4. REVENUE AND SEGMENT INFORMATION

Revenue represents the fair value of amounts received and receivable from the provision of fire safety system installation and fire safety system repair and maintenance (“**Repair and Maintenance**”) services by the Group to external customers in Hong Kong. Such services are recognised as a performance obligation satisfied over time as the Group creates or enhances an asset that the customer controls as the asset is created or enhanced, or the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs. Revenue is recognised for these services based on the proportion of actual costs incurred relative to the estimated total costs in fulfilling the relevant performance obligations using input method.

The Group's fire safety system installation services and Repair and Maintenance services include payment schedules which require payments over the contract period once certain specified milestones are reached and upon completion of services. The Group requires certain customers to provide upfront deposits, when the Group receives a deposit before contract commences, this will give rise to contract liabilities at the start of a contract, until the revenue recognised on the specific contract exceeds the amount of the deposit.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND OUTLOOK

The Group is an established fire safety service provider in Hong Kong, focusing on building fire safety. Our services cover the design, supply and installation of fire safety systems which include evacuation and electrical fire alarm systems, water and gas suppression systems and portable fire equipment for newly built and existing buildings in Hong Kong. We also provide repair and maintenance services on fire safety systems to satisfy the Fire Services Department's requirements. To supplement our repairs or maintenance services, we also supply fire safety equipment.

The Group experienced an increase in revenue for the six months ended 30 September 2022 which is mainly due to some large projects have made significant progress during the current financial period. At the meantime, the COVID-19 pandemic builds up pressure on the labour and resources supply chain, which in turn escalating labour costs and material costs. The revenue increment is partly offset by the increase in direct costs, which resulted in lower gross profit margin for the six months ended 30 September 2022 when compared with that for the corresponding period in 2021.

Although the COVID-19 pandemic has significantly clouded the global economy, there are some remedies carried out by the Hong Kong Government, such as the implementation of vaccination programs for the COVID-19, subsidy provided to corporations under the Employment Support Scheme and also the consumption voucher scheme. All these measures help easing the current difficult situation and speed up the economic recovery.

The Directors consider that it is still a challenging year for the Group due to the continued outbreak of the COVID-19 and tense political issues around the world. It is hoped that the hardship as a result of the outbreak of the COVID-19 will be relieved and the economy of Hong Kong will be back to a healthy state gradually. In view of the keen competition in the market and economic uncertainty, the Group will continue to strengthen its market position, delivers more values to the customers and optimises productivity and efficiency.

To look positively, as the Group had successfully transferred its listing from the GEM to the Main Board of the Stock Exchange since 2020, the Directors trust that the transfer of listing to the Main Board not only demonstrates the recognition of the professional expertise and experience of the Group, it also lays a solid foundation for the Group in receiving more projects from sizeable institutions in both the private and the public sectors. The Group remains in a healthy and sound liquidity position as at 30 September 2022. Our Management will keep a close eye on the development of the COVID-19 pandemic and will actively manage its impact on the financial position and operating results of the Group.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

Revenue increased from approximately HK\$37.4 million for the six months ended 30 September 2021 to approximately HK\$44.3 million for the six months ended 30 September 2022, representing an increase of approximately 18.5%. Such increase is mainly attributable to the increase in revenue due to the significant progress on certain large projects related to fire safety system installation during the six months ended 30 September 2022.

Direct Costs

Direct costs increased from approximately HK\$24.3 million for the six months ended 30 September 2021 to approximately HK\$34.0 million for the six months ended 30 September 2022, representing an increase of approximately 39.9%. Such increase is in line with the increase in revenue during the six months ended 30 September 2022.

Gross Profit

Gross profit decreased from approximately HK\$13.1 million for the six months ended 30 September 2021 to approximately HK\$10.3 million for the six months ended 30 September 2022, representing a decrease of approximately 21.4%. The overall gross profit margin decreased from approximately 34.9% for the six months ended 30 September 2021 to approximately 23.3% for the six months ended 30 September 2022. Such decrease is mainly attributable to the labour and resources supply chain strain, which in turn escalating direct costs under the COVID-19 pandemic.

Other Income

Other income of the Group increased from approximately HK\$0.1 million for the six months ended 30 September 2021 to approximately HK\$0.8 million for the six months ended 30 September 2022. The increase is mainly due to the receipt of a subsidy from the Hong Kong Government under the Employment Support Scheme during the current Reporting Period.

Impairment Loss Allowance of Trade Receivables and Contract Assets, Net of Reversal

The Group's impairment loss allowance of trade receivables and contract assets, net of reversal, was approximately HK\$18,000 for the six months ended 30 September 2022 (for the six months ended 30 September 2021: HK\$7,000). The Group identifies trade receivables and contract assets that are credit impaired or significant to the Group and assesses their expected credit loss (the "ECL") individually. We estimate that the amount of lifetime ECL of the remaining trade receivables and the contract assets based on provision matrix through grouping of various debtors that had similar loss pattern, after considering internal credit ratings of trade debtors and/or past due status of the respective trade receivables and contract assets.

MANAGEMENT DISCUSSION AND ANALYSIS

Administrative Expenses

Administrative expenses increased from approximately HK\$10.8 million for the six months ended 30 September 2021 to approximately HK\$12.1 million for the six months ended 30 September 2022, representing an increase of approximately 12.0%. Such increase is mainly attributable to the increase in professional fees related to financial advisory services and listing maintenance services incurred during the six months ended 30 September 2022.

Finance Cost

Upon the adoption of HKFRS 16 on 1 April 2019, the lease liability is initially measured at the present value of the lease payment that is not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payment, as well as the impact of lease modifications, amongst others. As a result, an interest expense on lease liability of approximately HK\$49,000 has been recognised for the six months ended 30 September 2022 (for the six months ended 30 September 2021: HK\$9,000).

Such decrease is mainly attributable to the decrease in taxable profit.

Loss/Profit and Total Comprehensive Expense/Income for the Period

Loss and total comprehensive expense for the period was approximately HK\$1.4 million, a decrease of approximately 380% from a profit of approximately HK\$0.5 million for the six months ended 30 September 2021 to a loss of approximately HK\$1.4 million for the six months ended 30 September 2022. Such decrease is mainly attributable to the net effect of (i) the increase in revenue; (ii) the increase in direct costs; (iii) the increase in administrative expenses; and (iv) the decrease in change in fair value of financial assets at fair value through profit or loss.
