# LETTER FROM THE BOARD

On behalf of the board (the “Board”) of directors (the “Director(s)”) of Teamway International Group Holdings Limited (the “Company”, together with its subsidiaries, the “Group”), I am pleased to present all shareholders of the Company (the “Shareholders”) the annual report of the Company for the year ended 31 December 2020.

## MANAGEMENT DISCUSSION AND ANALYSIS

### BUSINESS REVIEW

The Company is an investment holding company, and through its subsidiaries, is principally engaged in the business of (i) design, manufacture and sale of packaging products and structural components in the PRC; and (ii) property investment.

#### Packaging Products and Structural Components Business

##### Revenue

Most of the Group’s customers under the packaging products and structural components business are leading consumer electrical appliance manufacturers in the PRC.

An analysis of revenue by products is as follows:

	Year ended 31 December			
	2020		2019	
	RMB'000	%	RMB'000	%
<i>Packaging products</i>				
Televisions	98,113	27.1	96,760	25.4
Refrigerators	77,811	21.6	80,689	21.1
Air conditioners	58,087	16.0	79,971	21.0
Washing machines	70,474	19.5	71,139	18.7
Water heaters	15,092	4.2	14,349	3.8
Information technology products	26,602	7.4	15,346	4.0
Others	2,776	0.7	6,056	1.6
<i>Structural components</i>				
For air conditioners	12,645	3.5	16,647	4.4
Total	361,600	100	380,957	100

During the current year, the revenue by product type remained relatively stable with the revenue derived from the Group’s products for televisions being the largest contribution of the segment revenue, amounting to approximately RMB98,113,000 or 27.1% of total segment revenue (2019: approximately RMB96,760,000 or 25.4% of total segment revenue). The revenue derived from the Group’s products for refrigerators and air conditioners (including packaging products and structural components) made the second and third largest contributions to the segment revenue, amounting to approximately RMB148,543,000 or 41.1% of total segment revenue (2019: approximately RMB177,307,000 or 46.5% of total segment revenue).

## Letter from the Board

### Cost of sales

The following table sets out a breakdown of the cost of sales for the periods stated below:

	Year ended 31 December			
	2020		2019	
	RMB'000	%	RMB'000	%
Raw materials	222,253	74.5	239,779	74.2
Direct labour costs	27,039	9.1	30,979	9.6
Manufacturing overhead	48,978	16.4	52,463	16.2
Staff costs	2,171	0.7	4,049	1.2
Depreciation	7,394	2.5	8,873	2.8
Utilities	24,595	8.2	25,616	7.9
Processing charges	13,782	4.6	12,988	4.0
Others	1,036	0.4	937	0.3
Total	298,270	100	323,221	100

For the year ended 31 December 2020, the cost of sales amounted to approximately RMB298,270,000 decreased by approximately RMB24,951,000 or 7.7% when compared to that of approximately RMB323,221,000 for the year ended 31 December 2019. The decrease in cost of sales, which is mainly contributed by the decrease in revenue, was decreasing at a similar pace with the drop in revenue.

The increase in gross profit margins of approximately 17.5% for the year ended 31 December 2020 from approximately 15.2% for the year ended 31 December 2019 was mainly led by the decrease in labour costs due to PRC government's special arrangement on contributions of employees' retirement schemes caused by novel coronavirus ("COVID-19") during the year ended 31 December 2020. However, such decrease in labour costs is an one-off effect and will not continue in coming years.

The Company will still face the challenge from the possible increase in cost of sales in future. In addition to the outbreak of COVID-19 and unstable macroeconomic environment, the uncertainties to the operating environment of packaging products and structural components business still exist.

### Supply of raw materials

The Group purchases raw materials and components necessary for the manufacturing of the Group's packaging products and structural components from independent third parties. The raw materials mainly include expanded polystyrene and expanded polyolefin. The Group retains a list of approved suppliers of raw materials and components and only makes purchases from the list. The Group has established long-term commercial relationships with its major suppliers for a stable supply and timely delivery of high quality raw materials and components. The Group had not experienced any major difficulties in procuring raw materials and components necessary for the manufacture of packaging products for the year ended 31 December 2020. The Group continues to diversify its suppliers of raw materials and components to avoid over reliance on a single supplier for any type of raw materials and components.

### *Production capacity*

The Group's three factories are capable of a maximum annual manufacturing capacity, in aggregate, of 20,300 tonnes of packaging products and structural components. The current production capacity enables the Group to promptly respond to market demand and strengthen its market position.

### **Property Investment Business**

For the year ended 31 December 2020, there are two investment properties in the property portfolio of the Group.

One investment property in Hong Kong was situated at Flat A, 21/F., Tower 1, One SilverSea, 18 Hoi Fai Road, Tai Kok Tsui, Kowloon, Hong Kong (registered in the Land Registry as Kowloon Inland Lot No. 11158) with gross floor area of approximately 2,016 square feet recorded a fair value gain of approximately RMB4,092,000 for the year ended 31 December 2020.

The other investment property in Singapore was situated at 1 Bishopsgate #04-06 Bishopsgate Residences, Singapore 247676 (registered in the Singapore Land Authority under the Land Lot No. TS24-U13661M) with a gross floor area of approximately 3,068 square feet recorded a fair value gain of approximately RMB6,565,000 for the year ended 31 December 2020.

During the year ended 31 December 2020, approximately RMB1,233,000 was recorded as rental income for both investment properties.

To improve the liquidity of the Company, the Company has listed both investment properties for sale as at 31 December 2020. Since the market prices of both investment properties constitute significant portions of the Company's assets, the proposed sales are likely to constitute discloseable/notifiable transactions which will be subject to notifications, publications and/or shareholders' approval requirements from the listing rules before the sales can be completed.

On 14 January 2021, the Company signed a provisional agreement to dispose the investment property in Hong Kong through selling 100% equity interest of Gorgeous Assets Limited. The Disposal of Property is due to complete on or before 13 April 2021.

## **FUTURE OUTLOOK**

### **Packaging Products and Structural Components Business**

The COVID-19 pandemic has brought about additional uncertainties in the Group's operating environment in China. As far as the Group's businesses are concerned, the effect on us is minimal in the sense that our operations and customers are all within the territory of China. During the year 2020 when a crippling pandemic plunged major world economies into recession, China has clearly come out on top. China's GDP resulted in an unexpected growth of 2.3 percent in year 2020, the only major economy of the world to see positive growth.

With the accelerating pace of recovery of China's economy and the effective control of pandemic by the Chinese government, we believe that the turnover of the packaging products and structural components business can at least be maintained at the same level.

## Letter from the Board

However, the COVID-19 pandemic and the current economic situation will inevitably affect our opportunities to look for new customers. In view of this difficult operating environment, the management believes it is a good timing to capture the opportunity and realise the manufacturing plant to improve the overall cashflow by reducing the debts of the Company. On 9 December 2020, the Company signed an agreement to dispose one of our manufacturing plants located in Chuzhou. The consideration was settled by offsetting directly from part of the outstanding loan and accrued interest owed by Peace Bright Investment Trading Limited, a direct wholly-owned subsidiary of the Company, to Pengtian, the transferee of the Disposal of Manufacturing Plant.

The Group will continue to look for ways and remedies to improve the efficiency of the production process and maintain stable supply of goods to the customers. Despite the economic uncertainties under the current situation of COVID-19 pandemic, the packaging products and structural components business still remains as a source of income of the Group for the time being. In view of the unsatisfactory financial performance, the Group will continue to look for attractive investment opportunities from time to time to broaden and diversify its income source with the aim to promote long term development for the Group.

### Property Investment Business

In Singapore, even the economy has been affected badly due to the COVID-19 pandemic, the property market has performed surprisingly well with prices reaching new heights since the market peak in 2013. The prices of private residences went up 2.2 percent for the year 2020. Based on the performance in 2020, the outlook of Singapore's property market in 2021 looks encouraging as Singapore remains one of the most sought-after destinations for foreigners to invest in real estate, especially during turbulent times.

Whilst the global property market is expected to be uncertain in the midst of the pandemic, we remain optimistic about the global property market in the long run.

## PROSPECTS

The outbreak of the Covid-19 virus that started in January 2020 triggering lockdowns has disrupted the global operating environments and generated huge uncertainties for the world.

This year is definitely a very difficult one to both the global and the local economies. While the COVID-19 pandemic has already inflicted tremendous human costs globally, in order to control the spread of the pandemic disease, governments in every part of the world are imposing necessary anti-epidemic measures, such as lockdown, which have brought destructive impacts on economic and business activities. The recovery of the global economy depends on how fast we can come out from this pandemic. In Hong Kong, in addition to the COVID-19 pandemic, the growing US-China tensions and social conflicts have brought further uncertainties to the local economy. Fortunately, the global economic situation now has limited effect on the main business of our Company as the manufacturing plants of our main business are all stationed in China and all of our customers are locals in China.

Nevertheless, the unpredictability associated with the development of COVID-19 and the unprecedentedly challenging environment of the global economy have become the obstacles for us to find new investors or explore new fund-raising opportunities. The Company will continue to look for new funding in order to capture new investment opportunities at the times when they come or may realise the existing investment to raise sufficient funds to achieve such purpose.

## FINANCIAL REVIEW

### Financial results

For the year ended 31 December 2020, the Group recorded the revenue of approximately RMB362,833,000, representing a decrease of 4.9% when compared to that of approximately RMB381,486,000 for the year ended 31 December 2019.

Loss attributable to owners of the Company was approximately RMB38,424,000 for the year ended 31 December 2020 when compared to loss of approximately RMB38,234,000 for the year ended 31 December 2019.

The slight increase in loss for the year ended 31 December 2020 was mainly attributable to the absence of dividend income of RMB29,148,000 recorded for the year ended 31 December 2019. The increase was partially offset by (i) the increase in gross profit as a result of decrease in depreciation from plant and machinery; (ii) the decrease in finance costs; and (iii) the increase in fair values of investment properties.

Basic and diluted loss per share and loss per share from continuing operations were RMB7.66 cents respectively (2019: RMB9.05 cents and RMB8.83 cents (restated) respectively).

### Liquidity and financial resources

As at 31 December 2020, the Group’s bank borrowing of approximately RMB5,000,000 (2019: approximately RMB10,000,000) had variable interest rates and was repayable within one year, which was secured by the Group’s buildings and prepaid land lease payments. As at 31 December 2020 and 2019, all of the bank borrowings were denominated in RMB.

As at 31 December 2020, the Group’s other borrowings of (i) approximately RMB21,655,000 (2019: approximately RMB22,982,000) had fixed interest rate at 6.5% per annum and was repayable on demand and were denominated in US\$; and (ii) approximately RMB148,894,000 (2019: RMB177,762,000) had fixed interest rate at 2% per annum, were repayable on 31 May 2023, were unsecured and were denominated in US\$; and (iii) approximately RMB92,814,000 and RMB118,645,000 under current liabilities and non-current liabilities (2019: RMB211,747,000 under non-current liabilities) had fixed interest rate at 16.5% to 18% per annum, was repayable within one year and on 2 January 2022, which was secured by the entire issued share capital of a wholly-owned subsidiary of the Company and were denominated in HK\$.

### Capital Structure

As at 31 December 2020, a total of 658,695,764 Shares with par value of HK\$0.04 each are in issue.

On 27 July 2020, the Board put forward to the shareholders of the Company (the “**Shareholders**”) a proposal of share consolidation (the “**Share Consolidation**”) on the basis that every four (4) issued existing ordinary shares with par value of HK\$0.01 each in the share capital of the Company be consolidated into one (1) consolidated share with par value of HK\$0.04 each. Pursuant to the resolution passed by the Shareholders at the extraordinary general meeting of the Company on 27 July 2020 (the “**EGM**”), the Share Consolidation became effective on 29 July 2020.

On 7 September 2020, the Company completed a rights issue of 198,772,264 rights shares (the “**Rights Issue**”) and a placing of 113,740,000 new shares (the “**Placing**”) at a price of HK\$0.16 each per share after the ordinary resolutions for Rights Issue and Placing were duly passed at the EGM.

Details of the Share Consolidation, Rights Issue and Placing have been disclosed in the announcements dated 27 May 2020, 5 June 2020, 27 July 2020, 7 September 2020, circular dated 9 July 2020 and prospectus dated 10 August 2020.

### Acquisitions, disposals and significant investment

Save as disclosed in this announcement, for the year ended 31 December 2020, there was no material acquisition, disposal or significant investment by the Group.

### Capital expenditure

### Human resources and training

As at 31 December 2020, the Group has 751 employees (2019: 715 employees). Total employee benefit expenses amounted to approximately RMB56,148,000 (2019: approximately RMB65,297,000). The Group has a management team (including product design and development team) with extensive industry experience. The Group has adopted an employee-focused management concept to involve the Group’s staff in the management and development of the Group. The Group has implemented a strict selection process for hiring its employees and a number of initiatives to enhance the productivity of its employees. The Group conducts regular performance reviews for its employees. The remuneration, promotion and salary increments of the employees are assessed according to their performance, professional and working experience, and prevailing market practices. In addition, the Group has implemented training programs for employees in various positions.

### **Gearing ratio**

As at 31 December 2020, the gearing ratio was 0.90 (2019: 0.95), which was measured on the basis of the Group's total borrowings divided by total assets.

### **Foreign exchange risk**

Business transactions of the Group are mainly denominated in HK\$ and RMB. Accordingly, the Directors consider that the Group is not exposed to significant foreign currency risk.

The Group currently does not have a foreign currency hedging policy. However, the Group's management monitors foreign exchange exposure. In the view of the fluctuation of RMB in recent years, the Group will consider hedging significant foreign currency exposure should the need arise.

### **Capital commitment**

As at 31 December 2020, the Group had no capital commitment (2019: Nil).

### **Contingent liabilities**

As at 31 December 2020, the Group had no material contingent liabilities (2019: Nil).

## **APPRECIATION**

Lastly, on behalf of the Board, I would like to take this opportunity to extend my sincere gratitude to our Shareholders, customers, suppliers and business partners for their unremitting support, and the management team and all our staff for their contributions.

On behalf of the Board

**Ngai Mei**

# CORPORATE GOVERNANCE REPORT

## CORPORATE GOVERNANCE PRACTICES

The Company recognises the value and importance of achieving high corporate governance standards to enhance corporate performance, transparency and accountability and to earn the confidence of Shareholders and the public. The Board strives to adhere to the principles of corporate governance and adopt sound corporate governance practices to meet the legal and commercial standards by focusing on areas such as internal control, fair disclosure and accountability to all Shareholders.

For the year ended 31 December 2020, the Company has adopted the code provisions (the “**Code Provision(s)**”) set out in the Corporate Governance Code (the “**CG Code**”) contained in the Appendix 14 to the Rules Governing the Listing of Securities (the “**Listing Rules**”) on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”).

The Board periodically reviews the corporate governance practices of the Company to ensure its continuous compliance with the CG Code. The Company was in compliance with the applicable Code Provisions for the year ended 31 December 2020.

## MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted terms as contained in the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 to the Listing Rules (the “**Model Code**”) as the Company’s code of conduct regarding securities transactions and dealings by the Directors. Each of the existing Directors, upon specific enquiries by the Company, confirmed that they have complied with the Model Code during the year ended 31 December 2020.

## BOARD OF DIRECTORS

### Members of the Board of Directors

As at the date of this annual report, the Board comprised the following Directors, (i) executive Directors, Ms. Ngai Mei and Ms. Duan Mengying; and (ii) independent non-executive Directors, Mr. Poon Lai Yin Michael, Mr. Chan Ka Leung Kevin and Mr. Chow Ming Sang.

The biographies of all Directors are set out in the section headed “Biographical Details of Directors” in this annual report. All Directors have the relevant experiences for effectively carrying out their respective duties.

In accordance with Rule 3.10 of the Listing Rules, the Company has already appointed three independent non-executive Directors and at least one of them has accounting expertise to assist the management in formulating development strategies of the Group, and to ensure that the preparation of the financial reports and other mandatory reports by the Board are in strict adherence to appropriate standards in order to protect the interests of the Shareholders and the Company. The Company has received annual confirmation of independence from each of the independent non-executive Directors in accordance with Rule 3.13 of the Listing Rules, and believes that, for the year ended 31 December 2020 and up to the date of this annual report, they were independent to the Company in accordance with the relevant requirements of the Listing Rules.

### Responsibilities of Directors

All newly-appointed Directors receive comprehensive and formal training on the first occasion of their appointments to ensure that they have a proper understanding of the businesses and development of the Group and are fully aware of their responsibilities under the statute and common law, the Listing Rules, applicable legal requirements and other regulatory requirements and the business and corporate governance policies of the Company.

To facilitate the Directors to discharge their responsibilities, they are continuously updated with regulatory developments, business and market changes and the strategic development of the Group.

### Supply of and Access to Information

In respect of regular Board meetings, and so far, as practicable in all other cases, an agenda accompanied by the relevant Board papers are sent to all Directors in a timely manner and before the intended date of a Board meeting.

All Directors are entitled to have access to Board papers, minutes and related materials.

### The Operation of the Board

The Board supervises the management of the business and affairs of the Company. The Board's primary duty is to ensure the viability of the Company and that it is managed in the best interests of the Shareholders as a whole while taking into account the interests of other stakeholders. The Group has adopted internal guidelines in setting forth matters that require the Board's approval. Apart from its statutory responsibilities, the Board is also responsible for formulating the development targets and objectives, material acquisitions and disposals, material capital investment, dividend policies, the appointment and removal of directors and senior management, remuneration policies and other major operation and financial issues of the Company. The powers and duties of the Board include convening Shareholders' meetings and reporting the Board's work at Shareholders' meetings, implementing resolutions passed at Shareholders' meetings, determining business plans and investment plans, formulating annual budget and final accounts, formulating proposals for profit distributions and for the increase or reduction of registered capital as well as exercising other powers, functions and duties as conferred by the memorandum and articles of association of the Company (the "**Articles of Association**"). Daily business operations and administrative functions of the Group are delegated to the management.

### Delegation by the Board

The management, consisting of executive Directors along with other senior executives, is delegated with responsibilities for implementing the strategy and direction as adopted by the Board from time to time, and conducting the day-to-day operations of the Group. Executive Directors and senior executives meet regularly to review the performance of the businesses of the Group as a whole, co-ordinate overall resources and make financial and operational decisions. The Board also gives clear directions as to their powers of management including circumstances where management should report back, and will review the delegation arrangements on a periodic basis to ensure that they remain appropriate to the needs of the Group.

Code Provision A.1.1 of the CG Code stipulates that the Board shall convene meetings regularly and convene at least four board meetings every year (approximately once a quarter).

## Corporate Governance Report

During the year ended 31 December 2020, the Board held 7 meetings. The attendance of the Directors at the Board meetings is as follows:

During the year, all Directors were provided with regular updates on the Group's business and operation and information which covered topics including but not limit to the CG Code, the disclosure and compliance of inside information, updates and changes in relation to legislative and regulatory requirements in which the Group conducts its business for their study and reference. During the year, all Directors had participated in continuous professional development to develop and refresh their knowledge and skills pursuant to the CG Code. All Directors (being Ms. Ngai Mei, Ms. Duan Mengying, Mr. Poon Lai Yin Michael, Mr. Chan Ka Leung Kevin and Mr. Chow Ming Sang received regular briefings and updates from the company secretary of the Company on the Group's business, operations and corporate governance matters, studied publications, books and other reading materials or attended seminars or workshops delivered by professionals, which are relevant to their duties and responsibilities.

## COMMITTEES UNDER THE BOARD

The Audit Committee, the Remuneration Committee and the Nomination Committee were established under the Board. These committees perform supervision and control of the Company based on their written terms of reference.

### Audit Committee

The Company established the Audit Committee on 10 June 2011 with written terms of reference in compliance with the Code Provisions of the CG Code. The primary duties of the Audit Committee are to review and supervise the financial reporting process and internal control procedures of the Group. The Audit Committee consists of three independent non-executive Directors, namely, Mr. Poon Lai Yin Michael (an independent non-executive Director appointed on 19 March 2019 with the appropriate professional qualifications as required under Rule 3.10(2) of the Listing Rules who serves as Chairman of the Audit Committee), Mr. Chan Ka Leung Kevin and Mr. Chow Ming Sang (both appointed on 21 June 2019).

The written terms of reference of the Audit Committee are in line with the Code Provisions of the CG Code and the latest version of such terms of reference are available upon request, on the Company's website and the Stock Exchange's website.

During the year ended 31 December 2020, the Audit Committee had considered, reviewed and discussed areas of concerns during the audit process, the compliance of company policy, the internal control procedures and the corporate governance of the Group and had approved the annual audited financial statements and the interim financial statements, respectively. There is no disagreement between the Board and the Audit Committee regarding the selection and appointment of the external auditors.

The Audit Committee had held 3 meetings during the year ended 31 December 2020.

The attendance of the members of the Audit Committee at the Audit Committee meeting is as follows:

<b>Directors</b>	<b>Meetings attended/held</b>
Mr. Poon Lai Yin Michael ( <i>Chairman</i> )	3/3
Mr. Chan Ka Leung Kevin	3/3
Mr. Chow Ming Sang	3/3

### Nomination Committee

The Company established the Nomination Committee pursuant to a resolution of the Directors passed on 10 June 2011. The primary duties of the Nomination Committee are to make recommendations to the Board on the appointment of Directors and management of the Board's succession, and to ensure that the candidates to be nominated as Directors are experienced and high caliber individuals. The Nomination Committee consists of three independent non-executive Directors, namely, Mr. Poon Lai Yin Michael (appointed on 19 March 2019), Mr. Chan Ka Leung Kevin and Mr. Chow Ming Sang (both appointed on 21 June 2019). Mr. Poon Lai Yin Michael is the Chairman of the Nomination Committee.

## Corporate Governance Report

### Board Diversity Policy

The Board has adopted a board diversity policy in accordance with the requirement set out in the CG Code (the "**Board Diversity Policy**") and discussed all measurable objectives set for implementing the policy. The Company recognises and embraces the benefits of diversity of Board members. It endeavours to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company's business. All Board appointments will continue to be made on a merit basis with due regard for the benefits of diversity of the Board members. Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, experience (professional or otherwise), skills and knowledge. The ultimate decision will be made upon the merits and contribution that the selected candidates will bring to the Board.

The Nomination Committee will monitor the implementation of the Board Diversity Policy and review the Board Diversity Policy, as appropriate, to ensure its effectiveness.

### Remuneration Committee

The Company established the Remuneration Committee pursuant to a resolution of the Directors passed on 10 June 2011 in compliance with the Code Provisions of the CG Code. The Company has adopted the Code Provisions to make recommendations to the Board to determine the remuneration packages of individual executive Directors and the members of senior management. The primary duties of the Remuneration Committee include: (i) reviewing the terms of the remuneration package of each Director and member of senior management, and making recommendations to the Board regarding any adjustment thereof; and (ii) reviewing and evaluating the performance of individual executive Directors for determining the amount of bonus (if any) payable to them. The Remuneration Committee comprises three independent non-executive Directors, namely Mr. Poon Lai Yin Michael (appointed on 19 March 2019), Mr. Chan Ka Leung Kevin and Mr. Chow Ming Sang (both appointed on 21 June 2019). Mr. Chan Ka Leung Kevin is the Chairman of the Remuneration Committee.

The written terms of reference of the Remuneration Committee adopted by the Board are in line with the Code Provisions of the CG Code and the latest version of such terms of reference are available upon request, on the Company's website and the Stock Exchange's website. The Remuneration Committee shall meet at least once every year for reviewing the remuneration policies.

### RISK MANAGEMENT AND INTERNAL CONTROL

The Board is responsible for establishing, maintaining and monitoring a sound and effective system of internal control and risk management of the Group. The Group's risk management and internal control system is designed to safeguard the shareholders' investment and the Group's assets against misappropriation and unauthorised disposition, to identify and manage key risks that may impact the Group's performance and to ensure strict compliance with relevant laws and regulations. However, systems of risk management and internal control, no matter how well designed and operated, can only provide reasonable and not absolute assurance against material misstatement or loss, as they are designed to manage, rather than eliminate, the risk of failure to achieve business objectives.

The Board has established process on an ongoing basis for identifying, evaluating and managing the significant risks faced by the Group and this process includes enhancing the systems of risk management and internal control from time to time in response to the changes to the business environment or regulatory guidelines.

In addition, the Group has engaged an independent professional advisor to assist the Board and the Audit Committee in ongoing monitoring of the risk management and internal control systems of the Group and in performing the internal audit functions for the Group. Deficiencies in the design and implementation of internal controls are identified and recommendations are proposed for improvement. Significant internal control deficiencies are reported to the Audit Committee and the Board on a timely basis to ensure prompt remediation actions are taken.

Report on review of risk management and internal control systems is submitted to the Audit Committee and the Board at least once a year. During the year ended 31 December 2020, the Board, through the Audit Committee, had performed annual review of the effectiveness and adequacy of the systems of risk management and internal controls of the Group covering all material controls in area of financial, operational and compliance controls and risk management functions. No material internal control aspects of any significant problems were identified. The Board and the Audit Committee considered that (i) the key areas of the Group's risk management and internal control systems are reasonably implemented during the year; and (ii) there were adequate staff with appropriate and adequate qualifications and experience, resources for accounting, internal audit and financial reporting functions, and adequate training programmes had been provided during the year. The Board will regularly review their adequacy and effectiveness.

### COMMUNICATION WITH SHAREHOLDERS

The Company endeavors to maintain an on-going dialogue with the Shareholders and in particular, through annual general meetings or other general meetings to communicate with the Shareholders and encourage their participation.

The Company will ensure that there are separate resolutions for separate issues proposed at the general meetings.

The Company will continue to maintain an open and effective investor communication policy and to update investors on relevant information on the Group's business in a timely manner, subject to relevant regulatory requirements.

# DIRECTORS' REPORT

The Directors present the annual report and the audited consolidated financial statements for the year ended 31 December 2020.

## PRINCIPAL ACTIVITIES

The principal activity of the Company is investment holding. Details of the Company's subsidiaries as at 31 December 2020 are set out in Note 1 to the audited consolidated financial statements in this annual report. There were no significant changes in the nature of the Group's principal activities during the year.

## BUSINESS REVIEW

Details of (i) business review and (ii) future development of the Group's business are set out respectively in the sections headed "Business review" and "Future outlook" under "Letter from the Board" of this annual report from pages 3 to 9.

### Principal Risks and Uncertainties

Our Group's financial condition, results of operations, and business prospects may be affected by a number of risks and uncertainties directly or indirectly pertaining to our Group's businesses. The followings are the key risks and uncertainties identified by our Group.

#### *Market Risks*

Market risk is the risk that deteriorates profitability or affects ability to meet business objectives arising from the movement in market prices, like foreign exchange rates, interest rates and equity prices. The management of the Group manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

#### *Business Risk*

Performance of our Group's core business will be affected by various factors, including but not limited to the economic conditions of PRC and Hong Kong and the performance of Hong Kong and Singapore property market, which would not be mitigated even with careful and prudent investment strategy and strict control procedures.

#### *Manpower and Retention Risk*

The Group may face the risk of not being able to attract and retain key personnel and talents with appropriate and required skills, experience and competence which would meet the business objectives of the Group. The Group will provide attractive remuneration package to suitable candidates and personnel, but may lead to the increment of labor cost.

#### *Foreign Exchange Rates Risk*

As part of the Group's assets and liabilities were denominated in HK\$, US\$ and SIN\$, in view of the potential RMB exchange rate fluctuations, our Group will continue to closely monitor the exposure and take any actions when appropriate.

#### *Liquidity Risk*

Liquidity risk is the potential that the Group will be unable to meet its obligations when they fall due because of an inability to obtain adequate funding or liquidate assets. In managing liquidity risk, the Group's management closely monitors cash flows and maintains an adequate level of cash and cash equivalent to ensure the ability to finance the Group's operations and reduce the effects of fluctuation in cash flows.

The financial risk management policies and practices of the Group are set out in Note 35 to the audited consolidated financial statements.

There may be other risks and uncertainties in addition to those shown below which are not known to our Group or which may not be material now but could turn out to be material in the future.

### **Environmental Policies and Performance**

The Group is committed to the long term sustainability of the environment and communities in which it operates. As a responsible corporation, the Group has complied with all relevant laws and regulations regarding environmental protection, health and safety, workplace conditions and employment and incorporates environmental friendly practices into its daily course of business to achieve efficient use of resources, water and energy saving and waste reduction.

In accordance with Rule 13.91 of the Listing Rules, the Company will publish an Environmental, Social and Governance (“**ESG**”) Report within three months after the publication of this annual report in compliance with the provisions set out in the ESG Reporting Guide in Appendix 27 to the Listing Rules.

### **Compliance with the Relevant Laws and Regulations**

The Group recognises the importance of compliance with regulatory requirements and the risk of non-compliance with the applicable rules and regulations. To the best knowledge of the Directors, the Group has complied in material respects with the relevant laws and regulations that have a significant impact on the business and operation of the Group during the year ended 31 December 2020. There was no material breach of or non-compliance with the applicable laws and regulations by the Group for the year ended 31 December 2020.

### **Relationship with Suppliers, Customers and other Stakeholders**

The Group understands the success of the Group's business depends on the support from its key stakeholders, including employees, customers, suppliers, banks, regulators and Shareholders. During the year ended 31 December 2020, there were no material and significant dispute between the Group and its key stakeholders. The Group will continue to ensure effective communication and maintain good relationship with each of its key stakeholders.

## **RESULTS AND DIVIDENDS**

The results of the Group for the year ended 31 December 2020 and financial position of the Group as at 31 December 2020 are set out in the audited consolidated financial statements on pages 37 to 107 in this annual report.

The Directors do not recommend the payment of any dividends for the year ended 31 December 2020 (2019: Nil).

## **SUMMARY OF FINANCIAL INFORMATION**

A summary of the published results, assets, liabilities and equity of the Group for the last five financial years, as extracted from the audited consolidated financial statements of the Company, is set out on page 108 of this annual report. This summary does not form part of the audited consolidated financial statements.

## DIVIDEND POLICY

The Board resolved on 15 March 2019 to adopt a policy on payment of dividends. The Board may from time to time determine and pay to the Company's shareholders such interim dividends as it considers appropriate. The Board may recommend the payment of special dividends and final dividends which are required to be approved by an ordinary resolution of shareholders of the Company in general meetings of an amount not exceeding the amount recommended by the Board.

It is the policy of the Company to allow its shareholders to participate in the Company's profits whilst to retain adequate reserves for future growth. The Company may pay dividends twice a year, being interim dividends and final dividends. The Board may also declare and pay special dividends in addition to such dividends if it considers appropriate. The Board will continue to review this dividend policy from time to time and reserves the right to amend or modify this dividend policy when the Board may deem necessary and this dividend policy shall in no way constitute a legally binding commitment by the Company that dividends will be paid in any particular amount and/or in no way obligate the Company to declare a dividend at any time or from time to time.

In determining/recommending the frequency, amount and form of any dividend in any financial year/period, the Board shall consider the following factors:

- (a) the interest of the shareholders;
- (b) statutory and regulatory restrictions;
- (c) the actual and expected financial results of the Group;
- (d) economic conditions and other internal or external factors that may have an impact on the business or financial performance and position of the Group;
- (e) the Group's business strategies, including future cash commitments and investment needs to sustain the long-term growth aspect of the business;
- (f) the possible effects on the Group's credit-worthiness, the financial covenants to which the Group is subject and any restrictions on the payment of dividends that may be imposed by the Group's lenders;
- (g) the current and future operations, liquidity position and capital requirements of the Group; and
- (h) any other factors that the Board deems appropriate.

The dividend payout ratio will vary from year to year. There is no assurance that dividends will be paid in any particular amount for any given period.

## Form of Dividend

Subject to compliance of the Company's applicable laws and regulations, Memorandum and Articles of Association of the Company, the financial reporting standards the Group has adopted and the Companies Laws of the Cayman Islands, dividends may be paid in cash or be satisfied wholly or partly in the form of allotment of shares of the Company. The Board may also consider the issuance of bonus shares on a basis permitted by the applicable laws and regulations.

## BANK BORROWINGS

Details of bank borrowings of the Group are set out in Note 26 to the audited consolidated financial statements in this annual report.

## REMUNERATION POLICY

The Group determines its employee salaries with reference to the prevailing market salary rate of respective locations, experience as well as performance of such employees. In order to motivate the Group's employees and retain talent, the Group has adopted the employee incentives, which include the share option scheme and bonus sharing arrangement. The employee incentives are available to the Group's employees who are considered qualified for such incentives by the management members of the Group based on their performances in the year under review. For details of the share option scheme, please refer to the paragraph headed "Share Option Scheme" in this annual report.

The Directors and senior management of the Company receive compensation in the form of fees, salaries, allowances, benefits in kind or discretionary bonuses relating to the performance of the Group. The Group also reimburses the Directors and senior management of the Company for expenses which are necessarily and reasonably incurred for providing services to the Group or discharging their duties in relation to the operations of the Group. When reviewing and determining the specific remuneration packages for the executive Directors and senior management, the Remuneration Committee takes into consideration factors such as salaries paid by comparable companies, time commitment and responsibilities of the Directors, employment elsewhere in the Group and desirability of performance-based remuneration.

Details of the remuneration of Directors and chief executive are set out in Note 9 to the audited consolidated financial statements in this annual report.

## RETIREMENT SCHEMES

The Group participates in defined contribution retirement plans which cover the Group's eligible employees in the PRC and a Mandatory Provident Fund Scheme for the employee(s) in Hong Kong. Particulars of these retirement plans are set out in Note 3.4 to the audited consolidated financial statements in this annual report.

## SHARE OPTION SCHEME

As to attract and retain the eligible persons, to provide additional incentive to them and to promote the success of the business of the Group, the Company conditionally adopted a share option scheme (the “**Scheme**”) on 10 June 2011 whereby the Board are authorised, at their absolute discretion and subject to the terms of the Scheme, to grant options to subscribe the shares of the Company (the “**Shares**”) to, inter alia, any employees (full-time or part-time), directors, consultants, advisers, distributors, contractors, suppliers, agents, customers, business partners or service providers of the Group. The Scheme became unconditional on 18 November 2011 and shall be valid and effective for a period of ten years commencing on 10 June 2011, subject to the early termination provisions contained in the Scheme.

An offer for the grant of options must be accepted within seven days inclusive of the day on which such offer was made. The amount payable by the grantee of an option to the Company on acceptance of the offer for the grant of an option is HK\$1.00. The subscription price of a Share in respect of any particular option granted under the Scheme shall be a price solely determined by the Board and notified to a participant and shall be at least the highest of: (i) the closing price of the Shares as stated in the Stock Exchange’s daily quotations sheet on the date of grant of the option; (ii) the average of the closing prices of the Shares as stated in the Stock Exchange’s daily quotations sheets for the 5 business days immediately preceding the date of grant of the option; and (iii) the nominal value of a Share on the date of grant of the option.

The Company shall be entitled to issue options, provided that the total number of Shares which may be issued upon exercise of all options to be granted under the Scheme does not exceed 10% of the Shares in issue on the Listing Date. The Company may at any time refresh such limit, subject to the Shareholders’ approval and issue of a circular in compliance with the Listing Rules. In any event, the total number of Shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under all the share option schemes of the Company shall not exceed 30% of the Shares in issue from time to time.

The total number of securities available for issue under the Scheme as at the date of this annual report was 1,020,000,000 Shares which represented 10% of the issued share capital of the Company as at the date of the 2016 annual general meeting (i.e. 14 June 2016). The total number of Shares issued and to be issued upon exercise of options granted to any grantee (including both exercised and outstanding options) under the Scheme, in any 12-month period up to the date of grant shall not exceed 1% of the Shares in issue.

An option may be exercised in accordance with the terms of the Scheme at any time during a period as the Board may determine which shall not exceed ten years from the date of grant subject to the provisions of early termination thereof.

During the period between the date of the listing of Shares on the Main Board of the Stock Exchange and 31 December 2020, no option has been granted by the Company under the Scheme.

# INDEPENDENT AUDITOR'S REPORT

## TO THE SHAREHOLDERS OF TEAMWAY INTERNATIONAL GROUP HOLDINGS LIMITED (Incorporated in the Cayman Islands with limited liability)

### OPINION

We have audited the consolidated financial statements of Teamway International Group Holdings Limited (the “**Company**”) and its subsidiaries (the “**Group**”) set out on pages 37 to 107, which comprise the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor’s responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA’s *Code of Ethics for Professional Accountants* (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor’s responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

**TO THE SHAREHOLDERS OF TEAMWAY INTERNATIONAL GROUP HOLDINGS LIMITED***(Incorporated in the Cayman Islands with limited liability)***KEY AUDIT MATTERS** *(continued)***Key audit matters****How our audit addressed the key audit matter***Expected credit losses for trade and notes receivables*

The carrying value of the Group's trade and notes receivables as at 31 December 2020 amounted to RMB225,177,000, representing 52% of the Group's total assets as at 31 December 2020. The loss allowance charged to the statement of profit or loss for the year was RMB2,488,000, and the cumulative loss allowance for the trade and notes receivables carried as at 31 December 2020 was RMB4,024,000. The loss allowance for the impairment of trade and notes receivables is maintained to reduce the Group's trade and notes receivables to their estimated recoverable amounts. Management evaluates the estimated loss allowance based on historical repayment behavior of debtors, ageing profile, specific information on individual customers as well as experience with collection trends, and current economic and business conditions. The management's continued refinement of the impairment of trade and notes receivables based on known customer information can provide a significant change in estimate between periods.

We focused the impairment assessment of the trade and notes receivables as a key audit matter because of the material amounts involved, the significant judgement and assumptions involved in the determination of loss allowance under the expected credit losses model.

The Group's accounting policies and disclosures on trade and notes receivables and loss allowance for expected credit losses are set out in notes 3.4, 4 and 19 to the financial statements.

In assessing the adequacy of loss allowance for the impairment on the trade and notes receivables, we evaluated the Group's credit control procedures regarding the credits granted to trade and notes receivables; performed testing on ageing profile to ascertain the accuracy of classification of receivables by ages; performed inquiry with management on the likelihood of recoverability of the trade and notes receivables; inspected cash receipts from customers after the reporting period; and assessed the reasonableness of management's loss allowance by examining the information such as historical default data, evaluating whether the loss rate are appropriately adjusted based on the current economic conditions and forward-looking information and examining the actual losses recorded during the current financial year as to whether there was an indication of management bias when recognising expected credit losses.

**OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT**

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## **TO THE SHAREHOLDERS OF TEAMWAY INTERNATIONAL GROUP HOLDINGS LIMITED**

*(Incorporated in the Cayman Islands with limited liability)*

### **RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

### **AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

## TO THE SHAREHOLDERS OF TEAMWAY INTERNATIONAL GROUP HOLDINGS LIMITED

*(Incorporated in the Cayman Islands with limited liability)*

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

**TO THE SHAREHOLDERS OF TEAMWAY INTERNATIONAL GROUP HOLDINGS LIMITED**

*(Incorporated in the Cayman Islands with limited liability)*

**AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED  
FINANCIAL STATEMENTS** *(continued)*

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Cheng Po Yuen.

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

### 2. BASIS OF PRESENTATION

For the year ended 31 December 2020, the Group incurred a loss attributable to owners of the parent of RMB38,424,000 and reported net liabilities of RMB39,932,000 as at 31 December 2020. Notwithstanding the aforesaid conditions, the consolidated financial statements have been prepared on a going concern basis on the assumption that the Group is able to operate as a going concern for the foreseeable future. In the opinion of the directors of the Company, the Group can meet its financial obligations as and when they fall due within the next twelve months, after taking into consideration of the measures and arrangements made by the Group as detailed below:

- (i) the Company has obtained a continuous financial support and undertaking from substantial shareholders of the Company;
- (ii) the Group is in negotiation with an independent party for the renewals of the Group's other borrowing upon expiry in January 2022;
- (iii) the unutilised banking facilities readily available to the Group amounted to RMB5,000,000 as at 31 December 2020;
- (iv) sales proceed from disposal of subsidiaries for offsetting part of outstanding loan and interest and replenishing working capital;
- (v) possible disposal for the Group's investment property in Singapore; and
- (vi) the Group is actively identifying any other possible financing options to strengthen the liquidity of the Group.

Notwithstanding the above, significant uncertainties exist as to whether the Group's plans and measures as describe above will be able to be achieved by the Group and whether the Group will be able to continue as a going concern would depend upon the Group's ability to generate adequate financing and operating cash flows in the near future, obtaining the continuous financial support from its shareholders. Should the Group be unable to continue to operate as a going concern, adjustments would have to be made to restate the values of assets to their recoverable amounts, to provide further liabilities that might arise and to reclassify non-current assets and non-current liabilities to current assets and current liabilities, respectively. The consolidated financial statements do not include any adjustments that would result from the failure of the Group to continue as a going concern.

### 3.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“**HKASs**”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties and financial assets at fair value through profit or loss which have been measured at fair values. These financial statements are presented in Renminbi (“**RMB**”) and all values are rounded to the nearest thousand except when otherwise indicated.

#### Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “**Group**”) for the year ended 31 December 2020. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary and (ii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group’s share of components previously recognised in other comprehensive income is reclassified to profit or loss or accumulated losses, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

### 3.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following revised HKFRSs for the first time for the current year's financial statements.

Amendments to HKFRS 3	<i>Definition of a Business</i>
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	<i>Interest Rate Benchmark Reform</i>
Amendment to HKFRS 16	<i>Covid-19-Related Rent Concessions</i> (early adopted)
Amendments to HKAS 1 and HKAS 8	<i>Definition of Material</i>

The nature and the impact of the revised HKFRSs are described below:

- (a) Conceptual Framework for Financial Reporting 2018 (the "Conceptual Framework") sets out a comprehensive set of concepts for financial reporting and standard setting, and provides guidance for preparers of financial statements in developing consistent accounting policies and assistance to all parties to understand and interpret the standards. The Conceptual Framework includes new chapters on measurement and reporting financial performance, new guidance on the derecognition of assets and liabilities, and updated definitions and recognition criteria for assets and liabilities. It also clarifies the roles of stewardship, prudence and measurement uncertainty in financial reporting. The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The Conceptual Framework did not have any significant impact on the financial position and performance of the Group.
- (b) Amendments to HKFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group has applied the amendments prospectively to transactions or other events that occurred on or after 1 January 2020. The amendments did not have any impact on the financial position and performance of the Group.
- (c) Amendments to HKFRS 9, HKAS 39 and HKFRS 7 address issues affecting financial reporting in the period before the replacement of an existing interest rate benchmark with an alternative risk-free rate ("RFR"). The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the introduction of the alternative RFR. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments did not have any impact on the financial position and performance of the Group as the Group does not have any interest rate hedging relationships.

### 3.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES *(Continued)*

- (d) Amendment to HKFRS 16 provides a practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the covid-19 pandemic. The practical expedient applies only to rent concessions occurring as a direct consequence of the pandemic and only if (i) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change; (ii) any reduction in lease payments affects only payments originally due on or before 30 June 2021; and (iii) there is no substantive change to other terms and conditions of the lease. The amendment is effective for annual periods beginning on or after 1 June 2020 with earlier application permitted and shall be applied retrospectively. The amendments did not have any significant impact on the financial position and performance of the Group.
- (e) Amendments to HKAS 1 and HKAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information, or both. The amendments did not have any significant impact on the financial position and performance of the Group.

### 3.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these financial statements.

Amendments to HKFRS 3	<i>Reference to the Conceptual Framework</i> <sup>2</sup>
Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16	<i>Interest Rate Benchmark Reform — Phase 2</i> <sup>1</sup>
Amendments to HKFRS 10 and HKAS 28 (2011)	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i> <sup>4</sup>
HKFRS 17	<i>Insurance Contracts</i> <sup>3</sup>
Amendments to HKFRS 17	<i>Insurance Contracts</i> <sup>3, 6</sup>
Amendments to HKAS 1	<i>Classification of Liabilities as Current or Non-current</i> <sup>3, 5</sup>
Amendments to HKAS 16	<i>Property, Plant and Equipment: Proceeds before Intended Use</i> <sup>2</sup>
Amendments to HKAS 37	<i>Onerous Contracts — Cost of Fulfilling a Contract</i> <sup>2</sup>
Annual Improvements to HKFRSs 2018–2020	Amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41 <sup>2</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2021

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2022

<sup>3</sup> Effective for annual periods beginning on or after 1 January 2023

<sup>4</sup> No mandatory effective date yet determined but available for adoption

<sup>5</sup> As a consequence of the amendments to HKAS 1, Hong Kong Interpretation 5 *Presentation of Financial Statements — Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause* was revised in October 2020 to align the corresponding wording with no change in conclusion

<sup>6</sup> As a consequence of the amendments to HKFRS 17 issued in October 2020, HKFRS 4 was amended to extend the temporary exemption that permits insurers to apply HKAS 39 rather than HKFRS 9 for annual periods beginning before 1 January 2023

### 3.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(Continued)*

Further information about those HKFRSs that are expected to be applicable to the Group is described below:

Amendments to HKFRS 3 are intended to replace a reference to the previous *Framework for the Preparation and Presentation of Financial Statements* with a reference to the *Conceptual Framework for Financial Reporting* issued in June 2018 without significantly changing its requirements. The amendments also add to HKFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of HKAS 37 or HK(IFRIC)-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying HKFRS 3 should refer to HKAS 37 or HK(IFRIC)-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group expects to adopt the amendments prospectively from 1 January 2022. Since the amendments apply prospectively to business combinations for which the acquisition date is on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 address issues not dealt with in the previous amendments which affect financial reporting when an existing interest rate benchmark is replaced with an alternative RFR. The Phase 2 amendments provide a practical expedient to allow the effective interest rate to be updated without adjusting the carrying amount when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities, if the change is a direct consequence of the interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis immediately preceding the change. In addition, the amendments permit changes required by the interest rate benchmark reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of HKFRS 9 to measure and recognise hedge ineffectiveness. The amendments also provide a temporary relief to entities from having to meet the separately identifiable requirement when an RFR is designated as a risk component. The relief allows an entity, upon designation of the hedge, to assume that the separately identifiable requirement is met, provided the entity reasonably expects the RFR risk component to become separately identifiable within the next 24 months. Furthermore, the amendments require an entity to disclose additional information to enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy. The amendments are effective for annual periods beginning on or after 1 January 2021 and shall be applied retrospectively, but entities are not required to restate the comparative information.

The Group had certain interest-bearing bank borrowings denominated in RMB based on the China Interbank Offered Rate as at 31 December 2020. If the interest rates of these borrowings are replaced by RFRs in a future period, the Group will apply this practical expedient upon the modification of these borrowings when the "economically equivalent" criterion is met and expects that no significant modification gain or loss will arise as a result of applying the amendments to these changes.

### 3.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(Continued)*

Amendments to HKAS 1 clarify the requirements for classifying liabilities as current or non-current. The amendments specify that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The amendments also clarify the situations that are considered a settlement of a liability. The amendments are effective for annual periods beginning on or after 1 January 2023 and shall be applied retrospectively. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied retrospectively only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 37 clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied to contracts for which an entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments. Earlier application is permitted. Any cumulative effect of initially applying the amendments shall be recognised as an adjustment to the opening equity at the date of initial application without restating the comparative information. The amendments are not expected to have any significant impact on the Group's financial statements.

Annual Improvements to *HKFRSs 2018–2020* sets out amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41. Details of the amendments that are expected to be applicable to the Group are as follows:

- HKFRS 9 *Financial Instruments*: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendment is effective for annual periods beginning on or after 1 January 2022. Earlier application is permitted. The amendment is not expected to have a significant impact on the Group's financial statements.
- HKFRS 16 *Leases*: removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying HKFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying HKFRS 16.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets includes an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Business combinations and goodwill** *(Continued)*

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

#### **Fair value measurement**

The Group measures its investment property at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 — based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Impairment of non-financial assets**

Where an indication of impairment exists, or when annual impairment testing for an asset is required, the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

#### **Related parties**

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
  - (i) the entity and the Group are members of the same group;
  - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
  - (iii) the entity and the Group are joint ventures of the same third party;

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### Related parties *(Continued)*

(b) (Continued)

- (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
- (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
- (vi) the entity is controlled or jointly controlled by a person identified in (a);
- (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
- (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

#### Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings	Over the term of the leases, or 20 years whichever is the shorter
Leasehold improvements	20% or over the relevant lease terms whichever is shorter
Plant and machinery	10% to 20%
Office equipment	20%
Motor vehicles	20% to 40%
Moulds	20%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Property, plant and equipment and depreciation** *(Continued)*

Construction in progress represents buildings and plant and machinery under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

#### **Investment properties**

Investment properties are interests in land and buildings (including the leasehold property held as a right-of-use asset which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in the statement of profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment properties are recognised in the statement of profit or loss in the year of the retirement or disposal.

#### **Leases**

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### **Group as a lessee**

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

##### *(a) Right-of-use assets*

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets is over the lease terms ranging from 2 to 50 years.

##### *(b) Lease liabilities*

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Group as a lessee** *(Continued)*

##### *(b) Lease liabilities (Continued)*

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

##### *(c) Short-term leases and leases of low-value assets*

The Group applies the short-term lease recognition exemption to its short-term leases of equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value. Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

#### **Group as a lessor**

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee are accounted for as finance leases.

#### **Investments and other financial assets**

##### *Initial recognition and measurement*

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade and notes receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade and notes receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Investments and other financial assets** *(Continued)*

##### *Initial recognition and measurement (Continued)*

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest (“SPPI”) on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group’s business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

##### *Subsequent measurement*

The subsequent measurement of financial assets depends on their classification as follows:

##### *Financial assets at amortised cost (debt instruments)*

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

##### *Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes derivative instruments and equity investments which the Group had not irrevocably elected to classify at fair value through other comprehensive income. Dividends on equity investments classified as financial assets at fair value through profit or loss are also recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### Impairment of financial assets

The Group recognises an allowance for expected credit losses ("**ECLs**") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

#### *General approach*

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable Information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Impairment of financial assets** *(Continued)*

##### *General approach (Continued)*

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below:

Stage 1 — Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs

Stage 2 — Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs

Stage 3 — Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

##### *Simplified approach*

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For trade receivables that contain a significant financing component, the Group chooses as its accounting policy to adopt the general approach in calculating ECLs with policies as described above.

#### **Financial liabilities**

##### *Initial recognition and measurement*

Financial liabilities are classified, at initial recognition, as payables or loans and borrowings.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables and interest-bearing bank and other borrowings.

##### *Subsequent measurement*

The subsequent measurement of financial liabilities depends on their classification as follows:

##### *Financial liabilities at amortised cost (loans and borrowings)*

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Derecognition of financial liabilities**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

#### **Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost is determined on weighted average method. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

#### **Cash and cash equivalents**

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

#### **Provisions**

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in the statement of profit or loss.

#### **Income tax**

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Income tax** *(Continued)*

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

#### **Government grants**

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### Revenue recognition

##### *Revenue from contracts with customers*

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

(a) *Sales of goods*

Revenue from the sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of goods.

(b) *Consultancy and business valuation services*

Service income is recognised over time when the services are rendered because the customer simultaneously receives and consumes the benefits provided by the Group.

##### *Revenue from other sources*

Rental income is recognised on a time proportion basis over the lease terms. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are incurred.

##### *Other income*

Interest income is recognised on an accrual basis using the effective interest method.

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### **Contract liabilities**

A contract liability is recognised a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e. transfer control of the related goods or services to the customer).

#### **Share-based payment arrangements**

Equity-settled share-based payments to employees and other providing similar services are measured at the fair value of the equity instruments at the grant date.

At the end of the reporting period, the Group revises its estimates of the number of equity instruments that are expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to equity-settled employee benefits reserve.

For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to accumulated losses.

#### **Other employee benefits**

##### *Pension scheme*

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the “**MPF Scheme**”) under the Mandatory Provident Fund Schemes Ordinance for all of its employees. Contributions are made based on a percentage of the employees’ basic salaries and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group’s employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Group’s subsidiaries which operates in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute certain of its payroll costs to the central pension scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

#### **Borrowing costs**

All borrowing costs are expensed in the period in which they are incurred.

### 3.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

#### Foreign currencies

The Company's functional currency is the Hong Kong dollar while the presentation currency of these financial statements is RMB. In the opinion of the directors, as the Group's operations are mainly in the PRC, the use of RMB as the presentation currency is more appropriate for the presentation of the Group's results and financial position. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using the functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

The functional currencies of certain overseas subsidiaries are currencies other than RMB. As at the end of the reporting period, the assets and liabilities of these entities are translated into RMB at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into RMB at the weighted average exchange rates for the year.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rates for the year.

### 4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

The major judgements, estimates and assumptions that have the most significant effect on the amount recognised in the consolidated financial statements and have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are set out below:

**(a) Net realisable value of inventories**

Net realisable value of inventories is the estimated selling price in the ordinary course of business, less estimated costs of completion and variable selling expenses. These estimates are based on the current market condition and the historical experience of manufacturing and selling products of similar nature. It could change significantly as a result of changes in customer taste and competitor actions in response to severe industry cycle. The directors assess the estimations at the end of each reporting period. Details of inventories are disclosed in note 18 to the financial statements.

**(b) Provision for expected credit losses on trade receivables**

The Group applies basically the simplified approach in calculating expected credit losses ("ECLs"). An impairment analysis is performed at each reporting date using a loss rate approach to measure ECLs. The credit risk categorisation is determined based on a number of factors which include (i) debtors' ageing; (ii) historical repayment behavior of debtors; (iii) debtors' specific information available to the Group which is relevant for credit risk assessment; and (iv) current industry conditions and future economic outlook. The credit risk categorisation is adjusted to reflect subsequent information uncovered to an extent that such information provides evidence of conditions existed as at the year end date and forward-looking information. The ECLs are estimated based on the expected cash flows that can be recovered and other estimated repayments based on historical recovery ratios.

The assessment of correlation among historical recovery ratio, estimated repayment and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and conditions. The Group's historical credit loss experience and estimates may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in note 19 to the financial statements.

#### 4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES *(Continued)*

**(c) Depreciation of property, plant and equipment**

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives, after taking into account their estimated residual value. The Group assesses annually the residual value and the useful lives of the property, plant and equipment. If the expectation differs from the original estimate, such difference will impact the depreciation and the amortisation charged in the year in which such estimate is changed. Details of property, plant and equipment are disclosed in note 15 to the financial statements.

**(d) Leases – Estimating the incremental borrowing rate**

The Group cannot readily determine the interest rate implicit in a lease, and therefore, it uses an incremental borrowing rate (“**IBR**”) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group “would have to pay”, which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when it needs to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates. Details of leases are disclosed in note 17 to financial statements.

#### 5. OPERATING SEGMENT INFORMATION

For management purpose, the Group is organised into business units based on their products and services and has two reportable segments as follows:

- design, manufacture and sale of packaging products and structural components in the PRC
- property investment

The Group discontinued the principal activity of provision for corporate secretarial, consultancy and business valuation services for the year ended 31 December 2019.

Management monitors the results of the Group’s operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is measure of adjusted profit/loss before tax. The adjusted profit/loss before tax is measured consistently with the Group’s loss before tax except that interest income, dividend income from unlisted investment, finance costs as well as head office and corporate expenses are excluded from such measurement.

Segment assets excluded deferred tax assets and other unallocated head office and corporate assets as these assets are managed on a group basis.

Segment liabilities excluded interest-bearing bank and other borrowings, deferred tax liabilities and other unallocated head office and corporate liabilities as these liabilities are managed on a group basis.

The following table illustrates the fair value measurement hierarchy of the Group's investment properties:

	Fair value measurement as at 31 December 2020 using			Total RMB'000	
	Quoted prices in active markets (Level 1) RMB'000	Significant observable inputs (Level 2) RMB'000	Significant unobservable inputs (Level 3) RMB'000		
	Recurring fair value measurement for:				
	Residential properties	—	—		94,360

	Fair value measurement as at 31 December 2019 using			Total RMB'000	
	Quoted prices in active markets (Level 1) RMB'000	Significant observable inputs (Level 2) RMB'000	Significant unobservable inputs (Level 3) RMB'000		
	Recurring fair value measurement for:				
	Residential properties	—	—		89,418

During the year, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 (2019: Nil).

The fair value of the investment properties were determined using the comparison approach based on market comparables of similar properties and with adjustments made on factors such as location, size, age, condition and aspects of the properties. There has been no change in the valuation techniques used in prior year.

## 16. INVESTMENT PROPERTIES (Continued)

### Fair value hierarchy (Continued)

Below is a summary of the valuation techniques used and the key inputs to the valuation of investment properties:

Investment properties held by the Group	Valuation techniques	Significant unobservable inputs	Range or weighted average 2020	2019	Relationship of input to fair value
Flat A, 21/F Tower 1, One Silversea 18 Hoi Fai Road Tai Kok Tsui, Kowloon Hong Kong	Direct comparison method	Estimated market price per square feet (RMB)	<b>21,938 to 26,810</b>	18,433 to 27,967	The higher the market price, the higher the fair value
1 Bishopsgate #04-06, Bishopsgate Residences, Singapore 247676	Direct comparison method	Estimated market price per square feet (RMB)	<b>18,004 to 19,546</b>	16,339 to 18,517	The higher the market price, the higher the fair value

The direct comparison method is adopted by making reference to comparable market transactions in the assessment of the fair value of the investment properties. The approach rests on the wide acceptance of the market transactions as the best indicator and pre-supposes that evidence of relevant transactions in the market place can be extrapolated to similar properties, subject to allowances for variable factors, including the transaction date, level of floor, environmental atmosphere, size of apartment and etc.

## 17. LEASES

### The Group as a lessee

The Group has lease contracts for leasehold land and buildings used in its operations. Leases of leasehold land and buildings generally have lease terms of 50 years and 2 years respectively. Other leasehold land and buildings generally has lease terms of 12 months or less and/or is individually of low value. Generally, the Group is restricted from assigning and subleasing the leased assets outside the Group.

	<b>225,177</b>	211,032

The Group's trading terms with its customers are mainly on credit, or otherwise sales on cash terms are required. The credit period is generally one month, extending up to four months for major customers. Notes receivables are received from customers under the ordinary course of business. All of them are bank acceptance bills with maturity period within six months.

Before accepting any new customers, the Group assesses the potential customers' credit quality and defines credit limits by customers. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the delivery date and net of provisions, is as follows:

	<b>2020</b>	2019
	<b>RMB'000</b>	RMB'000

The movements in the loss allowance for impairment of trade and notes receivables are as follows:

	<b>2020</b>	2019
	<b>RMB'000</b>	RMB'000
At beginning of year	<b>1,536</b>	277
Impairment losses	<b>2,488</b>	1,259
At end of year	<b>4,024</b>	1,536

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision for expected credit losses by grouping together trade receivables with similar credit risk characteristics and collectively assessing them for likelihood of recovery, taking into account prevailing economic conditions. For trade receivables relating to accounts which are long overdue with significant amounts or known insolvencies, financial difficulties or non-response to collection activities, they are assessed individually for impairment allowance.

In determining the expected credit losses for notes receivables, the directors of the Company have considered the bills received by the Group with a maturity period of less than one year are assessed on 12-month ECL by reference to the external credit rating, and concluded that the credit risk inherent in the Group's outstanding notes receivables is insignificant as at 31 December 2020 and 2019.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

On 28 August 2017, Great Earn International Limited (“**Great Earn**”), an indirect wholly-owned subsidiary of the Company, entered into loan agreement (the “**Loan Agreement**”) with Rossoneri Sport Investment Co., Limited (“**Rossoneri**”), an independent third party, pursuant to which the Group has granted a facility in the principal amount of United States Dollars (“**US\$**”) 8,300,000 (approximately RMB53,906,000) (the “**Loan**”) to Rossoneri with carrying amount of approximately RMB54,583,000. The Loan is secured by share charge over the entire issued shares of Rossoneri Advance Co., Limited, the ultimate holding company of Rossoneri and wholly-owned by Mr. Li Yong Hong (“**Mr. Li**”), and a personal guarantee provided by Mr. Li. The Loan is bearing interest of 14% per annum, for a term of six months, with extension clauses for three months from the first expiry on 28 February 2018 (the “**First Extended Maturity Date**”, i.e. on 28 May 2018) and further three months from the expiry of the First Extended Maturity Date (the “**Second Extended Maturity Date**”, i.e. on 28 August 2018), subject to mutual agreement in writing to be made between Great Earn and Rossoneri.

Rossoneri failed to repay the Loan on 28 February 2018 and the Company has sent numerous reminders to Rossoneri. On 5 March 2018, Great Earn and Rossoneri entered into a supplemental deed (the “**Supplemental Deed**”), pursuant to which the extension clauses were superseded and the First Extended Maturity Date and Second Extended Maturity Date have been amended to 31 March 2018 and 30 April 2018, respectively. In addition, for the period from the date immediately after 28 February 2018, Rossoneri shall pay interest at the rate of 24% per annum. The interest shall become due and payable by Rossoneri to the Group on 31 March 2018. The Loan is further secured by a personal guarantee provided by Ms. Huang Qingbo (“**Ms. Huang**”), an independent third party of the Company. Further details of which were set out in the Company’s announcement dated 5 March 2018.

**21. LOAN AND INTEREST RECEIVABLES** *(Continued)*

As at 30 April 2018, the Loan was still outstanding and in default position. On 17 May 2018, the Company promptly sent demand letters to each of Rossoneri, Mr. Li and Ms. Huang demanding for repayment of the Loan and asserted the rights of the Company under the Loan Agreement and the Supplemental Deed.

Rossoneri was only able to repay all the interests up to 30 April 2018 and part of the principal amount of US\$1,000,000. In order to protect the interests of the Company and shareholders as a whole, the Company decided to take legal actions and arranged the Company's lawyer to issue the writ of summons to Rossoneri, Mr. Li and Ms. Huang respectively on 15 August 2018.

Since the Loan has been overdue for long time and the timing and result for the court to make final judgement are unknown, the directors have taken a prudent approach to make an impairment loss on the full amount of the outstanding principal amount in the sum of US\$7,300,000 (approximately RMB47,995,000) for the year ended 31 December 2018.

As suggested by lawyer, the Company issued an application for summary judgement on 14 May 2019 and on 11 September 2019, a judgement was granted in favor of the Company in which Rossoneri and Mr. Li were liable to pay the Company the sum of US\$7,300,000 (being the outstanding principal amount of the Loan) with interests at a rate of 24% from 1 May 2018 and the related costs until full payment is received. The Company is now seeking advice from the Company's lawyers on the best option to enforce the judgement. Since the loan has been overdue for long time, the directors have decided to write-off the outstanding balance during the year ended 31 December 2020.

The movements in the loss allowance of loan and interest receivables are as follows:

	<b>2020</b> <b>RMB'000</b>	2019 RMB'000
At beginning of year	<b>54,583</b>	54,583

	<b>2020</b> <b>RMB'000</b>	2019 RMB'000
Unlisted investment, at fair value	<b>2,000</b>	—

The above unlisted investment was wealth management products issued by bank in Mainland China. It was mandatorily classified of financial assets at fair value through profit or loss as its contractual cash flow is not solely payments of principal and interest.

## 23. CASH AND BANK BALANCES

At the end of the reporting period, the cash and bank balances of the Group denominated in RMB amounted to RMB6,514,000 (2019: RMB12,501,000). The RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sales and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through bank authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rate based on daily bank deposit rates. Short term time deposits are made for period of one day depending on the immediate cash requirements of the Group, and earn interests at the respective short term time deposits rates. The bank balances and time deposits are deposited with creditworthy banks with no recent history of default.

## 24. TRADE PAYABLES

An ageing analysis of the trade payables as at the end of the reporting period, based on the invoice date, is as follows:

## 27. DEFERRED TAXATION *(Continued)*

Pursuant to the PRC Enterprise Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 5%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries in Mainland China in respect of earnings generated from 1 January 2008.

## 29. SHARE OPTION SCHEME

The Company operates a share option scheme (the “**Scheme**”) for the purpose of providing incentives to eligible participants who contribute to the success of the Group’s operations. Eligible participants of the Scheme include the directors, employees, consultants, advisors, distributors, contractors, suppliers, agents, customers, business partners or service providers of the Group, and any substantial shareholder of any member of the Group. The Scheme became effective on 10 June 2011 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders’ approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company’s shares at the date of grant) in excess of HK\$5 million, within any 12-month period, are subject to shareholders’ approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 7 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors which shall not exceed ten years from the date of grant subject to the provisions of early termination thereof.

The exercise price of share options is determinable by the directors, but may not be less than the higher of (i) the Stock Exchange closing price of the Company’s shares on the date of grant of the share options; and (ii) the average Stock Exchange closing price of the Company’s shares for the five business days immediately preceding the date of grant of the share options.

No share options were granted, exercised, cancelled or lapsed under the scheme during the year nor outstanding at the end of the reporting period.

### 30. RESERVES

The amounts of the Group's reserves and the movement therein for the current and prior years are presented in the consolidated statement of changes in equity of the financial statements. The other reserves of the Group are summarised as follows:

**(a) PRC capital reserve**

Exchange differences relating to the translation of the capital contributions by the equity owner of the Group's PRC subsidiaries from foreign currency to RMB are recognised directly in the PRC capital reserve.

**(b) PRC statutory reserves**

As stipulated by the relevant laws and regulations for foreign investment enterprises in the PRC, the Company's PRC subsidiaries are required to maintain two statutory reserves, being an enterprise expansion fund and a statutory surplus reserve fund which are non-distributable. Appropriations to such reserves are made out of profit after tax reported in the statutory financial statements of the PRC subsidiaries while the amounts and allocation basis are decided by the directors annually but must not be less than 10% of the profit after tax, until such reserves reached to 50% of the registered capital of the relevant subsidiaries. The statutory surplus reserve fund can be used to make up their prior year losses, if any, and can be applied in conversion into capital by means of capitalisation issue. The enterprise expansion fund is used for expanding the capital base of the PRC subsidiaries by means of capitalisation issue.

**(c) Special reserve**

Special reserve of the Group represents the difference between the aggregate amount of considerations paid by the Group for the acquisition of Chuzhou Chuangce Packaging Materials Company Limited, Chongqing Guangjing Packing Materials Co. Ltd and Sichuan Jinghong Packing Materials Co. Ltd., and the aggregate amount of paid-in capital of the aforesaid subsidiaries acquired pursuant to the corporate reorganisation undertaken during the year ended 31 December 2011.

**(d) Shareholders' contributions**

On 24 October 2011, Rich Gold International Limited ("**Rich Gold**") executed a deed of release in favor of the Company, pursuant to which Rich Gold unconditionally and irrevocably released and discharged the repayment of a shareholder's loan from Rich Gold to the Company in the amount of HK\$12,500,000 (equivalent to approximately RMB10,296,000) and any claim regarding such repayment. Such amount was recorded in shareholders' contributions in equity.

**31. NOTES TO THE CONSOLIDATED STATEMENT OF CASH FLOWS****(a) Major non-cash transactions**

### 34. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

Management has assessed that the fair values of financial assets and financial liabilities recorded at amortised cost and considered their carrying amounts approximate their fair values largely due to the short term maturities of these instruments.

The Group's finance department is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance department reports directly to the directors and the audit committee. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the directors. The valuation process and results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values: As at 31 December 2020, the Group invested in an unlisted investment, which represented wealth management products issued by bank in Mainland China. The Group has estimated the fair value of these unlisted investments by using a discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks.

#### Fair value hierarchy

The following tables illustrate the fair value measurement hierarchy of the Group's financial instruments:

Assets measured at fair value:

	Fair value measurement using			Total RMB'000
	Quoted prices in active markets (Level 1) RMB'000	Significant observable inputs (Level 2) RMB'000	Significant unobservable inputs (Level 3) RMB'000	
<b>As at 31 December 2020</b>				
Financial assets at fair value through profit or loss	—	2,000	—	2,000

The Group did not have any financial assets measured at fair value as at 31 December 2019.

The Group did not have any financial liabilities measured at fair value as at 31 December 2020 and 2019.

During the year, there were no transfer of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 for both financial assets and financial liabilities (2019: Nil).

### 35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments include financial assets of fair value through profit or loss, loan and interest receivables, trade and notes receivables, financial assets included in deposits, other receivables, cash and bank balances, trade payables, financial liabilities included in other payables and accruals, lease liabilities, and interest-bearing bank and other borrowings.

The main risks arising from the Group's financial instruments are foreign currency risk, credit risk, liquidity risk and interest rate risk. The Group does not have any written risk management policies and guidelines. The board of directors reviews and agrees policies for managing each of these risks and they are summarized below.

#### Foreign currency risk

The carrying amounts of major foreign currency denominated monetary assets and monetary liabilities (including loan and interest receivables, trade and notes receivables, deposits and other receivables, short-term bank deposits, cash and bank balances, trade and other payables, lease liabilities, other borrowings and foreign currency denominated intra group balances) which expose the Group to foreign currency risk at the end of the reporting period are as follows:

	Assets		Liabilities	
	2020 RMB'000	2019 RMB'000	2020 RMB'000	2019 RMB'000
HK\$	16,978	32,482	220,381	214,421
US\$	19	21	170,549	200,744
SGD	767	259	157	170

The following table details the sensitivity to a 5% (2019: 5%) increase and decrease in the relevant foreign currencies and all other variables were held constant. 5% is the sensitivity rate used which represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the reporting period for a 5% (2019: 5%) change in foreign currency rate. A positive (negative) number below indicates a decrease (increase) in post-tax loss for the year where functional currencies of respective group entities strengthen 5% (2019: 5%) against foreign currencies. For a 5% (2019: 5%) weakening of functional currencies of respective group entities against foreign currencies, there would be an equal and opposite impact on the result for the year.

	2020 RMB'000	2019 RMB'000
HK\$	(10,170)	(9,097)
US\$	(8,527)	(10,036)

\* For trade and notes receivables to which the Group applies the simplified or general approach for impairment, information based on the provision matrix is disclosed in notes 19 to the financial statements.

\*\* The credit quality of the financial assets included in deposits, prepayments and other receivables is considered to be "normal" when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition. Otherwise, the credit quality of the financial assets is considered to be "doubtful".

**35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES** (Continued)**Liquidity risk**

In the management of the liquidity risk, the Group monitors and maintains a level of cash and bank balances deemed adequate by the management to finance the Group's operations and mitigates the effects of fluctuations in cash flows. The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on contractual undiscounted payments, is as follows:

	<b>On demand or less than 1 year</b> RMB'000	<b>More than 1 year</b> RMB'000	<b>Total undiscounted cash flows</b> RMB'000

Interest-bearing bank and other borrowings	33,203	431,210	464,413
	104,253	435,244	539,497

As explained in note 2 to the financial statements, the directors have adopted or plan to adopt certain measures in order to improve the Group's financial and cash flow positions and to maintain the Group's as a going concern.

### 35. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(Continued)*

#### **Interest rate risk**

The Group's cash flow interest rate risk relates primarily to the Group's bank borrowing with a floating interest rate. The Group currently does not have an interest rate hedging policy. However, management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

As the Group is not exposed to significant interest rate risk, the directors consider that the presentation of sensitivity analysis is unnecessary.

#### **Capital risk management**

The Group manages its capital to ensure that the entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged.

The capital structure of the Group consists of debt balance and equity balance. Debt balances consists of interest-bearing bank and other borrowings. Equity balance consists of equity attributable to owners of the parent, comprising issued share capital and reserves.

The directors review the capital structure on an on-going annual basis. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through new issues and the issue of new debt.

The Group is not subject to any externally imposed capital requirements.
