# 主席報告

Looking back to 2020, the global outbreak of COVID-19 has had a great impact on the economic development and personal lives around the world. According to the forecast of the International Monetary Fund, the global economy may be subject to a contraction of 4.4% in 2020. In response to the epidemic, countries and regions around the world have adopted various restrictions and measures to reduce the negative effects of the epidemic in their own countries and regions. As a result, global manufacturing, commerce, logistics and consumption have all experienced decline of varying degrees. The Company was also affected by the decline in market demand in the early stage of the epidemic.

However, fortunately, there are opportunities amidst any crisis. Benefiting from the Company's deep cooperation with business partners for many years and the unremitting efforts of all employees of the Company, the Company still provided high-quality international logistic services to customers around the world despite the influence of the epidemic. Air freight, as the Company's largest business segment, has grown against the trend in 2020, and achieved substantial increases in terms of both cargo volume and revenue. Due to the outstanding market performance, the Company's results also performed well, and many financial indicators achieved historic breakthroughs.

Meanwhile, as a part of global trade, the Company also made outstanding contributions to the fight against the epidemic in countries around the world. Since the beginning of the epidemic, the Company has cooperated with partners and YTO Airlines in assisting governments, institutions, and enterprises in various countries to complete global procurement of medical and personal protective materials, and delivered the same in a timely and safe manner, which won high recognition and praise from the market and customers for the Company and was also an important manifestation of the Company's courage to fulfill corporate social responsibility.

# LOOKING TO THE FUTURE

The year 2021 is the beginning of the Company's new five-year strategic plan. The new journey is under our feet and full of opportunities and challenges. Although the epidemic has made the future full of uncertainties, the Company still firmly believes that the forthcoming future is bright. With the large-scale vaccination of the COVID-19 vaccine around the world, the global economy will recover to a certain extent in 2021, and the Company will also face more challenges and opportunities. Therefore, the Company will continue to increase efforts for international development, implement the globalization strategy of "going global with the "Belt and Road" initiative", "going global with the cross-border e-commerce business" and "going global with the Chinese enterprises", and increase investment in terms of global network construction, logistic infrastructure, information system, and talent reserve.

# 危中有機

與此同時,作為全球貿易的一份子,公司亦到世界各國抗擊疫情做出了傑出的領域。蘇於情初,公司聯合合作夥伴、圓通航空等協助各國政府、機構、以及企業完成全球醫療及個人防護物資採購,並及時安全交付與舉公司獲得了市場以及客戶高度認的重要,亦是公司勇於承擔企業社會責任的重要表現。

# 展望未來

# CHAIRMAN'S STATEMENT 主席報告

The Company will also always pay attention to the development of the current international trade pattern, to seize opportunities and move forward. The Company is of the view that the signing of important agreements including the China-EU Comprehensive Agreement on Investment and the Regional Comprehensive Economic Partnership (RCEP) will also further stimulate the development of international trade in China, Europe and Asia. Therefore, the Company will also increase investment in key countries and regions to improve logistic service capabilities and quality, thus to provide global partners with customized supply chain solutions of better quality.

公司亦時刻關注當前國際貿易格局的發展, 抓住機遇,奮勇向前。隨著中歐路內資協 區域全面經濟伙伴關係協定(RCEP)等重數 議的簽署,公司認為此舉亦會進一步刺激中 歐、亞洲地區的國際貿易發展。因此, 也將對重點國家及地區加大投資,提升 流服務能力與質量,為全球的合作夥伴 供更優質、定制化的供應鏈解決方案。

## THANK YOU

I hereby would like to express my gratitude and appreciation to our Shareholders for their confidence and supports, each member of the Board for their valuable opinions as well as our management team and fellow employees for their efforts and contributions. I am looking forward to the full commitment of all staff members in 2021, striving for achieving the vision of "The World is Within Your Reach".

#### **BUSINESS REVIEW**

The Board announces the audited annual results of the Group for the FY2020. During the FY2020, global economy and consumption suffered unprecedented hit due to the outbreak of COVID-19, resulting in a decrease in overall demand for logistics and freight forwarding services. Nonetheless, the increase in demand for health care and medical supplies contributed to a large portion of the Group's revenue and led to a substantial increase in the net profit during the FY2020.

With the positive advancement of vaccination plans in various countries and regions, the impact of the COVID-19 pandemic may gradually weaken in 2021, thus the Company keeps a prudent and optimistic attitude regarding the impact of the COVID-19 pandemic for the year ending 31 December 2021. According to the statistics from the World Health Organization, as of January 2021, the vaccination of the COVID-19 vaccines around the world has surpassed the total number of COVID-19 infected cases, meaning the COVID-19 pandemic may be well under control within this year. Accordingly, the Group considers the following key factors require our particular attention for the year ending 31 December 2021.

# The impact of the pandemic remains in the short run with the demand for the pandemic prevention supplies continues

Though the progress of the vaccination plans is beyond expectations, the emerging virus variants still bring uncertainties over the current pandemic prevention policies. According to the weekly epidemiological update recently published by the World Health Organization, the virus variant VOC 202012/01 founded in the UK spreads more rapidly, and it may cause an adverse impact on the current pandemic prevention. Therefore, it is expected that the demand for the pandemic prevention supplies from 2020 will continue in 2021.

# 業務回顧

董事會宣佈本集團於二零二零年財政年度的經審核年度業績。於二零二零年財政年度,由於COVID-19爆發,全球經濟及消費均受到前所未有的打擊,對物流及貨運代理服務的整體需求有所下降。然而,於二零二零年財政年度,健康及醫療用品的需求上升為本集團大部分收益作出了貢獻,並導致純利大幅增加。

鑒於各國及地區疫苗接種計劃的積極推進,COVID-19疫情影響或將在二零二一年開始逐漸減弱。因此,本公司對COVID-19疫情在截至二零二一年十二月三十一日止年度的影度。根據世界衛生組織統計,截至二零二一年一月,全球COVID-19疫苗接種量已超COVID-19感染者總數,意味著COVID-19疫情或將在今年內得到極大性制。據此,本集團認為在截至二零二一年十二月三十一日止年度有以下關鍵因素需要重點關注。

# 疫情影響短期內仍然存在,防疫物資需 求或將持續

雖然疫苗接種計劃已經超預期推進,但是層出不窮的變異病毒仍然對當前防疫政策產生較多不確定因素。根據世衛組織發明的變異病毒VOC 202012/01傳染性更強,可能會對當前防疫產生不利影響。因此,預期二零二一年將承接二零二零年趨勢,防疫物資需求仍存在。

管理層討論及分析

# Global vaccination will drive the needs for new logistics

According to a market research conducted by a market research institution, the vaccination needs around the world will exceed 10 billion doses, which requires approximately 200,000 pallet shipments, 15 million cold container shipments, and 15,000 full flights of Boeing 747 freighter aircraft to deliver. The demand will urge stricter requirements on international logistic companies to satisfy the progress of global vaccination plans, and may promote a new international logistics industry.

# Consumer behavior affected by the pandemic and the e-commerce penetration rate may be further strengthened

According to the global research report released by a world's leading payment and technology company, an increasing number of consumers globally choose online shopping to meet their daily purchasing needs for safety concerns and due to the closure of physical shops. The trend that the consumers embrace e-commerce and digital payment will continue to surge after the pandemic, so the Group believes that this trend will further promote its business expansion in international express and parcel services.

# The post-pandemic effect will further strengthen the central role of "Made in China"

Benefiting from the control over the pandemic, China took the lead to leave the shadows of the pandemic behind. According to the National Bureau of Statistics of China, the total trading import and export value of goods in China amounted to US\$4,646.26 billion in 2020, which increased by 1.5% year-on-year. Of which, the export value amounted to US\$2,590.65 billion, increased by 3.6% year-on-year. With the recovering situation of the pandemic, Chinese manufacturing may secure more global market share and increase its proportion in the global manufacturing industry, thereby further improve the growth for the international export logistics needs in China.

# 業務回顧(續)

# 全球疫苗接種促生新物流需求

根據一家市場調研機構進行的市場調研顯示,全球範圍內的疫苗需求將超過100億劑,需要約20萬次托盤裝運、約1,500萬次冷卻箱運送以及約1.5萬架次滿載的波音747全貨機進行運輸。這將對國際物流企業提出更嚴苛的要求來滿足全球疫苗計劃推進,或促生新國際物流產業。

# 消費行為受疫情影響,電子商務渗透率 或持續深化

根據全球領先的支付科技公司發佈的全球調研報告顯示,出於安全基別及受的店費服務等,全球範圍內有越來越多的消費權間內有越來,消費者加速推開來滿足日常所需,消費者加速獲置商和數字支付的這一趨勢,為必將在疫情結束之後持續加速。因此,本集團認為服務的業務拓展。

# 後疫情影響將進一步鞏固「中國製造」中心地位

得益於疫情控制,中國率先走出疫情的陰霾。根據中國國家統計局報告,二零二零二中國貨物貿易進出口總值46,462.6億美元,同比增長1.5%。其中,出口25,906.5億美元,同比增長3.6%。在疫情逐漸轉好的場份景下,中國製造或將奪取更多全球市場份額,全球製造業佔比將再獲提升,從而進一步帶動中國國際出口物流需求增長。

# **Financial Results**

The Group recorded revenue of about HK\$5,048.1 million during the FY2020 (FY2019: about HK\$3,897.9 million), representing an increase of about 29.5%. Gross profit amounted to about HK\$772.6 million during the FY2020 (FY2019: about HK\$550.9 million), representing an increase of about 40.2%. Gross profit margin during the FY2020 was about 15.3% (FY2019: about 14.1%). Net profit was about HK\$255.9 million during the FY2020 (FY2019: about HK\$28.6 million), representing an increase of about 794.8% while the net profit attributable to equity shareholders of the Company increased by about 866.3% to about HK\$252.2 million during the FY2020 (FY2019: about HK\$26.1 million). As disclosed in the interim report of the Company, the net profit attributable to equity shareholders of the Company for the first half of 2020 increased significantly to about HK\$95.5 million compared to HK\$5.1 million for the first half of 2019, representing a period-on-period increase of about 1,772.5%. The increased in profit for the first half of 2020 was mainly due to (a) the demand for health care and medical supplies have increased substantially due to the COVID-19 pandemic in Europe and the United States. Benefiting from the business transaction of its overseas subsidiaries and the business network of its overseas freight forwarder business partners, the Group has secured plenty of business of providing air freight chartering service; (b) although the number of flights has decreased significantly under the COVID-19 pandemic, benefiting from the established and sound business relationship with airlines, the Group was able to secure cargo space to satisfy its customers demand. In the second half of 2020, the outbreak of COVID-19 continued. While the net profit attributable to equity shareholders of the Company continued to increase in the second half of 2020 due to the reasons set out above. In addition, the increase of the net profit attributable to equity shareholders of the Company in FY2020 was also due to the fact that for the year ended 31 December 2019, the Group recognised an impairment loss on goodwill and intangible asset of about HK\$20.0 million arising from the acquisition of 翼尊國際貨運代理(上海)有限公司 (Best Loader Logistics (Shanghai) Company Limited\*) ("Best Loader Shanghai"), which has ceased its business in 2020. As a result, the net profit attributable to equity shareholders of the Company for the second half of 2020 was about HK\$156.7 million compared to HK\$21.0 million for the second half of 2019, representing a period-on-period increase of about 646.2%.

# 財務業績

本集團於二零二零年財政年度錄得收益約 5,048.1百萬港元(二零一九年財政年度:約 3.897.9百萬港元),增加約29.5%。毛利於二 零二零年財政年度上升約40.2%至約772.6百 萬港元(二零一九年財政年度:約550.9百萬 港元)。毛利率於二零二零年財政年度約為 15.3% (二零一九年財政年度:約14.1%)。於 二零二零年財政年度, 純利增加約794.8%至 約255.9百萬港元(二零一九年財政年度:約 28.6百萬港元),而本公司權益股東應佔純利 於二零二零年財政年度上升約866.3%至約 252.2百萬港元(二零一九年財政年度:約26.1 百萬港元)。誠如本公司的中期報告所披露, 二零二零年上半年本公司權益股東應佔純利 較二零一九年上半年的5.1百萬港元大幅增加 至約95.5百萬港元,按期增加約1,772.5%。 二零二零年上半年溢利增加乃主要由於(a)歐 美COVID-19疫情下對於健康及醫療用品的 需求大幅上升,得益於海外附屬公司業務 往來及海外貨運代理業務合作夥伴的業務 網絡,本集團大量提供包機業務;及(b)儘管 COVID-19疫情下空運航班數量大幅減少, 受惠於與航空公司的長期合作及良好業務 關係,本集團能獲得倉位保障以滿足客戶需 求。於二零二零年下半年,COVID-19持續爆 發。然而,本公司權益股東應佔純利於二零 二零年下半年因上述原因持續增長。此外, 本公司權益股東應佔純利於二零二零年財政 年度增加亦因本集團於截至二零一九年十二 月三十一日止年度確認收購翼尊國際貨運代 理(上海)有限公司(「翼尊上海」)所產生的商 譽及無形資產減值虧損約20.0百萬港元,該 公司已於二零二零年終止其業務。因此,二 零二零年下半年本公司權益股東應佔純利較 二零一九年下半年的21.0百萬港元大幅增加 至約156.7百萬港元,按期增加約646.2%。

# Segmental Analysis

The Group's core businesses are air and ocean freight forwarding, complemented by the ancillary and contract logistics services (including warehousing, distribution and customs clearance), international express and parcel services and other businesses (comprising combine shipments, trucking, general sales agency and hand-carry services). The comprehensive range of services offered by the Group enables the Group to meet diverse customers' needs and provide cross-selling opportunities.

## Air Freight

The air freight forwarding business continued to constitute the largest business segment of the Group, representing about 60.7% of the Group's total revenue during the FY2020 (FY2019: about 56.5%). It principally involves arranging shipment upon receipt of booking instructions from customers, obtaining cargo space from airlines, preparing the relevant documentation, and upon delivery to the destination, arranging customs clearance and cargo handling. The Group is well recognised in the logistics industry, having received numerous accolades from international organisations and major airlines since 2000, including "Top Agent Award" from Cathay Pacific Cargo each year since 2006. Consequently, the Group has become the preferred business partner of renowned companies from around the world, hailing from the garment, footwear and electronic industries, delivery of small parcels for e-commerce business and among others.

During the FY2020, the air freight forwarding business recorded revenue of about HK\$3,062.5 million (FY2019: about HK\$2,201.9 million), representing an increase of about 39.1%. Gross profit of the segment also increased from about HK\$238.6 million during the FY2019 to about HK\$455.2 million during the FY2020, representing an increase of about 90.8%. In respect of air import and export tonnage, the Group noted a total increase of tonnage of about 9.0% for the FY2020 when compared to the FY2019. During the FY2020, the Group opened 1 office in Hong Kong and 2 offices in Vietnam, and closed 3 offices in Hong Kong, 3 offices in China, 4 offices in other Asia countries and one office in Hungary. The Group also disposed a subsidiary in Canada in June 2020. As such, 44 offices around the world remained as at 31 December 2020, out of which 40 offices are located in 11 Asian countries and territories, comprising Hong Kong, the PRC, Cambodia, India, Indonesia, Japan, Malaysia, Singapore, Thailand, the United Arab Emirates and Vietnam, one office in Europe and three offices in America.

# 業務分部分析

本集團的核心業務為空運及海運貨運代理,並提供配套及合約物流服務(包括倉儲、配送及清關)、國際快遞及包裹服務以及其他業務(包括合併付運、貨車運輸、一般銷售代理及手提急件服務)。本集團提供的完善服務讓本集團得以滿足客戶多元化的需求,並能提供交叉銷售的機會。

#### 空運

空運貨運代理業務於二零二零年財政年度錄 得收益約3,062.5百萬港元(二零一九年財政 年度: 約2,201.9百萬港元),增加約39.1%。 此業務分部的毛利亦由二零一九年財政年度 約238.6百萬港元增加至二零二零年財政年度 約455.2百萬港元,增幅約90.8%。以空運進 口及出口噸數計,本集團於二零二零年財政 年度錄得噸數較二零一九年財政年度合共增 加約9.0%。於二零二零年財政年度內,本集 團開設一個位於香港的辦事處及兩個位於 越南的辦事處,以及關閉三個位於香港的辦 事處、三個位於中國的辦事處、四個位於其 他亞洲國家的辦事處及一個位於匈牙利的辦 事處。本集團亦於二零二零年六月出售一間 位於加拿大的附屬公司。因此,於二零二零 年十二月三十一日,全球仍有44個辦事處, 當中40個辦事處位於亞洲11個國家及地區, 包括香港、中國、柬埔寨、印度、印尼、日 本、馬來西亞、新加坡、泰國、阿聯酋及越 南,一個位於歐洲及三個位於美洲。

管理層討論及分析

# Segmental Analysis (continued)

# Ocean Freight

Contributing about 16.2% of the Group's total revenue during the FY2020 (FY2019: about 21.9%), the ocean freight forwarding business principally involves organising shipments, arranging customs clearance and haulage services. The established relationships with trade partners and shipping lines, together with the in-house tailored freight operations system, have enabled the Group to capture the ocean freight market growth. During the FY2020, revenue of ocean freight segment slightly decreased by about 4.4% year-on-year to about HK\$817.4 million (FY2019: about HK\$855.3 million). Gross profit decreased to about HK\$138.5 million during the FY2020 (FY2019: about HK\$170.6 million), representing a decrease of about 18.8%. During the FY2020, the Group noted a decrease of tonnage of about 21.2% in respect of ocean freight shipping volume handled by the Group, which is due to the decrease in the demand in ocean freight services during COVID-19 pandemic.

#### **Ancillary and Contract Logistics Services**

Accounting for about 1.6% of the Group's total revenue during the FY2020 (FY2019: about 2.1%), the ancillary and contract logistics services segment includes warehousing, distribution and customs clearance. Warehousing includes pick and pack, labelling, quality inspection, sorting, pick-up and delivery services for export shipments from the shipper's location to the outgoing port and delivery of import shipments from arrival at the incoming port to the consignee's location. It is supported by the Group's information technology platform, which allows customers to conveniently trace inventory levels, incoming and outgoing shipments and other information online. During the FY2020, the Group sought to further adjust its warehouse operation and enhance its transshipment capacities to cope with the market conditions. This segment result was reflected with revenue of about HK\$82.8 million during the FY2020 (FY2019: about HK\$81.6 million), representing an increase of about 1.5%.

# **International Express and Parcel Services**

International express and parcel services which mainly consist of cross-border small parcels business is one of the Company's emerging businesses in recent years and also one of the Company's important strategic segments to respond to the booming of global cross-border e-commerce. It represents about 18.9% of the revenue of the Group for the FY2020 (FY2019: about 16.5%). The Company pays continuous attention to the cross-border e-commerce market and consumer needs, and provides high-quality cross-border parcel logistic services for e-commerce platforms, merchants, and consumers.

## Segmental Analysis (continued)

## International Express and Parcel Services (continued)

The Group responded actively to changes in markets and competitive landscapes and proactively developed the international express and parcel services market during the FY2020. Benefiting from the rapid development of e-commerce in Southeast Asia, the continuous deepening of the cooperation with Hangzhou Cainiao Supply Chain Management Co., Limited and the development of new customers, revenue from international express and parcel services increased from about HK\$642.3 million during the FY2019 to about HK\$952.9 million during the FY2020, representing a significant increase of about 48.4%. During the FY2020, the Group has completed the delivery of about 77.5 million units in international express and parcel business (FY2019: about 74.7 million).

During the FY2020, the gross profit of international express and parcel services increased to about HK\$114.4 million (FY2019: about HK\$68.4 million) representing a significant growth of about 67.3%.

# Others

The other businesses include combined shipments, trucking, e-commerce business and hand-carry services, the latter of which involves time sensitive shipments that allow the Group to charge higher fees and consequently benefit from higher profits. During the FY2020, the other businesses recorded revenue of about HK\$132.6 million (FY2019: about HK\$116.8 million), representing an increase of about 13.5%, and gross profit of about HK\$36.4 million (FY2019: about HK\$20.4 million), representing an increase of about 78.4%.

#### 國際快遞及包裹服務(續)

二零二零年財政年度,本集團順應市場和競爭格局變化,積極開發國際快遞及包裹服務市場。得益於東南亞電子商務的急速發展、與杭州菜鳥供應鏈管理有限公司合作的裹服入及新客戶的開發,國際快遞及包裹的益從二零一九年財政年度約952.9百萬港元,大幅增長約48.4%。於二零二零年財政年度內,本集團累計完成國際快遞及包裹服務約77.5百萬件(二零一九年財政年度:約74.7百萬件)。

國際快遞及包裹服務毛利於二零二零年財政年度增加至約114.4百萬港元(二零一九年財政年度:約68.4百萬港元),大幅增長約67.3%。

# 其他

其他業務包括合併付運、貨車運輸、電子商務業務及手提急件服務,後者涉及運送時間要求較高的貨物,因此本集團可收取較高費用,並可獲得較高溢利。於二零二零年財政年度內,其他業務錄得收益約132.6百萬港元(二零一九年財政年度:約116.8百萬港元),增加約13.5%,而毛利約為36.4百萬港元(二零一九年財政年度:約20.4百萬港元),增加約78.4%。

# **Liquidity and Financial Resources**

The Group has centralised financing policies and control over all its operations which enables the Group to have a tight control of treasury operations and lower average cost of funds.

The Group's working capital as at 31 December 2020 was about HK\$750.5 million, representing a significant increase of about 58.7% from about HK\$473.0 million as at 31 December 2019. The current ratio of the Group increased from about 1.90 times as at 31 December 2019 to about 2.10 times as at 31 December 2020. As at 31 December 2020, the Group's bank balances and cash amounted to about HK\$491.9 million, representing an increase of about 82.9% from about HK\$269.0 million as at 31 December 2019. For the FY2020, the Group had operating cash inflow of about HK\$322.9 million (FY2019: operating cash inflow of about HK\$239.5 million). As at 31 December 2020, the Group's outstanding bank borrowings amounted to about HK\$1.1 million (as at 31 December 2019: about HK\$30.6 million). The gearing ratio of the Group was about 0.1% as at 31 December 2020 (as at 31 December 2019: 5.1%). The gearing ratio was calculated as total bank borrowings divided by total equity of the Group. As at 31 December 2020 and 2019, the Group maintained a net cash position. The Group will continue to secure financing as and when the need arises.

# Foreign Exchange Risk

In light of the nature of the Group's business, the Group is exposed to various foreign currency risks including RMB, USD, RM, SGD, THB, INR, EUR, GBP, CAD, JPY, VND, IDR, HUF, AED and TWD among which, RMB, EUR and USD are mostly used in the Group's business apart from HK\$. Nevertheless, the Group's operations are predominately subject to the fluctuations of RMB since HK\$ is pegged to USD. The Group did not use any derivative contracts to hedge against its exposure to currency risk during the FY2019 and the FY2020. The Group continued to exercise a strict control policy and did not engage in any speculative trading in debt securities or financial derivatives during the FY2020.

## Significant investments

During the FY2020, the Group did not hold any material investments.

Please refer to the announcement of the Company dated 1 June 2020 for details.

Saved as disclosed, there was no material acquisition or disposal of subsidiaries, associates or joint ventures of the Company during the FY2020.

# **PROSPECTS**

Looking forward to 2021, the Company believes that this year is still full of challenges and opportunities. In the latest issue of the Global Economic Prospects, the World Bank predicts that global output will recover in 2021 and is expected to increase by 4%, but it is much lower than the forecast before the pandemic. The impact of COVID-19 remains strong. With the gradual advancement of vaccination plans in various countries, the Group keeps a prudent and optimistic attitude towards the global economy in 2021, which is mainly based on the following key factors:

# The recovery of China's manufacturing and consumption promotes the recovery of international trade supply and demand

According to the GDP figure for 2020 announced by the Chinese government, China achieved an annual growth of 2.3% and may become the only major economy with positive growth in the world. The total value of China's imports and exports of trade in goods was RMB32.16 trillion, representing an increase of 1.9% as compared to that in 2019, and the scale of imports and exports hit a record high. The supply and demand of the global supply chain rely more on "Made in China" and the Chinese consumer market. For the Group, this will stimulate more market demand for the cross-border supply chains between China and other parts of the world.

# 前景

展望二零二一年,本公司認為今年仍是充滿挑戰與機遇的一年。世界銀行在最新一期全球經濟展望中預測,二零二一年全球產出將有所恢復,並預計增長4%,但遠低於疫情前的預測,COVID-19影響的餘威仍然強勁。隨著各國疫苗接種計劃的逐步推進,本集劃二零二一年全球經濟情況保持謹慎樂觀,其主要基於如下幾個關鍵因素:

# 中國生產製造以及消費的恢復推動國際 貿易供需回暖

根據中國政府公佈的二零二零年本地生產總值數字,其全年實現增長2.3%,或或貨幣工工增長的主要經濟體。中國貿易進出口總值32.16萬億元人民幣,比二高一九年增長1.9%,進出口規模創歷史新高之至球供應鏈供給與需求更多依賴「中國製造」以及中國消費市場,對於本集團而言,鏈的激發更多中國與全球各地間跨境供應鏈的市場需求。

# Regional Comprehensive Economic Partnership drives the development of intra-Asia trade

The Regional Comprehensive Economic Partnership ("RCEP") is one of the most important regional trade agreements in recent years. Among the current 15 member countries, the GDP is US\$26 trillion, the total population is 2.27 billion, and the total export value is US\$5.2 trillion. The signing of the RCEP free trade agreement will form a free trade zone with the largest population, the largest economic and trade scale, and the most development potential in the world today. The Company considers that the signing of RCEP will further reduce the operating costs of enterprises in the region, expand the market, and enhance the vitality of the regional economy. Secondly, RCEP will further strengthen cooperation between regional industrial chain supply chains and achieve mutual complementarity among regions and countries. Therefore, the cross-border supply chain demand in regions will be further released.

# The changes in global consumption habits as a result of the pandemic may promote the development of cross-border e-commerce

The retail industry experienced severe challenges from the pandemic in 2020. According to the forecast by a worldrenowned market research company, global retail sales would drop by about 3% in 2020, but the performance of e-commerce was still better than expected. Global retail e-commerce sales were expected to increase by 27.6%, showing that consumers shifted to e-commerce significantly last year. Affected by the changes in consumers' consumption habits, the development of cross-border e-commerce was also strongly promoted. The global cross-border B2C e-commerce trend report jointly released by AliResearch and Accenture predicted that the global cross-border B2C e-commerce transaction volume would reach US\$994 billion in 2020, benefiting 943 million global consumers. In particular, the Asia-Pacific region with China as the core ranked the first with a contribution of 53.6% in respect of increase in transaction amount. Benefiting from the rapid growth in demand from upstream industries, the international express and parcel market will see significant development in 2021.

# Aviation resources are still in short supply in the short term and may become the core competitiveness of international cross-border logistics

According to the observations of the International Air Transport Association, the performance indicators of the global air transport industry in 2021 will be improved as compared to 2020. The performance will experience a difficult situation in the first half of 2021, and will rebound in the second half. The association expects that the number of tourists will increase to 2.8 billion in 2021, representing an increase of 1 billion from the previous year, but is still 1.7 billion less than that in 2019, which means that the recovery of the transport capacity of passenger airplane bellyhold, which is one of the important supply sources of air freight, is still slow and the transport capacity will continue to be tight in the short term. In view of the increased business confidence and the important role air freight plays in vaccine distribution, it is expected that freight performance will have a strong performance and freight revenue will increase to a record level of US\$139.8 billion. Therefore, strong air freight cooperation and proprietary resources will become the core competitiveness in the international supply chain market.

To sum up, although the negative impact of COVID-19 is still strong, the Company is still of the view that, leveraging on its own advantages, resources of the parent company and cooperation with partners, it will seize the abovementioned opportunities, face the challenges, and achieve sustainable business growth. To cope with the needs and changes of the international supply chain, the Group will focus on the following aspects in 2021 to challenge higher goals in the face of the historical opportunities.

# Continue to strengthen agency network construction and enhance strategic partnerships

In the context of the global economic recession in 2020, the impressive results achieved by the Group were due to the deep cooperation with business partners for many years. Therefore, the Group will continue to promote and deepen existing partnerships under the existing strategic guidance, and develop more potential partners to enhance the Group's network and service coverage.

# 前景(續)

# 航空資源短期內仍然短缺,或成為國際 跨境物流核心競爭力

綜上所述,儘管COVID-19的負面影響仍然強勁,本公司依舊認為可以憑藉自身優勢、母公司資源以及合作夥伴一道,抓住上述機遇,直面挑戰,實現業務的持續增長。為應對國際供應鏈需求以及變革,本集團在二零二一年將在如下幾個方面著重發力,在歷史的契機下,向更高的目標發起挑戰。

## 持續增強代理網絡建設,提升戰略合作 夥伴關係

在二零二零年全球經濟衰退的背景下,本集 團仍然能取得如此驕人的成績,得益於與 商業夥伴多年深厚的合作關係。因此,本集 團將在既有戰略指引下,繼續推動、加深現 有合作夥伴關係,並開發更多潛在合作夥伴 以提升本集團網絡與服務覆蓋。

# PROSPECTS (continued)

# Continue to strengthen agency network construction and enhance strategic partnerships (continued)

For the existing agents in the current freight forwarding segment, the Group will further expand the scope of cooperation and share resources to enhance the strategic partnership. In particular, the Group will use its existing service capabilities, e.g. international express and parcel business, air chartering, warehousing, etc., to empower partners, enrich the product matrix of current agents, and work with them to enhance customer service capabilities to strive for more business and revenue. In addition, the Group also hopes to deepen the cooperation with current agents through resource sharing. The Group is willing to share the corporate brand influence in China and among overseas Chinese, the customer resources and aviation resources of the parent company 圓通速遞股份 有限公司 (YTO Express Group Co., Ltd\*, "YTO Express") with partners, and achieve the goal of new business growth together through joint sales, etc.

At the same time, the Group also wants to continue to expand the agency cooperation network in order to achieve broader business service capabilities. The Group will achieve complementarity with new partners in terms of capabilities and resources through various forms including strategic cooperation and authorized franchise, so as to achieve stronger business development capabilities and service coverage.

# Focus on the East Asian market and improve service capabilities in the region

The Group will take advantage of the RCEP to deepen its development in the East Asian market. Relying on many years of investment and development in East Asia, the Company operates a number of subsidiaries in the region and has strong brand influence and service capabilities. In 2021, the Group is willing to continue to increase investment in the region, to improve the full-chain service capabilities and logistic infrastructure construction in the region and expand the existing product matrix. The Group plans to enter more market segments, in particular the local logistic service market in Southeast Asia, through strategic cooperation, franchise authorization and proprietary construction, and use the advantages and capabilities of its parent company YTO Express in the local express service industry to quickly enter emerging markets in order to obtain higher business returns and build strong competitive advantages. At the same time, the Company will also utilise its investment in East Asia and unite its partners in North America and Europe to explore more potential cooperation opportunities, and take advantage of the vigorous development of East Asia to increase the proportion of business between East Asia and Europe and the United States and create new growth drivers for the Group.

# 前景(續)

# 持續增強代理網絡建設,提升戰略合作 夥伴關係(續)

與此同時,本集團亦希望繼續拓展代理合作網絡,以期實現更廣的業務服務能力。本集團將通過戰略合作、授權加盟等多種形式,實現與新合作夥伴的能力、資源互補,以期更強的業務拓展能力與服務覆蓋。

# 聚焦東亞市場,提升區域內服務能力

本集團將藉助RCEP的契機,深耕東亞市場。 憑藉本公司在東亞地區的多年投資與發展, 本公司在該地區運營多家子公司,擁有極強 的品牌影響力以及服務能力。在二零二一 年,本集團願意繼續加大該區域投資,提升 區域內全鏈路服務能力與物流基礎設施建 設,拓展現有產品矩陣。本集團計劃通過戰 略合作、加盟授權、自營搭建等方式,切入 更多細分市場,尤其是東南亞地區本土物流 服務市場,並利用母公司圓通速遞在本土 快遞服務業的優勢與能力,快速突破新興 市場以期獲得更高的業務回報,構建強大的 競爭優勢。同時,本公司也將利用在東亞的 投資並聯合公司於北美、歐洲等合作夥伴, 挖掘更多潛在合作機遇,藉助東亞蓬勃發 展的契機,提升在東亞區域與歐美間業務 比重,成為本集團新增長點。

# Seize the opportunities of Chinese enterprises' globalization to tap new overseas business

In the post-pandemic era, the Company believes that the globalization of Chinese manufacturing and Chinese companies will further accelerate, which will stimulate more needs for Chinese export logistics, including needs for general trade logistics and international express parcel businesses. Therefore, the Company will further tap the cross-border logistics needs of Chinese enterprises and build corresponding customized logistic services in line with the needs of customers, relying on the excellent brand and customer relationships with Chinese enterprises of the parent company YTO Express. At the same time, the Group also uses YTO Airlines' air freight resources to enhance the Group's core competitiveness in respect of international logistics. The Company expects that in 2021, it will launch more proprietary aviation dedicated line products for customers to choose from and rely on the parent company's global logistic hub built in Jiaxing, China, to enhance the Group's competitive advantages in the international air freight logistic market.

# Continue to advance digital transformation

Continuous advancement of digital transformation is a key move for the Group to improve internal management efficiency and service quality. In 2021, the Group will continue to increase investment in information technology and system construction. and plans to launch a new generation of business management system and a variety of digital management tools within the vear to improve the Group's operating efficiency. Specifically, the Group will use the new generation of business management system to integrate various pre-sales, in-sales, and after-sales business information of the Company's subsidiaries around the world, to enhance the linkage of subsidiaries in the world and further improve the Group's operating efficiency through intelligent analysis of operating data. Meanwhile, the Group will also make use of the advantages of information system to strengthen the construction of global operation standardization, improve service consistency and promote service refinement. and create an efficient and safe global supply chain service

It is expected that the Group will implement the above plans by its internal resources and/or external financing.

## OT Thailand Contractual Arrangements and OT Vietnam Contractual Arrangements

### 先達泰國合約安排及先達越南合約安排

During the FY2020, the OT Thailand Contractual Arrangements and the OT Vietnam Contractual Arrangements (as defined below) constitute non-exempted continuing connected transactions of the Company under the Listing Rules.

於二零二零年財政年度內,先達泰國合約安排及先達越南合約安排(定義見下文)根據上市規則構成本公司之不獲豁免持續關連交易。

### **OT Thailand Contractual Arrangements**

### 先達泰國合約安排

For reasons as disclosed in the section headed "History, Reorganisation and Corporate Structure – OT Thailand Contractual Arrangements" in the Prospectus, OT BVI entered into the following agreements (the "OT Thailand Contractual Arrangements") with Miss Ruchirek Pipatsriswat ("Miss Ruchirek") on 25 October 2013, who is a substantial shareholder holding 33.5% of shareholding interest in On-Time Worldwide Logistics Limited ("OT Thailand"):

誠如招股章程「歷史、重組及企業架構一先達泰國合約安排」一節所披露的原因,先達英屬處女群島於二零一三年十月二十五日與持有On-Time Worldwide Logistics Limited (「先達泰國」) 33.5%股權的主要股東Ruchirek Pipatsriswat小姐(「Ruchirek小姐」)訂立以下協議(「先達泰國合約安排」):

## CONTINUING CONNECTED TRANSACTIONS (continued)

## OT Thailand Contractual Arrangements and OT Vietnam Contractual Arrangements (continued)

### OT Thailand Contractual Arrangements (continued)

- (1) Loan assignment entered into between OT HK as assignor, OT BVI as assignee and Miss Ruchirek as borrower, whereby, the non-interest bearing loan for an aggregate principal amount of THB3,350,000 then owed by Miss Ruchirek to OT HK, was assigned to OT BVI and the loan shall be repayable on demand by OT BVI. The loan is conditional and secured by the pledge of shares in OT Thailand from time to time held by Miss Ruchirek under the share pledge agreement, and the arrangements under the proxy and the letter of undertakings.
- (2) Share pledge agreement entered into between OT BVI as lender and Miss Ruchirek as borrower, whereby, Miss Ruchirek has pledged in favour of OT BVI, among others, her 33.5% of the total shareholding interest of OT Thailand, and all further shares and securities deriving from such pledged shares, or otherwise acquired and held by Miss Ruchirek from time to time.
- (3) Letter of undertaking by Miss Ruchirek to OT BVI and OT Thailand, whereby, among others, she has irrevocably assigned and directed all dividends and distributions declared, paid and payable by OT Thailand and all distributions of assets and capital made and to be made by OT Thailand in relation to the shares of OT Thailand from time to time held by her to OT BVI (or such person as from time to time designated by it).
- (4) Proxy by Miss Ruchirek to OT Thailand, whereby, Miss Ruchirek has irrevocably appointed OT BVI or any person nominated by it to act as Miss Ruchirek's proxy to attend, act and vote in respect of the shares in OT Thailand in her name and on her behalf at any general meeting of shareholders of OT Thailand.

OT Thailand contributed to about 4.6% of the Group's total revenue for the FY2020 (FY2019: 1.5%). Through the OT Thailand Contractual Arrangements, the financial results of OT Thailand were consolidated into the Group's financial statements as if it was the Company's subsidiary and, as a result, the Group bears 82.5% of the economic risks and losses of OT Thailand.

No dividend nor distribution was made by OT Thailand to its shareholders for the FY2020.

## DIRECTORS' INTERESTS IN A COMPETING BUSINESS (continued)

For the FY2020, since YTO Express Group's main focus was warehousing and distribution of goods through express and courier service in the PRC and apart from intra-group freight forwarding services among YTO Express Group members, YTO Express Group did not carry out any freight forwarding services to and/or business with external parties, the Directors considered that the operations of YTO Express Group did not affect the Group's business.

### **TAX RELIEF**

The Company is not aware of any tax relief or exemption available to the Shareholders by reason of their holding of the Shares during the FY2020.

### **CONTINGENT LIABILITIES**

The Group had no material contingent liabilities as at 31 December 2020. As at the date of this annual report, the Group was not involved in any current material legal proceeding, nor was the Group aware of any pending or potential material legal proceedings involving the Group. If the Group was involved in such material legal proceedings, the Group would record any loss contingencies when, based on information then available, it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated.

### **MAJOR CUSTOMERS AND SUPPLIERS**

During the FY2020, less than 30% of the Group's cost of sales were attributable to the Group's five largest suppliers in aggregate.

The percentage of revenue of the Group attributable to the largest customer and the five largest customers in aggregate are 11.8% and 31.6% respectively. Alibaba Group Holding Limited is indirectly interested in more than 5% of the number of Company's issued shares, and Hangzhou Cainiao Supply Chain Management Co., Limited, being one of the Group's five largest customers, is a subsidiary of Alibaba Group Holding Limited. Save as disclosed, none of the Directors, their close associates or any shareholder (which to the knowledge of the Directors own more than 5% of the number of Company's issued shares) had an interest in the five major customers of the Group. Close associate refers to the close associate of the Director not the Shareholder.

### 董事於競爭業務之權益(續)

於二零二零年財政年度,由於圓通速遞集團主要透過於中國提供快遞服務從事倉儲及配送貨物,除圓通速遞集團成員公司間之貨運代理服務外,圓通速遞集團並無與外部實體進行任何貨運代理服務及/或業務,重事認為,圓通速遞集團之營運並無影響本集團業務。

### 税務減免

於二零二零年財政年度,本公司並不知悉股 東因持有股份而享有任何税務減免。

### 或然負債

本集團於二零二零年十二月三十一日並無重 大或然負債。於本年報日期,本集團並無涉 及任何目前重大法律訴訟,亦不知悉本集團 涉及其中的任何待決或潛在重大法律訴訟。 倘本集團涉及有關重大法律訴訟,將於可能 產生虧損及虧損金額可合理估計時,根據 當時可得資料記錄任何或然虧損。

### 主要客戶及供應商

於二零二零年財政年度內,本集團合共少於 30%的銷售成本來自本集團五大供應商。

#### **REMUNERATION POLICY**

Remuneration policy of the Group is reviewed regularly and the remuneration policy and remuneration packages of the executive Directors and members of the senior management of the Group are recommended by the Remuneration Committee to the Board.

### **PRE-EMPTIVE RIGHTS**

There are no provisions for pre-emptive rights under the Articles, or the laws of Cayman Islands, which would oblige the Company to offer new Shares on a pro-rata basis to its existing Shareholders.

### SUFFICIENCY OF PUBLIC FLOAT

Based on the current information that is publicly available to the Company and within the knowledge of the Directors, as at the date of this annual report, the Company has maintained the prescribed minimum public float under the Listing Rules.

### **CLOSURE OF REGISTER OF MEMBERS**

The register of members of the Company will be closed from Monday, 7 June 2021 to Thursday, 10 June 2021 (both days inclusive) for the purpose of determining the right to attend and vote at the forthcoming AGM. ### **CORPORATE GOVERNANCE PRACTICES** (continued)

### A. The Board (continued)

### A2. Board Composition (continued)

Throughout the FY2020, the Board has met the requirements of the Listing Rules 3.10 and 3.10A of having a minimum of three independent non-executive directors (representing at least one-third of the Board) with at least one of them possessing appropriate professional qualifications and accounting and related financial management expertise.

The members of the Board have skills and experience appropriate for the business requirements and objectives of the Group. Each executive Director is responsible for different business and functional division of the Group in accordance with his/her expertise. The independent non-executive Directors bring different business and financial expertise, experiences and independent judgement to the Board and they are invited to serve on the Board committees of the Company. Through participation in Board meetings, taking the lead in managing issues involving potential conflicts of interests, the independent non-executive Directors have made contributions to the effective direction of the Company and provided adequate checks and balances to safeguard the interests of both the Group and the Shareholders.

To the best knowledge of the Directors, the Directors and senior management have no financial, business, family or other material/relevant relationships with one another.

The Company has received written annual confirmation from each independent non-executive Director of his independence pursuant to the requirements of the Listing Rules. The Company considers all independent non- executive Directors to be independent in light of the independence guidelines set out in the Listing Rules.

### A. The Board (continued)

#### A7. Model Code for Securities Transactions

The Company has devised its own code of conduct regarding Directors' and employees' dealings in the Company's securities (the "Securities Dealing Code") on terms no less exacting than the required standard as set out in the Model Code. Each Director has been given a copy of the Securities Dealing Code. Specific enquiry has been made of all Directors and they have confirmed their compliance with the Securities Dealing Code throughout the FY2020. In addition, no incident of non-compliance of the Securities Dealing Code by the employees was noted by the Company.

In case when the Company is aware of any restricted period for dealings in the Company's securities, the Company will notify its Directors and relevant employees in advance.

### **B.** Board Committees

The Board has established five Board committees, namely, the Executive Committee, the Remuneration Committee, the Nomination Committee, the Audit Committee and the Corporate Governance Committee, for overseeing particular aspects of the Company's affairs. All Board committees have been established with defined written terms of reference which are available on the Stock Exchange's website and the Company's website (except for the terms of reference of the Executive Committee which are available to Shareholders upon request). All the Board committees should report to the Board on their decisions or recommendations made.

All Board committees are provided with sufficient resources to discharge their duties and, upon reasonable request, are able to seek independent professional advice in appropriate circumstances, at the Company's expenses.

### **B1.** Executive Committee

The Executive Committee comprises all the executive Directors and operates as a general management committee under the direct authority of the Board to increase the efficiency for the business decisions. It monitors the execution of the Company's strategic plans and operations of all business units of the Group and discusses and makes decisions on matters relating to the management and day-to-day operations of the Company.

For the nomination process of new Director, the Nomination Committee and/or the Board should, upon receipt of the proposal on appointment of new Director and the biographical information (or relevant details) of the candidate, evaluate such candidate based on the criteria as set out above to determine whether such candidate is qualified for directorship. If the process yields one or more desirable candidates, the Nomination Committee and/or the Board should rank them by order of preference based on the needs of the Company and reference check of each candidate (where applicable). The Nomination Committee should then recommend to the Board to appoint the appropriate candidate for directorship, as applicable. For any person that is nominated by a Shareholder for election as a Director at the general meeting of the Company, the Nomination Committee and/or the Board should evaluate such candidate based on the criteria as set out above to determine whether such candidate is qualified for directorship. Where appropriate, the Nomination Committee and/or the Board should make recommendation to Shareholders in respect of the proposed election of Director at the general meeting.

The Company has adopted the director nomination policy. Such policy, devising the criteria and process of selection and performance evaluation, provides guidance to the Board on nomination and appointment of Directors. The Board believes that the defined selection process is good for corporate governance in ensuring the Board continuity and appropriate leadership at Board level, and enhancing better Board effectiveness and diversity as well as in compliance with the applicable rules and regulations.

## H. Shareholders' Rights

To safeguard Shareholders' interests and rights, a separate resolution is proposed for each substantially separate issue at general meetings, including the election of individual Directors. All resolutions put forward at Shareholders' meetings will be voted by poll pursuant to the Listing Rules and poll results will be posted on the websites of the Company "www.ytoglobal.com" and the Stock Exchange after each Shareholders' meeting.

Pursuant to the Articles, any one or more Shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall have the right, by written requisition to the Board or the Company Secretary, to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If within 21 days of such deposit the Board fails to proceed to convene such meeting, the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

There is no provision allowing Shareholders to move new resolutions at general meetings under the Cayman Islands Companies Law or the Articles. Shareholders who wish to move a resolution may request the Company to convene a general meeting following the procedures set out in the preceding paragraph.

With respect to the Shareholders' right in proposing persons for election as Directors, please refer to the procedures available on the website of the Company.

## I. Constitutional Documents

During the FY2020, the Company has not made any changes to the Articles. An up-to-date version of the Articles is available on the websites of the Company and the Stock Exchange. Shareholders may refer to the Articles for further details of the rights of Shareholders.

# TO THE SHAREHOLDERS OF YTO EXPRESS (INTERNATIONAL) HOLDINGS LIMITED

(incorporated in the Cayman Islands with limited liability)

## **OPINION**

We have audited the consolidated financial statements of YTO Express (International) Holdings Limited ("the Company") and its subsidiaries ("the Group") set out on pages 93 to 240, which comprise the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2020 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## **BASIS FOR OPINION**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code") together with any ethical requirements that are relevant to our audit of the consolidated financial statements in the Cayman Islands, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## 意見

本核數師行已審核載列於第93至240頁圓通速遞(國際)控股有限公司(「貴公司」)及其附屬公司(「貴集團」)的綜合財務報表,其包括於二零二零年十二月三十一日的綜合財務狀況表、截至該日止年度的綜合損益表、綜合權益變動表及損益及其他全面收益表、綜合權益變動表及綜合現金流量表以及綜合財務報表附註(包括重大會計政策概要)。

本核數師行認為,該等綜合財務報表已根據香港會計師公會(「香港會計師公會」)頒佈的香港財務報告準則(「香港財務報告準則」)真實而公平地反映 貴集團於二零二零年十二月三十一日的綜合財務狀況以及其截至至其日止年度的綜合財務表現及綜合現金流量製。已按照香港公司條例的披露規定妥為編製。

## 意見基準

獨立核數師報告

Key audit matter is the matter that, in our professional judgement, was of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

# Expected credit loss allowance for trade receivables 貿易應收款項的預期信貸虧損撥備

Refer to note 42(b)(ii) to the consolidated financial statements and the accounting policies on pages 127 to 132. 請參閱綜合財務報表附註42(b)(ii)及第127至132頁的會計政策。

#### The Key Audit Matter

## 關鍵審計事項

As at 31 December 2020, the Group's gross trade receivables amounted to HK\$789 million, against which an allowance for expected credit losses of HK\$16 million was recorded. 於二零二零年十二月三十一日, 貴集團的貿易應收款項總額為789百萬港元,就其作出預期信貸虧損撥備16百萬港元。

The Group measures expected credit loss of trade receivables at an amount equal to lifetime expected credit loss, by applying estimated loss rates on trade receivables grouped according to their shared credit risk characteristics. Management assesses the expected credit loss allowance for credit-impaired trade receivables and significant balances individually, and the expected credit loss allowance for remaining balances is assessed using the provision matrix collectively.

貴集團通過應用根據共同信貸風險特徵進行分組的貿易應收款項的估計虧損率,按與全期預期信貸虧損相等的金額計量貿易應收款項的預期信貸虧損。管理層分別評估出現信貸減值的貿易應收款項及重大結餘的預期信貸虧損撥備,而使用撥備矩陣統一評估餘下結餘的預期信貸虧損撥備。

## 關鍵審計事項

關鍵審計事項為根據本核數師行的專業判 ,認為對本期間綜合財務報表的審計最為重要的事項。該事項於本核數師行審計整體綜合財務報表及出具意見時處理,而本核數師行不會對該事項提供獨立的意見。

本核數師行對貿易應收款項的預期信貸虧 損撥備進行評估之審計程序包括以下內容:

- obtaining an understanding of and assessing the design, implementation and operating effectiveness of key internal controls relating to credit control and estimation of expected credit losses:
- 了解並評估與信貸控制及預期信貸虧 損估計相關的關鍵內部控制的設計、 實施及操作有效性;
- evaluating the Group's policy for estimating the credit loss allowance with reference to the requirements of the prevailing accounting standard;
- 參照現行會計準則的要求,評估 貴 集團估計預期信貸虧損撥備的政策;
- evaluating the competence, capabilities and objectivity of the credit reporting agencies which have issued credit reports on which the management's estimated loss rates are based;
- 評估已根據管理層的估計虧損率出具 信貸報告的信貸報告機構的才能、能 力及客觀性;

## KEY AUDIT MATTER (CONTINUED)

#### The Key Audit Matter

## 關鍵審計事項

Management identifies credit impaired trade receivables based on observable data about occurrence of events that have a detrimental impact on the estimated cash flows from the trade receivables. In respect of trade receivables with significant balances, management determines the estimated loss rates based on the scores and ratings in the credit reports issued by credit reporting agencies, which are adjusted for forward-looking factors specific to the debtors and the economic environment.

管理層根據有關發生對貿易應收款項所產生的估計現金流量擁有不利影響的事件的可觀察數據識別出現信貸減值的貿易應收款項。就具有重大結餘的貿易應收款項而言,管理層根據信貸報告機構所出具的信貸報告內的分數及等級釐定估計虧損率,並就有關債務人及經濟環境的特定前瞻因素作出調整。

For the remaining balance of trade receivables, the estimated loss rates in the provision matrix take into account the ageing of trade receivable balances, the repayment history of the Group's customers, current market conditions and forward-looking information.

就貿易應收款項的餘下結餘而言,撥備矩陣的估計虧損率考 慮貿易應收款項結餘的賬齡、 貴集團客戶的還款記錄、 現行市況及前瞻性資料。

We identified the expected credit loss allowance for trade receivables as a key audit matter because determining the level of the loss allowance requires the exercise of significant management judgement and estimation which are inherently subjective.

本核數師行將貿易應收款項的預期信貸虧損撥備識別為關鍵審計事項,乃由於釐定虧損撥備水平要求管理層作出重 大判斷及估計,而有關判斷及估計本質上屬主觀。

# INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## 除綜合財務報表及核數師報告以外 的資料

董事須對其他資料負責。其他資料包括年報 內所載的全部資料,惟綜合財務報表及本 核數師行載於其中的核數師報告除外。

本核數師行對綜合財務報表的意見並不涵 蓋其他資料,本核數師行亦不對該等其他資 料發表任何形式的保證結論。

就本核數師行對綜合財務報表的審計,本 核數師行的責任乃細閱其他資料,在此過程 中,考慮其他資料與綜合財務報表或本核數 師行在審計過程中所知悉的情況是否存在 重大抵觸或看似存在重大錯誤陳述。

基於本核數師行已執行的工作,倘本核數師行認為其他資料存在重大錯誤陳述,本核數師行需要報告該事實。本核數師行就此並無任何事項須報告。

# RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

# AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

## 董事就綜合財務報表須承擔的責任

董事須負責根據香港會計師公會頒佈的香港財務報告準則及香港公司條例的披露規定編製真實而公平的綜合財務報表,並對董事認為為使綜合財務報表的編製不存在由於欺詐或錯誤而導致的重大錯誤陳述所需的內部監控負責。

在編製綜合財務報表時,董事負責評估 貴 集團持續經營的能力,並在適用情況下披露 與持續經營有關的事項,以及使用持續經營 為會計基礎,除非董事有意將 貴集團清 盤或停止經營,或別無其他實際的替代方 零。

審核委員會協助董事履行監督 貴集團的財務報告過程的責任。

## 核數師就審計綜合財務報表須承擔 的責任

本核數師行的目標乃對綜合財務報表整體是否不存在由於欺詐或錯誤而導致的重大錯誤陳述取得合理保證,並出具包括本核數師行意見的核數師報告。本報告乃僅向 閣下(作為整體)報告,除此之外本報告別無其他目的。我們概不就本報告的內容,對任何其他人士負責或承擔法律責任。

合理保證為高水平的保證,但不能保證按照香港核數準則進行的審計將總能發現重大錯誤陳述。錯誤陳述可以由欺詐或錯誤引起,如果合理預期其單獨或匯總起來可能影響綜合財務報表使用者因依賴綜合財務報表而作出的經濟決定,則有關的錯誤陳述可被視作重大。

# AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content
  of the consolidated financial statements, including the
  disclosures, and whether the consolidated financial
  statements represent the underlying transactions and
  events in a manner that achieves fair presentation.

# 核數師就審計綜合財務報表須承擔的責任(續)

作為根據香港核數準則進行審計其中一項, 本核數師行運用專業判斷,保持專業懷疑 態度。本核數師行亦:

- 瞭解與審計相關的內部監控,以設計 在有關情況下屬適當的審計程序,但 目的並非對 貴集團內部監控的有效 性發表意見。
- 評估董事所採用會計政策的適當性以及作出會計估計及相關披露的合理性。
- 評估綜合財務報表的整體列報方式、 結構及內容(包括披露事項),以及綜 合財務報表是否公平反映相關交易及 事項。

# INDEPENDENT AUDITOR'S REPORT 獨立核數師報告

# AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

 Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lee Ka Nang.

## 2. BASIS OF PREPARATION (Continued)

## (a) Statement of compliance (Continued)

The HKICPA has issued certain amendments to HKFRSs that are first effective or available for early adoption for the current accounting period of the Group. Note 2(c) provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current accounting period reflected in these financial statements.

# (b) Basis of preparation of the financial statements

The consolidated financial statements for the year ended 31 December 2020 comprise the Company and its subsidiaries (together referred to as "the Group") and the Group's interests in associates and joint ventures.

The consolidated financial statements have been prepared on the historical cost basis except for investment properties, certain property, plant and equipment and certain financial instruments that are measured at fair values or revalued amounts as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in the consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 Share-based Payment, leasing transactions that are accounted for in accordance with HKFRS 16 and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 Inventories or value in use in HKAS 36 Impairment of Assets.

## (b) 財務報表編製基準

截至二零二零年十二月三十一日 止年度的綜合財務報表包括本公 司及其附屬公司(「統稱本集團」) 及本集團於聯營公司及合營企業 之權益。

綜合財務報表已根據歷史成本法 編製,惟投資物業、若干物業 廠房及設備以及若干金融工具則 按公平值或重估金額計量,詳見 載於下文的會計政策。

歷史成本一般以貨物及服務交換 所得代價的公平值為基準。

公平值是市場參與者於計量日期 有秩序交易中出售資產可收取或 轉讓負債須支付的價格,而不論 該價格是否可使用其他估值技術 直接可觀察或估計。於估計資產 或負債公平值時,本集團會考慮 市場參與者於計量日期對資產或 負債定價時所考慮的資產或負債 特點。於綜合財務報表中作計量 及/或披露用途的公平值乃按此 基準釐定,惟屬香港財務報告準 則第2號範疇以股份為基礎的付 款內以股份為基礎的付款交易、 根據香港財務報告準則第16號入 賬的租賃交易以及與公平值計量 有一些相似之處惟並非公平值計 疇(如香港會計準則第2號存貨的 可變現淨值或香港會計準則第36 號資產減值的使用價值)除外。

FOR THE YEAR ENDED 31 DECEMBER 2020 截至二零二零年十二月三十一日止年度

## 2. BASIS OF PREPARATION (Continued)

# (b) Basis of preparation of the financial statements (Continued)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

## 2. BASIS OF PREPARATION (Continued)

# (b) Basis of preparation of the financial statements (Continued)

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 4.

## (c) Changes in accounting policies

The Group has applied the following amendments to HKFRSs issued by the HKICPA to these financial statements for the current accounting period:

- Amendments to HKFRS 3, Definition of a Business
- Amendment to HKFRS 16, Covid-19-Related Rent Concessions

Other than the amendment to HKFRS 16, the Group has not applied any new standard or interpretation that is not yet effective for the current accounting period. Impact of the adoption of the amended HKFRS 16 is discussed below:

The amendment to HKFRS 16 provides a practical expedient that allows a lessee to by-pass the need to evaluate whether certain qualifying rent concessions occurring as a direct consequence of the COVID-19 pandemic ("COVID-19-related rent concessions") are lease modifications and, instead, account for those rent concessions as if they were not lease modifications.

## 2. BASIS OF PREPARATION (Continued)

## (c) Changes in accounting policies (Continued)

The Group has elected to early adopt the amendments and applies the practical expedient to all qualifying COVID-19-related rent concessions granted to the Group during the year. Consequently, rent concessions received have been accounted for as negative variable lease payments recognised in profit or loss in the period in which the event or condition that triggers those payments occurred. There is no impact on the opening balance of equity at 1 January 2020. During the year, the Group is entitled to COVID-19-related rent concessions of HK\$2,044,000.

## 3. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies are set out below.

## Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss from the date the Company gains control until the date when the Company ceases to control the subsidiary.

## 3. 主要會計政策

主要會計政策載列如下。

## 綜合基準

綜合財務報表包括本公司及受本公司 及其附屬公司控制的實體的財務報表。 當本公司符合以下所列者,則視為取 得控制權:

- 對投資對象行使權力;
- 參與投資對象的業務獲得或有權 獲得可變回報;及
- 有行使權力影響其回報的能力。

倘有事實及情況顯示上述三項控制部分的一項或多項出現變化,則本集團 將重新評估其是否控制投資對象。

本公司取得附屬公司控制權時開始綜合附屬公司,並於本公司失去附屬公司的控制權時終止。具體而言,及開支出售附屬公司的收購或出售附屬公司的收當日直及開支之司失去附屬公司控制權當日計入綜合損益表。

FOR THE YEAR ENDED 31 DECEMBER 2020 截至二零二零年十二月三十一日止年度

# 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

## Basis of consolidation (continued)

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interest. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

# Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries, including re-attribution of relevant reserves between the Group and the non-controlling interests according to the Group's and the non-controlling interests' proportionate interests. Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

FOR THE YEAR ENDED 31 DECEMBER 2020 截至二零二零年十二月三十一日止年度

# 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

# Changes in the Group's ownership interests in existing subsidiaries (continued)

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/ permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKFRS 9 or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

### **Business combinations**

Acquisitions of businesses, other than business combination under common control, are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

### **Business combinations** (continued)

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 "Income Taxes" and HKAS 19 "Employee Benefits" respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 "Share-based Payment" at the acquisition date (see the accounting policy below);
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 "Non-current Assets Held for Sale and Discontinued Operations" are measured in accordance with that standard; and
- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in HKFRS 16) as if the acquired leases were new leases at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

#### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### **Business combinations (continued)**

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at the acquisition date. If after reassessment, the net amount of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the noncontrolling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-bytransaction basis.

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively. Measurement period adjustments are adjustments that arise from additional information obtained during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured to fair value at subsequent reporting dates, with the corresponding gain or loss being recognised in profit or loss.

FOR THE YEAR ENDED 31 DECEMBER 2020 截至二零二零年十二月三十一日止年度

# 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### **Business combinations (continued)**

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss or other comprehensive income, as appropriate. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income and measured under HKFRS 9 would be accounted for on the same basis as would be required if the Group had disposed of directly of the previously held equity interest.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted retrospectively during the measurement period (see above), and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

#### Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less any accumulated impairment losses, if any, and is presented separately in the consolidated statement of financial position. For the purposes of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cash-generating units (or groups of cash-generating units) that are expected to benefit from the synergies of the acquisition, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

#### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Goodwill (continued)

A cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of cash-generating units).

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal. When the Group disposes of an operation within the cash-generating unit, the amount of goodwill disposed of is measured on the basis of the relative values of the operation disposed of and the portion of the cashgenerating unit retained.

The Group's policy for goodwill arising on the acquisition of an associate and a joint venture is described below.

## Interests in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

# 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

# Interests in associates and joint ventures (continued)

The results and assets and liabilities of associates or joint ventures are incorporated in the consolidated financial statements using the equity method of accounting. The financial statements of associates and joint ventures used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. Changes in net assets of the associate or joint venture other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of an associate or a joint venture exceeds its interest in that associate or joint venture (which included any long-term interest that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in associates or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after assessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

# 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

# Interests in associates and joint ventures (continued)

The Group assesses whether there is an objective evidence that the interest in an associate or a joint venture may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allowed to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset within the scope of HKFRS 9, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition. The difference between the carrying amount of the associate or joint venture and the fair value of any retained interest and any proceeds from disposing of the relevant interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) upon disposal/partial disposal of the relevant associate or joint venture.

# Interests in associates and joint ventures (continued)

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a group entity transacts with an associate or a joint venture, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group' consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

## Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

Revenue from contracts with customers (continued)

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation

Output method

The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

## Principal versus agent

When another party is involved in providing goods or services to a customer, the Group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for those goods or services to be provided by the other party (i.e. the Group is an agent).

The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer.

The Group is an agent if its performance obligation is to arrange for the provision of the specified good or service by another party. In this case, the Group does not control the specified good or service provided by another party before that good or service is transferred to the customer. When the Group acts as an agent, it recognises revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified goods or services to be provided by the other party.

Except for management fee and information technology ("IT") service fee income, all revenue are derived from the Group's ordinary course of business. Management fee and IT service fee income are recognised over time by the Group's performance as the Group performs and included in other income.

## Property, plant and equipment

Property, plant and equipment are stated at cost less subsequent accumulated depreciation and accumulated impairment losses if any.

## Ownership interests in leasehold land and building

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition.

To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "right-of-use assets" (upon application of HKFRS 16) or "prepaid lease payments" (before application of HKFRS 16) in the consolidated statement of financial position except for those that are classified and accounted for as investment properties under the fair value model. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Leasehold land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the consolidated financial statements at their fair value at the date of revaluation less any subsequent accumulated depreciation and any subsequent accumulated impairment losses. Revaluations are performed with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

# Ownership interests in leasehold land and building (continued)

Any revaluation increase arising on the revaluation of leasehold land and buildings is recognised in other comprehensive income and accumulated in the property revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. A decrease in net carrying amount arising on revaluation of such leasehold land and buildings is recognised in profit or loss to the extent that it exceeds the balance, if any, on the property revaluation reserve relating to a previous revaluation of that asset. Depreciation on revalued land and building is recognised in profit or loss. On the subsequent sale or retirement of a revalued asset, the attributable revaluation surplus is transferred to retained profits.

Depreciation is recognised so as to write off the cost or revalued amount of items of property, plant and equipment less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Before application of HKFRS 16, assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss

Investment property is property held to earn rentals and/ or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values using the fair value model, adjusted to exclude any prepaid or accrued operating lease income. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use or no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the item is derecognised.

## Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at costs less accumulated amortisation and any accumulated impairment losses. ## Internally-generated intangible assets

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development activities (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits:
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible asset is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses (if any), on the same basis as intangible assets that are acquired separately.

Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives.

## Impairment losses on property, plant and equipment and right-of-use assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In addition, corporates assets are allocated to individual cash generating units when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The Group assesses whether there is indication that corporate assets may be impaired. If such indication exists, the recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cashgenerating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cashgenerating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cashgenerating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal, its value in use and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generation units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash generating unit or a group of cash-generation units) in prior years. A reversal of an impairment loss is recognised as income immediately.

### **Financial instruments**

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL") are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows;
   and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at the date of initial application of HKFRS 9/initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 "Business Combinations" applies.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

#### (i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become creditimpaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer creditimpaired.

### (ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset and is included in the "other gains or losses" line item.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss ("ECL") model on financial assets (including trade receivables, other receivables, rental deposits, debt investment at amortised cost, amounts due from immediate holding company, joint ventures, associates, a related company and a fellow subsidiary, loan to an associate, pledged bank deposits and bank balances) and other items (contract assets and finance lease receivables) which are subject to impairment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for contract assets, trade receivables, trade balances due from associates and joint ventures and finance lease receivables. To measure the ECL, contract assets and trade receivables have been grouped based on shared credit risk characteristics respectively. In addition, trade receivables and contract assets with significant balances and creditimpaired are assessed for ECL individually. The ECL for trade balances due from associates and joint ventures and finance lease receivables are assessed individually.

For all other instruments, the Group measures the loss allowance equal to 12 month ECL, unless there has been a significant increase in credit risk since initial recognition, in which case, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

#### (i) Significant increase in credit risk (continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the aforegoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) it has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

#### (ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

## (iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

### (v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition. For a finance lease receivable, the cash flows used for determining the ECL is consistent with the cash flows used in measuring the finance lease receivable in accordance with HKFRS 16.

Measurement and recognition of ECL (continued)

Where ECL is measured on a collective basis or cater for cases where evidence at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis.

- Nature of financial instruments (i.e. the Group's trade receivables and contract assets are assessed as a separate group. Other receivables, rental deposits, amounts due from and loan to related parties, debt investment at amortised cost, finance lease receivables, pledged bank deposits and bank balance are assessed for FCL on an individual basis):
- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables, contract assets, amounts due from related parties and debt investment at amortised cost where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI upon application of HKFRS 9, the cumulative gain or loss previously accumulated in the investment revaluation reserve is not reclassified to profit or loss, but is transferred to retained profits.

Provisions, contingent liabilities and onerous contracts

## (i) Provisions and contingent liabilities

Provisions are recognised when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

#### (ii) Onerous contracts

An onerous contract exists when the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

# Equity-settled share-based payment arrangements

#### Share award plan

For grants of share awards that are conditional upon satisfying specified vesting conditions, the fair value of service received is determined by reference to the fair value of shares awards granted at the date of grant and is expensed on a straight-line basis over the vesting period, with a corresponding increase in equity (share awards reserve).

At the end of each reporting period, the Group revises its estimates of the number of share awards that are expected to ultimately vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share awards reserve.

When share awards are exercised, the amount previously recognised in share awards reserve will be transferred to share premium or treasury stock. When the share awards are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share awards reserve will be transferred to retained profits.

## **Contract costs**

Contract costs are either the incremental costs of obtaining a contract with a customer or the costs to fulfil a contract with a customer which are not capitalised as property, plant and equipment or intangible assets.

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained e.g. an incremental sales commission. Incremental costs of obtaining a contract are capitalised when incurred if the costs relate to revenue which will be recognised in a future reporting period and the costs are expected to be recovered. Other costs of obtaining a contract are expensed when incurred.

#### Contract costs (continued)

Costs to fulfil a contract are capitalised if the costs relate directly to an existing contract or to a specifically identifiable anticipated contract; generate or enhance resources that will be used to provide goods or services in the future; and are expected to be recovered. Costs that relate directly to an existing contract or to a specifically identifiable anticipated contract may include direct labour, direct materials, allocations of costs, costs that are explicitly chargeable to the customer and other costs that are incurred only because the Group entered into the contract (for example, payments to sub-contractors). Other costs of fulfilling a contract, which are not capitalised as property, plant and equipment or intangible assets, are expensed as incurred.

Capitalised contract costs are stated at cost less accumulated amortisation and impairment losses. Impairment losses are recognised to the extent that the carrying amount of the contract cost asset exceeds the net of (i) remaining amount of consideration that the Group expects to receive in exchange for the goods or services to which the asset relates, less (ii) any costs that relate directly to providing those goods or services that have not yet been recognised as expenses.

Amortisation of capitalised contract costs is charged to profit or loss when the revenue to which the asset relates is recognised.

#### Leases

#### Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

### The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group also applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases of land and buildings, computer equipment, furniture & fixture and motor vehicles that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 "Financial Instruments" ("HKFRS 9") and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

#### Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

- the lease payments change due to changes in market rental rates following a market rent review, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets: and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

#### The Group as a lessee (continued)

Lease modifications (continued)

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

## The Group as a lessor

Classification and measurement of leases

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under finance leases are recognised as receivables at commencement date at amounts equal to net investments in the leases, measured using the interest rate implicit in the respective leases. Initial direct costs (other than those incurred by manufacturer or dealer lessors) are included in the initial measurement of the net investments in the leases. Interest income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and such costs are recognised as an expense on a straight-line basis over the lease term except for investment properties measured under fair value model.

Allocation of consideration to components of a contract

When a contract includes both leases and non-lease components, the Group applies HKFRS 15 to allocate consideration in a contract to lease and non-lease components. Non-lease components are separated from lease component on the basis of their relative stand-alone selling prices.

#### Refundable rental deposits

Refundable rental deposits received are accounted for under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments from lessees.

#### Sublease

When the Group is an intermediate lessor, it accounts for the head lease and the sublease as two separate contracts. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset.

Lease modification to a finance lease

The Group accounts for a modification to a finance lease as a separate lease if both:

- (a) the modification increases the scope of the lease by adding the right to use one or more underlying assets; and

#### **Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from "profit before taxation" as reported in the consolidated statement of profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiary and interests in associates and joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

#### Taxation (continued)

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax liabilities or deferred tax assets for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Taxation (continued)

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 "Income Taxes" requirements to right-of-use assets and lease liabilities separately. Temporary differences on initial recognition of the relevant right-of-use assets and lease liabilities are recognised. Temporary differences arising from subsequent revision to the carrying amounts of right-of-use assets and lease liabilities, resulting from remeasurement of lease liabilities and lease modifications, are recognised on the date of remeasurement or modification.

In assessing any uncertainty over income tax treatments, the Group considers whether it is probable that the relevant tax authority will accept the uncertain tax treatment used, or proposed to be use by individual group entities in their income tax filings. If it is probable, the current and deferred taxes are determined consistently with the tax treatment in the income tax filings. If it is not probable that the relevant taxation authority will accept an uncertain tax treatment, the effect of each uncertainty is reflected by using either the most likely amount or the expected value.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

#### Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in its functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are re-translated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the re-translation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) at the rate of exchange prevailing at the end of the reporting period, and their income and expenses are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve (attributed to non-controlling interests as appropriate), if any.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a disposal involving loss of significant influence over an associate or a joint venture that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are reattributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates or joint ventures that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Goodwill and fair value adjustments on identifiable assets acquired arising on an acquisition of a foreign operation on or after 1 January 2005 are treated as assets and liabilities of that foreign operation and retranslated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in equity under the heading of translation reserve.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

#### Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

### CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION **UNCERTAINTY**

In the application of the Group's accounting policies, which are described in note 3, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

#### Deferred taxation on investment properties

For the purposes of measuring deferred tax liabilities arising from investment properties that are determining using the fair value model, the directors of the Company have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are held under a business model which objective is to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale. Therefore, in determining the Group's deferred taxation on investment properties, the directors of the Company have determined that the presumption that carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is rebutted. Deferred taxation on fair value gain on investment properties is calculated at the Enterprise Income Tax ("EIT") rate in the PRC of 25%.

#### 關鍵會計判斷及估計不明朗因 素的主要來源

在應用附註3所述的本集團會計政策 時,管理層須對未能從其他資料來源 輕易獲得的資產及負債賬面值作出判 斷、估計及假設。估計及相關假設乃 根據過往經驗及被視為相關的其他因 素作出。實際結果可能會有別於該等 估計。

估計及相關假設按持續基準進行檢討。 倘會計估計的修訂僅影響估計作出修 訂的期間,則在該期間確認,倘修訂 同時影響修訂的當前期間及未來期間, 則在作出修訂期間及未來期間確認。

#### 應用會計政策的關鍵判斷

以下為本公司董事於應用本集團會計 政策過程中作出而對綜合財務報表確 認的金額影響最為重大的關鍵判斷(涉 及估計的判斷(見下文)除外)。

#### 投資物業遞延税項

就計量使用公平值模型釐定的投資物 業產生的遞延税項負債而言,本公司 董事已審閱本集團的投資物業組合, 並認為本集團以目標是隨時間而非透 過銷售消耗投資物業所包含絕大部分 經濟利益的業務模式持有投資物業。 因此,於釐定本集團投資物業的遞延 税項時,本公司董事釐定,使用公平 值模型計量的投資物業賬面值透過銷 售全數收回的假設被推翻。投資物業 公平值收益的遞延税項按25%中國企 業所得税(「企業所得税」)税率課税。

## 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

### Critical judgements in applying accounting policies (continued)

#### Principal versus agent consideration

The Group engages in provision of freight forwarding services. The Group concludes that the Group acts as the principal for such transactions as it controls the service before the service is transferred to a customer taking into consideration indicator that the Group is primarily responsible for fulfilling the promise to provide the services. When the Group satisfies the performance obligation, the Group recognises revenue in the gross amount of consideration to which the Group expects to be entitled as specified in the contracts.

#### Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### Estimated impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the recoverable amount which is the higher of fair value less cost of disposal and value in use of the group of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from each group of cash-generating units and a suitable discount rate and growth rate in order to calculate the present value. For goodwill arising on the acquisition of OTX Logistics B.V. and its subsidiaries ("OTX Logistics Holland Group"), the Group engaged a qualified external valuer (the "Valuer") to estimate the recoverable amount in goodwill impairment assessment. Management of the Group works closely with the Valuer to develop appropriate inputs to the value in use calculation. Where the actual future cash flows are less than expected, or change in facts and circumstances which results in downward revision of future cash flows, a material impairment loss may arise. As at 31 December 2020, the carrying amount of goodwill arising from OTX Logistics Holland Group was HK\$16,188,000 (2019: HK\$14,828,000). Based on management's assessment, no impairment loss was recognised in respect of goodwill arising on the acquisition of OTX Logistics Holland Group during the year ended 31 December 2020. Details are disclosed in note 18.

#### 估計不明朗因素的主要來源

以下為具有極大風險導致下個財政年度內的資產及負債賬面值須作出重大調整的有關未來的主要假設以及於報告期末的估計不明朗因素的其他主要來源。

#### 商譽的估計減值

釐定商譽有否減值須估計可收回金額, 其為獲分配商譽的現金產生單位組別的 公平值減出售成本與其使用價值的較高 者。在計算使用價值時,本集團須估計 各現金產生單位組別預期產生的未來現 金流量,並以適當的貼現率及增長率計 算其現值。就收購OTX Logistics B.V.及 其附屬公司(「OTX Logistics Holland集 團」)產生的商譽而言,本集團聘請合資 格外聘估值師(「估值師」)估計商譽減值 評估中的可收回金額。本集團管理層 與估值師緊密合作,為使用價值計算 制定適當的輸入數據。倘實際未來現 金流量低於預期或導致未來現金流量 下調的事實及情況變動,則可能會出 現重大減值虧損。於二零二零年十二月 三十一日,收購OTX Logistics Holland 集團所產生商譽的賬面值為16,188,000 港元(二零一九年:14.828.000港元)。 根據管理層的評估,於截至二零二零 年十二月三十一日止年度並無就收購 OTX Logistics Holland集團所產生商譽 確認減值虧損。詳情於附註18披露。

# 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

#### Key sources of estimation uncertainty (continued)

#### Fair value measurements and valuation processes

Some of the Group's assets and liabilities are measured at fair value for financial reporting purposes. The directors of the Company have to determine the appropriate valuation techniques and inputs for fair value measurements.

In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party qualified valuers to perform the valuation. The directors of the Company work closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model.

The Group uses valuation techniques that include inputs that are not based on observable market data to estimate the fair values of certain properties and certain types of financial instruments. Notes 15 and 16 provide detailed information about the valuation techniques, inputs and key assumptions used in the determination of the fair value of various assets and liabilities.

#### Estimated impairment of trade receivables

As at 31 December 2020, the Group's gross trade receivables amounted to HK\$789 million, against which an allowance for expected credit losses of HK\$16 million was recorded.

The Group measures expected credit loss of trade receivables at an amount equal to lifetime expected credit loss, by applying estimated loss rates on trade receivables grouped according to their shared credit risk characteristics. Management assesses the expected credit loss allowance for credit-impaired trade receivables and significant balances individually, and the expected credit loss allowance for remaining balances is assessed using the provision matrix collectively.

#### 公平值計量及估值過程

就財務報告而言,本集團部分資產及 負債按公平值計量。本公司董事必須 就公平值計量釐定適當的估值技術及 輸入數據。

於估計一項資產或一項負債的公平值時,本集團會使用可得的耐熱的不能取得第一級輸入數據,本集團委聘第三方合資格估值的聯估值。本公司董事與合資格外聘估值師緊密合作以就模型制定合適的估值技術及輸入數據。

The provision of ECL is sensitive to changes in estimates. Information about ECL on the Group's trade receivables is disclosed in note 42.

The Group's lifetime ECL on trade receivables as at 31 December 2020 amounted to HK\$16,124,000 (2019: HK\$10,206,000).

#### 5. REVENUE

Revenue represents freight forwarding and related services income which is recognised over time as customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs. The Group's revenue is recognised using output method over the period of performance by delivering a shipment from a place of origin to a place of destination. The performance obligation is satisfied upon delivery at destination. Details of disaggregation of revenue are set out in note 6.

Payment of the transaction price is generally due within 30 days. All services are for periods of less than one year. As permitted under HKFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

Note: For the year ended 31 December 2020, the Group successfully applied for funding support from the Employment Support Scheme under the Anti-epidemic Fund of HK\$10,627,000, set by the HKSAR Government. The purpose of the funding is to provide financial support to enterprises to retain their employees who would otherwise be made redundant. Under the terms of the grant,the Group is required not to make redundancies during the subsidy period and to spend all the funding on paying wages to the employees. Remaining portion of the government grants related to non-Hong Kong government grants with immaterial individual balances.

附註: 截至二零二零年十二月三十一日止年度,本集團已成功向香港特別行政區 政府設立的防疫抗疫基金下推出的「保 就業」計劃申請資助10,627,000港元。 補貼資金的目的是透過向企業提供財 政支援,協助他們支付員工的薪金,以 保留可能會被遣散的僱員。根據授 條款,本集團須於補貼期間不會裁員, 並將所有補貼資金用於支付僱員工資。 政府補助的餘下部分與非香港政府補 助有關,屬不重要的個別結餘。

#### 10. INCOME TAX EXPENSE (continued)

The directors of the Company considered the amount involved upon implementation of the two-tiered profits tax rates regime as insignificant to the consolidated financial statements. Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profit for both years.

Under the Law of the PRC on EIT (the "EIT Law") and Implementation Regulation of the EIT Law, the PRC subsidiaries of the Group is taxed at 25% for both financial years.

Netherlands corporate income tax rates are chargeable at progressive tax rates. The corporate income tax charge has been calculated at the tax rate between 16.5% to 25.0% for both financial years.

The corporate income tax in Vietnam is calculated at 20% of the estimated assessable profit. Additionally, being a small and medium enterprise, the Vietnamese subsidiary is entitled to a 30% reduction in corporate income tax for both financial years, in accordance with the Vietnamese laws.

The corporate income tax in Thailand is calculated at 20% of assessable profit for both financial years.

Malaysia corporate income tax is calculated at 24% of the estimated assessable profit for both financial years.

Income tax expense in Canada comprises federal corporate income tax and provincial corporate income tax at 15% and 11.5% respectively for both financial years.

Pursuant to the rules and regulations of the British Virgin Islands (the "BVI") and the Cayman Islands, the Group is not subject to any income tax in the BVI and the Cayman Islands.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

Details of the deferred taxation are set out in note 37.

#### 10. 所得税開支(續)

本公司董事認為,實施利得税兩級制所涉及的金額與綜合財務報表並無重大關係。香港利得税按兩個年度的估計應課税溢利的16.5%計算。

根據中國企業所得税法(「企業所得税法」)及企業所得税法實施條例,本集團的中國附屬公司於兩個財政年度內均按25%的税率納税。

荷蘭公司所得税率按累進税率計算。 於兩個財政年度內,公司所得税費均 按16.5%至25.0%的税率計算。

越南公司所得税按估計應課税溢利的 20%計算。此外,根據越南法律,於 兩個財政年度內,作為中小型企業, 越南附屬公司均有權獲得30%的公司 所得税寬減。

於兩個財政年度內,泰國公司所得税 均按應課税溢利的20%計算。

於兩個財政年度內,馬來西亞公司所 得税按估計應課税溢利的24%計算。

於兩個財政年度內,加拿大所得稅開 支包括分別為15%及11.5%的聯邦企業 所得稅及省企業所得稅。

根據英屬處女群島(「英屬處女群島」) 及開曼群島的規則及規例,本集團在 英屬處女群島及開曼群島毋須繳納任 何所得税。

在其他司法權區產生的税項按相關司 法權區的現行稅率計算。

遞延税項的詳情載於附註37。

The Group's investment properties are all situated outside of Hong Kong as at 31 December 2020 and 31 December 2019. The fair value of these investment properties have been arrived at on the basis of a valuation carried out on the respective dates by RHL Appraisal Limited, an independent qualified professional valuer not connected with the Group. The directors of RHL Appraisal Limited are members of the Hong Kong Institute of Surveyors, and they have appropriate qualifications and recent experience in the valuation of properties in the relevant locations. The fair values of the investment properties were determined by using the direct comparison approach with reference to the recent transaction prices for similar properties as available, adjusted for differences in the nature, location and conditions of the subject properties. There has been no change to the valuation technique during the year.

In estimating the fair value of the investment properties, the highest and best use of the investment properties is their current use. Key unobservable inputs used in valuing the investment properties were premium or discount which the valuer applied to those transaction prices to take into account some key characteristics of the asset which is being valued being better or worse than the asset that was actually sold recently. An increase in the property age would result in a decrease in the fair value measurement of the investment properties, and vice versa. An increase in adjusted transaction prices subject to property size and property floor level would result in an increase in the fair value measurement of the investment properties, and vice versa.

The fair value hierarchy of these investment properties is categorised into level 3 and there were no transfers into or out of Level 3 during the year.

#### Fair value measurement of the Group's leasehold land and buildings

The Group's leasehold land and buildings were valued on 31 December 2020 and 31 December 2019 by RHL Appraisal Limited, an independent qualified professional valuer not connected with the Group. The directors of RHL Appraisal Limited are members of the Hong Kong Institute of Surveyors, and they have appropriate qualifications and recent experience in the valuation of properties in the relevant locations. The fair values of the leasehold land and buildings were determined by using the direct comparison approach with reference to the recent transaction prices for similar properties as available adjusted for differences in the nature, location and conditions of the subject properties. There has been no change to the valuation technique during the year.

All leasehold land and buildings are situated in the PRC.

In estimating the fair value of the leasehold land and buildings, the highest and best use of the leasehold land and buildings is their current use.

### 本集團租賃土地及樓宇的公平值計

本集團和賃十地及樓宇的估值由與本 集團概無關連的獨立合資格專業估值 師永利行評值顧問有限公司於二零二 零年十二月三十一日及二零一九年十二 月三十一日進行。永利行評值顧問有 限公司的董事為香港測量師學會會員, 且擁有適當資格及近期於相關地區進 行物業估值的經驗。租賃土地及樓宇 公平值乃經參考可獲得類似物業的近 期交易價以直接比較法釐定,並按標 的物業在性質、地點及狀況上的差異 調整。年內,估值技術並無變動。

所有租賃土地及樓宇均位於中國。

於估計租賃土地及樓宇的公平值時, 租賃土地及樓宇的當前用途為其最高 及最佳用途。

FOR THE YEAR ENDED 31 DECEMBER 2020 截至二零二零年十二月三十一日止年度

### 16. PROPERTY, PLANT AND EQUIPMENT (continued)

### Fair value measurement of the Group's leasehold land and buildings (continued)

Key unobservable inputs used in valuing the leasehold land and buildings were premium or discount which the valuer applied to those transaction prices to take into account some key characteristics of the asset which is being valued being better or worse than the asset that was actually sold recently. An increase in adjusted transaction prices subject to property size and property floor level would result in an increase in the fair value measurement of the investment properties, and vice versa.

The fair value hierarchy of these leasehold land and buildings is categorised into level 3 and there were no transfers into or out of Level 3 during the year.

If leasehold land and buildings of the Group had not been revalued, they would have been included on a historical cost basis at the following amounts:

#### 17. RIGHT-OF-USE ASSETS (continued)

For both years, the Group leases various land and buildings, computer equipment, furniture & fixture and motor vehicles for its operations. Lease contracts are entered into for fixed term of 1 to 10 years, 1 to 4 years, 1 to 5 years and 1 to 5 years respectively (2019: 1 to 10 years, 1 to 4 years, 1 to 5 years and 1 to 5 years respectively). Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

Right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group regularly entered into short-term leases for land and buildings, computer equipment, furniture & fixture and motor vehicles and leases of low-value assets for computer equipment and furniture & fixture. As at 31 December 2020 and 2019, the portfolio of short-term leases is similar to the portfolio of short-term leases to which the short-term lease expense disclosed above.

In addition, the Group reassesses whether it is reasonably certain to exercise an extension option, or not to exercise a termination option, upon the occurrence of either a significant event or a significant change in circumstances that is within the control of the lessee. During the year ended 31 December 2020 and 2019, there is no such triggering event.

In addition, lease liabilities of HK\$165,437,000 (2019: HK\$70,799,000) are recognised with related right-of-use assets of HK\$140,888,000 as at 31 December 2020 (2019: HK\$51,256,000). The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

The Group derecognised right-of-use assets of HK\$7,681,000 (2019: HK\$2,424,000) and lease liabilities of HK\$7,472,000 (2019: HK\$2,497,000) because of early termination of lease contracts.

Details of the lease maturity analysis of lease liabilities are set out in notes 34 and 42(b)(iii).

#### 17. 使用權資產(續)

使用權資產按直線法於其估計可使用 年期及租期(以較短者為準)內計提折 舊。

本集團定期就土地及樓宇、電腦設備、 傢俬及裝置及汽車訂立短期租賃,並 就電腦設備以及傢俬及裝置訂立低價 值資產租賃。於二零二零年及二零一九 年十二月三十一日,短期租賃組合與 上文披露的短期租賃開支的短期租賃 組合類似。

此外,當發生重大事件或承租人控制 範圍內的情況發生重大變化時,本集 團會重新評估是否合理確定行使延期 選擇權或不行使終止選擇權。於截至 二零二零年及二零一九年十二月三十一 日止年度,概無有關觸發事件。

此外,於二零二零年十二月三十一日,確認租賃負債165,437,000港元(二零一九年:70,799,000港元)與相關使用權資產140,888,000港元(二零一九年:51,256,000港元)。租賃協議並不對出租人持有的租賃資產中的擔保權益施加任何契諾。租賃資產不得用作借貸擔保。

本集團因提前終止租賃合約而終止確認使用權資產7,681,000港元(二零一九年: 2,424,000港元)及租賃負債7,472,000港元(二零一九年: 2,497,000港元)。

租賃負債的租賃到期分析的詳情載於 附註34及42(b)(iii)。

#### 17. RIGHT-OF-USE ASSETS (continued)

During the year ended 31 December 2020, the Group received rent concessions in the form of a discount on fixed payments due to severe social distancing and travel restriction measures introduced to contain the spread of COVID-19.

As disclosed in note 2, the Group has early adopted the Amendment to HKFRS 16, *Leases, Covid-19-Related Rent Concessions*, and has applied the practical expedient introduced by the Amendment to all eligible rent concessions received by the Group during the year. The amount of rent concessions related to COVID-19 is HK\$2,044,000 for the year ended 31 December 2020.

#### 17. 使用權資產(續)

於截至二零二零年十二月三十一日止年度,本集團以貼現的形式就因嚴格實行社交距離及旅行限制措施以遏制COVID-19擴散產生的固定付款收取了租金寬減。

誠如附註2所披露,本集團已提早採納香港財務報告準則第16號(修訂本)租賃、Covid-19相關租金寬減,並已對本集團年內收取的所有合資格租金寬減應用該準則所引入的可行權宜方法。於截至二零二零年十二月三十一日止年度,COVID-19相關租金寬減金額為2,044,000港元。

#### 18. GOODWILL (continued)

(i) At 31 December 2020, goodwill arose from the acquisitions of OTX Logistics Holland Group during the year ended 31 December 2011 which is engaged in the provision of freight forwarding services in The Netherlands.

The carrying value of goodwill has been allocated to the cash generating units ("CGUs") of OTX Logistics Holland Group, at the amount of Euro ("EUR") 1,670,000 (equivalent to approximately HK\$16,188,000) (2019: EUR1,700,000 (equivalent to approximately HK\$14,828,000)), for impairment testing purpose.

The recoverable amount of the group of CGUs of OTX Logistics Holland Group have been determined on the basis of value in use calculation by management working together with the Valuer. The value in use calculation uses future cash flows prepared by management of the Group which are based on financial budgets covering a 5-year period (2019: 5-year period) and a pre-tax discount rate of 13.97% (2019: 15.40%). Cash flows beyond the 5-year period have been extrapolated using 2% (2019: 3%) growth rate. The key assumptions are budgeted gross margin based on the past performance and the Group's expectation for the market development. Management of the Group believes that any reasonably possible change in the key assumptions on which the recoverable amount is based would not cause the carrying amount of the group of CGUs to exceed its recoverable amount

(ii) Best Loader HK and Best Loader Shanghai ceased their businesses since early 2020. The recoverable amount of the goodwill of Best Loader HK and Best Loader Shanghai amounted to Nil and Nil respectively as at 31 December 2019. As a result, management of the Group has written down all goodwill related to Best Loader HK and Best Loader Shanghai amounted to HK\$145,000 and HK\$19,164,000 respectively at 31 December 2019.

#### 18. 商譽(續)

(i) 於二零二零年十二月三十一日,商譽乃產生自於截至二零一一年十二月三十一日止年度收購OTX Logistics Holland集團,其於荷蘭從事提供貨運代理服務。

商譽賬面值已分配予OTX Logistics Holland集團的現金產生單位(「現金產生單位」),為數1,670,000歐元(「歐元」)(相當於約16,188,000港元)(二零一九年:1,700,000歐元(相當於約14,828,000港元)),以作減值測試用途。

OTX Logistics Holland集團的現金 產生單位組別的可收回金額已由 管理層與估值師合作按使用價 值計算基準釐定。使用價值計算 採用本集團管理層所編製基於涵 蓋五年期(二零一九年:五年期) 的財政預算及税前貼現率13.97% (二零一九年: 15.40%)的未來現 金流量。超過五年期的現金流量 已按2%(二零一九年:3%)增長 率推算。主要假設為基於過往表 現的預算毛利率及本集團對市場 發展的預期。本集團管理層相信 釐定該等可收回金額的主要假設 之任何合理可能變動將不會導致 現金產生單位組別的賬面值超過 其可收回金額。

(ii) Best Loader HK及翼尊上海自二零二零年初起終止其業務。於二零一九年十二月三十一日,Best Loader HK及翼尊上海的商譽可收回金額分別為零及零。因此,於二零一九年十二月三十一日,本集團管理層已撇減就與Best Loader HK及翼尊上海相關的所有商譽分別為145,000港元及19,164,000港元計提撥備。

# 19. INTANGIBLE ASSETS (continued)

Intangible assets with finite useful lives represent the carrying amounts of the customer lists arising on the acquisition of OTX Logistics Holland Group, Best Loader HK and Best Loader Shanghai, trademarks purchased from Mr. Lam and computer system.

The above intangible assets are amortised using the straight-line method at the following rates per annum:

Computer system 20%

Customer lists  $10\%-33^{1}/_{3}\%$ 

Trademarks 10%

Estimated useful lives of the customer lists and trademarks have been determined by management of the Company according to the industrial experiences over the revenue expectation and also by reference to the relevant industrial norm.

Because of the gradual cessation of business operations of Best Loader Shanghai and Best Loader HK in 2020, management of the Group assessed that their recoverable amounts were less than the carrying amounts. Intangible assets of HK\$787,000 in relation to Best Loader HK and Best Loader Shanghai has been fully impaired.

#### 22. FINANCE LEASE RECEIVABLES

# 22. 融資租賃應收款項

The Group entered into finance lease arrangements as a lessor for land and buildings. The average terms of finance leases entered into usually range from 4 to 5 years (2019: from 4 to 5 years). All interest rates inherent in the leases are fixed at the contract date over the lease terms.

本集團作為出租人就土地及樓宇訂立 融資租賃安排。所訂立的融資租賃平 均租期通常介乎四至五年(二零一九年:四至五年)。租賃所含利率均於合 約日期釐定,在租期內不變。

The Group is not exposed to foreign currency risk as a result of the lease arrangements, as all leases are denominated in the respective functional currencies of group entities. The lease contracts do not contain residual value guarantee.

本集團並無因租賃安排而面臨外幣風險,乃由於所有租賃均以集團實體各自的功能貨幣計值。租賃合約不包含剩餘價值擔保。

項
項

Details of impairment assessment of other receivables and rental deposits are set out in note 42(b)(ii).

Contract costs capitalised as at 31 December 2020 relate to the prepaid freight costs to freight carriers. Contract costs are recognised as part of "cost of sales" in the consolidated statement of profit or loss in the period in which revenue from the freight forwarding service is recognised. There were no capitalised costs recognised in profit or loss for both 2020 and 2019. There were no impairments in relation to the costs capitalised for 2020.

The amount of capitalised contract costs is expected to be recovered within one year.

# Transfers of financial assets

The followings are the Group's trade receivables that were transferred to banks by factoring those trade receivables on a full recourse basis. As the Group has not transferred substantially all risks and rewards of the ownership of these trade receivables, it recognised the full carrying amount of the receivables and has recognised the cash received on the transfer as secured factoring loans (see note 35).

These trade receivables were carried at amortised cost in the Group's consolidated statement of financial position at 31 December 2019. There is no such amount as at 31 December 2020.

# 39. ACQUISITION OF SUBSIDIARIES

(a) On 30 March 2020, YTO Express Worldwide Limited ("YTO BVI"), a direct wholly-owned subsidiary of the Company, entered into a sale and purchase agreement with YTO Global Holdings Limited, pursuant to which YTO Global Holdings Limited has agreed to sell, and YTO BVI has agreed to purchase, 45,010,000 ordinary shares in YTO Courier (Hong Kong) Company Limited ("YTO courier (HK)"), representing the entire issued shares in YTO Courier (HK), at a consideration of HK\$6,940,000. YTO Courier (HK) is principally engaged in the provision of international express and parcel services.

The acquisition of YTO Courier (HK) was accounted for using acquisition accounting. The excess of the fair value of the identifiable assets and liabilities acquired during the acquisition over the total consideration which was satisfied through cash consideration was recognised directly in profit or loss. The fair value of the net identifiable assets was HK\$7,613,000, which was determined by the directors of the Company with reference to a valuation performed by an independent valuer, Asset Appraisal Limited.

# (b) Financial risk management objectives and policies

The Group's major financial instruments include financial asset at FVTPL, debt investment at amortised cost, finance lease receivables, trade receivables, other receivables, contract assets, rental deposits, amount(s) due from/(to) immediate holding company, fellow subsidiaries, associates and joint ventures, pledged bank deposits, bank balances and cash, trade and other payables, bank borrowings and lease liabilities. These risks include market risk (including interest rate risk, currency risk and price risk), credit risk and liquidity risk. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management of the Group manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

#### (i) Market risk

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to finance lease receivables and lease liabilities. The Group is also exposed to cash flow interest rate risk due to the fluctuation of the prevailing market interest rate on variable-rate pledged bank deposits, bank balances and bank borrowings which carry interest at prevailing market interest rates.

The Group currently does not use any derivative contracts to hedge its exposure to interest rate risk. However, management has closely monitored the interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

#### Interest rate sensitivity analysis

For the purpose of sensitivity analysis, the variable-rate pledged bank deposits and bank balances are excluded as the directors of the Company considered that the interest rate risk of variable-rate pledged bank deposits and bank balances are insignificant as the fluctuation in interest rate is limited. The sensitivity analysis below has been prepared based on the exposure to interest rates for variable-rate bank borrowings and loan from immediate holding company at the end of the reporting period and the stipulated change taking place at the beginning of the financial years and held constant throughout the reporting period. A 50 basis point (2019: 50 basis point) increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rate.

If interest rate had been of 50 basis points higher/lower and all other variables held constant, the Group's post-tax profit would decrease/increase by HK\$4,000 (2019: HK\$253,000) for the year ended 31 December 2020.

In management's opinion, the sensitivity analysis is unrepresentative of the interest rate risk as the year end exposure does not reflect the exposure during the year.

#### Currency risk

The Group undertakes certain transactions denominated in foreign currencies, hence exposures to exchange rate fluctuation arise. Management manages its foreign currency risk by closely reviewing the movement of the foreign currency rate and will consider hedging significant foreign currency exposure should the need arise.

#### (i) Market risk (continued)

Price risk

The Group is exposed to price risk through its financial assets at FVTPL which are measured at fair value at the end of the reporting period.

If the market price of the financial assets at FVTPL had been 7% higher/lower while all other variables were held constant, the Group's profit for the year ended 31 December 2020 would increase/decrease by HK\$52,000 (2019: HK\$56,000).

#### (ii) Credit risk and impairment assessment

As at the end of the reporting period, the Group's maximum exposure to credit risk which would cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, management of the Group has delegated a team responsible for determination of credit limits and credit approvals. Before accepting any new customer, the Group uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Limits and scoring attributed to customers are reviewed twice a year. Other monitoring procedures are in place to ensure that followup action is taken to recover overdue debts. In addition, the Group performs impairment assessment under ECL model on trade balances individually or based on provision matrix. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

# (b) Financial risk management objectives and policies (continued)

# (ii) Credit risk and impairment assessment (continued)

Other than concentration of credit risk on liquid funds which are deposited with several banks with sound credit ratings, debt investment at amortised cost, finance lease receivables and amounts due from/loan to related parties, the Group does not have any other significant concentration of credit risk. Trade receivables consist of a large number of customers spread over different geographical areas.

Trade receivables, contract assets, finance lease receivables and trade balances due from associates and joint ventures

The Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL for these items. The Group determines the ECL on trade receivables with significant balances or creditimpaired individually and the remaining balance of trade receivables using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance is not further distinguished between the Group's different customer bases. For finance lease receivables and trade balances due from associates and joint ventures, the Group assessed for the ECL of these balances individually.

The contract assets have substantially the same risk characteristics as the trade receivables for the same type of contracts. The Group has therefore concluded that the loss rates for trade receivables are a reasonable approximation of the loss rates for contract assets. The Group assessed the ECL for contract assets was insignificant and no loss allowance was recognised.

Non-trade related balances due from immediate holding company, a fellow subsidiary, associates and joint ventures and loan to an associate

The Group regularly monitors the business performance of the immediate holding company, the fellow subsidiary, associates and joint ventures. The Group's credit risks in these balances are mitigated through the value of the assets held by these entities and the power to participate or jointly control the relevant activities of these entities. The directors of the Company believe that there are no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12m ECL. For the year ended 31 December 2020 and 2019, the Group assessed the ECL for non-trade related balances due from and loan to related parties were insignificant and thus no loss allowance was recognised.

Pledged bank deposits and bank balances

The credit risk on pledged bank deposits and bank balances is limited because the counterparties are reputable banks with sound credit rating assigned by international credit-rating agencies. The Group assessed 12m ECL for pledged bank deposits and bank balances by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. Based on the average loss rates, the 12m ECL on pledged bank deposits and bank balances is considered to be insignificant.

For Grade 1 trade receivables, the estimated loss rates in the provision matrix take into account the ageing of trade receivable balances, the repayment history of the Group's customers, current market conditions, and forward-looking information.

For Grade 2 trade receivables, estimated loss rates are estimated based on the scores and ratings in the credit reports issued by credit reporting agencies, which are adjusted for forward-looking factors specific to the debtors and the economic environment.

就第一級貿易應收款項而 言,撥備矩陣的估計虧損 率考慮貿易應收款項結餘 的賬齡、本集團客戶的還 款記錄、現行市況及前瞻 性資料。

就第二級貿易應收款項而 言,估計虧損率乃根據信 貸報告機構所出具的信貸 報告所載的分數及等級予 以估計,並就有關債務人 及經濟環境的特定前瞻因 素作出調整。

The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings.

#### (iii) Liquidity risk

The Group's liquidity position is monitored closely by management of the Group. In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. Management monitors the utilisation of bank loans and ensures compliance with loan covenants.

The Group relies on bank borrowings and advance from related companies as significant sources of liquidity during the reporting period. The Group has available unutilised borrowing facilities of HK\$349,988,000 (2019: HK\$431,575,000) as at 31 December 2020.

The following table details the Group's remaining contractual maturity for its nonderivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities and the earliest date on which the Group can be required to pay. Specifically, bank borrowings with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from the applicable interest rate at the end of each reporting period.

#### 43. RETIREMENT BENEFIT PLANS

The Group operates a Mandatory Provident Fund Scheme (the "MPF Scheme") for all its qualifying employees in Hong Kong. The assets of the MPF Scheme are held separately from those of the Group, in funds under the control of trustees. The Group contributes 5% or HK\$1,500 per month in maximum of relevant payroll costs to the MPF Scheme, which contribution is matched by employees.

OT China and eTotal Solution Co. Ltd. ("eTotal China") are member of the state-managed retirement benefits scheme operated by the government of the PRC. The retirement scheme contributions, which are based on a certain percentage of the salaries of employees of OT China and eTotal China, are charged to the profit or loss in the period to which they relate and represent the amount of contributions payable by OT China and eTotal China to the scheme.

The Group also participates in defined contribution retirement schemes organised by the relevant local government authorities in other jurisdictions where the Group operates. Certain employees of the Group eligible for participating in the retirement schemes are entitled to retirement benefits from the schemes. The Group is required to make contributions to the retirement schemes up to time of retirement of the eligible employees, excluding those employees who resigned before their retirements, at a percentage that is specified by the local governments.

During the year ended 31 December 2020, the total cost charged to profit or loss of HK\$19,998,000 (2019: HK\$28,712,000) represents contributions payable to these schemes by the Group. As at 31 December 2020 and 31 December 2019, contributions of HK\$4,216,000 and HK\$4,507,000 respectively due in respect of the reporting period had not been paid over to the schemes.

#### **Share Award Plan**

A share award plan was adopted on 17 August 2018 (the "Share Award Plan"). The Share Award Plan is to recognise and reward the contribution of eligible participants to the growth and development of the Group, to give incentives to eligible participants in order to retain them for the continual operation and development of the Group and to attract suitable personnel for further development of the Group.

The awarded shares will be subscribed for and/or purchased by an independent trustee (the "Trustee") from the open market by utilising the funds to be allocated by the directors of the Company out of the Company's resources. The maximum number of awarded shares to be subscribed for and/or purchased by the Trustee for the purpose of the Share Award Plan shall not exceed 5% of the total number of issued shares as at the beginning of such financial year.

The Share Award Plan shall be valid and effective for a period of 10 years commencing from 17 August 2018 but may be terminated earlier as determined by the board.

During the year ended 31 December 2020 and 31 December 2019, the Trustee has not purchased ordinary shares of the Company on the Stock Exchange.

The Company granted 10,400,000 shares to 42 selected participants on 31 August 2018, which will be vested 30%, 30% and 40% on every anniversary date of the grant date. 3 selected participants did not accept the award shares granted pursuant to the award. As such an aggregate of 9,400,000 award shares were granted and accepted by the selected participants.

The Share Award Plan shall be vested as follows:

#### (i) Group level performance target:

The Group achieves an audited consolidated profit after tax (excluding extraordinary items) in an amount as prescribed by the board for each of the years ended 31 December 2018, 2019 and 2020.

#### Share Award Plan (continued)

The fair value was calculated using the Binomial model. The inputs into the model were as follows:

Weighted average share price	HK\$3.34
Exercise price	HK\$1
Expected volatility	59.69%
Expected life	10 years
Risk-free rate	2.144%
Expected dividend yield	0.69%

Expected volatility was determined by using the historical volatility of the Company's share price over the previous 4 years. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

The following table discloses movements of the Company's share awards held by selected participants during the year:

公平值乃使用二項式模型計算。模型 的輸入數據如下:

加權平均股價	3.34港元
行使價	1港元
預期波幅	59.69%
預期年期	10年
無風險比率	2.144%
預期股息率	0.69%

預期波幅乃使用本公司股價於過往四年之過往波幅而釐定。該模型使用的預期年期已根據管理層就不可轉讓性、行使限制及行為考慮因素的影響作出的最佳估計而予以調整。
