## Chairman's Statement

2021 was an eventful year marking the centenary of the founding of the Communist Party of China as well as the turning point where the timeframes of the two centenary goals converge. During the year, we strictly implemented the decisions and plans of the Party and the government in compliance with the regulatory requirement at all levels and actively adapted to the development trend of China according to the national policy. Various works achieved significant progress, facilitating a positive beginning of the "14th Five-Year Plan".

Over the year, we were committed to following the leadership of the Communist Party of China and further strengthened its core role in our corporate governance to promote our business operation and development. All employees and management were united to spread the positive energy in business development, laying a solid foundation for the implementation of our strategies. Adhering to the rural revitalization strategy, we focused on providing services to entities and supporting the resumption of operation and production of enterprises so as to contribute financially in the regional economic growth. As our transformation continued, our operating structure further improved at a steady pace and the community finance business expanded effectively attributable to the cooperation between the Bank and the community. Our development advantages became more apparent. In order to consolidate our foundation, our organizational structure was adjusted and a talent pool cultivation system was established. We accelerated the innovation of fin-tech, built a comprehensive risk management system and developed new growth momentum to support our compliance operation. Adhering to the principle of win-win cooperation, we continued to develop various cooperation platforms and explore new development opportunity through resources consolidation and cooperation between different segments. We also strived to shoulder our responsibilities by organizing charity projects in respect of education assistance, care for elderly and disabled and helping people suffering from difficulties. The spirit of Jiutai RCB in the new era has been further demonstrated through our contribution to the public welfare.

In celebration of the centenary of the founding of the Communist Party of China, we pressed ahead with concrete efforts for achievements and recorded outstanding performance in 2021. According to the financial statements prepared under the IFRS, as at the end of 2021, the Group's total assets amounted to RMB234,140 million, total deposits from customers amounted to RMB193,106 million, total loans and advances to customers amounted to RMB156,850 million, and net profit reached RMB1,290 million. Our results of operation for the year had been widely recognized by various sectors of the society. We were selected as the "Outstanding Enterprise for Poverty Alleviation (脫貧攻堅先進集體)" by the Jilin Provincial Party Committee and Provincial Government, and we had obtained numbers of awards, including the "Top Ten Rural Financial Enterprises of Targeted Poverty Alleviation in China (全國農村金融十佳精準扶貧機構)", the "Most Socially Responsible Listed Company (最具社會責任上市公司)" and "Rural Commercial Bank of Jilin Province with Outstanding Contribution (吉林省傑出貢獻農商銀行)".

The Bank's fruitful achievements were largely attributable to the trust and confidence of customers and investors, the support and guidance of the government and regulatory authorities as well as the dedication and hard work of all employees. On behalf of the Board, I would like to express our sincere gratitude to all parties.

2022 marks a pivotal year for the implementation of the 14th Five-Year Plan and a crucial year for further transformation and high quality business growth of the Bank. In this historical year, we will adhere to the guidance of Xi Jinping's Thought on Socialism with Chinese Characteristics for a New Era and the spirits of the 19th National Congress of the Communist Party of China and all previous 19th plenary sessions by providing financial services for the real economy and pursuing steady improvement. We will push forward the development of "three rural finance, community finance, cooperation platform and charity" comprehensively. In anticipation of the 20th National Congress of the Communist Party of China, we strive to achieve outstanding results by adjusting and optimizing our structures while upholding our core principles, carrying out transformation and upgrade for services to entities, actively contributing to rural revitalization and demonstrating our values and responsibilities in supporting local economic growth.

## President's Statement

In 2021, in response to the challenges from economic downturn and the changing pandemic situation, the management of the Bank duly executed the resolutions adopted by the Board and were voluntarily under the supervision of the Board of Supervisors. The Bank pushed forward the development of the “Four in One Mechanism (四位一體)” which integrated three rural finance, community finance, cooperation platform and charity. As major operating indicators improved steadily, its business operation has performed exceptionally well.

The operating results have been proven promising. According to the financial statements prepared under the IFRS, as at the end of 2021, the Bank's total assets amounted to RMB165,321 million, total deposits from customers amounted to RMB133,771 million, total loans and advances to customers amounted to RMB111,372 million, and net profit reached RMB1,434 million. Effective efforts have been made in serving the real economy. The Bank further increased credit extension to fully support the development of three rurals and micro-, small- and medium-sized enterprises within the region. The “Financial Service Innovation Project for Small- and Micro-sized Enterprises (小微企業金融服務創新項目)” was successfully shortlisted as a typical case study of inclusive finance of the banking industry in China, facilitating the regional economic development with its financial strengths. The operation structure has been further optimised. Asset and liability structure has been further optimized and transformation momentum has been further enhanced. The Bank launched the compliance tasks, which has resulted in the continuous improvement in comprehensive risk management and satisfactory performance on the compliance of all regulatory indicators. Driving forces for development have continued to be strengthened. With the launch of “Sunshine Loan (陽光貸)”, “Incubation Loan (紅孵貸)”, Jiutai Pasture Loan (九牧寶), its product portfolio was further enriched. The trial operation of the “Rural Service Point (裕農服務站)” was also successful, enabling the extension of credit facilities to the entire village. Capitalising on the enhanced technological empowerment, the projects of enterprise resources planning system and payment services were rolled out. New progress was also been made in terms of the scope and depth of its cooperation with different parties. The Bank has also launched a diverse range of cultural activities. Committed to its social responsibilities, the Bank stepped up its support for social initiatives. A series of activities were organised in celebration of the 100th anniversary of the founding of the Communist Party to facilitate the education of party-related issues. The Bank also carried out the campaign, “Commitment to the Community (我為群眾辦實事)”, under which base-level party-building measures were launched in alignment with the development of the banking industry and society. Through a wide range of activities for the labour union and the community, the Bank was able to take lead in the cultural development.

Our achievements owed much to the solid support of Shareholders, investors and various sectors of society, the scientific decision-making of the Board, effective supervision of the Board of Supervisors, and the effort and contribution of cadres and employees. On behalf of management, I would like to express my sincerest gratitude towards them.

2022 marks a pivotal year of the 14th Five-Year Plan and a crucial year for further transformation and stable development. The management will duly execute decisions and plans of the Board. In line with its pursuit of prudent development, the Bank will adhere to its general commitment of consolidating foundation and improving quality and efficiency while achieving the general goal of high-quality development. Efforts will be made to coordinate the development the “Four in One Mechanism (四位一體)” which integrates “three rural finance, community finance, cooperation platform and charity”. Its commitment to synchronised enhancement in business scale and efficiency, coordinated improvement in development pace and quality and matching of revenue and risks will mark a new chapter in its reform and development.

# Chapter 4 Management Discussion and Analysis

## 4.1 Environment and Outlook

We are standing at the turning point of the two centuries and the two overall situations (兩個大局). Political relationship among major countries is increasingly complex, and the global supply chain has been disrupted due to the ever-changing pandemic. The world has entered a new turbulent era and the external environment has become more complicated and uncertain. In China, the economic development is also under the triple pressure of demand contraction, supply shock and weakening expectations.

In 2022, the 20<sup>th</sup> National Congress of the Communist Party of China will be held and the “Fourteenth Five-Year Plan (十四五規畫)” will continue to implement. Despite the various challenges, the Chinese government aims to maintain stability and pursue sustainable growth by coordinating the domestic fiscal and monetary policy, implementing cross-cyclical and counter-cyclical adjustments and reducing taxes and surcharges. Setting a GDP growth target at around 5.5% this year, China is confident in achieving its expectation as the economy continues to recover driven by the new round of innovation, green transformation and quality improvement and upgrade. In addition, the regulator has issued favourable financial regulations that are conducive to economic stability, with clear policy directions in supporting common prosperity, rural revitalization, small and micro enterprises, technological innovation and green development. Various measures have also been implemented to accelerate the reform of rural credit cooperatives and support the capital replenishment of banking institutions. The development potential for rural commercial banks has been further expanded, and the resilience, sustainability and competitiveness of the real economy has been further enhanced.

Looking forward, the Bank will closely follow national policies and focus on regional development in pursuit of stable growth. The Bank will focus on maintaining high quality development and upholding its positioning to develop finance for the three rurals, community finance, cooperation platform and charity works. The Bank will shoulder its responsibilities through providing services to entities, enhance its value while contributing to the society and foster its high-quality development.

## Chapter 4 Management Discussion and Analysis

### 4.2 Development Strategies

The Group's strategic goal is to position itself as a professional financial services provider with unique values and strong competitive abilities in order to build a first-class modern rural commercial bank in the PRC with strong brand value. To achieve its goal, the Group plans to: (i) reinforce advantages in banking services for the “three rurals (三農)” and Micro, Small and Medium Enterprises (the “SMEs”); (ii) exploit the growth potential of personal financial services to enhance the capability of community financial service and promote the growth of its retail banking business; (iii) develop emerging businesses to promote the transformation of the growth model; (iv) further strengthen the Group's risk management and internal control; and (v) recruit, train, retain and motivate high-quality talent.

### 4.3 Overall Business Review

In 2021, in response to the challenges from economic downturn and the changing pandemic situation, the Group strictly followed all regulatory requirements and pushed forward the development of the “Four in One Mechanism (四位一體)” which integrated “three rural finance, community finance, cooperation platform and charity”. Major operating indicators improved steadily, marking a positive beginning of the “Fourteenth Five-Year Plan”.

The Group recorded a total operating income of RMB6,362.3 million in 2021, representing an increase of 14.7% as compared to RMB5,546.8 million in 2020. The Group's net profit increased by 7.5% from RMB1,199.7 million in 2020 to RMB1,290.0 million in 2021.

As of December 31, 2021, the Group's total assets amounted to RMB234,140.2 million, representing a year-on-year increase of 16.9%; total loans and advances to customers amounted to RMB156,850.2 million, representing a year-on-year increase of 20.6%; the non-performing loan ratio amounted to 1.88%, representing a year-on-year increase of 0.25 percentage point; total deposits from customers amounted to RMB193,106.2 million, representing a year-on-year increase of 28.9%.

## Chapter 4 Management Discussion and Analysis

In 2021, the Group's profit before tax was RMB1,747.5 million, representing a year-on-year increase of 13.4%; profit for the year was RMB1,290.0 million, representing a year-on-year increase of 7.5%. It was mainly due to the increases in net interest income as a result of focusing on the original business by increasing loans to customers, reasonably adjusting the asset structure and enhancing the utilization efficiency of funds in order to provide further credit support to the real economy, which was partially offset by the decreases in net fee and commission income, net trading gains and the increases in operating expenses and impairment losses on assets.

### (i) Net interest income

Net interest income was the largest component of the Group's operating income, representing 91.9% and 97.1% of operating income in 2020 and 2021, respectively. The table below sets forth the interest income, interest expense and net interest income for the periods indicated.

- (1) Investment securities and other financial assets include the financial assets at fair value through other comprehensive income and financial assets at amortized cost.
- (2) Primarily consist of statutory deposit reserves, surplus deposit reserves and fiscal deposit reserves.
- (3) Primarily consist of tier-two capital bonds, subordinated fixed rate bonds and interbank certificates.
- (4) Represents the difference between the average yield on total interest-earning assets and the average cost of total interest-bearing liabilities.
- (5) Calculated by dividing net interest income by the average balance of interest-earning assets (based on the daily average of the interest-earning assets).

## Chapter 4 Management Discussion and Analysis

The table below sets forth the changes in the Group's interest income and interest expense attributable to changes in volume and interest rate for the periods indicated. Changes in volume are measured by changes in the average balance, and changes in interest rate are measured by changes in the average interest rates. Changes caused by both volume and interest rate have been allocated to changes in volume.

## Chapter 4 Management Discussion and Analysis

### (ii) Interest income

The table below sets forth the principal components of interest income for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,			
	2021	% of	2020	% of
	Amount	total	Amount	total
Loans and advances to customers	10,424.2	83.2	8,273.5	79.8
Investment securities and other financial assets	1,557.5	12.4	1,469.8	14.2
Financial assets held under resale agreements	98.7	0.8	188.5	1.8
Deposits with banks and other financial institutions	181.3	1.4	154.9	1.5
Deposits with the central bank	219.5	1.9	186.6	1.8
Placements with banks and other financial institutions	43.1	0.3	97.8	0.9
<b>Total</b>	<b>12,524.3</b>	<b>100.0</b>	10,371.1	100.0

The Group's interest income increased by 20.8% from RMB10,371.1 million in 2020 to RMB12,524.3 million in 2021, primarily due to the increase in the average balance of interest-earning assets from RMB185,115.2 million in 2020 to RMB212,044.1 in 2021, and the increase in the average yield of such assets from 5.60% in 2020 to 5.91% in 2021. The increase in the average balance of interest-earning assets was primarily due to increases in loans and advances to customers, deposits with banks and other financial institutions and deposits with the central bank as a result of increasing loans and advances to customers and the optimization of assets structure to provide further credit support to the real economy, which was partially offset by the decreases in the average balances of investment securities and other financial assets, financial assets held under resale agreements and placements with banks and other financial institutions. The increase in the average yield of the interest-earning assets was primarily due to the increases in the average yield of investment securities and other financial assets, financial assets held under resale agreements, deposits with banks and other financial institutions and placements with banks and other financial institutions as a result of the continuous improvement in the management of assets and liabilities and the adjustment on the financial investment portfolio, which was partially offset by the decreases in the average yield of loans and advances to customers and deposits with the central bank.

#### (A) Interest income from loans and advances to customers

Interest income from loans and advances to customers represented 79.8% and 83.2% of the Group's total interest income in 2020 and 2021, respectively.

## Chapter 4 Management Discussion and Analysis

The table below sets forth the average balance, interest income and average yield on loans and advances to customers by product for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,					
	2021			2020		
	Average balance	Interest income	Average yield (%)	Average balance	Interest income	Average yield (%)
Corporate loan and advances						
– Loan	119,630.1	8,434.0	7.05	90,967.6	6,418.1	7.06
– Finance leases loan	2,706.1	146.1	5.40	2,131.4	124.4	5.84
Retail loans	25,520.3	1,765.4	6.92	22,987.3	1,692.5	7.36
Discounted bills	2,368.7	78.7	3.32	1,465.7	38.5	2.63
<b>Total loans and advances to customers</b>	<b>150,225.2</b>	<b>10,424.2</b>	<b>6.94</b>	117,552.0	8,273.5	7.04

Being the largest component of the Group's interest income, the interest income from loans and advances to customers increased by 26.0% from RMB8,273.5 million in 2020 to RMB10,424.2 million in 2021, which was mainly due to the increase in the average balance of loans and advances to customers by 27.8% from RMB117,552.0 million in 2020 to RMB150,225.2 million in 2021, which was partially offset by the decrease in the average yield, such assets from 7.04% in 2020 to 6.94% in 2021. The increase in the average balance of such assets was primarily due to the efforts of the Group to improve the services for the real economy and adapt to the new development pattern of "Dual Circulation" by actively promoting reforms in respect of the industrial structure, technological innovation and agricultural and rural development, enhancing the quality and efficiency of financial services for entities, integrating various resources, to support the growth in the rural areas, to support the revitalization of regional economy and increasing credit support to satisfy the financing needs in the society, as well as optimization of the loan structure, accelerating the transformation of retail industry and the greater support put on the retail customers. The decrease in the average yield of such assets was primarily due to the fulfilment of the Group's social responsibility by reducing fees and interest rate of loans to ease the burden of borrowers, as well as the impact of the year-on-year decrease in loan prime rate (LPR).

### (B) Interest income from investment securities and other financial assets

Interest income from investment securities and other financial assets increased by 6.0% from RMB1,469.8 million in 2020 to RMB1,557.5 million in 2021, primarily due to an increase in the average yield of investment securities and other financial assets from 4.49% in 2020 to 5.39% in 2021, which was partially offset by a decrease in the average balance of such assets from RMB32,762.2 million in 2020 to RMB28,875.4 million in 2021. The decrease in the average balance of such assets was primarily due to the optimization of assets structure of the Group by reducing such assets. The increase in the average yield of such assets was primarily due to the changes in the types of investment assets and maturity profile and the change in market interest rate.

## Chapter 4 Management Discussion and Analysis

### **(C) Interest income from financial assets held under resale agreements**

Interest income from financial assets held under resale agreements decreased by 47.6% from RMB188.5 million in 2020 to RMB98.7 million in 2021, primarily due to a decrease in the average balance of the financial assets held under resale agreements, from RMB7,300.8 million in 2020 to RMB3,158.7 million in 2021, which was partially offset by the increase in the average yield on such assets from 2.58% in 2020 to 3.12% in 2021. The decrease in the average balance of such assets was primarily attributable to the adjustment of the scale of such assets based on the trend in the capital market and the capital position of the Group in a timely manner in order to balance the yield and liquidity requirement. The increase in the average yield of such assets was primarily due to the increase in market interest rate.

### **(D) Interest income from deposits with banks and other financial institutions**

Interest income from deposits with banks and other financial institutions increased by 17.0% from RMB154.9 million in 2020 to RMB181.3 million in 2021, primarily due to the increase in the average balance of deposits with banks and other financial institutions from RMB10,586.8 in 2020 to RMB11,845.9 million in 2021, and the increase in the average yield on such assets from 1.46% in 2020 to 1.53% in 2021. The increase in the average balance of such assets was primarily due to the reasonable increase in deposits with banks and other financial institutions in order to improve the efficiency of fund use based on the needs of business operation of the Group. The increase in the average yield of such assets was primarily due to the increase in market interest rate.

### **(E) Interest income from deposits with the central bank**

Interest income from deposits with the central bank increased by 17.6% from RMB186.6 million in 2020 to RMB219.5 million in 2021, primarily due to the increase in the average balance of deposits with the central bank from RMB14,335.3 million in 2020 to RMB17,021.4 million in 2021, which was partially offset by the decrease in the average yield of such assets from 1.30% in 2020 to 1.29% in 2021. The increase in average balance of such assets was primarily due to increase in statutory deposit reserves as a result of the increase in the deposits from customers of the Group, which was partially offset by the decrease in statutory deposit reserve ratio. The decrease in the average yield of such assets was primarily due to the change in the structure of statutory deposit reserves and surplus deposit reserves.

Interest expenses on deposits from customers increased by 34.3% from RMB3,969.0 million in 2020 to RMB5,328.5 million in 2021, primarily due to an increase in the average balance of deposits from customers from RMB138,741.3 million in 2020 to RMB173,993.7 million in 2021 as well as an increase in the average cost of such liabilities from 2.86% in 2020 to 3.06% in 2021. The increase in average balance of such liabilities was primarily due to the Group's efforts in promoting digitalization, expanding electronic channels and our customer base, improving service quality and implementing targeted marketing. The increase in the average cost of such liabilities was primarily due to the more intensified market competition.

## Chapter 4 Management Discussion and Analysis

### **(B) Interest expenses on financial assets sold under repurchase agreements**

Interest expenses on financial assets sold under repurchase agreements increased by 6.9% from RMB110.3 million in 2020 to RMB117.9 million in 2021, primarily due to an increase in the average cost of financial assets sold under repurchase agreements from 1.91% in 2020 to 2.06% in 2021, which was partially offset by the decrease in average balance of such liabilities from RMB5,777.1 million in 2020 to RMB5,723.8 million in 2021. The increase in the average cost of such liabilities was primarily due to the increase in market interest rate. The decrease in the average balance of such liabilities was mainly the result of the adjustment of liabilities structure of the Group according to its business needs and the needs of liquidity management.

### **(C) Interest expenses on deposits from banks and other financial institutions**

Interest expenses on deposits from banks and other financial institutions decreased by 27.3% from RMB395.8 million in 2020 to RMB287.8 million in 2021, mainly due to a decrease in the average balance of the deposits from banks and other financial institutions from RMB10,471.9 million in 2020 to RMB8,780.9 million in 2021, and a decrease in the average cost of such liabilities from 3.78% in 2020 to 3.28% in 2021. The decrease in the average balance of such liabilities was primarily due to the increase in proportion of core liabilities and adjustment to the proportion of those liabilities by the Group based on the changes in market liquidity as well as the need to match the maturity of assets and liabilities. The decrease in the average cost of such liabilities was mainly due to the changes in the maturity structure of such amounts and the changes in market interest rate.

### **(D) Interest expenses on debt securities issued**

Interest expenses on debt securities issued decreased by 35.4% from RMB452.9 million in 2020 to RMB292.7 million in 2021, mainly due to the decrease in the average balance of the debt securities issued from RMB10,762.8 million in 2020 to RMB6,440.7 million in 2021, which was offset by the increase in the average cost of such liabilities from 4.21% in 2020 to 4.54% in 2021. The decrease in the average balance of such liabilities was primarily due to the repayment of certain interbank certificates which were due. The increase in the average yield of such liabilities was primarily due to the changes in the maturity profile.

## Chapter 4 Management Discussion and Analysis

### (iv) Net interest spread and net interest margin

Net interest spread is the difference between the average yield on total interest-earning assets and the average cost of total interest-bearing liabilities. Net interest margin is the ratio of net interest income to the average balance of interest-earning assets.

Net interest spread increased by 0.23 percentage point from 2.58% in 2020 to 2.81% in 2021. Net interest margin increased by 0.16 percentage point from 2.75% in 2020 to 2.91% in 2021. The increases in net interest margin and net interest spread were primarily due to the steady growth in interest income from loans and advances to customers as the Group strictly adhered to the national policies and focused on regional development, adjusted the assets structure based on its market position and provided more credit to support the “three rural” and SMEs by increasing the provision of loans in recent years and the benefits from the efforts in serving entities and supporting the agriculture and small businesses, the increase in the average yield of interesting-earning assets by 0.31 percentage point as compared to the corresponding period of last year as a result of the increase in income from treasury operations attributable to the timely adjustment in investment portfolio and enhancement in risk control in response to the changes in macro and market conditions, as well as the average cost of interest-bearing liabilities remained stable as compared to the corresponding period of last year resulting from the further improvement in pricing mechanisms and more effective cost control.

<b>Subtotal</b>	<b>169.4</b>	268.9	(99.5)	(37.0)
<b>Fee and commission expense</b>	<b>(96.7)</b>	(38.3)	(58.4)	152.5
<b>Net fee and commission income</b>	<b>72.7</b>	230.6	(157.9)	(68.5)

Note:

- (1) Primarily consists of fee income from loan business, fee and commission of guarantees and commitments and income from safe deposit box business.

Net fee and commission income decreased by 68.5% from RMB230.6 million in 2020 to RMB72.7 million in 2021, primarily due to the decreases in advisory fees, syndicated loan service fees, agency services fees, wealth management service fees and bank card service fees, which was partially offset by the increase in settlement and clearing fees.

Advisory fees income amounted to RMB33.2 million in 2021, representing a decrease of RMB104.2 million, or 75.8%, as compared to 2020, mainly due to the decrease in advisory services of the Group as affected by the decreased market demand.

Syndicated loan service fees income amounted to RMB45.8 million in 2021, representing a decrease of RMB13.7 million, or 23.0%, as compared to 2020, mainly due to the decrease in the transaction volume of syndicated loan business.

## Chapter 4 Management Discussion and Analysis

Settlement and clearing fees income amounted to RMB65.5 million in 2021, representing an increase of RMB36.1 million, or 122.8%, as compared to 2020, mainly due to increase in the transaction volume of settlement business.

Agency service fees income amounted to RMB16.6 million in 2021, representing a decrease of RMB1.9 million, or 10.3%, as compared to 2020, mainly due to the decrease in the transaction volume of agency business.

Wealth management service fees income amounted to RMB3.9 million in 2021, representing a decrease of RMB15.6 million, or 80.0%, as compared to 2020, mainly due to the decrease in the issue size of wealth management products.

Bank card service fees income amounted to RMB3.4 million in 2021, representing a decrease of RMB0.6 million, or 15.0%, as compared to 2020, mainly due to the decrease in the transaction volume of bank cards.

Fee and commission expenses mainly included fees paid to third parties for settlement, clearing and agency services. Fee and commission expenses increased by 152.5% from RMB38.3 million in 2020 to RMB96.7 million in 2021, mainly due to the increase in the transaction volume of settlement business.

### ***(B) Net gains arising from investment securities***

Net gains arising from investment securities included net gains from selling investment securities and other financial assets and revaluation gains resulting from the reclassification from other consolidated income to profits or losses upon the disposal of assets.

Net gains arising from investment securities increased by 88.1% from RMB46.4 million in 2020 to RMB87.3 million in 2021. The increase was mainly due to the timely disposal of investments in bond assets by the Group based on the investment strategy of assets portfolio and pricing trend of the bond market.

## Chapter 4 Management Discussion and Analysis

### **(C) Dividend income**

Dividend income decreased by 4.0% from RMB59.4 million in 2020 to RMB57.0 million in 2021. The decrease in dividend income was mainly due to the disposal of equity in certain non-controlling rural commercial banks.

### **(D) Net trading gains**

Net trading gains primarily include gains and interest income from selling, and the fair value changes of, debt securities held for trading and wealth management products issued by other financial institutions. Net trading gains decreased by 99.3% from RMB149.8 million in 2020 to RMB1.0 million in 2021, mainly due to the decrease in interest income from the financial assets at fair value through profit or loss held by the Group as a result of the decrease in the scale of such assets.

### **(E) Net exchange gains/(losses)**

Net exchange gains mainly included net gains arising out of foreign exchange settlement and foreign exchange transactions. Net exchange gains increased by 10.8% from RMB10.2 million in 2020 to RMB11.3 million in 2021, mainly due to the increase in the trading gains from foreign exchange and the fluctuation in foreign currency exchange rate.

### **(F) Other operating (expense) income, net**

Other operating (expense) income, net mainly included government subsidies and other non-recurring income, net of non-recurring expenses such as charitable donation. Other operating (expense) income, net increased from RMB(11.0) million in 2020 to RMB3.1 million in 2021, which was mainly due to increases in gains from interest rate swap of central bank.

### **(vi) Operating expenses**

Operating expenses increased by 12.0% from RMB2,743.7 million in 2020 to RMB3,073.9 million in 2021. The increase was primarily due to the increases in staff cost, general management and administrative expenses and tax and surcharges, which was partially offset by the decrease in property and equipment expenses.

## Chapter 4 Management Discussion and Analysis

The table below sets forth the principal components of operating expenses for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,			Change in Percentage (%)
	2021	2020	Change in amount	
Staff cost	1,924.5	1,592.1	332.4	20.9
Property and equipment expenses	549.3	641.8	(92.5)	(14.4)
General management and administrative expenses	509.9	426.3	83.6	19.6
Tax and surcharges	90.2	83.5	6.7	8.0
<b>Total</b>	<b>3,073.9</b>	<b>2,743.7</b>	<b>330.2</b>	<b>12.0</b>

### (A) Staff costs

The table below sets forth the components of staff costs for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,			Change in Percentage (%)
	2021	2020	Change in amount	
Salaries and bonuses	1,373.2	1,218.5	154.7	12.7
Social insurance	295.6	143.4	152.2	106.1
Staff welfares	115.7	106.2	9.5	8.9
Housing allowances	111.3	99.5	11.8	11.9
Labor union and staff education expenses	28.7	24.5	4.2	17.1
<b>Total staff costs</b>	<b>1,924.5</b>	<b>1,592.1</b>	<b>332.4</b>	<b>20.9</b>

Staff costs increased by 20.9% from RMB1,592.1 million in 2020 to RMB1,924.5 million in 2021. The increase in staff costs was primarily due to the fact that the Group was no longer entitled to the pandemic-related concession and concession of social insurance under the preferential policies and the increase in the headcount of staff.

## Chapter 4 Management Discussion and Analysis

### ***(B) Property and equipment expenses***

Property and equipment expenses decreased by 14.4% from RMB641.8 million in 2020 to RMB549.3 million in 2021. The decrease in property and equipment expenses was mainly due to the decrease of depreciation fees as a result of the disposal of certain properties and the expiration of depreciation and amortisation for certain leased properties and equipment of the Group.

### ***(C) General management and administrative expenses***

General management and administrative expenses mainly included business promotion fees, transportation fee in relation to the delivery of cash and repair expenses. General management and administrative expenses increased by 19.6% from RMB426.3 million in 2020 to RMB509.9 million in 2021. The increase in general management and administrative expenses was primarily due to gradual increase in expenses along with the Group's business growth and expansion in outlets during the year, while the relevant fee and expenses of last year were lower than usual due to the limited business activities as affected by the pandemic condition, which affected the comparison base.

### ***(D) Tax and surcharges***

Tax and surcharges increased by 8.0% from RMB83.5 million in 2020 to RMB90.2 million in 2021. The increase in tax and surcharges were primarily due to the increase in tax surcharge as a result of the increase in value-added tax paid during the year over the previous year by the Group.

## Chapter 4 Management Discussion and Analysis

### (vii) Impairment losses on assets

The table below sets forth the principal components of impairment losses on assets for the periods indicated.

(Expressed in millions of RMB, unless otherwise stated)	Year ended December 31,			
	2021	2020	Change in amount	Change in Percentage (%)
Loans and advances to customers	1,232.0	863.6	368.4	42.7

Property and equipment	0.2	—	0.2	—
<b>Total</b>	<b>1,569.4</b>	<b>1,306.6</b>	<b>262.8</b>	<b>20.1</b>

Impairment losses on assets increased by 20.1% from RMB1,306.6 million in 2020 to RMB1,569.4 million in 2021. The increase in impairment losses on assets was mainly due to the increase in provisions for impairment loss on loans and advances to customers along with the growth in loans and advances to customers in order to strengthen its risk resistance ability under the principles of prudence and upon taking account into the uncertain factors including the potential pandemic impact and changes in external conditions.

## Chapter 4 Management Discussion and Analysis

### (viii) Income tax expense

Income tax expense increased by 34.0% from RMB341.4 million in 2020 to RMB457.5 million in 2021. The increase in income tax expense was due to the increase in profit before tax.

### (b) Analysis of the Consolidated Statement of Financial Position

## Chapter 4 Management Discussion and Analysis

Notes:

- (1) Include financial assets at amortized cost, financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income.
- (2) Primarily consist of property and equipment, goodwill, other receivables and prepayments, interest receivables, deferred tax assets, repossessed assets, interests in associates and right-of-use assets.

### (A) Loans and advances to customers

As of December 31, 2021, the Group's total loans and advances to customers was RMB156,850.2 million, representing an increase of 20.6% as compared to December 31, 2020. Net loans and advances to customers accounted for 65.0% of the Group's total assets, representing an increase of 1.8 percentage points as compared to December 31, 2020.

The table below sets forth loans and advances to customers by product as of the dates indicated.

(Expressed in millions of RMB, unless otherwise stated)	As of December 31, 2021		As of December 31, 2020	
	Amount	% of total	Amount	% of total

<b>Total loans and advances to customers</b>	<b>156,850.2</b>	<b>100.0</b>	130,076.5	100.0

Loans and advances to customers are the largest component of total assets. The Group offers a variety of loan products, substantially all of which are denominated in Renminbi. Loans and advances to customers, net of provision for impairment losses, represented 65.0% and 63.2% of total assets as of December 31, 2021 and 2020, respectively.

## Chapter 4 Management Discussion and Analysis

The Group's corporate loans increased by 23.3% from RMB105,631.2 million as of December 31, 2020 to RMB130,241.9 as of December 31, 2021, primarily due to the increase in loans in order to fulfill the reasonable credit needs of enterprises of the real economy as the Group focused on providing services for the micro-, small- and medium-sized enterprises and the private sector and supported the industrial upgrade in regional economies while effectively preventing risk exposures.

The Group's retail loans mainly comprise of personal business loans, personal consumption loans and residential and commercial mortgage loans. The Group's retail loans increased by 8.8% from RMB24,445.3 million as of December 31, 2020 to RMB26,594.9 million as of December 31, 2021, primarily due to the increase in loans as a result of the Group's enhanced credit support for the three rurals, individual industrial and commercial households and talent entrepreneurship as the Group has accelerated the transformation of retail business, and fulfillment of increasing reasonable demands from individual customers.

### Loans by Collateral

Collateralized loans, pledged loans and guaranteed loans in the aggregate represented 98.4% and 98.0% of total loans and advances to customers as of December 31, 2021 and 2020, respectively. If a loan is secured by more than one form of collateral, the classification is based on the primary form of collateral. The table below sets forth loans and advances to customers by the type of collateral as of the dates indicated.

(Expressed in millions of RMB, unless otherwise stated)	As of December 31, 2021		As of December 31, 2020

<b>Total loans and advances to customers</b>	<b>156,850.2</b>	<b>100.0</b>	<b>13,076.5</b>	<b>100.0</b>

## Chapter 4 Management Discussion and Analysis

Collateralized loans and pledged loans are the largest component of total loans and advances to customers. Collateralized loans and pledged loans as a percentage of total loans and advances to customers were 50.9% as of December 31, 2020 and 50.6% as of December 31, 2021, respectively.

The Group has adopted more stringent credit assessment criteria for extending guaranteed loans. Corporate loans are generally guaranteed by listed companies or guarantee companies. The Bank and each subsidiary consider the size, credit history and risk-resistance level of a guarantee company to decide whether or not to accept its guarantees. Guaranteed loans as a percentage of total loans and advances to customers was 47.1% as of December 31, 2020 and 47.8% as of December 31, 2021, respectively.

The Bank and each subsidiary extend unsecured loans to customers with relatively high credit ratings based on their internal credit risk rating system. As of December 31, 2020 and 2021, unsecured loans represented 2.0% and 1.6% of total loans and advances to customers, respectively.

### Movements of provision for impairment losses on loans and advances to customers

## Chapter 4 Management Discussion and Analysis

### (c) Assets Quality Analysis

#### (i) Breakdown of loans by the five-category classification

The non-performing loans of the Group are classified into substandard, doubtful and loss. As of December 31, 2021, the Group's non-performing loans amounted to RMB2,941.7 million. The following table sets forth loans and advances to customers by loan classification as of the dates indicated.

(Expressed in millions of RMB, unless otherwise stated)	As of December 31, 2021		As of December 31, 2020	
	Amount	% of total	Amount	% of total
Normal	149,270.2	95.2	123,911.7	95.3
Special mention	4,638.3	3.0	4,040.1	3.1
Substandard	647.1	0.4	577.1	0.4
Doubtful	2,226.0	1.4	1,463.5	1.1
Loss	68.6	0.0	84.1	0.1
<b>Total loans and advances to customers</b>	<b>156,850.2</b>	<b>100.0</b>	130,076.5	100.0
<b>Non-performing loan and non-performing loan ratio<sup>(1)</sup></b>	<b>2,941.7</b>	<b>1.88</b>	2,124.7	1.63

Note:

(1) Calculated by dividing non-performing loans by total loans and advances to customers.

The Group's non-performing loan ratio increased from 1.63% as of December 31, 2020 to 1.88% as of December 31, 2021. The increase was primarily due to the fact that under the impact of the prolonged and changing pandemic situation, increasing prices of major raw materials for production, adjustment of industrial structure and other factors, the recovery of production and operation of enterprises in the region was slower than expected and the repayment ability of certain loan customers with difficulties in operation and inadequate cash flow decreased accordingly.

<b>Subtotal</b>	<b>5,583.4</b>	4,690.2
<b>Operating lease commitments</b>	—	—
<b>Capital commitments</b>	<b>3.2</b>	1.4
<b>Total</b>	<b>5,586.6</b>	4,691.6

Notes:

- (1) Bank acceptances refer to the Group's undertakings to pay bank bills drawn on its customers.  
 (2) The Group issues letters of credit and guarantee to third parties to guarantee its customers' contractual obligations.

Off-balance sheet commitments increased by 19.1% from RMB4,691.6 million as of December 31, 2020 to RMB5,586.6 million as of December 31, 2021. The increase in off-balance sheet commitments was primarily due to the increases in business volume of bank acceptances and letters of credit, partially offset by the decrease in business volume of letters of guarantee.

## Chapter 4 Management Discussion and Analysis

### 4.5 Risk Management

#### (a) Risk Management of the Bank

The Bank is committed to building a comprehensive risk management system to eliminate the impact of various uncertainties on the Bank's strategy and business objectives. The Bank's comprehensive risk management has a hierarchical structure. As the highest decision-making body of the risk management structure, the Board is responsible for establishing and maintaining an effective comprehensive risk management system. The Bank has established a sound risk management system. Risk management procedures are adopted at all managerial levels and good risk management culture is cultivated to achieve the objectives of risk management. The Bank is subject to the following major risks, including the credit, market, operating, liquidity, reputational, legal and compliance, IT, money laundering and terrorist financing risks.

##### (i) Credit risk management

Credit risk is the risk of loss related to failure by a debtor or counterparty to meet its contractual obligations or to changes in their credit ratings. The Bank's credit risks arise mainly from corporate loans, personal loans and treasury operations.

The Bank's credit risk management organization includes its president and risk management committee, credit approval committees and its risk management, front desk business, internal audit department and persons-in-charge of branches and sub-branches.

The Bank prepares annual credit approval plans, credit limit plans and credit policies based on national and regional economic development plans, financial market conditions, austerity requirements, its asset and liability structure and deposit and loan growth trends.

The Bank uses the following mechanisms to manage credit risks:

- Customer screening mechanism — The Bank determines the target customers based on its market positioning and screen credit customers based on its credit policies.

## Chapter 4 Management Discussion and Analysis

- Credit exit mechanism — The Bank regularly reassesses its outstanding credit risk based on customer, industry and market conditions. The Bank reassesses the credit rating for short-term loans if there are interest payment defaults. The Bank reassesses the credit rating for medium and long-term loans annually. The Bank also adopts measures to manage potential credit risk, including increasing the frequency of post-disbursement examination, requesting additional collateral or guarantees, and ceasing to extend new loans. The Bank determines whether or not to exit a credit based on the severity of adverse changes in the borrower's circumstances, such as its (i) financial condition; (ii) substantial shareholders; (iii) key managers and technicians; (iv) customers quality; (v) payment ability; and (vi) business environment.
- Risk alert mechanism — The Bank continually monitors outstanding credit and overall credit quality. The Bank carries out standardized management of risk alerts through the use of the post-disbursement management function of its credit system and promptly provides advice to deal with the issue.
- Non-performing asset disposal mechanism — The Bank has established an accountability mechanism for the disposal of non-performing assets.

The Bank has established a system to manage the provision of corporate and personal loans. As part of this system, the Bank has taken measures to improve credit risk management, including risk identification and monitoring policies and dividing responsibilities among its credit investigation, approval and execution departments. The Bank also sets departmental authorization limits and monitors the use of loans.

In 2021, the Bank seriously complied with the national financial policies and industrial policies and strictly implemented the regulatory requirements. The Bank further optimized its credit risk management procedures and measures, and strengthened the centralized management of credit risk, so as to effectively improve its credit risk management. Firstly, fundamental work of credit risk management was enhanced. The Bank revised 12 sets of systems including the credit management system, standardized credit management system, management measures of the risk alert system of credit assets in response to the risk management requirements in the new era. Secondly, categorized management and monitoring and early alerts of asset quality risks were adopted in order to proactively identify and promptly mitigate credit risks. In addition, the Bank implemented sound quality management of credit assets in the post-pandemic period and provided guidance on accurate implementation of policy in order to achieve satisfactory results in the control and reduction of non-performing assets. Thirdly, the Bank focused on its principal business to support

## Chapter 4 Management Discussion and Analysis

the development of the real economy. The Bank adjusted its credit policy and effectively determined its credit approval plan accordingly to further refine the credit structure. Fourthly, the Bank further standardized credit management. In order to refine the credit management system, the Bank approved the credit limit scientifically and provide credit in reasonable forms. Overall credit approval policy was adopted and different projects were managed separately. Potential risk of new credit products was assessed in order to determine the appropriate approval criteria. Fifthly, the Bank reinforced the rating management and implemented stringent approval procedures for customers to ensure the quality of new loans. Sixthly, the Bank continued to monitor and analyze significant risk and strictly complied with the prevention and control requirement of significant risks for various businesses. Through effective identification, measurement and monitoring, significant risks were prevented and controlled.

### (ii) Market risk management

Market risk is the risk of loss in on- and off-balance sheet positions arising from fluctuations in market prices due to changes in interest rates, exchange rates and other market factors. The Bank is exposed to market risk primarily through its banking and trading business portfolios. The market risks associated with the banking business portfolio of the Bank include interest rate risk and exchange rate risk. The primary market risks associated with the Bank's trading business portfolio are fluctuations in the market value of trading positions, which are affected by movements in observable market variables, such as interest and exchange rates. The principal objective of the Bank's market risk management is to limit potential market losses to acceptable levels based on its risk appetite while seeking to maximize risk adjusted returns.

The Bank's organizational structure of market risk management includes its front, middle and back offices. The Board of the Bank assumes ultimate responsibility for management of market risk. The Bank's senior management implements market risk management strategies and policies approved by its Board. The Bank's business departments implement market risk management measures in their daily operations.

In 2021, the Bank paid close attention to market changes and further enhanced the market risk management system. Market risks were measured based on sensitive analysis, duration, value at risk (VaR) and other tools. Identification, evaluation and prevention of market risks were further strengthened. The Bank strictly managed market risk limits and continued to monitor transaction limits, stop-loss limits and risk limits. The Bank also provided early warning and took effective measures for potential risks. Based on the results of its regular stress tests, market risk management strategies and methods were adjusted in a timely manner to further enhance the market risk management level.

## Chapter 4 Management Discussion and Analysis

### **(A) Interest rate risk management**

Interest rate risk is the risk of loss to commercial banks due to uncertainty in changes of interest rates. Changes in interest rates may cause changes in the future repricing cash flows of the on- and off-balance sheet operations of the Bank or their discounted values, resulting in a decline in the overall economic value, which in turn may result in losses to the Bank. Based on a variety of sources, interest rate risk can be categorized into re-pricing risk, yield curve risk, benchmark risk and optionality risk. The interest rate risk of the Bank mainly includes re-pricing risk (also known as maturity mismatch risk), which is due to the difference between the maturity dates of assets, liabilities and off-balance sheet positions of the Bank (for fixed interest rate) and the re-pricing period (for floating interest rate). The overall goal of the interest rate risk management of the Bank is to follow the principles of sound risk preference and to ensure the adverse impacts of changes in interest rates on revenue and value of the Bank are controllable. By implementing interest rate risk management, the Bank aims to pursue reasonable revenue under controllable interest rate risk by conducting research and analysis on the trend of interest rate through identification, accurate measurement and continuous monitoring of interest rate risk. The Bank adopts interest rate risk management as an important tool to create profit and increase value.

The Bank has established a governance structure compatible with its interest rate risk management, which comprised the Board and its Risk Management Committee, the senior management and its Asset and Liability Management Committee, departments at the front and middle offices, branches and subsidiaries. Such governance structure is also under the supervision of the Board of Supervisors and subject to audit by the audit department. The senior management is responsible for the specific management of the interest rate risk of the Bank, while the Asset and Liability Management Committee performs relevant functions as authorized by senior management, including the formulation, evaluation, supervision and implementation of interest rate risk preferences and interest rate risk management strategies, policies and procedures. Each management level has clear division of work, ensuring that the interest rate risk management can be carried out independently and effectively with sufficient resources.

In 2021, the Bank continued to adhere to the principle of sound and prudent operation, strengthen the study and assessment on interest rate risk and adopted multiple measures to strengthen the interest rate risk management. Firstly, the internal funds transfer pricing (FTP) system and the loan rate pricing model (RPM) were further improved. The Bank formulated rational pricing strategies and established a comprehensive pricing system to strengthen the interest rate pricing mechanism for more effective allocation of resources and structures. Prevention and control of interest rate risk was further enhanced. Secondly, the Bank set different interest rate shock and stress scenarios to analyze the impact of interest rate fluctuation on its economic values under specific interest rate shock scenarios and measure the potential banking book interest rate risk based on changes in economic values in order to enhance the ability to cope with banking

## Chapter 4 Management Discussion and Analysis

book interest rate risk. Thirdly, the Bank further enhanced the analysis on macro policies and interest rate movement and made use of pricing management tools effectively. The Bank adjusted the assets and liabilities maturity mix reasonably, developed interest rate risk appetite and strategy scientifically and optimized interest rate risk monitoring so to further enhance the risk management standard regarding banking book interest rate, and to enhance its ability to create value. Fourthly, the Bank established an interest rate risk management system in order to satisfy the requirement of the development strategy, risk management ability and return to Shareholders. The Bank will strive to maximize the gains from assets whereby maintaining balance between income, risk and capital.

## Chapter 4 Management Discussion and Analysis

Notes:

- (1) Primarily includes property and equipment, goodwill, other receivables and prepayments, deferred tax assets, repossessed assets, interests in associates and right-of-use assets.
- (2) Primarily includes accrued staff costs, taxes payable and lease liabilities.

The Group uses sensitivity analysis to measure the impact of changes in interest rates on its net profit or loss and equity. The table below sets forth the results of the Group's interest rate sensitivity analysis based on its assets and liabilities as of the dates indicated.

(Expressed in millions of RMB, unless otherwise stated)	As of December 31,			
	2021		2020	
	Changes in net profit	Changes in equity	Changes in net profit	Changes in equity
Increase by 100 basis points	12.1	411.7	(194.5)	(200.1)
Decrease by 100 basis points	(12.1)	(411.7)	194.5	200.1

The sensitivity analysis above is based on a static interest rate risk profile of the assets and liabilities. This analysis measures only the impact of changes in interest rates within one year, showing how annualized net profit or loss and equity would have been affected by the re-pricing of the assets and liabilities within a year. The sensitivity analysis is based on the following assumptions:

- Interest rate movements at the end of each fiscal year apply to non-derivative financial instruments;
- At the end of each fiscal year, an interest rate movement of 100 basis points is based on the assumption of interest rates movement over the next 12 months;
- There is a parallel shift in the yield curve with the changes in interest rates;
- There are no other changes to the assets and liabilities portfolio;
- Other variables (including exchange rates) remain unchanged; and
- The analysis does not take into account the effect of risk management measures taken by the management.

## Chapter 4 Management Discussion and Analysis

Due to the adoption of the aforementioned assumptions, the actual changes in the net profit or loss and equity caused by an increase or decrease in interest rates might vary from the estimated results of this sensitivity analysis.

### **(B) Exchange rate risk management**

Exchange rate risk is the risk of loss to on- and off-balance sheet businesses of the Bank due to adverse changes in exchange rate. The exchange rate risk of the Bank is mainly due to mismatches in the currency denominations of its assets and liabilities and the term structure of foreign exchange transactions. The Bank manages exchange rate risk by reasonable matching the sources and uses of funds. The Bank mainly uses foreign exchange exposure analysis and sensitivity analysis to measure exchange rate risk. It also seeks to minimize the management cost of exchange rate risk and impact of exchange rate fluctuations and to maintain exchange rate risk within a acceptable range by managing risk exposure limits and choosing appropriate transaction currency.

The Bank regulates transactions that have high exchange rate risks and monitor foreign exchange positions on a real-time basis. The Bank chooses transaction currency reasonably and promptly closes positions from major transactions to reduce exchange rate risk effectively. The Bank revalues non-monetary balance sheet items and non-monetary items at fair value daily to enhance the management of foreign exchange assets and liabilities, and pays attention to the effect of accounting translation exchange rate risk on the profit and loss. The Bank has continued to strengthen its exchange rate risk management and ensured the reasonable use of foreign exchange funds to further improve its risk management of foreign exchange exposure. The Bank duly considers the effect of exchange rate changes on revenue for the current period to proactively regulate potential systematic risks. The exchange rate risk management level of the Bank can be extensively improved.

### **(iii) Operational risk management**

Operational risk refers to the risk of loss caused by incomplete corporate governance structure, defective internal control procedures, failures of employees and IT systems or external events. Operational risk events include risk of internal and external fraud, risk relating to customers, products and operations and risk of errors and malfunctions of IT systems.

## Chapter 4 Management Discussion and Analysis

The Board of the Bank bears ultimate responsibility for operational risk management and reviewing operational risk policies. The Bank's senior management is responsible for coordinating daily operational risk management. The Bank's legal compliance department leads the management of operational risks and is responsible for the daily monitoring, identification, evaluation and control of operational risks and reporting to senior management. The risk management department, all business departments, branches and sub-branches are integral to the Bank's operational risk management framework. The Bank manages and controls operational risks through reporting, balancing authority and supervision systems.

In 2021, the Bank implemented various measures to continuously optimize the operational risk management and enhance its risk management and control capability. Firstly, the Bank standardized its systems. The operational risk management measures were revised to continuously improve the operational risk management system based on the needs of business development. Secondly, the Bank established a system. The Bank developed the policy management system to further standardize its policy management and facilitate all employees to study and access the policies and rules of the Bank at any time. Thirdly, the Bank modified its contracts. According to the Civil Code, the Bank revised relevant template contracts relating to credit and other businesses in a timely manner. Fourthly, the Bank strengthened its efforts in education. The Bank enhanced the training to all employees, developed the concept of compliance operation and reinforced the implementation of systems in order to strengthen the awareness and proactiveness of all employees in the execution of policies and systems, improve the duty performance of management and enhance the ability of frontline staff in identifying and responding to operational risk. Fifthly, the Bank strengthened its management. The Bank continued to promote its three-year "compliance task" and launched the campaign of "internal control and compliance development year". Various drills were carried out in areas including TSM backup system, firewall and switching of external links, which effectively improved our emergency handling and risk prevention abilities.

### (iv) Liquidity risk

#### (A) Liquidity risk management

Liquidity risk refers to the risk of failure to secure sufficient funds to fulfil payment obligations at reasonable cost and in a timely manner. Liquidity risk is largely affected by external factors such as domestic and international financial conditions, macroeconomic policies, changes in financial markets and competitive strengths of the banking industry. Liquidity risk is also affected by internal factors such as the balance and maturity profile of assets and liabilities, the stability of deposits and ability to obtain financing. The Bank's liquidity risk management aims to establish and continuously improve the strategy, policy and procedure of liquidity risk management system and to specify the organization structure and responsibilities of the relevant functional departments so as to effectively identify, measure, monitor and control liquidity risks. The objective of liquidity risk management is to maintain the balance of safety, liquidity and efficiency of its operation.

The Bank has established an effective liquidity management framework and decision-making system and related procedures. The Board of the Bank bears ultimate responsibility for liquidity risk management, determined the policy, strategy and procedure of liquidity risk management and limit of liquidity risk according to its risk appetite. The Board will review regular reports on the major and potential changes of the Bank's liquidity risks. The assets and liabilities management committee under the senior management is responsible for the implementation of the strategies and policies and procedures of liquidity risk management. The accounting department is responsible for the daily liquidity risk management and to cooperate with relevant function departments to orderly and efficiently manage the liquidity risk management system.

In 2021, adhering to the principle of sound and prudent operation, the Bank strictly implemented the liquidity risk management policy, strengthened risk alert and enhanced the comprehensive analysis on liquidity risk. The liquidity of the Bank remained overall stable. Firstly, the Bank strengthened its systems by revising relevant systems including the Provisional Rules of Liquidity Risk Management (《流動性風險管理暫行辦法》), Management Measures of Liquidity Risk Limit (Provisional) (《流動性風險限額管理辦法(試行)》), Contingency Plans for Handling Liquidity Risks (《流動性風險應急處置預案》), Stress Test Plan for Liquidity Risks (《流動性風險壓力測試方案》) and Provisional Rules of Funding Management (《資金頭寸管理暫行辦法》). The risk management indicator system, funding management, stress test and other aspects were further improved. Secondly, the Bank continuously refined its liquidity risk management system and procedures. The Bank flexibly adjusted its liquidity risk management

## Chapter 4 Management Discussion and Analysis

strategies, further improved its liquidity risk management measures and established a dynamic liquidity coordination mechanism to further strengthen its liquidity risk management capabilities. Thirdly, the Bank enhanced the liquidity risk monitoring management and the analysis of risk early warning. Through closely monitoring risk indicators and limit and accurately identifying, assessing and calculating liquidity risks, the Bank was able to detect risks in a timely manner and implement initiatives in risk prevention and control and mitigation in advance. Fourthly, the Bank conducted stress test for liquidity risk on a quarterly basis by using stress scenarios based on the business types and product features of the Bank. The Bank formulated and improved contingency plan and carried out drills to enhance its ability to handle contingency. Emergencies plan was formulated based on the liquidity gap to manage liquidity risks within controllable level.

### ***(B) Liquidity risk analysis***

The Group funds its loan and investment portfolios principally through deposits from customers. Deposits from customers have been, and the Bank believes that it will continue to be, a stable source of funding. Deposits from customers with remaining maturities of less than one year represented 49.3% and 60.4% of the total deposits from customers as of December 31, 2021 and 2020, respectively.

## Chapter 4 Management Discussion and Analysis

### (v) Reputational risk management

Reputational risk is the risk of negative evaluation of the Bank by stakeholders resulting from the Bank's operations, management, other activities or external events. The Bank's reputational risk management aims to identify, monitor, manage and mitigate reputational risk through the establishment of a proactive, reasonable and efficient reputational risk management mechanism. These efforts allow the Bank to establish and maintain a positive image for its sustainable and steady development.

The Board of the Bank bears ultimate responsibility for reputational risk management. The Risk Management Committee is responsible for providing opinions for the Board to make decisions on reputational risk management. It is also responsible for the control, management, monitoring and evaluation of the Bank's reputational risk management. The senior management is responsible for taking the lead in the reputational risk management of the Bank and implementing the reputational risk management strategies and policies formulated by the Board. The senior management is also responsible for approving systems, methods, operational procedures and handling plans of reputational events related to reputational risk management to ensure smooth and effective operation of the reputational risk management system.

In 2021, the Bank implemented reputational risk management as a long-term and regular task. The Bank strengthened its reputational risk management through various measures in order to enhance the standard of reputational risk management. Firstly, the Bank revised the Administrative Measures on Reputational Risk (《聲譽風險管理辦法》), the Implementation Rules of Public Relations Management (《輿情管理工作實施細則》) and the Reporting System of Significant Events (《重大事項報告制度》), etc., which set out clear division of duties and optimized the management system. A regular investigation and monitoring system for public relations was established in order to discover and identify reputational risks in a timely manner. The Bank also optimized response plan for various kinds of contingency and established early warning mechanism and procedures, assigned tasks for handling contingencies and set up reporting channels in order to strengthen the capability for, and level of, coping with contingency. ## Chapter 5 Report of the Board of Directors

### XXIII. Management Contract

Save for the service contracts entered into with the Directors, Supervisors and senior management members of the Bank, the Bank has not entered into any other contract with any individual, company or body corporate in relation to the management or administration of the whole or any substantial part of any business of the Bank.

### XXIV. Interests of Directors and Supervisors in Competing Businesses

None of the Directors and Supervisors has any interest in a business that competes, or is likely to compete, either directly or indirectly, with the business of the Bank under Rule 8.10(2) of the Hong Kong Listing Rules.

### XXV. Corporate Governance

The Bank is committed to maintaining a high level of corporate governance. Details of the Group's corporate governance are set out in the section headed "Corporate Governance Report" of this annual report.

### XXVI. Connected Transactions

Pursuant to Chapter 14A of the Hong Kong Listing Rules, transactions between the Bank and its connected persons (as defined in the Hong Kong Listing Rules) will constitute connected transactions of the Bank. However, such connected transactions can be exempted from compliance with relevant reporting, annual review, announcement and independent shareholder approval requirements under Chapter 14A of the Hong Kong Listing Rules. The Bank has reviewed all the connected transactions and confirmed that it has complied with the disclosure requirement under Chapter 14A of the Hong Kong Listing Rules.

The definition of connected persons under Chapter 14A of the Hong Kong Listing Rules is different from the definition of related parties under International Accounting Standard 24 "Related Party Disclosures", and its interpretations by the International Accounting Standards Board. The details of the related party transactions conducted by the Bank in the ordinary and usual course of business are set out in "Note 49 to the Consolidated Financial Statements" of this annual report. The related party transactions set out in "Note 49 to the Consolidated Financial Statements" of this annual report also constitute connected transactions as defined in the Hong Kong Listing Rules, but none of them constitute a disclosable connected transaction as required by the Hong Kong Listing Rules.

### XXVII. Remuneration Policies for Directors, Supervisors and Senior Management Members

Under the guidance of the relevant policies of the PRC, the Bank endeavors to improve its performance evaluation system for Directors, Supervisors and senior management members.

## Chapter 5 Report of the Board of Directors

The remuneration system for the Directors, Supervisors and senior management members of the Bank adheres to the principle of unifying their responsibilities, authorities and interests, combing incentives and restraints and focusing on both short-term and long-term incentives. The Bank insists on conducting remuneration system reform complementary with the relevant reform and promoting the marketization, monetization and standardization of the income allocation of the Group's senior management.

The Bank offers its executive Directors, employee representative Supervisors and senior management members, who are also the Bank's employees, compensation in the form of salaries, bonuses, social insurances, housing provident fund plans and other benefits. The independent non-executive Directors and external Supervisors receive compensation based on their responsibilities. Please refer to "Note 12 to the Consolidated Financial Statements" in this annual report for the details of the remuneration of the Directors and Supervisors.

The Bank strictly adheres to relevant regulatory provisions when making remuneration payments. The Bank assesses senior management personnel and offers remuneration to them based on the results of the assessment.

### XXVIII. Public Float

During the initial public offering of the Bank's H Shares, the Bank has applied to the Hong Kong Stock Exchange to ask the Hong Kong Stock Exchange to exercise its discretion to waive the requirement under Rule 8.08(1)(d) of the Hong Kong Listing Rules, and the Hong Kong Stock Exchange has granted the Bank a waiver from strict compliance with the requirements under Rule 8.08(1)(a) of the Hong Kong Listing Rules. According to the waiver granted by the Hong Kong Stock Exchange, the minimum public float of the Bank will be the highest of:

- (1) 16.9% of the Bank's total issued share capital;
- (2) such percentage of H Shares to be held by the public immediately after the completion of the global offering (assuming the over-allotment option has not been exercised); and
- (3) such percentage of H Shares to be held by the public immediately after the completion of the global offering (assuming the over-allotment option has been exercised).

Immediately after the issue and allotment by the Bank and the sale by the selling shareholders of the over-allotment Shares due to full exercise of the over-allotment option, the number of H Shares in public hands represents 19.05% of the total issued share capital of the Bank, which satisfies the minimum percentage prescribed in the conditions imposed in the waiver granted by the Hong Kong Stock Exchange from strict compliance with Rule 8.08(1)(a) of the Hong Kong Listing Rules.

## Chapter 5 Report of the Board of Directors

Based on the publicly available information and as far as the Directors were aware, as of the Latest Practicable Date, the public float of H Shares of the Bank was 19.05%, which was in compliance with the requirement specified in the waiver granted by the Hong Kong Stock Exchange.

### XXIX. Tax Relief

#### (1) Withholding and Payment of Enterprise Income Tax for Non-resident Enterprise Shareholders

Pursuant to the Enterprise Income Tax Law of the People's Republic of China (《中華人民共和國企業所得稅法》) and its implementation rules and the relevant regulations, the Bank has the obligation to withhold and pay enterprise income tax at a tax rate of 10% on behalf of the non-resident enterprise Shareholders whose names appear on the H Share register in the distribution of final dividend. As any Shares registered in the name of non-individual Shareholders, including HKSCC Nominees Limited, other nominees, trustees or other organisations and groups, will be treated as being held by non-resident enterprise Shareholders, the dividends received shall be subject to the withholding of enterprise income tax.

Upon receipt of such dividends, a non-resident enterprise Shareholder may apply to the competent tax authorities for relevant treatment under the tax treaties (arrangements) in person or through a proxy or a withholding agent, and provide evidence in support of its status as a beneficial owner as defined in the tax treaties (arrangements). Upon verification by the competent tax authorities, the difference between the tax levied and the amount of tax payable as calculated at the tax rate under the tax treaties (arrangements) will be refunded.

#### (2) Withholding and Payment of Individual Income Tax for Individual Overseas Resident Shareholders

According to the Individual Income Tax Law of the People's Republic of China (《中華人民共和國個人所得稅法》) and its implementation rules and the Announcement of the State Administration of Taxation on Promulgating the Administrative Measures for Tax Convention Treatment for Non-resident Taxpayers (Announcement of the State Administration of Taxation 2015 No. 60) (《國家稅務總局關於發佈〈非居民納稅人享受稅收協定待遇管理辦法〉的公告》 (國家稅務總局公告2015年第60號)) (the "Tax Convention Announcement"), the Bank has the obligation to withhold and pay individual income tax on behalf of the individual Shareholders whose names appear on the H Share register ("Individual H Shareholder(s)") in the distribution of final dividend. However, Individual H Shareholders are entitled to the relevant favourable tax treatments pursuant to the provisions in the tax treaties between the countries (regions) in which they are domiciled and the PRC, and the

## Chapter 5 Report of the Board of Directors

tax arrangements between the PRC and Hong Kong (or Macau). As such, the Bank will withhold and pay individual income tax on behalf of the Individual H Shareholders in accordance with the following arrangements:

- for Individual H Shareholders receiving dividends who are Hong Kong or Macau residents or citizens from countries (regions) that have entered into a tax treaty with the PRC stipulating a tax rate of 10%, the Bank will withhold and pay individual income tax at the rate of 10% in the distribution of final dividend;
- for Individual H Shareholders receiving dividends who are residents from countries (regions) that have entered into a tax treaty with the PRC stipulating a tax rate of less than 10%, the Bank will withhold and pay individual income tax at the rate of 10% in the distribution of final dividend. If relevant Individual H Shareholders would like to apply for a refund of the excess amount of tax withheld and paid, the Bank will handle, on their behalf, the applications for tax preferential treatments under relevant tax treaties according to the Tax Convention Announcement. Qualified Shareholders shall submit in time a letter of entrustment and all application materials as required under the Tax Convention Announcement to the Bank's H Share registrar, Computershare Hong Kong Investor Services Limited. The Bank will then submit the above documents to competent tax authorities and, after their examination and approval, the Bank will assist in refunding the excess amount of tax withheld and paid;
- for Individual H Shareholders receiving dividends who are residents from countries (regions) that have entered into a tax treaty with the PRC stipulating a tax rate of more than 10% but less than 20%, the Bank will withhold and pay individual income tax at the effective tax rate stipulated in the relevant tax treaty in the distribution of final dividend;
- for Individual H Shareholders receiving dividends who are residents from countries (regions) that have entered into a tax treaty with the PRC stipulating a tax rate of 20% or without tax treaties with the PRC or under other circumstances, the Bank will withhold and pay the individual income tax at the rate of 20% in the distribution of final dividend.

Under the current practice of the Hong Kong Inland Revenue Department, no tax is payable in Hong Kong in respect of dividends paid by the Bank. Shareholders of the Bank are taxed and/or entitle to enjoy tax relief in accordance with the aforementioned regulations.

## Chapter 5 Report of the Board of Directors

### XXX. Auditors

As the length of service of ShineWing Certified Public Accountants LLP had reached the maximum pursuant to the requirement of the Ministry of Finance of the PRC regarding the prescribed length of service for an auditing firm, it ceased to be the domestic external auditor of the Bank from the date of the 2020 annual general meeting of the Bank. As considered and approved by the Shareholders at the 2020 annual general meeting, the Bank has appointed CAC CPA Limited Liability Partnership as the auditor for the PRC GAAP financial statements of the Bank for 2021 and will continue to engage SHINEWING (HK) CPA Limited as the auditor for the IFRS financial statements of the Bank for 2021. ## Chapter 6 Report of the Board of Supervisors

In 2021, the Board of Supervisors complied with laws and regulations of the PRC and overseas and related normative documents and the Articles of Associations to perform their supervising duties on the matters related to the strategic development goals and major business of the Bank. It also prudently implemented regulatory requirements, regulated supervisory tasks and monitored major policies and initiatives. The Board of Supervisors diligently performed its supervising role and function through various initiatives in a scientific manner to safeguard the legal interests of the Bank, shareholders, customers and employees.

### I. Summary of the Works of the Board of Supervisors of 2021

**(I) Scientific supervisory structure as supervision basis.** 2021 was the first working year of the fifth session of the Board of Supervisors. The Board of Supervisors is composed of seven Supervisors, three employee Supervisors and four non-employee external Supervisors (including one Shareholder Supervisor). The Board of Supervisors had the Supervisory Committee and the Nomination Committee. Both committees are comprised of three Supervisors and are chaired by external Supervisors. The Board of Supervisors has established an office of the Board of Supervisors. The Board of Supervisors performed their duties in accordance with the Articles of Association and supervised the decision-making on strategies, major business activities and other matters in accordance with laws.

**(II) Performing supervisory duty as top priority.** The Board of Supervisors formulated practical work plan to determine its major tasks and performed the supervisory duties by participating in decision making and supporting business management. Firstly, the Board of Supervisors supported the decision making of operation and carried out supervision throughout the process. The Board of Supervisors fulfilled its duties according to the policy documents and relevant laws and regulations as well as the strategic decisions, business policies and management philosophies of the Board and the senior management. The Board of Supervisors provided reasonable suggestions or supervisory opinions during decision-making process and carried out comprehensive supervision on different affairs throughout the whole process of operation and management. The Board of Supervisors duly supervised the financial positions of the Bank by considering and reviewing the annual financial budget, profit distribution proposals and remuneration packages. The Board of Supervisors also prepared and implemented its plans for the supervision and inspection of the Bank's financial activities. The Board of Supervisors had audited the truthfulness of the operating results for the year and the annual financial statements in accordance with laws and raised its audit opinions. The Board of Supervisors duly supervised the internal control and risk control. The Board of Supervisors assessed the internal control of the Bank through the audit department by focusing on the internal control environment and its measures and effectiveness. The Board of Supervisors duly supervised all aspects of the compliance operation of the Bank with focus on the control systems, asset quality, operation process, validity, legality and risks of new business development to ensure the smooth operation of the Bank. Secondly, the Board of Supervisors attended various meetings to strengthen supervision. In 2021, the Board of Supervisors attended 3 general meetings and class meetings, and assigned Supervisors to attend 7 board meetings. Its duties were performed effectively. Thirdly, the Board of Supervisors carried out supervision on major areas to prevent operational risks. In order to maintain the asset quality at a reasonable level, the Board of Supervisors monitored, organized and coordinated the prevention and solution of credit risk, and urged the operation management to improve the post-loan management as well as the risk prevention and monitoring system.

## Chapter 6 Report of the Board of Supervisors

**(III) Standardizing performance assessment as major task.** Firstly, the Board of Supervisors assessed the performance of the Board and the Directors and the senior management in 2020. The Board of Supervisors standardized the approach, content and procedure for performance assessment of the Directors and senior management. Through investigation and interviews with the Directors and senior management and reviewing various business reports and the work summaries, presentations and work reports of the Directors and senior management, the Board of Supervisors understood their duty performance and conducted scientific and effective performance assessment so as to support their diligent performance. Based on the requirement of performance assessment, the Board of Supervisors conducted objective assessment on whether the business philosophies, values and development strategies were in line with the policies and financial strategies of the government. An assessment report was prepared and submitted to the Shareholders' general meeting. Secondly, the Board of Supervisors performed self-assessment effectively. According to the requirement of the relevant documents and the actual situation of the Bank, the Board of Supervisors coordinated the self-assessment scientifically, which covered 8 aspects, namely organizational structure, supervision and inspection, performance assessment, suggestions and risk alerts, convention of meetings, daily management, system construction and business risk management. An assessment report was prepared and submitted to the Shareholders' general meetings.

**(IV) Conducting in-depth researches to support supervision.** In 2021, the Board of Supervisors actively conducted various researches and provided advice and suggestions in a prudent manner. A regular research system and the research culture were established and researches on employees and customers with selective questions and topics were carried out. Supervisors arranged meetings with the frontline staff and customers to understand the problems in relation to the frontline management, and provided opinions and suggestions to improve the operation and management of the Bank. During the year, based on the development strategies, market positioning and management approach of the Bank, the Board of Supervisors conducted researches selectively on aspects including the marketing strategy, corporate culture, liquidity risk management, anti-money laundering and the support on economic development as well as the major worries and concerns of our Shareholders. Research reports and proposals were then prepared and submitted to the Board and the management in a timely manner as a reference for the business decisions of the Bank.

**(V) Special inspection as a management and control measure.** In order to strengthen the supervision and enhance its efficiency, the Board of Supervisors carried out special inspections to improve the risk management and control of the Bank. The Board of Supervisors fully exercised their rights and responsibilities and further standardized its professional management so as to support the compliance operation and sustainable and sound development of the Bank.

## Chapter 6 Report of the Board of Supervisors

**(VI) Issuing risk alerts as standard procedure.** Based on the daily supervision, the data and information reported monthly by departments of the Bank, study reports and special inspections as well as the report of the audit department, the Board of Supervisors performed the internal control and risk prevention procedure, conducted risk prediction and issued notices of the Board of Supervisors to all management and frontline staff as risk alerts regarding the emerging risks so as to effectively prevent operational risks through the forecast mechanism.

**(VII) The Supervision of external Supervisors as scientific a method.** During the Reporting Period, external Supervisors actively acquired details of operation management of the Bank, issued their opinions and made recommendations on important matters by attending the meetings of the Board of Supervisors, holding meetings of the special committees of the Board of Supervisors, attending the meetings of the Board of Directors or other operation and management meetings and other meetings as observers and conducting collective and independent studies. During the adjournment of the meetings of the Board of Directors and the Board of Supervisors, external Supervisors were able to access various documents and reports of the Bank and promptly made judgement on the findings and came up with solutions. The Board of Supervisors also exchanged views with the Board of Directors and the management.

**(VIII) Strict compliance in daily management.** Firstly, the Board of Supervisors conducted meetings in strict compliance with the rules. During the year, 8 meetings of the Board of Supervisors were convened and 123 resolutions were considered and approved. The Supervisory Committee had convened 4 meetings and approved 62 resolutions. The Nomination Committee had convened 6 meetings and approved 20 resolutions. All of the Supervisors, external Supervisors and Shareholder Supervisor attended meetings in person and provided supervisory opinions and suggestions when reviewing the legality of the resolutions and the decisions made by the Bank. Secondly, the Board of Supervisors actively participated in training courses. In order to improve the theoretical level and practical ability of its members, the Board of Supervisors organized business conferences and training programs for the Supervisors and other officers of the Board of Supervisors regularly to further improve their capability of identifying and preventing different business risks during the operation and management of the Bank. Latest announcements issued by the CBIRC were distributed to all Supervisors during the meetings of the Board of Supervisors to facilitate their understanding of the latest trends. Thirdly, preparation and management of files were standardized. According to the requirement of the filing system, the office of the Board of Supervisors organized, classified and filed relevant documents and information to ensure each category of documents was filed separately, and all paper and electronic documents were filed at the same time. The documentation and filing of the Bank have been further standardized.

## Chapter 6 Report of the Board of Supervisors

### II. Independent Opinions of the Board of Supervisors

**(I) Supervisory opinions on the performance of the Board of Directors and the senior management.** During the Reporting Period, the Board of Directors and the senior management diligently discharged their responsibilities in accordance with the Code of Corporate Governance of Banking and Insurance Institutions and the Articles of Association. The Board of Directors worked together diligently and prudently in respect of the development and major decision making of the Bank and led the Bank to achieve sound development. The senior management continued to improve the planning and implementation of strategies, duly formulated and executed operational measures to ensure the successful completion of the tasks of the year.

**(II) Supervisory opinions on compliance operation.** During the Reporting Period, the operation of the Bank complied with the relevant laws and regulations and the Articles of Association. Operational decisions and the decision-making procedures were legal and effective. Directors and members of senior management reasonably and duly performed their duties with caution during the course of operation and management. No material violation of laws, regulations and the Articles of Association or damage to the interests of the Bank and Shareholders by any Directors or senior management when performing their duties in the Bank was identified.

**(III) Supervisory opinions on the financial report.** SHINEWING (HK) CPA Limited has audited, in accordance with the IFRS, the financial report for the year of 2021 prepared by the Bank under the IFRS and issued a standard unqualified audit report thereon. The Board of Supervisors is of the view that the annual financial report of the Bank gave a true and fair view of the financial position and operational results and there were no material omission or false representation in the financial report.

**(IV) Supervisory opinions on connected transactions.** During the Reporting Period, the Related-party Transactions Control Committee of the Board and the relevant departments managed connected transactions in accordance with the relevant regulations. The identification, review and disclosure of connected transactions were in compliance with the laws and regulations of the PRC and the Articles of Association. No incident of damage to the interests of the Bank was identified.

**(V) Supervisory opinions on internal control.** During the Reporting Period, the Bank established an internal control system and structure comprised of the Board of Directors, Board of Supervisors, senior management, internal control department, internal audit department and business divisions with clear division of responsibilities and reporting lines. There were no material defects concerning the completeness and reasonableness of the internal control system of the Bank.

## Chapter 6 Report of the Board of Supervisors

**(VI) Supervisory opinions on the acquisition and disposal of assets.** During the Reporting Period, as far as the Board of Supervisors is aware, there was no acquisition or disposal of assets of the Bank that would harm the interests of Shareholders or result in any loss of assets of the Bank.

**(VII) Supervisory opinions on the implementation of resolutions of the Shareholder's general meetings.** During the Reporting Period, the Board of Supervisors attended the Shareholders' general meetings and meetings of the Board, and reviewed the resolutions passed by the Board. The Board of Supervisors agreed to the reports and resolutions submitted by the Board for approval in the Shareholders' general meetings during the Reporting Period. The Board of Supervisors has supervised the implementation of resolutions adopted at the Shareholders' general meetings and is of the opinion that these resolutions were duly implemented by the Board of Directors with its responsibility fulfilled and value added. No damage to the interests of the Shareholders was identified.

Instead, they have entered into employment contracts with third-party human resources agencies. They generally serve in non-key positions, such as bank tellers and customer service officers. The Bank and the subsidiaries make advance payments to the third-party agencies, which then pay salaries to and make social security contributions for contract staff.

#### (II) Employee Remuneration

The Group conducts performance evaluations of employees annually to provide feedback on performance. Compensation for full-time employees of the Group typically consists of a base salary and a discretionary bonus. The Group determines employee discretionary bonuses at the end of each year based on employee performance and its results of operations.

## **Chapter 8 Directors, Supervisors, Senior Management, Employees and Organisations**

The Group's full-time employees participate in various employee benefit plans, such as pension insurance, medical insurance, work related injury insurance, unemployment insurance, maternity insurance, housing funds and corporate annuity funds. In addition, the Group provides supplementary medical insurance to its employees.

According to the relevant regulations, the premiums and welfare benefit contributions borne by the Group are calculated regularly on a certain percentage of the remuneration cost and paid to the relevant labor and social welfare authorities. The Group cannot withdraw or utilize its fund contribution made to the defined contribution plans under any circumstance.

### **(III) Employee Training Program**

The Group focuses on employee career development and provide training programs tailored to employees in different business lines. The Bank has built a specific team of internal trainers. The Bank also collaborates with PRC institutions of higher education to recruit and train employees. For example, the Bank has established a training center to enhance employee professional skills. The Bank emphasizes internal employee training. Through internal selection in various ways, the Bank trains outstanding management personnel and provides employees with opportunities to enhance professional knowledge and develop professional skills.

### **(IV) Labor Union**

The Bank and each subsidiary have a labor union established in accordance with PRC laws and regulations. The Bank believes that the Bank and each subsidiary have maintained a good working relationship with its employees. As of the Latest Practicable Date, none of the Bank nor any of the Group's subsidiaries had experienced any labor strikes or other labor disturbances that materially affected the Group's operations or public image.

# Chapter 9 Corporate Governance Report

## I. Corporate Governance Structure

The following chart sets forth the Bank's principal organisational and management structure as of the Latest Practicable Date:

## Chapter 9 Corporate Governance Report

### II. Corporate Governance

#### Overview

The Bank believes that maintaining high standards of corporate governance mechanisms and high quality corporate governance is one of the key factors to improve its core competitiveness and to build a modern rural commercial bank. Therefore, the Bank focuses on high quality of corporate governance, abides by the best domestic and international corporate governance practice, to ensure the rights and interests of Shareholders and improve the value of the Bank.

The Bank has established a modern corporate governance structure in line with the requirements of its Articles of Association, PRC laws and regulations and the Hong Kong Listing Rules. The Board of Directors is accountable to the Shareholders as a whole and is responsible for, among others, determining the Group's business development strategies, business plans and investment proposals, appointing or removing senior management, and deciding matters such as internal management structure. The Board of Directors has established committees to perform specified functions, namely the Strategy and Development Committee, the Related-party Transactions Control Committee, the Remuneration Committee, the Nomination Committee, the Risk Management Committee, the Audit Committee, the Consumer Rights Protection Committee and the Three Rurals Financial Services Committee. The Board of Supervisors is accountable to the Shareholders as a whole and has the responsibility and power to supervise the Directors and senior management and oversee the Group's financial activities, risk management and internal control.

The Bank has incorporated the Code of Corporate Governance and the Corporate Governance Guidelines for Banking and Insurance Institutions (the "Guidelines") issued by the CBIRC into the Bank's governance structure and policies. The Code of Corporate Governance and the Guidelines are well reflected in the Articles of Association and the rules of procedure for the Shareholders' general meeting, meetings the Board of Directors and the committees under the Board of Directors. The Bank's Shareholders' general meeting, the Board of Directors and the Board of Supervisors perform their respective duties and form good corporate governance structure. The Bank closely monitors its operation to ensure it complies with the relevant requirements under applicable laws, regulations, codes, guidelines and the Bank's internal policies.

During the Reporting Period, the Bank has fully complied with substantially all applicable provisions contained in the Code of Corporate Governance, save for the deviation from the former code provision A.5.1 (currently Rule 3.27A of the Hong Kong Listing Rules) requiring that the Nomination Committee shall comprise a majority of independent non-executive Directors. Half of the members of the Nomination Committee under the Board were independent non-executive Directors before the qualification of Mr. Fong Wai Kuk Dennis as Director was approved. The majority of the members of the Nomination Committee of the Bank has been independent non-executive Directors when the qualification of Mr. Fong Wai Kuk Dennis as Director was approved on September 18, 2021, which is in compliance with the former code provision A.5.1 (currently Rule 3.27A of the Hong Kong Listing Rules). The Bank has also strictly complied with the provisions regarding management of inside information required by applicable laws and regulations and the Hong Kong Listing Rules.

## Chapter 9 Corporate Governance Report

The Bank will review its corporate governance and strengthen management constantly to ensure compliance with the Code of Corporate Governance and the Guidelines and meet the higher expectations from its Shareholders and potential investors.

### The Director Nomination Policy and the Board Diversity Policy

The Bank understands and believes that the diversity of the members of the Board of Directors could improve the performance of the Bank. It is critical to have a diversified Board of Directors for the Bank to achieve sustainable development and its strategies and maintain good corporate governance. In respect of appointing the Directors, the Bank will consider their qualifications, skills and experience, and also the diversity of the members in various aspects, including but not limited to gender, age, cultural and educational background, region, professional experience, skills, knowledge, service term and any other factors that the Board may consider relevant and applicable from time to time towards achieving a diverse Board of Directors.

The Nomination Committee of the Board is responsible for reviewing the structure, number of members, and composition (including the skills, knowledge and experience) of the Board of Directors. The Nomination Committee makes recommendations to the Board of Directors relating to the size and composition of the Board of Directors based on the Bank's strategic plans, business operations, asset scale and shareholding structure. The Nomination Committee also discusses and reviews the selection standard, the nomination and appointment process, and makes recommendations to the Board of Directors.

The Board Diversity Policy shall be complied with when the Nomination Committee makes recommendations on the candidates. The Nomination Committee is responsible for monitoring the implementation of the diversity policy and reviewing the policy regularly to ensure its effectiveness. The Nomination Committee will discuss any amendments to the diversity policy and make recommendations to the Board of Directors for approval.

To ensure the effective implementation of the Board diversity policy, the following measurable objectives have been established:

The Board shall ensure that there is no gender limitation in selecting Directors;

At least one third, and no less than three in total, of the Board members are independent non-executive Directors;

Board members shall possess knowledge and skills in different areas; and

At least one Board member is a professional in finance or accounting.

## Chapter 9 Corporate Governance Report

Members of the fifth session of the Board have extensive experience in legal compliance, financial reporting and auditing, strategic management and risk prevention and control, innovative financing and three rural financial services. The diversified composition of members of the fifth session of the Board is as follows:

Sex			Age		
Male	Female		Below 49	50–59	60 or above
9 persons	4 person		3 persons	8 persons	2 persons

Position			Tenure		
Executive Directors	Non-executive Directors	Independent non-executive Directors	Up to 5 years	6–10 years	More than 10 years
3 persons	5 persons	5 persons	8 persons	4 persons	1 person

The Nomination Committee of the Board and the Board consider that the Board members have generally achieved diversity in different aspects.

## **IV. Board of Directors**

The Board of Directors is core to the Bank's corporate governance and is accountable to the Shareholders as a whole. The Board of Director is an independent decision-making body, which is responsible for implementing the resolutions of the Shareholders' general meeting, formulating the Bank's major strategy, policy and development plan, approving the operation plan, investment plan and internal management setup of the Bank, formulating the annual financial budget, final accounts and profit distribution plan and appointing the senior management. The senior management has the rights to make decision in daily operation independently and the Board of Directors will not intervene in specific daily affairs. The Board of Directors is also responsible for the performance of the corporate governance functions pursuant to the Code of Corporate Governance.

## Chapter 9 Corporate Governance Report

The Board of Directors emphasizes similarity in both externality and internality in system establishment and practical operation, making the Board's decision more scientific and reasonable through the establishment of a diversified Board structure, improving the Board's efficiency through the operation of various committees. Constantly strengthening balanced, sound and sustainable development concept, the Board of Directors ensures the rapid, sustainable and sound development of the Bank through effective management of the strategies, risks, capital, compensation and audit.

### (I) Composition of the Board of Directors

As of the Latest Practicable Date, the fifth session of the Board consisted of 13 members, including:

- Mr. Gao Bing (chairman, executive Director)
- Mr. Liang Xiangmin (vice chairman, executive Director)
- Mr. Yuan Chunyu (executive Director, vice president, secretary to the Board and joint company secretary)
- Mr. Cui Qiang (non-executive Director)
- Mr. Zhang Yusheng (non-executive Director)
- Mr. Wu Shujun (non-executive Director)
- Mr. Zhang Lixin (non-executive Director)
- Ms. Wang Ying (non-executive Director)
- Ms. Zhang Qiuhua (independent non-executive Director)
- Mr. Fong Wai Kuk Dennis (independent non-executive Director)
- Ms. Han Lirong (independent non-executive Director)

## Chapter 9 Corporate Governance Report

- Ms. Jin Xiaotong (independent non-executive Director)
- Mr. Sun Jiafu (independent non-executive Director)

The number of Directors and the composition of the Board of Directors are in compliance with applicable laws and regulations. The decision making, authorization and voting procedures strictly follow the relevant rules and regulations of regulatory authorities and the Articles of Association. During the Reporting Period, the Board of Directors discharged its duties diligently, carefully reviewed all matters that were significant to the Bank's future development, improved the Board operation mechanism, strengthened the corporate governance framework, implemented organisational changes, facilitated prudent decision making, ensured operational stability and protected the interests of the Bank and its Shareholders.

### (II) Appointment, re-election and removal of Directors

According to the Articles of Association, Directors shall be elected or removed from office by Shareholders at a Shareholders' general meeting. The term of office of a Director shall be three years, and a Director may be re-elected and re-appointed upon expiry of their term of office. Subject to the relevant laws and administrative regulations, a Director whose term of office has not expired may be removed by Shareholders' ordinary resolution at a Shareholders' general meeting, without prejudice to any claim which may be instituted under any contract.

The term of service of non-executive Directors and independent non-executive Directors shall be the same as that of other Directors and they may be re-elected and re-appointed upon the expiration of their terms of office, provided that such term of office of independent non-executive Directors shall not be more than six years on an accumulative basis.

The Directors' appointment, re-election and removal procedures of the Bank are set forth in the Articles of Association. The Nomination Committee is responsible for discussing and reviewing the qualification and experience of each candidate for Director and recommending the suitable candidates to the Board of Directors. After the approval from the Board of Directors, the selected candidates will be recommended for further approval by the Shareholders at a general meeting. As a banking institution regulated by the CBIRC, the qualification of a candidate for the Bank's Directors shall also be approved by the CBIRC.

### (III) Relationships among Directors, Supervisors and senior management members

The Directors, Supervisors and senior management members of the Bank are not related to one another in respect of financial business, family or other material/relevant relationships.

## Chapter 9 Corporate Governance Report

### (IV) Changes of Directors

For changes of Directors, please refer to the section headed “Directors, Supervisors, Senior Management, Employees and Organisations – II. Changes in Directors, Supervisors and Senior Management Members” of this annual report.

### (V) Operation of the Board of Directors

According to the Articles of Association, the Board of Directors shall convene at least four meetings per year and at least one meeting per quarter. The meetings of the Board of Directors are divided into regular meetings and extraordinary meetings. The regular meetings of the Board of Directors are convened by the chairman and a notice in writing shall be delivered to all Directors and Supervisors 14 days prior to the date of convening the meeting. The notice of extraordinary meeting of the Board of Directors shall be dispatched to the Directors five business days prior to the date of convening the meeting. In emergency circumstances where an extraordinary meeting of the Board of Directors is required to be convened as soon as possible, the notice of meeting may be issued through telephone or other verbal means, but the convener shall give an explanation at the meeting. The meetings (including video conference) of the Board of Directors generally conduct voting by way of a show of hands and voting by registered ballot.

Provided that sufficient protection is ensured for the expression of opinions by Directors, the Directors may pass resolutions at an extraordinary meeting of the Board of Directors by communication voting and the resolutions shall be signed by the participating Directors. The conditions and procedures of communication voting are provided in the Articles of Association and the Rules of Procedure for Meetings of the Board of Directors.

The Board of Directors shall record the decisions on matters considered at the meetings in the minutes of meetings and the participating Directors and the recorder of minutes shall sign on such minutes. Directors attending the meeting are entitled to request an explanation on record to be made in respect of their verbal comments in the meetings.

The relevant senior management members are invited to attend meetings of the Board of Directors from time to time to provide explanations and answer queries from the Directors. In the meetings of the Board of Directors, the Directors may express their opinions freely, and important decisions should be made after detailed discussions. If any Director has a conflict of interest in a matter to be considered by the Board of Directors, the relevant Director shall abstain from the discussion of and voting on the relevant resolution, and such Director shall not be counted as quorum in voting for that particular resolution.

## Chapter 9 Corporate Governance Report

The Board of Directors has established an office as its operating arm, which is responsible for preparation of general meetings, meetings of the Board of Directors and meetings of Board committees, information disclosure and other daily matters.

### (VI) Powers of the Board of Directors

The Board of Directors exercises the following powers:

- (1) to convene general meetings and report its work to the general meetings;

- (16) to propose the appointment or removal of the Bank's auditors to the general meeting;
- (17) to receive the work report and examine the work of the president of the Bank;
- (18) to prepare the operation and development strategy and capital planning of the Bank and monitor the implementation of such strategy; and
- (19) other duties and powers as provided in the laws, rules and regulations and the Articles of Association or conferred by the general meetings.

### (VII) Responsibilities of Directors

During the Reporting Period, all the Directors are prudent, earnest, and diligent to exercise their rights granted by the Bank and domestic and overseas regulatory authorities. The Directors have spent adequate time and effort to deal with the Bank's affairs, ensuring the compliance of the Bank's operation with laws, regulations and the requirements of national economic policies. The Directors have treated all the Shareholders equally, informed themselves of the status of the Bank's business operation and management in a timely manner, and performed other diligence obligations required by laws, administrative regulations, departmental rules and the Articles of Association.

The independent non-executive Directors make full use of their respective professional expertise to provide professional and independent advice on the corporate governance, operation and management of the Bank.

## Chapter 9 Corporate Governance Report

The Bank also pays attention to the ongoing training of Directors, to make sure they have proper understanding of the operation and business of the Bank and the duties and responsibilities authorized by the relevant laws and regulatory requirements and the Articles of Association. The Bank has purchased the director liability insurance for all Directors.

### (VIII) Responsibilities assumed by the Directors in the preparation of financial statements

The Directors have acknowledged their responsibilities in the preparation of financial statements of the Bank for the year ended December 31, 2021. The Directors are responsible for reviewing and confirming the financial statements for each accounting period to ensure that the financial statements truly and fairly reflect the financial conditions, operating results and cash flows of the Bank. In preparing the consolidated financial statements of the Bank for the year ended December 31, 2021, the Directors have adopted appropriate accounting policies which have been applied consistently, and prudent and reasonable judgments have been made. The Directors were not aware of any material uncertainty or circumstances that might have significant effect on the ability of sustainable operation of the Bank.

### (IX) Meetings of the Board of Directors

### (X) Independent Non-executive Directors

The Board of Directors consists of five independent non-executive Directors and the qualification, number and proportion are in accordance with the regulations of the CBIRC, the China Securities Regulatory Commission and the Hong Kong Listing Rules. The five independent non-executive Directors are not involved in any conflict with the independence issue described in Rule 3.13 of the Hong Kong Listing Rules. The Bank has received from each of the independent non-executive Directors the annual confirmation in respect of his independence. Therefore, the Bank confirms that all the independent non-executive Directors have complied with the provisions of the Hong Kong Listing Rules in respect of independence.

The independent non-executive Directors represent the majority of the Bank's Strategy and Development Committee, Audit Committee, Related-party Transactions Control Committee, Risk Management Committee, Nomination Committee and Remuneration Committee. They also serve as the chairman of the Audit Committee, Related-party Transactions Control Committee, Nomination Committee and Remuneration Committee.

The independent non-executive Directors kept in touch with the Bank's management through various means such as attending meetings. They earnestly participated in meetings of the Board of Directors and the Board committees and actively provided their opinions and emphasized the interests of minority Shareholders of the Bank. The independent non-executive Directors have fully discharged their responsibilities.

## Chapter 9 Corporate Governance Report

### (XI) Continuing professional development plan for Directors

All newly appointed Directors have been provided with comprehensive relevant materials at the first time when they were nominated to ensure they have proper understanding of the operation and business of the Bank and fully understand the duties and responsibilities of Directors under the Hong Kong Listing Rules and the applicable laws and regulations.

The Bank has encouraged all Directors to participate in continuing professional development to develop and refresh their knowledge and skills. The Bank will provide briefings on the latest development of the Hong Kong Listing Rules and other applicable regulatory requirements to the Directors from time to time to ensure that the Directors are aware of the latest regulatory development.

### XII. Information Disclosure

The Board of Directors and senior management of the Bank place great importance on information disclosure. They rely on good corporate governance and internal controls to provide timely, accurate and fair information for the investors. During the Reporting Period and up to the Latest Practicable Date, no insider dealing was identified.

In accordance with the requirements of the “Measures for the Information Disclosure of Commercial Banks” and the “Notice on Standardizing the Contents of Annual Reports of Joint Stock Commercial Banks”, the Bank continuously improves the timeliness, accuracy and completeness of information disclosure.

The Bank has also formulated the Measures for Information Disclosure, which provide for the basic principles of information disclosure, including the principles of disclosure of the Bank’s prospectus, offering circulars, listing documents, regular reports and interim reports. The Board of Directors is primarily responsible for the information disclosure of the Bank and the chairman is the primary person-in-charge of the information disclosure of the Bank.

### XIII. Procedures and Regulatory Measures related to Inside Information

The Bank places great importance on insider information management. In order to strengthen relevant confidentiality, maintain fairness with regard to information disclosure and protect the legitimate interest of investors, the Bank has formulated the Measures for Information Disclosure and the Measures for Registration of Insiders and Management of Confidential Information pursuant to applicable laws, regulations, the Hong Kong Listing Rules and other regulatory requirements.

## Chapter 9 Corporate Governance Report

The Bank's Measures for Information Disclosure and the Measures for Registration of Insiders and Management of Confidential Information provide for the scope of inside information and the definition of insiders possessing inside information, detailed requirements on the management of insiders and inside information, confidentiality of such information and sanction measures for divulgence of inside information.

### **XIV. Amendment to the Articles of Association**

The Bank amended the relevant articles of the Articles of Association in relation to its registered capital and share structure to reflect such changes to be made following the completion of the Capitalization Issue. Such amendments were approved by the Shareholders at the annual general meeting of 2020 held on June 18, 2021.

The Capitalization Issue was completed on July 23, 2021. The above amendments were approved by the CBIRC Jilin Bureau on July 26, 2021 and became effective from the same date. For details of the amendments, investors may refer to the circular of the Bank dated May 7, 2021 posted on the website of the Bank ([www.jtnsh.com](http://www.jtnsh.com)) and the designated website of the Hong Kong Stock Exchange ([www.hkexnews.hk](http://www.hkexnews.hk)).

### **XV. Rights of Shareholders**

#### **(I) Convening of extraordinary general meeting at the request of Shareholders**

The Shareholders of the Bank who individually or jointly hold more than 10% of the total voting Shares of the Bank (the "Relevant Shareholders") may request the Board of Directors in writing to convene an extraordinary general meeting (the shareholding percentage shall be calculated based on the shareholding of the Relevant Shareholders on the date when such written request is made). The Board of Directors shall hold an extraordinary general meeting within two months from the date when the Relevant Shareholders make such request.

Where the Relevant Shareholders propose to the Board to convene an extraordinary general meeting, the topic to be considered at the meeting and the proposals with complete contents shall be submitted to the Board in writing. The Relevant Shareholders shall ensure the proposals are in compliance with the provisions of laws, rules and regulations, and the Articles of Association.

For the purpose of any proposal submitted in writing by the Relevant Shareholders to convene a general meeting, the Board shall decide whether to convene such meeting in accordance with laws, rules and regulations, and the Articles of Association. The decision of the Board shall be given to the Relevant Shareholders within 15 days upon receipt of such written proposal.

## Chapter 9 Corporate Governance Report

Where the Board agrees to convene an extraordinary general meeting, a notice of the general meeting shall be given and the consent of the Relevant Shareholders shall be obtained in respect of any changes to the original proposals stated in such notice. After the notice is given, the Board shall neither propose any new proposals nor change or postpone the time for convening the general meeting without the consent of the Relevant Shareholders.

Where the Board does not agree to convene an extraordinary general meeting or does not respond within 15 days upon receipt of the request, the Relevant Shareholders shall have the right to propose to the Board of Supervisors to convene an extraordinary general meeting and make such proposal in writing to the Board of Supervisors. Where the Board of Supervisors agrees to convene an extraordinary general meeting, a notice of the general meeting shall be given within five days upon receipt of such request and the consent of the Relevant Shareholders shall be obtained in respect of any changes to the original proposal stated in such notice.

Where the Board of Supervisors does not give a notice of the general meeting, the Board of Supervisors shall be deemed not to agree to convene and preside over the general meeting. The Shareholders holding more than 10% of the Shares for consecutive 90 days individually or in aggregate may convene and preside over a general meeting.

Where the Shareholders convene and preside over a general meeting due to the failure on the part of the Board to hold such meeting as required, any reasonable expenses incurred shall be borne by the Bank and deducted from any amount due from the Bank to the Directors in default.

### (II) Proposing resolutions at Shareholders' general meetings

When the Bank convenes a general meeting, the Board, the Board of Supervisors and the Shareholders individually or jointly holding more than 3% of the voting Shares of the Bank are entitled to propose new proposals to the general meeting in writing. The Bank shall include in the agenda of the meeting any matters in the proposals that fall within the scope of powers of the general meeting.

The Shareholders who individually or jointly hold more than 3% of the total voting Shares of the Bank may nominate candidates for Directors and Supervisors to the Board of Directors and the Board of Supervisors, respectively, but the number of candidates must be in compliance with the provisions of the Articles of Association and shall not be more than the number of Directors and Supervisors to be elected and appointed.

The Shareholders who individually or jointly hold more than 1% of the total voting Shares of the Bank may nominate candidates for independent non-executive Directors to the Board of Directors and such independent non-executive Directors shall be elected at the general meeting.

## Chapter 9 Corporate Governance Report

A Shareholder who has nominated a candidate for Director shall not nominate any candidate for independent non-executive Director and the same Shareholder can only nominate one candidate for independent non-executive Director. No Shareholder can concurrently nominate a candidate for independent non-executive Director and a candidate for non-employee Supervisor.

The Shareholders who individually or jointly hold more than 1% of the total voting Shares of the Bank may nominate candidates for non-employee Supervisors.

### (III) Making inquiries to the Board of Directors

The Shareholders of the Bank are entitled to supervise the business activities of the Bank, and make recommendations or inquiries to the Board of Directors.

### (IV) Inspection rights of the Shareholders

The Shareholders are entitled to access to the following information in accordance with applicable laws, regulations, departmental rules, normative documents, the relevant requirements of the securities regulatory authorities of the place where the Bank's Shares are listed and the Articles of Association, including:

1. a copy of the Articles of Association upon the payment of cost;
2. a copy of the following documents after a reasonable fee has been paid:
  - a. all parts of the register of members of the Bank;
  - b. the personal information of Directors, Supervisors, president and senior management of the Bank;
  - c. status of the share capital of the Bank;
  - d. reports on the aggregate par value, number, and highest and lowest prices of each class of Shares in relation to any repurchase by the Bank of its own Shares since the last financial year, as well as all the expenses paid by the Bank in relation to such repurchases;

## Chapter 9 Corporate Governance Report

- e. minutes of the general meeting;
- f. special resolutions of the Bank;
- g. the latest audited financial statements and the reports of the Board, auditors and the Board of Supervisors; and
- h. any annual report of the Bank that has been submitted to the State Administration for Industry & Commerce of China or other competent authorities for filing.

In accordance with the requirements of Hong Kong Listing Rules, the Bank shall make the documents referred to in items (a), (c), (d), (e), (f), (g) and (h) available for free inspection by the public and Shareholders of H Shares at the address of the Bank in Hong Kong, of which the documents referred to in item (f) shall be available for inspection by Shareholders only.

Copies of minutes of the meetings will be available for inspection by the Shareholders free of charge during the office hours of the Bank. If any Shareholder makes a request to obtain a copy of the relevant minutes from the Bank, the Bank shall send a copy of the requested minutes within seven days upon the receipt of a reasonable fee. The Bank may refuse to provide any documents if such documents or the copies thereof requested involve any business secrets and/or include inside information of the Bank.

Where a Shareholder of the Bank requests to review the relevant information above, such Shareholder shall provide written document to prove that he possesses any Shares of the Bank and the Bank shall make available such information required by the Shareholder after the identity of such Shareholder has been proved.

# Chapter 10 Risk Management, Internal Control and Internal Audit

## I. Overview

The Group emphasizes prudent business management and believes that effective risk management and internal control are critical to its sustainable business growth:

- The Bank has established a comprehensive risk management system covering its front, middle and back offices and all business procedures to monitor, evaluate and manage the risk exposure of its business activities. The Group has adopted different risk management strategies based on the risk characteristics of different industries. In particular, for sensitive industries such as real estate, the Group has adopted more stringent management measures and optimized its credit structure to lower concentration risks.
- As a separate legal entity, each subsidiary has established risk management and internal control systems in accordance with applicable regulatory requirements.

The Bank actively participates in formulating the risk management policies and strategies of the subsidiaries through the nomination of representatives to serve on their respective board of directors. The Bank also assists each subsidiary in formulating and reforming its risk management measures and processes, and supervises and monitors the implementation of the risk management measures and processes by sending or designating risk management personnel to each subsidiary or through the management department of village and township banks.

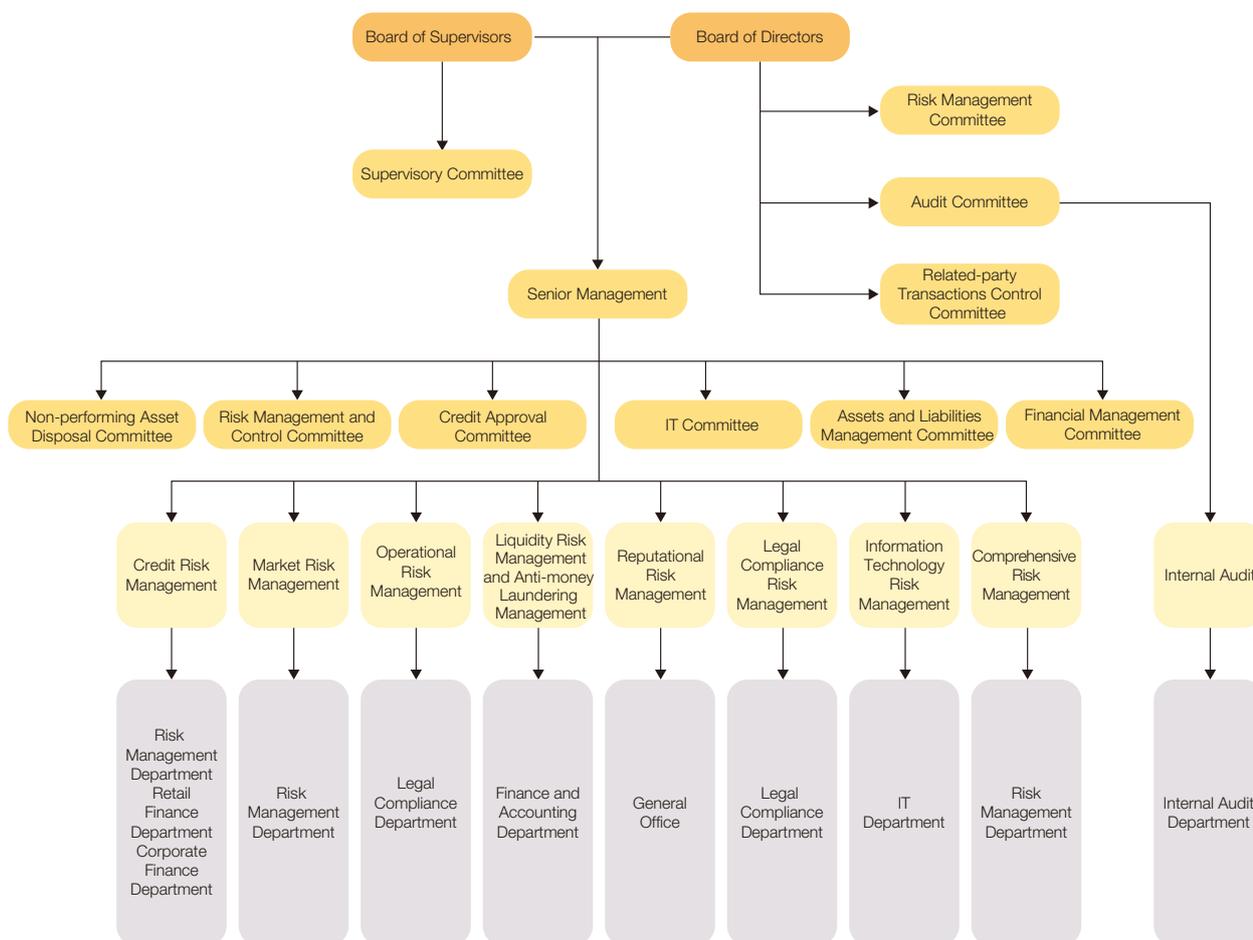

The risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable but not absolute assurance against material misstatement or loss.

## Chapter 10 Risk Management, Internal Control and Internal Audit

### II. Risk Management and Internal Control of the Bank

#### (I) Organisational System

As of the Latest Practicable Date, the organisational structure of the Bank's risk management was as follows:

## **Chapter 10 Risk Management, Internal Control and Internal Audit**

### **Board of Directors and special committees of the Board of Directors**

The Board of Directors is ultimately responsible for risk management and internal control of the Bank. The Board of Directors is responsible for (i) determining the Bank's overall risk appetite and risk tolerance level; (ii) approving risk management strategies, policies and procedures; (iii) requiring senior management to take necessary risk response measures; and (iv) monitoring and assessing the comprehensiveness and effectiveness of the Bank's risk management and internal control. The Bank has also established the Risk Management Committee, Audit Committee and Related-party Transactions Control Committee under the Board of Directors.

#### ***Risk Management Committee***

The Bank's Risk Management Committee is primarily responsible for (i) controlling, managing, monitoring and evaluating risks and assessing its risk management system and internal control system; (ii) proposing risk management strategies, policies and targets for Board's discussion and approval; (iii) reviewing risk management measures; and (iv) reviewing risk management issues and making recommendations to improve its risk management and internal control.

#### ***Audit Committee***

The Bank's Audit Committee is primarily responsible for (i) reviewing its accounting policies, financial position, financial reports, and risk and compliance conditions; (ii) proposing the engagement or replacement of external auditing firms; (iii) supervising its internal audit system; (iv) coordinating internal and external audits; and (v) ensuring the truthfulness, accuracy and completeness of its audited financial information.

#### ***Related-party Transactions Control Committee***

The Bank's Related-party Transactions Control Committee is primarily responsible for (i) identifying related parties and monitoring and reviewing significant connected transactions; (ii) establishing, updating and overseeing the implementation of rules for connected transactions; and (iii) submitting regular reports on connected transactions to the Board of Directors.

## **Chapter 10 Risk Management, Internal Control and Internal Audit**

During the Reporting Period, through the strengthening of bottom line thinking and in pursuit of synchronized improvement in business scale, quality and efficiency, the Bank promoted comprehensive risk management to ensure steady operation. In addition to license management and classified management, the Bank also implemented risk pre-warning and reporting system to constantly regulate its operation and management activities. Furthermore, it strengthened the inspection of key business lines to prevent and mitigate various risk exposures. Employee education and training programs were conducted, which effectively enhanced the competence of staff and their awareness of internal control and compliance. The supervisory functions of the business management departments, legal and compliance department and audit department in internal control were improved, which set up a supervision and inspection system covering all levels of institutions, different products and business procedures.

According to the regulatory requirements, the Board of Directors of the Bank conducts evaluation on the effectiveness of risk management and internal control on an annual basis. During the Reporting Period, the Bank maintained effective and adequate risk management and internal control in all material respects, and the Board of Directors was not aware of any significant or material defects in risk management and internal control.

### **Board of Supervisors and its Supervisory Committee**

The Board of Supervisors monitors the compliance of the Board of Directors and senior management of the Bank with laws, regulations and internal policies related to risk management. It also examines and supervises the financial activities and internal control of the Bank. Additionally, the Board of Supervisors conducts departure audits on executive Directors and senior management.

The Supervisory Committee of the Board of Supervisors draws up supervisory plans for financial activities and conducts related inspections. It also oversees the implementation of the Bank's operating philosophy and development strategies. Additionally, the Supervisory Committee monitors and inspects the Bank's operational decisions, risk management and internal control while performing other duties as authorized by the Board of Supervisors.

### **Senior management and its special committees**

Senior management implements risk management policies, strategies, plans and any policies determined by the Board of Directors and coordinates risk management activities. With the assistance of other senior management personnel, the Bank's president is ultimately responsible for risk management at the senior management level and reports directly to the Board of Directors.

## **Chapter 10 Risk Management, Internal Control and Internal Audit**

The Bank has established six special committees with risk management functions, namely the Risk Management and Control Committee, Credit Approval Committee, IT Committee, Assets and Liabilities Management Committee, Financial Management Committee and Non-performing Asset Disposal Committee. These committees work together to organize, coordinate and review measures for risk management and their implementation.

### ***Risk Management and Control Committee***

The Bank's Risk Management and Control Committee is primarily responsible for (i) monitoring the daily risk management and internal control activities of the Bank; (ii) regularly assessing overall risk status of the Bank; and (iii) making recommendations for the improvement of risk management and internal control.

### ***Credit Approval Committee***

The Bank's Credit Approval Committee is mainly responsible for (i) reviewing and approving extension of credits; (ii) providing market knowledge for authorized approval officers; and (iii) ensuring the appropriate check and balance of approval rights exercised by authorized approval officers. The Credit Approval Committee reviews any credit business that exceeds the approval authority of vice presidents.

### ***IT Committee***

The Bank's IT Committee is responsible for (i) reviewing the IT development plans of the Bank; (ii) reviewing and coordinating work plans for IT development; (iii) evaluating information technology management standards, data standards and information management specifications; (iv) reviewing approvals and system requirements for bank-wide informatization development projects; (v) coordinating the development, testing and maintenance of IT systems; and (vi) reviewing the development plans and policies for information safety management system.

### ***Assets and Liabilities Management Committee***

The Bank's Assets and Liabilities Management Committee is primarily responsible for (i) centralized management of the size, structure and proportion of the Bank's asset and liability businesses; (ii) making appropriate adjustments to risk asset management plans in accordance with the Bank's business development strategies; and (iii) evaluating the Bank's internal and external pricing policies and strategies, pricing management mechanism and liquidity management system.

## **Chapter 10 Risk Management, Internal Control and Internal Audit**

### ***Financial Management Committee***

The Bank's Financial Management Committee is responsible for (i) monitoring the implementation of the national policies and regulations; (ii) overseeing the accuracy, timeliness, truthfulness and completeness of financial information; (iii) evaluating the Bank's financial condition and operating performance; (iv) reviewing the financial inspections of the Bank by external institutions and preparing appropriate remediation plans; and (v) reviewing fixed asset purchases, construction and leasing as well as the feasibility of other bulk purchase plans.

### ***Non-performing Asset Disposal Committee***

The Bank's Non-performing Asset Disposal Committee is mainly responsible for: (i) assessing the compliance and feasibility of non-performing asset disposal proposal; (ii) conducting examining and risk assessment on the authenticity and necessity of disposal of non-performing asset; and (iii) being the Bank's approving and decision making authority of non-performing asset disposal.

### ***Risk Management Department***

A number of the Bank's business departments, such as the Risk Management Department, the Legal Compliance Department, the Corporate Finance Department and the Retail Finance Department, are also involved in the Bank's daily risk management.

## **(II) Risk Management System**

### **1. Authorization management system**

The Bank has established the Measures for Authorization Management to grant the annual basic authorization for the operation, finance, human resources and other affairs of the general and ordinary business within its statutory scope of business. The Bank may also grant a temporary special authorization for any businesses that exceed the scope of basic authorization, special financing business and new businesses. While the Bank's headquarters grants an authorization directly to specific personnel, such authorized personnel may delegate authority to other personnel within their scope of authority after proper approvals or reporting have been made.

The Bank grants and properly adjusts authorizations to different authorized personnel in accordance with their operational management performance, management role and employment status. The businesses and other affairs that are beyond the scope of authorization of the relevant personnel shall be reported to and obtained approval from the higher level pursuant to the Measures for Authorization Management.

## Chapter 10 Risk Management, Internal Control and Internal Audit

### 2. Credit management system

The credit management system of the Bank has the following features:

- **Credit management for all credit customers:** in accordance with the CBIRC's requirements, the Bank determines the credit limit for each customer primarily based on factors such as (a) the operational and financial condition and repayment history of borrowers, (b) the intended purpose of loans, and (c) the collateral or guarantees for loans.
- **Strengthening uniform credit management for group customers:** in order to identify and control concentration risks arising from group customers, the Bank does not extend credit to any group customer in excess of 15% of its regulatory capital. The Bank uniformly determines the overall credit limits for group customers to prevent parallel credit extension from multiple branches.
- **Separate systems for credit examination and approval:** the investigation, assessment and decision of the Bank's credit business are carried out by different departments and personnel.
- **Strengthening the management of credit business procedures:** the Bank has formulated specific administrative measures for each stage of credit extension.
- **Strengthening the management of the acceptance business:** the Bank has formulated specific administrative measures for its acceptance bill business, discounted bill business and other bill businesses to ensure that its acceptance business complies with applicable laws and regulations and to prevent the use of false trading information or the use of loan proceeds for security deposits.
- **Strengthening the management of loan classifications:** the Bank has established refined loan classification measures based on the loan risk classifications formulated by the CBIRC to precisely evaluate its credit risks.
- **Strengthening the management of corporate customers:** the Bank has formulated a sophisticated management system for credit ratings of corporate customers to evaluate credit risks for each type of corporate customers.

## Chapter 10 Risk Management, Internal Control and Internal Audit

- **Strengthening the risk awareness of employees:** the Bank has formulated stringent punishment measures targeted on the non-compliance with regulations and disciplines by working staff, as well as the punishment measures for the issues identified in its internal audits to increase the initiative of all employees to strictly implement the policies and rules relevant to risk management.

### (III) Management of Different Types of Risks

The Bank has paid close attention to the development trend and directional changes of various risks and continued to improve its comprehensive risk management system, which effectively enhances its risk management ability.

For details of the management of various risks including credit, market, operating, liquidity, reputational, legal and compliance, and information technology risks, and anti-money laundering management, please refer to the section headed “Management Discussion and Analysis — 4.5 Risk Management — (a) Risk Management of the Bank” of this annual report.

### III. Risk Management and Internal Control of Subsidiaries

As a separate legal entity, each subsidiary of the Bank has established risk management and internal control systems, in accordance with applicable regulatory requirements. The Bank participates in formulating the risk management policies and strategies of each subsidiary through the Bank’s Board representatives. The Bank supervises and monitors the implementation of the risk management processes of its subsidiaries by sending or designating risk management personnel and through the management department of the Bank’s village and township banks.

#### (I) Organisational System

Each subsidiary has established a multi-layer risk management organisational system that primarily consists of (1) the Board of Directors that is ultimately responsible for risk management, (2) various special committees under the Board of Directors, which are responsible for proposing risk management strategies, policies and targets and reviewing accounting policies, financial reports and risk and compliance conditions, (3) the Board of Supervisors, which is primarily responsible for monitoring the compliance by the Board of Directors and senior management with risk management laws, regulations and internal policies, and (4) senior management and various special committees, which are responsible for implementing the risk management policies, strategies, plans and any policies determined by the Board of Directors and coordinating risk management activities.

## **Chapter 10 Risk Management, Internal Control and Internal Audit**

### **(II) Management of Different Types of Risks**

For details of the management of various risks including credit, market and operating risks of each subsidiary, please refer to the section headed “Management Discussion and Analysis — 4.5 Risk Management — (b) Risk Management of the Subsidiaries” of this annual report.

#### **(I) Internal Audit of the Bank**

For details regarding the internal audit of the Bank, please refer to the section headed “Management Discussion and Analysis — 4.5 Risk Management — (a) Risk Management of the Bank — (ix) Internal audit” of this annual report.

#### **(II) Internal Audit of Subsidiaries**

Each subsidiary has designated auditors who perform the functions of audit, supervision, assessment and consultation independently.

### **V. Regulation of the Bank’s Inside Information**

The Bank attaches great importance to information disclosure and inside information management. In order to strengthen the inside information and confidentiality work, safeguard the fairness of information disclosure and protect the legitimate rights and interests of investors, the Bank has formulated the Measures for Information Disclosure (《信息披露制度》) and the Measures for Registration of Insiders and Confidentiality of Relevant Persons Possessing the Bank’s Inside Information (《内幕信息知情人登記管理及保密制度》) in accordance with the PRC Company Law, the PRC Securities Law, the Hong Kong Listing Rules, and other applicable laws, regulations and normative documents. The following aspects are clearly provided for in the Measures for Registration of Insiders and Confidentiality of Relevant Persons Possessing the Bank’s Inside Information, including the coverage of the information that involves the Bank’s operation and finance, or that may have significant impact on the market prices of the Bank’s Shares and that has not been publicly disclosed on the information disclosure media designated by securities regulatory authorities, and the scope of insiders. In addition, the Bank has specified in detail the management of insiders and confidential information and the penalties for violating the internal measures governing insiders and inside information.

## Chapter 10 Risk Management, Internal Control and Internal Audit

In accordance with the Measures for Registration of Insiders and Confidentiality of Relevant Persons Possessing the Bank's Inside Information, the Office of the Board of Directors shall maintain a complete list of the persons that are involved in preparing, circulating, reviewing and disclosing the inside information of the Bank before such information is formally disclosed. The details of registration include the identities of insiders, number of their securities accounts, relationship between the insiders and the Bank, and timing and method of obtaining the inside information. The Office of the Board of Directors shall also conduct regular and ad hoc inspections of the securities transactions between the insiders and the Bank.

The Bank carries out information disclosure strictly according to regulatory requirements. In the Measures for Information Disclosure, the Bank has clearly defined the basic principles of information disclosure and the disclosure rules. In addition, the Bank has specified that the Office of the Board of Directors is responsible for developing and implementing the Measures for Information Disclosure, the Bank's chairman is the first responsible officer responsible for implementing the Bank's information disclosure system, the secretary to the Board of Directors is the designated contact person between the Bank and the CBIRC or its agencies, and the company secretary is responsible for submitting the required documents to the Hong Kong Stock Exchange. The Board of Supervisors is responsible for supervising the Bank's information disclosure and reporting to the general meeting of the Bank and the competent regulatory authorities about irregularities related to information disclosure involving the Bank's Directors, president or senior management.

# Chapter 11 Environmental, Social and Governance Report

## 1. About this Report

This Environmental, Social and Governance Report (the “ESG Report” or this “Report”) of Jilin Jiutai Rural Commercial Bank Corporation Limited (the “Bank”) and its subsidiaries (the “Group” or “we”) summarizes the efforts in fulfilling our social responsibilities as well as the environmental and social performance (please refer to Appendix I: Sustainability Data Statements) in pursuit of sustainable development and operation.

### Scope of Reporting

This Report elaborates the environmental and social performance of the core business of the Group from January 1, 2021 to December 31, 2021 (the “Year” or the “Reporting Period”). Key performance indicators have been consolidated in this Report in order to quantify the performance of the Group and reflect various aspects of its business development to stakeholders. Unless otherwise specified, this Report covers the businesses directly controlled by the Group, while the key environmental performance indicators include the Bank and its 35 subsidiaries.

### Reporting Guidance

This Report was prepared in accordance with the Environmental, Social and Governance Reporting Guide (the “Guide”) as set out in Appendix 27 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited issued by The Stock Exchange of Hong Kong Limited, the covering scope of which is in compliance with the “comply or explain” provisions and four reporting principles of “materiality, quantitative, balance and consistency” under the Guide. Readers can refer to the last section of this Report, ESG Reporting Guide Index, for quick reference. For details of corporate governance, please refer to the section headed “Corporate Governance Report” of this annual report of the Bank, which should be read in conjunction with this ESG Report in order to have a thorough understanding of the environmental, social and governance (“ESG”) practices of the Group.

**Materiality:** This Report has identified and disclosed the process and criteria for material ESG issues, and the process and results of engagement of substantial stakeholders and stakeholders.

**Quantitative:** This Report has disclosed the statistical standards, methodologies, assumptions and/or calculation tools used, and source of conversion factors for the reporting of key performance indicators.

**Balance:** The content of this Report reflects objective information, and discloses both positive and negative indicators.

## Chapter 11 Environmental, Social and Governance Report

**Consistency:** The statistical methodologies used for data disclosure in this Report are consistent with previous years. Any changes to the methods or key performance indicators, or any other relevant factors affecting a meaningful comparison will be clarified in the this Report.

### Reporting Language

This Report is published in both Traditional Chinese and English. In the event of any discrepancy between the two versions, the Traditional Chinese version shall prevail.

### Report Approval

Upon confirmation by the management, this Report was considered and approved by the Board of Directors on March 30, 2022.

### Feedbacks

Your opinions on this Report are highly valued by the Group for continuous improvement of the disclosure in future reports. If you have any inquiry or suggestion, please email to the following address: jtnsyh@126.com.

## 2. Sustainable Development Management

### 2.1 Statement of the Board of Directors

The Group firmly believes that enterprises play a significant role in social development. We regard ESG management as part of the Group's responsibility and strive to take into account ESG in our decision-making process, in an effort to balance business development and corporate social responsibility. The Board of Directors is ultimately responsible for the Group's ESG matters. We have established an ESG governance structure, under which the ESG Task Force is set up to take full charge of the review of ESG strategies, material issues, risk management and performance. The progress in achieving environmental goals is also regularly reviewed to ensure quality and sustainable development.

### 2.2 Sustainable Development Strategies

The Group has stepped up its efforts to implement its existing development plans and actively assumed its responsibility for social and economic development as part of its commitment to promote social green development and prosperity of the community. Through adopting inclusive finance and carrying out the rural revitalization strategy, we have also contributed to the innovative, coordinated, green, open and shared development of the community.

## Chapter 11 Environmental, Social and Governance Report

We have formulated the Sustainable Development Policy to clearly implement the objectives and management policy of sustainable development. The policy covers five major areas, including environmental protection, operation management, employee interests, community investment and stakeholder engagement, which helps to promote the engagement of our business and stakeholders in sustainable development.

### 2.3 Environmental, Social and Governance Task Force

Based on the ESG practices of the Group, we have set up a comprehensive ESG governance structure. Under the leadership of the Board of Directors, we have established the Environmental, Social and Governance Task Force (“ESG Task Force”) to carry out ESG work and integrate sustainable development into our daily operation.

We have adopted a top-down management approach to promote and implement various ESG policies. With the Board of Directors and senior management serving as the decision-makers, the ESG Task Force serves as the organizers while the relevant departments and branches of the Bank serve as the administrators. Under the authorization of the Board of Directors, the ESG Task Force comprises the Office of the Board of Directors and heads of relevant departments to effectively perform its functions.

### 2.5 Materiality Evaluation

To further determine the key areas of ESG practices and disclosure of the Group, we have focused on making references to the disclosure obligations under the Guidelines issued by the Stock Exchange and materiality database of relevant industries of Sustainability Accounting Standards Board (SASB), and performed interbank benchmarking to consider common and material topics of the banking industry. We have also compared the prevalence of such topics in the banking industry and the Group's operation and ultimately summarized 23 material topics applicable to the business of the Group, including 10 topics of high materiality, 11 topics of moderate materiality and 2 topics of general materiality. This Report will focus on elaborating on the following topics to reflect our ESG contribution.

### 3. Strengthening Compliance Operation

Compliance operation is the cornerstone of the Group's steady development. In strict compliance with relevant laws and regulations such as the Commercial Banking Law, and relevant policies, we have regulated various business management activities. According to relevant regulatory requirements, we have also taken our primary responsibility to establish a compliance management organizational system through coordination and joint management of the Board of Directors, Board of Supervisors, senior management and all departments. The Bank has proactively promoted and performed compliance obligation in its daily operation. It has established a regular supervision and inspection mechanism and formulated the Compliance Inspection Policy (《合规检查制度》) to inspect the compliance of major aspects, levels, procedures and key areas of operation and management of various departments and branches, so as to ensure that its operating activities comply with laws, regulations, regulatory requirements and internal procedures.

## Chapter 11 Environmental, Social and Governance Report

### 3.1 Prevent Operational Risks

The Group has implemented a robust risk management mechanism. During the Reporting Period, we revised the Provisional Guidelines for Comprehensive Risk Management (《全面風險管理暫行辦法》) to improve risk management, and prevent, control, mitigate and handle risks that have occurred or may occur as well as ESG risks. The Board of Directors has established the Risk Management Committee, Strategy and Development Committee, Audit Committee, Related-party Transactions Control Committee and other committees to provide strategic guidance and development and operation plans for the Bank's business, in order to strengthen risk prevention and control. We have formulated a clear authorized operation management and multi-level risk responsibility mechanism. The responsible persons of the first-level risk management units shall be the chairman and president of the Bank, who are responsible for the risk management of the Bank, while the management of the head office shall be responsible for risks of their respective departments. Each department or branch is subdivided into second-level risk management units according to the organizational structure. The head of each risk management unit shall be the person-in-charge responsible for the risk management of the respective department. We require each department or branch to evaluate the risks encountered in each operating procedure, classify each risk, and formulate operational procedures for risk management. These initiatives ensure that all relevant persons of each procedure are held accountable for risk management, and an operation mechanism is in place for the coordination and effective checks and balances among departments.

We have established a mechanism of three defensive lines to monitor, reduce and eliminate identified risks through solid defensive lines. All business departments and branches are the first defensive line of the Bank, responsible for daily risk management of departments and organizations, including establishing comprehensive risk management awareness, clarifying employees' responsibilities in risk management, identifying various business risks of departments and organizations, implementing various risk prevention and control measures, and promoting the Bank's risk management philosophy. The Risk Management Department, Legal and Compliance Department and other relevant departments are the second defensive line for our comprehensive risk management. These departments are responsible for coordinating and supervising the overall risk management of the Bank, leading the daily management of risks and reporting issues related to risk management to the senior management for consideration. The audit department is our third defensive line. As an independent department managing and supervising risks, the Audit Department reports directly to the Audit Committee and the Board based on the principles of independence and objectivity, and is primarily responsible for formulating internal audit procedures, assessing risk exposures and management and implementing audit work plans for the Year.

## Chapter 11 Environmental, Social and Governance Report

The Group regards anti-money laundering and anti-terrorism financing management as one of the essential components for its comprehensive risk management system. Our employees are required to strictly abide by the Anti-Money Laundering Law of the PRC (《中華人民共和國反洗錢法》), Provisions on Anti-money Laundering of Financial Institutions (《金融機構反洗錢規定》), Guidelines for the Risk Management of Money Laundering and Terrorist Financing of Corporate Financial Institutions (《法人金融機構洗錢和恐怖融資風險管理指引》) and Administrative Measures for Reporting of High-value Transactions and Suspicious Transactions of Financial Institutions (《金融機構大額交易和可疑交易報告管理辦法》) and other relevant laws and regulations as well as various requirements of the Bank on anti-money laundering. The anti-money laundering steering group has been established and the Anti-money Laundering Management Measures (《反洗錢管理辦法》) has been in place to ensure the consistent implementation of anti-money laundering management decisions made by the regulatory authorities and the Bank. The Group has adopted a prevention-focused approach and continues to optimize its internal control system to prevent any case of money laundering, corruption and fraud. The Group has also formulated administrative measures on customer identification, customer risk rating, maintaining customer identity information and transaction history, money laundering risk assessment, reporting of high-value transactions and suspicious transactions and other aspects of anti-money laundering.

### 3.2 Creating Culture of Integrity

The Group attaches great importance to the business ethics of all employees and strictly abides by the Commercial Banking Law (《商業銀行法》), Guidelines on Compliance Risk Management of Commercial Banks (《商業銀行合規風險管理指引》) and other laws of the PRC applicable to banking business activities.

Understanding that the creation of culture of integrity is a task demanding long-term and continuous efforts, we comprehensively reviewed our policies and established a sound system in the year. We formulated the Work Plan for Assessing and Inspecting Corruption Risk Exposures (《廉政風險點梳理排查工作方案》) and put great efforts in inspecting corruption risk exposures with the focus on the potential corruption risk exposures arising from the performance of duties of all positions such as transaction management, human resource and property management, financial credit approval, material procurement, bidding and other aspects. We have clearly defined the duties and powers of all positions to determine the number of key positions that may have control on the operation of the Bank. For identified corruption risk exposures, we have formulated corresponding initiatives and reviewed existing policies and measures, so as to regulate the exercise of power, strengthen supervision and create the culture of integrity through stringent supervision, balance of power and accountability system.

## Chapter 11 Environmental, Social and Governance Report

In order to introduce the concept of integrity and compliance and professional ethics to our employees, we strengthened our education and supervision on the management at all levels and formulated the Anti-corruption Education System for Management of All Levels (《各級管理人員廉政談話教育制度》), which enhanced the integrity of our employees. We have adopted the zero-tolerance approach against all unethical business practices such as bribery, extortion and fraud. We have formulated the Employee Compliance Manual (《員工合規手冊》) and the Administrative Measures on the Supervision of Activities of Employees after Eight Hours of Work (《員工八小時以外活動監督管理辦法》) to clearly instill in employees the obligations of being honest and law-abiding. Employees are prohibited from having improper interaction with customers and providing financial services, such as loans, investments, guarantees, financing, settlements, and cash withdrawals, to their relatives, friends and other related persons in violation of regulations.

Moreover, we require cadres and employees of the Group to change any bad habits, and resist extravagant and luxurious ways of celebration. They are also forbidden to accept any gifts or money in the excuse of offering study opportunity for children, and illegally organize “graduation banquets”, “teacher appreciation banquets” and other luxurious celebrations. During festivals, we do not allow the acceptance of banquet invitations, high-end consumption, private use of public vehicles, consumption with public funds, misuse of money and materials, or receipt of valuable gifts. These efforts reflect our commitment to create the culture of integrity at the time of festivals. Through open and discreet investigations, special inspections and random inspections, the Discipline Inspection Department conducts special inspections on key procedures and key areas, such as official receptions, use of business vehicles and dining arrangements, to further deter the employees from committing, attempting and considering corruption.

In order to effectively prevent and control corruption of employees within the scope of business, we have formulated the Anti-corruption Management System (《反舞弊管理制度》) to regulate the guidance and supervision of anti-corruption tasks, prevention and control of corruption, as well as the whistle-blowing, investigation and report of corruption cases. We have also established a comprehensive internal reporting and complaint mechanism and implementation monitoring method for anti-corruption, providing reporting channels for real-name or anonymous whistleblowing through hotline and email. In addition, we have further expanded the supervision platform during the Reporting Period. We have assigned disciplinary supervisors, and announced the whistleblowing hotline and email address to widely collect issue information. We have also adopted methods such as targeted investigation, random inspection and in-depth research to identify problems, and collect opinions and suggestions. If any employee is found to have engaged in any corruption behavior upon investigation, we shall impose corresponding internal economic and administrative disciplinary penalties according

## Chapter 11 Environmental, Social and Governance Report

to the rules. For those involving violation of criminal laws, they shall be handed over to the relevant judiciary authorities according to laws. Moreover, we have reinforced our warning against corruption through education initiatives and further consolidated the prevention of corruption through special case study sessions. During the Reporting Period, the Group organized warning case study sessions with the theme of “promoting rectification by case study” to provide anti-corruption training for Directors and all employees. Through explanation and analysis of typical cases, the serious harm of violation of disciplines and laws was detailed.

During the Reporting Period, we had not discovered any lawsuit against the Group or its employees or any case of corruption, bribery, extortion, fraud and money laundering.

### 3.3 Information Safety Management

We regard business and customer information as important confidential information. In order to regulate the customer information processing rules and procedures for our employees and to protect the privacy of personal information of customers, we have formulated the Management Measures of Data Governance Platform (《數據治理平台管理辦法》), the Management Measures of Keys (《密鑰管理辦法》) and the Employee Handbook (《員工手冊》) according to the Law on Commercial Banks (《商業銀行法》), the Guidelines on IT Risk Management of Commercial Banks (《商業銀行信息科技風險管理指引》) and relevant laws and regulations.

In order to implement our leakage prevention measures for customer information, relevant employees are required to sign the Undertaking of Key Personal Financial Information Confidentiality (《重要崗位個人金融信息保密承諾書》), which stipulates that our employees shall strictly follow the confidentiality commitment during, or after termination of, their employment, duly maintain the filing of customer information and transaction information files, and ensure compliance with laws and regulations in relation to customers’ personal privacy during business operation. In an effort to minimize the risk of customer information leakage, we have classified accessibility of customer information by different user groups, including: terminal users, system developers, system testers, computer operators, system administrators and user administrators. Meanwhile, we have adopted effective measures for the collection, use and storage of personal financial information, including signing confidentiality agreement with customers and establishing an information technology complaint mechanism to safeguard the disclosure and usage of customer information.

## Chapter 11 Environmental, Social and Governance Report

Information technology risk was identified as one of the Group's operational risks to further improve our information safety. Based on our prevention-focused approach and the laws and regulations such as the Regulations on the Security and Protection of Computer Information Systems(《計算機系統安全保護條例》), we have also formulated various measures, including the Computer Management Procedure for Operating Entity (《營業機構計算機工作管理制度》), the Management Procedure for Computer Virus Prevention and Removal (《計算機病毒防治管理辦法》), the Management Procedure for Information Safety (《信息安全管理办法》), the Management Regulations for Data Backup (《數據備份管理規定》), the Implementation Rules for Internet Operation and Maintenance (《網絡運行維護管理實施細則》). These measures cover network safety management, computer safety and confidentiality management, computer virus prevention management, third party access and outsourced service safety management, information reporting and disaster backup, safety monitoring, inspection, assessment and audit, which further regulate our information safety. We have also adopted cautious approach for confidential information input and output to prevent information from being leaked, stolen or tampered.

With an aim to minimize our risks, we have formulated the Emergency Plan for Incidents of Important Information Systems (《重要信息系統突發事件應急預案》) according to the Rules for the Emergency Management for Incidents of Important Information Systems of the Banking Industry (《銀行業重要信息系統突發事件應急管理規範》) and the relevant regulations, which set out the classification and handling procedures for incidents that have affected or may affect the important information systems. In order to improve our emergency handling capability, we organize annual emergency drills for important information systems, with specific date and time, content, reasons, purposes, persons in charge and relevant cooperating organizations for the drills. In addition, we maintain backups of our systems regularly, and the relevant backup files will be handled by designated personnel and stored offsite, which ensure our business continuity and data completeness.

During the Reporting Period, the Group did not receive any complaint or litigation in relation to data protection.

### 4. Protecting Customer Rights

The Group upholds its accountability to customers and strictly complies with the relevant requirements of China and the regulations and operation guidelines formulated by the Bank. The Group sees consumer right protection as the core element of each business segment and is committed to the protection of customers' legal rights so as to safeguard the reputation of the Bank.

## Chapter 11 Environmental, Social and Governance Report

### 4.1 Refining Management Mechanism

We have established the Consumer Rights Protection Committee under the Board and determined the policies and objectives for protection of the rights of financial customers. We have also established the Consumer Rights Protection Department, which formulated the Administrative Measures for the Protection of Consumer Rights (《消費者權益保護管理辦法》) and is responsible for the daily work of consumer rights protection, including amending and approving the pricing proposals of products and services and revising screening and relevant systems and contracts. We have established a sound after-sales feedback and evaluation mechanism for our products and services, under which we are able to obtain comments and suggestions on our products, services and selling process from the customers. We continuously refine our products and services according to the regulatory department requirements and market changes, so as to optimize our product and service quality.

The primary principle of our service is employee compliance. We organize regular training for our employee on regulations of financial products and sales to explain regulatory requirements and industry rules. We adopt the “two-party consent recording” approach to record the process in which customers’ inquiries are handled in order to keep the customers informed. We also provide information to customers on an honest and accurate basis to ensure our employee will not hide any risks, make any false or misleading representations, provide any undertaking or guarantee in violation of the laws and relevant rules and regulations stipulated by the competent authorities of the place where our business is operated, overstate our profit or enter into a forced transaction.

We also stringently manage the promotion of financial products and services in strict compliance with the laws and regulations in relation to the advertisement and label of products and services, including the Advertising Law (《廣告法》) and the Regulations of Advertisement Management (《廣告管理條例》). We have also formulated the Categorized Review System for Publication of Information (《信息發佈分級審核機制》) to regulate the information disclosure and external promotion materials at different levels. We make references to authentic and accurate data and information and strictly prohibit our employee from conducting marketing campaign and promotion of our products or services in a fraudulent or misleading manner or to take the initiative to provide products and services that are not consistent with the risk tolerance level of consumers. To this end, we objectively assess the risk tolerance of customers and allow our customers to understand the laws, policies and market risks involved in the products and services before recommending our products or providing services to them.

During the Reporting Period, the Group did not breach any laws and regulations in relation to the advertisement and label of products and services, privacy and remedies<sup>1</sup>.

<sup>1</sup> The business of the Group does not involve any health and safety issues of products and services.

## Chapter 11 Environmental, Social and Governance Report

### 4.2 Improving Service Quality

Improving service quality is an important means to strengthen our market competitiveness. We have adopted various measures to promote transformation and upgrade of outlets and further improve and regulate service quality and standard in an effort to enhance the marketing capability of our outlet business. During the Reporting Period, in response to the sporadic COVID-19 pandemic, the Group scientifically planned and flexibly arranged the number and business hours of branches, and implemented various measures for pandemic prevention and control to ensure the stable operation of our fundamental financial services and facilities. Moreover, we offered convenient online channels to avoid unnecessary travel, which has effectively protected the safety of our employees while ensuring uninterrupted financial services for customers.

To improve the service quality and customer satisfaction of the Group, we further expanded our communication channels to understand customers' needs, including but not limited to hotline, comments books, outlets, mail, referral of regulatory authorities, media and websites. We also established an efficient complaint handling process and a rigorous complaint handling system. We have formulated the Management Measures of Complaints from Consumers (《消費投訴管理辦法》) and designated the Consumer Rights Protection Department as the main department for the management of complaint handling. The department is responsible for managing complaints of customers and consumers of the Group, assessing and evaluating complaint management and organizing training on consumption complaint management, so as to ensure the smooth handling of complaints.

The Customer Service Center has formulated the Management Measures of Customer Service Center (《客戶服務中心業務管理辦法》) and the Regulations on Coordination of the Customer Service Center (《客戶服務中心聯動工作規範》). Complaint of customers are handled carefully and background information of complaints are recorded in detail. The relevant information is passed to respective business management departments and offices in order to solve inquiries and issues of customers as soon as possible. We conduct in-depth analysis on the complaint investigation result to find out the cause of issues and immediately carry out rectification measures and review and examine the effectiveness of such rectification. During the Reporting Period, we received 19 complaints in relation to our products and services and all of them were properly addressed.

## Chapter 11 Environmental, Social and Governance Report

### 4.3 Protecting Intellectual Property

The Group strives to protect intellectual property. We have formulated the Genuine Software Management Measures (《軟件正版化管理辦法》) based on documents including the Notice of Further Promoting Genuine Software of Financial Institutions of the Banking Industry (《關於進一步加強銀行業金融機構軟件正版化工作的通知》) issued by the CBIRC and the Genuine Software Management Guidelines (《正版軟件管理工作指南》) issued by the National Copyright Administration. A leading group on promoting the usage of genuine software has been established to coordinate the promotion of the usage of genuine software and formulate relevant requirements and measures. Genuine software has become part of our daily operation, including purchasing, installing and using software, asset management, audit supervision and inspection. Our employee are strictly prohibited from using pirated software. We conduct regular and comprehensive inspection on the use of software and arrange genuine software related training for our employee. If any issues are identified, the Group will urge relevant department to rectify the problems. In addition, the Group ensures its intellectual property rights are not infringed by closely monitoring any market irregularities to prevent counterfeit trademark and any other infringement behaviors. During the Reporting Period, we were not aware of any illegal issues related to infringement of intellectual property rights.

During the Reporting Period, the Group owned 39 registered patents and 2 new patents.

### 4.4 Enhancing Supply Chain Management

During the Reporting Period, the Group had 40 major suppliers from Changchun, Beijing, Hangzhou, Hefei, Foshan and Guangzhou. Its procurement includes goods and services such as office furniture and electronic equipment. As the Group considers a sustainable supply chain as an essential part of its sustainable development, it strictly complies with the Law on Tenders and Bids (《招投標法》), the Government Procurement Law (《政府採購法》) and other relevant laws and regulations. It has also formulated the Administrative Measures for Central Procurement (《集中採購管理辦法》) and established a procurement committee to regulate procurements.

Central procurement of the Group adheres to the practice of openness, procedure compliance and collective decision making. Matters that require review are resolved by relevant personnel in meetings and an internal control mechanism is established to separate financial and administrative functions, as well as management and operation functions. We have classified the central procurement of the Bank into “Special Procurement Bidding” and “Shortlisted Procurement Bidding”. All procurement plans shall be formulated according to the project background, budget and method and shall be reviewed and considered before procurement. At least three suppliers fulfilling requirements, such as

## Chapter 11 Environmental, Social and Governance Report

the capacity for such projects, good reputation and compliance operation, shall be invited to participate in the procurement process. Suppliers are selected by the assessment panel according to various requirements, such as procurement demand, quality, price, service, impact on the environment and performance of social responsibilities in their operation. In respect of the environment, suppliers shall endeavor to protect the environment and minimize the environmental impact caused by business operation. We also progressively introduce green products to urge suppliers to use environmental-friendly products and services. In respect of society, suppliers are strictly prohibited from hiring forced labor. In respect of governance, any immoral conducts of suppliers are forbidden, including corruption, bribery, extortion, fraud and money laundering. Suppliers shall comply with relevant laws and regulations of the place where the business is operated.

In order to effectively monitor suppliers, the procurement committee duly conducts regular and irregular inspection on procurement and contract performance and make recommendations for improvement. In case of any violation of laws and disciplines, we will urge the suppliers to rectify such misconduct. In the event of any action of the suppliers detrimental to the interest of the Bank, we will cease the procurement immediately and reserve the right to hold the suppliers accountable.

### 5. Building Talent Teams

Talents play an important role in the sustainable development of the Group and are our most valuable assets. We attach great importance to and respect the legal rights of all employees. As an equal opportunity employer, the Group provides a fair, inclusive, healthy and safe working environment and satisfactory career development for employees in a bid to create a diverse and harmonious work environment that facilitates the mutual development of the Group and its employees. During the Reporting Period, the Group has a total of 6,632 employees, consisting of 3,560 male employees and 3,072 female employees.

#### 5.1 Facilitating the Development of Employees

As the sustainable development of the Group is driven by the career advancement of employees, we encourage professionals from various sectors to thrive. We recruit a wide range of talents and carry out various talent training campaigns. To provide employees with the best development opportunities, training programs for employees in different positions are also organized.

## Chapter 11 Environmental, Social and Governance Report

Through various online and offline initiatives, the Group improves the quality and capabilities of its employees in various aspects to meet the demand for talents for high-quality development. The Group established training centers to provide regular specific training programs for employees in different positions, including front-desk managers, backbone employee and management employee. These programs cover various topics, including marketing management of community bank, risk prevention of credit business and professionalism. During the Reporting Period, a total of 5,774 employees received training. In alignment with the prevention of COVID-19 pandemic, we duly adjusted our training methods and fully utilized online lecture to arrange training for all employees. Every employee is required to complete at least 15 credits of the online lecture quarterly. A standardized online examination is conducted at the end of each quarter and the result will be notified. We have also organized various online competitions to motivate the participation of employees and ensure the effectiveness of learning.

We have also continued to optimize our training resources. Various online training programs have been organized for higher level departments, including enhancement of the capabilities of front-desk managers and customer service managers, risk prevention of counter business, and financial and tax business. Online live-streaming programs of AFCA Finance Academy were also launched. All employees can learn from the training according to their needs and take the initiative to enhance their capabilities. Each primary level outlet also enables its employees to understand and apply business knowledge through morning sharing sessions, after-work discussion and mutual support groups. The understanding of the bottom line of daily conduct has further motivated employees to learn relevant knowledge and develop their compliant and disciplined mindset and practice.

We also pay attention to the integration of new employees. We have provided training for all employees regarding civilized service, basic business knowledge, operating procedures of counter business, professional conduct and basic legal knowledge through our education centers. We have also made effort to understand the working progress, guidance condition and learning effectiveness of employees to ensure they can adapt to the new working environment.

### 5.2 Protecting Employee Interests

In accordance with the laws and regulations of the PRC including the Labour Law of the PRC (《中華人民共和國勞動法》) and the Labour Contract Law of the PRC (《中華人民共和國勞動合同法》), the Group formulated the Administrative Measures for Employees (《員工管理辦法》), which specifies the conditions of employment, the legitimate rights and interests of employees and the code of conduct for employees. During the Reporting Period, the Group did not have any violation related to employment, child labor or forced labor, nor did it have any violation related to equal opportunities, diversity and anti-discrimination.

## Chapter 11 Environmental, Social and Governance Report

### Recruitment and resignation

For talent recruitment and remuneration package, the Group adheres to the principles of fairness, impartiality and openness and attaches great importance to the concept of employee diversity. The Group prohibits any discrimination on the grounds of gender, age, illness, race, ethnicity and other aspects and respects rights of labor. Based on the principles of open recruitment, fair competition and considering candidates on merit, we conduct open recruitment for talents of different fields through various channels such as press media, talent market and graduates from colleges. In order to effectively prevent any child labor and forced labor, the Audit Department strictly reviews the authenticity of the background information of applicants, and collect their identification documents, academic qualifications and other certificates. We have set a working arrangement of eight-hour work day and 40-hour work week on average to reasonably arrange working and resting hours of employees. For certain special professional positions, working hours of employees are counted on an aggregate basis and flexible working arrangement is adopted to prevent forced labor. In case of any violation or non-compliance with labor laws and regulations, the Group will impose internal penalties. During the Reporting Period, we were not aware of any illegal issues related to child labor or forced labor.

The Group respects the decision on resignation of its employees and follows the resignation guidelines and procedures set out in the Employee Handbook when dealing with the dismissal and resignation of employees, so as to ensure that the resignation procedures of all employees comply with relevant laws and regulations and protect the rights and interests of both parties. An employee will be dismissed in accordance with the procedures if he/she is in serious violation of labor discipline.

### Remuneration and benefits

In order to enhance the cohesion and loyalty of its professional workforce, the Group offers attractive remuneration and benefits to its employees. The remuneration, benefits, working hours and leaves of all employees strictly comply with the relevant laws and the policies of the Group. Recruitment, promotion, incentives and promotion opportunities are based on individual capability and performance. The Group strictly prohibits discrimination on any grounds to ensure that all employees enjoy equal rights.

In respect of promotion, the Group follows its objective, fair, standardized and transparent performance management policies to assess its employees and promotes outstanding talents. With an aim to fully capitalize on the skills of our employees, we formulated an appraisal system to evaluate the achievement of business objectives and daily management performance of sub-branches and tighten the control over the management team and team members of sub-branches. In addition, we carry out employee appraisal in respect of virtue, capabilities, diligence, performance and integrity for management promotion through democracy evaluation and communicating with employees, so as to select high-quality, dedicated and high caliber management with integrity.

## Chapter 11 Environmental, Social and Governance Report

In respect of remuneration and bonus, the remuneration of employees of the Group includes basic salaries and discretionary bonus. We have established an effective remuneration management system and conduct performance appraisals on employees and determine discretionary bonus on an annual basis according to their performance and operation results of the Group.

In respect of leaves, in addition to statutory holidays and public holidays stipulated by the government, the Group offers its employees with personal leave, sick leave, marriage leave, bereavement leave, maternity leave and parental leave. In order to take care of female employees, we also provide daily breastfeeding time to female employees with infants under one year old, showing our care for working mothers.

In respect of benefits, all full-time employees are entitled to employee welfare and benefits including pension insurance, medical insurance, work-related injury insurance, unemployment insurance, maternity insurance, housing provident fund and enterprise annuity. In addition, we have formulated the Administrative Measures on Additional Medical Insurance (《補充醫療保險管理辦法》) to provide additional medical insurance and improve medical protection of existing employees and retired employees.

### 5.3 Caring for the Health of Employees

The health and safety management of employees is an important part of the Group's daily operation. We are committed to providing employees with a safe and comfortable working environment. The Group strictly complies with relevant laws and regulations related to work health and safety as stipulated in the Law of the PRC on the Prevention and Control of Occupational Diseases (《中華人民共和國職業病防治法》) and Regulation of Insurance for Labour Injury (《工傷保險條例》). We attach great importance to the health status of our employees. As such, the Group has formulated the Provisional Administrative Measures for Medical Examination of Employees (《員工健康體檢管理暫行辦法》). We provide free annual medical check-ups with health check reports to employees in order to let our employees understand their health condition. With an aim to reduce the health risks of employees, we also organize health and safety knowledge talks from time to time to raise the health knowledge and health awareness of employees, and enhance disease prevention.

In addition, protecting the occupational safety of employees is our responsibility and mission. Therefore, in order to provide a safe working environment and comply with relevant national regulations, we conduct regular work inspection on the working environment to eliminate potential accidents. We also constantly improve employees' awareness of occupational safety through regular occupational safety and health training to promote the culture of safety.

During the Reporting Period, the Group did not receive any complaints or lawsuits regarding violations of laws relating to health and safety, and there was no work-related fatalities in the past three years.

## Chapter 11 Environmental, Social and Governance Report

### Pandemic prevention and control measures

During the pandemic, all employees shall comply with various mandatory travel restrictions and quarantine regulations imposed by local governments. During the Reporting Period, we gradually and prudently resumed business activities and took a series of preventive measures to prevent employees from being infected. Details of the measures are set out below:

- |                        |   |

## 6. Fulfilling Social Responsibilities

The Group pays attention to its social responsibilities while pursuing sound development. Adhering to its market positioning and its commitment to serving the real economy, the Group proactively adopts inclusive finance concepts, based on which its responsibilities to the consumers, the community and the environment were fulfilled. Remarkable contributions were made in respect of green finance, support for the pandemic prevention and control, poverty alleviation and charity activities.

### 6.1 Serving the Real Economy

The Group focuses on its principal business to support the development of the real economy. Based on its positioning for agriculture business, the Group strives to support the revitalization of rural areas by exploring opportunities for rural asset capitalization, facilitating the development of the agricultural industry and promoting inclusive financial services in rural areas. During the Reporting Period, we developed Jiutai Pasture Loan (九牧寶), an innovative loan product with living creatures as pledges, in support of the “Tens of Millions of Beef Cattle (千萬頭肉牛)” development project in Jilin Province. As part of its substantial efforts to support small- and micro-sized enterprises, the Group established a financial service center (including a micro-loan center) which provides specialized and professional

## Chapter 11 Environmental, Social and Governance Report

financial services for small- and micro-sized enterprises with business scale of RMB10 million or below. Innovative products such as “Jiuyi Loan (九易貸)” and “Jiushang Loan (九商貸)” were launched to meet the financing needs of different medium-, small- and micro-sized enterprises. In 2021, the Financial Service Innovation Project for Small- and Micro-sized Enterprises (小微企業金融服務創新項目) of the Bank was selected as the “Typical Case Study of Inclusive Finance of the Banking Industry in China (中國銀行業普惠金融典型案例)”.

### 6.2 Developing Green Finance

In alignment with the national strategic deployment of “peak emission” and “carbon neutrality”, the Group has introduced its green development concept, pursuant to which its credit resources will be largely allocated to green business, particularly key enterprises and key projects in the low-carbon industrial chain, such as new energy, renewable energy, biomedicine, pollution control, black soil protection and energy-saving construction materials. Efforts will also be made to develop green agricultural product brands, green agricultural technology patents, rural cultural tourism brands and other areas where pledges can be made to increase the proportion of green agricultural credit business. Moreover, based on the demand of green business, we expedited the innovation of our credit products and models. We have improved our green finance priority mechanism, under which energy conservation and environmental protection serve as an important basis for customer rating, credit assessment, credit management and business divestment. A special channel for green credit has been established, on which credit applications that support green, low-carbon and circular economy will be approved in priority on the same conditions, making positive contributions to the low-carbon transition.

### 6.3 Adoption of Inclusive Finance

Committed to its operation philosophy of “Bringing Prosperity to People and Enterprises through Inclusive Finance (普惠金融·富民興企)”, the Group has strived to promote its inclusive finance initiatives by consolidating its service channels, enhancing service capability and optimising financial environment. We have opened a wide range of online channels, such as WeChat banking, mobile banking and online banking, to meet the diverse payment needs of urban and rural residents. Innovative applications, such as “Yinyitong (銀醫通)” and education cloud payment platform, have been introduced to enhance customer experience. In addition, we have set up offline cash withdrawal service points featuring self-service machines for the rural areas to effectively fill the gap in rural financial services. On the other hand, we have also actively participated in the financial services of “New Rural Insurance (新農保)” and “New Rural Cooperative (新農合)” to extend their coverage in the rural market and the inclusive finance for the three rurals. More financial resources have been allocated to our services for the three rurals and the real economy. Also effective in reducing corporate financing costs were our measures for standardizing fees, lowering interest rates and launching loan renewals without requiring principal repayment.

## Chapter 11 Environmental, Social and Governance Report

### 6.4 Contributing to Society and the Community

#### Supporting pandemic control

In support of the national prevention and control measures against the pandemic, we have made donation in cash and in kinds to medical institutions, local governments and front-line units for the pandemic prevention and control. In response to the policies and advocates of the regulatory authorities and governments at different levels regarding financial support for the pandemic prevention and control and the resumption of work and production, we have rolled out a series of relief measures during economic downturn, including arranging credit lines, opening green channels, offering preferential interest rates and extending the repayment period of principals and interests. These initiatives have enabled medium-, small- and micro-sized enterprises to tide over the difficulties. Besides, as part of our continuous efforts to provide quality financial services, we have had efficient online service channels in place to ensure the safety of both our personnel and outlets.

#### Consolidating achievements in poverty alleviation

With an aim to consolidate our achievements in poverty alleviation and facilitate the rural revitalization, the Group has strictly complied with the relevant policies and ensured the sustainability and stability of the measures under the relief policies for the poverty-stricken villages. It was able to sustain the continuous supply of resources while maintaining its undertaking and support. Furthermore, the Group has improved the assessment mechanism for village cadres and talents, and has adopted dynamic monitoring of the income and employment of the underprivileged to prevent them from suffering poverty again. To this end, the Group has fully capitalized on the advantages of its agricultural-related special products and expanded its financing channels in a bid to provide sufficient financial guarantees and quality integrated services for modern agricultural development, appealing rural construction and other key agricultural-related aspects. Various relief loans in a total amount of RMB1.210 billion have been extended. During the Reporting Period, the pilot project, “Extension of Credit Facilities to the Entire Village (整村授信)”, in places such as Maolin Village and Miaoling Village in Jiutai District, was launched to continuously meet the reasonable credit needs of the underprivileged households within the areas with work ability, aspiration for better life, good credit standing and eligible for the credit extension. In May 2021, the Bank was awarded the honorary title of the “Jilin Province Advanced Collective for Poverty Alleviation” (“吉林省脫貧攻堅先進集體”榮譽稱號) by the Jilin Provincial Party Committee and the Provincial Government.

## Chapter 11 Environmental, Social and Governance Report

### Charity activities

The Group has set up “Jiutai Rural Commercial Bank Charity Fund”(九台農商銀行愛心基金) to organize donations in respect of poverty alleviation, education and medical assistance, care for elderly and disabled and helping people suffering from disasters and difficulties. All branches and subbranches participated in the charity activities through donation in cash and in kinds and volunteering services. During the Reporting Period, the charitable donations from all the branches and subbranches amounted to over RMB20 million. More than 3,400 employees of the Group participated in the charity activities with 1,300 hours of community services, which encouraged over 18,600 participants from the community.

### 7. Practice of Environmental Protection

In pursuit of its green and sustainable development philosophy as well as its environmental protection obligations, the Group lowered the environmental impacts of its operation, incorporated low-carbon practices into its daily operation and management, and enhanced its green operation level in line with the national goal of emission peak and carbon neutrality. We have strictly complied with Air Pollution Prevention and Control Law (《大氣污染防治法》), Environmental Protection Law (《環境保護法》), Energy Conservation Law (《節約能源法》), and other relevant laws and regulations. During the Reporting Period, the Group did not have any material non-compliance in relation to the environment.

#### 7.1 Carbon Emission Management

Based on its advocate of sustainable development and its understanding of the impact of greenhouse gases (GHG) on climate change, the Group has adopted low carbon operation to minimize its carbon footprint in the process of operation in an effort to combat climate change.

GHG emissions of the Group mainly include emissions from fuel consumed by fixed equipment and emissions from its vehicles. The Group has conducted greenhouse gas emission audit for 36 companies under the Group, including the Bank and 35 subsidiaries, in accordance with the Greenhouse Gas Protocol prepared by the World Resources Institute and the World Business Council for Sustainable Development and the ISO14064-1 formulated by the International Organisation for Standardization. During the Reporting Period, the summary of the greenhouse gas emission was as follows:

## Chapter 11 Environmental, Social and Governance Report

<b>GHG Emissions<sup>2</sup></b>	<b>Unit</b>	<b>2020</b>	<b>2021</b>
<b>GHG Emissions</b>			
Direct GHG emissions (Scope 1)	Tonnes of carbon dioxide equivalent (CO <sub>2</sub> e)	810.26	<b>766.43</b>
Indirect GHG emissions (Scope 2)	Tonnes of CO <sub>2</sub> e	9,470.00	<b>8,616.08</b>
Total GHG emissions (Scope 1 and 2)	Tonnes of CO <sub>2</sub> e	10,280.26	<b>9,382.51</b>
<b>GHG Emissions Intensity</b>			
Per square meter (Scope 1 and 2)	Tonnes of CO <sub>2</sub> e/square meter	0.03	<b>0.02</b>
Per employee (Scope 1 and 2)	Tonnes of CO <sub>2</sub> e/employee	1.60	<b>1.41</b>

Scope 1: The direct GHG emissions generated from sources owned and controlled by the Group, including fuel consumed by vehicles of the Group.

Scope 2: GHG emissions indirectly generated by electricity generation, heating and cooling or steam purchased by the Group, including electricity consumed during office hours of the Group.

During the Reporting Period, the Group's total GHG emissions amounted to 9,382.51 tonnes of CO<sub>2</sub>e, representing a decrease of approximately 9% as compared to the previous year. As part of our corporate social responsibilities in respect of environmental protection, we set an initial target for GHG emission during the Reporting Period to maintain or reduce our GHG emissions while maintaining similar level of operation in the future. To this end, we have carried out the management of boilers and business vehicles for the reduction of emission. In respect of boiler management, we have replaced all gas stoves with electric heaters for heating to improve fuel cleanliness and reduce potential GHG emissions. In respect of business vehicle management, we have encouraged our employees to use green transportation and public transportation. Employees shall apply to the administrative department for the use of business vehicles. We also provide low-carbon driving training for drivers to ensure that business vehicles are used properly. In addition, we also perform regular inspection and maintenance for business vehicles to minimize unnecessary fuel wastage.

### 7.2 Green Office

Based principally on our low-carbon office initiative, we have adopted extensive measures for saving energy, water, paper and other resources. Environmental protection measures have also been incorporated into different aspects of our business in order to manage our environment projection and energy conservation efforts.

<sup>2</sup> The data were calculated based on the emission factor in the "Appendix 2: Reporting Guidance on Environmental KPI" issued by the Hong Kong Stock Exchange, subject to rounding adjustments.

## Chapter 11 Environmental, Social and Governance Report

### Energy management

We attach great importance to the resources consumption of business operations and continuously improve the level of energy management. We mainly conduct our business in office. Although our daily operation has not made any material impact on the environment and natural resources, GHG emissions have been indirectly generated in our use of purchased electricity. The table below indicates our electricity consumption during the Reporting Period:

Total electricity consumption	Unit	2020	2021
Total electricity consumption	MWh	15,522.05	14,122.40
Total electricity consumption intensity (per square meter)	MWh/square meter	0.04	0.04
Total electricity consumption intensity (per employee)	MWh/employee	2.42	2.13

The energy consumption of the Group mainly causes impact on the environment through its daily operations. During the Reporting Period, our total electricity consumption during the operation was 14,122.40 MWh, representing a decrease of approximately 9% as compared to last year. As part of our corporate social responsibilities in respect of environmental protection, we set an initial target for the efficient use of energy during the Reporting Period to maintain or reduce our electricity consumption while maintaining similar level of operation in the future. To this end, we have adopted a series of optimized measures for electricity consumption, covering lighting systems, electronic equipment, air-conditioning systems and other aspects.

In terms of electronic equipment, we use electronic equipment with energy efficiency labels as well as energy-efficient electronic equipment and multi-function devices. We also reduce the use of independent printers. Computers, electronic equipment, printers and other equipment are turned off completely during non-working hours.

In terms of lighting systems, we try to use daylighting as much as possible. Offices are divided into multiple different lighting zones and independently controllable lighting switches are installed. We reduce the number of lamps in the place where the brightness is higher than required. Motion sensors are installed in infrequently-used areas and employees are asked to turn off lights when the office is not in use to reduce electricity usage.

## Chapter 11 Environmental, Social and Governance Report

In terms of air-conditioning systems, we set the temperature between 25 and 26 degrees Celsius, and adopt central control and monitoring system or building management system to meet the basic needs for indoor temperature control. Regular inspections, maintenance and cleaning are carried out to ensure the effectiveness of the air-conditioning systems. We also use a variable refrigerant flow system to optimize the refrigerant flow, and install seals on the doors and windows to prevent the temperature-adjusted air from leaking and reduce the energy consumption of the air conditioning systems.

### Water resources management

The Group attaches great importance to water resources by creating a water saving culture to promote proper water consumption practice among employees. During the Reporting Period, we set an initial target for the efficient use of water in order to maintain or reduce water usage while maintaining similar level of operation in the future. To this end, we have adopted a series of water resources optimization measures. Water saving slogans are posted in toilets. Regular pipe and toilet inspections are performed to prevent water leakage, and water saving sensor faucets and dual flush toilets are installed. To reduce the risk of water leakage, we test hidden water pipes and inspect water meter readings regularly. Water pipes would be repaired immediately once problems are identified.

Domestic water is supplied by the public fresh water network in respective locations, and there is no problem in obtaining water sources. Our total water consumption in operation was 114,885.95 cubic meters during the Reporting Period, representing a decrease of approximately 3% compared to last year. The table below indicates our water consumption:

Water consumption	Unit	2020	2021
Total water consumption	Cubic meters	118,731.16	114,885.95
Total water consumption (per square meter)	Cubic meters/square meter	0.30	0.30
Total water consumption (per employee)	Cubic meters/employee	18.50	17.32

### Waste management

As we consider waste as part of an important resources, we dispose of non-hazardous and hazardous waste properly. Based on the concept of sustainable development, we set an initial target in respect of waste management during the Reporting Period to maintain or reduce waste disposal while maintaining similar level of operation in the future.

## Chapter 11 Environmental, Social and Governance Report

In respect of hazardous waste, the Group has established a scrapping approval team and disposes of electronic waste in accordance with the Administrative Regulations on Computer Equipment (《計算機物品管理規定》). The team is responsible for reviewing scrapping application and dealing with waste in accordance with the requirements for scrapping management. In case of any computer malfunction, the team will prepare a test report based on the feasibility of repair or modification and estimated repair cost. The team will first consider to reuse suitable electronic parts and submit the case to the Information Technology Department and relevant departments to confirm whether the computers are eligible for scrapping. If criteria of scrapping are fulfilled, we will collect obsolete computers or other electronic waste through cooperation with electronic companies for recycling.

In respect of non-hazardous waste, we have adopted policy to classify waste based on its materials with the use of waste sorting and recycling bins in offices. In addition, our employees are encouraged to reuse envelopes, binders, file cards and other stationery. When purchasing office supplies, we will regularly assess the material consumption and the actual consumption level and estimate the consumption of supplies to avoid overstock.

During the Reporting Period, the Group disposed of 54.62 tonnes of non-hazardous waste in total, representing a decrease of approximately 3% as compared with last year. The intensity was 0.01 tonnes per employee. The table below indicates our waste disposal:

Non-hazardous waste	Unit	2020	2021
Total non-hazardous waste	Tonnes	56.37	54.62
Total non-hazardous waste intensity (per employee)	Tonnes/employee	0.01	0.01

Moreover, we have realized technology-enabled and paperless office by adopting office automation system (OA system) in the entire bank. Communication with employees is made through electronic means instead of paper. In addition, we have also provided different electronic service channels for customers, such as online banking, mobile banking and WeChat banking, and issued electronic bills and electronic publications instead of mailed bills and physical promotional publications in order to reduce paper consumption of customers. We have posted notices prominently next to copiers or

## Chapter 11 Environmental, Social and Governance Report

printing machines to encourage employees to use double-sided photocopying or recycled paper if the use of paper is necessary and promote double-sided printing. The table below indicates our paper consumption:

Paper consumption	Unit	2020	2021
Total paper consumption	Tonnes	59.73	59.07
Total paper consumption intensity per employee	Tonnes/employee	0.01	0.01

### 7.3 Responding to Climate Change

To align with the national vision of achieving peak emission and carbon neutrality, the Group has strived to incorporate sustainable development into its business operation. In response to climate change, we have launched green financial products and introduced green office. Also, risks related to climate change have been identified in our operation and corresponding measures have been formulated. As the international policies and requirements regarding climate change have become more stringent and corresponding regulatory measures for emission reduction have been introduced in China, we have identified the policy and legal risks arising from climate change and continued to keep abreast of the latest information on national policies and regulations in order to strictly comply with all applicable laws.

We understand that investors and customers have increasing needs on sustainable financial products. Capitalizing on opportunities arising from green and low-carbon development, we have supported and promoted green financial products to expand the green financial product offerings in the market. In addition, considering climate risks as one of the important factors affecting economic development and financial security and stability, we are well positioned in the banking industry to promote and develop sustainable financial products with a focus on environmental, social and credit risks arising from climate change. In response to these risks, we will adopt a prudent management approach for creating a sound green financial ecosystem.

In order to reduce carbon footprint and carbon emissions, the Group has proactively adopted measures for green office operation<sup>3</sup>, improve our performance in respect of energy consumption, water consumption and waste disposal and raise the awareness of our employees on environmental protection. We are aware that frequent extreme weather conditions caused by climate change will ultimately affect the personal safety of employees of the Group and its daily operations, and even result in possible economic losses. As such, we have identified specific acute risks and paid close attention to weather changes and take into account climate change risks when formulating our risk management

<sup>3</sup> For details of the measures, please refer to the section headed "7.2 Green Office".

## Chapter 11 Environmental, Social and Governance Report

measures. For instance, when choosing the geographic location for data centre, we will consider the environmental conditions resulting from climate change that may threaten the operation of information processing equipment. We will also prevent the normal operation of the data centre from being affected by unexpected power outages or power supply disturbances.

## Opinion

We have audited the consolidated financial statements of Jilin Jiutai Rural Commercial Bank Corporation Limited (the “Bank”) and its subsidiaries (hereinafter collectively referred to as the “Group”) set out on pages 265 to 437, which comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRSs”) issued by the International Accounting Standards Board (the “IASB”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (“ISAs”) issued by the International Auditing and Assurance Standards Board. Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (“IESBA Code”) and we have fulfilled our other ethical responsibilities in accordance with IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are summarised as follows:

- Basis of consolidation
- Impairment of loans and advances to customers
- Impairment of goodwill
- Outsourcing arrangements for information technology system

## Basis of consolidation

*Refer to note 57 to the consolidated financial statements and the accounting policies on page 275 to 278.*

The key audit matter	How the matter was addressed in our audit
<p>The Bank operates its businesses through the Bank itself and through 35 subsidiaries as at 31 December 2021.</p> <p>As at 31 December 2021, the Bank controlled and consolidated 20 subsidiaries in which the Bank owned no more than 50% equity interest (the "non major subsidiaries"). To control these non major subsidiaries, the Bank held more than 50% of the voting rights in these non major subsidiaries through acting in concert agreements (the "AIC agreements") with certain minority shareholders of those subsidiaries. In particular, under these AIC agreements, these minority shareholders have agreed to align their votes with the Bank in respective shareholders' meeting of the subsidiaries.</p> <p>If these minority shareholders fail to abide by their agreements, or if the AIC agreements are terminated, the Bank may not be able to continue to control and consolidate the financial results of these non major subsidiaries.</p>	<p>Our procedures were designed to review the management's assessment, with reference to the legal advice on the validity of AIC agreements, of whether the Group control the non major subsidiaries and challenge the reasonableness of the methodologies used to assessment of control.</p> <p>We have discussed the indicators of possible loss of control with the management and, where such indicators were identified, assessing the management's view on control. Also, we have sought legal advice on the validity of AIC agreements.</p>

## Impairment of loans and advances to customers

Refer to note 23 to the consolidated financial statements and the accounting policies on pages 289 to 296.

The key audit matter	How the matter was addressed in our audit
<p>Impairment allowances represent management's best estimate of the expected credit losses within the loan portfolios at the reporting date.</p> <p>They are assessed based on whether the credit risk has increased significantly since initial recognition and the Group's historical credit loss experience adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.</p> <p>The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information.</p> <p>Management estimations and judgements are required to determine whether there are significant increase in credit risk, the probability of default, loss given default and the expected future cash flows related to each loan within the loan portfolios.</p>	<p>Our procedures were designed to review the management assessment on the expected credit losses model and challenge the reasonableness of the methods and assumptions used to estimate the expected credit losses of loans and advances to customers.</p> <p>We have discussed the judgement in relation to the recognition of 12 months and life time expected credit losses of loan and advance under the 3 different stages and assessed the appropriateness of the modelling policy, assumptions and methodology used for material portfolios independently by reference to the accounting standards and market practices, and model calculations were tested through re-performance.</p> <p>We have challenged the assumptions, critical judgement and statistical models used by the management by assessing the reliability of the management's past estimates and future forecast, and taking into account the ageing at year end and whether any significant increase in credit risk of borrowers.</p>

## Impairment of loans and advances to customers (Continued)

Refer to note 23 to the consolidated financial statements and the accounting policies on page 289 to 296.

The key audit matter	How the matter was addressed in our audit
<p>The audit was focused on impairment due to the materiality of the balances amounted to approximately RMB152,222,135,000 and the subjective nature of the judgement, estimation and calculation involved in the determination of the expected credit losses.</p>	<p>For the collectively assessed expected credit loss ("ECL"), we assessed the reasonableness of the Group's ECL models, including the model input, model design, model performance for significant portfolios. We assessed the reasonableness of the Group's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a lifetime ECL basis and the qualitative assessment. We challenged whether historical experience is representative of current circumstances and of the recent losses incurred in the portfolios and assessed the reasonableness of forward-looking adjustments, including the economic variables and assumptions used in each of the economic scenarios and their probability weightings. Where changes had been made in model parameters and assumptions, we evaluated the appropriateness of such changes. We also assessed and tested the sensitivity of the credit loss provisions to changes in modelling assumptions.</p> <p>For a sample of exposures that was subject to an individual impairment assessment, we specifically reviewed the Group's assumptions on the expected future cash flows, including the value of realisable collateral based on available market information. We also assessed the financial statement disclosures relating to the Group's exposure to credit risk.</p>

## Impairment of goodwill

Refer to note 29 to the consolidated financial statements and the accounting policies on page 281 to 282.

The key audit matter	How the matter was addressed in our audit
<p>As at 31 December 2021, the Group had goodwill of approximately RMB401,335,000 and no impairment was recognised.</p> <p>The impairment assessment relied on the calculation of a value in use for each of the cash-generating units (the "CGUs"). That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period with an average growth rate and pre-tax discount rate. Cash flows beyond the five-year period are extrapolated using an estimated annual growth rate. Management determined the budgeted gross margin based on past performance, its expectations on the market development, and a long-term growth rate of 3% which is based on the industry growth forecasts and does not exceed the long-term average growth rate for the business in the People's Republic of China. The discount rates used were the CGU's specific weighted average cost of capital, adjusted for the risks of the specific CGU.</p> <p>The estimation of future cash flows and the level to which they are discounted are inherently uncertain and requires significant judgement. The extent of judgement and the size of the goodwill resulted in impairment of goodwill being identified as an area of audit focus.</p>	<p>Our procedures were designed to obtain management's assessment and challenged the reasonableness of the selection of valuation model, adoption of key assumptions and input data. In particular, we have tested the future cash flow forecasts on whether they are agreed to the budgets approved by the directors of the Bank and compared the budgets with actual results available up to the report date. We have challenged the appropriateness of the assumptions, including the growth rates and gross margin, against latest market expectations.</p> <p>We have also challenged the discount rate employed in each calculation of value in use by reviewing its basis of calculation and comparing its input data to market sources.</p> <p>As any changes in these assumptions and input to valuation model may result in significant financial impact, we have tested management's sensitivity analysis in relation to the key inputs to the impairment assessment and performed our own sensitivity analysis which included changes in the growth rate, gross margin and discount rates employed.</p>

## Outsourcing arrangements for information technology system

Refer to note 51(d) to the consolidated financial statements.

The key audit matter	How the matter was addressed in our audit
<p>The Group's information technology ("IT") system are critical to various aspects of its operations which are developed, operated and maintained by various IT service providers (the "IT outsourcing arrangements"). The Group entrusts those IT service providers to manage and maintain its database but has its own dedicated IT team to perform daily monitoring on those IT service providers for the operations and maintenance of the Group's IT system.</p> <p>If the Group cannot effectively monitor the services provided by the IT service providers, any problems of the IT system could have a material impact, among other aspects, on the Group's financial statements.</p>	<p>We involved our IT audit specialists in the course of audit. We carried out assessment, testings and review of the Group's controls over the IT outsourcing arrangements and the monitoring procedures executed by the Group on various IT service providers.</p> <p>We also assessed the reliability of the Group's IT system regarding the process in the preparation of the Group's financial statements.</p>

## Information other than the Consolidated Financial Statements and Auditor's Report Thereon

The directors of the Bank are responsible for the other information. The other information comprises the all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard.

(A joint stock company incorporated in the People's Republic of China with limited liability)

## **Responsibilities of Directors of the Bank and Those Charged with Governance for the Consolidated Financial Statements**

The directors of the Bank are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors of the Bank determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Bank are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Bank either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion, solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibilities towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Continued)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and, obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Bank.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Chui Yiu Cheong.

# Notes to the Consolidated Financial Statements

For the Year Ended 31 December 2021

## 1. GENERAL

The Bank, formerly known as Jiutai Rural Credit Cooperative Union, is a joint stock commercial bank established on 16 December 2008 with approval of the former China Banking Regulatory Commission (Jiyin Jianfu 2008 No.320) on 15 December 2008.

The Bank obtained its finance permit from the China Banking and Insurance Regulatory Commission (the “CBIRC”) Jilin Bureau (Institution Number: No. B1001H222010001) and the business license from Market Supervision and Administration Bureau of Jilin Province (Unified Social Credit Code: 912200001243547911). The legal representative is Gao Bing and the address of the registered office is No. 504 Xinhua Main Street, Jiutai District, Changchun, the People’s Republic of China (the “PRC”).

As at 31 December 2021, the Bank has established 3 branches and 80 sub-branches. The Bank has 35 subsidiaries. The principal activities of the Bank and its subsidiaries (collectively referred to as the “Group”) are the provision of corporate and retail deposits, loans and advances, payment and settlement services, as well as other banking services as approved by China Banking and Insurance Regulatory Commission. The Group operates in mainland China.

On 12 January 2017, the Bank’s H shares were listed on the main board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (Stock code: 6122).

The consolidated financial statements are presented in Renminbi (“RMB”), which is also the functional currency of the Bank and its subsidiaries.

## 2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”)

In the current year, the Group has applied, for the first time, the following amendments to IFRSs issued by the International Accounting Standards Board (the “IASB”) which are effective for the Group’s financial year beginning 1 January 2021.

Amendment to IFRS 16	COVID-19-Related Rent Concessions
Amendments to IFRS 9, International Accounting Standard (“IAS”) 39, IFRS 7, IFRS 4 and IFRS 16	Interest Rate Benchmark Reform — Phase 2

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS (“IFRSs”) (Continued)

The application of the amendments to IFRSs in the current year has had no material impact on the Group’s financial performance and position for the current and prior years and/ or on the disclosures set out in these consolidated financial statements.

#### New and amendments to IFRSs issued but not yet effective

The Group has not early applied the following new and amendments to IFRSs that have been issued but are not yet effective:

IFRS 17	Insurance Contracts and related amendments <sup>3</sup>
Amendments to IFRS 3	Reference to the Conceptual Framework <sup>2</sup>
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture <sup>4</sup>
Amendments to IAS 1	Classification of Liabilities as Current or Non-current <sup>3</sup>
Amendments to IAS 1 and IFRS Practice Statement 2	Disclosure of Accounting Policies <sup>3</sup>
Amendments to IAS 8	Definition of Accounting Estimates <sup>3</sup>
Amendments to IAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction <sup>3</sup>
Amendments to IAS 16	Property, plant and Equipment: Proceeds before Intended Use <sup>2</sup>
Amendments to IAS 37	Onerous Contracts — Cost of Fulfilling a Contract <sup>2</sup>
Amendment to IFRS 16	COVID-19-Related Rent Concessions beyond 30 June 2021 <sup>1</sup>
Amendment to IFRSs	Annual Improvements to IFRSs 2018–2020 cycle <sup>2</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 April 2021.

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2022.

<sup>3</sup> Effective for annual periods beginning on or after 1 January 2023.

<sup>4</sup> Effective for annual periods beginning on or after a date to be determined.

The directors of the Bank anticipate that, the application of the new and amendments to IFRSs will have no material impact on the results and the financial position of the Group.

### 3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with IFRSs issued by the IASB. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. Details of fair value measurement are explained in the accounting policies set out below.

The principal accounting policies are set out below.

#### Basis of consolidation

The consolidated financial statements incorporates the financial statements of the Bank and entities controlled by the Bank (i.e. its subsidiaries and structure entities). If a subsidiary prepares its financial statements using accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that subsidiary's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

Control is achieved where the Group has: (i) the power over the investee; (ii) exposure, or rights, to variable returns from its involvement with the investee; and (iii) the ability to use its power over the investee to affect the amount of the Group's returns.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Basis of consolidation (Continued)

When the Bank has less than a majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Bank considers all relevant facts and circumstances in assessing whether or not the Bank's voting rights in an investee are sufficient to give it power, including:

- the size of the Bank's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Bank, other vote holders or other parties;
- rights arising from other contractual arrangements;
- any additional facts and circumstances that indicate that the Bank has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings

The Bank reassess whether it controls an investee if facts and circumstances indicate that there are changes to one or more of these elements of control stated above.

When the Group is an investor of a fund in which the Group also acts as a fund manager, the Group will determine whether it is a principal or an agent for the purpose of assessing whether the Group controls the relevant fund.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Basis of consolidation (Continued)

An agent is a party primarily engaged to act on behalf and for the benefit of another party or parties (the principal(s)) and therefore does not control the investee when it exercises its decision-making authority. In determining whether the Group is an agent to the fund, the Group would assess:

- the scope of its decision-making authority over the investee;
- the rights held by other parties;
- the remuneration to which it is entitled in accordance with the remuneration agreements; and
- the decision maker's exposure to variability of returns from other interests that it holds in the investee.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

Income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income of subsidiaries are attributed to the owners of the Bank and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Bank and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in a subsidiary is presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiary upon liquidation.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Basis of consolidation (Continued)

##### Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Bank.

When the Group loses control of a subsidiary, it (i) derecognises the assets (including any goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost, (ii) derecognises the carrying amount of any non-controlling interests in the former subsidiary at the date when control is lost (including any components of other comprehensive income attributable to them), and (iii) recognises the aggregate of the fair value of the consideration received and the fair value of any retained interest, with any resulting difference being recognised as a gain or loss in profit or loss attributable to the Group. When assets and liabilities of the subsidiary are carried at revalued amounts or fair values and the related cumulative gain or loss has been recognised in other comprehensive income and accumulated in equity, the amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the related assets and liabilities (i.e. reclassified to profit or loss or transferred directly to retained earnings as specified by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 Financial Instruments or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Business combinations

Businesses combinations are accounted for by using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs incurred to effect a business combination are recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities arising from the assets acquired and liabilities assumed in the business combination are recognised and measured in accordance with IAS 12 *Income Taxes*;
- assets or liabilities related to the acquiree's employee benefit arrangements are recognised and measured in accordance with IAS 19 *Employee Benefits*;
- liabilities or equity instruments related to share-based payment arrangement of the acquiree or the replacement of the acquiree's share-based payment transactions with the share-based payment transactions of the Group are measured in accordance with IFRS 2 *Share-based Payment* at the acquisition date (see the accounting policy below); and
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard.
- lease liabilities are recognised and measured at the present value of the remaining lease payments as if the acquired lease was a new lease at the acquisition date, except for leases for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at an amount equal to the lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease when compared with market terms.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Business combinations (Continued)

Goodwill is measured as the excess of the aggregate of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the Group's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the aggregate of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a gain on bargain purchase.

Non-controlling interests, unless as required by another standards, are measured at acquisition-date fair value except for non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are measured either at fair value or at the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets on a transaction-by-transaction basis.

#### Investments in subsidiaries and associates

Investments in subsidiaries and associates are included in the Bank's statement of financial position at cost less accumulated impairment losses, if any.

#### Translation of foreign currencies

When the Group receives capital in foreign currencies from investors, the capital is translated to RMB at the spot exchange rate on the date of receipt. Other foreign currency transactions are, on initial recognition, translated to RMB at the spot exchange rates or the rates that approximate the spot exchange rates at the dates of transactions.

A spot exchange rate is quoted by The People's Bank of China (the "PBOC"), the State Administration of Foreign Exchange, or a cross rate determined based on quoted exchange rates. A rate that approximates the spot exchange rate is a rate determined by a systematic and rational method, normally the average exchange rate of the current period.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Translation of foreign currencies (Continued)

Monetary items denominated in foreign currencies are retranslated to RMB at the spot exchange rate at the end of each of the reporting period. The resulting exchange differences are recognised in profit or loss. Non-monetary items denominated in foreign currencies that are measured at historical cost are retranslated to RMB using the foreign exchange rate at the transaction date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated using the foreign exchange rate at the date the fair value is determined; the exchange differences are recognised in profit or loss, except for the exchange differences arising from the translation of non-monetary financial investments which are recognised in investment revaluation reserve.

#### Cash and cash equivalents

Cash and cash equivalents refer to short term highly liquid assets, which are readily convertible into known amounts of cash and subject to an insignificant risk of changes in value. Cash and cash equivalents comprise cash on hand, non-restricted balances with the central bank, short-term deposits and placements with banks and other financial institutions and financial assets held under resale agreements with original maturity of less than three months.

#### Goodwill

Goodwill arising from a business combination is carried at cost less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit (or groups of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the cash-generating unit (or groups of cash-generating units) is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro rata basis based on the carrying amount of each asset in the unit (or groups of cash-generating units). Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Goodwill (Continued)

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

The Group's policy for goodwill relating to an associate that included in the carrying amount of the investment is set out in "investments in associates" below.

#### Investments in associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies.

The Group's investments in associates are accounted for in the consolidated financial statements using the equity method. Under the equity method, investments in associates are initially recognised at cost. The Group's share of the profit or loss and changes in the other comprehensive income of the associates are recognised in profit or loss and other comprehensive income respectively after the date of acquisition. If the Group's share of losses of an associate equals or exceeds its interest in the associate, which determined using the equity method together with any long-term interests that, in substance, form part of the Group's net investment in the associate, the Group discontinues recognising its share of further losses. Additional losses are provided for, and a liability is recognised, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

If an associate uses accounting policies other than those of the Group for like transactions and events in similar circumstances, adjustments are made to make the associate's accounting policies conform to those of the Group when the associate's financial statements are used by the Group in applying the equity method.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment, any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets and liabilities of the associate is recognised as goodwill and is included in the carrying amount of the investment.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Investments in associates (Continued)

Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognised in profit or loss in the period in which the investment is acquired.

After application of the equity method, including recognising the associate's losses (if any), the Group determines whether there is an objective evidence that the net investment in the associate is impaired. Goodwill that forms part of the carrying amount of an investment in an associate is not separately recognised. The entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the net investment in the associate. Any reversal of that impairment loss is recognised to the extent that the recoverable amount of the investment subsequently increases.

When the investment ceases to be an associate upon the Group losing significant influence over the associate, the Group discontinues to apply equity method and any retained interest is measured at fair value at that date which is regarded as its fair value on initial recognition as a financial asset in accordance with the applicable standard. Any difference between the fair value of any retained interest and any proceeds from disposing of a part interest in the associate and the carrying amount of the investment at the date the equity method was discontinued is recognised in profit or loss. Any amount previously recognised in other comprehensive income in relation to that investment is reclassified to profit or loss or retained earnings on the same basis as it would have been required if the investee had directly disposed of the related assets or liabilities.

When the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

Gains and losses resulting from transactions between the Group and its associate are recognised in consolidated financial statements only to the extent of unrelated investors' interests in the associate. The Group's share in the associate's gains or losses resulting from these transactions is eliminated.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

#### Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (“FVTOCI”), and fair value through profit or loss (“FVTPL”).

The classification of financial assets at initial recognition depends on the financial asset’s contractual cash flow characteristics and the Group’s business model for managing them.

The business model refers to how the Bank manages its financial assets in order to generate cash flows. That is, the Bank’s business model determines whether cash flows will result from collecting contractual cash flows, selling financial assets or both. The Bank determines the business model for managing the financial assets according to the facts and based on the specific business objective for managing the financial assets determined by the Bank’s key management personnel.

#### Financial instruments (Continued)

##### Financial assets (Continued)

In assessing whether the contractual cash flows are solely payments of principal and interest, the Bank considers the contractual terms of the instrument. For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin. The Bank also assesses whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

##### **Financial assets at amortised cost (debt instruments)**

The Group measures financial assets subsequently at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment.

##### *(i) Amortised cost and effective interest method*

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

#### Financial instruments (Continued)

#### Financial assets (Continued)

#### *Financial assets at amortised cost (debt instruments) (Continued)*

(i) *Amortised cost and effective interest method (Continued)*

For financial assets other than purchased or originated credit impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit loss (“ECL”), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost and at FVTOCI. For financial assets other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit impaired financial instrument improves so that the financial asset is no longer credit impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset.

##### Financial assets (Continued)

##### **Financial assets at amortised cost (debt instruments) (Continued)**

###### (i) *Amortised cost and effective interest method (Continued)*

For purchased or originated credit-impaired financial assets, the Group recognises interest income by applying the credit-adjusted effective interest rate to the amortised cost of the financial asset from initial recognition. The calculation does not revert to the gross basis even if the credit risk of the financial asset subsequently improves so that the financial asset is no longer credit-impaired.

Interest income is recognised in profit or loss and is included in the “Net interest income” line item (Note 6).

##### **Financial assets at FVTOCI (debt instruments)**

The Group measures financial assets subsequently at FVTOCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Group’s debt instruments classified as at FVTOCI includes investments in debt instruments. Fair value is determined in the manner described in note 52. Debt instruments are initially measured at fair value plus transaction costs. Subsequently, changes in the carrying amount of debt instruments as a result of foreign exchange gains and losses, impairment gains or losses, and interest income calculated using the effective interest method are recognised in profit or loss. The amounts that are recognised in profit or loss are the same as the amounts that would have been recognised in profit or loss if these debt instruments had been measured at amortised cost. All other changes in the carrying amount of these debt instruments are recognised in other comprehensive income (“OCI”) and accumulated under the heading of investments revaluation reserve. When these debt instruments are derecognised, the cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss.

##### *Equity instruments designated as at FVTOCI*

On initial recognition, the Group may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination.

Investments in equity instruments as at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in OCI and accumulated in the investment revaluation reserve; and are not subject to impairment assessment. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will be transferred to retained earnings.

Dividends on these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "dividend income" line item in profit or loss.

##### *Financial assets at FVTPL*

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI are measured at FVTPL. Specifically:

- Investments in equity instruments are classified as at FVTPL, unless the Group designates an equity investment that is neither held for trading nor a contingent consideration arising from a business combination as at FVTOCI on initial recognition.
- Debt instruments that do not meet the amortised cost criteria or the FVTOCI criteria are classified as at FVTPL. In addition, debt instruments that meet either the amortised cost criteria or the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

#### Financial instruments (Continued)

##### Financial assets (Continued)

##### *Financial assets at FVTPL (Continued)*

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The interest earned on the financial assets is included in the “Net trading gains” line item. Fair value is determined in the manner described in note 52.

In respect of the Group’s equity instruments at FVTPL, the Group subsequently measures them at fair value, with fair value gains and losses recognised in “Net trading gains”. Dividends from equity instruments continue to be recognised in profit or loss as dividend income when the Group’s right to receive payments is established. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

##### **Impairment of financial assets**

The Group recognises a loss allowance for ECL on financial assets which are subject to impairment under IFRS 9 (including loans and advances to customers, deposits with banks and other financial institutions, placements with banks and other financial institutions, financial assets held under resale agreements, financial assets measured at amortised cost, debt investments measured at FVTOCI, interest receivable, other receivables, credit commitments and financial guarantee contracts). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Financial instruments (Continued)

##### Impairment of financial assets (Continued)

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument (for stage 2 and stage 3). In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date (for stage 1). Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

Stage 1 is where credit risk has not increased significantly since initial recognition. For financial assets in stage 1, entities are required to recognise 12 month ECL and recognise interest income on a gross basis — this means that interest will be calculated on the gross carrying amount of the financial asset before adjusting for ECL.

Stage 2 is where credit risk has increased significantly since initial recognition. When a financial asset transfers to stage 2 entities are required to recognise lifetime ECL but interest income will continue to be recognised on a gross basis.

Stage 3 is where the financial asset is credit impaired. This is effectively the point at which there has been an incurred loss event. For financial assets in stage 3, entities will continue to recognise lifetime ECL but they will now recognise interest income on a net basis. This means that interest income will be calculated based on the gross carrying amount of the financial asset less ECL.

The Group measures the loss allowance equal to 12-month ECL, unless when there has a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Financial instruments (Continued)

#### Impairment of financial assets (Continued)

##### *Significant increase in credit risk*

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Financial instruments (Continued)

##### Impairment of financial assets (Continued)

##### *Significant increase in credit risk (Continued)*

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) it has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definitions.

For credit commitments and financial guarantee contracts, the date that the Group becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of a loan commitment, the Group considers changes in the risk of a default occurring on the loan to which a loan commitment relates; for financial guarantee contracts, the Group considers the changes in the risk that the specified debtor will default on the contract.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

###### *Definition of default*

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

The Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

###### *Credit-impaired financial assets*

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or disappearance of an active market for that financial asset because of financial difficulties.

#### Financial instruments (Continued)

##### Impairment of financial assets (Continued)

##### *Credit-impaired financial assets (Continued)*

###### *Write-off policy*

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

##### **Measurement and recognition of ECL**

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Group's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. For a lease receivable, the cash flows used for determining the expected credit losses is consistent with the cash flows used in measuring the lease receivable in accordance with IFRS 16 Leases.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Financial instruments (Continued)

##### Impairment of financial assets (Continued)

##### *Measurement and recognition of ECL (Continued)*

For a financial guarantee contract, as the Group is required to make payments only in the event of a default by the debtor in accordance with the terms of the instrument that is guaranteed, the expected loss allowance is the expected payments to reimburse the holder for a credit loss that it incurs less any amounts that the Group expects to receive from the holder, the debtor or any other party.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

For deposits with banks and other financial institutions, placements with banks and other financial institutions, financial asset held under resale agreement and financial assets at amortised cost, the ECL is based on the 12-month ECL.

For undrawn credit commitments, the ECL is the present value of the difference between the contractual cash flows that are due to the Group if the holder of the credit commitments draws down the loan, and the cash flows that the Group expects to receive if the loan is drawn down.

For ECL on financial guarantee contracts or on credit commitments for which the effective interest rate cannot be determined, the Group will apply a discount rate that reflects the current market assessment of the time value of money and the risks that are specific to the cash flows but only if, and to the extent that, the risks are taken into account by adjusting the discount rate instead of adjusting the cash shortfalls being discounted.

For financial guarantee contracts and credit commitments, the loss allowances are recognised at the higher of the amount of the loss allowance determined in accordance with IFRS 9; and the amount initially recognised less, where appropriate, cumulative amount of income recognised over the guarantee period.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Financial instruments (Continued)

##### Impairment of financial assets (Continued)

##### *Measurement and recognition of ECL (Continued)*

Except for investments in debt instruments that are measured at FVTOCI, credit commitments and financial guarantees contracts, the Group recognises an impairment gain or loss for all other financial instruments by adjusting their carrying amount where the corresponding adjustment is recognised through a loss allowance account. The Group recognised an impairment gain or loss in profit or loss for all financial instruments.

For investments in debt instruments that are measured at FVTOCI, the loss allowance is recognised in OCI and accumulated in the investment revaluation reserve without reducing the carrying amounts of these debt instruments.

##### *Derecognition of financial assets*

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss. In contrast, on derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

#### Financial instruments (Continued)

##### **Financial liabilities and equity instruments**

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

##### ***Equity instruments***

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

##### ***Financial liabilities subsequently measured at amortised cost***

Financial liabilities that are not 1) contingent consideration of an acquirer in a business combination, 2) held-for-trading, or 3) designated as at FVTPL are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

##### ***Loan commitments and financial guarantee contracts***

Loan commitments and financial guarantee contract are contracts that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

#### Financial instruments (Continued)

##### Financial liabilities and equity instruments (Continued)

##### *Loan commitments and financial guarantee contracts (Continued)*

Loan commitments and financial guarantee contracts issued by a group entity are initially measured at their fair values and, if not designated as at FVTPL and do not arise from a transfer of a financial asset, are subsequently measured at the higher of:

- the amount of the loss allowance determined in accordance with IFRS 9; and
- the amount initially recognised less, where appropriate, cumulative amortisation recognised in accordance with the revenue recognition policies.

##### *Derecognition of financial liabilities*

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

#### Fair value measurement

When measuring fair value for the purpose of impairment assessment, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

#### Fair value measurement (Continued)

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

At the end of the reporting period, the Group determines whether transfer occur between levels of the fair value hierarchy for assets and liabilities which are measured at fair value on recurring basis by reviewing their respective fair value measurement.

#### Financial assets held under resale and repurchase agreements

Financial assets purchased under agreements to resell are reported not as purchases of the assets but as receivables and are carried in the consolidated statements of financial position at amortised cost.

Financial assets sold subject to a simultaneous agreement to repurchase these assets are retained in the consolidated statements of financial position and measured in accordance with their original measurement principles. The proceeds from the sale are reported as liabilities and are carried at amortised cost.

Interest earned on reverse repurchase agreements and interest incurred on repurchase agreements are recognised respectively as interest income and interest expense over the life of each agreement using the effective interest method.

#### Property and equipment

Property and equipment are assets held by the Group for operation and administration purposes with useful lives over one year. When the costs attributable to the land use rights cannot be reliably measured and separated from that of the building at inception, the costs are included in the cost of buildings and recorded in property and equipment.

Property and equipment including buildings and leasehold improvement for use in the supply of services, or for administrative purposes (other than construction in progress) are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write off their costs, other than construction in progress, less their residual values over their estimated useful lives, using straight-line method. The estimated useful lives, residual values and depreciation/amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Construction in progress is carried at cost, less any recognised impairment loss. Costs include professional fees. Such properties are classified to the appropriate categories when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Classes	Estimated residual value rates	Useful lives
Premises	3%	20 years
Leasehold improvement	0%	Over the shorter of the economic useful lives and remaining lease terms
Office equipment	3%	3–10 years
Motor vehicles	3%	4 years

Useful lives, residual values and depreciation methods are reviewed at least at each year-end.

#### Leasing

##### **Definition of a lease**

Under IFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

##### **The Group as lessee**

For contracts entered into or modified on or after the date of initial application or arising from business combinations, the Group assesses whether a contract is or contains a lease, at inception of the contract or modification date or acquisition date, as appropriate. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less from the commencement date and do not contain a purchase option) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

#### Leasing (Continued)

##### *The Group as lessee (Continued)*

###### *Lease liabilities*

At the commencement date, the Group measures lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate the lease.

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

##### *Lease liabilities (Continued)*

Lease liability is remeasured (and with a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

##### *Right-of-use assets*

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement date and any initial direct costs, less lease incentives received. Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under IAS 37 "Provision, Contingent Liabilities and Contingent Assets". The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

##### *The Group as lessee (Continued)*

##### *Right-of-use assets (Continued)*

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. They are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The Group presents right-of-use assets as a separate line in the consolidated statement of financial position.

The Group applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

##### *Lease modification*

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

#### Leasing (Continued)

##### *The Group as lessor*

The Group enters into lease agreements as a lessor with respect to some of its property. Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

#### Impairment on tangible and intangible assets other than goodwill and financial assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives are tested for impairment at least annually, and whenever there is an indication that they may be impaired.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Impairment on tangible and intangible assets other than goodwill and financial assets (Continued)

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or the cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or the cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or the cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

#### Repossessed assets

Repossessed assets are physical assets or property rights obtained by the Group from debtors, warrantors or third parties following the enforcement of its creditor's rights. The repossessed assets are initially recognised at fair value, and are subsequently measured at the lower of the carrying value and net recoverable amount. If the recoverable amount is lower than the carrying value of the repossessed assets, the assets are written down to the recoverable amount.

#### Employee benefits

##### Salaries and allowances

Salaries and allowances are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

##### Contributions to retirement benefits scheme

The Group participates in Central Provident Fund (“CPF”) Scheme for its employees in the PRC organised by the municipal governments of the relevant provinces. The Group also sets up annuity scheme for qualified employees. Annuity contributions are accrued based on a certain percentage of the participants’ total salary when employees have rendered service entitling them to the contributions. The contribution is recognised in profit or loss.

##### Other social welfare

Social welfare expenditure refers to payments for employees’ social welfare system established by the government of the PRC, including social pension insurance, health care insurance, housing funds and other social welfare contributions. The Group contributes on a regular basis to these funds based on certain percentage of the employees’ salaries and the contributions are recognised in profit or loss for the period when employees have rendered service entitling them to the contribution. The Group’s liabilities in respect of these funds are limited to the contribution payable in the reporting period.

##### Other long-term employee benefits

The Group’s net obligation in respect of long-term employee benefits other than pension plans is the amount of future benefit that employees have earned in respect of their services in the current and prior periods.

#### Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Taxation (Continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle current tax liabilities and assets on a net basis.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 Income Taxes requirements to right-of-use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognised at initial recognition and over the lease terms due to application of the initial recognition exemption.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

#### Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

#### Fiduciary activities

The Group acts in a fiduciary activity as a manager, a custodian, or an agent for customers. Assets held by the Group and the related undertakings to return such assets to customers are recorded as off-balance sheet items as the risks and rewards of the assets reside with customers.

The Group enters into entrusted loan agreements with customers, whereby the customers provide funding (“entrusted funds”) to the Group, and the Group grants loans to third parties (“entrusted loans”) under instructions of the customers. As the Group does not assume the risks and rewards of the entrusted loans and the corresponding entrusted funds, the entrusted loans and funds are recorded as off-balance sheet items at their principal amount. No provision for impairment loss is made for entrusted loans.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Revenue recognition

Revenue is recognised to depict the transfer of promised goods and services to customers at an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services to a customer. Specifically, the Group uses a five-step approach to recognise revenue:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the Group satisfies a performance obligation.

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligations is transferred to customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same. For contracts that contain more than one performance obligation, the Group allocates the transaction price to each performance obligation on a relative stand-alone selling price basis.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

#### Revenue recognition (Continued)

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

Revenue is measured based on the consideration specified in a contract with a customer, excludes amounts collected on behalf of third parties, discounts and sales related taxes.

The Group's revenue mainly includes interest income and fee and commission income, among which fee and commission income will be within the scope of IFRS 15, while interest income is within the scope of IFRS 9.

The Group recognised revenue in respect of fee and commission income from the following major sources:

- Advisory services fees
- Settlement and clearing services fees
- Wealth management services fees
- Agency services fees
- Syndicated loan services fees
- Bank card services fees

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Revenue recognition (Continued)

##### **Provision of settlement and clearing services and agency services**

The Group recognises settlement and clearing services fees and agency services fees at a point in time when the services are provided to customers.

##### **Provision of advisory services fees, bank card services fees and wealth management services**

The Group recognises the advisory services fees, bank card service fees and wealth management service fees overtime as the related services are transferred overtime. The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the services transferred to the customer to date relative to the remaining services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

##### **Provision of syndicated loan services**

Regarding to the syndicated loan service fees, those contracts contain two performance obligations, the syndicated loan service and loan management services. For the syndicated loan service, this fee is one-off and recognised when syndicated loans provided to customers. Hence, the revenue is recognised at a point of time. For loan management services, the fee depends on services transferred overtime according to contract terms. Hence, the revenue is recognised over-time. The Group allocates the transaction price to each performance obligations on a relative stand-alone fair value of these performance obligations. The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the services transferred to the customer to date relative to the remaining services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

The stand-alone selling price of the distinct service underlying each performance obligation is determined at contract inception. It represents the price at which the Group would sell a promised loan service separately to a customer. If a stand-alone selling price is not directly observable, the Group estimates it using appropriate techniques such that the transaction price ultimately allocated to any performance obligation reflects the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised services to the customer.

#### Expenses recognition

##### Interest expenses

Interest expenses from financial liabilities are accrued on a time proportion basis with reference to the amortised cost and the applicable effective interest rate.

##### Other expenses

Other expenses are recognised on an accrual basis.

#### Related parties

- (a) A person, or a close member of that person's family, is related to the Bank if that person:
- (i) has control or joint control over the Bank;
  - (ii) has significant influence over the Bank; or
  - (iii) is a member of the key management personnel of the Bank or the Bank's parent.
- (b) An entity is related to the Bank if any of the following conditions applies:
- (i) The entity and the Bank are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
  - (iii) Both entities are joint ventures of the same third party;
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Bank or an entity related to the Bank;

(b) An entity is related to the Bank if any of the following conditions applies: (Continued)

(vi) The entity is controlled or jointly controlled by a person identified in (a);

(vii) A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity);

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

#### Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

#### Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

#### Government grants (Continued)

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

#### Dividends

Dividends are recognised as a liability and deducted from equity when they are approved by the Bank's shareholders in general meetings and declared. Interim dividends are deducted from equity when they are approved and declared, and no longer at the discretion of the Bank. Dividend for the year that is approved after the end of the reporting period is disclosed as a subsequent event.

### 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3, the directors of the Bank are required to make judgements, estimates and assumptions about the amounts of assets, liabilities, revenue and expenses reported and disclosures made in the consolidated financial statements. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

#### Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the directors of the Bank have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised and disclosures made in the consolidated financial statements.

#### Determination of consolidation scope

All facts and circumstances must be taken into consideration in the assessment of whether the Group, as an investor, controls the investee. The principle of control sets out the following three elements of control: (a) power over the investee; (b) exposure, or rights, to variable returns from involvement with the investee; and (c) the ability to use power over the investee to affect the amount of the investor's returns. The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

### 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

#### Critical judgements in applying accounting policies (Continued)

##### Income taxes

Determining income tax provisions involves judgement on the future tax treatment of certain transactions. The Group carefully evaluates the tax implications of transactions and tax provisions are set up accordingly. The tax treatment of such transactions is reconsidered periodically to take into account all changes in tax legislation. Deferred tax assets are recognised for tax losses not yet used and temporary deductible differences. As those deferred tax assets can only be recognised to the extent that it is probable that future taxable profits will be available against which the unused tax credits can be utilised, management's judgement is required to assess the probability of future taxable profits. Management's assessment is constantly reviewed and additional deferred tax assets are recognised if it becomes probable that future taxable profits will allow the deferred tax assets to be recovered.

##### Determination of control over investees

Management applies its judgement to determine whether the control indicators indicate that the Group controls a non-principal guaranteed wealth management product and an asset management plan.

The Group acts as manager to a number of non-principal guaranteed investment products. Determining whether the Group controls such a structured entity usually focuses on the assessment of the aggregate economic interests of the Group in the entity (comprising any carried interests and expected management fees) and the decision-making authority of the entity. For all these structured entities managed by the Group, the Group's aggregate economic interest is in each case not significant and the decision makers establish, market and manage them according to restricted parameters as set out in the investment agreements as required by laws and regulations. As a result, the Group has concluded that it acts as agent as opposed to principal for the investors in all cases, and therefore has not consolidated these structured entities.

For further disclosure in respect of unconsolidated non-principal guaranteed investment products in which the Group has an interest or for which it is a sponsor, see Note 46(iii).

##### Classification of financial assets

When the Group determines the classification of financial assets, a number of significant judgements in the business model and the contractual cash flow characteristics of the financial assets are required. Factors considered by the Group in determining the business model for a group of financial assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated. When the Group assesses whether the contractual cash flows of the financial assets are consistent with basic lending arrangements, the main judgements are described as whether the principal amount may change over the life of the financial asset (for example, if there are repayments of principal); whether the interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin and cost, associated with holding the financial asset for a particular period of time.

##### Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key source of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

##### Provision of ECL for all categories of debt instruments of financial assets, credit commitments and financial guarantees

The measurement of impairment losses under IFRS 9 across all categories of financial assets and credit commitments and financial guarantees requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

##### Provision of ECL for all categories of debt instruments financial assets, credit commitments and financial guarantees (Continued)

The Group's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- The Group's internal credit grading model, which assigns probabilities of default to the individual grades
- The Group's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial instruments should be measured on a lifetime ECL basis and the qualitative assessment
- The segmentation of financial assets, credit commitments and financial guarantees based on risk characteristics of the customers and by product types when their ECL is assessed on a collective basis
- Development of ECL models, including the various formulas and the choice of inputs over determination of the period over which the entity is exposed to credit risk based on the behavioural life of the credit exposures, loss given default and collateral recovery of the credit exposures
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on probabilities of default, exposures at default and losses given default
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models

It has been the Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

##### Provision of ECL for all categories of debt instruments of financial assets, credit commitments and financial guarantees (Continued)

As at 31 December 2021, the carrying amounts of deposits with banks and other financial institutions, placements with banks and other financial institutions, financial assets held under resale agreements, interest receivables, loans and advances to customers, debt securities financial assets at fair value through other comprehensive income, financial assets measured at amortised cost were approximately RMB10,828,113,000, RMB134,759,000, RMB1,498,500,000, RMB908,379,000, RMB152,222,135,000, RMB4,938,009,000 and RMB22,814,151,000 respectively (2020: approximately RMB8,396,699,000, RMB729,253,000, RMB1,102,000,000, RMB874,287,000, RMB126,574,552,000, RMB2,372,719,000 and RMB24,772,682,000 respectively), net of impairment loss amounted approximately RMB2,947,000, RMB241,000, nil, nil, RMB4,628,054,000, RMB175,000 and RMB953,522,000 respectively (2020: RMB1,265,000, RMB747,000, nil, nil, RMB3,501,919,000, RMB175,000 and RMB994,351,000 respectively).

As at 31 December 2021, the carrying amounts of provision for credit commitments and financial guarantees were approximately RMB60,465,000 (2020: RMB43,372,000).

As the COVID-19 pandemic continues to progress and evolve, its effect on the Group's debtors and their ability to meet their financial obligations to the Group is difficult to predict. Changes in these assumptions and estimates could materially affect the result of the assessment and it may be necessary to make additional impairment charge.

At each reporting date, the Bank assesses whether there has been a significant increase in credit risk for exposures since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Bank considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and also, forward-looking analysis.

### 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

#### Key sources of estimation uncertainty (Continued)

##### Fair value of financial instruments

There are no quoted prices from an active market for a number of financial instruments. The fair values for these financial instruments are established by using valuation techniques. These techniques include using recent arm's length market transactions by referring to the current fair value of similar instruments and discounted cash flow analysis. Valuation models established by the Group make maximum use of market input and rely as little as possible on the Group's specific data. However, it should be noted that some input, such as credit and counterparty risk, and risk correlations require management's estimates. The Group reviews the above estimations and assumptions periodically and makes adjustment if necessary.

##### Impairment of non-financial assets

Non-financial assets (i.e. property and equipment, repossessed assets, long-term deferred expenses and right-of-use assets) are reviewed regularly to determine whether the carrying amount exceeds the recoverable amount of the assets. If any such indication exists, an impairment loss is provided.

Since the market price of an asset (the asset group) may not be obtained reliably, the fair value of the asset may not be estimated reliably. In assessing the present value of future cash flows, significant judgements are exercised over the asset's (or a cash-generating unit's) selling price, related operating expenses and discounting rate to calculate the present value. All relevant materials which can be obtained are used for estimation of the recoverable amount, including the estimation of the selling price and related operating expenses based on reasonable and supportable assumption.

As at 31 December 2021, the carrying amount of repossessed assets were approximately RMB438,720,000 (2020: approximately RMB528,610,000), net of accumulated impairment losses amounted approximately RMB25,663,000 (2020: approximately RMB25,335,000). The net carrying amount after impairment loss were approximately RMB413,057,000 (2020: approximately RMB503,275,000).

##### Depreciation

Property and equipment and right-of-use assets are depreciated using the straight-line method over their estimated useful lives after taking into account residual values. The estimated useful lives are regularly reviewed to determine the depreciation charged in each of the reporting period. The estimated useful lives are determined based on historical experiences of similar assets and the estimated technical changes. If there is an indication that there has been a change in the factors used to determine the depreciation, the amount of depreciation will be revised.

As at 31 December 2021, the carrying amount of property and equipment and right-of-use assets were approximately RMB3,265,481,000 and RMB614,709,000 respectively (2020: approximately RMB3,249,491,000 and RMB664,240,000 respectively), net of accumulated impairment losses amounted RMB184,000 and nil respectively (2020: nil and nil respectively).

##### Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

As at 31 December 2021, the carrying amount of goodwill is approximately RMB401,335,000 (2020: approximately RMB401,335,000). Details of the recoverable amount calculation are disclosed in Note 29.

##### Impairment of interests in associates

In determining whether the interests in associates are impaired, the directors of the Bank assesses the recoverable amount of the interests in associates which is the higher of its fair value less costs of disposal and its value in use. An impairment loss is made if the carrying amount of interests in associates exceeds its recoverable amount. In determining the recoverable amount of the interests in associates, the directors of the Bank require an estimation of the future cash flows expected to arise from the associates in order to determine the value in use of the interests in associates. When the actual future cash flows are less than expected, a material impairment loss may arise.

### 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

#### Key sources of estimation uncertainty (Continued)

##### Impairment of interests in associates (Continued)

As at 31 December 2021, the carrying amount of interests in associates was approximately RMB961,033,000 (2020: approximately RMB1,005,130,000). No accumulated impairment losses were recognised for the year ended 31 December 2021 and 2020.

### 5. TAXATION

The Group's main applicable taxes and tax rates are as follows:

#### (a) Urban maintenance and construction tax

Urban maintenance and construction tax is calculated as 5%–7% of value added tax.

#### (b) Education surcharge

Education surcharge is calculated as 3% of business tax and value added tax.

#### (c) Local education surcharge

Local education surcharge is calculated as 2% of business tax and value added tax.

#### (d) Income tax

The income tax is calculated on taxable income. Under the Law of the Mainland China on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the Mainland China companies is 25%. During the year ended 31 December 2021, certain branches with operations in a subsidiary, Lingshui Huimin Village Bank Co., Ltd. ("陵水惠民村鎮銀行股份有限公司"), obtained approvals from tax authorities to adopt the preferential income tax rate of 15%.

#### (e) Value added tax

Pursuant to the "Circular regarding the Pilot Program on Comprehensive Implementation of Value Added Tax Reform" issued by the Ministry of Finance of the PRC (the "MOF") and the State Administration of Taxation, the Group is required to pay value added tax instead of business tax from 1 May, 2016. Value added tax and related underlying value of the invoice for value added taxable income and expenses shall be stated and accounted for separately.

### 28. RIGHT-OF-USE ASSETS AND LEASE LIABILITIES (Continued)

#### i Right-of-use assets (Continued)

Right-of-use assets of approximately RMB27,671,000 (2020: RMB6,955,000) represents land use rights located in the PRC. As at 31 December 2021, the Group is still in a process of obtaining the land certificate with the carrying amount of approximately RMB676,000 (2020: RMB824,000). In the opinion of the directors, based on the advice from the Group's external legal adviser, the absence of the land certificate does not impair its carrying value to the Group.

The Group has lease arrangements for premises and motor vehicles. The lease terms are generally ranged from two to twenty years. The land is located in PRC with lease term ranged from ten to fifty years.

Additions to the right-of-use assets for the year ended 31 December 2021 amounted to approximately RMB99,831,000 (2020: approximately RMB175,324,000), due to new leases of premises and motor vehicles.

#### Impairment testing on goodwill

For the purpose of impairment testing, goodwill with indefinite useful lives set out as above have been allocated to four individual cash generating units (“CGUs”), comprising four subsidiaries in corporate and retail banking as at 31 December 2021 and 2020 respectively.

	2021 RMB'000	2020 RMB'000

	<b>401,335</b>	401,335

\* The English translation is for identification only.

During the year ended 31 December 2021 and 2020, management of the Group determines that there are no impairments of any of its CGUs containing goodwill with indefinite useful lives.

The basis of the recoverable amounts of the above CGUs and their major underlying assumptions are summarised below:

#### *Liaoyuan Rural Commercial Bank*

The recoverable amounts of this unit have been determined on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period with an average growth rate of 9.43% (2020: 13.5%), and pre-tax discount rate of 13% (2020: 13%). Cash flows beyond the five-year period are extrapolated using an estimated annual growth rate. Management determined the budgeted gross margin based on past performance, its expectations on the market development, and a long-term growth rate of 3%, which is based on the industry growth forecasts and does not exceed the long-term average growth rate for the business in the country in which the CGU operates. The discount rates used are the CGU’s specific weighted average cost of capital, adjusted for the risks of the specific CGU.

Management believes that any reasonably possible change in any of these assumptions would not cause the carrying amounts of this CGU to exceed its recoverable amount.

#### Impairment testing on goodwill (Continued)

The basis of the recoverable amounts of the above CGUs and their major underlying assumptions are summarised below: (Continued)

##### *Lingshui Huimin Village and Township Bank*

The recoverable amounts of this unit have been determined on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period with an average growth rate of 3.17% (2020: 6.5%), and pre-tax discount rate of 13% (2020: 13%). Cash flows beyond the five-year period are extrapolated using an estimated annual growth rate. Management determined the budgeted gross margin based on past performance, its expectations on the market development, and a long-term growth rate of 3%, which is based on the industry growth forecasts and does not exceed the long-term average growth rate for the business in the country in which the CGU operates. ##### *Sanya Huimin Village and Township Bank*

The recoverable amounts of this unit have been determined on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period with an average growth rate of 10.15% (2020: 22.6%), and pre-tax discount rate of 13% (2020: 13%). Cash flows beyond the five-year period are extrapolated using an estimated annual growth rate. Management determined the budgeted gross margin based on past performance, its expectations on the market development, and a long-term growth rate of 3%, which is based on the industry growth forecasts and does not exceed the long-term average growth rate for the business in the country in which the CGU operates. #### *Qingdao Jimo Huimin Village and Township Bank*

The recoverable amounts of this unit have been determined on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period with an average growth rate of 15.59% (2020: 19.1%), and pre-tax discount rate of 13% (2020: 13%). Cash flows beyond the five-year period are extrapolated using an estimated annual growth rate. Management determined the budgeted gross margin based on past performance, its expectations on the market development, and a long-term growth rate of 3%, which is based on the industry growth forecasts and does not exceed the long-term average growth rate for the business in the country in which the CGU operates. *Notes:*

- (i) The Group made provision for impairment losses on loans and advances to customers and other assets. The provision for impairment losses was determined based on the expected recoverable amount of the relevant assets at the end of each of the reporting period. However, the amounts deductible for income tax purposes are calculated at 1% of the gross carrying amount of qualifying assets at the end of each of the reporting period, together with write-offs which fulfill specific criteria as set out in the Mainland China tax rules and are approved by the tax authorities.
- (ii) Net gains or losses on fair value changes of financial instruments are subject to tax when realised.
- (iii) At 31 December 2021, the Group has unused tax losses of approximately RMB160,672,000 (2020: approximately RMB246,260,000), available for offset against future profits. A deferred tax asset has been recognised in respect of such losses. Such tax losses can be carried forward for five years from the year in which the respective loss arose.

#### (b) Unconsolidated structured entities (Continued)

##### (ii) Structured entities sponsored by the Group which the Group does not consolidate but holds an interest in:

The types of unconsolidated structured entities sponsored by the Group include non-principal guaranteed wealth management products. The nature and purpose of these structured entities are to generate fees from managing assets on behalf of investors. These structured entities are financed through the issue of units to investors. Interest held by the Group includes investments in units issued by these structured entities and fees charged by providing wealth management services as disclosed in Note 7.

As at 31 December 2021, the amount of assets held by the unconsolidated non-principal guaranteed wealth management products, which are sponsored by the Group, are approximately RMB3,726,180,000 and (2020: approximately RMB4,344,910,000).

##### (iii) Unconsolidated structured entities sponsored by the Group during the year which the Group does not have an interest in as at 31 December 2021 and 2020:

During the year ended 31 December 2021, the aggregated amount of the non-principal guaranteed wealth management products sponsored and issued by the Group after 1 January, but matured before 31 December amounted to approximately RMB4,077,170,000 (2020: approximately RMB3,414,700,000).

### 47. CAPITAL MANAGEMENT

The Group's capital management includes capital adequacy ratio management, capital financing management and economic capital management, of which the primary focus is on capital adequacy ratio management. The Group calculates the capital adequacy ratio in accordance with guidelines issued by the CBIRC. The capital of the Group is divided into core tier-one capital, other core tier-one capital and tier-two capital.

Capital adequacy ratio management is the key in capital management. The capital adequacy ratio reflects the soundness of the Group's operations and risk management capabilities. The main objective in capital adequacy ratio management is to set an optimal capital adequacy ratio that meets the regulatory requirements by benchmarking against the capital adequacy ratio level of leading peer banks with reference to its own business environment and conditions.

The Group considers its strategic development plans, business expansion plans and risk variables when conducting scenario analysis and stress testing and executing other measures to forecast, plan and manage its capital adequacy ratio.

The Group calculates its capital adequacy ratios in accordance with "Administrative Measures for the Capital of Commercial Banks (Provisional)" and other relevant regulations promulgated by the CBIRC.

The CBIRC requires commercial banks to meet the requirements of capital adequacy ratios by the end of 2018 in accordance with "Administrative Measures for the Capital of Commercial Banks (Provisional)". For non-systemically important banks, the minimum ratios for core tier-one capital adequacy ratio, tier-one capital adequacy ratio and capital adequacy ratio are 7.50%, 8.50% and 10.50%, respectively.

The on-balance sheet risk-weighted assets are measured using different risk weights, which are determined according to the credit, market and other risks associated with each asset and counterparty, taking into account any eligible collaterals or guarantees. Similar treatment is adopted for off-balance sheet exposure, with adjustments made to reflect the more contingent nature of any potential losses. Market risk-weighted assets are calculated using the standardised approach. Operational risk-weighted assets are calculated using basic indicator approach.

The capital adequacy ratios and related components of the Group illustrated below are computed based on the Group's statutory financial statements prepared in accordance with the generally accepted accounting principles in the PRC. During the years ended 31 December 2021 and 2020, the Group has complied with all its externally imposed capital requirements.

### 50. SEGMENT REPORTING

The Group manages its business by business lines and geographical areas. Consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group defines reporting segments based on the following operating segments:

#### Corporate banking

This segment represents the provision of a range of financial products and services to corporations and government agencies. These products and services include corporate loans and advances, deposit taking activities, agency services, consulting and advisory services, remittance and settlement services and guarantee services.

#### Retail banking

This segment represents the provision of a range of financial products and services to retail customers. These products and services include personal loans and deposit taking activities, bank card business, personal wealth management services and remittance services.

#### Treasury operations

This segment covers the Group's treasury operations. The treasury operations enters into inter-bank money market transactions, repurchases transactions and investments. It also trades in debt securities. The treasury segment also covers management of the Group's overall liquidity position, including the issuance of debts.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 50. SEGMENT REPORTING (Continued)

#### Others

These represent assets, liabilities, income and expenses which cannot directly attributable or cannot be allocated to a segment on a reasonable basis.

Measurement of segment assets and liabilities and of segment income, expenses and results is based on the Group's accounting policies.

Internal charges and transfer prices are determined with reference to market rates and have been reflected in the performance of each segment. Interest income and expense earned from third parties are referred to as "external net interest income/ (expense)". Net interest income and expense arising from internal charges and transfer pricing adjustments are referred to as "internal net interest (expense)/income".

Segment income, expenses, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Segment income and expenses are determined before intra-group transactions are eliminated as part of the consolidation process. Segment capital expenditure is the total cost incurred during the reporting period to acquire property and equipment, land use rights and other long-term assets.

### 51. FINANCIAL RISK MANAGEMENT

The primary objectives of risk management of the Group are to maintain risk within acceptable parameters and satisfy the regulatory requirements.

The Group's risk management policies are designed and controls are set up to identify, analyse, monitor and report risks arising from normal operation. The Group regularly reviews its risk management policies and systems to address changes in markets, products and emerging best practices.

Details of the financial instruments are disclosed in respective notes to the consolidated financial statements. The risks associated with these financial instruments include credit risk, liquidity risk, market risk (i.e. interest rate risk and exchange rate risk and price risk).

#### (a) Credit risk

The Group monitors all financial assets that are subject to impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Group will measure the loss allowance based on lifetime ECL rather 12m ECL.

In order to minimise credit risk, the Group has tasked to develop and maintain the Group's credit risk grading to categorise exposures according to their degree of risk of default. The credit grading information is based on a range of data that is determined to be predictive of the risk of default and applying experienced credit judgment. The nature of the exposure and the type of counterparty are taken into account in the analysis. Credit risk grades are defined using qualitative and quantitative factors that are indicative of risk of default.

### 51. FINANCIAL RISK MANAGEMENT (Continued)

#### (a) Credit risk (Continued)

The five category classifications in which the Group classifies its loans and advances to customers and financial assets at amortised cost are set out below:

Category	Description	Basis for recognising ECL
Normal	Borrowers can honour the terms of their loans. There is no reason to doubt their ability to repay principal and interest in full on a timely basis.	12-month ECL
		Lifetime ECL — not credit impaired (Only if more than 30 days past due)
Special mention	Borrowers are able to repay their loans currently, although repayment may be adversely affected by specific factors.	Lifetime ECL — credit impaired (Only if more than 90 days past due and no reason to doubt their ability to repay principal and interest in full on a timely basis)
		12-month ECL
Substandard	Borrowers' ability to repay their loans is in question and they cannot rely entirely on normal operational revenues to repay principal and interest. Losses may ensue even when collateral or guarantees are invoked.	Lifetime ECL — not credit impaired
		Lifetime ECL — credit impaired (Only if more than 90 days past due and repayment may be adversely affected by specific factors)
Doubtful	Borrowers cannot repay principal and interest in full and significant losses will need to be recognised even when collateral or guarantees are invoked.	Lifetime ECL — credit impaired
Loss	Only a small portion or none of the principal and interest can be recovered after taking all possible measures and exhausting all legal remedies.	Lifetime ECL — credit impaired

### 51. FINANCIAL RISK MANAGEMENT (Continued)

#### (a) Credit risk (Continued)

The internal credit risk grades are designed and calibrated to reflect the risk of default as credit risk deteriorates. As the credit risk increases, the difference in risk of default between grades changes. Each exposure is allocated to a credit's risk grade at initial recognition, based on the available information about the counterparty. All exposures are monitored and the credit risk grade is updated to reflect current information. The Group uses credit risk grades as a primary input into the determination of the term structure of the probability of default ("PD") for exposures. The Group uses different criteria to determine whether credit risk has increased significantly per portfolio of assets. The criteria used are both quantitative changes in PDs as well as qualitative information that are indicative of risk of default.

#### *Loan and advance to customers and financial asset at amortised cost*

The Group has applied the general approach in IFRS 9 to measure ECL. The Group has assessed whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Group will measure the loss allowance based on lifetime rather than 12-month ECL.

#### **Financial assets at FVTOCI**

The Group has applied the general approach in IFRS 9 to measure ECL. The Group has assessed whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Group will measure the loss allowance based on lifetime rather than 12-month ECL.

##### Credit rating

The Group adopts a credit rating approach in managing the credit risk of the debt securities portfolio. Debt securities are rated with reference to major rating agencies where the issuers of the securities are located. The carrying amounts of debt securities investments analysed by the rating agency designations as at the end of each of the reporting period are as follows:

#### (b) Market risk

Market risk is the risk of loss, in respect of the Group's activities, arising from adverse movements in market rates including interest rates, foreign exchange rates, commodity prices, stock prices and other prices.

The board of directors is ultimately responsible for monitoring the Group's market risk to ensure that the Group has effectively identified, measured and monitored all types of market risk. The Risk Management Committee monitors the market risk management process within the scope authorised by the board of directors, which include review and approval of market risk management strategies, policies and procedures. The Group is primarily exposed to market risk in its treasury operations. The board assumes ultimate responsibility for management of market risk. The senior management implements market risk management strategies and policies as approved by our board. The Group's business departments implement market risk management measures in their daily operations.

Sensitivity analysis is a technique which assesses the sensitivity of the Group's overall risk profile and its risk profile for each period with reference to the interest rate risks for different maturities.

Scenario analysis is a multi-factor analysis method which assesses the impact of multiple factors interacting simultaneously, taking into consideration of the probabilities of various scenarios.

Foreign currency gap analysis is a technique which estimates the impact of foreign exchange rate movements on the Group's current profit or loss. The foreign currency gap mainly arises from the currency mismatch in the Group's on/off-balance sheet items.

Sensitivity gap analysis is a technique which estimates the impact of interest rate movements on the Group's current profit or loss. It is used to work out the gap between future cash inflows and outflows by categorizing each of the Group's interest-bearing assets and interest-taking liabilities into different periods based on repricing dates.

The results of stress testing are assessed against a set of forward-looking scenarios using stress moves in market variables. The results are used to estimate the impact on profit or loss.

### 51. FINANCIAL RISK MANAGEMENT (Continued)

#### (b) Market risk (Continued)

Effective duration analysis is a technique which estimates the impact of interest rate movements by giving a weight to each period's exposure according to its sensitivity, calculating the weighted exposure, and summarising all periods' weighted exposures to estimate the non-linear impact of a change in interest rates on the Group's economic value.

#### **Interest rate risk**

The Group is primarily exposed to interest rate risk arising from repricing risk in its commercial banking business and the risk of treasury position.

#### ***Repricing risk***

Repricing risk, which is also known as "maturity mismatch risk", is the most common form of interest rate risk. It is caused by the differences in timing between the maturities (related to fixed interest instruments) or repricing (related to floating interest instruments) of assets, liabilities and off-balance sheet items. The mismatch of repricing timing causes the Group's income or its inherent economic value to vary with the movement in interest rates.

The Finance Management Department is responsible for measuring, monitoring and managing interest rate risk. The Group regularly performs assessment on the interest rate repricing gap between the assets and liabilities that are sensitive to changes in interest rates and sensitivity analysis on the net interest income as a result of changes in interest rates. The primary objective of interest rate risk management is to minimise potential adverse effects on its net interest income or its inherent economic value caused by interest rate volatility.

#### ***Trading interest rate risk***

Trading interest rate risk mainly arises from the treasury's investment portfolios. Interest rate risk is monitored using the effective duration analysis method. The Group employs other supplementary methods to measure its interest rate sensitivity, which is expressed as changes in the investment portfolios' fair value given a 100 basis points (1%) movement in the interest rates.

**(i) The following tables indicate the assets and liabilities at 31 December 2021 and 2020 by the expected next repricing dates or by maturity dates, depending on which is earlier: (Continued)**

Notes:

- (i) As at 31 December 2021, for loans and advances to customers, the category “Less than three months” includes overdue amounts (net of provision for impairment losses) of approximately RMB4,248,641,000 (2020: approximately RMB2,693,408,000).
- (ii) Investments include financial assets at FVTPL, financial assets at FVTOCI, and financial assets measured at amortised cost.

#### **(ii) Interest rate sensitivity analysis**

The Group uses sensitivity analysis to measure the impact of changes in interest rate on the Group’s net profit or loss and equity. As at 31 December 2021, assuming other variables remain unchanged, an increase in estimated interest rate of 100 basis points will cause the Group’s net profit to increase approximately RMB12,059,000 (2020: decrease approximately RMB194,254,000), and the Group’s equity to increase approximately RMB411,697,000 (2020: decrease approximately RMB200,120,000); a decrease in estimated interest rate of 100 basis points will cause the Group’s net profit to decrease approximately RMB12,059,000 (2020: increase approximately RMB194,254,000), and the Group’s equity to decrease approximately RMB411,697,000 (2020: increase approximately RMB200,120,000).

#### (b) Market risk (Continued)

##### Interest rate risk (Continued)

##### (ii) Interest rate sensitivity analysis (Continued)

The sensitivity analysis above is based on a static interest rate risk profile of the Group's assets and liabilities. This analysis measures only the impact of changes in interest rates, showing how annualised net profit or loss and equity would have been affected by repricing of the Group's assets and liabilities. The sensitivity analysis is based on the following assumptions:

- Interest rate movements at the end of each of the reporting period apply to non-derivative financial instruments of the Group;
- At the end of each of the reporting period, an interest rate movement of 100 basis points is based on the assumption of interest rates movement;
- There is a parallel shift in the yield curve with the changes in interest rates;
- There are no other changes to the assets and liabilities portfolio;
- Other variables (including exchange rates) remain unchanged; and
- The analysis does not take into account the effect of risk management measures taken by the management.

Due to the adoption of the aforementioned assumptions, the actual changes in the Group's net profit or loss and equity caused by an increase or decrease in interest rates might vary from the estimated results of this sensitivity analysis.

##### Foreign currency risk

The Group's foreign currency risk mainly arises from exchange rate fluctuation on its foreign exchange exposures. The Group manages foreign currency risk by matching its foreign currency denominated assets with corresponding liabilities in the same currencies and monitoring its foreign currency exposures on daily basis.

### 51. FINANCIAL RISK MANAGEMENT (Continued)

#### (c) Liquidity Risk

Liquidity risk is the risk that a commercial bank is unable to obtain funds on a timely basis or obtain funds at a reasonable cost to sustain its asset business or meet repayment obligations. This risk exists even if a bank's solvency remains strong. In accordance with liquidity policies, the Group monitors the future cash flows and maintains an appropriate level of highly liquid assets.

The Asset and Liability Management Committee ("ALMC") is responsible for managing the Group's overall liquidity risk. The ALMC is responsible for the formulation of the liquidity policies in accordance with regulatory requirements and prudential principles. Such policies include:

- Maintaining at a stable and sufficient level; establishing integrated liquidity risk management system; ensuring the meeting on a timely basis of liquidity requirements and the payment of assets, liabilities, and off-balance sheet business, whether under a normal operating environment or a state of stress; balancing the effectiveness and security of funds in an efficient manner; and
- Making timely and reasonable adjustments to capital structure and scale in response to market changes and business developments; pursuing profit maximization and cost minimisation to a modest extent while ensuring appropriate liquidity; achieving the integration of the security, liquidity, and effectiveness of the Group's funds.

The assets and liabilities management department is responsible for the development of liquidity risk management strategies, policies, procedures and limits, and routine supervision and monitoring of liquidity risks. It establishes and implements internal control systems relating to liquidity risk management, such as Liquidity Risk Management Measures (流動性風險管理辦法) and Contingency Plan for Liquidity Risks (流動性風險應急預案). The assets and liabilities management department is also responsible for setting annual liquidity management objectives and liquidity management profile plans. It also monitors and adjusts these plans on a quarterly basis in order to maintain a reasonable assets and liabilities structure.

A substantial portion of the Group's assets are funded by deposits from customers. These deposits from customers, which have been growing in recent years, are widely diversified in terms of type and duration and represent a stable source of funds.

The Group principally uses liquidity gap analysis to measure liquidity risk. Scenario analysis and stress testing are also adopted to assess the impact of liquidity risk.

#### (c) Liquidity Risk (Continued)

The following tables provide an analysis of assets and liabilities of the Group into relevant maturity groupings based on the remaining periods to repayment at 31 December 2021 and 2020: (Continued)

Note:

Indefinite amount of cash and deposits with the central bank represents the statutory deposit reserves and fiscal deposits with the central bank. Indefinite amount of loans and advances to customers includes all the impaired loans, as well as those overdue more than one month. Loans and advances to customers with no impairment but overdue within one month are classified into the category of repayable on demand. Indefinite amount of investments represents impaired investments or those overdue more than one month. Equity investments are listed in the category of indefinite.

The following tables provide an analysis of the contractual undiscounted cash flow of the non-derivative financial liabilities and off-balance sheet credit commitments by remaining contractual maturities at 31 December 2021 and 2020:

### 51. FINANCIAL RISK MANAGEMENT (Continued)

#### (d) Operational risk

Operational risk refers to the risk of losses associated with internal processes deficiencies, personnel mistakes and information system failures, or impact from other external events.

The Group establishes a framework of policies and procedures to identify, assess, control, manage and report operational risk. The framework covers all business functions ranging from corporate banking, retail banking, settlement, intermediary business and all supporting functions, including human resource management, financial management, legal affairs, anti-money laundering and administration management. The key elements of the framework are listed as below:

- A multi-level operational risk management framework with segregation of duties between front and back offices under the leadership of senior management;
- A series of operational risk management policies covering all businesses on the basis of core operational risk management policy;
- An emergency plan and a business continuity system designed to deal with emergent and adverse circumstances, including public relation issues, natural disasters, IT system errors, bank runs, robberies, etc.;
- An evaluation system on the operational risk management as well as an inquiry and disciplinary system on the non-compliance issues; and
- An independent risk assessment framework based on the internal audit and the compliance review.

### 52. FAIR VALUE OF FINANCIAL INSTRUMENTS

#### (a) Methods and assumptions for measurement of fair value

The Group adopts the following methods and assumptions when evaluating fair values:

(i) *Debt securities*

Fair values of debt securities investments are determined with reference to the available market values. If quoted market prices are not available, then fair values are estimated on the basis of policy models or discounted cash flows.

(ii) *Receivables and other non-derivative financial assets*

Fair values are estimated as the present value of the future cash flows, discounted at the market interest rates at the end of the reporting period.

(iii) *Debt securities issued and other non-derivative financial liabilities*

Fair values of debt securities issued are based on the present value of estimated future cash flows at the end of the reporting period. The fair values of other non-derivative financial liabilities are valued at the present value of estimated future cash flows. The discount rates are based on the market interest rates at the end of the reporting period.

For the Year Ended 31 December 2021

### 52. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

#### (b) Fair value measurement

##### (i) Financial assets

The Group's financial assets mainly consist of cash and deposits with the central bank, receivables with banks and other financial institutions, loans and advances to customers, and investments.

Deposits with the central bank and receivables with banks and other financial institutions are mostly priced at market interest rates and due within one year. Accordingly, the carrying amounts approximate the fair values.

Loans and advances to customers are mostly priced at floating rates close to the PBOC rates. Accordingly, the carrying amounts approximate the fair values.

Financial assets at FVTPL and financial assets at FVTOCI are stated at fair value. The carrying amount of financial assets at amortised cost approximates their fair values.

##### (ii) Financial liabilities

The Group's financial liabilities mainly include borrowing from the central bank, deposits and placements from banks and other financial institutions, financial assets sold under repurchase agreements, deposits from customers and debts securities issued.

The carrying amounts of financial liabilities are approximate to their fair value.

## Notes to the Consolidated Financial Statements (Continued)

For the Year Ended 31 December 2021

### 52. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

#### (c) Fair value hierarchy

The following table presents the carrying value of financial instruments measured at fair value in the consolidated statements of financial position across the three levels of the fair value hierarchy. The level in the fair value hierarchy within which the fair value measurement is categorised is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. These three types of inputs have created the following fair value hierarchy:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for assets or liabilities that are not based on observable market data (unobservable inputs).

If there is a reliable market quote for financial instruments, the fair value of financial instruments is based on quoted market prices. If a reliable quoted market price is not available, the fair value of the financial instruments is estimated using valuation techniques. Valuation techniques applied include reference to the fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models. The inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and foreign exchange rates. Where discounted cash flow analysis is used, estimated cash flows are based on management's best estimates and the discount rate used is reference to another instrument that is substantially the same.

#### (c) Fair value hierarchy (Continued)

During the year ended 31 December 2021 and 2020, there were no significant transfers among each level.

- (i) The Group uses valuation techniques to determine the fair value of financial instruments when open quotation in active markets is not available. The main parameters used in valuation techniques for financial instruments held by the Bank include bond prices, interest rates, foreign exchange rates, equity and stocks prices, volatilities, correlations, early repayment rates, counterparty credit spreads and others, which are basically observable and obtainable from open market.
- (ii) The valuation techniques and input used in the fair value measurements of financial instruments as set out below:

Financial assets	Fair value as at,		Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable input(s)	Relationship of key inputs and significant unobservable inputs to fair value

The higher the PB ratio, the higher the fair value. The higher the DLOM, the lower the fair value. (Note (i))

#### (c) Fair value hierarchy (Continued)

- (ii) The valuation techniques and input used in the fair value measurements of financial instruments as set out below: (Continued)

Notes:

- (i) A 5% increase in PB ratios used in isolation would result in an increase in fair value measurement of unlisted equity investments at FVTPL by RMB35,586,000 (2020: RMB27,268,000) and vice versa.  
A 0.5% increase in DLOM used in isolation would result in a decrease in fair value measurement of unlisted equity investments at FVTPL by RMB3,954,000 (2020: RMB3,030,000) and vice versa.
- (ii) A 5% increase in PB ratios used in isolation would result in an increase in fair value measurement of unlisted equity investments at FVTOCI by RMB523,000 (2020: RMB2,322,000) and vice versa.  
A 0.5% increase in DLOM used in isolation would result in a decrease in fair value measurement of unlisted equity investments at FVTOCI by RMB58,000 (2020: RMB258,000) and vice versa.

Reconciliation of Level 3 fair value measurements of financial assets:

	Unlisted equity investment		Total RMB'000

Transfer into level 3 (Change in valuation methodology)	210,972	—	210,972
At 31 December 2021	936,407	10,450	946,857

The above fair value losses and gain of approximately RMB79,889,000 and RMB25,296,000 (2020: fair value losses and gain of RMB41,049,000 and RMB8,107,000) respectively are included in net trading gains and investment revaluation reserve for the year ended 31 December 2021.

The fair value of equity investment is determined with reference to price-to-book ratio of certain listed companies with an adjustment of discount for lack of marketability, which are unobservable inputs for the fair value measurement. The higher the discount for lack of marketability, the lower the fair value.

### 3. International claims

The Group is principally engaged in business operations within Mainland China, and regards all claims on third parties outside Mainland China as international claims.

International claims include loans and advances to customers, balances with the central bank, deposit and placement with banks and other financial institutions.

A country or geographical area is reported where it constitutes 10% or more of the aggregate amount of international claims, after taking into account any risk transfers. Risk transfers are only made if the claims are guaranteed by a party in a country which is different from that of the counterparty or if the claims are on an overseas branch of a bank whose Head Office is located in another country.
