OUTLOOK AND FUTURE PROSPECTS

Going forward, the Group aimed to offer premium quality products to customers and will continue to strengthen our core competitiveness by improving our watch and jewellery design and development capabilities by upholding the design and artistic knowledge of the design team and recruitment of additional talents. In view of the Sino-US trade dispute mentioned above, the cooling economy in the PRC and also the outbreak of the coronavirus in Hong Kong and the PRC, the Group expects 2022 will be a challenging year. The Group will closely monitor the market response and remix the business and product portfolio to suit the market needs, including but not limited to design, manufacture and sales of prestige and high-end watches and jewelleries and stay competitive.

Although there is a cooling economy in the PRC, in view of (i) the growing middle-class, (ii) increase of disposal income, in particular among Chinese women; and (iii) the rising women's job participation rate, the Group still believe that there is a strong force behind the consumption of prestige and high-end watches and luxury jewelleries and accessories in long run. The Group should allocate more resources and effort to strengthen our design team and consider crossover design with some famous designer so that the Group can offer fashionable and affordable watches and jewelleries suitable for wearing in workplace.

Looking beyond the near-term uncertainties, the Group remains committed to seeking and seizing new opportunities, and is well-prepared to shine in the future.
