Chairlady's Statement

On behalf of the Board, I am pleased to report to shareholders that the Group continued to achieve profitable results for the year ended 31 March 2021 ("FY2021").

RESULTS

The Group continued to operate in four business segments, namely, forest-related business comprising timber supply chain and sustainable forest management, money lending and leasing of properties.

For FY2021, the Group continued to deliver an impressive financial performance by achieving a 36% increase in revenue to HK\$842,631,000 (2020: HK\$619,241,000) and a 12% increase in net profit to HK\$38,689,000 (2020: HK\$34,561,000). The Group recorded a profit attributable to owners of the Company of HK\$33,080,000 (2020: HK\$33,709,000) and a basic earnings per share of HK0.36 cent (2020: HK0.37 cent), amid the adverse business impact brought by the COVID-19 pandemic on a global scale, the trade disputes between China and the US, and the political and social events took place in Hong Kong. Backed by the great efforts of the management, the timber supply chain and money lending businesses continued to register encouraging results, which respectively contributed HK\$30,619,000 and HK\$26,466,000 to the Group's profitable results for the year. The Group has demonstrated the strength and resilience of its businesses in weathering the unprecedented market challenges and the slowdown of economic activities globally.

The Group's timber supply chain business has achieved remarkable progress during the year following the strategic move to build a global network of supply sources in Europe, Oceania and Africa to serve customers predominantly in China as well as in other Asian countries. Supported by the great efforts of the management teams stationed in Europe, the Group's timber supply chain operation (the "TSC Operation") in Europe has registered significant business development and so far successfully established three distribution hubs in Slovenia, Romania and Croatia as well as two wood lumber processing ventures in Romania and Croatia. For FY2021, the TSC Operation registered growth in both its revenue and operating profit by reporting HK\$807,830,000 (2020: HK\$583,584,000) and HK\$30,619,000 (2020: HK\$15,634,000) respectively, representing a remarkable year-on-year growth of 38% and 96%. The substantial growth in revenue and profit of the TSC Operation were partly due to the additional volume of timber trades contributed by the Group's TSC Operation in Europe, which earns a higher profit margin than the existing business of the operation, and partly due to the organic growth of the operation's existing business. The transaction volume of timber and wood products traded rose to over 493,000 m³ or a 50% increase over the prior year (2020: 329,000 m³), and a majority of the transactions were conducted on CFR (Cost & Freight) basis with logistics support provided by the Group. The TSC Operation is leading by experienced management teams stationed in Hong Kong and Europe with extensive business network in the industry. With their great efforts, a solid supplier and customer base have been built over the years which contributed to the continuing increase in transaction volume of the operation.

The Group's money lending business continued to deliver encouraging results for FY2021 by generating a revenue of HK\$34,001,000 (2020: HK\$34,193,000) and an operating profit of HK\$26,466,000 (2020: HK\$29,275,000). The decrease in profit of the operation by 10% was mainly a result of the increase in impairment losses on loan receivables by 106% to HK\$3,478,000 (2020: HK\$1,685,000), which was determined after performing assessment on the current creditworthiness of the borrowers on an individual basis by considering factors including their repayment history and value of collateral provided, and the credit status of the Group's loan and finance lease portfolio on a collective basis in view of the current economic and market conditions, in particular, the negative impact on the Hong Kong economy owing to the continuation of the COVID-19 pandemic, and the series of political and social events took place in Hong Kong.

Chairlady's Statement

PROSPECTS

Since the change of the substantial shareholder of the Company to Champion Alliance Enterprises Limited on 12 October 2017 and the appointment of the new executive directors to the Board of the Company since October 2017, the directors and management team of the Company have used their best endeavour to improve the businesses of the Group. The results are very encouraging and the Group has been profit-making for four consecutive financial years ended 31 March 2021. The scale of the Group's operation, in particular the timber supply chain and the money lending businesses, have expanded significantly. It is the mission of the management to continuously explore organic growth and vertical expansion business opportunities, with the aim to further expand the scale of the Group's operations and to create new value to shareholders.

The Group has continued to opening up new business ventures in Europe in order to diversify and strengthen its timber supply chain business. During the year, the Group has newly set up a distribution hub and a wood lumber processing venture in Croatia to capture the ample business opportunities available there. The TSC Operation will continue its business expansion plan in setting up more distribution hubs and wood processing ventures in strategic locations in Europe for the purpose of further enlarging its supplier and customer base, as well as expanding its product type and revenue source.

Looking ahead, there are signs that the launch of vaccination programs in China and Hong Kong and many countries in Europe including Slovenia, Romania and Croatia have successfully eased their pandemic situations and paved the way for their economies to fully reactivate. Nevertheless, it is difficult to predict the evolution and duration of the pandemic and the Group will thus continue to adopt a prudent approach in managing its timber supply chain and money lending businesses and be cautious in seizing new business opportunities.

APPRECIATION

The Group has achieved very encouraging results for FY2021 in terms of revenue and profit growth, and with the great efforts of the management and all staff members, the trading of the Company's shares has been resumed on the Stock Exchange on 27 May 2021. Taking this opportunity, I would like to express my sincere gratitude to all shareholders, bankers, business associates, suppliers and customers for their continuing support to the Group, and to my fellow directors and all staff members for their contributions and hard work during the past years.

Wang Jingyu Chairlady

Hong Kong, 30 June 2021

BUSINESS REVIEW

For the year ended 31 March 2021 ("FY2021"), the Group continued to operate in four business segments, namely, forest-related business comprising timber supply chain and sustainable forest management, money lending and leasing of properties.

The Directors are pleased to report that the Group continued to deliver an impressive financial performance by achieving a 36% increase in revenue to HK\$842,631,000 (2020: HK\$619,241,000) and a 12% increase in net profit to HK\$38,689,000 (2020: HK\$34,561,000), amid the adverse business impact brought by the COVID-19 pandemic on a global scale, the trade disputes between China and the US, and the political and social events took place in Hong Kong. Supported by the great efforts of the management, the timber supply chain and money lending businesses continued to register encouraging results, which respectively contributed HK\$30,619,000 and HK\$26,466,000 to the Group's profitable results for the year. The Group has demonstrated the strength and resilience of its businesses in weathering the unprecedented market challenges and the slowdown of economic activities globally.

Forest-related Business

Timber Supply Chain

The Group's timber supply chain operation (the "TSC Operation") has achieved remarkable progress during the year following the strategic move to build a global network of supply sources in Europe, Oceania and Africa to serve customers predominantly in China as well as in other Asian countries. For FY2021, the TSC Operation achieved a revenue of HK\$807,830,000 (2020: HK\$583,584,000) and a profit of HK\$30,619,000 (2020: HK\$15,634,000), representing significant increases of 38% and 96% over their respective comparable in the prior year.

The substantial growth in revenue and profit of the TSC Operation was partly due to the additional volume of timber trades contributed by its operation in Europe, which earns a higher profit margin than its existing business; and partly due to the organic growth of the operation's existing business. The transaction volume of timber and wood products traded rose to over 493,000 m³ or a 50% increase over the prior year (2020: 329,000 m³), and a majority of the transactions were conducted on CFR (Cost & Freight) basis with logistics support provided by the Group. The TSC Operation is leading by experienced management teams stationed in Hong Kong and Europe with extensive business network in the industry. With their great efforts, a solid supplier and customer base have been built over the years which contributed to the continuing increase in transaction volume of the operation.

The TSC Operation is currently running two lines of business: the Conventional Business Model (the "CBM") and the Enhanced Business Model (the "EBM").

СВМ

The CBM essentially represents the existing business of the TSC Operation other than its operation in Europe. Currently under the CBM, the operation principally performs a wholesaler role which sources mainly tropical domain hardwood timber from suppliers/forest owners in Republic of Congo and Papua New Guinea and sells or distributes to customers predominately in China and other overseas countries, being fully responsible for all the logistics of the sea transport which usually involves the chartering of dry bulk vessels. For FY2021, the CBM running under the TSC Operation generated a revenue of HK\$551,002,000 (2020: HK\$542,023,000) and a profit of HK\$13,242,000 (2020: HK\$13,282,000), representing approximately 274,000 m³ (2020: 285,000 m³) of hardwood logs traded.

EBM

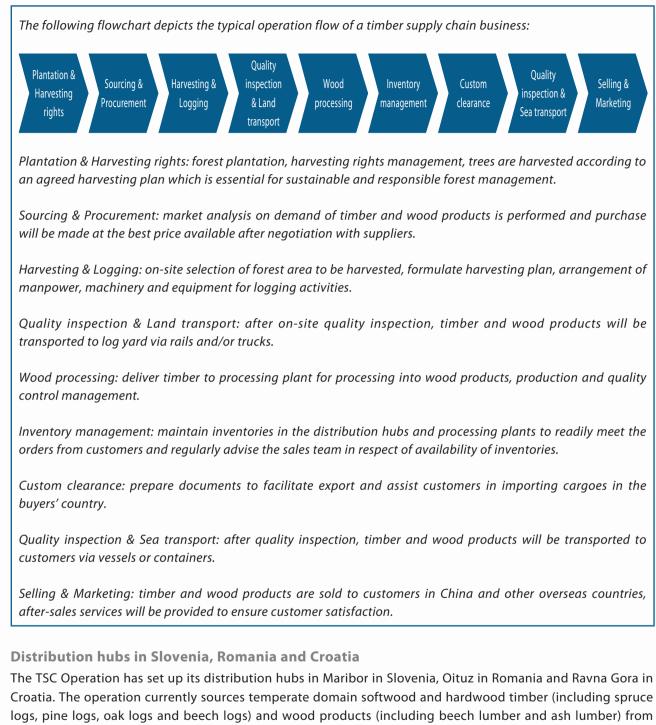

The EBM principally represents the business activities of the TSC Operation in Europe (the "European Operation"). The EBM is essentially a vertically-integrated timber supply chain operation which has coverage on every value-added works and services of a typical timber supply chain, including plantation & harvesting right, sourcing & procurement, timber harvesting & logging, quality inspection & land/sea transport, wood processing, inventory management, custom clearance, selling & marketing and after-sales services. The TSC Operation is currently running the EBM via its three distribution hubs in Slovenia, Romania and Croatia and its two wood processing ventures in Romania and Croatia. For FY2021, the EBM running under the TSC Operation generated a revenue of HK\$256,828,000 (2020: HK\$41,561,000) and a profit of HK\$17,377,000 (2020: HK\$2,352,000), representing approximately 219,000 m³ (2020: 44,000 m³) of logs and wood products traded.

Wood lumber produced by the Group's timber processing venture in Romania

The Group's distribution hub in Slovenia

timber suppliers/forest owners in countries including Germany, Czech Republic, Romania, Croatia, Slovenia, Italy, Austria, Poland, Slovakia, Hungary and Serbia and sells or distributes to customers predominately in China and other Asian countries with logistics support providing by the operation, which usually involves land transport via rails and trucks and sea transport via containers.

Wood processing venture in Romania

The TSC Operation has established a wood processing venture in Oituz in Romania and has entered into a harvesting right agreement with a Finnish leading forest management group for conducting timber logging in its forest interest in Oituz for a term of four years. The operation has engaged local logging teams to conduct the logging activities and a wood processing plant for producing lumber. The wood harvested by the logging teams, together with wood purchased from other forest owners (depending on the ordered quantity of sales orders on hand, the operation may purchase wood from other forest owners in order to fulfill the sales orders in case that the wood harvested by the logging teams is not sufficient to fulfill the orders), are used as inputs to the processing plant engaged to produce wood lumber. At times when customers' sales orders exceed the production capacity of the processing plant the Group engaged, the operation may purchase lumber from other local suppliers in order to fulfill the customers' orders. The lumber produced or purchased are then stored and kept as inventories until sold and delivered to customers under logistic arrangements providing by the operation.

Wood processing venture in Croatia

The TSC Operation has completed the set-up of another lumber processing venture in Croatia in January 2021. The operation entered into a service agreement with a wood processing plant in Croatia for a term of three years to produce beech and ash lumber in order to take advantage of the abundant local supply of beech and ash timber.

As the European Operation captures the additional monetary benefits through providing many value-added works and services in a typical timber supply chain, the gross profit generating under the EBM is higher than that of the CBM. The establishment of the distribution hubs in Slovenia, Romania and Croatia and the timber processing ventures in Romania and Croatia have significantly enhanced the competitive advantages of the Group's timber supply chain business, and effectively expanded and diversified the operation's customer base, revenue source, product type and market coverage. European timber logs and wood products are of high demand in China because of their high quality and wide usage. At 31 March 2021, the TSC Operation kept inventories amounting to HK\$41,148,000 (2020: HK\$33,397,000) in order to serve its customers in an efficient and effective manner. The diversity of the Group's timber supply chain business in terms of customer base, supply source and product type substantially enhances its strength and resilience to weather market challenges, and forms a solid base for its further development and growth.

The European Operation is effectively 51% owned by the Group and 49% owned by the partner of the business venture.

Sustainable Forest Management

Since the Group suspended its harvesting operations in the State of Acre, Brazil owing to the unfavourable business environment in 2012, the Group had continued to explore the optimal way to enhance the income stream from its forest assets. However, due to the unstable economic environment in Brazil and in view of the possibility of facing similar extortion threats from local parties in Brazil as the Group had experienced in the past, operating the forest assets through own harvesting was considered to be unfavourable to the Group. As a result, the Board decided to change the operational model of the Group's forest assets to licensing of harvesting rights in June 2014 and since then, the Group has been actively looking for potential licensees for its forest assets. At 31 March 2021, the Group has accumulatively granted harvesting rights for over 50% of the 44,500 hectares of forest areas owned by the Group.

For FY2021, the revenue of the sustainable forest management business, representing income from licensing of harvesting rights, decreased by 42% to HK\$800,000 (2020: HK\$1,369,000) and the business incurred loss of HK\$599,000 (2020: HK\$663,000). The decrease of the licensing income was mainly caused by the depreciation of Brazilian Real and the completion of a licensing contract during FY2021. The Group will continue to solicit more licensees including sawmill owners so as to enhance the income stream of this business.

Money Lending Business

For FY2021, the Group's money lending business continued to achieve encouraging results by generating a revenue of HK\$34,001,000 (2020: HK\$34,193,000) and an operating profit of HK\$26,466,000 (2020: HK\$29,275,000). The decrease in profit of the operation by 10% was mainly a result of the increase in impairment losses on loan receivables by 106% to HK\$3,478,000 (2020: HK\$1,685,000), which was determined after performing assessment on the current creditworthiness of the borrowers on an individual basis by considering factors including their repayment history and value of collateral provided, and the credit status of the Group's loan and finance lease portfolio on a collective basis in view of the current economic and market conditions, in particular, the negative impact on the Hong Kong economy owing to the continuation of the COVID-19 pandemic, and the series of political and social events took place in Hong Kong. During the year, the Group granted new loans in an aggregate principal amount of HK\$168,863,000 at interest rates ranging from 10% to 13% per annum, and tenors from 6 to 24 months. The management continued to put great efforts in strategically expanding the business's sales channels via traditional and digital media, sales agents, cooperation with property agents and participation in co-lending activities. At 31 March 2021, the Group's portfolio was constituted by 28 loans and finance lease with carrying amount totalling HK\$283,904,000 (2020: HK\$312,425,000) (net of impairment loss on loan receivables of HK\$5,141,000 (2020: HK\$1,980,000)). Details of the loan and finance lease portfolio are as follows:

Type of	Approximate weighting to the carrying amount of the Group's loan and finance	Interest rate	Original	
loan/finance lease	lease portfolio	per annum	maturity	Remarks
First mortgage loans	84%	8.75%-14.5%	Within three years	Loans were secured by properties located in Hong Kong
Second mortgage loans	4%	13.5%-18%	Within two years	Loans were secured by properties located in Hong Kong
Corporate loans	11%	9%-12.5%	Within one year	Loans were granted to listed companies in Hong Kong or were secured by collaterals
Finance lease	1%	11%	Within three years	The finance lease was secured by a motor vehicle
Total	100%			

The Group's loan and finance lease portfolio was well spread with an average loan size of around HK\$10 million, credit healthy as 93% of the portfolio was secured by collaterals, and earning a good return with weighted average interest rate amounting to approximately 11%.

Before granting loans to potential borrowers, the Group performs credit assessment process to assess the potential borrowers' credit quality individually and defines the credit limits granted to the borrowers. The credit limits granted to the borrowers are reviewed by the management regularly.

Risk management is an integral part of the success of the money lending business. The Group has clear credit policies, guidelines, controls and procedures in place which cover every aspect of the operation from information verification, credit assessment, loan approval, monitoring to collection. The operation has clear authorisation and approval hierarchy and is led and managed by qualified and experienced personnel. The management team is able to deliver expedite credit approval process to customers without compromising commercial benefits of lending decisions made.

Verification: documents and information provided by the loan applicant will be verified by the delegated loan officer and where appropriate, legal and credit search on the loan applicant will be conducted.

Assessment: credit assessment on the loan applicant will be performed by the delegated loan officer and reviewed by the supervising officer, by making reference to the financial background and credit history of the applicant, and value of the collateral provided (if any), where appropriate, the credit assessment on the applicant will be further reviewed by the responsible director.

Approval: if the loan application is approved, the delegated loan officer will arrange preparation and signing of the loan documentations and the supervising officer will ensure their proper execution, including drawdown of the loan proceeds by the applicant.

Monitoring: there will be continuous monitoring on loan repayments from individual borrower by the loan officer and regular review if there are material changes of the borrower's repayment ability by the supervising officer, where appropriate, impairment allowance on individual loan will be made if there is deterioration of credit quality of the loan with approval from the responsible director.

Collection: will make calls and send reminders to individual borrower for overdue loan repayment and when there is a default of loan repayment, will take appropriate enforcement action, including legal action, to recover the loan.

In assessing expected credit losses, the loan receivables have been assessed with reference to the latest analysis on credit rating of the loans on individual and collective basis. The Group's portfolio mainly comprised mortgage loans, and the loan to value ratio for each of the mortgaged properties has been under regular review. At 31 March 2021, the loan to value ratios of all mortgaged properties were within the safety margin. For corporate loans, the credit rating of the loans were analysed with reference to the borrowers' creditworthiness and credit history, including their financial positions, previous records of default in payment, value of collaterals pledged and prevailing market conditions. During FY2021, an impairment loss on loan receivables of HK\$3,478,000 (2020: HK\$1,685,000) had been provided in accordance with the Group's credit impairment policy and resulted in accumulated expected credit losses totalling HK\$5,141,000 (2020: HK\$1,980,000) at 31 March 2021.

In January 2020, the Company successfully issued interest bearing notes totalling HK\$50,000,000 to investors for funding the development of the money lending business. The notes are secured by a debenture over the assets of a money lending subsidiary of the Company which effectively represents securitisation of its loan and finance lease portfolio. This financing arrangement strategically paves the way for the Group to raise further funding from the Hong Kong capital market for developing its money lending business.

Leasing of Properties

The Group was not holding any investment property during FY2021. The Group has been seeking acquisition opportunities of investment properties with good yield and/or high appreciation potential. However, as the conditions of the property market in Hong Kong have been volatile during the past years, the management has acted prudently in evaluating potential acquisition opportunities. The Group's present business strategy is to allocate its financial resources to the money lending and timber supply chain businesses which generate higher and good yields.

FINANCIAL REVIEW

In order to cope with the Group's expanding scale of operation and continuous business development, on 26 March 2018, Champion Alliance Enterprises Limited ("Champion Alliance"), a substantial shareholder of the Company, granted to the Company a loan facility to the extent of HK\$200,000,000 (the "Loan Facility") to meet its working capital requirements. The Loan Facility is unsecured and interest-free and has been mainly applied to the Group's money lending and timber supply chain businesses to facilitate their significant business developments. At 31 March 2021, the outstanding amount under the Loan Facility was HK\$155,000,000.

For the purpose of financing the operation of the timber supply chain business, the Group has also obtained from well-established banks in Hong Kong bills discounting facilities of US\$200,000,000 and HK\$50,000,000 (the "Bills Discounting Facilities"). The Bills Discounting Facilities obtained have substantially strengthened the Group's financial flexibility in conducting its timber supply chain business. At 31 March 2021, the advances drawn under the Bills Discounting Facilities amounted to HK\$62,396,000 (2020: HK\$66,997,000).

In January 2020, the Company entered into a placing agreement with a placing agent, on a best effort basis, to procure placees to subscribe for notes with an aggregate principal amount of up to HK\$300,000,000, carrying interest at 7.125% per annum, and maturing on the third anniversary of the issue date for each tranche of the notes (the "Three-Year Notes") issued. A debenture incorporating a first floating charge over all the undertakings, property and assets of Reliance Credit Limited ("Reliance Credit"), one of the Group's money lending subsidiaries, has been issued in favour of a security trustee as trustee for the noteholders. The first tranche of the Three-Year Notes which amounted to HK\$50,000,000 has been issued in January 2020. Owing to the continuation of the COVID-19 pandemic, the placing exercise has been delayed. Accordingly, on 25 June 2021, the Company and the placing agent entered into an extension letter to further extend the closing date (i.e. the last day of the placing period) under the placing agreement to 30 June 2022.

The increase in the Group's finance costs to HK\$5,393,000 for the year (2020: HK\$1,942,000) was mainly a result that full-year interests amounting to HK\$3,562,000 (2020: HK\$752,000) were paid for the first tranche of the Three-Year Notes of HK\$50,000,000 issued in January 2020.

In addition, in March 2021, the Group has successfully solicited a revolving loan facility of up to HK\$70,000,000 (the "Revolving Loan Facility") from a reputable finance company to replenish its working capital for continuous expansion of its money lending business. The loan facility has been entered into in May 2021 with Reliance Capital Finance Limited ("Reliance Capital"), the other money lending subsidiary of the Group, as the borrower and the Company as the guarantor. The loan(s) drawdown under the facility will be secured by submortgage the property collaterals obtained by Reliance Capital from granting first mortgage loans. Reliance Capital has made its first drawdown of approximately HK\$59,739,000 in June 2021 by sub-mortgage the property collaterals obtained under two first mortgage loans.

Liquidity and Financial Resources

For FY2021, the Group financed its businesses mainly by cash generated from operations, the Bills Discounting Facilities provided by banks, the Loan Facility from Champion Alliance, the first tranche of the Three-Year Notes issued and the shareholders' funds.

At 31 March 2021, the Group had current assets of HK\$482,030,000 (2020: HK\$474,175,000) and cash and cash equivalents of HK\$109,198,000 (2020: HK\$96,981,000). The Group's current ratio, calculated based on current assets over current liabilities of HK\$247,542,000 (2020: HK\$306,591,000), was at a strong ratio of about 1.9 (2020: 1.5). The rise of the current ratio was mainly due to the decrease of advance received from Champion Alliance by HK\$35,000,000 resulting from the repayments made during the year from the Group's surplus funds on hand.

At 31 March 2021, the Group's borrowings comprised the first tranche of the Three-Year Notes of HK\$50,000,000 (2020: HK\$50,000,000) and bank borrowings of HK\$62,396,000 (2020: HK\$66,997,000) which represented the advances for bill receivables discounted to banks with full recourse to the Group. The bank borrowings bore interests at floating rates, secured by the relevant bill receivables and were repayable within one year.

The Group's gearing ratio, expressed as a percentage of total borrowings of HK\$112,396,000 (2020: HK\$116,997,000) over equity attributable to owners of the Company of HK\$231,012,000 (2020: HK\$197,917,000), decreased to 49% at 31 March 2021 (2020: 59%) that was mainly due to the increase in the Group's reserves as a result of the profit earned during the year.

At 31 March 2021, the Group's total assets slightly decreased by HK\$22,658,000 or 4% to HK\$536,414,000 (2020: HK\$559,072,000). Backed by the Bills Discounting Facilities from banks, the Loan Facility from Champion Alliance, the proceeds from the issuance of the first tranche of the Three-Year Notes and the Revolving Loan Facility subsequently obtained from a reputable finance company, the management is confident that the Group has sufficient working capital to finance its continuous business development and substantial asset base.

At 31 March 2021, the equity attributable to owners of the Company increased by 17% or HK\$33,095,000 to HK\$231,012,000 (2020: HK\$197,917,000). The increase was mainly due to the profits earned by the Group's timber supply chain and money lending businesses.

With the amount of liquid assets on hand, the Bills Discounting Facilities from banks, the Loan Facility from Champion Alliance, the Revolving Loan Facility from a reputable finance company, the management is of the view that the Group has sufficient financial resources to meet its ongoing operational requirement.

Charge on Assets

A debenture incorporating a first floating charge over all the undertakings, property and assets of a wholly owned subsidiary of the Company engaging in money lending business, namely Reliance Credit, has been issued in favour of a security trustee as trustee for the noteholders in relation to the Three-Year Notes. On 15 January 2020, the first tranche of the Three-Year Notes amounted to HK\$50,000,000 has been issued.

At 31 March 2021, bill receivables of HK\$62,396,000 (2020: HK\$66,997,000) were pledged to banks to secure advances drawn on the bill receivables.

Contingent Liabilities

At 31 March 2021, except for the litigation set out in note 38 to the consolidated financial statements, the Group had no other significant contingent liability.

Litigation

At 31 March 2021, there was a claim of approximately HK\$1,775,000 (approximately R\$1,291,000) against the Group which had been included in other payables, details of the ongoing litigation are set out in note 38 to the consolidated financial statements.

Foreign Exchange Risk

The Group mainly operates in Hong Kong, Europe and Brazil. During FY2021, the revenue, costs and expenses of the Group's operations were denominated in Hong Kong dollar, United States dollar, Euro, Romanian Leu, Croatian Kuna, Brazilian Real and Renminbi.

The Group maintains a prudent strategy in its foreign currency risk management, where possible, foreign exchange risks are minimised via balancing the foreign currency monetary assets versus the corresponding currency liabilities, and foreign currency revenues versus the corresponding currency expenditures. The Group is not subject to foreign exchange risk of United States dollar as it is pegged with Hong Kong dollar, the Group is nevertheless exposed to potential foreign exchange risk as a result of fluctuations of Euro, Romanian Leu, Croatian Kuna, Brazilian Real and Renminbi. In addition, some of the Group's assets are located in Europe and Brazil and denominated in Euro, Romanian Leu, Croatian Kuna and Brazilian Real while the Group's reporting currency is in Hong Kong dollar, this also exposes the Group to potential foreign exchange risk upon translation of these assets on each reporting date.

During FY2021, the Group had not experienced any significant exposure to exchange rate appreciation of Euro since the Euro denominated expenditures were largely matched with the Euro denominated revenues. As for Romanian Leu, Croatian Kuna, Brazilian Real and Renminbi, the Group's exposure to their exchange rate fluctuations were not significant as their weightings to the Group's total transaction volume, assets and liabilities were low. For the Group's assets in Europe and Brazil, any foreign exchange gains or losses due to translation of the carrying value of these assets to the Group's reporting currency on the reporting dates are unrealised and non-cash in nature, accordingly, the Group has not entered into any arrangements or financial instruments for the purpose of hedging against these potential foreign exchange risks. The Group will closely monitor its foreign currency exposure and undertake appropriate hedging measures should significant exposure arise.

OVERALL RESULTS

The Group continued to report profitable results for FY2021 by achieving profit attributable to owners of the Company of HK\$33,080,000 (2020: HK\$33,709,000), basic earnings per share of HK0.36 cent (2020: HK0.37 cent), and a total comprehensive income attributable to owners of the Company of HK\$33,095,000 (2020: HK\$32,987,000). The Group's administrative expenses increased by 19% to HK\$23,363,000 (2020: HK\$19,592,000) was mainly a result of the increase in staff costs and administrative expenses of the Group's European Operation.

HUMAN RESOURCES AND REMUNERATION POLICY

At 31 March 2021, the Group had 51 employees (including directors) (2020: 42) stationed in Hong Kong, China, Europe and Brazil. During FY2021, the total remuneration paid by the Group to its employees (including directors) increased by 31% to HK\$12,150,000 (2020: HK\$9,294,000) and was mainly a result of the increase in headcount of the Group's European Operation. The Group rewards its employees (including directors) according to prevailing market practices, individual competence, experience and performance, and requirements under applicable labour laws where the Group's operations are located. In addition to the provision of paid holidays, annual bonus, provident fund scheme, medical insurance, subsidised training programmes, employees (including directors) may also be entitled to discretionary bonuses and share options.

PRINCIPAL RISK AND UNCERTAINTIES

The Group is principally engaged in the business of forest-related business comprising timber supply chain and sustainable forest management, money lending and leasing of properties. The financial position, operations, businesses and prospects of the Group and its individual business segment are affected by the following significant risk and uncertainty factors:

Business Risk

The global economic conditions and the state of international financial and investment markets, including the economy, financial and investment markets of Hong Kong, Mainland China, Europe and Brazil, of which the Group has no control, have significant influences on the business and financial performance of the Group. The management policy to mitigate this risk is to diversify the Group's businesses and to diversify its investments (where possible) within the same business.

Market Risk

The Group's money lending business and timber supply chain business are operating in a competitive environment that exert pressure on the revenue and profitability of these businesses. The management policy to mitigate this risk is to continue to put effort in enlarging the market share and enhancing the market competitiveness of these businesses by various means.

Natural Risk

The ability to harvest wood and the growth of trees in forests may be affected by unfavourable local weather conditions and natural disasters. Weather conditions such as floods, droughts, cyclones and windstorms and natural disasters such as earthquakes, fire, disease, insect infestation and pests are examples of such events. The occurrence of severe weather conditions or natural disasters may diminish the supply of trees available for harvesting, or otherwise impede the logging operations or the growth of trees in forests, which in turn may have an adverse effect on the Group's forest-related business.

Financial Risk

The Group is exposed to financial risks relating to credit risk, liquidity risk, foreign currency risk and interest rate risk in its ordinary course of business. For further details of such risks and relevant management policies, please refer to note 35 to the consolidated financial statements.

COMPLIANCE WITH RELEVANT LAWS AND REGULATIONS

As far as the Board and management are aware, the Group has complied in material respects with the relevant laws and regulations that have significant impact on the businesses and operations of the Group. During FY2021, there was no material breach of or non-compliance with the applicable laws and regulations by the Group.

RELATIONSHIP WITH EMPLOYEES, CUSTOMERS AND SUPPLIERS

The Group understands the importance of maintaining a good relationship with its employees, customers and suppliers to meet its immediate and long-term business goals. During FY2021, there were no significant dispute between the Group and its employees, customers and suppliers.

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group encourages environmental protection and adopts measures to promote environmental awareness of its employees. The Group implements green office practices by encouraging employees to make use of e-statements or scanning copies, double-sided printing and copying and setting up of recycle boxes for reducing and disposing of waste. The Group also reduces green-house gas emissions by switching off idle lightings and other office equipment after normal working hours. When developing the Group's businesses, in particular the forest-related business, the Group strictly complies with applicable local laws, rules and regulations in relation to environmental protection. The Group regularly reviews its environmental practices for further improvements. Further details on the Group's environmental policies and performance are set out in the Environmental, Social and Governance Report on pages 40 to 61 of this annual report.

LISTING STATUS

The Company announced on 26 May 2021 that it has fulfilled all the resumption conditions by demonstrating that it has a business of substance and its business model is viable and sustainable. Accordingly, trading of the Shares on the Stock Exchange has been resumed with effect from 27 May 2021.

The biographical details of Directors and senior management are set out below:

EXECUTIVE DIRECTORS

Ms. Wang Jingyu, Chairlady

Aged 41, joined the Company as Executive Director in October 2017 and was appointed the Chairlady of the Board in March 2018. Ms. Wang is also the Chairlady of the Executive Committee and a director of various subsidiaries of the Company. Ms. Wang holds a Bachelor's degree in Economics specialised in international finance from the Southwestern University of Finance and Economics in the People's Republic of China (the "PRC"). She has extensive experience in corporate management and investments. Ms. Wang is deemed to be a substantial shareholder of the Company through her interests in Champion Alliance Enterprises Limited, a substantial shareholder of the Company, as disclosed in the section headed "Interests and Short Positions of Shareholders Discloseable under the SFO" in the Report of the Directors.

Mr. Lai Ming Wai, Chief Executive Officer

Aged 61, joined the Company as Executive Director and the Chief Executive Officer in March 2018. Mr. Lai is also a member of the Executive Committee and a director of various subsidiaries of the Company. Mr. Lai holds a Bachelor of Social Sciences degree from The University of Hong Kong. Mr. Lai was a senior executive of Bank of America and was primarily responsible for developing and managing the business of the bank in southern region of the PRC. He has extensive experience in the banking and finance industry.

Ms. Chan Yuk Yee, Company Secretary

Aged 53, joined the Group as a consultant in October 2017 and was appointed an Executive Director and the Company Secretary of the Company in November 2017 and February 2019 respectively. Ms. Chan is also a member of the Executive Committee and a director of various subsidiaries of the Company. Ms. Chan holds a Master of Business Law degree from Monash University in Australia and is a Chartered Secretary, a Chartered Governance Professional and an associate of both The Hong Kong Institute of Chartered Secretaries and The Chartered Governance Institute (formerly known as The Institute of Chartered Secretaries and Administrators). She has extensive experience in corporate administration and company secretarial practice.

INDEPENDENT NON-EXECUTIVE DIRECTORS

Mr. Yam Kwong Chun

Aged 56, joined the Company as Independent Non-executive Director in December 2017 and is the Chairman of the Audit Committee and a member of the Remuneration Committee and the Nomination Committee. Mr. Yam holds a Bachelor of Commerce degree and a Master of Business Administration degree, both from University of Melbourne in Australia. He is a fellow of the Hong Kong Institute of Certified Public Accountants and a certified practising accountant of the CPA Australia. Mr. Yam had worked for Deloitte Touche Tohmatsu, an international accounting firm and as finance executive for a number of group of companies operating in Hong Kong, the PRC, the United States of America and other overseas countries. Mr. Yam is also an independent non-executive director of PT International Development Corporation Limited (stock code: 372), a company listed on the Main Board of the Stock Exchange. He has extensive experience in auditing, accounting and financial management.

Mr. Chiang Bun

Aged 51, joined the Company as Independent Non-executive Director in December 2017 and is the Chairman of the Remuneration Committee and a member of the Audit Committee and the Nomination Committee. Mr. Chiang holds a Bachelor of Social Sciences degree from The University of Hong Kong and a LL.B. from Peking University. Mr. Chiang has held senior roles in various international banks and financial institutions, primarily responsible for structured debt and/or equity financing. He has extensive experience in the banking and finance industry.

Mr. Chai Chi Keung

Aged 58, joined the Company as Independent Non-executive Director in January 2018 and is the Chairman of the Nomination Committee and a member of the Audit Committee and the Remuneration Committee. Mr. Chai holds a Master of Business degree from the Victoria University of Technology in Australia. He is a certified public accountant of the Hong Kong Institute of Certified Public Accountants, certified practising accountant of the CPA Australia, an associate of The Chartered Institute of Management Accountants in the United Kingdom, an associate and a certified tax adviser of The Taxation Institute of Hong Kong and an ordinary member of the Hong Kong Securities and Investment Institute. Mr. Chai has extensive experience in auditing, taxation, accounting and corporate finance.

SENIOR MANAGEMENT

Ms. Chan Kwan Lin, Chief Operating Officer

Aged 53, joined the Group as Chief Operating Officer in May 2019 and is a director of a subsidiary of the Company. Ms. Chan is an associate member of the Hong Kong Institute of Certified Public Accountants and a fellow member of the Association of Chartered Certified Accountants. Prior to joining the Group, she held senior positions in several companies listed on the Stock Exchange and the Nasdaq/OTC stock market, and in a financial investment group comprising banks, insurance and securities investment companies for more than 15 years. Ms. Chan has extensive experience in accounting, financial control, corporate compliance and internal audit. She also has around 10 years of experience in auditing gained from working for Deloitte Touche Tohmatsu, an international accounting firm.

Mr. Hii Soon Teck, Director of Procurement and Marketing of the Group's Timber Supply Chain Operation

Aged 54, joined the Group as Director of Procurement and Marketing of the Group's Timber Supply Chain Operation in May 2019. He has over 30 years of experience in timber business. Mr. Hii had worked in Nissho Iwai Corporation (which subsequently merged with Nichimen and changed its name to Sojitz Corporation in 2004) for nine years, where he was in charge of the sourcing and exporting of timber logs, plywood and veneer to Japan, Korea, and the PRC. Mr. Hii later worked as a commission-based trader who solicited customers for major logging companies that had forest assets in South East Asia, Africa, and South America. He has rich knowledge in worldwide timber logging business and has extensive business networks in timber markets in Vietnam, India, and the PRC.

Mr. Zhu Guanglin, Chief Executive Officer and Sales Director of the Group's Timber Supply Chain Operation in Europe (the "European Operation")

Aged 48, joined the Group in November 2019 as Chief Executive Officer and Sales Director of the European Operation and is a director of various subsidiaries of the Company. He has vast experience in timber business and has been in the industry for over 15 years. Mr. Zhu holds a Master of Science degree in Business Administration from Budapest University of Economic Sciences and Public Administration (now known as Corvinus University of Budapest) in Hungary. Mr. Zhu is specialised in international trading as well as the logistics and wholesaling of European wood products in the PRC. He was the chairman of China Croatian Timber Exchange Association of the Croatian Wood Cluster until the end of 2019. Mr. Zhu is responsible to oversee the procurement activities of the European Operation as well as its sales and marketing activities.

Mr. Damir Budimir, Chief Operating Officer and Procurement Director of the European Operation

Aged 44, joined the Group in November 2019 as Chief Operating Officer and Procurement Director of the European Operation. He has over 10 years of experience in timber business. Mr. Budimir graduated from the University of Maribor in Slovenia with a bachelor's degree in arts, studying linguistics and majoring in German. He worked as head of sales and marketing in Tovarna Meril, Kovine d.o.o. in Slovenj Gradec for 7 years, during which he managed customers covering 23 countries, including customers in Western Europe, Middle East, Far East, Australia, Russia and the United States.

Ms. Tao Yajuan, Deputy Chief Executive Officer and Head of Marketing of the European Operation

Aged 39, joined the Group in November 2019 as Deputy Chief Executive Officer and Head of Marketing of the European Operation and is a director of various subsidiaries of the Company. Ms. Tao holds a Master of Science degree in Philosophy and Public Policy from the London School of Economics and Political Science in the United Kingdom. She gained more than 10 years of experience handling public relation matters when worked for a prominent US company engaging in packaging business and also gained experience in brand building when worked for several top tier property construction companies in China. She has developed excellent business connections with media companies in China and has extensive project management experience with strong execution capabilities. Ms. Tao is currently responsible for the marketing and brand building activities of the European Operation in the international timber market.

The Directors are pleased to present their report and the audited consolidated financial statements of the Company for the year ended 31 March 2021.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The principal activities of the Company are investment holding and provision of management services. The principal activities of its principal subsidiaries are set out in note 41 to the consolidated financial statements.

Further discussion and analysis of the Group's activities as required by Schedule 5 to the Hong Kong Companies Ordinance, including a discussion of the principal risks and uncertainties facing by the Group, particulars of important events affecting the Group that have occurred since the end of the financial year and an indication of likely future developments in the Group's business, can be found in the "Chairlady's Statement" and "Management Discussion and Analysis" sections set out on pages 4 to 17 of this annual report. The discussion forms part of this directors' report. In addition, discussions on the Group's environmental policies and performances are contained in the Environmental, Social and Governance Report on pages 40 to 61 of this annual report.

RESULTS

The results of the Group for the year ended 31 March 2021 are set out in the consolidated statement of profit or loss and other comprehensive income on pages 67 to 68.

FINAL DIVIDEND

The Board does not recommend the payment of a final dividend for the year ended 31 March 2021 (2020: nil).

FIVE-YEAR FINANCIAL SUMMARY

A summary of the published results and assets and liabilities of the Group for the last five financial years, as extracted from the audited consolidated financial statements of the Company, is set out on page 148. This summary does not form part of the audited consolidated financial statements.

PROPERTY, PLANT AND EQUIPMENT AND INTANGIBLE ASSETS

Details of movement in property, plant and equipment and intangible assets of the Group during the year are set out in note 15 and 17 to the consolidated financial statements, respectively.

SHARE CAPITAL

Details of movements in the Company's share capital during the year are set out in note 29 to the consolidated financial statements.

PRE-EMPTIVE RIGHTS

There is no provision for pre-emptive rights under the Company's Bye-laws or the applicable laws of Bermuda which would oblige the Company to offer new shares on a pro-rata basis to existing shareholders.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the year, neither the Company, nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

RESERVES

Details of movements in the reserves of the Company and of the Group during the year are set out in note 40 to the consolidated financial statements and in the consolidated statement of changes in equity, respectively.

DISTRIBUTABLE RESERVES

At 31 March 2021, share premium of HK\$67,546,000 (2020: HK\$67,546,000) which forms part of the Company's reserves is distributable in the form of fully paid bonus shares, and contributed surplus of HK\$2,938,375,000 (2020: HK\$2,938,375,000) is distributable in certain circumstances. The Company had no other reserve available for distribution as computed in accordance with the Companies Act 1981 of Bermuda.

MAJOR CUSTOMERS AND SUPPLIERS

During the year, revenue from the Group's five largest customers accounted for approximately 52% of the total revenue for the year and revenue from the largest customer accounted for approximately 21%. Purchases from the Group's five largest suppliers accounted for approximately 79% of the total purchases for the year and purchases from the largest supplier accounted for approximately 35%.

None of the directors or any of their associates or any shareholders (which, to the best knowledge of the directors of the Company, own more than 5% of the Company's issued shares) had any beneficial interest in the Group's five largest customers or suppliers during the year.

DIRECTORS

The directors of the Company during the year and up to the date of this report were:

Executive Directors:

Ms. Wang Jingyu Mr. Lai Ming Wai Ms. Chan Yuk Yee

Independent Non-executive Directors:

Mr. Yam Kwong Chun Mr. Chiang Bun Mr. Chai Chi Keung

In accordance with Bye-law 87(2) of the Company's Bye-laws, Mr. Chiang Bun and Mr. Chai Chi Keung will retire by rotation at the forthcoming annual general meeting of the Company (the "2021 AGM") and, being eligible, offer themselves for re-election in the 2021 AGM.

PERMITTED INDEMNITY PROVISION

Pursuant to the Company's Bye-laws, subject to the statutes, the directors for the time being of the Company shall be indemnified and secured harmless out of the assets and profits of the Company from and against all actions, costs, charges, losses, damages and expenses which they or any of them, shall or may incur or sustain by reason of any act done, concurred in or omitted in or about the execution of their duty or supposed duty in their respective offices or otherwise in relation thereto except through their own wilful negligence or default, fraud and dishonesty. The Company has arranged appropriate directors' and officers' liability insurance coverage for the directors and other officers of the Company.

DIRECTORS' SERVICE CONTRACTS

None of the directors being proposed for re-election at the 2021 AGM has a service contract with the Company or any of its subsidiaries which is not determinable by the Group within one year without payment of compensation, other than statutory compensation.

DIRECTORS' REMUNERATION

Details of the directors' remuneration are set out in note 10 to the consolidated financial statements.

DIRECTORS' INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS

Save for the material related party transactions disclosed in note 39 to the consolidated financial statements, no other transactions, arrangements or contracts of significance to which the Company or any of its subsidiaries was a party and in which a director of the Company or an entity connected with a director has or had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

DIRECTORS' INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES

At 31 March 2021, the interests and short positions of the directors and chief executive of the Company in the Shares, underlying Shares and debentures of the Company or its associated corporations (within the meaning of Part XV of the SFO) as recorded in the register required to be kept by the Company under section 352 of the SFO, or as otherwise notified to the Company and the Stock Exchange pursuant to the Model Code contained in the Listing Rules, were as follows:

Long position in the Shares:

Name of Director	Capacity and nature of interest	Number of Shares held	Approximate percentage of the Company's issued Shares
Wang Jingyu ("Ms. Wang")	Interest of controlled corporation	2,444,359,944 (Note 2)	26.84%

Notes:

- 1. The approximate percentage of the Company's issued Shares was calculated on the basis of 9,105,709,503 Shares in issue at 31 March 2021.
- 2. These interests were held by Champion Alliance Enterprises Limited ("Champion Alliance"), which was a wholly owned subsidiary of Elite Prosperous Enterprises Limited ("Elite Prosperous") which in turn was wholly owned by Ms. Wang. Ms. Wang was also the sole director of Champion Alliance and Elite Prosperous. Accordingly, Ms. Wang was deemed to be interested in the 2,444,359,944 Shares under the SFO.

Save as disclosed above, at 31 March 2021, none of the directors or chief executive of the Company had registered an interest or short positions in the Shares, underlying Shares and debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) that was required to be recorded pursuant to section 352 of the SFO, or as otherwise notified to the Company and the Stock Exchange pursuant to the Model Code.

DIRECTORS' RIGHTS TO ACQUIRE SHARES OR DEBENTURES

Save as disclosed in the section headed "Directors' Interests and Short Positions in Shares, Underlying Shares and Debentures" above, at no time during the year was the Company or any of its subsidiaries a party to any arrangements to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate, and none of the directors of the Company or their spouse or minor children had any rights to subscribe for the securities of the Company, or had exercised any such rights during the year.

SHARE OPTION SCHEME

At 31 March 2021, the Company and its subsidiaries had no share option scheme.

INTERESTS AND SHORT POSITIONS OF SHAREHOLDERS DISCLOSEABLE UNDER THE SFO

At 31 March 2021, the following interests of more than 5% of the issued Shares were recorded in the register of interests required to be kept by the Company pursuant to section 336 of the SFO.

Long positions in the Shares:

			Approximate percentage of
	Capacity and nature of	Number of	the Company's
Name of Shareholders	interest	Shares held	issued Shares
Ms. Wang	Interest of controlled	2,444,359,944	26.84%
	corporation	(Note 2)	
Elite Prosperous	Interest of controlled	2,444,359,944	26.84%
	corporation	(Note 2)	
Champion Alliance	Beneficial owner	2,444,359,944	26.84%
		(Note 2)	
Loh Jiah Yee, Katherine	Interest of controlled	1,294,849,338	14.22%
("Ms. Loh")	corporation	(Note 3)	
Lau Jack	Interest of spouse	1,294,849,338	14.22%
("Mr. Lau")		(Note 4)	
Assure Gain International Limited	Beneficial owner	822,176,547	13.80%
("Assure Gain")		(Note 5)	
	Interest of controlled	434,094,363	
	corporation	(Note 5)	

Notes:

- 1. The approximate percentage of the Company's issued Shares was calculated on the basis of 9,105,709,503 Shares in issue at 31 March 2021.
- 2. These interests were held by Champion Alliance which was a wholly owned subsidiary of Elite Prosperous which in turn was wholly owned by Ms. Wang. Ms. Wang was also the sole director of Champion Alliance and Elite Prosperous. Accordingly, Ms. Wang and Elite Prosperous were deemed to be interested in the 2,444,359,944 Shares under the SFO.
- 3. Ms. Loh was beneficially interested in 100% of the issued share capital of Assure Gain, which held 100% of the issued share capital of Winner Global Holdings Limited ("Winner Global") and Splendid Asset Holdings Limited ("Splendid Asset") respectively. Ms. Loh was also beneficially interested in 50% of the issued share capital of Corp Insights Holdings Inc. ("Corp Insights") held through Corporate Insights Limited. Assure Gain was the registered holder of 822,176,547 Shares, Winner Global was the registered holder of 213,360,741 Shares, Splendid Asset was the registered holder of 220,733,622 Shares and Corp Insights was the registered holder of 38,578,428 Shares. Accordingly, Ms. Loh was deemed to be interested in the 1,294,849,338 Shares under the SFO.
- 4. Mr. Lau, being the spouse of Ms. Loh, was deemed to have an interest in the same parcel of the Shares in which Ms. Loh was interested under the SFO.
- 5. Assure Gain held 100% of the issued share capital of Winner Global and Splendid Asset respectively. Assure Gain was the registered holder of 822,176,547 Shares, Winner Global was the registered holder of 213,360,741 Shares and Splendid Asset was the registered holder of 220,733,622 Shares. Accordingly, Assure Gain was deemed to be interested in the 434,094,363 Shares held by Winner Global and Splendid Asset under the SFO.

Save as disclosed above, the Company had not been notified of any other relevant interests or short positions in the Shares and underlying Shares at 31 March 2021 as required pursuant to section 336 of the SFO.

CONNECTED TRANSACTIONS

The material related party transactions disclosed in note 39 to the consolidated financial statements fall under the scope of "Connected Transactions" or "Continuing Connected Transactions" under Chapter 14A of the Listing Rules but are exempted from reporting, annual review, announcement or independent shareholders' approval requirements.

REMUNERATION POLICY

The Group remunerates its employees based on their competence, experience, performance and prevailing market terms. Other employee benefits included paid holidays, annual bonus, provident fund scheme, medical insurance, subsidised training programmes, as well as discretionary bonus and share options.

EQUITY-LINKED AGREEMENTS

Save for the outstanding convertible preferred shares disclosed in note 29 to the consolidated financial statements, no equity-linked agreements were entered into by the Group, or existed during the year.

MANAGEMENT CONTRACTS

No contract concerning the management and administration of the whole or any substantial part of any business of the Company was entered into or existed during the year.

AUDIT COMMITTEE

The audited consolidated financial statements of the Company for the year ended 31 March 2021 have been reviewed by the Audit Committee and duly approved by the Board under the recommendation of the Audit Committee.

AUDITOR

The consolidated financial statements of the Company for the year ended 31 March 2021 have been audited by Crowe (HK) CPA Limited.

A resolution will be proposed at the 2021 AGM to re-appoint Crowe (HK) CPA Limited as auditor of the Company.

On behalf of the Board

Wang Jingyu *Chairlady*

Hong Kong, 30 June 2021

The Company has recognised the importance of transparency and accountability, and believes that shareholders can benefit from good corporate governance. The Company aims to achieve good standard of corporate governance.

CORPORATE GOVERNANCE

The Company had complied with all the applicable code provisions of the Corporate Governance Code (the "CG Code") set out in Appendix 14 to the Listing Rules for the year ended 31 March 2021 except for the following deviation:

Code Provision E.1.2

Under code provision E.1.2 of the CG Code, the chairman of the board should attend the annual general meeting. Ms. Wang Jingyu, the Chairlady of the Board, was unable to attend the annual general meeting of the Company held on 25 September 2020 (the "2020 AGM") due to her other business engagement. However, Mr. Lai Ming Wai, the Chief Executive Officer and Executive Director of the Company, took the chair of the 2020 AGM in accordance with Article 63 of the Bye-laws of the Company.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code set out in Appendix 10 to the Listing Rules as its own code of conduct regarding securities transactions by directors of the Company. Having made specific enquiry with the directors, all of them confirmed that they have complied with the required standards set out in the Model Code during the year ended 31 March 2021.

BOARD OF DIRECTORS

The Board formulates the overall strategy of the Group, monitors its financial performance and maintains effective oversight over the management. The Board members are fully committed to their roles and have acted in good faith to maximise the shareholders' value in the long run, and have aligned the Group's goal and directions with the prevailing economic and market conditions. The Board has delegated the Executive Committee with authority and responsibility for handling the management functions and operations of the day-to-day business of the Group, while reserving certain key matters for the approval by the Board.

The Board met regularly throughout the year to discuss the overall strategy as well as the operation and financial performance of the Group. The directors are kept informed on timely basis of major changes that may affect the Group's business, including relevant rules and regulations. The directors can, upon reasonable request, seek independent professional advice in appropriate circumstances, at the Company's expenses. The Board shall resolve to provide separate appropriate independent professional advice to the directors to assist the relevant directors to discharge their duties.

At 30 June 2021, the date of this annual report, the Board comprises six directors, three of which are Executive Directors, namely Ms. Wang Jingyu (Chairlady), Mr. Lai Ming Wai (Chief Executive Officer (the "CEO")), Ms. Chan Yuk Yee and three are Independent Non-executive Directors, namely Mr. Yam Kwong Chun, Mr. Chiang Bun and Mr. Chai Chi Keung. The directors are considered to have a balance of skill, experience and diversity of perspectives appropriate to the requirements of the business of the Company. The Company has received from each of the independent non-executive directors an annual confirmation of his independence pursuant to Rule 3.13 of the Listing Rules. The Company considers that all the independent non-executive directors are independent in accordance with the independence guidelines set out in the Listing Rules. Biographical details of the directors are set out under the section headed "Biographical Details of Directors and Senior Management" on pages 18 to 21 of this annual report.

Save for Ms. Wang Jingyu is a substantial shareholder of the Company and also an Executive Director and the Chairlady of the Board, there is no financial, business, family or other material/relevant relationship between the substantial shareholders of the Company and other members of the Board.

The Company will provide a comprehensive, formal and tailored induction to each newly appointed director on his/her first appointment in order to enable him/her to have an appropriate understanding of the business and operations of the Company and that he/she is fully aware of his/her responsibilities and obligations under the Listing Rules and relevant regulatory requirements.

All directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skills. Directors are continually updated on developments in the statutory and regulatory regime and the business environment to facilitate the discharge of their responsibilities. The Company has provided timely technical updates, including the briefing on the amendments on the Listing Rules and the news release published by the Stock Exchange to the directors. Continuing briefing and professional development for directors are arranged where necessary.

The directors have participated in continuous professional development by attending seminars, in-house briefings or reading materials on the related areas to develop and refresh their knowledge and skills. During the year ended 31 March 2021, all the directors have complied with Code Provision A.6.5 of the CG Code and have provided the Company with their respective training records pursuant to the CG Code.

During the year ended 31 March 2021, four regular Board meetings and one general meeting were held and the attendance of each director is set out as follows:

	Number of attendan	Number of attendance	
	Board Meetings General	Meeting	
Executive Directors			
Ms. Wang Jingyu	4/4	0/1	
Mr. Lai Ming Wai	4/4	1/1	
Ms. Chan Yuk Yee	4/4	1/1	
Independent Non-executive Directors			
Mr. Yam Kwong Chun	4/4	1/1	
Mr. Chiang Bun	4/4	1/1	
Mr. Chai Chi Keung	4/4	1/1	

CHAIRPERSON AND CHIEF EXECUTIVE

The Group adopts a dual leadership structure in which the role of the Chairlady is separated from that of the CEO. The Chairlady is responsible for overseeing all Board functions, while the executive directors and senior management are under the leadership of the CEO to oversee the day-to-day operations of the Group and implement the strategies and policies approved by the Board.

The position of the Chairlady of the Board is currently held by Ms. Wang Jingyu and the position of the CEO is currently held by Mr. Lai Ming Wai.

TERM OF APPOINTMENT OF NON-EXECUTIVE DIRECTORS

Each of the Independent Non-executive Directors is appointed for a term of twelve-month period which automatically renews for successive twelve-month periods unless terminated by either party in writing prior to the expiry of the term. All the Independent Non-executive Directors are also subject to retirement by rotation and re-election at least once every three years at the annual general meetings of the Company in accordance with the Company's Bye-laws.

EXECUTIVE COMMITTEE

At 30 June 2021, the date of this annual report, the Executive Committee comprises three Executive Directors, namely Ms. Wang Jingyu, Mr. Lai Ming Wai and Ms. Chan Yuk Yee. Ms. Wang Jingyu is the Chairlady of the Executive Committee. The full terms of reference of the Executive Committee are available on the Company's website.

The Executive Committee is delegated with the power and authority from the Board to oversee the day-today operations of the Group and handle such other matters as delegated by the Board from time to time. The Executive Committee will meet as and when necessary to discuss the affairs of the Group.

REMUNERATION COMMITTEE

The Remuneration Committee has specific written terms of reference that is in compliance with the CG Code. At 30 June 2021, the date of this annual report, the Remuneration Committee comprises three Independent Non-executive Directors, namely Mr. Chiang Bun, Mr. Yam Kwong Chun and Mr. Chai Chi Keung. Mr. Chiang Bun is the Chairman of the Remuneration Committee.

The Remuneration Committee is mainly responsible for formulating the remuneration policy, reviewing and recommending to the Board the annual remuneration policy and the remuneration of the directors. The overriding objective of the remuneration policy is to ensure that the Group is able to attract, retain and motivate a high-caliber team which is essential to the success of the Group. The full terms of reference of the Remuneration Committee are available on the Company's website and the Stock Exchange's website.

The Remuneration Committee met one time during the year ended 31 March 2021 to review and make recommendations to the Board on the remuneration packages for directors. The attendance of each member is set out as follows:

	Number of
Members	attendance
Mr. Chiang Bun	1/1
Mr. Yam Kwong Chun	1/1
Mr. Chai Chi Keung	1/1

Details of the Directors' remuneration are set out in note 10 to the consolidated financial statements. Pursuant to code provision B.1.5 of the CG Code, the details of the annual remuneration of other members of the senior management by bands during the year are as follows:

Remuneration bands	Number of individuals
Nil to HK\$500,000	1
HK\$500,001 to HK\$1,000,000	4

NOMINATION COMMITTEE

The Nomination Committee has specific written terms of reference that is in compliance with the CG Code. At 30 June 2021, the date of this annual report, the Nomination Committee comprises three Independent Nonexecutive Directors, namely Mr. Chai Chi Keung, Mr. Yam Kwong Chun and Mr. Chiang Bun. Mr. Chai Chi Keung is the Chairman of the Nomination Committee.

The Nomination Committee is mainly responsible for identifying potential directors and making recommendations to the Board on the appointment or re-appointment of directors of the Company. Potential new directors are selected on the basis of their qualifications, skills and experience that he/she could add value to the management through his/her contributions in the relevant strategic business areas. The full terms of reference of the Nomination Committee are available on the Company's website and the Stock Exchange's website.

The Nomination Committee met one time during the year ended 31 March 2021 to review the board diversity policy (the "Board Diversity Policy") and the nomination policy (the "Nomination Policy") of the Company, the independence of independent non-executive directors, and the structure, size and composition of the Board; and to make recommendation to the Board on the re-election of directors. The attendance of each member is set out as follows:

	Number of
Members	attendance
Mr. Chai Chi Keung	1/1
Mr. Yam Kwong Chun	1/1
Mr. Chiang Bun	1/1

Board Diversity Policy

The Company recognises the benefits of having a diverse Board to enhance the quality of its performance and adopted the Board Diversity Policy. The Board Diversity Policy sets out that in determining the optimum composition of the Board, differences in skills, regional and industry experience, background, race, gender and other qualities of directors shall be considered. All Board appointments are made on merits, in the context of skills and experience the Board as a whole requires, with due regard for the benefits of diversity on the Board, and the Nomination Committee shall review and assess the Board composition and its effectiveness on an annual basis. When there is a vacancy on Board, the Nomination Committee will recommend suitable candidates for appointment to the Board on merits, based on the terms of reference of the Nomination Committee, with due regard to the Company's own circumstances.

Nomination Policy

The Board has adopted the Nomination Policy setting out the principles which guide the Nomination Committee to identify and evaluate a candidate for nomination to (i) the Board for appointment and (ii) the Shareholders for election as a director of the Company. According to the Nomination Policy, in assessing the suitability of a proposed candidate, the Board shall take into account, among other things, the following factors: (i) qualifications, experience, skills and knowledge relevant to the businesses of the Group; (ii) commitment in respect of available time and relevant interest; (iii) diversity perspectives set out in the Board Diversity Policy; (iv) in case of independent non-executive directors, regulatory requirement for appointment of independent non-executive directors and the independence criteria set out in the Listing Rules and (v) any other factors that the Board considers appropriate.

For filling a casual vacancy or as an addition to the existing Board, the Nomination Committee shall make recommendations for the Board's consideration and approval. For proposing candidates to stand for election at a general meeting, the Nomination Committee shall make nominations to the Board for its consideration and recommendation. On making recommendation, the Nomination Committee may submit to the Board for consideration a proposal comprising, inter alia, the personal profile of the proposed candidate, which contains at least the candidate's information required to be disclosed under Rule 13.51 of the Listing Rules. The Board shall be vested with power to make the final decision on all matters relating to the recommendation of candidates (i) for appointment and (ii) for standing for election at a general meeting as a director of the Company.

The Nomination Committee will review the Board Diversity Policy and the Nomination Policy from time to time to ensure that the policies will be implemented effectively.

AUDIT COMMITTEE

The Audit Committee has specific written terms of reference that is in compliance with the CG Code. At 30 June 2021, the date of this annual report, the Audit Committee comprises three Independent Non-executive Directors, namely Mr. Yam Kwong Chun, Mr. Chiang Bun and Mr. Chai Chi Keung, who among themselves possess a wealth of management experience in the accounting profession and in commercial fields. Mr. Yam Kwong Chun is the Chairman of the Audit Committee.

The Audit Committee is mainly responsible for reviewing financial statements of the Company, discussing the risk management and internal control of the Group and meeting with the auditor of the Company. Any findings and recommendations of the Audit Committee will be submitted to the Board for consideration.

The Audit Committee is authorised by the Board to investigate any activity within its terms of reference. It is authorised to seek any information it requires from any employee. It is also authorised to obtain outside legal or other independent professional advice and to secure the attendance of outsiders with relevant experience and expertise if it considers necessary. The full terms of reference of the Audit Committee are available on the Company's website and the Stock Exchange's website.

The Audit Committee met four times during the year ended 31 March 2021 and the attendance of each member is set out as follows:

	Number of
Members	attendance
Mr. Yam Kwong Chun	4/4
Mr. Chiang Bun	4/4
Mr. Chai Chi Keung	4/4

The following is a summary of work performed by the Audit Committee during the year:

- 1. reviewed and discussed the audited consolidated financial statements of the Company for the year ended 31 March 2020 and recommended to the Board for approval;
- 2. reviewed and discussed the unaudited condensed consolidated financial statements of the Company for the six months ended 30 September 2020 and recommended to the Board for approval;
- 3. reviewed and discussed with the management and the auditor of the Company the accounting policies and practices which may affect the Group and the scope of the audit;
- 4. reviewed report from the auditor of the Company regarding their audit on the Company's consolidated financial statements for the year ended 31 March 2020;

- 5. reviewed the effectiveness of the risk management and internal control systems of the Group; and
- 6. reviewed and approved the remuneration and the terms of engagement of the Company's auditor; and reviewed and made recommendations to the Board on the re-appointment of the Company's auditor.

Corporate Governance Function

The Board has delegated the corporate governance duties to the Audit Committee. The main corporate governance duties of the Audit Committee are (i) to develop and review the Group's policies and practices on corporate governance and make recommendations to the Board; (ii) to review and monitor the training and continuing professional development of directors and senior management; (iii) to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements; (iv) to develop, review and monitor the code of conduct and compliance manual applicable to the employees and directors of the Group; and (v) to review the Company's compliance with the CG Code and disclosure requirements in the Corporate Governance Report.

AUDITOR AND AUDITOR'S REMUNERATION

The statement of the external auditor of the Company about their responsibilities on the Company's consolidated financial statements for the year ended 31 March 2021 is set out in the "Independent Auditor's Report" on pages 62 to 66 of this annual report.

For the year ended 31 March 2021, remuneration payable to the Company's auditor, Crowe (HK) CPA Limited, for the provision of audit services was HK\$1,370,000. During the year, HK\$300,000 was paid as remuneration to Crowe (HK) CPA Limited for the provision of non-audit related services.

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Board is responsible for presenting a balanced, clear and understandable assessment of the Company's annual and interim reports, price-sensitive announcements and other financial disclosures required under the Listing Rules and other regulatory requirements.

The directors acknowledge their responsibility for preparing the consolidated financial statements of the Company for the year ended 31 March 2021.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board has overall responsibilities for maintaining sound and effective risk management and internal control and reviewing their effectiveness to safeguard the shareholders' interests and the Group's assets. The risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives and can provide reasonable but not absolute assurance against material misstatement or loss. The review covers all material controls, including financial, operational and compliance controls of the selected key operations of the Group.

During the year, the Company has taken risk management as a core part of its business activities and operations. The Company is taking steps to build a comprehensive risk management system that is aligned with the strategies and operations of the Company by standardising its risk management procedures, adopting qualitative and quantitative measures to identify, evaluate and mitigate the identified risks.

Guidelines are provided to the directors, officers, management and relevant staff in handling and disseminating sensitive and confidential inside information with due care. Only personnel at appropriate level can get reach of the sensitive and confidential inside information.

Owing to the size of the Group and consideration for cost effectiveness, the Company has engaged an independent professional firm to conduct annual review on the risk management and internal control systems to identify and evaluate significant risks of the Group's business operations. The Board believes that the involvement of an independent professional firm could enhance the objectivity and transparency of the evaluation process.

For the year ended 31 March 2021, the Group has engaged an independent professional firm to provide risk management and internal controls assessment services to assist the Board and the Audit Committee to identify and evaluate significant risks of the Group's business operations. The independent professional firm has reviewed the relevant policies and procedures of the Group, conducted collaborative interviews and document inspection, and performed walkthrough tests and samples testing procedures and presented to the Board and the Audit Committee an internal audit report (the "Internal Audit Report") which contained certain findings and relevant recommendations and suggestions for improvement. The Board and the Audit Committee have reviewed and discussed the findings and recommendations with management. In order to manage risks effectively and control risks within acceptable levels, the management will continue to monitor the identified risks and the respective control measures, and arrange adequate resources for the effective control measures undertaken.

The Board has also considered the adequacy of resources, staff qualifications and experience, training programmes and budget of the Group's accounting and financial reporting function during the year under review. Based on the Internal Audit Report, the Board is not aware of any significant internal control and risk management weaknesses or inconsistencies with the Group's risk management policies, and considers the existing internal control and risk management systems effective and adequate for the year ended 31 March 2021. The Company has complied with the relevant code provisions of the CG Code relating to risk management and internal control.

COMPANY SECRETARY

Ms. Chan Yuk Yee has been appointed as the Company Secretary of the Company with effect from 28 February 2019. She has taken no less than 15 hours of the relevant professional training during the year ended 31 March 2021. The biographical details of Ms. Chan Yuk Yee are set out under the section headed "Biographical Details of Directors and Senior Management" on pages 18 to 21 of this annual report.

SHAREHOLDER RIGHTS

Procedures for shareholders to convene a special general meeting

Shareholders can submit a requisition to convene a special general meeting pursuant to the Companies Act 1981 of Bermuda (the "Companies Act"), shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the Company Secretary, to require a special general meeting to be called by the Board for the transaction of any business specified in such requisition.

The written requisition must:

- state the purposes of the special general meeting;
- be signed by all the requisitionists (may consist of one or several documents in like form each signed by one or more requisitionists); and
- be deposited at the Company's office in Hong Kong for the attention of the Company Secretary.

If the Directors do not within twenty-one days from the date of the deposit of the requisition proceed duly to convene a special general meeting, the requisitionists, or any of them representing more than one-half of the total voting rights of all of them, may themselves convene a special general meeting, but any meeting so convened shall not be held after the expiration of three months from the said date.

Procedures for shareholders to put forward proposals at general meetings

Pursuant to the Companies Act, any number of shareholders representing not less than one-twentieth of the total voting rights of all the shareholders having at the date of the requisition a right to vote at the meeting to which the requisition relates; or not less than one hundred shareholders, can request the Company in writing to:

- (a) give to shareholders of the Company entitled to receive notice of the next annual general meeting notice of any resolution which may properly be moved and is intended to be moved at that meeting; and
- (b) circulate to shareholders of the Company entitled to have notice of any general meeting send to them any statement of not more than one thousand words with respect to the matter referred to in any proposed resolution or the business to be dealt with at that meeting.

The requisition must be deposited to the Company not less than six weeks before the meeting in case of a requisition requiring notice of a resolution or not less than one week before the meeting in case of any other requisition.

Procedures for directing shareholders' enquiries to the Board

Shareholders may at any time send their enquiries and concerns in writing to the Company Secretary at the Company's principal place of business in Hong Kong at Room 3201, 32nd Floor, China Resources Building, 26 Harbour Road, Wanchai, Hong Kong.

INVESTOR RELATIONS

The Company has established a range of communication channels between itself and its shareholders, investors and other stakeholders. These include the annual general meetings, the annual and interim reports, notices, announcements and circulars and the Company's website at http://www.relianceglobal.com.hk.

DIVIDEND POLICY

According to the dividend policy adopted by the Company, in deciding whether to propose a dividend and in determining the dividend amount, the Board shall take into account among other things, the following factors: (i) the actual and expected financial performance of the Group, (ii) the retained earnings and distributable reserves of the Group, (iii) the expected working capital requirements and future expansion plans of the Group, (iv) the liquidity position of the Group and (v) any other factors that the Board deems appropriate. The declaration and payment of dividends by the Company shall be determined at the sole and absolute discretion of the Board and is also subject to compliance with all applicable laws and regulations including the laws of Bermuda and the Company's Bye-laws.

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the Directors, at least 25% of the Company's total issued Shares is held by the public at 23 July 2021, being the latest practicable date before printing of this annual report.

OVERVIEW

The Board is pleased to present this Environmental, Social and Governance (the "ESG") Report of the Group which summarises the efforts and achievements made by the Group in corporate responsibility and sustainable development. The Board is responsible for the Group's ESG strategy and reporting, evaluating and determining the Group's ESG-related risks, and ensuring that appropriate and effective ESG risk management and internal control systems are in place. In order to determine the ESG reporting scopes, the key management personnel has discussed internally and identified the environmental, social and operating items, and assessed their importance to the stakeholders and the Group. The summary of material ESG items are listed out in this report.

INTRODUCTION

The Group is principally engaged in four business segments, namely, forest-related business comprising timber supply chain and sustainable forest management, money lending business and leasing of properties. This report summarises the initiatives, plans, and performance on ESG aspects of the Group as well as demonstrates its commitment to sustainability.

ABOUT THE GROUP

Forest-related Business

Timber Supply Chain

The Group engages in timber supply chain business and has built a global network of supply sources to procure timber from suppliers/forest owners in Europe, Oceania and Africa to serve its customers predominantly in China and other Asian countries. The Group provides value-added works and services of a typical timber supply chain, including plantation & harvesting right, sourcing & procurement, timber harvesting & logging, quality inspection & land/sea transport, wood processing, inventory management, custom clearance, selling & marketing and after-sales services. At the date of this report, the timber supply chain operation of the Group (the "TSC Operation") comprises distribution hubs in Slovenia, Romania and Croatia as well as timber processing ventures in Romania and Croatia.

Certain activities of the above-mentioned value-added works and services providing by the TSC Operation are outsourced and performed by third parties. In respect of the wood processing venture in Romania, the Group has engaged local logging teams to conduct the logging activities and a wood processing plant for the production of lumber. In respect of the wood processing venture in Croatia, the Group has also engaged a wood processing plant to conduct processing and other services on wood supplied for the production of lumber. In respect of logs and wood products selling by the TSC Operation, the Group's logistic team arranges delivery of logs and wood products to customers via third-party trucking companies, railway companies and/or shipping companies as appropriate. Since the Group does not have direct operational control on these outsourcing activities, the environmental key performance indicators ("KPIs") of these activities are thus not included in this report. Nevertheless, as far as the Group understands, the operation of these third-party service providers are in compliance with the environmental laws and regulations in the relevant jurisdictions.

Sustainable Forest Management

The Group has licensed the harvesting rights of its forest assets in Brazil to certain external operators for licensing income and these operators are directly responsible for the harvesting operations. The Group does not have direct operational control on their activities and the environmental KPIs of the harvesting operations are thus not included in this report. Nevertheless, as far as the Group understands, the operation of these external operators are in compliance with the environmental laws and regulations in Brazil.

Money Lending Business

The money lending business is one of the principal businesses of the Group and the money lending operation of the Group is primarily office-based. The Group provides loan products including mortgage loans, corporate loans, personal loans and finance leases, with emphasis on the provision of mortgage loans.

THE ESG GOVERNANCE STRUCTURE

The Group conducts a top-down management approach in respect of its ESG issues. The Board oversees and sets out the ESG strategies for the Group. The Board is also responsible for ensuring the effectiveness of the risk management and internal controls of the Group's ESG strategies under an annual assessment process.

The Group has assigned personnel to systematically identify and manage ESG issues. The said personnel are responsible for collecting and analysing relevant ESG data and identifying the Group's ESG issues. In addition, the said personnel periodically report to the Board for the evaluation and subsequent implementation or revision of the Group's ESG strategies.

REPORTING SCOPE

This report covers the Group's money lending business and forest-related business which includes the (i) timber supply chain and (ii) sustainable forest management operations. During the year ended 31 March 2021 ("FY2021"), the Group has expanded its business by setting up additional distribution hubs in Romania and Croatia and the establishment of wood processing venture in Croatia, the reporting scope of this report has accordingly been expanded and includes the Group's activities in Hong Kong, Brazil, Slovenia, Romania and Croatia where the majority of its business operations are located. The ESG KPIs are gathered from all activities that are under the Group's direct operational control. The KPIs are shown in this report and are supplemented by explanatory notes to establish benchmarks. The Group will expand the scope of its ESG disclosures when and where applicable.

REPORTING FRAMEWORK

This report has been prepared in accordance with the Environmental, Social and Governance Reporting Guide (the "ESG Reporting Guide") set out in Appendix 27 to the Listing Rules.

Information relating to the Group's corporate governance practices can be found in the Corporate Governance Report on pages 30 to 39 of this annual report.

REPORTING PERIOD

This report specifies the ESG activities, challenges and measures taken by the Group during FY2021 as well as the comparative data for the year ended 31 March 2020 ("FY2020") where appropriate.

STAKEHOLDER ENGAGEMENT

To further the Group's sustainable development efforts, the Group has engaged its key stakeholders to identify sustainability topics and potential risks by way of engagement sessions including routine meetings and annual general meetings. Key stakeholders include but are not limited to, government and other regulatory authorities, shareholders and investors, employees, customers, suppliers, media and the public.

Stakeholders' expectations have been taken into consideration by utilising diversified engagement methods as shown below:

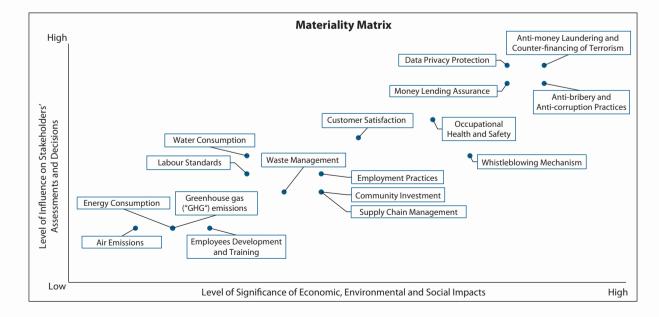

Stakeholders	Communication channels	Expectations	Management responses
Government and other regulatory authorities	 Written or electronic correspondences Visits and inspections 	 Legal compliance Fulfil tax obligation Stability in business operations 	 Uphold integrity and compliance in operations Ensure on-time tax payment
Shareholders and investors	 General meetings and other shareholders' meetings Financial reports Announcements and circulars Company website 	 Sustainable profitability Return on investment Business compliance Operating risks management 	 Ensure transparency and efficient communications through different communication channels
Employees	 Training activities, seminars and briefing Email and suggestion boxes Regular meetings Performance evaluation 	 Remuneration, compensation and medical benefits Health and safety Career development 	 Regularly review current employment policies and provision of training activities Hold team-building events to boost employee morale Regular review on remuneration package
Customers	 Customer service hotline and email Face-to-face meetings 	 Customer satisfaction High-quality products/ services 	 Ensure the provision of high-quality products and services Ensure contractual obligations are fulfilled

Stakeholders	Communication channels	Expectations	Management responses
Suppliers	Site visitsBusiness meetings and discussions	 Fair and open procurement On-time payment Sustainable relationship 	 Perform supplier selection with due care Ensure contractual obligations are fulfilled
Media and the public	 ESG reports Company website Reports and announcements 	 Transparent ESG issues and financial disclosure Legal compliance Corporate governance compliance 	 Ensure effective communication via various communication channels

The Group endeavours to actively listen to and collaborate with its stakeholders to ensure that their opinions can be voiced out through various effective communication channels. In the long run, the stakeholders' contribution will aid the Group in identifying and improving potentially overlooked ESG issues and maintaining the success of the Group's businesses in the challenging market.

MATERIALITY ASSESSMENT

The Board and employees responsible for key functions of the Group have participated in the preparation of this report. They have assisted in reviewing the operations, identified key ESG issues and assessed their importance to the Group's businesses and stakeholders. In alignment with the Group's vision on sustainability, its businesses will continue to be operated with high ethical standards with the aim to provide sustainable returns to stakeholders.

A summary of the Group's material ESG issues according to their relative importance is as follows:

The Group confirmed that it has established appropriate and effective management policies and internal control systems for ESG issues and confirmed that the contents disclosed in this report are in compliance with the requirements of the ESG Reporting Guide.

CONTACT US

The Group welcomes stakeholders to provide their opinions and suggestions. Stakeholders can provide valuable advice in respect of this report or the Group's performances in sustainable development by writing to Room 3201, 32nd Floor, China Resources Building, 26 Harbour Road, Wanchai, Hong Kong.

A. ENVIRONMENTAL

Environmental protection and sustainable development rely on concerted and continuous efforts from all industries and society. In addition to ensuring the compliance of laws and regulations in Hong Kong, Brazil, Slovenia, Romania and Croatia, the Group is committed to minimising adverse environmental impacts by continuously improving existing policies and incorporating green practices in its daily operations.

During FY2021, the Group was not aware of any material non-compliance with laws and regulations relating to air and GHG emissions, discharges into water and land, and generation of hazardous and non-hazardous waste that would have a significant impact on the Group including but not limited to, the Air Pollution Control Ordinance, the Waste Disposal Ordinance and the Water Pollution Control Ordinance of Hong Kong, the National Environmental Policy Act (Federal Law No. 9,638/1981) of Brazil, the Environmental Protection Act of Slovenia, the Law 137/1995 on the Environmental Protection of Romania and the Environmental Protection Act of Croatia.

Owing to the Group's office-based business nature, the Group does not create a significant impact on the environment. The Group nevertheless improves existing policies and incorporates new policies continuously to mitigate potential direct and indirect negative environmental impacts arising from its business operations.

A1. Emissions

Air Emissions

Air emissions were mainly generated by the use of the Company's vehicles. Measures on controlling air emissions will be described in the section below headed "GHG Emissions" under this aspect.

Air emissions were also generated from the harvesting and wood processing machineries, trucks, trains and marine vessels during the process of harvesting, wood processing and transportation of timber in the daily operations of the TSC Operation, however, since the Group outsourced these activities to third parties and did not have direct operational control over these activities, the relevant air emissions data was not included in this report.

The Group's air emissions generally increased mainly due to the expansion of the Group's timber supply chain business during FY2021.

Summary of exhaust gas emissions performances:

				Percentage
Indicator	Unit	FY2021	FY2020	change
Nitrogen oxides ("NO _x ")	kg	52.16	51.00	2.27%
Sulphur oxides ("SO _x ")	kg	0.21	0.04	425%
Particular matter ("PM")	kg	4.68	4.75	-1.47%

GHG Emissions

The principal GHG emissions of the Group were generated from diesel consumption by vehicles (Scope 1), electricity consumption (Scope 2) and paper waste disposal and business air travel (Scope 3).

Scope 1 – Direct GHG Emissions

The Group has adopted the following measures to reduce direct GHG emissions from diesel consumption by vehicles in its operations:

- Plan routes ahead of time to avoid route repetition and optimise fuel consumption;
- Regularly maintain vehicles to ensure optimal engine performance and fuel use; and
- Switch off the vehicle engine when not in use.

Scope 2 – Energy indirect GHG Emissions

Electricity consumption accounted for the largest percentage of GHG emissions within the Group. The Group has implemented measures to reduce energy consumption which are set out in the section below headed "Energy Consumption" under aspect A2.

Scope 3 – Other Indirect GHG Emissions

Office paper waste disposal and business air travel attributed to the category of other indirect GHG emissions. The Group recognises that air travels generate a large amount of GHG emissions, therefore air travels are only arranged when deemed necessary. Tele-conferences and web conferences are the Group's preferred communication channel. Measures implemented to reduce paper waste disposal are set out in the section below headed "Waste Management" under this aspect.

GHG emissions were also generated from the harvesting and wood processing machineries, trucks, trains and marine vessels during the process of harvesting, wood processing and transportation of timber in the daily operations of the TSC Operation, however, since the Group outsourced these activities to third parties and did not have direct operational control over these activities, the relevant GHG emissions data was not included in this report.

For FY2021, the total GHG emissions increased by 65.66% mainly due to the increased number and use of vehicles resulting from business expansion.

Summary of GHG emissions performances:

				Percentage
Indicator ¹	Unit ²	FY2021	FY2020	change
Scope 1- Direct GHG emissions				
Diesel consumption	tCO ₂ e	35.53	7.70	361.43%
Scope 2 – Energy indirect GHG emissions				
Electricity consumption	tCO ₂ e	8.18	8.29	-1.33%
Scope 3 – Other indirect GHG emissions				
Paper disposal	tCO ₂ e	1.20	1.80	-33.33%
Business air travel	tCO ₂ e	0.20	9.44	-97.88%
Total GHG emissions	tCO,e	45.11	27.23	65.66%
Total GHG emissions intensity	tCO₂e/ HK\$ million revenue ³	0.05	0.04	25.00%
	tCO ₂ e/ employee ⁴	0.88	0.65	35.38%

Notes:

- 1. GHG emissions data is presented in terms of carbon dioxide equivalent and is based on, but not limited to, "The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard" issued by the World Resources Institute and the World Business Council for Sustainable Development, "How to prepare an ESG report Appendix 2: Reporting Guidance on Environmental KPIs" issued by the Stock Exchange, the "Global Warming Potential Values" from the IPCC Fifth Assessment Report, 2014 (AR5), the Sustainability Report 2020 published by HK Electric Investments, CO₂ Emission Factors for Electricity Generation in the National Interconnected System of Brazil Base Year 2020 by the Ministry of Science, Technology, Innovations and Communications of Brazil and Technical Annex to the SEAP Template Instructions Document: The Emission Factors issued by Covenants of Mayor, the European Commission.
- 2. tCO₂e is defined as tonnes of carbon dioxide equivalent.
- 3. For FY2021, the Group recorded a revenue of HK\$842,631,000 (2020: HK\$619,241,000). This data is also used for calculating other intensity data.
- 4. At 31 March 2021, the Group had a total of 51 employees (including directors) (2020: 42). This data is also used for calculating other intensity data.

Sewage Discharges into Water and Land

Owing to the Group's business nature, the discharges into land and water were insignificant.

Waste Management

Hazardous Waste Management

Owing to the Group's business nature, it did not generate a significant amount of hazardous waste during its daily operations. Nevertheless, the Group has established guidelines to govern the management and disposal of hazardous wastes. In case there is any hazardous waste produced, the Group would engage a qualified chemical waste collector to handle such waste and comply with the relevant environmental rules and regulations.

Non-hazardous Waste Management

Non-hazardous waste disposed of by the Group was mainly office paper; the Group did not note a disproportional amount of waste generated. The Group places great effort in raising the awareness of its employees on the importance of reducing waste production, and has included the following environmentally friendly initiatives to enhance its environmental performance. Green measures include but not limited to the following:

- Recycle office paper and electronic equipment after their life cycle;
- Reuse single-sided waste paper where possible;
- Print electronic correspondences only when necessary; and
- Procure paper with Forest Stewardship Council Recycled Label.

Apart from office paper, the logging and wood processing activities of the TSC Operation may also produce other non-harzardous waste e.g. scrap wood. Although the Group does not have direct operational control on the said activities, the Group has assigned personnel to monitor the logging and lumber production process, in particular the sawmill cutting work, to ensure a high yield output and low scrap level. The Group encourages the local logging teams and the wood processing plants to minimise scrap level and try to maximise the use of the leftover wood such as turning them to bio-fuel.

The decrease in total non-hazardous waste disposal signifies that the implementation and continued emphasis of the aforementioned waste management measures was effective in increasing the Group's ESG performance and employees' awareness.

Summary of major non-hazardous waste disposal performance:

				Percentage
Indicator	Unit	FY2021	FY2020	change
Office paper	kg	249.48	374.22	-33.33%
Total non-hazardous waste	kg	249.48	374.22	-33.33%
Total non-hazardous waste intensity	kg/HK\$ million revenue	0.30	0.60	-50.00%
	kg/employee	4.89	8.91	-45.12%

A2. Use of Resources

The Group realises the scarcity of finite natural resources and has therefore taken the initiative to implement guidelines to better govern the use of resources and minimise the environmental impact arising from its business operations. Measures on reducing general waste and office paper waste production have been mentioned in the preceding section headed "Waste Management" under aspect A1.

Energy Consumption

The Group strives to further reduce energy consumption by adopting the following energysaving measures:

- Pre-set air-conditioning temperature at 24 to 26 degrees Celsius in the offices;
- Switch off all idle electrical appliances and unnecessary lightings upon leaving the premises;
- Post eye-catching reminders near lights switches and electrical appliances as a reminder to employees; and
- Purchase equipment with higher energy efficiency on the replacement of old equipment.

The general increase in total energy consumption was mainly due to the expansion of the Group's timber supply chain business during FY2021 resulting in additional diesel was consumed by the Group's vehicles. Despite the overall increase in total energy consumption, the Group believes that the implementation of the aforementioned energy-saving measures has been effective in raising employees' awareness in respect of energy conservation.

Summary of energy consumption performances:

				Percentage
Indicator	Unit	FY2021	FY2020	change
Direct energy consumption				
• Diesel	kWh	142,756.54	29,969.06	376.35%
Indirect energy consumption				
• Electricity ⁵	kWh	9,600.00	10,809.30	-11.19%
		-,		
Total energy consumption	kWh	152,356.54	40,778.36	273.62%
Total energy consumption	kWh/HK\$ million	180.81	65.89	174.41%
intensity	revenue			
	kWh/employee	2,987.38	970.91	207.69%

Note:

5. Figure does not include the electricity consumption of the Group's office in Croatia since the cost was included in the tenancy of the office premises in Croatia.

Water Consumption

Owing to the Group's business nature, only the usage of water by employees at the office premises in Hong Kong is considered to be a material ESG aspect to the Group. Nevertheless, the water consumption data are not available since water usage is on the account of the building management company and covered by the building management fees. Despite the lack of water consumption data, the Group remains conscious of the necessity to remind its employees to conserve water resources. Apart from posting water conservation reminders around the Group's premises, the Group also regularly inspects water taps to prevent leakage and reports to the building management where necessary. Through the implementation of the said water-saving measures, employees' awareness of water conservation has increased.

Owing to the Group's business nature, the Group did not encounter any problem in sourcing water that was "fit for purpose".

Use of Packaging Material

Owing to the Group's business nature, the use of packaging material was not considered to be a material ESG aspect to the Group.

A3. The Environment and Natural Resources

During FY2021, as the Group had outsourced logging activities in Romania to local logging teams and did not have direct operation control on the logging activities, the impact and KPI on the environment and natural resources brought by the said activities were not included in this report. Accordingly, the impact on environment and natural resources was only limited to the Group's office-based operations and was thus relatively low. Nevertheless, as far as the Group understood, the logging activities conducted by the outsourced logging teams in Romania were in compliance with the local environmental laws and regulations, and that the Group also remains conscious of the existing and potential environmental impacts and regularly assesses the environmental risks of its business model, adopts preventive measures for environmental protection and ensures compliance with the relevant environmental laws and regulations.

Sustainable Forest Management

The Group recognises the importance of preserving forests and pursuing sustainable logging practices. The Group expects the forest owners/suppliers that supply timber logs and wood products to the Group and the outsourced logging teams to fully comply with the relevant local environmental laws and regulations. In respect of logging activities in Romania, the Group works under the agreed harvesting plan with the forest owner/manager which involves the onsite selection of forest areas depending on tree height, tree diameter, tree species, etc., and procures the logging team engaged to conduct logging activities as well as subsequent forest sustainability management work in compliance with local environmental laws and regulations. In addition, the Group is actively developing a set of guidelines to ensure that forest owners/ suppliers are supplying the Group with timber logs and wood products from responsibly and sustainably managed forests.

The Group understands that apart from quality, customers are becoming more concerned about environmental protection and are inclined to purchase and use eco-friendly products. The Group supplies Forest Stewardship Council ("FSC") certified and Programme for the Endorsement of Forest Certification ("PEFC") certified timber or wood products to customers. FSC and PEFC certifications represent an endorsement that the timber or wood products are from forests under sustainability management. The Group also requires members of the procurement team to be familiar with the timber market conditions in Europe and the compliance requirements of FSC and PEFC.

Indoor Air Quality

Indoor air quality was regularly monitored and measured. During FY2021, the indoor air quality of the Group's premises was satisfactory. To improve indoor air quality, air purifying equipment was placed on the premises and the air conditioning system was cleaned periodically. These measures filtered out pollutants, contaminants and dust particles and resulted in maintaining indoor air quality at a satisfactory level.

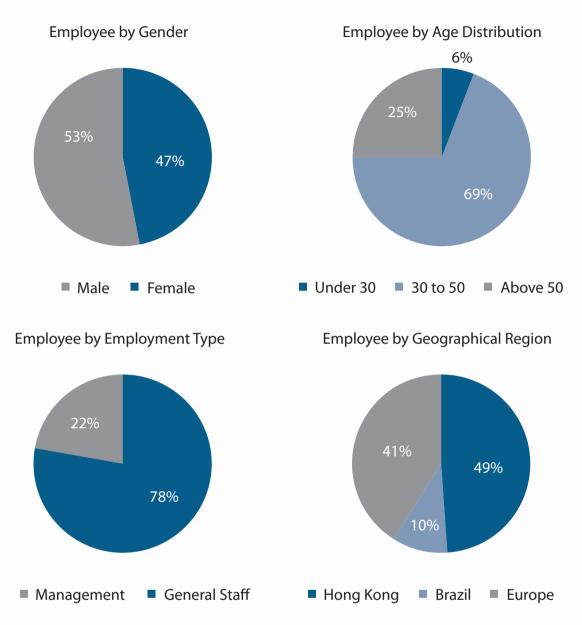

B. SOCIAL

B1. Employment

The Group recognises that its continuing success is dependent on employees' talents and their dedications. Employment policies are formally documented in the Group's Human Resources Policy and Internal Control Manual, covering recruitment, compensation, remuneration, diversity and equal opportunities, etc. The Group is aware of its responsibilities towards its employees. To recruit talents, and to ensure retention and care for the emotional and physical well-being of its employees, the Group periodically reviews existing policies and employment practices to ensure continuous improvement of its employment standards and competitiveness against employers of the similar industry. At 31 March 2021, the Group had a total of 51 full-time employees (2020: 42 employees).

The breakdown of employees according to gender, age distribution, employee category and geographical region are as follows:

			Percentage
Indicator	FY2021	FY2020	change
By Gender			
Male	27	24	12.50%
Female	24	18	33.33%
By Age Distribution			
Under 30	3	1	200.00%
30 to 50	35	31	12.90%
Above 50	13	10	30.00%
By Employee Category			
Management	11	4	175.00%
General Staff	40	38	5.26%
By Geographical Region			
Hong Kong	25	20	25.00%
Brazil	5	7	-28.57%
Europe	21	15	40.00%

During FY2021, there were 13 employees leaving the Group, with the overall employee turnover rate being about 25.49%. The breakdown of employee turnover according to gender, age distribution and geographical region are as follows:

Indicator	Number of employees turnover	Turnover rate
By Gender		
Male	7	25.93%
Female	6	25.00%
By Age Distribution		
Below 30	-	-
30 to 50	13	37.14%
Above 50	-	-
By Geographical Region		
Hong Kong	-	-
Brazil	-	-
Europe	13	61.90%

During FY2021, the Group was not aware of any material non-compliance with employmentrelated laws and regulations that would have a significant impact on the Group, including but not limited to the Employment Ordinance, Sex Discrimination Ordinance, Disability Discrimination Ordinance, Family Status Discrimination Ordinance, Race Discrimination Ordinance and Minimum Wage Ordinance of Hong Kong, the Consolidation of Labour Laws of Brazil, the Employment Relationships Act, Employment Act and Protection Against Discrimination Act of Slovenia, the Labour Code of Romania and the Labour Act of Croatia.

Recruitment, Diversity and Equal Opportunities

Sustainable growth of the Group relies on a non-discriminatory recruitment process and diversity of talents. The Group's employees are recruited via a robust, transparent and fair recruitment process based solely on their experience and competence and without regard to their age, ethnicity, origin, gender identity, marital status, sexual orientation and religion. The recruitment process is stated in the Group's Human Resources Policy and Internal Control Manual.

The Group believes that all employees should have the right to work in an environment free of discrimination, harassment and vilification and is committed to creating and maintaining an inclusive and harmonious workplace culture. The Group does not tolerate any aforementioned behaviours in the workplace in any form.

Benefits and Welfare

In addition to the entitlement of leave stipulated in employment laws in respective jurisdictions, the Group provides other leave to its employees including compassionate leave, compensation leave, etc. Save for the aforementioned entitlement to leave, the employees are also entitled to benefits including group medical insurance scheme, business trip travel insurance scheme, discretionary bonus, education subsidies, etc.

Promotion and Performance Review

Employees' salary is reviewed annually with reference to the result of their performance review. Employees are promoted on the basis of their performance and the extent to which they demonstrate the attributes required for the higher grade. The Group also gives preference to internal promotion to reward loyalty and continuous effort of employees.

Working Hours and Rest Periods

Official working hours and rest periods are clearly stated in the Group's Human Resources Policy and employee's contract of employment and are in accordance with the local employment laws.

Compensation and Dismissal

The Group compensates employees in accordance with statutory requirements of respective jurisdictions, which covers employees who sustain personal injury by accident or disease arising out of and in the course of employment. Unreasonable dismissal under any circumstances is strictly prohibited, dismissal will be based on reasonable and lawful grounds supported by internal policies of the Group.

B2. Health and Safety

During FY2021, the Group was not aware of any material non-compliance with health and safetyrelated laws and regulations that would have a significant impact on the Group, including but not limited to the Occupational Safety and Health Ordinance of Hong Kong, the Consolidation of Labour Laws of Brazil, the Health and Safety at Work Act of Slovenia, Law no. 319/2006 on health and safety at work of Romania and the Safety and Health Protection at Workplace Act of Croatia. During FY2021, no work-related fatalities with regard to occupational health and safety were reported and there were no lost days due to injury.

Provision of Safe Working Environment

The Group attaches great importance to providing employees with a safe and healthy working environment. Although health and safety measures that are applicable to an office-based business operations are limited, the Group is nevertheless committed to safeguarding the wellbeing of all employees. The Group provides ergonomic chairs for its employees to help alleviate potential discomfort and backache. Portable fire extinguishers are placed in the offices and are within easy reach, fire exits are free from obstruction and first aid boxes are placed around the premises.

Response to COVID-19 pandemic

The Group recognises the potential impact of the COVID-19 pandemic on its employees. The Group has issued reminders to its employees to remind them of the importance of practicing and maintaining good personal hygiene. In case of unwellness, employees are required to consult doctor for medical advice and stay home. The Group also reduces face-to-face meetings by using tele or web conferencing to reinforce social distancing. If employees are returning from other countries, they are required to quarantine for 14-21 days. In Hong Kong, the Group requires employees to check their temperature before entering the Group's premises and wear a facial mask when appropriate. In addition, sick leaves are granted to employees who took the COVID-19 vaccination. In Slovenia, Romania and Brazil, there are work-from-home arrangements for the Group's employees to reduce the chance of contracting the virus amongst employees.

B3. Development and Training

Provision of Training Opportunities

Training and continuous development are indispensable to the Group's employees to better adapt to the ever-changing trend of the industry. The Group encourages a continuous learning atmosphere for career development and thus provides both in-house training and reimbursement for employees' continuing professional development activities. Furthermore, the Group encourages employees to attend personal off-the-job training sessions to enhance their job skills and increase their competitiveness against others in the industry. The Group holds firm belief that providing its employees with adequate training opportunities and room for continuous development lays a solid foundation for the Group's continuing success.

As a financial services provider, apart from ensuring a stringent anti-corruption and anti-money laundering policy framework, the Group places emphasis on providing adequate training and encouraging its employees to participate in external seminars on the above mentioned areas. During FY2021, the Group's employees had participated in seminars in anti-corruption and anti-money laundering activities.

During FY2021, all the Group's employees had received an average of approximately 7.61 hours of training and development. The breakdown of the average training hours completed per employee and the percentage of employees trained by gender and employee category are shown as follows:

		Average training hours
Indicator	Unit	completed per employee
By Gender		
Male	Hours	7.07
Female	Hours	8.21
By Employee Category		
Managerial	Hours	16.27
General Staff	Hours	5.23
		Percentage of employees
Indicator	Unit	trained
By Gender		
Male	%	100.00
Female	%	100.00
By Employee Category		
Managerial	%	100.00
General Staff	%	100.00
	70	100:00

B4. Labour Standards

Prevention of Child and Forced Labour

As a responsible corporation operating in the money lending and forest-related businesses, the Group is firmly against the employment of child and forced labour. The Group guarantees that no employee will be made to work against his/her will or be coerced to work, and the recruitment of child labour is also strictly prohibited. All employees recruited by the Group are above 18 years old and are subject to satisfactory reference checks. Personal data are collected and original supporting documents are required to be presented during the recruitment process to assist the human resources department to verify the candidates' personal data and select the most suitable candidates. A detailed background and reference check will also be conducted on potential hires.

During FY2021, the Group was not aware of any material non-compliance with child and forced labour-related laws and regulations that would have a significant impact on the Group, including but not limited to the Employment Ordinance of Hong Kong, the Consolidation of Labour Laws of Brazil, the Employment Relationships Act of Slovenia, the Labour Code of Romania and the Labour Act of Croatia.

B5. Supply Chain Management

To maintain current high standards of the supply chain management, attention will be placed to ensure suppliers not only meeting the mutually agreed quantity and quality of products and services but they must also have considered their environmental and social impacts. The Group has a well-managed procurement system and strict supplier selection process, including qualification authentication, production examinations as well as supplier assessment to confirm the supplier's commitment to product liability and quality of products.

The number of suppliers of the Group's TSC Operation by geographical region is as follows:

Indicator	FY2021	FY2020
Slovenia	15	17
Romania	19	-
Papua New Guinea	4	6
Czech Republic	7	4
Austria	4	3
Croatia	9	3
Others	11	5
Total	69	38

Procurement Process

The Group has established a policy relating to supply chain management, which detailed the requirement of performing a "Know Your Supplier" check and other procedures before engaging new suppliers. The Group considers factors including suppliers' reputation, prevailing market price and delivery time when making purchases with suppliers. At the same time, the purchases of supplies are determined after having considered the current inventories level, expected customer demands, projected sales trends and market outlook.

Where possible, the Group strives not to over-rely on a particular supplier by maintaining more than one supplier for each type of product or service required in order to ensure the stability of the supply chain. The Group monitors and annually evaluates the performance of its suppliers to ensure their compliance with legal requirements, quality and performance standards. The Group conducts regular follow-up evaluations on suppliers and will suspend the cooperation with them until the circumstances have been improved if they failed to meet the policy of the Group, or committed any irregularities that do not meet the contractual requirements, or the products they supplied did not meet the production requirements, and in such ways the Group's high quality products and services can be maintained.

Environmental and Social Risk Management of the Supply Chain

The Group puts forward requirements for suppliers on environmental and social risk control. Aside from the conventional consideration factors such as product quality and timely delivery, suppliers which put an emphasis on environmental protection or have clear guidelines to protect labor rights are prioritised during the procurement process.

Since the raw material for the Group's production is mainly timber, the Group recognises the importance of the potential risks of the Group's raw material supply chain in relation to forest resources. The Group also requires products and raw materials used by the suppliers shall meet environmental protection requirements set out in national and local laws and regulations as well as industrial standards, and encourages the usage of clean production process and equipment. For suppliers who are likely to cause or have caused serious harm or major environmental pollution, the Group will terminate the contract with those suppliers.

Apart from environmental risks, the Group also takes measures to examine whether its major suppliers/contractors are in compliance with relevant laws and regulations and other required standards for health, safety, forced labour and child labour.

B6. Product Responsibility

The Group recognises the importance of product quality and corporate reputation and is committed to continuously improving its products and services. The Group maintains communication with its customers to ensure understanding and meeting customer needs and expectations. The Group also actively monitors the quality of its products and services through internal controls.

During FY2021, the Group was not aware of any non-compliance with the laws and regulations concerning health and safety, advertising, labelling and privacy matters relating to products and services provided by the Group and methods of redress that would have a significant impact on the Group, including but not limited to the Personal Data (Privacy) Ordinance of Hong Kong, the General Data Protection Law (LGPD) of Brazil, the Personal Data Protection Act of Slovenia, the Law No. 245/2004 on the general safety of products of Romania and the General Product Safety Act of Croatia. During FY2021, the Group did not receive any reported recalls due to safety and health reasons nor complaints regarding the Group's products and services provided.

Quality Assurance

TSC Operation

The Group has implemented a strict quality control system to monitor purchase, inventory management, processing, and transportation of timber logs and wood products.

Timber logs and wood products purchased by the Group undergo on-site quality checking before they are loaded on trains and/or trucks for land transport to log yards of the distribution hubs or sometimes directly to ports. The supervisors of the log yards perform quality checks on the cargos again upon unloading by referencing to the grade, diameter, and length of the timber logs and size and quality of the wood products. The cargoes are then stored in the warehouse in the log yards. There are measures in maintaining the quality of timber logs and wood products including temperature and moisture control. There are also controlling measures in ensuring the safe custody of the inventories.

For timber logs transported to the manufacturing plant engaged for processing into lumber, quality check are performed upon unloading to ensure the timber logs are not damaged during transportation.

The Group's logistic teams arrange transport on a daily basis from forests or supplier sites to the log yards or ports in accordance with the procurement plan with reference to trucks and/or rails schedule as well as forecast weather conditions and local transportation rules to ensure road safety in different weather conditions.

Money lending business

The Group ensures that its employees are familiar with the guideline on requirements for advertisements of money lending business. The guideline stipulates that advertisement, whether in textual, audio or visual form, must contain the relevant money lender's telephone hotline for handling complaints and a clearly-stated risk warning statement. The said risk warning statement must also be clearly audible in the audio part of the advertisement.

Data Privacy Protection

The Group is committed to protecting the legitimate rights and interests of its customers. Unauthorised access and dissemination of customers' sensitive information is strictly prohibited unless the employees are under the legal obligation to do so. The Group's Information Technology ("IT") Policy provides guidelines on preventing data leakage and holds the IT department responsible for ensuring that the anti-virus protection for all machines and network connection is adequate. Confidential information such as sensitive financial data should be encrypted with a password. Only authorised personnel are permitted to access the clients' information database and they are entitled to access the information on a need-to-know basis. The existing privacy and security policies are reviewed on a regular basis and will be updated whenever applicable laws and regulations are revised.

Intellectual Property Rights

The Group refrains from using any illegal software or products. As a responsible and ethical corporation, the Group is in full support of the use of legal software and products that have obtained licenses or those that have been certified by the relevant authorities.

Customer Satisfaction

The timber logs and wood products offered by the Group are usually sold to customers in China and other overseas countries. The Group's sales team maintains regular communications with the existing and potential customers to understand their individual requirements. Besides, the Group has a team of sourcing and procurement expertise to work with the forest owners/ suppliers directly, and regularly communicates with the sales team to understand customers' requirements. The sourcing and procurement team performs research and analysis on the supply and demand of different types of timber and wood products based on market intelligence, news, published data, etc. The sourcing and procurement team then identifies and sources forest owners/suppliers which can supply the timber and wood products at the best available price. Furthermore, the Group provides after-sales services to ensure that the customers are 100% satisfied with the timber logs, wood products and logistic services the Group provides.

Feedbacks and complaints from the Group's customers are highly valued as it is of vital importance to the continuous development of the Group. Procedures for handling feedbacks have been set up. Should the Group receive any complaints, the Group will strive to act in a timely manner to resolve the issue with effective corrective actions. In addition, complaints of significant weight received will be discussed and reviewed by the management during regular meetings to prevent re-occurrence. During FY2021, the Group had not received any form of complaints from its customers in respect of the products or services provided.

Advertising and Labelling

During FY2021, the Group did not have business dealings that had significant advertising and labelling issues.

B7. Anti-corruption

A solid corporate governance structure is crucial to the Group's sustainable growth. The Group emphatically asserts its zero-tolerance stance in relation to any kind of corruption, bribery, forgery, extortion, conspiracy, embezzlement and collusion cases that not only violate applicable laws and regulations but also severely tarnish the business integrity and reputation of the Group.

During FY2021, the Group was not aware of any material non-compliance with the relevant laws and regulations of bribery, extortion, fraud and money laundering that would have a significant impact on the Group, including but not limited to the Money Lenders Ordinance, the Securities and Futures Ordinance, the Prevention of Bribery Ordinance of Hong Kong, the Anti-Corruption Act of Brazil, the Integrity and Prevention of Corruption Act of Slovenia and the Law no. 135/2010 on the Criminal Procedure Code of Romania and the Act on the Responsibility of Legal Persons for Criminal Offences of Croatia. During FY2021, there were no cases regarding corrupt practices brought against the Group or its employees.

Anti-money Laundering and Counter-financing of Terrorism

As a financial services provider, the Group is particularly sensitive to the signs of money laundering and other financial crimes. Apart from complying with local laws and guidelines promulgated by regulatory authorities, the Group recognises its responsibility in protecting the integrity of the financial system. The Group has formulated an Anti-money Laundering and Counter-terrorist Financing Policy to ensure that its employees are familiar with their responsibilities in combating criminal activities. Guidelines are also in place in the same policy to safeguard the interests of the Group, such as background investigation and customer due diligence requirements in relation to loan assessment and approval process.

Anti-bribery and Anti-corruption Practices

To prevent the occurrence of corrupt practices in the Group's business operations, the Group has formulated a Code of Conduct and Discipline Policy in relation to accepting business courtesies, gifts or hospitality and has specified the consequences of accepting or soliciting for such benefits. Bribery, fraud and corruption in any form or in relation to any parties are all strictly prohibited in the Group.

Whistle-blowing Mechanism

The Group has established a reporting and investigative procedure to encourage its employees to report fraudulent activities. The Group endeavours to protect the whistle-blower from common concerns such as victimisation and potential retaliation. The employee reporting in good faith under this procedure shall be assured of the protection against unfair dismissal or victimisation, even if the reports are subsequently proved to be unsubstantiated.

B8. Community Investment

The Group recognises the importance of making a positive impact on the community and realises the importance of giving back to the members of the society. Therefore, the Group encourages its employees to engage in community services and voluntary activities to give back to the less-abled and financially challenged members of the public. The Group shall extend its scope of financial contributions to benefit the financially disadvantaged in the future.

國富浩華(香港)會計師事務所有限公司 Crowe (HK) CPA Limited 香港 銅鑼灣 禮頓道77號 禮頓中心9樓 9/F Leighton Centre, 77 Leighton Road, Causeway Bay, Hong Kong

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF RELIANCE GLOBAL HOLDINGS LIMITED

(Incorporated in Bermuda with limited liability)

OPINION

We have audited the consolidated financial statements of Reliance Global Holdings Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 67 to 147, which comprise the consolidated statement of financial position at 31 March 2021, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group at 31 March 2021 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") issued by the International Accounting Standards Board (the "IASB") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). Our responsibilities under those standards are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements" section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

Provision for expected credit losses ("ECL") and impairment assessment of loan receivables

We identified the ECL assessment and impairment assessment on loan receivables as a key audit matter due to management judgement was required in making an assessment of the adequacy of the ECL assessment and impairment provision for loan receivables rising from the money lending business.

The carrying amount of the loan receivables at 31 March 2021 amounted to approximately HK\$280,692,000.

In determining the impairment provision of loan receivables, the recoverability of the loan receivables was assessed by the management taking into account the credit quality and likelihood of collection.

ECL for loan receivables are based on management's estimate of 12-month ECL to be incurred, which is estimated by taking into account the credit loss experience, aging of overdue amounts, customers' repayment history and customers' financial position, all of which involve a significant degree of management judgement. Our procedures in relation to management's impairment assessment of the loan receivables included:

How our audit addressed the key audit matter

- Understanding the Group's policy on granting loans to its borrowers and the Group's credit and impairment assessments including the related credit control and loan monitoring process;
- Challenging management's basis and judgement in determining credit loss allowance on loan receivables at 31 March 2021, including the identification of credit impaired loan receivables, estimated loss rates applied to each borrower and collaterals pledged to the Group;
- Evaluating management's assessment of the internal credit rating of the loan receivables by reference to the past due status, past collection history, subsequent settlement information and financial condition of the borrowers;
- Testing the mathematical accuracy of the impairment allowance calculation and settlement records on a sample basis;
- Evaluating the expected cash shortfalls estimated by the management by checking the expected cash flows from the realisation of collaterals against publicly available information; and
- Assessing the reasonableness of forward-looking information used by the Group.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with Section 90 of the Companies Act 1981 of Bermuda, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether
 due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Crowe (HK) CPA Limited *Certified Public Accountants* Hong Kong, 30 June 2021

1. CORPORATE INFORMATION

Reliance Global Holdings Limited (the "Company") was incorporated in Bermuda as an exempted company with limited liability under the Companies Act 1981 of Bermuda and its ordinary shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The address of its registered office is Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda and its principal place of business in Hong Kong is Room 3201, 32nd Floor, China Resources Building, 26 Harbour Road, Wanchai, Hong Kong.

The principal activities of the Company are investment holding and provision of management services. The principal activities of the subsidiaries of the Company comprise money lending business conducted pursuant to the Money Lenders Ordinance (Chapter 163 of the Laws of Hong Kong), forest-related business comprising sustainable forest management and timber supply chain, and leasing of properties.

2. STATEMENT OF COMPLIANCE

These consolidated financial statements have been prepared in accordance with all applicable International Financial Reporting Standards ("IFRSs"), which collective term includes all applicable individual International Financial Reporting Standards, International Accounting Standards ("IASs") and Interpretations issued by the International Accounting Standards Board ("IASB"), and the disclosure requirements of the Hong Kong Companies Ordinance. These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules"). Significant accounting policies adopted by the Company and its subsidiaries (collectively referred to as the "Group") are disclosed below.

The IASB has issued certain amendments to IFRSs which are first effective for the current accounting period of the Group. Note 4 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these consolidated financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation of the financial statements

The consolidated financial statements for the year ended 31 March 2021 comprise the financial statements of the Company and its subsidiaries.

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). These consolidated financial statements are presented in Hong Kong dollars ("HK\$"), rounded to the nearest thousand except for per share data. Hong Kong dollar is the Company's functional currency and the Group's presentation currency.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(a) Basis of preparation of the financial statements (continued)

The measurement basis used in the preparation of the financial statements is the historical cost basis.

The preparation of financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRSs that have a significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 5.

(b) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(b) Subsidiaries and non-controlling interests (continued)

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to owners of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and owners of the Company. Total comprehensive income of subsidiaries is attributed to owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. Loans from holders of non-controlling interests and other contractual obligations towards these holders are presented as financial liabilities in the consolidated statement of financial position.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

In the Company's statement of financial position, interests in subsidiaries are stated at cost less impairment losses (please refer to note 3(i)).

(c) Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

Except for certain recognition exemptions, the identifiable assets acquired and liabilities assumed must meet the definitions of an asset and a liability in the *Framework for the Preparation and Presentation of Financial Statements* (replaced by the *Conceptual Framework for Financial Reporting* issued in September 2010).

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) **Business combinations (continued)**

At the acquisition date, the identifiable assets acquired and liabilities assumed are recognised at their fair values, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with IAS 12 "Income Taxes" and IAS 19 "Employee Benefits" respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with IFRS 2 "Share-based Payment" at the acquisition date;
- assets (or disposal groups) that are classified as held-for-sale in accordance with IFRS
 5 "Non-current Assets Held for Sale and Discontinued Operations" are measured in accordance with that standard; and
- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in IFRS 16) as if the acquired leases were new leases at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed at acquisition date. If, after re-assessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation are initially measured at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Business combinations (continued)

Where the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively. Measurement period adjustments are adjusted retrospectively during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for the contingent consideration that does not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured to fair value at subsequent reporting dates, with the corresponding gain or loss being recognised in profit or loss.

Where a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (that is, the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss or other comprehensive income, as appropriate. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income and measured under IFRS 9 would be accounted for on the same basis as would be required if the Group had disposed directly of the previously held equity interest.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted retrospectively during the measurement period (see above), and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

(d) Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cashgenerating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Goodwill (continued)

A cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently whenever there is an indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cashgenerating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of cash-generating units).

On the disposal of the relevant cash-generating unit or any of the cash-generating unit within the group of cash-generating units, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal. When the Group disposes of an operation within the cash-generating unit (or a cash-generating unit within a group of cashgenerating units), the amount of goodwill disposed of is measured on the basis of the relative values of the operation (or the cash-generating unit) disposed of and the portion of the cashgenerating unit (or the group of cash-generating units) retained.

(e) Acquisition of a subsidiary not constituting a business

When the Group acquires a group of assets and liabilities that do not constitute a business, the Group identifies and recognises the individual identifiable assets acquired and liabilities assumed by allocating the purchase price first to financial assets/financial liabilities at the respective fair values, the remaining balance of the purchase price is then allocated to the other identifiable assets and liabilities on the basis of their relative fair values at the date of purchase. Such a transaction does not give rise to goodwill or bargain purchase gain.

(f) Property, plant and equipment

The following items of property, plant and equipment are stated in the consolidated statement of financial position at cost less accumulated depreciation and accumulated impairment losses (please refer to note 3(i)(ii)):

- furniture and fixtures, machinery, engineering and other equipment, and motor vehicles; and
- right-of-use assets arising from leases over leasehold properties where the Group is not the registered owner of the property interest.

Freehold land is not depreciated and is measured at cost less subsequent accumulated impairment losses.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(f) **Property, plant and equipment (continued)**

The cost of self-constructed items of property, plant and equipment includes the cost of materials, direct labour, the initial estimate, where relevant, of the costs of dismantling and removing the items and restoring the site on which they are located, and an appropriate proportion of production overheads and borrowing costs.

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual value, if any, using the straight-line method over their estimated useful lives as follows:

Furniture and fixtures	5–10 years
Machinery, engineering and other equipment	5–10 years
Motor vehicles	5 years

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are recognised in profit or loss during the financial period in which they are incurred.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net proceeds on disposal and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Intangible assets (other than goodwill)

Intangible assets, other than goodwill, identified on business combinations are capitalised based on their fair values.

Intangible assets acquired by the Group are stated in the consolidated statement of financial position at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses (see note 3(i)(ii)). Expenditure on internally generated goodwill and brands is recognised as an expense in the period in which it is incurred.

Money lenders licence will not be amortised until its useful life is determined to be finite, but subject to impairment test annually.

Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Harvesting rights have indefinite useful life. Harvesting rights are stated at cost less any accumulated impairment losses. These rights give the Group rights to logging trees in the allocated concession forests in designated areas in the Northwest of Brazil, the State of Acre, Amazon Region.

(h) Leased assets

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

(i) As a lessee

Where the contract contains lease component(s) and non-lease component(s), the Group has elected not to separate non-lease components and accounts for each lease component and any associated non-lease components as a single lease component for all leases.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for leases that have a lease term of 12 months or less ("short-term leases") and leases of low-value assets. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- (h) Leased assets (continued)
 - (i) As a lessee (continued)

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset is recognised when a lease is capitalised and initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (please refer to notes 3(f) and 3(i)(ii)), except for the following types of right-of-use asset:

- right-of-use assets that meet the definition of investment property are carried at fair value; and
- right-of-use assets related to leasehold land and buildings where the Group is the registered owner of the leasehold interest are carried at cost in accordance with note 3(f).

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the lease modification.

The Group presents right-of-use assets that do not meet the definition of investment property and lease liabilities separately in the consolidated statement of financial position.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- (h) Leased assets (continued)
 - (i) As a lessee (continued)

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

(ii) As a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee. If this is not the case, the lease is classified as an operating lease.

When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. The rental income from operating leases is recognised in accordance with note 3(s) (iv).

When the Group is an intermediate lessor, the sub-leases are classified as a finance lease or as an operating lease with reference to the right-of-use asset arising from the head lease. If the head lease is a short-term lease to which the Group applies the exemption described in note 3(h)(i), then the Group classifies the sub-lease as an operating lease.

(i) Credit losses and impairment of assets

(i) Credit losses from financial instruments, loan receivables and finance lease receivables

The Group recognises impairment loss for expected credit losses ("ECLs") on the following items:

- financial assets measured at amortised cost (including cash and cash equivalents and trade and other receivables);
- loan receivables; and
- finance lease receivables.

Financial assets measured at fair value are not subject to the ECL assessment.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- (i) Credit losses and impairment of assets (continued)
 - (i) Credit losses from financial instruments, loan receivables and finance lease receivables (continued)

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured at the present value of all expected cash shortfalls (that is, the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

The expected cash shortfalls are discounted using the following discount rates where the effect of discounting is material:

- trade and other receivables: effective interest rate determined at initial recognition or an approximation thereof; and
- loan receivables and finance lease receivables: discount rate used in the measurement of the receivables.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECLs, the Group takes into account reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

ECLs are measured on either of the following bases:

- 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.

Impairment loss for trade and other receivables are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments including loan and finance lease receivables, the Group recognises impairment loss equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the impairment loss is measured at an amount equal to lifetime ECLs.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- (i) Credit losses and impairment of assets (continued)
 - (i) Credit losses from financial instruments, loan receivables and finance lease receivables (continued)

Measurement of ECL (continued)

The measurement of ECL is a function of the probability of default, loss given default (that is, the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Where ECL is measured on a collective basis, the financial instruments are grouped on the basis below:

- nature of financial instruments;
- past-due status;
- nature, size and industry of debtors; and
- external credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

The Group recognises an impairment loss or a reversal of impairment loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade and other receivables, loan receivables and finance lease receivables where the corresponding adjustment is recognised through an impairment allowance account.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- (i) Credit losses and impairment of assets (continued)
 - (i) Credit losses from financial instruments, loan receivables and finance lease receivables (continued)

Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is 90 days past due. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment loss or a reversal of impairment loss in profit or loss. The Group recognises an impairment loss or a reversal of impairment loss for all financial instruments with a corresponding adjustment to their carrying amount through an impairment allowance account.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- (i) Credit losses and impairment of assets (continued)
 - (i) Credit losses from financial instruments, loan receivables and finance lease receivables (continued)

Basis of calculation of interest income

Interest income recognised in accordance with note 3(s)(ii) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost (that is, the gross carrying amount less impairment allowance) of the financial asset.

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable events:

- significant financial difficulties of the debtor;
- a breach of contract, such as a default or past due event;
- it becoming probable that the debtor will enter into bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; or
- the disappearance of an active market for a security because of financial difficulties of the issuer.

Write-off policy

The gross carrying amount of a financial asset, loan receivable or finance lease receivable is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- (i) Credit losses and impairment of assets (continued)
 - (ii) Impairment of non-current assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or, except in the case of goodwill, an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment;
- right-of-use assets;
- intangible assets; and
- interests in subsidiaries in the Company's statement of financial position.

If any such indication exists, the asset's recoverable amount is re-estimated. In addition, for goodwill and intangible assets that are not yet available for use and intangible assets that have indefinite useful lives, the recoverable amount is estimated annually whether or not there is any indication of impairment.

Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (that is, a cash-generating unit).

Recognition of impairment losses

An impairment loss is recognised in profit or loss whenever the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cashgenerating unit (or group of units) and then, to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying amount of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- (i) Credit losses and impairment of assets (continued)
 - (ii) Impairment of non-current assets (continued)
 - Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

(iii) Interim financial reporting and impairment

Under the Listing Rules, the Group is required to prepare an interim financial report in compliance with IAS 34, "Interim Financial Reporting", in respect of the first six months of the financial year. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year (as set out in notes 3(i)(i) and (ii)).

Impairment losses recognised in an interim period in respect of goodwill are not reversed in a subsequent period. This is the case even if no loss, or a smaller loss, would have been recognised had the impairment been assessed only at the end of the financial year to which the interim period relates.

(j) Inventories

Inventories are assets which are held for sale in the ordinary course of business, in the process of production for such sale or in the form of materials or supplies to be consumed in the production process or in the rendering of services.

Inventories are carried at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(j) Inventories (continued)

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

(k) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset.

Receivables are stated at amortised cost using the effective interest method less impairment allowance for credit losses (please refer to note 3(i)(i)).

(I) Interest-bearing borrowings

Interest-bearing borrowings are measured initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with the Group's accounting policy for borrowing costs (as described in note 3(u)).

(m) Preferred share capital

Preferred share capital is classified as equity if it is non-redeemable, or redeemable only at the Company's option, and any dividends are discretionary. Dividends on preferred share capital classified as equity are recognised as distributions within equity.

Preferred share capital is classified as a liability if it is redeemable on a specific date or at the option of the shareholders, or if dividend payments are not discretionary. The liability is recognised in accordance with the Group's policy for interest-bearing borrowings set out in note 3(l) and accordingly dividends thereon are recognised on an accruals basis in profit or loss as part of finance costs.

(n) Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(o) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows. Cash and cash equivalents are assessed for ECLs in accordance with the policy set out in note 3(i)(i).

- (p) Employee benefits
 - (i) Short-term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

- (ii) The Group operates a Mandatory Provident Fund retirement benefits scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance, for all of its employees in Hong Kong. Under the rules of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at rates specified in the rules. The only obligation of the Group with respect to the MPF Scheme is to make the required contributions under the scheme. The Group's subsidiaries which operate in Brazil, Slovenia, Romania and Croatia are required to participate in a central pension scheme operated by the local municipal government. The subsidiaries are required to contribute a percentage of their payroll costs to the central pension scheme. The contributions are charged to profit or loss as they become payable in accordance with rules of the central pension scheme.
- (iii) Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(q) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided that those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(q) Income tax (continued)

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.
- (r) Provisions, contingent liabilities and onerous contracts
 - (i) Provisions and contingent liabilities

Provisions are recognised when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(ii) Onerous contracts

An onerous contract exists when the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. Provisions for onerous contracts are measured at the present value of the lower of the expected cost of terminating the contract and the net cost of continuing with the contract.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- (r) Provisions, contingent liabilities and onerous contracts (continued)
 - (iii) Contingent liabilities assumed in business combinations

Contingent liabilities assumed in a business combination which are present obligations at the date of acquisition are initially recognised at fair value, provided the fair value can be reliably measured. After their initial recognition at fair value, such contingent liabilities are recognised at the higher of the amount initially recognised, less accumulated amortisation where appropriate, and the amount that would be determined in accordance with note 3(r)(i). Contingent liabilities assumed in a business combination that cannot be reliably fair valued or were not present obligations at the date of acquisition are disclosed in accordance with note 3(r)(i).

(s) Revenue and other income

Income is classified by the Group as revenue when it arises from the sale of goods, the provision of services or the use by others of the Group's assets under leases in the ordinary course of the Group's business.

Revenue is recognised when control over a product or service is transferred to the customer, or the lessee has the right to use the asset, at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Where the contract contains a financing component which provides a significant financing benefit to the customer for more than 12 months, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction with the customer, and interest income is accrued separately under the effective interest method. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. The Group takes advantage of the practical expedient in paragraph 63 of IFRS 15 and does not adjust the consideration for any effects of a significant financing component if the period of financing is 12 months or less.

Further details of the Group's revenue and other income recognition policies are as follows:

(i) Sale of goods

Revenue is recognised when the customer takes possession of and accepts the products.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- (s) Revenue and other income (continued)
 - (ii) Interest income

Interest income is recognised as it accrues under the effective interest method using the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset. For credit-impaired financial assets, the effective interest rate is applied to the amortised cost (that is, gross carrying amount net of impairment allowance) of the asset (see note 3(i)(i)).

(iii) Revenue from licensing of harvesting rights

Revenue from licensing of harvesting rights is recognised on a straight-line basis over the term of the relevant lease.

(iv) Rental income from investment properties

Rental income receivable from investment properties is recognised in profit or loss in equal instalments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of the leased asset. Lease incentives granted are recognised in profit or loss as an integral part of the aggregate net lease payments receivable.

(v) Government grants

Government grants are recognised in the statement of financial position initially when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as income in profit or loss on a systematic basis in the same periods in which the expenses are incurred.

(t) Translation of foreign currencies

Foreign currency transactions during the year are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the Company initially recognises such non-monetary assets or liabilities. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was measured.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(t) Translation of foreign currencies (continued)

The results of foreign operations are translated into Hong Kong dollars at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Items of statement of financial position, including goodwill arising on consolidation of foreign operations acquired on or after 1 April 2005, are translated into Hong Kong dollars at the closing foreign exchange rates ruling at the end of the reporting period. The resulting exchange differences are recognised in other comprehensive income and accumulated separately in equity in the exchange fluctuation reserve. Goodwill arising on consolidation of a foreign operation acquired before 1 April 2005 is translated at the foreign exchange rate that applied at the date of acquisition of the foreign operation.

On the disposal of a foreign operation (that is, a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss.

(u) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in profit or loss in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or completed.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(v) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

For the year ended 31 March 2021

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(w) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Board of Directors of the Company (the chief operating decision maker) for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

(x) Shares held by the Company for settlement of acquisition consideration

The Company issued shares and held them on behalf of the vendor for the settlement of acquisition consideration payable to the vendor in future years upon meeting the net profit guarantee by the vendor in connection with the acquisition of Originate Tech Global Investments Limited and its subsidiaries. The shares, valued at HK\$0.414 per share, before share consolidation effective from 2 October 2013, including any directly attributable incremental costs, are presented as "Shares held by the Company for settlement of acquisition consideration" and deducted from total equity. As a result of the failure to meet the net profit guarantee by the vendor, these shares are held by the Company awaiting disposal by the Company. Proceeds recovered from the disposal of these shares shall be returned to the Company.

For the year ended 31 March 2021

4. APPLICATION OF AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS

In the current year, the Group has applied the Amendments to References to the Conceptual Framework in IFRS Standards and the following amendments to IFRSs issued by the IASB that are first effective for the current accounting period of the Group:

Amendments to IAS 1 and IAS 8 Amendments to IFRS 3 Amendments to IFRS 9, IAS 39 and IFRS 7 Definition of Material Definition of a Business Interest Rate Benchmark Reform

Except as described below, the application of the Amendments to References to the Conceptual Framework in IFRS Standards and the amendments to IFRSs in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Amendments to IFRS 3, Definition of a Business

The amendments clarify the definition of a business and provide further guidance on how to determine whether a transaction represents a business combination. In addition, the amendments introduce an optional "concentration test" that permits a simplified assessment of whether an acquired set of activities and assets is an asset rather than business acquisition, when substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

The Group has applied the amendments prospectively to transactions for which the acquisition date is on or after the beginning of the current accounting period on 1 April 2020. In particular, the Group has elected to apply the concentration test to an acquisition during the year (see note 33(a)).

5. ACCOUNTING ESTIMATES AND JUDGEMENTS

In the application of the Group's accounting policies, which are described in note 3, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

For the year ended 31 March 2021

5. ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

Key sources of estimation uncertainty (continued)

(a) Impairment assessment of loan receivables and finance lease receivables

Management regularly reviews the impairment assessment and evaluates the ECL of the loan receivables and finance lease receivables. Appropriate impairment allowance is recognised in profit or loss.

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the one at the date of initial recognition. In making this assessment, the loan receivables and finance lease receivables are assessed individually by the management of the Group, based on the financial background, financial condition and the historical settlement records, including past due dates and default rates, of each borrower and reasonable and supportable forward-looking information such as macroeconomic data (for example, respective industry projected growth rates for certain borrowers) that is available without undue cost or effort.

Each borrower is assigned a risk grading under internal credit ratings to calculate the ECL, taking into consideration of the estimates of expected cash shortfalls which are driven by estimates of possibility of default and the amount and timing of cash flows that are expected from the foreclosure on the collaterals (if any) less the costs of obtaining and selling the collaterals. At every reporting date, the financial background, financial condition and the historical settlement records are reassessed and changes in the forward-looking information are considered.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's loan receivables and finance lease receivables are disclosed in note 35, 20 and 21 respectively.

(b) Impairment loss of intangible assets

The Group performs annual tests on whether there has been impairment of intangible assets with indefinite useful life. In the event that the carrying values of the intangible assets are higher than their recoverable amounts (that is, the greater of their fair value less costs of disposal or value in use), impairment loss is recognised. These calculations require the use of estimates and assumptions made by management on the future operation of the business, and other assumptions underlying the fair value less costs of disposal calculations.

(c) Income tax

The Group is subject to income taxes in several jurisdictions. Significant judgement is required in determining the worldwide provision for income taxes. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that are initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

For the year ended 31 March 2021

6. SEGMENT INFORMATION

The Group manages its businesses by divisions, which are organised by a mixture of both business lines (products and services) and geographical location. In a manner consistent with the way in which information is reported internally to the Board of Directors for the purposes of resource allocation and performance assessment, the Group has presented the following reportable segments. No operating segments have been aggregated to form the following reportable segments.

Specifically, the Group's reportable and operating segments under IFRS 8 are as follows:

- Money lending: money lending business conducted pursuant to the Money Lenders Ordinance (Chapter 163 of the Laws of Hong Kong).
- Forest-related business:
 - (i) Sustainable forest management: sustainable forest management of and investment in natural forests, licensing of harvesting rights, timber and wood processing, trading and sales of forestry and timber products.
 - (ii) Timber supply chain: sales of timber and wood products including processed timber products.
- Leasing of properties: leasing of premises to generate rental income and to gain from the appreciation in the property values.

Segment results represent the profit/loss from each segment without allocation of corporate income, corporate expense and finance costs.

Segment assets include all non-current assets and current assets attributable to an individual reportable segment with the exception of right-of-use assets and certain corporate assets.

All liabilities are allocated to reportable segments other than lease liabilities, deferred tax liabilities, amounts received from a shareholder and certain corporate liabilities.

For the year ended 31 March 2021

6. SEGMENT INFORMATION (continued)

Segment revenue, results, assets and liabilities An analysis of the Group's reportable segments is reported below:

For the year ended 31 March 2021

6. SEGMENT INFORMATION (continued)

Geographical information

The following is an analysis of geographical location of (i) the Group's revenue from external customers and (ii) the Group's non-current assets. The geographical locations of customers refer to the locations at which the customers reside. The geographical locations of property, plant and equipment are based on the physical locations of the assets under consideration. In the case of intangible assets, the allocation is based on the location of the operation to which they are allocated.

		Revenue from external customers		Non-current assets	
	Year ende	d 31 March	At 31 March		
	2021	2020	2021	2020	
	HK\$′000	HK\$′000	HK\$′000	HK\$′000	
People's Republic of China ("PRC")	800,055	563,455	-	-	
Hong Kong	34,001	34,288	49,337	79,189	
Asia (other than Hong Kong and the PRC)	1,918	16,785	-	-	
Europe	5,857	-	425	555	
South America	800	4,713	4,622	5,153	
	842,631	619,241	54,384	84,897	

Information about major customers

Revenue from customers contributing 10% or more of the total revenue of the Group are as follows:

2021 <i>HK\$'000</i>	2020 HK\$′000
N/A [#]	118,522
173,131	168,765
N/A [#]	76,688
88,679	_*
	HK\$'000 N/A [#] 173,131 N/A [#]

* No revenue was contributed from this customer for the relevant year.

[#] The corresponding revenue did not contribute over 10% of the total revenue of the Group.

For the year ended 31 March 2021

7. **REVENUE**

An analysis of the Group's revenue for the year is as follows:

	2021 <i>HK\$'000</i>	2020 HK\$′000
Sales from timber supply chain business	807,830	583,584
Interest income from money lending business	33,786	33,444
Arrangement fee income from money lending business	215	749
Income from licensing of harvesting rights	800	1,369
Income from leasing of properties	-	95
	842,631	619,241

Note:

Revenue is recognised at a point in time except for interest income from money lending business, income from licensing of harvesting rights and leasing of properties which fall outside the scope of IFRS 15.

8. OTHER INCOME

	2021 <i>HK\$'000</i>	2020 HK\$′000
Government subsidies <i>(note)</i> Sundry income	864	
	1,345	38

Note:

The amount represents cash subsidies received from The Government of the HKSAR under the Anti-Epidemic Fund for the purpose of relieving financial burdens of the businesses operating in Hong Kong.

For the year ended 31 March 2021

9. PROFIT BEFORE TAXATION

The Group's profit before taxation is arrived at after charging/(crediting):

		2021 HK\$'000	2020 HK\$′000
(a)	Net finance costs		
	Finance income:		
	Interest income from bank deposits	(325)	(599)
	Finance costs:		
	Interest on lease liabilities Interest on advances drawn on bill	107	156

Mr. Chai Chi Keung	120			120
	360	_		360
	360	2,300	113	2,773

Mr. Lai Ming Wai performed the function of the chief executive of the Company and his emoluments disclosed above included those for services rendered by him as the chief executive for the year.

The executive directors' emoluments shown above were mainly for their services in connection with the management of the affairs of the Group. The emoluments of the independent non-executive directors shown above were mainly for their services as directors of the Company.

There was no arrangement under which a director has waived or agreed to waive any remuneration.

During the years ended 31 March 2020 and 2021, no emolument was paid by the Group to the directors as an inducement to join or upon joining the Group or as compensation for loss of office.

For the year ended 31 March 2021

11. INDIVIDUALS WITH HIGHEST EMOLUMENTS

The five highest paid individuals during the year included two (2020: two) directors, details of whose emoluments are set out in note 10 above. The aggregate of the emoluments of the remaining three (2020: three) individuals were as follows:

	2021	2020
	HK\$′000	HK\$′000
Salaries and other emoluments	2,287	2,088
Retirement scheme contributions	274	104
	2,561	2,192

The emoluments of the three (2020: three) highest paid individuals fell (other than the directors) were within the following bands:

	Number of individuals	
	2021	
Nil to HK\$1,000,000	3	3

During the years ended 31 March 2020 and 31 March 2021, no emolument was paid by the Group to such individuals as an inducement to join or upon joining the Group or as compensation for loss of office.

For the year ended 31 March 2021

12. INCOME TAX EXPENSE

(a) Income tax expense in the consolidated statement of profit or loss and other comprehensive income represents:

	2021 HK\$'000	2020 HK\$'000
Hong Kong Drofits Toy		
Hong Kong Profits Tax – current tax	5,505	986
		900
 over-provision in prior year 	(23)	
	5 492	0.96
	5,482	986
Slovenia corporate income tax		22
– current tax	669	23
Romania corporate income tax		
– current tax	127	
	6 279	1 000
	6,278	1,009

For the year ended 31 March 2021, the provision for Hong Kong Profits Tax is calculated at a flat rate of 16.5% (2020: 16.5%) of the estimated assessable profits for the year, except for a subsidiary of the Group which is a qualifying corporation under the two-tiered profits tax rates regime. For this subsidiary, the first HK\$2,000,000 of assessable profits are taxed at 8.25%, and the remaining assessable profits are taxed at 16.5%. Such basis had been applied for the calculation of the provision for Hong Kong Profits Tax for this subsidiary for the year ended 31 March 2020.

Slovenia corporate income tax is charged at 19% on the estimated assessable profits arising in Slovenia for the years ended 31 March 2021 and 2020.

Romania corporate income tax is charged at 16% (2020: 16%) on the estimated assessable profits arising in Romania for the year ended 31 March 2021 (2020: no assessable profit).

Brazil income tax is charged at 34% (2020: 34%) on the estimated assessable profits arising in Brazil. Brazil income tax has not been provided for the years ended 31 March 2021 and 2020 as there was no assessable profit.

For the year ended 31 March 2021

12. INCOME TAX EXPENSE (continued)

(b) Reconciliation between income tax expense and accounting profit at applicable tax rates:

	2021 <i>HK\$'000</i>	2020 HK\$′000
Profit before taxation	44,967	35,570
Notional tax on profit before taxation, calculated at the rates		
applicable to the countries concerned Tax effect of non-taxable income	7,276 (1,217)	5,692 (448)
Tax effect of non-deductible expenses	738	889
Tax effect of unused tax losses not recognised	201	160
Tax effect of temporary differences not recognised	13	5
Utilisation of previously unrecognised tax losses	(710)	(5,289)
Over-provision in prior year	(23)	-
Income tax expense	6,278	1.009
income tax expense	0,270	1,005

13. DIVIDENDS

The directors of the Company do not recommend the payment or declaration of any dividend for the year ended 31 March 2021 (2020: nil).

For the year ended 31 March 2021

14. EARNINGS PER SHARE

(b)

(a) The calculation of basic and diluted earnings per share is based on the profit attributable to owners of the Company as follows and the reconciliation of the weighted average number of shares as shown in note 14(b):

	2021	2020
	HK\$'000	HK\$'000
Profit		
Profit for the purpose of calculating basic and diluted		
earnings per share	33,080	33,709
Weighted average number of shares		
	2021	2020
	<i>'000</i>	'000
Number of shares		
Weighted average number of ordinary shares for the purpose		
of calculating basic earnings per share	9,105,710	9,105,710
Effect of dilutive potential ordinary shares arising from		
conversion of convertible preferred shares	106,283	106,283
Weighted average number of ordinary shares for the purpose		
of calculating diluted earnings per share	9,211,993	9,211,993

For the year ended 31 March 2021

At 31 March 2020	94	5,025	5,119

Notes:

(i) The Group acquired the money lenders licences through the acquisition of companies now known as Reliance Credit Limited ("Reliance Credit") and Reliance Capital Finance Limited ("Reliance Capital") (see note 33(a)), during the years ended 31 March 2015 and 31 March 2021 respectively. At 31 March 2021 and 2020, the management considered the recoverable amount of the money lenders licence(s) approximated to their carrying amount(s) and no impairment was provided for the years ended 31 March 2021 and 2020.

For the year ended 31 March 2021

17. INTANGIBLE ASSETS (continued)

Notes: (continued)

(ii) The Group's forest assets, acquired through the business combination of Amplewell Holdings Limited and its subsidiaries during the year ended 31 March 2010, are located in the Northwest of Brazil, the State of Acre, Amazon Region (the "Brazil Forest"). The Brazil Forest was initially recognised as freehold land and biological assets at acquisition. The total area of the Brazil Forest is approximately 44,500 hectares. Under the environmental laws in Brazil, approximately 20% or 8,939 hectares of the Brazil Forest area is the permanent preservation area and therefore is restricted from logging. Approximately 80% of the remaining area is designated as the sustainable forest management area and the balance is the permissible clear cut area that has no restriction on felling under the environmental laws of Brazil. In the sustainable forest management area, minimum impact logging techniques are used and forests are managed in a sustainable manner which means that the harvesting rate is below the overall natural growth of the forest. The main objective in the sustainable forest management program is to ensure the substance of the forests be preserved. The maximum logging rate allowed under relevant regulations governing sustainable forest management is 30 m³ per hectare, an average, over a 25 to 30 year harvesting cycle.

Since the Group suspended its harvesting operations in the State of Acre, Brazil due to the unfavourable business environment in 2012, the Group had continued to explore the optimal way to enhance the income stream from its forest assets. However, due to the unstable economic environment in Brazil and in view of the possibility of facing similar extortion threats from local parties in Brazil as the Group had experienced in previous years, operating the forest assets through own harvesting was still considered to be unfavourable to the Group.

The Board of Directors decided to change the operation model of the Group's forest assets from own harvesting to licensing of harvesting rights in June 2014. Since then, the Group has been actively looking for potential tenants for its forest assets. With the continuous efforts of the Group to procure potential and quality tenants, up to 31 March 2021, the Group has accumulatively granted harvesting rights for over 50% of the 44,500 hectares forest assets and has also demonstrated the feasibility of the Group's business plan in licensing the harvesting rights of its forest assets.

In view of the change in operation model of the Group's forest assets from own harvesting to licensing of harvesting rights to independent third parties, which was the most feasible business plan in light of the then prevailing circumstances, during the year ended 31 March 2017, the Group considered it was appropriate to classify its forest assets as intangible assets representing harvesting rights, instead of classified them as biological assets and freehold land.

In assessing the recoverable amount of the Group's forest assets at 31 March 2021 and 2020, the Group had engaged Greater China Appraisal Limited ("Greater China"), an independent professional valuer, which had adopted the income approach in valuing the forest assets.

For the year ended 31 March 2021

17. INTANGIBLE ASSETS (continued)

Notes: (continued)

(ii) (Continued)

The income approach is adopted by the independent professional valuer in valuing the Group's forest assets mainly because (i) the business model of the forest assets has been transformed from own harvesting to licensing of harvesting rights and the Company's management considered it is feasible and determined to operate the licensing of harvesting rights business, accordingly, it is reasonable that the fair value of the forest assets should be determined by their ability to generate a stream of economic benefits in future; and (ii) the economic benefit streams of the forest assets can be identified based on contracts signed or under negotiation and there is a reasonable future projection based on such information.

Under the income approach, the discounted cash flow ("DCF") methodology is used in determining the fair value of the forest assets, which requires a number of assumptions and forecasts, including revenue forecast, operating expenses forecast and capital expenditure forecast. DCF methodology requires an explicit forecast of the future economic benefit streams over a reasonably foreseeable short-term period and an estimate of a long-term benefit stream that is stable and sustainable. Accordingly, the value of the intangible assets is estimated based on (i) the discounted cash flow on the future economic benefit streams of the forest assets for the five years ending 31 March 2026 with forecast licensing income based on signed contracts and contracts expected to be concluded, and forecast operating expenses and capital expenditure based on budgets; (ii) the discount rate of 14.34% (2020: 13.67%), which is determined based on the weighted average cost of capital method with reference to the cost of equity of 17.63% (2020: 19.79%) and cost of debt of 4.78% (2020: 5.06%); and (iii) a discount for lack of marketability of 25% (2020: 25%).

Based on management's assessment and by reference to the valuation performed by Greater China, the management considered the recoverable amount of the forest assets exceeded its carrying amount at 31 March 2021 and no impairment loss was recognised during the year accordingly (2020: nil).

For the year ended 31 March 2021

18. INVENTORIES

At the end of each reporting period, inventories in the consolidated statement of financial position comprise the followings:

	2021	2020
	HK\$'000	HK\$′000
Timber logs and processed lumber	41,148	33,397

The analysis of the amount of inventories recognised as an expense and included in profit or loss is as follows:

	2021 <i>HK\$'000</i>	2020 HK\$'000
Carrying amount of inventories sold	679,064	510,878

For the year ended 31 March 2021

19. TRADE AND OTHER RECEIVABLES

		2021	2020
	Notes	HK\$′000	HK\$'000
Trade receivables		5,904	7,115
Less: impairment allowance	35(a)	(1,562)	(916)
	(i)	4,342	6,199
Bill receivables	(ii)	67,416	77,628

Financial assets at amortised costs		83,285	96,446
Trade and logging deposits	(iii)	8,910	7,681
Other deposits and prepayments		2,275	2,093
		94,470	106,220
			,

Notes:

(i) Trade receivables

An aging analysis of the Group's trade receivables as of the end of the reporting period, based on invoice date, and net of impairment allowance, is as follows:

	2021 <i>HK\$'000</i>	2020 HK\$'000
0 to 30 days	55	3,450
31 to 90 days	193	-
91 to 180 days	2,532	-
Over 180 days	1,562	2,749
	4,342	6,199

The Group's trading terms with its customers are mainly on credit, except for new customers where payment in advance and cash on delivery are normally required. Invoices are normally payable between 30 and 120 days after issuance. The Group seeks to maintain strict control over its outstanding receivables to minimise credit risk. Overdue balances are reviewed regularly by management.

For the year ended 31 March 2021

19. TRADE AND OTHER RECEIVABLES (continued)

Notes: (continued)

(i) Trade receivables (continued)

Further details on the Group's credit policy and credit risk arising from trade receivables are set out in note 35(a).

(ii) Bill receivables

At 31 March 2021, included in bill receivables of HK\$67,416,000 (2020: HK\$77,628,000), bill receivables of HK\$62,396,000 (2020: HK\$66,997,000) were discounted to banks with full recourse with a maturity period of less than 90 days (2020: less than 90 days). The Group recognised the full amount of the discounted proceeds as liabilities as set out in note 24.

The following were the Group's financial assets at 31 March 2021 and 31 March 2020 that were transferred to banks by discounting these receivables on a full recourse basis. As the Group had not transferred the significant risks and rewards relating to these receivables, it continued to recognise the full carrying amount of the receivables and recognised the cash received on the transfer as a secured borrowing. These financial assets were carried at amortised cost.

	2021	2020
	HK\$'000	HK\$′000
Carrying amount of the transferred assets	62,396	66,997
Carrying amount of the associated liabilities	(62,396)	(66,997)
	-	_

(iii) Trade and logging deposits

At 31 March 2021, trade and logging deposits of approximately HK\$8,910,000 (2020: HK\$7,681,000) were prepaid in relation to the Group's timber supply chain business.

For the year ended 31 March 2021

20. LOAN RECEIVABLES

	2021 HK\$'000	2020 HK\$'000
Fixed-rate loan receivables	285,833	308,870
Less: impairment allowance (note 35(a))	(5,141)	(1,980)
	280,692	306,890
Analysed as:		
Current portion	234,002	234,230
Non-current portion	46,690	72,660
	280,692	306,890
Analysed as:		
Secured	250,388	276,471
Unsecured	30,304	30,419
		<u> </u>
	280,692	306,890

All loans were denominated in Hong Kong dollars. At 31 March 2021, the loan receivables carried interest rates ranging from 8.75% to 18% per annum (2020: 8.75% to 18% per annum).

Before granting loans to potential borrowers, the Group performs internal credit assessment process to assess the potential borrowers' credit quality individually and defines the credit limits granted to the borrowers. The credit limits attributed to the borrowers are reviewed by the management regularly.

The Group has a policy for assessing the impairment on loan receivables on an individual basis. The assessment includes evaluation of collectability, current creditworthiness, aging analysis of account and past collection history of each borrower as well as the value of collateral provided, under the Group's credit risk rating system.

In determining the recoverability of loan receivables on a collective basis, the Group considers any change in the credit quality of the loan receivables from the date the credit was initially granted up to the reporting date. This includes assessing the credit history of the borrowers, such as financial difficulties or default in payments, and current market conditions.

\sim

Notes to the Consolidated Financial Statements

For the year ended 31 March 2021

20. LOAN RECEIVABLES (continued)

At 31 March 2021, loan receivables with an aggregate carrying amount of HK\$250,388,000 (2020: HK\$276,471,000) were secured by properties provided by the borrowers. At the end of the reporting period, loan receivables with aggregate carrying amount of HK\$258,625,000 (2020: HK\$291,395,000) were not past due.

At the end of each reporting period, the Group's loan receivables were individually and collectively assessed for impairment. An impairment allowance of HK\$5,141,000 had been provided at 31 March 2021 (2020: HK\$1,980,000).

21. FINANCE LEASE RECEIVABLES

			Present	value of	
	Minimum lea	se payments	minimum lease paymer		
	2021	2020	2021	2020	
	HK\$′000	HK\$'000	HK\$'000	HK\$'000	
Finance lease receivables comprise:					
Within one year	3,437	3,908	3,212	3,347	
After one year but within five years		2,291		2,188	
	3,437	6,199	3,212	5,535	
Less: unearned finance income	(225)	(664)			
	3,212	5,535	3,212	5,535	
Analysed as:					
Current assets			3,212	3,347	
Non-current assets				2,188	
			3,212	5,535	

The Group's finance lease receivables were denominated in Hong Kong dollars. At 31 March 2021, the effective interest rate of the finance lease receivables was 11% per annum (2020: 9% to 11%).

At 31 March 2021, all finance lease receivables were neither past due nor impaired (2020: nil). Finance lease receivables were secured by a leased asset. There was no guaranteed residual value of the leased asset and no contingent rent arrangement that needed to be recognised for the year ended 31 March 2021 (2020: nil).

For the year ended 31 March 2021

22. CASH AND CASH EQUIVALENTS

Cash and cash equivalents of the Group comprised bank balances and cash held by the Group of HK\$109,198,000 (2020: HK\$96,981,000). The carrying amounts of these assets approximated to their fair values.

23. TRADE AND OTHER PAYABLES

	2021 <i>HK\$'000</i>	2020 HK\$′000
Trade and bill payables <i>(note)</i> Other payables and accruals Receipt in advance Amounts due to related parties <i>(note 39(b)(iii))</i>	13,654 6,549 5,463 	34,754 6,907 1,974 1,493
	25,666	45,128

Note:

An aging analysis of the Group's trade and bill payables as of the end of the reporting period, based on invoice date, is as follows:

	2021 <i>HK\$'000</i>	2020 HK\$'000
0 to 30 days	13,468	33,470
31 to 90 days	64	1,284
91 to 180 days	122	-
	13,654	34,754

The average credit period is within 30 days for both years.

For the year ended 31 March 2021

24. BANK BORROWINGS

	2021 <i>HK\$'000</i>	2020 HK\$'000
Advances drawn on bill receivables discounted with full recourse	62,396	66,997

Note:

The amount represented the Group's borrowings secured by the bill receivables discounted to banks with full recourse (note 19(ii)) and the amount was repayable within one year.

The analysis of the carrying amount of bank borrowings is as follows:

	2021 <i>HK\$'000</i>	2020 HK\$′000
The carrying amount of bank borrowings that contain a repayable on demand clause (classified under current liabilities)		
Within one year	62,396	66,997
Less: amounts shown under current liabilities	(62,396)	(66,997)
Amounts shown under non-current liabilities		

All of the banking facilities are subject to fulfilment of covenants. If the Group is in breach of the covenants, the drawn down facilities will become repayable on demand. In addition, certain of the Group's bank borrowings agreements contain clauses which give the lender the right at its sole discretion to demand immediate repayment at any time irrespective of whether the Group has complied with the covenants and met the scheduled repayment obligations.

The Group regularly monitors its compliance with the covenants of the banking facilities and does not consider it is probable that the banks will exercise their discretion to demand repayment so long as the Group continues to meet the requirements. At 31 March 2021, none of the covenants relating to drawn down facilities had been breached (2020: nil).

All of the bank borrowings are carried at amortised cost.

For the year ended 31 March 2021

25. NOTES PAYABLE

On 2 January 2020, the Company entered into a placing agreement (the "Placing Agreement") with an independent placing agent, pursuant to which the Company agreed to place through the placing agent, on a best effort basis, to independent third parties the three-year secured notes with an aggregate principal amount of up to HK\$300,000,000 which carry interest at 7.125% per annum.

On 15 January 2020, the Company completed the issue of the first tranche notes that will be due on 16 January 2023 of an aggregate principal amount of HK\$50,000,000. The notes payable are secured by a debenture which incorporating a first floating charge over all the undertakings, property and assets of a subsidiary of the Group engaging in money lending business in favour of a security trustee as trustee for and on behalf of the noteholders.

Owing to the continuation of the COVID-19 pandemic, the placing exercise has been further delayed as agreed between the Company and the placing agent. Accordingly, on 25 June 2021, the Company and the placing agent entered into an extension letter to further extend the closing date (that is, the last day of the placing period) under the Placing Agreement from 30 June 2021 to 30 June 2022. Save for the extension of the closing date, all the terms and conditions of the Placing Agreement remain the same.

26. LEASE LIABILITIES

The following table shows the remaining contractual maturities of the Group's lease liabilities at 31 March 2021.

	2021 <i>HK\$'000</i>	2020 HK\$'000
Within one year	1,933	1,864
After one year but within two years After two years but within five years	164 	1,933 164
	164	2,097
	2,097	3,961

For the year ended 31 March 2021

27. AMOUNTS RECEIVED FROM A SHAREHOLDER

The amounts received from a shareholder, Champion Alliance Enterprises Limited ("Champion Alliance"), which was accounted for as a loan from a shareholder, is unsecured, interest-free and repayable at the end of the twelve months from the date of the loan facility agreement. The facility is extendable for another twelve months and subsequent twelve month period(s), or on such other date at the request of the Company and agreed by the shareholder in writing. The funds received from Champion Alliance have been applied as working capital of the Group to support its business development. Champion Alliance has undertaken not to demand for repayment of the amounts due to it (which is unsecured and interest-free) until the Group is financially viable to do so.

28. DEFERRED TAX LIABILITIES

The components of deferred tax liabilities recognised in the consolidated statement of financial position and the movement during the year is as follows:

	НК\$′000
At 1 April 2019	2,287
Exchange realignment	(579)
At 31 March 2020 and 1 April 2020	1,708
Exchange realignment	(137)
At 31 March 2021	1,571

At 31 March 2021, the Group had unused tax losses of approximately HK\$66,058,000 (2020: HK\$3,185,000) that included an amount of HK\$65,460,000 arising from the acquisition of a subsidiary during the year, the tax losses are available for offsetting against future taxable profits of the companies in which the losses arose. Deferred tax asset has not been recognised in respect of the unused tax losses due to the unpredictability of future profit streams. The tax losses may be carried forward indefinitely.

For the year ended 31 March 2021

Notes:

(i) Ordinary shares

The owners of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All ordinary shares rank equally with regard to the Company's residual assets.

(ii) Convertible preferred shares

The non-voting convertible preferred shares (the "Convertible Preferred Shares") can be converted into ordinary shares of the Company at any time after issue. The Convertible Preferred Shares shall at all times rank equally among themselves, upon exercise of the conversion right attaching to the Convertible Preferred Shares, the ordinary shares issued pursuant to the conversion shall rank pari passu with all other ordinary shares of the Company then in issue with respect to the right to any dividends or distributions declared.

The following are the other major terms of the Convertible Preferred Shares:

In the event of liquidation, dissolution or winding up, or merger, or reorganisation that will result in any distribution of assets of the Company to the existing shareholders of the Company, the holders of the Convertible Preferred Shares will receive an amount equal to 100% of the face value of the Convertible Preferred Shares. In addition, the ranking of the Convertible Preferred Shares is higher than ordinary shares, but lower than creditors in the case of liquidation.

For the year ended 31 March 2021

29. SHARE CAPITAL (continued)

Notes: (continued)

(ii) Convertible preferred shares (continued)

The holder of each Convertible Preferred Shares shall not have any voting rights save where the Company proposes to pass a resolution to vary the rights attached to the Convertible Preferred Shares or for the winding up or dissolution of the Company. The Convertible Preferred Shares are non-redeemable and are not listed on any stock exchange.

Each Convertible Preferred Share shall be convertible at the option of the holders at any time after issue, provided that (i) any conversion of the Convertible Preferred Shares shall not result in the aggregate voting rights in the Company held by the relevant holder of the Convertible Preferred Shares who exercises the conversion rights and parties acting in concert with it exceeding 29.9%, or such other percentage as may then be the maximum percentage (to one decimal place) of issued shares of the Company it could then acquire without being required to make a mandatory general offer for the shares of the Company under the Hong Kong Code on Takeovers and Mergers or (ii) any conversion of the Convertible Preferred Shares shall not result in the public float of the shares falling below the minimum requirements of the Listing Rules.

30. RESERVES

Nature and purposes of the reserves

(i) Share premium

The application of the share premium account is governed by Section 40 of the Bermuda Companies Act 1981 (as amended). The share premium account of the Company is distributable to owners of the Company in the form of fully paid bonus shares.

(ii) Contributed surplus

The contributed surplus of the Company mainly represents the excess of the fair value of the shares of the subsidiaries acquired pursuant to a reorganisation of the Group in June 1991, over the nominal value of the Company's shares issued in exchange thereof, and the effect of the Company's capital reorganisation during the year ended 31 March 2014. Under the Bermuda Companies Act 1981 (as amended), the contributed surplus is distributable to shareholders in certain circumstances.

(iii) Distributable reserve

Pursuant to a special resolution passed on 15 July 2003, the share premium account of the Company was reduced by an amount of HK\$103,948,000 to nil, of which a sum of HK\$98,953,000 was applied towards the elimination of the accumulated losses of the Company at 31 March 2003, with the remaining balance of HK\$4,995,000 being credited to the distributable reserve of the Company. The reduction of the share premium account was effective on 6 October 2003. During the year ended 31 March 2007, expenses relating to a rights issue exercise of HK\$2,779,000 was debited to the distributable reserve of the Company.

For the year ended 31 March 2021

30. **RESERVES** (continued)

Nature and purposes of the reserves (continued)

(iii) Distributable reserve (continued)

Pursuant to applicable Slovenian laws, the Group's subsidiary in Slovenia is required to appropriate not less than 5% of its profit after tax to its statutory reserve until such reserve reaches 10% or a higher percentage (as specified by laws) of the subsidiary's share capital. Up to 31 March 2021, the Group's subsidiary in Slovenia had appropriated a sum of HK\$72,000 (2020: HK\$72,000) to its statutory reserve.

Pursuant to applicable Romanian laws, the Group's subsidiary in Romania is required to appropriate not less than 5% of its profit after tax to its statutory reserve until such reserve reaches 20% or a higher percentage (as specified by laws) of the subsidiary's share capital. Up to 31 March 2021, the Group's subsidiary in Romania had appropriated a sum of HK\$3,000 (2020: nil) to its statutory reserve.

(iv) Capital redemption reserve

The capital redemption reserve represents the amount paid by which the Company's issued share capital has been diminished on the cancellation of the shares repurchased.

(v) Exchange fluctuation reserve

The exchange fluctuation reserve comprises all foreign exchange differences arising from the translation of the financial statements of the overseas subsidiaries.

(vi) Shares held by Company for settlement of acquisition consideration

The Company issued shares for the acquisition of Originate Tech Global Investment Limited ("Originate Tech") during the year ended 31 March 2012. Pursuant to the settlement between the Company and the vendor in relation to the acquisition of interests in Originate Tech during the year ended 31 March 2013, resulted from the failure of the vendor in meeting the net profit guarantee, 46,666,666 ordinary shares of the Company (after share consolidation and capital reorganisation in previous years) (the "Returned Ordinary Shares") were returned to the Group awaiting disposal with proceeds to be returned to the Group. During the year ended 31 March 2019, 540,000 Returned Ordinary Shares, valued at HK\$2.484 (the adjusted issue price) per share, amounting to approximately HK\$1,341,000, were disposed of at a cash consideration of approximately HK\$10,000 and a loss of approximately HK\$1,331,000 was debited to the accumulated losses. At the end of the reporting period, 46,126,666 Returned Ordinary Shares, valued at HK\$2.484 (the adjusted issue price) per share, amounting to approximately period, 46,126,666 Returned Ordinary Shares, valued at HK\$2.484 (the adjusted issue price) per share, amounting to approximately HK\$114,579,000 were held by the Group awaiting disposal.

For the year ended 31 March 2021

31. CAPITAL RISK MANAGEMENT

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher level of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The capital structure of the Group consists of debt, which includes the bank borrowings, notes payable and amounts received from a shareholder, and equity attributable to owners of the Company, comprising issued share capital and reserves.

During the year ended 31 March 2021, the Group's strategy in managing capital structure remains unchanged from the prior year.

For the year ended 31 March 2021

32. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

The table below details changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. Liabilities arising from financing activities are those for which cash flows were, or future cash flows will be, classified in the Group's consolidated statement of cash flows as cash flows from financing activities.

	Amounts received from a shareholder HK\$'000	Bank borrowings <i>HK\$'000</i>	Notes payable HK\$'000	Lease liabilities HK\$'000	Total <i>HK\$'000</i>

At 31 March 2021	155,000	62,396	50,000	2,097	269,493

For the year ended 31 March 2021

33. ACQUISITION OF SUBSIDIARIES

(a) Acquisition of subsidiaries – acquisition of money lenders licence

On 14 August 2020, the Group acquired the entire equity interests in Victory Rich Limited which held a wholly owned subsidiary, now known as Reliance Capital, a company incorporated in Hong Kong, whose principal activity is money lending business conducted pursuant to the Money Lenders Ordinance (Chapter 163 of the Laws of Hong Kong) and its identifiable assets comprised mainly the money lenders licence. The acquisition was recognised as an acquisition of assets, rather than a business combination, given that substantially all of the fair value of the gross assets is concentrated in a group of similar identifiable assets (the money lenders licence). The consideration of the acquisition was HK\$80,000, which was determined based on the fair value of the money lenders licence at the date of acquisition.

(b) Acquisition of a subsidiary – acquisition of freehold land

On 1 November 2019, the Group acquired the entire equity interests in Woodlands Industrial S.R.L. ("Woodlands Industrial"), a company incorporated in Romania, whose principal activity is investment holding. The consideration of the acquisition was HK\$1, which was determined based on the financial position of Woodlands Industrial at the date of acquisition. At the acquisition date, the assets of Woodlands Industrial comprised freehold land with carrying amount of approximately HK\$324,000.

(c) Acquisition of a subsidiary – business combination

On 1 November 2019, the Group acquired the entire equity interests in Woodlands Europe d.o.o. ("Woodlands Europe"), a company incorporated in Slovenia, whose principal activity is the operation of a timber supply chain. The consideration of the acquisition was approximately HK\$698,000, which was determined based on the financial position of Woodlands Europe at the date of acquisition. The fair value of identifiable assets and liabilities of Woodlands Europe at the date of acquisition were as follows:

	HK\$'000
Office equipments	8
Inventories	5,603
Trade receivables	3,861
Prepayments and other receivables	2,292
Cash and cash equivalents	25
Trade payables	(9,158)
Accruals and other payables	(1,604)
Provision for taxation	(329)
Net assets acquired	698
Purchase consideration settled in cash	698

No significant acquisition-related costs were incurred.

For the year ended 31 March 2021

33. ACQUISITION OF SUBSIDIARIES (continued)

(c) Acquisition of a subsidiary – business combination (continued)

An analysis of the net outflow of cash and cash equivalents in respect of the acquisition of Woodlands Europe is as follows:

	HK\$'000
Purchase consideration settled in cash	(698)
Less: cash and cash equivalents acquired	25
Net cash outflow on acquisition	(673)

From the date of acquisition to 31 March 2020, Woodlands Europe had contributed revenue of approximately HK\$13,618,000 to the Group's revenue and profit after taxation of approximately HK\$1,322,000 to the profit of the Group for the year ended 31 March 2020.

Had the business combination been effected on 1 April 2019, the Group's revenue and profit after taxation for the year ended 31 March 2020 would have been approximately HK\$637,623,000 and HK\$35,171,000 respectively. The directors considered these "pro-forma" numbers represented an approximate measure of the performance of the combined group on an annualised basis and provided a reference point for comparison in the future periods.

34. CATEGORIES OF FINANCIAL INSTRUMENTS

	2021 <i>HK\$'000</i>	2020 HK\$'000
Financial assets Financial assets at amortised cost	476,387	505,852
Financial liabilities Amortised cost	(140,159)	(166,086)

For the year ended 31 March 2021

35. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS

The main risks arising from the Group's financial instruments are credit risk, liquidity risk, foreign currency risk and interest rate risk. The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

(a) Credit risk and ECL assessment

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group.

The Group's credit risk is primarily attributable to trade receivables, loan receivables and finance lease receivables. Credit risks associated with loan receivables and finance lease receivables are mitigated by the security over collaterals and/or guarantees. The Group does not hold any collateral or other credit enhancements to cover the credit risks associated with other financial assets whose carrying amounts best represent the maximum exposure to credit risk.

Trade receivables

At 31 March 2021, the Group had concentration of credit risk on trade receivables as 94% (2020: 99%) of the total trade receivables was due from two customers of the Group's timber supply chain business (2020: two customers of the Group's timber supply chain business).

For trade receivables, management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. In respect of trade receivables, credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are due within 30 and 120 days from the date of billing.

In addition, the Group performs impairment assessment under ECL model upon application of IFRS 9 on trade balances individually. The management performs periodic evaluations on customer to ensure the Group's exposure to bad debts is not significant. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

For the year ended 31 March 2021

35. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(a) Credit risk and ECL assessment (continued)

Loan receivables

At 31 March 2021, the Group had no significant concentration of credit risk on loan receivables, as 44% (2020: 34%) of the total loan receivables was due from the five largest borrowers. The largest borrower of the Group by itself accounted for approximately 20% (2020: 8%) of the Group's loan receivables. Nevertheless, the whole amount is considered recoverable given there are sufficient collaterals to cover the entire balance.

The Group has a policy for assessing the impairment on loan receivables on an individual basis. The assessment includes evaluation of collectability, current creditworthiness, aging analysis of account and past collection history of each borrower as well as value of collateral provided, under the Group's credit risk rating system.

In determining the recoverability of the loan receivables on a collective basis, the Group considers any change in the credit quality of the loan receivables from the date the credit was initially granted up to the reporting date. This includes assessing the credit history of the borrowers, such as financial difficulties or default in payments, and current market conditions.

The total carrying amount of the loan receivables amounted to HK\$280,692,000 (2020: HK\$306,890,000) at the end of the reporting period. The Group considered the secured loans of HK\$250,388,000 (2020: HK\$276,471,000) are recoverable given the fair values of the collaterals are sufficient to cover the entire secured loan receivables collectively. As for the unsecured and guaranteed loans of HK\$30,304,000 (2020: HK\$30,419,000), the Group considered the amounts are recoverable as the loans were borrowed by borrowers with good credit history in general. Impairment allowances on outstanding loan receivables are determined by an evaluation of financial background, as well as financial condition of the borrower and the anticipated receipts for that individual loan, at the end of the reporting period.

The directors of the Company are responsible for the determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual debt at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In view of the above, the directors of the Company consider that the Group's credit risk is significantly reduced.

Finance lease receivables

For finance lease receivables, the credit risk is low because the balances are not past due and the counterparties have pledged the leased assets to the Group which reduces the Group's exposure when the lessees default. The amount of ECL is immaterial based on the estimated loss rates.

For the year ended 31 March 2021

35. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(a) Credit risk and ECL assessment (continued)

Other financial assets measured at amortised cost

The credit risk of other financial assets is managed through an internal process. The Group closely monitors the outstanding amounts of other financial assets at amortised costs and identifies any credit risk in a timely manner in order to reduce the risk of a credit related loss. In this regard, the directors of the Company consider the Group's credit risk is significantly reduced.

ECL assessment

The Group's internal credit grading assessment comprises the following categories:

Internal credit rating	Description	Trade receivables	Other financial assets/other items
Performing	The counterparty has a low to moderate risk of default and its credit risk has not increased significantly since initial recognition.	Lifetime ECL (not credit-impaired)	12-month ("12m") ECL
Underperforming	There have been significant increases in credit risk since initial recognition through information developed internally or externally.	Lifetime ECL (not credit-impaired)	Lifetime ECL (not credit-impaired)
Non-performing	There is evidence indicating that the asset is credit impaired.	Lifetime ECL (credit-impaired)	Lifetime ECL (credit-impaired)
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery.	Amount is written off	Amount is written off

For the year ended 31 March 2021

35. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(a) Credit risk and ECL assessment (continued) ECL assessment (continued)

The table below set out the credit risk exposures of the Group's financial assets, which are subject to ECL assessment:

		Internal credit rating	12m or lifetime ECL	Gross carrying amount	
	Notes			2021 <i>HK\$'000</i>	2020 HK\$′000
Trade receivables (note (i))	19	Performing	Lifetime ECL (not credit- impaired)	2,780	7,115
		Non-performing	Lifetime ECL (credit- impaired)	3,124	-
Loan receivables (note (ii))	20	Performing	12m ECL	278,828	308,870
		Non-performing	Lifetime ECL (credit- impaired)	7,005	-
Finance lease receivables (note (ii))	21	Performing	12m ECL	3,212	5,535
Other financial assets (note (iii))	19	Performing	Lifetime ECL (not credit- impaired)	78,943	90,247
Cash and cash equivalents (note (iv))	22	N/A	12m ECL	109,198	96,981

Notes:

- (i) For trade receivables, the Group has applied the simplified approach in IFRS 9 to measure the impairment allowance on lifetime ECL basis.
- (ii) As part of the Group's credit risk management, the Group applies internal credit rating for its borrowers. The ECL rates are estimated based on its credit rating, past and current default record and current past due exposure of the borrower. At 31 March 2021, the loan receivables of HK\$22,067,000 was past due (2020: HK\$17,475,000) and impairment loss of HK\$3,478,000 was recognised for the year ended 31 March 2021 (2020: HK\$1,685,000). At 31 March 2021, all finance lease receivables were neither past due nor impaired (2020: nil).
- (iii) For the purposes of internal credit risk management, the Group uses historical past due experience and forward looking information to assess whether credit risk has increased significantly since initial recognition. At 31 March 2021, gross amount of other financial assets of only HK\$1,131,000 was past due (2020: HK\$1,363,000), thus, the overall impact of ECL allowance is minimal.

For the year ended 31 March 2021

35. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

- (a) Credit risk and ECL assessment (continued) ECL assessment (continued) Notes: (continued)
 - (iv) Cash and cash equivalents mainly represent the cash placed with financial institutions in Hong Kong. Financial institutions in Hong Kong are governed by Hong Kong Monetary Authority. In view of the stable bank system in Hong Kong, the ECL is expected to be very minimal and close to zero. Thus, the overall impact of ECL allowance is minimal.

The following table shows reconciliation of loss allowances that have been recognised for trade receivables and loan receivables:

	Trade receivables		Loan rec	eivables
	Lifetime ECL (not credit-	Lifetime ECL (credit-		Lifetime ECL (credit-
	impaired)	impaired)	12m ECL	impaired)
	HK\$′000	HK\$′000	HK\$'000	HK\$'000
At 1 April 2019	324	_	655	_
Reversal of impairment loss	_	_	(360)	_

Impairment losses		646	913	2,565
At 31 March 2021		1,562	1,525	3,616

(b) Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including the raising of loans to cover expected cash demands, subject to parent company's board approval. The Group's policy is to regularly monitor current and expected liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding to meet its liquidity requirements in the short and longer term.

For the year ended 31 March 2021

35. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(b) Liquidity risk (continued)

The following tables detail the remaining contractual maturities at the end of the reporting period of the Group's non-derivative financial liabilities which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on current rates at the end of the reporting period) and the earliest date the Group can be required to pay:

	2021					
	Within 1 year or on	More than 1 year but less than	More than 2 years but less than		Total contractual undiscounted	Carrying

For the year ended 31 March 2021

35. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(c) Foreign currency risk

The Group has insignificant exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in Hong Kong dollar, United States dollar and Euro ("€") with a relative small portion in Renminbi, Brazilian Real ("R\$"), Romanian Leu ("Lei") and Croatian Kuna ("Kuna") currently. The Group is not subject to foreign currency risk of United States dollar as it is pegged with Hong Kong dollar. The Group had not experienced any significant exposure to exchange rate appreciation of Euro during the year since the Euro denominated expenditures were largely matched with the Euro denominated revenues, the Group is nevertheless exposed to potential foreign currency risk as a result of fluctuations of Renminbi, Brazilian Real, Romanian Leu and Croatian Kuna. Whilst the Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities denominated in Renminbi, Brazilian Real, Romanian Leu and Croatian Kuna, in light of their relative lower weightings to the Group's total transaction volume, and assets and liabilities in various other currencies, the Group does not consider its exposure to exchange rate fluctuations of Renminbi, Brazilian Real, Romanian Leu and Croatian Kuna is significant. The Group monitors its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

For the year ended 31 March 2021

35. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

(d) Interest rate risk

The Group's interest rate risk arises primarily from financial liabilities issued at variable rates and fixed rates that expose the Group to cash flow interest rate risk and fair value interest rate risk respectively. The Group does not expect any changes on interest rate which might materially affect the Group's result of operations. During the year, the Group had not entered into any interest rate swap contracts.

The Group's interest rate profile as monitored by management is set out below:

	2021		2020	
	Range of		Range of	
	interest		interest	
	rate		rate	
	%	HK\$'000	%	HK\$'000
Fixed rate receivables:				
Loan receivables	8.75% - 18%	280,692	8.75% - 18%	306,890
Finance lease receivables	11%	3,212	9% - 11%	5,535
		283,904		312,425
Fixed rate borrowings:				
Lease liabilities	3.625%	(2,097)	3.625%	(3,961)
Notes payable	7.125%	(50,000)	7.125%	(50,000)
		(52,097)		(53,961)
Variable rate borrowings:				
Advances drawn on bill				
receivables discounted with				
full recourse	0.1% - 4.26%	(62,396)	0.4% - 3.13%	(66,997)
	0.1/0 - 4.20%	(02,390)	0.+/0-5.1570	(00,997)

(i) Interest rate profile

For the year ended 31 March 2021

35. FINANCIAL RISK MANAGEMENT AND FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

- (d) Interest rate risk (continued)
 - (ii) Sensitivity analysis

At 31 March 2021, it is estimated that a general increase/decrease of 1% in interest rate, with all other variables held constant, would have decrease/increase the Group's profit for the year by approximately HK\$624,000 (2020: HK\$670,000). This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

The sensitivity analysis above has been determined based on the exposure to interest rates for the bank borrowings at the end of the reporting period. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period were outstanding for the whole year. The 1% increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. The analysis was performed on the same basis for the prior year.

(e) Fair value of financial assets and liabilities carried at other than fair value

The carrying amounts of the Group's financial instruments carried at cost or amortised cost are not materially different from their fair values at 31 March 2021 and 2020.

For the year ended 31 March 2021

36. PLEDGE OF ASSETS

A debenture incorporating a first floating charge over all the undertakings, property and assets of a wholly owned subsidiary of the Company engaging in money lending business has been issued in favour of a security trustee as trustee for the noteholders in relation to the three-year secured notes as disclosed in note 25. Up to 31 March 2021, the first tranche of the three-year secured notes amounted to HK\$50,000,000 has been issued (2020: HK\$50,000,000).

At 31 March 2021, bill receivables of HK\$62,396,000 (2020: HK\$66,997,000) were pledged to banks to secure advances drawn on the bill receivables.

37. CONTINGENT LIABILITIES

At 31 March 2021 and 2020, except for the litigation set out in note 38 below, the Group had no other significant contingent liability.

38. LITIGATION

On 30 May 2010, Universal Timber Resources do Brasil Ltda ("UTRB"), a wholly owned subsidiary of the Company, entered into a service agreement ("Service Agreement") with F Um Terraplanagem ("Terraplanagem"). Under the Service Agreement, Terraplanagem would carry out earthwork service in a hydropower plant in Rondonia, Brazil for a service fee of R\$892,500. After signing the Service Agreement, Terraplanagem did not provide any earthwork service and UTRB had to hire another company to complete the earthworks. However, in the land search of the freehold land of UTRB, it was revealed that Terraplanagem submitted a claim to a court against UTRB to pay for alleged outstanding service fee of approximately R\$1,291,000 and filed a precautionary injunction to prevent UTRB of selling certain area of its freehold land. Such injunction was awarded by the court during the year ended 31 March 2015. Witness hearings were held in May 2016 and March 2017, and the court had served the notice to both Terraplanagem and UTRB to present their final arguments. In May 2017, the court awarded Terraplanagem's claim in full (the "Court Decision"). In June 2017, UTRB filed petition to the court presenting its arguments on the ruling by the court, however, the petition was rejected by the court. In late July 2017, UTRB filed an appeal against the Court Decision with the High Court. In late September 2019, the High Court ruled the case, ratifying the Court Decision. Subsequently, UTRB filed an appeal against the High Court decision with the Court of Final Appeal and is still awaiting the outcome of the appeal. The claim of approximately R\$1,291,000 (approximately HK\$1,775,000) had been included in other payables at 31 March 2021 (2020: R\$1,291,000 (approximately HK\$1,930,000)).

For the year ended 31 March 2021

39. MATERIAL RELATED PARTY TRANSACTIONS

The Group had the following transactions with related parties during the year.

(a) Key management personnel remuneration

The key management personnel of the Group included the directors as disclosed in note 10. Details of key management personnel remuneration are summarised below:

	2021 HK\$′000	2020 HK\$′000
Salaries and other short-term employee benefits Post-employment benefits	5,766 507	3,919 193
	6,273	4,112

(b) Outstanding balances with related parties

- (i) Details of the amounts received from a shareholder is disclosed in note 27.
- (ii) The amounts due from non-controlling interests disclosed in note 19 are unsecured, interest-free and repayable on demand.
- (iii) The amounts due to related parties disclosed in note 23 are unsecured, interest-free and repayable on demand.

(c) Transaction with a related party

During the year ended 31 March 2020, management fee of approximately HK\$461,000 was paid to a company controlled by a person who is a director of a subsidiary of the Company.

For the year ended 31 March 2021

41. PARTICULARS OF THE PRINCIPAL SUBSIDIARIES OF THE COMPANY

Details of the Group's principal subsidiaries at the end of the reporting period are set out below:

	Place of		Proportio	on of ownershi	p interest			
Name	incorporation/ registration and business	Particulars of issued and paid up capital	Group's effective interest	Held by the Company	Held by a subsidiary	Principal activities		
UTRB	Brazil	R\$13,607,570	100%	-	100%	Sustainable forest management of and investment in natural forests, licensing of harvesting rights, timber and wood processing, trading and sales of forestry and timber products		
Reliance Credit	Hong Kong	HK\$1	100%	-	100%	Money lending business		
Reliance Capital	Hong Kong	HK\$2	100%	-	100%	Money lending business		
Sustainable Assets Management Limited	Hong Kong	HK\$1	100%	-	100%	Provision of management services		
Trans Resources International Limited	Hong Kong	HK\$1	100%	-	100%	Timber supply chain		
Woodlands Global Limited	Hong Kong	HK\$100	51%	-	51%	Timber supply chain		
Woodlands Europe	Slovenia	€10,000	51%	-	100%	Timber supply chain		
Woodlands Industrial	Romania	226,000 Lei	51%	-	100%	Timber supply chain		
Woodlands Croatia d.o.o.	Croatia	20,000 Kuna	51%	-	100%	Timber supply chain		

Note:

The directors are of the opinion that a complete list of subsidiaries of the Company will be of excessive length and therefore the above list contains only the particulars of subsidiaries which principally affect the results or assets of the Group.

For the year ended 31 March 2021

42. EVENTS AFTER THE REPORTING PERIOD

- (a) In May 2021, a revolving loan facility of up to HK\$70,000,000 (the "Revolving Loan Facility") had been entered into by Reliance Capital, one of the money lending subsidiaries of the Group, as the borrower and the Company as the guarantor, with a reputable finance company to replenish its working capital for continuous expansion of its money lending business. The loan(s) drawdown under the facility will be secured by sub-mortgage the property collaterals obtained by Reliance Capital from granting first mortgage loans. Reliance Capital has made its first drawdown of approximately HK\$59,739,000 in June 2021 by sub-mortgage the property collaterals obtained under two first mortgage loans.
- (b) The global outbreak of COVID-19 continues to affect many nations, the global and local credit markets and the international timber market, and has to a certain extent affected the Group's operations. The management considered it is difficult to predict the evolution and duration of the pandemic on a global basis and that at the reporting date, the extent of its impact to the Group's future operation cannot be reliably quantified or estimated. The management will continue to closely monitor the situation and will take all necessary and appropriate measures to reduce the adverse impact of the pandemic to the Group.

43. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 MARCH 2021

Up to the date of issue of these financial statements, the IASB has issued a number of amendments and a new standard which are not yet effective for the year ended 31 March 2021 and which have not been adopted in these financial statements. These developments include the following which may be relevant to the Group.

IFRS 17 Amendments to IFRS 3	Insurance Contracts and the related Amendments ¹ Reference to the Conceptual Framework ²
Amendments to IFRS 16	Covid-19-Related Rent Concessions ⁴
Amendment to IFRS 16	Covid-19-Related Rent Concessions beyond 30 June 2021 ⁶
Amendments to IFRS 9, IAS 39 and IFRS 7, IFRS 4 and IFRS 16	Interest Rate Benchmark Reform – Phase 2 ⁵
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³
Amendments to IAS 1	Classification of Liabilities as Current or Non- current and related amendments to International Interpretation 5 (2020) ¹
Amendments to IAS 1 and IFRS Practice Statement 2	Disclosure of Accounting Policies ¹
Amendments to IAS 8	Definition of Accounting Estimates ¹
Amendments to IAS 16	Property, Plant and Equipment - Proceeds before Intended Use ²
Amendments to IAS 37	Onerous Contracts - Cost of Fulfilling a Contract ²
Amendments to IFRS	Annual Improvements to IFRSs 2018-2020 ²
	(r. 1. l

- ¹ Effective for annual periods beginning on or after 1 January 2023
- ² Effective for annual periods beginning on or after 1 January 2022
- ³ Effective for annual periods beginning on or after a date to be determined
- ⁴ Effective for annual periods beginning on or after 1 June 2020
- ⁵ Effective for annual periods beginning on or after 1 January 2021
- ⁶ Effective for annual periods beginning on or after 1 April 2021

The directors anticipate that the application of all new and amendments to IFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

Five-Year Financial Summary
