— The Board has resolved not to declare a final dividend for the year ended 31 December 2020.

CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the Board, I am pleased to present the annual results of the Group for the year ended 31 December 2020.

Review of and Annual Results for 2020

In 2020, the national real estate industry has been heavily impacted by the COVID-19 epidemic (the "**epidemic**"), with the overall sales performance of the real estate market being lower than that of the same period in 2018 and 2019. Year-round sales maintained negative growth over a long period of time, while growth for most real estate enterprises slowed down and faced higher pressure in inventory turnover and business operation. Meanwhile, in 2020, the PRC government has put forward the policy requirement of "Three Red Lines" for real estate enterprises. Under the capital control requirement of "Three Red Lines", the financing, investment and development pace of real estate enterprises have slowed down to varying degrees, reducing the capital bubble of real estate enterprises while enhancing the stable development of the real estate industry.

During the Reporting Period, the Group has been affected by the epidemic and regulatory policies, and the sales scale, construction area and financing speed have been appropriately reduced to ensure the smooth operation of the Group. The Group proactively made adjustments in response to market shifts according to analyses on changes in industry and market as well as interpretation on government policies. As the Group revised the management system during the year, it focused on adjusting the direction of product research and development and optimizing product design as its major business direction, analysing market demands and enhancing product quality in order to enhance the Group's market competitiveness and achieve stable development of the Group 's operating results.

During the Reporting Period, the Group's contracted sales amounted to approximately RMB922.2 million, representing a decrease of approximately 57.0% as compared with the same period last year; the Group's total contracted GFA amounted to approximately 137,480 sq.m., representing a decrease of approximately 45.4% as compared with the same period last year.

During the Reporting Period, the Group recorded a revenue of approximately RMB1,207.5 million, representing a decrease of approximately 7.6% as compared with the same period last year, among which, revenue from property development was approximately RMB1,180.8 million, representing a decrease of approximately 6.5% as compared with the same period last year. Profit attributable to the owners of the Group for the year was approximately RMB206.7 million, representing an increase of approximately 95.0% as compared with the same period last year, which was mainly attributable to the higher profit margin of the projects of land parcel B of Yosemite Valley Town-Taiyuan and Phase II of Chang Xing Star Gardens in Mianyang, and gain on disposal of an associate.

As at the end of the Reporting Period, the Group's land bank was approximately 2,742,730 sq.m.

Final Dividend

The Board has resolved not to declare a final dividend for the year ended 31 December 2020.

Prospect for 2021

In 2020, the real estate industry was in a downturn. As the impact of the epidemic has not completely eliminated, it is expected that the domestic real estate market will still be tested in 2021. Under the backdrop of a slowdown in the growth of the industry as a whole, the impacts of the epidemic and "Three Red Lines" will further test the operational strength of real estate enterprises. Therefore, preventing risks and adapting to market adjustments are our major development direction. In accordance with in-depth analyses of the real estate market and the development of the Group, the Group will continue to focus on stable development as a key development strategy in 2021, deepen its development on existing projects, optimize product design, enhance the operational capability of regional projects and strengthen the Group's defense against market risks and core competitiveness by adjustments in product strategies.

In 2021, the Group will focus on product research and development as well as design. As there are numerous existing products of the same category in the market, the product competition pressure arises from product homogeneity. Therefore, based on the analysis of existing products in the market, the Group will put emphasis on optimizing its product design and enhancing product quality in all aspects. In addition to creating mainstream products with rigid demands, we will focus on creating improvement products through product design concepts, material choice for construction and product services, in order to win market approval through improvement in product quality, enhance the Group's corporate and product competitiveness, and gain development opportunities and market competitive advantages.

With regards to market analysis, the domestic consumption structure has been gradually changing as the consumption market puts more emphasis on the characteristics and changing trends of customer demands. The Group will conduct in-depth research on the real estate industry and the real estate market, strengthen the market analytic capability and product planning capability of the Company's management, enhance the accuracy in market analysis, and provide precise and effective information assurance for the product research and development as well as operation and management of the Group.

ACKNOWLEDGMENT

Finally, I would like to express my sincerest gratitude, on behalf of the Board, to the management and all employees of the Company for their hard work. Meanwhile, I would also like to thank the investors, customers and partners for their unfailing support and trust in the Group.

Chairman

(3) On 28 September 2017, Hainan Provincial People's Government issued the "Hainan Provincial People's Government's Opinion on Further Deepening the Policy of 'Two Suspensions' to Promote the Steady and Healthy Development in Real Estate" (《海南省人民政府關於進一步深化「兩個暫停」政策促進房地產業平穩健康發展的意見》) (Qiong Fu [2017] No. 76), and proposed "to permanently suspend the construction of new real estate projects for foreign sale in four central ecological core areas of Wuzhishan, Baoting, Qiongzhong and Baisha; while the Provincial Housing and Urban-Rural Development Department would work together with the Provincial Planning Commission, the Provincial Department of Land Resources and other departments to formulate another implementation plan with consideration of the situation of commercial residential land use in the central ecological core area of the four cities and counties, which will be promulgated for implementation after approval by the Provincial Government." "Cities and counties, especially the four central ecological core areas, are encouraged to regulate the use of land in accordance with the law, re-direct the existing supply of commercial residential land to the development in business operation properties such as tourism, culture, education, medical care, health care and commercial use, and promote the transformation of property development. For the existing commercial residential land that cannot be used for residential development due to the factors of planning adjustment, the municipal and county governments can use different approaches in accordance to the laws, including the recovery of land use rights, replacement, extension of the limitation on construction period and arrangement of temporary use, etc."

As at this moment, the government has not yet to release its implementation plan. The Group's Wuzhishan project is affected by the policy and there is uncertainly with its subsequent development.

FINANCIAL REVIEW

Revenue

During the Reporting Period, the Group's revenue amounted to approximately RMB1,207.5 million, representing a decrease of approximately 7.6% as compared with approximately RMB1,307.1 million in the same period last year. The decrease was mainly due to the decrease in GFA of completed properties delivered by the Group during the Reporting Period.

During the Reporting Period, the Group's revenue from property development amounted to approximately RMB1,180.8 million, representing a decrease of approximately 6.5% as compared with the same period last year. The decrease was mainly due to the decrease in GFA of completed properties delivered by the Group during the Reporting Period.

Sales and Services Cost

The Group's sales and services cost decreased by approximately 22.2% from approximately RMB955.6 million for the year ended 31 December 2019 to approximately RMB743.6 million for the Reporting Period, the decrease of which was mainly due to a corresponding decrease in cost of sales and services with the decrease in revenue.

Gross Profit

During the Reporting Period, the Group's gross profit was approximately RMB463.9 million, representing an increase of approximately 32.0% as compared with approximately RMB351.5 million in the same period last year. During the Reporting Period, the gross profit margin was approximately 38%, as compared with approximately 27% in the same period last year.

During the Reporting Period, the Group's gross profit from property development was approximately RMB457.3 million, representing an increase of approximately 35.3 % as compared with approximately RMB338.1 million in the same period last year, which was mainly due to the increase in the selling prices of newly delivered projects.

During the Reporting Period, the Group's gross profit margin of property development was approximately 39%, representing an increase of approximately 12% as compared with approximately 27% in the same period last year.

Other Income and Gains

During the Reporting Period, the Group's other income and gains were approximately RMB93.0 million, representing an increase of approximately 133.7% as compared with approximately RMB39.8 million in the same period last year. The increase was primarily due to the investment gain from the disposal of an associate during the year.

Net Profit Attributable to Owners of the Company

During the Reporting Period, the net profit attributable to owners of the Company was approximately RMB206.7 million, representing an increase of approximately 95.0% from approximately RMB106.0 million in the same period last year. The increase in the net profit attributable to owners of the Company was mainly due to the increase in gross profit and other income and gains.

Change in Fair Value of Investment Properties

The fair value of the Group's investment properties decreased by approximately 2.1% from approximately RMB141 million as at 31 December 2019 to approximately RMB138 million as at 31 December 2020, and the decrease was primarily due to the impairment of Grand International Mall & Apartments and Office Building of West Yingbin Street.

Selling and Distribution Expenses

The Group's selling and distribution expenses decreased by approximately 34.4% from approximately RMB77.6 million for the year ended 31 December 2019 to approximately RMB50.9 million for the Reporting Period, and the decrease was primarily due to the decrease in advertising and publicity expenses during the Reporting Period.

Administrative Expenses

The Group's administrative expenses decreased by approximately 17.4% from approximately RMB82.2 million for the year ended 31 December 2019 to approximately RMB67.9 million for the Reporting Period, and the decrease was primarily due to the decrease in legal service fees and entertainment expenses during the Reporting Period.

Finance Costs

The Group's financing expenses decreased by approximately 82.9% from approximately RMB22.2 million for the year ended 31 December 2019 to approximately RMB3.8 million for the Reporting Period, and the decrease was primarily due to the repayment of loans.

Income Tax Expenses

The Group's income tax expenses increased by approximately 99.9% from approximately RMB88.7 million for the year ended 31 December 2019 to approximately RMB177.3 million for the Reporting Period, and the increase was primarily due to the increase in profit before tax.

Total Profit and Comprehensive Income for the Year

As a result of the foregoing, the Group's total profit and comprehensive income for the year increased by approximately 362.5% from approximately RMB50.6 million for the year ended 31 December 2019 to approximately RMB234.0 million for the Reporting Period.

Cash Position

As at the end of the Reporting Period, the Group's cash and cash equivalents were approximately RMB534.1 million, representing a decrease of approximately 51.8% as compared to approximately RMB1,107.2 million as at 31 December 2019, and the decrease was primarily due to the payment for construction costs and the repayment of loans during the Reporting Period.

Net Operating Cash Flow

The Group recorded a negative operating cash flow of approximately RMB406.3 million as at the end of the Reporting Period, while the Group recorded a negative operating cash flow of approximately RMB1,501.3 million as at 31 December 2019.

Borrowings

The Group had outstanding bank borrowings of approximately RMB2,740.9 million as at the end of the Reporting Period while the Group had outstanding bank borrowings of approximately RMB2,816.0 million as at 31 December 2019.

Pledged Assets

Certain of the Group's borrowings were secured by completed properties held for sale, properties under development, investment properties, as well as buildings, or a combination of the above items. As at the end of the Reporting Period, the assets pledged to secure certain borrowings granted to the Group amounted to approximately RMB879.7 million.

Financial Guarantees and Contingent Liabilities

In line with the market practice, the Group has entered into agreements of arrangements with various banks for the provision of mortgage financing to its customers. The Group does not conduct any independent credit checks on customers, but relies on the credit checks conducted by mortgagee banks. As with other PRC property developers, the banks usually require the Group to guarantee its customers' obligations to repay the mortgage loans on the properties. The guarantee period normally lasts until the bank receives the strata-title building ownership certificate (分戶產權證) from the customer as security of the mortgage loan granted. As at the end of the Reporting Period, the Group's outstanding guarantees in respect of the mortgages of its customers amounted to approximately RMB2,477.5 million.

During the Reporting Period, the Group had no material contingent liabilities.

Gearing Ratio

As at the end of the Reporting Period, based on the Group's total debt of approximately RMB2,740.9 million and total equity of approximately RMB1,609.6 million, the gearing ratio of the Group was approximately 170% (31 December 2019: approximately 205%). Gearing ratio is calculated by dividing total debt over total equity, and total debt includes interest-bearing bank and other borrowings. The decrease in gearing ratio was mainly due to the decrease of interest-bearing bank borrowings and the increase of net profit.

Foreign Currency Risk

The Group operates primarily in the PRC and most of its revenues and expenses are settled in RMB. The Group is exposed to foreign currency risks because its bank balances are denominated in HK dollar and the value of which will fluctuate with exchange rate fluctuations. The exchange rate between RMB and HK dollar may fluctuate as a result of various factors, such as changes in China's political and economic conditions. The Board expects that the fluctuation of the RMB exchange rate will not have a material adverse effect on the Group. The Group does not have a hedging policy in relation to the foreign currency risk.

Material Acquisitions and Disposals and Material Investments

On 30 October 2020, Chenxing Real Estate Development Co, Ltd. (辰興房地產發展有限公司) ("**Chenxing Real Estate**"), a wholly-owned indirect subsidiary of the Company, entered into an equity transfer agreement with Xishuangbanna Global Sunac Tourism Development Co., Ltd. On 27 October 2020, Chen Xing International Holdings Limited ("**Chen Xing International**"), a wholly owned indirect subsidiary of the Company and Banyan Tree Hotels & Resorts Pte. Ltd. ("**Banyan Tree Group**") entered into a strategic cooperation agreement. Chen Xing International and Banyan Tree Group will cooperate in strategic operation and both parties will fully leverage their advantages in expertise, operation and management in their respective business areas and explore cooperation opportunities in the development and operation of real estate, hotels and other related projects, and any cooperation in China will exclusively be with Banyan Tree Hotel Management (Tianjin) Limited. The entering into the strategic cooperation agreement with Banyan Tree Group is beneficial to the business development of the Company and is the interest of the Company and its shareholders as a whole. For details of the strategic cooperation agreement, please refer to the Company's announcements dated 27 October 2020 and 13 November 2020.

Significant Investments held

The Group did not have any significant investments held as at 31 December 2020.

Events after the Reporting Period

Save as disclosed in this annual report, as at the date of this annual report, the Group has no other significant events that require additional disclosures or adjustments occurred after the financial year ended 31 December 2020.

Future Plans for Material Investments or Capital Assets

The Company will continue to invest in property development projects and acquire suitable land parcels in selected cities as appropriate. Internal resources and bank borrowings are expected to be sufficient to meet the necessary funding needs. Save as disclosed in the prospectus of the Company dated 22 June 2015 and above, the Group has no future plans of material investment as at the date of this annual report.

Employees and Remuneration Policies

As at the end of the Reporting Date, the Group had 309 employees. During the Reporting Period, the Group had incurred the employee costs of approximately RMB48.1 million. Employee compensations generally include salaries and quarterly performance bonuses. As required by applicable PRC laws and regulations, the Group participates in various employee benefit plans of the municipal and provincial governments, including housing provident funds, pension, medical, maternity, occupational injury and unemployment benefit plans.

ANNUAL GENERAL MEETING

The annual general meeting of the Company (the "**AGM**") will be convened on Friday, 28 May 2021, a notice of which will be published and delivered to the Company's shareholders at the appropriate time.

FINAL DIVIDEND

DIRECTORS' REPORT

The Board is pleased to present the annual report and audited consolidated financial statements of the Group for the year ended 31 December 2020.

PRINCIPAL BUSINESS

The Company is an investment holding company. Its principal subsidiaries are engaging in property development operations in China, and focusing mainly on the development of residential and, to a less extent, commercial property development projects.

An analysis of the revenue generated by the principal business of the Group for the Reporting Period is set out in note 5 to the consolidated financial statements.

RESULTS

The results of the Group for the Reporting Period are set out in the consolidated statement of comprehensive income on page 287.

BUSINESS REVIEW AND FUTURE DEVELOPMENTS

For detailed discussions on business review for the year and future developments of the Group, please refer to pages 202 to 204 of the chairman's statement. The Group's financial risk management objectives and policies are set out in note 42 to the consolidated financial statements.

The Group's analysis of its annual performance using financial key performance indicators is set out in pages 205 to 219 of management discussion and analysis.

PERMITTED INDEMNITY CLAUSE

During the Reporting Period, pursuant to the articles of association of the Company ("**Articles of Association**"), all legal costs, expenses, fees, losses, damages and expenditures incurred during the performance of duties by Directors of the Company may be indemnified by the assets and profits of the Company.

ENVIRONMENTAL POLICY AND PERFORMANCE

The Group continued to use new environmental construction materials in order to meet or stay ahead of environmental standards. The Group kept on strengthening its management of construction sites of on-going projects by controlling and reducing dust and noise pollutions. The Group has implemented energy saving and water conservation measures persistently in office premises, and continued the internal recycling plans for consumables (such as paper, etc.) to reduce the impact of operations on the environment and natural resources.

COMPLIANCE WITH LAWS AND REGULATIONS

The Group always upholds the importance of understanding and compliance with the requirements of laws and regulations, non-compliance with the relevant laws and regulations may render the Group's normal operation. The Group has a designated legal department to exercise comprehensive management and control over the Company's sustainable and legal operations. Through effective communication, good working relationship has been maintained with various regulatory authorities.

During the Reporting Period, the Group did not have any events of non-compliance which had a material adverse impact on the Company.

MAJOR RISKS AND UNCERTAINTIES

The Group's businesses are mainly located in Jinzhong and Taiyuan in Shanxi Province, Mianyang in Sichuan Province, Haikou and Wuzhishan in Hainan Province and Xishuangbanna Autonomous Prefecture in Yunnan Province in China. As the development target of the Group is to further penetrate the markets in Shanxi Province, central and western China and southern China, the operations of the Group are highly dependent on the performance of the real estate markets in these areas.

The real estate market in China has been growing rapidly over the years. However, as the concerns over people's purchasing power and sustainability of growth continue to mount in the market, and the divergence of property markets between ultra-large cities in the eastern region and small and medium-sized cities in the central and western regions become more intense, there may be uncertainties which impact the business of the Group.

RELATIONSHIP WITH SIGNIFICANT STAKEHOLDERS

The Group's success is also dependent on the support of the employees, customers, suppliers and shareholders of the Group.

Employees

The Group's employees are regarded as the most important and most valuable assets of the Group. The most important objective of the Group's human resources management is to reward the employees with outstanding performance through proper compensation and benefits and implementation of a comprehensive appraisal and evaluation system. With proper training and development, the Company's employees are provided with opportunities for career development and promotions.

Customers

Most of the Group's customers are home purchasers. The Group strives to develop high quality residential properties for the improvement of the customers' quality of living.

In order to fulfill the Group's commitment for enhancing customer satisfaction persistently, the Group ensures to adopt the best concepts and use products of the highest qualities in development projects. In terms of customer service, the Group has always focused on the overall qualities of frontline staff by providing them with regular training to ensure consistently high service quality.

Suppliers

The service providers of the Group are mainly construction companies and suppliers of construction materials. The Group has good cooperation relationship with all the suppliers, and has signed strategic cooperation agreements with a number of high quality suppliers to ensure higher quality in construction work and materials supplied. The Group upholds the win-win principle to achieve common growth together with the suppliers.

Shareholders

One of the important corporate objectives of the Group is to maximize the value created for Shareholders. The Group continues to promote business developments for the sustainable growth in profits. The Group will strive to deliver stable dividends for the Shareholders, after considering the adequacy of capital, liquidity conditions and requirements for business development of the Group.

DIVIDEND POLICY

The Company aims to provide stable and sustainable returns to the Shareholders of the Company and strives to maintain a stable dividend policy.

Any declaration of dividends will be proposed by the Board and the amount of any dividends will depend on various factors, including, among others, the following:

- market conditions;
- the strategic plans and prospects of the Company;
- the business opportunities of the Company;
- the profit and financial position of the Company;
- the working capital requirements and anticipated cash needs of the Company;
- the contractual restrictions and obligations of the Company;
- payments by subsidiaries of cash dividends to the Company;
- legal, tax and regulatory restrictions; and
- any other factors as the Directors may deem relevant.

Subject to the Cayman Islands Companies Law and the Articles of Association, the Company may declare dividends through a general meeting in any currency but no dividend shall be declared in excess of the amount recommended by the Board. The Articles of Association provides that dividends may be declared and paid out of profit, realized or unrealized, or from any reserve set aside from profits at the Directors' discretion. With the sanction of an ordinary resolution, dividends may also be declared and paid out of the Company's share premium account or any other fund or account authorised for this purpose in accordance with the Cayman Islands Companies Law and the Articles of Association.

The Board may from time to time pay dividends to the Shareholders as considered by the Board to be justified by the profits of the Group.

FINAL DIVIDEND

The Board resolved not to declared the payment of final dividend for the year ended 31 December 2020.

ANNUAL GENERAL MEETING

The annual general meeting of the Company (the "**AGM**") will be convened on Friday, 28 May 2021, a notice of which will be published and delivered to the Company's shareholders at the appropriate time.

SHARE CAPITAL

The Company allotted and issued 99,999,989 ordinary shares of the Company (the "**Rights Issue**") by way of the Rights Issue on 7 March 2019. For details of the Rights Issue, please refer to the announcements of the Company dated 11 January and 6 March 2019 and the prospectus of the Company dated 13 February 2019.

As at 31 December 2020, the total number of issued shares of the Company was 599,999,989 shares with a total share capital of RMB4,855,000.

USE OF PROCEEDS FROM THE RIGHTS ISSUE

On 7 March 2019, the Company completed a Rights Issue pursuant to which the Company has issued 99,999,989 ordinary shares of the Company at HK$1.50 per rights share on the basis of one rights share for every five the then shares held on 11 February 2019. Valid applications and acceptances in respect of a total of 130,896,578 rights shares had been received, representing approximately 130.9% of the 99,999,989 total number of rights shares available for subscription under the rights issue. The closing price per Share as quoted on the Stock Exchange on the last trading day (11 January 2019) was HK$1.59. The Directors believe that the Rights Issue will better enhance the Company's ability to fund and develop the Group's business.

The net proceeds of the Rights Issue of the Company (after deducting professional fees and other related expenses) were approximately HK$147.31 million (equivalent to approximately RMB125.58 million based on the exchange rate of RMB1 to HK$1.173). The net proceeds from the Rights Issue are to be used in the following manner:

Intended use	Percentage (%)	Amount of proceeds (HK$ million)	Amount utilised as at 31 December 2020 (HK$ million)	Amount not utilised as at 31 December 2020 (HK$ million)
Used to pay for the unpaid registered capital of Jinzhong Chen Xing Hui for future investment opportunities (if appropriate opportunities arise) in Jinzhong Chen Xing Hui's construction materials and decorative materials trading business	82.11	120.95	110.00	10.95
Used as the Company's general working capital	17.89	26.36	—	26.36

As at 31 December 2020, the Company utilised HK$110.0 million, representing approximately 74.7% of the net proceeds from the Rights Issue. In view of the slowdown in growth of the global economy and the outbreak of COVID-19, the Company has been taking a more prudent approach in the utilisation of the unutilised proceeds from the Right Issues, resulting in a delay in the utilisation of the use of proceeds. Subject to further weakening of COVID-19 pandemic, the Directors expect the unutilised proceeds will be fully utilised by end of 2021.

EQUITY-LINKED AGREEMENT

Apart from the share option scheme, the Company did not enter into any equity-linked agreement.

REMUNERATION POLICY

The Group has established the Remuneration Committee to review the remuneration policy and structure of the Group for the remuneration of all Directors and the senior management of the Group after considering the operating results of the Group, individual performance and contribution, time commitment and responsibilities of the Directors and senior management as well as the remuneration paid by comparable companies.

The Group has formulated and implemented remuneration policies to motivate employees and, in turn, support the long-term development of the Group. Such policies are consistent with the business strategies and development objectives of the Group, which will be helpful in attracting and retaining professional employees with the relevant knowledge and skills.

SHARE OPTION SCHEME

The Company has adopted a share option scheme (the "**Share Option Scheme**") on 12 June 2015. Since the adoption, the Company has not granted any share options under the Share Option Scheme.

A summary of the key terms of the Share Option Scheme is set out below. The terms of the Share Option Scheme have complied with the requirements of Chapter 17 of the Listing Rules.

(a) Purpose

The Share Option Scheme is a share incentive scheme and is established to recognize and acknowledge the contributions Eligible Participants (as defined in paragraph (b) below) had or may have made to the Group. The Share Option Scheme will provide Eligible Participants an opportunity to have a personal stake in the Company with the view to achieving the following objectives: (i) motivate Eligible Participants to optimize their performance efficiency for the benefit of the Group; and (ii) attract and retain or otherwise maintain on-going business relationship with Eligible Participants whose contributions are or will be beneficial to the long-term growth of the Group.

(b) Eligible Participants

The Board may, at its discretion and subject to such conditions as it thinks fit, offer to grant share options to the following persons (collectively, the "**Eligible Participants**"):

(i) any full-time or part-time employees, executives or officers of the Company or any of its subsidiaries;

(ii) any Directors (including executive, non-executive Directors and independent non-executive Directors) of the Company or any of its subsidiaries;

(iii) any advisers (professional or otherwise), consultants, suppliers, customers and agents to the Company or any of its subsidiaries; and

(iv) related entities who, in the sole opinion of the Board, will contribute or have contributed to the Company or any of its subsidiaries.

(c) Total number of shares that may be issued

The maximum number of shares that may be issued pursuant to the Share Option Scheme is 50,000,000 shares, equivalent to 10% of the issued shares of the Company after completion of the global offering and 8.33% of the issued shares of the Company as at the date of this annual report.

(d) Maximum number of options granted to any individual

The maximum number of shares issued and which may fall to be issued upon exercise of the options granted under the Share Option Scheme and any other share option schemes of the Company (including exercised, cancelled and outstanding options) to each Eligible Participant in any 12-month period shall not exceed 1% of the shares in issue of the Company.

Any further grant of options in excess of the above limit shall be subject to separate approval by the Shareholders in a general meeting (such Eligible Participants and their associates are required to abstain from voting), and shall comply with other requirements prescribed under the Listing Rules and/or other applicable statutory regulations or rules.

(e) Maximum number of options granted to connected persons

Any grant of options to a Director, chief executive or substantial Shareholder (as defined in the Listing Rules) of the Company or any of their respective associates (as defined in the Listing Rules) is required to be approved by the independent non-executive Directors (excluding any independent non-executive Director who is the grantee of the options).

If the Board determines to grant options to a substantial Shareholder or any independent non-executive Director or any of their respective associates, the maximum number of shares issued and to be issued upon exercise of the options granted under the Share Option Scheme and any other share option scheme of the Company (including exercised, cancelled and outstanding options) to each substantial Shareholder or any independent non-executive Director or any of their respective associates in any 12-month period shall not exceed 0.1% of the shares in issue of the Company or such other percentage as may be from time to time provided under the Listing Rules, and the aggregate value calculated based on the closing price of the shares of the Company as stated in the daily quotation sheets of the Stock Exchange as at each date of grant shall not exceed HK$5,000,000 or such other amount as may be from time to time provided under the Listing Rules.

If any further grant will exceed the above limit on options, such further grant shall be subject to a separate approval by the Shareholders in a general meeting (such Eligible Participants and their associates shall abstain from voting), and shall comply with other requirements prescribed under the Listing Rules and/or other applicable statutory regulations or rules.

(f) When the options may be exercised

An option may be exercised in accordance with the terms of the Share Option Scheme at any time after the date upon which the option is deemed to be granted and accepted and prior to the expiry of 10 years from that date.

The period during which an option may be exercised will be determined by the Board in its absolute discretion, save that no option may be exercised more than 10 years after it has been granted.

(g) Required minimum holding period before the exercise of an option

There is no minimum holding period required before an option may be exercised.

(h) Acceptance of offer

Upon acceptance of an option, the grantee shall pay HK$1.00 to the Company as consideration for the grant.

(i) Basis for the determination of the exercise price

The share subscription price in respect of any specific option granted under the Share Option Scheme shall be determined at the sole discretion of the Board on the relevant price, but such price shall not be less than the highest of the following:

(i) the official closing market price of the shares as stated in the daily quotation sheet of the Stock Exchange as at the date of grant, which must be a day when the Stock Exchange is open for securities trading business);

(ii) the average official closing market price of the shares as stated in the daily quotation sheets of the Stock Exchange for five business days immediately before the date of grant; and

(iii) par value of the shares.

(j) Residual term of the Share Option Scheme

The Share Option Scheme shall remain valid until 11 June 2025. Unless its early termination is approved by the general meeting of Shareholders or by the Board of the Company, the Share Option Scheme shall remain valid and effective for a period of 10 years from the date when it was adopted.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES OF THE COMPANY

During the Reporting Period, neither the Company or any of its subsidiaries has purchased, sold or redeemed any listed securities of the Company.

PRE-EMPTIVE RIGHTS

There is no provision for pre-emptive rights under the Articles of Association or the laws of Cayman Islands that will oblige the Company to offer new shares to the existing Shareholders on a pro-rata basis.

CORPORATE GOVERNANCE

The Company is dedicated to maintain a high standard in corporate governance practice. Save as disclosed in this report, the Company has complied with the code provisions under the Corporate Governance Code contained in Appendix 14 to the Listing Rules during the Reporting Period. Information about the corporate governance practice adopted by the Company is set out in Corporate Governance Report on page 241 of this annual report.

SUFFICIENCY OF PUBLIC FLOAT

CORPORATE GOVERNANCE REPORT

The Board is pleased to present the corporate governance report of the Company for the year ended 31 December 2020.

CORPORATE GOVERNANCE PRACTICE

The Company is always committed to maintain high standard of corporate governance with a view to assuring the conduct of management of the Company and protecting the interests of the Shareholders. The Company is fully aware that transparency and accountability in corporate governance are crucially important to the Shareholders. The Board considers that sound corporate governance can maximize Shareholders' interests.

The Company has adopted the Corporate Governance Code (the "**CG Code**") as set out in Appendix 14 to the Rules (the "**Listing Rules**") Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**") as its own code of corporate governance. During the Reporting Period, save as disclosed below, the Company had complied with all the code provisions under the CG Code.

On 30 November 2020, Mr. Gu Jiong ("**Mr. Gu**") resigned as an independent non-executive director of the Company, the chairman of the audit committee, the member of each of the remuneration committee and nomination committee of the Company due to his other business commitments. Following the resignation of Mr. Gu, the Board fails to meet the requirements of having: (i) at least three independent non-executive directors on the Board under Rule 3.10(1) of the Listing Rules; (ii) the audit committee comprising only non-executive directors with a minimum of three members; (iii) at least one of whom is an independent non-executive director with appropriate professional qualifications or accounting or related financial management expertise under Rule 3.10(2) of the Listing Rules; and (iv) any of the other requirements set out in Rule 3.21 regarding the audit committee under Rule 3.23 of the Listing Rules.

On 26 February 2021, the Board appointed Ms. Gao Jianhua as an independent non-executive director and member of each of the audit committee, remuneration committee and nomination committee of the Company. On the same day, Mr. Tian Hua was appointed as the chairman of the audit committee. Since then, the Company has complied with the requirement of Rules 3.10, 3.10A, 3.21 and 3.25 of the Listing Rules and code provision A.5.1 of the CG Code.

The Company shall review and strengthen its corporate governance practice from time to time, and strengthen internal control with the help of its PRC and Hong Kong legal advisors, so as to ensure compliance with the Corporate Governance Code.

The Board consists of four executive Directors and three independent non-executive Directors. The Board is responsible for the operation and coordination of the development of the Company and monitoring the Company's business, strategic decisions and performance, and has full and timely access to all relevant information in relation to the Company's businesses and affairs, while the day-to-day management is delegated to the management of the Company. The independent non-executive Directors possess professional qualifications and related management experience in the areas of financial accounting, corporate governance, etc. and have contributed to the Board with their professional opinions.

Mr. Bai Xuankui ("**Chairman Bai**") is an executive director and the chairman of the Board. He is responsible for the management of the Board and the overall strategic planning, business development and corporate governance functions. The Company believes that Chairman Bai's servicing as Director and Chairman since the establishment of the Company is conducive to the Company's formulating a correct development strategy. In terms of business operations, the Company's senior management, which comprises experienced and high caliber individuals from various sectors, will ensure decisions made by the Board be thoroughly implemented.

THE BOARD

Duties

The Board is responsible for the operation and planning of the Group's development. It oversees the business, strategic decision-making and performance of the Group and timely understands all relevant information of the Group's business. The Board has delegated the day-to-day management and operation powers and duties to the senior management. For overseeing particular areas of affairs of the Company, the Company has established three Board committees, namely the Audit Committee, the Remuneration Committee and the Nomination Committee (together, the "**Board Committees**"). The Board has delegated to the Board Committees duties as set out in their terms of reference. Some of the independent non-executive Directors have certain qualifications and relevant management experience on financial accounting and corporate governance aspects and provide professional opinions to the Board.

All the Board members should ensure that they shall exercise their duties with integrity and comply with applicable laws and regulations, which is all times in the interests of the Company and its Shareholders.

Composition of the Board

As at the date of this annual report, the Board comprises of four executive Directors (namely Mr. Bai Xuankui, Mr. Bai Wukui, Mr. Bai Guohua, and Mr. Dong Shiguang) and three independent non-executive Directors (namely Mr. Tian Hua, Mr. Qiu Yongqing and Ms. Gao Jianhua). The biographical details of each Director are set out in the "Biographical Details of Directors and Senior Management" section of this annual report.

Save as disclosed in this annual report, to the best knowledge of the Company, none of the Board members have any financial, business, family, or any other substantial relationships.

During the Reporting Period, except for the resignation of Mr. Gu Jiong as an independent non-executive Director of the Company on 30 November 2020, the Board has complied with the requirements under Rule 3.10(1) and Rule 3.10(2) of the Listing Rules that at least three independent non-executive Directors must be appointed and at least one of the independent non-executive Directors must have appropriate professional qualifications or accounting or related financial management expertise. The number of independent non-executive Directors accounts for one-third of the Board members, which complies with the requirement under Rule 3.10A of the Listing Rules. For details, please refer to P.241 of this report.

The Company has received confirmations from the independent non-executive Directors of their independence pursuant to Rule 3.13 of the Listing Rules. The Company considered all the independent non-executive Directors as independent.

All the Directors (including the independent non-executive Directors) have broad and valuable business experience, expertise and professional skills for the effective operation of the Board. The independent non-executive Directors are appointed as members of the Audit Committee, Remuneration Committee, and Nomination Committee.

Pursuant to code provision A.6.6 of the Corporate Governance Code, each Director should disclose to the issuer at the time of his appointment, and in a timely manner for any change, the number and nature of offices held in public companies or organisations and other significant commitments. The identity of the public companies or organisations and an indication of the time involved should also be disclosed. All Directors have consented to disclose to the Company for the above provision on a timely basis.

Chairman and Chief Executive Officer

The chairman and chief executive officer of the Company are Mr. Bai Xuankui and Mr. Bai Wukui, both being executive Directors, respectively. The separation of roles of Chairman and chief executive officer enables balance of power and delegations, preventing the job responsibilities be concentrated on either one of them. The chairman is responsible for leadership work and the effective operation of the Board, whilst the chief executive officer is delegated for the effective management of business of the Group. The separation of responsibilities between the chairman and the chief executive officer is clearly defined and set out in written form.

Directors' Training and Continuous Professional Development

All the Board members understand the responsibilities as Directors and the operation and business activities of the Company. The Company is responsible for arranging induction programmes, continuous training and professional development for the Directors, and providing funding therefor. Accordingly, the Company shall arrange induction programmes for any newly appointed Director before formal appointment, ensuring that he/she have certain understanding on the business and operations of the Group and be fully aware of the responsibilities and obligations set out in the Listing Rules and relevant laws and regulations.

The Company arranges seminars regularly, providing the Directors with the development and amendment updates of the Listing Rules and other relevant laws and regulations. The Directors also regularly receive updates on the performance, conditions and outlook of the Company to enable the Board to work as a whole and the Directors to exercise each of their own duties. The Company updates and provides written training materials about Directors' roles, functions and duties from time to time, and encourages Directors to read such materials. Each Director has to submit a training record each year.

During the Year, all Directors attended formal and all-rounded training. The Company has received each Director's training record for the Year.

Appointment and Re-election of Directors

The Nomination Committee is responsible for reviewing Board composition and monitoring the appointment, re-election and succession planning of Directors. Procedures and process for the appointment, re-election and removal of Directors are set out in the Articles of Association.

Each executive Director entered into service contract with the Company for a term of three years. The service contract can be terminated according to its terms.

Each independent non-executive Director entered into a letter of appointment with the Company for a term of three years. The service contract can be terminated according to its terms.

None of the Directors has entered into a service contract with the Group which is not terminable within one year without compensation (other than statutory compensation).

Pursuant to Article 84(1) of the Articles of Association, at each annual general meeting, one-third of the Directors for the time being (or, if their number is not a multiple of three (3), the number nearest to but not less than one-third) shall retire from office by rotation provided that every Director shall be subject to retirement at an annual general meeting at least once every three years.

Pursuant to Article 83(3) of the Articles of Association, any Director appointed by the Board to fill a casual vacancy shall hold office until the first general meeting of members after his appointment and be subject to re-election at such meeting and any Director appointed by the Board as an addition to the existing Board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for reelection.

Mr. Bai Xuankui and Mr. Qiu Yongqing will retire at the AGM in accordance with Article 84(1) of the Articles of Association and Ms. Gao Jianhua (appointed on 26 February 2021) will retire at the AGM in accordance with Article 83(3) of the Articles of Association, and all of them are eligible and offer themselves for re-election.

Board Meetings

The Company has adopted the practice of holding at least four regular Board meetings each year (approximately once in a quarter). Notice of regular Board meetings shall be distributed to all the Directors at least 14 days before the meeting. Discussion matters shall be set out in the agenda of each meeting. Notices of other Board Committee meetings shall normally be delivered according to the requirements of the terms of reference. Meeting agenda and relevant meeting papers shall be sent to the Directors and

Board Committee members at least 3 days before the meeting to ensure that they have adequate time for the review of the documents. If the Directors and the Board Committee members are unable to attend the meetings, they shall be notified of the discussion matters and provide their views to the chairman of meeting before the meeting. Minutes of Board meetings and Board Committee meetings shall be kept by the Company, a copy of which shall be circulated to the Directors and relevant Board Committee members for reference and for records.

Minutes of Board meetings and Board Committee meetings shall record the matters considered and the decisions reached in the meetings, including the questions raised by the Directors and the Board Committee members. Draft of the minutes of Board meetings and Board Committee meetings shall be provided to Directors and relevant Board Committee members in reasonable time for consideration and comments. The Directors are entitled to inspect the minutes of Board meetings and Board Committee meetings.

During the year, the Company held four Board meetings and one general meeting. Attendance of Directors at such meetings is set out in the following table:

Directors	Number of Board meetings attended/held during his/her tenure	Number of general meetings attended/held during his/her tenure
Mr. Bai Xuankui	4/4	1/1
Mr. Bai Wukui	4/4	1/1
Mr. Bai Guohua	4/4	1/1
Mr. Dong Shiguang	4/4	1/1
Mr. Tian Hua	4/4	1/1
Mr. Qiu Yongqing	4/4	1/1
Mr. Gu Jiong (resigned on 30 November 2020)	4/4	1/1

The Chairman of the Board convened a meeting with the independent non-executive Directors without the presence of the executive Directors during the Year.

COMPLIANCE WITH THE MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "**Model Code**") as set out in Appendix 10 to the Listing Rules as its own code of conduct for securities transactions by Directors. Having made specific enquiry to all Directors, all Directors confirmed that they have complied with the Model Code during the Reporting Period.

DELEGATION OF THE BOARD

The Board retains the decision making rights for major matters of the Company, including approving and monitoring all policy affairs, overall strategy and budget, internal control and risk management systems, major transactions (especially those with possible conflict of interests), financial information, appointment of directors and other major financial and operational matters. The Directors may seek independent professional advice when exercising their duties, the cost of which is borne by the Company. The Directors are also encouraged to conduct independent consultation with the senior management of the Company.

The Group's day-to-day management, administration and operation are delegated to the senior management of the Company. The Board regularly reviews the functions and duties delegated to the senior management of the Company.

CORPORATE GOVERNANCE FUNCTIONS

The Board understands that corporate governance is a shared responsibility among all Directors. The Board has delegated the corporate governance functions to the Audit Committee, including:

(i) to develop and review the Company's policies and practices on corporate governance and make recommendations to the Board;

(ii) to review and monitor the training and continuous professional development of Directors and senior management;

(iii) to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;

(iv) to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees and Directors; and

(v) to review the Company's compliance with the Corporate Governance Code and disclosure in the Corporate Governance Report.

During the Year, the Audit Committee has exercised the aforementioned corporate governance functions, and has reported to the Board.

BOARD COMMITTEES

Nomination Committee

The Nomination Committee comprises of three members, including one executive Director, Mr. Bai Xuankui (chairman), and two independent non-executive Directors, Mr. Qiu Yongqing and Ms. Gao Jianhua. Therefore, the majority of members are independent non-executive Directors. The major duties of the Nomination Committee include:

(i) review the structure, size and composition (including the skills, knowledge, experience and diversification) of the Board and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy;

(ii) identify individuals suitably qualified to become Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships;

(iii) make recommendations to the Board on the appointment or reappointment of Directors and succession planning for Directors; and

DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the financial statements for the year ended 31 December 2020, which gives a true and fair view of the financial position of the Group.

The Board is supplied with sufficient explanation and information by the management to enable the Board to make an informed assessment of financial and other information put before it for approval.

The Board is not aware of any material uncertainties relating to events or factors that may cast significant doubt upon the Group's ability to operate as a going concern.

The statement by the Company's auditors about their reporting responsibilities on the consolidated financial statements is set out in Independent Auditor's Report on page 279 of this annual report.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges its responsibility for monitoring the risk management and internal control systems, and ensuring the proper maintenance and effectiveness of the risk management and internal control systems. The Board also oversees the management in the design, implementation and monitoring of the risk management and internal systems, and the management provides the Board with confirmation on the effectiveness of the relevant systems. The Board considers that such systems aim at managing, instead of eliminating, the risk of failure in performing business objectives, and merely giving reasonable but not absolute guarantee to the absence of unmaterial fact, statement or loss.

The Board is responsible for the risk management and internal control system. It performs a review on the effectiveness of the risk management and internal control systems at least once a year. The Company has established an internal control department, which plays an important role in monitoring the risk management and internal control systems of the Group. Through the Audit Committee, the Board will continuously review the effectiveness of the risk management and internal control systems, including monitoring procedures for finance, operations, compliance, risk identification and assessment, and implementation of risk response measures. The audit procedures include:

(1) the internal control department of the Group assessing the relevant systems;

(2) the management ensuring the maintenance of effective risk management and internal control systems; and

(3) the external auditors discovering internal control problems when carrying out statutory audits.

The management and internal control department, supported by the Board, are responsible for the design, implementation and monitoring of the risk management and internal control systems, as well as reporting to the Board and the Audit Committee.

During the Year, the management and internal control department reported to the Board and the Audit Committee periodically in relation to the adequacy and effectiveness of internal controls, including but not limited to any indications of failings or material weaknesses in the control procedures.

The following key processes are used to identify, evaluate and manage the Group's significant risks:

(1) the Board and the Audit Committee set up the targets for risk management;

(2) internal control department identifies the risks, which may potentially impact the normal operation of the Company, and analyses the and evaluates the significance of such risks;

(3) the management, internal control and various departments assess the adequacy of existing controls, determine and adopt plans to mitigate the risks;

(4) the management monitors the risk mitigation activities; and

(5) reports regularly to the Board and the Audit Committee.

The Company has adopted policies and procedures for assessing the effectiveness of the risk management and internal control systems, and requiring the management to provide confirmation to the Board periodically on the effectiveness of the systems. The Board has also established a set of reporting procedures, whereby employees, customers, suppliers and other cooperative partners can report any actual or suspected occurrence of misconduct involving the Group, and for such matters to be investigated and dealt with efficiently in an appropriate and transparent manner.

The Company strictly regulates the handling and dissemination of inside information to ensure such information remains confidential until the disclosure of such information is appropriately approved, and the dissemination of such information is efficiently and consistently made.

During the Reporting Period, the management and internal control department have performed extensive assessments on special risks faced by the Group and conducted a review on the effectiveness of the risk management and internal control systems of the Group. The Board and the Audit Committee were not aware of any areas of concern that would have material impact on the Group's financial position or operating results, and considered the risk management and internal control systems to be generally effective and adequate, including the adequacy of resources, staff qualifications and experience, training programs and budget of the accounting and financial reporting functions.

NON-COMPETITION UNDERTAKING

Mr. Bai Xuankui, Mr. Bai Guohua, Ms. Cheng Guilian, White Dynasty Holdings Limited and White Empire (PTC) Limited, the controlling shareholders of the Company, have confirmed in writing with the Company that they have complied with the undertakings under the deed of non-competition during the period from the date of signing the Deed of Non-competition until 31 December 2020.

The independent non-executive Directors have also reviewed the compliance with the undertakings under the Deed of Non-competition by the Controlling Shareholders during the Reporting Period and confirmed that there was no breach of undertakings under the Deed of Non-competition by any of the Controlling Shareholders.

AUDITOR'S FEES

For the year ended 31 December 2020, the audit services fees payable to its external auditor, Ernst & Young, amounted to RMB2.15 million. No non-audit services fee was incurred.

COMPANY SECRETARY

To maintain sound corporate governance and ensure the compliance with the Listing Rules and applicable Hong Kong laws, the Company engaged Ms. Ng Wing Shan, the assistant vice president of SWCS Corporate Services Group (Hong Kong) Limited (company secretarial services provider), to act as the company secretary of the Company, and her primary contact person at the Company is Mr. Bai Guohua, an executive Director.

According to the requirements of Rule 3.29 of the Listing Rules, Ms. Ng Wing Shan took no less than 15 hours of relevant professional training during the Year.

SHAREHOLDERS' COMMUNICATIONS AND INVESTOR RELATIONS

The Company believes that effective communication with Shareholders is very important for strengthening investor relations and allowing investors to understand the Group's business, performance and strategy. The Company is also convinced of the importance of timely and non-selective disclosure of Company information for Shareholders and investors to make informed investment decisions.

The annual general meeting of the Company provides opportunities for Shareholders to communicate with the Directors directly. Chairman of the Board and chairmen of each Board Committee will attend the annual general meeting and answer questions raised by the Shareholders. The external auditor will also attend the annual general meeting and answer questions regarding audit work, preparation of auditor's report and its content, accounting policies and independence of auditor.

To promote effective communication, the Company has adopted the Shareholders' communication policy, with a view to establishing relationship and communication between the Company and its Shareholders. A website (www.chen-xing.cn) is also established. The Company shall post on its website updated information related to its business operations and development, financial information, corporate governance practices and other information for the review of the public.

SHAREHOLDERS' RIGHTS

For the protection of Shareholders' benefits and rights, the Company shall propose separate resolutions for each question (including the election of each Director) at a general meeting.

All resolutions proposed at a general meeting shall be voted on by poll according to the Listing Rules, the results of which shall be posted on the websites of the Stock Exchange and the Company after the date of the general meeting in due course.

CONVENING OF EXTRAORDINARY GENERAL MEETING AND THE PROPOSAL OF RESOLUTIONS

Pursuant to Article 58 of the Articles of Association, any one or more members holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the secretary of the Company, to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two (2) months after the deposit of such requisition. If within twenty-one (21) days of such deposit the Board fails to proceed to convene such meeting the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company. The procedures for Shareholders to convene an extraordinary general meeting are set out in the document entitled "Procedures for Shareholders to Convene a General Meeting", which is posted on the Company's website.

The Articles of Association and the laws of the Cayman Islands do not stipulate the procedures for Shareholders to propose resolutions at annual general meetings. Should the Shareholders wish to propose resolutions, they may refer to the "Procedures for Shareholders to Convene a General Meeting".

Regarding the procedures for nomination of Directors, please refer to "Procedures for Shareholders to Nominate Candidates for Directors" posted on the website of the Company for details.

ENQUIRY TO THE BOARD

Shareholders may send by email to the Company's email address (cxfz@chen-xing.cn) or by post to the Company's Hong Kong principal place of business (40/F, Dah Sing Financial Centre, 248 Queen's Road East, Wanchai, Hong Kong) to raise enquiries regarding the Company to the Board.

AMENDMENT TO THE MEMORANDUM AND ARTICLES OF ASSOCIATION

The Company has not made any amendments to the Company's memorandum and articles of association during the Reporting Period.

Materiality Assessment

During the Year, the Group identified 35 ESG issues related to the Group's business, taking into account the operation of its business and main concerns of stakeholders and with reference to the disclosure obligations covered by the Guide, the Material Issues Database of the Sustainability Accounting Standards Board (SASB) of the United States and industry best practices. In order to further understand the materiality of each issue to stakeholders, we invited stakeholders to submit an online questionnaire to rate the materiality of each issue. We received over a hundred valid questionnaire responses and identified 13 issues of high importance, 20 issues of moderate importance and 2 issues of general importance as the basis for our preparation of the Report.

HONEST BUSINESS OPERATION

The Group attaches great importance to brand integrity and has always been adhering to the principle of "building our brand name with good faith and improving earnings through a quality brand" in its business operation. By establishing a sound internal control system, we regulate the entire business operation process so as to continuously improve our brand influence and industry status.

Safe and Compliant Production

The Group upholds the principle of "safety is first, precaution is crucial" in implementing the safety management system to ensure the safety of construction work. We strictly abide by laws and regulations such as the Law of the People's Republic of China on Work Safety (《中華人民共和國安全生產法》) and has formulated the "Emergency Plan for Project Site Safety" (《項目現場安全應急預案》), which specifies the responsibility of production safety for each unit and regulates the production safety management of project supervision units and contractors.

The Group requires contractors to strictly abide by national, local and industrial regulations with respect to environmental protection and health and safety, establish comprehensive construction management plans, and implement safety inspection systems and safe production responsibility systems. We convey the safety concept of "safety is first, precaution is crucial and comprehensive rectification" to our employees through targeted occupational safety training, instruct our employees to execute prevention and protective measures with respect to occupational safety and make appropriate responses and arrangements at times of incidents, so as to reduce production risks. In addition, the Group regularly identifies sources of hazards and assesses the impact of the relevant risk factors. According to the assessment results, the Group will implement corresponding protective and technical safety measures. We will record all safety inspections and implementation of safety measures, which will serve as the basis for investigating the safety incidents and preventing similar accidents in the future. During the Reporting Period, the Group did not have any project that was not accepted due to safety reasons.

Customer Service as the Priority

The Group strives to deliver a high level of product and service experience to our customers. In terms of project development, we have formulated the "Measures for Quality Standard and Constructional Quality Acceptance of Construction" (《工程施工質量標準及施工驗收辦法》) to specify the industry standards that all kinds of projects need to comply with at different construction stages, and regulate the procedures concerning quality control, material inspection, equipment acceptance and completion acceptance, monitoring the quality of project construction. We have also formulated the "Project Supervision Management System" (《工程監理管理制度》) and "Project Management Inspection System" (《工程管理巡查制度》), arranging regular inspections for construction companies and supervision companies on the quality of construction to safeguard the quality of engineering products and services. Upon completion of the project, members of the Group's customer service department, engineering department, supervision companies, construction contractors and property management agencies will carry out building inspection with the clients. We will arrange follow-up actions and handle the issues identified during the inspection.

In terms of day-to-day management of projects, we have established the "Property Service Centre for Receiving Complaints Made by Visiting Customers and Regular Return Visits System" (物業服務中心接待來訪投訴和定期回訪制度》), as to actively collect customers' opinions through various channels and strengthen the connection between the property service centre and customers. The receptionist of the property service centre will promptly investigate, verify and record the complaints made by the residents and the issues mentioned during the visit, and give feedback on the results to the relevant responsible departments. We have also arranged a specialist to conduct regular visits in order to ensure the customer complaints have been properly handled and improve our customer services continuously. During the Year, the Group received no complaints from customers regarding our services which received a high customer service satisfaction rate of 93%.

Safeguarding Information Security

The Group strictly abides by the laws and regulations relating to information security of the People's Republic of China, such as the Regulations on Security Protection of Computer Information Systems (《電腦資訊系統安全保護條例》), the Administrative Measures for Security Protection of International Networking of Computer Information Networks (《電腦資訊網路國際聯網安全保護管理辦法》), the Provisions on Technical Measures for Security Protection of Internet (《互聯網安全保護技術措施規定》), the Requirements for Security Protection of Interactive Internet Services (《互聯網互動式服務安全保護要求》) and the Basic Procedures and Requirements for Security Assessment of Internet Services (《互聯網服務安全評估基本程式及要求》), comprehensively maintaining the integrity of business information.

We have established the "Information Management System" (《信息化管理制度》) and the "Document Management System of Marketing Department" (《營銷部檔案管理制度》) to specify the duties and rights of document managers in the design, development, operation and maintenance of information systems, and regulate the archive room management, computer and network equipment management, information management, network security management and computer operator management based on the principles of security, practicality and systematization. We have also strengthened the security and confidentiality of the office system and financial system by restricting the access rights of employees through the establishment of a firewall and password setting to provide multiple protection for business information security. In addition, we have set out the confidentiality responsibilities of all our employees for the Group's business secrets and customer information in the "Staff Handbook" (《員工手冊》), and have signed non-disclosure agreements with third-party companies, requiring third-party companies to regularly conduct information security checks and carry out strict security management on document archives.

In terms of disclosure of business information, the Group strictly abides by relevant regulations such as the Advertising Law of the People's Republic of China (《中華人民共和國廣告法》), the Patent Law of the People's Republic of China (《中華人民共和國專利法》), the Detailed Rules for the Implementation of the Patent Law of the People's Republic of China (《中華人民共和國專利法實施細則》), the Trademark Law of the People's Republic of China (《中華人民共和國商標法》), the Copyright Law of the People's Republic of China (《中華人民共和國著作權法》) and Provisions on the Release of Real Estate Advertisement (《房地廣告發佈規定》). We have formulated the "Administration of the Release of Advertisement" (《廣告發佈管理辦法》) to regulate the approval procedures for all kinds of marketing promotion and handle matters relating to advertising and intellectual property rights carefully. We strive to safeguard the intellectual property rights of the Group and our business partners including patents, trademarks and copyrights, ensure that complete, genuine and accurate information is delivered to the public in advertisements and eliminate all acts of deceiving customers by using false and misleading trade descriptions.

Strengthening Anti-corruption Efforts

The Group attaches great importance to business ethics and continuously reinforces our anti-corruption efforts. We strictly comply with laws and regulations relating to anti-corruption operations, such as the Supervision Law of the People's Republic of China (《中華人民共和國監察法》), the Company Law of the People's Republic of China (《中華人民共和國公司法》), the Criminal Law of the People's Republic of China (《中華人民共和國刑法》) and the Anti-Money Laundering Law of the People's Republic of China (《中華人民共和國反洗錢法》), solidly carrying out anti-corruption work and safeguarding brand integrity.

In order to prevent all kinds of illegal or unethical acts in seeking improper benefits, we have signed "Integrity Agreement" (《廉政公約》) with our employees and "Probity Agreement" (《廉政協議書》) with third-party companies through coordination, which prohibits our employees from accepting any kind of benefits (including gifts, bribes, sum of money, etc.) offered by any related party of the Group, nor introducing his/her family or friends to relative business departments to engage in economic activities related to the Group's business operation such as supplying equipment or subcontracting in the process of purchasing and tendering. We also carry out anti-corruption supervision and professional ethics education to our employees from time to time so to strengthen the internal control.

Furthermore, we encourage our employees and persons with business relations with the Group to report any possible acts of corruption within the Group through email, phone call, mail and other channels, so as to promptly identify and rectify any acts of misconduct. During the Reporting Period, the Group was not aware of any legal cases against the Group or our employees regarding bribery, extortion, fraud and money laundering.

Sustainable Supply Chain

A sustainable supply chain is an important part of maintaining stable and healthy business development. The Group attaches importance to supply chain management and is committed to establishing good cooperation relationships with suppliers and contractors. We strictly abide by the laws and regulations such as the Tendering and Bidding Law of the People's Republic of China (《中華人民共和國招標投標法》) and the Regulations on the Implementation of the Tendering and Bidding Law of the People's Republic of China (《中華人民共和國招標投標法實施條例》), and have formulated a clearly defined tendering process to ensure fairness, justice and transparency in the selection of suppliers.

When reviewing suppliers, we require them to provide a series of qualification documents to understand their business nature and basic information. The Group will determine the involvement and performance of suppliers in areas such as product quality, environmental protection, occupational safety and health based on grading items including whether the suppliers are certified with ISO9001 Quality Management System, whether they are experienced in similar projects and whether they have the abilities to perform their duties according to laws and regulations, etc. The Group conducts stringent background checks on suppliers, investigates and records the authenticity of their relevant qualifications to strengthen the prevention of environmental and social risks associated with the supply chain.

The Group carries out follow-up evaluation regularly on qualified suppliers. We conduct quality assurance or on-site inspection to suppliers of materials and evaluate the management standards of supervision companies, quality of supervising engineers and the working condition in construction sites to ensure the selected suppliers meet various business and management needs and facilitate the continuous improvement of suppliers.

PEOPLE-ORIENTED CORPORATE CULTURE

Employees are the basis of the Group's business operations. We regard our employees as our most valuable asset and are committed to improving the human resource management system. We also introduce and retain talents by providing our employees with competitive benefit packages, all-rounded training and career development opportunities to promote a "people-oriented" corporate culture.

Employee Rights

The Group attaches great importance to the rights and interests of its employees and strictly abides by the laws and regulations in relation to labour and employment including the Labour Law of the People's Republic of China (《中華人民共和國勞動法》), the Labour Contract Law of the People's Republic of China (《中華人民共和國勞動合同法》), the Law of the People's Republic of China on the Protection of Minors (《中華人民共和國未成年人保護法》) and the Provisions on the Prohibition of Using Child Labour (《禁止使用童工的規定》). We have formulated a human resource management system to create a diverse, equal, harmonious and inclusive working atmosphere without harassments or discrimination and eliminate workplace discrimination, exploitation and harassments. During the Reporting Period, the Group did not violate any law or regulation in relation to remuneration and termination of employment, recruitment and promotion, working hours, equal opportunities, diversity, anti-discrimination, prevention of child labour or forced labour, nor did it identify any case of child labour or forced labour.

In terms of personnel recruitment, the applicant's educational background, work experience, skills, and the alignment of his/her credentials with the position's requirements, among others, are the major considerations in determining whether to provide interview opportunities and in making recruitment assessment, while background factors such as the applicant's gender, age, nationality, religion, family status and race shall not affect his/her interview and employment opportunities. We conduct the examination, background checks, application approval and other procedures on the part of the applicant in a fair, impartial and open manner. In order to avoid the employment of child labour, we have an internal policy to strictly verify and confirm the identities of new employees during the recruitment process.

In addition, the Group also implements a standard working hour system restricting the working hours of all employees to no more than eight hours a day and forty hours a week to eliminate forced labour or exploitation. In case of any resignation of employees, we will get to know the reasons for the resignation request, and terminate the employment in accordance with the applicable provisions of the Labor Law of the People's Republic of China and the Labor Contract Law of the People's Republic of China, so that no unfair or unreasonable event shall happen.

Employee Welfare

In strict compliance with the Labor Law of the People's Republic of China and other relevant regulations in the place where its operations are located, the Group has compiled "Chen Xing Development Salary System Design Plan" (《辰興發展薪酬體系設計方案》) and "Staff Welfare System" (《員工福利制度》), which provide employees with competitive employee salaries and benefits packages. Remuneration for the employees comprises basic salary, assessment-based bonus, performance-based bonus and seniority bonus. We pay seniority bonus according to the employee's time of service in the Group and distribute assessment-based bonus and performance-based bonus to our employees according to their regular performance appraisal results, ensuring that our employees receive reasonable remuneration.

In addition to statutory holidays, employees are entitled to annual leave, wedding leave, compassionate leave, maternity leave, sick leave and work-related injury leave, etc. In accordance with the national policies of China, the Group participates in the staff retirement benefit plan and housing provident fund plan and provides eligible employees with basic pension insurance, unemployment insurance, basic medical insurance, large-amount medical insurance, employment injury insurance, maternity insurance and housing provident fund. Depending on circumstances, we also provide our employees with the only-child allowance, allowances for working under high temperature, heating fees and allowances for working in the Mid-Autumn Festival and the Chinese New Year and other benefits, satisfying the needs of our employees in all respects.

Occupational Health and Safety

Occupational safety and physical and mental health of the employees are of vital importance to the Group. We are committed to providing employees with a healthy and safe working environment in strict compliance with relevant laws and regulations, including the Law of the People's Republic of China on the Prevention and Control of Occupational Diseases (《中華人民共和國職業病防治法》), the Law of the People's Republic of China on Work Safety (《中華人民共和國安全生產法》), the Fire Law of the People's Republic of China (《中華人民共和國消防法》), the Regulations on Supervision and Administration of Occupational Health in Workplace (《工作場所職業衛生監督管理規定》), and the Regulation on Work-Related Injury Insurances (《工傷保險條例》). During the Reporting Period, the Group did not violate any relevant laws and regulations regarding the provision of a safe working environment and the protection of employees from occupational hazards, nor did it have any accident involving work-related injury or fatality.

We have formulated the "Requirements for Environmental Protection and Occupational Health and Safety Control in Construction Processes" (《施工過程環保和職業健康安全控制要求》), and implemented occupational safety management in all aspects of our business operations. The Group always provides employees with corresponding protective equipment, and arranges regular physical examinations for its employees, which assures basic occupational safety and health and protects employees from occupational hazards. In addition, the Group pays close attention to the mental health of employees and advocates a balanced work life by organizing activities for our employees from time to time, such as the team-building activity with the theme of "Challenging, Integrating, Cohering and Success", which allows employees to relax physically and mentally while preventing the spread of COVID-19 epidemic.

Case: Epidemic Prevention and Control

In 2020, an unexpected pneumonia epidemic caused by novel coronavirus (COVID-19) broke out. In view of the outbreak of COVID-19, the Group implemented the anti-epidemic decision and arrangement made by the State Council of the People's Republic of China in order to prevent and control the epidemic.

We held work meetings by flexible means such as telephone and online video calls, to support our employees affected by the epidemic for remote office work. We also provided sufficient anti-epidemic materials such as masks, disinfectant sprays and hand sanitizers for front-line personnel who needed to stand fast at their posts and projects to ease their concerns about going to work. In addition, we arranged employees to work flexibly, constantly monitored the body temperature of returning employees, strictly controlled the personnel to and from the office premises, and arranged the cleaning and disinfection of the office premises to protect the health of our employees.

Employee Training and Development

We concern about the career development of our employees. By establishing a sound employee training system and a well-defined corporate ladder for employees' promotion and development, we strive to build a highly efficient professional team and enhance the core competitiveness of the Group.

In alignment with the needs and objectives of business development, the Group has formulated an annual training plan for employees to improve their comprehensive capabilities including working skills and career development capabilities. During the Year, we adjusted the annual training plan as soon as possible considering the outbreak of COVID-19. We carried out specific and effective online "cloud training" education for our employees using the meeting function of the corporate WeChat application. The training was diversified, covering corporate organizational structure, meeting process management, planning and operation and etc., in order to cultivate talents in various areas.

In order to help employees make effective career planning, the Group has formulated the "Administration Measures of Employee Promotion Competition for Chen Xing Development" (《辰興發展員工晉升競聘管理辦法》), which clearly sets out the administration system for employees' promotion and career development. We will give employees opportunities for promotion according to the performance assessment results of employees in a periodic manner. An employee's personal quality, ability and performance at work are all considered as the basis for his/her promotion. When there is a job vacancy, we will consider internal transfer of employees, providing employees with another path of career development other than vertical promotion. Employees can be re-allocated to different career development paths according to their career development objectives, professional knowledge and working skills, ensuring that the employees make good use of all their talents in a suitable workplace.

ENVIRONMENTAL MANAGEMENT

The Group is committed to sound environmental management, and has been continuously identifying and managing the impacts of our business operations on the use of resources and the environment to promote green corporate culture. We strictly abide by the laws and regulations including the Environmental Protection Law of the People's Republic of China (《中華人民共和國環境保護法》), Energy Conservation Law of the People's Republic of China (《中華人民共和國節約能源法》), Law of the People's Republic of China on Prevention and Control of Water Pollution (《中華人民共和國水污染防治法》), Law of the People's Republic of China on Prevention and Control of Pollution from Environmental Noise (《中華人民共和國環境雜訊污染防治法》), Law of the People's Republic of China on Prevention and Control of Environmental Pollution from Solid Waste (《中華人民共和國固體廢物污染環境防治法》) and the Regulations on Environmental Protection Management of Construction Projects (《建設項目環境保護管理條例》), and have developed the Environmental Protection Management System for Construction Projects (《建設項目環境保護管理制度》) and the Management Provisions on Code of Ethics at Project Sites (《工程現場文明標化管理規定》) to regulate development projects that have potential impacts on the environment, so as to avoid generating pollution sources or damaging the ecological environment. We have also set up an environmental protection management leading group, which is responsible for environmental assessment of our development projects and environmental protection check and acceptance of completed projects, strictly monitoring the environmental quality of development and construction projects.

During the Reporting Period, the Group did not violate any environmental protection law nor cause any major accident that affects the environment and natural resources, nor did we receive any penalty and litigation notice on environmental issues.

Energy Conservation and Emission Reduction

The Group pays close attention to the climate change issues, and actively implements measures that save energy and reduce consumption in all aspects of its business operations to manage greenhouse gas emissions. We have compiled the Design Concept Brochure for Green Building Projects (《綠色建築項目的設計概念小冊子》). We use highly effective thermal materials and devices and adopt designs that integrate with the nature as much as possible in each of our construction projects. For example, we adopt natural lighting, widely incorporate planting, and use solar water heating systems to improve the efficiency of energy utilization and create a sustainable living environment for the residents or tenants.

We promote and educate our employees to develop environmental protection habits (e.g. taking public transport as much as possible and switching off electronic devices that are not in use) from time to time through different media channels such as email, posters and intranet. Our offices are divided into different areas equipped with independent controllable lighting switches so that the employees can use the lighting system flexibly. We also measure the brightness of various areas in offices periodically, install motion sensor lights in less-frequently-used zones, and reduce the number of lamps in areas brighter than required. In addition, the Group adopts a water-cooled air-conditioning system with a variable speed drive and adjusts the air-conditioning temperature in the office area according to actual needs. We regularly clean the lightings and the filters of air conditioning systems to improve their energy efficiencies. During the Reporting Period, the total electricity consumption of the Group's headquarters office in Jinzhong City in Shanxi Province and its subsidiary Chen Xing Real Estate Development Co., Ltd. Taiyuan Branch Office during business operations was 4,762.00 MWh and the electricity consumption intensity was 0.48 MWh per square metre, which were approximately 7% less than those of the previous year.

In addition to continuously monitoring the electricity consumption during our business operations, we have conducted a GHG inventory with reference to the Greenhouse Gas Protocol (《溫室氣體盤查議定書》) issued by the World Resources Institute and the World Business Council for Sustainable Development and the ISO14064-1 formulated by the International Organization for Standardization. A summary of the GHG emissions of the Group's headquarters office in Jinzhong City in Shanxi Province and its subsidiary Chen Xing Real Estate Development Co., Ltd. Taiyuan Branch Office during the Reporting Period is as follows:

		Unit	2020
Scope 1	Direct GHG emissions	tonnes CO_2 equivalent (CO_2e)	158.56
Scope 2	Indirect GHG emissions	tonnes CO_2e	2,905.30
Scope 3	Other Indirect GHG emissions	tonnes CO_2e	183.68
Total GHG emissions		tonnes CO_2e	3,247.54
GHG emission intensity		tonnes CO_2e/m^2	0.33

Scope 1: The direct GHG emissions generated from sources owned and controlled by the Group and removals.

Scope 2: GHG emissions indirectly generated by electricity generation, heating and cooling or steam purchased externally by the Group.

Scope 3: Emissions include GHG emissions indirectly generated by sources that are not owned or directly controlled by the Group but related to the Group's business activities.

In the coming year, the Group will consider gradually expanding the scope of GHG inventory and work on identifying, quantifying and reporting climate risks and opportunities, as well as develop management strategies in relation to climate change and GHG emission reduction targets in the short-term and mid-to-long term, with reference to the recommendations from the Task Force on Climate-related Financial Disclosures (TCFD), so as to improve our overall environmental performance.

Air Quality Management

We strictly comply with the Emergency Plan in Response to Severe Pollution in Taiyuan (《太原市重污染天氣應急預案》) and other regulations, to regulate the construction environment and the prevention and control of pollution from road dust. We adopt new technologies and equipment, for example, using integrated wood processing machines in woodworking, derusting steel structures in enclosed space, and replacing traditional green nets with the novel flame-retardant dustproof cloth to cover building materials, in order to reduce the release of dust during projects construction. We also require the contractors to ensure that the cement storage areas in the construction sites remain closed, store all powder construction materials in bags or buckets and cover them or put them behind fences or in sheds to prevent dust from spreading. The contractors timely clean up the sites and designate personnel to spray water regularly on powder materials in the construction sites to control dust spreading. For dust control with regard to transportation, we grow plants in green areas in the construction sites and sprinkle regularly on the roads with water. We also require all vehicles entering the construction sites to be covered with tarpaulin sheets. Moreover, the Group strengthens the repair and maintenance of vehicles to ensure they are in good condition, and use fuels with higher efficiency so as to reduce the emissions of exhaust gas.

Water Resources Management

The Group has been continuously monitoring the water consumption during its business operations and promoting the good use of water resources. Water conservation signs are posted in washrooms to remind our employees to turn the running water off after using. We also choose to use sensor faucets and dual flush toilets. We check the water meter regularly, carry out pipeline leakage detection and arrange faucet repairs when appropriate to avoid water leakage and wastage During the Year, there was no issue in sourcing water that was fit for purpose; the total water consumption of the Group's headquarters office in Jinzhong City in Shanxi Province and its subsidiary Chen Xing Real Estate Development Co., Ltd. Taiyuan Branch Office in business operations was 55,699.00 m^3 and the water consumption intensity was 5.66 m^3 per square metre, representing a decrease of approximately 7% compared with that of last year.

The Group's wastewater during its business operations is mainly sourced from domestic sewage and sewage from construction projects. We strictly comply with the Integrated Wastewater Discharge Standard (《污水綜合排放標準》), which restricts the discharge of domestic sewage produced by the Group into the municipal drainage pipe system. For the sewage generated from construction projects, we have formulated various supervision guidelines and measures, and require contractors to manage wastewater according thereto. Before the commencement of construction projects, our relevant departments will declare and register sewage discharge in accordance with relevant regulations of competent environmental authorities where the projects locate, and establish rainwater drainage system. During construction, the contractors are required to set up drainage ditches and sedimentation tanks using the well-point dewatering method and have grease traps in place in the temporary canteen at construction sites for the purpose of reusing or discharging wastewater into the municipal drainage pipe system in order to ensure proper handling.

Noise Control

The Group monitors the noises produced at different construction stages and requires contractors to assume the responsibilities of noise management. To control construction noise and noise sources in the construction sites, the Group strictly abides by the national and local announcements on construction and requirements with regard to construction hours. Before construction, we build fences and other temporary facilities to effectively prevent the noise from spreading and prohibit construction operators from throwing steel tools at all stages of construction. We also take measures in the design of construction sites, such as putting mechanical devices which generate noises at the same place and enclosing the sites with sound insulation materials. In addition, we use mechanical equipment which generates less noises or is equipped with noise reduction designs while in good condition, and conduct regular inspection and maintenance to all mechanical equipment to ensure smooth operations and reduce chances of noise pollution.

Waste Management

The Group supports the responsible use of various materials and advocates waste reduction from the source. We use the electronic office system to replace the office administrative system based on paper records, and encourage employees to reuse office stationery such as envelopes and loose-leaf binders, reduce the use of disposable or non-recyclable products, and apply electronic communication technology to convey information as much as possible. We also count the inventory of materials and estimate the consumption from time to time to avoid excessive purchases which lead to waste.

Regarding waste disposal, the Group classifies and collects waste and transports it to the designated places for disposal. We collect, monitor and treat construction waste adhering to the requirements of local environmental protection authority where the construction project is located, and require contractors to establish waste records and a sound management system. Hazardous wastes are stored separately from general wastes, and the places and containers where the hazardous waste is stored are clearly marked for identification. Due to the potential risks of storing hazardous wastes, we adopt rigorous rainproof, seepage-proof and fire-proof measures for the storage places, and strictly comply with the relevant requirements of risk prevention facilities for inflammable and explosive articles. Hazardous wastes are transported to hazardous waste storage sites by special vehicles. During transport, we also take specific pollution prevention measures. For electronic wastes, we cooperate with electronics companies to recycle used computers and other electronic wastes for recycling.

The total amount of non-hazardous wastes produced by the Group's headquarters office in Jinzhong City in Shanxi Province and its subsidiary Chen Xing Real Estate Development Co., Ltd. Taiyuan Branch Office during the Reporting Period was 46.00 tonnes, and the hazardous wastes produced included 15 computers and 210 used ink cartridges/toner cartridges. The intensity of non-hazardous wastes produced was 4.68 kg per square metre, representing a decrease of more than 10% from that of last year. The Group will continue to monitor the amount of non-hazardous and hazardous wastes produced and strengthen pollution prevention and control.

HARMONIOUS SOCIETY CONTRIBUTION

Consistently adhering to the development concept of "honesty and kindness, social commitment, gratitude and giving", the Group always concerns about the community, and is committed to building a harmonious society with people from all walks of life.

In the face of the outbreak of COVID-19, we have adopted a number of measures to actively fulfill our corporate social responsibilities. In particular, we participated in the charity project known as "Working Together against the Epidemic" of Beijing Generoad Foundation and donated RMB50,000; we also donated RMB100,000 to Shanxi Provincial Red Cross to support the epidemic prevention of the community.

The communities that have been delivered, such as Yosemite Valley Town, Cultural Town and Star Gardens of the Group, procured property management personnel to form an anti-epidemic work group and develop anti-epidemic emergency plans once they were known of the outbreak of COVID-19. We implemented a "health code" policy and strictly inquired, verified and registered outsiders and foreign vehicles to prevent the spread of COVID-19 within the community or to the outside. Through the official accounts, WeChat groups, bulletin boards, public broadcasting and other channels of the communities, we disseminated the information on anti-epidemic precautions and COVID-19 prevention measures to residents. We have also set up charitable anti-epidemic stations in prominent locations in some of the exhibition centers of the Group, and distributed anti-epidemic materials such as masks and disinfectants free of charge to citizens in need to fight against the COVID-19 with people from all walks of life.

During the Year, the Company received the "Outstanding Contribution Award Against the Epidemic 2020" (2020年抗擊疫情卓越貢獻獎) granted by the Taiyuan Real Estate Chamber of Commerce. We have invested a total of approximately RMB470,000 and organized more than 550 hours of charity projects, in which we procured nearly 4,000 persons to participate.

To the shareholders of Chen Xing Development Holdings Limited
(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Chen Xing Development Holdings Limited (the "**Company**") and its subsidiaries (the "**Group**") set out on pages 286 to 394, which comprise the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("**HKFRSs**") issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("**HKSAs**") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "**Code**"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

KEY AUDIT MATTERS *(continued)*

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key audit matter	How our audit addressed the key audit matter
Net realisable value of properties under development and completed properties held for sale	
As at 31 December 2020, the Group's properties under development and completed properties held for sale amounted to RMB9,128,247,000 and RMB931,224,000, respectively, which represented in aggregate 79.3% of the total assets of the Group. The assessment of whether the carrying values of the properties were higher than their net realisable values, and consequently, whether a provision to reduce the carrying values was required, was made by management through the application of judgement and the use of subjective assumptions such as the expected selling prices, the costs of completion of properties under development and the costs to be incurred in selling the properties based on prevailing market conditions. The Group's disclosures about the provision for properties under development and completed properties held for sale are included in notes 2.4, 3, 7, 15 and 22 to the financial statements, which also explain the accounting policies and management's accounting estimates.	We evaluated the basis for the provision assessment by understanding the assumptions used to determine the net realisable values of properties under development and completed properties held for sale. We evaluated the assumptions used by checking, on a sample basis, the selling prices of properties to latest sale transactions and the forecasted selling prices and reviewing the pre-sale status of other projects in the same location to evaluate the saleability. We assessed the costs to complete or sell the properties by reviewing budgets contractor agreements signed and comparing with historical expenses rate for other similar projects. We also performed gross profit margin analysis for projects with completed properties held for sale.

KEY AUDIT MATTERS *(continued)*

Key audit matter	How our audit addressed the key audit matter
Valuation of investment properties	
As at 31 December 2020, the Group's investment properties amounted to RMB138,000,000 and were measured at fair value. It is the Group's policy to have investment property valuations performed by an independent professional valuer at least once a year, to assist management in the fair valuation process. The valuations of the investment properties were highly dependent on estimates such as current and future market rents and yields, which were subject to uncertainty and might materially differ from the actual results. The Group's disclosures about the valuation of investment properties are included in notes 2.4, 3 and 14 to the financial statements, which also explain the accounting policies and management's accounting estimates.	We evaluated the objectivity of the valuation process and expertise of the independent professional valuer. We involved our internal valuation specialists to assist in evaluating the methods applied, the underlying assumptions and parameters adopted in the valuation of investment properties performed by management and the independent professional valuer. We assessed the property-related data used as inputs for the valuations by checking to existing rental agreements, the rates of rent quoted for similar properties and the occupancy rates of the properties. We also reviewed the related disclosures in the financial statements.

KEY AUDIT MATTERS *(continued)*

Key audit matter	How our audit addressed the key audit matter
Impairment of buildings and prepaid land lease payments	
As the carrying amount of the net assets of the Group was higher than the market capitalisation of the Company as at 31 December 2020, the Group performed impairment tests on its buildings and prepaid land lease payments with carrying values of RMB56,381,000 and RMB1,284,000, respectively. These impairment tests involved significant estimation and judgements around assumptions used, including current and future market rents, yields and available data from market transactions of similar assets. Management determined that no provision for impairment of buildings and prepaid land lease payments was required. The Group's disclosures about the impairment testing of non-financial assets, which included buildings and prepaid land lease payments, are included in notes 2.4 and 3 to the financial statements, which explain the accounting policies and management's accounting estimates.	We evaluated management's identification of indicators of impairment. We assessed the inputs used for the estimation of recoverable amounts by comparing to rentals quoted for similar assets and observable prices from market transactions. We also involved our internal valuation specialists to assist in evaluating the methodology used, and the underlying assumptions and parameters adopted by management to estimate the recoverable amounts of the buildings and prepaid land lease payments.

OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the Management Discussion and Analysis of the Annual Report (but does not include the consolidated financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report, and the Chairman's Statement, the Directors' Report, the Corporate Governance Report and the Environmental, Social and Governance Report, which are expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT *(continued)*

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lai Chee Kong.

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("**HKFRSs**") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("**HKASs**") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties, wealth management products and equity investment which have been measured at fair value. These financial statements are presented in Renminbi ("**RMB**") and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "**Group**") for the year ended 31 December 2020. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

(a) the contractual arrangement with the other vote holders of the investee;

(b) rights arising from other contractual arrangements; and

(c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2.1 BASIS OF PREPARATION *(continued)*

Basis of consolidation *(continued)*

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the *Conceptual Framework for Financial Reporting 2018* and the following revised HKFRSs for the first time for the current year's financial statements.

Amendments to HKFRS 3	*Definition of a Business*
Amendments to HKFRS 9 HKAS 39 and HKFRS7	*Interest Rate Benchmark Reform*
Amendments to HKFRS 16	*Covid-19-Related Rent Concessions (early adopted)*
Amendments to HKAS 1 and HKAS 8	*Definition of Material*

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(continued)*

The nature and the impact of the *Conceptual Framework for Financial Reporting 2018* and the revised HKFRSs are described below:

(a) *Conceptual Framework for Financial Reporting 2018* (the "**Conceptual Framework**") sets out a comprehensive set of concepts for financial reporting and standard setting, and provides guidance for preparers of financial statements in developing consistent accounting policies and assistance to all parties to understand and interpret the standards. The Conceptual Framework includes new chapters on measurement and reporting financial performance, new guidance on the derecognition of assets and liabilities, and updated definitions and recognition criteria for assets and liabilities. It also clarifies the roles of stewardship, prudence and measurement uncertainty in financial reporting. The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The Conceptual Framework did not have any significant impact on the financial position and performance of the Group.

(b) Amendments to HKFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group has applied the amendments prospectively to transactions or other events that occurred on or after 1 January 2020. The amendments did not have any impact on the financial position and performance of the Group.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(continued)*

(c) Amendments to HKFRS 9, HKAS 39 and HKFRS 7 address issues affecting financial reporting in the period before the replacement of an existing interest rate benchmark with an alternative risk-free rate ("**RFR**"). The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the introduction of the alternative RFR. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments did not have any impact on the financial position and performance of the Group as the Group does not have any interest rate hedging relationships.

(d) Amendment to HKFRS 16 provides a practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the covid-19 pandemic. The practical expedient applies only to rent concessions occurring as a direct consequence of the pandemic and only if (i) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change; (ii) any reduction in lease payments affects only payments originally due on or before 30 June 2021; and (iii) there is no substantive change to other terms and conditions of the lease. The amendment is effective for annual periods beginning on or after 1 June 2020 with earlier application permitted and shall be applied retrospectively. The amendment did not have any significant impact on the financial position and performance of the Group as the Group does not have any rent concessions.

(e) Amendments to HKAS 1 and HKAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information, or both. The amendments did not have any significant impact on the financial position and performance of the Group.

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these financial statements.

Amendments to HKFRS 3	*Reference to the Conceptual Framework*[2]
Amendments to HKFRS 9, HKAS 39 and HKFRS 7, HKFRS 4 and HKFRS 16	Interest Rate Benchmark Reform — Phase 2[1]
Amendments to HKFRS 10 and HKAS 28 (2011)	*Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*[4]
HKFRS 17	*Insurance Contracts*[3]
Amendments to HKFRS 17	*Insurance Contracts*[3, 6]
Amendments to HKAS 1	*Classification of Liabilities as Current or Non-current*[3, 5]
Amendments to HKAS 16	*Property, Plant and Equipment: Proceeds before Intended Use*[2]
Amendments to HKAS 37	*Onerous Contracts — Cost of Fulfilling a Contract*[2]
Annual Improvements to HKFRSs 2018–2020	Amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41[2]

1 Effective for annual periods beginning on or after 1 January 2021
2 Effective for annual periods beginning on or after 1 January 2022
3 Effective for annual periods beginning on or after 1 January 2023
4 No mandatory effective date yet determined but available for adoption
5 As a consequence of the amendments to HKAS 1, Hong Kong Interpretation 5 *Presentation of Financial Statements — Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause* was revised in October 2020 to align the corresponding wording with no change in conclusion
6 As a consequence of the amendments to HKFRS 17 issued in October 2020, HKFRS 4 was amended to extend the temporary exemption that permits insurers to apply HKAS 39 rather than HKFRS 9 for annual periods beginning before 1 January 2023

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(continued)*

Further information about those HKFRSs that are expected to be applicable to the Group is as follows:

Amendments to HKFRS 3 are intended to replace a reference to the previous *Framework for the Preparation and Presentation of Financial Statements* with a reference to the *Conceptual Framework for Financial Reporting* issued in June 2018 without significantly changing its requirements. The amendments also add to HKFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of HKAS 37 or HK(IFRIC)-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying HKFRS 3 should refer to HKAS 37 or HK(IFRIC)-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group expects to adopt the amendments prospectively from 1 January 2022. Since the amendments apply prospectively to business combinations for which the acquisition date is on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 address issues not dealt with in the previous amendments which affect financial reporting when an existing interest rate benchmark is replaced with an alternative RFR. The Phase 2 amendments provide a practical expedient to allow the effective interest rate to be updated without adjusting the carrying amount when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities, if the change is a direct consequence of the interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis immediately preceding the change. In addition, the amendments permit changes required by the interest rate benchmark reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of HKFRS 9 to measure and recognise hedge ineffectiveness. The amendments also provide a temporary relief to entities from having to meet the separately identifiable requirement when an RFR is designated as a risk component. The relief allows an entity, upon designation of the hedge, to assume that the separately identifiable requirement is met, provided the entity reasonably expects the RFR risk component to become separately identifiable within the next 24 months. Furthermore, the amendments require an entity to disclose additional information to enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy. The amendments are effective for annual periods beginning on or after 1 January 2021 and shall be applied retrospectively, but entities are not required to restate the comparative information.

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(continued)*

Amendments to HKFRS 10 and HKAS 28 (2011) address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to HKFRS 10 and HKAS 28 (2011) was removed by the HKICPA in January 2016 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to HKAS 1 clarify the requirements for classifying liabilities as current or non-current. The amendments specify that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The amendments also clarify the situations that are considered a settlement of a liability. The amendments are effective for annual periods beginning on or after 1 January 2023 and shall be applied retrospectively. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied retrospectively only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(continued)*

Amendments to HKAS 37 clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied to contracts for which an entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments. Earlier application is permitted. Any cumulative effect of initially applying the amendments shall be recognised as an adjustment to the opening equity at the date of initial application without restating the comparative information. The amendments are not expected to have any significant impact on the Group's financial statements.

Annual Improvements to HKFRSs 2018–2020 sets out amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41. Details of the amendments that are expected to be applicable to the Group are as follows:

- HKFRS 9 *Financial Instruments*: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendment is effective for annual periods beginning on or after 1 January 2022. Earlier application is permitted. The amendment is not expected to have a significant impact on the Group's financial statements.

- HKFRS 16 *Leases*: removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying HKFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying HKFRS 16.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments in associates and joint ventures

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in associates and joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses.

The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in the consolidated statement of profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group's investments in associates or joint ventures.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in the statement of profit or loss.

When an investment in an associate or a joint venture is classified as held for sale, it is accounted for in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets includes an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Business combinations and goodwill *(continued)*

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

Fair value measurement

The Group measures its investment properties, wealth management products and equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Fair value measurement *(continued)*

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, deferred tax assets, financial assets and investment properties), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Impairment of non-financial assets *(continued)*

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

Related parties

A party is considered to be related to the Group if:

(a) the party is a person or a close member of that person's family and that person

- (i) has control or joint control over the Group;
- (ii) has significant influence over the Group; or
- (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

(b) the party is an entity where any of the following conditions applies:

- (i) the entity and the Group are members of the same group;
- (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);

Related parties *(continued)*

(b) the party is an entity where any of the following conditions applies: *(continued)*

(iii) the entity and the Group are joint ventures of the same third party;

(iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;

(v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;

(vi) the entity is controlled or jointly controlled by a person identified in (a);

(vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and

(viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. When an item of property, plant and equipment is classified as held for sale or when it is part of a disposal group classified as held for sale, it is not depreciated and is accounted for in accordance with HKFRS 5. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Property, plant and equipment and depreciation *(continued)*

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings	1.90%–19.00%
Motor vehicles	9.50%–19.40%
Machinery	9.50%–19.40%
Office equipment	9.50%–32.33%
Leasehold improvements	20.00%–33.33%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Investment properties

Investment properties are interests in buildings (including the leasehold property held as a right-of-use asset which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in the statement of profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in the statement of profit or loss in the year of the retirement or disposal.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investment properties *(continued)*

If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Property, plant and equipment and depreciation" for owned property and/or accounts for such property in accordance with the policy stated under "Right-of-use assets" for property held as a right-of-use asset up to the date of change in use, and any difference at that date between the carrying amount and the fair value of the property is accounted for as a revaluation in accordance with HKAS 16 *Property, Plant and Equipment*. For a transfer from completed properties held for sale to investment properties, any difference between the fair value of the property at that date and its previous carrying amount is recognised in the statement of profit or loss.

The Group determines whether completed properties held for sale would be transferred to investment properties when, and only when, there is a change in use, evidenced by the following criteria: (a) the Group has prepared a business plan that reflects the future rental income generated by the property and this is supported with evidence that there is demand for rental space; (b) the Group can demonstrate that it has the resources, including the necessary financing or capital, to hold and manage an investment property; (c) the change in use is legally permissible; (d) if the property must be further developed for the change in use, and the development has commenced; and (e) change in use is approved by a board resolution.

Properties under development

Properties under development are intended to be held for sale after completion. On completion, the properties are transferred to completed properties held for sale. Properties under development are stated at the lower of cost and net realisable value and comprise land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period.

Properties under development are classified as current assets unless they are not realised in the normal operating cycle.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Completed properties held for sale

Completed properties held for sale are stated in the statement of financial position at the lower of cost and net realisable value. Cost is determined by an apportionment of the total costs of land and buildings attributable to the unsold properties. Net realisable value takes into account the price ultimately expected to be realised, less estimated costs to be incurred in selling the properties.

Allocation of property development costs

Land costs are allocated to each unit according to their respective saleable gross floor areas ("**GFA**") to the total saleable GFA. Construction costs relating to units were identified and allocated specifically. Common construction costs have been allocated according to the saleable GFA similar to land costs.

Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Leases *(continued)*

Group as a lessee *(continued)*

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Leasehold land	40 years
Buildings	1.25 to 3 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

When the right-of-use assets relate to interests in leasehold land held as properties under development, they are subsequently measured at the lower of cost and net realisable value in accordance with the Group's policy for "properties under development".

(b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Leases *(continued)*

Group as a lessee *(continued)*

(b) Lease liabilities *(continued)*

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

The Group's lease liabilities are included in interest-bearing bank and other borrowings.

(c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value.

Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Leases *(continued)*

Group as a lessor *(continued)*

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee are accounted for as finance leases.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("**SPPI**") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investments and other financial assets *(continued)*

Initial recognition and measurement *(continued)*

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Financial assets at fair value through other comprehensive income (debt instruments)

For debt investments at fair value through other comprehensive income, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in other comprehensive income. Upon derecognition, the cumulative fair value change recognised in other comprehensive income is recycled to the statement of profit or loss.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investments and other financial assets *(continued)*

Subsequent measurement *(continued)*

Financial assets designated at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under HKAS 32 *Financial Instruments*: *Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes derivative instruments and equity investments which the Group had not irrevocably elected to classify at fair value through other comprehensive income. Dividends on equity investments classified as financial assets at fair value through profit or loss are also recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or

- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for expected credit losses ("**ECLs**") for all debt instruments not held at fair value through profit or loss. ECLs are based on the differences between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Impairment of financial assets *(continued)*

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

For debt investments at fair value through other comprehensive income, the Group applies the low credit risk simplification. At each reporting date, the Group evaluates whether the debt investments are considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the external credit ratings of the debt investments. In addition, the Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Impairment of financial assets *(continued)*

General approach *(continued)*

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for contract assets which apply the simplified approach as detailed below.

Stage 1 — Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs

Stage 2 — Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs

Stage 3 — Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For trade receivables that contain a significant financing component and lease receivables, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables and interest-bearing bank and other borrowings.

Subsequent measurement

The subsequent measurement of loans and borrowings is as follows:

Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contracts at the higher of: (i) the ECL allowance determined in accordance with the policy as set out in "Impairment of financial assets"; and (ii) the amount initially recognised less, when appropriate, the cumulative amount of income recognised.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks which are not restricted as to use.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the country in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Income tax *(continued)*

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to profit or loss by way of a reduced depreciation charge.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Revenue recognition *(continued)*

Revenue from contracts with customers *(continued)*

(a) Sale of properties

Revenue from the sale of properties is recognised at the point in time when control of the properties is transferred to the customer, generally on delivery of the properties.

(b) Sale of construction materials

Revenue from the sale of construction materials is recognised at the point in time when control of the assets is transferred to the customer, generally on delivery of the construction materials.

(c) Construction services

Revenue from the provision of construction services is recognised over time, using an input method to measure progress towards complete satisfaction of the service, because the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced. The input method recognises revenue based on the proportion of the actual costs incurred relative to the estimated total costs for satisfaction of the construction services.

(d) Provision of real estate agency services

Revenue from the provision of agency services is recognised over the scheduled period on a straight-line basis because the customer simultaneously receives and consumes the benefits provided by the Group.

Revenue from other sources

Rental income is recognised on a time proportion basis over the lease terms. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are incurred.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Revenue recognition *(continued)*

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

Contract costs

Other than the costs which are capitalised as inventories, property, plant and equipment and intangible assets, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

(a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.

(b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.

(c) The costs are expected to be recovered.

The capitalised contract costs are amortised and charged to the statement of profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates. Other contract costs are expensed as incurred.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Employee benefits

Pension scheme

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Where funds have been borrowed generally, and used for the purpose of obtaining qualifying assets, a capitalisation rate ranging from 5.23% to 15.00% has been applied to the expenditure on the individual assets.

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Foreign currencies

These financial statements are presented in Renminbi ("**RMB**"), which is the Company's functional currency because the Group's principal operations are carried out in Mainland China. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain overseas subsidiaries are currencies other than the RMB. As at the end of the reporting period, the assets and liabilities of these entities are translated into RMB at the exchange rates ruling at the end of the reporting period and their statements of profit or loss and other comprehensive income are translated into RMB at the weighted average exchange rates for the year.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rates for the year.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Property lease classification — Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all the fair value of the commercial property, that it retains substantially all the significant risks and rewards incidental to ownership of these properties which are leased out and accounts for the contracts as operating leases.

Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(continued)*

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision for expected credit losses on trade receivables and other receivables

The Group uses a provision matrix to calculate ECLs for trade receivables and other receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables and other receivables is disclosed in note 23 and note 24 to the financial statements.

Estimation of fair value of investment properties

Investment properties were revalued based on the appraised market value by independent professional valuers. Such valuations were based on certain assumptions, which are subject to uncertainty and might materially differ from the actual results. In making the estimate, the Group considers information from current prices in an active market for similar properties and uses assumptions that are mainly based on market conditions existing at the end of the reporting period.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(continued)*

Estimation uncertainty *(continued)*

Estimation of fair value of investment properties *(continued)*

In the absence of current prices in an active market for similar properties, the Group considers information from discounted cash flow projections based on reliable estimates of future cash flows, supported by the terms of any existing lease and other contracts and (when possible) by external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.

The principal assumptions for the Group's estimation of the fair value include those related to current market rents for similar properties in the same location and condition, appropriate discount rates and expected future market rents. The carrying amount of investment properties was RMB138,000,000 as at 31 December 2020 (2019: RMB141,000,000).

Net realisable value of properties under development and completed properties held for sale

The Group's properties under development and completed properties held for sale are stated at the lower of cost and net realisable value. Based on the Group's historical experience and the nature of the subject properties, the Group makes estimates of the selling prices, the costs to completion for properties under development, and the costs to be incurred in selling the properties based on prevailing market conditions and by reference to the latest selling prices of properties sold in the ordinary course of business by the Group or other developers in the same location.

If there is an increase in costs to completion or a decrease in net sales value, the net realisable value will decrease and this may result in a provision for properties under development and completed properties held for sale. Such provision requires the use of judgements and estimates. Where the expectation is different from the original estimate, the carrying value and provision for properties in the period in which such estimate is changed will be adjusted accordingly. The carrying amounts of properties under development and completed properties held for sale at 31 December 2020 were RMB9,128,247,000 (2019: RMB8,997,082,000) and RMB931,224,000 (2019: RMB411,983,000), respectively.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(continued)*

Estimation uncertainty *(continued)*

PRC land appreciation tax ("LAT")

The Group is subject to LAT in the PRC. The provision for LAT is based on management's best estimates according to the understanding of the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon the completion of the property development projects. The Group has not finalised its LAT calculation and payments with the tax authorities for all its property development projects. The final outcome could be different from the amounts that were initially recorded, and any differences will impact on the LAT expenses and the related provision in the period in which the differences realise.

Deferred tax assets

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The carrying value of deferred tax assets relating to recognised tax losses at 31 December 2020 was RMB3,396,000 (2019: RMB1,349,000). The amount of unrecognised tax losses at 31 December 2020 was RMB63,968,000 (2019: RMB40,788,000). Further details are included in note 31 to the financial statements.

Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets (other than properties under development and completed properties held for sale) at the end of each reporting period. Non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. As at 31 December 2020, the Company's market capitalisation was lower than the Group's net asset value which is an indicator of impairment for non-financial assets. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculations of the fair value less costs of disposal are based on current prices in an active market for similar non-financial assets and use assumptions that are mainly based on market conditions existing at the end of the reporting period. In the absence of current prices in an active market for similar non-financial assets, the Group estimates the expected future cash flows from the non-financial assets and chooses a suitable discount rate in order to calculate the present value of those cash flows.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(continued)*

Estimation uncertainty *(continued)*

Impairment of non-financial assets (other than goodwill) *(continued)*

The key assumptions used in the fair value less costs of disposal calculations include current market rents for similar properties in the same location and condition, appropriate discount rates and expected future market rents. Where the expectation is different from the original estimates, the carrying value and provision for such non-financial assets in the period in which such estimates are changed will be adjusted accordingly. As at 31 December 2020, the carrying value of long-lived non-financial assets (other than properties under development in non-current assets) was RMB79,897,000 (2019: RMB RMB77,326,000).

Useful lives and residual values of property, plant and equipment

In determining the useful lives and residual values of items of property, plant and equipment, the Group has to consider various factors, such as technical or commercial obsolescence arising from changes or improvements in production, or from a change in the market demand for the product or service output of the asset, expected usage of the asset, expected physical wear and tear, the care and maintenance of the asset and the legal or similar limits on the use of the asset. The estimation of the useful life of the asset is based on the experience of the Group with similar assets that are used in a similar way.

Additional depreciation is made if the estimated useful lives and/or the residual values of items of property, plant and equipment are different from the previous estimation. Useful lives and residual values are reviewed at each financial year end date based on changes in circumstances.

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is not organised into business units based on their products and services and only has one reportable operating segment. Management monitors the operating results of the Group's operating segment as a whole for the purpose of making decisions about resource allocation and performance assessment.

No geographical segment information is presented as the Group's revenue from the external customers was derived solely from its operations in Mainland China and no non-current assets of the Group were located outside Mainland China.

No information about major customers is presented as no revenue from sales to a single customer individually accounted for 10% or more of the Group's total revenue for the reporting period.

5. REVENUE, OTHER INCOME AND GAINS

An analysis of revenue is as follows:

	2020 RMB'000	2019 RMB'000
Revenue from contracts with customers	1,203,140	1,301,064
Revenue from other sources

Revenue recognised that was included in contract liabilities at the beginning of the reporting period:		
Sale of properties	**1,182,662**	1,106,126

(b) Performance obligations

Information about the Group's performance obligations is summarised below:

Sale of properties

The performance obligation is satisfied upon delivery of the properties and payment in advance is normally required.

Sale of construction materials

The performance obligation is satisfied upon delivery of the construction materials and payment is generally due within 30 days from delivery, except for new customers, where payment in advance is normally required.

5. REVENUE, OTHER INCOME AND GAINS *(continued)*

Revenue from contracts with customers *(continued)*

(b) Performance obligations *(continued)*

Construction services

The performance obligation is satisfied over time as services are rendered and payment is generally due within 1 year from the date of billing. A certain percentage of payment is retained by customers until the end of the retention period as the Group's entitlement to the final payment is conditional on the satisfaction of the service quality by the customers over a certain period as stipulated in the contracts.

Real estate agency services

The performance obligation is satisfied over time as services are rendered and short-term advances are normally required before rendering the services. Real estate agency service contracts are for periods of one year or more, and are billed based on the time incurred.

The amounts of transaction prices allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at 31 December are as follows:

	2020 RMB'000	2019 RMB'000
Amounts expected to be recognised as revenue:		
Within one year	**5,146,718**	3,575,162

The five highest paid employees did not receive any emoluments from the Group as an inducement to join or upon joining the Group or as compensation for loss of office during the year (2019: Nil).

10. INCOME TAX

The Group is subject to income tax on an entity basis on profits arising in or derived from the jurisdictions in which members of the Group are domiciled and operate. Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands, the Group's subsidiaries incorporated in the Cayman Islands and the British Virgin Islands are not subject to any income tax. Pursuant to the relevant tax law of the Hong Kong Special Administrative Region, Hong Kong profits tax is based on a tax rate of 16.5% (2019: 16.5%) on the estimated assessable profits arising in Hong Kong during the year. No provision for Hong Kong profits tax has been made as the Group did not generate any assessable profits in Hong Kong during the year (2019: Nil).

The provision for Mainland China current income tax is based on the statutory rate of 25% of the assessable profits of certain PRC subsidiaries of the Group as determined in accordance with the PRC Corporate Income Tax Law which was approved and became effective on 1 January 2008.

According to the requirements of the provisional regulations of the PRC on the land appreciation tax ("**LAT**") effective from 1 January 1994 onwards, and the detailed implementation rules on the provisional regulations of the PRC on LAT effective from 27 January 1995 onwards, all income from the sale or transfer of state-owned leasehold interests on land, buildings and their attached facilities in Mainland China is subject to LAT at progressive rates ranging from 30% to 60% of the appreciation value, with an exemption provided for property sales of ordinary residential properties if their appreciation values do not exceed 20% of the sum of the total deductible items.

The Group has estimated, made and included in tax provision for LAT according to the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon completion of the property development projects and the tax authorities might disagree with the basis on which the provision for LAT is calculated.

Major components of the Group's income tax expense are as follows:

	2020 RMB'000	2019 RMB'000
Current tax:		
Income tax charge	**101,764**	44,070
LAT	**63,619**	33,102
Deferred tax (note 31)	**11,961**	11,494
Total tax charge for the year	**177,344**	88,666

10. INCOME TAX *(continued)*

A reconciliation of the tax expense applicable to profit before tax using the statutory rate to the tax expense at the effective tax rate is as follows:

	2020 RMB'000	2019 RMB'000
Profit before tax	**413,445**	203,659
Tax at the statutory tax rate	**103,779**	50,821
Provision for LAT	**63,619**	33,102
Tax effect of LAT provision	**(15,905)**	(8,275)

11. DIVIDENDS

The directors resolved not to declare a final dividend for the year ended 31 December 2020 (2019: Nil).

12. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic earnings per share amounts is based on the profit for the year attributable to ordinary equity holders of the parent, and the weighted average number of ordinary shares of 600,000,000 (2019: 584,384,000) in issue during the year, as adjusted to reflect the right issue during the year.

The calculation of basic earnings per share is based on:

	2020 RMB'000	2019 RMB'000
Earnings		
Profit attributable to ordinary equity holders of the parent, used in the basic earnings per share calculation	**206,738**	106,028

Net loss from a fair value adjustment	**(3,000)**	(4,000)
Carrying amount at 31 December	**138,000**	141,000

The Group's investment properties consist of three commercial properties in China. The directors of the Company have determined that the investment properties consist of two classes of assets, i.e., retail and office, based on the nature, characteristics and risks of each property. The Group's investment properties were revalued on 31 December 2020 based on valuations performed by DTZ Debenham Tie Leung Limited ("**DTZ**"), an independent professionally qualified valuer, at RMB138,000,000 (2019: RMB141,000,000).

The investment properties are leased to third parties under operating leases, further summary details of which are included in note 16 to the financial statements.

At 31 December 2020, the Group's investment properties with a carrying value of RMB138,000,000 (2019: RMB141,000,000) were pledged to secure bank loans granted to the Group (note 30).

During the year, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 (2019: Nil).

14. INVESTMENT PROPERTIES *(continued)*

Fair value hierarchy *(continued)*

Reconciliation of fair value measurements categorised within Level 3 of the fair value hierarchy:

	Retail properties RMB'000	Office properties RMB'000
Carrying amount at 1 January 2019	100,000	45,000
Net loss from a fair value adjustment recognised in other expenses in the statement of profit or loss	(4,000)	—
Carrying amount at 31 December 2019 and 1 January 2020	96,000	45,000
Net loss from a fair value adjustment recognised in other expenses in the statement of profit or loss	(2,000)	(1,000)
Carrying amount at 31 December 2020	**94,000**	**44,000**

Below is a summary of the valuation techniques used and the key inputs to the valuation of investment properties:

Investment properties	Valuation techniques	Significant unobservable inputs	Range of unobservable inputs 2020	2019
Retail properties	Income approach	Prevailing market rents	**RMB24 to RMB121**	RMB25 to RMB117
		Yield rate	**7%**	7%
Office properties	Income approach	Prevailing market rents	**RMB79 to RMB122**	RMB79 to RMB122
		Yield rate	**7%**	7%

Prevailing market rents are estimated based on recent letting transactions within the subject properties and other comparable properties. A significant increase (decrease) in the estimated rental value in isolation would result in a significant increase (decrease) in the fair value of the investment properties. A significant increase (decrease) in the yield rate in isolation would result in a significant decrease (increase) in the fair value of the investment properties. Generally, a change in the assumption made for the estimated rental value is accompanied by an opposite change in the yield rate.

15. PROPERTIES UNDER DEVELOPMENT

At 31 December 2020, certain of the Group's properties under development with a carrying value of approximately RMB621,233,000 (2019: RMB525,945,000) were pledged to secure bank loans granted to the Group (note 30).

16. LEASES

The Group as a lessee

The Group has lease contracts for various items of properties, machinery and other equipment used in its operations. Lump sum payments were made upfront to acquire the leased land with lease periods of 40 years, and no ongoing payments will be made under the terms of these land leases. Leases of buildings generally have lease terms between 1.25 and 5 years. Machinery and other equipment generally have lease terms of 12 months or less and/or is individually of low value. Generally, the Group is restricted from assigning and subleasing the leased assets outside the Group.

(a) Right-of-use assets

The carrying amounts of the Group's right-of-use assets and the movements during the year are as follows:

	Prepaid land lease payments RMB'000	Buildings RMB'000	Total RMB'000
As at 1 January 2019	1,374	—	1,374
Additions	—	3,794	3,794

The maturity analysis of lease liabilities is disclosed in note 42 to the financial statements.

(c) The amounts recognised in profit or loss in relation to leases are as follows:

	2020 RMB'000	2019 RMB'000
Interest on lease liabilities	**40**	187
Depreciation of right-of-use assets	**1,194**	2,239
Expense relating to leases of low-value assets (included in selling and distribution expenses)	**—**	190
Expense relating to leases of low-value assets (included in administrative expenses)	**202**	220
Total amount recognised in profit or loss	**1,436**	2,836

(d) The total cash outflow for leases is disclosed in notes 37(b) to the financial statements.

16. LEASES *(continued)*

The Group as a lessor

The Group leases its investment properties (note 14), office buildings and completed properties held for sale under operating lease arrangements. The terms of the leases generally require the tenants to pay security deposits. Rental income recognised by the Group during the year was RMB14,293,000 (2019: RMB16,959,000), details of which are included in note 5 to the financial statements.

At 31 December 2020, the undiscounted lease payments receivable by the Group in future periods under non-cancellable operating leases with its tenants are as follows:

	2020 RMB'000	2019 RMB'000
Within one year	**7,455**	9,777
After one year but within two years	**5,213**	6,335

18. INVESTMENTS IN JOINT VENTURES

	2020 RMB'000	2019 RMB'000
Share of net assets	**2,846**	1,393

The Group's other receivable balances due from the joint ventures are disclosed in note 24 to the financial statements.

Particulars of the Group's joint ventures are as follows:

Company	Place of incorporation/ registration and business	Nominal value of issued/ registered share capital	Percentage of ownership interest attributable to the Group	Principal activities
Shanxi Greentown Property Service Co., Ltd. ("**Shanxi Greentown Property**")	PRC/ Mainland China	RMB 6,000,000	49	Property management
Shenzhen Runchen Xinghua Industrial Development Partnership (Limited Partnership) ("**Runchen Xinghua**")	PRC/ Mainland China	RMB 500,000,000	50.1	Investment advisory

The above investments are held by an indirectly wholly-owned subsidiary of the Company.

In the opinion of the directors, the joint ventures are not material to the Group. The joint ventures are accounted for using the equity method and there is no quoted market price available for its shares.

The following table illustrates the aggregate financial information of the Group's joint ventures that are not individually material:

	2020 RMB'000	2019 RMB'000
Share of the joint ventures' profit for the year	**1,453**	1,198
Share of the joint ventures' total comprehensive income	**1,453**	1,198

Impairment during the year	**(5,440)**	(816)
Carrying amount at 31 December	**931,224**	411,983

At 31 December 2020, certain of the Group's completed properties held for sale with a carrying value of approximately RMB87,220,000 (2019: RMB60,521,000) were pledged to secure bank loans granted to the Group (note 30).

23. TRADE RECEIVABLES

	2020 RMB'000	2019 RMB'000
Trade receivables	**4,852**	5,960
Impairment	**(533)**	(281)
	4,319	5,679

The Group's trading terms with its customers are mainly on credit. The credit period is generally one month to one year. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are reviewed regularly by senior management. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

	2020 RMB'000	2019 RMB'000
Within 3 months	**502**	5,170
3 to 6 months	**3,392**	—
Over 6 months	**425**	509
	4,319	5,679

23. TRADE RECEIVABLES *(continued)*

The movements in the loss allowance for impairment of trade receivables are as follows:

	2020 RMB'000	2019 RMB'000
At beginning of year	**281**	—
Impairment losses (note 7)	**252**	281
At end of year	**533**	281

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about current conditions and forecasts of future economic conditions. The loss rate applied as at 31 December 2020 was assessed to be minimal.

24. PREPAYMENTS, OTHER RECEIVABLES AND OTHER ASSETS

	Note	2020 RMB'000	2019 RMB'000
Prepayments		**58,643**	13,072
Prepayments for land use rights		**528,444**	355,087
Deposits and other receivables		**530,880**	345,196

Loans to an associate		**-**	128,739
Due from joint ventures		**246**	516
Cost to obtain contracts	(a)	**73,499**	71,205
Other tax recoverable		**228,056**	233,647
		1,446,561	1,154,455
Impairment allowance		**(17,075)**	(12,146)
		1,429,486	1,142,309

Note:

(a) Cost to obtain contracts are initially recognised for revenue earned from the sale of completed properties. Included in cost to obtain contracts for the sale of completed properties are sales commission and stamp duty. When the revenue from the related property sale is recognised, the amount recognised as cost to obtain contracts is charged out to selling and distribution expenses and administrative expenses. The increase in cost to obtain contracts in 2020 was the result of the increase in the ongoing sale of properties at the end of the year. As at 31 December 2020 and 2019, the loss allowance was assessed to be minimal.

The expected timing of recovery or settlement for cost to obtain contracts as at 31 December is as follows:

	2020 RMB'000	2019 RMB'000
Within one year	**73,499**	30,015
After one year	**-**	41,190
Total cost to obtain contracts	**73,499**	71,205

24. PREPAYMENTS, OTHER RECEIVABLES AND OTHER ASSETS *(continued)*

The movements in the loss allowance for impairment of other receivables are as follows:

	2020 RMB'000	2019 RMB'000
At beginning of year	12,146	1,140
Acquisition of a subsidiary	—	9,976
Impairment losses (note 7)	4,929	1,030
At end of year	17,075	12,146

Deposits and other receivables mainly represent deposits with suppliers and governments. Expected credit losses are estimated by applying a loss rate approach with reference to the historical loss record of the Group. The loss rate is adjusted to reflect the current conditions and forecasts of future economic conditions, as appropriate. The loss rate applied as at 31 December 2020 and 2019 was assessed to be minimal.

The financial assets included in the above balances relate to receivables for which there was no recent history of default and past due amounts. As at 31 December 2020 and 2019, the loss allowance was assessed to be minimal.

25. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

	2020 RMB'000	2019 RMB'000
Unlisted investments, at fair value	—	1,500

The above unlisted investments were wealth management products issued by banks in Mainland China and bore expected yield rates of 1.1% to 3.8% (2019: 2.3% to 4.7%) per annum upon maturity in the current year. They were mandatorily classified as financial assets at fair value through profit or loss as their contractual cash flows are not solely payments of principal and interest.

26. CASH AND CASH EQUIVALENTS AND PLEDGED DEPOSITS

	2020 RMB'000	2019 RMB'000

31. DEFERRED TAX *(continued)*

For presentation purposes, certain deferred tax assets and liabilities have been offset in the statement of financial position. The following is an analysis of the deferred tax balances of the Group for financial reporting purposes:

	2020 RMB'000	2019 RMB'000
Net deferred tax assets recognised in the consolidated statement of financial position	**224,166**	225,551
Net deferred tax liabilities recognised in the consolidated statement of financial position	**(23,823)**	(12,846)

Deferred tax assets have not been recognised in respect of the following item:

	2020 RMB'000	2019 RMB'000
Tax losses	**63,968**	40,788

The above tax losses are available indefinitely for offsetting against future taxable profits of the companies in which the losses arose. Deferred tax assets have not been recognised in respect of the above items as it is not considered probable that taxable profits will be available against which the above items can be utilised.

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprise established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty/arrangement between Mainland China and the jurisdiction of the foreign investors and the foreign investors are the beneficial owners of the dividends. The Group is therefore liable to withholding taxes on dividends distributed by those foreign invested subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008. For the Group, the applicable rate is 10%.

Deferred tax liabilities are recognised based on the estimated dividend to be distributed from the distributable earnings for the year ended 31 December 2020 from the subsidiaries established in Mainland China. In the opinion of the directors, it is not probable that these subsidiaries established in Mainland China will distribute the remaining earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised was approximately RMB687,873,000 as at 31 December 2020 (2019: RMB578,013,000).

31. DEFERRED TAX *(continued)*

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

33. RESERVES

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity on pages 290 to 291 of the financial statements.

Statutory surplus reserve

In accordance with the Company Law of the PRC, certain subsidiaries of the Group which are registered in the PRC as domestic enterprises are required to allocate 10% of their profit after tax, as determined in accordance with the relevant PRC accounting standards, to their respective statutory surplus reserves until the reserves reach 50% of their respective registered capital. Subject to certain restrictions set out in the Company Law of the PRC, part of the statutory surplus reserves may be converted to increase share capital, provided that the remaining balance after the capitalisation is not less than 25% of the registered capital.

Capital reserve

Capital reserve of the Group represents the aggregate amount of the paid-up capital of those companies comprising the Group prior to the incorporation of the Company.

On 12 September 2013, Sichuan Changxing (Holdings) Limited ("**Sichuan Changxing**") injected additional capital of RMB139,200,000 into Chen Xing Sichuan. Upon completion of the capital contribution, the shareholding of the Group in Chen Xing Sichuan decreased from 100% to 83.89%. The difference between the contributed amount of RMB139,200,000 net of tax of RMB1,375,000 and the share of net assets of Chen Xing Sichuan by Sichuan Changxing was recorded as capital reserve.

On 24 December 2014 and as part of the reorganisation, the Group acquired Chen Xing from the shareholders of Chen Xing at a cash consideration of RMB203,809,000, which was fully paid in January 2015.

38. CONTINGENT LIABILITIES

At the end of the reporting period, contingent liabilities not provided for in the financial statements were as follows:

	2020 RMB'000	2019 RMB'000
Guarantees given to banks in respect of mortgage facilities granted to the purchasers of the Group's properties	**2,477,533**	1,796,911

The Group provided guarantees in respect of mortgage facilities granted by certain banks to the purchasers of the Group's completed properties held for sale. Pursuant to the terms of the guarantee arrangements, in case of default on mortgage payments by the purchasers, the Group is responsible for repaying the outstanding mortgage loans together with any accrued interest and penalty owed by the defaulted purchasers to those banks. The Group is then entitled to take over the legal titles of the related properties. The Group's guarantee period commences from the date of grant of the relevant mortgage loan and ends at the execution of individual purchaser's collateral agreement.

The Group did not incur any material losses during the reporting period in respect of the guarantees provided for mortgage facilities granted to the purchasers of the Group's completed properties held for sale. The directors considered that in case of default on payments, the net realisable value of the related properties would be sufficient to repay the outstanding mortgage loans together with any accrued interest and penalty, and therefore no provision has been made in connection with the guarantees.

40. FINANCIAL INSTRUMENTS BY CATEGORY *(continued)*

The carrying amounts of each of the categories of financial instruments as at the end of the reporting period are as follows: *(continued)*

2019

Financial liabilities

	Financial liabilities at amortised cost RMB'000
Trade payables	1,036,422
Financial liabilities included in other payables and accruals	140,579
Interest-bearing bank and other borrowings	2,816,034
	3,993,035

41. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, restricted bank balances, trade receivables, financial assets included in prepayments, other receivables and other assets, trade payables, financial liabilities included in other payables and accruals and the current portion of interest-bearing bank and other borrowings, approximate to their carrying amounts largely due to the short term maturities of these instruments.

The Group's corporate finance team headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The corporate finance team reports directly to the board of directors. At each reporting date, the corporate finance team analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer. The valuation process and results are discussed with the board of directors twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a currant transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of the financial assets at fair value through profit or loss, which represent wealth management products issued by banks in Mainland China, have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for financial assets at fair value through profit or loss as at the end of the reporting period was assessed to be insignificant.

The fair values of listed equity investments are based on quoted market prices. The directors believe that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statement of financial position, and the related changes in fair values, which are recorded in other comprehensive income, are reasonable, and that they were the most appropriate values at the end of the reporting period.

Management has assessed that the fair values of the non-current portion of interest-bearing bank and other borrowings approximate to their carrying amounts largely due to the fact that such borrowings were made between the Group and an independent third party financial institution based on prevailing market interest rates.

41. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS *(continued)*

Fair value hierarchy

The following tables illustrate the fair value measurement hierarchy of the Group's financial instruments:

Assets measured at fair value:

As at 31 December 2020

	Fair value measurement using			
	Quoted prices in active markets (Level 1) RMB'000	Significant observable inputs (Level 2) RMB'000	Significant unobservable inputs (Level 3) RMB'000	Total RMB'000

Financial assets at fair value through profit or loss	–	1,500	–	1,500
	62,898	1,500	–	64,398

41. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS *(continued)*

Fair value hierarchy *(continued)*

The Group did not have any financial liabilities measured at fair value as at 31 December 2020 and 2019.

During the year, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 for both financial assets and financial liabilities (2019: Nil).

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments mainly include cash and bank balances, pledged deposits, trade receivables and trade payables, which arise directly from its operations. The Group has other financial assets and liabilities such as interest-bearing bank and other borrowings, other receivables and other payables. The main purpose of these financial instruments is to raise finance for the Group's operations.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. Generally, the Group introduces conservative strategies on its risk management. To keep the Group's exposure to these risks to a minimum, the Group has not used any derivatives and other instruments for hedging purposes. The Group does not hold or issue derivative financial instruments for trading purposes. The chief financial officer reviews and agrees policies for managing each of these risks and they are summarised below:

Interest rate risk

The Group's exposure to risk for changes in market interest rates relates primarily to the Group's interest-bearing bank and other borrowings set out in note 30. The Group does not use derivative financial instruments to hedge interest rate risk. The Group manages its interest cost using variable rate bank borrowings.

The following table demonstrates the sensitivity to a reasonably possible change in the RMB interest rate, with all other variables held constant, of the Group's profit before tax (through the impact on floating rate borrowings).

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(continued)*

Interest rate risk *(continued)*

	Increase/ (decrease) in basis points	Increase/ (decrease) in profit before tax RMB'000
2020		
RMB	0.5%	(18,259)
RMB	(0.5%)	18,259
2019		
RMB	0.5%	(11,170)
RMB	(0.5%)	11,170

Foreign currency risk

Foreign currency risk is the risk of loss resulting from changes in foreign currency exchange rates. Fluctuations in exchange rates between the RMB and other currencies in which the Group conducts business may affect the Group's financial condition and results of operations. The Group seeks to limit its exposure to foreign currency risk by minimising its net foreign currency position.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the Hong Kong dollar exchange rate, with all other variables held constant, of the Group's profit before tax (due to changes in the fair value of monetary assets and liabilities).

	Increase/ (decrease) in HK$ rate %	Increase/ (decrease) in profit before tax RMB'000
2020		
If the RMB weakens against the HK$	5	7,202
If the RMB strengthens against the HK$	(5)	(7,202)
2019		
If the RMB weakens against the HK$	5	7,765
If the RMB strengthens against the HK$	(5)	(7,765)

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(continued)*

Credit risk

Credit risk is the risk of loss due to the inability or unwillingness of a counterparty to meet its contractual obligations.

The Group has no concentrations of credit risk in view of its large number of customers. The Group did not record any significant bad debt losses during the reporting period.

The credit risk of the Group's other financial assets, which mainly comprise pledged deposits and other receivables, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

Liquidity risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of interest-bearing bank, lease liabilities and other borrowings. Cash flows are closely monitored on an ongoing basis.

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(continued)*

Liquidity risk *(continued)*

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on contractual undiscounted payments, is as follows:

31 December 2020

	On demand RMB'000	Less than 3 months RMB'000	3 to 12 months RMB'000	1 to 5 years RMB'000	Total RMB'000
Interest-bearing bank and other borrowings (excluding lease liabilities)	—	238,736	1,940,276	775,178	2,954,190

Liquidity risk *(continued)*

31 December 2019

	On demand RMB'000	Less than 3 months RMB'000	3 to 12 months RMB'000	1 to 5 years RMB'000	Total RMB'000
Interest-bearing bank and other borrowings (excluding lease liabilities)	—	95,150	556,430	2,529,025	3,180,605
Trade payables	1,036,422	—	—	—	1,036,422
Lease liabilities	—	629	447	530	1,606
Financial liabilities included in other payables and accruals	140,579	—	—	—	140,579
	1,177,001	95,779	556,877	2,529,555	4,359,212
Financial guarantees issued: Maximum amount guaranteed (note 38)	1,796,911	—	—	—	1,796,911

The amounts included above for financial guarantee contracts are the maximum amounts the Group could be required to settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantee. Based on expectations at the end of the reporting period, the Group considers that it is more likely than not that no amount will be payable under the arrangement.

42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(continued)*

Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain a strong credit rating and healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure, which includes total equity, and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2020 and 31 December 2019.

The Group monitors capital using a gearing ratio, which is total debt divided by total equity. Total debt includes interest-bearing bank and other borrowings. The gearing ratios as at the end of the reporting periods were as follows:

	2020 RMB'000	2019 RMB'000
Interest-bearing bank and other borrowings	**2,740,859**	2,816,034
Total debt	**2,740,859**	2,816,034
Total equity	**1,609,601**	1,374,585
Gearing ratio	**170.28%**	204.86%
