During the period under review, the COVID-19 pandemic continues to create significant macroeconomic uncertainty, volatility and disruption, including supply chain constraints and extended lockdown across many countries. However, the increase of COVID-19 vaccination rate led to recovery in business and economic activities, especially in China, where normalization has progressed quickly and market conditions are rapidly recovering.

Distribution of business equipment and provision of related ancillary services

During the period under review, due to weak domestic spending power in Hong Kong market, we focus on SHARP B2B business by offering competitive business solutions to enterprises and maintain our promotion and operation to low level. We will review our strategy when sign of the COVID-19 is being controlled and consumer spending returned.

However, by leveraging on Hon Hai Group and SHARP Corporation's leading position in electronic component to consumer electronic regimes and our over 40 years of experience, large customer base, industry expertise, market recognition and brand management ability, we are confident to pursue a healthy and sustainable business development and generate more returns to our shareholders.
