# Management Discussion and Analysis

## UNLISTED EQUITY INVESTMENTS

The company's unlisted equity investments are mainly concentrated on clean energy industry and small loan companies in the PRC.

Since 2018, the Group focuses on clean energy industry and made several investments. Bioenergy is a carbon neutral and renewable energy source that reducing greenhouse gas emissions. Biofuels such as ethanol and biodiesel, are less toxic and are biodegradable. Using biomass can help to build resilience in agricultural, timber and food-processing industries. Bioenergy provides a use for their waste streams, so it can help them to reduce their energy costs.

Meanwhile, small loan industry in the PRC is still facing worries of the decreasing interest rate of private lending and the increase of operation risks, resulting in certain small loan companies continue to generate overdue loans and incur losses. In view of the slipping performance of the small loan industry, the company has plan to exit the investments in small loan industry.

In the foreseeable future, the company will continuously focus its investment on the bioenergy sector and gradually exit the past investment in the small loan industry which aim to maximize value of the shareholders of the company.

### **EVENTS AFTER THE REPORTING PERIOD**

The Group had no material subsequent events after the reporting period.

### **AUDITOR**

The consolidated financial statements of the Group for the year ended 30 June 2018 were audited by BDO Limited ("BDO"). On 19 June 2019, BDO resigned as auditor of the Company and Moore Stephens CPA Limited ("Moore Stephens") was appointed by the Shareholders at the special general meeting held on 16 July 2019. Save as disclosed, there are no changes of auditors in the past three years.

The consolidated financial statements of the Group for the year ended 30 June 2020 were audited by Moore Stephens, who would retire at the conclusion of the forthcoming AGM of the Company, and being eligible, offer themselves for re-appointment. A resolution will be proposed to the shareholders at the forthcoming AGM to re-appoint Moore Stephens as the auditor of the Company.

ON BEHALF OF THE BOARD

#### **Du Lin Dong**

*Chairman and Chief Executive Officer*

Hong Kong  
30 September 2021

# Corporate Governance Report

The Board is committed to maintain good corporate governance standard and procedures to ensure the integrity, transparency and quality of disclosure in order to enhance the Shareholders' value.

During the Year, the Company has applied the principles and complied with the CG Code contained in Appendix 14 to the Listing Rules, save for the disclosure below:

- (a) The code provision A.2.1 of the CG Code stipulates that the roles of chairman and chief executive officer should be separated and should not be performed by the same individual. The positions of both chairman and chief executive officer of the Company have been held by Mr. Du Lin Dong during the Year. Given the Group's current stage of development, the Board considers that this structure will not impair the balance of power and authority between the Board and the management of the Company. Mr. Du Lin Dong possesses the essential leadership skills to manage the Board and extensive knowledge in the business of the Group. The Board considers the present structure is more suitable for the Company because it can promote the efficient formulation and implementation of the Company's strategies.

During the Year and up to the date of this annual report, the Company has met the requirements of the Listing Rules in relation to the appointment of independent non-executive directors and composition of audit committees, save for the disclosure below:

- (a) Following the passing away of Mr. Li Cailin on 20 August 2020, who had been an INED, the chairman of the Remuneration Committee and a member of each of the Nomination Committee and the audit committee (the "Audit Committee") of the Company, the number of INEDs on the Board has fallen below the minimum number of three and one-third of the Board, as respectively required under Rules 3.10(1) and 3.10A of the Listing Rules; and the number of Audit Committee members decreased from three to two, below the minimum number required under Rule 3.21 of the Listing Rules.

Mr. Wong Lok Man is appointed as an INED of the Company with effect from 18 November 2020. Following the appointment of Mr. Wong as an independent non-executive Director and a member of the Audit Committee, the Company has fulfilled the requirements of (i) having at least three independent non-executive Directors on the Board; (ii) the number of independent non-executive Directors representing at least one-third of the Board; and (iii) the Audit Committee comprising at least three members, under Rules 3.10(1), 3.10A and 3.21 of the Listing Rules, respectively.

## DIRECTORS' SECURITIES TRANSACTION

The Company has adopted the Model Code as set out in Appendix 10 to the Listing Rules as its own code of conduct regarding directors' securities transactions. Having made specific enquiry by the Company, all Directors have confirmed that they have fully complied with the Model Code throughout the Year.

## THE BOARD

### Responsibilities

The Board is responsible for leadership and control of the Company and oversees the Company's businesses, strategic decisions and performance and is collectively responsible for promoting the success of the Company by directing and supervising its affairs. Directors of the Board take decisions objectively in the interests of the Company. All Directors, including INEDs, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective functioning.

The Board reserves for its decision all matters relating to policy matters, strategies and budgets, internal control and risk management, material transactions, financial information, appointment of Directors and other significant operational matters of the Company. Responsibilities relating to implementing decisions of the Board, directing and coordinating the daily operation and management of the Company are delegated to the management.

The Directors may have access to the advice and services of the company secretary of the Company with a view to ensure that the Board procedures, and all applicable rules and regulations, are followed.

In addition, the Directors may, upon reasonable request, seek independent professional advice in appropriate circumstance at the Company's expenses. The Board shall resolve to provide separate appropriate independent professional advice to the Directors to assist the relevant Directors to discharge their duties.

### Composition

During the Year and as at the date of this annual report, the Board comprises the following Directors:

#### Executive Director:

Mr. Du Lin Dong

#### Non-executive Directors:

Mr. Ding Xiaobin

Mr. Zhang Huayu

Ms. Li Jie

Ms. Chen Xi

#### Independent non-executive Directors:

Mr. Zhang Jing

Mr. Zeng Xianggao

Mr. Li Cailin (*passed away on 20 August 2020*)

Mr. Wong Lok Man

The Directors are, collectively and individually, aware of their responsibilities to the Shareholders. The Directors' biographical details are set out in the section of "Biographical Details of Directors and Senior Management" on pages 11 to 12 of this annual report.

# Corporate Governance Report

## **THE BOARD** *(continued)*

The Board's constitution is governed by Bye-law 87(1) under which the number of Directors shall not be less than two and Rules 3.10(1), 3.10(2) and 3.10A of the Listing Rules under which every board of directors of a listed issuer must include at least three independent non-executive directors, at least one of the independent non-executive directors must have appropriate professional qualifications or accounting or related financial management expertise, and an issuer must appoint independent non-executive directors representing at least one-third of the board. Its composition also ensures that there is a balance of skills and experience appropriate to the requirements of the business of the Group and a balance of executive and non-executive Directors (including INEDs) so that there is a strong independent element on the Board, which can effectively exercise independent judgement.

To the best knowledge of the Board, there is no financial, business or family relationship among the members of the Board during the Year. All of them are free to exercise their individual judgments.

### **Board Diversity Policy**

The Company has adopted a board diversity policy (the "Diversity Policy") which sets out the approach to achieve and maintain diversity on the Board in order to enhance the effectiveness of the Board.

Pursuant to the Diversity Policy, the Company seeks to achieve Board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and education background, ethnicity, professional experience, skills, knowledge and length of service. The Board and nomination committee (the "Nomination Committee") will review such objectives from time to time to ensure their appropriateness and the progress made towards achieving those objectives. The Company will also take into consideration its own specific needs from time to time in determining the optimum composition of the Board.

### **Chairman and Chief Executive Officer**

Under the code provision A.2.1 of the CG Code, the roles of chairman and chief executive officer should be separated and should not be performed by the same individual. The division of responsibilities between the chairman and chief executive officer should be clearly established and set out in writing. The positions of both chairman and chief executive officer of the Company have been held by Mr. Du Lin Dong during the Year. Given the Group's current stage of development, the Board considers that this structure will not impair the balance of power and authority between the Board and the management of the Company. Mr. Du Lin Dong possesses the essential leadership skills to manage the Board and extensive knowledge in the business of the Group. The Board considers the present structure is more suitable for the Company because it can promote the efficient formulation and implementation of the Company's strategies.

### **Independent Non-executive Directors**

To determine the non-executive Directors' independence, assessments are carried out upon appointment, annually and at any time where the circumstances warrant reconsideration. Each of the INEDs is appointed for a term of not more than 3 years and they are also subject to retirement by rotation at least once every 3 years in accordance with Bye-law 88(1) and the CG Code. Also, if an INED serves more than 9 years, his further appointment will be subject to a separate resolution to be approved by Shareholders in accordance with the CG Code.

## THE BOARD *(continued)*

The Company has received written annual confirmation from each INED of his independence pursuant to Rule 3.13 of the Listing Rules. The Company considers all INEDs to be independent in light of the independence guidelines set out in the Listing Rules. Also, one INED have been serving more than 9 years: (i) Mr. Zeng Xianggao already offered himself for re-election and his further appointment was approved by the Shareholders at the AGM held on 6 December 2019. The Board and the Nomination Committee further consider that all INEDs remain independent, notwithstanding their length of tenure. They continue to demonstrate the attributes of an INED noted above and there is no evidence that their tenure has had any impact on their independence. The Board and the Nomination Committee believe that their detailed knowledge and experience of the Group's business and their external experience continue to be of significant benefit to the Company and that they maintain an independent view of its affairs.

### Appointment and Re-election of Directors

All non-executive Directors are appointed for a specific term of two years. All Directors are subject to retirement by rotation once every three years and are subject to re-election in accordance with the Bye-laws.

### Continuous Professional Development

The Company provides relevant reading materials to all of the Directors to help ensure that they are apprised of the latest changes in the commercial, legal and regulatory environment in which the Group conducts its businesses, and to refresh their knowledge and skills on the roles, functions and duties of a listed company director to ensure that the Directors' contribution to the Board remains informed and relevant. In addition, all Directors are encouraged to attend external forums or training courses on relevant topics which count towards Continuous Professional Development training.

# Environmental, Social and Governance Report

We are pleased to present our annual ESG Report for the year ended 30 June 2021 for the Company which depicts our initiatives and performance on the sustainability of the Group.

The Board recognises the importance of and acknowledge the responsibility for the strategy and reporting the environmental and social areas of the Group. While achieving our goals and business objectives, the Company works to minimise and manage environmental and social impacts arising from its daily operation and contribute to the long-term well being of the communities in which it operates.

## REPORTING PERIOD

Unless otherwise stated, ESG Report covers the period from 1 July 2020 to 30 June 2021 (“reporting period”).

## REPORTING SCOPE

Our ESG Report covers the principal activities of the Company and its principal subsidiaries which are principally engaged in investing in listed and unlisted companies established and/or doing business in Hong Kong and the PRC.

## REPORTING BASIS

The ESG Report is prepared in accordance with the Environmental, Social and Governance Reporting Guide as set out in Appendix 27 of the Listing Rules and has complied with the “comply or explain” provisions. During the process of preparation of this ESG Report, we summarized the Group’s performance in corporate and social responsibilities based on the principles of “Materiality, Quantitative, Balance and Consistency”. Please refer to the table below for our understanding and response to such reporting principles.

Reporting Principles	Definitions	Our Response
Materiality	The issues covered in the ESG Report should reflect the significant impacts of the Group on the economy, environment and society, or the scope of assessments and decisions of stakeholders being affected.	Through continuous communication with stakeholders, combined with the Group’s strategic development and business operations, we can identify current material sustainable development issues.
Quantitative	The ESG Report should disclose key performance indicators (“KPIs”) in a measurable manner.	The Group quantitatively discloses its environmental and social KPIs, and provides textual explanations on quantitative resources.
Balance	The ESG Report should reflect fairly the overall sustainability performance of the Group.	The Group has explained in detail the sustainable development issues that have a significant impact in the business, including the results achieved and the challenges it faces.
Consistency	The Group should use consistent disclosure principles for the preparation of the ESG Report.	The Group will ensure that the disclosure scope and reporting methods of the ESG Report are generally consistent every year.

## SUSTANABILITY GOVERNANCE

The Group has established an ESG framework to promote and implement the Group's sustainability strategy. To ensure effective ESG management, our ESG governance structure, composed of the Board, ESG working group, respective functional departments and subordinate companies, was established to promote ESG management and disclosure. The Board, the ultimate decision-making body of the Group, is responsible for the Group's ESG governance. The Board steers the Group's sustainable development forward and bears the overall responsibility of its ESG efforts. In the future, the Board will continue to strengthen ESG risk management and improve ESG working mechanism and regulatory processes to enhance its ESG governance standard. The ESG working group, serving on the supervision and coordination level, is responsible for implementing ESG governance strategy, coordinating ESG matters, compiling ESG reports, and reporting relevant work progress to the Board on a regular basis. Each functional department and subordinate company, serving on the execution level, is responsible for rolling out initiatives set up by the ESG working group and reporting relevant work progress and data.

## MATERIALITY ASSESSMENT

The Group attaches importance to the materiality assessment of ESG issues for the purpose of timely and comprehensive understanding of the materiality of each ESG issue to the business development of the Group and the expectation of stakeholders, in order to facilitate the Group's effective disclosure of ESG information and continuous improvement in the management level of relevant issues. The materiality assessment on ESG issues of the Group during the year covers the following steps:

- Step 1 The Group identified the following 21 issues in accordance with the disclosure requirements set out in the ESG Reporting Guide and based on the business characteristics and daily operation of the Group. These issues are considered to have impacts on the environment and the society during our operation.
- Step 2 Based on the understanding of the demands and expectations of stakeholder during the daily operation, the Group determined the materiality of ESG issues by benchmarking the key points and the trend of ESG works of industry peers.
- Step 3 Based on the result of the materiality assessment, the Group discussed and determined the key disclosure of the ESG Report for the year and the key points for improvement in the future ESG work of the Group.

## ENVIRONMENTAL PROTECTION

### Environmental Policies and Performance

The Group is committed to building an eco-friendly corporation that tries to reduce the impacts of its operation on the environment. The Group's principal investment objective is to achieve long-term capital appreciation of assets through investments primarily in equity and equity-related investments in companies operating in Hong Kong and the PRC. Its operation is office based with limited energy and water consumption, the direct impact to the environment is minimal. The Group's most significant environmental impacts are greenhouse gas ("GHG") emissions from a motor vehicle and electricity consumption in the office through the use of lights, air conditioners and office equipments.

Accordingly, the Group adopts various practices to prevent pollution, reduce waste, increase recycling and minimize natural resource use by continually improving our environmental management practices and measures. Through an environmental protection guideline sent during the reporting period which mainly suggests ways to reduce energy and paper consumption, we educate our staff to adopt responsible behavior and promote environmental protection in our work place.

To save papers, employees are encouraged to use duplex printing for internal documents; facilities and procedures are in place for paper waste recycling; and the Group had strived for long to establish a paperless office by using electronic storage and communication whenever possible.

The impact of freshwater use is relatively insignificant for the Group and we did not encounter any problems in sourcing water that is fit for purpose. Water rate charges do not form a separate item in the rent, yet the Group encourages staff to reduce water wastage in daily operations.

We also took different measures to minimize environmental impact by saving electricity and encouraging recycle of office supplies and other materials such as 1) the room temperature should be set at an appropriate range, 2) power supply should be switched off when they are not in use and 3) preference will be given to office equipment with relatively high energy efficiency.

During the reporting period, the Group consumed/generated no significant hazardous waste, non-hazardous waste, water and packaging materials due to its business nature. The Group is not aware of any material violation in all applicable environmental laws and regulations during the reporting period. Since the Group's business does not produce a significant amount of emission or energy usage, it will not be meaningful for us to establish any quantitative target or process to trace the achieved result. We believe the implementation of the measures as referred to above has promoted the Group's employees' awareness of the importance of resources saving and environmental protection.

### The Environment and Natural Resources

The Group raises staff's awareness on environmental issues through education and training and enlist employees' support in improving the Group's performance, promote environmental awareness amongst the customers, business partners and shareholders and support community activities in relation to environmental protection and sustainability and evaluate regularly and monitor past and present business activities impacting upon health, safety and environmental matters. With the integration of policies mentioned as above, the Group strives to minimise the impacts to the environment and natural resources.

## **ENVIRONMENTAL PROTECTION *(continued)***

### **Climate Change**

The Group is committed to mitigating the climate change and enhancing its resilience to adapt to the increasing threat of climate-related consequences.

Although the climate change may not bring direct impacts to the Group's business, the Group, as a supporter of the recommendations of the Taskforce on Climate-Related Financial Disclosure (TCFD), has assessed the potential climate related risks that it may face under different climate scenarios. The Group identified the rising mean temperature and increasing severity and likelihood of extreme weather events such as typhoons and rainstorms as major physical risks impacting our daily operation.

The Group's ESG working group is responsible for identifying and assessing any climate-related risks to which the Group's operations are exposed, and updating the Board with the latest news and developments on climate regulations and industry benchmark. In order to cope with climate-related risk, the Group implemented emergency response mechanism as stipulated in our Staff Manual such as work from home so as to cope with extreme weather. Such contingency plan has become a part of standardized operation procedures of the Group to quickly and adequately respond any impact of extreme weather conditions.

In the future, we will continue to identify potential business activities impacting the environment and develop corresponding improvement measures, so as to further prevent the possible negative impacts of our operation on climate change.

## **EMPLOYMENT AND LABOUR PRACTICES**

### **Employment**

People are the foundation of our business success and we treat employees as our greatest asset. To attract and retain our high-calibre labour force, the Group has implemented policies and procedures to achieve an effective human capital management system, covering compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, anti-discrimination and other benefits and welfare.

We promote a culture of diversity and respect and strive to provide a fair and inclusive work environment free of all kinds of discrimination for employees to achieve their goals and pursue their career objectives.

The Group places emphasis on maintaining a team of high-caliber talent and provides competitive remuneration and welfare packages. The Group has endeavored to review and improve its remuneration system on a regular basis to remain competitive. With an aim to facilitate the retention of talent, the Group offers, in addition to salaries and bonuses, various benefits including an education allowance, a housing allowance, the Mandatory Provident Fund, meal allowances and compensation for mobile communication.

The Group is not aware of any non-compliance with relevant laws and regulations in relation to employment during the reporting period that have significant impact on the Group.

## EMPLOYMENT AND LABOUR PRACTICES *(continued)*

### Health and Safety

It is the policy of the Group to provide a healthy and safety working environment to the employees. The Group will maintain its office premises from time to time in order to provide a safety working place for the employees. The Group also encourage employees to participate in recreational activities organised by outside parties.

The Group regularly promotes employees' occupational safety and health good practice at work in the aspects of lighting condition, use of office equipment, office safety, computer workstation design and working posture through briefing and various communication channels, resulting in better working environment quality.

Besides, the Group also equipped the below in office to provide a comfortable working environmental for employees including:

- provision of adjustable working chairs and seats;
- provision of sufficient storage space for a more spacious desk area;
- keeping objects and tools easily reachable and conveniently located; and
- installation of air cleaning systems.

The Group is not aware of any non-compliance with relevant laws and regulations in relation to health and safety working environment during the reporting period that have significant impact on the Group.

### Development and Training

Due to our business nature, on-the-job training and continuous professional development for professional qualifications are important elements to enhance the industry knowledge of the employees of the Group. The Group encourage employees to attend training courses (e.g. Listing Rules and accountancy related seminars) and reimbursement will be made by the Group for those job-related training courses. Besides, the Group circulates relevant reference materials for the employees' self-study.

### Labour Standards

The Company complies with all applicable labour laws and regulations on employment in Hong Kong and the countries in which the Company or its subsidiaries operate.

The Group considers child and forced labour is unacceptable and has to be prevented. It respects human rights and treats this factor seriously when making investments. The Group has not invested, to its reasonable knowledge, in any company which has historical records of utilizing child or forced labour.

The Group believes it is important to recruit employees of high quality; a very comprehensive screening has been part of the recruitment processes.

## **EMPLOYMENT AND LABOUR PRACTICES *(continued)***

### **Labour Standards *(continued)***

Employee work schedules are set up consistent with standard working hours adopted within the industry. All employees are provided with appropriate leave entitlements, including annual leave, sick leave, marriage leave, maternity leave, examination leave and compassionate leave etc.

During the reporting period, the Group has complied with policies and relevant laws and regulations regarding prevention of child labour or forced labour.

## **OPERATING PRACTICES**

### **Supply Chain Management**

The Group's general business suppliers include providers of financial information, legal and securities brokerage services. The Group is committed to ensure that its supply chain management is socially responsible. We implemented selection process on its suppliers taking into considerations such elements as their qualification, reputation, past performance, financial strength and price.

### **Product Responsibility**

The Group invests in companies operating in diversified industries. It will take into account environmental, public health, safety, and social issues associated with target companies when evaluating its investment decisions.

### **Intellectual property**

Due to our business nature, impact of observing and protecting intellectual property rights is considered as not material to our operation by management. We have not received any material claim against us for infringement of any trademark nor were we aware of any pending or threatened claims in relation to any such infringement, nor had any material claim been made by us against third parties in relation to the infringement of intellectual property rights owned by us or third parties during the reporting period.

# Environmental, Social and Governance Report

## **OPERATING PRACTICES** *(continued)*

### **Privacy Protection**

The Group is committed to ensuring personal data and privacy of its customers are kept confidential. In addition to complying with the relevant provisions of the Personal Data (Privacy) Ordinance, the Group has implemented various measures to prevent unauthorized access of customers' data, such as installation on all computers together with backup services security features which require password access to information stored on the hard disk or server. In addition, all staff members are reminded of the importance of keeping confidential any aspects of the Group's business and the need to comply with the "Code of Confidentiality" whose details are laid down in the Staff Manual.

During the reporting period, there were no cases of non-compliance with the relevant laws or regulations regarding product responsibility.

### **Anti-corruption**

The Group is committed to ensuring that no bribes, payment or advantages are solicited from or given or offered to any persons, whether in the public or private sector, for any purpose, which can ensure the strict adherence to the Prevention of Bribery Ordinance. The Group regards honesty, integrity and fair play as the core values that must be upheld by our colleagues at all times. Thus, the Group has formulated whistle-blowing policy to promote business ethics and integrity so as to avoid suspected corruption, extortion and money laundering. Reporting channels such as by email for employees to report suspected corruption are provided. If there are any suspected case related to corruption, employees are encouraged to report the related cases through the mentioned channels. Anti-corruption training materials were circulated to employees of the Company for self-study.

The Group has been in strict compliance with law and regulation related to anti-corruption. During the reporting period, there was no any legal case regarding corrupt practices brought against the Group or its employees.

## **COMMUNITY**

### **Community Investment**

The Group is fully aware of the importance of interacting with the wider community in fulfilling corporate social responsibility. In this aspect, the Group would explore the possibility to identify suitable partners and support community and environmental programmes that align with the Group's missions and values.

## To the Shareholders of China Financial International Investments Limited

中國金融國際投資有限公司

*(Incorporated in the Cayman Islands and continued in Bermuda with limited liability)*

### OPINION

We have audited the consolidated financial statements of China Financial International Investments Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 53 to 131, which comprise the consolidated statement of financial position as at 30 June 2021, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 30 June 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSAAs”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (“the Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## KEY AUDIT MATTERS *(continued)*

### Key audit matter

### How our audit addressed the key audit matter

#### **Valuation of financial instruments at fair value through profit or loss ("FVTPL") and financial instruments at fair value through other comprehensive income ("FVTOCI") measured at level 3 fair value measurement**

---

We identified the valuation of financial instruments at FVTPL and financial instruments at FVTOCI measured at level 3 fair value measurement as a key audit matter due to the significance of the balance to the consolidated financial statements as a whole and the judgments involved in the valuation.

As at 30 June 2021, financial instruments at FVTPL and financial instruments at FVTOCI classified as level 3 fair value measurement amounted to approximately HK\$654,067,000 and HK\$31,157,000, respectively, representing 85.70% of the Group's net assets. Details of these financial instruments are set out in notes 19, 20, and 34 to the consolidated financial statements.

Management engaged valuation specialists to apply valuation techniques to determine the fair values of the financial instruments at FVTPL and financial instruments at FVTOCI that are not quoted in active markets. These valuation techniques, in particular those that included significant unobservable inputs, involved subjective judgments and assumptions. The sensitivity of the assumptions used may have material impact on the valuation of these financial instruments.

Our procedures in relation to valuation of financial instruments included:

- Obtaining and examining the terms of financial instruments and relevant agreements in relation to the financial instruments;
- Obtaining an understanding of the entity's valuation process and adoption of assumptions and estimations;
- Evaluating the valuation specialist's competence, capabilities and objectivity;
- Assessing the appropriateness of the valuation methodology and assumptions adopted by the valuation specialist and management to estimate the fair value of financial instruments;
- Challenging the reasonableness of key parameters used based on our knowledge and understanding of the financial instruments; and
- Engaging our internal valuation specialist to assist us in evaluating and assessing the appropriateness of the key parameters used in the valuations.

# Independent Auditor's Report

## OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

# Independent Auditor's Report

## **AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)***

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, action taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2021

## 1. GENERAL

China Financial International Investments Limited (the “Company”) was incorporated in the Cayman Islands under the Cayman Islands Companies Law as an exempted company. With effect from 9 May 2006, the Company de-registered from the Cayman Islands and re-domiciled in Bermuda under the Companies Act 1981 of Bermuda as an exempted company. The shares of the Company are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information section to the annual report.

The Company and its subsidiaries (the “Group”) are principally engaged in investing in listed and unlisted companies established and/or doing businesses in Hong Kong and the People’s Republic of China (the “PRC”).

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”), which is also the functional currency of the Company.

## 2. BASIS OF PREPARATION

In the preparation of the consolidated financial statements, the directors of the Company have given due and careful consideration to the future liquidity of the Group by continuously monitoring forecast and actual cash flows. For the year ended 30 June 2021, the Group reported loss for the year of HK\$66,645,000. At 30 June 2021, the Group had bank balances and cash of HK\$6,044,000 and net current assets of HK\$72,399,000. Future cash flows from operating activities is dependent on realisation of the listed and unlisted investments. In order to continue funding future capital programmes, the Company may need to obtain additional equity or debt financing, or assess other options. The ability to access the required capital to maintain current financial position and cash flows is dependent on a variety of external factors.

The consolidated financial statements have been prepared on a going concern basis as, in the opinion of the directors of the Company, the Group has the ability to obtain debt or equity financing, or other sources of funding for future capital programmes should the need arise.

## 3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

### Amendments to HKFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the Amendments to References to the Conceptual Framework in HKFRS Standards and the following amendments to Hong Kong Accounting Standards (“HKASs”), HKFRS, and an interpretation (hereinafter collectively referred to as “New and Revised HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time:

HKFRS 3 (Amendments)	Definition of a Business
HKAS 1 and HKAS 8 (Amendments)	Definition of Material
HKFRS 9, HKAS 39 and HKFRS 7 (Amendments)	Interest Rate Benchmark Reform

## 3. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

### Amendments to HKFRSs that are mandatorily effective for the current year (continued)

The application of the Amendments to References to the Conceptual Framework in HKFRS Standards and the new and revised HKFRSs in the current year has had no material impact on the Group’s financial performance and positions for the current and prior year and/or disclosures set out in the consolidated financial statements.

### New and amendments to HKFRSs in issue but not yet effective

The Group has not early applied the following new and amendment to HKFRSs that have been issued but are not yet effective:

HKFRS 17	<i>Insurance Contracts and the related Amendments<sup>1</sup></i>
Amendments to HKFRS 3	<i>Reference to the Conceptual Framework<sup>2</sup></i>
Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16	<i>Interest Rate Benchmark Reform – Phase 2<sup>4</sup></i>
Amendments to HKFRS 10 and HKAS 28	<i>Sale of Contribution of Assets between an Investor and its Associate or Joint Venture<sup>3</sup></i>
Amendments to HKFRS 16	<i>COVID – 19 – Related Rent Concessions beyond 30th June, 2021<sup>5</sup></i>
Amendments to HKAS 1	<i>Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020)<sup>1</sup></i>
Amendments to HKAS 1 and HKFRS Practice Statement 2	<i>Disclosure of Accounting Policies<sup>1</sup></i>
Amendments to HKAS 8	<i>Definition of Accounting Estimates<sup>1</sup></i>
Amendments to HKAS 12	<i>Deferred Tax related to Assets and Liabilities arising from a Single Transaction<sup>1</sup></i>
Amendments to HKAS16	<i>Property, Plant and Equipment – Proceeds before Intended Use<sup>2</sup></i>
Amendments to HKAS 37	<i>Onerous Contracts – Cost of Fulfilling a Contract<sup>2</sup></i>
Amendments to HKFRSs	<i>Annual Improvements to HKFRS Standards 2018 – 2020<sup>2</sup></i>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2023.

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2022.

<sup>3</sup> Effective for annual periods beginning on or after a date to be determined.

<sup>4</sup> Effective for annual periods beginning on or after 1 January 2021.

<sup>5</sup> Effective for annual periods beginning on or after 1 April 2021

The directors of the Company anticipate that the application of all new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

## 4. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information in considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”) and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for sharebased payment transactions that are within the scope of HKFRS 2 Share-based Payment, leasing transactions that are accounted for in accordance with HKFRS 16 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 Inventories or value in use in HKAS 36 Impairment of Assets.

For financial instruments which are transacted at fair value and a valuation technique that unobservable inputs are to be used to measure fair value in subsequent periods, the valuation technique is calibrated so that at initial recognition the results of the valuation technique equals the transaction price.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; for substantially the full term of the assets through corroboration with observable market data. Observable inputs generally used to measure the fair value of financial assets classified as Level 2 include quoted market prices for similar assets in active markets; quoted market prices in markets that are not active for identical or similar assets; and other market observable inputs; and
- Level 3 inputs are unobservable inputs for the asset or liability.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

The principal accounting policies are set out below.

### **Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

### **Investments in subsidiaries**

Investments in subsidiaries are stated at cost less any identified impairment loss.

### **Interest in an associate**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### **Interest in an associate *(continued)***

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of the associates used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. Changes in net assets of the associate other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The Group assesses whether there is an objective evidence that the interest in an associate maybe impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When a group entity transacts with an associate of the Group, profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

When an investment in an associate is held by, or is held indirectly through, an entity that is a venture capital organisation, upon initial recognition the entity may elect to measure the investment as designated at fair value through profit or loss and accounted for in accordance with HKFRS 9 Financial Instruments: Recognition and Measurement. Such investments shall be measured at fair value in accordance with HKFRS 9, with changes in fair value recognised in profit or loss in the period of the change.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents service (or a bundle of services) that is distinct or a series of distinct services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If the control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct services.

### Leases

#### *Definition of a lease*

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application or arising from business combinations, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

#### *The Group as a lessee*

##### Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group also applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### Leases *(continued)*

*The Group as a lessee (continued)*

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases of office premises that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 “Financial Instruments” (“HKFRS 9”) and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### Leases *(continued)*

*The Group as a lessee (continued)*

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### Leases *(continued)*

#### *COVID-19-related rent concessions*

In relation to rent concessions that occurred as a direct consequence of the COVID-19 pandemic, the Group has elected to apply the practical expedient not to assess whether the change is a lease modification if all of the following conditions are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2021; and
- there is no substantive change to other terms and conditions of the lease.

A lessee applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 if the changes are not a lease modification. Forgiveness or waiver of lease payments are accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amount forgiven or waived with a corresponding adjustment recognised in the profit or loss in the period in which the event occurs.

#### Lease modifications

Except for Covid-19-related rent concession in which the Group applied the practical expedient, the Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments, less any lease incentives received, using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### **Foreign currencies**

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during the period, in which case the exchange rates at the date of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange reserve.

### **Government Grant**

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "other income".

### **Borrowing costs**

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

### **Retirement benefit costs**

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### **Short-term employee benefits**

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries) after deducting any amount already paid.

### **Share-based payments**

#### *Equity-settled share-based payment transactions*

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share options reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share options reserve. For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to accumulated losses.

### **Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from loss before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### Taxation *(continued)*

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### **Property, plant and equipment**

Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

### **Impairment on property, plant and equipment, right-of-use assets other than goodwill**

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### **Impairment on property, plant and equipment, right-of-use assets other than goodwill** *(continued)*

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

### **Provisions**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision, is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

### **Financial instruments**

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2021

## 4. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Financial instruments (continued)

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest and dividend income which are derived from the Group's ordinary course of business are presented as revenue.

#### *Financial assets*

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at FVTOCI:

- the financial asset is held within a business model whose objective is achieved by both selling and collecting contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at the date of initial application of HKFRS 9/initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 "Business Combinations" applies.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### Financial instruments *(continued)*

#### *Financial assets (continued)*

Classification and subsequent measurement of financial assets *(continued)*

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

#### (i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost and debt instruments subsequently measured at FVTOCI. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

#### (ii) Debt instruments classified as at FVTOCI

Subsequent changes in the carrying amounts for debt instruments classified as at FVTOCI as a result of interest income calculated using the effective interest method are recognised in profit or loss. All other changes in the carrying amount of these debt instruments are recognised in other comprehensive income and accumulated under the heading of financial assets at FVTOCI reserve. Impairment allowances are recognised in profit or loss with corresponding adjustment to other comprehensive income without reducing the carrying amounts of these debt instruments. The amounts that are recognised in profit or loss are the same as the amounts that would have been recognised in profit or loss if these debt instruments had been measured at amortised cost. When these debt instruments are derecognised, the cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss.

#### *Financial assets (continued)*

Classification and subsequent measurement of financial assets *(continued)*

#### *(iii) Equity instruments designated as at FVTOCI*

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the financial assets at FVTOCI reserve; and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will be transferred to accumulated losses.

Dividends from these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "revenue" line item in profit or loss.

#### *(iv) Financial assets at FVTPL*

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial asset and is included in the "fair value loss on financial assets at FVTPL" line item.

#### Impairment of financial assets

The Group performs impairment assessment under expected credit loss ("ECL") model on financial assets (including debt instruments at FVTOCI, deposits, other receivables and bank balances) and financial guarantee contracts which are subject to impairment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group measures the loss allowance equal to 12m ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

### Financial instruments *(continued)*

*Financial assets (continued)*

#### *(i) Significant increase in credit risk*

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) it has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definitions.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### Financial instruments *(continued)*

#### Financial assets *(continued)*

#### Impairment of financial assets *(continued)*

##### (i) Significant increase in credit risk *(continued)*

For financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of a financial guarantee contract, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

##### (ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

##### (iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

*(iv) Write-off policy*

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

*(v) Measurement and recognition of ECL*

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

For a financial guarantee contract, the Group is required to make payments only in the event of a default by the debtor in accordance with the terms of the instrument that is guaranteed. Accordingly, the expected losses is the present value of the expected payments to reimburse the holder for a credit loss that it incurs less any amounts that the Group expects to receive from the holder, the debtor or any other party.

For ECL on financial guarantee contracts for which the effective interest rate cannot be determined, the Group will apply a discount rate that reflects the current market assessment of the time value of money and the risks that are specific to the cash flows but only if, and to the extent that, the risks are taken into account by adjusting the discount rate instead of adjusting the cash shortfalls being discounted.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

### Financial instruments *(continued)*

*Financial assets (continued)*

Impairment of financial assets *(continued)*

*(v) Measurement and recognition of ECL (continued)*

Where ECL is measured on a collective basis or cater for cases where evidence at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments;
- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

For financial guarantee contracts, the loss allowances are recognised at the higher of the amount of the loss allowance determined in accordance with HKFRS 9; and the amount initially recognised less, where appropriate, cumulative amount of income recognised over the guarantee period.

Except for investments in debt instruments that are measured at FVTOCI and financial guarantee contracts, the Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount. For investments in debt instruments that are measured at FVTOCI, the loss allowance is recognised in other comprehensive income and accumulated in the financial assets at FVTOCI reserve without reducing the carrying amount of these debt instruments. Such amount represents the changes in the FVTOCI reserve in relation to accumulated loss allowance.

### Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

#### *Financial assets (continued)*

##### *Derecognition of financial assets (continued)*

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the financial assets at FVTOCI reserve is reclassified to profit or loss.

On derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the financial assets at FVTOCI reserve is not reclassified to profit or loss, but is transferred to accumulated losses.

#### *Financial liabilities and equity*

##### *Classification as debt or equity*

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

##### *Equity instruments*

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

##### *Financial liabilities*

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

##### *Financial liabilities at amortised cost*

Financial liabilities including other payables, amount due to an associate and borrowings are subsequently measured at amortised cost, using the effective interest method.

#### Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument. Financial guarantee contract liabilities are measured initially at their fair values. It is subsequently measured at the higher of:

- the amount of the loss allowance determined in accordance with HKFRS 9; and
- the amount initially recognised less, where appropriate, cumulative amortisation recognised over the guarantee period.

#### Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

## 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 4, the directors of the Company are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

### **Critical judgments in applying accounting policies**

The following are the critical judgments, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

### **Critical judgments in applying accounting policies *(continued)***

*Control or significant influence over Ezhou Zhongjinguotou Microfinance Limited (“Ezhou Zhongjinguotou”)*

De-facto control exists when the size of an entity’s own voting, rights relative to the size and disbursement of other vote holders, give the entity the practical ability to unilaterally direct the relevant activities of the investee. Due to reduction in the registered capital of one of the investee companies, Ezhou Zhongjinguotou, on 16 December 2016, the Group’s shareholding in Ezhou Zhongjinguotou inevitably increased from 30% to 50% while the remaining 50% of voting rights being held by several unrelated individual shareholders. However, the Company has relinquished the right to appoint any director in the board of directors of Ezhou Zhongjinguotou in accordance with the memorandum and articles of association of Ezhou Zhongjinguotou. In order to comply with Rule 21.04 (3)(a) of the Listing Rules, the Company has voluntarily relinquished the voting right beyond 30%.

After the voluntarily relinquished the voting rights beyond 30%, the Group remained to hold 30% voting power in Ezhou Zhongjinguotou, which is not classified as an associate nor accounted for using the equity method, even though the Group owns or potentially owns more than 20% ownership interest in this investment. In the opinion of the directors, the Group has no significant influence over Ezhou Zhongjinguotou since the Group and each of the investee entered into relevant written agreement to conclude the followings:

- the Group will/did not have any representative on the board of directors or equivalent governing body of this investment;
- the Group will/did not participate in policy-making processes, including participation in decisions about dividends or other distributions; and
- the Group will/did not interchange any managerial personnel with this investment.

As the Group will/did not act to fulfill any one of the points stated above, it does not consider as having significant influence on Ezhou Zhongjinguotou. Hence, Ezhou Zhongjinguotou is not considered as associate of the Group. Ezhou Zhongjinguotou is treated as financial asset at FVTPL.

Thus, the directors of the Company concluded that the Group has no de-facto control over Ezhou Zhongjinguotou nor does the Group have significant influence over Ezhou Zhongjinguotou.

At 30 June 2020, the fair value of the Group’s equity investment in Ezhou Zhongjinguotou classified as financial asset at FVTPL amounted to HK\$19,421,000. During the year ended 30 June 2021, the Group has disposed its investment of Ezhou Zhongjinguotou, and no such balance noted as at the year end. Further details are set out in note 19(ii)(e).

## 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(continued)*

### **Critical judgments in applying accounting policies *(continued)***

#### *Classification of investments in unlisted equity securities*

Certain investments in unlisted equity securities of the Group are not classified as an associate nor accounted for using the equity method, even though the Group owns or potentially owns more than 20% ownership interest in those investments. In the opinion of the directors, the Group has no significant influence over those investments since the Group and each of the investee entered into relevant written agreement/declaration to conclude the followings:

- the Group will/did not have any representative on the board of directors or equivalent governing body of those investments;
- the Group will/did not participate in policy-making processes, including participation in decisions about dividends or other distributions; and
- the Group will/did not interchange any managerial personnel with those investments.

As the Group will/did not act to fulfill any one of the points stated above, it does not consider as having significant influence on the investments. Hence, those investments are not considered as associate of the Group. Such investments are treated as either financial asset at FVTPL or equity instruments at FVTOCI, depending on the business model of the respective investments. Further details are set out in notes 19 and 20.

#### *Going concern considerations*

The assessment of the going concern assumption involves making a judgment by the directors of the Company, at a particular point of time, about the future outcome of events or conditions which are inherently uncertain. The directors of the Company consider that the Group has the ability to continue as a going concern and the major events or conditions, which may give rise to business risks, that individually or collectively may cast doubts about the going concern assumption are set out in note 2.

### **Key sources of estimation uncertainty**

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### *Fair value measurement of financial instruments*

At the end of the reporting period, HK\$685,224,000 of the Group's financial assets (comprising equity instruments at FVTOCI of HK\$31,157,000, and financial assets at FVTPL of HK\$654,067,000) are measured at fair values with fair values being determined based on unobservable inputs using valuation techniques. Judgment and estimation are required in establishing the relevant valuation techniques and the relevant inputs thereof. Changes in assumptions relating to these factors could affect the reported fair values of these instruments. Further details are set out in note 34c.

## 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(continued)*

### Key sources of estimation uncertainty *(continued)*

#### *Provision for taxation*

Uncertainties exist with respect to the interpretation of complex tax regulations and changes in tax laws on foreign withholding tax. Given the wide range of international investments, differences arising between the actual investment income and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax expense already recorded. The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it invests. The amounts of such provisions are based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective investment's domicile.

#### *Impairment on financial assets (including other receivables and bank balances)*

Management regularly reviews the impairment assessment and evaluates ECL of the financial assets (including other receivables and bank balances). Appropriate impairment allowance is recognised in profit or loss.

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the one as at the date of initial recognition. In making this assessment, the other receivables are assessed individually by the management of the Group, based on the financial background, financial condition and the historical settlement records, including past due dates and default rates and forward-looking information, that is reasonable and supportable available without undue cost or effort.

## 29. NET ASSET VALUE PER SHARE

The calculation of the net asset value per share is based on the net assets of HK\$799,531,000 (2020: HK\$815,717,000) and 10,971,634,000 (2020: 10,971,634,000) issued and fully paid ordinary shares as at 30 June 2021.

## 30. SHARE-BASED PAYMENT TRANSACTIONS

Under the share option scheme adopted by the Company on 15 January 2008 (the “Scheme”), options were granted to certain directors and consultants entitling them to subscribe for shares of the Company under the Scheme. The Scheme was approved and adopted by shareholders of the Company on 15 January 2008 (the “Date of Adoption”), whereby the directors of the Company are authorised, at their discretion, to invite full time employees of the Group, (including executive and non-executive directors of the Company or any of its subsidiaries) and any suppliers, consultants, agents or advisers of the Group, to take up options to subscribe for shares of the Company. The maximum number of shares in respect of which options may be granted under the Scheme, when aggregated with any shares subject to any other schemes, shall not exceed 10% of the issued share capital of the Company on the Date of Adoption.

On 15 December 2017, the Scheme was terminated and the new share option scheme (the “New Scheme”) was approved by the Shareholders of the Company at the annual general meeting to replace the Scheme. The New Scheme shall be valid and effective for a period of 10 years ending on 14 December 2027. The exercise price of the options under the New Scheme is determinable by the board of directors, but will be at least the highest of:

- (i) the closing price of the shares on the Stock Exchange (as stated in the Stock Exchange’s daily quotation sheets) on the offer date, which must be a business day;
- (ii) the average of the closing prices of the shares on the Stock Exchange (as stated in the Stock Exchange’s daily quotation sheets) for the 5 business days immediately preceding the offer date; and
- (iii) the nominal value of the Company’s shares on the offer date.

The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders’ approval in a general meeting.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2021

## 30. SHARE-BASED PAYMENT TRANSACTIONS *(continued)*

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company's shares at the date of grant) in excess of HK\$5,000,000, within any 12-month period, are subject to shareholders' approval in advance in a general meeting.

The offer of a grant of share options under the New Scheme may be accepted within 21 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors.

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

The maximum number of the shares available for issue upon exercise of all share options which may be further granted under the New Scheme is 1,097,163,403 shares, representing 10% of the total number of issued shares of the Company on 15 December 2017.

No share options were granted under the New Scheme for both years.

## 31. RETIREMENT BENEFITS PLANS

The Group operates a Mandatory Provident Fund Scheme for all qualifying employees in Hong Kong. The assets of the schemes are held separately from those of the Group, in funds under the control of trustees. The Group contributes 5% of relevant payroll costs to the scheme (subject to a maximum of HK\$1,500 per month per employee) which contribution is matched by employees.

The employees of the Group's subsidiary in the PRC are members of the state-managed retirement benefit scheme operated by the government of the PRC. The subsidiary is required to contribute certain percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit scheme is to make the specified contributions.

The total expense recognised in profit or loss of HK\$93,000 (2020: HK\$145,000) represents contributions payable to these plans by the Group at rates specified in the rules of the plans.

## 33. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital and reserves.

The directors of the Company review the capital structure on a regular basis. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the redemption of existing debt.

### b. Financial risk management objectives and policies

The Group's major financial instruments include equity investments, deposits and other receivables, bank balances and cash, other payables, amount due to an associate, borrowings and financial guarantee contracts. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management of the Group manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

#### Market risk

#### (i) Currency risk

The Group mainly operates in Hong Kong and the PRC, with certain of their purchases and disposals of investments being settled in HK\$ and RMB. The Group has foreign currency bank balances, other receivables, financial assets at FVTPL, equity instruments at FVTOCI and financial guarantee contracts. The Group is thus exposed to currency risk arising from fluctuations on foreign currencies, primarily United States Dollars (“US\$”) and RMB, against the functional currency of the relevant group entities. The management continuously monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

As HK\$ is pegged to US\$, the Group does not have material exchange rate risk on such currency.

#### The Group’s exposure to currency risk

The following table details the Group’s exposure at the end of the reporting period to currency risk arising from recognised assets or liabilities denominated in a currency other than the functional currency of the entity to which they relate. Differences resulting from the translation of the financial statements of the entities within the Group into the Group’s presentation currency are excluded.

#### Sensitivity analysis

The following table demonstrates the sensitivity at the end of reporting period to a reasonably possible change in the HK\$ exchange rate against RMB for group entities with RMB or HK\$ as functional currencies, with all other variables held constant, of the Group's loss for the year and accumulated losses.

	%	Increase (decrease) in loss for the year and accumulated losses HK\$'000
<b>2021</b>		
If HK\$ weakens against RMB	5	(11,917)
If HK\$ strengthens against RMB	(5)	11,917
	<u>          </u>	<u>          </u>
<b>2020</b>		
If HK\$ weakens against RMB	5	(9,460)
If HK\$ strengthens against RMB	(5)	9,460
	<u>          </u>	<u>          </u>

Results of the analysis as presented in the above table represent an aggregation of the instantaneous effects on each of the group entities' loss for the year and accumulated losses measured in the respective functional currencies, translated into HK\$ at the exchange rate ruling at the end of the reporting period for presentation purposes.

The sensitivity analysis has been determined assuming that the change in foreign exchange rates had been applied to re-measure those financial instruments held by the Group, including intra-group balances with foreign operations within the Group denominated in a currency other than the functional currency of the foreign operations, which expose the Group to foreign currency risk at the end of the reporting period. The analysis is performed on the same basis for year ended 30 June 2020.

#### Market risk (continued)

#### (ii) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate borrowings (see note 25 for details). The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank balances (see note 22 for details). The Group manages its interest rate exposures by assessing the potential impact arising from any interest rate movements based on interest rate level and outlook.

Total interest revenue/income from financial assets that are measured at amortised cost or at FVTOCI is as follows:

	<b>2021</b> <b>HK\$'000</b>	2020 HK\$'000
Interest revenue		
Financial assets at FVTOCI	–	18,259
Other income		
Financial assets at amortised cost	<b>300</b>	694
	<hr/>	<hr/>
Total interest income	<b>300</b>	18,953
	<hr/> <hr/>	<hr/> <hr/>

Interest expense on financial liabilities not measured at FVTPL:

	<b>2021</b> <b>HK\$'000</b>	2020 HK\$'000
Financial liabilities at amortised cost	<b>1,564</b>	3,159
Leases liabilities	<b>135</b>	196
	<hr/>	<hr/>
	<b>1,699</b>	3,355
	<hr/> <hr/>	<hr/> <hr/>

No sensitivity analysis is performed as the directors of the Company consider that the exposure of cash flow interest rate risk arising from variable-rate bank balances is insignificant.

## 34. FINANCIAL INSTRUMENTS (continued)

### b. Financial risk management objectives and policies (continued)

#### *Market risk (continued)*

##### (iii) Other price risk

The Group is exposed to equity price risk through its investments in equity securities measured at FVTPL and FVTOCI. For equity securities measured at FVTPL quoted in the Stock Exchange, the management manages this exposure by maintaining a portfolio of investments with different risks. In addition, the Group also invested in certain unquoted equity securities for investees operating in various industry sectors for long term strategic purposes which had been designated as FVTOCI. The Group has appointed a special team to monitor the price risk and will consider hedging the risk exposure should the need arise.

#### *Sensitivity analysis*

The sensitivity analyses have been determined based on the exposure to equity price risk at the reporting date. Sensitivity analyses for unquoted equity securities with fair value measurement categorised within Level 3 were disclosed in note 34c.

If the prices of the respective equity instruments had been 5% (2020: 5%) higher/lower, the loss for the year ended 30 June 2021 would decrease/increase by HK\$4,463,000 (2020: decrease/increase by HK\$7,045,000) as a result of the changes in fair value of equity investments at FVTPL by HK\$2,839,000 (2020: HK\$5,368,000) and equity instruments at FVTOCI by HK\$1,624,000 (2020: HK\$1,677,000).

#### *Credit risk and impairment assessment*

As at 30 June 2021, other than those financial assets whose carrying amounts best represent the maximum exposure to credit risk, the Group's maximum exposure to credit risk which will cause a financial loss to the Group arising from the amount of financial guarantee contracts provided by the Group is disclosed in note 27. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets and financial guarantee contracts, except that the credit risks associated with debt instruments at FVTOCI are mitigated because they are secured over certain collaterals.

#### *Deposits and other receivables*

The Group has a policy for assessing the impairment on deposits and other receivables (including dividends receivable and sundry receivables) on an individual basis. The assessment includes evaluation of collectability and aged analysis of the receivables and on management's judgment on creditworthiness, collateral and past collection history of each counterparty.

#### *Bank balances*

The Group has concentration of credit risk on liquid funds which are deposited with several banks. The credit risks on bank balances are limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

Financial guarantee contracts

As disclosed in note 27 of the consolidated financial statements, the Group has provided an irrecoverable guarantee to an independent third party of the Group. In the opinion of the directors of the Company, the maximum exposure of credit risk associated to the financial guarantee is limited to the fair value of the collaterals offered by the Group.

The Group's internal credit risk grading assessment comprises the following categories:

<b>Internal credit rating</b>	<b>Description</b>	<b>All financial assets</b>
Low risk	The counterparty has a low risk of default and does not have any past-due amounts.	12m ECL
Watch list	Debtor frequently repays after due dates but usually settle after due date.	12m ECL
Doubtful	There have been significant increases in credit risk since initial recognition through information developed internally or external resources.	Lifetime ECL – not credit-impaired
Loss	There is evidence indicating the asset is credit-impaired.	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery.	Amount is written off

The borrowing will be repaid two years after the end of the reporting period in accordance with the scheduled repayment date set out in the loan agreement, details of which are set out in the table below:

The amounts included above for financial guarantee contracts are the maximum amounts the Group could be required to settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantee. Based on expectations at the end of the reporting period, the Group considers that it is more likely than not that no amount will be payable under the arrangement. However, this estimate is subject to change depending on the probability of the counterparty claiming under the guarantee which is a function of the likelihood that the financial receivables held by the counterparty which are guaranteed suffer credit losses.

### c. Fair value measurements of financial instruments

Some of the Group's financial instruments are measured at fair value for financial reporting purposes. In estimating the fair value, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party qualified valuers to perform the valuation. The management of the Group works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model.

Of the total losses for the year included in profit or loss, HK\$54,840,000 (2020: HK\$48,962,000) relates to financial assets at FVTPL held at the end of the current reporting period. Fair value gains or losses on financial assets at FVTPL are included in “fair value loss on financial assets at FVTPL”.

Included in OCI are gain of HK\$2,650,000 (2020: gain of HK\$2,789,000) relating to unlisted equity securities classified as equity instruments at FVTOCI, held at the end of the current reporting period and are reported as changes of “financial assets at FVTOCI reserve”.

#### (iii) Fair value of financial assets and financial liabilities that are not measured at fair value on a recurring basis (but fair value disclosures are required)

The fair value of financial assets and financial liabilities is determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The directors consider that the carrying amounts of financial assets and financial liabilities recognised in financial statements approximate their fair values due to short maturity.

*Notes:*

- (i) The contribution surplus represents share premium reduction. Under the Companies Law of Bermuda, the contributed surplus of the Company is available for distribution. However, the Company cannot declare or pay a dividend, or make a distribution out of the contributed surplus if (i) it would after the payment, be unable to pay its liabilities as they become due; or (ii) the realisable value of its assets would thereby be less than the aggregate of its liabilities and its issued share capital and share premium.
- (ii) The capital reserve represents the waiver of an amount due to a shareholder in 2005.
