CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board (the “**Board**”) of Directors (the “**Directors**”, each a “**Director**”) of Wanguo International Mining Group Limited (the “**Company**”), I am pleased to present the audited results of the Company and its subsidiaries (collectively referred to as the “**Group**”) for the financial year ended 31 December 2020.

For the year ended 31 December 2020, the Group mined 892,107 tonnes of ores, of which it sold copper in copper concentrates of 3,808 tonnes, iron concentrates of 104,726 tonnes, zinc in zinc concentrates of 5,429 tonnes, sulfur concentrates of 188,974 tonnes, lead in lead concentrates of 822 tonnes, gold of 154 kg, silver of 8,110 kg and copper of 269 kg. We achieved revenue of RMB1,394.1 million, gross profit of RMB157.4 million and profit attributable to owners of the Company of RMB86.7 million.

On 30 April 2020, the Group completed the acquisition of 77.78% interest of AXF Gold Ridge Pty Ltd (“**AXF Gold Ridge**”) in which owns 90% interest of a gold ridge mine located in Solomon Islands (“**Gold Ridge Mine**”). Gold Ridge Mine is one of the largest gold mines in the Oceania region in terms of mineral resources. The project concerning the Gold Ridge Mine (the “**Gold Ridge Project**”) has substantial reserves of gold, which is expected to be further exploited with the processing plant being renovated. The Gold Ridge Project is expected to contribute sales revenue and profits to the Group.

On 29 December 2020, the Company entered into a subscription agreement with Shandong Humon Smelting Co., Ltd. (山東恒邦冶煉股份有限公司) which is a company listed on the Shenzhen Stock Exchange (Stock code: 002237), and is principally engaged in gold and silver smelting, production and sales of electrolytic copper, cathode copper, lead ingots, non-ferrous metals, rare and precious metals and their products. This transaction offered the Company a good opportunity to raise additional funds to strengthen the financial position and broaden the capital base of the Group so as to facilitate its development of Gold Ridge Mine.

With the outbreak of COVID-19 at the beginning of 2020, it seriously affected global economy including the non-ferrous metal market. Starting from the second quarter, the domestic economy in the Mainland China has been recovering, where a “Dual Cycle” was built, which drove the metal market upwards. With completion of the acquisition of Gold Ridge Mine and fund-raising, the Company will start from a new beginning and make a bright future.

On behalf of the Group, I would like to take this opportunity to express my sincere gratitude to all of our customers, business partners and investors for their support and trust to the Group. In addition, I would like to express my heartfelt thanks to our Directors and employees for their dedication and contribution to the Group.

By order of the Board

Gao Mingqing

Chairman and Chief Executive Officer

31 March 2021

MANAGEMENT DISCUSSION AND ANALYSIS

MARKET REVIEW

Copper

According to World Bureau of Metal Statistics, the copper market recorded a deficit of 1,391,000 tonnes for the year 2020 which followed a deficit of 383,000 tonnes in 2019. Reported stocks at the end of December 2020 were 76,000 tonnes lower than that at the end of December 2019. Net deliveries out of London Metal Exchange (“LME”) warehouses were 38,900 tonnes and Comex stocks increased by 33,500 tonnes. Shanghai stocks fell by 48,500 tonnes during the year. Demand is measured on an apparent basis and it is likely that the full effects of national lockdowns have not been fully reflected in the trade statistics. No allowance is made in the consumption calculation for unreported stock changes, particularly in the Chinese government stockpile.

World mine production for the year ended 31 December 2020 was 20.8 million tonnes which remained constant with the same period in 2019. Global refined production for the year ended 31 December 2020 was 23.9 million tonnes, up 2.0% as compared with the previous year with significant increases recorded in China (up 1,032,000 tonnes) and in Chile (up 60,000 tonnes).

Global demand for the year ended 31 December 2020 was 25.3 million tonnes as compared with 23.9 million tonnes for the same period of 2019. Chinese apparent demand for the year ended 31 December 2020 was 15.0 million tonnes which was 17.1% higher than that for the same period of 2019. Reported output of semi manufactures rose by 1.4% which suggested that the apparent demand figure overstates real demand. European Union production rose by 3.5% and demand was 155,000 tonnes lower than the comparable 2019 total.

MARKET REVIEW *(Continued)*

Iron

The price of iron ore in 2020 was very sensitive to changes in demand. Due to the increased demand in China and continued supply disruptions in Brazil, iron ore prices soared in mid-2020 and then remained stable at high levels, but began to rise again in late-November 2020. Prior to the year of 2020, many large iron ore producers had cut down their investment and closed the mines, resulting in a lack of extra production capacity in the industry, which magnified the impact of supply disruptions and recent growth in iron ore demand in China.

In October 2020, Australian iron ore export revenue hit a new record of 10.9 billion Australian dollars, which is more than one-third higher than the export revenue in October 2019. This increase was mainly due to the strong increase in China's iron ore imports from Australia in recent months.

Zinc

According to World Bureau of Metal Statistics, the zinc market was in surplus by 589,000 tonnes during the year ended 31 December 2020 as compared with a deficit of 76,000 tonnes recorded in the previous year. Reported stocks increased by 151,000 tonnes during the year ended 31 December 2020 which included a net increase in Shanghai of 4,800 tonnes. LME stocks rose during the year ended 31 December 2020 to close at 151,000 tonnes above the December 2019 level. LME stocks represented 24% of the global total with the bulk of the metal held in Asian and US warehouses. Demand was measured on an apparent basis and it is likely that the full effects of national lockdowns have not been fully reflected in the trade statistics.

Global refined production rose by 0.8% and demand was 4.1% lower than the levels recorded in the previous year. Japanese apparent demand was, at 367,700 tonnes, which was 29% below the equivalent total for the year ended 31 December 2019.

World demand was 557,000 tonnes lower than that for the year ended 31 December 2019. Chinese apparent demand was 6,758,000 tonnes which was 51% of the global total. No allowance has been made in the consumption calculation for unreported stock changes.

Lead

According to World Bureau of Metal Statistics, the lead market recorded a deficit of 47,000 tonnes for the year ended 31 December 2020 which followed a deficit of 246,000 tonnes recorded in 2019. Total stocks at the end of December 2020 were 66,400 tonnes higher than that at the end of 2019. No allowance has been made in the consumption calculation for unreported stock changes. Demand was measured on an apparent basis and it is likely that the full effects of national lockdowns have not been fully reflected in the trade statistics.

World refined production during the year ended 31 December 2020 from both primary and secondary sources was 13.3 million tonnes, which was 4.6% higher than that for the comparable period of 2019. Chinese apparent demand was estimated at 6,476,000 tonnes, which was 560,000 tonnes higher than that for the comparable period in 2019 and represented about 49% of the global total. For the USA, apparent demand has decreased by 120,000 tonnes for the year ended 31 December 2020 as compared to the same period of 2019.

Management Discussion and Analysis

MARKET REVIEW *(Continued)*

Gold and Silver

In advance of the continuation of global trade frictions, the U.S.-Iran conflict and the emergence of the COVID-19 epidemic, gold and silver have continued to rise since mid-November 2019. Gold fluctuated upwards from the opening price of US\$1,518 per ounce to US\$1,703 per ounce in early-March 2020. Silver pulled up from the opening price of US\$17.8 per ounce to US\$18.9 per ounce.

Due to the spread of epidemic across the world, all assets except the U.S. dollar were largely sold off. Gold fell from its peak of US\$1,703 per ounce to US\$1,451 in mid-March 2020 while silver fell from US\$18.94 per ounce to an 11-year low of US\$11.62 per ounce.

The US fiscal stimulus policy and governments of various countries have stepped up their stimulus measures. All assets began to rave. Gold once broke through a historical high, reaching US\$2,075.5 per ounce. Silver once hit US\$29.86 per ounce, rising by 165%.

Amid the influence of the U.S. presidential election, negotiations on the U.S. fiscal stimulus bill have reached a deadlock due to the mutual conflict between the two parties, coupled with the reduction of precious metals exchange-traded fund (ETF) and roll-out of COVID-19 vaccines, a sharp retracement of gold and silver was resulted in the fourth quarter of 2020.

News that the U.S. fiscal stimulus bill was expected to be reached, and Powell's statement that the Fed could still expand the purchases of bond stimulated the rebound of gold and silver by the end of November 2020.

BUSINESS REVIEW

Our Group is principally engaged in the business of mining, ore processing and sale of concentrates products in the PRC. Currently, we, through our wholly-owned subsidiaries, own the entire equity interest in Jiangxi Province Yifeng Wanguo Mining Company Limited ("**Yifeng Wanguo**") which in turn owns the Xinzhuang Copper, Lead, Zinc Mine, an operating mine located in Jiangxi Province, the PRC ("**Xinzhuang Mine**") in which we conduct underground mining. The Xinzhuang Mine has a substantial volume of non-ferrous polymetallic mineral resources. Products of our Group primarily include copper concentrates, iron concentrates, zinc concentrates, sulfur concentrates, lead concentrates as well as by-products of gold and silver.

The Group has, on 13 July 2017, completed acquisition of 51% attributable interest of Xizang Changdu County Dadi Mining Company Limited ("**Xizang Changdu**"), which owns the lead mine in Walege of Changdu Country, the PRC ("**Walege Mine**") in which we may further exploit for open-pit and underground mining. The Walege Mine has a significant volume of mineral resources of lead and silver.

In addition, the Group has on 30 April 2020, completed acquisition of 77.78% interest of AXF Gold Ridge Pty Limited, which owns 90% interest in Gold Ridge Mine in which we may further exploit for open-pit and underground mining. The Gold Ridge Mine has a substantial volume of mineral resources of gold.

Management Discussion and Analysis

EXPANSION IN EXISTING MINES

Xinzhuang Mine

We had completed our expansion plan as disclosed in the prospectus of the Company dated 28 June 2012 (the “**Prospectus**”) in Xinzhuang Mine, reaching 600,000 tpa in both mining capacity and processing capacity.

Yifeng Wanguo entered into an agreement with China Nerin Engineering Co., Ltd (中國瑞林工程技術有限公司) (“**Nerin**”) for conducting a feasibility study on an expansion plan of our Xinzhuang Mine to 900,000 tpa. It is expected that the Group will receive Nerin’s feasibility report by end of April 2021 and initial production and safety design by end of 2021.

Walege Mine

We are in the progress of applying for the mining license for the Walege Mine. During 2020, we commenced the delimitation of mining area, which had submitted the proposal to the Department of Natural Resources of the Tibet Autonomous Region, contracted a technical consultancy agreement for the purpose of design and development of the Walege Mine and submitted documents for renewal and extension of exploration license.

EXPANSION IN SURROUNDING AREAS

According to the Independent Technical Expert’s Report in the Prospectus, there are significant additional defined mineral resources outside the planned mining area in the Xinzhuang Mine within the boundary covered by the current mining licence held by the Group. On 20 November 2012, Yifeng Wanguo entered into an exploration agreement (the “**Exploration Agreement**”) with the Bureau of Geology and Mineral Exploration of Jiangxi Province (江西省地質礦產勘查開發局) (the “**Jiangxi Geology Bureau**”). By the end of 2013, Jiangxi Geology Bureau has completed the field exploration work. A Mineral Resources Verification Report (資源儲量核實報告) has been finished and approved by Jiangxi Province Land Resources Bureau in April 2014 and obtained registration in December 2014.

The exploration in the Xinzhuang Mine has increased the geological reserves of the Group and further proved the hydrogeology conditions in the mining area. Yifeng Wanguo has also appointed Changsha Mine Research Institute (長沙礦山研究院) to carry out mining experiments on the possibility to remove the waterproof pillars in the mining area. The Group received the report by end of June 2017. The report showed that a portion of the waterproof pillars can be removed, which will result in an increase of mineral resources of the Xinzhuang Mine by 2.6 million tonnes.

Management Discussion and Analysis

HORIZONTAL EXPANSION

Acquisition of the majority shareholding in AXF Gold Ridge Pty Ltd in which indirectly owns a gold mine in Solomon Islands

On 16 July 2017, the Company entered into the share sales and purchase agreement (the “**S&P Agreement**”) with AXF Resources Pty Limited (“**AXF Resources**”) pursuant to which the Company has conditionally agreed to acquire, and AXF Resources has conditionally agreed to dispose of, 611 shares out of 1,000 shares in AXF Gold Ridge (representing 61.1% equity interest of AXF Gold Ridge) in consideration of AUD58.35 million. Pursuant to the terms of the S&P Agreement, the Company has agreed an estimated maximum commitment of AUD50 million for the reconstruction works and all administration and maintenance costs associated with the project of the exploitation and operations of the gold mine contemplated under the S&P Agreement (the “**AM Costs**”). Hence, the total amount of commitment by the Company for the acquisition as well as the reconstruction works and the AM Costs is AUD108.35 million.

Due to a material difference between the aforesaid consideration to be paid and the draft valuation amount of the asset to be acquired made by an independent third party during the due diligence review, the Company and AXF Resources re-negotiated the terms of the acquisition, and entered into a deed of amendment and restatement (the “**Deed**”) on 20 February 2018 to supersede the S&P Agreement. Pursuant to the Deed, the Company has conditionally agreed to acquire, and AXF Resources has conditionally agreed to dispose of, 7,778 shares out of 10,000 shares in AXF Gold Ridge (representing 77.78% equity interest of AXF Gold Ridge) in consideration of AUD53.473 million (including the AUD11.11 million of the reconstruction works taken to be paid by the Company on behalf of AXF Resources) and the net consideration is AUD42.363 million. Pursuant to the terms of the Deed, the Company has agreed a maximum commitment of AUD50 million for the reconstruction works.

Pursuant to the terms of the Deed, on the completion date, both parties shall sign the Put Option Agreement, pursuant to which AXF Resources will agree to pay AUD10 to the Company and the Company will grant AXF Resources an option (the “**Put Option**”) to require the Company to purchase all of the remaining interest in AXF Gold Ridge held by AXF Resources (i.e. 22.22% equity interest of AXF Gold Ridge). The aforesaid consideration payable by the Company on exercise of the Put Option shall be AUD26.388 million plus any premium to be agreed by the parties. Hence, the total maximum amount of commitment of the Company for the acquisition (together with the reconstruction works) and the Put Option is approximately AUD118.751 million (subject to any premium to be added to the consideration on the exercise of the Put Option).

On 24 April 2020, the Company and AXF Resources entered into an amendment agreement to the S&P Agreement, pursuant to which, amongst other things, the consideration for the acquisition has been adjusted to approximately AUD39.215 million (including approximately AUD17.110 million that has already been paid for the reconstruction works) and that the Company’s obligations for the reconstruction works and for entering into the Put Option Agreement to acquire the remaining interest in AXF Gold Ridge has ceased.

On 30 April 2020, the aforesaid acquisition has been completed. AXF Gold Ridge becomes an indirect non-wholly owned subsidiary of the Company with 77.78% equity interest owned by the Group. Please refer to the Company’s announcements dated 30 April 2020 and 21 May 2020 for details. For additional information in respect of the project concerning the development and operation of the Gold Ridge Mine, please refer to the Company’s announcement dated 18 August 2020.

Management Discussion and Analysis

HORIZONTAL EXPANSION *(Continued)*

Subscription of new shares under general mandate and disposal of shares by a then substantial shareholder

On 29 December 2020, the Company entered into a subscription agreement (the “**Subscription Agreement**”) with Shandong Humon Smelting Co., Ltd. (山東恒邦冶煉股份有限公司) (the “**Subscriber**”), a company listed on the Shenzhen Stock Exchange (stock code: 002237), and is principally engaged in gold and silver smelting, production and sales of electrolytic copper, cathode copper, lead ingots, non-ferrous metals, rare and precious metals and their products. Pursuant to the Subscription Agreement, the Subscriber agreed to subscribe for 108,000,000 new Shares at the subscription price of HK\$2.18 per subscription share (the “**Subscription**”). The closing price of the Share as quoted on the Stock Exchange on the date of the Subscription Agreement was HK\$2.20.

The Directors considered that the Subscription offers a good opportunity to raise additional funds to strengthen the financial position and broaden the capital base of the Group so as to facilitate its development of Gold Ridge Mine.

On the same date, the Company was informed that Cheng Tun Prime Shine Limited (“**Cheng Tun**”), a then substantial shareholder of the Company, entered into the share transfer agreement with the Subscriber pursuant to which Cheng Tun agreed to transfer 64,814,000 Shares to the Subscriber, representing approximately 7.83% of the issued share capital of the Company as enlarged by the allotment and issue of the subscription shares and as at the date of this annual report.

Subsequent to the reporting period, on 26 January 2021, the Company, the Subscriber and Shandong Humon Mining Development Limited (山東恒邦礦業發展有限公司) (“**Humon Mining**”), an indirectly wholly-owned subsidiary of the Subscriber, entered into a supplementary agreement, pursuant to which the Subscriber assigned its rights and obligations under the Subscription Agreement to Humon Mining.

On 2 March 2021, the Subscription was completed and 108,000,000 new Shares (representing approximately 13.04% of the issued share capital as enlarged by the allotment and issuance of the subscription shares and as at the date of this annual report) have been allotted and issued to Humon Mining under the general mandate granted to the Directors at the annual general meeting of the Company held on 26 June 2020 at the subscription price of HK\$2.18 per subscription share. The estimated net proceeds from the Subscription was approximately HK\$235.2 million. It is expected that 90% of the estimated net proceeds will be used for funding of the project concerning the exploitation of the Gold Ridge Project and 10% of the net proceeds will be used for general working capital of the Company.

Please refer to the Company’s announcements dated 29 December 2020, 22 February 2021 and 2 March 2021 respectively for details.

Management Discussion and Analysis

- (3) There were no material changes in these estimates during the period from 31 December 2011 to 31 December 2020.

The Walege Mine Mineral Resource Summary – as at 31 December 2020 Grade Tonnage Reported above a Cut-off Grade of 2.5% Pb

JORC Mineral Resource Category	Tonnes <i>(Mt)</i>	Grade <i>(Pb%)</i>	Ag <i>(g/t)</i>	Lead Metal <i>(1,000t)</i>	Silver Metal <i>(1,000Kg)</i>
Measured	13.996	3.79	44.80	530.4	627.1
Indicated	18.343	3.57	43.32	655.6	794.7
Inferred	10.688	3.82	48.22	408.5	515.4
Totals	43.027	3.71	45.02	1,594.5	1,937.2

Management Discussion and Analysis

MINERAL RESOURCES AND RESERVES (Continued)

Notes:

- (1) The mineral resource estimates were based on 136 diamond drilling holes, 54 trenching projects and 9 pit excavation engineering completed up until 2018. The wireframes were generated based on cross sectional widths of 50m-100m*100m-200m spacing. This was based on exploration drilling patterns. Mineralisation cut-off grades of 0.5% Pb combined with the geological logging were used to define the mineralised envelopes.
- (2) The mineral resources have been classified and reported in accordance with the JORC Code. Resource classification is based on confidence in the mapping, geological interpretation, drill spacing and geostatistical measures. The current resource models provided robust global estimates of the in situ mineralisation of Pb and Ag. Mineral Resources have been reported above cut-off of 2.5% Pb.
- (3) The mineral resource estimates were based on 72 diamond drill holes completed up until 2013 and the wireframes were generated based on cross sectional widths of 100m-100m spacing as disclosed in the Company's circular dated 2 December 2015. Save as disclosed above, there were no material changes in these estimates during the period from 31 December 2018 to 31 December 2020.

JORC Mineral Resource Category	Tonnes (Mt)	Gold Ridge Mine Resources Summary – as at 31 December 2020 at 0.6 g/t Au cut-off grade				
		Gold Grade (g/t Au)	Contained Gold (k oz Au)	As (ppm)*	Cu (ppm)*	S (%)*
Measured	24.1	1.35	1,000	232	84	1.51
Indicated	20.4	1.34	900	119	88	1.43
Inferred	31.3	1.55	1,600	79	91	1.47
Total**	75.8	1.43	3,500	139	88	1.47

* Due to the sparseness of As, Cu and S assays these contaminant grades are indicative only.

** Totals may not add up due to rounding.

Notes:

- 1) The mineral resource estimates have been derived from samples collected from diamond core drilling and some RC drilling programs in the Gold Ridge Mine's drilling database which contains 4,565 holes and 221,310m of drilling.
- 2) The 2014 topographic mined out surface was used as the upper boundary of the resource model. This surface was provided by mine surveys at the cessation of mining on 1 April 2014. To limit the extrapolation of grades at depth in the resource model, a surface representing the Base of Drilling was created.
- 3) A pit shell at 1.5 times the base revenue and approximately equivalent to a pit shell optimised with a US\$1,950 per ounce gold price was selected to limit the reporting of mineral resources above the 'reasonable prospects for eventual economic extraction' (RPEEE) pit sell. This was further constraint with a 0.6g/t Au cut-off grade.
- 4) There were no material changes in these estimates during the year ended 31 December 2020.

Management Discussion and Analysis

MINERAL RESOURCES AND RESERVES (Continued)

Gold Ridge Mine Ore Reserves Summary as at 31 December 2020

Ore Reserve Class	Tonnes (Mt)	Gold Grade (g/t Au)	Contained Gold (k oz Au)
Probable	31.2	1.43	1,434

Notes:

- 1) The Ore Reserve conforms with and uses the JORC Code (2012) definitions.
- 2) The Ore Reserve was estimated using a fixed cut-off grade of 0.6 g/t Au.
- 3) Ore block grade and tonnage dilution were incorporated through the use of an Ordinary Kriged Resource Model.
- 4) All figures are rounded to reflect appropriate levels of confidence.
- 5) Apparent differences may occur due to rounding.

FINANCIAL REVIEW

	Trading of electrolytic copper and other concentrate (sourced outside)		Year ended 31 December		Trading of electrolytic copper and other concentrate (sourced outside)	
	Concentrates products (own mined) RMB'000	Concentrates products (own mined) RMB'000	2020 Total RMB'000	Concentrates products (own mined) RMB'000	Concentrates products (own mined) RMB'000	2019 Total RMB'000
Revenue	364,678	1,029,466	1,394,144	291,950	19,205	311,155
Cost of sales	(207,620)	(1,029,115)	(1,236,735)	(183,653)	(19,202)	(202,855)
Gross profit	157,058	351	157,409	108,297	3	108,300
Gross profit margin	43.1%	0.03%	11.3%	37.1%	0.02%	34.8%

Revenue, cost of sales, gross profit and gross profit margin

The Group's revenue reported a triple increase from approximately RMB311.2 million in 2019 to approximately RMB1,394.1 million in 2020, which was primarily due to the substantial increase in sales of electrolytic copper commenced in November 2019. Our cost of sales increased nearly by five times from approximately RMB202.9 million in 2019 to approximately RMB1,236.7 million in 2020 which was mainly driven by the corresponding increase in sales of electrolytic copper.

The overall gross profit increased by approximately 45.3% from approximately RMB108.3 million for the year ended 31 December 2019 to approximately RMB157.4 million for the year ended 31 December 2020. Gross profit margin decreased from approximately 34.8% for the year ended 31 December 2019 to approximately 11.3% for the year ended 31 December 2020.

Management Discussion and Analysis

FINANCIAL REVIEW *(Continued)*

Revenue, cost of sales, gross profit and gross profit margin *(Continued)*

(i) Concentrates products (own mined)

Revenue from sales of concentrates products increased by approximately 24.9% from approximately RMB292.0 million for the year ended 31 December 2019 to approximately RMB364.7 million for the year ended 31 December 2020.

For the year ended 31 December 2020, we sold 3,808 tonnes of copper in copper concentrates, 104,726 tonnes of iron concentrates and 5,429 tonnes of zinc in zinc concentrates, compared to 3,139 tonnes, 108,761 tonnes and 5,691 tonnes respectively for the year ended 31 December 2019, representing increase of approximately 21.3% for copper in copper concentrates which was principally attributable to the completion of technical transformation conducted in processing plant, and decreases of approximately 3.7% and 4.6% for iron concentrates and zinc in zinc concentrates respectively due to the decrease in grading of ores.

The average prices of copper in copper concentrates, iron concentrates and zinc in zinc concentrates in 2020 were RMB37,367, RMB597 and RMB11,080 per tonne respectively, compared to RMB35,330, RMB507 and RMB10,207 per tonne respectively in 2019, representing increases of approximately 5.8%, 17.8% and 8.6% respectively. Due to the outbreak of COVID-19 in 2020, the non-ferrous metals market was adversely affected in the first quarter of 2020. The swift recovery of domestic market and relevant favourable policies executed pushed the demand and the prices upwards during the second half of 2020.

The cost of sales of concentrates products increased by approximately 13.0% from approximately RMB183.7 million in 2019 to approximately RMB207.6 million in 2020, which was mainly driven by the corresponding increase in sales revenue.

The gross profit of concentrates products for the year ended 31 December 2020 was approximately RMB157.1 million, representing an increase of approximately 45.1% compared to approximately RMB108.3 million for the year ended 31 December 2019, which was mainly attributable to the increase in volume of concentrates sold following completion of the upgrading works in processing plants in 2019 as well as increase in metal prices in the second half of 2020. The gross profit margin increased from approximately 37.1% for the year ended 31 December 2019 to approximately 43.1% for the year ended 31 December 2020. Such increase was mainly attributable to the rise in the selling price of the concentrates.

(ii) Trading of electrolytic copper and other concentrates (sourced outside)

Starting from November 2019, the Group set up a branch for trading of electrolytic copper and other concentrates. Revenue from trading of electrolytic copper and other concentrates for the year ended 31 December 2020 was approximately RMB1,029.4 million and the cost of sales was approximately RMB1,029.1 million, resulting in a gross profit of approximately RMB0.3 million for the year ended 31 December 2020.

Other income

Our other income mainly comprised bank interest income of approximately RMB0.1 million, incentives received from governmental authorities of approximately RMB1.7 million and government grant and subsidy to Yifeng Wanguo in relation to the mining technology improvement of approximately RMB1.2 million for the year ended 31 December 2020. Other income increased by approximately RMB1.4 million as compared with 2019, which was mainly attributable to the increase in incentives received from local governmental authorities.

Other gains and losses

Our other gains and losses increased by approximately RMB2.7 million, which comprised mainly reversal of provision for bad debt of approximately RMB0.3 million and unrealised exchange gain of approximately RMB5.3 million as a result of the translation of Australian dollars into Renminbi under the appreciation of Australian dollars as at 31 December 2020, whereas for the year ended 31 December 2019, there were unrealised exchange gain of approximately RMB3.0 million as a result of the translation of Hong Kong dollars into Renminbi under the appreciation of Hong Kong dollars.

Management Discussion and Analysis

FINANCIAL REVIEW *(Continued)*

Distribution and selling expenses

Our distribution and selling expenses increased by approximately 3.3% from approximately RMB3.0 million for the year ended 31 December 2019 to approximately RMB3.1 million for the year ended 31 December 2020. The increase was mainly attributable to the increase in sales volume of concentrates products.

Administrative expenses

Our administrative expenses increased by approximately 41.2% from approximately RMB37.6 million in 2019 to approximately RMB53.1 million in 2020. The increase was principally attributable to the increase in staff costs and travelling expenses as a result of the completion of the acquisition of AXF Gold Ridge by end of April 2020.

Finance costs

Our finance costs increased by approximately 29.3% from approximately RMB7.5 million in 2019 to approximately RMB9.7 million in 2020, primarily due to the increase in imputed interest expenses on consideration payable to a former non-controlling shareholder of a subsidiary.

Income tax expense

Our income tax expense was approximately RMB16.0 million in 2020, consisting of PRC corporate income tax payable of approximately RMB16.0 million, withholding tax paid of approximately RMB1.0 million and deferred tax credit of approximately RMB1.0 million. Our income tax expense was approximately RMB10.0 million in 2019, consisting of PRC corporate income tax payable of approximately RMB9.0 million, withholding tax payable of approximately RMB2.3 million and overprovision of income tax of approximately RMB1.3 million.

The increase in our income tax expense for the year ended 31 December 2020 was primarily due to the increase in the PRC corporate income tax expense as a result of increase in operating profit.

Profit for the year

As a result of the foregoing, our profit after taxation increased by approximately 53.2%, or approximately RMB29.5 million, from approximately RMB55.4 million for the year ended 31 December 2019 to approximately RMB84.9 million for the year ended 31 December 2020. Our net profit margin decreased from approximately 17.8% for the year ended 31 December 2019 to approximately 6.1% for the year ended 31 December 2020. Such decrease was mainly attributable to the increase in administrative expenses and income tax expenses, as well as the increase in trading of electrolytic copper and other concentrates sourced outside, which were with a lower profit margin.

Profit attributable to owners of our Company

The profit attributable to the owners of our Company increased by approximately 56.2% or approximately RMB31.2 million, from approximately RMB55.5 million for the year ended 31 December 2019 to approximately RMB86.7 million for the year ended 31 December 2020.

Analysis of property, plant and equipment and construction in progress

As at 31 December 2020, the Group's property, plant and equipment and construction in progress were approximately RMB468.3 million, representing an increase of approximately RMB30.1 million or approximately 6.9% over last year mainly due to a group of property, plant and equipment and construction in progress being transferred from deposits for acquisitions after the acquisition of AXF Gold Ridge.

Management Discussion and Analysis

FINANCIAL REVIEW *(Continued)*

Analysis of inventories

Inventories consist of raw materials, ore and processed concentrates. Raw materials mainly include forged steel grinding balls, explosives, chemical products and diesel oil used for the production of concentrates. As at 31 December 2020 and 2019, our inventories were approximately RMB9.4 million and approximately RMB9.3 million respectively. Our inventories were comparable in the two years.

Analysis of trade and bills receivables

Trade receivables represent receivables from the sale of processed concentrates. Our Group generally requests our concentrates customers to make a certain amount of down payment prior to delivery. For trade customers, our Group grants a credit period up to 60 days. Our trade receivables and bills receivables were approximately RMB4.1 million and RMB3.5 million respectively as at 31 December 2020, compared to approximately RMB7.5 million and RMB0.4 million respectively as at 31 December 2019. The decrease in trade receivables as at 31 December 2020 was mainly due to more down payments being received prior to delivery and the increase in bills receivables as at 31 December 2020 was resulted from the longer maturity dates of receipts of bills from our reputable customers.

Analysis of trade payables

Trade payables mainly consist of payables in respect of (i) the purchase of forged steel grinding balls and cement; (ii) construction fee payable to our contractors under the expansion plan; and (iii) fees payable to our third-party contractor, Wenzhou No. 2 Well and Tunnel Construction Company, for our mining work. As at 31 December 2020 and 2019, our trade payables were approximately RMB14.6 million and approximately RMB37.9 million respectively. The decrease in trade payables as at 31 December 2020 was mainly resulted from the advance payments being made to our third-party contractors.

Liquidity and capital resources

Our liquidity requirements relate to funding working capital, capital expenditures, acquisition of mining right and maintaining cash reserves, which are funded by a combination of bank borrowings and cash generated from operation.

Our Group had cash and cash equivalents of approximately RMB36.7 million as at 31 December 2020, compared to approximately RMB4.7 million as at 31 December 2019, of which approximately RMB0.8 million (2019: approximately RMB1.1 million) was denominated in Hong Kong dollars, Australian dollars and US dollars.

As at 31 December 2020, the Group recorded net assets and net current liabilities of approximately RMB999.4 million (2019: approximately RMB830.5 million) and approximately RMB206.3 million (2019: approximately RMB238.7 million) respectively. The current ratio of the Group as at 31 December 2020 was 0.33 times as compared to 0.17 times as at 31 December 2019. The decrease in net current liabilities and increase in current ratio were attributable to the increase in bank balances mainly resulted from increase in operating profit and rise in new bank borrowings.

Borrowings

As at 31 December 2020, the Group had bank borrowings of approximately RMB107.7 million (2019: approximately RMB49.9 million) in aggregate with maturity from one year to seven years and effective interest rate of approximately 5.82%.

Gearing Ratio

The Group's gearing ratio (representing total bank borrowings and payables to former non-controlling shareholder of a subsidiary divided by total assets) amounted to approximately 11.4% (2019: approximately 8.7%). The increase in gearing ratio was mainly attributable to increase in bank borrowings.

Management Discussion and Analysis

FINANCIAL REVIEW (Continued)

Cash Flows

The following table sets out a condensed summary of our Group's consolidated statement of cash flows for the year ended 31 December 2020 and 2019:

	Year ended 31 December	
	2020	2019
	RMB'000	RMB'000
Net cash inflow from operating activities	85,203	137,597
Net cash outflow from investing activities	(78,240)	(86,283)
Net cash inflow/(outflow) from financing activities	25,037	(68,459)
Net increase/(decrease) in cash and cash equivalents	32,000	(17,145)
Effect of foreign exchange rate changes	–	(182)
Cash and cash equivalents at the beginning of the year	4,662	21,989
Cash and cash equivalents at the end of the year	36,662	4,662

Net cash flow from operating activities

For the year ended 31 December 2020, net cash inflow from operating activities amounted to approximately RMB85.2 million, which mainly comprised the profit before working capital changes of approximately RMB142.0 million, together with increase in trade and other payables of approximately RMB4.6 million and was offset by decrease in contract liabilities of approximately RMB7.5 million, increase in inventories of approximately RMB0.1 million, increase in trade and other receivables of approximately RMB40.0 million and income tax paid of approximately RMB13.8 million.

Net cash flow from investment activities

Net cash outflow from investing activities amounted to approximately RMB78.2 million for the year ended 31 December 2020. It was primarily attributable to the payments of capital expenditure for property, plant and equipment of approximately RMB47.9 million, payment for evaluation and exploration assets of approximately RMB3.4 million, payments for acquisition of a subsidiary of approximately RMB23.1 million, placement of restricted bank balances of approximately RMB4.0 million and was offset by proceeds from disposal of property, plant and equipment of approximately RMB0.1 million and interest income of approximately RMB0.1 million.

Net cash flow from financing activities

Net cash inflow from financing activities amounted to approximately RMB25.0 million for the year ended 31 December 2020. This was principally due to new borrowings of approximately RMB113.0 million and advance from related parties of approximately RMB4.2 million and was offset by repayment of borrowings and interests of approximately RMB60.7 million, repayment of lease liabilities of approximately RMB0.3, dividend paid to shareholders of approximately RMB19.2 million, repayment to related parties of approximately RMB6.0 million as well as redemption monies of approximately RMB6.0 million paid to a former non-controlling shareholder of a subsidiary.

Capital Expenditure

The total capital expenditure of the Group decreased from approximately RMB91.7 million for the year ended 31 December 2019 to approximately RMB73.6 million for the year ended 31 December 2020, representing a decrease of approximately 19.7%. The capital expenditure in 2020 was primarily incurred from the purchase of mining equipment, construction of mining structures at the Xinzhuang Mine and payment for acquisition of AXF Gold Ridge.

Management Discussion and Analysis

FINANCIAL REVIEW (Continued)

Contractual Obligations and Capital Commitment

As at 31 December 2020, the Group's capital commitments amounted to approximately RMB9.2 million, which was attributable to the development of the Xinzhuang Mine.

RMB'000

Three new shafts projects	840
Upgrading the processing plants	5,859
Other civil work	2,482

9,181

As at 31 December 2020, the Group has also entered the following commitments in relation to the reconstruction works for the Gold Ridge Project.

RMB'000

Construction works	21,040
Mining and processing equipment	47,678

68,718

Contingent Liabilities

As at 31 December 2020, the Group did not have any material contingent liabilities or guarantees.

Significant Investments, Acquisitions and Disposals of Subsidiaries, Associates and Joint Ventures

On 30 April 2020, the Group completed the acquisition of AXF Gold Ridge, which becomes an indirect non-wholly owned subsidiary of the Company with 77.78% equity interest owned by the Group.

Save as disclosed above, the Group had no material acquisition and disposal of subsidiaries, associated and joint ventures during the year ended 31 December 2020.

Future Plan for Material Investments and Capital Assets

Save as disclosed in this annual report, the Group does not have any plan authorised by the Board for material investments or additions of capital assets as at the date of this annual report.

Charge on Group Assets

As at 31 December 2020, the Group's mining right, right-of-use-assets and buildings with carrying value of approximately RMB79.5 million (31 December 2019: approximately RMB71.4 million of right-of-use assets and buildings) were pledged to secure the Group's bank borrowings.

Exposure to Fluctuations in Exchange Rates

The Group's businesses are located primarily in the PRC and most of the transactions are conducted in Renminbi. Except for the Group's certain bank balances and cash, other receivables and other payables denominated in Hong Kong dollars, Australian dollars and US dollars, the majority of the Group's assets and liabilities are denominated in Renminbi.

As Renminbi fluctuates against Hong Kong dollars and Australian dollars in a limited extent during the year 2020, the Group had no material adverse exposure to foreign exchange fluctuations during the year 2020.

Management Discussion and Analysis

FINANCIAL REVIEW *(Continued)*

Interest Rate Risk

Our bank borrowings are denominated in Renminbi and Hong Kong dollars borrowed from domestic commercial banks at interest rates that are determined by reference to the benchmark interest rates set by the People's Bank of China ("PBoC") and Hong Kong Interbank Offered Rate ("HIBOR") respectively. Interest rates on our bank loans are subject to adjustments by our lenders in accordance with changes in the PBoC benchmark rates and HIBOR. We are exposed to interest rate risk resulting from changes in interest rates on our short-term and long-term bank borrowings. Increases in benchmark interest rates will increase the interest rates on our bank loans. Increases in interest rates will increase our expense on outstanding borrowings and the cost of new borrowings, and therefore could have a material adverse effect on our financial results. We have not used any interest rate swaps or other derivatives to hedge against interest rate risk.

Financial Instruments

The Group's major financial instruments include trade and other receivables, bank balances and cash, restricted bank balance, trade and other payables, amounts due to related parties, consideration payable to a former non-controlling shareholder of a subsidiary and bank borrowings.

FINAL DIVIDEND

The Board recommended the payment of a final dividend of RMB2.98 cents (equivalent to approximately HK\$3.54 cents) per Share for the year ended 31 December 2020 (2019: Nil), representing approximately 26.7% of the profit and total comprehensive income attributable to owners of the Company, payable to the shareholders of the Company (the "Shareholders") whose names appear on the register of members of the Company on Tuesday, 22 June 2021. Based on the number of issued Shares as at the date of this annual report, this represents a total distribution of approximately RMB24.7 million. Subject to the approval of the payment of the final dividend by the Shareholders at the annual general meeting to be held on Friday, 11 June 2021, it is expected that the proposed final dividend will be paid on or before Friday, 30 July 2021.

ANNUAL GENERAL MEETING

The 2020 annual general meeting (the "AGM") of the Company will be held on Friday, 11 June 2021. A notice convening the AGM will be published and despatched to the Shareholders in accordance with the requirements of the articles of association of the Company (the "Articles") and the Rules (the "Listing Rules") Governing the Listing of Securities on the Stock Exchange in due course.

CLOSURE OF REGISTER OF MEMBERS

To ascertain the entitlement to attend and vote at the AGM, the register of members of the Company will be closed from Tuesday, 8 June 2021 to Friday, 11 June 2021, both dates inclusive, during which period no transfer of Shares will be registered. In order to be eligible to attend and vote at the AGM, all transfers of Shares accompanied by the relevant share certificates must be lodged with the Company's Hong Kong branch share registrar, Tricor Investor Services Limited, at Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong, not later than 4:30 p.m. on Monday, 7 June 2021.

The final dividend is payable to the Shareholders whose names appear on the register of members of the Company at close of business on Tuesday, 22 June 2021. For determination of entitlement to the final dividend, the register of members of the Company will be closed from Friday, 18 June 2021 to Tuesday, 22 June 2021, both days inclusive. In order to qualify for the proposed final dividend, all share certificates with the properly completed transfer forms, either overleaf or separately, must be lodged with the Company's Hong Kong branch share registrar, Tricor Investor Services Limited, at Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong for registration not later than 4:30 p.m. on Thursday, 17 June 2021.

Management Discussion and Analysis

EMPLOYEES AND REMUNERATION POLICY

As at 31 December 2020, we had a total of 360 (2019: 349) full-time employees, excluding the independent third-party contractor which is responsible for underground mining work.

	Number
Underground technical and supporting mine workers	
– Safety supervision	20
– Mining and geological technical staff	12
– Mining record and surveying staff	10
– Geological drilling operators	17
– Ventilation and hauling facilities and water-pump operators and maintenance staff	78
– Backfilling team	21
Processing plant workers	95
Mine management and supporting staff	107
	360

The remuneration of the employees of the Group is based on their experience, qualifications, and competence. Other employees' benefits include contributions to statutory mandatory provident funds for our Hong Kong employees, superannuation for our Australia employees, and social insurance together with housing provident funds for our PRC employees.

EXPLORATION, DEVELOPMENT AND MINING ACTIVITIES

Xinzhuang Mine

Mineral exploration

During 2020, the exploration activities in the Xinzhuang Mine was within 4-29 exploration line. We have completed underground geological drilling of 20,186 m, with drill size of 60-108 mm for the year ended 31 December 2020. For the year ended 31 December 2020, we have also finished tunnel drilling of 542 m and completed adit mapping of 2,332 m.

For the year ended 31 December 2020, approximately RMB6.5 million was incurred for the mineral exploration.

Development

During 2020, Xinzhuang Mine incurred development expenditure of approximately RMB31.6 million.

Detailed breakdown of development expenditure is as follows:

	RMB' (million)
Mining structures	13.0
Machinery and electronic equipment for processing plants	16.3
Motor vehicles	2.3
	31.6

Management Discussion and Analysis

EXPLORATION, DEVELOPMENT AND MINING ACTIVITIES *(Continued)*

Xinzhuang Mine *(Continued)*

Mining activities

During 2020, we processed a total of 888,558 tonnes of ore in the Xinzhuang Mine. The following table shows the volume of our concentrates products sold during 2020.

Type of concentrates sold	Volume
Copper in copper concentrates	3,808 tonnes
Iron concentrates	104,726 tonnes
Zinc in zinc concentrates	5,429 tonnes
Sulfur concentrates	188,974 tonnes
Lead in lead concentrates	822 tonnes
Sulfur and iron concentrates	7,540 tonnes
Gold in copper concentrates	73 kg
Silver in copper concentrates	3,694 kg
Gold in zinc concentrates	8 kg
Silver in zinc concentrates	829 kg
Gold in lead concentrates	73 kg
Sliver in lead concentrates	3,587 kg
Copper in lead concentrates	269 kg

During 2020, the Group incurred expenditures for mining and processing activities were RMB111.6 million (2019: RMB106.5 million) and RMB65.6 million (2019: RMB51.7 million) respectively. The unit expenditures for mining and processing activities were RMB125.1/t (2019: RMB135.3/t) and RMB73.8/t (2019: RMB66.1/t) respectively.

Walege Mine

The Group owns 51% equity interest of Xizang Changdu, which in turn owns the Walege Mine in which the Group can conduct both open-pit and underground mining. The Group is in the progress of converting its exploration license to mining license.

Mineral exploration

No mineral exploration was conducted in 2020. During 2020, the main activities were the license maintenance as well as application of conversion of exploration license to mining license.

Development

During 2020, Walege Mine incurred development expenditure of approximately RMB3.4 million in respect of submission of planned mining area to the Department of Natural Resources of the Tibet Autonomous Region, preparation works for preliminary design, safety facility design, as well as land reclamation plan etc.

Mining activities

Since the Walege Mine is still in development stage, no mining activity has taken place during the year ended 31 December 2020.

Gold Ridge Mine

Mineral exploration

In order to upgrade and increase the mineral resources as well as to undertake metallurgical recovery optimisation tests, the Gold Ridge Mine launched a drilling project within the Charivunga deposit in 2019. The project comprised 11 designed diamond drill holes (“DDH”), of which 4 DDHs were completed in 2020 with drilling hole diameter of 75.7mm-122.6mm, totaling 2,176 meters drilled. It is targeted that the remaining 7 DDHs will be completed in 2021.

During the year ended 31 December 2020, no expenditure of mineral exploration was incurred.

Management Discussion and Analysis

EXPLORATION, DEVELOPMENT AND MINING ACTIVITIES *(Continued)*

Gold Ridge Mine *(Continued)*

Development

During the year ended 31 December 2020, Gold Ridge Mine incurred development expenditure of approximately RMB16.3 million.

Mining activities

Gold Ridge Mine has commenced recommissioning work since September 2020 and is expected to start mining in the first half of 2021 in preparation for trial production towards the end of 2021. No mining activities have incurred for the year ended 31 December 2020.

PROSPECT

We intend to continue to grow our business into a leading non-ferrous mining company in the PRC and South Pacific region through the following major strategies.

Growing production at our mine and outsourcing our mining works

The scale of our production operation in the Xinzhuang Mine has increased to our targeted mining capacity and processing capacity of 600,000 tpa by end of 2014. We planned to further upgrade the mining capacity to 1,000,000 tpa in coming years. To minimise costs, we will continue to outsource our underground mining works to third-party contractors.

Horizontal expansion through future acquisitions of new mines

We intend to further expand our mineral resources and ore reserves through the acquisitions of new mines. We will consider and balance assessment criteria carefully in respect of our acquisition targets, in order to pursue acquisitions prudently with a view to further growing our business and maximising returns to the Shareholders.

OUTLOOK

Looking back at 2020, demand for non-ferrous metals was hit by the epidemic at the beginning of the year, where prices dropped to a historical low. Nonetheless, subsequent to April 2020, it entered into a pattern of rising supply and demand. It is expected that non-ferrous metal such as copper and zinc will be in recovery growth under the support of the global easing policy and distribution of the vaccine. Pursuant to the research report issued by China International Capital Company, commodity prices, especially in the field of non-ferrous metals, will continue to receive fundamental support in 2021.

COMPLIANCE WITH THE RELEVANT LAWS AND REGULATIONS

The Company has adopted the PRC laws relating to the mineral industry such as Mineral Resources Law of the PRC (中華人民共和國礦產資源法), the Rules for Implementation of the Mineral Resources Law (中華人民共和國礦產資源法實施細則), the Procedures for the Registration of Mining and Mineral Resources (礦產資源開採登記管理辦法) and other practices to ensure adherence to applicable legal and regulatory requirements and in particular, those that have a significant impact on the operations of the Group. The Board reviews and monitors regularly the Group's policies and practices on compliance with legal and regulatory requirements. Any changes in the applicable laws, rules and regulations are brought to the attention of relevant employees and senior management from time to time.

In addition, as a company listed on the Main Board of the Stock Exchange, the Company is subject to, among others, the Listing Rules, the Codes on Takeovers and Mergers and Share Buy-backs issued by the Securities and Futures Commission, the Companies Ordinance (Cap. 622 of the Laws of Hong Kong) and the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) (the "SFO"). To the best knowledge of the Directors, the Company has complied with the relevant laws and regulations during the year ended 31 December 2020.

Biographical Information of Directors and Senior Management

EXECUTIVE DIRECTORS

Mr. GAO Mingqing (高明清), aged 68, is our chairman, chief executive officer and executive Director. He has been the general manager of Yifeng Wanguo since November 2003. Mr. Gao was appointed as our executive Director on 13 May 2011. Mr. Gao has approximately 20 years of experience in the mining industry. He is primarily responsible for our business strategies planning, management and supervision of overall operations including production, business development and financing and investment activities of our Group. In January 2012, Mr. Gao received a second class China Nonferrous Metals Industry Science and Technology Award (中國有色金屬工業科學技術獎) from the China Nonferrous Metals Industry Association (中國有色金屬工業協會) and the Nonferrous Metals Society of China (中國有色金屬學會) in respect of the Integrated Technology for Complicated Hard-to-mine Heavy Water Deposits Safety Mining of the Xinzhuang Mine (新莊銅鋅礦複雜難採大水礦床安全開採綜合技術). Mr. Gao was recognised by the People's Government of Yichun Municipal (宜春市人民政府) as an Excellent Entrepreneur (優秀企業家) in 2007 and an Outstanding Individual in New Business Establishment (全民創業標兵) in 2007, 2008 and 2010. Mr. Gao is also a director of Victor Soar Investments Limited, a substantial and controlling shareholder of the Company. Mr. Gao is a cousin of Mr. Li Kwok Ping, our non-executive Director.

Ms. GAO Jinzhu (高金珠), aged 61, is an executive Director and a member of the nomination committee (the “**Nomination Committee**”) of the Board. She has been the deputy general manager of Yifeng Wanguo since January 2004. Ms. Gao was appointed as our executive Director on 13 May 2011. Ms. Gao has approximately 20 years of experience in the mining industry. She is primarily responsible for the human resources management of our Group. Ms. Gao completed the Business Administration Advance Research Program of the School of Continuing Education, Tsinghua University in July 2009. Ms. Gao is also a director of Achieve Ample Investments Limited, a substantial shareholder of the Company.

Mr. XIE Yaolin (謝要林), aged 57, an executive Director, has been our chief engineer and the mine manager of our Xinzhuang Mine since he joined our Group in July 2008. Mr. Xie was appointed as our executive Director on 12 June 2012. He is primarily responsible for the technical side of our mining operations, including supervising and managing production, operational safety and the development and planning of new mines. Mr. Xie has more than 40 years of experience in the mining industry, especially in the area of construction and design of mines and mining operations and management. He worked for Hunan Shuikoushan Non-Ferrous Metal Group Limited (湖南水口山有色金屬集團公司), previously known as Hunan Shuikou Mining Bureau (湖南水口山礦務局), from 1981 to 2008 where he was responsible for the general operations and management of mines including production management, construction management and mining technology implementation. In Hunan Shuikoushan Non-Ferrous Metal Group Limited, he last served as the chief engineer and deputy mine manager of Kangjiawan Mine (康家灣礦), a lead, zinc and gold mine in Hunan province. In January 2012, Mr. Xie received a second class China Nonferrous Metals Industry Science and Technology Award (中國有色金屬工業科學技術獎) from the China Nonferrous Metals Industry Association (中國有色金屬工業協會) and the Nonferrous Metals Society of China (中國有色金屬學會) in respect of the Integrated Technology for Complicated Hard-to-mine Heavy Water Deposits Safety Mining of the Xinzhuang Mine (新莊銅鋅礦複雜難採大水礦床安全開採綜合技術). Mr. Xie has been a committee member of the Mining Research and Development (礦業研究與開發), a magazine jointly published by the China Non-Ferrous Metal Association (中國有色金屬學會) and the Changsha Mining Research Institute (長沙礦山研究院), since September 2010. Mr. Xie was recognised as a senior engineer in geological investigation and mining exploration by Human Resources Office of Hunan Province (湖南省人事廳) in September 2001. He graduated from the China University of Geosciences (中國地質大學) with a bachelor's degree in hydrogeology in June 1989.

Mr. LIU Zhichun (劉志純), aged 53, is an executive Director and a member of the remuneration committee (the “**Remuneration Committee**”) of the Board. He has been the deputy general manager of Yifeng Wanguo since he joined our Group in January 2008. Mr. Liu was appointed as an executive Director on 12 June 2012. He is primarily responsible for the marketing and sale of our products. Mr. Liu has approximately 22 years of experience in general marketing and sales of mining products. Prior to joining us in 2008, Mr. Liu worked in Hunan Province Chejiang Copper Mine (湖南省車江銅礦) from 1991 to 1997 where he last served as the deputy manager of the business department. Mr. Liu received a bachelor's degree in history from the Hunan Science and Technology University (湖南科技大學), previously known as the Xiangtan Normal University (湘潭師範學院), in June 1991.

Biographical Information of Directors and Senior Management

NON-EXECUTIVE DIRECTORS

Mr. LI Kwok Ping (李國平), aged 58, was appointed as our non-executive Director on 12 June 2012. He is primarily responsible for advising on marketing activities and expansion of client network and has been a director of Yifeng Wanguo since November 2007. Mr. Li has approximately 25 years of experiences in cross-border trading. He has been a director of Corbest Development Limited (高柏斯發展有限公司), a company engaged in the manufacture and trading of electronic products, since October 2000. Mr. Li is a cousin of Mr. Gao Mingqing, our chairman, chief executive officer and executive Director.

Mr. LEE Hung Yuen (李鴻淵), aged 50, was appointed as our non-executive Director on 12 June 2012. He is primarily responsible for advising on investment strategies and office administration. Mr. Lee has been a director of Yifeng Wanguo since November 2007 and has been the company secretary of Taylor Investment International Limited (an indirect wholly-owned subsidiary of the Company) since August 2010. Mr. Lee has approximately 24 years of experiences in business development and investment in China. He has been engaged in the manufacture and sale of electronic and light-emitting diode lighting products since 1995.

INDEPENDENT NON-EXECUTIVE DIRECTORS

Dr. LU Jian Zhong (呂建中), aged 59, is our independent non-executive Director and a member of each of the audit committee (the “**Audit Committee**”) of the Board and the Remuneration Committee. Dr. Lu has approximately 20 years of experience in corporate senior management. He has been the General Affairs President, Greater China of Shanghai Essilor Optical Company Limited since October 2020. Dr. Lu was the Weir Group China President from November 2017 to June 2020 and was a Partner of Beijing Brunswick Consultancy Limited Shanghai Branch from June 2015 to October 2017. He held various positions in Sateri Holdings Limited, a company listed on the Main Board of the Stock Exchange in 2010 (stock code: 1768) and delisted in 2016, as well as RGE Management (China) Co., Ltd, and Asia Symbol (Shandong) Pulp and Paper Co., Limited from November 2013 to April 2015. Dr. Lu previously held various positions in BHP Billiton Limited, an international resources company listed on the London Stock Exchange (stock code: BLT) and Australian Securities Exchange (stock code: BHP), from March 2000 to July 2007. Dr. Lu was an expert in the United Nations from December 1994 to May 1997. Dr. Lu is a member of the Australian Institute of Management and a fellow of the World Academy of Productivity Science (WAPS). He graduated from Zhejiang University (浙江大學) with a bachelor’s degree in engineering in July 1983. Dr. Lu was awarded a postgraduate degree in engineering of technological innovation from the Ecole Centrale Paris in 1990 and a doctor’s degree in philosophy from the Royal Melbourne Institute of Technology in May 2000.

Mr. QI Yang (祁揚, former name: 祁楊), aged 53, is our independent non-executive Director, the chairman of the Remuneration Committee and a member of each of the Audit Committee and the Nomination Committee. Mr. Qi has joined Hunan Nonferrous Metals Holding Group Co., Ltd. (湖南有色金屬控股集團有限公司) (“**HNG**”), the parent company of Hunan Nonferrous Metals Corporation Limited (湖南有色金屬股份有限公司) (“**HNL**”) shares of which were listed on the Main Board of the Stock Exchange (stock code: 2626) and delisted on 31 March 2015, since November 2006 and acted as the head of its legal affairs department. He currently acts as the head of office of the board of directors and a member of its investment audit committee of HNG. Mr. Qi has also been a supervisor of HNL since March 2009. He was awarded the “Pioneering Individual in Provincial Legal Affairs in Corporate Supervision” (省屬監管企業法律事務工作先進個人) in 2008 by the State-Owned Assets Supervision and Administration Commission of Hunan Provincial People’s Government (湖南省人民政府國有資產管理監督管理委員會). Mr. Qi was qualified as a lawyer in the PRC in 1994. He graduated from the Zhongnan Institute of Politics and Law (中南政法學院) with a bachelor’s degree in law in July 1991 and graduated as a research student in economic law from the Hunan University (湖南大學) in December 2002.

Biographical Information of Directors and Senior Management

Mr. SHEN Peng (沈鵬), aged 45, is our independent non-executive Director and the chairman of each of the Audit Committee and Nomination Committee. He has more than 22 years of experience in finance and mining industry of China and Australia. From January 2014 to June 2017, Mr. Shen was the director of Carabella Resources Limited, shares of which were listed on the Australian Stock Exchange (stock code: CLR) and delisted on 19 February 2014. Prior to joining Carabella Resources Limited, he was the chief financial officer of Yancoal Australia Limited, shares of which are listed on the Australian Securities Exchange (stock code: YAL), from 2010 to 2013. Mr. Shen served the Shenhua Group Corporation Limited (神華集團有限責任公司), the parent company of China Shenhua Energy Company Limited (中國神華能源股份有限公司) shares of which were dually listed on the Stock Exchange (stock code: 01088) and the Shanghai Stock Exchange (stock code: 601088), from 2004 to 2010. Mr. Shen worked in Deloitte Touche Tohmatsu CPA Ltd. Beijing Branch from 1998 to 2001. He graduated from the Central University of Finance and Economics (中央財經大學) with a bachelor's degree in economics in July 1998 and the University of Melbourne with a master's degree in applied finance in December 2003.

Mr. Wang Xin (王昕), aged 50, has been appointed as our independent non-executive Director and a member of the Audit Committee on 2 January 2020. He is currently the chairman of Foshan Nanhai Antaike Trading Company Ltd (佛山市南海安泰科經貿有限公司), primarily involved in trading of non-ferrous metals. Since 1992, he has worked as a professor-level senior engineer in the China Nonferrous Metals Techno-Economic Research Institute (有色金屬技術經濟研究院), primarily involved in industry research, and serving as an assistant to the dean and vice president. From December 2016 to June 2020, Mr. Wang was an independent director of Fujian Minfa Aluminum Co., Ltd (福建省閩發鋁業股份有限公司), a company listed on Shenzhen Stock Exchange with stock code: 002578. Mr. Wang was the vice president of Indium and Bismuth Branch of China Nonferrous Metals Industry Association between November 2012 and November 2015. He also served as a director of the Second Session of the Aluminum Branch of the China Nonferrous Metals Industry Association from November 2012 to November 2015. Mr. Wang graduated from the Central South University of Technology (中南工業大學) in July 1992 with a bachelor degree of engineering, in mining engineering.

SENIOR MANAGEMENT

Mr. WONG Chi Wah (王志華), FCCA, HKICPA, aged 46, is our chief financial officer and company secretary. He was appointed as chief financial officer and company secretary in July 2011 and May 2012 respectively. Mr. Wong is responsible for the management of our Group's financial matters. He has approximately 24 years of experience in auditing and accounting fields. Prior to joining our Group, Mr. Wong was the chief financial controller and company secretary of China Automotive Interior Decoration Holdings Limited (stock code: 48, previously stock code: 8321), a company listed on the GEM of the Stock Exchange from February 2010 to June 2011. Mr. Wong received a bachelor degree in accountancy from the Hong Kong Polytechnic University in 1996. He is a fellow member of the Association of Chartered Certified Accountants and a member of the Hong Kong Institute of Certified Public Accountants.

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

The Company is committed to maintaining high standards of corporate governance to protect the interests of the Shareholders. The Company's corporate governance practices are based on principles, code provisions and certain recommended best practices as set out in the Corporate Governance Code (the "CG Code") in Appendix 14 to the Listing Rules. Except for the deviation from code provisions A.2.1 and A.2.7 of the CG Code as described in the relevant paragraphs of this corporate governance report, the Company had complied with the CG Code for the year ended 31 December 2020.

CODE OF CONDUCT REGARDING SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding securities transactions by the Directors on terms no less exacting than the required standard of the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 to the Listing Rules (the "Model Code"). Having made specific enquiries with all Directors, the Company confirmed that all Directors have complied with the Model Code and the required standards of dealings as set out in the code of conduct for the year ended 31 December 2020 and up to the date of this annual report.

The Company has also established written guidelines on terms no less exacting than the Model Code (the "Employees Written Guidelines") for securities transactions by relevant employees who are likely to possess inside information of the Company. No incident of non-compliance of the Employees Written Guidelines by the relevant employees was noted by the Company for the year ended 31 December 2020.

BOARD OF DIRECTORS

During the year ended 31 December 2020 and up to the date of this annual report, the Board comprised four executive Directors, two non-executive Directors and four independent non-executive Directors as follows:

Executive Directors

Mr. Gao Mingqing (*Chairman and Chief Executive Officer*)

Ms. Gao Jinzhu

Mr. Xie Yaolin

Mr. Liu Zhichun

Non-executive Directors

Mr. Li Kwok Ping

Mr. Lee Hung Yuen

Ms. Iu Ching (resigned on 21 January 2020)

Independent non-executive Directors

Dr. Lu Jian Zhong

Mr. Qi Yang

Mr. Shen Peng

Mr. Wang Xin (appointed on 2 January 2020)

The composition of the Board is well balanced with each Director having sound industry knowledge, extensive corporate and strategic planning experience and/or expertise relevant to the business of the Group. The biographical details of the Directors and the relationship among the members of the Board are set out in the "Biographical Information of Directors and Senior Management" on pages 23 to 25 of this annual report. Save as disclosed in this annual report, and to the best knowledge of the Company, there is no financial, business, family or other material/relevant relationships among the members of the Board.

Corporate Governance Report

BOARD OF DIRECTORS *(Continued)*

During the year and as at 31 December 2020, the Board complied with the requirement of the Listing Rules relating to the appointment of at least three independent non-executive Directors and at least one of them has appropriate professional qualifications or accounting or related financial management expertise. The Company has received from each independent non-executive Director an annual confirmation of his independence pursuant to Rule 3.13 of the Listing Rules and the Company considers all the independent non-executive Directors to be independent.

ROLES AND RESPONSIBILITIES OF THE DIRECTORS

Generally, the responsibilities of the Board include:

- Formulation of overall strategic development of the Group;
- Supervision of the financial performance and risk management and internal control of the Group's business operations;
- Material acquisitions, investments, disposal of assets or any significant capital expenditure;
- Appointment, removal or reappointment of Board members and auditors;
- Review of remuneration of Directors; and
- Recommendation and declaration of any interim and final dividends.

The Board has delegated a schedule of responsibilities to the executive Directors and senior management of the Company. These responsibilities include implementing decisions of the Board and directing and co-ordinating day-to-day operation and management of the Company. The delegated functions and responsibilities are periodically reviewed by the Board. Approval has to be obtained from the Board prior to any significant transactions entered into by the aforesaid officers.

The Board has established three committees, namely, the Audit Committee, the Remuneration Committee and the Nomination Committee (the “Committees”, each a “Committee”) for overseeing particular aspects of the Company's affairs. A copy of the current terms of reference of each Committee is available on the Investor Relations section of the Company's website. To comply with the Listing Rules, the terms of reference of each Committee are also available on the website of Hong Kong Exchanges and Clearing Limited (“HKEX”). The Board delegates its powers and authorities from time to time to the Committees in order to ensure operational efficiency and specific issues are being handled with relevant expertise. The Committees do not take action or make decision on behalf of the Board unless specifically mandated by prior Board authority to do so.

In addition, the Company has maintained a procedure for the Directors to seek independent professional advice, in appropriate circumstances, at the Company's expense in discharging their duties to the Company.

CORPORATE GOVERNANCE FUNCTIONS

The Board is responsible for performing the functions of corporate governance. For the year ended 31 December 2020, the Board performed the functions of corporate governance as set out in code provision D.3.1 of the CG Code.

Corporate Governance Report

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

According to code provision A.2.1 of the CG Code, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. Mr. Gao Mingqing, in addition to his duties as the chairman of the Board (the “Chairman”), is also responsible for the strategic planning and overseeing all aspects of the Group’s operations as the Chief Executive Officer of the Company. This constitutes a deviation from code provision A.2.1 of the CG Code. Mr. Gao Mingqing as one of the founders of the Group has extensive experience and knowledge in the core business of the Group and his duties of overseeing the Group’s operations are clearly beneficial to the Group. The Board considers that this structure will not impair the balance of power and authority between the Board and the management of the Group.

BOARD MEETINGS

The Company held eight Board meetings during the year ended 31 December 2020, four of which were held for reviewing and approving the financial and operating performance and considering the overall strategies and policies of the Group, and the remaining Board meetings were held for considering and approving (where applicable), among others, the appointment of Mr. Wang Xin as an independent non-executive Director and resignation of Ms. Iu Ching as a non-executive Director, the completion of acquisition and supplementary information in relation to the Gold Ridge Mine, and the entering into of the Subscription Agreement, as well as for discussing the impacts of COVID-19.

The following table shows the attendance record of each Director at the Board meetings and the annual general meeting held during the year ended 31 December 2020:

Members	Attendance/Number of meetings	
	Board meeting	Annual general meeting
<i>Executive Directors</i>		
Mr. Gao Mingqing	7/8	1/1
Ms. Gao Jinzhu	7/8	1/1
Mr. Liu Zhichun	6/8	1/1
Mr. Xie Yaolin	5/8	0/1
<i>Non-executive Directors</i>		
Mr. Li Kwok Ping	8/8	1/1
Mr. Lee Hung Yuen	5/8	0/1
Ms. Iu Ching (resigned on 21 January 2020)	0/1	N/A
<i>Independent non-executive Directors</i>		
Dr. Lu Jian Zhong	0/8	1/1
Mr. Qi Yang	7/8	1/1
Mr. Shen Peng	4/8	0/1
Mr. Wang Xin (appointed on 2 January 2020)	8/8	1/1

According to code provision A.2.7 of the CG Code, the chairman should at least annually hold meetings with the independent non-executive Directors without the presence of other Directors. During the year, the Chairman did not hold any meeting with the independent non-executive Directors without other Directors present. Nevertheless, from time to time, the independent non-executive Directors express their views directly to the Chairman via other means including correspondences and emails. The Company is of the view that there is efficient communication between independent non-executive Directors and the Chairman.

Corporate Governance Report

PRACTICES AND CONDUCT OF MEETINGS

Notices of regular Board meetings are served to all Directors at least 14 days before the meetings to give all Directors an opportunity to attend. For other board meetings, reasonable notices have been given to all Directors.

The Directors will receive details of agenda and minutes of Committee/Board meetings in advance of and after each Committee/Board meeting respectively. The company secretary of the Company (the “**Company Secretary**”) will distribute relevant documents to the Directors in a timely manner to enable the Directors to make informed decisions on matters to be raised at the Board meetings. All Directors have access to the advice and services of the Company Secretary who is responsible for ensuring the procedures of the Board meetings are complied with, and in consultation with legal adviser of the Company, advising the Board on compliance matters. Moreover, the Company Secretary prepares minutes of the Board meetings and keeps records of matters discussed and decisions resolved at all Board meetings. The Company Secretary also keeps the minutes of the Board meetings, which are open for inspection at any reasonable time on reasonable notice by any Director.

If a substantial Shareholder or Director has a conflict of interest in a matter to be discussed by the Board which the Board considers material, such matter shall be considered at a Board meeting instead of resolved by written resolutions. Independent non-executive Directors who and whose close associate(s) have no material interest in the matter should be present at such a Board meeting.

CONTINUOUS PROFESSIONAL DEVELOPMENT OF DIRECTORS

In accordance with code provision A.6.5 of the CG Code, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills in order to ensure that their contribution to the Board remains informed and relevant.

Every newly appointed Director will receive formal, comprehensive and tailored induction on the first occasion of his/her appointment to ensure appropriate understanding of the business and operations of the Company and full awareness of director’s responsibilities and obligations under the Listing Rules and relevant statutory requirements.

Internally-facilitated briefings for Directors will be arranged and reading material on relevant topics will be issued to Directors where appropriate.

Relevant reading materials including legal and regulatory update have been provided to the Directors for their reference and studying. Directors are encouraged to attend relevant training courses at the Company’s expenses.

During the year ended 31 December 2020, all Directors have provided a record of their training to the Company Secretary. All Directors confirmed that they have read training materials provided by the Company in respect of corporate governance, updates of the Listing Rules and the Companies Ordinance.

Corporate Governance Report

CONTINUOUS PROFESSIONAL DEVELOPMENT OF DIRECTORS *(Continued)*

A summary of training received by the Directors for the year ended 31 December 2020 according to the records provided by the Directors is as follows:

APPOINTMENT AND RE-ELECTION OF DIRECTORS

Every Director (including executive Directors, non-executive Directors and independent non-executive Directors) has been appointed for a term of three years with automatic renewal, subject to termination by either party giving the other not less than three months' prior written notice.

The procedures and process of appointment, re-election and removal of the Directors have been set out in the Articles. The Nomination Committee is responsible for reviewing the Board's composition, developing and formulating relevant procedures for nomination and appointment or re-appointment of the Directors, monitoring appointment and succession planning of the Directors, and assessing independence of the independent non-executive Directors, as detailed below under the sub-section headed "Nomination Committee".

Corporate Governance Report

APPOINTMENT AND RE-ELECTION OF DIRECTORS *(Continued)*

According to article 87 of the Articles, one-third of the Directors (or if their number is not a multiple of three, the number nearest to but no less than one-third) shall retire from office by rotation provided that every Director shall be subject to retirement at an annual general meeting at least once every three years. The retiring Directors shall be eligible for re-election.

Mr. Liu Zhichun, Mr. Li Kwok Ping, Mr. Shen Peng and Mr. Qi Yang will retire by rotation at the forthcoming AGM, and being eligible, offer themselves for re-election.

On 31 March 2021, the Board accepted the nomination from the Nomination Committee and recommended the retiring Directors to stand for re-election at the AGM.

DIRECTORS' LIABILITY INSURANCE

The Company has arranged for appropriate insurance cover to protect Directors from possible legal action against them.

NOMINATION COMMITTEE

The Nomination Committee was established on 12 June 2012 with written terms of reference in compliance with the CG Code. The Nomination Committee is mainly responsible for making recommendations to the Board regarding appointment of Directors. As at the date of this annual report, the Nomination Committee comprises one executive Director, namely Ms. Gao Jinzhu, and two independent non-executive Directors, namely Mr. Shen Peng and Mr. Qi Yang. Mr. Shen Peng has been appointed as the chairman of the Nomination Committee.

Board Diversity

The Nomination Committee has adopted a policy concerning diversity of Board members (the “**Board Diversity Policy**”), which is achieved through consideration of a number of factors, including but not limited to gender, age, cultural and educational background, or professional experience of the Board members.

All appointments to the Board will be based on merits against the selection criteria, having due regard to the benefits of diversity on the Board as well as the Company's own business model and specific needs arising from time to time. The Nomination Committee will review the Board Diversity Policy and its effectiveness regularly, monitor its implementation by conducting review of the Board composition under diversified perspectives and discuss any need for changes with the Board and recommend changes to the Board Diversity Policy to the Board for its consideration and approval.

Nomination Policy

On 29 March 2019, the Board has adopted a nomination policy (the “**Nomination Policy**”) to assist the Board in identifying suitably qualified candidates and making recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors as well as providing the selection criteria and procedures adopted for making recommendations by the Nomination Committee. A summary of the selection criteria and procedures for recommendation and selection of candidates for directorship is disclosed below.

Corporate Governance Report

NOMINATION COMMITTEE *(Continued)*

Nomination Policy *(Continued)*

Selection Criteria

In assessing the suitability of a proposed candidate, the Nomination Committee shall consider, among others, the following factors:

- reputation for integrity;
- accomplishment, experience and reputation of the relevant business of the Group;
- time to be devoted and attention to the affairs of the Company;
- diversity of the Board in all aspects, including but not limited to gender, age, cultural background, educational background, skills, knowledge and professional experience;
- compliance with the criteria of independence as prescribed under Rule 3.13 of the Listing Rules for the appointment of an independent non-executive Director; and
- any other relevant factors as may be determined by the Nomination Committee or the Board from time to time.

The appointment of any proposed candidate(s) to the Board or re-appointment of any existing member(s) of the Board shall be made in accordance with the Articles and other applicable rules and regulations.

Nomination Procedures

To nominate a candidate for the appointment and/or re-appointment of Directors, the procedures are as follows:

- The secretary of the Nomination Committee shall convene a meeting, and invite nominations of candidates from Board members (if any), for consideration by the Nomination Committee. The Nomination Committee may also put forward candidates who are not nominated by Board members;
- Proposed candidates will be asked to submit the necessary personal information, together with their written consent to be appointed as a director of the Company and to the public disclosure of their personal data on any documents or relevant website in connection with their nomination or otherwise pursuant to applicable rules and regulatory requirements. Recommendation will then be made by the Nomination Committee upon review of the relevant documents for Board's consideration and approval. The Nomination Committee may request candidates to provide additional information and documents, if considered necessary;
- In the context of re-appointment of any existing member(s) of the Board, the Nomination Committee shall make recommendations to the Board for its consideration and recommendation, for the candidates to stand for re-election at a general meeting;
- Please refer to the "Procedures for Shareholders to Propose a Person for Election as a Director of the Company", which is available on the Company's website, for procedures for shareholders' nomination of any candidate for election as a Director; and
- The Board shall have the final decision on all matters relating to its recommendation of candidates to stand for election at any general meeting.

The Board will review the Nomination Policy, as appropriate, to ensure the effectiveness of the Nomination Committee.

Corporate Governance Report

NOMINATION COMMITTEE *(Continued)*

Nomination Policy *(Continued)*

Nomination Procedures *(Continued)*

During the year ended 31 December 2020, one meeting was held by the Nomination Committee to review and make recommendations to the Board on the re-appointment of each Director prior to that Director seeking for re-election at the following annual general meeting and review the biography of candidates to be appointed as new Director. The recommendations were made in accordance with the objective criteria with due regard for the benefits of diversity as set out in the Board Diversity Policy and the Articles. The following table shows the number of attendance of each member at the meeting of the Nomination Committee held during the year:

Members	Attendance
Mr. Shen Peng <i>(Chairman)</i>	✓
Mr. Qi Yang	✓
Ms. Gao Jinzhu	✓

On 23 December 2020, the Nomination Committee had recommended to the Board the re-appointment of Mr. Liu Zhichun, Mr. Li Kwok Ping, Mr. Shen Peng and Mr. Qi Yang for re-election at the forthcoming AGM. The Board had accepted the Nomination Committee's recommendation.

REMUNERATION COMMITTEE

The Remuneration Committee was established on 12 June 2012 with written terms of reference in compliance with code provision B.1.2 of the CG Code. The primary duties of the Remuneration Committee include developing remuneration policies of the Directors, evaluating the performance, making recommendations on the remuneration package of our Directors and senior management and evaluating and making recommendations on employee benefit arrangements. As at the date of this annual report, the Remuneration Committee comprises one executive Director, namely Mr. Liu Zhichun, and two independent non-executive Directors, namely Mr. Qi Yang and Dr. Lu Jian Zhong. Mr. Qi Yang has been appointed as the chairman of the Remuneration Committee.

During the year ended 31 December 2020, one meeting was held by the Remuneration Committee for reviewing, assessing and making recommendations to the Board on the remuneration packages of the Directors and senior management for 2021. The following table shows the attendance of each member at the meeting of the Remuneration Committee held during the year:

Members	Attendance
Mr. Qi Yang <i>(Chairman)</i>	✓
Dr. Lu Jian Zhong	✓
Mr. Liu Zhichun	✓

Corporate Governance Report

AUDIT COMMITTEE

The Audit Committee was established on 12 June 2012 in compliance with Rule 3.21 of the Listing Rules, with written terms of reference in compliance with code provision C.3.3 of the CG Code.

The primary duties of the Audit Committee are, among other things, to provide independent view of our financial reporting process, risk management and internal control systems, oversee the audit process and perform other duties and responsibilities as assigned by the Board. As at the date of this annual report, the Audit Committee comprises four independent non-executive Directors, namely Mr. Shen Peng, Mr. Qi Yang, Dr. Lu Jian Zhong and Mr. Wang Xin. Mr. Shen Peng has been appointed as the chairman of the Audit Committee.

During the year ended 31 December 2020, six meetings were held by the Audit Committee to discharge its responsibilities and to review the Group's annual and interim results, reporting and compliance procedures, the re-appointment of the external auditor and audit planning meeting with external auditor, as well as to discuss the impacts of COVID-19 outbreak on the financial reporting. The following table shows the number of attendance of each member at the meetings of the Audit Committee held during the year:

Members	Attendance
Mr. Shen Peng (<i>Chairman</i>)	6/6
Mr. Qi Yang	6/6
Dr. Lu Jian Zhong	3/6
Mr. Wang Xin (appointed on 2 January 2020)	6/6

The Audit Committee reviews the interim and annual reports respectively as well as the results announcements before submission to the Board. The Audit Committee focuses not only on the impact of the changes in accounting policies and practices but also on the compliance with accounting standards, the Listing Rules and the legal requirements in respect of the Company's interim and annual reports as well as the results announcements.

The Audit Committee is also responsible for making recommendations to the Board as to the appointment, re-appointment and removal of the external auditor, which is subject to the approval by the Board and at the general meetings of the Company by the Shareholders.

AUDITOR'S REMUNERATION

For the year ended 31 December 2020, the total fee paid/payable to the Group's external auditor, Crowe (HK) CPA Limited, in respect of annual audit services and non-audit services are set out below:

	Fees paid/payable HK\$'000
<i>Audit services</i>	
Annual audit services	1,300
<i>Non-audit services</i>	
Interim review	130

Corporate Governance Report

DIRECTORS' RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

The Directors acknowledged their responsibility for the preparation of the financial statements of the Company for the year ended 31 December 2020, which give a true and fair view of the financial position of the Group. The auditor of the Company is responsible to form an independent opinion, based on the audit, on the financial statements prepared by the Directors and report the opinion solely to the Shareholders.

RISK MANAGEMENT AND INTERNAL CONTROL

The risk management and internal control systems has been designed to safeguard the assets of the Group, maintain proper accounting records, execute with appropriate authority and comply with the relevant laws and regulations.

The Board is responsible for maintaining and reviewing the effectiveness of the Group's risk management and internal control systems. They have carried out an annual review of the implemented systems and procedures, including areas covering financial, operational and legal compliance controls and risk management functions. The risk management and internal control systems are implemented to minimise the risks to which the Group is exposed and used as a management tool for the day-to-day operation of business. The system can only provide reasonable but not absolute assurance against misstatement or losses.

For the year ended 31 December 2020, the Board considered that the Company's risk management and internal control systems are adequate and effective and the Company has complied with the CG Code.

Main features of risk management and internal control systems

The Company has adopted a risk management policy which is applicable to the Group with objectives of:

- (i) determination of risk acceptable to the Group;
- (ii) identification and prioritisation of the risk arising from Group's operating activities;
- (iii) placing of appropriate mitigation or treatment strategies to manage, transfer or avoid risks; and
- (iv) annual review of risks and relevant mitigation strategies for their appropriateness.

To help ensure all risks which are relevant to the Group are considered, a systematic approach to risk identification is followed. Identifiable risk areas which are considered include:

- maintaining a safe work environment for the Group's employees;
- safeguarding and efficient use of assets;
- management of human resources;
- ensuring the Group complies with legal and regulatory obligations;
- achieving established objectives and goals;
- reliability and integrity of financial and operational information;
- compliance with internal policies and procedures; and
- changes in the Group's internal and external environments.

Corporate Governance Report

RISK MANAGEMENT AND INTERNAL CONTROL *(Continued)*

Main features of risk management and internal control systems *(Continued)*

Measures of consequence and likelihood have been determined and are used on a consistent basis. Risk assessment process consists of:

- (i) the Group's primary risk assessment process comprises a comprehensive annual risk review. This review involves a complete re-development and re-assessment of the risks to the Group. A team approach comprising senior management from all business units of the Group's operations is used in this assessment phase;
- (ii) the review is coordinated with the strategic planning cycle of the Group to ensure risk associated with all strategic business objectives and activities are considered;
- (iii) risks identified by each business unit who review their risk profiles annually, and results of internal audit work, are also incorporated into the review;
- (iv) the Group's senior management team measures the risks which have been identified and prioritises them in terms of their impact on the Group;
- (v) results of the annual review are documented, and include mitigation strategies where appropriate; and
- (vi) the Board and the Audit Committee perform annual review.

During 2020, the Company has appointed Infinity Concept Ripple Limited, an independent consultant, to take up the role of the Group's internal audit function, reviewing the effectiveness of the risk management and internal control systems as well as providing any recommendations for material defects to the Group.

The Group has also adopted a "Insider Information Dissemination" policy as follows:

- (i) all Directors and senior management have been advised to follow the policy;
- (ii) any potential insider information identified by any business units should be notified to the Company Secretary immediately. Such information should be kept confidential and to allow the Board or senior management for investigation and consultation with legal adviser;
- (iii) the Company Secretary will draft the appropriate announcements for the Board approval and arrange for publication to the public as soon as practicable; and
- (iv) in case, the issue is complicated and requested more time to handle or has been known to the public, the Company Secretary will apply for a temporary suspension of trading from the Stock Exchange with the reasons on hand before issuing an appropriate and complete announcement.

Corporate Governance Report

COMPANY SECRETARY

The Company Secretary has attended more than 15 hours of continuing professional development training arranged by several professional bodies during the year ended 31 December 2020.

DIVIDEND POLICY

On 29 March 2019, the Board has adopted a dividend policy (the “**Dividend Policy**”) with an aim to provide the Shareholders with stable and sustainable returns.

The payment and the amount of any dividends will be at the discretion of our Directors and will depend upon our future operations and earnings, acquisitions, capital requirements and surplus, general financial conditions, contractual restrictions and other factors which our Directors deem relevant. Cash dividends on our Shares, if any, will be paid in Hong Kong dollars.

SHAREHOLDERS' RIGHTS

Pursuant to article 58 of the Articles, an extraordinary general meeting shall be convened on the written requisition of any one or more members holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company. Such members shall at all times have the right, by written requisition to the Board or the Company Secretary, to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two (2) months after the deposit of such requisition. If within twenty-one (21) days of such deposit the Board fails to proceed to convene such meeting the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

There are no provisions allowing Shareholders to move new resolutions at general meetings under the Cayman Islands Companies Law or the Articles. Shareholders who wish to move a resolution may request the Company to convene a general meeting following the procedures set out in the preceding paragraph.

Regarding proposing a person for election as a Director, please refer to the procedures available on the website of the Company.

Shareholders may at any time send their enquiries and concerns to the Board in writing to the Company's principal place of business in Hong Kong at Unit 1, 28/F., Singa Commercial Centre, 144-151 Connaught Road West, Hong Kong.

INVESTOR RELATIONS AND COMMUNICATION WITH SHAREHOLDERS

The Company has established a range of communication channels between itself and its Shareholders, and investors. These include the publication of interim and annual reports, notices, announcements and circulars, the Company's website at www.wgmine.com and meetings with investors and analysts.

The Company encourages all Shareholders to attend the annual general meetings to stay informed of the Group's strategy and goals. It provides an opportunity for direct communication between the Board and its Shareholders. The chairman of the meeting explains the detailed procedures for conducting a poll and then answers any questions from the Shareholders. The poll results are published on the websites of the Company and HKEX.

CONSTITUTIONAL DOCUMENTS

During the year ended 31 December 2020, the Company has not made any changes to its memorandum and articles of association.

Environmental, Social and Governance Report

We committed to operating safely and responsibly. As the mining industry is relatively high-demand in safety, our objective is to create a workplace without fatalities, injuries or occupational diseases. Our priority in our workplace is to protect the health and safety of our staff. Our policies and procedures support our practice and we meet or exceed applicable laws and regulations in PRC. The Company has engaged with the Board, management and staff for the purpose of obtaining information on the approach to environmental, social and governance (the “ESG”) needed pursuant to the Environmental, Social and Governance Reporting Guide set out in Appendix 27 to the Listing Rules. As Yifeng Wanguo is the only operating entity of the Group for the year ended 31 December 2020, our ESG reporting will solely be based on the Xinzhuang Mine which is owned by Yifeng Wanguo.

MATERIALITY

This Report approved by the Board and set out in the Company’s annual report. As part of the preparation for compiling this report, we undertake a preliminary review of the material topics that have affected and continue to affect our business, and our actions to address them. This process focuses our reporting on the sustainability topics which we consider of interest to our key stakeholders.

A matter is considered to be material if, in the view of the Board and senior management, it is of such importance that it will, or potentially could, in the short, medium or long term, have a significant influence on, or is of particular attention to, our stakeholders; or significantly affect our ability to meet our goals.

Once identified, each material issue is given a priority level based on the level of concern shown by stakeholders, as well as its actual and/or potential impact on the business. The issues which we identified as being material are in the following four aspects, in no order of priority:

- Safety Production;
- Employment Training and development;
- Employment and Welfare;
- Environmental Protection and energy savings;
- Social and Culture Development.

The Board assumes full responsibility for the Group’s ESG strategy and reporting and is responsible for assessing and determining the Group’s ESG-related risks and ensuring appropriate and effective ESG risk management and proper implementation of the internal monitoring system.

The Group attaches great importance to the communication with stakeholders, by disseminating the Company’s ESG concepts and practices through various channels, understanding the concerns of stakeholders and taking action to meet their reasonable expectations and demands.

Environmental, Social and Governance Report

SAFETY PRODUCTION

Health and Safety

Occupational health and safety is one of our prime responsibilities, we have implemented and enforced a number of measures to ensure compliance of the regulatory requirements and our production safety and environmental protection. We have set up a department tailor for occupational health and safety, and a safety production management committee for safety activities. We have our own safety production and operational manual which specify certain procedures such as our safety production procedures in respect of different posts and departments, our accident prevention procedures and accident reporting procedures. Regular safety drills are carried out to ensure the awareness of safety production measures in case of emergency handling. The roles and responsibilities of each of the supervising staff and workers are clearly defined and each supervising staff is accountable for their respective areas of responsibility. Our mine manager supervises the implementation of regular on-site examination and continuously monitors the safety policies. Our safety supervisor inspects the implementation of safety procedures on daily basis.

We have implemented a set of guidelines and rules regarding the handling of such dangerous articles which comply with existing PRC laws, regulations and policies. We have implemented a mandatory safety training programme for all our employees in strict accordance with requirements under Production Safety Law of the PRC (中華人民共和國安全生產法) and Law of the PRC on Safety in Mines (中華人民共和國礦山安全法). All new employees must participate in a three levels safety education programme before they start their work. Employees with specialized technical duties will be required to receive training pursuant to the respective regulations and requirements. We also conduct regular training to our existing staff to enhance their awareness of safety issues, and improve their knowledge in working safety techniques in order to reduce and eliminate the occurrence of accidents. During the year, there were no work-related fatalities. Lost days due to work injury were 596 days (2019: 744 days) while the number of incidents was 15 (2019: 17). Decrease in lost days in 2020 due to increase the alerts and promotions of safety production in the mine site such as prevention of work injury pictures in mine site and SMS notifications.

EMPLOYMENT TRAINING AND DEVELOPMENT

One of our prime developments is to provide an opportunity for all staff in learning and developing aspects so as to enhance personal development.

Our Group has arranged experienced staff, managerial staff, or other outsourcing expert, scholar or professional trainer to provide training to our staff.

Both on-the-job training and training programme are offered to the relevant staff. In accordance with the need of our Group, we will irregularly arrange job training to staff who will be assigned or transferred to different posts.

The Group encourages staff to take courses relevant to job in professional training institutions. Staff who obtains relevant technical titles, qualified certificates, graduate or master degree, can apply for assistance after completion.

New ground staff should attend not less than 36 hours tertiary safety education (三級安全培訓) while new underground staff should attend not less than 72 hours training. All staff should attend a 20 hours training organized by the county safety bureau each year.

Labour standards

The Group has policies to prevent child or forced labour. It does not allow recruiting staff of age under 18. If we discover any fake or hidden facts or cheats during the recruitment process, the candidate will be removed from our selection. If it is discovered after recruitment process, we will terminate the labour contract. Every candidate should provide personal identification documents, such as identity card, household record copy for verification purpose during recruitment process.

During the year, the Group has not discovered any non-compliance.

Environmental, Social and Governance Report

EMPLOYMENT AND WELFARE

Employment

Except for underground mining work, we provide equal opportunities and have no sex nor age discrimination in recruitment of staff. For blasting operation, we only recruit staff with qualified license pursuant to relevant laws and regulations. Staff has to report to us whether there are any relatives in our Group and attend safety education training. In addition, staff has to be checked with police for non-criminal record.

Compensation and working hours

Generally, wages of workers comprise basic salary, performance salary and allowance. Working hours are 8 hours per day and are divided into normal working hours and shifting hours under different duties. Staff has 4 days-off in a month and enjoys public holidays, sick leave, wedding leave, funeral leave as well as maternity leave under local labour laws.

Benefits and welfares

Benefits and welfares include subsidy in meal expenses, accommodations, home-fare during Spring Festival, as well as various insurances under laws and regulations. Some staff can also have subsidy in telephone expenses. For home leave, marriage leave, funeral leave as well as participation in social activities, staff can still be paid normally.

As at 31 December 2020, the Group had a total workforce of 360 (2019: 349) which comprised 347 (2019: 335) in Jiangxi Province of the PRC, 2 (2019: 2) in Hong Kong and 11 (2019: 12) in Australia. 277 (2019: 271) were male and 83 (2019: 78) were female.

Set out below are distribution of our workforce.

By employment type

	No. of workforce	Turnover rate
Underground technical and supporting mine workers		
– Safety supervision	20	0.0%
– Mining and geological technical staff	12	25.0%
– Mining record and Surveying staff	10	20.0%
– Geological drilling operators	17	35.3%
– Ventilation and hauling facilities and water-pump operators and maintenance staff	78	10.3%
– Backfilling team	21	4.8%
Processing plant workers	95	10.5%
Mine management and supporting staff	107	10.3%
	360	11.4%

Environmental, Social and Governance Report

By age group

	No. of workforce	Turnover rate
20 or below	2	50.0%
21-30	29	27.6%
31-40	69	10.1%
41-50	143	8.4%
51 or above	117	11.1%
Total	360	11.4%

ENVIRONMENTAL PROTECTION AND ENERGY SAVINGS

Emissions

Our operations are subject to various PRC laws and regulations with respect to environmental protection and environmental rehabilitation. Other than general laws such as Environmental Protection Laws of PRC (中華人民共和國環境保護法) applicable to all entities in PRC, we are also subject to the Provisions on the Protection of the Geologic Environment of Mines (礦山地質環境保護規定) effective as of 1 May 2009, we complied a plan for the protection and restoration of the mine's geological environment and obtained approval from the Land Resources Bureau for the plan. We paid the guarantee deposit for restoration of the geological environment of mines under the Provisions and provision for restoration cost is recognised annually in accordance with relevant rules and regulations applicable in the PRC at end of reporting period as well.

We formulated our own policy based on Environmental Protection Laws requirements, increasing the investment in environmental protection, strengthening environmental protection management for the purpose of increasing in production volume with low level growth in pollution released.

The Xinzhuang Mine has a valid pollutant discharge permit from the relevant local environmental protection department to undertake mining and processing activities at their respective mining site. Major environmental issues in our underground-type mining industry are management of wastewater and management of tailings. We have adopted various measures within our operations as well as emergency procedures with regard to environmental protection.

Wastewater

The site has developed a water-recycling management system. The Xinzhuang Mine obtains top-up water from the underground mine workings. Wastewater produced will be undergone several steps of precipitation and filtration, which is recycled to the concentrator for reuse. Pollutants will be discharged in tailings storage facilities.

The Group emitted approximately 568,500 tonnes (2019: 941,000 tonnes) of wastewater in production, which contained 12.2 tonnes (2019: 21.9 tonnes) of pollutants and effluent concentration was approximately 21.5 mg/L (2019: 23.3 mg/L) which is below the required standard of 60mg/L. The discharge of Chemical Oxygen Demand was 21.5 tonnes in 2020 (2019: 21.9 tonnes), which was below the allowable level of 38.72 tonnes per year set by local environmental bureau.

Tailings

Underground waste is either left underground for back filling or used for construction purposes.

The Group produced approximately 469,000 tonnes (2019: 493,000 tonnes) of tailings. During the year, approximately 67% (2019: 70%) of the tailings (coarse fraction) were mixed with cement and sent underground for back filling. The remaining 32% (2019: 30%) were stored in tailing dam and sales.

Environmental, Social and Governance Report

Use of resources

During the year, the Group consumed approximately total of 3,844,000 tonnes (2019: 6,675,000 tonnes) of water while it consumed approximately 540,000 tonnes (2019: 560,000 tonnes) of new water extracted from underground. The rate of water recycle was approximately 85.2% (2019: 85.9%) which was within our target of over 75%. The rate of water recycle was comparable in two years.

During the year, electricity usage for production was totally 45,703,536kwh (2019: 42,131,538kwh), which comprised mining of 14,711,654kwh (2019: 15,734,596kwh), processing of 27,968,783kwh (2019: 24,092,766kwh) and back-filling of 812,402kwh (2019: 839,294kwh) while the total ore processed during the year was 888,558 tonnes (2019: 782,431 tonnes). The total carbon emission for electricity use during production in 2020 was approximately 45.6 million kg (2019: 42.0 million kg). The unit of production per electricity usage was 51.4kwh per tonne (2019: 53.9kwh per tonne), which was attribute to completion of renovation in ore processing.

Diesel usage was 222,804 lite (2019: 145,334 lite) for 15 vehicles (2019: 12 vehicles). The total carbon emission for diesel usage in 2020 was approximately 0.6 million kg (2019: 0.4 million kg).

The Environment and Nature Resources

We have adopted various policies on efficient use of resources as well as recycling and re-use of resources. Details are as follows:

Water management: the site has been developed with an emphasis on recycling used process and tailings storage facility drainage water, which is recycled to the concentrator for reuse. A recycling rate of over 75% is obtained. The Xinzhuang Mine obtains top-up water from the underground mine workings, while any surplus waste water from the site (including treated sewage) will be discharged to the nearby Shishui River following treatment in accordance with the regulatory standards in the PRC.

Solid waste: underground waste is either left underground for back filling or used for construction purposes (as a good quality construction material it is also sold locally).

During the year, approximately 67% (2019: 70%) of the tailings (coarse fraction) were mixed with cement and sent underground for back filling. The remaining 33% (2019: 30%) were stored in tailing dam and sales.

Our operations may have the following impacts of activities on the environment and we have taken the corresponding actions to manage them.

Dust and air quality mitigation: water sprays will be used for the crushing and screening plant (with wet scrubbers to also be installed in conjunction with the project expansion). However, the ore and concentrates are either wet or damp, thereby requiring minimal dust mitigation measures. Other mitigation measures include enclosure of any potentially dusty activities, paving of surface roads, revegetation and availability of personal protection devices to workers to provide additional personal protection from dust, as required.

Noise control: methods of noise control include sound insulation by isolating the noisy machines in the specific locations of the plant from the staff operation room, and provision of noise protective articles to staff involved.

Rehabilitation: the Group prepared a conceptual mine closure plan which comprised part of the site's soil and water conservation plan and it pays periodically guarantee deposits in specific amounts for restoration of the land upon closure of mine in accordance with the requirements of Land Resources Bureau.

Environmental, Social and Governance Report

Environmental monitoring: a mine site environmental monitoring plan is in place in which analytical results are complied with the regulatory standards in the PRC. The regular company monitoring programme is supplemented by periodic monitoring tests conducted by both the Bureau of Environmental Protection of Jiangxi Province and Bureau of Environmental Protection of Yifeng County respectively.

Waste water on-line detection system has been installed and monitored the pollution level of waste water automatically.

Emergency Procedures: Overtopping of tailings storage facility and dam breaking are two exceptional environmental incidents that may incur in our operation.

The Group has implemented efficient emergency procedures in case of occurrence of the aforesaid events, including rescue responses, reporting procedures, relevant staff arrangement, provision of specific rescue materials, communications and transportation as well as contractual rescue plan with the nearby hospitals.

Climate Change

Climate change constitutes an important part of our sustainability. Climate change risks have formed part of our strategic thinking and investment decisions such as implementation a series of controls to manage the threat of extreme weather, emergency response plans and flood management plans. These controls keep our people safe and help our operations return to normal capacity as quickly as possible.

A changing climate may affect the Group in a variety of ways, both directly and indirectly. Extreme weather events and longer-term shifts in climate patterns have the potential to:

- Damage fixed assets and mobile equipment.
- Affect the ongoing performance of facilities that have long life spans, such as tailing dams, water and waste rock storage facilities.
- Lead to changes in output.
- Disrupt supply chains.
- Cause shifting patterns in demand for products.

To effectively respond to the impact of climate change, the Group plans to take the following actions to manage them:

- Perform a diagnostic of climate change's effects on the business to understand which assets to protect from physical climate change and which stand to gain or lose from decarbonization.
- Identify and shift to renewables, which can lower the mine's electricity costs and reduce volatility.
- Introduce "climate intelligence" to decision-making processes, such as capital allocation.

Environmental, Social and Governance Report

SOCIAL AND CULTURE DEVELOPMENT

Supply chain management

The ore extracted from the Xinzhuang Mine is our principal raw material for producing our concentrate products. We do not purchase ores from third parties.

Ore processing at Xinzhuang Mine consumes many types of auxiliary materials including forged steel grinding balls, chemical products, explosives, diesel oil and other production related materials. All our explosives, machinery and equipment, spare parts and auxiliary materials are sourced from local third-party suppliers in the PRC.

We implemented “Management of suppliers and assessment policy (供應商管理和考核制度)”, to manage and assess the qualification, credit rating and quality of suppliers as well as daily maintenance measures. During 2020, there was a total of 53 (2019: 65) qualified major suppliers available for selection in the Group.

Product responsibility

We have a quality control policy in place to ensure that the quality of our concentrates meets the standard for acceptance by our customers. Our quality control department is responsible for ensuring our product quality. We closely monitor our various production processes by conducting on-site inspection and taking samples during each shift and examining them at our laboratory. Regular trainings are also provided to our employees to enhance the quality standard.

In 2020, we have not received any material complaints due to quality problems of our products.

Anti-corruption

Our Group has established “Anti-Fraud policy and procedures (反舞弊政策及程序)”. Corruption is one of the fraud that will disrupt operation of the Group and violates the laws. In 2020, we have not received any complaints in relation to corruption.

Senior management is lead by example, who complies with the policies and regulations issued by the Group.

Every employee obtains a staff handbook which includes corporate policies and regulations. In addition, the Group arranges training in respect of ethics and anti-fraud to staff, for the purpose of handling conflict or temptation of interest.

For any corruption, fraud or other unethical activities discovered, staff can report to the management by real or anonymous name.

COMMUNITY INVESTMENT

The Group encourages recreational and sport activities held by staff and takes care of the need of staff, exploring the staff talent, participating voluntary activities in the community and donations. Due to outbreak of COVID-19 in 2020, all the activities have been terminated or suspended for the social distance purpose.

In addition, the Group makes donations to community irregularly, and contributes and participates in community. During the year, the Group donated approximately RMB12,000 in respect of staff in need and approximately RMB235,000 for local charitable activities.

Directors' Report

The Directors are pleased to present this report and the audited consolidated financial statements of the Group for the year ended 31 December 2020.

1. PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The Group is principally engaged in the business of mining, ore processing and sale of the concentrates products in the PRC. A review of the business of the Company and a discussion and analysis of the Group's performance during the year ended 31 December 2020 and the material factors underlying its results and financial position are provided in the sections of "Chairman's Statement" and "Management Discussion and Analysis" respectively from pages 2 to 3 and pages 4 to 22 of this annual report. The outlook of the Company's business is discussed throughout this annual report.

An indication of likely future development in the Group's business is set out and included in the section headed "Business Review" from pages 6 to 13 and "Prospect" of "Management Discussion and Analysis", on page 22.

The Group's environmental policies and performance are set out and included in the "Environmental, Social and Governance Report" from pages 38 to 44 of this annual report and the "Environmental and Social Matters" set out in the paragraph 38 below. Compliance with relevant laws and regulations which have a significant impact on the Company is set out and included in the section headed "Compliance with the Relevant Laws and Regulations" of "Management Discussion and Analysis" on page 22 of this annual report. Particulars of important events affecting the Company that have occurred since the end of the financial year 2020, if any, can also be found in paragraph 39 below.

An account of the Company's relationships with its key stakeholders (including substantial shareholders, employees, suppliers and customers) is included in the "Investor relations and communication with Shareholders" set out in the "Corporate Governance Report", "Substantial Shareholders' and other parties' Interest in Securities" and "Emolument Policy" set out in paragraphs 24 and 19 respectively below as well as the sections headed "Employment Training and Development", "Employment and Welfare" and "Social and Culture Development" in the "Environmental, Social and Governance Report", on page 39, pages 40 to 41 and page 44 respectively of this annual report.

2. PRINCIPAL RISKS AND UNCERTAINTIES

(i) Our mining operations are concentrated at one mining site

Our operations are exposed to uncertainties in relation to the Xinzhuang Mine, which is currently our only operating mine. All of our current operating cash flows and revenue are derived from the sales of concentrates produced from this single mine. Any significant operational or other difficulties in the mining, processing, storing and transporting of our products at or from the Xinzhuang Mine could reduce, disrupt or halt our production, which would materially and adversely affect our business, results of operation and financial condition.

In order to diversify the above risk, the Group has actively conducted any possibilities in acquisition. The Group has completed the acquisition of Walege Mine in Tibet and Gold Ridge Mine in Solomon Islands in 2017 and 2020 respectively.

(ii) Accuracy of the mineral resources and reserves estimates of the Xinzhuang Mine is based on a number of assumptions and we may produce less mineral concentrates than our estimates

The mineral resources and reserves estimates of the Xinzhuang Mine are based on a number of assumptions that have been made by an independent technical expert in accordance with the JORC code. Resources and reserves estimates involve expressions of judgement based on various factors such as knowledge, experience and industry practice, number of drilling and sampling of the ore body and analysis of the ore samples etc.

Directors' Report

2. PRINCIPAL RISKS AND UNCERTAINTIES *(Continued)*

(ii) Accuracy of the mineral resources and reserves estimates of the Xin Zhuang Mine is based on a number of assumptions and we may produce less mineral concentrates than our estimates *(Continued)*

The Group has already completed additional exploration in outside the planned mining area in the Xin Zhuang Mine within the boundary covered by the current mining license and a mineral resources verification report has been finished in April 2014 and obtained registration in December 2014 for the purpose of the application of increasing the mining capacity set forth in its mining license. Additional reserves discovered during the aforesaid exploration allows us to upgrade the mining capacity.

(iii) Risks of safety production

Although the Group maintains a high standard in safety production, the non-ferrous metal mining is still a hazardous industry and faces uncertainties caused by production environment, natural disaster and so on. Safety production is the top priority of the Group to achieve sustainable and stable development.

We have implemented and enforced a number of measures to ensure compliance of the regulatory requirements and our production safety and environmental protection. Please refer to the section headed "Health and Safety" of the "Environmental, Social and Governance Report" for details.

(iv) Fluctuations in the commodity markets

Our profit is mainly generated from sales of concentrates we produce. The price we obtain for our concentrates is determined by the amount of copper, iron, zinc and other metals contained in the concentrates and the market prices for these metals. The market price of these metals has fluctuated widely and has experienced periods of significant decline. We have limited ability to anticipate and manage commodity price fluctuations.

The Group has considered the use of hedging products available in the market to reduce the effect of such fluctuations. In addition, expansion of lead-silver mine in the Walege Mine and gold mine in Solomon Islands will further increase our product mix and thus strengthen the Group's capacity to fight against market fluctuations.

3. RESULTS AND FINANCIAL POSITION

The Group's results for the year are set out in the consolidated statement of profit or loss and other comprehensive income on page 62.

The state of affairs of the Group and of the Company at 31 December 2020 are set out in the consolidated statement of financial position on pages 63 to 64 and statement of financial position of the Company on page 133 respectively.

4. SHARE CAPITAL

Details of movements in the share capital of the Company during the year are set out in Note 34 to the consolidated financial statements.

5. SUBSIDIARIES

Particulars of the Company's subsidiaries are set out in Note 43 to the consolidated financial statements.

6. SUMMARY OF FINANCIAL INFORMATION

A summary of financial results and of the assets and liabilities of the Group for the last five financial years are set out in the section headed "Summary of Financial Information" on page 135 in this report.

Directors' Report

7. RESERVES

The movements in the reserves of the Group during the year are set out in the consolidated statement of profit or loss and other comprehensive income and consolidated statement of changes in equity. The movements in the reserves of the Company during the year are set out in Note 45 to the consolidated financial statements.

8. DISTRIBUTABLE RESERVES

At 31 December 2020, the Company's reserves available for distribution to owners of the Company comprising share premium account less accumulated losses, and amounted to approximately RMB177.2 million (2019: RMB169.4 million).

9. FINAL DIVIDENDS

The Board recommended the payment of a final dividend of RMB2.98 cents (equivalent to approximately HK\$3.54 cents) per Share for the year ended 31 December 2020 (2019: Nil), representing approximately 26.7% of the profit and total comprehensive income attributable to owners of the Company, payable to the Shareholders whose names appear on the register of members of the Company on Tuesday, 22 June 2021. Based on the number of issued Shares as at the date of this annual report, this represents a total distribution of approximately RMB24.7 million. Subject to the approval of the payment of the final dividend by the Shareholders at the annual general meeting to be held on Friday, 11 June 2021, it is expected that the proposed final dividend will be paid on or before Friday, 30 July 2021.

10. PROPERTY, PLANT, AND EQUIPMENT

Additions to the property, plant and equipment of the Group was approximately RMB36.5 million for the year ended 31 December 2020. Details of the movements during the year in the Group's property, plant and equipment are set out in Note 15 to the consolidated financial statements in this annual report.

11. DONATIONS

Donations made by the Group during the year amounted to approximately RMB235,000.

12. MAJOR CUSTOMERS AND SUPPLIERS

During the year, sales to the Group's five largest customers in aggregate accounted for approximately 76.3% (2019: 60.1%) of the total sales for the year and sales to the largest customer accounted for approximately 37.9% (2019: 15.9%) of total sales.

Purchases from the Group's five largest suppliers in aggregate accounted for approximately 88.2% (2019: 82.5%) of the total purchases for the year and purchases from the largest supplier accounted for approximately 70.1% (2019: 35.7%) of total purchases.

None of the Directors, their close associates (as defined in the Listing Rules) or any shareholders of the Company (which, to the best knowledge of the Directors, own more than 5% of the Company's issued share capital) had directly, or indirectly had any interest in the Group's five largest customers and suppliers during the year.

13. MANAGEMENT CONTRACTS

Other than the service contracts of the Directors, the Company has not entered into any contract with any individuals, firms or corporate entities to manage or regulate the whole or any substantial part of any business of the Company.

Directors' Report

14. DIRECTORS

The Directors during the year and up to the date of this annual report were as follows:

Executive Directors:

Mr. Gao Mingqing (*Chairman and Chief Executive Officer*)

Ms. Gao Jinzhu

Mr. Xie Yaolin

Mr. Liu Zhichun

Non-executive Directors:

Mr. Li Kwok Ping

Mr. Lee Hung Yuen

Ms. Iu Ching (resigned on 21 January 2020)

Independent non-executive Directors:

Dr. Lu Jian Zhong

Mr. Qi Yang

Mr. Shen Peng

Mr. Wang Xin (appointed on 2 January 2020)

In accordance with article 87 of the Articles, all Directors are subject to retirement by rotation at least once every three years. Mr. Liu Zhichun, Mr. Li Kwok Ping, Mr. Shen Peng and Mr. Qi Yang will retire by rotation at the forthcoming AGM, and being eligible, offer themselves for re-election.

15. BIOGRAPHY OF THE DIRECTORS AND SENIOR MANAGEMENT

Biographical information of the Directors and senior management of the Group are set out on pages 23 to 25 of this annual report.

16. DISCLOSURE OF INFORMATION OF DIRECTORS PURSUANT TO RULE 13.51B(1) OF THE LISTING RULES

Changes of Director's information have been properly disclosed in "Biographical information of the Directors and senior management" which set out on pages 23 to 25 of this annual report pursuant to the Rule 13.51B(1) of the Listing Rules.

Save as disclosed in this annual report, there are no other changes to the Directors' information as required to be disclosed pursuant to Rule 13.51B(1) of the Listing Rules.

Directors' Report

17. DIRECTORS' SERVICE AGREEMENTS AND LETTER OF APPOINTMENT

Each of the Directors has entered into a service agreement or letter of appointment with the Company for a term of three years which is renewable for subsequent periods of three years, unless terminated by at least three month's written notice served by either party at any time during the then existing term.

None of the Directors, including those proposed for re-election at the forthcoming AGM, has a service agreement which is not determinable by the Company within one year without payment of compensation (other than statutory compensation).

18. PERMITTED INDEMNITY PROVISION

The Company has arranged for an appropriate insurance cover for Directors' and officers' liabilities in respect of legal actions against its Directors and senior management arising out of corporate activities. The permitted indemnity provision is in force for the benefit of the Directors as required by section 470 of the Companies Ordinance when this Directors' Report is approved in accordance with section 391(1)(a) of the Companies Ordinance.

19. EMOLUMENT POLICY

The emolument policy of the employees of the Group is set up by the Board on the basis of their experience, qualifications and competence.

The emoluments of the Directors are reviewed by the Remuneration Committee and approved by the Board, having regard to the relevant Director's experience, responsibility, workload and the time devoted to the Group; the Company's operating results and comparable market statistics.

The Company has adopted a share option scheme (the "Scheme") on 12 June 2012 to which the Directors and eligible employees, among others are entitled to participate in. The Company operates the Scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Details of the Scheme are set out in paragraph 36 below.

20. REMUNERATION OF DIRECTORS AND FIVE HIGHEST PAID INDIVIDUALS

Details of the emoluments of the Directors and the five highest paid individuals in the Group are set out in Note 11 and 12 to the consolidated financial statements.

21. INDEPENDENCE OF THE INDEPENDENT NON-EXECUTIVE DIRECTORS

Each of the independent non-executive Directors has presented an annual confirmation letter to confirm his independence pursuant to Rule 3.13 of the Listing Rules. The Company has reviewed the independence of each of the independent non-executive Directors and considers all the independent non-executive Directors to be independent in accordance.

22. CODE OF CONDUCT REGARDING SECURITIES TRANSACTIONS

The Company has adopted the code of conduct for securities transactions by the Directors on terms no less exacting than the required standard of dealings as set out on the Model Code. The Company, having made specific enquiries to all Directors, has confirmed that all the Directors have complied with the Model Code and the required standards of dealings as set out in the code of conduct for the year ended 31 December 2020 and up to the date of this annual report.

The Company has also established the Employees Written Guidelines for securities transactions by relevant employees who are likely to possess inside information of the Company. No incident of non-compliance of the Employees Written Guidelines by the relevant employees was noted by the Company for the year ended 31 December 2020.

Directors' Report

23. DIRECTORS' AND CHIEF EXECUTIVES' INTERESTS IN SECURITIES

As at 31 December 2020, the interests or short positions of our Directors and chief executives in the shares, underlying shares or debentures of our Company and our associated corporations (within the meaning of Part XV of the SFO as notified to our Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests and short positions which they are taken or deemed to have under such provisions of the SFO) or as recorded, pursuant to section 352 of the SFO, in the register referred to therein or which were required to be notified to our Company and the Stock Exchange pursuant to the Model Code contained in the Listing Rules, were as follows:

(a) Long positions in Shares

<u>Name of Directors</u>	<u>Capacity/nature of interest</u>	<u>Number of issued Shares held</u>	<u>Approximate percentage of shareholding in the Company</u>
Mr. Gao Mingqing	Interest in controlled corporation	281,400,000 ⁽¹⁾	39.08%
Ms. Gao Jinzhu	Interest in controlled corporation	138,600,000 ⁽²⁾	19.25%

Notes:

1. The 281,400,000 Shares were owned by Victor Soar Investments Limited which is wholly owned and controlled by Mr. Gao Mingqing.
2. The 138,600,000 Shares were owned by Achieve Ample Investments Limited which is wholly owned and controlled by Ms. Gao Jinzhu.

Save as disclosed above, as at 31 December 2020, so far as is known to any Directors or chief executives of the Company, none of the Directors or chief executives of the Company had any interests or short positions in the shares, underlying shares and debentures of the Company or its associated corporations (within the meaning of Part XV of the SFO) which (a) were required to be notified to the Company and the Hong Kong Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests and short positions which they were taken or deemed to have under such provisions of the SFO) or (b) were required, pursuant to section 352 of the SFO, to be entered in the register referred to therein or (c) were required, pursuant to the Model Code, to be notified to the Company and the Stock Exchange.

Directors' Report

24. SUBSTANTIAL SHAREHOLDERS' AND OTHER PARTIES' INTERESTS IN SECURITIES

As at 31 December 2020, the following persons, other than the Directors and chief executives of the Company, had or were deemed or taken to have an interest and/or short position in the shares or the underlying shares which would fall to be disclosed under the provisions of Division 2 and 3 of Part XV of the SFO as recorded in the register required to be kept by the Company under section 336 of the SFO, or who was, directly or indirectly, interested in 5% or more of the issued share capital of the Company.

Long positions in Shares

Name of shareholders	Capacity/nature of interest	Number of issued Shares held	Approximate percentage of shareholding in the Company
Victor Soar Investments Limited	Beneficial owner	281,400,000 ⁽¹⁾	39.08%
Ms. Lin Yinyin	Interest of spouse	281,400,000 ⁽²⁾	39.08%
Achieve Ample Investments Limited	Beneficial owner	138,600,000 ⁽³⁾	19.25%
Mr. Wang Weimian	Interest of spouse	138,600,000 ⁽⁴⁾	19.25%
Cheng Tun Prime Shine Limited	Beneficial owner	111,510,000 ⁽⁵⁾	15.49%
Shenzhen Chengtun Equity Investments Company Limited	Interest in controlled corporation	111,510,000 ⁽⁵⁾	15.49%
Haitong International Financial Solutions Limited	Security interest	450,000,000 ⁽⁶⁾	62.50%
Haitong International Securities Group Limited	Interest in controlled corporation	450,000,000 ⁽⁶⁾	62.50%
Haitong International Holdings Limited	Interest in controlled corporation	450,000,000 ⁽⁶⁾	62.50%
Haitong Securities Co., Ltd.	Interest in controlled corporation	450,000,000 ⁽⁶⁾	62.50%

Notes:

- Victor Soar Investments Limited is wholly owned and controlled by Mr. Gao Mingqing.
- Ms. Lin Yinyin is the wife of Mr. Gao Mingqing and is deemed to be interested in the 281,400,000 Shares held by Victor Soar Investments Limited, a company controlled by Mr. Gao Mingqing.
- Achieve Ample Investments Limited is wholly owned and controlled by Ms. Gao Jinzhu.
- Mr. Wang Weimian is the husband of Ms. Gao Jinzhu and is deemed to be interested in the 138,600,000 Shares held by Achieve Ample Investments Limited, a company controlled by Ms. Gao Jinzhu.
- Cheng Tun Prime Shine Limited is a wholly-owned subsidiary of Shenzhen Chengtun Equity Investments Company Limited (深圳盛屯股權投資有限公司), which in turn is wholly-owned by Chengtun Mining Group Co., Ltd., a company listed on Shanghai Stock Exchange with stock code: 600711.
- Haitong International Financial Solutions Limited is indirectly owned by Haitong International Securities Group Limited which in turn is owned as to 62.43% by Haitong International Holdings Limited and is ultimately owned Haitong Securities Co., Ltd.

Other than as disclosed above, as at 31 December 2020, the Company has not been notified by any person (other than the Directors or chief executive of the Company) who had interests or short position in the shares or underlying shares of the Company as recorded in the register required to be kept pursuant to Section 336 of the SFO.

Directors' Report

25. DIRECTORS' INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS

Save as disclosed in paragraph 27 below, no Director nor any connected entity of the Director had a material interest, either directly or indirectly, in any transactions, arrangements or contract of significance to the business of the Group to which a controlling shareholder of the Company, the Company or any of its subsidiaries or fellow subsidiaries was a party at the end of the year or at any time during the year ended 31 December 2020.

26. CONTRACTS OF SIGNIFICANCE

Save as disclosed in this annual report, no contract of significance in relation to the Group's business in which the Company, or any of its subsidiaries or fellow subsidiaries or a controlling shareholder of the Company was a party, and in which a Director had a material interest, whether directly or indirectly, subsisted at the end of the financial year 2020 or at any time during the financial year 2020.

27. CONNECTED TRANSACTION

Except for those disclosed in note 29 to the consolidated financial statements, no contract of significance to which the Company, or any of its subsidiaries, and a controlling shareholder or any subsidiaries was a party at the end of the year or at any time during the year ended 31 December 2020.

28. DIRECTORS' RIGHTS TO ACQUIRE SHARES AND DEBENTURES OF THE COMPANY

Save as disclosed in paragraph 23 above, at no time during the year ended 31 December 2020 was the Company, or its subsidiaries, or its fellow subsidiaries a party to any arrangements to enable the Directors to acquire benefits by means of acquisition of shares in, or debentures of the Company or any other body corporate.

29. SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and to the best knowledge information and belief of the Directors, the Directors confirm that the Company has maintained a sufficient public float under the Listing Rules throughout the year ended 31 December 2020.

30. COMPETING INTERESTS

The Directors are not aware of any business or interest of the Directors, the controlling shareholders and their respective associates (as defined under the Listing Rules) that compete or may compete with the business of the Group and any other conflict of interest which any such person has or may have with the Group for the year ended 31 December 2020.

As disclosed in the Prospectus, each of our controlling shareholders has entered into the deed of non-competition in favour of our Company to the effect that each of them will not, and will procure each of their respective associates not to, directly or indirectly participate in, or hold any right or interest, or otherwise be involved in any business which may be in competition with our businesses.

The independent non-executive Directors have reviewed the status of compliance and are of the view that each of the controlling shareholders of the Company has complied with its undertaking under the deed of non-competition for the year ended 31 December 2020.

31. RELATED PARTY TRANSACTIONS

During the year, except for those disclosed in note 39 to the consolidated financial statements, the Group had no transactions with its related parties.

Directors' Report

32. PURCHASE, SALE OR REDEMPTION OF THE LISTED SECURITIES OF THE COMPANY

For the year ended 31 December 2020, neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities.

33. BANK BORROWINGS

Particulars of bank borrowings of the Group as at 31 December 2020 are set out in note 31 to the consolidated financial statements.

34. RETIREMENT BENEFIT SCHEMES

Particulars of the retirement benefit schemes of the Group are set out in note 38 to the consolidated financial statements.

35. PRE-EMPTIVE RIGHTS

There is no provision for pre-emptive rights under the Company's articles of association or the laws of Cayman Islands which oblige the Company to offer new shares on a pro-rata basis to its existing shareholders.

36. SHARE OPTION SCHEME

The Company adopted a share option scheme (the "Share Option Scheme") on 12 June 2012.

(i) Purpose of the Share Option Scheme

The purpose of the Share Option Scheme is to provide an incentive for Eligible Participants (defined below) to work with commitment towards enhancing the value of our Company and the Shares for the benefit of our Shareholders and to retain and attract calibres and working partners whose contributions are or may be beneficial to the growth and development of our Group.

(ii) Participants of the Share Option Scheme and the basis of determining the eligibility of the participants

The Board may at its discretion grant options to any full-time or part-time employees, potential employees, consultants, executives or officers (including executive, non-executive and independent non-executive Directors) of our Company or any of its subsidiaries and any suppliers, customers, consultants, agents and advisers who, in the sole opinion of the Board has contributed or will contribute to our Group (collectively "Eligible Participants").

(iii) Maximum number of Shares

The maximum number of Shares in respect of which options may be granted under the Share Option Scheme shall not in aggregate exceed the number of Shares that shall represent 10% of the total number of Shares in issue as of the Listing Date (i.e. 10 July 2012), which is 60,000,000 Shares, being approximately 7.25% of the issued share capital of the Company as at the date of this annual report. The limit may be refreshed at any time provided that the new limit must not be in aggregate exceed 10% of the issued share capital of the Company as at the date of the Shareholders' approval in general meeting.

However, the total number of Shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other scheme of the Company must not in aggregate exceed 30% of the shares in issue from time to time.

(iv) Maximum entitlement of each participant

Unless approved by our Shareholders in general meeting in the manner prescribed in the Listing Rules, the Board shall not grant options to any participant if the acceptance of those options would result in the total number of Shares issued and to be issued to that participant on exercise of his options during any 12-month period exceeding 1% of the total Shares then in issue.

Directors' Report

36. SHARE OPTION SCHEME *(Continued)*

(v) Offer period and amount payable for options

The offer shall remain open for acceptance for a period of 14 business days from the date on which it is made provided that no such offer shall be open for acceptance after the expiry of the Scheme Period (as defined below) or after the termination of the Share Option Scheme. Unless otherwise determined by the Board and stated in the Offer Letter, there shall be no general performance target for the vesting or exercise of options.

An option shall be deemed to have been granted to (subject to certain restrictions in the Share Option Scheme), and accepted by, the Eligible Participant (the “**Grantee**”) and to have taken effect upon the issue of an option certificate after the duplicate offer letter comprising acceptance of the option duly signed by the Grantee together with a remittance in favor of our Company of HK\$1.00 by way of consideration for the grant of the option shall have been received by our Company on or before the last day for acceptance set out above.

(vi) Minimum period for which an option must be held before it can be exercised

Options may be exercised at any time from the date of grant of the option in the following manner:

- i. up to 25% of the option granted from the first anniversary of date of grant of the option
- ii. up to 50% of the option granted from the second anniversary date of grant of the option
- iii. up to 75% of the option granted from the third anniversary date of grant of the option
- iv. up to 100% of the option granted from the fourth anniversary date of grant of the option

(vii) Basis of determining the exercise price

The exercise price is determined by the Directors, and will not be less than the highest of (i) the closing price per share as stated in the Stock Exchange's daily quotations sheets on the date of the grant of the options; (ii) the average closing price per share as stated in the Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of the grant of the options; or (iii) the nominal value of a share.

(viii) Remaining Life of the Share Option Scheme

The Share Option Scheme shall be valid and effective for 10 years from the Listing Date i.e. 10 July 2012 (the “**Scheme Period**”), after which time no further option will be granted but the provisions of the Share Option Scheme shall remain in full force and effect in all other respects.

During the year ended 31 December 2020, no share options was granted, exercised, expired or lapsed and there is no outstanding share options under the Share Option Scheme.

37. CORPORATE GOVERNANCE

The Company has complied with all code provisions stipulated in the CG Code set out in Appendix 14 to the Listing Rules for the year ended 31 December 2020 except for the deviation from code provisions A.2.1 and A.2.7 of the CG Code.

A report on the corporate governance practice adopted by the Group is set out in pages 26 and 37 of this annual report.

Directors' Report

38. ENVIRONMENTAL AND SOCIAL MATTERS

As a mining industry is relatively high-demand in safe, our objective is to create a workplace without fatalities, injuries or occupational diseases. Our policies and procedures support our practice and we meet or exceed applicable laws and regulations in PRC such as Environmental Protection Laws of PRC (中華人民共和國環境保護法) and Provisions on the Protection of the Geologic Environment of Mines (礦山地質環境保護規定), Production Safety Law of the PRC (中華人民共和國安全生產法) and Law of the PRC on Safety in Mines (中華人民共和國礦山安全法) etc. We have implemented and enforced a number of measures to ensure compliance of the regulatory requirements and our production safety and environmental protection. During the year ended 31 December 2020, there were no work-related fatalities. Lost days due to work injury were 596 days.

We also implemented policies or procedures for our key stakeholders, such as employees, customers and suppliers. Details are as following: Regular and irregular trainings are provided to every staff in different levels for their personal development as well as health and safety awareness. We implemented policy to manage, assess and maintain the relationship with key our auxiliary materials suppliers to avoid any interruption during our production process. We have a quality control policy in place to ensure that the quality of our concentrates meets the standard for acceptance by our customers. We did not receive any material complaints due to quality problems of our products during the year.

For detailed information, please refer to the Environmental, Social and Governance Report set out from pages 38 to 44 of this annual report.

39. EVENTS AFTER THE REPORTING PERIOD

On 29 December 2020, the Company entered into the Subscription Agreement with Shandong Humon Smelting Co., Ltd. (山東恒邦冶煉股份有限公司) (“**Subscriber**”), a company listed on the Shenzhen Stock Exchange (stock code: 002237), and is principally engaged in gold and silver smelting, production and sales of electrolytic copper, cathode copper, lead ingots, nonferrous metals, rare and precious metals and their products. Pursuant to the Subscription Agreement, the Subscriber agreed to subscribe for 108,000,000 new Shares at the subscription price of HK\$2.18 per subscription share (“**Subscription**”).

Subsequent to the reporting period, on 26 January 2021, the Company, the Subscriber and Humon Mining, an indirectly whollyowned subsidiary of the Subscriber, entered into a supplementary agreement, pursuant to which the Subscriber assigned its rights and obligations under the Subscription Agreement to Humon Mining.

On 2 March 2021, the Subscription was completed and 108,000,000 new Shares has been allotted and issued to Humon Mining under the general mandate granted to the Directors at the annual general meeting of the Company held on 26 June 2020.

Save as disclosed above, the Group did not have any significant events after the reporting period.

40. AUDITOR

A resolution to re-appoint the retiring auditor Crowe (HK) CPA Limited, will be proposed at the forthcoming annual general meeting.

On behalf of the Board

Gao Mingqing

Chairman

Hong Kong, 31 March 2021

Independent Auditor's Report

國富浩華(香港)會計師事務所有限公司
Crowe (HK) CPA Limited
9/F Leighton Centre,
77 Leighton Road,
Causeway Bay, Hong Kong

TO THE SHAREHOLDERS OF WANGUO INTERNATIONAL MINING GROUP LIMITED

(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Wanguo International Mining Group Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 62 to 134, which comprise the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

We draw attention to note 1 to the consolidated financial statements, which indicates that as at 31 December 2020 the Group’s current liabilities exceeded its current assets by approximately RMB206,259,000 and the Group had capital commitments contracted for but not provided in the consolidated financial statements of approximately RMB77,899,000, of which approximately RMB55,789,000 is due for payments in the next twelve months from the end of the reporting period. These events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Group’s ability to continue as a going concern. Our opinion is not modified in respect of this matter.

KEY AUDIT MATTERS

Key audit matters are the matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. The matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters below to be the key audit matters to be communicated in our report:

Independent Auditor's Report

KEY AUDIT MATTERS *(Continued)*

Key audit matter

Impairment assessment of mining assets of the Yifeng Projects

Refer to note 17 to the consolidated financial statements

We identified the impairment assessment of the mining assets comprising principally property, plant and equipment, mining right, right-of-use assets and intangible assets in relation to the mining projects in Yifeng, Jiangxi Province, the People's Republic of China (the "PRC") ("Yifeng Projects"), as a key audit matter due to the significant degree of judgement and high estimation uncertainty involved in determining the key inputs and assumptions, described below, required for the value-in-use valuation model.

As set out in note 4 to the consolidated financial statements, the aggregate carrying value of the mining assets of the Yifeng Projects was approximately RMB489,562,000 as at 31 December 2020. Management's assessment of the recoverable amount of these assets as a single cash generating unit based on its value-in-use requires determination of inputs of key parameters including the forecasted selling prices of metallic concentrates, future revenue which are dependent on future metal prices, growth rate and discount rate of Yifeng Projects in its value in use calculation using the discounted cash flow model. Based on management's assessment, there is no impairment of the relevant mining assets for the year ended 31 December 2020.

How our audit addressed the key audit matter

Our procedures in relation to impairment assessment of the mining assets of the Yifeng Projects included:

- Evaluating the reasonableness of the management's estimates of future revenue expected to arise from the Yifeng Projects with reference to the historical performance, estimated future metal prices, latest budgets of the Group approved by the management and our understanding of the economic outlook of the mining industry.
- Evaluating if management's estimates of future production volume are consistent with the reserve reports of external specialists.
- Evaluating the reasonableness of the discount rate applied in the impairment assessment model with reference to the market data derived externally, including the current market risk-free rate of interest and the entity-specific risk factor.
- Evaluating the accuracy of management's projection of future cash flow underlying the impairment assessment by comparing the historical estimate to the actual performance during the year.

Independent Auditor's Report

KEY AUDIT MATTERS (Continued)

Key audit matter

Impairment assessment of exploration and evaluation assets and other intangible asset of Xizang Changdu

Refer to notes 18 and 19 to the consolidated financial statements

We identified the impairment assessment of the exploration and evaluation assets and other intangible asset in relation to the lead mine in Walege of the Changdu County, Tibet Autonomous Region, the PRC, owned by the subsidiary, Xizang Changdu County Dadi Mining Company Limited (“Xizang Changdu”), as a key audit matter due to the significant degrees of judgement involved in determining future revenue which is dependent on future metal prices and production plan and a discount rate applied in the impairment assessment model.

As set out in note 4 to the consolidated financial statements, the aggregate carrying value of the exploration and evaluation assets and other intangible asset of the Xizang Changdu were approximately RMB190,824,000 and RMB319,288,000 respectively as at 31 December 2020. Management's assessment of the recoverable amount of these assets as a single cash generating unit (“CGU”) also involved the appointment of an independent valuer to estimate the recoverable amounts of the CGU, which requires input of key parameters including the forecasted selling prices of metallic concentrates, growth rate and discount rate of Xizang Changdu in its fair value less cost of disposal using the discounted cash flow model. Based on management's assessment, there is no impairment of the exploration and evaluation assets and other intangible asset for the year ended 31 December 2020.

How our audit addressed the key audit matter

Our procedures in relation to impairment assessment of the exploration and evaluation assets and other intangible asset included:

- Evaluating the independent valuer's competence, capabilities and objectivity.
- Evaluating the reasonableness of the management's estimate of future revenue expected to arise from the Xizang Changdu with reference to feasibility studies performed by external specialists, estimated future metal prices, latest budgets of the Group approved by the management and our understanding of the economic outlook of the mining industry.
- Evaluating if management's estimate of future production volume is consistent with the reserve reports of external specialists.
- Evaluating the reasonableness of the discount rate applied in the impairment assessment model with reference to the market data derived externally, including the current market risk-free rate of interest and the entity-specific risk factor.
- Engaging an independent external expert to assist us in assessing the valuer's work.

Independent Auditor's Report

KEY AUDIT MATTERS *(Continued)*

Key audit matter

Impairment assessment of mining rights and property, plant and equipment of Gold Ridge Project

Refer to note 17 to the consolidated financial statements

We identified the impairment assessment of the mining rights in relation to the mining projects in relation to a gold resource project located at Guadalcanal Province of the Solomon Islands (“Gold Ridge Project”), owned by the subsidiary, Gold Ridge Mining Limited, as a key audit matter due to the significant degree of judgement and high estimation uncertainty involved in determining the key inputs and assumptions, described below, required for the impairment assessment model.

As set out in note 4 to the consolidated financial statements, the carrying value of the mining rights and property, plant and equipment of the Gold Ridge Project was approximately RMB282,633,000 and RMB42,605,000 respectively as at 31 December 2020. Management’s assessment of the recoverable amount of these assets as a single CGU also involved the appointment of an independent valuer to estimate the recoverable amounts of the CGU, which requires input of key parameters including the forecasted gold prices, forecasted mining costs, growth rate and discount rate of the Gold Ridge Project in the estimation of the fair value less cost of disposal using the discounted cash flow model. Based on management’s assessment, there is no impairment of the mining rights and property, plant and equipment for the year ended 31 December 2020.

How our audit addressed the key audit matter

Our procedures in relation to impairment assessment of the mining rights included:

- Evaluating the independent valuer’s competence, capabilities and objectivity.
- Evaluating the reasonableness of the management’s estimate of future revenue expected to arise from the Gold Ridge Project with reference to feasibility studies performed by external specialists, estimated future gold prices, latest budgets of the Group approved by the management and our understanding of the economic outlook of the mining industry.
- Evaluating if management’s estimate of future production volume is consistent with the reserve reports of external specialists.
- Evaluating the reasonableness of the discount rate applied in the impairment assessment model with reference to the market data derived externally, including the current market risk-free rate of interest and the entity-specific risk factor.
- Engaging an independent external expert to assist us in assessing the valuer’s work.

Independent Auditor's Report

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Board of Directors of the Company is charged with governance and is responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes:

- The capital reserve mainly represents contributions from an equity participant in 2011, which is an amount originally due to an equity participation being released and accounted for as a shareholder's contribution, in accordance with a deed of assignment signed in December 2011.
- The statutory reserve represents the appropriation of 10% of profit after taxation determined based on the relevant accounting rules and regulations of the People's Republic of China (the "PRC") in accordance with the relevant PRC laws until the PRC statutory reserve reaches 50% of the registered capital of the relevant subsidiaries. The statutory reserve can be applied either to set off accumulated losses or to increase capital.

The surplus reserve represents further appropriation out of the retained profits of the subsidiaries established in the PRC for any amount approved by its board of directors after the appropriation to the statutory reserve.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

1. GENERAL INFORMATION AND BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

The Company is a public limited company incorporated in the Cayman Islands and its shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information section of the annual report.

The principal activity of the Company is investment holding. A principal subsidiary of the Company, Jiangxi Province Yifeng Wanguo Mining Company Ltd (“Yifeng Wanguo”), located in Jiangxi Province, the PRC, is engaged in mining and processing of ores and sales of processed concentrates in the PRC. Details of the Company’s subsidiaries are set out in note 43.

The consolidated financial statements are presented in Renminbi (“RMB”), which is also the functional currency of the Company and its subsidiaries.

In preparing the consolidated financial statements, the directors of the Company have given careful consideration to the future liquidity of the Company and its subsidiaries (the “Group”) in light of the fact that as at 31 December 2020, the Group’s current liabilities exceeded its current assets by approximately RMB206,259,000; and had capital commitments contracted for but not provided in the consolidated financial statements of approximately RMB77,899,000, of which approximately RMB55,789,000 is due for payment in the next twelve months from the end of the reporting period.

The events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Group’s ability to continue as a going concern.

The directors of the Company have performed an assessment of the Group’s future liquidity and cash flows, taking into account the following relevant matters:

- (i) Mr. Gao Mingqing, substantial shareholder and executive director of the Company, had committed to further support the Group financially to enable it to meet its financial obligations as they fall due for the foreseeable future.
- (ii) On 1 March 2021, the Company has received consideration of HKD235,440,000 (equivalent to approximately RMB196,550,000) from the subscriber of the issuance and allotment of subscription shares by the Company under the general mandate, pursuant to the Company’s fulfillment of conditions of the Subscription Agreement dated 29 December 2020.
- (iii) Bank borrowings of approximately RMB62,207,000 will be due in 2021 or contain a repayment on demand clause and the directors are confident that the Group is able to extend approximately RMB56,000,000 of the bank borrowings in full upon their maturity, and the banks will not demand for early repayment with regard to approximately RMB3,207,000 of bank borrowings containing a repayment on demand clause, based on the past history of renewals and good relationship of the Group with the banks.
- (iv) Amounts due to related parties of approximately RMB29,148,000 as at 31 December 2020 are repayable on demand. Since the related parties are substantial shareholders of the Company or controlled by the substantial shareholders of the Company, the directors of the Company are confident that the related parties will not demand for repayment until the Group has improved its liquidity position.

The directors of the Company consider that after taking into account the abovementioned financing events and plans and financial supports of the substantial shareholders, the Group will have sufficient working capital to satisfy its present requirements for at least the next twelve months from the end of the reporting period. Accordingly, the consolidated financial statements have been prepared on a going concern basis.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

Amendments to HKFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the *Amendments to References to the Conceptual Framework in HKFRS Standards* and the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time, which are mandatorily effective for the annual period beginning on or after 1 January 2020 for the preparation of the consolidated financial statements:

Amendments to HKAS 1 and HKAS 8	Definition of Material
Amendments to HKFRS 3	Definition of a Business
Amendments to HKFRS 9, HKAS 39 and HKFRS 7	Interest Rate Benchmark Reform

In addition, the Group has early applied the Amendment to HKFRS 16 Covid-19-Related Rent Concessions.

Except as described below, the application of the *Amendments to References to the Conceptual Framework in HKFRS Standards* and the amendments to HKFRSs in the current year had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

2.1 Impacts on application of Amendments to HKAS 1 and HKAS 8 Definition of Material

The Group has applied the Amendments to HKAS 1 and HKAS 8 for the first time in the current year. The amendments provide a new definition of material that states “information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.” The amendments also clarify that materiality depends on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements taken as a whole.

The application of the amendments in the current year had no impact on the consolidated financial statements.

2.2 Impacts on application of Amendments to HKFRS 3 Definition of a Business

The Group has applied the amendments for the first time in the current year. The amendments clarify that while businesses usually have outputs, outputs are not required for an integrated set of activities and assets to qualify as a business. To be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs.

The amendments remove the assessment of whether market participants are capable of replacing any missing inputs or processes and continuing to produce outputs. The amendments also introduce additional guidance that helps to determine whether a substantive process has been acquired.

In addition, the amendments introduce an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business. Under the optional concentration test, the acquired set of activities and assets is not a business if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar assets. The gross assets under assessment exclude cash and cash equivalents, deferred tax assets, and goodwill resulting from the effects of deferred tax liabilities. The election on whether to apply the optional concentration test is available on transaction-by-transaction basis.

The Group has elected to apply the optional concentration test on the acquisition of AXF Gold Ridge Pty Ltd as detailed in Note 35 and concluded that such acquisition does not constitute a business.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) *(Continued)*

2.3 Impacts on application of Amendments to HKFRS 9, HKAS 39 and HKFRS 7 Interest Rate Benchmark Reform

The Group has applied the amendments for the first time in the current year. The amendments modify specific hedge accounting requirements to allow hedge accounting to continue for affected hedges during the period of uncertainty before the hedged items or hedging instruments affected by the current interest rate benchmarks are amended as a result of the on-going interest rate benchmark reform. The amendments are relevant to the Group given that it applies hedge accounting to its benchmark interest rate exposures.

The amendments had no impact on the consolidated financial statements of the Group.

2.4 Impacts on early application of Amendment to HKFRS 16 Covid-19-Related Rent Concessions

The Group has applied the amendment for the first time in the current year. The amendment introduces a new practical expedient for lessees to elect not to assess whether a Covid-19-related rent concession is a lease modification. The practical expedient only applies to rent concessions occurring as a direct consequence of the Covid-19 that meets all of the following conditions:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2021; and
- there is no substantive change to other terms and conditions of the lease.

A lessee applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 Leases if the changes were not a lease modification. Forgiveness or waiver of lease payments are accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amounts forgiven or waived with a corresponding adjustment recognised in the profit or loss in the period in which the event occurs.

The application of the amendment had no impact to the opening retained profits at 1 January 2020. The Group has benefited from concession of lease payments on a lease in a leased property. The Group has derecognised the part of lease liability that has been extinguished by the forgiveness of lease payments using the discount rates originally applied to these leases respectively, resulting in a decrease in the lease liabilities of approximately RMB26,000, which has been recognised as variable lease payments in profit or loss for the current year.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

New and amendments to HKFRSs in issue but not yet effective

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

Amendments to HKFRS 3	Reference to the Conceptual Framework ²
Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16	Interest Rate Benchmark Reform – Phase 2 ⁴
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³
Amendments to HKAS 1	Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020) ¹
Amendments to HKAS 16	Property, Plant and Equipment – Proceeds before Intended Use ²
Amendments to HKAS 37	Onerous Contracts – Cost of Fulfilling a Contract ²
Amendments to HKFRSs	Annual Improvements to HKFRSs 2018-2020 ²

¹ Effective for annual periods beginning on or after 1 January 2023.

² Effective for annual periods beginning on or after 1 January 2022.

³ Effective for annual periods beginning on or after a date to be determined.

⁴ Effective for annual periods beginning on or after 1 January 2021.

Except for the new and amendments to HKFRSs mentioned below, the directors of the Company anticipate that the application of all other new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

Amendments to HKFRS 3 *Reference to the Conceptual Framework*

The amendments:

- update a reference in HKFRS 3 Business Combinations so that it refers to the *Conceptual Framework for Financial Reporting 2018* issued in June 2018 (the “Conceptual Framework”) instead of *Framework for the Preparation and Presentation of Financial Statements* (replaced by the *Conceptual Framework for Financial Reporting 2010* issued in October 2010);
- add a requirement that, for transactions and other events within the scope of HKAS 37 *Provisions, Contingent Liabilities and Contingent Assets* or HK(IFRIC)-Int 21 *Levies*, an acquirer applies HKAS 37 or HK(IFRIC)-Int 21 instead of the Conceptual Framework to identify the liabilities it has assumed in a business combination; and
- add an explicit statement that an acquirer does not recognise contingent assets acquired in a business combination.

The application of the amendments is not expected to have significant impact on the financial position and performance of the Group.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 *Interest Rate Benchmark Reform – Phase 2*

Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 *Interest Rate Benchmark Reform – Phase 2* relate to the modification of financial assets, financial liabilities and lease liabilities, specific hedge accounting requirements and disclosure requirements applying HKFRS 7 *Financial Instruments: Disclosures* to accompany the amendments regarding modifications and hedge accounting.

- **Modification of financial assets, financial liabilities and lease liabilities.** A practical expedient is introduced for modifications required by the reform (modifications required as a direct consequence of the interest rate benchmark reform and made on an economically equivalent basis). These modifications are accounted for by updating the effective interest rate. All other modifications are accounted for using the current HKFRSs requirements. A similar practical expedient is proposed for lessee accounting applying HKFRS 16;
- **Hedge accounting requirements.** Under the amendments, hedge accounting is not discontinued solely because of the interest rate benchmark reform. Hedging relationships (and related documentation) are required to be amended to reflect modifications to the hedged item, hedging instrument and hedged risk. Amended hedging relationships should meet all qualifying criteria to apply hedge accounting, including effectiveness requirements; and
- **Disclosures.** The amendments require disclosures in order to allow users to understand the nature and extent of risks arising from the interest rate benchmark reform to which the Group is exposed to and how the entity manages those risks as well as the entity’s progress in transitioning from interbank offered rates to alternative benchmark rates, and how the entity is managing this transition.

The application of the amendments is not expected to have significant impact on the financial position and performance of the Group.

Amendments to HKFRS 10 and HKAS 28 *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments to HKFRS 10 *Consolidated Financial Statements* and HKAS 28 *Investments in Associates and Joint Ventures* deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses resulting from the loss of control of a subsidiary that does not contain a business in a transaction with an associate or a joint venture that is accounted for using the equity method, are recognised in the parent’s profit or loss only to the extent of the unrelated investors’ interests in that associate or joint venture. Similarly, gains and losses resulting from the remeasurement of investments retained in any former subsidiary (that has become an associate or a joint venture that is accounted for using the equity method) to fair value are recognised in the former parent’s profit or loss only to the extent of the unrelated investors’ interests in the new associate or joint venture.

The application of the amendments is not expected to have significant impact on the financial position and performance of the Group.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

Amendments to HKAS 1 *Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020)*

The amendments provide clarification and additional guidance on the assessment of right to defer settlement for at least twelve months from reporting date for classification of liabilities as current or non-current, which:

- specify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period. Specifically, the amendments clarify that:
 - (i) the classification should not be affected by management intentions or expectations to settle the liability within 12 months; and
 - (ii) if the right is conditional on the compliance with covenants, the right exists if the conditions are met at the end of the reporting period, even if the lender does not test compliance until a later date; and
- clarify that if a liability has terms that could, at the option of the counterparty, result in its settlement by the transfer of the entity’s own equity instruments, these terms do not affect its classification as current or non-current only if the entity recognises the option separately as an equity instrument applying *HKAS 32 Financial Instruments: Presentation*.

In addition, Hong Kong Interpretation 5 was revised as a consequence of the Amendments to HKAS 1 to align the corresponding wordings with no change in conclusion.

Based on the Group’s outstanding liabilities as at 31 December 2020, and the related terms and conditions stipulated in the agreements between the Group and the relevant lenders, the application of the amendments will not result in reclassification of the Group’s liabilities as at 31 December 2020.

Amendments to HKAS 16 *Property, Plant and Equipment – Proceeds before Intended Use*

The amendments specify that the costs of any item that were produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management (such as samples produced when testing whether the relevant property, plant and equipment is functioning properly) and the proceeds from selling such items should be recognised and measured in the profit or loss in accordance with applicable standards. The cost of the items are measured in accordance with *HKAS 2 Inventories*.

The application of the amendments is not expected to have significant impact on the financial position and performance of the Group.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

Amendments to HKAS 37 Onerous Contracts – Cost of Fulfilling a Contract

The amendments specify that, when an entity assesses whether a contract is onerous in accordance with HKAS 37 *Provisions, Contingent Liabilities and Contingent Assets*, the unavoidable costs under the contract should reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it. Costs of fulfilling the contract include incremental costs and an allocation of other costs that relate directly to fulfilling contracts (for example, an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

The amendments are applicable to contracts for which the Group has not yet fulfilled all its obligations as at the date of initial application.

The application of the amendments is not expected to have significant impact on the financial position and performance of the Group.

Amendments to HKFRSs Annual Improvements to HKFRSs 2018-2020

The annual improvements make amendments to the following standards.

HKFRS 9 Financial Instruments

The amendment clarifies that for the purpose of assessing whether modification of terms of original financial liability constitutes substantial modification under the “10 per cent” test, a borrower includes only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or the lender on the other’s behalf.

HKFRS 16 Leases

The amendment to Illustrative Example 13 accompanying HKFRS 16 removes from the example the illustration of reimbursement relating to leasehold improvements by the lessor in order to remove any potential confusion.

HKAS 41 Agriculture

The amendment ensures consistency with the requirements in HKFRS 13 Fair Value Measurement by removing the requirement in paragraph 22 of HKAS 41 to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique.

The application of the amendments is not expected to have significant impact on the financial position and performance of the Group.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange (“Listing Rules”) and by the Hong Kong Companies Ordinance (“HKCO”).

The directors of the Company have, at the time of approving the consolidated financial statements, a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the consolidated financial statements.

The consolidated financial statements have been prepared on the historical cost basis at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 “Share-based Payment”, leasing transactions that are accounted for in accordance with HKFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 “Inventories” or value in use in HKAS 36 “Impairment of Assets”.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its investment with the investee; and
- has the ability to use its power to affect its returns.

The Group reassess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Basis of consolidation *(Continued)*

Consolidation of a subsidiary begins with the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Business combinations or assets acquisitions

Optional concentration test

Effective from 1 January 2020, the Group can elect to apply an optional concentration test, on a transaction-by-transaction basis, that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. The gross assets under assessment exclude cash and cash equivalents, deferred tax assets, and goodwill resulting from the effects of deferred tax liabilities. If the concentration test is met, the set of activities and assets is determined not to be a business and no further assessment is needed.

Asset acquisitions

When the Group acquires a group of assets and liabilities that do not constitute a business, the Group identifies and recognises the individual identifiable assets acquired and liabilities assumed by allocating the purchase price first to financial assets/financial liabilities at the respective fair values, the remaining balance of the purchase price is then allocated to the other identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction does not give rise to goodwill or bargain purchase gain.

Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Business combinations or assets acquisitions *(Continued)*

Business combinations *(Continued)*

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 “Income Taxes” and HKAS 19 “Employee Benefits” respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 “Share-based Payment” at the acquisition date (see the accounting policy below); and
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 “Non-current Assets Held for Sale and Discontinued Operations” are measured in accordance with that standard.
- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in HKFRS 16) as if the acquired leases were new leases at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer’s previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after re-assessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer’s previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary’s net assets in the event of liquidation are initially measured at the non-controlling interests’ proportionate share of the recognised amounts of the acquiree’s identifiable net assets or at fair value. The choice of measurement basis is made on a transaction-by-transaction basis.

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Revenue from contracts with customers *(Continued)*

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Principal versus agent

When another party is involved in providing goods or services to a customer, the Group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for those goods or services to be provided by the other party (i.e. the Group is an agent).

The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer.

The Group is an agent if its performance obligation is to arrange for the provision of the specified good or service by another party. In this case, the Group does not control the specified good or service provided by another party before that good or service is transferred to the customer. When the Group acts as an agent, it recognises revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified goods or services to be provided by the other party.

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application or arising from business combinations, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases of buildings that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases (Continued)

The Group as a lessee (Continued)

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 Financial Instruments (“HKFRS 9”) and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases (Continued)

The Group as a lessee (Continued)

Lease liabilities (Continued)

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review/expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Lease modifications

Except for Covid-19-related rent concessions in which the Group applied the practical expedient, the Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Covid-19-related rent concessions

In relation to rent concessions that occurred as a direct consequence of the Covid-19 pandemic, the Group has elected to apply the practical expedient not to assess whether the change is a lease modification if all of the following conditions are met:

- The change in lease payments results in revised consideration for the lease that is substantially the same as or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2021; and
- there is no substantive change to other terms and conditions of the lease.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Leases *(Continued)*

The Group as a lessee *(Continued)*

Covid-19-related rent concessions *(Continued)*

A lease applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 if the changes are not a lease modification. Forgiveness or waiver of lease payments are accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amounts forgiven or waived with a corresponding adjustment recognized in the profit or loss in the period in which the event occurs.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. RMB) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve.

On the disposal of a foreign operation (that is, a disposal of the Group's entire interest in a foreign operation or a disposal involving loss of control over a subsidiary that includes a foreign operation, all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Retirement benefit costs

Payments to the Mandatory Provident Fund schemes in Hong Kong and PRC state-managed retirement benefits schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any account already paid.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 *Income Taxes* requirements to the leasing transaction as a whole. Temporary differences relating to right-of-use assets and lease liabilities are assessed on a net basis. Excess of depreciation on right-of-use assets over the lease payments for the principal portion of lease liabilities resulting in net deductible temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Taxation *(Continued)*

Current and deferred tax is recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Property, plant and equipment

Property, plant and equipment including buildings held for use in the production or supply of goods, or for administrative purposes (other than construction in progress as described below) are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

When the Group makes payments for a property interest which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as “right-of-use assets” in the consolidated statement of financial position. When the payments cannot be allocated reliably between the leasehold land and building elements, the entire property is generally classified as property, plant and equipment.

Depreciation is recognised so as to write off the cost of assets (other than construction in progress) less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Construction in progress represents buildings and mining structures in the course of construction for production or for its own use purposes. Construction in progress is stated at cost less any identified impairment loss. Cost comprises construction expenditure and other direct costs attributable to such projects, if the amount of capital expenditures and the time involved to complete the construction are significant. Construction in progress is classified to the appropriate category of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Mining right

Mining right with finite useful lives are carried at cost less accumulated amortisation and any accumulated impairment loss. Amortisation is provided using the unit of production method based on the actual production volume over the estimated total proven and probable reserves of the ore mine within the terms of licence.

Exploration and evaluation assets

All costs directly associated with exploration and evaluation are initially capitalised. Subsequent to initial recognition, exploration and evaluation assets are stated at cost less any accumulated impairment loss. Exploration and evaluation assets are those expenditures for an area where technical feasibility and commercial viability has not been determined. Exploration and evaluation assets include topographical and geological surveys, exploratory drilling, sampling and activities in relation to commercial and technical feasibility studies, and expenditure incurred to secure further mineralisation in existing ore bodies and to expand the capacity of a mine.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Exploration and evaluation assets *(Continued)*

Expenditure incurred prior to acquiring legal rights to explore an area is written off as incurred. When the technical feasibility and commercial viability of extracting mineral resources become demonstrable, previously recognised exploration and evaluation assets are reclassified to intangible assets or property, plant and equipment. These assets are assessed for impairment annually and before reclassification.

Exploration and evaluation assets acquired in a business combination are initially recognised at their fair value at the acquisition date (which is regarded as their costs). Subsequent to initial recognition, exploration and evaluation assets are stated at cost less any accumulated impairment loss, reclassified to intangible assets or property, plant and equipment and assessed for impairment on the same basis as the costs directly associated with exploration and evaluation incurred by the Group.

Impairment of exploration and evaluation assets

The carrying amount of the exploration and evaluation assets is reviewed annually and adjusted for impairment in accordance with HKAS 36 whenever one of the following events or changes in circumstances indicate that the carrying amount may not be recoverable (the list is not exhaustive):

- the period for which the Group has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the Group has decided to discontinue such activities in the specific area; or
- sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

An impairment loss is recognised in profit or loss whenever the carrying amount of an asset exceeds its recoverable amount.

Other intangible assets

Other intangible assets acquired in a business combination are recognised initially at its fair value at the acquisition date (which is regarded as the cost). After initial recognition, other intangible assets with finite useful lives are carried at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation for other intangible assets with finite useful lives is provided on straight-line basis over their estimated useful lives. Amortisation commences when the other intangible assets are available for use. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the other intangible assets to which it relates. All other expenditure is expensed as incurred.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Internally-generated intangible assets – research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development activities (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible asset is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses (if any), on the same basis as intangible assets that are acquired separately.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated cost of completion and cost necessary to make the sale.

Impairment of tangible and intangible assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any). Intangible assets and other intangible asset with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that may be impaired.

The recoverable amount of tangible and intangible assets are estimated individually. When it is not possible to estimate the recoverable amount of an asset individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Impairment of tangible and intangible assets *(Continued)*

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss (“ECL”) model on financial assets at amortised cost which are subject to impairment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade and bills receivables. The ECL on these assets are assessed individually for debtors with significant balance or collectively with similar credit risk characteristics based primarily on the debtors’ aging profiles.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument’s external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

Significant increase in credit risk (Continued)

- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that result in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Lifetime ECL for trade receivables are considered on a collective basis taking into consideration past due information and relevant credit information such as forward looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables, where the corresponding adjustment is recognised through a loss allowance account.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the assets expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified either as financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the group are recognised at the proceeds received, net of direct issue costs.

Financial liabilities at amortised cost

The Group's financial liabilities, including trade and other payables, amounts due to a shareholder, consideration payable for acquisition of a subsidiary, consideration payable to a former non-controlling shareholder of a subsidiary and bank borrowings, are subsequently measured at amortised cost, using the effective interest method.

Non-substantial modifications of financial liabilities

For non-substantial modifications of financial liabilities that do not result in derecognition, the carrying amount of the relevant financial liabilities will be calculated at the present value of the modified contractual cash flows discounted at the financial liabilities' original effective interest rate. Transaction costs or fees incurred are adjusted to the carrying amount of the modified financial liabilities and are amortised over the remaining term. Any adjustment to the carrying amount of the financial liability is recognised in profit or loss at the date of modification.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Provision for restoration cost

The Group is required to make payments for restoration of the land after the underground sites have been mined. Provision for restoration cost is recognised when the Group has a present obligation as a result of past event, and it is probable that the Group will be required to settle that obligation. Provision is measured in accordance with the relevant rules and regulations applicable in the PRC at the end of the reporting period, and using the cash flows forecast to estimate the present obligation, and is discounted to their present value.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognized in the consolidated financial statements.

Principal versus agent consideration (principal)

The Group engages in trading of electrolytic copper and other metal concentrates. The Group concluded that the Group acts as the principal for such transactions as it controls the specified good before it is transferred to the customer after taking into consideration indicators such as the Group is primarily responsible for fulfilling the promise to provide the specified goods, and has discretion in establishing the price for the specified goods. The Group has inventory risk. When the Group satisfies the performance obligation, the Group recognises trading revenue in the gross amount of consideration to which the Group expects to be entitled as specified in the contracts. During the year ended 31 December 2020, the Group recognized revenue relating to trading of electrolytic copper and other metal concentrates amounted to approximately RMB1,029,466,000.

Acquisition of a subsidiary not constituting a business

Note 35 describes that the Group acquired 77.78% equity interest in AXF Gold Ridge Pty Ltd ("AXF Gold Ridge") with a total consideration of AUD39.215 million (equivalent to approximately RMB182,403,000) on 30 April 2020. As of the acquisition date, AXF Gold Ridge indirectly owns 90% attributable interest of Gold Ridge Mining Limited ("GRML"), which owns the mining license and the exploration license in respect of the Gold Ridge Project on Guadalcanal in the Solomon Islands. The acquisition of the equity interest in AXG Gold Ridge is not considered as an acquisition of business.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting periods, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(Continued)*

Key sources of estimation uncertainty *(Continued)*

Impairment assessment of mining assets of the Yifeng Projects

The Group, through Yifeng Wanguo, owns the entire interests of certain mining projects in Yifeng, Jiangxi Province, the PRC, where underground mining was conducted. The existing mining projects in Yifeng and its surrounding areas has a substantial volume of non-ferrous polymetallic mineral resources (the “Yifeng Projects”). The mining assets for the mining projects in Yifeng mainly include certain property, plant and equipment, mining right, intangible assets and right-of-use assets on the Group’s consolidated statement of financial position and are considered as a single cash generating unit for impairment assessment.

The management assessed the recoverable amounts of the mining assets of the Yifeng Projects based on a value in use calculation using discounted cash flow model in respect of the impairment assessment as at 31 December 2020 and estimates of future production volume and metallic resources of the Yifeng Projects with reference to reserve reports prepared in the past by external specialists, as described in Note 17. Key assumptions applied in the impairment assessment model include forecasted selling prices of the metallic concentrates, the growth rate and the discount rate. As at 31 December 2020, the aggregate carrying value of the mining assets of the Yifeng Projects amounted to approximately RMB489,562,000 (2019: RMB505,043,000). No impairment losses in respect of these assets has been recognised in profit or loss during the years ended 31 December 2020 and 2019.

Impairment assessment of exploration and evaluation assets and other intangible asset of Xizang Changdu

The carrying values of the exploration and evaluation assets and other intangible asset of Xizang Changdu County Dadi Mining Company (“Xizang Changdu”), a subsidiary incorporated in Tibet Autonomous Region, the PRC, which was acquired by the Group on 13 July 2017, were approximately RMB190,824,000 (2019: RMB187,436,000) and RMB319,288,000 (2019: RMB319,288,000) respectively as at 31 December 2020 and 2019. Management’s assessment of the recoverable amount of these assets as a single CGU is described in Note 19.

The management assessed the recoverable amounts of the exploration and evaluation assets and other intangible asset of the Xizang Changdu based on a fair value less cost of disposal calculation using discounted cash flow model in respect of the impairment assessment as at 31 December 2020 and estimates of future production volume and metallic resources of Xizang Changdu with reference to feasibility studies performed by external specialists. Key assumptions applied in the impairment assessment model include forecasted selling prices of the metallic concentrates, the growth rate and a discount rate. No impairment losses in respect of these assets has been recognised in profit or loss during the years ended 31 December 2020 and 2019.

Estimated useful lives of property, plant and equipment

Other than construction in progress, the Group depreciates its property, plant and equipment using straight-line method over their estimated useful lives of 3 to 30 years (Note 15). The estimated useful lives reflect the directors’ estimate of the periods that the Group intends to derive future economic benefits from the use of these property, plant and equipment.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(Continued)*

Key sources of estimation uncertainty *(Continued)*

Impairment assessment of mining rights and property, plant and equipment of Gold Ridge Project

The carrying values of the mining rights and property, plant and equipment in relation to the mining projects in relation to a gold resource project located at Guadalcanal Province of the Solomon Islands (“Gold Ridge Project”), owned by the subsidiary, Gold Ridge Mining Limited, was approximately RMB282,633,000 and RMB42,605,000 respectively as at 31 December 2020. Management’s assessment of the recoverable amount of these assets as a single CGU is described in Note 17.

The management assessed the recoverable amounts of the mining rights and property, plant and equipment of Gold Ridge Project based on a fair value less cost of disposal calculation using discounted cash flow model in respect of the impairment assessment as at 31 December 2020 and estimates of future production volume and metallic resources of the Gold Ridge Project with reference to feasibility studies performed by external specialists. Key assumptions applied in the impairment assessment model include forecasted gold price, the growth rate and a discount rate. No impairment losses in respect of the mining rights and property, plant and equipment has been recognised in profit or loss during the year ended 31 December 2020.

Provision of ECL for trade receivables

The Group uses provision matrix to calculate ECL for the trade receivables. The provision rates are based on aging of trade receivables as groupings of various debtors that have similar loss patterns. The provision matrix is based on the Group’s historical default rates taking into consideration forward-looking information that is reasonable and supportable available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered. In addition, trade receivables with significant balances and credit impaired are assessed for ECL individually.

The assessment of the provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group’s trade receivables are disclosed in Notes 25(a) and 41(b).

Provision for restoration costs

The provision for restoration costs has been determined by the management of the Group based on their best estimates. The directors estimated this liability for restoration upon the closure of the mines based on detailed calculations of the amount and timing of future cash flows spending for a third party to perform the required work of restoration, including material cost and labour cost, escalated for inflation, then discounted at a discount rate of 7.05% that reflects current market assessments of the time value of money and the risks specific to the liability, such that the provision reflects the present value of the expenditures expected to be required to settle the obligation. However, the estimate of the associated expenditures may be subject to change due to new government environmental policy in the future. The provision is reviewed regularly to ensure that it properly reflects the present value of the obligation arising from the mining activities. As at 31 December 2020, the carrying amount of provision for restoration costs was approximately RMB6,492,000 (2019: RMB5,746,000).

Income taxes

Determining income tax provisions involves judgement on the future tax treatment of certain transactions. The Group carefully evaluates tax implications of transactions and tax provisions are set-up accordingly. The tax treatment of such transactions is reconsidered periodically to take into account changes in tax legislations. Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

5. REVENUE AND SEGMENT INFORMATION

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker (“CODM”), being the executive directors of the Company, in order to allocate resources to segments and to assess their performance.

The CODM reviews the overall results and financial position of the Group as a whole based on the same accounting policies as set out in note 3. Accordingly, the Group has only one operating segment.

The Group operates in, and all revenue is generated from, the PRC. The Group’s principal non-current assets are located in the PRC and Solomon Islands.

Revenue represents revenue arising from sales of processed concentrates of various metals and trading of electrolytic copper and other metal concentrates. All of the revenue of the Group is recognised on a point in time basis, when the customers obtain control of the goods. An analysis of the Group’s revenue from its major products for the reporting period is as follows:

	2020 RMB'000	2019 RMB'000
Disaggregation of revenue from contracts with customers:		
<i>By types of major products</i>		
– Copper concentrates	147,545	110,901
– Zinc concentrates	89,296	58,091
– Iron concentrates	62,497	55,116
– Sulfur concentrates	13,118	12,102
– Gold in copper concentrates	24,724	13,632
– Gold in lead concentrates	24,010	14,041
– Lead concentrates	7,333	7,715
– Silver in lead concentrates	13,361	9,316
– Silver in copper and zinc concentrates	14,282	6,983
– Copper in lead concentrates	4,613	3,994
– Gold in zinc concentrates	613	59
– Sulfur and iron concentrates	1,486	–
– Electrolytic Copper	991,266	19,205
	1,394,144	311,155
<i>By revenue source</i>		
– Own mined products	364,678	291,950
– Sourced outside		
– Copper concentrates	5,252	–
– Zinc concentrates	29,139	–
– Gold in copper concentrates	1,416	–
– Silver in copper and zinc concentrates	2,393	–
– Electrolytic copper	991,266	19,205
	1,029,466	19,205
	1,394,144	311,155

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

5. REVENUE AND SEGMENT INFORMATION (Continued)

Performance obligations for contracts with customers

Revenue from sales of processed concentrates of various metals

The Group's sales of the processed concentrates of various metals to mineral trading enterprises is recognised when control of the goods has been transferred, being when the goods have been shipped to the customers' specific locations (delivery) or when they are collected by customers at the Group's ore processing plant at their choices. The payment terms and credit terms (if any) are set out in note 25. A contract liability is recognised for sales receipts in which revenue has yet been recognised. In each transaction, a sample of the ore concentrates is inspected to determine the mineral content to be adopted as the basis of calculation of transaction price. The directors of the Company consider that in general the grades of the Group's concentrates products can meet the customers' requirements and no further processing is required to improve the grades of the goods before delivery to or collection by its customers.

Revenue from trading of electrolytic copper and other metal concentrates sourced outside

Revenue from trading of electrolytic copper and other metal concentrates sourced outside is recognised when control of the goods has transferred, being when the goods have been shipped to the customer's specific location (i.e. upon delivery). Following the delivery, the customer has full discretion over the manner of distribution and price to sell the goods, has the primary responsibility when on selling the goods and bears the risks of obsolescence and loss in relation to the goods.

The Group has applied the practical expedient in paragraph 121 of HKFRS 15 to its sales contracts for processed concentrates such that the above information does not include information about revenue that the Group will be entitled to when it satisfies the remaining performance obligations under the contracts for sales of processed concentrates that had an original expected duration of one year or less.

Information about major customers

Revenues from customers of the corresponding periods contributing over 10% of the total sales of the Group are as follows:

	2020 RMB'000	2019 RMB'000
Customer A ⁵	528,070	–
Customer B ⁵	188,249	–
Customer C ⁵	169,735	–
Customer D ¹	–	47,864
Customer E ³	N/A ⁴	49,495

¹ Revenue for sales of copper concentrates, gold and silver in copper concentrates and zinc concentrates

² Revenue for sales of lead concentrates, gold, silver and copper in lead concentrates

³ Revenue for sales of copper concentrates, gold and silver in copper concentrates.

⁴ The corresponding revenue did not contribute 10% or more of the total revenue of the Group in the respective year.

⁵ Revenue for sales of electrolytic copper

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

6. OTHER INCOME

	2020 RMB'000	2019 RMB'000
Government grants:		
– Related to assets (note i)	1,190	1,200
– Others (note ii)	1,671	563
Bank interest income	116	453
Others	716	59
	3,693	2,275

Notes:

- (i) Amount represents the amount granted by a municipal government in the PRC to Yifeng Wanguo for mining technology improvement and is released to profit or loss over the expected useful lives of the relevant assets resulting from the mining technology improvement (Note 32).
- (ii) During the year ended 31 December 2020, the government grants included approximately RMB96,000 incentives received from a local governmental authority by Yifeng Wanguo as immediate financial support for fulfilment of, among other conditions, certain retention criteria of local employees as required by the relevant governmental authority, and also included approximately RMB180,000 financial incentives received by Yifeng Wanguo for foreign investment. The amount also included COVID-19 related financial incentive received from the Australian government by Wanguo Australia International Group Pty Limited (“Wanguo Australia”) of AUD279,000 (equivalent to approximately RMB1,326,000). No future related cost is expected to be incurred nor related to any assets for the above government grants. During the year ended 31 December 2019, the amount primarily represents the incentives received by Yifeng Wanguo where no future related cost is expected to be incurred nor related to any assets.

7. OTHER GAINS AND LOSSES

	2020 RMB'000	2019 RMB'000
Net foreign exchange gain	5,347	3,044
Gain/(loss) on disposal of property, plant and equipment	46	(30)
Reversal of provision for bad debts	300	–
	5,693	3,014

8. FINANCE COSTS

	2020 RMB'000	2019 RMB'000
Interest on bank borrowings	5,762	5,556
Imputed interest expenses on consideration payable to a former non-controlling shareholder of a subsidiary	3,868	1,912
Interest on lease liabilities	40	73
	9,670	7,541

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

9. INCOME TAX EXPENSE

	2020 RMB'000	2019 RMB'000
Current tax:		
PRC Enterprise Income Tax ("EIT")		
– Current year	15,984	9,026
– Overprovision in prior years	–	(1,308)
Withholding tax	1,050	–
	17,034	7,718
Deferred tax (Note 22)	(1,013)	2,326
	16,021	10,044

No provision for Hong Kong Profits Tax has been made as the Group had no assessable profits subject to Hong Kong Profits Tax during both years.

Under the Law of the PRC on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of EIT Law, the tax rate of the subsidiaries established in the PRC was 25% during both years, except for as set out below.

During the year ended 31 December 2018, Yifeng Wanguo was approved as an enterprise that satisfied the conditions as high and new technology enterprises and obtained the Certificate of High and New Technology Enterprises in August 2018, and is entitled to a preferential enterprise income tax rate of 15% for 2018, 2019 and 2020.

In addition, pursuant to the relevant rules and regulations, certain qualified research and development costs incurred by the Group during the year and endorsed by a local tax authority in the PRC is eligible for further deduction for PRC EIT up to 75% of the relevant costs incurred.

The tax charge for the year can be reconciled to the profit before tax per the consolidated statement of profit or loss and other comprehensive income as follows.

	2020 RMB'000	2019 RMB'000
Profit before tax	100,908	65,450
Tax at the EIT rate of 25% (2019: 25%)	25,227	16,362
Tax effect of expenses not deductible for tax purpose	4,041	438
Tax effect of income not taxable for tax purpose	(331)	–
Overprovision in respect of prior years	–	(1,308)
Utilisation of tax losses previously not recognised	(13)	–
Income tax at concessionary rate	(11,323)	(6,817)
Tax effect of additional tax benefit on research and development expenses	(1,580)	(951)
Withholding tax on distributable earnings of a subsidiary established in the PRC	–	2,320
Income tax expense for the year	16,021	10,044

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

10. PROFIT FOR THE YEAR

	Note	2020 RMB'000	2019 RMB'000
Profit for the year has been arrived at after charging:			
Directors' emoluments (Note 11)		3,992	3,958
Other staff costs		39,554	25,882
		43,546	29,840
Retirement benefit scheme contributions, excluding those of directors		768	1,340
Total staff costs	(i)	44,314	31,180
Depreciation of property, plant and equipment	(ii)	34,515	31,856
Depreciation of right-of-use assets		1,699	1,695
Amortisation of mining right	(iii)	1,067	1,065
Amortisation of intangible asset		101	–
Total depreciation and amortisation		37,382	34,616
Auditor's remuneration (including audit and non-audit services)		1,320	1,175
Research and development costs	(i), (ii)	13,812	12,704
Less: Capitalisation to development costs		–	(4,249)
		13,812	8,455
Cost of inventories recognised as an expense	(i), (ii), (iii)	1,236,735	202,855

- (i) Total staff costs amounting to approximately RMB16,042,000 (2019: RMB14,926,000) are included in cost of inventories; amounting to approximately RMB20,400,000 (2019: RMB9,510,000) are included in administrative expenses; amounting to approximately RMB452,000 (2019: RMB419,000) are included in distribution and selling expenses, and approximately RMB7,420,000 (2019: RMB6,325,000) are included in research and development costs in administrative expenses.
- (ii) Depreciation of property, plant and equipment amounting to approximately RMB27,208,000 (2019: RMB26,068,000) are included in cost of inventories; amounting to approximately RMB5,262,000 (2019: RMB3,608,000) are included in administrative expenses and amounting to approximately RMB2,045,000 (2019: RMB2,180,000) are included in research and development costs in administrative expenses.
- (iii) Amortisation of mining right is included in cost of inventories.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

11. DIRECTORS' AND CHIEF EXECUTIVE'S EMOLUMENTS

Directors' and chief executive's remuneration for the year, disclosed pursuant to the applicable Listing Rules and HKCO, is as follows:

Name of directors	Fees RMB'000	Retirement benefit scheme contributions RMB'000	Other emoluments, mainly salaries and allowance RMB'000	Total RMB'000
<i>For the year ended 31 December 2020</i>				
Executive directors:				
Mr. Gao Mingqing	–	–	1,070	1,070

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

11. DIRECTORS' AND CHIEF EXECUTIVE'S EMOLUMENTS *(Continued)*

The executive directors' emoluments shown above were mainly for their services in connection with the management of the affairs of the Company and the Group.

The non-executive directors' emoluments shown above were for their services as directors of the Company or its subsidiaries.

The independent non-executive directors' emoluments shown above were for their services as directors of the Company.

The number of each of the director whose remuneration fell within the following bands is as follows:

	2020 No. of directors	2019 No. of directors
Nil to HK\$1,000,000	10	10
HK\$1,000,001 to HK\$1,500,000	1	1
	11	11

Mr. Gao Mingqing is the Chief Executive of the Company and his emoluments disclosed above include those for services rendered by him as the Chief Executive.

12. EMPLOYEES' EMOLUMENTS

(a) Emoluments of senior management

Of the eight (2019: six) senior management of the Group for the year ended 31 December 2020, four (2019: four) of them are the executive directors of the Company and their remuneration has been disclosed in Note 11. The total emoluments of the remaining four (2019: two) senior management are as follows:

	2020 RMB'000	2019 RMB'000
Salaries, other allowances and benefit-in-kinds	2,363	1,497
Discretionary bonuses	178	234
Retirement benefits scheme contributions	125	16
	2,666	1,747

The number of each of the above employee whose remuneration fell within the following bands is as follows:

	2020 No. of employees	2019 No. of employees
Nil to HK\$1,000,000	2	1
HK\$1,000,001 to HK\$1,500,000	2	1
	4	2

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

12. EMPLOYEES' EMOLUMENTS (Continued)

(b) Five highest paid employees

The five highest paid employees of the Group during the year included three (2019: three) directors and two (2019: two) senior management, details of whose remuneration are set out in the disclosures in notes 11 and 12(a) above.

During both years, no emoluments were paid by the Group to any of the directors of the Company as set out in note 11 or the five highest paid individuals (including directors, senior management and employees) as an inducement to join or upon joining the Group or as compensation for loss of office. None of the directors waived any emoluments during both years.

13. EARNINGS PER SHARE

The calculation of the basic earnings per share attributable to the owners of the Company is based on the following data:

	2020	2019
Earnings figures are calculated as follows:		
Profit for the year attributable to owners of the Company for the purpose of basic earnings per share (in RMB'000)	86,711	55,539
Number of shares:		
Weighted average number of ordinary shares for the purpose of basic earnings per share (in thousand)	720,000	720,000

No diluted earnings per share are presented as there were no potential ordinary shares in issue during both years.

14. DIVIDEND

During the reporting period, the Company recognised the following dividends as distribution:

	2019 RMB'000
Final dividend for the year ended 31 December 2018 of RMB2.78 cents	20,000

Subsequent to the end of the reporting period, a final dividend in respect of the year ended 31 December 2020 of RMB2.98 cents (2019: Nil) per ordinary share, in an aggregate amount of approximately RMB24,700,000 (2019: Nil), has been proposed by the directors of the Company and is subject to approval by the shareholders in the forthcoming general meeting.

Final dividend for the year ended 31 December 2018 was paid on 31 March 2020.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

Note:

As at 31 December 2020, mining structure and machinery with cost of approximately RMB715,000 (2019: approximately RMB715,000) and approximately RMB21,623,000 (2019: approximately RMB13,937,000), respectively have been fully depreciated but still in use.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

15. PROPERTY, PLANT AND EQUIPMENT *(Continued)*

An analysis of the carrying values of the buildings is as below:

	2020 RMB'000	2019 RMB'000
In Hong Kong	6,563	7,302
Outside Hong Kong	84,828	88,119
	91,391	95,421

The above items of property, plant and equipment other than construction in progress are depreciated on a straight-line basis at the following estimated useful lives:

Mining structures	8-20 years
Buildings	20-30 years
Machinery	5-10 years
Motor vehicles	4-5 years
Electronic equipment	3-5 years

Details of the property, plant and equipment pledged to banks to secure loan facilities granted to the Group is set out in note 36.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

Expense relating to short-term leases	467	101
Covid-19 related rent concession	26	–
Total cash outflow for leases	342	353

Notes:

- (a) It represents the Group's ownership interests on leasehold land held for own use in the PRC, with remaining lease term of between 10 and 50 years.
- (b) The Group has obtained the right to use a property as its director's quarter through tenancy agreements. The lease runs for an initial period of 2 years without extension options. The lease only included fixed lease payment.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

16. RIGHT-OF-USE ASSETS (Continued)

Details of the right-of-use assets pledged to a bank to secure loan facilities granted to the Group is set out in Note 36.

The above items of right-of-use assets are depreciated on a straight-line basis at the following estimated useful lives:

Leasehold lands	50 years
Leased properties	2 years

17. MINING RIGHTS

	2020 RMB'000	2019 RMB'000
COST		
At beginning of the year	22,233	22,233
Addition on acquisition of subsidiaries (Note 35)	260,579	–
Effect of foreign currency exchange differences	22,054	–
At end of the year	304,866	22,233
AMORTISATION		
At beginning of the year	8,543	7,478
Provided for the year	1,067	1,065
At end of the year	9,610	8,543
CARRYING VALUES	295,256	13,690

At 31 December 2019, the mining right represents the right to conduct mining activities in the Xinzhuang Mine in Jiangxi Province, the PRC, and has legal life of 26 years to 2032. Upon acquisition of AXF Gold Ridge Pty Ltd on 30 April 2020 (note 35), the Group's mining rights also included the right to conduct mining activities in respect of Gold Ridge Project on Guadalcanal in the Solomon Islands and has legal life of 15 years to 2034. As at 31 December 2020, the mines of the Gold Ridge Project have not yet commenced commercial operations.

The mining rights are amortised using the unit of production method based on the actual production volume over the estimated total proven reserves of the ore mines within the terms of licence. The extension of the mining period and the enlargement of the annual production limit may change the total proven and probable reserves of the ore mine over the terms of the licenced period.

As at 31 December 2020, the mining right in the Xinzhuang Mine with carrying amount of approximately RMB12,623,000 (2019: RMB Nil) was pledged to a bank to secure loan facilities granted to the Group as set out in Note 36.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

17. MINING RIGHTS *(Continued)*

Impairment test on mining projects in Yifeng, Jiangxi Province, the PRC (“Yifeng Projects”)

In view of significant adverse changes in the economic environment in which the Group operates, the directors of the Company have performed impairment assessment on the property, plant and equipment with carrying amount of approximately RMB415,715,000 (2019: RMB428,649,000), mining right with carrying amount of approximately RMB12,623,000 (2019: RMB13,690,000), right-of-use assets with carrying amount of approximately RMB57,076,000 (2019: RMB58,455,000) and intangible assets with carrying amount of approximately RMB4,148,000 (2019: RMB4,249,000), with aggregate carrying amount of approximately RMB489,562,000 (2019: RMB505,043,000) which belong to the Yifeng Projects being carried out in the Xinzhuang Mine, which are principally engaged in mining and processing of ores and sales of processed concentrates in the PRC. Management’s assessment of the recoverable amount of these assets was performed on the Yifeng Projects as a single CGU. The Group’s own mined metallic concentrates are produced by the Yifeng Projects. The recoverable amount of this CGU has been determined by the directors of the Company based on value-in-use calculations. The pre-tax discount rate in measuring the amount of value in use is 18% per annum in relation to this CGU (2019: 16% per annum). The discounted cash flow analysis used cash flow projections with a growth rate of 2% (2019: 3%) per annum being applied for estimated selling prices, direct costs and expenses. The growth rate reflects the long-term growth rate for the country in which the entity of the CGU operates. The key assumptions also include budgeted sales and budgeted gross margins based on past performance and management expectations of market development, and taking into account the estimated mineral resources reserves of the Xinzhuang Mine based on a technical report. There has been no change from the valuation technique used in prior year. As a result of the impairment assessment, no impairment loss had been recognised in respect of the property, plant and equipment, mining right, right-of-use assets and intangible assets in relation to the Yifeng Projects during the year ended 31 December 2020 (2019: Nil). Management believes that any reasonably possible change in any of above assumptions would not cause the carrying amount of this CGU to exceed the recoverable amount of this CGU.

Impairment test on Gold Ridge Project

The directors of the Company have performed impairment assessment on the mining right with carrying amount of approximately RMB282,633,000 and property, plant and equipment with carrying amount of approximately RMB42,605,000 of Gold Ridge Project for gold production. Management’s assessment of the recoverable amount of this asset was performed on Gold Ridge Project as a single CGU. The recoverable amount of this CGU has been determined by an independent professional valuer, Golder Associates Consulting Ltd, based on fair value less cost of disposals calculations which is determined by discounted cash flow approach. The post-tax discount rates in measuring the amount of fair value less cost of disposal is 23% per annum in relation to this CGU. As a result of the impairment assessment, no impairment loss had been recognised in respect of the mining right and property, plant and equipment of the Gold Ridge Project during the year ended 31 December 2020.

The key assumptions for the fair value less cost of disposal calculation are those regarding the discount rate of 23%, zero growth rate being applied for estimated selling prices, direct costs and expenses, and budgeted production plan of 14 years from 2021 to 2034, which is according to the legal life of the mining right. The discount rate had been determined based on the market comparables. The growth rate reflects the long-term growth rate for the country in which the entity of the CGU operates. The budgeted production plan had been determined based on the management’s expectation for the market development, technical report, feasibility study of the above mine and the expected production capacity of the relevant cash generating unit.

Apart from the considerations described above in determining the fair value less cost of disposal of the cash-generating unit, the Group’s management is not currently aware of any other probable changes that would necessitate changes in these key assumptions. However, the estimate of recoverable amount of the Group’s cash generating units is particularly sensitive to the discount rate applied.

The fair values less cost of disposal of this cash generating unit is classified as level 3 measurement.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

18. EXPLORATION AND EVALUATION ASSETS

	RMB'000
COST	
At 1 January 2019	184,548
Additions	2,888
At 31 December 2019	187,436
Additions	3,388
At 31 December 2020	190,824

The exploration and evaluation assets represent all costs directly associated with exploration and evaluation and are initially capitalised. As at 31 December 2020 and 2019, the exploration and evaluation assets related to costs of the activities which occurred in the area of Changdu, Tibet Autonomous Region, the PRC, which is the principal place of business of Xizang Changdu.

During the current year, the Group incurred costs directly associated with the exploration and evaluation assets of approximately RMB3,388,000 (2019: RMB2,888,000).

Please refer to Note 19 for impairment assessment.

19. OTHER INTANGIBLE ASSET

	RMB'000
COST	
At 1 January 2019, 31 December 2019 and 2020	319,288

In addition to the exploration and evaluation assets as set out in note 18 above, the Group has recognised other intangible asset which represents, in the opinion of the directors, premium paid for the mining right license to be obtained by Xizang Changdu pursuant to such acquisition to conduct mining activities in the lead mine in Walege of the Changdu County, Tibet Autonomous Region, the PRC, owned by Xizang Changdu. The Group is in the process of applying the mining permit for the above mine with the relevant regulatory authorities and the directors of the Company expect the mining permit will be granted to the Group without significant cost in the foreseeable future. The relevant mining permit, when granted to the Group, will allow the Group to mine up to a predetermined level of ore every year from the date of grant through the expiry of the mining license.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

19. OTHER INTANGIBLE ASSET (Continued)

Impairment test on Xizang Changhu

The directors of the Company have performed impairment assessment on the exploration and evaluation assets and other intangible asset of Xizang Changdu. Management's assessment of the recoverable amount of these assets was performed on Xizang Changdu as a single CGU. The recoverable amounts of this CGU has been determined by an independent professional valuer, Vision Appraisal and Consulting Limited, based on fair value less cost of disposals calculations which is determined by discounted cash flow approach. The post-tax discount rates in measuring the amount of fair value less cost of disposal is 18% (2019: 17%) per annum in relation to this CGU. As a result of the impairment assessment, no impairment loss had been recognised in respect of the exploration and evaluation assets and other intangible asset of the Xizang Changdu during the years ended 31 December 2020 and 2019.

The key assumptions for the fair value less cost of disposal calculation are those regarding the discount rate, growth rate of 2% per annum (2019: 3%) being applied for estimated selling prices, direct costs and expenses, and budgeted production plan of 16 years from 2024 to 2039 (2019: 16 years from 2024 to 2039). The discount rate had been determined based on the market comparables. The growth rate reflects the long-term growth rate for the country in which the entity of the CGU operates. The budget production plan had been determined based on the management's expectation for the market development, pre-feasibility study of the above mine and the expected production capacity of relevant cash generating units.

Apart from the considerations described above in determining the fair value less cost of disposal of the cash-generating unit, the Group's management is not currently aware of any other probable changes that would necessitate changes in these key assumptions. However, the estimate of recoverable amount of the Group's cash generating units is particularly sensitive to the discount rate applied.

The fair values less cost of disposal of these cash generating units are classified as level 3 measurement.

20. INTANGIBLE ASSETS *(Continued)*

The Group is researching new techniques that could enhance the efficiency of metal ore extraction. It has incurred research and development expenses of approximately RMB13,812,000 in the current year (2019: RMB8,455,000) which are included in administrative expenses in the statement of profit or loss and other comprehensive income.

21. DEPOSITS FOR ACQUISITIONS

On 16 July 2017, the Group entered into a share sales and purchase agreement with AXF Resources Pty Limited (“AXF Resources”) pursuant to which the Company has conditionally agreed to acquire, and AXF Resources has conditionally agreed to dispose of 61.1% equity interest of AXF Gold Ridge Pty Limited (“AXF Gold Ridge”).

On 20 February 2018, the Group and AXF Resources entered into a deed of amendment and restatement (the “Deed”) to supersede the original sale and purchase agreement. Pursuant to the Deed:

- (i) the Group has conditionally agreed to acquire, and AXF Resources has conditionally agreed to dispose of 77.78% equity interest of AXF Gold Ridge for a revised aggregate consideration of AU\$53,473,000 (equivalent to approximately RMB261,178,000, including the maximum committed costs for reconstruction works of AU\$11,110,000 (equivalent to approximately RMB54,265,000) attributable to the 22.22% equity interest in AXF Gold Ridge held by AXF Resources following the completion of the acquisition as set out below);
- (ii) the Group has committed to invest a maximum amount of AU\$50,000,000 (equivalent to approximately RMB244,215,000), including the said amount of AU\$11,110,000 for the construction, installation of machines and other relevant works with a view to rebuilding the gold mine project to resume the exploration, processing and production of gold;
- (iii) on the date of completion, both parties shall sign a put option agreement, pursuant to which AXF Resources will agree to pay AU\$10 to the Group and the Group will grant AXF Resources an option to require the Group to purchase all of the remaining 22.22% equity interest in AXF Gold Ridge held by AXF Resources. The put option can only be exercised by AXF Resources within 12 months after the first gold (or gold ore) be extracted and sold from this gold mine project. The consideration to be paid by the Group on exercise of the put option shall be AU\$26,388,000 (equivalent to approximately RMB128,887,000) plus any premium to be agreed by the parties. Hence, the total maximum amount of commitment of the Group for the acquisition and the put option is approximately AU\$118,751,000 (equivalent to approximately RMB580,015,000), of which the consideration amount of AU\$10,308,000 (equivalent to approximately RMB50,347,000) and AU\$21,510,000 (equivalent to approximately RMB99,614,000) will be due for payments within one year and more than one year respectively.

As at 31 December 2019, the balances of approximately RMB184,338,000 represent the deposits paid for the acquisition of 77.78% equity interest of AXF Gold Ridge of approximately AU\$21,655,000 (equivalent to approximately RMB111,217,000) and deposits for reconstruction works of approximately RMB73,121,000.

On 24 April 2020, the Group and AXF Resources entered into an amendment agreement to the share sales and purchase agreement (the “Amendment”). Pursuant to the Amendment, the aggregate consideration of AU\$53,473,000 (equivalent to approximately RMB261,178,000) as stated in (i) above has been adjusted to AU\$39,215,000 (equivalent to approximately RMB182,403,000), including AU\$17,110,000 (equivalent to approximately RMB80,170,000) that has already been paid for the reconstruction works and other recommissioning activities. Moreover, the obligations of subsequent reconstruction work as mentioned in (ii) above and the put option agreement for acquiring remaining shares of the AXF Gold Ridge as stated in (iii) above are cancelled as well. On 30 April 2020, this transaction has been completed. The deposits have been fully recognised as part of the consideration paid by the Group for the acquisition of AXF Gold Ridge (Note 35).

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

22. DEFERRED TAX ASSETS/LIABILITIES

The following is an analysis of the deferred tax balances for financial reporting purposes:

	2020 RMB'000	2019 RMB'000
Deferred tax assets	3,860	3,897
Deferred tax liabilities	(84,092)	(85,142)
	(80,232)	(81,245)

The following are the major deferred tax assets (liabilities) recognised and movements thereon during both years:

	Undistributed earnings of PRC subsidiary RMB'000	Fair value adjustments on other intangible asset arising from acquisition of a subsidiary RMB'000	Restoration cost and other provisions RMB'000	Government subsidy RMB'000	Total RMB'000
At 1 January 2019	(3,000)	(79,822)	1,382	2,521	(78,919)
(Charge) credit to profit or loss	(2,320)	–	175	(181)	(2,326)
At 31 December 2019	(5,320)	(79,822)	1,557	2,340	(81,245)
Credit (charge) to profit or loss	1,050	–	141	(178)	1,013
At 31 December 2020	(4,270)	(79,822)	1,698	2,162	(80,232)

From 1 January 2008, pursuant to the EIT Law and its detailed implementation rules, dividend distributed out of the profit generated thereafter shall be subject to EIT at 10% and withheld by the PRC entity. By the Tax Arrangement for Avoidance of Double Taxation between China and Hong Kong, a Hong Kong resident company should be entitled to a preferential tax rate of 5% when receiving dividend from its investee in the PRC if such investor is the beneficial owner of the PRC entity of over 25% interest. Taylor Investment International Limited (“HK Taylor”), which was incorporated in Hong Kong and owns the entire equity interest of the Group’s subsidiaries established in the PRC, enjoys the preferential tax rate aforementioned. Accordingly, deferred taxation has been provided for in the consolidated financial statements in respect of the expected dividend stream from these subsidiaries with the applicable tax rate of 5%.

At the end of the reporting period, the Group has unused tax losses of approximately RMB12,263,000 (2019: RMB9,082,000) available for offset against future profits with no expiry date, which is mainly derived from a subsidiary incorporated in Australia.

No deferred tax asset has been recognised in relation to such unused tax losses as it is not probable that taxable profit will be available against which the unused tax losses differences can be utilised.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

23. RESTRICTED BANK BALANCES/BANK BALANCES AND CASH

The restricted bank balances carry interest at a fixed rate of 1.5% (2019: 1.5%) per annum. They represent the guarantee deposits in specified accounts which are restricted for the usage for restoration of the land upon closure of mines, and restricted bank balances amounting to approximately RMB4,000,000 (2019: Nil) are related to the finance facilities granted by bank, for issuing bills payable.

The bank balances and cash carry interest at market rates as follows:

	2020 %	2019 %
Range of interest rates (per annum)	0.00 to 1.50	0.00 to 1.50

The bank balances and cash that are denominated in currencies other than the functional currency of the relevant group entities are set out below:

	2020 RMB'000	2019 RMB'000
HK\$	296	271
AUS	19	20
US\$	2	1

24. INVENTORIES

	2020 RMB'000	2019 RMB'000
Mining products		
– Raw materials	7,742	6,480
– Work-in-progress	1,005	563
– Finished goods	674	2,232
	9,421	9,275

25. TRADE AND OTHER RECEIVABLES

	Note	2020 RMB'000	2019 RMB'000
Trade receivables from contracts with customers		4,097	7,510

		45,961	28,212
Total trade and other receivables		53,776	36,086

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

25. TRADE AND OTHER RECEIVABLES (Continued)

(a) Trade and bills receivable

As at 1 January 2019, trade receivables from contracts with customers amounted to approximately RMB4,484,000.

For long-term customers with good credit quality and payment history, the Group allows credit periods of no longer than 60 days for sales of certain products. For others, the Group generally requests for deposits in advance from customers (Note 27). The following is an aged analysis of trade and bills receivables presented based on the invoice dates at the end of the reporting period as follows:

	2020 RMB'000	2019 RMB'000
Within 30 days	5,636	7,874
31 to 60 days	1,532	–
61 to 90 days	480	–
	7,648	7,874

No trade and bills receivables are past due as at the end of the reporting period. The Group does not hold any collateral over these balances.

The ECL for trade receivables as at 31 December 2020 and 2019 have been assessed collectively based on the trade debtors' aging, grouped by debtor balances that are not yet due and different aging brackets of numbers of days past due (if any). Based on the assessment of the management of the Group, allowance for credit losses from the trade receivables as at 31 December 2020 and 2019 is insignificant.

As at 31 December 2020 and 2019, the above bills received are held by the Group for future settlement of trade receivables. All bills received by the Group are with a maturity period of less than one year.

Details of impairment assessment of trade and other receivables are set out in note 41(b).

(b) Amount due from a related company

The balance is due from a company wholly owned and controlled by Mr. Gao Mingqing, the Chief Executive of the Company. The balance is interest free, unsecured and repayable on demand.

26. TRADE AND OTHER PAYABLES

	Note	2020 RMB'000	2019 RMB'000
Trade payables	(i)	14,633	37,941
Bills payables	(ii)	33,000	–

Value-added tax, resource tax and other tax payables		15,232	13,805
Payables for construction in progress and property, plant and equipment		19,112	22,700
Accrued expenses and other payables			
– Accrued expenses		4,283	1,276
– Accrued staff cost		8,891	7,243
– Other payables		4,595	15,728
		52,113	60,752
Total trade and other payables		99,746	98,693

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

26. TRADE AND OTHER PAYABLES (Continued)

The aged analysis of trade payables, presented based on the delivery date at the end of the reporting period, is as follows:

	2020 RMB'000	2019 RMB'000
Within 30 days	7,104	12,288
31-60 days	3,222	7,350
61-90 days	1,129	7,078
91-180 days	2,438	11,217
Over 180 days	740	8
	14,633	37,941

The following is an aged analysis of bills payables based on the date of issue of bills:

	2020 RMB'000	2019 RMB'000
91-180 days	4,000	–
Over 180 days	29,000	–
	33,000	–

Notes:

- (i) The average credit period on purchase of goods is 30 days upon delivery. No interest is charged on overdue trade payable.
- (ii) The bills payable were pledged by a restricted deposit made by Yifeng Wanguo, which have to be settled within one year from the date of issue.

27. CONTRACT LIABILITIES

	2020 RMB'000	2019 RMB'000
Sales of processed concentrates products and analysed for reporting purpose as current liabilities	49,821	57,262

As at 1 January 2019, contract liabilities amounted to approximately RMB24,633,000.

Contract liabilities represent the deposit amounts received from certain customers at the requests of the Group when they place confirmed orders. Approximately RMB30,932,000 of the contract liabilities as at 1 January 2020 (2019: RMB4,076,000) has been recognised as revenue during the current year.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

28. LEASE LIABILITIES

	2020 RMB'000	2019 RMB'000
Lease liabilities payable:		
Within one year	205	330
Within a period of more than one year but not more than two years	–	218
	205	548
Less: Amount due for settlement within 12 months shown under current liabilities	(205)	(330)
Amount due for settlement after 12 months shown under non-current liabilities	–	218

The weighted average incremental borrowing rates applied to lease liabilities are 9.92% (2019: 9.92%).

29. AMOUNTS DUE TO RELATED PARTIES

	Note	2020 RMB'000	2019 RMB'000
Victor Soar Investments Limited (“Victor Soar”)	(a), (b)	3,845	2,845
Mr. Gao Mingqing	(a)	8,595	12,624
Fujian Jianyang Wanguo Electric Applicane Co., Ltd. (“Jianyang Wanguo”)	(a), (c)	–	3,520
Ms. Gao Jinzhu	(a), (d)	16,394	18,654
Achieve Ample Investments Limited (“Achieve Ample”)	(a), (d)	314	334
		29,148	37,977

Notes:

- (a) All of the amounts above are non-trade in nature, interest free, unsecured and repayable on demand, of which approximately RMB4,159,000 (2019: RMB3,179,000) are denominated in HK\$.
- (b) Victor Soar held approximately 39.08% (2019: 39.08%) of the issued share capital of the Company and is wholly owned and controlled by Mr. Gao Mingqing.
- (c) Jianyang Wanguo is owned as to 98.86% and controlled by Mr. Gao Mingqing.
- (d) Ms. Gao Jinzhu, executive director of the Company is interested in 19.25% (2019: 19.25%) of the issued share capital of the Company via Achieve Ample which is wholly owned and controlled by her.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

30. CONSIDERATION PAYABLE TO A FORMER NON-CONTROLLING SHAREHOLDER OF A SUBSIDIARY

On 3 March 2012, Yifeng Wanguo, West-Jiangxi of the Bureau of Geology and Mineral Exploration of Jiangxi Province (“West-Jiangxi Brigade”) and HK Taylor entered into a capital reduction agreement (the “Capital Reduction Agreement”) pursuant to which, among other things, West-Jiangxi Brigade shall redeem all of its 12% equity investment in Yifeng Wanguo for a consideration of RMB207,872,000. According to the Capital Reduction Agreement, the consideration shall be payable by Yifeng Wanguo to West-Jiangxi Brigade by instalments set out below:

- (i) RMB6,000,000 within five working days after the completion of the Capital Reduction Agreement;
- (ii) RMB6,000,000 in December of the year in which the completion of the Capital Reduction Agreement took place and the year thereafter, respectively;
- (iii) RMB20,000,000 in December of the second year after the year in which the completion of the Capital Reduction Agreement took place; and
- (iv) RMB42,468,000 in December of each of the third year to the sixth year after the year in which the completion of the Capital Reduction Agreement took place.

The Capital Reduction Agreement was approved by the relevant PRC government authorities on 23 April 2012. Upon the approval of the Capital Reduction Agreement and the completion of registration with the relevant authorities in the PRC, Yifeng Wanguo became a wholly-owned subsidiary of the Company on 27 April 2012.

As a result, the Group has recorded a liability of RMB153,584,000, which was the present value of the total consideration discounted at 7.05% payable by Yifeng Wanguo to West-Jiangxi Brigade as at the date of the completion of the transaction.

During the year ended 31 December 2018, an amount of approximately RMB42,468,000 which fell due in that year is agreed to be extended to 2020. As at 31 December 2020, the amount was matured without further extension granted by West-Jiangxi Brigade.

At the end of the reporting period, the carrying amount of consideration payable is repayable as below:

	2020 RMB'000	2019 RMB'000
Within one year	57,936	32,806
More than one year, but not exceeding two years	–	27,262
	57,936	60,068
Less: Amount due within one year shown under current liabilities	(57,936)	(32,806)
Amount shown under non-current liabilities	–	27,262

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

31. BANK BORROWINGS

	2020 RMB'000	2019 RMB'000
Unsecured bank borrowings at:		
– fixed rate	26,000	16,000
Secured bank borrowings at:		
– fixed rate	78,500	30,000
– floating rate	3,207	3,876
	107,707	49,876
The carrying amounts of the above borrowing are repayable:		
– within one year	59,000	30,000
– within a period of more than one year but not exceeding two years	7,000	16,000
– within a period of more than two years but not exceeding five years	38,500	–
	104,500	46,000
Carrying amount of bank borrowings that contain a repayment on demand clause (shown under current liabilities)	3,207	3,876
	107,707	49,876
Less: Amount due within one year shown under current liabilities	(62,207)	(33,876)
Amount shown under non-current liabilities	45,500	16,000

The interest rates of the Group's floating rate borrowings are based on Hong Kong Interbank Offered Rate. Interest is reset every year.

The effective interest rates on the Group's borrowings are as follows:

	2020 %	2019 %
Effective interest rate for fixed rate borrowings (per annum)	4.79 to 9.57	4.79 to 9.57
Effective interest rate for floating rate borrowings (per annum)	1.92 to 2.35	2.35 to 2.48

The secured bank borrowings that are denominated in currencies other than the functional currency of the relevant group entities are set out below:

	2020 RMB'000	2019 RMB'000
HKS	3,207	3,876

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

32. DEFERRED INCOME

Deferred income represents government grants received by Yifeng Wanguo from the Yifeng Finance Bureau for mining technology improvement.

The deferred income is released to income over the expected useful life of the relevant assets resulting from the mining technology improvement. Movements of deferred income during the year are as follows:

	2020 RMB'000	2019 RMB'000
Government grant related to assets:		
At the beginning of the year	9,842	11,042
Released to profit or loss	(1,190)	(1,200)
At the end of the year	8,652	9,842

33. PROVISIONS

	2020 RMB'000	2019 RMB'000
At beginning of the year	5,746	5,050
Provisions	746	696
At end of the year	6,492	5,746

In accordance with relevant PRC rules and regulations, the Group is obliged to restore the land upon closure of the mines. The Group provided the cost for restoration for its present obligation.

The provision for restoration costs has been determined by the directors based on their best estimates. The directors estimated this liability for restoration upon the closure of the mines based on detailed calculations of the amount and timing of future cash flows spending for a third party to perform the required work of restoration, including material cost and labour cost, escalated for inflation, then discounted at a discount rate of 7.05% that reflects current market assessments of the time value of money and the risks specific to the liability, such that the provision reflects the present value of the expenditures expected to be required to settle the obligation.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

34. SHARE CAPITAL

Details of share capital of the Company are as follows:

	Number of shares '000	Share capital HK\$'000
Ordinary shares of HK\$0.10 each		
Authorised:		
At 1 January 2019, 31 December 2019 and 31 December 2020	1,000,000	100,000
Issued:		
At 1 January 2019, 31 December 2019 and 31 December 2020	720,000	72,000
	2020 RMB'000	2019 RMB'000
Shown in the consolidated statement of financial position	58,882	58,882

The Company has adopted a share option scheme (the "Scheme") on 12 June 2012 to which the directors and eligible employees, among others are entitled to participate in. The Company operates the Scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Details of the Scheme are set out in the directors' report section of the annual report. No share options have been granted, exercised, cancelled or lapsed under the Scheme during the year ended 31 December 2020 and 2019.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

35. ACQUISITION OF ASSETS AND LIABILITIES THROUGH ACQUISITION OF SUBSIDIARIES

On 16 July 2017, the Group as the purchaser entered into a conditional sale and purchase agreement, as subsequently revised by supplementary agreements, with an independent third party as the vendor to acquire the 77.78% issued share capital of AXF Gold Ridge Pty Ltd (“AXF Gold Ridge”) which indirectly owns a gold mine in the Solomon Islands at the total consideration of AUD39.215 million (equivalent to approximately RMB182,403,000). On 30 April 2020, the acquisition of AXF Gold Ridge was completed. The total consideration was settled by cash amounted to AUD22.105 million (equivalent to approximately RMB102,233,000) and reconstruction works and other recommissioning activities undertaken by the Group whereby the Group incurred a cost of approximately AUD17.11 million (equivalent to approximately RMB80,170,000).

AXF Gold Ridge is an investment holding company which through its subsidiaries (together with AXF Gold Ridge, the “AXF Gold Ridge Group”) indirectly owns a 90% attributable interest of Gold Ridge Mining Limited (“GRML”). GRML owns the mining license and the exploration license in respect of the Gold Ridge Project on Guadalcanal in the Solomon Islands.

The Group elected to apply the optional concentration test in accordance with HKFRS 3 “Business Combinations” and concluded that substantially all of the fair value of the gross assets (excluding cash and cash equivalents and deferred tax assets and goodwill resulting from the effects of deferred tax liabilities) acquired is concentrated in the mining right of the Gold Ridge Project (i.e. in a single identifiable asset) and concluded that the acquired set of activities and assets is not a business.

The Group has elected to measure the non-controlling interests in AXF Gold Ridge Group at the non-controlling interest’s proportionate share of fair values of AXF Gold Ridge Group’s identifiable net assets.

The fair value of the identifiable assets acquired and liabilities assumed of the acquiree as at the date of acquisition were as follows:

	RMB’000
Net assets acquired:	
Mining rights	260,579
Non-controlling interests	(78,176)
Consideration	182,403
Total purchase consideration satisfied by:	
Deposits for acquisitions	182,403
Net cash inflow arising on acquisition:	
Cash and cash equivalents acquired	–

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

36. PLEDGE OF ASSETS

At the end of the reporting period, the following assets were pledged to banks for loan facilities granted to the Group:

	2020 RMB'000	2019 RMB'000
Property, plant and equipment	42,170	46,009
Right-of-use assets	24,735	25,381
Mining right	12,623	–
	79,528	71,390

37. CAPITAL COMMITMENTS

	2020 RMB'000	2019 RMB'000
Capital expenditure in respect of:		
– acquisition of equity interest in; and construction, installation of machines and other relevant works for the mining project of AXF Gold Ridge (note 21)		
– contracted for but not provided in the consolidated financial statements	–	103,806
– authorised but not contracted for	–	162,984
	–	266,790
– acquisition of property, plant and equipment contracted for but not provided in the consolidated financial statements	77,899	13,498
	77,899	280,288

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

38. RETIREMENT BENEFIT SCHEMES

The Group operates a Mandatory Provident Fund Scheme for all qualifying employees in Hong Kong. The assets of the schemes are held separately from those of the Group, in funds under the control of trustees. The Group contributes 5% of relevant payroll costs (with a cap in accordance with the statutory requirements) to the Scheme, which contribution is matched by employees.

The Group participates in a state-managed defined contribution retirement scheme organised by the relevant local government authorities in the PRC. PRC employees of the Group eligible to participate in the retirement scheme are entitled to retirement benefits from the scheme. The Group is required to make monthly contributions to the retirement scheme of the eligible employees at specified percentage, ranging from 12% to 20%, of the payroll and the local government authority is responsible for the pension liabilities to these employees upon their retirement.

During the year, the retirement benefit scheme contributions amounted to approximately RMB769,000 (2019: RMB1,348,000).

39. RELATED PARTY TRANSACTIONS

(a) Related party balances and transactions

Details of the balances with related parties as at 31 December 2020 and 2019 are set out in the consolidated statement of financial position and in note 29.

During the year ended 31 December 2020, Mr. Gao Mingqing, substantial shareholder and executive director of the Company, advanced an aggregate amount of RMB3,000,000 to the Group, which is repayable on demand as at 31 December 2020.

During the year ended 31 December 2019, Mr. Gao Mingqing and Ms. Gao Jinzhu, substantial shareholders and executive directors of the Company, advanced an aggregate amount of RMB24,000,000 to the Group, which are repayable on demand as at 31 December 2019.

In addition, certain of the Group's bank borrowing as set out in note 31 as at 31 December 2020 and 2019 were personally guaranteed by Mr. Gao Mingqing and Ms. Gao Jinzhu.

(b) Compensation of key management personnel

The remuneration of directors of the Company and other key management personnel during the year were as follows:

	2020 RMB'000	2019 RMB'000
Fees, salaries and other allowances	6,354	5,447
Discretionary bonuses	178	234
Retirement benefit scheme contributions	126	24
	6,658	5,705

The remuneration of directors and key executives is determined having regard to the performance of individuals and market trends.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

40. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to owners through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of debts, which include bank borrowings (note 31), and equity attributable to owners of the Company, comprising issued share capital, retained profits and other reserves.

The directors of the Company review the capital structure regularly. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends, new share issue and the issue of new debt or the redemption of existing debt. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or process for managing capital during the years ended 31 December 2020 and 2019.

41. FINANCIAL INSTRUMENTS

(a) Categories of financial instruments

	2020 RMB'000	2019 RMB'000
Financial assets:		
Amortised cost	64,894	28,639
Financial liabilities:		
Amortised cost	270,619	246,114

(b) Financial risk management objectives and policies

The Group's major financial instruments include trade and other receivables, cash and cash equivalents, restricted bank balances, trade and other payables, consideration payable to a former non-controlling shareholder of a subsidiary, amounts due to related parties, lease liabilities, dividend payable and bank borrowings. Details of the financial instruments are disclosed in respective notes. The risks associated with the financial instruments include market risks (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

41. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies (Continued)

Market risk

Currency risk

Other than the subsidiaries incorporated in Australia which functional currencies are AU\$, the functional currency of the Company and its subsidiaries incorporated in the PRC and Hong Kong is RMB since all of the Group's revenue is derived from operations in the PRC and denominated in RMB.

The Group's exposure to foreign currency risk related primarily to certain bank balances and other receivables maintained in HK\$, AU\$ and US\$.

The carrying amounts of the Group's foreign currencies denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	2020 RMB'000	2019 RMB'000
Assets		
HK\$	684	4,693
AU\$	19	19
US\$	2	1
Liabilities		
HK\$	8,676	8,256

Sensitivity analysis

The following table details the Group's sensitivity to a 5% (2019: 5%) increase or decrease in RMB against HK\$, AU\$ and US\$. 5% (2019: 5%) represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis adjusts their translation at the year end for a 5% (2019: 5%) change in foreign currency rates.

	2020 RMB'000	2019 RMB'000
HK\$ impact:		
5% increase in the value of the functional currency RMB		
Decrease in post-tax profit for the year	(300)	(134)
5% decrease in the value of the functional currency RMB		
Increase in post-tax profit for the year	300	134
AU\$ impact:		
5% increase in the value of the functional currency RMB		
Increase in post-tax profit for the year	1	1
5% decrease in the value of the functional currency RMB		
Decrease post-tax profit for the year	(1)	(1)
US\$ impact:		
5% increase in the value of the functional currency RMB		
Increase in post-tax profit for the year	-	-
5% decrease in the value of the functional currency RMB		
Decrease post-tax profit for the year	-	-

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

41. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies (Continued)

Market risk (Continued)

Currency risk (Continued)

Sensitivity analysis (Continued)

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the relevant year.

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate restricted bank balance (note 23) and bank borrowings (note 31).

The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank balances (note 23) and bank borrowings (note 31).

The Group's cash flow interest rate risk on its bank balances is limited because these balances carry interest at prevailing rates and they are of short maturity.

The Group's exposures to interest rates on bank borrowings are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuations of People's Bank of China RMB Benchmark Loan Rates arising from the Group's RMB denominated borrowings and fluctuations of Hong Kong Interbank Offered Rate arising from the Group's HKD denominated borrowing.

The Group currently does not have an interest rate hedging policy in relation to fair value interest rate risk and cash flow interest rate risk. The directors monitor the Group's exposure on an on-going basis and will consider hedging the interest rate should the need arise.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for bank balances and bank borrowings at the end of the reporting period. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period were outstanding for the whole year. 50 basis points increase or 50 basis points decrease (2019: 50 basis points increase or decrease) represents management's assessment of the reasonably possible change in interest rates.

If interest rates on bank balances and bank borrowings had been 50 basis points (2019: 50 basis points) higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31 December 2020 would decrease/increase by approximately RMB301,000 (2019: RMB190,800).

Credit risk and impairment assessment

Credit risk refers to the risk that the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk exposures are primarily attributable to trade receivables, bills receivables, bank balances and other receivables and deposits. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

Trade receivables

The Group has concentration of credit risk in respect of trade receivables with 57% of total trade receivables as at 31 December 2020 (2019: 58%) was due from one customer. The Group believes that the amount is considered recoverable after taking into account the subsequent settlement after the year end, credit history of the customer and forward-looking information.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

41. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment (Continued)

Trade receivables (Continued)

The Group has concentration of credit risk by geographical location as the entire balance of its trade receivable as at 31 December 2020 and 2019 were in the PRC.

In order to minimise the credit risk, the Group's current credit practices include assessment and evaluation of customers' credit reliability and periodically review of their financial status to determine credit limit to be granted. In addition, the Group performs impairment assessment under ECL model upon application of HKFRS 9 on trade receivables collectively for those with similar credit risk characteristics based primarily on the trade debtors' aging profiles. The Group has been exploring new customers in order to reduce the concentration of credit risk.

Bills receivables

The credit risk associated with bills receivables, which are all bank acceptance drafts, is limited because the accepting bank will cash the bills unconditionally when the Group presents these bills on due dates.

Bank balances

The credit risk of the Group on liquid funds is limited because the majority of the counterparties are international banks and state-owned banks with good reputation.

Other receivables and deposits

The credit risk on other receivables is also limited because of the historical settlement record, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information.

The tables below detail the credit risk exposures of the Group's financial assets, which are subject to ECL assessment:

2020	Notes	Internal credit rating	12-month or lifetime ECL	Gross carrying amount RMB'000
Financial assets at amortised costs				
Bank balances and cash and restricted				
bank balances	23	N/A	12-month-ECL	43,324
Bills receivables	25	N/A	12-month-ECL	3,551
Trade receivables	25	(note i)	Lifetime ECL	4,097
Other receivables	25	(note ii)	12-month-ECL	13,922

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

41. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment (Continued)

2019	Notes	Internal credit rating	12-month or lifetime ECL	Gross carrying amount RMB'000
Financial assets at amortised costs				
Bank balances and cash and restricted				
bank balances	23	N/A	12-month ECL	7,316
Bills receivables	25	N/A	12-month ECL	364
Trade receivables	25	(note i)	Lifetime ECL	7,510
Other receivables	25	(note ii)	12-month ECL	13,449

Notes:

- (i) For trade receivables, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the ECL on these items base on the Group's historical default rates taking into consideration forward-looking information. The grouping is regularly reviewed by management to ensure relevant information about specific debtors is updated.
- (ii) For the purposes of internal credit risk management, the Group uses past due information to assess whether credit risk has increased significantly since initial recognition. As at 31 December 2020 and 2019, these balances are either not past due or doesn't have fixed repayment. The Group determines the ECL on these items by historical default rate and adjusts for forward-looking information.

Liquidity risk

The Group manages liquidity risk by maintaining adequate reserves, undrawn banking facilities and other debt financing instruments, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

In preparing the consolidated financial statements, the management of the Group has given careful consideration to the liquidity of the Group in light of the fact that the Group's current liabilities exceeded its current assets by approximately RMB206,259,000 as at 31 December 2020, and have taken into considerations of the measurements and sources of liquidity as set out in details in note 1. The directors of the Company consider the Group's liquidity risk is minimal.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

41. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies (Continued)

Liquidity risk (Continued)

Liquidity tables

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date, which is also the agreed repayment date, on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

The amounts included below for variable rate instruments for non-derivative financial liabilities are subject to change if changes in variable rates differ to those estimates of interest rates determined at the end of the reporting period.

	Weighted average effective interest rate %	On demand/ less than 3 months RMB'000	3 months to 1 year RMB'000	1-5 years RMB'000	Over 5 years RMB'000	Total undiscounted cash flow RMB'000	Carrying amount RMB'000
As at 31 December 2020							
<i>Non-derivative financial liabilities</i>							
Trade and other payables	–	75,623	–	–	–	75,623	75,623
Amounts due to related parties	–	29,148	–	–	–	29,148	29,148
Consideration payable to a former non-controlling shareholder of a subsidiary	7.05	57,936	–	–	–	57,936	57,936
Lease liabilities	9.92	59	147	–	–	206	205
Bank borrowings							
– fixed rate	5.54	25,271	34,930	50,456	–	110,657	104,500
– floating rate	2.27	3,437	–	–	–	3,437	3,207
		191,474	35,077	50,456	–	277,007	270,619
As at 31 December 2019							
<i>Non-derivative financial liabilities</i>							
Trade and other payables	–	77,645	–	–	–	77,645	77,645
Amounts due to related parties	–	37,977	–	–	–	37,977	37,977
Consideration payable to a former non-controlling shareholder of a subsidiary	7.05	9,000	27,000	27,936	–	63,936	60,068
Dividend payable	–	20,000	–	–	–	20,000	20,000
Lease liabilities	9.92	91	279	219	–	589	548
Bank borrowings							
– fixed rate	8.20	–	30,485	18,161	–	48,646	46,000
– floating rate	2.35	4,244	–	–	–	4,244	3,876
		148,957	57,764	46,316	–	253,037	246,114

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

41. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies (Continued)

Liquidity risk (Continued)

Liquidity tables (Continued)

Bank borrowings with a repayment on demand clause are included in the “on demand/less than 3 months” time band in the above maturity analysis. As at 31 December 2020, the aggregate amounts of these bank borrowings amounted to approximately RMB3,207,000 (2019: RMB3,876,000).

For the purpose of managing liquidity risk, management reviewed the expected cash flow information of the Group’s bank loans with a repayment on demand clause based on the scheduled repayment dates set out in the agreement as below:

	On demand/ less than 3 months RMB’000	3 months to 1 year RMB’000	1-5 years RMB’000	Over 5 years RMB’000	Total undiscounted cash flow RMB’000	Carrying amount RMB’000
As at 31 December 2020						
Bank borrowings with a repayment on demand clause	127	382	2,546	382	3,437	3,207
As at 31 December 2019						
Bank borrowings with a repayment on demand clause	137	411	2,738	958	4,244	3,876

The amounts included above for floating interest rate instruments for non-derivative financial liabilities are subject to change if changes in floating interest rates differ to those estimates of interest rates determined at the end of the reporting period.

(c) Fair value measurements of financial instruments that are recorded at amortised cost

The directors of the Company consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

42. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

The table below details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Group's consolidated statements of cash flows as cash flows from financing activities.

	Lease liabilities RMB'000	Bank borrowings RMB'000	Amounts due to related parties RMB'000	Dividend payable RMB'000	Consideration payable to a former non-controlling shareholder of a subsidiary RMB'000	Total RMB'000
As at 1 January 2019	814	130,488	4,780	–	73,156	209,238
Financing cash flows	(353)	(86,262)	33,156	–	(15,000)	(68,459)
<i>Non-cash changes</i>						
Interest expenses	73	5,556	–	–	1,912	7,541
Dividend declared	–	–	–	20,000	–	20,000
Effect of foreign currency exchange differences	14	94	41	–	–	149
At 31 December 2019	548	49,876	37,977	20,000	60,068	168,469
Financing cash flows	(342)	52,303	(1,774)	(19,150)	(6,000)	25,037
<i>Non-cash changes (Note)</i>						
Interest expenses	40	5,762	–	–	3,868	9,670
COVID-19 related rent concession	(26)	–	–	–	–	(26)
Effect of foreign currency exchange differences	(15)	(234)	(182)	(850)	–	(1,281)
Set off with prepayment to a major subcontractor	–	–	(6,873)	–	–	(6,873)
At 31 December 2020	205	107,707	29,148	–	57,936	194,996

Note:

During the year ended 31 December 2020, prepayment to a subcontractor of approximately RMB6,873,000 were refunded and used for partial settlement of amounts due to related parties.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

43. PARTICULARS OF SUBSIDIARIES OF THE COMPANY

Details of the Company's subsidiaries directly and indirectly held by the Company as at 31 December 2020 and 2019 are as follows:

Name of subsidiaries	Place of incorporation/ establishment/ operation	Issued and fully paid share capital/ registered capital	Equity interest attributable to the Group		Principal activities
			2020	2019	
<i>Directly owned</i>					
Multinational International Holdings Limited	British Virgin Islands	US\$50,000	100%	100%	Investment holding
<i>Indirectly owned</i>					
HK Taylor	Hong Kong	HK\$86,900,000	100%	100%	Investment holding
Yifeng Wanguo (note 3)	The PRC	RMB268,990,000	100%	100%	Mining and processing of ores and sales of processed concentrates
Xizang Changdu	The PRC	RMB195,000,000	51%	51%	Exploration of mineral resources
Wanguo Australia	Australia	AUS\$1,000	100%	100%	Exploration of mineral resources
Wanguo Ascendant Holding Limited	Hong Kong	HK\$1	100%	100%	Investment holding
Mega Harvest International Development Limited	Hong Kong	HK\$1	100%	100%	Investment holding
AXF Gold Ridge Pty Ltd	Australia	AUS\$1,000	77.78%	–	Investment holding
Gold Ridge Mining Limited	Solomon Islands	AUS\$39,440,000	70%	–	Exploration of mineral resources

Notes:

- The above table lists the subsidiaries of the Company which, in the opinion of the directors of the Company, principally affected the results or assets of the Group. To give details of other subsidiaries would, in the opinion of the directors of the Company, result in particulars of excessive length.
- None of the subsidiaries had issued any debt securities at the end of the reporting period or at any time during both years.
- It was a sino-foreign equity joint venture enterprise with limited liability, and became a wholly foreign owned enterprise since 27 April 2012.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2020

44. DETAILS OF NON-WHOLLY-OWNED SUBSIDIARIES THAT HAVE MATERIAL NON-CONTROLLING INTERESTS

Summarised financial information in respect of Xizang Changdu and AXF Gold Ridge Pty Ltd (“AXF Gold Ridge”), which the Group has material non-controlling interests, is set out below. The summarised financial information of Xizang Changdu and consolidated financial information of AXF Gold Ridge and its subsidiaries prepared in accordance with the significant accounting policies of the Group are as follows:

46. EVENTS AFTER THE REPORTING PERIOD

On 2 March 2021, pursuant to a subscription agreement dated 29 December 2020 (as supplemented by the supplementary agreement dated 26 January 2021) between the Company and a subscriber, the Company issued an aggregate of 108,000,000 new ordinary shares of HK\$0.10 each at a price of HK\$2.18 per share to Shangdong Humon Mining Development Limited (“Humon Mining”), an indirectly wholly-owned subsidiary of the subscriber. In the opinion of the directors, Humon Mining and the subscriber are independent third parties of the Group. Upon completion of the share subscription, Humon Mining has become a substantial shareholder of the Company.
