Chairman's Statements

Dear Shareholders,

I am pleased to present positive financial results of the Group for the year ended 31 December 2021.

RESULTS

Total revenue increased by 95% to HK\$2,275,455,000 benefitting from continued demand for mobile phones, notebooks, audio instruments as well as growing demand in e-commerce since we expedited the development of e-commerce under the new normal.

Net profit attributable to shareholders increased to HK\$33,286,000, represented 207% growth when compared with last year. Earnings per share increased from HK cents 3.87 per share to HK cents 11.89 per share. Net assets value hit the record HK\$137,375,000.

PROSPECT

We look forward to the opening of boarders eventually as the pandemic is entering a new phase where many countries around the world are beginning to open their borders. However, the current Russian-Ukraine war presents new global economic challenges. The Group will continue to monitor the market conditions closely and take timely actions in its business strategies when necessary. We will also continue to adjust and expand; explore and identify new opportunities and avenues to create value for shareholders.

APPRECIATION

On behalf of the Board, I would like to express our sincere appreciation to our committed staff for their contributions and hardworking, together with our customers, business partners and shareholders and directors for their support in SiS Mobile during this time; it is to their credit that we have been able to conduct our business effectively in light of this challenging environment.

Lim Kia Hong

Chairman

Hong Kong, 18 March 2022

Management Discussion and Analysis

FINANCIAL REVIEW

For the financial year ended 31 December 2021, revenue of the Group amounted to HK\$2,275,455,000 (2020: HK\$1,166,222,000), representing an increase of 95% compared to that of last year. This was mainly attributable to the Group actively adjusted its sales strategies to expand product range as well as sales channels starting from second half year 2020. The net profit of the Company was HK\$33,286,000 whereas a net profit of HK\$10,830,000 was recorded for last year, represented 207% growth.

During the year, the Group's total operating expenditures for the year amount to HK\$32,916,000 (2020: HK\$27,001,000), representing an increase of 22% compared to that of last year. That was mainly because of increase in logistic and staff costs when sale revenue grew. The manpower has increased by 15% for warehouse and administrative support during the year but at the same time the Group has monitor expenditures closely. We would take steps to keep operating cost under control.

As at 31 December 2021, inventory level and trade receivable were maintained at a healthy level when compared with the revenue scale.

LIQUIDITY AND FINANCIAL RESOURCES

As at 31 December 2021, the Group had total assets of HK\$195,165,000 which were financed by total equity of HK\$137,375,000 and total liabilities of HK\$57,790,000. The Group had current ratio of approximately 3.1 at 31 December 2021 compared to that of approximately 2.5 last year.

As at 31 December 2021 the Group had HK\$56,035,000 (31 December 2020: HK\$57,489,000) bank balances and cash. The Group's working capital requirements were mainly financed by internal resources and bank borrowings. As at 31 December 2021 and 2020, the Group did not have any borrowings.

At the end of December 2021, the Group had net cash surplus of HK\$56,035,000 (31 December 2020: HK\$57,489,000).

CHARGES ON GROUP ASSETS

There was no pledged asset as at 31 December 2021 (31 December 2020: Nil).

SIGNIFICANT INVESTMENTS

The listed securities held by the Group are held for long term investment purpose and suffered a 4% decline during the year ended 31 December 2021, as a result of market volatility in both USA and Hong Kong stock markets. The fair value loss HK\$577,000 (2020: HK\$627,000) was accounted for in other comprehensive expense. There was no investment in an investee company with a value of 5% or more of the Group's total assets as at the year end date. During the year ended 2021, there was no addition or disposal to the portfolio and the Group received dividend income of HK\$369,000 (2020: HK\$297,000).

NUMBER AND REMUNERATION OF EMPLOYEES, REMUNERATION POLICIES, BONUS AND SHARE OPTION SCHEMES

The number of staff of the Group as at 31 December 2021 was 45 (31 December 2020: 39) and the salaries and other benefits paid and payable to employees, excluding Directors' emoluments, amounted to HK\$16,949,000 (31 December 2020: HK\$12,697,000). In addition to the mandatory provident fund and medical insurance, the Company adopts share option scheme and may grant shares to eligible employees of the Group. The Directors believe that the Company's share option schemes could create more incentives for directors and employees to work with commitment towards enhancing the value of the Company and its shareholders and therefore the Company can retain high caliber executives and employees. During the year, no share options have been exercised, granted or lapsed. The Group's remuneration policy is to relate performance with compensation. The Group's salary and discretionary bonus system is reviewed annually. There are no significant changes in staff remuneration policies from last year.

CURRENCY RISK MANAGEMENT

Certain purchase of goods, other receivables and bank balances of the Group are denominated in United Stated Dollar (US\$), the currency other than the functional currencies of the relevant group entities. As Hong Kong Dollars are pegged to US\$, the management of the Group does not expect that there would be any material currency risk exposure between these two currencies. The Group currently does not have currency hedging policy. However, the management monitors the currency fluctuation exposure and will consider hedging significant currency risk exposure should the need arise.

CONTINGENT LIABILITIES

At 31 December 2021, the Group did not have any contingent liabilities or guarantees (31 December 2020: Nil).

CODE ON CORPORATE GOVERNANCE PRACTICES

The Company is committed to maintaining good standards of corporate governance to safeguard the interests of the shareholders and to enhance corporate value and responsibility. The Company has adopted the Corporate Governance Code (the "Code") as set out in the Appendix 14 of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited ("Stock Exchange") (the "Listing Rules"). During the year, the Company has complied with the code provisions under the Code.

CORPORATE STRATEGIES

The Group aims to maintain it's leading position in Hong Kong and will continue to seek market share by (i) broaden product offerings and brand portfolio of the Group; and (ii) further expand distribution network and strengthen the quality of customer services provided by sales team of the Group.

BOARD OF DIRECTORS

The Board is responsible for formulating business strategies, and monitoring the performance of the business of the Group. Other than the daily operational decisions which are delegated to the management of the Group, most of the decisions are taken by the Board. All Directors, including independent non- executive Directors, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective functioning.

The Board is currently constituted by eight members, including three executive Directors, two non-executive Directors and three independent non-executive Directors. The composition of the Board is as follows:

Executive Directors:

Mr. Lim Kiah Meng Mr. Fong Po Kiu Ms. Wong Yi Ting

Non-executive Directors:

Mr. Lim Kia Hong (Chairman)

Mr. Lim Hwee Hai

Independent Non-executive Directors:

Ms. Chu Chung Yi

Ms. Ng See Wai, Rowena Ms. Doe Julianne Pearl

Biographical details of each Director and relationship between board members are set out on pages 21 to 22 of the annual report.

Each of the Non-Executive Director (including Independent Non-Executive Director ("INED")) has entered into a service contract with the Company for a specific term ranging from two to three years and is subject to re-election by the Company at an annual general meeting upon retirement.

Each INED has made an annual confirmation of independence pursuant to Rule 3.13 of the Listing Rules. The Company is of the view that all INEDs meet the independence guidelines set out in Rule 3.13 of the Listing Rules and are independent in accordance with the terms of the guidelines. One of the INED possesses the appropriate professional accounting gualifications and financial management expertise.

DIRECTORS NOMINATION POLICY

The nomination, appointment and removal of Directors are considered by the Nomination Committee. The Nomination Committee shall make recommendations to the Board whenever they consider appropriate.

The Company has consolidated its nomination procedures and selection criteria of directors into the nomination policy of the Company (the "Directors Nomination Policy"), which was approved and adopted by the Company, and was effective on 1 January 2019. The summary of the Directors Nomination Policy is as follows:

When considering a candidate nominated for directorship or a director's proposed re-appointment, the Board will take into account the following factors as a reference:

- the candidate's character and honesty;
- whether the qualification, skills, experience, industry knowledge of the candidate meet the business needs or are in line with the long term development of the Company;
- effect on the board's composition and diversity in all its aspects, including but not limited to gender, age (18 years or above), cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service, and the compliance with the board diversity policy of the Company;
- commitment of the candidate to devote sufficient time to effectively discharge his/her duties. In this regard, the
 number and nature of offices held by the candidate in public companies or organizations, and other executive
 appointments or significant commitments will be considered;
- the requirement of appointing independence non-executive directors to the board under the Listing Rules and the independence of a candidate pursuant to Rule 3.13 of the Listing Rules;
- any potential/actual conflicts of interest that may arise if the candidate is selected;
- for the appointment or re-appointment of independent non-executive directors, the independence of the candidate and his/her immediate family from the Company; and
- in the case of a proposed re-appointment of an independent non-executive director, the number of years he/ she has already served.

The above factors are for reference only, and not meant to be exhaustive and decisive.

DIRECTORS NOMINATION POLICY (CONTINUED)

Subject to the provisions in the Company's articles of association ("Articles of Association"), if the Board recognizes the need to appoint an additional director, the following procedures should be adopted:

- the Board shall call a meeting and invite nominations of candidates from the Nomination Committee of the Company for consideration by the Board prior to its meeting;
- the Board may use any process it deems appropriate to assess the suitability of and the potential contribution
 to the Board by the candidates based on (but not limited to) the criteria set out above, which may include
 personal interviews, background checks, presentations or written submissions by the candidates and third party
 references;
- the Board shall hold a physical meeting to consider the matter and avoid the making of decisions by written resolutions unless it is impractical that a physical meeting be held; and
- the Board shall provide to the Shareholders for its consideration with all the information required, including information set out in Rule 13.51(2) of the Listing Rules in relation to the candidates.

In order to provide information of the candidates nominated by the Board to stand for election at a general meeting, and to invite nominations from shareholders, a circular accompanying the notice of the relevant general meeting will be sent to shareholders of the Company. The circular will set out the lodgment period for shareholders to make the nominations. The names, brief biographies (including qualifications and relevant experience), independence, proposed remuneration and any other information, as required pursuant to the applicable laws, rules and regulations, of the proposed candidates will be included in the circular to shareholders of the Company.

BOARD DIVERSITY

The Company recognizes and embraces the benefits of having a diverse Board, and sees diversity at Board level as an essential element in maintaining a competitive advantage. A truly diverse Board will include and make good use of differences in the talents, skills, regional and industry experience, background, gender and other qualities of the members of the Board. These differences will be considered in determining the optimum composition of the Board and when possible should be balanced appropriately. All appointments of the members of the Board are made on merit, in the content of the talents, skills and experience the Board as a whole requires to be effective.

The Company considers that the current composition of the Board is characterised by diversity after taking into account its own business model and specific needs, professional background and skills of the Directors, and the 50:50 gender ratio.

RISK MANAGEMENT AND INTERNAL CONTROLS

System of internal controls is defined as a system of internal controls procedures which is used to help the achievement of business objectives, and safeguard the Group's assets; to ensure proper maintenance of accounting records and compliance with relevant legislation and regulations.

The management of the Group would evaluate the risk management and internal controls system periodically and enhance the system when necessary. The Company has in place an internal audit function, whereby internal auditors would review the risk management and internal controls system on an ongoing basis covering all major operations of the Group on a rotational basis, and reported directly to the Audit Committee and Board on a regular basis.

Through the internal control functions of the Group, two reviews were conducted during the year 2021 and reports were reviewed by Audit Committee. The Directors considered that the risk management and internal control systems are adequate and effective.

DIRECTORS' TRAINING AND PROFESSIONAL DEVELOPMENT

The Company is responsible for arranging and funding suitable training for its directors. During the year 2021, the Company organised training regarding the latest developments in Listing Rules and other applicable regulatory requirement for the directors, to ensure compliance and enhance their awareness of good corporate governance practices. In addition, individual directors also participated in other courses relating to the roles, functions and duties of a listed company director or further enhancement of their professional development by way of attending training courses or via online aids or reading relevant materials. The Company Secretary reports from time to time the latest changes and development of the Listing Rules, corporate governance practices and other regulatory regime to the Directors with written materials. The Company has devised a training record to assist the Directors to record the training they have undertaken.

During the year, the Directors participated in continuous professional development activities as set out below:

All resolutions put forward at general meetings will be voted by poll pursuant to the Listing Rules and the poll voting results will be posted on the web-sites of the Company (www.sismobile.com.hk) and the Stock Exchange (www.hkexnews.hk) immediately after the relevant general meetings.

ENVIRONMENTAL

The environmental data covers all the Group's operation in Hong Kong.

During the year, the Group has made its best endeavours to protect the environment from its business activities and workplace. The Group also educates its employees on their awareness of promoting a green environment. The Group seeks to identify and manage environmental impacts attributable to its operation, in order to minimise these impacts if possible.

Emissions

The Group is one of the leading mobile phones and related products distributors in Hong Kong. Products are provided by renowned suppliers. The operations of the Group do not have significant impact to the environment. There is no generation of hazardous waste as we are not manufacturers and there is no vehicle owned or controlled by the Group for operations. Office and warehouse are leased and delivery service is outsourced for cost effectiveness.

However, the Group takes steps to monitor and manage the environmental effect of the operations. The Group aims to reduce the energy consumption and carbon emissions and seeks less harmful ways to the environment in the operations.

Emissions of greenhouse gases by the Group were mainly due to the consumption of purchased electricity. Indirect emission is mainly from paper usage, amounted to 8.1 tonnes (2020: 5.6 tonnes).

Emission	FY2021	FY2020
Purchased electricity	71 tonnes	74 tonnes
Total greenhouse gas emission	79 tonnes	80 tonnes

Non-hazardous waste produced (paper waste, printer cartridges, tonner bottle) was 1,688 kg (2020: 1,165 kg).

Use of Resources

For year 2021, electricity consumption was 113,307 kWh, 4% lower than 118,193 kWh in 2020 because we took steps to improve air circulation system during the year.

Water consumption increased 28% to 169 cubic metre but remains immaterial.

Finished goods were basically delivered to our resellers at original packaging. No material additional packaging materials were required.

Air conditioners, computers and office lights are switched off during non-business hours, to minimise light pollution and reduce energy consumption.

ENVIRONMENTAL (CONTINUED)

The Environment and Natural Resources

To create a green workplace, we encourage reducing, reusing and recycling of materials to minimizing office wastage in daily operations. For energy saving and greenhouse emission reduction, air-conditioners filters are cleaned and maintained regularly, recycling bins are provided at our office with waste paper and used toner cartridges collected for recycling. The Group encourages its employees to handle documents electronically. When the use of paper is required, documents are required to use double-sided printing. In addition, we arranged conference calls or video conference instead of face-to-face meetings where possible.

The Producer Responsibility Scheme ("PRS") on waste electrical and electronic equipment ("WEEE"), also known as WPRS, aims to promote recycling and proper disposal of WEEE generated in Hong Kong. With effect from 1 August 2018, our products, including mobile phones, tablets, monitors and laptops are covered in the "Regulated Electrical Equipment" ("REE"). As a distributor or reseller, when we sell REE and if requested by customers, we should arrange for the customer a free removal service to dispose of the same class of equipment abandoned by the customer in accordance with the endorsed plan. We must also provide recycling labels to customers purchasing REE, and a receipt containing the prescribed wording on the recycling levies. Our removal service plan is endorsed by the Environmental Protection Department for selling REE. During the year, the Group has complied relevant statutory requirement when selling REE.

Climate Change

Due to the nature of the Group's operations, no significant climate-related issues which have impacted to the Group.

SOCIAL

Employment and Labour Practices

Employment, Remuneration and Benefits, Recruitment and promotion

The Group is compliant with the Employment Ordinance and associated guidelines. Our full-time staffs are entitled to paternity and compassionate leaves, healthcare and mandatory provident fund. We apply equal opportunity and non-discrimination in recruitment, promotion and all other aspects of our employment practices. We encourage a healthy work-life balance among staffs so as to maintain a healthy lifestyle. Number of staff was increased by 15% during the year. As at 31 December 2021, the Group had a total of 45 permanent staffs and all are located in Hong Kong.

Employment, Remuneration and Benefits, Recruitment and promotion (Continued)

To attract, motivate and retain experienced staffs, we reviewed their pay packages annually with prevailing market conditions to ensure they are competitive under volatile and severe market. To create incentives for directors and senior staffs to work with commitment toward enhancing the value of the Group and its shareholders, the Company adopted share option scheme and grant share options to eligible staffs of the Group in 2015.

Workforce by function:

Diversity and Equal Opportunities

The diversity of our employees provides us with a valuable mix of perspectives, skills, experience and knowledge for addressing contemporary business issues. At a senior management level, our board diversity policy in selection of candidates taking into account an extensive range of characteristics, including but not limited to gender, age, cultural and educational background, professional experience, skills, knowledge and length of service.

Health and Safety

The Group provided a safe and healthy environment in the work places for all staffs. The staff turnover rate was low and the Group did not encounter any lost days caused by injury. Air purifiers were placed in work place to improve air circulation.

In response to the novel coronavirus (COVID-19) to ensure the safety of our staffs, we are vigilantly monitoring the COVID-19 situation around the clock and have precautions in place to ensure a healthy and safe working environment. Wearing masks, using cleaning gel, temperature measurement daily before entering the Company area for all staffs and visitors, encourage wash hand frequently, and virus tests if suspicion, limited business visits and encourage virtual meetings instead of physical meetings, no overseas business trip and 14-days quarantine when required.

Any applicant who is suspected to have false academic qualifications and working experience will not be employed. The Group enters into employment contract with each of its employee in accordance with relevant laws and regulations in Hong Kong and also prohibits forced labor.

Supply Chain Management

Sound supply chain management ensures the Group to sustain its business operations and development. As well as leveraging our extensive network of mobile phones distribution, we have maintained strong relationships with our suppliers. When selecting suppliers, the Group takes factors into account such as quality of products and functionality, price, reliability and anticipated market acceptance. The Group expects suppliers to observe the environmental, social, health and safety and governance considerations in their operation.

Currently we mainly procured mobile phones and mobility products of 5 internationally renowned brands from our suppliers. 100% (2020: 100%) finished goods were supplied domestically.

Product Responsibility

The marketing of mobile phones and related products to general public are usually devised by suppliers and the Group is also providing marketing services to our suppliers. During holidays and festivals, we work with our suppliers to offer products at promotional prices through print and media advertising campaigns.

Suppliers of products provide warranty on the products they supply to the Group for distribution. Suppliers are responsible for provided or procuring the provision of in-warranty service to the end users. Generally the warranty period providing by suppliers are about one to two years. The Group also adopts the following quality control policies on the products to be sold:

- Inventory management team performs a series of inspections upon the receipt of the products in our warehouse regarding, among others, their appearance, packaging, specification and brand logo, etc. on a sampling basis; and
- If any defects are identified, the relevant product will be returned to the supplier for replacement.

End users safety is always in the top priority. The Group takes speedy action together with our supplier for any quality issues at all time.

During the year, we have not received any cases of infringement of intellectual property rights. We are also not aware of any suspected cases of infringement of intellectual property rights of the products we were distributed during 2021.

SHARE OPTIONS

On 16 December 2014 by written resolution, the Company adopted a share option scheme ("Scheme") pursuant to which selected participants may be granted options to subscribe for shares as incentives or rewards for their service rendered to the Group and any entity in which any member of the Group holds any equity interest.

The purpose of the Scheme is to provide an incentive for any director, employee and qualified participant to work with commitment towards enhancing the value of the Company and its shares for the benefit of its shareholders, and to maintain or attract business relationship with the qualified participants whose contributions are or may be beneficial to the growth of the Group. Directors believe that Scheme adopted by the Company enables the Group to recruit and retain high caliber executives and employees.

The terms of the Scheme comply with the provisions of Chapter 17 of the Listing Rules.

The total number of shares in respect of which options may be granted under the Scheme is not permitted to exceed 10% of the shares of the Company in issue at the date when the Scheme was adopted. The Company may seek approval by its shareholders in general meeting to refresh the limit on the number of shares to be issued upon exercise of all outstanding options granted and yet to be exercised to not exceeding such number of shares as shall represent 30% of the Shares in issue from time to time. The number of shares in respect of which options may be granted to any individual in any one year is not permitted to exceed 1% of the Shares of the Company in issue at any point in time, without prior approval from the Company's shareholders. Options granted to substantial shareholders or INED in excess of 0.1% of the Company's share capital or with a value in excess of HK\$5 million must be approved in advance by the Company's shareholders.

Options granted must be taken up within thirty business days from the offer letter together with a payment of HK\$100 as consideration of grant. Options may be exercised in a period of time as set out in the offer letter to each grantee. The exercise price is determined by the directors of the Company, and will not be less than the higher of the closing price of the Company's shares on the date of grant, and the average closing price of the shares for the five business days immediately preceding the date of grant.

TO THE MEMBERS OF SIS MOBILE HOLDINGS LIMITED 新龍移動集團有限公司

(incorporated in Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of SiS Mobile Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 37 to 91, which comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTER

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current period. The matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on the matter.

Independent Auditor's Report

KEY AUDIT MATTER (CONTINUED)

Key audit matter

How our audit addressed the key audit matter

Revenue recognition from sales of goods

We identified revenue recognition from sales of goods as a key audit matter due to its significance to the consolidated financial statements as a whole. The Group's revenue for the year ended 31 December 2021 in respect of sales of goods amounted to approximately HK\$2,275,455,000.

As disclosed in note 6 to the consolidated financial statements, for sales of goods (including mobile phones and related products), revenue is recognised when control of the goods has transferred. We focused on this area because of the Group transacts with a large number of customers.

Our procedures in relation to revenue recognition from sales of goods included:

- Obtaining an understanding of the revenue recognition processes and testing the Group's key controls over revenue recognition;
- Inspecting sales contracts with key customers, on a sample basis, to understand the agreed trade terms and assess whether the related revenue was properly recognised in accordance with respective sales contracts and with reference to the requirements of the prevailing accounting standards; and
- Testing recorded sales transactions on a sample basis against corresponding goods delivery notes and acceptance confirmations from customers that evidenced control of the goods have been passed.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditor's Report

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the
 Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business
 activities within the Group to express an opinion on the consolidated financial statements. We are responsible
 for the direction, supervision and performance of the group audit. We remain solely responsible for our audit
 opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguard applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and is therefore the key audit matter. We describe the matter in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Chan, Alan.

1. GENERAL INFORMATION

SiS Mobile Holdings Limited (the "Company") was incorporated in the Cayman Islands under the Companies Law as an exempted company with limited liability on 4 July 2014 and its shares are listed on The Stock Exchange of Hong Kong Limited (the "HKSE"). The addresses of the registered office and principal place of business of the Company are disclosed in the "Corporate Information" section of the annual report. The Company's immediate holding company is SiS International Holdings Limited ("SiS"), a company incorporated in Bermuda with its shares listed on the HKSE. SiS is a subsidiary of Summertown Limited, a limited liability company incorporated in the British Virgin Islands ("BVI"). The directors of the Company and its subsidiaries (collectively referred to as the "Group") consider that the Company's ultimate holding company is Summertown Limited and its ultimate controlling shareholders are Mr. Lim Kiah Meng, Mr. Lim Kia Hong and their respective spouses. Mr. Lim Kiah Meng and Mr. Lim Kia Hong are also the directors of the Company.

The Company is an investment holding company. The principal activities of its principal subsidiaries are set out in note 31

The consolidated financial statements are presented in Hong Kong Dollar ("HK\$") which is also the functional currency of the Company.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

Amendments to HKFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") for the first time, which are mandatorily effective for the annual periods beginning on or after 1 January 2021 for the preparation of the consolidated financial statements:

Amendments to HKFRS 9, HKAS 39, Interest Rate Benchmark Reform — Phase 2 HKFRS 7, HKFRS 4 and HKFRS 16

In addition, the Group has early applied Amendment to HKFRS 16 Covid-19-Related Rent Concessions during the year ended 31 December 2020.

In addition, the Group applied the agenda decision of the IFRS Interpretations Committee (the "Committee") of the International Accounting Standards Board issued in June 2021 which clarified the costs an entity should include as "estimated costs necessary to make the sale" when determining the net realisable value of inventories.

Except as described below, the application of the amendments to HKFRSs in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

FOR THE YEAR ENDED 31 DECEMBER 2021

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (CONTINUED)

2.1 Impacts on early application of Amendment to HKFRS 16 Covid-19-Related Rent Concessions beyond 30 June 2021

The Group has early applied the amendment in the current year. The amendment extends the availability of the practical expedient in paragraph 46A of HKFRS 16 Leases ("HKFRS 16") by one year so that the practical expedient applies to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022, provided the other conditions for applying the practical expedient are met.

The application of this amendment has had no material impact on the Group's financial positions and performance for the current and prior years.

2.2 Impacts on application of the agenda decision of the Committee — Cost necessary to sell inventories (HKAS 2 Inventories)

In June 2021, the Committee, through its agenda decision, clarified the costs an entity should include as "estimated costs necessary to make the sale" when determining the net realisable value of inventories. In particular, whether such costs should be limited to those that are incremental to the sale. The Committee concluded that the estimated costs necessary to make the sale should not be limited to those that are incremental but should also include costs that an entity must incur to sell its inventories including those that are not incremental to a particular sale.

The Group's accounting policy prior to the Committee's agenda decision was to determine the net realisable value of inventories taking into consideration incremental costs only. Upon application of the Committee's agenda decision, the Group changed its accounting policy to determine the net realisable value of inventories taking into consideration both incremental costs and other cost necessary to sell inventories. The new accounting policy has been applied retrospectively.

The application of the Committee's agenda decision has had no material impact on the Group's financial positions and performance.

APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (CONTINUED)

New and amendments to HKFRSs in issue but not yet effective

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

HKFRS 17 Insurance Contracts and the related Amendments³

Amendments to HKFRS 3 Reference to the Conceptual Framework²

Amendments to HKFRS 10 and HKAS 28 Sale or Contribution of Assets between an Investor and its

Associate or Joint Venture⁴

Amendment to HKFRS 16 Covid-19-Related Rent Concessions beyond 30 June 2021¹
Amendments to HKAS 1 Classification of Liabilities as Current or Non-current and

related amendments to Hong Kong Interpretation 5 (2021)³

Amendments to HKAS 1 and HKFRS Disclosure of Accounting Policies³

Practice Statement 2

Amendments to HKAS 8 Definition of Accounting Estimates³

Amendments to HKAS 12 Deferred Tax related to Assets and Liabilities arising from a

Single Transaction³

Amendments to HKAS 16 Property, Plant and Equipment — Proceeds before

Intended Use²

Amendments to HKAS 37 Onerous Contracts — Cost of Fulfilling a Contract²
Amendments to HKFRSs Annual Improvements to HKFRSs 2018 – 2020²

- ¹ Effective for annual periods beginning on or after 1 April 2021
- Effective for annual periods beginning on or after 1 January 2022
- ³ Effective for annual periods beginning on or after 1 January 2023

The directors of the Company anticipate that the application of all new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

FOR THE YEAR ENDED 31 DECEMBER 2021

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES

3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the HKSE ("Listing Rules") and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments that are measured at fair value at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange of goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 Share-based Payment, leasing transactions that are accounted for in accordance with HKFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 Inventories or value in use in HKAS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirely, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

FOR THE YEAR ENDED 31 DECEMBER 2021

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Significant accounting policies

Basis of consolidation

The consolidated financial statements incorporate the financial information of the entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interest having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Significant accounting policies (Continued)

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application of HKFRS 16 or arising from business combinations, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Significant accounting policies (Continued)

Leases (Continued)

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components, including contract for acquisition of ownership interests of a property which includes both leasehold land and non-lease building components, unless such allocation cannot be made reliably. Non-lease components are separated from lease component and are accounted for by applying other applicable standards.

Short-term leases

The Group applies the short-term lease recognition exemption to leases of two warehouses that have lease term of 12 months or less from the commencement date and do not contain a purchase option. Lease payments on short-term leases are recognised as expense on a straight- line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities other than adjustments to lease liabilities resulting from Covid-19-related rent concessions in which the Group applied the practical expedient.

3.2 Significant accounting policies (Continued)

Leases (Continued)

The Group as a lessee (Continued)

Right-of-use assets (Continued)

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 *Financial Instruments* ("HKFRS 9") and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

3.2 Significant accounting policies (Continued)

Leases (Continued)

The Group as a lessee (Continued)

Lease liabilities (Continued)

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment; or
- the lease payments change due to changes in market rental rates following a market rent review/ expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price
 for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the
 circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the liability, less any lease incentives receivable, based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

3.2 Significant accounting policies (Continued)

Leases (Continued)

The Group as a lessee (Continued)

Changes in the basis for determining the future lease payments as a result of interest rate benchmark reform

For changes in the basis for determining the future lease payments as a result of interest rate benchmark reform, the Group applies the practical expedient to remeasure the lease liabilities by discounting the revised lease payments using the unchanged discount rate and makes a corresponding adjustment to the related right-of-use assets. A lease modification is required by interest rate benchmark reform if, and only if, both of these conditions are met:

- the modification is necessary as a direct consequence of interest rate benchmark reform; and
- the new basis for determining the lease payments is economically equivalent to the previous basis (i.e. the basis immediately preceding the modification).

Covid-19-related rent concessions

In relation to rent concessions that occurred as a direct consequence of the Covid-19 pandemic, the Group has elected to apply the practical expedient not to assess whether the change is a lease modification if all of the following conditions are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2022; and
- there is no substantive change to other terms and conditions of the lease.

A lessee applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 if the changes are not a lease modification. Forgiveness or waiver of lease payments are accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amounts forgiven or waived with a corresponding adjustment recognised in the profit or loss in the period in which the event occurs.

3.2 Significant accounting policies (Continued)

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items are recognised in profit or loss in the period in which they arise.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "other income".

Employee benefit

Short-term and other long-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

3.2 Significant accounting policies (Continued)

Employee benefit (Continued)

Short-term and other long-term employee benefits (Continued)

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date. Any changes in the liabilities' carrying amounts resulting from service cost, interest and remeasurements are recognised in profit or loss except to the extent that another HKFRS requires or permits their inclusion in the cost of an asset.

Retirement benefit costs

Payments to the Mandatory Provident Fund Schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

Contributions to the MPF Scheme vest fully and immediately with the employees. Accordingly, there was no forfeited contribution under the MPF Scheme which may be used by the Group to reduce its existing level of contributions during the years ended 31 December 2021 and 2020.

Share-based payments

Equity-settled share-based payment transactions

Share options granted to employees

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share options reserve). For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share options reserve.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to retained profits.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from "profit before taxation" as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on the temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary differences and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Significant accounting policies (Continued)

Taxation (Continued)

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 *Income Taxes* requirements to the leasing transaction as a whole. Temporary differences relating to right-of-use assets and lease liabilities are assessed on a net basis. Excess of depreciation on right-of-use assets over the lease payments for the principal portion of lease liabilities resulting in net deductible temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority.

Current and deferred tax are recognised in profit or loss.

In assessing any uncertainty over income tax treatments, the Group considers whether it is probable that the relevant tax authority will accept the uncertain tax treatment used, or proposed to be use by individual group entities in their income tax filings. If it is probable, the current and deferred taxes are determined consistently with the tax treatment in the income tax filings. If it is not probable that the relevant taxation authority will accept an uncertain tax treatment, the effect of each uncertainty is reflected by using either the most likely amount or the expected value.

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes. Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the profit or loss.

Impairment on property, plant and equipment and right-of-use assets

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. The carrying amount of an asset is not reduced below the higher of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15 Revenue from contracts with customers. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI"):

- the financial asset is held within a business model whose objective is achieved by both selling and collecting contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income ("OCI") if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 *Business Combinations* applies.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

Classification and subsequent measurement of financial assets (Continued)

- (i) Amortised cost and interest income
 - Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. For financial instruments, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.
- (ii) Equity instruments designated as at FVTOCI Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains or losses arising from changes in fair value recognised in OCI and accumulated in the investments reserve; and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will be transferred to retained profits.

Dividends from these investments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "other income" line item in profit or loss.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss ("ECL") model on financial assets (including trade and other receivables and deposits, and bank balances) which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

Financial assets (Continued)

Impairment of financial assets (Continued)

The Group always recognises lifetime ECL for trade receivables without significant financing component. The ECL on trade receivables are assessed collectively using a provision matrix with appropriate groupings and individually for credit impaired balances.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological
 environment of the debtor that results in a significant decrease in the debtor's ability to meet
 its debt obligations.

(i) Significant increase in credit risk (Continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days

otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

past due, unless the Group has reasonable and supportable information that demonstrates

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full.

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (e) the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information including that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over one year past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Nature of financial instruments (i.e. the Group's trade and other receivables are assessed as a separate group);
- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

(v) Measurement and recognition of ECL (Continued)

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognised an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables, where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments reserve is not reclassified to profit or loss, but is transferred to retained profits.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified either as financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

Financial liabilities (including trade and other payables) are subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning key source of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year.

FOR THE YEAR ENDED 31 DECEMBER 2021

4. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

Net realisable value of inventories

The cost of inventories is written down to their net realisable value ("NRV") when the cost of inventories is not recoverable. The cost of inventories may not be recoverable if those inventories are damaged, if they have become wholly or partially obsolete, or if their selling prices have declined. When the net realisable value of an item of inventory is less than the carrying amount, the excess is written off immediately in the profit or loss. The management's review and estimation of the NRV is primarily based on the ageing, conditions and marketability of the inventories. The Group carried out inventory review at the end of the reporting period and made the necessary allowance on obsolete and slow moving items so as to write off or write down inventories to their NRVs. The carrying amount of inventories is HK\$54,680,000 (2020: HK\$28,460,000). During the year ended 31 December 2021, write-down of inventories of HK\$3,497,000 (2020: HK\$28,000) was recognised in profit or loss.

5. SEGMENTAL REPORTING

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to segments and to assess their performance.

The Group is principally engaged in the sales and distribution of mobile phones and related products in Hong Kong. The executive directors of the Company, being the chief operating decision maker ("CODM") for the purposes of resource allocation and performance assessment focuses mainly on revenue analysis by brand. As no other discrete financial information other than the consolidated revenue and consolidated profit of the Group are provided to CODM, no segment information is presented other than entity-wide disclosures.

Customer A	464,175	N/A ¹
Customer B Customer C	405,378 312,941	164,001 146,820

The corresponding revenue did not contribute over 10% of the total revenue of the Group.

Geographic information

The Group's revenue is substantially generated from sales and distribution of mobile phones and related products to customers in Hong Kong. The Group's non-current assets are situated in Hong Kong. Accordingly, no segment analysis based on geographical locations of the customers and assets is provided.

FOR THE YEAR ENDED 31 DECEMBER 2021

6. REVENUE

Revenue represents the net amount received and receivable for goods sold arising from the distribution and retail sales of mobile phones and related products.

For sales of mobile phones and related products, revenue is recognised at a point in time when control of the goods has transferred, being when (i) the goods have been picked up by the customers in warehouse; or (ii) the goods have been delivered to the customers' specific location and the Group received acceptance confirmations from customers. Upon the relevant goods are picked up by the customers or delivered to the customers' specific location, the customers have full discretion over the manner of distribution and price to sell the goods, has the primary responsibility when on selling the goods and bears the risks of obsolescence and loss in relation to the goods. The average credit term is 30 days upon delivery.

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No.7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the quantifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

Accordingly, the Hong Kong Profits Tax is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million for the qualified entity.

Income tax expense for the year can be reconciled from the profit before tax per the consolidated statement of profit or loss and other comprehensive income as follows:

	2021 HK\$'000	2020 HK\$'000
Profit before tax	40,135	11,318

Income tax expense for the year	6,849	488

At the end of reporting period, the Group has unutilised and unrecognised tax losses of approximately HK\$15,748,000 (2020: HK\$17,007,000) available to offset against future profits. No deferred tax assets have been recognised due to the unpredictability of future profit streams. Such tax losses may be carried forward indefinitely.

(a) Directors' emoluments (Continued)

Mr. Lim Kiah Meng is also the Chief Executive of the Company and his emoluments disclosed above include those for services rendered by him as the Chief Executive for both years.

The performance bonuses are determined based on the financial performance and resources of the Group and the performance of the individual directors.

The emoluments of executive directors shown above were for their services in connection with the management of the affairs of the Company and the Group for both years.

The non-executive directors and independent non-executive director shown above were for their service in connection with the management of the affairs of the Company for both years.

There was no arrangement under which a director or the chief executive waived or agreed to waive any emoluments during the year ended 31 December 2021 and 2020.

(b) Five highest paid individuals

The five highest paid individuals included two (2020: two) directors of the Company whose emolument are included in the disclosure above. The emoluments of the remaining three (2020: three) individual for the years ended 31 December 2021 and 2020 are as follows:

Note: The performance bonuses are determined based on the financial performance and resources of the Group and the performance of the individual during the year.

Their emoluments were within the following bands:

	2021	2020
Nil to HK\$1,000,000	2	3
1,000,001 to HK\$2,000,000	1	_

12. EARNINGS PER SHARE

The calculation of the basic and diluted earnings per share is based on the Group's profit attributable to owners of the Company of HK\$33,286,000 (2020: HK\$10,830,000) and the number of ordinary shares of 280,000,000 (2020: 280,000,000).

The computation of the diluted earnings per share does not assume the exercise of the Company's share options as the exercise price of those share options is higher than the average market price of the Company's shares for both years.

During the current year, the Group leases an office and three warehouses (2020: an office and two warehouse) for its operations. Lease contracts are entered into for fixed term for fixed payment of 3.5 months to 36 months (2020: 6 months to 36 months) with a fellow subsidiary. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable. There is no variable lease payments nor restrictions included in these lease agreements.

Restrictions or covenants on leases

As at 31 December 2021, lease liabilities of HK\$4,322,000 (2020: HK\$6,717,000) are recognised with related right-of-use assets of HK\$4,263,000 (2020: HK\$6,700,000). The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor and the relevant leased assets may not be used as security for borrowing purposes.

Details of the lease maturity analysis of lease liabilities are set out in notes 21 and 27.

These investments are not held for trading, instead, they are held for long-term strategic purposes. The directors of the Company have elected to designate these investments in equity instruments as at FVTOCI as they believe that recognising short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes and realising their performance potential in the long run.

At 1 January 2020, trade receivables from contracts with customers amounted to HK\$16,444,000.

Trade receivables comprise amounts receivable from the sales and distribution of mobile phones and related products in Hong Kong and are denominated in HK\$. The Group maintains a defined credit policy. Before accepting any new customers, the Group assesses the potential customer's credit quality and defines credit limits by customers. Limits granted to customers are reviewed periodically. For sales of goods, the Group allows an average credit periods of 30 days to its trade customers. No interest is charged on overdue debts.

As at 31 December 2021, included in the Group's trade receivables balance are debtors with aggregate carrying amount of HK\$6,759,000 (2020: HK\$6,699,000) which are past due as at the reporting date. Out of the past due balances, none of these trade receivables (2020: nil) has been past due 90 days or more and is not considered as in default after considering the creditworthiness and repayment history of these debtors. The Group does not hold any collateral over these balances.

Movement in the allowance for doubtful debts deducted from the trade receivable are as follows:

20. CONTRACT LIABILITIES

	2021 HK\$'000	2020 HK\$'000
Contract liabilities Sales of mobiles phones and related products	99	466

The following table shows how much of the revenue recognised in the current year related to carried-forward contract liabilities:

	Receipts in advance from customers	
	2021 HK\$'000	2020 HK\$'000
Revenue recognised that was included in the contract liabilities balance at the beginning of the year	466	46

The Group receives deposits from certain customers when they issue purchase order. This results in contract liabilities being recognised until the control of the mobile phones and related products is passed to the customers.

23. SHARE-BASED PAYMENTS

Equity-settled share option scheme of the Company

Pursuant to the SiS Mobile Share Option Scheme adopted by the Company on 16 December 2014, the Company may grant options to qualified persons, including employees and directors of the Company, its subsidiaries and associates, and third parties with a view to maintain business relationship with such persons to subscribe for shares of the Company.

Share options were granted by the Company on 25 June 2015 to directors, certain employees and eligible persons of the Group. The total number of shares in respect of which options may be granted under the Scheme is not permitted to exceed 10% of shares of the Company in issue, without prior approval from the Company's shareholders. The number of shares issued and to be issued in respect of which option granted and may be granted to any individual in aggregate within any 12-month period is not permitted to exceed 1% of the Company's issued share capital, without prior approval from the Company's shareholders. HK\$100 is payable by each eligible participant to the Company on acceptance of an offer of options. The fair values of the options determined at the date of grant using the Binomial model was approximately HK\$7,418,000.

No options were granted by the Company during the year ended 31 December 2021 and 2020.

The Group did not recognise any expenses for both years in relation to the share options granted by the Company.

Details of the share options are as follows:

No. of share options	Vesting period	Exercise period	Exercise price
2,530,000	26.6.2015 – 31.12.2015	1.1.2016 – 30.6.2023	HK\$2.36
2,530,000	26.6.2015 – 31.12.2016	1.1.2017 – 30.6.2023	HK\$2.36
2,530,000	26.6.2015 – 31.12.2017	1.1.2018 – 30.6.2023	HK\$2.36

FOR THE YEAR ENDED 31 DECEMBER 2021

23. SHARE-BASED PAYMENTS (CONTINUED)

Equity-settled share option scheme of the Company (Continued)

Movements in share options to subscribe for ordinary shares in the Company under the Scheme during the years ended 31 December 2020 and 2021 are as follows:

	Outstanding at 1 January 2020, 31 December 2020 and 2021
Grantee	
Directors	6,390,000
Employees	1,200,000
	7,590,000
Exercisable at the end of the year	7,590,000

For share options outstanding at the end of the reporting period, the weighted average exercise prices is HK\$2.36 (2020: HK\$2.36) and weighted average remaining contractual life is 1.5 years (2020: 2.5 years).

24. RETIREMENT BENEFITS PLANS

The Group participates in defined contribution schemes which are registered under Mandatory Provident Fund Scheme ("MPF Scheme") established under the Mandatory Provident Fund Ordinance in December 2000 in Hong Kong. The assets of the scheme are held separately from those of the Group, in funds under the control of trustees.

For members of the MPF Scheme, the Group contributes monthly 5% of the employees' monthly salaries costs or HK\$1,500, whichever the lower, to the scheme.

The total expense recognised in profit or loss of HK\$564,000 (2020: HK\$472,000) represents contributions payable to these plans by the Group at rates specified in the rules of the plans. As at 31 December 2021, contributions of HK\$94,000 (2020: HK\$84,000) due in respect of the year ended 31 December 2021 had not been paid over to the plans. The amounts were paid subsequent to the end of the reporting period.

25. DIVIDEND

No dividend or distribution has been declared or made by the Company during the year ended 31 December 2021 and up to the date of issue of these consolidated financial statements.

FOR THE YEAR ENDED 31 DECEMBER 2021

26. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged for both years.

The capital structure of the Group consists of equity attributable to owners of the Company, comprising issued capital and reserves.

The directors of the Company review the capital structure periodically. As part of this review, the directors assess budgets of its operations taking into account of the provision of funding. Based on the operating budgets, the directors of the Company consider the cost of capital and the risks associated with each class of capital and balance its overall capital structure through the issue of debts.

27. FINANCIAL INSTRUMENTS

a. Categories of financial instruments

	2021 HK\$'000	2020 HK\$'000
Financial assets Amortised cost Equity instruments at FVTOCI	116,476 12,785	110,711 13,362
Financial liabilities Amortised cost	37,948	37,834

b. Financial risk management objective and policies

The Group's major financial instruments include trade and other receivables, deposits paid, trade and other payables, lease liabilities, equity instruments at FVTOCI, and bank balances and cash. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (foreign currency risk, interest rate risk and price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management of the Group manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

FOR THE YEAR ENDED 31 DECEMBER 2021

27. FINANCIAL INSTRUMENTS (CONTINUED)

b. Financial risk management objective and policies (Continued)

Market risk

Interest rate risk

The bank balances comprising short term bank deposits carry interests at floating rate, thus exposing the Group to cash flow interest rate risk. The Group currently does not have any policy to hedge against interest rate risk and will consider hedging exposure such should the needs arise.

Sensitivity analysis

As the interest rates on bank deposits are minimal, no sensitivity analysis was prepared and reported to the management.

Foreign exchange risk

Certain purchase of goods, other payables, other receivables and bank balances of the Group are denominated in US\$, the currency other than the functional currencies of the relevant group entities.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of each reporting period are as follows:

	2021 HK\$'000	2020 HK\$'000
Assets	1,525	1,517
Liabilities	7,099	7,257

The Group currently does not have currency hedging policy. However, the management monitors the currency fluctuation exposure and will consider hedging significant currency risk exposure should the need arise.

Sensitivity analysis

As HK\$ are pegged to US\$, the management of the Group does not expect that there would be any material currency risk exposure between these two currencies. As such, no sensitivity analysis is performed.

FOR THE YEAR ENDED 31 DECEMBER 2021

27. FINANCIAL INSTRUMENTS (CONTINUED)

b. Financial risk management objective and policies (Continued)

Price risk

The Group is exposed to equity price risk through its investment in listed equity securities. The management closely keeps watch of the price changes and takes appropriate action when necessary.

Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to equity price risk at the end of the reporting period.

If the price of the respective listed equity securities classified as equity instruments at FVTOCI had been 10% (2020: 10%) higher/lower, the Group's equity instruments at FVTOCI and investment reserve would increase/decrease by HK\$1,279,000 (2020: HK\$1,336,000).

Credit risk and impairment assessment

The Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

Trade receivables arising from contracts with customers

In order to minimise the credit risk, the management of the Group has delegated certain staffs responsible for determination of credit limits and credit approvals. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. In addition, the Group performs impairment assessment under ECL model upon application of HKFRS 9 on trade balances individually or based on provision matrix. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group has concentration of credit risk over its trade receivables of which 54% (2020: 57%) of the total trade receivables was due from the Group's 5 largest customers. The Group's concentration of credit risk by geographical location of customers are solely in Hong Kong which accounted for majority of the trade receivables for both years.

Deposits paid, other receivables and bank balances

The credit risks on bank balances are limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

Deposits paid and other receivables are considered low risk as these debtors are mainly subsidiaries of high credit rating companies. Thus, no loss allowance for deposits paid and other receivables was recognised as the amount was not significant.

b. Financial risk management objective and policies (Continued)

Credit risk and impairment assessment (Continued)

The Group's internal credit risk grading assessment comprises the following categories:

Internal credit	Description	Trade receivables	Other financial assets
Low risk	The counterparty has a low risk of default and does not have any past-due amounts	Lifetime ECL – not credit-impaired	12m ECL
Watch list	Debtor frequently repays after due dates but usually settle in full	Lifetime ECL – not credit-impaired	12mECL
Doubtful	There have been significant increases in credit risk since initial recognition through information developed internally or external resources	Lifetime ECL – not credit-impaired	Lifetime ECL – not credit-impaired
Loss	There is evidence indicating the asset is credit-impaired	Lifetime ECL – credit-impaired	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written off	Amount is written off

b. Financial risk management objective and policies (Continued)

Credit risk and impairment assessment (Continued)

The tables below detail the credit risk exposures of the Group's financial assets, which are subject to ECL assessment:

		External Internal 12-month		Gross carrying amo		
	Notes	credit rating	credit rating	or lifetime ECL	2021 HK\$'000	2020 HK\$'000
Trade receivables	а	N/A	Low risk	Lifetime ECL — not credit impaired	36,095	22,282
			Watch list	Lifetime ECL — not credit impaired	4,388	3,291
			Loss	Lifetime ECL — credit impaired	17	17
Other receivables	b	N/A	Low risk	12m ECL	9,580	17,188
Deposits paid	С	N/A	Low risk	12m ECL	10,602	10,605
Bank balances	d	A to AA-	Low risk	12m ECL	56,035	57,489

Notes:

- a. Except for debtors that are credit-impaired, the Group determined the expected credit losses on the trade receivables collectively using grouping of various debtors that have similar repayment and loss patterns. Estimated loss rates are based on internal credit ratings, computed with reference to historical credit loss experience. Debtors that are large scale and/or with long business relationship with good repayment history are considered as low risk and a minimal default rate is assigned, while debtors which usually settle one to three months after due dates are considered as watch list and a low default rate is assigned.
- b. Other receivables amounted to HK\$9,580,000 (2020: HK\$17,188,000) are not past due or with no fixed repayment terms. The amount mainly represents rebate receivables from suppliers. It has a low risk of default since the counterparties are mainly subsidiaries of high-credit rating companies.
- c. For deposits paid, majority amounts of HK\$10,130,000 (2020: HK\$10,001,000) are due from counterparties which have a low risk of default since the counterparties are wholly-subsidiaries of high-credit rating listed companies.
- d. For bank balances, the ECL is assessed by reference to probability of default, loss given default by credit rating grades published by international credit rating agencies.

FOR THE YEAR ENDED 31 DECEMBER 2021

27. FINANCIAL INSTRUMENTS (CONTINUED)

b. Financial risk management objective and policies (Continued)

Credit risk and impairment assessment (Continued)

Based on the ECL assessment, credit loss allowances of HK\$180,000, HK\$44,000 and HK\$17,000 (2020: HK\$111,000, HK\$33,000 and HK\$17,000) were recognised for the trade receivables with internal credit ratings of low list, watch list and loss, representing 0.5%, 1% and 100% (2020: 0.5%, 1% and 100%) respectively. No credit loss allowance was made for deposits paid, other receivables and bank balances since the ECL amount is not significant.

Liquidity risk

The Group's exposure to liquidity risk is minimal and is managed by maintaining a level of cash and cash equivalents deemed adequate by the management to finance the Group's operation. In addition, any shortfall in the funding requirements of the Group's operations may be obtained from bank borrowings.

The following table details the Group's remaining contractual maturity for its financial liabilities with agreed repayment periods. The maturity dates of financial liabilities are based on the agreed repayment dates:

The above table has been drawn up based on the undiscounted cash flows of financial liabilities (including principal and interest cash flows) based on the earliest date on which the Group can be required to pay (including principal and interest cash flows).

c. Fair values

(i) Fair values of the Group's financial assets and financial liabilities that are measured at fair values on a recurring basis

Some of the financial assets are measured at fair value at the end of each reporting period. The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Listed securities classified as Equity instruments at FVTOCI	Level 1	12,785	13,362	

The fair values of listed securities are determined with reference to quoted market bid prices from relevant stock exchanges.

There were no transfers between Levels 1, 2 and 3 during the year.

(ii) Fair values of the Group's financial assets and financial liabilities that are not measured at fair values on a recurring basis

The carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their fair values which are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

28. RELATED PARTIES TRANSACTIONS

The directors are of the opinion that all the related party transactions have been established under terms as negotiated between the related parties.

(a) Transactions with immediate holding company

- (i) The Group paid license fee to its immediate holding company of HK\$12,000 (2020: HK\$12,000) during the year.
- (ii) During the year ended 31 December 2021, the Group entered into two short-term lease contracts in respect of properties from a fellow subsidiary for warehouses (2020: a lease contract of office and a short-term lease contract of warehouse) purpose. The amounts of monthly rent payable by the Group under the leases are HK\$27,000 (2020: HK\$209,000 and HK\$27,000) respectively, which were determined with reference to market price in the region. At the commencement dates of the leases, the Group recognised none right-of-use assets and lease liabilities (2020: HK\$7,309,000) respectively.

FOR THE YEAR ENDED 31 DECEMBER 2021

28. RELATED PARTIES TRANSACTIONS (CONTINUED)

(b) Transaction with a related party

During the year ended 31 December 2020, the Group borrowed a short-term loan of HK\$40,000,000 from a related company at interest rate of 1.35% per annum. The interest rate was reference to prevailing market rates offered by banks in Hong Kong. Loan amount and interest expense of HK\$40,069,000 were fully repaid during the year 2020. The related party is under the control of ultimate controlling shareholders of the Company.

(c) Compensation of key management personnel

Key management personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group and of the Company either directly or indirectly.

The directors of the Company considered the key management personnel of the Group are the directors of the Company. The remuneration of members of key management personnel of the Group, which are the executive directors of the Company, are disclosed in note 11.

29. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES
