Management Committee ("ALMC") is responsible for managing the Group's overall liquidity risk. The ALMC is responsible for the formulation of the liquidity policies in accordance with regulatory requirements and prudential principles. Such policies include:

- Maintaining at a stable and sufficient level; establishing integrated liquidity risk management system; ensuring the meeting on a timely basis of liquidity requirements and the payment of assets, liabilities, and off-balance sheet business, whether under a normal operating environment or a state of stress; balancing the effectiveness and security of funds in an efficient manner; and
- Making timely and reasonable adjustments to capital structure and scale in response to market changes and business developments; pursuing profit maximization and cost minimisation to a modest extent while ensuring appropriate liquidity; achieving the integration of the security, liquidity, and effectiveness of the Group's funds.

The assets and liabilities management department is responsible for the development of liquidity risk management strategies, policies, procedures and limits, and routine supervision and monitoring of liquidity risks. It establishes and implements internal control systems relating to liquidity risk management, such as Liquidity Risk Management Measures (流動性風險管理辦法) and Contingency Plan for Liquidity Risks (流動性風險應急預案). The assets and liabilities management department is also responsible for setting annual liquidity management objectives and liquidity management profile plans. It also monitors and adjusts these plans on a quarterly basis in order to maintain a reasonable assets and liabilities structure.

A substantial portion of the Group's assets are funded by deposits from customers. These deposits from customers, which have been growing in recent years, are widely diversified in terms of type and duration and represent a stable source of funds.

The Group principally uses liquidity gap analysis to measure liquidity risk. Scenario analysis and stress testing are also adopted to assess the impact of liquidity risk.

The following tables provide an analysis of assets and liabilities of the Group into relevant maturity groupings based on the remaining periods to repayment at 31 December 2020 and 2019: (Continued)

Note:

Indefinite amount of cash and deposits with the central bank represents the statutory deposit reserves and fiscal deposits with the central bank. Indefinite amount of loans and advances to customers includes all the impaired loans, as well as those overdue more than one month. Loans and advances to customers with no impairment but overdue within one month are classified into the category of repayable on demand. Indefinite amount of investments represents impaired investments or those overdue more than one month. Equity investments are listed in the category of indefinite.

The following tables provide an analysis of the contractual undiscounted cash flow of the non-derivative financial liabilities and off-balance sheet credit commitments by remaining contractual maturities at 31 December 2020 and 2019:

51. FINANCIAL RISK MANAGEMENT (Continued)

(d) Operational risk

Operational risk refers to the risk of losses associated with internal processes deficiencies, personnel mistakes and information system failures, or impact from other external events.

The Group establishes a framework of policies and procedures to identify, assess, control, manage and report operational risk. The framework covers all business functions ranging from corporate banking, retail banking, settlement, intermediary business and all supporting functions, including human resource management, financial management, legal affairs, anti-money laundering and administration management. The key elements of the framework are listed as below:

- A multi-level operational risk management framework with segregation of duties between front and back offices under the leadership of senior management;
- A series of operational risk management policies covering all businesses on the basis of core operational risk management policy;
- An emergency plan and a business continuity system designed to deal with emergent and adverse circumstances, including public relation issues, natural disasters, IT system errors, bank runs, robberies, etc.;
- An evaluation system on the operational risk management as well as an inquiry and disciplinary system on the non-compliance issues; and
- An independent risk assessment framework based on the internal audit and the compliance review.

52. FAIR VALUE OF FINANCIAL INSTRUMENTS

(a) Methods and assumptions for measurement of fair value

The Group adopts the following methods and assumptions when evaluating fair values:

(i) *Debt securities*

Fair values of debt securities investments are determined with reference to the available market values. If quoted market prices are not available, then fair values are estimated on the basis of policy models or discounted cash flows.

(ii) *Receivables and other non-derivative financial assets*

Fair values are estimated as the present value of the future cash flows, discounted at the market interest rates at the end of the reporting period.

(iii) *Debt securities issued and other non-derivative financial liabilities*

Fair values of debt securities issued are based on the present value of estimated future cash flows at the end of the reporting period. The fair values of other non-derivative financial liabilities are valued at the present value of estimated future cash flows. The discount rates are based on the market interest rates at the end of the reporting period.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

52. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

(b) Fair value measurement

(i) Financial assets

The Group's financial assets mainly consist of cash and deposits with the central bank, receivables with banks and other financial institutions, loans and advances to customers, and investments.

Deposits with the central bank and receivables with banks and other financial institutions are mostly priced at market interest rates and due within one year. Accordingly, the carrying amounts approximate the fair values.

Loans and advances to customers are mostly priced at floating rates close to the PBOC rates. Accordingly, the carrying amounts approximate the fair values.

Financial assets at FVTPL and financial assets at FVTOCI are stated at fair value. The carrying amount of financial assets at amortised cost approximates their fair values.

(ii) Financial liabilities

The Group's financial liabilities mainly include borrowing from the central bank, deposits and placements from banks and other financial institutions, financial assets sold under repurchase agreements, deposits from customers and debts securities issued.

The carrying amounts of financial liabilities are approximate to their fair value.

Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2020

52. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

(c) Fair value hierarchy

The following table presents the carrying value of financial instruments measured at fair value in the consolidated statements of financial position across the three levels of the fair value hierarchy. The level in the fair value hierarchy within which the fair value measurement is categorised is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. These three types of inputs have created the following fair value hierarchy:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for assets or liabilities that are not based on observable market data (unobservable inputs).

If there is a reliable market quote for financial instruments, the fair value of financial instruments is based on quoted market prices. If a reliable quoted market price is not available, the fair value of the financial instruments is estimated using valuation techniques. Valuation techniques applied include reference to the fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models. The inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and foreign exchange rates. Where discounted cash flow analysis is used, estimated cash flows are based on management's best estimates and the discount rate used is reference to another instrument that is substantially the same.

52. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

(c) Fair value hierarchy (Continued)

During the year ended 31 December 2020 and 2019, there were no significant transfers among each level.

- (i) The Group uses valuation techniques to determine the fair value of financial instruments when open quotation in active markets is not available. The main parameters used in valuation techniques for financial instruments held by the Bank include bond prices, interest rates, foreign exchange rates, equity and stocks prices, volatilities, correlations, early repayment rates, counterparty credit spreads and others, which are basically observable and obtainable from open market.
- (ii) The valuation techniques and input used in the fair value measurements of financial instruments as set out below:

Financial assets	Fair value as at ,		Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable input(s)	Relationship of key inputs and significant unobservable inputs to fair value
	31 December 2020	31 December 2019				
	RMB'000	RMB'000				
Financial assets at FVTPL						
Debt instruments	2,021,707	8,332,759	Level 2	Based on valuation results provided by China Central Depository & Clearing Co., determined by using discounted cash flow model	N/A	N/A
Unlisted equity investments measured at FVTPL	967,530	1,058,639	Level 3	Market approach adopted. The value is based on price-to-book ratio ("PB ratio"), adjusted by discount for lack of marketability ("DLOM").	The PB ratio is 0.98 (2019: 1.34). The DLOM is 10% (2019: 10%).	The higher the PB ratio, the higher the fair value. The higher the DLOM, the lower the fair value. (Note (i))

52. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

(c) Fair value hierarchy (Continued)

- (ii) The valuation techniques and input used in the fair value measurements of financial instruments as set out below: (Continued)

Notes:

- (i) A 5% increase in PB ratios used in isolation would result in an increase in fair value measurement of unlisted equity investments at FVTPL by RMB27,268,000 (2019: RMB52,932,000) and vice versa.
A 0.5% increase in DLOM used in isolation would result in a decrease in fair value measurement of unlisted equity investments at FVTPL by RMB3,030,000 (2019: RMB5,881,000) and vice versa.
- (ii) A 5% increase in PB ratios used in isolation would result in an increase in fair value measurement of unlisted equity investments at FVTOCI by RMB2,322,000 (2019: RMB7,264,000) and vice versa.
A 0.5% increase in DLOM used in isolation would result in a decrease in fair value measurement of unlisted equity investments at FVTOCI by RMB258,000 (2019: RMB807,000) and vice versa.

Reconciliation of Level 3 fair value measurements of financial assets:

	Unlisted equity investment		Total RMB'000
	Financial assets at FVTPL	Financial assets at FVTOCI	
	RMB'000	RMB'000	
At 1 January 2019	1,017,382	144,617	1,161,999
Fair value gain recognised in profit or loss	41,257	—	41,257
Fair value gain recognised in OCI	—	668	668
At 31 December 2019	1,058,639	145,285	1,203,924
Fair value losses recognised in profit or loss	(41,049)	—	(41,049)
Fair value gain recognised in OCI	—	8,107	8,107
Disposals	(197,075)	—	(197,075)
Transfer into of level 3 (Change in valuation methodology)	147,015	—	147,015
At 31 December 2020	967,530	153,392	1,120,922

The above fair value losses and gain of approximately RMB41,049,000 and RMB8,107,000 (2019: fair value gain of approximately RMB41,257,000 and RMB668,000) respectively are included in net trading gains and investment revaluation reserve for the year ended 31 December 2020.

The fair value of equity investment is determined with reference to price-to-book ratio of certain listed companies with an adjustment of discount for lack of marketability, which are unobservable inputs for the fair value measurement. The higher the discount for lack of marketability, the lower the fair value.

53. ENTRUSTED LENDING BUSINESS

The Group provides entrusted lending business services to customers. All entrusted loans are funded by entrusted funds from these customers. The Group does not take any credit risk in relation to these transactions. The Group acts as an agent to hold and manage these assets and liabilities at the direction of the entrustor and receives fee income for the services provided. The entrusted assets are not the assets of the Group and are not recognised in the statements of financial position. Surplus funding is accounted for as deposits from customers.

Entrusted funds	7,129,613	8,188,269

54. COMMITMENTS

(a) Credit commitments

The Group's credit commitments take the form of acceptances, letters of guarantees, letters of credit and unused credit card commitments.

The Group provides letters of guarantees and letters of credit to guarantee the performance of customers to third parties. Acceptances comprise of undertakings by the Group to pay bills of exchange drawn on customers. The Group expects most acceptances to be settled simultaneously with the reimbursement from the customers. The amounts disclosed in respect of unused credit card commitments are under the assumption that the amounts will be fully advanced.

	2020 RMB'000	2019 RMB'000
Acceptances	1,524,543	1,703,108

54. COMMITMENTS (Continued)

(a) Credit commitments (Continued)

The Group may be exposed to credit risk in all the above credit businesses. Group Management periodically assesses credit risk and makes provision for any probable losses. As the facilities may expire without being drawn upon, the total of the contractual amounts shown above is not representative of expected future cash outflows.

(b) Capital commitments

At 31 December 2020 and 2019, the Group's authorised capital commitments are as follows:

	2020 RMB'000	2019 RMB'000
Purchase of property and equipment – Contracted for but not provided	1,447	25,090

55. CONTINGENT LIABILITIES

The Bank and its subsidiary are involved as defendants in certain lawsuits arising from their normal business operations. At 31 December 2020 and 2019, in light of court decisions or advice from legal counsels, the directors of the Bank considered it not necessary to provide for potential losses from these claims. The directors of the Bank believe, based on legal advices, the final result of the lawsuits will not have any material impact on the financial position or operations of the Group.

3. International claims

The Group is principally engaged in business operations within Mainland China, and regards all claims on third parties outside Mainland China as international claims.

International claims include loans and advances to customers, balances with the central bank, deposit and placement with banks and other financial institutions.

A country or geographical area is reported where it constitutes 10% or more of the aggregate amount of international claims, after taking into account any risk transfers. Risk transfers are only made if the claims are guaranteed by a party in a country which is different from that of the counterparty or if the claims are on an overseas branch of a bank whose Head Office is located in another country.
