CHAIRMAN'S STATEMENT 主席報告

Dear Shareholders 致各位股東:

On behalf of the board of directors (the "Board") of Extrawell Pharmaceutical Holdings Limited (the "Company") together with its subsidiaries (the "Group"), I am pleased to present the annual report of the Group for the year ended 31 March 2021 ("FY 2021").

本人謹代表精優藥業控股有限公司 (「本公司」)連同其附屬公司 (「本集團」)董事會(「董事會」)欣然 提呈本集團截至二零二一年三月 三十一日止年度(「二零二一財年」) 之年報。

CHAIRMAN'S STATEMENT 主席報告

The outbreak of novel coronavirus pneumonia (COVID-19) since the early 2020 has posed unprecedented challenges worldwide. The ongoing COVID-19 situation has caused far-reaching economic consequences that have impacted on the global economy and ecosystems. With strict implementation of control and prevention measures and deployment of vaccines, across countries and territories around the world, the COVID-19 situation seems to have stabilised, and the global economy has gradually recovered albeit at a slow pace. In 2020, China's economy grew by 2.3%, the lowest pace in more than four decades, despite its picking up speed at 6.5% year-on-year in the fourth quarter of 2020, however, it is the only major economy to grow in 2020. China's economy has seen a strong rebound in the first quarter of 2021 to record growth of 18.3% yearon-year from a contraction of 6.8% of 2020, boosted by strengthening domestic and global demand, strict virus containment measures and the Chinese government's continued fiscal and monetary support.

Amid the uncertainties and challenges brought by the ongoing COVID-19 pandemic and the escalating tensions between China and the United States, the Chinese government has strived to build the new development pattern of "dual circulation" featuring domestic and international dual circulations that complement each other, placing emphasis on boosting domestic demand and further opening up the domestic market. The new development pattern is expected to facilitate China's achieving sustained and healthy economic development with a focus on higher quality growth for the years to come. In 2021, the adoption of the Fourteenth Five-Year Plan (2021-2025), with its focus on high-quality and innovation-led growth, and the new "dual circulation" development pattern, together with the Long-Range Objectives Through the Year 2035, shall create new strengths for China's economic and social development in an allround way, while China is heading for its long-range objectives of building a great modern socialist country through year 2035.

自二零二零年初以來,新型冠狀病毒肺炎 (「新冠病毒肺炎」)爆發為世界各地帶來前 所未有之挑戰。新冠病毒肺炎疫情持續肆 虐對經濟造成深遠影響,衝擊全球經濟及 生態系統。隨著世界各國及地區嚴格執行 防控措施及調配疫苗,新冠病毒肺炎疫情 漸見穩定,而全球經濟亦逐步復甦,惟速 度仍然緩慢。縱然中國經濟於二零二零年 第四季度的增長步伐加快並錄得同比增 長6.5%,惟中國於二零二零年的全年經 濟增長2.3%,為逾四十年來的最低增速, 儘管如此,中國為唯一於二零二零年錄得 增長之主要經濟體。受國內及全球之需求 增強、推行嚴格病毒控制措施以及中國政 府持續給予財政及貨幣支持之推動下,中 國經濟於二零二一年第一季度迎來強勁反 彈,錄得同比增長18.3%而二零二零年則為 收縮6.8%。

新冠病毒肺炎疫情持續延燒加上中美緊張 局勢升級帶來不明朗因素及種種挑戰,中 國政府已著手致力構建國內國際雙循環相 互促進之「雙循環」新發展格局,聚焦提局 內需及進一步開放國內市場。新發展格局,聚長進 內需及進一步開放國內市場。新發展格局, 要員一步開放未來更富量發展格局, 就國內市場。新發展格局 會全面發展創造新動力,而中國正朝 到二零三五年建設社會主義現代化強國 遠景目標邁進。

CHAIRMAN'S STATEMENT (CONTINUED) 主席報告(續)

During FY2021, China's pharmaceutical industry demonstrated a significant recovery from the second half of 2020 along with the rebound of China's economy as activities in many sectors have gradually picked up and adapted to the normalisation of pandemic restrictions. In addition to the Chinese government's effective containment measures in avoiding new waves of infection to disrupt economic and social activities, the development of pharmaceutical online platforms emerged during the pandemic further facilitates patients to access services including online healthcare, consultation, e-prescription and drug purchase. Given that the outbreak of COVID-19 has posed major threats to large-scale populations, public awareness towards disease prevention and control is rising, leading to an increasing demand for health care in term of prevention and treatment. The sustained implementation of major healthcare reform policies, in particular, the extending centralised drug procurement program, the adjustments to the reimbursement drug list and the enhancement of the medical insurance system, continue to impact on the operating environment of pharmaceutical enterprises, while recent regulatory reforms in speeding up registrations of new drugs that are of high clinical value in addressing the urgent need for certain medications, including for cancer and rare diseases, encourage research and development of new drugs from domestic enterprises and accelerate the entry of new drugs from overseas. China's pharmaceutical industry is undergoing transformation towards highquality and innovation-focused development with the support of national policies.

Under the highly complicated operating environment influenced by the COVID-19 pandemic, the Group has strategically kept reinforcing its fundamentals by enhancing its production capacity and operational efficiency of its manufacturing segment, and through years' continuous efforts in improving the performance of the manufacturing segment, the segment continued to deliver positive results in FY2021. Although the trading segment was loss-making due to the impacts of loss of sales contribution from the imported products which were suspended due to issues of manufacturing practices, there was a decrease in the segment loss, primarily attributable to management's efforts in recovery of impaired receivables and cost control. Overall, the operating results of the Group's business segments remained steady in FY2021. 於二零二一財年,隨著眾多行業活動逐漸 回復及適應疫情限制常態化,中國經濟迎 來反彈,中國醫藥行業自二零二零年下半 年開始明顯復甦。除了中國政府推行有效 控制措施,避免新一波感染擾亂經濟及社 會活動外,醫藥線上平台於疫情期間出現 之發展亦進一步方便患者獲得多種服務, 包括線上醫療、諮詢、電子處方及藥物購 買。鑑於爆發新冠病毒肺炎對大規模人口 造成重大威脅,普羅大眾對疾病防控之意 識正在提高,導致對預防及治療之醫療保 健需求不斷增加。重大醫改政策持續實施 (特別是擴大藥品集中採購計劃、調整醫保 藥品目錄及完善醫保制度)繼續對醫藥企業 之經營環境造成影響,而近期之監管改革 有關加快新藥註冊(在解決若干藥物治療 (包括癌症及罕見病)之迫切需要方面具有 較高臨床價值),亦鼓勵國內企業研發新藥 及加快海外新藥進入市場。在國家政策支 持下,中國醫藥行業正在轉型,邁向著重高 質量及創新之發展。

基於經營環境受新冠病毒肺炎疫情影響而 變得十分複雜,本集團策略上透過提高其 製造分類之生產能力及營運效率不斷 了之去現,該分類於二零二一財 年繼續取得正面成果。儘管受到進口產品 因生產規範問題而遭中止,導致產虧損狀 況,惟分類虧損已有所減少,此主要歸功於 管理層努力收回已減值應收賬款及控制成 本。總體而言,於二零二一財年,本集團旗 下業務分類之經營業績保持平穩。

CHAIRMAN'S STATEMENT (CONTINUED) 主席報告(續)

The Group's loss for the year attributable to owners of the Company amounted to about HK\$121.1 million as compared to a profit of about HK\$83.3 million of last year, representing a decrease of about HK\$204.4 million, primarily attributable to the loss from fair value change of the Group's investments in convertible bonds, which is a non-cash item.

While the world is struggling under the prolonged pandemic situation and, in the race to develop vaccines to combat coronavirus, China has demonstrated its resilience in economic recovery and forged ahead to enhance its health system which will reshape its domestic pharmaceutical market and spur innovation in the long term. China's pharmaceutical industry will continue to develop steadily, propelled by the huge and aging population, rising prevalence of chronic diseases and rare diseases, increasing health awareness and life expectancy coupled with improving living standards nationwide. In face of the intensifying efforts by the Chinese authorities in promoting the healthcare reforms, the Group will remain agile in responding to the changes in national policies, and will align its internal resources with the development direction of the pharmaceutical industry under the newly adopted Fourteenth Five-Year Plan. As the Group's long-term strategic direction, it will continue to stay focused on strengthening the core competitiveness of its manufacturing segment by advancing its production capability and developing its self-manufactured products, thereby fostering the sustainable development of the Group. In light of the ever-increasing diabetic population in China forced by its rapidly aging population and increasing life expectancy, the Group believes that market demand for quality diabetes drugs is enormous and the Group would justify its investments in Smart Ascent Limited and its subsidiaries as a minority shareholder, when the in-process research and development of the oral insulin product which the clinical trial is ongoing, would bear fruit in the future.

本公司擁有人應佔本集團之年度虧損為約 121,100,000港元,較上一個年度之溢利約 83,300,000港元減少約204,400,000港元,主 要歸因於本集團可換股債券投資之公平值 變動虧損(為非現金項目)。

當世界各地仍正在為疫情長時間持續而掙 扎求存之際,於開發抗擊冠狀病毒之疫苗 競賽中,中國於經濟復甦方面展現應變能 力,並鋭意加強其衛生系統,此舉將重塑其 長遠的國內醫藥市場,鼓勵創新。於人口數 目龐大及老齡化、慢性病及罕見病發病率 上升、健康意識及預期壽命提高以及全國 生活水平提升之推動下,中國醫藥行業將 繼續穩步發展。面對中國當局加大力度推 進醫療改革,本集團將保持靈活應對國家 政策變化,並將其內部資源與新採納第十 四個五年規劃中對醫藥行業之發展指導方 針保持一致。作為本集團之長期策略性方 針,其將繼續專注於通過提高生產能力及 發展自製產品以增強其製造分類之核心競 爭力,從而促進本集團之可持續發展。鑑於 中國人口迅速老齡化及預期壽命提高促使 糖尿病人口不斷增加,本集團深信優質糖 尿病藥物之市場需求龐大,當目前正進行 研發工作之口服胰島素產品(現正進行臨床 試驗)於未來取得成果時,本集團將證明其 作為少數股東於進生有限公司及其附屬公 司之投資屬合理之舉。

CHAIRMAN'S STATEMENT (CONTINUED) 主席報告(續)

The outbreak of COVID-19 is a global crisis that has devastating impact on the social and economic sectors globally beyond the lifethreatening consequences, which highlights the importance of public health and arouses people's health consciousness. The Group believes that the macro business environment and operating conditions will gradually improve as mass vaccination programmes in many countries including China are underway. China's pharmaceutical industry will benefit from the continuing economic recovery and maintain a sustainable development trend in light of China's national plans to achieve Healthy China by year 2030 and socialist modernisation by 2035. The Group is cautiously optimistic on its future. Buttressed upon the Group's sound financial position, the Group will continue to navigate these extraordinary times brought by the COVID-19 pandemic, by optimising its internal management and resources allocation and timely responding to various challenges emerged from the complicated operating environment, in an effort to improve its operating performance and preserve financial flexibility, thus strengthening its fundamentals for sustainable development of the Group.

On behalf of the Board, I would like to express its appreciation to all those in the Group for their commitment to maintaining operations amidst the difficult pandemic situation, as well as their dedicated efforts and contribution to the Group during FY2021, and to the shareholders, business partners and other stakeholders for their continuous support. 新冠病毒肺炎爆發屬全球性危機,除威脅 生命外,亦對全球社會及經濟領域造成破 壞性影響,當中突顯公共衛生重要性,並喚 起大眾健康意識。本集團相信,隨著包括中 國在內之眾多國家展開大規模疫苗接種計 劃,宏觀商業環境及經營狀況將得以逐步 改善。中國醫藥行業將受益於經濟持續復 甦,而有見於中國於二零三零年前實現健 康中國之國家政策並在二零三五年前實現 社會主義現代化,行業之可持續發展勢頭 得以維持。本集團對其未來前景抱持審慎 樂觀態度。憑藉本集團之穩健財務狀況, 本集團將繼續於新冠病毒肺炎疫情之非常 時期迎難而上,優化其內部管理及資源配 置,並及時應對複雜經營環境中湧現之種 種挑戰,致力改善其經營業績及保持財務 靈活性,從而為本集團之可持續發展夯實 基礎。

本人謹代表董事會衷心感謝本集團全體員 工於嚴峻疫情下致力維持營運,並於二零 二一財年為本集團付出不懈努力及貢獻, 同時亦對股東、業務夥伴及其他利益相關 者一如既往之支持致以謝意。

MANAGEMENT DISCUSSION AND ANALYSIS 管理層討論及分析

BUSINESS REVIEW

Overall Performance Review

Global economy in 2020 was severely impacted by the COVID-19 outbreak. The stringent lockdown measures and cross-border travel restrictions imposed by most countries in the first half of 2020 to contain and manage the widespread of COVID-19 delivered a heavy blow on economic activities, which contracted dramatically on a global scale. Although the stabilisation of pandemic situation and gradual easing of restrictive measures in the second half of 2020 improved the economic environments, global economy plunged into worst recession since the Great Depression of the 1930s. Despite the pandemic and global economic headwinds, China's economy has demonstrated its strong resilience to swiftly recover as a result of the Chinese government's proactive and decisive containment measures, including stringent lockdown at the outset of the pandemic, nationwide population testing, tracking campaigns to prevent further outbreaks. Backed by the government-led stimulus policies to stabilise employment and promote the orderly resumption of work and production, China's economy steadily recovered after the 6.8% historic contraction in the first guarter of 2020 and resumed positive growth in the remaining three quarters, reaching a peak of 6.5% in the fourth guarter and contributed to a full-year growth of 2.3% in 2020. The growth marks a successful conclusion of the Thirteenth Five-Year Plan in the establishment of China's healthcare system with more than 1.3 billion people covered by basic health insurance and the reform of the pharmaceutical industry to develop in an innovative and quality-oriented direction. Against the backdrop of effective pandemic control and the ongoing vaccination rollouts in the early 2021, China continued its robust recovery and recorded 18.3% growth in the first guarter of 2021, which marked a good beginning of the Fourteenth Five-Year Plan (2021-2025) towards the goal of building a modern socialist country. Although the outbreak of COVID-19 had brought upon unprecedented challenges and had a significant impact on China's economic development, the pharmaceutical industry maintained its growth momentum in the direction of high-quality and innovation-driven development.

業務回顧

整體表現回顧

二零二零年全球經濟因新型冠狀病毒肺炎 爆發而受到沉重打擊。為遏止及控制新型 冠狀病毒肺炎 廣泛傳播,大部分國家於二 零二零年上半年會施嚴格封鎖措施及跨境 出行限制,此舉重創經濟活動,使全球經濟 急劇收縮。雖然二零二零年下半年疫情回 穩及限制性措施逐步放寬令經濟環境有所 改善,惟全球經濟已陷入自一九三零年代 之經濟大蕭條以來最嚴重衰退。儘管疫情 及全球經濟處於困境,惟中國經濟迅速回 復,表現出強大應變能力,此乃由於中國 政府採取積極果斷的遏制措施,包括在疫 情初期實施嚴格封鎖、為全國人口進行檢 測及實行追蹤工作以防止進一步爆發。有 賴政府牽頭推行刺激政策以穩定就業及促 進有序復工復產,中國經濟繼於二零二零 年第一季度錄得6.8%歷史性收縮後穩步復 甦,並於餘下三個季度恢復正增長,於第四 季度達到6.5%峰值,以至二零二零年貢獻 2.3%全年增長。該增長標誌著中國第十三 個五年規劃的圓滿結束,其中在中國醫療 體系建設方面,基本醫療保險覆蓋超過十 三億人口,醫藥行業改革以創新及質量為 導向發展。於有效控制疫情及在二零二一 年初持續推出疫苗接種計劃的背景下,中 國繼續強勁復甦,於二零二一年第一季度 錄得18.3%增長,為第十四個五年規劃(二 零二一年至二零二五年)帶來良好開局,向 建設社會主義現代化國家的目標邁進。儘 管新型冠狀病毒肺炎爆發帶來前所未有的 挑戰,並對中國經濟發展造成重大影響,惟 在追求高質量及創新驅動發展的指導方針 下,醫藥行業得以保持增長勢頭。

BUSINESS REVIEW (Continued)

Overall Performance Review (Continued)

Notwithstanding the COVID-19 pandemic and the economic challenges, the Chinese government has accelerated its pace of healthcare reforms to drive the transformation of the industry. During the year, the continuous rollout of expanded scope of policies including the advancement of consistent quality and efficacy evaluation of generic drugs, speeding up the approval and launch of innovative products, inclusion of newly-approved innovative drugs in National Reimbursement Drug List, and extension to nationwide centralised drug procurement have led to industry concentration and encouraged product upgrading and innovation. With the support of the government's policies to broaden market access for high-quality generic and innovative products, competitors with strong research and development capabilities have caused the shift of market competitive dynamics and more intense competition in price, quality and innovation, which have a far-reaching impact on the industry and have posed tremendous pressure to the Group.

During the year, the Group's revenue and gross profit, which were contributed by the manufacturing segment, maintained at HK\$78.8 million (2020: HK\$77.6 million) and HK\$42.6 million (2020: HK\$42.9 million) respectively, representing an increase of about HK\$1.2 million or 1.6% in revenue and a decrease of about HK\$0.3 million in gross profit. Gross margin slightly dropped from 55.3% to 54.0%, primarily due to change in sales mix. Such stable performance reflects management's efforts and commitments in managing the Group's business amid challenging and complex operating environment.

The Group's operating performance remained steady, when excluding the fair value loss of about HK\$104.7 million (2020: gain of HK\$101.3 million) arising from the Group's investments in convertible bonds, which is a non-cash item, where loss recorded from operating segments reduced from HK\$8.6 million to HK\$0.5 million, and combined with a decrease in corporate expenses of about HK\$1.0 million largely offset the negative impact of respective decreases in bank interest income of about HK\$2.4 million and imputed interest income from an associate of about HK\$5.4 million and an increase in effective interest expense on convertible bonds of about HK\$1.7 million.

業務回顧(續)

整體表現回顧(續)

儘管出現新型冠狀病毒肺炎疫情及經濟面 臨種種挑戰,中國政府已加快醫療改革步 伐,推動行業轉型。於年度內,經擴大範圍 的政策不斷出台,包括推進仿製藥質量和 療效一致性評價工作、加快創新產品上市 審批、新批准的創新藥納入國家醫保藥品 目錄,以及擴大全國藥品集中採購,藉此是 高行業集中度,並鼓勵產品升級及創新。 在政府擴大高質量的仿製產品及創新產品 之市場準入政策的支持下,具備強大研發 能力的競爭對手使市場競爭勢態有所轉 變,在價格、質量及創新方面的競爭愈趨激 烈,以致對行業造成深遠影響,亦對本集團 構成巨大壓力。

於年度內,本集團由製造分類貢獻的收益 及毛利分別維持於78,800,000港元(二零二 零年:77,600,000港元)及42,600,000港元 (二零二零年:42,900,000港元),相當於收 益增加約1,200,000港元或1.6%及毛利減少 約300,000港元。毛利率由55.3%輕微下降 至54.0%,主要由於銷售組合變動所致。該 穩定表現反映管理層在充滿挑戰及複雜的 經營環境下管理本集團業務付出的努力及 承擔。

撇除本集團於可換股債券投資之公平值虧 損(為非現金項目)約104,700,000港元(二零 二零年:收益101,300,000港元),本集團之 經營表現保持平穩,當中經營分類錄得之 虧損由8,600,000港元減少至500,000港元, 加上企業開支減少約1,000,000港元,大部 分抵銷銀行利息收入減少約2,400,000港元 及來自一間聯營公司之估算利息收入減少 約5,400,000港元,以及可換股債券之實際 利息開支增加約1,700,000港元之負面影響。

BUSINESS REVIEW (Continued)

Overall Performance Review (Continued)

The Group's loss for the year attributable to owners of the Company was about HK\$121.1 million, representing a decrease of about HK\$204.4 million when compared to profit of about HK\$83.3 million of last year, primarily due to the non-cash item related to the loss from fair value change of the Group's investments in convertible bonds.

REVENUE AND OPERATING RESULTS

Manufactured Pharmaceutical Sector

The COVID-19 outbreak in early 2020 had led to the temporary closure of the Group's plants in Changchun after the Lunar New Year holidays until mid-February 2020 in response to the nationwide containment measures. To restore the production to normalcy, management has been agile and promptly implemented all necessary precautionary and preventive measures to safeguard the health and safety of the staff in the workplace under the guidelines and announcements of the Chinese authorities; including but not limited to compulsory body temperature checking, mandatory wearing masks, encouraging and organising employees' vaccination. With intense management efforts, the production plants have been operating safely without any significant impact on productivity and cost efficiency.

During the year, management maintained a strong commitment to executing diligently the strategic initiatives adopted since the year 2018 to expand its market coverage through collaboration with distributors with extensive distribution networks with the aim of promoting the Group's product awareness in rural areas and communities. The improved performances delivered by the segment over the past years reflect the benefits of the strategic initiatives to strengthen the competitive position, secure market share, and capture new growth opportunities. Building on the solid foundation laid by these strategic initiatives, the segment though facing a tough operating environment under the influence of the COVID-19 pandemic and the advancement of further healthcare reform, achieved a similar level of revenue at about HK\$78.8 million (2020: HK\$77.6 million), representing an increase of about HK\$1.2 million or 1.6%. Such increase was primarily due to an increase in demand for the Group's product specialised in improving the immunity system of the human body against diseases. The gross margin, however, decreased slightly by 1.3% to about 54.0% when compared to last year, which was primarily due to change in sales mix.

收益及經營業績

自產藥品業務

二零二零年初新型冠狀病毒肺炎爆發導致 本集團位於長春的廠房於春節假期之後暫 時關閉直至二零二零年二月中旬,以響應 全國性的遏制措施。為使生產恢復正常狀 態,管理層已根據中國當局指引及公告,迅 速靈活實施所有必要防範及預防措施,以 保障員工於工作場所的健康及安全;包括 但不限於強制測量體溫、強制佩戴口罩、鼓 勵及組織員工接種疫苗。憑藉管理層不懈 努力,生產廠房一直安全運作,對生產力及 成本效益並無造成任何重大影響。

於年度內,管理層堅守承諾,毫不懈怠地執 行自二零一八年度起採取的戰略舉措,透 過與擁有廣泛分銷網絡的分銷商合作擴大 其市場覆蓋範圍,力求提高本集團產品於 農村地區及社區的知名度。該分類於過去 數 年 的 業 績 表 現 好 轉 , 足 以 反 映 戰 略 舉 措 之好處,可鞏固競爭地位、確保市場份額及 把握新增長機遇。憑藉該等戰略舉措奠定 的堅實基礎,儘管在新型冠狀病毒肺炎疫 情及在進一步推進醫療改革工作的影響下 而面對著嚴峻的經營環境,但該分類仍取 得水平相若的收益約78,800,000港元(二零 二零年:77.600.000港元),相當於增加約 1,200,000港元或1.6%。該增加乃主要由於 對本集團專門用於改善人體抵禦疾病的免 疫系統的產品需求上升所致。然而,毛利率 較去年輕微下跌1.3%至約54.0%,主要由於 銷售組合變動所致。

REVENUE AND OPERATING RESULTS (Continued)

Manufactured Pharmaceutical Sector (Continued)

As a result of the positive contribution of stable revenue and gross profit, the segment recorded a profit of about HK\$4.0 million (2020: HK\$6.5 million), representing a reduction of about HK\$2.5 million. However, when taking into account the research and development expenses of about HK\$3.0 million (2020: HK\$0.6 million) incurred this year to enhance the competitiveness of the Group's products and the last year's write-back of provision for marketing and promotion expenses of about HK\$3.7 million, the segment results demonstrated further improvement.

Imported Pharmaceutical Sector

During the year, no revenue was generated by the trading segment as it continued to be adversely affected by the sales suspension of products arising from the manufacturing practice issues, in particular, the imported skin treatment product which was previously the segment's major revenue contributor. Although the Group and the manufacturer had been working vigorously, the work to rectify the issues was disrupted and delayed as authorities around the world implemented lockdown measures to fight the COVID-19 pandemic. Given the long-standing difficulties to resolve the issues, the manufacturer and the Group's business partners have opted to develop new products that can potentially overcome the entry barriers and capture the market opportunities in order for the Group to build up a new sales platform as soon as practicable.

Notwithstanding the above, the segment recorded a loss of about HK\$4.4 million (2020: HK\$14.9 million), representing a decrease in loss of about HK\$10.5 million or 70.5%, which is a better financial result when compared to that of last year. Such decrease was mainly attributable to a reduction of staff costs by about HK\$0.5 million and the write-back of impairment provision for trade and other receivables in aggregate of about HK\$3.9 million as compared to a provision of about HK\$6.0 million made in last year. Meanwhile, the Group will continue taking measures to rationalise its operations with the aim of further reducing the operating cost necessary to maintain its ongoing operations.

Given the above, the operating conditions will remain difficult under the pressure of operating cost and no revenue. However, the Group is convinced that through collaboration with its business partners to explore a new range of products, building up a new sales platform to capture market opportunities would help restore the performance of the segment in the future.

由於穩定收益及毛利的正面貢獻,該分類 錄得溢利約4,000,000港元(二零二零年: 6,500,000港元),相當於減少約2,500,000 港元。然而,經計及本年度為提高本集 團產品競爭力而產生的研究與開發開支 約3,000,000港元(二零二零年:600,000 港元)及去年撥回營銷及推廣費用撥備約 3,700,000港元,分類業績表現進一步改善。

進口藥品業務

於年度內,貿易分類並無產生任何收益,此 乃由於繼續受到因生產規範問題導致產品 暫停銷售的不利影響(尤其是先前乃該分類 主要收益來源的進口皮膚治療產品)。儘管 本集團及製造商一直努力,惟由於世界各 地機關實施封鎖措施以對抗新型冠狀病是 肺炎疫情,導致糾正問題的工作受到王援 國及難,製造商及本集團的業務夥伴已遇 到困難,製造商及本集團的業務夥伴已遇 機遇的新產品,以便本集團在切實可行的 情況下盡快建立新銷售平台。

儘管存在上述情況,惟該分類錄得虧損約 4,400,000港元(二零二零年:14,900,000港 元),相當於虧損減少約10,500,000港元或 70.5%,財務業績與去年相比有所改善。該 減少乃主要由於員工成本減少約500,000港 元及撥回貿易及其他應收賬款減值撥備合 共約3,900,000港元,而去年則計提撥備約 6,000,000港元。同時,本集團將繼續採取 措施理順其運營,務求進一步降低維持其 持續經營所需的經營成本。

鑒於上文所述,在經營成本壓力及並無收 益的情況下,經營狀況將仍然艱難。然而, 本集團深信,透過與其業務夥伴合作探索 新產品系列,建立新銷售平台以把握市場 機遇,將有助該分類於未來恢復表現。

The Group holds 49% equity interest in Smart Ascent Limited ("Smart Ascent", together with its subsidiaries, the "Smart Ascent Group"), and the major asset of the Smart Ascent Group is the intangible asset in relation to an in-process research and development project ("In-process R&D") involving an oral insulin product ("Product"), which is still at its clinical trial stage. As stated in the 2020 Annual Report, the COVID-19 pandemic since early 2020 had disrupted the normal operations of participating hospitals for the clinical trial of the Product, and to ensure the safety of patients and clinical researchers, the clinical trial in the process of selection and enrolment of patients was temporarily suspended pending improvement in the pandemic situation. As the COVID-19 pandemic situation in China has gradually improved, during the third quarter of 2020, the enrolment of patients has commenced, and currently the process of patient enrolment and selection is still ongoing. Based on the current information available to the Company, though the pandemic situation in China is largely under control, the preventive and control measures associated with the prolonged pandemic situation have been continuously implemented causing certain delay in patient enrolment and selection, thus the timeline for commercialisation of the Product has been reassessed by Smart Ascent Group and is currently expected to be in around mid of 2023.

During the year, the loss of Smart Ascent Group was about HK\$10.1 million (2020: HK\$13.1 million), for which the Group's share of loss amounted to about HK\$2.9 million (2020: HK\$3.2 million) representing a decrease of about HK\$0.3 million. Such decrease mainly related to decrease in research and development expenses for the Product.

In light of the accelerating aging population and increasing life expectancy, and the development of chronic diseases such as diabetes in China, market demand for quality diabetes drugs is expected to be enormous. The Product featured with oral administration of insulin is expected to provide an effective treatment and better quality of life for the constantly growing diabetic population in China that there will be enormous market potential for the Product.

In making the assessment as to the recoverability of the In-process R&D and the fair value of the interest in the associate, the Group has engaged an independent qualified valuer, Roma Appraisals Limited ("Valuer") in conducting a valuation. The asset-based valuation approach has been consistently adopted in the valuation and the recoverable amount of the In-process R&D was determined based on fair value calculation using cash flow projections, which the estimated cash inflows derived from budgeted sales and gross margin were based on the expectation for the market development, and which included the regulatory approvals from the relevant government bodies and launching of the Product in around mid of 2023. The recoverable amount of the interest in the associate was determined based on share of the estimated fair value of the In-process R&D after taking into account the lack of control discount.

The expected future economic benefits attributable to the In-process R&D was assumed to cover a 10-year period from the commercialisation of the Product. The calculation used in the cash flow projections with certain key parameters are as below:

REVENUE AND OPERATING RESULTS (Continued)

Other income and gains and losses, net

Other income and gains and losses, net were in total a loss of about HK\$94.7 million (2020: gain of HK\$106.1 million), which decreased by about HK\$200.8 million. The decrease was mainly the result of (i) a decrease in a gain of a non-cash item by about HK\$206.0 million arising from fair value change of the Group's investments in convertible bonds, (ii) reversal of impairment provision for trade and other receivables of about HK\$2.7 million and HK\$1.1 million when compared to the respective provisions of about HK\$5.9 million and HK\$4.5 million made last year, (iii) net decrease in loan and imputed interest income from an associate of about HK\$2.1 million, (iv) decrease in bad debt recovery of about HK\$2.1 million, and (vi) increase in subsidies from governments of about HK\$0.9 million.

Change in fair value of investments in convertible bonds

As stated in the Company's profit alert announcement dated 11 June 2021, based on a preliminary assessment by the directors on the Group's consolidated management accounts for the year ended 31 March 2021, there was an increase in gain arising from the fair value change of the Group's investments in convertible bonds (issued by Innovative Pharm, "Innovative Pharm Bonds") of about HK\$71 million. The aforesaid increase in gain which is subject to audit and further review by the auditor, was based on the investments in convertible bonds being classified as current assets according to the Innovative Pharm Bonds' existing maturity term due to mature within one year.

However, in the course of finalising the annual results of the Group for the year ended 31 March 2021, when further discussing with the auditor and considered the factors, including but not limited to, the financial position of Innovative Pharm and the timing of the settlement of the Innovative Pharm Bonds under the circumstance that the Company and Innovative Pharm entered into the second deed of amendment ("Second Amendment Deed") to the Innovative Pharm Bonds on 12 May 2021, pursuant to which the Company and Innovative Pharm agreed to extend the maturity date of the Innovative Pharm Bonds for two years, the directors are of the view that it is more appropriate that the Group's investments in convertible bonds be classified as non-current assets, and as a result, the fair value of the Innovative Pharm Bonds as at 31 March 2021 with the assumption that the Innovative Pharm Bonds would be extended for two years, decreased by about HK\$104.7 million when compared to 31 March 2020.

其他收入及收益及虧損淨額

其他收入及收益及虧損淨額合計錄得虧 損約94,700,000港元(二零二零年:收益 106,100,000港元),減少約200,800,000港 元。該減少乃主要由於(i)本集團可換股債 券投資之公平值變動產生之非現金項目收 益減少約206,000,000港元;(ii)撥回貿易及 其他應收賬款減值撥備約2,700,000港元及 1,100,000港元,而去年則分別計提撥備約 5,900,000港元及4,500,000港元;(iii)來自一 間聯營公司之貸款利息收入及估算利息收 入的減少淨額約5,200,000港元;(iv)壞賬收 回減少約2,100,000港元;(v)銀行利息收入 減少約2,400,000港元,及(vi)政府補助增加 約900,000港元。

可換股債券投資之公平值變動

誠如本公司日期為二零二一年六月十一日 之盈利預告公告所載,根據董事就本集團 截至二零二一年三月三十一日止年度之綜 合管理賬目之初步評估,本集團可換股債 券(由領航醫藥發行,「領航醫藥債券」)投資 之公平值變動產生之收益增加約71,000,000 港元。上述收益增加須待核數師審核或進 一步審閱,並根據將於一年內到期的領航 醫藥債券按其現有到期期限而將可換股債 券投資分類為流動資產。

然而,在落實本集團截至二零二一年三月 三十一日止年度的全年業績過程中,本公 司曾與核數師進一步討論並考慮各種因素 (包括但不限於領航醫藥的財務狀況以及 在本公司與領航醫藥於二零二一年五月十 二日訂立領航醫藥債券的第二份修訂契據」)的情況下結算領航醫藥債券的時機,據此本公司與領航醫藥(員券的可期日延期兩年), 董事認為將本集團的可換股債券投資設醫 為非流動資產更為合適,因此,在假設醫 点醫藥債券將延期兩年的情況下,領航醫 藥債券於二零二年三月三十一日減少約 104,700,000港元。

Selling and Distribution Expenses

Selling and distribution expenses of the Group increased to about HK\$29.5 million (2020: HK\$24.6 million), representing an increase of about HK\$4.9 million or 20.3%. However, when excluding the last year's write-back of provision for marketing and promotion expenses of about HK\$3.7 million, there was only slight increase of about HK\$1.2 million. Such increase was mainly the results of decrease in expenses for selling, promotion and symposium activities of about HK\$1.0 million as a result of the pandemic, which was outweighed by an increase in research and development expenses of about HK\$2.4 million to enhance the quality and efficacy of the Group's self-manufactured products.

Administrative Expenses

Administrative expenses were at about HK\$23.9 million (2020: HK\$26.4 million), representing a decrease of about HK\$2.5 million or 9.7%. Excluding the foreign exchange gain of about HK\$0.3 million, the decrease was mainly due to reduction in staff costs of about HK\$1.1 million, which largely related to the retirement of an executive director of the Company and a senior management of the Group.

OUTLOOK

As mass COVID-19 vaccination and vaccine production ramp up, the magnitude and extent of disruptions of global economic activities have generally decreased. However, the prospects of global recovery remain highly uncertain as new virus mutations have forced many countries to re-impose lockdowns and travel restrictions. Amid the COVID-19 pandemic and tensions between China and most western countries, the Chinese economy has shown a steady improvement after the robust recovery in the first guarter of 2021 as a result of continued supports by various government relief measures and strict virus containment policies. Although these challenges and uncertainties overshadow the overall growth of China's pharmaceutical industry in the near term, the Group believes that the industry will continue to benefit from the positive long-term trend of economic developments under the Fourteenth Five-Year Plan towards building a modern socialist country and a "Healthy China". Against this backdrop, the Chinese authorities have stepped up the healthcare reforms with policies focusing, inter alias, on the pursuit of innovation-driven development. It is anticipated that the industry will be facing significant changes as driven by these policies, which have far-reaching and cascading impacts on pharmaceutical companies, in which competition will be escalating to a new level of intensity to quality and innovation.

銷售及分銷費用

本集團銷售及分銷費用增加至約29,500,000 港元(二零二零年:24,600,000港元),相當 於增加約4,900,000港元或20.3%。然而, 倘撇除去年撥回營銷及推廣開支撥備約 3,700,000港元,則僅輕微增加約1,200,000 港元。該增加乃主要由於疫情導致銷售、 推廣及座談會活動開支減少約1,000,000港 元,惟被為提高本集團自製產品的質量及 療效導致研究與開發開支增加約2,400,000 港元所抵銷。

行政費用

行政費用約為23,900,000港元(二零二 零年:26,400,000港元),相當於減少約 2,500,000港元或9.7%。撇除匯兑收益約 300,000港元,該減少乃主要由於員工成本 減少約1,100,000港元,主要與本公司一名執 行董事及本集團一名高級管理層退任有關。

前景

隨著推行大規模新型冠狀病毒肺炎疫苗 接種工作及疫苗生產有所增加,全球經濟 活動受到干擾的程度及範圍普遍下降。然 而,由於新病毒變異迫使許多國家重新實 施封鎖及出行限制,故全球復甦前景仍十 分不明朗。面對著新型冠狀病毒肺炎疫情 及中國與大部分西方國家之間的緊張局 勢,由於政府推行不同救濟措施及嚴格病 毒遏制政策帶來持續支持,中國經濟繼二 零二一年第一季度強勁復甦後表現穩步 改善。儘管該等挑戰及不明朗因素短期內 會為中國醫藥行業的整體增長帶來陰霾, 惟本集團相信,行業將繼續受益於第十四 個五年規劃下長遠積極的經濟發展趨勢, 邁向建設社會主義現代化國家及「健康中 國」。在此背景下,中國當局已加大醫療改 革力度,推行聚焦於(其中包括)追求創新 驅動發展的政策。在該等政策推動下,預期 行業將面臨重大變化,對醫藥公司產生深 遠及級聯影響,其中對質量及創新的競爭 深層攀升至新級度。

OUTLOOK (Continued)

In light of rapidly evolving market and competitive environment, the Group will continue its focus on the development of its manufacturing segment, through the execution of the strategic initiatives to enhance the distribution networks and to adjust flexibly the marketing strategy in response to the challenges, and in addition, leveraging its core competitiveness by investing in the development of its own products and enhancing its production capacity as well as operational efficiency in order to drive the sustainable growth and profitability of the segment. Taking into account the positive progress in recent years, the Group believes that the manufacturing segment is well-positioned to seize the growth opportunities under the Fourteenth Five-Year Plan, while the Group will continue deploying resources and collaborating with its business partners to capture market opportunities and restore the performance of its trading segment.

Although the operating conditions in the year ahead will continue to be complex and challenging, the Group believes that its sound financial position coupled with management's relentless efforts in improving the business performance of the Group and strengthening its core competitiveness will build a solid foundation for the Group's long term growth and profitability.

FINANCIAL REVIEW

Liquidity and Financial Resources

It is the Group's strategy to manage its financial resources conservatively by maintaining a healthy level of cash flows to meet all its financial commitments when they fall due. The Group generally finances its operations with internally generated cash flow and banking facilities.

As at 31 March 2021, the Group had total cash and bank balances (including pledged bank deposits) of about HK\$148.4 million (2020: HK\$147.9 million), representing an increase by about HK\$0.5 million or 0.3%. Such a slight increase in cash and bank balances reflects the Group's efforts on monitoring the business performance and working capital management.

Accruals and Other Payables

Accruals and other payables decreased by about HK\$3.3 million to HK\$28.9 million as of 31 March 2021 (2020: HK\$32.2 million). Such decrease was mainly due to settlement of payables of about HK\$2.6 million in relation to acquisition of property, plant and equipment.

The Group did not have bank borrowings during the year but had banking facilities on trade finance, which were supported by the pledge of the Group's fixed deposits of about HK\$21.7 million (2020: HK\$21.5 million) and corporate guarantees from the Company and certain subsidiaries of the Company. In general, there is no significant seasonality fluctuation on trade finance requirement of the Group.

The Group's total borrowing over total assets ratio as at 31 March 2021 was 0.063 (2020: 0.051), calculated based on the Group's total assets of about HK\$1,164.2 million (2020: HK\$1,265.7 million) and total debts of about HK\$73.9 million (2020: HK\$64.5 million), comprising convertible bonds of about HK\$70.0 million (2020: HK\$59.0 million) and lease liabilities of about HK\$3.9 million (2020: HK\$5.6 million).

The Group's business transactions, assets and liabilities are principally denominated in Hong Kong dollars, United States dollars and Renminbi. The Group manages the foreign currency exposure by closely monitoring the foreign currency movements and may purchase foreign currencies at spot rate, when and where appropriate for meeting its payment obligation. No hedge on foreign currencies was made during the year but the Group will use financial instruments for hedging purpose when considered appropriate.

Investments in Unlisted Funds

As at 31 March 2021, the Group held a total of 80,000 participating shares in KKC Capital SPC, a segregated portfolio company incorporated in the Cayman Islands at aggregate consideration of HK\$80 million (the "Investments"), and the fair value loss in aggregate of HK\$80 million made in previous years were recorded in the reserve for financial assets at fair value through other comprehensive income. Details are set out in note 21 to the consolidated financial statements.

Given the current market condition under the impact of the COVID-19 pandemic, the prospect to realise the Investments in the near future is subdued. However, management will continue exploring the possibilities to realise the Investments in order to mitigate the loss.

Employment and Remuneration Policy

As at 31 March 2021, the Group had 171 employees (2020: 169). Staff costs (including directors' emoluments) for the year ended 31 March 2021 amounted to approximately HK\$20.8 million (2020: approximately HK\$22.5 million), which was mainly due to government relief for social security contributions and the retirement of an executive director of the Company and a senior management of the Group.

The Group remunerates its employees based on industry practices. Its staff benefits, welfare and statutory contributions, if any, are made in accordance with prevailing labour laws of its operating entities.

On 24 August 2012, shareholders of the Company had approved the adoption of a share option scheme (the "Scheme"), which became effective on 29 August 2012 after obtaining approval from the Listing Committee of The Stock Exchange of Hong Kong Limited and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The Scheme will enable the Group to reward the employees, the directors and other selected participants for their contribution to the Group and will also assist the Group in its recruitment and retention of high caliber professionals, executives and employees who are instrumental to the growth of the Group.

From the effective date of the Scheme to 31 March 2021, no share option has been granted under the Scheme.

CORPORATE GOVERNANCE REPORT 企業管治報告

A. CORPORATE GOVERNANCE PRACTICES

Corporate Governance

The Group recognises the importance of achieving and monitoring the high standard of corporate governance consistent with the need and requirements of its business and the best interest of all of its shareholders. The Group is fully committed to doing so.

In the opinion of the directors, the Company has complied with the code provisions of the Corporate Governance Code and Corporate Governance Report ("Code Provisions") as set out in Appendix 14 of the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). During the year ended 31 March 2021, the Company had adopted and applied the Code Provisions, except for certain deviations as set out below.

Code Provisions A.1.3 and A.7.1 stipulate that 14-day notice should be given for each regular board meeting and that in respect of regular meetings, and as far as practicable in all other cases, an agenda and accompanying board papers should be sent in full to all directors in a timely manner and at least 3 days before the intended date of a board or board committee meeting (or other agreed period). The Company agrees that sufficient time should be given to the directors in order to make a proper decision. In these respects, the Company adopts a more flexible approach (and yet sufficient time has been given) in convening board meetings to ensure efficient and prompt management decisions could be made.

Code Provision A.2.1 provides that the roles of chairman and chief executive officer should be separate and should not be performed by the same person. Dr. Xie Yi has served as the Chairman and Chief Executive Officer of the Company. However, the Company believes that there is adequate balance of power and authority in place though vesting the roles of both chairman and chief executive officer in the same person as all major decisions of the Company are made in consultation with members of the Board.

A. 企業管治常規

企業管治

本集團認同達致及監控高水平企業管 治之重要性,務求符合商業需要及規 定以及其全體股東之最佳利益。本集 團承諾竭盡所能達致高水平之企業管 治。

董事認為,本公司已遵守香港聯合交 易所有限公司(「聯交所」)證券上市規 則(「上市規則」)附錄十四所載的企業 管治守則及企業管治報告內之守則條 文(「守則條文」)。於截至二零二一年 三月三十一日止年度,本公司已採納 及應用守則條文,惟下列若干偏離者 除外。

守則條文第A.1.3及A.7.1條規定,須就 每次董事會例會發出十四日通知,且 須就例會(及只要所有其他情況切實 可行時)適時向全體董事寄發全部議 舉行董事會文件,並至少在計劃 舉行董事會或其轄下委員會會議日期 的三日前(或其他協定時間內)送出。 本公司同意須給予董事充足時間以作 出適置要活之方法(亦會給予充足時 間)召開董事會會議,以確保管理層有 效及快速作出決策。

守則條文第A.2.1條規定,主席及行政 總裁之角色應分開,且不應由同一人 兼任。謝毅博士擔任本公司之主席兼 行政總裁。然而,由於本公司所有主 要決策均於諮詢董事會成員後作出, 故本公司相信,即使由同一人兼任主 席及行政總裁,亦足以維持權力與權 限之平衡。

A. CORPORATE GOVERNANCE PRACTICES (Continued)

Corporate Governance (Continued)

Code Provision A.4.1 stipulates that non-executive directors should be appointed for a specific term, subject to re-election. The Company deviates from this Code Provision as the independent non-executive directors ("INEDs") are not appointed for specific terms. According to the bye-laws of the Company, however, the INEDs are subject to retirement and reelection. The reason for the deviation is that the Company believes that the directors ought to be committed to representing the long-term interest of the Company's shareholders.

Code Provision A.4.2 stipulates that every director should be subject to retirement by rotation at least once every three years. According to the bye-laws of the Company, one-third of the directors shall retire from office by rotation and the Chairman, Deputy Chairman or Managing Director shall not be subject to retirement by rotation. The Company's bye-laws deviate from the Code Provision. The Company considers that the continuity of the Chairman/Deputy Chairman/Managing Director and their leadership are essential for the stability of the business and key management. The rotation methodology ensures a reasonable continuity of directorship which is to the best interest of the Company's shareholders.

Code Provision A.4.2 also stipulates that all directors appointed to fill a casual vacancy should be subject to election by shareholders at the first general meeting after their appointment. According to the bye-laws of the Company, any director so appointed shall hold office only until the next annual general meeting. The Company's bye-laws deviate from the Code Provision. However, the Company believes that it is in the best interest of the Company's shareholders to transact this ordinary course of business in the annual general meeting.

A. 企業管治常規(續)

企業管治(續)

守則條文第A.4.1條規定,非執行董事應按特定任期委任,並須接受重選。 本公司偏離此守則條文,原因是獨立 非執行董事(「獨立非執董」)並非按特 定任期委任。然而,根據本公司之公 司細則,獨立非執董須退任及重選。 此項偏離之原因為本公司相信董事應 為本公司股東之長遠利益而作出承 擔。

守則條文第A.4.2條規定,每名董事 應最少每三年輪值退任一次。根據本 公司之公司細則,三分之一的董事須 輪值退任,而主席、副主席或董事總 經理毋須輪值退任。本公司之公司細 則偏離守則條文。本公司認為主席/ 副主席/董事總經理之連任及彼等之 領導要。輪值方法可確保董事合理連 任,從而符合本公司股東之最佳利益。

守則條文第A.4.2條亦規定,所有獲 委任填補臨時空缺之董事須於獲委 任後的首屆股東大會上由股東選舉。 根據本公司之公司細則,任何獲委 之董事任期僅直至下屆股東週年大會 為止。本公司之公司細則偏離守則條 文。然而,本公司相信於股東週年大 會處理此日常事務符合本公司股東之 最佳利益。

D. CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Dr. Xie Yi serves as the Chairman and Chief Executive Officer of the Company. This is a deviation from Code Provision A.2.1, which requires the roles of chairman and chief executive officer should be separate and should not be performed by the same person. As all major decisions of the Company are made in consultation with members of the Board, the Company believes that there is adequate balance of power and authority in place though vesting the roles of both chairman and chief executive officer in the same person.

E. NON-EXECUTIVE DIRECTORS

Pursuant to Code Provision A.4.1, non-executive directors should be appointed for a specific term, subject to re-election and, pursuant to Code Provision A.4.2, every director shall retire by rotation at least once every three years. None of the INEDs of the Company is appointed for a specific term and according to the bye-laws of the Company, one-third of the directors (except for the Chairman) shall retire from office by rotation and become eligible for re-election. The reason for the deviation is that the Company believes that the directors ought to be committed to representing the long-term interest of the Company's shareholders and the rotation methodology ensures a reasonable proportion of directors in continuity which is to the best interest of the Company's shareholders.

The function of the INEDs includes but not limited to participating in meetings of the Board and of committees to bring an independent judgement to bear on issues of strategy, policy, performance, accountability, resources, key appointments and standards of conduct.

The Board has established three committees; namely Nomination Committee, Remuneration Committee and Audit Committee. D. 主席及行政總裁

謝毅博士擔任本公司主席及行政總 裁。此不符合守則條文第A.2.1條要求 主席及行政總裁之角色應該分開,且 不應由同一人士兼任之規定。由於本 公司所有主要決策均經董事會成員磋 商後作出,故本公司相信,即使由同 一人兼任主席及行政總裁,亦足以維 持權力與權限之平衡。

E. 非執行董事

獨立非執董之職責包括但不限於參加 董事會會議及委員會會議,以就有關 策略、政策、表現、問責性、資源、主 要委任及操守準則等事宜作出獨立判 斷。

2.1 Emissions (Continued)

Emissions arising from production activities of the Group's manufacturing segment include air pollutants, greenhouse gas ("GHG"), water and solid wastes. The Group's trading activities and the Hong Kong headquarters have insignificant emissions of air pollutants, water and solid wastes but GHG emissions. In this report, GHG is categorised into three scopes as below:

- (i) Scope 1 refers to direct emissions from sources that are owned or controlled by the operations. Examples include natural gas combusted for boilers, fuels used by owned vehicles.
- (ii) Scope 2 refers to indirect emissions from consumption of purchased electricity, steam or other sources of energy.
- (iii) Scope 3 refers to indirect emissions from other activities that are consequences of the operations but are not directly owned or controlled. Examples include business travel, third-party distribution and logistics.
- 2.1.1 GHG emissions arising from the Group's trading activities and the Hong Kong headquarters mainly relate to indirect emissions of purchased electricity under Scope 2 and third-party distribution and logistics as well as business travels under Scope 3. During the Period, the respective Scope 2 and Scope 3 carbon dioxide ("CO₂") emissions amounted to a total of about 17 tonnes (2020: 20 tonnes) and 0 tonne (2020: 7 tonnes) respectively. The reasons for zero Scope 3 emission were due to no purchases of pharmaceuticals from overseas as well as business travels by employees in light of the COVID-19 pandemic.

2.1 排放(續)

本集團製造分類的生產活動產生 的排放物包括空氣污染物、溫室 氣體(「溫室氣體」)、水及固體廢 棄物。本集團的貿易活動及香港 總部有温室氣體排放,產生的空 氣污染物、水及固體廢棄物排放 則微乎其微。在本報告中,溫室 氣體分為以下三個範圍:

(i) 範圍1 指來自業務擁有或 控制的來源的直接 排放。例子包括鍋 爐燃燒的天然氣、 自有汽車使用的燃 料等。

 (ii) 範圍2 指來自消耗所購電 力、蒸汽或其他能 量 來 源 的 間 接 排 放。

(iii) 範圍3 指因來自非直接擁 有或控制的業務產 生的其他活動的間 接排放。例子包括 商務旅行、第三方 分銷及物流等。

2.1.1本集團貿易活動及香港總 部產生的溫室氣體排放主 要與範圍2所購電力及範圍 3第三方分銷及物流以及商 務旅行的間接排放有關。 於本期間內,範圍2及範圍 3各自產生的二氧化碳(「二 氧化碳」)排放總量分別約 為17噸(二零二零年:20噸) 及0噸(二零二零年:7噸)。 範圍3零排放乃由於並無在 海外購買藥品及鑑於新型 冠狀病毒肺炎疫情,員工概 無商務旅行所致。

2.1 Emissions (Continued)

- 2.1.2 As to the manufacturing segment with a GMP factory in Changchun, China, the Committee is responsible for implementing policies and monitoring the factory's performance so as to ensure its strict compliance with the environmental requirements under the relevant laws and regulations such as the Environmental Protection Law (《環境保護法》), the Water Pollution Prevention and Control Law (《水污染防治法》) and Prevention and Control of Air Pollution Law (《大氣污染防治法》). During the Period, the factory handled its major emissions in the following manner:
 - Waste gas emission management (a)The major source of waste gas emission comes from natural gas boilers. Air pollutants mainly include sulfur oxide ("SOx"), nitrogen oxide ("NOx"), and particle material ("PM"). The factory has installed a desulfurisation tower to ensure levels of emission are in compliance with the standards. The tower is functioning well and levels of emission are significantly lower than the lower limit of the national emission requirements. In the Period, SOx, NOx, and PM emissions amounted to about 10 kgs (2020: 738 kgs), 341 kgs (2020: 158 kgs) and 0 kg (2020: 0 kg) respectively. The results were monitored and measured by an independent third party in accordance with the prevailing requirements of the Technical Guidelines of Accounting Method for Pollution Source Intensity Basic Principles (《污染源源 強核算技術指南-準則》).

CO₂ emissions arising from natural gas boilers and fuels for daily operations of vehicles (Scope 1), purchased electricity (Scope 2) and business travels (Scope 3) amounted to about 1,020 tonnes (2020: 965 tonnes), 1,430 tonnes (2020: 1,652 tonnes) and 3 tonnes (2020: 5 tonnes) respectively.

 - (a) 廢氣排放管理 廢氣排放的主要來 自天然氣鍋爐。空氣 污染物主要包括硫氧 化物(「硫氧化物」)、 氮氧化物(「氮氧化 物」)及顆粒物(「顆粒 物」)。工廠已安裝脱 硫 塔,以 確 保 排 放 水 平符合標準。該塔運 行良好,排放水平遠 低於國家排放要求的 下限。本期間內,硫 氧化物、氮氧化物及 顆粒物的排放量分別 約為10千克(二零二 零年:738千克)、314 千克(二零二零年: 158千克)及0千克(二 零二零年:0千克)。 結果乃根據《污染源源 強核算技術指南 - 準 則》之現行規定,經由 獨立第三方作監測及 測量。 天然氣鍋爐以及汽車

日常使用所用燃料(範 圍1)、所購電力(範圍 2)及商務旅行(範圍 3)產生的二氧化碳排 放量分別約為1,020 噸(二零二零年:965 噸)、1,430噸(二零二 零年:1,652噸)及3噸 (二零二零年:5噸)。

 - (b) Wastewater management

The factory has built its own waste water treatment facilities with daily capacity of 400 tonnes to treat the wastewater from its production processes before discharge, and about 41,330 tonnes (2020: 34,000 tonnes) of effluents were treated and discharged in the Period. The increase in discharge of wastewater was primarily due to shifts in production to meet changes in sales mix. To monitor and control the discharge, the factory has worked jointly with local environmental monitoring stations, and an on-line monitoring system has been installed to test and collect data on the quality of effluent. In addition, the factory has commissioned a third-party inspection unit to conduct regular surveillance on effluent discharge against the standards in order to ensure timely detection of its abnormality and implementation of corrective measures when in exceedances.

(c) Solid waste management

The storages and disposals of hazardous and non-hazardous wastes are handled in accordance with the requirements of relevant rules and regulations. During the Period, about 349 kgs (2020: 119 kgs) hazardous wastes generated from the production process were disposed of with waste management services provided by contractors as designated by Jilin Province Environmental Protection Office. The increase was primarily related to the increase in wastewater discharge. The non-hazardous wastes of about 135 tonnes (2020: 150 tonnes) were disposed of through wastes collection services provided by the local authorities.

2.2 Use of Resources

It is the Group's policy to encourage all staff to be environmentally friendly at work to reduce the consumption of paper, water and electricity and effective use of the resources. Measures being implemented include double-sided printing and copying, disseminating information in digital format, waste paper recycling, turning off power consuming devices when not in use.

2.2.1 The major resources used by the Group's trading activities and Hong Kong headquarters are electricity, and paper (including own offices use and bulk printing of annual and interim reports and circulars distributed to the Company's shareholders through printing firms). In the Period, the electricity consumption was in aggregate of about 21,000 KWhs (2020: 24,000 KWhs) and paper used was in aggregate of about 1.5 tonnes (2020: 1.8 tonnes), of which about 1.5 tonnes (2020: 1.4 tonnes) were FSC certified paper.

The Group has been making its best efforts to reduce paper usage by distributing office files in digital format, reusing single-sided paper, and collecting double-sided printed paper for recycler's handling. The Group also adopts the practice of green procurement that eco-friendly paper is selected for office use and bulk printing of reports.

2.2.2 The Group's manufacturing activities consume mainly water, electricity, natural gas, fuel for vehicles and packing material used for finished products. Paper consumption in its daily operations amounted to about 2 tonnes (2020: 28 tonnes) relates to paper used during the processes of procurement, invoicing, production, quality assurance, marketing and administration, of which the consumption in various departments is being monitored by the management. The significant reduction in paper consumption was the results of (i) management's efforts to promote paperless office within internal departments by better utilisation of the electronic network and digitalisation of files as far as practicable in the paper procurement process, (ii) less consumption in printed materials related to decrease in promotion and symposium activities as a result of the pandemic, and (iii) the shift from the centralised supply of paper stationeries back to the distributors to arrange and to bear on their own.

Management has recognised the importance of water conservation, and therefore has closely monitored the operation with the aim of identifying means and ways in saving and reusing water; including setting clear instructions for water used (time, volume and frequency) in the production process, more frequent inspection to reduce leakage in water supplies, and enhance employees' consciousness of water conservation in operation process training.

As to other resources, measures being implemented include avoiding procurement of high-energy consumption materials, regular monitoring performance of the production equipment, upgrading and phasing out non eco-friendly machines to raise the utilisation of energy and resources. Packing materials primarily comprise paper, glasses and plastics used for the Group's finished products. As a good practice, the Group endeavors to select eco-friendly materials in the procurement process, and minimise wastes by managing purchase quantities.

The other information comprises the information included in the annual report but does not include the consolidated financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 90 of Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- 識別及評估由於欺詐或錯誤而導致綜 合財務報表存在重大錯誤陳述之風 險、設計及執行審核程序以應對該等 風險以及取得充足及適當的審核憑 證,作為吾等意見之基礎。由於欺詐 可能涉及串謀、偽造、蓄意遺漏、虚 假陳述,或淩駕於內部控制之上,因 此未能發現因欺詐而導致的重大錯誤 陳述的風險較因錯誤而導致的重大錯 誤陳述的風險為高。
- 了解與審核相關之內部控制,以設計 適當之審核程序,但並非旨在對 貴 集團內部控制之有效性發表意見。
- 評估董事所採用會計政策之合適性以 及作出會計估計及相關披露資料之合 理性。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related action taken to eliminate threats or safeguards applied.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Mr. Leung Man Kin with Practising Certificate number P07174.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) 綜合財務報表附註(續)

For the year ended 31 March 2021 截至二零二一年三月三十一日止年度

(4) SIGNIFICANT ACCOUNTING POLICIES

4.1 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries (the "Group"). Inter-company transactions and balances between group companies together with unrealised profits are eliminated in full in preparing the consolidated financial statements. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the asset transferred, in which case the loss is recognised in profit or loss.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the dates of acquisition or up to the dates of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any noncontrolling interest. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for in the same manner as would be required if the relevant assets or liabilities were disposed of.

Subsequent to acquisition, the carrying amount of noncontrolling interests that represent present ownership interests in the subsidiary is the amount of those interests at initial recognition plus such non-controlling interest's share of subsequent changes in equity. Total comprehensive income is attributed to such noncontrolling interests even if this results in those noncontrolling interests having a deficit balance.

(4) 重大會計政策

4.1 綜合基準

綜合財務報表包括本公司及其附 屬公司(「本集團」)之財務報表。 集團各成員公司間之公司間之公司間之公司間之公司間之公司間之公司間之公司間之公司間之公司 與結餘連同未變現溢利乃於編製 综合財務報表時全數對銷。未變 現虧損亦可對銷,惟於有關較明 其供所轉讓資產之減值證明則 除外,在此情況下,虧損可於損 益中確認。

於年度內收購或出售之附屬公司 業績乃自收購日期起或截至出售 日期止(如適用)計入綜合損益及 其他全面收益表。為使附屬公司 之會計政策與本集團其他成員公 司採用之會計政策一致,必要時 會對附屬公司之財務報表作出調 整。

倘本集團喪失對附屬公司之控制 權,則出售產生之損益乃根據() 已收代價公平值與任何保留權益 公平值之總額及(i)該附屬公司之 資產(包括商譽)及負債以及任何 非控股權益之過往賬面值兩者間 之差額計算。先前於其他全面收 益內確認與該附屬公司有關之任 何金額按猶如本集團已出售相關 資產或負債之方式入賬。

收購後,代表目前於附屬公司擁 有權益之非控股權益之賬面值為 該等權益於初步確認時之金額另 加有關非控股權益應佔之其後權 益變動。即使會導致非控股權益 出現虧絀結餘,全面收益總額仍 歸屬於有關非控股權益。

For the year ended 31 March 2021 截至二零二一年三月三十一日止年度

(4) SIGNIFICANT ACCOUNTING POLICIES (Continued)

4.2 Subsidiaries

A subsidiary is an investee over which the Company is able to exercise control. The Company controls an investee if all three of the following elements are present: power over the investee, exposure, or rights, to variable returns from the investee, and the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment loss, if any. The results of subsidiaries are accounted for the Company on the basis of dividend received and receivable.

4.3 Associate

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor a joint arrangement. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

Associates are accounted for using the equity method whereby they are initially recognised at cost and thereafter, their carrying amounts are adjusted for the Group's share of the post-acquisition change in the associates' net assets except that losses in excess of the Group's interest in the associates are not recognised unless there is an obligation to make good those losses.

Profits and losses arising on transactions between the Group and its associates are recognised only to the extent of unrelated investors' interests in the associate. The investor's share in the associate's profits and losses resulting from these transactions is eliminated against the carrying value of the associate. Where unrealised losses provide evidence of impairment of the asset transferred they are recognised immediately in profit or loss.

(4) 重大會計政策(續)

4.2 附屬公司

於本公司財務狀況表內,於附屬 公司之投資按成本扣除減值虧 損(如有)列值。本公司按已收及 應收股息基準將附屬公司業績入 賬。

4.3 聯營公司

聯營公司指本集團對其擁有重大 影響力而非屬於附屬公司或合營 安排之實體。重大影響力指有權 參與被投資方之財務及營運決 策,而非對該等政策擁有控制或 共同控制權。

聯營公司採用權益法入賬,據 此,聯營公司初步按成本確認, 此後其賬面值會因應本集團所佔 之聯營公司資產淨值收購後變動 調整,惟超出本集團於聯營公司 之權益之虧損不會被確認,除非 有責任妥善處理該等虧損。

本集團與其聯營公司進行交易所 產生之溢利及虧損,僅會就聯營 公司之不相關投資者權益確認。 該等交易產生之投資者所佔聯營 公司之溢利及虧損,與聯營公司 之賬面值對銷。如未變現虧損提 供所轉讓資產減值證據,其即時 於損益確認。

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) 綜合財務報表附註(續)

For the year ended 31 March 2021 截至二零二一年三月三十一日止年度

(4) SIGNIFICANT ACCOUNTING POLICIES (Continued)

4.3 Associate (Continued)

Any premium paid for an associate above the fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities acquired is capitalised and included in the carrying amount of the associate. Where there is objective evidence that the investment in an associate has been impaired, the carrying amount of the investment is tested for impairment in the same way as other nonfinancial assets.

4.4 Goodwill

Where the fair value of identifiable assets and liabilities exceed the aggregate of the fair value of consideration paid, the amount of any non-controlling interest in the acquiree and the acquisition date fair value of the acquirer's previously held equity interest in the acquiree, the excess is recognised in profit or loss on the acquisition date, after re-assessment.

Goodwill is measured at cost less impairment losses. For the purpose of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cashgenerating units that are expected to benefit from the synergies of the acquisition. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. A cash-generating unit to which goodwill has been allocated is tested for impairment annually, by comparing its carrying amount with its recoverable amount (see note 4.15), and whenever there is an indication that the unit may be impaired.

(4) 重大會計政策(續)

4.3 聯營公司(續)

就聯營公司已付之任何溢價超出 本集團所佔已收購可識別資產, 負債及或然負債之公平值之金額 會撥充資本,並計入聯營公司之 賬面值。如於聯營公司之投資出 現已減值之客觀證據,投資之賬 面值按其他非金融資產之相同方 式測試減值。

4.4 商譽

倘可識別資產及負債公平值超出 已付代價之公平值、於被收購方 之任何非控股權益金額及收購方 過往於被收購方所持股權於收購 日期之公平值之總額,則有關差 額在重估後於收購日期於損益賬 確認。

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) 綜合財務報表附註(續)

For the year ended 31 March 2021 截至二零二一年三月三十一日止年度

(4) SIGNIFICANT ACCOUNTING POLICIES (Continued)

4.4 Goodwill (Continued)

For goodwill arising on an acquisition in a financial year, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that financial year. When the recoverable amount of the cashgenerating unit is less than the carrying amount of the unit, the impairment loss is allocated to reduce the carrying amount of any goodwill allocated to the unit first, and then to the other assets of the unit pro-rata on the basis of the carrying amount to each asset in the unit. However, the loss allocated to each asset will not reduce the individual asset's carrying amount to below its fair value less cost of disposal (if measurable) or its value in use (if determinable), whichever is the higher. Any impairment loss for goodwill is recognised in profit or loss and is not reversed in subsequent periods.

4.5 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of property, plant and equipment includes its purchase price and the costs directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as an expense in profit or loss during the financial period in which they are incurred.

4.5 Property, plant and equipment (Continued)

Property, plant and equipment are depreciated so as to write off their cost net of expected residual value over their estimated useful lives on a straight-line basis. The useful lives, residual value and depreciation method are reviewed, and adjusted if appropriate, at the end of each reporting period. The annual rates/useful lives are as follows:

| Buildings | Over the lease terms of the |
|-------------------------|-----------------------------|
| | relevant leasehold land |
| | and 50 years if shorter |
| Plant and machinery | 6.67%–20% |
| Furniture, fixtures and | 10%–30% |
| equipment | |
| Motor vehicles | 20% |

An asset is written down immediately to its recoverable amount if its carrying amount is higher than the asset's estimated recoverable amount.

The gain or loss on disposal of an item of property, plant and equipment is the difference between the net sale proceeds and its carrying amount, and is recognised in profit or loss on disposal.

4.6 Investment property

Investment property is property held either to earn rentals or for capital appreciation or for both, but not held for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

The land component of leasehold investment property is accounted for as right-of-use assets.

4.6 Investment property (Continued)

The building component of investment property is measured at cost on initial recognition and subsequently carried at cost less accumulated depreciation and accumulated impairment (if any). Depreciation is calculated using a straight-line method to allocate the depreciable amounts over the estimated useful lives of 30.25 years.

The residual values and useful lives of investment property are reviewed, and adjusted as appropriate, at each financial year end. The effects of any revision are included in the statement of profit or loss when the changes arise.

4.7 Leasing

Accounting as a lessee

All leases (irrespective of they are operating leases or finance leases) are required to be capitalised in the statement of financial position as right-of-use assets and lease liabilities, but accounting policy choices exist for an entity to choose not to capitalise (i) leases which are short-term leases and/or (ii) leases for which the underlying asset is of low-value. The Group has elected not to recognise right-of-use assets and lease liabilities for low-value assets and leases for which at the commencement date have a lease term less than 12 months. The lease payments associated with those leases have been expensed on straight-line basis over the lease term.

The right-of-use asset is recognised at cost and would comprise: (i) the amount of the initial measurement of the lease liability (see below for the accounting policy to account for lease liability); (ii) any lease payments made at or before the commencement date, less any lease incentives received; (iii) any initial direct costs incurred by the lessee; and (iv) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which the underlying asset is located or restoring the underlying asset to the condition required by the terms and conditions of the lease. Except for right-of-use asset that meets the definition of an investment property or a class of property, plant and equipment to which the Group applies the revaluation model, the Group measures the right-of-use assets applying a cost model. Under the cost model, the Group measures the right-of-use assets at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liability.

Lease liability

The lease liability is recognised at the present value of the lease payments that are not paid at the date of commencement of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses the Group's incremental borrowing rate.

Subsequent to the commencement date, the Group measures the lease liability by: (i) increasing the carrying amount to reflect interest on the lease liability; (ii) reducing the carrying amount to reflect the lease payments made; and (iii) remeasuring the carrying amount to reflect any reassessment or lease modifications, e.g., a change in future lease payments arising from change in an index or rate, a change in the lease term, a change in the in substance fixed lease payments or a change in assessment to purchase the underlying asset.

- (ii) Internally generated intangible assets (research and development costs)
 Expenditure on internally developed products is capitalised if it can be demonstrated that:

 - adequate resources are available to complete the development;
 - there is an intention to complete and sell the product;
 - the Group is able to sell the product;
 - sale of the product will generate future economic benefits; and expenditure on the project can be measured reliably.

The amount initially recognised for internally generated intangible asset is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internallygenerated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses (if any), on the same basis as intangible assets that are acquired separately.

 (ii) Internally generated intangible assets (research and development costs) (Continued)
 Intangible assets, which comprise rights to commercially exploit certain gene inventions, are stated at cost less accumulated amortisation and impairment losses. The category of intangible asset is summarised as follows:

Gene invention rights

The cost of gene invention rights is amortised over the lives of the rights granted for the invention of a period up to a maximum of twenty years.

(iii) Impairment

Intangible assets with finite lives are tested for impairment when there is an indication that an asset may be impaired. Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, irrespective of whether there is any indication that they may be impaired. Intangible assets are tested for impairment by comparing their carrying amounts with their recoverable amounts (see note 4.15).

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount.

An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as revaluation decrease to the extent of its revaluation surplus.

(i) Financial assets

A financial asset (unless it is a trade receivable without a significant financing component) is initially measured at fair value plus, for an item not at fair value through profit or loss ("FVTPL"), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the market place.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

4.9 Financial Instruments (Continued)

(i) Financial assets (Continued) Debt instruments

> Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

> Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets at amortised cost are subsequently measured using the effective interest rate method. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain on derecognition is recognised in profit or loss.

> Fair value through other comprehensive income ("FVTOCI"): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVTOCI. Debt investments at FVTOCI are subsequently measured at fair value. Interest income calculated using the effective interest rate method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

Fair value through profit or loss ("FVTPL"): Financial assets at FVTPL include financial assets held for trading, financial assets designated upon initial recognition at FVTPL, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at FVTPL, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through other comprehensive income, as described above, debt instruments may be designated at FVTPL on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

On initial recognition of an equity investment that is not held for trading, the Group could irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment-byinvestment basis. Equity investments at fair value through other comprehensive income are measured at fair value. Dividend income are recognised in profit or loss unless the dividend income clearly represents a recovery of part of the cost of the investments. Other net gains and losses are recognised in other comprehensive income and are not reclassified to profit or loss. All other equity instruments are classified as FVTPL, whereby changes in fair value, dividends and interest income are recognised in profit or loss.

(ii) Impairment loss on financial assets

The Group recognises loss allowances for expected credit loss ("ECL") on trade and bills receivables and financial assets measured at amortised cost. The ECLs are measured on either of the following bases: (1) 12 months ECLs: these are the ECLs that result from possible default events within the 12 months after the reporting date: and (2) lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument. The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

4.9 Financial Instruments (Continued)

(ii) Impairment loss on financial assets (Continued) ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the assets' original effective interest rate.

The Group has elected to measure loss allowances for trade and bills receivables using HKFRS 9 simplified approach and has calculated ECLs based on lifetime ECLs. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other debt financial assets, the ECLs are based on the 12-months ECLs. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

(ii) Impairment loss on financial assets (Continued) The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be creditimpaired when: (1) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (2) the financial asset is more than 90 days past due.

Interest income on credit-impaired financial assets is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset. For non credit-impaired financial assets interest income is calculated based on the gross carrying amount.

(iii) Financial liabilities

The Group classifies its financial liabilities, depending on the purpose for which the liabilities were incurred. Financial liabilities at fair value through profit or loss are initially measured at fair value and financial liabilities at amortised costs are initially measured at fair value, net of directly attributable costs incurred.

(iii) Financial liabilities (Continued) Financial liabilities at amortised cost Financial liabilities at amortised cost including trade and other payables and the liability component of convertible bonds issued by the Company are subsequently measured at amortised cost, using the effective interest method. The related interest

expense is recognised in profit or loss.

Gains or losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

(iv) Convertible bonds

Convertible bonds issued by the Group that contain both the liability and conversion option components are classified separately into their respective items on initial recognition. Conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is classified as an equity instrument.

On initial recognition, the fair value of the liability component is determined using the prevailing market interest of similar non-convertible debts. The difference between the proceeds of the issue of the convertible bonds and the fair value assigned to the liability component, representing the conversion option for the holder to convert the bonds into equity, is included in equity (convertible bonds equity reserve).

(iv) Convertible bonds (Continued)

In subsequent periods, the liability component of the convertible bonds is carried at amortised cost using the effective interest method. The equity component, represented by the option to convert the liability component into ordinary shares of the Company, will remain in convertible bonds equity reserve until the embedded option is exercised (in which case the balance stated in convertible bonds equity reserve will be transferred to share capital and share premium). Where the option remains unexercised at the expiry dates, the balance stated in convertible bonds equity reserve will be released to the retained earnings. No gain or loss is recognised upon conversion or expiration of the option.

Transaction costs that relate to the issue of the convertible bonds are allocated to the liability and equity components in proportion to the allocation of the proceeds. Transaction costs relating to the equity component are charged directly to equity. Transaction costs relating to the liability component are included in the carrying amount of the liability portion and amortised over the period of the convertible bonds using the effective interest method.

The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

(vii) Derecognition (Continued)

Where the Group issues its own equity instruments to a creditor to settle a financial liability in whole or in part as a result of renegotiating the terms of that liability, the equity instruments issued are the consideration paid and are recognised initially and measured at their fair value on the date the financial liability or part thereof is extinguished. If the fair value of the equity instruments issued cannot be reliably measured, the equity instruments are measured to reflect the fair value of the financial liability extinguished. The difference between the carrying amount of the financial liability or part thereof extinguished and the consideration paid is recognised in profit or loss for the year.

4.10 Inventories

Inventories are initially recognised at cost, and subsequently at the lower of cost and net realisable value. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

4.11 Revenue

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Depending on the terms of the contract and the laws that apply to the contract, control of the goods or service may be transferred over time or at a point in time. Control of the goods or service is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates or enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the goods or services transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the goods or service.

Other income

Interest income is accrued on a time basis on the principal outstanding at the applicable interest rate.

Contract liabilities

4.12 Income taxes

Income taxes for the year comprise current tax and deferred tax.

Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purposes and is calculated using tax rates that have been enacted or substantively enacted at the end of reporting period.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for tax purposes. Except for goodwill and recognised assets and liabilities that affect neither accounting nor taxable profits, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Deferred tax is measured at the tax rates appropriate to the expected manner in which the carrying amount of the asset or liability is realised or settled and that have been enacted or substantively enacted at the end of reporting period.

4.13 Foreign currency

Transactions entered into by the Company/group entities in currencies other than the currency of the primary economic environment in which it/they operate(s) (the "functional currency") are recorded at the rates ruling when the transactions occur. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income, in which case, the exchange differences are also recognised in other comprehensive income.

On consolidation, income and expense items of foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the rates approximating to those ruling when the transactions took place are used. All assets and liabilities of foreign operations are translated at the rate ruling at the end of reporting period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity as foreign currency translation reserve (attributed to non-controlling interests as appropriate). Exchange differences recognised in profit or loss of group entities' separate financial statements on the translation of long-term monetary items forming part of the Group's net investment in the foreign operation concerned are reclassified to other comprehensive income and accumulated in equity as foreign currency translation reserve.

On disposal of a foreign operation, the cumulative exchange differences recognised in the foreign currency translation reserve relating to that operation up to the date of disposal are reclassified to profit or loss as part of the profit or loss on disposal.

4.15 Impairment of assets (other than financial assets) (Continued)

If the recoverable amount (i.e. the greater of the fair value less costs of disposal and value in use) of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount under another HKFRS, in which case the impairment loss is treated as a revaluation decrease under that HKFRS.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount under another HKFRS, in which case the reversal of the impairment loss is treated as a revaluation increase under that HKFRS.

Value in use is based on the estimated future cash flows expected to be derived from the asset, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash generating unit.

Borrowing costs that are directly attributable to the acquisition or production of a qualifying asset is capitalised as part of the cost of the asset until when substantially all the activities necessary to prepare the asset for its intended use or sale are complete, after which such expense is charged to profit or loss. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. Capitalisation of borrowing cost is suspended during extended periods in which active development is interrupted.

The amount of borrowing costs eligible for capitalisation is the actual borrowing costs incurred on the borrowing during the period less any investment income on the temporary investment of the borrowing.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

4.17 Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, which it is probable will result in an outflow of economic benefits that can be reliably estimated.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, the existence of which will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(5) CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Impairment of interest in an associate

The Group's interest in an associate represents interest in Smart Ascent Limited and its subsidiaries (the "Smart Ascent Group"). The major asset held by the Smart Ascent Group is an intangible asset in relation to an in-process research and development project (the "In-process R&D") involving an oral insulin product (the "Product"). As at 31 March 2021, the carrying amount of the Group's interest in an associate amounted to HK\$324,018,000 (2020: HK\$326,897,000). The directors of the Company have performed an impairment assessment on the Group's interest in an associate as at 31 March 2021, with reference to a valuation report prepared by an independent qualified valuer and are of the view that no impairment provision is required.

In making the assessment, key assumptions adopted by the management include that Smart Ascent Group would be successful in completing the clinical trials, obtaining the regulatory approvals from the relevant government bodies and launching the Product.

(5) 重大會計判斷及估計不明朗 因素之主要來源(續)

下文載列於報告期末所作出有關未來 之主要假設及估計不確定因素之其他 主要來源,該等假設及來源有相當風 險導致須於下個財政年度內就資產及 負債之賬面值作出重大調整。

於一間聯營公司之權益減值

本集團於一間聯營公司之權益指 於進生有限公司及其附屬公司(「進 生要資產為有關進行中之研發」)之權益, 聲項目(「進行中之研發」)之無形資 產,當中涉及口服胰島素產品(「 產,當中涉及口服胰島素產品(「 產品」)。於二零二一年三月三十一日, 本集團於一間聯營公司之權益零年; 326,897,000港元)。本公司董事已經 參考獨立合資格估值師編製之估值報 告,就本集團於二零二一年三月三十 一日於一間聯營公司之權益進行減值 評估,並認為毋須作出減值撥備。

在進行評估時,管理層所應用之主要 假設包括進生集團將成功完成臨床試 驗、取得有關政府監管部門批准並推 出產品。

For the year ended 31 March 2021 截至二零二一年三月三十一日止年度

(5) CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Impairment loss on trade receivables

The impairment loss on trade receivables of the Group is estimated based on the evaluation of collectability and aging analysis of individual trade debts performed by the management. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, including the current creditworthiness and the past collection history of each customer. If the financial conditions of customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

Impairment of right-of-use assets and buildings

As at 31 March 2021, the right-of-use assets and buildings are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of the assets exceeds its recoverable amount. The recoverable amounts have been determined based on value-in-use calculations or market valuations. These valuations require the use of judgements and estimates.

Management's judgement is required in the area of assets impairment particularly in assessing: (i) whether an event has occurred that may indicate that the related assets value may not be recoverable; and (ii) whether the carrying amounts of assets can be supported by the recoverable amount, being the higher of fair value less costs of disposal or net present value of future cash flows derived from continuing use of the assets in the business. The management performed an impairment assessment on its right-of-use assets and buildings as at 31 March 2021, with reference to the valuation report prepared by an independent qualified valuer using the depreciate replacement cost approach. The fair values of these assets were higher than their carrying amounts. Accordingly, no impairment loss is recognised for right-of-use assets and buildings based on the impairment assessment performed by the management as at 31 March 2021 (2020: Nil).

(5) 重大會計判斷及估計不明朗 因素之主要來源(續)

貿易應收賬款之減值虧損

本集團之貿易應收賬款之減值虧損乃 基於管理層作出之個別貿易債務之 可收回性評估及賬齡分析而估計。於 評估該等應收款項最終變現價值時, 須作出大量判斷,包括各客戶現時之 信譽及過往還款記錄。倘本集團客戶 之財務狀況惡化,導致其還款能力下 降,則或須作出額外撥備。

使用權資產及樓宇之減值

於二零二一年三月三十一日,使用權 資產及樓宇於發生事件或環境出現改 變,顯示該等資產之賬面值超過其可 收回金額時,檢討是否有減值。可收 回金額乃按使用價值計算或市場估值 釐定。該等估值須使用判斷及估計。

For the year ended 31 March 2021 截至二零二一年三月三十一日止年度

(5) CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Impairment of right-of-use assets and buildings (Continued)

As at 31 March 2021, the carrying amounts of right-of-useassets and buildings are approximately HK\$12,488,000 (2020: HK\$14,005,000) and HK\$112,258,000 (2020: HK\$106,323,000) respectively.

Impairment loss on slow-moving and obsolete inventories

Impairment loss on slow-moving and obsolete inventories is made based on the aging and estimated net realisable value of inventories. The assessment of the allowance amount involves judgement and estimates. Where the actual outcome in future is different from the original estimate, such difference will impact the carrying value of inventories and allowance charge/writeback in the period in which such estimate has been changed.

Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. These estimates are based on the current market condition and the historical experience of manufacturing and selling products of similar nature. It could change significantly as a result of changes in market condition. The Group will reassess the estimates by the end of each reporting period.

(5) 重大會計判斷及估計不明朗 因素之主要來源(續)

使用權資產及樓宇之減值(續)

於二零二一年三月三十一日,使 用權資產及樓宇之賬面值分別約 為12,488,000港元(二零二零年: 14,005,000港元)及112,258,000港元 (二零二零年:106,323,000港元)。

滯銷及過期存貨減值虧損

滞銷及過期存貨乃根據存貨之賬齡及 估計可變現淨值作出減值虧損。評估 撥備數額涉及判斷及估計。倘日後實 際結果與原先估計不同,則有關差額 將影響在有關估計變動之期間存貨賬 面值及撥備扣除/撥回。

可變現淨值乃存貨之估計售價減全部 估計完成成本及進行出售所需成本。 該等估計乃按照現行市況以及製造及 銷售類似性質之產品之過往經驗作 出。可變現淨值可因市況轉變而大幅 變動。本集團將於各報告期末重新評 估有關估計。

For the year ended 31 March 2021 截至二零二一年三月三十一日止年度

(5) CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Fair value of investments in convertible bonds

The fair value of convertible bonds invested by the Group is calculated using valuation techniques. Valuation techniques are certified by independent qualified valuers before being implemented for valuation and are calibrated to ensure that outputs reflect market conditions. Valuation models established by valuers make the maximum use of market inputs and rely as little as possible on the Group's specific data. The model involves estimates on time to expiration, risk free rate, share price, volatility, discount rate and others. As at 31 March 2021, the carrying amount of the convertible bonds as a whole invested by the Group is HK\$466,322,000 (2020: HK\$571,065,000).

Income taxes

The Group is subject to income taxes in several jurisdictions. Significant estimates are required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

(5) 重大會計判斷及估計不明朗 因素之主要來源(續)

可換股債券投資之公平值

本集團投資之可換股債券之公平值乃 採用估值法計算。估值法經獨立合資 格估值師於估值前核實並予以調整, 以確保得出之數據反映市況。估值師 就確保得出之數據反映市況。估值師 敵定之估值模式會充分利用市場輸入 數據而盡量少依賴本集團之特定數 據。該模式涉及對到期時間、無風險 利率、股價、波動、貼現率及其他因 素之估計。於二零二一年三月三十一 日,本集團投資之可換股債券之整體 賬面值為466,322,000港元(二零二零 年:571,065,000港元)。

所得税

本集團須繳納數個司法權區之所得 税。在釐定所得税撥備時,需要作出 重大估計。多項交易及計算之最終税 項釐定於日常業務過程中均屬不明 確。本集團按照是否有應繳額外税項 之估計。倘該等事宜之最終税務結果有 別於最初記賬之金額,有關差異將會 影響作出有關釐定期間之所得税及遞 延税項撥備。

On 12 May 2021, the Company and Innovative Pharm entered into, amongst others, the deed of amendment to amend and vary certain terms and conditions in the Innovative Pharm Bonds (the "Second Amendment Deed"), whereby the Original Maturity Date will be extended for 2 years to the New Maturity Date and the Innovative Pharm Bonds will be amended to the date falling on the ninth anniversary of the date of issue of the Innovative Pharm Bonds.

Regardless of whether the Second Amendment Deed was approved by the shareholders of the Company, the Innovative Pharm Bonds were classified as non-current assets because, in the opinion of the directors of the Company, the Company expected the Innovative Pharm Bonds to be recovered or settled more than twelve months after the reporting period. In assessing the presentation of the Innovative Pharm Bonds as current and non-current, the directors of the Company have taken into account the financial position of Innovative Pharm and the reasonable timing of the settlement of the Innovative Pharm Bonds, which is generally in line with expected timeline for commercialisation of the Product, and Innovative Pharm is expected to improve its financial position through obtaining of loans from banks, and equity financing as the capital market is expected to be less volatile following the large scale of COVID-19 vaccination worldwide including Hong Kong.

不論第二份修訂契據是否獲得本 公司股東批准,領航醫藥債券被 分類為非流動資產,此乃由於本 公司董事認為,本公司預期領航 醫藥債券將於報告期後十二個月 之後收回或結算。在評估領航醫 藥債券呈列為流動及非流動時, 本公司董事已考慮領航醫藥的財 務狀況及結算領航醫藥債券的合 理時間,而此與產品商品化之預 期時間表基本一致,而由於預期 資本市場之波動程度將會隨著全 球(包括香港在內)大規模接種新 冠病毒肺炎疫苗而下降,預期領 航醫藥將會透過從銀行獲得貸款 及進行股本融資以改善其財務狀 況。

(b) On 13 January 2012, Jilin Extrawell Changbaishan Pharmaceutical Co., Ltd. ("JECP"), a wholly-owned subsidiary of the Company subscribed for RMB2,500,000 of the registered capital of 龍脈(上海)健康管理服務有限公司 同 ("Shanghai Longmark") by way of capital injection. Shanghai Longmark is a company incorporated in the PRC and engaged in provision of health care management services. The subscription was completed in April 2012, and the enlarged registered capital of RMB12,500,000 of Shanghai Longmark was owned as to 20% by JECP and 80% by United Gene HealthCare Limited, Shanghai ("Shanghai United Gene"), which subsequently transferred its 80% interest in Shanghai Longmark to 東龍脈 (上海)健康管理服務有限公司 ("東龍脈") in December 2012. Both Shanghai United Gene and 東龍脈 are indirect wholly-owned subsidiaries of Innovative Pharm. Shanghai Longmark was accounted for as an associate of the Group upon the completion of subscription.

On 25 April 2013, JECP entered into a capital injection and subscription agreement with 東龍脈 and Xie Yi, a shareholder and director of the Company, in which Xie Yi agreed to subscribe for RMB7,490,000 (the "Subscription") of the registered capital of Shanghai Longmark. The Subscription was completed in August 2013, and the registered capital of Shanghai Longmark increased from RMB12,500,000 to RMB19,990,000. Accordingly, the Group's equity interest of Shanghai Longmark was diluted from 20% to 12.51%, and the respective shareholdings of 東龍脈 and Xie Yi in Shanghai Longmark was 50.02% and 37.47% respectively. As a result of dilution, the Group considered it was no longer in a position to exercise significant influence over Shanghai Longmark and Shanghai Longmark ceased to be an associate of the Group. Shanghai Longmark is accounted for as unlisted investments as the Group has the intention to hold the investment for a continuing strategic and long-term purpose and is measured at fair value. The investment cost was reduced to zero in prior years by share of loss of Shanghai Longmark.

The Group's associate, Smart Ascent Limited ("Smart Ascent") is a private company with no quoted market price available for its shares. The major asset held by Smart Ascent and its subsidiaries (the "Smart Ascent Group") is the intangible asset in relation to an in-process research and development project ("In-process R&D") involving an oral insulin product ("Product"). As at 31 March 2021, the Group has engaged an independent qualified valuer, Roma Appraisals Limited to conduct a valuation of the fair value of the interest in the associate for impairment assessment.

The asset-based approach was adopted in the valuation of the fair value of the Group's interest in the associate. In doing so, various assumptions about the cash flow projections of the Inprocess R&D and the Product were adopted. These assumptions include the successful completion of the clinical trials, obtaining of the regulatory approvals from the relevant government bodies (in particular, the granting of the certificate of new medicine and pharmaceutical manufacturing permit for the Product by China Food and Drug Administration, now known as National Medical Products Administration of the PRC), and launching of the Product by mid of 2023. The recoverable amount of the interest in the associate is determined based on the Group's share of the estimated fair value of the In-process R&D after taking into account the lack of control discount.

(41) SUMMARY OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES BY CATEGORY (Continued)

(a) Financial instruments not measured at fair value

Due to short term nature, the carrying values of financial assets and financial liabilities measured at amortised cost, excluding loan to an associate and liability component of convertible bonds, are approximate fair value.

(b) Financial instruments measured at fair value

Financial assets at fair value through other comprehensive income — Unlisted investment fund, at fair value The fair value hierarchy is level 2.

The market value, which approximates fair value, of this fund is primarily calculated based on the quoted prices of the underlying listed investments in active markets with certain adjustments made to reflect the interest of the fund holder.

Financial assets at fair value through profit or loss — Bank structured product, at fair value

The fair value hierarchy is level 2.

The fair value of the bank structured product is determined based on estimated return of 2.3% (2020: 3.0%) and the credit quality of these investments which can be assessed by reference to historical information or external credit ratings, if any, provided by the bank.

(b) Financial instruments measured at fair value (Continued)

Financial assets at fair value through profit or loss — Investments in convertible bonds The fair value hierarchy is level 3.

The fair value of investments in convertible bonds is determined based on risk-free rate for the life of the option on the Innovative Pharm Bonds, the exercise price per conversion share, share price (from observable market data), expected volatility of the share price, and expected dividend yield, of Innovative Pharm, where the estimated contractual cash flow on the liability component over the remaining term of the Innovative Pharm Bonds is discounted at the interest rate appropriate to the riskiness of the Innovative Pharm Bonds.

Significant unobservable inputs

Expected Volatility

Expected volatility of the share price of Innovative Pharm was determined by reference to historical share price of Innovative Pharm.

In respect of the sensitivity relationship of the fair value measurement to changes in inputs, an increase/(decrease) in the expected volatility would result in increase/(decrease) in fair value measurement that the higher the volatility of the share price of Innovative Pharm the higher the fair value.

Discount Rate

The discount rate was the rate adopted to calculate the present value of the cash flow of the Innovative Pharm Bonds and was estimated having taken into account the specific terms and structure of the Innovative Pharm Bonds including their liquidity. Increase/(decrease) in the discount rate would result in (decrease)/increase in the fair value.

Nevertheless, there would be counteracting effect among the inputs, and in certain extreme situation where the stock price of Innovative Pharm at 31 March 2021 and 2020 was significantly lower than that of the exercise price, the conversion option to convert the Innovative Pharm Bonds into shares of Innovative Pharm would be expected worthless and the expected volatility would have minimal effect on the fair value measurement.

There were no changes in valuation techniques for the years ended 31 March 2021 and 2020.

For the year ended 31 March 2021 截至二零二一年三月三十一日止年度

(42) FINANCIAL RISK MANAGEMENT

The Group's major financial instruments include investments in convertible bonds, trade and bills receivables, deposits and other receivables, pledged bank deposits, bank balances, trade and bills payables, accruals and other payables, loan to an associate, amount due from an associate and convertible bonds. Details of these financial instruments are disclosed in respective notes.

The Group's activities expose it to a variety of financial risks such as foreign currency risk, credit risk, liquidity risk and interest rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The management monitors and manages the financial risks through internal risk assessment which analyses exposures by degree and magnitude of risks.

(a) Foreign currency risk

Foreign exchange risk arises when commercial transactions, assets or liabilities are denominated in a currency that is not the functional currency of the group entities. The Group operates mainly in the PRC and Malaysia and is exposed to foreign currency exchange rate risk arising from various foreign currency exposures. The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

(42) 財務風險管理

本集團之主要金融工具包括可換股債 券投資、貿易應收賬款及應收票據、 按金及其他應收款項、已抵押銀行存 款、銀行結餘、貿易應付賬款及應付 票據、預提費用及其他應付款項、貸 款予一間聯營公司、應收一間聯營公 司款項及可換股債券。該等金融工具 之詳情於相關附註披露。

本集團之活動令本集團面臨多種財務 風險,如外幣風險、信貸風險、流動 資金風險及利率風險。本集團之整體 風險管理計劃集中在金融市場之不 可預測性,並尋求盡量減低對本集團 財務表現之潛在不利影響。管理層通 過內部風險評估,分析風險程度及廣 度,監控及管理財務風險。

(a) 外幣風險

外匯風險於集團實體以非功能貨幣之貨幣列值之商業交易、資產 或負債而產生。本集團之業務 要於中國及馬來西亞經營,並面 臨多種外幣產生之外幣匯率風 險。本集團現時並無外幣對沖政 策。然而,管理層會監察外匯風 險,並將於必要時考慮對沖重大 外幣風險。

(42) FINANCIAL RISK MANAGEMENT (Continued)

(a) Foreign currency risk (Continued)

The following table illustrates the approximate change in the Group's loss for the year and retained profits in response to reasonably possible changes in the foreign exchange rates to which the Group has significant exposure at the end of each of the following years:

(42) 財務風險管理(續)

(a) 外幣風險(續)

下表説明本集團本年度虧損及保 留溢利之概約變動以回應本集團 於以下各年度末面對重大風險之 匯率的合理可能變動:

| | | 2021 二零二一年 HK\$'000 千港元 | 2020 二零二零年 HK\$'000 千港元 |
|------------------------|---------|----------------------------------|----------------------------------|
| Euro appreciated by 5% | 歐元升值5% | (146) | (182) |
| RMB appreciated by 5% | 人民幣升值5% | (1,348) | (77) |

The change in exchange rates do not affect the Group's other component of equity. The same percentage depreciation in the foreign currencies against the functional currency of the respective group companies would have the same magnitude on profit and retained profits but of opposite effect.

The sensitivity analysis has been determined assuming that the change in foreign exchange rates had occurred at the end of each of the reporting period and had been applied to each of the group entities; exposure to currency risk for financial instruments in existence at that date, and that all other variables, in particular interest rates, remain constant. The stated changes represent management's assessment of reasonably possible changes in foreign exchange rates over the period until the next reporting date. 匯率變動不會影響本集團其他權 益部分。外幣兑各集團公司之功 能貨幣之同一百分比貶值對溢利 及保留溢利構成相同幅度但反面 之影響。

敏感度分析乃假設匯率於各報告 期末已發生變動而釐定,並應用 於各集團實體,就金融工具所承 受之貨幣風險於該日期已存在, 以及所有其他變數(特別是利率) 維持不變。所述變動代表管理層 對匯率於直至下個報告日期前期 間之合理可能變動之評估。

For the year ended 31 March 2021 截至二零二一年三月三十一日止年度

(42) FINANCIAL RISK MANAGEMENT (Continued)

(b) Interest rate risk

The Group's cash flow interest rate risk primarily relates to variable-rate pledged bank deposits and bank balances (see notes 27 and 28 respectively for details). The Group currently does not have interest rate hedging policy. However, the management of the Group will consider hedging significant interest rate exposure should the need arise. The management considers the Group's exposure to future cash flow interest rate risk is minimal taking into account the minimal fluctuation on market interest rate. Accordingly, no sensitivity analysis is presented.

(c) Liquidity risk

The Group actively manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that all operating, investing and financing needs are met. The liquidity risk management strategy adopted by the Group is to measure and forecast its cash commitments and maintains a level of cash and cash equivalents deemed adequate to finance the Group's activities.

(42) 財務風險管理(續)

(b) 利率風險

本集團之現金流量利率風險主要 與以浮動利率計息之已抵押銀行 存款及銀行結餘(詳情分別見附 註27及28)有關。本集團現時並 無利率對沖政策。然而,本集團 管理層將於必要時考慮對沖重大 利率風險。鑒於市場利率之波動 甚微,管理層認為本集團承受未 來現金流量利率之風險甚微。因 此,概無呈列敏感度分析。

(c) 流動資金風險

本集團積極管理其債務到期情 況、經營現金流量及可動用資 金,以確保可應付所有經營、投 資及融資需要。本集團採納之流 動資金風險管理策略為計量及預 測其現金承擔及將現金及現金等 值項目維持於被視為足以撥付本 集團活動之水平。

(42) FINANCIAL RISK MANAGEMENT (Continued)

(d) Credit risk (Continued)

As at 31 March 2021, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is the carrying amounts of the respective recognised financial assets as stated in the consolidated statement of financial position.

The investments in convertible bonds as at 31 March 2021 expose the Group to concentration of credit risk. At the end of the reporting period, the Group assessed the financial position and performance of the issuer of the convertible bonds of carrying amount HK\$466,322,000 (2020: HK\$571,065,000) and in view of the net assets of the issuer and its ongoing core operating segment related to the In-process R&D of the Product, the management considers the default risk on the investments in convertible bonds is not significant.

The Group also has concentration of credit risk as 18% (2020: 18%) of the total trade receivables were due from the Group's major customers, which are privately owned PRC companies engaged in trading of pharmaceutical products. The directors of the Company considered that the credit risk of trade receivables is insignificant after considering the credit quality and financial ability of these customers. In respect of trade receivables, individual credit evaluations are performed on all customers requiring credit over a certain amount. The Group has policies in place to ensure that sales are made to customers with an appropriate credit history. These credit evaluations focus on the customers' past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. The Group will make specific provision for those balances which cannot be recovered. Normally, the Group does not obtain collateral from customers. In the opinion of the directors, the default risk of the Group is considered to be low.

於二零二一年三月三十一日,本 集團所面對之最大信貸風險(會 因交易對手未能履行責任而令本 集團承擔財政損失)為綜合財務 狀況表列載之各項已確認金融資 產之賬面值。

於二零二一年三月三十一日之可 換股債券投資令本集團信貸風險 集中。於報告期末,本集團評估 賬面值為466,322,000港元(二零 年:571,065,000港元)之可 換股債券發行人之財務狀況及 現,鑒於發行人擁有之資產了 以及其核心營運分類在進行有關 產品的進行中之研發,管理層認 為可換股債券投資之違約風險並 不重大。

本集團信貸風險集中,因為貿易 應收賬款總額中18%(二零二零 年:18%)乃應收本集團之主要 客戶款項,該等客戶為從事藥品 貿易之中國私人公司。經考慮該 等客戶之信貸質素及財政能力 後,本公司董事認為貿易應收賬 款之信貸風險並不重大。就貿易 應收賬款而言,對所有要求超過 若干金額信貸之客戶進行獨立信 貸評估。本集團訂有適當政策可 確保銷售對象為信貸記錄良好 之客戶。該等信貸評估著重評核 客戶支付到期款項之過往記錄, 以及目前之支付能力,並考慮客 戶特定資料及有關客戶經營所在 經濟環境之資料。本集團將會為 該等不能收回之結餘作出特定撥 備。一般而言,本集團並無向客 戶收取抵押品。董事認為,本集 團面對之違約風險為低。
