Chairman's Statement

On behalf of the board of directors (“Board”) of Prosper Construction Holdings Limited (“Company”), I am pleased to present the annual report of the Company and its subsidiaries (collectively, the “Group”) for the year ended 31 December 2021 (“Year 2021”).

The Group has established a strong foothold in the general construction market in the PRC with the acquisition of Qingdao Dongjie Construction Group Co., Ltd.* (青島東捷建設集團有限公司) and Qingdao Honghai Curtain Wall Co., Ltd.* (青島宏海幕牆有限公司) in the past 2 years. The greater Qingdao area, being a coastal city, and the Qingdao West Coast New Area being a state-level focal development new area, afford a huge market for urban development and marine construction projects. The Group’s strategic move enabled it to capture business opportunities available in PRC construction market and to synergise its long-term development by leveraging on the business network of Company’s controlling shareholder Qingdao Haifa State-owned Capital Investment and Operation Group Co., Ltd.* (青島海發國有資本投資運營集團有限公司) (“Qingdao Haifa Group Co.”), and is already proven successful as the Group recorded a revenue growth of more than double for the Year 2021, with approximately 84.0% of revenue generated from the general construction business segment. In the marine construction segment, aside from supporting regional development projects in Hong Kong and Macao, the Group is technically competent to undertake marine construction projects overseas and particularly focusing on markets associated with the national belt-and-road initiative.

The Group shall follow the strong national development roadmap and is well-positioned to take on opportunities available on the national or cross-nation level in the post-pandemic period brought on by governmental policies to stimulate economy rebound and is confident that its business strategies will drive the Group towards becoming a well-respected integrated construction and engineering solution provider.

On behalf of the Board, I would like to express our heart-felt gratitude to our business partners, shareholders and staff members for their confidence and unwavering support through the particularly harsh operating environment in the past two years. We are confident the Company can overcome the turbulence and steer into smooth sailing in the near future.

Management Discussion and Analysis

Business Review

The Group's marine construction business during the Year 2021 was mainly driven by projects in Macao, which was relatively less affected by the COVID-19 outbreak. Albeit minor delay in the launch of potential new projects was noted, the Group's existing projects in Macao achieved favourable progress in Year 2021 and contributed HK\$327.8 million, representing approximately 10.3% of the Group's total revenue for Year 2021. The marine construction market in Hong Kong is starting to recover as proceedings at the legislative council returned to normal and disruptions caused by COVID-19 subsided and the Group has secured two new marine construction projects in Hong Kong with estimated contract sum of over HK\$100 million each during Year 2021. On the other hand, essentially all of the Group's overseas projects have been concluded by the end of Year 2021 and no major new projects has been entered into during Year 2021 as negotiation of projects at overseas locations has been restricted owing to the prolonged COVID-19 situation.

The Group established a strong presence in the general construction business in Qingdao since the acquisition of Qingdao Dongjie Construction Group Co., Ltd.* (青島東捷建設集團有限公司) ("Dongjie Construction") (previously known as Qingdao Dongjie Construction Engineering Co., Ltd.* 青島東捷建設工程有限公司) in the year 2020 and, as a strategic step to enhance its competitive advantage and capture a larger market share, further acquired a 34% equity interest with control over the board of Qingdao Honghai Curtain Wall Co., Ltd.* (青島宏海幕牆有限公司) ("Honghai Curtain Wall"), which is principally engaged in design and implementation of construction and decoration works, design, production and installation of curtain walls, doors and windows, steel structure works, landscaping and municipal construction, in Year 2021. Taking advantage of the business network of the Company's controlling shareholder Qingdao Haifa Group Co. (青島海發國有資本投資運營集團有限公司) (together with its subsidiaries and/or affiliated companies collectively referred to as "Haifa Group"), the Group's revenue from general construction contracting business in the PRC experienced substantial growth of approximately 117.3% during the Year 2021. A summary of the Group's revenue by geographic location and major projects for the Year 2021 is set out below.

| | Revenue recognised in Year 2021 HK\$'million | Contribution to total revenue | Current status |
|--|---|-------------------------------------|--|
| Marine construction works and auxiliary marine related services (collectively, the "Marine Business") | | | |
| Macao | | | |
| Two land reclamation projects | 194.9 | 6.2% | On-going and expecting completion in Q2/2022 |
| Trestle bridge and dredging in relation to cross-harbour bridge project | 98.0 | 3.1% | On-going and expecting completion in Q3/2023 |
| Engineering, procurement and construction ("EPC") contract for electricity generation facility | 20.5 | 0.6% | On-going and expecting completion by Q4/2022 |
| Others | 14.4 | 0.5% | |
| Vietnam | | | |
| Auxiliary marine services for electricity generating facility | 29.8 | 0.9% | Substantially completed |

Management Discussion and Analysis (continued)

| | Revenue recognised in Year 2021 HK\$'million | Contribution to total revenue | Current status |
|--|---|-------------------------------------|---|
| Hong Kong | | | |
| Marine construction works | 64.6 | 2.0% | |
| Auxiliary marine services | 34.5 | 1.1% | |
| Other locations | | | |
| Marine construction works | 10.9 | 0.3% | |
| Auxiliary marine services | 41.5 | 1.3% | Various projects in Pakistan and Vietnam |
| General construction contracting services (the “General Construction Business”) | | | |
| Qingdao | | | |
| Landong & Lanxi re-development projects | 532.1 | 16.7% | On-going and expecting completion in Q1/2023 |
| Innovation and Technology Centre construction | 309.0 | 9.7% | On-going and expecting completion in Q2/2024 |
| Office building construction | 290.1 | 9.1% | On-going and expecting completion in Q2/2022 |
| Residential development project | 159.3 | 5.0% | On-going and expecting completion in Q2/2023 |
| Other smaller general construction projects | 1,386.2 | 43.5% | |
| Total | 3,185.8 | 100.0% | |

As noted above, revenue from General Construction Business contributed approximately HK\$2,676.7 million or 84.0% of the Group's revenue for the Year 2021, out of which approximately HK\$1,825.2 million or 57.3% of the Group's total revenue was derived from the Haifa Group.

Outlook and Prospects

The Group has entered into a cooperation agreement and is negotiating the terms of subcontracting arrangement with the main contractor of a new land reclamation project in Macao that is expected to commence in the latter part of year 2022. Meanwhile, the bidding for several planned large scale marine construction projects in the Philippines, Pakistan and Thailand has been hindered by the COVID-19 outbreak; nonetheless, the Group has been awarded an auxiliary marine related service project in the Philippines in year 2022 with an estimated contract sum of over HK\$300 million. Our management team is closely monitoring the development of potential marine construction projects under planning by our target customers and the Group is already prepared to take swift action to bid for potential overseas projects in an effective manner.

Management Discussion and Analysis (continued)

As part of the governmental initiative for urban development of the Qingdao West Coast New Area, the Group expects a large number of projects to be launched in the foreseeable future and the Group's participation in construction projects related to the Haifa Group will continue to rise. Accordingly, the Group has entered into a supplemental agreement with the Qingdao Haifa Group Co. in June 2021 for upward revision of annual caps of construction services transactions to be entered into between the Group and the Haifa Group for the three years ending 31 December 2021, 2022 and 2023.

The status of the Group's key projects on hand is set out below:

| | Location | Estimated remaining contract sum HK\$'million | Expected time of completion |
|---|-----------------------------|--|-----------------------------|
| Project(s) that have already commenced as at 31 December 2021 | | | |
| EPC contract for an electricity generation facility | Macao | 413.7 | End of year 2022 |
| Trestle bridge and dredging in relation to a cross-harbour bridge project | Macao | 71.0 | Third quarter of year 2023 |
| Rock placement services for underwater pipeline project | Hong Kong | 133.6 | End of year 2022 |
| Residential development project | Qingdao West Coast New Area | 242.1 | Second quarter of year 2023 |
| Residential development project | Qingdao West Coast New Area | 192.4 | Third quarter of 2023 |
| Science and technology innovation center project | Qingdao West Coast New Area | 996.1 | Second quarter of 2024 |
| Residential development project | Qingdao West Coast New Area | 149.7 | End of year 2022 |
| Residential development project | Qingdao City | 1,053.5 | Third quarter of 2025 |
| Project(s) commencing or are newly awarded after 31 December 2021 | | | |
| Car park development project | Qingdao West Coast New Area | 162.0 | Third quarter of 2025 |
| Office building construction work | Qingdao West Coast New Area | 123.6 | Third quarter of 2025 |
| Provision of auxiliary marine related services | Philippine | 301.8 | Second quarter of 2023 |

Management Discussion and Analysis (continued)

As the international community is relaxing travel restrictions and other pandemic control measures, we expect to see an acceleration in the launch of large-scale development projects, especially infrastructure and public facility projects, and the Group is in an advantageous position to take on such opportunities along the belt-and-road region where it has commendable business record, such as Pakistan and Indonesia. Moreover, the Qingdao West Coast New Area is one of the state-level new areas with the most diverse set of industries for focal development and the Haifa Group is endowed with the responsibility and opportunity to plan and develop land reserve and undertake major infrastructure and urban development projects etc. in the area; as such, it is envisaged that the General Construction Business will continue to be the key revenue driver for the Group, with a significant portion of revenue sourced through the Haifa Group. It is also expected that the marine construction market in Hong Kong will liven up with the launch of projects associated with the Lantau Tomorrow development plan as promulgated in the policy address of the chief executive of the Hong Kong SAR. Looking beyond the near-term uncertainties brought on by the COVID-19 outbreak, there is ample growth potentials available to the Group in the medium to long term.

Financial Review

Revenue

The Group recorded revenue of HK\$3,185.8 million for the Year 2021, representing an increase of approximately 117.4% from the year ended 31 December 2020 (“Year 2020” or “Previous Year”) as a combined effect of (i) an increase in revenue from General Construction Business by approximately HK\$1,939.2 million; (ii) a decrease in revenue from auxiliary marine related services by approximately HK\$151.6 million; (iii) a decrease in revenue from Marine Construction Works approximately HK\$67.4 million. The substantial rise in revenue from General Construction Business is attributable to the Company’s strategy to acquire Dongjie Construction and Honghai Curtain Wall, which enabled to Group to take on vast business opportunities available in the Qingdao area. On the other hand, negotiations for new auxiliary marine related services projects located in overseas have been restricted, revenue contribution from this business segment experienced notable decline as existing projects gradually progressed to the final stage during the Year 2021. A breakdown of the Group’s revenue from major projects and by geographic location is set out in the section headed “Business Review” above and in note 5 to the consolidated financial statements.

Cost of sales and gross profit

Cost of sales for the Year 2021 increased by 116.1% to HK\$2,980.7 million, which is consistent with the rise in revenue. Gross profit margin in Year 2021 slightly increased by 0.5% to 6.4%, as compared to 5.9% for Year 2020, while gross profit increased by 136.8% to HK\$205.1 million for Year 2021, driven by the growth in revenue.

(Provision for)/reversal of impairment losses on financial assets

The Group recorded a provision for expected credit loss amounting to HK\$29.1 million for the Year 2021 based on the management’s latest assessment of risk of default in general on the Group’s financial assets, as compared to a reversal of provision for impairment of HK\$3.0 million for the Previous Year. The significant rise in provision for expected credit loss is in line with the significant increase in the balances of financial assets as at 31 December 2021 which were pending settlement.

Research and development expenses

Expenses of HK\$11.3 million were incurred in Year 2021 in relation to the research and development of curtain wall engineering and construction technology.

Management Discussion and Analysis (continued)

Other administrative expenses

Other administrative expenses for the Year 2021 increased to approximately HK\$95.7 million as compared to approximately HK\$51.7 million for the Year 2020 as a result of (i) administrative expenses in the ordinary operation of the newly acquired Honghai Curtain Wall, which mainly comprised staff costs; and (ii) increase in legal and professional fees in Year 2021, mainly due to fees incurred for the acquisition of Honghai Curtain Wall and handling of connected transactions entered into during the Year 2021.

Income tax expenses

The Group incurred income tax expenses of HK\$14.4 million for Year 2021 mainly due to the assessable profits derived from the PRC and Macao.

The Group's marine construction business in Macao is subject to Macao complementary income tax at a rate of 12%.

The Group's general construction contracting business in Qingdao is subject to PRC corporate income tax at a rate of 25% except for subsidiaries which qualify as High-New Technology Enterprises which are subject to a tax rate of 15%.

Operating profit, finance costs and profit before tax

Albeit the substantial growth in revenue and gross profit, operating results for Year 2021 was hampered by rise in provision for impairment losses on financial assets, research and development expenses and other administrative expenses as mentioned above. Consequently, the Group's operating profit for Year 2021 grew by approximately HK\$32.8 million or 85.9% only.

Furthermore, additional external financings were drawn to provide working capital to support business growth in Year 2021, which led to an increase in net finance costs by HK\$29.9 million.

Overall, the Group recorded a profit before tax of HK\$31.2 million for Year 2021, as compared to HK\$28.4 million for Year 2020. Setting aside the effect of impairment losses on financial assets, which is provisional in nature and may or may not materialise, the Group's profit before tax for Year 2021 would have amounted to HK\$60.3 million, as compared to HK\$25.4 million for Year 2020, representing an increase of approximately HK\$34.9 million..

Property, plant and equipment

As at 31 December 2021, the Group owned a total of 44 units of marine vessels and 189 units of machinery and equipment and an office building in Qingdao, PRC.

The additions to plant and equipment during the Year 2021 were mainly related to acquisition of vessels for the Marine Business.

Management Discussion and Analysis (continued)

Trade, retention and notes receivables and amounts due from fellow subsidiaries

The Group's trade, retention and notes receivables increased by approximately HK\$152.1 million to HK\$555.9 million as at 31 December 2021, of which approximately HK\$268.8 million pertained to the Marine Business segment while approximately HK\$287.1 million pertained to the General Construction Business segment. Trade and retention receivables in the Marine Business mainly comprised of receivables for works on projects already completed and pending settlement of final accounts. Trade receivables in the General Construction Business mainly comprised works performed pending settlement by customers.

The Group's amounts due from fellow subsidiaries increased by approximately HK\$1,389.3 million to HK\$1,439.6 million as at 31 December 2021 and pertained to the General Construction Business segment which comprised of receivables for works on projects pending settlement by the fellow subsidiaries.

While there is currently no indication of possible default on any of the Group's receivable balances, the management acknowledges there is certain default risks associated with receivables balances in general and has adopted a systematic approach in assessing the overall risk of default and appropriate provision for expected credit loss has been made against the Group's receivable balances as at 31 December 2021.

Contract assets/liabilities

Contract assets represent amounts due from customers for contract works performed which had not been billed as at the end of the year. The balance of contract assets as at 31 December 2021 for the Marine Business and General Construction Business was approximately HK\$217.6 million and HK\$1,109.1 million respectively. Majority of the contract assets in the Marine Business was related to three completed projects in Hong Kong which were pending the finalisation of project account. The Group has commenced dispute resolution procedures for the aforesaid three completed projects and based on preliminary assessment by the Group's project legal consultant, the Group is expected to be able to recover not less than the carrying value of the contract assets as at 31 December 2021 for these projects.

Contract liabilities as at 31 December 2021 represent amounts due to contract customers for payment received in excess of revenue recognisable by the Group according to the progress achieved, mainly in relation to the Group's EPC contract for an electricity generation facility project in Macao.

Management Discussion and Analysis (continued)

Material Differences between Unaudited and Audited Annual Results

The Company published its unaudited results for the Year 2021 by way of an announcement (the “Unaudited Annual Results Announcement”) on 31 March 2022 to keep shareholders and potential investor informed of the Group’s financial performance while pending for the completion of audit process, which had been delayed due to the COVID-19 outbreak.

Since the financial information contained in the Unaudited Annual Results Announcement was neither audited nor agreed with the Company’s auditor PricewaterhouseCoopers (“PwC”) as at the date of its publication and subsequent adjustments have been made to such information, shareholders and potential investors of the Company are advised to pay attention to certain differences between the financial information of the unaudited and audited annual results of the Group. Set forth below are principal details and reasons for the material differences in such financial information in accordance with Rule 13.49(3)(ii)(b) of the Rules Governing the Listing of Securities on the Stock Exchange (the “Listing Rules”).

Management Discussion and Analysis (continued)

Notes:

- (1) The difference is due to (a) uninstalled materials identified which increase inventories by HK\$31,985,000 and reduce cost of sales by HK\$31,496,000, (b) correction of over-accrual of cost of sales by HK\$5,250,000 and (c) recognition of fulfilment cost of HK\$24,717,000 and the aggregate corresponding impact from (a), (b) and (c) on revenue of HK\$15,003,000 and tax provision by HK\$608,000.
- (2) The difference is due to the additional provision for impairment loss on financial assets of HK\$1,785,000 under the expected credit loss model.
- (3) The difference is due to the impairment loss of HK\$404,000 recognised based on the valuation report from the independent qualified valuer.
- (4) The differences are mainly due to reclassification among profit and loss items and balance sheet items.

Liquidity, Capital Structure and Gearing

The Group's net current asset and net debt are approximately HK\$727.8 million (31 December 2020: HK\$367.8 million) and HK\$917.9 million (31 December 2020: HK\$168.0 million) respectively as at 31 December 2021. The Group's gearing ratio (calculated by dividing total debts by total equity) as at 31 December 2021 was 203.4% (31 December 2020: 80.4%). The increase in gearing during the Year 2021 was due to (i) funds used in the acquisition of Honghai Curtain Wall; (ii) funds used for the acquisition of plant and equipment; and (iii) drawdown of loans to finance for working capitals to support business growth. The Group did not have any unutilised banking facilities as at 31 December 2021 (31 December 2020: Nil). The maturity and interest rate profile of the Group's borrowings are set out in note 29 to the consolidated financial statements.

Foreign Exchange

Operations of the Group was mainly conducted in Chinese Renminbi ("RMB"), Hong Kong dollars ("HK\$"), Macao Patacas ("MOP"), United States dollars ("US\$") (together, the "Major Currencies"), Malaysian Ringgit ("MYR") and Indonesian Rupiahs ("IDR"). The Group did not adopt any hedging policy and the Directors consider that the exposure to foreign exchange risks can be mitigated by using the Major Currencies (i) as principal currencies in the Group's contracts with customers; and (ii) to settle payments with its suppliers and operating expenses where possible. In the event that settlement from the Group's customer is received in MYR, IDR or a currency other than the Major Currencies, such currency will be retained for payment of operating expenditures only as required and the remaining foreign currency will be converted to HK\$ or US\$ promptly.

Capital Expenditures and Commitments

The Group generally finances its capital expenditures by cash flows generated from its operation and long-term bank borrowings. During the Year 2021, the Group invested approximately HK\$15.6 million in acquisition of vessels and approximately HK\$9.8 million in machinery and equipment, among others.

The Group's fleet of vessels for marine construction works grew by 4 units during the Year 2021 to a total of 44 units as at 31 December 2021, with order placed for 1 further vessel which is yet to be delivered.

The Group's committed orders for capital equipment as at 31 December 2021 amounted to approximately HK\$9.3 million.

Management Discussion and Analysis (continued)

Material Acquisitions and Disposals of Subsidiaries, Associates and Joint Ventures

The Group completed the acquisition of 34% equity interest in 青島宏海幕牆有限公司 (Qingdao Honghai Curtain Wall Co., Ltd.*) on 13 January 2021 at a consideration of approximately RMB49.9 million, the details of which have been disclosed in the announcement dated 16 November 2020 and the circular dated 18 December 2020 published by the Company.

Other than the above, the Group had no material acquisitions or disposals of subsidiaries, associates and joint ventures during the Year 2021.

Significant Investments Held

The Group had not held any significant investments during the Year 2021.

Charges on Assets

As at 31 December 2021, (i) plant and equipment with carrying value of approximately HK\$nil million (2020: HK\$6.2 million) and deposits of HK\$71.1 million (2020: HK\$23.7 million) were pledged to secure for the Group's bank borrowings; and (ii) approximately HK\$nil million (2020: HK\$44.4 million) were pledged as security for provision of a performance bond and a prepayment surety bond for the Group's project in Macao.

Contingent Liabilities and Disputes

Contingent liabilities in relation to performance bonds of construction contracts

As at 31 December 2021, the joint operations held by the Group have given guarantees on performance bonds in respect of construction contracts in the ordinary course of business, and the amounts shared by the Group were HK\$51.9 million (2020: HK\$128.8 million). The performance bonds as at 31 December 2021 as expected to be released in accordance with the terms of the respective construction contracts.

Involvement in litigation

A subsidiary of the Group is one of the two defendants to a litigation in which they are alleged to have caused damage to certain facilities of the plaintiff during a typhoon in 2018. The plaintiff is claiming damages for HK\$112 million subject to adjustments. As advised by the Group's independent legal advisor, the case is at an early stage before exchanging evidence and it is not possible to give a firm evaluation of the likelihood of the outcome or estimate the possible amount of loss, if any. Consequently, no provision in relation to the litigation has been made in the consolidated financial statements as at 31 December 2021.

Relationships with Employees, Customers and Suppliers

The Directors recognise that employees, customers and business partners are the keys to the sustainable development of the Group. The Group is committed to building a close and caring relationship with its employees and business partners and improving the quality of services to the customers.

Management Discussion and Analysis (continued)

Employees and remuneration policies

Employees are regarded as the most important and valuable assets of the Group. The Group ensures all staff is reasonably remunerated and its workers are provided with regular training courses on operation of different types of machinery, as well as work safety. The Group strives to motivate its employees with a clear career path and opportunities for advancement and improvement of their skills.

The number of staff of the Group by functions as at 31 December 2021 and 2020 are as follows:

| | As at 31 December | |
|-------------------------------|-------------------|------|
| | 2021 | 2020 |

The total staff costs of the Group (including Directors' emoluments, salaries to staff, direct wages and other staff benefits included provident fund contributions and other staff benefits) for the Year 2021 was approximately HK\$154.8 million (2020: HK\$227.2 million). The Group determines the salary of its employees mainly based on each employee's qualifications, relevant experience, position and seniority. The Group monitors the performance of individual employee on a continuous basis and rewards outstanding performance of the employees by salary revision, bonus and promotion where suitable. The Group maintains a good relationship with its employees and has not experienced any significant problems with its employees due to labour disputes nor any difficulty in the recruitment and retention of experienced staff.

Senior management of the Group comprised of executive Directors, who take a direct and active role in the management of the Group and whose remuneration is set out in note 12 to the consolidated financial statements.

Customers and suppliers

The executive Directors and the Group's management team maintain frequent contact with both public and private sector participants in the construction industry in Hong Kong, Macao and overseas to keep abreast of market developments and potential business opportunities. Having been in operation in Hong Kong since 2001, and with the prior experience of the Group's senior management members in managing similar projects overseas, the Group has developed a good reputation in the construction industry. With the Group's experience in working with PRC state-owned construction enterprises and their branch offices in Hong Kong and overseas, the Group has up-to-date information regarding new business opportunities in infrastructure projects to be undertaken or tendered by such construction enterprises in Hong Kong, Macao and Southeast Asia. The Directors believe that the Group has maintained and will be able to continue to maintain good relationships with customers, potential customers, suppliers, subcontractors and other parties involved in the business. The Group also stays connected with its customers and suppliers and has ongoing communication with the customers and suppliers through various channels such as telephone, electronic mails and physical meetings to obtain their feedback and suggestions.

Management Discussion and Analysis (continued)

Dividend

The board of Directors does not recommended the payment of a dividend for the Year 2021.

Environmental Policies

The Group is committed to environment conservation when undertaking its operation and has implemented various systems and measures to minimise the possibility of pollution and to preserve the marine ecological environment, which include but are not limited to the following:

- (i) identifying environmental protection requirements in project tender documents and assessing whether the Group has the capability to meet such requirements;
- (ii) taking into consideration the environmental impacts in project planning and the design of work method statements;
- (iii) equipping all of the Group's vessels with fuel leakage defence equipment for suppressing the spread of floating fuel spills in case of leakage;
- (iv) installing facilities as required to prevent contamination, such as silt curtains to prevent sediment pollution when carrying out land reclamation works and underwater bubble curtains to act as a noise barriers to reduce noise level from marine piling works; and
- (v) sorting excavated materials from dredging and excavation works for recycling use or disposal, and in case of contaminated sediment, disposing of the excavated materials at designated dumping area according to the relevant regulations.

The Group is accredited with ISO14001 and follows the procedures and requirements of the environmental management system in its operation. There had been no sanctions or penalties imposed on the Group for violation of any environmental laws or regulations during the Year 2021.

Principal Risk and Uncertainty

The Group's operation is subject to general economic and market risks which may affect the competition and profitability of marine construction projects. Furthermore, the Group's ability to successfully bid for or execute projects is dependent on its ability to devise effective and efficient work methods and the availability of vessels and equipment. The Group's operation at overseas locations is susceptible to potential political unrests, changes in business, foreign investment, taxation and currency control regulations at such jurisdictions.

Significant Events After the Financial Year

No significant event has occurred after 31 December 2021 and up to the date of this report which would have a material effect on the Group.

Corporate Governance Report

Corporate Governance Report

Corporate Governance Practices

The Company is committed to maintain a high standard of corporate governance and considers that conducting business in an ethical and responsible manner will generate the highest level of benefits to its shareholders and the Group in the long term. The Board will continuously review and improve the Group's corporate governance practices in order to uphold a transparent and effective corporate governance function for the Group.

The Company has adopted the code provisions of the Corporate Governance Code ("CG Code") as set out in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Stock Exchange") ("Listing Rules") and has complied with the code provisions throughout the Year 2021.

Directors' Securities Transactions

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix 10 of the Listing Rules (the "Model Code") and all the Directors confirmed, upon specific enquiry made, that they complied with the Model Code throughout the Year 2021.

The Company has also established guidelines no less exacting than the Model Code for securities transactions by employees who are likely to be in possession of inside information of the Company and there is no incident of non-compliance with such guidelines by the relevant employees throughout the Year 2021.

Board of Directors

The Board is responsible for leading and directing the Group's business through formulation of overall strategies and policies, evaluation of performance and overseeing the management function. In discharging its duties, the Board acts in good faith with due diligence and care, and makes decisions objectively in the best interests of the Company and its shareholders. The execution of strategies and implementation of policies in the Group's daily operations are delegated to the management team.

Corporate Governance Report (continued)

The composition of the Board during the Year 2021 and the attendance record of each Director at board meetings and general meetings held during the Year 2021 are set out below.

| | Attendance/ Board meetings held | Attendance/ General meetings held |
|---|---------------------------------------|---|

Each of the executive Directors has entered into a service contract with the Company for an initial term of three years, while each of the independent non-executive Directors has been appointed for an initial term of one year except Mr. Cheung Chi Man Dennis, who has been appointed for an initial term of two years. Notwithstanding the specific term of appointment, provisions of the Company’s articles of associations require that every Director is subject to retirement by rotation at least once every three years and any new Director appointed by the Board to fill a casual vacancy or as an addition to the Board shall hold office only until the next following general meeting of the Company.

Each of the Directors has participated in continuous professional development seminar organised by the Company or studied the seminar materials to develop their knowledge and skills during the Year 2021.

The Company has received from each of the independent non-executive Directors an annual confirmation of independence and considers that each of them to be independent by reference to the Rule 3.13 of the Listing Rules.

The composition of the Board provides sufficient balance of skills, experience and diversity of perspectives in leading the Company to achieve its goal and the independent non-executive Directors provide independent judgment in the Board’s overall decision making process.

Corporate Governance Report (continued)

Board Committee

As an integral part of good corporate governance, the Board has established four committees for overseeing the performance of specific functions which are set out in written terms of reference for each committee. The summary of their work during the Year 2021 is as follows:

Corporate Governance Report (continued)

Audit committee

The audit committee is primarily responsible for the engagement of the auditor, review of financial information, overseeing the financial reporting system, risk management and internal control systems. Members of the audit committee also acted as members of an independent board committee and provided their advice to the Company's independent shareholders on how to vote on connected transaction and continuing connected transactions entered into during the Year 2021. The audit committee has met with the Company's management to review its interim and final consolidated financial statements for the Year 2021 and met the Company's auditor to discuss auditor's independence, audit approach, key audit matters, results of audit and review on continuing connected transactions for the Year 2021. The audit committee has met with the chairman of the Board and the auditor, separately and without the presence of management, for discussion of matters which may be of sensitive nature. The audit committee has also met with and reviewed the report of the Company's internal control adviser for their review on selected areas of the Group's internal control system for the Year 2021. Further information on the Group's risk management and internal control is set out in the section headed "Risk Management and Internal Control" of this report.

Nomination committee

The nomination committee is responsible for reviewing the structure, size and composition of the Board, identifying suitably qualified individuals to become Board members, assessing the independence of independent non-executive Directors, making recommendations to the board on the appointment or reappointment of Directors and assessing the diversity of Directors. The Company has a policy on diversity of Directors to ensure that the Board has the appropriate mix of expertise and experience, and collectively possesses the necessary core competence for informed decision-making and effective functioning. In determining the Board's composition and selection of candidates to the Board, the nomination committee will consider factors including but not limited to gender, age, cultural and education background, or professional experience. It will also ensure that the Board shall comprise members with the following attributes in order to achieve a sufficient balance of knowledge and perspectives in discharging the Board's duties:

- management skills and experience;
- industry specific knowledge and experience relevant to the Group;
- financial management skills and experience; and
- legal and compliance expertise.

The Company does not discriminate on the basis of gender, age and other personal backgrounds in assessing the suitability of candidates for appointment to the Board. The Board also acknowledges stakeholders' expectation and international best practices calling for gender parity and accordingly, the nomination committee will give favourable consideration to gender minority in the selection of candidates amongst those who are equally competent and possess the desired attributes to enhance gender balance of the Board over time.

In particular, the Company will dispense with a single-gender Board by year 2024 and endeavour to achieve greater gender diversity each subsequent year. The nomination committee will also review gender composition of the Group's senior management and general staff, by reference to industrial and demographic statistics etc., on an annual basis and determine the appropriate procedures to take to enhance gender balance in the workforce as required.

The procedures to nominate candidates for election as Directors are set out in the section headed "Shareholders' Rights and Investor Relations" below.

Corporate Governance Report (continued)

The nomination committee has reviewed the independence of independent non-executive Directors, considered the retirement and proposal for appointment of Directors at the Company's annual general meeting and considered the appointment of chief financial officer during the Year 2021. The nomination committee also provided advice to the Board on determining policy to enhance gender diversity in the composition of the Board and employees in general and will review the effectiveness of gender diversity policy on an annual basis. The nomination committee is of the view that the Board comprises members with suitable qualifications and diversity for leading and governing the Group.

Remuneration committee

The responsibilities of the remuneration committee are to make recommendations to the Board on policy and structure for Directors' and senior management's remuneration, to make recommendations to the Board on the remuneration of executive and non-executive Directors, and to ensure that no Director is involved in deciding his own remuneration. During the Year 2021, the remuneration committee has assessed the performance of the Directors, reviewed the remuneration of the Directors, considered the remuneration of the newly appointed chief financial officer and made recommendations to the Board thereon.

Risk management committee

The primary duties of the risk management committee are to oversee the Group's risk management and internal control systems, to review risk reports and any material breaches of risk limits, and to review the effectiveness of the Group's risk management system. Further information on the Group's risk management and internal control is set out in the section headed "Risk Management and Internal Control" of this report.

Risk Management and Internal Control

The Board is responsible for evaluating and determining the nature and extent of the risks to take in achieving the Company's strategic objectives.

The risk management committee supports the Board in ensuring the effectiveness of the risk management and internal control of the Group and reports to the Board on any material issues identified. The risk management committee has commissioned a special review on the Company's procurement and expenditure function of its Marine Business on potential internal control deficiency. Results of the special review on internal control were reported back to the Board and appropriate remedial actions will be administered.

The Group adopted a manual of policies and procedures to provide guidance on compliance with internal control and risk management in various operational and management functions, including but not limited to project tendering, procurement, financial reporting, treasury and risk management etc.

The Company has not established a separate internal audit department; however, procedures are in place to provide adequate resources and qualified personnel to carry out the duties of the internal audit function, including annual review of the effectiveness of risk management and internal control. The Company has engaged an external independent consultant to conduct a review on the internal control system of the Group during the Year 2021 and to report their findings to the risk management committee and the Board. The review scope for the Year 2021 covered the construction in progress cycle, capital management function, inventory cycle, capital expenditures function, information technology function and environmental and occupational safety function.

Corporate Governance Report (continued)

Based on the review conducted, the Board considers that the Group's risk management and internal control systems are effective and adequate. However, the risk management and internal control systems of the Group are designed to manage rather than to eliminate the risk of failure to achieve business objectives, and can only provide reasonable but not absolute assurance against material misstatement or loss.

Auditor's Remuneration

The remuneration paid to the Company's auditor for the Year 2021 is set out below.

| | HK\$'000 |
|--------------------------------------|----------|
| Audit services provided to the Group | 4,432 |
| Non-audit services (Note) | 2,296 |
| | 6,728 |

Note: Non-audit services mainly represented services related to the major transaction of the Company.

Directors' and Auditor's Responsibilities for the Consolidated Financial Statements

The Directors acknowledge their responsibility for the preparation of consolidated financial statements which give a true and fair view of the financial position of the Group. The responsibilities of the Company's auditor on the consolidated financial statements of the Group are set out in the independent auditor's report on pages 40 to 49 of this annual report. The Directors are not aware of any material uncertainties relating to events of conditions that may cast significant doubt upon the Group's ability to continue as a going concern.

Company Secretary

The Company's company secretary is Mr. Lee Baldwin, who is an external service provider. Mr. Jiang Shuang, executive Director, is the Company's primary contact person with Mr. Lee.

The company secretary is responsible for coordinating the supply of information about the Group to the Directors. All Directors have access to the company secretary to ensure that Board procedures, and all applicable law, rules and regulations, are followed.

Shareholders' Rights and Investor Relations

One or more shareholders holding not less than 10% of the paid up capital of the Company may convene an extraordinary general meeting by making a requisition in writing, specifying any business for transaction at such meeting, to the Directors or the company secretary.

Corporate Governance Report (continued)

To propose a candidate for election as a Director at a general meeting, a shareholder should deposit a written proposal, together with a written notice by the candidate indicating his willingness to be elected, to the Company either at its principal place of business in Hong Kong (at Units 504-5, 5/F, K. Wah Centre, 191 Java Road, North Point, Hong Kong) or its branch share registrar and transfer office in Hong Kong (Tricor Investor Services Limited, Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong) at least seven clear days before the date of the general meeting.

The Company believes that effective communication with its shareholders is essential for enhancing investors' understanding of the Group's business and performance. The Company maintains a corporate website at www.prosperch.com to disseminate latest information about the Group. The Company's constitution document and terms of reference of board committees are also available for download at Company's website. There has been no change to the Company's constitution document during the Year. The chairman of the Board will attend, and endeavour to ensure the chairmen of various board committees to attend, general meetings to answer questions from shareholders.

Shareholders may send their enquiries and concerns in writing to the Board by addressing them to the Company at our principal place of business in Hong Kong at Units 504-5, 5th Floor, K. Wah Centre, 191 Java Road, North Point, Hong Kong.

Directors' Report

Principal Activities

The principal activity of the Company is investment holdings. The principal activities of the Group are the provision of marine construction services, auxiliary marine related services and general construction contracting services. The principal activities of the subsidiaries of the Company are set out in note 13 to the consolidated financial statements. The segment information of the operations of the Group for the year ended 31 December 2021 is set out in note 5 to the consolidated financial statements.

Business Review

A review on the Group's business for the year ended 31 December 2021 is set out under the section headed "Management Discussion and Analysis" of this annual report.

Results

The Group's results for the year ended 31 December 2021 are set out in the consolidated statement of profit or loss and the consolidated statement of comprehensive income on page 50 and 51 of this annual report, respectively.

Dividend Policy and Dividends

The Directors acknowledge the importance of stakeholders' engagement and would contemplate at least two times a year (prior to the announcement of annual and interim results) on the distribution of a dividend. While the Directors endeavour to share the Group's results with shareholders by way of a dividend, the portion and actual amount of distribution out of profits will be determined by the Directors having regard to a variety of factors, including but not limited to the Group's actual and expected operating results and conditions, gearing level, general financial condition, availability of cash, future plans and funding needs for expansion.

The Directors do not recommended the payment of a dividend for the year ended 31 December 2021.

As at the date of this annual report, the Board was not aware of any shareholders who had waived or agreed to waive any dividends.

Closure of Register of Members

The register of members of the Company will be closed from Thursday, 23 June 2022 to Tuesday, 28 June 2022 (both days inclusive), during which period no transfer of shares will be registered, for purpose of determining the right to attend and vote at the AGM. All transfer of the Company's shares together with the relevant share certificates must be lodged with the Company's branch share registrar and transfer office in Hong Kong no later than 4:30 p.m. on Wednesday, 22 June 2022 in order for the holders of the shares to qualify to attend and vote at the AGM or any adjournment thereof.

Summary Financial Information

A summary of the results and of the assets and liabilities of the Group for the last five years is set out on page 140 of this annual report. Such summary does not form part of the audited consolidated financial statements.

Share Capital

Details of movement in the Company's share capital during the year ended 31 December 2021 are set out in note 26(a) to the consolidated financial statements.

Reserves

Details of movement in the Group's and the Company's reserves during the year ended 31 December 2021 are set out in note 26(b) and note 38(b) to the consolidated financial statements, respectively.

The Company's distributable reserves amounted to approximately HK\$191.7 million as at 31 December 2021.

Share Option Scheme

The Company adopted a share option scheme (the "Share Option Scheme") on 22 June 2016 and no options have been granted, exercised or cancelled since then and up to the date of this annual report.

The purpose of the Share Option Scheme is to enable the Company to grant options to selected participants as incentives or rewards for their contribution to the Group. It is expected that grantees of an option will make an effort to contribute to the Group's development so as to bring about an increased market price of the Company's shares in order to capitalise on the benefits of the options granted. The Board may, at its absolute discretion, grant options pursuant to the Share Option Scheme to any directors or employees of the Company or its subsidiaries and any other persons (including customer, supplier, adviser or consultant of the Group) on the basis of the Board's opinion as to the grantee's contribution to the development and growth of the Group.

Directors' Report (continued)

The total number of shares which may be allotted and issued upon exercise of all options (excluding, for this purpose, options which have lapsed in accordance with the terms of the Share Option Scheme and any other share option scheme of the Group) to be granted under the Share Option Scheme and any other share option scheme of the Group must not in aggregate exceed 80,000,000 shares (being 10% of the shares in issue on 20 July 2016 when the shares of the Company first commenced dealing on the Stock Exchange) (the "General Scheme Limit"). The Company may seek approval of the shareholders in a general meeting to refresh the General Scheme Limit provided that the total number of shares which may be allotted and issued upon exercise of all options to be granted under the Share Option Scheme and any other share options scheme of the Group must not exceed 10% of the shares in issue as at the date of approval of the refreshed limit.

The maximum number of shares which may be allotted and issued upon the exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option scheme adopted by the Group must not in aggregate exceed 30% of the issued share capital of the Company from time to time.

The total number of shares issued and which may fall to be issued upon exercise of the options granted under the Share Option Scheme and any other share option scheme of the Group (including both exercised or outstanding options) to each participant in any 12-month period shall not exceed 1% of the issued share capital of the Company for the time being.

An option may be accepted by a participant within 21 days from the date of the offer of grant of the option and may be exercised at any time during a period to be determined and notified by the Directors to each grantee, but such period shall end in any event not later than 10 years from the date of grant of the option. A nominal consideration of HK\$1 is payable on acceptance of the grant of an option.

The subscription price for shares under the Share Option Scheme will be a price determined by the Board, but shall not be less than the higher of (i) the closing price of the shares as stated in the Stock Exchange's daily quotations sheet on the date of the offer of grant, which must be a business day; (ii) the average closing price of the shares as stated in the Stock Exchange's daily quotation sheets for the five trading days immediately preceding the date of the offer of grant; and (iii) the nominal value of the shares.

The Share Option Scheme will remain in force for a period of 10 years from the date of adoption.

Pre-emptive Rights

There is no provision for pre-emptive rights under the Company's articles of association or the laws of the Cayman Islands which would oblige the Company to offer new shares on a pro rata basis to existing shareholders.

Tax Relief and Exemption

The Company is not aware any holder of securities of the Company is entitled to any tax relief or exemption by reason of their holdings of such securities.

Purchase, Sale or Redemption of the Company's Listed Securities

Neither the Company, nor any of its subsidiaries, had purchased, sold or redeemed any of the Company's listed securities during the year ended 31 December 2021.

During the year ended 31 December 2021, the Group had carried out the following non-exempt continuing connected transactions.

Vessel chartering framework agreement

The Group entered into a vessel chartering framework agreement ("2020 Vessel Chartering Framework Agreement") with Shenzhen Changsheng Marine Engineering Limited* (深圳長盛海事工程有限公司) ("Shenzhen Changsheng"), a connected party, on 18 February 2020 for chartering of vessels. Particulars of the 2020 Vessel Chartering Framework Agreement are set out below.

Date:

18 February 2020

Term:

From 1 January 2020 to 31 December 2022 (both dates inclusive)

Parties:

- (i) Prosper Construction Group Limited ("Prosper BVI") (as charterer for and on behalf of the Group)
- (ii) Shenzhen Changsheng (as owner)

Connected relationship:

Prosper BVI is a wholly owned subsidiary of the Company.

Shenzhen Changsheng is controlled by executive Director Mr. Cui Qi.

Transaction:

The Group will charter vessels from Shenzhen Changsheng during the term of the 2020 Vessel Chartering Framework Agreement. Prosper BVI has an option to renew the framework agreement for a further period of three years, and for each exercise of a renewal option by Prosper BVI, Shenzhen Changsheng will be deemed to have granted a new option to Prosper BVI for a further extension of three years on terms to be negotiated between the parties on a fair and reasonable basis and subject to the requirements under the Listing Rules.

During the term of the 2020 Vessel Chartering Framework Agreement, members of the Group may enter into individual agreements with Shenzhen Changsheng in respect of the chartering of vessels subject to terms and conditions in compliance with the 2020 Vessel Chartering Framework Agreement.

Reasons for the transaction:

The number of vessels then owned by the Group that were available for imminent deployment outside of Hong Kong is inadequate to support the Group's demand for vessels under its on-going and upcoming projects, the 2020 Vessel Chartering Framework Agreement allows the Group to deploy vessels to its marine construction projects in an efficient and cost-effective manner, without needing to resort to chartering vessels from other third party owners.

The Group has maintained a stable and amicable business relationship with Shenzhen Changsheng since March 2015, the Directors consider that to continue the chartering of vessels from Shenzhen Changsheng by entering into the 2020 Vessel Chartering Framework Agreement is beneficial to the Group's development and allow the Group to undertake an increasing number of marine construction projects in the future.

Annual cap:

Year ending 31 December 2020: HK\$26,000,000

Year ending 31 December 2021: HK\$27,000,000

Year ending 31 December 2022: HK\$27,000,000

Year ended 31 December 2021: Nil

Directors' Report (continued)

Construction services framework agreements

The Group entered into a construction services framework agreement (“Construction Services Framework Agreement”) with Qingdao Haifa State-owned Capital Investment and Operation Group Co. Ltd.* (青島國有資本投資運營集團有限公司) (Previously known as Qingdao West Coast Development (Group) Limited*) (“Qingdao Haifa Group Co.”, together with its subsidiaries and/or affiliated companies, the “Haifa Group”) on 28 April 2020 for the provision of construction services by the Group to the Haifa Group. The Construction Services Framework Agreement was subsequently amended and supplemented by a supplemental construction services framework agreement (“Supplemental Agreement”) entered into between the parties on 3 June 2021. Particulars of the Construction Services Framework Agreement, and where applicable, as amended by the Supplemental Agreement are set out below.

Date:

28 April 2020

Term:

From 29 June 2020 (the date on which approval of the Construction Services Framework Agreement by independent shareholders of the Company was obtained) to 31 December 2022 (both dates inclusive)

Parties:

- (i) Qingdao Haifa Group Co. (as owner)
- (ii) West Coast Development (Hong Kong) Limited (“West Coast Development HK”) (for and on behalf of the Group)

Connected relationship:

Qingdao Haifa Group Co. is a controlling shareholder and the ultimate holding company of the Company holding 62.25% of the Company's issued shares.

West Coast Development HK is a wholly owned subsidiary of the Company.

Transaction:

The Group has agreed to provide construction services to the Haifa Group and may therefore participate in tenders for construction projects of the Haifa Group in the PRC from time to time.

If any tenders submitted by the Group have been awarded in accordance with the tendering procedures of the Haifa Group, the Group shall enter into individual construction contracts (the “Individual Contracts”) with the Haifa Group for the provision of construction services by the Group as the contractor subject to terms and conditions of the Construction Services Framework Agreement at fair and reasonable market prices and subject to the requirements under the Listing Rules. The contract sum payable under each of the Individual Contracts will be determined through an open tender process to ensure that the price and terms of the tender submitted by the Group are on normal commercial terms and no less favourable to the Group than those submitted to independent third parties, or the market prices or benchmarks for transactions of similar nature.

Reasons for the transaction:

The Group has expanded its operation into the construction industry in the PRC since year 2020 with the acquisition of Dongjie Construction, which possesses the necessary qualifications and/or licenses to engage in construction projects in the PRC, as part of its strategy to diversify its business. The Group further acquired 34% equity interest in and control over the board of Honghai Curtain Wall in 2021 which served to enhance the Group's service offerings and competitiveness in its general construction contracting business. The Haifa Group is principally engaged in infrastructure construction, land development, real estate development and other industrial investment and operations (including cultural, tourism and financial services).

The entering into of the Construction Services Framework Agreement and the engagement of the Group as contractor upon successful tenders shall allow the Group to strengthen and further develop its construction business in the PRC, widen its business portfolio and enhance its competitiveness in the market.

Having considered the actual transaction amounts between the Haifa Group and the Group for the four months ended 30 April 2021 and the expected progress of and revenue from projects already awarded or under bidding from the Haifa Group, the annual cap of the Construction Services Framework Agreement for the year ending 31 December 2021 was expected to be fully utilised by or around 31 August 2021. Qingdao Haifa Group Co. and West Coast Development HK therefore entered into the Supplemental Agreement on 3 June 2021 to make upward revision to the then existing annual caps of the Construction Services Framework Agreement.

Annual cap (as revised):

Year ending 31 December 2021: HK\$1,846,000,000

Year ending 31 December 2022: HK\$3,164,000,000

Year ending 31 December 2023: HK\$4,746,000,000

Actual transaction amount:

Year ended 31 December 2021: HK\$1,825,178,000

Engineering services framework agreement

The Group entered into an engineering services framework agreement ("Engineering Services Framework Agreement") with Big Data Company (as defined further below) on 9 June 2021, pursuant to which Big Data Company agreed to provide software development and construction automation engineering project services to Dongjie Construction. Particulars of the Engineering Services Framework Agreement are set out below.

Date:

9 June 2021

Terms:

From 9 June 2021 to 31 December 2021 (both dates inclusive)

Directors' Report (continued)

Parties:

- (i) Dongjie Construction
- (ii) Qingdao Big Data Technology Development Group Co., Ltd.* (青島大數據科技發展有限公司) ("Big Data Company"), a company established in the PRC with limited liability

Connected relationship:

Dongjie Construction is a non-wholly owned subsidiary of the Company.

Big Data Company is directly held as to 40% by Qingdao Haifa Group Co., a controlling shareholder and ultimate holding company of the Company, and 60% by Nanjing Sample Technology Co., Ltd.* (南京三寶科技股份有限公司), a joint stock limited company incorporated in the PRC with limited liability, the H shares of which are listed on the Main Board of the Stock Exchange (Stock Code: 1708).

Transaction:

Big Data Company and its subsidiaries (collectively referred to as the "Big Data Group") will provide software development and construction automation engineering project services to Dongjie Construction and its subsidiaries (collectively referred to as the "Dongjie Group"), including but not limited to the software development for construction project industry platform, and intelligent engineering project services for constructions such as parks, communities, hospitals, hotels and office buildings. The pricing of the services for each project under the Engineering Services Framework Agreement shall be determined with reference to the market price or, in the absence of such market price, the agreed price which is fair and reasonable. The Big Data Group may be selected as the project service provider through a tender or quotation process in accordance with the normal procedures, based on the design, equipment, quality standards and construction requirements of individual projects.

Reasons for the transaction:

The Dongjie Group is in the general construction contracting business and the Big Data Group is engaged in supply chain management services, engineering management services, software development services, sales of building materials and other businesses. The expertise of the Big Data Group in the aspects of engineering management service and software development service is aligned with the Dongjie Group and, on the basis of fair market prices, the selection of the Big Data Group as the project subcontractor is able to provide convenient, high-quality, high-efficiency, and cost-effective engineering services to Dongjie Group which are of great benefit to improving the market competitiveness and profitability of both parties.

Annual cap:

Year ending 31 December 2021: HK\$24,000,000 (equivalent to RMB20,400,000)

Actual transaction amount:

HK\$13,629,000

Contractual arrangements (“Contractual Arrangements”)

Background and reasons for the Contractual Arrangements: Pursuant to Indonesia law, the maximum foreign ownership in a company engaging in the construction of harbour/port is limited to 67%. The Group has 67% shareholding interest in a subsidiary in Indonesia, namely PT. Indonesia Engineering (“PTIR”). The remaining 33% of the shareholding interest in PTIR is held by Johannes Wargo, who is an Indonesian citizen and independent third party of the Group except for his involvement in the Contractual Arrangements.

To consolidate control over and derive the economic benefits from the remaining 33% of the shareholding interest in PTIR, the Group has, through its subsidiary Hong Kong River Engineering Company Limited (“HKR”), entered into the Contractual Arrangements with Johannes Wargo.

Risks associated with the Contractual Arrangements: In the event of change in relevant laws and regulations in Indonesia in the future, there is no assurance that the Contractual Arrangements will be considered to be in compliance with the then prevailing laws and regulations; in which case, the Contractual Arrangements may become unenforceable and the Group may be subject to potential losses.

To mitigate such risks, Johannes Wargo has irrevocably appointed HKR to act as his attorney to exercise his rights in connection with the matters concerning his rights as a shareholder of PTIR, including the rights to vote in a shareholders' meeting, sign minutes and to sell his shares. The Group also closely monitors the amount of assets being retained in Indonesia to limit the exposure to potential losses. The amount of revenue derived by the Group through the Contractual Arrangements for the year ended 31 December 2021 amounted to approximately HK\$4,302,000.

The Contractual Arrangements comprised the following documents.

1. PTIR Loan Agreements

HKR, as lender, and Johannes Wargo, as borrower, entered into a loan agreement on 5 October 2015 and an amendment and restatement of loan agreement on 5 May 2016 (collectively, the “PTIR Loan Agreements”), pursuant to which HKR agreed to provide a loan (“PTIR Loan”) in the sum of IDR1,211,496,000 to Johannes Wargo to acquire 1,320 shares in PTIR (“Johannes Shares”). The PTIR Loan was secured by the Johannes Shares pursuant to the PTIR Pledge of Shares Agreements (as defined below). The PTIR Loan has a term of 10 years and will be automatically renewed upon expiration and shall be due and payable only on demand made at any time by HKR at its sole discretion. No prepayment of the PTIR Loan in whole or in part is permitted at any time during the term of the PTIR Loan Agreements.

2. PTIR Pledge of Shares Agreements

HKR, as pledgee, and Johannes Wargo, as pledgor, entered into a pledge of shares agreement on 5 October 2015 and an amendment and restatement of pledge of shares agreement on 5 May 2016 (collectively, the “PTIR Pledge of Shares Agreements”), pursuant to which Johannes Wargo pledged the Johannes Shares in favour of HKR in order to secure the due and proper repayment of the PTIR Loan and the full performance by Johannes Wargo. Johannes Wargo also undertook not to do any act or sign any documents which may limit the rights of HKR under the PTIR Pledge of Shares Agreements or diminish the value of the Johannes Shares.

Directors' Report (continued)

3. PTIR Power of Attorney ("PoA") for Selling Shares

Johannes Wargo appointed HKR as his attorney on 5 October 2015 to (i) sell, assign, transfer or otherwise deal with the Johannes Shares; (ii) receive the proceeds of the sale of Johannes Shares; and (iii) represent Johannes Wargo in all matters pertaining to the sale or transfer of the Johannes Shares.

4. PTIR PoA to Vote

Johannes Wargo appointed HKR as his attorney on 5 May 2016 to (i) attend all general meetings of PTIR; (ii) exercise all voting rights with respect to the Johannes Shares; (iii) sign any shareholders resolutions; and (iv) generally exercise all rights and privileges and perform all duties which may be necessary in relation to the Johannes Shares.

5. PTIR Assignment of Dividends Agreements

Johannes Wargo, as assignor, and HKR, as assignee, entered into an assignment of rights to dividends agreement on 5 October 2015 and an amendment and restatement of assignment of rights to dividends agreement on 5 May 2016 (collectively, the "PTIR Assignment of Dividends Agreements"), pursuant to which Johannes Wargo assigned and transferred all his rights and interests in all dividends or other income paid or payable by PTIR with respect to the Johannes Shares to HKR during the term of the PTIR Loan.

During the year ended 31 December 2021, no new contract had been entered into, renewed or reproduced in relation to the Contractual Arrangements under cloned arrangement as set out in the Company's prospectus ("Prospectus") dated 30 June 2016.

The Contractual Arrangements in relation to PTIR have remained unchanged and consistent with the disclosure as set out in the Prospectus.

Review of Continuing Connected Transactions

The independent non-executive Directors have reviewed the continuing connected transactions disclosed above and confirmed that the transactions have been entered into (a) in the ordinary and usual course of business of the Group; (b) on normal commercial terms or better; and (c) according to the relevant agreements governing them on terms that are fair and reasonable and in the interests of the Company's shareholders as a whole.

Furthermore, in relation to the Contractual Arrangements, the independent non-executive Directors have reviewed and confirmed that:

- (i) the transactions have been entered into in accordance with the relevant terms and conditions of the Contractual Arrangements;
- (ii) no dividends or other distributions have been made by PTIR to the holders of its remaining shareholding which are not otherwise subsequently assigned or transferred to the Group; and
- (iii) no new contracts were entered into, renewed or reproduced under any cloned arrangement as defined in the Prospectus during the year ended 31 December 2021.

The Company has engaged its auditor to report on the continuing connected transactions in accordance with Practice Note 740 (Revised) "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants. The auditor has provided an unqualified letter to the Board containing their conclusion in relation to the continuing connected transactions for the year ended 31 December 2021 in accordance with rule 14A.56 of the Listing Rules. A copy of the auditor's letter has been provided by the Company to the Stock Exchange.

Permitted Indemnity Provision

Pursuant to the articles of association of the Company, the Directors are indemnified and secured harmless out of the assets of the Company against all losses and liabilities which may incur or sustain in execution of their duty, except such which they shall incur or sustain through their own fraud or dishonesty.

The Company has taken out directors' liability insurance throughout the year ended 31 December 2021 that provides appropriate insurance cover for the Directors.

Compliance with Laws and Regulations

The operations of the Group are primarily carried out by the Company's subsidiaries in the PRC, Hong Kong, Macao, Indonesia and Malaysia. The Group's establishment and operations shall comply with relevant laws and regulations in each of the above jurisdictions. During the year ended 31 December 2021 and up to the date of this report, the Group's operations have complied with all the relevant laws and regulations in each of the above jurisdictions in all material respects.

Sufficiency of Public Float

Based on information that is publicly available to the Company and within the knowledge of the Directors, the Company has maintained the minimum public float required under the Listing Rules throughout the year ended 31 December 2021 and up to the date of this report.

Auditor

The consolidated financial statements for the year ended 31 December 2021 have been audited by PricewaterhouseCoopers, who will retire, and being eligible, offer themselves for re-appointment. A resolution to re-appoint PricewaterhouseCoopers will be proposed at the forthcoming annual general meeting of the Company.

Independent Auditor's Report

羅兵咸永道

TO THE SHAREHOLDERS OF PROSPER CONSTRUCTION HOLDINGS LIMITED

(incorporated in Cayman Islands with limited liability)

Opinion

What we have audited

The consolidated financial statements of Prosper Construction Holdings Limited (the “Company”) and its subsidiaries (the “Group”), which are set out on pages 50 to 139, comprising:

- the consolidated balance sheet as at 31 December 2021;
- the consolidated statement of profit or loss for the year then ended;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (“the Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are summarised as follows:

- Accounting for construction contracts – estimated costs and profit recognition
- Impairment assessment of trade, retention and notes receivables and amounts due from fellow subsidiaries and contract assets
- Purchase price allocation for the acquisition of 34% equity interests in Qingdao Honghai Curtain Wall Co., Ltd (“Honghai Curtain Wall”)
- Impairment assessment of goodwill

Key Audit Matters

How our audit addressed the Key Audit Matters

Accounting for construction contracts – estimated costs and profit recognition

Refer to note 2.24 in the summary of significant accounting policies, note 4(a), note 5 and note 23 to the consolidated financial statements.

For the year ended 31 December 2021, segment results from marine construction works and general construction contracting services amounted to HK\$4,378,000 and HK\$83,159,000 respectively.

The Group applied the input method in recognising the revenue from construction contracts over time by reference to the Group's efforts or inputs to the satisfaction on a performance obligation relative to the total expected inputs to the satisfaction of the performance obligation.

Recognition of profit on construction contracts is based on the recognised revenue and estimates of budgeted gross profit as well as the expected recovery of costs arising from additional work performed throughout the contracts, for which significant management judgement and estimates are involved.

Our procedures in relation to management's accounting for the progress towards complete satisfaction of the performance obligation, estimated costs and profit recognition of construction contracts included:

- Understood and evaluated the design and operating effectiveness of the internal control and assessment process of the estimation of contract costs and budgeted gross profit and assessed the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors such as complexity, subjectivity, changes in circumstances and susceptibility to management bias or fraud;
- Evaluated the outcome of prior period assessment of the estimation of contract costs and budgeted gross profit to assess the effectiveness of management's estimation process by comparing the historical actual gross profit margin to those budgeted to assess the quality of management budgetary process;

Independent Auditor's Report (continued)

Key Audit Matters

Profit and cost recognition from construction contracts, as stated above, requires significant time and resources to audit due to the magnitude as well as the significant judgement and estimates involved.

How our audit addressed the Key Audit Matters

- Inspected material construction contracts of the Group for agreed contract amount and variations, if any;
- Checked the Group's efforts to the satisfaction on the Group's performance obligation by reference to the proportion of contract costs incurred for work performed to date to the estimated total construction costs of the selected contracts. We tested, on a sample basis, the revenue recognition based on the Group's efforts and the calculations of gross profit;
- Selected, on a sample basis, contracts to examine management's budget of the cost components, such as costs of materials, sub-contracting fees and labour costs. We compared the budgeted component cost to supporting documents including but not limited to invoices, price quotation and rate of labour costs. For each selected contract, we also compared cost component of the actual cost incurred up to year-end to the budgeted cost and obtained explanation from management for any material variation;
- Questioned the status of projects with the Group's quantity surveyors and project managers, to identify any variations of contracts and claims, and to obtain explanations for fluctuations in margins and changes in budget as well as the expected recovery of variations. Where necessary, we obtained written opinion from the Group's external legal adviser and discussed with the adviser the basis in concluding the minimum amount which would be recovered from the project. We checked relevant evidence including agreements, correspondence with customers, for corroboration of their explanations; and
- Assessed the adequacy of the disclosures related to revenue recognition in the context of the applicable financial reporting framework.

Based on the above audit procedures performed, we found that the judgement and estimates adopted by management in determining the estimated contract costs and profit recognition of construction contracts were supported by the evidence we obtained.

Key Audit Matters

Impairment assessment of trade, retention and notes receivables and amounts due from fellow subsidiaries and contract assets

Refer to note 2.12 in the summary of significant accounting policies, note 3.1(b), note 4(b), note 21 and note 23 to the consolidated financial statements.

As at 31 December 2021, the Group had gross trade, retention and notes receivables and amounts due from fellow subsidiaries and contract assets approximately HK\$2,026,764,000 and HK\$1,349,021,000 respectively and provision for impairment of approximately HK\$31,229,000 and HK\$22,285,000 respectively.

Management performed periodic assessment on the recoverability of the trade, retention and notes receivables and amounts due from fellow subsidiaries and contract assets and the sufficiency of provision for impairment based on information including credit profile of customers, ageing of the trade, retention and notes receivables and amounts due from fellow subsidiaries and contract assets, historical settlement records, subsequent settlement status, expected timing and amount of realisation of outstanding balances, and on-going business relationships with the relevant customers.

How our audit addressed the Key Audit Matters

Our audit procedures in relation to management's impairment assessment of the trade, retention and notes receivables and amounts due from fellow subsidiaries and contract assets as at 31 December 2021 included:

- Understood and evaluated the design and operating effectiveness of the credit control and impairment assessment process and assessed the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors;
- Evaluated the outcome of prior period assessment of impairment to assess the effectiveness of management's estimation process by comparing the actual loss incurred with the impairment provision made by management, if any;
- Tested, on a sample basis, the accuracy of ageing profile on trade, retention and notes receivables and amounts due from fellow subsidiaries by checking to the underlying invoices;
- Challenged management for the status of each of the material trade, retention and notes receivables and amounts due from fellow subsidiaries and contract assets past due and amounts due from fellow subsidiaries as at year end and corroborated explanations from management with supporting evidence, such as performing public searches of credit profile of selected customers, understanding on-going business relationship with the customers based on trade records, checking historical and subsequent settlement records and other correspondence with the customers;

Independent Auditor's Report (continued)

Key Audit Matters

Expected credit losses are also estimated by grouping the trade, retention and notes receivables and amounts due from fellow subsidiaries and contract assets based on shared credit risk characteristics and collectively assessed for likelihood of recovery, taking into account the nature of the customer, its geographic location and ageing category, and applying expected credit loss rates to the respective gross carrying amounts of the receivables.

Management also considered forward-looking information that may impact the customers' ability to repay the outstanding balances in order to estimate the expected credit losses for the impairment assessment.

We focused on this area due to the fact that the impairment assessment of trade and retention receivables, amounts due from fellow subsidiaries and contract assets under the expected credit losses model involved the use of significant management judgement and estimates.

How our audit addressed the Key Audit Matters

- Assessed the appropriateness of the expected credit loss provision methodology, examined the key inputs on a sample basis to assess their accuracy and completeness, and challenged the assumptions, including both historical and forward-looking information, used to determine the expected credit losses with the involvement of internal valuation expert;
- For projects with potential dispute with customers, we discussed with the Group's external legal adviser. We enquired their work performed and discussed with them the basis in concluding the minimum amount the Group is able to realise from the projects. We tested and checked relevant evidence including agreements and correspondence with customers; and
- Assessed the adequacy of the disclosures related to the impairment in the context of the applicable financial reporting framework.

Based on the above audit procedures performed, we found that the management judgement and estimates used to assess the recoverability of the trade, retention and notes receivables and amounts due from fellow subsidiaries and contract assets and determine the impairment provision were supported by the evidence we obtained.

Key Audit Matters

Purchase price allocation for the acquisition of 34% equity interests in Honghai Curtain Wall

Refer to note 2.3, note 4(c) and note 30 to the consolidated financial statements.

The Group completed the acquisition of 34% equity interests in Hanghai Curtain Wall at a consideration of RMB49,898,000 (equivalent to approximately HK\$59,264,000) on 13 January 2021, date of acquisition ("date of acquisition").

The Group is required to determine the fair values of identified assets acquired and liabilities assumed of Honghai Curtain Wall as at the date of acquisition. Management engaged an independent external valuer to assist them to perform the fair valuation using appropriate valuation methodologies. The purchase price was allocated to the identified assets acquired and liabilities assumed and the Group recognised identifiable net assets of RMB28,347,000 (equivalent to approximately HK\$33,712,000) and goodwill of RMB21,514,000 (equivalent to approximately HK\$25,552,000) at date of acquisition.

The key assumptions included discounted cash flow forecast of Honghai Curtain Wall, royalty rate used to determine fair value of the patented technology and the market capitalisation rate used to determine the fair value of contract backlog.

We focused on this area due to the significant judgements involved in determining the valuation methodologies and assumptions used in the valuation for the purpose of purchase price allocation.

How our audit addressed the Key Audit Matters

Our procedures in relation to management's judgements used to estimate the fair values of identifiable assets and liabilities assumed at the acquisition date included:

- Evaluated the independent external valuer's objectivity, capability and competency to perform the valuation;
- Obtained the valuation report and discussed with the external valuer on the methodologies and key assumptions used;
- Assessed the appropriateness of valuation methodologies and challenged the reasonableness of key assumptions adopted by independent external valuer by comparing these assumptions against industry information and relevant market data, with the involvement of our internal valuation expert mainly in relation to:
 - i. the budgeted sales, revenue growth rate and gross margin used in cash flow forecast, by comparing them with historical financial data and industry forecasts;
 - ii. the royalty rate, market capitalisation rate and discount rate, by comparing them with relevant market information of comparable companies; and
- Assessed the adequacy of the disclosures related to purchase price allocation in the context of the applicable financial reporting framework.

Based on the above audit procedures performed, we found that the judgements involved in the valuation methodologies and assumptions used in the valuation for the purpose of the purchase price allocation were supported by evidence we obtained.

Independent Auditor's Report (continued)

Key Audit Matters

Impairment assessment of goodwill

Refer to note 4(d) and note 18 to the consolidated financial statements.

The total goodwill recognised by the Group as of 31 December 2021 amounted to HK\$43,310,000, of which HK\$16,928,000 and HK\$26,382,000 were allocated to the Qingdao Dongjie and Honghai Curtain Wall respectively. Management considers that each of these operating segments constitutes a separate cash-generating unit ("CGU") for the purpose of goodwill impairment assessment. No impairment of goodwill has been recognised as of 31 December 2021.

The assessment of goodwill impairment is determined based on value-in-use calculations and it is inherently judgemental as it requires significant management judgements about future business performance and the discount rates applied to future cash flow forecasts, and accordingly, this is an area of audit focus. Management engaged an independent external valuer to assist them to perform the value-in-use calculations using appropriate valuation methodologies.

How our audit addressed the Key Audit Matters

Our procedures on auditing management's goodwill impairment assessment mainly included:

- Understood and evaluated the design and operating effectiveness of the internal controls and assessment process of goodwill impairment and assessed the inherent risk of material misstatement by considering the degree of estimation uncertainty and level of other inherent risk factors such as complexity, subjectivity, changes and susceptibility to management bias or fraud;
- Evaluated the independent external valuer's objectivity, capability and competency to perform the valuation;
- Evaluated the discounted cash flow forecasts underlying the impairment assessment and the process by which they were drawn up, including checking the accuracy of the underlying calculations and checking whether the forecasts were consistent with the latest approved budgets. We also assessed whether all relevant CGUs have been identified;
- Evaluated the key assumptions of the discounted cash flow forecasts by examining corroborating evidence including the terms and conditions of construction contracts already entered into, historical revenue growth rate and third party supplier quotations for construction cost estimation and evaluated the discount rates by assessing the cost of capital for the respective CGUs. We also evaluated the outcome of prior period assessment of goodwill impairment to assess the effectiveness of management's estimation process; and
- Examined the results of management's sensitivity analysis around the key assumptions including revenue growth and discount rates to ascertain the extent of change in those assumptions that could result in impairment for individual CGUs.

Based on the above audit procedures performed, we found that the judgements involved in the valuation methodologies and assumptions used in the assessment of goodwill impairment were supported by evidence we obtained.

Other Information

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Independent Auditor's Report (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Independent Auditor's Report (continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Ng Hiu Tung.

Notes to the Consolidated Financial Statements

1 General information

The Company was incorporated in the Cayman Islands on 6 October 2015 as an exempted company with limited liability under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of the Company's registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands.

The Company is an investment holding company and its subsidiaries provide marine construction services, auxiliary marine related services and general construction contracting services. The Company's shares are listed on the Main Board of the Stock Exchange of Hong Kong Limited (the "Stock Exchange").

The consolidated financial statements are presented in Hong Kong dollars ("HK\$") unless otherwise stated.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRS") issued by Hong Kong Institute of Certified Public Accountant ("HKICPA") and disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622). The consolidated financial statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 4.

(a) Adoption of new standards, interpretation and amendments to standards

The Group has adopted the following new standard, improvements, interpretation and amendments to standards which are relevant to the Group's operations and are mandatory for the financial year beginning on 1 January 2021:

2.1 Basis of preparation (Continued)

- (b) New standards, revised framework and amendments to standards which are not yet effective

The following are new standard, revised framework and amendments to standards that have been published and are mandatory for the Group's accounting periods beginning on or after 1 January 2021 or later periods, but have not been early adopted by the Group:

| | |
|---------------------------------------|--|
| Accounting Guideline 5 (Revised) | Revised Accounting Guideline 5 Merger Accounting for Common Control Combinations ⁽¹⁾ |
| Annual Improvements Project | Annual Improvements to HKFRSs 2018 – 2020 (Amendments) ⁽¹⁾ |

| HKFRS 10 and HKAS 28 (Amendments) | Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ⁽³⁾ |

⁽¹⁾ Effective for the accounting period beginning on 1 January 2022

⁽²⁾ Effective for the accounting period beginning on 1 January 2023

⁽³⁾ Effective date to be determined

The Group will apply the above new standard, revised framework and amendments to standards when they become effective. No new standard, revised framework and amendments to standards is expected to have a significant effect on the consolidated financial statements of the Group.

2.2 Principles of consolidation and equity accounting

(a) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity where the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group (note 2.3).

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated balance sheet respectively.

(b) Joint arrangement

Under HKFRS 11 Joint Arrangements investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Group has both joint operations and joint ventures.

Joint operations

The Group recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings. Details of the joint operation are set out in note 24.

Joint ventures

Interests in joint ventures are accounted for using the equity method (see (c) below), after initially being recognised at cost in the consolidated balance sheet.

(c) Equity accounting

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in the consolidated statement of profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividend received or receivable from associated companies are recognised as a reduction in the carrying amount of the investment.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.2 Principles of consolidation and equity accounting (Continued)

(c) Equity accounting (Continued)

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associated companies are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity-accounted investments is tested for impairment in accordance with the policy described in note 2.10.

(d) Change in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of the Company.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in the consolidated statement of comprehensive income. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to the consolidated statement of profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to the consolidated statement of profit or loss where appropriate.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.3 Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the:

- fair values of the assets transferred
- liabilities incurred to the former owners of the acquired business
- equity interests issued by the Group
- fair value of any asset or liability resulting from a contingent consideration arrangement, and
- fair value of any pre-existing equity interest in the subsidiary.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the

- consideration transferred,
- amount of any non-controlling interest in the acquired entity, and
- acquisition-date fair value of any previous equity interest in the acquired entity

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised directly in the consolidated statement of profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions. Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in the consolidated statement of profit or loss.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.4 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investments. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors that make strategic decisions.

2.6 Foreign currency translation

(a) Functional and presentation currency

Items included in the consolidated financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in HK\$ which is the Company's functional and the Group's presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

All foreign exchange gains and losses are presented in the consolidated statement of profit or loss within "other gains, net".

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.6 Foreign currency translation (Continued)

(c) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- income and expenses for each statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- all resulting exchange differences are recognised as in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

2.7 Property, Plant and equipment

Plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the assets' carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.7 Property, Plant and equipment (Continued)

Depreciation of both owned and leased plant and equipment is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives, as follows:

| | |
|-------------------------|------------|
| Buildings | 35 years |
| Vessels | 20 years |
| Machinery and equipment | 3–10 years |
| Furniture and fixtures | 5 years |
| Motor vehicles | 5–10 years |
| Office equipment | 3–10 years |

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains or losses on disposals are determined by comparing proceeds with carrying amount and are recognised in the consolidated statement of profit or loss.

Construction in progress is stated at cost less any identified impairment loss. Construction in progress is not depreciated until the construction, installation or production is completed and the relevant assets are ready to be put into operation.

2.8 Investment properties

Investment properties are interest in land and buildings held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. The Group has adopted the cost model under HKAS 40 to account for its investment properties and such properties is stated at cost less depreciation and any impairment losses.

Depreciation is calculated on the straight-line basis to write off the cost of the investment properties to its residual value over its estimated useful life. Depreciation of investment properties is calculated using the straight-line method to allocate their costs to their residual values over the estimated useful lives of 35 years.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains or losses on disposals are determined by comparing proceeds with carrying amount and are recognised in the consolidated statement of profit or loss.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.9 Intangible assets

(a) Goodwill

Goodwill arises from the acquisition of subsidiaries and represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interests in the acquiree over the fair value of the identifiable net assets acquired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs"), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each CGU or group of CGUs to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken at least annually or if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and cannot be subsequently reversed.

(b) Licenses, software and patented technology

Licenses, software and patented technology are measured initially at cost or, if acquired in a business combination, fair value at the acquisition date. An intangible asset with a finite useful life is amortised on a straight-line basis over its useful life and carried at cost less accumulated amortisation and accumulated impairment losses.

Amortisation is calculated using the straight-line method to allocate their costs to their residual values over the estimated useful lives, as follows:

| | |
|---------------------|-------------|
| Licenses | 10 years |
| Software | 2 – 4 years |
| Patented technology | 10 years |

(c) Contract backlogs

Contract backlogs are identified from business combination when they meet the recognition criteria as follows:

- (i) it is probable that the expected future economic benefits that are attributable to the contract backlogs will flow to the Group; and
- (ii) the cost of the contract backlogs can be measured reliably.

The contract backlogs have a finite useful life and are amortised on a straight-line basis over the periods in respect of which the related benefits are expected to be received of not more than 5 years.

2 Summary of significant accounting policies (Continued)

2.10 Impairment of non-financial assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.11 Inventories

Inventories comprise building materials and are stated at the lower of cost and net realisable value.

Cost is determined using the first-in, first-out ("FIFO") basis, comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

2.12 Investments and other financial assets

(i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.12 Investments and other financial assets (Continued)

(ii) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. The Group classifies its debt instruments into the following category:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in "other gains, net" together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the consolidated statement of profit or loss.

(iv) Impairment

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade and retention receivables and contract assets, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables, see note 21 and 22 for further details.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.13 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.14 Trade and other receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If collection of trade receivable is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method less provision for impairment.

When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against “administrative expenses” in the consolidated statement of profit or loss.

2.15 Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash at bank and deposits held at call with banks with original maturity of three months or less. Bank deposits which are restricted to use are included in “restricted cash” of the consolidated balance sheet. Restricted cash is excluded from cash and cash equivalents.

2.16 Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

2.17 Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.18 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the consolidated statement of profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the end of reporting period.

2.19 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Other borrowing costs are expensed in the period in which they are incurred.

2.20 Current and deferred income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

2 Summary of significant accounting policies (Continued)

2.20 Current and deferred income tax (Continued)

(b) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in consolidated statement of profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.21 Employee benefits

(a) Employee leave entitlements

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the balance sheet date.

Employee entitlements to sick leave and maternity or paternity leaves are not recognised until the time of leave.

(b) Retirement benefits

The Group operates defined contribution plans and pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expenses when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.21 Employee benefits (Continued)

(c) Termination benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits at the earlier of the following dates: (a) when the group can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of HKAS 37 and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than twelve months after balance sheet date are discounted to present value.

2.22 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

2.23 Contingent liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the consolidated financial statements. When a change in the probability of an outflow occurs so that outflow is probable, they will then be recognised as a provision.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.24 Revenue recognition

(a) Provision of marine construction services and general construction services

Revenue from the marine construction services and general construction services is recognised over time as the Group's performance creates or enhances an asset or work in progress that the customer controls as the asset is created or enhanced. The Group has applied the input method in recognising the revenue from construction contracts over time by reference to the Group's efforts or inputs to the satisfaction on a performance obligation relative to the total expected inputs to the satisfaction of the performance obligation. The Group considers the input method better depicts the Group's performance in transferring control of goods or services to their customers.

For contracts that contain variable consideration (variation order of construction work), the Group estimates the amount of consideration to which it will be entitled using the most likely amount.

The estimated amount of variable consideration is included in the transaction price only to the extent that is highly probable that such an inclusion will not result in a significant revenue reversal in the future when the uncertainty associated with the variable consideration is subsequently resolved.

When there is change in circumstances, the Group updates the estimated transaction price (including updating its assessment of whether an estimate of variable consideration is constrained) to better predict the circumstances present at the end of the reporting period and the changes in circumstances during the year.

(b) Provision of auxiliary marine related services

The Group provides auxiliary marine related services. Revenue is recognised over time when the relevant services are rendered and the Group's performance provide all of the benefits received and consumed simultaneously by the customers.

(c) Contract assets and contract liabilities

Upon entering into a contract with a customer, the Group obtains rights to receive consideration from the customer and assume performance obligations to transfer goods or services to the customer. The combination of those rights and performance obligations give rise to a net asset or net liability depending on the relationship between the remaining rights and the performance obligations. The contract is an asset and recognised as contract assets if the measure of the remaining conditional rights to consideration exceeds the satisfied performance obligations. Conversely, the contract is a liability and recognised as contract liabilities if consideration received (or an amount of consideration is due) from the customer exceed the measure of the remaining unsatisfied performance obligations. In the consolidated balance sheet, the contract assets mainly consist of unbilled revenue and prepayments arising from the construction contracts. Contract liabilities mainly consist of the Group's obligations to transfer the control of performance obligation to the customers for which the Group has received consideration from the customers.

2.25 Interest income

Interest income is recognised using the effective interest method. When a loan and receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans and receivables is recognised using the original effective interest rate.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.26 Earnings per share

(a) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the company, excluding any costs of servicing equity other than ordinary shares; and
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

(b) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares; and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

2.27 Leases

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the group is a lessee, it has elected not to separate lease and non-lease components and instead accounts for these as a single lease component.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.27 Leases (Continued)

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group, which does not have recent third party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

The Group is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of equipment and vehicles and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

Notes to the Consolidated Financial Statements (continued)

2 Summary of significant accounting policies (Continued)

2.27 Leases (Continued)

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the balance sheet based on their nature. The Group did not need to make any adjustments to the accounting for assets held as lessor as a result of adopting the new leasing standard.

2.28 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's and Company's consolidated financial statements in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

2.29 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to costs are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate.

3 Financial risk management

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risk: market risk (including foreign exchange risk and cash flow interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of the financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

Risk management is carried out under policies approved by the directors of the Group. The directors provide principles for an overall risk management, as well as policies covering specific areas.

(a) Market risk

(i) *Foreign exchange risk*

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities which are denominated in a currency that is not the Company's functional currency.

The Group's transactions are mainly denominated in HK\$, United State dollars ("US\$"), Indonesia Rupiah ("IDR"), Renminbi ("RMB"), Vietnamese Dongs ("VND") and Macao Patacas ("MOP"). The majority of assets and liabilities are denominated in HK\$, US\$, IDR, RMB and MOP, and there are no significant assets and liabilities denominated in other currencies. The Group is subject to foreign exchange rate risk arising from future commercial transactions and recognised assets and liabilities which are denominated in a currency other than HK\$, IDR, RMB or MOP, which are the functional currencies of the major operating companies within the Group. The Group currently does not hedge its foreign currency exposure.

Notes to the Consolidated Financial Statements (continued)

3 Financial risk management (Continued)

3.1 Financial risk factors (Continued)

(a) Market risk (Continued)

(i) *Foreign exchange risk (Continued)*

As HK\$ is pegged to US\$, management believes that the exchange rate risk for translations between HK\$ and US\$ do not have material impact to the Group. Management considered that the foreign exchange risk for MOP is minimal since exchange rate fluctuation was minimal.

At 31 December 2021, if RMB had weakened/strengthened by 5% against the HK\$ with all other variables held constant, post-tax profit for the year would have been approximately HK\$1,394,000 (2020: HK\$1,073,000) higher/lower, mainly as a result of the foreign exchange difference on translation of RMB denominated cash and cash equivalents, trade, retention and notes receivables and amount due from fellow subsidiaries and trade and retention payables.

At 31 December 2021, if IDR had weakened/strengthened by 5% against the HK\$ with all other variables held constant, post-tax profit for the year would have been approximately HK\$nil (2020: HK\$1,520,000) lower/higher, mainly as a result of the foreign exchange difference on translation of IDR denominated cash and cash equivalents, trade and retention receivables and trade and retention payables.

At 31 December 2021, if VND had weakened/strengthened by 5% against the HK\$ with all other variables held constant, post-tax profit for the year would have been approximately HK\$162,000 (2020: 148,000) lower/higher, mainly as a result of the foreign exchange difference on translation of VND denominated cash and cash equivalents, trade and retention receivables and trade and retention payables.

(ii) *Cash flow interest rate risk*

The Group is exposed to interest rate risk as borrowings are carried at variable rates. It is the Group's policy to maintain its borrowings subject to floating rates, and accordingly, the Group has not used any interest rate swaps to hedge its exposure to interest rate risk.

As at 31 December 2021, if the interest rates on borrowings had been 100 basis-points higher/lower with all other variables held constant, pre-tax profit for the year would be HK\$7,289,000 (2020: HK\$3,458,000 lower/higher) lower/higher, mainly as a result of interest expense on floating rate borrowings.

(b) Credit risk

The Group is exposed to credit risk in relation to its cash and bank balances, amounts due from fellow subsidiaries, trade, retention and notes receivables, deposits and other receivables. The Group's maximum exposure to credit risk is the carrying amounts of these financial assets.

Notes to the Consolidated Financial Statements (continued)

3 Financial risk management (Continued)

3.1 Financial risk factors (Continued)

(b) Credit risk (Continued)

(i) *Risk management*

For the year ended 31 December 2021, 47.9% (2020: 70.1%) of the Group's revenue was derived from its top five customers. As at 31 December 2021, the Group had concentration of credit risk as 63.6% (2020: 86.2%) of the total trade receivables were due from the Group's five (2020: five) customers.

Top five customers mainly include subsidiaries of state-owned enterprises, government authority and other construction companies. To manage this risk, management has monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, management reviews regularly the recoverable amount of each individual trade and retention receivable to ensure that adequate impairment provision is made for the irrecoverable amounts.

The credit risk on deposits with bank is limited because deposits are in banks with sound credit ratings and good payment history.

For other receivables, the Group assessed the credit quality of the counter parties by taking into account their financial position, credit history and other factors. Management also regularly reviews the recoverability of these receivables and follow up the disputes or amounts overdue, if any. The directors are of the opinion that the risk of default by counter parties is low.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information. Especially the following indicators are incorporated:

- internal credit rating
- external credit rating
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations
- significant changes in actual or expected performance and behaviour of the customer, including changes in the payment status of customer in the Group and changes in the operating results of the customer.

The Group uses four categories for those receivables which reflect their credit risk and how the loss provision is determined for each of those categories. These internal credit risk ratings are aligned to external credit ratings.

3 Financial risk management (Continued)

3.1 Financial risk factors (Continued)

(b) Credit risk (Continued)

(i) **Risk management (Continued)**

The Group's internal credit risk grading assessment comprises the following categories:

| Category | Description | Basis for recognition of expected credit loss |
|-----------------|---|---|
| Performing | The counterparty has a low risk of default and does not have any past-due amounts | 12 month expected losses. Where the expected lifetime of an asset is less than 12 months, expected losses are measured at its expected lifetime |
| Underperforming | Debtor frequently repays after due dates but usually settle after due date | Lifetime expected losses |
| Non-performing | There has been a significant increase in credit risk since initial recognition through information developed internally or external resources | Lifetime expected losses |
| Write-off | There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery | Asset is written off |

(ii) **Impairment of financial assets**

Trade, retention and notes receivables, contract assets and amounts due from fellow subsidiaries

The Group applies the HKFRS 9 simplified approach to measuring expected credit losses which uses a lifetime loss allowance for all trade, retention and notes receivables, contract assets and amounts due from fellow subsidiaries.

For trade, retention and notes receivables and contract assets relating to accounts in which there are objective evidence that the likelihood of settlement from counterparties are remote, they are assessed individually for impairment allowance. Accordingly specific loss allowance of HK\$18,530,000 and HK\$7,563,000 was made as at 31 December 2021 for trade, retention and notes receivables and contract assets respectively.

(ii) *Impairment of financial assets (Continued)*

Trade, retention and notes receivables, contract assets and amounts due from fellow subsidiaries (Continued)

To measure the expected credit losses for the remaining balances trade, retention and notes receivables, contract assets and amounts due from fellow subsidiaries have been grouped based on shared credit risk characteristics by different sectors of the customers. The expected loss rates are based on the historical credit loss rate of relevant market players within the year. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

As at 31 December 2021, the expected credit losses of these collectively assessed trade, retention and notes receivables, contract assets and amounts due from fellow subsidiaries were HK\$9,669,000 HK\$14,722,000 and HK\$3,030,000 respectively based on expected loss rates ranging from 0.21% - 1.86% applied on different customer sectors.

The closing loss allowance for trade, retention and notes receivables, contract assets and amounts due from fellow subsidiaries as at 31 December 2021 reconcile to the opening loss allowance as follows:

| | Trade, retention and notes receivables | Contract assets | Amounts due from fellow subsidiaries |
|---|---|----------------------------|---|
| | HK\$'000 | HK\$'000 | HK\$'000 |
| At 1 January 2020 | 8,875 | 4,250 | – |

(ii) *Impairment of financial assets (Continued)*

Trade, retention and notes receivables, contract assets and amounts due from fellow subsidiaries (Continued)

Trade, retention and notes receivables, contract assets and amount due from fellow subsidiaries are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include the failure of a debtor to engage in a repayment plan with the Group.

Impairment losses on trade, retention and notes receivables and contract assets are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

Other financial assets at amortised cost

For deposit and other receivables relating to accounts in which there are objective evidence that the likelihood of settlement from counterparties are remote, they are assessed individually for impairment allowance. Accordingly specific loss allowance of HK\$3,357,000 was made as at 31 December 2021.

For other financial assets at amortised cost, including deposits and other receivables, the expected credit loss is based on the 12 months expected losses. It is the portion of lifetime expected credit loss that results from default events on a financial instrument that are possible within 12 months after the reporting date. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime expected credit loss.

As at 31 December 2021, the expected credit losses of these collectively assessed deposits and other receivables were HK\$2,112,000 (2020: HK\$1,028,000) based on expected loss rates approximately to 1.86% (2020: 1.76%) applied on counterparties' sectors.

(c) Liquidity risk

Liquidity risk refers to the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial assets.

Prudent liquidity risk management implies maintaining sufficient cash and bank balances. The Group's liquidity risk is further mitigated through the availability of financing through its own cash resources and the availability of banking facilities to meet its financial commitments. In the opinion of the directors, the Group does not have any significant liquidity risk.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows (including interests payments computed using contractual rates, or if floating, based on the current rates at the year end dates during the year). Where the loan agreement contains a repayable on demand clause which gives the lender the unconditional right to call the loan at any time, the amounts repayable are classified in the earliest time bracket in which the lender could demand repayment. The maturity analysis for other borrowings is prepared based on the scheduled repayment dates. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

3.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Group consists of equity and borrowings. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce borrowings. The Group monitors capital on the basis of debt to equity ratio. The debt to equity ratio is calculated as net debt divided by total equity. Net debt is calculated as borrowings and loan from an intermediate holding company less cash and cash equivalents, time deposits, restricted cash and pledged bank deposits. The debt to equity ratios as at 31 December 2021 and 2020 are as follows:

| | 2021 HK\$'000 | 2020 HK\$'000 |
|---|------------------|------------------|
| Borrowings (note 29) | 1,208,515 | 345,846 |

4 Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(a) Construction contracts

The Group reviews and revises the estimates of contract revenue, contract costs, variation orders and contract claims prepared for each construction contract as the contract progresses. Budgeted construction costs are prepared by the management on the basis of quotations from time to time provided by the major contractors, suppliers or vendors involved and the experience of the management. In order to keep the budget accurate and up-to-date, management conducts periodic reviews of the budgets of contracts by comparing the budgeted amounts to the actual amounts incurred. Such significant estimate may have impact on the profit recognised in each period.

In addition, significant judgement is required to assess the recoverability of contract costs incurred as a result of difference between the amount applied to and the amount certified by the main contractor.

The progress towards complete satisfaction of the performance obligation is measured by reference to the proportion of contract cost incurred for work performed to date bear to the estimated total construction costs. Because of the nature of the activity undertaken in construction contracts, the date at which the contract activity is entered into and the date when the activity is completed usually fall into different accounting period. The Group reviews and revised the estimates of contract revenue, contract costs, variation orders and contract claims prepared for each construction contract as the contract progresses. Management regularly reviews the progress of the contracts and the corresponding costs of the contract.

(b) Impairment of trade, retention and notes receivables and amounts due from fellow subsidiaries and contract assets

The loss allowances for trade, retention and notes receivables and amounts due from fellow subsidiaries and contract assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the customers' past default history, historical credit loss rate of relevant market players, existing market conditions as well as forward-looking estimates at the end of each reporting period. Details of the key assumptions and inputs used are disclosed in note 3.1(b).

Notes to the Consolidated Financial Statements (continued)

4 Critical accounting estimates and judgements (Continued)

(c) Valuation of net identifiable assets arising from the business combination

The Group completed the acquisition of Qingdao Honghai Curtain Wall Co, Ltd. on 13 January 2021. Management of the Group has engaged an independent valuer to assist in performing the purchase price allocation assessment on the fair values of assets acquired and liabilities assumed as at the acquisition date.

Significant management judgements were involved in the valuation methodology and underlying assumptions of the valuation of purchase price allocation, including sales volume, sales growth rate, royalty rate and discount rate used to determine the fair values of the patented technology and contract backlog.

Had the Group used different inputs or assumptions, other identifiable assets acquired and liabilities assumed and the goodwill recognised would be different and thus cause impact to the consolidated balance sheet. Details of the business combination are disclosed in note 30.

(d) Impairment assessment of goodwill

The Group tests whether goodwill has suffered any impairment on an annual basis. For the 2021 reporting period, the recoverable amounts of cash-generating units (“CGUs”) was determined based on value-in-use calculations which require the use of assumptions. The calculations use cash flow projections based on financial budgets approved by management covering a five-year period.

Cash flows beyond the five-year period are extrapolated using the estimated growth rates stated in note 18. These growth rates are consistent with forecasts included in industry reports specific to the industry in which each CGU operates.

Details of impairment charge, key assumptions and impact of possible changes in key assumptions are disclosed in note 18.

(e) Classification of 34% equity interests in Honghai Curtain Wall

The classification of an investment as a subsidiary is based on whether the Group is determined to have control over the investee, which involves judgments through the analysis of various factors, including the Group’s representation on the chief decision making authorities of an investee. As the Group is entitled to appoint a majority number of directors of Honghai Curtain Wall and is able to control its management and operation, the identifiable assets and liabilities of Honghai Curtain Wall is accounted for in the consolidated financial statements of the Group at their fair value under the acquisition method.

(b) Segment information

The chief operating decision-maker has been identified as the executive directors of the Company. The executive directors regard the Group's business as comprising three operating segments, marine construction works, provision of auxiliary marine related services and general construction contracting services. They review financial information accordingly.

Segment revenue is measured in a manner consistent with that in the consolidated statement of profit or loss.

Segment assets mainly consist of current assets and non-current assets as disclosed in the consolidated balance sheet except for cash and bank balances and other corporate assets.

Segment liabilities mainly consist of current liabilities and non-current liabilities as disclosed in the consolidated balance sheet except for income tax payable, deferred tax liabilities, borrowings, amounts due to a related party and certain corporate liabilities.

- (i) The Group participates in a Mandatory Provident Fund scheme (the "MPF Scheme") in accordance with the Mandatory Provident Fund Scheme Ordinance of Hong Kong. Under the rules of the MPF Scheme, the employer and its employees in Hong Kong are each required to contribute 5% of the employees' gross earnings with a ceiling of HK\$1,500 per month.

The Group also participates in an employee social security plan (the "Social Security Plan") and contributes a fixed amount for each employee as required by the regulations in Macao.

The Group participates in an employee social security programme (the "Social Security Programme") in Indonesia, providing compensation in the event of working accidents, death, old age, and in case of sickness and hospitalisation. Under the Social Security Programme, the employer is required to contribute a fixed percentage of the employee's salaries every month.

The Group's subsidiaries in the People's Republic of China (the "PRC") participate in defined contribution retirement benefit plans organised by relevant government authorities for its employees in the PRC and contribute to these plans based on certain percentage of the salaries of the employees on a monthly basis, up to a maximum fixed monetary amount, as stipulated by the relevant government authorities. The government authorities undertake to assume the retirement benefit obligations payable to all existing and future retired employees under these plans. Contributions to these retirement benefits schemes are charged to the consolidated statement of profit or loss as incurred.

The only obligation of the Group with respect to the MPF Scheme, the Social Security Plan and the Social Security Programme is to make the required contributions under the scheme. No forfeited contribution is available to reduce the contribution payable in future year.

(c) Fair value of investment properties

The fair value of the investment properties of the Group as at 31 December 2021 was HK\$9,325,000 (2020: HK\$9,992,000) representing the valuation carried out by an independent professional qualified valuer.

The fair value is estimated using a direct comparison approach. Under the direct comparison approach, fair value is estimated by using the direct comparison method on the assumption of the sale of the property interest with the benefit of vacant possession and by making reference to comparable sales transactions as available in the market.

The valuation takes into account the characteristics of the investment property, which include the location, size, shape, view, year of completion and other factors collectively, to arrive at the unit market price. The fair value measurement is based on the above property's highest and best use, which does not differ from the actual use.

The key input is the unit price. A significant increase/decrease in the market price will result in a significant increase/decrease in the fair value of the investment properties.

16 Investment in an associate

Set out below is an investment in an associate acquired by a subsidiary of the Company during the year ended 31 December 2020. It is principally engaged in provision of construction services. The entity listed below has share capital consisting solely of ordinary shares, which is held directly by a subsidiary of the Company. The country of incorporation or registration is also its principal place of business, and the effective equity interest held by the Group is 24%. The shares were issued but not yet paid by the subsidiary. During the year, the Group has fully disposed of the investment in an associate.

18 Goodwill (Continued)

Goodwill is resulted from previous acquisitions of subsidiaries and businesses. The goodwill as a result of acquisitions is allocated to the CGUs that are expected to benefit from the synergies of the business combination and is monitored thereon accordingly.

For the purpose of impairment review for general construction contracting services business, the recoverable amount of goodwill is determined based on value-in-use calculation. The calculation uses cash flow projections based on financial budgets approved by management for the purposes of impairment reviews covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated long term growth rate stated below. There are a number of assumptions and estimates involved in the preparation of cash flow projections for the period and key assumptions include gross margin, the expected growth in revenues and post-tax discount rate.

The key assumptions are as follows:

| | 2021 | 2020 |
|--|--------|-------|
| Qingdao Dongjie | | |
| Sales growth rate for the next 5 years | 5-20% | 5% |
| Discount rate | 12.4% | 12.9% |
| Terminal growth rate | 0% | 2.6% |
| Honghai Curtain Wall | | |
| Sales growth rate for the next 5 years | 15-25% | N/A |
| Discount rate | 17.8% | N/A |
| Terminal growth rate | 0% | N/A |

The sales growth rate used is consistent with the forecasts to reflect the latest development of the CGU. The discount rate used is internal rate of return for financial model calculations. The growth rates do not exceed the long-term average growth rate for business which the Group operates. Management has reasonably considered and assessed possible changes for other key assumptions and has not identified any instances that could cause the carrying amount of the CGU to exceed its recoverable amount.

(a) Impairment and risk exposure

Trade, retention and notes receivables and amounts due from fellow subsidiaries

The Group applies the HKFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade, retention and notes receivables and amounts due from fellow subsidiaries.

The loss allowance for trade, retention and notes receivables and amounts due from fellow subsidiaries recognised during the current reporting period are disclosed in note 3.1(b).

Information about the impairment of trade, retention and notes receivables and amounts due from fellow subsidiaries and the Group's exposure to credit risk and foreign currency risk can be found in note 3.1(b).

The credit period granted to trade customers other than for retention receivables was within 30 days to 90 days for marine construction works and auxiliary marine related services whereas there is generally no credit period granted to the customers for general construction services in the PRC. The terms and conditions in relation to the release of retention vary from contract to contract, which may be subject to practical completion, the expiry of the defect liability period or a pre-agreed time period. The Group does not hold any collateral as security.

The carrying amounts of trade, retention and notes receivables, and amounts due from fellow subsidiaries approximated their fair values and were denominated in the following currencies:

| | 2021 HK\$'000 | 2020 HK\$'000 |
|------|------------------|------------------|

| Provision of construction services | (22,838) | (9,209) |

Notes to the Consolidated Financial Statements (continued)

23 Contract assets and contract liabilities (Continued)

(a) Significant changes in contract assets and liabilities

Contract assets represents the amount by which the construction services performed by the Group is ahead of the right to payment upon receiving certification from quantity surveyors for fixed-price contracts. The Group also applied the simplified approach to provide for expected credit losses prescribed by HKFRS 9, which permits the use of the lifetime expected loss provision for contract assets. Details of the impairment assessment of contract assets are set out in note 3.1(b) to the consolidated financial statements.

(b) Revenue recognised in relation to contract liabilities

The following table shows how much of the revenue recognised during the year ended 31 December 2021 relates to carried-forward contract liabilities.

| | 2021 HK\$'000 | 2020 HK\$'000 |
|---|------------------|------------------|
| Revenue recognised that was included in the contract liability balance at the beginning of the period | 9,209 | 91,387 |

(c) Unsatisfied performance obligations

The following table shows unsatisfied performance obligations resulting from fixed-price long-term construction and auxiliary marine related services contracts.

| | 2021 HK\$'000 | 2020 HK\$'000 |
|---|------------------|------------------|
| Aggregate amount of the transaction price of long-term construction contracts that are partially or fully unsatisfied as at 31 December | 3,520,392 | 1,871,330 |

Management expects that the transaction prices regarding the unsatisfied contracts as of 31 December 2021 and 2020 will be recognised as revenue by referencing to the progress towards completion of the contract activity.

26 Share capital, share premium and reserves (Continued)

(b) Share premium and reserves (Continued)

Note:

(i) Other reserves

Other reserves of the Group mainly represented the difference between the share capital of the subsidiaries acquired pursuant to the reorganisation over the nominal value of the share capital of the Company issued in exchange thereof.

(ii) Statutory reserve

In accordance with the relevant PRC regulations applicable to wholly foreign owned enterprises, the PRC subsidiary is required to appropriate to reserve fund an amount of not less than 10% of the profit after income tax, calculated based on the PRC accounting standards. Should the accumulated total of this reserve fund reach 50% of the registered capital of the PRC subsidiary, the subsidiary will not be required to make any further appropriation. The reserve fund can only be used, upon approval by the shareholders' meeting or similar authorities, to offset accumulated losses or increase capital.

27 Deferred income tax

| As at 31 December 2021 | 38,692 | (14,748) | (1,290) | (12,768) | 9,886 |

Notes to the Consolidated Financial Statements (continued)

27 Deferred income tax (Continued)

Deferred income tax assets are recognised for tax losses carried forward to the extent that realisation of the related tax benefit through future taxable profits is probable. As at 31 December 2021, the Group had unrecognised tax losses of approximately HK\$2,711,000 (2020: HK\$590,000) that can be carried forward to offset against future taxable income. These tax losses have no expiry date.

28 Trade and retention payables, accruals and other payables

| | 2021 HK\$'000 | 2020 HK\$'000 |
|-----------------------------|------------------|------------------|
| Trade payables | 2,084,908 | 648,002 |
| Retention payables | 5,593 | 4,220 |
| Accruals and other payables | 217,980 | 60,493 |
| | 2,308,481 | 712,715 |

The credit period granted for trade payables and other payables was within 30 to 90 days.

The ageing analysis of the trade payables based on invoice date was as follows:

| | 2021 HK\$'000 | 2020 HK\$'000 |
|---------------|------------------|------------------|
| Within 1 year | 1,922,349 | 501,496 |
| Over 1 year | 162,559 | 146,506 |
| | 2,084,908 | 648,002 |

In the consolidated balance sheet, retention payables were classified as current liabilities. The ageing of the retention payables based on invoice date was as follows:

| | 2021 HK\$'000 | 2020 HK\$'000 |
|-----------------------------|------------------|------------------|
| Within 1 year | 1,818 | 4,108 |
| Between 1 year and 2 years | 3,465 | – |
| Between 2 years and 5 years | 310 | 112 |
| | 5,593 | 4,220 |

Notes to the Consolidated Financial Statements (continued)

28 Trade and retention payables, accruals and other payables (Continued)

The carrying amounts of trade and retention payables approximated their fair value and were denominated in the following currencies:

| | 2021 HK\$'000 | 2020 HK\$'000 |
|------|------------------|------------------|
| HK\$ | 7,160 | 1,765 |
| US\$ | 10,144 | 7,017 |

| Non-current: | | |
| Long-term bank loans | 476,943 | 34,147 |
| Current: | | |
| Long-term bank loans due for repayment within one year | 12,263 | 11,877 |
| Long-term bank loans due for repayment within one year which contain a repayment on demand clause | – | 177,136 |
| Short-term bank borrowings | 719,309 | 122,686 |
| | 731,572 | 311,699 |
| | 1,208,515 | 345,846 |

Notes to the Consolidated Financial Statements (continued)

29 Borrowings (Continued)

- (a) Borrowings due for repayment after one year which contain repayment on demand clause were classified as current liabilities.

Based on the scheduled repayment terms set out in the loan agreements and ignoring the effect of any repayment on demand clause, the maturity of borrowings would be as follows:

| | 2021 HK\$'000 | 2020 HK\$'000 |
|-----------------------|------------------|------------------|
| Within 1 year | 731,572 | 311,699 |
| Between 1 and 2 years | 140,104 | 11,877 |
| Between 2 and 5 years | 336,839 | 22,270 |
| | 1,208,515 | 345,846 |

- (b) The weighted average interest rate during the year were as follows:

| | 2021 | 2020 |
|-----------------------|------|------|
| Short-term bank loans | 4.1% | 3.7% |
| Long-term bank loans | 5.2% | 5.0% |

- (c) The carrying amounts of the Group's borrowings were denominated in following currencies:

| | 2021 HK\$'000 | 2020 HK\$'000 |
|------|------------------|------------------|
| HK\$ | 239,778 | 136,845 |
| MOP | 76,490 | 67,961 |
| RMB | 892,247 | 141,040 |
| | 1,208,515 | 345,846 |

Notes to the Consolidated Financial Statements (continued)

29 Borrowings (Continued)

- (d) The carrying amounts of the Group's borrowings approximated their fair value as the impact of discounting is not significant.
- (e) The Group has fully utilised the borrowing facility as at 31 December 2021 (2020: same).
- (f) The Group's loan facilities are subject to annual review and secured or guaranteed by:
 - (i) unlimited guarantees provided by the Company as at 31 December 2021 and 2020;
 - (ii) unlimited guarantees provided by the ultimate holding company as at 31 December 2021 (2020: nil);
 - (iii) vessels and machinery and equipment with carrying amounts of HK\$nil (2020: HK\$6,226,000) as at 31 December 2021;
 - (iv) deposits of not less than HK\$71,717,000 (2020: HK\$23,700,000) as at 31 December 2021; and
 - (v) guarantees of HK\$133,495,000 (2020: HK\$133,495,000) from a subsidiary for a bank facility which covers a loan of HK\$67,961,000 (2020: HK\$67,961,000) and performance bond facility of HK\$51,940,000 (2020: HK\$218,447,000) as at 31 December 2021.
- (g) During the year ended 31 December 2021, the Group had drawdowns of financing loans from various banks for a gross value of approximately HK\$128 million in the aggregate for which management subsequently identified that application documents submitted might not meet requirements under the relevant banking facilities. As at 31 December 2021, the balance of these bank borrowings which remained outstanding amounted to approximately HK\$41 million. The Directors of the Company have evaluated the matter and considered that as these borrowing had been fully repaid subsequent to the year end, it is remote that the relevant banks will request immediate repayment of other borrowings drawn by the Group under the same banking facilities as at 31 December 2021 which amounted to HK\$200 million. The directors of the Company also consider that in the unlikely event that the Group is required to repay early, there will be no significant impact to the financial position of the Group.

(a) Acquisition of 34% equity interest in Qingdao Honghai Curtain Wall Co., Ltd in 2021 (Continued)

Summary of acquisition (Continued)

(i) *Accounting policy choice for non-controlling interests*

The Group recognises non-controlling interests in an acquired entity either at fair value or at the non-controlling interest's proportionate share of the entity's net identifiable assets. This decision is made on an acquisition-by-acquisition basis. For the non-controlling interests in Qingdao, the Group elected to recognise the non-controlling interests at its proportionate share of the acquired net identifiable assets. See note 2.3 for the Group's accounting policies for business combinations.

| Within one year | 118 | 196 |

32 Contingent liabilities and disputes

(a) Contingent liabilities in relation to performance bonds of construction contracts

As at 31 December 2021, the joint operations held by the Group have given guarantees on performance bonds in respect of construction contracts in the ordinary course of business, and the amounts shared by the Group totalled HK\$51,940,000 (2020: HK\$128,818,000). The performance bonds as at 31 December 2021 are expected to be released in accordance with the terms of the respective construction contracts.

(b) Involvement in litigation

A subsidiary of the Group is one of the two defendants to a litigation in which they are alleged to have caused damage to certain facilities of the plaintiff during a typhoon in 2018. The plaintiff is claiming damages for HK\$112 million subject to adjustments. As advised by the Group's independent legal advisor, the case is at an early stage before exchanging evidence and it is not possible to give a firm evaluation of the likelihood of the outcome or estimate the possible amount of loss, if any. Consequently, no provision in relation to the litigation has been made in the consolidated financial statements as at 31 December 2021.
