CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board of directors (the "Board") of RENHENG Enterprise Holdings Limited (the "Company"), I am pleased to present the annual report of the Company and its subsidiaries (collectively the "Group") for the year ended 31 December 2022. During the year under review, in view of the continued recurrence of the COVID-19 and the pandemic is influential to the future development of the country, enterprise, family and individual, the Group was highly concerned about the prevention and control of the pandemic and actively adopted various measures to ensure that all employees returned to their work positions safely and the production has been resumed in a relatively short time. Although the outbreak of COVID-19 has brought certain pressure to bear on the Group's business, the Group has taken a positive view and undertaken more effort on research and development on its new systems and strengthen the safety control measures in the manufacturing plants. Looking forward, the Group will firmly implement quality control and cost effective measure strategies and actively participating in contract biddings. On behalf of the Board, I would like to express heartfelt gratitude once again to all shareholders, directors, colleagues and business partners for their long-standing support and recognition. The Group will continue to strive for the sustainable development of the business, so as to release higher values for its shareholders and other stakeholders.

MANAGEMENT DISCUSSION AND ANALYSIS

The Group is principally engaged in the manufacture, sale and provision of maintenance, overhaul and modification services in respect of tobacco machinery products in the PRC. We have obtained the Tobacco Monopoly Production Enterprise Licence (煙草專賣生產企業許可證) issued by the State Tobacco Monopoly Administration of the PRC (中國國家煙草專賣局), under which we are permitted to manufacture, sell and provide maintenance, overhaul as well as modification services in respect of the aforesaid machinery products, and we are one of the thirty-five licenced manufacturers in the PRC. We generate our turnover primarily from projects related to three types of catalogued special-purpose tobacco machinery products, namely the casing and flavouring system, pneumatic feeding system and pre-pressing packing machine.

FINANCIAL REVIEW

For the year ended 31 December 2022, the Group recorded a loss of HK\$2,363,000 while it was a profit of HK\$721,000 for the year ended 31 December 2021. In the current year, affecting by (i) the depreciation of Renminbi ("RMB") against HK\$; (ii) the decrease in other gains from the sale of scrap materials, parts and components from HK\$2,393,000 for the year ended 31 December 2021 to HK\$1,960,000 for the current year; (iii) the decrease in other income by HK\$879,000 resulted from the decrease in bank interest income and subsidy income; and (iv) the down in revenue was due to the postponement of deliveries or installations of the other products from the impacts of COVID-19, representing a year-on-year decrease in revenue of approximately 6.3% in comparison to the prior year.

Revenue from construction contracts of casing and flavouring systems continued to have outperformed other type of products and goods, of which it contributed HK\$55,551,000 or 80.4% of the total revenue in the current year (2021: HK\$37,316,000 or 50.6%). MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND PROSPECT

During the year of 2022, the COVID-19 outbreak remains in existence, China has maintained its stable situation in general despite some volatilities in individual local areas, the overall economic situation in global might soon be teetering on the edge of a global recession due to COVID-19, geopolitical significance and the arisen of the interest rate of United States dollar (the "USD") by the Federal Reserve System, which would mainly cause the increments for the cost of goods, difficulties of purchasing the raw material and the exchange fluctuations including the depreciation among currencies, which most the currencies has depreciated against USD and HK\$, including the depreciation of RMB in the current year. Nevertheless, the Group started to strengthen the efficiencies and effectiveness of the business operations and continued to optimize the sales and marketing strategy based on the individual needs of cigarette manufacturers and tobacco redrying factories, striving to enhance customers' consumption experience and maintaining the long-term and solid cooperative relationship with our customers.

Facing the uncertainties over the world, the Group retains a conservative capital structure to help insulate our business so as to maintain a constant focus on building a long-term sustainable business and quality control on the products against volatilities. We continue to increase the investment in research and development, along with developing our staffs with training, learning and development opportunities, as well as enhancing marketing efforts. Being a manufacturer on catalogued special-purpose tobacco machinery products solely from the PRC, we rely heavily on our suppliers to supply raw materials in exact accordance with the customers' needs. This is our mission to provide customers with stable and consistent services and products of quality yet we were also under difficult dilemma to maintain our gross profit margin given that the purchasing cost of the raw materials and manpower cost had been shown as an upward trend over the years. The Group has tried very hard to maintain a fairly stable performance. However, the profit is record as a loss compared to the prior same period and we forecast that cost of sales will be our main hurdle on the performance in the coming years. As a result, the company will strive for strengthening the operation efficiency and effectiveness in the future.

During the current period, the Group was working on a few construction contracts of casing and flavouring systems which were substantially completed and pending for inspection yet revenue can only be recognised when the completion certificates are obtained. Going forward, the Group would enhance the planning of production scheduling, making smooth connection between supply and production, accelerating the speed of input and output, and making improvement of the efficiency of capital utilization.

Benefited from the long-term and solid cooperative relationship built with our suppliers, as well as the responsive adjustment made for the supply of raw materials in exact accordance with the customers' needs, the Group was able to provide customers with stable and consistent services and products of quality.

The opportunity is disguised as a challenge, the Group would take advantages of our unique branding in the field and our stable capital structure to optimize the markets and to fulfil the needs from the customers. Under the changing epidemic condition and the increasingly complex external environment, the group will keep up the new trend of the business and be customer-centred with enhanced efforts for business innovation, corporate resilience, operational quality in order to continue creating values for the shareholders.

For significant matters that are specifically delegated by the Board, the management must report back to and obtain prior approval from the Board before making decisions or entering into any commitments on behalf of the Group.

No corporate governance committee has been established and the Board is also delegated with the corporate governance functions.

CORPORATE GOVERNANCE REPORT

Independent non-executive Directors

Each Director is required to keep abreast of his responsibilities as a director of the Company and of the Company's conduct, business activities and development. Given the essential unitary nature of the Board, independent non-executive Director has the same duties of care and skill and fiduciary duties as executive Directors. Independent non-executive Director brings a wide range of business and financial expertise, experience and independent judgement to the Board. Functions of independent non-executive Director include but should not be limited to the following:

- i. participating in Board meetings to bring independent judgement;
- ii. taking the lead where potential conflict of interests may arise;
- iii. serving on the audit, nomination and remuneration committees if invited; and
- iv. scrutinizing the Group's performance in achieving agreed corporate goals and objectives, and monitoring the reporting of performance.

Pursuant to Rule 3.10(1) and 3.10A of the Listing Rules, the Board has appointed three independent non-executive Directors, representing half of the Board and all of them have appropriate professional accounting qualifications or related experiences on financial management which is in compliance with Rule 3.10(2) of the Listing Rules. Each of the independent non-executive Directors is appointed for a period of three years.

Further, pursuant to code provision A.4.3 of Appendix 14 to the Listing Rules, it is recommended that serving more than nine years could be relevant to the determination of a non-executive director's independence. If an independent non-executive director serves more than nine years, any further appointment of such independent non-executive director should be subject to a separate resolution to be approved by shareholders.

All independent non-executive Directors have confirmed their independence pursuant to Rule 3.13 of the Listing Rules by providing an annual confirmation of their independence. The Board has assessed their independence and considers that all independent non-executive Directors are independent as required under the Listing Rules.

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The Code Provision A.2.1 stipulates that the roles of chairman and chief executive officer should be separate and should not be performed by the same individual.

The roles of chairman and chief executive of the Company are both performed by the same individual – Ms. Liu Li. Ms. Liu Li will ensure that all the Board members keep abreast of the conduct, business activities and development of the Group and adequate, complete and reliable information is provided to Directors on issues to be considered by the Board.

CORPORATE GOVERNANCE REPORT

APPOINTMENT AND RE ELECTION OF DIRECTORS

CORPORATE GOVERNANCE REPORT

BOARD COMMITTEES

Audit committee

The audit committee currently comprises three independent non-executive Directors and is chaired by Dr. Lam Lee G.. The rest of members are Mr. Kong Hing Ki and Mr. Wu Wei. At the discretion of the audit committee, executive Directors and/or senior management personnel, overseeing the Group's finance and internal control functions, may be invited to attend meeting. The primary role and function of the audit committee are to review the Company's financial controls, internal control and risk management systems; to review and monitor the external auditors' independence and objectivity and the effectiveness of the audit process in accordance with applicable standard; to review the Company's financial statements, annual reports and interim reports, and to provide advice and comment thereon to the Board.

Up to the date of this annual report, the audit committee held five meetings to review the quarterly, interim and annual results during the year as well as discussed and reviewed the Group's internal control and audit works with the auditor of the Group.

Nomination committee

The nomination committee currently comprises three independent non-executive Directors and is chaired by Mr. Wu Wei. The rest of the members are Dr. Lam Lee G. and Mr. Kong Hing Ki. The primary role and function of the nomination committee are to review and monitor the structure, size and composition of the Board at least once a year and make recommendations on any proposed changes to the Board to carry out the Company's corporate strategies; to assess the independence of independent non-executive Directors; to review the board diversity policy and make recommendation for revision to the Board; and to make recommendations to the Board succession planning.

Up to the date of this annual report, the nomination committee held two meetings to perform the aforesaid functions.

Remuneration committee

The remuneration committee currently comprises three independent non-executive Directors and is chaired by Mr. Kong Hing Ki. The rest of the members are Dr. Lam Lee G. and Mr. Wu Wei. The primary role and function of the remuneration committee are to review and make recommendations to the Board on the Company's policy and structure for all Directors and senior management remuneration; and to review and make recommendations to the Board the remuneration packages of all Directors and senior management.

Up to the date of this annual report, the remuneration committee held two meetings and has considered and reviewed the remuneration package of the Directors and senior management of the Group.

CORPORATE GOVERNANCE REPORT

BOARD INDEPENDENCE

The Board has established mechanisms to ensure independent views and input are available to the Board. The Board ensures the appointment of at least three independent non-executive Directors and at least one-third of its members being independent non-executive Directors. Further, independent non-executive Directors will be appointed to Board Committees as required under the Listing Rules and as far as practicable to ensure independent views and input are available. The Nomination Committee strictly adheres to the independence assessment criteria as set out in the Listing Rules with regard to the nomination and appointment of independent non-executive Directors, and is mandated to assess annually the independence of independent non-executive Directors to ensure that they can continually exercise independent judgement. No equity-based remuneration with performance-related elements will be granted to independent non-executive Directors as this may lead to bias in their decision-making and compromise their objectivity and independence. Directors (including independent non-executive Directors) are entitled to seek further information from the management on the matters to be discussed at Board meetings and, where necessary, independent advice from external professional advisers at the Company's expense. A Director (including independent non-executive Director) who has a material interest in a contract or arrangement shall not vote or be counted in the quorum on any Board resolution approving the same.

BOARD DIVERSITY POLICY

The Company sees increasing diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development. In compliance with Rule 13.92 of the Listing Rules, a policy concerning diversity of the members of the Board were adopted by the Company and applied and reviewed by the Nomination Committee at least annually.

In assessing the composition of the Board, the Nomination Committee would take into account various measurable objectives as set out in the board diversity policy, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. All Board appointments will be based on meritocracy, and candidates will be considered against objective criteria, having due regard for the benefits of diversity on the Board.

In identifying and selecting suitable candidates for directorships, the Nomination Committee would consider measurable objectives including the candidate's character, qualifications, experience, independence and other relevant criteria necessary to complement the corporate strategy and achieve board diversity, where appropriate, before making recommendation to the Board. The ultimate decision will be based on merits and contribution that the selected candidates will bring to the Board.

The Nomination Committee will review the board diversity policy at least annually and discuss any revisions and updates that may be required, and recommend the same to the Board for approval.

The Company's diversity philosophy including the gender diversity was generally followed in the workforce throughout the Group for the year ended 31 December 2022. As of the date of this annual report, approximately 80.0% of Directors and approximately 80.0% of total workforce were male. SHAREHOLDERS' RIGHTS

Convening of extraordinary general meeting

Pursuant to article 12 of the articles of association of the Company (the "Articles of Association"), extraordinary general meeting ("EGM") may be convened by the Board on written requisition of any two or more shareholders of the Company holding not less than one-tenth of the paid up capital of the Company or by such shareholders who made the requisition (the "Requisitionists"). Such written requisition must specify the objects of the EGM and must be signed by the Requisitionists and deposited at the principal place of business of the Company in Hong Kong or, in the event the Company ceases to have such principal office, the registered office of the Company. Shareholders should follow the requirements and procedures as set out in such article for convening an EGM.

If the Board does not within 21 days from the date of deposit of the requisition proceed duly to convene the EGM to be held within a further 21 days, the Requisitionist(s) themselves or any of them representing more than one-half of the total voting rights of all of them, may convene the EGM provided that any meeting so convened shall not be held after the expiration of three months from the date of deposit of the requisition.

Enquiries put to the Board

Shareholders may send written enquiries or requests in respect of their rights to the principal place of business of the Company in Hong Kong or by email to info@renhengenterprise.com and for the attention of the Company Secretary.

Procedures for putting forward proposals at shareholders' meetings

There is no provision for shareholders to propose resolutions at general meetings under the Cayman Islands Companies Law. However, shareholders can follow the above procedure and request to convene an EGM.

Pursuant to article 16 of the Articles of Association, no person shall, unless recommended by the Board, be eligible for election to the office of Director at any general meeting unless during the period, which shall be at least seven days, commencing no earlier than the day after the despatch of the notice of the meeting appointed for such election and ending no later than seven days prior to the date of such meeting, there has been given to the Company Secretary notice in writing by a shareholder of the Company (not being the person to be proposed), entitled to attend and vote at the meeting for which such notice is given, of his intention to propose such person for election and also notice in writing signed by the person to be proposed of his willingness to be elected.

CORPORATE GOVERNANCE REPORT

Accordingly shareholders who wish to propose a person for election as a director of the Company shall file a notice in writing to the principal place of business of the Company in Hong Kong for the attention of the Company Secretary and should follow the requirements and procedures as set out in such article.

COMMUNICATION WITH SHAREHOLDERS AND INVESTORS

The Company strives to provide ready, fair, regular and timely disclosure of information that is material to the investor community. Therefore, the Company works to maintain an on-going dialogue with Shareholders and in particular, through annual general meeting and other general meetings or other proper means. The Chairman, all other members of the Board including independent non-executive Directors and the chairmen of all Board committees will attend the forthcoming AGM to meet with the Shareholders and answer their enquiries.

In addition, the Company has developed a shareholder communication policy with the objective of maintaining effective and timely dissemination of the Company's information to its Shareholders and the market, including its financial performance, strategic goals and plans, material developments and governance, in order to enable Shareholders to exercise their rights in a timely and informed manner, and to allow Shareholders and the investment community to engage actively with the Company. During the year ended 31 December 2022, Board has maintained and regularly reviewed the policy in accordance with the Corporate Governance Code to ensure its effectiveness. Reference has also been made to the shareholders' communication policy of other listed issuers in Hong Kong to ensure the Company's shareholders' communication policy is on par with market standard.

CONSTITUTIONAL DOCUMENTS

Reference is made to the announcement of the Company dated 28 March 2023. The Board proposes to amend the Memorandum and Articles of Association in order to (i) bring the Memorandum and Articles of Association in line with the amendments made to the applicable laws of the Cayman Islands and the Listing Rules, in particular Appendix 3 to the Listing Rules regarding the core shareholder protection standards which became effective on 1 January 2022; (ii) incorporate certain consequential and housekeeping amendments; and (iii) update and clarify provisions where it is considered desirable. As such, the Board proposes to adopt a new set of articles of association in substitution for the Memorandum and Articles of Association (the "Proposed Amendments").

The adoption of the Proposed Amendments is subject to the approval of the shareholders of the Company by way of a special resolution at a general meeting of the Company. An explanation of the effect of the Proposed Amendments and the full terms of the Proposed Amendments, together with the notice of AGM and the proxy form has been despatched to the Shareholders in the AGM Circular.

CORPORATE GOVERNANCE REPORT

DIRECTORS' RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibilities for preparing the financial statements of the Company for the year ended 31 December 2022 which give a true and fair view of the financial position of the Group.

The management has provided to the Board such explanation and information as are necessary to enable the Board to carry out an informed assessment of the Company's financial statements, which are put to the Board for approval. The Company has provided all members of the Board with regular updates on the Company's performance, positions and prospects.

The Directors, having made appropriate enquiries, are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Group's ability to continue as a going concern.

The statement by the external auditor regarding its reporting responsibilities on the consolidated financial statements of the Company is set out in the Independent Auditor's Report from pages 37 to 42 of this annual report.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Group is committed to promoting sustainable development, which is extremely important to create long-term value for the Group's shareholders, clients, employees, other stakeholders, as well as the general public. The Group cares about the impact of its daily operation on environment and society and strives to set a good example for the public. We make effort to meet the interests of all stakeholders, economy, environment, society and corporate governance and does our best to achieve a fine balance.

SCOPE

This environmental, social and governance report ("ESG Report") has been prepared in compliance with the Environmental, Social and Governance Reporting Guide ("ESG Guide") set out in Appendix 27 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

The Group is principally engaged in the manufacture, sale and provision of maintenance, overhaul and modification services in respect of tobacco machinery products in the People's Republic of China (the "PRC") through its wholly owned subsidiary – Bao Ying Ren Heng Industrial Co. Limited ("Baoying Renheng"). This ESG Report covers environmental, social and governance matters of Baoying Renheng during the reporting period from 1 January 2022 to 31 December 2022 ("FY2022").

STAKEHOLDER ENGAGEMENT AND MATERIALITY ASSESSMENT

We believe that the opinions of our stakeholders can contribute to the sustainable development of the Group. Therefore, we appropriately communicate with our stakeholders and promote the participation of stakeholders through different forms and channels of communication. The following are the main categories of stakeholders and communication channels:

STAKEHOLDERS' FEEDBACK

The Group welcomes stakeholders' feedback on our environmental, social and governance approach and performance. Please give your suggestions or share your views with us at info@renhengenterprise.com such that we can keep stepping up our environmental, social and governance undertakings.

A. ENVIRONMENT

Owing to the industry nature, it is unavoidable for Baoying Renheng to produce industrial wastes during the operation. The Group is committed to protect the environment and maintain the sustainability in long-term. We have established procedures to ensure our operation and business are in compliance with the applicable safety and environmental regulations.

A1. Emissions

The Group is aware that there is greenhouse gas emission, wastewater discharge and solid waste generated from the operation of Baoying Renheng. We have tried our best to enhance the efficiency of the usage of energy, water and materials in order to reduce the green house gas emission and unfavourable impact of wastewater discharge and combat climate change. We had installed exhaust gas fans and filtering tanks in the production plant to eliminate the effect from hazardous gas emission and unfavourable element in the wastewater collected by the domestic sewage.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Annual review on wastewater discharged by the production plant is also performed by the environmental authority in the PRC. Meanwhile, we noted that there was limited solid waste generated from the operation during the reporting period.

Scope of Greenhouse Gas Emission	Emission Sources	FY2022		FY2021	
		Emission (In tonnes of CO ₂ e)	Total Emission	Emission (In tonnes of CO ₂ e)	Total Emission
Scope 1					
Direct emission	Mobile combustion sources	185.3	46.4%	351.8	63.9%
Scope 2					
Indirect emission	Purchased electricity	167.3	41.9%	168.7	30.6%
Scope 3					
Other indirect emission	Raw materials for packaging of products	39.4		23.7	
	Water	7.5	11.7%	6.7	5.5%
Total		399.5	100%	550.9	100%

There were 399.5 and 550.9 tonnes of carbon dioxide equivalent (CO₂e) greenhouse gases emitted from the operation of Baoying Renheng in FY2022 and FY2021, respectively, which mainly resulted from the transportation of tobacco machinery products to different provinces in the PRC and the electricity supply for production. The increase in emission of CO₂e is directly related to the further distance of transportation to the customers' factories. More products in greater scale and size are shipped to the customers' factories by trucks and packaging materials were used during the shipping. In addition, significant increase in direct emission caused by the mobile combustion (including both petrol and diesel) as the machinery products were shipped to provinces further away from our production plant. The annual emission intensity was 0.017 tonnes (FY2021: 0.024 tonnes) of CO₂e per square metre, with our production plant of a total floor area coverage of 23,223 square metres.

No hazardous waste was generated in the production. During the reporting period, only limited non-hazardous waste was generated and a total amount of RMB10,000 was paid for the solid waste treatment during the year ended 31 December 2022 (FY2021: RMB10,000). The non-hazardous waste is discharged to a site designated by the municipal government agency.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

A2. Use of Resources

Baoying Renheng consumed 281,000 kWh (FY2021: 283,500 kWh) of electricity during the reporting period, contributed to an emission of 167.3 tonnes (FY2021: 168.7 tonnes) of CO₂e. We required our employees to switch off office electronic facilities such as lighting, manufacturing and computer equipment during unattended hours in relevant office or working area and encouraged to have double-sided printing. We will consider purchase of energy saving office appliances, when applicable, in the future.

During the reporting period, Baoying Renheng consumed approximately 38,980 tonnes of water as compared to 34,651 tonnes of water consumption in FY2021. Water saving practice is encouraged at the office. At the same time, the Group strives to minimise the impact to the environment, if any, and save material costs by continuously reviewing the design for product packaging, with the aim of reducing packaging size. Despite this, as the Group's products are mainly machinery products which are fragile, they must be protected by wooden box during the transportation. We have consumed approximately 23,074 kg wooden board for product packaging during the reporting period with a drastic decrease of usage in compare to FY2021 by 13,862 kg resulted from enhancement on packaging design and the decrease in sales volume.

A3. The Environment and Natural Resources

The manufacturing facilities in Baoying Renheng are required to undergo stringent environment audit and continuous monitoring. During the reporting period, we have not been subjected to any claims in the form of any compensation or penalty levied for environmental disruption by the Group for business. In the future, the Group will spend more effort to allocate more resources to promote a wide range of environmental protection action plans.

A4. Tackling climate change

The Board meets at least twice a year to oversee climate-related strategies, policies, actions and disclosures. The management supports climate action planning and internal policy setting, as well as coordinating responses to climate-related risks. We encourage employees to participate in green workshop to enhance their environmental awareness, and continuously promote the importance of mitigate the potential climate change risks.

B. SOCIAL

B1. Employment and Labour Practices

The Group believes that our business success relies on our experience talents employed. We promote equal opportunities to all our employees and are committed to fostering an equal employment environment for employees where treating employees differently on the ground of gender, ethnicity, age, marital status, family status, and religious beliefs among other factors is prohibited. In FY2022, all of Baoying Renheng's employees were full time employees working in the PRC. We do strictly comply with all relevant laws and regulations in respect of employment and labour practices including the PRC Labour Law (中華人民共和國勞動法) and the PRC Labour Contract Law (中華人民共和國勞動合同法).

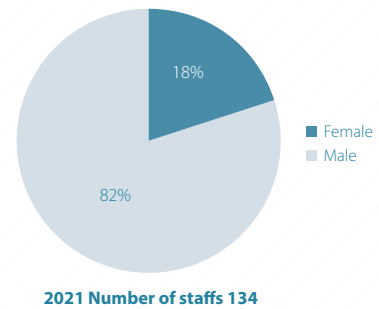

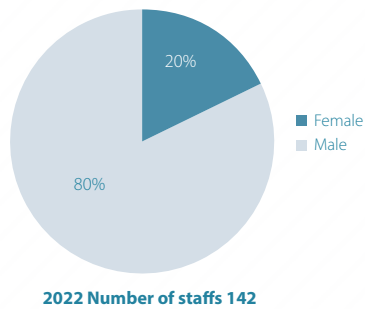

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Our compensation and dismissal, recruitment and promotion, working hours and rest periods are determined by reference to our employees' respective experiences, responsibilities, qualifications, competence displayed and our operation results.

Based on our corporate responsibility, the Group do not allow any violations against employment regulations. During the reporting period, the Group did not discover any relevant cases.

In FY2022 and FY2021, the total workforce by gender, employment category and age group are as shown.

Average number of employees (By Gender)

Average number of employees (By Employment Category)

Average number of employees (By Age Group)

In FY2022 and FY2021, the employee turnover rate is 10.64% and 15.6%, respectively. The employee turnover rate by gender and age group are as shown.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

B2. Health and Safety

Considering our employees as valuable assets for contributing to the Group's success and sustainability, their health and safety is the major concern the Group attends to. We did strictly comply with the PRC Production Safety Law by 國家安全生產監督管理總局 (the State Administration of Work Safety) which is in charge of the overall administration of production safety. We provide safe production conditions according to the law and provide education and training on occupational safety and health knowledge to our employees.

Number of lost days	–	–	Days
Number of reported accidents (sick leave > 3 days)	–	–	Accident
Injury rate per 100 employees	–	–	–

B3. Development and Training

We strongly believe that nurturing and retaining talent is conducive to developing a more cohesive corporate culture, building a better corporate image, and generating more rewarding economic benefits. In addition to training on occupational safety and health knowledge, we provide on-the-job trainings which include product design, technical training on domestic and foreign tobacco machinery production as well as subsidise in attending external training sessions.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

B4. Labour Standards

Our Group fully recognises that child labour and forced labour violate fundamental human rights and international labour conventions and pose a threat to sustainable social and economic development. Therefore, the Group strictly abides by the PRC Labour Law. The Group prohibits child labour and carries out examination of applicants' actual age during the recruitment process, includes the checking and making records of the identity documents. The Group implements the requirements of standard labour contract and will not unfairly limit the employment relationship between employees and the Group in any way, such as detaining a deposit or proof of identity. Employees have the right to terminate labour contract as long as it is in compliance with laws and regulations. During the reporting period, the Group did not find case of child labour nor forced labour.

B5. Supply Chain Management

We procure based on the project implementation plan taking into account the raw materials, parts and components in stock. We enter into procurement arrangements with our suppliers to secure the necessary raw materials, parts and components required for individual project after we have entered into sales contracts with our customers with the production schedules. We maintain a list of approved suppliers and procure raw materials, parts and components from such suppliers. In the selection of our approved suppliers, we take into account different factors, including but not limited to, the pricing and quality of the raw materials, parts and components, stability of supply and delivery, the credit period offered by the suppliers as well as their reputation. We generally review the list of approved suppliers on an annual basis. For FY2022, the Group's five largest suppliers in aggregate accounted for approximately 46.6% (FY2021: 39.0%) of the total purchases and all the suppliers of the Group are situated in the PRC.

B6. Product Responsibility

Our product quality management is in compliance with the General Principles of the Civil Laws of the PRC (中華人民共和國民法通則), the Product Quality Law of the PRC (中華人民共和國產品質量法), the Law of the PRC on the Protection of the Rights and Interests of Consumers (中華人民共和國消費者權益保護法), the Administrative Measures on Supervision and Inspection of Product Quality in Tobacco Industry (煙草行業產品質量監督檢驗網管理辦法) and other related laws and regulations. During the reporting period, none of the sold or shipped products was subjected to recalls for safety and health reasons and no complaint on products has been received. We keep close communication with the customers and provide to them high quality products that are tailored to their needs.

We recognises that customers' privacy is an important issue and are dedicated to respecting the customers' privacy safeguarding by keeping the sensitive data separately which is only assessable by authorised personnel.

B7. Anti-corruption

The Group attaches great importance to corporate governance and anti-corruption. We require our employees to strictly follow the standards of business ethics and refuse to accept bribery. We believe that all of our staffs (including management) are honest and obeying the relevant laws and regulations in the jurisdiction. The staffs are encouraged to report to the senior management for any suspected or known fraud and during the reporting period, there is no corruption litigation case involving the Group and the employees.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

B8. Community Investment

We treasure the importance of support from the social community on its business and its social responsibilities towards the community.

Looking forward, we will continue to undertake corporate social responsibility, so as to give back and contribute to society.

TO THE SHAREHOLDERS OF RENHENG ENTERPRISE HOLDINGS LIMITED

(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of RENHENG Enterprise Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 43 to 103, which comprise the consolidated statement of financial position as at 31 December 2022, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Valuation of a property at the date of change in use

We identified the valuation of a property at the date of change in use as a key audit matter due to the management's judgements associated with determining the fair value. The property represented a factory building and land thereof located in the People's Republic of China (the "PRC") which was classified as investment properties as at 31 December 2021. The property becomes an owner-occupied property in the current year since 30 September 2022. The fair value of the property at the date of change in use is Hong Kong dollar ("HK\$") 19,680,000, which is considered as the deemed cost for subsequent accounting and represented approximately 7.6% of the Group's total assets as at 31 December 2022. During the current year, a loss of HK\$116,000 was recognised for the fair value change of investment properties in the consolidated statement of profit or loss and other comprehensive income.

The fair value measured at the date of change in use was determined by the management of the Company based on a valuation performed by an independent qualified professional valuer which is not connected with the Group (the "Valuer"). Details of the valuation technique and significant unobservable inputs used in the valuation are disclosed in Note 15 to the consolidated financial statements. The valuation of the property is dependent on certain unobservable inputs, which involves the management's judgements, including "market rents" and "capitalisation rate".

Our procedures in relation to assessing the appropriateness of the valuation of a property included:

- Evaluating the Valuer's competence, capabilities and objectivity;
- Obtaining an understanding from the management and the Valuer about the valuation technique and assessing the reasonableness of key inputs used in the valuations by comparing to relevant market information on market rents and capitalisation rates adopted in other comparable properties; and
- Evaluating the reasonableness of methodology and assumptions applied in the valuation by comparing with industry norms.

KEY AUDIT MATTERS (Continued)

Key audit matter

How our audit addressed the key audit matter

Impairment assessment on Trade Receivables and Retention Money Receivables ("Trade-related Receivables")

We identified impairment assessment on Trade-related Receivables as a key audit matter due to the significance of the balance to the consolidated financial statements as a whole and the involvement of subjective judgement and management estimates in evaluating the expected credit losses ("ECL") of Trade-related Receivables at the end of the reporting period.

At 31 December 2022, the carrying amounts of Trade-related Receivables are HK\$17,020,000, which represented approximately 6.6% of total assets of the Group.

As disclosed in Note 4 to the consolidated financial statements, the Group estimates the amount of lifetime ECL of Trade-related Receivables based on assessment through considering internal credit ratings of trade debtors, ageing, repayment history and/or past due status of respective Trade-related Receivables. Estimated loss rates are based on historical observed default rates over the expected life of the debtors and forward-looking information. The assessment of ECL involves a high degree of uncertainties and details of the assessment and assumptions are disclosed in Note 28(b).

A reversal of impairment loss amounting to HK\$42,000 was recognised for Trade-related Receivables for the year ended 31 December 2022.

Our procedures in relation to impairment assessment on Trade-related Receivables included:

- Understanding of key controls of the Group over the estimation of ECL of trade debtors;
- Testing the accuracy of information used by management to develop the assessment, including Trade-related Receivables ageing analysis as at 31 December 2022, on a sample basis, by comparing individual items in the analysis with the relevant sales orders, sales invoices and other supporting document;
- Assessing the reasonableness of the management's basis and judgement in determining the ECL based on historical credit loss records and with reference to other factors that have been taken into consideration by the management;
- Assessing the reasonableness of the basis of estimated loss rate applied with reference to historical default rates and forward-looking information; and
- Performing retrospective review of the management's estimation by comparing the expected losses provided at 31 December 2021 to actual losses incurred during the year ended 31 December 2022.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Chan, Benjie Pak Kin.

Notes:

- The merger reserve represents the aggregate amount of paid-in capital of Bao Ying Ren Heng Industrial Co. Limited 寶應仁恒實業有限公司 (“Baoying Renheng”) and share capital of RENHENG Global Limited (“RENHENG Global”), subsidiaries of the Company, acquired pursuant to group reorganisation in prior years.
- As stipulated by the relevant laws and regulations in the People’s Republic of China (the “PRC”), Baoying Renheng is required to maintain two reserves, being a statutory surplus reserve and a discretionary surplus reserve which are non-distributable. Appropriations to such reserves are made out of profit after taxation of Baoying Renheng based on the relevant accounting principles and financial regulations applicable to the PRC enterprises while the amount and allocation basis are decided by its board of directors annually. Pursuant to the relevant laws and regulations in the PRC, appropriation to the statutory surplus reserve is required until the balance reaches 50% of the registered capital. The statutory surplus reserve and the discretionary surplus reserve can be used to make up its prior year losses, if any, and can be applied in conversion into capital by means of capitalisation issue.
- The capital reserve represented waiver of an amount due to a former shareholder of a subsidiary of the Company in prior years.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

1. GENERAL INFORMATION

RENHENG Enterprise Holdings Limited (the “Company”) was incorporated in the Cayman Islands as an exempted company with limited liability and its shares were listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The Company is jointly controlled by LinkBest Capital Group Limited and Open Venture Global Limited. The ultimate controlling shareholder is Ms. Liu Li, who is also the chairman and chief executive officer of the Company.

The Company acts as an investment holding company while its subsidiaries (collectively referred to as the “Group”) are principally engaged in the manufacture and sale of tobacco machinery products in the People’s Republic of China (the “PRC”). The address of the registered office and the address of the principal place of business of the Company is disclosed in corporate information section of the annual report.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”), which is different from the Company’s functional currency of Renminbi (“RMB”). The directors of the Company adopted HK\$ as presentation currency as the Company’s shares are listed on the Stock Exchange and the management considers this presentation to be more useful for its current and potential investors.

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

Amendments to HKFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time, which are mandatorily effective for the annual periods beginning on or after 1 January 2022 for the preparation of the consolidated financial statements:

Amendments to HKFRS 3	Reference to the Conceptual Framework
Amendment to HKFRS 16	Covid-19-Related Rent Concessions beyond 30 June 2021
Amendments to HKAS 16	Property, Plant and Equipment – Proceeds before Intended Use
Amendments to HKAS 37	Onerous Contracts – Cost of Fulfilling a Contract
Amendments to HKFRSs	Annual Improvements to HKFRSs 2018–2020

Except as described below, the application of the amendments to HKFRSs in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

2.1 Impacts on application of Amendment to HKFRS 16 Covid-19-Related Rent Concessions beyond 30 June 2021

The Group has applied the Amendment to HKFRS 16 *Covid-19-Related Rent Concessions beyond 30 June 2021* retrospectively for the first time in the current year. The amendment extends the availability of the practical expedient in paragraph 46A of HKFRS 16 *Leases* (“HKFRS 16”) by one year so that the practical expedient applies to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022, provided the other conditions for applying the practical expedient are met.

The application of this amendment has had no material impact on the Group’s financial positions and performance for the current and prior years.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

New and amendments to HKFRSs in issue but not yet effective

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

HKFRS 17	Insurance Contracts ¹
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ²
Amendments to HKFRS 16	Lease Liability in a Sale and Leaseback ³
Amendments to HKAS 1	Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020) ³
Amendments to HKAS 1	Non-current Liabilities with Covenants ³
Amendments to HKAS 1 and HKFRS Practice Statement 2	Disclosure of Accounting Policies ¹
Amendments to HKAS 8	Definition of Accounting Estimates ¹
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction ¹

¹ Effective for annual periods beginning on or after 1 January 2023.

² Effective for annual periods beginning on or after a date to be determined.

³ Effective for annual periods beginning on or after 1 January 2024.

Except for the new and amendments to HKFRSs mentioned below, the directors of the Company anticipate that the application of all other new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

New and amendments to HKFRSs in issue but not yet effective (Continued)

Amendments to HKAS 1 and HKFRS Practice Statement 2 Disclosure of Accounting Policies

HKAS 1 is amended to replace all instances of the term “significant accounting policies” with “material accounting policy information”. Accounting policy information is material if, when considered together with other information included in an entity’s financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The amendments also clarify that accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. If any entity chooses to disclose immaterial accounting policy information, such information must not obscure material accounting policy information.

HKFRS Practice Statement 2 *Making Materiality Judgements* (the “Practice Statement”) is also amended to illustrate how an entity applies the “four-step materiality process” to accounting policy disclosures and to judge whether information about an accounting policy is material to its financial statements. Guidance and examples are added to the Practice Statement.

The application of the amendments is not expected to have significant impact on the financial position or performance of the Group but may affect the disclosures of the Group’s significant accounting policies. The impacts of application, if any, will be disclosed in the Group’s future consolidated financial statements.

Amendments to HKAS 8 Definition of Accounting Estimates

The amendments define accounting estimates as “monetary amounts in financial statements that are subject to measurement uncertainty”. An accounting policy may require items in financial statements to be measured in a way that involves measurement uncertainty – that is, the accounting policy may require such items to be measured at monetary amounts that cannot be observed directly and must instead be estimated. In such a case, an entity develops an accounting estimate to achieve the objective set out by the accounting policy. Developing accounting estimates involves the use of judgements or assumptions based on the latest available, reliable information.

In addition, the concept of changes in accounting estimates in HKAS 8 is retained with additional clarifications.

The application of the amendments is not expected to have significant impact on the Group’s consolidated financial statements.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES

3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules") and by the Hong Kong Companies Ordinance ("CO").

The directors of the Company have, at the time of approving the consolidated financial statements, a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the consolidated financial statements.

The consolidated financial statements have been prepared on the historical cost basis, except for investment properties that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 *Share-based Payment*, leasing transactions that are accounted for in accordance with HKFRS 16 *Leases* ("HKFRS 16"), and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 *Inventories* or value in use in HKAS 36 *Impairment of Assets*.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For investment properties which are transacted at fair value and a valuation technique that unobservable inputs is to be used to measure fair value in subsequent periods, the valuation technique is calibrated so that at initial recognition the results of the valuation technique equals the transaction price.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.1 Basis of preparation of consolidated financial statements (Continued)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

3.2 Significant accounting policies

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when a company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

For the year ended 31 December 2022

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.2 Significant accounting policies (Continued)

Revenue from contracts with customers (Continued)

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9 *Financial Instruments* ("HKFRS 9"). In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Where a customer does not have the option to purchase a warranty separately, the Group accounts for the warranty in accordance with HKAS 37 *Provisions, Contingent Liabilities and Contingent Assets* unless the warranty provides the customer with a service in addition to the assurance that the product complies with agreed-upon specifications (i.e. service-type warranties).

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application of HKFRS 16, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, or modification date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

Leases (Continued)

The Group as a lessee

Short-term leases

The Group applies the short-term lease recognition exemption to leases of office premises that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. Lease payments on short-term leases are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received; and
- any initial direct costs incurred by the Group.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities other than adjustments to lease liabilities resulting from Covid-19-related rent concessions in which the Group applied the practical expedient.

Right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

3.2 Significant accounting policies (Continued)

Leases (Continued)

The Group as a lessee (Continued)

Lease liabilities (Continued)

The lease payments include: fixed payments (including in-substance fixed payments) less any lease incentives receivable.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) when the lease term has changed, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Covid-19-related rent concessions

In relation to rent concessions that occurred as a direct consequence of the COVID-19 pandemic, the Group has elected to apply the practical expedient not to assess whether the change is a lease modification if all of the following conditions are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2022; and
- there is no substantive change to other terms and conditions of the lease.

A lessee applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 if the changes are not a lease modification.

Forgiveness or waiver of lease payments are accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amounts forgiven or waived with a corresponding adjustment recognised in the profit or loss in the period in which the event occurs.

3.2 Significant accounting policies (Continued)

Leases (Continued)

The Group as a lessor

Classification and measurement of leases

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset, and such costs are recognised as an expense on a straight-line basis over the lease term except for investment properties measured under fair value model.

Property, plant and equipment

Property, plant and equipment including buildings held for use in production or supply of goods or services, or for administrative purposes are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment loss, if any.

When the Group makes payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "right-of-use assets" in the consolidated statement of financial position except for those that are classified and accounted for as investment properties under the fair value model. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Depreciation is recognised so as to write off the cost of property, plant and equipment less their residual value over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.2 Significant accounting policies (Continued)

Impairment on property, plant and equipment and right-of-use assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro-rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Investment properties

Investment properties are properties held to earn rentals and/or capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at fair values, adjusted to exclude any prepaid or accrued operating lease income.

Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

If a property becomes an owner-occupied property because its use has been changed as evidenced by commencement of owner-occupation, the fair value of the property at the date of change in use is considered as the deemed cost for subsequent accounting.

Cash and cash equivalents

Cash and cash equivalents presented on the consolidated statement of financial position include:

- (a) cash, which comprises of cash on hand and demand deposits, excluding bank balances that are subject to regulatory restrictions that result in such balances no longer meeting the definition of cash; and
- (b) cash equivalents, which comprises of short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Warranties

Provisions for the expected cost of assurance-type warranty obligations under the relevant contracts with customers for the construction contracts of casing and flavouring system and sales of other products are recognised at the date of the sale of the relevant products, at the directors' best estimate of the expenditure required to settle the Group's obligation.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15 *Revenue from Contracts with Customers*. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets (Continued)

Classification and subsequent measurement of financial assets (Continued)

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income:

- the financial asset is held within a business model whose objective is achieved by both selling and collecting contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor in contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 *Business Combinations* applies.

Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss ("ECL") model on financial assets (including trade and other receivables, restricted bank deposits and bank balances) which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessments are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

The Group always recognises lifetime ECL for Trade-related receivables, comprising trade receivables and retention money receivables. The ECL on Trade-related Receivables are assessed collectively.

For all other financial assets, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Impairment of financial assets (Continued)

(i) Significant increase in credit risk (Continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full.

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Lifetime ECL for Trade-related Receivables are considered on a collective basis taking into consideration past due information and relevant credit information such as forward looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status; and
- Nature, size and industry of debtors.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade and other receivables where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

Financial liabilities (including trade and other payables) are subsequently measured at amortised cost, using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before taxation because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted.

Taxation (Continued)

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 *Income Taxes* requirements to the leasing transaction as a whole. Temporary differences relating to right-of-use assets and lease liabilities are assessed on a net basis. Excess of depreciation on right-of-use assets over the lease payments for the principal portion of lease liabilities resulting in net deductible temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates at the date of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve.

Exchange differences relating to the retranslation of the Group's net assets in RMB to the Group's presentation currency (i.e. HK\$) are recognised directly in other comprehensive income and accumulated in translation reserve. Such exchange differences accumulated in the translation reserve are not reclassified to profit or loss subsequently.

Employee benefits

Retirement benefit costs

Payments to state-managed retirement benefits schemes and the Mandatory Provident Fund Scheme ("MPF Scheme"), which are defined contribution schemes, are recognised as expenses when employees have rendered service entitling them to the contributions.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries and annual leave) after deducting any amount already paid.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "Other income".

Research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Critical judgements in applying accounting policies

The following is a critical judgement, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Revenue recognition at a point in time

Revenue is recognised over time when the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date. Significant judgement is required in determining whether the terms of the Group's contracts with customers in relation to products with no alternative use create an enforceable right to payment for the Group. The Group has considered the relevant local laws that apply to those relevant contracts. Based on the assessment by the Group's management, the terms of the relevant sales contracts do not create an enforceable right to payment for the Group after taking into consideration that the Group will not have a right to collection for performance completed to date, until to be at an agreed-upon milestone and the Group would not have an enforceable right to demand payment for performance completed to date if the contract were to be terminated before completion for reasons other than the Group's failure to perform as promised. Accordingly, the sales of products with no alternative use are considered to be performance obligation satisfied at a point in time.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty (Continued)

Provision of ECL for Trade-related Receivables

The Group recognises lifetime ECL for Trade-related Receivables based on assessment through considering internal credit ratings of trade debtors, ageing, repayment history and/or past due status of respective Trade-related Receivables. The estimation on lifetime ECL is required in assessing probability-weighted estimate of the credit loss which is based on historical observed default rates over the expected life of the debtors and forward-looking information. Where the future cash flows are less than expected, or being revised downward due to changes in facts and circumstances, a material impairment loss may arise.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's Trade-related Receivables are disclosed in Notes 18 and 28(b).

Allowance for inventories

The Group makes allowance for inventories based on an assessment of the net realisable value of inventories. Allowances are applied to inventories where events or changes in circumstances indicate that the net realisable value is lower than the cost of inventories. The identification of obsolete inventories requires the use of judgement and estimates on the conditions and usefulness of the inventories. In cases where the net realisable value of inventories assessed are less than expected, a material recognition of allowance for inventories may arise, which would be recognised in profit or loss in the period in which such recognition takes place.

At 31 December 2022, the carrying amount of inventories is HK\$97,097,000 (2021: HK\$76,282,000), after netting of allowance of HK\$8,081,000 (2021: HK\$7,868,000). During the year ended 31 December 2022, HK\$915,000 allowance for inventories is recognised (2021: HK\$1,501,000).

All of the Group's revenue are derived in the PRC, which are determined by the location where the systems or products being installed or delivered. The revenue from construction contracts of casing and flavouring system and sales of other products are recognised at point in time.

(ii) Performance obligations for contracts with customers

Construction contracts of casing and flavouring system

The Group provides construction services of casing and flavouring system to its customers which are cigarette manufacturers in the PRC. For the contracts entered into with customers, the contract prices are fixed and the relevant casing and flavouring system specified in the contracts are based on customer's specifications with no alternative use. Taking into consideration of the relevant contract terms, the legal environment and relevant legal precedent, the Group concluded that the Group does not have an enforceable right to payment prior to transfer of the relevant casing and flavouring system to customers. Revenue from construction contracts of casing and flavouring system is therefore recognised at a point in time when the completed casing and flavouring system is transferred to customers, being at the point that the customer obtains the control of the completed casing and flavouring system and the Group has unconditional right to payment and collection of the consideration is probable.

5. REVENUE AND SEGMENT INFORMATION (Continued)

(ii) Performance obligations for contracts with customers (Continued)

Construction contracts of casing and flavouring system (Continued)

The Group receives 10% to 30% of the contract value as deposits from customers when they sign the construction agreement. Such advance payment schemes result in contract liabilities being recognised throughout the construction period for the full amount of the contract price.

The defect liability period, ranging from one to three years from the date of the practical completion of the construction, serves as an assurance that the construction services performed comply with agreed upon specifications and such assurance cannot be purchased separately.

Sales of other products

The Group sells pneumatic feeding system, pre-pressing packing machine, water treatment system and other products directly to the customers which are cigarette manufacturers and tobacco redrying factories in the PRC. For the sales of other products to the customers, revenue is recognised when control of the goods has transferred, being the point the goods has delivered to the customers. The normal credit term is 90 days upon delivery.

(iii) Transaction price allocated to the remaining performance obligation for contracts with customers

The transaction price allocated to the remaining performance obligations (unsatisfied or partially unsatisfied) as at 31 December 2022 and 31 December 2021 and the expected timing of recognising revenue are as follows:

5. REVENUE AND SEGMENT INFORMATION (Continued)

(iv) Segment information

The Group's operating activities are attributable to a single operating segment focusing on manufacture and sale of tobacco machinery products. This operating segment has been identified on the basis of internal management reports prepared in accordance with accounting policies conform to HKFRSs, that are regularly reviewed by the chief executive officer of the Company, being the chief operating decision maker ("CODM") of the Company. The CODM regularly reviews revenue analysis by products, including casing and flavouring system, pneumatic feeding system, pre-pressing packing machine, water treatment system and other products. However, other than revenue analysis, no operating results and other discrete financial information is available for the assessment of performance of the respective products. The CODM reviews the revenue and the profit for the year of the Group as a whole to make decision about resources allocation. No analysis of segment assets or segment liabilities is presented as they are not regularly provided to the CODM. Accordingly, only entity-wide disclosures, major customers and geographic information are presented.

The details of revenue by products is same as those disclosed in Note 5(i). The revenue from customers of the corresponding years contributing over 10% of the total sales of the Group are as follows:

	2022 HK\$'000	2021 HK\$'000
Customer A ¹	27,881	29,822
Customer B ¹	12,722	N/A
Customer C ¹	N/A	13,475

¹ Revenue from sales of other products and construction contracts of casing and flavouring system.

All of the Group's revenue are derived in the PRC, which are determined by the location where the systems or products being installed or delivered. The Group's non-current assets are substantially all located in the PRC (excluding Hong Kong).

	1,052	1,411
Deferred taxation (Note 22)	723	1,236
	1,775	2,647

No provision for taxation in Hong Kong has been made as the Group has no assessable profit arisen in, or was derived from Hong Kong.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

11. TAXATION (Continued)

The provision for EIT is based on the estimated taxable income for PRC taxation purposes at 25% for the current period (2021: 25%) under the Law of the PRC on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law.

Under the EIT Law, a qualified High and New-Tech Enterprise ("HNTE") can enjoy a reduced tax rate at 15%. A PRC subsidiary of the Company had been recognised and approved as a HNTE during the year ended 31 December 2021. The HNTE qualification is effective since 2020 and the PRC subsidiary needs to renew its status in 2023, and is therefore entitled to a reduced tax rate at 15% for the years ended 31 December 2022 and 2021.

The tax charge for the year can be reconciled to the (loss) profit before taxation per the consolidated statement of profit or loss and other comprehensive income as follows:

	2022 HK\$'000	2021 HK\$'000
(Loss) profit before taxation	(588)	3,368
Tax (credit) charge at the applicable tax rate of 25% (2021: 25%)	(147)	842
Tax effect of expenses not deductible for tax purposes	1,211	2,941
Effect of different tax rate of a subsidiary in other jurisdiction (<i>Note a</i>)	414	(593)
PRC withholding tax on undistributed profit of a PRC subsidiary (<i>Note b</i>)	888	1,518
Overprovision in respect of prior year	–	(997)
Income tax at concessionary rate	(591)	(1,064)
Tax charge for the year	1,775	2,647

Notes:

- a. The tax rate of a subsidiary used in other jurisdiction is the Hong Kong Profits Tax rate 16.5% (2021: 16.5%).
- b. Under the EIT Law, withholding tax is imposed on dividends declared in respect of profits earned by the PRC established subsidiaries that are received by non-PRC resident entities from 1 January 2008 onwards. At 31 December 2022, deferred taxation had been provided in the consolidated financial statements in respect of temporary differences attributable to undistributed profits of relevant PRC established entities at a tax rate of 10% (2021: 10%).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

12. DIVIDENDS

No dividend was paid or proposed for shareholders of the Company during 2022 (2021: Nil), nor was any dividend been proposed by the Company since the end of the reporting period.

13. (LOSS) EARNINGS PER SHARE

The calculation of the basic (loss) earnings per share attributable to owners of the Company for both years is based on the following data:

	2022	2021
	HK\$'000	HK\$'000
(Loss) profit for the year attributable to owners of the Company for the purposes of basic (loss) earnings per share	(2,363)	721

15. INVESTMENT PROPERTIES

The Group leases out/intends to lease out various warehouses under operating leases with rentals payable monthly before 30 September 2022. The leases typically run for an initial period of one to two years, and the investment properties was vacant as at 31 December 2021 and up to the date of change in use by management.

The investment properties became an owner-occupied property since 30 September 2022. The changes in fair value of the property up to the date of change in use amounted HK\$116,000 was recognised in other gains and losses (Note 8) and the property's deemed cost for subsequent accounting is the fair value at the date of change in use, amounted HK\$19,680,000.

The Group is not exposed to foreign currency risk as a result of the lease arrangements, as all leases are denominated in the respective functional currencies of group entities. The lease contracts do not contain residual value guarantee and/or lessee's option to purchase the property at the end of lease term.

The investment properties are measured using the fair value model at the date of change in use at the end of the reporting period by reference to a valuation carried out on that date by Greater China Appraisal Limited ("Greater China Appraisal"), an independent qualified professional property valuer not connected to the Group.

In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The fair value of the Group's investment properties situated in the PRC at 30 September 2022 and 31 December 2021 carried out by Greater China Appraisal, were arrived at with adoption of the investment method by capitalising the rental income of the property derived from the existing tenancy (if any) with due allowance for the reversionary income potential of the property after expiry of the tenancy.

15. INVESTMENT PROPERTIES (Continued)

The following table gives information about how the fair values of the investment properties are determined (in particular, the valuation techniques and inputs used), as well as the fair value hierarchy into which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.

Carrying value of investment properties held by the Group in the consolidated statement of financial position	Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable input(s)	Relationship of unobservable inputs to fair value	Sensitivity
At 30 September 2022					
Commercial properties HK\$19,680,000 (a factory building and land thereof located at No. 18 North Suzhong Road, Baoying County, Yangzhou, Jiangsu Province, the PRC)	Level 3	Investment method based on the capitalisation rates and market rents of similar properties and adjust to reflect the conditions and locations of the subject properties.	The capitalisation rate of 6.0% for reversionary period taking into account of the capitalisation of rental income potential, rate of the property, prevailing market condition.	The higher the capitalisation rate, the lower the fair value.	If the capitalisation rate underlying the valuation model is 0.5% higher, while all other variables were held constant, the carrying amount of the properties would decrease by approximately HK\$70,000. If the capitalisation rate underlying the valuation model is 0.5% lower, while all other variables were held constant, the carrying amount of the properties would increase by approximately HK\$70,000.
		The key inputs are "market rents" and "capitalisation rate".	Market rent taking into account of time, location and individual factors such as size of property and facilities, of HK\$1,480,000 (equivalent to approximately RMB1,268,000) per annum.	The higher the market rent, the higher the fair value.	If the market rents underlying the valuation model is 0.5% higher, while all other variables were held constant, the carrying amount of the properties would increase by approximately HK\$105,000. If the market rents underlying the valuation model is 0.5% lower, while all other variables were held constant, the carrying amount of the properties would decrease by approximately HK\$105,000.

16. RIGHT-OF-USE ASSETS/LEASE LIABILITIES (Continued)

16a. Right-of-use assets (Continued)

The right-of-use assets are depreciated on a straight-line basis at 2% per annum for leasehold lands and over the lease terms for leased properties.

In addition, the Group owns several industrial buildings where its manufacturing facilities are primarily located and office buildings. The Group is the registered owner of these property interests, including the underlying leasehold lands. Lump sum payments were made upfront to acquire these property interests. The leasehold land components of these owned properties are presented separately only if the payments made can be allocated reliably.

Rent concessions

During the year ended 31 December 2022, lessors provided rent concessions that occurred as a direct consequence of COVID-19 pandemic according to the rent relief policy published by the government to the Group through rent reductions over six months.

These rent concessions occurred as a direct consequence of COVID-19 pandemic and met of all of the conditions in *HKFRS 16.46B*, and the Group applied the practical expedient not to assess whether the changes constitute lease modifications. The effects on changes in lease payments due to forgiveness or waiver by the lessors for the relevant leases of HK\$11,000 (2021: Nil) were recognised as negative variable lease payments.

18. TRADE AND OTHER RECEIVABLES (Continued)

The Group normally allows a credit period of three months to its trade customers. Before accepting any new customer, the Group will internally assess the credit quality of the potential customer and define appropriate credit limits.

At 1 January 2021, Trade-related Receivables from contracts with customers amounted to HK\$24,268,000.

The following is an aged analysis of trade receivables (net of allowance for credit losses) presented based on the invoice date at the end of the reporting periods.

	2022	2021
	HK\$'000	HK\$'000
0–90 days	6,542	4,047
91–365 days	959	4,191
1–2 years	1,712	3,108
	9,213	11,346

As at 31 December 2022, included in the Group's trade receivables balance are debtors with aggregate carrying amount of HK\$2,671,000 (2021: HK\$7,299,000) which are past due as at the reporting date. The past due balances are not considered as in default as the Group considered such balances could be recovered based on historical experience. The Group does not hold any collateral over these balances.

Retention money receivables refer to the sum retained by customers after the delivery and completion of the contracts (including construction contracts of casing and flavouring system and sales of pneumatic feeding system and other products) but before the expiry of the warranty period given by the Group, which in general, a period of one to two years and presented as current assets as the receivables are within the normal operating cycle. Included in retention money receivables with carrying amount of HK\$3,598,000 (2021: HK\$3,250,000) which is past due but not credit-impaired by considering the continuing business relationship with the debtors. The Group has not hold any collateral over these balances.

Details of impairment assessment of trade and other receivables are set out in Note 28(b).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Construction contracts of casing and flavouring system	68,304	70,490
Sales of other products	21,849	9,610
	90,153	80,100

The significant increase in contract liabilities in the current year was mainly due to the delayed delivery of construction contracts of casing and flavouring system and sales of other products, which caused by the limitation policy of COVID-19 for the year ended 31 December 2022.

As at 1 January 2021, contract liabilities amounted to HK\$48,955,000.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

21. CONTRACT LIABILITIES (Continued)

For the revenue recognised during the year ended 31 December 2022, HK\$30,617,000 and HK\$622,000 (2021: HK\$27,787,000 and HK\$9,404,000) were included in the contract liabilities balance at the beginning of the year for the construction contracts of casing and flavouring system and sales of other products, respectively. There is no revenue recognised during the year which related to performance obligation that has satisfied in prior periods.

The Group receives 10% to 30% of the contract value as deposits from customers when they sign the sale and purchase agreement, this will give rise to contract liabilities at the start of a contract. The deposits result in contract liabilities being recognised throughout the construction period until the performance obligation has been satisfied.

24. SHARE OPTION SCHEMES

(a) Share option scheme

Pursuant to a share option scheme approved by a written resolution passed by the shareholders of the Company on 20 October 2011 (the "Share Option Scheme"), the Company may grant options to eligible directors of the Company, eligible employees of the Group and other selected participants, for the recognition of their contributions, to subscribe for shares in the Company with a payment of HK\$10 upon each grant of options offered.

The exercise price of the share option will be determined at the highest of:

- (i) the closing price of the Company's shares on the Stock Exchange on the date of grant;
- (ii) the average of closing prices of the Company's shares on the Stock Exchange on the five trading days immediately preceding the date of grant of the option; and
- (iii) the nominal value of the Company's shares.

The share options are exercisable at any time during a period of not more than 10 years from the date of grant, subject to the terms and conditions of the Share Option Scheme, or any conditions stipulated by the board of directors.

The maximum number of shares in respect of which options may be granted shall not exceed 10% of the number of shares of Company in issue from time to time. Unless further shareholders' approval has been obtained pursuant to the conditions set out in the Share Option Scheme, no person shall be granted an option which, if all the options granted to the person (including both exercised and outstanding options) in any 12 month period up to the date of grant are exercised in full, would result in such person's maximum entitlement exceeding 1% of the number of issued shares of Company.

Up to the date of issuance of the consolidated financial statements, no options have been granted or agreed to be granted pursuant to the Share Option Scheme.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

24. SHARE OPTION SCHEMES (Continued)

(b) Pre-IPO share option scheme

The principal terms of the Pre-IPO share option scheme, approved by a written resolution of the shareholders of the Company dated 20 October 2011, are substantially the same as the terms of the Share Option Scheme except that:

- (i) the exercise price of the share option is 80% of HK\$1.20; and
- (ii) the option shall only be exercisable on or after 1 January 2013 and expire not later than 10 years from the date of grant.

During the years ended 31 December 2022 and 2021, no share options has been granted nor exercised and there is no outstanding share options of the Company as at 31 December 2022 and 2021.

25. RETIREMENT BENEFITS SCHEME

The Group participates in the MPF Scheme registered with the Mandatory Provident Fund Schemes Authority under the Mandatory Provident Fund Schemes Ordinance for all qualifying employees in Hong Kong. The assets of the scheme are held separately from those of the Group in funds under the control of trustee. The Group contributes 5% of relevant payroll costs with a cap of monthly contributions of HK\$1,500 for each employee to the MPF Scheme, which contribution is matched by employee.

The employees of the Group's PRC subsidiary are members of the state-managed retirement benefits scheme operated by the PRC government. The PRC subsidiary is required to contribute a certain percentage of its payroll cost to the retirement benefits scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefits scheme is to make the required contributions under the scheme.

The amounts incurred for retirement benefits scheme contributions are disclosed in Notes 9 and 10. According to the respective schemes, those contributions are not refundable nor forfeitable.

26. RELATED PARTY TRANSACTIONS

The Group has not entered into other transactions with related companies which are controlled by the directors and controlling shareholders of the Company.

Compensation of key management personnel

Details of the remuneration of key management personnel, which are the directors and five highest paid employees, during the year, were set out in Note 10.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

27. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure consists of equity attributable to owners of the Company, comprising issued share capital and reserves.

The directors of the Company reviews the capital structure on a regular basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital. Based on recommendations of the management, the Group will balance its overall capital structure through the payment of dividends and raising of new capital.

28. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies

The Group's major financial instruments include certain trade and other receivables, restricted bank deposits, cash and cash equivalents and certain trade and other payables.

Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and lease liabilities include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner. There has been no material change to the Group's exposure to market risks or the manner in which it manages and measures the risk from prior year.

Currency risk

A subsidiary of the Company has foreign currency bank balances against the functional currency of the relevant entity which expose the Group to foreign currency risk.

The carrying amounts of the foreign currencies (other than the functional currency) denominated monetary assets of the Group, representing cash and cash equivalents, at the end of reporting period are as follows:

	2022 HK\$'000	2021 HK\$'000
RMB	9,587	12,548
HK\$	1,379	3,816
United States dollars ("US\$")	101	101

The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The Group's sensitivity to a 5% increase in its functional currency against RMB and HK\$ will lead to a decrease in loss for the year of HK\$360,000 and HK\$52,000 (2021: increase in profit for the year of HK\$471,000 and HK\$143,000). For a 5% weakening of its functional currency against HK\$, there would be an equal but opposite impact on the profit/loss for the year. The management considers the Group's exposure for US\$ is not significant and no sensitivity analysis on US\$ is presented.

5% is the sensitivity rate represents management's assessment of the reasonably possible change in foreign exchange rate. The sensitivity analysis includes only outstanding foreign currency denominated monetary item and adjusts its translation at the year end for a 5% change in foreign currency rate.

In the management's opinion, the sensitivity analysis is unrepresentative for the foreign exchange risk as the exposure at the end of reporting period does not reflect the exposure during the year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2022

28. FINANCIAL INSTRUMENTS (Continued)

(b) Financial risk management objectives and policies (Continued)

Interest rate risk

The Group's bank balances have exposure to cash flow interest rate risk due to the fluctuation of the prevailing market interest rate on restricted bank deposits and bank balances (see Note 19 for details) at the end of the reporting period. The management considers the Group's exposure of the short-term bank deposits and balances to interest rate risk is not significant and no sensitivity analysis is presented.

Credit risk and impairment assessment

Credit risk refers to the risk the Group's counterparties default on their contractual obligations resulting in financial losses to the Group. The Group's credit risk is primarily attributable to Trade-related Receivables, other receivables, restricted bank deposits and bank balances. The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

Trade-related Receivables arising from contracts with customers

Before accepting any new customer, the Group will internally assess the credit quality of the potential customer and define appropriate credit limits. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

At 31 December 2022, the Group has concentration of credit risk as 26% and 65% (2021: 16% and 61%) of the aggregated amount of Trade-related Receivables was due from the Group's largest customer and five largest customers respectively, which operate in the tobacco industry in the PRC. In order to minimise the credit risk, management continuously monitors the level of exposure to ensure that follow-up actions and/or corrective actions are taken promptly to lower the risk exposure or to recover overdue balances. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group had concentration of credit risk by geographical location as Trade-related Receivables comprise various debtors which are all located in the PRC during the years ended 31 December 2022 and 2021.

In addition, the Group performs impairment assessment under ECL model on trade related balances collectively. The reversal of impairment loss recognised on Trade-related Receivables (net) amounted to HK\$42,000 was recognised during the year ended 31 December 2022 (2021: impairment loss HK\$160,000). Details of the quantitative disclosures are set out below in this note.

(b) Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment (Continued)

Restricted bank deposits/bank balances

Credit risk on restricted bank deposits/bank balances is limited because the counterparties are reputable banks with high credit ratings assigned by international credit agencies. The Group assessed 12m ECL for restricted bank deposits/bank balances by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. Based on the average loss rates, the 12m ECL on restricted bank deposits/bank balances is considered to be insignificant and thus no loss allowance was recognised.

Other receivables

For other receivables, the directors of the Company assessed the ECL individually based on internal credit rating which, in the opinion of the directors of the Company, have no significant increase in credit risk since initial recognition. ECL is estimated based on historical observed default rates over the expected life of debtors and forward looking information that is available without undue cost or effort. The directors of the Company believe that there are no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12m ECL. For the years ended 31 December 2022 and 2021, the Group assessed the ECL for other receivables and deposits were insignificant and thus no loss allowance was recognised.

The Group's internal credit risk grading assessment comprises the following categories:

Internal credit rating	Description	Trade-related Receivables	Other financial assets/other items
Low risk	The counterparty controlled by a large state-owned enterprise with good credit standing, have very strong solvency and has a low risk of default.	Lifetime ECL – not credit-impaired	12m ECL
Watch list	Debtor has strong solvency and may repay after due but usually settle in full.	Lifetime ECL – not credit-impaired	12m ECL
Doubtful	Debtor has poor solvency with long aging, and have a high risk of default.	Lifetime ECL – not credit-impaired	Lifetime ECL – not credit-impaired
Loss	There is evidence indicating the asset is credit-impaired and the Group has no realistic prospect of recovery.	Lifetime ECL – credit-impaired	Lifetime ECL – credit-impaired

As part of the Group's credit risk management, the Group applies internal credit rating for its customers in relation to its tobacco machinery manufacturing operation. The following table provides information about the exposure to credit risk for Trade-related receivables which are assessed on a collective basis within lifetime ECL.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuation in cash flows.

The following table details the Group's remaining contractual maturity for its financial liabilities and lease liabilities based on the agreed repayment terms. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table represented both principal and interest cash flows, where applicable.

(c) Fair value measurements of financial instruments

Fair value of the Group's financial assets and financial liabilities that are not measured at fair value on recurring basis

The fair values of financial assets and financial liabilities are determined in accordance with general accepted pricing models based on discounted cash flow analysis.

The management considers that the carrying amounts of financial assets and financial liabilities recognised in the consolidated financial statements approximate their fair values.
